REQUEST FOR EXTENSION OF TIME

North Mercer Water District (“North Mercer District”), hereby files its Request for an Extension of Time to file an Alternative Rate Filing without a Cost-of-Service Study.

North Mercer District requests that the Commission grant an extension of time from the required filing date of October 2022 in order to allow North Mercer District’s accountant sufficient time to complete their analysis. It appears, that our initial rate study and rate increase did not include Depreciation. Also, one of our wholesalers, “The City of Harrodsburg” has filed a new rate schedule with the PSC increasing the cost of purchased water to the North Mercer District by 10%, if the City’s increase is granted, the impact of the new wholesale rate on the North Mercer District will be approximately \$100,000.00 based on 2022 water purchased. The North Mercer District would like to include this pass thru cost along with the adjustment for Depreciation in one rate increase to our customers.

North Mercer District asks that the Commission extend the required filing date to October 30, 2023.

Respectfully Submitted:
