Sudoku is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once. The difficulty level of the Conceptis Sudoku increases from Monday to Sunday.

Subject: McCracken County Solar Farm

Dear [Name],

Community Energy is developing a large-scale solar farm to be located along New Liberty Church Road in McCracken County. We are writing today to invite you, as a landowner of property near the proposed project site, to participate in a series of public information events. These events are designed to provide an opportunity for you to learn about the project, ask questions, and provide comments.

The proposed project site includes approximately 615 acres of land on the east side of New Liberty Church Road. Please see the enclosed map. The solar farm will have a capacity of 60 megawatts and will sell 100% of the electricity it generates to Big Rivers Electric Corporation. This facility is expected to produce 140 million kilowatt-hours of electricity per year - roughly ½ the amount of electricity consumed by all the households in McCracken County. 'McCracken County Solar' is scheduled to be constructed and begin operations in 2022.

Community Energy is one of the leading renewable energy development companies in the U.S. We've been in business for 21 years, developing many of the first and largest wind and solar projects in the country. This includes over 1,300 megawatts of solar farms similar to our proposed McCracken County Solar project. Community Energy is headquartered in Radnor, Pennsylvania with offices in Boulder, Colorado, and Chapel Hill, North Carolina.

We look forward to the opportunity to speak with you, to introduce the project, and to answer any questions you may have.

Sincerely,

Chris Killenberg
