Re: Case No. 21-0810-E-PC
Appalachian Power Company and Wheeling Power Company
Petition for Commission Consent and Approval to Enter into Ownership and Operating Agreements for the Mitchell Plant

Dear Ms. Buckley:

On behalf of Appalachian Power Company and Wheeling Power Company (together, the "Companies"), and pursuant to the Commission's July 1, 2022 Order and the Companies' Motion for Extension of Deadline filed July 8, 2022 in the above-referenced matter, please find enclosed for filing the redacted public version of certain documents previously produced in discovery in this matter. As indicated in the Companies' Motion, these documents are extremely voluminous at approximately 2,600 pages. Therefore, in accordance with Commission Rule 150-1-4.1.7, the Companies are providing one hard copy of the documents and one Compact Disc containing PDF files of the documents.

Thank you for your attention to this matter. Should you have any questions regarding this correspondence, please do not hesitate to contact me.

Sincerely,

Keith D. Fisher (WV State Bar #11346)

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement. It is anticipated that Kentucky Power will be removed prospectively from this receivables financing program approximately 90 days prior to the anticipated Closing Date.

Kentucky Power is in process of completing the demolition of Unit 2 at Big Sandy, which is expected to be completed during 2021.

(ii)

The execution of new contracts, contract amendments and contract terminations requiring consent and or notice as set forth on Sections 2.4(a) and 2.4(b) of the Sellers Disclosure Letter are hereby incorporated by reference.[51]

[Kentucky Power will be withdrawn from the Grid Assurance LLC Amended and Restated Subscription Agreement dated April 2, 2019 among Grid Assurance LLC, Kentucky Power, and Kentucky TranscCo and several other Affiliates, as amended.][52]

If the Master Leases are not replaced with separate leases for Kentucky Power with respect to the vehicles and equipment leased by Kentucky Power, Kentucky Power intends to purchase currently leased personal property from the lessors thereof, including computers and vehicles, prior to the Closing so that such property will be owned by the Acquired Companies. Any such expenditures to purchase such property shall be included as capital expenditures in the calculation of the Capital Expenditures Amount. Sellers intend to cause the transfer of, the lease by or to otherwise provide the benefit to certain assets covered under the Master Leases to Wheeling Power Company in connection with the change in the operator of Mitchell from Kentucky Power to Wheeling Power Company.[53]

[49] **Note to AEP**: Schedule subject to further review and discussion, including to provide for better guidance and parameters on what is contemplated for several of these items.
[50] **Note to AEP**: To be discussed.
[51] **Note to AEP**: New contracts/amendments/terminations should be subject to Purchaser's review and consent.
[52] **Note to AEP**: To be discussed.
[53] **Note to AEP:** As proposed in the purchase agreement, please provide the expected amount of such a purchase.

Section 4.17[62]
Business Separation Matters

The Business Separation Plan to be developed during the Interim Period shall address the following:

- Reconfigure the AEP telecom network to exclude Kentucky Power. As a part of the overall telecom project and to ensure sufficient ongoing radio network coverage, installation by Kentucky Power at or prior to Closing of certain equipment and facilities on radio towers and the execution at or prior to Closing of a lease between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of such towers in order to maintain radio network coverage for AEP's Affiliates[63]

- Establish the installation of meters and cumulative usage data aggregation and profiling processes on un-metered intra-company distribution lines across KY, WV and VA in order to calculate separate jurisdictional/system load of Kentucky Power and AEP Affiliates

- Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

- [~~Sellers are analyzing if any~~Any real property, permits or leases used in the business of the Acquired Companies ~~is~~ held in the name of either of the Franklin real property companies or other AEP affiliates including AESP. If any is found, rights to such real property, permits or leases will be transferred to the applicable Acquired Company via title, assignment, lease, easement or other applicable land interest, as appropriate, prior to the Closing]

- [redacted]

- Such other items identified prior to closing reasonably necessary to operate the Acquired Companies, including the addition of any services to Exhibit A of the Transition Services Agreement.

[62] **Note to AEP:** Parties to discuss and confirm in the context of transition planning.
[63] **Note to AEP:** Please provide additional details on the cost anticipated to be associated with the lease.

Conduct of Business[49][38]

(i)

[Kentucky Power intends to sell certain parcels of vacant real property known as "Carrs" which was purchased as a potential site for a power plant that was not pursued. Kentucky Power removed the property from its rate base several years ago and has periodically marketed the property for sale since that time.][50][39]

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement. It is anticipated that Kentucky Power will be removed prospectively from this receivables financing program approximately 90 days prior to the anticipated Closing Date.

Kentucky Power is in process of completing the demolition of Unit 2 at Big Sandy, which is expected to be completed during 2021.

(ii)

The execution of new contracts, contract amendments and contract terminations requiring consent and or notice as set forth on Sections 2.4(a) and 2.4(b) of the Sellers Disclosure Letter are hereby incorporated by reference.[51][40]

[Kentucky Power will be withdrawn from the Grid Assurance LLC Amended and Restated Subscription Agreement dated April 2, 2019 among Grid Assurance LLC, Kentucky Power, and Kentucky TranscCo and several other Affiliates, as amended.][52][41]

If the Master Leases are not replaced with separate leases for Kentucky Power with respect to the vehicles and equipment leased by Kentucky Power, Kentucky Power intends to purchase currently leased personal property from the lessors thereof, including computers and vehicles, prior to the Closing so that such property will be owned by the Acquired Companies. Any such expenditures to purchase such property shall be included as capital expenditures in the calculation of the Capital Expenditures Amount. Sellers intend to cause the transfer of, the lease by or to otherwise provide the benefit to certain assets covered under the Master Leases to Wheeling Power Company in connection with the change in the operator of Mitchell from Kentucky Power to Wheeling Power Company.[53][42]

[49][38] **Note to AEP**: Schedule subject to further review and discussion, including to provide for better guidance and parameters on what is contemplated for several of these items.

Section 4.17[62][51]
Business Separation Matters

The Business Separation Plan to be developed during the Interim Period shall address the following:

- Reconfigure the AEP telecom network to exclude Kentucky Power. As a part of the overall telecom project and to ensure sufficient ongoing radio network coverage, installation by Kentucky Power at or prior to Closing of certain equipment and facilities on radio towers and the execution at or prior to Closing of a lease between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of such towers in order to maintain radio network coverage for AEP's Affiliates[63][52]

- Establish the installation of meters and cumulative usage data aggregation and profiling processes on un-metered intra-company distribution lines across KY, WV and VA in order to calculate separate jurisdictional/system load of Kentucky Power and AEP Affiliates

- Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

- [Any real property, permits or leases used in the business of the Acquired Companies held in the name of either of the Franklin real property companies or other AEP affiliates including AESP. If any is found, rights to such real property, permits or leases will be transferred to the applicable Acquired Company via title, assignment, lease, easement or other applicable land interest, as appropriate, prior to the Closing]

- [redacted]

- Such other items identified prior to closing reasonably necessary to operate the Acquired Companies, including the addition of any services to Exhibit A of the Transition Services Agreement.

[62][51] **Note to AEP:** Parties to discuss and confirm in the context of transition planning.
[63][52] **Note to AEP:** Please provide additional details on the cost anticipated to be associated with the lease.

Section 2.4(b)
Consents and Approvals; No Violations
(Contractual)[87]

- Kentucky Power anticipates notifying Consolidation Coal Company of the transactions contemplated by the Agreement in respect of the Conner Run Impoundment Transition and Joint Use Operating Agreement by and between Kentucky Power Company and Consolidation Coal Company, dated as of July 2, 2015[98]

- The transactions contemplated by the Agreement require a waiver or consent to avoid an event of default that will be triggered by the contemplated change of control under:

    - Bond Purchase and Continuing Covenants Agreement dated June 1, 2017 between Kentucky Power and Key Government Finance, Inc.
    - Amended and Restated Credit Agreement dated October 26, 2018 among Kentucky Power, the lenders party thereto and Fifth Third Bank.
    - Credit Agreement dated March 6, 2020 among Kentucky Power, the lenders party thereto, and Key Bank National Association
    - Credit Agreement dated June 17, 2021 among Kentucky Power, the lenders party thereto and Canadian Imperial Bank of Commerce, New York Branch
    - [Any new debt arrangements entered into as described in ~~section (v) of~~ Section 4.1(a)(v) of the Sellers Disclosure Letter][109]

- Notice of the transactions contemplated by the Agreement and application to S&P Global's Ratings Services or Moody's Investors Service, Inc., as applicable, for a rating review of the Senior KPCo Notes is required under the Senior Note Purchase Agreements dated as of July 10, 2014 and September 12, 2017, respectively. In the event of a Change in Control Prepayment Event (as defined thereunder), Kentucky Power must offer to prepay all of the Senior KPCo Notes held by the holders thereof pursuant to the terms and conditions in the Senior Note Purchase Agreements

- A creditworthiness review of Kentucky Power by Columbia Gas Transmission, LLC may be triggered as a result of the transactions contemplated by the Agreement pursuant to the FTS Service Agreement No. 173522 dated May 31, 2016 between Kentucky Power and Columbia Gas Transmission, LLC which is subject to the General Terms and Conditions of the Kentucky Power FERC Gas Tariff of Columbia Gas Transmission, LLC

[87] **Note to AEP**: To discuss impact on the Business of not obtaining these approvals.
[98] **Note to AEP**: To discuss whether failure to provide such notice would result in a breach of the agreement. Note to Purchaser: Signing of Transaction will be publicly announced so providing this notice should be inconsequential.
[109] **Note to AEP**: To discuss/confirm. Is this just intended to refer to interim bridge financing under the Utility Money Pool? Note to Purchaser: No, it is intended to cover each of the items set forth in Section 4.1(a)(v) – It is possible that all of the activity is achieved through the Money Pool, but it is also possible that a third party arrangement may be used.

- Notice and/or consent will be required to withdraw Kentucky Power from the Master Lease Agreements and to transfer, lease or provide the benefit of certain assets thereunder from Kentucky Power to Wheeling Power Company in connection with the change in the operator of Mitchell from Kentucky Power to Wheeling Power Company

- Consent to assignment will be required from counterparties under the following agreements in order to effect an assignment of certain contracts from Kentucky Power to Wheeling Power Company in connection with the change in the operator of Mitchell from Kentucky Power to Wheeling Power Company:

  - [redacted]

- Consent of the counterparty to Kentucky Power's Tower Lease Agreement dated March 29, 2006 for the Mouthcard TS radio tower is needed to allow the installation of certain equipment (including a P25 receiver, transport equipment, a cienna box, router, Bogner and related equipment) on the Mouthcard TS in order to maintain P25 radio network coverage for AEP's Affiliates

~~11~~10 **Note to AEP**: Discuss.

Business Separation Matters

The Business Separation Plan to be developed during the Interim Period shall address the following:

- Reconfigure the AEP telecom network to exclude Kentucky Power. As a part of the overall telecom project and to ensure sufficient ongoing radio network coverage, installation by Kentucky Power at or prior to Closing of certain equipment and facilities on radio towers and the execution at or prior to Closing of a perpetual rent free lease between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of such towers in order to maintain radio network coverage for AEP's Affiliates~~52~~.

- Establish the installation of meters and cumulative usage data aggregation and profiling processes on un-metered intra-company distribution lines across KY, WV and VA in order to calculate separate jurisdictional/system load of Kentucky Power and AEP Affiliates

- Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

- The real property held by Franklin Real Estate Company as set forth on Section 2.7 of the Sellers Disclosure Letter will be transferred to Kentucky Power by deed prior to the Closing.

- ~~[~~Any real property, permits or leases used exclusively in the business of the Acquired Companies held in the name of ~~either of the Franklin real property companies or~~ other AEP affiliates including ~~AESP~~AEPSC. If any is found, rights to such real property, permits or leases will be transferred to the applicable Acquired Company via title, assignment, lease, easement or other applicable land interest, as appropriate, prior to the Closing~~]~~.

Conduct of Business[23]

(i)

Pursuant to [*specify contracts*], Kentucky Power intends to sell certain parcels of vacant real property known as "Carrs," which were purchased as a potential site for a power plant that was not pursued. Kentucky Power removed the property from its rate base several years ago and has periodically marketed the property for sale since that time. Kentucky Power has entered contracts for the sale of two parcels.[24][23][25]

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement. It is anticipated that Kentucky Power will be removed prospectively from this receivables financing program approximately 90 days prior to the anticipated Closing Date.

None.

(iii) The execution of new contracts, contract amendments and contract terminations requiring consent and or notice as set forth on Sections 2.4(a) and 2.4(b) of the Sellers Disclosure Letter.[26]

Kentucky Power will be withdrawn from the Grid Assurance LLC Amended and Restated Subscription Agreement dated April 2, 2019 among Grid Assurance LLC, Kentucky Power, and Kentucky TransCo and several other Affiliates, as amended. Kentucky Power participated in the Grid Assurance program in accordance with an Order entered on November 15, 2018 in Case No. 2018-00287 by the KPSC.[27]

If the Master Leases are not modified so as to allow for separate leases for Kentucky Power with respect to the vehicles and equipment leased by Kentucky Power, Kentucky Power intends to purchase currently leased personal property from the lessors thereof, including computers and vehicles, prior to the Closing so that such property will be owned by the Acquired Companies at a purchase price not to exceed [redacted] in the aggregate. Any such expenditures to purchase such property shall be included as capital expenditures in the calculation of the Capital Expenditures Amount.[][24] With respect to the vehicles and other personal property leased by Kentucky Power in connection with its

Kentucky Power is preparing to submit an application to the KPSC requesting a certificate of Public Convenience and Necessity in the 4th quarter of 2021 with a proposed timeline for the deployment of Advanced Metering Infrastructure from 2023 through 2026. After receipt of the Certificate of Public Convenience and Necessity, Kentucky Power will begin to execute contracts in connection therewith due to long lead times on ordering AMI meters. The filing of the Certificate of Public Convenience and Necessity

~~[28] Note to Draft: An update will be provided at a later stage of the process.~~

will be made only after determining any compatibility issues with Purchaser's metering system.

Kentucky Power is in the process of developing a 20 MW solar project for which it has secured land control via a lease option agreement, as well as submitted a 100 MW GIA request to PJM. Kentucky Power will conduct geotechnical studies, environmental studies, and minor survey work. It is expected that the GIA/PJM study process will take multiple years before Kentucky Power would initiate an RFP process.

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement, as described under subsection (i) of this Section 4.1(a) of the Sellers Disclosure Letter.[29]

Kentucky Power may amend any Intercompany Arrangement that will be terminated with respect to the Acquired Companies on or prior to the Closing in accordance with Section 4.8 of the Agreement, provided that such amendment does not increase the obligations or liability of an Acquired Company or discharge any accrued obligations owed by the Seller Entities in favor of the Acquired Companies.

The domain names set forth on Section 2.9 of the Sellers Disclosure Letter will be transferred from an account that is currently owned by or held in the name of AEPSC to an account in the name of Kentucky Power on or prior to Closing.

Kentucky Power intends to make expenditures and take actions reasonably necessary to comply with the CCR (Coal Combustion Residuals) requirements. Bottom ash pond closure work necessary to comply with CCR requirements began in September 2021 and will be complete in November 2023. If Wheeling Power Company does not move forward with ELG, then construction of a new CCR compliant ash pond would be scheduled to begin in April 2022.[30][25]

Kentucky Power intends to make elections to bid into any PJM capacity auctions occurring prior to Closing in conjunction with the Bridge PCA.

Kentucky TransCo may refinance its existing long term debt owed to Affiliates in the amount of approximately $65 million ~~with a comparable amount of short and/or long term debt issued to unaffiliated third parties or~~ by replacing or refinancing such debt with funds provided under the Utility Money Pool Agreement.

The Credit Agreement, by and among Kentucky Power, the lenders party thereto and Key Bank National Association, dated as of March 6, 2020, will terminate on March 6, 2022 (if not earlier). If the Closing has not occurred prior to the maturity or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power may ~~issue new unrelated third party debt on market terms or~~ draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

The Amended and Restated Credit Agreement, by and among Kentucky Power, the lenders party thereto, and Fifth Third Bank, dated as of October 26, 2018 will terminate on October 26, 2022 (if not earlier). If the Closing has not occurred by such time or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power may ~~issue new unrelated third party debt on market terms or~~ draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

In the event of a Change in Control Prepayment Event (as defined in the Senior Note Purchase Agreement), Kentucky Power must offer to prepay all of the Senior KPCo Notes held by the holders thereof pursuant to the terms and conditions in the applicable Senior Note Purchase Agreements.

Section 4.17[34]
Business Separation Matters

The Business Separation Plan to be developed during the Interim Period shall address the following:

- Reconfigure the AEP telecom network to exclude Kentucky Power. As a part of the overall telecom project and to ensure sufficient ongoing radio network coverage, installation by Kentucky Power at or prior to Closing of certain equipment and facilities on radio towers and the execution at or prior to Closing of a perpetual rent free lease between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of such towers in order to maintain radio network coverage for AEP's Affiliates.

- Establish the installation of meters and cumulative usage data aggregation and profiling processes on un-metered intra-company distribution lines across KY, WV and VA in order to calculate separate jurisdictional/system load of Kentucky Power and AEP Affiliates

- Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

- The real property held by Franklin Real Estate Company as set forth on Section 2.7 of the Sellers Disclosure Letter will be transferred to Kentucky Power by deed prior to the Closing.

- Any real property, permits or leases used exclusively in the business of the Acquired Companies held in the name of other AEP affiliates including AEPSC. If any is found, rights to such real property, permits or leases will be transferred to the applicable Acquired Company via title, assignment, lease, easement or other applicable land interest, as appropriate, prior to the Closing.

- [redacted]

Approximately 40 surface acres and 100,000 acres of coal mineral rights in multiple parcels scattered across multiple counties of southwestern Indiana are deeded in multiple deeds to Indiana Franklin Realty, Inc. and are held on the books as undivided interests by Indiana Michigan Power Company ($4.7 million) and Kentucky Power ($1.1 million), and known as the "Posey Coal Fields". The property is not currently economically viable to mine and we do not anticipate this property having an economic benefit to either Indiana Michigan Power Company or Kentucky Power in the near future. The plan for the property is to leave the ownership as it is through Closing and address it in the future if conditions change or a sale becomes possible with Kentucky Power retaining its undivided interest.

Sellers Benefit Plans – Triggering Events Caused by the Agreement

(i) Certain senior management members of Kentucky Power or Kentucky TransCo, a complete list of which has been provided to Purchaser prior to the Effective Date, are parties to retention agreements that may trigger a payment if they remain employed by such companies through the Closing Date~~17~~.

(ii) None

(iii) The consummation of the transaction would be considered a Triggering Event under the Performance Share Award Agreements that have been effective for at least 6 months and issued to certain Acquired Employees who remain employed by an Acquired Company after the Closing Date. Upon a Triggering Event, a prorated portion of the performance shares remain outstanding (number of whole months from the Effective Date through the Closing Date divided by 36). The prorated portion that remains outstanding will vest as of the Vesting Date and will be subjected to the applicable Overall Performance Score for that award. The value of such performance shares will become payable after the conclusion of the three-year performance and vesting period.~~18~~

Conduct of Business

(i)

~~Pursuant to [*specify contracts*],~~ Kentucky Power intends to sell certain parcels of vacant real property known as "Carrs," which were purchased as a potential site for a power plant that was not pursued with such disposition planned to be completed pursuant to the following contracts: (i) Contract for the Sale and Purchase of Real Estate dated August 6, 2021 between Kentucky Power and Brian Preston and Patrick O'Melia and (ii) Contract for the Sale and Purchase of Real Estate dated September 3, 2021 between Kentucky Power and James Meadows, Jennifer Meadows, Mathew Meadows and Jill Meadows. Kentucky Power removed the property from its rate base several years ago and has periodically marketed the property for sale since that time. [23]

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement. It is anticipated that Kentucky Power will be removed prospectively from this receivables financing program approximately 90 days prior to the anticipated Closing Date.

None.

(iii)

Kentucky Power will be withdrawn from the Grid Assurance LLC Amended and Restated Subscription Agreement dated April 2, 2019 among Grid Assurance LLC, Kentucky Power, and Kentucky TransCo and several other Affiliates, as amended. Kentucky Power participated in the Grid Assurance program in accordance with an Order entered on November 15, 2018 in Case No. 2018-00287 by the KPSC.

~~[][24] With respect to the vehicles and other personal property leased by Kentucky Power in connection with its operator role at Mitchell, Sellers intend to cause the transfer of the leases to, or to otherwise provide the benefit to those assets covered under the Master Leases, to Wheeling Power Company in connection with the change in the operator of Mitchell from Kentucky Power to Wheeling Power Company.~~

Kentucky Power is preparing to submit an application to the KPSC requesting a certificate of Public Convenience and Necessity in the 4th quarter of 2021 with a proposed timeline for the deployment of Advanced Metering Infrastructure from 2023 through 2026. After receipt of the Certificate of Public Convenience and Necessity, Kentucky Power will begin to execute contracts in connection therewith due to long lead times on ordering AMI meters. The filing of the Certificate of Public Convenience and Necessity will be made only after determining any compatibility issues with Purchaser's metering system.

Kentucky Power is in the process of developing a 20 MW solar project for which it has secured land control via a lease option agreement, as well as submitted a 100 MW GIA request to PJM. Kentucky Power will conduct geotechnical studies, environmental studies, and minor survey work. It is expected that the GIA/PJM study process will take multiple years before Kentucky Power would initiate an RFP process.

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in

accordance with Section 4.8 of the Agreement, as described under subsection (i) of this Section 4.1(a) of the Sellers Disclosure Letter.

Kentucky Power may amend any Intercompany Arrangement that will be terminated with respect to the Acquired Companies on or prior to the Closing in accordance with Section 4.8 of the Agreement, provided that such amendment does not increase the obligations or liability of an Acquired Company or discharge any accrued obligations owed by the Seller Entities in favor of the Acquired Companies.

The domain names set forth on Section 2.9 of the Sellers Disclosure Letter will be transferred from an account that is currently owned by or held in the name of AEPSC to an account in the name of Kentucky Power on or prior to Closing.

Kentucky Power intends to make expenditures and take actions reasonably necessary to comply with the CCR (Coal Combustion Residuals) requirements. Bottom ash pond closure work necessary to comply with CCR requirements began in September 2021 and will be complete in November 2023. If Wheeling Power Company does not move forward with ELG, then construction of a new CCR compliant ash pond would be scheduled to begin in April 2022.~~[25]~~

Kentucky Power intends to make elections to bid into any PJM capacity auctions occurring prior to Closing in conjunction with the Bridge PCA.

Kentucky TransCo may refinance its existing long term debt owed to Affiliates in the amount of approximately $65 million by replacing or refinancing such debt with funds provided under the Utility Money Pool Agreement.

The Credit Agreement, by and among Kentucky Power, the lenders party thereto and Key Bank National Association, dated as of March 6, 2020, will terminate on March 6, 2022 (if not earlier). If the Closing has not occurred prior to the maturity or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power may draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

The Amended and Restated Credit Agreement, by and among Kentucky Power, the lenders party thereto, and Fifth Third Bank, dated as of October 26, 2018 will terminate on October 26, 2022 (if not earlier). If the Closing has not occurred by such time or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power may draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

In the event of a Change in Control Prepayment Event (as defined in the Senior Note Purchase Agreement), Kentucky Power must offer to prepay all of the Senior KPCo Notes held by the holders thereof pursuant to the terms and conditions in the applicable Senior Note Purchase Agreements.

