### Justice Department opens police probe

### Associated Press

The Justice Department is opening a sweeping probe into policing in Louisville, Kentucky, over the March 2020 death of Breonna Taylor, who was shot to death by police during a raid at her home, Attorney General Merrick Garland announced Monday.

It's the second such probe into a law enforcement agency by the Biden administration in a week: Garland also announced an investigation into the tactics of the police in Minneapolis following the death of George Floyd.

The attorney general has said there is not yet equal justice under the law and promised to bring a critical eye to racism and legal issues when he took the job. Few such investigations were opened during the Trump administration.

The 26-year-old Taylor, an emergency medical technician who had been studying to become a nurse, was roused from her bed by police who came through the door using a battering ram after midnight.

Her boyfriend, Kenneth Walker, fired once hitting a policeman. A no-knock warrant was approved as part of a narcotics investigation. No drugs were found at her home.

investigation The announced Monday is into the Louisville-Jefferson **County Metro Government** and the Louisville Metro Police Department. It is known as a "pattern or practice" -- examining whether there is a pattern or practice of unconstitutional or unlawful policing--and will be a more sweeping review of the entire police department.

"I can't wait for the world to see Louisville Police Department for what it really is," Taylor's mother, Tamika Palmer, tweeted after the announcement.

Sam Aguiar, an attor ney for Breonna Taylor's family, also posted a celebratory message on social media shortly after the announcement. Aguiar and other attorneys nego tiated a \$12 million settlement in September with the city of Louisville over Taylor's death.

Louisville city leaders said they supported the broad probe and the city's mayor called it a "really exciting, positive thing."

"I think it's a good thing," said Louisville Chief Erika Shields. "I think that it's necessary because police reform quite honestly is needed in near every agency across the country.

for does it not say, "This is the victory that overcomes - even our faith."

The Bible says, "The just shall live by faith." Having been saved by faith, the Christian is to live by faith. When a crisis comes, there are some things we cannot do, but there are some we can do, and this is where faith comes in. "Commit thy way unto the Lord, trust also in Him, and He shall bring it to pass" (Psalm 37:5). We must do what we can do and then trust God for what we cannot do — "He shall bring it to pass."

Faith controls the actions of our lives for what we believe determines what we do. God honored David's faith by giving him the victory. David expected God's hand to direct him when he was

So what do you do? If you look to yourself or your circumstances you will get discouraged. But, if you look by faith to God, then like David you will be "strengthened in the Lord." Read His Word, rest on His promises, your faith will grow, and God will lead you to victory. When God leads you to do something, He will always give you strength to do it. The key to victory is surrender, depend, and rest — surrender to God's will, depend on God's strength, and rest on God's promises by faith. If you do like David you will be "strengthened in the Lord" to face whatever life throws at you. Remember to surrender, rest and depend.

### DEALING

### FROM PAGE A7

Both our conscience and the Holy Spirit will produce feelings of guilt within us when we sin, thereby prompting us to confess and repent. However, if we have trusted Jesus as Savior, there is no reason to hang on to remorse after our failure has been repented of. Jesus bore the guilt for all our sins when He died on the cross.

Now we are forgiven, reconciled to the

Father, and credited with Christ's righteousness. Although we will still sin, God has given us a path to restoration and cleansing through confession (1 John 1:9).

Although it is natural to feel regret for sin, we don't have to wallow in it. In fact, to do so is a denial of the sufficiency of Christ's death as payment for all sin.

If you are dealing with feelings of shame, confess your sins, and meditate on the redemption Christ purchased for you with His blood. Then believe God and let His truth set you free.

adult religious education has shown time and again that such a quest is not always settled quickly, for whatever reason. In some cases, that reason may be beyond our control, and Joe is probably going to be happier elsewhere. But we must never become apathetic about welcoming the stranger at our church door.

Many years ago, I attended Mass at a different parish for just one weekend. At the point in which congregants share a gesture of welcome to those nearby, a lady treated me as if I had leprosy! I rolled my eyes and moved to another pew. If that had happened to Joe, he likely would never have returned to that church, taking with him gifts he yearned to share for the benefit of all.

People like Joe dream of finding a spiritual home and a spiritual family with which he can share times of joy and of sorrow. He wants to belong, to bask in God's love with those around him, to love them and feel their love in return.

We were built for community, to love each other and lift up each other, helping each other through this human journey toward the paradise which awaits. We share a common beginning from God, and hope to be found worthy of a common end.

