No. 19PITP216	Title/Description DANVILLE PITP 2019	Cost	Budget	Dollars	Percent	Budget	Cost	Cost	Dollars	Start	End	Start	End Explanations Year Budget is developed at a higher level on project 123136 to encompass multiple. 2019	
199119216	DANVILLE PITF 2019												Budget is developed at a higher level on project 123136 to encompass multiple 2019 projects and reallocated to individual pole Inspection projects. These projects for 2019 are: 19PTP216, 19PTP156, 19PTP246, 19PTP2151, 19PTP246, 19PTP266, 19PTP766, 19PTP4760, and 19PTP236. The net variance between the budget for 123136 and the other KU projects is (\$2,613K). In total between LG&E and KU, the net variance to budget was (\$1,800K). The cost per pole was higher than budgeted and can be attributed to many factors including the overhead contrast increase, location of the poles, and amount of tree trimming and traffic control required.

### Kentucky Utilities Company Case No. 2020-00349 Calculation of Capital Construction Project Slippage Factor -Non-Mechanism Construction Projects

Schedule 27b(1)

Source: Schedule 27a - Construction Projects

Years	Base Rate Capital Actual Cost	<b>Base Rate Capital Budget Cost</b>	Variance in Dollars	Variance as a percent	<b>Slippage Factor</b>
2019	442,276,689	436,270,708	6,005,981	1.377%	101.377%
2018*	365,743,710	360,095,886	5,647,825	1.568%	101.568%
2017	331,452,600	353,148,308	(21,695,708)	-6.144%	93.856%
2016	257,316,496	247,479,708	9,836,788	3.975%	103.975%
2015	240,247,704	254,705,926	(14,458,222)	-5.676%	94.324%
Totals	1,637,037,198	1,651,700,535	(14,663,338)	-0.888%	99.112%

### 5 Year Average Slippage Factor (Mathematic Average of the Yearly Slippage Factors / Years)

99.020%

The Base Rate Capital Actual Cost is the Annual Actual Cost per Schedule 27(a)Non-Mechanism Construction Projects . The Base Rate Capital Budget Cost is the Annual Original Budget per Schedule 27(a)Non-Mechanism Construction Projects .

The Slippage Factor is calculated by dividing the Base Rate Capital Actual Cost by the Base Rate Capital Budget Cost. Calculate a Slippage Factor for each year and the Totals line. Carry Slippage Factor percentages to 3 decimal places

\*2018 - Removed the budgeted amount related to Advanced Metering Systems as this was denied by Kentucky Public Service Commission in 2018.

Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 27(b) 1 of 2 Blake/Bellar

The Mechanism Capital Actual Total, Mechanism Capital Budget Total, Variance in Dollars, and Variance as Percent are to be taken from Schedule 13a Mechanism Construction Projects. Total all projects for a given year.

The Slippage Factor is calculated by dividing the Mechanism Capital Actual Total by the Mechanism Capital Budget Total. Calculate a Slippage Factor for each year and the Totals line. Carry Slippage Factor percentages to 3 decimal places.

### **KENTUCKY UTILITIES COMPANY**

## Response to Commission Staff's First Request for Information Dated November 24, 2020

### Case No. 2020-00349

### **Question No. 28**

### **Responding Witness: Daniel K. Arbough**

- Q-28. Describe in detail how the base period capitalization rate was determined. If different rates were used for specific expenses (i.e., payroll, clearing accounts, depreciation, etc.), indicate the rate and how it was determined. Indicate all proposed changes to the capitalization rate and how the changes were determined.
- A-28. There is no predetermined capitalization rate. Employees charge their labor to either expense or capital based on activity performed. The clearing account overheads are distributed between capital and operating expense based on the labor charged. Non-labor costs are charged to capital or operating expense based on the type of activity (i.e., in support of a capital project or normal operating expenses).

### **KENTUCKY UTILITIES COMPANY**

## Response to Commission Staff's First Request for Information Dated November 24, 2020

### Case No. 2020-00349

### Question No. 29

### **Responding Witness: Christopher M. Garrett**

- Q-29. Provide a calculation of the rate or rates used to capitalize interest during construction for the three most recent calendar years. Explain each component entering into the calculation of the rate(s).
- A-29. Kentucky Utilities Company does not capitalize interest on assets subject to the jurisdiction of the Kentucky Public Service Commission for book accounting purposes.

### **KENTUCKY UTILITIES COMPANY**

## Response to Commission Staff's First Request for Information Dated November 24, 2020

### Case No. 2020-00349

### Question No. 30

### **Responding Witness: Christopher M. Garrett**

- Q-30. State whether any changes have been made to the utility's internal accounting manuals, directives, and policies and procedures since the utility's most recent rate case. If so, provide each item that was changed and identify the changes.
- A-30. See attached for a listing of accounting policies that have been updated including a description of the changes made since the previous rate case. A copy of the associated accounting policies that have been updated is also provided.

Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 1 of 354 Kentucky Utilities Garrett

### Case No. 2020-00349

Internal Accounting Policy Index

Policy #	Policy	Description of the Change
250	Balance Sheet Account Reconciliation	Updated to reflect new remote accounting close requirements.
251	Journal Entries	Updated to reflect new remote accounting close requirements.
251	Journal Entries Policy Appendix A	
354	Materiality Policy	Updated to reflect changes in materiality levels and qualitative measures.
354	Materiality Policy-Appendix A- Error Assessment Memo	
357	Asset Liability Classification	Update of the definition for current assets and liabilities per the Master Glossary of the Accounting Standards Codification.
450	Derivatives and Hedging	Effective January 1, 2019, the Companies adopted accounting guidance (ASU 2017-12) which reduces complexity when applying hedge accounting as well as improves the transparency of an entity's risk management activities. This had no impact on the Companies.
451	Contractual Review	Update in the scope of contracts to be reviewed.
452	Goodwill	Effective January 1, 2020, the Companies adopted accounting guidance (ASU 2017-04) that simplifies the test for goodwill impairment by eliminating the second step of the quantitative test.
454	Leases	Effective January 1, 2019, the Companies adopted accounting guidance (ASC 842) that requires lessees to recognize a right-of-use asset and liability for leases, unless determined to meet the definition of a short-term lease.
456	Pension and Postretirement Plans	Update to reflect US GAAP requirements for settlement accounting.
650	Capital-Additions and Retirements Policy and Procedures	Discussion added to reflect PowerPlan workflow approval settings and the AIP checklist process.
651	Capital-AFUDC Policy and Procedures	Updates to reflect the 2019 AFUDC debt and equity rate calculations and the addition of language (including an example) of the semi-annual compounding calculation.
651	Capital-AFUDC Policy and Procedures Appendix A	
652	Capital-Asset Retirement Obligations Policy and Procedures	Update to reflect journal entries recorded for ARO settlements.
654	Asset Impairment	Update to the wording to reflect a change in internal control procedures performed.
655	Capital-Hardware and Software Capitalization	Effective January 1, 2020, the Companies adopted accounting guidance (ASU 2018-15) that requires a customer in a cloud computing hosting arrangement that is a service contract to capitalize implementation costs consistent with internal-use software guidance for non-service arrangements.
656	Capitalized Property Taxes	Updates to the wording to reflect the exclusion of reimbursable projects.
658	Joint Ownership-Use Assets	Updates to reflect the addition of new jointly-owned facilities.
658	Appendix A LKE Allocation	
660	Contract Retainage	Wording updates to: align the materiality threshold with the Accrual policy and requirement for contracts to separately track retainage amounts on invoices.
750	Oracle Burdening Process	Update to clarify the wording to describe the burden warehouse clearing calculation.
850	Inventory Management	Updates to clarify the types of purchased materials subject to the warehouse (stores) burden and inclusion of sales tax on inventory and purchased materials in the stores account.

# Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 2 of 354

		1 age 2 01 334
950	Spreadsheet Policy	Garrett Updates to ensure consistency with PPL Corporate policy including clarification of required vs. recommended controls.
953	Reserve for Bad Debts Policy	Effective January 1, 2020, the Companies adopted accounting guidance (ASC 326) that requires the use of a current expected credit loss (CECL) model for the measurement of credit losses on financial instruments, which includes accounts receivable. The CECL model requires an entity to measure credit losses using historical information, current information and reasonable and supportable forecasts of future events, rather than the incurred loss impairment model required under previous GAAP. Additionally, the Companies changed from an income statement approach to a balance sheet approach for calculating its bad debt reserve to align with PPL EU's methodology.
954	Coal Inventory Valuation	Update to clarify the wording used to describe the daily burn and inventory balance calculation.
959	Escheatment	Updates for Illinois filing requirements.
966	Intracompany Interest	Update to clarify the interest rate used for money pool borrowings.
971	Sundry Billing Policy	Update to streamline the policy by moving the procedures for the various sundry billing items into an appendix.
1055	Regulatory Assets and Liabilities Accounting Policy	Update to remove the reference to LG&E and KU Services Company.
1055	Regulatory Assets and Liabilities Accounting Policy Appendix A	
1058	Variable Interest Entities	Update to streamline the policy to reflect the annual review performed and documented via a memo to reassess the primary beneficiary for identified VIEs.
1059	Unbilled Revenues	Update to reflect the change made to the unbilled revenue calculation. The allocation of unbilled volumes to the various revenue classes no longer considers a weather adjustment for industrial customers.
1060	Regulatory Compliance	Wording updates for the following: remove the reference to the Tennessee PUC; addition of new meal expenditure types, and requirement for employee recognition expenses to be charged below-the-line.
1061	Green Energy Renewable Energy Certificates	Update to reflect the inclusion of Virginia customers as a result of the Order received in PUR 2019-00060.
	Remote Accounting Close Requirements	New policy established in 2020 to address changes brought about by the COVID-19 pandemic.

## (Note: Text in italics indicates a key SOX control.)

**Policy:** All LG&E and KU Energy LLC ("LKE" or the "Company") (including its subsidiaries) balance sheet accounts will be reconciled and reviewed at least quarterly.

**Procedure:** The balance sheet reconciliation procedure is performed per the detailed instructions below.

**Scope:** All Company balance sheet accounts (referenced as simply "accounts" in the remainder of this policy), other than accounts belonging to Oracle consolidation companies since they have mitigating controls (see cycle/transaction 80.07 Control Activity 2 in the Sarbanes-Oxley Compliance documentation) and since Hyperion Financial Management is the system of record for consolidation.

**Objective of Procedure:** The objective of reconciling balance sheet accounts is to detect any misclassifications or omissions made through journal entries or integrated systems within the balance sheet accounts and to ensure completeness and accuracy of the accounts. The procedure assists the accountants in identifying and investigating unusual items in the accounts. Assignment of accounts to be reconciled to specific accountants is made consistent with appropriate segregation of duties.

## **General Requirements:**

## Detailed Procedures Performed:

- 1. See the 354 Materiality Policy for determining quantitative and qualitative measures for purposes of this policy.
- 2. All accounts<sup>1</sup> must be reviewed for reconciliation procedures:
  - All open accounts must be assigned on the account control listing to a department to ensure that reconciliations are performed or that accounts are open only because other companies need them. (If an account is open for one Oracle company, it must be open for all Oracle companies. In order to detect a coding error, open accounts that should have a zero balance must be verified.)
  - All closed accounts must be either analyzed or contain a zero balance. (Accounts in Oracle can be closed even if they have a balance. Closed accounts can be reopened, if necessary, to continue processing of other systems (e.g., PeopleSoft) where projects have been charged using a closed account in order to prevent delays during monthly closings.) Closed accounts requiring analysis will be included on the balance sheet reconciliation checklist.
  - An account-level trial balance must be run monthly by Corporate Accounting to determine the completeness of the account control listing. (See cycle/transaction 080.05 Control Activity 9 in the Sarbanes-Oxley Compliance documentation.) If the books are reopened

<sup>&</sup>lt;sup>1</sup> Please note an exception exists for account activity and balances associated with the consolidation elimination companies and FERC reversal companies. Management has determined that these company-account combinations do not need to be reconciled and do not have assigned risks or department owners.

## (Note: Text in italics indicates a key SOX control.)

after the control listing has been prepared, the balances in the control listing must be updated and the control listing re-balanced to ensure that it nets to zero when including the current year net income.

3. Periodically (annually at a minimum) all accounts meeting the criteria above will be reviewed to determine their risk ranking. The manager of the department assigned to each account will review the previous rankings and determine if they need to be changed. Both quantitative and qualitative factors will be used to determine an overall risk ranking to be applied to the account, as follows:

	High Risk	Medium Risk*	Low Risk
Material balance	Yes	Yes or No	No
Material activity	Yes	Yes or No	No
Material qualitative	Yes	Yes or No	No
factor			

\*Any combination including both Yes's and No's is Medium Risk.

A material balance is defined as having greater absolute value than the threshold per the 354 – Materiality Policy identifying High-Risk or complex journal entries and key SOX controls, which is 1.75% of full year pretax income from LG&E, KU or LKE, from the current year budget/forecast as stated in the waived adjustment file for the most recent quarter ended at the time of the risk assessment. This materiality threshold will be stated in the risk assessment file and used to calculate risk level.

**Material activity** is defined as having average annual debits or average annual credits which are greater than the materiality threshold as defined above. The average annual debits and credits are calculated using the totals of the most recent twelve months' transactions as of the month used for the risk assessment, divided by  $12^2$ .

**Material qualitative factor** is defined as the calculated average of the seven qualitative factors listed in the 354 – Materiality Policy (not including the "risk level of the account involved"), as ranked from 1 to 3, where the average is >2.5.

Managers may override the risks to a lower level than determined per the table above at their discretion, but must document the justification for their override in the risk assessment file. Overrides of High Risk must be approved via e-mail by the Director, Accounting and Regulatory Reporting or the Controller. Documentation of such approval must be retained in

 $<sup>^{2}</sup>$  In the case of new accounts that have existed for less than twelve months, the average will be calculated based on the number of months the account has existed.

## (Note: Text in italics indicates a key SOX control.)

the folder where the risk assessment file is saved. Approval is required only when the initial override occurs and will be carried forward in subsequent updates to the file.

- 4. When new accounts are requested, an Account Segment Change Request Form is prepared. One section of that form is the qualitative risks (for balance sheet reconciliation ranking). New accounts are required to be ranked on a low, medium, high scale for seven criteria and an eighth segment asks if the account should be given a qualitative risk ranking of 3 (high) regardless of the responses to the seven preceding questions. These rankings are then entered into a master file detailing the rankings of all accounts by an Accounting Analyst in Corporate Accounting and the risk as determined is entered into Oracle by the Senior Accounting Systems Support Analyst.
- 5. Changes in financial statement classification for existing accounts also require an Account Segment Change Request Form. The risk section of the form must be completed for these changes. These rankings are then entered into a master file detailing the rankings of all accounts by an Accounting Analyst in Corporate Accounting and the risk as determined is entered into Oracle by the Senior Accounting Systems Support Analyst.
- 6. Subsequent to the risk assessment, managers may become aware of significant changes in the usage, activity and/or balance of an account which may indicate a change needed to the risk level. The manager should submit any needed changes in risk via e-mail to the Senior Accounting Systems Support Analyst who will make the changes in Oracle.
- 7. Managers must notify the reconciliation preparers of any change in risk.
- 8. A centralized control listing of all open balance sheet accounts will be created monthly by an Accounting Analyst in Corporate Accounting and saved to the shared drive <u>fs1\acctpolicies\Account Recs Procedures</u>. The Accounting Analyst will compare the total row count from all individual tabs against the total rows generated in the trial balance above to ensure completeness. The listing will contain (at a minimum) the account number, the account description, the current month balance, the department name, the reviewer's initials and date reviewed, the U.S. GAAP financial statement line item and the FERC (Utility) financial statement line item. Optional columns for the preparer's initials and date prepared will also be included. This listing will identify accounts according to their risk, per Item 3 above:
  - High These accounts must be reconciled before noon on the 7<sup>th</sup> work day. Reviews must be completed by noon on the 7<sup>th</sup> work day of each month following the quarter end and by the 9<sup>th</sup> work day of each month following non-quarterend months.
  - Medium These accounts must be reconciled and the reconciliation reviewed by the 14th work day of each month following the quarter end and by the last working day following non-quarter-end months.

## (Note: Text in italics indicates a key SOX control.)

• Low – These accounts must be reconciled and the reconciliation reviewed at least quarterly by the end of the month following the quarter end, or by one working day prior to the issue date of the 10-Q or 10-K, whichever is sooner, except for bank reconciliations which must be reconciled and reviewed monthly per the Cash Reconciliation Policy. Low risk accounts will be marked with "N/A" in the non-quarter-end months. However, if a preparer wishes to prepare them on a non-quarter, the "N/A" can be overridden.

(See cycle/transaction 080.05 Control Activity 9 in the Sarbanes-Oxley Compliance documentation.)

For zero-balance accounts (other than ZBA bank accounts), a reconciliation does not have to be prepared separately, but only require a reviewer's sign-off on the checklist to confirm that the balance is zero and should be zero, quarterly. (See cycle/transaction 080.05 Control Activity 9 in the Sarbanes-Oxley Compliance documentation.)

All account reconciliations, including the process for zero-balance accounts, must be completed and reviewed by the end of the month following the quarter-end, or by one working day prior to the issue date of the 10-Q or 10-K, whichever is sooner. *The checklist is reviewed monthly for completeness, with resolution of any open items needed to complete the checklist by the last business day of each month, or by one working day prior to the issue date of the 10-Q or 10-K, whichever is sooner. (See cycle/transaction 080.05 Control Activity 9 in the Sarbanes-Oxley Compliance documentation.)* 

- 9. The Accounting Analyst or Associate responsible for the reconciliation will review the monthly transactions in each active balance sheet account and prepare a reconciliation of the account. Reconciling items must be evaluated and resolved in a timely manner.
- 10. Reconciliations will be maintained electronically in pdf format and saved at the following file path: fs1\acctpolicies\Account Recs Procedures\Balance Sheet Remote Process-[YYYY]\[Dept]\[PYYY-MM]\. Reconciliations must contain the following elements, at a minimum. (Alternative formats may be appropriate, but these elements must still be contained on each reconciliation): (See cycle/transaction 080.05 Control Activity 9 in the Sarbanes-Oxley Compliance documentation.)
  - *The company name;*
  - *The month;*
  - The general ledger account name;
  - The general ledger account number;
  - A brief description of the account and its use;
  - The ending balance per the general ledger,
  - *Support of the general ledger balance*. The best, most independent source should be used:

## (Note: Text in italics indicates a key SOX control.)

- i. Examples include subsidiary ledgers, bank statements, support prepared by other departments, source documentation from other systems, invoices, contracts, or rate orders; or
- ii. In cases where the balance cannot be tied to a specific source, evidence of analysis of what makes up the account balance, ensuring that the transactions in the account appear to be reasonable.
- Electronic evidence which is used to calculate, develop or support the amounts in the SEC financial statements, including disclosures and Management's Discussion and Analysis, must be provided to document the following:
  - Verification of query parameters for reports run from an IT system to document time periods, accounts, business unit, etc. used as parameters;
  - Tie out to an independent source, when available and appropriate;
  - Tie out to a general ledger balance, when available and appropriate; and/or
  - Changes made to source data downloaded from an IT system.
    - When multiple queries are exported to a spreadsheet, each query, in its original form, must be included on a tab in the spreadsheet and a lead sheet must be used to perform relevant calculations from those tabs.
    - See also PPL's guidance regarding Electronic Evidence Requirements.
- Evidence of reconciliation of the ending balance per the general ledger to the supporting documentation. The preparer must also agree the ending balance per the general ledger to the balance on the control listing. *The reconciling items, individually listed*, including a detailed explanation of the item, whether the item is the result of an error (errors must be evaluated based on the 354 Materiality Policy), a status update of the last action taken and the date the item is expected to be resolved;
- The source of all amounts presented on the reconciliation;
- Column headings and line item descriptions for all data presented;
- The file path and file name;
- The preparer's name and date prepared; and
- The reviewer's name and date reviewed. (The reviewer will generally be the responsible manager or a delegate assigned by the manager). The reviewer's name indicates that the balance sheet reconciliation was completed according to the requirements listed above and that the balance on the reconciliation ties to the control listing.

## (Note: Text in italics indicates a key SOX control.)

- An account overview describing how the account is used, a description of the activity recorded in the account and documentation of any triggering event that would cause an unusual adjustment to the account.
- Documentation that analysis of unusual activity and subledger data, if applicable, has been performed.
- *Performance of trend analysis, if appropriate,* with fluctuations documented at least quarterly if there is a significant change in the account balance versus the expected balance. Thresholds should be determined based on the preparer's and reviewer's knowledge of the account activity. The EiS report "LKE High Risk BS Trending" may be used for this purpose.
- *Re-performance and documentation of critical calculations, if appropriate,* from spreadsheets without spreadsheet controls<sup>3</sup> used in the reconciliation. The rationale for calculations selected for testing must be documented.
- Evidence of annual confirmation that support provided by a line of business has been vetted with appropriate personnel from the line of business and that its accounting use has been explained to them.
  - Note: The accounting impact to ratemaking mechanisms is covered by other controls (e.g., the 3 month review of the Gas Supply Clause, the 6 month review of the Fuel Adjustment Clause, the 6 month and 2 year reviews of the Environmental Cost Recovery mechanism, the annual review of the Gas Line Tracker and Demand Side Management mechanism and the transmission rates from the municipal formula-based rate calculations)

NOTE: Electronic evidence is defined as reports, queries, spreadsheets, e-mails or other data generated by an IT application, reporting database or End User Computing Tool (EUCT) that is used in the performance of internal controls over financial reporting that are in the scope of the company's Sarbanes-Oxley assessment. EUCTs are applications that usually reside on an end user's desktop, and therefore are not traditionally subject to rigorous application and general computer controls. Microsoft Excel spreadsheets and Access databases are examples of common EUCTs.

- 11. A manager or a delegate assigned by the manager will evaluate all unreconciled items or reconciling errors monthly to determine whether further action should be taken. Reconciling items may be written off at the manager's discretion. Reconciling items requiring write off are to be appropriately documented and are subject to review and approval consistent with the limits contained in the Authority Limit Matrices.
- 12. *The preparer and reviewer must have requisite knowledge of the account* to ensure the balance is appropriate and reasonable, is properly classified, including either short-term or long-term,

 $<sup>^{3}</sup>$  See the 950 – Spreadsheet Policy for more information on spreadsheet controls.

## (Note: Text in italics indicates a key SOX control.)

on the Balance Sheet, and is presented in accordance with GAAP, SEC and FERC and other regulatory guidance, as applicable. The reviewer must be an Analyst level or above.

- 13. Each calendar year, approximately mid-year, Corporate Accounting will perform the following process to affirm review of and compliance with the policies around journal entries and account reconciliations by all individuals who prepare such.
  - Corporate Accounting will contact HR to obtain from PeopleSoft a list of the current employees of the departments that prepare or review journal entries and account reconciliations.
  - Based on that list, Corporate Accounting will send to the members of those departments an email with a requested response date and voting buttons. The voting options will state:
    - I confirm that I have read and understand the 251 Journal Entries Policy and the 250 – Balance Sheet Account Reconciliation Policy. I am in compliance with those policies and with the related SOX controls.
    - I have no duties related to the preparation or review of journal entries or account reconciliations.
  - Corporate Accounting will follow up with any members of those departments who do not respond.
  - Corporate Accounting will document and retain the responses in a checklist based on the initial PeopleSoft list.

Reports Generated and Recipients:

- Balance sheet reconciliations.
- Balance sheet reconciliation control listing on  $fs1\acctpolicies\Account Recs Procedures$
- <u>EiS report "LKE High Risk BS Trending</u>"
- All reconciliation Excel preparation files are stored on a shared drive accessible by all members of a given department. Reconciliation pdf files with support are stored on fs1\acctpolicies\Account Recs Procedures\Balance Sheet Remote Process-[YYYY]\[Dept]\[YYY-MM]\.

Additional Controls or Responsibility Provided by Other Procedures: Remote Accounting Close Requirements

Regulatory Requirements: None

## Administrative Responsibility:

Controller Director, Accounting and Regulatory Reporting

Date created: 9/30/04 Dates revised: 10/29/04, 8/19/05, 12/02/05, 6/16/06, 4/8/09, 9/1/09, 4/20/11, 8/5/11, 3/4/13, 11/12/13, 12/17/13, 7/16/14, 8/27/14, 3/17/15, 3/11/16, 6/16/17, 6/30/19, 9/1/20

# (Note: Text in italics indicates a key SOX control.)

**Policy:** Manual and recurring journal entries are necessary to record transactions which are not included in the Oracle General Ledger via an automated interface, to record non-customer related transactions in the Customer Care Solution ("CCS"), and to record consolidation entries in the Hyperion Financial Management (HFM) system in order to complete the financial statements.

**Procedure:** Journal entries are prepared, entered and posted in Oracle, CCS and HFM by authorized personnel per the detailed instructions below.

**Scope:** Includes journal entries for companies on Oracle either uploaded via Application Desktop Integrator ("ADI") (with a source of Spreadsheet) or entered directly into Oracle (with a source of Manual or Recurring), manual journal entries for companies on CCS and manual journal entries entered into HFM. Excludes automated journal entries created by interfaces, Oracle mass allocations and Oracle project allocations.

Objective of Procedure: Journal entries must be authorized, accurate, timely and complete.

### **General Requirements**

### Detailed Procedures Performed:

Two all-inclusive checklists are maintained by Corporate Accounting on a shared drive accessible to all departments. The "MMYY JE Checklist Standard.xlsx" file contains one tab each for standard Oracle journal entries (routine monthly entries), CCS standard entries (LG&E & KU only) and HFM entries. The "MMYY JE Checklist Non Standard.xlsx" file contains a non-standard journal entry tab (ad hoc, non-routine entries). The two checklists include the journal entry number, general description, the initials of the persons who prepared and approved the entry, the date posted, and optional comments. If a standard entry does not need to be completed for a certain month, this fact is indicated by "N/A". Also, recurring entries require approval initials only at initial set up or modification. Otherwise, the approval is marked as 'N/A'

Supporting documents needed to prepare journal entries are sent to or compiled by the department responsible for the entries. *Electronic evidence which is used to calculate, develop or support the amounts in the SEC financial statements, including disclosures and Management's Discussion and Analysis, must be provided to document the following:* 

- Verification of query parameters for reports run from an IT system to document time periods, accounts, business unit, etc. used as parameters;
- *Tie out to an independent source, when available and appropriate;*
- *Tie out to a general ledger balance, when available and appropriate; and/or*

# (Note: Text in italics indicates a key SOX control.)

• Changes made to source data downloaded from an IT system. (See cycle/transaction 080.05, Control Activity 1 in the Sarbanes Oxley Compliance documentation.)

When multiple queries are exported to a spreadsheet, each query, in its original form, must be included on a tab in the spreadsheet and a lead sheet must be used to perform relevant calculations from those tabs.

Electronic evidence is defined as reports, queries, spreadsheets, e-mails or other data generated by an IT application, reporting database or End User Computing Tool (EUCT) that is used in the performance of internal controls over financial reporting that are in the scope of the company's Sarbanes-Oxley assessment. EUCTs are applications that usually reside on an end user's desktop, and therefore are not traditionally subject to rigorous application and general computer controls. Microsoft Excel spreadsheets and Access databases are examples of common EUCTs.

See also PPL's guidance regarding Electronic Evidence Requirements.

If the journal supporting documents contain confidential information, the documents will be maintained in the originating department and a footnote indicating the location of the documents will be contained on the lower left side of the journal.

### **Oracle Journal Entries:**

# **Oracle ADI Journal Entries**

Oracle manual journal entries are prepared using an ADI template spreadsheet unless the journal entry needs to be keyed directly into Oracle as an exception, as discussed below. The ADI template is a standard form which may not be changed without approval from the Manager, Corporate Accounting and the Senior Oracle Business Support Analyst. All journal entries must include a description of the transaction and/or the reason for the journal entry.

The ADI spreadsheet should contain the elements listed in Appendix A.

ADI journal entries are saved as a pdf file to the following file path: <u>\\fs1\acctpolicies\Journal</u> Entry Procedures\Journal Entries Remote Process-[YYYY]\[Dept]\ [MMYY]\ and all supporting documentation must be appended, such that a knowledgeable third party could understand the journal entry. If the supporting documentation is too voluminous to be attached or confidential, the entry shall state where the detailed information is maintained.

The ADI journal entry Excel templates are then uploaded into Oracle. Validation occurs at two stages. The first stage is based on General Ledger validation and prevents the journal entry from being uploaded to the interface table until all corrections are made to the ADI template. General Ledger validation includes the following: The category, source, currency, reversal period, and

# (Note: Text in italics indicates a key SOX control.)

each account segment value are compared against tables containing valid and enabled lists of values. The accounting date is checked to ensure that it falls within an open period. Cross-validation rules control which account segment values can be used together. If the journal entry does not balance, a warning is given to the user who must correct the entry to be in balance. An unbalanced entry cannot be uploaded to Oracle.

The second stage of journal entry validation occurs against set-up values within the Project Accounting system and occurs after the ADI journal entry is uploaded to the interface table. The system checks to ensure that the specified project and task numbers exist and are not closed. Also, the system compares the account segment values set up on the projects and tasks to the General Ledger account number on the same journal entry line to ensure that they match. In addition, certain accounts require a project and task and the system verifies that a project and task are entered for all journal entry lines containing the project-required accounts. Errors in this stage of the validation result in yellow warnings.

The person uploading the journal entry reviews the upload error report and if there are yellow warning errors, must query all journal entries under his user id and delete them from the interface table before correcting the errors and re-uploading. Therefore, it is recommended that only one journal entry be uploaded at a time with a review of the error report for each one before uploading the next one.

An additional validation occurs to ensure that intercompany lines on the journal entry are in balance by company and by intercompany segment, and that the expenditure orgs on these lines belong to the affiliate listed in the intercompany segment. Errors in this stage of the validation result in red warnings which automatically clear from the interface table.

After the ADI journal entry is uploaded with no errors, the Concurrent ID number of the upload job is documented on the appropriate line of the journal entry. The journal entry is then available for posting. The person selects the journal entries to be posted in Oracle, submits the posting job, and views the job on the Concurrent Requests screen. If the job does not complete successfully, the person who uploaded the journal entry views the job output report, corrects the errors, resubmits the posting job and checks the job output report again. When there are no errors, the Concurrent ID number of the posting job is documented on the appropriate line of the journal entry.

On occasion, in order to correct errors, certain journal entries may need to be booked which override the validation between the General Ledger and the Project Accounting system. These entries are always non-standard entries and are therefore always reviewed and approved.

Managers are not to be the direct preparer of journal entries or journal entry support, except as authorized by their respective senior manager or officer.

## (Note: Text in italics indicates a key SOX control.)

### **Reversals of ADI Journal Entries**

ADI journal entries uploaded into Oracle may be reversed in Oracle by clicking the Reverse button on the journal entry, or they may be auto-reversed as a batch if they have been uploaded as Reversing with the Reversal Period specified. Entries posted in Oracle can be reversed in the current or the next accounting period. Entries should be reversed in Oracle instead of by preparing a new manual reversing entry. Reversals of journal entries should be noted on the journal entry form by adding the following information to the footer section of the original copy of posted journal entry:

- Reversal Upload/Concurrent ID: The Concurrent ID number for the journal entry reversal job in Oracle must be written here when the reversal is successful.
- Posted By: The person posting the auto-reversal
- Date: The date the auto-reversal was posted
- Reversal Posted/Concurrent ID: The Concurrent ID number for the Oracle posting job (on the reversal) is written here after the job report is checked on-line to ensure that there are no posting errors.

In some cases, the original copy of the posted journal entry may have already been uploaded into Quest. This most likely occurs when an entry has been posted in one period and is being reversed in a subsequent period and it was not known at the time of the posting of the original entry that it would be subsequently reversed. In these cases, a copy of the original entry pdf file should be saved in the Journal Entry Remote Process current month folder on the acctpolicies drive, with the information listed above appended to the copy of the entry. Also, the reversing entry should be separately logged on the checklist in a separate Reversal section at the bottom as "Reversal of [original journal entry number] and uploaded into Quest.

### **Out of Period Adjustments and Reclassifications**

Out-of-period adjustments are entries which pertain to and should have been booked in a different month. These adjustments may include reclassifications or other entries, including system entries which are out of scope for this policy. Preferably, these entries should be booked as separate non-standard ADI journal entries using the "Prior Period Adjustment" journal category with the amounts and months they relate to clearly identified in the journal lines. In some situations, it may not be practical to separate an out-of-period adjustment component from a standard entry. In these situations, the out-of- period component along with the month(s) to which it pertains must be provided to the Regulatory Accounting and Reporting Department if LG&E or KU are affected. (Note that entries booked to an LKS allocable project will likely affect LG&E and KU when the charges are allocated.)

# (Note: Text in italics indicates a key SOX control.)

Reclassifications which are non-routine and non-recurring must not be added to a standard journal entry, but instead must be booked using a non-standard journal entry. The Manager, Financial Reporting must be notified of any significant reclassifications between financial statement line items which affect prior reporting periods if no update to the waived adjustments file is required.

The sign-off by the preparer and the reviewer of out-of-period and reclassification journal entries indicates an assessment of the potential Sarbanes-Oxley impact was performed (e.g., an adjustment not timely identified by an internal control could indicate a potential internal control deficiency) and any potential internal control deficiency was communicated to the Sarbanes-Oxley Compliance Department. The sign-off by the preparer and the reviewer also indicates the entry was placed in the waived adjustments file for the quarter if it was above the materiality threshold for consideration of waived adjustments.

# **Oracle Recurring Journal Entries**

Recurring journal entries (Oracle General Ledger system-generated journals) are run monthly by individual accounting departments. Recurring journals are considered standard, routine, non-reversing monthly journals where the accounting information and amounts are the same for multiple months.

Recurring journal entries should contain the elements described in Appendix A.

Recurring journal entries are set up in Oracle and updated on a periodic basis, as appropriate. General Ledger validation prevents a recurring journal entry from being generated until all corrections are made to the journal set-ups. General Ledger validation includes the following: The category, source, currency, and each account segment value are compared against tables containing valid and enabled lists of values. Cross-validation rules control which account segment values can be used together. The Project/Task combination must exist, but there is no validation against the set-up values within the Project Accounting system. This validation must be done manually at inception. The EiS report "LKE Lookup Project and Task GLAFF and Validations" may be used for this validation.

Recurring journals are run per a designated schedule determined by the manager of each applicable department. The journal will normally be posted via the AutoPost function in Oracle, but can be manually posted if desired. During the post process, the accounting date is checked to ensure that it falls within an open period. If needed, a recurring journal entry can be suspended for a month and a non-standard journal can be created in its place.

# (Note: Text in italics indicates a key SOX control.)

## **High-Risk Journal Entries**

A high-risk journal entry is a standard or non-standard manual or recurring journal entry that requires specialized knowledge for preparation and review. It may also require significant management judgment and estimation and imposes significant risk to the financial statements. Entries with total activity (total debits) of the entry exceeding the accounting threshold used to identify high-risk journal entries<sup>1</sup> using the lowest of the LKE registrants (see the Materiality Thresholds tab of the Waived Adjustments file) AND which are determined to be complex are designated as high-risk.

The centralized journal entry checklists contain the listing of high-risk journal entries. New entries must be risk-assessed when they are added to the checklist, and existing standard entries must be monitored on an on-going basis to determine if their status has changed.

*High-risk journal entries require additional support, as follows: (See cycle/transaction 080.05, Control Activity 1 in the Sarbanes Oxley Compliance documentation.)* 

- An executive summary describing the purpose of the journal entry in sufficient detail that the reviewer can effectively understand why the journal entry is being made and the sources of data being used to prepare the journal entry. May also include a lead sheet that summarizes the amounts on the journal entry by financial statement line item.
- Support for calculations used to derive journal entry amounts.
- Trend analysis on standard entries with documentation of unusual or significant fluctuations with conclusion and rationale for thresholds used.
- Evidence of annual confirmation that support provided by a line of business has been vetted with appropriate personnel from the line of business and that its accounting use has been explained to them.
  - Note: The accounting impact to ratemaking mechanisms is covered by other controls (e.g., the 3 month review of the Gas Supply Clause, the 6 month review of the Fuel Adjustment Clause, the 6 month and 2 year reviews of the Environmental Cost Recovery mechanism, the annual review of the Gas Line Tracker and Demand Side Management mechanism and the transmission rates from the municipal formula-based rate calculations)

# **Review, Approval and Storage of Entries**

Effective with the March 2020 close, new accounting procedures were implemented to address the electronic approval and storage of journal entries as a result of the COVID-19 pandemic (see **Remote Accounting Close Requirements**).

<sup>&</sup>lt;sup>1</sup> This threshold is calculated annually in the first quarter based on the previous year's 10-K.

### (Note: Text in italics indicates a key SOX control.)

All journal entries must be reviewed. Evidence of review of electronic journal entries is the email approvals appended to the pdf files. (See cycle/transaction 080.05, Control Activity 1 in the Sarbanes Oxley Compliance documentation.)

The Accounting Manager or her/his delegate must review and approve all non-standard journal entries, any new standard entries the first time that they are prepared and any entry (standard or non-standard) with total debits exceeding the accounting threshold used to identify high-risk journal entries using the lowest of the LKE registrants (see the Materiality Thresholds tab of the Waived Adjustments file), prior to closing the books. If a journal entry changes for any reason after it has been reviewed and approved, it must be re-reviewed and re-approved by the manager or her/his delegate.

New recurring journal entries, or changes to existing recurring journal design, must be reviewed and approved by the manager of the applicable department, or his or her delegate, prior to generating the journals. Upon the creation or modification to a recurring journal, a copy of the supporting work papers with evidence of review and approval must be uploaded as an attachment to the Oracle recurring journal set-up window. Additionally, an annual review of existing recurring journal set-ups must be performed by each applicable accounting department to ensure that the journals continue to comply with the current business environment, with evidence of review uploaded to the Oracle recurring journal set-up window. Oracle retains the history of all attachments uploaded by sequence numbering.

Journal entries, which meet any of following criteria, must be reviewed and approved by the respective Director or Officer AND the Controller, or their respective delegate, prior to closing the books:

- Non-standard entries that have a financial statement line item impact exceeding the accounting threshold used to identify high-risk journal entries using the lowest of the LKE registrants (see the Materiality Thresholds tab of the Waived Adjustments file.) Entries that meet the threshold will be considered for inclusion on the monthly closing highlights provided to PPL. An entry shall not be broken into several pieces to avoid meeting the threshold.
- Entries posted after noon on workday 5 (with the exception of standard consolidation and STAT only entries) or the reversal of any entries into the current month after noon on workday 5.

If the entry is greater than the thresholds above, but only reclassifies between different GLAFFs that roll up to the same financial statement line, it is exempt from the process above.

# (Note: Text in italics indicates a key SOX control.)

Any Director or Officer, including the Controller should not be the first level reviewer of any entries unless he or she has an individual contributor direct report who is the Journal Entry Preparer.

Each individual who signs off electronically on a journal entry is signing as to performing the following functions:

I. Journal Entry Preparer sign-off indicates:

- The preparer has requisite knowledge of the subject matter and the entry is prepared in accordance with GAAP and regulatory requirements.
- All the relevant information has been included in the journal entry. Calculations provided by other departments or information provided by other departments have been verified.
- A description is included in the entry, identifying the purpose of the entry and any unusual or non-recurring items for that entry.
- Line items are consistent with and all details have been agreed to supporting documentation.
- All spreadsheets prepared by the Journal Entry Preparer and used in the preparation of the entry are maintained in accordance with the 950 Spreadsheet Policy and PPL's Guidelines for Spreadsheets and Other End User Computing Tools.
- Information prepared by others which is used in the preparation of the entry requires the following:
  - Internally prepared spreadsheets require confirmation from the source that the spreadsheet complies with the requirements in the 950 – Spreadsheet Policy and PPL's Guidelines for Spreadsheets and Other End User Computing Tools.
  - Information provided by third parties must have adequate support<sup>2</sup>. Also, the journal entry preparer must perform and document review procedures to provide reasonable assurance that the information is complete and accurate, if total debits of the entry exceed the Manual Accrual, Third-Party Spreadsheet and Waived (Out-of-Period) Adjustment materiality threshold using the lowest of the LKE registrants from the prior quarter except for January which uses the third quarter threshold from the prior year, other than for reversing accounts payable accruals, for which individual accrual journal entry line items must be reviewed and certified by knowledgeable operational personnel if they exceed this threshold. (See the Materiality Thresholds tab of the Waived Adjustments file).
- For out-of-period or reclassification journal entries, potential internal control deficiencies have been communicated to the Sarbanes-Oxley Compliance Department.

 $<sup>^{2}</sup>$  Adequate support will vary depending on the circumstances and requires the user's professional judgment or consultation with a knowledgeable employee to determine its adequacy.

# (Note: Text in italics indicates a key SOX control.)

(See cycle/transaction 080.05, Control Activity 1 in the Sarbanes Oxley Compliance documentation:)

II. Journal Entry Reviewer/Approver (first level review, could be a manager, a manager's delegate, or a Director/Officer who has an individual contributor direct report who is the Journal Entry Preparer) sign-off indicates:

- The reviewer/approver has requisite knowledge of the subject matter.
- Known issues associated with the journal entry have been addressed.
- The journal entry has been prepared in accordance with GAAP and regulatory requirements.
- The accounts affected in the entry are reasonable considering the purpose of the entry.
- The journal entry description is complete, relevant to the journal and factually correct.
- Line items are consistent with and all details have been agreed to supporting documentation, including verification or review of calculations or other information received from outside departments.
- For out-of-period or reclassification journal entries, potential internal control deficiencies have been communicated to the Sarbanes-Oxley Compliance Department.
- For high-risk journal entries, the reviewer confirms that required support as described above has been prepared, performs a detailed tie-back and re-performs critical calculations used to derive journal entry amounts if prepared in a spreadsheet without spreadsheet controls. Calculations selected to test must be documented.

III. Manager Review/Approval (required when above manager-level approval is required) sign-off indicates:

- The journal entry has been prepared in accordance with GAAP and regulatory requirements.
- The Balance Sheet and Income Statement effects are reasonable based on the purpose of entry.
- The journal entry description is complete and factually correct.
- The journal entry addresses known outstanding issues associated with the entry.

IV. Director or Officer and Controller Review/Approval sign-off indicates:

- The journal entry has been prepared in accordance with GAAP and regulatory requirements.
- The Balance Sheet and Income Statement effects are reasonable based on the purpose of entry.
- The journal entry addresses known outstanding issues associated with the entry.

# (Note: Text in italics indicates a key SOX control.)

During close, an Accounting Analyst in Corporate Accounting runs an EiS report that lists the entries that require further review/approval and posts the list to the Director, Accounting and Regulatory Reporting's SharePoint site so that it can be reviewed during the Day 4 closing meeting. The Accounting Analyst in Corporate Accounting re-runs the list on Day 5 after the books are closed, posts it to SharePoint and sends a notification so that any remaining approvals by the respective Director and Controller can be obtained before the closing meeting with PPL on workday 7.

During close, each Accounting Manager or his or her delegate reviews the centralized journal entry checklist saved on the \\fs1\acctpolicies share drive and filtered by his or her department to ensure that all necessary journal entries have been completed. Once all entries have been completed for a department, the Accounting Managers or their delegates then send an e-mail to the Manager and Accounting Analyst in Corporate Accounting confirming that all entries have been posted for the month. (See cycle/transaction 080.05, Control Activity 2 in the Sarbanes Oxley Compliance documentation.)

On workday 4, an Accounting Analyst in Corporate Accounting reviews the journal entry checklist to ensure that all necessary journal entries have been posted to Oracle by running a list of posted entries from EiS reports and comparing it in Excel to the printed company checklists. After open journal entry sign-offs are resolved, the checklists incorporating the query result are signed by the Accounting Analyst and approved and signed by the Manager, Corporate Accounting on workday 5 and when all entries, including STAT entries, are completed showing only entries posted after workday 4. The Accounting Analyst compares the queries to the updated centralized journal entry checklist to ensure that all journal entries have been posted to Oracle and the queries are signed by the Accounting Analyst and approved by the Manager, Corporate Accounting or his/her delegate. (See cycle/transaction 080.05, Control Activity 3 in the Sarbanes Oxley Compliance documentation.)

Oracle journal entries are uploaded into Quest by the Senior Secretary and/or Assistant to the Controller. CCS and HFM journal entries are not uploaded to Quest, but can be accessed in the Journal Entry Remote Process folder on the accepticies drive.

# CCS Journal Entries:

CCS journal entries should contain the elements described in Appendix A. Supporting documents needed to prepare journal entries in CCS are sent to or compiled by Corporate Accounting or Revenue Accounting. Journal entries are then entered directly into CCS by the accounting staff.

After the journal entry is entered and "saved as completed", the document number of the saved entry is documented on the bottom of the journal entry. The journal entry is then available for

# (Note: Text in italics indicates a key SOX control.)

posting. After approving, the Accounting Manager or her/his delegate selects the journal entries to be posted in CCS and releases (posts) them. When the entry posts, the initials of the person posting are documented on the bottom of the entry with the date the entry was posted.

As a final step, a check of CCS is done to ensure all entries are posted.. The Manager, Corporate Accounting or his/her delegate reviews the journal entry checklist to ensure that all necessary journal entries have been completed and signs the checklist.

# **HFM Journal Entries:**

HFM journal entries should contain the elements described in Appendix A.

On workday 5, an Accounting Analyst in Corporate Accounting reviews the HFM journal entry checklist to ensure that all necessary journal entries have been posted to HFM by comparing a report from HFM (JOURReport 1, section L0800), which lists all posted HFM entries for LKE for the current month, to the printed company checklist. The Accounting Analyst also reviews the checklist to ensure that all listed entries are either signed off or marked as not applicable. After any open journal entry sign-offs are resolved, the checklist is signed by the Accounting Analyst and approved and signed by the Manager, Corporate Accounting or his/her delegate.

### **Confirmation of Compliance with the Policy**

Each calendar year, approximately mid-year, Corporate Accounting will perform the following process to affirm review of and compliance with the policies around journal entries and account reconciliations by all individuals who prepare such.

- Corporate Accounting will contact the managers of the departments that prepare or review journal entries and account reconciliations to confirm who in their departments, including contractors, are performing these tasks
- Based on that list, Corporate Accounting will send to the members of those departments an email with a requested response date and voting buttons. The voting options will state:
  - I confirm that I have read and understand the 251 Journal Entries Policy and the 250 Balance Sheet Account Reconciliation Policy. I am in compliance with those policies and with the related SOX controls.
  - I have no duties related to the preparation or review of journal entries or account reconciliations.
- Corporate Accounting will follow up with any members of those departments who do not respond.

# (Note: Text in italics indicates a key SOX control.)

Corporate Accounting will document and retain the responses in a checklist based on the initial distribution list.

# (Note: Text in italics indicates a key SOX control.)

# Reports Generated and Recipients:

- ADI journal entries (uploaded into Quest and available to accounting staff, external auditors, budgeting users and other users who have been granted access.)
- Journals-Enter standard Oracle report (scanned into Quest; used by accounting staff upon the rare occasion that a journal entry is keyed directly into Oracle)
- Posted journal entry download report (used by Corporate Accounting)
- Journal entry checklists (used by all preparers of journal entries)
- EiS report "LKE Lookup Project and Task GLAFF and Validations" (used by all preparers of journal entries)
- CCS journal entries (saved to the Journal Entry Remote Process folder on the acctpolicies drive and used by Corporate Accounting and Revenue Accounting and Analysis departments)
- Report listing the journal entries which meet dollar thresholds for additional review/approval (used by the responsible accounting managers and directors/officers)
- HFM journal entries (saved to the Journal Entry Remote Process folder on the acctpolicies drive)
- HFM JOURReport1 which lists journal entries posted in HFM for the current month

# Additional Controls or Responsibility Provided by Other Procedures:

Before the books are closed, accounting managers review financial statements and/or trial balances to identify any material misstatements. (See the Materiality Policy and Procedures for a definition of the criteria for a misstatement to be considered material and the subsequent actions to be taken.) The Controller and/or Director, Accounting and Regulatory Reporting will review any unusual accounting entries with the CFO monthly.

### Regulatory Requirements:

Journal entries use the FERC chart of accounts.

# **Oracle (ADI) Journal Entries**

# ADI Journal Entry Header Information:

- Category: Describes the type of journal entry, based on a predefined list in Oracle selected by the user, except that "Prior Period Adjustment" must be used as the Category \if the entry should have been made in another period and "Accrual" must be used for accounts payable accruals which affect Accounts 107 or 108. In the event that an accounts payable accrual is also a prior period adjustment, the Accrual journal category must be used.
- Source: Describes how the journal entry was input into Oracle. Journal entries uploaded from ADI must have a Spreadsheet source.
- Currency: Lists the type of currency in which the journal entry is being booked. The only currency allowed is USD (U.S. Dollars) or STAT for statistics.
- Accounting Date: Lists the date which determines the General Ledger period in which the journal entry will be posted. This field is normally limited to the current open period for which the books are being closed and to the next open period. Occasionally, the books are reopened to allow posting to a prior period.
- Group ID: The employee number of the person uploading the journal entry, excluding the leading letter and leading zeros.
- Batch Name: The originating department code and preparer initials in ALL-CAPS, separated by a hyphen with no spaces or underscores. The Corporate Accounting Department maintains the list of valid originating department codes.
- Journal Name: The journal entry number stored in Oracle, using the following syntax: J###-cccc-mmyy, where ### = 3 digit journal entry number from the journal entry checklist, cccc = 4 digit company number, mm = 2 digit month and yy = 2 digit year.
- Journal Description: A short description of the journal entry.
- Reverse Journal: Yes, if set to auto-reverse in Oracle; No, or null, if not set to auto-reverse in Oracle
- Reversal Period: Completed only if Reverse Journal is set to Yes; defines the General Ledger period in which the auto-reversal will post in Oracle. This field is limited to the current open period for which the books are being closed and the next open period.

Each ADI journal entry must contain a cover page in OCR A Extended font used for scanning into Quest. The row height must be at least 28 and a divider bar code must be at the top on rows 3-5 with a line above and below. All of the above elements must be included on the cover page, as well as the following:

# (Note: Text in italics indicates a key SOX control.)

- Ledger The Oracle set of books. Only one set of books is set up for LKE in Oracle: LGE ENERGY LLC.
- General Ledger Period the month to which the transaction is posted in the general ledger in the format MMM-YYYY.

# ADI Journal Entry Line Information:

- Upload flag column: All lines to be uploaded must be populated with a flag.
- General Ledger Accounting Flexfield ("GLAFF") Columns: These columns make up the account number to which the journal entry will be posted.
  - Company: Four-digit code with a leading zero, generally representing the legal entity or other entity set up in Oracle.
  - Product: Three-digit code, generally denoting whether the charge relates to electric, gas, common or wholesale products.
  - Organization: Six-digit code with a leading zero, representing the cost center which is being charged or credited by the transaction.
  - Expenditure Org: Six-digit code with a leading zero, representing the cost center which is the source of the transaction.
  - Account: Six-digit code for the natural account number based on the Federal Energy Regulatory Commission ("FERC") chart of accounts, as expanded by LG&E and KU Energy LLC.
  - Intercompany: Four-digit affiliate company code populated on all intercompany transaction journal entry lines. This field is populated with zeros on non-intercompany journal entry lines.
  - Expenditure Type: Four-digit code with a leading zero further describing the type of transaction.
  - Location: Four-digit code representing the physical location of the transaction.
- Debit and Credit: Dollar amount of the transaction. An amount can only be entered in either the debit or credit column. Although Oracle will accept negative debit and credits, they should be entered as positive numbers.
- Line Description: Specific journal entry line description of the transaction. May use journal entry header description, if no other specific description needed. This field must always be populated in order to send the journal entry description to Project Accounting.
- Stat Amount: Only populated when posting statistical data (i.e., tons, mmbtu).
- Line DFF Segment for a Web ADI template:
  - Line DFF column is segregated by a period/decimal point Yes if transaction is project-related. Example: Yes.Project.Task (no period after Task).

# (Note: Text in italics indicates a key SOX control.)

• If no project/task is being charged, type No in the column or leave the column blank.

# ADI Journal Entry Footer Information:

- Description: This field must contain a complete description of the journal entry. It must provide enough information for someone unfamiliar with the transaction to understand the purpose of the entry.
- Prepared By: The person preparing the journal entry signs or initials here (include the date prepared).
- Upload/Concurrent ID: The Concurrent ID number for the journal entry upload job in Oracle must be written here when the upload is successful.
- Approved By: The approver of the journal entry signs or initials here (include date approved). All non-standard journal entries and standard journal entries with total debits greater than \$50,000 must be approved either by the manager or by another person with the requisite level of knowledge. Each manager may determine whether approval is required and at what level for standard journal entries with total debits less than or equal to \$50,000.
- Posted By: The person posting the journal entry, if different than person who uploaded it, signs or initials here (include posted date).
- Posted/Concurrent ID: The Concurrent ID number for the Oracle posting job is written here after the job report is checked on-line to ensure that there are no posting errors.

(Note: Text in italics indicates a key SOX control.)

# **Oracle (Recurring) Journal Entries**

### **Recurring Batch Header Information**:

- Batch Name: The originating department code and preparer initials in ALL-CAPS, separated by a hyphen with no spaces or underscores. The Corporate Accounting Department maintains the list of valid originating department codes. Then there should be a short text to uniquely identify this batch. The short description text can have spaces and underscores. The batch name should be less than 30 characters total.
- Description: A short description of the journal entry.
- Recurring Batch Type: Single Ledger
- Ledger: LGE ENERGY LLC
- Enable Security: Do not flag

### **Recurring Journal Entry Header Information**:

- Journal Name: The journal entry number stored in Oracle, using the following syntax: J###-cccc-yyyy, where ### = 3 digit journal entry number from the journal entry checklist, cccc = 4 digit company number, and yyyy = 4 digit year. Every time the journal is generated regardless of the GL period, the journal will have this Journal Name.
- Ledger: LGE ENERGY LLC
- Category: Describes the type of journal entry, based on a predefined list in Oracle selected by the user. "Prior Period Adjustment" and "Accrual" categories are not applicable to recurring journal entries and should not be used.
- Currency: Lists the type of currency in which the journal entry is being booked. The only currency allowed is USD (U.S. Dollars) or STAT for statistics.
- Conversion Type: Blank
- Effective Dates (From/To): Lists the period of time for which the recurring batch is effective. Generation of the batch must occur between these two dates.

### **Recurring Journal Entry Attachment Information**

Recurring journal entry supporting work papers must be attached at the batch header level. Attachments must not be deleted if the journal supported by the attachment has been generated and posted. Enter the information specified below. If the attachment is in the Document Catalog and is being used to assign the attachment to the journal, then the information defaults from the catalog and does not have to be re-entered.

- Main
  - Seq: Sequence number
  - o Category: Journal

### (Note: Text in italics indicates a key SOX control.)

- Title: Meaningful name using the following syntax: Name-Rev#, where Rev# is the revision number in case there is an update to the recurring journal.
- Description: A short description of the journal entry.
- May be Changed Flag: Defaults to checked and is not editable at the point of journal creation. If user elects to pull the attachment to the Document Catalog, then this can be changed to off.
- Source
  - o Data Type: File
  - File: Upload File containing work papers. Oracle will ask the user to browse for the file. Upon selection, the attachment will be saved in the Oracle database.
  - Optionally, if the attachment needs to be added to a different Recurring Batch journal, then the attachment can be published to the Document Catalog

The work papers must contain a summary sheet of the GLAFFs used, total amount, and the recurring amount by GLAFF.

The work papers must contain a cover page in OCR A Extended font. The row height must be at least 28 and a divider bar code must be at the top on rows 3-5 with a line above and below. All of the above elements must be included on the cover page, as well as the following:

- Number of Months: The number of months the journal will be generated.
- Source: Recurring
- Group Id: The employee number of the person uploading the journal entry, excluding the leading letter and leading zeros.
- Long Description: This field must contain a complete description of the journal entry. It must provide enough information for someone unfamiliar with the transaction to understand the purpose of the entry.
- Location of Support: Optional. This field may contain the original electronic location of your work papers.
- Total Amount: Total amount of the recurring journal.
- Monthly Amount: Total amount divided by the number of months the journal covers.
- Prepared By/Date: The person preparing the journal entry signs or initials here (include the date prepared). The Prepared By person does not have to be the person that generates the journal each month. This may be typed.
- Approved By Signature/Date: The approver of the journal entry signs or initials here (include date approved). All non-standard journal entries and standard journal entries with total debits greater than \$50,000 must be approved either by the manager or by another person with the requisite level of knowledge. Each manager may determine

# (Note: Text in italics indicates a key SOX control.)

whether approval is required and at what level for standard journal entries with total debits less than or equal to \$50,000. Original signature is required.

# **Recurring Journal Entry Line Information:**

- Line: Sequential Number. This will be the journal entry line number.
- General Ledger Accounting Flexfield ("GLAFF") Columns: These columns make up the account number to which the journal entry will be posted.
  - Company: Four-digit code with a leading zero, generally representing the legal entity or other entity set up in Oracle.
  - Product: Three-digit code, generally denoting whether the charge relates to electric, gas, common or wholesale products.
  - Organization: Six-digit code with a leading zero, representing the cost center which is being charged or credited by the transaction.
  - Expenditure Org: Six-digit code with a leading zero, representing the cost center which is the source of the transaction.
  - Account: Six-digit code for the natural account number based on the Federal Energy Regulatory Commission ("FERC") chart of accounts, as expanded by LG&E and KU Energy LLC.
  - Intercompany: Four-digit affiliate company code populated on all intercompany transaction journal entry lines. This field is populated with zeros on non-intercompany journal entry lines.
  - Expenditure Type: Four-digit code with a leading zero further describing the type of transaction.
  - Location: Four-digit code representing the physical location of the transaction.
- Line Description: Specific journal entry line description of the transaction. May use journal entry header description, if no other specific description needed. This field must always be populated in order to send the journal entry description to Project Accounting. If left blank, the line description will populate with "Created by recurring journal entry program."

### **Recurring Journal Entry Formula Information:**

- Step: Sequential number
- Operator: First row should always be Enter. If a formula is used to calculate the final amount, the other options on the following rows are +(plus), -(minus), x(multiplication), /(division). Enter the dollar amount of the transaction. A negative number or result is a credit. A positive number or result is a debit.
- Line DFF Segment: On the last row entered into the formula area,
  - o Account needs Project/Task?

#### (Note: Text in italics indicates a key SOX control.)

- If no project/task is being charged, type No
- If yes, enter the Project and Task. Note, other than validating that the Project/Task exists there is no validation that the combination is chargeable or that the associated GLAFF matches the -Project/Task set-up information. This validation must be confirmed manually before entering the data with evidence included in the work paper support uploaded into Oracle. The EiS report "LKE Lookup Project and Task GLAFF and Validations" may be used as evidence. The reviewer is responsible for checking that the evidence for this validation exists prior to signing off.

### **CCS Journal Entries**

# **CCS Journal Entry Header Information**:

- Document Date: Lists the date the entry is entered into CCS.
- Posting Date: Lists the effective date for the entry.
- Reference: The unique journal entry number assigned to the entry, using the following syntax: C###-cccc-mmyy, where ### = 3 digit journal entry number from the journal entry checklist, cccc = 4 digit company number, mm = 2 digit month and yy = 2 digit year.
- Doc Header Text: Provides a general description of the purpose of the journal entry.

### **CCS Journal Entry Line Information:**

- G/L acct: Six-digit code for the natural account number based on the Federal Energy Regulatory Commission ("FERC") chart of accounts, as expanded by PPL.
- D/C: Lists if the line is a debit or credit.
- Amount in doc. Curr.: Provides the amount of the entry for the specific line. All numbers are entered as positives within CCS.
- Assignment no.: Displays additional information. Any project and task information can be included for reference. This is a free character field.

(Note: Text in italics indicates a key SOX control.)

## HFM Journal Entries

### **HFM Journal Entry Header Information**:

- Label: The unique journal entry number stored in HFM, using the following syntax: ddd###-ccccc, where aaa means data type, ### means journal entry number, and ccccc means company number.
- Group: A three-character abbreviation of the data type of the entry.
- Balance type: Indicates whether the entry is balanced, unbalanced, or balanced by entity.
- Security: Indicates the security level of the entry.
- Description: A short description of the journal entry.

# HFM Journal Entry Line Information:

- Entity: In the case of LKE, the four-digit Oracle company number preceded by an "L."
- Account: In the case of LKE, the six-digit code for the natural account number based on the Federal Energy Regulatory Commission ("FERC") chart of accounts, as expanded by LG&E and KU Energy LLC.
- ICP: The affiliate company code populated on all intercompany transaction journal entry lines. This field is populated with "[ICP None]" on non-intercompany journal entry lines.
- Data type: The data type of the journal-entry line.
- Custom 2, Custom 3, and Custom 4: Not used currently, but must be filled in with "[None]."
- Description (Optional): A description of the journal-entry line.
- Debit and Credit: Dollar amount of the transaction.

Date Created: 3/11/16 Dates Revised: 11/1/18

Note: The file naming convention to be used for this memo is "Topic from "Re" line below Error Assessment Memo MM-DD-YYYY"

#### MEMORANDUM

Date:	Insert Date here & in 2 <sup>nd</sup> page header
То:	Controller
From:	Insert name of memo preparer &/or relevant manager
Re:	Insert topic here & in 2 <sup>nd</sup> page header
cc:	<ul> <li>Insert name of relevant Director or Officer and the following recipients:</li> <li>Director, Audit Services</li> <li>Manager, Sarbanes-Oxley Compliance</li> <li>Manager, Financial Reporting</li> <li>Deloitte</li> <li>Director, Shared Accounting Services, PPL</li> <li>Controller, PPL</li> <li>(Draft &amp; final distribution of the memo is the responsibility of the manager responsible preparing the memo. No distribution should occur before memo has been reviewed and approved by the Controller.)</li> </ul>

#### **Overview of Error**<sup>1</sup>

Narrative containing a general description and cause of the error/change, including high-level background of the process where the error/change occurred and when the error was detected or the change made (i.e., month and year). This section should include description, root cause, and issue implication from *Appendix B* - *Guidance for reporting Sarbanes-Oxley Issues in Error* Assessment Memos.

<sup>&</sup>lt;sup>1</sup> LKE, LG&E and KU will assess all income statement and balance sheet errors which meet or exceed certain quantitative thresholds. These thresholds are determined by each Registrant quarterly as 0.35% of pretax income and are updated in the quarterly waived adjustments file.

Insert Date Page 2 Insert Topic

## **How Error Was Identified**

Narrative containing a general description of how and when the error was identified (i.e., "In analysis of the June activity an error was identified in the way ..." or "While reconciling the XXX account for the month of April it was determined that ....")

#### **Controls Impacted**

Narrative indicating the controls impacted (i.e., "The error was attributable to failure of controls surrounding key spreadsheets ...") including the control activity number(s) and compensating control numbers, if any. If a control detected the error, it should be noted in this section. See *Appendix B - Guidance for reporting Sarbanes-Oxley Issues in Error Assessment Memos*.

#### Action Plan

Narrative indicating the plan to mitigate future risk of the error occurring (including the individual(s) responsible for the action plan), evidence requirements and affirmation that Sarbanes-Oxley (SOX) documentation has been updated for the change(s) in process.

See Appendix B - Guidance for reporting Sarbanes-Oxley Issues in Error Assessment Memos.

#### Date to Implement:

#### Materiality Assessment

See the waived adjustment file for the percentage impact on each financial statement line item. (Alternatively, insert columns U to Z (as applicable) from the waived adjustments file.) (**Note:** If the error is 5% or greater of any line item, insert the columns U to Z (as applicable) and columns AK to AP (as applicable) from the waived adjustments file and discuss justification for the error being considered quantitatively immaterial. If the error is 5% or greater of any financials statement subtotal line, also discuss the relative % error to the forecasted full year financial statement balances.)

#### Qualitative Assessment

In Topic 1 - M, "Materiality" the SEC provides examples of qualitative factors that could cause an otherwise small quantitative error to be material to an investor. The following is an assessment of each of these factors relative to the error described in this memo.

• Whether it arises from an item capable of precise measurement or whether it arises from an estimate and, if so, the degree of imprecision inherent in the estimate.

Insert comments addressing factor

• Whether it masks a change in earnings or other trends.

Insert comments addressing factor

• Whether it hides a failure to meet analysts' or others' consensus expectations.

Insert comments addressing factor

• Whether it changes a loss into income or vice versa.

Insert comments addressing factor

Insert Date Page 4 Insert Topic

- Whether it concerns a segment or other portion of the registrant's business that has been identified as playing a significant role in the registrant's operations or profitability.
- Whether it affects compliance with regulatory requirements.

Insert comments addressing factor

• Whether it affects compliance with loan covenants or other contractual requirements.

Insert comments addressing factor

• Whether it has the effect of increasing management's bonuses or other compensation.

Insert comments addressing factor

• Whether it involves concealment of an unlawful or fraudulent transaction.

Insert comments addressing factor

#### Materiality Assessment Conclusion

Management has concluded, based on both the quantitative and qualitative assessments above, this error is not material to the financial statements. Because the error is not significant to the financial statements, no adjustment to the current or previous financial statements is necessary and no disclosure of the error is required. (Adjust the language in this paragraph based on the quantitative materiality of the error.)

This error will be noted during the next LG&E and KU Energy Governance and Financial Oversight Committee meeting.

See also Financial Reporting's overall assessment of all errors for an assessment of this and all other errors identified as affecting the financial statements to for this period.

#### SOX Assessment

PCAOB Audit Standard (AS) 5, Appendix A, paragraph 3 defines a deficiency in internal control over financial reporting as follows:

"A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

- A deficiency in <u>design</u> exists when (a) a control necessary to meet the control objective is missing or (b) and existing control is not properly designed to that, even if the control operates as designed, the control objective would not be met.

Insert Date Page 5 Insert Topic

- A deficiency in <u>operation</u> exists when a properly designed control does not operate as designed, or when the person performing the control does not possess the necessary authority or competence to perform the control effectively."

In evaluating the deficiency, management considered PCAOB AS 5 paragraphs 63 through 69, under *Evaluating Identified Deficiencies*:

*"63. The severity of a deficiency depends on -*

- Whether there is a reasonable possibility that the company's controls will fail to prevent or detect a misstatement of an account balance or disclosure; and
- The magnitude of the potential misstatement resulting from the deficiency or deficiencies.

64. The severity of a deficiency does not depend on whether a misstatement actually has occurred but rather on whether there is a reasonable possibility that the company's controls will fail to prevent or detect a misstatement.

65. Risk factors affect whether there is a reasonable possibility that a deficiency, or a combination of deficiencies, will result in a misstatement of an account balance or disclosure. The factors include, but are not limited to, the following -

- The nature of the financial statement accounts, disclosures, and assertions involved;
- The susceptibility of the related asset or liability to loss or fraud;
- The subjectivity, complexity, or extent of judgment required to determine the amount involved;
- The interaction or relationship of the control with other controls, including whether they are interdependent or redundant;
- The interaction of the deficiencies; and
- The possible future consequences of the deficiency.

66. Factors that affect the magnitude of the misstatement that might result from a deficiency or deficiencies in controls include, but are not limited to, the following -

- The financial statement amounts or total of transactions exposed to the deficiency; and
- The volume of activity in the account balance or class of transactions exposed to the deficiency that has occurred in the current period or that is expected in future periods.

67. In evaluating the magnitude of the potential misstatement, the maximum amount that an account balance or total of transactions can be overstated is generally the recorded amount, while understatements could be larger. Also, in many cases, the probability of a small misstatement will be greater than the probability of a large misstatement

68. The auditor should evaluate the effect of compensating controls when determining whether a control deficiency or combination of deficiencies is a material weakness. To have a mitigating effect, the compensating control should operate at a level of precision that would prevent or detect a misstatement that could be material.

69. Indicators of material weaknesses in internal control over financial reporting include -

• Identification of fraud, whether or not material, on the part of senior management;

Insert Date Page 6 Insert Topic

- Restatement of previously issued financial statements to reflect the correction of a material misstatement;
- Identification by the auditor of a material misstatement of financial statements in the current period in circumstances that indicate that the misstatement would not have been detected by the company's internal control over financial reporting; and
- Ineffective oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee."

### **SOX** Assessment Conclusion

Management has concluded that the deficiency in internal control over financial reporting does not rise to the level of a material weakness due to the following: (provide support for this conclusion based on paragraphs 68-69 above). See *Appendix B* - *Guidance for reporting Sarbanes-Oxley Issues in Error Assessment Memos*.

Management has concluded that the deficiency in internal control over financial reporting does not rise to the level of a significant deficiency due to the following: (provide support for this conclusion based on paragraphs 63-67 above). See *Appendix B - Guidance for reporting Sarbanes-Oxley Issues in Error Assessment Memos*. (**Note:** This paragraph should be deleted if the error is a material weakness.)

Management has concluded, based on the guidance in PCAOB AS 5, this error is a deficiency in the design/operation (pick one) of internal controls over financial reporting (provide support for this conclusion based on Appendix A, paragraph 3 above). See *Appendix B - Guidance for reporting Sarbanes-Oxley Issues in Error Assessment Memos*. This error is not the result of a material error or significant deficiency as described above, but is a deficiency in internal controls over financial reporting. (**Note:** This paragraph should be deleted if the error is a material weakness or a significant deficiency.)

This error will be noted during the next LG&E and KU Energy Governance and Financial Oversight Committee meeting.

### **Required Disclosures**

This error is not material to the interim or year-end financial statements and does not involve a material weakness, accordingly no disclosure is required. (Note: Delete this sentence if not accurate.)

Disclosure of out of period adjustment (Note: Delete this section, if not necessary.)

If the error is determined to be material to the financial statements add discussion of how the financial statements will be corrected and how the correction of the error will be disclosed. See *Appendix B* - *Guidance for reporting Sarbanes-Oxley Issues in Error Assessment Memos.* 

This section should also provide the narrative for disclosure in the Form 10-K or Form 10-Q, the disclosure should be presented either in the affected note, for example if the error is a tax out of period adjustment, the disclosure will be included in the Income Tax footnote, if there is no specific footnote it will be included in Note 1 Summary of Significant Accounting Policies – General for the Form 10-K or Note 1, Interim Financial Statements for the Form 10-Q.

## Disclosure of internal control deficiency (Note: Delete this section, if not necessary.)

(If the error is determined to be a material weakness add discussion of how this will be disclosed in the financial statements. See *Appendix B* - *Guidance for reporting Sarbanes-Oxley Issues in Error Assessment Memos*. Also provide a discussion on the necessary steps taken to ensure timely disclosure through the filing of a Form 8-K in accordance with the policy, see 355-SEC *Reporting requirements*. No disclosure in the Form 10-K or Form 10-Q is required if the error is classified as a deficiency or significant deficiency.)

This section should provide the narrative for disclosure in the Form 10-K or Form 10-Q, the disclosure should be presented in Part III, Item 9A in the Form 10-K and in Item 4 of the Form 10-Q.

# (Note: Text in italics indicates key SOX control 80.08.08)

## **Policy:**

LG&E and KU Energy LLC ("LKE") and its subsidiaries will timely and accurately record all financial transactions into the affected companies' general ledgers and disclose certain non-financial information in its financial statement filings with regulatory authorities, the U.S. Securities & Exchange Commission ("SEC"), and other authoritative bodies unless deemed immaterial and supported by appropriate documentation of such conclusion.

# **Procedure:**

Materiality will be assessed at the reporting company level throughout the organization as of the date financial statements are externally produced for investor or financial institution use. The assessment will be made at quarter- and year-end for each SEC registrant. During quarterly reporting, materiality will also be assessed for the full year financial statements using the most current of the current year budget or current financial forecast, as appropriate.

### Scope:

This policy applies to all items having an impact on the relevant financial statements as defined below, including adjustments that are not recorded in the general ledgers of the affected company or companies, as of the date the respective period's books are closed. The relevant financial statements include those of LKE's parent company, PPL Corporation ("PPL"), LKE consolidated, Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU"). Financial statements for PPL, LKE, LG&E and KU are issued quarterly and annually for investor and financial institution use.

### **Objective of Procedure:**

The objective of the materiality accounting policy and procedures is to ensure that the process for determining materiality is defined relevant to the companies reported and communicated to individuals responsible for determining whether each identified adjustment may be waived as immaterial. These adjustments must also be analyzed on a company-wide basis to ensure all waived adjustments are not material to the financial statements of the companies.

# **General Requirements:**

FASB Statement of Financial Accounting Concepts No. 2, Qualitative Characteristics of Accounting Information, defines materiality as "the magnitude of an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or misstatement." This definition implies that more than just

### (Note: Text in italics indicates key SOX control 80.08.08)

quantitative factors should be considered when determining materiality. LKE will include both quantitative and qualitative factors in making sound decisions regarding materiality for purposes of financial statement reporting.

The SEC Staff Accounting Bulletin: Topic 1 (Financial Statements), Item M (Materiality), Subtopic 1 (Assessing Materiality) (SAB Topic 1-M-1) indicates that "materiality concerns the significance of an item to users of a registrant's financial statements. A matter is 'material' if there is a substantial likelihood that a reasonable person would consider it important." There is no "bright line" test. Materiality is determined on the basis of all relevant facts and circumstances.

As indicated in SAB Topic 1-M-1, in determining whether multiple misstatements cause the financial statements to be materially misstated, a registrant should consider each misstatement separately and the aggregate effect of all misstatements.

#### Reclassifications / Changes Affecting Comparability

The FASB Accounting Standards Codification (ASC) 205 Presentation of Financial Statements (ASC 205) notes the following:

"205 Presentation of Financial Statements 205-10-50 Disclosure General Changes Affecting Comparability 50-1 If, because of reclassifications or for other reasons, changes have occurred in the manner of or basis for presenting corresponding items for two or more periods, information shall be furnished that will explain the change. This procedure is in conformity with the well recognized principle that any change in practice that affects comparability of financial statements shall be disclosed."

Financial Reporting will evaluate changes in the current year's classifications of items on the balance sheet and income statement to determine if they represent material misstatements of the prior periods' financial statements. For example, a reclassification of debt from long-term to short-term or reclassifications of cash flows from the operating activities category to the financing activities category, might occur because those items were incorrectly classified in the previously issued financial statements. These types of reclassifications, if material, could be considered a correction of a misstatement. Or, a reclassification could occur when an item is broken out from a financial statement line caption, for example an item previously included in Accounts Payable is reclassified to Other Current Liabilities. If a material reclassification has occurred, the prior year's financial statements will be reclassified and appropriate disclosure will be made in the financial statement footnotes.

## (Note: Text in italics indicates key SOX control 80.08.08)

The 'GLAFF Change Request Form - Account' contains a field to require the individual completing the form to disclose the fact whether or not the account (new or existing) has a prior period balance. LKE will assess the need to reclassify the issued prior period financial statements based on the individual requests and in the aggregate. The Financial Reporting department will maintain a schedule of all reclassifications (recorded and unrecorded) to evaluate the comparability of the financial statements and to determine if the issued prior year balances should be changed. Recorded reclassifications are those that are automatically performed in Oracle, for example a request to remap an account will automatically remap the prior year, versus a request to create a new account for an item which had a prior year balance will not change prior year mapping.

When the 'GLAFF Change Request Form - Account' is completed and the change involves an account with a prior period balance, the department Manager approving the request must contact the Manager, Financial Reporting. The Manager requesting the change will provide the Manager, Financial Reporting with support for the prior period amount and document the reason for change. The Manager, Financial Reporting, along with the requesting Manager will make a preliminary decision as to whether the reclassification is individually material, or in the aggregate material, based on other reclassifications affecting the financial statement line and the recommended course of action. The Manager, Financial Reporting will be made. The assessment with the Controller and a final determination will be made. The assessment will be shared with the Sarbanes Oxley Compliance department and the external auditors. The materiality conclusions for the reclassifications will be reflected in the Overall Error Assessment memo prepared by the Financial Reporting Department for each reporting period.

### Quantitative

For purposes of overall quantitative materiality, LKE, LG&E and KU will use 7% of projected full year pretax income for the first three quarters and actual year-to-date pretax income for the fourth quarter as an outside limit for determining whether the Income Statements, as a whole, are materially correct and 5% of total current assets for determining whether the Balance Sheets as a whole are materially correct. The percentage threshold is supported by the SEC SAB Topic 1-M-1, which states that "the use of a percentage as a numerical threshold, such as 5%, may provide the basis for a preliminary assumption that – without considering all relevant circumstances – a deviation of less than the specified percentage with respect to a particular item on the registrant's financial statements is unlikely to be material. The staff has no objection to such a 'rule of thumb' as an initial step in assessing materiality. But quantifying, in percentage terms, the magnitude of a misstatement is only the beginning of an analysis of materiality; it cannot appropriately be used as a substitute for a full analysis of all relevant considerations." The thresholds used by LKE, LG&E and KU were developed after obtaining benchmark ranges provided to PPL by Deloitte Consulting during a Sarbanes-Oxley Program Improvement Project

# (Note: Text in italics indicates key SOX control 80.08.08)

consulting engagement conducted during 2014. The thresholds used by LKE, LG&E and KU are within or below the ranges of the Deloitte benchmarks.

LKE, LG&E and KU have only public debt. LKE's equity is 100% owned by PPL Corporation and LG&E's and KU's equity is 100% owned by LKE. For LG&E and KU, and therefore for LKE, much of the debt is secured by mortgages. Using a 7% threshold rather than the 5% example used by the SEC recognizes the lower risk of investing in the debt of LKE, LG&E and KU for debt investors – the primary external users of the LKE, LG&E and KU financial statements.

LKE, LG&E and KU will assess all income statement errors which meet or exceed certain quantitative thresholds. These thresholds are determined by each Registrant quarterly as 0.35% of the following:

- 1<sup>st</sup> Quarter Projected full year pretax income from the current year budget
- 2<sup>nd</sup> Quarter Projected full year pretax income from the 1<sup>st</sup> quarter's reforecast
- 3<sup>rd</sup> Quarter Projected full year pretax income from the 2<sup>nd</sup> quarter's reforecast
- 4<sup>th</sup> Quarter Actual full year pretax income

The 0.35% threshold is 5% of the 7% baseline materiality level and is evaluated for reasonableness quarterly and therefore subject to change when appropriate. The calculation of the thresholds for each quarter is contained in the waived adjustment file for that quarter.

The above threshold is also used for review of spreadsheets received from third parties and manual accrual certifications.

LKE, LG&E and KU will assess all balance sheet reclassifications, which meet or exceed 0.25% (5% of 5%) of pretax income as a proxy for current assets and current liabilities at each reporting date. The balance sheet threshold is set at this level to ensure errors are properly evaluated for their impact on operating cash flows in the statement of cash flow. The calculation of the thresholds for each quarter is contained in the waived adjustment file for that quarter.

LKE, LG&E and KU will also apply the following quantitative thresholds, based on the 7% of pre-tax income, when assessing the following:

- Income statement analysis in the MD&A 60% of 7% or 4.2% of actual pre-tax income for each quarter or year-to-date in the 10-Q and for total year in the 10-K. Disclosures meeting this criteria in earlier quarters may be carried forward to all subsequent quarters in a year, based on qualitative factors.
- Material internal control weakness 100% of 7%, or 7% of pre-tax income. The thresholds are calculated on a quarterly basis, using projected full year pretax income

# (Note: Text in italics indicates key SOX control 80.08.08)

budget for the first quarter, projected full year pretax income from the 2<sup>nd</sup> and 3<sup>rd</sup> quarter's reforecast for the second and the third quarter, and actual full year pretax income for the fourth quarter.

- Significant internal control deficiency 50% of 7%, or 3.5% of pre-tax income. The thresholds are calculated on a quarterly basis, using projected full year pretax income budget for the first quarter, projected full year pretax income from the 2<sup>nd</sup> and 3<sup>rd</sup> quarter's reforecast for the second and the third quarter, and actual full year pretax income for the fourth quarter. (This threshold is also used by SOX department for information processing system and interface scoping).
- Tolerable Misstatement threshold (i.e., scoping accounts and processes and of Key SOX controls) 20% of 7%, or 1.4% of pre-tax income. The thresholds are calculated on a quarterly basis; using the projected full year pretax income budget for the first quarter, projected full year pretax income from the 2<sup>nd</sup> and 3<sup>rd</sup> quarter's reforecast for the second and the third quarter, and actual full year pretax income for the fourth quarter. (This threshold is also used for GFOC's approval of impairments).
- High risk or complex manual journal entries 25% of 7%, or 1.75% of pre-tax income. The thresholds are calculated once on an annual basis (in the first quarter of each year) using the projected full-year pretax book income from the current year budget.

(**Note:** The thresholds for a significant internal control deficiency and a material internal control weakness are used to determine when assessments regarding the significance of a control deficiency are initiated. However, qualitative assessment of items (see discussion below) may indicate that the items are not significant or material, even when the quantitative threshold is met.)

LKE, LG&E and KU will also apply the following quantitative thresholds, based on the 5% of total current assets, when assessing the following:

• Balance sheet disclosure assessment – 100% of 5% or 5% of total current assets at the end of each quarter. Disclosures meeting this criterion in earlier quarters may be carried forward to all subsequent quarters in a year, based on qualitative factors.

The calculation of the above mentioned thresholds for each quarter is contained in the waived adjustment file for that quarter.

These quantitative measures will be considered along with the overall level of risk of the item being considered. The Company considered the following factors when determining the range of materiality:

- existence of a stable business environment;
- the Company's business is viable and not under financial duress;

# (Note: Text in italics indicates key SOX control 80.08.08)

- management of the Company is competent and capable;
- entity level controls are in place and working; and
- historical track record of few minor adjustments proposed by auditors on an annual basis.

The SEC Staff Accounting Bulletin: Topic 1 (Financial Statements), Item N (Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements) (SAB Topic 1-N) also provides guidance regarding the determination of materiality. The two techniques that are most commonly used to accumulate and quantify misstatements are the "rollover" and "iron curtain" approaches. The rollover approach quantifies a misstatement based on the amount of the error originating in the current year income statement. This approach ignores the effects of correcting the portion of the current year balance sheet misstatement that originated in prior years (i.e., it ignores the "carryover effects" of prior year misstatements). The iron curtain approach quantifies a misstatement based on the effects of correcting the misstatement based on the effects of correcting all misstatement based on the effects of correcting all misstatement, including both the carryover and reversing effects of prior year misstatements, on the current year financial statements. All errors should be quantified and evaluated using both the rollover and the iron curtain methods.

# Qualitative

Although an account or group of transactions is below the quantitative materiality scope, materiality must also be evaluated on a qualitative basis. In addition to quantitative computations, qualitative considerations must be factored in when determining whether an item is material to the financial statements. Qualitative measures for determining the risk of material misstatement in individual accounts include the following from the company's Balance Sheet Accounts Reconciliation Policy and internal control risk assessment:

- susceptibility of the account or transactions to loss due to errors or fraud, including past errors in the account;
- risk level of account involved (see Balance Sheet Reconciliation Policy and Procedures);
- volume of activity, complexity, and homogeneity of the individual transactions processed through the account (i.e., based on estimates);
- nature of the account (e.g., suspense accounts generally warrant greater attention);
- level of management judgment used in the account;
- existence of related party transactions in the account;
- changes from the prior period in account characteristics (e.g., new complexities or subjectivity or new types of transactions); and
- sensitivity of the account in affecting the reporting entity's (LKE, LG&E or KU) compliance with legal or regulatory requirements, loan covenants, or other contractual requirements.
## (Note: Text in italics indicates key SOX control 80.08.08)

The above measures are listed on the 'Account Segment Change Request Form'. When new accounts are created they are required to be ranked on a low, medium, high scale for the above seven criteria and an eighth segment asks if the account should be given a qualitative risk ranking of 3 (high) regardless of the responses to the seven preceding questions.

SAB Topic 1-M-1 also lists the following qualitative measures:

- Whether it arises from an item capable of precise measurement or whether it arises from an estimate and, if so, the degree of imprecision inherent in the estimate;
- Whether it masks a change in earnings or other trends;
- Whether it hides a failure to meet analysts' or others' consensus expectations;
- Whether it changes a loss into income or vice versa;
- Whether it concerns a segment or other portion of the registrant's business that has been identified as playing a significant role in the registrant's operations or profitability;
- Whether it affects compliance with regulatory requirements;
- Whether it affects compliance with loan covenants or other contractual requirements;
- Whether it has the effect of increasing management's bonuses or other compensation; and
- Whether it involves concealment of an unlawful or fraudulent transaction.

Key areas of disclosure that should be considered when evaluating material transactions include:

- 1. Contingencies
  - a. Legal proceedings
  - b. Guarantees
  - c. Regulatory matters
  - d. Lease arrangements
- 2. Risks (financial and other)
  - a. Financial risks (e.g. credit rating downgrades, counterparty credit, financial covenants)
  - b. Environmental regulations
  - c. Risk management activities
  - d. Energy trading activities
- 3. Known trends, demands, commitments, events or uncertainties. Use the "reasonably likely" standard (i.e. what is reasonably likely to come to fruition?)
  - a. Decrease in demand
  - b. Market price changes
  - c. Government regulation
  - d. Rating agency scrutiny
  - e. Contraction/expansion of operations

### (Note: Text in italics indicates key SOX control 80.08.08)

- 4. Off-balance sheet arrangements
  - a. Consider effect of terminating the arrangement or including the effect of the arrangement on the balance sheet
- 5. Related party transactions
  - a. Consider transactions involving parties that have a relationship with the company, including officers and directors and their family (also ex-officers and directors)
- 6. Lag periods
  - a. Prior to issuing periodic reports, consideration should be given to specific transactions or events of subsidiaries whose financial statements are prepared as of a date preceding the date of the parent's consolidated financial statements (within an acceptable lag period). These specific transactions or events could be either lag period transactions or subsequent events.
  - b. Financial Standards Board (FASB) Accounting Standards Codification (ASC) 810, Consolidations, (ASC 810) and Regulation S-X, 3A-02(b)(1) (Article 3A Consolidated and Combined Financial Statements, Topic 02 Consolidated Financial Statements of the Registrant and Its Subsidiaries) indicate that it is acceptable to consolidate a subsidiary on a lag that is not more than about three months different from the fiscal period of the parent. Recognition should be given by disclosure or otherwise of intervening events which materially affect the parent's financial position or results of operations.
  - c. Specific transactions or events that occur after the lag period are considered subsequent events. See the Subsequent Events Accounting Policy and Procedures for additional information.
- 7. Financial Statements
- 8. Other
  - a. Credit arrangements/financing activities
  - b. Acquisitions/divestitures
  - c. Critical accounting policies
  - d. Material contracts

#### Detailed Procedures Performed:

1. All adjustments, no matter the dollar amount, must be booked to the general ledgers prior to closing the books each month. Adjustments may only be "waived as immaterial" if they are not timely identified during the closing process and are immaterial based on determinants in this policy or are determined by Management to be a valid deferred adjustment (i.e., amounts less than \$100,000 for the months January through November and less than \$50,000 in December that has not yet been processed for payment in Accounts Payable [See Accounting Policy and Procedures 751 – AP – Manual Accrual]).

## (Note: Text in italics indicates key SOX control 80.08.08)

- 2. All adjustments not booked during the quarter, including reconciling errors appearing in balance sheet account reconciliations, and out of period adjustments booked during the quarter greater than or equal to the error thresholds as outlined in quarterly waived adjustments file, must be placed on the waived adjustment list. This file, including the thresholds, is maintained for the quarter in a file labeled "WaivedAdjustments X Year X Qtr" (i.e., WaivedAdjustments 2020 2<sup>nd</sup> Qtr) on the acctshare on 'fs2' shared drive by the person identifying the adjustment and reviewed for accuracy by the respective accounting manager.
- 3. Adjustments not meeting the threshold to be included on the Waived Adjustments file must still be reviewed to determine if they resulted from a deficiency in internal controls (SOX deficiency). As a general rule, errors that are identified relating to previously issued financial statements are considered to result from a SOX deficiency since existing internal controls did not identify the error prior to the financial statements being issued. All adjustments will be reviewed by the SOX Compliance Department (SOC) to determine if they resulted from a SOX deficiency. In certain instances, adjustments related to previously issued financial statements may not have resulted directly from a failure of a control and do not materially impact the previously issued financial statements, in these instances the SOC review may result in the determination that the adjustments were not a result of a SOX deficiency. Issues reviewed by the SOC and deemed not to be deficiencies are considered "Observations". Some examples are:
  - Adjustments identified by Management (not Audit Services, External Auditors or external parties such as a vendor)
  - Adjustments not resulting directly from a control failure (e.g. failure to accrue an invoice, inadequate spreadsheet controls)
  - Adjustments resulting from estimates which do not have material (as defined in this policy) implications on future financial statements

The SOC has defined procedures and process flow for reviewing potential deficiencies which can be found on the SOC SharePoint site.

- 4. Adjustments waived as immaterial must be booked as soon as practical but no later than the close of the next quarter. Waived adjustments that are elected to not be booked must be approved by the CFO and controller.
- 5. All adjustments (that meet the lowest threshold as outlined in that quarter's waived adjustments file must be documented in a memo (known as an "Error Assessment Memo", see Appendix A<sup>1</sup>) should be addressed to the Controller and copied to the relevant

<sup>&</sup>lt;sup>1</sup> Appendix A is a template for the Error Assessment Memo and contains additional SOX assessment documentation required if the error identified is greater than the lowest threshold

## (Note: Text in italics indicates key SOX control 80.08.08)

Director(s) and the reporting workpapers. Communications of the draft and final error assessment memo should be performed by the author of the error assessment memo. To avoid confusion, error assessment memos are required for any error exceeding the lowest threshold calculated for the quarter (i.e. if LG&E's threshold is the lowest of the three registrants' thresholds any adjustment waived as immaterial that exceeds LG&E's threshold must be documented in an error assessment memo, including amounts related to each registrant).

An electronic copy of the memo must be filed on the <u>\\lgeenergy.int\shares\Group3</u>: acctrestricted drive for the respective quarter. The memo must state the following at a minimum, if applicable:

- Overview of the error
- How the error was identified
- Controls impacted and corrective action to ensure the misstatement does not reoccur
- A materiality assessment including:
  - A quantitative assessment addressing the periods impacted
  - The amount of adjustment reported on respective financial statements by financial statement line item
  - A qualitative assessment based upon SEC guidelines
  - A conclusion regarding materiality
- SOX assessment
- Disclosure requirements

In order to ensure timely reporting of internal control exceptions, Error Assessment Memos must be completed prior to the end of the quarter in which the error was identified. In the instance of errors identified for the current reporting period, Error Assessment Memos should be completed within two weeks of the identification of the error but no later than five business days prior to the issuance of the financial statements.

The SOX Compliance department uses the information contained in Error Assessment Memo to evaluate the impact of the error on the Company's system of internal controls. Care should be taken to include relevant information in the Error Assessment Memo. The SOX Compliance department should review the Error Assessment prior to finalization.

outlined in the quarterly waived adjustments file. In addition to Appendix A, Appendix B provides guidance for reporting SOX issues in the error assessment memo.

## (Note: Text in italics indicates key SOX control 80.08.08)

All final error assessment memos are saved in the appropriate quarter's directory on the shared <u>\\lgeenergy.int\shares\Group3</u>: acctrestricted\Error Assessment Memos\ drive after approved by the Director, Accounting and Regulatory Reporting and the Controller.

Files containing the Error Assessment Memos can only be saved to the \<u>\lgeenergy.int\shares\Group3</u>: acctrestricted\Error Assessment Memos\drive/directory by the Director, Accounting and Regulatory Reporting and the Controller or their designees to ensure only approved memos are presented. All other access to the directory is set as "read-only".

- 6. When a significant financial or non-financial item is identified and affects an entity's financial statements, the Controller will make a preliminary determination as to whether the item may require adjustment to or disclosure in the financial statements. If adjustment and/or disclosure are deemed necessary, the Manager, Financial Reporting or a designee in Financial Reporting and the appropriate Controller's group department will draft the appropriate change and/or prepare the required disclosure. Concurrence will be obtained from the Controller and the result will be communicated back to the appropriate business line.
- 7. The Controller or the Controller's designee will assess all waived adjustments individually and collectively in relation to the relevant company(ies) and relevant line items of the affected company's(ies') financial statements to determine that waived adjustments individually and collectively are immaterial. The determination that adjustments individually and collectively are immaterial must consider qualitative items in addition to quantitative measures. See Quantitative and Qualitative under General Requirements.
- 8. Should it be determined that items previously determined to be immaterial are determined to be material, either quantitatively or qualitatively, after the general ledgers have been closed for the period, the general ledgers will be reopened to adjust for the items, and the financial statements will be adjusted accordingly.
- 9. Adjustments deemed to be immaterial are identified after balances for the reporting period(s) are submitted to PPL for the reporting period and will be communicated to the appropriate personnel within PPL by the Controller's designee through the following:
  - Waived adjustment list
  - Individual Error Assessment Memos
  - Overall Assessment of Errors to the Financial Statements

10. Adjustments waived as immaterial will be reported to the GFOC during its quarterly meeting.

## (Note: Text in italics indicates key SOX control 80.08.08)

#### Reports Generated and Recipients:

- Individual Error Assessment Memos will be generated using the format in Appendix A when required by this policy and provided to the Controller
- Overall Assessment of Errors to the Financial Statements a summary of waived adjustments and reclassifications will be prepared for and approved by the Controller quarterly

#### Additional Controls or Responsibility Provided by Other Procedures:

• All balance sheet accounts will be reconciled based on their assigned risk but at least quarterly in accordance with the Balance Sheet Account Reconciliation policy and procedures

### 357 - Assets/Liabilities Classification

## (Note: Text in italics indicates a key SOX control.)

**Policy:** To properly record assets and liabilities on the balance sheet as current or long-term.

**Procedure:** The detailed procedure provides specifics for identifying assets and liabilities as current or long-term based on accounting guidance and the nature of the underlying transactions.

**Scope:** The policy and procedure applies to LG&E and KU Energy LLC ("LKE") and its subsidiaries.

**Objective of Procedure:** To ensure accurate presentation of assets and liabilities on the balance sheet.

#### **General Requirements:**

#### **Detailed Procedures Performed:**

Per the Master Glossary of the Accounting Standards Codification ("ASC"), current assets are used to designate cash and other assets or resources commonly identified as those that are reasonably expected to be realized in cash or sold or consumed during the normal operating cycle of the business. LKE's operating cycle is 12 months. Per the Master Glossary of the Accounting Standards Codification ("ASC"), current liabilities are used principally to designate obligations whose liquidation is reasonably expected to require the use of existing resources properly classifiable as current assets, or the creation of other current liabilities. Per ASC 210-10-45-7, various debt transactions may result in current liability classification. These transactions are the following: due on demand loan agreements, callable debt agreements, and shot-term obligations expected to be refinanced.

#### Current Assets:

For LKE, current assets typically include resources such as:

- Cash, cash equivalents, restricted cash and restricted cash equivalents<sup>i</sup>
- Short-term investments including certain marketable securities and short-term deposits that could be used in current operations are reflected in other within current assets<sup>i</sup>
- Accounts receivable, less a reserve for uncollectible accounts
- Unbilled revenue
- Receivables from officers, employees, affiliates and others, if collectible in the ordinary course of business within a year
- Inventories of fuel, materials and operating supplies

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Garrett

Date 9/1/2020 Page 2 of 5

### 357 - Assets/Liabilities Classification

## (Note: Text in italics indicates a key SOX control.)

- Prepaid expenses such as insurance, rents, taxes, current paid advertising service not yet received applicable to the next 12 months
- Certain deferred income tax assets
- Assets held for sale
- Price risk management assets expected to be realized within 12 months
- Portion of intangibles related to emission allowances and renewable energy credits expected to be consumed or sold within 12 months
- Regulatory assets related to under-recovery of regulatory mechanisms (FAC, ECR, GSC, GLT, Plant Outage Normalization and DSM)

If a current asset has been specifically designated for use of repayment or liquidation of a long-term liability, it should be classified as a noncurrent asset.

Certain resources warrant classification as noncurrent assets, including:

- Cash and claims to cash which are restricted to withdrawal or use for other than current operations, are designated for expenditure in the acquisition or construction of noncurrent assets or are segregated for the liquidation of long-term debt
- Investments in securities or advances which have been made for the purposes of control, affiliation, or other continuing business advantage<sup>i</sup>
- Receivables arising from unusual transactions which are not expected to be collected in 12 months
- Cash surrender value of life insurance policies
- Land and other natural resources
- Depreciable assets
- Financing costs associated with long-term debt (financing costs, commissions, reacquired debt (in regulated operations only), even if a portion will be amortized in the subsequent 12 months)
- Long-term prepayments which are chargeable to the operations over several years, or deferred charges such as prepayments under a long-term lease
- Regulatory assets not related to under-recovery of regulatory mechanisms (see above)

#### Current Liabilities:

For LKE, current liabilities typically include obligations such as:

- Trade accounts payable for obligations to be repaid within the normal operating cycle of the business
- Short-term debt is generally classified as a current liability when the transfer of resources is required during the normal operating cycle of the business. There are certain exceptions <sup>ii</sup>

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Garrett

Date 9/1/2020 Page 3 of 5

## 357 - Assets/Liabilities Classification

## (Note: Text in italics indicates a key SOX control.)

- Long-term debt portion payable within 12 months<sup>iii</sup>
- Debt and other obligations due on demand (many customer and collateral deposits are considered current because they are due on demand)
- Accruals of expenses such as wages, commissions, rentals and royalties
- Income and other taxes payable (including taxes withheld payable) within 12 months
- Interest payable within 12 months
- Dividends declared and payable within 12 months
- Liabilities related to assets held for sale
- Price risk management liabilities expected to be realized within 12 months
- Current portion of ARO liability if timing of settlement is reasonably assured
- Advances and deposits
- Regulatory liabilities related to over-recovery of regulatory mechanisms (FAC, ECR, GSC and DSM)

FERC and U.S. GAAP reporting requirements may differ. Oracle balance sheet accounts are established consistent with the FERC Uniform System of Accounts. Each Oracle balance sheet account must be identified to the appropriate line item for both utility financial reports and U.S. GAAP financial statements by indicating the appropriate line item on the GLAFF Change Request Form. Within the GLAFF Change Request Form, inquiries will be made about prior period balances for reclassification discussions, see accounting policy and procedure 354 – Materiality Policy for further information.

Each department is responsible for reviewing the account balances under its responsibility before the end of Day 4 during monthly accounting close to ensure that an asset account with a credit (negative) balance and/or a liability or equity account with a debit (positive) balance are properly reported. An EIS query has been developed to facilitate this analysis; the query name is GL\_Trial Balance review. The report returns all accounts with non-net zero balances for the period for all companies and populates a "Check" column within the query with "YES" if certain criteria detailed above are met.

Reports Generated and Recipients:

EIS query - GL\_Trial Balance review

Date Created: 3/31/11 Date Revised: 8/9/11, 3/21/13, 3/21/16, 8/18/2020

<sup>&</sup>lt;sup>i</sup> Generally, only investments with original maturities of three months or less qualify a scash equivalents. Original maturity means the original maturity to the entity holding the investment. For example, both a three-month U.S. Treasury bill and a three-year Treasury note purchased with three months to maturity qualify a scash equivalents. However, a Treasury note purchased three years a go does not become a cash equivalent when its remaining maturity is three months or less).

<sup>&</sup>lt;sup>ii</sup> FASB ASC 470-10-45-14 (Debt-Overall-Other Presentation Matters) indicates that a short-term obligation shall be excluded from current liabilities if the entity intends to refinance the obligation on a long-term basis and the intent to refinance the short-term obligation on a long-term basis is supported by an ability to consummate the refinancing demonstrated in either of the following ways:

A. Post-balance-sheet-date issuance of a long-term obligation or equity securities. After the date of an entity's balance sheet but before that balance sheet is issued or is available to be issued a long-term obligation or

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Page 57 of 354 Garrett

Date 9/1/2020 Page 5 of 5

#### 357 - Assets/Liabilities Classification

(Note: Text in italics indicates a key SOX control.)

equity securities have been issued for the purpose of refinancing the short-term obligation on a long-term basis. If equity securities have been issued, the short-term obligation, although excluded from current liabilities, shall not be included in owners' equity.

- B. Financing agreement. Before the balance sheet is issued or is a vailable to be issued, the entity has entered into a financing agreement that clearly permits the entity to refinance the short-term obligation on a long-term basis on terms that are readily determinable, and all of the following conditions are met:
  - a. The agreement does not expire within one year (or operating cycle) from the date of the entity's balance sheet and during that period the agreement is not cancelable by the lender or the prospective lender or investor (and obligations incurred under the agreement are not callable during that period) except for violation of a provision with which compliance is objectively determinable or measurable.
  - b. No violation of any provision in the financing agreement exists at the balance sheet date and no available information indicates that a violation has occurred thereafter but before the balance sheet is issued or is available to be issued, or, if one exists at the balance sheet date or has occurred thereafter, a waiver has been obtained.
  - c. The lender or the prospective lender or investor with which the entity has entered into the financing a greement is expected to be financially capable of honoring the agreement.

<sup>iii</sup> Current portion of long-term debt should also include long-term obligations that would be callable by a creditor if LKE was in violation of the debt a greement at the balance sheet date for which the violation would make the obligation callable.

### (Note: Text in italics indicates a key SOX control.)

## **Policy:**

FASB's Accounting Standards Codification Topic 815 (ASC 815), <u>Derivatives and Hedging</u> establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. It requires that all derivatives that have not qualified for scope exceptions to be recognized on the balance sheet at fair value. If certain conditions are met, a derivative may be specifically designated as a cash flow hedge, fair value hedge, or net investment hedge.

LG&E and KU Energy LLC's (LKE) regulated entities Louisville and Gas and Electric Company (LG&E) and Kentucky Utilities Company (KU) (collectively the Company) apply the provisions of ASC 980, "Regulated Operations," which provide for the creation of regulatory assets and liabilities when regulators allow for costs to be recovered in a period other than when the costs would be charged to expense by an unregulated entity. Derivative activity that has not been designated as Normal Purchases or Normal Sale (NPNS) is reflected in current earnings (that is, hedge accounting is not elected); the income statement impact is then reversed with the creation of a regulatory asset or liability when it is probable that these costs are recoverable. When a regulated entity cannot assert that it is probable that the costs are recoverable (for example, when the entity uses forward starting swaps to hedge the cash flows from an anticipated debt issuance that have not been approved by a regulator), it will receive hedge accounting treatment, provided that all requirements for hedge accounting are met. When management determines that it is probable that the gains/losses from the hedge will be reflected in rates, regulatory accounting treatment will be elected and the gains/losses will be reclassified from OCI to a regulatory asset or liability, to recognize that the economic impact belongs to the ratepayer, not the shareowner.

The Company's policy is to designate all contracts for commodity purchases for fuel and other products that are derivatives and that have physical delivery points where there is customer need or for company operations as normal purchases. The Company believes that these commodity contracts are derivatives; however, the contracts fall under the exception guidelines and are considered normal purchases, exempt from fair value mark to market accounting. Management noted that the commitment contracts for commodity purchases are executed in the ordinary course of business. The Company's intention is to take physical delivery of the materials purchased and to utilize them in the daily transactions of normal production or transportation to its customers. Management noted that certain contracts have provisions to be able to net settle (forward contracts). While certain provisions exist, management has no intention to net settle as these purchases are used in operations or delivery to customers. As such, the contracts qualify for the normal purchase, normal sale exemption in accordance with Company policy as well as outlined in ASC 815 and accordingly are exempt from fair value mark to market accounting. No trading commodity swaps are transacted at this time, as documented in Note 18 in the Authority Limits Matrix, which states: "*No contracts or transactions for any of the commodities listed* 

### (Note: Text in italics indicates a key SOX control.)

under Power Supply, Fuel and By-Products or Gas Supply may be entered into utilizing financial instruments including, but not limited to, forwards, futures, and/or swaps. As such, commodity hedge accounting treatment will not be discussed in this policy.

#### **Procedure:**

Derivatives not qualifying for scope exceptions are recognized on the balance sheet at fair value.

#### Scope:

Derivative instruments represent rights or obligations meeting the definition of assets or liabilities and should be reported in the financial statements. Per ASC 815-10-15-83, a derivative instrument is a financial instrument or other contract with all three of the following characteristics:

- 1. It has (1) one or more **underlyings** and (2) one or more **notional amounts**<sup>1</sup> or payment provisions, or both. Those terms determine the amount of the settlement or settlements, and, in some cases, whether or not a settlement is required. An **underlying** is a specified interest rate, security price, commodity price, foreign exchange rate, index of rates, or other variable (including the occurrence or nonoccurrence of a specified event such as a scheduled payment under a contract). A **notional amount** is a number of currency units, shares, megawatts, pounds, or other units specified in a derivative instrument.
- 2. It requires **no initial net investment** or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- 3. Its **terms require or permit net settlement.** A contract meets the net settlement criteria if its settlement provisions meet one of the following criteria:
  - a. Neither party is required to deliver an asset that is associated with the underlying and that has a principal amount, stated amount, face value, number of shares, or other denomination that is equal to the notional amount (or the notional amount plus a premium or minus a discount). For example, most interest rate swaps do not require that either party deliver interest-bearing assets with a principal amount equal to the notional amount of the contract.<sup>2</sup>

<sup>&</sup>lt;sup>1</sup> Sometimes, other names are used. For example, the notional amount is called a face amount in some contracts.

<sup>&</sup>lt;sup>2</sup> ASC 815-10-55-9 through 55-18 state that a non-performance penalty provision that requires the defaulting party to compensate the non-defaulting party for any loss incurred but does not allow the defaulting party to receive the effect of favorable price changes (an asymmetrical default provision) does not give a commodity forward contract the characteristic described as net settlement. In contrast, a contract that permits only one party to elect net settlement of

#### (Note: Text in italics indicates a key SOX control.)

- b. One of the parties is required to deliver an asset of the type described above in paragraph (a), but there is a market mechanism that facilitates net settlement; for example, an exchange that offers a ready opportunity to sell the contract or to enter into an offsetting contract.
- c. One of the parties is required to deliver an asset of the type described in paragraph (a), but that asset is readily convertible to cash<sup>3</sup> or is itself a derivative instrument. An example is a forward contract requiring delivery of an exchange-traded equity security. Although the number of shares to be delivered is the same as the notional amount of the contract and the price of the shares is the underlying, an exchange-traded security is readily convertible to cash. Another example is a swaption an option to require delivery of a swap contract, which is a derivative.

Although a contract may meet the definition of a derivative, it may be exempt from fair value accounting if the contract is considered a NPNS. For those transactions qualifying for the normal exception, LKE records the transactions at the time of delivery (accrual accounting). Guidelines for determining if a contract qualifies for the NPNS exception can be found in the "Qualifying for the Normal Purchases and Normal Sales Exception for Energy Transactions" section.

Additionally, the following contracts are generally not subject to derivative accounting requirements if specified criteria are met:

- Normal purchases and sales (election must be documented)
- Regular-way security trades
- Certain insurance contracts
- Certain financial guarantee contracts
- Certain contracts not traded on an exchange, such as a climactic, geological variable, or other physical variable
- Derivative instruments that impede sales accounting
- Investments in life insurance
- Certain investment contracts
- Certain loan commitments
- Certain interest-only and principle-only strips
- Certain contracts involving an entity's own equity

the contract (by default or otherwise), and thus participate in either favorable changes only or both favorable and unfavorable price changes in the underlying, meets the derivative characteristic described as net settlement. <sup>3</sup> FASB Concepts Statement No. 5, Recognition and Measurement in Financial Statements of Business Enterprises, states that assets that are readily convertible to cash "have (i) interchangeable (fungible) units and (ii) quoted prices available in an active market that can rapidly absorb the quantity held by the entity without significantly affecting the price" (paragraph 83(a)). For contracts that involve multiple deliveries of the asset, the phrase "in an active market that can rapidly absorb the quantity held by the entity" should be applied separately to the expected quantity in each delivery.

### (Note: Text in italics indicates a key SOX control.)

- Lease arrangements
- Residual value guarantees
- Registration payment arrangements
- Contracts issued or held by an entity that are both (1) indexed to its own stock and (2) classified in stockholders' equity
- Contracts issued by an entity in connection with stock-based compensation
- Contracts issued by an entity as contingent consideration from a business combination
- Forward contracts that require settlement by an entity delivering cash in exchange for the acquisition of a fixed number of its equity shares

Based on LKE's assessment, certain commodity contracts do not meet the definition of a derivative because there is no net settlement, as defined in paragraph (c) above. While many physical commodity contracts meet the definition of a derivative because the commodities are considered "readily convertible to cash," the determination of "readily convertible to cash" requires judgment. Markets continually evolve, which can increase or decrease a market's liquidity and/or the number of products available. At this time, LKE does not consider contracts requiring physical delivery of coal, renewable energy credits not traded on an exchange, or limestone to be derivatives, because LKE does not believe that the contracts meet the net settlement criteria, including "readily convertible to cash". If or when LKE believes markets have evolved to the point where the contracts are considered "readily convertible to cash," LKE would apply ASC 815-10-25-3, which states if a contract not meeting the definition of a derivative instrument at acquisition by the entity meets the definition of a derivative instrument after acquisition, the contract shall be recognized immediately as either an asset or liability with the offsetting entry recorded in earnings. The Company would elect normal accounting for these commodity contracts should they become derivatives in the future. This election will preclude the need to mark these contracts to fair value in the future as long as they continue to qualify for that exception.

#### **Embedded Derivatives**

An embedded derivative is defined as implicit or explicit terms within a contract that do not in their entirety meet the definition of a derivative and affect, in a manner similar to a derivative, some or all of the cash flows or the value of other exchanges required by the contract. In certain circumstances embedded derivatives are required to be bifurcated and accounted for separately, in the same manner as free-standing derivatives. Bifurcation is required when all of the following criteria are met:

- The economic characteristics and risks of the embedded derivative are not "clearly and closely related" to the economic characteristics and risks of the host contract.
- The contract that embodies both the embedded derivative and the host contract is not remeasured at fair value under GAAP with changes in fair value reported in current earnings.

## (Note: Text in italics indicates a key SOX control.)

• A separate, free-standing instrument with the same terms as the embedded derivative would be a derivative.

FASB has indicated that debt, equity, and lease contracts are the most likely contracts to contain embedded derivatives, but they may exist in any contract. Characteristics of potential embedded derivatives are:

- Renewal, extension, cancellation, and prepayment options in debt
- Contracts that can be settled through multiple means (e.g., gross physical shares, net physical shares, or cash)
- Contracts denominated in or referenced to a foreign currency that is not characteristic of either party to the transaction
- Commodity contracts with floor and ceiling prices, which constitute an embedded put and/or call option (collar)
- Investments in convertible, exchangeable, or indexed debt
- If...then provisions, such as:
  - A contract that requires additional payments if a particular index, such as an interest rate, equity or foreign currency index, moves above a predetermined floor or cap
  - A contract for which the cash flows can fluctuate based on the occurrence or nonoccurrence of a specified event, such as a change in control
  - A contract for which cash flows can fluctuate based on a sliding scales or index.

Paragraph 815-15-25-4 states if an entity identifies an embedded derivative that must be bifurcated in a financial instrument not re-measured at fair value under GAAP, the entity may irrevocably elect to record the entire host contract at fair value. LKE assesses this option on a facts and circumstances basis.

FASB issued ASU 2014-16 Determining Whether the Host Contract in a Hybrid Financial Instrument Issued in the Form of a Share is More Akin to Debt or Equity. GAAP requires that entities issuing or investing in hybrid financial instruments separate embedded derivative features from the host contract and account for the feature as a derivative. This guidance applies to hybrid financial instruments that are issued in the form of a share and must be evaluated to determine if those shares are more akin to debt or equity. Currently, LKE does not issue or invest in these types of financial instruments as described in FASB ASU 2014-16.

## **Objective of Procedure:**

The objective of this policy is to outline the accounting methodology followed by LKE to comply with accounting and reporting requirements for derivatives and hedging activities.

### (Note: Text in italics indicates a key SOX control.)

#### **General Requirements:**

#### **Detailed Procedures Performed:**

LKE does not currently elect hedge accounting, but rather utilizes regulatory treatment for financial derivatives where regulatory precedence exists. If regulatory treatment was revoked at any time in the future, LKE would need to implement hedge accounting and would need to demonstrate the hedges were effective to use hedge accounting. Furthermore, as a matter of due diligence, PPL Corporation (PPL) or LKE (depending on the type of swap) performs hedge effectiveness testing to ensure a swap was prudently executed.

ASC 815, <u>Derivatives and Hedging</u>, provides for three types of hedges, which are described briefly below:

- 1. **Fair value hedge** (ASC 815-25): A hedge of the exposure to changes in the fair value of a recognized asset or liability, or of an unrecognized firm commitment, that are attributable to a particular risk;
- 2. **Cash flow hedge** (ASC 815-30): A hedge of the exposure to variability in the cash flows of a recognized asset or liability or of a forecasted transaction, that is attributable to a particular risk;
- 3. Net investment hedge (ASC 815-35): A hedge of the exposure to foreign currency risk of a net investment in a foreign operation.

If the derivative instrument qualifies as a hedging instrument, the gains or losses are recognized in earnings and offset by recognition of the effective portion of the hedge as an asset or liability on the balance sheet (for fair value hedges); are recognized in equity as part of accumulated other comprehensive income (AOCI) (for cash flow hedges) to the extent the hedge is effective and later reclassified into earnings when the hedged item impacts earnings.

Designating a contract as a cash flow hedge, fair value hedge, or normal contract is an accounting election. As previously stated, LKE does not currently elect hedge accounting, even though the contract may be eligible for hedge accounting. LKE has derivatives accounted for under regulatory accounting that include interest rate swaps which are cash flow hedges (intercompany with PPL) and economic hedges. Economic hedges are transactions serving to mitigate cash flow or fair value risks that are not designated as hedging transactions for financial reporting purposes.

FASB issued ASU 2017-12 Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities with the intent to improve the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. In addition, the FASB made certain targeted improvements to simplify the

## (Note: Text in italics indicates a key SOX control.)

application of hedge accounting guidance. The update provides further guidance on the treatment of fair value, cash flow, and net investment hedges. As LKE does not currently elect hedge accounting, these updates do not apply to the Company.

## **Derivative Identification/Contract Review**

Due to their complexity, all energy (and energy-related), interest rate, and foreign exchange contracts must be reviewed by accounting personnel to determine the applicability of derivative accounting guidance. As part of Policy 451 - Contractual Review, all contracts within scope are reviewed by appropriate personnel to ensure they are properly evaluated to identify the potential presence of a derivative, an embedded derivative, lease, guarantee or variable interest entity (VIE). Contracts within scope are reviewed at contract execution or following any significant amendment to the contract. The following additional policies are followed for reviewing contracts:

- 454 Leases
- 1058 Variable Interest Entities
- 1057 Guarantees

Designated business line contacts are required to contact designated Regulatory Accounting & Reporting (RAR) personnel to discuss and review contract terms to determine whether the contract, or any of its components, must be accounted for under derivative accounting guidance. With input from the business line contacts, RAR formally documents its review as documented in the Policy 451- Contractual Review.

The Derivative Documentation Flowchart located in Appendix 1 provides general guidance for classifying transactions under derivative accounting standards. Any questions concerning the identification and designation of a contract should be directed to the RAR Department.

The derivatives section of the contract review template is attached as Appendix 2.

## **Hedge Documentation Requirements**

The criteria for hedge accounting are very specific. Derivatives utilized as hedges must substantially offset the risk associated with the underlying contract or forecasted transaction being hedged and must be specifically designated and documented as a hedge. While ASC 815-20 does not provide specific guidance, prior FAS 80 practice and informal FASB staff statements provide that a hedge must be 80% - 125% effective to qualify for hedge accounting.

#### (Note: Text in italics indicates a key SOX control.)

When a contract is designated as a hedge, **formal documentation must be completed concurrently**, explaining why the derivative is a hedge and its association with the hedged transaction. Hedge documentation must include, at a minimum, the following criteria:

- 1. An identification of the hedging instrument, the hedged item, and nature of the risk that is being hedged.
- 2. A description of how the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk will be assessed, both prospectively and retrospectively.
- 3. A specification of the entity's intent for undertaking the hedge.
- 4. Evidence that, at the hedge's inception and on an ongoing basis, it is expected the hedging relationship will be effective in achieving offsetting changes in the fair value or cash flows that are attributable to the hedged risk.
- 5. Formal approvals of non-system-generated hedge documentation by the applicable business line and the responsible accounting group.

Initial designation of interest rate swaps is to be made by Corporate Finance at the time the swap is executed and simultaneously entered into Wallstreet Suite Systems (WSS).

#### Qualifying for Cash Flow Hedge - Accounting Treatment

In a cash flow hedge, a derivative instrument is marked to its fair value with gains or losses reflected in Accumulated Other Comprehensive Income (AOCI). The gain or loss on the derivative instrument is reclassified from AOCI into earnings in the same period as the loss or gain is recognized on the hedged cash flow. Any ineffectiveness (discussed later) associated with the cash flow hedge will be recorded immediately in current earnings.

From time to time, LKE enters into intercompany forward-starting interest rate swaps with PPL that hedge the interest payments on new debt expected to be issued. These swaps are classified as cash flow hedges. All of these swaps have terms identical to forward-starting swaps entered into by PPL with third parties. The swap information is entered into WSS and at the end of each month the Corporate Finance Analyst generates the accounting entries required to book the Mark to Market (MTM) values of each outstanding intercompany forward-starting swap. Gains and losses on these swaps are probable of recovery through regulated rates; as such, the monthly change in MTM value is reclassified from AOCI to regulatory assets/liabilities and upon termination, the net settlements of the swaps are recognized in Interest Expense over the life of the newly issued debt. Hedge effectiveness testing is performed by the PPL Corporate Finance organization at inception

#### (Note: Text in italics indicates a key SOX control.)

at least quarterly. See **Hedge Documentation Requirements** section above for formal documentation requirements.

A forecasted transaction is eligible for designation as the hedged item in a cash flow hedge if all the following additional criteria are met:

- a. The forecasted transaction is specifically identified as a single transaction or a group of individual transactions. If the hedged transaction is a group of individual transactions, those individual transactions must share the same risk exposure for which they are designated as being hedged.
- b. The occurrence of the forecasted transaction is probable. The Company relies on the business plan and subsequent forecasts that document, among other things, its expected financing needs, as well as plan updates provided by senior management.
- c. The forecasted transaction is a transaction with a party external to the reporting entity and presents an exposure to variations in cash flows for the hedged risk that could affect reported earnings.
- d. The forecasted transaction is not the acquisition of an asset or incurrence of a liability that will subsequently be re-measured with changes in fair value attributable to the hedged risk reported currently in earnings. If the forecasted transaction relates to a recognized asset or liability, the asset or liability is not re-measured with changes in fair value attributable to the hedged risk reported currently in earnings.
- e. If the variable cash flows of the forecasted transaction relate to a debt security that is classified as held-to-maturity, the risk being hedged is the risk of changes in its cash flows attributable to default or changes in the obligor's creditworthiness. For those variable cash flows, the risk being hedged cannot be the risk of changes in its cash flows attributable to changes in market interest rates.
- f. The forecasted transaction does not involve a business combination and is not a transaction (such as a forecasted purchase, sale, or dividend) involving (1) a parent company's interests in consolidated subsidiaries, (2) a minority interest in a consolidated subsidiary, (3) an equity-method investment, or (4) an entity's own equity instruments.
- g. If the hedged transaction is the forecasted purchase or sale of a **non-financial** asset, the designated risk being hedged is (1) the risk of changes in the functional-currency-equivalent cash flows attributable to changes in the related foreign currency exchange rates or (2) the risk of changes in the cash flows relating to all changes in the purchase price or sales price of the

## (Note: Text in italics indicates a key SOX control.)

asset (reflecting its actual location if a physical asset), not the risk of changes in the cash flows relating to the purchase or sale of a similar asset in a different location or of a major ingredient.

h. If the hedged transaction is the forecasted purchase or sale of a **financial** asset or liability or the variable cash inflow or outflow of an existing financial asset or liability, the designated risk being hedged is (1) the risk of changes in the cash flows of the entire asset or liability, such as those relating to all changes in the purchase price or sales price (regardless of whether that price and the related cash flows are stated in the entity's functional currency or a foreign currency), (2) the risk of changes in its cash flows attributable to changes in market interest rates, (3) the risk of changes in the functional-currency-equivalent cash flows attributable to changes in its cash flows attributable to default or changes in the obligor's creditworthiness. Two or more of the above risks may be designated simultaneously as being hedged.

#### **Economic Hedges:**

LKE has entered into interest rate swaps that economically hedge interest rate payments on variable rate debt. The Corporate Finance Analyst generates the accounting entries required to book the Mark to Market (MTM) values of each outstanding interest rate swap. Because realized gains and losses from these swaps are recoverable through regulated rates, any subsequent changes in fair value of these derivatives are included in regulatory assets or liabilities until they are realized as interest expense. Realized gains and losses are recognized in Interest Expense when the hedged transaction occurs.

#### **Qualifying for Fair Value Hedge Accounting**

A fair value hedge represents the hedge of an exposure to changes in the fair value of an asset, liability, or an unrecognized firm commitment that is attributable to a particular risk. In a fair value hedge, a derivative instrument is marked to its fair value currently through earnings, as it is an offsetting change to fair value of the hedged item. A hedge that is 100% effective would offset perfectly; otherwise, the ineffectiveness will impact earnings. See **Hedge Documentation Requirements** for formal documentation requirements.

Designated derivative instruments qualify for fair value hedge accounting if all of the following criteria are met:

- a. At inception of the hedge, there is formal documentation of the hedging relationship and the entity's risk management objective and strategy for undertaking the hedge.
- b. Both at inception of the hedge and on an ongoing basis (at least quarterly), the hedging relationship is expected to be highly effective in achieving offsetting changes in fair value attributable to the hedge risk during the period that the hedge is designated.

## (Note: Text in italics indicates a key SOX control.)

c. If a written option is designated as hedging a recognized asset or liability, the combination of the hedged item and the written option provides at least as much potential for gains as a result of a favorable change in the fair value of the combined instruments as exposure to losses from an unfavorable change in their combined fair value.

LKE uses fair value hedges in certain circumstances when LKE hedges the fair value of its floating-rate debt by effectively converting it to fixed-rate obligations through the use of a float-to-fixed swap.

## **Tax Hedging Documentation Rules**

In addition to applying the proper designations for derivatives and energy contracts for accounting purposes, separate determinations must be made for tax purposes. The Tax department will review certain transactions for appropriate designations. Usually, the Company's federal income tax issues related to its use of derivatives and energy contracts concern whether the gain or loss arising from such contracts will be treated as capital or ordinary. Generally, ordinary gain or loss treatment is preferable because the Internal Revenue Code limits the deductibility of capital losses. For LKE, taxable gains and losses are recorded when a hedge terminates and LKE pays cash or receives cash. Gains and losses due to changing market conditions that are recorded to the regulatory asset or liability are not a taxable transaction and no determination is needed.

#### **Hedge Effectiveness Testing**

Derivative accounting may increase volatility in earnings to the extent hedges do not perfectly offset the underlying risk and do not receive regulatory accounting treatment. Earnings volatility is also increased by the requirement that hedge accounting treatment is permitted only for those hedges that are deemed to be effective (commonly defined as being between 80% and 125%) and only the effective portion of the hedge is recorded in AOCI, with the ineffective portion being recorded in earnings.

Ineffectiveness results when the change in the hedging instrument's fair value or cash flows are not completely offset by the change in the hedged item's fair value or cash flows. For a cash flow hedge, the effective portion of the gain or loss is reported in AOCI and the ineffective portion (that exceeds the change in the hedged item's fair value) is reported quarterly in earnings. For fair value hedges, changes in the fair value of the derivative and the hedged items are reflected in earnings. Ineffectiveness is recorded to the same line items as the hedged transactions.

#### Initial Hedge Effectiveness Assessment (Prospective Assessment)

The initial hedge effectiveness assessment is a prospective assessment made prior to initiating a hedge relationship. This analysis shall be able to justify the expectation that the hedge will be highly effective over the period being hedged (the hedged period) in achieving offsetting changes in the cash flows or fair value of the hedged item.

## (Note: Text in italics indicates a key SOX control.)

The methods of assessing prospective hedge effectiveness include regression analysis or another statistical analysis approach (such as historical simulation or Monte Carlo simulation). The FASB decided not to include examples of specific effectiveness assessment tests to preserve entities' flexibility. The Company typically elects to use regression for the initial prospective assessment of hedge effectiveness, but any method may be chosen, as long as it is stated in the hedge documentation. To conclude that the hedging relationship is expected to be highly effective using a regression analysis, at least 30 data points should be used in the analysis. The  $R^2$  (which can vary between 0 and 1) should be equal to or greater than 0.8, the slope should be between a 0.8 and 1.25, and the "t" and "F" statistics should be evaluated at a 95 percent confidence level in accordance with guidance provided by the SEC staff.

 $R^2$  measures the ability of the independent variable to explain the variation in the dependent variable. The higher the value is, the higher the indication that the independent variable can explain variation in the dependent variable. The slope represents an estimate of the sensitivity to changes in the independent price to changes in the dependent price.

The "t" and "F" statistics are used to indicate correlation or a linear relationship between independent and dependent variables. A high "t" statistic generally indicates that correlation or a linear relationship exists between the independent and dependent variables. To achieve a 95% confidence level, the significance of "F" should be less than 5%. If the significance of "F" is less than 5% there is less than 5% probability that no linear relationship is present. The initial assessment need not be performed for each and every hedge but only when a new hedge strategy is proposed. However, the data used in the regression shall be updated at least on a quarterly basis (as new hedges are entered into). In addition, the initial assessment of effectiveness for a particular hedge strategy shall be evaluated if the ongoing assessment for a particular relationship, as discussed below, repeatedly indicates an ineffective hedge.

Hedges must pass volumetric tests that are used to assess that the forecasted transaction is probable of occurring.

#### Special situations: Short-cut method/Critical terms match

Shortcut: An assumption of no ineffectiveness is especially important in a hedging relationship involving an interest-bearing financial instrument and an interest rate swap, because it significantly simplifies the computations necessary to make the accounting entries (referred to as the shortcut method). An entity may assume no ineffectiveness in a hedging relationship of interest rate risk involving a recognized interest-bearing asset or liability and an interest rate swap. ASC 815-20-25-104 through 25-106 detail the criteria that must be met to apply the shortcut method. It is common for the fair value hedges of the Company's debt instruments to qualify for the short-cut method.

Critical terms match: ASC 815-20-35-9 through 35-13 allow for a simplified approach to assessing and measuring ineffectiveness of cash flow hedges if, at inception, the critical terms of the hedging instrument and the hedged forecasted transaction are the same. If so, the entity can

## (Note: Text in italics indicates a key SOX control.)

conclude that changes in cash flows attributable to the risk being hedged are expected to be completely offset by the hedging derivative. Therefore, subsequent assessments can be performed by verifying and documenting whether the critical terms of the hedging instrument and the forecasted transaction have changed during the period in review. Because the assessment of hedge effectiveness in a cash flow hedge involves assessing the likelihood of the counterparty's compliance with the contractual terms of the derivative instrument designated as the hedging instrument, the entity must also assess whether there have been adverse developments regarding the risk of counterparty default.

If there are no changes in the critical terms and it is still probable that the counterparty will not default, the entity may conclude there is no ineffectiveness to be recorded. In that case, the change in fair value of the derivative instrument can be viewed as a proxy for the present value of the change in cash flows attributable to the risk being hedged. However, the entity must measure the amount of ineffectiveness that must be recorded currently in earnings if any of the following conditions exist:

- The critical terms of the hedging instrument or the hedged forecasted transaction have changed.
- There have been adverse developments regarding the risk of counterparty default.

In addition, the entity must also assess whether the hedging relationship is expected to continue to be highly effective.

The Company will document that critical terms match for interest rate swaps that match expected debt issuances.

- Quarterly, the PPL Corporate Finance department on behalf of LKE for intercompany interest rate swaps, formally documents its assertion that the use of critical terms match as the assessment of hedge effectiveness continues to be appropriate. If terms have changed, the PPL Corporate Finance department will perform hedge effectiveness testing for the changed transactions. This generally occurs when the issuance date and/or benchmark interest rate for the forecasted debt changes.
- All blanket hedge documentation notes the need for the Corporate Finance organization to notify the appropriate accounting group if there has been a significant adverse development in any counterparty's creditworthiness. This is implicitly corroborated through the magnitude of the credit valuation adjustment.

#### **On-Going Hedge Effectiveness Testing (Prospective and Retrospective Assessments)**

## (Note: Text in italics indicates a key SOX control.)

The PPL Corporate Finance organization performs dollar offset, regression and volumetric testing for cash flow hedge and fair value hedge positions. The specific testing requirements for each hedging relationship are detailed in the respective hedge documentation.

Interest rate and foreign currency hedges generally qualify for the "short-cut method" or the "critical terms match method," which are discussed in <u>Special Situations: Shortcut</u> <u>method/Critical terms match</u>. When the Company can no longer use critical terms match (generally because Corporate Finance changes its expectation of the date it will issue debt and/or the benchmark interest rate to be hedged) as its hedge effectiveness assessment, the Company assesses hedge effectiveness via the hypothetical-derivative method, discussed in ASC 815-30-35-25 through 35-30.

Measuring hedge ineffectiveness: The only appropriate method for calculating the amount of ineffectiveness that is recorded in earnings is the dollar offset method. This method compares the amount of the dollar change in fair value or cash flows of the derivative with the amount of the dollar change in fair value or cash flows of the hedged item over the assessment period. In those cases where the Company uses the dollar offset method for its retrospective assessment and regression analysis for its prospective assessment, ASC 815-20-55-68 through 55-69 is followed to compute the amount of quarterly ineffectiveness. A hedge transaction that fails the dollar offset test but passes the regression test will lose hedge accounting for the quarter being assessed, but will not be de-designated as a hedge since the prospective assessment passes. In this instance, the entire change in fair value of the derivative for the quarter being assessed will be recorded in earnings, as well as any ineffectiveness computed as of the last time the dollar offset test passed.

#### Special Situation: Counterparty Credit Risk

ASC 815-20-35-14 through 35-18 require entities to assess the possibility of whether a counterparty will default by failing to make any contractually required payments to the entity. The assessment should include the effect of any related collateralization or financial guarantees. Although a change in a counterparty's creditworthiness would not necessarily indicate the counterparty would default, such a change must warrant further evaluation. If the likelihood that the counterparty will not default ceases to be probable, an entity would be unable to conclude that the hedging relationship in a cash flow hedge is expected to be highly effective. In contrast, a change in the creditworthiness of a counterparty in a fair value hedge would have an immediate impact because the change in the creditworthiness would affect the change in the derivative's fair value, which would immediately affect both the assessment of whether the relationship qualifies for hedge accounting and the amount of ineffectiveness to be recognized. The Credit and Contract Administration Department (Credit) monitors the credit worthiness of a counterparty be down-graded, Credit would be responsible for informing Corporate Finance. Due to regulatory accounting treatment applied to derivatives, Corporate Finance would adjust the credit value reserve accordingly when

## (Note: Text in italics indicates a key SOX control.)

calculating the monthly mark-to-market valuation. Additionally, any call for collateral outlined in the derivative documentation would be executed.

However, under fair value accounting guidance, nonperformance risk (including the counterparty's credit risk and the entity's own credit risk) may be calculated on a counterparty portfolio level (unit of valuation), if the contracts are subject to master netting arrangements (e.g., ISDA, EEI, NAESB). Conversely, derivative accounting rules are applied at transaction level (unit of account). The difference between the unit of valuation and the unit of account had raised questions regarding (1) whether credit risk must be considered in assessments of hedge effectiveness and, if so, whether a qualitative approach is permitted and (2) how and whether allocations from the counterparty portfolio to the individual derivatives should be performed.

The accounting guidance provides an explicit accommodation for credit risk in cash flow hedging relationships, and for calculations performed under methodologies most commonly used, credit risk does not impact the dollar amount of ineffectiveness recognized in earnings or the assessments of effectiveness. The three methodologies used for assessing effectiveness under a cash flow hedge, which are discussed in ASC 815-30-35-10 through 35-32, are:

- Method 1: Change in variable cash flows (credit risk is not assessed)
- Method 2: Hypothetical derivative (credit risk is qualitatively assessed)
- Method 3: Change in fair value (would result in ineffectiveness from credit risk)

For fair value hedging relationships (excluding those accounted for under the short-cut method), the fair value of the derivative must include an adjustment for credit risk, whereas the assessment of the hedged item for hedges of the benchmark interest rate (the Company's most common strategy when using fair value hedges) is not impacted by credit risk. In April 2008, the SEC provided guidance that a qualitative analysis may be performed for non-shortcut fair value hedges in which the entity determines that changes in fair value attributable to credit risk would not affect whether the hedge is considered highly effective. Therefore, the Company is permitted to exclude the credit valuation adjustment calculated on a counterparty portfolio from the quarterly quantitative assessments, provided that the Company documents qualitatively that credit risk would not cause the hedging relationship to fail.

#### (Note: Text in italics indicates a key SOX control.)

## **Derivative Classifications**

# Qualifying for the Normal Purchase and Normal Sales (NPNS) Exception for Energy Transactions

Contracts providing for the purchase or sale of nonfinancial instruments in quantities expected to be used or sold by the entity over a reasonable period in the normal course of business are not subject to derivative accounting requirements. Transactions qualifying for the NPNS exception receive accrual accounting treatment at the time of delivery. [See Appendix 1.]

The following guidance should be considered in determining whether a specific type of contract qualifies for the NPNS exception (from ASC 815-10-15-22 through 15-51).

(1) Forward contracts (non-option-based contracts). Forward contracts are eligible to qualify for the NPNS exception if it is probable at inception and throughout the term of the individual contract that the contract will not settle net and will result in physical delivery. Therefore, forward contracts containing net settlement provisions under the contract terms<sup>4</sup> or through a market mechanism will rarely qualify for the NPNS exception.

(2) Freestanding option contracts. Option contracts that would require delivery of the related asset at an established price under the contract only if exercised are not eligible to qualify for the normal purchases and normal sales exception, except as indicated in (4) below.

(3) Forward contracts that contain optionality features. Forward contracts containing optionality features that do not modify the quantity of the asset to be delivered under the contract are eligible to qualify for the NPNS exception. Except for power purchase or sales agreements addressed in (4), below, if an option component permits modification of the quantity of the assets to be delivered, the contract is not eligible for the NPNS exception, unless the option component permits the holder only to purchase or sell additional quantities at the market price at the date of delivery. For forward contracts containing optionality features to qualify for the NPNS exception, the criteria discussed in (1) must be met.

(4) Power purchase or sales agreements. Notwithstanding the criteria in (1) and (3), a power purchase or sales agreement (whether a forward contract, option contract, or a combination of both) that is a capacity contract also qualifies for the NPNS exception if it meets the criteria below.

<sup>&</sup>lt;sup>4</sup> Neither party is required to deliver an asset that is associated with the underlying and that has a principal amount, stated amount, face value, number of shares, or other denomination that is equal to the notional amount (or the notional amount plus a premium or minus a discount). For example, most interest rate swaps do not require that either party deliver interest-bearing assets with a principal amount equal to the notional amount of the contract.

#### (Note: Text in italics indicates a key SOX control.)

#### Criteria applicable for <u>both parties</u> to the contract:

- 1. The terms of the contract require physical delivery of electricity. That is, the contract does not permit net settlement provisions, as described in ASC 815-10-15-100 through 15-109 under the contract terms or through a market mechanism settlement. For an option contract, physical delivery is required if the option contract is exercised.
- 2. The power purchase or sales agreement (whether a forward contract, an option contract, or a combination of both) is a capacity contract. Differentiating between an option contract that is a capacity contract and a traditional option contract (that is, a financial option on electricity) is a matter of judgment that depends on the facts and circumstances. For power purchase or sale agreements that contain option features, the characteristics of an option contract that is a capacity contract that is a capacity contract and a traditional option contract, which are set forth in Paragraph 815-10-55-31 [see Appendix 1], should be considered in that evaluation; however, other characteristics not listed may also be relevant to that evaluation.

#### Criteria applicable for the seller of electricity

3. The electricity that would be deliverable under the contract involves quantities that are expected to be sold by the reporting entity in the normal course of business.

#### Criteria applicable to the buyer of electricity:

- 4. The electricity that would be deliverable under the contract involves quantities that are expected to be used or sold by the reporting entity in the normal course of business.
- 5. The buyer of the electricity under the power purchase or sales agreement is an entity engaged in selling electricity to retail or wholesale customers that is statutorily or otherwise contractually obligated to maintain sufficient capacity to meet electricity needs of its customer base.
- 6. The contracts are entered into to meet the buyer's obligation to maintain a sufficient capacity, including a reasonable reserve margin established by or based upon a regulatory commission, local standards, regional reliability councils, or regional transmission organizations.

Additionally, certain contracts meeting the definition of a derivative in their entirety and may otherwise qualify for the NPNS exception have a price adjustment feature the underlying of which is based on the fair value of an asset that is different from the asset to be delivered in the contract. In other cases, the underlying of the price adjustment feature is based on an index or other variable not related to the asset to be delivered under the contract. ASC 815-10-15-30 through 15-34

## (Note: Text in italics indicates a key SOX control.)

provide guidance about when the price adjustment for an underlying would not be considered clearly and closely related to the asset being delivered, which would preclude the NPNS exception:

- The underlying is extraneous (that is, irrelevant and not pertinent) to both the changes in the cost and the changes in the fair value of the asset being sold or purchased, including being extraneous to an ingredient or direct factor in the customary or specific production of that asset.
- If the underlying is not extraneous as discussed in (1) above, the magnitude and direction of the impact of the price adjustment is not consistent with the relevancy of the underlying. That is, the magnitude of the price adjustment based on the underlying is significantly disproportionate to the impact of the underlying on the fair value or cost of the asset being purchased or sold (or of an ingredient or direct factor, as appropriate).
- The underlying is a currency exchange rate involving a foreign currency that meets none of the criteria in Paragraph 815-15-10(b) for that reporting entity

LKE policies to comply with this guidance follow:

- Forward physical contracts (non-option-based contracts) subject to unplanned netting (that is, subject to possibly being booked out) are **not** eligible to qualify for the NPNS exception unless delivery is highly probable. If not eligible for NPNS, these transactions may be eligible for cash flow hedge accounting. (See "Qualifying for Cash Flow Hedge Accounting.")
- Forward option contracts requiring delivery of the related asset at an established price under the contract only if exercised are **not** eligible to qualify for the NPNS exception, unless they meet the definition of a capacity contract. (For example, plant-specific tolling arrangements may qualify for the normal exception.) Again, if not eligible for NPNS, these transactions may be eligible for cash flow hedge accounting.
- Forward contracts containing optionality features that do not modify the quantity of the asset to be delivered are eligible for the normal purchases and normal sales exception. If an option component permits modification of the quantity of the assets to be delivered (as in the case of a requirements contract), the contract is **not** eligible for the normal purchase and normal sales exception, unless it is probable that the contract will result in physical delivery, and if the option component permits the holder only to purchase additional quantities at the market price at the date of delivery.
- Power purchase or sales agreements (whether a forward contract, option contract, or a combination of both) that are classified as capacity contracts (see definition above) may qualify for the normal purchases and normal sales exception if it meets certain criteria.

## (Note: Text in italics indicates a key SOX control.)

• Contracts that contain more than one underlying are evaluated to ensure that all underlyings are relevant to the contract or are immaterial to the overall contract. An example of an immaterial underlying could be the escalation of variable operation and maintenance costs at CPI when the primary underlying is the price of gas in a financial tolling arrangement.

The following transactions for LKE fall under the NPNS exclusion:

- Ohio Valley Electric Cooperative (OVEC) Surplus [CTS transaction ids #96002766 (LG&E), 98029245 (KU)]. These transactions represent our ownership interests in OVEC generation via our electric bilateral capacity purchase agreements. The amount of generation we receive on these contracts is based on the ownership percentages of LG&E and KU (5.63% and 2.5% respectively) and the availability of the OVEC units. These are physical purchases of electricity used to serve native load requirements in the ordinary course of business and therefore fall under the NPNS exemption.
- Trimble County Allotment to IMEA and IMPA based on ownership percentage of approximately 12.5%, respectively. These CTS "transactions" simply track the ownership percentage allotment of generated power to IMEA and IMPA from the Trimble County facility. These "transactions" are scheduling mechanisms and not real transactions.

Other transactions in CTS are <u>excluded</u> from MTM treatment due to the following:

- 1. Certain transactions are excluded:
  - Sales to ultimate customers (physical transactions) because these transactions are considered normal sales
  - Transactions to track capacity agreements for reserve margin purchases
  - Physical transactions to supply municipal customers
  - Transactions that have no notional amount (no minimum quantity)
- 2. Internal transactions between LKE are excluded since they are physical delivery transactions and therefore are NPNS.
- 3. Transmission transactions do not meet the definition of a derivative because of limited and illiquid markets which fail the net settlement provision.

#### **Transaction Accounting**

While the Company elects regulatory accounting treatment, if such treatment was no longer elected or allowed, the Company would utilize hedge accounting treatment.

### (Note: Text in italics indicates a key SOX control.)

Hedge accounting treatment is discussed below.

Cash flow hedges are marked to fair value with the effective portion reflected in AOCI, and the ineffective portion (if any) reflected currently in earnings. For interest rate derivatives, the ineffective portion would be included in the income statement line item "Interest Expense".

Amounts in AOCI are reclassified into earnings in the same period as the hedged forecasted transaction impacts earnings and on the same line item as the hedged item.

Cash flow hedge accounting is discontinued prospectively if any one of the following occurs:

- Any criteria qualifying the transaction as a cash flow hedge is no longer met.
- The derivative expires or is sold, terminated, or exercised.
- The designation of the cash flow hedge is voluntarily removed.

For discontinued hedges, the net gain or loss shall remain in AOCI and be reclassified into earnings as specified above, unless it is probable the forecasted transaction will not occur by the end of the originally specified time period or within an additional two-month period of time thereafter. If it is probable the forecasted transaction will not occur, all amounts will be reclassified into earnings at the time the hedge is discontinued. A pattern of determining hedged forecasted transactions probably will not occur would call into question both an entity's ability to accurately predict forecasted transactions and the propriety of using hedge accounting in the future for similar forecasted transactions.

#### De-designated Cash Flow Hedges

The Company may enter into an offsetting position to "lock in" a margin on another forward position that was originally designated as a cash flow hedge. If a cash flow hedge is discontinued because it is probable the original forecasted transaction will not occur, the net derivative gain or loss in AOCI shall immediately be reclassified into earnings. The Company has interpreted this guidance to mean it must be 80% probable the forecasted transaction will NOT occur. Therefore, the forecasted transaction only needs to be 20% probable at the time of de-designation for the balances to remain in AOCI at the time of de-designation.

The Corporate Finance organization would perform a dollar offset test on the original transaction as of the date of de-designation. Based on the calculation, the effective portion of the original transaction would be deferred in AOCI. The amount in AOCI would be reclassified to earnings as the deal goes to delivery. The ineffective portion of the transaction would be immediately reclassified to earnings.

#### **Deferred** taxes

### (Note: Text in italics indicates a key SOX control.)

At any given time, AOCI reflects unrealized gains and losses from active or de-designated cash flow hedges and realized gains and losses from settled or de-designated cash flow hedges. Under FASB's ASC 740, "Income Taxes," AOCI must be recorded net of taxes.

#### **Fair Value Hedge Accounting**

The gain or loss on the hedging instrument (the fair value hedge) that results from recording the derivative at fair value is recognized currently in earnings on the Statement of Income. The gain or loss on the hedged item is recorded as an adjustment to the carrying amount of the hedged item and recognized currently in earnings on the Statement of Income. For interest rate swaps, the line items that would be impacted on the Statement of Income are "Interest Expense". The realized cash settlements will be recognized in "Interest Expense" over the life of the hedged item.

#### **Economic Activity**

When describing ongoing earnings in press releases and analysts calls, the Company excludes the unrealized gains and losses ("Carve-out") related to economic hedging transactions which either do not qualify or were not designated as accounting hedges, or receive regulatory accounting treatment.

#### Realized vs. Unrealized Accounting & Reporting

As economic transactions are realized on the income statement, they should be recognized on the same major income statement line item as the unrealized activity related to those transactions.

#### **Valuation Issues**

#### **Definition of Fair Value**

Fair value, as defined in ASC 820-10-20, is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Within this definition are fair value measurement concepts including: a) exit price (an entry or settlement price does not necessarily equate to fair value), b) highest and best use, c) principal or most advantageous market and d) non-performance risk (e.g., credit risk) for an entity's assets as well as its own liabilities.

#### **Fair Value Hierarchy**

Each derivative (and other instruments recognized at fair value on the balance sheet) must be classified within one of three levels in the fair value hierarchy for disclosures purposes. The measurement of fair value gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Quoted prices for similar assets or liabilities in active markets or for identical or similar assets or

## (Note: Text in italics indicates a key SOX control.)

liabilities that are not active are considered Level 2. The level in the fair value hierarchy is to be determined based on the lowest level input that is significant to the fair value measurement in its entirety. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability. A contract is classified as Level 3 if at least 10% of its value was derived from Level 3 inputs or if a negative input (e.g., credit valuation adjustment) reduces the gross value of the contract by 10% or more.

Inputs may be observable or unobservable:

- Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity.
- Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs.

#### Valuation – General

All derivative instruments not designated and qualifying for the NPNS exception shall be recorded on the balance sheet at their fair value at each reporting period. All transactions shall be valued using appropriate valuation techniques and inputs.

Valuation techniques consistent with the market approach, income approach, and/or cost approach shall be used to measure fair value. Key aspects of those approaches are:

- **Market approach**: The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
- **Income approach:** The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts.
- **Cost approach:** The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (often referred to as current replacement cost). This valuation technique is not appropriate for the valuation of derivatives.

If no active trading market exists for a derivative or a derivative's duration, fair value must be calculated using internally developed valuation techniques or models. Key components used in these valuation techniques include price curves, creditworthiness, volatility, correlation, and tenor. There may be observable market data for certain components and unobservable data for other components, the combination of which measures the fair value of the derivative. These relationships shall be routinely

### (Note: Text in italics indicates a key SOX control.)

re-evaluated based on available market data, and changes in price relationships shall be reflected in price curves prospectively.

#### Valuation – Interest Rates Contracts

The fair value of interest rate contracts is calculated by evaluating the mark-to-market value, adjusted for other factors, such as credit risk, liquidity risk, and modeling risk.

Mark-to-Market Value: The intercompany forward-starting swaps described under the Cash Flow Hedging section above are held in WSS and valued based on rates downloaded directly from Bloomberg, where the MTM is calculated. The valuations can be considered the settlement value, excluding transaction costs.

For certain types of instruments, WSS does not calculate the MTM value adequately so a spreadsheet process is used for the valuation. On a monthly basis, a Corporate Finance Analyst who is not responsible for trading receives mark-to-market valuations from counterparties for each transaction to ensure they are reasonable. To ensure reasonableness, these monthly valuations are validated each month by an internal spreadsheet prepared by a Corporate Finance Analyst. The Corporate Finance Analyst checks the valuations received from the counterparties against this spreadsheet. If the valuation provided by the counterparty is not reasonably comparable with the internal models, the Corporate Finance Analyst resolves the differences with the counterparty. Once any errors are corrected and valuations agree, a second Corporate Finance Analyst reviews the spreadsheet for accuracy and initials the report indicating agreement. The internal models are not sophisticated enough to value the derivatives exactly and will only provide a rough approximation of the mark-to-market position.

**Credit valuation adjustments:** Valuing the credit risk in a derivative contract is particularly complex for three main reasons:

- It is unknown whether the contract will be in an asset position or liability position at the time of default (which requires entities to consider both the counterparty's and its own creditworthiness at each valuation date).
- It is unknown what the value of the contract will be at the time of default.
- Entities rarely sell/transfer contracts but enter into offsetting positions instead at prices that do not incorporate credit risk. Credit risk is managed through credit limits and collateral.

Additional complexities include:

• Credit risk theory states that credit valuation adjustments should be based on both the current exposure (current settlement value) and potential exposure, which is a function of potential price movements over time and the resulting, probability-weighted fair values.

### (Note: Text in italics indicates a key SOX control.)

The potential exposure is calculated by (a) applying implied volatilities to the current term structure of market prices, (b) determining the fair values of the derivative based on the dispersion of those prices after volatility is applied, and (c) probability weighting and discounting those potential future values. Added together, the current exposure and potential future exposure make up the total expected exposure.

• Credit valuation must include the effects of master netting arrangements and collateral (or other credit enhancements).

Fortunately, the impact of credit risk on the fair value of derivatives is generally small relative to liabilities like debt, because the principal (notional) amount is not at risk and credit enhancements often exist. As such, LKE has taken a more pragmatic approach to valuing credit risk. LKE's policy is to apply a counterparty's probability of default (from the Credit/Contract Administration department, which gets it from S&P's system) to the net asset position (offset by liabilities and collateral) for each counterparty and to apply LKE's probability of default to a net liability position (offset by assets and collateral) for each counterparty. For those net positions that include non-derivative or NPNS deals, collateral is applied first to derivatives on the balance sheet and then to the non-derivative and NPNS deals.

This practice will be assessed periodically to determine if observable market information is available to calculate its credit valuation adjustments, rather than relying on probabilities of default, which are based on historical default rates. Because LKE uses probabilities of default, the credit valuation adjustments are considered Level 3 and are considered in the overall evaluation of whether a contract should be classified as Level 2 or Level 3.

#### Domestic interest rate:

For interest rate derivatives, LKE uses a 40% recovery rate (consistent with market practice) to acknowledge it is improbable a loss given default would equal 100% of the fair value.

Some derivatives extend well beyond the probabilities of default available; as such, the Company has used simple extrapolation to extend the default curves to approach 100%, if necessary.

This practice will be assessed quarterly to assess the reasonableness of the results and to determine if observable market information is available to calculate its credit valuation adjustments, rather than relying on probabilities of default, which are based on historical default rates.
(Note: Text in italics indicates a key SOX control.)

#### **Reports Generated and Recipients:**

Monthly:

- SwapsMMYY prepared by LKE Corporate Finance calculating monthly settlement to be paid for LG&E interest rate swaps with banks
- JPMSwap CollateralMMYY prepared by LKE Corporate Finance reporting economic swap collateral requirements for month-end.
- Bond Rate Sheets and DisbReq YY prepared by LKE Corporate Finance calculating monthly interest expense on variable rate bonds used for effectiveness testing of economic swaps
- FAS133 Calculations MMYY prepared by LKE Corporate Finance to review reasonableness of MTM values provided by counterparties and to calculate monthly adjusting entries for each economic swap
- Interest Rate Swaps schedule prepared by LKE Corporate Finance to calculate effectiveness of economic swaps with banks
- MTM report for interest rate derivative cash flow hedges run from WSS at month-end to calculate MTM values of intercompany swaps with PPL
- Long-term Debt (LTD-4) prepared by LKE Corporate Finance to provide summary of all outstanding swaps at month-end

Quarterly:

- Credit Value Adjustment provided by PPL Corporate Finance to LKE Corporate Finance to record the credit value adjustment against the MTM value of the intercompany swaps with PPL
- Collateral Requirement Triggers Swaps prepared by LKE Corporate Finance to report additional collateral requirements if credit rating changes
- Swap Sensitivity to Interest Rate Summary prepared by LKE Corporate Finance to report change in market value of swaps due to effect of 10% adverse movement in rates (PPL Corporate Finance provides Bloomberg data that is used in preparing schedule)

#### (Note: Text in italics indicates a key SOX control.)

#### APPENDIX 2 - Derivative

NPNS must meet the four criteria as listed in ASC 815-10-15-25: (1) Normal Terms (ASC 815-10-15-27 through 15-29) (2) Clearly and Closely Related (ASC 815-10-15-30 through 15-34) (3) Probably Physical Settlement (ASC 815-10-15-35 through 15-36) (4) Documentation (ASC 815-10-15-37 through 15-39)	If yes, complete the rest of this section. If no, move to Step 4.
Forward (Non-Option-Based) Contracts must meet the criteria for NPNS eligibility as outlined in ASC 815-10-15-41	
Freestanding Option Contracts must meet the criteria for NPNS eligibility as outlined in ASC 815-10-15-40	
Forward Contracts that Contain Optionality Features must meet the eligibility criteria as outlined in ASC 815-10-15-42 through 15-44	

#### (Note: Text in italics indicates a key SOX control.)

#### APPENDIX 2 - Derivative

Capacity contract must meet the criteria outlined in 815-10-15-45 (Include checklist.)	If yes, must complete the ASC 815-10-15-45 checklist.
Conclusion: Normal?	

If the contract qualifies for NPNS, continue to Step 3. If it does not qualify, continue to Step 4 (Embedded Derivatives).

# Step 3: Does a contract that qualifies for the normal purchase normal sales exception have price adjustment features and therefore the NPNS exception cannot be taken?

If yes or no, continue to Step 4.

Price Adjustment Features in Contracts that Qualify for the Normal Purchase Normal Sales Exception ASC 815-10-15-30 through 15-34

ASC 815-10-15-30: Contracts that have a price based on an underlying that is not clearly and closely related to the asset being sold or purchased (such as a price in a contract for the sale of a grain commodity based in part on changes in the Standard and Poor's index) or that are denominated in a foreign currency that meets none of the criteria in paragraph 815-15-10(b) shall not be considered normal purchases and normal sales.