Section 4.8(b)
Intercompany Arrangements – Power Coordination

Bridge PCA

Kentucky Power will enter into the PCA Bridge with AEP and/or its Affiliates (all parties to the PCA Bridge other than Kentucky Power, the "AEP Parties"). The Bridge PCA will address the following issues:

- Kentucky Power's participation in the PJM Fixed Resource Requirement with the other AEP Companies and related sales of capacity from the AEP's FRR plan into the PJM Reliability Pricing Model Market. AEP FRR plan participation is anticipated to be through the 2023/2024 PJM Planning Year and the 2024/2025 PJM Planning Year if the Closing Date occurs after the FRR commitment date for that Planning Year in mid-April 2022.

- Kentucky Power remaining a transmission owner and load serving entity for its service territory in PJM and in AEP's Load Zone in PJM through January 1 of the calendar year after it is no longer a party to AEP's FRR plan.

- Kentucky Power's sharing in the costs and benefits of the coal, energy, capacity and related contracts entered into by AEP to support the AEP Parties (where that includes Kentucky Power) until those positions expire or are wound-down by AEP.

- The commitments that will be made by AEP on behalf of Kentucky Power in the normal course of business related to its participation in PJM, such as nominating and managing the Auction Revenue Rights or Financial Transmission Rights for transmission paths associated with Kentucky Power's service of its retail and wholesale customer loads.

- Establishment of stand-alone PJM accounts for Kentucky Power's PJM settlement activity and transitioning charges and credits for Kentucky Power activity from AEP to Kentucky Power.

New Power Sale Agreement

In connection with the Bridge PCA and the amount of capacity Kentucky Power will need to meet the PJM FRR election for the 2022/2023 and 2023/2024 plan years, on or prior to the Closing Date, Kentucky Power will enter into an agreement or agreements with AEP or an Affiliate to purchase from AEP or an Affiliate the amount of capacity it believes it will need to meet the amount of its FRR commitment that is in excess of its expected generation for those periods (estimates of approximately 183 MW and 170 MW, respectively).

Section 4.9
Support Obligations

- Self-Insurers' Guarantee Agreement dated June 3, 2011 made by AEP to assume and guarantee to pay or otherwise discharge promptly all the liabilities and obligations of Kentucky Power, AEPSC, AEP Kentucky Coal, LLC and AEP River Operations LLC which are provided for under the provisions of the Workers' Compensation Act of the Commonwealth of Kentucky per KRS Chapter 342

- Unconditional and Continuing Parental Guaranty In the Matter of Self-Insurance of Subsidiaries of said Guarantor dated December 15, 2008 among AEPSC, Appalachian Power Company, Ohio Power Company, Wheeling Power Company, Kentucky Power and Indiana Michigan Power Company and AEP

Section 4.12
D&O Indemnification Agreements

- Section XII of Kentucky Power's By-Laws as amended on March 20, 2008 sets forth Kentucky Power's obligations to indemnify any person who was or is made a party to a proceeding because such person is or was a director, officer or employee of Kentucky Power, as well as others as set forth in such Section XII.

- Section XII of Kentucky TransCo's By-Laws dated October 29, 2009 sets forth Kentucky TransCo's obligations to indemnify any person who was or is made a party to a proceeding because such person is or was a director, officer or employee of Kentucky TransCo, as well as others as set forth in such Section XII.

Section 4.16
Existing Debt Arrangements; Senior Notes

- Bond Purchase and Continuing Covenants Agreement dated June 1, 2017 between Kentucky Power and Key Government Finance, Inc.

- Credit Agreement dated March 6, 2020 among Kentucky Power, the lenders party thereto, and Key Bank National Association

- Amended and Restated Credit Agreement dated October 26, 2018 among Kentucky Power, the lenders party thereto, and Fifth Third Bank

- Credit Agreement dated June 17, 2021 among Kentucky Power, the lenders party thereto, and Canadian Imperial Bank of Commerce, New York Branch

- Senior Note Purchase Agreements and Senior KPCo Notes

- Utility Money Pool Agreement

- TransCo Intercompany Notes

Section 4.17
Business Separation Matters

The Business Separation Plan to be developed during the Interim Period shall address the following:

- Reconfigure the AEP telecom network to exclude Kentucky Power. As a part of the overall telecom project and to ensure sufficient ongoing radio network coverage, installation by Kentucky Power at or prior to Closing of certain equipment and facilities on radio towers and the execution at or prior to Closing of a perpetual rent free lease between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of such towers in order to maintain radio network coverage for AEP's Affiliates.

- Establish the installation of meters and cumulative usage data aggregation and profiling processes on un-metered intra-company distribution lines across KY, WV and VA in order to calculate separate jurisdictional/system load of Kentucky Power and AEP Affiliates

- Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

- The real property held by Franklin Real Estate Company as set forth on Section 2.7(c) of the Sellers Disclosure Letter will be transferred to Kentucky Power by deed prior to the Closing.

- Any real property, permits or leases used exclusively in the business of the Acquired Companies held in the name of other AEP affiliates including AEPSC. If any is found, rights to such real property, permits or leases will be transferred to the applicable Acquired Company via title, assignment, lease, easement or other applicable land interest, as appropriate, prior to the Closing.

- [redacted]

[8] **Note to Purchaser**: October 13 Presentation removed as it is duplicative of the August 23 presentation and creates unclear obligations on the parties, particularly the "Principles" and "Roadmap" slides.

Agreement between Kentucky Power – Mitchell Plant and Local 492 Utility Workers Union of America AFL-CIO

Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

2. [Approximately 40 surface acres and 100,000 acres of coal mineral rights in multiple parcels scattered across multiple counties of southwestern Indiana are deeded in multiple deeds to Indiana Franklin Realty, Inc. and are held on the books as undivided interests by Indiana Michigan Power Company ($4.7 million) and Kentucky Power ($1.1 million), and known as the "Posey Coal Fields" (the "Posey Coal Fields"). The property is not currently economically viable to mine and we do not anticipate this property having an economic benefit to either Indiana Michigan Power Company or Kentucky Power in the near future. The plan for the property is to leave the ownership as it is through Closing and address it in the future if conditions change or a sale becomes possible with Kentucky Power retaining its undivided interest.][3]

[3] **Note to AEP**: We request (i) an indemnity covering all Liabilities with respect to the Posey Coal Fields (including without limitation any Liability in respect of Taxes related thereto) and any Environmental Claims) and (ii) that all rights, title and interest, including all Liabilities of Kentucky Power, with respect to the Posey Coal Fields be transferred to AEP prior to Closing.

Kentucky Power is preparing to submit an application to the KPSC requesting a certificate of Public Convenience and Necessity in the 4th quarter of 2021 with a proposed timeline for the deployment of Advanced Metering Infrastructure from 2023 through 2026. After receipt of the Certificate of Public Convenience and Necessity, Kentucky Power will begin to execute contracts in connection therewith due to long lead times on ordering AMI meters. The filing of the Certificate of Public Convenience and Necessity will be made only after determining any compatibility issues with Purchaser's metering system.

Kentucky Power is in the process of developing a 20 MW solar project for which it has secured land control via a lease option agreement, as well as submitted a 100 MW GIA request to PJM. Kentucky Power will conduct geotechnical studies, environmental studies, and minor survey work. It is expected that the GIA/PJM study process will take multiple years before Kentucky Power would initiate an RFP process.

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement, as described under subsection (i) of this Section 4.1(a) of the Sellers Disclosure Letter.

Kentucky Power may amend any Intercompany Arrangement that will be terminated with respect to the Acquired Companies on or prior to the Closing in accordance with Section 4.8 of the Agreement, provided that such amendment does not increase the obligations or liability of an Acquired Company or discharge any accrued obligations owed by the Seller Entities in favor of the Acquired Companies.

The domain names set forth on Section 2.9 of the Sellers Disclosure Letter will be transferred from an account that is currently owned by or held in the name of AEPSC to an account in the name of Kentucky Power on or prior to Closing.

Kentucky Power intends to make expenditures and take actions reasonably necessary to comply with the CCR (Coal Combustion Residuals) requirements. Bottom ash pond closure work necessary to comply with CCR requirements began in September 2021 and will be complete in November 2023. If Wheeling Power Company does not move forward with ELG, then construction of a new CCR compliant ash pond would be scheduled to begin in April 2022.

Kentucky Power intends to make elections to bid into any PJM capacity auctions occurring prior to Closing in conjunction with the Bridge PCA.

Kentucky TransCo may refinance its existing long term debt owed to Affiliates in the amount of approximately $65 million by replacing or refinancing such debt with funds provided under the Utility Money Pool Agreement.

The Credit Agreement, by and among Kentucky Power, the lenders party thereto and Key Bank National Association, dated as of March 6, 2020, will terminate on March 6, 2022 (if not earlier). If the Closing has not occurred prior to the maturity or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power may draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

The Amended and Restated Credit Agreement, by and among Kentucky Power, the lenders party thereto, and Fifth Third Bank, dated as of October 26, 2018 will terminate on October 26, 2022 (if not earlier). If the Closing has not occurred by such time or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power

may draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

In the event of a Change in Control Prepayment Event (as defined in the Senior Note Purchase Agreement), Kentucky Power must offer to prepay all of the Senior KPCo Notes held by the holders thereof pursuant to the terms and conditions in the applicable Senior Note Purchase Agreements.

- The following Intercompany Arrangements will continue by their terms:
    - Unit Power Agreement dated August 1, 1984 between Kentucky Power and AEP Generating Company
    - Amended and Restated Cook Coal Terminal Transfer Agreement dated December 16, 2013 between Kentucky Power, AEP Generating Company, Appalachian Power Company and Indiana Michigan Power Company, and neither the Acquired Companies nor AEP and its Affiliates shall seek to terminate Kentucky Power as a party to the agreement earlier than the date on which the expiration or termination of the Unit Power Agreement is effective

Section 4.8(b)
Intercompany Arrangements – Power Coordination

Bridge PCA

Kentucky Power will enter into the PCA Bridge with AEP and/or its Affiliates (all parties to the PCA Bridge other than Kentucky Power, the "AEP Parties") on terms and conditions reasonably acceptable to Purchaser. The Bridge PCA will address the following issues:

- Kentucky Power's participation in the PJM Fixed Resource Requirement with the other AEP Companies and related sales of capacity from the AEP's FRR plan into the PJM Reliability Pricing Model Market. AEP FRR plan participation is anticipated to be through the 2023/2024 PJM Planning Year and the 2024/2025 PJM Planning Year if the Closing Date occurs after the FRR commitment date for that Planning Year in mid-April 2022.

- Kentucky Power remaining a transmission owner and load serving entity for its service territory in PJM and in AEP's Load Zone in PJM through January 1 of the calendar year after it is no longer a party to AEP's FRR plan.

- [Kentucky Power's sharing in the costs and benefits of the coal, energy, capacity and related contracts entered into by AEP to support the AEP Parties (where that includes Kentucky Power) until those positions expire or are wound-down by AEP.][10]

- The commitments that will be made by AEP on behalf of Kentucky Power in the normal course of business related to its participation in PJM, such as nominating and managing the Auction Revenue Rights or Financial Transmission Rights for transmission paths associated with Kentucky Power's service of its retail and wholesale customer loads.

- Establishment of stand-alone PJM accounts for Kentucky Power's PJM settlement activity and transitioning charges and credits for Kentucky Power activity from AEP to Kentucky Power.

New Power Sale Agreement

In connection with the Bridge PCA and the amount of capacity Kentucky Power will need to meet the PJM FRR election for the 2022/2023 and 2023/2024 plan years, on or prior to the Closing Date, Kentucky Power will enter into an agreement or agreements on terms and conditions reasonably acceptable to Purchaser, with AEP or an Affiliate to purchase from AEP or an Affiliate the amount of capacity it believes it will need to meet the amount of its FRR

[10] **Note to AEP**: To discuss. We thought we had the right to unilaterally terminate upon 12 months' advance notice. Please provide additional information on the positions and expirations.

commitment that is in excess of its expected generation for those periods (estimates of approximately 183 MW and 170 MW, respectively).

Section 4.9
Support Obligations

- Self-Insurers' Guarantee Agreement dated June 3, 2011 made by AEP to assume and guarantee to pay or otherwise discharge promptly all the liabilities and obligations of Kentucky Power, AEPSC, AEP Kentucky Coal, LLC and AEP River Operations LLC which are provided for under the provisions of the Workers' Compensation Act of the Commonwealth of Kentucky per KRS Chapter 342

- Unconditional and Continuing Parental Guaranty In the Matter of Self-Insurance of Subsidiaries of said Guarantor dated December 15, 2008 among AEPSC, Appalachian Power Company, Ohio Power Company, Wheeling Power Company, Kentucky Power and Indiana Michigan Power Company and AEP

Section 4.12
D&O Indemnification Agreements

- Section XII of Kentucky Power's By-Laws as amended on March 20, 2008 sets forth Kentucky Power's obligations to indemnify any person who was or is made a party to a proceeding because such person is or was a director, officer or employee of Kentucky Power, as well as others as set forth in such Section XII.

- Section XII of Kentucky TransCo's By-Laws dated October 29, 2009 sets forth Kentucky TransCo's obligations to indemnify any person who was or is made a party to a proceeding because such person is or was a director, officer or employee of Kentucky TransCo, as well as others as set forth in such Section XII.

Section 4.16
Existing Debt Arrangements; Senior Notes

- Bond Purchase and Continuing Covenants Agreement dated June 1, 2017 between Kentucky Power and Key Government Finance, Inc.

- Credit Agreement dated March 6, 2020 among Kentucky Power, the lenders party thereto, and Key Bank National Association

- Amended and Restated Credit Agreement dated October 26, 2018 among Kentucky Power, the lenders party thereto, and Fifth Third Bank

- Credit Agreement dated June 17, 2021 among Kentucky Power, the lenders party thereto, and Canadian Imperial Bank of Commerce, New York Branch

- Senior Note Purchase Agreements and Senior KPCo Notes

- Utility Money Pool Agreement

- TransCo Intercompany Notes

Section 4.17
Business Separation Matters

The Business Separation Plan to be developed during the Interim Period shall address the following:

- Reconfigure the AEP telecom network to exclude Kentucky Power. As a part of the overall telecom project and to ensure sufficient ongoing radio network coverage, installation by Kentucky Power at or prior to Closing of certain equipment and facilities on radio towers and the execution at or prior to Closing of a perpetual rent free lease between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of such towers in order to maintain radio network coverage for AEP's Affiliates.

- Establish the installation of meters and cumulative usage data aggregation and profiling processes on un-metered intra-company distribution lines across KY, WV and VA in order to calculate separate jurisdictional/system load of Kentucky Power and AEP Affiliates

- Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

- The real property held by Franklin Real Estate Company as set forth on Section 2.7(c) of the Sellers Disclosure Letter will be transferred to Kentucky Power by deed prior to the Closing.

- Any real property, permits or leases used exclusively in the business of the Acquired Companies held in the name of other AEP affiliates including AEPSC. If any is found, rights to such real property, permits or leases will be transferred to the applicable Acquired Company via title, assignment, lease, easement or other applicable land interest, as appropriate, prior to the Closing.

2. ~~[~~Approximately 40 surface acres and 100,000 acres of coal mineral rights in multiple parcels scattered across multiple counties of southwestern Indiana are deeded in multiple deeds to Indiana Franklin Realty, Inc. and are held on the books as undivided interests by Indiana Michigan Power Company (≃$4.7 million) and Kentucky Power (≃$1.1 million), and known as the ~~"~~Posey Coal Fields~~"~~ (the "Posey Coal Fields"). The property is not currently economically viable to mine and we do not anticipate this property having an economic benefit to either Indiana Michigan Power Company or Kentucky Power in the near future. The ~~plan for the property is to leave the ownership as it is through~~Posey Coal Fields will be removed from the books of Kentucky Power prior to Closing ~~and address it in the future if conditions change or a sale becomes possible with Kentucky Power retaining its undivided interest~~as described on in Section 4.1(f) of the Sellers Disclosure Letter.~~]~~[3]

[3] ~~**Note to AEP**: We request (i) an indemnity covering all Liabilities with respect to the Posey Coal Fields (including without limitation any Liability in respect of Taxes related thereto) and any Environmental Claims) and (ii) that all rights, title and interest, including all Liabilities of Kentucky Power, with respect to the Posey Coal Fields be transferred to AEP prior to Closing.~~

Section 2.16(d)
Environmental Claims

AEP received a Notice of Violation dated October 19, 2021 ("NOV")from the Pennsylvania Department of Environmental Protection regarding a disposal of residual waste related to Mitchell Plant at the Arden Landfill in Chartiers Township, Washington County.[8] Kentucky Power sold a Mitchell Plant transformer to a third party for scrap. The third party sent the industrial waste from the process to scrap the transformer to a Pennsylvania landfill, allegedly without a proper waste profile. Kentucky Power intends to respond to the NOV indicating that it was not the owner or generator of the waste. Kentucky Power does not believe that the result of the NOV is likely to result in a Materially Adverse Effect.

Section 4.1(a)
Conduct of Business

(i)

Kentucky Power intends to sell certain parcels of vacant real property known as "Carrs," which were purchased as a potential site for a power plant that was not pursued with such disposition planned to be completed pursuant to the following contracts: (i) Contract for the Sale and Purchase of Real Estate dated August 6, 2021 between Kentucky Power and Brian Preston and Patrick O'Melia and (ii) Contract for the Sale and Purchase of Real Estate dated September 3, 2021 between Kentucky Power and James Meadows, Jennifer Meadows, Mathew Meadows and Jill Meadows. Kentucky Power removed the property from its rate base several years ago and has periodically marketed the property for sale since that time.

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement. It is anticipated that Kentucky Power will be removed prospectively from this receivables financing program approximately 90 days prior to the anticipated Closing Date.

Kentucky Power is preparing to submit an application to the KPSC requesting a certificate of Public Convenience and Necessity in the 4th quarter of 2021 with a proposed timeline for the deployment of Advanced Metering Infrastructure from 2023 through 2026. After receipt of the Certificate of Public Convenience and Necessity, Kentucky Power will begin to execute contracts in connection therewith due to long lead times on ordering AMI meters. The filing of the Certificate of Public Convenience and Necessity will be made only after determining any compatibility issues with Purchaser's metering system.

Kentucky Power is in the process of developing a 20 MW solar project for which it has secured land control via a lease option agreement, as well as submitted a 100 MW GIA request to PJM. Kentucky Power will conduct geotechnical studies, environmental studies, and minor survey work. It is expected that the GIA/PJM study process will take multiple years before Kentucky Power would initiate an RFP process.

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement, as described under subsection (i) of this Section 4.1(a) of the Sellers Disclosure Letter.

Kentucky Power may amend any Intercompany Arrangement that will be terminated with respect to the Acquired Companies on or prior to the Closing in accordance with Section 4.8 of the Agreement, provided that such amendment does not increase the obligations or liability of an Acquired Company or discharge any accrued obligations owed by the Seller Entities in favor of the Acquired Companies.

The domain names set forth on Section 2.9 of the Sellers Disclosure Letter will be transferred from an account that is currently owned by or held in the name of AEPSC to an account in the name of Kentucky Power on or prior to Closing.

Kentucky Power intends to make expenditures and take actions reasonably necessary to comply with the CCR (Coal Combustion Residuals) requirements. Bottom ash pond closure work necessary to comply with CCR requirements began in September 2021 and will be complete in November 2023. If Wheeling Power Company does not move forward with ELG, then construction of a new CCR compliant ash pond would be scheduled to begin in April 2022.

Kentucky Power intends to make elections to bid into any PJM capacity auctions occurring prior to Closing in conjunction with the Bridge PCA.

Kentucky TransCo may refinance its existing long term debt owed to Affiliates in the amount of approximately $65 million by replacing or refinancing such debt with funds provided under the Utility Money Pool Agreement.

The Credit Agreement, by and among Kentucky Power, the lenders party thereto and Key Bank National Association, dated as of March 6, 2020, will terminate on March 6, 2022 (if not earlier). If the Closing has not occurred prior to the maturity or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power may draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

The Amended and Restated Credit Agreement, by and among Kentucky Power, the lenders party thereto, and Fifth Third Bank, dated as of October 26, 2018 will terminate on October 26, 2022 (if not earlier). If the Closing has not occurred by such time or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power

may draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

In the event of a Change in Control Prepayment Event (as defined in the Senior Note Purchase Agreement), Kentucky Power must offer to prepay all of the Senior KPCo Notes held by the holders thereof pursuant to the terms and conditions in the applicable Senior Note Purchase Agreements.

Kentucky Power intends to submit an application to the KPSC requesting a Certificate of Public Convenience and Necessity to deploy Advanced Metering Infrastructure in the fourth quarter of 2021 and to begin such deployment in accordance with commission's approval of such rollout. The planned rollout is expected to take place in from 2023 through 2026 due to long lead times on ordering AMI meters. The filing of the Certificate of Public Convenience and Necessity will be made only after determining any compatibility issues with Purchaser's metering system.

Kentucky Power intends to submit an application to the KPSC requesting a Certificate of Public Convenience and Necessity for the 20 MW solar project described above.

Kentucky Power intends to submit an informational filing to advise the KPSC of planned replacement capacity for the Rockport Unit Power Agreement in the fourth quarter of 2021.

Kentucky Power intends to submit an application and/or obtain such further orders and clarifications from the KPSC and any other Governmental Entity reasonably necessary to address compliance with the CCR (Coal Combustion Residuals) requirements and/or ELG (Effluent Limitation Guidelines) at Mitchell.

Intercompany Arrangements - Approvals

The acceptances/approvals and notices set forth under the following headings as set forth on Section 2.4(a) of the Sellers Disclosure Letter (other than those listed under "The following new agreements and/or submission applications"):

- FERC acceptance/approval of the following items pursuant to Section 205 of the FPA:
- Post-Closing notice to FERC regarding:
- Approval of the WVPSC regarding the following:
- Notice to the Indiana Utility Regulatory Commission regarding the following:
- Approval of the Virginia State Corporation Commission regarding the following:

Pursuant to the Order of the KPSC under Case No. 2018-0087, notice to the KPSC regarding the change to the "Sparing Service" under Grid Assurance LLC Amended and Restated Subscription Agreement dated April 2, 2019 among Grid Assurance LLC, Kentucky Power, and Kentucky TransCo and several other Affiliates, as amended due to the withdrawal of Kentucky Power

Section 4.8(a)(ii)
Continuing Intercompany Arrangements

- The following agreements will be executed on or prior to the Closing Date on terms and conditions reasonably satisfactory to Purchaser:
    - Leases between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of space on certain radio towers in order to maintain radio network coverage for AEP's Affiliates
    - AEP will cause AEPSC as agent for certain AEP Affiliates to enter into the Operational Procedure Document
    - Transmission Interconnection Agreement(s) between: (i) Kentucky Power and Ohio Power Company (ii) Kentucky Power and Appalachian Power Company and (iii) Kentucky Power and Indiana Michigan Power Company
    - ILDSAs (as described on Section 4.1(f) of the Sellers Disclosure Letter)
    - Power Sale Agreement between an AEP Affiliate or Affiliates and Kentucky Power for the purchase by Kentucky Power of the amount of capacity it will need to meet the PJM FRR election for the 2022/2023 and 2023/2024 plan years (the "New Power Sale Agreement") (see description on Section 4.8(b) of the Sellers Disclosure Letter)

    - Unit Power Agreement dated August 1, 1984 between Kentucky Power and AEP Generating Company
    - Amended and Restated Cook Coal Terminal Transfer Agreement dated December 16, 2013 between Kentucky Power, AEP Generating Company, Appalachian Power Company and Indiana Michigan Power Company, and neither the Acquired Companies nor AEP and its Affiliates shall seek to terminate Kentucky

Power as a party to the agreement earlier than the date on which the expiration or termination of the Unit Power Agreement is effective

Section 4.8(b)
Intercompany Arrangements – Power Coordination

Bridge PCA

Kentucky Power will enter into the PCA Bridge with AEP and/or its Affiliates (all parties to the PCA Bridge other than Kentucky Power, the "AEP Parties") on terms and conditions reasonably acceptable to Purchaser. The Bridge PCA will address the following issues:

- Kentucky Power's participation in the PJM Fixed Resource Requirement with the other AEP Companies and related sales of capacity from the AEP's FRR plan into the PJM Reliability Pricing Model Market. AEP FRR plan participation is anticipated to be through the 2023/2024 PJM Planning Year and the 2024/2025 PJM Planning Year if the Closing Date occurs after the FRR commitment date for that Planning Year in mid-April 2022.

