**APPLICATION OF TIME WARNER CABLE INFORMATION SERVICES
(KENTUCKY), LLC FOR DESIGNATION AS AN ELIGIBLE
TELECOMMUNICATIONS CARRIER TO RECEIVE RURAL DIGITAL
OPPORTUNITY FUND AUCTION (AUCTION 904) SUPPORT FOR VOICE AND
BROADBAND SERVICES AND
REQUEST FOR EXPEDITED CONSIDERATION**

Time Warner Cable Information Services (Kentucky), LLC (“TWCIS”) respectfully submits this Application for designation as an Eligible Telecommunications Carrier (“ETC”) to the Kentucky Public Service Commission (“Commission”) pursuant to section 214(e)(2) of the Communications Act of 1934, as amended (the “Act”),¹ and Sections 54.201 and 54.202² of the Federal Communications Commission (“FCC”) rules. CCO Holdings, LLC (“CCO Holdings”), an affiliate of TWCIS, was selected as a winning bidder in Kentucky³ under the FCC’s Rural Digital Opportunity Fund Phase I Auction (Auction 904) (“RDOF Auction”),⁴ and CCO Holdings assigned its winning bids to TWCIS in the RDOF Census Blocks identified in **Exhibit A** (“RDOF Census Blocks”). A map illustrating the RDOF Census Blocks is attached at **Exhibit**

¹ 47 U.S.C. § 214(e)(2).

² 47 C.F.R §§ 54.201 and 54.202.

³ See *Rural Digital Opportunity Fund Phase I Auction (Auction 904) Closes; Winning Bidders Announced; FCC Form 683 Due January 29, 2021*, Public Notice, DA 20-1422 (Dec. 7, 2020) (“*Auction 904 Results Notice*”).

⁴ See *Rural Digital Opportunity Fund Phase I Auction Scheduled for October 29, 2020; Notice and Filing Requirements and Other Procedures for Auction 904*, Public Notice, 35 FCC Rcd 6077 (2020) (“*Auction 904 Procedures Public Notice*”).

B. TWCIS’s receipt of RDOF Auction funding and building to these unserved areas, however, is conditioned upon TWCIS obtaining designation as an ETC in those RDOF Census Blocks.⁵ Accordingly, TWCIS seeks ETC designation in the RDOF Census Blocks in Kentucky for which TWCIS was assigned CCO Holdings’ winning bids in the RDOF Auction. As discussed below, TWCIS respectfully requests expedited review of this Application and a decision from the Commission by no later than April 15, 2021.

Section 214(e)(2) of the Act authorizes the Commission to designate a company that meets the requirements of 47 U.S.C. § 214(e)(1), such as TWCIS, as an ETC. As demonstrated in this Application, TWCIS meets all requirements for ETC designation. Further, as shown by the descriptions herein, designating TWCIS as an ETC in the RDOF Census Blocks would allow TWCIS, either directly or through its affiliates,⁶ to bring high-quality, innovative voice and broadband Internet access services to consumers in unserved portions of Kentucky, advance the goals of universal service, and serve the public interest.

Ensuring that high-speed broadband service is available to those without access in the Commonwealth has been a major priority of the Governor and state lawmakers. By granting this Application, the Commission has the potential to bring significant public and private investment to Kentucky and to advance the Commonwealth’s goals in making sure that more of its citizens have access to high-speed broadband Internet access services. The FCC estimates that Kentucky has more than 98,909 unserved residential and small business locations,⁷ and granting this

⁵ See *Auction 904 Results Notice*, at ¶ 36.

⁶ While the entity seeking ETC designation will directly provide the supported Lifeline voice services, different Charter affiliated entities may directly provide the broadband Internet access services and non-Lifeline voice services in the RDOF Census Blocks.

⁷ See *Auction 904 Results Notice*, at Attachment B, p. 3. The FCC defines “locations” as “housing units” and “small businesses” that receive “consumer-grade broadband service.” See *Wireline Competition Bureau Provides Guidance to Carriers Receiving Connect America Fund Support Regarding Their Broadband Location Reporting Obligations*, Public Notice, WC Docket No. 10-90, DA 16-1363 (2016).

Application will help to lower that number substantially. While TWCIS, through other Charter affiliates, has participated in programs in other states to advance broadband buildout, participation through RDOF presents a unique opportunity for Kentucky to do substantially more to bridge the digital divide in unserved areas.