All we have and all we are is from God. We are called to be grateful and express that gratitude. We lift hearts and minds and voices to Him. That's why we go to church.

To the People of Kentucky The Honorable Andy Beshear, Governor Holly M. Johnson, Secretary Finance and Administration Cabinet The Honorable Larry Curling, Caldwell County Judge/Executive The Honorable Stan Hudson, Caldwell County Sheriff Members of the Caldwell County Fiscal Court

Independent Auditor's Report

Report on the Financial Statement We have audited the Caldwell County Sheriff's Settlement - 2019 Taxes for the period April 16, 2019 through May 15, 2020 - Regulatory Basis, and the related notes to the financial statement.

Management's Responsibility for the Financial Statement. Management's responsibile for the preparation and fair presentation of the financial statement in accordance with accounting practices prescribed or permitted by the laws of Kentucky to demonstrate compliance with the Commonwealth of Kentucky's regulatory basis of accounting as described in Note 1. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or

relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or error. **Auditor's Responsibility** Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Audit Guide for Sheriff's Tax Settlements*, issued by the Auditor of Public Accounts, Commonwealth of Kentucky. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessments of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement. **Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles** As described in Note 1 of the financial statement, the financial statement is prepared by the Caldwell County Sheriff on the basis of accounting practices prescribed or permitted by the laws of Kentucky to demonstr

regulatory basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statement of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material. Adverse Opinion on U.S. Generally Accepted Accounting Principles In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles principles generally accepted in the United States of America, the taxes charged, credited, and paid of the Caldwell County Sheriff, for the period April 16, 2019 through May 15, 2020. Opinion on Regulatory Basis of Accounting In our opinion, the financial statement referred to above presents fairly, in all material respects, the taxes charged, credited, and paid for the period April 16, 2019 through May 15, 2020 of the Caldwell County Sheriff, in accordance with the basis of accounting practices prescribed or permitted by the Commonwealth of Kentucky as described in Note 1. **Other Reporting Required by** *Government Auditing Standards*. In accordance with *Government Auditing Standards*, we have also issued our report dated March 9, 2021, on our consideration of the Caldwell County Sheriff's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Caldwell County Sheriff's internal control over financial

April is National Donate Life Month, a time for all Americans to celebrate the generosity of those who have saved lives by becoming organ, eye, tissue, marrow, and blood donors and to encourage more Americans to follow their example. We also honor the families and friends of donors who have supported their loved one's decision to donate, as well as the caring and committed professionals who serve transplantation the community.

Despite the extraordinary challenges of the COVID-19 pandemic, 2020 saw organ transplants from deceased high. There are more than 107,000 people currently on the national transplant waiting list, and another person is added every nine minutes. Sadly, the waiting list currently contains more than 1,900 children under the age of 18 who are awaiting a life-saving organ transplant. While very small children most often must receive donations from other young children due to size constraints, older children and adults can often match. In many cases, that means generous American adults can contribute to our goal of ending the pediatric transplant waiting list.

ple in America die while waiting for a transplant. Yet, all of us have the power to help: one donor can save up to eight lives through organ donation, and can improve another 75 lives through eye and tissue donation. If you have not signed up as an organ donor, we need your help to fill the gap between the availability of organs and people who need them. Americans are encouraged to give hope to those awaiting a match by visiting organdonor. gov for organ, eye, and tissue.

Blessed is the influence of one true loving

Why should I listen to what Solomon (Ecclesaistes) has to say? Chapter 12 of his book is a creedal statement. You need to read it, especially as a call to young people to think of God and their duty to him when and if they are young. Youth are to call to mind through all the days of being young and never forget him. Guard against the temptations of youth and thus improve the advantages of it.

The little red head that I have been living with for 65 years has got a Bible and this one is several years old. It is held together with duct tape. It looks like it has been dragged behind a truck, because it is so worn. She has written so many thoughts I have spoken from the pulpit and others. There is tea stain, coffee stain, and tear stain on it. It has read the ink off its pages. Also, I believe when she leaves this world to be with the Lord the children will draw straws for her Bible. It is the essence of who she is. I see her reading it every morning on the couch for her devotional time and taking notes.

When stopped by an airport security guard, a gentleman was asked what do you have in the briefcase? He replied, "I have a measuring rod, a hammer, bread, water, crystal ball, compass, mirror, sword and my birth certificate." When he opened..... there it was - God's Holy Word.

