Re: Intervention in Case No. 2021-00346

Dear Ms. Bridewell:

I would like to submit the following information, starting with a news story produced by WYMT-TV out of Hazard, KY giving this case **state** and **national** recognition. This link can be found at <https://www.wymt.com/2022/01/28/proposed-kentucky-power-project-leaves-floyd-county-man-feeling-powerless/>

This news story documents the feeling of powerlessness when one is trying to stand up for property that has been in my family since the 1800's.

As previously stated in documents on this site, it is my belief and opinion that property has been purchased prior to the hearing concerning my property. This is documented in the deed records of the purchases that have been filed at the Deed Office of the Floyd County Court Clerk showing the purchases, amount, size of the parcel, and date of purchase. Since the actual PDF of the documents is not searchable since they were photocopies, I will include relevant information as well as the deedbook and page number where the information was obtained.

Would these parcels being purchased **prior** to the final disposition of the route show a '**rubber stamping**' by the Kentucky Public Service Commission? It is apparent through the documentation that this is the case. Does this border on collusion?

These purchases were filed by AEP/Kentucky Power prior to the final disposition concerning my property

R&J Development (James Booth)

Date: **12/22/2020**

Parcel Size: 2.265 Acres

Amount: \$250,000.00

Deedbook 660 pages 535-543