In support of its Application, TWCIS states as follows:

I. OVERVIEW OF TWCIS AND CHARTER

TWCIS. TWCIS is a Delaware limited liability company with a place of business at 12405 Powerscourt Drive, St. Louis, Missouri 63131. TWCIS is a majority owned and wholly controlled subsidiary of Charter Communications, Inc. (“Charter”), which is headquartered at 400 Atlantic Street, Stamford, Connecticut 06901. CCO Holdings and TWCIS are both subsidiaries of Charter. A copy of TWCIS’s registration with the Kentucky Secretary of State is attached as **Exhibit C**. TWCIS is authorized by the Commission to provide local exchange telecommunications services in Kentucky. A copy of TWCIS’s authorization is attached as **Exhibit D**.

Charter. Charter is a leading broadband connectivity company, serving more than 30 million customers nationwide. Under the brand name Spectrum, the company offers a suite of advanced communications services, including broadband Internet access, cable video, voice, and mobile services.⁸ Through its subsidiaries, Charter provides these services in 41 states, including to more than 741,000 customers in Kentucky.

⁸ Certain of the subjects and benefits discussed in this filing pertain to non-jurisdictional products and services. While those items are included herein in order to provide a comprehensive view of the public interest benefits of designating TWCIS as an ETC, TWCIS respectfully reserves all rights relating to the inclusion of or reference to such information, including without limitation TWCIS’s legal and equitable rights relating to jurisdiction, filing, disclosure, relevancy, due process, review, and appeal.

Helping to drive Charter's rapid growth is Charter's strong network investment which has significantly enhanced Charter's broadband Internet access service and allowed Charter to better serve its customers in both urban and rural communities across the United States. In 2018-2019, Charter extended its network to more than 1.5 million unserved homes and businesses, 30% of which were in rural areas. And, from 2015 to 2019, Charter invested nearly \$40 billion in infrastructure and technology to expand the reach of its network. In 2019 alone in Kentucky, Charter invested \$166 million in technology and infrastructure in the Commonwealth, which provides more than one million Kentucky households and businesses with availability to a Gigabit connection from Charter with download speeds of up to 940 megabits per second ("Mbps"), as well as a full array of entertainment and connectivity options. With more than ten thousand miles of broadband infrastructure across the Commonwealth, Charter provides service to some of Kentucky's largest businesses, hospitals, and anchor institutions.

Charter's customers directly benefit from Charter's commitment to and investment in its network. The FCC recently reported that Charter had one of the fastest, most consistent broadband Internet download speeds in the industry, including at peak times of the day when customer Internet usage is the highest.⁹ Additionally, recognizing Charter's experience and commitment to its customers, its network, and its products, *Multichannel News* recently awarded Charter as its "Operator of the Year for 2020."¹⁰ With millions working and learning from home

⁹ See *Ninth Measuring Broadband America Fixed Broadband Report, A Report on Consumer Fixed Broadband Performance in the United States*, FCC Office of Engineering and Technology (Aug. 3, 2020), pp. 15-16.

¹⁰ See *Cover Story: Charter's 'Giffen Good,' MultiChannel News* (Sept. 28, 2020), <https://www.nexttv.com/features/cover-story-charters-giffen-good#:~:text=Charter%2C%20the%20Multichannel%20News%20Operator%20of%20the%20Year,it%20completed%20the%20purchase%20of%20Time%20Warner%20Cable> (last visited Dec. 13, 2020) (stating that Charter "has managed record broadband and positive video subscriber growth during the pandemic by sticking to its game plan, initiated more than four years ago ... [including setting] out to make Charter's plant across its 41-state footprint fully digital (achieved in 2018), to roll out DOCSIS 3.1 (completed in 2018), to uniformly align products and packaging across all markets (as of Q4 2019, 85% of its customers were in Spectrum pricing and packaging) and to

due to the COVID-19 pandemic, access to dependable, high-speed broadband Internet access services and reliable voice services has never been more important, especially in the unserved areas comprising the RDOF Census Blocks. Further, Charter's network investment has spurred the development of products such as Charter's Spectrum Mobile service, which relies on the use of the Verizon Wireless mobile network and Charter's own broadband network infrastructure to provide fast, reliable broadband and voice services from customers' mobile phones.

Charter is committed to being part of a comprehensive solution to close the digital divide throughout the United States. With more than \$1.2 billion in RDOF funding awarded to the company across the country, Charter plans to continue its efforts as a leader in rural broadband deployment, bringing innovative, high-quality voice and broadband Internet access service offerings to unserved communities. In Kentucky, the more than \$58 million of RDOF funding assigned to TWCIS will help enable Charter to expand the availability of its network and services in the RDOF Census Blocks. In fact, according to the FCC, it assigned Charter the most locations of any provider that participated in the RDOF Auction.