- Kentucky Power remaining a transmission owner and load serving entity for its service territory in PJM and in AEP's Load Zone in PJM through January 1 of the calendar year after it is no longer a party to AEP's FRR plan.

- ~~[~~Kentucky Power's sharing in the costs and benefits of the coal, energy, capacity and related contracts entered into by AEP to support the AEP Parties (where that includes Kentucky Power) until those positions expire or are wound-down by AEP.~~]~~[10]

- The commitments that will be made by AEP on behalf of Kentucky Power in the normal course of business related to its participation in PJM, such as nominating and managing the Auction Revenue Rights or Financial Transmission Rights for transmission paths associated with Kentucky Power's service of its retail and wholesale customer loads.

- Establishment of stand-alone PJM accounts for Kentucky Power's PJM settlement activity and transitioning charges and credits for Kentucky Power activity from AEP to Kentucky Power.

New Power Sale Agreement

In connection with the Bridge PCA and the amount of capacity Kentucky Power will need to meet the PJM FRR election for the 2022/2023 and 2023/2024 plan years, on or prior to the Closing Date, Kentucky Power will enter into an agreement or agreements on terms and conditions reasonably acceptable to Purchaser, with AEP or an Affiliate to purchase from AEP or an Affiliate the amount of capacity it believes it will need to meet the amount of its FRR

~~[10] **Note to AEP**: To discuss. We thought we had the right to unilaterally terminate upon 12 months' advance notice. Please provide additional information on the positions and expirations.~~

commitment that is in excess of its expected generation for those periods (estimates of approximately 183 MW and 170 MW, respectively).

Section 4.9
Support Obligations

- Self-Insurers' Guarantee Agreement dated June 3, 2011 made by AEP to assume and guarantee to pay or otherwise discharge promptly all the liabilities and obligations of Kentucky Power, AEPSC, AEP Kentucky Coal, LLC and AEP River Operations LLC which are provided for under the provisions of the Workers' Compensation Act of the Commonwealth of Kentucky per KRS Chapter 342

- Unconditional and Continuing Parental Guaranty In the Matter of Self-Insurance of Subsidiaries of said Guarantor dated December 15, 2008 among AEPSC, Appalachian Power Company, Ohio Power Company, Wheeling Power Company, Kentucky Power and Indiana Michigan Power Company and AEP

Section 4.17
Business Separation Matters

The Business Separation Plan to be developed during the Interim Period shall address the following:

- Reconfigure the AEP telecom network to exclude Kentucky Power. As a part of the overall telecom project and to ensure sufficient ongoing radio network coverage, installation by Kentucky Power at or prior to Closing of certain equipment and facilities on radio towers and the execution at or prior to Closing of a perpetual rent free lease between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of such towers in order to maintain radio network coverage for AEP's Affiliates.

- Establish the installation of meters and cumulative usage data aggregation and profiling processes on un-metered intra-company distribution lines across KY, WV and VA in order to calculate separate jurisdictional/system load of Kentucky Power and AEP Affiliates

- Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

- The real property held by Franklin Real Estate Company as set forth on Section 2.7(c) of the Sellers Disclosure Letter will be transferred to Kentucky Power by deed prior to the Closing.

- Any real property, permits or leases used exclusively in the business of the Acquired Companies held in the name of other AEP affiliates including AEPSC. If any is found, rights to such real property, permits or leases will be transferred to the applicable Acquired Company via title, assignment, lease, easement or other applicable land interest, as appropriate, prior to the Closing.

Taxes

1. As described in Section 2.7(c) of the Sellers' Disclosure Letter, Kentucky Power has a beneficial interest in the Posey Coal Fields, which are comprised of 40 surface acres and 100,000 acres of coal mineral rights. Title to the Posey Coal Fields is vested in Indiana Franklin Realty, Inc. , which holds title to the property for the benefit of Kentucky Power and Indiana Michigan Power Company. Kentucky Power has not historically filed income tax returns in Indiana.

2. There are Tax Proceedings underway (and a concurrent waiver of the statute of limitations) concerning the following as disclosed to Purchaser:

    - Kentucky Energy Direct Pay (sales tax on natural gas purchases) for the period January 1, 2015 through December 31, 2018
    - Kentucky Sales/Use Tax (direct pay permit) for the period March 1, 2015 through December 31, 2018

Environmental Claims

AEP received a Notice of Violation dated October 19, 2021 ("NOV")from the Pennsylvania Department of Environmental Protection regarding a disposal of residual waste related to Mitchell Plant at the Arden Landfill in Chartiers Township, Washington County. Kentucky Power sold a Mitchell Plant transformer to a third party for scrap. The third party sent the industrial waste from the process to scrap the transformer to a Pennsylvania landfill, allegedly without a proper waste profile. Kentucky Power intends to respond to the NOV indicating that it was not the owner or generator of the waste. ~~Kentucky Power does not believe that the result of the~~The NOV is not likely to result in ~~a Materially Adverse Effect~~any material Liability**.**

Kentucky Power intends to sell certain parcels of vacant real property known as "Carrs," which were purchased as a potential site for a power plant that was not pursued with such disposition planned to be completed pursuant to the following contracts: (i) Contract for the Sale and Purchase of Real Estate dated August 6, 2021 between Kentucky Power and Brian Preston and Patrick O'Melia and (ii) Contract for the Sale and Purchase of Real Estate dated September 3, 2021 between Kentucky Power and James Meadows, Jennifer Meadows, Mathew Meadows and Jill Meadows. Kentucky Power removed the property from its rate base several years ago and has periodically marketed the property for sale since that time.

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement. It is anticipated that Kentucky Power will be removed prospectively from this receivables financing program approximately 90 days prior to the anticipated Closing Date.

Kentucky Power is preparing to submit an application to the KPSC requesting a certificate of Public Convenience and Necessity in the 4th quarter of 2021 with a proposed timeline for the deployment of Advanced Metering Infrastructure from 2023 through 2026. After receipt of the Certificate of Public Convenience and Necessity, Kentucky Power will begin to execute contracts in connection therewith due to long lead times on ordering AMI meters. The filing of the Certificate of Public Convenience and Necessity will be made only after determining any compatibility issues with Purchaser's metering system.

Kentucky Power is in the process of developing a 20 MW solar project for which it has secured land control via a lease option agreement, as well as submitted a 100 MW GIA request to PJM. Kentucky Power will conduct geotechnical studies, environmental studies, and minor survey work. It is expected that the GIA/PJM study process will take multiple years before Kentucky Power would initiate an RFP process.

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement, as described under subsection (i) of this Section 4.1(a) of the Sellers Disclosure Letter.

Kentucky Power may amend any Intercompany Arrangement that will be terminated with respect to the Acquired Companies on or prior to the Closing in accordance with Section 4.8 of the Agreement, provided that such amendment does not increase the obligations or liability of an Acquired Company or discharge any accrued obligations owed by the Seller Entities in favor of the Acquired Companies.

The domain names set forth on Section 2.9 of the Sellers Disclosure Letter will be transferred from an account that is currently owned by or held in the name of AEPSC to an account in the name of Kentucky Power on or prior to Closing.

Kentucky Power intends to make expenditures and take actions reasonably necessary to comply with the CCR (Coal Combustion Residuals) requirements. Bottom ash pond closure work necessary to comply with CCR requirements began in September 2021 and will be complete in November 2023. If Wheeling Power Company does not move forward with ELG, then construction of a new CCR compliant ash pond would be scheduled to begin in April 2022.

Kentucky Power intends to make elections to bid into any PJM capacity auctions occurring prior to Closing in conjunction with the Bridge PCA.

Kentucky TransCo may refinance its existing long term debt owed to Affiliates in the amount of approximately $65 million by replacing or refinancing such debt with funds provided under the Utility Money Pool Agreement.

The Credit Agreement, by and among Kentucky Power, the lenders party thereto and Key Bank National Association, dated as of March 6, 2020, will terminate on March 6, 2022 (if not earlier). If the Closing has not occurred prior to the maturity or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power may draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

The Amended and Restated Credit Agreement, by and among Kentucky Power, the lenders party thereto, and Fifth Third Bank, dated as of October 26, 2018 will terminate on October 26, 2022 (if not earlier). If the Closing has not occurred by such time or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power

may draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

In the event of a Change in Control Prepayment Event (as defined in the Senior Note Purchase Agreement), Kentucky Power must offer to prepay all of the Senior KPCo Notes held by the holders thereof pursuant to the terms and conditions in the applicable Senior Note Purchase Agreements.

Section 4.8(a)(i)
Intercompany Arrangements - Approvals

The acceptances/approvals and notices set forth under the following headings as set forth on Section 2.4(a) of the Sellers Disclosure Letter (other than those listed under "The following new agreements and/or submission applications"):

- FERC acceptance/approval of the following items pursuant to Section 205 of the FPA:
- Post-Closing notice to FERC regarding:
- Approval of the WVPSC regarding the following:
- Notice to the Indiana Utility Regulatory Commission regarding the following:
- Approval of the Virginia State Corporation Commission regarding the following:

Pursuant to the Order of the KPSC under Case No. 2018-0087, notice to the KPSC regarding the change to the "Sparing Service" under Grid Assurance LLC Amended and Restated Subscription Agreement dated April 2, 2019 among Grid Assurance LLC, Kentucky Power, and Kentucky TransCo and several other Affiliates, as amended due to the withdrawal of Kentucky Power

Section 4.8(a)(ii)
Continuing Intercompany Arrangements

- The following agreements will be executed on or prior to the Closing Date on terms and conditions reasonably satisfactory to Purchaser:

    - Leases between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of space on certain radio towers in order to maintain radio network coverage for AEP's Affiliates

    - AEP will cause AEPSC as agent for certain AEP Affiliates to enter into the Operational Procedure Document

    - Transmission Interconnection Agreement(s) between: (i) Kentucky Power and Ohio Power Company (ii) Kentucky Power and Appalachian Power Company and (iii) Kentucky Power and Indiana Michigan Power Company

    - ILDSAs (as described on Section 4.1(f) of the Sellers Disclosure Letter)

    - Power Sale Agreement between an AEP Affiliate or Affiliates and Kentucky Power for the purchase by Kentucky Power of the amount of capacity it will need to meet the PJM FRR election for the 2022/2023 and 2023/2024 plan years (the "New Power Sale Agreement") (see description on Section 4.8(b) of the Sellers Disclosure Letter)

    - Unit Power Agreement dated August 1, 1984 between Kentucky Power and AEP Generating Company
    - Amended and Restated Cook Coal Terminal Transfer Agreement dated December 16, 2013 between Kentucky Power, AEP Generating Company, Appalachian Power Company and Indiana Michigan Power Company, and neither the Acquired Companies nor AEP and its Affiliates shall seek to terminate Kentucky Power as a party to the agreement earlier than the date on which the expiration or termination of the Unit Power Agreement is effective

Section 4.8(b)
Intercompany Arrangements – Power Coordination

Bridge PCA

Kentucky Power will enter into the PCA Bridge with AEP and/or its Affiliates (all parties to the PCA Bridge other than Kentucky Power, the "AEP Parties") on terms and conditions reasonably acceptable to Purchaser. The Bridge PCA will address the following issues:

- Kentucky Power's participation in the PJM Fixed Resource Requirement with the other AEP Companies and related sales of capacity from the AEP's FRR plan into the PJM Reliability Pricing Model Market. AEP FRR plan participation is anticipated to be through the 2023/2024 PJM Planning Year and the 2024/2025 PJM Planning Year if the Closing Date occurs after the FRR commitment date for that Planning Year in mid-April 2022.

- Kentucky Power remaining a transmission owner and load serving entity for its service territory in PJM and in AEP's Load Zone in PJM through January 1 of the calendar year after it is no longer a party to AEP's FRR plan.

- Kentucky Power's sharing in the costs and benefits of the coal, energy, capacity and related contracts entered into by AEP to support the AEP Parties (where that includes Kentucky Power) until those positions expire or are wound-down by AEP.

- The commitments that will be made by AEP on behalf of Kentucky Power in the normal course of business related to its participation in PJM, such as nominating and managing the Auction Revenue Rights or Financial Transmission Rights for transmission paths associated with Kentucky Power's service of its retail and wholesale customer loads.

- Establishment of stand-alone PJM accounts for Kentucky Power's PJM settlement activity and transitioning charges and credits for Kentucky Power activity from AEP to Kentucky Power.

New Power Sale Agreement

In connection with the Bridge PCA and the amount of capacity Kentucky Power will need to meet the PJM FRR election for the 2022/2023 and 2023/2024 plan years, on or prior to the Closing Date, Kentucky Power will enter into an agreement or agreements on terms and conditions reasonably acceptable to Purchaser, with AEP or an Affiliate to purchase from AEP or an Affiliate the amount of capacity it believes it will need to meet the amount of its FRR commitment that is in excess of its expected generation for those periods (estimates of approximately 183 MW and 170 MW, respectively).

Section 4.17
Business Separation Matters

The Business Separation Plan to be developed during the Interim Period shall address the following:

- Reconfigure the AEP telecom network to exclude Kentucky Power. As a part of the overall telecom project and to ensure sufficient ongoing radio network coverage, installation by Kentucky Power at or prior to Closing of certain equipment and facilities on radio towers and the execution at or prior to Closing of a perpetual rent free lease between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of such towers in order to maintain radio network coverage for AEP's Affiliates.

- Establish the installation of meters and cumulative usage data aggregation and profiling processes on un-metered intra-company distribution lines across KY, WV and VA in order to calculate separate jurisdictional/system load of Kentucky Power and AEP Affiliates

- Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

- The real property held by Franklin Real Estate Company as set forth on Section 2.7(c) of the Sellers Disclosure Letter will be transferred to Kentucky Power by deed prior to the Closing.

- Any real property, permits or leases used exclusively in the business of the Acquired Companies held in the name of other AEP affiliates including AEPSC. If any is found, rights to such real property, permits or leases will be transferred to the applicable Acquired Company via title, assignment, lease, easement or other applicable land interest, as appropriate, prior to the Closing.

SELLERS DISCLOSURE LETTER

This disclosure letter ("Sellers Disclosure Letter") is delivered by American Electric Power Company, Inc., a New York corporation, and AEP Transmission Company, LLC, a Delaware limited liability company (collectively, "Sellers"), to Liberty Utilities Co., a Delaware corporation ("Purchaser"), pursuant to the Stock Purchase Agreement (the "Agreement"), dated as of October 26, 2021 by and among Sellers and Purchaser. Unless the context otherwise requires, terms used in this Sellers Disclosure Letter have the meanings given to the same terms in the Agreement.

Notwithstanding anything to the contrary contained in this Sellers Disclosure Letter or in the Agreement, the information and disclosures contained in this Sellers Disclosure Letter shall be deemed to be disclosed and incorporated by reference with respect to any other representation or warranty of Sellers if the applicability of such information and disclosure is reasonably apparent on its face. The fact that any item of information is disclosed in any Sellers Disclosure Letter shall not be construed to mean that such information is required to be disclosed by the Agreement. Such information and the dollar thresholds set forth herein shall not be used as a basis for interpreting the terms "material" or "Material Adverse Effect" or other similar terms in the Agreement. Nothing in this Sellers Disclosure Letter constitutes an admission of any liability or obligation of any party to any third party, nor an admission to any third party against the interests of any or all of the parties.

This Sellers Disclosure Letter confirms the disclosure by Sellers of information as follows:

Environmental Claims

AEP received a Notice of Violation dated October 19, 2021 ("NOV")from the Pennsylvania Department of Environmental Protection regarding a disposal of residual waste related to Mitchell Plant at the Arden Landfill in Chartiers Township, Washington County. Kentucky Power sold a Mitchell Plant transformer to a third party for scrap. The third party sent the industrial waste from the process to scrap the transformer to a Pennsylvania landfill, allegedly without a proper waste profile. Kentucky Power intends to respond to the NOV indicating that it was not the owner or generator of the waste. The NOV is not likely to result in any material Liability**.**

Kentucky Power intends to sell certain parcels of vacant real property known as "Carrs," which were purchased as a potential site for a power plant that was not pursued with such disposition planned to be completed pursuant to the following contracts: (i) Contract for the Sale and Purchase of Real Estate dated August 6, 2021 between Kentucky Power and Brian Preston and Patrick O'Melia and (ii) Contract for the Sale and Purchase of Real Estate dated September 3, 2021 between Kentucky Power and James Meadows, Jennifer Meadows, Mathew Meadows and Jill Meadows. Kentucky Power removed the property from its rate base several years ago and has periodically marketed the property for sale since that time.

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement. It is anticipated that Kentucky Power will be removed prospectively from this receivables financing program approximately 90 days prior to the anticipated Closing Date.

Kentucky Power is preparing to submit an application to the KPSC requesting a certificate of Public Convenience and Necessity in the 4th quarter of 2021 with a proposed timeline for the deployment of Advanced Metering Infrastructure from 2023 through 2026. After receipt of the Certificate of Public Convenience and Necessity, Kentucky Power will begin to execute contracts in connection therewith due to long lead times on ordering AMI meters. The filing of the Certificate of Public Convenience and Necessity will be made only after determining any compatibility issues with Purchaser's metering system.

Kentucky Power is in the process of developing a 20 MW solar project for which it has secured land control via a lease option agreement, as well as submitted a 100 MW GIA request to PJM. Kentucky Power will conduct geotechnical studies, environmental studies, and minor survey work. It is expected that the GIA/PJM study process will take multiple years before Kentucky Power would initiate an RFP process.

Kentucky Power intends to terminate its sale of receivables to AEP Credit, Inc. in connection with its receivables financing program and the Third Amended and Restated Purchase Agreement with AEP Credit, Inc. dated August 25, 2004, as amended, in accordance with Section 4.8 of the Agreement, as described under subsection (i) of this Section 4.1(a) of the Sellers Disclosure Letter.

Kentucky Power may amend any Intercompany Arrangement that will be terminated with respect to the Acquired Companies on or prior to the Closing in accordance with Section 4.8 of the Agreement, provided that such amendment does not increase the obligations or liability of an Acquired Company or discharge any accrued obligations owed by the Seller Entities in favor of the Acquired Companies.

The domain names set forth on Section 2.9 of the Sellers Disclosure Letter will be transferred from an account that is currently owned by or held in the name of AEPSC to an account in the name of Kentucky Power on or prior to Closing.

Kentucky Power intends to make expenditures and take actions reasonably necessary to comply with the CCR (Coal Combustion Residuals) requirements. Bottom ash pond closure work necessary to comply with CCR requirements began in September 2021 and will be complete in November 2023. If Wheeling Power Company does not move forward with ELG, then construction of a new CCR compliant ash pond would be scheduled to begin in April 2022.

Kentucky Power intends to make elections to bid into any PJM capacity auctions occurring prior to Closing in conjunction with the Bridge PCA.

Kentucky TransCo may refinance its existing long term debt owed to Affiliates in the amount of approximately $65 million by replacing or refinancing such debt with funds provided under the Utility Money Pool Agreement.

The Credit Agreement, by and among Kentucky Power, the lenders party thereto and Key Bank National Association, dated as of March 6, 2020, will terminate on March 6, 2022 (if not earlier). If the Closing has not occurred prior to the maturity or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power may draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

The Amended and Restated Credit Agreement, by and among Kentucky Power, the lenders party thereto, and Fifth Third Bank, dated as of October 26, 2018 will terminate on October 26, 2022 (if not earlier). If the Closing has not occurred by such time or if Kentucky Power determines it is reasonable to do so prior to maturity, Kentucky Power

may draw funds under the Utility Money Pool Agreement to repay/refinance that maturity in total or in part.

In the event of a Change in Control Prepayment Event (as defined in the Senior Note Purchase Agreement), Kentucky Power must offer to prepay all of the Senior KPCo Notes held by the holders thereof pursuant to the terms and conditions in the applicable Senior Note Purchase Agreements.

    - Amended and Restated Cook Coal Terminal Transfer Agreement dated December 16, 2013 between Kentucky Power, AEP Generating Company, Appalachian Power Company and Indiana Michigan Power Company, and neither the Acquired Companies nor AEP and its Affiliates shall seek to terminate Kentucky Power as a party to the agreement earlier than the date on which the expiration or termination of the Unit Power Agreement is effective

Section 4.8(b)
Intercompany Arrangements – Power Coordination

Bridge PCA

Kentucky Power will enter into the PCA Bridge with AEP and/or its Affiliates (all parties to the PCA Bridge other than Kentucky Power, the "AEP Parties") on terms and conditions reasonably acceptable to Purchaser. The Bridge PCA will address the following issues:

- Kentucky Power's participation in the PJM Fixed Resource Requirement with the other AEP Companies and related sales of capacity from the AEP's FRR plan into the PJM Reliability Pricing Model Market. AEP FRR plan participation is anticipated to be through the 2023/2024 PJM Planning Year and the 2024/2025 PJM Planning Year if the Closing Date occurs after the FRR commitment date for that Planning Year in mid-April 2022.

- Kentucky Power remaining a transmission owner and load serving entity for its service territory in PJM and in AEP's Load Zone in PJM through January 1 of the calendar year after it is no longer a party to AEP's FRR plan.

- Kentucky Power's sharing in the costs and benefits of the coal, energy, capacity and related contracts entered into by AEP to support the AEP Parties (where that includes Kentucky Power) until those positions expire or are wound-down by AEP.

- The commitments that will be made by AEP on behalf of Kentucky Power in the normal course of business related to its participation in PJM, such as nominating and managing the Auction Revenue Rights or Financial Transmission Rights for transmission paths associated with Kentucky Power's service of its retail and wholesale customer loads.

- Establishment of stand-alone PJM accounts for Kentucky Power's PJM settlement activity and transitioning charges and credits for Kentucky Power activity from AEP to Kentucky Power.

New Power Sale Agreement

In connection with the Bridge PCA and the amount of capacity Kentucky Power will need to meet the PJM FRR election for the 2022/2023 and 2023/2024 plan years, on or prior to the Closing Date, Kentucky Power will enter into an agreement or agreements on terms and conditions reasonably acceptable to Purchaser, with AEP or an Affiliate to purchase from AEP or an Affiliate the amount of capacity it believes it will need to meet the amount of its FRR commitment that is in excess of its expected generation for those periods (estimates of approximately 183 MW and 170 MW, respectively).

Section 4.9
Support Obligations

- Self-Insurers' Guarantee Agreement dated June 3, 2011 made by AEP to assume and guarantee to pay or otherwise discharge promptly all the liabilities and obligations of Kentucky Power, AEPSC, AEP Kentucky Coal, LLC and AEP River Operations LLC which are provided for under the provisions of the Workers' Compensation Act of the Commonwealth of Kentucky per KRS Chapter 342

- Unconditional and Continuing Parental Guaranty In the Matter of Self-Insurance of Subsidiaries of said Guarantor dated December 15, 2008 among AEPSC, Appalachian Power Company, Ohio Power Company, Wheeling Power Company, Kentucky Power and Indiana Michigan Power Company and AEP

Section 4.12
D&O Indemnification Agreements

- Section XII of Kentucky Power's By-Laws as amended on March 20, 2008 sets forth Kentucky Power's obligations to indemnify any person who was or is made a party to a proceeding because such person is or was a director, officer or employee of Kentucky Power, as well as others as set forth in such Section XII.

