Re: Case No. 2021-00206

Dear Ms. Bridwell

Pursuant to the Commission's Order of July 8, 2021 in the above-referenced matter, enclosed for filing is Morgan County Water District's letter and invoice. This letter and the enclosed invoice are true and accurate copies in paper medium of the electronic version of the documents uploaded to the Public Service Commission's Electronic Filing System this day.

Summary of work: We replaced 270 feet 8-inch main water line with a Poly. Added an 8-inch Gate Valve. This was a section of line on HWY 772 and Greasy Creek Road that was leaking under the road and running into the creek. We completed a direction bore with Poly pipe 10 to 12 feet under the road and creek. We estimate that this was leaking around 20,000 gallons of water per day.

In accordance with 807 KAR 5:001, Section 8, I certify that Morgan County Water District's January 20, 2023 electronic filing of this Report is a true and accurate copy of the same document being filed in paper medium; that the electronic filing was transmitted to the Commission on January 20, 2023 by electronic means in this proceeding.

Sincerely,

A handwritten signature in blue ink that reads "Shannon W. Elam".

Shannon W. Elam  
General Manager