Additional information discussing Charter's RDOF funding in Kentucky is described at **Exhibit E**, which is being provided to the Commission in accordance with the Commission's requirements for confidential information.

A. RDOF Support Assigned to TWCIS Will Enable Charter to Extend Voice Services to the RDOF Census Blocks

Charter provides voice communications services to over 9.3 million residential customers throughout its 41-state footprint using interconnected Voice over Internet Protocol technology.¹¹

raise broadband speeds (in 2019, it raised the minimum speed to 200 Megabits per second for 60% of the footprint and that rate continues to grow; the remaining 40% are at 100 Mbps).")

¹¹ See Press Release, Charter Communications, Inc., *Charter Announces Third Quarter 2020 Results* (Oct. 30, 2020), <https://corporate.charter.com/newsroom/charter-announces-third-quarter-2020-results>.

Charter's voice service offering includes unlimited long distance calling in the United States, Canada, Puerto Rico, the US Virgin Islands, and Guam. Calling features include voicemail, call waiting, caller ID, call forwarding, and other features, at no additional charge. In addition, the E911 feature automatically provides the emergency service operator with a caller's phone number and location. With respect to its residential voice services, Charter offers customers a simplified pricing structure with plans that include all applicable fees¹² – thus permitting such customers to know their total costs in advance of choosing Charter's services, rather than facing a variety of complicated surcharges after they receive their first billing statement.¹³

The RDOF support assigned to TWCIS will help enable it to extend and maintain Charter's voice services to and within the RDOF Census Blocks.

B. RDOF Support Assigned to TWCIS Will Enable Charter to Extend Broadband Internet Access Services to the RDOF Census Blocks

Charter's broadband Internet access services deliver industry-leading speeds to the vast majority of its 26.8 million residential broadband Internet customers.¹⁴ Charter now offers minimum download speeds of at least 200 Mbps in 60% of Charter's national footprint, and 100 Mbps everywhere else in the footprint—including households and small businesses in rural areas. On December 17, 2020, Charter announced that it plans to double Charter's broadband Internet access service starting speeds in 17 U.S. markets, including in and around Lexington, Kentucky, making 200 Mbps the starting flagship speed in 75% of Charter's communities. These speed enhancements will be available to new customers immediately. Existing customers

¹² The rates, terms and conditions of Charter's voice service plans are subject to change in accordance with applicable federal and state regulations.

¹³ TWCIS remits fees, such as federal or state universal service fund fees or E911 fees, to the appropriate regulatory agencies, where required, and in accordance with law, but does not generally collect them as separate line items on the bill, in addition to the monthly rate that residential customers pay for TWCIS's voice service. All such fees are described in TWCIS's invoices for voice service in accordance with applicable federal and state billing requirements.

¹⁴ See *supra* note 11.

will receive these speed increases with new Charter broadband Internet access service packages during the first quarter of 2021.¹⁵

Charter also offers a 1 Gbps connection with maximum download speeds of up to 940 Mbps to the vast majority of those same households, as well as to small and medium-sized businesses.¹⁶ Additionally, recognizing the need for fast, reliable broadband service for community anchor institutions, Charter offers 10 Gbps symmetrical speed broadband Internet connections to schools, libraries, hospitals, and other important community institutions.

The RDOF support assigned to TWCIS will enable it to extend Charter's broadband Internet access services to the RDOF Census Blocks in Kentucky. The terms of the support assigned to TWCIS will require it to offer Charter's 1 Gbps connections in the RDOF Census Blocks. According to the FCC, these areas are currently unserved by any broadband provider offering service at or above 25/3 Mbps. Granting this Application will help extend broadband and unleash tremendous benefits to the communities within these RDOF Census Blocks. Charter's broadband deployment demonstrates its commitment to developing and deploying innovative broadband technology and services in unserved and/or rural areas.

Additionally, Charter's services will provide new and innovative services to previously unserved customers in the RDOF Census blocks, including by providing relief to customers struggling as a result of the COVID-19 pandemic. It will allow students and households to get or stay connected, and expand broadband Internet access and adoption among low-income households.

¹⁵ See Press Release, Charter Communications, Inc., *Spectrum Doubles Spectrum Internet Starting Speed to 200 Mbps in 17 Markets* (Dec. 17, 2020), <https://corporate.charter.com/newsroom/spectrum-doubles-internet-starting-speed-to-200-mbps>.

¹⁶ See *supra* note 11.