- Section XII of Kentucky TransCo's By-Laws dated October 29, 2009 sets forth Kentucky TransCo's obligations to indemnify any person who was or is made a party to a proceeding because such person is or was a director, officer or employee of Kentucky TransCo, as well as others as set forth in such Section XII.

Section 4.17
Business Separation Matters

The Business Separation Plan to be developed during the Interim Period shall address the following:

- Reconfigure the AEP telecom network to exclude Kentucky Power. As a part of the overall telecom project and to ensure sufficient ongoing radio network coverage, installation by Kentucky Power at or prior to Closing of certain equipment and facilities on radio towers and the execution at or prior to Closing of a perpetual rent free lease between AEPSC or an Affiliate, as lessee, and Kentucky Power, as lessor, for the lease of such towers in order to maintain radio network coverage for AEP's Affiliates.

- Establish the installation of meters and cumulative usage data aggregation and profiling processes on un-metered intra-company distribution lines across KY, WV and VA in order to calculate separate jurisdictional/system load of Kentucky Power and AEP Affiliates

- Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

- The real property held by Franklin Real Estate Company as set forth on Section 2.7(c) of the Sellers Disclosure Letter will be transferred to Kentucky Power by deed prior to the Closing.

- Any real property, permits or leases used exclusively in the business of the Acquired Companies held in the name of other AEP affiliates including AEPSC. If any is found, rights to such real property, permits or leases will be transferred to the applicable Acquired Company via title, assignment, lease, easement or other applicable land interest, as appropriate, prior to the Closing.

- [redacted]

- Such other items mutually identified and agreed to prior to Closing, including, if applicable, the addition of services and terms to the Transition Services Agreement.

Section 4.18
NERC Registration

Purchaser selects the following option to address registration with NERC for the bulk electric system facilities of Kentucky Power and Kentucky TransCo, except in connection with Kentucky Power's interest in the Mitchell Facility whereby Wheeling Power Company, as the operator, shall be the registered entity for the bulk electric system assets associated with the Mitchell Facility and responsible for NERC compliance for such assets under 18 C.F.R. § 39.2.

- Option: Purchaser shall establish a new registered entity with NERC, which shall be registered under the following functional registration categories for the newly-acquired bulk electric system assets: DP, GO, GOP, RP, TO, TOP, and TP. That registered entity shall be certified as a TOP for the newly-acquired bulk electric system transmission facilities. That registered entity shall implement a compliance program for compliance with (i) all reliability standards applicable to the new Registered Entity for the new-acquired bulk electric system assets under 18 C.F.R. § 39.2; (ii) the NERC Rules of Procedure; and (iii) the PJM TO/TOP Matrix.

Affiliated Transactions Agreement For Sharing Capitalized Spare Parts dated January 1, 2014 between AEP Generation Resources Inc. and AEPSC, as agent for Kentucky Power, Appalachian Power Company, Indiana Michigan Power Company and AEP Generating Company

Central Machine Shop Agreement dated January 1, 1979 among Kentucky Power, Appalachian Power Company, Indiana Michigan Power Company, Kingsport Power Company, AEP Generating Company and AEP Generation Resources Inc.

Interconnection Services Agreement dated December 31, 2013 between Kentucky Power and Appalachian Power Company (for Mitchell)

Agreement between Kentucky Power – Mitchell Plant and Local 492 Utility Workers Union of America AFL-CIO

Certain substation, interconnection and related facilities and real estate interests located at Mitchell will need to be bifurcated (from a contractual and perhaps an ownership perspective) to separate out those facilities and real estate interests that are properly allocable to Mitchell and those which are properly allocable to AEPSC and its utility Affiliates. It is anticipated that this separation work may involve, among other things, AEPSC or one or more of its Affiliates granting easement or other access rights to certain facilities to the Acquired Companies, and vice versa, pursuant to customary easement and access agreements

OPERATIONS AND MAINTENANCE AGREEMENT

by and between

KENTUCKY POWER COMPANY, as the Non-Operator Owner

and

WHEELING POWER COMPANY, as the Operator

Dated as of

[_____], ~~2021~~

TABLE OF CONTENTS

MITCHELL PLANT OPERATIONS AND MAINTENANCE AGREEMENT

This OPERATIONS AND MAINTENANCE AGREEMENT (this "Agreement"), dated as of [_____] (the "Effective Date"), is entered by and between WHEELING POWER COMPANY, a West Virginia corporation (in its capacity as the operator of the Facility, "Operator" and in its capacity as an owner of the Facility, "WPCo") and KENTUCKY POWER COMPANY, a Kentucky corporation qualified as a foreign corporation in West Virginia (in its capacity as an owner of the Facility, the "Non-Operator Owner" and, together with WPCo, each an "Owner" and, together, the "Owners").

RECITALS

1. Owners each own an undivided Ownership Interest in the Facility (these and other capitalized terms are defined in Article II).

2. On the date hereof, WPCo and the Non-Operator Owner have entered into that certain Mitchell Plant Ownership Agreement, setting forth the respective rights, duties and obligations of the Owners with respect to each other and the Facility in their capacities as the Owners thereof (the "Ownership Agreement").

3. Pursuant to the Ownership Agreement, WPCo has agreed to manage the day-to-day operations and maintenance of the Facility as Operator pursuant to the terms of this Agreement.

4. Operator and the Non-Operator Owner desire to execute this Agreement to set forth the respective rights, duties and obligations of WPCo, in its capacity as Operator of the Facility, and the Non-Operator Owner, in its capacity as an Owner of an undivided interest as a co-tenant in the Facility.

NOW, THEREFORE, in consideration of the foregoing premises, and of the mutual covenants, undertakings and conditions set forth below, the Parties agree as follows:

ARTICLE I - AGREEMENT

1.1 Agreement. This Agreement consists of the recitals, and the terms and conditions set forth in this Agreement, as well as the appendices that are referenced in the table of contents and attached to this Agreement.

1.2 Relationship of the Parties. Operator shall perform the Services in its capacity as an independent contractor of the Non-Operator Owner and as principal on its own behalf as an Owner. Subject to any limitations set forth in this Agreement and the Ownership Agreement, the Owners delegate to Operator, and Operator accepts from the Owners, the responsibility of providing such Services at the Facility. The Owners and Operator agree that the scope of delegation is strictly limited to the matters set forth in this Agreement and the Ownership Agreement. Without limiting the generality of the foregoing, the Owners retain the ultimate authority and obligation to determine whether and to what extent the Facility operates, and Operator shall not cause the Facility to generate power except as expressly directed to do so by the Owners or any dispatching authority specified by the Owners in accordance with the

Ownership Agreement. For the avoidance of doubt, any provision of this Agreement requiring the delegation of authority, direction, consent or authorization with respect to the Owners shall mean the delegation, direction, consent or authorization of both Owners (or the Operating Committee) in accordance with the Ownership Agreement.

1.3 Entire Agreement. This Agreement, together with the Ownership Agreement, contains the entire agreement between the Parties with respect to Operator's provision of Services at the Facility and supersedes all prior negotiations, undertakings and agreements.

ARTICLE II - DEFINITIONS

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears, capitalized terms have the meanings specified in this Article II. The singular includes the plural, as the context requires. The terms "includes" and "including" mean "including, but not limited to." The terms "ensure" and "reasonable efforts" will not be construed as a guarantee, but will imply only a duty to use reasonable efforts and care, consistent with Prudent Operation and Maintenance Practices, and will include reasonable expenditures of money and at least such efforts as Operator would undertake for its own assets, services or maintenance, or for services provided to an Affiliate. "Gross negligence" will not be construed as simple or ordinary negligence, it being the intent of the Parties to preserve a distinction between errors made inadvertently while attempting to perform with due care and actions taken with a knowing disregard for a foreseeable risk. "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day. "Month" (regardless of capitalization) shall mean a calendar month. References to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement, except where expressly stated otherwise.

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, controls, is controlled by, or is under common control with such Person. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise.

"Agreement" has the meaning set forth in the preamble to this Agreement.

"Applicable Law" means all laws, statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, Governmental Approvals, Permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over each Owner, any other Person or entity (as to that Person or entity), this Agreement, any Facility asset or the Facility, as applicable.

"Bankruptcy" means a situation in which (i) a Person files a voluntary petition in bankruptcy or is adjudicated as bankrupt or insolvent, or files any petition or answer or consent seeking any reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable United States federal, state or other statute or law relative to bankruptcy, insolvency or other relief for debtors, or seeks

or consents to or acquiesces in the appointment of any trustee, receiver, conservator or liquidator of such Person or of all or any substantial part of its properties (the term "acquiesce," as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within fifteen (15) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction enters an order, judgment or decree approving a petition filed against any Person seeking a reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States federal bankruptcy act, or any other present or future Applicable Law relating to bankruptcy, insolvency or other relief for debtors, and such Person acquiesces and such decree remains unvacated and unstayed for an aggregate of sixty (60) days (whether or not consecutive) from the date of entry thereof, or a trustee, receiver, conservator or liquidator of such Person is appointed with the consent or acquiescence of such Person and such appointment remains unvacated and unstayed for an aggregate of sixty (60) days, whether or not consecutive; (iii) a Person admits in writing its inability to pay its debts as they mature; (iv) a Person gives notice, to any Governmental Authority of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) a Person makes a general assignment for the benefit of creditors or takes any other similar action for the protection or benefit of creditors (other than in the ordinary course of such party's business).

"Budget" means an annual operating budget and ~~annual~~ capital budget adopted or amended pursuant to the Ownership Agreement.

"Business Day" means any day other than (i) a Saturday or Sunday or (ii) a day on which banks in West Virginia or Ohio are required or permitted to be closed.

"CertainTeed Contract" shall mean that certain Supply Agreement dated March 11, 2005, by and between CertainTeed Gypsum West Virginia, Inc. (formerly BPB West Virginia Inc.) ("CertainTeed") and KPCo (as assignee of Ohio Power Company), as amended by Amendment No. 2010-1 dated August 2, 2010, as further amended by Amendment No. 2012-1 dated February 20, 2012 and as further amended by Amendment No. 2013-1 dated June 5, 2013, as may be amended, amended and restated, supplemented or modified from time to time, and as may be assigned to Operator or an Affiliate of Operator.

"Claims" means any and all claims, assertions, demands, suits, investigations, inquiries, and proceedings.

"Confidential Information" means, with respect to each Party, all written or oral information of a proprietary, intellectual or similar nature, relating to the business, projects, operations, activities or affairs of a Party and its Affiliates, whether of a technical or financial nature or otherwise (including environmental assessment reports, financial information, business plans and proposals, ideas, concepts, trade secrets, know-how, processes, pricing of services or products, and other technical or business information, whether concerning this Agreement, each Party's respective businesses or otherwise) that has not been publicly disclosed and that the receiving Party acquires directly or indirectly from the disclosing Party.

"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the generating units and other property, plant, and equipment comprising

the Facility, including any common facilities associated with each generating unit that are to be permanently removed from service, the restoration of the Site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.

"Decommissioning Work" shall mean all work reasonably necessary or undertaken to Decommission the Facility, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Facility in accordance with Applicable Law.

"Dollars" means United States Dollars, the lawful currency of the United States of America.

"Due Date" means, with respect to any Operator invoice, the date that is thirty (30) days following the date on which Operator submits the invoice to the Non-Operator Owner. If such date does not fall on a Business Day, then the Due Date shall be the first Business Day after such date.

"Effective Date" means the date set forth in the preamble to this Agreement.

"Emergency" has the meaning set forth in Section 3.8.

"Encumbrance" means (i) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (ii) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary Claim; and (iii) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Environmental Law" means any Applicable Law pertaining to (i) the regulation or protection of employee health or safety, public health or safety, or the indoor or outdoor environment; (ii) the conservation, management, development, control or use of land, natural resources, or wildlife; (iii) the protection or use of surface water or ground water; (iv) the management, manufacture, possession, presence, use, generation, treatment, storage, disposal, transportation, or handling of, or exposure to any Hazardous Material; or (v) pollution (including release of any hazardous substance to air, land, surface water and ground water), including the Comprehensive Environmental Response, Compensation, and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. §§ 9601 et seq.), the Hazardous Materials Transportation Act (49 U.S.C. §§ 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. §§ 6901 et seq.), the Toxic Substances Control Act (15 U.S.C. §§ 2601 et seq.), the Clean Water Act (33 U.S.C. §§ 7401 et seq.), the Clean Air Act, as amended (42 U.S.C. §§ 7401 et seq.), the Safe Drinking Water Act (42 U.S.C. §§ 300f et seq.), the Uranium Mill Tailings Radiation Control Act (42 U.S.C. §§ 7901 et seq.), the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§ 136 et seq.), all as now or hereafter

amended or supplemented, and any regulations promulgated thereunder, and any other similar federal, state, or local statutes, rules and regulations.

"Environmental Liability" has the meaning set forth in Section 10.3.1.

"Facility" means the Mitchell Power Generation Facility consisting of two (2) coal-fired generating units, each having a nominal nameplate capacity of 800MW, and associated plant, equipment and real estate, located in Moundsville, West Virginia, and includes all electrical or thermal devices, and related structures and connections that are located at the Site and used for the production of power and the transportation and handling of fuel for the benefit of the Owners, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam.

"Facility Agreements" means this Agreement, the Ownership Agreement, all applicable interconnection agreements, fuel supply agreements, coal ash, gypsum and other combustion byproduct disposal or sales agreements (including the CertainTeed Contract), all applicable equipment maintenance agreements in effect or entered into from time to time by the Operator or the Owners relating to the Facility, all equipment contracts with regard to warranties and equipment design and specifications, and any other agreement reasonably designated by the Owners as a "Facility Agreement."

"System Operator" means any Person or regional transmission organization, such as PJM Interconnection, L.L.C., supervising the collective transmission or generation facilities of the power region in which the Facility is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

"Term" means the initial term together with any extensions.

"Termination Transition Period" has the meaning set forth in Section 8.5.1.

"WPCo" has the meaning set forth in the preamble to this Agreement.

"Year" means the calendar year. With respect to the Year in which the Effective Date occurs, a Year will be deemed to begin on the Effective Date and end on December 31st of such Year. If this Agreement terminates, the final Year will be deemed to end on the date that termination occurs.

ARTICLE III - RESPONSIBILITIES OF OPERATOR

3.1 Provision of Services. Operator shall operate and maintain the Facility and perform other duties as set forth in this Agreement, including performing and, as applicable, contracting for the benefit of the Owners with suppliers and service providers to perform, the services set forth on Appendix A (collectively, the "Services").

3.2 Procurement.

3.2.1 Operator shall sign contracts and purchase orders for goods and services to be delivered to the Facility in the name of Operator, and shall not contract in the name of the Non-Operator Owner without the Non-Operator Owner's prior written consent. Operator acknowledges that such contracts and purchase orders are for the benefit of the Owners and the Facility. Operator shall endeavor to negotiate with vendors from standard terms and conditions, including reasonable warranties for the benefit of the Owners.

3.2.2 The Non-Operator Owner shall use commercially reasonable efforts to obtain, promptly following the Effective Date, any and all consents of third parties required to assign, transfer or convey to Operator any contracts or purchase orders for goods and services (including fuel supply and transportation) to be delivered to or used by the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date, which are reasonably required to be transferred to Operator for the performance of the Services. To the extent that, notwithstanding its commercially reasonable efforts, the Non-Operator Owner is unable to obtain any such required consent effective as of the Effective Date, and as a result thereof Operator shall be prevented by such third party from receiving the rights and benefits with respect to any such contract or purchase order intended to be transferred hereunder, or if any attempted assignment would adversely affect the rights of the Non-Operator Owner thereunder so that Operator would not in fact receive all such rights or the Non-Operator Owner would forfeit or otherwise lose the benefit of rights that the Non-Operator Owner is entitled to retain, the Non-Operator Owner and Operator shall cooperate to implement any lawful and commercially reasonable arrangement as the Non-Operator Owner and Operator shall agree, under which Operator would, to the extent practicable, obtain the claims, rights and benefits under such contract or purchase order and assume the burdens and obligations with respect thereto, including by the Non-Operator Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such contracts or purchase orders; provided, however, that the Non-Operator Owner and WPCo shall each bear its respective share of the costs and expenses under any such contract or purchase order in accordance with this Agreement and the Ownership Agreement. The Non-Operator Owner and Operator shall continue to cooperate to assign, transfer or convey to Operator any such contract or purchase

order that remain held by the Non-Operator Owner and to otherwise arrange for Operator to directly contract with the applicable third party for any renewal contract or purchase upon the expiration or termination of any such contract or purchase order.

3.3 Standards for Performance of the Services. Operator shall use commercially reasonable efforts to perform the Services in accordance with (i) the Manuals, (ii) the applicable Budget and Plan, (iii) Applicable Laws, (iv) Prudent Operation and Maintenance Practices, (v) insurer requirements delivered to Operator by the Owners in writing, (vi) the requirements in the Facility Agreements and (vii) this Agreement. Subject to the other provisions of this Agreement, Operator shall perform the Services and other obligations under this Agreement in a manner consistent with the Operating Committee's directions. The Parties acknowledge and agree that, subject to Operator's compliance with the Standards of Performance, Operator shall have no liability for acting or refraining to act in accordance with the directions of the Operating Committee.

3.4 Dispatch. Operator shall use commercially reasonable efforts to comply with any applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement. Operator shall give the Operating Committee notice as soon as practicable of any inability of the Facility to make the requisite deliveries of energy, capacity or ancillary services and of Operator's plan to restore operation of the Facility. In the case of any interruption, curtailment or reduction in (i) supplies of fuel or (ii) acceptance of energy, capacity or ancillary services by the System Operator or in the case of any other dispatch constraint imposed on the Facility, Operator shall notify the Non-Operator Owner as soon as practicable. Upon removal of the constraint, Operator shall use its commercially reasonable efforts to restore the availability of the Facility for dispatch consistent with applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement.

3.5 Licenses and Permits.

3.5.1 General. Operator shall review all Applicable Laws containing or establishing compliance requirements in connection with the operation ~~and~~, maintenance and Decommissioning of the Facility and shall use commercially reasonable efforts to obtain and maintain, for the benefit of both Owners, all Permits required by Applicable Law for the ownership, operation ~~and~~, maintenance and Decommissioning of the Facility and for Operator's performance of the Services, and shall (i) assist each Owner, at each Owner's written request and such Owner's sole cost and expense, in securing and complying with, as appropriate, all necessary Permits (and renewals of the same), including those relating to air emissions, boiler operation, water usage, septic system operation, wastewater discharge, chemical and other waste (including Hazardous Materials) storage and disposal, emissions testing and safety, and (ii) initiate and maintain precautions and procedures reasonably necessary to comply with Applicable Laws. Any Permit held solely in the name of Operator shall, to the extent necessary for the other Owner's compliance with Applicable Law in its role as an Owner, be held by Operator for the benefit of both Owners. Any Permit held solely in the name of the

Non-Operator Owner shall, to the extent necessary and consistent with Applicable Laws, be made available for the use of the Operator for the benefit of the Owners and, if reasonably necessary to facilitate Operator's operation and maintenance or Decommissioning of the Facility, the Non-Operator Owner shall cooperate with Operator to effect an assignment or other transfer of such Permit to Operator or otherwise submit such Permit modifications or updating information as necessary to reflect the role of Operator with respect to such Permit.

3.5.2 NERC Compliance. Operator (or an Affiliate thereof) shall register with NERC as the "Generator Owner" and "Generator Operator" for the Facility in accordance with 18 C.F.R. § 39.2(c) effective from and after [the Effective Date][1]. On and after [the Effective Date], Operator shall, or shall cause its applicable Affiliate to, (i) maintain compliance with all NERC reliability standards applicable to the Facility and all NERC rules applicable to Operator as Generator Owner and Generator Operator for the Facility in accordance with 18 C.F.R. § 39.2(b), including any actions related to mitigation and compliance enhancement required or implemented thereunder; (ii) provide notice to the Operating Committee promptly following the determination by Operator of any reportable physical or cyber security incident under the NERC reliability standards or other Applicable Law; (iii) maintain and provide documentation and maintenance records to the Operating Committee regarding any operation, testing, maintenance or faults of any generation protection relays, gen-tie relays or any other equipment necessary to fulfill Operator's or its applicable Affiliate's obligations as the Generator Owner or Generator Operator for the Facility; and (iv) provide to the Non-Operator Owner upon written request any other information, documentation and support reasonably necessary for Operator or its applicable Affiliate to demonstrate compliance with the NERC reliability standards. To the extent that any fine or sanction is imposed in respect of the performance of Operator's obligations under this Section 3.5.2 pursuant to Section 215(c) of the Federal Power Act, any cost related thereto shall be a included as an Operating Cost, to the extent permitted by Applicable Law.

3.6 Personnel Matters. Subject to Sections 8.5 and 8.6, and as otherwise set forth in this Section 3.6, Operator shall be responsible for determining the working hours, rates of compensation and all other matters relating to the employment of Operator's Facility Personnel, including the designation or appointment of the Plant Manager, and shall retain sole authority, control and responsibility with respect to its employment policies. Operator shall submit for the Operating Committee's approval the staffing requirements for the Facility on an annual basis. If Operator intends to select a new Plant Manager, or if the individual serving as Plant Manager ceases to be the Plant Manager, Operator shall provide prompt written notice to the Non-Operator Owner of the selection of a substitute Plant Manager.

3.7 No Liens or Encumbrances. Operator shall use commercially reasonable efforts to keep and maintain the Facility free and clear of all liens and Encumbrances resulting from the failure by Operator to perform the Services or the personal debts and obligations of Operator unrelated to its ownership interest in the Facility.

3.8 Emergency Action. In the event of an emergency affecting the safety, health or protection of, or otherwise endangering, any Person, property or the environment located at or

[1] **Note**: Subject to modification if registration cannot be effective as of the Effective Date.

about the Facility (an "Emergency"), Operator shall take prompt action to prevent or mitigate any damage, injury or loss threatened by such Emergency, and shall notify the Non-Operator Owner of such Emergency and Operator's response as soon as practical under the circumstances. To the extent Operator procures goods and services as necessary to respond to an Emergency, such costs shall be treated as Operating Costs.

ARTICLE IV - OBLIGATIONS, RIGHTS AND REPRESENTATIVES OF EACH OWNER

4.1 General. Each Owner expressly reserves the exclusive authority to make, and shall make, such business and strategic decisions as it deems appropriate from time to time in reference to the operation and maintenance of the Facility. Upon request from Operator, the Non-Operator Owner shall promptly furnish or cause to be furnished to Operator, at the Non-Operator Owner's expense, the information, access, materials, instructions and other items described in this Article IV that are in the possession or control of the Non-Operator Owner and which are not otherwise available to Operator. All such items will be made available at such times and in such manner as may be reasonably required for the expeditious and orderly performance of the Services by Operator.

4.2 Information. Subject to the Standards of Performance, Operator shall be entitled to rely upon any information provided by the Non-Operator Owner or any other party to the Facility Agreements in the performance of the Services.

4.3 Access to Facility. Each Owner shall provide Operator and Operator's contractors, vendors, suppliers, employees and agents and Facility Agreement counterparties, to the extent applicable, access to and use of the Facility and the Site and to such Owner's records and data at the Facility.

4.4 Instructions, Approvals, etc. Each Owner shall provide or cause to be provided (including through action of the Operating Committee) to Operator all instructions Operator is required to obtain in accordance with this Agreement. Without limiting the provisions of Section 3.2.2, each Owner shall make available or cause to be available to Operator the benefits of all assets (including Permits and contracts relating to the Facility) held in the name of such Owner, as required for the operation of the Facility. Each Owner shall not direct Operator to take any action inconsistent with Applicable Law or otherwise adversely affecting the safety, health or protection of any person, or property or the environment located at or about the Facility.

