**DELTA NATURAL GAS COMPANY, INC.’S NOTICE OF FILING**

---

On February 25, 2026, the Commission issued an order granting in part and denying in part Delta Natural Gas Company, Inc.’s (“Delta”) Petition for Confidential Protection filed September 8, 2021. Ordering paragraph 5 states: “Delta’s response to Attorney General’s Supplemental Request Item Nos. 22 and 45(a), to the extent they contain non-executive payroll and employment information, shall not be placed in the public record or made available for public inspection for an indefinite period or until further order of this commission.” Ordering paragraph 6 states “Delta’s September 8, 2021 petition for confidential treatment regarding its response to Attorney General’s Supplemental Request Item Nos. 22 and 45(a), to the extent they contain executive compensation, is denied.” Ordering paragraph 13 requires Delta to file a revised version of the material denied confidential protection reflecting as unredacted the material denied confidential treatment.

Pursuant to that order, Delta hereby files a public version of its attachment to AG 2-45(a) with the non-executive payroll and employment information redacted and the executive compensation information provided publicly. Regarding Delta’s response to AG 2-22, the information for which Delta previously requested confidential protection contains only non-executive compensation information. Accordingly, pursuant to ordering paragraph 5 of the

Commission's February 25, 2026 Order, Delta is not providing a revised version of its response to AG 2-22.

Delta does not object to the Commission's determination in this proceeding but reserves all rights to seek confidential protection in subsequent proceedings.

Calculation Assumptions:

TCC = Current Base Salary as of 8/2021 X STI percentage = TCC. Achievement Award eligible employees have blanks in the STI column. We assume the 2.5% budgeted amount for calculation purposes but this is a completely discretionary program.

TDC = Current Base Salary as of 8/2021 X STI percentage X LTI percentage.