# LG&E and KU Energy LLC Accounting Policy and Procedures

#### 450 – Derivatives and Hedging

#### (Note: Text in italics indicates a key SOX control.)

#### **APPENDIX 2 - Derivative**

ASC 815-10-15-31: The phrase not clearly and closely related in the preceding paragraph with respect to the normal purchases and normal sales scope exception is used to convey a different meaning than in paragraphs 815-15-25-1(a) and 815-15-25-16 through 25-51 with respect to the relationship between an embedded derivative and the host contract in which it is embedded. The guidance in this discussion of normal purchases and normal sales does not affect the use of the phrase not clearly and closely related in paragraphs other than the preceding paragraph. For purposes of determining whether a contract qualifies for the normal purchases and normal sales scope exception, the application of the phrase not clearly and closely related to the asset being sold or purchased shall involve an analysis of both qualitative and quantitative considerations. The analysis is specific to the contract being considered for the normal purchases and normal sales scope exception and may include identification of the components of the asset being sold or purchased.

ASC 815-10-15-32: The underlying in a price adjustment incorporated into a contract that otherwise satisfies the requirements for the normal purchases and normal sales scope exception shall be considered to be not clearly and closely related to the asset being sold or purchased in any of the following circumstances:

Does the contract qualify for the normal purchase normal sale exception? If "No" stop here.	
Does the contract contain price adjustment features? If "No" stop here.	
a. The underlying is extraneous (that is, irrelevant and not pertinent) to both the changes in the cost and the changes in the fair value of the asset being sold or purchased, including being extraneous to an ingredient or direct factor in the customary or specific production of that asset.	
b. If the underlying is not extraneous as discussed in (a), the magnitude and direction of the impact of the price adjustment are not consistent with the relevancy of the underlying. That is, the magnitude of the price adjustment based on the underlying is significantly disproportionate to the impact of the underlying on the fair value or cost of the asset being purchased or sold (or of an ingredient or direct factor, as appropriate).	
c. The underlying is a currency exchange rate involving a foreign currency that meets none of the criteria in paragraph 815-15-10(b) for that reporting entity.	
Conclusion: Does a contract that otherwise qualifies for the normal purchase normal sales exception that has price adjustment features meet any of the criteria above? If no, the contract can receive the normal purchase normal sale exception.	

### (Note: Text in italics indicates a key SOX control.)

APPENDIX 2 - Derivative

#### Step 4: Does the contract contain an embedded derivative?

(automatically populated) 0

Embedded Derivative Instruments Evaluation ASC 815-15-25-1			
An embedded derivative shall be separated from the host contract and accounted for as a derivative instrument pursuant to Subtopic 815-10 if and only if all of the following criteria are met:			
Does the contract contain an embedded derivative? If "No", stop here. If "Yes", identify the features of the contract being evaluated for an embedded derivative.			
a. The economic characteristics and risks of the embedded derivative are not clearly and closely related to the economic characteristics and risks of the host contract.			
b. The hybrid instrument is not re-measured at fair value under otherwise applicable generally accepted accounting principles (GAAP) with changes in fair value reported in earnings as they occur.			
c. A separate instrument with the same terms as the embedded derivative would, pursuant to Section 815-10-15, be a derivative instrument subject to the requirements of this Subtopic. (The initial net investment for the hybrid instrument shall not be considered to be the initial net investment for the embedded derivative.)			
Conclusion: Does a contract meet the criteria of an embedded derivative?			

**Final Conclusion** 

(Note: Text in italics indicates a key SOX control.)

#### **Policy:**

Contracts within the scope defined below are reviewed monthly and evaluated to determine the appropriate accounting treatment related to the terms in the contract, which may include leases, variable interest entities (VIEs), guarantees, revenue recognition reporting requirements, derivatives, purchase obligations, joint and several liability, and credit contingent features within the executed contract. Additionally, contracts are evaluated to identify swaps to comply with the requirements of the Commodity Exchange Act, as modified by Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act).

#### **Procedure:**

Contracts are reviewed by Financial Reporting (FR) using checklists of items to consider when evaluating the transactions for accounting implications and for Dodd-Frank Act swap identification purposes.

#### Scope:

Applicable to LG&E and KU Energy LLC's and its subsidiaries' ("LKE" or "the Company") all contracts meeting the following thresholds are considered "in-scope":

- \$1 Million total contract value over the life of the contract, or
- Any contract with an indeterminable amount.
- All long-term commodity transactions entered into by Power Supply (no financial threshold).

The financial thresholds and guidelines are based on a determination of contracts that may have a material impact on the financial statements.

The review of contracts is documented differently based on the financial impact of the contract as follows:

- Review of a contract greater than \$5 Million or a term of 5 years or longer is required to be documented using the contract review template. (See Step 2 Review of the Contracts, Item 2 below).
- Review of contracts that are greater than \$1 Million, but less than \$5 Million, is done at a higher level with the goal of complex issue identification. Completion of the contract review template is not required; however, it may be used if a complex accounting issue is identified. (See Step 3 Contract Inventory and Conclusions, Item 2 below).
- Review of a contract that has no estimable total value is required to be documented using the contract review template. (See Step 2 Review of the Contracts, Item 2 below).

(Note: Text in italics indicates a key SOX control.)

In addition to the accounting review of the contracts, all contracts are subject to the <u>Authority</u> <u>Limit Matrix</u> approval requirements and are not considered approved contracts until all the appropriate approvals are obtained. It is noted in the <u>Authority Limit Matrix in Notes 6(e) that in</u> <u>compliance with accounting guidelines, all contracts greater than \$1,000,000 must be submitted</u> to Financial Reporting.

Included in this policy are the references to the Sarbanes-Oxley Transaction 80.04 <u>Contracts</u> <u>Control Activities (80.04 CA 1, 2, 4).</u>

#### **Objective of Procedure:**

The objective of this procedure is to establish guidance for the review and evaluation of contracts so that the proper accounting treatment may be applied, and to provide a process for ascertaining LKE's compliance with the Dodd-Frank Act.

#### **General Requirements:**

#### **Detailed Procedures Performed**

Step 1 - Gathering the Contracts

- 1. Microsoft SharePoint will be utilized as a central location to gather in-scope contracts to be reviewed. FR is one of the site owners and has access to review all site content. Each business line shall appoint one individual, the "Group Admin", who will coordinate the submission of documents to the site; however, any approved individual within a business line will have access to upload or view documents. An AIM request must be completed to receive access to the site.
- 2. FR will notify Group Admins of monthly submission deadlines via Microsoft Outlook Calendar appointment (with copy to site Calendar) to be sent in January as a recurring monthly appointment for the year. Group Admins are responsible for meeting this monthly submission deadline. Upon submission, Group Admins are also responsible for initiating review workflows and assigning a review task to the FR Analyst.
- 3. FR generates an Oracle report, which lists all contracts and purchase orders entered into Oracle greater than \$1M to gather monthly procurement contracts. These report are used to ensure that FR has received all contracts that are required to be reviewed.

## Step 2 – Review of the Contracts [80.04 CA1]

1. All contracts are reviewed by the FR Analyst and evaluated to determine that the appropriate accounting features have been identified in the contract. The evaluation is

(Note: Text in italics indicates a key SOX control.)

performed in accordance with the following LKE and PPL policies containing the relevant ASC technical guidance and all other applicable GAAP:

- 450 Derivatives and Hedging (ASC 815, <u>Derivatives and Hedging</u>)
- 454 Leases (ASC 842, <u>Leases</u>)
- 1057 Guarantees (ASC 460, <u>Guarantees</u>)
- 1058 Variable Interest Entities (ASC 810, <u>Consolidation</u>)
- ASC 606 Revenue from Contracts with Customers technical memos
- Dodd-Frank Wall Street Reform and Consumer Protection Act, Title VII Compliance Manual for PPL Corporation
- 2. If required (see Scope section), the review of the in-scope contract is documented on an Excel spreadsheet template. Changes to the template are coordinated with PPL. The completed templates are uploaded to the applicable contract document set in SharePoint. (See the Contracts Database SharePoint Site under references for the current version of the Contract Review Template document for more information).
- 3. FR Analyst will perform a high-level review of \$1 \$5 million contracts uploaded to the site in order to identify trends, unusual items or other accounting issues that could potentially have a material financial impact. The contract review templates are not required to be completed but may be used as a tool to evaluate complex accounting issues identified during the review of the contract.
- 4. FR review is not limited to the items included on the template, as the template is a tool that is utilized to walk through complex accounting issues. FR will also review the accounting features and other attributes populated by users on a contract document set for accuracy as part of the review.
- 5. The contract review template may be completed by the Business Line Contact or by the FR analyst, and must be reviewed by the Manager, Financial Reporting (FR Manager) and Manager, Credit and Contract Administration (CCA Manager), or delegate. The FR analyst initiates a workflow task to be completed by FR Manager and CCA Manager (or delegate) indicating the completion of their reviews. This occurs quarterly. [80.04 CA 1]
- 6. The CCA Manager, or delegate, has access to review all site content and will review all contracts for the proper identification of credit contingent features and to identify swaps based on the definition in the Dodd-Frank Act.
- 7. Certain contracts have standard terms and conditions in a base agreement. These contracts are executed by individual counterparty but executed contracts cannot vary in terms and conditions from the base agreement. *Therefore, the base agreements are reviewed annually or as changes are made [80.04 CA2]*. These contracts include the following:
  - Customer Contracts The Company's Rates, Terms and Conditions for Furnishing Electric/Gas Service, are filed with and approved by the Kentucky Public Service Commission and the Virginia State Corporation Commission. In lieu of reviewing

(Note: Text in italics indicates a key SOX control.)

individual contracts, FR will confirm quarterly with the Economic Development and Major Accounts departments (see Appendix A) that no deviations have occurred from the base agreements. The Federal Energy Regulatory Commission municipal customer's contracts are reviewed separately in the Energy Supply and Analysis Business Line and sent to FR.

- Gas Retail Contracts Individual transactions are denoted on daily nomination schedules. These contracts are deemed to be derivative contracts that qualify for the normal purchase, normal sale exclusion. These transactions are entered into and managed by the Gas Management Planning and Supply department. In lieu of reviewing individual contracts, FR will confirm quarterly with the Gas Management Planning and Supply department that no deviations have occurred from the base agreement (see Appendix A) and that all transactions entered into would be considered normal purchase normal sale transactions.
- Gas Supply for Generation Contracts Individual transactions are denoted on daily nomination schedules. These contracts are deemed to be derivative contracts that qualify for the normal purchase, normal sale exclusion. These transactions are entered into and managed by the Credit/Contract Administration and Regulated Trading and Dispatch departments. In lieu of reviewing individual contracts, FR will confirm quarterly with the Credit/Contract Administration department that no deviations have occurred from the base agreement (see Appendix A) and that all transactions entered into would be considered normal purchase normal sale transactions.

The signed Confirmations are sent by the respective Business Line contacts from Economic Development and Major Accounts, Gas Supply, and Credit/Contract Administration departments to the FR Analyst before the last day of a quarter-end month and uploaded by the FR Analyst to the Contracts Database SharePoint site. (See Appendix A) [80.04 CA 2]

Step 3 - Contract Inventory and Conclusions

- 1. All conclusions reached through the contract review process should be included within the appropriate document set for the contract and available to the Business Line contacts and others for review.
- 2. A listing of all contracts over \$5 million along with completed templates and a listing of contracts between \$1 and \$5 Million will be sent to PPL Technical Accounting before the quarter-end closing meeting.
- 3. Audit Services will have access to the SharePoint Site to facilitate gathering SEC reporting, SOX, and quarterly/annual Client Assistance contract review supporting documentation.

(Note: Text in italics indicates a key SOX control.)

#### Security

The FR department will perform a quarterly SharePoint access review to ensure proper access to the site and each document library. Access to the site should be approved by completing an AIM request. Assistance completing the AIM request can be requested from FR.

Access to the Contracts SharePoint site is restricted to individuals with a valid business purpose. On a quarterly basis, the FR analyst reviews user access rights to the SharePoint site to ensure that only appropriate individuals have access. The FR manager confirms the review and the results. [CA 4]

#### Reports Generated and Recipients

The following reports are generated quarterly:

- Contract Inventory listing of contracts greater than \$5 million from FR is sent to PPL Technical Accounting.
- Contract Inventory listing of contracts between \$1 \$5 million from FR is sent to PPL Technical Accounting
- Confirmations received from Economic Development and Major Accounts and the Gas Management Planning and Supply departments are sent to FR

#### Additional Controls or Responsibility Provided by Other Procedures None

Regulatory Requirements None

#### **APPENDIX A – Confirmations**

**Confirmation of Customer Contracts** 

#### Group Name : Economic Development and Major Accounts

The purpose of this confirmation is to confirm that all transactions entered into under the base contract a greements for the applicable quarter did not deviate from the base a greement.

# 1.) Were there any executed agreements over \$1,000,000 during the quarter that deviated in terms and conditions from the base agreements?

The Company's Rates, Terms and Conditions for Furnishing Electric/Gas Service, are filed with and approved by the Kentucky Public Service Commission and the Virginia State Corporation Commission. A response of no confirms there are no deviations from the base agreements that exceeded \$1,000,000.

#### Confirmation of Normal Purchase Normal Sales Transactions

#### Group Name : Gas Management Planning and Supply

The purpose of this confirmation is to confirm that all transactions entered into under the base contract a greements for the applicable quarter are in compliance with the normal purchase normal sale exception for derivatives accounting.

# 1.) Determine if the contract transactions meet the definition of a normal purchase normal sales.

All of the following answers must be yes in order for the contract transactions to be deemed normal purchase normal sales transactions.

a.) Did all transactions entered into have normal quantities, location for physical delivery, and timing of gas purchases and sales reasonable in relation to the business needs of LG&E?

(no transactions occurred without the probable intent of being used for LG&E gas customers)

b.) Were all price indices used to determine the fair value of the transactions not extraneous, not disproportionate in magnitude or direction, and not related to a nonfunctional currency?

Please list the indices used for the transactions.

c.) Did all transactions occur in physical settlement of gas delivered? (no transactions occurred with only financial settlement and no gas delivered)

# 2.) Were there any executed agreements during the quarter that deviated in terms and conditions from the base agreement?

#### (Note: Text in italics indicates a key SOX control.)

#### **Confirmation of Normal Purchase Normal Sales Transactions**

#### Group Name : Credit/Contract Administration

The purpose of this confirmation is to confirm that all transactions entered into under the base contract a greements for the applicable quarter are in compliance with the normal purchase normal sale exception for derivatives accounting.

# 1.) Determine if the contract transactions meet the definition of a normal purchase normal sales.

All of the following answers must be yes in order for the contract transactions to be deemed normal purchase normal sales transactions.

a.) Did all transactions entered into have normal quantities, location for physical delivery, and timing of gas purchases and sales reasonable in relation to the business needs of LG&E and KU?

(no transactions occurred without the probable intent of being used for LG&E and

KU generation)

b.) Were all price indices used to determine the fair value of the transactions not extraneous, not disproportionate in magnitude or direction, and not related to a nonfunctional currency?

Please list the indices used for the transactions.

c.) Did all transactions occur in physical settlement of gas delivered? (no transactions occurred with only financial settlement and no gas delivered)

2.) Were there any executed agreements during the quarter that deviated in terms and conditions from the base agreement?

(Note: Text in italics indicates a key SOX control)

**Policy:** Goodwill of LG&E and KU Energy LLC ("LKE") and its subsidiaries is recorded in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 350, <u>Intangibles – Goodwill and Other</u>, and ASC 820, <u>Fair Value Measurements and Disclosures.</u>

**Procedure:** The excess cost of the acquired entity over the net fair value of assets acquired and liabilities assumed is recorded as goodwill. Goodwill is tested for impairment annually or on a more frequent interim basis if relevant conditions dictate.

Scope: Goodwill recorded on LKE and its subsidiaries.

**Objective of Procedure:** The objective of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 350, <u>Intangibles – Goodwill and Other</u>, is to address how intangible assets that are acquired individually or with a group of other assets (excluding those acquired in a business combination) should be accounted for in financial statements upon their acquisition and thereafter. The purpose of testing goodwill is to determine if an impairment of the asset according to ASC 350 has occurred and must be recognized in the financial statements. Below are definitions of values used for testing goodwill:

- Impairment of good will is the condition that exists when the carrying value of the good will exceeds its fair value.
- Carrying value of goodwill is defined as the value of the asset as it appears on the balance sheet.
- Fair Value As stated in ASC 820, <u>Fair Value Measurements and Disclosures</u>, "fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." ASC 820 requires documentation of fair value measurement concepts including: a) exit price (entry, transaction or settlement price does not necessarily equate to fair value), b) highest and best use, c) principal or most advantageous market and d) non-performance risk (e.g. credit risk) for an entity's own liabilities. In addition, ASC 820 expands the fair value disclosure requirements of other accounting pronouncements. When measuring fair value, these concepts as well as the disclosures should be considered and documented.

## **General Requirements:**

ASC 350 is generally an acknowledgement by the FASB that goodwill often is not a wasting asset and that such assets, accordingly, should not be subject to amortization. Replacing amortization in this context is the application of impairment testing which generally involves:

(Note: Text in italics indicates a key SOX control)

- Definition of the reporting units;
- Allocation of goodwill to the various reporting units;
- Determination of the fair value of each reporting unit;
- Comparison of the fair value of each reporting unit with the carrying value of the reporting unit;
- Adjustment of goodwill in the event of impairment (carrying value of the reporting unit exceeds its fair value).

Testing for impairment of goodwill is conducted at least annually on the reporting unit level. The impairment test may be performed any time during the fiscal year provided the test is performed at the same time every year. LKE and its affiliates have determined that the annual impairment testing for reporting units will occur in the fourth quarter of each year based on the current long-term planning data. (For example, the goodwill impairment for 2011 would occur in October of 2011 using long-term planning data from the 2012 Plan.)

#### Reporting unit – definition

Goodwill impairment test must be performed on the reporting unit level. According to ASC 250 – *Segment Reporting*, a reporting unit is an operating segment or one level below an operating segment (referred to as a component). An operating segment is defined as a component of an enterprise that engages in business activities from which it may earn revenues and incur expenses whose operating results are regularly reviewed by the chief operating decision-maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

A component of an operating segment is a reporting unit if the following criteria are fulfilled:

- The component constitutes a business for which discrete financial information is available;
- The components have different economic characteristics and;
- Segment management regularly reviews the results of that component.

Currently, LKE has three reporting units – LKE and subsidiaries, Louisville Gas and Electric Company (LG&E) and Kentucky Utilities Company (KU).

All goodwill acquired in a business combination shall be assigned to one or more reporting units as of the acquisition date. Goodwill shall be assigned to reporting units of the acquiring entity.

In connection with PPL's acquisition of LKE on November 1, 2010, the carrying value of LKE's goodwill as of October 31, 2010, was eliminated. New goodwill was recorded on November 1, 2010 on LG&E and KU as the reporting units of LKE. The allocation of the goodwill was based

(Note: Text in italics indicates a key SOX control)

on the net asset value of each company. The goodwill represents value paid for the rate regulated business located in a defined service area, which provides for investment, future earnings and cash flow growth. LG&E's and KU's franchise values are being attributed to the going concern value of the business and thus, were recorded as goodwill rather than a separately identifiable intangible asset. None of the goodwill recognized is deductible for income tax purposes or included in customer rates.

When a portion of a reporting unit that constitutes a business is to be disposed of when the reporting structure is reorganized the amount of goodwill shall be allocated based on the relative fair values of the portion of the business to be disposed of and the portion of the reporting unit to be retained. However, if the business to be disposed of was never integrated into the reporting unit after its acquisition, (thus the benefits of the acquired goodwill were never realized by the rest of the reporting unit) the current carrying amount of that acquired goodwill shall be included in the carrying amount of the business to be disposed of. When only a portion of goodwill is allocated to the business to be disposed of, the goodwill remaining in the portion of the reporting unit retained shall be tested for impairment.

#### Qualitative Assessment (Step 0 Analysis)

In 2011, the FASB issued Accounting Standard Update (ASU) 2011-08 which amends the guidance in ASC 350-20 on testing goodwill for impairment. Under the revised guidance, beginning with fiscal years beginning after December 15, 2011, entities testing goodwill for impairment have the option of performing a qualitative assessment before calculating the fair value of the reporting unit (i.e., step 1 of the goodwill impairment test). In the qualitative assessment, entities would determine whether it is more likely than not (i.e., a likelihood of more than 50 percent) that the fair value of the reporting unit is less than the carrying amount. If so, they would proceed to step 1 of the goodwill impairment analysis in ASC 320-20. However, if not, further testing of goodwill for impairment would not be required to be performed. Because the qualitative assessment is optional, entities may bypass it for any reporting unit in any period and begin their impairment analysis with the quantitative calculation in step 1. Entities may resume performing the qualitative assessment in any subsequent period.

The ASU did not change how goodwill is calculated or assigned to reporting units, nor does it revise the requirement to test goodwill annually for impairment. In addition, the ASU does not amend the requirement to test goodwill for impairment between annual tests if events or circumstances warrant.

All goodwill recognized by a public or nonpublic subsidiary (subsidiary goodwill) in its separate financial statements that are prepared in accordance with accounting principles generally accepted

(Note: Text in italics indicates a key SOX control)

in the United States ("U.S. GAAP") shall be accounted for in accordance with ASC 350. Subsidiary goodwill shall be tested for impairment at the subsidiary level using the subsidiary's reporting units. If goodwill of a subsidiary is impaired, a push-up of the impairment to the consolidated level does not necessarily take place. If a goodwill impairment loss is recognized at the subsidiary level, an assessment is made as to whether or not the fair value of the reporting unit needs to be adjusted on a higher consolidated level by performing an interim impairment test in the reporting units in which the subsidiary resides. Should a reduction in the fair value of the reporting unit be considered unnecessary, an impairment loss is not recorded in the consolidated statement of income.

If goodwill and another asset (e.g., under ASC 360 – <u>Impairment of Long-Lived Assets</u>) of a reporting unit are tested for impairment at the same time, the other asset shall be tested for impairment before goodwill.

#### **Detailed Procedures Performed for Goodwill Impairment Test:**

#### Step 0 Analysis

If the optional qualitative assessment is performed, ASC 350-20-35-3C provides the following examples (not all-inclusive) of events and circumstance that may be considered in the qualitative assessment:

a. Macroeconomic conditions such as a deterioration in general economic conditions, limitations on accessing capital, fluctuations in foreign exchange rates, or other developments in equity and credit markets

b. Industry and market considerations such as a deterioration in the environment in which an entity operates, an increased competitive environment, a decline in marketdependent multiples or metrics (consider in both absolute terms and relative to peers), a change in the market for an entity's products or services, or a regulatory or political development

c. Cost factors such as increases in raw materials, labor, or other costs that have a negative effect on earnings and cash flows

d. Overall financial performance such as negative or declining cash flows or a decline in actual or planned revenue or earnings compared with actual and projected results of relevant prior periods

e. Other relevant entity-specific events such as changes in management, key personnel, strategy, or customers; contemplation of bankruptcy; or litigation

f. Events affecting a reporting unit such as a change in the composition or carrying amount of its net assets, a more-likely-than-not expectation of selling or disposing

(Note: Text in italics indicates a key SOX control)

all, or a portion, of a reporting unit, the testing for recoverability of a significant asset group within a reporting unit, or recognition of a goodwill impairment loss in the financial statements of a subsidiary that is a component of a reporting unit

g. If applicable, a sustained decrease in share price (consider in both absolute terms and relative to peers).

Entities should also consider:

• The "extent to which each of the adverse events and circumstances identified could affect the comparison of a reporting unit's fair value with its carrying amount. An entity should place more weight on the events and circumstances that most affect a reporting unit's fair value or the carrying amount of its net assets."

• Any "positive and mitigating events and circumstances that may affect" the analysis. However, positive and mitigating evidence should not be viewed as a rebuttable presumption that an entity does not need to perform the quantitative calculation under step 1.

• The difference between the current-period carrying amount and the fair value of a reporting unit calculated in a recent prior period.

• The factors in their totality. No one factor is meant to be a determinative event that triggers a quantitative calculation.

If the qualitative analysis is performed it must be documented thoroughly including any underlying analysis to support the assertion of whether the fair value of the reporting unit is not more likely than not less than its carrying amount.

#### Indicators for a possible decrease in value

Goodwill of a reporting unit shall be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. Per ASC 350-20-35-30, examples of such events or circumstances include:

- A significant adverse change in legal factors or in the business climate;
- An adverse action or assessment by a regulator;
- Unanticipated competition;
- A loss of key personnel;
- A more-likely-than-not expectation that a reporting unit or a significant portion of a reporting unit will be sold or otherwise disposed of:
- The testing for recoverability under ASC 360 <u>Property</u>, <u>Plant and Equipment</u> of a significant asset group within a reporting unit;

(Note: Text in italics indicates a key SOX control)

• Recognition of a goodwill impairment loss in the financial statements of a subsidiary that is a component of a reporting unit.

#### **Quantitative Testing**

#### Identification of a possible decrease in value

The quantitative portion of testing goodwill to identify potential impairments is to compare each reporting unit's fair value with its carrying amount including goodwill. If a reporting unit's carrying amount exceeds its fair value, this indicates that its goodwill is impaired and an impairment charge will be recognized.

To test for impairment, the fair value of a reporting unit is determined by means of a valuation model that is derived from the business plan presented to the Board of Directors. PPL has determined that it will centrally coordinate and perform all goodwill impairment testing beginning in 2011. LKE retains responsibility for ensuring the overall accuracy and reasonableness of the calculations performed by PPL including conformity with GAAP.

A detailed determination of the fair value of a reporting unit may be carried forward from one year to the next if all of the following criteria have been met:

- The assets and liabilities that make up the reporting unit have not changed significantly since the most recent fair value determination;
- The most recent fair value determination resulted in an amount that exceeded the carrying amount of the reporting unit by a substantial margin;
- Based on an analysis of events that have occurred and circumstances that have changed since the most recent fair value determination, the likelihood that a current fair value determination would be less than the current carrying amount of the reporting unit is remote.

Recognition of subsequent reversal of a previously recognized goodwill impairment loss is prohibited once the measurement of that loss is completed under ASC 350.

#### **Disclosure requirements**

According to ASC 350 for each goodwill impairment loss recognized, the following information shall be disclosed in the notes to the financial statements that include the period in which the impairment loss is recognized:

(Note: Text in italics indicates a key SOX control)

- A description of the facts and circumstances leading to the impairment;
- The amount of the impairment loss and the method of determining the fair value of the associated reporting unit;
- If a recognized impairment loss is estimated that has not yet been finalized, that fact and the reasons therefore and, in the subsequent periods, the nature and amount of any significant adjustments made to the initial estimate of the impairment loss.

Goodwill disclosure requirements pursuant to ASC 350 include, but are not necessarily limited to the following:

- The total carrying amount at the end of each financial reporting period;
- The change in the carrying amount of goodwill during the period, including the aggregate amount of goodwill acquired, the amount of impairment losses recognized, and the amount of goodwill included in the gain or loss on disposal of a reporting unit (or portion thereof).

Relevant personnel will determine, by use of Impairment Questionnaires and Checklists, the applicability of reporting requirements pursuant to ASC 350 on at least an annual basis (or more frequently based on the occurrence of relevant events) as previously described. (See Asset Impairment Accounting Policy and Procedures.)

The PPL Controller and PPL Senior Director of Financial Planning is responsible for determining whether the optional qualitative analysis will be performed, coordinating the performance of any required impairment tests with PPL's and LKE's Financial Planning departments and/or external consultants, reviewing the results with the external auditor and communicating the results to LKE. LKE's Regulatory Accounting and Reporting department will record any entries required if impairment exists.

(Note: Text in italics indicates a key SOX control)

#### **Reports Generated and Recipients:**

Annual impairment test completed by PPL.

(Note: Text in italics indicates a key SOX control.)

#### Policy

LG&E and KU Energy LLC ("LKE" or "the Company") will account for and disclose leases as required by U.S. GAAP.

#### Procedure

Review the applicable contracts within scope and consult with Supply Chain, Commercial Operations, Right of Way, and other appropriate departments to report all leases for LKE.

#### Scope

All leases entered into by the Company and its subsidiaries.

#### **Objective of Procedure**

Ensure all contracts for leases are appropriately reviewed and reported.

#### **General Requirements**

The accounting principles for leases are primarily promulgated by Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 842 (Leases). ASC 842 supersedes ASC 840. The most significant change in ASC 842 is the recording of most leases on the balance sheet for lessees. There is additional significant authoritative guidance that addresses implementation questions. Please see References - Related Publications for a listing of some of the more significant guidance.

In-scope contracts (contracts of \$1M or greater) are reviewed quarterly and evaluated to determine appropriate accounting treatment. *Through this contract review process (See 451 – Contractual Review policy), LKE identifies arrangements to be evaluated for potential lease treatment in accordance with the procedures outlined below.* The evaluation of whether an arrangement contains a lease should be based on the substance of the arrangement. The Lease Evaluation Worksheet which is part of the contract review process is utilized to document an initial assessment or a reassessment of an arrangement. (See 451 – Contract Review policy) (The decision matrix included in Appendix A provides additional guidance, if needed, in determining whether an arrangement qualifies as lease.)

As noted in the Company-wide lease policy, Accounting must be notified once it is determined that a draft agreement contains a lease. All leases must be communicated to Accounting, regardless of dollar amount.

#### Scope

ASC 842-10-20 defines a lease as a "contract, or part of a contract, that conveys the right to control the use of identified property, plan, or equipment (an identified asset) for a period of time in exchange for consideration". Only land and depreciable assets are included in the scope of ASC 842.

(Note: Text in italics indicates a key SOX control.)

ASC 842-10-15-1 excludes the following:

- Leases of intangible assets (accounted for under ASC 350) (includes software licenses)
- Leases to explore for or use minerals, oil, natural gas, and similar nonregenerative resources (accounted for under ASC 932 or ASC 930)
- Leases of biological assets (accounted for under ASC 905)
- Leases of inventory (accounted for under ASC 330)
- Leases of assets under construction (accounted for under ASC 360)

## Lease Identification

ASC 842-10 defines a lease as follows:

842-10-15-3 A contract is or contains a lease if the contract conveys the right to control the use of identified property, plant, or equipment (an identified asset) for a period of time in exchange for consideration. A period of time may be described in terms of the amount of use of an identified asset (for example, the number of production units that an item of equipment will be used to produce).

842-10-15-4 To determine whether a contract conveys the right to control the use of an identified asset for a period of time, an entity shall assess whether, throughout the period of use, the customer has both of the following:

- a. The right to obtain substantially all of the economic benefits from the use of the identified asset
- b. The right to direct the use of the identified asset.

See appendix A for a flowchart to assist with identifying a lease.

## Identified Asset

An identified asset must be present for the arrangement to be a lease. This asset may either be explicitly or implicitly identified.

Once determined that an asset is present in the agreement, the Company must also evaluate whether the supplier has substantive substitution rights. If so, in accordance with ASC 842-10-15-10, the underlying asset does not represent an identified asset and the contract does not contain a lease. If a supplier has substantive substitution rights, the supplier controls the asset. For a substitution to be considered substantial, the supplier must have the practical ability to substitute the asset and the supplier must economically benefit from the substitution.

## Right to Control Use

To have the right to control the use of the asset, the customer must have both of the following:

• The right to obtain substantially all of the economic benefits from the use of the asset

(Note: Text in italics indicates a key SOX control.)

• The right to direct the use of the asset

ASC 842-10-15-17 discuss the concept of economic benefits. Economic benefits may include primary outputs, by-products, cash flows derived from outputs and by-products and can be obtained either directly or indirectly.

ASC 842-10-15-20 discuss the right to direct the use of the asset:

A customer has the right to direct the use of an identified asset throughout the period of use in either of the following situations:

- a. The customer has the right to direct how and for what purpose the asset is used throughout the period of use.
- b. The relevant decisions about how and what purpose the asset is used are predetermined and at least one of the following conditions exists:
  - 1. The customer has the right to operate the asset (or to direct others to operate the asset in a manner that it determines) throughout the period of use without the supplier having the right to change those operating instructions.
  - 2. The customer designed the asset (or specific assets of the asset) in a way that predetermines how and for what purpose the asset will be used throughout the period of use.

# Lease Components

After determining that a contract contains a lease, ASC 842-10-15-28 states that a company should identify the separate lease components within the contract. This is intended to help companies evaluate whether the contract is providing multiple individual outputs or a single output (right of use).

Once separate lease components are identified, companies must determine where there are nonlease components to be separated. Practical expedients were made available in adopting 842. As a practical expedient, a lessee may, as an accounting policy election by class of underlying asset, choose not to separate non-lease components from lease components and instead account for them as a single lease component. The Company will separate the lease and non-lease components for real estate leases and continue to evaluate other asset classes going forward. Currently, all other asset classes contain only lease components.

## Lease Term

The commencement date of a lease is the date on which a lessor makes an underlying asset available for use by a lessee. ASC 842-10-30-1 states "an entity shall determine the lease term as the noncancellable period for which a lessee has the right to use an underlying asset, together with all of the following:

a. Periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option,

#### (Note: Text in italics indicates a key SOX control.)

- b. Period covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option,
- c. Periods covered by an option to extend (or not to terminate) the lease in which exercise of the option is controlled by the lessor."

The noncancellable period of a lease is the period for which the contract is enforceable. The lease is no longer enforceable when both the lessee and the lessor have the right to terminate the lease without permission from the other party with no more than an insignificant penalty.

If a lease contract includes a termination option that gives only the lessee the right to terminate, the Company would evaluate whether it is reasonably certain that the lessee will not exercise the termination option.

If the contract gives only the lessor the right to terminate, the Company would not consider that termination option when evaluating the lease term.

#### Evergreen Leases

ASC 842 applies to contracts that automatically renew. In determining the term for such arrangements, the Company would consider the same factors as it would for all other leases. The Company would need to consider contract-based, asset-based, market-based, and entity-based factors to determine the term over which the lease is reasonably certain to be extended.

#### Short-Term Leases

ASC 842-10 defines a short term lease as a lease with a term of 12 months or less and does not include an option to purchase the underlying asset that the lessee is reasonably certain to exercise.

A lessee can elect by asset class not to record short term leases on the balance sheet. The Company has made this election for all short-term leases. Short-term lease costs will be captured via use of specific expenditure types for short-term leases. Reports will be generated from Oracle to obtain the short-term lease expense for disclosure reporting.

If the lease term increases to more than 12 months, or it becomes certain that the lessee will exercise an option to purchase the asset, the lessee would no longer be able to apply the short-term lease exception and would account for the lease as it would other leases.

See Appendix B for a listing of lease expenditure types required to be used for lease transactions.

#### **Discount Rate**

Companies use discount rates to calculate the present value of lease payments. The discount rate used is determined based on information as of the lease. Typically, a lessee will use the

#### (Note: Text in italics indicates a key SOX control.)

incremental borrowing rate. The incremental borrowing rate is the rate of interest that a lessee would have to pay to borrow over a similar term an amount equal to the lease payments in a similar economic environment. Unless the rate is stated in the lease agreement, LKE will use the incremental borrowing rate for the discount rate. This rate is provided by the Corporate Finance department.

#### Lessee Accounting

#### Lease Classification

Once a lease has been identified, the lessee must determine whether the lease is finance or operating. ASC 842-10-25-2 provides criteria that must be met for a lease to be classified as a finance lease.

Under the prior standard, ASC 840, bright lines were required to be used in the evaluation to determine whether a finance lease existed. ASC 842 does not require bright lines; however, companies are allowed to use bright lines for classification purposes if it elects to do so. LKE has elected to maintain these bright lines. Thus, LKE will use the following criteria in determining if a finance lease exists:

- a. The lease transfers ownership of the underlying asset to the lessee by the end of the least term.
- b. The lease grants the lessee an option to purchase the underlying asset that the lessee is reasonably certain to exercise.
- c. The lease term is equal to 75% or more of the estimated economic life of the leased property. However, if the beginning of lease term falls within the last 25% of the total estimated economic life of the leased property, including earlier years of use, this criterion will not be used for purposes of classifying the lease
- d. The present value of the sum of the lease payments and any residual value guaranteed by the lessee that is not already reflected in the lease payments...equals or exceeds 90% of the fair value of the underlying asset
- e. The underlying asset is of such a specialized nature that it is expected to have no alternative use to the lessor at the end of the lease term.

If none of these criteria are met, the lease will be classified as an operating lease.

The Finance vs Operating spreadsheet template will be completed by lease owners to make an initial determination as to whether the leases is finance or operating. This template can be found on the Controller Group's Sharepoint site. Generally, the Company does not enter into finance leases to avoid potential impact to debt covenants. The PowerPlan Lease Module contains

#### (Note: Text in italics indicates a key SOX control.)

functionality to classify leases as either operating or finance. Each lease will be reviewed to ensure the module classifies the lease correctly.

Lessees will recognize a right-of-use asset and a lease liability for all leases (finance and operating). ASC 842-20-30-1 states "at the commencement date, a lessee shall measure both of the following:

- a. The lease liability at the present value of the lease payments not yet paid, discounted using the discount rate for the lease at lease commencement
- b. The right-of-use asset as described in paragraph 842-20-30-5."

ASC 842-20-30-35 states "at the commencement date, the cost of the right-of-use asset shall consist of all of the following:

- a. The amount of the initial measurement of the lease liability
- b. Any lease payments made to the lessor at or before the commencement date, minus any lease incentives received
- c. Any initial direct costs incurred by the lessee..."

#### Subsequent Measurement of a Finance Lease

After lease commencement, a lessee measures it lease liability by using the effective interest rate method. In each period, the liability will be increased to reflect the interest that is accrued on the related liability by using the appropriate discount rate, offset by a decrease in the liability resulting from periodic lease payments. The lessee will generally recognize the ROU asset at cost, reduced by any accumulated amortization and accumulated impairment losses.

The ROU asset is amortized on a straight line basis. Lessees would separately present the interest and amortization expense in the income statement

#### Subsequent Measurement of an Operating Lease

For an operating lease, the subsequent measurement of the ROU asset is linked to the amount recognized as the lease liability. Thus, the ROU asset would be measured as the lease liability adjusted by accrued or prepaid rents, the remaining unamortized initial directs costs and lease incentives, and impairments of the ROU asset.

After lease commencement and over the lease term, a lessee would recognize in the income statement:

- a. A single lease cost calculated in a manner that results in the allocation of the remaining lease costs over the remaining lease term, on a straight line basis
- b. Variable lease payments not recognized in the measurement of the lease liability in the period in which the related obligation has been incurred, and
- c. Any impairment of the operating lease ROU.

(Note: Text in italics indicates a key SOX control.)

#### Derecognizing a lease

When a lease is terminated before the expiration of the lease term, for both operating and finance leases, the lessee would derecognize the ROU asset and corresponding lease liability. Any difference would be recognized as a gain or loss related to the termination of the lease. Similarly, if a lessee is required to make any payments or receives any consideration when terminating the lease, it would include such amounts in the determination of the gain or loss upon termination.

#### **Lease Payments**

To determine the appropriate lease classification and measure a lessee's ROU asset and lease liability and a lessor's net investment in the lease, lessees and lessors must determine the lease payments related to use of the underlying asset. This determination incudes an assessment of any payments during renewal periods that are deemed to reasonably certain to be exercised.

Lease payments include:

- fixed payments, which include in substance fixed payments, less any lease incentives paid
- variable payments that depend on an index or rate
- exercise price of a purchase option reasonably certain to be exercised; penalties for terminating a lease
- fees paid to the owners of special purpose entities
- amounts that it is probably the lessee will owe under a residual value guarantee

The following items are not included in the calculation of the lease payment:

- variable payments that not depend on an index or rate
- the lessee's guarantee of the lessor's debt
- amounts allocated to non-lease components

#### Lessor Accounting Lease Classification

Leases are classified by lessors as either sales-type leases, direct financing leases, or operating leases.

#### Sales-type lease

In a sales-type lease, the lessor transfers control of the underlying asset to the lessee. The evaluation of whether a lease qualifies as a sales-type lease focuses on whether the lessee effectively obtains control of the entire underlying asset (and not just the right to use it).

#### (Note: Text in italics indicates a key SOX control.)

The five criteria that a lessee users to determine if a lease is a finance lease are the same criteria used by a lessor to determine if a lease is a sales-type lease.

#### Direct financing lease

If none of those criteria are met, the lessor evaluates whether the lease is a direct financing lease. If both of the following criteria are met, the lease should be classified as a direct financing lease:

- a. The present value of the sum of the lease payments and any residual value guaranteed by the lessee that is not already reflected in the lease payments equals or exceeds substantially all of the fair value of the underlying asset
- b. It is probably that the lessor will collect the lease payments plus any amount necessary to satisfy a residual value guarantee.

#### Operating lease

If neither the sales-type lease criteria nor the direct financing lease criteria are met, the lease is an operating lease.

As LKE is not in the business of financing equipment for lessees, most leases will either qualify as a sales-type lease or an operating lease. For Direct Financing guidance, see applicable accounting literature or contact Regulatory Accounting and Reporting (RAR).

Accounting for sales-type leases

- Recognize an initial net investment in the lease on the balance sheet. The net investment in the lease comprises the sum of the lease receivable and the present value of the unguaranteed residual value.
- > Reduce the net investment in the lease for consideration received from the lessee.
- Derecognize the carrying value of the underlying asset. If the fair value of the underlying asset equals the carrying value, defer any initial direct costs.
- Increase the net investment tin the lease for the interest income earned. Reduce the carrying value of the investment due to any impairment.
- Recognize any selling profit or leasing loss immediately. If the fair value of the underlying asset dos not equal the carrying value, expense any initial direct costs immediately.
- Recognize interest income on the basis of the net investment in the lease at the implicit rate in the lease. Recognize any impairments.

Accounting for Operating leases:

- The leased property will be included with property, plant and equipment in the balance sheet. The property will be depreciated using the lessor's normal depreciation policy.
- Rent will be included as income over the lease term as it becomes receivable according to the provisions of the lease.

(Note: Text in italics indicates a key SOX control.)

Initial direct costs will be deferred and allocated over the lease term in proportion to the recognition of rental income. Initial direct costs may be charged to expense as incurred if the effect is not materially different.

#### **Other Leasing Provisions**

#### Embedded Leases

LKE will evaluate service arrangements that involves the use of PP&E to determine whether the arrangement contains an embedded lease.

#### Sale-Leaseback Transactions

A sale-leaseback transaction involves the transfer of an asset by an owner to an acquirer and a transfer of the right to control the use of that same asset back to the original owner for a period of time. When accounting for a sale-leaseback transaction, the seller-lessee:

- Records the sale
- > Derecognizes the carrying amount of the underlying asset
- Accounts for the lease in accordance with 842-20
- Recognizes the gain or loss from the sale, calculated as the differences between the carrying amount of the underlying asset and its fair value.

#### Subleases

If the original lessee is not relieved of the primary obligation under the original lease, the original lessee shall continue to account for the original lease in one of the following ways:

- a. If the sublease is classified as on operating lease, the original lessee shall continue to account for the original lease as it did before commencement of the sublease.
- b. If the original lease is classified as a finance lease and the sublease is classified as sales type lease or direct financing lease, the original lessee shall derecognize the original ROU asset and continue to account for the original lease liability as it did before commencement of the sublease
- c. If the original lease is classified as an operating lease and the sublease is classified as a sales-type or direct financing lease, the original lessee shall derecognize the original ROU asset and account for the original lease liability in accordance with 842-20-35-1 through 35-2.

When classifying a sublease, the Company will do so based on the underlying asset that is the subject of the less, rather than the right of use asset.

If the original lessee is relieved of its primary obligation, the transaction will be considered a termination of the original head lease. The lessee/intermediate lessor would derecognize the ROU asset and lease liability for the head lease and would recognize any difference in profit or loss. If the lessee remains secondarily liable, then the lessee is a guarantor and the transaction should be accounted for in accordance with ASC 460.

#### (Note: Text in italics indicates a key SOX control.)

If the original lease is replaced with a new lease agreement, the Company, as the lessor, shall account for the original lease as a terminated lease and the new lease as a separate transaction.

#### Related Party Leases

Leases between related parties normally use the same criteria as similar leases between unrelated parties.

#### Accounting for Leasehold Improvements

Amounts for leasehold improvements are recognized separately from the underlying leased ROU asset.

ASC 842-20-35-12 states that leasehold improvements shall be amortized over the shorter of the useful life of those leasehold improvements and the remaining lease terms, unless the lease transfers ownership of the underlying asset to the lessee or the lessee is reasonably certain to exercise an option to purchase the underlying asset, in which case the lessee shall amortize the leasehold improvements to the end of their useful life.

### Land and Buildings

ASC 842-10-15-29 requires that land be considered a separate lease component in a contract involving land and other assets, unless the effect of separately account for the land portion of the contract is insignificant.

The Company has determined that if the company enters into a lease for only a portion of a building, when the company has the right to control the use of substantially of the capacity of the building, it also has the right to control the use of substantially all of the capacity of the land.

## Lessee Involvement in Asset Construction

Rights to use assets under construction are outside the scope of ASC 842. The lessee should determine whether it controls the underlying asset before commencement of a lease. If it does, the lessee must:

- a. Recognize the entire asset as the deemed accounting owner and
- b. Apply sale-leaseback guidance to assess whether it may derecognize the assets on the lease commencement date.

## **Operating Leases with Scheduled Rent Increases**

Operating leases with scheduled rent increases, including "rent holidays" will be recognized on a straight-line basis over the lease term (including any "rent holiday" period) unless another systematic and rational allocation basis is more representative of the time pattern in which the leased property is physically employed.
(Note: Text in italics indicates a key SOX control.)

#### Impairment

Lessees must test ROU assets for impairment in a manner consistent with its treatment of other long-lived assets, in accordance with ASC 360. If the ROU asset related to an operating lease is impaired, the lessee would amortize the remaining ROU asset in accordance with the subsequent-measurement guidance that applies to finance leases. Typically, this would be on a straight-line basis over the remaining lease term. In this case, the operating lease would no longer qualify for the straight line treatment of total lease expense. In periods after the impairment, a lessee would continue to present the ROU asset reduction and interest accretion related to the lease liability as a single line item in the income statement.

Impairment is expected to be a very unlikely scenario due to the regulated nature of the industry. A question in the quarterly 302 survey asks recipients whether a significant adverse change in legal factors or the business climate could affect the value of a leased asset. Affirmative responses will be followed up on to determine if an impairment needs to be made. If an impairment does need to be made, ASC-Topic 340, Property, Plant, and Equipment, will be followed to ensure proper accounting treatment.

#### Remeasurement

After the commencement date of the lease, a lessee must remeasure the lease liability if there has been a change to the amounts that make up a lease payment. Generally, there will be a change in lease payments when certain reassessment-related events occur or when a lease is modified and hat modification is not account for as a separate contract. Some of these events will require an update to the discount rate used to measure the liability. When a modification is not accounted for as a separate contract, the discount rate must be based on a rate as of the remeasurement date. In addition, if there is a change in the lease term or in the assessment of whether the lessee will exercise a purchase option, the rate will need to be updated.

A remeasurement of the lease liability will result in an adjustment to the corresponding ROU asset.

The following events trigger remeasurement:

- Change in the lease term
- Change in assessment of purchase option exercise
- Change in the amount probable of being owed by a lessee under a residual value guarantee
- Variable payments become lease payments due to the resolution of a contingency

# **Financial Statement Presentation**

Lessee

#### (Note: Text in italics indicates a key SOX control.)

ASC 842-20-45 provides the requirements for reporting leases in the financial statements. See Appendix C for a listing of GLAFF balance sheet accounts used for lessee accounting. See Appendix D for an example of lessee operating lease journal entries.

#### Balance Sheet

- A lessee will either present on the balance sheet or disclose in the notes finance lease ROU assets and operating lease ROU assets separately from each other and from other assets; and, finance lease liabilities and operating lease liabilities separately from each other and other liabilities.
- If a lessee does not present finance lease and operating lease ROU assets and lease liabilities separately on the balance sheet, the lessee shall disclose which line items in the statement of financial position include those right of use assets and lease liabilities.
- Lessees are prohibited from presenting finance ROU assets in the same line items as operating ROU assets and finance lease liabilities in the same line item as operating lease liabilities.
- ROU assets and lease liabilities will be considered the same as other nonfinancial assets and financial liabilities in classifying them as either current or non-current

#### Income Statement

- For finance leases, the interest expense on the lease liability and amortization of the ROU asset is not required to be presented as separate line items. They shall be presented in a manner consistent with how entity presents other interest expense and deprecation of similar assets
- For operating leases, lease expense shall be included in the lessee's income from continuing operations.

#### Statement of Cash Flows

- Repayments of the principal portion of the lease lability arising from finance leases should be presented within financing activities
- Interest on the lease liability arising from finance leases should be classified in accordance with the requirements relating to interest paid in Topic 230 on cash flows
- > Payments arising from operating leases should be classified within operating activities
- Variable lease payments and short term lease payments not included in the lease liability should be classified within operating activities.

#### Lessor

Sales-Type and Direct Financing Leases

Balance Sheet

- Lease assets should be presented separately from other assets on the balance sheet
- Lease assets will be considered the same as other nonfinancial assets and financial liabilities in classifying them as either current or non-current

(Note: Text in italics indicates a key SOX control.)

#### Income Statement

- Income arising from leases should be presented in either the income statement or disclosed in the notes. If a lessor does not separately present lease income in the statement of comprehensive income, the lessor shall disclose which line items include lease income in the statement of comprehensive income.
- Any profit or loss should be presented in a manner that best reflects the lessor's business model.

## Statement of Cash Flows

Cash receipts from leases should be classified within operating activities

#### **Operating Leases**

#### Balance Sheet

> The underlying assets should be presented in accordance with other applicable Topics Income Statement

- Income arising from leases should be presented in either the income statement or disclosed in the notes. If a lessor does not separately present lease income in the statement of comprehensive income, the lessor shall disclose which line items include lease income in the statement of comprehensive income.
- Any profit or loss should be presented in a manner that best reflects the lessor's business model.

## Statement of Cash Flows

> Cash receipts from leases should be classified within operating activities

## Disclosure

## Lessee Disclosure Requirements

ASC 842-20-50-1 requires lessees to disclose its leases, significant judgements made in applying the requirement of ASC 842, and the amounts recognized in the financial statements relating to those leases. Lessee disclosure requirements can be subdivided in the following topics:

- > Information about the nature of an entity's leases (including sublease)
  - o General description of leases
  - Basis and terms and conditions on which variable lease payments are determined
  - o Terms and conditions of options to extend or terminate leases
  - Residual value guarantees
  - o Restrictions or covenants imposed by leases.
- Leases that have not yet commenced
- Significant assumptions and judgments
  - Whether a contract contains a lease

#### (Note: Text in italics indicates a key SOX control.)

- Allocation of consideration in a contract
- Discount rate
- > Amounts recognized in the financial statements
  - Finance lease cost
  - Operating lease cost
  - o Short-term lease cost
  - o Variable lease cost
  - o Sublease income
  - o Net gain or loss from sale-and-leaseback transactions
  - o Cash paid for amounts included in measurement of lease liability
  - Supplemental noncash information
  - Weighted-average remaining lease term
  - Weighted average discount rate
- Maturity analysis of liabilities
- Lease transactions with related parties
- Practical-expedient disclosure related to short-term leases
- Practical-expedient disclosure related to separating lease components
- > Electing transition practical expedients:
  - o Hindsight practical expedient
  - o Practical expedient package
- Proposal permitting entities to elect not to restate comparative periods in the period of adoption

See the Leases whitepaper that includes the financial statement format of the disclosures.

#### Lessor Disclosure Requirements

Historically the Companies have entered into very few leases for which the Companies were the lessor. Therefore, it is the Companies' expectation that any such leases would be immaterial in aggregate to present as a standalone line item on the face of the financial statements or disclose in the notes to the financial statements. However, should these leases become material; the Companies will adhere to the standard.

ASC 842-20-50-1 requires lessors to disclose its leases, significant judgements made in applying the requirement of ASC 842, and the amounts recognized in the financial statements relating to those leases. Lessor disclosure requirements can be subdivide in the following topics:

- Information about the nature of an entity's leases
  - General description of leases
  - o Basis and terms and conditions on which variable lease payments are determined
  - o Term and conditions of options to extern or terminate leases
  - Existence of terms and conditions for a lessee to purchase a leased asset
- Significant assumptions and judgements

#### (Note: Text in italics indicates a key SOX control.)

- o Whether a contract contains a lease
- Allocation of consideration in a contract
- Amount lessor expect to derive from underlying asset after the end of the lease term
- Lease transactions with related parties
- Residual assets and risk management
- > Amounts recognized in the financial statements
  - Sales-type leases and direct financing leases
    - Tabular disclosures
    - Components of net investments in leases
    - Significant changes in the balance of unguaranteed residual assets and deferred selling profit
    - Maturity analysis of lease receivables
    - Operating leases
      - Tabular disclosures
      - Maturity analysis of lease payments
      - Separate ASC 360 disclosures

## Procedures

- 1. The current contract review process ensures contracts with a value greater than \$1 million are reviewed to determine if they contain leases. Any leases identified in the contract review process are provided to Regulatory Accounting and included in the lease inventory.
- 2. Per the LKE Leases Policy, all lease agreements are required to be reviewed by Regulatory Accounting and the appropriate budget contact prior to finalization. The policy requires that lease executors send copies of all lease agreements, regardless of dollar amount, to Regulatory Accounting. Upon review and confirmation by Regulatory Accounting that the agreement is a lease, the agreement is added to the lease inventory. The budget contact will set up the project and task for the lease payment.
- 3. To help ensure that all leases have been communicated to Regulatory Accounting, payments charged to lease expenditure types will be reviewed monthly. Any payments that are not appropriately matched to an identified lease are investigated to determine if the agreement does contain a lease and are subsequently added to the inventory.

Training has been provided to lease owners or those who have responsibility for entering into lease agreements and to those responsible for informing Regulatory Accounting of such agreements. The objective of this training was for these departments to understand what could potentially qualify as a lease under ASC 842 to help in the identification of contracts that would most likely contain a lease.

(Note: Text in italics indicates a key SOX control.)

- 4. When a lease has been identified, it will be entered into the PowerPlan Lease Module based on the terms of the lease by the accounting analyst. The manager will review to ensure the lease was entered correctly.
- 5. Departments responsible for leases are sent a listing of their leases monthly to confirm that there have been no changes to existing leases and to make notification of any new leases.
- 6. The manager reviews the journal entry generated by the PowerPlan Lease Module each month to ensure the entry is reasonable and is properly classified between the long-term and short-term.
- 7. Account reconciliations are prepared each month by the analyst and reviewed by the manager.

#### Responsibility

- RAR is responsible for implementing and maintaining procedures to ensure that the practices set forth in this policy are followed.
- The Legal Department and Business Line Contacts are responsible for providing timely notification to RAR of new arrangements or changes to existing arrangements.
- RAR is responsible for performing necessary lease analysis in accordance with the policy to determine appropriate classification and accounting. Documentation of lease analysis and conclusions reached thereon will be in writing.
- RAR will be responsible for ensuring that the appropriate accounting/disclosure requirements are implemented based on those conclusions/decisions in a timely manner.
- RAR must notify Financial Reporting of outcome of analysis, conclusions/decisions reached in a timely manner so that required disclosures can made in financial statements.

## **Reports Generated and Recipients**

- Inventory listing of contracts within scope of contract review that include review for leases provided by RAR
- Contract review templates provided by Lease Reviewers

## Additional Controls or Responsibility Provided by Other Procedures

451 - Contractual Review policy Leases-LKE Company Policy

#### **Regulatory Requirements**

Federal Energy Regulatory Commission (FERC) Reporting

(Note: Text in italics indicates a key SOX control.)

FERC issued guidance on 12/27/18 confirming that the FASB's ASU will have no impact on the existing FERC ratemaking treatment or practices.

- The Commission will not be amending its Uniform System of Accounts (USofA) at this time. Leases will continue to be recorded within FERC's existing regulated accounting framework.
- If a jurisdictional entity chooses to implement the ASU's guidance to report operating leases on the FERC balance sheet, it may do so, by using the existing USofA balance sheet accounts for capital leases. In addition, entities must:
  - Provide footnote disclosures in the regulated financial statements of any amounts in the capital lease accounts that relate to capitalized operating leases;
  - Maintain unique subaccounts and auxiliary ledgers to separately identify and track the capitalized operating lease amounts;
  - Implement strong internal controls to ensure there is no impact on the existing ratemaking treatment or practices for leases.
- No other changes will be made to the existing FERC accounting treatment for leases.
  - No changes related to land easements.
  - No changes to income statement accounts or amounts related to leases.
  - No changes related to lessor accounting.
- If a jurisdictional entity has a specific lease transaction that it proposes to treat differently from the guidance provided, it should seek approval prior to implementing its proposed accounting.

## Appendix B Lease Expenditure Types

The following expenditure types should be used for leases greater than 12 months:

Exp						
Type #	Description	Examples				
501	Lease Vehicles and Equipment Long- Term	Transportation Department Fleet leased vehicles				
618	Lease Other Long-Term	Railcars Office Trailers Equipment Defibrillators				
620	Lease-Buildings Long-Term	LG&E Center Office Space Building for storage

(Note: Text in italics indicates a key SOX control.)

**Policy:** Accounting and disclosures for pension and other postretirement plans will be in conformity with FASB ASC 715, <u>Compensation – Retirement Benefits</u>.

**Procedure:** Plan assets and obligations must be measured at a specific and consistently applied point in time. LKE uses a December 31 measurement date for its pension and other postretirement benefit plans. Under ASC 715, the funded position (the fair value of the plan assets less the project benefit obligation, or PBO) of each pension plan at the plan sponsor's fiscal year-end is required to be reported as an asset (for overfunded plans) or a liability (for underfunded plans). Fiscal year-end reporting information and disclosures are prepared before detailed participant data and full valuation results are available. Therefore, the funded position at December 31 (the measurement date) is derived from a roll forward of the January 1 (census date) valuation results, adjusted for the year-end discount rate, changes in other key assumptions and asset values, as well as significant changes in plan provisions and participant population.

Using valuations provided by its actuaries, LKE and its subsidiaries will record/adjust liabilities and assets associated with its pension and other postretirement plans at least annually and whenever changes to the plans or significant events occur resulting in a material change in valuation. Monthly costs associated with these plans will be recorded consistent with the allocation of labor (as well as capital and O&M expense) to the various subsidiary entities. Costs will be recorded on a regulatory basis with the difference between the regulatory and financial reporting basis due to purchase accounting adjustments recorded to LKC.

**Scope:** LKE employees benefit from both funded and unfunded retirement benefit plans. Its defined benefit pension plan covers employees hired by December 31, 2005. Employees hired after this date participate in the Retirement Income Account ("RIA"), a defined contribution plan. The postretirement plan includes health care benefits that are contributory, with participants' contributions adjusted annually. This policy applies to all of LKE's qualified and non-qualified defined benefit pension and other postretirement plans, including plans that provide health and life insurance and other welfare benefits to retirees.

**Objective of Procedure:** The accounting for pensions, ASC 715-10-30 and other postretirement benefits, ASC 715-10-60 are premised on the delayed recognition of actual results versus expected or estimated results. This concept recognizes and allows for the smoothing of short-term volatility in the capital markets in which plans are invested and from which assumptions are used to measure results. However, certain events such as settlements, curtailments and termination benefits could require immediate recognition of a liability and offsetting cost.

The basis for the determination of pension and other postretirement benefit obligations and cost are the plan provisions coupled with economic assumptions and demographic and mortality

#### (Note: Text in italics indicates a key SOX control.)

assumptions applied to actual employees and retirees. An obligation for each employee and retiree is calculated and projected to an assumed date of death using Society of Actuaries mortality tables, as adjusted following consultation with the actuaries, then discounted to present value.

The discounted pension and other postretirement benefit obligations are netted with plan assets to determine the amount of liability, or prepayment if assets exceed discounted obligations, to be recorded on the Company's balance sheet.

#### **General Requirements:**

#### Defined Benefit Plans:

LKE's qualified pension plan meets specific IRS guidelines and is required to be funded in a trust, which is legally separated from corporate assets for the sole purpose of providing for present and future pension obligations. The Company's policy is to generally make contributions equal to the greater of the minimum required contributions, as calculated under the Pension Protection Act of 2006 ("PPA") excluding the impact of the Moving Ahead for Progress in the 21<sup>st</sup> Century Act or the amount of the ASC 715 pension expense. Additionally, contributions will be made to maintain a minimum 80% PPA funded status in order to avoid financial penalties levied by the PBGC.

#### SERPs:

Non-qualified pension plans, most commonly referred to as Supplemental Executive Retirement Plans (SERP's), are plans that provide for additional pension benefits to highly compensated employees above IRS limits for qualified plans. Non-qualified pension plans are not required to segregate assets for benefit payments into a separate trust. LKE provides benefits under non-qualified plans, which are paid from corporate assets, as it does not currently maintain separate trusts for these plans. Note that for the purposes of this document, the Officer SERP, the Restoration Plan and the Hale SERP are all collectively referred to by the term SERP.

#### Post-Retirement Plan:

LKE is not required to make contributions to its other postretirement benefit plan but has historically funded this plan in amounts equal to the postretirement benefit costs recognized. Participants shall be required to contribute to the Plan such amounts at such times and in such manner as the Company shall determine from time to time in order to pay for all or part of the cost of coverage for the participant or the participant's dependents. Participants shall not be entitled to any refunds or rebates under the Plan.

Contributions to the Plan by the Company or participants shall, as directed by the Company, be deposited in the Trust, or be paid to a claims administrator or insurer. All contributions by

(Note: Text in italics indicates a key SOX control.)

participants payable to the Company will be used by the Company within ninety (90) days of their receipt to pay the premiums on insurance contracts, and any payments to a claims administrator or insurer by the Company will be treated as being made first from contributions by participants.

All benefits to which participants are entitled under the Plan are to be paid solely from the Trust as provided in the Trust agreement, and only to the extent thereof, except to the extent coverage under the Plan is provided through the purchase of group medical insurance contracts from one or more claims administrators or insurers. Premiums for such contracts may be paid, in whole or in part, as determined by the Company, by any or all of (i) the Company, (ii) participants or (iii) the Trust, as provided in the Trust agreement.

Contributions by retired executives of the Company are not allowed to be deposited into the Trust and are, instead, deposited into the general assets of the Company. All contributions by retired executives are used by the Company within ninety (90) days of their receipt to pay the premiums or insurance contracts under the same policies as all other retirees. Their contributions are treated no differently than those listed above. All benefits to which the retired executives are entitled under the Plan are paid out of the general assets of the Company. Their benefits are the same as the other retirees and as such are paid out according to the same terms as listed above.

## **Definitions:**

"Accumulated postretirement benefit obligation" – The measure of benefit obligations under a postretirement benefit plan, such as a retiree health care plan.

"Curtailment" – An event that either significantly reduces active participants' years of future service under the plan or eliminates future accrual of defined benefits for a significant number of active plan participants. Examples of transactions that could constitute a curtailment include plant closings, sales of a division, restructuring, a freeze of benefits, suspension of a plan, or a plan amendment eliminating benefits for future retirees. When a curtailment occurs, the company measures the effect of the curtailment. Curtailment gain/loss is intended to reflect the change in the benefit obligation and recognize unamortized prior service cost associated with years of service no longer expected to be rendered. Future service may be counted toward vesting of benefits accumulated based on past service.

"Discount rate" – The interest rate used to adjust for the time value of money.

"Expected long-term rate of return on plan assets" – An assumption as to the rate of return on plan assets stated as a percentage reflecting the average rate of earnings expected on the funds invested or to be invested to provide for the benefits included in the projected benefit obligation.

(Note: Text in italics indicates a key SOX control.)

"Expected return on plan assets" – A dollar amount calculated as a basis for determining the extent of delayed recognition of the effects of changes in the fair value of assets. The expected return on plan assets is determined based on the expected long-term rate of return on plan assets and the market-related value of plan assets.

"Fair value" – As stated in FASB Accounting Standards Codification (ASC) 820-10-20, Fair Value Measurements and Disclosures, "fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." ASC 820 introduces and requires documentation of new fair value measurement concepts including: a) exit price (entry, transaction or settlement price does not necessarily equate to fair value), b) highest and best use, c) principal or most advantageous market and d) non-performance risk (e.g. credit risk) for an entity's own liabilities. In addition, ASC 820 expands the fair value disclosure requirements of other accounting pronouncements. When measuring fair value, these new concepts as well as the disclosures should be considered and documented.

"Gain or loss" – A change in the value of either the projected benefit obligation or the plan assets resulting from experience different from that assumed or from a change in an actuarial assumption.

"Health care cost trend rates" – An assumption about the annual rate(s) of change in the cost of health care benefits currently provided by the postretirement benefit plan, due to factors other than changes in the composition of the plan population by age and dependency status, for each year from the measurement date until the end of the period in which benefits are expected to be paid. The health care cost trend rates implicitly consider estimates of health care inflation, changes in health care utilization or delivery patterns, technological advances, and changes in the health status of the plan participants. Differing types of services, such as hospital care and dental care, may have different trend rates.

"Market-related value of plan assets" – A balance used to calculate the expected return on plan assets. Market-related value can be either fair market value or a calculated value that recognizes changes in fair value in a systematic and rational manner over not more than five years. LKE applies the expected rate of return to all assets and then smoothes all asset gains/losses that differ from that expected rate of return.

"Measurement date" – The date as of which plan assets and obligations are measured.

(Note: Text in italics indicates a key SOX control.)

"Plan assets" – The assets of the plans are legally separated from LKE and invested in external trusts for the exclusive purpose of providing for present and future benefit payments under the plans for which they are invested.

"Prior service cost" – The cost of retroactive benefits granted in a plan amendment.

"Projected benefit obligation (PBO)" – The actuarial present value as of a date of all benefits attributed by the pension benefit formula to employee service rendered prior to that date. The projected benefit obligation is measured using assumptions as to future compensation levels if the pension benefit formula is based on those future compensation levels (pay-related, final-pay, final-average-pay, or career-average-pay plans).

"Rate of compensation increase" – Management's projection of employees' annual pay increases, which are used to project employees' pension benefits at retirement. This rate is based on a review of historical salary increases including annual merit increases and increases due to promotions.

"Settlement" – An irrevocable action that relieves the employer (or the plan) of primary responsibility for a pension benefit obligation and eliminates significant risks related to the obligation and the assets used to effect the settlement. Examples of transactions that could constitute a settlement include (a) making lump-sum cash payments to plan participants in exchange for their rights to receive specified pension benefits and (b) purchasing nonparticipating annuity contracts to cover vested benefits. ASC 715-30-35-82 states that a recognition in earnings of gains or losses from settlements is required if the cost of all settlements (including lump sum payments) during a year is greater than the sum of the service cost and interest cost components of net periodic pension cost for the pension plan for the year.

"Termination Benefits" - An employer may provide benefits to employees in connection with their termination of employment. They may be either special termination benefits offered only for a short period of time or contractual termination benefits required by the terms of a plan only if a specified event, such as a plant closing, occurs. An employer that offers special termination benefits to employees shall recognize a liability and a loss when the employees accept the offer and the amount can be reasonably estimated. An employer that provides contractual termination benefits shall recognize a liability and a loss when it is probable that employees will be entitled to benefits and the amount can be reasonably estimated. Termination benefits may take various forms including lump-sum payments, periodic future payments, or both. They may be paid directly from an employer's assets, an existing pension plan, a new employee benefit plan, or a combination of those means. The cost of termination benefits recognized as a liability and a loss shall include the amount of

#### (Note: Text in italics indicates a key SOX control.)

any lump-sum payments and the present value of any expected future payments. A situation involving termination benefits may also involve a curtailment.

#### Detailed Procedures Performed:

The following referenced guidance provides the broad considerations applied to all LKE's plans. However, ASC 715-30 provides that "If estimates, averages, or computational shortcuts can reduce the cost of applying this Subtopic, their use is appropriate, provided the results are reasonably expected not to be materially different from the results of a detailed application." Thus, the application of the following is evaluated on a plan by plan basis with consideration to the materiality of each plan.

#### Measurement date / Remeasurements:

ASC 715-30-35-62 through 68 provides the following guidance in regard to the measurement date. The measurement of plan assets and benefit obligations required by this Statement shall be as of the date of the employer's fiscal year-end statement of financial position unless (a) the plan is sponsored by a subsidiary that is consolidated using a fiscal period that differs from its parent's, as permitted by ASC 810-10-45-12 or (b) the plan is sponsored by an investee that is accounted for using the equity method of accounting under ASC 323-10-35-6 using financial statements of the investee for a fiscal period that is different from the investor's, as permitted by that Subtopic. In those cases, the employer shall measure the subsidiary's plan assets and benefit obligations as of the date used to consolidate the subsidiary's statement of financial position and shall measure the investee's plan assets and benefit obligations as of a particular date is not intended to require that all procedures be performed after that date.

#### Interim Remeasurement

PwC's ARM section 4270, "Pension Costs", paragraph .431 indicates that judgment is required to determine what constitutes a significant portion of expected future service and a significant number of employees in regard to settlement and curtailment. Paragraph .431 goes on to indicate that, absent other consideration, a 10% or greater reduction would be considered significant, a reduction of less than 5% would not be significant and a reduction between 5 and 10% should be evaluated based upon the facts and circumstances. This same guidance and quantitative assessment should be applied to all events to determine if they are significant and require remeasurement.

(Note: Text in italics indicates a key SOX control.)

To determine what constitutes a significant event that would require remeasurement, LKE will review internal and external events that could impact its plans, including plan amendments, changes in law, settlements, curtailments, termination benefits etc. Such events will be initially evaluated by LKE's Human Resources department in consultation with the independent actuarial firms retained by LKE. Any changes that could be significant to an individual plan are communicated to the appropriate accounting groups. Plan changes that have the potential of changing the benefit obligation and/or expected years of future service by 5% or less according to preliminary actuarial calculations are not considered significant events. Plan changes that have the potential of resulting in changes of between 5% and 10% are evaluated in greater detail by LKE's accounting groups in consultation with LKE's independent actuarial firms. A file memo or white paper will be prepared to formalize LKE's decision as to whether events impacting its plans are considered significant events that require remeasurement. Plan changes that result in changes of 10% or greater will be considered significant events that require remeasurement.

#### Semi-Annual Remeasurement

During January, the actuary provides year-end disclosures prepared in accordance with FASB ASC 715-20-50 and ASC 715-60-50. These reports measure benefit obligations as of the Company's fiscal year end date of December 31, 20xx and are based on the census data from January 1<sup>st</sup> of that year. The actuary projects forward the benefit obligations to December 31 where applicable, adjusting for benefit payments, expected growth in benefit obligations, changes in key assumptions, anticipated demographic experience and plan provisions. LKE will review these valuation reports and determine if the assets or liabilities for each individual plan should be adjusted.

During the first half of the year, the independent actuary delivers the final current year pension expense. At this time, the actuary also provides an updated funded status of the plan liabilities. The difference between the reported funded status and the funded status recorded at December 31 is due to the rollforward of data used to generate the annual year-end disclosures and complete data collection and reconciliation used to produce the final plan valuations as of the census date. The review of any resulting differences will encompass both quantitative and qualitative considerations to determine the significance of the differences and if they should be recorded. Significant differences will be assessed under ASC 250-10-20, Change in Accounting Estimate.

Ideally, pension obligations should be based on a census of participants as of the measurement date. However, assembling and verifying participant data is time consuming and using participant data as of the measurement date would mean that the actuarial calculations could not be performed until after that date. Companies that use a roll-forward

#### (Note: Text in italics indicates a key SOX control.)

approach are exposed to a particular risk of error-namely, that significant changes in the employee group would not be reflected in the plan liabilities in the proper accounting period.

According to the EY Accounting Manual, section P1.1.11.5.1, the roll-forward approach is acceptable and "a company may be able to satisfy itself that the use of beginning-of-the-year participant data "aged" one extra year to calculate year-end measurements would obtain results that are reasonably not expected to be materially different from the results that would have been obtained using end of the year participant data". Therefore, when LKE receives the updated estimate of pension liabilities in the 2<sup>nd</sup> quarter of each year, it will review the reasons for all changes and account for the change in the liability as a change in estimate as part of its normal pension process. The Company will not consider the change an error, unless an actual error in the calculations is identified during its review of the updated liability.

#### Asset Values:

Plan assets are measured at fair value at each measurement date, which are then offset against the pension and other postretirement benefit obligations to determine the funded status to be recorded on the balance sheet.

Plans are allowed to smooth the volatility of asset fluctuations by using a calculated or "market related value" approach to determine the value of assets to be used to measure pension costs and determine funding requirements. LKE uses a five year smoothing for the determination of its market-related value of assets. Under this approach, asset gains or losses are recognized in the asset base over a five year period.

ASC 715-30-55-101 through 107 provides guidance/illustrations in the use of a market related value approach.

#### Assumption Setting:

Management makes key decisions regarding the primary assumptions used in the calculations of obligations and assets which include the discount rate, expected rate of return on assets, expected mortality, salary increase rate and health care cost trend rate. Plan assumptions are evaluated by financial and human resources management and the independent actuary. These assumptions are approved on an annual basis, barring any events requiring an interim measurement. The basis for determining the primary assumptions are as follows:

<u>Discount rate:</u> Discount rates are based on the results of the Towers Watson BOND:Link model. BOND:Link matches the plans' expected cash flows to coupons and expected maturity values of individually selected bonds. Individual bonds are theoretically purchased

(Note: Text in italics indicates a key SOX control.)

to settle the plans' expected future benefit payments (bonds that match the timing of the plans' expected cash flows). This model reflects approximation of the process of settlement of obligations as required by the FASB.

Expected rate of return on plan assets: LKE's Treasury department, in conjunction with the PPL Employee Benefit & Pension Board (EBPB), monitors and reports on the returns achieved by LKE's pension and other postretirement benefit plans and provides guidance for expectations of future performance. Consideration is given to the percentage of assets invested in equities, bonds, real estate and cash in weighting the Return on Plan Assets. Consideration is also given as to whether the assets are actively managed.

To determine the expected return on plan assets, plan sponsors project the long-term rates of return on plan assets using a best-estimate of expected returns, volatilities and correlations for each asset class. Each plan's specific current and expected asset allocations are also considered in developing a reasonable return assumption.

The expected return on plan assets is determined based on a market-related value of plan assets, which is calculated by rolling forward the prior year market-related value with contributions, disbursements and long-term expected return on investments. One-fifth of the difference between the actual value and the expected value is added (or subtracted if negative) to the expected value to determine the new market-related value.

<u>Health care cost trend rate:</u> LKE's Director, Human Resources – Corporate, or delegate, reviews the health care cost trend rates for each plan with LKE's independent actuary. This review is conducted with regard to plan provisions, experience and macro-economic expectations.

<u>Lump-sum option election rate:</u> Percentage of employees assumed to take the lump-sum option available to them. This rate is set based on prior experience. The rate is compared to industry experience and evaluated for consistency

<u>Mortality:</u> The mortality assumption is composed of two parts. The first is the base table which reflects the initial mortality rates at the time the mortality study is published. The second is the projection scale which projects how mortality rates will change in the future. LKE's actuaries perform a demographic experience study every three years to determine the appropriateness of the current demographic assumptions for the plans. LKE management compares the results of its plans based on the experience study to the Society of Actuaries (SOA) tables and selects adjustment factors which will align the SOA tables to the plan experience.

#### (Note: Text in italics indicates a key SOX control.)

<u>Retirement rate:</u> This rate represents the number of people expected to retire in a year as a percentage of the number of employees eligible for retirement at that age. LKE management reviews the results of its plans per the experience study and updates the retirement rate table to reflect experience.

<u>Salary increase rate:</u> LKE's Director, Human Resources – Corporate, or delegate, provides guidance regarding recent and expected future salary increases. The independent actuary provides a report showing LKE's historical trend.

#### Amortization of Gains and Losses:

Net periodic pension costs include the aggregate recognition of:

- 1. the costs associated with providing benefits (service cost and interest cost);
- 2. an offset to those costs related to the expected return on the assets held in trust; and
- 3. amortizations of deferred items (including the transition amount from the adoption of ASC 715, if applicable, prior service cost resulting from plan amendments, and the difference between assumed and actual demographic and asset performance results).

ASC 715-30-35-24 requires, at a minimum, the amortization of unrecognized net gain or loss in excess of 10 percent of the greater of the projected benefit obligation or the market-related value of plan assets over the average remaining service period of active employees expected to receive benefits under the plan. If all or almost all of a plan's participants are inactive, the average remaining life expectancy of the inactive participants shall be used instead of average remaining service.

ASC 715-30-35-25, states "Any systematic method of amortizing gains or losses may be used in lieu of the minimum specified in the previous paragraph provided that all of the following conditions are met: (a) the minimum is used in any period in which the minimum amortization is greater (reduces the net balance included in accumulated other comprehensive income by more), (b) the method is applied consistently, (c) the method is applied similarly to both gains and losses."

LKE uses a double corridor approach to amortizing unrecognized actuarial gains and losses for its defined benefit pension plans. In addition to the minimum amortization required by ASC 715-30-35-24, a second corridor is utilized for the net unrecognized gains or losses in excess of 30% of the plan's projected benefit obligation. The net unrecognized gains or losses outside the second corridor are amortized on a straight-line method over a period equal to one-half of the average future service period of the plan participants. This method provides

(Note: Text in italics indicates a key SOX control.)

more current recognition of gains and losses, thereby lessening the accumulation of unrecognized gains and losses.

LKE uses a single corridor method for recognition of gains and losses for its post retirement plan. Under the single corridor method, actuarial gains and losses in excess of 10% of the greater of the plan's projected benefit obligation or the market-related value of plan assets are amortized on a straight-line basis over the expected average remaining service period of active plan participants.

As detailed above, ASC 715-30-35-24 requires amortization of gains and losses over the average remaining service period for plan participants. However, if plan participants are all or almost all inactive, the average remaining life expectancy of inactive participants should be used as the amortization period for gains and losses. There is no firm guidance to determine the threshold when all or almost all plan participants are considered inactive. Practice has evolved for this threshold to be triggered when 90% of plan participants are inactive. As such, PPL will apply this threshold to all plans.

Because of the limited number of employees covered under PPL's non-qualified plans, there could be instances when these plans meet the 90% inactive threshold and then fall back below that threshold when inactive participants become deceased. PPL will base amortization of gains and losses on the average remaining life expectancy of inactive participants at the initial point these plans meet the 90% inactive threshold and will not revert back to amortization based on average remaining service period, if in future periods inactive participants make up less than 90% of plan participants, as these plans are not significant in size nor their impact on the financial statements material.

On November 26, 2014, LG&E and KU filed requests with the Kentucky Public Service Commission ("KPSC") to increase their electric and gas (LG&E only) rates (Case No. 2014-00371 for KU and Case No. 2014-00372 for LG&E). The parties in the cases reached a unanimous stipulation agreement. One of the stipulations of the settlement agreement included the KPSC approving regulatory asset treatment for the difference between (1) the Utilities' pension expense booked according to its accounting policy in accordance with GAAP, i.e. double corridor approach, and (2) pension expense with actuarial gains and losses exceeding the 10% corridor amortized over 15 years. This will result in new Regulatory Assets on the financial statements of LG&E and KU. See 1055 Regulatory Asset and Liability Policy and its related Appendix A for further details of the accounting for the Regulatory Assets. This settlement applies to LG&E, the portion of KU regulated by the KPSC, and to the allocation of costs from LKS to LG&E and KU regulated by the KPSC. For FERC and VA ratemaking purposes, qualified pension actuarial gains and losses will continue to be amortized in accordance with the double corridor method discussed above.

(Note: Text in italics indicates a key SOX control.)

LKE's accounting policy continues to remain the use of the accelerated amortization methodology for pension gains and losses per ASC 715 except where ASC 980 Regulated Operations provides for recording amortization based on the 15 year methodology agreed upon in the settlement with the KPSC

GAAP requirements for settlement accounting, absent regulatory asset treatment, require the pro rata share of the unamortized gains/losses to be recognized immediately. However, in accordance with FERC guidance, LG&E and KU have recorded actuarial gains and losses to a regulatory asset. LG&E and KU will not immediately recognize a pro rata share of the unamortized gains/losses in the Plan. Instead, LG&E and KU will preserve existing regulatory accounting treatment. LKS allocates the amortization of the gains and losses recorded on LKS accounting ledgers to LG&E, KU and LKC. LKE will follow the same allocation methodology for gains and losses recorded on LKS accounting ledgers which are subject to settlement. Thus, the settlement allocated to LG&E and KU will be recorded as a regulatory asset on the books of LG&E and KU. The settlement of the AOCI allocated from LKS to LKC and the settlement of the AOCI recorded on the accounting ledgers of LKC will be immediately expensed. The settlement charge allocated to the portion of KU which is subject to regulation by the Federal Energy Regulatory Commission (FERC) for KU's municipal customers and to regulation by the Virginia State Corporation Commission (VSCC) for KU's Old Dominion Power customers will be immediately expensed since those portions of KU do not have a regulatory requirement for fifteen year amortization of gains and losses. The Company's actuary will isolate the settlement gains/losses previously below the 10% amortization corridor and begin to amortize them over fifteen years from the date of settlement.

## **Responsibilities:**

<u>Treasury (Allentown)</u> – Manages and/or coordinates all trust and investment manager relationships, ultimately responsible for all plan investments.

Treasury (Louisville) - Coordinates all plan funding decisions with senior management.

<u>Human Resources</u> – Communicates plan provisions and any changes to plan provisions to the plan actuary and pension accounting. Provides annual employee census data, input on the health care cost trend and the rate of compensation increase assumptions to the plan actuary.

<u>Risk Management</u> – Responsible for recommending and coordinating the year-end assumptions to be used for plan measurement with senior management and the actuary. Responsible for all general ledger journal entries and account analysis associated with all LKE pension and

## (Note: Text in italics indicates a key SOX control.)

postretirement plan activity. Coordinates and/or prepares quarterly and annual 10Q/10K disclosures as required by ASC 715-20-50 in consultation with PPL Services Benefits Accounting group. Provides and coordinates information and accounting assessment related to plan changes with actuary for potential remeasurement and/or settlement / curtailment accounting.

#### Reports Generated and Recipients:

- Annual financial statement disclosures under regulatory and financial reporting scenarios prepared by actuary and distributed to various Treasury, Risk Management and Accounting personnel
- Annual actuarial valuation reports to various Treasury, Risk Management and Accounting personnel

#### Additional Controls or Responsibility Provided by Other Procedures:

None

#### Regulatory Requirements:

Employee Retirement Income Security Act of 1974 (ERISA) Pension Protection Act of 2006 Internal Revenue Code Section 401(k) Patient Protection and Affordable Care Act of 2010

#### (Note: Text in italics indicates a key SOX control.)

**Policy:** Capital assets will be recorded based on the acquisition or construction of property, plant and equipment ("PP&E") with useful lives greater than one year, and assets will be removed based on retirements and disposals of PP&E to ensure the accounting records are accurate.

**Procedure:** The procedures for adding and removing capital assets are described in the detailed instructions below.

**Scope:** All asset additions and retirements of LG&E and KU Energy LLC ("LKE" or the "Company") and its subsidiaries.

**Objective of Procedure:** Ensure that all capital assets and retirements are properly added or removed from the accounting records.

#### **General Requirements:**

#### Detailed Procedures Performed:

Various costs are considered appropriate to be accounted for as capital. The following are some generic definitions of these costs:

<u>Capitalizable Costs</u> - costs that are directly identifiable with specific PP&E. This includes incremental costs related to the acquisition, construction or improvement of capital assets. These costs singly or in combination with other assets will provide a future economic benefit that will contribute directly or indirectly to future net cash inflows.

<u>Direct Costs</u> - costs which can be identified and directly attributed to a specific capital project for the acquisition or construction of PP&E. These costs can be readily identified and are itemized by name and amount. Examples are direct labor, direct material, and direct equipment costs.

<u>Direct Labor Cost</u> - labor cost which can be identified and directly attributed to a specific capital project for the acquisition or construction of PP&E. The cost components are basic wage/salary rate, shift premiums, fringe benefits and overtime premiums.

<u>Direct Material Cost</u> - material cost which can be identified and directly attributed to a specific capital project for the acquisition or construction of PP&E. These costs include inventory loading cost, freight, transportation, and applicable taxes associated with the material.

<u>Probable</u> – the future event or events are likely to occur. A capital project for the acquisition or construction of PP&E is probable when: 1) proper management approval as specified by the

#### (Note: Text in italics indicates a key SOX control.)

authority limits matrix is obtained in writing, 2) financial resources are available to fund the project, and 3) any regulatory requirements can likely be met.

<u>Indirect/Overhead Costs</u> - costs which generally are not directly attributable to a specific capital project for the acquisition or construction of PP&E.

Capital projects generally follow a timeline and progress through the following stages of acquiring or constructing an asset:

- <u>Preliminary Stage</u> the period during which the acquisition or construction of specific PP&E is being evaluated. Feasibility studies often occur during this stage. At this stage the project is not yet approved by Management and all costs are expensed as incurred. The only capitalizable costs are payments to obtain an option to purchase PP&E.
- <u>Preacquisition Stage</u> the acquisition or construction of specific PP&E is deemed probable at this time, so appropriate costs can be capitalized. Only those costs that are directly identifiable to the asset are capitalized. Activities often include zoning, surveying, and engineering studies.

Directly identifiable costs include:

- incremental direct costs incurred in transactions with a third party often include an element of the third party's administrative overhead. That element is considered to be an incremental direct cost and should be capitalized.
- labor and burden costs related to time spent on specified activities performed by the entity during this stage.
- depreciation of machinery and equipment used directly in the construction or installation of PP&E and incremental costs directly associated with the utilization of that machinery and equipment during this stage.
- inventory (including spare parts) used directly in the construction or installation of PP&E.
- payment to obtain an option to acquire PP&E.

NOTE: Costs that are capitalized during the preliminary and preacquisition stages will be added to the basis of the asset acquired or constructed. If the likelihood no longer exists that the asset will be acquired or constructed, capitalized costs should be reduced to the lower of cost or fair value less cost to sell.

#### (Note: Text in italics indicates a key SOX control.)

- <u>Acquisition or Construction Stage</u> the acquisition or construction activities occur that are necessary to get the PP&E ready for its intended use. This is the stage when the business entity acquires ownership of the assets or rights to the assets. It continues until the asset is acquired or until completion of all major construction and installation activities. If the asset is constructed in phases, it can be divided into multiple projects as long as the phases can be operated independently from the projects that are incomplete. Capitalized interest, if applicable, begins during this stage (see AFUDC Policy and Procedures). Costs <u>directly</u> identifiable related to the asset during this stage can be capitalized. Examples are listed below:
  - labor and burden costs related to time spent on specified activities performed by the entity during this stage.
  - depreciation of machinery and equipment used directly in the construction or installation of PP&E and incremental costs directly associated with the utilization of that machinery and equipment during this stage.
  - inventory (including spare parts) used directly in the construction or installation of PP&E.
  - payment to obtain an option to acquire PP&E.
  - incremental direct costs incurred in transactions with a third party often include an element of the third party's administrative overhead. That element is considered to be an incremental direct cost and should be capitalized.
  - for real estate, costs incurred for property taxes, insurance and ground rentals are capitalizable during the time that activities are necessary to get the asset ready for its intended use are in progress. The cost of demolition that occurs with the acquisition of real estate is capitalized during a reasonable period of time thereafter.
- <u>In-Service Stage</u> PP&E is substantially complete and ready for its intended use. Capitalized interest, if any, ceases (see AFUDC Policy and Procedures) and depreciation commences at this stage. Costs that are incurred during this stage can be as follows:
  - repair and maintenance expensed as incurred.
  - replacement of existing components of PP&E capitalized under the guidelines of the FERC Uniform System of accounts.
  - additional components to PP&E- follow the capitalization criteria set forth in the first three stages within this policy.

NOTE: <u>Major maintenance activities</u> may include costs related to replacements of PP&E and should be capitalized (when incurred and not accrued) according to the FERC Uniform System of Accounts. Additions to PP&E should follow the capitalization criteria

(Note: Text in italics indicates a key SOX control.)

set forth in first three stages within this policy. All other maintenance costs should be expensed as incurred.

Refer to Appendix A – Summary of Accounting, for more details on accounting for specific types of costs.

LKE and its subsidiaries have historically applied the standards of the Federal Energy Regulatory Commission ("FERC") and other regulators in their accounting practices when making capital versus expense determinations. It has been LKE's practice is to capitalize the following:

- Direct costs related to asset construction costs directly charged such as labor, purchased material, contractors and inventory.
- Burden Cost Component cost that can NOT be directly charged. Examples of burdens include pensions, insurance, payroll taxes and other labor related costs.
- A portion of indirect overheads directly attributable to capital activities –including Administrative and General Expense-Transferred ("A&G") and Engineering, Warehouse and Transportation Overheads. A&G is an allocation from Operation and Maintenance to Capital which allocates labor and expenses of employees that support the capital process but do not work directly on a particular capital project. These costs can be capitalized per the Code of Federal Regulations and have been deemed recoverable in rates by the various regulating entities.

According to the Capital and Investment Review Policy guidelines, projects with a total cost of \$5,000 or less will be expensed, and any Authorization for Investment Proposal ("AIP") that is received for \$5,000 or less is returned to the Project Manager with an explanation. All other capital expenditures are subject to mandatory capitalization. All fixed assets are recorded at cost as mandated by the FERC. When the requestor completes preparation of the AIP for capital expenditures in PowerPlan, appropriate authority must be achieved based on the Authority Limits Matrix. The preparer sends the electronic AIP for approval via PowerPlan). *Configuration exists in PowerPlan to contain preset AIP approval levels which drives the workflow approval process within PowerPlan (SOX Cycle 40.01, CA#21). Accounting Analysts use the PowerPlan AIP Approval Checklist posted on Property Accounting's shared drive to aid in the AIP approval process. This checklist ensures that AIPs are approved consistently by all Accounting Analysts (SOX Cycle 40.01, CA#19). If the AIP passes review, the Accounting Analyst approves the project in PowerPlan. Should the AIP not pass review, the Accounting Analyst has the option to request additional information or reject the AIP. If the AIP is rejected the approval process starts all over.* 

#### (Note: Text in italics indicates a key SOX control.)

To ensure timely capitalization and retirement of projects, a report, referred to as the 90-Day *Report (SOX Cycle 40.01, CA#3)*, is generated on a quarterly basis identifying capital and cost of removal projects which are in "open" status but having no activity for 90 days or more. This report is sent to every line of business Budget Coordinator with a request to update the project with either in-service or completion dates or verify that the project is still active. If the project is complete, Property Accounting capitalizes it or process a retirement in a timely matter.

*Monthly, a report called the "Job Log" is generated (SOX Cycle 40.01, CA#4)* identifying all capital projects, which are in "completed" or "closed" status with no activity for 90 days or more. The purpose of this report is to identify projects eligible for capitalization/retirement. The report is saved on the Property Accounting Department shared drive.

During the accounting period, Accounting Analysts select projects from the Job Log for capitalization/retirement. The Accounting Analyst uses the *Work Order Analysis Checklist (SOX Cycle 40.01, CA#6)* posted on the Property Accounting Department's shared drive to aid in the capitalization and retirement process. This checklist ensures that fixed asset records are processed consistently by all Accounting Analysts or Associates, reducing the risk of misstatement of fixed assets in the financial statements. The capitalization process includes the following:

- Review Authorization for Investment Proposal ("AIP").
- Reconcile capital and cost of removal expenditure charges to the AIP to ensure that all expenditures have been properly authorized. If the variance compared to the original AIP is 10% or \$100,000 over; (whichever is less, subject to a minimum of \$25,000), a revised AIP must be completed as soon as possible.
- Review all project charges to ensure that all charges should be properly capitalized or classified as cost of removal.
- Reconcile units of property listed on the AIP to what has been charged to the project.

Transaction processing is accomplished in PowerPlan with a combination of manual and automated processes as documented in the PowerPlan User Guides maintained in PowerPlan. The Accounting Analyst or Associate creates manual as-builts in PowerPlan for all non-mass property. Mass property such as utility poles, crossarms etc., is unitized through an automated as-built process. In both processes, costs charged to capital projects are distributed automatically by the system based on units of property established by the Accounting Analyst or Associate in the case of manual as-builts, and those established from inventory transactions in the case of automated as-builts. The Accounting Analyst or Associate again verifies the segmentation is correct and assigns the asset to a segmented plant account pursuant to FERC regulations.

The retirement process includes the following:

(Note: Text in italics indicates a key SOX control.)

- Review AIP and the associated retirement/salvage information to determine if a retirement is listed or should be listed based on a description of the project (i.e., if a project addition is to replace an asset a retirement should be listed). The Accounting Analyst or Associate will question the responsible Budget Analyst if retirements are not listed where it appears they should be.
- Review all project removal charges in the Cost Repository Report Actual Cost ("RWIP").

Manual retirements are those related to a one time retirement event. Assets are selected for retirement through the "CPR Retire" function. Costs charged to retirement projects are distributed automatically by the system based on units of property, established by the Accounting Analyst or Associate in the case of manual as-builts and those established from inventory transactions in the case of automated as-builts.

Blanket retirements are those related to ongoing projects which are processed periodically. These retirements are created automatically in PowerPlan based on actual charges that occur on the project.

ITo ensure that potential large dollar retirements are properly recorded in the financial records, it may be necessary to record a "preliminary retirement." A preliminary retirement is defined as an "estimated asset cost retired at the time the replacement asset is put into service." A preliminary retirement is entered in PowerPlan when an asset has been placed into service but is not yet eligible for final unitization due to timing issues, etc. The following guidelines are used to determine whether a preliminary retirement is necessary:

- The project is in In-Service Status /or Completed Status but not yet unitized; and
- The new asset replacement cost must be equal to or greater than \$500,000

Preliminary retirements will be identified for projects which meet the above guidelines. Preliminary retirements where the total estimated asset costs by project to be retired are equal to or less than \$100,000 will not be recorded as the resulting reduction in depreciation expense is considered to be immaterial. Preliminary retirements will be processed during the 'mid' month (February, May, August and November) of each quarter. Once a project is unitized, all related retirements, including those less than or equal to \$100,000 are recorded in the system.

In order to minimize record keeping requirements, equipment in certain General Plant accounts are amortized (office furniture and equipment, stores equipment, tools, shop equipment, garage equipment and laboratory equipment). These assets are retired when the assets become fully

(Note: Text in italics indicates a key SOX control.)

depreciated based on their in-service date and depreciable lives. For equipment in these accounts, AIP reporting for retirements is not necessary.

For both additions and retirements, PowerPlan validation rules prevent the Accounting Analyst or Associate from choosing invalid units of property, plant accounts and business segment combinations in order to prevent incorrect data from being entered. An error message is generated in the event of an invalid combination and the Analyst must correct the error before proceeding. PowerPlan does not allow the posting of assets with incomplete data fields.

After the Accounting Analyst or Associate creates the assets in PowerPlan, and before the transaction is posted, the work is reviewed (SOX Cycle 40.01, CA#5) to ensure additions and retirements are compliant with the various accounting rules (FERC, Company guidelines, etc.) by another Accounting Analyst. After the review and approval process is completed, relevant data including project number, amount added or retired, cost of removal, salvage amount, and the Accounting Analyst's or Associate's initials are entered into the PowerPlan Classification Spreadsheet maintained on the Property Accounting shared drive. The spreadsheet calculates a control total of all additions, retirements, removal and salvage costs entered by Accounting Analysts or Associates during the month. The as-built folder is then passed to an Accounting Analyst responsible for the monthly system closing process for posting.

The Accounting Analyst responsible for the closing process begins the process by sending an email to all Property Accounting personnel toward the end of the accounting period informing them of the last day to unitize assets for the current period. The Accounting Analyst then runs the PowerPlan processes to post all acquisitions for assets and retirements. To verify the accuracy and completeness of the data, monthly the Accounting Analyst reconciles all addition and retirement postings in the general ledger to control totals in the PowerPlan Classification Spreadsheet. Discrepancies are investigated and cleared as discovered. Once all totals are reconciled, the Accounting Analyst runs the depreciation calculations. PowerPlan automatically generates entries for gains and losses on non-mass property which are then checked for correctness by the Accounting Analyst. The monthly reconciliation and closing process is then completed. Procedures are documented in the "Property Accounting Monthly Closing Procedures". These procedures are maintained by the Accounting Analyst to ensure accurate monthly financial closing. The Accounting Analyst maintains all supporting documentation in binders stored in the Property Accounting Department. During the closing process, the Accounting Analyst uses a *closing checklist (SOX Cycle 40.01, CA#7)* saved on the Property Accounting Shared Drive to ensure that all steps are completed.

Reports Generated and Recipients:

• 90-Day Report sent to the Budget Coordinators

#### (Note: Text in italics indicates a key SOX control.)

- Job Log report

Appendix A- Summary of Accounting

Type of Work	Capital	Expense	Deferred Charges	Comments
Preliminary Stage (pre-probable)				
Internal/external costs of developers working to facilitate project negotiation and start up		X		
Internal/external legal fees to draft letters of intent and purchase agreements		X		
Travel expenses of internal/external developers and other company personnel to conduct negotiations with other parties and review project		X		
Salaries/consultant fees to review or develop models of projected cash flows/operations		X		
Payment to obtain an option to acquire PP&E	X			
Preacquisition Stage (Project is deemed probable) & Construction Stage				
Payment to acquire a site permit and license when directly identifiable to the property	X			A
Internal/external legal fees for Operational/Commercial contracts	X			В
Internal/external legal fees for litigation proceedings related to PP&E	X			В
Internal/external legal fees for condemnations proceedings, including court and counsel costs for land and land rights	X			
Internal/external legal fees for environmental activities directly related to PP&E	X			С
Internal/external fees for incorporation related to a regulated entity	X			
Salaries of developers, legal counsel and other Company personnel working to facilitate obtaining a	X			D

# (Note: Text in italics indicates a key SOX control.)

Type of Work	Capital	Expense	Deferred Charges	Comments
site permit and license when directly identifiable to the activity				
Internal salaries to negotiate and secure specific project financing		X		
Payment to obtain an option to acquire PP&E External fees to negotiate and secure project financing	X		Х	
Incremental direct costs with independent third parties for specific PP&E	X			
External consulting fees such as architectural and engineering studies	X			
Real estate legal and title fees	X			
Real estate surveying fees, appraisal, negotiation fees, site preparation, and damage payments (e.g. crops)	X			E
Directly related employee salary and benefit costs	X			
Environmental compliance and due diligence in areas directly related to PP&E	X			F
Building demolition costs	X			G
Internal direct costs of constructing the asset, including labor	X			
Depreciation and incremental costs of directly related equipment	X			
Internal costs to develop software at site (subject to Policy 655 – Hardware and Software Capitalization Policy)	X			
Costs of materials to build the plant, including acquisition of inventory and contract labor	X			
Costs reduced for liquidating damages	X			H
Inventory (including spare parts) used directly in acquisition or construction of PP&E	X			

## (Note: Text in italics indicates a key SOX control.)

Type of Work	Capital	Expense	Deferred Charges	Comments
Incremental costs associated with field office maintained during construction	X			
Costs to identify and hire operating and administrative personnel on-site		X		
Internal/external costs to conduct training, including training on internally developed or acquired software		X		
Interest expense incurred on debt incurred to finance acquisition (subject to limitations)	X			
Property taxes and insurance (subject to Policy 656 – Capitalized Property Taxes Policy)	X			I
Post Construction/Pre-operation				
Costs to test plant	X			J
Synchronization of plant to grid	X			K
O&M contractor costs		X		
Administrative costs such as rent, utilities, etc.		X		

## Comments:

- A. Capitalize only if all conditions are met: costs are directly identifiable to the specific property, costs would be capitalized if the property were acquired, and acquisition of the property is probable.
- B. Capitalize only if directly identifiable to a capital project.
- C. Examples of activities include licensing, air and water permitting, site acquisitions, and all other studies required by regulatory and environmental agencies as a precondition to permit issuance.
- D. Limited to time spent on a specific permit/license. Not time exploring several possible sites; costs should not be significant.
- E. Costs include professional fees of engineers, attorneys, appraisers, and financial advisors, etc.
- F. Areas include hazardous material and waste management, pollution prevention, environmental permitting & impact analysis, and regulated licensing/renewals
- G. Capitalize if the demolition is probable upon purchase and occurs within approximately one year after and classify as land.

# (Note: Text in italics indicates a key SOX control.)

- H. Liquidating damages an entity receives because a third party did not deliver or complete construction by a contractual specified date.
- I. Costs incurred for property taxes associated with real estate and insurance shall be capitalized as property cost only during periods in which activities necessary to get the property ready for its intended use are in progress.
- J. Credit test power revenues against capital cost. Need to distinguish true testing from startup activities. Startup losses should be expensed.
- K. Extensive connection delays or rework expenses must be expensed. Need to distinguish from startup activities. Startup losses should be expensed.
- NOTE: Examples above are <u>not</u> an exhaustive list of all expenditures that may be capitalized. Contact Property Accounting with any questions.

# (Note: Text in italics indicates a key SOX control.)

**Policy:** AFUDC is a calculated allowance for Kentucky Utilities Company ("KU") representing the opportunity cost of having funds tied up in major construction projects.

**Procedure:** The procedures for calculating AFUDC are described below.

**Scope:** AFUDC is calculated for KU projects only. By order of the Federal Energy Regulatory Commission ("FERC"), KU calculates and applies AFUDC to generation<sup>1</sup> assets used to serve the municipal utilities in KU's territory. Because the Company earns a return on Construction Work in Progress ("CWIP") in Kentucky and Virginia, AFUDC does not apply to those jurisdictions.

A project must be a generation project and meet two criteria to be eligible for AFUDC accrual:

- 1. Estimated investment costs must be greater than \$100,000. Note: This limit is based on the gross investment amount, regardless of the amount of cash contribution to be received by a project.
- 2. Actual construction time must be at least three consecutive months in duration. Construction time is measured in actual labor construction time and should not include engineering/design time. (Construction time may be measured by contract or Company labor, or outside services if those labor dollars represent actual construction).

The forgoing criteria process regarding investment dollars and construction duration has been the past practice of KU for many years and has been accepted by the FERC as an appropriate methodology.

**Objective of Procedure:** To calculate the AFUDC capitalized.

## **General Requirements:**

## Annually:

In January, the estimated AFUDC rate is calculated using previous year-end financial information and forecasted CWIP and borrowings. All financial information used must be on a regulatory basis, no purchase accounting amounts are included. Per Docket No. FA11-7-000, Audit of PNM Resources, Inc. and Public Service Company of New Mexico, the common equity

<sup>&</sup>lt;sup>1</sup><u>Generation</u>: Effective July 1, 2014, AFUDC is calculated on 100% of eligible generation assets. Previously, only 50% of non-environmental projects were eligible for AFUDC from the inception of formula rates in 2009. <u>Transmission</u>: KU recorded AFUDC on eligible transmission projects prior to January 1, 2015. KU discontinued recording AFUDC on transmission projects at that time as transmission assets are now considered a retail asset recoverable from Kentucky and Virginia retail customers. Revenues from parties that use the transmission system are credited to retail customers in rate cases.

# (Note: Text in italics indicates a key SOX control.)

balance used for the rate calculation must not include Account 219, Accumulated Other Comprehensive Income. The long term debt balance must be the actual prior year-end balance and should not be adjusted for any un-amortized expense, loss on reacquired debt, premium or discount. The FERC jurisdictional rate is provided annually to Property Accounting by a Rate Analyst from the State Regulation and Rates Department. The FERC jurisdictional rate is based on the most current KU annual jurisdictional study.

The annual rate is calculated using the formula in the table below. The rates are then updated in PowerPlant by an Accounting Analyst in the Property Accounting Department. The annual rate stays in effect until December, when adjustments to the annual rate are possible. See the "Rates Calculation Updates" section below for details. A sample calculation is shown below.

## (Note: Text in italics indicates a key SOX control.)

For purposes of illustration the following calculation for the annual rate used in 2019 is presented:

S - Avg. Short Term Debt	114,935,750.00
s - Short Term Debt Interest rate	3.085%
D - Long Term Debt	2,341,852,405.00
d- Long Term debt Interest Rate	4.156%
P - Preferred Stock	0.00
p - Preferred Stock Cost Rate	0.000%
C - Common Equity	2,835,126,675.89
c - Common Equity Cost Rate	10.00%
W - Avg CWIP Balance	308,561,000.00

Ai = Gross allowance for borrowed funds used during construction rate.

Ai =	s(S/W) +	D d () D + P + C	(1 - S/W)	
Ai =	0.0233			0.023288521

Ae = Allowance for other funds used during construction rate.

Ae =	[1 - S/W]	P [ p () D + P + C	C + c ()] D + P + C
Ae =	0.0344		0.034365053

## Total Rate

FERC Jurisdictional Rate Per D. Leichty - 2018 Jurisdictional Allocation Study per 3/21/1

Ai =	2.33%	100.00%	1.996%	0.046507%
Ae =	3.44%	100.00%	1.996%	0.068662%
	5.77%	100.00%	1.996%	0.115169%

(Note: Text in italics indicates a key SOX control.)

# **Rates Calculation Updates:**

During the December financial close, the annual rate calculation must be compared to a rate calculation which has been updated with actual monthly CWIP and short-term debt balances for the entire year. If there is at least a 0.25% variance between the rate calculated with actuals and the annual rate calculated at the beginning of the year then adjustments must be calculated and entered into PowerPlant by an Accounting Analyst in the Property Accounting Department. The variance is based on calculated rates before applying the jurisdictional factor. This comparison between the rate calculated with actuals and annual rate must be completed in order to be in compliance with Federal Power Commission Order No. 561, Order Adopting Amendment to Uniform System of Accounts for Public Utilities and Licensees and for Natural Gas Companies. The Order states (on page 3): "We shall require, however, that public utilities and natural gas companies monitor their actual experience and adjust to actual at year-end if a significant deviation from the estimate should occur. For this purpose we shall consider a significant deviation to exist if the gross AFUDC rate exceeds by more than one-quarter of a percentage point (25 basis points) the rate that is derived from the formula by use of actual 13 monthly balances of construction work in progress and the actual weighted average cost and balances for short-term debt outstanding during the year." See Appendix A for a copy of the Order.

An Excel file is kept on the Property Accounting department shared network drive (fs2:\\propacct) with all AFUDC eligible projects. Eligibility is determined based on the criteria listed above. These projects are identified during Authorization for Investment Proposal review by Property Accounting Analysts. On a monthly basis, each project on the list is checked to see if construction has begun, or if it has been placed into service. A listing of these projects is sent monthly to the appropriate Budget Coordinator requesting this project specific info. If construction has commenced then the Property Accounting Analyst will activate the project in PowerPlant and AFUDC will be calculated. If a project has been classified as "in-service" then the AFUDC calculation ceases.

The calculation is as follows:

# AFUDC rate \* (CWIP balance of prior month, less exclusions, + 1/2 of current month) = AFUDC charge

# (Note: Text in italics indicates a key SOX control.)

The CWIP base illustrated in the above calculation should exclude all unpaid accruals, including contract retention, tax accruals, etc.<sup>2</sup>

During the monthly close process, an AFUDC Calculation report is generated by PowerPlant showing the AFUDC charges for the month, and is reviewed for reasonableness by the Accounting Analyst responsible for AFUDC accounting.

There are certain expenditure types that are excluded from the CWIP balance for the AFUDC calculation. These include:

- 0211 Warehouse Accruals (Accrual Entries Only)
- 0311 Outside Services Accruals (Accrual Entries Only)
- 0391 Retention
- 0411 Purchased Materials Accruals (Accrual Entries Only)
- 0611 Other Expenditures Accruals (Accrual Entries Only)
- 0646 Contributions: Charitable
- 0647 Community Relations
- 0675 Misc Accounting Use Misc JE Cust Payment RWIP
- 0676 Misc Accounting Use Misc JE Cust Payment CWIP

Note: Expenditure types 0686 (AFUDC – CWIP Equity) and 0688 (AFUDC – CWIP Debt) are only included in the CWIP balance for AFUDC calculation purposes if those charges have been compounded into the AFUDC beginning base. The AFUDC compounding process is described below.

<sup>&</sup>lt;sup>2</sup> Guidance on unpaid item exclusions found in audit findings for Ruby Pipeline, LLC (Docket No. FA13-12-000), Panhandle Eastern Pipe Line Co, LP (Docket No. FA12-4-000), Gulfstream Natural Gas System, LLC (Docket No. FA11-10-00) and ETC Tiger Pipeline, LLC (Docket No. FA13-9-000)

# (Note: Text in italics indicates a key SOX control.)

## **Compounding AFUDC:**

AFUDC is compounded **only** in June and December, in compliance with FERC guidance. For an example calculation, please refer to the following AFUDC calculation report from **December 2018**:

Project	Beginning AFUDC Base	Total Beginning Base	1/2 Current Month Charges	Compound Eligible AFUDC	Total AFUDC Base	AFUDC Debt	AFUDC Equity	Total AFUDC
151120	35,243,042.73	35,243,042.73	314,813.18	83,262.57	35,641,118.48	5,646.27	9,175.45	14,821.72
151121	42,825,574.95	42,825,574.95	106,502.86	104,710.66	43,036,788.47	6,817.89	11,079.39	17,897.28
151122	20,161,040.85	20,161,040.85	954,805.99	42,162.57	21,158,009.41	3,351.85	5,446.92	8,798.77
151123	37,726,748.11	37,726,748.11	283,708.46	90,027.23	38,100,483.80	6,035.88	9,808.59	15,844.47
151414	179,243.77	179,243.77	3,700.70	213.46	183,157.93	29.02	47.15	76.17
152379	116,479,311.46	116,479,311.46	4,172,685.59	247,212.01	120,899,209.06	19,152.85	31,124.29	50,277.15
152385	39,498,995.02	39,498,995.02	531,547.91	88,061.87	40,118,604.80	6,355.59	10,328.13	16,683.72
152899	19,678,669.15	19,678,669.15	2,286,695.64	33,361.49	21,998,726.28	3,485.04	5,663.35	9,148.39
	311,792,626.04	311,792,626.04	8,654,460.33	689,011.86	321,136,098.23	50,874.38	82,673.28	133,547.66

What is in AFUDC Beginning Base?

- 1. 100% of all prior months charges to 107001 that did not use an excluded expenditure type (0211, 0311, 0391, 0411, 0611, 0646, 0647, 0675, 0676, 0686, 0688)
- 2. 100% of charges to AFUDC expenditure types 0686 and 0688 as of the month prior to the last compounding date. In the above example, the last compounding month was June 2018, therefore anything charged to expenditure types 0686 and 0688 thru May 2018 month end, is included in the "Beginning AFUDC Base.

What is in <sup>1</sup>/<sub>2</sub> Current Month Charges?

1. 50% of current month charges to 107001 that did not use an excluded expenditure type (0211, 0311, 0391, 0411, 0611, 0646, 0647, 0675, 0676, 0686, 0688). In the above example, December is the current month.

# What is in Compound Eligible AFUDC?

1. 100% of AFUDC charges to expenditure types 0686 and 0688 beginning the month of the last compound (i.e. June in the example). In the above example, all charges to expenditure types 0686 and 0688 between June and November 2018 are shown as "Compound Eligible AFUDC".

In the example above for December 2018, PowerPlan sums the previous six months AFUDC charges (June-November 2018) made to expenditure types 0686 and 0688 and classifies those as "Compound Eligible" AFUDC. This amount is then included in the "Total AFUDC Base" for purposes of the December AFUDC calculation. The monthly AFUDC debt and equity rates are

# (Note: Text in italics indicates a key SOX control.)

then multiplied by the total AFUDC base to calculate current month AFUDC. Note: Current month charges to the expenditure types 0686 and 0688 during a compound month, do not roll into the AFUDC base calculation until the next compounding month. In the month **following** compounding (January or July), the amounts that were included under the "Compound Eligible AFUDC" column are moved into the "Beginning AFUDC Base" column.

## ORDER ADOPTING AMENDMENT TO UNIFORM SYSTEM OF ACCOUNTS FOR PUBLIC UTILITIES AND LICENSEES AND FOR NATURAL GAS COMPA-NIES

Before Commissioners: Richard L. Dunham, Chairman; Don S. Smith, John H. Holloman III and James G. Watt.

### **OPINION:**

On May 20, 1975, the Commission issued a notice of proposed rulemaking in Docket No. RM75-27 (40 F.R. 23322, May 29, 1975). This rulemaking proposed to establish a uniform formulary method for determining the maximum rates to be used in computing the Allowance for Funds Used During Construction (AFUDC) and to provide accounting and reporting requirements for AFUDC which accord with the elements entering into the determination of AFUDC rates. The stated objective of the proposed rule was to establish a method which would give recognition to the interrelationship between capital utilized for rate case purposes and the capital components of AFUDC in a manner that would permit a utility to achieve a rate of return on its total utility operations, including its construction program, at approximately the rate which would be allowed in a rate case.

Comments were invited from interested parties on or before July 7, 1975. Due to requests, this date was extended to [\*2] September 5, 1975. In response to the proposed rulemaking, the Commission received comments from 79 respondents (Attachment A). In general, the reaction to the proposed rulemaking was favorable as to its overall objective, but many respondents questioned the ability of the proposal to meet such objective and made suggestions for improvement.

Many respondents objected to the weight given short-term debt in the proposed rule and suggested a number of alternatives. These respondents argued that short-term debt is not necessarily the first source of construction funds, as would be indicated by application of he proposed formula, and should be ignored or given less weight. We are not convinced, however, that we should modify the proposed formula with respect to short-term debt. It is generally impossible to specifically trace the source of funds used for various corporate purposes and it was not the purpose of our proposed rule to do so. Instead, we proposed a rule that would give a utility an opportunity to be compensated for the total cost of capital devoted to utility operations, including its construction program. In order to accomplish this, it is necessary to look to how [\*3] the cost of capital is handled in a rate proceeding so that a method for determining

AFUDC can be devised that will not result in double counting of the same capital cost or will not omit important categories of capital cost. Typically, short-term debt has not been included in rate of return computations for cost of service purposes on the grounds that such debt is temporary and is used essentially for construction purposes; however, the cost of such debt represents a valid and necessary expenditure for conducting utility operations which ultimately must be recovered through rates. By adopting the approach of permitting the capitalization of short-term debt cost through AFUDC, we provide such a mechanism. It should be understood that this method is for the purpose of establishing a rate for AFUDC and not for establishing a method for allocating short-term interest cost for the purpose of a rate proceeding.

Many respondents also questioned the use of embedded cost rates for long-term debt and preferred stock in the proposed AFUDC formula and suggested incremental cost rates be used instead. For essentially the same reasons that we believe the proposed handling of short-term debt [\*4] should not be modified, we are rejecting this suggestion. If incremental cost rates were utilized for these categories of capital cost in the AFUDC formula, there would be a double counting for the same costs. Embedded cost rates are normally used for rate of return purposes and such cost rates include the cost of new as well as old issues of long-term debt and preferred stock. Therefore, the composite return on rate base collected through rates provides for the proportionate recovery of new or incremental capital costs in the ratio of rate base to the size of the capital structure used for rate of return purposes. If we assume for the sake of argument that the sum of a utility's permanent capital structure plus short-term borrowing is equal to the sum of its rate base plus construction work in progress balances, it is obvious that the use of incremental cost for AFUDC purposes and embedded cost for rate of return purposes would result in double counting of the same costs. Although the above illustration somewhat oversimplifies the issue, we believe that the principle is adequately demonstrated.

The other basic component for AFUDC relates to common equity funds. Comments by [\*5] respondents on this subject primarily related to how the reasonable cost rate for common equity funds should be determined. Unlike debt costs or the cost of preferred stock, which can be objectively determined by analysis of actual contractual obligations and expenditures, the cost of common equity is not ordinarily related to contractual requirements. In the proposed rule we indicated that the cost rate to be used for common equity would be the rate granted common equity in the last rate proceeding before the body having primary rate jurisdiction or, if such rate is not available, the average rate actually earned during the preceding 3 years should be used. We recognize, based on the comments received, that this approach may require some modification in situations where ratemaking bodies use other than an "original cost" rate base or where utilities are subject to multiple rate jurisdiction. However, in developing a general rule relating to AFUDC, we find any possible inequities of this nature can best be handled on an individual company basis.

Having considered the broad issues of the various components of the AFUDC, it is now necessary to focus on the many constructive and [\*6] helpful comments and suggestions received relating to other facets of the proposed rule-making.

Many comments were received regarding the desirability of segregating AFUDC into two components, borrowed funds and other funds, and the relocation of the allowance for borrowed funds to the Interest Charges Section of the income statement. The main objection to this proposed requirement was that it would have the effect of reducing interest coverages and thereby restrict the issuances of additional debt by some companies. We recognized that this may be a particularly uninviting aspect of the proposed rule for some utilities since "Other Income" will be reduced upon application of the proposed rule and such income is frequently, in whole or part, used for interest coverage tests. n1 However, we believe this change to be necessary in order to better inform readers of the financial statements of utilities as to the nature and level of the capitalized allowance for borrowed funds. Since there is little conceptual difference between capitalization of the cost of borrowed funds used for construction purposes and other costs of construction such as labor and materials, we believe that the [\*7] readers of financial statements will be better informed if such construction interest is shown as an allocation of cost by a reduction in the Interest Charges Section of the income statement rather than as an income item.

nI We also recognize that interest coverages for some utilities may be increased if in their coverage computations they use net interest charges since this amount will be reduced upon application of the proposed rule.

A number of respondents criticized the proposal to determine the current year's AFUDC rates by the use of average actual book balances and cost rates of the prior year principally because short-term debt cost rates and balances are very volatile and the use of averages for a previous year does not give a proper indication of the cost of short-term debt for

Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 168 of 354 Garrett Page 3

#### 57 F.P.C. 608; 1977 FPC LEXIS 1165, \*

prospective computations of AFUDC. We agree that this is a valid point and believe that modifications of the proposed rule in this are are necessary.

We are modifying the proposed rule to provide that the balances of long-term debt, preferred stock, and common equity for use in the formula for the current year will be the balances in such accounts at the end of the prior year; the cost rates [\*8] for long-term debt and preferred stock will be the effective weighted average cost of such capital. The average short-term debt balances and relatec cost and the average construction work in progress balance will be estimated for the current year. We shall require, however, that public utilities and natural gas companies monitor their actual experience and adjust to actual at year-end if a significant deviation from he estimate should occur. For this purpose we shall consider a significant deviation to exist if the gross AFUDC rate exceeds by more than one-quarter of a percentage point (25 basis points) the rate that is derived from the formula by use of actual 13 monthly balances of construction work in progress and the actual weighted average cost and balances for short-term debt outstanding during the year.

Many respondents requested clarification as to whether premiums, discounts and expenses related to long-term debt, and compensating balances and commitment fees related to short-term debt, were to be considered when determining the cost rate for such funds. With respect to long-term debt, the cost of such capital should be the yield to maturity determined in the same manner [\*9] as set forth in § 35.13(b)(4)(iii), Statement G -- Rate of Return, of the Commission's Regulations under the Federal Power Act and § 154.63(f), Statement F(3) -- Debt Capital, of the Commission's Regulations under the Natural Gas Act which gives appropriate recognition to premiums, discounts and expenses related to long-term debt. In regard to short-term debt, several respondents have pointed out that compensating balances and commitment fees have cost implications with respect to bank loans and as support for commercial paper and urged that recognition be given for such costs. We agree that in some instances, such items could properly be considered in determining the effective cost rate for short-term debt for use in the formula. However, primarily because of measurement problems, we do not believe that specific recognition should be given in the general rule. Instead, where an individual company has a written agreement and can support the fact that compensating balances and commitment fees are necessary in order to obtain favorable short-term financing and are not considered in its rate proceedings, we will permit an adjustment to the nominal short-term interest rates to reflect [\*10] this additional cost. We believe that this approach is necessary because of the diversity of rate treatment for these items; the commingling and lack of identification of bank balances kept for normal operating purposes and those used for compensating bank balance purposes; and the frequent lack of formal agreements for required levels of compensating bank balances.

Some respondents commented that the value of noninvestor sources of funds such as accumulated deferred income taxes and contributions in aid of construction should be recognized in the formula. We are not adopting this suggestion since normally the entire balances in the accumulated deferred income taxes accounts are used to reduce rate base for cost of service purposes. n2 To include such balances in determining the AFUDC rate would result in double counting of the same dollars. The same reasons apply for contributions in aid of construction, since under our Uniform System of Accounts such contributions are credited directly to construction costs.

n2 There is one category of accumulated deferred taxes which is not used to reduce rate base. Under our ratemaking practices the balances of Account 281, Accumulated deferred income taxes-Accelerated amortization, are included in the capitalization used for rate of return purposes at zero cost. The balances in these accounts, however, are relatively small and the effect on the AFUDC rate if taken into consideration would be negligible.

[\*11]

A number of respondents commented that previously capitalized AFUDC should be included in the cost base to which the AFUDC rate applies since AFUDC is a cost of construction similar to labor, materials and other elements of construction. Thus, it is asserted that the compound method must be recognized if AFUDC is to properly compensate the utility for use of funds while devoted to construction. We agree that compounding of AFUDC is proper in theory and necessary as a matter of sound cost determination; however, we believe that a monthly compounding of AFUDC as dends are not normally made on a monthly basis. We shall therefore permit compounding but no more frequently than semiannually.

25 change

A number of respondents also indicated that any rules issued with respect to AFUDC should apply to Nuclear Fuel in Process of Refinement, Conversion, Enrichment and Fabrication (Account 120.1) in the same manner as Construction Work in Progress. We agree with these comments and will so provide.

Certain other constructive suggestions received from respondents have been included in [\*12] the accounting instructions for the purpose of adding clarity to the accounting text.

We have also deleted that portion of the proposed plant instructions pertaining to computations of income taxes. We believe that these proposed instructions are not now necessary in view of our Order Nos. 530 (53 FPC 2123), 530-A (55 FPC 162) and 530-B (56 FPC 739) in Docket Nos. R-424, Accounting for Premiums, Discount and Expense of Issue, Gains and Losses on Refunding and Reaquisition of Long-Term Debt, and Interperiod Allocation of Income Taxes and R-446, Amendments to the Uniform System of Accounts for Classes A, B and C Public Utilities and Licensees and Natural Gas Companies: Deferred Income Taxes. As stated in Order No. 530-A:

The accounting for deferred income taxes prescribed in Order No. 530 was structured to accommodate utilities under the rate jurisdiction of the various state regulatory bodies that may or may not authorize deferred tax accounting for rate purposes (See General Instruction 18). If a net of tax allowance for funds rate is prescribed by a regulatory body in setting the rate levels of utilities, we consider that such treatment is consistent with the intent of Order [\*13] No. 530 and it is not necessary for utilities to set aside deferred income taxes related to the interest component of the allowance for funds rate. In light of this, we do not believe that it is necessary to make provision in the Uniform System of Accounts to cover this matter.

#### The Commission finds:

(1) The notice and opportunity to participate in this rulemaking proceeding with respect to the matters presently before this Commission through the submission, in writing, of data, views, comments and suggestions in the manner described above, are consistent and in accordance with the procedural requirements prescribed by 5 U.S.C. 553.

(2) The amendments to Parts 101 and 104 of the Commission's Uniform System of Accounts for Public Utilities and Licensees and to FPC Forms No. 1, No. 1-F, and No. 5 required by § 141.1, 141.2, and 141.25 in Chapter I, Title 18 of the Code of Federal Regulations, herein prescribed, are necessary and appropriate for the administration of the Federal Power Act.

(3) The amendments to Parts 201 and 204 of the Commission's Uniform System of Accounts for Natural Gas Companies, and to FPC Forms No. 2, No. 2-A, and No. 11 required by § 260.1, 260.2, [\*14] and 260.3 in Chapter I, Title 18 of the Code of Federal Regulations, herein prescribed, are necessary and appropriate for the administration of the Natural Gas Act.

(4) Since the amendments prescribed herein, which were not included in the notice of the proceeding, are consistent with the prime purpose of the Proposed Rulemaking, further notice thereof is unnecessary.

(5) Good cause exists for making the amendments to the Uniform System of Accounts for Public Utilities and Licensees and Natural Gas Companies ordered herein effective on January 1, 1977, and the amendments to FPC Forms No. 1, No. 1-F, No. 2, No. 2-F, No. 5, and No. 11 ordered herein, effective for the reporting year 1977.

*The Commission*, acting pursuant to the provisions of the Federal Power Act, as amended, particularly Sections 3, 4, 301, 304, 308, 309, and 311 (41 Stat. 1063, 1065; 49 Stat. 838, 839, 854, 855, 858, 859; *16 U.S.C. 796, 797, 825, 825c, 825g, 825h, 825j*) and of the Natural Gas Act, as amended, particularly Sections 8, 10, and 16 (52 Stat. 825, 826, 830; *15 U.S.C. 717g, 717i, 717o*), orders:

(A) Effective January 1, 1977, the Commission's Uniform System of Accounts for Class A and Class [\*15] B Public Utilities and Licensees in Part 101, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) The General Instructions are amended by revising paragraph "I" of Instruction "17. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition." As amended, this portion of General Instruction 17 reads:

### **GENERAL INSTRUCTIONS**

\* \* \*

17. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition.

\* \* \*

I. Premium, discount, or expense on debt shall not be included as an element in the cost of construction or acquisition of property (tangible or intangible), except under the provisions of account 432, Allowance for Borrowed Funds Used During Construction-Credit.

\* \* \*

(2) Subparagraph "(17) Allowance for Funds Used During Construction" of Electric Plant Instruction "3. *Components of Construction Cost.*" is amended by revising the first sentence of the paragraph and by adding two new paragraphs (a) and (b) immediately following the first paragraph. As amended, subparagraph (17) reads:

ELECTRIC PLANT INSTRUCTIONS

\* \* \*

3. Components of Construction Cost.

\* \* \*

(17) "Allowance for funds [\*16] used during construction" includes the net cost for the period of construction of borrowed funds used for construction purposes and a reasonable rate on other funds when so used, not to exceed, without prior approval of the Commission, allowances computed in accordance with the formula prescribed in paragraph (a) below. No allowance for funds used during construction charges shall be included in these accounts upon expenditures for construction projects which have been abandoned.

(a) The formula and elements for the computation of the allowance for funds used during construction shall be:

$$Ai = s(S / W) + d(D / D + P + C) (1 - S / W)$$

Ae = [1 - S / W] [p P / D + P + C) + c (C / D + P + C)]

Ai = Gross allowance for borrowed funds used during construction rate

Ae = Allowance for other funds used during construction rate

S = Average short-term debt

s = Short-term debt interest rate

- D = Long-term debt
- d = Long-term debt interest rate
- P = Preferred stock
- p = Preferred stock cost rate
- C = Common equity

c = Common equity cost rate

W = Average balance in construction work in progress plus nuclear fuel in process of refinement, conversion, enrichment and fabrication.

(b) The [\*17] rates shall be determined annually. The balances for long-term debt, preferred stock and common equity shall be the actual book balances as of the end of the prior year. The cost rates for long-term debt and preferred stock shall be the weighted average cost determined in the manner indicated in § 35.13 of the Commission's Regulations under the Federal Power Act. The cost rate for common equity shall be the rate granted common equity in the last rate proceeding before the ratemaking body having primary rate jurisdictions. If such cost rate is not available, the average rate actully earned during the preceding 3 years shall be used. The short-term debt balances and related cost and the average balance for construction work in progress plus nuclear fuel in process of refinerment, conversion, enrichment, and fabrication shall be estimated for the current year with appropriate adjustments as actual data becomes available.

NOTE: \* \* \*

(3) The Chart of Income Accounts is amended by revising the title of account "419.1, Allowance for Funds Used During Construction," to read "419.1, Allowance for Other Funds Used During Construction;" by adding a new account 432, Allowance for Borrowed [\*18] Funds Used During Construction-Credit, immediately following account "431, Other Interest Expense" and revising the sub-total caption "Total Interest Charges" to read "Net Interest Charges." As amended, the Chart of Income Accounts reads:

INCOME ACCOUNTS

(Chart of Accounts)

\* \* \*

2. Other Income and Deductions

A. Other Income

\* \* \*

419.1 Allowance for other funds used during construction.

\* \* \*

3. Interest Charges

\* \* \*

432 Allowance for borrowed funds used during construction-Credit. Net interest charges

\* \* \*

(4) The text of the Income Accounts is amended by revising the title and text of account "419.1, Allowance for Funds Used During Construction," and by adding a new account 432, Allowance for Borrowed Funds Used During Construction-Credit, immediately following account "431, Other Interest Expense." As amended, these portions of the text of the Income Accounts reads:

**INCOME ACCOUNTS** 

\* \* \*

2. Other Income and Deductions

\* \* \*

419.1 Allowance for other funds used during construction.

This account shall include concurrent credits for allowance for other funds used during construction, not to exceed amounts computed in accordance with the formula prescribed [\*19] in Electric Plant Instruction 3(17).

\* \* \*

3. Interest Charges

\* \* \*

432 Allowance for borrowed funds used during construction-Credit.

This account shall include concurrent credits for allowance for borrowed funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Electric Plant Instruction 3(17).

\* \* \*

(B) Effective January 1, 1977, the Commission's Uniform System of Accounts for Class C and Class D Public Utilities and Licensees in Part 104, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) The General Instructions are amended by revising paragraph "I" of Instruction "15. Long-term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition." As amended, this portion of General Instruction 15 reads:

GENERAL INSTRUCTIONS

\* \* \*

15. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition.

\* \* \*

I. Premium, discount, or expense on debt shall not be included as an element in the cost of construction or acquisition of property (tangible or intangible), except under the provisions of account 432, Allowance for Borrowed Funds Used During Construction-Credit. [\*20]

\* \* \*

(2) Electric Plant Instruction "2. Components of Construction Cost." is amended by revising the first paragraph and lettering it "A." and by adding two new paragraphs B. and C. immediately following the first paragraph. As amended, Instruction 2 reads:

ELECTRIC PLANT INSTRUCTIONS

\* \* \*

2. Components of Construction Cost.

A. The cost of construction of property chargeable to the electric plant accounts shall include, where applicable, the cost of labor; materials and supplies; transportation; work done by others for the utility; injuries and damages incurred in construction work; privileges and permits; special machine service; allowance for funds used during construction, not to exceed without prior approval of the Commission amounts computed in accordance with the formula prescribed in paragraph B below; and such portion of general engineering, administrative salaries and expenses, insurance, taxes, and other analogous items as may be properly includible in construction costs.

B. The formula and elements for the computation of the allowance for funds used during construction shall be:

Ai = s(S / W) + d(D / D + P + C) (1 - S / W)

Ae = [1 - S / W] [p(P / D [\*21] + P + C) + c(C / D + P + C)]

Ai = Gross allowance for borrowed funds used during construction rate

Ae = Allowance for other funds used during construction rate

S = Average short-term debt

s = Short-term debt interest rate

D = Long-term debt

d = Long-term debt interest rate

P = Preferred stock

p = Preferred stock cost rate

C = Common equity

c = Common equity cost rate

W = Average balance in construction work in progress plus nuclear fuel in process of refinement, conversion, enrichment and fabrication

C. The rates shall be determined annually. The balances for long-term debt, preferred stock and common equity shall be the actual book balances as of the end of the prior year. The cost rates for long-term debt and preferred stock shall be the weighted average cost determined in the manner indicated in § 35.13 of the Commission's Regulations under the Federal Power Act. The cost rate for common equity shall be the rate granted common equity in the last rate proceeding before the ratemaking body having primary rate jurisdiction. If such cost rate is not available, the average rate actually earned during the preceding 3 years shall be used. The short-term debt balances [\*22] and related cost and the average balance for construction work in progress plus nuclear fuel in process of refinement, conversion, enrichment, and fabrication shall be estimated for the current year with appropriate adjustments as actual data becomes available.

(3) The Chart of Income Accounts is amended by revising the title of account "419.1, Allowance for Funds Used During Construction," to read "419.1, Allowance for Other Funds Used During Construction" and by adding a new account 432, Allowance for Borrowed Funds Used During Construction -- Credit immediately following account "431, Other Interest Expense" and revising the subtotal caption "Total Interest Charges" to read "Net Interest Charges." As amended, the Chart of Income Accounts reads:

INCOME ACCOUNTS

(Chart of Accounts)

\* \* \*

2. Other Income and Deductions

A. Other Income

\* \* \*

419.1 Allowance for other funds used during construction.

\* \* \*

3. Interest Charges

\* \* \*

432 Allowance for borrowed funds used during construction - Credit.

Net interest charges

\* \* \*

(4) The text of the Income Accounts is amended by revising the title and text of account "419.1, Allowance for Funds Used During Construction," [\*23] and by adding a new acount 432, Allowance for Borrowed Funds Used During Construction -- Credit immediately following account "432, Other Interest Expense." As amended, these portions of the text of the Income Accounts reads:

INCOME ACCOUNTS

\* \* \*

2. Other Income and Deductions

\* \* \*

419.1 Allowance for other funds used during construction.

This account shall include concurrent credits for allowance for other funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Electric Plant Instruction 2. No allowance for funds used during construction shall be capitalized on plant which is completed and ready for service.

\* \* \*

3. Interest Charges

432 Allowance for borrowed funds used during construction -- Credit.

This account shall include concurrent credits for allowance for borrowed funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Electric Plant Instruction 2. No allowance for funds used during construction shall be capitalized on plant which is completed and ready for service.

\* \* \*

(C) Effective January 1, 1977, the Commission's Uniform System of Accounts for [\*24] Class A and Class B Natural Gas Companies in Part 201, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) The General Instructions are amended by revising paragraph "I" of Instruction "17. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition." As amended, this portion of General Instruction 17 reads:

GENERAL INSTRUCTIONS

\* \* \*

17. LONG-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition.

\* \* \*

I. Premium, discount, or expense on debt shall not be included as an element in the cost of construction or acquisition of property (tangible or intangible), except under the provisions of account 432, Allowance for Borrowed Funds Used During Construction -- Credit.

\* \* \*

(2) Subparagraph "(17) Allowance for Funds Used During Construction" of Gas Plant Instruction "3. Components of Construction Cost." is amended by revising the present paragraph, and immediately following the present paragraph, adding two new paragraphs (a) and (b). As amended, subparagraph (17) reads:

GAS PLANT INSTRUCTIONS

\* \* \*

3. Components of Construction Cost.

\* \* \*

(17) "Allowance for funds used during [\*25] construction" includes the net cost for the period of construction of borrowed funds used for construction purposes and a reasonable rate on other funds when so used, not to exceed without prior approval of the Commission allowances computed in accordance with the formula prescribed in paragraph (a) below, except when such other funds are used for exploration and development of leases acquired after October 7, 1969, no allowance on such other funds shall be included in these accounts. No allowance for funds used during construction charges shall be included in these accounts upon expenditures for construction projects which have been abandoned.

(a) The formula and elements for the computation of the allowance for funds used during construction shall be:

Ai = s(S / W) + d(D / D + P + C) (1 - S / W)

Ae = [1 - S / W] [p(P / D + P + C) + c(C / D + P + C)]

Ai = Gross allowance for borrowed funds used during construction rate

Ae = Allowance for other funds used during construction rate

S = Average short-term debt

- s = Short-term debt interest rate
- D = Long-term debt
- d = Long-term debt interest rate
- P = Preferred stock
- p = Preferred stock cost rate
- C = Common equity
- c = Common [\*26] equity cost rate
- W = Average balance in construction work in progress

(b) The rates shall be determined annually. The balances for long-term debt, preferred stok and common equity shall be the actual book balances as of the end of the prior year. The cost rates for long-term debt and preferred stock shall be the weighted average cost determined in the manner indicated in § 154.63 of the Commission's Regulations

under the Natural Gas Act. Te cost rate for common equity shall be the rate granted common equity in the last rate proceeding before the ratemaking body having primary rate jurisdiction. If such cost rate is not available, the average rate actually earned during the proceeding 3 years shall be used. He short-term debt balances and related cost and the average balance for construction work in progress shall be estimated for the current year with appropriate adjustments as actual data becomes available.

NOTE: \* \* \*

(3) The Chart of Income Accounts is amended by revising the title of account "419.1, Allowance for Funds Used During Construction," to read "419.1, Allowance for Other Funds Used During Construction" and by adding a new account 432, Allowance for Borrowed [\*27] Funds Used During Construction -- Credit, immediately following account "431, Other Interest Expense" and revising the sub-total caption "Total Interest Charges" to read "Net Interest Charges." As amended, the Chart of Income Accounts reads:

**INCOME ACCOUNTS** 

(Chart of Accounts)

\* \* \*

2. Other Income and Deductions

A. Other Income

\* \* \*

419.1 Allowance for other funds used during construction.

3. Interest Charges

\* \* \*

432 Allowance for borrowed funds used during construction -- Credit.

Net interest charges.

\* \* \*

(4) The text of the Income Accounts is amended by revising the title and text of account "419.1, Allowance for Funds Used During Construction," and by adding a new account 432, Allowance for Borrowed Funds Used During Construction -- Credit, immediately following account "431, Other Interest Expense." As amended, these portions of the text of the Income Accounts read:

**INCOME ACCOUNTS** 

\* \* \*

2. Other Income and Deductions

\* \* \*

419.1 Allowance for other funds used during construction.

This account shall include concurrent credits for allowance for other funds used during construction, not to exceed amounts computed in accordance with the formula prescribed [\*28] in Gas Plant Instruction 3(17).

\* \* \*

3. Interest Charges

\* \* \*

432 Allowance for borrowed funds used during construction -- Credit.

This account shall include concurrent credits for allowance for borrowed funds used during construction, not to exceed amount computed in accordance with the formula prescribed in Gas Plant Instruction 3(17).

\* \* \*

(D) Effective January 1, 1977, the Commission's Uniform System of Accounts for Class C and Class D Natural Gas Companies in Part 204, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) The General Instructions are amended by revising paragraph "I" of Instruction "15. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition." As amended, this portion of General Instruction 15 reads:

GENERAL INSTRUCTIONS

\* \* \*

15. Long-Term Debt: Premium, Discount and Expense, and Gain or Loss on Reacquisition.

\* \* \*

I. Premium, discount, or expense on debt shall not be included as an element in the cost of construction or acquisition of property (tangible or intangible), except under the provisions of account 432, Allowance for Borrowed Funds Used During Construction -- Credit. [\*29]

\* \* \*

(2) Amend Gas Plant Instruction "2. Components of Construction Cost." by revising the first paragraph and lettering it "A." and by adding two new paragraphs B. and C. immediately following the first paragraph. As amended, Instruction 2 reads:

GAS PLANT INSTRUCTIONS

\* \* \*

2. Components of Construction Cost.

A. The cost of construction of property chargeable to the gas plant accounts shall include, where applicable, fees for construction certificate applications paid after grant of certificate, the cost of labor, materials and supplies, transportation, work done by others for the utility, injuries and damages incurred in construction, privileges and permits, special machine service, allowance for funds used during construction, not to exceed without prior approval of the Commission amounts computed in accordance with the formula prescribed in paragraph B below, training costs and such portion of general engineering, administrative salaries and expenses, insurance, taxes, and other analogous items as may be properly includible in construction costs. (See Operating Expense Instruction 3.) When the utility employs its own funds in exploration and development on [\*30] leases acquired after October 7, 1969, no alloance for funds used during construction on such funds shall be included in these accounts.

B. The formula and elements for the computation of the allowance for funds used during construction shall be:

Ai = s(S / W) + d(D / D + P + C) (1 - S / W)

Ae = [1 - S / W] [p (P / D + P + C) + c(C / D + P + C)]

Ai = Gross allowance for borrowed funds used during construction rate

Ae = Allowance for other funds used during construction rate

S = Average short-term debt

s = Short-term debt interest rate

D = Long-term debt

d = Long-term debt interest rate

P = Preferred stock

p = Preferred stock cost rate

C = Common equity

c = Common equity cost rate

W = Average balance in construction work in progress

C. The rates shall be determined annually. The balances for long-term debt, preferred stock and common equity shall be the actual book balances as of the end of the prior year. The cost rates for long-term debt and preferred stock shall be the weighted average cost determined in the manner indicated in § 154.63 of the Commission's Regulations under the Natural Gas Act. The cost rate for common equity shall be the rate granted common [\*31] equity in the last rate proceeding before the ratemaking body having primary rate jurisdiction. If such cost rate is not available, the average rate actually earned during the preceding 3 years shall be used. The short-term debt balances and related cost and the average balance for construction work in progress shall be estimated for the current year with appropriate adjustments as actual data becomes available.

(3) The Chart of Income Accounts is amended by revising the title of account "419.1, Allowance for Funds Used During Construction," to read "419.1, Allowance for Other Funds Used During Construction" and by adding a new account 432, Allowance for Borrowed Funds Used During Construction -- Credit, immediately following account "431, Other Interest Expense" and revising the sub-totoal caption "Total Interest Charges" to read "Net Interest Charges." As amended, the Court of Income Accounts reads:

```
INCOME ACCOUNTS
```

(Chart of Accounts)

\* \* \*

2. Other Income and Deductions

A. Other Income

\* \* \*

419.1 Allowance for other funds used during construction.

\* \*

3. Interest Charges

\* \* \*

432 Allowance for borrowed funds used during construction -- Credit.

Net interest [\*32] charges.

\* \* \*

(4) The text of the Income Accounts is amended by revising the title and text of account "419.1, Allowance for Funds Used During Construction," and by adding a new account 432, Allowance for Borrowed Funds Used During Construction -- Credit, immediately following account "431, Other Interest Expense." As amended, these portions of the text of the Income Accounts read:

INCOME ACCOUNTS

\* \* \*

2. Other Income and Deductions

\* \* \*

419.1 Allowance for other funds used during construction.

This account shall include concurrent credits for allowance for other funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Gas Plant Instruction 2. No allowance for funds used during construction shall be capitalized on plant which is completed and ready for service.

\* \* \*

3. Interest Charges

\* \* \*

432 Allowance for borrowed funds used during construction -- Credit.

This account shall include concurrent credits for allowance for borrowed funds used during construction, not to exceed amounts computed in accordance with the formula prescribed in Gas Plant Instruction 2. No allowance for funds used during construction [\*33] shall be capitalized on plant which is completed and ready for service.

ORDER NO. 561-A

#### FEDERAL POWER COMMISSION

### 59 F.P.C. 1340; 1977 FPC LEXIS 281

August 1, 1977 \*

\* Published in the Federal Register on August 5, 1977 (42 F.R. 39661). Order issued January 20, 1978 clarifying Order Nos. 561 and 561-A, 2 FERC P61,050.

#### [\*1]

## ORDER DENYING APPLICATIONS FOR REHEARING AND CLARIFYING PRIOR ORDER

Before Commissioners: Richard L. Dunham, Chairman; Don S. Smith and John H. Holloman III.

#### **OPINION:**

On March 4, 1977, El Paso Natural Gas Company (El Paso), Public Systems n1, three bulk power suppliers for rural electric cooperatives (Oglethorp) n2 and eight investor-owned public utilities (Private Group) n3 filed Applications for Rehearing of our Order No. 561, issued February 2, 1977, in *Docket No. RM75-27, 57 FPC 608*. On March 7, 1977, Pennsylvania Power & Light Company (PP&L) filed a separate Application for Rehearing. On April 1, 1977, an order was issued granting application for rehearing by the aforementioned petitioners for the purpose of further consideration of Order No. 561. On April 18, 1977, pursuant to Section 1.34(d) of the Commission's Rules of Practice and Procedure, the Public Service Commission of the State of New York (New York) and the Private Group filed responses to Applications for Rehearing filed by the Private Group and Public Systems, respectively.

n1 See Appendix A for members of Public Systems.

n2 Oglethorp Electric Membership Corporation, North Carolina Electric Membership Corporation and Old Dominion Electric Cooperative, Inc.

n3 Jersey Central Power & Light Company, Long Island Lighting Company, Metropolitan Edison Company, New England Power Company, Northeast Utilities Company, Pacific Power & Light Company, Pennsylvania Electric Company and Pennsylvania Power & Light Company.

[\*2]

Short-Term Debt

El Paso's application stated that it fully supported the Commission's objective in the instant rulemaking proceeding of providing adequate compensation for funds devoted to construction but believed that the formulas devised by the Commission and promulgated pursuant to Order No. 561 fall short of accomplishing this objective. El Paso submits that the approach adopted by the Commission is grounded upon two erroneous assumptions, *i.e.* (i) that short-term debt is the first source of funds for construction purposes, and (ii) that short-term debt is used exclusively for construction. El Paso purposed that instead of the formula adopted by the Commission that the rate for AFUDC be expressed as follows:

R = d(D/D + P + C) + P(P/D + P + C) + c(C/D + P + C)

In this formula R represents the AFUDC rate and the other symbols have the same meaning as defined in Order No. 561 except that D would equal the sum of long-term and short-term debt and d would equal the weighted average interest rate for D. El Paso states that this formula is grounded upon the more realistic assumption that construction work in progress is financed by funds provided according [\*3] to the *pro rata* capitalization of the company, including short-term debt, if any. In the event, however, that the Commission chooses to retain the formula set forth in Order No. 561, El Paso requests clarification in cases where short-term debt exceeds construction work in progress to ensure that negative AFUDC rates do not result.

Public Systems states that the Commission correctly concludes that short-term debt is the primary source of funds for the construction of new utility plant and the procedures for the calculation of AFUDC reflect this fact. However, Public Systems expressed concern over the statement in Order No. 561 that the AFUDC method established was not for the purposes of establishing a method for allocating short-term interest cost for the purpose of a rate proceeding. They believe that such statement may be interpreted as an invitation to include the cost of construction related short-term borrowings in the development of AFUDC and to recognize the same costs in the development of the allowed return in rate proceedings. Public Systems also objects to any possible recognition of costs associated with bank or other borrowings, such as compensating bank balances, [\*4] in determining short-term debt cost. They believe that recognition of such costs should be sanctioned, if at all, only in general rate proceedings after a hearing on the record.

PP&L also disagrees with the Commission's premise in Order No. 561 that all short-term debt should be allocated to financing construction work in progress. PP&L states that there are many instances when a utility can specifically identify the utilization of short-term debt for purposes other than financing construction work in progress and in such cases, it would be erroneous to include this debt in the AFUDC computation.

As we stated in Order No. 561, it is generally impossible to specifically trace the source of funds used for various corporate purposes and it was not the purpose of the proposed rule to do so. We recognize that short-term debt is a source of funds that can be used for many corporate purposes other than construction. However, short-term debt cost is a valid cost of conducting utility operations and a mechanism for the recovery of such cost should be provided for within the regulatory framework. Recovery of capital costs is usually provided for through the rate of return allowance [\*5] in a general rate proceeding. However, in a typical rate case situation, short-term debt cost does not lend itself to reasonable measurement for use in setting future rates since, as El Paso graphically illustrated in the Appendix to its application, the amount of short-term debt that a company has outstanding can fluctuate widely over short periods of time. In addition, the interest rate for short-term debt often changes at frequent intervals. On the other hand, the cost of short-term debt can be effectively measured and capitalized for subsequent recovery (through depreciation charges in rates) since under our formula the balances and rates for the forthcoming year are estimated annually, with appropriate adjustments to the amounts capitalized if the estimates used are not reasonably reflective of actual experience. Therefore, we do not believe that we should modify Order No. 561 with respect to the weight given short-term debt in the formula.

El Paso's point on possible negative AFUDC rates in situations where short-term debt exceeds construction work in progress is well taken. We believe that this matter can best be clarified by stating herein that if short-term debt balances [\*6] exceed construction work in progress plus nuclear fuel in process of refinement, conversion, enrichment and fabrication the maximum total AFUDC rate to be utilized will be the weighted average short-term debt rate. In instances where this occurs, the entire credit for AFUDC will be recorded in Account 432, Allowance for borrowed funds used during construction -- Credit.

We do not believe that Public System's concerns are well founded with regard to the inclusion of short-term debt for rate of return purposes or the potential recognition in certain instances of short-term debt costs arising from such items as compensating balances. Order No. 561 neither changes the Commission's policy with respect to treatment of

short-term debt in capitalization used for rate of return purposes nor does it grant blanket approval for recognition of compensating balances and commitment fees in costing short-term debt. The burden of proof is upon the companies to justify such items before they will be permitted.

#### State Commission Rate Determinations

Both Public Systems and Oglethorp object to the provision in Order No. 561 that the cost rate to be used for common equity be the rate granted [\*7] common equity in the last rate proceeding before the body having primary rate jurisdiction or, if such rate is not available, the average rate actually earned during the preceding three years. They believe that the return on equity rate should be based upon determinations of the Federal Power Commission, whether the FPC has primary rate jurisdiction or not. Public Systems and Oglethorp believe that the approach adopted by the Commission is an unjustified abdication of statutory responsibility. On the other hand, Private Group urges that Order No. 561 be amended to provide that, if a state ratemaking agency having primary rate jurisdiction over an electric utility has prescribed a method of determining or applying an AFUDC rate, such electric utility may use such State Commission-directed rate rather than the rate developed under the formula in Order 561.

In its response to the application for rehearing filed by Public Systems, the Private Group stated the following:

Order No. 561 is designed to provide an orderly method for accrual of AFUDC month-by-month during the on-going operations of a public utility. For the most part, the facilities constructed by an electric utility [\*8] cannot be segregated as between those which will be employed solely for retail service and those which will be employed solely for wholesale service; instead, allocation procedures for joint use facilities are required and appropriate methods of allocation have been developed and are routinely applied. Under those circumstances, the utility must have a single AFUDC rate to apply to facilities under construction which will ultimately serve both groups of customers. A reasonable recognition of, and accommodation to, the Federal-State relationship involves the use of a cost rate for common equity which is equal to that last approved by the body having primary rate jurisdiction

We fully agree with the above response by the Private Group with respect to the cost rate for equity funds. We believe that this argument is also supportive of the Commission's adoption of a uniform method for all jurisdictional companies to follow so that a single rate is developed for each company. Additionally, since the financial statements of electric utilities and natural gas companies are used by government agencies, investors, the general public, and others for purposes other than setting rates, [\*9] it is important that a uniform method be used. This is especially important in an area such as AFUDC which has such a material impact on the earnings and cost determinations of utilities. We shall therefore deny rehearing on this point.

#### The Relocation of AFUDC in the Interest Charges Section of the Income Statement

The Private Group and PP&L urged that Order No. 561 be revised to eliminate the provision that directs the relocation of the allowance for borrowed funds as a credit to the interest charge section of the income statement. New York in its response to application for rehearing filed by Private Group supported this position. These parties argue that the relocation required by Order No. 561 is likely to have an adverse effect on the ability to finance both debt and preferred stock securities due to coverage test requirements included in mortgage indentures and corporate charters. PP&L also questions whether the relocation of a portion of AFUDC as a reduction of interest charges will better inform readers of the financial statements as to the nature of the capitalized allowance for borrowed funds as stated in Order No. 561. They argue that such reclassification [\*10] may in fact mislead readers of financial statements if such amount is considered a reduction of the actual amount of interest a company must pay.

We are unpersuaded by these arguments that we should modify Order No. 561 with respect to the location of the interest portion of AFUDC in the income statement. We purposely did not require that the amount of interest charged to the income statement be shown net of interest capitalized but instead required that the gross interest charges be shown in the income statement with a separate line item for the capitalized allowance for borrowed funds. This enables readers of financial statements to be informed as to the total interest liability incurred for the year as well as to any lesser amount of interest entering into the determination of net income for the year. We continue to believe that the readers of the financial statements will be better informed with this form of accounting disclosure than other suggested methods. Furthermore, the change in the location on the income statement for the allowance for interest capitalized does not in itself change either the nature of the item or the degree of protection afforded security holders [\*11] by earnings of a utility.

### Net-of-tax AFUDC Rate

Public Systems objects to the normalization of income tax benefits of construction interest through the use of a net-of-tax AFUDC rate and asks that Order No. 561 be revised to prohibit this practice.

Public Systems' arguments are misplaced. The proposed plant instructions pertaining to computation of income taxes were deleted when the Commission adopted Order No. 561 because these matters were previously spoken to in the *Commission's Order Nos. 530 (53 FPC 2123), 530-A (55 FPC 162) and 530-B (56 FPC 44)* in Docket Nos. R-424 and R-446. These orders are currently under review by the D.C. Circuit (*Public Systems, et al. v. F.P.C., CADC Nos. 76-1609, 76-1830.*) \*\*

\*\* [Editor's note: Remanded, Public Systems, et al. v. F.E.R.C., 606 F. 2d 973 (CADC-1979).]

#### Other Matters

Private Group states in their application that in order for the AFUDC rate to be fully compensatory, estimates of weighted average embedded long-term debt and preferred stock costs as they are expected to exist during the current year should be used rather than the effective weighted average cost of the long-term debt and preferred [\*12] stock at the end of the prior year as required by Order No. 561.

Private Group also argues that compounding of AFUDC should be permitted <u>monthly</u> rather than semi-annually, since utility accounting is on an accrual basis. If, however, the Commission considers the timing of cash outlays for interest and dividend to be relevant, Private Group argues that quarterly compounding would be more appropriate than semi-annual compounding since dividends on preferred and common stock and interest on short-term debt are almost invariably paid quarterly, and these items account in the aggregate for more than half of the AFUDC accrual. The remainder of the accrual relates to long-term debt which is normally paid semi-annually.

Public Systems objects to the provisions of Order No. 561 which indicate that amounts capitalized for AFUDC for the year will not be required to be adjusted if the gross AFUDC rate actually used for the year does not exceed by more than 25 basis points the rate that would be derived from the formula by use of actual thirteen monthly balances of construction work in progress and the actual weighted average cost and balances for short-term debt outstanding during the year. [\*13] Public System argues that this provision creates an incentive to "misestimate" AFUDC and pocket additional prospective but unjustified revenues. Public System assumes that this provision was intended to ease accounting burdens but submits that the governing statutes do not contemplate such windfalls in the name of administrative convenience.

Oglethorp states that Order No. 561 excludes all non-investor sources of funds from the AFUDC computation on the ground that such sources are treated as rate base deductions but argues that some non-investor funds may not be treated as rate base deductions and hence could be incorrectly also overlooked for AFUDC purposes. Oglethorp believes the Order should be modified to provide that all non-investor funds which are not deducted from rate base should be included in the AFUDC formula at zero cost.

