DATA REQUEST

RH_1_1 Explain Kentucky Power and Wheeling Power's plan regarding Mitchell. Provide updated status reports every ten days through the pendency of this proceeding.

RESPONSE

Kentucky Power and Wheeling Power currently are implementing plans to ensure the construction of the CCR project to allow the operation of the Mitchell Generating Station through December 31, 2028.

Kentucky Power Company and Wheeling Power Company are reviewing their alternatives regarding the Mitchell Generating Station in light of the July 15, 2021 decision of this Commission, and the August 4, 2021 decision of the Public Service Commission of West Virginia. No decision regarding a plan for the Mitchell Generating Station beyond that described above has been reached by either Company.

Kentucky Power will file updated status reports every ten days during the pendency of this proceeding.

September 13, 2021 Update

Wheeling Power Company and Appalachian Power Company on September 8, 2021 filed with the Public Service Commission of West Virginia their "Petition to Reopen Case and to Take Further Action" in Case No. 20-1040-E-CN. The petition requests the West Virginia Commission to provide certain confirmations, acknowledgements, and commitments regarding, *inter alia*, the Mitchell Generating Station, in light of the inconsistent orders of the Kentucky and West Virginia commissions regarding the proposed ELG work at the Mitchell Generating Station. The petition further requests that the West Virginia Commission provide the confirmations, acknowledgements, and commitments prior to the October 13, 2021 deadline under the ELG Rule for notifying the West Virginia Department of Environmental Protection concerning the ELG modifications at the Mitchell Generating Station. Finally, Wheeling Power and Appalachian Power Company indicated in the petition that there were matters in need of resolution should West Virginia decide to fully fund the ELG investment and maintain the plant in order to preserve an option to run the Mitchell Generating Station past 2028.

A copy of the petition is attached as KPCO_SR_KPSC_RH_1_1_Attachment1.

The West Virginia commission by order dated September 9, 2021 established a procedural schedule, and provided for a September 24, 2021 evidentiary hearing, in connection with the petition.

A copy of the September 9, 2021 order is attached as KPCO_SR_KPSC_RH_1_1_Attachment2.

Kentucky Power Company and Wheeling Power Company continue to review their alternatives regarding the Mitchell Generating Station pending action by the West Virginia Commission on the petition. Kentucky Power Company also intends to explore these issues and will work to bring the Commission a recommendation on how to handle the Mitchell operating agreement in a new docket for review.

Kentucky Power will continue to file updated status reports every ten days during the pendency of this proceeding on the status of the West Virginia decision on ELG investment.

September 23, 2021 Update

Wheeling Power Company and Appalachian Power Company on September 20, 2021 filed with the Public Service Commission of West Virginia their Reply in support of their "Petition to Reopen Case and to Take Further Action."

A copy of the Reply is attached as KPCO_SR_KPSC_RH_1_1_Attachment3.

Kentucky Power Company and Wheeling Power Company continue to review their alternatives regarding the Mitchell Generating Station pending action by the West Virginia Commission on the petition. Kentucky Power Company will work to bring the Commission a recommendation on how to handle the Mitchell operating agreement either in Case No. 2021-00370 or in a separate docket.

Kentucky Power will continue to file updated status reports every ten days during the pendency of this proceeding.

October 4, 2021 Update

The Public Service Commission of West Virginia held an evidentiary hearing on September 24, 2021 in Case No. 20-1040-E-CN. The purpose of the hearing was to address the issues raised in Wheeling Power Company and Appalachian Power Company's September 8, 2021 "Petition to Reopen Case and to Take Further Action."

Kentucky Power will continue to file updated status reports every ten days during the pendency of this proceeding.

October 13, 2021 Update

On October 12, 2021 the Public Service Commission of West Virginia issued its Order regarding Wheeling Power Company and Appalachian Power Company's September 20, 2021 "Petition to Reopen Case and to Take Further Action" affirming the earlier order that the Companies proceed with ELG at all three plants.

Please see KPCO_SR_KPSC_RH_1_1_Attachment4 which provides a copy of the October 12, 2021 Order and all other documents filed by either Wheeling Power Company or the Public Service Commission of West Virginia in Case No. 20-1040-E-CN since October 2, 2021¹ through October 12, 2021.

Kentucky Power will continue to file updated status reports every ten days during the pendency of this proceeding.

October 25, 2021 Update

Wheeling Power Company is moving forward with CCR/ELG work at the Mitchell Generating Station given the recent action by the West Virginia Commission on the petition. Kentucky Power Company will work to bring the Commission a recommendation on how to handle the Mitchell operating agreement either in Case No. 2021-00370 or in a separate docket. The Company expects to make the operating agreement filing in fourth quarter 2021 and further plans to address through that filing that Kentucky Power will only pay for CCR-related costs associated with the CCR/ELG project.

