**Re: Case No. 2021-00228**  
**Bracken County Water District**

Dear Ms. Bridwell:

Enclosed is Bracken County Water District's Application for Purchased Water Adjustment.

Bracken County Water District's bulk water loading stations are coin-operated and are capable of handling quarter coins only. Increases in the rate for these stations can only be made in increments of \$0.25 per 1,000 gallons. As a result, Bracken District proposes to decrease the rate for bulk water loading stations by \$0.25 per 1,000 gallons even though the proposed purchased water adjustment factor is \$0.16 per 1,000 gallons.

In accordance with 807 KAR 5:001, Section 8, I certify that Bracken County Water District's electronic filing of this Application is a true and accurate copy of the same document being filed in paper medium; that the electronic filing was transmitted to the Public Service Commission this day; that there are currently no parties that the Public Service Commission has excused from participation by electronic means in this proceeding; and that within 30 days following the termination of the state of emergency declared in Executive Order 2020-215, this Application in paper medium will be delivered to the Public Service Commission.

Sincerely,

Stoll Keenon Ogden PLLC