The requirement that the AFUDC rate for the current year be based on the effective weighted average cost of the long-term debt and preferred stock at the end of the prior year and the requirement that the AFUDC be compounded no more frequently than semi-annually may, in some instances, tend to slightly understate the cost of capital used for construction. [\*14] Conversely, there may be relatively minor items of consumer contributed capital which are not considered in either the ratemaking process or through AFUDC and there may well be some instances in which the estimates used exceed by up to 25 basis points the rate that would be derived from actual experience.

We conclude that Order No. 561 should not be modified with respect to these matters. When considered together the proposed modifications tend to offset each other. We believe that Order No. 561 clearly provides for a rate for AFUDC which is in the zone of reasonableness, based upon uniform standards which can be effectively implemented and administered.

In light of the above, we believe that the applications for rehearing filed by the aforementioned applicants should be denied.

The Commission finds

The application for rehearing filed on March 4, 1977, by El Paso, Public Systems, Oglethorp and Private Group and on March 7, 1977, by PP&L present no facts or principles of law which would require modification of Order No. 561.

## The Commission orders:

(A) The applications for rehearing filed by El Paso, Public Systems, Oglethorp and Private Group on March 4, 1977, [\*15] and PP&L on March 7, 1977, are denied.

(B) The Secretary shall cause prompt publication of the Order in the Federal Register.

## (Note: Text in italics indicates a key SOX control.)

**Policy:** An asset retirement obligation ("ARO") will be established when a legal obligation exists, in compliance with ARO guidance per FASB Accounting Standards Codification ("ASC") Topics 410 and 980-410 (formerly Statement of Financial Accounting Standards No. 143 ("SFAS 143"), Accounting for AROs and the subsequent FASB Interpretation No. 47 ("FIN 47")).

**Procedure:** Criteria for the recognition and accounting of legal retirement obligations related to tangible long lived assets are detailed below.

**Scope:** All legal retirement obligations of LG&E and KU Energy LLC ("LKE" or the "Company") and its subsidiaries including Louisville Gas & Electric Company ("LG&E"), Kentucky Utilities Company ("KU") and LG&E and KU Services Company ("LKS").

**Objective of Procedure:** Accurate identification of and provision for Asset Retirement Obligations as defined in ASC Topics 410 and 980-410 and FERC Order 631.

## **General Requirements:**

## Detailed Procedures Performed:

**Definition of ARO:** A legal retirement obligation is an obligation that a party is required to settle as a result of an existing or enacted law, statute, ordinance or contract. A retirement encompasses the sale, abandonment or disposal in some other manner of a long lived asset. After an entity retires an asset, the asset is no longer under the control of that entity, or no longer in existence, or no longer capable of being used in the manner for which it was originally acquired. Retirement does not encompass the temporary idling of a long lived asset. (ASC 410-20-05)

Legal and Environmental Department personnel, in coordination with line of business and Property Accounting personnel, determine the need to establish an ARO based upon review of legal documents including laws, statutes, contracts, permits, certificates of need, right of way agreements and environmental regulations.

**ARO Establishment and Review:** A long lived tangible asset is determined to give rise to a legal retirement obligation.

The need to add an ARO is considered during the approval process for asset additions. During the AIP process, Property Accounting Analysts review the projects to determine if the need for an ARO may exist. If the project is identified as having the potential to require an ARO, the Property Accounting Analyst in charge of ARO accounting reviews the AIP and if needed, contacts the Legal and Environmental personnel who will make the final determination of the

## (Note: Text in italics indicates a key SOX control.)

need to establish an ARO based upon review of existing legal documents including laws, statutes, contracts, permits, certificates of need, right of way agreements and environmental regulations.

Property Accounting distributes semi-annual ARO review voting emails to determine if any new AROs need to be established or if any changes are required to existing AROs (SOX Cycle 40.01, CA 13). The semi-annual voting emails provide an opportunity to inform Property Accounting of any actual or proposed revisions of or additions to laws, statutes, contracts, permits, certificates of need, right of way agreements and environmental regulations which impact AROs. The semi-annual ARO voting emails also provide education on ARO accounting requirements. Recipients of the semi-annual ARO voting emails include Legal, Environmental, Budget Managers for each operating line of business and others, as applicable.

Any cost estimate information provided by a Company field employee used in the calculation of AROs must be reviewed for accuracy and completeness and signed off on by the field employee's management prior to it being considered for use in the ARO calculation(s). Field management will ensure any spreadsheets used in calculating the estimate comply with the Comprehensive Spreadsheet Policy. (SOX Cycle 40.01, CA#14) When an ARO revision occurs, Property Accounting personnel will review the change in ARO estimates provided by field personnel. The review includes understanding and supporting the change in cost estimates, use of contingency, timing and other changes (overhead, inflation, etc.), as applicable. To the extent possible, the mathematical accuracy of the supporting files received will be verified through recalculation. A detailed view of factors driving the ARO revisions will be reviewed with the Director, Accounting and Regulatory Reporting. (SOX Cycle 40.01, CA#18) Any 3<sup>rd</sup> party studies used as the basis for these cost estimates must also be provided to Property Accounting, after a review is completed by the line of business employee and their manager.

The cost associated with the recognition of the asset retirement obligation is capitalized as part of the related tangible asset's book cost and is depreciated over a life dictated by the settlement date of the ARO liability. The asset retirement obligation book cost is initially recorded at fair value using an expected cash flow approach which utilizes the following inputs: inflation rate; discount rate; settlement date; and current costs. The inflation rate is provided by the Treasurer and is based on the 30-Yr Treasury rate less 30-Yr Treasury Inflation-Protected Securities (TIPS). The discount rate used for each ARO is equal to the yield for a bond with LG&E or KU's credit rating and a maturity date in the same year as the year the ARO is expected to be settled. The yields are provided by a major investment bank. New rates are used when a new ARO is recorded or when the liabilities must be recalculated due to a change in the estimate. The estimated settlement dates used may be obtained from the annual Business Plan, State or Federal regulations, the remaining life provided during the most recent depreciation study or other suitable sources. Current cost information is provided by the various business lines.

(Note: Text in italics indicates a key SOX control.)

A mark-up rate may be used to incorporate probabilities of cost into the measurement. Additionally, a market risk premium may also be incorporated due to the uncertainty of the costs in the future.

All ARO related calculations and accounting are performed within the PowerPlan fixed asset system. Any rate, settlement date and cost information manually input into the PowerPlan system by the Accounting Analyst in charge of ARO Accounting is reviewed for accuracy by an independent Accounting Analyst. Additionally, a review of the PowerPlan calculation is performed manually by the Accounting Analyst in charge of ARO Accounting to provide assurance the system is properly performing the calculation. Journal entry information regarding AROs is transmitted to the Oracle General Ledger from PowerPlan via a system interface. The account balances between PowerPlan and the Oracle General Ledger are reconciled monthly to ensure they are in balance.

The ARO asset and an offsetting liability equal to the fair value of the ARO are also recorded by PowerPlan via the following entry:

Dr. 101XXX - Plant In Service – ARO Asset Retirement Cost Cr. 230XXX - ARO Liability

**ARO Revaluation:** All lines of business will be required to provide updated settlement cost estimates as deemed appropriate. Property Accounting will review the proposed updated settlement estimates with the Director-Accounting and Regulatory Reporting to determine if a revaluation is needed.

Changes in the estimated lives of assets or information gathered via the semi-annual ARO review voting email process /other meetings might prompt the need for the revaluation of an existing ARO or the establishment of a new ARO. If this occurs, the applicable information is gathered by the Property Accounting Analyst from the appropriate company personnel (operating units, Legal, Environmental, etc.) and the present value of the future retirement obligation is calculated in accordance with the "ARO Establishment and Review" section above.

The PowerPlan journal entry reflecting revaluations is as follows:

Dr. 101XXX - Plant In Service – ARO Asset Retirement Cost Cr. 230XXX - ARO Liability

**Depreciation:** Depreciation on ARO assets is calculated on a straight line basis (consistent with all utility depreciation calculations) over a life dictated by the settlement date of the ARO liability. Pursuant to ASC 410-20, revisions to ARO assets as a result of ARO revaluations

## (Note: Text in italics indicates a key SOX control.)

affect subsequent depreciation of the ARO asset. Such adjustments are depreciated on a prospective basis.

The PowerPlan journal entry reflecting depreciation expense for the ARO asset is:

Dr. 4031XX - Depreciation Expense Cr. 108XXX - Accumulated Depreciation – ARO Asset Retirement Cost

Accretion: As depreciation expense allocates the cost of installing an asset over its useful life, accretion expense allocates the increase in the cost of removing an asset over its useful life. Each period the ARO liability is increased through the recognition of accretion expense. The PowerPlan journal entry reflecting accretion is as follows:

Dr. 41110X - Accretion Expense Cr. 230XXX - ARO Liability

**Regulatory Assets:** Pursuant to ASC 980-410, depreciation and accretion expense related to the ARO asset and liability is offset with a regulatory asset. The PowerPlan journal entry to record the offset is:

- Dr. 1823XX Other Regulatory Assets ARO
  - Cr. 4031XX Depreciation Neutrality
  - Cr. 41110X Accretion Neutrality

In compliance with the 2016 ECR Plan Order, certain of the regulatory assets established via the above entry will be amortized beginning in July 2016. Specifically:

- The KPSC portion of the regulatory assets associated with the Coal Combustion Residuals Rule ("CCR Rule") related surface-impoundment closures (ash and environmental ponds) and related ground water monitoring at Mill Creek, Trimble County, Brown and Ghent will be amortized using a non-levelized 25-year amortization of actual closure costs effective July 1, 2016.
- The KPSC portion of the regulatory assets associated with the surface-impoundment closures (ash ponds) at the retired Green River, Pineville and Tyrone plants will be amortized using a non-levelized 10-year amortization of actual closure costs effective July 1, 2016.

# (Note: Text in italics indicates a key SOX control.)

On August 9, 2017, FERC Staff approved the uncontested Settlement agreement (Docket No. ER17-234 Filing of Recovery of Asset Retirement Obligations) filed on May 30, 2017 which contained the following provisions:

- The FERC portion of the regulatory assets associated with the surface-impoundment closures (ash and environmental ponds) and related ground water monitoring at Trimble County, Brown and Ghent will be amortized using a non-levelized 25-year amortization of actual closure costs effective July 1, 2016 with amortization beginning January 1, 2017.
- The FERC portion of the regulatory assets associated with the surface-impoundment closures (ash ponds) at the retired Green River, Pineville and Tyrone plants will be amortized over 28 months effective January 1, 2017.

On May 9, 2018, the VSCC ("Virginia State Corporation Commission") issued a Final Order (Case No. PUR-2017-00106) for Kentucky Utilities Company dba Old Dominion Power Company providing for the following:

- The VSCC portion of the regulatory assets associated with the CCR Rule related surfaceimpoundment closures (ash and environmental ponds) and related ground water monitoring at Trimble County, Brown and Ghent will be amortized using a straight-line 23-year amortization of total estimated closure costs effective June 1, 2018.
- The VSCC portion of the regulatory assets associated with the surface-impoundment closures (ash ponds) at the retired Green River, Pineville and Tyrone plants will be amortized using a straight-line 4-year amortization of total estimated closure costs effective June 1, 2018.

The amortization is recorded via a manual Oracle journal entry and is generally as follows:

# Dr. 407.3 – Regulatory Debits Cr. 1823XX - Other Regulatory Assets ARO

See technical memos entitled "ECR CCR ARO Accounting Changes 10-14-16.docx" and "ECR CCR Amortization 11-1-16.docx" found on the acctrestricted drive for more a detailed discussion on the amortization of the regulatory asset and the 2016 ECR Plan Order.

Regulatory assets established as part of the ARO accounting process for assets NOT covered under the 2016 ECR Plan Order, FERC Docket No. ER17-234 Filing of Recovery of Asset

## (Note: Text in italics indicates a key SOX control.)

Retirement Obligations and VSCC Case No. PUR-2017-00106 (primarily ash/environmental ponds and related ground water monitoring) are not amortized and are reversed as part of the ARO settlement process described below.

**Settlement:** As settlement activities occur, the following entries for closure costs incurred are recorded:

For AROs which are NOT covered by the 2016 ECR Plan Order:

- Dr. 108799 RWIP--ARO
  - Cr. 131XXX Cash

For AROs which are covered by the 2016 ECR Plan Order:

- Dr. 108899 RWIP--ARO--ECR--Clearing<sup>1</sup>
  - Cr. 131XXX Cash
- Dr. 230799 ARO Liability--ECR Cr. 108899 - RWIP--ARO-- ECR—Clearing<sup>1</sup>

At the time of settlement processing (after closure activities are complete) in PowerPlan, all of the related ARO amounts in accounts 101XXX, 108XXX, 1823XX and 230XXX are reversed. The following PowerPlan journal entries are recorded for all ARO settlements, including those that are covered by the 2016 ECR Plan Order:

Reverse ARO liability and regulatory asset:

- Dr. 230XXX ARO Liability
  - Cr. 1823XX Other Regulatory Assets ARO

Retire the ARO Asset Retirement Cost and related accumulated depreciation:

Dr. 108XXX - Accumulated Depreciation – ARO Asset Retirement Cost

Cr. 101XXX - Plant In Service – ARO Asset Retirement Cost

<sup>&</sup>lt;sup>1</sup> Account 108899 is a "clearing" account. Account 108899 is being used for ease of PowerPlan system processing for AIPs and other budgetary uses. 108899 will be cleared via a manual JE each month to Account 230 for proper Financial Statement presentation.
# 652 – Capital - Asset Retirement Obligations Policy and Procedures

# (Note: Text in italics indicates a key SOX control.)

For AROs which are NOT covered by the 2016 ECR Plan Order, actual closure costs incurred are applied against 108XXX - Accumulated Depreciation –Net Cost of Removal. The following PowerPlan journal entry is made to apply actual cash spend against cost of removal reserves:

Dr. 108XXX- Accumulated Depreciation – Cost of Removal Cr. 108799 - RWIP--ARO

For AROs which are covered by the 2016 ECR Plan Order, actual closure costs incurred are recorded in account 182387 – Other Regulatory Assets ARO. The following journal entries are recorded to establish this regulatory asset:

Reclass cash back to account 108899 for automated PowerPlan settlement processing (Oracle journal entry):

Dr. 108899 - RWIP--ARO--ECR—Clearing<sup>1</sup> Cr. 230799 - ARO Liability--ECR

Reclass cash spend to regulatory asset (PowerPlan journal entry):

# (Note: Text in italics indicates a key SOX control.)

**Policy:** The assets of LG&E and KU Energy LLC and its subsidiaries (LKE) must be reviewed on a regular basis (assumed to be quarterly), to determine if an asset impairment according to FASB ASC 360, Property, Plant and Equipment, and ASC 350, Intangibles – Goodwill and Other, must be recognized.

**Procedure:** Survey appropriate personnel to determine if any assets are impaired or impairment indicators exist, and make appropriate adjustments to the books. An impairment loss will be recognized only if the carrying value of a long-lived asset is not recoverable and exceeds it fair value.

**Scope:** All property, plant, and equipment, including CWIP and intangible assets other than goodwill. See also Policy 452 – Goodwill policy.

# **Objective of Procedure:**

To ensure that LKE does not represent assets on its financial statements at net book values that are significantly greater than its fair value.

# Detailed Procedures Performed:

#### Long-lived assets

Assets should be tested for recoverability whenever events or circumstances indicate that their carrying value may not be recoverable. The following are examples of such events or changes in circumstances:

- A significant decrease in the market value of an asset or asset group;
- A significant change in the extent or manner in which an asset is used, or a significant physical change in the asset;
- A significant adverse change in legal factors or in the business climate that could affect the value of an asset or an adverse action or assessment by a regulator;
- An accumulation of costs significantly in excess of the amount originally expected to acquire or construct an asset;
- A current period operating or cash flow loss, combined with a history of operating or cash flow losses or a projection or forecast that demonstrates continuing losses associated with an asset used for the purpose of producing revenue; or
- A current expectation that more likely than not, a long-lived asset (asset group) will be sold or otherwise disposed of significantly before the end of its previously estimated useful life.

(Note: Text in italics indicates a key SOX control.)

In the event a potential indicator exists, an impairment analysis will be performed. For purposes of ASC 360, impairment is the condition that exists when the carrying value of a long-lived asset exceeds its fair value. An impairment loss shall be recognized only if the carrying value of a long-lived asset is not recoverable and exceeds its fair value.

FASB has indicated that quoted market prices in active markets are the best evidence of fair value. However, when market prices are unavailable, other valuation techniques may be used, including the present value technique (discounted cash flows).

The carrying value of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset (Step 1). That assessment is based on the carrying value of the asset at the date it is tested for recoverability, whether in use or under development. An impairment loss is measured as the amount by which the carrying value exceeds its fair value (Step 2).

The carrying amount of the asset includes capitalized asset retirement costs, if applicable. Cash flows related to an asset retirement obligation that has been recognized in the financial statements is excluded from both (a) undiscounted cash flows used to test the asset's recoverability, and (b) the discounted cash flows used to measure an asset's fair value. If the fair value of the asset is based on a quoted market price and that price considers the costs that will be incurred in retiring that asset, the quoted market price is increased by the fair value of the asset retirement obligation for purposes of measuring impairment.

If the income approach is applied to measure fair value under ASC 820, and the traditional cash flow technique is used (which utilizes the single most-likely set of cash flows, or best estimate), the discount rate should consider the variability (or riskiness) of the cash flows. If the expected cash flow technique is used (which utilizes probability-weighted cash flows to compute the expected cash flows), a risk-free rate is to be used to discount the cash flows (such as a zero coupon U.S. Treasury bond with a similar maturity) since the riskiness of the cash flows is already reflected in the probability percentages.

For purposes of recognition and measurement of an impairment loss, a long-lived asset or assets are grouped with other assets and liabilities at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities.

# **Other Intangible Assets**

If the intangible asset has a finite useful life, then it should be amortized over that useful life. For impairment testing, ASC 360, applies to intangible assets with finite lives.

(Note: Text in italics indicates a key SOX control.)

If the intangible asset has an indefinite useful life, it is not amortized. Intangible assets that are not subject to amortization are tested for impairment annually, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test consists of a comparison of the fair value of the intangible asset to its carrying amount. Potential contract renewals are considered in determining the future cash flows to be discounted if a marketplace participant looking to acquire the intangible asset would consider such renewals. In selecting a discount rate, refer to the guidance noted under "Long-lived assets." If the carrying amount of the intangible asset exceeds its fair value, an impairment loss is recognized in an amount equal to that excess.

Due to the fact that virtually all of the long-lived and intangible assets are on the regulated utilities' (LG&E's and KU's) books, and the utilities earn a return on capitalization in base rates and the environmental cost recovery mechanism, unless a triggering event occurs with an indication that a regulator will not allow recovery of an asset, an impairment test is not performed.

# **Quarterly questionnaires**

*Long-lived assets will be assessed for impairment. (SOX Cycle 10.01, CA#20)* The review for impairment is accomplished via a question included in the quarterly Sarbanes Oxley 302 questionnaire. Recipients of the questionnaire are asked whether a significant adverse change in legal factors or the business climate could affect the value of a long-lived or other intangible assets. Affirmative responses will be followed up on to determine if an impairment exists. An email communicating the results of this quarterly review will be sent to the Controller.

If an impairment calculation is warranted, the Manager, Property Accounting ensures that the Financial Reporting and Financial Planning departments are made aware of the potential impairment and completes the steps detailed above related to determining the impairment value. The Property Accounting and Regulatory Accounting & Reporting departments collaborate on preparing and recording any impairment entries needed.

# (Note: Text in italics indicates a key SOX control.)

**Policy:** To capitalize software, hardware and all related costs that have long-term benefit to LG&E and KU Energy LLC and its subsidiaries ("LKE").

**Procedure:** To capitalize software and hardware in accordance with the capitalization thresholds.

Scope: All software, hardware and related costs of LKE.

**Objective of Procedure:** To consistently apply the guidelines for capitalizing or expensing software and hardware, in compliance with the:

- Federal Energy Regulatory Commission ("FERC"),
- FASB Accounting Standards Codification ("ASC") 350-40, Internal Use Software (Intangibles Goodwill and Other), (formerly SOP 98-1, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use)
- FASB Accounting Standards Update No. 2015-05, Customer's Accounting for Fees Paid in a Cloud Computing Arrangement
- FASB No. 2018-15, Intangibles--Goodwill and Other--Internal-Use Software: Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract

# **General Requirements:**

# Detailed Procedures Performed:

# Hardware:

All purchased hardware having a useful life consistent with the depreciable life established in the most recently approved depreciation study and a cost in excess of \$5,000 shall be capitalized. Hardware will be recorded in the appropriate sub-account of FERC Account 391, Office Furniture and Equipment, and will be amortized charging FERC Account 403, Depreciation Expense, and crediting FERC Account 108, Accumulated Provision for Depreciation of Utility Plant. Incidental software included in the purchase of the hardware will be capitalized as part of the hardware. Retirements will be recognized only at the end of the amortization period as allowed by the FERC.

# Purchased Software:

# (Note: Text in italics indicates a key SOX control.)

All software purchased separately from hardware and having a useful life consistent with the depreciable life established in the most recently approved depreciation study and a cost in excess of \$5,000 shall be capitalized in accordance with ASC 350-40. Software will be recorded in FERC Account 303, Miscellaneous Intangible Plant, and amortized by charging FERC Account 404, Amortization of Limited-Term Plant, and crediting FERC Account 111, Accumulated Provision for Amortization of Utility Plant. Retirements of software will be recognized according to instructions for FERC Account 303 and ASC 350-40.

# Internally Developed Software:

All software developed internally and having a useful life consistent with the depreciable life established in the most recently approved depreciation study and a cost in excess of \$50,000 shall be capitalized in accordance with the guidelines set forth in ASC 350-40 and recorded per the rules stated above for purchased software.

Note: Internally developed software generally consists mainly of labor. However, it is not limited to internal IT labor only but rather may also include external/contract labor and insignificant purchased software costs. The use of contractors or minor purchases of software on a project do not prevent the proper classification of internally developed software (i.e. the project is still subject to the \$50,000 threshold for internally developed software).

# Hosted Software Agreements (Cloud Computing):

In connection with accessing and using software products, hosted software agreements are arrangements in which the Company does not currently have possession of the software. Instead, the software application resides on hardware that is external to the Company's network and the Company accesses and uses the software on an as-needed basis. **Fees** associated with hosted arrangements will be expensed as incurred, unless the following criteria is met:

- a. The Companies have the contractual right to take possession of the software at any time during the hosting period without significant penalty.
- b. It is feasible for the Companies to either run the software on its own hardware or contract with another party unrelated to the vendor to host the software.

The term "without significant penalty" contains two distinct concepts:

(Note: Text in italics indicates a key SOX control.)

- a. The ability to take delivery of the software without incurring significant costs (i.e. costs in excess of the current capitalization threshold of \$5,000).
- b. The ability to use the software separately without significant diminution in utility or value.

Hosting arrangements that do not meet both criteria above are service contracts and do not constitute a purchase of or convey a license to software and thus fees should be expensed.

Implementation costs incurred in connection with hosted software that is a service agreementwill either be expensed or capitalized as described below in the <u>Accounting for</u> <u>Related Costs</u> section—provided that the term (evidenced by a contract) of the hosting agreement is consistent with the depreciable software life established in the most recently approved depreciation study.

The term of the hosting arrangement shall be determined as the fixed noncancellable term of the hosting arrangement plus all of the following:

- a. Periods covered by an option to extend the hosting arrangement if the Company is reasonably certain to exercise that option.
- b. Periods covered by an option to terminate the hosting arrangement if the Company is reasonably certain not to exercise that option.
- c. Periods covered by an option to extend (or not to terminate) the hosting arrangement in which exercise of the option is controlled by the vendor.

For FERC financial statement reporting, capitalized implementation costs related to hosting agreements will be recorded in Utility Plant (account 101-Plant in Service). Accounting guidance for GAAP financial statement reporting requires that capitalized implementation costs incurred related to hosting agreements that are a service agreement be reported as "Other noncurrent assets" for the long-term portion and "Prepayments" for the current portion.

Amortization of the capitalized implementation costs for hosted software should be reported as depreciation and amortization for FERC reporting. The capitalized implementation costs will be amortized utilizing the approved composite amortization rates from the most previous depreciation study for software. For GAAP financial statement reporting, these costs will be reported within "Other operation and maintenance" which is the same financial statement line item as the associated hosting service will be reported.

# (Note: Text in italics indicates a key SOX control.)

These differing financial statement presentations create a FERC to GAAP difference. The following table depicts the accounts being used and how they are mapped:

Account Number	FERC Mapping	GAAP Mapping	Reason	
101	Utility plant	Other noncurrent assets	Record unitized implementation costs into PP&E for FERC and Other noncurrent assets for GAAP.	
101	Utility plant	Prepayments	Record implementation costs that are to be amortized within the next 12 months.	
106	Utility plant	Other noncurrent assets	Record Completed Construction not Classified (CCNC) implementation costs into PP&E for FERC and Other noncurrent assets for GAAP.	
106	Utility plant	Prepayments	Record potential CCNC implementation costs that are to be amortized within the next 12 months.	
111	Reserves for depreciation	Other noncurrent assets	Record accumulated depreciation for FERC and accumulated amortization within Other noncurrent assets for GAAP.	
107	Utility plant	Other noncurrent assets	Accumulate costs in CWIP for FERC and Other noncurrent assets for GAAP.	
404	Amortization expense	O&M	Record depreciation expense for FERC and O&M for GAAP.	

For a more detailed discussion on the accounting requirements, see the technical memo entitled "Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement Memo 10.31.19" on the acctrestricted drive.

Projects involving hosting arrangements should be discussed with Property Accounting prior to submission of the Authorization of Investment Proposal (AIP).

Upgrades/Enhancements to Software:

# (Note: Text in italics indicates a key SOX control.)

Upgrades and enhancements made when software is originally purchased will be capitalized as part of the software cost in accordance with ASC 350-40. Upgrades and enhancements made after the initial purchase or development will be capitalized in accordance with ASC 350-40 if they represent modifications to the original asset to enable the software to perform tasks that it was previously incapable of performing

#### Accounting for related costs:

Guidance on capitalization of costs incurred for computer **hardware/software** is provided below:

- 1. Costs incurred during the **preliminary stages** of a hardware/software project should be expensed as incurred include the following:
  - a. development of scope
  - b. business needs analysis
  - c. documentation of as-is business processes
  - d. documenting high-level business requirements and performance/system requirements (used in the evaluation of alternatives)
  - e. conceptual formulation of alternatives
  - f. evaluation of alternatives
  - g. determination of existence of needed technology
  - h. final selection of alternatives/vendors
  - i. development of cost estimates
  - j. business process reengineering (not specific to the implementation of specific technology solution)
- 2. Costs incurred during the **application stage** to develop software should be capitalized. Capitalization of costs shall begin when a.) the preliminary project stage is completed and b.) management, with the relevant authority, implicitly or explicitly authorizes and commits to funding a computer software project and it is probable that the project will be completed and the software will be used to perform the function intended. Examples of authorization include the execution of a contract with a third party to develop the software, approval of expenditures related to internal development, or a commitment to obtain the software from a third party. Application stage costs include the following:
  - a. design activities including documentation of process changes required (tobe process documentation), detailed application requirements, analysis of system functionality and identification of required changes/customizations

#### (Note: Text in italics indicates a key SOX control.)

(gap-analysis), functional design documents, visualization or prototyping of solution, business rules, configuration requirements/rules, data requirements and reporting requirements

- b. build activities including documentation of technical requirements, development, coding, software configuration, interfaces, and installation to hardware
- c. testing including the development of user stories, use cases, testing scenarios and test scripts, and defect management
- d. implementation activities

Costs shall include the actual cost of purchased hardware and software, consultant fees, travel expenses and payroll costs of the Information Technology Department. User (i.e., line of business) department costs may be charged to a project, but are limited to charges incurred by persons actively working on the project. Examples of employee activities include, but are not limited to design, coding and testing during the application development stage. Charges of persons serving on steering or advisory committees are excluded from capital costs.

- 3. Costs to develop or obtain software to access or **convert old data** using new systems should be capitalized. However, the actual cost of data conversion (purging or cleansing existing data, reconciling or balancing old data versus the data in the new system) should be expensed as incurred.
- 4. Perpetual **license fees** can be capitalized along with the costs to purchase software. License fees under a term or subscription agreement should be expensed. See also the Hosted Software Agreements section.
- 5. All **training** costs should be expensed as incurred.
- 6. Meals related to Company business and incurred as part of the capitalized activities described above may be charged to the capital project. Meals related to Company business and incurred as part of the expensed activities described above must be expensed. The cost of celebrations and other expenses (food, room rentals, entertainment, outings, etc.) incurred as employee recognition for participation on a capital project shall be charged to a below-the-line expense or to LG&E and KU Capital LLC as determined by Policy 1060-Regulatory Compliance.
- 7. In some cases, software contract fees may include **multiple-arrangements**, such as training for the software, maintenance fees for routine maintenance work to be

(Note: Text in italics indicates a key SOX control.)

performed by the third party, data conversion costs, reengineering costs, and rights to future upgrades and enhancements. Entities shall allocate the cost among all individual elements.

- 8. Capitalization shall cease no later than the point at which a computer software project is substantially complete and ready for its intended use. Substantially complete is generally defined as when all substantial testing is completed and automated systems are operational. Costs incurred to operate and maintain software shall be expensed.
- 9. **Maintenance** costs, including the first year of maintenance, should be expensed as incurred.
- 10. **Upgrades and enhancements** to existing software (modifications that result in the software being able to perform tasks that it was previously incapable of performing) should be expensed or capitalized in accordance with the rules listed above. Upgrades without additional functionality should be expensed. Costs that cannot be separated on a reasonably cost-effective basis between maintenance and relatively minor upgrades and enhancements should be expensed (i.e. security patches or bug fixes).
- 11. When a software project will not be completed, no further costs should be capitalized, and the existing balances should be considered for impairment.

**Communication of Policy Changes:** Any changes to this policy will be communicated by the Manager, Property Accounting to the following:

- Director, Financial Planning and Budgeting
- Manager, Property Accounting-PPL
- All IT Directors

Reports Generated and Recipients:

• None

# Additional Controls or Responsibility Provided by Other Procedures:

• Financial Planning and Budget personnel and Property Accounting Analysts review Authorization for Investment Proposals to confirm that hardware, software and related costs are being properly capitalized.

Date Created: 11/23/04 Dates Revised: 5/17/05; 12/1/10; 3/31/11; 9/22/11; 8/17/12; 5/15/15; 3/02/16; 1/27/17; 1/1/20

# (Note: Text in italics indicates a key SOX control.)

# Appendix A

Appendix A provides specific references and exact language from Financial Accounting Standards Board ASC 350-40, Internal Use Software (Intangibles – Goodwill and Other) (formerly SOP 98-1, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use). Appendix A is included here in support of the guidance provided above in Policy 655 and for easy reference.

# **Preliminary Project Stage**

Internal and external costs incurred during the preliminary project stage shall be expensed as they are incurred. (ASC 350-40-25-1)

Activities include (ASC 350-40-55-3):

- 1. Conceptual formulation of alternatives
- 2. Evaluation of alternatives
- 3. Determination of existence of needed technology
- 4. Final selection of alternatives.

# **Application Development Stage**

Internal and external costs incurred to develop internal-use computer software during the application development stage shall be capitalized. (ASC 350-40-25-2)

Activities include (ASC 350-40-55-3):

 $1.\,Design of chosen path, including software configuration and software interfaces$ 

2. Coding

3. Installation to hardware

4. Testing, including parallel processing phase.

Costs include (ASC 350-40-30-1):

a. External direct costs of materials and services consumed in developing or obtaining internal-use computer software:

1. Fees paid to third parties for services provided to develop the software during the application development stage

2. Costs incurred to obtain computer software from third parties

3. Travel expenses incurred by employees in their duties directly associated with developing software.

# (Note: Text in italics indicates a key SOX control.)

b. Payroll and payroll-related costs (for example, costs of employee benefits) for employees who are directly associated with and who devote time to the internaluse computer software project, to the extent of the time spent directly on the project. Examples of employee activities include but are not limited to coding and testing during the application development stage.

Timing (ASC 350-40-25-12):

Capitalization of costs shall begin when both of the following occur:

a. Preliminary project stage is completed.

b. Management, with the relevant authority, implicitly or explicitly authorizes and commits to funding a computer software project and it is probable that the project will be completed and the software will be used to perform the function intended. Examples of authorization include the execution of a contract with a third party to develop the software, approval of expenditures related to internal development, or a commitment to obtain the software from a third party.

Capitalization shall cease no later than the point at which a computer software project is substantially complete and ready for its intended use, that is, after all substantial testing is completed. (ASC 350-40-25-14)

The process of data conversion from old to new systems may include purging or cleansing of existing data, reconciliation or balancing of the old data and the data in the new system, creation of new or additional data, and conversion of old data to the new system. Data conversion often occurs during the application development stage. (ASC 350-40-05-8)

Costs to develop or obtain software that allows for access to or conversion of old data by new systems shall also be capitalized. (ASC 350-40-25-3)

Actual data conversion costs, except as noted in paragraph 350-40-25-3, shall be expensed as incurred. (ASC 350-40-25-5)

Training costs are not internal-use software development costs and, if incurred during this stage, shall be expensed as incurred. (ASC 350-40-25-4)

# Post implementation-Operation Stage

Internal and external training costs and maintenance costs during the post implementationoperation stage shall be expensed as incurred. (ASC 350-40-25-6)

(Note: Text in italics indicates a key SOX control.)

Activities include (ASC 350-40-55-3):

- 1. Training
- 2. Application maintenance.

# Impairment

When it is no longer probable that the computer software project will be completed and placed in service, no further costs shall be capitalized, and guidance in paragraphs 350-40-35-1 through 35-3 on impairment shall be applied to existing balances. (ASC 350-40-25-13)

<u>Hosted arrangement implementation costs</u>: Impairment shall be recognized and measured in accordance with the provisions of Section 360-10-35 as if the capitalized implementation costs were a long-lived asset. That guidance requires that assets be grouped at the lowest level for which there are identifiable cash flows that are largely independent of the cash flows of other groups of assets. The guidance is applicable, for example, when one of the following events or changes in circumstances occurs related to

the **hosting arrangement** that is a service contract indicating that the carrying amount of the related implementation costs may not be recoverable: (ASC 350-40-35-11)

- a. The hosting arrangement is not expected to provide substantive service potential.
- b. A significant change occurs in the extent or manner in which the hosting arrangement is used or is expected to be used.
- c. A significant change is made or will be made to the hosting arrangement.

Paragraphs 360-10-35-47 through 35-49 require that the asset be accounted for as abandoned when it ceases to be used. Implementation costs related to each module or component of a hosting arrangement that is a service contract shall be evaluated separately as to when it ceases to be used. (ASC 350-40-35-12)

See Policy 654 – Asset Impairment for guidance on asset impairment.

# **Hosting Arrangements**

<u>Hosting Arrangement</u> - In connection with accessing and using software products, an arrangement in which the customer of the software does not currently have possession of the software; rather, the customer (i.e. our Company) accesses the uses of the software on an asneeded basis. (ASC 350-40 Master Glossary)

The guidance in the General Subsections of this Subtopic applies only to internal-use software that a customer (i.e. our Company) obtains access to in a hosting arrangement if **both** of the following criteria are met (ASC 350-40-15-4):

# (Note: Text in italics indicates a key SOX control.)

- 1. The customer has the contractual right to take possession of the software at any time during the hosting period without significant penalty. The term without significant penalty contains two distinct concepts:
  - a. The ability to take delivery of the software without incurring significant costs.
  - b. The ability to use the software separately without significant diminution in utility or value.
- 2. It is feasible for the customer to either run the software on its own hardware or contract with another party unrelated to the vendor to host the software.

Hosting arrangements that do not meet both criteria are service contracts and do not constitute a purchase of, or convey a license to, software. (ASC 350-40-15-4)

<u>Implementation Costs:</u> Implementation costs of a hosting arrangement that does not meet both criteria in paragraph 350-40-15-4 shall be accounted for in accordance with the Implementation Costs of a Hosting Arrangement That Is a Service Contract Subsections of this Subtopic. (ASC 350-40-15-4)

An entity shall apply the General Subsection of this Section as though the **hosting arrangement** that is a service contract were an internal-use computer software project to determine when implementation costs of a hosting arrangement that is a service contract are and are not capitalized. (ASC 350-40-25-18)

Implementation costs capitalized in accordance with the Implementation Costs of a Hosting Arrangement That Is a Service Contract Subsections of this Subtopic shall be amortized over the term of the associated hosting arrangement, considering the guidance in paragraph 350-40-35-17, on a straight-line basis unless another systematic and rational basis is more representative of the pattern in which the entity expects to benefit from access to the hosted software. This Subsection considers the right to access the hosted software to be equivalent to actual use, which shall not be affected by the extent to which the entity uses, or the expectations about the entity's use of, the hosted software (for example, how many transactions the entity processes or expects to process or how many users access or are expected to access the hosted software). (ASC 350-40-35-13)

An entity (customer) shall determine the term of the hosting arrangement that is a service contract as the fixed noncancellable term of the hosting arrangement plus all of the following: (ASC 350-40-35-14)

- a. Periods covered by an option to extend the hosting arrangement if the entity (customer) is reasonably certain to exercise that option
- b. Periods covered by an option to terminate the hosting arrangement if the entity (customer) is reasonably certain not to exercise that option

# (Note: Text in italics indicates a key SOX control.)

c. Periods covered by an option to extend (or not to terminate) the hosting arrangement in which exercise of the option is controlled by the vendor.

An entity (customer) shall periodically reassess the estimated term of the arrangement and shall account for any change in the estimated term as a change in accounting estimate in accordance with Topic 250 on accounting changes and error corrections. (ASC 350-40-35-15)

For each module or component of a hosting arrangement, an entity shall begin amortizing the capitalized implementation costs related to the hosting arrangement that is a service contract when the module or component of the hosting arrangement is ready for its intended use, regardless of whether the overall hosting arrangement will be placed in service in planned stages that may extend beyond a reporting period. For purposes of this Subsection, a hosting arrangement (or a module or component of a hosting arrangement) is ready for its intended use after all substantial testing is completed. If the functionality of a module or component is entirely dependent on the completion of other modules or components, the entity shall begin amortizing the capitalized implementation costs related to that module or component when both that module or component and the other modules or components upon which it is functionally dependent are ready for their intended use. (ASC350-40-35-17)

An entity shall present the amortization of implementation costs described in paragraph 350-40-35-13 in the same line item in the statement of income as the expense for fees for the associated **hosting arrangement**. (ASC 350-40-45-1)

An entity shall present the capitalized implementation costs described in paragraph 350-40-25-18 in the same line item in the statement of financial position that a prepayment of the fees for the associated hosting arrangement would be presented. (ASC 350-40-45-2)

An entity shall classify the cash flows from capitalized implementation costs described in paragraph 350-40-25-18 in the same manner as the cash flows for the fees for the associated hosting arrangement. (ASC 350-40-45-3)

# **Upgrades and Enhancements**

Upgrades and enhancements are defined as modifications to existing internal-use software that result in additional functionality—that is, modifications to enable the software to perform tasks that it was previously incapable of performing. Upgrades and enhancements normally require new software specifications and may also require a change to all or part of the existing software specifications. (ASC 350-40-05-9)

# (Note: Text in italics indicates a key SOX control.)

In order for costs of specified upgrades and enhancements to internal-use computer software to be capitalized in accordance with paragraphs 350-40-25-8 through 25-10 (*see immediately below*), it must be probable that those expenditures will result in additional functionality. (ASC 350-40-25-7) (Note: LKE does capitalize enhancements made to software after the initial software in-service in order to fix issues immediately after the go-live date or to modify the software to make it functional for our particular needs. After post go-live issues have been addressed, work performed to correct issues and perform routine maintenance is expensed.)

Internal costs incurred for upgrades and enhancements shall be expensed or capitalized in accordance with paragraphs 350-40-25-1 through 25-6 (*see preliminary project and application development stages above*). (ASC 350-40-25-8)

Internal costs incurred for maintenance shall be expensed as incurred. (ASC 350-40-25-9)

Entities that cannot separate internal costs on a reasonably cost-effective basis between maintenance and relatively minor upgrades and enhancements shall expense such costs as incurred. (ASC 350-40-25-10)

External costs incurred under agreements related to specified upgrades and enhancements shall be expensed or capitalized in accordance with paragraphs 350-40-25-1 through 25-6 *(see preliminary project and application development stages above)*. If maintenance is combined with specified upgrades and enhancements in a single contract, the cost shall be allocated between the elements as discussed in paragraph 350-40-30-4 *(see immediately below)* and the maintenance costs shall be expensed over the contract period. However, external costs related to maintenance, unspecified upgrades and enhancements, and costs under agreements that combine the costs of maintenance and unspecified upgrades and enhancements shall be recognized in expense over the contract period on a straight-line basis unless another systematic and rational basis is more representative of the services received. (ASC 350-40-25-11)

# **Multiple-Element Arrangements Included in Purchase Price**

Entities may purchase internal-use computer software from a third party. In some cases, the purchase price includes multiple elements, such as training for the software, maintenance fees for routine maintenance work to be performed by the third party, data conversion costs, reengineering costs, and rights to future upgrades and enhancements. Entities shall allocate the cost among all individual elements. The allocation shall be based on objective evidence of fair value of the elements in the contract, not necessarily separate prices stated within the contract for

# (Note: Text in italics indicates a key SOX control.)

each element. Those elements included in the scope of this Subtopic shall be accounted for in accordance with the provisions of this Subtopic. (ASC 350-40-30-4)

# (Note: Text in italics indicates a key SOX control.)

**Policy:** Property taxes are capitalized as part of the original construction costs.

**Procedure:** Monthly capitalize property taxes on amounts recorded in Construction Work in Progress ("CWIP").

**Scope:** All eligible CWIP projects of Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU"). This policy does not apply to other LKE subsidiaries as property taxes generally are expensed as incurred. See the technical guidance which states that utilities (LG&E and KU) are allowed to capitalize costs that otherwise might be expensed as they are able to receive recovery through rates.

**Objective of Procedure:** To capitalize property taxes according to Federal Energy Regulatory Commission ("FERC") guidelines and Generally Accepted Accounting Principles ("GAAP").

#### **General Requirements:**

Electric Plant Instruction number 3A (<u>18 CFR 101</u>) generally permits the capitalization of property taxes as evidenced by the following:

"3. Components of Construction cost. A. For Major utilities, the cost of construction properly includible in the electric plant accounts shall include, where applicable, the direct and overhead cost as listed and defined hereunder: .... (16) Taxes includes taxes on physical property (including land) during the period of construction and other taxes properly includible in construction costs before the facilities become available for service."

PwC – Guide to Accounting for Utilities & Power Companies, Chapter 12, Plant further specifies:

"Figure 12-5 Accounting for Development and Construction Costs, Property taxes during construction – Generally expense: Property taxes are a cost of owning the property and are not a direct incremental cost of construction, thus such amounts should be expensed as incurred. However, similar to ground lease expense, such amounts may be capitalized if the property is being constructed for sale or rental. See UP 12.2.2."

However, the following exception applies to regulated entities.

"12.2.1.3 Construction Phase During the construction phase, a reporting entity should capitalize direct and incremental costs of construction in accordance with its capitalization policies. In general, indirect costs should continue to be expensed during

(Note: Text in italics indicates a key SOX control.)

construction. .... In addition, regulated utilities may be able to include constructionrelated costs in rate base that would otherwise be expensed. To capitalize such costs, a regulated utility should ensure that it is probable such amounts will be included in future rate base (see UP 18.2). Figure 12-5 (included at the end of this chapter) summarizes the accounting for costs incurred during all phases of construction of a power or utility project constructed for a reporting entity's own use. The following sections discuss specific additional considerations for certain of the costs that may be incurred during construction. See UP 12.2.2 for incremental considerations for a reporting entity constructing a project for sale or rental."

Capitalization of property taxes is limited to capital projects that possess all of the following characteristics:

- have a projected cost of greater than \$500,000<sup>1</sup>
- are constructed over a period of greater than 12 months.

(Note: Transmission and distribution blankets are excluded, as well as annual projects (i.e. Pole Inspection and Treatment) that are kept open until early the next year to accept all final charges. Reimbursable projects with an in-service date prior to January 1 of the assessment year are also excluded.)

Historically, property taxes had been capitalized only on coal-fired generating unit projects such as Trimble County and Mill Creek. However, effective in July 2015 with the implementation of new base rates from Case Nos. 2014-00371 and 2014-00372, LG&E's and KU's accounting policy is to capitalize property taxes based on the criteria above.<sup>2</sup>

<sup>&</sup>lt;sup>1</sup>As included in the rebuttal testimony of Kent Blake in Kentucky Public Service Commission Case Nos. 2014-00371 and 2014-00372, \$100,000 was initially determined to be the threshold for capitalizing property taxes. This threshold was chosen to provide consistency with the AFUDC threshold. However, a detailed analysis was performed by Operations Budgeting & Forecasting following the rate case settlement to determine whether a different threshold should be established to avoid an administrative burden with having to track and capitalize property taxes on nearly 100 projects. This review indicated that a more appropriate threshold would be \$500,000 as the amount of projects would be reduced to less than 50 projects while not materially reducing the amount of property taxes to be capitalized. Additionally, the \$500,000 threshold promotes consistency with the capital policy whereby projects over \$500,000 are required to have an investment proposal.

 $<sup>^2</sup>$  See the direct testimony of Lane Kollen on behalf of the Kentucky Industrial Utility Customers and the rebuttal testimony of Kent Blake, Chief Financial Officer of LG&E and KU in Case Nos. 2014-00371 and 2014-00372.

(Note: Text in italics indicates a key SOX control.)

#### Detailed Procedures Performed:

Property taxes are assessed annually based on net book value included in CWIP at the end of the preceding year. For example, property taxes on CWIP for 2015 are based on CWIP balances as of December 31, 2014.

- 1. The Operations-Budgeting & Forecasting Department provides the Tax Department with the estimated spend and duration of the projects in CWIP which meet the established guidelines for capitalization of property taxes.
- 2. The Tax Department calculates the amount of property tax to be charged for each eligible project. This amount is spread over the remaining duration of the project to determine the monthly figure to charge each project by journal entry. When a project is placed in service, the capitalization of property tax will stop.
- 3. Based on the calculation in step 2 above, the Tax Department prepares a monthly journal entry to reclass the charges from the O&M account where the Tax department charges the overall property tax accrual to the applicable CWIP project.

Reports Generated and Recipients: None

Date Created: 4/27/07 Dates Revised: 12/1/10; 9/23/11; 6/2/15; 3/02/16; 3/22/16, 9/29/2020

# (Note: Text in italics indicates a key SOX control.)

**Policy:** All fixed assets which benefit the customers or shareholders of multiple companies will be recorded with the appropriate ownership percentages.

**Procedure:** The procedures for accounting for joint use and jointly owned assets are described in the detailed instructions below.

**Scope:** All asset additions of LG&E and KU Energy LLC ("LKE" or the "Company") and its subsidiaries.

**Objective of Procedure:** Ensure that joint use and jointly owned assets are properly recorded on the appropriate LKE entities.

#### **General Requirements:**

#### Jointly Used Assets:

#### Detailed Procedures Performed:

**Definition:** <u>Jointly Used Assets</u> – Buildings and related assets such as parking lots and driveways which were originally constructed and owned by a single company (generally either LG&E or KU) but are subsequently being used by more than one company. An example of these assets is the Broadway office complex (BOC). The original BOC assets consisting of the core infrastructure of the building (roof, HVAC, exterior walls, parking lot) are owned solely by LG&E. Rent is charged to the companies benefitting from the use of the building assets by the company owning the building. The rental amount is based upon the depreciation associated with the infrastructure assets at the location.

Jointly used assets are the following locations:

#### **Locations:**

Broadway Office Complex (including the Health Clinic) One Quality Street Dix Transmission Control LG&E Building Leasehold Improvements\*\* Pineville Call Center Morganfield Riverport Auburndale Health Clinic East Operations Center Safety and Training Center

(Note: Text in italics indicates a key SOX control.)

Guidelines for establishing ownership of assets located at jointly used locations:

- It is the stated practice that assets **originally** constructed and owned by a single company (example: LG&E owns the BOC) and subsequently used by a related company (example: KU) shall not be sold to the related company (KU).
- <u>Infrastructure Assets Ownership and Rent:</u> Asset purchases made to replace or enhance the infrastructure such as roof and HVAC replacements and driveway paving will be purchased by the original owner (LG&E for BOC example). Rent will be charged to the companies benefitting from the use of the building assets by the company owning the building. The rental amount will be based upon the depreciation (life and cost of removal/salvage) associated with the infrastructure assets at the location. Infrastructure assets are typically found in "Structures and Improvements" plant accounts. In general, rent will be allocated to the benefitting companies based on the percentage of time employees located in the building charge to each company based on the most recent LG&E and KU Services Company Cost Allocation Manual (CAM) percentage using indirect accounts. Accounts 454900 and 493900 are used for electric and gas intercompany rental income and account 931900 for intercompany rental expense. The expenditure org of the source company is used for both the intercompany rental income and the intercompany rental expense.
- <u>Non-Infrastructure Assets Ownership</u>: Non-infrastructure assets are purchased from time to time which benefit customers or shareholders of multiple companies and these assets are physically located at one of the aforementioned buildings. An example of these assets would be the office furniture/equipment and drywall/carpet replacement required for a renovation of the customer call center located at the BOC. LG&E and KU customers both benefit from these capital expenditures and each company will share in the ownership of the assets. For asset purchases such as these, the ownership percentages will be established at the time the project is initiated/approved.

# **\*\*LG&E Building** Leasehold Improvements—in connection with tenant improvement allowance for lease term commencing July 1, 2012:

The LG&E Building is a leased facility. A new lease was entered into and commenced July 1, 2012. Under the terms of the new lease agreement the Landlord has provided LKE with a tenant improvement allowance of approximately \$7 million for leasehold improvements. A summary of the accounting treatment for the leasehold assets acquired under this tenant allowance follows:

• The leasehold improvement assets will be established on the financial records of LG&E and KU Services Company (LKS).

# (Note: Text in italics indicates a key SOX control.)

- Rent will be charged by LKS to the companies benefitting from the use of the leasehold improvement assets based on the "<u>Infrastructure Assets Ownership and Rent</u>" guidelines established on page 2 of this policy.
- When LKE receives reimbursement for improvements under the tenant allowance agreement, a tenant incentive liability is recorded that is then amortized straight-line over the remaining lease term and allocated on the same basis as the rent expense.

# Morganfield jointly used assets:

Morganfield is a facility which was constructed in 2011 predominantly to meet the needs of KU. The facility houses a storeroom, walk-in customer business office, Meter Reading/Field Service office space and office space/staging area for Distribution Operations personnel. Additionally, the facility contains a customer service call center which serves customers of both LG&E and KU.

Guidelines for establishing ownership of assets located at Morganfield:

- Since the Morganfield facility was constructed primarily for KU purposes, the building infrastructure and land are owned solely by KU. Asset purchases made to replace or enhance the infrastructure will be purchased by KU.
- Rent will be charged to LG&E for the benefit of the use of the building assets for the call center. The rent will be based on the "<u>Infrastructure Assets Ownership and Rent</u>" guidelines established on page 2 of this policy.
- Ownership percentages for non-infrastructure assets purchased for the call center will be established at the time the project is initiated/approved and will follow the "<u>Non-infrastructure Assets Ownership</u>" guidelines established on page 2 of this policy.

# Riverport jointly used assets:

Riverport (7301 Distribution Drive) is a 200,000 square foot facility located in Louisville which was purchased in 2012. The purchase was precipitated by the need to relocate the Central Maintenance Shop from Mill Creek Generating Station due to extensive Environmental Air Compliance work at Mill Creek. This facility, purchased mainly due to the required relocation of LG&E owned property, was partially funded by LG&E's Environmental Cost Recovery Mechanism (ECR) and is located in LG&E's service territory. For these reasons, the building and land are owned solely by LG&E. The property is classified as a generation asset.

Guidelines for establishing ownership of assets located at Riverport:

# (Note: Text in italics indicates a key SOX control.)

- Since the Riverport facility was purchased primarily for LG&E purposes, the building infrastructure and land are owned solely by LG&E. Asset purchases made to replace or enhance the infrastructure will be purchased by LG&E.
- Rent will be charged to KU for the benefit of the use of the building assets. Riverport is used mostly for warehouse space with the Central Maintenance Shop occupying a smaller portion of the building. The rent will be based on the "<u>Infrastructure Assets Ownership</u> and <u>Rent</u>" guidelines established on page 2 of this policy.
- Ownership percentages for non-infrastructure assets purchased for the site will be established at the time the project is initiated/approved and will follow the "<u>Non-infrastructure Assets Ownership</u>" guidelines established on page 2 of this policy.

# East Operations Center Safety and Training Center jointly used assets:

The East Operations Center (EOC) Safety and Training Center is a centralized training laboratory facility which supports the training needs of the employees of both electric and gas distribution operations. The Safety and Training Center was constructed in 2018 and located in LG&E's service territory at the EOC, an existing facility owned solely by LG&E and used for LG&E operations only. At the time of construction, there were no employees assigned to the Safety and Training Center facility on a permanent basis, making it difficult to determine an accurate joint ownership percentage. For these reasons, it was determined that the facility will be solely owned by LG&E.

Guidelines for establishing ownership of assets located at EOC Safety and Training Center:

- Asset purchases made to replace or enhance the infrastructure will be purchased by LG&E.
- Rent will be charged to KU for the benefit of the use of the building assets. Since there are no employees permanently located at the building, it was determined rent guidance in the "<u>Infrastructure Assets and Rent</u>" section on page 2 of this policy would <u>not</u> be appropriate. Instead, it was decided that rent should be based on the CAM ratio for Total Electric/Gas distribution assets.
- Ownership percentages for non-infrastructure assets purchased for the site will be established at the time the project is initiated/approved and will follow the "<u>Non-infrastructure Assets Ownership</u>" guidelines established on page 2 of this policy.

The original building at EOC will continue to be solely owned and used to support LG&E.

# BOC and Auburndale Health Clinic jointly used assets:

(Note: Text in italics indicates a key SOX control.)

In 2020, LG&E began the construction of two on-site health clinics located within the BOC and Auburndale Operations Center's facilities. These clinic locations will include operational features such as waiting area / reception, examination rooms, nurse's station, provider office(s), hearing test / lab areas and restrooms. Auburndale and BOC were originally constructed by LG&E and the infrastructure assets are solely owned by LG&E; therefore, the determination was made that the clinics would be jointly used assets.

Guidelines for establishing ownership of assets located at the BOC and Auburndale Health Clinics:

- Asset purchases made to replace or enhance the infrastructure for either the BOC or Auburndale locations will be purchased by LG&E.
- Rent will be charged to KU for the benefit of the use of the building assets for the health clinic. For the BOC location, the rent will be based on the "<u>Infrastructure Assets</u> <u>Ownership and Rent</u>" guidelines established on page 2 of this policy. Since the rest of Auburndale is not a jointly used location (i.e. the building is used for LG&E only) it is not appropriate to use the "<u>Infrastructure Assets Ownership and Rent</u>" guidelines for rent. Instead, it is anticipated that rent will be charged based on the CAM ratio for the total number of employees for each Company.
- Ownership percentages for non-infrastructure assets purchased for the health clinics will be established at the time the project is initiated/approved and will follow the "<u>Non-infrastructure Assets Ownership</u>" guidelines established on page 2 of this policy.

# Brown CT Pipeline jointly used assets:

The pipeline assets and associated land was originally built to serve Brown CT 9, which was placed in service prior to the LG&E and KU merger in 1998. The pipeline assets are solely owned by KU. Brown CT 8, 9, 10 and 11 (solely owned by KU) and BR CT 5, 6 and 7 (jointly owned by LG&E and KU) were subsequently constructed and are also served by the pipeline. KU will charge LG&E rent based upon the depreciation (life and cost of removal/salvage) associated with the infrastructure assets at the location. The rent allocation will be based on the CT nameplate rating of the CTs served by the pipeline.

# **Jointly Owned Assets:**

Detailed Procedures Performed:

#### (Note: Text in italics indicates a key SOX control.)

**Definition:** <u>Jointly Owned Assets</u> – Assets whose total cost is split between the companies benefitting from the use of the assets based on stated ownership percentages. For the majority of these assets, ownership percentages are established prior to construction.

#### Generation jointly owned assets:

	<b>Ownership:</b>		
Locations:	LG&E %	KU %	
Brown 5	53	47	
Brown 6	38	62	
Brown 7	38	62	
Brown Jointly Owned CT 5, 6 & 7	20	80	
Brown Solar	39	61	
Cane Run 7 Combined Cycle GT (CR7)/Pipeli	ne 22	78	
Paddy's Run 13/Pipeline	53	47	
Simpsonville Solar Share (Arrays 1 & 2)	44	56	
Trimble County CT 5 & 6	29	71	
Trimble County CT Pipeline	29	71	
Trimble County CT 7, 8, 9 & 10	37	63	
Trimble County Jointly Owned CT 5, 6, 7, 8, 9	,10 34	66	
Trimble County 2	19	81	
Trimble County Jointly Owned (TC1 and TC2	) 52	48	
following assets are not jointly owned but are liste	ed here for ease	of reference only:	
Brown CT nineline		100	

The following assets are not jointly owned but are listed here for ease of reference only:Brown CT pipeline100Solar-Maker's Mark100Solar-Archdiocese of Louisville100

Guidelines for establishing ownership percentages:

- Generation ownership percentages are typically determined by the Integrated Resource Plan (IRP). Note: Simpsonville Solar Share ownership is allocated based on the number of electric customers (excluding ODP) that existed at the date of the original construction of array 1.
- For generation assets which are common to more than one generating asset (examples: coal conveyors, roads), ownership percentages are typically determined by a combination of the IRP ownership percentage and the nameplate rating of the applicable units.
- The land footprint under each jointly owned unit will be jointly owned by each company according to the established ownership percentages. The land footprint is generally

(Note: Text in italics indicates a key SOX control.)

defined as the perimeter of the jointly owned plant site (may extend to fence lines and include lay down areas) and not confined to a piece of equipment or building foundation. The footprint will be defined by the applicable subject matter experts (such as Generation Services or Project Engineering).

- Land sales may need to be made from one company to another if the new jointly owned units are being constructed on land originally solely owned by one of the companies. The sale is required in order to be compliant with the Power Supply System Agreement whereby the utilities must be tenants in common. If the plant site was originally solely owned by one company then the land surrounding the footprint of the jointly owned plant will continue to be solely owned by the original company. Any additional land purchases made as a result of jointly owned asset construction will also be jointly owned (example: buffer land purchased for CR 7 construction.)
- If the land for the plant site is a new purchase (at a location not previously solely owned by one of the companies), the entire plant site will be jointly owned by each company according to the established ownership percentages.

<u>Exception</u>: For generation jointly owned projects whose cost is estimated at \$25,000 or less, the assets will not be split based on the ownership percentages. Rather, 100% of the assets will be recorded on the financial records of the company with the largest ownership percentage. Projects smaller than \$25,000 are a very small amount when compared to the overall total cost of generation assets and do not justify the processing time required for all parties involved.

# **Transmission** assets constructed in conjunction with generation projects constructed 2003 or later:

Summary:

- Transmission assets will not be jointly owned between LG&E and KU. (See section below for Transmission Control House, an exception to this statement.)
- The cost of certain transmission assets may be allocated to generating units being constructed. The transmission assets will be classified as transmission but will be recorded at \$0 cost.

See below for detailed discussion and definitions.

# **Definitions:**

<u>Generator owner</u> – The owner of the generating unit being constructed. LG&E and KU are generator owners. The generator owner could be solely LG&E or KU or the generating unit could be jointly owned by LG&E and KU as in the case of Cane Run 7 Combined Cycle CT (CR 7) and Trimble County Unit 2 (TC 2).

# (Note: Text in italics indicates a key SOX control.)

<u>Transmission owner</u> – The owner of transmission assets such as substation equipment, the substation control house and transmission lines connected to a generating unit. LG&E and KU are transmission owners.

<u>Generator Interconnection</u> – The connection between a generating station (example: CR 7) and the related transmission assets.

In 2003, FERC Order No. 2003 was issued that required a major overhaul of the FERC Approved Pro-Forma Open Access Transmission Tariff (OATT), specifically the Generator Interconnection Agreement (GIA). Order No. 2003 more specifically distinguished which transmission assets, determined necessary for a Generator Interconnection (GI), would be paid for by the generator owner vs. the transmission owner. Order No. 2003 also determined who (the generator owner vs. the transmission owner) would ultimately own, operate, and maintain those assets after installation. Functional classification among FERC plant accounts for new transmission facilities constructed in connection with a generating facility after 2003 is in accordance with Order No 2003.

A different GIA exists for each GI installed post the 2003 Order and each pre-2003 generator required to make a GI request thru the OATT for changes to the interconnection or its capability. Each GIA may contain different terms and as a result FERC functional asset classification and asset ownership between LG&E and KU may not be consistent among transmission assets.

The GIA identifies three groups of assets for functional classification. The groups and their functional groupings are identified below.

<u>Generator Interconnect Facilities</u> - Requirements of the GIA specify that the following assets will be classified as generation assets and recorded in the appropriate generation plant accounts.

Generator Assets - All assets on the Generator side of the Point of Interconnection (POI)

- Generation Step Up Transformer (GSU)
- Generator Sync Breakers
- Lines
- Insulators
- Structures
- Foundations
- Right of way
- Land

# (Note: Text in italics indicates a key SOX control.)

Assets in this category are owned jointly in accordance with the established ownership percentages for CR 7 and TC 2.

<u>Transmission Interconnection Facilities</u> – Requirements of the GIA specify that assets from the POI to the "Transmission Owner's" (TO) network facilities are transmission assets. In accordance with the GIA, the following types of assets will be classified as transmission assets and recorded in the transmission plant accounts.

Transmission Interconnection Assets - from the POI to the TO's network facilities

- 3Phase take off structures (structures, insulators, foundations, and associated equipment)
- Generator breakers
- Generator breaker switches
- Structures, insulators, foundations, and other associated equipment for the above three items
- Controls for the switches and breaker
- Breaker panel in control house
- Wiring for breaker panel to and in the control house

For example, since CR 7 and TC 2 are located in LG&E's service territory and the current transmission assets are owned by LG&E, it is determined that LG&E is the transmission owner. For CR 7, these transmission assets will be recorded at \$0 as the CR 7 generation owners/projects (LG&E-22%~KU-78%) will fund these assets as a contribution in aid of construction. The contribution dollars will be accounted for on the CR 7 generation projects as a spread cost and will be allocated over the generating assets being constructed. As the "transmission owner" LG&E will be the sole owner of these transmission assets (which are valued at \$0). Subsequent improvements made to these assets will be 100% funded by LG&E as the transmission owner and the costs will be added to the transmission accounts and not spread over generation assets. Note: Recording these transmission assets for CR 7 initially at \$0 is a departure from previous practice as well as the Code of Federal Regulations 18 Part 101 Electric Plant Instructions. However, Troutman Sanders LLP (on behalf of LG&E/KU) held a conversation with FERC which resulted in FERC's agreement that it is permissible to record these assets as spread costs over the generation assets being constructed and be treated as \$0 transmission assets as described in the preceding paragraph. The TC 2 GIA agreement did not specify that any of these assets would be funded by the generation owner, therefore, all TC 2 transmission assets are recorded at full cost.

<u>Network Facilities</u> - Requirements of the GIA specify that assets after the point of interconnection, such as transmission substation equipment, the substation control house and

# (Note: Text in italics indicates a key SOX control.)

transmission lines, are transmission assets. Assets deemed to be network transmission assets for CR 7 and TC 2 will be owned by the TO, LG&E, at 100% of the cost to construct. The cost to build and decommission network facilities upgrades will be paid for by the TO. A description of assets that could be in this grouping follows:

- i. Substation -
  - Tie breakers, line breakers, transformers and other substation assets.
  - Control house (only the generator breaker control panel will NOT be a network upgrade-per interconnection facility paragraph above).
  - Wiring to and from all breakers, associated equipment, and control house (minus that specific to the generator breaker and control panel-per interconnection facility paragraph above).
  - Land on which the substation is built will be wholly owned by the TO, LG&E.
- ii. Lines
  - Transmission line assets between the Companies are determined based on the territory in which they lay. However, if a line spans across LG&E and KU territories, the interconnection point between LG&E and KU will be determined by LG&E/KU Transmission department. This interconnection point will determine the ownership and asset allocation.
- iii. Other network upgrades (as identified in GIA OATT Studies)

# Transmission Mobile Control House:

In 2018, a prefabricated transmission control house was procured. This mobile control house can be quickly deployed to restore a sufficient level of transmission protection and control in the event of a catastrophic event. Since this mobile control house can be deployed to either LG&E or KU, it was determined that it would be jointly owned (KU-66% ~LG&E-34%). Joint ownership was based on the Transmission Coordination Agreement in effect in 2018.

# Brown Solar distribution assets:

The E.W. Brown Solar plant is a 10MW solar powered GI, which began operation in June 2016. Brown Solar is jointly owned (KU-61%~LG&E-39%). Brown Solar contains both generation assets and distribution assets as determined by the Vice President-Power Production and Vice President-Electric Distribution. Per the OATT, the distribution assets shall be treated as interconnect assets and accounted for similar to the transmission interconnect assets at CR 7. (See immediately preceding section for discussion on CR 7 interconnect assets.) The distribution assets consist of a transformer, switchgear, poles, conductor and other assets associated with distribution operations. Since Brown Solar is located in KU's service territory and the current distribution assets are owned by KU, it is determined that KU is the distribution owner. These

# (Note: Text in italics indicates a key SOX control.)

distribution assets will be recorded at \$0 as the Brown Solar generation owners/projects (KU-61%~LG&E-39%) will fund these assets as a contribution in aid of construction. The contribution dollars will be accounted for on the Brown Solar generation projects as a spread cost and will be allocated over the generating assets being constructed. As the "distribution owner" KU will be the sole owner of these distribution assets (which are valued at \$0). Subsequent improvements made to these assets will be 100% funded by KU as the distribution owner and the costs will be added to the distribution accounts and not spread over generation assets.

#### Simpsonville jointly owned assets:

Two separate facilities are located at the jointly owned Simpsonville, Kentucky site:

- 1. A combined Transmission Control/Information Technology (IT) Data Center
- 2. A Distribution Control Center (DCC)

Simpsonville's **Transmission Control/IT Data Center** assets will be split on a functional basis based on square footage occupied by each function as follows:

Location:	Transmission %	<u>IT %</u>
Simpsonville-Trans Con/IT Data Cente	r 52	48

Ownership of infrastructure assets (example: roof, HVAC, driveway) at Simpsonville's Transmission Control/IT Data Center will first be split functionally per the ownership percentages above. Ownership of the functional assets will then be further split between LG&E, KU and LG&E & KU Capital LLC (LKC) based on the following ownership percentages, which were established at the time of original construction based on the CAM:

		Ownership:	
Location:	<u>LG&amp;E %</u>	<u>KU %</u>	LKC%
Simpsonville-Transmission Control	30%	70%	
Simpsonville-IT	52%	47%	1%

In 2018, a capital allocation rule was set up for use on Simpsonville infrastructure projects. The capital allocation rule is based on the same ownership percentages for Simpsonville as stated above. LKC's ownership portion in the two-step capital allocation rounded down to zero, so it was decided LKC would no longer share ownership on infrastructure projects going forward. The ownership percentages in the capital allocation rule are as follows:
#### (Note: Text in italics indicates a key SOX control.)

	Owner	<u>ship:</u>
Location:	<u>LG&amp;E %</u>	<u>KU %</u>
Simpsonville-Transmission Control	16%	36%
Simpsonville-IT	25%	23%

Ownership percentages for asset purchases made for non-infrastructure assets will be established at the time the project is initiated/approved and must be documented on the AIP. The ownership percentages will be based on the applicable CAM ratios in effect at the time the AIP is completed.

Exceptions:

- 1. <u>Simpsonville Infrastructure assets \$10,000 or less</u>: For infrastructure asset projects whose cost is estimated at \$10,000 or less, the assets will be classified as Transmission Control assets and owned by KU (as the majority owner). The cost to establish amounts less than \$10,000 does not justify the processing time required to split the assets functionally between Transmission Control and IT and between companies.
- 2. <u>Simpsonville Infrastructure assets between \$10,001 and \$50,000</u>: For infrastructure assets between \$10,000 and \$50,000, the assets will be classified as Transmission Control assets and jointly owned by KU (70%) and LG&E (30%) based on the original ownership of the facility. The cost to establish these assets does not justify the processing time required to split the assets functionally between Transmission Control and IT.

Ownership of infrastructure assets at Simpsonville's **DCC** are as follows:

Location:	<u>LG&amp;E %</u>	<u>KU %</u>
Simpsonville-DCC	42	58

Joint ownership was based on the Number of Customers – Electric only ratio in effect at the time of construction.

Ownership percentages for asset purchases made for DCC non-infrastructure assets will be established at the time the project is initiated/approved and must be documented on the AIP. The ownership percentages will be based on the applicable CAM ratios in effect at the time the AIP is completed.

Exceptions:

**Simpsonville DCC Infrastructure assets \$10,000 or less:** For infrastructure asset projects whose cost is estimated at \$10,000 or less, the assets will be owned by KU (as the majority owner) for administrative efficiencies.

(Note: Text in italics indicates a key SOX control.)

## South Service Center Engineering jointly owned assets:

In 2020, Electric Distribution Operations (EDO) began construction of a new building on the existing LG&E owned land at South Service Center. The new facility will be constructed on an approximate 2.3-acre section of land and will accommodate the office space needs of EDO engineering, design, analytical, and administrative positions. This facility will be jointly owned by both companies (KU-57% / LG&E-43%) since it will be newly constructed (as opposed to an existing building already owned solely by LG&E) and will support the engineering needs of both LG&E and KU. Joint ownership was based on the Electric Distribution assets ratio in effect at the time of construction. The land under the facility, which was originally solely owned by LG&E, will ultimately be owned jointly by both LG&E and KU.

Purchases for infrastructure assets at the South Service Center Engineering facility made subsequent to construction will maintain the same ownership percentages (KU-57% / LG&E-43%). Ownership percentages for asset purchases made for non-infrastructure assets made subsequent to the original construction will be established at the time the project is initiated/approved and must be documented on the AIP. The ownership percentages will be based on the applicable CAM ratios in effect at the time the AIP is completed.

The original building at SSC will continue to be solely owned and used to support LG&E.

## Other jointly owned assets:

The Company purchases assets including software, hardware, telecommunications equipment and generation services equipment (scanners, plotters, etc.) that benefit the customers or shareholders of multiple companies. Ownership percentages for these asset purchases will be established at the time the project is initiated/approved and must be documented on the AIP. The ownership percentages will be based on the applicable CAM ratios in effect at the time the AIP is completed.

## Allocation of costs on financial records for jointly owned and jointly used assets:

Capital projects will be established on the financial records of each company with an ownership interest. Capital costs must be charged to the applicable projects based on the applicable ownership percentages. The purchase of any jointly owned and jointly used assets must be made on separate projects. Purchases for jointly owned and jointly used assets will not be allowed under blanket or other miscellaneous type projects. It is the responsibility of Budget Coordinators to monitor the actual charges to projects to ensure the appropriate ownership percentages are being maintained and to make corrections as necessary.

#### (Note: Text in italics indicates a key SOX control.)

<u>LG&E Building Furniture jointly owned assets</u>: As part of the LG&E building remodeling project commencing in 2013, new furniture is being purchased. This furniture and subsequent furniture purchases made (regardless of floor) will be jointly owned in accordance with the applicable CAM ratios in effect at the time the AIP is completed. The 2013 furniture purchase is jointly owned by LG&E, KU and LKS.

#### **General Information:**

All capital charges are considered direct charges for purposes of classification on the FERC Form 60.

Effective August 1, 2013, IT and other similar assets purchased by LKS that are jointly owned by both regulated and nonregulated entities should charge LKS rather than LKC for the nonregulated portion. Depreciation expense associated with the assets capitalized on LKS will then be charged back to LKC as rent expense in entirety.

The "LKE capital allocation" process allows for the charging of all expenditures on jointly owned assets to a single project ("source"). Source projects will be on the Company paying the bill regardless of ownership percentages. Charges are then allocated programmatically from the "source" project to a "target" project(s) based on ownership percentages as part of the monthly financial close. The use of the LKE allocation assures that the proper CAM allocation methodology is being used. See Appendix A for illustrations of this process.

Please note that any document (requisition, purchase order, invoice, journal, etc.) for non-labor transactions (excluding expense reports) needs to be processed by and/or have an expenditure org that is owned by the same company that owns the LKE source project. The only exception are projects being charged by LG&E or KU telecommunications personnel or any other valid exception as identified by Corporate Accounting. For example, if the project was created using an LKS organization, then the document needs to be processed using a SERV responsibility and/or expenditure org. If the project is created using an LG&E organization, then the document needs to be processed using a SERV responsibility and/or expenditure org. This is to ensure that the intercompany receivable and payables relationship is correctly identified when the LKE allocation transaction is processed.

As projects are unitized, Property Accounting will check project charges to ensure the appropriate ownership percentages are being maintained. Corrections will be required for any per company variance of \$10,000 **and** where the actual ownership charges differ from the ownership allocation on the AIP by more than .99%.

## (Note: Text in italics indicates a key SOX control.)

Note: The ownership percentages established above will be used on a go-forward basis with the effective date of this policy.

Note: Actual ownership percentages found in PowerPlan may not be exactly as stated in this policy due to the following reasons:

- 1. Assets under \$25,000 (for generation) and \$10,000 (for non-generation) are not split between companies, but rather the entire amount is recorded on the company with the largest ownership percentage.
- 2. Past practice (prior to mid-2011) has been to review the project charges to ensure the ownership percentages have been materially correct. The final ownership percentages may not have been **exactly** correct, but are materially correct and will not be adjusted.

#### Reports Generated and Recipients:

- LG&E and KU Plant reports
- Net book value reports generated on an as needed basis from PowerPlan

## Additional Controls or Responsibility Provided by Other Procedures:

• Budget Coordinators, Financial Planning personnel and Accounting Analysts review AIPs to confirm joint use and jointly owned assets will be capitalized with the correct ownership percentage on the appropriate LKE entity.

## Regulatory Requirements:

All of the following entities require that no subsidization occurs between the regulated utilities or their affiliates:

- Kentucky Public Service Commission
- Virginia State Corporation Commission
- Federal Energy Regulatory Commission

## **Reference:**

- Code of Federal Regulations 18 Part 101 Electric Plant Instructions
- Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 360 Property, Plant and Equipment
- FASB ASC Topic 980 Regulated Operations

**Key Contact:** Manager, Property Accounting

#### Administrative Responsibility:

Director, Accounting and Regulatory Reporting

Date Created: 3/21/12 Dates Revised: 10/21/13; 5/15/15; 3/02/16; 9/1/16; 4/4/18, 5/11/20 LKS (LG&E and KU Services Company) owns a piece of the project and SERVCO is paying the bills.

	IT Pro	jects,	/LG&E	Building	furniture:
--	--------	--------	-------	----------	------------

3	Dr.		0100	107001 (CWIP)	0020	\$ 52		LG&E Target
4	Dr.		0110	107001 (CWIP)	0020	\$ 46		KU Target
-		Cr.	0020	184xxx (LKE Clearing)	0000		\$ 98	-

Intercompany created when target transactions transferred to GL (note these would be in 2 batches)

5	Dr.		0020	146100 (Intercompany)	0100	\$ 52		Batch 1
		Cr.	0100	146100 (Intercompany)	0020		\$ 52	-
								-

6	Dr.		0020	146100 (Intercompany)	0110	\$ 46		Batch 2
		Cr.	0110	146100 (Intercompany)	0020		\$ 46	-

Reason for using 184xxx account: Every transaction has to have 2 accounts associated with the entry. The "charge" account and the "clearing" account. The use of the 184xxx allows us to use it as the "charge" when we reverse the original transaction (the clearing account for the reversal is the account charged in the original transaction) and it is used as the "clearing" account on the target expenditure (the "charge" for the Target expenditure is the account used on the target task). The net effect is zero. There should never be balance at month end for the 184xxx account.

#### Description of when this type of allocation would be used:

LKS (LG&E and KU Services Company) pays the bills; assets are owned by LG&E, KU and possibly LKC (Simpsonville II only). LKS has no asset ownership.

IT Projects/LG&E Building furniture:

6	Dr.		0020	146100 (Intercompany)	0110	\$ 48		Batch 2
		Cr.	0110	146100 (Intercompany)	0020		\$ 48	-

Reason for using 184xxx account: Every transaction has to have 2 accounts associated with the entry. The "charge" account and the "clearing" account. The use of the 184xxx allows us to use it as the "charge" when we reverse the original transaction (the clearing account for the reversal is the account charged in the original transaction) and it is used as the "clearing" account on the target expenditure (the "charge" for the Target expenditure is the account used on the target task). The net effect is zero. There should never be balance at month end for the 184xxx account.

		Cr.	0110	146100 (Intercompany)	0100		\$ 81	_

Reason for using 184xxx account: Every transaction has to have 2 accounts associated with the entry. The "charge" account and the "clearing" account. The use of the 184xxx allows us to use it as the "charge" when we reverse the original transaction (the clearing account for the reversal is the account charged in the original transaction) and it is used as the "clearing" account on the target expenditure (the "charge" for the Target expenditure is the account used on the target task). The net effect is zero. There should never be balance at month end for the 184xxx account.

(Note: Text in italics indicates a key SOX control.)

#### **Policy:**

LG&E and KU Energy LLC and its subsidiaries ("LKE" or the "Company") will timely and accurately record contract retainage amounts.

## **Procedure:**

The Company routinely enters into agreements with vendors to perform contract work or to purchase materials or equipment. Generally these agreements provide for the Company to withhold amounts (usually 10%) from payments as contract retainage to ensure work performed or materials received complies with contract provisions. Contract retainage can be used on various types of contracts, but generally is used for capital projects. Contracts should clearly state that retainage amounts are identified separately on invoices. The contract retainage must be recorded to the designated current or noncurrent general ledger account based on the estimated timing of the payment of the retainage amounts to the vendors.

#### Scope:

The policy applies to contracts that contain contract retainage terms.. This policy follows the same thresholds outlined in Accounting policy 751 – Manual Accruals.

## **Objective of Procedure:**

The procedure will ensure that contract retainage is accounted for and reported accurately and recognized in a separate general ledger account for current and noncurrent financial reporting.

## **General Requirements:**

## Detailed Procedures Performed:

Generally contract retainage is used on construction projects and major equipment purchases with progress payments in advance of the project being completed or receipt of the equipment. Retainage can also be used on contracts for professional services.

Upon execution of a contract containing retainage, personnel with knowledge of the language (up to and including Supply Chain, Commercial Operations, the Project Engineering Contract group and Operations management) must notify the Budgeting/Accounting manager or analyst for their respective areas of responsibility to ensure retention is properly accrued. The designated Budgeting/Accounting group will accrue the invoices via a journal entry and record the retainage

(Note: Text in italics indicates a key SOX control.)

to account 232030 for current and 253042 for noncurrent. The accruals are reversed when the invoices are received and entered into the Oracle Accounts Payable system for payment.

Coordination between Budget/Accounting analysts, Procurement and Accounts Payable is required to ensure proper accounting treatment. The project will be debited to CWIP 107001 for the work being performed that includes the retainage and the current retainage withheld account 232030 is credited for the amount withheld. Retainage expected to be paid within 12 months is classified as current on the balance sheet and recorded in account 232030 Retainage Fees. Retainage that is not expected to be paid within 12 months is classified as noncurrent on the balance sheet and recorded in account 253042 Long Term Retainage. The classification of the balances in current and noncurrent must be monitored monthly by the designated Accounting/Budget Analyst and adjusted as appropriate based on the estimated timing of payment.

The contract retainage is paid to the contractor upon satisfactory completion of the contract work or receipt of satisfactory product or materials. In the case of a contract dispute, the contract retainage must be cleared in the final settlement with the contractor. Any portion of the retainage not paid is credited to the account which was originally charged when the retainage was withheld.

In the case of capital projects, the disposition of contract retainage should generally be completed before the capital project is unitized.

The designated Accounting Analyst responsible for the reconciliation of the retainage accounts must obtain and review a monthly list of all contracts that include retainage to be used as support for the monthly balance sheet reconciliation for accounts 232030 and 253042. This list is prepared by the designated Budget Analyst responsible for the capital projects with retainage and includes the vendor, project number, project name, contract term, estimated in-service date, estimated payment date, gross invoice amount, retainage amount, and net invoice amount. The designated Budget Analyst discusses any contracts containing retention clauses with the appropriate contract administrator / contract manager/operations manager for their respective area of responsibility. The review will include when and how retainage is to be released based on the terms of the contract in order to avoid any misinterpretation. The list must accurately classify the current and noncurrent portions of retainage amounts. The Accounting Analyst reviews each contract to determine that the retainage amounts are correctly classified (current vs. noncurrent) and compares the estimated in-service date to the estimated payment date for reasonableness. When and how the retainage is to be released will be included in the balance sheet account reconciliation prepared by the Accounting Analyst to support understanding of the activity in the account.

**Policy:** This policy covers the processes and procedures for calculating and monitoring the burdens associated with labor related costs, warehouse costs and capital in Oracle.

**Procedure:** Labor related costs, warehouse and capital burdens are calculated annually as part of the budget process. These rates are entered in Oracle Project Accounting. Oracle delivered burden functionality is used to allocate these costs to the appropriate projects and tasks. The allocation is based on a combination of account, expenditure organization and expenditure type. Balances in the burden clearing accounts are monitored during the year (at least quarterly) and rates are adjusted, as needed. Rates are updated at year end to ensure that all burdens have been allocated to a project and task. A custom program sends the burden components to the General Ledger to the correct code combination, including changing the account and expenditure type. The account segment values are derived from lookups that are maintained in the Oracle flex value set, GBLPA\_Burden\_Component\_Lookup.

**Scope:** This policy covers all labor related costs including benefits, off-duty, team incentive award (TIA) warehouse burdens and payroll taxes. Engineering overheads and general and administrative expense for capital are also included. It covers LG&E and KU Energy LLC ("LKE") and its subsidiaries and includes:

- 1) Oracle Methodology and Functionality
- 2) Calculating Rates
- 3) Process of Monitoring Clearing Account Balances
- 4) Sending Burdens from Project Accounting to the General Ledger
- 5) Year /End True-up

**Objective of Procedure:** The objective of the burden process is to accurately allocate the labor related costs, warehouse costs, and capital burdens to the appropriate companies and accounts in a reasonable and consistent manner. The process allocates labor burden cost associated with capital and balance sheet accounts and certain components on income statement accounts to each functional area so that managers get a more accurate picture of the total cost of operating their business. Labor burdens on income statement accounts excluding the vacation, holiday, other off-duty, sick, and accrued TIA burden components are accumulated at the corporate cost center, and the functional departments are not held responsible for their control. Warehouse overheads are allocated to the functional departments.

(Note: Text in italics indicates a key SOX control.)

## **General Requirements:**

Detailed Procedures Performed:

## **Oracle Methodology and Functionality**

The Oracle burdening process for actual charges occurs in the Project Accounting module. A custom process sends the burden components to the General Ledger in the detail necessary for management reporting. The delivered burden functionality in Oracle is based on the creation of burden structures and burden schedules. As transactions are processed in Projects, the raw dollar amounts are entered, the system calculates the burden, adds the amount to the raw cost and stores the raw amount and a burdened amount.

- 1) Each account in the General Ledger is assigned to a specific burden structure. When new accounts are added to the General Ledger, a burden schedule must be assigned to the account. This assignment is included on the GLAFF Change Request Form for the Account segment and is approved by the list of individuals who are responsible for reviewing and approving GLAFF change requests
- 2) Four burden structures:
  - A) Bal Sheet (Excl Cap/Clearing)
  - B) Capital
  - C) OM/Clearing/Below the Line
  - D) Zero
- 3) Before a structure can be entered in Oracle, each burden cost component and each burden cost base used in the structure must be defined. A burden cost component is the type of burden to be allocated to each project / account. Benefits, off-duty, TIA and payroll taxes (see Burden Calculation section below for complete list) are allocated based on labor. In addition to the labor burdens, warehouse costs are allocated to each inventory issue. For capital and balance sheet accounts, a portion of administrative and general expenses are allocated. For capital only, engineering overheads are allocated.

A cost base is the criterion used to identify which source transaction the burden cost component will be applied. The cost base has been designed using the expenditure types.

**COST BASE** Straight-time Straight-time special **EXPENDITURE TYPE** 0101, 0110, 0115, 0120, 0125 0102

(Note: Text in italics indicates a key SOX control.)

**EXPENDITURE TYPE** 

#### COST BASE

Overtime	0111, 0112, 0121, 0126, 0127, 0131, 0146
Other	0130, 0145, 0148, 0151, 0152, 0153
Warehouse Generation – KU	0280, 0452, 0453
Warehouse Trans/Dist – KU	0281,0451,0454
Warehouse Generation – LGE	0285, 0455, 0457
Warehouse Trans/Dist – LGE	0286, 0456, 0458
Non-labor	0301-0699

(There are a few expenditure types within the non-labor range that do not get burdened. Nonlabor expenditure types are only potentially burdenable on capital and other balance sheet accounts. Refer to Chart of Accounts>Expenditure type on Controller Intranet team site for listing of expenditure types that are not burdened.)

- 4) The burden structures are used to relate the burden cost components to the burden cost bases. The system uses the structures to determine which burden cost components should be applied to each burden cost base.
- 5) A burden schedule must be created and assigned to each structure. The schedules are used to enter the burden percentage rates. These rates are used to calculate the amount to be added to the raw cost for each burden cost component. The rates are effective based on the effective dates of the schedules. The burden schedules are effective at the beginning of a month. There can be multiple rates for each component based on the expenditure organization on the transaction. For most components, the rates are calculated at the company level.

## **Calculating the Rates**

The rate for each burden component is calculated each year as part of the budget process. Rates are calculated for each company.

Requests are sent to the appropriate person to develop an estimate of the amount for each burden component.

Burden cost components include the following:

<b>Burden Cost Component</b>	Department Responsible for Developing

Calculating the burden components:

• The Regulatory Accounting and Reporting department obtains information on current staffing levels, vacation entitlements and average hourly rates by expenditure

(Note: Text in italics indicates a key SOX control.)

organization and by employee type from the HR PeopleSoft system. This information is then uploaded into PowerPlan and used to estimate the labor base for allocating the burden costs. Using the wage increase assumption from Compensation, the labor base is adjusted to estimate the amount of labor dollars that will be the base of the burden calculation. The estimate for each burden cost component is divided by the appropriate labor base to calculate the percentage for each company. Labor burden clearing accounts are zeroed out at the end of the year, with burden components having target balances not equal to zero being moved to liability accounts monthly.

- Warehouse burdens using the balance in the burden clearing account, the estimated charges to those accounts and forecasted costs of purchased materials, budgeting and accounting analysts calculate a ratio to allocate the cost in the clearing accounts to the withdrawals from inventory and purchased materials. These accounts are not zeroed out at the end of the year.
- Administrative and General Expense is an allocation from O&M to capital. This burden allocates labor and expenses of employees that support the capital process but do not work directly on a particular capital project. (Ex: Property Accounting and Budget Analysts working on capital budgets.) A survey is sent by the Regulatory Accounting & Reporting department to employees periodically to see how much of their time is spent supporting capital projects. Using these results, an estimate to the total dollars that should be capitalized is calculated. This amount is then provided to the Regulatory Accounting and Reporting department to be divided by the estimated amount of raw capital dollars (labor and non-labor) to develop the rate.
- Engineering Overheads using the balance in the engineering overhead clearing account and the estimated charges to those accounts, the budgeting personnel calculate the burden rate to allocate the balance in this account to capital projects. They also must estimate the amount of raw capital dollars that will be spent. The account balance at year-end in these accounts are reclassified to capital via a reversing journal entry at the end of the year.
- After management review, the rates are given to Corporate Accounting to be updated in OEBSPROD. The Oracle system will automatically apply burdens to projects and tasks based on the burden rates, expenditure organization and expenditure type.

## **Process of Monitoring Clearing Account Balances**

Periodically during the year, Regulatory Accounting and Reporting will analyze the balance in each labor burden clearing account. Revised estimates of the burden cost components and the labor bases are calculated as needed and the burden rates will be revised as necessary. This review is done at least quarterly. The rates are adjusted when any of the estimates change

#### (Note: Text in italics indicates a key SOX control.)

significantly. All labor rates are revised in December. Rates are always changed effective the first day of the month.

Accounting personnel monitor the balances in the non-labor burden clearing accounts via the balance sheet reconciliation process and make any needed rate adjustments prospectively, effective the first day of a future month.

#### Sending Burdens from Oracle Project Accounting to the General Ledger

The burden process was implemented in Oracle Project Accounting to apply the burdens to raw cost and to store raw cost and burdened cost on the same transaction. A custom program was developed to change the account and expenditure type on the burden transaction before it is posted in the General Ledger. This process uses a flex value set in Oracle to provide the correct debit and credit entry to be made in the General Ledger for combination of project, task, account, burden cost component and company. If a new company or burden cost component is added, then this table must be updated.

A concurrent process is run, as needed, to send the summarized Oracle Project Accounting burden amounts to the General Ledger. This process is run throughout the month and on Days 1, 2, and 3 of the monthly close cycle.

#### Year-end True-up

After all the labor has been posted for the year, the Corporate Accounting department will run EiS queries to obtain the appropriate labor base for December and the balances in all the burden clearing accounts. The Regulatory Accounting and Reporting department uses the information from these queries to calculate the rates that are needed to ensure that all burdens are allocated to a project and task. The Corporate Accounting department will enter the revised percentages in the Oracle burden schedules and recalculate all the burdens for the month. All these changes in the burden amounts are sent to the General Ledger. The Corporate Accounting department works with the Regulatory Accounting and Reporting department to ensure the balances in the clearing accounts are minimal, and the components with target balances have previously been reclassified to a liability. Any small remaining amounts are expensed to the corporate cost center.

**Policy:** The inventory of LG&E and KU Energy LLC and its subsidiaries (LKE) must be reviewed on a regular basis to verify that it is accounted for in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 330, Inventory.

**Procedure:** Review and analyze LKE inventory to determine whether inventory is properly accounted for and valued appropriately.

**Scope:** All LKE inventory.

## General Requirements:

Stock material and supplies on hand must be treated as Inventory based on ASC 210, Balance Sheet, and ASC 330, Inventory. This guidance states that since materials and supplies are assets of the Company and have future economic benefit, the value of these assets must be included on the financial statements.

The Federal Energy Regulatory Commission (FERC) provides guidance on the proper valuation of inventory assets at 18 CFR Ch. 1, Pts. 101 & 201 for FERC Account No. 154. FERC states that materials and supplies inventory must be valued at:

- 1) Original cost for new, and estimated if not known, for large reusable items
- 2) Current price, if the reusable item is relatively small and the original installed value cannot be easily determined
- 3) The net realizable value, for scrap and nonusable material

#### Classification of Inventory

Materials and Supplies inventory should consist of the following:

- Stock Items Inventory that has a specific, anticipated or generic use for the Company and can be tracked at individual locations (i.e. min/max...etc.). This should exclude items classified as Excess or Obsolete which is detailed in the Corporate Inventory Management Policy.
- 2) Emergency Spares a spare part or spare equipment that is directly related to a particular piece of equipment and is required in order to avoid substantial operational time loss caused by emergency failure and is not readily available from a vendor or manufacturer without special ordering. This item is required to directly mitigate an emergency.

#### Physical Inventory Count

A complete physical inventory of materials and supplies inventory must be conducted at least every two years as required by FERC at 18 CFR Ch.1, Pts. 101 & 201, FERC Account No. 163. Although regulations only require inventory to be counted every two years, it is recommended that

#### (Note: Text in italics indicates a key SOX control.)

inventory be counted more often, close to once a year, to improve overall inventory accuracy (see the Company's Inventory Management procedures).

A coal stockpile inventory assessment will be conducted annually (See Corporate Fuels and By-Products Policies and Procedures).

Inventory Costing and Accounting

FERC Account Nos. 151, 154, and 164.1: Fuel, Materials and Supplies, and Underground Gas Storage

Cost of inventory items must include the following cost when it can be directly identified with an item (in accordance with FERC at 18 CFR Ch. 1, Ferc Account Nos. 151 and 154).

- a) Invoice price of fuel/materials less cash or other discounts.
- b) Freight, switching or other transportation charges when practicable to include as part of the cost of particular materials to which they relate.
- c) Customs duties and excise taxes.
- d) Operating, maintenance, and depreciation expenses and ad valorem taxes on utilityowned transportation equipment used to transport fuel; Costs of inspection and special tests prior to acceptance for materials and supplies.
- e) Lease or rental costs of transportation equipment to transport fuel; Insurance and other directly assignable charges for materials and supplies.

Note: When materials and supplies are purchased for immediate use, or for a unique scope of work, they need not be carried in inventory but may be charged directly to the appropriate utility plant or expense account (Project/Task). Defined types of purchased materials are burdened with stores expense since there is oversight by warehouse supervision and physical material handling even though the items are not placed in inventory due to their immediate use. The following expenditure types are used for these types of purchased materials:

- 0451 PURCHASED MATERIAL TRANS. AND DISTRIB KU
- 0452 PURCHASED MATERIAL GENERATION KU
- 0455 PURCHASED MATERIAL GENERATION LGE
- 0456 PURCHASED MATERIAL TRANS. AND DISTRIB LGE

See Accounting Policy 954 – Coal Inventory Valuation for fuel inventory valuation procedures.

163001 and 163011 Stores Expense Undistributed or Clearing Account:

Stores expense accounts are divided between line of business support groups (163001 Transmission & Distribution and 163011 Generation)

#### (Note: Text in italics indicates a key SOX control.)

Page 3 of 4

Stores expense accounts will be cleared by adding to the cost of materials and supplies issued or purchased by applying an appropriate loading charge which will distribute the expense equitably over all inventory material issues and defined types of purchased materials. The balance in the account at the close of the year must not exceed the amount of stores expenses reasonably attributable to the inventory of materials and supplies.

Items included in stores expense accounts shall include the cost of supervision, labor and expenses incurred in the operation of general storerooms, including purchasing, storage, handling and distribution of materials and supplies. Sales tax related to the inventory and defined purchased material is also included in stores expense accounts. (See 18 CFR Ch. 1, Pts. 101 & 201 at FERC Account No. 163 and Inventory Management Procedures for other stores expense cost items.)

#### Additional Controls or Responsibility Provided by Other Procedures:

The management of materials and supplies inventory is the responsibility of the Director, Power Generation Commercial Operations and the Director, Supply Chain and the detailed procedures are included in the Corporate Inventory Management policy and Inventory Management procedures.

The management of fuel and other by-products inventory is the responsibility of the Director, Corporate Fuels and By-Products and the detailed procedures are included in the Corporate Fuels and By-Products Policies and Procedures.

Regulatory Accounting and Reporting's responsibilities include monitoring the balance in the stores expense account to ensure the balance in the account at the close of the year will not exceed the amount of stores expenses reasonably attributable to the inventory of materials and supplies and working with Materials Serv & Logistics and Generation/PE & Safety Budgeting to resolve any unexpected balances.

**Regulatory Requirements:** 18 CFR Ch. 1, Pts. 101 & 201

#### Administrative Responsibility:

Director, Accounting and Regulatory Reporting

Revision: 4/07/08, 3/22/11, 9/22/11, 6/2/15, 3/22/16, 9/12/17, 9/1/2020

## (Note: Text in italics indicates a key SOX control.)

## **Policy:**

This policy sets standards and procedures for developing and maintaining controls related to spreadsheets. It provides criteria for evaluating the required spreadsheet controls and the appropriate procedures for changes and testing of changes to established spreadsheets.

## **Procedure:**

The procedures for evaluating, controlling, changing and testing the spreadsheets are described in the detailed instructions below.

#### Scope:

This procedure applies to all spreadsheets used for accounting or financial reporting purposes.

#### **Objective of Procedure:**

This procedure is to ensure consistent and accurate control of all spreadsheets used for accounting or financial reporting purposes. In addition, this procedure is to ensure that all critical accounting spreadsheets are evaluated to determine whether spreadsheet controls are required and tested whenever changes to the spreadsheet occur. The purpose is to ensure accuracy of the spreadsheets.

#### **General Requirements:**

The recommended minimum spreadsheet controls require testing after changes are made to a critical accounting spreadsheet.

#### Detailed Procedures Performed – (Risk identification):

After development, a new spreadsheet must be evaluated based on the complexity and type of use to determine the level of risk.

## (Note: Text in italics indicates a key SOX control.)

## Categorize "Type of Use"

The Pricewaterhouse (PwC) whitepaper, entitled, "The Use of Spreadsheets: Considerations for Section 404 of the Sarbanes-Oxley Act" (PwC's Guidance), defines three categories with regard to use of a spreadsheet as noted below.

**Financial:** Spreadsheets used to directly determine financial statement transaction amounts or balances that are populated into the general ledger and/or financial statements including all disclosures.

**Analytical/Management Information:** Spreadsheets used to support analytical review and management decision-making. These may be used to evaluate the reasonableness of financial amounts.

**Operational:** Spreadsheets used to facilitate tracking and monitoring of workflow to support operational processes, such as a listing of open claims, unpaid invoices and other information that previously would have been retained in manual, paper file folders. These may be used to monitor and control that financial transactions are captured accurately and completely.

## **Categorize Complexity**

**High:** Spreadsheets which support complex calculations, valuations and modeling tools. These spreadsheets are typically characterized by the use of macros and multiple supporting spreadsheets where cells, values and individual spreadsheets are linked. These spreadsheets might be considered "applications" (i.e., software programs) in their own right. Also, any spreadsheet with greater than 100 rows could be considered complex. These spreadsheets are often used to determine transaction amounts or as the basis for journal entries into the general ledger or financial statement disclosures.

**Moderate:** Spreadsheets which perform simple calculations, such as using formulas to total certain fields or calculate new values by multiplying two cells. These spreadsheets might be used as methods to calculate amounts for journal entries, translate information, or analytical review and analysis.

**Low:** Spreadsheets which serve as electronic logging and information tracking systems. Low complexity spreadsheets are only operational spreadsheets.

## (Note: Text in italics indicates a key SOX control.)

## <u>Risk Level</u>

The risk associated with each spreadsheet is evaluated based on the information below. If qualitative risk is present, adjust the risk assessment accordingly.

**High risk (spreadsheet controls are required):** High risk spreadsheets are those for which the "Use" is classified as "Financial", which have the potential to affect accounts or financial reporting disclosures by an amount greater than or equal to the accounting threshold used to identify high-risk journal entries<sup>1</sup> using the lowest of the LKE registrants (see the Materiality Thresholds tab of the Waived Adjustments file) and for which the "Complexity" categorization is "High".

Includes:

- Complex calculations for journal entries
- JE-FAC file
- Spreadsheets for calculating regulatory mechanisms
- Unbilled revenue calculation
- All mark-to-market calculations

Does not include:

- Actual JE upload templates
- Account analyses
- Reconciliations

**Medium risk (spreadsheet controls may be required):** Spreadsheets may contain simple calculations. They may flow through to the financial statements and are more likely to relate to an account with less risk of material error or lower frequency of transactions. Spreadsheets used as a key control should be considered, at a minimum, medium risk.

Examples of medium risk spreadsheets include the following:

- Journal entries that foot and/or ensure debits equal credits.
- Those reviewed where reviewer should be able to pick up mathematical errors just by looking at a printed spreadsheet.
- Spreadsheets included in Sarbanes-Oxley (SOX) documentation.

Low risk (spreadsheet controls are not required): Spreadsheets that are used only for electronic logging and informational tracking.

## **Spreadsheet Controls**

<sup>&</sup>lt;sup>1</sup> This threshold is calculated annually in the first quarter based on the previous year's 10-K.

## (Note: Text in italics indicates a key SOX control.)

The spreadsheet must then be evaluated based on the complexity and risk to determine appropriate spreadsheet controls, as follows: (See cycle/transaction 80.05 Control Activity 13 in the Sarbanes-Oxley Compliance documentation.) (See Appendix C for further detail regarding the Spreadsheet Risk/Complexity Matrix). All spreadsheets should be continually monitored for compliance with regulatory and GAAP requirements.

	High Complexity Moderate Complexity		Low Complexity
High Risk	Yes	N/A	N/A
Medium Risk	Evaluate	Evaluate	N/A
Low Risk	N/A	No	No

Low Risk Spreadsheets Controls:

• **Required** - Files are stored on a shared drive or SharePoint site with limited access.

Medium Risk Spreadsheet Controls:

- **Required** Files are stored on a shared drive or SharePoint site with limited access.
- **Recommended** Files may be tested at manager's discretion; testing is documented after the file has been changed. See <u>Detailed Procedures Performed (Changes)</u>.
- **Recommended** Files may be protected at manager's discretion via Excel Protection.

Additionally, see High Risk spreadsheet controls that may be used on Medium Risk spreadsheets as deemed necessary by management.

# High Risk Spreadsheet Controls (See cycle/transaction 80.05 Control Activity 13 in the Sarbanes-Oxley Compliance documentation.):

- **Required** Files are stored on a shared drive or SharePoint site with limited access.
- **Required** Someone independent of the spreadsheet development must assess the logic at the time the spreadsheet is developed and ensure it functions as intended. Where appropriate, the logic should be documented to facilitate an efficient review of the accuracy of that logic.
- **Required** When changes occur, someone independent of the spreadsheet development must assess the logic to ensure it continues to function as intended, while considering current business circumstances, such as regulatory and GAAP requirements. Documentation of the assessments must be maintained in each department. Files must be tested, and testing must be documented after the file has been changed. See <u>Detailed</u> <u>Procedures Performed – (Changes).</u>
- **Required** Reconciliation of data performed to ensure data entry is complete and accurate.
- **Required** Validation checks on data input and calculation (including balancing, footing and cross-footing) are built into the spreadsheet or performed manually.

## (Note: Text in italics indicates a key SOX control.)

- **Required** File naming conventions must clearly indicate the date or version number. Files that are in final status must be clearly marked as such within the document (e.g., final or production).
- **Recommended** It is recommended that "Track Changes" be on when making significant changes to a spreadsheet.
- **Recommended** Files are recommended to be protected via Excel Protection
- **Recommended** Cells that contain formulas or data, which do not change frequently, <u>should</u> be protected or locked as the spreadsheet allows.
- **Recommended** The spreadsheets should be designed with a clear and self-explanatory layout.

See Appendix A for a summary of minimum recommended spreadsheet controls for each risk category.

## Detailed Procedures Performed – (Spreadsheet Inventory):

Any new spreadsheet must be evaluated to determine whether it needs to be included in the spreadsheet inventory maintained as part of the Company's internal control system.

## Include in the inventory

- 1. Spreadsheets that directly impact the financial statements, such as spreadsheets used to calculate standard journal entries.
- 2. Spreadsheets used in performing a key control in the internal control documentation, including all medium-risk and high-risk account reconciliations.
- 3. Spreadsheets supporting amounts included in the following (including all underlying monthly activity).
  - a. Covered by SOX
    - i. Quarterly and annual LG&E and KU Energy LLC (LKE), LG&E and KU financial statements, footnotes, MD&A, and other information
    - ii. Quarterly and annual PPL financial statements and footnotes
  - b. Not covered by SOX
    - i. Federal Energy Regulatory Commission (FERC) Form 1
    - ii. Kentucky Public Service Commission (KPSC) version of FERC Form 1
    - iii. KPSC version of FERC Form 2
    - iv. FERC Form 3
    - v. Monthly financial statements sent to the KPSC
    - vi. FERC Form 60
    - vii. All spreadsheets related to calculations of rates charged to customers. Some examples include the following:
      - 1. Base rates
      - 2. Fuel Adjustment Clause
      - 3. Environmental Cost Recovery
      - 4. Demand Side Management
      - 5. Gas Supply Clause
      - 6. Performance-Based Ratemaking

#### (Note: Text in italics indicates a key SOX control.)

7. Weather normalization

See Appendix B, Required Data for Spreadsheets Inventory, for a list of required data.

#### **Exclude from the inventory**

- 1. Budget-only spreadsheets.
- 2. Spreadsheets containing nothing but the journal entry template, if there are no calculations of the amounts in the journal entry.
- 3. Output of the financial system that is not used in compilation of the Company's quarterly or annual reports.
- 4. Internal management reports.

#### Detailed Procedures Performed – (Changes):

- 1. All spreadsheets that fall within the scope of internal control documentation to require spreadsheet controls must meet the minimum spreadsheet controls depending on the level of risk for the spreadsheet.
- 2. The owner of each spreadsheet is responsible for making appropriate changes to spreadsheets as necessary. Changes to the data in the spreadsheets are not considered changes to the spreadsheets; only changes to formulas, calculations, and/or anything that has an impact on the outcome of the spreadsheet are considered changes to the spreadsheets which must be documented.
- 3. Changes to formulas, macros, layout, links, queries or reports that impact the results of a high-risk spreadsheet are reviewed by a person other than the individual making those changes. The reviewer independently validates the appropriateness of the changes and verifies the accuracy and reasonableness of the results of the spreadsheet calculations and other information on the spreadsheet that will be used for financial reporting. Evidence of the review is maintained and is recommended to be stored on a separate tab within the spreadsheet.

#### Reports Generated and Recipients:

For new spreadsheet development, documentation must be created to identify the reason for the spreadsheet development, required controls and whether the spreadsheet will be included in the inventory. As part of this determination, documentation of an evaluation of the spreadsheet against all SOX criteria is necessary. This documentation may be a separate tab in each spreadsheet, a central list by department or other method, as long as the required information is maintained and able to be produced.

Documentation must be created to identify the changes that were made to any spreadsheet which has been identified as requiring testing (all High Risk and Medium Risk at manager discretion), who made the changes, the date of the changes, who reviewed/tested the changes, the steps that were taken to perform the review/test, and the date reviewed.

## (Note: Text in italics indicates a key SOX control.)

#### Appendix A

#### Minimum Spreadsheet Controls

	Risk category			
	Low	Medium	High	
Change Controls				
Version Control	n/a	Version control - controls are in place (Recommended)	Version control - controls are in place ( <b>Required</b> )	
Change Control	n/a	Basic change controls are applied (Recommended)	A standard process is applied to the development process of the spreadsheet, covering the phases requirement specification, programming, testing and maintenance. Testing comprises an inspection/review by someone other than the spreadsheet developer and should be formally documented. <b>(Required)</b>	
Archiving	n/a	Historical files maintained in segregated drive (Recommended)	Written procedures for archiving exist (Recommended)	
Documentation	n/a	n/a	Comprehensive documentation of the spreadsheet's functionality and user guidance is available <b>(Required)</b>	
Safety and Integrity Controls				
Access Control	n/a	Appropriate users have proper file and worksheet access <b>(Recommended)</b>	Strong access restrictions apply on file level (special directory with limited access to authorized people only); full access is only granted to individuals who input information directly onto the Excel spreadsheet; other individuals only have read-only access ( <b>Recommended</b> )	
Backups	n/a	Regular and timely backup (e.g. regular network drive backups) <b>(Required)</b>	Spreadsheet is saved on network drives which are subject to regular and timely back-up procedures; specific back-up procedures ensure that information is retained and stored in case that evidence is required longer, e.g. for auditors. ( <b>Required</b> )	
Data Input Control	n/a	n/a	Data input controls exist, ensuring that data is complete and accurate (Required)	
Integrated Analytic Controls	n/a	Basic spreadsheet self-checks apply <b>(Recommended)</b>	Strong validation checks on data input (batch total check), balance checks (self-balancing models), foot and cross foot checks, reconciliation controls (e.g. data download) <b>(Required)</b>	
Spreadsheet Protection Segregation of Duties/Roles and	n/a	Basic protection of formulas against unintentional changes (Recommended)	Basic protection of the spreadsheet to prevent changes to standing data, formulas etc.; the spreadsheet has a clear and self-explaining layout, e.g. variables, assumptions and flexible inputs are separate from the working area ( <b>Recommended</b> ) Segregation of duties/roles and procedures are adequately considered and implemented	
Procedures	n/a	n/a	(Required)	

#### (Note: Text in italics indicates a key SOX control.)

## Appendix B Required Data for Spreadsheet Inventory

- 1. The following defines **required** data for each spreadsheet included in the inventory. Where provided, data values must be selected from the options provided. All items are required none may be left blank.
  - 1. Cycle Name and Number (must be 10 characters and include all periods e.g., C.XX.YY.ZZ where XX is the process group, YY is the process, and ZZ is the subprocess, as in C.01.01.01)
  - 2. File Name
  - 3. File Location (full path including server and drive name not just the drive letter to which you have the drive mapped)
  - 4. Owner (Only ONE Employee Name the person responsible for updating the Spreadsheet). (Use both the first and last name of the owner.)
  - 5. Owner Dept. (Owner's Department Name) (Use full department name as there are several "Accounting" departments and some abbreviations may not be obvious.)
  - 6. Primary User (Employee Name(s) likely someone in Accounting) (List both the first and last name of the primary user(s). The user must be an employee or contractor. Third-parties (i.e., IMEA, IMPA, FERC, etc.) are not to be listed as users. Note that the user may be the owner.)
  - 7. Primary User Dept. (Primary User's Department Name (s)) (Use full department name as there are several "Accounting" departments and some abbreviations may not be obvious.)
  - 8. Description (what is calculated or the spreadsheet's purpose)
  - 9. Frequency of Changes (Daily, Weekly, Monthly, Quarterly, Semi-Annually, Annually, As Needed)
  - 10. Risk: H/M/L (H High; M Moderate; L Low). The owner and user of the spreadsheet must agree to the risk assessment.
  - 11. Type/Use: O/A/F (O Operational; A Analytical/Management Information; F Financial)
  - 12. Complexity: H/M/L (H High; M Moderate; L Low)
  - 13. Spreadsheet Controls Required? (Yes/No)
  - 14. Control Rationale (Brief explanation of decision for/against adding controls 200 characters)

#### **Policy:**

The reserve for bad debts is evaluated monthly to ensure the amounts are appropriate.

#### **Procedure:**

Reserve for retail bad debts is calculated monthly by utilizing a balance sheet approach based on an aging accounts receivable methodology. The calculation first determines the estimated monthly charge off amount based on a three-year average. The estimated monthly charge off amount based on a three-year average. The estimated monthly charge off amount is then assigned to each aging bucket utilizing a waterfall approach to determine the monthly charge off percentages for each aging bucket.<sup>1</sup> The monthly charge off percentages for each aging bucket, in order to the current period's receivable and accrued revenue balances, by aging bucket, in order to determine the bad debt reserve. Accounts with no payment activity are charged off after four months, although collection efforts continue thereafter absent a disconnection moratorium.

The reserve for wholesale and municipal customer and sundry bad debts is based on specific identification.

#### Scope:

Applicable to Louisville Gas & Electric Company ("LG&E") and Kentucky Utilities Company ("KU") retail, wholesale, municipal and sundry accounts receivable.

#### **Objective of Procedure:**

The objective of evaluating the accounts receivable reserve balances is to identify, quantify, and correct any material over or under accrual and recognize bad debt expense in the same period as the related revenues.

ASC 326 provides that an entity recognize an allowance for credit losses that results in the financial statements reflecting the net amount expected to be collected from the financial asset.<sup>2</sup>

<sup>&</sup>lt;sup>1</sup> The waterfall approach assigns the monthly charge off amount for each a ging bucket (30+, 60+, 90+, 120+, 365+) generally producing a higher charge off percentage as receivables increase in age.

 $<sup>^2</sup>$  ASC 326-20-30 provides that "The allowance for credit losses is a valuation account that is deducted from the amortized cost basis of the financial asset(s) to present the net amount expected to be collected on the financial asset. At the reporting date, an entity shall record an allowance for credit losses on financial assets within the scope of this Subtopic. An entity shall report in net income (as a credit loss expense) the amount necessary to adjust the allowance for credit losses for management's current estimate of expected credit losses on financial asset(s).

#### (Note: Text in italics indicates a key SOX control.)

It requires organizations to measure all expected credit losses for financial instruments held at the reporting date based on historical experience, current conditions and reasonable and supportable forecasts.

The guidance was issued as part of ASU 2016-13 and subsequently codified in ASC 326.

#### **General Requirements:**

#### Detailed Procedures Performed:

#### **Retail:**

- 1. Each month, the retail reserve balances for (bad debts) uncollectible accounts receivable, for LG&E and KU, are evaluated by the Revenue Accounting and Analysis department.
- 2. A historical charge off percentage is calculated by dividing the net charge offs to total sales based on a three-year average. The monthly net charge offs and total sales are accumulated on a spreadsheet using data from the following source documents under normal conditions:
  - The monthly net charge offs and forfeited discounts (late payment charges) are obtained from the Oracle Account Analysis reports for general ledger accounts 144002 (total charge offs), 144003 (total recoveries), 450001 (electric forfeited discounts) and 487001 (gas forfeited discounts), as applicable, for LG&E and KU. KU and ODP data is segregated by organization when running these reports.
  - The total sales are obtained from the "LGE CM Revenue By Comp By Class Test" and "KU Revenue By Comp By Class CM – Test" FSGs in Oracle. KU and ODP data is segregated by organization by running two versions of the KU FSG.
- 3. The historical three-year average charge off percentage is then applied to (multiplied by) the prior three-year average revenue balances to calculate the average monthly net charge off balance for the current period. The three-year revenue balances are accumulated on a spreadsheet using data from the revenue volume analysis report prepared monthly by the Revenue Accounting and Analysis department. Please see Reserve for Bad Debts Appendix, Section (A) for an illustration of this calculation.
- 4. Using the waterfall method, a percentage of charge offs is calculated and applied for each aging bucket based on the average aging charge off balance of the prior three calendar periods, using data from the CCS 4011 Charge (Write) off Aging report. Please see Reserve

#### (Note: Text in italics indicates a key SOX control.)

for Bad Debts Appendix, Section (B) for an illustration of this calculation. The waterfall balances are multiplied to the three-year average aging balances to create the current month charge off percentages by aging bucket. Please see Reserve for Bad Debts Appendix, Section (C) for an illustration of this calculation.

- 5. The current month total reserve for bad debts is calculated by multiplying the current month charge off percentages by aging bucket by the current month's accounts receivable and accrued revenues balances by aging bucket using data from the CCS 4010 AR Aging report and Oracle GL connect. Each reserve amount by aging bucket is added together to compute the total needed reserve for bad debts for the current month. Please see Reserve for Bad Debts Appendix, Section (D) for an illustration of this calculation.
- 6. The total calculated reserve is split between the billed accounts receivable reserve balance and the unbilled (accrued) revenues reserve balance based on the current month-end balances for each. Please see Reserve for Bad Debts Appendix, Section (E) for an illustration of this calculation.
- 7. The actual billed and unbilled (accrued) reserve balances per the general ledger are compared to the calculated reserves, and a journal entry is created to record the net charge offs in CCS to bad debt expense and adjust (true-up) the resulting billed and unbilled (accrued) reserve balances to the calculated balances.
- 8. An adjustment to the accrual (e.g. change from the historical-charge off percentage to a different charge off percentage or change resulting from regulatory decisions such as customer disconnection moratoriums) will be performed when it is believed the historical charge off percentage is not representative of current conditions and reasonable and supportable forecasts as required by ASC 326.
- 9. In addition to the calculated billed and unbilled reserve accruals, additions to the reserve balances are made by specific identification. If a customer balance is identified as uncollectible before it is 120 days old, the reserves are increased for the specific amount of the balance. (See cycle/transaction 10.04 Control Activity 13 in the Sarbanes-Oxley Compliance documentation.)
- 10. The Revenue Collections department is responsible for the collection and dunning process for retail customers.

#### Wholesale:

#### (Note: Text in italics indicates a key SOX control.)

- 1. The Revenue Accounting and Analysis department performs counterparty checkouts via email and issues an invoice in the month following the month of flow.
- 2. Balance sheet account reconciliations include an aging of the accounts receivable, showing balances over 30, 60 and 90 days past due. (See 250–Balance Sheet Accounts Reconciliation Policy)
- 3. After a receivable becomes over 30 days past due, the Revenue Accounting and Analysis department will contact the counterparty and inquire about the payment status of the invoice.
  - a. If the counterparty states the balance will be paid, the cash receipts is monitored to ensure payment is made as stated.
    - *i.* If payment is not made as stated, the counterparty is contacted a second time.
  - b. If the counterparty states it will not pay the invoice in full or in part, an explanation of the non-payment is requested and the validity of the counterparty's claim is investigated.
    - *i.* If the counterparty's claim is that the bill was for an improper amount and the claim is validated, an adjusting entry is recorded and a corrected invoice is issued.
    - *ii.* If the counterparty's claim of an incorrect bill is discredited, the counterparty is contacted to confirm that the invoice has been investigated and determined to be accurate.
    - iii. If the counterparty still does not pay, the Revenue Accounting and Analysis department will notify the Manager, Credit and Contract Administration, of the default and refusal to pay. The Manager, Credit and Contract Administration, makes a decision whether to grant additional credit and thus permit selling to this counterparty to continue.
  - c. The Revenue Accounting and Analysis department sends a dunning letter to the counterparty in default stating the invoice number, flow month of power sold, due date, amount invoiced, payment received (if any), open balance and "please respond by" date (which is 10 days from the date of the letter).

#### (Note: Text in italics indicates a key SOX control.)

- d. If no response, or a negative response, is received by the date indicated in the letter, a second letter is sent to the counterparty offering assistance if it needs further information regarding the open balance. The counterparty would again be requested to respond within 10 days. This letter would be reviewed by the Legal department and sent via registered mail.
- e. If no response, or a negative response, is received from the second letter by the date indicated, the Revenue Accounting and Analysis department notifies the Legal department of the situation and works with it to resolve the issue.
- f. For transactions occurring outside the Independent System Operator (ISO) and Regional Transmission Organization (RTO) markets, a reserve for doubtful accounts is established for balances over 90 days past due, with the exception of a mutual agreement between parties that may constitute balances over 90 days. An additional reserve is established for any receivable that is denied by the counterparty or deemed impaired due to a triggering event (e.g. significant financial difficulty of the counterparty, a breach of contract, such as a default or delinquency in payments, the disappearance of an active market (ISO or RTO)).

For transactions that occur within the ISO and RTO markets, the administrator of the ISO and RTO markets will notify the company when a counterparty defaults. At that time the Financial Accounting and Analysis department adjusts the reserve for doubtful accounts accordingly.

g. If a reserve for wholesale doubtful accounts is established, it is re-evaluated quarterly. Upon receipt of payment by a defaulting counterparty, the allowance account is adjusted accordingly for the bad debt expense originally recorded.

#### **Municipals:**

Revenue Accounting & Analysis performs a process similar to the wholesale process for receivables from municipal customers.

#### Sundry:

Monthly, the Corporate Accounting Department runs the Aged Trial Balance of open Sundry Accounts Receivable in Oracle and sends to Revenue Collections, which is the department responsible for the collection and dunning process for sundry customers. Accounts not paid in full are reserved after 120 days, unless information is provided to indicate that the accounts are still collectable.

#### (Note: Text in italics indicates a key SOX control.)

For damage claims, a determination of collectability of accounts over 60 days past due is made with the following actions taken. First, Revenue Collections sends a dunning letter once the claim has been turned over by Underwriters Safety and Claims providing 15 days for payment. If no payment is made, Legal is then contacted for outstanding invoices over \$5,000 to provide or confirm valid contact information and to determine whether legal action should be taken in coordination with Revenue Collections and Operations.

The other sundry past-due receivables receive two collection letters. Revenue Collections distributes the first dunning letter on day 46, providing 15 days for payment. If no payment occurs, Revenue Collections sends a second letter on day 61 stating possible further legal action if not paid. Legal consideration for past-due sundry invoices is determined in coordination with Revenue Collections and the department responsible for the invoice.

#### Reports Generated and Recipients:

The evaluation of the retail accounts receivable reserve balance is documented within the respective files used to create the journal entry for each company (LG&E – "JE098 Adj Bad Debt Reserve YYYY.MM.xlsm" and KU – "J517 AR Reserve Adj YYYY.MM.xlsm").

For wholesale accounts, an aging of the open accounts receivable balance is maintained on the financial accounting shared drive (LG&E – "100.142003, 144009, 232010.xlsx"; KU – "100.142003, 144009, 232010.xlsx"). Additional reports include the first and second (if applicable) informational letters to the counterparties.

For municipal customers, an aging of the open accounts receivable from CCS is maintained on the revenue accounting (fs3:\\revacct) share drive (AR Aging Snapshot – yyyy.mm.xlsx).

For sundry accounts, an aging of the open accounts receivable balance is maintained in the Oracle AR module. The evaluation of the reserve balance is documented within the respective files used to create the quarterly journal entry for each company (LG&E – J075-0100; KU – J070-0110). Accounts included in the aging are 143006-AR Billed Projects, 143007-AR Non-Project, 143012-AR Miscellaneous, 143017-AR Damage Claims and 172001-Rents Receivable. The reserve account used is 144006-AR Miscellaneous.

#### Additional Controls or Responsibility Provided by Other Procedures:

- Counterparty checkout prior to issuance of wholesale invoices
- 250 Balance Sheet Account Reconciliation Policy

#### (Note: Text in italics indicates a key SOX control.)

Review and approval of the monthly calculations, evaluations, and journal entries by the Manager, Revenue Accounting and Analysis.

#### **Regulatory Requirements:**

None

#### 954 - Coal Inventory Valuation

(Note: Text in italics indicates a key SOX control.)

#### **Policy:**

To ensure the correct valuation of the MMBTU content and dollars of coal inventory.

## **Procedure:**

Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU") calculate a daily weighted average inventory cost per MMBTU and use this cost to calculate daily burn expense.

#### Scope:

This policy applies to the coal inventory of LG&E and KU.

## **Objective of Procedure:**

To accurately account for the value of coal stock inventories, as well as the calculation of monthly coal burn expense.

#### **General Requirements:**

#### **Detailed Procedures Performed:**

The Corporate Fuels department uses a fuel supply management system to track receipts, consumption and inventory values for LG&E and KU.

Daily coal inventory valuation:

- 1. Beginning inventory plus daily purchases equals a new daily subtotal (i.e. tons, dollars, weighted average cost/ton, MMBTUs, and weighted average \$/MMBTU).
- 2. The *plants determine the number of tons burned per unit on a daily basis*. The MMBTUs associated with these tons are multiplied by the subtotal weighted average \$/MMBTU established in Step 1 to determine the daily burn dollars. The burn tons, dollars, and MMBTUs are subtracted from the subtotals established in step 1 to determine a new ending inventory value, which becomes either the next day's or next month's beginning inventory (i.e. storage pile).
- 3. The daily burn amounts are added together to determine the total burn expense for the month.

#### 954 - Coal Inventory Valuation

(Note: Text in italics indicates a key SOX control.)

Annual coal inventory valuation:

An annual physical inventory is conducted by a third party at the request of Corporate Fuels and any adjustments related to the coal stockpile valuations are included on the general ledger before the end of the year. See Sarbanes Oxley transaction document 50.02 Coal Inventory for additional details.

#### Reports Generated and Recipients:

Corporate Fuels produces the following reports from its fuel supply management system for LG&E and KU on the third day of closing, and distributes them to individuals in Corporate Fuels, Regulatory Accounting and Reporting and the plants:

- 1. Fuel Receipts Summary
- 2. Fuel Consumption
- 3. Fuel Inventory Rollforward Summary

Corporate Fuels produces the following report from its fuel supply management system for LG&E and KU and distributes to State Regulation and Rates:

- Kentucky Public Service Commission (KPSC) Form B, Analysis of Coal Purchased for Fuel Clause Backup
- Fuel Receipts Detail by Shipment

Regulatory Accounting and Reporting generates the following reports to be provided to State Regulation and Rates:

- KPSC Form A Filing Data (includes monthly fuel expenses and generation, purchase and sale statistics)
- KPSC Form B Filing Data (includes unit statistics; fuel inventory schedules)

Corporate Fuels prepares the EIA-923 Filing Data (includes monthly fuel receipts and consumption, fuel inventory, and other generation related statistics) using fuel and generation reports before electronically filing the EIA-923 monthly report with the Department of Energy.

Additional Controls or Responsibility Provided by Other Procedures:

#### (Note: Text in italics indicates a key SOX control.)

**Policy:** Relevant Company unclaimed property will be escheated to the proper governmental agencies, largely the Kentucky Department of Treasury under Kentucky Revised Statute ("KRS") Chapter 393A.

**Procedure:** The escheat procedure is performed per the instructions below.

**Scope:** All unclaimed property that is required to be escheated for LG&E and KU Energy LLC ("LKE") and its subsidiaries, including Louisville Gas & Electric Company ("LG&E"), Kentucky Utilities Company ("KU"), LG&E and KU Services Company ("LKS"), LG&E and KU Capital LLC ("LKC") and Western Kentucky Energy Corp ("WKE").

**Objective of Procedure:** The objective of escheatment is to comply with state laws, including KRS 393A, in the identification and remittance of unclaimed funds or property to the state.

#### **General Requirements:**

- 1) Approximately in June of each year, the Legal and Accounting departments review the states' unclaimed property guides (for Kentucky, Virginia and Tennessee) to become aware of any changes to the escheatment laws including changes in dormancy or remitting periods, forms, etc. and to resolve any questions about the upcoming filing or process. Any additional questions that occur during the filing and throughout the year are also coordinated with the Legal department.
- 2) The Unclaimed Property report filed with the Kentucky Department of Treasury includes unclaimed wages, dividends, customer account credit balances, and any type of outstanding check. Unclaimed property is required to be escheated as follows:
  - In Kentucky, items with no owner-initiated contact for three years.
  - In the Commonwealth of Virginia, customer deposit checks have a dormancy period of one year and all other unclaimed property has a dormancy period of five years.
  - In the State of Tennessee, wages have a dormancy period of one year, deposit checks have a dormancy period of two years, and all other unclaimed property has a dormancy period of five years.
- 3) Kentucky is an exchange state without a reciprocal agreement and, therefore, businesses located in the Commonwealth of Kentucky may file one unclaimed property report for all property owners, even those that reside in other states. However, there are some states that do require separate filings. Unclaimed property for Indiana, Nevada, Arkansas, Alabama, New Jersey, Maryland, Michigan, North Dakota, Delaware, Illinois and Virginia should be reported directly to the appropriate state agency instead of the Commonwealth of Kentucky. If there are more than 10 Tennessee owner accounts or escheatable property in Tennessee that has a value of greater than \$1,000, a separate escheatment report must also be filed with the State of Tennessee instead of with the Commonwealth of Kentucky.

# (Note: Text in italics indicates a key SOX control.)

4) Attempts are made to locate the owners of the unclaimed property that is being held. Companies are required to send a notification letter to the owners of unclaimed property valued at over \$100 for Virginia and Maryland and \$50 for Kentucky, Tennessee, Michigan, Indiana, Nevada, Arkansas, Alabama, New Jersey, Delaware, <u>Illinois</u> and North Dakota, between 60 and 120 days prior to when the reports are filed. The Unclaimed Property report is filed in NAUPA II (National Association of Unclaimed Property Administrators) format using UPExchange, a web-based cloud application that is used by the Kentucky Department of Treasury.

## Detailed Procedures Performed:

#### **Oracle Transactions:**

#### LG&E and KU

- Through the normal course of business, and at a minimum of once per year, outstanding accounts payable checks, which are one year or older, are removed from the Companies' and bank's outstanding check records by the Corporate Accounting department for LG&E, KU and LKS. The Corporate Accounting department inputs the information from these outstanding checks into the UPExchange unclaimed property database and makes the appropriate accounting entries to move the amount of these checks into a liability account.
- 2) Additionally, LG&E, KU and LKS have chosen to escheat certain funds before the Stateestablished dormancy period. These funds include all checks issued from Oracle as a result of special CCS runs on closed customer accounts. The checks must be at least six months old in order to early escheat any items in special runs for which checks were written.
  - Attempts are made to locate the owners of the unclaimed property that is being held. For reports due on November 1 (for all states except Michigan<u>, and</u> Delaware<u>and</u> <u>Illinois</u>), an attempt to locate the owners between July 1 and September 1 is required.
  - The Michigan filing is due on July 1, so an attempt to locate the owners between March 1 and May 1 is required.
  - The Delaware filing is due March 1, so an attempt to locate the owners between November 1 and December 30 is required.
  - The Illinois filing is due May 1, so an attempt to locate the owners between January 1 and March 1 is required.
  - If the owner is located, a replacement check is issued and the UPExchange unclaimed property database is updated. If the owner is deceased and the estate files for the replacement, appropriate documentation is required from the estate before a replacement check is issued.

(Note: Text in italics indicates a key SOX control.)

# WKE and LKC

- 1) Balances eligible for escheatment are identified by an accounting analyst in Corporate Accounting by reviewing the list of outstanding checks for accounts payable.
- 2) Once identified, balances eligible for escheatment are maintained and updated in an Excel spreadsheet by the accounting analyst, which is then used to produce the owner notification letters.
  - For reports due on November 1 (for all states except Michigan and Delaware), an attempt to locate the owners between July 1 and September 1 is required.
  - The Michigan filing is due on July 1, so an attempt to locate the owners between March 1 and May 1 is required.
  - The Delaware filing is due March 1, so an attempt to locate the owners between November 1 and December 30 is required.
  - <u>The Illinois filing is due May 1, so an attempt to locate the owners between January 1 and March 1 is required.</u>
- 3) Checks remain outstanding in Oracle until ready to be escheated. The balance of the outstanding checks is transferred to a liability account in preparation for escheatment. A Corporate Accounting analyst posts a journal entry that debits cash and credits account 242014 (escheated deposits). The checks are then cleared from Oracle.
- 4) If an owner requests a check to be reissued, Accounts Payable cancels the original check and then issues its replacement. The Excel spreadsheet is updated with the replacement date.

# **CCS Transactions**:

- Balances subject to escheatment in the LG&E and KU Customer Care Solution ("CCS") are identified annually via automated processes. These balances include customer credit receivables and customer deposits which have not been successfully refunded for those customers who have not had service with the utility for more than three years (one year for customer deposits and credit balances in the Commonwealth of Virginia). This automated process produces an Excel spreadsheet providing all data necessary for meeting the state's due diligence and reporting requirement.
- 2) Additionally, LG&E and KU have chosen to escheat certain funds before the Stateestablished dormancy period. These early escheated funds include all items less than \$1 from CCS since the administrative cost of resolving them outweighs the benefit. The items could be due to several items, including customer overpayments, deposit interest refunds, energy efficiency refunds, tax-related refunds, or other special runs for customer refunds on closed accounts.
  - Attempts are made to locate the owners of the unclaimed property that is being held. For reports due on November 1 (for all states except Michigan, and Delaware and <u>Illinois</u>), an attempt to locate the owners between July 1 and September 1 is required.

# (Note: Text in italics indicates a key SOX control.)

- The Michigan filing is due on July 1, so an attempt to locate the owners between March 1 and May 1 is required.
- The Delaware filing is due March 1, so an attempt to locate the owners between November 1 and December 30 is required.
- The Illinois filing is due May 1, so an attempt to locate the owners between January 1 and March 1 is required.
- If the owner of the CCS account is located, a check is issued and documented in the Excel spreadsheet produced by CCS. If the owner is deceased and the estate files for the unclaimed property, appropriate documentation is required from the estate before a check is issued. At the appropriate time, transactions and the supporting accounting entries are generated in CCS to remove the credit balances and the customer deposits being escheated.

#### **Payroll Transactions:**

- 1) Balances eligible for escheatment are identified by an accounting analyst in Corporate Accounting by reviewing the list of outstanding Checks for the payroll accounts of all appropriate companies.
- 2) For LG&E, KU and LKS, any payroll checks eligible for escheatment are cleared from the Companies' and the bank's outstanding check records by the Corporate Accounting department. The Corporate Accounting department inputs the information from these outstanding checks into the UPExchange unclaimed property database and makes the appropriate accounting entries to move the amount of these checks into a liability account. The escheat process and the process for handling replacement checks are then identical to the checks processed through Oracle
- 3) For WKE and LKC, balances eligible for escheatment are maintained and updated in an Excel spreadsheet by the accounting analyst, which is then used to produce the owner notification letters.
  - For reports due on November 1 (for all states except Michigan, and Delaware and <u>Illinois</u>), an attempt to locate the owners between July 1 and September 1 is required.
  - The Michigan filing is due on July 1, so an attempt to locate the owners between March 1 and May 1 is required.
  - The Delaware filing is due March 1, so an attempt to locate the owners between November 1 and December 30 is required.
  - The Illinois filing is due May 1, so an attempt to locate the owners between January 1 and March 1 is required.
- 4) For WKE and LKC, checks remain outstanding in PeopleSoft until ready to be escheated. The balance of the outstanding checks is transferred to a liability account in preparation for escheatment. A Corporate Accounting analyst posts a journal entry that debits cash

(Note: Text in italics indicates a key SOX control.)

and credits account 242014 (escheated deposits). The checks are then cleared from PeopleSoft.

5) For WKE and LKC, if an owner requests a check to be reissued, Payroll cancels the original check and then issues its replacement. The Excel spreadsheet is updated with the replacement date.

#### Filing Process (All Companies):

- A disbursement request is submitted by Corporate Accounting for the amounts to be escheated and reports and funds are remitted to the appropriate state by November 1 (or July 1 for Michigan, and March 1 for Delaware and May 1 for Illinois)
- The detail for all checks or account balances regardless of the amount, include all owner information available such as name, address, check number or account number and amount due to owner. Although the state allows a company to aggregate checks/accounts for amounts less than \$50, each unclaimed property, no matter the amount, is separately reported.
- The report is filed using NAUPA II (National Association of Unclaimed Property Administrators) format. If required to file by CD, the report information may be input via upload from Excel into UPExchange, a web-based cloud application, and is then saved to CD and forwarded with the filing. WKE and LKC, with 10 or fewer owner accounts, must file electronically as well. Most states now require electronic filing and will no longer accept filings reported on paper or CD.

#### Reports Generated and Recipients:

- 1) Excel spreadsheet used in journal entry preparation. (LG&E, KU, WKE, LKS, LKC)
- 2) UPExchange unclaimed property database to monitor the escheatment balances (LG&E, KU and LKS)
- 3) CCS reports used in journal entry and filing preparation. (LG&E, KU)
- 4) UPExchange reports used in filing with the Kentucky Department of Treasury and with other states requiring separate unclaimed property filings

#### Additional Controls or Responsibility Provided by Other Procedures:

Bank statement reconciliations are performed each month that verify the outstanding check listing between the banks and the companies. Accounts Receivable CCS accounts are examined for credit balances.

# (Note: Text in italics indicates a key SOX control.)

**Policy:** Intracompany interest among LG&E and KU Energy LLC (LKE) and all subsidiaries will be calculated and billed monthly.

**Procedure:** Intracompany interest is billed monthly.

Scope: The policy covers all intracompany balances not settled within 30 days.

**Objective of Procedure:** To ensure that no entity subsidizes any other entity.

#### **General Requirements:**

**Detailed Procedures Performed:** 

## I. Procedures for recording interest owed between the regulated utilities

Interest is owed by either Louisville Gas & Electric Company ("LG&E") or Kentucky Utilities Company ("KU") to the other company for cash received or paid on behalf of the other company. A standard journal entry is prepared monthly by Corporate Accounting to record the interest and it is paid the following month on a one-month lag. Interest is calculated on the daily balance multiplied by the current average money pool rate divided by 360 days. The average money pool rate is equal to the lower of 1) the rate for a one month Euro-dollar loan under the revolving credit facility of such Utility Subsidiary using LIBOR as of the last day of the prior calendar month as reported by the Wall Street Journal; or 2) the one month rate of other shortterm borrowings available to the Parties, including third party or affiliate loans using LIBOR as of the last day of the prior calendar month as reported by the Wall Street Journal; or 3) the sum of (a) such daily rate for 30-day A2/P2 rated non-financial commercial paper programs as published by the Federal Reserve (or substantially equivalent rate, if such rate is discontinued or modified) on the last business day of the prior calendar month and (b) five (5) basis points. The journal entry is reviewed by the Corporate Accounting Manager or delegate before it is posted. The amounts owed are included as line items on the regular intracompany bills between the regulated utilities, as required by the Intercompany Billing and Settlement Policy and Procedures.

# II. Procedures for billing intracompany interest for subsidiaries which participate in either the LKE Utility Money Pool or the LKE Non-Utility Money Pool:

While setting the daily cash position, money pool transactions are recorded both in the utility and non-utility (LKC only) money pools, via a suggested transfer initiated in Wallstreet, based on cash needs by the utilities or LKC for the day. Money Pool transactions between LKE and non-utility companies other than LKC are ZBAs through the Bank of America. As transactions occur

(Note: Text in italics indicates a key SOX control.)

wires or ZBAs are sent through Bank of America between the entities. The BAI bank codes for these transactions are used to code the transactions within Wallstreet when the BAI files interface daily to Wallstreet, which creates the accounting and adjusts the balances in the money pools. The Cash Management Module in Wallstreet houses the daily transactions and generates interest for the balances in the money pools (see accounting procedures for Wallstreet in the debt journal entry file on generating interest on money pool balances). At the end of each month, interest is generated in Wallstreet for each money pool balance and is added/deducted from the amount owed on the appropriate entities accounting ledger. For regulated entities, the interest will be added to the appropriate intercompany bill for settlement as outlined in item I. For nonregulated entities, the interest charged is not required to be cash settled, per 253 - Intercompany Billing and Settlement policy.

# **III.** Procedures for intercompany interest with PPL:

LKE maintains a short-term credit facility with an affiliate of PPL Corp. through daily borrowings/repayments to CEP Reserves, Inc. (CEP). Each day when the cash position is set (as noted above for money pool borrowings) LKE either borrows or repays CEP as needed. The borrowing/repayment is entered daily into Wallstreet as a Demand Note. Wires between LKE and CEP are captured in the BAI files that come from Bank of America each day and interest is generated at month-end in Wallstreet based on the daily balance, charged at the one month LIBOR rate on the last business day of the prior month, which feeds into Wallstreet automatically, plus a spread that has been set up previously in Wallstreet based on the agreement with CEP. The interest is settled monthly.

LKE maintains a short-term credit facility with an affiliate of PPL Corp. through daily investments/repayments from PPL Energy Funding. Each day when the cash position is set LKE may send excess funds, if any, to PPL Energy Funding. The investment/repayment is entered into Wallstreet as a Demand Note. Wires between LKE and PPL Energy Funding are captured in the BAI files that come from Bank of America each day and interest is generated at month-end in Wallstreet based on the daily balance, charged at the one month LIBOR rate on the last business day of the prior month, which feeds into Wallstreet automatically plus a spread that has been set up previously in Wallstreet based on the agreement with PPL Energy Funding. The interest is settled monthly.

LKE enters into long-term loans from PPL Capital Funding via notes. The terms of the note are set up in Wallstreet and an interest accrual is calculated each month based on the terms. The interest is settled as noted in the terms of the note.

#### Reports Generated and Recipients:

## (Note: Text in italics indicates a key SOX control.)

Item I – Excel spreadsheet prepared by Accounting Analyst in Corporate Accounting Items II and III - Interest calculation performed in Wallstreet by a Corporate Finance Treasury Analyst.

#### Additional Controls or Responsibility Provided by Other Procedures:

## 250 - Balance Sheet Account Reconciliation Policy

#### Regulatory Requirements:

All of the following entities require that no subsidization occurs between the regulated utilities or their affiliates:

- o Kentucky Public Service Commission
- Virginia State Corporation Commission
- Federal Energy Regulatory Commission

**Policy:** Sundry billing consists of Louisville Gas & Electric Company (LG&E) and Kentucky Utilities Company (KU) invoices that cannot be processed through the CCS (Customer Care Solution) system. Invoicing is coordinated through the Corporate Accounting Department and the Oracle Accounts Receivable (AR) module. Damage claims are invoiced by Underwriters Safety & Claims (USCKY) via the custom Oracle Damage Tracking System (DTS) module and the receivable is set up in the Oracle AR module.

**Procedure:** The billing procedures are performed per the detailed instructions below.

**Scope:** LG&E and KU billings that are invoiced through the Oracle AR module and are not invoiced through the CCS system.

**Objective of Procedure:** To establish a consistent method for invoicing and to describe the flow of information through the system to the collections process.

#### **General Requirements:**

#### **Detailed Procedures Performed:**

Accounting for sundry billing results in charges to FERC Account No. 142, Customer Receivables, and FERC Account No. 143, Other Accounts Receivable (non-customers). Accounting for related customer deposits is charged to FERC Account No. 252, Customer Advances for Construction. In general, sundry transactions relate to the following:

Description	Discussion Paragraph in Appendix A	Account Debited	Account Credited	Source of Billing Information
			Various O&M accounts	
River Trading	11	143043	415005	CorpFuels & By Products, Generation/PE & Safety Budgeting

- 1. Transactions are billed according to contract terms or invoice requests. See Appendix A. Invoice requests are received daily in Corporate Accounting. All invoices are processed as soon as practical, within 30 days of when they are received, unless there is an issue with the invoice or projects and tasks need to be set up. Invoices are accrued at quarter-end if they have not been billed.
- 2. Invoices > \$50K require review by a person independent of the preparer.
- 3. Cash posting related to sundry receivable accounts:

Remittance reports are received from Remittance and Collection with backup. The Business Offices forward support for payments received in the office, which were deposited locally. All cash receipts are posted by Corporate Accounting to Oracle AR by batch using RPA or manually using the date the cash is received and a receipt register is run and reviewed. The total on the receipt register for LG&E/KU equals the total for "Sundry and Miscellaneous Cash Total Damage Tracking" plus the "Total Misc Cash/Sundry" sections of the Remittance Report plus "add-on" receipts processed by the KU Business Offices each day, less miscellaneous cash items processed through J001 that were not invoiced through Oracle AR.

- 4. Processing of various journal entries related to sundry billing:
  - Although cash receipts are posted in Oracle AR, journal entries are posted for sundry cash receipts to allow for the correct project and tasks to be assigned to transmission sales and to clear the Sundry Cash Clearing account 131050 where all sundry cash receipts are accumulated for each month.
  - LG&E & KU miscellaneous journal entries are posted to set up and reclass charges if corrections cannot be made in the Oracle AR module.
  - LG&E & KU monthly journal entries are posted to process accruals for billable charges when the billings are held for future periods for various reasons, typically an invalid project and task. An email is distributed monthly by an Accounting Analyst to Business Office personnel who are knowledgeable of projects that should be accrued, ensuring all known receivables are accounted for properly.

#### (Note: Text in italics indicates a key SOX control.)

- An accrual journal entry is prepared monthly for highway jobs by Property Accounting (Distribution and Gas jobs) and Transmission/Gas & ES Budgeting (Transmission jobs) for billable charges of a significant nature (exceeding \$100,000 per job for the months January through November and lowered to \$50,000 in December, consistent with the 751-Manual Accrual Policy) which have not been invoiced to the appropriate governmental entity.
- 5. On a monthly basis, the Oracle AR module is interfaced to the GL, to record all transactions for the month in the general ledger. A transaction register report is reviewed to ensure that all items are posted to the correct company, as well as to ensure that all items requiring a project and task have a project and task assigned and there are no GLAFF errors with any invoices. An incomplete invoice report is processed at month end and is reviewed to ensure that all invoices entered for the month will be picked up in the interface. An interface process is then run in Oracle AR via RPA or manually to complete the process and the output is reviewed before posting to the GL
- 6. On a monthly basis, all sundry AR accounts are reconciled to the general ledger. This is performed through running the LKE Aged Receivables 7 Buckets Report for each account and reconciling this amount with what is recorded in the GL. As Oracle DTS also holds claims that are being tracked, the GBLAR DTS Aged Trial Balance Report is reconciled to the Oracle GL.
- 7. On a monthly basis, in order to monitor collections, the LKE Aged Receivables 7 Buckets Report is prepared and distributed to the Manager, Corporate Accounting; the Manager, Remittance & Collection; the company contact at USCKY; the legal department; and Remittance and Collection employees. The status of invoices over 120 days old are provided to Corporate Accounting by Remittance and Collection who respond with comments regarding status or action needed.
- 8. Credit memos entered to reduce the amount a customer owes by >\$1,000 due to a customer dispute or negotiation require approval by the Manager, Corporate Accounting for amounts between \$1,000 and \$100,000; and approval by the Director, Accounting & Regulatory Reporting for amounts between \$100,000 and \$500,000, according to the Authority Limits Matrix. Credit memos entered merely to correct a billing or account coding error do not require approval. Credit memos initiated and reviewed by Remittance and Collections do not require approval.

# **Reports Generated and Recipients:**

• Printed invoices – to customers and to Remittance and Collection, upon request.

#### Appendix A Sundry Billing Detailed Procedures

- 1. Work for Customer Jobs
  - The customer signs a contract or accepts a quote for work to be performed by LG&E or KU and paid for by the customer. An estimated cost is determined by operations personnel in the area through which the job has been requested<sup>1</sup>. The customer chooses whether to pay an estimate of the cost or the actual cost, in which case a deposit based on the estimate is required. If the customer chooses actual cost, the customer is either billed or refunded for the difference between the estimated deposit and the actual cost by Corporate Accounting with authorization from Distribution Operations Engineering.
  - Support for the invoice is received from various individuals having authority in the various lines of business within the Company. The data includes the customer name, mailing address, type of work done, the project and task charged and the cost of the project.
- 2. LG&E and KU electric line extensions and LG&E gas line extensions:

Electric and gas line extensions are generally charged to customers based upon contracted terms. Refunds due to customers according to contract terms are processed along with sundry receivables.

- LG&E gas line extension customers deposit a pre-determined amount of money which is refunded based upon additional customer hookups to the main extension over the following ten years, pursuant to the contract. If a developer paid the entire cost prior to construction of the main, they are refunded a fixed amount for each lot that is hooked up. This information is retained in the Refund and Payment Process (RAPP) system and monitored by Distribution Operations Engineering.
- LG&E electric line extension customers deposit a pre-determined amount of money which is refundable, pursuant to the contract. Refunds are based on additional customer hookups to the main extension over the following ten years, as well as revenues earned over a three- to five-year period. If electric revenue earned on the line extension is greater than the cost of the line extension, based on the terms of the contract, then the deposit is refunded. Distribution Operations Engineering analyzes the revenue earned, to determine if the terms of the contract have been met and a

<sup>&</sup>lt;sup>1</sup> In most cases, a proxy amount calculated by operations personnel is used for billing purposes and is considered the actual cost.

(Note: Text in italics indicates a key SOX control.)

refund is due. Line extensions are manually tracked by Distribution Operations Engineering who authorize Corporate Accounting to refund to the customer.

- KU electric line extension customers deposit a pre-determined amount of money, which is refunded based upon additional customer hook-ups to an electric extension over the following ten years, pursuant to the contract. The refund is a fixed amount for each hook-up. Each month, KU Business Operations personnel review the LKE AR Customer Advances Transaction Register sent by Corporate Accounting to determine if any additional customer hook-ups have occurred. If a hook-up has occurred, the responsible personnel notify Corporate Accounting, who then initiates the refund process.
- KU has mobile home line extensions. Customers are refunded 25 percent of their deposit every year for four years (Part A contract only); a line extension hook-up is not required for these refunds. These refunds can also extend up to ten years, if it is a two-part (A & B) contract. If the contract includes both Parts A & B, the customer deposits a pre-determined amount of money, which is refundable, based upon additional customer hook-ups to a main extension over the following ten years. For each additional customer hookup, the original customer receives a refund (Part B of contract).
- KU has refunds that are generated according to electric usage and/or line extension hookups. The customer makes a deposit. Every year the customer's account is checked for electric usage and additional hookups, if applicable. The refund is figured according to the contract. These jobs can be refundable for five to ten years. An Accounting Analyst in Corporate Accounting runs the LKE AR Customer Advances Transaction Register from Oracle EiS, which lists the customers that could be due a refund. The report is sent to various Business Office personnel to authorize a refund.
- KU takes deposits for electric line extensions in its business offices. When cash deposits are received at the business office, the balance of the deposit is recorded in FERC Account No. 252013, Customer Advances Construction Long Term, until service is turned on. Once service is turned on, the balance is transferred to FERC Account No. 252011 (Line Extensions) or 252015 (Mobile Home Line) and is processed through the refund processes noted above. LG&E does not accept cash deposits for electric line extensions.
- If at the end of the KU electric line extension agreement period there is a balance remaining, the Company is not required to refund the final balance to the customer and the balance is forfeited. The advance is also forfeited if the customer violates the line extension terms or fails to maintain service for the duration of the agreement period. The forfeited balance will be credited back to the respective plant account.

## (Note: Text in italics indicates a key SOX control.)

- 3. Highway jobs performed for the Kentucky Transportation Department (KTD), Indiana Department of Transportation (INDOT), or other governmental entity. (Invoicing information is submitted by Property Accounting)
  - Property Accounting receives notification from the Project Manager to bill the appropriate governmental entity.
  - Property Accounting runs EiS Reports to generate information to invoice.
  - Property Accounting sends the information for invoicing to Corporate Accounting, who prepares invoices using the Oracle AR module. The invoice is sent to the customer along with required forms.
  - The Property Accounting Analyst provides support for each invoice submitted for processing.
  - See Property Accounting detailed procedures.
- 4. Property damage items (Damage Tracking System (DTS) invoicing submitted by USCKY):
  - Damage is sustained and reported to Distribution.
  - Distribution sets in motion the process for investigating and repairing the damage and charges the cost to a blanket damage project. USCKY is notified to begin the process of determining the responsible party, based on information provided by Distribution.
  - The service centers are responsible for gathering damage costs and initiating damage claims. The invoice sent to the responsible party is printed from DTS and issued by USCKY.
  - Damage claim repair charge costs are processed via blanket projects and tasks selected and submitted by the service center to USCKY. Support for the invoiced charges will come in the form of invoice detail generated from Oracle DTS, using the damage claim number, and will include cost details, such as meal ticket, material cost, transportation/equipment cost, labor cost and contractor cost, if applicable.
  - The invoice data is interfaced from Oracle DTS to Oracle AR and to the general ledger.
  - In the case of collection issues, instances will occur where the responsible party and the Company/USCKY will negotiate a settlement.
  - The Company's originating department/USCKY notifies Remittance and Collection of the settlement and the balance of the invoice will be charged back in Oracle DTS by Corporate Accounting to the originating department(s') operating budget or capital.
  - Oracle DTS and Oracle AR billings are balanced on a monthly basis as part of the account reconciliation process.

## (Note: Text in italics indicates a key SOX control.)

- If the party identified as responsible can provide proof that they are not liable, USCKY will notify the originating department of the dispute, requesting additional information to attempt to identify the responsible party.
- If the additional information is not received within the predetermined 15 days or if USCKY is not able to identify the responsible party, the charges will be reversed in Oracle DTS and Oracle AR and charged back to the originating department(s) operating budget or to capital, based on authorization from the originating department.
- If the additional information is received within the predetermined 15 days and USCKY is able to identify the responsible party, the original invoice will be reversed in Oracle DTS and Oracle AR and re-invoiced to the newly identified responsible party.
- 5. Underground service to the customer's meter base (KU):
  - Business Office personnel will receive supporting documentation (such as a miscellaneous invoice form, contract, and/or work request charges quote), indicating the customer name, address and invoicing amount from the Distribution Operations Business Representative.
  - Business Office personnel will create the customer record and invoice in Oracle AR. The original supporting documentation and a copy of the invoice, printed by the Business Office for its records only, will be retained by the Business Office for audit purposes. A copy of the documentation will be forwarded to Remittance and Collection upon request, for collection purposes.
  - The invoice entered into Oracle AR by Business Office personnel will be reviewed for project and task entry and description, then printed and mailed to the customers on a weekly basis by an administrative assistant. To ensure all invoices are printed, invoices will be printed weekly using transaction type (1UGIN) and the date range from Monday through Sunday of the previous week as the parameters.
  - An incomplete invoice report is processed weekly by Corporate Accounting, prior to printing the underground invoices, to make sure all transactions were completed. If there are incomplete transactions, the creator of the transaction will be notified by Corporate Accounting to review the transaction and determine if the transaction should be completed. Once the Business Office personnel determine how the invoice should be handled, an email must be sent to Corporate Accounting so it can move forward with the process (i.e. printing invoices, AR upload).
  - Credit memos will be processed when an invoice must be voided. An email must be sent to Corporate Accounting by Business Office personnel, indicating the invoice number, customer name, credit amount and an explanation detailing the reason for the credit. Corporate Accounting will process the credit memo in Oracle AR.

(Note: Text in italics indicates a key SOX control.)

