Question No. 2

Responding Witness: Jennifer Carter

Q.2. Refer to the Application, Wage_Calculations-PSC-Filing.xlsx.

a. Provide the justification for the salary allocation percentages between the water and sewer divisions.

b. Also, refer to Adair District's Response to Staff's First Request, Item 1, 2020 Trial Balance. In the 2020 Trial Balance, Salaries and Wages-Employees and Officers total \$192,850.47. In the Wage_Calculations-PSC_Filing.xlsx, the salaries and wages for the water division is \$180,583 (CORRECTED). Reconcile the salaries and wages expense.

A.2.a. When the District first assumed ownership of the City of Columbia's water and sewer system in 2010, staff kept logs for a period of time to determine who worked on the sewer system and how much time was dedicated to the sewer. The resulting percentages for staff working in both water and sewer were determined by those logs. Those percentages are used to this day.

A.2.b.

The payroll in the trial balance includes payroll accrual. The salaries and wages in the Wage_Calculations-PSC_Filing.xlsx were from the District's Year End Wage Report which listed the total gross annual wage earned by each employee in the calendar year 2020.

Q.4. Refer to Adair District's Response to Staff's First Request, Depreciation_Schedule_-_Excel_version.xlsx.

- b. Provide justification for any assets allocated to both water and sewer divisions.**

Assets that are shared between the Water and Sewer Divisions are indicated by the letters "sp" after the Item Number or the word "divided" after the asset description and have been highlighted in the attached list. Water assets exclusively are all remaining items.

A.4.b.

The items that are divided between the water and sewer divisions are items that are not necessary for either division 100 percent of the time (for example, mower) or it makes operations easier (for example computers and billing/accounting software).
