WHICH WILL RESULT IN INCREASED CHARGES**

Notice is hereby given that Atmos Energy Corporation ("Atmos Energy" or "Company"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on or about the 30th day of June, 2021 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky respecting tariffs filed its notice with the Kentucky Public Service Commission ("KPSC"), proposing to change its gas rates effective July 30, 2021 in Case No. 2021-00214. Atmos Energy is also proposing to make the following changes to its existing tariffs:

- The revision of the Rate Book Index on Sheet Nos. 1 and 2 to reflect the changes described below. There is no revenue impact associated with this change.
- The removal of the word "experimental" from the Company's PBR mechanism from Sheet Nos. 2 and 18. There is no revenue impact associated with this change.
- The removal of parking service and references to parking service from the Company's Tariff on Sheet Nos. 47, 48, 54, 55, and 60. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4.
- The replacement of the Natural Gas Weekly pricing index with the use of the highest and lowest Gas Daily weekly average pricing index for imbalance pricing calculations on Sheets Nos. 48 and 55. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4.

The Tariff will be set at zero until the effective date of a new Federal and/or state income tax rate and approval by the Commission of a TAAF rate. This tariff modification would be applicable under the Company's Rate Schedules G-1, G-2, T-3 and T-4. NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is hereby given that Atmos Energy Corporation ("Atmos Energy" or "Company"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on or about the 30th day of June, 2021 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky respecting tariffs filed its notice with the Kentucky Public Service Commission ("KPSC"), proposing to change its gas rates effective July 30, 2021 in Case No. 2021-00214. Atmos Energy is also proposing to make the following changes to its existing tariffs:

- The revision of the Rate Book Index on Sheet Nos. 1 and 2 to reflect the changes described below. There is no revenue impact associated with this change.
- The removal of the word "experimental" from the Company's PBR mechanism from Sheet Nos. 2 and 18. There is no revenue impact associated with this change.
- The removal of parking service and references to parking service from the Company's Tariff on Sheet Nos. 47, 48, 54, 55, and 60. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4.
- The replacement of the Natural Gas Weekly pricing index with the use of the highest and lowest Gas Daily weekly average pricing index for imbalance pricing calculations on Sheets Nos. 48 and 55. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4.
- The following changes on Sheet No. 87 to the Priorities of Curtailment: (1) Combine all Commercial service under Rate G-1 into Priority Level 2; (2) Combine Industrial service under Rate G-1 and Rate T-4 Service to new Priority Level 3; (3) Combine service under Rate G-2 Service and Rate T-3 Service to new Priority Level 4; and (4) Make Flex Sales Transactions new Priority Level 5.
- Create the ability to issue Operational Flow Orders to transportation customers on Sheet Nos. 88A and 88B. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4 and would require actions by Customers to alleviate conditions that, in the sole judgment of Company, jeopardize the operational integrity of Company's system.
- Modification of the Company's Pipeline Replacement Program (PRP) tariff to permit inclusion of Aldyl-A pipe on Sheet No. 38. This tariff modification would amend the PRP applicable under the Company's Rate Schedules G-1, G-2, T-3, and T-4.
- Proposal of the Tax Act Adjustment Factor ("TAAF") on Sheet No. 42 to be utilized to implement the effects of future changes of the Federal and/or state income tax rates on the most recently approved base rates, which could be a collection from customers or a pass back to customers. The Tariff will be set at zero until the effective date of a new Federal and/or state income tax rate and approval by the Commission of a TAAF rate. This tariff modification would be applicable under the Company's Rate Schedules G-1, G-2, T-3 and T-4. Any future adjustments to the TAAF rate would require Kentucky Public Service Commission approval.

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is hereby given that Atmos Energy Corporation ("Atmos Energy" or "Company"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on or about the 30th day of June, 2021 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky respecting tariffs filed its notice with the Kentucky Public Service Commission ("KPSC"), proposing to change its gas rates effective July 30, 2021 in Case No. 2021-00214. Atmos Energy is also proposing to make the following changes to its existing tariffs:

- The revision of the Rate Book Index on Sheet Nos. 1 and 2 to reflect the changes described below. There is no revenue impact associated with this change.
- The removal of the word "experimental" from the Company's PBR mechanism from Sheet Nos. 2 and 18. There is no revenue impact associated with this change.
- The removal of parking service and references to parking service from the Company's Tariff on Sheet Nos. 47, 48, 54, 55, and 60. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4.
- The replacement of the Natural Gas Weekly pricing index with the use of the highest and lowest Gas Daily weekly average pricing index for imbalance pricing calculations on Sheets Nos. 48 and 55. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4.
- The following changes on Sheet No. 87 to the Priorities of Curtailment: (1) Combine all Commercial service under Rate G-1 into Priority Level 2; (2) Combine Industrial service under Rate G-1 and Rate T-4 Service to new Priority Level 3; (3) Combine service under Rate G-2 Service and Rate T-3 Service to new Priority Level 4; and (4) Make Flex Sales Transactions new Priority Level 5.
- Create the ability to issue Operational Flow Orders to transportation customers on Sheet Nos. 88A and 88B. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4 and would require actions by Customers to alleviate conditions that, in the sole judgment of Company, jeopardize the operational integrity of Company's system.
- Modification of the Company's Pipeline Replacement Program (PRP) tariff to permit inclusion of Aldyl-A pipe on Sheet No. 38. This tariff modification would amend the PRP applicable under the Company's Rate Schedules G-1, G-2, T-3, and T-4.
- Proposal of the Tax Act Adjustment Factor ("TAAF") on Sheet No. 42 to be utilized to implement the effects of future changes of the Federal and/or state income tax rates on the most recently approved base rates, which could be a collection from customers or a pass back to customers. The Tariff will be set at zero until the effective date of a new Federal and/or state income tax rate and approval by the Commission of a TAAF rate. This tariff modification would be applicable under the Company's Rate Schedules G-1, G-2, T-3 and T-4. Any future adjustments to the TAAF rate would require Kentucky Public Service Commission approval.

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is hereby given that Atmos Energy Corporation ("Atmos Energy" or "Company"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on or about the 30th day of June, 2021 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky respecting tariffs filed its notice with the Kentucky Public Service Commission ("KPSC"), proposing to change its gas rates effective July 30, 2021 in Case No. 2021-00214. Atmos Energy is also proposing to make the following changes to its existing tariffs:

- The revision of the Rate Book Index on Sheet Nos. 1 and 2 to reflect the changes described below. There is no revenue impact associated with this change.
- The removal of the word "experimental" from the Company's PBR mechanism from Sheet Nos. 2 and 18. There is no revenue impact associated with this change.
- The removal of parking service and references to parking service from the Company's Tariff on Sheet Nos. 47, 48, 54, 55, and 60. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4.
- The replacement of the Natural Gas Weekly pricing index with the use of the highest and lowest Gas Daily weekly average pricing index for imbalance pricing calculations on Sheets Nos. 48 and 55. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4.
- The following changes on Sheet No. 87 to the Priorities of Curtailment: (1) Combine all Commercial service under Rate G-1 into Priority Level 2; (2) Combine Industrial service under Rate G-1 and Rate T-4 Service to new Priority Level 3; (3) Combine service under Rate G-2 Service and Rate T-3 Service to new Priority Level 4; and (4) Make Flex Sales Transactions new Priority Level 5.
- Create the ability to issue Operational Flow Orders to transportation customers on Sheet Nos. 88A and 88B. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4 and would require actions by Customers to alleviate conditions that, in the sole judgment of Company, jeopardize the operational integrity of Company's system.
- Modification of the Company's Pipeline Replacement Program (PRP) tariff to permit inclusion of Aldyl-A pipe on Sheet No. 38. This tariff modification would amend the PRP applicable under the Company's Rate Schedules G-1, G-2, T-3, and T-4.
- Proposal of the Tax Act Adjustment Factor ("TAAF") on Sheet No. 42 to be utilized to implement the effects of future changes of the Federal and/or state income tax rates on the most recently approved base rates, which could be a collection from customers or a pass back to customers. The Tariff will be set at zero until the effective date of a new Federal and/or state income tax rate and approval by the Commission of a TAAF rate. This tariff modification would be applicable under the Company's Rate Schedules G-1, G-2, T-3 and T-4. NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is hereby given that Atmos Energy Corporation ("Atmos Energy" or "Company"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on or about the 30th day of June, 2021 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky respecting tariffs filed its notice with the Kentucky Public Service Commission ("KPS-C"), proposing to change its gas rates effective July 30, 2021 in Case No. 2021-00214. Atmos Energy is also proposing to make the following changes to its existing tariffs:

- The revision of the Rate Book Index on Sheet Nos. 1 and 2 to reflect the changes described below. There is no revenue impact associated with this change.
- The removal of the word "experimental" from the Company's PBR mechanism from Sheet Nos. 2 and 18. There is no revenue impact associated with this change.
- The removal of parking service and references to parking service from the Company's Tariff on Sheet Nos. 47, 48, 54, 55, and 60. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4.
- The replacement of the Natural Gas Weekly pricing index with the use of the highest and lowest Gas Daily weekly average pricing index for imbalance pricing calculations on Sheets Nos. 48 and 55. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4.
- The following changes on Sheet No. 87 to the Priorities of Curtailment: (1) Combine all Commercial service under Rate G-1 into Priority Level 2; (2) Combine Industrial service under Rate G-1 and Rate T-4 Service to new Priority Level 3; (3) Combine service under Rate G-2 Service and Rate T-3 Service to new Priority Level 4; and (4) Make Flex Sales Transactions new Priority Level 5.
- Create the ability to issue Operational Flow Orders to transportation customers on Sheet Nos. 88A and 88B. This tariff modification would affect customers under Company's Rate Schedules T-3 and T-4 and would require actions by Customers to alleviate conditions that, in the sole judgment of Company, jeopardize the operational integrity of Company's system.
- Modification of the Company's Pipeline Replacement Program (PRP) tariff to permit inclusion of Alanyl-A pipe on Sheet No. 38. This tariff modification would amend the PRP applicable under the Company's Rate Schedules G-1, G-2, T-3, and T-4.
- Proposal of the Tax Act Adjustment Factor ("TAAF") on Sheet No. 42 to be utilized to implement the effects of future changes of the Federal and/or state income tax rates on the most recently approved base rates, which could be a collection from customers or a pass back to customers. The Tariff will be set at zero until the effective date of a new Federal and/or state income tax rate and approval by the Commission of a TAAF rate. This tariff modification would be applicable under the Company's Rate Schedules G-1, G-2, T-3 and T-4. one another to acts of love and good works. 25 And let us not neglect our meeting together, as some people do, but encourage one another, especially now that the day of his return is drawing near."