¹ The Commission Staff's data request 2-6 dated September 17, 2021 sought, as a continuing request, that the Company provide a copy of any documents filed by Wheeling Power or the Public Service Commission of West Virginia in Case No. 20-1040-E-CN and to be provided in the Company's 10-day status reports. The Company's response to 2-6 provided these documents through October 1, 2021.

November 4, 2021 Update

AEP has entered into an agreement to sell its Kentucky operations, which include Kentucky Power and AEP Kentucky Transco, to Liberty Utilities Corp., the regulated utility business of parent company Algonquin Power & Utilities Corporation. Liberty will own and obtain power from Kentucky Power's 50% portion of the Mitchell Plant through 2028. The sale is expected to close in the second quarter of 2022, pending regulatory approvals. The Company expects that an application for Commission approval of the transaction will be made in the fourth quarter 2021.

Kentucky Power Company will work to bring the Commission a recommendation on how to handle the Mitchell operating agreement either in Case No. 2021-00370 or in a separate docket. The Company expects to make the operating agreement filing in the fourth quarter 2021.

Kentucky Power will continue to file updated status reports every ten days during the pendency of this proceeding.

There were no documents filed by either Wheeling Power Company or the Public Service Commission of West Virginia in Case No. 20-1040-E-CN from October 25, 2021 through November 3, 2021.

November 15, 2021 Update

On November 5, 2021, Kentucky Power filed its notice of intent to file an application for approval of affiliate agreements related to the Mitchell Generating Station. The Commission assigned this proceeding Case No. 2021-00421. The Company will file its application before November 30, 2021. A comparable filing will be made at the same time in West Virginia.

Kentucky Power will continue to file updated status reports every ten days during the pendency of this proceeding.

WVEUG Set 2**

Request WVEUG 2-05

Please reference the Companies' Responses to WVEUG, Set 1, Nos. 9 and 10.a.

- a. Please explain how the "Buyout Transaction" is "necessary" for the continued operation of the Mitchell Plant through December 31, 2028, given that WPCo may exercise its option not to acquire ownership of the Mitchell Plant up until that date.
- b. Would any element of the Mitchell Agreements preclude the sale of KPCo's ownership interest in the Mitchell Plant and/or WPCo's ownership interest in the Mitchell Plant to a third party.

Response WVEUG 2-05

- a. In addition to ensuring compliance with the Commission's orders, which cannot be later negotiated if not included in the agreement now, the buyout provision provides the certainty needed for WPCO to invest in the plant prior to 2028 knowing it will have the option to be able to own the plant. Thus, the provision is inseparable from the pre-2028 operational provisions of the agreement.
- b. No. The buyout transaction is a backstop and does not preclude WPCO from purchasing KPCO's undivided ownership interest in the Mitchell Plant in a mutually agreed transaction. In addition, neither owner would be precluded from selling its undivided ownership interest in the Mitchell Plant to a third party, noting that KPCO would not own ELG equipment pursuant to orders of the commissions.

Request WVEUG 2-06

Please reference the Companies' Response to WVEUG, Set 1, No. 10.b.

- a. Do the Companies project that they will have a need for more generation capacity to serve their West Virginia ratepayers in 2029?
- b. If yes, please provide the amount of additional generation capacity projected to be needed in 2029.

Response WVEUG 2-06

- a. No, not at this time.
- b. Not applicable.

**APPALACHIAN POWER COMPANY &
WHEELING POWER COMPANY
WEST VIRGINIA CASE NO. 21-0810-E-PC
WVEUG Set 2**

Request WVEUG 2-07

- a. To the extent that a WPCo purchase of the KPCo share of the Mitchell Plant capacity would result in significant excess capacity for WPCo, what options would be available to WPCo to mitigate the costs of such excess capacity (e.g., sales of Mitchell capacity into the PJM Interconnection, L.L.C. ("PJM") market)?
- b. Please identify any restrictions that WPCo would have that would limit its ability to sell any excess Mitchell capacity into the PJM market. In particular, would such a sale be restricted by Section 11.3 ("Capacity Plan") of PJM Manual M-18 ("PJM Capacity Market")?

Response WVEUG 2-07

- a. Under the current construct, and to the extent WPCo would have an excess capacity margin in future years, WPCo may have the ability to monetize excess capacity in the PJM capacity market by offering excess capacity to others, provided the Company follows any PJM rules governing such sales. However, market rules are subject to change and there may be other options available in the future.
- b. WPCo would be required to comply with all PJM rules associated with offering excess capacity into the PJM capacity market in existence at the time.