# 6. IMEA & IMPA:

- Monthly invoices for cost for operations, maintenance, and construction work
  performed on TC1 & TC2 due to joint ownership (IMEA owns 12.12% and IMPA
  owns 12.88%), and special projects at the request of IMEA and IMPA. IMPA is
  billed by the 13<sup>th</sup> calendar day at their request, and IMEA is billed by the 12<sup>th</sup>
  business day. Payment is received before the end of the month from both partners.
  (This is invoiced outside of the Oracle AR module).
- Billings are calculated as follows:
  - Fuel/Reactant Operation Expenses (Article 7.1.1) are allocated to each partner based on their portion of generation for each unit. Source: Oracle EiS Report LKE Trimble County Generation Expenses
  - Fixed Operation and Maintenance Expenses (Article 7.1.2) are allocated to each partner based on their respective ownership percentages. Source: Oracle EiS Report LKE IMEA-IMPA O&M
  - Non-Fuel Operating Component (Article 7.1.3) is allocated to each partner based on their respective ownership percentages. Source: Oracle EiS Report LKE IMEA-IMPA O&M
  - Working Capital Component (Article 7.1.4) is allocated to each partner based on their respective ownership percentages. Source: Regulatory Accounting & Reporting Journal Entry J138-0100
  - IMEA ONLY (Article 7.1.6) is also billed a monthly Service Charge based on 5% of expenses allocable to TC1. Source: Regulatory Accounting & Reporting Journal Entry J136-0100
  - Incremental Capital Assets (Article 6.3) are allocated to each partner based on their respective ownership percentages. Source: Property Accounting's Incremental Capital Assets file
- Partners also receive the following credits:
  - Credit for Reactive Power (Article 2.2 of Joint Partial Settlement Agreement) is a fixed credit that each partner receives. Source: Regulatory Accounting and Reporting Journal Entry J137-0100
  - Refined Coal Credits partners receive credits for the License & Services and Coal Handling & Consulting fees billed to Trimble Clean Fuels, LLC. These credits are allocated to each partner based on their portion of generation for each unit. Source: Fuels Accounting Journal Entry J109-0100

## (Note: Text in italics indicates a key SOX control.)

# 7. Mutual Assistance:

• LG&E and KU provide mutual assistance to utility companies that have major storm damage. A unique project is established by Distribution Operations Budgeting for each storm, and all costs are charged to these specific projects. Either an LKS project is set up for assistance provided by both utilities, or an LG&E project is set up for gas mutual assistance. Distribution Operations Budgeting tracks these charges and prepares an invoice request for Corporate Accounting after all charges are complete.

# 8. GS RC Ghent Refined Coal:

- Invoices are prepared a month in arrears and support is provided by Fuels Accounting. Invoices must be sent by the 10<sup>th</sup> calendar day.
- Invoices are exchanged each month between KU and GS RC Ghent. KU invoices for the sale of coal to GS RC Ghent. The coal goes through a refinement process and is then sold back to KU. These amounts net to zero and are both invoiced and paid in the same month.
- KU's invoice also includes a monthly license fee and a monthly coal yard services fee. These amounts are fixed throughout the term of the contract and will not change, absent a contract amendment.
- 9. Trimble Clean Fuels Refined Coal:
  - Invoices are prepared a month in arrears and support is provided by Fuels Accounting. Invoices must be sent on the 3<sup>rd</sup> business day.
  - Invoices are exchanged each month between LG&E and Trimble Clean Fuels. LG&E invoices for the sale of coal to Trimble Clean Fuels. The coal goes through a refinement process and is then sold back to LG&E. These amounts net to zero, and a payment is not actually made.
  - LG&E prepares a separate invoice for the monthly license and coal handling fees. These fees are dependent upon the volume of tons of refined coal processed each month. Payment is received for this invoice. These fees are used in the calculation of the credits that IMEA & IMPA receive on their monthly invoice.

10. Mill Creek Clean Fuels Refined Coal:

- Invoice process is similar to the Trimble County agreement, but does not include the accounting for the IMEA and IMPA ownership share. Invoices are prepared a month in arrears and support is provided by Fuels Accounting. Invoices must be sent on the 3<sup>rd</sup> business day.
- Invoices are exchanged each month between LG&E and Mill Creek Clean Fuels. LG&E invoices for the sale of coal to Mill Creek Clean Fuels. The coal goes through

## (Note: Text in italics indicates a key SOX control.)

a refinement process and is then sold back to LG&E. These amounts net to zero, and a payment is not actually made.

- LG&E prepares a separate invoice for the monthly license and coal handling fees. These fees are dependent upon the volume of tons of refined coal processed each month. Payment is received for this invoice.
- 11. Other Sundry Billings:
  - Joint Trenching Creating a trench, so other utility companies can install their underground services
  - Rubber Goods Testing rubber protective equipment such as sleeves, blankets, gloves, etc.
  - Pole Attachments Various attachments to our poles, such as for cable television, fiber optic line and cell phone service
  - Rental Invoices Rental of property such as transformers and vacant lots
  - Transmission Sales Customers that purchase power through the OATT Transmission Service
  - Beyond the Meter Work performed on customer owned equipment
  - IBEW Invoicing the union (IBEW) for an employee's hourly rate, workers compensation and FICA when he or she has performed work for the union
  - Beneficial Reuse Sales (Gypsum, Fly Ash, etc) at Generation Facilities invoicing for by-products sold at various LG&E & KU plants
  - Scrap Metal Invoices Invoicing for scrap metal sales for various locations
  - River Trading Invoicing for providing coal services to the Kosmos Cement plant
  - Other Miscellaneous invoice requests for one-off situations

Regulatory Asset or Liability under US GAAP (ASC 980)	Description	Case No. / Order Approving Regulatory Asset / Liability or Providing Precedence/Other Support	Recovery / payback period	Responsible Department
Fuel Adjustment Clause	Over- or under-recovered fuel expenses through the FAC mechanism. Over-recoveries result in a regulatory liability and under-recoveries result in a regulatory asset. Special contract with NAS to levelize the combined FAC/OSS Factor by allowing KU to recover changes in fuel costs using an annual average fixed fuel factor.	807 KAR 5:056 Filed in March 2020 - awaiting approval	Ongoing	Revenue
VA Fuel Component(Levelized Fuel Factor)	Over- or under-recovered fuel expenses through the LFF mechanism. Over-recoveries result in a regulatory liability and under-recoveries result in a regulatory asset.	Title 56 of the Code of Virginia, Chapter 10; Section 56-249.6	Ongoing	Revenue
Environmental Cost Recovery	Over- or under-recovered return on approved environmental capital projects and the associated O&M expenses. Over-recoveries result in a regulatory liability and under-recoveries result in a regulatory asset.	KRS 278.183	Ongoing	Revenue
Muni Gen True-up	Over- or under-collection calculated as the difference between the amount billed to municipal customers under the FERC formula rate (estimated charges based on prior year's FERC Form 1 and projected municipal load) and the actual amounts that should have been collected based on actual costs and load incurred for the rate year.	FERC ER-13-2428 (settlement on the terms of the revised formula rate)	Ongoing	Revenue
Off-System Tracker	Over- or under-recovered off-system sales margin via the Off-System Sales Tracker ("OST"), which is included within the Fuel Adjustment Clause ("FAC") mechanism on customers' bills. Margins are split between customers (75%) and the company (25%). Over-recoveries result in a regulatory liability and under- recoveries result in a regulatory asset.	KPSC 2014-00371 (Off-System Sales Tracker is approved) KPSC 2016-00370 (subsequent rate case) 807 KAR 5:056	Ongoing	Revenue
DSM Cost Recovery	Over- or under-recovered actual costs of approved demand programs, revenue from lost sales and incentive, and return on capitalization earned related to capital investments as compared to the estimated program costs for the 12-month period.	KRS 278.285	Ongoing	Revenue
ASC 715 - Pension and Postretirement	The over- or under-funded status of defined benefit pension and postretirement plans that would otherwise be recorded as accumulated OCI that is expected to be recovered through base rates at a future date.	KPSC 2003-00434 (regulatory asset approval)      KPSC 2008-00251 (subsequent rate case)      KPSC 2012-00221 (subsequent rate case)      KPSC 2012-00221 (subsequent rate case)      KPSC 2012-00221 (subsequent rate case)      KPSC 2014-00371 (subsequent rate case)      KPSC 2016-00370 (subsequent rate case)      FERC AI04-2-000 (FERC guidance to utilities on recognition of a regulatory asset for the amount of liability that otherwise chargeable to accumulated other comprehensive income)      FERC AI07-1-000 (recognition of regulatory liability or asset for the funded status asset or liability otherwise chargeable to accumulated other comprehensive income under SFAS No. 158)	Ongoing	Risk
Pension Gain-Loss Amortization - 15 Year	Deferred pension plan actuarial gain or loss amortization using a 15-year amortization period (for Kentucky jurisdictional rates) instead of amortizing the actuarial gains and losses in excess of 10% of the greater of the plan's projected benefit obligation or the market-related value of plan assets and less than 30% of the plan's projected benefit obligation (double corridor method) on a straight-line basis over the expected average remaining service period of active plan participants (under US GAAP).	KPSC 2014-00371 (established and recovery) KPSC 2016-00370 (subsequent rate case)	Rolling 15 years	Risk

Plant Outage Normalization	Generator outage expenses that are greater or less than the eight-year average of KU's generator outage expenses are recorded as regulatory assets / liabilities	KPSC 2016-00370 (approval)	To be determined in the next rate case	tt Budgt & Forecas Gen Ops
Regulatory Assets or Liabilities recorded under US GAAP (ASC 980)	Description	Case No. / Order Approving Regulatory Asset / Liability or Providing Precedence/Other Support	Recovery / payback period	Responsible
Cost of Removal	Represents the cost of removal (COR) component of KPSC approved depreciation rates for the underlying assets, which is recovered from customers through base rates. COR is only reported as a regulatory liability for SEC reporting purposes and is reported in accumulated depreciation for regulatory reporting purposes.	ASC 980-410-25-2	N/A	Property
Inamortized Debt Expense	Purchase Accounting adjustment for the reclassification of deferred debt issuance costs from a long-term asset (other noncurrent) to a regulatory asset. Deferred debt issuance costs are generally eliminated in purchase accounting since no future value is assigned to them. However, debt issuance costs on the general ledger of KU at October 31, 2010 are recoverable in base rates. Regulatory offset is appropriate as KU has the right to recovery. As such, these costs were treated as a regulatory asset and were not eliminated as a result of the acquisition. fax Exempt Interest Rate Swaps	Book losses or gains on swaps that became ineffective during 2008. One swap totals \$83.335 million and was originally authorized in case number KY 2000-00275 to hedge the \$83.335 million Timble County bond. That bond was refinanced on September 15, 2016 along with the LG&E 4166 million Timble County bond. creating one bond totaling \$125 million that remains in a variable rate mode. Four swaps for \$32 million each were authorized in case number KY 2003-00299 to hedge a \$128 million Louisville Jefferson County bond. The counterparty terminated one of the \$322MM interest rate swaps in December 2008 and LG&E terminated a second \$32MM swap in December 2016. Monthly settlements on the swaps are recorded as interest expense and recovered in base rates.	KPSC 2000-00275 (order to enter into swap) KPSC 2003-00299 (order to enter into swap) KPSC 2003-00433 (subsequent rate case) KPSC 2008-00525 (subsequent rate case) KPSC 2009-00549 (subsequent rate case) KPSC 2014-00372 (subsequent rate case) KPSC 2014-00372 (subsequent rate case)	Over the life of the swap, (\$83M through 11/1/2020 and the three \$32M 10/1/2033)
Forward Starting Swaps - 2015	Loss realized upon termination of forward starting swaps used to protect against rising interest rates between the date of the swaps and the date the bonds were priced in 2015.	KPSC 2014-00089 (order to enter into swap) KPSC 2014-00037 (pubsequent rate case) KPSC 2016-00371 (pubsequent rate case) Report of action, dated 10/16/2015 indicate cash settlement of swaps would be amortized over life of associated bonds.	There are two bond series. One of the series has a 10 years recovery period (from 9/2015 through 10/2025) and the other series has a 30 years recovery period (from 9/2015 through 10/2045)
Winter (loe) Storm 2009 (Electric/Gas)	January and February 2009 Kentucky Ice Storm restoration costs	KPSC 2009-00175 (established) KPSC 2009-00549 (recovery) KPSC 2012-0022 (subsequent rate case) KPSC 2014-00372 (subsequent rate case) KPSC 2016-00371 (subsequent rate case) KPSC 2018-00295 (subsequent rate case)	Ongoing
ASC 740 - Income Taxes	Deferred income tax assets and liabilities which are recognized for temporary book/tax differences related to asset basis adjustments related to ITC, and are recovered through base rates.	KPSC 2009-00549 (proforma adjustment related to ITC approved) KPSC 2012-00222 (subsequent rate case) KPSC 2014-00372 (subsequent rate case) KPSC 2016-00371 (subsequent rate case) KPSC 2016-00371 (ras Cuts and Jobs Act)	Ongoing
Vind (Hurricane Ike) Storm 2008	September 2008 Kentucky wind storm restoration costs	KPSC 2008-00456 (established) KPSC 2009-00549 (established) KPSC 2012-00222 (subsequent rate case) KPSC 2014-00372 (subsequent rate case) KPSC 2014-00371 (subsequent rate case) KPSC 2018-00295 (subsequent rate case)	Ongoing
Swap Termination - Wachovia	Termination costs incurred when Wachovia Bank elected to terminate an interest rate swap agreement in 2008 due to market conditions. Prior to termination settlements on the swap were recorded as interest expense and recovered in base rates.	KPSC 2009-00549 (established and recovery) KPSC 2012-00222 (subsequent rate case) KPSC 2014-00372 (subsequent rate case) KPSC 2016-00371 (subsequent rate case)	August 2010 through April 2035
Rate Case Expenses (Electric/Gas)	Rate case expenses are charged to a regulatory asset account and amortized over the period authorized in the order. These costs an easo-class with consulting services, engineering services, advertising expenses and lega services in preparation of the testimony and support of each rate case.	KPSC 2014-00372 (subsequent rate case) KPSC 2016-00371 (subsequent rate case) KPSC 2018-00295 (subsequent rate case) 307 U.S. at 120-121 294 U.S. at 73	2014 rate case expenses: July 2015 through the next rate case 2016 rate case expenses: July 2017 through the next rate case of projected rate case expenses in the filing
Carbon Management Research Group	Contributions to the CMRG of up to \$2M over ten years (\$200K per year starting in August 2010) for the development of technologies for reducing carbon dioxide emissions from existing coal-fired electric plants.	KPSC 2008-00308 (establishment) KPSC 2009-00549 (recovery) KPSC 2012-0022 (subsequent rate case) KPSC 2014-00372 (subsequent rate case) KPSC 2014-00371 (subsequent rate case)	Ongoing
Swap Termination - Bank of America	Termination costs incurred when LG&E terminated an interest rate swap agreement in November 2016. Prior to termination settlements on the swap were recorded as interest expense and recovered in base rates.		July 1, 2017 through May 1, 2034
Summer Storm	July 2018 Kentucky storm restoration costs	KPSC 2018-00304 (established) KPSC 2018-00295 (recovery)	May 1, 2019 through May 1, 2029
2018 Ice Storm	November 2018 Kentucky ice storm restoration costs	KPSC 2018-00295 (established)	Recovery / amortization to be addressed in next rate case.
Regulatory Liability under US GAAP (ASC	Description	Case No. / Order Approving Regulatory Asset / Liability or	Recovery / payback period
980) Forward Starting Swaps - 2013	Gain realized upon termination of forward starting swape used to protect against rising interest rates between the date of the swaps and the date the bonds were priced in 2013.	KPSC 2012-00222 (subsequent rate case) KPSC 2014-00372 (subsequent rate case) KPSC 2016-00371 (subsequent rate case)	There are two bond series. One of the series has a 10 years recovery period (from 9/2015 through 10/2025) and the other series has a 30 years recovery period (from 9/2015 through 10/2045)
ASC 740 - Income Taxes	Deferred income tax assets and liabilities which are recognized for temporary book/tax differences related to unamortized investment tax credite (ITC), excess deferred taxes and enacted changes in tax laws or rates, and are recovered through base rates.	Report of action, dated 12/13/2013 indicate cash settlement of swaps would be amortized over if led associated bond. KPSS 2005-00180 (change in tax rates beginning 2005) KPSS 2006-00457 (change in tax rates beginning 2007) KPSS 2009-00549 (prdorma adjustment related to ITC approved) KPSS 2014-00372 (subsequent rate case) KPSS 2014-00371 (subsequent rate case) KPSS 2014-00371 (subsequent rate case) KPSS 2018-00341 (rax Cuts and Jobs Act)	Ongoing
Refined Coal	Proceeds from Tinuum Group, LLC contract that include license and coal yard service fees and exclusivity and termination fees for a process to refine coal to reduce Nox and mercury emissions from coal at Mill Creek and Trimble County generating station.	KPSC 2015-00264 (established) KPSC 2016-00371 (subsequent rate case) KPSC 2018-00295 (established - TC and MC) FERC EL 15-92-000 (FERC denial to pass the proceeds of the refined coal arrangements to their customers through their Fuel Adjustment Clause)	TC and MC: amortize \$173K per year through th next rate case. Any additional reservation fees wi be added on to the reg. liability balance
Tax Cuts and Jobs Act-KPSC	Changes in tax rates as result of tax cuts and jobs act	KPSC 2018-00034 (approval) KPSC 2018-00295 (subsequent rate case)	Apr-18 to Apr-19 Authorized to expire

# (Note: Text in italics indicates a key SOX control.)

**Policy:** The books and records of Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU"), (collectively, "the Utilities"), shall be maintained in a manner to provide compliance with the regulations set forth by the Federal Energy Regulatory Commission ("FERC"), the Kentucky Public Service Commission ("KPSC"), the Virginia State Corporation Commission ("VSCC"), the Internal Revenue Service ("IRS") and the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 980, Regulated Operations, applied on a consistent basis. Responsibility for compliance with the guidelines established in this policy resides with the accounting departments initiating transactions affecting the books and records of the Utilities.

**Procedure:** The Utilities defer regulatory assets and liabilities when the amounts are to be included in rates charged to customers at a later date and comply with ASC 980 and regulatory requirements. The regulatory assets and liabilities are relieved and charged to revenue or expense as they are collected from customers through rates.

Scope: All books and records of the Utilities.

**Objective of Procedure:** Proper identification and recording of regulatory assets and regulatory liabilities in the Utilities' financial statements in accordance with ASC 980 and the FERC Uniform System of Accounts.

# General Requirements:

# Background:

LG&E and KU are public utility companies regulated by the KPSC and the FERC. KU is also regulated by the VSCC. Accounting for the Utilities must conform to United States Generally Accepted Accounting Principles ("GAAP"), as well as, principles prescribed by the Securities and Exchange Commission ("SEC"), FERC, KPSC and VSCC. Under GAAP the Utilities are subject to ASC 980 – Regulated Operations.

ASC 980, paragraph 340-25-1 states that a regulated enterprise may defer certain costs of providing services if the rates established by its regulators are designed to recover the enterprise's specific costs and the economic environment gives reasonable assurance that those rates can be charged and collected throughout the periods necessary to recover the costs. Definition 31 of 18 CFR Chapter I, used for regulatory reporting and ratemaking purposes, provides a similar description of regulatory assets and liabilities. 18 CFR, Chapter I, prescribes Uniform Systems of Accounts ("USofA") for regulated electric (Part 101) and gas (Part 201) utilities and centralized service companies, which includes the following accounts to be used for regulatory assets and liabilities:

# (Note: Text in italics indicates a key SOX control.)

182.1 Extraordinary Property Losses (requires FERC approval)182.2 Unrecovered Plant and Regulatory Study Costs (requires FERC approval)182.3 Other Regulatory Assets254 Other Regulatory Liabilities

Regulatory assets and liabilities arise from different circumstances and may be initiated by either the Utilities or a commission.

The Utilities may initiate a filing with a commission (generally KPSC or FERC) requesting that a regulatory asset or liability be allowed to be recorded. The filing explains the reason for the request, dollar amounts involved and requested amortization period. The filing can be a stand-alone filing or part of another filing, such as a general base rate filing. The filing is coordinated by the State Regulation and Rates Department ("Rates") with assistance from the Regulatory Accounting and Reporting ("RAR"), Legal, and applicable business area departments. Once filed with the appropriate commission, the commission investigates the request and issues an order. If the commission approves the request, RAR receives the order from Rates or obtains a copy from the amortization schedule and records the amortization as stipulated in the order.

In a November 3, 2016 Order, KPSC placed all jurisdictional utilities on notice that KPSC authorization is required before a utility can record as a regulatory asset an expense that meets one or more of the following four criteria: (1) an extraordinary, nonrecurring expense which could not have reasonably been anticipated or included in the utility's planning, (2) an expense resulting from a statutory or administrative directive (3) an expense in relation to an industry-sponsored initiative or (4) an extraordinary or nonrecurring expense that over time will result in a saving that fully offsets the cost. The four categories are not the only forms of deferral accounting recognized by the KPSC.

The Utilities may also experience a Major Event storm late in the fiscal year and proceed with recording the Major Event storm expenses as a deferred asset prior to receiving commission approval in order to meet financial closing deadlines. Under current KPSC regulation, the Utilities must immediately notify KPSC of the deferred asset and file an application within 90 days of the occurrence of the Major Event storm requesting KPSC approval for the deferred asset. Following an investigation, KPSC will issue an order. If the request is approved, RAR receives the order from Rates or obtains a copy from KPSC's website and prepares the amortization schedule to record the amortization as stipulated in the order. If the request is denied by KPSC, the costs will be immediately expensed.

A commission could also order that a regulatory asset or liability be recorded for the Utilities without a request from the Utilities. In this instance, RAR would receive the order from Rates or obtain a copy from the commission website and record the appropriate amount per the order.

# (Note: Text in italics indicates a key SOX control.)

It is at the discretion of the Utilities to determine if FERC jurisdictional regulatory treatment is necessary through an internal review process. FERC generation and transmission formula rate calculations are utilized to determine the amount of the regulatory asset or liability to be established and the method and period of recovery or refund of costs. Alternatively, the Utilities can forgo deferring the costs and instead include them in current rates as incurred.

## Controls performed:

The attached Appendix documents the regulatory assets and regulatory liabilities recorded on the Utilities' Balance Sheets. The Appendix provides the description, order number or regulatory authority, additional regulatory or accounting support, department responsible for recording the accounting transactions, and the recovery/payback period.

On a quarterly basis, RAR coordinates a review of all regulatory assets and liabilities recorded by the Utilities with the Rates and Legal departments. This review is based on the Appendix to this policy and is performed to ensure that documentation of all regulatory orders has been received, related to each regulatory asset and liability. This review also ensures that future recovery is expected for all regulatory assets and future refunds are expected for all regulatory liabilities.

#### Balance Sheet classification:

For GAAP purposes, regulatory assets and liabilities are classified as current if, upon initial recognition, the amount related to an item will be largely recovered or refunded within a year of the balance sheet date (e.g. regulatory mechanisms including: FAC; GSC; ECR; GLT; DSM), otherwise it will be considered noncurrent. Under FERC USofA, all regulatory assets and regulatory liabilities are considered long-term in nature.

#### Disclosure requirements:

In accordance with ASC 980, the following disclosures related to regulatory assets are required for SEC registrants:

- 1) Nature of the cost deferred
- 2) Amount deferred
- 3) Where regulatory assets are classified on balance sheet
- 4) Recovery period
- 5) Whether a carrying charge or return on the regulatory asset is being provided

If at any point, the Utilities discontinue the application of ASC 980, they will disclose the reasons for the discontinuation and identify the portion of their operations to which this discontinuation was applied and the net adjustment of the discontinuation, if material, will be classified as an event

# (Note: Text in italics indicates a key SOX control.)

or transaction that is of an unusual nature and/or infrequently occurring as a separate component of income from continuing operations. The nature and amount of any material event or transaction considered to be of an unusual nature or of a type that includes infrequency of occurrence or both will be disclosed as well.

# **1058 - Variable Interest Entities**

## ATTACHMENT A

**Policy:** To account for and disclose variable interest entities (VIEs) in conformity with FASB ASC 810, <u>Consolidations</u>.

**Procedure:** To review the applicable contracts within scope and consult with appropriate departments to identify and report all VIEs.

**Scope:** Any VIEs per the definition below evidenced in any contracts that fall under 451 – Contractual Review policy.

**Objective of Procedure:** To identify VIEs that need to be consolidated in the financial statements.

#### **General Requirements:**

#### I. Definitions

**Corporate joint venture:** A corporation owned and operated by a small group of entities (the joint venturers) as a separate and specific business or project for the mutual benefit of the members of the group. A government may also be a member of the group. The purpose of a corporate joint venture frequently is to share risks and rewards in developing a new market, product or technology; to combine complementary technological knowledge; or to pool resources in developing production or other facilities. A corporate joint venture also usually provides an arrangement under which each joint venturer may participate, directly or indirectly, in the overall management of the joint venture. Joint venturers thus have an interest or relationship other than as passive investors. An entity that is a subsidiary of one of the joint venture seldom changes, and its stock is usually not traded publicly. A noncontrolling interest held by public ownership, however, does not preclude a corporate joint venture.

**Variable interest entity:** A legal entity subject to consolidation in accordance with the provisions of the variable interest entities subsections of ASC 810-10.

**Variable interest (explicit or implicit):** The investments or other interests that will absorb portions of a VIE's expected losses or receive portions of the entity's expected residual returns are called variable interests. Variable interests in a VIE are contractual, ownership, or other pecuniary interests in a VIE that change with changes in the fair value of the VIE's net assets exclusive of variable interests. Equity interests with or without voting rights are considered variable interests if the legal entity is a VIE and to the extent that the investment is at risk as described in ASC 810-10-15-14. ASC 810-10-

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 308 of 354 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Date 11/12/19 Page 2 of 21

# **1058 - Variable Interest Entities**

## ATTACHMENT A

25-55 explains how to determine whether a variable interest in specified assets of a legal entity is a variable interest in the entity. ASC 810-10-55-16 through 55-41 describe various types of variable interests and explain in general how they may affect the determination of the primary beneficiary of a VIE.

**Expected losses:** A VIE's expected losses are the expected negative variability in the fair value of its net assets exclusive of variable interests and not the anticipated amount or variability of the net income or loss.

**Expected losses and expected residual returns:** Amounts derived from expected cash flows as described in FASB Concepts Statement No. 7, <u>Using Cash Flow Information</u> and Present Value in Accounting Measurements. However, expected losses and expected residual returns refer to amounts discounted and otherwise adjusted for market factors and assumptions rather than to undiscounted cash flow estimates. The definitions of expected losses and expected residual returns are to be considered in determining expected losses and expected residual returns of a VIE.

**Expected residual returns**: A VIE's expected residual returns are the expected positive variability in the fair value of its net assets exclusive of variable interests.

**Fair value:** The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurement concepts include: a) exit price (entry, transaction or settlement price does not necessarily equate to fair value), b) highest and best use, c) principal or most advantageous market and d) non-performance risk (e.g; credit risk) for an entity's own liabilities. Refer to ASC 820-10-30 and 820-10-35 for the guidance on fair value measurement and subsequent measurement. When measuring fair value, these concepts as well as any additional disclosures should be considered and documented. Refer to ASC 820-10-50 for the guidance on fair value disclosures.

• If the entity to be consolidated includes financial assets and financial liabilities, or non-financial assets and non-financial liabilities that are recognized or disclosed at fair value on a recurring basis, they must be valued in accordance with ASC 820, Fair Value Measurements and Disclosures.

**Implicit variable interest:** An implied pecuniary interest in an entity that changes with changes in the fair value of the entity's net assets exclusive of the variable interest. An implicit variable interest acts the same as an explicit variable interest except it involves the absorbing and (or) receiving of variability **indirectly** from an entity rather than

#### ATTACHMENT A

directly from the entity. An implicit variable interest commonly arises in arrangements involving related parties.

**Primary beneficiary:** An entity that consolidates a VIE. See "Determine the primary beneficiary" below.

**Subordinated financial support:** Variable interests that will absorb some or all of a VIE's expected losses.

#### **II. Accounting Practice**

#### Background

#### **General Consolidation**

The purpose of consolidated financial statements is to present the results of operations and the financial positions of a parent and all its subsidiaries as if the consolidated group were a single economic entity. The first step in determining whether a reporting entity has a controlling financial interest in a legal entity is to establish the basis on which the entity is to be evaluated for control (i.e., whether the consolidation determination should be based on ownership of the entity's outstanding voting interests or its variable interests). If the reporting entity has an investment in another entity that is not determined to be a VIE, the reporting entity should use the guidance in the general subsections of ASC 810 to determine whether that interest constitutes a controlling financial interest. Paragraph 810-10-15-8 states that the usual condition for a controlling financial interest is ownership of a majority voting interest, directly or indirectly, of more than 50 percent of the outstanding voting shares. ASC 810-10-45 indicates that in the preparation of consolidated financial statements, intra-entity balances and transactions shall be eliminated. Refer to the subsections under ASC 810-10-45 for additional guidance relating to preparation of consolidated financial statements.

An investment of 20-50 percent in an entity is generally accounted for under the equity method because significant influence exists, but not control. Refer to the subsections under ASC 323-10 for guidance relating to equity method investments.

Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 310 of 354 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Date 11/12/19 Page 4 of 21

#### **1058 - Variable Interest Entities**

#### ATTACHMENT A

The procedures set forth in ASC 323-10 shall be followed by an investor in applying the equity method of accounting to investments in common stock of corporate joint ventures.

An investment of less than 20 percent in an entity is generally accounted for under the cost method because significant influence does not exist. Refer to the subsections under ASC 325-20 for guidance relating to cost method investments.

Investments in partnerships and limited liability companies should be evaluated for potential consolidation pursuant to ASC 810-20.

#### Accounting for VIEs

The VIE subsections of ASC 810-10 are intended to provide guidance on the identification of, and financial reporting for these entities over which financial control is achieved through means other than voting rights.

The VIE subsections of ASC 810-10 address consolidation of entities, which, by design, have one or more of the following characteristics as detailed in ASC 810-10-15-14:

- The equity investment at risk is not sufficient to permit the entity to finance its activities without additional subordinated financial support provided by any parties, including the equity holders. An equity investment of **less than 10 percent** of the entity's total assets shall not be considered sufficient.
- The equity investors as a group lack one or more of the following essential characteristics of a controlling financial interest:
  - ✓ The power through voting rights or similar rights to direct the activities of an entity that most significantly impact the entity's economic performance.
  - $\checkmark$  The obligation to absorb the expected losses of the entity.
  - $\checkmark$  The right to receive the expected residual returns of the entity.
- The equity investors have voting rights that are not proportional to their economic interests (i.e., their obligations to absorb the expected losses of the entity, their rights to receive the expected residual returns of the entity, or both), and substantially all of the activities of the entity involve or are conducted on behalf of an investor that has disproportionately few voting rights.

Variable interests can include, but are not limited to, financial interests such as equity and debt securities, guarantees of assets or liabilities, and other instruments

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 311 of 354 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Date 11/12/19 Page 5 of 21

# **1058 - Variable Interest Entities**

## ATTACHMENT A

whose values change with changes in the fair value of the VIE's net assets as well as certain service contracts. (See "Attachment C –Listing of Arrangements That May Indicate an Interest in a Potential VIE" for a more comprehensive listing of potential variable interests.)

VIEs must be consolidated by the entity that is determined to be the primary beneficiary. Certain disclosures are required to be made by the primary beneficiary and by an enterprise that holds a significant variable interest in a VIE but is not the primary beneficiary.

Disclosure requirements- The disclosure requirements are outlined in ASC 810-10-50.

#### **III.** Procedures

Note: Detailed step-by-step procedures are included in "Attachment A". These procedures are a guide for accounting personnel responsible for performing and documenting VIE evaluations and disclosures.

- ♦ 451 Contract Review policy, as administered by the Financial Reporting department ("FR"), governs the process for identifying contracts which meet designated thresholds for which VIE review is required.
- FR is responsible for reviewing all applicable contracts and determining whether the agreement is within the scope of the VIE subsections of ASC 810-10 and if so, performing an analysis of the agreement to determine whether the agreement is a variable interest.
- FR is responsible for coordinating the assessment procedures for reconsideration of initial determination of VIE status on an annual or as needed basis. (See Attachment B for reconsideration procedures.)

# **Overview of Procedures**

- Upon entering into a new arrangement with an entity that is potentially within the scope of the VIE subsections of ASC 810-10, an analysis must be performed to determine if the agreement results in the reporting enterprise having a variable interest in the entity, unless it meets a scope exception.
- If the reporting enterprise has a variable interest in the entity, then an analysis should be performed to determine whether the entity is a VIE.

NOTE: Particular attention should be given to affiliate entities qualifying as VIEs. Evaluation should be performed at individual SEC registrant levels if

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 312 of 354 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Date 11/12/19 Page 6 of 21

# **1058 - Variable Interest Entities**

## ATTACHMENT A

necessary as there may not be an impact at a consolidated LKE level but there may be implications to another SEC registrant.

- If the analysis indicates that the entity is a VIE, then a determination needs to be made as to the primary beneficiary. For entities that meet a scope exception or do not qualify as VIEs, other appropriate generally accepted accounting principles regarding consolidation should be followed.
  - If the reporting enterprise is the primary beneficiary, then the initial measurement and consolidation requirements outlined in Step 5 of Attachment A-Detailed Procedures must be applied.
  - After initial measurement, the assets, liabilities and noncontrolling interests of a consolidated VIE shall be accounted for in the consolidated financial statements as if the entity were consolidated based on voting interests.
  - If a variable interest holder is not the primary beneficiary, the holder must ensure compliance with disclosure requirements as outlined in ASC 810-10-50.
- ♦ A re-evaluation of the initial determination as to whether an entity qualifies as a VIE is required upon the occurrence of one or more of the following events as outlined in ASC 810-10-35-4.
- ♦ A re-evaluation of the initial determination as to primary beneficiary is continuous but there are certain events that may cause the reviewer to believe the primary beneficiary of a VIE has changed. Some examples may include: acquisition/sale of interests that constitute a change of control, lapse of certain participating or substantive kick-out rights, and termination of arrangements that conveyed power.
- Conclusions, along with any supporting analysis performed, must be documented in writing, reviewed and approved. Decisions and economic analysis supporting the determinations made must be reviewed with the Controller (or designee).
- Significant changes in consolidation or deconsolidation should be reviewed and approved by the Controller (or designee).

# Procedures Related to the Evaluation of a Variable Interest Entity under ASC 810

#### Procedures to Evaluate Potential VIEs

<u>Initial Steps</u> (Note: When using the ASC guidance listed, pay attention to transition guidance as this may provide updated information that is applicable to LKE) Step 1: Determine if the Variable Interest Entities Subsections of ASC 810-10 apply to the entity (Is the entity within the scope of the guidance as outlined in ASC 810-10-15?)

• VIE guidance applies to legal entities. A "legal entity" is defined as any legal structure used to conduct activities or to hold assets. Examples include corporations, partnerships, limited liability companies and grantor trusts and trusts.

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 315 of 354 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Date 11/12/19 Page 9 of 21

#### **1058 - Variable Interest Entities**

#### ATTACHMENT A

- Certain types of entities are excluded from the scope of VIE guidance under ASC 810-10-15-12 and 17:
  - a) Not-for-profit organizations
  - b) Employee benefit plans
  - c) Separate accounts of life insurance entities
  - d) Investments accounted for at fair value in accordance with the specialized accounting guidance in ASC 946
  - e) Governmental organizations
  - f) Inability to obtain information about an entity ("Information Out") An enterprise (the holder) with an interest in a VIE or potential VIE created before December 31, 2003, if after making an exhaustive effort, is unable to obtain the information necessary to determine if an entity is a VIE, determine if the enterprise is the primary beneficiary, or the enterprise is unable to perform the accounting required to consolidate the VIE for which it is determined to be the primary beneficiary.

NOTE: This exception only applies as long as the reporting enterprise continues to be unable to obtain the necessary information. Exhaustive effort must be continuous, adequately documented and disclosed.

- h) Certain entities that meet the definition of a business, as defined in the Codification, unless one or more of the following conditions exist:
  - The reporting enterprise, its related parties or both participated significantly in the design or redesign of the entity. However, this condition does not apply if the entity is an operating joint venture under joint control of the reporting enterprise and one or more independent parties or a franchisee.
  - The entity is designed so that substantially all of its activities either involve or are conducted on behalf of the reporting enterprise and its related parties.
  - The reporting enterprise and its related parties provide more than half of the total equity, subordinated debt, and other forms of subordinated financial support to the entity based on an analysis of the fair values of the interests in the entity.

#### ATTACHMENT A

• Activities of the entity are primarily related to securitizations or other forms of asset-backed financings or single-lessee leasing arrangements.

# Step 2: Determine if the contract gives a LKE entity a variable interest (as defined in the Codification) in the counterparty. Determine if the contract gives the counterparty a variable interest in a LKE entity.

Note for contracts that are derivatives: According to ASC 810-10-25-34 through 36 (formerly FSP FIN 46(R)-6), derivative contracts are often creators of variability and therefore not variable interests:

The following characteristics, if both are present, are strong indications that a derivative instrument is a creator of variability (and thus not an absorber of variability and not a variable interest):

- Its underlying is an observable market rate, price, index of prices or rates, or other market observable variable (including the occurrence or nonoccurrence of a specified market observable event. Any contract that is classified as Level 3 in the fair value hierarchy because its fair value measurement requires significant unobservable inputs would not meet this criterion. As such, the derivative contract could NOT automatically be determined to not be a variable interest.
- The derivative counterparty is senior in priority relative to other interest holders in the legal entity.

For a listing of potential arrangements that may indicate an interest in a potential VIE see Attachment C- Listing of Arrangements That May Indicate an Interest in a Potential VIE

If a variable interest does not exist, the entity is not a VIE. If a variable interest does exist, continue to Step 3 to determine if the entity is a VIE.

# Step 3: Determine if the entity is a VIE (ASC 810-10-15)

An entity would be considered a VIE and be subject to consolidation if any of the conditions listed in ASC 810-10-15-14 exist as follows:

#### ATTACHMENT A

- a. The total equity investment at risk is not sufficient to permit the entity to finance its activities without additional subordinated financial support provided by any parties, including equity holders.
  - For this purpose, the total equity investment at risk has all of the following characteristics:
    - Includes only equity investments in the legal entity that participate significantly in profits and losses even if those investments do not carry voting rights.
    - Does not include equity interests that the legal entity issued in exchange for subordinated interests in other VIEs.
    - Does not include amounts provided to the equity investor directly or indirectly by the legal entity or by other parties involved with the legal entity (for example, by fees, charitable contributions, or other payments), unless the provider is a parent, subsidiary, or affiliate of the investor that is required to be included in the same set of consolidated financial statements as the investor.
    - Does not include amounts financed for the equity investor (for example, by loans or guarantees of loans) directly by the legal entity or by other parties involved with the legal entity, unless that party is a parent, subsidiary, or affiliate of the investor that is required to be included in the same set of consolidated financial statements as the investor.

Paragraphs 810-10-25-45 through 25-47 discuss the amount of the total equity investment at risk that is necessary to permit a legal entity to finance its activities without additional subordinated financial support.

b. As a group the holders of the equity investment at risk lack any one of the following three characteristics:

1. The power, through voting rights or similar rights, to direct the activities of a legal entity that most significantly impact the entity's economic performance. The investors do not have that power

#### ATTACHMENT A

through voting rights or similar rights if no owners hold voting rights or similar rights (such as those of a common shareholder in a corporation or a general partner in a partnership). Legal entities that are not controlled by the holder of a majority voting interest because of noncontrolling shareholder veto rights as discussed in paragraphs 810-10-25-2 through 25-14 are not VIEs if the shareholders as a group have the power to control the entity and the equity investment meets the other requirements of the variable interest entities subsections. Kick-out rights or participating rights held by the holders of the equity investment at risk shall not prevent interests other than the equity investment from having this characteristic unless a single equity holder (including its related parties and de facto agents) has the unilateral ability to exercise such rights. Alternatively, interests other than the equity investment at risk that provide the holders of those interests with kick-out rights or participating rights shall not prevent the equity holders from having this characteristic unless a single reporting entity (including its related parties and de facto agents) has the unilateral ability to exercise those rights. A decision maker also shall not prevent the equity holders from having this characteristic unless the fees paid to the decision maker represent a variable interest based on paragraphs 810-10-55-37 through 55-38.

2. The obligation to absorb the expected losses of the legal entity. The investor or investors do not have that obligation if they are directly or indirectly protected from the expected losses or are guaranteed a return by the legal entity itself or by other parties involved with the legal entity. See paragraphs 810-10-25-55 through 25-56 and Example 1 (see paragraph 810-10-55-42) for a discussion of expected losses.

3. The right to receive the expected residual returns of the legal entity. The investors do not have that right if their return is capped by the legal entity's governing documents or arrangements with other variable interest holders or the legal entity. For this purpose, the return to equity investors is not considered to be capped by the existence of outstanding stock options, convertible debt, or similar interests because if the options in those instruments are exercised, the holders will become additional equity investors.

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 319 of 354 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Date 11/12/19 Page 13 of 21

## **1058 - Variable Interest Entities**

#### ATTACHMENT A

If interests other than the equity investment at risk provide the holders of that investment with these characteristics or if interests other than the equity investment at risk prevent the equity holders from having these characteristics, the entity is a VIE.

c. The equity investors as a group also are considered to lack the characteristic in (b)(1) if both of the following conditions are present:

1. The voting rights of some investors are not proportional to their obligations to absorb the expected losses of the legal entity, their rights to receive the expected residual returns of the legal entity, or both.

2. Substantially all of the legal entity's activities (for example, providing financing or buying assets) either involve or are conducted on behalf of an investor that has disproportionately few voting rights. This provision is necessary to prevent a primary beneficiary from avoiding consolidation of a VIE by organizing the legal entity with non-substantive voting interests. Activities that involve or are conducted on behalf of the related parties of an investor with disproportionately few voting rights shall be treated as if they involve or are conducted on behalf of that investor. The term related parties in this paragraph refers to all parties identified in paragraph 810-10-25-43, except for de facto agents under paragraph 810-10-25-43(d).

For purposes of applying this requirement, reporting entities shall consider each party's obligations to absorb expected losses and rights to receive expected residual returns related to all of that party's interests in the legal entity and not only to its equity investment at risk.

**NOTE:** If the VIE Reviewer is unsure about whether the entity qualifies as a VIE then he or she should contact FR for assistance in the assessment.

If it is determined that the entity is a VIE, the primary beneficiary must be determined. Therefore, continue to Step 4.

#### **Step 4: Determine the primary beneficiary**

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 320 of 354 Carrett Date 11/12/19 Page 14 of 21

## **1058 - Variable Interest Entities**

#### ATTACHMENT A

Determine if a PPL entity has a controlling financial interest in the VIE by answering the following two questions:

- 1.) List the activities that most significantly impact the economic performance of the VIE and indicate who has the power to control those activities. Indicate which party has the power to direct the activities that most significantly impact the VIE's economic performance.
- 2.) Determine which party (parties) has (have) the obligation to absorb losses and/or the right to receive benefits that could be potentially significant to the VIE.

The entity that has the power as determined in 1) and the obligation to absorb losses/right to receive benefits as determined in 2) is the primary beneficiary and must consolidate the VIE.

If the enterprise is the primary beneficiary, continue to Step 5. If the enterprise is not the primary beneficiary, disclosures may still apply in Step 6.

# Step 5: Consolidate the VIE (Refer to ASC 810-10-30 for Initial Measurement and 810-10-35 for Subsequent Measurement)

Entities under Common Control

If the primary beneficiary of a VIE and the VIE are under common control, the primary beneficiary shall initially measure the assets, liabilities, and noncontrolling interests of the VIE at amounts at which they are carried in the accounts of the reporting entity that controls the VIE (or would be carried if the reporting entity issued financial statements prepared in conformity with GAAP.

Entities Not under Common Control

The initial consolidation of a VIE that is a business is a business combination and shall be accounted for in accordance with the provisions in ASC 805.

When a reporting entity becomes the primary beneficiary of a VIE that is not a business, no goodwill shall be recognized. The primary beneficiary initially shall measure and recognize the assets (except for goodwill) and liabilities of the VIE in accordance with ASC 805-20-25 and 805-20-30. However, the primary beneficiary initially shall measure assets and liabilities that it has transferred to that VIE at, after, or shortly before the date that the reporting entity became the primary beneficiary at the same amounts at which the assets and liabilities would

Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 321 of 354 Carrett Date 11/12/19 Page 15 of 21

# **1058 - Variable Interest Entities**

#### ATTACHMENT A

have been measured if they had not been transferred. No gain or loss shall be recognized because of such transfers.

The primary beneficiary of a VIE that is not a business shall recognize a gain or loss for the difference between (a) and (b):

- a. The sum of:
  - 1. The fair value of any consideration paid
  - 2. The fair value of any noncontrolling interests
  - 3. The reported amount of any previously held interests
- b. The net amount of the VIE's identifiable assets and liabilities recognized and measured in accordance with ASC 805.

#### Step 6: Prepare appropriate disclosures in accordance with ASC 810-10-50.

All enterprises with variable interest in VIE's are subject to the disclosure requirements.

Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 322 of 354 Date 11/12/19 Page 16 of 21

## **1058 - Variable Interest Entities**

#### ATTACHMENT A

Excerpt from Accounting Standards Codification Consolidation — Overall Disclosure – Variable Interest Entities

#### 810-10-50-2AA

The principal objectives of this Subsection's required disclosures are to provide financial statement users with an understanding of all of the following:

- a. The significant judgments and assumptions made by a reporting entity in determining whether it must do any of the following:
  - 1. Consolidate a variable interest entity (VIE)
  - 2. Disclose information about its involvement in a VIE.
- b. The nature of restrictions on a consolidated VIE's assets reported by a reporting entity in its statement of financial position, including the carrying amounts of such assets and liabilities.
- c. The nature of, and changes in, the risks associated with a reporting entity's involvement with the VIE.
- d. How a reporting entity's involvement with the VIE affects the reporting entity's financial position, financial performance, and cash flows.

#### ATTACHMENT B

# <u>On-going steps for Reconsideration of a VIE and whether an enterprise is the primary beneficiary</u>

Determine if a reconsideration event has occurred which could change the status of the VIE as outlined in ASC 810-10-35.

The assessment to determine if the primary beneficiary of a VIE has changed is continuous and therefore must be done at least annually or on an as needed basis.

Below is an excerpt from ASC 810-10-35-4 that lists some reconsideration events for a VIE.

Excerpt from Accounting Standards Codification

Consolidation — Overall

Subsequent Measurement — Variable Interest Entities

810-10-35-4

A legal entity that previously was not subject to the Variable Interest Entities Subsections shall not become subject to them simply because of losses in excess of its expected losses that reduce the equity investment. The initial determination of whether a legal entity is a VIE shall be reconsidered if any of the following occur:

- a) The legal entity's governing documents or contractual arrangements are changed in a manner that changes the characteristics or adequacy of the legal entity's equity investment at risk.
- b) The equity investment or some part thereof is returned to the equity investors, and other interests become exposed to expected losses of the legal entity.
- c) The legal entity undertakes additional activities or acquires additional assets, beyond those that were anticipated at the later of the inception of the entity or the latest reconsideration event, that increase the entity's expected losses.
- d) The legal entity receives an additional equity investment that is at risk, or the legal entity curtails or modifies its activities in a way that decreases its expected losses.
- e) Changes in facts and circumstances occur such that the holders of the equity investment at risk, as a group, lose the power from voting rights or similar rights of those investments to direct the activities of the entity that most significantly impact the entity's economic performance.

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 324 of 354 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Date 11/12/19 Page 18 of 21

# **1058 - Variable Interest Entities**

## ATTACHMENT B

Additionally, a reconsideration assessment of whether an enterprise is the primary beneficiary should be performed. This assessment should occur when circumstances warrant a change in an enterprise's status as the primary beneficiary. The primary beneficiary changes when there is a change in an enterprise's power or benefits. Some examples of circumstances that may cause a change in the primary beneficiary include, but are not limited to:

- > Acquisition or sale of interest that constitute a change in control
- Lapse of certain rights such as participating or substantive kick-out rights (e.g. a lapse in participating rights held by one party to determine the operating budget of a VIE after the first two years of a VIE's existence)
- > Termination of contractual arrangement that conveyed power.

Only substantive terms, transactions and arrangements should be considered when applying the VIE model. Any term, transaction or arrangement is disregarded if it does not have a substantive effect on (1) an entity's status as a VIE; (2) an enterprise's power over a VIE; or (3) an enterprise's obligation to absorb losses or its right to receive benefits of the entity.

LKE reviews contracts over \$1 million as part of the Contract Review process to determine whether or not a VIE is present. LKE will review previously identified VIE's on an annual basis to reassess primary beneficiary. This re-assessment will be documented in a memo.

#### ATTACHMENT C

#### Listing of Arrangements That May **Indicate an Interest in a Potential VIE**

Some examples of common interest/ arrangements/entities that may be subject to consolidation are as follows:

- Equity securities
- Debt instruments
- Guarantees
- ◆ Put/call options
- Franchise arrangements
- Management and service contracts
- Derivatives (According to ASC 810-10-25-34 through 36, derivative contracts are often creators of variability and therefore not variable interests)
- Residual value guarantees and purchase options in connection with operating leases
- Single purpose insurance and reinsurance entities
- Investment companies-private equity funds and venture capital funds
- Leasing arrangements
- Limited liability companies lot option deposits of homebuilders, land banks used by homebuilders
- Partnerships real estate, investment
- Product and inventory financing arrangements-vendor financing arrangements
- Research and development ventures
- Sale or transfer of assets to entities owned by related parties (including members of management and employees)
- Securitization vehicles commercial paper conduits, collateralized debt obligations, collateralized bond obligations and collateralized loan obligations
- Tax-motivated structures affordable housing partnerships, synthetic fuel partnerships, wind farms
- Trusts trust preferred securities, grantor trusts
- ♦ Joint ventures

Some specific arrangements that may have a variable interest in an entity and requires further evaluation:

- ♦ Leasing/real estate
  - ✓ Sale-leasebacks of real estate or equipment
  - ✓ Built-to-suit real estate or equipment subject to an operating lease (e.g. office buildings, manufacturing plants, airplanes)

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 326 of 354 LG&E and KU Energy LLC Accounting Policy and Procedures Date 9/30/14

Page 20 of 21

# Variable Interest Entities Policy and Procedures

## ATTACHMENT C

- ✓ Synthetic leases (lease structures that are treated as operating leases for accounting purposes, even though for tax purposes the lessee is considered the owner)
- ✓ Certain partnerships in real estate investments
- Financial assets
  - ✓ Transactions involving the sale/transfer of financial assets such as receivables (e.g. factoring arrangements or securitizations) to a special purpose entity
  - Transactions involving a commercial paper conduit, such as sponsoring a conduit to purchase and securitize assets from third parties
  - ✓ Vehicles used to hedge off-balance sheet positions
- ♦ Start-ups, research and development
  - ✓ Funding arrangements for research and development
  - ✓ Newly formed entities that are designed to manage or fund the start-up of a new product or business
  - ✓ Entities sponsored by venture capital enterprises
- Transactions involving management, officers and employees
  - ✓ The transfer or sale of assets to an entity owned by a single employee or by members of an entity's management
  - ✓ Management of an unconsolidated asset or business by an enterprise or its officers
  - ✓ Funding of an entity's independent equity by another enterprise's managing members

# • Insurance

- ✓ Insurance associations (reciprocals)
- ✓ Reinsurance securitizations
- Vendor financing
  - ✓ Structures designed to help customers finance the purchases of products and services (i.e. vendor financings) often in collaboration with a financial institution

# • Obligations associated with other entities

- ✓ Certain captive arrangements operated on behalf of an investor
- An enterprise's guarantee of (i) an unconsolidated entity's performance or debt or (ii) the value of an asset held by the unconsolidated entity (including explicit and implicit guarantees)
- ✓ An enterprise's contingent liability should an unconsolidated entity default
- ✓ A transaction with an embedded "put" option that enables the entity or an outside party to sell the assets and/or operations back to an enterprise
- ✓ A transaction with an embedded call option that allows an enterprise to repurchase the assets and/or operations that were previously sold to another entity
- ✓ An enterprise's enhancement of another entity's credit (i.e. via escrow funds, collateral agreements, discounts on transferred assets, take-or-pay arrangements)

Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 327 of 354 Date 9/30/14 Page 21 of 21

## Variable Interest Entities Policy and Procedures

#### ATTACHMENT C

✓ An agreement requiring an enterprise to make a payment if its credit is downgraded

# • Rights to assets

- ✓ Rights to use an "under construction" asset not recorded in the enterprise's balance sheet (the debt used to fund the construction being recourse only to that specified asset)
- ✓ Leasing assets from an entity that financed these assets with debt that is recourse to the individual asset rather than to all of the lessor entity's assets
- ✓ The transfer of financial assets to an entity subject to debt that is recourse only to those financial assets rather than to all of the entity's assets
- ✓ Variable lease payments, variable license-fee payments, or other variable payments for the right to use an asset (i.e. the payments change with the fluctuations in market interest rates)
- ✓ Ownership of an asset that an enterprise holds for tax purposes but does not record on its balance sheet

# • Other

- ✓ Sale of assets or operations where the seller retains some governance rights and/or an economic interest
- ✓ The purchase of businesses or assets by a third party or a newly formed entity on behalf of another company (i.e. an off-balance-sheet acquisition vehicle)
- ✓ Investments made through intermediaries in entities that generate losses from a financial-reporting perspective
- ✓ Tolling arrangements with project finance companies
- ✓ Transactions in which an enterprise's primary counterparties are financial institutions (i.e. banks, private equity funds, insurance companies)
- ✓ Arrangements with an entity whose capital structure (often the equity) is partially owned by (or provided by) a charitable trust
- ✓ An unconsolidated entity whose name is included in the enterprise's name
- ✓ When an enterprise provides administrative or other services on behalf of an unconsolidated entity or services its assets
- ✓ When an unconsolidated entity provides financing or other services exclusively to an enterprise, its vendors or customers

# (Note: Text in italics indicates a key SOX control.)

# **Policy:**

For each reporting period, Louisville Gas and Electric (LG&E) and Kentucky Utilities (KU) must accrue revenue earned but not billed or invoiced.

# **Procedure:**

The procedures for calculating unbilled and un-invoiced electric and gas revenue accruals are described below.

## Scope:

Applicable to unbilled and un-invoiced retail and wholesale revenues of LG&E and KU. KU's retail revenues include those for customers served by Old Dominion Power Company (ODP).

# **Objective of Procedure:**

The calculation of unbilled and un-invoiced revenues, and the resulting accruals, must be performed by the Revenue Accounting and Analysis department for retail revenues, wholesale municipal revenues and other third party wholesale revenues in a consistent manner to ensure that earned revenues for each reporting period are properly recognized (per CON 5: Recognition and Measurement in Financial Statements of Business Enterprises<sup>1</sup>).

# **General Requirements:**

# Detailed Procedures Performed:

# LG&E, KU, and ODP Unbilled and Un-invoiced Electric Revenues (Retail)

In accounting terms, billed and invoiced are typically used synonymously. However, in CCS these terms refer to two separate processes. When an item is billed in CCS, dollar amounts are calculated on usage (i.e., consumption charges). Subsequent to the billing process in CCS is the invoicing process where taxes, late payment fees and other non-consumption charges are added, the actual invoice is created, and the amounts are posted as revenues.

Unbilled retail revenues consist of the unbilled revenue accrual associated with cycle billing, which is designed to accrue revenues for usage after the meter read date, and the accruals for

<sup>&</sup>lt;sup>1</sup> Financial Accounting Standards Board (FASB) Statement of Financial Accounting Concepts (SFAC) CON 5: Recognition and Measurement in Financial Statements of Business Enterprises

# (Note: Text in italics indicates a key SOX control.)

amounts invoiced after month-end cut-off in CCS and un-invoiced amounts in CCS, which are designed to ensure completeness of revenues (i.e., revenue is recorded for each customer every month, even if the customer is not billed that month)<sup>2</sup>.

The process of calculating the unbilled amounts (due to cycle billing) is as follows:

- 1) The daily kWh available to retail customers (including generation and net wholesale sales and purchases) is calculated by taking the total daily output (load) and reducing it by the following:
  - a. line losses;
  - b. sales to wholesale municipal customers (KU only);
  - c. kWh to serve ODP customers<sup>3</sup> (KU only);
  - d. company usage;
  - e. free kWh<sup>4</sup> (ODP only); and
  - f. specifically identified large customers<sup>5</sup> (LG&E and KU only).
- 2) An unbilled percentage of each day's available load is estimated by dividing the monthto-date number of meters read by the total number of meters read applicable to the current month. (This percentage is an estimate of the consumption by day that will not be billed until the next month; thus, it is "unbilled" for the current month).
- 3) Each day's unbilled percentage (calculated in 2 above) is multiplied by the respective day's available load to estimate the billed and unbilled kWh for each day. The sum of the daily unbilled amounts equals the total unbilled kWh for the current month.

 $<sup>^{2}</sup>$  Wholesale municipal revenues are also billed and invoiced through CCS. However, because their meters are read on the last day of the month, they are excluded from the unbilled revenue accrual resulting from cycle billing but included, as applicable, in the after cut-off and/or un-invoiced accruals.

<sup>&</sup>lt;sup>3</sup> The kWh to serve ODP customers are excluded from KU's load in the calculation of KU's Kentucky unbilled revenue but included in ODP's load for the calculation of ODP's unbilled revenue.

<sup>&</sup>lt;sup>4</sup> Certain municipal buildings in the ODP service territory receive a small a mount of free energy in lieu of a franchise fee. Since no revenue is derived from the free energy, the kWh is removed from ODP's load for the calculation of ODP's unbilled revenue.

 $<sup>^{5}</sup>$  The meters for certain very large customers are generally read and recorded near the last day of the month from portion cycles 17 through 20. As a result, there is no unbilled revenue associated with these customers. Because their energy usage is significant, the kWh is removed from LG&E's and KU's load used in the unbilled revenue calculations. ODP does not have any significant, large customers.

(Note: Text in italics indicates a key SOX control.)

- 4) The total unbilled kWh for each day is then allocated to individual revenue classes<sup>6</sup> using an estimated daily usage factor for each customer group. The allocation factors are determined by the Sales Analysis and Forecasting department using historical data of monthly sales trends by revenue class and the correlation of Heating Degree Days (HDD) and Cooling Degree Days (CDD) to energy consumption by revenue class, except for the Industrial revenue class since these volumes are not significantly driven by weather. The total unbilled kWh during the month is then determined for each type of customer by adding the daily unbilled kWh by revenue class. Industrial unbilled kwh is calculated by applying a 12-month average industrial billed kWh to a 12-month average unbilled percentage.
- 5) Unbilled revenues are then calculated by individual revenue class and component, as applicable for each company, by multiplying the total unbilled kWh for each revenue class (calculated in 4 above) by the applicable rates for each underlying revenue component (e.g., base energy non-fuel revenues, base energy fuel revenues, base service charge, etc.) as described below\*:
  - a. For the base energy non-fuel and the base energy Environmental Cost Recovery (ECR) unbilled accruals, the rates per unbilled kWh are fixed rates that are calculated for each revenue class by component based on the first billing month after a rate change that does not include prorated rates (i.e., if new rates become effective in January on a service rendered basis, the calculation will be based on fixed amounts for February).
  - b. For the Fuel Adjustment Clause (FAC) and Demand-Side Management (DSM) rate mechanism unbilled accruals, the unbilled kWh rate is determined using the applicable billing rate from the following month.
  - c. Because the base service charge and demand charge (including the base demand ECR component) revenue components are not kWh based charges, the unbilled pricing for these amounts are determined differently from the kWh dependent revenue components previously discussed. The unbilled base service charge, demand charge, and demand ECR charge unbilled accruals are fixed amounts that are calculated based on the rates in effect for the following billing month after a rate change. The calculation consists of the billed revenue for the base service charge, demand charge, and demand ECR charge multiplied by the annual average unbilled percentage (i.e., total unbilled kWh for the month/total kWh

<sup>&</sup>lt;sup>6</sup> Electric retail revenue classes include Residential, Commercial, Industrial, Street Lighting, and Public Authority.

(Note: Text in italics indicates a key SOX control.)

available). The amounts are then accrued and reversed each month until the next rate change.

Analysis of the demand charge is performed periodically to ensure any significant customer changes (e.g., permanent or temporary discontinued operations, customer plant expansion or additions, etc.) are recognized before the books are closed each month. Additionally, the fixed amount will be adjusted twice a year to reflect the changes in those demand rates with a seasonal (summer/winter) price difference.

- d. The base energy fuel unbilled accrual is based on the base fuel factor in place for the following month per the FAC tariff.
- e. The ECR rate mechanism unbilled accrual is based on the ECR surcharge/billing factor in place for the following month per the applicable Monthly Environmental Surcharge Report filed with the Kentucky Public Service Commission. Because the ECR rate mechanism revenues are calculated based on revenues rather than volumes, the ECR component unbilled revenues are calculated by multiplying the ECR surcharge/billing factor by the sum of the revenue component unbilled accruals previously discussed in a through d.

\* The above calculations may be revised/updated as business needs change.

6) The Revenue Accounting and Analysis department prepares journal entries to record the current month's unbilled electric revenue accruals based on the results of the calculations described above. These entries are reversed in the subsequent month when the unbilled amounts are actually billed.

As illustrated in the documentation above, the unbilled electric revenue calculations are performed at a disaggregated level sufficient to delineate unbilled revenues by revenue class and component. Thus, consistent with the accounting for billed electric revenues, unbilled electric revenues are posted to unique GLAFFs for each revenue class and revenue component.

In addition to the unbilled electric revenue calculations, which account for unbilled electric revenues resulting from cycle billing, additional accruals are made for:

• <u>Amounts invoiced after cut-off</u>: These accruals relate to customer bills, including municipals, that were invoiced after CCS has closed for the current period but relate to the current month being reported. The invoiced after cut-off accruals are determined by identifying customers billed during the first two days after cut-off, where the CCS billing

(Note: Text in italics indicates a key SOX control.)

period includes only dates from the previous months (i.e., they should have been billed during the month being closed), and recording an accrual for the amount of those revenues.

• <u>Un-invoiced amounts</u>: These accruals relate to all customers, including municipals, that should have been billed during the current month but were not because of CCS billing issues, out-sorts, implausibles or other factors<sup>7</sup>. The un-invoiced accruals are determined by identifying all customers that were not billed in CCS during the current month<sup>8</sup> (excluding customers already included in the invoiced after cut-off accruals) and estimating an accrual for the current period based on historical data (i.e., customer usage during prior months). The un-invoiced accruals capture revenues for meters previously read (and billed in CCS) but not invoiced by the end of the current month.

The items identified in both the after cut-off accrual and the un-invoiced accrual represent transactions that should have been billed and therefore would have been excluded from the amounts allocated to unbilled (described in 2 and 3 above). Therefore, accrual of these amounts does not represent double counting or an overlap with the unbilled accrual.

# LG&E Unbilled and Un-invoiced Gas Revenues (Retail)

A corresponding accrual for the gas delivered during the month but unbilled at the end of the month is made similar to the electric unbilled (due to cycle billing). The process of calculating the gas unbilled amounts is as follows:

 The daily gas net output (excluding wholesale sales and purchases) in thousand cubic feet (Mcf) is calculated by taking the total daily output (load) and reducing it by the following:

<sup>&</sup>lt;sup>7</sup> CCS reviews all meter reads and billing amounts to determine that they are within certain predetermined parameters. When meter reads are negative or very high compared to prior periods, they are identified as implausible and do not progress through the invoicing process until manually approved by the Billing Integrity department, Similarly, billing amounts that are not within the established parameters are out-sorted until manually approved by the Billing Integrity department.

<sup>&</sup>lt;sup>8</sup> The accrual for un-invoiced customers only includes an estimated un-invoiced amount for the current month and does not include amounts for prior months that may still be un-invoiced. However, these additional periods may be detected and accrued through other analytical procedures (i.e., the demand analysis, the pricing of the large un-invoiced customers, and the after cut-off procedures). Historically, the dollar amount that remains un-invoiced for multiple periods has been insignificant relative to the total un-invoiced accrual.

(Note: Text in italics indicates a key SOX control.)

- a. gas transport9;
- b. line losses;
- c. company usage<sup>10</sup>;
- d. gas used in generation<sup>10</sup>; and
- e. specifically identified large customers<sup>5</sup>.
- 2) An unbilled percentage of each day's available load is estimated by dividing the monthto-date number of meters read by the total number of meters read applicable to the current month. (This percentage is an estimate of the consumption by day that will not be billed until the next month; thus, it is "unbilled" for the current month).
- 3) Each day's unbilled percentage (calculated in 2 above) is multiplied by the respective day's net output to estimate the billed and unbilled Mcf for each day. The sum of the daily unbilled amounts equals the total unbilled Mcf for the current month.
- 4) The total unbilled Mcf for the month is then allocated to individual revenue classes<sup>11</sup> using an estimated daily usage factor for each customer group. The allocation factors are determined by the Sales Analysis and Forecasting department using historical data of monthly sales trends by revenue class and the correlation of HDD and CDD to gas consumption by revenue class. The total unbilled Mcf during the month is then determined for each type of customer by adding the daily unbilled Mcf by revenue class.
- 5) Unbilled revenues are then calculated by individual revenue class and component by multiplying the total unbilled Mcf for each revenue class (calculated in 4 above) by the applicable rates for each underlying revenue component (e.g., base service charge, distribution charge, etc.) as described below\*:
  - a. For the distribution charge unbilled accrual, the rate per unbilled Mcf is a fixed rate that is calculated for each revenue class based on the first billing month after a rate change that does not include prorated rates (i.e., if new rates become effective in January on a service rendered basis, the calculation will be based on fixed amounts for February) and is adjusted for applicable rate changes during the

<sup>&</sup>lt;sup>9</sup> The meters for gas transport customers are all read and recorded on the last day of the month. As a result, there is no unbilled revenue associated with these customers. Because their energy usage is significant, the Mcf is removed from LG&E's load used in the unbilled revenue calculations.

 $<sup>^{10}</sup>$  The gas used in the combustion turbines is classified as gas used in generation while all other gas used by LG&E or KU is considered company usage.

<sup>&</sup>lt;sup>11</sup> Gas retail revenue classes include Residential, Commercial, Industrial, and Public Authority.
# **1059 – Unbilled Revenue**

(Note: Text in italics indicates a key SOX control.)

following month. Additionally, the fixed amount will be adjusted twice a year to reflect the changes in the distribution charge rates with a seasonal (summer/winter) price difference.

- b. For the Demand-Side Management (DSM), Gas Supply Clause (GSC), and Gas Line Tracker (GLT) rate mechanism unbilled accruals, the unbilled kWh rate is determined using the applicable billing rate from the following month.
- c. Because the base service charge revenue component is not a Mcf based charge, the unbilled pricing for this amount is determined differently from the Mcf dependent revenue components previously discussed. The unbilled base service charge is a fixed amount that is calculated based on the first billing month after a rate change that does not include prorated rates (i.e., if new rates become effective in January on a service rendered basis, the calculation will be based on fixed amounts for February). The calculation consists of the billed revenue for the base service charge multiplied by the unbilled percentage (i.e., total unbilled Mcf for the month/total gas net output). The amounts are then accrued and reversed each month until the next rate change.
- d. The Weather Normalization Adjustment (WNA) unbilled accrual is calculated separately and is based on the formula provided in the WNA tariff.
- \* The above calculations may be revised/updated as business needs change.
- 6) The Revenue Accounting and Analysis department prepares a journal entry to record the current month's unbilled gas revenue based on the results of the calculations described above. This entry is reversed in the subsequent month when the unbilled amounts are actually billed.

As illustrated in the documentation above, the unbilled gas revenue calculation is performed at a disaggregated level sufficient to delineate unbilled revenues by revenue class and component. Thus, consistent with the accounting for billed gas revenues, unbilled gas revenues are posted to unique GLAFFs for each revenue class and revenue component.

In addition to the unbilled gas calculation, which accounts for unbilled gas revenues resulting from cycle billing, additional accruals are made for amounts invoiced after cut-off and un-invoiced customers. The processes for determining the invoiced after cut-off and un-invoiced accruals for gas are the same as the corresponding accruals for electric described above.

# 1059 – Unbilled Revenue

(Note: Text in italics indicates a key SOX control.)

# LG&E and KU Unbilled Electric Revenues (Wholesale Excluding Municipals)

Most wholesale counterparties are not billed until after-the-fact (after the month is closed); therefore, most of the counterparties to whom energy is sold are considered unbilled, and the receivable is recorded to FERC Account 173005 (Accrued Utility Revenues). The exception to this practice is trades with Independent System Operators (ISO) or Regional Transmission Organizations (RTO).

ISO and RTO counterparties directly bill LG&E and/or KU whether a receivable or payable on a weekly basis (on a two week lag). Because the ISO and RTO counterparties are partially billed when the month is closed, the billed and unbilled receivable is recorded to FERC Account 142003 (Customer Accounts Receivable).

All wholesale customers (except MISO & PJM) are billed on a monthly basis, on or around the fifth day of the following month. In order to report the revenues in the correct period, an accrual entry is made during month-end close before the invoices have been generated. The unbilled wholesale revenue accrual uses actual sales volumes and prices based on transaction details within the Commodity Trading System (CTS) and confirmations received from counterparties to record the correct amount of wholesale revenues during the period.

The initial entry to record wholesale electric revenues during month-end close includes a debit to Unbilled Wholesale Accounts Receivable (173005) and a credit to Wholesale Electric Revenues (447050). Once the invoices have been generated and submitted to the purchasing counterparties, an entry is made to reclassify the asset amounts from Unbilled Wholesale Accounts Receivable (173005) to Billed Wholesale Accounts Receivable (142003). These journal entries are prepared and recorded by the Revenue Accounting and Analysis department.

### Reports Generated and Recipients:

- Revenue Volume Analysis
- Unbilled revenue calculations and related journal entry files
- Invoiced after cut-off and un-invoiced accrual journal entry files
- Unbilled wholesale sales accounts receivable aging schedule
- Wholesale accounts receivable aging schedule
- Wholesale accounts payable aging schedule

# **Key Contact:**

Manager, Revenue Accounting and Analysis

### Administrative Responsibility:

Director, Accounting and Regulatory Reporting

Date Created: 11/30/04 Dates Revised: 12/31/07, 7/12/10, 8/31/10, 12/1/10, 3/31/11, 9/8/11, 04/02/13, 12/18/14, 3/9/16, 2/29/2020 (*formatted to new template*)

# (Note: Text in italics indicates a key SOX control.)

**Policy:** The books and records of Louisville Gas and Electric Company ("LG&E"), Kentucky Utilities Company ("KU"), and LG&E and KU Services Company ("LKS"), (cumulatively, "the Companies"), shall be maintained in compliance with the regulations set forth by the Federal Energy Regulatory Commission ("FERC"), the Kentucky Public Service Commission ("KPSC"), the Virginia State Corporation Commission ("VSCC"), Internal Revenue Service (IRS), Securities and Exchange Commission ("SEC") and Financial Accounting Standards Board ("FASB"). The KPSC and VSCC generally follow the guidance provided by FERC.

Responsibility for compliance with the guidelines established in this policy resides with the department or organization initiating transactions affecting the books and records of the Companies.

**Procedure:** The accounting procedures are performed per the detailed instructions below.

Scope: All books and records of the Companies.

**Objective of Procedure:** Proper recording of transactions in the Companies' financial statements to ensure compliance and efficiency when providing data to regulatory agencies, specifically the FERC, the KPSC, the VSCC, and the IRS regarding all regulatory accounting issues applied on a consistent basis. Proper recording of transactions must also comply with the FERC Uniform System of Accounts and relevant Orders issued by FERC and is critical to the proper determination of rates charged to customers.

Where FERC guidance differs from the SEC and FASB (generally considered "US GAAP") separate sub accounts within the FERC account structure will be used to provide details needed for US GAAP reporting.

### **General Requirements:**

Background:

The regulated utility subsidiaries of LG&E and KU Energy LLC are LG&E and KU. LKS is a regulated Services Company under the Public Utilities Holding Company Act of 2005. All other LG&E and KU Energy LLC subsidiaries, including LG&E and KU Capital LLC (LKC), are non-regulated, but are subject to the IRS. Rates for regulated utilities are established by an independent, third-party regulator as required by statute and/or other authority. For these reasons, it is imperative that all transactions of the Companies be properly coded to the regulated and non-regulated entities according to the Uniform System of Accounts established by the FERC. For regulated utilities, transactions are considered to be "above-the-line" or "below-the-line". **Above-the-line** ("ATL") transactions are included in the operating income of the

(Note: Text in italics indicates a key SOX control.)

Companies. Amounts ATL are included in determining the rates charged to customers, subject to the specific rate making calculations of various jurisdictions. **Below-the-line** ("BTL") treatment (generally charged to FERC Account No. 426) is for revenue and expenses not included in the operating income of the Companies and thus not included in determining the rates charged to customers. Additionally, charges must be properly allocated between the regulated and non-regulated companies and to the jurisdictions of ratepayers. KU has the following jurisdictions – Kentucky Retail, Kentucky Wholesale (Regulated by the FERC) and Virginia. LG&E has both gas and electric retail customers (or jurisdictions), all in Kentucky. LG&E and KU have joint transmission formula rates also regulated by FERC.

# Detailed Guidelines & Procedures Performed:

Regulated utilities are required to account for transactions according to the FERC Uniform System of Accounts (USofA), which is detailed within the FERC Code of Federal Regulations. In addition to compliance with the USofA, the utilities must also comply with the Cost Allocation Manual (CAM), which details the proper allocation methods between affiliate companies.

When recording transactions on the Companies' books, the following guidelines must be followed to ensure appropriate regulatory treatment of all transactions:

Accounting Guidelines:

- All costs should be charged to the appropriate company. The LKS CAM should be used to determine when LKS costs are directly charged, directly attributed or indirectly allocated and the appropriate allocation methods to be used for indirect charges.
- Types of charges required for proper cost allocation:
  - Direct Charges
    - <u>Directly Assignable</u> Expenses incurred for activities and services exclusively for the benefit of one affiliate.
      - Example: a labor hour worked specifically on storm restoration in a single utility's service territory.
    - <u>Directly Attributable</u> Expenses incurred for activities and services that benefit more than one affiliate and which can be apportioned using direct measures of costs causation.
      - Example: Cost related to billing inserts for affiliate companies.
  - o Indirect Charges
    - <u>Indirectly Attributable</u> Expenses incurred for activities and services that benefit more than one affiliate and which can be apportioned using general measures of cost causation.

#### (Note: Text in italics indicates a key SOX control.)

- Example: Servco employees in Accounting who charge their labor costs to affiliated companies based on predetermined ratios.
- o Unattributable Charges
  - Expenses for activities and services that have been determined as not appropriate for allocation. These costs primarily relate to activities such as corporate diversification, political or philanthropic endeavors and should be charged to LKC.
- Within the LKE Account structure, in the majority of cases, direct charge coding is to the xxx100 level accounts and indirect charges are coded to the xxx900 level accounts. For example: General & Administrative Salaries/Labor, FERC Account 920 direct charges for this labor account are coded to 920100 and indirect charges are coded to 920900. This structure is generally, but not universally, the same format with other FERC accounts. Contact the Regulatory Accounting & Reporting (RAR) department with any questions regarding use of accounts.
- Employee personal information, such as names listed for drug screenings, etc. should not be used in any description field for the transaction.
- Merger-related costs often take two primary forms, transaction and transition costs:
  - Transaction costs are primarily legal, consulting, and professional services in nature that are predominantly incurred prior to the consummation of the merger. They usually relate to the direct merger transaction itself, including the negotiating, documenting, approval and closing phases thereof. These types of expenses are not considered operating in nature. Should the merger impact an entity that is required to keep its books in accordance with the USofA, FERC has required those entities to record such transaction costs in Account 426.5. However, as merger transactions do not ordinarily relate to the provision of the utility service, such transaction costs normally should not be allocated or charged (or allowed to remain charged/recorded) to utilities, unless in an appropriate below-the-line or similar status. Thus, regardless of where recorded or charged, such transaction costs should not be recovered by utilities in state retail or federal wholesale power or transmission formula rates.
  - Transition costs, such as integration costs and other operational costs are often incurred subsequent to the merger. They usually relate to business, operational or administrative changes which are beneficial or otherwise useful as a result of the combination of the merging companies, but less directly related to the merger transaction itself. Often, they are incurred to effectuate savings. These transition costs are considered operating in nature. Should the merger impact an entity with USofA accounts, FERC has stated that it is not appropriate to record transition

(Note: Text in italics indicates a key SOX control.)

costs in Account 426.5. Rather these costs are typically recorded in an operating expense account or capitalized in an asset account, as appropriate. Transition costs, as with any beneficial utility operating changes or improvements, may often be appropriately allocated or charged to utilities and recovered in rates or formula rates. However, such rate recovery <u>cannot</u> occur in circumstances where the companies have committed, agreed or been ordered to hold rate-payers harmless from, or otherwise pass thru, any merger-related costs. In such cases, either a new regulatory approval to include in rates will be needed, or such cost should be charged or re-allocated to a non-utility entity or otherwise excluded from rates, including formula rates.

• FERC has also described a third type of merger-related costs, acquisition premiums and adjustments, including goodwill. FERC has stated that they are not transaction costs and further does not permit their recovery in rates, absent specific authorization.

#### Expenditure Type guidelines:

The appropriate expenditure type code should be used to properly describe/explain the transaction. This coding assists in the dissemination of large volumes of data for all LKE affiliates for use in departmental and company-wide reporting activities.

Current expenditure types have general ranges of transactions that start at 0100 and go through 0799. These ranges are as follows:

0100-0199 – Labor 0200-0299 – Warehouse Materials 0300-0399 – Outside Services 0400-0499 – Purchase Materials 0500-0599 – Transportation 0600-0699 – Administrative & Accounting 0700-0799 – Overheads/Burdens

Below are specific expenditure type coding guidelines that should be followed to ensure the proper documentation of these transactions:

 Expenditure types ending in "75" (e.g. 375 "O/S - ACCTNG USE - MISC JE – NONALLOCATED") and expenditure type 576 "T/E - EQUIP - ACCTNG USE -MISC JE – NONALLOCATED" are deemed "Accounting Use Only" and should only be used with prior approval of an accounting manager within the Controller Group.

# (Note: Text in italics indicates a key SOX control.)

- Other GLAFF segments deemed "Accounting Use Only", whether they are Organization, Account, or Product, should only be used with prior approval of an accounting manager within the Controller Group (for example: account number 142999 "CUST A/R KU SUSP ACCT'G USE ONLY").
- Expenditure type 0670, Miscellaneous, should only be used on income statement expenses when no other expenditure type is appropriate. The RAR department must give approval to use this expenditure type.
- Expenditure type 0699, Corporate Default, is primarily reserved for use on the balance sheet and in journal entries. It should be used only when no other expenditure type is appropriate.
- Expenditure type 0642, Meals/Entertainment Partially Deductible, 0643, Meals/Entertainment – Fully Deductible or 0656 Meals – Non Deductible, should be used for all meals and entertainment expenses regardless of the purpose of the expense. For example, payment to a facility (i.e. the Marriott Hotel) for a meal related to an employee recognition event should be charged to 0642, not 0636, Employee Recognition. For additional guidance regarding the proper classification of meals between expenditure type 0642, 0643 and 0656, refer to the <u>Corporate Tax SharePoint site</u> and click on Meals. Expenditure type 0650 Company Dues/Memberships and 0664 Convenience Payments -Dues should be used for all dues related expenses that are for company use and should be charged to only a 930.2 FERC account.
- Expenditure type 0654, Employee Dues/Memberships, should be used for all dues related to expenses that are personal to the employee (i.e. AICPA or bar association dues for the employee) and should be charged to only a 921 FERC account.
- Expenditure type 0649 Subscriptions and 0679 Convenience Payments Subscriptions should be used for all subscriptions and not be combined with dues in expenditure types 0650 or 0654.
- Outside Service (or Contractor) expenditure types, Expenditure types 0300-0399, cannot be used with FERC accounts 920 & 921 as these are internal office expense accounts and are incompatible with these expenditure types.

# Transaction guidelines:

Regulated utility transactions are included in two basic sections within each company's income statement, operating income or non-operating income. Those transactions that are included in the operating function of the utility and the calculation of rates that the utility's customers are responsible for should be included above the net operating income line on the financials or "above-the-line" (ATL) and those of a non-operating nature, are found below the net operating income line or "below-the-line" (BTL).

# (Note: Text in italics indicates a key SOX control.)

The table below provides a guide of common transactions of the utility and whether or not these transactions are considered operating, non-operating or excluded from the utilities:

Item Description	Treatment
O&M expenses related to power production, distribution, transmission,	ATL
regional markets, customer accounts, sales and related administrative and	
general charges	
Informational and instructional advertising (FERC account 909) for	ATL
safety, DSM, environmental.	
Brand or promotional advertising (FERC account 913) – these charges	ATL
are not allowed in rates, and are adjusted out during rate cases, but should	
initially be coded to account 913	
Safety events and awards	ATL
Meeting room rental and meals for management meetings, all hands, etc.	ATL
Meals with a documented business purpose	ATL
Employee relocation expenses – requires support maintained by HR that	ATL
the cost was to facilitate employment of a qualified individual not readily	
available in the new location.	
Entertainment related to company business	ATL
Severance or separation expenses (allocate to entities by following the	ATL
labor charges and using expenditure type 0152) when position is	
eliminated	
Social meetings or events with no general or specific business purpose	BTL
(retirement celebrations, holiday parties, etc.)	
Employee Recognition	BTL
Lobbying	BTL
Fines and penalties	BTL
Charitable contributions, sponsorships (UK/UofL, Little League, Junior	BTL
Achievement, YMCA, orchestras, etc.), golf outings, event tables/galas,	
community events, not-for-profit organizations benefiting low income	
customers, community development in the service territory - should use	
expenditure type 0646 for charitable contributions and 0647 for	
sponsorships. Note: Majority of charitable contributions are made by the	
LG&E and KU Foundation	
Severance or separation expenses (allocate to entities by following the	BTL
labor charges and using expenditure type 0152) when position is not	
eliminated	

#### Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 <u>LG&E and KU Energy LLC Accounting Policy and Procedures</u> Carrett Date 09/30/20 Page 7 of 9

#### (Note: Text in italics indicates a key SOX control.)

Merger transaction costs charge to LKC or, if related to utility-provided service, use account 426.5 for LG&E and KU	LKC or BTL (if recorded on LG&E or KU)
Merger transition costs, where the companies have committed, agreed or	LGGL OF RC)
been ordered to hold rate-payers harmless from, or otherwise not pass	LIC
through, any merger-related costs	
Merger transition costs, where the companies have not committed, agreed	ATL or BTL,
or been ordered to hold rate-payers harmless from, or otherwise pass	using normal
through, any merger-related costs	operating expense
Company paid spousal travel	LKC
Officer benefits - reserved parking; physicals; tax planning & financial	LKC
advice, club memberships, STI, LTI, etc.	
Deferred compensation expenses for all eligible employees, STI and LTI	LKC
Race sponsorship at Churchill Downs/Keeneland	LKC
Suites (Churchill Downs, Slugger Field, UK, UofL)	LKC
Derby events	LKC
Tickets to sporting events (non-utility company functions)	LKC
Expenses that do not directly or indirectly relate to the Company's utility	LKC
operations	

**NOTE:** Items to be charged to/paid by LKC should not be charged back to LG&E or KU.

### Additional Procedures Performed:

All individuals responsible for the coding of transactions into the accounting system must maintain compliance with these guidelines. Prior to the coding of any transaction, responsible individuals must review these guidelines to ensure compliance. Review of financial information occurs in many different departments through various methods including:

- Periodic review by Budget Coordinators
- External auditor fluctuation analysis (performed quarterly)
- Financial statement analysis (e.g. preparation of company financial reports, monthly detailed expense review, etc.)
- Analysis by various departments through methods such as balance sheet account reconciliations, income statement reconciliations, and Oracle queries designed to detect inconsistencies, for example, in product codes.
- Monthly review of intercompany transactions

# (Note: Text in italics indicates a key SOX control.)

Ensuring proper classification in the financial statements of the Companies is the responsibility of the individual initiating the coding of the transaction and the individual approving the payment of the transaction. If a transaction was incorrectly coded a Change of Distribution ("COD") is used to correct it in accordance with the Change of Distribution Request Procedure. There is no dollar threshold for reclassifying an expense between an ATL and BTL or vice versa. However, a threshold of \$1,000 is used for reclassifying expense between one ATL to another ATL.

# Regulatory Accounting and Reporting Transaction Review:

For each general ledger period, RAR performs a review of general ledger transactions including; BTL, company and employee dues, advertising expenses, FERC account 923, FERC account 930.2 and miscellaneous expenditures (Expenditure type 0670). Through this process RAR identifies transactions needing revision and communicates with the budget coordinators to ensure the transactions are corrected preferably at the input source (i.e. A/P Invoice, Timekeeping system, Change of Distribution, etc.). RAR also tracks revisions to verify resolution. In order to ensure that future transactions are properly recorded and to reduce time spent analyzing and reclassifying transactions, the RAR department will communicate with each individual and that individual's manager, as appropriate, regarding corrections that are required and/or failure to adhere to these policies and guidelines. Continued issues will be further escalated to the appropriate director and/or officer.

Questions regarding proper coding of transactions should be directed to the RAR department.

### Disclosure requirements:

Incorrectly coded charges impact amounts reported in FERC Form 1/3, FERC Form 60, and may be publicly disclosed in the event of a rate case. Additionally, errors in recording transactions impact FERC jurisdictional formula rate calculations and may impact retail rates established by the KPSC and VSCC.

Date created: 11/19/09; Date revised: 12/17/09; 3/18/10; 3/31/11, 9/8/11, 9/30/13, 1/12/15, 06/09/15, 3/21/16, 10/23/17,09/30/20

# (Note: Text in italics indicates a key SOX control.)

#### **Policy:**

Each reporting period, the Companies must determine the amount of Renewable Energy Certificates ("RECs") to be purchased on behalf of customers participating in the Green Energy<sup>1</sup> program based on the amount of Green Energy credits billed to customers.

### **Procedure:**

The accounting procedures related to REC purchases are described below.

#### Scope:

This policy is applicable to Green Energy billed to, and payments received from, all customers voluntarily participating in Green Energy programs of Louisville Gas & Electric Company ("LG&E"), Kentucky Utilities Company ("KU") and Old Dominion Power ("ODP") (together, the "Companies").

### **Objective of Procedure:**

Green Energy receipts from customers and payments for RECs must be calculated and recognized in the proper accounting period. Additionally, the Companies must purchase an accurate number of RECs on the customers' behalf according to the Kentucky Public Service Commission ("KPSC") Order, Case No. 2009-00467 and the Virginia State Corporation Commission ("VSCC"), Case No. PUR-2019-00060.

#### **General Requirements:**

Because Kentucky, the state in which LG&E, KU and ODP have generation assets, does not have a renewable energy portfolio standard, the Companies are not required to purchase RECs. However, in response to customer interest in renewable technology, the Companies implemented a Green Energy program in June 2007.

#### Detailed Procedures Performed:

 The Green Energy program offers customers the option to purchase green energy credits in increments of \$5 (for residential and small commercial customers – rate codes RS, RTOD and GS) and \$13 (for large commercial and industrial customers – rate codes PS,

<sup>&</sup>lt;sup>1</sup> Green energy relates to energy produced from renewable energy resources, including biomass, hydro, geothermal, biodiesel, trash combustion, fuel cells, solar and wind.

# (Note: Text in italics indicates a key SOX control.)

TODS, TODP, RTS and FLS). Customers voluntarily participating in the Companies' Green Energy program are invoiced through the Customer Care Solution ("CCS") System each billing period for the amount of green energy credits purchased.

Accounts Impacted	DR	CR
Accounts Receivable	Total RECs Billed	
Green Energy REC Liability		Total RECs Billed

2) Each month, the Revenue Accounting and Analysis department calculates the portion of green energy credits billed to customers, to be used for purchasing RECs on behalf of the customers and the portion to be used for marketing, promotional and educational expenses to increase enrollment in the programs, as mandated by the KPSC Order, Case No. 2009-00467 and the VSCC Order, Case No. PUR-2019-00060. Liabilities are established in account 242018, with the appropriate tasks, for the cost of RECs to be purchased on behalf of the customers. Liabilities are established in account 242019, with appropriate tasks, for the portion of Green Energy billed to customers that is to be used for marketing, promotional and educational expenses. The following table illustrates the accounting entry and percentages used to allocate amounts billed for Green Energy.

Accounts Impacted	FERC	DR	CR
	Acct		
Green Energy REC Liability	242018	Total RECs	
		Billed	
Sm Green Energy REC	242018		75% Sm RECs Billed
Lg Green Energy REC	242018		96.15% Lg RECs Billed
Sm Green Energy Marketing	242019		25% Sm RECs Billed
Lg Green Energy Marketing	242019		3.85% Lg RECs Billed

3) After the Companies receive payment for previously billed green energy credits, the Revenue Accounting and Analysis department calculates and records the portion of green energy receipts to be used for marketing, promotional and educational activities to increase enrollment in the programs. When utilized, these amounts are recognized as reductions to account 242019. The remaining portion of payments received for green energy credits are used to purchase RECs on behalf of the customers.

Accounts Impacted	FERC Acct	DR	CR
Sm Green Energy Marketing		25% Sm	
	242019	<b>RECs</b> Rec	

# (Note: Text in italics indicates a key SOX control.)

Lg Green Energy Marketing		3.85% Lg	
	242019	<b>RECs Rec</b>	
Cash – Invoice			25% Sm RECs Rec
disbursements	131xxx		
Cash – Invoice			3.85% Lg RECs Rec
disbursements	131xxx		

- 4) The Revenue Accounting and Analysis department reports the amount of green energy payments received, to be used for REC purchases, to the Energy Efficiency department. Energy Efficiency notifies the Regulated Trading & Dispatch department for procurement.
- 5) Invoices for the RECs are coded to the Small and Large Green Energy REC accounts. Invoices for marketing, promotional and educational activities associated with the program are coded to the Small and Large Green Energy Liability accounts.
- 6) Provide the Regulated Trading & Dispatch department any necessary updates for their monthly REC purchasing worksheet related to the PJM-GATS subscription fee. This fee is a program cost and reduces the amount of program dollars available to purchase RECs for customers. Any changes to the subscription fee amounts should be provided promptly to Regulated Trading & Dispatch.

### Reports Generated and Recipients:

A summary of the amounts to be used to purchase RECs is prepared by the Revenue Accounting and Analysis department and provided to the Energy Efficiency department. This summary is located on the Revenue Accounting and Analysis department shared drive (revact on 'fs3').

#### Administrative Responsibility:

Director, Accounting and Regulatory Reporting

Date Created: 3/31/11 Dates Revised: 9/8/11, 3/9/16 – *formatting to SOX template*, 8/27/2020, 9/10/2020 – addition of ODP eligibility.

# Remote Accounting Close Requirements

This document will detail the current standard procedures starting with the March 2020 accounting close to comply with the Remote requirements that the Company is currently experiencing. The Company will strictly comply with the 251 – Journal Entry Policy and 250 – Balance Sheet Account Reconciliation Policy. However, this document shall provide a waiver of certain requirements as discussed below.

# General Requirements

- 1) All Accounting related deadlines to remain the same. We will close the accounting books by end of Day 4.
- 2) All SOX Controls must be performed.
  - a. Working remotely may necessitate changes in the evidence of control performance.
    - i. Any changes require management and SOX Compliance approval.
    - ii. Accounting will coordinate with the Sarbanes-Oxley Compliance department (SOX) and SOX will coordinate communication and approval from Deloitte.
- 3) Any departure requires Controller approval with the following exception:
  - a. Changes in estimates for accruals and other journal entry matters may be necessitated due to unforeseen circumstances.
    - i. To the extent that 3<sup>rd</sup> party accrual documentation for milestone payments is not available from the vendor/service provider at month-end, it is permitted to depend on the best estimate of Company personnel until such time as the vendor/service provider information is available. Proper documentation must be maintained. The Manual Accrual Policy allows this practice for non-milestone and built to suit payments.
- 4) Electronic approvals of journal entries and account reconciliations are permitted but must follow the requirements discussed within the "Electronic Requirements for Journal Entries" section below. Physical approvals are still permitted with no changes to existing policies and procedures. Electronic procedures should still be followed for storage, see Item 3 within the Journal Entry section below.
- 5) Each accounting department should maintain a list of key deliverables (to & from) required to complete the close. Use this to update the Controller directed email to those

department's outside of the Controller Group to ensure everyone gets the necessary data needed during the close process.

- 6) Consolidation schedule has not changed and will continue to be targeted for Day 5. Any extensions must be discussed with PPL Corporate Accounting.
- 7) Journal entries (whether hard copy or electronic) will be sent to Xerox on Day 8.
- 8) Xerox will have scanned journal entries & support into Quest by Day 10.
- 9) Unless specifically discussed in this document, all existing processes to remain unchanged.

#### Electronic Requirements for Journal Entries

- 1) Review notes/comments are to be performed electronically through Excel text box, Adobe PDF tools, or email. Review notes/comments are essential evidence of review performance.
- 2) All journal entries are required to be approved via email, if applicable, by the respective manager or their delegate to comply with the 251 Journal Entry Policy. The email approval should include, in the body or the subject line of the email, that the respective Journal Entry number has been reviewed and approved. (Ex. I have reviewed & approve J001-0100-0320) This emailed approval, if applicable, is required to be included in the final support file saved to PDF format for delivery to Xerox and upload to Quest.
- All journal entry support to be stored electronically including email approval, if applicable, via PDF on the AcctPolicies share drive, a master journal entry folder for each department has been created at: <u>Y:\Journal Entry Procedures\Journal Entry Remote</u> <u>Process-2020</u>

Under this folder, there are subfolders for each department<u>and month</u>, which have additional subfolders for "Standard" and "Non-Standard" journal entries. Within each of these additional subfolders, there should be a folder for each journal entry recorded by each respective department into the general ledger for the respective month. The PDF formatted journal entry and support should be within this folder by end of Day 5, except for Consolidation journal entries for which the deadline is Day 6.

<u>Reversals of journal entries must take place on Day 5, with the reversal job ID and</u> posting ID annotated to the face of the journal entry PDF document by end of Day 5 (or Day 6 for Consolidation journal entries).

4) Controller Group administrative assistants will coordinate the transfer of these documents to Xerox on Day 8 to ensure upload into Quest by Day 10.

Please see attached job aid for Adobe Acrobat XI Pro – this includes steps to convert files to PDF and creating a PDF from multiple files:

#### Electronic Requirements for Balance Sheet Reconciliations

- All balance sheet account recons will be approved via electronic initial or signature sign-offs, similar to normal hard copy initial or signature sign-offs, including preparer & date, plus reviewer & date, by the respective manager or their delegate on the account recon Lead sheet or the first page of the electronic account reconciliation file to comply with the 250 Balance Sheet Account Reconciliation Policy. The electronic initial or signature should be clearly visible and include the date of approval.
- 2) Each accounting department must store all of its reconciliations on its shared drive. All reconciliations performed for January and February close will be stored via hard copy in binders. At managers' discretion, account recons starting with March 2020 may be stored electronically if all their recons will continue to be prepared electronically; otherwise, they must be printed and stored in binders when staff return to the office.
- 3) Approval of balance sheet account recons in aggregate are appropriate only when it's current practice.

Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 30 Page 354 of 354 Garrett

#### **KENTUCKY UTILITIES COMPANY**

#### Response to Commission Staff's First Request for Information Dated November 24, 2020

#### Case No. 2020-00349

#### Question No. 31

#### **Responding Witness: Lonnie E. Bellar**

- Q-31. Provide the utility's long-term construction planning program.
- A-31. KU and LG&E's business plans are used to inform senior management of future capital-spending projections. These plans are prepared annually on a line of business ("LOB") basis and include the forecast of capital projections during the most current annual planning period.

There are six primary areas of long-term construction planning:

- 1. Generation Planning
- 2. Environmental Planning
- 3. Power Production Planning
- 4. Electric Transmission Planning
- 5. Electric Distribution Planning
- 6. Information Technology
- 1. KU and LG&E's integrated resource planning process consists of the following activities: 1) assessment of demand-side options, 2) development of a robust forecast of system energy requirements and peak demands, 3) determination of a target reserve margin criterion, 4) adequacy assessment of existing generating units and purchase power agreements, and 5) assessment of supply-side options. The impact of KU and LG&E's demand-side management programs are reflected in the forecast of energy requirements and peak demands. Then, KU and LG&E's resource assessment combines key elements of the remaining activities into a plan for meeting future energy requirements at the lowest reasonable cost.

KU and LG&E continually evaluate their resource needs. The Integrated Resource Plan ("IRP") represents a snapshot of this ongoing resource planning process using current business assumptions and assessment of risks. Because the planning process is constantly evolving, KU and LG&E's leastcost expansion plan may be revised as conditions change and as new information becomes available. Even though the IRP represents KU and LG&E's analysis of the best options to meet customer needs at this given point in time, this plan is reviewed, reevaluated, and assessed against other market available alternatives prior to commitment and implementation. The next IRP will be filed October 2021.

- 2. Environmental planning is based on known and expected future environmental requirements. Each year in the Business Planning Process these requirements are updated in terms of assumptions, and the Business Plans include the most current estimates of the timing of future requirements and the capital and O&M spend associated with those requirements. To the extent the environmental regulations impact future generation, that planning is also included in the IRP discussed in the preceding paragraph.
- 3. Power Production planning, apart from what is already covered in Generation planning and Environmental planning, covers the long-term needs of current and future generating facilities. A 10-year plan for replacing key components in each power station is updated each year as part of the Business Planning process. This includes replacing key components of the boiler circuitry within each unit, adding equipment that reduces future risk, such as a spare generator step-up transformer or spare stator bars.
- 4. Transmission develops its long-term construction plan with information from various sources. The Transmission Expansion Plan ("TEP"), Generator Interconnection Request ("GI"), and Transmission Service Request ("TSR") processes set forth in the LG&E/KU Open Access Transmission Tariff ("OATT") may result in construction projects. In addition, KU and LG&E evaluate their existing assets and target certain replacements and/or enhancements that may require construction to improve reliability of service to customers.

The TEP is an annual transmission planning assessment that evaluates whether the transmission system can accommodate generation, customer demand, and other long-term transmission service for the next 10 years. This annual assessment identifies future constraints and recommends solutions, including construction projects, to eliminate constraints.

A GI is required for a new generator to connect to the transmission system. Following a request from a generating customer, a study is conducted to assess whether enhancements to the transmission system are required to accommodate the new supply source. A TSR is required to serve new customer load or to deliver energy into or out of the transmission system. For long-term TSRs (i.e., beyond 18 months), a study is conducted to assess whether enhancements to the transmission system are required to accommodate the new service. Short-term requests (i.e., ending within 18-months) are evaluated based on posted available transmission capacity. Enhancements, as a result of either a GI or long-term TSR, may include new transmission lines and/or substation equipment.

The TEP, GI, and TSR studies are approved by KU and LG&E's Independent Transmission Organization ("ITO"). Specifically, the ITO ensures KU and LG&E follow their Transmission Planning Guidelines and associated criteria when performing the required studies. TranServ International is the current ITO under contract to perform this work.

5. For the Electric Distribution planning process, each year KU and LG&E substation and circuit loads (where available) are gathered and analyzed. Ten years of historical data on peak summer and winter loads are used to forecast distribution substation loading for a ten year period. This analysis becomes the basis for planning for system wide capacity additions. Using actual data on current loads, forecasted load growth, and known new load additions, each substation with loads exceeding 90 percent of the substation transformer's capacity during the next ten years is analyzed to determine the need and timing for capacity additions. Other capacity additions are driven by the need to serve large new loads such as a new industrial customer or an existing industrial customer planning a significant expansion. Substation and circuit additions are also evaluated and planned where there is significant value in providing contingency capacity and improved reliability in high risk areas.

Substations and circuit additions or improvements for load are planned for completion in the year when a substation or circuit is expected to exceed its allowable summer or winter rating. New distribution circuits or distribution circuit improvements such as increasing the size of a circuit's conductor are also considered to allow load transfers between substations to relieve substation or circuit loading and/or to improve power quality, reliability and/or contingency in an area.

In addition, KU and LG&E evaluate their existing assets and target certain replacements and/or enhancements that may require construction to improve reliability of service to customers.

6. For Information Technology ("IT"), the IT Business Relationship Managers work with business leaders to develop a five year IT Strategic Plan for the company. IT Projects identified during the strategy discussion are incorporated into an IT Business Plan which also includes IT Infrastructure and Security projects necessary to maintain the security and reliability of the IT environment. The IT Strategic Plan is evaluated and approved by the Technology Portfolio Management Committee ("TPMC"). The TPMC is a senior manager led committee that reviews, prioritizes and approves the IT strategic direction, including the IT Investment Portfolio and IT Spending Plans for LG&E and KU. The committee's primary focus is to assess business IT plans and projects to ensure alignment with Company goals. The committee has the authority to approve and prioritize IT investment requests for the business. Once the TPMC has approved the plan, the results are used in KU's and LG&E's business planning process.

In addition, a Strategic Network Design study is conducted as needed to assess investment needs for the transport network. As part of this study, the condition of the current Kentucky State-wide Network ("KSTN") for data transport is assessed to determine the remaining useful life of the networks, while also assessing potential new technologies for the KSTN and the practicality and desirability of implementing them. Capacity analysis is performed for existing and new fiber based transport networks to determine current and/or projected traffic levels requirements. Based on this information, multiple projects are proposed as part of the business plan to ensure that we continue to provide a reliable network that meets the needs of the business.

#### **KENTUCKY UTILITIES COMPANY**

#### Response to Commission Staff's First Request for Information Dated November 24, 2020

#### Case No. 2020-00349

#### Question No. 32

#### **Responding Witness: Christopher M. Garrett**

- Q-32. Provide a copy of the utility's most recent depreciation study. If no such study exists, provide a copy of the utility's most recent depreciation schedule. The schedule should include a list of all facilities by account number, service life, and accrual rate for each plant item, the methodology that supports the schedule, and the date the schedule was last updated.
- A-32. See the information provided as required by Commission regulation 807 KAR 5:001, Section 16(7)(s), located at Tab 49 of the Filing Requirements.

#### KENTUCKY UTILITIES COMPANY

### Response to Commission Staff's First Request for Information Dated November 24, 2020

#### Case No. 2020-00349

#### Question No. 33

#### Responding Witness: Daniel K. Arbough / Christopher M. Garrett

- Q-33. For each of the following Accounting Standards Codification (ASC), provide the information listed concerning implementation by the utility.
  - a. ASC 410-20, "Asset Retirement Obligations."
    - (1) The effect on the financial statements.
    - (2) Whether the base period or forecasted test period includes any impact of the implementation. If so, provide a detailed description of the impact.
  - b. A schedule comparing the depreciation rates utilized by the utility prior to and after the adoption of ASC 410-20. The schedule should identify the assets corresponding to the affected depreciation rates.
  - c. ASC 715-20, "Defined Benefit Plans General."
    - (1) The effect on the financial statements.
    - (2) Whether the base period or forecasted test period includes any impact of the implementation. If so, provide a detailed description of the impact.
- A-33.
- a.
- (1) Asset Retirement Obligations ("AROs") are the projected fair value of the legal obligations associated with the retirement of tangible, longlived assets. ARO liabilities are recorded in Account 230-Asset Retirement Obligations on the Balance Sheet. An offsetting asset representing Asset Retirement Costs ("ARCs") is recorded in Account 101-Plant In Service on the Balance Sheet. Depreciation is calculated on the ARCs and recorded in Account 108-Accumulated Provision for Depreciation on the Balance Sheet and in Account 403.1- Depreciation Expense on the Income Statement. The ARO liability increases over time through accretion expense which is recorded in Account 411.10-Accretion Expense on the Income Statement. Accretion and depreciation

expense is reversed on the income statement and recorded as a Regulatory Asset in Account 182. In Case No. 2016-00027, the PSC approved the amortization of the Regulatory Asset, for actual surfaceimpoundment-closure costs in order to comply with the federal Coal Combustion Residuals final rule for its active generating stations and for the closed Green River, Pineville, and Tyrone generating stations. The amortization is based on the non-levelized actual costs incurred over 25 years for the active generating stations and 10 years for the closed generating stations. The monthly amortization amounts are being collected through the environmental cost recovery mechanism.

- (2) No, the base period and forecasted test period do not include any impact from the implementation. The amortization of the regulatory asset discussed in response 1 above, included in the base period and forecasted test period, is eliminated through the environmental cost recovery pro forma adjustment.
- b. See attached
- c. ASC 715-20, "Defined Benefit Plans General."
  - (1) KU adopted SFAS No. 158, now referred to as Accounting Standards Codification ("ASC") 715-20, effective December 31, 2006. The impact of the implementation of this standard is discussed in Question No. 35.
  - (2) Neither the base period nor the forecasted test period include any impact from the implementation. See the response to Question No. 35 for a complete description of pension accounting.

#### **KENTUCKY UTILITIES COMPANY**

#### Response to Commission Staff's First Request for Information Dated November 24, 2020

#### Case No. 2020-00349

#### Question No. 34

#### **Responding Witness: Gregory J. Meiman**

- Q-34 Provide a complete description of the utility's Other Post-Employment Benefits package(s) provided to its employees.
- A-34. KU currently offers employees who retire from active employment, the following Post-Retirement Benefits package:

#### **Post-Retirement Medical**

- Future retirees, age 55 with at least 10 years of service, with a hire or rehire date on or after 1/1/2006 are eligible for a retiree medical premium account that is credited with a one-time contribution credit equal to \$2,500 multiplied by the retiree's full years of service after age 45, but not to exceed \$37,500. In addition, for the retiree's dependents, a separate premium account equal to fifty percent of the retiree's premium account is provided. Retirees can only use the premium account to pay for the full cost or partial cost for retiree medical coverage sponsored by the Company; however, when the premium account is depleted, the retiree pays the full monthly cost of the retiree medical coverage.
- Future retirees, age 55 with at least 10 years of service, with a hire or rehire date before 1/1/2006 are eligible to receive a fixed monthly retiree medical premium credit (\$220/mo. between ages 55 and 60, \$510/mo. between ages 60 and 65, and \$220/mo. after age 65. These amounts increase by \$10 effective 1/1/21). Also, retiree dependents covered by the retiree medical plan receive a fixed \$100 monthly dependent medical premium credit to apply toward company sponsored medical options. The retiree pays the difference between the monthly premium cost of the medical coverage and the monthly medical premium credit.
- Retirees who retired prior to 1/1/2012 with the retiree medical premium credit received a fixed \$220 (increased by \$10 effective 1/1/21) monthly retiree premium credit and a fixed \$100 monthly dependent medical premium credit under similar plan provisions in effect at their retirement.

#### **Post-Retirement Dental & Vision**

• Other than COBRA, post-retirement dental and vision are not offered.

#### **Post-Retirement Life Insurance**

• Retirees age 55 with at least 10 years of service, retired on or after 1/1/2000, are entitled to coverage equal to one hundred percent of their base annual salary with a \$100,000 maximum benefit. At age 65, the retiree life benefit reduces to 50% of the annual base pay, with a \$50,000 maximum benefit. At age 70, the retiree life benefit reduces to a \$10,000 death benefit.

#### **KENTUCKY UTILITIES COMPANY**

#### Response to Commission Staff's First Request for Information Dated November 24, 2020

#### Case No. 2020-00349

#### **Question No. 35**

#### **Responding Witness: Daniel K. Arbough**

- Q-35. Provide a complete description of the financial reporting and ratemaking treatment of the utility's pension costs.
- A-35. The financial accounting and reporting of pension costs for KU are as follows:

KU's pension costs for the year are determined by an actuarial firm (Willis Towers Watson) and follow the requirements of Statement of Financial Accounting Standards ("SFAS") No. 87, "Employers' Accounting for Pensions" as amended by SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans – An Amendment of FASB Statements No. 87, 88, 106 and 132(R)". These standards were codified under Accounting Standards Codification ("ASC") 715. Pension costs are applied to all labor charged during the year to distribute the costs between capital, expense, and regulatory assets.

For rate-making, a pro forma adjustment was made to the net periodic pension costs projected for calendar years 2021 and 2022 to account for the time period covered by the test year. The test year covers the last six months of 2021 and the first six months of 2022, therefore the pension costs projected for the test year are the sum of 1/2 of the cost for 2021 and 1/2 of the cost for 2022.

Under SFAS 87, employer's providing pension benefits recognized, as a minimum pension liability in the statement of financial position, an amount equivalent to the unfunded accumulated benefit obligation ("unfunded ABO"). The unfunded ABO is the amount by which the accumulated benefit obligation (based on employees' history of service and compensation without an estimate of future compensation levels) exceeds the fair value of plan assets. Since the unfunded ABO was subject to market price fluctuations in the value of plan assets, the unfunded ABO could result in a reduction in equity for a loss, or an increase in equity for a gain, that may never be incurred. Under SFAS 87, those gains and losses would be recognized in future periods and subject to inclusion in future base rates. Accordingly, it was appropriate to record a regulatory asset related to that future recovery, rather than impact current rates through the reduction in capital.

In its Order in Case No. 2003-00433, the Commission granted the Company's request to record the unfunded ABO calculated under SFAS 87, as a regulatory asset instead of an adjustment to equity in other comprehensive income under the provisions of SFAS No. 71, "Accounting for the Effects of Certain Types of Regulation", which is now ASC 980-10.

In applying the provisions of SFAS 158 (which amended SFAS 87 and is also codified under ASC 715), effective December 31, 2006, KU adjusted the regulatory asset related to Pensions. Under FAS 158, no minimum pension liability is recorded, rather the funded status of pension plan is now recorded as the pension prepaid or liability on the balance sheet. Funded status of a benefit plan is measured as the difference between the fair value of plan assets and the Projected Benefit Obligation ("PBO"). The PBO is based on employees' history of service and compensation adjusted to reflect future compensation levels to the extent that the pension benefit formula defines pension benefits wholly or partially as a function of future compensation levels.

The Company continues to record a regulatory asset for the portion of the obligation that will be recognized in future periods and subject to inclusion in future base rates. The regulatory asset represents the expected future recovery of accumulated prior service costs and actuarial gains and losses, and it is adjusted as prior service cost and actuarial gains and losses are amortized in net periodic benefit cost.

On November 26, 2014, KU filed a request with the Kentucky Public Service Commission (KPSC) for an increase in annual base rates for KU's electric operations (Case No. 2014-00371). On April 20, 2015, KU and other parties to the proceedings filed a unanimous settlement agreement with the KPSC. The settlement agreement was approved by the KPSC on June 30, 2015. Among other things, the agreement required amortization of accumulated actuarial gains and losses over 15 years. The difference between a) pension costs recorded in accordance with KU's pension accounting policy on record with the Securities and Exchange Commission and in accordance with Generally Accepted Accounting Principles ("GAAP") and b) pension costs as recorded using the 15 year amortization period was recorded as a regulatory asset. The new rates and all elements of the settlement became effective July 1, 2015.

Not all of KU's costs are regulated by the KPSC. A portion of KU's costs are regulated by either the Virginia State Corporation Commission (VSCC) for Virginia customers or the Federal Energy Regulatory Commission (FERC) for municipal customers. KU records amortization costs based on the 15 year amortization methodology agreed upon in the June 30, 2015 KPSC settlement. This settlement does not apply to the portion of the amortization cost that is attributed to KU's VSCC or FERC customers. Therefore, KU records journal

entries for the additional amortization based on its GAAP amortization methodology as compared to the 15 year amortization already recorded for the portion of the cost attributed to VSCC and FERC customers. None of the amortization on the GAAP amortization basis is attributed to the KPSC regulated customers.

LG&E and KU Services Company (LKS) allocates a portion of its pension costs (including amortization of gains and losses) to KU. LKS records amortization costs based on the 15 year amortization methodology agreed upon in the June 30, 2015 KPSC settlement. Because a portion of LKS's costs get allocated to KU's VSCC and FERC customers, LKS records journal entries to adjust those customers back to the GAAP amortization methodology in the same fashion as KU. None of the amortization on the GAAP amortization basis is attributed to the KPSC regulated customers.

Trimble County 2 (TC2) and the Cane Run 7 (CR7) units are operated by LG&E personnel, but KU owns a significant share of the units. Consequently, LG&E allocates a portion of its pension costs (including amortization of gains and losses) to KU through the burdening process. LG&E records amortization costs based on the 15 year amortization methodology agreed upon in the June 30, 2015 KPSC settlement to KPSC jurisdictional customers and based on the GAAP amortization methodology to non-jurisdictional customers. The pension cost charged from KU to LG&E for the jointly owned combustion turbines at the E.W. Brown plant is considered immaterial and no adjustments are made for pension amortization related to this labor.

GAAP requirements for settlement accounting, absent regulatory asset treatment, require the pro rata share of the actuarial gain/(loss) to be recognized immediately. Given the regulatory construct, when settlement occurs KU preserves existing accounting treatment by continuing regulatory asset treatment and fifteen-year amortization of the regulatory asset. This regulatory treatment was discussed with KPSC staff at a KPSC meeting on August 10, 2017. LKS allocates a portion of amortization of gains and losses to KU. When settlement occurs, the portion of the settlement allocated to KU is recorded as a regulatory asset for KU and is subject to the fifteen-year amortization methodology.

On March 10, 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2017-07 ("ASU 2017-07"). This guidance amends ASC 715 regarding the presentation of net periodic pension costs. Under previous guidance, all components of pension costs were presented, net, as an operating cost and were eligible for capitalization. Beginning in 2018, ASU 2017-07 requires bifurcation of pension costs into service costs and non-service costs. Service costs are presented as a component of employee compensation or capital assets, as appropriate. The non-service costs are presented as a component of
other income and expense. Non-service costs are no longer eligible for capitalization under GAAP.

Accounting requirements for pension costs under the FERC Uniform System of Accounts have not been modified to incorporate the impact of ASU 2017-07. In FERC guidance issued 12/28/17, FERC stated that companies can elect to change their capitalization policy for FERC accounting and reporting purposes consistent with ASC 715 or companies can continue to capitalize all the components of net pension costs.

Consistent with the accounting reviewed with KPSC staff in a KPSC meeting on December 11, 2017, for regulatory accounting purposes, FERC accounting standards for pension costs allow KU and entities that provide services to KU, such as LKS, to continue capitalization of non-service costs for regulatory reporting.

KU makes GAAP accounting adjustments to the regulatory accounting records to eliminate the capitalized non-service costs through consolidation. A contra fixed asset is recorded to reduce the fixed asset balances for GAAP reporting purposes with an offsetting entry to a regulatory asset. The regulatory asset is amortized over the weighted average life of the assets put into service within each calendar year and the contra fixed asset is depreciated in concert with the regulatory asset. There is no change to net income or retained earnings for KU using this approach. The expensed portion of the pension costs are mapped to operations and maintenance expense for regulatory reporting and other income and expense for GAAP reporting.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 12 of 259 Meiman

#### AGREEMENT

THIS AGREEMENT entered into this 1st day of August, 2020, by and between EARLINGTON OP-ERATIONS, AREAS 1 (PARKWAY) AND 2 (GREEN RIVER) OF

KENTUCKY UTILITIES COMPANY (hereinafter called "Company") and the UNITED STEEL, PAPER AND FORESTRY, RUBBER, MANUFACTURING, ENERGY, ALLIED INDUSTRIAL AND SERVICE WORKERS INTERNATIONAL UNION (hereinafter

called "Union"). Except as otherwise expressly provided herein the provisions of this Agreement shall be effective as of August 1, 2020.

### ARTICLE I PURPOSE AND INTENT

### 1.1 Purpose and Intent

It is the purpose and intent of the parties to set forth herein the agreement between the parties covering rates of pay, hours of work and conditions of employment for employees in the unit for which the Union has been certified by the National Labor Relations Board as exclusive bargaining representative; to promote harmonious industrial and economic relationships between the Company and its employees in an atmosphere of mutu-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 14 of 259 Meiman

al respect and understanding to the end that there shall be no interruption of, interference with, or impeding of work during the life of this Agreement, and to provide procedures for the equitable adjustment of grievances.

### 1.2 Periodic Meetings

Upon mutual agreement, the parties agree to meet on the reasonable request of either party at times which should be least disruptive to the Company's operations. Such meeting shall not be for the purpose of conducting collective bargaining negotiations but shall be for the sole purpose of appraising any problem which may have arisen in the application, administration or interpretation of this Agreement or of the problems of general concern to either party. Therefore, such meeting shall not modify, add to, or detract from the provisions of this Agreement. If such meeting is requested by the Company, it will pay employees for time lost.

## ARTICLE II SCOPE OF AGREEMENT

## 2.1 Recognition

The Company hereby recognizes the Union as exclusive representative for the purpose of collective bargaining with respect to rates of pay, wages, hours of employment and other conditions of employment for employees in its Earlington Operations, Areas 1 (Parkway) and 2 (Green River), included in the unit for which the Union has been certified by the National Labor Relations Board on September 17, 1976, in Case No. 9-RC-11595, namely:

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 16 of 259 Meiman

All production and maintenance employees of the Employer employed in the Employer's Earlington Operations, Areas 1 (Parkway) and 2 (Green River), including servicemen, linemen, metermen, patrolmen, chief electricians, groundmen and truck drivers, but, excluding business development and home demonstration employees, right-of-way solicitors, shift engineers, line foremen A, service foremen A, line foremen B, service foremen B, the chief electricians employed at the Green River Generating Station, the chief mechanic, the coal vard foreman, the chemist, and assistant chemist, all engineering and professional employees, office clerical employees, guards and supervisors. The Term "supervisor" means any individual having authority, in the interest of the employer, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline other employees, or responsibly to direct them, or to adjust their grievances, or effectively to recommend such action, if in connection with the foregoing the exercise of such authority is not of a merely routine or clerical nature, but requires the use of independent judgment.

The Company also recognizes the Union as the collective bargaining agent for the employees of new plants built or new service areas established, whose operations are consolidated with the operations of the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) and who perform the same classifications or nature of work as those employees covered by this Agreement.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 18 of 259 Meiman

The employees in such bargaining unit and represented by the Union and covered by this Agreement are hereinafter referred to as "employees" or individually as "employee." The Union makes this Agreement in its capacity as exclusive bargaining representative of the employees. As the representative of the employees, the Union may process grievances through grievance procedure, including arbitration, in accordance with the provisions of this Agreement, or adjust or settle the same.

## 2.2 No Discrimination

There shall be no discrimination in the administration of this Agreement with regard to race, color, religion, national origin, age, sex, disability, veteran status, or because of the exercise by an employee of his rights as a member or representative of the Union. The terms "he" or "his" as used in this Agreement shall apply to both male and female employees.

### 2.3 Contracting Out

It is agreed that the Company has historically from time to time contracted out work, examples of which are set forth below, which practice may continue. The Company agrees, however, that except for work historically contracted out, and work of a similar nature, it will not subcontract any work historically and principally performed by employees covered by this Agreement as a part of their normal duties if such subcontracting shall cause the reduction of schedule of employees qualified to perform the work. Such work which the Company has historically contracted out includes but is not necesCase No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 20 of 259 Meiman

sarily limited to: Blacktopping Sandblasting and metal spraying

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 21 of 259 Meiman

Fabrication of replacement parts at outside service shops

Motor rewinding work completed at outside service shops Contract hauling Service Contracts: Elevators Portable restroom facilities Street lighting maintenance Building transmission, distribution lines, substations Pole setting Pole inspections Substation foundation, site preparation Crane service, hauling heavy equipment Substation fencing Bus insulator cleaning Janitorial and Custodial Work

The Company agrees that, other factors being basically equal i.e. price, availability, qualifications, etc, contractors who employ Union members will be given consideration. It is understood that this provision in no way creates 3rd party beneficiary status for any individual contractor.

### 2.4 No-Strike Clause

During the term of this Agreement, employees, the Union, its officers, representatives, and members shall not take part in, cause, authorize, instigate, aid, sanction, encourage, condone or ratify any strike, slow-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 24 of 259 Meiman

down, sit-down, stoppage of work, boycott, picketing, or other interference with, or interruption of Company operations or the work and business of the Company. The Union and its representatives will exert every effort to cause employees covered by this Agreement who participate in any such activities to desist therefrom. Failure or refusal on the part of any employee to comply with the provisions of this Article shall be cause for appropriate disciplinary action, including suspension or discharge.

## 2.5 No Lock-Out Clause

During the term of this Agreement the Company will not cause or engage in any lock-out of its employees.

## 2.6 Restraining Orders and Injunctions

Nothing in this Article or elsewhere in this Agreement shall be deemed or construed to preclude the Company from enforcing the provisions of Section 2.4 in any court of competent jurisdiction, and such court shall not be precluded by any provision of this Agreement from entertaining any such suit for violation of said Section and granting all appropriate injunctive relief. An equal right to seek judicial relief is retained by the Union should the Company, in its opinion, violate the provisions of Section 2.5.

## 2.7 Picket Line

Although it is a recognized obligation on the part of both the Company and the Union to cooperate in maintaining a continuous and dependable public service, it

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 26 of 259 Meiman

shall not be a violation of this Agreement, nor cause for discharge or disciplinary action, for an employee as an individual matter to decline to cross a picket line at premises other than premises of the Company where loss of Company property or injury to the employee is threatened.

### 2.8 Visitation

A duly identified and authorized representative of the Union shall, upon due advance arrangement, be granted access to Company premises for the purpose of investigating problems with which he is properly concerned in the administration of this Agreement. Union activity as permitted herein does not include Union business of an internal nature which does not involve the Company.

### 2.9 Supervisors Working

Supervisors will not displace qualified available employees in the bargaining unit by performing work regularly performed by them. Nothing, however, shall limit the performance of bargaining unit work by personnel outside the bargaining unit of work which such personnel have previously performed and similar work, or under any of the following circumstances:

In the instruction and training of employees.

In relief, or to replace an absent employee, or to accomplish work which bargaining unit employees have been permitted to decline.

To perform work requiring skills or abilities not available among employees.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 28 of 259 Meiman

In the event of breakdowns or emergencies, or to help straighten out problems.

At locations or in crews where there are three (3) or less bargaining unit employees.

In developmental work on, or testing of, equipment, products, services, or methods.

In non-overtime situations.

By service supervisors, service managers, chief electricians, and coal yard supervisors.

## 2.10 Copies of Agreement

The Company shall arrange to have copies of this Agreement printed in booklet form and will pay for the cost of the booklets. The Company will furnish copies to the Union to give to its members.

## ARTICLE III UNION SECURITY

## 3.1 Union Security

All present employees of the Company covered by this Agreement on the date of execution of this Agreement shall have the right to remain, but shall not be required to remain, members of the Union. All employees covered by this Agreement who are hired after the date of execution of the Agreement shall have the right to become, but shall not be required to become, members of the Union. The parties agree that if, during the term of this Agreement, KRS 336.130(3) ("Kentucky Right to Work Act) is repealed, in its entirety, by the Common-wealth of Kentucky, if a new public act invalidates

KRS 336.130(3), if it becomes unenforceable in any way, or if the language contained in Article 3.1 of the agreement expiring August 1, 2017 becomes lawful for any other reason, the language of Article 3.1 of the agreement expiring August 1, 2017 shall replace the current language in Article 3.1 without the need for any bargaining.

## 3.2 Check-Off

The Company, where so authorized and directed by the employee in writing upon an authorization form meeting all requirements of law, will deduct from the wages of such employee Union dues in the amount(s) authorized by such employee, and as specified by the International Secretary-Treasurer, on one of such forms. Such deductions of regular monthly dues for a particular month shall be made from the first pay period of the succeeding month and shall be forwarded monthly to the International Secretary-Treasurer. In the event an employee has insufficient earnings due during the first pay period of any month, then such deduction shall be made from the first pay period thereafter in which the employee has sufficient earnings from which the deduction can be made. The Company will permit a Union designated representative to be introduced to a new employee during their first week of employment for a brief orientation at a time when it does not inter-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 32 of 259 Meiman

fere with the duties of either.

The Company, where so authorized and directed by the employee in writing upon an authorization form meeting all requirements of law, will deduct from the wages of such employee political action committee contributions in the amount(s) authorized by such employee on one of such forms.

### 3.3 Law

This Article is intended to comply with the provisions of State and Federal law, and nothing herein contained shall require the Company to take any action in violation thereof. The Union agrees to indemnify and save the Company harmless from any claims, demands, suits or other forms of liability arising out of any action taken by the Company in compliance with this Article.

## ARTICLE IV MANAGEMENT

Except to the extent expressly abridged or limited by a specific provision of this Agreement, the Company reserves and retains, solely and exclusively, all of its inherent rights, functions and prerogatives of management as such rights, functions and prerogatives existed prior to the certification of the Union or the execution of this Agreement. Such rights, functions and prerogatives include, but are not limited to, the Company's right to establish, continue and change, from time to time, policies, practices and procedures for the conduct of the business; to determine products to be manufactured or sold and services to be rendered; to determine
#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 34 of 259 Meiman

the number, location and types of its operations and the methods, processes, services and materials to be employed; to institute, change, curtail or discontinue facilities, processes, service methods, equipment, ma- chinery, methods of production or operations; to sub- contract; to assign work to employees in accordance with requirements determined by the Company; to make and enforce reasonable rules for the maintenance of discipline; to suspend, discharge or otherwise disci- pline employees for just cause; and otherwise to take such measures as the Company may determine to be necessary for the orderly, safe and efficient conduct of the business. Recognizing the desirability of avoiding any impediment to the exercise by the Company of its management rights, functions and prerogatives in a manner beneficial to the employees, it is agreed that no such right, function or prerogative shall be limited by any practice or course of conduct or otherwise than by the express provisions of this Agreement.

# ARTICLE V HOURS OF WORK

## 5.1 Normal Work Schedule

A. Except for employees at the Green River Power Station, the normal work schedule for full time employees will consist of five (5) consecutive days of eight (8) consecutive hours of work (interrupted only by an unpaid lunch break) Monday through Friday. The normal work schedule for full time employees at Green River

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 36 of 259 Meiman

Power Station will be as agreed to in negotiations and as in effect on the date of execution of this Agreement. Although the Company reserves the right to change such schedules, it agrees that if the changed schedule is permanent and will thereafter become the employee's regular schedule, the Company will notify the Union of its intention and afford the Union an opportunity to present its views before finally making its decision.

B. The anticipated schedule of working hours for the coming week for employees such as relief personnel who are not on a fi schedule shall be posted no later than the end of day shift on Wednesday of each week.

C. "Workweek", as used in this Agreement, means seven consecutive days starting at 12:00 a.m. on Monday and ending the following Sunday at 11:59 p.m.This includes Green River Power Station Coal Equipment Operators. For all other employees at the Green River Power Station, work-week means seven consecutive days, starting at 6:00 am Monday and ending at 6:00 am on the following Monday.

D. This section provides for the normal scheduling pattern and shall not be construed as a guarantee of hours of work per day or per week or of days of work per week, nor a limitation on the scheduling of work per day or per week (including overtime).

E. In the event of a temporary change (not to exceed two (2) consecutive days) in an employee's schedule due to training or line switching, employees will be permitted to work until the end of the employee's normal shift if the employee reports to his regular work station

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 38 of 259 Meiman

for work in appropriate dress, however, this provision shall not apply when an employee is required to be away from his normal work station overnight.

#### 5.2 Sufficient Rest Time/Balance of Shift

When in the opinion of the Company, an employee has worked such an extended period of time as to impair his effectiveness or present a hazard to his health or safety, or to the health and safety of fellow employees, he may be required by the Company to leave work for a rest period of up to eight (8) hours. After sixteen (16) continuous hours worked an employee may request and will be granted a minimum rest period of eight (8) hours. Such rest period shall be taken in its entirety unless the employee is requested and agrees to return to work before the expiration of such eight (8) hour rest period. If such rest period overlaps the employee's regular hours on a regularly scheduled work day, the employee shall be paid at his regular hourly rate of pay for the hours which overlap unless the rest period was initiated by the employee in accordance with this Section. If the rest period ends within two (2) hours or less of the end of the employee's regularly scheduled shift, the employee may either return to work at his regular hourly rate of pay or not return to work and forfeit the remaining hours in his shift.

An employee who is called out for an event and works at least sixteen (16) continuous hours, and continues into the employee's regular shift, that employee may request an eight (8) hour rest period after one half

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 40 of 259 Meiman

of the employee's regular shift is completed and be paid at his regular hourly rate of pay for the hours remaining in his shift up to four (4) hours. If in this situation the em- ployee chooses to continue to work the remainder of his shift and the Company agrees for him to work, he will continue to be paid double-time for the rest of his shift.

# 5.3 Lunch Period

Employees at Green River Power Station on continuous shift operations will be allowed a paid lunch break during their shift. Other employees at Green River Power Station will receive an unpaid thirty (30) minute lunch break near the midpoint of their shift. Other employees will receive an unpaid lunch break near the midpoint of their shift.

# 5.4 Wash Up Time

Nonoperating employees at the Green River Power Station will be allowed a five (5) minute wash up period just prior to their lunch break and a fifteen (15) minute clean-up period (tools and locker room) just prior to the end of their shift. However, this provision shall not be interpreted to permit employees to leave Company premises until the designated shift time is terminated.

# 5.5 Daylight Saving Time

An employee working a regularly stated schedule at the time the change is made to Daylight Saving Time (normally in the spring) and who only actually works seven (7) hours instead of his normal eight (8) because of the change shall receive pay for his normal eight (8)

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 42 of 259 Meiman

hours. An employee working a regularly stated schedule at the time the change is made from Daylight Saving Time (normally in the fall) and who actually works nine (9) hours because of the change, shall receive pay at the established premium rate for the ninth (9th) hour.

# 5.6 Continuation of Regular Shift Duties

Should an employee complete his regular shift of duty and be assigned to double shift or part shift, he will still be allowed to continue his regular shift of duties during any work week.

# 5.7 Reporting Time

An employee who is scheduled or notified to report for work on a regular shift and does report for work at the time specified without having been given actual notice of change of schedule, shall receive full pay at his regular rate for his scheduled (non-overtime) hours on that day, even though idle or sent home early because of delay or shortage of materials or for other reasons beyond his control. This provision shall not apply in the event that:

(a) Strikes or work stoppages by employees in the bargaining unit covered by this Agreement in connec- tion with labor disputes, interfere with the conduct of normal operations; or

(b) An employee is not put to work or is released from work after having been put to work either at his own request or due to his own fault.

# 5.8 Call-Out Beyond Normal Work Hours

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 44 of 259 Meiman

A. When an employee is called out to work, or voluntarily reports for and is allowed to work an event outside of his regularly established work schedule, he shall be paid a minimum of four (4) hours at the ap- plicable overtime rate, even if the employee actually works less than four (4) hours. However, if an employ- ee completes his work and is called out to work again before the four (4) hour minimum time has expired, he will not be entitled to another minimum four (4) hours pay for the second call out, but will be paid for the ad- ditional time actually worked beyond the four (4) hours minimum from the first call out.

B. This provision shall not apply to an employee who is notified prior to leaving the work area to report early, or if the work is a continuation of his regular shift.

C. Maintenance employees at the Green River Power Station who are called into work less than four (4) hours prior to their normally scheduled start time will be paid only for the hours actually worked outside their normal schedule at one and one-half (1  $\frac{1}{2}$ ) times their hourly wage rate. Employees at the work site prior to their start time who are requested to begin work early will only be paid one and one-half (1  $\frac{1}{2}$ ) times their hourly wage rate for those actual hours worked outside their normal schedule.

## 5.9 Planned Overtime

For planned overtime work by an employee on his scheduled day off, he will receive a minimum of four (4) hours' pay at one and one-half (1-1/2) times his straight time base hourly rate of pay, or his applicable

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 46 of 259 Meiman

rate including shift or other premium, if any.

# 5.10 Standby Pay

The Company agrees that, due to the current satis-

factory responsiveness of employees in this union to call-outs, there will be no initial implementation of this provision, unless the employees in one or more of the areas described below voluntarily request to implement weekly Standby in their Area. If implemented, each Area may determine their own system of determining their Standby person, with emphasis on volunteerism but with an objective of sharing the workload.

Should the responsiveness of employees in any area become unsatisfactory, the Company reserves the right to implement this provision in the affected area. If the Company implements this weekly Standby, each Area will determine their own system of determining their Standby person, with emphasis on volunteerism but with an objective of sharing the workload.

Any standby system developed will be done through the union.

Within the workgroups where the Company is implementing standby in accordance with the second paragraph, the Company reserves the right to assign the standby person, if the union fails to develop an acceptable system within a reasonable time.

The potential Areas in Distribution Operations to be staffed with a weekly Standby person are as follows:

- Barlow
- Eddyville

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 48 of 259 Meiman

- Morganfield/Sebree
- Earlington/Dawson Springs
- Greenville

Each employee who serves in a weekly Standby status, in exchange for agreeing to remain available and fit to respond to call outs during the week, will be paid one hundred fifty (\$150) per week and will be guaranteed a minimum of four (4) hours pay at one and onehalf (11/2) times their regular hourly rate of pay during their standby week. If an employee works on service calls outside his normal scheduled workday during his Standby week, he will be paid for such time worked in accordance with Article VI-Over-time.

If an employee is assigned in a Standby status for less than one (1) week, he will be paid one (1) hour's pay at his appropriate overtime rate in addition to time spent on any service calls for each day he serves in a Standby status for service calls.

# 5.11 Emergency electric restoration for another utility

An employee who performs emergency electric restoration work for another utility will be paid one and one half  $(1 \frac{1}{2})$  times his hourly rate for the first eight (8) hours worked in any one day and two (2) times his hourly wage rate for all hours worked over eight (8) in any one day. However, if that company's overtime pay practice would provide more wages, then the employee will receive the greater of the two.

# 5.12 Adverse Work Premium

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 50 of 259 Meiman

A. An adverse work premium of one-half (1/2) times the employee's regular straight-time hourly rate shall be paid for hours spent performing adverse work

related to an emergency as determine by the Company. The adverse work premium will not be paid when an employee is being paid his overtime rate and the adverse work premium will not be compounded with other premiums. Start time will begin upon assignment of emergency work in adverse conditions. Employee must be performing work in the adverse condition.

Adverse work premium will be paid only if the following criteria is met:

1. Temperatures below  $10^{\circ}$ F or above  $100^{\circ}$  F as identified by the National Weather Service and/or

2. Cloud to ground lightening within 5 miles as identified by National Weather Service and/or

3. Ice accumulations equal to or greater than  $\frac{1}{2}$ " as identified by the National Weather Service

B. During the course of a public health emergency (i.e. COVID-19) declared by a federal or state government or federal public health agency (i.e. CDC), an adverse work premium of one-half ( $\frac{1}{2}$ ) times the employee's regular straight-time hourly rate shall be paid for hours spent using level two PPE, as defined and directed by management, when entering and performing work inside a customer's premises.

## ARTICLE VI

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 52 of 259 Meiman

## **OVERTIME**

## 6.1 Purpose

This Article provides the basis for the calculation

of, and payment for, daily or weekly overtime hours and shall not be construed as a guarantee of hours of work per day or per week or of days of work per week, nor a limitation on the scheduling of hours of work per day or per week (including overtime). Overtime pay shall be computed including shift differential, if any, and/or any other regular hourly payments, unless otherwise noted.

## 6.2 Overtime Pay

A. An employee shall be paid at the rate of one and one-half (1-1/2) times the employee's regular base rate of pay plus regular Shift Differential, if any, and any other regular hourly payments:

1) For work performed in excess of forty (40) hours in any one workweek.

2) For employees scheduled eight (8) hours per day, for work performed in excess of eight (8) hours in any normal twenty-four (24) hour workday except (a) if it is a change made through the exercise of Seniority rights (such as bidding, bumping, shift preference, etc.), or (b) in the case of the change of employees on continuous shifts from one schedule or shift to another.

3) For all continuous hours worked after the end of the employee's last previous regular shift by an employ- ee during periods which commence more than

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 54 of 259 Meiman

eight (8) hours prior to the employee's next regularly scheduled starting time and continue into his regular hours on a regularly scheduled workday if the employee completes his regular shift on such workday. During the continuation of an event as determined by the Company, for pay purposes the continuity of the employee's work shall not be considered to be broken by short breaks for meals, refreshments, or rest periods authorized by his supervisor.

4) For work performed on the sixth day worked in the workweek and on the seventh day worked in the workweek, provided the employee works each of his scheduled workdays (excluding days on layoff) in the workweek or his absence (a) resulted from inability to work because of his illness or the illness of his spouse or child, when such case is substantiated by a doctor's certificate if requested by the Company, or (b) was time paid for but not worked under the provisions of this Agreement, or (c) was excused in advance for Union business.

5) Notwithstanding the provisions of section 6.2(2) (a), an employee in the operating groups at the Green River Power Station who is required by the Company to work more than twelve (12) consecutive hours to facilitate shift preference change, all hours over twelve (12) consecutive hours shall be compensated at applicable overtime rates. This provision shall not apply when an employee elects to change shifts resulting in the employee working sixteen (16) consecutive hours.

6) For employees in Maintenance at the Green Riv-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 56 of 259 Meiman

er Power Station who are required to work preventative maintenance during non-outage situations will be paid one and one-half  $(1 \frac{1}{2})$  times their hourly wage rate for all hours worked outside their normal shift.

B. An employee shall be paid at the rate of two (2) times the employee's regular base rate of pay plus regular Shift Differential, if any, and any other regular hourly payments:

1) For work performed in excess of sixteen (16) continuous hours. For pay purposes the continuity of the employee's work shall not be considered to be broken by a rest period of less than eight (8) hours therefore, the employee will be paid at two times the employee's regular base pay until a rest period of eight (8) hours is achieved.

2) For work performed by an employee who is required to work on his last consecutive off day, provided he worked at least four (4) hours on his previous off day.

3) Employees called back within four (4) hours of being released from their regular shift, shall have their additional hours actually worked added to the hours worked before being released for the purposes of calculating overtime pay and total hours worked.

## 6.3 Non-Duplication

No overtime or premium pay will be pyramided or duplicated. In the event that overtime or premium pay is applicable to the same hours worked under any two or more provisions of this Agreement, only the single

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 58 of 259 Meiman

highest premium payment required under any provision shall be paid, and hours that are paid for at overtime or premium rates under one provision of this Agreement shall not be considered as hours worked for the purpose of computing overtime work under another provision (unless specifically provided in any case). Articles 5.8 and 5.9 will not be pyramided for the purposes of calculating overtime.

# 6.4 Cooperation

Recognizing that the nature of the Company's operations requires overtime from time to time, it is agreed that performing overtime work, daily or weekly when needed, constitutes a part of the duties and responsibilities of an employee's job.

# 6.5 Overtime Distribution

For employees at Green River Power Station other than those in Operations Groups (covered by §6.6 of this contract) and at locations other than Green River, the following will apply:

1. Subject to the requirement that an employee assigned overtime must be qualified to perform the work, when the Company assigns overtime to bargaining unit employees, it will be distributed equitably, averaged over a reasonable period of time, among employees permanently assigned to the classification at the location at which the overtime is assigned, provided such employees are available. (In the event qualified employees are not available or are permitted to decline such overtime, it may be assigned to such person and

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 60 of 259 Meiman

in such manner as the Company shall determine.)At the end of each two (2) week period, an over- time list for each overtime group will be posted at that group's location. 2. An employee will be charged with any overtime he is permitted to decline and with any overtime that he would have been offered or assigned during periods when the Company honors his request that he not be offered or assigned overtime unless necessary.

3. Except for absent members of crews who are called to work overtime an employee will not be charged with overtime when he cannot be contacted. An employee who is absent for more than five (5) weeks will return with an amount of overtime equal to the average amount of other employees in his classification at the location.

4. An employee will be charged with overtime as set forth above among employees permanently assigned to his regular classification whether then working in or out of his regular classification.

5. It shall be the responsibility of an employee to bring any substantially adverse distribution of overtime to him (under normal circumstances, more than twenty-four (24) hours less than the amount charged to any employee in his classification at the location) to the attention of his supervisor, and after it is brought to his supervisor's attention, the Company shall correct any such inequality by the future assignment of overtime not later than the next reasonable opportunity for which the employee is available should he have accrued the

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 62 of 259 Meiman

least amount of overtime credit and otherwise to the available qualified employee who then has accrued the least amount.

6. Notwithstanding the provisions of Paragraphs 1 and 5 above, with respect to maintenance work at Green River only when the Company assigns overtime mandatorily, the Company will assign the work to the qualified available employee (including any relief operators then working maintenance) with the least amount of overtime actually worked. For the purposes of assignment of maintenance overtime, in determining the amount of overtime worked by a relief operator, overtime worked both in maintenance and as an operator shall be considered.

7. Whenever an employee performs work in excess of 2 hours beyond his normal quitting time of his normal scheduled shift, the Company will furnish or pay for the employee's meal, or meals, required during such hours of work.

8. When an employee successfully bids into a classification he or she will be charged the same overtime hours as that of the employee in the new classification with the most overtime hours. Overtime hours will not change when employees are reclassified to a higher rated position, as referenced in Section 15.2(G).

9. Overtime paid for safety meetings, meals, and other events sponsored by the Company will not be counted as part of the total overtime, i.e., hours paid but not actually worked.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 64 of 259 Meiman

10. The overtime lists for all overtime groups will start with each employee at zero at the start of the pay period nearest the first of January.

## 6.6 Green River Power Station Operating Groups Overtime Work

I. General Information

1. Each time an operator is offered an overtime shift, it will be the responsibility of the Shift Supervisor on duty to see that all designated information is entered in the Overtime Log Book.

2. At the end of each one (1) week period, an overtime list will be posted on the Operator's Bulletin Board, grouped according to classification. In each classification, operators will be listed according to total overtime hours, with operator at the top having the least amount of total overtime hours. Total overtime hours will include hours worked plus hours rejected (with exceptions as noted later). Where a tie exists, the listing will be according to seniority. Operators may volunteer to be excluded from being offered overtime assignments. However, they remain obligated to work forced overtime assignments.

3. Any operator on vacation, holiday, union business, off sick or on STD will not be offered overtime and his or her total overtime will remain unchanged. However, an employee who is absent for more than five (5) weeks will return with an amount of overtime equal to the average amount of other employees in his or her classification.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 66 of 259 Meiman

4. In no case should an operator work more than sixteen (16) consecutive hours, unless an emergency exists.

5. The Shift Supervisor on duty has the responsibility of seeing that the layover operator is furnished necessary meal or meals. The layover operator has the option of furnishing his or her own meals and receiving one hour extra pay if the layover shift is 8-4, or one-half hour extra pay for the 4-12 or 12-8 shift. Overtime operators will furnish their own meals unless the overtime results in double shift, in which case the same rules apply as for a layover. If a layover operator chooses a meal instead of an extra one-half hour overtime pay then the Shift Supervisor should call a local restaurant for a pick-up meal. If operating conditions permit, the Shift Supervisor will allow the layover operator to pick up his or her meal when ready. If, in the opinion of the Shift Supervisor, the layover operator should not leave, then the Shift Supervisor will designate someone else to pickup the meal for him or her. A Company truck will normally be available. If the layover operator is on a special diet that cannot be obtained at a local restaurant, then the Shift Supervisor should, if at all possible, allow him or her to pick up a meal at home (in this case, he or she will not be allowed extra pay for his or her meal).

6. When an operator is promoted, he or she will be charged the same overtime hours as that of the operator in the new classification with the most total overtime hours.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 68 of 259 Meiman

7. Any operator working with Maintenance personnel may be requested from time to time to work overtime. This will be charged to the operator as overtime worked or rejected.

8. The overtime list will start with each operator at zero at the start of the pay period near the first of January as referenced in Article XXV, Section A.

9. Overtime paid for safety meetings, meals, and other events sponsored by the Company will not be counted as part of the total overtime, i.e., hours paid but not actually worked.

10. Should an operator be offered an overtime shift which would give him or her a sixteen (16) hour shift and he or she had worked a sixteen (16) hour shift the day before, the operator may reject the sixteen (16) hour shift without it adding to his or her total overtime hours.

## II. Overtime Assignments

The following steps will be taken when an operator is needed on an overtime basis.

A. Scheduled Procedure, Full or Partial Shifts

When the Company has at least twelve (12) hours notice prior to the time the overtime is to begin the overtime will be treated as scheduled.

Operators will be offered the overtime beginning with the senior operator in the job classification required who has the least amount of total overtime.
#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 70 of 259 Meiman

From this point until twelve (12) hours before the overtime shift starts, one (1) call will be made before calling the next operator. In the event that an operator is to be offered an additional overtime shift(s) in the same classification and on the same shift as one that the shift supervisor was unable to reach him or her for, then one call to that operator will be made for each additional shift(s) before calling the next operator.

If no operator is obtained in the job classification required then the Company will go to the next higher Bargaining Unit classification(s) and proceed as per this section.

If no operator is obtained using this procedure and at least one call has been made to each available Bargaining Unit operator, the operator on duty in the job classification required, with the least amount of overtime actually worked will layover and he or she will not be charged with the previous rejection.

It is recognized that there may be times when the operator on duty with the least amount of worked overtime is physically unable to perform his or her duties for the additional overtime. In this case the next operator on duty in the job classification required with the second least amount of worked overtime will layover. If all operators in the job classification required are physically unable to perform, the Company will go to the next higher classification(s) and proceed as per this section beginning with the operator on duty in that clas-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 72 of 259 Meiman

sification with the least amount of worked overtime.

When the Company finds it necessary to call-in an operator for less than four (4) hours it will be considered as a call-in, partial shift. The operators in the job classification required working the next shift will be called beginning with the senior operator who has the least amount of total overtime. If no operator is obtained using this procedure, the overtime selection will follow the Call-in Procedure.

B. Layover Procedure

When the Company has less than twelve (12) hours notice prior to the time the overtime is to begin the overtime will be treated as a layover.

The operators on duty in the job classification required will be offered the overtime beginning with the senior operator who has the least amount of total overtime.

If no operator is obtained using this procedure the overtime selection will follow the Call-In Procedure.

C. Call-In Procedure

When the Company has less than twelve (12) hours notice prior to the time the overtime is to begin and the Layover Procedure (for that particular job classification) is exhausted the overtime will be treated as a call-in.

The operators in the job classification required will be offered the overtime beginning with the operator who is on top of the list established in 6.6.2. One (1)

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 74 of 259 Meiman

call will be made before calling the next operator.

If no operator is obtained by the Call-In Procedure (for that particular job classification), the Company will go to the next higher Bargaining Unit Classification(s) and proceed as per the Layover Procedure. Operators who volunteer to be excluded from being offered overtime assignments will not be called, but will be charged with a reject.

If no operator is obtained using this procedure and at least one call has been made to each available Bargaining Unit Operator, the operator on duty in the job classification required, with the least amount of overtime actually worked per the list established in 6.6.2, will layover and he or she will not be charged with the previous rejection.

It is recognized that there may be times when the operator on duty with the least amount of worked overtime is physically unable to perform his or her duties for the additional overtime. In this case the next operator on duty in the job classification required with the second least amount of worked overtime will layover. If all operators in the job classification required are physically unable to perform, the Company will go to the next higher classification(s) and proceed as per this section beginning with the operator on duty in that classification with the least amount of worked overtime.

### ARTICLE VII HOLIDAYS

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 76 of 259 Meiman

### 7.1 Holidays

A. The following will be considered holidays for the purposes of this Agreement:

New Years Day Memorial Day Fourth of July Labor Day Thanksgiving Day Friday after Thanksgiving Christmas Eve Christmas Day

Eligible employees who do not work on the above holidays will receive eight (8) hours pay at their normal straight time hourly rate (including regular Shift Differential, if any, and any other regular hourly payments).

3 Floating Holidays are available during the calendar year for current employees. During the first year of employment floating holidays will be pro-rated according to the following schedule:

- Hired before May 1, employee will receive 24 hours of Floating Holiday
- Hired between May 1 and June 30, employees will receive 16 hours Floating Holiday
- Hired between July 1 and October 31, employees will receive 8 hours Floating Holiday
- For those hired on or after November 1, employees will not be eligible for their floating holidays until January 1 of the following year.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 78 of 259 Meiman

B. Floating holidays will be taken in each calendar year on a day mutually agreed upon between the employee and the Company.

C. For employees scheduled Monday through Friday, if one of the above designated holidays falls on a Saturday, it shall be recognized on the preceding Friday (except that when Christmas Day falls on a Saturday, Christmas Eve and Christmas Day shall be recognized on the preceding Thursday and Friday), and if one of the above designated holidays falls on a Sunday, it shall be recognized on the following Monday (except that when Christmas Eve falls on a Sunday, it shall be recognized on the preceding Friday).

For employees scheduled other than Monday through Friday, (including employees who alternately work Monday through Friday and Tuesday through Sat- urday schedules), when a holiday falls on an off day, it shall be recognized on the next regularly scheduled day of work except in the case of two consecutive holidays such as Thanksgiving Day and Friday after Thanksgiving and Christmas Eve and Christmas Day, in which the following procedure shall apply:

If both holidays fall on an employee's off days, the first holiday shall be recognized on his last regularly scheduled day of work preceding the holidays, and the second holiday shall be recognized on the first regularly scheduled day of work immediately following the holidays. If the employee is scheduled off on only one of the holidays, then (a) if he is scheduled to work the

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 80 of 259 Meiman

first holiday, the second holiday shall be recognized on his first regularly scheduled day of work following the holidays, and (b) if the employee is scheduled to work the second holiday, then the first holiday shall be recognized on his last regularly scheduled day of work immediately preceding the holidays.

In all cases, if an employee is regularly scheduled to work on one of the above designated holidays, the holiday shall be recognized on that day.

# 7.2 Holiday Work

A. An employee who is required by the Company to work on a holiday will be paid at the rate of one and one-half (1-1/2) times the employee's normal straight time hourly rate (including regular Shift Differential, if any, and any other regular hourly payments), for the first eight (8) hours worked, in addition to holiday pay, if the employee is entitled to holiday pay as such, or in lieu thereof, such employee may work at his normal straight time hourly rate (including regular Shift Differential, if any, and any other regular hourly payments) on the holiday and be absent with holiday pay on another mutually agreed upon day. No additional holiday may be accumulated until such holiday is utilized except with prior consent of the Company. An employee will be paid at two (2) times his hourly wage rate for all hours worked over eight (8) on a holiday.

B. Notwithstanding the foregoing Paragraph A, employees who are regularly scheduled to work in six (6) or seven (7) consecutive day periods and who are re- quired to work on a holiday may accumulate

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 82 of 259 Meiman

and "bank" up to three (3) holidays to be used in conjunction with regularly scheduled vacations or at other times mutually agreed upon in advance, which "banked" holidays, (1) may be carried forward into the next succeeding calendar year and (2) will not affect such an employee's option as set forth in Paragraph A with respect to a subsequent holiday while he has such three (3) holidays "banked". If, however, while such an employee has three (3) holidays "banked", he elects to be absent without pay on another holiday in lieu of receiving pay for working on such day, then such fourth accumulated holiday must be utilized prior to the next holiday.

# 7.3 Eligibility

A To be eligible to receive holiday pay an employee must have worked in the workweek in which the celebrated holiday falls, or be on paid sick leave for such week unless (a) his absence resulted from inability to work by reason of illness or injury, for which he is not compensated, verified by a doctor's certificate if requested by the Company, or (b) he was on paid vacation during such week, or (c) he was on leave for union business during such week, in any of which cases, he must have worked either in the week immediately preceding or the four (4) weeks immediately following the workweek in which the celebrated holiday falls.

B. If an employee is scheduled to work on any holiday recognized herein and fails to report or perform his scheduled work, he shall become ineligible for pay for

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 84 of 259 Meiman

the unworked holiday unless he has failed to report or perform such work because of sickness or because of death in the immediate family or for comparable good cause.

# 7.4 Holiday During Vacation

When such a holiday for which an employee is eligible for holiday pay occurs during an employee's vaca- tion, the employee will be granted an extra day vacation time.

### 7.5 Holiday During Sick Leave

When a holiday for which an employee is eligible for holiday pay occurs on a day for which an employee would otherwise receive sick pay under the Company's program, he will receive the holiday pay and no charge will be made against his paid sick leave days.

# ARTICLE VIII VACATIONS

### 8.1 Amount of Vacation

Effective January 1, 2021, eligible employees will earn vacation from date of hire based on years of service in accordance with the following schedule:

Vacation Earned	Completed Years of Service Attained During Calendar Year
10 days	Years 0*-4
15 days	Years5-9

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 86 of 259 Meiman

20 days	Years 10-19
25 days	Years 20 and above

\*Vacation eligibility in an employee's first calendar year of employment will be prorated.

Such employees on a forty (40) hour workweek shall be paid the equivalent of forty (40) hours at their straight time hourly base rate of pay plus regular Shift Differential, if any, and any other regular hourly payments, for each week of vacation. Such employees who normally work more than twenty (20) but less than forty (40) hours per week (a part-time employee, should such be included in the bargaining unit during the life of this Agreement) shall be eligible for one-half the normal vacation entitlement (earned/accrued).

## 8.2 Eligibility

A. To qualify for vacation in the following year, an employee must be active on the payroll as of December 31. An exception to this requirement applies to those employees who are on approved Family and Medical Leave. A full-time employee to be eligible for a vacation must have worked not less than twelve hundred forty-eight (1248) hours during the twelve (12) months next proceeding the date he first becomes eligible to take such vacation. A part-time employee to be eligible for a vacation must have worked at least seventy-five percent (75%) of the number of hours an employee on his weekly schedule would work in a year. For purposes of this Section 8.2, in calculating the number of hours worked, there shall be included his normal workday for days for which he is absent but for which he is

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 88 of 259 Meiman

paid vacation pay, holiday pay, paid sick leave, short term disability, funeral leave, jury duty, military leave or workers' compensation supplement.

B. An employee reinstated from inactive status shall

become eligible for vacation based on his or her anniversary date:

- An employee returning to work from January 1 through June 30 is eligible for earned vacation during the calendar year. Such employee must work three (3) continuous months before being eligible for vacation pay.
- An employee returning to work on or after July 1 is ineligible for vacation during the calendar year.

C. Employees hired directly by the Company to fill temporary positions (not hired as temporaries through contractors) who later become regular employees of the Company are eligible for vacation accrual retroactive to the beginning of their temporary employment with the Company.