ARTICLE V - REPRESENTATIVES, BUDGETS AND REPORTS

5.1 Representatives of Operator. On or as soon as practical after the Effective Date, Operator shall appoint a Project Manager who shall be authorized to represent Operator with each Owner and the Operating Committee concerning Operator's performance of the Services. The Project Manager may be the same individual as the Plant Manager. Operator shall be responsible for all communications, directions, requests and decisions made by its Project Manager at its direction. Operator shall notify the Non-Operator Owner in writing upon the appointment of its Project Manager, and of any successors. The Project Manager has no authority to modify, amend or terminate this Agreement or, absent written notice by Operator to

the contrary, to enter into any other agreement on behalf of Operator other than as provided herein.

5.2 Representatives of Owner; Operating Committee. The Operating Representative of each Owner (pursuant to and as defined in the Ownership Agreement) shall be authorized and empowered to act for and on behalf of such Owner on all matters requiring the consent, approval or other action of an Owner pursuant to this Agreement. Each Owner shall notify Operator and the other Operating Representative in writing upon the appointment of its Operating Representative, and of any successors. Any provision of this Agreement requiring the consent, approval, or similar act of the Operating Committee shall mean the consent, approval, or similar act of the Operating Committee acting in accordance with the terms of the Ownership Agreement.

5.3 Plans and Budgets.

5.3.1 Adoption.

5.3.1.1. Budgets. The initial Budget and Plan for the first Year following the Effective Date is attached as Appendix B hereto.[2] No later than ninety (90) days prior to each operating Year, Operator shall deliver to the Operating Committee for the Operating Committee's review, revision if applicable and approval (i) a proposed annual operating budget, (ii) ~~a~~any proposed ~~annual~~amendments to the capital budget, (iii) an annual operating plan and (iv) a six (6) Year future forecast of operating and capital expenses. Each such proposed budget, plan and forecast shall contain such detail and supporting documentation as reasonably necessary for the Operating Committee's review, and Operator shall provide all such additional information and supporting documentation as may be reasonably requested by the Operating Committee and as required by the Ownership Agreement. The Operating Committee shall review and provide modifications to each such proposed budget, plan and forecast and Operator shall cooperate to revise each such proposed budget and plan to receive the Operating Committee's approval of same by December 1 of each Year. Each Budget and Plan as approved by the Operating Committee or otherwise deemed implemented pursuant to the Ownership Agreement shall remain in effect ~~throughout the applicable Year, subject to revision, amendment and replacement~~ in accordance with the Ownership Agreement. Operator and the Non-Operator Owner by mutual agreement may modify the process and procedures set forth in this Section 5.3.1.

5.3.1.2. Amendments. If either the Non-Operator Owner or Operator becomes aware of facts or circumstances that it believes necessitate a change to a Budget or Plan, that Party shall promptly notify the other Party in writing, specifying the impact upon the Budget and the reasons for the change. The Project Manager shall then discuss appropriate amendments to the Budget with the Operating Committee.

5.3.1.3. Failure to Agree. Operator acknowledges that the Owners retain ultimate authority with respect to expenses incurred for the Facility. Accordingly, Operator shall accept each Budget as determined in accordance with the Ownership Agreement.

[2] **Note**: Initial ~~budget~~budgets and Plan to be attached on the Effective Date.

To the extent that the Operating Committee limits funds for Operating Costs, Operator shall be relieved from performing Services that would incur such non-reimbursable Operating Costs.

5.3.2 Limitations on Variation from Budget. Except as otherwise permitted in response to an Emergency in accordance with Section 3.8, Operator shall obtain the Operating Committee's approval (i) for any expenditures resulting in cumulative budget overruns exceeding ten percent (10%) in the aggregate in any Year with respect to either the operating Budget or capital expense Budget, or (ii) for any unbudgeted expenditure or capital project having a projected cost of more than $100,000.

5.4 Availability of Operating Data and Records. Operator shall deliver Facility data recorded, prepared or maintained by Operator to the Operating Committee: (i) to assist each Owner in complying with requirements of Governmental Authorities, Permits and Facility Agreements; or (ii) upon request by the Non-Operator Owner, in each case as soon as reasonably practicable but in any event within ten (10) Business Days following such request.

5.5 Litigation and Permit Lapses. Upon obtaining actual knowledge thereof, either Party shall submit prompt written notice to the other Party of the following, to the extent relating to the Facility or the Services: (i) any litigation, Claims or actions filed by or with any Governmental Authority; (ii) any actual refusal to grant, renew or extend, or any action filed with respect to the granting, renewal or extension of, any Permit; (iii) all penalties or notices of violation issued or asserted by any Governmental Authority; (iv) any dispute with any Governmental Authority that may affect adversely the Facility in any material respect; and (v) with respect to the matters identified in items (i), (ii), (iii) or (iv), any threats of such matters, which matters may adversely affect the Facility in any material respect.

5.6 Other Information. Operator shall promptly submit to the Non-Operator Owner any material information concerning new or significant aspects of the Facility operations and, upon the Non-Operator Owner's request, shall promptly submit any other information concerning the Facility or the Services.

5.7 Records Maintenance and Retention. Operator shall maintain all records, reports, documents and data, including all data retrievable from an electronic data storage source, for the Facility in accordance with Applicable Law and shall retain and preserve all such records, reports, documents and data created in connection with the operation and maintenance of the Facility, in accordance with Applicable Law, provided that Operator shall notify the Non-Operator Owner in writing at least thirty (30) days prior to the destruction or other disposition of any record, report, document or data. If the Non-Operator Owner gives written notice to Operator prior to the expiration of the 30-day period, Operator shall maintain, at the Non-Operator Owner's expense, custody of such material until the earlier of (i) such time as the Non-Operator Owner notifies Operator to dispose of such material and (ii) seven (7) Years. If the Non-Operator Owner does not provide written notice to Operator prior to the expiration of the 30- day period, Operator may destroy or dispose of such material and shall provide the Non-Operator Owner with a certificate confirming such destruction or disposition.

ARTICLE VI - LIMITATIONS ON AUTHORITY

6.1 Limitations on Authority. Operator has no authority to make policies or decisions with respect to the overall operation or maintenance of the Facility as a commercial enterprise pursuant to the terms of this Agreement. The Owners, acting through the Operating Committee and pursuant to the terms of the Ownership Agreement, shall determine all such matters. Notwithstanding any provision in this Agreement to the contrary, unless previously approved in a Budget and Plan or otherwise approved in writing by the Operating Committee, in connection with Operator's provision of Services hereunder, Operator is prohibited from doing any of the following:

6.1.1 Dispose of Assets. Selling, leasing, pledging, mortgaging, encumbering, conveying, or making any license, exchange or other transfer or disposition of the Facility, the Site or any other property or assets of the Owners, including any property or assets purchased by Operator, the cost of which is an Operating Cost;

6.1.2 Make Expenditures. Making any expenditure or acquiring, on an Operating Cost basis, any goods or services from third parties, except in conformity with a Budget or as otherwise permitted under Section 5.3.2 or as authorized by the Operating Committee; provided, however, that in the event of an Emergency, Operator, without approval from the Owners, is authorized to take all reasonable actions to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.3 Take Other Actions. Taking or agreeing to take any other action or actions the decision for which is reserved exclusively for the Operating Committee pursuant to the Ownership Agreement; provided, however, that in the event of an Emergency, Operator, without approval from the Operating Committee, is authorized to take all reasonable actions to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.4 Act Regarding Lawsuits and Settlements. Settling, compromising, assigning, pledging, transferring, releasing or consenting to the compromise, assignment, pledge, transfer or release of, any material Claim, suit, debt, demand or judgment against or due by the Non-Operator Owner or Operator, the cost of which, in the case of Operator, would be an Operating Cost hereunder, or submitting any such Claim, dispute or controversy to arbitration or judicial process, or stipulating in respect thereof to a judgment, or consent to the same; provided, however, that such prohibition shall not apply to, nor shall it be construed as a release or waiver of, any of Operator's rights or obligations pursuant to this Agreement or any other agreement between the Parties; or

6.1.5 Pursue Transactions. Engaging in any other transaction on behalf of the Non-Operator Owner that is not permitted under this Agreement.

ARTICLE VII - COMPENSATION AND PAYMENT

7.1 General. The Non-Operator Owner shall pay Operator, and WPCo shall bear directly in its capacity as an Owner, its ~~proportionate~~allocated share in ~~respect of its~~accordance with the Ownership ~~Interest~~Agreement of all Operating Costs, all as further described below. All Operating Costs shall initially be paid for by Operator (except as otherwise provided in this

Agreement) and subsequently invoiced monthly in arrears as more fully set forth in this Article VII.

7.2 Costs.

7.2.1 Operating Costs. Subject to the Ownership Agreement and the limitations on expenditures set forth elsewhere in this Agreement (including Section 5.3), the Non-Operator Owner shall reimburse Operator for its ~~proportionate~~allocated share in ~~respect of its~~accordance with the Ownership ~~Interest~~Agreement of the fully loaded costs incurred (whether paid or accrued) in the provision of Services, including for labor, goods, services, capital expenditures, overhead, cost of capital, Taxes (other than income or franchise taxes), Permits and bonds (the "Operating Costs"), in each case in a manner consistent with the example invoice worksheets attached hereto as Appendix C, which shall include such costs with respect to: (i) equipment, material, supplies and other consumables, spare parts, replacement components, tools, office equipment, computer equipment, software, information technology and supplies acquired for use at the Facility; (ii) fuel supply and transportation; (iii) costs associated with special training of Facility Personnel and associated travel and living expenses; (iv) amounts paid under subcontracts, purchase orders and agreements; (v) fees for Permits required to be held by Operator; (vi) community relations and labor relations activities; and (vii) Operator's cost of Facility Personnel (and other employees of Operator and its Affiliates performing the Services) wages, salaries, overtime, employee bonus, customary or required severance payments, unemployment insurance, long-term disability insurance, short term disability payments, sick leave, payroll taxes imposed on wages and benefits, worker's compensation costs and holidays, vacations, group medical, dental and life insurance, defined contribution retirement plans and other employee benefits; (viii) costs of third-party advisors, consultants, attorneys, accountants and contractors retained and managed by Operator in support of, and reasonably allocable to, the Services; (ix) a reasonably allocable portion of the cost of the insurance maintained by Operator in accordance with Section 9.1 on account of its Operator role; (x) costs incurred in response to an Emergency; (xi) any other cost reasonably determined by Operator to be an Operating Cost pursuant to the terms of this Agreement; and (xii) any other activity that Operator is required or requested to perform under this Agreement for the benefit of the Facility or that is approved in a Budget pursuant to the terms of this Agreement.

7.2.2 Invoicing. On or before the twenty-fifth (25th) day of each calendar month during the Term, Operator shall submit invoices to the Non-Operator Owner in form and substance reasonably similar to that attached hereto as Appendix C for Operating Costs incurred during the preceding calendar month (as well as any such costs for any prior period that were not previously invoiced). If any contract or purchase order intended to be assigned, transferred or conveyed to Operator remains held by the Non-Operator Owner as described in Section 3.2.2 and the Non-Operator Owner directly pays costs thereunder for the benefit of the Owners, the invoice submitted by Operator shall net WPCo's ~~proportionate~~allocated share in ~~respect of WPCo's~~accordance with the Ownership ~~Interest~~Agreement of any such costs paid by the Non-Operator for the benefit of the Owners. The Non-Operator Owner shall make payment to Operator of its ~~applicable~~allocated share in accordance with the Ownership Agreement of the invoiced amount ~~based on its proportionate share in respect of its Ownership Interest~~ no later than the Due Date. For the avoidance of doubt, WPCo, in its capacity as an Owner, shall bear

directly its ~~proportionate~~allocated share in ~~respect of its~~accordance with the Ownership ~~Interest~~Agreement of such Operating Costs.

7.3 Cost Audit. The Non-Operator Owner shall be entitled to conduct an audit at its sole cost and expense and review of Operator's records with respect to all Operating Costs together with any supporting documentation for a period of one (1) Year from and after the date of the audited payment. If, pursuant to such audit and review, it is agreed that any amount previously paid by Operator or by an Owner was not properly incurred as an Operating Cost or an adjustment of any such cost is required, Operator shall credit to the Non-Operator Owner or Operator, as applicable, its ~~proportionate~~allocated share in ~~respect of its~~accordance with the Ownership ~~Interest~~Agreement of such amount in the next succeeding invoice or promptly paid in cash if there shall not be further invoices issued.

7.4 Late Payment. To the extent an Owner or Operator fails to pay any amount required to be paid under this Agreement by the Due Date, the unpaid amount shall accrue interest each day at the Late Payment Rate from the Due Date until such amount (plus accrued interest) is paid by the applicable Party in full.

ARTICLE VIII - TERM

8.1 Term. The Term of this Agreement shall commence on the Effective Date and, subject to approval or acceptance of termination by FERC or other Governmental Authority to the extent required, shall end ~~of~~on the date of termination of the Ownership Agreement (the "Term"). Notwithstanding the foregoing, this Agreement and the Term is subject to earlier termination pursuant to Sections 8.2 and 8.3.

8.2 Termination by the Non-Operator Owner for Cause. The Non-Operator Owner shall be permitted to terminate this Agreement if any of the following events occur: (i) the Bankruptcy of Operator; (ii) a payment default by Operator (other than a disputed payment) that Operator fails to cure within ten (10) Business Days after Operator has received written notice of such default; or (iii) a default by Operator in the performance of its obligations under this Agreement that has, or is reasonably expected to have, a material adverse effect on the operations, maintenance or performance of the Facility and Operator has failed to cure or make substantial progress toward curing such default within ninety (90) days of written notice of such failure.

8.3 Termination by Operator. Operator shall be permitted to terminate this Agreement if any of the following events occur: (i) a payment default by the Non-Operator Owner (other than a disputed payment) that is not cured within ten (10) Business Days after the Due Date for any invoice; (ii) the Bankruptcy of the Non-Operator Owner; or (iii) a default by the Non-Operator Owner of any other obligation under this Agreement that has a material adverse effect on Operator's ability to perform the Services and that the Non-Operator Owner has failed to cure or make substantial progress in the reasonable opinion of Operator toward curing within ninety (90) days of written notice of such failure. As soon as practicable after all cost information is gathered following termination, Operator shall invoice the Non-Operator Owner for its ~~proportionate~~allocated share in ~~respect of its~~accordance with the Ownership

~~Interest~~Agreement for Services rendered by Operator through the termination date, including all Operating Costs incurred through the date of termination but not paid.

8.4 Transfer of Facility Custody. Upon expiration or termination of this Agreement, Operator shall leave at the Facility all documents and records, tools, supplies, spare parts, safety equipment, Manuals, and any other items furnished on an Operating Cost basis, all of which shall remain the property of the Owners without additional charge. Operator shall execute all documents and take all other reasonable steps as may be reasonably requested by the Non-Operator Owner to assign to and vest in a replacement provider of Services all of its pro-rata rights, benefits, interests and title in connection with any subcontracts Operator executed in its own name for the benefit of the Facility and the Owners.

8.5 Services Upon Termination.

8.5.1 Upon notice of termination of this Agreement by either Operator or the Non-Operator Owner, unless the Non-Operator Owner is then in default of its payment obligations under this Agreement, the Non-Operator Owner shall have the right to specify a period of transition of no longer than nine (9) months (the "Termination Transition Period") during which Operator shall: (i) continue to provide Services at the Facility in accordance with this Agreement; (ii) cooperate with the Non-Operator Owner in planning and implementing a transition to any replacement provider of Services; (iii) use its commercially reasonable efforts to minimize disruption of Facility operations in connection with such transition activities; (iv) make all requisite regulatory filings as promptly upon commencement of the Termination Transition Period, subject to cooperation of the Parties; (v) transfer all Permits, licenses, registrations, approvals and contracts to the Non-Operator Owner or such replacement operator, in each case, as requested by the Non-Operator Owner; and (vi) take all actions incidental thereto and as reasonably requested by the Non-Operator Owner. The provisions of Article VII shall continue to apply during the Termination Transition Period. To facilitate employee transfer, Operator shall permit the replacement service provider and the Non-Operator Owner to interview such Facility Personnel for potential positions with such replacement operator in a manner and at times that do not interfere with Operator's responsibility to perform the Services. If Operator or one of its Affiliates continues to own a portion of the Facility, Operator shall, or shall cause its Affiliates to, reasonably cooperate to allow a successor operator to operate the Facility after the termination of this Agreement, including by granting access rights and executing other instruments as may be reasonably requested by the Non-Operator Owner and any replacement operator.

8.5.2 Any modifications to the ownership and operation of the Facility, including any termination of this Agreement, shall be subject to any required regulatory or administrative filings and approvals.

8.6 Plant Manager Replacement. Upon (i) commencement of the Termination Transition Period or (ii) the occurrence of any of the conditions described in Section 8.2, the Non-Operator Owner may designate a qualified individual with significant experience as a project manager or similar senior operating role in respect of the management and operation of

large coal-fired generation facilities with similar operating characteristics as the Facility to replace the existing Plant Manager and who shall upon such appointment be the Plant Manager.

ARTICLE IX - INSURANCE

9.1 Operator Insurance Requirements.

9.1.1 Commencing with the performance of the Services hereunder, and continuing until the termination of this Agreement, Operator (and any tier subcontractors) shall maintain or cause to be maintained occurrence form (if written on a claims -made policy form, be maintained with a retroactive date that is prior to this Agreement Effective Date for a period of at least three (3) Years following the last Year in which such policy provides coverage under the terms of this Agreement) insurance policies as follows: (i) Workers' Compensation in accordance with the statutory requirements of the state in which the Services are performed and Employer's Liability Insurance of not less than one million Dollars ($1,000,000) each accident/employee/disease; (ii) Commercial General Liability Insurance having a limit of at least one million Dollars ($1,000,000) per occurrence/two million Dollars ($2,000,000) in the aggregate for contractual liability, personal injury, bodily injury to or death of Persons, and/or loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) Years after completion), premises and operations liability and explosion, collapse, and underground hazard coverage; (iii) Commercial/Business Automobile Liability Insurance (including owned (if any), non-owned or hired autos) having a limit of at least one million Dollars ($1,000,000) each accident for bodily injury, death, property damage and contractual liability and no fellow employee exclusion; (iv) Umbrella/Excess Liability insurance with limits of at least twenty-four million Dollars ($24,000,000) per occurrence and follow form of the underlying Employer's Liability, Commercial General Liability and Auto Liability insurance, and provide at least the same scope of coverages thereunder; (v) if Operator will be handling environmentally regulated or Hazardous Materials, coverage for sudden/accidental occurrences for bodily injury, property damage, environmental damage, cleanup costs and defense with a minimum of one million Dollars ($1,000,000) per occurrence; and (vi) "all-risk" or its equivalent property insurance providing coverage risks of physical damage to the Facility or Facility Equipment in an amount in accordance with Good Utility Practice.

9.1.2 Unless otherwise determined by the Operating Committee that the Operator should purchase capacity insurance on behalf of both Owners, Operator (including in its capacity as an Owner) and Non-Operator Owner may each procure individually, in ~~proportion to their~~respect of its fifty percent (50%) Ownership ~~Interests~~Interest, PJM Interconnection, L.L.C. capacity performance insurance on terms and conditions, and placed with insurance companies, reasonably acceptable to the Operator or such Owner, as applicable. Operator shall make such certifications relating to the operation, maintenance and condition of the Facility from time to time during the Term as may be reasonably necessary in connection with the procurement or maintenance of such insurance coverage by Operator and the Non-Operator Owner and any other insurance policies of either Owner that may relate to coverage pertaining to or affecting an Owner's Ownership Interest.

9.2 Form and Content. All insurance policies provided and maintained by Operator and each subcontractor shall: (i) be underwritten by insurers that are rated A.M. Best "A- VII" or higher; (ii) specifically include the Non-Operator Owner and its directors, officers, employees, affiliates, subcontractors, and joint owners of any facilities as additional insureds for their liability arising out of the acts or omissions of Operator, including for completed operations, with respect to Operator's acts, omissions, services, products or operations, whether in whole or in part, excluding, however, for Workers' Compensation/Employer's Liability insurance, Pollution Legal Liability insurance, and "all-risk" property insurance; (iii) be endorsed to provide, where permitted by law, waiver of any rights of subrogation against an Owner and its directors, officers, employees, affiliates and subcontractors, and joint owners of any facilities; (iv) provide that such policies and additional insured provisions are primary with respect to the acts, omissions, services, products or operations of Operator or its subcontractors, to the extent of Operator's negligence, (v) contain standard separation of insured and severability of interest provisions except with respect to the limits of the insurer's liability; and (vii) not have any cross-liability exclusion, or any similar exclusion that excludes coverage for Claims brought by additional insureds under the policy against another insured under the policy; Any deductibles or retentions shall be the sole responsibility of Operator and its subcontractors. Evidence of such coverage shall be provided in the form of Operator's certificate of insurance furnished to the Non-Operator Owner prior to the Effective Date, upon any policy replacement or renewal and upon the Non-Operator Owner's request. Operator shall provide at least thirty (30) days' prior written notice to the Non-Operator Owner prior to cancellation of any policy (or ten (10) days' notice in the case of non-payment of premium).

ARTICLE X - INDEMNIFICATION

10.1 Operator Indemnification. Subject to the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner and its Affiliates, and their respective officers, directors, employees, managers, members, agents and representatives (collectively, the "Non-Operator Owner Indemnitees"), from and against, and no Non-Operator Owner Indemnitee shall be responsible for any and all Liabilities incurred, assessed, sustained or suffered by any Non-Operator Owner Indemnitee to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement. Any Liabilities paid by Operator pursuant to its indemnity obligation under this Section 10.1 shall in no event be considered Operating Costs hereunder.

10.2 Owner Indemnification. Subject to the limitations of liability in Section 11.1, each Owner shall, severally with respect to its ~~proportionate~~fifty percent (50%) share in respect of its Ownership Interest and not jointly, indemnify and hold harmless Operator and its Affiliates, and their respective officers, directors, employees, agents and representatives (collectively, the "Operator Indemnitees"), from and against, and no Operator Indemnitee shall have responsibility for, any and all Liabilities to a third party incurred, assessed, sustained or suffered by or against any Operator Indemnitee arising from or relating to the Facility or the ownership, operation or maintenance thereof or Operator's performance under this Agreement, except to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its

~~proportionate~~fifty percent (50%) share of Liabilities under this Section 10.2 in respect of its Ownership Interest.

10.3 Environmental Indemnification.

10.3.1 Owner Indemnity for Environmental Liabilities. Subject to the limitations of liability in Section 11.1, and without in any way limiting the provisions of Section 10.3.2, each Owner shall, severally with respect to its ~~proportionate~~fifty percent (50%) share in respect of its Ownership Interest and not jointly, indemnify and hold harmless the Operator Indemnitees, from and against, and no Operator Indemnitees shall have responsibility for, any and all Liabilities, including all civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Operator Indemnitees, as applicable, as a result of or in connection with any matters governed by Environmental Laws directly or indirectly related to or arising out of (i) the design, permitting or construction of the Facility or the condition of the Site, and any adjacent parcels; (ii) the operation, maintenance, ownership, control or use of the Facility or otherwise related to the Facility; and (iii) the offsite transportation, treatment or disposal of all wastes generated at the Facility and any properties included within or adjacent to the Site, whether occurring before or after the Effective Date (collectively, "Environmental Liabilities"), including any Environmental Liabilities arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials; provided, however, that the Environmental Liabilities for which WPCo is obligated to indemnify any Operator Indemnitees under this Section 10.3.1 shall not in any event include any Operator Environmental Liabilities for which Operator is liable under Section 10.3.2. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its ~~proportionate~~fifty percent (50%) share of Environmental Liabilities under this Section 10.3.2 in respect of its Ownership Interest.

10.3.2 Operator Indemnity for Environmental Liabilities. Subject to the provisions of Section 10.1 and the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner Indemnitees from and against, and no Non-Operator Owner Indemnitee shall be responsible hereunder for any Liabilities, including any civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Person as a result of or in connection with any breach or violation of or any other matters governed by Environmental Laws to the extent caused by the gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law or willful breach of this Agreement by Operator (the "Operator Environmental Liabilities"). Operator understands and agrees that any Operator Environmental Liabilities paid by Operator pursuant to this Section 10.3.2 shall not be Operating Costs hereunder.

10.3.3 Governmental Actions. During the Term, Operator shall use commercially reasonable efforts to cooperate with and assist the Owners with their acquisition of data and information, and preparation and filing with appropriate Governmental Authorities of any notices, plans, submissions, or other materials and information necessary for compliance by the Owners with applicable Environmental Laws and the requirements of any Permits related to the Facility. All such environmental reports shall be submitted by, and in the names of, both Owners. All costs associated therewith, including the costs of any outside consultants, legal

services, Governmental Authority charges, sampling and remedial work shall be paid by the Owners as an Operating Cost, and the Non-Operator Owner shall reimburse WPCo to the extent of the Non-Operator Owner's pro rata share, unless such costs are incurred arising out of or associated with Operator Environmental Liabilities that are subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof. Nothing contained herein shall be construed as requiring Operator to take any corrective action with respect to the operation, maintenance, use or condition of the Facility unless (x) affirmatively and expressly directed in writing to so do by the Operating Committee and appropriate funding is made available, or (y) affirmatively and expressly directed to do so by a Governmental Authority, in order to comply with any Environmental Law, in which case the cost of any corrective actions so undertaken shall be deemed an Environmental Liability subject to Section 10.3.1 hereof (if not otherwise reimbursed as an Operating Cost hereunder), unless such Environmental Liability arises out of or is associated with Operator Environmental Liabilities subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof.

ARTICLE XI - LIABILITIES OF THE PARTIES

11.1 Limitations of Liability. Notwithstanding any provision in this Agreement that may be susceptible to contrary interpretation, neither the Parties nor any Non-Operator Owner Indemnitees or Operator Indemnitees shall be liable for consequential or indirect loss or damage, including loss of profit, cost of capital, loss of goodwill, increased Operating Costs, or any special or incidental damages; provided, however, that notwithstanding the foregoing, in no event will the foregoing limitations of liability be applied to limit the extent of the liability of either Party to the other for or with respect to any Claims of third parties. The Parties further agree that the waivers and disclaimers of liability, indemnities, releases from liability and limitations of liability expressed in this Agreement shall survive termination or expiration of this Agreement, and shall apply in all circumstances, whether in contract, equity, tort or otherwise, regardless of the fault, negligence (in whole or in part), strict liability, breach of contract or breach of warranty of the Party indemnified, released or whose liabilities are limited, and shall extend to the Non-Operator Owner Indemnitees and Operator Indemnitees.

11.2 Operator's Total Aggregate Liability. Except in the case of actual fraud, the total liability of Operator to the Non-Operating Owner for all Liabilities arising out of, connected with or resulting from any events occurring or claims made in connection with this Agreement, whether based in contract, warranty, tort, strict liability or otherwise, shall not exceed, in the aggregate, the sum of (i) an amount equal to twenty-five percent (25%) of the Operating Costs, but excluding Operating Costs relating to any services, goods, inventory and equipment provided hereunder by third parties other than Operator's Affiliates, incurred pursuant to this Agreement in the prior twelve (12) month period, *plus* (ii) the Non-Operating Owner's ~~proportionate~~fifty percent (50%) share of any insurance proceeds actually received by the Operator or paid on the Operator's behalf with respect to the relevant loss or damages under the insurance policies procured by the Operator pursuant to Section 9.1.

11.3 No Warranties or Guarantees.

11.3.1 EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES OR GUARANTEES TO THE OTHER,

EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SUBJECT MATTER OF THIS AGREEMENT, AND BOTH PARTIES DISCLAIM AND WAIVE ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT.

11.3.2 OPERATOR IS ACTING AS AGENT OR OTHERWISE AS A RESELLER WITH RESPECT TO ALL SERVICES, GOODS, INVENTORY AND EQUIPMENT PROVIDED HEREUNDER BY THIRD PARTIES OTHER THAN OPERATOR'S AFFILIATES, AND, AS SUCH, DOES NOT PROVIDE ANY WARRANTY FOR SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT PROVIDED HEREUNDER. ALL SUCH THIRD PARTY SERVICES, GOODS, INVENTORY AND EQUIPMENT ARE PROVIDED AS IS, WHERE IS, WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT. THE SOLE REMEDY IN CONNECTION WITH ANY DEFECTS IN OR FAILURES OF SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT (WHETHER A CLAIM FOR SUCH DEFECT ARISES UNDER CONTRACT, TORT, STRICT LIABILITY, STATUTE, OR ANY OTHER LEGAL OR EQUITABLE THEORY OR PRINCIPLE INCLUDING NEGLIGENCE) SHALL BE TO SEEK RECOURSE EXCLUSIVELY FROM THE COUNTERPARTIES TO THE THIRD PARTY CONTRACTS, UNLESS THE DEFECT WAS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES.

ARTICLE XII - CONFIDENTIALITY

12.1 General. During the Term, and for the later of three (3) Years after the termination of this Agreement or five (5) Years after receipt of the applicable Confidential Information, each Party shall hold in confidence any Confidential Information supplied by or on behalf of the other Party. Each receiving Party further agrees to require its contractors, vendors, suppliers and employees, agents or prospective purchasers to preserve the confidentiality of Confidential Information. The receiving Party may make necessary disclosures to third parties directly engaged in the operation, ownership or financing of the Facility if such third parties are under an obligation to receive and hold such Confidential Information in confidence.

12.2 Exceptions. The provisions of this Article XII do not apply to information within one or more of the following categories:

12.2.1 Public Domain. Information that was in the public domain prior to the receiving Party's receipt or that subsequently becomes part of the public domain by publication or otherwise, except by the receiving Party's or its Affiliate's wrongful act.

12.2.2 Prior Receipt. Information that the receiving Party can demonstrate was in its possession prior to receipt thereof from the disclosing Party so long as such possession did not result from a violation of a confidentiality obligation.

12.2.3 Third Party Delivery. Information received from a third party having no obligation of secrecy with respect thereto.

12.2.4 Permitted Disclosures. Information disclosed by an Owner to Lenders or prospective Lenders, equity investors or prospective equity investors, prospective purchasers, consultants, attorneys, accountants and other designated agents in each case on a confidential, need-to-know-basis.

12.2.5 Regulatory Filings. Information required to be disclosed by an Owner in connection with any required regulatory or administrative filings.

12.3 Required Disclosure. Notwithstanding the forgoing, any receiving Party required by law, rule, regulation, subpoena or order, or in the course of regulatory, administrative or judicial proceedings, to disclose Confidential Information that is otherwise required to be maintained in confidence pursuant to this Article XII, may make disclosure notwithstanding the provisions of this Article XII. Prior to doing so, the receiving Party, promptly upon learning of the requirement, shall notify the disclosing Party of the requirement and cooperate to the maximum extent practicable to minimize the disclosure of Confidential Information. Any receiving Party disclosing Confidential Information pursuant to this Section 12.3 shall use reasonable efforts, at the disclosing Party's cost, to obtain proprietary or confidential treatment of Confidential Information by the third party to whom the information will be disclosed, and to the extent such remedies are available, shall use commercially reasonable efforts to seek protective orders limiting the dissemination and use of Confidential Information. Nothing in this Agreement is intended to prevent the disclosing Party from appearing in any proceedings and objecting to the disclosure.

ARTICLE XIII - TITLE, DOCUMENTS AND DATA

13.1 Materials and Equipment. Operator shall use commercially reasonable efforts to cause title to all materials, equipment, supplies, consumables, spare parts and other items purchased or obtained by Operator on an Operating Cost basis ("Facility Equipment") to pass directly from the vendor or supplier to, and vest in, each Owner to the extent of such Owner's Ownership Interest. Operator shall have no title or other claim to such items other than in its capacity as an Owner of the Facility.

13.2 Documents. All Manuals, operational data, Facility drawings, Operator reports and records and other materials and documents (both paper and electronic) created by Operator, its Affiliates or their respective employees, representatives or contractors in connection with performance of the Services are the property of each Owner to the extent of its pro-rata ownership share of the Facility. All such materials and documents shall be available for review by the Non-Operator Owner at all reasonable times during development and promptly upon completion. All such materials and documents required to be submitted for the approval of the Operating Committee shall be prepared and processed in accordance with the requirements and

specifications set forth herein. However, the Operating Committee's approval of materials and documents submitted by Operator shall not relieve Operator of its responsibility to perform it obligations under this Agreement.

13.3 Proprietary Information. Where materials or documents prepared or developed by Operator or its Affiliates, or their respective employees, representatives or contractors, contain proprietary or technical information, systems, techniques or know-how previously developed by them or acquired by them from third parties (the "Operator Proprietary Information"), the Non-Operator Owner shall have an irrevocable license to use such Operator Proprietary Information to the extent necessary for the operation or maintenance of the Facility at no additional cost to the Non-Operator Owner.

ARTICLE XIV - MISCELLANEOUS PROVISIONS

14.1 Assignment. This Agreement shall not be assignable, in whole or in part, by a Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed, except that this Agreement may be (i) collaterally assigned by an Owner without such consent to a Lender in connection with such Lender's financing of such Owner's Ownership Interest and (ii) assigned by an Owner (in whole but not in part) without such consent ~~in connection with~~to the ~~sale or transfer of the Facility~~transferee of its Ownership Interest, whether by merger, division, sale of equity interest, or otherwise, in each case, solely to the extent that such transfer of ~~ownership in the Facility~~its Ownership Interest is in accordance with the Ownership Agreement. Any assignment pursuant to this Section 14.1 shall not relieve the assigning Party of any of its obligations under this Agreement that arose prior to the date of such assignment. This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties.

14.2 Effect of Bankruptcy. The Parties intend that, in the event of a Bankruptcy, payments required under this Agreement shall be deemed to be administrative expenses as defined in 11 U.S.C. §503.

14.3 Access. The Non-Operator Owner and Lenders and their agents and representatives shall have access to the Facility, all Facility operations and any documents, materials and records and accounts relating to the Facility operations for purposes of inspection and review. Upon the request of the Non-Operator Owner and its agents and representatives, Operator shall provide such Persons with access to all data and logs Operator maintains regarding the Facility. During any inspection or review of the Facility, the Non-Operator Owner and Lenders and their agents and representatives shall comply with all of Operator's safety and security procedures, and shall conduct inspections and reviews in such a manner as to cause minimum interference with Operator's activities. Operator also shall cooperate with the Non-Operator Owner in allowing its agents and representatives access to the Facility.

14.4 Subcontractors; Subagents.

14.4.1 Operator shall have the right to hire third-party subcontractors or to acquire rights from third parties to provide all or part of any Services hereunder without the prior

consent of the Operating Committee. The cost of such third-party Services or acquisition of such rights shall be Operating Costs in accordance with Section 7.2.1.

14.4.2 Operator may delegate any obligations hereunder to one or more Affiliates, or designate one or more Affiliates as subagents for the performance of its obligations, and, to the extent such Affiliate performs or acts as subagent with respect to any obligation of Operator hereunder, such Affiliate shall enjoy the rights and benefits of Operator pursuant to this Agreement (including, for the avoidance of doubt, Article X and Article XI hereof).

14.5 Not for Benefit of Third Parties. Except where a contrary intention is expressly stated, this Agreement and each provision hereof are for the exclusive benefit of the Parties that executed this Agreement and not for the benefit of any third party.

14.6 Force Majeure.

14.6.1 Events Constituting Force Majeure. A "Force Majeure Event" is any event that (i) restricts or prevents performance under this Agreement, (ii) is not within the reasonable control of the Party affected or caused by the fault or negligence of the affected Party and (iii) cannot be overcome or avoided by the exercise of due care. Force Majeure Events include, so long as in each case the requirements of the foregoing clauses (i), (ii) and (iii) are satisfied, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, tornado or other unusually severe storm or environmental conditions, epidemic, war (whether declared or undeclared), terrorism (whether domestic or foreign, state-sponsored or otherwise), revolution, insurrection, riot, civil disturbances, protests, sabotage (but not including any sabotage involving personnel of Operator), work stoppages (i.e., strikes) (but not including any work stoppages or strikes involving any personnel of Operator, whether on-site or off-site), accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Facility, other acts or omissions of any Governmental Authority, including any form of compulsory government acquisition or condemnation of all or part of the Facility (including a "taking"), restraint by court order, changes in Applicable Law that affect performance under this Agreement, other acts of Governmental Authorities including in response to any of the foregoing. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default in respect to any obligation if and to the extent that performance of such obligation is prevented by a Force Majeure Event. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations.

14.6.2 Notice. If a Party's ability to perform its obligations under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event, its cause, its anticipated duration and any action being taken to avoid or minimize its effect and confirm the same in writing within three (3) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) work diligently to remove the cause of the Force Majeure Event or to lessen its effect.

14.6.3 Scope. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than necessary. The excused Party shall use its reasonable best efforts to remedy its inability to perform.

14.7 Dispute Resolution. Any and all disputes shall be resolved pursuant to the dispute resolution procedures set forth in the Ownership Agreement.

14.8 Amendments. No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Parties.

14.9 Survival. Notwithstanding any provisions to the contrary, the obligations set forth in Article VII and Article VIII, Article X, Article XI and Article XII, Article XIV the limitations on liabilities set forth in Article XI will survive, in full force, the expiration or termination of this Agreement.

14.10 No Waiver. No delay, waiver or omission by the Non-Operator Owner or Operator to exercise any right or power arising from any breach or default by the Non-Operator Owner or Operator with respect to any of the terms, provisions or covenants of this Agreement shall be construed to be a waiver by the Non-Operator Owner or Operator of any subsequent breach or default of the same or other terms, provisions or covenants on the part of the Non-Operator Owner or Operator.

14.11 Notices. Any written notice required or permitted under this Agreement shall be deemed to have been duly given on the date of receipt, and shall be either delivered personally to the Party to whom notice is given, or mailed to the Party to whom notice is to be given, by facsimile, courier service or first-class registered or certified mail, return receipt requested, postage prepaid, and addressed to the addressee at the address indicated below, or at the most recent address specified by written notice given in the manner provided in this Section 14.11:

If to Operator:

14.12 Representations and Warranties. Each Party represents and warrants to the other Party that, as of the date hereof:

14.12.1 Existence. It is duly organized and validly existing under the laws of the state of its organization and has all requisite power and authority to own its property and

assets and conduct its business as presently conducted or proposed to be conducted under this Agreement.

14.12.2 Authority. It has the power and authority to execute and deliver this Agreement, to consummate the transactions contemplated hereby and to perform its obligations hereunder.

14.12.3 Validity. It has taken all necessary action to authorize its execution, delivery and performance of this Agreement, and this Agreement constitutes the valid, legal and binding obligation of such Party enforceable against it in accordance with its terms, except as such enforcement may be limited by Bankruptcy, insolvency, moratorium or similar laws affecting the rights of creditors or by general equitable principles (whether considered in a proceeding in equity or at law).

14.12.4 No Conflict. Neither the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, nor the fulfillment of the terms and conditions hereof, conflicts with or violates any provision of its constituting documents.

14.12.5 No Consent. No consent or approval (including any Permit that such warranting Party is required to obtain) is required from any third party (including any Governmental Authority) for either the valid execution and delivery of this Agreement, or the performance by such Party of its obligations under this Agreement, except such as have been duly obtained or will be obtained in the ordinary course of business.

14.12.6 No Breach. None of the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, or the fulfillment of the terms and conditions hereof either conflicts with, violates or results in a breach of, any Applicable Law currently in effect, or conflicts with, violates or results in a breach of, or constitutes a default under or results in the imposition or creation of, any lien or Encumbrance under any agreement or instrument to which it is a party or by which it or any of its properties or assets are bound.

14.12.7 No Material Claims. It is not a party to any legal, administrative, arbitral or other proceeding, investigation or controversy pending or threatened that would adversely affect such Party's ability to perform its obligations under this Agreement.

14.13 Additional Representation and Warranty by Operator. Operator further represents and warrants to the Non-Operator Owner that it has, or has obtained through the retention of a qualified operations and maintenance service provider, substantial expertise and experience in the operation and maintenance of comparable power generation facilities and it, or its applicable subcontractor, is fully qualified to provide such services at the Facility in accordance with the terms of this Agreement.

14.14 Counterparts. The Parties may execute this Agreement in counterparts that, when signed by each of the Parties, constitute one and the same instrument. Thereafter, each counterpart shall be deemed an original instrument as against any Party who has signed it.

Delivery of an executed counterpart of this Agreement by facsimile or electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

14.15 Governing Law; Venue; Waiver of Jury Trial. The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of Ohio, exclusive of the conflicts-of-law provisions thereof that would require the application of the laws of a different jurisdiction. Each Party hereby submits to the non-exclusive jurisdiction of the courts of the State of Ohio, the United States District Court for the Southern District of Ohio and the appellate courts having jurisdiction over any appeals from such courts in connection with any action arising out of or relating to this Agreement and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or such action was brought in an inconvenient court. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

14.16 Interpretation. Titles or captions contained in this Agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, describe or otherwise affect the scope or meaning of this Agreement or the intent of any provision hereof. All exhibits and appendices attached hereto are considered a part hereof as though fully set forth herein. This Agreement was jointly drafted and negotiated by the Parties. In the event of a dispute, this Agreement shall not be construed against either Party based upon its drafting.

14.17 Severability. If any provision of this Agreement, or the application of any such provision to any Person or circumstance, is held invalid by any court or other forum of competent jurisdiction, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those as to which it is held invalid, shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner materially adverse to a Party. Upon any such determination of invalidity, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that this Agreement is consummated as originally contemplated to the greatest extent possible.

APPENDIX A – SCOPE OF SERVICES

Routine Services	Provide operational services as reasonably necessary for electrical power generation.
Detailed Programs	Implement Operator human resources program. Implement Operator-drafted, Owner-approved programs in safety, administration, maintenance, and training. Implement Facility's existing programs in operating, maintenance, chemistry, NERC and environmental compliance (or, at the Operating Committee's request, develop or enhance such programs at actual cost and implement). Ensure compliance with NERC requirements, Environmental Law, Applicable Law, and all Permits.
Routine Maintenance	Perform routine and preventive maintenance actions on all Facility systems and equipment in accordance with vendor instructions and the maintenance plan for the Facility. This program includes: **Service Checks** – Conduct visual equipment inspections and log significant parameters such as pressures, temperatures, and flow rates. Trend and analyze this information as appropriate. **Routine and Fixed Interval Maintenance** –Identify preventive maintenance requirements. Schedule and assign routine maintenance during Facility operation, planned outages, and forced or unscheduled outages.
Predictive Maintenance Program	As appropriate, conduct/oversee predictive maintenance within the cost-effective capability of the Facility Personnel. For those maintenance requirements that are not cost-effective for the Facility Personnel, oversee predictive maintenance services provided by vendors.
Major Maintenance and Repairs	In coordination with and support of the Facility Agreements and generation plan, arrange for scheduled inspections and overhauls on major equipment. Retain vendors for the benefit of the Owners for unscheduled major repairs as required and manage and oversee repairs and modifications.
Capital Improvements	Conduct/oversee all capital improvements. As appropriate, retain vendors for the benefit of the Owners to design, construct and implement capital improvements.
Facility Outages	Use commercially reasonable efforts to manage all Facility outages (planned, unscheduled, forced) to optimize outage duration and impact on production: **Task Assignment** – Identify and schedule all maintenance that requires a Facility outage or equipment to be taken out of service.

	Work Schedule – Develop and implement a schedule to track material outage preparations, work and testing, including corrective maintenance actions, contractor work and scheduled preventive maintenance. Conduct preparations to support this plan, including ordering and receiving required spare parts.
Assistance to the Non-Operator Owner and Operating Committee	Provide assistance to the Non-Operator Owner and the Operating Committee, as reasonably requested with the execution of the Non-Operator Owner's and the Operating committee's duties relative to operation of the Facility.
Facility Administration	Conduct administration to meet Operator requirements and Owners' goals, including: **Budgets** – Prepare annual Budgets and submit them for Operating Committee approval in accordance with the Ownership Agreement and this Agreement. Following approval, manage operations and expenditures to comply with each Budget. Generate budget variance reports, as required. **Procurement** – Establish and implement a purchasing system. Procure, for the benefit of the Owners, including negotiations and contracting, for all materials, equipment, chemicals, supplies, services, parts, and other miscellaneous items required for the provision of the Services. Pay all invoices in a timely manner. Provide credit support as required by third parties for the operation of the Facility, including contract counterparties and Governmental Authorities. Minimize Owner costs as much as feasible. **Inventory Control** – Implement a cost-effective inventory control system designed to ensure that spare parts, materials, and supplies are properly stored and accounted for and that adequate supplies are available at all times to support the provision of the Services. **Personnel Matters** – In compliance with Operator programs and policies, manage all payroll and employee relations, labor relations, and independent contractor issues, as required. These tasks include: employment; compensation and benefits; initial training; and employee and independent contractor relations. Provide reasonable support to recruit, hire, transfer, or otherwise acquire and retain qualified Facility Personnel to maintain the staffing levels and skill mix required for successful long-term provision of the Services. **Community Relations** – In coordination with and with the approval of the Operating Committee, conduct a community relations program to establish the Facility and its employees as "good citizens" in the local community.