Is it reasonable for a Christian to accept verse 23 as absolute truth and reject verse 25?

We readily accept our call of God to hold tightly to the faith and we believe God is faithful and trustworthy regarding His divine promises revealed through the Bible.

But what about verse 25? Is that one important for the believers today?

Did you notice that verse 25 ends with this... "especially now that the day of his return is drawing near." Jesus told us that things were going get exceedingly difficult for believers before His return. In fact, the Bible says that many would fall away from the true faith in the last days and follow after deceiving spirits.

1 Timothy 4:1-2 (NLT) 1

"Now the Holy Spirit tells us clearly that in the last times some will turn away from the true faith; they will follow deceptive spirits and teachings that come from demons. 2 These people are hypocrites and liars, and their consciences are dead."

The Bible is clear... there is strength, encouragement, and safety inside the assembly of the Body of Christ. We need the assembly, and the assembly needs us. God is the One that puts the different parts of the Body together and each part is necessary and important for the Body to be healthy and strong against the demonic forces of this fallen world.

Some Christians feel spiritually mature, confident, and secure without being around other believers and maybe that's true. But what about our calling to help those who are less mature by encouraging and strengthening them? We are called to minister and serve each other in the Body of Christ.

1 Corinthians 12:22-27 (NLT) 22

"In fact, some parts of the body that seem weakest and least important are actually the most necessary. 23 And the parts we regard as less honorable are those we clothe with the greatest care. So we carefully protect those parts that should not be seen, 24 while the more honorable parts do not require this special care. So God has put the body together such that extra honor and care are given to those parts that have less dignity. 25 This makes for harmony among the members, so that all the members care for each other. 26 If one part suffers, all the parts suffer with it, and if one part is honored, all the parts are glad. 27 All of you together are Christ's body, and each of you is a part of it."

We read the Bible and see that Moses was only a shadow or a preview (Deuteronomy 18:15) of the Ultimate Deliverer-Jesus... that was to come and set the people free from slavery and lead them to the Promised Land called Heaven. It is interesting to me that God didn't tell Moses to send the Children of Israel out into the wilderness one by one with a map to the Promised Land. He sent them out and commanded them to stay together until they crossed over Jordan. They would certainly need each other on their wilderness journey. That advice would still hold true today.

1 Timothy 4:1-2 (NLT) 1

"Now the Holy Spirit tells us clearly that in the last times some will turn away from the true faith; they will follow deceptive spirits and teachings that come from demons. 2 These people are hypocrites and liars, and their consciences are dead."

The Bible is clear... there is strength, encouragement, and safety inside the assembly of the Body of Christ. We need the assembly, and the assembly needs us. God is the One that puts the different parts of the Body together and each part is necessary and important for the Body to be healthy and strong against the demonic forces of this fallen world.

Some Christians feel spiritually mature, confident, and secure without being around other believers and maybe that's true. But what about our calling to help those who are less mature by encouraging and strengthening them? We are called to minister and serve each other in the Body of Christ.

1 Corinthians 12:22-27 (NLT) 22

"In fact, some parts of the body that seem weakest and least important are actually the most necessary. 23 And the parts we regard as less honorable are those we clothe with the greatest care. So we carefully protect those parts that should not be seen, 24 while the more honorable parts do not require this special care. So God has put the body together such that extra honor and care are given to those parts that have less dignity. 25 This makes for harmony among the members, so that all the members care for each other. 26 If one part suffers, all the parts suffer with it, and if one part is honored, all the parts are glad. 27 All of you together are Christ's body, and each of you is a part of it."

We read the Bible and see that Moses was only a shadow or a preview (Deuteronomy 18:15) of the Ultimate Deliverer-Jesus... that was to come and set the people free from slavery and lead them to the Promised Land called Heaven. It is interesting to me that God didn't tell Moses to send the Children of Israel out into the wilderness one by one with a map to the Promised Land. He sent them out and commanded them to stay together until they crossed over Jordan. They would certainly need each other on their wilderness journey. That advice would still hold true today.
