Big Sandy Rural Electric Cooperative Corporation Case No. 2021-00104 Commission Staff's Request for Information Issued September 10, 2021

- 1. Refer to Big Sandy RECC's July 30, 2021 filing of Revised Exhibits of the proposed rates for the pass-through of East Kentucky Power Cooperative, Inc.'s (EKPC) wholesale rate adjustment, Staff 1-5-Big-Sandy-Settle-v1.xlsx, Summary Tab. Also refer to Case No. 2021000103, EKPC's Responses to Staff's Post-Hearing Requests dated August 18, 2021, Item 10, PH_DR Response 10 Settle Rate Design CONFIDENTIAL.xlsx, Summary by Rate by Member Tab.
 - a. Reconcile the total increase allocated to Big Sandy RECC by EKPC, and the total increase Big Sandy RECC applied in the billing analysis.
 - b. Provide supporting analysis for this difference in Excel spreadsheet format with all formulas, columns, and rows unprotected and accessible.

Response:

- a. Please see attached. The EKPC exhibit was compiled by wholesale rate class, not by member system, while the distribution cooperative pass-through exhibits were prepared by member system. In the attachment, the first two pages show both, with the rate class data in columns and the member system data in rows, and a reconciliation of each at the bottom. The last four pages replicate the EKPC exhibit, but with a table added at the end to show the totals, along with a comparison to the member system data used in the pass-through exhibits. The negligible differences between the values in the EKPC settlement exhibit and the distribution cooperative pass-through exhibit are due to rounding and calculation of the FAC and environmental surcharge. The pass-through amounts are less than the EKPC amount by \$31,791 out of \$38,343,000 or 0.083%.
- b. This response is being provided in Excel format and is uploaded separately.

EKPC Member Settlement Data By Rate Class & By Member

Notes: Differences between calculated revenues and totals from Settlement Exhibit 3 are due to rounding and calculation of FAC and surcharge. Rate E reflects E2 option and includes proposed changes in meter point and substation charges; Salt River Rate E includes generator credit. TGP doesn't change due to the contract.