	Regulatory – Perform all duties set forth in Section 7.8 of the Ownership Agreement with respect to Emission Allowances (as defined therein).
Work Assignment	Assign work to either Facility Personnel or vendors as cost-effective and appropriate based on overall guidance from the Operating Committee. Normally, Facility Personnel conduct preventive maintenance and actions requiring a high degree of Facility knowledge and vendors perform tasks needing equipment or expertise that are not cost-effective to maintain at the Facility. Vendors also perform tasks that make sense to minimize outage time and costs.
Buildings and Grounds	Arrange for janitorial, garbage pickup and landscape services and maintain all access roads, office buildings, and other structures in reasonable repair.
Reports	Prepare and submit operation and maintenance service reports as requested relative to performance, including environmental compliance records, maintenance and repair status, Facility operating data, and any other information reasonably requested by the Operating Committee or the Non-Operator Owner.
Security	Implement or arrange for implementation of security measures in accordance with the Operating Committee-approved Facility security plan.
Safety	Continue to implement Corporate and Plant Level Safety Programs including on-site visits and discussions at the facility.
PJM Capacity Analysis	Analysis and plant level information to PJM as part of PJM's FRR or RPM Capacity Market requirements
Information Systems	Manage the Facility's information technology infrastructure, including phone systems, internet connectivity, hardware and software. Implement or arrange for implementation of cybersecurity policies and procedures in compliance with NERC requirements and Applicable Law, in accordance with the Operating Committee-approved Facility cybersecurity plan.
Training Program	Implement a continuing program of training designed to orient new Facility Personnel, refresh/cross-train existing Facility Personnel, qualify/re-qualify Facility Personnel, and keep all Facility Personnel aware of Operating Committee -approved Facility safety requirements and emergency procedures. This program includes specialty skills training.
Drawing/Manual Maintenance	Maintain the Facility library and update the Manuals and vendor service manuals. Update (or arrange for updating) Facility drawings to reflect changes to the as-built configuration. In addition to

	document management, maintain physical Facility configuration control.
Fuel Purchasing and Handling	• Procure coal, reagents, fuel oil supply or transportation service agreements as needed to operate the Facility and establish and maintain reserves of coal in common stock piles of such quality and in such quantities as the Operating Committee shall determine • Contract administration for Fuel supply contracts along with legal review. • Third Party Settlements of fuel related supply and inventory tracking in ComTrac system • Joint Books Accounting to prepare information for billing among co-owners per agreement • Analysis of fuel related costs for data requests from regulatory bodies or joint owner • Provide fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by the Facility during each month. • Receive coal and provide fuel handling • Fuel coordinator functions to review fuel quality with third party suppliers at coal or limestone facilities. • Administer and reconcile volumes of all fuel with suppliers • Administer and comply with the requirements set forth in the Facility's fuel agreements, including quality testing and invoice review and approval • Administer and comply with the requirements set forth in the Facility's coal ash, gypsum and combustion byproduct disposal and sales agreements, including invoice review and approval
Day Ahead and Real Time Market Operations	• Unit Generation Dispatch – Monitor signals and take direction from PJM for generating units. Relay these directions, commitments and settings to the Unit Operators and Controls. Relay information on real time unit conditions to Transmission Owner (TO) and PJM. • GADS Reporting – Create GADS events as they are scheduled

	or occur. Submit monthly event reporting as required by NERC and PJM. • Outage Support and Communications to PJM – Relay outage/curtailment information from plant personnel to PJM. Schedule maintenance and planned outages/curtailments, and maintain updates as they arise. • Unit Characteristic Updates to PJM – Provide any relevant configuration updates related to generating units to PJM that may occur. • Telemetry – Maintain current real time telemetry to/from the plant, PJM and Market Operations control center.
Administration of Contracts	• Administer, perform and enforce all contractual obligations and arrangements, including all warranties applicable thereto, entered into by Operator for the benefit of the Owners with respect to the Facility • Act as agent on behalf of the Non-Operating Owner with respect to the administration, performance and enforcement of any contracts or purchase orders (including fuel supply or transportation contracts) with respect to the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date
Insurance	• Procure on behalf of each Owner such property and other insurance policies as required by the insurance program established by the Operating Committee in accordance with the Ownership Agreement.
~~**Facility Retirement and**~~ **Decommissioning**	• Manage and contract with vendors and other parties to ~~implement a Facility and/or Site retirement and decommissioning plan~~perform Decommissioning Work. This includes the management of required regulatory filings, permitting, engineering assessments, and the contracting for demolition and or liability transfers. Upon mutual agreement between Operator and the Operating Committee, Operator may conduct all or a portion of the Facility and/or Site ~~retirement and decommissioning~~Decommissioning from its and its Affiliates resources.

OPERATIONS AND MAINTENANCE AGREEMENT

by and between

KENTUCKY POWER COMPANY, as the Non-Operator Owner

and

WHEELING POWER COMPANY, as the Operator

Dated as of

[_____], 2021

TABLE OF CONTENTS

MITCHELL PLANT OPERATIONS AND MAINTENANCE AGREEMENT

This OPERATIONS AND MAINTENANCE AGREEMENT (this "Agreement"), dated as of [_____] (the "Effective Date"), is entered by and between WHEELING POWER COMPANY, a West Virginia corporation (in its capacity as the operator of the Facility, "Operator" and in its capacity as an owner of the Facility, "WPCo") and KENTUCKY POWER COMPANY, a Kentucky corporation qualified as a foreign corporation in West Virginia (in its capacity as an owner of the Facility, the "Non-Operator Owner" and, together with WPCo, each an "Owner" and, together, the "Owners").

RECITALS

1. Owners each own an undivided Ownership Interest in the Facility (these and other capitalized terms are defined in Article II).

2. On the date hereof, WPCo and the Non-Operator Owner have entered into that certain Mitchell Plant Ownership Agreement, setting forth the respective rights, duties and obligations of the Owners with respect to each other and the Facility in their capacities as the Owners thereof (the "Ownership Agreement").

3. Pursuant to the Ownership Agreement, WPCo has agreed to manage the day-to-day operations and maintenance of the Facility as Operator pursuant to the terms of this Agreement.

4. Operator and the Non-Operator Owner desire to execute this Agreement to set forth the respective rights, duties and obligations of WPCo, in its capacity as Operator of the Facility, and the Non-Operator Owner, in its capacity as an Owner of an undivided interest as a co-tenant in the Facility.

NOW, THEREFORE, in consideration of the foregoing premises, and of the mutual covenants, undertakings and conditions set forth below, the Parties agree as follows:

ARTICLE I - AGREEMENT

1.1 Agreement. This Agreement consists of the recitals, and the terms and conditions set forth in this Agreement, as well as the appendices that are referenced in the table of contents and attached to this Agreement.

1.2 Relationship of the Parties. Operator shall perform the Services in its capacity as an independent contractor of the ~~Non-Operator Owner~~Owners and as principal on its own behalf as an Owner. Subject to any limitations set forth in this Agreement and the Ownership Agreement, the Owners delegate to Operator, and Operator accepts from the Owners, the responsibility of providing ~~such~~the Services at the Facility. The Owners and Operator agree that the scope of delegation is strictly limited to the matters set forth in this Agreement and the Ownership Agreement. Without limiting the generality of the foregoing, the Owners retain the ultimate authority and obligation to determine whether and to what extent the Facility operates, and Operator shall not cause the Facility to generate power except as expressly directed to do so by the Owners or any dispatching authority specified by the Owners in accordance with the

Ownership Agreement. For the avoidance of doubt, any provision of this Agreement requiring the delegation of authority, direction, consent or authorization with respect to the Owners shall mean the delegation, direction, consent or authorization of both Owners (or the Operating Committee) in accordance with the Ownership Agreement (except to the extent the Ownership Agreement gives exclusive authority to the Non-Operator Owner thereunder, in which case such delegation of authority, direction, consent or authorization with respect to the Owners shall mean exclusively the delegation, direction, consent or authorization of the Non-Operator Owner).

1.3 Entire Agreement. This Agreement, together with the Ownership Agreement, contains the entire agreement between the Parties with respect to Operator's provision of Services at the Facility and supersedes all prior negotiations, undertakings and agreements.

ARTICLE II - DEFINITIONS[1]

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears, capitalized terms have the meanings specified in this Article II. The singular includes the plural, as the context requires. The terms "includes" and "including" mean "including, but not limited to." The terms "ensure" and "reasonable efforts" will not be construed as a guarantee, but will imply only a duty to use reasonable efforts and care, consistent with Prudent Operation and Maintenance Practices, and will include reasonable expenditures of money and at least such efforts as Operator would undertake for its own assets, services or maintenance, or for services provided to an Affiliate. "Gross negligence" will not be construed as simple or ordinary negligence, it being the intent of the Parties to preserve a distinction between errors made inadvertently while attempting to perform with due care and actions taken with a knowing disregard for a foreseeable risk. "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day. "Month" (regardless of capitalization) shall mean a calendar month. References to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement, except where expressly stated otherwise.

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, controls, is controlled by, or is under common control with such Person. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise. The Non-Operator Owner shall not be deemed an Affiliate of the Operator.

"Agreement" has the meaning set forth in the preamble to this Agreement.

"Applicable Law" means all laws (including common law), statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, Governmental Approvals, Permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over ~~each~~an Owner, any other Person or

[1] NTD: Discuss extent to which terms should conform across O&M Agreement and Operating Agreement.

entity (as to that Person or entity), this Agreement, any Facility asset or the Facility, as applicable.

"Bankruptcy" means a situation in which (i) a Person files a voluntary petition in bankruptcy or is adjudicated as bankrupt or insolvent, or files any petition or answer or consent seeking any reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable United States federal, state or other statute or law relative to bankruptcy, insolvency or other relief for debtors, or seeks or consents to or acquiesces in the appointment of any trustee, receiver, conservator or liquidator of such Person or of all or any substantial part of its properties (the term "acquiesce," as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within fifteen (15) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction enters an order, judgment or decree approving a petition filed against any Person seeking a reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States federal bankruptcy act, or any other present or future Applicable Law relating to bankruptcy, insolvency or other relief for debtors, and such Person acquiesces and such decree remains unvacated and unstayed for an aggregate of sixty (60) days (whether or not consecutive) from the date of entry thereof, or a trustee, receiver, conservator or liquidator of such Person is appointed with the consent or acquiescence of such Person and such appointment remains unvacated and unstayed for an aggregate of sixty (60) days, whether or not consecutive; (iii) a Person admits in writing its inability to pay its debts as they mature; (iv) a Person gives notice, to any Governmental Authority of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) a Person makes a general assignment for the benefit of creditors or takes any other similar action for the protection or benefit of creditors (other than in the ordinary course of such party's business).

"Budget" means an annual operating budget and annual capital budget adopted or amended pursuant to the Ownership Agreement.

"Business Day" means any day other than (i) a Saturday or Sunday or (ii) a day on which banks in West Virginia or Ohio are required or permitted to be closed.

~~"CertainTeed Contract" shall mean that certain Supply Agreement dated March 11, 2005, by and between CertainTeed Gypsum West Virginia, Inc. (formerly BPB West Virginia Inc.) ("CertainTeed") and KPCo (as assignee of Ohio Power Company), as amended by Amendment No. 2010-1 dated August 2, 2010, as further amended by Amendment No. 2012-1 dated February 20, 2012 and as further amended by Amendment No. 2013-1 dated June 5, 2013, as may be amended, amended and restated, supplemented or modified from time to time, and as may be assigned to Operator or an Affiliate of Operator.~~

"Claims" means any and all claims, assertions, demands, suits, investigations, inquiries, and proceedings.

"Confidential Information" means, with respect to each Party, all written or oral information of a proprietary, intellectual or similar nature, relating to the business, projects, operations, activities or affairs of a Party and its Affiliates, whether of a technical or financial

nature or otherwise (including environmental assessment reports, financial information, business plans and proposals, ideas, concepts, trade secrets, know-how, processes, pricing of services or products, and other technical or business information, whether concerning this Agreement, each Party's respective businesses or otherwise) that has not been publicly disclosed and that the receiving Party acquires directly or indirectly from the disclosing Party.

~~"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the generating units and other property, plant, and equipment comprising the Facility, including any common facilities associated with each generating unit that are to be permanently removed from service, the restoration of the Site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.~~

~~"Decommissioning Work" shall mean all work reasonably necessary or undertaken to Decommission the Facility, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Facility in accordance with Applicable Law.~~

"Dollars" means United States Dollars, the lawful currency of the United States of America.

"Due Date" means, with respect to any Operator invoice, the date that is thirty (30) days following the date on which Operator submits the invoice to the Non-Operator Owner in accordance with Article VII. If such date does not fall on a Business Day, then the Due Date shall be the first Business Day after such date.

"Effective Date" means the date set forth in the preamble to this Agreement.

"Emergency" has the meaning set forth in Section 3.8.

"Encumbrance" means (i) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (ii) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary Claim; and (iii) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Environmental Law" means any Applicable Law pertaining to (i) the regulation or protection of employee health or safety, public health or safety, or the indoor or outdoor environment; (ii) the conservation, management, development, control or use of land, natural resources, or wildlife; (iii) the protection or use of surface water or ground water; (iv) the management, manufacture, possession, presence, use, generation, treatment, storage, disposal, transportation, or handling of, or exposure to any Hazardous Material; or (v) pollution (including release of any ~~hazardous~~ substance to air, land, surface water and ground water), including the Comprehensive Environmental Response, Compensation, and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. §§ 9601 et seq.), the

Hazardous Materials Transportation Act (49 U.S.C. §§ 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. §§ 6901 et seq.), the Toxic Substances Control Act (15 U.S.C. §§ 2601 et seq.), the Clean Water Act (33 U.S.C. §§ 7401 et seq.), the Clean Air Act, as amended (42 U.S.C. §§ 7401 et seq.), the Safe Drinking Water Act (42 U.S.C. §§ 300f et seq.), the Uranium Mill Tailings Radiation Control Act (42 U.S.C. §§ 7901 et seq.), the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§ 136 et seq.), all as now or hereafter amended or supplemented, and any regulations promulgated thereunder, and any other similar federal, state, or local statutes, rules and regulations.

"Environmental Liability" has the meaning set forth in Section 10.3.1.

"Facility" means the Mitchell Power Generation Facility consisting of two (2) coal-fired generating units, each having a nominal nameplate capacity of 800MW, and associated plant, equipment and real estate, located in Moundsville, West Virginia, and includes all electrical or thermal devices, and related structures and connections that are located at the Site and used for the production of power and the transportation and handling of fuel for the benefit of the Owners~~, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam~~.

"Facility Agreements" means this Agreement, the Ownership Agreement, all applicable interconnection agreements, fuel supply agreements, coal ash, gypsum and other combustion byproduct disposal or sales agreements~~ (including the CertainTeed Contract)~~, all applicable equipment maintenance agreements in effect or entered into, and as amended, supplemented or modified, from time to time by the Operator or the Owners relating to the Facility, all equipment contracts with regard to warranties and equipment design and specifications, and any other agreement reasonably designated by the Owners as a "Facility Agreement."

"Facility Equipment" has the meaning set forth in Section 13.1.

"Facility Personnel" means those individuals who are employed by Operator or its Affiliates at the Site exclusively for the Facility in the performance of its obligations under this Agreement.

"Force Majeure Event" has the meaning set forth in Section 14.6.1.

"Governmental Approval" means any consent, license, approval, exemption, Permit, "no objection certificate" or other authorization of whatever nature that is required to be granted by any Governmental Authority or any third party with respect to the siting, construction, operation, service and maintenance of the Facility in accordance with this Agreement, or otherwise necessary to enable an Owner or Operator to exercise its rights, or observe or perform its obligations, under this Agreement.

"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision, department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.

"Hazardous Materials" means (a) any petroleum or petroleum products, radioactive materials, asbestos in any form that is or could become friable, urea formaldehyde foam insulation, 1.4 Dioxane, per-and polyfluoroalkyl substances, and transformers or other equipment that contain dielectric fluid containing polychlorinated biphenyls; (b) any chemicals, materials or substances that are now or hereafter become defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollution," "pollutants," "regulated substances," or words of similar import under Applicable Law; or (c) any other chemical, material, substance or waste declared to be or regulated as hazardous, toxic or polluting material by any Governmental Authority, exposure to which is now or hereafter prohibited, limited or regulated by any Governmental Authority.

"Late Payment Rate" means a rate of interest per annum equal to the lesser of (i) ~~five (5) percentage points (5%) above~~ the "prime" rate of interest per annum for corporate loans as published in The Wall Street Journal under "Money Rates" as such rate may be in effect from time to time during the period the delinquent amount remains outstanding plus four (4) percentage points (4%) per annum or (ii) the maximum rate of interest permitted by Applicable Law.[2]

"Lender" means any entity or entities providing financing or refinancing to an Owner under any financing agreements in connection with the construction or permanent financing for the Facility, and their permitted successors and assigns.

"Liabilities" means, collectively, any and all Claims, damages, judgments, losses, obligations, liabilities, actions and causes of action, fees (including reasonable attorneys' fees and disbursements), costs (including court costs), expenses, penalties, fines and sanctions.

"Manuals" means Facility Equipment manuals, system descriptions, system operating instructions, equipment maintenance instructions and pertinent design documentation created by the Persons that constructed the Facility or manufactured its equipment, and the operation and maintenance procedures and Facility systems descriptions, training, safety, chemistry and environmental manuals, together with the documents and schedules described in such manuals.

"NERC" means the North American Electric Reliability Corporation.

"Non-Operator Owner" has the meaning set forth in the preamble to this Agreement.

"Non-Operator Owner Indemnitees" has the meaning set forth in Section 10.1.

"Operating Committee" means the "Operating Committee" as composed from time to time pursuant to and defined in the Ownership Agreement.

"Operating Costs" has the meaning set forth in Section 7.2.1.

[2] NTD: To make consistent with the TSA.

"Operator" has the meaning set forth in the preamble to this Agreement.

"Operator Indemnitees" has the meaning set forth in Section 10.2.

"Operator Proprietary Information" has the meaning set forth in Section 13.3.

"Owner" has the meaning set forth in the preamble to this Agreement.

"Ownership Agreement" has the meaning set forth in the recitals to this Agreement.

"Ownership Interest" has the meaning set forth in the Ownership Agreement.

"Party" means a party to this Agreement and "Parties" means, collectively, the parties to this Agreement, unless the context clearly requires a different construction.

"Permit" means any permit, license, consent, approval or certificate that is required or used for the operation or maintenance of the Facility or the performance of any Service and includes Permits required under Environmental Laws.

"Person" means any Party, individual, partnership, corporation, association, limited liability company, business trust, government or political subdivision thereof, governmental agency or other entity.

"Plan" means an annual operating plan adopted or amended pursuant to Section 5.3.

"Plant Manager" means the production/plant manager for the Facility selected in accordance with Section 3.6, Section 8.5 or Section 8.6.

"Project Manager" means the individual appointed in accordance with Section 5.1.

"Prudent Operation and Maintenance Practices" means those practices, methods and acts generally employed in the power generation industry with respect to facilities of similar type, fuel characteristics and geographical location as the Facility, that at the particular time in question, in the exercise of reasonable judgment in light of the facts known at the time the decision in question was being made, would have been expected to accomplish the desired result of such decision consistent with the goals established in a Budget and Plan, and the requirements of Applicable Law, System Operators, equipment manufacturer's recommendations, reliability, safety, environmental protection, economy and expedition. With respect to Operator, Prudent Operation and Maintenance Practices are not limited to the optimum practices, methods or acts to the exclusion of all others, but rather include a spectrum of possible practices, methods or acts commonly employed in the coal-fired power generation industry, including taking reasonable actions to provide a sufficient number of Persons who are available and adequately trained to provide Services at the Facility, and timely perform preventive, routine, and non-routine maintenance and repairs, as exemplified and generally described in Appendix A, subject, in all cases, to the limitations on Operator's authority, and duties, as set forth in this Agreement and the Ownership Agreement.

"Services" has the meaning set forth in Section 3.1.

"Site" means the land on which the Facility is situated.

"Standards of Performance" means the standards for Operator's performance of the Services set forth in Section 3.3.

"System Operator" means any Person or regional transmission organization, such as PJM Interconnection, L.L.C., supervising the collective transmission or generation facilities of the power region in which the Facility is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

"Term" means the initial term together with any extensions.

"Termination Transition Period" has the meaning set forth in Section 8.5.1.

"WPCo" has the meaning set forth in the preamble to this Agreement.

"Year" means the calendar year. With respect to the Year in which the Effective Date occurs, a Year will be deemed to begin on the Effective Date and end on December 31st of such Year. If this Agreement terminates, the final Year will be deemed to end on the date that termination occurs.

ARTICLE III - RESPONSIBILITIES OF OPERATOR

3.1 Provision of Services. Operator shall operate and maintain the Facility and perform other duties as set forth in this Agreement and/or the Ownership Agreement, including performing and, as applicable, contracting for the benefit of the Owners with suppliers and service providers to perform, the services set forth on Appendix A (collectively, the "Services") and agrees to be responsible for the day-to-day operation and maintenance of the Facility.

3.2 Procurement.

3.2.1 Operator shall sign contracts and purchase orders for goods and services to be delivered to the Facility in the name of Operator as agent for the Owners, and shall not contract in the name of the Non-Operator Owner without the Non-Operator Owner's prior written consent. Operator acknowledges that such contracts and purchase orders are for the benefit of the Owners and the Facility. Operator shall endeavor to negotiate with vendors from standard terms and conditions, including reasonable warranties for the benefit of the Owners.

3.2.2 The Non-Operator Owner shall use commercially reasonable efforts to obtain, promptly following the Effective Date, any and all consents of third parties required to assign, transfer or convey to Operator any contracts or purchase orders for goods and services (including fuel supply and transportation) to be delivered to or used by the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date, which are reasonably required to be transferred to Operator

for the performance of the Services.[3] To the extent that, notwithstanding its commercially reasonable efforts, the Non-Operator Owner is unable to obtain any such required consent effective as of the Effective Date, and as a result thereof Operator shall be prevented by such third party from receiving the rights and benefits with respect to any such contract or purchase order intended to be transferred hereunder, or if any attempted assignment would adversely affect the rights of the Non-Operator Owner thereunder so that Operator would not in fact receive all such rights or the Non-Operator Owner would forfeit or otherwise lose the benefit of rights that the Non-Operator Owner is entitled to retain, the Non-Operator Owner and Operator shall cooperate to implement any lawful and commercially reasonable arrangement as the Non-Operator Owner and Operator shall agree, under which Operator would, to the extent practicable, obtain the claims, rights and benefits under such contract or purchase order and assume the burdens and obligations with respect thereto, including by the Non-Operator Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such contracts or purchase orders; provided, however, that the Non-Operator Owner and WPCo shall each bear its respective share of the costs and expenses under any such contract or purchase order in accordance with this Agreement and the Ownership Agreement. The Non-Operator Owner and Operator shall continue to cooperate to assign, transfer or convey to Operator any such contract or purchase order that remain held by the Non-Operator Owner and to otherwise arrange for Operator to directly contract with the applicable third party for any renewal contract or purchase upon the expiration or termination of any such contract or purchase order.

3.3 Standards for Performance of the Services. Operator shall ~~use commercially reasonable efforts to~~ perform the Services in accordance with (i) the Manuals, (ii) the applicable Budget and Plan, (iii) Applicable Laws, (iv) Prudent Operation and Maintenance Practices, (v) insurer requirements delivered to Operator by the Owners in writing, (vi) the requirements in the Facility Agreements ~~and~~ (vii) this Agreement; and (viii) the Ownership Agreement. Subject to the other provisions of this Agreement, Operator shall perform the Services and other obligations under this Agreement in a manner consistent with the Operating Committee's directions. The Parties acknowledge and agree that, subject to Operator's compliance with the Standards of Performance, Operator shall have no liability for acting or refraining to act in accordance with the directions of the Operating Committee, except to the extent caused by Operator's gross negligence, willful misconduct, fraud, willful violation of any Applicable Law, willful breach of this Agreement or the Ownership Agreement or other willful misconduct.

3.4 Dispatch. Operator shall use commercially reasonable efforts to comply with any applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement. Operator shall give the Operating Committee notice as soon as practicable of any inability of the Facility to make the requisite deliveries of energy, capacity or ancillary services and of Operator's plan to restore operation of the Facility. In the case of any interruption, curtailment or reduction in (i) supplies of fuel or (ii) acceptance of energy, capacity

[3] NTD: To confirm necessity/applicability and what is contemplated, given this is addressed in the PSA.

or ancillary services by the System Operator or in the case of any other dispatch constraint imposed on the Facility, Operator shall notify the Non-Operator Owner as soon as practicable. Upon removal of the constraint, Operator shall use its commercially reasonable efforts to restore the availability of the Facility for dispatch consistent with applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement.