D. An employee hired between January 1 and June 30 is eligible for 5 days of vacation during that calendar year. Such employee must work three (3) continuous months before being eligible for vacation pay. An employee hired on or after July 1 is ineligible for vacation during the initial calendar year of employment. After the initial calendar year of employment, an employee can take vacation effective January 1 or upon three (3) continuous months of active service, whichever is later, based upon the above schedule.

E. Employees who are rehired accrue vacation at

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 90 of 259 Meiman

the same rate as when they left employment if they were employed for one year of continuous service prior to separation and if the separation was for one year or less.

### 8.3 Scheduling of Vacations

A. An employee's vacation will, to the extent reasonably practicable, be granted at the time most desired by the employee in order of Seniority among those employees with whom his vacation must be coordinated, but the final right to schedule vacation is reserved to the Company in order to assure efficient operations.

B. Vacations will be taken at least one workweek at a time except (1) with the consent of the Company, or (2) an excused absence for legitimate reasons may, at the request of the employee, be charged against any vacation to which he is then entitled.

C. Relief operators at the Green River Generating Station not on a fixed schedule who schedule five (5) consecutive days off on Monday through Friday shall be guaranteed the Saturday and Sunday before and after such days off as off days, for a total of nine (9) days.

D. Employees at the Green River Power station will be able to choose vacation in four rounds of selection. Each employee on the same shift will be allowed to choose one continuous block of vacation up to their entire vacation entitlement by seniority. After all employees on the same shift have scheduled one continuous block of vacation, then employees on the same shift will be allowed to schedule another continuous block of vacation. After the second round of scheduling, then

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 92 of 259 Meiman

employees will be allowed to schedule another block in the same manner. After the third round of scheduling, employees will be allowed to schedule any remaining entitlements (vacation, floating holidays, personal days or banked holidays) by seniority, this round does not have to be continuous blocks. Any remaining entitlements not scheduled at the end of these four rounds of scheduling will be scheduled on a first come request basis.

## 8.4 Accumulating Vacations

Vacation time may not be accumulated from one year to the next, and vacations earned as of any January 1 must be liquidated by time off by December 31 of that same year, except that with prior notification to the responsible manager, an employee may defer up to five days of vacation to the following calendar year.

# 8.5 Vacation Pay at Separation

An employee who quits, dies, retires or is discharged on or after any January 1 and without having received the vacation for which he became eligible upon such date, will be entitled to his vacation pay upon termination of employment. Any such payment due an employee who has died shall be made to the person designated as beneficiary on his group life coverage, if living, otherwise to the employee's estate. No employee leaving the employment of the Company during any calendar year shall be entitled to any vacation pay in the following year.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 94 of 259 Meiman

### 8.6 Pay in Lieu of Vacation

An employee with at least four weeks of vacation eligibility (including carry-over) may "sell back" one week of vacation after they have taken two weeks of vacation and carried over one week. Payout for such a week of worked vacation will occur in February of the following year.

# 87 Vacation During Illness, Disability, or Personal Leave of Absence

A. If an employee goes on paid sick leave or becomes unable to work because of compensable occupational injury prior to the time his vacation is scheduled to commence, his vacation will be rescheduled later in the year, except that an employee on paid sick leave or Short Term Disability may, at his option, cease receiving sick pay or Short Term Disability pay and take his vacation as previously scheduled. The vacation of an employee who becomes ill or is injured after working his last shift prior to vacation will not be rescheduled, and he will not be eligible for any sick pay until such scheduled vacation has expired. However, at the sole discretion of the Company, vacation may be restored to an employee and rescheduled at a later date.

B. An employee on paid sick leave or Short Term Disability may, upon advance written request, elect at the end of the calendar year to cease receiving sick pay or Short Term Disability pay for any unused vacation period in order to avoid loss of vacation pay. An employee disabled as the result of a compensable occupational injury or who is receiving long term disability

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 96 of 259 Meiman

insurance payments at the end of a vacation year and is unable to work during any unused vacation period as provided in Section 8.6, will not receive pay for the vacation not taken, except as provided in Section 8.7C. C. In the year in which an employee incurs an occupational injury or illness, after the application of Section 8.4, the employee shall receive payment for any remaining unused vacation in an amount sufficient to make up the difference between what the employee received from workers' compensation insurance or Short Term Disability pay and the employee's regular straight time wages assuming a 40-hour work week.

D. An employee will earn vacation during approved personal leaves of absence on a prorated basis as follows:

- an employee on a PLOA of one full month to three full months will earn 75 percent vacation benefit for the following year, based upon the above schedule; and
- an employee on a PLOA of four to six months will earn 50 percent vacation benefit for the following year, based upon the above schedule.

### 8.8 Vacation at Retirement

Any employee who retires may elect to work during all weeks of any vacation to which he may be entitled in the year of retirement, and for each such week of vacation worked, shall receive with his final payroll check additional compensation in an amount computed on the same basis as is then employed in computing the

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 98 of 259 Meiman

compensation paid to other employees who work during one week of their vacation under Section 8.6 above.

## ARTICLE IX SENIORITY

## 9.1 Seniority Recognition

In cases of filling permanent vacancies, decrease of force and recalls from layoff, consideration shall be given to length of continuous service, all as specifically set forth in various sections of this Agreement dealing with such events.

## 9.2 Definitions

A. Bargaining Unit Seniority

For all purposes of this Agreement, an employee's bargaining unit seniority ("Seniority") shall date from his first day of work following his employment with the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) of the Company or his last reemployment if his continuous service has been broken. An employee of the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) in the bargaining unit on the effective date of the first contract shall have Seniority equal to his continuous service with the Company in any of its regions in any position. Any employee of the Company who accepts transfer into the bargaining unit covered by this Agreement following the effective date of the first contract shall retain his previous Company service for computing vacation, pension and insurance benefits

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 100 of 259 Meiman

but shall be considered as a new employee for all other purposes of this Agreement.

B. Qualified

Wherever used in this Agreement "qualified" shall mean that the employee has the ability to perform the required duties of the job on a regular basis under the degree of supervision normally given to employees in the job and to perform those duties safely and efficiently.

# 9.3 Seniority List

A seniority list showing the Seniority of each employee was posted under the Collective Bargaining Agreement effective October 9, 1977. The Company will revise such list from time to time as necessary for it to be kept current. It shall be the responsibility of the employees to bring any error to the attention of the Company, with a copy to the Unit Secretary.

# 9.4 Probationary Employees

A newly hired employee (or an employee rehired after loss of Seniority) will be considered a probationary employee and will not accrue any Seniority until 6 months from date of hire. During the employee's probationary period the Company may terminate the employee with or without cause and such termination shall not be subject to review in the grievance or arbitration procedure. During the probationary period, the Company may from time to time transfer a probationary employee or assign various duties for the purpose of determining his suitability for permanent employ-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 102 of 259 Meiman

ment. Upon satisfactory completion of his probationary period, an employee will be credited with Seniority in accordance with Section 9.2(A).

### 9.5 Termination of Seniority

An employee shall lose all Seniority with the Company and all rights under this Agreement (except for previously accrued pension and insurance benefits, if any, to the extent specifically provided elsewhere) upon the occurrence of any of the following:

(A) Resignation or quit by the employee for any reason

(B) Discharge for just cause

(C) Layoff for twelve (12) consecutive months, or the length of the employee's Seniority, if more at the start of his layoff, to a maximum of two (2) years

(D) Absence for two (2) consecutive working days without having notified the Company unless impossible to do so, and furnished a satisfactory explanation within such period

(E) Fails to notify the Company of his intention to return to work from layoff within ten (10) days (Satur-days, Sundays and Holidays excepted) after mailing of notification by registered or certified mail (return re- ceipt requested) to the last address shown on the Com- pany records (and copies of said notice having also been given to the Union) or fails, without reasonable excuse, to report for work at the time designated in the notice

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 104 of 259 Meiman

(F) Failure to return to work from absence due to sickness or injury within twelve (12) months after the last day of active employment, or the length of the em-

ployee's Seniority, if more at the time his absence commences, to a maximum of two (2) years.

(G) Acceptance of wages or other compensation for services rendered for others, or accrual of income from self-employment, (other than earnings the employee would have received even if he had not lost time from work, such as from his farm, etc.) during leave of absence unless such payment was from the Union or was authorized in writing by the Company in advance.

(H) Failure to return at or prior to the expiration of a leave of absence, if possible, or failure to notify the Company of his inability to return if such notification is possible.

(I) Transfer out of the bargaining unit as provided in Article XIX

(J) Transfer out of the Earlington Operations, Areas 1 (Parkway) and 2 (Green River)

(K) Absence for a period in excess of that provided in Section 16.6 relating to pregnancy

(L) Retirement

(M) Death provided, however, nothing in this Section 9.5 shall operate to deprive any employee, or his heirs, whose Seniority is terminated by reason of his retirement or death, of benefits, if any, accrued prior to such retirement or death
#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 106 of 259 Meiman

## 9.6 Compensable Disability

Notwithstanding the provisions of Section 9.5(F),

the Seniority of any employee covered by this Agreement shall not be broken so long as he receives regular periodic payments under Workers' Compensation for disability incurred during the course of his employment with the Company which prevents his return to work. If the job he held at the time the absence commenced has been permanently filled during his absence or is otherwise no longer available, for the purpose of reclaiming his job or in selecting another job in the manner as if he had been laid off from his old job at the time of his return as provided in Section 10.1, such an employee with five (5) years of Seniority or more at the time his absence commences shall continue to accrue Seniority during the entire period of such absence, but an employee with less than five (5) years Seniority at the time his absence commences shall not be considered to have continued to accrue Seniority during the period of his absence in excess of three (3) years.

### 9.7 Identical Hiring Dates

When two (2) or more employees in the bargaining unit have identical hiring dates or dates of transfer into the bargaining unit, Seniority shall be awarded in the alphabetical order of the spelling of their names, surnames listed first.

# 9.8 Temporary Employees

Temporary employees shall have the same status as

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 108 of 259 Meiman

Probationary Employees for the full duration of their temporary employment and shall accrue no Seniority of any kind. "Temporary Employees" shall be: A. Those who are hired on jobs at or below the General Laborer classification for an agreed and limited period of time (not more than ninety (90) days) in order to fill temporary needs for additional personnel resulting from absence of regular employees by reason of vacations, sickness or other cause; or

B. Part-time help such as grass-cutters at various locations in the Earlington Operations, Areas 1 (Park-way) and 2 (Green River) who do not regularly work more than twenty-four (24) hours per week; or

C. Employees of other companies (customers of Kentucky Utilities Company) whose only function shall be to operate switches at Sub-Stations and other remote locations. However, it is specifically understood and agreed that the operation of Company owned switches will be the work of employees in the bargaining unit covered by this Agreement should it be necessary to call someone out at night to perform such function.

Should the status of a Temporary Employee be changed to that of a permanent employee in the bargaining unit, his Seniority shall date from the date of such change of status, except that the date from which the employee has continuously worked a regular schedule of at least twenty (20) hours each week will be considered as the date of employment for the purposes of determining vacation. However, no sick leave days

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 110 of 259 Meiman

will be accrued to any employee's account for the time worked as a temporary employee.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 111 of 259 Meiman

### ARTICLE X REDUCTION AND RESTORATION OF FORCES

### 10.1 Permanent Layoff

The following procedure shall be followed in a reduction of forces:

(A) If the number of employees in a particular classification at a location is to be reduced, but some retained, employees will be reduced, in inverse order of Seniority, provided that the remaining employees are qualified for the work to be performed.

(B) A surplus employee may upon reduction displace an employee holding a job:

(1) for which he is qualified, and

(2) which is at the same or lower rate than the job as to which he is surplus (except that an employee may return to a higher classification formerly held), and

(3) which is either (a) held by an employee with less Seniority at the surplus employee's location or at any location close enough to his resi- dence so he can meet his normal work schedule and such emergency call-out requirements as are inherent in the job (it being specifically agreed that, except with the consent of the Company, members of service organizations must live in the service area served), or (b) held by an employee

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 112 of 259 Meiman

with the least Seniority in a classification at any other location in the bargaining unit with the understanding that to do so would require a change of residence, or accept layoff in lieu thereof. (C) Should the surplus employee not have previously qualified on the job he chooses under the above procedure, no training time will be allowed. However, such employee shall be oriented in the job requirements and will be given up to maximum of five (5) working days to display his qualifications, or lack thereof, should there be good cause to believe he can perform the work on the job satisfactorily due to knowledge and skills developed on other jobs with the Company.

## 10.2 Rates on Demotion

When an employee is demoted in a reduction of forces, he will be paid at the lower of (a) the top of the rate range of the job to which he has been demoted or (b) the rate that he was being paid on the job from which he was demoted.

# 10.3 Notice of Recall

Recall of an employee after a layoff shall be in writing and mailed to the employee's last known address by certified or registered mail as it appears on the Company's records. If an employee on layoff changes his address, he must notify the Company in writing by certified or registered mail with a copy of said notice being mailed to the local Union.

# 10.4 Restoration of Forces

(A) In the restoration of forces, employees shall be

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 114 of 259 Meiman

recalled in order of Seniority to the jobs they held before the reduction of forces (if available) or to other jobs they have previously held or for which they are otherwise qualified, provided that the employees recalled must be qualified for the work to be performed.

(B) Should the Company decide to recall an unqualified employee to attempt to train for a vacancy, it will give preference to the senior employee on layoff whose prior experience, work record, skill and ability, and demonstrated physical and mental capacities indicate that he is capable of becoming qualified within a reasonable period.

# 10.5 Notification of Layoff

When a reduction in working force becomes necessary and employees are to be reduced in classification or laid off, the concerned employees and the Union shall be given not less than forty-eight (48) hours' notice un-less an emergency condition beyond the control of the Company makes such notice impossible.

# 10.6 Retention of Officers and Committee

The Unit President, Unit Secretary and Unit Grievers (should the Unit Griever remain in the geographic area he represents), will not be released from active employment in a reduction of force as long as work for which they are qualified to perform is available in the bargaining unit.

# ARTICLE XI EMPLOYMENT FOR HANDICAPPED

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 116 of 259 Meiman

## EMPLOYEE

A. Notwithstanding the Seniority provisions of this Agreement, the Company and the Union may mutually

agree to fill a vacancy of any length by assignment of an employee during the time he is handicapped, recuperating from any accident or illness or otherwise is unable to perform the duties of his regular job but is qualified to perform the needed work.

B. An employee, who is injured or acquires a workrelated illness in the course of his employment and made subject to the provisions of the Kentucky Workers' Compensation laws and as a result thereof loses his ability to return to his regular job, may use his Seniority to displace a junior employee on any equal or lower rated job (provided he is released by the Company doctor to perform the duties of this job) in the same manner and with the same effect as if he had been released for lack of work under the provisions of Section 10.1 of this Agreement.

## ARTICLE XII GRIEVANCE PROCEDURE

It is agreed that any employee may discuss any problem or complaint with his supervisor on an informal basis, with or without the presence of his Grievance Committeeman or Steward and without resort to the grievance procedure.

## 12.1 Grievance Procedure

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 118 of 259 Meiman

Any difference arising as to the application or interpretation of the provisions of this Agreement shall constitute a grievance and shall be settled in the following manner:

### Step 1

A. An employee who has a grievance shall present the grievance orally to his immediate supervisor, with or without the presence of his Grievance Committeeman or Steward, within five (5) days after the complaining employee knew, or by reasonable diligence should have known, of such incident.

B. In the settlement of a grievance, the Company shall not enter into any agreement with any individual employee covered by this Agreement in conflict with the terms of this Agreement which will have any effect on the rights of other employees, and any settlement under any such private agreement will not constitute a precedent should a similar situation arise in the future.

C. If the grievance is not resolved to the satisfaction of the employee and it is desired that the grievance be considered further, the employee or his Grievance Committeeman or Steward may immediately file a written grievance with such supervisor. In any event, regardless of when the employee presents it orally to his immediate supervisor, or knows, or should have known, of the incident, such written grievance must be presented not more than fifteen (15) days next following the incident that caused the grievance (unless a different time is provided elsewhere in this Agreement for the particular type of grievance). The written griev-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 120 of 259 Meiman

ance shall state the nature of the incident, the Section or Sections of this Agreement upon which the grievance is based and the redress or relief that is sought, and shall be signed by the employee and his Grievance Committeeman or Steward. The supervisor, or his designee, will discuss the grievance with the employee and his Grievance Committeeman or Steward and will give his answer within five (5) days after receipt of the written grievance. If the immediate supervisor and the Grievance Committeeman or Steward, at such meeting, feel the need for aid in arriving at a solution, they may, by agreement, invite such additional Company or Union representatives or witnesses as may be necessary and available to participate in further discussion.

# Step 2

If the Step 1 supervisor, or his designee, does not give his answer within the prescribed time or if the answer is unsatisfactory to the Union and it is desired to appeal the grievance for further consideration, an appeal may be filed within five (5) days after the answer (or within five (5) days of expiration of the five (5) day answer period if no answer is given) with the person who supervises the Step 1 supervisor, signed by the employee's Grievance Committeeman. Such supervisor, or his designee, will discuss the grievance with the employee and the Grievance Committeeman and will give his answer in writing within five (5) days after the meeting.

## Step 3

If the answer of the Step 2 supervisor, or his des-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 122 of 259 Meiman

ignee, is unsatisfactory to the Union and it is desired to appeal the grievance for further consideration, an appeal may be filed within five (5) days after receipt of the answer with the manager of the Step 2 supervisor, signed by the employee's Grievance Committeeman. The manager or their designee(s), will discuss the grievance in a meeting with the employee, the Grievance Committeeman and the International Union Representative, and will give an answer in writing within five (5) days after the meeting.

# 12.2 Grievance Meetings

Grievances to be handled through the grievance procedure should be taken up at such time of day as will least interfere with the regular working hours of the employees involved. If the Company finds it more convenient and practical to conduct such proceedings during regular working hours, and the Union representative is agreeable to meeting at such time, then Union grievance representatives who are called from their regular duty will be paid their regular wages as though they were on regular duty.

## 12.3 Grievance Committee

The Union's Grievance Committee shall consist of regular employees of the Company covered by this Agreement selected by the Local Union to represent major geographic groupings of employees. The initial major geographic groupings are considered to be at:

Barlow/Eddyville Morganfield/Sebree

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 124 of 259 Meiman

Earlington/Dawson Springs Greenville Green River but said groupings may change with the addition or deletion of department and/or shift assignment of employees covered by this Agreement, but not to exceed five (5) in total. One (1) Grievance Committeeman shall be elected by the Local Union membership to represent each of said major geographic groupings.

In large areas and/or on shifts at the Green River Power Station where no Grievance Committeeman is employed, a Steward will be appointed as determined by the Local Union so that there will be at least one (1) Grievance Committeeman or Steward on each active shift. The Steward will act as an assistant to the Grievance Committeeman and be limited to the handling of grievances through Step 1 only.

During his term of office, should a Grievance Committeeman or Steward cease to be employed within the major group he represents, the office of Grievance Committeeman or Steward representing that group shall become vacant and shall be filled by the Local Union with a permanent employee of said group.

The Local Union President and Unit President shall be considered as a member of the Local Union Grievance Committee in addition to the Grievance Committeemen provided for above.

The Union shall furnish to the Company a list of its Officers, Grievance Committeemen and Stewards, and

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 126 of 259 Meiman

keep such list current.

# 12.4 Time Limits

A grievance that is not filed, appealed or referred

to arbitration within the prescribed time limits shall be considered settled and shall not be processed in any subsequent steps of the grievance or arbitration procedure. If the second or third step supervisor does not timely answer, the Union can demand an answer by giving notice by registered or certified mail, return receipt requested, to the corporate labor relations manager. If no written answer is given in person or by posting in the mail within five (5) days after receipt of such demand, the particular grievance shall be deemed to be granted but without precedent.

# 12.5 Calculation of Time

The term "days" as used in this Article XII and the following Article XIII shall be understood and agreed to exclude all Saturdays, Sundays or Holidays occurring in each such calculation.

# 12.6 Group Grievances

In the event more than one employee desire to file identical grievances, either the Grievance Committeeman or Steward for the area in which the alleged grievance has arisen, or one of the aggrieved employees selected by the others, may file and process the grievance on their behalf as a class, provided the employees involved are adequately identified in the initial written grievance.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 128 of 259 Meiman

## 12.7 Union Grievances

A. The Union may file a grievance at Step 3 with regard to any obligation of the Company to the Union as such, as opposed to its obligations to the individual

employee(s). Also in the event an employee dies the Union may process any claim he would have had relating to any money due under any provision of this Agreement. In processing such claim on behalf of a deceased employee, the fifteen (15) day time limit for filing the initial grievance shall be waived.

B. In the event the Union believes that an interpretation contrary to the terms of this Agreement has occurred with respect to one or more employees, which interpretation, if established as a practice, might adversely affect other employees in the future, if the directly affected employees fail to file a grievance, then the Union may file a grievance in its own name at Step 2 for the purpose of obtaining a prospective determination with respect to employees generally.

# 12.8 Expedited Procedure

Notwithstanding the procedures set forth in this Article, the parties may by agreement omit any Step or Steps and proceed to a higher Step.

### 12.9 Extension of Time Limits

It is understood and agreed that any time limits specified in this Article XII and the following Article XIII may, and should be, extended for good reason shown. The period during negotiations for an extension or renewal of this Agreement shall specifically be deemed as

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 130 of 259 Meiman

requiring a liberal interpretation of this Section.

## ARTICLE XIII ARBITRATION PROCEDURE

## 13.1 Arbitration Procedure

If the Step 3 answer of the Plant General Manager, the Manager Substation Construction and Maintenance, the Manager Electric System Planning Engineering and Metering, or the Manager Earlington Operations, or their designee(s), is unsatisfactory to the Union, the Union may refer such grievance to arbitration by delivering to the Manager, Corporate Labor Relations, within twenty (20) days after receipt of the answer, written notification that it desires to arbitrate the grievance. If the Company and the Union are unable to agree to an arbitrator, the Company and Union shall jointly request the Federal Mediation and Conciliation Service to provide a list of seven (7) qualified arbitrators who have training or experience in the subject of the dispute in question. The representatives of the parties shall either agree to an arbitrator on the list or select one by each party's alternately striking a name from the list until one name remains. More than one grievance may be submitted to the same Arbitrator if a multiple submission is agreeable to both parties.

## 13.2 Arbitration Hearing

The arbitration hearing shall be scheduled for a date

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 132 of 259 Meiman

as soon as mutually agreeable but within sixty (60) calendar days of the date that the Arbitrator is selected by the parties, provided the Arbitrator is available. The arbitration hearing shall be held at the Green River Power Station or the Company's District Office nearest to where the grievance arose or at a place mutually agreed upon by the Company and the Union or, if they are unable to agree, the Arbitrator shall select a neutral place in Madisonville, Kentucky for the hearing.

### 13.3 Duties of the Arbitrator

It shall be the duty of the Arbitrator to hear and render a decision on a dispute submitted to him in accordance with the terms of this Agreement. The Arbitrator shall regard the provisions of this Agreement as the sole and complete understanding governing the relationship of the parties, and it shall be his function to interpret and apply the specific provisions of this Agreement. The Arbitrator shall not supplement, enlarge, diminish or alter the scope or meaning of any provisions of this Agreement, nor entertain jurisdiction of any subject not covered hereby. The decision and award of the Arbitrator shall be final and binding on the Company, the Union and the employees.

### 13.4 Costs of Arbitration

The compensation and expenses of the Arbitrator shall be borne equally by the parties. The compensation and expenses, if any, of witnesses and other participants in the arbitration shall be borne by the party desiring or requesting their presence, except that an employee at the Green River Power Station or an em-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 134 of 259 Meiman

ployee in the district where the grievance arose who is a witness may appear during his normal working hours for the time necessary to give his testimony only without loss of pay.

### 13.5 Arbitrator's Decision

The Arbitrator shall be jointly requested to render a copy of his decision to each party in writing within thirty (30) calendar days from the date of close of the hearing, or the filing of briefs, if any.

## ARTICLE XIV DISCIPLINARY SUSPENSION AND DISCHARGE

While it shall remain the policy of the Company to warn employees for minor infractions before taking disciplinary action or discharging them, it is understood that certain major offenses may be cause for immediate discipline, including discharge. Grievances involving discharge shall automatically be referred to Step 3.

In the event any employee is called before a Company representative for the purpose of being reprimand- ed or receiving disciplinary action, he will be, if he so chooses, allowed to have a Local Union representative present. In the event the Company intends to suspend or discharge an employee, or give a final written warn- ing to an employee prior to discharge, the Company will inform the employee of his or her right to union representation, and the Company will inform the Union of such meeting in advance.. If the employee notifies the Company that he or she does not want union

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 136 of 259 Meiman

representation at a disciplinary meeting, he or she will be provided the opportunity to acknowledge that fact in writing. The parties agree that in general it is in the best interest of all concerned that disciplinary action be taken in private.

Should it be determined by the Company during the grievance procedure that any disciplinary action is too severe, or if a grievance concerning disciplinary action by the Company is referred to arbitration and the final decision of the Arbitrator results in a modification of the disciplinary action taken, the employee shall receive compensation for time lost from work in such amount as the Company and the Union mutually agree if the matter is resolved in the grievance procedure, or, if the matter is decided by an Arbitrator, as the Arbitrator may deem necessary to give proper redress under the circumstances, including consideration of any earnings or other compensation received by the employee during the period of such lost time; but the Arbitrator shall not reduce any back pay award by reason of earnings the employee would have received (such as from his farm, etc.) even if he had not lost time from work.

If an employee is discharged after completion of his probationary period and the discharge is protested through the grievance procedure, the Company will continue normal insurance coverage for such employee until the grievance is finally resolved.

## ARTICLE XV <u>TEMPORARY ASSIGNMENTS AND</u> PERMANENT JOB VACANCIES

### 15.1 Temporary Assignments

The Company may temporarily assign any employee to work in any other job classification; except that at Green River Power Station, other than in cases of emergency, consideration will be given to the senior available employee temporarily working out of his classification when there is a need to return an employee to such classification. If the employee has been tempo- rarily assigned to a lower rated job, the applicable rate shall be the rate of his regular job, and if the employee has been temporarily assigned to a higher rated job, the applicable rate will be the higher of the rate of his regular job or the minimum of the rate range for the job to which he is assigned. Such assignments shall be effective upon the execution of a payroll authorization by a supervisor, and payment for work in a higher classification will be for a period of not less than eight (8) hours. When a temporary assignment to another job classification or another shift of one (1) week or more is to be made, employees in the various classifications required will be permitted to indicate their choice of assignment in order of seniority, but the final right to make such assignments, and to change them from time to time, is exclusively reserved to the Company in order

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 139 of 259 Meiman

to assure safe and efficient operations. Such temporary assignments on a shift at the Green River Power Plant will not exceed two (2) hours if the crew is not fully staffed (at least five (5) employees).

### 15.2 Permanent Job Vacancies

A. Policy

It shall be the Company's policy to advance senior employees when permanent job vacancies occur, provided the employee is qualified.

It is the Company's intent to allow current bargaining unit members to bid on jobs before hiring from the outside, where possible. Depending on the current operational needs, the Company agrees to bid lower positions such as C or B, (if no C classification exists), lower positions (Unit Operator Assistant and/or Auxiliary Operator) in the Green River Power Plant operational group, and/or Trainee, where no qualified bidders exist for top rated positions. Should the Company determine the need is for immediately filling an upper rated position, the Company will discuss this with the Union before hiring from the outside. The final decision will rest solely with the Company, based on operational needs.

B. Posting Procedure

(1) When the Company determines that there is, or will be a permanent vacancy in the bargaining unit, it will post, for five (5) days, Saturdays, Sundays and Holidays excluded, a notice describing the job and its special qualifications, if any, including residency requirements for members of service organizations, if

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 141 of 259 Meiman

applicable, on bulletin boards throughout the bargaining unit. Copies of all such postings shall also be sent to the Union's Unit Secretary. An employee desiring consideration in the event of such a permanent vacan-
cy should make written application on forms provided by the Company during such five (5) day period. After having given consideration to each applicant's Seniority, prior experience, work record, skill and ability, the Company will post the name and seniority date of the successful bidder, if any, on the bulletin boards throughout the bargaining unit. Normally such announcement will be made within three (3) weeks after completion of the posting. During the time necessary to consider applications, the Company may fill the vacancy temporarily by assignment of any available employee. Employees who fail to make application will be considered to have waived their interest in the particular vacancy for that particular occasion only.

(2) If a posting is for a vacancy in a classification to which employees normally advance without bidding, such as provided in Paragraph G below, and if there is no qualified applicant and the Company does not hire a new employee from outside for the posted vacancy, then if the Company desires to fill the vacancy with an employee in a lower rated job than the one previously posted, it will post such lower rated job prior to hiring a new employee for such lower rated job.

C. Bid by Absentee

The Company and the Union will cooperate in contacting any employee who is absent from work due to

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 143 of 259 Meiman

illness, injury, vacation or for other legitimate reason as specified in this Agreement during the entire posting period who notified either the Company or the Union, if possible, prior to his absence of an interest in bidding, to assure he is notified of the posting. If such employee is absent for three (3) weeks or less and is not contacted during such period and afforded an opportunity to bid, then upon return to work, he may bid on a job posted during his absence. However, such bid must be made within five (5) working days after the employee's return to work. If the Company awards the bid to such previously absent employee and if it had previously made an award to another applicant, such other applicant will be returned to his previous job.

# D. Bidding Limitation

An employee shall be limited to no more than one permanent job transfer per year under this bidding procedure to a job of equal or lower rate unless for reasons of health or for other good and sufficient reasons shown. Additionally, any employee hired (or an employee rehired after loss of Seniority), after August 1, 2002 shall be ineligible to bid for a period of one (1) year from their date of hire.

# E. No Qualified Applicants

Should there be no qualified applicant for any vacancy, then the Company may exercise its discretion in the filling of the vacancy by voluntary transfer or by hiring or it may cancel the posting.

F. Hiring Experienced Employees

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 145 of 259 Meiman

Should the Company hire any new employee who has had prior experience on a similar job requiring such skills for which hired to fill a vacancy for which the bidding procedure has not been completed, he shall be placed in the proper classification at a rate commensurate with such experience. Should any lower-rated employee with Seniority at the time of hiring such new experienced employee believe that he was qualified to perform the job for which the new employee was hired and desires assignment to such job, he may request and shall be granted a review of his qualifications and shall be upgraded to the same rate for which such new employee was hired should the facts demonstrate he was so qualified. Such up-grading and pay for same to become effective the date of hiring the new employee.

### G. Reclassification

A reclassification of an employee to a higher rated job, such as from Line Technician B to Line Technician A or from Maintenance Technician B to Maintenance Technician A, shall not be considered the filling of a permanent vacancy for purposes of this Article XV, and nothing in this Section 15.2 shall be construed to re- quire the Company to post any such higher rated position.

# H. Training

In filling permanent vacancies in higher rated jobs in operating groups at the Green River Power Station, it is agreed that if there is no qualified applicant and if a qualified person cannot be hired from outside, the Company will be guided by the factors set forth in Para-

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 147 of 259 Meiman

graph B(l) above in selecting an employee from a lower classification in the operating group to attempt to train for the vacancy with the senior applicant given preference if the other factors are relatively equal, provided that such employee has demonstrated the basic physical and mental capacities to become gualified within a reasonable period and provided that such employee has not been selected for another training position as described in this paragraph within the previous twelve (12) month period. Also, should the Company decide to attempt to train an unqualified employee to fill a vacancy other than in an operating group at the Green River Power Station, it will be guided by the factors set forth in Paragraph B (1) above in selecting an employee for such training with the senior applicant given preference if the other factors are relatively equal, provided that such employee has demonstrated the basic physical and mental capacities to become gualified within a reasonable period. In either event the Company will post a vacancy in the classification it desires to fill, designating that it is for training. The applicant selected shall not be assigned to such classification until he satisfac- torily completes his training and becomes qualified.

I. Return to Former Classification

In the event an unqualified employee is selected by the Company for training for a job and does not become qualified within a reasonable period, he shall be returned to his former classification or a classification of similar status. It is agreed that under normal circumstances an employee selected for training for a higher

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 149 of 259 Meiman

rated job in an operating group at the Green River Power Station under Paragraph H above should become qualified within 480 hours, within a 120 calendar day period.

### J. Residence Requirements

It is recognized that as a public utility the Company is obligated to provide reliable service to its customers. Such may at times make it necessary for employees to work overtime, both scheduled and on an event basis. Employees are expected to work their fair share of overtime work when called upon to do so by the Company and failure to do so may be cause for appropriate disciplinary action.

(a) In addition, to assist in promptly responding to overtime callouts for emergencies, Line Technicians, Service Technicians, Substation Technicians, Meter Technicians and Customer Order Technicians shall reside within twenty-five (25) radial miles of their reporting location.

## ARTICLE XVI ABSENCES AND LEAVES OF ABSENCE

### 16.1 Absences

A. It is understood that an employee has a responsibility to his job and to the Company to report for work on time as scheduled. An employee who reports for work after his starting time may be refused work for the day at the discretion of his supervisor if a replacement for him has been called, his crew has already

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 151 of 259 Meiman

left with- out him or there is otherwise no work readily available for him.

B. When an employee cannot for any reason, report for work as scheduled he must, in accordance with

established procedures in effect at the time, notify the Company (personally or by other acceptable means) prior to scheduled start time, indicating to the extent possible the probable duration of his tardiness and absence, unless unavoidable circumstance would prevent employee from doing so. Failure to comply could result in an unexcused absence, even if the absence would otherwise have been legitimate.

### 16.2 Disability Leave

Upon reasonable advance request, if possible, leave of absence without pay will be granted to any employee for illness, injury or pregnancy which prevents the employee from working, verified by the employee's doctor if requested, and concurred in, if the Company deems advisable, by a doctor selected by the Company, and will from time to time be extended if the circumstances warrant unless the employee's Seniority terminates under Section 9.5(F) or (K). The Company may require reasonable periodic verification from the employee of continued inability to work. To the extent such absence is covered by paid sick leave, long-term disability insurance or similar insurance, the reports under such programs shall be sufficient verification.

## 16.3 Personal Leave

At the Company's discretion, leaves of absence without pay for an agreed upon period of time may be

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 153 of 259 Meiman

granted to any employee for personal reasons, and may from time to time be extended for additional periods if the circumstances warrant. Requests for such leaves of absence and extensions must be made in writing and approved by the Company.

### 16.4 Return To Work

A. The Company may require that an employee returning to work after being absent for a period in excess of five (5) consecutive workdays due to any temporary disability or personal leave furnish, prior to the resumption of his duties, a certificate of ability to return to work and perform his regular duties from the employee's doctor, concurred in, if the Company deems advisable, by a doctor selected by the Company.

B. Examination by the doctor selected by the Company shall be confined to the illness or injury that caused the absence or to an illness or injury known or reasonably suspected to have occurred to the employee during such leave of absence. Such examination shall not be directed toward a condition that existed prior to the temporary disability or leave of absence unless the Company reasonably believes it would affect his ability to be qualified for his job.

C. Examination by the doctor selected by the Company shall be at the expense of the Company.

D. In the case of a disagreement between an employee's doctor and the Company doctor concerning the health of an employee, and the dispute becomes

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 155 of 259 Meiman

the subject of a grievance, a third disinterested doctor having special knowledge and experience in the matter shall be chosen by mutual agreement between the Company and the Union or if they are unable to agree, a third doctor chosen by an arbitrator shall examine the employee, and his decision shall be final and binding. The expense of the third physician shall be borne equally between the Company and the Local Union.

E. Nothing in this section shall be interpreted to affect the Company's right to require a physical examination at any time when it has reason to believe that an employee has a disability which could affect his ability to perform his job safely.

# 16.5 Early Termination

Any employee who desires to terminate his leave and return to work prior to the normal expiration date of any leave granted him may do so upon satisfying the requirements for return and giving the Company three (3) working days notice.

# 16.6 Parental Leave

A leave of absence with 160 hours of paid time off for activities related to the care and well-being of their newborn(s) or newly adopted child(ren) will be granted.

1. Parental leave must be used consecutively and during the first 12 weeks following the birth or adoption of a child(ren). If eligible, the employee will be required to use FMLA as well.

2. An employee must give notice to his or her man-

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 157 of 259 Meiman

ager prior to parental leave.

3. If both parents are eligible LKE employees, both may apply for parental leave.

4. There is no pay in lieu of unused parental leave under any circumstances.

5. If the birth or adoption involves multiple children, the maximum benefit an employee is eligible to use is 160 hours of parental leave following that event.

6. The 160 hours must be used within 30 calendar days from the start of the parental leave.

- The employee must obtain approval from Absence Management 15 days prior to each Parental Leave.
- Acceptable substantiated documentation must be provided to Absence Management within 5 days of returning to work from parental leave. i.e. hospital birth record, birth certificate, adoption documents, paternity affidavit, etc.

## 16.7 Leave For Union Business

A leave of absence without pay will be given to employees who are elected and/or chosen delegates for the purpose of attending conventions, conferences and such usual and proper functions of the Union (normally not to exceed two (2) weeks plus travel time). Not more than two (2) employees shall be eligible for such leave at any one time, but if two (2) are to be absent at the same time, they will be selected from unrelated work groups so as to avoid a double burden on the remaining employees by reason of the absences. The Company,

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 159 of 259 Meiman

without creating any future obligation or precedent, may grant Union requests for leaves for additional employees. The Union will give sufficient notice to allow for orderly replacement on work assignments.

### 16.8 Periodic Payments

It should be the responsibility of the employee to make arrangements for the payment of any insurance premiums and the like which are his obligations during any leave of absence.

## 16.9 Fraud

Obtaining a leave of absence or extension thereof under false pretense or falsifying forms, applications, and other information pertaining to a leave may be cause for appropriate disciplinary action.

## ARTICLE XVII ALLOWED TIME

## 17.1 Funeral Pay

Funeral leave is paid for a maximum of five days for Immediate Family Members who include: spouse, child, step-child, or parent or step-parent.

Funeral leave is paid for a maximum of three days for Other Family Members who include: brother; sister; grandparents; grandchildren; parents-in-law; sonsin-law; daughters-in-law; spouses of the employee's brothers or sisters; employee's spouse's brothers, sisters, parents and grandparents; step relations of the preceding, or any relative living with the employee.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 161 of 259 Meiman

Such days shall be consecutive work days and shall be computed in direct relation to the death and funeral, but shall not extend beyond the day following the funeral, except in the case of the death of an Immediate Family Member in which case such days may extend to the second day following the funeral. Payment will not be made for any day during such three- or five-day period on which the employee would otherwise not work.

Employees will not be paid for unused funeral leave.

Should the employee need to be absent on a normal scheduled day or days, other than those for which payment is provided above, the employee may elect to take such day or days as vacation time, provided he is then entitled to sufficient vacation time which he has not utilized by time off or for which he has not been paid.

Payment shall be made on the next pay day after receiving notice in writing from the employee and (a) the name of the deceased person and relationship to the employee, and (b) the date and location of the funeral.

If a day for which an employee would otherwise be entitled to funeral pay falls on a day on which the employee had scheduled vacation, holiday or other time off, at the request of the employee, the previously scheduled time may be rescheduled and the employee will receive Funeral pay.

## 17.2 Military Training or Temporary Duty

Except as otherwise provided by law, if it should become necessary for an employee to leave the service

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 163 of 259 Meiman

of the Company to serve in the Armed Forces of the United States, or should an employee volunteer for service in any of the Armed Forces of the United States, then any such employee shall retain and accrue his seniority during such service, provided he returns to the employ of the Company within ninety (90) calendar days after his demobilization or release from the service, and provided further that he is fit and competent and has received a release or discharge under honorable conditions. A reservist who is called to active duty as a result of mobilization shall receive a supplement, for ninety (90) days from being called, of the difference between military pay and the employee's base pay in effect prior to taking leave under this Article. If the employee's family elects to continue dental coverage under the provisions of COBRA, the Company will waive the premium for such coverage up to twelve (12) months. Additionally, an employee who participates in military summer camp or short-term duty up to three (3) weeks will receive a supplement of the difference between military pay and the employee's base pay. Except as otherwise provided by law, this Article shall not apply to any employee who re-enlists or otherwise extends his period of full-time military service beyond the period of time of his military obligation to the United States.

The employment status of an employee shall not be affected by his enlistment or participation in the civilian components of military services, regardless of whether such enlistment or participation is voluntary or mandatory.

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 165 of 259 Meiman

## 17.3 Jury Duty

If a regular full-time employee (other than a probationary employee) is summoned for jury duty or is subpoenaed to appear as a witness in court and is required to so report or serve or appear on a regular workday during normal working hours which he would otherwise be scheduled to work, he shall be paid the difference between his normal straight time hourly rate (including regular shift differential, if any, and any other regular hourly payments) for those hours lost and the payment received for such service (but not including any payment officially designated as expenses). In the case of such an employee on an afternoon or night shift, the Company shall reschedule him to the day shift for days he is required to report to court. If any such employee is not required to appear until, or is released from such service at, a time that reasonably permits him to report to work or to return to work during his scheduled hours, he will so report or return and may be assigned to his normal duties or may be assigned to such other work as may be available. To be entitled to pay under this section, an employee must notify his supervisor as far in advance of the date he is required to report for such duty as possible and present a statement from the Clerk of the Court giving the time and date of such duty and the amount of compensation received for such service. In no event shall pay under this Section exceed eight (8) hours pay per day.

### 17.4 Sick Leave Plan

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 167 of 259 Meiman

Any employee who cannot report to work as scheduled because of personal or family illness should attempt to contact his or her manager before the scheduled start time or as soon as possible thereafter. Medical certification may be requested. Any employee at Green River should contact his or her supervisor or manager at least one hour before the scheduled start time unless unavoidable circumstance would prevent employee from doing so.

The Company will provide up to 40 hours of sick leave per calendar year.

Unused sick leave may not be accumulated. Unused sick leave is not paid to the employee. An employee may use sick leave in one-hour increments.

A. Employee

1. Must report the cause of the employee's absence to his or her immediate supervisor (or to the individual designated by the supervisor to receive such reports) as soon as possible, but in any event not later than the beginning of the first work shift from which the employee will be absent;

2. Must adopt such remedial measures as may be commensurate with his or her disability;

3. Must, upon request, present evidence satisfactory to the Company, of the employee's inability to work, or that the injury or illness was non-occupational;

4. Must have accumulated unused sick leave credit at least equal to the hours being reported for sick leave pay; and

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 169 of 259 Meiman

5. Must advise his or her supervisor (or the individual designated by the supervisor to receive such reports) of the date on which the employee expects to return to work as far in advance thereof as possible. Where the employee's work is being performed by relief or substitute personnel, at the supervisor's request such advice must be given at least one hour prior to the beginning of the shift on which the employee expects to return to work.

B. No sick leave will be allowed for any injury or illness arising out of, or in the course of, any occupation or employment for wage or profit.

Sick leave credit cannot be used for any other purpose than specified in the plan, and is not payable in cash, or in any other form, should the employee leave the Company. This plan is designed to assist the employee to prevent a loss of income due to absence from duty because of illness.

If an employee becomes ill or injured while on vacation, the employee shall be paid only for the vacation, except as noted in 8.7(A).

If an employee becomes ill or injured on a holiday, the employee is to be paid only for the holiday.

If the illness continues after a vacation or holiday period, benefits under the Sick Leave Plan would commence upon completion of the scheduled vacation or holiday.

# 17.5 Personal Days

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 171 of 259 Meiman

An employee should prearrange all personal days with his or her supervisor or manager. Two personal days are available during the calendar year for current employees. During the first year of employment personal days will be pro-rated according to the following schedule:

- Hired before July 1, the employee will receive 16 hours personal days
- Hired between July 1 and October 31, the employee will receive 8 hours personal day
- Those hired on or after November 1 will not be eligible to receive their personal days until January 1 of the following year.

If an employee has available personal days, he or she will be required to use that time for bridging to Short Term Disability (STD) if remaining sick time is not adequate.

There is no carry-over of unused personal days.

There is no pay in lieu of personal days under any circumstances.

## 17.6 Accumulated Sick Leave

An employee's unused sick leave hours, as of 09/30/99, can be used for the same purposes, other than for family illness, as the sick leave in Section 17.4 after the sick leave awarded each calendar year under 17.4 has been exhausted. The unused sick leave hours will be reduced by the number of hours used for this pur-

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 173 of 259 Meiman

pose.

In addition, unused sick leave hours as of 09/30/99 may be used to increase the pay an employee receives

under the STD program in Article 18 for hours at 75% to 100%. The unused sick leave hours will be reduced by the number of hours used for this purpose.

In accordance with the provisions of the Company's retirement Annuity Plan, an employee's "credited service" at retirement as that term is defined in the Plan, will be increased by the number of that employee's unused days of sick leave as of his or her retirement date at a rate of 260 days being equal to one year of "credited service." Unused days exceeding, or less than, 260 will be expressed as a fraction of a year, as it is defined herein.

## ARTICLE XVIII HEALTH AND RETIREMENT BENEFITS

During the term of this Agreement the Company will continue to provide the existing or no less favorable group life insurance, long-term disability insurance, retirement annuity and medical, including postretirement medical insurance benefits, dental assistance program, employee savings plan, employee assistance program, dependent care assistance plan, and dependent life insurance plan, short term disability and workers' compensation supplement for members of the bargaining unit as are provided for other full time employees of the Company, except as described in 18.1,

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 175 of 259 Meiman

below. The details of such benefits shall be as specifically provided in master plan documents or insurance contracts covering the terms of such plans. (A) payments for such benefits must be deductible as business expenses or contributions to a qualified plan, and (B) benefits provided through an insurance carrier shall be those provided by the policy or contract and such coverage must continue to be available from the same or another carrier on a reasonable basis. If occa- sion to change or discontinue any such benefits should arise under clause (A) or (B), the Company will notify the Union and the parties will promptly enter into negotiations as to the benefits to be changed or substi- tuted. The Company will furnish identification cards for medical purposes. The Company will furnish each employee annually the amount of his accumulated sick leave and the aggregate amount of his contributions to the retirement plan.

With respect to medical benefits, to the extent that individual plan premiums exceed the Company's contribution, the employees will contribute the additional cost of premiums according to the plan they select. Contributions will be made monthly on a pre-tax basis.

A representative of this union will participate on a joint Health Care Task Force which will meet biannually to review trends in health care, review current Company Medical benefit plans, and make cost containment recommendations. The joint Health Care Task Force will also be charged with the responsibility of recom-

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 177 of 259 Meiman

mending changes, including plan design changes and increases in co-pays on doctor visits and prescriptions. The task force will establish their priority as avoiding future increases in employee contributions to the ex-
tent practicable while maintaining the current quality of coverage. However, the Company retains the right in its sole discretion to modify the terms, conditions and level of benefits under these medical, so long as benefits for employees covered by this Agreement are the same as provided to other full-time employees of the Company.

### 18.1 Retiree Medical Insurance

A. Bargaining unit employees employed by the Company as of December 31, 2005 will be eligible for retiree medical benefits, the details of such benefits will be as specifically provided in the master plan documents or insurance contracts covering the terms of such plans. All such eligible employees who retire prior to January 1, 2021 will receive the retiree medical credit as outlined in the provisions of the retiree medical continuation master plan document.

For bargaining unit employees employed by the Company as of December 31, 2005, who retire on or after January 1, 2021, the Company will contribute monthly up to \$230.00 toward the cost of a Company medical plan for the eligible retiree. Such \$230.00 credit shall continue until attainment of age 60, which at such time the credit shall increase to \$520.00. The \$520.00 credit shall continue until age attainment of age 65, which at such time the credit shall revert to

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 179 of 259 Meiman

\$230.00. Additionally, the eligible retiree's spouse or other dependent will be eligible for an additional \$100.00 toward the cost of his/her insurance premium. The maximum total monthly credit shall be either \$330.00 or \$620.00 depending upon the age of the former employee.

B. Bargaining unit employees hired by the Company on or after January 1, 2006, will be eligible for the same retiree medical benefits however, the Company premium contribution will be a lump sum account that will spring into existence on the eligible retiree's date of retirement. This Retiree Medical Account must be used for the sole purpose of paying for retiree medical coverage through the Company.

The initial lump sum amount will be determined based on the following formula:

1. For the retiree, \$2,500.00 per year of service after age 45, with a maximum initial account balance of \$37,500.

2. For the dependents, a total initial account balance equal to 50 percent of the initial account balance for the retiree.

On the date the eligible employee retires, the Company will fund this Retiree Medical Account. Once funded, the account balance will be credited with interest based on the 10-year Treasury rate subject to a four (4) percent minimum and a seven (7) percent maximum.

The retiree may elect to pay the age-related monthly

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 181 of 259 Meiman

premiums from the Retiree Medical Account in full or in part until the account balance reaches zero. Once the Retiree Medical Account is fully depleted, the retiree may continue medical coverage through the Company by paying 100 percent of the age-related monthly premiums.

The details covering the provisions of the Retiree Medical Account will be as specifically provided in the master plan document covering the terms of the plan.

### ARTICLE XIX TRANSFER OUT OF THE BARGAINING UNIT

### 19.1 Permanent Transfer

The selection of employees to be promoted to supervisory positions or to be transferred to other positions excluded from the bargaining unit shall be at the sole discretion of the Company, subject to the agreement of the employee. For the first sixty (60) calendar days the employee shall continue to accrue Seniority in the bargaining unit. If the Company transfers him back to the bargaining unit, or he asks to be removed from the position within the sixty (60) days period, he shall return to the bargaining unit and will be placed on the job he held prior to such promotion or transfer, or to an- other job in accordance with such accrued Seniority if an adjustment in the workforce has occurred during his absence. If he continues in the supervisory or other po- sition outside the bargaining unit beyond the sixty (60) day period, his Seniority shall be broken and he shall lose all rights under this Agreement. The

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 183 of 259 Meiman

Company will notify the Unit Secretary of the date of permanent transfer.

### 19.2 Temporary Transfer

Should an employee covered by this Agreement temporarily be designated by the Company as a Temporary Supervisor to fill in temporarily for eight (8) hours or more for any regular supervisor such as during vacations, illness, death in the family, jury duty or other absences of a temporary nature, and the employee accepts such duties, he shall receive his regular rate of pay or the rate of the supervisor whose work he performs, whichever is higher, during the period that the employee performs such work. (An exception is in the Coal Yard-See Note 1) The area grievance committeeman or Unit President will be informed of such designation.

### ARTICLE XX WAGES

### 20.1 Hourly Wages

The hourly wage rates for the respective job classifications and the effective dates thereof are as set forth in Exhibit A to this Agreement.

### 20.2 Shift Differential

A. A shift differential of ninety cents (\$.90) per hour shall be paid for all work performed by full time employees assigned to an afternoon shift, and one dollar

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 185 of 259 Meiman

and five cents (\$1.05) per hour shall be paid for all work performed by such employees assigned to a night shift. Any shift regularly commencing at or after 5 a.m. and prior to 12 noon shall be considered a day shift. Any shift regularly commencing at or after 12 noon and prior to 8 p.m. shall be considered an afternoon shift. Any shift regularly commencing at or after 8 p.m. and prior to 5 a.m. shall be considered a night shift.

B. A shift differential of forty-five cents (\$.45) per hour shall be paid for all work performed by full time employees at Green River Power Station assigned to a rotating shift regardless of when a particular shift may commence.

C. A shift differential of one dollar and five cents (\$1.05) shall be paid for all work performed by full time employees at Green River Power Station assigned to a relief shift regardless of when a particular shift may commence.

D. Only one shift differential can be applicable to any particular hours by any employee.

### 20.3 Sunday Differential

A Sunday differential of one dollar and twentyfive cents (\$1.25) per hour shall be paid for all work performed on Sunday by full time employees who are assigned to work on Sunday as a part of their normal (non-overtime) schedule. This differential will be in addition to any applicable shift differential.

# 20.4 Pay for Work Performed

If an employee who is regularly required to, and

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 187 of 259 Meiman

who is qualified to, perform the work of the next higher classification makes a request to the Company that he be promoted, the Company at its option will either (a) stop requiring him to perform the work, (b) temporarily assign him to the classification under Section 15.1 for the periods he is required to perform the work or (c) permanently promote him to such classification.

# ARTICLE XXI TWO-PERSON CREW PREMIUM

When two non-supervisory employees are assigned work to be performed without the direction of a supervisor and the work involves the installation, maintenance or operation of electric lines or equipment, the company may designate one of the employees to be in charge of the work to be performed. The employee designated to be in charge shall be paid a \$1.00 per hour premium over their regular rate of pay.

### ARTICLE XXII EMPLOYEES WORKING AWAY FROM THEIR REGULAR PLACE OF EMPLOYMENT

### 22.1 Transportation and Lodging

Whenever an employee is temporarily assigned duties away from his regular place of employment, he will be provided transportation, or compensation for transportation, between the temporarily assigned job and his regular place of employment or headquarters. If, in the opinion of his supervisor, it is impractical for

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 189 of 259 Meiman

the employee to return daily to his regular place of employment, the Company will provide suitable lodging (single room, if available) and board at or near the place of such temporary employment.

For each trip authorized by the Company, between the places of work assigned and the regular place of work or headquarters, time required for travel shall be considered as time worked. It is not the policy of the Company to require any employee to stay away from his regular place of employment or headquarters for a continuous period of more than two (2) weeks, except in cases of emergency.

Except in cases of emergency, employees who will be required to stay away from home overnight will be given notice of that requirement as soon as possible, but not later than the day before.

### 22.2 Meals

When it is necessary for any employee to work in areas away from his regular headquarters, or to work hours in excess of his normal hours, the Company will provide additional compensation or meals as follows:

A. Whenever a line crew, service crew, substation crew, or any employee is working away from their regular headquarters and returning to their regular headquarters each day, but are working in an area where it is not practical to return to headquarters within the 1-hour period allowed for the noon meal, the Company shall provide an additional \$7.00 of compensation to be

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 191 of 259 Meiman

added to the employee's payroll check as reimbursement for the purchase of the noon meal by the employee, provided the lunch can be obtained in the area in which the crew or employee is working. Work groups who choose to use a <sup>1</sup>/<sub>2</sub> hour lunch period will forfeit any meal entitlement to which they may otherwise have been entitled. Where the lunch cannot be obtained in the area in which the crew or employee is working, then each employee will be required to bring his own lunch with him from home. In those instances in which it will be necessary for the employee to bring his own lunch, then the supervisor should so advise on the day before working in the area.

B. Whenever a line crew, service crew, substation crew, or any employee performs work in excess of 2 hours beyond his normal quitting time of his normal scheduled shift, the Company will furnish or pay for the employee's meal, or meals, required during such hours of work.

C. Whenever any employee or crew is working away from regular headquarters and not returning to their regular headquarters each day, then all board and lodging while away from regular headquarters will be paid for by the Company. Under such circumstances, the supervisor will arrange for a hot lunch to be selected from the regular menu at a public eating place at noon if it is practical to do so. Under no circumstances should more than one (1) hour be taken for the noon lunch period, including travel time from work area to the eating place and return. If the work is so located that it is im-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 193 of 259 Meiman

practical for the crew to go to a public eating place for their noon meal, then the supervisor will arrange for lunches to be provided at the job site.

D. In those cases where the work is so located that it

is impractical for the crew to go to a public eating place for their noon meal and the employee is either provided the noon meal or is reimbursed for the purchase of the noon meal under this Section 22.2, it will be permissible for the supervisor to authorize the taking of only 30 minutes for the lunch period and quitting work 30 minutes earlier than would be the case where an hour lunch period is taken.

Except during emergencies or during extraordinary circumstances, the lunch hour of day shift employees shall normally begin not earlier than 11:00 a.m., nor later than 1:00 p.m. local standard time.

### ARTICLE XXIII <u>RETIREMENT</u>

The practice of retirement of employees at age sixty-five (65) will continue in effect; provided, however, that if for any period during the life of this Agreement, mandatory retirement at such age shall be prohibited by law, then for so long as such prohibition shall remain in effect, the retirement age hereunder shall be increased to such age as is necessary in order to comply with the law.

# ARTICLE XXIV BULLETIN BOARD

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 195 of 259 Meiman

The Company will either provide space on its bulletin boards, or provide separate bulletin boards at the same locations, where notices of the Union meetings and other official business of the Union may be posted from time to time. Such notices shall not consist of or include advertising or the promotion of political, religious or charitable projects or contain any material derogatory to the Company, any of its affiliates, or any employee or employees of the Company.

### ARTICLE XXV SHIFT PREFERENCE

A. At the Green River Power Station, the selection of assignments within the operating groups will be made as follows:

During the month of December of each year, the Company shall first identify the operating groups by posting under the name of the Shift Supervisor; provided this shall not restrict the Company's management right to change supervision from time to time. The employees in the various classifications required will be permitted to indicate their choice of assignment to an operating group in order of seniority, but the final right to schedule group positions, and to change them from time to time, is exclusively reserved to the Company in order to assure safe and efficient operations. Any resulting change in group assignments will become effective at the start of a pay period near the first of January selected by the Company.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 197 of 259 Meiman

B. In the event that a vacancy occurs in an operating group after the shift selection process above, the replacement will be placed on the shift where the opening occurs. C. Vacancies created while operators are in training will be filled by Relief Operators from Relief Group "R".

D. When possible, because of available relief, the Senior Relief Group "R" operator in the classification needed shall have first choice in filling the temporary vacancy created because of training.

E. When a successful bidder is posted on or before December 1, he or she will be permitted a shift selection for the following year within the classification to which they bid by order of seniority among the employees in that classification regardless of whether training has or has not been completed.

F. The Relief Group "R" Unit Operators, Unit Operator Assistants, and Auxiliary Operators will work non-relief days at assigned duties.

G. Relief operators shall be listed on the overtime list in his/her own classification, and one classification immediately below.

### ARTICLE XXVI SUCCESSORSHIP

The Company agrees that the Collective Bargaining Agreement between the parties will remain in full force and effect for the specified duration regardless of any

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 199 of 259 Meiman

change in the ownership of the Company. The Company will include a provision, in any sales or merger agreement, with any successor or assign, that will affirm and make the continuation of the Collective Bargaining Agreement a condition of the sale or merger of the Company.

### ARTICLE XXVII MOVING EXPENSES

A When the permanent reporting location of an employee is changed (a) because of his bidding into a permanent job vacancy under Section 15.2 of this Agreement, or, (b) when the Company requests him to take a job which requires his moving to another location, or, (c) when he is released for lack of work and then exercises his placement rights to displace another employee under Section 10.1 of this Agreement, and the employee is required to move his residence because of this change, the Company will pay a lump sum payment, net of taxes, and payable upon the employee's relocation equal to:

• One (1) month's base

B. As much advance notice as possible will be given the employee of the proposed change in headquarters to give him sufficient time to arrange for new quarters in the new locality. If it is not possible to give the employee reasonable notice of the proposed change in permanent headquarters, and it is necessary for the employee to live in the new location until he can arrange to move, the Company will pay his reasonable board and lodg-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 201 of 259 Meiman

ing expenses not to exceed one calendar month unless otherwise agreed upon. If it is not possible to give such reasonable notice of the change, but it is not necessary for the employee to live in the new location until he can arrange to move, the Company will pay mileage at its standard rate for the mileage by which the distance from his present residence to his new headquarters exceeds the distance to his old headquarters, not to exceed one calendar month unless otherwise agreed upon.

C. The Company shall not be obligated to pay the moving expenses of (a) any employee who has less than twelve (12) months of continuous service since last date of hire, or, (b) in the case of any other employee, more than once in any period of twelve (12) consecutive months in connection with that employee's transfer to a new regular place of employment, unless (in either case) the move is at the Company's request.

D. Nothing in this Article of this Agreement shall be interpreted to require any employee to change his place of residence.

### ARTICLE XXVIII LAUNDRY

The Company will continue, as in the past, to pay for laundering the following items of employees' wearing apparel soiled in connection with the operation or maintenance of the Green River Power Station:

Coveralls Overalls Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 203 of 259 Meiman

Overall Jackets Work Shirts Work Trousers The Company will not be responsible for dry cleaning any employee's clothing nor will it be responsible for laundering other items of clothing, such as underwear, T-shirts, socks, caps, gloves, towels, etc., nor for any special service, such as clothing repairs, for which a special charge is made.

The Plant General Manager will arrange for the above service with a commercial laundry operating in the area in such a manner as will insure satisfactory quality at reasonable cost.

# ARTICLE XXIX SAFETY AND HEALTH

The Company will continue, as heretofore, to make reasonable provisions for the safety and health of its employees during the hours of their employment. The Company and Union will cooperate in the continuing objective to eliminate accidents and health hazards.

The Company and the Union agree to a Joint Health and Safety Advisory Committee for the purpose of reviewing, discussing and recommending new or revised safety and health rules and procedures. The Committee shall be chaired by the Manager, Health and Safety, and shall meet quarterly. This Committee shall con- sist of not more than two (2) members of the Union. The Union representatives who shall attend a particular

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 205 of 259 Meiman

meeting shall be made known to the Manager, Health and Safety not less than two (2) weeks prior to the date established for the meeting. At the same time, the Union shall notify the Company of the subjects it desires to address at the meeting.

The Company will continue its practice of paying for approved lens and safety frames for an employee which are ordered through, and pursuant to the terms of, the Company's safety spectacle program. Also (except for items such as safety shoes and long sleeved shirts which would replace an employee's normal cloth- ing) protective devices, protective clothing and other equipment required to be worn by the Company safety rules, and all tools required to perform the Company's work, shall be provided by the Company without cost to the employee.

### ARTICLE XXX CONFLICT WITH LAW

In the event any provision of this Agreement is held to be in conflict with or in violation of any state or federal statute, rule, decision, or valid administrative rule or regulation, such statute, rule, decision, administrative rule or regulation shall control, but all of the provisions of this Agreement not in conflict therewith shall continue in full force and effect.

# ARTICLE XXXI ENTIRE AGREEMENT

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 207 of 259 Meiman

This Agreement sets forth the entire understanding between the Company and the Union and represents the full and complete agreement between the parties on all bargainable issues for the duration hereof. Both the Company and the Union unqualifiedly waive, for the duration of this Agreement, any obligation on the part of the other to bargain collectively with respect to any subject or matter not expressly covered by this Agreement. Neither party intends to be bound or obligated except to the extent that it has expressly so agreed herein and this Agreement shall be strictly construed. This Agreement applies only to the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) of Kentucky Utilities Company as described in Article II herein, and no employee covered by this Agreement shall have or be entitled to any rights, benefits or privileges in any other region, plant or operation of the Company (now existing or hereafter established). None of the benefits, rights or privileges afforded by this Agreement to the Union or any employee shall survive the expiration or termination of this Agreement.

### ARTICLE XXXII TERMINATION

This Agreement shall be in full force from August 1, 2020, without modification or addition for its duration to 12:01 A.M. August 1, 2023, unless amended by mu- tual agreement.

Thereafter, it shall continue in force until sixty (60)

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 209 of 259 Meiman

days subsequent to notification by certified or registered mail, return receipt requested, by either party to the other party, but in no case shall terminate prior to the date indicated above. Not withstanding the other provisions of this Article, the company and union may reopen the Wage Scale, of this Agreement for the purpose of negotiating wage rates to become effective August 1, 2021, and again reopen the Wage Scale of this Agreement for the purpose of negotiating wage rates to become effective August 1, 2022, unless other topics are mutually agreed to be reopened by the parties

#### EXHIBIT A

#### WAGE RATES

# HOURLY RATES CLASSIFICATIONS BARGAINING UNIT EMPLOYEES

### EARLINGTON OPERATIONS, AREAS 1 (PARKWAY) AND 2 (GREEN RIVER) INCLUDING GREEN RIVER GENERATING STATION KENTUCKY UTILITIES COMPANY

Whenever an employee is promoted to a classification having a higher starting rate, he shall receive the starting rate of the new classification or the next higher step in that classification which is at least ten cents (10) per hour above the employee's rate prior to the promo- tion. Thereafter he shall progress as though he had already worked the period required by the preceding steps in his new classification.

Any new employee, upon producing evidence satisfactory to the Company of previous experience in the classification in which he is being employed, shall be given credit for such experience, except that he shall not start higher than the "After One Year" step and, in such event, shall receive the "After Two Years" step after one year's continuous employment. However, if after employment he demonstrates that he has the knowledge, skill and ability equivalent to that of an employee

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 213 of 259 Meiman

who has had two years' experience in the classification, he shall receive the "After Two Years" step beginning with the first payroll period commencing after sixty (60) days of employment.
#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 214 of 259 Meiman

Any employee, other than a supervisor, who is designated by the Company to operate digger/derrick used by crews shall receive six cents (6) per hour in addition to his regular wage.

\*2021 and 2022 wages subject to wage reopener

Note 1 - Applicable, upon Plant General Manager's recommendation, to not more than one em- ployee in a crew which is normally super- vised by a Coal Yard Supervisor. Employ- ees in this classification will be expected to supervise the crew, or any subdivision of it, in the absence of the regular supervisor. In the absence of both the Coal Yard Supervi- sor and Assistant Coal Yard Supervisor on a shift, another employee will be temporarily moved up to the Assistant's position and paid the Assistant Coal Yard Supervisor rate.

Note 2 - Applicable, upon Plant General Manager's recommendation, to not more than one em- ployee in a crew of 3 or more which is nor- mally supervised by a Chief Electrician, Chief Mechanic or Maintenance Manager. Employees in this classification will be expected to supervise the crew, or any subdivi- sion of it, in the absence of the regular super- visor.

Note 3 - Applicable to employees who have been se-lected for and are in training for Line Techni- cian or Service Technician C, Auxiliary Op- erator, Substation Technician C, or any other classification having a first year hourly rate in excess of the trainee hourly rate. Employ- ees who are successful demotional job bidders to a trainee classification will receive the highest rate of pay for that classification. A trainee in this category will be assigned to the classification for which he

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 217 of 259 Meiman

is in training at the end of three (3) to six (6) months, if he is then qualified, or, if not, as soon thereafter as he becomes qualified.

Note 4 - Applicable in overhead line construction

crews normally consisting of 6 or more, in- cluding the Supervisor, in which supervision by other than Supervisor is frequently required.

Note 5 - Employees or new hires entering the Meter Reader classification on or after August 1, 2000 will be paid the Laborer-General wage scale.

Note 6 - Employees or new hires entering the Cus- tomer Order Technician classification on or after August 1, 2005 will be paid the new Customer Order Technician wage scale, which will be increased by \$.30 above the Laborer-General wage scale.

Note 7 - Meter Readers hired prior to August 1, 2000 who enter this classification as of July 24, 2005 will continue to be paid per the Meter Reader pay scale.

### MEMORANDUM OF AGREEMENT

1. Reclassify existing Meter Readers and Meter Readers–General Labor into the new classification of Customer Order Technician. Employees currently in the Meter Reader classification will continue being paid per that wage scale. A Note 6 will be added to the contract as follows: Note 6 – Employees or new hires entering the Customer Order Technician classification on or after August 1, 2005 will be paid the new Customer Order Technician wage scale, which will be increased by \$.30 above the Laborer-General wage scale.

2. Customer Order Technicians will be trained to safely perform non-climbing service work, including after-hours reconnects.

3. Customer Order Technicians will be the first classification called to perform after-hours reconnects. If the Customer Order Technicians in an area are not available, the next person(s) called will be as listed on the call-out list for that area.

4. Employees called out to perform an after-hours reconnect shall be paid a minimum of four (4) hours at the applicable overtime rate, even if the employee actually works less than four (4) hours.

5. The Company agrees to provide Line Technician training, as business conditions allow for those Customer Order Technicians who request the training and have been successfully recommended by the EEI

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 220 of 259 Meiman

CAST test and a physical abilities test. The Health and Safety Coordinator for the Earlington Operations Area will determine the need for protective footwear for the trainee.

## **MEMORANDUM OF AGREEMENT**

The following language applies specifically to Green River Operations group employees only working a 12-hour shift schedule. Where an issue is not specifically addressed, the provisions of the Contract will apply.

## 1. WORKDAY AND WORKWEEK

a. The normal workday will be 6 a.m. to 6 p.m. for day shift and 6 p.m. to 6 a.m. for night shift.

b. The workweek will begin at 6 a.m. Monday morning and end 6 a.m. the following Monday.

c. The current 12-hour schedule now in effect will be the continued as per Article V, Section 5.1.

# 2. REST BREAKS AND LUNCH BREAKS

An employee will be given three (3) paid breaks and a paid lunch.

## **3. CREW SELECTION**

Employees will be allowed to select crews per Article XXV of the Contract.

### 4. SHIFT DIFFERENTIAL

An additional \$1.05 will be paid for all hours worked by employees scheduled on night shift. This will be included and paid at the overtime rate for all

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 222 of 259 Meiman

overtime hours worked.

# 5. SUNDAY PREMIUM

An additional \$1.25 will be paid for all hours

worked on Sunday. This will be included and paid at the over- time rate for all overtime hours worked.

### 6. HOLIDAYS

Holidays will remain as currently in the Contract. The first 8 hours will be paid at 2 <sup>1</sup>/<sub>2</sub> times the straight time rate or may saved to be used at another agreed upon time. The last 4 hours of a 12 hour shift on a holiday will be paid at the straight time rate. An employee will be paid at two (2) times his hourly wage rate for all hours worked over twelve (12) hours on a holiday.

When an employee is called into work on a calendar holiday when it is their scheduled day off the employee will be paid at one and one half  $(1 \frac{1}{2})$  times the employ- ees normal straight time hourly wage rate (including regular shift differential, if any) for the first twelve (12) hours worked. An employee will be paid at two (2) times their hourly wage rate for all hours worked over twelve (12) hours.

## 7. VACATION

a. The amount of vacation will be 40 hours per week of eligible vacation.

b. Full weeks of vacation will be calculated on the normal hours scheduled for that week.

c. Full day vacations will be paid at 12 hours pay.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 224 of 259 Meiman

d. Less than a full day of vacation will be continued per Section 8.3.

e. Employees who take a full week of vacation will

not be required to work their scheduled days off before, or after their vacation, with a maximum of one employee on each shift. Should two employees request to block out the same off days, the senior employee will be allowed to chose which off day period to block. The Company may allow more employees to block the same set of off days or an employee to block before and after their vacation if operational needs allow or no other employee has the time blocked.

f. For the twelve (12) hour shifts, employees who scheduled vacation during their forty-eight (48) hour normal work week will have the option of taking forty (40) hours of vacation and the eight (8) hours will not be paid.

## 8. OVERTIME

a. Overtime will be paid at  $1\frac{1}{2}$  times the straight time rate for hours worked in excess of 12 hours in a day or 40 hours in a week. In the event an employee working a 36 hour week is required to work more than the scheduled 36 hours, the employee will be paid  $1\frac{1}{2}$ times the straight time rate for hours worked in excess of the employee's normally scheduled 36 working hours, except for the first 4 hours of non-mandatory meetings which will be paid at the regular straight time rate.

b. Double time will be paid to an employee who is

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 226 of 259 Meiman

required to work on his last available consecutive off day, provided he has worked at least 6 hours on his previous off day. c. Double time will be paid for any hours worked in excess of 16 hours in a day.

d. Open positions on the Operating Schedule being prepared for the following work week will be filled using the following procedure:

(1) The operating schedule for the following week will be posted with all the required positions filled. Any vacancies on the schedule not filled by "on shift" operators will be filled on an overtime basis using the operator in the classification required with the least amount of actually worked overtime hours. Should a tie exist in the number of hours actually worked, the operator with the least amount of bargaining unit seniority will be used.

(2) After the schedule is posted the Company will begin asking/calling available operators for the vacancies filled in Step 1. Contacts will be made beginning with the operator in the classification required with the least amount of total overtime. If no operator is obtained, the Company will begin asking/calling the next higher bargaining unit classification beginning with operator in that classification with the least amount of total overtime. These contacts in this step will be completed by 8:00 a.m. Saturday.

(3) The operator previously scheduled for that vacancy in Step 1 will be required to check with the shift

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 228 of 259 Meiman

supervisor anytime after 8:00 a.m. Saturday to determine if they have been released from that overtime. If no operator is obtained in Step 2, the operator scheduled for that vacancy in Step 1 will be required to fill the vacancy.

(4) Vacancies will be filled beginning with the classification that is required for that shift. Example: If a Unit Operator is to be off work who would have been working in a Unit Operator Assistant position, then a Unit Operator Assistant will be scheduled for that position.

(5) In filling overtime vacancies where the Company has short notice, the overtime will be considered a Call In. Calls will be made beginning with the operator in the classification required with the least amount of total overtime. If no operator is obtained, the Company will begin calling the next higher bargaining unit clas- sification beginning with operator in that classifica- tion with the least amount of total overtime. The first operator contacted will be informed that they will be required to fill this vacancy. If this operator requests, the Company will continue to attempt to contact other employees using the overtime list to obtain an operator for this vacancy. If another operator accepts the overtime shift, the Company will call the required employee back to release them from the obligation. If the required employee cannot be reached, then the person that accepted the shift will be called back and released from the overtime and the required person will report for this

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 230 of 259 Meiman

position. If a qualified KU employee cannot be reached and no qualified contractor accepts the overtime, a nonbargaining unit employee may fill the twelve (12) hour shift. An employee will not be charged with more than one reject for any workday (6 a.m. to 6 a.m.) period that overtime is refused. The supervisor will not be required to make another call to that employee. However, this does not exempt an employee from getting additional calls for required overtime.

e. If the call in of operators becomes a problem, a call in list may be established. Volunteers will be given the first opportunity for overtime. If coverage is still a problem, it may be necessary to establish a standby or on call list. The operators on call will be paid standby pay as outlined in the Contract.

f. A layover operator has the option of furnishing his or her own meals and receiving one-half hour overtime pay if he works in excess of two hours after his normal quitting time.

g. At any time after an employee agrees to accept available overtime and later decides that he no longer wants to work the overtime (except during emergency situations) the employee must provide at least twenty four (24) hour notice to management prior to the overtime. If less than twenty four hour (24) notice is given the employee will be required to work the scheduled overtime.

### 9. JURY DUTY

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 232 of 259 Meiman

a. An employee will be paid 12 hours pay minus any fees paid by the court for missing a full shift.

b. An employee selected for jury duty must inform his/her supervisor as soon as possible. If the employee

is scheduled to work the day shift, the employee will report to work if there is at least four (4) hours remaining in the shift. If an employee is scheduled to work the night shift, such employee will work the first six

(6) hours of the shift on the day(s) of the jury service. If the employee is held past 1400 hours, the employee will not report for day shift or will be relieved of duty for the night shift.

# **10. BEREAVEMENT**

An employee will be paid 12 hours pay for days missed. The number of days for various family members will be as outlined in Article XVII, Section 17.1.

# **11. SICK LEAVE PLAN**

Employees will have 40 hours to be taken as outlined in Article XVII, Section 17.4.

# **12. RETIREMENT SERVICE**

Employees hired before 1/1/06 who are covered by the defined benefit pension plan will have up to 80 sched- uled hours worked in a two week payroll period count- ed as straight time for purposes under the Pension Plan.

# **13. VOTING TIME FOR ELECTIONS**

Employees who are scheduled to work day shift on the day of a federal, state, or local election will be

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 234 of 259 Meiman

allowed up to two (2) paid hours to vote if they wish to do so. It is understood that employees will only be allowed off for the minimum length of time they need to vote depending on their place of residence in relation to the plant.

## **14. UNANTICIPATED ISSUES**

The Company and the Union realize there may be issues that arise concerning employees on a 12-hour shift that may not have been anticipated. The Company and the Union will meet and attempt to resolve these issues using the principle that the solution will be as cost neutral as possible for both the Company and the employee(s). Should a resolution not be reached, the issue may be taken up in the Grievance and Arbitration Procedure.

### 15. Daylight Savings Time

An employee working a regularly stated schedule at the time the change is made to Daylight Savings Time (normally in the spring) and who only actually works eleven (11) hours instead of his normal twelve (12) hours because of the change shall receive pay for his normal twelve (12) hours. An employee working a regularly stated schedule at the time the change is made from Daylight Savings Time (normally In the fall) and who actually works thirteen (13) hours because of the change, shall receive pay at the established premium rate for the thirteenth (13th) hour.

# Memorandum of Agreement

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 236 of 259 Meiman

Throughout the 2020 contract negotiations the Company and the Union had numerous discussions concerning the safety and health of employees, especially during the current COVID-19 health pandemic.

As a result of these discussions, both parties agreed to meet and discuss alternative ways and methods to help promote a safer and healthier work environment, in light of the pandemic. Subjects of discussion may include, but are not limited to, working from unconventional locations, minimizing person to person contact, alternative work schedules such as 10 hour shifts, controlled leave pay, training personnel on healthy hygiene practices, hazards in dealing with the public, etc. Both parties acknowledge that continued discussions may be necessary as changing conditions develop.

This memorandum shall not in any way limit or diminish the Company's existing management rights nor impede or restrict the Union's rights held under the collective bargaining agreement.

### Memorandum of Agreement – AMI (Smart Meters)

The company agrees there will be no layoff of employees covered under the USW collective bargaining agreement in the Customer Order Technician or Meter Reader classification as of August 1, 2020, due to the deployment and operation of the Advanced Metering Infrastructure (AMI). The Company agrees to meet and discuss with the Union any changes to these job classifications that result from deployment and operation of AMI and negotiate wages for those jobs located in the western division.

# LETTER OF UNDERSTANDING

### **Green River Generating Station**

This will confirm the understanding between The United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (USW) and Kentucky Utilities Company (Company) concerning the Green River Generating Station.

If, in the Company's opinion, it becomes necessary to reduce the workforce at the Green River Generating Station because of the retirement of the Green River Generating Station's coal fired units or part thereof, the following procedure shall be followed:

1. The Company shall not lay off any Green River Generating Station employees as a result of the retirement of the Green River Generating Station's coal fired units.

2. Green River Generating Station employees shall have the right to elect severance benefits. Em- ployees assigned to fill openings elsewhere in the Company will have the option of either electing severance benefits or accepting assignment to a new position. Green River Generating Station employees shall be entitled to a severance benefit payment equal to two weeks of pay for each full year of service, with a maximum benefit of

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 239 of 259 Meiman

fifty-two weeks. Additionally, the Company will pay an employee's group medical and dental premiums, provided an employee elects COBRA or retiree medical coverage, for a period equal to one month of coverage for each two full years of service, without proration, up to a maximum of twelve months. Receipt of these benefits is con- ditioned upon the individual employee signing and not revoking a full waiver and release of any actual or potential employment related claims against the Company, including waiver of con- tractual recall rights.

3. Green River Generating Station employees who do not elect severance benefits will be provided a list of available positions within the Company. This list will also be made available to the union. The available positions may be with any LG&E and KU Energy LLC subsidiary. The employees provided with this list shall be allowed to state their preference for the available openings. With consideration being given to the list of employee preference, the available openings shall be filled based on Union seniority. In the event an em- ployee refuses an available position pursuant to this provision, the employee will not be offered or entitled to any other position, but may elect to receive severance benefits in accordance with Paragraph 2 above. Employees placed into posi- tions within the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) pursuant to this paragraph shall be reclassified to the new posi- tion and their pay shall be red-circled at the rate of pay which results from reducing the employ- ees' former rate of pay by fifty percent (50%) of the difference between

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 241 of 259 Meiman

his former rate of pay and the rate of pay for his new classification. Em- ployees placed into a position in the same clas- sification at a Kentucky Utilities facility out-

side of the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) shall be paid at the then cur- rent rates of pay applicable to that facility and consistent with the employees' step rate at the time of the placement. Employees placed into a position in a different classification at a Kentucky Utilities facility outside of the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) shall receive the top rate of pay for the classification in which they are placed. Employ- ees placed into positions at any other facilities will be paid in accordance with the then current pay practices and rates applicable to that facility. The company reserves the right to determine the appropriate classification and level for which the employee being placed is qualified. Any employ- ee placed in a position pursuant to this paragraph shall have a sixty (60) day trial period in the posi- tion. Upon the conclusion of that trial period, the employee may elect to receive the severance the employee would have been entitled to receive pursuant to Paragraph 2 of this Agreement, less the wages paid to the employee during the sixty (60) day trial period.

4. The Company will make available Meter Reader positions equal to the number of Meter Reader positions filled by contractors in the Earlington Operations area at the time of the retirement of the Green River Generating Station. Meter Reader positions filled by employees pursuant to Paragraph 3 above shall have

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 243 of 259 Meiman

their pay red- circled at the rate of pay which results from reducing the employees' former rate of pay by fifty percent (50%) of the difference between their former rate of pay and the rate of pay for a COT after two years in classification and shall not be required to relocate. Employees who have their pay red-circled pursuant to this provision shall be eligible for potential wage increases two (2) years after the date their pay is red-circled if the collective bargaining agreement provides for such an increase. The Company retains the right, at its discretion, to contract out any Meter Reader positions filled by employees pursuant to Paragraph 3 above, in the event such employees subsequently leave the respective Meter Reader positions in which they are placed. In the event one of these employees subsequently departs from such a Meter Reader position, the Company will make the position available for bid to the other similarly placed employees who have filled Meter Reader positions prior to utilizing a contractor.

5. Employees placed into positions pursuant to Para- graph 3 must, in the Company's sole discretion, meet all requirements for the position, including, but not limited to satisfying the qualifications for the position, the education requirements for the position, and the residency requirements for the position. With respect to meeting the residency requirement, employees will have up to twelve (12) months to relocate. Employees who relocate in order to satisfy the residency requirements for a position shall be eligible for applicable relocation benefits following the completion of the trial

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 245 of 259 Meiman

period referenced in Paragraph 3.

6. It is understood that this agreement will not be construed as the Company's position of either previous

or equivalent experience for any of the classifications or lines of progression involved in the transfers of the Green River Generating Station employees. Furthermore, the individual qualifications of such employees shall not serve as a precedent for any future applications of their classification.

7. With respect to Green River Generating Station employees, the provisions in this Letter of Understanding shall supersede all provisions set forth in Article 10 of the Collective Bargaining Agreement except for Article 10.6.

8. In the event the Company begins staffing a new generating facility on or before 12-31-2025 in the Earlington Operations, Areas 1 (Parkway) or 2 (Green River), the Company will endeavor to make available fifty percent (50%) of any union positions at such a new plant to former Green River Generating Station employees who were displaced as a result of the retirement of the Green River Generating Station's coal fired units and who remain employed by the Company at the time their service is needed at the new generating facility. Former Green River Generating Station employees who have previous operations and maintenance experience at Green River Generating Station and who seek such positions will be deemed to have met the educational requirements of the new positions but are not exempt

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 247 of 259 Meiman

from all qualifications as established by the com- pany including successful completion of any test required for such positions. Employees who satisfy all requirements will fill any such positions based on union seniority. 9. In the event the Company requires employees to complete proper plant shutdown work, at least one of the Unit Officials, (Unit President, Unit Secretary, Unit Grievers), will be provided the opportunity to perform the proper plant shut down work for a period up to a maximum of 8 weeks, provided the Unit Official is qualified to perform the plant shut down work. The number of available positions to conduct proper plant shut down and the qualifications required for this work will be determined solely by the Company.

10. With respect to operations work at the Green River Generating Station, in order to satisfy labor requirements in the period leading up to the retirement of the facility, it is understood and agreed that the Company may contract out operations work pursuant to Article 2.3 of Collective Bargaining Agreement. Such operations contractors brought in pursuant to Article 2.3 will begin training in preparation to cover employee absences and other labor shortages. There will be no reduction in the normal work schedule as result of the utilization of contractors in operations. The normal work schedule is as defined in Article 5.1 of the contract. The overtime procedure outlined in the Memorandum of Agreement on 12 hour shifts will be used to fill any overtime vacancy. Once the overtime list is exhausted, then contract operators that are qualified to fill the vacancy will be offered the overtime opportu-

### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 249 of 259 Meiman

nity. If no contractor accepts the overtime, the tagged operator ("required employee") will be required to fill the overtime opportunity. At no time will there be
more contractors assigned to a shift than the number necessary to ensure that the total number of qualified personnel on a shift is four (4) inclusive of contractors. Contractors may, however, be assigned to any shift for train- ing and other assigned duties on that shift. In the event that the number of employees on a shift drops to three (3), a qualified contractor may be assigned to that shift in order to maintain a staffing level of (4) inclusive of contractors. As long as there are four (4) employees per shift, if both units are running, contractors, once qualified, will not be offered call in or planned overtime unless that overtime is first offered to employees. In the event that only one (1) unit is running, should a vacancy occur, no overtime will be assigned on a shift staffed by three (3) qualified personnel inclusive of contractors unless management deems it necessary in order to meet operational needs. No employee will be displaced as result of the assignment of a contractor to a shift.

11. The Company shall determine staffing requirements and the timing and procedures for completing the selection and/or assignment subject to the provisions set forth herein. Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 251 of 259 Meiman

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representative to first become effective February 1, 2012, and as revised effective August 1, 2014.

Angi Doman

# Green River Generating Station Green River Operation 12 Hour Shift Overtime Language

#### AGREEMENT

This will confirm the understanding reached between Kentucky Utilities and the United Steelworkers regarding the Memorandum of Agreement regarding 12-hour shift schedules and the Letter of Understanding regarding Green River Station. The parties agree to the following:

• This language will supersede the language in para- graph 10 of the Letter of Understanding regarding Green River Station (with regard to contractor employees participation in the filling of overtime only) and paragraphs 8(d) of the Memorandum of Agreement regarding 12-hour shift schedules.

(1) The operating schedule for the following week will be posted with all the required positions filled. Any vacancies on the schedule not filled by "on shift" operators will be filled by "qualified contract operators" where possible. Remaining operator positions will be filled on an overtime basis using the operator in the classification required with the least amount of actually worked overtime hours. Should a tie exist in the number of overtime hours actually worked, the oper-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 253 of 259 Meiman

ator with the least amount of bargaining unit seniority will be used.

(2) After the schedule is posted the Company will begin asking/calling available operators for the va-

cancies filled in paragraph titled (1). Contacts will be made beginning with the operator in the classification required with the least amount of total overtime. If no operator is obtained, the Company will begin asking/ calling the next higher bargain- ing unit classification beginning with the operator in that classification with the least amount of total overtime. These contacts in this step will be com- pleted by 8:00 a.m. Saturday.

(3) The operator previously scheduled for a vacancy in paragraph titled (1) will be required to check with the shift supervisor any time after 8:00 a.m. Saturday to determine if they have been released from that overtime. If no operator is obtained in paragraph titled (2), the operator scheduled for that vacancy in paragraph titled (1) will be required to fill the vacancy.

(4) Vacancies will be filled beginning with the classification that is required for that shift. Example: If a Unit Operator is to be off work who would have been working in a Unit Operator Assistant position, then a Unit Operator Assistant will be scheduled for that position.

(5) Go to overtime list of available operators and the first one contacted is required to work the overtime. If the required operator requests, the company will attempt to contact other employees using the over- time list to obtain an operator for this vacancy. If no opera-

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 255 of 259 Meiman

tor is contacted, the Company will then call qualified, available contractor operators. If no contractor operator is contacted for the overtime, the Company will then call shift supervisors. If no shift supervisor accepts the overtime, the required employee will be required to work the overtime. If a qualified contract operator is contacted he will be required to work and the Company will call the re- quired employee back to release them from the ob- ligation. If a shift supervisor accepts the overtime, the Company will call the required employee back to release them from the obligation. If the required employee cannot be reached then the person that accepted the shift will be called and released from the overtime and the required person will report for this position.

If a qualified KU employee cannot be reached and no qualified contractor accepts or is required to work the overtime, a non-bargaining unit employee may fill the twelve (12) hour shift.

An employee will not be charged with more than one reject for any workday (6 a.m. to 6 a.m.) period that overtime is refused. The supervisor will not be required to make another call to that employee. However, this does not exempt an employee from getting additional calls for required overtime.

(6) It is the intent of both parties to use full twelve hour shifts when filling overtime, when possible, including the use of bargaining unit employees, qualified contractors and non-bargaining unit em- ployees. Split shifts will only be used as a last option.

#### Case No. 2020-00349 Attachment 1 to Response to PSC-1 Question 37 Page 257 of 259 Meiman

This overtime distribution process shall be reviewed by the Company every three months. If the Company determines that this process is resulting in an unequal distribution of overtime, the parties will meet to attempt to agree on modifications that will create better overtime distribution. If the parties cannot agree then they will revert back to the language set forth in paragraph 10 of the Letter of Understanding regarding Green River Station and paragraph 8(d) of the Memorandum of Agreement regarding 12-hour shifts. This agreement will expire with the retirement of the current Green River 3 & 4 units or at the expiration of the current collective bargaining agreement. #### AGREEMENT

THIS AGREEMENT entered into this 1st day of August, 2017, by and between EARLINGTON OP-ERATIONS, AREAS 1 (PARKWAY) AND 2 (GREEN RIVER) OF

KENTUCKY UTILITIES COMPANY (hereinafter called "Company") and the UNITED STEEL, PAPER AND FORESTRY, RUBBER, MANUFACTURING, ENERGY, ALLIED INDUSTRIAL AND SERVICE WORKERS INTERNATIONAL UNION (hereinafter

called "Union"). Except as otherwise expressly provided herein the provisions of this Agreement shall be effective as of August 1, 2017.

### ARTICLE I PURPOSE AND INTENT

### 1.1 Purpose and Intent

It is the purpose and intent of the parties to set forth herein the agreement between the parties covering rates of pay, hours of work and conditions of employment for employees in the unit for which the Union has been certified by the National Labor Relations Board as exclusive bargaining representative; to promote harmonious industrial and economic relationships between the Company and its employees in an atmosphere of mutual respect and understanding to the end that there shall be no interruption of, interference with, or impeding of work during the life of this Agreement, and to provide procedures for the equitable adjustment of grievances.

### 1.2 Periodic Meetings

Upon mutual agreement, the parties agree to meet on the reasonable request of either party at times which should be least disruptive to the Company's operations. Such meeting shall not be for the purpose of conducting collective bargaining negotiations but shall be for the sole purpose of appraising any problem which may have arisen in the application, administration or interpretation of this Agreement or of the problems of general concern to either party. Therefore, such meeting shall not modify, add to, or detract from the provisions of this Agreement. If such meeting is requested by the Company, it will pay employees for time lost.

### ARTICLE II SCOPE OF AGREEMENT

# 2.1 Recognition

The Company hereby recognizes the Union as exclusive representative for the purpose of collective bargaining with respect to rates of pay, wages, hours of employment and other conditions of employment for employees in its Earlington Operations, Areas 1 (Parkway) and 2 (Green River), included in the unit for which the Union has been certified by the National Labor Relations Board on September 17, 1976, in Case

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 16 of 258 Meiman

No. 9-RC-11595, namely:

All production and maintenance employees of the Employer employed in the Employer's Earlington Operations, Areas 1 (Parkway) and 2 (Green River), including servicemen, linemen, metermen, patrolmen, chief electricians, groundmen and truck drivers, but, excluding business development and home demonstration employees, right-of-way solicitors, shift engineers, line foremen A, service foremen A, line foremen B, service foremen B, the chief electricians employed at the Green River Generating Station, the chief mechanic, the coal yard foreman, the chemist, and assistant chemist, all engineering and professional employees, office clerical employees, guards and supervisors. The Term "supervisor" means any individual having authority, in the interest of the employer, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline other employees, or responsibly to direct them, or to adjust their grievances, or effectively to recommend such action, if in connection with the foregoing the exercise of such authority is not of a merely routine or clerical nature, but requires the use of independent judgment.

The Company also recognizes the Union as the collective bargaining agent for the employees of new plants built or new service areas established, whose operations are consolidated with the operations of the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) and who perform the same classifications or nature of work as those employees covered by this Agreement.

The employees in such bargaining unit and represented by the Union and covered by this Agreement are hereinafter referred to as "employees" or individually as "employee." The Union makes this Agreement in its capacity as exclusive bargaining representative of the employees. As the representative of the employees, the Union may process grievances through grievance procedure, including arbitration, in accordance with the provisions of this Agreement, or adjust or settle the same.

# 2.2 No Discrimination

There shall be no discrimination in the administration of this Agreement with regard to race, color, religion, national origin, age, sex, disability, veteran status, or because of the exercise by an employee of his rights as a member or representative of the Union. The terms "he" or "his" as used in this Agreement shall apply to both male and female employees.

# 2.3 Contracting Out

It is agreed that the Company has historically from time to time contracted out work, examples of which are set forth below, which practice may continue. The Company agrees, however, that except for work historically contracted out, and work of a similar nature, it will not subcontract any work historically and principally performed by employees covered by this Agreement as a part of their normal duties if such subcontracting shall cause the reduction of schedule of employees qualified to perform the work. Such work which the Company has historically contracted out includes but is not necessarily limited to:

Blacktopping Sandblasting and metal spraying Acid clean boilers Non-destructive testing (turbine equipment and boiler tubing, generators) Painting Insulating Tree trimming Conveyor belt vulcanizing Unloading frozen coal Railroad track maintenance and repair Large vacuum equipment, removal of fly ash, etc. Construction work: Foundation work Piping installation Earth moving equipment and river dredging Unloading and/or erecting heavy equipment Electrical contracts (new construction) Service Engineers: Turbine overhaul supervision Safety valve maintenance/repair supervision Soot blower maintenance/repair supervision Mobile equipment maintenance/repair Maintenance work:

Major boiler repairs

Major condenser repairs

Specialized major turbine repairs, generator repairs

General maintenance at Green River

Power Station when peak work load exceeds

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 22 of 258 Meiman

capacity of bargaining unit personnel Surveying Fabrication of replacement parts at outside service shops Motor rewinding work completed at outside service shops

Contract hauling

Service Contracts:

Elevators

Portable restroom facilities

Street lighting maintenance

Building transmission, distribution lines, substations Pole setting

Pole inspections

Substation foundation, site preparation

Crane service, hauling heavy equipment

Substation fencing

Bus insulator cleaning

Janitorial and Custodial Work

The Company agrees that, other factors being basically equal i.e. price, availability, qualifications, etc, contractors who employ Union members will be given consideration. It is understood that this provision in no way creates 3rd party beneficiary status for any individual contractor.

### 2.4 No-Strike Clause

During the term of this Agreement, employees, the Union, its officers, representatives, and members shall not take part in, cause, authorize, instigate, aid, sanction, encourage, condone or ratify any strike, slowdown, sit-down, stoppage of work, boycott, picketing, or other interference with, or interruption of Company operations or the work and business of the Company. The Union and its representatives will exert every effort to cause employees covered by this Agreement who participate in any such activities to desist therefrom. Failure or refusal on the part of any employee to comply with the provisions of this Article shall be cause for appropriate disciplinary action, including suspension or discharge.

### 2.5 No Lock-Out Clause

During the term of this Agreement the Company will not cause or engage in any lock-out of its employees.

# 2.6 Restraining Orders and Injunctions

Nothing in this Article or elsewhere in this Agreement shall be deemed or construed to preclude the Company from enforcing the provisions of Section 2.4 in any court of competent jurisdiction, and such court shall not be precluded by any provision of this Agreement from entertaining any such suit for violation of said Section and granting all appropriate injunctive relief. An equal right to seek judicial relief is retained by the Union should the Company, in its opinion, violate the provisions of Section 2.5.

# 2.7 Picket Line

Although it is a recognized obligation on the part of both the Company and the Union to cooperate in maintaining a continuous and dependable public service, it shall not be a violation of this Agreement, nor cause for discharge or disciplinary action, for an employee as an individual matter to decline to cross a picket line at premises other than premises of the Company where
loss of Company property or injury to the employee is threatened.

#### 2.8 Visitation

A duly identified and authorized representative of the Union shall, upon due advance arrangement, be granted access to Company premises for the purpose of investigating problems with which he is properly concerned in the administration of this Agreement. Union activity as permitted herein does not include Union business of an internal nature which does not involve the Company.

#### 2.9 Supervisors Working

Supervisors will not displace qualified available employees in the bargaining unit by performing wor regularly performed by them. Nothing, however, shall limit the performance of bargaining unit work by personnel outside the bargaining unit of work which such personnel have previously performed and similar work, or under any of the following circumstances:

In the instruction and training of employees.

In relief, or to replace an absent employee, or to accomplish work which bargaining unit employees have been permitted to decline.

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 28 of 258 Meiman

To perform work requiring skills or abilities not available among employees.

In the event of breakdowns or emergencies, or to help straighten out problems.

At locations or in crews where there are three (3) or less bargaining unit employees.

In developmental work on, or testing of, equipment, products, services, or methods.

In non-overtime situations.

By service supervisors, service managers, chief electricians, and coal yard supervisors.

## 2.10 Copies of Agreement

The Company shall arrange to have copies of this Agreement printed in booklet form, and the Company and the Union shall share the printing cost in proportion to the number of copies that each orders for its own use.

#### ARTICLE III UNION SECURITY

# 3.1 Union Security

All present employees of the Company covered by this Agreement on the date of execution of this Agreement shall have the right to remain, but shall not be required to remain, members of the Union. All employees covered by this Agreement who are hired after the date of execution of the Agreement shall have the right to become, but shall not be required to become, members of the Union.

The parties agree that if, during the term of this Agreement, KRS 336.130(3) ("Kentucky Right to Work Act) is repealed, in its entirety, by the Common-wealth of Kentucky, if a new public act invalidates

KRS 336.130(3), if it becomes unenforceable in any way, or if the language contained in Article 3.1 of the agreement expiring August 1, 2017 becomes lawful for any other reason, the language of Article 3.1 of the agreement expiring August 1, 2017 shall replace the current language in Article 3.1 without the need for any bargaining.

## 3.2 Check-Off

The Company, where so authorized and directed by the employee in writing upon an authorization form meeting all requirements of law, will deduct from the wages of such employee Union dues in the amount(s) authorized by such employee, and as specified by the International Secretary-Treasurer, on one of such forms. Such deductions of regular monthly dues for a particular month shall be made from the first pay period of the succeeding month and shall be forwarded monthly to the International Secretary-Treasurer. In the event an employee has insufficient earnings due during the first pay period of any month, then such deduction shall be made from the first pay period thereafter in which the employee has sufficient earnings from which the deduction can be made. The Company will permit a Union designated representative to be introduced to a new employee during their first week of employment for a brief orientation at a time when it does not interfere with the duties of either.

The Company, where so authorized and directed by the employee in writing upon an authorization form meeting all requirements of law, will deduct from the wages of such employee political action committee contributions in the amount(s) authorized by such employee on one of such forms.

#### 3.3 Law

This Article is intended to comply with the provisions of State and Federal law, and nothing herein contained shall require the Company to take any action in violation thereof. The Union agrees to indemnify and save the Company harmless from any claims, demands, suits or other forms of liability arising out of any action taken by the Company in compliance with this Article.

#### ARTICLE IV MANAGEMENT

Except to the extent expressly abridged or limited by a specific provision of this Agreement, the Company reserves and retains, solely and exclusively, all of its inherent rights, functions and prerogatives of management as such rights, functions and prerogatives existed prior to the certification of the Union or the execution of this Agreement. Such rights, functions and prerogatives include, but are not limited to, the Company's right to establish, continue and change, from time to time, policies, practices and procedures for the conduct of the business; to determine products to be manufac-

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 34 of 258 Meiman

tured or sold and services to be rendered; to determine the number, location and types of its operations and the methods, processes, services and materials to be employed; to institute, change, curtail or discontiue facilities, processes, service methods, equipment, machinery, methods of production or operations; to subcontract; to assign work to employees in accordance with requirements determined by the Company; to make and enforce reasonable rules for the maintenance of discipline; to suspend, discharge or otherwise discipline employees for just cause; and otherwise to take such measures as the Company may determine to be necessary for the orderly, safe and efficient conduct of the business. Recognizing the desirability of avoiding any impediment to the exercise by the Company of its management rights, functions and prerogatives in a manner beneficial to the employees, it is agreed that no such right, function or prerogative shall be limited by any practice or course of conduct or otherwise than by the express provisions of this Agreement.

# ARTICLE V HOURS OF WORK

#### 5.1 Normal Work Schedule

A. Except for employees at the Green River Power Station, the normal work schedule for full time employees will consist of five (5) consecutive days of eight (8) consecutive hours of work (interrupted only by an unpaid lunch break) Monday through Friday. The normal work schedule for full time employees at Green River Power Station will be as agreed to in negotiations and as in effect on the date of execution of this Agreement. Although the Company reserves the right to change such schedules, it agrees that if the changed schedule is permanent and will thereafter become the employee's regular schedule, the Company will notify the Union of its intention and afford the Union an opportunity to present its views before finally making its decision.

B. The anticipated schedule of working hours for the coming week for employees such as relief personnel who are not on a fi schedule shall be posted no later than the end of day shift on Wednesday of each week.

C. "Workweek", as used in this Agreement, means seven consecutive days starting at 12:00 midnight on Saturday night and ending at 12:00 midnight on the following Saturday night. This includes Green River Power Station Coal Equipment Operators. For all other employees at the Green River Power Station, workweek means seven consecutive days, starting at 6:00 am Monday and ending at 6:00 am on the following Monday.

D. This section provides for the normal scheduling pattern and shall not be construed as a guarantee of hours of work per day or per week or of days of work per week, nor a limitation on the scheduling of work per day or per week (including overtime).

E. In the event of a temporary change (not to exceed

two (2) consecutive days) in an employee's schedule due to training or line switching, employees will be permitted to work until the end of the employee's normal shift if the employee reports to his regular work station for work in appropriate dress, however, this provision shall not apply when an employee is required to be away from his normal work station overnight.

#### 5.2 Sufficient Rest Time/Balance of Shift

When in the opinion of the Company, an employee has worked such an extended period of time as to impair his effectiveness or present a hazard to his health or safety, or to the health and safety of fellow employees, he may be required by the Company to leave work for a rest period of up to eight (8) hours. After sixteen (16) continuous hours worked an employee may request and will be granted a minimum rest period of eight (8) hours. Such rest period shall be taken in its entirety unless the employee is requested and agrees to return to work before the expiration of such eight (8) hour rest period. If such rest period overlaps the employee's regular hours on a regularly scheduled work day, the employee shall be paid at his regular hourly rate of pay for the hours which overlap unless the rest period was initiated by the employee in accordance with this Section. If the rest period ends within two (2) hours or less of the end of the employee's regularly scheduled shift, the employee may either return to work at his regular hourly rate of pay or not return to work and forfeit the remaining hours in his shift.

An employee who is called out for an event and

works at least sixteen (16) continuous hours, and continues into the employee's regular shift, that employee may request an eight (8) hour rest period after one half of the employee's regular shift is completed and be paid at his regular hourly rate of pay for the hours remaining in his shift up to four (4) hours. If in this situation the employee chooses to continue to work the remainder of his shift and the Company agrees for him to work, he will continue to be paid double-time for the rest of his shift.

# 5.3 Lunch Period

Employees at Green River Power Station on continuous shift operations will be allowed a paid lunch break during their shift. Other employees at Green River Power Station will receive an unpaid thirty (30) minute lunch break near the midpoint of their shift. Other employees will receive an unpaid lunch break near the midpoint of their shift.

# 5.4 Wash Up Time

Nonoperating employees at the Green River Power Station will be allowed a five (5) minute wash up period just prior to their lunch break and a fifteen (15) minute clean-up period (tools and locker room) just prior to the end of their shift. However, this provision shall not be interpreted to permit employees to leave Company premises until the designated shift time is terminated.

# 5.5 Daylight Saving Time

An employee working a regularly stated schedule at the time the change is made to Daylight Saving Time

(normally in the spring) and who only actually works seven (7) hours instead of his normal eight (8) because of the change shall receive pay for his normal eight (8) hours. An employee working a regularly stated schedule at the time the change is made from Daylight Saving Time (normally in the fall) and who actually works nine (9) hours because of the change, shall receive pay at the established premium rate for the ninth (9th) hour.

# 5.6 Continuation of Regular Shift Duties

Should an employee complete his regular shift of duty and be assigned to double shift or part shift, he will still be allowed to continue his regular shift of duties during any work week.

# 5.7 Reporting Time

An employee who is scheduled or notified to report for work on a regular shift and does report for work at the time specified without having been given actual notice of change of schedule, shall receive full pay at his regular rate for his scheduled (non-overtime) hours on that day, even though idle or sent home early because of delay or shortage of materials or for other reasons beyond his control. This provision shall not apply in the event that:

(a) Strikes or work stoppages by employees in the bargaining unit covered by this Agreement in connection with labor disputes, interfere with the conduct of normal operations; or

(b) An employee is not put to work or is released from work after having been put to work either at his

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 44 of 258 Meiman

own request or due to his own fault.

## 5.8 Call-Out Beyond Normal Work Hours

A. When an employee is called out to work, or voluntarily reports for and is allowed to work an event outside of his regularly established work schedule, he shall be paid a minimum of four (4) hours at the applicable overtime rate, even if the employee actually works less than four (4) hours. However, if an employee completes his work and is called out to work again before the four (4) hour minimum time has expired, he will not be entitled to another minimum four (4) hours pay for the second call out, but will be paid for the additional time actually worked beyond the four (4) hours minimum from the first call out.

B. This provision shall not apply to an employee who is notified prior to leaving the work area to report early, or if the work is a continuation of his regular shift.

C. Maintenance employees at the Green River Power Station who are called into work less than four (4) hours prior to their normally scheduled start time will be paid only for the hours actually worked outside their normal schedule at one and one-half (1  $\frac{1}{2}$ ) times their hourly wage rate. Employees at the work site prior to their start time who are requested to begin work early will only be paid one and one-half (1  $\frac{1}{2}$ ) times their hourly wage rate for those actual hours worked outside their normal schedule.

# 5.9 Planned Overtime

For planned overtime work by an employee on his scheduled day off, he will receive a minimum of four (4) hours' pay at one and one-half (1-1/2) times his straight time base hourly rate of pay, or his applicable rate including shift or other premium, if any.

# 5.10 Standby Pay

The Company agrees that, due to the current satisfactory responsiveness of employees in this union to call-outs, there will be no initial implementation of this provision, unless the employees in one or more of the areas described below voluntarily request to implement weekly Standby in their Area. If implemented, each Area may determine their own system of determining their Standby person, with emphasis on volunteerism but with an objective of sharing the workload.

Should the responsiveness of employees in any area become unsatisfactory, the Company reserves the right to implement this provision in the affected area. If the Company implements this weekly Standby, each Area will determine their own system of determining their Standby person, with emphasis on volunteerism but with an objective of sharing the workload.

Any standby system developed will be done through the union.

Within the workgroups where the Company is implementing standby in accordance with the second paragraph, the Company reserves the right to assign the standby person, if the union fails to develop an acceptable system within a reasonable time.

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 48 of 258 Meiman

The potential Areas in Distribution Operations to be staffed with a weekly Standby person are as follows:

- Barlow
- Eddyville
- Morganfield/Sebree

- Earlington/Dawson Springs
- Greenville

Each employee who serves in a weekly Standby status, in exchange for agreeing to remain available and fit to respond to call outs during the week, will be paid one hundred dollars (\$100) in year one of the contract, one hundred twenty-five (\$125) in year two of the contract, and one hundred fifty (\$150) in year three of the contract per week and will be guaranteed a minimum of four (4) hours pay at one and one-half (1-1/2) times their regular hourly rate of pay during their standby week. If an employee works on service calls outside his normal scheduled workday during his Standby week, he will be paid for such time worked in accordance with Article VI - Overtime.

If an employee is assigned in a Standby status for less than one (1) week, he will be paid one (1) hour's pay at his appropriate overtime rate in addition to time spent on any service calls for each day he serves in a Standby status for service calls.

# 5.11 Emergency electric restoration for another utility

An employee who performs emergency electric restoration work for another utility will be paid one and one half (1-1/2) times his hourly rate for the first eight (8) hours worked in any one day and two (2) times his hourly wage rate for all hours worked over eight (8) in any one day. However, if that company's overtime pay practice would provide more wages, then the employee will receive the greater of the two.

## 5.12 Adverse Work Premium

An adverse work premium of one-half (1/2) times the employee's regular straight-time hourly rate shall be paid for hours spent performing adverse work related to electric distribution restoration. The adverse work premium will not be paid when an employee is being paid his overtime rate and the adverse work premium will not be compounded with other premiums. Start time will begin upon assignment of restoration in adverse conditions. Employee must be performing work in the adverse condition.

Adverse work premium will be paid only if the following criteria is met:

1. Temperatures below 10°F or above 100° F as identified by the National Weather Service and/or

2. Cloud to ground lightening within 5 miles as identified by National Weather Service and/or

3. Ice accumulations equal to or greater than  $\frac{1}{2}$ " as identified by the National Weather Service

# ARTICLE VI OVERTIME

# 6.1 Purpose

This Article provides the basis for the calculation of, and payment for, daily or weekly overtime hours and shall not be construed as a guarantee of hours of work per day or per week or of days of work per week, nor a limitation on the scheduling of hours of work per day or per week (including overtime). Overtime pay shall be computed including shift differential, if any, and/or any other regular hourly payments, unless otherwise noted.

#### 6.2 Overtime Pay

A. An employee shall be paid at the rate of one and one-half (1-1/2) times the employee's regular base rate of pay plus regular Shift Differential, if any, and any other regular hourly payments:

1) For work performed in excess of forty (40) hours in any one workweek.

2) For employees scheduled eight (8) hours per day, for work performed in excess of eight (8) hours in any normal twenty-four (24) hour workday except (a) if it is a change made through the exercise of Seniority rights (such as bidding, bumping, shift preference, etc.), or (b) in the case of the change of employees on continuous shifts from one schedule or shift to another.

3) For all continuous hours worked after the end of the employee's last previous regular shift by an employee during periods which commence more than eight (8) hours prior to the employee's next regularly scheduled starting time and continue into his regular hours on a regularly scheduled workday if the employee completes his regular shift on such workday. During the continuation of an event as determined by the Company, for pay purposes the continuity of the employee's work shall not be considered to be broken by short breaks for meals, refreshments, or rest periods authorized by his supervisor. 4) For work performed on the sixth day worked in the workweek and on the seventh day worked in the workweek, provided the employee works each of his scheduled workdays (excluding days on layoff) in the workweek or his absence (a) resulted from inability to work because of his illness or the illness of his spouse or child, when such case is substantiated by a doctor's certificate if requested by the Company, or (b) was time paid for but not worked under the provisions of this Agreement, or (c) was excused in advance for Union business.

5) Notwithstanding the provisions of section 6.2(2) (a), an employee in the operating groups at the Green River Power Station who is required by the Company to work more than twelve (12) consecutive hours to facilitate shift preference change, all hours over twelve (12) consecutive hours shall be compensated at applicable overtime rates. This provision shall not apply when an employee elects to change shifts resulting in the employee working sixteen (16) consecutive hours.

6) For employees in Maintenance at the Green River Power Station who are required to work preventative maintenance during non-outage situations will be paid one and one-half  $(1 \frac{1}{2})$  times their hourly wage rate for all hours worked outside their normal shift.

B. An employee shall be paid at the rate of two (2) times the employee's regular base rate of pay plus regular Shift Differential, if any, and any other regular hourly payments:

1) For work performed in excess of sixteen (16) continuous hours. For pay purposes the continuity of the employee's work shall not be considered to be broken by a rest period of less than eight (8) hours therefore, the employee will be paid at two times the employee's regular base pay until a rest period of eight (8) hours is achieved.

2) For work performed by an employee who is required to work on his last consecutive off day, provided he worked at least four (4) hours on his previous off day.

3) Employees called back within four (4) hours of being released from their regular shift, shall have their additional hours actually worked added to the hours worked before being released for the purposes of calculating overtime pay and total hours worked.

#### 6.3 Non-Duplication

No overtime or premium pay will be pyramided or duplicated. In the event that overtime or premium pay is applicable to the same hours worked under any two or more provisions of this Agreement, only the single highest premium payment required under any provision shall be paid, and hours that are paid for at overtime or premium rates under one provision of this Agreement shall not be considered as hours worked for the purpose of computing overtime work under another provision (unless specifically provided in any case). Articles 5.8 and 5.9 will not be pyramided for the purposes of calculating overtime.

# 6.4 Cooperation

Recognizing that the nature of the Company's operations requires overtime from time to time, it is agreed that performing overtime work, daily or weekly when needed, constitutes a part of the duties and responsibilities of an employee's job.

# 6.5 Overtime Distribution

For employees at Green River Power Station other than those in Operations Groups (covered by §6.6 of this contract) and at locations other than Green River, the following will apply:

1. Subject to the requirement that an employee assigned overtime must be qualified to perform the work, when the Company assigns overtime to bargaining unit employees, it will be distributed equitably, averaged over a reasonable period of time, among employees permanently assigned to the classification at the location at which the overtime is assigned, provided such employees are available. (In the event qualified employees are not available or are permitted to decline such overtime, it may be assigned to such person and in such manner as the Company shall determine.)At the end of each two (2) week period, an overtime list for each overtime group will be posted at that group's location.

2. An employee will be charged with any overtime he is permitted to decline and with any overtime that he would have been offered or assigned during periods when the Company honors his request that he not be offered or assigned overtime unless necessary.

3. Except for absent members of crews who are called to work overtime an employee will not be charged with overtime when he cannot be contacted. An employee who is absent for more than five (5) weeks will return with an amount of overtime equal to the average amount of other employees in his classification at the location.

4. An employee will be charged with overtime as set forth above among employees permanently assigned to his regular classification whether then working in or out of his regular classification.

5. It shall be the responsibility of an employee to bring any substantially adverse distribution of overtime to him (under normal circumstances, more than twenty-four (24) hours less than the amount charged to any employee in his classification at the location) to the attention of his supervisor, and after it is brought to his supervisor's attention, the Company shall correct any such inequality by the future assignment of overtime not later than the next reasonable opportunity for which the employee is available should he have accrued the least amount of overtime credit and otherwise to the available qualified employee who then has accrued the least amount. 6. Notwithstanding the provisions of Paragraphs 1 and 5 above, with respect to maintenance work at Green River only when the Company assigns overtime mandatorily, the Company will assign the work to the
qualified available employee (including any relief operators then working maintenance) with the least amount of overtime actually worked. For the purposes of assignment of maintenance overtime, in determining the amount of overtime worked by a relief operator, overtime worked both in maintenance and as an operator shall be considered.

7. Whenever an employee performs work in excess of 2 hours beyond his normal quitting time of his normal scheduled shift, the Company will furnish or pay for the employee's meal, or meals, required during such hours of work.

8. When an employee successfully bids into a classification he or she will be charged the same overtime hours as that of the employee in the new classification with the most overtime hours. Overtime hours will not change when employees are reclassified to a higher rated position, as referenced in Section 15.2(G).

9. Overtime paid for safety meetings, meals, and other events sponsored by the Company will not be counted as part of the total overtime, i.e., hours paid but not actually worked.

10. The overtime lists for all overtime groups will start with each employee at zero at the start of the pay

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 64 of 258 Meiman

period nearest the first of January.

#### 6.6 Green River Power Station Operating Groups Overtime Work

I. General Information

1. Each time an operator is offered an overtime shift, it will be the responsibility of the Shift Supervisor on duty to see that all designated information is entered in the Overtime Log Book.

2. At the end of each one (1) week period, an overtime list will be posted on the Operator's Bulletin Board, grouped according to classification. In each classification, operators will be listed according to total overtime hours, with operator at the top having the least amount of total overtime hours. Total overtime hours will include hours worked plus hours rejected (with exceptions as noted later). Where a tie exists, the listing will be according to seniority. Operators may volunteer to be excluded from being offered overtime assignments. However, they remain obligated to work forced overtime assignments.

3. Any operator on vacation, holiday, union business, off sick or on STD will not be offered overtime and his or her total overtime will remain unchanged. However, an employee who is absent for more than five (5) weeks will return with an amount of overtime equal to the average amount of other employees in his or her classification.

4. In no case should an operator work more than sixteen (16) consecutive hours, unless an emergency

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 66 of 258 Meiman

exists.

5. The Shift Supervisor on duty has the responsibility of seeing that the layover operator is furnished necessary meal or meals. The layover operator has the option of furnishing his or her own meals and receiving one hour extra pay if the layover shift is 8-4, or one-half hour extra pay for the 4-12 or 12-8 shift. Overtime operators will furnish their own meals unless the overtime results in double shift, in which case the same rules apply as for a layover. If a layover operator chooses a meal instead of an extra one-half hour overtime pay then the Shift Supervisor should call a local restaurant for a pick-up meal. If operating conditions permit, the Shift Supervisor will allow the layover operator to pick up his or her meal when ready. If, in the opinion of the Shift Supervisor, the layover operator should not leave, then the Shift Supervisor will designate someone else to pickup the meal for him or her. A Company truck will normally be available. If the layover operator is on a special diet that cannot be obtained at a local restaurant, then the Shift Supervisor should, if at all possible, allow him or her to pick up a meal at home (in this case, he or she will not be allowed extra pay for his or her meal).

6. When an operator is promoted, he or she will be charged the same overtime hours as that of the operator in the new classification with the most total overtime hours.

7. Any operator working with Maintenance personnel may be requested from time to time to work overtime. This will be charged to the operator as overtime worked or rejected.

8. The overtime list will start with each operator at zero at the start of the pay period near the first of January as referenced in Article XXV, Section A.

9. Overtime paid for safety meetings, meals, and other events sponsored by the Company will not be counted as part of the total overtime, i.e., hours paid but not actually worked.

10. Should an operator be offered an overtime shift which would give him or her a sixteen (16) hour shift and he or she had worked a sixteen (16) hour shift the day before, the operator may reject the sixteen (16) hour shift without it adding to his or her total overtime hours.

### II. Overtime Assignments

The following steps will be taken when an operator is needed on an overtime basis.

# A. Scheduled Procedure, Full or Partial Shifts

When the Company has at least twelve (12) hours notice prior to the time the overtime is to begin the overtime will be treated as scheduled.

Operators will be offered the overtime beginning with the senior operator in the job classification required who has the least amount of total overtime. From this point until twelve (12) hours before the overtime shift starts, one (1) call will be made before calling the next operator.

In the event that an operator is to be offered an ad-

ditional overtime shift(s) in the same classification and on the same shift as one that the shift supervisor was unable to reach him or her for, then one call to that operator will be made for each additional shift(s) before calling the next operator. If no operator is obtained in the job classification required then the Company will go to the next higher Bargaining Unit classification(s) and proceed as per this section.

If no operator is obtained using this procedure and at least one call has been made to each available Bargaining Unit operator, the operator on duty in the job classification required, with the least amount of overtime actually worked will layover and he or she will not be charged with the previous rejection.

It is recognized that there may be times when the operator on duty with the least amount of worked overtime is physically unable to perform his or her duties for the additional overtime. In this case the next operator on duty in the job classification required with the second least amount of worked overtime will layover. If all operators in the job classification required are physically unable to perform, the Company will go to the next higher classification(s) and proceed as per this section beginning with the operator on duty in that classification with the least amount of worked overtime.

When the Company finds it necessary to call-in an operator for less than four (4) hours it will be considered as a call-in, partial shift. The operators in the job classification required working the next shift will be called beginning with the senior operator who has the least amount of total overtime. If no operator is obtained using this procedure, the overtime selection will follow the Call-in Procedure.

#### **B.** Layover Procedure

When the Company has less than twelve (12) hours notice prior to the time the overtime is to begin the overtime will be treated as a layover.

The operators on duty in the job classification required will be offered the overtime beginning with the senior operator who has the least amount of total overtime.

If no operator is obtained using this procedure the overtime selection will follow the Call-In Procedure.

### C. Call-In Procedure

When the Company has less than twelve (12) hours notice prior to the time the overtime is to begin and the Layover Procedure (for that particular job classification) is exhausted the overtime will be treated as a call-in.

The operators in the job classification required will be offered the overtime beginning with the operator who is on top of the list established in 6.6.2. One (1) call will be made before calling the next operator.

If no operator is obtained by the Call-In Procedure (for that particular job classification), the Company will go to the next higher Bargaining Unit Classification(s) and proceed as per the Layover Procedure. Operators who volunteer to be excluded from being offered overtime assignments will not be called, but will be charged with a reject.

If no operator is obtained using this procedure and

at least one call has been made to each available Bargaining Unit Operator, the operator on duty in the job classification required, with the least amount of overtime actually worked per the list established in 6.6.2, will layover and he or she will not be charged with the previous rejection.

It is recognized that there may be times when the operator on duty with the least amount of worked overtime is physically unable to perform his or her duties for the additional overtime. In this case the next operator on duty in the job classification required with the second least amount of worked overtime will layover. If all operators in the job classification required are physically unable to perform, the Company will go to the next higher classification(s) and proceed as per this section beginning with the operator on duty in that classification with the least amount of worked overtime.

#### ARTICLE VII HOLIDAYS

### 7.1 Holidays

A. The following will be considered holidays for the purposes of this Agreement:

New Years Day

Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 76 of 258 Meiman

Good Friday Memorial Day Fourth of July Labor Day Thanksgiving Day Friday after Thanksgiving Christmas Eve Christmas Day

Eligible employees who do not work on the above holidays will receive eight (8) hours pay at their normal straight time hourly rate (including regular Shift Differential, if any, and any other regular hourly payments).

2 Floating Holidays are available during the calendar year for current employees. During the first year of employment floating holidays will be pro-rated according to the following schedule:

- Hired before July 1, employees will receive 16 hours Floating Holiday
- Hired between July 1 and October 31, employees will receive 8 hours Floating Holiday
- For those hired on or after November 1, employees will not be eligible for their floating holidays until January 1 of the following year.

B. Floating holidays will be taken in each calendar year on a day mutually agreed upon between the employee and the Company.

C. For employees scheduled Monday through Friday, if one of the above designated holidays falls on a Saturday, it shall be recognized on the preceding Friday (except that when Christmas Day falls on a Saturday, Christmas Eve and Christmas Day shall be recognized on the preceding Thursday and Friday), and if one of the above designated holidays falls on a Sunday, it shall be recognized on the following Monday (except that when Christmas Eve falls on a Sunday, it shall be recognized on the preceding Friday).

For employees scheduled other than Monday through Friday, (including employees who alternately work Monday through Friday and Tuesday through Saturday schedules), when a holiday falls on an off day, it shall be recognized on the next regularly scheduled day of work except in the case of two consecutive holidays such as Thanksgiving Day and Friday after Thanksgiving and Christmas Eve and Christmas Day, in which the following procedure shall apply:

If both holidays fall on an employee's off days, the first holiday shall be recognized on his last regularly scheduled day of work preceding the holidays, and the second holiday shall be recognized on the first regularly scheduled day of work immediately following the holidays. If the employee is scheduled off on only one of the holidays, then (a) if he is scheduled to work the first holiday, the second holiday shall be recognized on his first regularly scheduled day of work following the holidays, and (b) if the employee is scheduled to work the second holiday, then the first holiday shall be recognized on his last regularly scheduled day of work immediately preceding the holidays.

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 80 of 258 Meiman

In all cases, if an employee is regularly scheduled to work on one of the above designated holidays, the holiday shall be recognized on that day.

#### 7.2 Holiday Work

A. An employee who is required by the Company to work on a holiday will be paid at the rate of one and one-half (1-1/2) times the employee's normal straight time hourly rate (including regular Shift Differential, if any, and any other regular hourly payments), for the first eight (8) hours worked, in addition to holiday pay, if the employee is entitled to holiday pay as such, or in lieu thereof, such employee may work at his normal straight time hourly rate (including regular Shift Differential, if any, and any other regular hourly payments) on the holiday and be absent with holiday pay on another mutually agreed upon day. No additional holiday may be accumulated until such holiday is utilized except with prior consent of the Company. An employee will be paid at two (2) times his hourly wage rate for all hours worked over eight (8) on a holiday.

B. Notwithstanding the foregoing Paragraph A, employees who are regularly scheduled to work in six (6) or seven (7) consecutive day periods and who are required to work on a holiday may accumulate and "bank" up to three (3) holidays to be used in conjunction with regularly scheduled vacations or at other times mutually agreed upon in advance, which "banked" holidays,

(1) may be carried forward into the next succeeding

calendar year and (2) will not affect such an employee's option as set forth in Paragraph A with respect to a subsequent holiday while he has such three (3) holidays "banked". If, however, while such an employee has three (3) holidays "banked", he elects to be absent without pay on another holiday in lieu of receiving pay for working on such day, then such fourth accumulated holiday must be utilized prior to the next holiday.

# 7.3 Eligibility

A. To be eligible to receive holiday pay an employee must have worked in the workweek in which the celebrated holiday falls, or be on paid sick leave for such week unless (a) his absence resulted from inability to work by reason of illness or injury, for which he is not compensated, verified by a doctor's certificate if requested by the Company, or (b) he was on paid vacation during such week, or (c) he was on leave for union business during such week, in any of which cases, he must have worked either in the week immediately preceding or the four (4) weeks immediately following the workweek in which the celebrated holiday falls.

B. If an employee is scheduled to work on any holiday recognized herein and fails to report or perform his scheduled work, he shall become ineligible for pay for the unworked holiday unless he has failed to report or perform such work because of sickness or because of death in the immediate family or for comparable good cause.

## 7.4 Holiday During Vacation

When such a holiday for which an employee is eligible for holiday pay occurs during an employee's vacation, the employee will be granted an extra day vacation time.

#### 7.5 Holiday During Sick Leave

When a holiday for which an employee is eligible for holiday pay occurs on a day for which an employee would otherwise receive sick pay under the Company's program, he will receive the holiday pay and no charge will be made against his paid sick leave days.

#### ARTICLE VIII VACATIONS

#### 8.1 Amount of Vacation

Effective January 1, 2000, eligible employees will earn vacation from date of hire based on years of service in accordance with the following schedule:

Vacation Earned	Completed Years of Service At- tained During Calendar Year
5 days	Maximum in year of hire
10 days	Years 1-4
15 days	Years5-14
20 days	Years 15-24
25 days	Years 25 and above

Such employees on a forty (40) hour workweek shall be paid the equivalent of forty (40) hours at their straight time hourly base rate of pay plus regular Shift Differential, if any, and any other regular hourly payments, for each week of vacation. Such employees who normally work more than twenty (20) but less than forty (40) hours per week (a part-time employee, should such be included in the bargaining unit during the life of this Agreement) shall be eligible for one-half the normal vacation entitlement (earned/accrued).

## 8.2 Eligibility

A. To qualify for vacation in the following year, an employee must be active on the payroll as of December 31. An exception to this requirement applies to those employees who are on approved Family and Medical Leave. A full-time employee to be eligible for a vacation must have worked not less than twelve hundred forty-eight (1248) hours during the twelve (12) months next proceeding the date he first becomes eligible to take such vacation. A part-time employee to be eligible for a vacation must have worked at least seventy-five percent (75%) of the number of hours an employee on his weekly schedule would work in a year. For purposes of this Section 8.2, in calculating the number of hours worked, there shall be included his normal workday for days for which he is absent but for which he is paid vacation pay, holiday pay, paid sick leave, short term disability, funeral leave, jury duty, military leave or workers' compensation supplement.

B. An employee reinstated from inactive status shall become eligible for vacation based on his or her anniversary date: • An employee returning to work from January 1 through June 30 is eligible for earned vacation during the calendar year. Such employee must work three (3) continuous months before being eligible for vacation pay.

• An employee returning to work on or after July 1 is ineligible for vacation during the calendar year.

C. Employees hired directly by the Company to fill temporary positions (not hired as temporaries through contractors) who later become regular employees of the Company are eligible for vacation accrual retroactive to the beginning of their temporary employment with the Company.

D. An employee hired between January 1 and June 30 is eligible for 5 days of vacation during that calendar year. Such employee must work three (3) continuous months before being eligible for vacation pay. An employee hired on or after July 1 is ineligible for vacation during the initial calendar year of employment. After the initial calendar year of employment, an employee can take vacation effective January 1 or upon three (3) continuous months of active service, whichever is later, based upon the above schedule.

E. Employees who are rehired accrue vacation at the same rate as when they left employment if they were employed for one year of continuous service prior to separation and if the separation was for one year or less.

#### **83** Scheduling of Vacations

A. An employee's vacation will, to the extent reasonably practicable, be granted at the time most desired by the employee in order of Seniority among those employees with whom his vacation must be coordinated, but the final right to schedule vacation is reserved to the Company in order to assure efficient operations.

B. Vacations will be taken at least one workweek at a time except (1) with the consent of the Company, or (2) an excused absence for legitimate reasons may, at the request of the employee, be charged against any vacation to which he is then entitled.

C. Relief operators at the Green River Generating Station not on a fixed schedule who schedule five (5) consecutive days off on Monday through Friday shall be guaranteed the Saturday and Sunday before and after such days off as off days, for a total of nine (9) days.

D. Employees at the Green River Power station will be able to choose vacation in four rounds of selection. Each employee on the same shift will be allowed to choose one continuous block of vacation up to their entire vacation entitlement by seniority. After all employees on the same shift have scheduled one continuous block of vacation, then employees on the same shift will be allowed to schedule another continuous block of vacation. After the second round of scheduling, then employees will be allowed to schedule another block in the same manner. After the third round of scheduling, employees will be allowed to schedule any remaining entitlements (vacation, floating holidays, personal days or banked holidays) by seniority, this round does not have to be continuous blocks. Any remaining entitlements not scheduled at the end of these four rounds of scheduling will be scheduled on a first come request basis.

### 8.4 Accumulating Vacations

Vacation time may not be accumulated from one year to the next, and vacations earned as of any January 1 must be liquidated by time off by December 31 of that same year, except that with prior notification to the responsible manager, an employee may defer up to five days of vacation to the following calendar year.

## 8.5 Vacation Pay at Separation

An employee who quits, dies, retires or is discharged on or after any January 1 and without having received the vacation for which he became eligible upon such date, will be entitled to his vacation pay upon termination of employment. Any such payment due an employee who has died shall be made to the person designated as beneficiary on his group life coverage, if living, otherwise to the employee's estate. No employee leaving the employment of the Company during any calendar year shall be entitled to any vacation pay in the following year.

### 8.6 Pay in Lieu of Vacation

An employee with at least four weeks of vacation eligibility (including carry-over) may "sell back" one week of vacation after they have taken two weeks of vacation and carried over one week. Payout for such a

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 94 of 258 Meiman

week of worked vacation will occur in February of the following year.

#### 87 Vacation During Illness, Disability, or Personal Leave of Absence

A. If an employee goes on paid sick leave or becomes unable to work because of compensable occupational injury prior to the time his vacation is scheduled to commence, his vacation will be rescheduled later in the year, except that an employee on paid sick leave or Short Term Disability may, at his option, cease receiving sick pay or Short Term Disability pay and take his vacation as previously scheduled. The vacation of an employee who becomes ill or is injured after working his last shift prior to vacation will not be rescheduled, and he will not be eligible for any sick pay until such scheduled vacation has expired. However, at the sole discretion of the Company, vacation may be restored to an employee and rescheduled at a later date.

B. An employee on paid sick leave or Short Term Disability may, upon advance written request, elect at the end of the calendar year to cease receiving sick pay or Short Term Disability pay for any unused vacation period in order to avoid loss of vacation pay. An employee disabled as the result of a compensable occupational injury or who is receiving long term disability insurance payments at the end of a vacation year and is unable to work during any unused vacation period as provided in Section 8.6, will not receive pay for the vacation not taken, except as provided in Section 8.7C. C. In the year in which an employee incurs an occupational injury or illness, after the application of Section 8.4, the employee shall receive payment for any remaining unused vacation in an amount sufficient to make up the difference between what the employee received from workers' compensation insurance or Short Term Disability pay and the employee's regular straight time wages assuming a 40-hour work week.

D. An employee will earn vacation during approved personal leaves of absence on a prorated basis as follows:

- an employee on a PLOA of one full month to three full months will earn 75 percent vacation benefit for the following year, based upon the above schedule; and
- an employee on a PLOA of four to six months will earn 50 percent vacation benefit for the following year, based upon the above schedule.

## 8.8 Vacation at Retirement

Any employee who retires may elect to work during all weeks of any vacation to which he may be entitled in the year of retirement, and for each such week of vacation worked, shall receive with his final payroll check additional compensation in an amount computed on the same basis as is then employed in computing the compensation paid to other employees who work during one week of their vacation under Section 8.6 above.

# ARTICLE IX

Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 98 of 258 Meiman

#### **SENIORITY**

#### 9.1 Seniority Recognition

In cases of filling permanent vacancies, decrease of force and recalls from layoff, consideration shall be
given to length of continuous service, all as specifically set forth in various sections of this Agreement dealing with such events.

## 9.2 Definitions

# A. Bargaining Unit Seniority

For all purposes of this Agreement, an employee's bargaining unit seniority ("Seniority") shall date from his first day of work following his employment with the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) of the Company or his last reemployment if his continuous service has been broken. An employee of the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) in the bargaining unit on the effective date of the first contract shall have Seniority equal to his continuous service with the Company in any of its regions in any position. Any employee of the Company who accepts transfer into the bargaining unit covered by this Agreement following the effective date of the first contract shall retain his previous Company service for computing vacation, pension and insurance benefits but shall be considered as a new employee for all other purposes of this Agreement.

# B. Qualified

Wherever used in this Agreement "qualified" shall

mean that the employee has the ability to perform the required duties of the job on a regular basis under the degree of supervision normally given to employees in the job and to perform those duties safely and efficiently.

# 9.3 Seniority List

A seniority list showing the Seniority of each employee was posted under the Collective Bargaining Agreement effective October 9, 1977. The Company will revise such list from time to time as necessary for it to be kept current. It shall be the responsibility of the employees to bring any error to the attention of the Company, with a copy to the Unit Secretary.

# 9.4 Probationary Employees

A newly hired employee (or an employee rehired after loss of Seniority) will be considered a probationary employee and will not accrue any Seniority until 90 calendar days from date of hire. During the employee's probationary period the Company may terminate the employee with or without cause and such termination shall not be subject to review in the grievance or arbitration procedure. During the probationary period, the Company may from time to time transfer a probationary employee or assign various duties for the purpose of determining his suitability for permanent employment. Upon satisfactory completion of his probationary period, an employee will be credited with Seniority in accordance with Section 9.2(A).

# 9.5 Termination of Seniority

An employee shall lose all Seniority with the Company and all rights under this Agreement (except for previously accrued pension and insurance benefits, if any, to the extent specifically provided elsewhere) upon the occurrence of any of the following: (A) Resignation or quit by the employee for any reason

(B) Discharge for just cause

(C) Layoff for twelve (12) consecutive months, or the length of the employee's Seniority, if more at the start of his layoff, to a maximum of two (2) years

(D) Absence for two (2) consecutive working days without having notified the Company unless impossible to do so, and furnished a satisfactory explanation within such period

(E) Fails to notify the Company of his intention to return to work from layoff within ten (10) days (Saturdays, Sundays and Holidays excepted) after mailing of notification by registered or certified mail (return receipt requested) to the last address shown on the Company records (and copies of said notice having also been given to the Union) or fails, without reasonable excuse, to report for work at the time designated in the notice

(F) Failure to return to work from absence due to sickness or injury within twelve (12) months after the last day of active employment, or the length of the employee's Seniority, if more at the time his absence commences, to a maximum of two (2) years.

(G) Acceptance of wages or other compensation for services rendered for others, or accrual of income from self-employment, (other than earnings the employee would have received even if he had not lost time from work, such as from his farm, etc.) during leave of absence unless such payment was from the Union or was authorized in writing by the Company in advance.

(H) Failure to return at or prior to the expiration of a leave of absence, if possible, or failure to notify the Company of his inability to return if such notification is possible.

(I) Transfer out of the bargaining unit as provided in Article XIX

(J) Transfer out of the Earlington Operations, Areas 1 (Parkway) and 2 (Green River)

(K) Absence for a period in excess of that provided in Section 16.6 relating to pregnancy

(L) Retirement

(M) Death provided, however, nothing in this Section 9.5 shall operate to deprive any employee, or his heirs, whose Seniority is terminated by reason of his retirement or death, of benefits, if any, accrued prior to such retirement or death

## 9.6 Compensable Disability

Notwithstanding the provisions of Section 9.5(F), the Seniority of any employee covered by this Agreement shall not be broken so long as he receives regular periodic payments under Workers' Compensation for disability incurred during the course of his employment with the Company which prevents his return to work. If the job he held at the time the absence commenced has been permanently filled during his absence or is otherwise no longer available, for the purpose of reclaiming his job or in selecting another job in the manner as if he had been laid off from his old job at the time of his return as provided in Section 10.1, such an employee with five (5) years of Seniority or more at the time his absence commences shall continue to accrue Seniority during the entire period of such absence, but an employee with less than five (5) years Seniority at the time his absence commences shall not be considered to have continued to accrue Seniority during the period of his absence in excess of three (3) years.

## 9.7 Identical Hiring Dates

When two (2) or more employees in the bargaining unit have identical hiring dates or dates of transfer into the bargaining unit, Seniority shall be awarded in the alphabetical order of the spelling of their names, surnames listed first.

#### 9.8 Temporary Employees

Temporary employees shall have the same status as Probationary Employees for the full duration of their temporary employment and shall accrue no Seniority of any kind. "Temporary Employees" shall be:

A. Those who are hired on jobs at or below the General Laborer classification for an agreed and limited period of time (not more than ninety (90) days)

in order to fill temporary needs for additional personnel resulting from absence of regular employees by reason of vacations, sickness or other cause; or

B. Part-time help such as grass-cutters at various locations in the Earlington Operations, Areas 1 (Park-

way) and 2 (Green River) who do not regularly work more than twenty-four (24) hours per week; or

C. Employees of other companies (customers of Kentucky Utilities Company) whose only function shall be to operate switches at Sub-Stations and other remote locations. However, it is specifically understood and agreed that the operation of Company owned switches will be the work of employees in the bargaining unit covered by this Agreement should it be necessary to call someone out at night to perform such function.

Should the status of a Temporary Employee be changed to that of a permanent employee in the bargaining unit, his Seniority shall date from the date of such change of status, except that the date from which the employee has continuously worked a regular schedule of at least twenty (20) hours each week will be considered as the date of employment for the purposes of determining vacation. However, no sick leave days will be accrued to any employee's account for the time worked as a temporary employee.

#### ARTICLE X REDUCTION AND RESTORATION OF FORCES

## 10.1 Permanent Layoff

The following procedure shall be followed in a reduction of forces:

(A) If the number of employees in a particular classification at a location is to be reduced, but some retained, employees will be reduced, in inverse order of Seniority, provided that the remaining employees are qualified for the work to be performed.

(B) A surplus employee may upon reduction displace an employee holding a job:

- (1) for which he is qualified, and
- (2) which is at the same or lower rate than the job as to which he is surplus (except that an employee may return to a higher classification formerly held), and
- (3) which is either (a) held by an employee with less Seniority at the surplus employee's location or at any location close enough to his residence so he can meet his normal work schedule and such emergency call-out requirements as are inherent in the job (it being specifically agreed that, except with the consent of the Company, members of service organizations must live in the service area served), or (b) held by an employee with the least Seniority in a classification at any other location in the bargaining unit with the understanding that to do so would require a change of residence, or accept layoff in lieu thereof.

(C) Should the surplus employee not have previously qualified on the job he chooses under the above procedure, no training time will be allowed. However, such employee shall be oriented in the job requirements and will be given up to maximum of five (5) working days to display his qualifications, or lack thereof, should there be good cause to believe he can perform the work on the job satisfactorily due to knowledge and skills developed on other jobs with the Company.

## 10.2 Rates on Demotion

When an employee is demoted in a reduction of forces, he will be paid at the lower of (a) the top of the rate range of the job to which he has been demoted or (b) the rate that he was being paid on the job from which he was demoted.

## 10.3 Notice of Recall

Recall of an employee after a layoff shall be in writing and mailed to the employee's last known address by certified or registered mail as it appears on the Company's records. If an employee on layoff changes his address, he must notify the Company in writing by certified or registered mail with a copy of said notice being mailed to the local Union.

# 10.4 Restoration of Forces

(A) In the restoration of forces, employees shall be recalled in order of Seniority to the jobs they held before the reduction of forces (if available) or to other jobs they have previously held or for which they are otherwise qualified, provided that the employees re-

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 114 of 258 Meiman

called must be qualified for the work to be performed.

(B) Should the Company decide to recall an unqualified employee to attempt to train for a vacancy, it will give preference to the senior employee on layoff whose prior experience, work record, skill and ability, and demonstrated physical and mental capacities indicate that he is capable of becoming qualified within a reasonable period.

#### 10.5 Notification of Layoff

When a reduction in working force becomes necessary and employees are to be reduced in classification or laid off, the concerned employees and the Union shall be given not less than forty-eight (48) hours' notice unless an emergency condition beyond the control of the Company makes such notice impossible.

## 10.6 Retention of Officers and Committee

The Unit President, Unit Secretary and Unit Grievers (should the Unit Griever remain in the geographic area he represents), will not be released from active employment in a reduction of force as long as work for which they are qualified to perform is available in the bargaining unit.

# ARTICLE XI <u>EMPLOYMENT FOR HANDICAPPED</u> <u>EMPLOYEE</u>

A. Notwithstanding the Seniority provisions of this Agreement, the Company and the Union may mutually

agree to fill a vacancy of any length by assignment of an employee during the time he is handicapped, recuperating from any accident or illness or otherwise is unable to perform the duties of his regular job but is qualified to perform the needed work. B. An employee, who is injured or acquires a workrelated illness in the course of his employment and made subject to the provisions of the Kentucky Workers' Compensation laws and as a result thereof loses his ability to return to his regular job, may use his Seniority to displace a junior employee on any equal or lower rated job (provided he is released by the Company doctor to perform the duties of this job) in the same manner and with the same effect as if he had been released for lack of work under the provisions of Section 10.1 of this Agreement.

#### ARTICLE XII GRIEVANCE PROCEDURE

It is agreed that any employee may discuss any problem or complaint with his supervisor on an informal basis, with or without the presence of his Grievance Committeeman or Steward and without resort to the grievance procedure.

## 12.1 Grievance Procedure

Any difference arising as to the application or interpretation of the provisions of this Agreement shall constitute a grievance and shall be settled in the following manner:

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 118 of 258 Meiman

#### Step 1

A. An employee who has a grievance shall present the grievance orally to his immediate supervisor, with or without the presence of his Grievance Committeeman or Steward, within five (5) days after the complaining employee knew, or by reasonable diligence should have known, of such incident.

B. In the settlement of a grievance, the Company shall not enter into any agreement with any individual employee covered by this Agreement in conflict with the terms of this Agreement which will have any effect on the rights of other employees, and any settlement under any such private agreement will not constitute a precedent should a similar situation arise in the future.

If the grievance is not resolved to the satis-C faction of the employee and it is desired that the grievance be considered further, the employee or his Grievance Committeeman or Steward may immediately file a written grievance with such supervisor. In any event, regardless of when the employee presents it orally to his immediate supervisor, or knows, or should have known, of the incident, such written grievance must be presented not more than fifteen (15) days next following the incident that caused the grievance (unless a different time is provided elsewhere in this Agreement for the particular type of grievance). The written grievance shall state the nature of the incident, the Section or Sections of this Agreement upon which the grievance is based and the redress or relief that is sought, and shall be signed by the employee and his Grievance Committeeman or Steward. The supervisor, or his designee, will discuss the grievance with the employee and his Grievance Committeeman or Steward and will give his answer within five (5) days after receipt of the written grievance. If the immediate supervisor and the Grievance Committeeman or Steward, at such meeting, feel the need for aid in arriving at a solution, they may, by agreement, invite such additional Company or Union representatives or witnesses as may be necessary and available to participate in further discussion.

## Step 2

If the Step 1 supervisor, or his designee, does not give his answer within the prescribed time or if the answer is unsatisfactory to the Union and it is desired to appeal the grievance for further consideration, an appeal may be filed within five (5) days after the answer (or within five (5) days of expiration of the five (5) day answer period if no answer is given) with the person who supervises the Step 1 supervisor, signed by the employee's Grievance Committeeman. Such supervisor, or his designee, will discuss the grievance with the employee and the Grievance Committeeman and will give his answer in writing within five (5) days after the meeting.

## Step 3

If the answer of the Step 2 supervisor, or his designee, is unsatisfactory to the Union and it is desired to appeal the grievance for further consideration, an appeal may be filed within five (5) days after receipt of the answer with the manager of the Step 2 supervisor, signed by the employee's Grievance Committeeman. The manager or their designee(s), will discuss the grievance in a meeting with the employee, the Grievance Committeeman and the International Union Representative, and will give an answer in writing within five (5) days after the meeting.

#### 12.2 Grievance Meetings

Grievances to be handled through the grievance procedure should be taken up at such time of day as will least interfere with the regular working hours of the employees involved. If the Company finds it more convenient and practical to conduct such proceedings during regular working hours, and the Union representative is agreeable to meeting at such time, then Union grievance representatives who are called from their regular duty will be paid their regular wages as though they were on regular duty.

## 12.3 Grievance Committee

The Union's Grievance Committee shall consist of regular employees of the Company covered by this Agreement selected by the Local Union to represent major geographic groupings of employees. The initial major geographic groupings are considered to be at:

Barlow/Eddyville Morganfield/Sebree Earlington/Dawson Springs Greenville

## Green River

but said groupings may change with the addition or deletion of department and/or shift assignment of employees covered by this Agreement, but not to exceed five (5) in total. One (1) Grievance Committeeman shall be elected by the Local Union membership to represent each of said major geographic groupings.

In large areas and/or on shifts at the Green River Power Station where no Grievance Committeeman is employed, a Steward will be appointed as determined by the Local Union so that there will be at least one (1) Grievance Committeeman or Steward on each active shift. The Steward will act as an assistant to the Grievance Committeeman and be limited to the handling of grievances through Step 1 only.

During his term of office, should a Grievance Committeeman or Steward cease to be employed within the major group he represents, the office of Grievance Committeeman or Steward representing that group shall become vacant and shall be filled by the Local Union with a permanent employee of said group.

The Local Union President and Unit President shall be considered as a member of the Local Union Grievance Committee in addition to the Grievance Committeemen provided for above.

The Union shall furnish to the Company a list of its Officers, Grievance Committeemen and Stewards, and keep such list current.

#### 12.4 Time Limits

A grievance that is not filed, appealed or referred to arbitration within the prescribed time limits shall be considered settled and shall not be processed in any subsequent steps of the grievance or arbitration procedure. If the second or third step supervisor does not timely answer, the Union can demand an answer by giving notice by registered or certified mail, return receipt requested, to the corporate labor relations manager. If no written answer is given in person or by posting in the mail within five (5) days after receipt of such demand, the particular grievance shall be deemed to be granted but without precedent.

# 12.5 Calculation of Time

The term "days" as used in this Article XII and the following Article XIII shall be understood and agreed to exclude all Saturdays, Sundays or Holidays occurring in each such calculation.

## 12.6 Group Grievances

In the event more than one employee desire to file identical grievances, either the Grievance Committeeman or Steward for the area in which the alleged grievance has arisen, or one of the aggrieved employees selected by the others, may file and process the grievance on their behalf as a class, provided the employees involved are adequately identified in the initial written grievance.

# 12.7 Union Grievances

A. The Union may file a grievance at Step 3 with regard to any obligation of the Company to the Union

as such, as opposed to its obligations to the individual employee(s). Also in the event an employee dies the Union may process any claim he would have had relating to any money due under any provision of this Agreement. In processing such claim on behalf of a deceased employee, the fifteen (15) day time limit for filing the initial grievance shall be waived.

B. In the event the Union believes that an interpretation contrary to the terms of this Agreement has occurred with respect to one or more employees, which interpretation, if established as a practice, might adversely affect other employees in the future, if the directly affected employees fail to file a grievance, then the Union may file a grievance in its own name at Step 2 for the purpose of obtaining a prospective determination with respect to employees generally.

## 12.8 Expedited Procedure

Notwithstanding the procedures set forth in this Article, the parties may by agreement omit any Step or Steps and proceed to a higher Step.

## 121.9 Extension of Time Limits

It is understood and agreed that any time limits specified in this Article XII and the following Article XIII may, and should be, extended for good reason shown. The period during negotiations for an extension or renewal of this Agreement shall specifically be deemed as requiring a liberal interpretation of this Section.

# ARTICLE XIII

Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 130 of 258 Meiman

#### **ARBITRATION PROCEDURE**

#### 13.1 Arbitration Procedure

If the Step 3 answer of the Plant General Manager, the Manager Substation Construction and Maintenance, the Manager Electric System Planning Engineering and Metering, or the Manager Earlington Operations, or their designee(s), is unsatisfactory to the Union, the Union may refer such grievance to arbitration by delivering to the Manager, Corporate Labor Relations, within twenty (20) days after receipt of the answer, written notification that it desires to arbitrate the grievance. If the Company and the Union are unable to agree to an arbitrator, the Company and Union shall jointly request the Federal Mediation and Conciliation Service to provide a list of seven (7) qualified arbitrators who have training or experience in the subject of the dispute in question. The representatives of the parties shall either agree to an arbitrator on the list or select one by each party's alternately striking a name from the list until one name remains. More than one grievance may be submitted to the same Arbitrator if a multiple submission is agreeable to both parties.

## 13.2 Arbitration Hearing

The arbitration hearing shall be scheduled for a date as soon as mutually agreeable but within sixty (60) calendar days of the date that the Arbitrator is selected by the parties, provided the Arbitrator is available. The arbitration hearing shall be held at the Green River Power Station or the Company's District Office nearest to

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 132 of 258 Meiman

where the grievance arose or at a place mutually agreed upon by the Company and the Union or, if they are unable to agree, the Arbitrator shall select a neutral place in Madisonville, Kentucky for the hearing.

## 13.3 Duties of the Arbitrator

It shall be the duty of the Arbitrator to hear and render a decision on a dispute submitted to him in accordance with the terms of this Agreement. The Arbitrator shall regard the provisions of this Agreement as the sole and complete understanding governing the relationship of the parties, and it shall be his function to interpret and apply the specific provisions of this Agreement. The Arbitrator shall not supplement, enlarge, diminish or alter the scope or meaning of any provisions of this Agreement, nor entertain jurisdiction of any subject not covered hereby. The decision and award of the Arbitrator shall be final and binding on the Company, the Union and the employees.

## 13.4 Costs of Arbitration

The compensation and expenses of the Arbitrator shall be borne equally by the parties. The compensation and expenses, if any, of witnesses and other participants in the arbitration shall be borne by the party desiring or requesting their presence, except that an employee at the Green River Power Station or an employee in the district where the grievance arose who is a witness may appear during his normal working hours for the time necessary to give his testimony only without loss of pay.

#### 13.5 Arbitrator's Decision

The Arbitrator shall be jointly requested to render a copy of his decision to each party in writing within thirty (30) calendar days from the date of close of the hearing, or the filing of briefs, if any.
#### ARTICLE XIV DISCIPLINARY SUSPENSION AND DIS-CHARGE

While it shall remain the policy of the Company to warn employees for minor infractions before taking disciplinary action or discharging them, it is understood that certain major offenses may be cause for immediate discipline, including discharge. Grievances involving discharge shall automatically be referred to Step 3.

In the event any employee is called before a Company representative for the purpose of being reprimanded or receiving disciplinary action, he will be, if he so chooses, allowed to have a Local Union representative present. In the event the Company intends to suspend or discharge an employee, or give a final written warning to an employee prior to discharge, the Company will inform the employee of his or her right to union representation. The parties agree that in general it is in the best interest of all concerned that disciplinary action be taken in private.

Should it be determined by the Company during the grievance procedure that any disciplinary action is too severe, or if a grievance concerning disciplinary action by the Company is referred to arbitration and the final decision of the Arbitrator results in a modification of the disciplinary action taken, the employee shall receive compensation for time lost from work in such amount as the Company and the Union mutually agree if the matter is resolved in the grievance procedure, or, if the matter is decided by an Arbitrator, as the Arbitrator may deem necessary to give proper redress under the circumstances, including consideration of any earnings or other compensation received by the employee during the period of such lost time; but the Arbitrator shall not reduce any back pay award by reason of earnings the employee would have received (such as from his farm, etc.) even if he had not lost time from work.

If an employee is discharged after completion of his probationary period and the discharge is protested through the grievance procedure, the Company will continue normal insurance coverage for such employee until the grievance is finally resolved.

#### ARTICLE XV <u>TEMPORARY ASSIGNMENTS AND</u> <u>PERMANENT JOB VACANCIES</u>

#### 15.1 Temporary Assignments

The Company may temporarily assign any employee to work in any other job classification; except that at Green River Power Station, other than in cases of emergency, consideration will be given to the senior available employee temporarily working out of his classification when there is a need to return an employee to such classification. If the employee has been temporarily assigned to a lower rated job, the applicable rate shall be the rate of his regular job, and if the employee has been temporarily assigned to a higher rated job, the applicable rate will be the higher of the rate of his regular job or the minimum of the rate range for the job to which he is assigned. Such assignments shall be effective upon the execution of a payroll authorization by a supervisor, and payment for work in a higher classification will be for a period of not less than eight (8) hours. When a temporary assignment to another job classification or another shift of one (1) week or more is to be made, employees in the various classifications required will be permitted to indicate their choice of assignment in order of seniority, but the final right to make such assignments, and to change them from time to time, is exclusively reserved to the Company in order to assure safe and efficient operations. Such temporary assignments on a shift at the Green River Power Plant will not exceed two (2) hours if the crew is not fully staffed (at least five (5) employees).

# 15.2 Permanent Job Vacancies

# A. Policy

It shall be the Company's policy to advance senior employees when permanent job vacancies occur, provided the employee is qualified.

It is the Company's intent to allow current bargaining unit members to bid on jobs before hiring from the outside, where possible. Depending on the current operational needs, the Company agrees to bid lower positions such as C or B, (if no C classification exists), lower positions (Unit Operator Assistant and/or Auxiliary Operator) in the Green River Power Plant operational group, and/or Trainee, where no qualified bidders exist for top rated positions. Should the Company determine the need is for immediately filling an upper rated position, the Company will discuss this with the Union before hiring from the outside. The final decision will rest solely with the Company, based on operational needs.