As part of its current broadband Internet access service plans, Charter offers *Spectrum Internet Assist*, a program for low-income households, which is available in its service area in Kentucky and elsewhere.¹⁷ Charter does not require customers to sign long-term contracts for its services nor does the company impose early termination fees for failing to fulfill them.¹⁸ Charter maintains a focus on ensuring that the broadband user experience is a positive one.¹⁹

III. CHARTER'S PARTICIPATION IN THE RDOF AUCTION

A. Background on the RDOF Auction

On February 7, 2020, the FCC issued a Report and Order establishing the Rural Digital Opportunity Fund, in which service providers would compete to receive up to \$20.4 billion to offer voice and broadband services in unserved high-cost areas.²⁰ Under this program the FCC will disburse federal universal service funds on a technology neutral basis to providers—including competitive local exchange carriers, cable operators, fixed wireless ISPs, satellite broadband providers, electric co-ops and electric utilities—for deploying voice and broadband-capable networks in these unserved areas.

²⁰ *Rural Digital Opportunity Fund*, Report and Order, 35 FCC Rcd 686 (2020) (“*RDOF Order*”).

B. CCO Holdings' Selection as a Winning Bidder and Assignment to TWCIS

The FCC's December 7, 2020 *Auction 904 Results Notice* announced that CCO Holdings was among the winners of the recently concluded RDOF Auction.²¹ Specifically, the FCC announced CCO Holdings as a winning bidder in 3,232 Census Blocks in Kentucky. In accordance with the FCC's procedures allowing winning bidders to divide and assign their bids to affiliated operating companies within the relevant state,²² CCO Holdings assigned its winning bids in Kentucky to TWCIS. TWCIS must demonstrate to the FCC that it has been designated as an ETC in the RDOF Census Blocks where CCO Holdings was the winning bidder in Kentucky. The FCC's deadline for TWCIS to submit appropriate documentation of the ETC designation is June 7, 2021.²³

C. Need for Expedited ETC Designation

As noted, CCO Holdings has been selected as a winning bidder in the RDOF Auction for 3,232 Census Blocks in Kentucky. The timeframe for TWCIS to obtain ETC designation is short and, so that TWCIS may plan its RDOF construction and deployment schedule, TWCIS respectfully requests that the Commission grant TWCIS ETC designation on an expedited basis by no later than April 15, 2021. Granting this Application on an expedited basis will benefit the citizens of Kentucky by allowing TWCIS to meet its RDOF deployment milestones for voice and broadband Internet services in the RDOF Census Blocks and by allowing customers the opportunity to reap the benefits of Charter's broadband services, including by participating in telemedicine, remote work and remote education. Expedited Commission action would serve the public interest and advance the goals of universal service by expediting the deployment of

²¹ See *Auction 904 Results Notice*, at Attachment A, p. 4.

²² See *Auction 904 Procedures Public Notice*, at ¶ 43.

²³ See *Auction 904 Results Notice*, at ¶ 36.

high-quality, innovative voice and broadband Internet services in these unserved portions of Kentucky.

IV. TWCIS'S FINANCIAL AND TECHNICAL QUALIFICATIONS

Charter is one of the nation's leading providers of broadband Internet access services and voice services, and Charter has played a significant role in expanding the availability of these services—especially broadband Internet access services—across the United States. Indeed, TWCIS and its affiliates currently provide high-quality voice and broadband services to approximately 26.8 million residential Internet access service customers and 9.3 million residential voice service customers in 41 states, including many in rural and “high cost” areas.

TWCIS is highly qualified to meet the FCC's RDOF service obligations given Charter's proven track record of financial, managerial, technical and commercial success operating as an existing provider of broadband Internet and voice services. In 2019, Charter generated over \$45 billion in revenue from the provision of all of Charter's services, along with approximately \$6.5 billion in income from its operations.²⁴ TWCIS will draw upon Charter's financial capability and extensive teams of experienced engineers with expertise in the fields of communications technology, hardware design, software development, data analytics, and networking to construct and/or install the networks and infrastructure necessary to provide the required services in the RDOF Census Blocks. Additionally, TWCIS will leverage the significant operational, managerial and technical expertise of Charter to perform all billing, installation, customer service, and other matters related to providing its services in Kentucky. The Charter corporate family has extensive experience managing the technical and customer service-related issues

²⁴ 2019 Annual Report. Charter Communications, Inc., 2019, <https://ir.charter.com/financial-information/annual-reports>.

associated with the provision of mass market consumer voice and broadband Internet access (as well as other communications services). Charter monitors its network performance on a 24/7/365 basis and has implemented procedures to leverage its extensive engineering resources quickly and effectively to install, modify, repair, and/or restore services, as necessary.

This expertise made it possible for CCO Holdings to confidently participate in the RDOF auction with the certainty that TWCIS will be able to fulfill its RDOF network and service obligations.