The purpose of the OT was to show the need for a Savour. He is the Son of God and came to die on the Cross. People placing their faith in Him could have Eternal Life.

The Gospels - the first books of the NT - explain who He was. Book of Acts shows you the power of His message. The epistles - Romans, 1 and 2 Corinthians, Galatians, Ephesians, Philippians, Colossians, and all the way through Jude - explain exactly what He did and how we should live. The Book of Revelation tells us that He's coming back.

Solomon's conclusion gets to the heart of the matter.

In a crazy, uncertain life, there has to be a source of wisdom that does not change and is never wrong. God has given us that wisdom in His Word. It is our task to love it, learn it, and live it. If we do, we will find the joy that our souls have always longed for.

Look forward to next week and let us study the reasons why Christianity and church membership is increasing lower

### **HSIP** Project **Beginning in Union County**

The Kentucky Transportation Cabinet (KYTC) District 2 Office notifies motorists of upcoming improvements for KY 130 in Union County.

The stretch of KY 130 between Morganfield (mile point 9.584) and Uniontown (15.657) will receive adjustments along the corridor in an effort to address culvert replacements, drainage issues, and super elevation corrections in various curves. The highway will be resurfaced upon completion of the improvements.

The work is scheduled to be finished in August.

The improvements are made possible through the Kentucky Highway Safety Improvement Program. The HSIP program is a Federal-aid program with the purpose of reducing fatalities and serious injuries on public roads.

THIS WAS THE scene near the Shawneetown Bridge last Thursday where an Illinois man was arrested after a pursuit by both Illinois and Kentucky law enforcement officers.

### **Pursuit Leads To Arrest**

An Elizabethtown, Illinois man was arrested Thursday, April 22, after he tried to avoid both Illinois and Kentucky law enforcement on KY 56.

According to Union County Sheriff's Deputy Jason Thomas' report, UCSO and Sturgis PD responded to the Shawneetown Bridge on KY 56 stop a vehicle in a pursuit that initiated in Southern Illinois.

Officers were in pursuit of a 2002 Honda

the vehicle and jumped cers charged Pennell into the backseat of his car, prompting officers on the scene to knock out the driver's window and deploy a taser at the subject. The first taser was ineffective; however, additional taser deployments incapacitated Pennell so that he could be removed from the vehicle and placed in handcuffs.

a state level audit and were approved for a reimbursement by the state. Morris will distribute \$8142 to one tax payer and will make \$23,011 in refunds to other taxpayers. In total the district will refund \$31,154.

The local district will also send an invoice for \$23,866.92 to the county for transporting private school students. That number is down due to the remote and virtual instruction used during the pandemic.

Board members also heard a presentation related to "Teaching and Learning During the Pandemic" by Michelle Hall. The research project was part of Hall's requirements for her superintendent certification. Hall told the board what they can expect to happen with the graduation rate, learning loss and the social and emotional impact of students learning from home over the past year. She also reported on ways the district will help offset issues students face during the pandemic. IN part the local district will use ESSER funding to provide meals for children, protective gear, professional development for teachers and enrichment activities to help students rebuild their learning skills. Union County has received \$1.7 million dollars to use over the next three years to help with

learning intervention, extra learning sessions and other opportunities for students. This summer the district will offer two separate session of enrichment activities to help rebuild social and academic skills of students. According to Hall's report, the most significant academic losses for students occur in the area of mathematics. Locally, teachers will focus not just on remediation but on providing challenging work for students as well.

Following Hall's presentation, the board turned to a brief discussion concerning SB 128-the redo bill that will allow students to repeat last year's curriculum. Legislators left it up to local districts to determine if students will be allowed to repeat a year; however, it is an "all of no one" bill. When the board reviews the application for a student to repeat a grade, they must approve all applications or none of them. County education leaders urge parents and students to log on to the district website and review all the material related to repeating a grade so they know both the positives and negatives of their decision to make application. Application for "re-do" are due this week with the board making a decision in May whether or not they will approve the applications.

Accord that had reportedly endangered a nearby school in the southern Illinois area.

Union County Sheriff Mickey Arnold and a deputy deployed spike strips at the Shawneetown Bridge, bottling up traffic on the bridge as the driver of the pursued vehicle began driving more eratically, prompting Arnold to advance forward and block the eastbound lane. As Arnold moved his vehicle, the driver of the Honda revved his engine and rammed the sheriff's vehicle headon, a move that ended the pursuit.

The driver of the vehicle, 38-year old Chad D. Pennell refused to follow commands to exit