#### **B.** Posting Procedure

(1) When the Company determines that there is, or will be a permanent vacancy in the bargaining unit, it will post, for five (5) days, Saturdays, Sundays and Holidays excluded, a notice describing the job and its special qualifications, if any, including residency requirements for members of service organizations, if applicable, on bulletin boards throughout the bargaining unit. Copies of all such postings shall also be sent to the Union's Unit Secretary. An employee desiring consideration in the event of such a permanent vacancy should make written application on forms provided by the Company during such five (5) day period. After having given consideration to each applicant's Seniority, prior experience, work record, skill and ability, the Company will post the name and seniority date of the successful bidder, if any, on the bulletin boards throughout the bargaining unit. Normally such announcement will be made within three (3) weeks after completion of the posting. During the time necessary to consider applications, the Company may fill the vacancy temporarily by assignment of any available employee. Employees who fail to make application will be considered to have waived their interest in the particular vacancy for that particular occasion only. (2) If a posting is for a vacancy in a classification to which employees normally advance without bidding, such as provided in Paragraph G below, and if there is no qualified applicant and the Company does not hire a new employee from outside for the posted vacancy, then if the Company desires to fill the vacancy with an employee in a lower rated job than the one previously posted, it will post such lower rated job prior to hiring a new employee for such lower rated job.

# C. Bid by Absentee

The Company and the Union will cooperate in contacting any employee who is absent from work due to illness, injury, vacation or for other legitimate reason as specified in this Agreement during the entire posting period who notified either the Company or the Union, if possible, prior to his absence of an interest in bidding, to assure he is notified of the posting. If such employee is absent for three (3) weeks or less and is not contacted during such period and afforded an opportunity to bid, then upon return to work, he may bid on a job posted during his absence. However, such bid must be made within five (5) working days after the employee's return to work. If the Company awards the bid to such previously absent employee and if it had previously made an award to another applicant, such other applicant will be

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 144 of 258 Meiman

returned to his previous job.

#### **D. Bidding Limitation**

An employee shall be limited to no more than one permanent job transfer per year under this bidding procedure to a job of equal or lower rate unless for reasons of health or for other good and sufficient reasons shown. Additionally, any employee hired (or an employee rehired after loss of Seniority), after August 1, 2002 shall be ineligible to bid for a period of one (1) year from their date of hire.

#### E. No Qualified Applicants

Should there be no qualified applicant for any vacancy, then the Company may exercise its discretion in the filling of the vacancy by voluntary transfer or by hiring or it may cancel the posting.

# F. Hiring Experienced Employees

Should the Company hire any new employee who has had prior experience on a similar job requiring such skills for which hired to fill a vacancy for which the bidding procedure has not been completed, he shall be placed in the proper classification at a rate commensurate with such experience. Should any lower-rated employee with Seniority at the time of hiring such new experienced employee believe that he was qualified to perform the job for which the new employee was hired and desires assignment to such job, he may request and shall be granted a review of his qualifications and shall be upgraded to the same rate for which such new employee was hired should the facts demonstrate he was so qualified. Such up-grading and pay for same to become effective the date of hiring the new employee.

# G. Reclassification

A reclassification of an employee to a higher rated

job, such as from Line Technician B to Line Technician A or from Maintenance Technician B to Maintenance Technician A, shall not be considered the filling of a permanent vacancy for purposes of this Article XV, and nothing in this Section 15.2 shall be construed to require the Company to post any such higher rated position.

# H. Training

In filling permanent vacancies in higher rated jobs in operating groups at the Green River Power Station, it is agreed that if there is no qualified applicant and if a qualified person cannot be hired from outside, the Company will be guided by the factors set forth in Paragraph B(1) above in selecting an employee from a lower classification in the operating group to attempt to train for the vacancy with the senior applicant given preference if the other factors are relatively equal, provided that such employee has demonstrated the basic physical and mental capacities to become qualified within a reasonable period and provided that such employee has not been selected for another training position as described in this paragraph within the previous twelve (12) month period. Also, should the Company decide to attempt to train an unqualified employee to fill a vacancy other than in an operating group at the Green River Power Station, it will be guided by the factors set forth in Paragraph B (1) above in selecting an employee for such training with the senior applicant given preference if the other factors are relatively equal, provided that such employee has demonstrated the basic physical and mental capacities to become qualified within a reasonable period. In either event the Company will post a vacancy in the classification it desires to fill, designating that it is for training. The applicant selected shall not be assigned to such classification until he satisfactorily completes his training and becomes qualified.

#### I. Return to Former Classification

In the event an unqualified employee is selected by the Company for training for a job and does not become qualified within a reasonable period, he shall be returned to his former classification or a classification of similar status. It is agreed that under normal circumstances an employee selected for training for a higher rated job in an operating group at the Green River Power Station under Paragraph H above should become qualified within 480 hours, within a 120 calendar day period.

# J. Residence Requirements

It is recognized that as a public utility the Company is obligated to provide reliable service to its customers. Such may at times make it necessary for employees to work overtime, both scheduled and on an event basis. Employees are expected to work their fair share of overtime work when called upon to do so by the Company and failure to do so may be cause for appropriate disciplinary action.

(a) In addition, to assist in promptly responding to overtime callouts for emergencies, Line Technicians, Service Technicians, Substation Technicians, Meter Technicians and Customer Order Technicians hired prior to August 1, 2014 shall reside within twenty-five (25) radial miles of their reporting location.

(b) Any employee hired on or after August 1, 2014 for the Line Technician, Service Technician, Substation Technician, Meter Technician and Customer Order Technician classifications shall reside within fifteen (15) radial miles of their reporting location.

#### ARTICLE XVI ABSENCES AND LEAVES OF ABSENCE

#### 16.1 Absences

A. It is understood that an employee has a responsibility to his job and to the Company to report for work on time as scheduled. An employee who reports for work after his starting time may be refused work for the day at the discretion of his supervisor if a replacement for him has been called, his crew has already left without him or there is otherwise no work readily available for him.

B. When an employee cannot for any reason, report for work as scheduled he must, in accordance with established procedures in effect at the time, notify the Company (personally or by other acceptable means) prior to scheduled start time, indicating to the extent possible the probable duration of his tardiness and absence, unless unavoidable circumstance would prevent employee from doing so. Failure to comply could result in an unexcused absence, even if the absence would otherwise have been legitimate.

# 16.2 Disability Leave

Upon reasonable advance request, if possible, leave of absence without pay will be granted to any employee for illness, injury or pregnancy which prevents the employee from working, verified by the employee's doctor if requested, and concurred in, if the Company deems advisable, by a doctor selected by the Company, and will from time to time be extended if the circumstances warrant unless the employee's Seniority terminates under Section 9.5(F) or (K). The Company may require reasonable periodic verification from the employee of continued inability to work. To the extent such absence is covered by paid sick leave, long-term disability insurance or similar insurance, the reports under such programs shall be sufficient verification.

# 16.3 Personal Leave

At the Company's discretion, leaves of absence without pay for an agreed upon period of time may be granted to any employee for personal reasons, and may from time to time be extended for additional periods if the circumstances warrant. Requests for such leaves of absence and extensions must be made in writing and approved by the Company.

# 16.4 Return To Work

A. The Company may require that an employee returning to work after being absent for a period in excess of five (5) consecutive workdays due to any temporary disability or personal leave furnish, prior to the resumption of his duties, a certificate of ability to return to work and perform his regular duties from the employee's doctor, concurred in, if the Company deems advisable, by a doctor selected by the Company.

B. Examination by the doctor selected by the Company shall be confined to the illness or injury that caused the absence or to an illness or injury known or reasonably suspected to have occurred to the employee during such leave of absence. Such examination shall not be directed toward a condition that existed prior to the temporary disability or leave of absence unless the Company reasonably believes it would affect his ability to be qualified for his job.

C. Examination by the doctor selected by the Company shall be at the expense of the Company.

D. In the case of a disagreement between an employee's doctor and the Company doctor concerning the health of an employee, and the dispute becomes the subject of a grievance, a third disinterested doctor having special knowledge and experience in the matter shall be chosen by mutual agreement between the Company and the Union or if they are unable to agree, a third doctor chosen by an arbitrator shall examine the employee, and his decision shall be final and binding. The expense of the third physician shall be borne equally between the Company and the Local Union. E. Nothing in this section shall be interpreted to affect the Company's right to require a physical examination at any time when it has reason to believe that an employee has a disability which could affect his ability to perform his job safely.

# 16.5 Early Termination

Any employee who desires to terminate his leave and return to work prior to the normal expiration date of any leave granted him may do so upon satisfying the requirements for return and giving the Company three (3) working days notice.

# 16.6 Pregnancy Leave

An employee on pregnancy leave may remain on leave for a period equal to the time allowed for nonwork related illness or injury as provided in Section 16.2. Upon return to work, she may reclaim her job or select another in the same manner as if she had been absent for any other non-work related illness or injury. If the employee fails to apply for reinstatement, or refuses to take an available position as above provided, her employment shall be terminated.

# 16.7 Leave For Union Business

A leave of absence without pay will be given to employees who are elected and/or chosen delegates for the purpose of attending conventions, conferences and such usual and proper functions of the Union (normally not to exceed two (2) weeks plus travel time). Not more than two (2) employees shall be eligible for such leave at any one time, but if two (2) are to be absent at the same time, they will be selected from unrelated work groups so as to avoid a double burden on the remaining employees by reason of the absences. The Company, without creating any future obligation or precedent, may grant Union requests for leaves for additional employees. The Union will give sufficient notice to allow for orderly replacement on work assignments.

#### 16.8 Periodic Payments

It should be the responsibility of the employee to make arrangements for the payment of any insurance premiums and the like which are his obligations during any leave of absence.

#### 16.9 Fraud

Obtaining a leave of absence or extension thereof under false pretense or falsifying forms, applications, and other information pertaining to a leave may be cause for appropriate disciplinary action.

# ARTICLE XVII ALLOWED TIME

# 17.1 Funeral Pay

Funeral leave is paid for a maximum of five days for Immediate Family Members who include: spouse, child, step-child, or parent or step-parent.

Funeral leave is paid for a maximum of three days for Other Family Members who include: brother; sister; grandparents; grandchildren; parents-in-law; sonsin-law; daughters-in-law; spouses of the employee's brothers or sisters; employee's spouse's brothers, sisters, parents and grandparents; step relations of the preceding, or any relative living with the employee.

Such days shall be consecutive work days and shall be computed in direct relation to the death and funeral, but shall not extend beyond the day following the funeral, except in the case of the death of an Immediate Family Member in which case such days may extend to the second day following the funeral. Payment will not be made for any day during such three- or five-day period on which the employee would otherwise not work.

Employees will not be paid for unused funeral leave.

Should the employee need to be absent on a normal scheduled day or days, other than those for which payment is provided above, the employee may elect to take such day or days as vacation time, provided he is then entitled to sufficient vacation time which he has not utilized by time off or for which he has not been paid.

Payment shall be made on the next pay day after receiving notice in writing from the employee and (a) the name of the deceased person and relationship to the employee, and (b) the date and location of the funeral.

If a day for which an employee would otherwise be entitled to funeral pay falls on a day on which the employee had scheduled vacation, holiday or other time off, at the request of the employee, the previously scheduled time may be rescheduled and the employee will receive Funeral pay.

#### 17.2 Military Training or Temporary Duty

Except as otherwise provided by law, if it should become necessary for an employee to leave the service of the Company to serve in the Armed Forces of the United States, or should an employee volunteer for service in any of the Armed Forces of the United States, then any such employee shall retain and accrue his seniority during such service, provided he returns to the employ of the Company within ninety (90) calendar days after his demobilization or release from the service, and provided further that he is fit and competent and has received a release or discharge under honorable conditions. A reservist who is called to active duty as a result of mobilization shall receive a supplement, for ninety (90) days from being called, of the difference between military pay and the employee's base pay in effect prior to taking leave under this Article. If the employee's family elects to continue dental coverage under the provisions of COBRA, the Company will waive the premium for such coverage up to twelve (12) months. Additionally, an employee who participates in military summer camp or short-term duty up to three (3) weeks will receive a supplement of the difference between military pay and the employee's base pay. Except as otherwise provided by law, this Article shall not apply to any employee who re-enlists or otherwise extends his period of full-time military service beyond the period of time of his military obligation to the United States

The employment status of an employee shall not

be affected by his enlistment or participation in the civilian components of military services, regardless of whether such enlistment or participation is voluntary or mandatory.

#### 17.3 Jury Duty

If a regular full-time employee (other than a probationary employee) is summoned for jury duty or is subpoenaed to appear as a witness in court and is required to so report or serve or appear on a regular workday during normal working hours which he would otherwise be scheduled to work, he shall be paid the difference between his normal straight time hourly rate (including regular shift differential, if any, and any other regular hourly payments) for those hours lost and the payment received for such service (but not including any payment officially designated as expenses). In the case of such an employee on an afternoon or night shift, the Company shall reschedule him to the day shift for days he is required to report to court. If any such employee is not required to appear until, or is released from such service at, a time that reasonably permits him to report to work or to return to work during his scheduled hours, he will so report or return and may be assigned to his normal duties or may be assigned to such other work as may be available. To be entitled to pay under this section, an employee must notify his supervisor as far in advance of the date he is required to report for such duty as possible and present a statement from the Clerk of the Court giving the time and date of such duty and the amount of compensation received for

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 166 of 258 Meiman

such service. In no event shall pay under this Section exceed eight (8) hours pay per day.

# 17.4 Sick Leave Plan

Any employee who cannot report to work as sched-

uled because of personal or family illness should attempt to contact his or her manager before the scheduled start time or as soon as possible thereafter. Medical certification may be requested. Any employee at Green River should contact his or her supervisor or manager at least one hour before the scheduled start time unless unavoidable circumstance would prevent employee from doing so.

The Company will provide up to 40 hours of sick leave per calendar year.

Unused sick leave may not be accumulated. Unused sick leave is not paid to the employee. An employee may use sick leave in one-hour increments.

#### A. Employee

1. Must report the cause of the employee's absence to his or her immediate supervisor (or to the individual designated by the supervisor to receive such reports) as soon as possible, but in any event not later than the beginning of the first work shift from which the employee will be absent;

2. Must adopt such remedial measures as may be commensurate with his or her disability;

3. Must, upon request, present evidence satisfactory to the Company, of the employee's inability to work, or

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 168 of 258 Meiman

that the injury or illness was non-occupational;

4. Must have accumulated unused sick leave credit at least equal to the hours being reported for sick leave pay; and 5. Must advise his or her supervisor (or the individual designated by the supervisor to receive such reports) of the date on which the employee expects to return to work as far in advance thereof as possible. Where the employee's work is being performed by relief or substitute personnel, at the supervisor's request such advice must be given at least one hour prior to the beginning of the shift on which the employee expects to return to work.

**B.** No sick leave will be allowed for any injury or illness arising out of, or in the course of, any occupation or employment for wage or profit.

Sick leave credit cannot be used for any other purpose than specified in the plan, and is not payable in cash, or in any other form, should the employee leave the Company. This plan is designed to assist the employee to prevent a loss of income due to absence from duty because of illness.

If an employee becomes ill or injured while on vacation, the employee shall be paid only for the vacation, except as noted in 8.7(A).

If an employee becomes ill or injured on a holiday, the employee is to be paid only for the holiday.

If the illness continues after a vacation or holiday

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 170 of 258 Meiman

period, benefits under the Sick Leave Plan would commence upon completion of the scheduled vacation or holiday.
# 17.5 Personal Days

An employee should prearrange all personal days with his or her supervisor or manager. Two personal days are available during the calendar year for current employees. During the first year of employment personal days will be pro-rated according to the following schedule:

- Hired before July 1, the employee will receive 16 hours personal days
- Hired between July 1 and October 31, the employee will receive 8 hours personal day
- Those hired on or after November 1 will not be eligible to receive their personal days until January 1 of the following year.

If an employee has available personal days, he or she will be required to use that time for bridging to Short Term Disability (STD) if remaining sick time is not adequate.

There is no carry-over of unused personal days.

There is no pay in lieu of personal days under any circumstances.

# 17.6 Accumulated Sick Leave

An employee's unused sick leave hours, as of

09/30/99, can be used for the same purposes, other than for family illness, as the sick leave in Section 17.4 after the sick leave awarded each calendar year under 17.4 has been exhausted. The unused sick leave hours will be reduced by the number of hours used for this purpose.

In addition, unused sick leave hours as of 09/30/99 may be used to increase the pay an employee receives under the STD program in Article 18 for hours at 75% to 100%. The unused sick leave hours will be reduced by the number of hours used for this purpose.

In accordance with the provisions of the Company's retirement Annuity Plan, an employee's "credited service" at retirement as that term is defined in the Plan, will be increased by the number of that employee's unused days of sick leave as of his or her retirement date at a rate of 260 days being equal to one year of "credited service." Unused days exceeding, or less than, 260 will be expressed as a fraction of a year, as it is defined herein.

# ARTICLE XVIII HEALTH AND RETIREMENT BENEFITS

During the term of this Agreement the Company will continue to provide the existing or no less favorable group life insurance, long-term disability insurance, retirement annuity and medical, including postretirement medical insurance benefits, dental assistance program, employee savings plan, employee assistance program, dependent care assistance plan, and dependent life insurance plan, short term disability and workers' compensation supplement for members of the bargaining unit as are provided for other full time employees of the Company, except as described in 18.1, below. The details of such benefits shall be as specifically provided in master plan documents or insurance contracts covering the terms of such plans.

(A) payments for such benefits must be deductible as business expenses or contributions to a qualified plan, and (B) benefits provided through an insurance carrier shall be those provided by the policy or contract and such coverage must continue to be available from the same or another carrier on a reasonable basis. If occasion to change or discontinue any such benefits should arise under clause (A) or (B), the Company will notify the Union and the parties will promptly enter into negotiations as to the benefits to be changed or substituted. The Company will furnish identification cards for medical purposes. The Company will furnish each employee annually the amount of his accumulated sick leave and the aggregate amount of his contributions to the retirement plan.

With respect to medical benefits, to the extent that individual plan premiums exceed the Company's contribution, the employees will contribute the additional cost of premiums according to the plan they select. Contributions will be made monthly on a pre-tax basis.

A representative of this union will participate on a

joint Health Care Task Force which will meet biannually to review trends in health care, review current Company Medical benefit plans, and make cost containment recommendations. The joint Health Care Task Force will also be charged with the responsibility of recommending changes, including plan design changes and increases in co-pays on doctor visits and prescriptions. The task force will establish their priority as avoiding future increases in employee contributions to the extent practicable while maintaining the current quality of coverage. However, the Company retains the right in its sole discretion to modify the terms, conditions and level of benefits under these medical, so long as benefits for employees covered by this Agreement are the same as provided to other full-time employees of the Company.

# 18.1 Retiree Medical Insurance

A. Bargaining unit employees employed by the Company as of December 31, 2005 will be eligible for retiree medical benefits, the details of such benefits will be as specifically provided in the master plan documents or insurance contracts covering the terms of such plans. For employees retiring January 1, 2012 through December 31, 2014, the Company will contribute monthly up to \$200.00 toward the cost of a Company medical plan for the eligible retiree. Such \$200.00 credit shall continue until attainment of age 62, which at such time the credit shall increase to \$465.00. The \$465.00 credit shall continue until age attainment of age 65, which at such time the credit shall revert to \$200.00. Additional-

ly, the eligible retiree's spouse or other dependent will be eligible for an additional \$100.00 toward the cost of his/her insurance premium. The maximum total monthly credit shall be either \$300.00 or \$565.00 depending upon the age of the former employee. For bargaining unit employees employed by the Company as of December 31, 2005, who retire January 1, 2015 through December 31, 2017, the Company will contribute monthly up to \$210.00 toward the cost of a Company medical plan for the eligible retiree. Such \$210.00 credit shall continue until attainment of age 62, which at such time the credit shall increase to \$500.00. The \$500.00 credit shall continue until age attainment of age 65, which at such time the credit shall revert to \$210.00. Additionally, the eligible retiree's spouse or other dependent will be eligible for an additional \$100.00 toward the cost of his/her insurance premium. The maximum total monthly credit shall be either \$310.00 or \$600.00 depending upon the age of the former employee.

For Bargaining unit employees employed by the Company as of December 31, 2005, who retire January 1, 2018 or after, the Company will contribute monthly up to \$220.00 toward the cost of a Company medical plan for the eligible retiree. Such \$220.00 credit shall continue until attainment of age 60, which at such time the credit shall increase to \$510.00. The \$510.00 credit shall continue until age attainment of age 65, which at such time the credit shall revert to \$220.00. Additionally, the eligible retiree's spouse or other dependent will be eligible for an additional \$100.00 toward the cost of

his/her insurance premium. The maximum total monthly credit shall be either \$320.00 or \$610.00 depending upon the age of the former employee.

B. Bargaining unit employees hired by the Company on or after January 1, 2006, will be eligible for the same retiree medical benefits however, the Company premium contribution will be a lump sum account that will spring into existence on the eligible retiree's date of retirement. This Retiree Medical Account must be used for the sole purpose of paying for retiree medical coverage through the Company.

The initial lump sum amount will be determined based on the following formula:

- 1. For the retiree, \$2,500.00 per year of service after age 45, with a maximum initial account balance of \$37,500.
- 2. For the dependents, a total initial account balance equal to 50 percent of the initial account balance for the retiree.

On the date the eligible employee retires, the Company will fund this Retiree Medical Account. Once funded, the account balance will be credited with interest based on the 10-year Treasury rate subject to a four (4) percent minimum and a seven (7) percent maximum.

The retiree may elect to pay the age-related monthly premiums from the Retiree Medical Account in full or in part until the account balance reaches zero. Once the Retiree Medical Account is fully depleted, the retiree may continue medical coverage through the Company by paying 100 percent of the age-related monthly premiums.

The details covering the provisions of the Retiree Medical Account will be as specifically provided in the master plan document covering the terms of the plan.

## ARTICLE XIX TRANSFER OUT OF THE BARGAINING UNIT

#### 19.1 Permanent Transfer

The selection of employees to be promoted to supervisory positions or to be transferred to other positions excluded from the bargaining unit shall be at the sole discretion of the Company, subject to the agreement of the employee. For the first sixty (60) calendar days the employee shall continue to accrue Seniority in the bargaining unit. If the Company transfers him back to the bargaining unit, or he asks to be removed from the position within the sixty (60) days period, he shall return to the bargaining unit and will be placed on the job he held prior to such promotion or transfer, or to another job in accordance with such accrued Seniority if an adjustment in the workforce has occurred during his absence. If he continues in the supervisory or other position outside the bargaining unit beyond the sixty (60) day period, his Seniority shall be broken and he shall lose all rights under this Agreement. The Company will notify the Unit Secretary of the date of permanent transfer.

### 19.2 Temporary Transfer

Should an employee covered by this Agreement

temporarily be designated by the Company as a Temporary Supervisor to fill in temporarily for eight (8) hours or more for any regular supervisor such as during vacations, illness, death in the family, jury duty or other absences of a temporary nature, and the employee accepts such duties, he shall receive his regular rate of pay or the rate of the supervisor whose work he performs, whichever is higher, during the period that the employee performs such work. (An exception is in the Coal Yard - See Note 1) The area grievance committeeman or Unit President will be informed of such designation.

# ARTICLE XX WAGES

### 20.1 Hourly Wages

The hourly wage rates for the respective job classifications and the effective dates thereof are as set forth in Exhibit A to this Agreement.

### 20.2 Shift Differential

A. A shift differential of ninety cents (\$.90) per hour shall be paid for all work performed by full time employees assigned to an afternoon shift, and one dollar and five cents (\$1.05) per hour shall be paid for all work performed by such employees assigned to a night shift. Any shift regularly commencing at or after 5 a.m. and prior to 12 noon shall be considered a day shift. Any shift regularly commencing at or after 12 noon and prior to 8 p.m. shall be considered an afternoon shift. Any shift regularly commencing at or after 8 p.m. and prior to 5 a.m. shall be considered a night shift. B. A shift differential of forty-five cents (\$.45) per hour shall be paid for all work performed by full time employees at Green River Power Station assigned to a rotating shift regardless of when a particular shift may commence. C. A shift differential of one dollar and five cents (\$1.05) shall be paid for all work performed by full time employees at Green River Power Station assigned to a relief shift regardless of when a particular shift may commence.

D. Only one shift differential can be applicable to any particular hours by any employee.

# 20.3 Sunday Differential

A Sunday differential of one dollar and twentyfive cents (\$1.25) per hour shall be paid for all work performed on Sunday by full time employees who are assigned to work on Sunday as a part of their normal (non-overtime) schedule. This differential will be in addition to any applicable shift differential.

# 20.4 Pay for Work Performed

If an employee who is regularly required to, and who is qualified to, perform the work of the next higher classification makes a request to the Company that he be promoted, the Company at its option will either (a) stop requiring him to perform the work, (b) temporarily assign him to the classification under Section 15.1 for the periods he is required to perform the work or (c) permanently promote him to such classification. Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 188 of 258 Meiman

### ARTICLE XXI TWO-PERSON CREW PREMIUM

When two non-supervisory employees are assigned work to be performed without the direction of a supervisor and the work involves the installation, maintenance or operation of electric lines or equipment, the company may designate one of the employees to be in charge of the work to be performed. The employee designated to be in charge shall be paid a \$1.00 per hour premium over their regular rate of pay.

## ARTICLE XXII EMPLOYEES WORKING AWAY FROM THEIR REGULAR PLACE OF EMPLOYMENT

# 22.1 Transportation and Lodging

Whenever an employee is temporarily assigned duties away from his regular place of employment, he will be provided transportation, or compensation for transportation, between the temporarily assigned job and his regular place of employment or headquarters. If, in the opinion of his supervisor, it is impractical for the employee to return daily to his regular place of employment, the Company will provide suitable lodging (single room, if available) and board at or near the place of such temporary employment.

For each trip authorized by the Company, between the places of work assigned and the regular place of work or headquarters, time required for travel shall be considered as time worked. It is not the policy of the Company to require any employee to stay away from his regular place of employment or headquarters for a continuous period of more than two (2) weeks, except in cases of emergency. Except in cases of emergency, employees who will be required to stay away from home overnight will be given notice of that requirement as soon as possible, but not later than the day before.

#### 22.2 Meals

When it is necessary for any employee to work in areas away from his regular headquarters, or to work hours in excess of his normal hours, the Company will provide additional compensation or meals as follows:

A. Whenever a line crew, service crew, substation crew, or any employee is working away from their regular headquarters and returning to their regular headquarters each day, but are working in an area where it is not practical to return to headquarters within the 1-hour period allowed for the noon meal, the Company shall provide an additional \$7.00 of compensation to be added to the employee's payroll check as reimbursement for the purchase of the noon meal by the employee, provided the lunch can be obtained in the area in which the crew or employee is working. Work groups who choose to use a 1/2 hour lunch period will forfeit any meal entitlement to which they may otherwise have been entitled. Where the lunch cannot be obtained in the area in which the crew or employee is working, then each employee will be required to bring his own lunch

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 192 of 258 Meiman

with him from home. In those instances in which it will be necessary for the employee to bring his own lunch, then the supervisor should so advise on the day before working in the area. B. Whenever a line crew, service crew, substation crew, or any employee performs work in excess of 2 hours beyond his normal quitting time of his normal scheduled shift, the Company will furnish or pay for the employee's meal, or meals, required during such hours of work.

C. Whenever any employee or crew is working away from regular headquarters and not returning to their regular headquarters each day, then all board and lodging while away from regular headquarters will be paid for by the Company. Under such circumstances, the supervisor will arrange for a hot lunch to be selected from the regular menu at a public eating place at noon if it is practical to do so. Under no circumstances should more than one (1) hour be taken for the noon lunch period, including travel time from work area to the eating place and return. If the work is so located that it is impractical for the crew to go to a public eating place for their noon meal, then the supervisor will arrange for lunches to be provided at the job site.

D. In those cases where the work is so located that it is impractical for the crew to go to a public eating place for their noon meal and the employee is either provided the noon meal or is reimbursed for the purchase of the noon meal under this Section 22.2, it will be permissible for the supervisor to authorize the taking of only 30 minutes for the lunch period and quitting work 30 minutes earlier than would be the case where an hour lunch period is taken.

Except during emergencies or during extraordinary

circumstances, the lunch hour of day shift employees shall normally begin not earlier than 11:00 a.m., nor later than 1:00 p.m. local standard time.

# ARTICLE XXIII <u>RETIREMENT</u>

The practice of retirement of employees at age sixtyfive (65) will continue in effect; provided, however, that if for any period during the life of this Agreement, mandatory retirement at such age shall be prohibited by law, then for so long as such prohibition shall remain in effect, the retirement age hereunder shall be increased to such age as is necessary in order to comply with the law.

## ARTICLE XXIV BULLETIN BOARD

The Company will either provide space on its bulletin boards, or provide separate bulletin boards at the same locations, where notices of the Union meetings and other official business of the Union may be posted from time to time. Such notices shall not consist of or include advertising or the promotion of political, religious or charitable projects or contain any material derogatory to the Company, any of its affiliates, or any

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 196 of 258 Meiman

employee or employees of the Company.

### ARTICLE XXV SHIFT PREFERENCE

A. At the Green River Power Station, the selection of assignments within the operating groups will be made as follows:

During the month of December of each year, the Company shall first identify the operating groups by posting under the name of the Shift Supervisor; provided this shall not restrict the Company's management right to change supervision from time to time. The employees in the various classifications required will be permitted to indicate their choice of assignment to an operating group in order of seniority, but the final right to schedule group positions, and to change them from time to time, is exclusively reserved to the Company in order to assure safe and efficient operations. Any resulting change in group assignments will become effective at the start of a pay period near the first of January selected by the Company.

B. In the event that a vacancy occurs in an operating group after the shift selection process above, the replacement will be placed on the shift where the opening occurs.

C. Vacancies created while operators are in training

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 198 of 258 Meiman

will be filled by Relief Operators from Relief Group "R".

D. When possible, because of available relief, the Senior Relief Group "R" operator in the classification

needed shall have first choice in filling the temporary vacancy created because of training.

E. When a successful bidder is posted on or before December 1, he or she will be permitted a shift selection for the following year within the classification to which they bid by order of seniority among the employees in that classification regardless of whether training has or has not been completed.

F. The Relief Group "R" Unit Operators, Unit Operator Assistants, and Auxiliary Operators will work non-relief days at assigned duties.

G. Relief operators shall be listed on the overtime list in his/her own classification, and one classification immediately below.

## ARTICLE XXVI SUCCESSORSHIP

The Company agrees that the Collective Bargaining Agreement between the parties will remain in full force and effect for the specified duration regardless of any change in the ownership of the Company. The Company will include a provision, in any sales or merger agreement, with any successor or assign, that will affirm and make the continuation of the Collective Bar-

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 200 of 258 Meiman

gaining Agreement a condition of the sale or merger of the Company.

### ARTICLE XXVII MOVING EXPENSES

A When the permanent reporting location of an employee is changed (a) because of his bidding into a permanent job vacancy under Section 15.2 of this Agreement, or, (b) when the Company requests him to take a job which requires his moving to another location, or, (c) when he is released for lack of work and then exercises his placement rights to displace another employee under Section 10.1 of this Agreement, and the employee is required to move his residence because of this change, the Company will pay a lump sum payment, net of taxes, and payable upon the employee's relocation equal to:

- One (1) month's base pay for renters
- Two (2) month's base pay for home owners

B. As much advance notice as possible will be given the employee of the proposed change in headquarters to give him sufficient time to arrange for new quarters in the new locality. If it is not possible to give the employee reasonable notice of the proposed change in permanent headquarters, and it is necessary for the employee to live in the new location until he can arrange to move, the Company will pay his reasonable board and lodging expenses not to exceed one calendar month unless otherwise agreed upon. If it is not possible to give such reasonable notice of the change, but it is not necessary for the employee to live in the new location until he can arrange to move, the Company will pay mileage at its standard rate for the mileage by which the distance from his present residence to his new headquarters exceeds the distance to his old headquarters, not to exceed one calendar month unless otherwise agreed upon.

C. The Company shall not be obligated to pay the moving expenses of (a) any employee who has less than twelve (12) months of continuous service since last date of hire, or, (b) in the case of any other employee, more than once in any period of twelve (12) consecutive months in connection with that employee's transfer to a new regular place of employment, unless (in either case) the move is at the Company's request.

D. Nothing in this Article of this Agreement shall be interpreted to require any employee to change his place of residence.

### ARTICLE XXVIII LAUNDRY

The Company will continue, as in the past, to pay for laundering the following items of employees' wearing apparel soiled in connection with the operation or maintenance of the Green River Power Station: Coveralls, Overalls, Overall Jackets, Work Shirts, and Work Trousers. The Company will not be responsible for dry cleaning any employee's clothing nor will it be responsible for laundering other items of clothing, such as underwear, T-shirts, socks, caps, gloves, towels, etc., nor for any special service, such as clothing repairs, for which a special charge is made. The Plant General Manager will arrange for the above service with a commercial laundry operating in the area in such a manner as will insure satisfactory quality at reasonable cost.

## ARTICLE XXIX SAFETY AND HEALTH

The Company will continue, as heretofore, to make reasonable provisions for the safety and health of its employees during the hours of their employment. The Company and Union will cooperate in the continuing objective to eliminate accidents and health hazards.

The Company and the Union agree to a Joint Health and Safety Advisory Committee for the purpose of reviewing, discussing and recommending new or revised safety and health rules and procedures. The Committee shall be chaired by the Manager, Health and Safety, and shall meet quarterly. This Committee shall consist of not more than two (2) members of the Union. The Union representatives who shall attend a particular meeting shall be made known to the Manager, Health and Safety not less than two (2) weeks prior to the date established for the meeting. At the same time, the Union shall notify the Company of the subjects it desires to address at the meeting. The Company will continue its practice of paying for approved lens and safety frames for an employee which are ordered through, and pursuant to the terms of, the Company's safety spectacle program. Also
(except for items such as safety shoes and long sleeved shirts which would replace an employee's normal clothing) protective devices, protective clothing and other equipment required to be worn by the Company safety rules, and all tools required to perform the Company's work, shall be provided by the Company without cost to the employee.

## ARTICLE XXX CONFLICT WITH LAW

In the event any provision of this Agreement is held to be in conflict with or in violation of any state or federal statute, rule, decision, or valid administrative rule or regulation, such statute, rule, decision, administrative rule or regulation shall control, but all of the provisions of this Agreement not in conflict therewith shall continue in full force and effect.

## ARTICLE XXXI ENTIRE AGREEMENT

This Agreement sets forth the entire understanding between the Company and the Union and represents the full and complete agreement between the parties on all bargainable issues for the duration hereof. Both the Company and the Union unqualifiedly waive, for the duration of this Agreement, any obligation on the part of the other to bargain collectively with respect to any subject or matter not expressly covered by this Agreement. Neither party intends to be bound or obligated except to the extent that it has expressly so agreed herein and this Agreement shall be strictly construed. This Agreement applies only to the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) of Kentucky Utilities Company as described in Article II herein, and no employee covered by this Agreement shall have or be entitled to any rights, benefits or privileges in any other region, plant or operation of the Company (now existing or hereafter established). None of the benefits, rights or privileges afforded by this Agreement to the Union or any employee shall survive the expiration or termination of this Agreement.

## ARTICLE XXXII TERMINATION

This Agreement shall be in full force from August 1, 2017, without modification or addition for its duration to 12:01 A.M. August 1, 2020, unless amended by mutual agreement.

Thereafter, it shall continue in force until sixty (60) days subsequent to notification by certified or registered mail, return receipt requested, by either party to the other party, but in no case shall terminate prior to the date indicated above.

### EXHIBIT A

### WAGE RATES

# HOURLY RATES CLASSIFICATIONS

## **BARGAINING UNIT EMPLOYEES**

## EARLINGTON OPERATIONS, AREAS 1 (PARKWAY) AND 2 (GREEN RIVER) INCLUDING GREEN RIVER GENERATING STATION KENTUCKY UTILITIES COMPANY

Whenever an employee is promoted to a classification having a higher starting rate, he shall receive the starting rate of the new classification or the next higher step in that classification which is at least ten cents (10) per hour above the employee's rate prior to the promotion. Thereafter he shall progress as though he had already worked the period required by the preceding steps in his new classification.

Any new employee, upon producing evidence satisfactory to the Company of previous experience in the classification in which he is being employed, shall be given credit for such experience, except that he shall not start higher than the "After One Year" step and, in such event, shall receive the "After Two Years" step after one year's continuous employment. However, if after employment he demonstrates that he has the knowledge, skill and ability equivalent to that of an employee who has had two years' experience in the classification, he shall receive the "After Two Years" step beginning with the first payroll period commencing after sixty (60) days of employment. Any employee, other than a supervisor, who is designated by the Company to operate digger/derrick used by crews shall receive six cents (6) per hour in addition to his regular wage.

- Note 1 Applicable, upon Plant General Manager's recommendation, to not more than one employee in a crew which is normally supervised by a Coal Yard Supervisor. Employees in this classification will be expected to supervise the crew, or any subdivision of it, in the absence of the regular supervisor. In the absence of both the Coal Yard Supervisor and Assistant Coal Yard Supervisor on a shift, another employee will be temporarily moved up to the Assistant's position and paid the Assistant Coal Yard Supervisor rate.
- Note 2 Applicable, upon Plant General Manager's recommendation, to not more than one employee in a crew of 3 or more which is normally supervised by a Chief Electrician, Chief Mechanic or Maintenance Manager. Employees in this classification will be expected to supervise the crew, or any subdivision of it, in the absence of the regular supervisor.
- Note 3 Applicable to employees who have been selected for and are in training for Line Technician or Service Technician C, Auxiliary Operator, Substation Technician C, or any other

classification having a first year hourly rate in excess of the trainee hourly rate. Employees who are successful demotional job bidders to a trainee classification will receive the highest rate of pay for that classification. A trainee in this category will be assigned to the classification for which he is in training at the end of three (3) to six (6) months, if he is then qualified, or, if not, as soon thereafter as he becomes qualified.

- Note 4 Applicable in overhead line construction crews normally consisting of 6 or more, including the Supervisor, in which supervision by other than Supervisor is frequently required.
- Note 5 Employees or new hires entering the Meter Reader classification on or after August 1, 2000 will be paid the Laborer-General wage scale.
- Note 6 Meter Readers hired prior to August 1, 2000 who enter this classification as of July 24, 2005 will continue to be paid per the Meter Reader pay scale.

## MEMORANDUM OF AGREEMENT

1. Reclassify existing Meter Readers and Meter Readers – General Labor into the new classification of Customer Order Technician. Employees currently in the Meter Reader classification will continue being paid per that wage scale. A Note 6 will be added to the contract as follows: Note 6 – Employees or new hires entering the Customer Order Technician classification on or after August 1, 2005 will be paid the new Customer Order Technician wage scale, which will be increased by \$.30 above the Laborer-General wage scale.

2. Customer Order Technicians will be trained to safely perform non-climbing service work, including after-hours reconnects.

3. Customer Order Technicians will be the first classification called to perform after-hours reconnects. If the Customer Order Technicians in an area are not available, the next person(s) called will be as listed on the call-out list for that area.

4. Employees called out to perform an after-hours reconnect shall be paid a minimum of four (4) hours at the applicable overtime rate, even if the employee actually works less than four (4) hours.

5. The Company agrees to provide Line Technician training, as business conditions allow for those Customer Order Technicians who request the training

and have been successfully recommended by the EEI CAST test and a physical abilities test. The Health and Safety Coordinator for the Earlington Operations Area will determine the need for protective footwear for the trainee.

## MEMORANDUM OF AGREEMENT

The following language applies specifically to Green River Operations group employees only working a 12-hour shift schedule. Where an issue is not specifically addressed, the provisions of the Contract will apply.

## 1. WORKDAY AND WORKWEEK

a. The normal workday will be 6 a.m. to 6 p.m. for day shift and 6 p.m. to 6 a.m. for night shift.

b. The workweek will begin at 6 a.m. Monday morning and end 6 a.m. the following Monday.

c. The current 12-hour schedule now in effect will be the continued as per Article V, Section 5.1.

## 2. REST BREAKS AND LUNCH BREAKS

An employee will be given three (3) paid breaks and a paid lunch.

## **3. CREW SELECTION**

Employees will be allowed to select crews per Article XXV of the Contract.

## 4. SHIFT DIFFERENTIAL

An additional \$1.05 will be paid for all hours

worked by employees scheduled on night shift. This will be included and paid at the overtime rate for all overtime hours worked.

## 5. SUNDAY PREMIUM

An additional \$1.25 will be paid for all hours

worked on Sunday. This will be included and paid at the overtime rate for all overtime hours worked.

## 6. HOLIDAYS

Holidays will remain as currently in the Contract. The first 8 hours will be paid at 2 <sup>1</sup>/<sub>2</sub> times the straight time rate or may saved to be used at another agreed upon time. The last 4 hours of a 12 hour shift on a holiday will be paid at the straight time rate. An employee will be paid at two (2) times his hourly wage rate for all hours worked over twelve (12) hours on a holiday.

When an employee is called into work on a calendar holiday when it is their scheduled day off the employee will be paid at one and one half  $(1 \frac{1}{2})$  times the employees normal straight time hourly wage rate (including regular shift differential, if any) for the first twelve (12) hours worked. An employee will be paid at two (2) times their hourly wage rate for all hours worked over twelve (12) hours.

## 7. VACATION

a. The amount of vacation will be 40 hours per week of eligible vacation.

b. Full weeks of vacation will be calculated on the normal hours scheduled for that week.

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 226 of 258 Meiman

c. Full day vacations will be paid at 12 hours pay.

d. Less than a full day of vacation will be continued per Section 8.3.

e. Employees who take a full week of vacation will

not be required to work their scheduled days off before, or after their vacation, with a maximum of one employee on each shift. Should two employees request to block out the same off days, the senior employee will be allowed to chose which off day period to block. The Company may allow more employees to block the same set of off days or an employee to block before and after their vacation if operational needs allow or no other employee has the time blocked.

f. For the twelve (12) hour shifts, employees who scheduled vacation during their forty-eight (48) hour normal work week will have the option of taking forty (40) hours of vacation and the eight (8) hours will not be paid.

## 8. OVERTIME

a. Overtime will be paid at  $1\frac{1}{2}$  times the straight time rate for hours worked in excess of 12 hours in a day or 40 hours in a week. In the event an employee working a 36 hour week is required to work more than the scheduled 36 hours, the employee will be paid  $1\frac{1}{2}$ times the straight time rate for hours worked in excess of the employee's normally scheduled 36 working hours, except for the first 4 hours of non-mandatory meetings which will be paid at the regular straight time rate.

### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 228 of 258 Meiman

b. Double time will be paid to an employee who is required to work on his last available consecutive off day, provided he has worked at least 6 hours on his previous off day. c. Double time will be paid for any hours worked in excess of 16 hours in a day.

d. Open positions on the Operating Schedule being prepared for the following work week will be filled using the following procedure:

(1) The operating schedule for the following week will be posted with all the required positions filled. Any vacancies on the schedule not filled by "on shift" operators will be filled on an overtime basis using the operator in the classification required with the least amount of actually worked overtime hours. Should a tie exist in the number of hours actually worked, the operator with the least amount of bargaining unit seniority will be used.

(2) After the schedule is posted the Company will begin asking/calling available operators for the vacancies filled in Step 1. Contacts will be made beginning with the operator in the classification required with the least amount of total overtime. If no operator is obtained, the Company will begin asking/calling the next higher bargaining unit classification beginning with operator in that classification with the least amount of total overtime. These contacts in this step will be completed by 8:00 a.m. Saturday.

(3) The operator previously scheduled for that vacancy in Step 1 will be required to check with the shift supervisor anytime after 8:00 a.m. Saturday to determine if they have been released from that overtime. If no operator is obtained in Step 2, the operator scheduled for that vacancy in Step 1 will be required to fill the vacancy.

(4) Vacancies will be filled beginning with the classification that is required for that shift. Example: If a Unit Operator is to be off work who would have been working in a Unit Operator Assistant position, then a Unit Operator Assistant will be scheduled for that position.

(5) In filling overtime vacancies where the Company has short notice, the overtime will be considered a Call In. Calls will be made beginning with the operator in the classification required with the least amount of total overtime. If no operator is obtained, the Company will begin calling the next higher bargaining unit classification beginning with operator in that classification with the least amount of total overtime. The first operator contacted will be informed that they will be required to fill this vacancy. If this operator requests, the Company will continue to attempt to contact other employees using the overtime list to obtain an operator for this vacancy. If another operator accepts the overtime shift, the Company will call the required employee back to release them from the obligation. If the required employee cannot be reached, then the person that accepted the shift will be called back and released from the overtime and the required person will report for this position. If a qualified KU employee cannot be reached and no qualified contractor accepts the overtime, a nonbargaining unit employee may fill the twelve (12) hour shift. An employee will not be charged with more than one reject for any workday (6 a.m. to 6 a.m.) period that overtime is refused. The supervisor will not be required to make another call to that employee. However, this does not exempt an employee from getting additional calls for required overtime.

e. If the call in of operators becomes a problem, a call in list may be established. Volunteers will be given the first opportunity for overtime. If coverage is still a problem, it may be necessary to establish a standby or on call list. The operators on call will be paid standby pay as outlined in the Contract.

f. A layover operator has the option of furnishing his or her own meals and receiving one-half hour overtime pay if he works in excess of two hours after his normal quitting time.

g. At any time after an employee agrees to accept available overtime and later decides that he no longer wants to work the overtime (except during emergency situations) the employee must provide at least twenty four (24) hour notice to management prior to the overtime. If less than twenty four hour (24) notice is given the employee will be required to work the scheduled overtime.

## 9. JURY DUTY

a. An employee will be paid 12 hours pay minus any fees paid by the court for missing a full shift.

b. An employee selected for jury duty must inform

his/her supervisor as soon as possible. If the employee is scheduled to work the day shift, the employee will report to work if there is at least four (4) hours remaining in the shift. If an employee is scheduled to work the night shift, such employee will work the first six (6) hours of the shift on the day(s) of the jury service. If the employee is held past 1400 hours, the employee will not report for day shift or will be relieved of duty for the night shift.

## **10. BEREAVEMENT**

An employee will be paid 12 hours pay for days missed. The number of days for various family members will be as outlined in Article XVII, Section 17.1.

## **11. SICK LEAVE PLAN**

Employees will have 40 hours to be taken as outlined in Article XVII, Section 17.4.

## **12. RETIREMENT SERVICE**

Employees hired before 1/1/06 who are covered by the defined benefit pension plan will have up to 80 scheduled hours worked in a two week payroll period counted as straight time for purposes under the Pension Plan.

## **13. VOTING TIME FOR ELECTIONS**

Employees who are scheduled to work day shift on the day of a federal, state, or local election will be allowed up to two (2) paid hours to vote if they wish to do so. It is understood that employees will only be allowed off for the minimum length of time they need to vote depending on their place of residence in relation to the plant.

## **14. UNANTICIPATED ISSUES**

The Company and the Union realize there may be issues that arise concerning employees on a 12-hour shift that may not have been anticipated. The Company and the Union will meet and attempt to resolve these issues using the principle that the solution will be as cost neutral as possible for both the Company and the employee(s). Should a resolution not be reached, the issue may be taken up in the Grievance and Arbitration Procedure.

## 15. Daylight Savings Time

An employee working a regularly stated schedule at the time the change is made to Daylight Savings Time (normally in the spring) and who only actually works eleven (11) hours instead of his normal twelve (12) hours because of the change shall receive pay for his normal twelve (12) hours. An employee working a regularly stated schedule at the time the change is made from Daylight Savings Time (normally In the fall) and who actually works thirteen (13) hours because of the change, shall receive pay at the established premium rate for the thirteenth (13th) hour.

## LETTER OF UNDERSTANDING

Green River Generating Station

This will confirm the understanding between The United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (USW) and Kentucky Utilities Company (Company) concerning the Green River Generating Station.

If, in the Company's opinion, it becomes necessary to reduce the workforce at the Green River Generating Station because of the retirement of the Green River Generating Station's coal fired units or part thereof, the following procedure shall be followed:

1. The Company shall not lay off any Green River Generating Station employees as a result of the retirement of the Green River Generating Station's coal fired units.

2. Green River Generating Station employees shall have the right to elect severance benefits. Employees assigned to fill openings elsewhere in the Company will have the option of either electing severance benefits or accepting assignment to a new position. Green River Generating Station employees shall be entitled to a severance benefit payment equal to two weeks of pay for each full year of service, with a maximum benefit of fifty-two weeks. Additionally, the Company will pay an employee's group medical and dental premiums, provided an employee elects COBRA or retiree medical coverage, for a period equal to one month of coverage for each two full years of service, without proration, up to a maximum of twelve months. Receipt of these benefits is conditioned upon the individual employee signing and not revoking a full waiver and release of any actual or potential employment related claims against the Company, including waiver of contractual recall rights.

3. Green River Generating Station employees who do not elect severance benefits will be provided a list of available positions within the Company. This list will also be made available to the union. The available positions may be with any LG&E and KU Energy LLC subsidiary. The employees provided with this list shall be allowed to state their preference for the available openings. With consideration being given to the list of employee preference, the available openings shall be filled based on Union seniority. In the event an employee refuses an available position pursuant to this provision, the employee will not be offered or entitled to any other position, but may elect to receive severance benefits in accordance with Paragraph 2 above. Employees placed into positions within the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) pursuant to this paragraph shall be reclassified to the new position and their pay shall be red-circled at the rate of pay which results from reducing the employees' former rate of pay by fifty percent (50%) of the difference between his former rate of pay and the rate of pay for his new classification. Employees placed into a position in the same classification at a Kentucky

Utilities facility outside of the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) shall be paid at the then current rates of pay applicable to that facility and consistent with the employees' step rate at the time of the placement. Employees placed into a position in a different classification at a Kentucky Utilities facility outside of the Earlington Operations, Areas 1 (Parkway) and 2 (Green River) shall receive the top rate of pay for the classification in which they are placed. Employees placed into positions at any other facilities will be paid in accordance with the then current pay practices and rates applicable to that facility. The company reserves the right to determine the appropriate classification and level for which the employee being placed is qualified. Any employee placed in a position pursuant to this paragraph shall have a sixty (60) day trial period in the position. Upon the conclusion of that trial period, the employee may elect to receive the severance the employee would have been entitled to receive pursuant to Paragraph 2 of this Agreement, less the wages paid to the employee during the sixty (60) day trial period.

4. The Company will make available Meter Reader positions equal to the number of Meter Reader positions filled by contractors in the Earlington Operations area at the time of the retirement of the Green River
Generating Station. Meter Reader positions filled by employees pursuant to Paragraph 3 above shall have their pay red-circled at the rate of pay which results from reducing the employees' former rate of pay by fifty percent (50%) of the difference between their former rate of pay and the rate of pay for a COT after two years in classification and shall not be required to relocate. Employees who have their pay red-circled pursuant to this provision shall be eligible for potential wage increases two (2) years after the date their pay is red-circled if the collective bargaining agreement provides for such an increase. The Company retains the right, at its discretion, to contract out any Meter Reader positions filled by employees pursuant to Paragraph 3 above, in the event such employees subsequently leave the respective Meter Reader positions in which they are placed. In the event one of these employees subsequently departs from such a Meter Reader position, the Company will make the position available for bid to the other similarly placed employees who have filled Meter Reader positions prior to utilizing a contractor.

5. Employees placed into positions pursuant to Paragraph 3 must, in the Company's sole discretion, meet all requirements for the position, including, but not limited to satisfying the qualifications for the position, the education requirements for the position, and the residency requirements for the position. With respect to meeting the residency requirement, employees will have up to twelve (12) months to relocate. Employees who relocate in order to satisfy the residency requirements for a position shall be eligible for applicable

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 245 of 258 Meiman

relocation benefits following the completion of the trial period referenced in Paragraph 3.

6. It is understood that this agreement will not be construed as the Company's position of either previous

or equivalent experience for any of the classifications or lines of progression involved in the transfers of the Green River Generating Station employees. Furthermore, the individual qualifications of such employees shall not serve as a precedent for any future applications of their classification.

7. With respect to Green River Generating Station employees, the provisions in this Letter of Understanding shall supersede all provisions set forth in Article 10 of the Collective Bargaining Agreement except for Article 10.6.

8. In the event the Company begins staffing a new generating facility on or before 12-31-2025 in the Earlington Operations, Areas 1 (Parkway) or 2 (Green River), the Company will endeavor to make available fifty percent (50%) of any union positions at such a new plant to former Green River Generating Station employees who were displaced as a result of the retirement of the Green River Generating Station's coal fired units and who remain employed by the Company at the time their service is needed at the new generating facility. Former Green River Generating Station employees who have previous operations and maintenance experience at Green River Generating Station and who seek such positions will be deemed to have met the educational requirements of the new positions

but are not exempt from all qualifications as established by the company including successful completion of any test required for such positions. Employees who satisfy all requirements will fill any such positions based on union seniority. 9. In the event the Company requires employees to complete proper plant shutdown work, at least one of the Unit Officials, (Unit President, Unit Secretary, Unit Grievers), will be provided the opportunity to perform the proper plant shut down work for a period up to a maximum of 8 weeks, provided the Unit Official is qualified to perform the plant shut down work. The number of available positions to conduct proper plant shut down and the qualifications required for this work will be determined solely by the Company.

10. With respect to operations work at the Green River Generating Station, in order to satisfy labor requirements in the period leading up to the retirement of the facility, it is understood and agreed that the Company may contract out operations work pursuant to Article 2.3 of Collective Bargaining Agreement. Such operations contractors brought in pursuant to Article 2.3 will begin training in preparation to cover employee absences and other labor shortages. There will be no reduction in the normal work schedule as result of the utilization of contractors in operations. The normal work schedule is as defined in Article 5.1 of the contract. The overtime procedure outlined in the Memorandum of Agreement on 12 hour shifts will be used to fill any overtime vacancy. Once the overtime list is exhausted, then contract operators that are qualified to fill the vacancy will be offered the overtime opportunity. If no contractor accepts the overtime, the tagged operator ("required employee") will be required to fill the overtime opportunity. At no time will there be more contractors assigned to a shift than the number necessary to ensure that the total number of qualified personnel on a shift is four (4) inclusive of contractors. Contractors may, however, be assigned to any shift for training and other assigned duties on that shift. In the event that the number of employees on a shift drops to three (3), a qualified contractor may be assigned to that shift in order to maintain a staffing level of (4) inclusive of contractors. As long as there are four (4) employees per shift, if both units are running, contractors, once qualified, will not be offered call in or planned overtime unless that overtime is first offered to employees. In the event that only one (1) unit is running, should a vacancy occur, no overtime will be assigned on a shift staffed by three (3) qualified personnel inclusive of contractors unless management deems it necessary in order to meet operational needs. No employee will be displaced as result of the assignment of a contractor to a shift.

11. The Company shall determine staffing requirements and the timing and procedures for completing the selection and/or assignment subject to the provisions set forth herein. IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representative to first become effective February 1, 2012, and as revised effective August 1, 2014.

## Green River Generating Station Green River Operation 12 Hour Shift Overtime Language

#### AGREEMENT

This will confirm the understanding reached between Kentucky Utilities and the United Steelworkers regarding the Memorandum of Agreement regarding 12-hour shift schedules and the Letter of Understanding regarding Green River Station. The parties agree to the following:

• This language will supersede the language in paragraph 10 of the Letter of Understanding regarding Green River Station (with regard to contractor employees participation in the filling of overtime only) and paragraphs 8(d) of the Memorandum of Agreement regarding 12-hour shift schedules.

(1) The operating schedule for the following week will be posted with all the required positions filled. Any vacancies on the schedule not filled by "on shift" operators will be filled by "qualified contract operators" where possible. Remaining operator positions will be filled on an overtime basis using the operator in the classification required with the least amount of actually worked overtime hours. Should a tie exist in the number of overtime hours actually worked, the operator with the least amount of bargaining unit seniority will be used.

(2) After the schedule is posted the Company will begin asking/calling available operators for the va-

cancies filled in paragraph titled (1). Contacts will be made beginning with the operator in the classification required with the least amount of total overtime. If no operator is obtained, the Company will begin asking/ calling the next higher bargaining unit classification beginning with the operator in that classification with the least amount of total overtime. These contacts in this step will be completed by 8:00 a.m. Saturday.

(3) The operator previously scheduled for a vacancy in paragraph titled (1) will be required to check with the shift supervisor any time after 8:00 a.m. Saturday to determine if they have been released from that overtime. If no operator is obtained in paragraph titled (2), the operator scheduled for that vacancy in paragraph titled (1) will be required to fill the vacancy.

(4) Vacancies will be filled beginning with the classification that is required for that shift. Example: If a Unit Operator is to be off work who would have been working in a Unit Operator Assistant position, then a Unit Operator Assistant will be scheduled for that position.

(5) Go to overtime list of available operators and the first one contacted is required to work the overtime. If the required operator requests, the company will attempt to contact other employees using the overtime list to obtain an operator for this vacancy. If no operator is contacted, the Company will then call qualified, available contractor operators. If no contractor operator is contacted for the overtime, the Company will then call shift supervisors. If no shift supervisor accepts the overtime, the required employee will be required to work the overtime. If a qualified contract operator is contacted he will be required to work and the Company will call the required employee back to release them from the obligation. If a shift supervisor accepts the overtime, the Company will call the required employee back to release them from the obligation. If the required employee cannot be reached then the person that accepted the shift will be called and released from the overtime and the required person will report for this position.

If a qualified KU employee cannot be reached and no qualified contractor accepts or is required to work the overtime, a non-bargaining unit employee may fill the twelve (12) hour shift.

An employee will not be charged with more than one reject for any workday (6 a.m. to 6 a.m.) period that overtime is refused. The supervisor will not be required to make another call to that employee. However, this does not exempt an employee from getting additional calls for required overtime.

(6) It is the intent of both parties to use full twelve hour shifts when filling overtime, when possible, including the use of bargaining unit employees, qualified contractors and non-bargaining unit employees. Split

#### Case No. 2020-00349 Attachment 2 to Response to PSC-1 Question No. 37 Page 257 of 258 Meiman

shifts will only be used as a last option.

This overtime distribution process shall be reviewed by the Company every three months. If the Company determines that this process is resulting in an unequal distribution of overtime, the parties will meet to attempt to agree on modifications that will create better overtime distribution. If the parties cannot agree then they will revert back to the language set forth in paragraph 10 of the Letter of Understanding regarding Green River Station and paragraph 8(d) of the Memorandum of Agreement regarding 12-hour shifts. This agreement will expire with the retirement of the current Green River 3 & 4 units or at the expiration of the current collective bargaining agreement.

AGREEMENT		

THIS AGREEMENT, made and entered into as of the 1st day of August, 2018, by and between KENTUCKY UTILITIES COMPANY, a Virginia and Kentucky Corporation, with its principal offices and place of business in Lexington, Fayette County, Kentucky (doing business in Virginia as Old Dominion Power Company), hereinafter referred to as the "Company," party of the first part, and LOCAL UNION NO. 2100, INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, AFL-CIO, hereinafter referred to as the "Union," party of the second part.

#### WITNESSETH:

THAT WHEREAS, the parties hereto desire to cooperate in the maintenance of just and equitable terms and conditions of employment and to provide methods for fair and peaceable adjustment of differences that may arise between them and to promote harmony and efficiency to the end that the Company and the Union and the general public may mutually benefit; and

WHEREAS, the continuous operation of the business of the Company is essential to the public welfare and it is, therefore, a recognized obligation on the part of both the Company and the Union to maintain continuous and dependable service, irrespective of any differences which may occur at any time, it is mutually agreed by said parties as follows:

#### **ARTICLE I**

#### Section 1 Union Recognition

The Company hereby recognizes the Union as the exclusive bargaining agency for all its employees in its Pineville and Norton Operations and will continue to recognize the Union for all matters pertaining to rates of pay, hours of work and any and all conditions of employment during the life of this contract, but excluding without limitation all clerical employees, line supervisors and substation supervisors and supervisors who have the authority to hire and fire or recommend such action. This Agreement is restricted entirely to said Pineville and Norton Operations of the Company's system and is applicable only to the employees located within said Pineville and Norton Operations and within the classifications referred to in Article XIV.

## Section 2 Authorization for Dues, Agency Fees, Deductions etc.

All present employees of the Company covered by this Agreement on the date of execution of this Agreement shall have the right to remain, but shall not be required to remain, members of the Union. All employees covered by this Agreement who are hired after the date of execution of the Agreement shall have the right to become but shall not be required to become members of the Union.

The parties agree that if, during the term of this agreement, KRS 336.130(3) ("Kentucky Right to Work Act") or VA Code Sections 40.1-59 and 40.1-62 are repealed, in their entirety, if a new public act invalidated

KRS 336.130(3) ("Kentucky Right to Work Act") or VA Code Sections 40.1-59 and 40.1-62, if these statutes become unenforceable in any way, or if the language contained in Article 1, Section 2 of the agreement expiring August 1, 2018, becomes lawful for Kentucky or Virginia employees covered by this Agreement, the language in Article 1, Section 2 of the agreement expiring August 1, 2018, shall replace the current language for employees in the state impacted by such a change in law without need for any bargaining.

#### Section 3

The Company, where so authorized and directed by an employee in writing upon an authorization form, meeting all requirements of law and approved by the Company, will deduct from the wages of any and all employees in its Pineville and Norton Operations for whom the Union is bargaining agent, Union dues, agency fees, initiation fees and lawful unit wide assessments in the amounts authorized by each employee on one of the above mentioned forms. This deduction shall be made as designated by the employee on the approved form on the first pay day of each month and remitted promptly to Local Union No. 2100, 10400 Dixie Highway, Louisville, Kentucky 40272. All checks shall be made payable to International Brotherhood of Electrical Workers, Local No. 2100. Each remittance shall be accompanied by a list setting forth the amount deducted and the names of those from whom the deductions were made

#### Section 4

In the event there is an overcharge made in making payroll deduction for dues, agency fees, initiation fees and assessments, the Union shall be responsible for adjustment of such claim, with the individual members.

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 14 of 108 Meiman

#### Section 5

Section 2 of this Article is intended to comply with all requirements and the provisions of applicable state and

federal law, and nothing herin contained shall require the taking of any action in violation therof; the Union agrees to indemnify and save the Company harmless from any claim or liability arising out of any action taken by the Company in compliance herewith.

#### Section 6 Management Rights

By reason of the nature of the business of the Company it is essential, and is therefore agreed, that the management of the Company and the supervision and control of all operations and the direction of the working forces, including the right to relieve employees from duty because of lack of work, or for just cause, the right to hire, suspend, discharge for cause, promote, demote or transfer employees and the right to operate the Company should be, and is, vested in, and reserved to, the Company, except as herein limited.

It is further agreed that in the interest of obtaining improved service, better operations or lower costs, the Company has the right to make changes in equipment, operations, and the organization of work, including the determination of job content, minimum requirements and qualifications; and combine jobs, eliminate jobs, and create new jobs, and it is understood that this is a proper function of management.

The Company shall have the right to formulate and enforce rules and regulations dealing with employee conduct and work and safety, which are not in conflict with this Agreement. The Company will notify the Union office in writing at least fourteen (14) calendar days prior to implementation of any new or revised rules

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 16 of 108 Meiman

or regulations and shall meet to discuss such changes during the fourteen (14) calendar day period if requested.

#### **ARTICLE II**

#### Section 1 No Strike - No Lockout

Union pledges to Company the loyal, honest, safe and dependable service of all its members who perform work under this Agreement.

The Company agrees not to lock out its employees and the Union agrees that there shall be no slowdown, sit-down, strike or other interference with or stoppage of the work of the Company on the part of the Union or any of its members, during the existence of this agreement.

Although it is a recognized obligation on the part of both the Company and the Union to cooperate in maintaining a continuous and dependable public service, it shall not be a violation of this Agreement, nor cause for discharge or disciplinary action, for an employee as an individual matter to decline to cross a picket line at premises other than premises of the Company where loss of Company property or injury to the employee is threatened.

A duly identified and authorized representative of the Union shall, upon due advance arrangement, be granted access to Company premises for the purpose of investigating problems with which he is properly concerned in the administration of this Agreement. Union activity as permitted herein does not include Union business of an internal nature which does not involve the Company.

#### Section 2 Subcontracting

(1) The Company currently and historically utilizes

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 18 of 108 Meiman

outside contractors and subcontractors to supplement its own work force. These outside contractors and subcontractors are utilized primarily for the following reasons: to meet emergency situations; to obtain specialized services not readily available within the Company's work force; for purposes of business expediency (time); and to enable the Company to render service to its customers in the most efficient and economical manner practicable. While the Company expects that a continuation of such outside contracting policies will be necessary for prudent and efficient business operations during the life of this Agreement, the Company agrees that it will not subcontract work normally and usually performed by employees presently covered by this Agreement for the purpose of eroding the bargaining unit.

Additionally, the Company agrees that except in an emergency it will not subcontract the work involved in the generation, transmission and distribution of electricity of a type normally and usually performed by employees in journeyman classifications or above when such subcontracting would cause the layoff of, such employees or affect their recall. It shall not be a violation of this Agreement for the Company to continue subcontracting in areas where there has been no reduction in force.

(2) If it becomes necessary for the Company to contract out work of the type regularly and customarily performed by employees covered hereby, it shall notify the Union of such subcontracting and identify the type of contractual agreement, probable duration of the contract and the approximate number of employees involved in the performance of the contract. However, nothing in this article shall require the Company to assume unreasonable or excessive costs in its operations.

(3) It is agreed that outside contractors will

not perform overtime work, normally performed by employees covered by this Agreement, except in the following circumstances and situations: where the employees in the work area affected have been offered the
work; if an emergency exists and employees in the work area affected by the emergency have been fully utilized; or if it is necessary to have an equipment outage for the contractor to complete the work he is performing. It is not a violation of this Section for a contractor to continue or complete work on an overtime basis, provided the contractor is responsible for that work during the normal workweek. However, contractors will not be called out to perform overtime work unless one of the above three (3) exceptions has been met.

(4) The Company agrees that, others factors being substantially equal (i.e. price, availability, qualifications etc.), contractors who employ union members will be given preferred consideration. It is understood that this provision in no way creates third party beneficiary status for any individual or contractor.

## Section 3 Successorship

The Company agrees that the Collective Bargaining Agreement between the parties will remain in full force and effect for the specified duration regardless of any change in the ownership of the Company. The Company will include a provision, in any sales or merger agreement, with any successor or assign, that will affirm and make the continuation of the Collective Bargaining Agreement a condition of the sale or merger of the Company.

## **ARTICLE III**

Section 1 Notification in Event of Discharge of Employee

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 22 of 108 Meiman

In the event of a discharge or suspension of any employee, the Company shall within forty-eight (48) hours give the employee and Local No. 2100 at Louisville, Kentucky, written notice thereof. If a written reprimand is given to an employee a copy will also be given to the Union.

## Section 2 Grievance After Discharge or Suspension

In the event the Union or any discharged or suspended employee shall fail to file a written grievance within five (5) working days concerning the above mentioned discharge or suspension, such discharge or suspension shall be final.

## Section 3 Union Representation – Stewards

For adequate representation of the employee groups, there shall be a steward at the following locations: Somerset, Kentucky, London, Kentucky, Pineville, Kentucky, Harlan, Kentucky, Pennington Gap, Virginia, and Norton, Virginia, and as many assistant stewards as may be needed, the names of all of whom shall be furnished to the Company. It is understood an assistant steward will function only in the absence of the steward. It is agreed that the Company will recognize the stewards as the official representatives of the employee group covered by the terms of this Agreement. (The right is reserved by the Union to change the stewards at will, provided that notice of any change is immediately given to the Company.) No steward shall be discriminated against by the Company because of his faithful performance of his duties as steward

## Section 4 Grievance Procedure

Should differences arise between the Company

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 24 of 108 Meiman

and Union as to the meaning and/or application or the observation and performance of any of the provisions of this Agreement, the following shall be the procedure for adjustment thereof, and any settlement reached in any step of this procedure will be final:

(1) The employee and/or his steward shall first bring the grievance to the attention of his immediate supervisor.

(2) If the grievance is not settled, it shall be reduced to writing so as to describe the complaint, designate the article and section of the contract which the aggrieved party contends has been violated and state briefly the events or actions which are alleged to be in violation of the contract and which justify the complaint and shall be presented by the aggrieved employee and/or his steward to the employee's immediate supervisor and the next level of management who did not participate at Step 1.

(3) If the matter is not satisfactorily disposed of within three (3) working days, a Business Representative of the Union shall be called in. The Business Representative, the Steward, and such person or persons as the Union may designate, shall meet with the appropriate manager and such person or persons the Company may designate to make a thorough investigation. It is agreed that a fair and sincere effort shall be made to reach a satisfactory adjustment or settlement of all matters so presented within ten (10) working days after this meeting.

(4) If the matter cannot be settled in the foregoing manner, it is agreed that the Union may refer the grievance to arbitration by giving notice to the Company in the manner hereafter specified, provided that such notice is given within forty-five (45) days after the occurrence of the event or action upon which the grievance is based or within such time as the period for giving notice may be extended by agreement of the parties in writing. If notice is not given within such period, the grievance shall be

considered settled.

(5) The Union may refer a grievance which the parties are unable to settle under the grievance procedure to arbitration by delivering to the human resources

representative within the time specified in paragraph (4) written notification that it desires to arbitrate the grievance. The Company and the Union shall each appoint a representative and such representatives shall seek agreement as to the identity of a mutually acceptable arbitrator. If they are unable to agree, the Company and Union shall jointly request the American Arbitration Association to provide a list of seven (7) qualified (National Academy of Arbitrators member) arbitrators who have training or experience in the subject of the dispute in question. The representatives of the parties shall either agree to an arbitrator on the list or select one by each party alternating striking a name from the list until one name remains, either party may reject one list per case. More than one grievance may be submitted to the same arbitrator if a multiple submission is acceptable to both parties. The compensation and expenses of the arbitrator shall be borne equally by the parties. The compensation and expenses, if any, of witnesses and other participants in the arbitration shall be borne by the party desiring or requesting their presence.

(6) Employee disciplinary records shall not be utilized in arbitration involving discipline administered to that employee if such records are more than five (5) years old, provided that employee has not received discipline within the five (5) year period.

## **Section 5 Arbitration**

The jurisdiction of the arbitrator shall be strictly limited to the determination of disputes having to do with the application of the provisions of the Agreement which

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 28 of 108 Meiman

have been submitted to arbitration as provided herein. But said arbitrator shall have no power to change any of the provisions of the Agreement.

Except where prohibited, precluded or preempted

by applicable law, the parties agree that in matters the Union agrees to submit to arbitration, the Arbitrator shall be explicitly authorized to decide any statutory issues that may arise under Section 8 of the National Labor Relations Act ("NLRA"), or that if proven would form the basis for an unfair labor practice under such provisions.

## Section 6 Grievance Meetings

Grievances to be handled through the grievance procedure shall be taken up at such time of day as will least interfere with the regular working hours of the employees involved. If the Company finds it more convenient and practical to conduct such proceedings during regular working hours, then Union grievance representatives who are called from their regular duty will be paid their regular wages as though they were on regular duty.

# ARTICLE IV

## Leaves of Absence - Union Business

The Company, upon written request from the union, shall grant to the officers and committees of the Union all necessary and reasonable leaves of absence to transact Union business, provided reasonable notice shall be given and their seniority and all other rights with the Company shall not be affected due to their absence. It is understood and agreed, however, that the Company shall not be required to grant such leave of absence to any employee whose absence, in the opinion of the Company, would interfere with the proper operation of its business. The Company shall also have the right to recall any employee

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 30 of 108 Meiman

who has been granted a leave of absence, in the event an emergency or for operational effectiveness shall, in the opinion of the Company, make such recall necessary. Union members who are excused from work for the conduct of Union business, and who are not eligible for compensation by the Company for the time so spent, shall, upon request by the Union, be compensated by the Company for straight-time work hours missed. The Union will reimburse the Company for these hours upon proper notice. The Company's obligation under this section shall be suspended if, after thirty (30) calendar days from demand for proper reimbursement, such reimbursement is not received by the Company. Any contested amount of reimbursement is all that may be withheld by the Union to avoid the suspension of such obligation.

Union members' absences from work for the conduct of Union business will be limited to twenty (20) work days in a calendar year. However, the Company will give additional consideration in this area on a case by case basis to requests which are submitted in writing.

## ARTICLE V

## **Exclusive Contract**

During the life of this Agreement the Company will not enter into any contract with any employee or group of employees, or with any other organization in the Company which would supersede or modify the provisions of this Agreement, unless required to do so under the provisions of the National Labor Relations Act or any of the amendments thereto.

# ARTICLE VI

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 32 of 108 Meiman

No Discrimination, Interference or Intimidation of Employee by Company or Union The Company further agrees that it will not interfere with, restrain or coerce employees because of membership or lawful activity in the Union, nor will it by discrimination with respect to hire, tenure or employment or any other term or condition of employment or in any manner attempt to discourage membership in the Union.

The Union agrees that neither the Union nor any of its members will interfere with, intimidate, restrain or coerce any employee in any manner whatsoever with respect to his right to work or the free exercise of his own choice as to Union membership or non-union membership, and further that there shall be no solicitation of employees for Union membership or dues on Company's time or property, provided, however, that if any employee shall lease or rent his residence from Company, then such residence shall not be considered as Company property for the purpose of this paragraph.

Any claim of violation of any of the provisions of this Article, either by Company or Union, shall constitute a complaint which shall be adjusted through the grievance procedure provided for in Article III hereof.

## ARTICLE VII

## Section 1 Probationary Period

The Company and the Union agree that it is necessary for the Company to hire additional employees, in excess of the number needed from time to time for normal operation, for the purpose of new construction work, unusual, seasonal or emergency maintenance or operating conditions, and to train such employees for replacement of, or additional to, its regular personnel. All such

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 34 of 108 Meiman

employees shall be classed as probationary employees until completion of one hundred eighty (180) days of continuous employment, during which the employee works for the Company, and during said time such employee shall acquire no seniority. Any employee, if still employed at the end of said one hundred eighty (180) days period, shall either be released from employment by the Company or placed upon the regular employee list, and if and when so placed upon the said regular employee list, his seniority shall begin from the date of his original employment. There shall be no responsibility for reemployment of probationary employees if they are laid off or released during said period of one hundred eighty (180) days. However, any claim of personal prejudice or any claim of discrimination for Union activity in connection with the layoff or release of probationary employees shall be considered and decided through the grievance procedure provided for in Article III hereof. Such claims must be supported by written evidence at the time the complaint is filed.

# Section 2 Temporary Employees

When students and others are hired for vacation replacements or other temporary needs, it is agreed that their employment is temporary and will not exceed one hundred ten (110) working days. These employees shall not accrue seniority.

# ARTICLE VIII

# Section 1 Determination of Seniority

Region-wide seniority shall mean the aggregate years, months and days of work performed in the

bargaining unit by an employee on the job for this Company. However, for the purpose of this Article VIII, region-wide seniority shall consist of (a) length of continuous service; (b) knowledge, skill and ability; and (c) physical fitness. When knowledge, skill and ability and physical fitness are relatively equal, length of continuous service shall govern. If any claim shall be made that any promotion, demotion, transfer or increase or decrease in force, including layoff or reemployment made by the Company, is due to discrimination, the dispute shall be settled under the grievance procedure provided for in Article III hereof.

## Section 2 Seniority List

The Company will post a list of its employees' seniority records, including those now in the military service, and give the Union a copy for checking for its correctness.

An up-to-date seniority list shall be made available by the Company to the Union on a quarterly basis.

## Section 3 Decrease or Increase of Working Force

Whenever the Company reduces its working force, employees shall be laid off in accordance with and in inverse order of their seniority, via; length of continuous service, knowledge, skill and ability and physical fitness as provided in Section 1 hereof.

Whenever the Company increases its working force after a layoff, the employees shall be returned to work in the inverse order in which they were laid off. No new employee shall be hired for jobs covered by this Agreement before all laid off employees qualifying under Section 1 of this Article shall have been offered the opportunity to return to work.

Each laid off employee shall keep the Company advised in writing of his correct mailing address twice

yearly and the mailing or telegraphing by the Company of notice that a job is available, to the said address, shall be deemed sufficient compliance with any provision hereof with respect to giving preference to said laid off employees.

## Section 4 Loss of Seniority

Seniority shall be lost for the following reasons:

(a) By the employee voluntarily leaving the employ of the Company.

(b) By the discharge of an employee, if such discharge is not reversed through the grievance procedure.

(c) By the failure of an employee, after a layoff, to report back to work within six (6) days after being offered reemployment or to give a satisfactory reason to the Company for further delay.

## **Section 5 Job Vacancies**

In the event a vacancy occurs which, in the opinion of the Company, must be filled or a new job is created; that is to say, when an employee quits or is discharged or is transferred from one department or from one location to another, or is changed from one shift to another, or is retired, or dies, the Company shall post a notice of such vacancy within five (5) working days after the vacancy occurs, stating the maximum rate of pay, classification, immediate supervisor, shift and residence requirements, if any, on all bulletin boards for a minimum of five (5) working days before permanently selecting the employee. If such notice is subsequently modified it shall remain posted for a minimum of five (5) working days after such modification before the Company permanently selects the employee. The Company will select the employee to fill the vacancy within twenty (20) working days following its posting of said notice. Within five (5) working days after the Company's Region Office receives a fully approved payroll authorization, authorizing such

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 40 of 108 Meiman

action, the employee selected shall be placed on the job, and all other applicants for the job will be advised in writing of the name of the selected applicant. When new jobs are created or vacancies occur, said jobs or vacancies will be posted by the Company, as hereinabove provided, and application must be made for the job during said period of five (5) working days. The advice and recommendation of a board consisting of the employee's steward, a Business Representative of the Union and not to exceed two employees having knowledge of the job and/ or qualifications of the bidders, selected by the steward and the Business Representative will be considered in filling such vacancies, which board will meet with not more than four (4) Company representatives, but such jobs may be filled by the Company temporarily until a suitable person has been selected by the Company. In the event an employee makes an application for a job vacancy posted in accordance with the provisions of this Article and is selected to fill the vacancy, then refuses to accept that job, the Company shall not be obligated to consider applications for other job vacancies, with the exception of a vacancy created by death, from that employee for a period of six (6) months following the date of posting of the job vacancy which was refused by the employee.

Any employee who successfully changes Line of Business through the bidding procedure cannot subsequently bid to another Line of Business for one (1) year.

Any employee hired during the term of this contract shall be barred from bidding to another Line of Business for one (1) year from date of hire.

\*\*Please see agreement at the back of this contract\*\*

## Section 6 Moving Expenses

A. When the permanent reporting location of an

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 42 of 108 Meiman

employee is changed (a) because of his bidding into a permanent job vacancy under Article VIII, Section 5 of this Agreement, or, (b when the Company requests and the employee consents to transfer to another location, or, (c) when the Company requires the employee to transfer to another location, and the employee is required to move his residence because of this change, the Company will pay a lump sum payment, net of taxes, equal to:

- One (1) month's base pay for renters
- Two (2) month's base pay for home owners

B. As much advance notice as possible will be given the employee of the proposed change in headquarters to give him sufficient time to arrange for new quarters in the new locality. If it is not possible to give the employee reasonable notice of the proposed change in permanent headquarters, and it is necessary for the employee to live in the new location until he can arrange to move, the Company will pay his reasonable board and lodging expenses not to exceed one calendar month unless otherwise agreed upon. If it is not possible to give such reasonable notice of the change, but it is not necessary for the employee to live in the new location until he can arrange to move, the Company will pay mileage at its standard rate for the mileage by which the distance from his present residence to his new headquarters exceeds the distance to his old headquarters, not to exceed one calendar month unless otherwise agreed upon.

C. The Company shall not be obligated to pay the moving expenses of (a) any employee who has less than twelve (12) months of continuous service since last date of hire, or, (b) in the case of any other employee, more than once in any period of twelve (12) consecutive months in connection with that employee's transfer to a new regular place of employment, unless (in either case) the move is at the Company's request.

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 44 of 108 Meiman

# Section 7 Leave of Absence

Employees may, for proper cause, be granted leave of absence up to thirty (30) days without jeopardizing their seniority and by mutual agreement between the employees involved, the Union and the Company, such period may be further extended.

## Section 8 Absence from Duties

Upon prior arrangement with Company, employees shall be entitled to be absent from their duties without pay not to exceed three (3) days per calendar year.

## Section 9 Return to Work After Accident or Illness

After a regular employee has recovered from accident or sickness and reports for work, he shall be returned to his regular job, provided he is physically able and qualified to perform his job.

# Section 10 Handicapped Employees

Nothing in this Article shall be construed to diminish any rights an employee would otherwise have under this Agreement, the Americans with Disabilities Act, the Workers' Compensation Laws of Kentucky and Virginia or other applicable laws.

# Section 11 Unexcused Absence from Job Grounds for Discharge

The absence of any employee from his regular shift of duty for a total of three times within any three months' period without properly notifying the Company and without a reasonable and satisfactory excuse may, at the Company's option, be grounds for discharge.

## Section 12 Residence Requirements

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 46 of 108 Meiman

(a) Line Technicians shall reside either (1) within the service territory of the technician's reporting location or (2) within thirty (30) road miles of that same reporting location. Substation Technicians shall reside within thirty (30) road miles of the reporting location. Line Technicians and Substation Technicians, whose reporting location is changed by the Company, will not be required to relocate.

(b) Service Technicians shall reside either (1) within the service territory of the office to which the technician regularly reports or (2) within twenty (20) road miles of that same reporting office.

(c) Employees in Service or Line Technician positions as of the effective date of this policy (August 1, 1992) who do not meet these residency requirements will not be required to move. Employees in Substation Technician positions as of the effective date of this policy (January 1, 2013) who do not meet this residency requirements will not be required to move. Additionally, those Service, Line or Substation Technicians residing outside the requirement as specified in (a) or (b) above can not move any further.

(d) Line Technicians may transfer or bid to other positions within that line crew or to another line crew at the same reporting location without having to move.

(e) Line Technicians described in paragraph (a) who transfer to Service Technician positions described in paragraph (b), must meet the residency requirements set forth in paragraph (b) even if the transfer does not involve a change in reporting location.

(f) Service, Line or Substation Technicians that transfer to a position at a different reporting location than they now have must meet the residency requirements for that location.

## Section 13 Maternity Leave

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 48 of 108 Meiman

An employee on maternity leave (or otherwise absent by reason of pregnancy) may utilize any accumulated paid sick leave in accordance with the Company's paid sick leave plan, and even if the employee does not plan to return to work, accumulated paid sick leave may be utilized to the same extent it could be if the employee applied for maternity leave.

An employee on maternity leave may remain on leave for a period equal to the time allowed for non-work related illness or injury.

Upon return to work the employee will either be returned to the former job or placed in another position in accordance with the practice in effect for employees returning from leave because of sickness or injury. If the employee fails to return to work at or prior to the expiration of maternity leave or refuses to take the position made available as above provided, her employment will terminate.

## Section 14 Health & Safety

The Company and the Union recognize the need for a strong Health and Safety

Program for the benefit of all employees and the Company. The Union will cooperate in assisting and maintaining the Company's rules regarding health and safety. The Company recognizes the interest of the Union in the health and safety of its members, and will give careful consideration to any recommendations made by it.

The Company and the Union agree to a Joint Health and Safety Advisory Committee for the purpose of reviewing, discussing and recommending new or revised safety and health rules and procedures. The Committee shall be chaired by the Manager, Health and Safety, and shall meet quarterly. This Committee shall consist of not more than two (2) members of the Company and two (2)

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 50 of 108 Meiman

members of the Union. The Union representatives who shall attend a particular meeting shall be made known to the Manager, Health and Safety not less than two (2) weeks prior to the date established for the meeting. At the same time, the Union shall notify the Company of the subjects it desires to address at the meeting.

# ARTICLE IX

## **Employees in the Armed Forces**

Except as otherwise provided by law, if it should become necessary for an employee to leave the service of the Company to serve in the Armed Forces of the United States, or should an employee volunteer for service in any of the Armed Forces of the United States, the Company's policy states that it will provide support for employee's military service obligations consistent with its obligations under the Uniformed Services Employment and Reemployment Rights Act (USERRA) and any applicable state and/or local laws. The Military Leave Policy applies to all LG&E and KU Energy LLC and subsidiaries. Except as otherwise provided by law, this Article shall not apply to any employee who re-enlists or otherwise extends his period of full-time military service beyond the period of time of his military obligation to the United States.

#### ARTICLE X

## Section 1 Holidays

The Company will permit as many of its employees as practicable to be absent from their duties with regular pay on the following holidays: New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day,

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 52 of 108 Meiman

Thanksgiving Day, the day after Thanksgiving, Christmas Eve and Christmas Day. In addition, employees may utilize two floating holidays and two personal days during a calendar year. New employees hired between July 1 – September 30 will be eligible for only one floating holiday and one personal day in the calendar year in which the employee is hired. New employees hired on or after October 1 will not be eligible for floating holidays or personal days until January 1 of the following year.

# Section 2

An employee scheduled to work or on call on any of the above holidays and works eight (8) hours or more shall be entitled, at his option, either (a) upon the exercise of this option by notice to the Company before the end of the pay period involved, to be paid at the rate of one and one-half (1-1/2) times his regular rate of pay for the hours worked, or (b) to be absent from his duties with regular pay on a day to be mutually agreed upon between the employee and the Company. An employee shall be paid at two (2) times his hourly wage rate for all hours worked over eight (8) on a holiday.

Except in cases of emergency, unscheduled absences of other employees, or with respect to an employee regularly scheduled to work on a holiday, employees shall be notified three (3) working days in advance of being required to work on a holiday.

# Section 3 Work on Scheduled Off Days

Any employee who is required to work on his scheduled off day shall be paid time and a half and shall not be denied continuing his regular shift of duties during the week.

Any employee who is required to work on his last consecutive off day shall be paid at two (2) times his

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 54 of 108 Meiman

hourly wage rate, provided he worked at least three (3) hours on his previous off day.

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 55 of 108 Meiman

## ARTICLE XI

## Vacations

Effective January 1, 2000, eligible employees will earn vacation from date of hire based on years of service in accordance with the following schedule:

Vacation Earned	Completed Years of Service Attained During Calendar Year
5 days	Maximum in year of hire
10 days	Years 1-4
15 days	Years 5-14
20 days	Years 15-24
25 days	Years 25 and above

Such employees on a forty (40) hour workweek shall be paid the equivalent of forty (40) hours at their straight time hourly base rate of pay plus regular Shift Differential, if any, and any other regular hourly payments, for each week of vacation. Such employees who normally work more than twenty (20) but less than forty (40) hours per week (a part-time employee, should such be included in the bargaining unit during the life of this Agreement) shall be eligible for one-half the normal vacation entitlement (earned/accrued).

# Eligibility

A. To qualify for vacation in the following year, an employee must be active on the payroll as of December 31. An exception to this requirement applies to those employees who are on approved Family and Medical Leave.

B. An employee reinstated from inactive status
shall become eligible for vacation based on his or her anniversary date:

An employee returning to work from January 1 through June 30 is eligible for earned vacation during the calendar year. Such employee must work three (3) continuous months before being eligible for vacation pay.

An employee returning to work on or after July 1 is ineligible for vacation during the calendar year.

C. Employees hired directly by the Company to fill temporary positions (not hired as temporaries through contractors) who later become regular employees of the Company are eligible for vacation accrual retroactive to the beginning of their temporary employment with the Company.

D.An employee hired between January 1 and June 30 is eligible for 5 days of vacation during that calendar year. Such employee must work three (3) continuous months before being eligible for vacation pay. An employee hired on or after July 1 is ineligible for vacation during the initial calendar year of employment. After the initial calendar year of employment, an employee can take vacation effective January 1 or upon three (3) continuous months of active service, whichever is later, based upon the above schedule.

E. Employees who are rehired as regular full time employees accrue vacation at the same rate as when they left employment if they were employed for one year of continuous service prior to separation and if the separation was for one year or less.

#### **Scheduling of Vacations**

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 58 of 108 Meiman

A. Vacations, except in case of emergency (in which case special arrangements must be made by the employee with his department head), shall be taken at least one work week at a time.

B. In the event that an employee doesn't sign his weeks consecutively, the Company will go to the next employee in seniority who will be entitled to sign for his vacation.

C. Heads of departments shall schedule vacations annually as soon as practicable after the beginning of the year. Subject to the need to maintain the necessary complement of employees at all times, departmental employees shall have their choice of time for vacations in order of their seniority.

D. At an employee's request, an excused absence may be charged to vacation time to which an employee is then entitled.

## **Accumulating Vacations**

Vacation time may not be accumulated from one year to the next, and vacations earned as of any January 1 must be liquidated by time off by December 31 of that same year, except that with the responsible manager's prior written approval, an employee may defer up to five days of vacation to the following calendar year.

## Vacation Pay at Separation

An employee who quits, dies, retires or is discharged on or after any January 1 and without having received the vacation for which he became eligible upon such date, will be entitled to his vacation pay upon termination of employment. Any such payment due an employee who has died shall be made to the person designated as beneficiary on his group life coverage, if living, otherwise to the employee's estate. No employee leaving the employment

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 60 of 108 Meiman

of the Company during any calendar year shall be entitled to any vacation pay in the following year.

## Pay in Lieu of Vacation

An employee with four weeks of vacation eligibility (including carry-over) may "sell back" one week of vacation after they have taken two weeks of vacation and carried over one week. Payout for such a week of worked vacation will occur in January of the following year.

# Vacation During Illness, Disability, or Personal Leave of Absence

A If an employee goes on paid sick leave or becomes unable to work because of compensable occupational injury prior to the time his vacation is scheduled to commence, his vacation will be rescheduled later in the year, except that an employee on paid sick leave or Short Term Disability may, at his option, cease receiving sick pay or Short Term Disability pay and take his vacation as previously scheduled. The vacation of an employee who becomes ill or is injured after working his last shift prior to vacation will not be rescheduled, and he will not be eligible for any sick pay until such scheduled vacation has expired.

B. An employee on paid sick leave or Short Term Disability may, upon advance written request, elect at the end of the calendar year to cease receiving sick pay or Short Term Disability pay for any unused vacation period in order to avoid loss of vacation pay. An employee disabled as the result of a compensable occupational injury or who is receiving long term disability insurance payments at the end of a vacation year and is unable to work during any unused vacation period or take pay in lieu of vacation within the parameters specified within this article, will not receive pay for the vacation not taken, except as provided in Paragraph C below.

C. In the year in which an employee incurs an occupational injury or illness, after the application of

up to one week vacation carry-over as specified within this article, the employee shall receive payment for any remaining unused vacation in an amount sufficient to make up the difference between what the employee received from workers' compensation insurance or Short Term Disability pay and the employee's regular straight time wages assuming a 40-hour work week.

D. An employee will earn vacation during approved personal leaves of absence on a prorated basis as follows:

• an employee on a PLOA of one full month to three full months will earn 75 percent vacation benefit for the following year, based upon the above schedule; and

• an employee on a PLOA of four to six months will earn 50 percent vacation benefit for the following year, based upon the above schedule.

#### Vacation at Retirement

Any employee who retires may elect to work during all weeks of any vacation to which he may be entitled in the year of retirement, and for each such week of vacation worked, shall receive with his final payroll check additional compensation in an amount computed on the same basis as is then employed in computing the compensation paid to other employees who work during one week of their vacation and take pay in lieu as specified within this article.

## ARTICLE XII

## Section 1 Work Away from Headquarters, Travel on

#### **Company Time, Meals**

(a) Whenever an employee is assigned duties distant from his regular place of employment, he will be provided transportation or transportation expense between the assigned job and his regular place of employment or headquarters. If, in the opinion of his supervisor, it is impractical for the employee to return daily to his regular place of employment, the Company will provide suitable lodging and board near the place of such temporary employment. Except in cases of emergencies, employees required to stay away from home overnight will be given notice as soon as possible but not later than the day before. Under normal circumstances where employees are performing work which is not of an emergency nature, a light-duty Company vehicle, which is adequate to provide transportation, is assigned to the job and available, and the location of the work is within 50 road miles distance from the place at which the employees regularly report to work, the employees will not be required to stay out of town overnight, such travel to be on Company time. Customer Order Technicians will be provided by the Company \$7.00 for the purchase of the noon meal which will be added to the employee's payroll check for performing work that is outside of the employee's assigned service territory. Employees who are scheduled for a lunch period of no more than 30 minutes are not eligible to receive a noon meal allowance. Line Technicians and Service Technicians who are required to work through their established lunch period will be provided by the Company a \$7.00 meal ticket to be added to the employee's payroll check. Employees will be provided by the Company a \$7.00 meal ticket to be added to the employee's payroll check for meals outside normal working hours as provided under sections 1(b), 1(c) and 1(d) of this Article XII.

(b) Whenever planned work or emergency work begins more than two (2) hours prior to the employee's

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 66 of 108 Meiman

normal start time and continues into the employee's normal shift, or planned work or emergency work continues beyond the employee's normal shift end time more than two (2) hours.

Whenever any employee or employees, after completing their normal working hours, are called out for extra work because of emergency or service interruption and required to work three (3) hours.

For every five (5) hours of continuous work after the first meal ticket is provided until the employee is released from work.

# Section 2 Work Away from Regular Place of Employment

No employee shall be required, except during emergencies, to stay away from his regular place of employment or headquarters for a continuous period of more than two weeks.

## Section 3 Travel Time

For each trip authorized by the Company, between the places of work assigned and the regular place of work or headquarters, time required for travel shall be considered as time worked.

## Section 4 Double Shift or Part Shift

Any employee who, after the completion of a regular shift of duty, is ordered to double shift, or part shift, shall not be denied the privilege of continuing his regular shift during any work week.

## Section 5 Temporary Transfer

No employee who is performing a regular job attained by virtue of seniority shall be transferred by the Company to another location without the consent

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 68 of 108 Meiman

of the employee, except in case of temporary transfers not exceeding three months in duration or in case of emergency.

#### Section 6 Acting Supervisor

On a crew with three or more persons, whenever a regular supervisor in the classification of Line Supervisor, Service Supervisor, Substation Supervisor, Shift Engineer, Chief Electrician or Chief Meter Technician is on vacation or off the job for any cause, and another employee is ordered by the person to whom such supervisor reports (or, in his absence, such person's supervisor) to perform the work of a supervisor, the employee shall receive his regular rate of pay or the rate of pay of the supervisor, whichever is higher, during the period that the employee performs said work.

#### Section 7 Temporary Supervisor

When the Company combines two or more crews (to form a combined crew of four or more) for a project, unless a Supervisor A is assigned to the resulting work group, a Supervisor B will be temporarily promoted to Supervisor A for the period during which the crews are combined. If a crew normally consisting of four or more men, including the Supervisor, is reduced to a crew consisting of three men, including the Supervisor, the Supervisor A of that crew shall continue to receive the wage of a Supervisor A as long as he continues in the position of Supervisor of that crew.

#### Section 8 Two-Person Crew Premium

When two non-supervisory employees are assigned work to be performed without the direction of a supervisor and the work involves the installation, maintenance or operation of electric lines or equipment, the company

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 70 of 108 Meiman

may designate one of the employees to be in charge of the work to be performed. The employee designated to be in charge shall be paid a \$1.00 per hour premium over their regular rate of pay.

## Section 9 Temporary or Emergency Work in Lower Classification

An employee ordered to perform work for the convenience of the Company, temporarily or in an emergency, in a lower classification, shall receive the rate of pay for the classification in which he is regularly employed.

#### Section 10 Furnishing of Tools

The Company will furnish all tools required by the employee for use in the performance of his normal work.

## Section 11 Uniform Laundering

The Company will arrange uniform laundering for employees working out of their service territory for extended periods.

## ARTICLE XIII

## Section 1 Normal Work Week

The normal work week of employees covered by this Agreement shall consist of five days of eight hours each, Monday through Friday. Except during emergencies or during extraordinary circumstances, lunch hour shall not begin earlier than eleven (11:00) A.M. nor later than one (1:00) P.M., local standard time.

The Substation Department crews, Meter Department personnel, and Meter Reading personnel shall begin their workday at 7:30 a.m. and end at 3:30 p.m. These employees will be permitted to take a short break not to

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 72 of 108 Meiman

exceed 20 minutes to eat and not to begin earlier than ten (10:00) a.m. nor later than twelve (12:00) noon, local standard time.

The Line crews and Service Technicians shall begin their workday at 7:30 a.m. and end at 4:00 p.m. with a thirty (30) minute lunch period. Customer Order Technicians will continue to work the schedule of 8:00 a.m. to 5:00 p.m. with a one (1) hour lunch period. The lunch period shall not begin earlier than (11:00) a.m. nor later than one (1:00) p.m., local standard time.

The Company may consider reasonable requests received from a majority of the members of a service crew to change the normal starting and quitting times, such decision to remain solely within the Company's discretion to exercise.

#### Section 2 Overtime, Rates of Pay

The wages of the aforesaid employees shall be computed on an hourly basis, equal to the employees' hourly rate as provided in Article XIV hereof. The basic wage shall consist of forty hours worked each week at the employee's hourly rate, and in addition to such basic wage, time and one-half shall be paid for all hours worked in excess of eight hours within any twenty-four hour period, or forty hours within a work week, whichever is greater, but in no case both; provided, however, said additional payment for work in excess of eight hours in any twentyfour hour period shall not be paid to any employee in a relief classification for work he performs while working his regular relief schedule.

## Section 3 Division of Overtime

The Company will endeavor to divide overtime work, other than in an emergency, equally among the employees

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 74 of 108 Meiman

regularly assigned to that kind of work. An employee who cannot be contacted will not be charged with overtime which he would otherwise have worked. For overtime groups at various locations who so desire, an overtime record will be posted on the appropriate bulletin board.

## Section 4 Overtime – Idle Holiday Counted as Time Worked

An idle holiday shall be counted as a day worked for determining weekly overtime.

## Section 5 Pay Provisions for Change in Schedule and Partially Used Time

An employee who is scheduled or notified to report for work on a regular shift and does report for work at the time specified without having been given actual notice of change of schedule, shall receive full pay at his regular rate for his scheduled (non-overtime) hours on that day, even though idle or sent home early because of delay or shortage of materials or for other reasons beyond his control. This provision shall not apply in the eventthat:

(a) Strikes or work stoppages by employees in the bargaining unit covered by this Agreement in connection with labor disputes interfere with the conduct of normal operations; or

(b) An employee is not put to work or is released from work after having been put to work either at his own request or due to his own fault.

#### Section 6 Call Out Time

Employees called out for emergency work shall receive a minimum of three (3) hours' pay at one and one-half times their regular rate of pay for such work.

Employees called back within four(4) hours of being released from their regular shift, shall have their additional hours actually worked added to the hours worked before being released for the purposes of calculating overtime pay and total hours worked.

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 76 of 108 Meiman

Employees called out for emergency work on a normal day off or on an observed Company holiday will receive a minimum of three (3) hours' pay at one and onehalf times his regular rate of pay for such work.

#### Section 7 Planned Overtime on Off Day

An employee scheduled for planned overtime work on a day which would be a scheduled off day on his normal work schedule will receive a minimum of four (4) hours' pay at one and one-half times his regular rate of pay. Employees shall not, in order to be entitled to the four hours' minimum, be required to remain on the job for any longer than it takes to complete the planned work, including any work related to or arising from the planned work. On three-day weekends, the Company will not schedule planned overtime work on customer-owned facilities, except in the case of hospitals.

An employee making timely request may decline planned overtime; provided sufficient employees regularly assigned to and qualified to perform the work are available and willing to work.

## Section 8 Minimum Rest Period

When in the opinion of the Company, an employee has worked such any extended period of time as to impair his effectiveness or present a hazard to his health or safety, or to the health and safety of fellow employees, he may be required by the Company to leave work for a rest period of up to eight (8) hours. After sixteen (16) continuous hours worked an employee may request and will be granted a minimum rest period of eight (8) hours.

Such rest period shall be taken in its entirety unless the employee is requested and agrees to return to work before the expiration of such eight (8) hour rest period. If such rest period overlaps the employee's regular hours on a regularly scheduled work day, the employee shall be paid

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 78 of 108 Meiman

at his regular hourly rate of pay for the hours which overlap unless the rest period was initiated by the employee in accordance with this policy. If the rest period ends within two (2) hours or less of the end of the employee's regularly scheduled shift, the employee may either return to work at his regular hourly rate of pay or not return to work and forfeit the remaining hours in his shift.

An employee who is called out for emergency work and works at least sixteen (16) hours, and continues into the employee's regular shift, that employee may request an eight (8) hour rest period after one half of the employee's regular shift is completed and be paid at his regular hourly rate of pay for the hours remaining in his shift up to four (4) hours. If in this situation the employee chooses to continue to work the remainder of his shift and the Company agrees for him to work, he will continue to be paid double-time for the rest of his shift.

## Section 9 Continuous Hours Worked (Time and one-half)

All continuous hours worked after the end of the employee's last previous regular shift by an employee during periods which commence more than eight (8) hours prior to the employee's next regularly scheduled starting time and continue into his regular hours on a regularly scheduled work day shall be paid at one and one-half (1-1/2) times the employee's regular hourly rate of pay if the employee completes his regular shift on such work day; provided, however, if the emergency situation (or other cause for his presence outside his normal working hours) should end during the employee's regularly scheduled shift of duty he may either leave work at that time (without loss of the time and one-half treatment for such continuous hours worked) or complete the remainder of his regular shift at his regular hourly rate

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 80 of 108 Meiman

of pay. During the continuation of an emergency situation as determined by the Company, for pay purposes, the continuity of the employee's work shall not be considered to be broken by short breaks for meals, refreshments, or rest periods authorized by his supervisor.

An employee who is called out for emergency work more than four (4) hours before his regular starting time and who completes such work within two (2) hours of his regular starting time and is thereafter released from duty, shall continue to be paid at the appropriate overtime rate until his normal starting time. He will be paid his normal straight-time rate of pay for working his normal shift.

#### Section 10 Daylight Savings Time

An employee working a regularly stated schedule at the time the change is made to Daylight Saving Time (normally in the spring) and who only actually works seven (7) hours instead of his normal eight (8) because of the change shall receive pay for his normal eight (8) hours. An employee working a regularly stated schedule at the time the change is made from Daylight Saving Time (normally in the fall) and who actually worksnine (9) hours because of the change, shall receive pay at the established premium rate for the ninth (9th) hour.

## Section 11 Continuous Hours Worked – (Double-time)

An employee who works more than sixteen (16) continuous hours shall be paid two (2) times his hourly wage rate for all such hours worked.

#### Section 12 On-Call

Each employee who serves in a weekly On–Call status will be paid one hundred dollars (\$100) per week in year one of the contract, one hundred and twenty-five dollars (\$125) in year two of the contract and one hundred

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 82 of 108 Meiman

and fifty dollars (\$150) in year three of the contract. If an employee works on service calls outside his normal scheduled workday during his On-Call week, he will be paid for such time worked in accordance with Article XII Overtime. On-Call pay is provided to compensate the employee for the interruption of lifestyle being on-call contains. The on-call employee, in exchange for on call pay, agrees to remain available and fit to respond to call outs during the week they serve as the On-Call person. If an employee serves in an On-Call status for service calls for less than one (1) week, he will be paid one (1) hour's pay at his appropriate overtime rate in addition to time spent on any service calls for each day he serves in an On-Call status for service calls.

A total of three employees for each of the following three areas Harlan/Pineville, London/Somerset and Norton/Pennington Gap will be on-call from any of the classifications listed in the Eligibility section below for the following holidays including any adjacent weekends, Good Friday, Memorial Day weekend, Independence Day (weekend if Independence Day is adjacent to the weekend) and Labor Day weekend. The third employee who serves in any of these designated holidays On-Call status will be paid one hour's pay at his appropriate overtime rate in addition to time spent on any service calls for each day he serves On-Call status for service calls. This third employee may include any classification from those listed in the Eligibility list below and may also include Line Technician B or C.

#### **Eligibility:**

All employees in the area who are classified as:

- Service Technician A
- Line Technician A
- Line Supervisor B

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 84 of 108 Meiman

- Service Technician B with at least two years in classification as a Technician B
- Line Technician B with at least two years in classification as a Technician B

## Areas to be staffed with an On-Call person:

- Harlan
- Pineville
- London
- Somerset
- Norton
- Pennington Gap

## **On-Call Staffing:**

Each area will implement their own system of determining their On-Call person, with emphasis on volunteerism but with an objective of sharing the workload. At least on a weekly basis, the Union will provide to management the name of the employee designated to be on-call for each area.

## **Dispatcher's Priority**

Dispatcher's will make the first call to the "On-Call" person for that area.

Exception: (a) there are other bargaining unit employees already working that can respond more quickly (b) the "On-Call" person for that area has been sent home to rest or has initiated a rest period.

## **Customer Order Technicians**

The Company reserves the right to determine if and when Customer Order Technicians will be assigned to on-call.

# Section 13 Emergency Electric Restoration for Another Utility

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 86 of 108 Meiman

An employee who performs emergency electric restoration work for another utility will be paid one and one half (1-1/2) times his hourly rate for the first eight (8) hours worked in any one day.

An employee who performs emergency electric restoration work for another utility will be paid two (2) times his hourly wage rate for all hours worked over eight (8) in any one day. This two (2) times his hourly wage rate provision does not apply when such work is performed for Kentucky Utilities or Old Dominion Power, however, if that company's overtime pay practice would provide more wages, then the employee will receive the greater of the two.

#### ARTICLE XIV

#### Classification of Schedule "A"

It is agreed that wage rates for the several classifications of work shall be established in accordance with the work classifications and progression schedule attached hereto and made a part hereof, marked Schedule "A" for identification, and that the application thereof shall be in the following manner: Whenever an employee is promoted to a classification having a higher starting rate, he shall receive the starting rate of the new classification, or if such starting rate represents an increase in pay of less than five cents  $(5\phi)$  per hour, he shall receive the rate of the new classification applicable (After One Year). In the event such employee is promoted to a new classification at a higher rate than the starting rate, he shall progress as though he had already worked the period required by the preceding steps of the classification.

An employee who successfully bids between the Line Technician C, Service Technician C, or Meter

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 88 of 108 Meiman

Technician C classifications will retain the employee's rate and time in progression steps.

Payroll periods will be on a bi-weekly basis with employees being paid every other Friday.

#### ARTICLE XV

Section 1 Sick Leave, Group Insurance, Survivors Insurance, Service Annuity, Medical Care Plan, Employee Savings Plan, Employee Assistance Program, Dependent Care Assistance Plan, Dependent Life Insurance Plan

During the term of this Agreement the Company will provide the existing or no less favorable sick leave, group life insurance, long-term disability insurance, retirement annuity and medical, including post-retirement medical insurance benefits, dental assistance program, employee savings plan, employee assistance program, dependent care assistance plan, and dependent life insurance plan for members of the bargaining unit as are provided for other full time employees of the Company. The details of such benefits shall be as specifically provided in master plan documents or insurance contracts covering the terms of such plans. The Company will furnish identification cards for medical purposes. The Company will furnish each employee annually the amount of accumulated sick leave.

#### Section 2 Funeral Leave

Funeral leave is paid for a maximum of five days for Immediate Family Members who include: spouse, child, step-child, or parent or step-parent.

Funeral leave is paid for a maximum of three days for Other Family Members who include: brother, sister, grandparents, grandchildren, parents-in-law, sons-in-law, daughters-in-law, spouses of the employee's brothers or sisters, employee's spouse's brothers, sisters, parents and grandparents, step relations of the preceding, or any relative living with the employee.

Such days shall be consecutive work days and shall not extend beyond the day following the funeral, except in the case of the death of an Immediate Family Member in which case such days may extend to the second day following the funeral, and shall be conditioned on the employee's attendance at the funeral. Payment will not be made for any day during such three-day period on which the employee would not otherwise work.

Employees will not be paid for unused funeral leave. Should the employee need to be absent on a normal scheduled day or days, other than those for which payment is provided above, the employee may elect to take such day or days as vacation time, provided he is then entitled to sufficient vacation time which he has not utilized by time off or for which he has not been paid.

Payment shall be made on the next pay day after receiving notice in writing from the employee and (a) the name of the deceased person and relationship to the employee, and (b) the date and location of the funeral.

## ARTICLE XVI

#### **Bulletin Boards for Union Use**

At all places where the Company now has bulletin boards, the Company will in the exercise of its discretion either furnish space on said bulletin boards or furnish nearby space upon which the Union may erect its own bulletin boards, of a size not larger than the Company's bulletin boards.

The Union agrees that it shall confine such posted notices to information concerning Company-Union relations and matters of concern to Union members. The

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 92 of 108 Meiman

Union further agrees it shall not post any notices that are derogatory or inflammatory in nature. All such notices shall be submitted to the Manager Human Resources for review prior to posting.
## ARTICLE XVII

#### **No Discrimination**

There shall be no discrimination in the administration of this Agreement with regard to race, color, religion, national origin, age, sex, disability or veteran status.

# ARTICLE XVIII

# Notice of: Changes, Modifications, or Terminations Effective Date, Termination Date

Within the period of one hundred twenty (120) days prior to expiration date of Agreement; either party hereto may request the other to meet for the purpose of negotiating modifications to this Agreement or negotiating a new agreement, to become effective on the expiration of this Agreement. The parties agree to meet within twenty (20) days of such request and to bargain in good faith thereafter, as required by Section 8(a)(5), (b)(3) and (d), of the Labor Management Relations Act of 1947, as Amended.

This Agreement shall become effective as of the date set forth at the commencement hereof and shall continue in full force and effect from that date until August 1, 2021, unless changed or modified by mutual consent, and shall automatically be extended from year to year thereafter unless either party at least sixty (60) days prior to the expiration of this Agreement or any extension thereof shall serve upon the other party written notice that the same shall not be renewed at the applicable expiration date.

Notwithstanding the other provisions of this Article,

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 94 of 108 Meiman

the Company and the Union may reopen the Wage Scale, of this agreement for the purpose of negotiating wage rates to become effective August 1, 2020 provided that neither the Company nor the Union may require the other to negotiate concerning any term other than the wage rates to be effective August 1, 2017. This Agreement will be reopened for such purposes only if the Company or the Union actually delivers to the other, not later than July 1, 2020, written notice of intent to reopen. Failing receipt by the Company or the Union, on the date specified, of such written notice to reopen, this Agreement shall continue in full force and effect through August 1, 2021, and the wage rates in effect as of midnight July 31, 2019, shall continue in full force and effect for the duration of the Agreement. If this Agreement is reopened in accordance with the provisions of this paragraph, and the parties have not reached an agreement by midnight July 31, 2020 as appropriate, this Agreement shall be suspended and the Company and the Union shall have the same rights and obligations as they would have possessed had the Agreement expired, provided that neither the Company nor the Union may require the other to negotiate concerning any term other than the wage rates to be effective August 1, 2020.

Service of the above notices on the Union shall be deemed sufficient by depositing the notice, signed by the Corporate Manager Labor Relations of the Company, in the United States Mail, registered or certified, and addressed to Local No. 2100, International Brotherhood of Electrical Workers, AFL-CIO, 10400 Dixie Highway, Louisville, Kentucky 40272.

Service of the above notices on the Company shall be deemed sufficient by depositing the notice, signed by a Business Manager of the Union, in the United States Mail, registered or certified, and addressed to the Corporate Labor Relations Manager, LG&E and KU Energy, LLC, 220 West Main, P.O. Box 32020, Louisville, Kentucky 40232.

IN TESTIMONY WHEREOF, Union and Company have caused their respective names to be hereunto subscribed by their duly authorized officers and seven copies of this Agreement to be executed, each to have the force and effect of an original, this 25th day of August, 2018.

#### SCHEDULE "A"

## WA G E R A T E S, H O U R L Y R A T E D CLASSIFICATIONS EFFECTIVE AUGUST 5, 2018 APPLICABLE TO LOCAL UNION 2100, INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, AFL-CIO, OF KENTUCKY UTILITIES COMPANY AND OLD DOMINION POWER COMPANY.

It is agreed that wage rates and applications thereof for the several classifications of work shall be established in accordance with the following schedule.

Any new employee, upon producing evidence satisfactory to the Company of previous experience in the classification in which he is being employed shall be given credit for such experience, except that he shall not start higher than the "After One Year" step, and in such event shall receive the "After Two Years" step after one year's continuous employment. However, if after employment, he demonstrates that he has the knowledge, skill and ability equivalent to that of an employee who has had two (2) years' experience in the classification, he shall receive the "After Two Years" step beginning with the first payroll period commencing after sixty (60) days of employment.

Any employee, other than a supervisor, who is designated by the Company to keep time of crews and/ or record of material used by the crews, shall, in addition to his regular wage, receive \$15.00 per month during the first year he is so designated, \$20.00 per month during the second year, and \$30.00 per month thereafter as compensation for the satisfactory performance of these

#### Case No. 2020-00349 Attachment 3 to Response to PSC-1 Question No. 37 Page 99 of 108 Meiman

duties.

The following rates are applicable to all employees working normally on the day shift from 8:00 a.m. to 4:00 p.m.

To employees normally working on the second shift (generally 4:00 p.m. to 12:00 midnight), add fifty cents (50) per hour to the following rates.

To employees normally working on the third shift (generally 12:00 midnight to 8:00 a.m.), and to swing and relief shift employees, add sixty-seven cents (67) per hour to the following rates.

Employees who have been assigned a regular schedule of work which includes work on Sunday pursuant to an approved payroll authorization specifying such schedule shall receive a Sunday work premium of ninetyfive cents (95) per hour in addition to their straight time and shift premium rates.

Note 1 - Applicable to supervisor of crews normally consisting of three employees, including the supervisor.

Note 2 - Applicable to employees who have been selected for and are in training for Meter Reader, Semi-Skilled Technician, Substation Technician B, or any other classification having a first year hourly rate in excess of the Trainee A hourly rate. A trainee in this category will be assigned to the classification for which he is training at the end of six (6) months, if he is then qualified, or, if not, as soon thereafter as he becomes qualified.

Note 3 - Applicable to employees who have been selected for and are in training for Line or Service Technician C, only. A trainee in this category will be assigned to the classification for which he is in training at the end of six (6) months, if he is then qualified, or, if not, as he becomes qualified.

Note 4 - New hires entering the Meter Reader classification on or after August 1, 2003 will be paid the Customer Order Technician wage scale.

## AGREEMENT

The Kentucky Utilities/Old Dominion Power Company and the International Brotherhood of Electrical Workers, Local 2100, agree as follows:

In the event a vacancy occurs which, in the opinion of the Company, must be filled or a new job created within the Pineville, London and Norton Operations Areas, the employees within the classification who meet the requirements shall be given first opportunity to fill the opening in accordance with procedures agreed to by the parties. In the event the vacancy is not filled by the foregoing procedures, the vacancy shall be posted in accordance with Article VIII, Section 5 of the Agreement.

This agreement shall remain in effect for one year

from the date of the agreement, at which time the Company and Union will meet and discuss the continuation of this practice.

This agreement is strictly non-precedential. It shall not be used in any arbitrations case unless such case involves the enforcement of the terms set forth herein. ## Attachment 4 to Response to PSC-1 Question No. 37

THIS AGREEMENT, made and entered into PageoT of 60 the 1st day of August, 2015, by and between KENTUCK Meiman UTILITIES COMPANY, a Virginia and Kentucky Corporation, with its principal offices and place of business in Lexington, Fayette County, Kentucky (doing business in Virginia as Old Dominion Power Company), hereinafter referred to as the "Company," party of the first part, and LOCAL UNION NO. 2100, INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, AFL-CIO, hereinafter referred to as the "Union," party of the second part.

#### WITNESSETH:

THAT WHEREAS, the parties hereto desire to cooperate in the maintenance of just and equitable terms and conditions of employment and to provide methods for fair and peaceable adjustment of differences that may arise between them and to promote harmony and efficiency to the end that the Company and the Union and the general public may mutually benefit; and

WHEREAS, the continuous operation of the business of the Company is essential to the public welfare and it is, therefore, a recognized obligation on the part of both the Company and the Union to maintain continuous and dependable service, irrespective of any differences which may occur at any time, it is mutually agreed by said parties as follows:

#### Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 ARTICLE I Page 8 of 60 Meiman

## Section 1 Union Recognition

The Company hereby recognizes the Union as the exclusive bargaining agency for all its employees in its Pineville and Norton Operations and will continue to recognize the Union for all matters pertaining to rates of pay, hours of work and any and all conditions of employment during the life of this contract, but excluding without limitation all clerical employees, line supervisors and substation supervisors and supervisors who have the authority to hire and fire or recommend such action. This Agreement is restricted entirely to said Pineville and Norton Operations of the Company's system and is applicable only to the employees located within said Pineville and Norton Operations and within the classifications referred to in Article XIV.

# Section 2 Authorization for Dues, Agency Fees, Deductions etc.

All Kentucky employees of the Company covered by this Agreement who on the date of execution of this Agreement are members or agency fee payers of the Union shall, as a condition of continued employment, remain members or agency fee payers for the term of the Agreement to the extent of paying the periodic dues or agency fees uniformly required. All Kentucky employees covered by this Agreement who are hired after the date of execution of this Agreement shall, as a condition of continued employment, become members or agency fee payers of the Union at the completion of their probationary period and remain members or agency fee payers for the term of this Agreement, to the extent of paying the initiation fee (or reinstatement fee) and periodic dues or agency fees uniformly required.

# Attachment 4 to Response to PSC-1 Question No. 37 Section 3 Page 9 of 60

The Company, where so authorized and direcMeiman by an employee in writing upon an authorization form, meeting all requirements of law and approved by the Company, will deduct from the wages of any and all employees in its Pineville and Norton Operations for whom the Union is bargaining agent, Union dues, agency fees, initiation fees and lawful unit wide assessments in the amounts authorized by each employee on one of the above mentioned forms. This deduction shall be made as designated by the employee on the approved form on the first pay day of each month and remitted promptly to Local Union No. 2100, 10400 Dixie Highway, Louisville, Kentucky 40272. All checks shall be made payable to International Brotherhood of Electrical Workers, Local No. 2100. Each remittance shall be accompanied by a list setting forth the amount deducted and the names of those from whom the deductions were made.

# Section 4

In the event there is an overcharge made in making payroll deduction for dues, agency fees, initiation fees and assessments, the Union shall be responsible for adjustment of such claim, with the individual members.

# Section 5

Section 2 of this Article shall not apply to Virginia employees. This Article is intended to comply with all requirements and the provisions of applicable state and federal law, and nothing herein contained shall require the taking of any action in violation thereof; the Union agrees to indemnify and save the Company harmless from any claim or liability arising out of any action taken by the Company in compliance herewith. However, in the event changes in the state and/or federal law should make

Attachment 4 to Response to PSC-1 Question No. 37

the application of Section 2 above lawful for **Viagenia** of 60 employees, then the provisions of said Section 2 sh**Meiman** apply to said Virginia employees.

## Section 6 Management Rights

By reason of the nature of the business of the Company it is essential, and is therefore agreed, that the management of the Company and the supervision and control of all operations and the direction of the working forces, including the right to relieve employees from duty because of lack of work, or for just cause, the right to hire, suspend, discharge for cause, promote, demote or transfer employees and the right to operate the Company should be, and is, vested in, and reserved to, the Company, except as herein limited.

It is further agreed that in the interest of obtaining improved service, better operations or lower costs, the Company has the right to make changes in equipment, operations, and the organization of work, including the determination of job content, minimum requirements and qualifications; and combine jobs, eliminate jobs, and create new jobs, and it is understood that this is a proper function of management.

The Company shall have the right to formulate and enforce rules and regulations dealing with employee conduct and work and safety, which are not in conflict with this Agreement. The Company will notify the Union office in writing at least fourteen (14) calendar days prior to implementation of any new or revised rules or regulations and shall meet to discuss such changes during the fourteen (14) calendar day period if requested.

#### Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 ARTICLE II Page 11 of 60 Meiman

## Section 1 No Strike – No Lockout

Union pledges to Company the loyal, honest, safe and dependable service of all its members who perform work under this Agreement.

The Company agrees not to lock out its employees and the Union agrees that there shall be no slowdown, sitdown, strike or other interference with or stoppage of the work of the Company on the part of the Union or any of its members, during the existence of this agreement.

Although it is a recognized obligation on the part of both the Company and the Union to cooperate in maintaining a continuous and dependable public service, it shall not be a violation of this Agreement, nor cause for discharge or disciplinary action, for an employee as an individual matter to decline to cross a picket line at premises other than premises of the Company where loss of Company property or injury to the employee is threatened.

A duly identified and authorized representative of the Union shall, upon due advance arrangement, be granted access to Company premises for the purpose of investigating problems with which he is properly concerned in the administration of this Agreement. Union activity as permitted herein does not include Union business of an internal nature which does not involve the Company.

# Section 2 Subcontracting

(1) The Company currently and historically utilizes outside contractors and subcontractors to supplement its own work force. These outside contractors and subcontractors are utilized primarily for the following reasons: to meet emergency situations; to obtain

Attachment 4 to Response to PSC-1 Question No. 37 specialized services not readily available wit**Fageth2** of 60 Company's work force; for purposes of busin**49**siman expediency (time); and to enable the Company to render service to its customers in the most efficient and economical manner practicable. While the Company expects that a continuation of such outside contracting policies will be necessary for prudent and efficient business operations during the life of this Agreement, the Company agrees that it will not subcontract work normally and usually performed by employees presently covered by this Agreement for the purpose of eroding the bargaining unit.

Additionally, the Company agrees that except in an emergency it will not subcontract the work involved in the generation, transmission and distribution of electricity of a type normally and usually performed by employees in journeyman classifications or above when such subcontracting would cause the layoff of, such employees or affect their recall. It shall not be a violation of this Agreement for the Company to continue subcontracting in areas where there has been no reduction in force.

(2) If it becomes necessary for the Company to contract out work of the type regularly and customarily performed by employees covered hereby, it shall notify the Union of such subcontracting and identify the type of contractual agreement, probable duration of the contract and the approximate number of employees involved in the performance of the contract. However, nothing in this article shall require the Company to assume unreasonable or excessive costs in its operations.

(3) It is agreed that outside contractors will not perform overtime work, normally performed by employees covered by this Agreement, except in the following circumstances and situations: where the employees in the work area affected have been offered the

Attachment 4 to Response to PSC-1 Question No. 37 work; if an emergency exists and employees in the Regerth of 60 area affected by the emergency have been fully utiliz Ageiman or if it is necessary to have an equipment outage for the contractor to complete the work he is performing. It is not a violation of this Section for a contractor to continue or complete work on an overtime basis, provided the contractor is responsible for that work during the normal workweek. However, contractors will not be called out to perform overtime work unless one of the above three (3) exceptions has been met.

(4) The Company agrees that, others factors being substantially equal (i.e. price, availability, qualifications etc.), contractors who employ union members will be given preferred consideration. It is understood that this provision in no way creates third party beneficiary status for any individual or contractor.

# Section 3 Successorship

The Company agrees that the Collective Bargaining Agreement between the parties will remain in full force and effect for the specified duration regardless of any change in the ownership of the Company. The Company will include a provision, in any sales or merger agreement, with any successor or assign, that will affirm and make the continuation of the Collective Bargaining Agreement a condition of the sale or merger of the Company.

# ARTICLE III

# Section 1 Notification in Event of Discharge of Employee

In the event of a discharge or suspension of any employee, the Company shall within forty-eight (48) hours give the employee and Local No. 2100 at Louisville,

Attachment 4 to Response to PSC-1 Question No. 37

Kentucky, written notice thereof. If a written rep**Pageatd of 60** is given to an employee a copy will also be given to **Meiman** Union.

## Section 2 Grievance After Discharge or Suspension

In the event the Union or any discharged or suspended employee shall fail to file a written grievance within five (5) working days concerning the above mentioned discharge or suspension, such discharge or suspension shall be final.

## Section 3 Union Representation – Stewards

For adequate representation of the employee groups, there shall be a steward at the following locations: Somerset, Kentucky, London, Kentucky, Pineville, Kentucky, Harlan, Kentucky, Pennington Gap, Virginia, and Norton, Virginia, and as many assistant stewards as may be needed, the names of all of whom shall be furnished to the Company. It is understood an assistant steward will function only in the absence of the steward. It is agreed that the Company will recognize the stewards as the official representatives of the employee group covered by the terms of this Agreement. (The right is reserved by the Union to change the stewards at will, provided that notice of any change is immediately given to the Company.) No steward shall be discriminated against by the Company because of his faithful performance of his duties as steward.

## Section 4 Grievance Procedure

Should differences arise between the Company and Union as to the meaning and/or application or the observation and performance of any of the provisions of this Agreement, the following shall be the procedure for adjustment thereof, and any settlement reached in any

#### Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 step of this procedure will be final: Page 15 of 60

(1) The employee and/or his steward shall first br**Meiman** the grievance to the attention of his immediate supervisor.

(2) If the grievance is not settled, it shall be reduced to writing so as to describe the complaint, designate the article and section of the contract which the aggrieved party contends has been violated and state briefly the events or actions which are alleged to be in violation of the contract and which justify the complaint and shall be presented by the aggrieved employee and/or his steward to the employee's immediate supervisor and the next level of management who did not participate at Step 1.

(3) If the matter is not satisfactorily disposed of within three (3) working days, a Business Representative of the Union shall be called in. The Business Representative, the Steward, and such person or persons as the Union may designate, shall meet with the appropriate manager and such person or persons the Company may designate to make a thorough investigation. It is agreed that a fair and sincere effort shall be made to reach a satisfactory adjustment or settlement of all matters so presented within ten (10) working days after this meeting.

(4) If the matter cannot be settled in the foregoing manner, it is agreed that the Union may refer the grievance to arbitration by giving notice to the Company in the manner hereafter specified, provided that such notice is given within forty-five (45) days after the occurrence of the event or action upon which the grievance is based or within such time as the period for giving notice may be extended by agreement of the parties in writing. If notice is not given within such period, the grievance shall be considered settled.

The Union may refer a grievance which the parties are unable to settle under the grievance procedure to arbitration by delivering to the human resources

Attachment 4 to Response to PSC-1 Question No. 37 representative within the time specified in paragepth of 60 (4) written notification that it desires to arbitrate Meiman grievance. The Company and the Union shall each appoint a representative and such representatives shall seek agreement as to the identity of a mutually acceptable arbitrator. If they are unable to agree, the Company and Union shall jointly request the American Arbitration Association to provide a list of seven (7) qualified (National Academy of Arbitrators member) arbitrators who have training or experience in the subject of the dispute in question. The representatives of the parties shall either agree to an arbitrator on the list or select one by each party alternating striking a name from the list until one name remains, either party may reject one list per case. More than one grievance may be submitted to the same arbitrator if a multiple submission is acceptable to both parties. The compensation and expenses of the arbitrator shall be borne equally by the parties. The compensation and expenses, if any, of witnesses and other participants in the arbitration shall be borne by the party desiring or requesting their presence.

Employee disciplinary records shall not be utilized in arbitration involving discipline administered to that employee if such records are more than five (5) years old, provided that employee has not received discipline within the five (5) year period.

## Section 5 Arbitration

The jurisdiction of the arbitrator shall be strictly limited to the determination of disputes having to do with the application of the provisions of the Agreement which have been submitted to arbitration as provided herein. But said arbitrator shall have no power to change any of the provisions of the Agreement.

Except where prohibited, precluded or preempted

Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 by applicable law, the parties agree that in matRageth2 of 60 Union agrees to submit to arbitration, the Arbitrator shAleiman be explicitly authorized to decide any statutory issues that may arise under Section 8 of the National Labor Relations Act ("NLRA"), or that if proven would form the basis for an unfair labor practice under such provisions.

## Section 6 Grievance Meetings

Grievances to be handled through the grievance procedure shall be taken up at such time of day as will least interfere with the regular working hours of the employees involved. If the Company finds it more convenient and practical to conduct such proceedings during regular working hours, then Union grievance representatives who are called from their regular duty will be paid their regular wages as though they were on regular duty.

# ARTICLE IV

# Leaves of Absence – Union Business

The Company, upon written request from the union, shall grant to the officers and committees of the Union all necessary and reasonable leaves of absence to transact Union business, provided reasonable notice shall be given and their seniority and all other rights with the Company shall not be affected due to their absence. It is understood and agreed, however, that the Company shall not be required to grant such leave of absence to any employee whose absence, in the opinion of the Company, would interfere with the proper operation of its business. The Company shall also have the right to recall any employee who has been granted a leave of absence, in the event an emergency or for operational effectiveness shall, in the opinion of the Company, make such recall necessary.

# Attachment 4 to Response to PSC-1 Question No. 37

Union members who are excused from **wBageft8 of 60** the conduct of Union business, and who are not eligi**Meiman** for compensation by the Company for the time so spent, shall, upon request by the Union, be compensated by the Company for straight-time work hours missed. The Union will reimburse the Company for these hours upon proper notice. The Company's obligation under this section shall be suspended if, after thirty (30) calendar days from demand for proper reimbursement, such reimbursement is not received by the Company. Any contested amount of reimbursement is all that may be withheld by the Union to avoid the suspension of such obligation.

Union members' absences from work for the conduct of Union business will be limited to twenty (20) work days in a calendar year. However, the Company will give additional consideration in this area on a case by case basis to requests which are submitted in writing.

### ARTICLE V

## **Exclusive Contract**

During the life of this Agreement the Company will not enter into any contract with any employee or group of employees, or with any other organization in the Company which would supersede or modify the provisions of this Agreement, unless required to do so under the provisions of the National Labor Relations Act or any of the amendments thereto.

#### ARTICLE VI

No Discrimination, Interference or Intimidation of Employee by Company or Union

The Company further agrees that it will not

Attachment 4 to Response to PSC-1 Question No. 37 interfere with, restrain or coerce employees becRage 19 of 60 membership or lawful activity in the Union, nor will it Weiman discrimination with respect to hire, tenure or employment or any other term or condition of employment or in any manner attempt to discourage membership in the Union.

The Union agrees that neither the Union nor any of its members will interfere with, intimidate, restrain or coerce any employee in any manner whatsoever with respect to his right to work or the free exercise of his own choice as to Union membership or non-union membership, and further that there shall be no solicitation of employees for Union membership or dues on Company's time or property, provided, however, that if any employee shall lease or rent his residence from Company, then such residence shall not be considered as Company property for the purpose of this paragraph.

Any claim of violation of any of the provisions of this Article, either by Company or Union, shall constitute a complaint which shall be adjusted through the grievance procedure provided for in Article III hereof.

# ARTICLE VII

#### Section 1 Probationary Period

The Company and the Union agree that it is necessary for the Company to hire additional employees, in excess of the number needed from time to time for normal operation, for the purpose of new construction work, unusual, seasonal or emergency maintenance or operating conditions, and to train such employees for replacement of, or additional to, its regular personnel. All such employees shall be classed as probationary employees until completion of one hundred twenty (120) days of continuous employment, during which the employee

Attachment 4 to Response to PSC-1 Question No. 37 works for the Company, and during said timRagel20 of 60 employee shall acquire no seniority. Any employee Meiman still employed at the end of said one hundred twenty (120) days period, shall either be released from employment by the Company or placed upon the regular employee list, and if and when so placed upon the said regular employee list, his seniority shall begin from the date of his original employment. There shall be no responsibility for reemployment of probationary employees if they are laid off or released during said period of one hundred twenty (120) days. However, any claim of personal prejudice or any claim of discrimination for Union activity in connection with the layoff or release of probationary employees shall be considered and decided through the grievance procedure provided for in Article III hereof. Such claims must be supported by written evidence at the time the complaint is filed.

#### Section 2 Temporary Employees

When students and others are hired for vacation replacements or other temporary needs, it is agreed that their employment is temporary and will not exceed one hundred ten (110) working days. These employees shall not accrue seniority.

### **ARTICLE VIII**

#### Section 1 Determination of Seniority

Region-wide seniority shall mean the aggregate years, months and days of work performed in the bargaining unit by an employee on the job for this Company. However, for the purpose of this Article VIII, region-wide seniority shall consist of (a) length of continuous service; (b) knowledge, skill and ability; and (c) physical fitness. When knowledge, skill and ability and
Attachment 4 to Response to PSC-1 Question No. 37 physical fitness are relatively equal, length of con Plage 21 of 60 service shall govern. If any claim shall be made that Aleiman promotion, demotion, transfer or increase or decrease in force, including layoff or reemployment made by the Company, is due to discrimination, the dispute shall be settled under the grievance procedure provided for in Article III hereof.

# Section 2 Seniority List

The Company will post a list of its employees' seniority records, including those now in the military service, and give the Union a copy for checking for its correctness.

An up-to-date seniority list shall be made available by the Company to the Union on a quarterly basis.

# Section 3 Decrease or Increase of Working Force

Whenever the Company reduces its working force, employees shall be laid off in accordance with and in inverse order of their seniority, via; length of continuous service, knowledge, skill and ability and physical fitness as provided in Section 1 hereof.

Whenever the Company increases its working force after a layoff, the employees shall be returned to work in the inverse order in which they were laid off. No new employee shall be hired for jobs covered by this Agreement before all laid off employees qualifying under Section 1 of this Article shall have been offered the opportunity to return to work.

Each laid off employee shall keep the Company advised in writing of his correct mailing address twice yearly and the mailing or telegraphing by the Company of notice that a job is available, to the said address, shall be deemed sufficient compliance with any provision hereof with respect to giving preference to said laid off employees.

# Attachment 4 to Response to PSC-1 Question No. 37 Section 4 Loss of Seniority Page 22 of 60

Seniority shall be lost for the following reasons: Meiman

(a) By the employee voluntarily leaving the employ of the Company.

(b) By the discharge of an employee, if such discharge is not reversed through the grievance procedure.

By the failure of an employee, after a layoff, to report back to work within six (6) days after being offered reemployment or to give a satisfactory reason to the Company for further delay.

## Section 5 Job Vacancies

In the event a vacancy occurs which, in the opinion of the Company, must be filled or a new job is created; that is to say, when an employee guits or is discharged or is transferred from one department or from one location to another, or is changed from one shift to another, or is retired, or dies, the Company shall post a notice of such vacancy within five (5) working days after the vacancy occurs, stating the maximum rate of pay, classification, immediate supervisor, shift and residence requirements, if any, on all bulletin boards for a minimum of five (5) working days before permanently selecting the employee. If such notice is subsequently modified it shall remain posted for a minimum of five (5) working days after such modification before the Company permanently selects the employee. The Company will select the employee to fill the vacancy within twenty (20) working days following its posting of said notice. Within five (5) working days after the Company's Region Office receives a fully approved payroll authorization, authorizing such action, the employee selected shall be placed on the job, and all other applicants for the job will be advised in writing of the name of the selected applicant. When new jobs are created or vacancies occur, said jobs or

Attachment 4 to Response to PSC-1 Question No. 37

vacancies will be posted by the Company, as here Page 23 of 60 provided, and application must be made for the job dur Meiman said period of five (5) working days. The advice and recommendation of a board consisting of the employee's steward, a Business Representative of the Union and not to exceed two employees having knowledge of the job and/ or qualifications of the bidders, selected by the steward and the Business Representative will be considered in filling such vacancies, which board will meet with not more than four (4) Company representatives, but such jobs may be filled by the Company temporarily until a suitable person has been selected by the Company. In the event an employee makes an application for a job vacancy posted in accordance with the provisions of this Article and is selected to fill the vacancy, then refuses to accept that job, the Company shall not be obligated to consider applications for other job vacancies, with the exception of a vacancy created by death, from that employee for a period of six (6) months following the date of posting of the job vacancy which was refused by the employee.

Any employee who successfully changes Line of Business through the bidding procedure can not subsequently bid to another Line of Business for one (1) year.

Any employee hired during the term of this contract shall be barred from bidding to another Line of Business for one (1) year from date of hire.

\*\*Please see agreement at the back of this contract\*\*

## Section 6 Moving Expenses

A. When the permanent reporting location of an employee is changed (a) because of his bidding into a permanent job vacancy under Article VIII, Section 5 of this Agreement, or, (b when the Company requests and the employee consents to transfer to another location, or,

Attachment 4 to Response to PSC-1 Question No. 37

(c) when the Company requires the employee to **Page 24 of 60** to another location, and the employee is required to m**Ateiman** his residence because of this change, the Company will pay a lump sum payment, net of taxes, equal to:

- One (1) month's base pay for renters
- Two (2) month's base pay for home owners

B. As much advance notice as possible will be given the employee of the proposed change in headquarters to give him sufficient time to arrange for new quarters in the new locality. If it is not possible to give the employee reasonable notice of the proposed change in permanent headquarters, and it is necessary for the employee to live in the new location until he can arrange to move, the Company will pay his reasonable board and lodging expenses not to exceed one calendar month unless otherwise agreed upon. If it is not possible to give such reasonable notice of the change, but it is not necessary for the employee to live in the new location until he can arrange to move, the Company will pay mileage at its standard rate for the mileage by which the distance from his present residence to his new headquarters exceeds the distance to his old headquarters, not to exceed one calendar month unless otherwise agreed upon.

C. The Company shall not be obligated to pay the moving expenses of (a) any employee who has less than twelve (12) months of continuous service since last date of hire, or, (b) in the case of any other employee, more than once in any period of twelve (12) consecutive months in connection with that employee's transfer to a new regular place of employment, unless (in either case) the move is at the Company's request.

## Section 7 Leave of Absence

Employees may, for proper cause, be granted leave of absence up to thirty (30) days without jeopardizing their

Attachment 4 to Response to PSC-1 Question No. 37

seniority and by mutual agreement between the em**Plage25 of 60** involved, the Union and the Company, such period m**Meiman** be further extended.

# Section 8 Absence from Duties

Upon prior arrangement with Company, employees shall be entitled to be absent from their duties without pay not to exceed three (3) days per calendar year.

## Section 9 Return to Work After Accident or Illness

After a regular employee has recovered from accident or sickness and reports for work, he shall be returned to his regular job, provided he is physically able and qualified to perform his job.

## Section 10 Handicapped Employees

Nothing in this Article shall be construed to diminish any rights an employee would otherwise have under this Agreement, the Americans with Disabilities Act, the Workers' Compensation Laws of Kentucky and Virginia or other applicable laws.

# Section 11 Unexcused Absence from Job Grounds for Discharge

The absence of any employee from his regular shift of duty for a total of three times within any three months' period without properly notifying the Company and without a reasonable and satisfactory excuse may, at the Company's option, be grounds for discharge.

## Section 12 Residence Requirements

(a) Line Technicians shall reside either (1) within the service territory of the technician's reporting location or (2) within thirty (30) road miles of that same reporting location. Substation Technicians shall reside within thirty

Attachment 4 to Response to PSC-1 Question No. 37

(30) road miles of the reporting location. Line Tecl**Pagia26 of 60** and Substation Technicians, whose reporting location**Meiman** changed by the Company, will not be required to relocate.

(b) Service Technicians shall reside either (1) within the service territory of the office to which the technician regularly reports or (2) within twenty (20) road miles of that same reporting office.

(c) Employees in Service or Line Technician positions as of the effective date of this policy (August 1, 1992) who do not meet these residency requirements will not be required to move. Employees in Substation Technician positions as of the effective date of this policy (January 1, 2013) who do not meet this residency requirements will not be required to move. Additionally, those Service, Line or Substation Technicians residing outside the requirement as specified in (a) or (b) above can not move any further.

(d) Line Technicians may transfer or bid to other positions within that line crew or to another line crew at the same reporting location without having to move.

(e) Line Technicians described in paragraph (a) who transfer to Service Technician positions described in paragraph (b), must meet the residency requirements set forth in paragraph (b) even if the transfer does not involve a change in reporting location.

(f) Service, Line or Substation Technicians that transfer to a position at a different reporting location than they now have must meet the residency requirements for that location.

# Section 13 Maternity Leave

An employee on maternity leave (or otherwise absent by reason of pregnancy) may utilize any accumulated paid sick leave in accordance with the Company's paid sick leave plan, and even if the employee does not plan

Attachment 4 to Response to PSC-1 Question No. 37 to return to work, accumulated paid sick leave **frage 27 of 60** utilized to the same extent it could be if the employ**4eiman** applied for maternity leave.

An employee on maternity leave may remain on leave for a period equal to the time allowed for non-work related illness or injury.

Upon return to work the employee will either be returned to the former job or placed in another position in accordance with the practice in effect for employees returning from leave because of sickness or injury. If the employee fails to return to work at or prior to the expiration of maternity leave or refuses to take the position made available as above provided, her employment will terminate.

## Section 14 Health & Safety

The Company and the Union recognize the need for a strong Health and Safety

Program for the benefit of all employees and the Company. The Union will cooperate in assisting and maintaining the Company's rules regarding health and safety. The Company recognizes the interest of the Union in the health and safety of its members, and will give careful consideration to any recommendations made by it.

The Company and the Union agree to a Joint Health and Safety Advisory Committee for the purpose of reviewing, discussing and recommending new or revised safety and health rules and procedures. The Committee shall be chaired by the Manager, Health and Safety, and shall meet quarterly. This Committee shall consist of not more than two (2) members of the Company and two (2) members of the Union. The Union representatives who shall attend a particular meeting shall be made known to the Manager, Health and Safety not less than two (2) weeks prior to the date established for the meeting. At

#### Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37

the same time, the Union shall notify the CompanPaget28 of 60 subjects it desires to address at the meeting. Meiman

#### ARTICLE IX

#### **Employees in the Armed Forces**

Except as otherwise provided by law, if it should become necessary for an employee to leave the service of the Company to serve in the Armed Forces of the United States, or should an employee volunteer for service in any of the Armed Forces of the United States, the Company's policy states that it will provide support for employee's military service obligations consistent with its obligations under the Uniformed Services Employment and Reemployment Rights Act (USERRA) and any applicable state and/or local laws. The Military Leave Policy applies to all LG&E and KU Energy LLC and subsidiaries. Except as otherwise provided by law, this Article shall not apply to any employee who re-enlists or otherwise extends his period of full-time military service beyond the period of time of his military obligation to the United States

# ARTICLE X

#### Section 1 Holidays

The Company will permit as many of its employees as practicable to be absent from their duties with regular pay on the following holidays: New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the day after Thanksgiving, Christmas Eve and Christmas Day. In addition, employees may utilize two floating holidays and two personal days during a calendar year. New employees hired between July

Attachment 4 to Response to PSC-1 Question No. 37

1 – September 30 will be eligible for only one **fragei2g of 60** holiday and one personal day in the calendar year **Meiman** which the employee is hired. New employees hired on or after October 1 will not be eligible for floating holidays or personal days until January 1 of the following year.

# Section 2

An employee scheduled to work or on call on any of the above holidays and works eight (8) hours or more shall be entitled, at his option, either (a) upon the exercise of this option by notice to the Company before the end of the pay period involved, to be paid at the rate of one and one-half (1-1/2) times his regular rate of pay for the hours worked, or (b) to be absent from his duties with regular pay on a day to be mutually agreed upon between the employee and the Company. An employee shall be paid at two (2) times his hourly wage rate for all hours worked over eight (8) on a holiday.

Except in cases of emergency, unscheduled absences of other employees, or with respect to an employee regularly scheduled to work on a holiday, employees shall be notified three (3) working days in advance of being required to work on a holiday.

# Section 3 Work on Scheduled Off Days

Any employee who is required to work on his scheduled off day shall be paid time and a half and shall not be denied continuing his regular shift of duties during the week.

Any employee who is required to work on his last consecutive off day shall be paid at two (2) times his hourly wage rate, provided he worked at least three (3) hours on his previous off day.

#### Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 ARTICLE XI Page 30 of 60 Meiman

## Vacations

Effective January 1, 2000, eligible employees will earn vacation from date of hire based on years of service in accordance with the following schedule:

Vacation Earned	Completed Years of Service Attained During Calendar Year		
5 days	Maximum in year of hire		
10 days	Years 1-4		
15 days	Years 5-14		
20 days	Years 15-24		
25 days	Years 25 and above		

Such employees on a forty (40) hour workweek shall be paid the equivalent of forty (40) hours at their straight time hourly base rate of pay plus regular Shift Differential, if any, and any other regular hourly payments, for each week of vacation. Such employees who normally work more than twenty (20) but less than forty (40) hours per week (a part-time employee, should such be included in the bargaining unit during the life of this Agreement) shall be eligible for one-half the normal vacation entitlement (earned/accrued).

# Eligibility

A. To qualify for vacation in the following year, an employee must be active on the payroll as of December 31. An exception to this requirement applies to those employees who are on approved Family and Medical Leave.

B. An employee reinstated from inactive status

Attachment 4 to Response to PSC-1 Question No. 37

shall become eligible for vacation based on hisPagedat of 60 anniversary date:

An employee returning to work from January 1 through June 30 is eligible for earned vacation during the calendar year. Such employee must work three (3) continuous months before being eligible for vacation pay.

An employee returning to work on or after July 1 is ineligible for vacation during the calendar year.

C. Employees hired directly by the Company to fill temporary positions (not hired as temporaries through contractors) who later become regular employees of the Company are eligible for vacation accrual retroactive to the beginning of their temporary employment with the Company.

D. An employee hired between January 1 and June 30 is eligible for 5 days of vacation during that calendar year. Such employee must work three (3) continuous months before being eligible for vacation pay. An employee hired on or after July 1 is ineligible for vacation during the initial calendar year of employment. After the initial calendar year of employment, an employee can take vacation effective January 1 or upon three (3) continuous months of active service, whichever is later, based upon the above schedule.

E. Employees who are rehired as regular full time employees accrue vacation at the same rate as when they left employment if they were employed for one year of continuous service prior to separation and if the separation was for one year or less.

## Scheduling of Vacations

A. Vacations, except in case of emergency (in which case special arrangements must be made by the employee with his department head), shall be taken at least one work week at a time.

# Attachment 4 to Response to PSC-1 Question No. 37

B. In the event that an employee doesn't **sequel32 of 60** weeks consecutively, the Company will go to the n**Meiman** employee in seniority who will be entitled to sign for his vacation.

C. Heads of departments shall schedule vacations annually as soon as practicable after the beginning of the year. Subject to the need to maintain the necessary complement of employees at all times, departmental employees shall have their choice of time for vacations in order of their seniority.

D. At an employee's request, an excused absence may be charged to vacation time to which an employee is then entitled.

## **Accumulating Vacations**

Vacation time may not be accumulated from one year to the next, and vacations earned as of any January 1 must be liquidated by time off by December 31 of that same year, except that with the responsible manager's prior written approval, an employee may defer up to five days of vacation to the following calendar year.

## Vacation Pay at Separation

An employee who quits, dies, retires or is discharged on or after any January 1 and without having received the vacation for which he became eligible upon such date, will be entitled to his vacation pay upon termination of employment. Any such payment due an employee who has died shall be made to the person designated as beneficiary on his group life coverage, if living, otherwise to the employee's estate. No employee leaving the employment of the Company during any calendar year shall be entitled to any vacation pay in the following year.

#### Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 Pay in Lieu of Vacation Page 33 of 60

An employee with four weeks of vacation eligibil**Meiman** (including carry-over) may "sell back" one week of vacation after they have taken two weeks of vacation and carried over one week. Payout for such a week of worked vacation will occur in January of the following year.

# Vacation During Illness, Disability, or Personal Leave of Absence

A. If an employee goes on paid sick leave or becomes unable to work because of compensable occupational injury prior to the time his vacation is scheduled to commence, his vacation will be rescheduled later in the year, except that an employee on paid sick leave or Short Term Disability may, at his option, cease receiving sick pay or Short Term Disability pay and take his vacation as previously scheduled. The vacation of an employee who becomes ill or is injured after working his last shift prior to vacation will not be rescheduled, and he will not be eligible for any sick pay until such scheduled vacation has expired.

B. An employee on paid sick leave or Short Term Disability may, upon advance written request, elect at the end of the calendar year to cease receiving sick pay or Short Term Disability pay for any unused vacation period in order to avoid loss of vacation pay. An employee disabled as the result of a compensable occupational injury or who is receiving long term disability insurance payments at the end of a vacation year and is unable to work during any unused vacation period or take pay in lieu of vacation within the parameters specified within this article, will not receive pay for the vacation not taken, except as provided in Paragraph C below.

C. In the year in which an employee incurs an occupational injury or illness, after the application of

# Attachment 4 to Response to PSC-1 Question No. 37

up to one week vacation carry-over as specified **Paget34 of 60** this article, the employee shall receive payment for **Adjuman** remaining unused vacation in an amount sufficient to make up the difference between what the employee received from workers' compensation insurance or Short Term Disability pay and the employee's regular straight time wages assuming a 40-hour work week.

D. An employee will earn vacation during approved personal leaves of absence on a prorated basis as follows:

• an employee on a PLOA of one full month to three full months will earn 75 percent vacation benefit for the following year, based upon the above schedule; and

• an employee on a PLOA of four to six months will earn 50 percent vacation benefit for the following year, based upon the above schedule.

## Vacation at Retirement

Any employee who retires may elect to work during all weeks of any vacation to which he may be entitled in the year of retirement, and for each such week of vacation worked, shall receive with his final payroll check additional compensation in an amount computed on the same basis as is then employed in computing the compensation paid to other employees who work during one week of their vacation and take pay in lieu as specified within this article.

# ARTICLE XII

# Section 1 Work Away from Headquarters, Travel on Company Time, Meals

(a) Whenever an employee is assigned duties distant from his regular place of employment, he will be provided transportation or transportation expense between the assigned job and his regular place of employment or

Attachment 4 to Response to PSC-1 Question No. 37 headquarters. If, in the opinion of his supervisBaget 35 of 60 impractical for the employee to return daily to his reguMeiman place of employment, the Company will provide suitable lodging and board near the place of such temporary employment. Except in cases of emergencies, employees required to stay away from home overnight will be given notice as soon as possible but not later than the day before. Under normal circumstances where employees are performing work which is not of an emergency nature, a light-duty Company vehicle, which is adequate to provide transportation, is assigned to the job and available, and the location of the work is within 50 road miles distance from the place at which the employees regularly report to work. the employees will not be required to stay out of town overnight, such travel to be on Company time. Customer Order Technicians will be provided by the Company \$7.00 for the purchase of the noon meal which will be added to the employee's payroll check for performing work that is outside of the employee's assigned service territory. Employees who are scheduled for a lunch period of no more than 30 minutes are not eligible to receive a noon meal allowance. Line Technicians and Service Technicians who are required to work through their established lunch period will be provided by the Company a \$7.00 meal ticket to be added to the employee's payroll check. Employees will be provided by the Company a \$7.00 meal ticket to be added to the employee's payroll check for meals outside normal working hours as provided under sections 1(b), 1(c) and 1(d) of this Article XII.

(b) Whenever planned work or emergency work begins more than two (2) hours prior to the employee's normal start time and continues into the employee's normal shift, or planned work or emergency work continues beyond the employee's normal shift end time more than two (2) hours.

# Attachment 4 to Response to PSC-1 Question No. 37

Whenever any employee or employee **Spaget36** of 60 completing their normal working hours, are called out **Meiman** extra work because of emergency or service interruption and required to work three (3) hours.

For every five (5) hours of continuous work after the first meal ticket is provided until the employee is released from work.

# Section 2 Work Away from Regular Place of Employment

No employee shall be required, except during emergencies, to stay away from his regular place of employment or headquarters for a continuous period of more than two weeks.

## Section 3 Travel Time

For each trip authorized by the Company, between the places of work assigned and the regular place of work or headquarters, time required for travel shall be considered as time worked.

# Section 4 Double Shift or Part Shift

Any employee who, after the completion of a regular shift of duty, is ordered to double shift, or part shift, shall not be denied the privilege of continuing his regular shift during any work week.

# Section 5 Temporary Transfer

No employee who is performing a regular job attained by virtue of seniority shall be transferred by the Company to another location without the consent of the employee, except in case of temporary transfers not exceeding three months in duration or in case of emergency.

#### Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 Section 6 Acting Supervisor Page 37 of 60

On a crew with three or more persons, wheneve**Meiman** regular supervisor in the classification of Line Supervisor, Service Supervisor, Substation Supervisor, Shift Engineer, Chief Electrician or Chief Meter Technician is on vacation or off the job for any cause, and another employee is ordered by the person to whom such supervisor reports (or, in his absence, such person's supervisor) to perform the work of a supervisor, the employee shall receive his regular rate of pay or the rate of pay of the supervisor, whichever is higher, during the period that the employee performs said work.

## Section 7 Temporary Supervisor

When the Company combines two or more crews (to form a combined crew of four or more) for a project, unless a Supervisor A is assigned to the resulting work group, a Supervisor B will be temporarily promoted to Supervisor A for the period during which the crews are combined. If a crew normally consisting of four or more men, including the Supervisor, is reduced to a crew consisting of three men, including the Supervisor, the Supervisor A of that crew shall continue to receive the wage of a Supervisor A as long as he continues in the position of Supervisor of that crew.

# Section 8 Two-Person Crew Premium

When two non-supervisory employees are assigned work to be performed without the direction of a supervisor and the work involves the installation, maintenance or operation of electric lines or equipment, the company may designate one of the employees to be in charge of the work to be performed. The employee designated to be in charge shall be paid a \$1.00 per hour premium over their regular rate of pay.

## Attachment 4 to Response to PSC-1 Question No. 37 Section 9 Temporary or Emergency Work in Hagw 29 of 60 Classification Meiman

An employee ordered to perform work for the convenience of the Company, temporarily or in an emergency, in a lower classification, shall receive the rate of pay for the classification in which he is regularly employed.

#### Section 10 Furnishing of Tools

The Company will furnish all tools required by the employee for use in the performance of his normal work.

#### Section 11 Uniform Laundering

The Company will arrange uniform laundering for employees working out of their service territory for extended periods.

## ARTICLE XIII

#### Section 1 Normal Work Week

The normal work week of employees covered by this Agreement shall consist of five days of eight hours each, Monday through Friday. Except during emergencies or during extraordinary circumstances, lunch hour shall not begin earlier than eleven (11:00) A.M. nor later than one (1:00) P.M., local standard time.

The Substation Department crews, Meter Department personnel, and Meter Reading personnel shall begin their workday at 7:30 a.m. and end at 3:30 p.m. These employees will be permitted to take a short break not to exceed 20 minutes to eat and not to begin earlier than ten (10:00) a.m. nor later than twelve (12:00) noon, local standard time.

# Attachment 4 to Response to PSC-1 Question No. 37

The Line crews and Service TechnicianRagh 31 of 60 begin their workday at 7:30 a.m. and end at 4:00 p.Meiman with a thirty (30) minute lunch period. Customer Order Technicians will continue to work the schedule of 8:00 a.m. to 5:00 p.m. with a one (1) hour lunch period. The lunch period shall not begin earlier than (11:00) a.m. nor later than one (1:00) p.m., local standard time,

The Company may consider reasonable requests received from a majority of the members of a service crew to change the normal starting and quitting times, such decision to remain solely within the Company's discretion to exercise.

#### Section 2 Overtime, Rates of Pay

The wages of the aforesaid employees shall be computed on an hourly basis, equal to the employees' hourly rate as provided in Article XIV hereof. The basic wage shall consist of forty hours worked each week at the employee's hourly rate, and in addition to such basic wage, time and one-half shall be paid for all hours worked in excess of eight hours within any twenty-four hour period, or forty hours within a work week, whichever is greater, but in no case both; provided, however, said additional payment for work in excess of eight hours in any twentyfour hour period shall not be paid to any employee in a relief classification for work he performs while working his regular relief schedule.

# Section 3 Division of Overtime

The Company will endeavor to divide overtime work, other than in an emergency, equally among the employees regularly assigned to that kind of work. An employee who cannot be contacted will not be charged with overtime which he would otherwise have worked. For overtime groups at various locations who so desire, an overtime record will be posted on the appropriate bulletin board.

## Attachment 4 to Response to PSC-1 Question No. 37 Section 4 Overtime – Idle Holiday Counted **& Agen40** of 60 Worked Meiman

An idle holiday shall be counted as a day worked for determining weekly overtime.

# Section 5 Pay Provisions for Change in Schedule and Partially Used Time

An employee who is scheduled or notified to report for work on a regular shift and does report for work at the time specified without having been given actual notice of change of schedule, shall receive full pay at his regular rate for his scheduled (non-overtime) hours on that day, even though idle or sent home early because of delay or shortage of materials or for other reasons beyond his control. This provision shall not apply in the event that:

(a) Strikes or work stoppages by employees in the bargaining unit covered by this Agreement in connection with labor disputes interfere with the conduct of normal operations; or

An employee is not put to work or is released from work after having been put to work either at his own request or due to his own fault.

# Section 6 Call Out Time

Employees called out for emergency work shall receive a minimum of three (3) hours' pay at one and one-half times their regular rate of pay for such work.

Employees called back within four(4) hours of being released from their regular shift, shall have their additional hours actually worked added to the hours worked before being released for the purposes of calculating overtime pay and total hours worked.

Employees called out for emergency work on a normal day off or on an observed Company holiday will receive a minimum of three (3) hours' pay at one and onehalf times his regular rate of pay for such work.

# Attachment 4 to Response to PSC-1 Question No. 37 Section 7 Planned Overtime on Off Day Page 41 of 60

An employee scheduled for planned overtime w**Meiman** on a day which would be a scheduled off day on his normal work schedule will receive a minimum of four (4) hours' pay at one and one-half times his regular rate of pay. Employees shall not, in order to be entitled to the four hours' minimum, be required to remain on the job for any longer than it takes to complete the planned work, including any work related to or arising from the planned work. On three-day weekends, the Company will not schedule planned overtime work on customer-owned facilities, except in the case of hospitals.

An employee making timely request may decline planned overtime; provided sufficient employees regularly assigned to and qualified to perform the work are available and willing to work.

## Section 8 Minimum Rest Period

When in the opinion of the Company, an employee has worked such any extended period of time as to impair his effectiveness or present a hazard to his health or safety, or to the health and safety of fellow employees, he may be required by the Company to leave work for a rest period of up to eight (8) hours. After sixteen (16) continuous hours worked an employee may request and will be granted a minimum rest period of eight (8) hours.

Such rest period shall be taken in its entirety unless the employee is requested and agrees to return to work before the expiration of such eight (8) hour rest period. If such rest period overlaps the employee's regular hours on a regularly scheduled work day, the employee shall be paid at his regular hourly rate of pay for the hours which overlap unless the rest period was initiated by the employee in accordance with this policy. If the rest period ends within two (2) hours or less of the end of the employee's regularly

Attachment 4 to Response to PSC-1 Question No. 37 scheduled shift, the employee may either return Regord of 60 at his regular hourly rate of pay or not return to work addeiman forfeit the remaining hours in his shift.

An employee who is called out for emergency work and works at least sixteen (16) hours, and continues into the employee's regular shift, that employee may request an eight (8) hour rest period after one half of the employee's regular shift is completed and be paid at his regular hourly rate of pay for the hours remaining in his shift up to four (4) hours. If in this situation the employee chooses to continue to work the remainder of his shift and the Company agrees for him to work, he will continue to be paid double-time for the rest of his shift.

# Section 9 Continuous Hours Worked (Time and one-half)

All continuous hours worked after the end of the employee's last previous regular shift by an employee during periods which commence more than eight (8) hours prior to the employee's next regularly scheduled starting time and continue into his regular hours on a regularly scheduled work day shall be paid at one and one-half (1-1/2) times the employee's regular hourly rate of pay if the employee completes his regular shift on such work day; provided, however, if the emergency situation (or other cause for his presence outside his normal working hours) should end during the employee's regularly scheduled shift of duty he may either leave work at that time (without loss of the time and one-half treatment for such continuous hours worked) or complete the remainder of his regular shift at his regular hourly rate of pay. During the continuation of an emergency situation as determined by the Company, for pay purposes, the continuity of the employee's work shall not be considered to be broken by short breaks for meals,

Attachment 4 to Response to PSC-1 Question No. 37

refreshments, or rest periods authorized by his supPagis43 of 60

An employee who is called out for emergency w**Meiman** more than four (4) hours before his regular starting time and who completes such work within two (2) hours of his regular starting time and is thereafter released from duty, shall continue to be paid at the appropriate overtime rate until his normal starting time. He will be paid his normal straight-time rate of pay for working his normal shift.

#### Section 10 Daylight Savings Time

An employee working a regularly stated schedule at the time the change is made to Daylight Saving Time (normally in the spring) and who only actually works seven (7) hours instead of his normal eight (8) because of the change shall receive pay for his normal eight (8) hours. An employee working a regularly stated schedule at the time the change is made from Daylight Saving Time (normally in the fall) and who actually works nine (9) hours because of the change, shall receive pay at the established premium rate for the ninth (9th) hour.

## Section 11 Continuous Hours Worked – (Double-time)

An employee who works more than sixteen (16) continuous hours shall be paid two (2) times his hourly wage rate for all such hours worked.

# Section 12 On-Call

Each employee who serves in a weekly On–Call status will be paid eighty-five dollars (\$85.00) per week. If an employee works on service calls outside his normal scheduled workday during his On-Call week, he will be paid for such time worked in accordance with Article XIII-Overtime. The eighty-five dollars (\$85.00) weekly On-Call pay is provided to compensate the employee for the interruption of lifestyle being on-call contains. The

#### Attachment 4 to Response to PSC-1 Question No. 37

on-call employee, in exchange for the eighty-five**Rhyeat4** of 60 (\$85.00), agrees to remain available and fit to respond**Meiman** call outs during the week they serve as the On-Call person. If an employee serves in an On-Call status for service calls for less than one (1) week, he will be paid one (1) hour's pay at his appropriate overtime rate in addition to time spent on any service calls for each day he serves in an On-Call status for service in an On-Call status for serves in an On-Call status for service calls.

A total of three employees for each of the following three areas Harlan/Pineville, London/Somerset and Norton/Pennington Gap will be on-call from any of the classifications listed in the Eligibility section below for the following holidays including any adjacent weekends, Good Friday, Memorial Day weekend, Independence Day (weekend if Independence Day is adjacent to the weekend) and Labor Day weekend. The third employee who serves in any of these designated holidays On-Call status will be paid one hour's pay at his appropriate overtime rate in addition to time spent on any service calls for each day he serves On-Call status for service calls. This third employee may include any classification from those listed in the Eligibility list below and may also include Line Technician B or C

## **Eligibility:**

All employees in the area who are classified as:

- Service Technician A
- Line Technician A
- Line Supervisor B
- Service Technician B with at least two years in classification as a Technician B
- Line Technician B with at least two years in classification as a Technician B

Attachment 4 to Response to PSC-1 Question No. 37

Areas to be staffed with an On-Call person: Page 45 of 60 Meiman

- Harlan
- Pineville •
- London •
- Somerset
- Norton
- Pennington Gap

# **On-Call Staffing:**

Each area will implement their own system of determining their On-Call person, with emphasis on volunteerism but with an objective of sharing the workload. At least on a weekly basis, the Union will provide to management the name of the employee designated to be on-call for each area.

# **Dispatcher's Priority**

Dispatcher's will make the first call to the "On-Call" person for that area.

# Customer Order Technicians

The Company reserves the right to determine if and when Customer Order Technicians will be assigned to on-call

# Section 13 Emergency Electric Restoration for Another Utility

An employee who performs emergency electric restoration work for another utility will be paid one and one half (1-1/2) times his hourly rate for the first eight (8) hours worked in any one day.

An employee who performs emergency electric restoration work for another utility will be paid two (2) times his hourly wage rate for all hours worked over eight (8) in any one day. This two (2) times his hourly wage rate Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 provision does not apply when such work is perPager4d of 60 for Kentucky Utilities or Old Dominion Power, howev4feiman if that company's overtime pay practice would provide more wages, then the employee will receive the greater of the two.

# ARTICLE XIV

# **Classification of Schedule "A"**

It is agreed that wage rates for the several classifications of work shall be established in accordance with the work classifications and progression schedule attached hereto and made a part hereof, marked Schedule "A" for identification, and that the application thereof shall be in the following manner: Whenever an employee is promoted to a classification having a higher starting rate, he shall receive the starting rate of the new classification, or if such starting rate represents an increase in pay of less than five cents  $(5\phi)$  per hour, he shall receive the rate of the new classification applicable (After One Year). In the event such employee is promoted to a new classification at a higher rate than the starting rate, he shall progress as though he had already worked the period required by the preceding steps of the classification.

An employee who successfully bids between the Line Technician C, Service Technician C, or Meter Technician C classifications will retain the employee's rate and time in progression steps.

Payroll periods will be on a bi-weekly basis with employees being paid every other Friday.

# Section 1 Sick Leave, Group Insurance, Survivors Insurance, Service Annuity, Medical Care Plan, Employee Savings Plan, Employee Assistance Program, Dependent Care Assistance Plan, Dependent Life Insurance Plan

During the term of this Agreement the Company will provide the existing or no less favorable sick leave, group life insurance, long-term disability insurance, retirement annuity and medical, including post-retirement medical insurance benefits, dental assistance program, employee savings plan, employee assistance program, dependent care assistance plan, and dependent life insurance plan for members of the bargaining unit as are provided for other full time employees of the Company. The details of such benefits shall be as specifically provided in master plan documents or insurance contracts covering the terms of such plans. The Company will furnish identification cards for medical purposes. The Company will furnish each employee annually the amount of accumulated sick leave.

The Company will assume an increase of 4% in each year of the Contract in medical and hospitalization expense per employee. To the extent this expense increases over 4% the employees will absorb increases up to the next 4%. Should the total increase exceed 8%, the Company and the employees will equally share in the balance of that expense.

# Section 2 Funeral Leave

Funeral leave is paid for a maximum of five days for Immediate Family Members who include: spouse, child, step-child, or parent or step-parent.

Funeral leave is paid for a maximum of three days for Other Family Members who include: brother, sister,

Attachment 4 to Response to PSC-1 Question No. 37

grandparents, grandchildren, parents-in-law, sons **Hage 48**, of 60 daughters-in-law, spouses of the employee's brothers **Meiman** sisters, employee's spouse's brothers, sisters, parents and grandparents, step relations of the preceding, or any relative living with the employee.

Such days shall be consecutive work days and shall not extend beyond the day following the funeral, except in the case of the death of an Immediate Family Member in which case such days may extend to the second day following the funeral, and shall be conditioned on the employee's attendance at the funeral. Payment will not be made for any day during such three-day period on which the employee would not otherwise work.

Employees will not be paid for unused funeral leave.

Should the employee need to be absent on a normal scheduled day or days, other than those for which payment is provided above, the employee may elect to take such day or days as vacation time, provided he is then entitled to sufficient vacation time which he has not utilized by time off or for which he has not been paid.

Payment shall be made on the next pay day after receiving notice in writing from the employee and (a) the name of the deceased person and relationship to the employee, and (b) the date and location of the funeral.

#### ARTICLE XVI

## **Bulletin Boards for Union Use**

At all places where the Company now has bulletin boards, the Company will in the exercise of its discretion either furnish space on said bulletin boards or furnish nearby space upon which the Union may erect its own bulletin boards, of a size not larger than the Company's bulletin boards. Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 The Union agrees that it shall confine such**Paget49 of 60** notices to information concerning Company-Uni**Meiman** relations and matters of concern to Union members. The Union further agrees it shall not post any notices that are derogatory or inflammatory in nature. All such notices shall be submitted to the Manager Human Resources for review prior to posting.

# ARTICLE XVII

## No Discrimination

There shall be no discrimination in the administration of this Agreement with regard to race, color, religion, national origin, age, sex, disability or veteran status.

# ARTICLE XVIII

# Notice of: Changes, Modifications, or Terminations Effective Date, Termination Date

Within the period of one hundred twenty (120) days prior to expiration date of Agreement; either party hereto may request the other to meet for the purpose of negotiating modifications to this Agreement or negotiating a new agreement, to become effective on the expiration of this Agreement. The parties agree to meet within twenty (20) days of such request and to bargain in good faith thereafter, as required by Section 8(a)(5), (b)(3) and (d), of the Labor Management Relations Act of 1947, as Amended.

This Agreement shall become effective as of the date set forth at the commencement hereof and shall continue in full force and effect from that date until August 1, 2018, unless changed or modified by mutual consent, and shall automatically be extended from year to year thereafter

Attachment 4 to Response to PSC-1 Question No. 37 unless either party at least sixty (60) days prioPaget50 of 60 expiration of this Agreement or any extension thereof shafeiman serve upon the other party written notice that the same shall not be renewed at the applicable expiration date.

Notwithstanding the other provisions of this Article, the Company and the Union may reopen the Wage Scale, of this agreement for the purpose of negotiating wage rates to become effective August 1, 2017 provided that neither the Company nor the Union may require the other to negotiate concerning any term other than the wage rates to be effective August 1, 2017. This Agreement will be reopened for such purposes only if the Company or the Union actually delivers to the other, not later than July 1, 2017, written notice of intent to reopen. Failing receipt by the Company or the Union, on the date specified, of such written notice to reopen, this Agreement shall continue in full force and effect through August 1, 2018, and the wage rates in effect as of midnight July 31, 2016, shall continue in full force and effect for the duration of the Agreement. If this Agreement is reopened in accordance with the provisions of this paragraph, and the parties have not reached an agreement by midnight July 31, 2017 as appropriate, this Agreement shall be suspended and the Company and the Union shall have the same rights and obligations as they would have possessed had the Agreement expired, provided that neither the Company nor the Union may require the other to negotiate concerning any term other than the wage rates to be effective August 1, 2017.

Service of the above notices on the Union shall be deemed sufficient by depositing the notice, signed by the Corporate Manager Labor Relations of the Company, in the United States Mail, registered or certified, and addressed to Local No. 2100, International Brotherhood

# Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 SCHEDULE "A" Page 53 of 60 Meiman WAGE RATES, HOURLY RATED CLASSIFICATIONS

#### WAGE RATES, HOURLY RATED CLASSIFICATIONS EFFECTIVE JULY 26, 2015 APPLICABLE TO LOCAL UNION 2100, INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, AFL-CIO, OF KENTUCKY UTILITIES COMPANY AND OLD DOMINION POWER COMPANY.

It is agreed that wage rates and applications thereof for the several classifications of work shall be established in accordance with the following schedule.

Any new employee, upon producing evidence satisfactory to the Company of previous experience in the classification in which he is being employed shall be given credit for such experience, except that he shall not start higher than the "After One Year" step, and in such event shall receive the "After Two Years" step after one year's continuous employment. However, if after employment, he demonstrates that he has the knowledge, skill and ability equivalent to that of an employee who has had two (2) years' experience in the classification, he shall receive the "After Two Years" step beginning with the first payroll period commencing after sixty (60) days of employment.

Any employee, other than a supervisor, who is designated by the Company to keep time of crews and/ or record of material used by the crews, shall, in addition to his regular wage, receive \$15.00 per month during the first year he is so designated, \$20.00 per month during the second year, and \$30.00 per month thereafter as compensation for the satisfactory performance of these duties.

The following rates are applicable to all employees working normally on the day shift from 8:00 a.m. to 4:00 p.m.

#### Attachment 4 to Response to PSC-1 Question No. 37

To employees normally working on the seco**Rdgdi5ft of 60** (generally 4:00 p.m. to 12:00 midnight), add fifty ce**Msiman** (50) per hour to the following rates.

To employees normally working on the third shift (generally 12:00 midnight to 8:00 a.m.), and to swing and relief shift employees, add sixty-seven cents (67) per hour to the following rates.

Employees who have been assigned a regular schedule of work which includes work on Sunday pursuant to an approved payroll authorization specifying such schedule shall receive a Sunday work premium of ninetyfive cents (95) per hour in addition to their straight time and shift premium rates.

Attachment 4 to Response to PSC-1 Question No. 37

Skilled Technician, Substation Technician B, or arRaget T of 60 classification having a first year hourly rate in excess Meiman the Trainee A hourly rate. A trainee in this category will be assigned to the classification for which he is training at the end of six (6) months, if he is then qualified, or, if not, as soon thereafter as he becomes qualified.

Note 3 - Applicable to employees who have been selected for and are in training for Line or Service Technician C, only. A trainee in this category will be assigned to the classification for which he is in training at the end of six (6) months, if he is then qualified, or, if not, as he becomes qualified.

Note 4 - New hires entering the Meter Reader classification on or after August 1, 2003 will be paid the Customer Order Technician wage scale.

#### Case No. 2020-00349 Attachment 4 to Response to PSC-1 Question No. 37 AGREEMENT Page 58 of 60 Meiman

The Kentucky Utilities/Old Dominion Power Company and the International Brotherhood of Electrical Workers, Local 2100, agree as follows:

In the event a vacancy occurs which, in the opinion of the Company, must be filled or a new job created within the Pineville, London and Norton Operations Areas, the employees within the classification who meet the requirements shall be given first opportunity to fill the opening in accordance with procedures agreed to by the parties. In the event the vacancy is not filled by the foregoing procedures, the vacancy shall be posted in accordance with Article VIII, Section 5 of the Agreement.

This agreement shall remain in effect for one year from the date of the agreement, at which time the Company and Union will meet and discuss the continuation of this practice.

This agreement is strictly non-precedential. It shall not be used in any arbitrations case unless such case involves the enforcement of the terms set forth herein. #### **KENTUCKY UTILITIES COMPANY**

## Response to Commission Staff's First Request for Information Dated November 24, 2020

#### Case No. 2020-00349

#### **Question No. 38**

#### **Responding Witness: Gregory J. Meiman**

- Q-38. Provide the information requested in Schedule J for budgeted and actual numbers of full- and part-time employees, regular wages, overtime wages, and total wages by employee group, by month, for the three most recent calendar years, the base period, and the forecasted test period. Explain any variance exceeding 5 percent.
- A-38. See attached. In addition, the Company currently does not capture wage information by employee group for the budget in the calendar years provided. Monthly variances in total that exceed 5% during the periods provided are attributed to open positions, storm outage work, unplanned outages, and timing differences of planned outage work and off-duty compared to budget.

Case No. 2020-00349 Attachment to Response to PSC-1 Question No. 38 Page 9 of 9 Meiman

#### Schedule J

## **KENTUCKY UTILITIES COMPANY**

## Response to Commission Staff's First Request for Information Dated November 24, 2020

## Case No. 2020-00349

#### **Question No. 39**

#### **Responding Witness: Gregory J. Meiman**

- Q-39. For each employee group, state the amount, percentage increase, and effective dates for general wage increases and, separately, for merit increases granted or to be granted in the past two calendar years, the base period, and the forecasted test period.
- A-39. See attached. The attached shows for each employee group, the annual increase amount, percentage increase and effective dates for 2018, 2019, base period (2020 Union and Hourly) and budgeted increases for the base period (Non-Union) and forecasted test periods. The response reflects LG&E and LKS employees that charged labor to KU. Merit is not applicable since individual performance is recognized through the team incentive award.

## Response to Commission Staff's First Request for Information Dated November 24, 2020

#### Case No. 2020-00349

#### **Question No. 40**

#### **Responding Witness: Gregory J. Meiman**

- Q-40. For the base period and three most recent calendar years, provide a schedule reflecting the job title, duties and responsibilities of each executive officer, the number of employees who report to each officer, and to whom each officer reports, and the percentage annual increase and the effective date of each increase. For employees elected to executive officer status since the test year in the utility's most recent rate case, provide the salaries for the persons they replaced.
- A-40 Attachment 1 provides the percentage annual increase, effective date of the increase, job title, duties and responsibility, number of employees who report to each officer and to whom each officer reports. For officers elected since the test year in the 2018 rate case, the salary is provided for the person they replaced.

Certain information is considered confidential and is being filed under seal pursuant to a Petition for Confidential Protection.

al Effective Date of Annual Increase	Job Title	Duty and Responsibility	Number of Direct Reports	Reports To	Salary for Whom Office Replaced
% na	Chairman and CEO	Lead the Company to establish business objectives, policies, and strategic plans to implement world- class energy practices and provide reliable, low-cost energy services and superior customer satisfaction. ## **KENTUCKY UTILITIES COMPANY**

# Response to Commission Staff's First Request for Information Dated November 24, 2020

## Case No. 2020-00349

## **Question No. 41**

#### **Responding Witness: Gregory J. Meiman**

- Q-41. Provide, in the format provided in Schedule K, the following information for the utility's compensation and benefits, for the three most recent calendar years and the base period. Provide the information individually for each corporate officer and by category for Directors, Managers, Supervisors, Exempt, Non-Exempt, Union, and Non-Union Hourly. Provide the amounts, in gross dollars, separately for total company operations and jurisdictional operations.
  - a. Regular salary or wages.
  - b. Overtime pay.
  - c. Excess vacation payout.
  - d. Standby/Dispatch pay.
  - e. Bonus and incentive pay.
  - f. Any other forms of incentives, including stock options or forms of defened compensation (specify).
  - g. Other amounts paid and reported on the employees' W-2 (specify).
  - h. Healthcare benefit cost.
    - (1) Amount paid by the utility.
    - (2) Amount paid by the employee.
  - i. Dental benefits cost.
    - (1) Amount paid by the utility.
    - (2) Amount paid by the employee.

- j. Vision benefits cost.
  - (1) Amount paid by the utility.
  - (2) Amount paid by the employee.
- k. Life insurance cost.
  - (1) Amount paid by the utility.
  - (2) Amount paid by the employee.
- 1. Accidental death and disability benefits.
  - (1) Amount paid by the utility.
  - (2) Amount paid by the employee.
- m. Defined Benefit Retirement cost.
  - (1) Amount paid by the utility.
  - (2) Amount paid by the employee.
- n. Defined Contribution -401(k) or similar plan cost. Provide the amount paid by the utility.
- o. Cost of any other benefit available to an employee, including fringe benefits (specify).
- A-41. (a-o). On an annual basis, LG&E and KU Energy relies on benchmark information in calibrating the level of its primary components of compensation and benefits arrangements. See Mr. Meiman's direct testimony.

With regard to compensation, various third-party benchmarking and salary planning surveys from the energy services and general industries are utilized. The 50th percentile is used to establish the market midpoint of the annual salary ranges. Compensation is then managed within the low (70% of midpoint) and high (130% of midpoint) based on various factors including education, experience, performance, time in job and tenure. Compensation is considered competitive or "at market" if it is within +/- 10% of the market midpoint. A separate compensation study from Willis Towers Watson was filed as part of Filing Requirement 807 KAR 5:001 Sec. 16(8)(g) with the Company's Application at Tab 60.

#### Response to Question No. 41 Page 3 of 10 Meiman

See Attachment 1 for a detail of costs for the requested periods of 2017-2019 and base period broken down in the lowest level possible consistent with budgeting practices. This data was prepared using the same methodology as provided in Filing Requirement 807 KAR 5:001 Sec. 16(8)(g). The KU budgeting process does not allow KU to provide the data requested in the exact employment types (Officers, Directors, etc.) requested in the question; however, all labor dollars requested in this case are reflected in Attachment 1. An explanation of how compensation is budgeted and determined is necessary to fully understand the information being provided. The Company uses PowerPlan to calculate the labor base for the financial plan. First, a query is executed in the HR Peoplesoft system to obtain data on the current employees. The query includes the number of employees and average wage rates by department and employee type. It also includes hire dates. This data is exported to an Excel file. The file is prepared by the corporate budget department. The approved wage increase (obtained from compensation) is entered in the spreadsheet and the wage rate is adjusted in the appropriate month based on the company and employee type. The hire date is used to calculate vacation. Average sick hours based on historical trends are also added to the Excel file. This data is then imported into the labor forecast table in PowerPlan. Also, uploaded into the PowerPlan labor forecast system is working hours per employee by month and the Company holiday schedule and other offduty pay. Next, the budget coordinators for each Line of Business work with HR to include any headcount changes. The budget coordinators add overtime hours and premium dollars. They can also update the off-duty hours to be more specific to their department. The PowerPlan labor forecast process uses the data in the table and performs calculation for each employee type (i.e. exempt, non-exempt, bargaining, etc.) and in total for each department. It calculates straight time, overtime and off-duty dollars. After total labor has been calculated, the budget coordinators enter labor budgets in the project management module of PowerPlan for each capital project in the plan. The labor forecast process summarizes these dollars by straight time and overtime for each department. These amounts are deducted from total available labor to get net available labor. For the final step in the process, the budget coordinators, with input from the department managers, allocate the net available labor to the appropriate operating and other balance sheet accounts based on the work to be performed. This information is then used to calculate related benefit costs. For periods starting January 1, 2021 see changes to the process methodology, as a result of the recent PowerPlan upgrade, described in Filing Requirement 807 KAR 5:001 Sec. 16 (7)(C) - Item A Financial Planning Modeling Process.

In an attempt to be fully responsive to the question and provide the information by the employment types requested (Officers, Directors, etc.), KU has also provided the wage and salary information as reported on W-2's for each group requested for 2017-2019 and the base period through August, 2020 by those employment types as reflected in Attachment 2. (These will not tie to Attachment 1 due to accrual based accounting versus the cash basis reported on the W-2). See Attachment 2 for salary (a-g) information as a group in total by category. Attachments 1 and 2 do not include a separate grouping for supervisors as the database field that is used to categorize employees does not include a unique identifier for supervisors. Therefore, KU is unable to identify the supervisor only compensation within the data set. For each corporate officer, see Attachment 3 for salary (a-g). Certain officer information is confidential and is being filed under seal pursuant to a Petition for Confidential Protection.

As for benefits, LG&E and KU Energy provides an array of benefits designed to attract, retain and develop a diverse and high-caliber workforce. Since 2001, we have participated in healthcare benchmarking surveys to ensure our medical benefits are in alignment. The survey comparisons include national and local employers as well as utilities. Adjustments are made in premiums and plan structure in order to keep benefits in-line with benchmarks. Benchmark data, medical claim information and medical trend data is utilized in structuring plan offerings and medical premiums. A separate study from Mercer reflecting relevant national, local, general industry and utility benchmark data was filed in support of the competitive level of benefit offerings. See Attachment 5 to Filing Requirement 807 KAR 5:001 Sec. 16(8)(g) at Tab 60.

The benefit plans described below are offered to all employees of the Company regardless of salary plan. The employee's salary plan type does not dictate the employee contribution amount. It should be noted that certain supplemental retirement plans are exclusively offered to officers and directors, but are not recovered in rates.

Attachment 4 is the 2021 New Hire Enrollment Guide which explains each benefit including the employee cost as well as plan design (deductibles, maximum out of pocket cost, co-pays, etc.)

- Healthcare (pages 4-11)
- Dental (page 12)
- Vision (page 13)
- Life and Accidental Death and Disability (pages 16-17)
- Dependent Care Reimbursement Account (page 18)
- Health Care Reimbursement Account (page 19)
- Health Savings Account if enrolled in the High Deductible Health Plan option (pages 20-21)
- Group Legal (page 22)
- Defined Contribution 401(k), RIA (pages 23-24)

# Healthcare Benefits

Employees are eligible for health coverage upon date of hire which includes both medical and prescription drug coverage. Anthem is the claims administrator for

the medical options and Express Scripts is the claims administrator for our prescriptions drug coverage. The medical coverage – medical and RX claims experience - is self-insured. The company is billed for all claims and administrative fees.

There are three medical options:

- EPO
- PPO Standard
- High Deductible Health Plan with Health Savings Account (HSA)

The PPO Low Deductible medical option was eliminated effective 1/1/2021. The medical options are described on pages 4 - 11 of the New Hire Enrollment Guide.

## 2021 Healthcare Rates

Several steps are undertaken in determining future premiums of the self-insured plan – medical and Rx coverage. The benefits department works with our medical consultants to estimate an inflation factor to estimate future medical claims. This amount is adjusted for any change in employee count in the plan. It is also adjusted for any changes to the benefit plan structure or cost sharing mechanisms with employees, which are implemented as a result of the above noted benchmarking.

An Employee's monthly premium is based on whether wellness requirements are met, if an employed spouse is covered, what medical option selected, and the employees' level of coverage.

There are two types of rates based on wellness requirements – the Base Rate and the Healthy for Life ("HFL") Rate. Employees have a choice to complete the HFL requirements to qualify for the HFL Rate which is \$125 a month lower than the Base Rate (See page 6 in the New Hire Enrollment Guide). See Attachment 5 for Employee and Company Base Rates and HFL Rates.

There is a \$200 per month employed spouse premium (ESP) surcharge if the employee has a spouse on the medical plan and the spouse does not enroll in their employer's medical coverage, as explained on page 7 of the New Hire Enrollment Guide. See Attachment 5 for the premiums indicated with the surcharge tag.

The medical plan rates are further defined based on the medical option selected and the employee's level of coverage. An employee can select employee only, employee plus spouse, employee and child(ren) or employee and family. The rates for these selections as well as for the Base rate, the HFL rate and ESP surcharge are outlined on page 6 of the New Hire Enrollment Guide. Attachment 6 provides a breakdown of the monthly full-time employee premium rate and company rate by salary plan for years 2017, 2018, 2019 and the base period.

#### Dental Benefits

Employees are eligible for dental coverage upon date of hire. There are two dental options administered by Delta Dental.

- High Option
- Basic Option

The dental options are described on pages 12 of the New Hire Enrollment Guide.

The plan is self-insured based on dental claims experience. On a periodic basis the level of employee premium is reviewed against benchmark. The Company is billed for all claims plus administrative fees.

The dental plan rates are defined based on the employee's level of coverage. An employee can select employee only, employee plus spouse, employee and child(ren) or family. The rates for these selections are outlined on page 12 of the New Hire Enrollment Guide. In 2020, rates were adjusted to ensure that employees share a greater portion of the cost of coverage.

Attachment 6 provides a breakdown of monthly full-time employee rate and company rate by salary plan for years 2017, 2018, 2019, and the base period

#### Vision Benefits

Employees are eligible to participate in the vision benefit plan upon date of hire. Vision benefits are offered as a separate, voluntary, employee paid option. The voluntary vision plan is administered by Vision Service Plan (VSP).

The vision option is described on page 13 of the New Hire Enrollment Guide.

The vision plan rates are defined based on the employee's level of coverage. An employee can select employee only, employee plus spouse, employee and child(ren) or family. The rates are outlined on page 13 of the New Hire Enrollment Guide.

Attachment 6 provides a breakdown of monthly full-time employee rate and company rate by salary plan for years 2017, 2018, 2019 and the base period

#### Basic Life and AD&D Insurance

The company provides Basic Life and Accidental Death and Dismemberment ("AD&D") insurance in the amount of two times annual base salary; maximum benefit of \$150,000 for LG&E Bargaining employees and \$300,000 for all other employees. The benefits are described on page 16 of the New Hire Enrollment Guide.

The basis for cost is an insured premium times the amount of the coverage.

For full-time employees, the Company's 2021 monthly cost for the plan is \$0.203 per \$1,000 of life insurance.

## Employee Supplemental Life & Dependent Supplemental Life Insurance

Regular, full-time employees may purchase additional life insurance in the amount of one, two, or three times annual base salary; maximum of \$300,000. Supplemental life insurance is a voluntary benefit and is 100% paid by the employee. The cost of Supplemental Life is based on the employee's age as of January 1 and the amount of insurance elected. The rates and options are described on page 16 of the New Hire Enrollment Guide.

Regular, full-time employees may purchase dependent supplemental life insurance on eligible dependents. There are 4 dependent supplemental coverage options:

- \$5,000 spouse/ \$2,500 child(ren)
- \$10,000 spouse/\$5,000 child(ren)
- \$25,000 spouse/\$10,000 child(ren)
- \$50,000 spouse/\$20,000 child(ren)

Dependent supplemental life insurance is a voluntary benefit and is 100% paid by the employee. The rates and options are described on page 17 of the New Hire Enrollment Guide.

# Business Travel Accidental Plan (included in other benefits)

The Business Travel Accidental Plan provides eligible employees on businessrelated travel (excluding travel to and from work) with accidental death and dismemberment insurance coverage. The cost of the plan for 2021 is \$4,610.

# Long-Term Disability

Employees are eligible for coverage upon date of hire. The long-term disability insurance provides benefits when an employee is disabled for at least six months and the plan has approved the employee's application for Long-Term Disability. Monthly long-term disability benefits are equivalent to 60% of the employees' base monthly rate of pay (up to a maximum benefit), reduced by an amount reflecting certain income from other sources. The basis for cost is an insured premium times base salary and is \$0.525 per \$100 of covered payroll in 2021.

# Short-Term Disability (charged to sick time)

The Short-Term Disability program provides varying levels of wage protection for up to 1,000 hours depending on your service with the company. Coverage begins after 40 consecutive work-hours of medically certified absence or upon
admission to a hospital requiring overnight stay or upon admission to an outpatient care facility for procedures or treatment.

#### Dependent Care Reimbursement Account ("DCRA")

Employees are eligible to participate in the DCRA upon date of hire. The DCRA is a dependent care flexible spending account which gives employees the opportunity to pay for certain child and elder care expenses with pre-tax money.

If an employee is married they can contribute from \$120 to \$5,000 annually of their own money. If the employee is single or files separate tax returns from their spouse, the limit is \$2,500 a year of their own money. The plan is described on page 18 of the New Hire Enrollment Guide.

#### Health Care Reimbursement Account ("HCRA")

Employees are eligible to participate in the HCRA upon date of hire. The HCRA is a health care flexible spending account which allows employees to pay certain health care expenses for themselves and eligible dependents with pretax money.

The employee can contribute from \$120 to \$2,750 annually of their own money to their HCRA. In 2017 – 2020, in addition to the employee's contribution, the company contributed \$200 of coverage to the HCRA for employees actively employed as of December  $31^{st}$ , and who are not enrolled in the company's High Deductible Health Plan. Effective in 2021, the company is no longer contributing this additional coverage. The plan is described on page 19 of the New Hire Enrollment Guide.

#### Health Savings Account ("HSA")

The HSA is available to those employees who are enrolled in the company's High Deductible Health Plan. In 2021, the Company will contribute \$500 for those electing single coverage and \$1,000 for those electing family coverage. The employee also has the option to elect employee contributions. For single coverage, the employee's annual contribution limit is \$3,600 and the family employee annual contribution limit is \$7,200. An employee can also contribute an additional \$1,000 if they are age 55 or older in 2021. The plan is described on pages 20 and 21 of the New Hire Enrollment Guide.

#### Group Legal

Employees are eligible for a voluntary group legal program administered by ARAG insurance company. ARAG contracts with local attorneys from the ARAG network. This is a voluntary group legal program is offered through payroll deduction. The employee cost is \$21.26 per month. The benefit is described on page 22 of the New Hire Enrollment Guide.

#### Savings Plan

See pages 14-15 of Mr. Meiman's direct testimony. Employees are eligible to participate in the savings plan upon date of hire. Employees can contribute between 0% and 75% (in 1% increments) of eligible pay on a traditional pretax or Roth after tax basis subject to the IRS annual contribution limit. The Company will match 0.35 for every 1.00 (for eligible employee hired prior to 1/1/06) and 0.70 for every 1.00 (for eligible employees hired on or after 1/1/06) contributed by the employee to the savings plan, up to the first 6% of pay.

The 2021 Cost rate for the plan:

- \$0.35 company match, up to 6% of the employee's eligible compensation, subject to IRS limits (for eligible employees hired prior to 1/1/06)
- \$0.70 company match, up to 6% of the employee's eligible compensation, subject to IRS limits (for eligible employees hired on or after 1/1/06)

For employees hired on or after January 1, 2006, and who are employed on December 31 of each year, the company will also contribute an annual lump sum to their Retirement Income Account ("RIA"). The company contributes between 3% and 7% of eligible pay to the RIA on annual basis. The RIA annual contribution amount is based upon years of service as of January 1. The benefit is described on page 23 of the New Hire Enrollment Guide.

The 2021 contribution rate for the plan:

- 3% less than 6 years of service
- 4% 6 but less than 11 years of service
- 5% 11 but less than 16 years of service
- 6% 16 but less than 21 years of service
- 7% 21 or more years of service

## Retirement Plan

Employees hired prior to 1/1/06 are eligible for the retirement pension plan. The retirement plan benefit is calculated based on years of service and eligible earnings or pay grade in the case of certain union employees. The benefit is payable upon date of retirement in monthly installments or a one-time lump sum.

The 2021 Cost rate for the plan is based on actuarial calculations.

## Family Assistance Program (included in other)

The Family Assistance Program ("FAP") provides professional help to employees and their immediate family members who have personal problems. The FAP is administered by Wayne Corporation. The current basis for cost is a flat rate of \$4.80 per employee per quarter.

## Tuition Reimbursement

Regular, full-time employees are eligible for tuition reimbursement, which pays 100% of tuition up to an annual calendar year maximum of \$7,000 for undergraduate degrees and \$9,000 for graduate degrees and doctoral programs. Participation is based on individual approval of an employee's request and the relationship of courses to job assignment or career development.

#### Adoption Assistance Program (included in other)

The Company supports employees who adopt children by providing the employees up to \$5,000 of financial assistance. The Federal Adoption Tax Credit must first be used for expenses before being eligible for Company reimbursement.

#### **Overall Considerations**

The benefits data was collected at the overall plan level and not by utility.

See Attachment 6 being provided in PDF format for benefit (h-o) information as a group in total by category. See Attachment 7 being provided in PDF format for benefit (h-o) information for each corporate officer. Certain officer information is considered confidential and is being filed under seal pursuant to a Petition for Confidential Protection. Various other benefits are offered as described above and in the New Hire Enrollment Guide (Attachment 4).

Dear New Employee:

Welcome to LG&E and KU! This New Hire Enrollment Guide provides an overview of your comprehensive benefits package that you will enjoy as a full-time employee.

Your initial enrollment is key to ensuring that you make benefit elections that fit the needs of you and your family. **You have only 30 days from your date of hire to make your elections,** so please review the New Hire Enrollment Guide thoroughly and submit your elections as soon as possible.

During this 30-day period, you have the option to:

- Enroll in medical, dental and vision coverage;
- Enroll in Health Care Reimbursement, or Health Savings Account;
- Enroll in Dependent Care Reimbursement Account;
- Enroll in group legal coverage;

- Enroll in Basic Life and AD&D, and designate your beneficiary; and
- Enroll in Employee Supplemental Life and Dependent Supplemental Life.

You must submit your enrollment elections online through *MyHR*.

#### After you've submitted your elections, it takes up to 10 business days for the enrollment to be finalized with the carriers.

You have a separate enrollment process for the Savings Plan. See page 24.

The company offers employees an excellent benefits program which has been designed to meet individual and family needs. This is a brief summary of those benefits. Additional information and specific provisions of your benefits are further explained in documents obtained from Employee Benefits at 502-627-2121 or toll-free at 877-418-2121, or from the company's intranet, and its internet site at **Ige-ku.com/oe**.

# **Enrollment Highlights**

Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 3 of 38 Meiman

#### You must enroll to be covered

New hires must complete the online benefit enrollment process through *MyHR* within 30 days of your date of hire. If you do not complete your benefit enrollment during this 30-day election period, or if you do not timely submit the required documentation, the company will conclude you have elected to waive enrollment in medical, dental, vision, group legal, Supplemental life, Dependent life, the Health Care Reimbursement Account, the Health Savings Account, and the Dependent Care Reimbursement Account.

# Eligible Dependents for Medical, Vision and Dental

You may elect to enroll any of the following eligible dependents — subject to the required forms and supporting documentation being provided (see page 14).

- Spouse
- Children (up to age 26) natural, step or adopted
- Children (up to age 26) under your legal guardianship (temporary custody is not eligible)

#### Enrolling is easy and paperless

You can enroll from work or at home (**Ige-ku.com/oe**). To enroll, all you need is a computer with access to *MyHR*. Your online enrollment will not be saved until you click the *Submit* button. Once your elections are submitted, you will receive a confirmation to your work email address summarizing your benefit elections. Detailed instructions can be found starting on page 29.

After completing your online elections in *MyHR*, you also will need to submit required documentation based on your enrollment elections within 60 days:

• Documentation needed if you are covering dependents (required for each dependent covered by the medical, dental or vision, plans) — see page 14

 Verification of Spousal Health Care Coverage form (required if you are covering a spouse on your medical plan)
 — see page 7

HMS, a third-party agency, coordinates the documentation collection. Watch for a home mailing from HMS, and emails from **Ige\_ku@auditos.com**, outlining the three steps you must complete within 60 days. See page 14.

#### **Annual Open Enrollment**

Every year, usually in September or October, the company has a two-week open enrollment period. Open Enrollment is "active," which means all employees are required to enroll or re-enroll in benefit options to have coverage for the following year. New hires are required to complete their benefit enrollments within 30 days of their date of hire. See page 29 for online enrollment instructions.

# Anthem's Coverage Advisor Tool

 https://www.webmdhealth. com/ehealth/phdnsconnect. aspx?EXID=EONUS

#### **Free Anthem App**

 Go to iTunes App Store, Android Market or BlackBerry App World, search for "Sydney Health" and download the app. You are eligible for medical coverage on your date of hire. You have three medical options administered by Anthem.

- EPO
- PPO Standard (80/20)
- High Deductible Health Plan (HDHP), with Health Savings Account (HSA)

All three medical options provide highquality health care and cover a wide range of services, including prescription drug benefits. The PPO standard option and the HDHP give you the freedom to choose any provider; however, the benefits are richer if you use in-network doctors or hospitals. **The EPO plan option only provides benefits** *in-network within the tri-state area of Kentucky, Indiana and Ohio. The EPO plan has no benefits outside the tri-state area, except for qualifying emergency visits.* 

You will receive a medical ID card two to three weeks after you submit your enrollment elections. Or, you can download an ID card from Anthem's website.

See "Highlights of Medical Options" on pages 8-11 for details about the options.

#### 'Your Anthem Nurse'

The medical options offer many health care management programs. "Your

Anthem Nurse" is one of those resources.

Your Anthem Nurse will help you navigate the health care system and manage your complex health care needs.

Although members are proactively identified for this program, they also can request an Anthem Nurse by calling 877-750-6062.

#### Anthem's LiveHealth Online

LiveHealth Online is available to employees enrolled in the company's medical plan. It's a convenient way to talk with and get treatment from a doctor via computer or smartphone and tablet (using the free app). It's secure, private, easy to use and affordable. You can choose live, instant or planned visits with doctors seven days a week, 24 hours a day. The site enables two-way videoconferencing, along with instant messaging.

Individuals use LiveHealth Online for a range of medical and behavioral health issues. The most common are cold and flu symptoms, fevers, allergies, infections and other similar illnesses.

You must enroll (for free) at **livehealthonline.com** or on the app and choose a doctor. You can call toll-free at 855-603-7985 if you have questions.

Case No. 2020-00349 and 2020-00350 **Prescription Drug Benefits** Page 5 of 38 Meiman

If you enroll in one of the company's medical options, you are automatically enrolled in prescription drug coverage administered by Express Scripts. The prescription coverage program allows you to purchase prescriptions simply by paying your applicable co-pay or co-insurance. EPO and PPO Standard option members are issued a prescription ID card separate from their medical card. Once issued, the original prescription ID card will continue to work. HDHP with HSA option members are not issued a separate prescription ID card from their medical card.

See "Highlights of the Medical Options" on pages 8–11 for details about the prescription drug co-pays or co-insurance.

#### **Short-Term Prescriptions**

For short-term prescriptions, such as antibiotics, use one of 60,000 Express Scripts participating retail pharmacies.

#### Required Mail Order for Long-Term Prescriptions

The mail-order feature is required if you have a maintenance medication that is prescribed for an ongoing medical condition (e.g., high blood pressure, high cholesterol). You are allowed to fill a new maintenance prescription three times at a retail pharmacy. On the fourth fill, the drug must be filled through mail order in order for the costs to be covered. Mail order prescriptions contain a 90-day supply; however, the mail order co-pay is only 2.5 times the retail co-pay. Mail order prescriptions can be paid via credit/debit card, FSA or HSA card, ACH, autopay, or by mailing a check. See **express-scripts.com** or call **866-677-8928** for more information.

#### Accredo Health Group for Specialty Drugs

Members taking specialty drugs to treat complex medical conditions (e.g., cancer, multiple sclerosis, growth hormone deficiency, hemophilia, rheumatoid arthritis, transplants, etc.) will be required to obtain their prescription through Express Scripts' dedicated specialty pharmacy, Accredo. Members have access to therapy-specific teams that provide an enhanced level of service, counseling, expedited scheduled delivery, and safety checks.

Unlike mail order for maintenance drugs, the applicable co-pay or co-insurance is paid every time a specialty drug is refilled, and specialty drug refills are limited to a 30-day supply at each refill.

#### Prescription Alerts, Reminders and Potential Savings

Express Scripts' secure website and app have many features:

- My RX Choices to look up potential lower-cost prescription options.
- My Medicine Cabinet to view your medications and to set reminders.
- **Prescription ID Card** you can print an ID card from **Express-Scripts.com** or use your telephone to display a virtual card.

## **Express Scripts**

- Contract 33296RX
- BIN # 610014
- 866-677-8928
- Pharmacists and call center available 24/7
- express-scripts.com
- Free Express Scripts app Go to the iTunes App Store or Android Market, search for "Express Scripts" and download the app.

# Two ways to submit a new prescription to Express Scripts for mail order:

- Online Get a new prescription from your doctor and visit http:// express-scripts.com to get set up for mail order.
- 2. By fax Your doctor's office can call Express Scripts to obtain instructions on faxing in your prescription. The number for the doctor to call is 888-EASY-RX1 [888-327-9791].

# **Medical Premiums**

Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 6 of 38 Meiman

New hires will avoid paying the higher Medical Plan Base Rate if they and their spouse complete the requirements for the HFL premium within 30 days after hire.

#### Healthy for Life premium

Upon hire, new employees who elect medical coverage pay the "Healthy for Life" medical premium rate, which is \$125 a month lower than the Base Rate. To maintain the less-expensive rate for the remainder of the year and next year, employees and spouses (if on the company's medical plan) must complete the following steps within 30 days of their hire date.

- Well-being offerings
- Well-Being Assessment
- Check Your Mental Health
- Tobacco-Free or Take Action certification If the required steps are not completed within 30 days, the cost of the more

expensive base medical premium will apply for the remainder of the plan year. Additional incentives also may be earned by recording your daily healthy habits on your portal.

#### Why have the HFL premium?

The company's long-term wellness strategy is to provide the appropriate tools and resources to help our employees be healthier. If individuals choose not to engage, they will pay a higher premium through the Base Rate. Employees and spouses who choose to engage, and complete the required steps, will qualify for the Healthy for Life premium rate to help keep their premiums lower.

#### Medical — Healthy for Life Rate

		Per Pay Period <sup>1</sup> FT Employee Cost						
Plans	Employee	Employee + Spouse	Employee + Spouse with ESP <sup>2</sup>	Employee + Child(ren)	Employee + Family	Employee + Family with ESP <sup>2</sup>		
HDHP with HSA	\$16.00	\$69.00	\$169.00	\$49.50	\$103.00	\$203.00		
PPO — 80/20 Standard	\$36.50	\$111.50	\$211.50	\$87.00	\$162.50	\$262.50		
EPO/HMO	\$64.00	\$169.00	\$269.00	\$138.00	\$242.50	\$342.50		

24 pay periods per year — the first and second pay period of each month.
 ESP = Employed Spouse Premium.

#### Medical — Base Rate

Medical Base Nate								
		Per Pay Period <sup>1</sup> FT Employee Cost						
Plans	Employee	Employee + Spouse	Employee + Spouse with ESP <sup>2</sup>	Employee + Child(ren)	Employee + Family	Employee + Family with ESP <sup>2</sup>		
HDHP with HSA	\$78.50	\$131.50	\$231.50	\$112.00	\$165.50	\$265.50		
PPO — 80/20 Standard	\$99.00	\$174.00	\$274.00	\$149.50	\$225.00	\$325.00		
EPO/HMO	\$126.50	\$231.50	\$331.50	\$200.50	\$305.00	\$405.00		

1) 24 pay periods per year — the first and second pay period of each month.

2) ESP = Employed Spouse Premium.

Case No. 2020-00349 and 2020-00350 Employed-Spouse Premium Page 7 of 38 Meiman

The Employed-Spouse Premium (ESP) is an additional \$200 per month added to your monthly medical premium if you meet all of the following conditions:

- your spouse is employed full-time (as defined by the spouse's employer), or your spouse, when scheduled, works, on average, 30 hours or more per week (for example, regular breaks for professions such as teachers are not considered when calculating the average hours worked); and
- your spouse's employer provides your spouse with access to employer-sponsored medical insurance; and
- your spouse does not enroll in medical insurance with his or her own employer and chooses instead to enroll in the LG&E and KU medical coverage.

If you meet all of the conditions above, the ESP applies to you and you will pay an additional \$200 per month for your 2021 medical coverage.

If you do not meet all the conditions above, you will not be charged the ESP.

If your spouse enrolls in his or her employer's medical coverage and is also enrolled in the LG&E and KU coverage as secondary coverage, you will not be charged the ESP.

#### Inform Benefits About Changes in Your Spouse's Employment Status

If your spouse is enrolled in the LG&E and KU's medical coverage, it's important during the year that you update your coverage upon a change in your spouse's employment status. If your spouse no longer meets the ESP requirements (e.g., loses his or her job), or if your spouse now meets the ESP requirements (e.g., gets a new full-time job that offers medical insurance), you should change your LG&E and KU medical coverage and ESP status within 30 days. You can find the Verification of Spousal Health Coverage form on the Benefits site under 'Rates and Forms.'

Failure to make a change could result in paying too much or too little for your coverage. If you pay too much, the ESP that you should not have paid will not be refunded. Likewise, if failure to change your election results in failure to pay the required ESP, it is considered falsification of your records, and you may be subject to disciplinary action up to and including termination of employment.

Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 8 of 38 Meiman

Allowable amount: The maximum amount a plan will for a covered health care service. If your out-of-network provider charges more than the plan's allowed amount, your may have to pay the difference — this is called "balance billing." An in-network provider may not balance bill you for covered services. There are four main components in a medical plan.

- 1. **Co-payment or co-pays:** Additional fee (or flat dollar amount) you pay the doctor or hospital at the time you receive services in-network.
- 2. **Annual deductible:** The amount each year you must pay for covered medical services before the plan starts paying its co-insurance percentage for eligible covered services. The deductible does not include your annual premium or your co-pays for prescription drugs, vision, dental, physician office visits or urgent care centers. If you are enrolled in the HDHP, however, prescription drug costs and other covered medical expenses will count toward your annual deductible.
- Co-insurance: After the deductible has been met, the percentage of the allowable amount the plan pays and you pay for covered services.
- 4. Annual maximum out-of-pocket limit: Limit on the dollar amount you are responsible for paying out of your pocket for covered medical services. This includes your deductible, co-pays and co-insurance. (Prescription drug co-pays are not included.) Once you reach the out-of-pocket maximum, the plan pays 100 percent of the allowable amount for covered medical expenses. If you are enrolled in the HDHP, however, your prescription drug costs will count toward your out-of-pocket maximum.

#### For example, here is how the PPO Standard option works

The PPO Standard option has co-pays for certain services — \$25 physician visits, \$45 specialist visits, \$30 urgent care centers, \$10 for generic prescriptions, \$30 for brand prescriptions, \$50 for non-formulary prescriptions. Co-pays are flat dollar amounts you pay each time a service is obtained.

For all other covered medical expenses, you first pay an annual deductible before this option starts paying benefits. For the PPO Standard option, the annual deductible is \$600 per person, but limited to a \$1,200 maximum deductible for a family. Once the deductible has been paid, covered medical expenses get paid under "co-insurance" or cost-sharing. The plan pays 80 percent of covered medical expenses, and you pay the remaining 20 percent of covered medical expenses. The 80 percent is the PPO option's co-insurance, and the 20 percent is your co-insurance.

Once your out-of-pocket costs for covered medical expenses reach the out-ofpocket maximum (\$3,000 per person, but limited to \$6,000 for a family maximum), the PPO Standard option pays 100 percent of covered medical expenses for the rest of the calendar year. However, because your expenses for your monthly premium amount, prescriptions, vision, dental and non-precertification penalties do not count toward your out-of-pocket limit, you would have to continue paying for those expenses even after you have reached your out-ofpocket limit.

#### Case No. 2020-00349 and 2020-00350

	Anthem LiveHealth Online (livehealthonline.com)	Plan Pays 100% after \$25 co-pay	Plan Pays 100% after \$25 co-pay	Plan Pays 100% after \$25 co-pay	Not Covered	Plan pays 80% after deductible	Not Covered

1) The Annual Deductible is the annual amount you're responsible for paying for covered medical services before the plan begins to pay. Your annual premium cost or co-pays for prescriptions, vision, dental, physician office services or urgent care centers do not count toward your deductible. If you are enrolled in the HDHP, however, prescription drug costs and other covered medical expenses will count toward your annual deductible. There are different deductible amounts for in-network services; however, the in-network and out-of-network deductibles are cross-applied — which means they will accumulate toward each other.

2) The Annual Maximum Out-of-Pocket Limit is the limit on the dollar amount you're responsible for paying out of pocket in a calendar year for covered medical services. This includes your deductible, co-pays and co-insurance. Once you reach your out of pocket limit, the plan will pay 100% of the allowable amount for eligible medical expenses up to the plan's lifetime maximum benefit amount. Because your expenses for your monthly premium amount, prescriptions, vision, dental and non-precertified penalties do not count toward your out-of-pocket limit, you would have to continue paying for those expenses even after you have reached your out-of-pocket limit. If you are enrolled in the HDHP, however, your prescription drug costs will count toward your out-of-pocket maximum. There are different Maximum Out-of-Pocket Limit amounts for in-network services, however, the in-network and out-of-network Maximum Out-of-Pocket Limits are cross-applied — which means they will accumulate toward each other.

3) Emergency Care: Covered Services that are furnished by a Provider within the scope of the Provider's license and as otherwise authorized by law that are needed to evaluate or stabilize an individual in an Emergency. An Emergency is an accidental traumatic bodily injury or other medical condition that arises suddenly and unexpectedly and is manifested by acute symptoms of such severity that, without immediate medical attention, could place an individual's health in serious jeopardy, result in serious impairment to the individual's bodily functions, or result in serious dysfunction of a part of the individual's body. Services which Anthem determines to meet the definition of Emergency Care will be covered, whether the care is rendered by a Network Provider or Non-Network Provider.

Members are allowed to refill the same maintenance medication at a retail pharmacy three times. After the third refill at retail for the same maintenance medication, members are required to use Express Scripts' Pharmacy. Call Express Scripts to set up your mail order refills.

5) Specialty prescriptions include medications for conditions such as multiple sclerosis, psoriasis, rheumatoid arthritis, transplants, etc. If your prescription is a special medication, Express Scripts' Accredo Pharmacy will contact you to get you set up on the Specialty mail order program which requires one co-pay for each 30-day supply.

# **Dental Benefits**

#### Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 12 of 38 Meiman

## **Delta Dental (High or Basic)**

- "Premier" dentist network
- Contract #DU008450
- 800-955-2030
- deltadentalky.com

## Free Delta Dental App

 Go to iTunes App Store, Android Market or BlackBerry App World, Search for "Delta Dental" and download the app. You have two dental options administered by Delta Dental.

- High Option
- Basic Option

The High and Basic options allow you to receive benefits from any licensed dentist. However, if you use a participating Delta Dental "Premier" network dentist, you will not be billed for charges that exceed the plan's allowable amount for covered services. You can find a "Premier" dentist by visiting the Delta Dental website.

You will receive a dental ID card approximately two to three weeks after you submit your enrollment elections. Temporary dental ID cards can be printed by creating an account or logging into **deltadentalky.com**.

Dental				
		Per Pay Pe	eriod <sup>1</sup> FT Employ	ee Cost
		Employee	Employee	Employee
Plans	Employee	+ Spouse	+ Child(ren)	+ Family
Delta Dental Premier — High	\$5.50	\$11.50	\$11.50	\$17.00
Delta Dental Premier — Basic	\$2.50	\$5.00	\$5.00	\$7.50

1) Deductions taken the first and second pay period of each month.

Highlights of the 2021 Dental		
	Delta Dental — High Option	Delta Dental — Basic Option
Choice of providers	Any licensed dentist	Any licensed dentist
Annual maximum benefit	\$1,750 per person	\$1,000 per person
Annual deductible applies to Minor and Major services	\$50 per person	\$50 per person
Covered Services		
Diagnostic and preventive (oral exams, x-rays, teeth cleaning)	Plan pays 100%; not subject to the deductible	Plan pays 100%; not subject to the deductible
Minor services (fillings, oral surgery/extractions)	Plan pays 80% after the deductible	Plan pays 30% after the deductible
Major services (dentures, bridgework, crowns, periodontics, dental implants)	Plan pays 50% after the deductible	Plan pays 30% after the deductible
Orthodontia (for a child)	Plan pays 50%; \$1,500 lifetime maximum per child	Plan pays 50%; \$750 lifetime maximum per child

# **Vision Benefits**

Vision benefits are offered as an employee-paid option.

The vision plan is administered by Vision Service Plan (VSP). There are no vision ID cards required. Just tell your VSP doctor that you are a VSP member and they will handle the rest.

VSP Vision								
	Per Pay Period <sup>1</sup> FT Employee Cost							
Plan	Employee	Employee + Spouse	Employee + Child(ren)	Employee + Family				
VSP Vision	\$3.71	\$6.46	\$6.60	\$10.64				
1) Deductions taken the first and second pay period of each month.								

#### **VSP Choice Network**

The plan uses the VSP "Choice" network. To receive the most value from your vision benefits, you should use a participating VSP "Choice" network doctor. You can find one by visiting the website.

If you see a provider other than a VSP "Choice" network doctor, the plan will reimburse you up to a scheduled amount. When necessary, reimbursement can be submitted via the **VSP.com** website by registering and logging into your VSP account.

Highlights of the 2021 Voluntary Vision Option					
		Your Coverage with an in-network VSP Doctor	Your Co-Pay	Frequency

  - Select "Add to Home Screen"
  - Select "Add"
  - You're done!

Case No. 2020-00349 and 2020-00350 **Dependent Documentation**Case No. 2020-00349 and 2020-00350
Page 14 of 38

Supporting documentation must be submitted to HMS for verification of dependent eligibility within 60 days.

Watch for an email and home mailing from HMS with deadline and instructions on how to submit required documentation.

- HMS: 866-868-8991
- lge\_ku@auditos.com

If you add a dependent to your plan, HMS, a third-party agency, will mail you information outlining the steps you must take to complete your dependent's enrollment in the medical, dental, and vision plan. HMS will also send emails from **Ige\_ku@auditos.com**.

To verify your dependent's eligibility, you must supply the following to HMS.

#### Children

- A copy of the child's birth certificate.
- For a stepchild, also include the employee's marriage certificate and one form of documentation establishing current marital status.
- For an adopted child or children under your legal guardianship, also include a copy of the court order/adoption decree naming you or your spouse as the child's legal guardian.
- The signed and dated HMS Verification Form.

#### Spouse

- A copy of your marriage certificate.
- One form of documentation dated within the last 60 days establishing current marital status, such as a copy of a joint bill/bank account or the front page of your filed federal tax return (with all financial information concealed).
- The Verification of Spousal Health Care Coverage form.
- The signed and dated HMS Verification Form.

You will have 60 days to submit your documentation; the specific deadline will be included in the home mailing and email that you receive from HMS. For faster processing, you can upload the required documents to HMS's web portal, **AuditOS.com**, or fax them to 877-223-8478.

Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 15 of 38 Meiman

If you require assistance, visit **AuditOS.com**, log in using the reference number located on the front page of the letter and your birthdate. The website provides access to many useful tools, including PDF copies of the communications, eligibility definitions, a document upload option and the ability to track your submission and status. You also may contact HMS Customer Service at 866-868-8991, 8 a.m. to 8 p.m., Eastern time, Monday through Friday.

If you do not provide all required documentation by the deadline, your dependent(s) **will be removed** from any company-sponsored benefit plans back to the date they were enrolled.

# Life Insurance Benefits

It's important to keep your beneficiary designations current, so if you have a change in status (e.g., marriage or divorce), remember to review your beneficiary designations for possible changes. While no one likes to think about death, it may be comforting to know that as a result of your employment with the company, your beneficiary will be entitled to a death benefit. Depending on your employment status, there are several levels of protection that may be available on your date of hire.

- Employee Basic Life and Accidental Death & Dismemberment (AD&D);
- Employee Supplemental Life; and
- Dependent Supplemental Life.

#### Beneficiary

Your beneficiary is the person or persons whom you name to receive death benefits under the insurance policy in the event of your death. You can designate and change your beneficiary online through *MyHR* — *Benefit Details > Benefits Summary*. Click on your *Life and AD and D* row and follow the instructions on the screen. The change will take effect when you save your changes. It is important to keep your beneficiary designations current, so if you have a change in status (e.g., marriage or divorce), remember to review your beneficiary designations for possible changes.

#### Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 16 of 38 Meiman

#### Employee Basic Life and AD&D Insurance

Life insurance provides financial protection for you and your family if you (or one of your dependents) should die. The company automatically provides the following Basic Life insurance at no cost to you.

- LG&E Bargaining 2 times your annual base salary; maximum benefit of \$150,000
- KU Bargaining 2 times your annual base salary; maximum benefit of \$300,000
- Full-time Non-Bargaining 2 times your annual base salary; maximum benefit of \$300,000

The company also provides Accidental Death and Dismemberment Insurance equal to the amount of your Basic Life Insurance to full-time employees at no cost to you.

#### **Employee Supplemental Life Insurance**

Regular, full-time employees may purchase additional life insurance. If purchased during new hire enrollment, evidence of insurability forms are not required. The Employee Supplemental Life insurance can be one, two or three times your base annual salary (rounded to the next highest multiple of \$1,000) to the maximum of \$300,000.

The cost of Supplemental Life is based on your age as of January 1 and the amount of insurance you elect. The employee pays the full cost of this coverage through after-tax payroll deductions.

Case No. 2020-00349 and 2020-00350
Attachment 4 to response to PSC-1 Question No. 41
Page 17 of 38
Meiman

Supplemental Life Premiums				
Age on January 1	Monthly premium per \$1,000 of Insurance			
Under 30	\$.054			
30 - 34	\$.072			
35 - 39	\$.081			
40 - 44	\$.090			
45 - 49	\$.135			
50 - 54	\$.252			
55 - 59	\$.396			
60 - 64	\$.603			
65 - 69	\$1.170			
Over 70	\$1.899			

#### Dependent Supplemental Life Insurance

Regular, full-time employees may purchase Dependent Supplemental Life Insurance on eligible dependents. Coverage options are shown in the table below. The employee pays the entire cost through after-tax payroll deductions.

Depende			
	Spouse	Each eligible child <sup>2</sup>	2021 Monthly Cost
Option 1	5,000	\$2,500	\$1.47
Option 2	\$10,000	\$5,000	\$2.95
Option 3	\$25,000	\$10,000	\$9.40
Option 4	\$50,000 <sup>1</sup>	\$20,000 <sup>1</sup>	\$23.50

 Medical insurability and certain Kentucky Dept. of Insurance regulations apply to this richest option.
 Refer to the summary plan description on the company intranet for a definition of "eligible child(ren)," which includes your dependent children between the ages of 14 days and 19 years, and can continue up to age 25 if a full-time student and a dependent.

"Dependent" is defined as:

- the employee's spouse.
- the employee's child over 14 days but less than 26 years of age.

"Dependent" does not include:

- a married child.
- a spouse or child living outside the United States.
- a spouse or child on active military duty.
- a child eligible for employee's insurance under the Group Policy.

- a parent of the employee or the employee's spouse.
  - "Child" is defined as:
- the employee's natural or adopted child who is dependent on the employee for support and maintenance (for example: a child the employee claims on his or her tax filing).
- a child who is placed in the employee's home for purposes of adoption.
- a child who is primarily dependent on the employee for support and lives with the employee in a permanent parent-child relationship, and who is the employee's step-child, foster child, or child for whom the employee is legal guardian.

Employees should contact the Benefits Department to cancel Dependent Life insurance coverage if they no longer have eligible dependents.

# Adding or increasing supplemental life coverage

After your initial new hire enrollment, if you want to add or increase your Employee Supplemental Life and Dependent Supplemental Life coverage, you must submit a new paper "Life and AD&D Insurance Enrollment Form" and an "Evidence of Insurability" form to the life insurance carrier. The life insurance carrier can either reject or approve your request for additional coverage. Your coverage begins when the life insurance carrier approves your application. To initiate the application process, refer to the Benefits website on the company's intranet.

#### Case No. 2020-00349 and 2020-00350 **Flexible Spending Accounts** The Page 18 of 38 Meiman

## WageWorks

- 866-871-0773
- myspendingaccount. wageworks.com
- Client code for website registration: LGEANDKUE-16550

Your 2021 FSA contributions may only be used for expenses you incur in the year 2021. You must file these expenses no later than March 31, 2022. You will lose any money you don't use. Flexible Spending Accounts (FSA) let you set aside money on a pre-tax basis to use for certain types of expenses. While the tax savings advantage is very valuable to you, it is important to plan your contributions carefully. The Internal Revenue Service (IRS) requires any money deposited during the calendar year that is not used for eligible expenses incurred that year be forfeited. Your annual contribution will be converted to a per-pay-period amount and deducted from your first and second paycheck each month.

WageWorks is the claims administrator for the DCRA and the HCRA.

# Dependent Care Reimbursement Account (DCRA)

The Dependent Care Reimbursement Account is a flexible spending account.

You can use it to reimburse yourself with pre-tax money for eligible dependent day care expenses that allow you — or you and your spouse, if you are married — to work. You may not have a Dependent Care Reimbursement Account if your spouse is not working. For a list of qualified expenses, please refer to IRS Publication 503 (**irs.gov**).

If you are married, you may contribute from \$120 to \$5,000 annually to your DCRA. If you are single, or if you and your spouse file separate tax returns, you may contribute from \$120 to \$2,500 a year.

After you incur eligible child care expenses, you submit a paper claim for reimbursement to WageWorks. After WageWorks processes the claim, you are reimbursed by check or direct deposit within two weeks.

#### Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 19 of 38 Meiman

# Health Care Reimbursement Account (HCRA)

The Health Care Reimbursement Account is a flexible spending account. You can reimburse yourself with pre-tax money for eligible health care expenses for you and your qualifying dependents. Eligible health care expenses include co-payments, deductibles and other IRS-approved health expenses not covered by your medical, dental and vision plan. For a list of qualified health care expenses, please refer to IRS Publication 502 (**irs.gov**).

You may contribute from \$120 to \$2,750 annually of your own money to your HCRA.

#### WageWorks Health Care Account Debit Card

Online or paper claims can be submitted to WageWorks, or you can use your WageWorks Health Care Account Debit Card (card). You will not receive a new card each year because the original card will work in subsequent years.

If you use the card to pay for prescription drug co-pays or physician office co-pays, you typically do not need to send validation for your eligible purchases.

For all other eligible expenses where you use the card, however, you need to validate your purchases (this means submitting your itemized receipts for card purchases along with a claim form to WageWorks to prove the HCRA eligibility of the items or services purchased). If you don't submit required validation within 59 days from date of purchase, your card will be deactivated until validation is submitted to WageWorks. You should contact WageWorks if your card has been deactivated.

For all eligible HCRA purchases, even those where you use the card, the IRS requires you to retain receipts as proof of your qualified purchase, and you may be required to provide these receipts to WageWorks at any time during the year. The HCRA, combined with the company's dental and medical plans (excluding HDHP), offers you flexibility to design a health care program that best meets your needs. For example, you could choose a lower-cost medical plan and use your premium savings to contribute more to your HCRA.

# **Health Savings Account**

### **Health Equity**

- 877-713-7712
- HealthEquity.com

To learn more about HealthEquity and the HSA account, please visit HealthEquity.com/learn.

#### **Health Savings Account**

A Health Savings Account (HSA) is available to individuals enrolled in a qualified High Deductible Health Plan (HDHP). An HSA allows HDHP participants to save money for medical expenses. An HSA offers a number of tax advantages.

- Qualified contributions to an HSA are not taxed by the federal government or most states.
- HSA withdrawals for qualified health expenses are not taxed.
- HSAs' earnings are tax-sheltered (federal and most states).

If you choose to enroll in the HDHP option for 2021, it will be combined with an HSA. The company will make a contribution to your HSA. If you elect single coverage, the company will contribute \$500; and if you elect family coverage (i.e., employee + spouse, employee + child(ren), or employee + family), the company will contribute \$1,000. If you are hired after Jan. 1, these amounts will be prorated based on your hire date.

Health Equity, the HSA administrator that maintains the funds in your account, may reach out to you via home mailing to verify information related to establishing your HSA account. You must provide requested information to Health Equity within 60 days of your hire date or you forfeit the employer contribution.

You may also elect to contribute to the HSA on a pre-tax basis to pay for any qualifying out-of-pocket expenses — such as physician office visit, prescription drugs or lab work.

There are two ways to contribute to your HSA.

- Pre-tax contributions, which will be taken out each pay period.
- After-tax contributions can also be made, and you can make an adjustment to your taxable income when filing your income taxes at the end of the year.

There is an annual contribution limit for the HSA, which includes both employer and employee contributions, so keep in mind the maximum annual limit includes the money the company is providing for anyone who enrolls in the HDHP for 2021.

- For single coverage, the annual limit is \$3,600.
- For family coverage, the annual limit is \$7,200.
- Also, you can contribute an additional \$1,000 if you are age 55 or older in 2021.

With an HSA account at HealthEquity, you will have:

- a debit card;
- electronic account statements;
- 24 hours/7 days a week/365 days a year customer service for your health savings account;
- a dedicated, toll-free number for questions regarding your account (877-713-7712);
- online access to view balances and account transactions;
- the ability to pay providers (or reimburse yourself) directly from the website;
- investment options (available with a \$1,000 balance);
- your HealthEquity HSA FDIC-insured; and
- year-end tax forms provided.

#### Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 21 of 38 Meiman

When you need to use your HSA account for eligible expenses, you can use the debit card or the online bill pay feature through HealthEquity's website.

Once your HSA balance reaches \$1,000, you may invest your funds for increased tax-free earnings potential. To get details on investing your HSA dollars or to learn more about HealthEquity and the HSA account, visit HealthEquity's website — **HealthEquity.com/learn**.

With the HSA account at HealthEquity, the usual bank fees will apply.

- The monthly account fee is covered by LG&E and KU.
- No fee for debit card transactions.
- ATM transactions are not allowed.
- The first three debit cards are provided at no cost; if you need a fourth card or more it is \$5 per card.
- Typical fees for insufficient funds, stop payments, etc., apply.
- There is no fee for statements if you receive them electronically; however, if you prefer paper statements to be mailed, there is a charge of \$1 per statement (\$12 annually).

- If the account is actively invested, mutual fund fees will apply.
- You should carefully review these choices and applicable fees. You may also elect to transfer your balance to another provider with different investment options.

Treat your HSA account just like you would your personal bank account — be mindful of transactions, and review your account for accuracy.

Also, it is your responsibility, in case you ever get audited by the IRS, to keep a copy of all your receipts for proof of your qualified expenses.

Any money you have left in your HSA account at the end of the year will roll over to the next year. It is not like the Flexible Spending Account — HCRA — where you have to use it or lose it.

At any time, you can transfer your HSA balance from Health Equity to another vendor or institution, by submitting the HSA partial transfer request form to Health Equity. The form can be found online at **HealthEquity.com** or by calling Health Equity.

# **Group Legal**

# **ARAG Group Legal**

- 800-247-4184
- Call Center available Monday through Friday, 7 a.m. to 7 p.m., Central time
- Visit ARAGLegalCenter.com and enter Access Code 17942lge
- Email an ARAG customer care specialist at Service@ARAGgroup.com

A group legal program is offered through convenient payroll deductions. The cost of the plan is \$21.26 monthly, and it offers you, your spouse and dependent children (up to age 26) access to a wide range of covered legal services.

The group legal program is administered by ARAG insurance company. ARAG contracts with local attorneys for the ARAG Network.

If you choose a non-network attorney, ARAG will pay a portion of attorney fees for covered legal services. For information on submitting a non-network attorney claim, visit **araglegal.com/myinfo**.

**Please note:** Certain issues are not covered under the plan for representation (divorce, driving under the influence, etc.), but members may receive telephone advice. Please confirm with ARAG that any requested issues are covered.

# Enrollment

The only time to enroll or cancel group legal coverage is when you are first hired or during the annual Open Enrollment.

# In-Office Services

You can meet with an attorney who can advise and represent you on covered legal matters. Most covered legal matters are 100 percent paid when you work with an ARAG network attorney. Attorney services include:

- Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 22 of 38 Meiman
  - reviewing and preparing documents;
  - making follow-up calls and writing letters;
  - providing legal advice and consultation;
  - representation in court; and
  - reduced-fee benefits, available for noncovered personal legal matters (you can receive at least 25 percent off a network attorney's normal hourly rate).

# Telephone Advice

Talk to a knowledgeable professional when you need information and direction to address your legal and financial matters. Their Legal Hotline offers you unlimited legal advice from network attorneys.

Identity theft services are provided by certified identity theft case managers who can help you protect or recover your identity. And a caregiving hotline provides legal advice from network attorneys and caregiving services from eldercare specialists to assist your parents and grandparents.

# **Online Resources**

The ARAG Legal Center provides online tools and useful information to help you learn more about your legal issues on your own. Their education center helps you understand your legal situation and provides a law guide, guidebooks and videos, and an e-newsletter. Do-it-yourself documents offer the convenience and control of creating state-specific documents online. To access these materials, visit the Learning Center at **araglegal.com**.

# **Savings Plan Benefits**

Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 23 of 38 Meiman

The company-sponsored savings plan is an employee benefit designed to help you save for retirement. You are immediately eligible to contribute to the savings plan and receive company matching dollars, and you are eligible for the company's annual lump sum contribution to your Retirement Income Account (RIA) in your savings plan. Fidelity is the administrator of the company savings plan and offers a wide variety of online tools and learning materials.

# Enrolling in the savings plan

You choose how much of your paycheck to put into your account each pay period and how that money gets invested. You enroll directly with Fidelity. You can enroll online at **netbenefits.com**. Or, you can enroll by calling Fidelity at 800-827-3321. Your enrollment will be effective with the first available pay cycle after your enrollment has been processed.

You may contribute between 1% and 75% (in 1% increments) of your eligible pay to the savings plan on a traditional 401(k) pretax basis, on a Roth 401(k) after-tax basis, or a combination of both, subject to the IRS annual contribution limit.

To help you prepare for the future, the company has two automatic enrollment programs.

- As a new hire, if you do not make your own election or opt out of participation within 45 days of your hire date, you automatically will be enrolled in the plan. As soon as administratively practicable, 6% of your eligible pay automatically will be deferred to the plan on your behalf on a traditional 401(k) pretax basis.
- The second automatic enrollment feature occurs every January. Any existing employee deferring 0% on a per pay basis, who does not opt out of

the automatic enrollment, also will be enrolled in the plan.

If you automatically are enrolled by either of these programs, 6% of your eligible pay automatically will be contributed to the plan on a traditional 401(k) pretax basis through payroll deduction. You also will be enrolled in the auto increase program, which automatically will increase your contribution rate 1% every year up to a maximum of 10%. According to your age at the time of your automatic enrollment, your contributions will be invested in a professionally diversified retirement fund that most closely matches your target retirement year, based on the plan's normal retirement age of 65. You can change your future deferral and investment options at any time.

# Traditional pretax 401(k) vs. Roth after-tax

With traditional pretax contributions, the amount you save comes out of your paycheck before you pay taxes on it, reducing your taxable income. You continue to defer paying income taxes on your savings — and investment earnings — until you make a withdrawal. At retirement, you will pay taxes on your contributions and associated earnings as you withdraw from the plan.

With Roth contributions, the amount you save comes out of your paycheck after you pay taxes on it. When you retire, you can withdraw your contributions tax-free as long as it has been five years since your first Roth contribution and you are at least 59 ½ years old. At retirement, you will pay taxes on the funds from company match contributions, which is a pretax contribution.

# **Fidelity Investments**

- 800-827-3321
   Weekdays 8 a.m. to 8:30
   p.m. (ET)
- netbenefits.com

Don't ignore free money! Make sure you are contributing at least 6 percent per pay to take advantage of the full company match.

# Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 24 of 38 Meiman

In total, as a new hire, if you contribute at least 6% each pay and for your TIA, the company could contribute 7.2% (4.2% in company match and 3% RIA contribution) of your annual eligible earnings to your plan each year.

# **Company contributions**

The company will make a matching contribution of \$0.70 into your account for every \$1.00 you defer to the plan, up to the first 6% you contribute per pay. It's "free" money that you receive simply for participating in the plan and taking steps toward saving for your retirement.

If employed on Dec. 31 of each year, the company also will contribute an annual lump sum to your Retirement Income Account (RIA). Your RIA will be a separate source within the savings plan, and you will have the same wide range of investment options. The company's RIA contribution will be made by April 1 of the applicable year based on your eligible compensation for the preceding year and the following schedule.

RIA annual contribu	ution	
Years of service as of Jan. 1		t of covered pensation
Less than 6		3%
6 but less than 11		4%
11 but less than 16		5%
16 but less than 21		6%
21 or more		7%

In total, as a new hire, if you contribute at least 6% each pay and for your TIA, the company could contribute 7.2% (4.2% in company match and 3% RIA contribution) of your annual eligible earnings to your plan each year.

# Vesting

"Vesting" refers to your ability to keep money if you leave the company. You are always immediately 100 percent vested in the value of your account. This means all money, including your deferrals, company matching contributions, Retirement Income Account contributions and rollover contributions are immediately yours, subject to investment gains and losses.

# **Investment Options**

To help you meet your investment goals, the plan offers a range of options. The many options available include conservative, moderately conservative and aggressive funds to match your investment strategy.

The plan offers lifecycle funds, which have an asset allocation based on the number of years until the fund's target retirement date. Lifecycle funds are designed for investors expecting to retire around the year indicated on the fund's name. The investment risk of the fund changes over time as each fund's asset allocation changes.

A complete description of the plan's investment options and their performance, as well as planning tools to help you choose the appropriate mix, are available online at Fidelity **NetBenefits.com**.

# **Rollover contributions**

The savings plan accepts rollovers of Traditional 401(k) pretax and other 401(k) after-tax distributions from other qualified plans. For rollover forms and instructions, please call Fidelity (800-827-3321).

# **Managing Your Account**

You can access your account online at **netbenefits.com** or call the Fidelity Benefits Line at 800-827-3321 to speak with a representative or use the automated voice response system. Fidelity offers easy access to your plan and has a wide variety of financial tools and learning materials to help you plan for retirement and other important milestones.

## Case No. 2020-00349 and 2020-00350 **Changing Coverage During the Year** No. 41 Page 25 of 38 Meiman

You may be able to make changes to your benefit plans, such as adding or removing dependents or changing your health plan option, if you have a "Change in Status," as defined by the IRS. Examples of Change in Status events include:

- marriage or divorce;
- birth or adoption;
- spouse gaining or losing coverage (e.g., if your spouse begins a new job, your spouse loses his or her job, or your spouse goes through his or her employer's Open Enrollment); and
- death of a spouse or child.

Changes must be submitted — online through **MyHR** or via form — within 30 days of the "Change in Status" event, and documentation must be provided to the HR/Benefits Department and HMS by the specified due date. *If you do not complete the Change in Status within 30 days of the event, or fail to submit the required documentation, the company will conclude you elected not to change your coverage due to the event and you must wait until the next annual open enrollment period to enroll your dependent.* 

If your change results in a lower premium rate, your pre-tax payroll deductions will change the next possible pay period after the change in status is received by the HR/Benefits Department, and the company will not refund any overpaid premiums deducted from your paycheck. So, it's important to get the forms in early.

# Adding children to your coverage

Within 30 days of the "Change in Status" event, you need to complete the "Change in Status" form online through *MyHR*.

To verify your dependent's eligibility, you must supply the following to HMS:

- a copy of the child's birth certificate;
- for a stepchild, also include the employee's marriage certificate and one form of documentation establishing current marital status;
- for an adopted child or children under your legal guardianship, also include a

copy of the court order/adoption decree naming you or your spouse as the child's legal guardian; and

• the signed and dated HMS Verification Form.

# Adding a spouse to your coverage

Within 30 days of the "Change in Status" event, you need to complete:

- "Change in Status" form either online through *MyHR* for a marriage or a paper form obtained from the Benefits site for other events.
- If your spouse lost coverage due to his or her employment change, you also will need to provide proof and the date his or her coverage and employment changed (such as a copy of his or her HIPAA Creditable Coverage Notice); or
- If your spouse is going through an Open Enrollment period, provide proof and the date of his or her Open Enrollment period. To verify eligibility, you need to supply to HMS:
- a copy of your marriage certificate; and
- one form of documentation establishing current marital status, such as a copy of a joint bill/ bank account or the front page of your filed federal tax return (with all financial information concealed).
- the signed and dated HMS Verification Form.

# Removing a spouse from your coverage

Within 30 days of the "Change in Status" event, you need to complete the following:

- "Change in Status" form (online through *MyHR*); and
- if a divorce, a copy of the divorce decree; or
- if your spouse gains coverage due to an employment change, provide proof and date his or her employment and coverage changed; or
- if your spouse is going through an Open Enrollment period, provide proof and date of his or her Open Enrollment period.

If you get married or have a baby during the year, you must enroll your new dependent (online or paper) within 30 days of a marriage or birth of a child; otherwise, new dependents must wait until the next annual enrollment period to enroll.

Case No. 2020-00349 and 2020-00350 Learn More About Your Options to PSC-1 Question No. 41 Page 26 of 38

Take time to review the online resources available when making your benefit elections. You can access benefits brochures and summary plan descriptions on the Benefits website on the intranet or via the internet at **lge-ku.com/oe**. And become a part of the LG&E and KU Family Connection Facebook group.

The company provides you with a number of ways to learn about your benefit enrollment options. These include a dedicated website on the intranet and on the Internet with links to educational materials, job aids and tools to help you select which benefit option works best for your individual situation.

You can email questions to **benefits**@ **Ige-ku.com** or you can call the Benefits Department at 502-627-2121 or toll-free at 877-418-2121.

# Watch The Grid

Watch The Grid and read the weekly News Transmission newsletters during Open Enrollment and throughout the year for benefits information.

# LG&E and KU Family Connection Facebook group

You and your spouse are invited to be a part of the online community for employees, retirees and spouses — Your LG&E and KU Family Connection. The Family Connection group shares company postings about LG&E and KU news, sponsorships, benefits and wellness information, special events and volunteer opportunities. It's also a platform where members can comment and engage with one another. Throughout Open Enrollment, Your LG&E and KU Family Connection will post reminders about company benefits available to participants.

# **Anthem's Coverage Advisor Tool**

The online Coverage Advisor Tool also can assist you in choosing the option that best fits your needs. To access the online tool, go to https://www.webmdhealth. com/ehealth/phdnsconnect. aspx?EXID=EONUS and begin entering your required information.

Page 26 of 38 Meiman

# Benefits website on the intranet

The Benefits website is located on the company's intranet site. (From the home page, click Services/Resources and look for Benefits.) It provides employees with easily accessible benefits information and forms online.

- Change your Benefits if you have a change in status (birth, adoption, divorce, marriage, etc.) and you want to add dependents or remove them from your benefit plans.
- Employment Events if you want to know about New Hire Enrollment, applying for long-term disability benefits or applying to retire.
- Rates and Forms if you need a form, or want to know costs of your benefits.
- Plan Descriptions if you're interested in learning more about your benefits, view the Benefits at a Glance for information in brief, or the Summary Plan Descriptions, for an in-depth look at your benefit programs.
- Open Enrollment everything you need to learn about your open enrollment, including all mailings, detailed benefit charts, links to vendors and decision tools, and Grid articles.

# **Enrolling Online**

Case No. 2020-00349 and 2020-00350 Attachment 4 to response to PSC-1 Question No. 41 Page 27 of 38 Meiman

# Steps for New Hire Benefit Enrollment

- 1. Review the options described in this *New Hire Enrollment Guide*.
- 2. Get access to **MyHR** (PeopleSoft).
- 3. Within 30 days from your hire date, log into *MyHR* from work or home and make your benefit elections online.
- 4. Send required documentation (such as documents verifying dependent eligibility for the medical or dental plans) to HMS. Failure to send required documentation within 60 days of your hire date will result in the removal of your dependents from your medical, dental and vision plans.

# How to access MyHR

Employees have two ways to access *MyHR* to make your elections.

- From a computer at work, click on the internal link to *MyHR* to make your elections.
- From a computer outside the office, go to **https:\\myhr.lge-ku.com** to access *MyHR* from the internet.
- If you are enrolling from home using an external computer, you must have your mobile phone number up to date in *MyHR* in order to access the system remotely. Instructions for updating your mobile phone number in *MyHR* are provided in this booklet on page 30.
- Your online enrollment will not be saved until you click the SUBMIT button in MyHR. After your elections are submitted, you will receive a confirmation to your work email address within 24 hours to verify that you have successfully completed the enrollment process. Detailed instructions can be found in the New Hire job aids (pages 31-39).

# Legally required notices

Federal legislation requires LG&E and KU to make notices available to participants in company-provided health plans. The following notices fulfill federally required disclosure obligations as required by the Employee Retirement Income Security Act and other legislation. The notices adhere to the standardized government templates.

- Notice of Continuation Coverage Rights Under COBRA
- Center for Medicare Services Creditable Coverage Notice
- Notice for HIPAA Special Enrollment Rights
- Premium Assistance Under Medicaid and the Children's Health Insurance Program (CHIP)
- Newborns' and Mothers' Health Protection Act
- Women's Health and Cancer Rights Act Notice
- Notice of Privacy Practices HIPAA
- New Health Insurance Marketplace Coverage Options and Your Health Coverage
- Summary of Benefits and Coverage including Glossary of Health Coverage and Medical Terms

These notices are posted online at the company's Open Enrollment intranet and Internet sites; you also have the option for paper copies to be mailed to you.

# **Enrollment confirmation**

A confirmation of your elections will be sent to your work email address within a couple of days after clicking the Submit button in *MyHR*. Check your confirmation for accuracy of your elections.

# Case No. 2020-00349 and 2020-00350 Updating Your Mobile Phone Number In Way 53 (Notion North Meiman

Additional Information					

*Note:* You must have your correct mobile phone number listed in *MyHR* if you will be using your personal home computer to log on to *MyHR* to submit your benefits Open Enrollment. Your correct mobile phone number is required so *MyHR* can send your mobile phone a message code to allow you to log on to the *MyHR* site from your home computer.

- Using a company computer at a company work site, click the Google Chrome internet web browser link to open The Grid.
- 2. Under the **TOOLBOX** on The Grid, select **MyHR**.
- 3. At the *MyHR* dashboard page, click the "Personal Details" tile.
- 4. On the "Personal Details" menu, click "Contact Details." The "Contact Details" page displays your listed phone numbers. *Note:* The messaging system will use *Phone Types* for "Mobile" or "LGE Cell Phone."

- 5. If a "Mobile" phone number or "LGE Cell Phone" number is displayed, verify it is correct. If it is correct, no further action is needed.
- 6. If the "Mobile" phone number or "LGE Cell Phone" number shown is not correct, enter the correct phone number and click the *Save* button.
- 7. If no mobile phone number is displayed, you can add one by clicking the "+" and selecting the "Mobile" or "LGE Cell Phone" *Phone Type* from the dropdown list. Type in your mobile phone number and click the *Save* button. "LGE Cell Phone" should be used for companyissued mobile phones.
- 8. Click *Sign out* to log off of the *MyHR* site.

*Tip:* If you cannot log in to *MyHR* from a company computer, contact the Technology Support Center at 502-627-2262.

> Case No 2020-00349 Attachment 7 to Response to PSC-1 Question No. 41 4 of 4 Meiman

# **KENTUCKY UTILITIES COMPANY**

# Response to Commission Staff's First Request for Information Dated November 24, 2020

# Case No. 2020-00349

# Question No. 42

# **Responding Witness: Gregory J. Meiman**

- Q-42. For each benefit listed in Item 41 for which an employee is required to pay part of the cost, provide a detailed explanation as to how the employee contribution rate was determined.
- A-42. See the response to Question No. 41, pages 13-22 of Mr. Meiman's direct testimony, and the chart below.

Plan	Employee Contributions
Medical	Self-insured plan – medical and Rx claims experience. The Company is billed for the claims plus administrative fees.
	The benefits department works with the benefits consultant to estimate an inflation factor to estimate future medical claims. This amount is adjusted for any change in employee count in the plan. It is also adjusted for any changes to the benefit plan structure or cost sharing mechanisms with employees.
	In addition, an Employee's monthly premium is based on whether wellness requirements are met, if an employed spouse is covered, which medical option the employee selects, and the employees' level of coverage.
	There are two types of rates based on wellness requirements – the Base Rate and the Healthy for Life (HFL) Rate. Employees have a choice to complete the Healthy For Life (HFL) requirements to qualify for the HFL Rate which is \$125 a month lower than the Base Rate.

There is a \$200 per month employed spouse premium (ESP) surcharge if the employee has a spouse on the medical plan and the spouse does not enroll in their employer's medical coverage.
Employees' rates are determined based on the medical option the employee selects with different levels of medical coverage and different premium rates. And, employees' premiums can vary based on the employee's level of coverage. An employee can select one of the three medical options offered, and can select different coverage levels employee only, employee plus spouse, employee and child(ren) or employee and family.

Dental	Self-insured plan – dental claims experience. The Company is billed for the claims plus administrative fees. The benefits department works with the benefits consultant to estimate an inflation factor to estimate future dental claims. This amount is adjusted for any change in employee count in the plan. It is also adjusted for any changes to the benefit plan structure or cost sharing mechanisms with employees. An employee's rates are determined based on the dental option the employee selects and the employee's level of coverage. An employee can select one of the two dental options offered with different levels of dental coverage and premium rates. And, they can select different coverage levels employee only, employee plus spouse, employee and child(ren) or employee and family.
Vision	Employees pay 100% of the insured rate determined by the vision carrier.
Dependent Life	Employees pay 100% of the insured rate determined by the life insurance carrier.

EE Supplemental Life	Employees pay 100% of the insured rate determined by the life insurance carrier.

# **KENTUCKY UTILITIES COMPANY**

# Response to Commission Staff's First Request for Information Dated November 24, 2020

# Case No. 2020-00349

# Question No. 43

# **Responding Witness: Gregory J. Meiman**

- Q-43. Provide a listing of all health care plan categories, dental plan categories, and vision plan categories available to corporate officers individually and to groups defined as Directors, Managers, Supervisors, Exempt, Non-Exempt, Union, and Non-Union Hourly employees (e.g., single, family). Include the associated employee contribution rates and employer contribution rates of the total premium cost for each category, and each plan's deductible(s) amounts.
- A-43. Corporate officers and all other full-time employee groups are offered the same health, dental and vision plan options, categories, and employee costs as described in response to Question No. 41 and outlined below.

2021 Medical plan categories:

- Employee (EE) Base Rate
- EE + Spouse Base Rate
- Ee & Spouse with Employed Spouse Premium surcharge Base Rate
- EE + Child(ren) Base Rate
- EE + Family Base Rate
- Family with Employed Spouse Premium surcharge Base Rate Employee (EE) Healthy For Life Rate
- EE + Spouse Healthy For Life Rate
- Ee & Spouse with Employed Spouse Premium surcharge Healthy For Life Rate
- EE + Child(ren) Healthy For Life Rate
- EE + Family Healthy For Life Rate
- Family with Employed Spouse Premium surcharge Healthy For Life Rate

2021 Dental plan and Vision Plan categories:

- Employee (EE)
- EE + Spouse
- EE + Child(ren)

• EE + Family

2021 Employee and Employer contribution rates are provided (see Attachment 5 to the response to Question No. 41).

Plan deductibles are outlined in the New Hire Enrollment Guide, pages 4 to 13 (see Attachment 4 to the response to Question No. 41).

# **KENTUCKY UTILITIES COMPANY**

# Response to Commission Staff's First Request for Information Dated November 24, 2020

# Case No. 2020-00349

# **Question No. 44**

# **Responding Witness: Gregory J. Meiman**

- Q-44. Provide each medical insurance policy that the utility currently maintains.
- A-44. The Company participates in a medical, vision, and dental plan sponsored by LKE, a summary of which is attached. The plan is self-insured and as such there is not a group medical insurance policy. The plan has procured stop-loss coverage to provide financial protection against certain large claims.

Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 1 of 114 Meiman

# LG&E and KU

# Medical, Dental and Vision Care Plan

# Effective January 1, 2018

For eligible employees of:

- LG&E and KU Services Company;
- Kentucky Utilities Company; and
- Louisville Gas & Electric Company

LG&E and KU Energy LLC self-insures many portions of the Plan. The Claims Administrators do not assume any financial obligation for benefits paid under self-insured portions of the Plan. The Claims Administrators provide administrative claims payment services only for the selfinsured portions of the Plan

# **BENEFIT BOOKLET**

This Benefit Booklet has been prepared by the Claims Administrator and the Employer as your Summary Plan Description. This document replaces and supersedes any Benefit Booklet or summary that you have received previously.

Please refer to this Benefit Booklet whenever you require health services. It describes how to access medical, dental, and vision care, what health services are covered by the Plan, and what portion of the health care costs you will be required to pay.

This Benefit Booklet should be read and re-read in its entirety. Since many of the provisions of this Benefit Booklet are interrelated, you should read the entire Benefit Booklet to get a full understanding of your health benefits.

Many words used in the Benefit Booklet have special meanings. These words appear in capitals and are defined for you. Refer to these definitions in the Definitions section for the best understanding of what is being stated.

This Benefit Booklet also contains Exclusions, so please be sure to read this Benefit Booklet carefully.

# Very Important Note Regarding the Delta Dental PPO Plus Premier Dental Benefits:

The Delta Dental PPO Plus Premier Dental Benefits are part of the LG&E and KU Medical, Dental and Vision Care Plan but are described in the separate Delta Dental PPO Plus Premier Certificate of Coverage Benefit Booklet. However, the following sections of this Benefit Booklet apply to the Delta Dental PPO Plus Premier Dental Benefits: Eligibility and Enrollment; Termination and Continuation; Claims Payment; General Provisions; Complaint and Appeals Procedures; and, ERISA Information and Statement of ERISA Rights.

Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 3 of 114 Meiman

# MEMBER RIGHTS AND RESPONSIBILITIES

## As a Member, You Have the Right to:

- Receive information about the Administrator and its services, practitioners and Providers, and Members' rights and responsibilities;
- Be treated respectfully, with consideration and dignity;
- Receive all the benefits to which you are entitled under the Plan;
- Have a candid discussion with your Provider about treatment options, regardless of their cost or whether they are covered under the Plan;
- Participate with your Physician in decision making about your healthcare treatment;
- Refuse treatment and be informed by your Provider of the medical consequences;
- Receive wellness information to help you maintain a healthy lifestyle;
- Express concern and complaints about the care and services you received from a Provider, or the service you received from the Administrator, and to have the Administrator, on behalf of the Employer, investigate and take appropriate action;
- File a complaint with the Administrator, on behalf of the Employer, to appeal a decision as outlined in the **Complaint & Appeals** section of this Benefit Booklet, and to appeal a decision without fear of reprisal; and
- Privacy and confidential handling of your information;
- Make recommendations regarding the Administrator's rights and responsibilities policies; and
- Designate or authorize another party to act on your behalf, regardless of whether you are physically or mentally incapable of providing consent.

## As a Member, You Have the Responsibility to:

- Understand your health issues and be a wise consumer of health care services;
- Use Providers who will provide or coordinate your total health care needs, and to maintain an ongoing patient-Physician relationship;
- Provide complete and honest information we need to administer benefits and that Providers need to care for you;
- Follow the plan and instructions for care that you and your Provider have developed and agreed upon;
- Understand how to access care in routine, Emergency and urgent situations, and to know your health care benefits as they relate to out-of-area coverage, Coinsurance, Copayments, etc.;
- Notify your Provider or the Administrator about concerns you have regarding the services or medical care you receive;
- Keep appointments for care and give reasonable notice of cancellations;
- Be considerate of other Members, Providers and the Administrator's staff;
- Read and understand your Benefit Booklet and Schedule of Benefits, and other materials from the Administrator or Employer concerning your health benefits;
- Provide accurate and complete information to the Administrator, on behalf of the Employer, about other health care coverage and/or insurance benefits you may carry; and
- Inform the Administrator and the Employer, of changes to your name, address, phone number, or if you want to add or remove Dependents.

This Schedule of Benefits lists the Member's responsibility for Covered Services under the Anthem Blue Access PPO Standard Option. Please refer to the Covered Services section for a more complete explanation of the specific services covered by the Plan. All Covered Services are subject to the conditions, exclusions, limitations, terms and provisions of this Benefit Booklet including any riders.

Benefit Period	Calendar Year	
Age Limits for Children	End of the month child attains age 26. See definition of Child on page 21 for eligibility beyond these age limits for a disabled child.	
Lifetime Maximum Benefit for all Covered Services	No Lifetime Maximum Benefit Amount	

Deductible	Network Provider	Non-Network Provider
Per Person	\$600	\$1,200
Family Limit	\$1,200	\$2,400
Out-of-Pocket Limit		
Per Person	\$3,000	\$6,000
Family Limit	\$6,000	\$12,000

The Out-of-Pocket Limit includes all Deductibles, Copayments and Coinsurance you incur in a Benefit Period, except for Prescription Drug Copayments, Vision Services Plan Copayments, Dental Plan Copayments and Non-Precertification Penalties. Once the per person and/or family Out-of-Pocket Limit is satisfied, no additional Copayments or Coinsurance will be required for the Member and/or family for the remainder of the Benefit Period, except for Prescription Drug Copayments, Vision Services Plan Copayments, Dental Plan Copayments, Dental Plan Copayments and Non-Precertification Penalties.

The Network and Non-Network Deductibles and Out-of-Pocket Limits are cross applied and will accumulate toward each other.

The Deductible(s) apply only to Covered Services with a percentage Coinsurance. Your annual premium cost or copayments for prescriptions, vision, dental, physician office services or urgent care centers do not count toward your deductible.

#### Mail Order Required for Refills Beginning January 1, 2010

- **Maintenance Prescriptions** Beginning January 1, 2010, members are required to use the plan's mail order pharmacy for refilling maintenance prescriptions. Members are allowed three refills at a retail pharmacy. Starting with the fourth refill for that medication, the member must use Express Script's Mail Order Pharmacy for the prescription to be covered by the plan. Members should call Express Scripts at 1-866-677-8928 with questions.
- **Specialty Prescriptions** Beginning January 1, 2010 members using a specialty prescription are required to receive refills using the plan's specialty mail order pharmacy Members should call Express Scripts at 1-866-677-8928 with questions.

This Schedule of Benefits lists the Member's responsibility for Covered Services under the Vision Service Plan. Please refer to the Vision Service Plan section for a more complete explanation of the specific services covered. All Covered Services are subject to the conditions, exclusions, limitations, terms and provisions of this Benefit Booklet including any riders.

Beginning 1/1/2014, vision coverage is offered as a separate, voluntary, employee-paid benefit.

## DEFINITIONS

This section defines terms which have special meanings. If a word or phrase has a special meaning or is a title, it will be capitalized. The word or phrase is defined in this section or at the place in the text where it is used.

Alternate Recipient - Any child of a Subscriber who is recognized under a Qualified Medical Child Support Order (QMCSO) as having a right to enrollment under the Plan with regard to such Subscriber.

**Authorized Service** - A Covered Service rendered by any Provider other than a Network Provider, which has been authorized in advance (except for Emergency Care which may be authorized after the service is rendered) by the Administrator, on behalf of the Employer, to be paid at the Network level.

**Autism** – A condition affecting a Member which includes a total of six or more items from the following subparagraphs of this definition with at least two from the first subparagraph and one each from the second and third paragraphs.

- Qualitative impairment in social interaction as manifested by at least two of the following:
  - 1. Marked impairment in the use of multiple nonverbal behaviors such as eye-to-eye gaze, facial expression, body postures, and gestures to regulate social interaction;
  - 2. Failure to develop peer relationships appropriate to developmental level;
  - 3. A lack of spontaneous seeking to share enjoyment, interests or achievement with other people; or
  - 4. Lack of social or emotional reciprocity.
- Qualitative impairments in communication as manifested by at least one of the following:
  - 1. Delay in or total lack of the development of spoken language;
  - 2. In individuals with adequate speech, marked impairment in the ability to imitate or sustain a conversation with others;
  - 3. Stereotyped and repetitive use of language or idiosyncratic language;
  - 4. Lack of varied spontaneous make believe play or social imitative play appropriate to developmental levels.
- Restricted repetitive and stereotyped patterns of behavior interests and activities as manifested by at least one of the following:
  - 1. Encompassing preoccupation with one or more stereotyped and restricted patterns of interest that is abnormal either in intensity or focus;
  - 2. Apparently inflexible adherence to specific nonfunctional routines or rituals;
  - 3. Stereotyped and repetitive motor mannerisms; or
  - 4. Persistent preoccupation with parts of objects.
- Delays or abnormal functioning in at least one of the following areas with onset prior to three years of age:
  - 1. Social interaction;
  - 2. Language as used in social communication;
  - 3. Symbolic or imaginative play; or
  - 4. The disturbance is not better accounted for by Rett's Disorders or Childhood Disintegrative Disorder.

Benefit Booklet - This summary of the terms of your health benefits.

**Benefit Period** - The period of time that benefits for Covered Services are payable under the Plan. The Benefit Period is listed in the Schedule of Benefits. If your coverage ends earlier, the Benefit Period ends at the same time.

**Brand Name Drug** - The initial version of a medication developed by a pharmaceutical manufacturer, or a version marketed under a pharmaceutical manufacturer's own registered trade name or trademark. The original manufacturer is granted an exclusive patent to manufacture and market a new drug for a certain number of years. After the patent expires, if FDA requirements are met any manufacturer can produce the drug and sell under its own brand name, or under the drug's chemical name (Generic).

**Case Management --** Case Management is a Health Care Management feature designed to assure that your care is provided in the most appropriate and cost effective care setting. This feature allows the Claims Administrator to customize your benefits by approving otherwise non-covered services or arranging an earlier discharge from an Inpatient setting for a patient whose care could be safely rendered in an alternate care setting. That alternate care setting or customized service will be covered only when arranged and approved in advance by the Claims Administrator's Health Care Management staff. In managing your care, the Claims Administrator has the right to authorize substitution of Outpatient Services or services in your home to the extent that benefits are still available for Inpatient Services.

## Child(ren) - Medical/Pharmacy/Vision/Dental Benefits

The Subscriber's child may include:

• natural children,

• legally adopted children (The event date for an adopted child is the earlier of the date of adoption or date of placement for adoption. Placement for adoption means the assumption and retention of legal obligation for total and partial support for a child in anticipation of adoption of such child.),

- children under your legal guardianship (temporary custody not eligible), and
- stepchildren.

Age Limits for Children - End of the month child attains age 26

All enrolled eligible children may continue to be enrolled until the age limits for Children specified in the Schedule of Benefits section of this Benefit Booklet.

Eligibility will be continued past the end of the month the child attains age 26 only for those already enrolled unmarried Children who cannot work to support themselves due to mental retardation or physical or mental handicap. These children must be allowed as a federal tax exemption by the Subscriber or Subscriber's Spouse. The child's disability must start before the end of the period they would become ineligible for benefits. The Plan must certify the child's eligibility. The Employer must be informed of the child's eligibility for continuation of benefits under the Plan within 120 days after the child would normally become ineligible. The Employer may require continued proof of such disability annually after the two year period following this child's attainment of the limiting age.

Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 24 of 114

The Employer may require the Subscriber to submit proof of continued eligibility for any enrolled Meiman child. Your failure to provide this information could result in termination of a child's benefits under the Plan.

To enroll children under the Plan, the Subscriber may be required to provide a copy of any legal documents awarding guardianship of such child(ren) to the Subscriber. Temporary custody is not sufficient to establish eligibility under the Plan. Please see "Eligibility and Enrollment Section" that describes the documents that are required when enrolling dependents under the Plan.

Any foster child who is eligible for any governmental program or law will not be eligible for benefits under the Plan unless required by the laws of the Subscriber's state of residence.

**Claims Administrator** - An organization or entity that the Employer contracts with to provide administrative and claims payment services under the Plan. The Claims Administrators are identified in the section titled ERISA Information and Statement of ERISA Rights. The Employer self-insures many portions of the Plan, so the Claims Administrator does not assume any financial obligation for benefits paid under the self-insured portions of the Plan. The Claims Administrator is a Fiduciary under the Plan and has been delegated the sole authority and discretion to resolve all disputes regarding claims, claims appeals and the interpretation of the Plan, including making any findings of fact necessary for determination of any benefit payable under the Plan. The decision of the Claims Administrator shall be final, conclusive and binding as to all parties, and the Claims Administrator shall be deemed to have properly exercised its authority, unless it has abused its discretion hereunder by acting arbitrarily and capriciously.

**COBRA** – Continuation of health coverage as provided under the Consolidated Omnibus Budget Reconciliation Act of 1986 including subsequent amendment and guidance.

**Coinsurance** - A percentage of the Reasonable Charge for which you are responsible per Covered Service after you meet your Deductible in each Benefit Period.

**Copayment** - A specific dollar amount for Covered Services indicated in the Schedule of Benefits for which you are responsible. The Copayment does not apply towards any Deductible. Your flat dollar Copayment will be the lesser of the amount shown in the Schedule of Benefits or the amount charged by the Provider.

**Covered Services** - Services, supplies or treatment as described in the Covered Services sections of this Benefit Booklet which are performed, prescribed, directed or authorized by a Provider. To be a Covered Service the service, supply or treatment must be:

- Medically Necessary or otherwise specifically included as a benefit under this Benefit Booklet.
- Within the scope of the license of the Provider performing the service.
- Rendered while your coverage under the Plan is in force.
- Not Experimental/Investigative or otherwise excluded or limited by this Benefit Booklet, or by any amendment or rider thereto.
- Authorized in advance by the Claims Administrator if such Precertification is required in the Plan.

A charge for a Covered Service is incurred on the date the service, supply or treatment was provided to you.

**Covered Transplant Procedure** - Any of the Medically Necessary non-Experimental/Investigative human organ and tissue transplants as described in this Benefit Booklet.

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 25 of 114 Meiman

**Custodial Care** - Care primarily for the purpose of assisting you in the activities of daily living or in meeting personal rather than medical needs, and which is not specific treatment for an illness or injury. It is care which cannot be expected to substantially improve a medical condition and has minimal therapeutic value. Such care includes, but is not limited to:

- assistance with walking, bathing, or dressing;
- transfer or positioning in bed;
- normally self-administered medicine;
- meal preparation;
- feeding by utensil, tube, or gastrostomy;
- oral hygiene;
- ordinary skin and nail care;
- catheter care;
- suctioning;
- using the toilet;
- enemas; and
- preparation of special diets and supervision over medical equipment or exercises or over selfadministration of oral medications not requiring constant attention of trained medical personnel.

**Deductible** - The dollar amount of Covered Services listed in the Schedule of Benefits for which you are responsible before benefits are payable under the Plan for Covered Services each Benefit Period.

**Dependent** - A person of the Subscriber's family who is eligible for coverage under the Plan as described in the Eligibility and Enrollment section of this Benefit Booklet.

**Diagnostic Service -** A test or procedure performed when you have specific symptoms to detect or to monitor your disease or condition or a test performed as a Medically Necessary preventive care screening for an asymptomatic patient. It must be ordered by a Provider. Covered Diagnostic Services are limited to those services specifically listed in the Covered Services section.

**Disabled Employee** – A Regular, Full-Time Employee who is receiving disability income benefits (including the period of time covered by a lump sum settlement agreement) under the terms of the LG&E and KU Long Term Disability Plan or any Former Plan.

**Disease Management Program** – the plan may offer a voluntary program to eligible Subscribers and/or Dependents to manage diseases and/or chronic conditions.

**Effective Date** - The date a Member's coverage begins under the Plan. No benefits are payable for services and supplies received before the Member's Effective Date.

**Eligible Person** - A person who satisfies the Plan's eligibility requirements and is entitled to apply to be a Subscriber.

**Emergency** - An accidental traumatic bodily injury or other medical condition that arises suddenly and unexpectedly and manifests itself by acute symptoms of such severity, including severe pain, which the absence of immediate medical attention could, in the judgment of a reasonable person:

- place an individual's health in serious jeopardy;
- result in serious impairment to the individual's bodily functions; or
- result in serious dysfunction of a bodily organ or part of the individual.

**Emergency Care** - Covered Services that are furnished by a Provider within the scope of the Provider's license and as otherwise authorized by law that are needed to evaluate or stabilize an individual in an Emergency.

**Employer** – LG&E and KU Energy LLC, or any successor thereto, and all of the legal entities, or any successors thereto, which are part of a controlled group or affiliated service group with LG&E and KU Energy LLC pursuant to the provisions of Code Sections 414(b), (c), (m) and (o).

**Employment Date** – the date the Employee first performs service for the Employer.

**Enrollment Date -** The first day of coverage under the Plan or, if there is a waiting period, the first day of the waiting period (typically the date employment begins).

**Experimental/Investigative -** Any drug, biologic, device, diagnostic, product, equipment, procedure, treatment, or service used in or directly related to the diagnosis, evaluation, or treatment of a disease, injury, illness, or other health condition which the Claims Administrator or the Claims Administrator's designee, determines in its sole discretion to be Experimental/Investigative. The Claims Administrator will deem any drug, biologic, device, diagnostic, product, equipment, procedure, treatment, service, or supply to be Experimental/Investigative if the Claims Administrator determines that one of more of the following criteria apply when the service is rendered with respect to the use for which benefits are sought. The drug, biologic, device, diagnostic, product, equipment, procedure, treatment, service, or supply:

- cannot be legally marketed in the United States without the final approval of the Food and Drug Administration (FDA), or other licensing or regulatory agency, and such final approval has not been granted;
- has been determined by the FDA to be contraindicated for the specific use; or
- is provided as part of a clinical research protocol or clinical trial or is provided in any other manner that is intended to evaluate the safety, toxicity, or efficacy of the drug, biologic, device, diagnostic, product, equipment, procedure, treatment, service, or supply; or
- is subject to review and approval of an Institutional Review Board (IRB) or other body serving a similar function; or
- is provided pursuant to informed consent documents that describe the drug, biologic, device, diagnostic, product, equipment, procedure, treatment, service, or supply as Experimental/Investigative, or otherwise indicate that the safety, toxicity, or efficacy of the drug, biologic, device, diagnostic, product, equipment, procedure, treatment, service, or supply is under evaluation.

Any service not deemed Experimental/Investigative based on the criteria above may still be deemed Experimental/Investigative by the Claims Administrator. In determining whether a Service is Experimental/Investigative, the Claims Administrator will consider the information described below and assess whether:

- the scientific evidence is conclusory concerning the effect of the service on health outcomes;
- the evidence demonstrates the service improves net health outcomes of the total population for whom the service might be proposed by producing beneficial effects that outweigh any harmful effects;
- the evidence demonstrates the service has been shown to be as beneficial for the total population for whom the service might be proposed as any established alternatives; and
- the evidence demonstrates the service has been shown to improve the net health outcomes of the total population for whom the service might be proposed under the usual conditions of medical practice outside clinical investigatory settings.

The information considered or evaluated by the Claims Administrator to determine whether a drug, biologic, device, diagnostic, product, equipment, procedure, treatment, service, or supply is Experimental/Investigative under the above criteria may include one or more items from the following list which is not all inclusive:

- published authoritative, peer-reviewed medical or scientific literature, or the absence thereof; or
- evaluations of national medical associations, consensus panels, and other technology evaluation bodies; or
- documents issued by and/or filed with the FDA or other federal, state or local agency with the authority to approve, regulate, or investigate the use of the drug, biologic, device, diagnostic, product, equipment, procedure, treatment, service, or supply; or
- documents of an IRB or other similar body performing substantially the same function; or
- consent document(s) and/or the written protocol(s) used by the treating Physicians, other medical professionals, or facilities or by other treating Physicians, other medical professionals or facilities studying substantially the same drug, biologic, device, diagnostic, product, equipment, procedure, treatment, service, or supply; or
- medical records; or
- the opinions of consulting Providers and other experts in the field.

If you have a life-threatening Sickness or condition (one which is likely to cause death within one year of the request for treatment) the Claims Administrator may, in their sole discretion, determine that an Experimental or Investigational Service meets the definition of a Covered Service for that Sickness or condition. For this to take place, the Claims Administrator must determine that the procedure or treatment is promising, but unproven, and that the service uses a specific research protocol that meets standards equivalent to those defined by the <u>National Institutes of Health</u>.

The Claims Administrator or the Claims Administrator's designee has the sole authority and discretion to determine all questions pertaining to whether a service is Experimental/Investigative under this Plan.

Family Coverage – Coverage provided by the Employer for the Subscriber and eligible Dependents.

**Former Plan** – A plan with a prior employer that is recognized by the Employer for purposes of determining eligibility under the LG&E and KU Medical, Dental and Vision Care Plan.

**Formulary** - The list of pharmaceutical products, developed in consultation with Physicians and pharmacists, approved for their quality and cost effectiveness.

**Full-time Student -** Full-time Student is a Child who is enrolled in and attending full-time a recognized course of study or training at:

- An accredited high school;
- An accredited college or university; or
- A licensed vocational school, technical school, beautician school, automotive school or similar training school.

Full-time Student status is determined in accordance with the standards set forth by the educational institution.

A Child continues to be a Full-time Student during periods of regular vacation established by the institution. If the Child does not continue as a Full-time Student immediately following the period of vacation, the Full-time Student designation will end on the last day of the calendar month preceding the month in which such period of vacation ended. For example: Spring semester ends May 10 and students

Page 28 of 114 are on vacation for the calendar months of June and July. Fall semester starts August 25 and if student do not return to school, Full-time Student designation will end July 31.

## • College Student Medical Leave

The plan will extend coverage for up to one year when a college student otherwise would lose eligibility, if a child takes a medically necessary leave of absence from a postsecondary educational institution. Coverage will continue for up to one year of leave, unless dependent coverage ends earlier under another plan provision, such as the parent's termination of employment or the child's age exceeding the plan's limit.

## • Medically necessary change in student status.

The extended coverage is available if a college student would otherwise lose coverage because a serious illness or injury requires a medically necessary leave of absence or a change in enrollment status (for example, a switch from full-time to part-time student status). The plan must receive written certification from the child's physician confirming the serious illness or injury and the medical necessity of the leave or change in status.

## • Coverage continues even if the plan changes.

Dependent coverage will continue during the leave as if the child had maintained student eligibility. This requirement applies even if a plan changes during the extended period of coverage.

**Generic Drugs** - Drugs which have been determined by the FDA to be bioequivalent to Brand Name Drugs and are not manufactured or marketed under a registered trade name or trademark. A drug whose active ingredients duplicate those of a Brand Name Drug and is its bioequivalent, Generic Drugs must meet the same FDA specifications for safety, purity and potency and must be dispensed in the same dosage form (tablet, capsule, cream) as the counterpart Brand Name Drug. On average, Generic Drugs cost about half as much as the counterpart Brand Name Drug.

**Health Care Management --** Health Care Management is a process designed to promote the delivery of cost-effective medical care to all Members by assuring the use of appropriate procedures, setting (place of service), and resources through Case Management and through Precertification review requirements which may be conducted either prospectively (Prospective Review), concurrently (Concurrent Review), or retrospectively (Retrospective Review).

**Identification Card** - A card issued by the Claims Administrator that bears the Subscriber's name, identifies the membership by number, and may contain information about your benefits under the Plan. It is important to carry this card with you.

**Independent Contractor -** An individual engaged by the Employer to perform services not as a Leased Employee or an Employee, even if such individual is subsequently determined by the Internal Revenue Service, the Department of Labor, a court of competent jurisdiction or the Employer to be a common law employee of the Employer.

**Inpatient** - A Member who receives care as a registered bed patient in a Hospital or other Provider where a room and board charge is made. It does not mean a Member who is placed under observation for fewer than 24 hours.

Intern - An employee whose position is through the Employer's formal cooperative/internship programs.

Late Enrollee - An individual whose enrollment under the Plan is a Late Enrollment.

**Late Enrollment** - Enrollment other than on:

- The earliest date on which benefits can become effective under the Plan; or
- The date of an event that qualifies for Special Enrollment.

Leased Employee - An employee is a leased employee if:

- Services are provided under an agreement between the recipient and the leasing organization,
- Services are performed for the recipient or the recipient and related persons on a substantially full-time basis for a period of at least one year, and
- The services are of a type historically performed by employees in the recipient's field of business.

**Lifetime Maximum -** The maximum dollar amount for Covered Services paid by the Plan during your lifetime. Payments made under any current or former medical option of the Plan are used in determining if the Lifetime Maximum has been reached.

**Mail Service -** A prescription drug program which offers a convenient means of obtaining maintenance medications by mail if the Member takes prescription drugs on a regular basis. Covered prescription drugs are ordered directly from the licensed Pharmacy Mail Service which has entered into a reimbursement agreement with the Claims Administrator and sent directly to the Member's home.

**Maximum Allowable Amount** - The amount that the Claims Administrator determines is the maximum amount payable for Covered Services you receive, up to but not to exceed charges actually billed. The determination considers:

- amounts charged by other Providers for the same or similar service;
- any unusual medical circumstances requiring additional time, skill or experience; and/or
- other factors the Claims Administrator determines are relevant, including but not limited to, a resource based relative value scale.
  - The amount accepted by a Network Provider as payment in full under the participation agreement for the Plan.

For a Network Provider, the Maximum Allowable Amount is equal to the amount that constitutes payment in full under the Network Provider's participation agreement for this product. If a Network Provider accepts as full payment an amount less than the negotiated rate under the participation agreement, the lesser amount will be the Maximum Allowable Amount.

For a Non-Network Provider who is a Physician or other non-facility Provider, even if the Provider has a participation agreement with the Claims Administrator for another product, the Maximum Allowable Amount is the lesser of the actual charge or the standard rate under the participation agreement used with Network Providers for the Plan.

For a Non-Network Provider which is a facility, the Maximum Allowable Amount is equal to an amount negotiated with that Non-Network Provider facility for Covered Services under the Plan or any other plan. In the absence of a negotiated amount, the Claims Administrator shall have discretionary authority to establish as the Claims Administrator deems appropriate, the Maximum Allowable Amount for a Non-Network Provider facility. The Maximum Allowable Amount is the lesser of the Non-network Provider facility's charge, or an amount determined by the Administrator, after consideration of any one or more of the following: industry cost, peer reimbursement, utilization data, previously negotiated rates, outstanding offers that the Administrator may have made, or other factors the Administrator, on behalf of the Employer, deems appropriate It is your obligation to pay any Copayments and Deductibles, and any amounts which exceed the Maximum Allowable Amount.

The Maximum Allowable Amount is reduced by any penalties for which a Provider is responsible as a result of its agreement with the Claims Administrator.

**Medically Necessary or Medical Necessity** – An intervention that is or will be provided for the diagnosis, evaluation and treatment of a condition, illness, disease or injury and that is determined by the Claims Administrator to be:

- Medically appropriate for and consistent with the symptoms and proper diagnosis or treatment of the Member's condition, illness, disease or injury;
- Obtained from a Provider;
- Provided in accordance with applicable medical and/or professional standards;
- Known to be effective, as proven by scientific evidence, in materially improving health outcomes;
- The most appropriate supply, setting or level of service that can safely be provided to the Member and which cannot be omitted consistent with recognized professional standards of care (which, in the case of hospitalization, also means that safe and adequate care could not be obtained in a less comprehensive setting);
- Cost-effective compared to alternative interventions, including no intervention ("cost effective" does not mean lowest cost);
- Not Experimental/Investigative;
- Not primarily for the convenience of the Member, the Member's family or the Provider.
- Not otherwise subject to an exclusion under this Benefit Booklet.

The fact that a Provider may prescribe, order, recommend, or approve care, treatment, services or supplies does not, of itself, make such care, treatment, services or supplies Medically Necessary.

The Claims Administrator is the final authority to determine whether services or supplies are Medically Necessary.

**Medical Policy** -- The Claims Administrator's Medical Policy reflects the standards of practice and medical interventions identified as reflecting appropriate medical practice. The purpose of Medical Policy is to assist in the interpretation of Medical Necessity. However, the Benefit Booklet takes precedence over Medical Policy. Medical technology is constantly changing and the Claims Administrator, reserves the right to review and update Medical Policy periodically. The Claims Administrator is the final authority to determine Medical Policy

**Medicare** - The program of health care for the aged and disabled established by Title XVIII of the Social Security Act, as amended.

**Member** - A Subscriber or Dependent who has satisfied the eligibility conditions, applied for coverage, been approved by the Employer and for whom Premium Contribution payment has been made. Members are sometimes called "you" or "your."

**Mental Health Conditions (including Substance Abuse)** - A condition identified as a mental disorder in the most current version of the International Classification of Diseases, in the chapter titled "Mental Disorders".

- **Mental Health** is a condition which manifests symptoms which are primarily mental or nervous, regardless of any underlying physical causes.
- **Substance Abuse** is a condition brought about when an individual uses alcohol or other drug(s) in such a manner that his or her health is impaired and/or ability to control actions is impaired.

In determining whether or not a particular condition is a Mental Health Condition, the Plan may refer theiman the most current edition of the Diagnostic and Statistical Manual of Mental Conditions of the American Psychiatric Association, or the International Classification of Diseases (ICD) Manual.

**Mental Health/Substance Abuse Subcontractor** - An organization or entity that the Claims Administrator has a contract with to provide administrative and claims payment services and/or Covered Services regarding Mental Health/Substance Abuse services under this Plan. These administrative services may also be provided directly by the Claims Administrator.

**Network Physician** - A Physician who has entered into a contractual agreement or is otherwise engaged by the Claims Administrator, or with another organization which has an agreement with the Claims Administrator, regarding payment for Covered Services and certain administration functions for the Network associated with the Plan.

**Network Provider** - A Provider who has entered into a contractual agreement or is otherwise engaged by the Claims Administrator, or with another organization which has an agreement with the Claims Administrator, regarding payment for Covered Services and certain administration functions for the Network associated with the Plan.

**Network Transplant Facility** – A Provider who has entered into a contractual agreement or is otherwise engaged by the Claims Administrator with another organization which has an agreement with the Claims Administrator to provide Covered Services and certain administrative functions to you for the network associated with this Plan. A Hospital may be a Network Transplant Facility with respect to:

- Certain Covered Transplant Procedures; or
- All Covered Transplant Procedures.

**New FDA Approved Drug Product or Technology -** The first release of the brand name product or technology upon the initial FDA New Drug Approval. Other applicable FDA approval for its biochemical composition and initial availability in the marketplace for the indicated treatment and use.

New FDA Approved Drug Product or Technology does not include:

- new formulations: a new dosage form or new formulation of an active ingredient already on the market;
- already marketed drug product but new manufacturer; a product that duplicates another firm's already marketed drug product (same active ingredient, formulation, or combination);
- already marketed drug product, but new use: a new use for a drug product already marketed by the same or a different firm; or
- newly introduced generic medication (generic medications contain the same active ingredient as their counterpart brand-named medications).

**Non-Network Provider** - A Provider who has not entered into a contractual agreement with Claims Administrator or is not otherwise engaged by Claims Administrator for the network associated with this Plan. Providers who have not contracted or affiliated with Claims Administrator's designated Subcontractor(s) for the services they perform under this Plan are also considered Non-Network Providers.

**Non-Network Transplant Facility -** Any Hospital which has not contracted with the transplant network engaged by Claims Administrator to provide Covered Transplant Procedures. A Hospital may be a Non-Network Transplant Facility with respect to:

- Certain Covered Transplant Procedures; or
- All Covered Transplant Procedures.

**Out-of-Pocket Limit -** A specified dollar amount of expense incurred for Covered Services in a Benefit Period as listed in the Schedule of Benefits. Such expense does not include charges in excess of the Maximum Allowable Amount or any non-covered services. Refer to the Schedule of Benefits for other services that may not be included in the Out-of-Pocket Limit. When the Out-of-Pocket Limit is reached, no additional Copayment or Coinsurance is required unless otherwise specified in this Benefit Booklet, subject to the Plan's Lifetime Maximum.

Outpatient - A Member who receives services or supplies while not an Inpatient.

**Participating Employer -** an Employer who has adopted the Plan as shown in the section titled "ERISA Information and Statement of ERISA Rights".

**Pharmacy and Therapeutics Committee** - a committee of physicians and pharmacists who review literature and studies which address the safety, efficacy, approved indications, adverse effects, contraindications, medical outcome, and pharmacoeconomics. The committee will develop, review and/or approve guidelines related to how and when certain drugs and/or therapeutic categories will be approved for coverage.

**Plan** – The LG&E and KU Medical, Dental and Vision Care Plan provided by the Employer and explained in this Benefit Booklet.

**Precertification --** Precertification is a Health Care Management feature which requires that an approval be obtained from the Claims Administrator before incurring expenses for certain Covered Services. The Plan's procedures and timeframes for making decisions for Precertification requests differ depending on when the request is received and the type of service that is the subject of the Precertification request.

**Premium Contribution(s)** - The periodic premium costs specified by the Employer which are required to be paid by you to maintain benefits under the Plan. The Employer has the sole authority to determine your Premium Contribution and may change this amount from time to time. Generally, the Premium Contribution is determined and changed by the Employer for each calendar year. Your contribution is determined by the composite rate for the coverage you select.

**Premium Contribution Period** – Each calendar month. Each Premium Contribution is due the first day of the calendar month for which the Premium Contribution applies. Your and your Dependents coverage will be terminated for non-payment if you do not pay the required Premium Contribution within 31 days of the date due.

**Prescription Legend Drug -** A medicinal substance, dispensed for Outpatient use, which under the Federal Food, Drug & Cosmetic Act is required to bear on its original packing label, "Caution: Federal law prohibits dispensing without a prescription." Compounded medications which contain at least one such medicinal substance are considered to be Prescription Legend Drugs. Insulin is considered a Prescription Legend Drug under this Plan.

**Prescription Order** - A written request by a Provider, as permitted by law, for a drug or medication and each authorized refill for same.

## Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44

Page 33 of 114 Primary Care Physician (PCP) – A Physician who is in family practice, general practice, intervational medicine, pediatrics or obstetrics/gynecology who supervises, coordinates and provides initial care and basic medical services to a Member. The PCP is responsible for maintaining continuity of patient care.

**Prior Authorization** - The process applied to certain drugs and/or therapeutic categories to define and/or limit the conditions under which these drugs will be covered. The drugs and criteria for coverage are defined by the Pharmacy and Therapeutics Committee.

**Provider** - A duly licensed person or facility that provides services within the scope of an applicable license and is a person or facility that the Plan approves. Providers include, but are not limited to, the following persons and facilities:

- Alternative Care Facility A non-hospital health care facility, or an attached facility designated as free standing by a Hospital, that the Plan approves, which provides Outpatient Services primarily for but not limited to:
  - 1. Diagnostic Services such as Computerized Axial Tomography (CAT scan) or Magnetic Resonance Imaging (MRI);
  - 2. Surgery;
  - 3. Therapy Services or rehabilitation.
- Ambulatory Surgical Facility A Provider that:
  - 1. is licensed as such, where required;
  - 2. is equipped mainly to do Surgery;
  - 3. has the services of a Physician and a Registered Nurse (R.N.) at all times when a patient is present;
  - 4. is not an office maintained by a Physician for the general practice of medicine or dentistry; and
  - 5. is equipped and ready to initiate emergency procedures with personnel who are certified in advanced cardiac lifesaving skills.
- **Birthing Center** a Provider, other than a Hospital, where births take place following normal, uncomplicated pregnancies. Such centers must be:
  - 1. constituted, licensed, and operated as set forth in the laws that apply;
  - 2. equipped to provide low-risk maternity care;
  - 3. adequately staffed with qualified personnel who:
    - a. provide care at childbirth;
    - b. are practicing within the scope of their training and experience; and
    - c. are licensed if required; and
  - 4. equipped and ready to initiate emergency procedures in life threatening events to mother and baby by personnel who are certified in advanced cardiac lifesaving skills.
- Certified Registered Nurse Anesthetist Any individual licensed as a Registered Nurse by the state in which he or she practices, who holds a certificate of completion of a course in anesthesia approved by the American Association of Nurse Anesthetists or a course approved by that state's appropriate licensing board and who maintains certification through a recertification process administered by the Council on Recertification of Nurse Anesthetists.
- Home Health Care Agency A public or private agency or organization licensed in the state in which it is located to provide Home Health Care Services.

- **Hospice** A coordinated plan of home, Inpatient and Outpatient care which provides palliative avfeiman supportive medical and other health services to terminally ill patients. An interdisciplinary team provides a program of planned and continuous care, of which the medical components are under the direction of a Physician. Care must be available 24 hours a day, seven days a week. The Hospice must meet the licensing requirements of the state or locality in which it operates.
- **Hospital** A Provider constituted, licensed, and operated as set forth in the laws that apply to Hospitals, which:
  - 1. provides room and board and nursing care for its patients;
  - 2. has a staff with one or more Physicians available at all times;
  - 3. provides 24 hour nursing service;
  - 4. maintains on its premises all the facilities needed for the diagnosis, medical care, and treatment of an illness or injury; and
  - 5. is fully accredited by the Joint Commission on Accreditation of Health Care Organizations.

The term Hospital does not include a Provider, or that part of a Provider, used mainly for:

- 1. nursing care;
- 2. rest care;
- 3. convalescent care;
- 4. care of the aged;
- 5. Custodial Care;
- 6. educational care;
- 7. treatment of alcohol abuse; or
- 8. treatment of drug abuse.
- **Pharmacy** An establishment licensed to dispense prescription drugs and other medications through a duly licensed pharmacist upon a Physician's order. A Pharmacy may be a Network Provider or a Non-Network Provider.
- Physician -
  - 1. a legally licensed doctor of medicine, doctor of osteopathy, or optometry; or
  - any other legally licensed practitioner of the healing arts rendering services which are:
    a. covered by the Plan; and
    - b. within the scope of his or her license.

Physician does not include:

- 1. the Member; or
- 2. the Member's Spouse, parent, child, sister, brother, in-law, or someone residing in the Member's home.
- Skilled Nursing Facility A Provider constituted, licensed, and operated as set forth in applicable state law, which:
  - 1. mainly provides Inpatient care and treatment for persons who are recovering from an illness or injury;
  - 2. provides care supervised by a Physician;
  - 3. provides 24 hour per day nursing care supervised by a full-time Registered Nurse;
  - 4. is not a place primarily for care of the aged, Custodial Care, or treatment of alcohol or drug dependency; and
  - 5. is not a rest, educational, or custodial Provider or similar place.

• Urgent Care Center - A health care facility that is organizationally separate from a Hospital and whose primary purpose is the offering and provision of immediate, short-term medical care, without appointment, for Urgent Care.

**Recovery** – A Recovery is money you receive from another, their insurer or from any "Uninsured Motorist," "Underinsured Motorist," "Medical-Payments," "No-Fault," or "Personal Injury Protection," or other insurance coverage provision as a result of injury or illness. Regardless of how you or your representative or any agreements characterize the money you receive, it shall be subject to the Subrogation and Reimbursement provisions of this Benefit Booklet.

**Reemployment Date** – The date the Employee first performs service for the Employer following a Severance from Service Date.

**Regular, Full-Time Employee -** An employee whose position has an indefinite end or whose position is expected to last twelve (12) months or more, and who is scheduled to work 40 hours per week. If the employee works for a Participating Employer that has a full-time workweek of other than 40 hours, the Participating Employer's full-time equivalent will apply, rather than 40 hours.

**Regular, Part-Time Employee -** An employee whose position has an indefinite end or whose position is expected to last twelve (12) months or more, and who is scheduled to work less than a full-time weekly schedule.

**Respite Care** – Short-term temporary care for people with disabilities provided by persons trained in the behavioral management of persons with pervasive developmental disorders under the supervision of a professional licensed or certified to provide Mental Health services. The care must be provided at facilities that meet the state and/or local licensing certification requirements.

Service Area - The geographical area within which Covered Services under the Plan are available.

**Severance from Service Date** – The date on which the employee's employment with a Participating Employer is terminated.

**Single Coverage** – Coverage for the Subscriber only.

**Skilled Care** - Care which is Medically Necessary and must be performed or supervised by a skilled licensed professional in the observation and/or assessment of treatment of an illness or injury. It is ordered by a Physician and usually involves a treatment plan.

**Specialist** – A Physician who is not a Primary Care Physician.

**Spouse** - The Subscriber's legal spouse in the Subscriber's state of primary residence.

**Stabilize** - The provision of medical treatment to you in an emergency as may be necessary to assure, within reasonable medical probability that material deterioration of your condition is not likely to result from or during any of the following:

- your discharge from an emergency department or other care setting where Emergency Care is provided to you;
- your transfer from an emergency department or other care setting to another facility; or
- your transfer from a Hospital emergency department or other Hospital care setting to the Hospital's

Inpatient setting.

**Subcontractor** - The Claims Administrator and/or Employer may subcontract particular services to organizations or entities that have specialized expertise in certain areas. This may include but is not limited to prescription drugs and mental health/behavioral health and substance abuse services. Such subcontracted organizations or entities may make benefit determinations and/or perform administrative, claims paying, or customer service duties on the Claims Administrator's or Employer's behalf.

**Subscriber -** An eligible employee or retired employee or member of the Employer enrolled under the Plan, whose benefits are in effect and whose name appears on the Identification Card issued by the Claims Administrator.

Substance Abuse -- See definition for Mental Health Conditions (including Substance Abuse).

**Survivor** -- An eligible Survivor is a person who was covered under this Plan as an eligible Dependent of a Regular, Full-Time Employee or a Disabled Employee on the day before the date of death of the Regular, Full-Time Employee or the Disabled Employee.

**Temporary Employee** - An employee who is scheduled to work a regular workweek but is hired for a limited term of employment that is not expected to exceed twelve (12) months, or an employee whose position does not have a regular work schedule (e.g. a person being called in for emergency duty).

**Therapy Services** - Services and supplies used to promote recovery from an illness or injury. Covered Therapy Services are limited to those services specifically listed in the Covered Services section.

**Urgent Care:** An Urgent Care medical problem is an unexpected episode of illness or an injury requiring treatment which cannot reasonably be postponed for regularly scheduled care. It is not considered an Emergency. Urgent Care medical problems include, but are not limited to, ear ache, sore throat, and fever (not above 104 degrees). Treatment of an Urgent Care medical problem is not life threatening and does not require use of an emergency room at a Hospital.

**Visually Necessary or Appropriate:** Services and materials medically or visually necessary to restore or maintain a patient's visual acuity and health and for which there is no less expensive professionally acceptable alternative.

**Waiting Period** - Period of employment following an Employment Date or Reemployment Date that is required before a Subscriber's coverage is effective.

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 37 of 114 Meiman

Benefits payable under the Plan are available to you because of your employment with or membership with the Employer.

In order for you to participate in the Plan, certain requirements must be satisfied. These requirements may include a Waiting Period. The specific time periods and other standards for participation in the Plan are determined by the Employer and/or federal law. Eligibility requirements are below.

## **Eligibility for Employees**

## Subscriber

A person is eligible to participate in the Plan as a Subscriber if the person is a Regular, Full-Time Employee of a Participating Employer; or a Regular, Part-Time Employee who is scheduled to work at least 20 hours per week for a Participating Employer; or a person whose employment is covered by a collective bargaining agreement between a Participating Employer and a union who has met the terms specified in the collective bargaining agreement to be eligible for medical, dental, and vision benefits. A co-op student or an Intern is only eligible for the High Deductible Health Plan (not eligible for HSA).

A Regular, Part-Time Employee who is scheduled to work fewer than 20 hours per week, or a Temporary Employee (excluding a co-op student or an Intern) is not eligible.

Leased Employees, nonleased persons who provide services to a Participating Employer pursuant to an agreement with any other person or organization, and those classified as Independent Contractors are not eligible Subscribers, whether or not deemed common-law employees.

The names of the Participating Employers are found in the ERISA section of this document.

## Dependents

To be eligible under the Plan as a Dependent, the person must be:

- the Subscriber's Spouse, or
- the Subscriber's Child.

## Enrollment

If you and your Spouse are each an eligible Subscriber, you and your Spouse cannot enroll as both a Subscriber and a Dependent.

## **Initial Enrollment**

An Eligible Person can enroll for Single, Employee and Spouse, Employee and Child(ren) or Family Coverage through the Employer. That enrollment must be received within the 30-day period which begins on the date the Employee is first eligible under the Plan. If the Employer does not receive the initial enrollment within this time period, the Eligible Person can only enroll for benefits during the next open enrollment period or special enrollment period, whichever comes first.

Page 38 of 114 If an Eligible Person has one or more Dependents that qualify for coverage under the Plan at the time Meiman the initial enrollment for whom coverage is not elected, those Dependent(s) can only be enrolled for benefits during the next open enrollment period or special enrollment period, whichever comes first.

It is important for you to know which family members are eligible to apply for benefits under Family Coverage. See the section on Eligible Dependents.

# Required Documentation When Adding Dependents for Medical/Pharmacy/Vision/Dental Coverage

You will be required to submit documentation to verify the following dependents.

## Spouse:

- A copy of your marriage certificate; and
- One form of documentation establishing current marital status, such as a joint household bill, joint bank/credit account, or the front page of your most recently filed federal tax return (with all financial information concealed).

**Child(ren):** A copy of the child's birth certificate, which includes the names of the parents or appropriate court order/adoption decree naming you or your spouse as the child's legal guardian.

## Step-Child:

- A copy of the child's birth certificate;
- Employee's marriage certificate; and
- Joint bill/account listing employee and spouse or last year's federal tax return showing a joint filing.

## **Disabled Dependent:**

- A copy of the child's birth certificate, which includes the names of the parents or appropriate court order/adoption decree naming you or your spouse as the child's legal guardian; and
- An Affidavit will need to be completed to prove disability through the insurance carrier.

## How and When to Submit Required Documentation for Adding New Dependents:

Documentation is required when new dependents are added to an employee's medical, dental, and/or vision coverage. Participants have 30 days from the date of the qualifying event to add the new dependent to their coverage and a 60-day window to submit the required documentation. Failure to add your dependent within 30 days of the qualifying event will result in having to wait until the next open enrollment period or a special enrollment period, whichever occurs first, to enroll your dependent. Failure to submit the required documentation within the 60-day window will result in the dependent being retroactively removed from coverage; the dependent will not be eligible to enroll in the Plan until the next open enrollment period or a special enrollment period, whichever occurs first.

To add a new dependent to your coverage, submit a Change in Status form electronically on MyHR or via mail (regular US mail or inter-office), email, or fax to the company's Benefits Department.

**Regular US Mail:** LG&E Center Attn: Benefits Department P.O. Box 32030 Louisville, KY 40232

#### **Inter-office mail:**

LG&E Center Benefits Department 16th floor

Email: Benefits@lge-ku.com

**Fax:** 502-217-2412

Phone: 502-627-2121

## Newborn and Adopted Child Coverage

A child will be considered adopted from the earlier of: (1) the moment of placement in your home, or (2) the date of an entry of an order granting you custody of the child. The child will continue to be considered adopted unless the child is removed from your home prior to issuance of a legal decree of adoption.

Any child born while the mother is enrolled as a Subscriber or Subscriber's Spouse will be covered for 30 days after the birth of the child. Any child adopted while the adopting mother is enrolled as a Subscriber or Subscriber's Spouse will be covered from the date of adoption or placement for adoption for a period of 30 days.

To continue coverage beyond this 30-day period, Participants must add the child to the Plan by submitting a Change in Status Form (as described above) within 30 days of the date of birth, adoption, or placement for adoption, and must submit the required documentation within the 60-day window. If the child is not enrolled within 30 days of the date of birth, adoption, or placement for adoption, coverage will cease at the end of the 30-day period and the child will not be eligible to enroll until the next open enrollment period or special enrollment period, whichever occurs first. If the required documentation is not submitted within the 60-day window, the child will be retroactively removed from coverage and will not be eligible to enroll until the next open enrollment period or a special enrollment period, whichever occurs first.

## **Qualified Medical Child Support Order**

If you are required by a qualified medical child support order or court order, as defined by ERISA, to enroll your child under the Plan, the Employer will permit your child to enroll without regard to any enrollment limits and shall provide the benefits of the Plan in accordance with the applicable requirements of such order. Any claims payable under the Plan will be paid to the child or the child's custodial parent or legal guardian, for any expenses paid by the child, custodial parent, or legal guardian. The Claims Administrator will make information available to the child, custodial parent, or legal guardian on how to obtain benefits and submit claims to the Claims Administrator directly.
#### **Special Enrollment**

A Special Enrollment period may occur if an Eligible Person or Dependent loses other health plan coverage for specified reasons; or if an Eligible Person or Subscriber gains a new Dependent through marriage, birth, adoption, or placement for adoption. If an Eligible Person or Dependent enrolls during a Special Enrollment period, even if it is at the same time as an open enrollment period, that person will not be treated as a Late Enrollee.

## **Special Enrollment for Loss of Other Coverage**

The Special Enrollment period for loss of other coverage is available to Eligible Persons and their Dependents who meet the following requirements:

- the Eligible Person and/or their Dependent must otherwise be eligible for coverage;
- when the Eligible Person or Dependent declined coverage under this Plan, he or she must have been covered under another group plan or must have had other health insurance coverage.

The rights under this Special Enrollment period may apply with respect to:

- an Eligible Person;
- a Dependent of an Eligible Person; or
- both.

An Eligible Person who has not previously enrolled may enroll during the Special Enrollment period if they have lost their other coverage. A Dependent of a Subscriber may enroll during the Special Enrollment period if the Dependent lost their other coverage and the Subscriber is currently enrolled in this Plan. In addition, both the Eligible Person and a Dependent can enroll together if either the Eligible Person or the Dependent loses other coverage.

If the other coverage is COBRA continuation coverage, then Special Enrollment can only be requested after the COBRA continuation coverage has exhausted. If the other coverage is not COBRA continuation coverage, then Special Enrollment for the Eligible Person or Dependent can only be requested after one of the following has occurred:

- eligibility for the other coverage was lost; or
- employer contribution for the other coverage has ended.

Special Enrollment is not available if the other coverage is lost due to failure to pay premium or for fraud or misrepresentation.

Request for Special Enrollment must be made within 30 days of the loss of other coverage. Coverage under Special Enrollment will be effective no later than the first day of the month after the Eligible Person requests enrollment for himself or herself, or a Subscriber requests enrollment on behalf of a Dependent.

#### **Special Enrollment for New Dependents**

A Special Enrollment period also occurs if an Eligible Person or a Subscriber acquires a new Dependent by marriage, birth, adoption, or placement for adoption. Participants have 30 days from the date of the marriage, birth, adoption, or placement for adoption to add the new dependent(s) to their coverage, and a 60-day window to submit the required documentation.

- An Eligible Person who has previously declined to enroll is permitted to enroll themselves and thereiman Dependents when they marry or acquire a new child as result of birth, adoption, or placement for adoption.
- A Subscriber may enroll their Spouse separately at the time of marriage or a Child at the time of birth, adoption or placement for adoption.

Failure to add the new dependent(s) within 30 days will result in waiting until the next open enrollment period or another special enrollment period, whichever occurs first. Failure to submit the required documentation within the 60-day window will result in the dependent being retroactively removed from coverage; the dependent will not be eligible to enroll until the next open enrollment period or another special enrollment period, whichever occurs first.

Upon enrollment, coverage with respect to marriage will be effective on the first of the month following receipt of the Change in Status form that adds the Spouse to the Plan; and coverage with respect to birth, adoption, or placement for adoption will be effective as of the date of birth, adoption, or placement for adoption.

## Special Enrollment Related to Medicaid and CHIP

Eligible Employees and Dependents may also enroll under two additional circumstances:

- The Employee's or Dependent's Medicaid or Children's Health Insurance Program (CHIP) coverage is terminated as a result of loss of eligibility; or
- The Employee or Dependent becomes eligible for a subsidy (state premium assistance program)

The Employee or Dependent must request Special Enrollment within 60 days of the loss of Medicaid/CHIP or of the eligibility determination.

#### NOTICE FOR HIPAA SPECIAL ENROLLMENT RIGHTS

If you are declining enrollment for yourself or your dependents because of other health insurance or group health plan coverage, you may be able to enroll yourself and your dependents in this plan if you or your dependents lose eligibility for that other coverage. However, you must request enrollment within 30 days after your or your dependents' other coverage ends. In addition, if you have a new dependent as a result of marriage, birth, adoption, or placement for adoption, you may be able to enroll yourself and your dependents. However, you must request enrollment within 30 days after the marriage, birth, adoption or placement for adoption. To request special enrollment or obtain more information, contact the LG&E and KU Benefits Department at (502) 627-2121.

# PREMIUM ASSISTANCE UNDER MEDICAID AND THE CHILDREN'S HEALTH INSURANCE PROGRAM (CHIP)

If you or your children are eligible for Medicaid or CHIP and you are eligible for health coverage from your employer, your State may have a premium assistance programs that can help pay for coverage. These States use funds from their Medicaid or CHIP programs to help people who are eligible for these programs, but also have access to health insurance through their employer. If you or your children are not eligible for Medicaid or CHIP, you will not be eligible for these premium assistance programs.

Page 42 of 114 If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, you can contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, you can contact your State Medicaid or CHIP office or dial **1-877-KIDS NOW** or **www.insurekidsnow.gov** to find out how to apply. If you qualify, you can ask the State if it has a program that might help you pay the premiums for an employer-sponsored plan.

Once it is determined that you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must permit you to enroll in your employer plan if you are not already enrolled. This is called a "special enrollment" opportunity, and **you must request coverage within 60 days of being determined eligible for premium assistance**. If you have questions about enrolling in your employer plan, you can contact the Department of Labor electronically at <u>www.askebsa.dol.gov</u> or by calling toll-free 1-866-444-EBSA (3272).

If you live in one of the following States, you may be eligible for assistance paying your employer health plan premiums. The following partial list of States is current as of July 31, 2014. You should contact your State for further information on eligibility.

INDIANA - Medicaid	VIRGINIA - Medicaid and CHIP

To see if any more States have added a premium assistance program since July 31, 2014 or for more information on special enrollment rights, you can contact either:

U.S. Department of Labor Employee Benefits Security Administration <u>www.dol.gov/ebsa</u> 1-866-444-EBSA (3272) U.S. Department of Health and Human Services Centers for Medicare & Medicaid Services <u>www.cms.hhs.gov</u> 1-877-267-2323, Ext. 61565

#### Late Enrollment

An Eligible Person or Dependent who did not request enrollment for coverage with the Plan during the initial enrollment period, as a newly eligible person, or a special enrollment period during which the individual was entitled to enroll is considered a Late Enrollee and not eligible to enroll for coverage with the Plan until the next Open Enrollment Period.

#### **Open Enrollment**

An Open Enrollment Period shall be held at least once every calendar year. Eligible Members and their eligible Dependents may enroll during this period.

#### Nondiscrimination

No person who is eligible to enroll will be refused enrollment based on health status, health care needs, genetic information, previous medical information, disability or age.

## **Effective Date of Coverage**

Subscriber coverage is effective on the date coincident with or next following the latest of:

- The Effective Date shown in Schedule of Benefits.
- The date the Subscriber enrolls for coverage.
- The date the Subscriber starts work.

#### **Statements and Forms**

Subscribers or applicants for coverage shall complete and submit applications or other forms or statements the Claims Administrator or Employer may request. Subscribers or applicants for coverage represent to the best of their knowledge and belief that all information contained in such applications, questionnaires, forms, or statements submitted to the Plan is true, correct, and complete. Subscribers and applicants for coverage understand that all rights to benefits under the Plan are subject to the condition that all such information is true, correct and complete. Any misrepresentation or failure to provide requested information may result in termination of benefits.

#### **Delivery of Documents**

The Claims Administrator will provide an Identification Card for each Subscriber. The Employer will provide a Benefit Booklet for each Eligible Person.

#### **Notice of Ineligibility**

You must notify the Claims Administrator and the Employer within 30 days of any changes which will affect your Dependent's eligibility for services or benefits under the Plan.

## **Eligible Disabled Employee**

A Disabled Employee is eligible for coverage under the Plan until the earliest of the following events occurs:

- The end of the calendar month that the Disabled Employee is no longer receiving disability income benefits (including the period of time covered by a lump sum settlement agreement) under the LG&E and KU Long Term Disability Plan;
- The end of the calendar month the Disabled Employee dies;
- The end of the calendar month the Disabled Employee retires;
- The date the Plan is terminated; or
- The beginning of the calendar month the Disabled Employee does not pay the required Premium Contribution.

#### Eligible Dependent of an Eligible Disabled Employee

If a person is an eligible Disabled Employee as described above and elects to continue coverage, this Disabled Employee may elect to continue coverage for eligible Dependents.

## **Eligible Survivors**

An eligible Survivor is a person who was covered under this Plan as an eligible Dependent of a Regular, Full-Time Employee or a Disabled Employee on the day before the date of death of the Regular, Full-Time Employee or the Disabled Employee.

For a Survivor of a Regular, Full-Time Employee or a Disabled Employee, coverage under the Plan will continue until the earliest of the following events occurred:

- The end of the sixtieth calendar month after the date of death of the Regular, Full-Time Employee or the Disabled Employee;
- The end of the calendar month the Surviving Child no longer meets the definition of a Child;
- The date the Plan is terminated; or
- The beginning of the calendar month the Survivor does not pay the required Premium Contribution.

For a survivor of a Regular, Part-Time Employee, there is no survivor coverage. However, the survivor will be offered continued medical benefits for up to 36 months under the provisions of COBRA.

If the date of death of the Regular, Full-Time Employee; or the Disabled Employee occurs under the provisions of a Former Plan, the Survivor provisions of the Former Plan continue to apply.

#### **30-DAY ADVANCE NOTICE OF COVERAGE RESCISSION**

Under the Affordable Care Act, effective for plan years beginning on or after Sept. 23, 2010 (Jan. 1, 2011 in the case of a calendar year group health plan), LG&E and KU may not rescind a participant's coverage (that is, terminate that coverage retroactively) except in the case of fraud or the individual's intentional representation of a material fact, as prohibited by the plan terms.

In addition, LG&E and KU must provide at least 30 days advance written notice to each participant who would be affected before any coverage may be rescinded. Separately, LG&E and KU may cancel coverage, even retroactively, if the termination of coverage is due to a failure to pay required premiums or contributions toward the cost of coverage on a timely basis.

Other requirements of Federal or State law may apply in connection with a rescission of coverage.

# Termination

## It is the responsibility of the Employer to notify you if the Plan is terminated.

Except as otherwise provided, your benefits will terminate as follows:

- Subject to the Federal Continuation of Coverage (COBRA), if you cease to meet eligibility requirements as outlined in this Benefit Booklet, your benefits will terminate automatically at midnight of the last day of the calendar month for which Premium Contributions have been paid. You shall notify the Claims Administrator and/or the Employer immediately if you cease to meet the eligibility requirements. You shall be responsible for payment for any services incurred by you after you cease to meet eligibility requirements.
- If you engage in fraudulent conduct or furnish the Employer or Claims Administrator fraudulent or misleading information relating to claims or application for benefits or fail to provide information requested by the Employer or Administrator, then the Employer may terminate your benefits. Termination is effective on the date you engaged in fraudulent conduct or furnished fraudulent or misleading material information, whichever is applicable. You shall be responsible to pay the Employer for the cost of previously received services based on the Maximum Allowable Amounts for such services, less any Deductibles, Coinsurance and/or Copayments made or Premium Contributions paid for such services. The Employer will also terminate your Dependent's benefits, effective on the date your benefits were terminated.
- If you permit the use of your or any other Member's Identification Card by any other person; use another person's card; or use an invalid card to obtain services, your coverage shall terminate immediately. Any Subscriber or Dependent involved in the misuse of an Identification Card will be liable to and must reimburse the Employer for the Maximum Allowable Amounts for services received through such misuse.
- If you fail to pay or fail to make satisfactory arrangements to pay any amount due to the Employer or Network Providers (including the failure to pay required Deductibles, Coinsurance and/or Copayments), the Employer may terminate the rights of the Subscriber and may also terminate the rights of all the Subscriber's Dependents, effective immediately.
- If you fail to pay the Premium Contribution specified by the Employer within the Premium Contribution Period, your and your Dependent's benefits will terminate effective at the end of the most recent Premium Contribution Period for which you have paid the required Premium Contribution.
- A Dependent's benefits terminate on the date that person no longer meets the definition of Dependent.