V. TWCIS MEETS ALL FEDERAL STATUTORY AND REGULATORY REQUIREMENTS FOR ETC DESIGNATION

TWCIS meets all applicable federal requirements for designation as an ETC in Kentucky, including 47 U.S.C. § 214(e) and 47 C.F.R. §§ 54.201 *et seq.*, as follows.

1) For purposes of its ETC designation, TWCIS will operate as a common carrier and offer interstate and intrastate communications on a common carrier basis in the RDOF Census Blocks. Designation as an ETC is a predicate to TWCIS's eligibility to receive RDOF support to provide voice and broadband Internet services in the RDOF Census Blocks (47 U.S.C. § 214(e)(1); 47 C.F.R. § 9.3; 47 C.F.R. § 54.201(d)).

2) Charter is a facilities-based broadband Internet access and voice service provider, with its own network, gateways, switching facilities, and other associated facilities. TWCIS will offer the RDOF supported services using its own facilities within the meaning of the FCC's rules or a combination of its own facilities and resale of another carrier's services (47 U.S.C. § 214(e)(1)(A); 47 C.F.R. § 54.201(d)(1)) within the RDOF Census Blocks.

3) As required by 47 C.F.R. § 54.101, TWCIS, either directly or through an affiliate, will offer voice services and broadband Internet access services supported by federal universal

service support mechanisms, including the following capabilities within the RDOF Census Blocks:²⁵

Voice Grade Access to the Public Switched Telephone Network – TWCIS meets this requirement through the provision of a competitive voice service that includes minutes of use for local service provided at no charge to end users and access to emergency services via 911 or E911, wherever available from local government or public safety organizations.²⁶ Toll limitation services will also be offered to qualifying low income consumers as provided in the FCC’s rules (47 C.F.R. § 54.101(a)(1)) in the RDOF Census Blocks.

Broadband Internet Access Service – Charter’s broadband Internet access service provides the capability to transmit data to, and receive data from, all or substantially all Internet endpoints, including any capabilities that are incidental to and enable the operation of the communications service (47 C.F.R. § 54.101(a)(2)) in the RDOF Census Blocks.

TWCIS commits that these services will be provided consistent with applicable high-cost universal service support rules (47 C.F.R. § 54.101(c)) in the RDOF Census Blocks. TWCIS will also ensure that Lifeline voice and broadband Internet services are offered in accordance with the FCC’s rules in all Census Blocks where TWCIS has been assigned RDOF support (47 C.F.R. § 54.101(d)). Moreover, for its Lifeline voice service offering, TWCIS will offer to Lifeline-eligible customers a Charter voice service plan, as described above, at the discounted Lifeline voice service rate in the RDOF Census Blocks. This voice service plan is comparable (if not superior) to the Lifeline voice service offerings of other Lifeline providers in Kentucky.

²⁵ Charter’s broadband Internet access and voice services are provided through subsidiaries controlled and majority owned by Charter. While the entity seeking ETC designation will directly provide the supported Lifeline voice services, different Charter affiliated entities may directly provide the broadband Internet access services and non-Lifeline voice services in the RDOF Census Blocks.

²⁶ See Section I(A) of this Application for a detailed description of Charter’s voice service.

4) TWCIS will offer its voice service as a standalone service and at rates that are reasonably comparable to urban rates (47 U.S.C. § 254(b)(3); 47 C.F.R. § 54.313(a)(3)) in the RDOF Census Blocks.²⁷

5) In the RDOF Census Blocks, TWCIS will advertise the availability of its universal service offerings and charges for such offerings using media of general distribution (47 U.S.C. § 214(e)(1)(B); 47 C.F.R. § 54.201(d)(2)), and in a manner reasonably designed to reach those likely to qualify for the service (47 C.F.R. § 54.405(b)).

6) TWCIS will provide the supported services throughout the designated RDOF Auction assigned Census Blocks where it has customers (47 U.S.C. § 214(e)(1); 47 C.F.R. § 54.201(d)).

7) TWCIS certifies that, in accordance with 47 U.S.C. § 254(e) and 47 C.F.R. § 54.7(a), it will use federal universal service support only for the provision, maintenance, and upgrading of facilities and services for which the universal service support is intended.

8) TWCIS further certifies that it meets all applicable requirements for designation as an ETC under 47 C.F.R. § 54.202 as follows:

Compliance with Applicable Service Requirements. TWCIS certifies that it will comply with the service requirements applicable to the support that it receives,²⁸ including the requirements of the RDOF Auction.

