

Lester Bowling and RRWD former manager worked on the cost of water per 1000 gal. Due to WC Gilbert retiring, Lester Bowling (Plant superintendent) has all the documentation in the excel format that has been requested. The dollar amount that was calculated was \$4.20 per thousand gallons, an increase of \$1.95 per 1000 gal which has been approved by the board as of March 1, 2022; however due to Lester being out of state and having a death in his family we were unable to get access to the spreadsheets. Lester is now on leave due to COVID we plan to get access and submit all forms as soon as possible to PSC.