# Federal Continuation of Coverage (COBRA)

Since the Employer is subject to the requirements of the Consolidated Omnibus Budget Reconciliation Act (COBRA) of 1985 as amended, the Plan provides that each of the qualified beneficiaries listed below has the right to choose continuation coverage if his or her coverage under the Plan would otherwise end. The election period lasts for 60 days and begins to run on the later of either the date that the qualified beneficiary would lose coverage due to the qualifying event or the date you are sent notice of your right to continuation coverage. Unless the election specifies otherwise, an election by a covered Subscriber or a Spouse is also considered an election on behalf of any other qualified beneficiary who would also lose coverage due to that qualifying event.

#### **Qualifying Events and Qualified Beneficiaries**

The following qualified beneficiaries (not including employees of a Participating Employer who are nonresident aliens who received no income constituting earned income under federal law from the Employer and the nonresident aliens' Dependents) have the right to continuation coverage when one of the following qualifying events results in a loss of coverage under the Plan:

- 1. Upon the death of the covered Subscriber: the Spouse and Children.
- 2. Upon the covered Subscriber's termination of employment (for other than gross misconduct) or reduction in work hours with a Participating Employer: the Subscriber and his or her eligible Dependents.
- 3. Upon the divorce or legal separation of the covered Subscriber: the divorced or legally separated Spouse and Children.
- 4. Upon the covered Subscriber becoming enrolled in Medicare under Title XVIII of the Social Security Act: the Spouse and Children.
- 5. Upon the disqualification of a Child under the Plan's eligibility requirements: the Child not meeting such requirements.

For the purposes of this section, coverage for a Child includes coverage for any child born to or placed for adoption with a qualified beneficiary after a qualifying event if proper notice is provided to the Employer of the birth or adoption.

#### **Duration of Continuation Coverage**

- 1. For the events explained in items "1," "3," "4," and "5" under "Qualifying Events and Qualified Beneficiaries," continuation coverage is provided for 36 months after the date of the initial qualifying event.
- 2. For the event explained in item "2" under "Qualifying Events and Qualified Beneficiaries," continuation coverage is provided for 18 months after the date of the qualifying event.

Exceptions:

- a. If the qualifying event under items "1," "3," "4," or "5" above occurs during the 18-month period from date continuation coverage would have ended due to item "2", continuation coverage will be continued an additional 18 months; or
- b. If a qualified beneficiary is determined under Titles II or XVI of the Social Security Act to be disabled at any time prior to or during the first 60 days of continuation coverage under item "2," under "Qualifying Events and Qualified Beneficiaries," continuation coverage will be extended an additional 11 months.

However, coverage will be extended only if the qualified beneficiary gives notice of the disability within 60 days after the disability is determined and before the end of the original 18-month continuation period. When the qualified beneficiary is no longer disabled, you must notify the Employer within 30 days after the final determination is made under Titles II and XVI.

c. If the Subscriber became enrolled in Medicare prior to the qualifying event, the period of coverage for qualified beneficiaries other than the Subscriber shall be the longer of 30 months from the termination or reduction in hours of employment or 36 months from the earlier Medicare entitlement.

The maximum period for all qualifying events is 36 months.

## **Premium Contributions**

You must pay Premium Contributions for any period of continuation coverage. If you make the election after the qualifying event, any Premium Contributions due must be paid by 45 days after the date of the election.

## Cancellation

Continuation coverage will terminate if:

- 1. the Employer ceases to provide any group health Plan to its Subscribers;
- 2. Premium Contributions are not paid on time;
- 3. upon the date, after the date of continuation coverage election, the qualified beneficiary first becomes covered under another group health plan that:
  - a. does not contain any limitation regarding a pre-existing condition of the beneficiary; or
  - b. does contain a pre-existing exclusion or limitation that would apply to the beneficiary but is not applicable because of the Federal Health Insurance Portability and Accountability Act of 1996's rule on pre-existing condition clauses;
- 4. upon the date, after the date of continuation coverage election, a qualified beneficiary first becomes enrolled in Medicare benefits under Title XVIII of the Social Security Act; or
- 5. a qualified beneficiary whose continuation period was extended due to disability under paragraph "2b" under "Duration of Continuation Coverage." Continuation coverage will cease on the later of (a) the first day of the month that begins more than 30 days after the date of the final determination, under the Social Security Act, that the qualified beneficiary is no longer disabled, and (b) 18 months after the date of the qualifying event explained in item "2" under "Qualifying Events and Qualified Beneficiaries."

# **Family and Medical Leave Act**

Any Subscriber entitled to FMLA leave may continue their benefits, and any Dependents' benefits, under the Plan as if continuously employed during the entire FMLA leave period. Certain limitations stated below may apply. No new conditions or waiting periods will apply to the benefits upon your return to work.

You may be entitled to FMLA leave for the following reasons:

- Birth of a child, and to care for such child;
- Placement of a child with you for adoption or foster care;
- To care for your seriously ill Spouse, child, or parent;
- A serious health condition that makes you unable to perform your job functions.

The Employer shall be responsible for determination of your eligibility, rights, or length of leave period for FMLA for purposes of continuing your benefits under the Plan.

# **Continuation of Coverage Due to Military Service**

In the event you are no longer at work due to military service in the Armed Forces of the United States, you may elect to continue health coverage for yourself and your Dependents (if any) under the Plan in accordance with the Uniformed Services Employment and Reemployment Rights Act of 1984, as amended.

"Military service" means performance of duty on a voluntary or involuntary basis, and includes active duty, active duty for training, initial active duty for training, inactive duty training, and full-time National Guard duty.

You may elect to continue to cover yourself and your eligible Dependents (if any) under the Plan by notifying your Employer in advance and payment of any required Premium Contribution for health coverage. This may include the amount the Employer normally pays on your behalf. If your military service is for a period of time less than 31 days, you may not be required to pay more than the active Member Premium Contribution, if any, for continuation of health coverage.

If continuation is elected under this provision, the maximum period of health coverage under the Plan shall be the lesser of:

- The 24 month period beginning on the first date of your absence from work; or
- The day after the date on which you fail to apply for or return to a position of employment.

Regardless whether you continue your health coverage, if you return to your position of employment your health coverage and that of your eligible Dependents (if any) will be reinstated under the Plan. No exclusions or waiting period may be imposed on you or your eligible Dependents in connection with this reinstatement unless a sickness or injury is determined by the Secretary of Veterans Affairs to have been incurred in, or aggravated during, the performance of military service.

# **Certification of Prior Creditable Coverage**

If your coverage under this Plan is terminated, you and your covered Dependents will receive a certification that shows your period of coverage under this health benefit plan. You may need to furnish the certification if you become eligible under another group health plan. You may also need the certification to buy, for yourself or your family, an individual policy that does not exclude coverage for medical conditions that were present before your enrollment. You and your Dependents may request a certification within 24 months of losing coverage under this health benefit plan. If you have any questions, contact the customer service telephone number listed on the back of your Identification Card.

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 49 of 114 Meiman

## **Network Services and Benefits**

If your care is rendered by a Network Provider benefits will be provided at the Network level. The Claims Administrator is the final authority to determine if the services are Covered Services.

If the type of Provider is not included in the Network, the Claims Administrator may approve a Non-Network Provider for that service as an Authorized Service.

Network Providers include Physicians, Professional Providers, Hospitals and Facility Providers who contract with the Claims Administrator to perform services for you. For services rendered by Network Providers:

- you will not be required to file any claims for services you obtain directly from Network Providers.
- Network Providers will seek compensation for Covered Services rendered from the Plan and not from you except for approved Copayments, Deductibles and Coinsurance.
- you may be billed by your Network Provider(s) for any non-covered services you receive or where you have not acted in accordance with this Plan.

Health Care Management is the responsibility of the Network Provider.

Contact your Network Provider or the Claims Administrator to be sure that Precertification has been obtained.

## **Non-Network Services**

Services which are not obtained from a Network Provider or not an Authorized Service will be considered a Non-Network Service. The only exceptions are Emergency Care and Urgent Care. In addition, certain services are not covered unless obtained from a Network Provider -- see your Schedule of Benefits.

For services rendered by a Non-Network Provider, you are responsible for:

- obtaining any Precertification which is required;
- filing claims;
- higher cost sharing amounts; and
- any amount charged by the Provider in excess of the Maximum allowable Amount.

## **Relationship of Parties** (Claims Administrator - Network Providers)

The relationship between the Claims Administrator and Network Providers is an independent contractor relationship. Network Providers are not agents or employees of the Claims Administrator, nor is the Claims Administrator, or any employee of the Claims Administrator, an employee or agent of Network Providers.

Neither the Claims Administrator nor the Employer shall be responsible for any claim or demand as a result of damages arising out of, or in any manner connected with, any injuries suffered by a Member while receiving care from any Provider or in any Provider's facilities.

Your Network Provider's agreement for providing Covered Services may include financial incentives or

risk sharing relationships related to provision of services or referrals to other Providers, includiveriman Network Providers and Non-Network Providers and disease management programs. If you have questions regarding such incentive or risk sharing relationships, please contact your Provider or the Claims Administrator.

## Not Liable for Provider Acts or Omissions

The Claims Administrator and/or the Employer are not responsible for the actual care you receive from any person. The Plan does not give anyone any claim, right, or cause of action against the Claims Administrator and/or the Employer based on what a Provider of health care, services or supplies, does or does not do.

# **Identification Card**

When you receive care from your Network Provider or other Provider, you must show your Identification Card. Possession of an Identification Card confers no right to services or other benefits under the Plan. To be entitled to such services or benefits you must be a Member on whose behalf all applicable Premium Contributions under the Plan have been paid. Any person receiving services or other benefits to which he or she is not then entitled under the provisions of the Plan will be responsible for the actual cost of such services or benefits.

#### PATIENT PROTECTION DISCLOSURE

LG&E and KU generally allow the designation of a primary care provider. You have the right to designate any primary care provider who participates in our network and who is available to accept you or your family members. For information on how to select a primary care provider, and for a list of the participating primary care providers, contact Anthem at 1-877-750-6062.

For children, you may designate a pediatrician as the primary care provider.

You do not need prior authorization from Anthem or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, contact Anthem at 1-877-750-6062.

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 51 of 114 Meiman

Health Care Management is included in your health care benefits to encourage you to seek quality medical care on the most cost-effective and appropriate basis.

Health Care Management is a process designed to promote the delivery of cost-effective medical care to all Members by assuring the use of appropriate procedures, setting (place of service), and resources through Case Management and through Precertification review requirements which may be conducted either prospectively (Prospective Review), concurrently (Concurrent Review), or retrospectively (Retrospective Review).

If you have any questions regarding Health Care Management or to determine which services require Precertification, call the Precertification telephone number on the back of your Identification Card or refer to the Claims Administrator's web site.

Members are entitled to receive upon request and free of charge reasonable access to and copies of documents, records, and other information relevant to the Member's Precertification request.

Your right to benefits for Covered Services provided under this Benefit Booklet is subject to certain policies, guidelines and limitations, including, but not limited to, the Claims Administrator's Medical Policy.

A description of each health care management feature, its purpose, requirements and effects on benefits is provided in this section.

# **Medical Policy**

The Claims Administrator's Medical Policy reflects the standards of practice and medical interventions identified as reflecting appropriate medical practice. The purpose of Medical Policy is to assist in the interpretation of Medical Necessity. However, the Benefit Booklet takes precedence over Medical Policy. Medical technology is constantly changing and the Claims Administrator, reserves the right to review and update Medical Policy periodically. The Claims Administrator is the final authority to determine Medical Policy.

# Precertification

# **NOTICE:** Precertification does NOT guarantee coverage for or the payment of the service or procedure reviewed.

*Precertification* is a Health Care Management feature which requires that an approval be obtained from the Claims Administrator before incurring expenses for certain Covered Services. The Plan's procedures and timeframes for making decisions for Precertification requests differ depending on when the request is received and the type of service that is the subject of the Precertification request.

*Urgent Review* means a review for medical care or treatment that in the opinion of the treating Provider or any Physician with knowledge of the Member's medical condition, could in the absence of such care or treatment, seriously jeopardize the life or health of the Member or the ability of the Member to regain maximum function, or, in the opinion of a Physician with knowledge of the Member's medical condition,

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 52 of 114

would subject the Member to severe pain that cannot be adequately managed without such care **Meiman** treatment. Applying the prudent layperson standard, the Claims Administrator may determine that an Urgent Review should be conducted. Concurrent Reviews of continued Hospital stays will always be considered urgent.

When care is evaluated, both Medical Necessity and appropriate length of stay will be determined. Medical Necessity includes a review of both the services and the setting. For certain services you will be required to use the Provider designated by the Claims Administrator's Health Care Management staff. The care will be covered according to your benefits for the number of days approved unless the Claims Administrator's Concurrent Review determines that the number of days should be revised. If a request is denied, the Provider may request a reconsideration. The Claims Administrator's Physician reviewer will be available by telephone for the reconsideration within one business day of the request. An expedited reconsideration may be requested when the Member's health requires an earlier decision.

Generally, the ordering Provider, facility or attending Physician may call to request a Precertification review ("requesting provider"). The Claims Administrator will work directly with the requesting Provider for the Precertification request. However, you may designate an authorized representative to act on your behalf for a specific Precertification request. The authorized representative can be anyone who is 18 years or older. For Urgent Reviews as defined above, the requesting Provider will be presumed to be acting as your authorized representative. For more information on the Plan's process for designating an authorized representative, call the Precertification telephone number on the back of your Identification Card.

**It is your responsibility to obtain Precertification.** You should verify that the Provider obtains the required Precertification or obtain the required Precertification yourself. If you do not obtain any required Precertification, you are responsible for all charges for services the Claims Administrator, on behalf of the Employer, determines are not Medically Necessary and a non-compliance penalty of \$300. If you do not obtain the required Precertification, a Retrospective Review will be done to determine if your care was Medically Necessary. You are responsible for all charges for services the Claims Administrator determines are not Medically Necessary.

You are responsible for obtaining Precertification from Anthem for any service that requires precertification. You will need to call Anthem's Precertification customer service phone number on the back of your Anthem ID card and ask if your service requires precertification.

# **Precertification Procedures**

*Prospective review* means a review of a request for Precertification that is conducted prior to a Member's Hospital admission or course of treatment. For Prospective Reviews, a decision will be made and telephone notice of the decision will be provided to the requesting provider, as soon as possible, taking into account the medical circumstances, but not later than two business days from the time the request is received by the Claims Administrator. For Urgent Reviews, telephone notice will be provided to the requesting provider as soon as possible taking into account the medical urgency of the situation, but not later than one calendar day from the time the request is received by the Claims Administrator.

If additional information is needed to certify benefits for services, the Claims Administrator will notify the requesting Provider by telephone and send written notification to you or your authorized representative and the requesting provider of the specific information necessary to complete the review as soon as possible, but not later than two business days after receipt of the request. For Urgent Reviews the Claims Administrator will notify the requesting provider by telephone of the specific information Page 53 of 114 necessary to complete the review within 24 hours after receipt of the request by the Claimeiman Administrator.

The requested information must be provided to the Claims Administrator within 45 calendar days. Note: If the 45<sup>th</sup> day falls on a weekend or holiday, the time frame for submission is extended to the next business day. For urgent reviews, the requested information must be provided within 48 hours after the Claims Administrator's request for specific information.

A decision will be made and telephone notice of the decision will be provided to the requesting provider as soon as possible, but not later than two business days (one calendar day for Urgent Reviews) after the Claims Administrator's receipt of the requested information.

If a response to the Claims Administrator's request for specific information is not received or is not complete, a decision will be made based upon the information in the Claims Administrator's possession and telephone notice of the decision will be provided to the requesting provider not later than two business days (one calendar day for urgent reviews) after the expiration of the period to submit the requested information.

Written notice of Prospective Review decisions will be provided to you or your authorized representative and the Provider(s) within one business day of the date the decision is rendered.

# **Concurrent Review**

*Concurrent review* means a review of a request for Precertification that is conducted during a Member's Inpatient Hospital stay or course of treatment. As a result of Concurrent Review, additional benefits may be approved for care which exceeds the benefit(s) originally authorized by the Claims Administrator's Health Care Management staff.

If a request for Concurrent Review is received within 24 hours prior to the expiration of the end of the approved care, and it qualifies for Urgent Review, a decision will be made and telephone notice of the decision will be provided to the requesting provider as soon as possible, taking into account the medical urgency of the situation, but not later than 24 hours from the time the request is received by the Claims Administrator. If the request is not received within 24 hours prior to the end of the approved care, the decision will be made and telephone notice of the decision will be provided to the request is received by the Claims Administrator.

For Concurrent Reviews that do not qualify for Urgent Review, the decision will be made and telephone notice will be provided to the requesting provider within one business day from the time the request is received by the Claims Administrator.

If additional information is needed to certify benefits for services for a Concurrent Review that does not qualify for Urgent Review, the Claims Administrator will notify the requesting provider by telephone and will send written notice to you or your authorized representative and the requesting provider of the specific information necessary to complete the review within one business day after receipt of the request. You or your authorized representative and the requesting provider days from the date of the Claims Administrator's request to provide the information to the Claims Administrator. Note: If the 45<sup>th</sup> day falls on a weekend or holiday, the time frame for submission is extended to the next business day. A decision will be made and telephone notice of the decision will be provided to the requesting provider within one business day from the time the requested information is received by the

Claims Administrator. If a response to the Claims Administrator's request for specific information is Meiman received or is not complete, a decision will be made based upon the information in the Claims Administrator's possession and telephone notice of the decision will be provided to the requesting provider not later than one business day after expiration of the period to submit the requested information.

Written notice of Concurrent Review decisions will be sent to you or your authorized representative and the Provider(s) within one business day of the date the decision is rendered.

The Claims Administrator will not reduce or terminate a previously approved on-going course of treatment until you or your authorized representative receive telephone notice of the Claims Administrator's decision and have an opportunity to appeal the decision and receive notice of the appeal decision.

## **Retrospective Review**

*Retrospective review* means a review of a request for Precertification that is conducted after health care services have been provided to a Member but prior to a claim being submitted. It does not include the review of a claim. If Precertification is required and approval is not obtained prior to the service being rendered, the Claims Administrator will conduct a Retrospective Review.

For Retrospective Review, a decision will be made within 2 business days from the time the request is received by the Claims Administrator.

If additional information is needed to certify benefits for services, the Claims Administrator will notify you or your authorized representative and the requesting provider in writing of the specific information necessary to complete the review within 2 business days after receipt of the request.

You or your authorized representative and the requesting provider have 45 calendar days from the date of the Claims Administrator's request to provide the information to the Claims Administrator. Note: If the 45th day falls on a weekend or holiday, the time frame for submission is extended to the next business day.

A decision will be made within 2 business days from the time the requested information is received by the Claims Administrator. If a response to the Claims Administrator's request for specific information is not received or is not complete, a decision will be made based upon the information in the Claims Administrator's possession not later than 2 business days after expiration of the period to submit the requested information.

Written notice of Retrospective Review decisions will be provided to you or your authorized representative and the Provider(s) within 2 business days from the time the request is received by the Claims Administrator.

If additional information is requested for a Retrospective Review, written notice of the decision will be provided within 2 business days of receiving the requested information or 2 business days of the expiration of the time period for submitting the information, whichever occurs first.

## **Case Management**

Case Management is a Health Care Management feature designed to assure that your care is provided in the most appropriate and cost effective care setting. This feature allows the Claims Administrator to customize your benefits by approving otherwise non-covered services or arranging an earlier discharge from an Inpatient setting for a patient whose care could be safely rendered in an alternate care setting. That alternate care setting or customized service will be covered only when arranged and approved in advance by the Claims Administrator's Health Care Management staff. In managing your care, the Claims Administrator has the right to authorize substitution of Outpatient Services or services in your home to the extent that benefits are still available for Inpatient Services.

This section describes the Covered Services available under your health care benefits when provided and billed by Providers. **Care must be received from a Network Provider to be covered at the Network level, except for Emergency Care, Urgent Care and Ambulance Services. Services which are not received from a Network Provider will be considered a Non-Network Service, unless otherwise specified in this Benefit Booklet or considered an Authorized Service by the Claims Administrator.** The amount payable for Covered Services varies depending on whether you receive your care from a Network Provider or a Non-Network Provider.

If you use a Non-Network Provider, you are responsible for the difference between the Non-Network Provider's charge and the Maximum Allowable Amount, in addition to any applicable Copayment or Deductible. The Claims Administrator or the Employer cannot prohibit Non-Network Providers from billing you for the difference in the Non-Network Provider's charge and the Maximum Allowable Amount.

All Covered Services and benefits are subject to the conditions, exclusions, limitations, terms and provisions of this Benefit Booklet, including any attachments, riders and endorsements. Covered Services must be Medically Necessary and not Experimental/Investigative. The fact that a Provider may prescribe, order, recommend or approve a service, treatment or supply does not make it Medically Necessary and does not guarantee payment. To receive maximum benefits for Covered Services, you must follow the terms of the Benefit Booklet, including use of Network Providers, and obtain any required Precertification. Contact your Network Provider to be sure that Precertification has been obtained. The Claims Administrator bases its decisions about Precertification, Medical Necessity, Experimental/Investigative services and new technology on the Claims Administrator's Medical Policy. The Claims Administrator may also consider published peer-review medical literature, opinions of experts and the recommendations of nationally recognized public and private organizations which review the medical effectiveness of health care services and technology. The Claims Administrator is the final authority to determine Medical Policy or whether services or supplies are Medically Necessary.

Benefits for Covered Services may be payable subject to an approved treatment plan created under the terms of this Benefit Booklet. Benefits for Covered Services are based on the Maximum Allowable Amount for such service. Plan payment for Covered Services will be limited by any applicable Deductible, Coinsurance, Copayment, Benefit Period maximum, or Lifetime Maximum in this Benefit Booklet.

# **Preventive Care Services**

Preventive Care Services mean care which is rendered to prevent future health problems for a Member who does not exhibit any current symptoms. See your Schedule of Benefits for any limitations. The medical plan covers preventive care services at 100% when members receive these services from innetwork providers. Please call Anthem to confirm whether the service is considered preventive. Preventive Care Services include but are not limited to the following:

## Child preventive care (birth through 18 years)

- Preventive physical exams
- Screening Tests (depending on age) call Anthem to find out which tests are considered preventive. Screening tests may include behavioral counseling to promote a healthy diet, blood pressure, cholesterol, depression, development and behavior, hearing, height, weight, BMI,

Case No. 2020-00349 and 2020-00350 **Attachment to Question No. 44** Page 57 of 114

hemoglobin, lead testing, newborn, obesity, sexually transmitted infections

Meiman Immunizations - call Anthem to find out which immunizations are considered preventive. • Immunizations may include Diphtheria, Tetanus, Pertussis, Haemophilus Influenza type b, Hepatitis A, Hepatitis B, HPV, Influenza, Measles, Mumps, Rubella, Meningococcal, Pneumococcal, Polio, Rotavirus, Varicella

#### Adult preventive care (19 years and older)

- Preventive physical exams
- Screening tests and services (depending on age) call Anthem to find out which tests and services are considered preventive. Screening tests and services may include aortic aneurysm screening, blood pressure, bone density, breast cancer including exam and mammogram, breastfeeding support, supplies and counseling (female), cholesterol, colorectal cancer, FDA approved birth control methods, depression, hearing, height, weight, BMI, HIV, HPV, intervention services (counseling and education), pelvic exam and pap test including screening for cervical cancer, prostate cancer including digital rectal exam and PSA test, screenings during pregnancy, sexually transmitted infections, screening for iron deficiency anemia in pregnant women, tobacco use counseling, breast cancer testing in conjunction with genetic counseling and evaluation, and polyp removal during colonoscopy screening.
- Immunizations call Anthem to find out which immunizations are considered preventive. Immunizations may include Diphtheria, Tetanus, Pertussis, Hepatitis A, Hepatitis B, HPV, Influenza, Meningococcal, MMR, Pneumococcal, Varicella, Zoster (shingles)

#### **Diabetes Self Management Training**

Diabetes self-management training is covered for an individual with insulin dependent diabetes, noninsulin dependent diabetes, or elevated blood glucose levels induced by pregnancy or another medical condition when:

- Medically Necessary;
- Ordered in writing by a Physician or a podiatrist; and
- Provided by a Health Care Professional who is licensed, registered, or certified under state law.

Coverage for diabetes self-management training is limited to:

- One (1) visit after receiving an initial diagnosis of diabetes;
- One (1) visit after receiving a diagnosis by a Physician or a podiatrist that represents a significant change in your symptoms or condition and makes changes in your self-management Medically Necessary; and
- One (1) visit for reeducation or refresher training per Benefit Period.

For the purposes of this provision:

- A "Health Care Professional" means the Physician or podiatrist ordering the training or a Provider who has obtained certification in diabetes education by the American Diabetes Association.
- A "visit" means a 2 to 3 hour maximum diabetes education session provided by a Health Care Professional in an Outpatient facility or in a Physician's or podiatrist's office.

# **Physician Office Services**

Office Services include care in a Physician's office that is not related to Maternity and Mental Health Conditions, except as specified. Refer to the sections entitled Maternity Services and Mental Health/Substance Abuse Services for services covered by the Plan. For Emergency Accident or Medical Care refer to the Emergency Care and Urgent Care section. Physician office services include:

**Office visits** for medical care and consultations to examine, diagnose, and treat an illness or injury performed in the Physician's office. Office visits also include injections, serum and allergy testing. When allergy injection, testing or serum is the only charge from a Physician's office a specific Copayment may apply as stated in the Schedule of Benefits under Physician Office Services.

Diagnostic Services when required to diagnose or monitor a symptom, disease or condition.

**Surgery** and Surgical services including anesthesia and supplies. The surgical fee includes normal postoperative care.

**Therapy Services** for Physical Medicine Therapies and Other Therapies when rendered in the office of a Physician or other professional Provider.

# **Inpatient Services**

Inpatient Services do not include care related to Maternity and Mental Health Conditions, except as specified. Refer to the sections entitled **Maternity Services** and **Mental Health/Substance Abuse Services** for services covered by the Plan. Inpatient Services include:

- charges from a Hospital or other Provider for room, board and general nursing services;
- ancillary services; and
- professional services from a Physician while an Inpatient.

## Room, Board, and General Nursing Services

- a room with two or more beds;
- a private room. The private room allowance is the Hospital's average semi-private room rate unless it is Medically Necessary that you occupy a private room for isolation and no isolation facilities are available;
- a room in a special care unit approved by the Claims Administrator. The unit must have facilities, equipment and supportive services for intensive care of critically ill patients.

#### **Ancillary Services**

- operating, delivery and treatment rooms and equipment;
- prescribed drugs;
- anesthesia, anesthesia supplies and services given by an employee of the Hospital or other Provider;
- medical and surgical dressings, supplies, casts and splints;
- Diagnostic Services; and
- Therapy Services.

#### **Professional Services**

- Medical care visits limited to one visit per day by any one Physician.
- **Intensive medical care for** constant attendance and treatment when your condition requires it for a prolonged time.
- **Concurrent care** for a medical condition by a Physician who is not your surgeon while you are in the Hospital for Surgery. Care by two or more Physicians during one Hospital stay when the nature or severity of your condition requires the skills of separate Physicians.
- **Consultation** which is a personal bedside examination by another Physician when requested by your Physician. Staff consultations required by Hospital rules are excluded.

- Surgery and the administration of general anesthesia.
- **Newborn exam.** A Physician other than the Physician who performed the obstetrical delivery must do the examination.

## **Outpatient Services**

Outpatient Services include both facility and professional charges when rendered as an Outpatient at a Hospital, Alternative Care Facility or other Provider as determined by the Plan. Outpatient Services do not include care that is related to Maternity or Mental Health/Substance Abuse Services, except as otherwise specified. Professional charges only include services billed by a Physician or other professional.

For Emergency Accident or Medical Care refer to the Emergency Care and Urgent Care section.

## **Emergency Care and Urgent Care**

#### **Emergency Care**

Medically Necessary Emergency Care under this Benefit Booklet includes Emergency Accident Care and Emergency Medical Care rendered at a Hospital. Services which the Claims Administrator determines to meet the definition of Emergency Care will be covered, whether the care is rendered by a Network Provider or Non-Network Provider. Emergency Care rendered by a Non-Network Provider will be covered and reimbursed by the Plan at the Network level. The Member is not required to pay more than would have been required for services from a Network Provider. Follow-up care is not considered Emergency Care.

Whenever you are admitted as an Inpatient directly from a Hospital emergency room, your treatment will always be considered an Emergency and the emergency room Copayment will be waived. For Inpatient admissions following Emergency Care, you should contact the Claims Administrator within 48 hours of admission or as soon as reasonably possible in order to obtain authorization for a specific length of stay. When the Claims Administrator is contacted for authorization, you will be notified of the number of days considered Medically Necessary for your diagnosis. Thus, you may avoid having to pay charges for any excessive Inpatient days which the Plan does not consider Medically Necessary.

Care and treatment provided once you are Stabilized is not Emergency Care. Continuation of care from a Non-Network Provider beyond that needed to evaluate or Stabilize your condition in an Emergency will be treated as Non-Network unless the Claims Administrator authorizes the continuation of care and it is Medically Necessary.

#### **Urgent Care**

Often an Urgent Care rather than an Emergency medical problem exists. Urgent Care Covered Services obtained from a Network Provider are subject to the Urgent Care Copayment. Urgent Care services obtained from a Non-Network Provider are subject to the Deductible and Coinsurance for a Network Provider. If you experience an accidental injury or a medical problem, the Plan will determine whether your injury or condition is an Urgent Care or Emergency Care situation for coverage purposes, based on your diagnosis and symptoms.

An Urgent Care medical problem is an unexpected episode of illness or an injury requiring treatment

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 60 of 114

which cannot reasonably be postponed for regularly scheduled care. It is not considered an Emergency **Meiman** Urgent Care medical problems include, but are not limited to, ear ache, sore throat, and fever (not above 104 degrees). Treatment of an Urgent Care medical problem is not life threatening and does not require use of an emergency room at a Hospital. If you call your Physician prior to receiving care for an urgent medical problem and your Physician authorizes you to go to an emergency room, your care will be paid at the level specified in the Schedule of Benefits for emergency room care.

See your Schedule of Benefits for benefit limitations.

## **Ambulance Services**

Local transportation by a vehicle designed, equipped and used only to transport the sick and injured:

- from your home, scene of accident or medical emergency to a Hospital;
- between Hospitals;
- between Hospital and Skilled Nursing Facility;
- from a Hospital or Skilled Nursing Facility to your home.

Ambulance services are a Covered Service only when Medically Necessary, except:

- When ordered by an employer, school, fire, or public safety official and the Member is not in a position to refuse.
- When a Member is required by the Claims Administrator to move from a non-Network Provider to a Network Provider.

Trips must be to the closest local facility that can give Covered Services appropriate for your condition. If none, you are covered for trips to the closest such facility outside your local area.

# **Diagnostic Services**

Coverage for Diagnostic Services when provided as part of Preventive Care Services, Physician Office Services, Inpatient Services, Outpatient Services, Home Care Services, and Hospice Services is limited to the following:

- X-ray and other radiology services;
- Laboratory and pathology services;
- Cardiographic, encephalographic, and radioisotope tests;
- Ultrasound services;
- Allergy tests; and
- Hearing tests (unless related to an examination for prescribing or fitting of a hearing aid).

# **Surgical Services**

Coverage for Surgical Services when provided as part of Physician Office Services, Inpatient Services, or Outpatient Services is limited to the following:

- Performance of generally accepted operative and other invasive procedures;
- The correction of fractures and dislocations;
- Anesthesia (including services of a Certified Registered Nurse Anesthetist) and surgical assistance when Medically Necessary;
- Usual and related pre-operative and post-operative care; and
- Other procedures as approved by the Employer.

The surgical fee includes normal post-operative care.

#### Sterilization

Regardless of Medical Necessity, you are covered for sterilization.

## Mastectomy Notice

#### WOMEN'S HEALTH AND CANCER RIGHTS ACT NOTICE

If you have had or are going to have a mastectomy, you may be entitled to certain benefits under the Women's Health and Cancer Rights Act of 1998 (WHCRA). For individuals receiving mastectomy-related benefits, coverage will be provided in a manner determined in consultation with the attending physician & the patient, for:

- All stages of reconstruction of the breast on which the mastectomy was performed;
- Surgery and reconstruction of the other breast to produce a symmetrical appearance;
- Prostheses; and
- Treatment of physical complications of the mastectomy, including lymphedema.

These benefits will be provided subject to the same deductibles and coinsurance applicable to other medical and surgical benefits provided under this plan. Contact Anthem at 1-877-750-6062 for more information.

# **Therapy Services**

Coverage for Therapy Services when provided as part of Physician Office Services, Inpatient Facility Services, Outpatient Services, or Home Care Services is limited to the following:

## **Physical Medicine Therapy Services**

The expectation must exist that the therapy will result in a practical improvement in the level of functioning within a reasonable period of time. Physical medicine therapy services include:

- **Physical therapy** including treatment by physical means, hydrotherapy, heat, or similar modalities, physical agents, bio-mechanical and neuro-physiological principles and devices. Such therapy is given to relieve pain, restore function, and to prevent disability following illness, injury, or loss of a body part.
- **Speech therapy** for the correction of a speech impairment resulting from illness, injury, or surgery. Speech therapy does not include language training for educational, psychological or developmental speech delays.
- **Occupational therapy** for the treatment of a physically disabled person by means of constructive activities designed and adapted to promote the restoration of the person's ability to satisfactorily accomplish the ordinary tasks of daily living and those tasks required by the person's particular occupational role. Occupational therapy does not include diversional recreational vocational therapies (e.g. hobbies, arts and crafts).
- **Spinal manipulation services** to correct by manual or mechanical means structural imbalance or subluxation to remove nerve interference from or related to distortion, misalignment or subluxation of or in the vertebral column. Manipulation whether performed and billed as the only procedure or

manipulations performed in conjunction with an exam and billed as an office visit will be counterliman toward any maximum for Spinal Manipulations as specified in the Schedule of Benefits.

#### **Other Therapy Services**

- **Cardiac rehabilitation** to restore an individual's functional status after a cardiac event. Home programs, on-going conditioning and maintenance are not covered.
- **Chemotherapy** for the treatment of a disease by chemical or biological antineoplastic agents.
- **Dialysis treatments** of an acute or chronic kidney ailment which may include the supportive use of an artificial kidney machine.
- Radiation therapy for the treatment of disease by X-ray, radium, or radioactive isotopes.
- **Inhalation therapy** for the treatment of a condition by the administration of medicines, water vapors, gases, or anesthetics by inhalation.

## Physical Medicine and Rehabilitation Services

A structured therapeutic program of an intensity that requires a multidisciplinary coordinated team approach to upgrade the patient's ability to function as independently as possible; including skilled rehabilitative nursing care, physical therapy, occupational therapy, speech therapy and services of a social worker or psychologist. The goal is to obtain practical improvement in a reasonable length of time in the appropriate setting.

Physical medicine and rehabilitation involves several types of therapy, not just physical therapy, and a coordinated team approach. The variety and intensity of treatments required is the major differentiation from an admission primarily for physical therapy.

# Certain Therapy Services rendered on an Inpatient or Outpatient basis are limited. See the Schedule of Benefits.

# **Home Care Services**

Home Care Services are services performed by a Home Health Care Agency or other Provider in your residence. The services must be provided on a part-time visiting basis according to a course of treatment. Covered Services may include the following:

- Intermittent Skilled Nursing Services (by an R.N. or L.P.N.);
- Medical/Social Services;
- Diagnostic Services;
- Nutritional Guidance;
- Home Health Aide Services;
- Therapy Services (Outpatient visit limits specified in the Schedule of Benefits do not apply when rendered in the home);
- Medical/Surgical Supplies;
- Durable Medical Equipment;
- Prescription Drugs (only if provided and billed by a Home Health Care Agency).

**Home infusion therapy** will be paid only if you obtain prior approval. Benefits for home infusion therapy include a combination of nursing, durable medical equipment and pharmaceutical services which are delivered and administered intravenously in the home. Home IV therapy includes but is not limited

**Hospice Services** 

Hospice care may be provided in the home or Hospice for medical, social and psychological services used as palliative treatment for patients with a terminal illness and includes routine home care, continuous home care, Inpatient Hospice and Inpatient respite. To be eligible for Hospice benefits, the patient must have a life expectancy of six months or less, as certified by the attending Physician.

Covered Services include the following only when authorized by your Network Provider:

- Skilled Nursing Services (by an R.N. or L.P.N.)
- Diagnostic Services
- Physical, speech and inhalation therapies
- Medical supplies, equipment and appliances
- Counseling services (except bereavement counseling)
- Inpatient confinement at a Hospice
- Prescription Drugs obtained from the Hospice

## Human Organ and Tissue Transplant Services

For cornea and kidney transplants, the transplant and tissue services benefits or requirements described below do not apply. These services are paid as Inpatient Services, Outpatient Services or Physician Office Services depending where the service is performed.

#### **Covered Transplant Procedure**

Any of the following Medically Necessary Human Organ and Tissue Transplants:

#### **Adult Procedures**

- Bone marrow or stem cell including:
  - Autologous Bone Marrow including High Dose Chemotherapy
  - Related allogeneic Bone Marrow including High Dose Chemotherapy
  - Unrelated allgeneic Bone Marrow including High Dose Chemotherapy
- Heart;
- Heart/Lung;
- Lung;
- Liver;
- Pancreas and Kidney when preformed simultaneously or Pancreas transplant after a Kidney transplant (Kidney transplant alone may be covered under medical and is not part of this transplant benefit)

#### **Pediatric Procedures**

- Bone marrow or stem cell including:
  - Autologous Bone Marrow including High Dose Chemotherapy
  - Related allogeneic Bone Marrow including High Dose Chemotherapy
  - Unrelated allgeneic Bone Marrow including High Dose Chemotherapy
- Heart;

• Liver;

As additional diagnoses cease to be Experimental/Investigative, the Employer may amend the above Covered Transplant Procedure list to include such procedures.

When the Claims Administrator considers a Human Organ or Tissue Transplant to be Experimental/Investigative the transplant and all Covered Services performed in relation to the transplant are excluded under this benefit. If a covered Human Organ or Tissue Transplant is done in conjunction with an Experimental/Investigative transplant, the Claims Administrator will determine the portion of the charges which relate to the covered Human Organ or Tissue Transplant and allow only those charges.

## **Prior Approval**

In order to receive transplant benefits, you or your provider must contact the Claims Administrator's Transplant Department, for a pre-determination of coverage, as soon as the Member becomes aware a transplant is needed. If benefits are approved through pre-determination, you or your Provider must call the Claims Administrator's Transplant Department for Precertification prior to the transplant surgery. For both pre-determination and Precertification, call the Precertification toll-free telephone number listed on the back of your Medical Plan ID Card.

## **Benefit Period**

Transplant coverage starts one day prior to the organ transplant surgery or one day prior to myeloblation therapy (high dose chemotherapy and/or irradiation). Any services performed more than one day prior to the transplant are eligible for coverage under the medical benefit with the exception of services in conjunction with BMT/Stem Cell harvesting. Transplant coverage ends the earlier of the following:

- 364 days from the date of the transplant surgery or first myeloblation therapy;
- The day before a re-transplant, if within one year. (Upon re-transplant a new transplant benefit period starts.)

#### **Transplant Related Expenses**

Transplant Related Expenses mean Medically Necessary items that are required as a result of a Covered Transplant Procedure and would not be incurred if the person were not having a Covered Transplant Procedure. Services related to the diagnosis causing the need for a Covered Transplant Procedure which would have been performed whether or not the patient received a Covered Transplant Procedure are not considered a Transplant Related Expense. Transplant Related Expenses during a transplant benefit period include only the following:

- Acquisition costs, also referred to as procurement (live or cadaver). Acquisition costs include Medically Necessary services in connection with the preparation, harvesting and storage of bone marrow, stem cell or solid organ for a Covered Transplant. For a living donor, acquisition costs also include the Medically Necessary Inpatient services for the recovery of the donor post surgery and any complications that arise as a direct result of the actual acquisition procedure for a period of six weeks from the date of the acquisition or as otherwise determined within the limits determined by the Plan. Cord blood is payable if the transplant is approved. Harvesting and storage of cord blood, bone marrow or stem cells for a possible future transplant is not eligible under this transplant benefit.
- Transportation and lodging. The Plan will provide assistance with reasonable and necessary travel expenses as determined by the Claims Administrator when you obtain prior approval and are required

Case No. 2020-00349 and 2020-00350 **Attachment to Question No. 44** 

to travel more than 75 miles from your residence to reach a Network Transplant Facility. The Playfeiman assistance with travel expenses includes transportation to and from the Network Provider facility and lodging for the patient and one companion. If the Member receiving treatment is a minor, then reasonable and necessary expenses for transportation and lodging may be allowed for two companions. The Member must submit itemized receipts for transportation and lodging expenses in a form satisfactory to the Claims Administrator when claims are filed. Contact the Claims Administrator for detailed information.

- Hospital charges and professional fees for the Covered Transplant Procedure.
- Inpatient Services, Outpatient Services, or Home Care Services for treatment of complications of bone marrow or stem cell transplant, or for complications and/or rejection of the transplanted organ.
- Physician fees for medical care following Hospital discharge, which are identified as post transplant.

# Medical Supplies, Durable Medical Equipment, and Appliances

The supplies, equipment and appliances described below are covered under this benefit. If the supplies, equipment and appliances include comfort, luxury, or convenience items which are not Medically Necessary, the amount of benefits is the Maximum Allowable Amount for the eligible standard item. Any expense that exceeds the Maximum Allowable Amount for the standard item is your responsibility. However, certain supplies and equipment for management of diseases which the Employer has approved are covered under the Prescription Drug Benefit in this Benefit Booklet.

#### **Medical and Surgical Supplies**

Medical and surgical supplies are syringes, needles, oxygen, surgical dressings, splints and other similar items which serve only a medical purpose. Covered Services do not include items usually stocked in the home for general use like Band-Aids, thermometers, and petroleum jelly.

#### **Durable Medical Equipment**

The rental (or, at the Claims Administrator's option, the purchase) of durable medical equipment prescribed by a Physician or other Provider is covered under this benefit. Rental costs must not be more than the purchase price. This equipment must serve only a medical purpose and be able to withstand repeated use. Repair of medical equipment is covered.

Non-covered items include but are not limited to air conditioners, humidifiers, dehumidifiers, special lighting or other environmental modifiers, surgical supports, and corsets or other articles of clothing.

#### **Prosthetic Appliances**

Purchase, fitting, needed adjustment, repairs, and replacements of prosthetic devices and supplies that:

- replace all or part of a missing body part and its adjoining tissues;
- replace all or part of the function of a permanently useless or malfunctioning body part.

Benefits for prosthetic appliances include:

- the first lens(es) following cataract surgery.
- breast prostheses and two surgical brassieres each Benefit Period following a mastectomy.
- the first wig following chemotherapy.

Non-covered items include but are not limited to dental prosthesis, eyeglasses or contact lenses or their

fitting except as provided above.

## **Orthotic Devices**

A rigid or semi-rigid supportive device which limits or stops motion of a weak or diseased body part.

Non-covered items include but are not limited to orthopedic shoes.

# **Oral Surgery and Dental Services**

Oral surgery is a Covered Service if needed as a necessary, but incidental, part of a larger service in treatment of an underlying medical condition.

Outpatient Services, Physician Office Services, Emergency Care Services, and Urgent Care Services for dental work and oral surgery are covered if they are for the initial repair of an injury to the jaw, sound natural teeth, mouth or face. "Initial" dental work to repair injuries due to an accident means performed within 12 months from the injury, or as reasonably soon thereafter as possible and includes all examinations and treatment to complete the repair. For a child requiring facial reconstruction due to dental related injury, there may be several years between the accident and the final repair.

Injury as a result of chewing or biting is not considered an accidental injury.

Covered Services for accidental dental include, but are not limited to:

- Oral examinations
- X-rays
- Tests and laboratory examinations
- Restorations
- Prosthetic services
- Oral surgery
- Mandibular/maxillary reconstruction
- Anesthesia

Non-covered services for accidental dental include, but are not limited to:

- charges for any Investigational/Experimental treatment, procedure, facility, equipment, drug, device, or supply;
- surgery or treatments to change the size, shape or appearance of facial or body features (such as your nose, eyes, ears, cheeks, chin), except for reconstructive services performed to correct a physical functional impairment of any area caused by disease, trauma, congenital anomalies, or previous therapeutic process.

The only other dental expenses that are Covered Services are facility charges for Outpatient Services. Benefits are payable only if the patient's medical condition or the dental procedure requires a Hospital setting to ensure the safety of the patient.

# **Maternity Services**

#### Newborns' and Mothers' Health Protection Act Notice

Group health plans and health insurance issuers generally may not, under Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, Federal law generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under Federal law, require that a provider obtain authorization from the plan or the insurance issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).

Maternity Services include Inpatient Services, Outpatient Services and Physician Office Services for normal pregnancy, complications of pregnancy, miscarriage, therapeutic abortion, and ordinary routine nursery care for a well newborn.

One Deductible and Copayment will apply to both the mother and the newborn child for Maternity Services **only** if the newborn care is routine nursery care.

If Maternity Services are not covered for any reason, Hospital charges for ordinary routine nursery care for a well newborn are also not covered.

Coverage for the Inpatient postpartum stay for you and your newborn child in a Hospital will be, at a minimum, for the length of stay recommended by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists in their Guidelines for Perinatal Care. Coverage for a shorter length of stay may be permitted if you concur and if your attending Physician determines further Inpatient postpartum care is not necessary for you or your newborn child, provided the following are met:

- In the opinion of your attending Physician, the newborn child meets the criteria for medical stability in the Guidelines for Perinatal Care prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists that determine the appropriate length of stay based upon evaluation of:
  - 1. the antepartum, intrapartum, and postpartum course of the mother and infant;
  - 2. the gestational stage, birth weight, and clinical condition of the infant;
  - 3. the demonstrated ability of the mother to care for the infant after discharge; and
  - 4. the availability of postdischarge follow-up to verify the condition of the infant after discharge.
- One (1) at-home post delivery care visit is provided to you at your residence (at your discretion, this visit may occur at the Physician's office) by a Physician or Nurse performed no later than forty-eight (48) hours following you and your newborn child's discharge from the Hospital. Coverage for this visit includes, but is not limited to:
  - 1. parent education;
  - 2. assistance and training in breast or bottle feeding; and
  - 3. performance of any maternal or neonatal tests routinely performed during the usual course of Inpatient care for you or your newborn child, including the collection of an adequate sample for the hereditary and metabolic newborn screening.

Coverage for the Inpatient postpartum stay for you and your newborn child in a Hospital will, at a minimum, be for the length of stay recommended by the American Academy of Pediatrics and the

American College of Obstetricians and Gynecologists in their Guidelines for Perinatal Care. In addition meiman coverage is provided for an examination given at the earliest feasible time to your newborn child for the detection of the following disorders:

- Phenylketonuria;
- Hypothyroisism;
- Hemoglobinopathies, including sickle cell anemia;
- Galactosemia;
- Maple Syrup urine disease;
- Homocystinuria;
- Inborn errors of metabolism that result in mental retardation and that are designated by the state department of health;
- Physiologic hearing screening examination for the detection of hearing impairments;
- Congenital adrenal hyperplasia;
- Biotinidase deficiency;
- Disorders detected by tandem mass spectroscopy or other technologies with the same or greater capabilities as tandem mass spectrometry.

# Mental Health/Substance Abuse Services

Inpatient Services, Outpatient Services, and Physician Office Services for the treatment of Mental Health Conditions or Substance Abuse are covered for the diagnosis, crisis intervention and short-term treatment of Mental Health Conditions or for detoxification and/or rehabilitation of Substance Abuse. Copayments and limits are specified in the Schedule of Benefits.

Inpatient services. Inpatient Services to treat Mental Health Conditions or Substance Abuse, including:

- Individual psychotherapy
- Group psychotherapy
- Psychological testing
- Family counseling with family members to assist in your diagnosis and treatment.
- Convulsive therapy including electroshock treatment or convulsive drug therapy.

**Partial hospitalization services.** The services covered for Inpatient Services are also covered for partial hospitalization. Partial hospitalization may be substituted for Inpatient benefits at two days for each available Inpatient day.

**Outpatient services.** The services covered for Inpatient Services are also covered for Outpatient (except Room, Board and General Nursing Service).

Autism. Therapeutic rehabilitative and Respite Care

## FDA-Approved Clinical Trial for Life Threatening Disease

If a member is part of an FDA-approved clinical trial for a life-threatening disease, medical expenses that are currently covered under the plan that happen during that trial will be covered.

# ANTHEM EXCLUSIONS

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 69 of 114 S Meiman

This section indicates items which are excluded and are not considered Covered Services. This information is provided as an aid to identify certain common items which may be misconstrued as Covered Services. This list of Exclusions is in no way a limitation upon, or a complete listing of, such items considered not to be Covered Services. The Claims Administrator is the final authority to determine whether services or supplies are not covered under the Plan.

The Plan does not provide benefits for services or supplies:

- Which are determined not Medically Necessary.
- Health services and supplies that do not meet the definition of a Covered Service.
- Received from an individual or entity that is not a Provider, as defined in this Benefit Booklet.
- Which are Experimental/Investigative, or related to such, whether incurred prior to, in connection with, or subsequent to the Experimental/Investigative service or supply, as determined by the Claims Administrator.
- For any condition, disease, defect, aliment, or injury arising out of and in the course of employment if benefits are available under any Worker's Compensation Act or other similar law. This exclusion applies if you receive the benefits in whole or in part. This exclusion also applies whether or not you claim the benefits or compensation. It also applies whether or not you recover from any third party.
- Any abortion other than to save the life of the mother.
- To the extent that they are provided as benefits by any governmental unit, unless otherwise required by law or regulation.
- For illness or injury that occurs as a result of any act of war, declared or undeclared.
- For a condition resulting from direct participation in a riot, civil disobedience, nuclear explosion, or nuclear accident.
- For court ordered testing or care unless Medically Necessary.
- For which you have no legal obligation to pay in the absence of this or like coverage.
- Received from a dental or medical department maintained by or on behalf of an employer, mutual benefit association, labor union, trust or similar person or group.
- Prescribed, ordered, referred by, or received from a member of your immediate family, including your Spouse, parent, child, sister, brother, in-law, self, or someone residing in the Member's home.
- For completion of claim forms or charges for medical records or reports unless otherwise required by law.
- For missed or canceled appointments.
- For mileage costs or other travel expenses, except as authorized by the Claims Administrator.
- Charges in excess of the Maximum Allowable Amount.
- Incurred prior to your Effective Date.
- Incurred after the termination date of this coverage except as specified elsewhere in this Benefit Booklet.
- For any procedures, services, equipment or supplies provided in connection with cosmetic services. Cosmetic services are primarily intended to preserve, change or improve your appearance or are furnished for psychiatric or psychological reasons. No benefits are available for surgery or treatments to change the texture or appearance of your skin or to change the size, shape or appearance of facial or body features (such as your nose, eyes, ears, cheeks, chin, chest or breasts), except benefits are provided for a reconstructive service performed to correct a physical functional impairment of any area caused by disease, trauma, congenital anomalies, or previous therapeutic process. Reconstructive services are payable only if the original procedure would have been a Covered Service under this Plan.

#### WOMEN'S HEALTH AND CANCER RIGHTS ACT NOTICE

If you have had or are going to have a mastectomy, you may be entitled to certain benefits under the Women's Health and Cancer Rights Act of 1998 (WHCRA). For individuals receiving mastectomyrelated benefits, coverage will be provided in a manner determined in consultation with the attending physician & the patient, for:

- All stages of reconstruction of the breast on which the mastectomy was performed;
- Surgery and reconstruction of the other breast to produce a symmetrical appearance;
- Prostheses; and
- Treatment of physical complications of the mastectomy, including lymphedema.

These benefits will be provided subject to the same deductibles and coinsurance applicable to other medical and surgical benefits provided under this plan. Contact Anthem at 1-877-750-6062 for more information.

- Services which are solely performed to preserve the present level of function or prevent regression of functions for an illness, injury or condition which is resolved or stable.
- For ace bandages, support hose and pressure garments.
- For seat lift chairs.
- For passive range of motion (ROM) devices, hot packs, diathermy, hydrocollator, infra-red, whirlpool baths; paraffin baths, Hubbard Tank, cold packs, ice packs and contrast baths.
- For non-Skilled physical therapy services.
- For non-chemical addictions such as gambling, sexual, spending, shopping, working and religious.
- Relating to treatment of co-dependency nicotine addiction or caffeine addiction.
- Relating to chronic pain disorders, gender identity disorders and parent-child problems.
- For Custodial Care, domiciliary or convalescent care, whether or not recommended or performed by a professional.
- For foot care only to improve comfort or appearance including, but not limited to care for flat feet, subluxations, corns, bunions (except capsular and bone surgery), calluses, and toenails.
- For any treatment of teeth, gums or tooth related service except as otherwise specified as covered in this Benefit Booklet.
- Related to weight loss or treatment of obesity, except for surgical treatment of morbid obesity for a life threatening condition; surgery for removal of excess skin or fat after pregnancy or weight loss due to any cause;
- For the treatment of eating disorders such as bulimia and anorexia. However benefits will be provided for the treatment of an Inpatient in a Hospital for dehydration and electrolyte imbalance associated with eating disorder. Benefits will be provided only for services meeting the Plan's medical criteria.
- For the treatment of alcoholism and/or substance abuse if you: 1) fail to complete the treatment plan for a specific phase of treatment; 2) are non-compliant with the treatment program; or 3) are discharged against the medical advice of the attending physician.
- For treatment of attempted suicide.
- For sex transformation surgery and related services, or the reversal thereof.
- For marital counseling.
- For eyeglasses or contact lenses. This exclusion does not apply for initial prosthetic lenses or sclera shells following intra-ocular surgery, or for soft contact lenses due to a medical condition.
- For hearing aids or examinations for prescribing or fitting them.

- For services or supplies primarily for educational, vocational, or training purposes, except Meiman otherwise specified herein.
- For reversal of sterilization.
- For artificial insemination; fertilization (such as in vitro or GIFT) or procedures and testing related to fertilization; infertility drugs and related services following the diagnosis of infertility.
- For personal hygiene and convenience items.
- For care received in an emergency room which is not Emergency Care, except as specified in this Benefit Booklet.
- For expenses incurred at a health spa or similar facility.
- For self-help training and other forms of non-medical self care, except as otherwise provided herein.
- For examinations relating to research studies or screenings.
- For stand-by charges of a Physician.
- Physical exams and immunizations required for enrollment in any insurance program, as a condition of employment, for licensing, or for other purposes.
- Related to radial keratotomy or keratomileusis or excimer laser photo refractive keratectomy.
- Related to any mechanical equipment, device, or organ. However, this Exclusion does not apply to a left ventricular assist device when used as a bridge to a heart transplant.
- For Private Duty Nursing Services rendered in a Hospital or Skilled Nursing Facility.
- For Private Duty Nursing Services except when provided through the Home Care Services benefit.
- Services and supplies related to sex transformation or male or female sexual or erectile dysfunctions or inadequacies, regardless of origin or cause. This Exclusion includes sexual therapy and counseling. This exclusion also includes penile prostheses or implants and vascular or artificial reconstruction, prescription drugs, and all other procedures and equipment developed for or used in the treatment of impotency, and all related diagnostic testing.
- Any new FDA Approved Drug Product or Technology (including but not limited to medications, medical supplies, or devices) available in the marketplace for dispensing by the appropriate source for the product or technology, including but not limited to Pharmacies, for the first six months after the product or technology received FDA New Drug Approval or other applicable FDA approval. The Plan may at its sole discretion, waive this exclusion in whole or in part for a specific New FDA Approved Drug Product or Technology.
- For (services or supplies related to) alternative or complementary medicine. Services in this category include, but are not limited to, acupuncture, holistic medicine, homeopathy, hypnosis, aroma therapy, massage therapy, reike therapy, herbal, vitamin or dietary products or therapies, naturopathy, thermograph, orthomolecular therapy, contact reflex analysis, bioenergial synchronization technique (BEST) and iridology-study of the iris.
- Acupuncture, except for the treatment of nausea and vomiting associated with surgery, chemotherapy and pregnancy, when considered medically necessary.
- Biofeedback, except for treatment of tension and migraine headaches, when considered medically necessary.

## Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 72 of 114 EXPRESS SCRIPTS PRESCRIPTION DRUG CARD Meiman PROGRAM

You will automatically be enrolled in the Prescription Drug Card Program if you participate in either of the following medical options:

- Anthem Blue Access PPO Standard,
- Anthem Blue Access PPO Low Deductible, or
- Anthem Blue Preferred EPO.

#### **Prescription Management**

The pharmacy benefits available to you under this Benefit Booklet are managed by the Claims Administrator. The management and other services that the Claims Administrator provides include, among others, making recommendations to, and updating, the Formulary and managing a network of retail pharmacies and operating a Mail Service pharmacy. The Claims Administrator also provides services to promote and enforce the appropriate use of pharmacy benefits, such as review for possible excessive use; proper dosage; drug interactions or drug/pregnancy concerns.

You may review a copy of the current Formulary on the Claims Administrator's website. You may also request a copy of the Formulary by calling the Claims Administrator at the number on the back of your Identification Card. The Formulary is subject to periodic review and amendment. Inclusion of a drug or related item on the Formulary is not a guarantee of coverage. Refer to the Prescription Drug benefit sections in this Benefit Booklet for information on coverage, limitations and exclusions.

Prescription Drugs, unless otherwise stated below, must be Medically Necessary and not Experimental/Investigative, in order to be Covered Services. For certain Prescription Drugs, the prescribing Physician may be asked to provide additional information before the Claims Administrator can determine Medical Necessity. The Claims Administrator may, in its sole discretion, establish quantity limits for specific Prescription Drugs. Covered Services will be limited based on Medical Necessity, quantity limits established by the Plan, or utilization guidelines.

Prior Authorization, Step Therapy and Quantity Limits may be required for certain Prescription Drugs or for the prescribed quantity of a particular drug. Prior Authorization, Step Therapy and Quantity Limits help promote appropriate utilization, cost effectiveness and enforcement of guidelines for Prescription Drug benefit coverage. At the time you fill a prescription, the Network pharmacist is informed of the Prior Authorization, Step Therapy and/or Quantity Limit requirement through the pharmacy's computer system and the pharmacist is instructed to contact the Claims Administrator. The Plan uses pre-approved criteria, developed by the Claims Administrator's Pharmacy and Therapeutics Committee. The Claims Administrator communicates the results of the decision to the pharmacist. The Claims Administrator may contact your prescribing Physician if additional information is required to determine whether Prior Authorization should be granted or if Step Therapy or Quantity Limits are needed.

If Prior Authorization is denied, you have the right to appeal through the appeals process outlined in the Complaint and Appeals section of this Benefit Booklet.

For a list of the current drugs requiring Prior Authorization, Step Therapy and/or Quantity Limits, please contact the Claims Administrator at the number on the back of your ID card or their website. The Formulary is subject to periodic review and amendment. Inclusion of a drug or related item on the

Formulary is not a guarantee of coverage.

Refer to the Prescription Drug benefit sections in this Benefit Booklet for information on coverage, limitations and exclusions.

Please ask your Provider or Network pharmacist to check with the Claims Administrator to verify Formulary Drugs, any quantity limits, or appropriate brand or Generic Drugs recognized under the Plan.

## **Covered Prescription Drug Benefits**

- Federal Legend Drugs
- Emergency Allergic Kits
- Migraine medications (injectable form the other forms are covered under Federal Legend Drugs)
- Insulin
- Glucagon Emergency Kits
- Lancets
- Urine/Blood Test Strips & Tapes
- Blood Glucose Testing Monitors
- Continuous Glucose Monitor/Transmitters/Sensors
- Insulin Syringes with or without Needles
- Contraceptive medication prescribed and OTC contraception medication covered by the plan at 100% with no member copay
- Contraceptive Emergency Kit prescribed and OTC contraception medication covered by the plan at 100% with no member copay
- Injectable Contraceptives prescribed and OTC contraception methods covered by the plan at 100% with no member copay
- Inhaler assisting devices
- Impotency Treatment Drugs
- Influenza Treatments
- Topical Vitamin A derivatives (prior authorization needed for age 26 or older)
- Standard Self-Injectable Medications
- Standard Specialty Drug List
- Standard Specialty Limited Distribution Drugs
- Non-Insulin Syringes with or without Needles
- Legend Prenatal Prescription Vitamins
- Legend Pediatric Fluoride Prescription Vitamins
- Legend Hemantinics Prescription Vitamins

- Folic Acid generic Rx and generic OTC covered by the plan at 100% with no member copay subject to Express Scripts' standards
- Vitamin D generic Rx and generic OTC covered by the plan at 100% with no member copay subject to Express Scripts' standards
- Androgens and Anabolic Steroids (injectables) prior authorization required
- Substance Abuse Treatment
- Prescription Smoking Deterrents
- Synagis prior authorization required
- Diaphragms and Cervical Caps prescribed and OTC contraception methods covered by the plan at 100% with no member copay
- Over the Counter Contraceptives for Women covered by the plan at 100% with no member copay subject to Express Scripts' standards
- Botulinum Toxins prior authorization required
- Prescription Legend Fluoride Products
- Vaccines covered by the plan at 100% with no member copay subject to Express Scripts' standards
- Smoking Cessation generic Rx and generic OTC and Chantix covered by the plan at 100% with no member copay subject to Express Scripts' standards
- Iron generic Rx and generic OTC covered by the plan at 100% with no member copay subject to Express Scripts' standards
- Oral Fluoride generic Rx and generic OTC covered by the plan at 100% with no member copay subject to Express Scripts' standards
- Aspirin generic OTC covered by the plan at 100% with no member copay subject to Express Scripts' standards
- Certain supplies and equipment obtained by the Mail Order Pharmacy or from a Network Retail Pharmacy (such as diabetic supplies, prescribed & OTC contraception medication/methods and other items noted above) are covered without any Copayment. Contact the Claims Administrator to determine approved covered supplies. If certain supplies, equipment or appliances are not obtained by Mail Service or from a Network Retail Pharmacy then they are covered as Medical Supplies, Durable Medical Equipment and Appliances instead of under Prescription Drug Benefits.
- Therapeutic Substitution of Drugs is a program approved and managed by the Claims Administrator. This is a program designed to inform members and Physicians about Formulary or generic alternatives to non-Formulary and Formulary Brand drugs. The Claims Administrator may contact you and your prescribing Physician to make you aware of Formulary or Generic Drug substitution options. Therapeutic substitution may also be initiated at the time the prescription is dispensed. Only you and your Physician can determine whether the therapeutic substitute is appropriate for you. For a list of therapeutic drug substitutes that have been identified, contact the Claims Administrator by calling the telephone number on the back of your ID card. You may also review the list of therapeutic drug substitutes on the Claim Administrator's website. The therapeutic drug substitutes list is subject to periodic review and amendment.

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 75 of 114 Meiman

## Not Covered under Prescription Drug Benefits

- Alcohol Swabs
- OTC Hyperglycemic products
- Standard Rx/OTC Equivalents
- Anti-obesity medications
- Fertility Medications
- Injectable Progesterone in Oil
- Leuprolide Acetate 1mg
- Supplements to treat specific medical conditions excluding PKU Rx & OTC
- Supplements to treat PKU Rx & OTC
- Infant Formulas Rx & OTC
- Standard Enteral Nutritional Medications Managed with Prior Authorization only
- Ostomy Supplies Rx & OTC
- Vitamins (OTC)
- GlucoWatch Products
- Insulin pumps
- Insulin pumps supplies
- Other OTC Products
- Hair Growth Stimulants and products indicated only for cosmetic use
- Injectable Medications other than those previously mentioned
- Plasma/Blood Products
- Hemophilia factors
- Non-specialty Implantable medications
- Allergy Serums
- Drugs in quantities exceeding the quantity prescribed or in excess of the Claims Administrator's quantity limitation (if applicable), or for any refill dispensed later than one year after the date of the original Prescription Order.
- Drugs received from a Non-Network Pharmacy.
- Charges for the administration of any drug.
- Drugs consumed at the time and place where dispensed or where the Prescription Order is issued, including but not limited to samples provided by a Physician.
- Drugs in quantities which exceed the limits established by the Plan.
- Any new FDA Approved Drug Product or Technology (including but not limited to medications, medical supplies, or devices) available in the marketplace for dispensing by the appropriate source for the product or technology, including but not limited to Pharmacies, for the first six months after the product or technology received FDA New Drug Approval or other applicable FDA approval. The Plan may at its sole discretion, waive this exclusion in whole or in part for a specific New FDA Approved Drug Product or Technology.

**Prescription Copayment** -- Each Prescription Order may be subject to a Copayment. If the Prescription Order includes more than one covered drug, a separate Copayment will apply to each covered drug. Your Prescription Drug Copayment will be the lesser of your scheduled Copayment amount or the retail price charged for your prescription by the pharmacy that fills your prescription. Please see the Schedule of Benefits for the applicable Copayment.

**Prescription Days Supply** -- The number of days' supply of a drug which you may receive is limited. The days supply limit applicable to Prescription Drug coverage is shown in the Schedule of Benefits.
**Prescription Formulary** -- The Plan follows a drug Formulary in determining payment and Covered Services. Your Copayment amount depends on whether a Formulary or non-Formulary drug is obtained. Please see the Schedule of Benefits.

### **Payment of Prescription Benefits**

The amount of benefits paid is based upon whether you receive Covered Services from a Network Pharmacy, a Non-Network Pharmacy, or a Mail Service Program. It is also based upon whether you obtain a Generic or Brand Name Prescription Legend Drug and whether Formulary Prescription Legend Drugs were dispensed. Please see the Schedule of Benefits for the applicable amounts, and for applicable limitations on number of days supply.

Note: If you obtain a Brand Name Drug, the Brand Name Drug Copayment will always apply, regardless of whether:

- no Generic Drug equivalent is available;
- the Prescription Order specifies "Dispense as Written;" or
- you chose the Brand Name Drug instead of the Generic Equivalent.

Your Copayment(s) amounts will not be reduced by any discounts, rebates or other funds received by the Subcontractor and/or the Plan from drug manufacturers or similar vendors.

# How to Obtain Prescription Benefits

**Network Pharmacy** -- Present your written Prescription Order from your Physician, and your Identification Card to the pharmacist at a Network Pharmacy. The Pharmacy will file your claim for you. You will be charged at the point of purchase for applicable Copayment amounts. If you do not present your Identification Card, you will have to pay the full cost of the prescription. If you do pay the full charge, ask your pharmacist for an itemized receipt and submit it to the Claims Administrator with a written request for refund. See information below regarding certain refills.

**Non-Network Pharmacy** -- You are responsible for payment of the entire amount charged by the Non-Network Pharmacy. Drugs received from a Non-Network Pharmacy are not covered under the Plan.

**Mail Service Pharmacy** -- Complete the Order and Patient Profile Form. You will need to complete the patient profile information only once. You may mail written prescriptions from your Physician, or have your Physician fax the prescription to the Mail Service. Your Physician may also phone in the prescription to the Mail Service Pharmacy. You will need to submit the applicable Copayment amounts to the Mail Service when you request a prescription or refill.

# Mail Order Required for Refills Beginning January 1, 2010

- Maintenance Prescriptions Beginning January 1, 2010, members are required to use the plan's mail order pharmacy for refilling maintenance prescriptions. Members are allowed three refills at a retail pharmacy. Starting with the fourth refill for that medication, the member must use Express Script's Mail Order Pharmacy for the prescription to be covered by the plan. Members should call Express Scripts at 1-866-677-8928 with questions.
- **Specialty Prescriptions** Beginning January 1, 2010 members using a specialty prescription are required to receive refills using the plan's specialty mail order pharmacy Members should call Express Scripts at 1-866-677-8928 with questions.

# VISION SERVICE PLAN

Beginning 1/1/2014, vision coverage is offered as a separate, voluntary, employee-paid benefit.

## **Covered Vision Services and Materials**

The vision benefits available to you under this Benefit Booklet are outlined in the Schedule of Benefits and include benefits for eye examinations, lenses, frames and contact lenses. All Covered Services and benefits are subject to the limitations, exclusions, terms and provisions of this Benefit Booklet and the Group Vision Care Policy between the Employer and the Vision Service Plan Insurance Company. If there is ever a discrepancy between this Benefits Booklet and the Group Vision Care Policy, the terms of the Group Vision Care Policy will take precedence. The Vision Care Policy is available on the Employer's intranet website.

Covered Services must be Visually Necessary or Appropriate. The fact that a Provider may prescribe, order, recommend or approve a service, treatment or supply does not make it Visually Necessary or Appropriate. To receive maximum benefits for Covered Services, you must follow the terms of the Benefit Booklet, including use of Network Providers, and obtain any required Precertification. The Claims Administrator bases its decisions about Precertification, Visually Necessary or Appropriate services, Experimental/Investigative services and new technology on the Claim Administrator's Vision Policy. The Claims Administrator may also consider published peer-review literature, opinions or experts and the recommendations of nationally recognized public and private organizations which review the effectiveness of health care services and technology. The Claims Administrator is the final authority to determine Vision Policy or whether services or supplies are Visually Necessary or Appropriate.

Plan payment for Covered Services will be limited by any applicable Copayment or Benefit Period maximum in this Benefit Booklet. Vision care Covered Services may be received from any licensed optometrist, ophthalmologist, or dispensing optician, whether Network or Non-Network Provider. Covered Services include:

- Complete initial vision analysis that includes an appropriate examination of visual functions, including the prescription of corrective eyewear where indicated;
- Prescribing and ordering proper lenses;
- Assisting in the selection of frames;
- Verifying the accuracy of the finished lenses;
- Proper fitting and adjustment of frames;
- Subsequent adjustments to frames to maintain comfort and efficiency;
- Progress or follow-up work as necessary;
- Complete low vision analysis and diagnosis that includes a comprehensive examination of visual functions, including the prescription of corrective eyewear or vision aids where indicated; and
- Subsequent low vision therapy as Visually Necessary or Appropriate.

The Vision Service Plan is designed to cover visual needs rather than cosmetic materials. When the Member selects any of the following extras, the Vision Service Plan will pay the Maximum Allowable Amount for the basic lenses and frames and the Member will pay the additional costs for the options.

- Optional cosmetic processes;
- Anti-reflective coating;
- Color coating;

- Mirror coating;
- Scratch coating;
- Blended lenses;
- Cosmetic lenses;
- Laminated lenses;
- Oversize lenses;
- Photochromic lenses, tinted lenses except Pink #1 and Pink #2;
- Progressive multifocal lenses;
- UV (ultraviolet) protected lenses; and
- A frame that costs more than the Maximum Allowable Amount.

# **Excluded Vision Services and Materials**

There are no benefits for professional services or materials connected with:

- Orthoptics or vision training and any associated supplemental testing; plano lenses (less than a ± .38 diopter power); or two pair of glasses in lieu of bifocals;
- Replacement of lenses and frames furnished under this Plan that are lost or broken, except at the normal intervals when services are otherwise available;
- Medical or surgical treatment of the eyes;
- Any eye examination or any corrective eyewear required by an employer as a condition of employment; and
- Corrective vision treatment of an experimental nature, such as, but not limited to, RK and PRK Surgery.

The Claims Administrator may, at its discretion, waive any of the Vision Service Plan limitations if, in the sole opinion of the Claims Administrator's optometric consultants, it is necessary for the visual welfare of the Member.

# **CLAIMS PAYMENT**

# How to Obtain Benefits

When your care is rendered by a Network Provider you are not required to file a claim. Therefore, provisions below regarding "Claim Forms" and "Notice of Claim" do not apply, unless the claim was not filed by the Provider.

For services received from a Non-Network Provider, you are responsible for making sure a claim is filed in order to receive benefits. Many Hospitals, Physicians, and other Providers, who are Non-Network Providers, will submit your claim for you. If you submit the claim use a claim form.

# **How Benefits Are Paid**

The Plan shares the cost of your medical expenses with you up to the amount of the Maximum Allowable Amount. For services subject to a Deductible, you pay a portion of the bill before the Plan begins to pay its share of the balance. Some services are subject to a Copayment, others may be subject to both a Deductible and Coinsurance.

Network Providers will seek compensation from the Plan for Covered Services. When using a Network Provider you are only responsible for Copayments, Deductibles, Coinsurance and non-covered charges. Network Providers have agreed to accept the Maximum Allowable Amount as payment in full. If you receive Covered Services from a Non-Network Provider, you are responsible for the difference between the actual charge billed and the Maximum Allowable Amount plus any Deductible, Coinsurance and non-covered charges. Copayments, Deductibles and Coinsurance are your share of the cost and are generally due at the time you receive the medical service. Refer to the Schedule of Benefits to see what Deductible, Coinsurance and/or Copayment is required for each Covered Service.

The amount you pay may differ by the type of service you receive or by Provider. Refer to the Schedule of Benefits to see what amount you are required to pay for each service. Claims for Covered Services do not need to be sent to the Claims Administrator in the same order that expenses were incurred.

If you receive Covered Services in a Network Provider Facility from a Non Network Provider who is employed by or otherwise affiliated with that Network Provider Facility, benefits will be paid at the Network level. Payment will not exceed the Maximum Allowable Amount that would constitute payment in full under a Network Provider's participation agreement for this product. You may be liable for the difference between the billed charge and the Plan's Maximum Allowable Amount.

If you receive Covered Services from a Non-Network Provider for Emergency Care, Urgent Care or ambulance services, benefits will be paid at the Network level. Payment will not exceed the Maximum Allowable Amount that would constitute payment in full under a Network Provider's participation agreement for this product. You may be liable for the difference between the billed charge and the Plan's Maximum Allowable Amount.

The Claims Administrator will deny that portion of any charge which exceeds the Maximum Allowable Amount.

# **Payment of Benefits**

You authorize the Claims Administrator to make payments directly to Providers for Covered Services. The Claims Administrator also reserves the right to make payments directly to you. Payments may also be made, and notice regarding the receipt and/or adjudication of claims, to an Alternate Recipient, or that person's custodial parent or designated representative. Any payments made by the Claims Administrator will discharge the Employer's obligation to pay for Covered Services. You cannot assign your right to receive payment to anyone else, except as required by a "Qualified Medical Child Support order" as defined by ERISA or any applicable state law.

Once a Provider performs a Covered Service, the Claims Administrator will not honor a request to withhold payment of the claims submitted.

# Assignment

The coverage and any benefits under the Plan are not assignable by any Member without the written consent of the Plan, except as provided above.

# **Notice of Claim**

The Plan is not liable, unless the Claims Administrator receives written notice that Covered Services have been given to you. An expense is considered incurred on the date the service or supply was given.

The notice must be given to the Claims Administrator within 90 days of receiving the Covered Services, and must have the data the Claims Administrator needs to determine benefits. If the notice submitted does not include sufficient data the Claims Administrator needs to process the claim, then the necessary data must be submitted to the Claims Administrator within the time frames specified in this provision or no benefits will be payable except as otherwise required by law. Failure to give the Claims Administrator notice within 90 days will not reduce any benefit if you show that the notice was given as soon as reasonably possible. No notice can be submitted later than one year after the date the service or supply was given.

Note: You have the right to obtain an itemized copy of your billed charges from the Hospital or facility which provided services.

# **Claim Forms**

Many Providers will file for you. If the forms are not available, either send a written request for claim forms to the Claims Administrator or contact customer service and ask for claim forms to be sent to you. The form will be sent to you within 15 days. If you do not receive the forms, written notice of services rendered may be submitted to the Claims Administrator without the claim form. The same information that would be given on the claim form must be included in the written notice of claim. This includes:

- Name of patient
- Patient's relationship with the Subscriber
- Identification number
- Date, type and place of service
- Your signature and the Provider's signature

# **Proof of Claim**

Written proof of claim satisfactory to the Claims Administrator must be submitted to the Claims Administrator within 90 days after the date of the event for which claim is made. If proof of claim is not sent within the time required, the claim will not be reduced or denied if it was not possible to send proof within this time. However, the proof must be sent as soon as reasonably possible. In any case, the proof required must be sent to the Claims Administrator no later than one year following the date the service or supply was given, unless you were legally incapacitated.

# **Claim Processing Timeframe**

# **Urgent Care Claims**

Your claim may require immediate action if a delay in treatment could significantly increase the risk to your health of the ability to regain maximum function or cause severe pain. In these urgent situations, your or your Physician should call the Claims Administrator as soon as possible. The Claims Administrator will provide you with a written or electronic determination within 72 hours following receipt by the Claims Administrator of your request taking into account the seriousness of your condition.

### **Pre-Service Claims**

Pre-service claims are claims for a benefit, for which the Plan requires you to receive approval of the benefit in advance of receiving medical care (prior authorization or Precertification), as a condition to receive the Plan's stated benefit. For pre-service claims, the Claims Administrator will provide you with a written response indicating the Plan's decision within a reasonable period of time appropriate to condition, but not later than 15 days of the date the Claims Administrator receives your pre-service claim.

### **Post-Service Claims**

Post-service claims are claims for a benefit under the Plan for services already received, for which prior approval is not required by the Plan. For post-service claims, the Plan will pay all benefits within 30 days. If the Claims Administrator has not received the information needed to process a post-service claim, the Claims Administrator will ask for the additional information necessary to complete the claim. Generally, you will receive a copy of that request for additional information, for your information. In those cases, the Claims Administrator cannot complete the processing of the claim until the additional information requested has been received. The Claims Administrator generally will make a request for additional information within 30 days of the Claims Administrator's initial receipt of the claim and will complete processing of the claim within 15 days after the Claims Administrator's receipt of all requested information

At the Claims Administrator's discretion, benefits will be paid to you or the Provider of services. You may not assign any payment. If other parties have paid benefits under this Plan, the Plan may reimburse those other parties and be fully discharged from that portion of its liability.

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 82 of 114 Meiman

# **Unclaimed Benefits**

If, after diligent effort, a Subscriber who is entitled to benefits cannot be located within a reasonable period of time after the date such benefit was to be paid, the benefit amount shall be held in the Plan. Such amounts held in the Plan shall be forfeited as of each December 31, and shall be used to reduce Company contributions. If the Subscriber subsequently presents a valid claim for the benefit to the Claims Administrator, the Claims Administrator shall cause the benefit, equal to the amount which was forfeited hereunder, to be paid from the Plan.

# **Member's Cooperation**

Each Member shall complete and submit to the Claims Administrator such consents, releases, assignments and other documents as may be requested by the Claims Administrator, in order to obtain or assure reimbursement under Medicare, Worker's Compensation or any other governmental program. Any Member who fails to cooperate (including a Member who fails to enroll under Part B of the Medicare program where Medicare is the responsible payor) will be responsible for any charge for services.

# **Confidentiality Policy**

The Plan is required to comply with the provisions of HIPAA, and is governed by the Notice of Privacy Practices. In the event of certain breaches related to protected health information certain notice requirements will be applicable under recently enacted legislation. You should consult the notice for a statement of your rights. A copy of the Notice of Privacy Practices can be obtained from the Benefits portion of the Employer's intranet website.

#### YOU MAY REQUEST AN IMPORTANT HEALTH NOTICE

As required by the Health Insurance Portability and Accountability Act (HIPAA), we would like to remind you that as a health plan participant, you have the right to obtain a notice of patients' privacy rights as well as a copy of the company's privacy practices. Please contact the LG&E and KU Benefits Department at (502) 627-2121 to request this information.

The Claims Administrator's Customer Service Area may release information to you or your Spouse concerning a claim for benefits, or your coverage under the Plan. If you do NOT want the Claims Administrator to release such information to anyone but yourself, you must notify the Claims Administrator in writing. Your Spouse or any Child over age 18 must also notify the Claims Administrator in writing if they do not wish such information regarding their claims or coverage released to you by Customer Service. However, the Explanation of Benefit forms will contain information on all claims for benefits under your coverage, and will be sent to the person in whose name the coverage is held (except as prohibited by law).

# **Plan Information Practices Notice**

The purpose of this information practices notice is to provide a notice to Members regarding the Plan's standards for the collection, use, and disclosure of information gathered in connection with the Claims Administrator's business activities.

- The Claims Administrator may collect personal information about a Member from persons or entities other than the Member.
- The Claims Administrator may disclose Member information to persons or entities outside of the Claims Administrator and Employer without Member authorization in certain circumstances.
- A Member has a right of access and correction with respect to all personal information collected by the Claims Administrator.
- The Claims Administrator takes reasonable precautions to protect Member information in its possession, including the use of restricted computer access.

# **Explanation of Benefits**

After you receive medical care, you will generally receive an Explanation of Benefits (EOB). The EOB is a summary of the coverage you receive. The EOB is not a bill, but a statement sent by the Claims Administrator to help you understand the coverage you are receiving. The EOB shows:

- Total amounts charged for services/supplies received;
- The amount of the charges satisfied by your coverage;
- The amount for which you are responsible (if any); and
- general information about your Appeals rights and for ERISA plans, information regarding the right to bring an action after the Appeals process.

# Anthem BlueCard

When you obtain health care services through the Anthem BlueCard outside the geographic area the Claims Administrator serves, the amount you pay for Covered Services is calculated on the lower of:

- The billed charges for your Covered Services, or
- The negotiated price that the on-site Blue Cross and/or Blue Shield Plan ("Host Blue") passes onto the Claims Administrator.

Often this "negotiated price" will consist of a simple discount which reflects the actual price paid by the Host Blue. But sometimes it is an estimated price that factors into the actual price, expected settlements, withholds, any contingent payment arrangements, and non-claims transactions with your health care Provider or with a specified group of Providers. The negotiated price may also be billed charges reduced to reflect an average expected savings with your health care Provider or with a specified group of Providers. The negotiated price row with a specified group of Providers. The price that reflects average savings may result in greater variation (more or less) from the actual price paid than will the estimated price. The negotiated price will also be adjusted in the future to correct for over-or underestimation of past prices. However, the amount you pay is considered a final price.

Statutes in a small number of states may require the Host Blue to use a basis for calculating Member liability for Covered Services that does not reflect the entire savings realized or expected to be realized on a particular claim or to add a surcharge. Should any state statutes mandate Member liability calculation methods that differ from the usual BlueCard method noted above in paragraph one of this

# Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44

Page 84 of 114 section or require a surcharge, the Claims Administrator would then calculate your liability for a **Weiman** Covered Services in accordance with the applicable state statutes in effect at the time you received your care.

You will be entitled to benefits for health care services received by you either inside or outside the geographic area the Claims Administrator serves if the Plan covers those health care services. Due to variations in Host Blue medical practice protocols you may also be entitled to benefits for some health care services obtained outside the geographic area the Claims Administrator serves even though you might not otherwise have been entitled to benefits if you had received those health care services inside the geographic area the Claims Administrator serves. But in no event will you be entitled to benefits for health care services wherever you received them that are specifically excluded or limited from coverage by the Plan.

# **GENERAL PROVISIONS**

# **Entire Agreement**

This Benefit Booklet, the Administrative Services Agreement, the Employer's application, any Riders, Endorsements or attachments, and the individual applications of the Subscribers and Members, if any, constitute the entire agreement between the Claims Administrator and the Employer and as of the Effective Date, supersede all other agreements between the parties. Any and all statements made to the Claims Administrator by the Employer, and any and all statements made to the Employer by the Claims Administrator, are representations and not warranties, and no such statement unless it is contained in a written application for coverage under the Plan, shall be used in defense to a claim under the Plan.

# Amendment or Termination of the Plan

The Employer reserves the right, by written action of the Chief Executive Officer, at any time, and from time-to-time, and retroactively if deemed necessary or appropriate, to amend any or all of the provisions of the Plan by delivery of written instruction to the Plan Administrator.

No amendment to the Plan, specifically including a Plan amendment with a retroactive effective date, may negate or reduce a benefit to which you or your covered dependents are entitled under the Plan when the claim is incurred prior to the effective date of the Plan amendment.

The Employer reserves the right to terminate the Plan, in whole or in part, at any time, provided that Plan termination is effected by a written resolution adopted by a majority of the Board of Directors of the Employer.

# **Cost of the Plan**

Portions of the Plan are self-insured by the Employer. The Employer and you share the cost of coverage. The Employer shall be entitled to retain any refund, rebate or other proceeds paid under or in connection with the Plan.

# Form or Content of Benefit Booklet

No agent or employee of the Claims Administrator is authorized to change the form or content of this Benefit Booklet. Such changes can be made only through an endorsement authorized and signed by an officer of the Employer.

# **Disagreement with Recommended Treatment**

Each Member enrolls in the Plan with the understanding that the Provider is responsible for determining the treatment appropriate for their care. You may, for personal reasons, refuse to accept procedures or treatment by Providers. Providers may regard such refusal to accept their recommendations as incompatible with continuance of the physician-patient relationship and as obstructing the provision of proper medical care.

Attachment to Question No. 44 Page 86 of 114 If you refuse to follow a recommended treatment or procedure, the Provider may believe that Meiman professionally acceptable alternative exists and advise you so. In such case, the Plan shall have no further responsibility to pay benefits for the condition under treatment or any complications thereof.

Case No. 2020-00349 and 2020-00350

# **Circumstances Beyond the Control of the Plan**

The Claims Administrator shall make a good-faith effort to arrange for an alternative method of administering benefits. In the event of circumstances not within the control of the Claims Administrator or Employer, including but not limited to: a major disaster, epidemic, the complete or partial destruction of facilities, riot, civil insurrection, labor disputes not within the control of the Claims Administrator, disability of a significant part of a Network Provider's personnel or similar causes, or the rendering of health care services covered by the Plan is delayed or rendered impractical the Claims Administrator shall make a good-faith effort to arrange for an alternative method of administering benefits. In such event, the Claims Administrator shall administer services under the Plan insofar as practical, and according to their best judgment; but the Claims Administrator and the Employer shall incur no liability or obligation for delay, or failure to administer or arrange for services if such failure or delay is caused by such an event.

# **Coordination of Benefits**

All benefits provided under this Plan are subject to Coordination of Benefits, except Prescription Drug Benefits.

When you or your family members are covered by another group plan in addition to this one, this Plan will follow Coordination of Benefit rules to determine which plan is primary and which is secondary. You must submit all bills first to the primary plan. If this Plan is the primary plan, it will pay its full benefits as if you had no other coverage. If the other plan is the primary plan and it denies the claim or does not pay the full bill, you may then submit the balance to the secondary plan.

This Plan pays for health care only when you follow its rules and procedures. If its rules conflict with those of another plan, it may be impossible to receive benefits from both plans and you will be forced to choose which plan to use.

### **Plans That Do Not Coordinate**

This Plan will pay benefits without regard to benefits paid by the following kinds of coverage:

- Medicaid;
- Group hospital indemnity plans which pay less than \$100 per day;
- School accident coverage; and
- Some supplemental sickness and accident policies.

# How This Plan Pays When Primary

When this Plan is primary, it will pay the full benefit allowed by this Plan as if you had no other coverage.

#### How This Plan Pays When Secondary

When this Plan is secondary, its payments will be based on the balance left after the primary plan has paid. It will pay no more than that balance. In no event will this coverage pay more than it would have paid if it had been primary.

- This Plan will pay only for expenses that are Covered Services in this Benefit Booklet.
- This Plan will pay only if you have followed all of this Plan's procedural requirements, etc.
- This Plan will pay no more than the "allowable expenses" for the health care involved. If this Plan's allowable expense is lower than the primary plan's, then the primary plan's allowable expense will be used unless a Provider has agreed to accept this Plan's allowable expense as payment in full. The allowable expense may be less than the actual bill.

#### Which Plan Is Primary

To decide which plan is primary, consider both the coordination provisions of the other plan and which member of your family is the patient. The primary plan will be determined by the first of the following which applies:

1. Non-coordinating Plan

If you have another group coverage which does not coordinate benefits, that plan will always be primary.

2. Employee

The plan which covers the patient as the employee is primary to the plan which covers the patient as a dependent;

- 3. Children (Parents Divorced or Separated) If the court decree makes one parent responsible for health care expenses, that parent's plan is primary. If the court decree gives joint custody and does not mention health care, this Plan follows the birthday rule. If neither of these rules applies, the order will be determined in following order:
  - a. The plan of the parent with custody;
  - b. The plan of the Spouse of the parent with custody;
  - b. The plan of the parent not having custody; and
  - c. The plan of the Spouse of the parent not having custody.
- 4. Children and the Birthday Rule

When your children's health care expenses are involved, the "birthday rule" is followed. The plan of the parent with the first birthday in a calendar year is always primary for the children. If your birthday is in January and your Spouse's birthday is in March, your plan will be primary for all of your children. If the parents' birthdays are the same, then whichever parent's plan has been in effect longer is primary.

However, if your Spouse's plan has some other coordination rule (for example, a "gender rule" which says the father's coverage is always primary), then the rules of that plan will be followed.

5. Active Employment vs. Layoff or Retirement

The plan which covers the person as an active employee (or that employee's dependent) is primary to another plan which covers that person as a laid off employee or a retiree (or that person's dependent). If both plans do not include this same rule, then it will be ignored. This rule does not supersede rule 2, employee vs. dependent.

- 6. State or Federal Continuation Coverage When the person's coverage is provided under a right of continuation under federal law (e.g. COBRA) or state law, any other plan covering that person will be primary to the plan covering the person under such continuation provision unless that other plan does not include this same rule.
- Length of Time Covered by the Plan The plan which has covered the person for the longer period of time is primary to another plan.

#### **Coordination of Benefits with Medicare**

You normally become eligible for Medicare at age 65 or when you have been entitled to Social Security disability benefits for 24 months. The age 65 eligibility will also apply to your spouse. Medicare eligibility due to disability also applies to your spouse or any covered disabled dependent. The coordination of the Plan with Medicare will depend on your status and the reason you are eligible for Medicare.

#### Active Employees and their Spouses Eligible for Medicare

If you are actively working and you or your spouse are eligible for Medicare due to being age 65 or over, you have the right to reject coverage under the Employer's Plan and use Medicare as your only source of health benefits. Please remember that Medicare may not provide adequate coverage.

Unless the Employer receives written notice that you wish to reject coverage under the Employer's Plan, the Employer will continue to provide primary medical coverage for active employees age 65 or over and Medicare will be secondary. This also applies to over age 65 spouses of active employees.

#### Active Employees and their Dependents who are Disabled due to End Stage Renal Disease

If you are actively working and you or one of your covered dependents is eligible for Medicare due to end stage renal disease, the benefits of the Plan will be primary for the first eighteen months of dialysis and Medicare will be secondary. At the end of the initial 30-month period, Medicare will become primary and the Plan will become secondary.

"Medicare is secondary" means the benefits from the Employer's Plan will be coordinated with Medicare Part A and Part B by reducing the benefits payable under the Plan by the amount which covered charges are paid by Medicare. Whenever the "Employer Plan is secondary", it will be assumed that the benefits paid by Medicare are equal to the amount that would have been paid if the individual had been enrolled in both Part A and Part B of Medicare and had filed claims for benefits under both parts.

#### **Other Disabled Participants Eligible for Medicare**

If you are eligible for Medicare due to being entitled for Social Security disability benefits for 24 months, you must enroll in Medicare Part A and Part B to have medical coverage with the Employer. Medicare will be primary and the Plan will be secondary.

Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 "The Employer Plan is secondary", means it will be assumed that the benefits paid by Medicare are equifeiman to the amount that would have been paid if the individual had been enrolled in both Part A and Part B of Medicare and had filed claims for benefits under both parts.

If you choose not to enroll in Medicare Part A and/or Part B, the Employer Plan will coordinate as if you had enrolled in Medicare Part A and Part B.

### **Eligible Survivors Eligible for Medicare**

If the Eligible Survivor is eligible for Medicare, they must enroll in Medicare Part A and Part B to have medical coverage with the Plan. Medicare will be primary and the Plan will be secondary.

"The Employer Plan is secondary", means it will be assumed that the benefits paid by Medicare are equal to the amount that would have been paid if the individual had been enrolled in both Part A and Part B of Medicare and had filed claims for benefits under both parts.

If you choose not to enroll in Medicare Part A and/or Part B, the Employer Plan will coordinate as if you had enrolled in Medicare Part A and Part B.

# **Right to Receive and Release Needed Information**

Certain facts are needed to apply COB rules. The Claims Administrator has the right to decide which facts are needed. This Plan may get needed facts from or give them to any other organization or person. The Plan need not tell you, or get your consent to do this. Each person claiming benefits under this Plan must provide any facts needed to pay the claim.

### **Facility of Payment**

A payment made under another plan may include an amount which should have been paid under this Plan. If it does, this Plan may pay that amount to the organization which made that payment. That amount will then be treated as though it was a benefit paid under this Plan and this Plan will not have to pay that amount again. The term "payment made" includes providing benefits in the form of services, in which case "payment made" means reasonable cash value of the benefits provided in the form of services.

### Overpayment

If the amount of the payments made by this Plan is more than should have been paid under the Plan's terms, including this COB provision, this Plan may recover the excess from one or more of:

- The persons it has paid or for whom it has paid;
- Another plan; or,
- The provider of service.

The Plan reserves the right to deduct or offset any amounts paid in error from any pending or future claim. The "amount of the payments made" includes the reasonable cash value of any benefits provided in the form of services.

### **Coordination Disputes**

If you believe that this Plan has not paid a claim properly, you should first attempt to resolve the problem by contacting the Claims Administrator. Follow the steps described in the **Complaint Procedure** 

section of this document.

### **Physical Examination**

The Claims Administrator reserves the right to cause you to be examined by an applicable Provider as often as may be reasonably required during the pendency of a claim.

# Worker's Compensation

The benefits under the Plan are not designed to duplicate any benefit for which Members are eligible under the Worker's Compensation Law. All sums paid or payable by Worker's Compensation for services provided to a Member shall be reimbursed by, or on behalf of, the Member to the Plan to the extent the Plan has made or makes payment for such services. It is understood that coverage hereunder is not in lieu of, and shall not affect, any requirements for coverage under Worker's Compensation.

# **Other Government Programs**

Except insofar as applicable law would require the Plan to be the primary payor, the benefits under the Plan shall not duplicate any benefits to which Members are entitled, or for which they are eligible under any other governmental program. To the extent the Plan has duplicated such benefits, all sums payable under such programs for services to Members shall be paid by or on behalf of the Member to the Plan.

# Subrogation and Right of Reimbursement

These provisions apply when Plan benefits are paid as a result of injuries or illness you sustained and you have a right to a Recovery or have received a Recovery.

### Subrogation

The Plan has the right to recover Plan payments made on your behalf from any party responsible for compensating you for your injuries. The following apply:

- The Claims Administrator has the first priority for the full amount of benefits it has paid from any Recovery regardless of whether you are fully compensated, and regardless of whether the payments you receive make you whole for your losses and injuries.
- You and your legal representative must do whatever is necessary to enable the Plan to exercise the Plan's rights and do nothing to prejudice them.
- The Plan has the right to take whatever legal action they see fit against any party or entity to recover the benefits paid under the Plan.
- To the extent that the total assets from which a Recovery is available are insufficient to satisfy in full the Plan's subrogation claim and any claim still held by you. The Plan's subrogation claim shall be first satisfied before any part of a Recovery is applied to your claim, your attorney fees, other expenses or costs.
- The Plan is not responsible for any attorney fees, other expenses or costs without its prior written consent. The "common fund" doctrine does not apply to any funds recovered by any attorney you hire regardless of whether funds recovered are used to repay benefits paid by the Claims Administrator.

#### Reimbursement

If you obtain a Recovery and the Plan has not been repaid for the benefits the Plan paid on your behalf, the Plan shall have a right to be repaid from the Recovery in the amount of the benefits paid on your behalf and the following apply:

- You must reimburse the Claims Administrator to the extent of Plan benefits the Claims Administrator paid on your behalf from any Recovery.
- Notwithstanding any allocation made in a settlement agreement or court order, the Plan shall have a right of Recovery, in first priority, against any Recovery.
- You and your legal representative must hold in trust for the Plan the proceeds of the gross Recovery (i.e., the total amount of your Recovery before attorney fees, other expenses or costs) to be paid to the Plan immediately upon your receipt of the Recovery. You must reimburse the Employer, in first priority and without any set-off or reduction for attorney fees, other expenses or costs. The "common fund" doctrine does not apply to any funds recovered by any attorney you hire regardless of whether funds recovered are used to repay benefits paid by the Plan.
- If you fail to repay the Plan, the Plan shall be entitled to deduct any of the unsatisfied portion of the amount of benefits the Plan has paid or the amount of your Recovery whichever is less, from any future benefit under the Plan if:
  - 1. The amount the Plan paid on your behalf is not repaid or otherwise recovered by the Plan; or
  - 2. You fail to cooperate.
- In the event that you fail to disclose to the Plan the amount of your settlement, the Plan shall be entitled to deduct the amount of the Plan's lien from any future benefit under the Plan.
- The Plan shall also be entitled to recover any of the unsatisfied portion of the amount paid or the amount of your settlement, whichever is less, directly from the Providers to whom the Claims Administrator has made payments. In such a circumstance, it may then be your obligation to pay the Provider the full billed amount, and the Plan would not have any obligation to pay the Provider.
- The Plan is entitled to reimbursement from any Recovery, in first priority, even if the Recovery does not fully satisfy the judgment, settlement or underlying claim for damages or fully compensate or make you whole.

# **Your Duties**

- You must notify the Claims Administrator promptly of how, when and where an accident or incident resulting in personal injury or illness to you occurred and all information regarding the parties involved.
- You must cooperate with the Claims Administrator in the investigation, settlement and protection of the rights of the Plan.
- You must not do anything to prejudice the rights of the Plan.
- You must send the Claims Administrator copies of all police reports, notices or other papers received in connection with the accident or incident resulting in personal injury or illness to you.
- You must promptly notify the Claims Administrator if you retain an attorney or if a lawsuit is filed on your behalf.

# **Relationship of Parties** (Employer-Member-Claims Administrator)

Neither the Employer nor any Member is the agent or representative of the Claims Administrator.

The Employer is fiduciary agent of the Member. It is the Employer's duty to notify the Claims Administrator of eligibility data in a timely manner.

# **Claims Administrator Note**

The Employer, on behalf of itself and its participants, hereby expressly acknowledges its understanding that the Administrative Services Agreement (which includes this Benefit Booklet) constitutes a contract solely between the Employer and the Claims Administrator, and that the Claim Administrator is an independent corporation. This paragraph shall not create any additional obligations whatsoever on the part of Claims Administrator other than those obligations created under other provisions of the Administrative Services Agreement or this Benefit Booklet.

# Notice

Any notice given under the Plan shall be in writing. The notices shall be sent to: The Employer at its principal place of business; to you at the Subscriber's address as it appears on the records or in care of the Employer.

# Modifications

This Benefit Booklet shall be subject to amendment, modification, and termination in accordance with any of its provisions by the Employer, or by mutual agreement between the Claims Administrator and the Employer without the consent or concurrence of any Member. By electing benefits under the Plan or accepting the Plan benefits, all Members legally capable of contracting, and the legal representatives of all Members incapable of contracting, agree to all terms, conditions, and provisions hereof.

# **Conformity with Law**

Any provision of the Plan which is in conflict with the applicable state and federal laws and regulations is hereby amended to conform with the minimum requirements of such laws.

# **Clerical Error**

Clerical error, whether of the Claims Administrator or the Employer, in keeping any record pertaining to this coverage will not invalidate coverage otherwise validly in force or continue benefits otherwise validly terminated.

# **Policies and Procedures**

The Claims Administrator may adopt reasonable policies, procedures, rules and interpretations to promote the orderly and efficient administration of the Plan with which a Member shall comply.

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 93 of 114 Meiman

# Waiver

No agent or other person has authority to waive any conditions or restrictions of the Plan, to extend the time for making a payment to the Plan, or to bind the Plan by making any promise or representation or by giving or receiving any information.

# **Employer's Sole Discretion**

The Employer may, in its sole discretion, cover services and supplies not specifically covered by the Plan. This applies if the Employer, with advice from the Claims Administrator, determines such services and supplies are in lieu of more expensive services and supplies which would otherwise be required for the care and treatment of a Member.

# **Reservation of Discretionary Authority**

The Claims Administrator, or anyone acting on its behalf, shall determine the administration of benefits and eligibility for participation in such a manner that has a rational relationship to the terms set forth herein. However, the Claims Administrator, or anyone acting on its behalf, has complete discretion to determine the administration of your benefits. The Claims Administrator's determination shall be final and conclusive and may include, without limitation, determination of whether the services, care, treatment, or supplies are Medically Necessary, Experimental-Investigative, whether surgery is cosmetic, and whether charges are consistent with the Plan's Maximum Allowable Amount. However, a Member may utilize all applicable Complaint and Appeals procedures.

The Claims Administrator, or anyone acting on its behalf, shall have all the powers necessary or appropriate to enable it to carry out its duties in connection with the operation and administration of the Plan. This includes, without limitation, the power to determine all questions arising under the Plan, to resolve Member Complaints and Appeals and to make, establish and amend the rules, regulations and procedures with regard to the interpretation and administration of the provisions of this Plan. However, these powers shall be exercised in such a manner that has reasonable relationship to the provisions of the Administrative Services Agreement, the Benefit Booklet, Provider agreements, and applicable state or federal laws. A specific limitation or exclusion will override more general benefit language.

# Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 94 of 114 Meiman ANTHEM MEDICAL BENEFITS

The Claims Administrator's customer service representatives are specially trained to answer your questions about your health benefit plan. Please call during business hours, Monday through Friday, with questions regarding:

- your coverage and benefit levels, including Copayment, Deductible and Coinsurance amounts;
- specific claims or services you have received;
- doctors or Hospitals in the Network;
- referral processes or authorizations; and/or
- Network Provider directories.

# **The Complaint Procedure**

A complaint procedure has been established to provide fair, reasonable, and timely review of complaints that you may have concerning the Plan. The Claims Administrator invites you to share any concerns that you may have over benefit determinations, coverage cancellations, or the quality of care rendered by medical Providers in the Claims Administrator's Networks.

If you have a complaint, problem, or claim concerning benefits or services, please contact the Claims Administrator. Please refer to your Identification Card for the Claims Administrator's address and telephone number.

A complaint is an expression of dissatisfaction that can often be resolved by an explanation from the Claims Administrator of its procedures and contracts. You may submit your complaint by letter or by telephone call. Or, if you wish, you may meet with your local service representative to discuss your complaint. If your complaint involves issues of Covered Services, you may be asked to sign a medical records release form so the Claims Administrator can request medical records for its review.

# Your Right to Appeal

For purposes of these Appeal provisions, "claim for benefits" means a request for benefits under the plan. The term includes both pre-service and post-service claims.

- A pre-service claim is a claim for benefits under the plan for which you have not received the benefit or for which you may need to obtain approval in advance.
- A post-service claim is any other claim for benefits under the plan for which you have received the service.

If your claim is denied or if your coverage is rescinded:

- you will be provided with a written notice of the denial or rescission; and
- you are entitled to a full and fair review of the denial or rescission.

The procedure the Claims Administrator will satisfy following the minimum requirements for a full and fair review under applicable federal regulations.

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 95 of 114 Meiman

#### Notice of Adverse Benefit Determination

If your claim is denied, the Claims Administrator's notice of the adverse benefit determination (denial) will include:

- information sufficient to identify the claim involved
- the specific reason(s) for the denial;
- a reference to the specific plan provision(s) on which the Claims Administrator's determination is based;
- a description of any additional material or information needed to perfect your claim;
- an explanation of why the additional material or information is needed;
- a description of the plan's review procedures and the time limits that apply to them, including a statement of your right to bring a civil action under ERISA if you appeal and the claim denial is upheld;
- information about any internal rule, guideline, protocol, or other similar criterion relied upon in making the claim determination and about your right to request a copy of it free of charge, along with a discussion of the claims denial decision; and
- information about the scientific or clinical judgment for any determination based on medical necessity or experimental treatment, or about your right to request this explanation free of charge, along with a discussion of the claims denial decision.
- the availability of, and contact information for, any applicable office of health insurance consumer assistance or ombudsman who may assist you

For claims involving urgent/concurrent care:

- the Claims Administrator's notice will also include a description of the applicable urgent/concurrent review process; and
- the Claims Administrator may notify you or your authorized representative within 72 hours orally and then furnish a written notification.

### Appeals

You have the right to appeal an adverse benefit determination (claim denial or rescission of coverage). You or your authorized representative must file your appeal within 180 calendar days after you are notified of the denial or rescission. You will have the opportunity to submit written comments, documents, records, and other information supporting your claim. The Claims Administrator's review of your claim will take into account all information you submit, regardless of whether it was submitted or considered in the initial benefit determination.

• The Claims Administrator shall offer a single mandatory level of appeal and an additional voluntary second level of appeal which may be a panel review, independent review, or other process consistent with the entity reviewing the appeal. The time frame allowed for the Claims Administrator to complete its review is dependent upon the type of review involved (e.g. preservice, concurrent, post-service, urgent, etc.).

**For pre-service claims involving urgent/concurrent care**, you may obtain an expedited appeal. You or your authorized representative may request it orally or in writing. All necessary information, including the Claims Administrator's decision, can be sent between the Claims Administrator and you by telephone, facsimile or other similar method. To file an appeal for a claim involving urgent/concurrent care, you or your authorized representative must contact the Claims Administrator at the number shown on your identification card and provide at least the following information:

- the identity of the claimant;
- The date (s) of the medical service;
- the specific medical condition or symptom;
- the provider's name
- the service or supply for which approval of benefits was sought; and
- any reasons why the appeal should be processed on a more expedited basis.

All other requests for appeals should be submitted in writing by the *Member* or the *Member's authorized representative*, except where the acceptance of oral *appeals* is otherwise required by the nature of the *appeal* (e.g. urgent care). You or your authorized representative must submit a request for review to:

National Appeals Anthem Blue Cross and Blue Shield P.O. Box 105568 Atlanta, GA 30348-5568

Upon request, the Claims Administrator will provide, without charge, reasonable access to, and copies of, all documents, records, and other information relevant to your claim. "Relevant" means that the document, record, or other information:

- was relied on in making the benefit determination; or
- was submitted, considered, or produced in the course of making the benefit determination; or
- demonstrates compliance with processes and safeguards to ensure that claim determinations are made in accordance with the terms of the plan, applied consistently for similarly-situated claimants; or
- is a statement of the plan's policy or guidance about the treatment or benefit relative to your diagnosis.

The Claims Administrator will also provide you, free of charge, with any new or additional evidence considered, relied upon, or generated in connection with your claim. In addition, before you receive an adverse benefit determination on review based on a new or additional rationale, the Claims Administrator will provide you, free of charge, with the rationale.

### How Your Appeal will be Decided

When the Claims Administrator considers your appeal, the Claims Administrator will not rely upon the initial benefit determination or, for voluntary second-level appeals, to the earlier appeal determination. The review will be conducted by an appropriate reviewer who did not make the initial determination and who does not work for the person who made the initial determination. A voluntary second-level review will be conducted by an appropriate reviewer who did not make the initial determination or the first-level appeal determination and who does not work for the person who made the initial determination or first-level appeal determination.

If the denial was based in whole or in part on a medical judgment, including whether the treatment is experimental, investigational, or not medically necessary, the reviewer will consult with a health care professional who has the appropriate training and experience in the medical field involved in making the judgment. This health care professional will not be one who was consulted in making an earlier determination or who works for one who was consulted in making an earlier determination.

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 97 of 114 Meiman

#### Notification of the Outcome of the Appeal

If you appeal a claim involving urgent/concurrent care, the Claims Administrator will notify you of the outcome of the appeal as soon as possible, but not later than 72 hours after receipt of your request for appeal.

**If you appeal any other pre-service claim**, the Claims Administrator will notify you of the outcome of the appeal within 30 days after receipt of your request for appeal

**If you appeal a post-service claim**, the Claims Administrator will notify you of the outcome of the appeal within 60 days after receipt of your request for appeal.

#### **Appeal Denial**

• If your appeal is denied, that denial will be considered an adverse benefit determination. The notification from the Claims Administrator will include all of the information set forth in the above section entitled "Notice of Adverse Benefit Determination."

#### **Voluntary Second Level Appeals**

If you are dissatisfied with the Plan's mandatory first level appeal decision, a voluntary second level appeal may be available. If you would like to initiate a second level appeal, please write to the address listed above. Voluntary appeals must be submitted within 60 calendar days of the denial of the first level appeal. You are not required to complete a voluntary second level appeal prior to submitting a request for an independent External Review.

#### **External Review**

If the outcome of the mandatory first level appeal is adverse to you, you may be eligible for an independent External Review pursuant to federal law.

You must submit your request for External Review to the Claims Administrator within four (4) months of the notice of your final internal adverse determination.

A request for a External Review must be in writing unless the Claims Administrator determines that it is not reasonable to require a written statement. You do not have to re-send the information that you submitted for internal appeal. However, you are encouraged to submit any additional information that you think is important for review.

For pre-service claims involving urgent/concurrent care, you may proceed with an Expedited External Review without filing an internal appeal or while simultaneously pursuing an expedited appeal through our internal appeal process. You or your authorized representative may request it orally or in writing. All necessary information, including the Claims Administrator's decision, can be sent between the Claims Administrator and you by telephone, facsimile or other similar method. To proceed with an Expedited External Review, you or your authorized representative must contact the Claims Administrator at the number shown on your identification card and provide at least the following information:

- the identity of the claimant;
- The date (s) of the medical service;
- the specific medical condition or symptom;

- the provider's name
- the service or supply for which approval of benefits was sought; and
- any reasons why the appeal should be processed on a more expedited basis.

All other requests for External Review should be submitted in writing unless the Claims Administrator determines that it is not reasonable to require a written statement. Such requests should be submitted by you or your authorized representative to:

National Appeals Anthem Blue Cross and Blue Shield P.O. Box 105568 Atlanta, GA 30348-5568

This is not an additional step that you must take in order to fulfill your appeal procedure obligations described above. Your decision to seek External Review will not affect your rights to any other benefits under this health care plan. There is no charge for you to initiate an independent External Review. The External Review decision is final and binding on all parties except for any relief available through applicable state laws or ERISA.

#### Requirement to file an Appeal before filing a lawsuit

No lawsuit or legal action of any kind related to a benefit decision may be filed by you in a court of law or in any other forum, unless it is commenced within three years of the Plan's final decision on the claim or other request for benefits. If the Plan decides an appeal is untimely, the Plan's latest decision on the merits of the underlying claim or benefit request is the final decision date. You must exhaust the Plan's internal Appeals Procedure but not including any voluntary level of appeal, before filing a lawsuit or taking other legal action of any kind against the Plan. If your health benefit plan is sponsored by your employer and subject to the Employee Retirement Income Security Act of 1974 (ERISA) and your appeal as described above results in an adverse benefit determination, you have a right to bring a civil action under Section 502(a) of ERISA.

We reserve the right to modify the policies, procedures and timeframes in this section upon further clarification from Department of Health and Human Services and Department of Labor.

# Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 99 of 114 Meiman EXPRESS SCRIPTS PHARMACY BENEFITS

#### For appeals of all claims other than direct claims:

The following section addresses appeals of initial adverse determinations, other than direct claims which are set forth below. This section should be used for appeals of denials of coverage determinations or other pre-service claims determinations.

In the event you receive an adverse benefit determination following a request for coverage of a prescription benefit claims, you have the right to appeal the adverse benefit determination in writing within 180 days of receipt of notice of the initial coverage decision. An appeal may be initiated by you or your authorized representative (such as your physician). To initiate an appeal for coverage, provide in writing your name, member ID, phone number, the prescription drug for which benefit coverage has been denied, the diagnosis code and treatment codes to which the prescription relates (together with the corresponding explanation for those codes) and any additional information that may be relevant to your appeal. This information should be mailed to Express Scripts, 8111 Royal Ridge Parkway, Irving, TX 75063. A decision regarding your appeal will be sent to you within 15 days of receipt of your written request. The notice will include information to identify the claim involved, the specific reasons for the decision, new or additional evidence, if any considered by the plan in relation to your appeal, the plan provisions on which the decision is based, a description of applicable internal and external review processes and contact information for an office of consumer assistance or ombudsman (if any) that might be available to assist you with the claims and appeals processes and any additional information needed to perfect your claim. You have the right to receive, upon request and at no charge, the information used to review your appeal.

If you are not satisfied with the coverage decision made on appeal, you may request in writing, within 90 days of the receipt of notice of the decision, a second level appeal. A second level appeal may be initiated by you or your authorized representative (such as your physician). To initiate a second level appeal, provide in writing your name, member ID, phone number, the prescription drug for which benefit coverage has been denied the diagnosis code and treatment codes to which the prescription relates (and the corresponding explanation for those codes) and any additional information that may be relevant to your appeal. This information should be mailed to Express Scripts, 8111 Royal Ridge Parkway, Irving, TX 75063. You have the right to review your file and present evidence and testimony as part of your appeal, and the right to a full and fair impartial review of your claim. A decision regarding your request will be sent to you in writing within 15 days of receipt of your written request for an appeal. The notice will include information to identify the claim involved, the specific reasons for the decision, new or additional evidence, if any considered by the plan in relation to your appeal, the plan provisions on which the decision is based, a description of applicable internal and external review processes and contact information for an office of consumer assistance or ombudsman (if any) that might be available to assist you with the claims and appeals processes. You have the right to receive, upon request and at no charge, the information used to review your second level appeal. If new information is received and considered or relied upon in the review of your second level appeal, such information will be provided to you together with an opportunity to respond prior to issuance to any final adverse determination of this appeal. The decision made on your second level appeal is final and binding.

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 100 of 114

If your second level appeal is denied and you are not satisfied with the decision of the second level Meiman appeal or your adverse benefit determination notice or final adverse benefit determination notice does not contain all of the information required under ERISA, you also have the right to bring a civil action under section 502(a) of the Employee Retirement Income Security Act of 1974 (ERISA).

You also may have the right to obtain an independent external review. Details about the process to initiate an external review will be described in any notice of an adverse benefit determination. External reviews are not available for decisions relating to eligibility.

In the case of a claim for coverage involving urgent care, you will be notified of the benefit determination within 72 hours of receipt of the claim. An urgent care claim is any claim for treatment with respect to which the application of the time periods for making non-urgent care determinations could seriously jeopardize the life or health of the claimant or the ability of the claimant to regain maximum function, or in the opinion of a physician with knowledge of the claimant's medical condition, would subject the claimant to severe pain that cannot be adequately managed. If the claim does not contain sufficient information to determine whether, or to what extent, benefits are covered, you will be notified within 24 hours after receipt of your claim of the information and will be notified of the decision within 24 hours of receipt of the information. If you don't provide the needed information within the 48-hour period, your claim will be deemed denied.

You have the right to request an urgent appeal of an adverse benefit determination (including a deemed denial) if you request coverage of a claim that is urgent. Urgent appeal requests may be oral or written. You or your physician may call 800-864-1135 or send a written request to Express Scripts, Inc., 8111 Royal Ridge Parkway, Irving, TX 75063, Attn: Urgent Appeals. In the case of an urgent appeal for coverage involving urgent care, you will be notified of the benefit determination within 72 hours of receipt of the claim. This coverage decision is final and binding. You have the right to receive, upon request and at no charge, the information used to review your appeal. If new information is received and considered or relied upon in the review of your appeal, such information will be provided to you together with an opportunity to respond prior to issuance to any final adverse determination of this appeal. The decision made on your second level appeal is final and binding. You also have the right to bring a civil action under section 502(a) of Employee Retirement Income Security Act of 1974 (ERISA) if your appeal is denied or your adverse benefit determination notice or final adverse benefit determination notice does not contain all of the information required under ERISA. You also have the right to obtain an independent external review. In situations where the timeframe for completion of an internal review would seriously jeopardize your life or health or your ability to regain maximum function you could have the right to immediately request an expedited external review, prior to exhausting the internal appeal process, provided you simultaneously file your request for an internal appeal of the adverse benefit determination. Details about the process to initiate an external review will be described in any notice of an adverse benefit determination.

### For direct claims:

Your plan provides for reimbursement of prescriptions when you pay 100% of the prescription price at the time of purchase. This claim will be processed based on your plan benefit. To request reimbursement you will send your claim to Express Scripts, P.O. Box 14711, Lexington, KY 40512. If your claim is denied, you will receive a written notice within 30 days of receipt of the claim, as long as all needed information was provided with the claim. You will be notified within this 30 day period if additional information is needed to process the claim, and a one-time extension not longer than 15 days

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 101 of 114

may be requested and your claim pended until all information is received. Once notified of the Meiman extension, you then have 45 days to provide this information. If all of the needed information is received within the 45-day time frame and the claim is denied, you will be notified of the denial within 15 days after the information is received. If you don't provide the needed information within the 45-day period, your claim will be deemed denied.

If you are not satisfied with the decision regarding your benefit coverage or your claim is deemed denied, you have the right to appeal this decision in writing within 180 days of receipt of notice of the initial decision. To initiate an appeal for coverage, you or your authorized representative (such as your physician), must provide in writing your name, member ID, phone number, the prescription drug for which benefit coverage has been reduced or denied, the diagnosis code and treatment codes to which the prescription relates (together with the corresponding explanation for those codes) and any additional information that may be relevant to your appeal. This information should be mailed to Express Scripts, 8111 Royal Ridge Parkway, Irving, TX 75063.

A decision regarding your appeal will be sent to you within 30 days of receipt of your written request. The notice will include information to identify the claim involved, the specific reasons for the decision, new or additional evidence, if any considered by the plan in relation to your appeal, the plan provision on which the decision is based, a description of applicable internal and external review processes and contact information for an office of consumer assistance or ombudsman (if any) that might be available to assist you with the claims and appeals processes and any additional information needed to perfect your claim. You have the right to receive, upon request and at no charge, the information used to review your appeal.

If you are not satisfied with the coverage decision made on appeal, you may request in writing, within 90 days of receipt notice of the decision, a second level appeal. A second level appeal may be initiated by you or your authorized representative (such as your physician). To initiate a second level appeal, provide in writing your name, member ID, phone number, the prescription drug for which benefit coverage has been reduced or denied, the diagnosis code and treatment codes to which the prescription relates (and the corresponding explanation for those codes) and any additional information that may be relevant to our appeal. This information should be mailed to Express Scripts, 8111 Royal Ridge Parkway, Irving, TX 75063. You have the right to review your file and present evidence and testimony as part of your appeal, and the right to a full and fair impartial review of your claim. A decision regarding your request will be sent to you in writing within 30 days of receipt of your written request for appeal. The notice will include information to identify the claim involved, the specific reasons for the decision, new or additional evidence, if any considered by the plan in relation to your appeal, the plan provisions on which the decision is based, a description of applicable internal and external review processes and contact information for an office of consumer assistance or ombudsman (if any) that might be available to assist you with the claims and appeals processes. You have the right to receive, upon request and at no charge, the information used to review your second level appeal. If new information is received and considered or relied upon in the review of your second level appeal, such information will be provided to you together with an opportunity to respond prior to issuance to any final adverse determination of this appeal. The decision made on your second level appeal is final and binding.

If your second level appeal is denied and you are not satisfied with the decision of the second level appeal or your adverse benefit determination notice or final adverse benefit determination notice does not contain all the information required under ERISA, you also have the right to bring a civil action under section 502(a) of the Employee Retirement Income Security Act of 1974 (ERISA). You also

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 102 of 114 may have the right to obtain an independent external review. Details about the process to initiate an Meiman external review will be described in any notice of an adverse benefit determination. External reviews are not available for decisions relating to eligibility.

# Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 103 of 114 Meiman DELTA DENTAL - DENTAL BENEFITS

## CLAIMS APPEAL PROCEDURE

Delta Dental will notify you, in writing, if a claim is denied in whole or in part. It will be forwarded to you within 30 days after the completed claim is received, unless circumstances require an extension of time to act on a claim. Additional periods of 45 days may be taken by Delta Dental to evaluate your claim for an initial determination. Delta Dental will notify you of the additional time period. The notice will explain why benefits were denied. It will also describe the Claims Appeal Procedure. You may appeal, in writing, the denial within 60 days of the date the notice of the claim denial is received by you. The appeal must state all the reasons why the claim should be paid. The appeal will be decided within 60 days of receipt for review, unless circumstances require a longer time. After review of the appeal, Delta Dental will notify you of the decision concerning the appeal.

#### LIMITATION OF ACTIONS

No lawsuit may be filed by you to recover benefits on a claim submitted under your Certificate unless it is filed within 12 months from the date your claim was originally denied.

# Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 104 of 114 Meiman VISION SERVICE PLAN - VISION BENEFITS

#### You have the right to appeal if:

- You do not agree with VSP's decision about your health care.
- VSP will not approve or give you care you feel it should cover.
- VSP is stopping care you feel you still need.

VSP normally has 30 days to process your appeal. In some cases, you have a right to a faster, 24-hour appeal. You can get a fast appeal if your health or ability to function could be seriously harmed by waiting 30 days for a standard appeal. If you ask for a fast appeal, VSP will decide if you get a 24-hour/fast appeal. If not, your appeal will be processed in 30 days. If any doctor asks VSP to give you a fast appeal, or supports your request for a fast appeal, it must be given to you.

### If you want to file an appeal which will be processed within 30 days, do the following:

File the request in writing with VSP at the following address:

Vision Service Plan Attn: Appeals Department P.O. Box 2350 Rancho Cordova, CA 95741

Even though you may file your requests with VSP, VSP may transfer your request to the appropriate agency for processing. Your appeal request will be processed within 30 days from the date your request is received.

#### If you want to file a fast appeal, which will be processed within 24 hours, do the following

- File an oral or written request for a 24-hour appeal. Specifically state that "I am requesting an: expedited appeal, fast appeal or 24-hour appeal." Or "I believe that my health could be seriously harmed by waiting 30 days for a normal appeal."
- To file a request orally, call (800) 877-7195. VSP will document the oral request in writing.

### Help with your appeal:

If you decide to appeal and want help with your appeal, you may have your doctor, a friend, lawyer, or someone else help you. There are several groups that can help you. If you are covered by Medicare, you may contact the Medicare Rights Center toll free at 888-HMO-9050. You may also contact the National Aging Information Center at (202) 619-7501 to request the phone number of your local Area Agency on Aging or health Insurance Counseling and Assistance Program (HICAP).

# Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 105 of 114 ERISA INFORMATION AND Meiman STATEMENT OF ERISA RIGHTS

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 107 of 114 STATEMENT OF ERISA RIGHTS Meiman

As a participant in the Plan you are entitled to certain rights and protections under the Employee Retirement Income Security Act of 1974 (ERISA). ERISA provides that all Plan participants shall be entitled to:

### • Receive Information about Your Plan and Benefits

Examine, without charge, at the Plan Administrator's office and at other specified locations, such as worksites and union halls, all documents governing the Plan, including insurance contracts and collective bargaining agreements, and a copy of the latest annual report (Form 5500 Series) filed by the plan with the U.S. Department of Labor and available at the Public Disclosure Room of the Pension and Welfare Benefit Administration.

Obtain, upon written request to the Plan Administrator, copies of documents governing the operation of the Plan, including insurance contracts and collective bargaining agreements, and copies of the latest annual report (Form 5500 Series) and updated summary plan description. The Plan Administrator may make a reasonable charge for the copies.

Receive a summary of the Plan's annual financial report. The Plan Administrator is required by law to furnish each participant with a copy of this summary annual report.

#### • Continue Group Health Plan Coverage

Continue health care coverage for yourself, Spouse or Dependents if there is a loss of coverage under the Plan as a result of a qualifying event. You or your Dependents may have to pay for such coverage. Review this summary plan description and the documents governing the Plan on the rules governing your COBRA continuation coverage rights.

### • Prudent Actions by Plan Fiduciaries

In addition to creating rights for plan participants ERISA imposes duties upon the people who are responsible for the operation of the employee benefit plan. The people who operate your plan, called "fiduciaries" of the Plan, have a duty to do so prudently and in the interest of you and other Plan participants and beneficiaries. No one, including your employer, your union, or any other person, may fire you or otherwise discriminate against you in any way to prevent you from obtaining a welfare benefit or exercising your rights under ERISA.

### • Enforce Your Rights

If your claim for a welfare benefit is denied or ignored, in whole or in part, you have a right to know why this was done, to obtain copies of documents relating to the decision without charge, and to appeal any denial, all within certain time schedules.

Under ERISA, there are steps you can take to enforce the above rights. For instance, if you request a copy of Plan documents or the latest annual report from the Plan and do not receive them within 30 days, you may file suit in a Federal court. In such a case, the court may require the Plan Administrator to provide the materials and pay you up to \$110 a day until you receive the materials, unless the materials were not sent because of reasons beyond the control of the administrator. If you have a claim for benefits which is denied or ignored, in whole or in part, you may file suit in a state or Federal court. In addition, if you disagree with the plan's decision or lack thereof concerning the qualified status of a domestic relations order or a medical child support order, you may file suit in Federal court. If it should happen that Plan fiduciaries misuse the Plan's money, or if you are

# Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44

Page 108 of 114 discriminated against for asserting your rights, you may seek assistance from the U.S. Departmenterian of Labor, or you may file suit in a Federal court. The court will decide who should pay court costs and legal fees. If you are successful the court may order the person you have sued to pay these costs and fees. If you lose, the court may order you to pay these costs and fees, for example, if it finds your claim is frivolous.

#### • Assistance with Your Questions

If you have any questions about your plan, you should contact the Plan Administrator. If you have any questions about this statement or about your rights under ERISA, or if you need assistance in obtaining documents from the Plan Administrator, you should contact the nearest office of the Employee Benefits Security Administration, U.S. Department of Labor, listed in your telephone directory or the Division of Technical Assistance and Inquiries, Employee Benefits Security Administration, U.S. Department of Labor, 200 Constitution Avenue N.W., Washington, D.C. 20210. You may also obtain certain publications about your rights and responsibilities under ERISA by calling the publications hotline of the Employee Benefits Security Administration.

### Second Amendment LG&E and KU Medical, Dental and Vision Care Plan

WHEREAS, LG&E and KU Energy LLC ("Company") sponsors the LG&E and KU Medical, Dental and Vision Care Plan (the "Plan"); and

WHEREAS, the Company reserved the right to amend the Plan by written action of the Chief Executive Officer; and

WHEREAS, the Company now wishes to amend the Plan to provide for certain changes.

**NOW, THEREFORE**, the Plan is hereby amended as follows, effective January 1, 2018, unless otherwise specified below:

1. The definition of "Child(ren)," located on page twenty-two (22) of the Plan document shall be amended to read as follows:

#### Child(ren) - Medical/Pharmacy/Vision/Dental Benefits

The Subscriber's child may include:

• natural children,

• legally adopted children (The event date for an adopted child is the earlier of the date of adoption or date of placement for adoption. Placement for adoption means the assumption and retention of legal obligation for total and partial support for a child in anticipation of adoption of such child),

• children under your legal guardianship *or conservatorship* (temporary custody not eligible), and

• stepchildren.

Age Limits for Children – For natural children, legally adopted children, and stepchildren: end of the month child attains age 26. For children under a Subscriber's legal guardianship or conservatorship: end of the month child attains age 26, unless relevant legal documents state a specific age for the termination of guardianship or conservatorship, which shall also be the age limit for coverage under this plan.

2. The provision entitled "Eligible Disabled Employee," located on page forty-two (42) of the Plan document, shall be replaced in its entirety to read as follows:

### Eligible Disabled Employee

I. A Disabled Employee who was hired by the Employer *prior to* January 1, 2018, is eligible for coverage under the Plan until the earliest of the following events occurs:

- The end of the calendar month that the Disabled Employee is no longer receiving disability income benefits (including the period of time covered by a lump sum settlement agreement) under the LG&E and KU Long Term Disability Plan;
- The end of the calendar month the Disabled Employee dies;
- The end of the calendar month the Disabled Employee retires;
- The date the Plan is terminated; or
- The beginning of the calendar month the Disabled Employee does not pay the required Premium Contribution.

II. A Disabled Employee who was hired by the Employer *on or after* January 1, 2018, is eligible for coverage under the Plan until the earliest of the following events occurs:

- The end of the calendar month in which it will have been twenty-four (24) months from the date long term disability benefits became payable to the Disabled Employee under the term of the Employer's then applicable long term disability plan;
- The end of the calendar month that the Disabled Employee is no longer receiving disability income benefits (including the period of time covered by a lump sum settlement agreement) under the LG&E and KU Long Term Disability Plan;
- The end of the calendar month the Disabled Employee dies;
- The end of the calendar month the Disabled Employee retires;
- The date the Plan is terminated; or
- The beginning of the calendar month the Disabled Employee does not pay the required Premium Contribution.

3. The definition of "Disabled Employee," located on page twenty-four (24) of the Plan document, shall be amended to read as follows:

**Disabled Employee** – An employee who is receiving disability income benefits (including the period of time covered by a lump sum settlement agreement) under the terms of the LG&E and KU Long Term Disability Plan or any Former Plan.

Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 111 of 114 Meiman

4. The provision entitled, "Amendment or Termination of the Plan," on page eighty-five (85) shall be amended to read as follows:

#### Amendment or Termination of the Plan

The Employer reserves the right, by written action of the Senior Vice President or Vice President of HR, at any time, and from time-to-time, and retroactively if deemed necessary or appropriate, to amend any or all of the provisions of the Plan.

IN WITNESS WHEREOF, the duly authorized officer of the Company has executed this Amendment on the \_\_\_\_\_\_day of \_\_\_\_\_\_2019.

#### LG&E AND KU ENERGY LLC

By: Paul W. Thompson

Chairman, CEO, and President
## Third Amendment LG&E and KU Medical, Dental and Vision Care Plan

WHEREAS, LG&E and KU Energy LLC ("Company") sponsors the LG&E and KU Medical, Dental and Vision Care Plan (the "Plan"); and

**WHEREAS**, the Company reserved the right to amend the Plan by written action of the Vice President of HR; and

WHEREAS, the Company now wishes to amend the Plan to provide for certain changes in response to the coronavirus disease 2019 (COVID-19), SARS-CoV-2 and related legal requirements.

NOW, THEREFORE, the Plan is hereby amended as follows, effective March 18, 2020, unless otherwise specified below:

1. On page 8, the following will be added in a new row to the bottom of the Schedule of Benefits table for the Anthem Blue Access PPO Standard Option:

**COVID-19 and SARS-CoV-2**: The Plan will comply will all local, state, and federal laws regarding required coverage for certain items and services related to coronavirus disease 2019 (COVID-19) and SARS-CoV-2, including but not limited to the following:

- COVID-19 diagnostic tests, including serology or antibody tests are covered in full throughout the duration of the COVID-19 public emergency.
- COVID-19 screening related tests (e.g., influenza tests, blood tests, etc.) performed during a provider visit that results in an order for, or administration of, diagnostic testing for COVID-19 are covered in full throughout the duration of the COVID-19 public emergency.
- Visits to get the COVID-19 diagnostic test, regardless of whether the test is administered, are covered in full beginning March 18, 2020 and through the duration of the COVID-19 public emergency.
- Telehealth visits from in-network providers, including visits for behavioral health, are covered in full from March 17, 2020 through September 30, 2020.
- FDA-approved vaccines for COVID-19 are covered in full when they become available.

2. On page 11, the following will be added in a new row to the bottom of the Schedule of Benefits table for the Anthem Blue Access PPO Low Deductible Option:

**COVID-19 and SARS-CoV-2**: The Plan will comply will all local, state, and federal laws regarding required coverage for certain items and services related to coronavirus disease 2019 (COVID-19) and SARS-CoV-2, including but not limited to the following:

- COVID-19 diagnostic tests, including serology or antibody tests are covered in full throughout the duration of the COVID-19 public emergency.
- COVID-19 screening related tests (e.g., influenza tests, blood tests, etc.) performed during a provider visit that results in an order for, or administration of,

diagnostic testing for COVID-19 are covered in full throughout the duration of the COVID-19 public emergency.

- Visits to get the COVID-19 diagnostic test, regardless of whether the test is administered, are covered in full beginning March 18, 2020 and through the duration of the COVID-19 public emergency.
- Telehealth visits from in-network providers, including visits for behavioral health, are covered in full from March 17, 2020 through September 30, 2020.
- FDA-approved vaccines for COVID-19 are covered in full when they become available.

3. On page 14, the following will be added in a new row to the bottom of the Schedule of Benefits table for the High Deducible Health Plan Option:

**COVID-19 and SARS-CoV-2**: The Plan will comply will all local, state, and federal laws regarding required coverage for certain items and services related to coronavirus disease 2019 (COVID-19) and SARS-CoV-2, including but not limited to the following:

- COVID-19 diagnostic tests, including serology or antibody tests are covered in full throughout the duration of the COVID-19 public emergency.
- COVID-19 screening related tests (e.g., influenza tests, blood tests, etc.) performed during a provider visit that results in an order for, or administration of, diagnostic testing for COVID-19 are covered in full throughout the duration of the COVID-19 public emergency.
- Visits to get the COVID-19 diagnostic test, regardless of whether the test is administered, are covered in full beginning March 18, 2020 and through the duration of the COVID-19 public emergency.
- Telehealth visits from in-network providers, including visits for behavioral health, are covered in full from March 17, 2020 through September 30, 2020.
- FDA-approved vaccines for COVID-19 are covered in full when they become available.

4. On page 17, the following will be added in a new row to the bottom of the Schedule of Benefits table for the Anthem Blue Preferred EPO Option:

**COVID-19 and SARS-CoV-2**: The Plan will comply will all local, state, and federal laws regarding required coverage for certain items and services related to coronavirus disease 2019 (COVID-19) and SARS-CoV-2, including but not limited to the following:

- COVID-19 diagnostic tests, including serology or antibody tests are covered in full throughout the duration of the COVID-19 public emergency.
- COVID-19 screening related tests (e.g., influenza tests, blood tests, etc.) performed during a provider visit that results in an order for, or administration of, diagnostic testing for COVID-19 are covered in full throughout the duration of the COVID-19 public emergency.
- Visits to get the COVID-19 diagnostic test, regardless of whether the test is administered, are covered in full beginning March 18, 2020 and through the duration of the COVID-19 public emergency.
- Telehealth visits from in-network providers, including visits for behavioral health,

#### Case No. 2020-00349 and 2020-00350 Attachment to Question No. 44 Page 114 of 114 Meiman

are covered in full from March 17, 2020 through September 30, 2020.

• FDA-approved vaccines for COVID-19 are covered in full when they become available.

IN WITNESS WHEREOF, the duly authorized officer of the Company has executed this Amendment on the 18th day of 1990.

LG&E AND KU ENERGY LLC

By Gregory J. Meiman Vice President of HR

## Response to Commission Staff's First Request for Information Dated November 24, 2020

#### Case No. 2020-00349

#### Question No. 45

#### **Responding Witness: Gregory J. Meiman**

- Q-45. Provide a listing of all life insurance plan categories available to corporate officers individually and to groups defined as Directors, Managers, Supervisors, Exempt, Non-Exempt, Union, and Non-Union Hourly employees. Include the associated employee contribution rates and employer contribution rates of the total premium cost for each plan category
- A-45. Corporate officers and all other full-time employee groups are offered the same life plan options, categories, and employee costs as described in response to Question No. 41 and outlined below.

Available life insurance options are outlined in the New Hire Enrollment Guide, pages 16 and 17 (see Attachment 4 to the response to Question No. 41).

The Company pays the full cost for Basic Life and AD&D coverage. The 2021 monthly rates are:

- Full-time EE Basic Life (\$0.183) & AD&D (\$0.02) per \$1,000 of coverage
- Part-time EE Basic Life (\$0.183) per \$1,000 of coverage

The employee pays the full cost for Employee Supplemental Life insurance and Dependent Life insurance. The 2021 monthly employee rates are:

EE Supplemental Life fistilance Nates are based on the EES Age								
Age as of Jan 1	Rate Per \$1,000 of coverage							
< 30	\$ 0.054							
30 BLT 35	\$ 0.072							
35 BLT 40	\$ 0.081							
40 BLT 45	\$ 0.090							
45 BLT 50	\$ 0.135							
50 BLT 55	\$ 0.252							

EE Supplemental Life Insurance Rates are based on the EEs Age

# Response to Question No. 45 Page 2 of 2 Meiman

55 BLT 60	\$ 0.396
60 BLT 65	\$ 0.603
65 BLT 70	\$ 1.170
70 or older	\$ 1.899

Dependent Life Monthly Rates	Monthly EE Cost
Option 1 - \$5,000 sp/\$2,500 child	\$ 1.47
Option 2 - \$10,000 sp/\$5,000 child	\$ 2.95
Option 3- \$25,000 sp/\$10,000 child	\$ 9.40
Option 4 - \$50,000 sp/\$20,000 child	\$ 23.50

## Response to Commission Staff's First Request for Information Dated November 24, 2020

## Case No. 2020-00349

## Question No. 46

## **Responding Witness: Gregory J. Meiman**

- Q-46. Provide a listing of all retirement plans available to corporate officers individually and to groups defined as Directors, Managers, Supervisors, Exempt, Non-Exempt, Union, and Non-Union Hourly employees. Include the associated employee contribution rates, if any, and employer contribution rates of the total cost for each plan category.
- A-46. Corporate officers and all other full-time employee groups are offered the same qualified retirement plan benefits as described in response to Question No. 41 and outlined below. Officer and senior managers are also offered supplemental retirement plans (non-qualified savings plan, non-qualified pension restoration plan, and supplemental executive retirement plan) which are not recovered in rates.

Retirement Categories	Employee Contribution Rates	Co Contribution Rates
Retirement Plan – eligible if hired prior to 1/1/06	No cost to employee	Funded by employer
401(k) Savings Plan Company Match (eligible if hired prior to 1/1/06)	Employees need to defer salary to get Co match.	\$.35 company match, up to 6% of the employees' eligible compensation, subject to IRS limits
401(k) Savings Plan Company Match (eligible if hired on or after 1/1/06)	Employees need to defer salary to get Co match.	\$.70 company match, up to 6% of the employees' eligible compensation, subject to IRS limits
Savings Plan Retirement Income Account (RIA) –	No cost to employee	Percent of eligible compensation and years of service as of Jan 1.

Response to Question No. 46 Page 2 of 2 Meiman

eligible if hired or	Annual RIA Percent of Eligible					
rehired on or after	<u>Compensation</u>					
1/1/06	3% - less than 6 years of service					
	4% - 6 but less than 11					
	5% - 11 but less than 16					
	6% - 16 but less than 21					
	7% - 21 or more					

## Response to Commission Staff's First Request for Information Dated November 24, 2020

## Case No. 2020-00349

## Question No. 47

## **Responding Witness: Gregory J. Meiman**

- Q-47. Concerning employee fringe benefits:
  - a. Provide a detailed list of all fringe benefits available to the utility's employees. Indicate any fringe benefits that are limited to management employees.
  - b. Provide comparative cost information for the 12 months preceding the base period and the base period. Explain any changes in fringe benefits occurring over this 24-month period.
- A-47.
- a. See attached for a detailed list of fringe benefits available. No fringe benefits were limited to management employees.
- b. See attached for comparative cost information for the periods requested. As noted in response to Question No. 41, starting in January 2020 the Company reduced the match to the 401(k) for those employees who were hired prior to 1/1/2006.

## Kentucky Utilities Company Case No. 2020-00349 Question 47 Listing of Fringe Benefits

		12 Months
	<b>Base Period</b>	Preceding Base

## Response to Commission Staff's First Request for Information Dated November 24, 2020

## Case No. 2020-00349

## Question No. 48

## **Responding Witness: Gregory J. Meiman**

- Q-48. State whether the utility, through an outside consultant or otherwise, performed a study or survey to compare its wages, salaries, benefits, and other compensation to those of other utilities in the region, or to other local or regional enterprises.
  - a. If comparisons were performed, provide the results of the study or survey, including all workpapers and discuss the results of such comparisons. State whether any adjustments to wages, salaries, benefits, and other compensation in the rate application are consistent with the results of such comparisons.
  - b. If comparisons were not performed, explain why such comparisons were not performed.
- A-48.
- a. See Mr. Meiman's direct testimony, Attachments 3, 4 and 5 at Tab 60 of the Filing Requirements, and the response to Question No. 50.
- b. Not applicable.

## Response to Commission Staff's First Request for Information Dated November 24, 2020

## Case No. 2020-00349

## **Question No. 49**

#### **Responding Witness: Gregory J. Meiman**

- Q-49. Regarding the utility's employee compensation policy:
  - a. Provide the utility's written compensation policy as approved by the board of directors.
  - b. Provide a narrative description of the compensation policy, including the reasons for establishing the policy and the utility's objectives for the policy.
  - c. Explain whether the compensation policy was developed with the assistance of an outside consultant. If the compensation policy was developed or reviewed by a consultant, provide any study or report provided by the consultant.
  - d. Explain when the utility's compensation policy was last reviewed or given consideration by the board of directors.
  - e. Explain whether the utility's expenses for wages, salaries, benefits, and other compensation included in the base period and any adjustments to the base period, are compliant with the board of director's compensation policy.

#### A-49.

a. Attached is the Company's written compensation policy in effect since 1997 and reviewed on a regular basis by Human Resources. The last review was completed in January 2018. While not approved by the Board, compensation decisions made under this policy are supported by various levels of approval. Individual salary recommendations made under the Company's written compensation policy are reviewed and approved by the manager, next level manager and Human Resources.

The annual salary increase budget is included in the Company's Business Plan which is reviewed and approved by the LG&E and KU Boards.

b. See pages 2-13 of Mr. Meiman's direct testimony. The Company believes the compensation policies and practices are effective in achieving objectives that produce sustainable operating results by attracting and retaining talented and experienced individuals. The Company's compensation program reflects the long established commitment to a pay-for-performance philosophy, under which compensation is aligned with performance.

Using external market compensation data at the 50th percentile of the national general or utility industry, job midpoints are established. Salary range minimums and maximums are based on 70% and 130% of the 50th percentile midpoint, respectively. Individual employee compensation is then managed within this competitive range. Compensation is considered competitive if it's within +/- 10% of the midpoint when considering factors that include performance, time in position, tenure, education and experience.

- c. The Company's compensation program was recently reviewed by a compensation consultant, David J. Wathen of Willis Towers Watson. See Attachment 3 at Tab 60 of the Filing Requirements for the results of Mr. Wathen's study.
- d. See the response to part a.
- e. As described in responses a and b to this question, compensation included in the base and test periods is compliant with the Company's written compensation policy.

# LG&E and KU Energy LLC Policy

Date: 07/24/20 Page 1 of 4

## Compensation

## **Policy**

Compensation practices are designed and implemented to attract, motivate and retain employees that the Company needs to meet its strategic objectives. The Company's compensation programs provide competitive fixed and variable compensation.

## **Scope**

This policy applies to all LG&E and KU Energy LLC and subsidiary (Company) regular, full-time and part-time employees.

## **Definitions**

<u>Salaried Employees</u> - Employees in exempt jobs (as defined by the Fair Labor Standards Act) and employees in non-exempt jobs who are neither represented by a bargaining unit nor classified as an hourly employee (as defined below).

<u>Bargaining Unit Employees</u> - Employees who are represented by a union under a recognized bargaining unit relationship with the Company and/or its subsidiaries.

<u>Hourly Employees</u> – Employees in non-exempt (as defined by the Fair Labor Standards Act) nonbargaining unit jobs directly involved in operations and maintenance responsibilities at Company facilities and not covered by a collective bargaining agreement.

## **General Requirements**

- 1. The Company, in its sole discretion, may set compensation (both fixed and variable) for any salaried or hourly employee/group of employees, in connection with the pursuit and attainment of strategic objectives, provided such actions do not conflict with legal and/or regulatory requirements.
- 2. Compensation changes are not guaranteed to any employee and are effective only upon the review and approval by the appropriate supervisor, next level manager and Human Resources.

*Competitive Compensation Levels:* The Company provides its employees with a total compensation package that, at expected levels of performance, is competitive with compensation available to individuals with comparable positions and responsibility in the energy services and general industries. The Company uses reference points concerning competitive compensation for

an individual position or group of positions based on a variety of external market resources (market pricing). Actual compensation (base salaries and earned incentives) varies from targeted competitive compensation levels to reflect individual performance, company performance and experience.

*Pay For Performance:* The Company encourages the use of pay for performance variable compensation plans to emphasize and support the Company's strategic objectives. Where used, the short-term incentive plans are designed and administered to ensure that incentive compensation earned is directly related to performance against one or multiple predetermined objectives established by the Company. The predetermined incentive compensation objectives may be quantitative, qualitative, objective, subjective, financial, and/or operational and they may be linked to corporate, divisional, team, and/or individual performance.

The Company's TIA brochure can be viewed here.

*Overtime:* Employees in exempt jobs are not paid overtime for additional hours worked beyond the regular work schedule. Employees in non-exempt jobs are paid for actual hours worked. Overtime for employees in non-exempt jobs is paid in excess of 40 hours per week and/or eight hours per day (in most circumstances). Employees in non-exempt jobs who are regularly scheduled to work a shift in excess of eight hours per day will receive overtime at the applicable rate for all hours worked in excess of the regularly scheduled workday. The pay rate for overtime hours worked by non-exempt employees is normally one and one-half times the regular rate of pay.

*Compensation Actions – Salaried and Hourly:* Employees may receive changes to their targeted total cash compensation (base pay plus targeted incentive opportunity) in connection with one or more of the following:

- 1. Salary Increases The Company may reward individual employees or groups of employees with additional base compensation to maintain the competitiveness of base salaries with market conditions.
- 2. Promotions Promotional increases represent an advancement to a position with increased responsibilities recognized by the external market, internally by job family, and/or for business reasons. Market pricing provides reference information management may use to determine the appropriate promotional increase based on the incremental responsibilities.
- 3. Incentive Opportunity/Compensation Mix The Company may change the available incentive opportunity through an existing or new incentive compensation plan for an employee or group of employees where business conditions indicate a change is required to provide ongoing competitive compensation. Gift cards must not be used as an incentive to employees or contractors.

- 4. The Company may also change the compensation mix between fixed and variable for an employee or group of employees where business conditions indicate a change is required to provide ongoing competitive compensation.
- 5. Reassignment The Company may reassign an employee into a position with market pricing equal to or less than the current market pricing:
  - a) to more effectively use the employee's specific abilities in a different assignment;
  - b) for career development purposes, and/or;
  - c) because of a work force reduction.

Reassignment will not be considered a demotion if, in management's opinion, the employee has performed in the present position to the best of his or her ability. In addition, if the Company is making the reassignment for career development purposes, the employee's compensation will normally remain the same depending on the facts and circumstances at the time.

- 6. Temporary Assignment The Company may temporarily assign an employee to a different position to assume management responsibilities, work on special projects or to meet other business needs. Temporary assignments will be a minimum of 90 days and will be considered a lateral or promotional assignment. For a lateral assignment, the employee's compensation will remain the same. Exceptions to this must be discussed with Compensation for review. For promotional assignments, the Company will give a promotional increase of 8% to the employee's compensation for the duration of the temporary assignment based on the incremental responsibilities.
- 7. Reclassification Position responsibilities which have increased or decreased substantially and are not expected to be temporary may result in the reclassification and re-pricing of the position. This process may affect the compensation range for the position based on the revised market pricing data.
- 8. Demotion A demotion is a voluntary or involuntary reduction in responsibilities and may be accompanied with a reduction in compensation.

*Compensation Actions – Bargaining Unit*: Employees may receive changes to their pay structure as a result of labor negotiations.

*Electronic Pay:* All Company employees are required to utilize electronic pay methods (i.e. direct deposit or pay card). In the event an employee needs to change the direct deposit account used for pay, due to theft or any other circumstances, Payroll should be notified immediately. The employee will be paid via pay card until new direct deposit account information is submitted. Any employee that does not have a valid account for direct deposit will be paid via a pay card.

Key Contact: Division HR, Compensation Department, and Payroll Department.

**<u>Reference</u>**: At-Will Employment for All Salaried Employees, Regular and Part-Time Employees and Staffing Policies.

Administrative Responsibility: Director HR - Corporate.

#### Case No. 2020-00349

#### **Question No. 50**

#### **Responding Witness: Gregory J. Meiman**

- Q-50. To the extent not provided in the responses above, provide all wage, compensation, or employee benefits studies, analyses, or surveys conducted since the utility's last rate case or that are currently utilized by the utility.
- A-50. On an annual basis, the Company participates in the various compensation and employee benefits surveys. A listing provided by survey publisher, survey type and survey name is provided below. The documents are voluminous in nature and are considered to be proprietary by the vendor and subject to licensing agreements. As a result, the Company will make available for review any of the surveys at a time convenient to the Commission. Also see pages 13-22 of Mr. Meiman's Direct Testimony, and Attachments 3, 4 and 5 at Tab 60 of the Filing Requirements.

## Case No. 2020-00349

## Question No. 54

## **Responding Witness: Christopher M. Garrett**

- Q-54. For the historical potion of the base period and the five preceding calendar years, provide a schedule detailing all nonrecurring charges by customer class which includes:
  - a. Type of charge;
  - b. Amount billed;
  - c. Amount recovered; and
  - d. Number of times the charge was assessed.
- A-54. See attached. The Company has identified nonrecurring charges as Late Payment Charges and those charges found on the Companies' Electric Tariff Sheets No. 45 Special Charges, and Electric Tariff Sheet No. 66 Temporary-to-Permanent and Seasonal Service. The information for subparts a. and b. of the request are available by customer class and are provided in the attachment. The information for subparts c. and d. has been provided in total as the breakdown between customer class is not readily available.

(1) From 2017 forward, Unauthorized reconnect charges were accounted for in their own individual revenue account to ensure proper tracking. Prior to 2017, these charges were included with all other Customer Installation Expenses. We are unable to pull specific unauthorized reconnect revenue data from this time period.

## Response to Commission Staff's First Request for Information Dated November 24, 2020

## Case No. 2020-00349

#### **Question No. 55**

#### **Responding Witness: Daniel K. Arbough**

- Q-55. For the forecasted portion of the base period and forecasted test year, provide a schedule detailing all non-recurring charges by customer class which includes:
  - a. Type of charge;
  - b. Revenues forecasted;
  - c. Number of charges forecasted (except late payment penalties); and
  - d. Basis for late payment penalties.
- A-55. Non-recurring charges are forecasted using trends in historical actual data from the general ledger. Non-recurring charges are not posted to the general ledger by customer class, so customer class detail is not available for forecasted periods.
  - a. See attached.
  - b. See attached.
  - c. The basis for the non-recurring charge forecast is the general ledger, which does not include the number of charges, so the number of charges is not available for forecasted periods.
  - d. Late payment penalties are forecasted based on a five-year historical average for each month based on actual late payment penalties from January 2015 through December 2019. September through December 2020 late payment penalties in the forecasted portion of the base period are adjusted down to reflect the late payment moratorium.

#### Kentucky Utilities Company Case No. 2020-00349 Summary of Non-Recurring Charges

	Forfeited				Unauthorized		
	Discounts/Late	Reconnect	Temporary	Other Service	Reconnect	Returned Check	Revenues
Forecasted Period	Payment Charge	Charge	Service Charge	Charge	Charge	Charge	Forecasted
	a.	a.	a.	a.	a.	a.	b.
Base Period (September 2020 - February 2021)	\$ 1,045,110	\$ 504,179	\$ 46,009	\$ 981	\$ 38,961	\$ 29,403	\$ 1,664,643
Test Year (July 2021 - June 2022)	\$ 3,870,654	\$ 2,020,135	\$ 92,017	\$ 1,962	\$ 84,069	\$ 61,024	\$ 6,129,861

Note: Late payment and reconnect charge revenues in the base period are lower than normal due to the late payment and disconnection moratoriums put in place by the Kentucky Public Service Commission to provide relief to customers during the COVID-19 pandemic.

Case No. 2020-00349 Attachment to Response to Question No. 55 Page 1 of 1 Arbough

#### Response to Commission Staff's First Request for Information Dated November 24, 2020

#### Case No. 2020-00349

#### **Question No. 56**

## Responding Witness: Daniel K. Arbough / Lonnie E. Bellar / Kent W. Blake / Robert M. Conroy / Christopher M. Garrett / Adrien M. McKenzie / David S. Sinclair / John J. Spanos / William Steven Seelye

- Q-56. To the extent not already provided, provide a copy of each cost of service study, billing analysis, and all exhibits and schedules that were prepared in the utility's rate application in Excel spreadsheet format with all formulas intact and unprotected and with all columns and rows accessible.
- A-56. Attached to this response is a listing of Excel spreadsheets submitted in response to this question and the requested spreadsheets. The label by which each file is to be identified on the Commission website is listed in the second column named "File Number" of the attached listing. The third column specifies the actual name of each spreadsheet. The fourth column identifies the specific exhibit or schedule the spreadsheet relates to or supports.

## Response to Commission Staff's First Request for Information Dated November 24, 2020

## Case No. 2020-00349

## Question No. 57

## Responding Witness: Daniel K. Arbough / Christopher M. Garrett / William Steven Seelye

- Q-57. To the extent not already provided, provide all workpapers, calculations, and assumptions the utility used to develop its forecasted test period financial information in Excel spreadsheet format with all formulas intact and unprotected and with all columns and rows accessible.
- A-57. See Tab 16 of the Filing Requirements for the assumptions used to develop the forecasted test period financial information. See also the attachments being provided in Excel format for the depreciation reconciliation and lead-lag days.

# The attachments are being provided in separate files in Excel format.