Ability to Remain Functional in Emergency Situations. Charter has been providing voice and broadband Internet access services to customers on a 24/7/365 basis for almost twenty years. As part of providing these services, it is necessary to have in place contingency plans for emergency situations for each of Charter's major network hubs and/or facilities that are

²⁷ See RDOF Order, at ¶ 42.

²⁸ 47 C.F.R. § 54.202(a)(1)(i).

geographically distributed across the United States. These plans contain activation, staffing, escalation, and communication procedures to identify and respond to such emergencies. Additionally, all switching facilities are equipped with independent power generators and sufficient fuel to operate for several days to mitigate commercial power outages. The design of these facilities contains multiple levels of redundancy and autonomy that also mitigate the need for dedicated human interaction. TWCIS will apply this successful model to its RDOF services in the RDOF Census Blocks.

VI. DESIGNATION OF TWCIS AS AN ETC IS IN THE PUBLIC INTEREST

As a winning bidder in the RDOF Auction, TWCIS is eligible to receive funding to bring high-quality, innovative voice and broadband Internet access services to consumers in unserved portions of Kentucky. The RDOF funding assigned to TWCIS will help enable it to “[b]ring digital opportunity to Americans living on the wrong side of the digital divide,”²⁹ and thereby advance the goals of universal service. Expedited Commission action on this Application serves the public interest by accelerating the deployment of high-quality, innovative voice and broadband Internet access services in unserved portions of Kentucky that TWCIS and its affiliates will serve in the RDOF Census Blocks.

A. Broadband Deployment Will Promote New Investment, Job Growth and Opportunities in Kentucky

Bringing broadband to unserved areas of Kentucky has been a major priority of the Governor and state lawmakers. As Governor Andy Beshear recently announced: “Our goal on the internet access is to get it as quickly as possible to every family that needs it.”³⁰ Granting

²⁹ *RDOF Order*, at ¶ 1.

³⁰ See *Beshear Offers Way to Expand Internet to Low-Income Students*, Times-Tribune (Aug. 29, 2020), https://www.thetimestribune.com/cnhi_network/beshear-offers-way-to-expand-internet-to-low-income-students/article_e850b894-e8a4-11ea-b1a8-2f5a5c245161.html. See also, Press Release, Office of the Governor,

this Application will serve the Commonwealth's goal and the public interest through the deployment of broadband Internet and voice services to unserved high-cost areas in Kentucky. Deployment of those services will spur investment in facilities and equipment and promote new economic opportunities and job growth in Kentucky.

Designating TWCIS as an ETC will permit it to receive RDOF Auction funds for 3,232 Census Blocks in Kentucky, directly advancing the goals of the RDOF Auction and universal service in those RDOF Census Blocks. Moreover, the more than \$1.2 billion of RDOF funding assigned to Charter, which includes more than \$58 million in the Commonwealth, will help enable it to expand the availability of Charter's network and services throughout Charter's service areas, including in Kentucky, as discussed in **Exhibit E**. Charter's deployments will bring expanded voice and broadband connectivity to these areas, many of which are rural and less densely populated in Kentucky, which will help close the digital divide for residents of the Commonwealth and expand economic opportunity and job growth in communities that will benefit from increased connectivity. Leaders in the legislature are also calling for more access to broadband, especially in rural areas like the vast majority of those associated with the RDOF Census Blocks: "Now, more than ever, it is vital that Kentucky's families and businesses have access to broadband service... It is critical that we do everything possible to ensure our rural families have broadband access and...the Kentucky Public Service Commission can play a role

Gov. Beshear Provides Update on Covid-19 (Aug. 25, 2020), <https://kentucky.gov/Pages/Activity-stream.aspx?n=GovernorBeshear&prId=329> (stating "COVID-19 has not only created new and unique challenges we must confront, it has brought to surface issues that have been plaguing our communities for generations. These underlying issues disproportionately affect communities of color and Kentuckians who live in poverty," the Lieutenant Governor said. "One of these issues is lack of access to high-speed internet."); Letter from Derrick Graham, House Minority Caucus Chair, Commonwealth of Kentucky, to Kentucky Public Service Commission (Oct. 20, 2020), https://psc.ky.gov/agencies/psc/Proposed%20Amendments/Comments_102020_KAR/Representative%20Derrick%20OW%20Graham.pdf (stating "As a former educator, I know how important it is for students to have continuity in their learning. If student do not have proper access to modern-day educational tools on the Internet, they are at a great risk of falling behind.").

in those efforts.”³¹ Because granting this Application will allow TWCIS to use the RDOF funds as intended to expand voice and broadband Internet access services in the RDOF Census Blocks in Kentucky, designating TWCIS as an ETC is in the public interest.

B. Access to Broadband Will Transform Rural and Unserved Areas

The availability of Charter’s RDOF supported broadband Internet access services and voice services will have a transformative effect on the unserved and/or rural areas in the RDOF Census Blocks. Charter is committed to expanding access to this life-changing connectivity that will enable consumers to use new technologies, such as distance education, telemedicine, live streaming video, or interactive programming (e.g., a Zoom call). These technologies will create new opportunities for consumers in education, healthcare, business, and civic engagement activities. For example, with access to an online network made available through a Charter broadband Internet connection, an individual may start their own business or take online classes in pursuit of an education. Similarly, local businesses, through use of Charter’s broadband Internet and voice services, may connect to vendors and employees, grow their sales, and create new jobs. In short, Charter’s broadband Internet access and voice services will enhance the opportunities available to the consumers served by TWCIS and its affiliates in the RDOF Census Blocks.

C. The Public Will Benefit from Charter’s Experience as a Lifeline Voice Service Provider

Charter and its subsidiaries have substantial experience in providing Lifeline voice services to low income consumers and communities, which provides TWCIS with important familiarity with the FCC’s Lifeline program and with the interactions necessary with the

³¹ Letter from Robert Stivers, President of the Senate, Commonwealth of Kentucky, to Kentucky Public Service Commission (Oct. 9, 2020).

Universal Service Administrative Company, the National Lifeline Accountability Database, and other third party Lifeline administrators. These experiences will facilitate TWCIS's swift offering of Lifeline voice services for qualifying low-income customers in the Census Blocks where TWCIS receives RDOF support in Kentucky.

D. The Public Will Benefit from Charter's Customer-Oriented Policies, Such as Those During the COVID-19 Pandemic

At the onset of the COVID-19 pandemic, Charter joined other telecommunications providers in the Keep Americans Connected Pledge. As part of that effort, Charter voluntarily committed to suspend collections and not charge late fees or terminate service for residential or small business customers who informed Charter that they were experiencing COVID-related economic challenges. Charter extended its commitment through June 30th. During that time, Charter kept connected approximately 700,000 customers who had difficulties meeting bills because of COVID-related economic hardship. Charter has also forgiven approximately \$85 million in customer overdue balances.

Additionally, as schools across the country began to transition to remote learning in March, Charter took action to benefit students, faculty and families. Charter committed to offering broadband Internet service up to 200 Mbps for free for 60-days, including in-home Wi-Fi and a self-installation kit, to households with K-12 and/or college students or educators who did not already have a Charter broadband Internet service subscription for sixty days. Charter extended this offer through June 30th and, by the end of the 2020 school year, Charter was able to help nearly 450,000 students and teachers nationally continue schooling through remote learning. To help ease the strain for families and teachers who still lacked broadband, Charter relaunched its Remote Education Offer beginning on September 21, 2020.

Furthermore, for schools and school districts seeking to establish a centralized purchasing arrangement for the benefit of both students and teachers to support remote learning, Charter currently offers Stay Connected K-12 throughout the Charter footprint. Under Stay Connected K-12, Charter contracts directly with schools and school districts to assist them in offering high-speed broadband Internet access to students, educators and staff in their homes. Charter's Stay Connected K-12 is designed as a single-payer option for communities to allow payment by a school or school district, based upon the number of connections purchased. This partnership between Charter and the school or school district helps to ensure that learning, teaching, and working are uninterrupted by giving schools and school districts the flexibility to add students to the program, when needed, and to provide much needed in-home broadband Internet connectivity.

Lastly, recognizing the importance of digital skills during this time of unprecedented volume in distance learning and remote working, Charter has doubled the amount of funds available for its Spectrum Digital Education Grants for 2020-21.³² These customer-oriented policies, along with others that Charter implements from time to time, will enhance the choices and capabilities available to the consumers served by TWCIS and its affiliates in the RDOF Census Blocks.

E. The Public Will Benefit from TWCIS's Advanced Service Offerings

Designating TWCIS as an ETC in the RDOF Census Blocks will promote the deployment of advanced voice and broadband Internet services in these areas. Charter is widely recognized as a premier provider of voice and broadband Internet offerings that relies on advanced systems, technologies, and infrastructure. Charter provides voice and broadband

³² See *Spectrum Digital Education Grant*, Spectrum, <https://corporate.charter.com/digital-education/grants> (last visited Dec. 13, 2020).

Internet services to approximately 26.8 million residential Internet access service customers and 9.3 million residential voice service customers in 41 states. Its investments have enabled it to offer minimum download speeds of at least 200 Mbps in 60% of Charter’s national footprint, and 100 Mbps everywhere else in the footprint—including households and small businesses in rural areas. On December 17, 2020, Charter announced that it plans to double Charter’s broadband Internet access service starting speeds in 17 U.S. markets, including in and around Lexington, Kentucky, making 200 Mbps the starting flagship speed in 75% of Charter’s communities. These speed enhancements will be available to new customers immediately. Existing customers will receive these speed increases with new Charter broadband Internet access service packages during the first quarter of 2021.³³

Charter also offers a 1 Gbps connection with maximum download speeds of up to 940 Mbps to the vast majority of those same households, as well as to small and medium-sized businesses. Charter’s broadband Internet service offerings enable customers “to use tomorrow’s Internet applications as well as today’s.”³⁴ These levels of service will be made available to consumers in TWCIS’s RDOF Census Blocks, as well.

³³ See supra note 15.

³⁴ RDOF Order, at ¶ 2.

VII. CONCLUSION

For the reasons stated herein, TWCIS respectfully requests that the Commission designate TWCIS as an ETC in the RDOF Census Blocks identified in **Exhibit A** by no later than April 15, 2021 and order such other relief as may be appropriate.

Respectfully submitted,

APPLICATION FOR AMENDED CERTIFICATE OF AUTHORITY

Pursuant to the provisions of KRS Chapter 275, the undersigned hereby applies for an amended certificate of authority to transact business in Kentucky on behalf the limited liability company named below and for that purpose submits the following statements:

1. TWCIS(KY), LLC
(Name of limited liability company or fictitious name adopted for use in Kentucky)
is a limited liability company organized and existing under the laws of the state or country of Delaware, and received authority to transact business in Kentucky on 2/24/06.
2. The limited liability company's name in its state or country of organization has been changed to Time Warner Cable Information Services (Kentucky), LLC
The name of the limited liability company to be used in Kentucky is Time Warner Cable Information Services (Kentucky), LLC
(if "real name" is unavailable for use)
3. The latest date on which the limited liability company is to dissolve has been changed to N/A
4. The limited liability company's state or country of organization has been changed to N/A
5. This application will be effective upon filing, unless a delayed effective date and/or time is specified: N/A
(Delayed effective date and/or time)

I certify that, as of the date of filing this amended certificate of authority, the above-named limited liability company validly exists as a limited liability company under the laws of the jurisdiction of its formation.

NOTICE OF INTENT

Time Warner Cable Information Services (Kentucky), LLC, d/b/a Time Warner Cable ("TWCIS" or "Company"), 1/ hereby submits the following information in accordance with the provisions of Administrative Case No. 359 and Administrative Case No. 370 (collectively, the "Orders"). Company also submits its proposed tariff in accordance with the provisions of the Orders and 807 KAR 5:011.

1. The name and address of Company are:

Time Warner Cable Information Services (Kentucky), LLC
290 Harbor Drive
Stamford, CT 06902

2. A copy of Company's Certificate of Formation and Kentucky Certificate of Authority are attached as **Exhibits A and B**.

3. The name, street address, telephone and fax number of the responsible contact person for customer complaints and regulatory issues is:

1/ For additional information regarding Time Warner Inc. ("Time Warner"), Company's ultimate corporate parent, please consult Time Warner's SEC Form 10-K, available at <http://www.sec.gov/edgar/searchedgar/companysearch.html>.

Julie Y. Patterson, Esq.
Time Warner Cable Information Services (Kentucky), LLC
290 Harbor Drive
Stamford, CT 06902
Phone: 203-328-0600
Fax: 203-328-4042

4. A notarized statement by an officer of Company, attesting that Company has not provided or collected for intrastate service in Kentucky prior to filing its notice of intent and tariff, is attached as **Exhibit C**.
5. Company does not seek authority to provide operator assisted services to traffic aggregators as defined in Administrative Case No. 330.
6. Company's proposed tariff is attached as **Exhibit D**. Company intends to adopt the tariff of ACC Telecommunications, LLC ("Adelphia"), without material alteration thereto, and intends to serve Adelphia's customers upon the submission and acceptance for filing of Company's Transfer Letter and Adoption Notice as required by the Orders and by 807 KAR 5:011, Section 11, and upon close of the transaction to acquire certain Adelphia assets.

WHEREFORE, Company requests that the Public Service Commission of the Commonwealth of Kentucky accept for filing Company's proposed tariff governing Applicant's provision of facilities-based and resold competitive local exchange and interexchange services to the public in the Commonwealth of Kentucky in accordance with applicable laws and regulations currently in effect or hereinafter enacted.

Respectfully submitted this 10th day of March, 2006.