3.5 Licenses and Permits.

3.5.1 General. Operator shall review all Applicable Laws containing or establishing compliance requirements in connection with the operation~~,~~ and maintenance ~~and Decommissioning~~ of the Facility and shall ~~use commercially reasonable efforts to~~ obtain and maintain, for the benefit of both Owners, all Permits required by Applicable Law for the ownership, operation~~,~~ and maintenance ~~and Decommissioning~~ of the Facility and for Operator's performance of the Services, and shall (i) from time to time, notify the Owners if Operator believes that a Permit is required by Applicable Law to be obtained by an Owner in its name in order to allow Operator to perform the Services and assist each Owner, at each Owner's written request and such Owner's sole cost and expense, in securing and complying with, as appropriate, all necessary Permits (and renewals of the same) which are required to be in an Owner's name, including those relating to air emissions, boiler operation, water usage, septic system operation, wastewater discharge, chemical and other waste (including Hazardous Materials) storage and disposal, emissions testing and safety, and (ii) initiate and maintain precautions and procedures reasonably necessary to comply with Applicable Laws. Any Permit held solely in the name of Operator shall, to the extent necessary for the other Owner's compliance with Applicable Law in its role as an Owner, be held by Operator for the benefit of both Owners. Any Permit held solely in the name of the Non-Operator Owner shall, to the extent necessary and consistent with Applicable Laws, be made available for the use of the Operator for the benefit of the Owners and, if reasonably necessary to facilitate Operator's operation and maintenance ~~or Decommissioning~~ of the Facility, the Non-Operator Owner shall cooperate with Operator to effect an assignment or other transfer of such Permit to Operator or otherwise submit such Permit modifications or updating information as necessary to reflect the role of Operator with respect to such Permit.

3.5.2 NERC Compliance. Operator (or an Affiliate thereof) shall register with NERC as the "Generator Owner" and "Generator Operator" for the Facility in accordance with 18 C.F.R. § 39.2(c) effective from and after [the Effective Date][~~14~~]. On and after [the Effective Date], Operator shall, or shall cause its applicable Affiliate to, (i) maintain compliance with all NERC reliability standards applicable to the Facility and all NERC rules applicable to Operator as Generator Owner and Generator Operator for the Facility in accordance with 18 C.F.R. § 39.2(b), including any actions related to mitigation and compliance enhancement required or implemented thereunder; (ii) provide notice to the Operating Committee promptly following the determination by Operator of any reportable physical or cyber security incident under the NERC reliability standards or other Applicable Law; (iii) maintain and provide

[~~14~~] **Note**: Subject to modification if registration cannot be effective as of the Effective Date.

documentation and maintenance records to the Operating Committee regarding any operation, testing, maintenance or faults of any generation protection relays, gen-tie relays or any other equipment necessary to fulfill Operator's or its applicable Affiliate's obligations as the Generator Owner or Generator Operator for the Facility; and (iv) provide to the Non-Operator Owner upon written request any other information, documentation and support reasonably necessary for Operator or its applicable Affiliate to demonstrate compliance with the NERC reliability standards. To the extent that any fine or sanction is imposed in respect of the performance of Operator's obligations under this Section 3.5.2 pursuant to Section 215(c) of the Federal Power Act, any cost related thereto shall be a included as an Operating Cost, to the extent permitted by Applicable Law.

3.6 Personnel Matters. Subject to Sections 8.5 and 8.6, and as otherwise set forth in this Section 3.6, Operator shall be responsible for determining the working hours, rates of compensation and all other matters relating to the employment of Operator's Facility Personnel, including the designation or appointment of the Plant Manager, in its reasonable judgment and in accordance with its past practices in the ordinary course of its business, and shall retain sole authority, control and responsibility with respect to its employment policies. Operator shall submit for the Operating Committee's approval the staffing requirements for the Facility on an annual basis. If Operator intends to select a new Plant Manager, or if the individual serving as Plant Manager ceases to be the Plant Manager, Operator shall provide prompt written notice to the Non-Operator Owner of the selection of a substitute Plant Manager. Facility Personnel shall be qualified and experienced in the duties to which they are assigned. The Facility shall be operated by Operator's Facility Personnel, and Operator shall be fully responsible for all the acts and omissions of all of its Facility Personnel, agents and any subcontractors, and Owners will look solely to Operator for the performance or non-performance of the Services. Operator shall, upon the written request of the Non-Operator Owner, for cause, remove from the site and the Facility workforce, the services of any employee or subcontractor.

3.7 No Liens or Encumbrances. Operator shall use commercially reasonable efforts to keep and maintain the Facility free and clear of all liens and Encumbrances resulting from the failure by Operator to perform the Services or the personal debts and obligations of Operator unrelated to its ownership interest in the Facility.

3.8 Emergency Action. In the event of an emergency affecting the safety, health or protection of, or otherwise endangering, any Person, property or the environment located at or ~~about~~ the Facility (an "Emergency"), Operator shall take prompt reasonable action in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate any imminent damage, injury or loss threatened by such Emergency, and shall notify the Non-Operator Owner of such Emergency and Operator's response as soon as practical under the circumstances and in no event later than twenty-four (24) hours after the occurrence of such event. To the extent Operator procures goods and services as necessary to respond to an Emergency, ~~such~~reasonable and documented out of pocket costs in respect thereof shall be treated as Operating Costs.

ARTICLE IV - OBLIGATIONS, RIGHTS AND REPRESENTATIVES OF EACH OWNER

4.1 General. Each Owner expressly reserves the exclusive authority to make, and shall make, such business and strategic decisions as it deems appropriate from time to time in reference to the operation and maintenance of the Facility in accordance with the Ownership Agreement. Upon request from Operator, the Non-Operator Owner shall promptly furnish or cause to be furnished to Operator, at the Non-Operator Owner's expense, the information, access, materials, instructions and other items described in this Article IV that are in the possession or control of the Non-Operator Owner and which are reasonably necessary for performance of the Services by Operator and not otherwise available to Operator. All such items will be made available at such times and in such manner as may be reasonably required for the expeditious and orderly performance of the Services by Operator.

4.2 Information. Subject to the Standards of Performance, Operator shall be entitled to rely upon any information provided by the Non-Operator Owner or any other party to the Facility Agreements in the performance of the Services.

4.3 Access to Facility. Each Owner shall provide Operator and Operator's contractors, vendors, suppliers, employees and agents and Facility Agreement counterparties, to the extent applicable, reasonable access to and use of the Facility and the Site and to such Owner's records and data at the Facility and, in the case of the Non-Operator Owner, reasonably available to the Non-Operator Owner or in the Non-Operator Owner's possession and necessary for the performance of Services by Operator under this Agreement.

4.4 Instructions, Approvals, etc. Each Owner shall provide or cause to be provided (including through action of the Operating Committee) to Operator all instructions Operator is required to obtain in accordance with this Agreement. Without limiting the provisions of Section 3.2.2, each Owner shall reasonable cooperate to make available or cause to be available to Operator the benefits of all assets (including Permits and contracts relating to the Facility) held in the name of such Owner, as reasonably required for the operation of the Facility. Each Owner shall not knowingly direct Operator to take any action inconsistent with Applicable Law or otherwise adversely affecting the safety, health or protection of any person, or property or the environment located at or about the Facility.

ARTICLE V - REPRESENTATIVES, BUDGETS AND REPORTS

5.1 Representatives of Operator. On or as soon as practical after the Effective Date, Operator shall appoint a Project Manager who shall be authorized to represent Operator with each Owner and the Operating Committee concerning Operator's performance of the Services. The Project Manager may be the same individual as the Plant Manager. Operator shall be responsible for all communications, directions, requests and decisions made by its Project Manager at its direction. Operator shall notify the Non-Operator Owner in writing upon the appointment of its Project Manager, and of any successors. The Project Manager has no authority to modify, amend or terminate this Agreement or, absent written notice by Operator to

the contrary, to enter into any other agreement on behalf of Operator other than as provided herein.

5.2 Representatives of Owner; Operating Committee. The Operating Representative of each Owner (pursuant to and as defined in the Ownership Agreement) shall be authorized and empowered to act for and on behalf of such Owner on all matters requiring the consent, approval or other action of an Owner pursuant to this Agreement. Each Owner shall notify Operator and the other Operating Representative in writing upon the appointment of its Operating Representative, and of any successors. Any provision of this Agreement requiring the consent, approval, or similar act of the Operating Committee shall mean the consent, approval, or similar act of the Operating Committee acting in accordance with the terms of the Ownership Agreement.

5.3 Plans and Budgets.

5.3.1 Adoption.

5.3.1.1 ~~5.3.1.1.~~ Budgets. The initial Budget and Plan for the first Year following the Effective Date is attached as Appendix B hereto.[25] No later than [ninety (90)][6] days prior to each operating Year, Operator shall deliver to the Operating Committee for the Operating Committee's review, revision if applicable and approval (i) a proposed annual operating budget, (ii) ~~any~~a proposed ~~amendments to the~~annual capital budget, (iii) an annual operating plan and (iv) a six (6) Year future forecast of operating and capital expenses. Each such proposed budget, plan and forecast shall contain such detail and supporting documentation as reasonably necessary or reasonable requested for the Operating Committee's review, and Operator shall provide all such additional information and supporting documentation as may be reasonably requested by the Operating Committee and as required by the Ownership Agreement. The Operating Committee shall review and provide modifications to each such proposed budget, plan and forecast and Operator shall cooperate to revise each such proposed budget and plan to receive the Operating Committee's approval of same by December 1 of each Year. Each Budget and Plan as approved by the Operating Committee or otherwise deemed implemented pursuant to the Ownership Agreement shall remain in effect throughout the applicable Year, subject to revision, amendment and replacement in accordance with the Ownership Agreement. Operator and the Non-Operator Owner by mutual written agreement may modify the process and procedures set forth in this Section 5.3.1.

5.3.1.2 ~~5.3.1.2.~~ Amendments. If either the Non-Operator Owner or Operator becomes aware of facts or circumstances that it believes necessitate a change to a Budget or Plan, that Party shall promptly notify the other Party in writing, specifying the impact upon the Budget and the reasons for the change. The Project Manager shall then discuss appropriate amendments to the Budget with the Operating Committee.

5.3.1.3 ~~5.3.1.3.~~ Failure to Agree. Operator acknowledges that the Owners retain ultimate authority with respect to expenses incurred for the Facility. Accordingly,

[25] **Note**: Initial ~~budgets~~budget and Plan to be attached on the Effective Date.
[6] NTD: To be consistent with Ownership Agreement.

Operator shall accept each Budget as determined in accordance with the Ownership Agreement. To the extent that the Operating Committee limits funds for Operating Costs, Operator shall be relieved from performing only those specific Services that were previously identified in writing to the Operating Committee that would incur such non-reimbursable Operating Costs.

5.3.2 Limitations on Variation from Budget. Except as otherwise permitted in response to an Emergency in accordance with Section 3.8, Operator shall obtain the Operating Committee's prior written approval (i) for any expenditures resulting in cumulative budget overruns exceeding ten percent (10%) in the aggregate in any Year with respect to either the operating Budget or capital expense Budget, or (ii) for any unbudgeted expenditure or capital project having a projected cost of more than $100,000.

5.4 Availability of Operating Data and Records. Operator shall deliver Facility data recorded, prepared or maintained by Operator to the Operating Committee: (i) as necessary or reasonably requested by an Owner to assist each Owner in complying with requirements of Governmental Authorities, Permits and Facility Agreements; or (ii) upon request by the Non-Operator Owner, in each case as soon as reasonably practicable but in any event within ten (10) Business Days following such request.

5.5 Litigation and Permit Lapses. ~~Upon~~Promptly upon obtaining actual knowledge thereof, either Party shall submit prompt written notice to the other Party of the following, to the extent relating to the Facility or the Services or agreements relating to either the Facility or the Services: (i) any litigation, Claims or actions filed, including by, against or with any Governmental Authority; (ii) any actual refusal to grant, renew or extend, or any action filed with respect to the granting, renewal or extension of, any Permit; (iii) all penalties or notices of violation issued or asserted by any Governmental Authority; (iv) any dispute with any Governmental Authority that may affect ~~adversely~~ the Facility ~~in any material respect~~; and (v) with respect to the matters identified in items (i), (ii), (iii) or (iv), any threats of such matters~~, which matters may adversely affect the Facility in any material respect~~. Upon Non-Operator Owner's request, Operator shall provide any documentation related to any of the foregoing.

5.6 Other Information. Operator shall promptly submit to the Non-Operator Owner any material information concerning new or significant aspects of the Facility operations and, upon the Non-Operator Owner's request, shall promptly submit any other information concerning the Facility or the Services.

5.7 Records Maintenance and Retention. Operator shall maintain all records, reports, documents and data, including all data retrievable from an electronic data storage source, for the Facility in accordance with Applicable Law and shall retain and preserve all such records, reports, documents and data created in connection with the operation and maintenance of the Facility, in accordance with Applicable Law, provided that Operator shall notify the Non-Operator Owner in writing at least ~~thirty~~sixty (~~30~~60) days prior to the destruction or other disposition of any record, report, document or data. If the Non-Operator Owner gives written notice to Operator prior to the expiration of the ~~30~~60-day period, Operator shall maintain~~, at the Non-Operator Owner's expense,~~ custody of such material until the earlier of (i) such time as the Non-Operator Owner notifies Operator to dispose of such material and (ii) seven (7) Years. If the Non-Operator Owner does not provide written notice to Operator prior to the expiration of

the ~~30~~60- day period, Operator may destroy or dispose of such material and shall provide the Non-Operator Owner with a certificate confirming such destruction or disposition.

ARTICLE VI - LIMITATIONS ON AUTHORITY

6.1 Limitations on Authority. Operator has no authority to make policies or decisions with respect to the overall operation or maintenance of the Facility as a commercial enterprise pursuant to the terms of this Agreement. The Owners, acting through the Operating Committee and pursuant to the terms of the Ownership Agreement, shall determine all such matters. Notwithstanding any provision in this Agreement to the contrary, unless previously approved in a Budget and Plan or otherwise approved in writing by the Operating Committee, in connection with Operator's provision of Services hereunder, Operator is prohibited from doing any of the following (and shall not permit any of its agents, subcontractors or representatives to):

6.1.1 Dispose of Assets. Selling, leasing, pledging, mortgaging, granting a security interest in, encumbering, conveying, or making any license, exchange or other transfer or disposition of all or any portion of the Facility, the Site or any other property or assets of the Owners, including any property or assets purchased by Operator, the cost of which is an Operating Cost;

6.1.2 Make Expenditures. Making any expenditure or acquiring, on an Operating Cost basis, any goods or services from third parties, except in conformity with a Budget or as otherwise permitted under Section 5.3.2 or as authorized by the Operating Committee; provided, however, that in the event of an Emergency, Operator, without approval from the Owners, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.3 Take Other Actions. Taking or agreeing to take any other action or actions the decision for which is reserved exclusively for the Operating Committee pursuant to the Ownership Agreement; provided, however, that in the event of an Emergency, Operator, without approval from the Operating Committee, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.4 Act Regarding Lawsuits and Settlements. Settling, compromising, assigning, pledging, transferring, releasing or consenting to the compromise, assignment, pledge, transfer or release of, any material Claim, suit, debt, demand or judgment against or due by ~~the Non-Operator~~any Owner or Operator, the cost of which, in the case of Operator, would be an Operating Cost hereunder, or submitting any such Claim, dispute or controversy to arbitration or judicial process, or stipulating in respect thereof to a judgment, or consent to the same; provided, however, that such prohibition shall not apply to, nor shall it be construed as a release or waiver of, any of Operator's rights or obligations pursuant to this Agreement or any other agreement between the Parties; or

6.1.5 Pursue Transactions. Engaging in any other transaction on behalf of the ~~Non-Operator~~any Owner that is not permitted under this Agreement.

ARTICLE VII - COMPENSATION AND PAYMENT

7.1 General. The Non-Operator Owner shall pay Operator, and WPCo shall bear directly in its capacity as an Owner, its ~~allocated~~proportionate share in ~~accordance with the~~respect of its Ownership ~~Agreement~~Interest of all Operating Costs, all as further described below. All Operating Costs shall initially be paid for by Operator (except as otherwise provided in this Agreement) and subsequently invoiced monthly in arrears as more fully set forth in this Article VII.

7.2 Costs.

7.2.1 Operating Costs. Subject to the Ownership Agreement and the limitations on expenditures set forth elsewhere in this Agreement (including Section 5.3), the Non-Operator Owner shall reimburse Operator [for its ~~allocated~~proportionate share in ~~accordance with the~~respect of its Ownership ~~Agreement~~Interest] of the ~~fully loaded~~actual, documented, reasonable out of pocket costs directly attributable to and incurred (whether paid or accrued) in the provision of Services, including for labor, goods, services, capital expenditures, overhead, cost of capital, Taxes (other than income or franchise taxes), Permits and bonds (the "Operating Costs"), in each case in a manner consistent with the example invoice worksheets attached hereto as Appendix C, which shall include such costs with respect to: (i) equipment, material, supplies and other consumables, spare parts, replacement components, tools, office equipment, computer equipment, software, information technology and supplies acquired for use at the Facility; (ii) fuel supply and transportation; (iii) costs associated with special training of Facility Personnel and associated travel and living expenses; (iv) amounts paid under subcontracts, purchase orders and agreements; (v) fees for Permits required to be held by Operator; (vi) community relations and labor relations activities; and (vii) Operator's cost of Facility Personnel (and the allocable portion of other employees of Operator and its Affiliates directly attributable to performing the Services) wages, salaries, overtime, employee bonus, customary or required severance payments, unemployment insurance, long-term disability insurance, short term disability payments, sick leave, payroll taxes imposed on wages and benefits, worker's compensation costs and holidays, vacations, group medical, dental and life insurance, defined contribution retirement plans and other employee benefits; (viii) costs of third-party advisors, consultants, attorneys, accountants and contractors retained and managed by Operator in support of, and reasonably and directly allocable to, the Services; (ix) a reasonably allocable portion of the cost of the insurance maintained by Operator in accordance with Section 9.1 on account of its Operator role; (x) reasonable costs incurred in response to an Emergency; ~~(xi) any other cost reasonably determined by Operator to be an Operating Cost pursuant to the terms of this Agreement;~~ and (~~xii~~xi) any other activity that Operator is ~~required or~~expressly requested in writing by the Owners to perform under this Agreement for the benefit of the Facility or that is approved in a Budget or by the Operating Committee pursuant to the terms of this Agreement; provided, that in no event shall Operating Costs include overhead, back-office or similar costs, expenses or expenditures, or any other costs, expenses and expenditures that are

(or would be) incurred by Operator or any of its Affiliates independent of the Services, or any payments in respect of any of the foregoing.[7]

7.2.2 Invoicing. On or before the twenty-fifth (25th) day of each calendar month during the Term, Operator shall submit invoices to the Non-Operator Owner in form and substance reasonably similar to that attached hereto as Appendix C for Operating Costs incurred during the preceding calendar month (as well as any such costs for any prior period that were not previously invoiced). If any contract or purchase order intended to be assigned, transferred or conveyed to Operator remains held by the Non-Operator Owner as described in Section 3.2.2 and the Non-Operator Owner directly pays costs thereunder for the benefit of the Owners, the invoice submitted by Operator shall net WPCo's ~~allocated~~proportionate share in ~~accordance with the~~respect of WPCo's Ownership ~~Agreement~~Interest of any such costs paid by the Non-Operator Owner for the benefit of the Owners. The Non-Operator Owner shall make payment to Operator of its ~~allocated~~applicable share ~~in accordance with the Ownership Agreement~~ of the invoiced amount based on its proportionate share in respect of its Ownership Interest no later than the Due Date, unless any invoiced amounts are disputed by the Non-Operator Owner in good faith (in which case the payment deadline with respect to the portion of such invoiced amounts that is disputed shall be tolled until such dispute is resolved in accordance with Section 14.7). For the avoidance of doubt, WPCo, in its capacity as an Owner, shall bear directly its ~~allocated~~proportionate share in ~~accordance with the~~respect of its Ownership ~~Agreement~~Interest of such Operating Costs.

7.3 Cost Audit. The Non-Operator Owner shall be entitled to conduct an audit, or to delegate a representative to audit, at its sole cost and expense and review of Operator's books and records with respect to all Operating Costs and performance of the Services together with any supporting documentation for a period of one (1) Year from and after the date of the audited payment. If, pursuant to such audit and review, it is agreed that any amount previously paid by Operator or by an Owner was not properly incurred as an Operating Cost or an adjustment of any such cost is required, Operator shall credit to the Non-Operator Owner or Operator, as applicable, its ~~allocated~~proportionate share in ~~accordance with the~~respect of its Ownership ~~Agreement~~Interest of such amount in the next succeeding invoice or promptly paid in cash if there shall not be further invoices issued.

7.4 Late Payment. To the extent an Owner or Operator fails to pay any amount required to be paid under this Agreement by the Due Date, the unpaid amount shall accrue interest each day at the Late Payment Rate from the Due Date until such amount (plus accrued interest) is paid by the applicable Party in full.

ARTICLE VIII - TERM

8.1 Term. The Term of this Agreement shall commence on the Effective Date and, subject to approval or acceptance of termination by FERC or other Governmental Authority to the extent required, shall end ~~on~~of the date of termination of the Ownership Agreement ~~(the~~

[7] NTD: To discuss scope of operating expenses, including allocation methodology for shared costs, as well as any costs that should be borne disproportionately (e.g., ELG Expenses).

~~"Term")~~. Notwithstanding the foregoing, this Agreement and the Term is subject to earlier termination pursuant to Sections 8.2 and 8.3.

8.2 Termination by the Non-Operator Owner for Cause. The Non-Operator Owner shall be permitted to terminate this Agreement if any of the following events occur: (i) the Bankruptcy of Operator; (ii) a payment default by Operator (other than a disputed payment) that Operator fails to cure within ten (10) Business Days after Operator has received written notice of such default; [(iii) Operator incurs liability to the Owners equal to the liability limit set forth in Section 11.2 during any year] or (~~iii~~iv) a material default by Operator in the performance of its obligations under this Agreement, including any default that has, or is reasonably expected to have, a material adverse effect on the operations, maintenance or performance of the Facility and Operator has failed to cure ~~or make substantial progress toward curing~~ such default within ~~ninety~~sixty (~~90~~60) days of written notice of such failure; provided, that if it is not possible to cure such breach within sixty (60) days of receipt of such notice of failure, Operator (A) fails to commence to cure the breach within such sixty (60) day period, (B) thereafter fails to continue diligent efforts to complete the cure as soon as reasonably possible, or (C) fails to complete the cure within ninety (90) days of receipt of such notice of failure. In addition, Non-Operator Owner shall have the option to terminate this Agreement for convenience upon thirty (30) days written notice to the Operator from and after (or concurrent with) the occurrence of any transfer, assignment, sale or other disposition (including any transfers, assignments, sales or other dispositions in connection with a foreclosure or an exercise of remedies by the Financing Parties) by WPCo of its Ownership Interest in the Facility to any Person which is not an Affiliate of WPCo.

8.3 Termination by Operator. Operator shall be permitted to terminate this Agreement if any of the following events occur: (i) a payment default by the Non-Operator Owner (other than a disputed payment) that is not cured within ~~ten~~thirty (~~10~~30) Business Days after the Due Date for any invoice; (ii) the Bankruptcy of the Non-Operator Owner; or (~~iii~~ii) a default by the Non-Operator Owner of any other obligation under this Agreement that has a material adverse effect on Operator's ability to perform the Services and that the Non-Operator Owner has failed to cure or make substantial progress in the reasonable opinion of Operator toward curing within ninety (90) days of written notice of such failure by Operator. As soon as practicable after all cost information is gathered following termination, Operator shall invoice the Non-Operator Owner for its ~~allocated~~proportionate share in ~~accordance with the~~respect of its Ownership ~~Agreement~~Interest for Services rendered by Operator through the termination date, including all Operating Costs incurred through the date of termination but not paid.

8.4 Transfer of Facility Custody. Upon expiration or termination of this Agreement, Operator shall leave at the Facility all documents and records, tools, supplies, spare parts, safety equipment, Manuals, and any other items [furnished on an Operating Cost basis], all of which shall remain the property of the Owners without additional charge. Operator shall execute all documents and take all other reasonable steps as may be reasonably requested by the Non-Operator Owner to assign to and vest in a replacement provider of Services all of its pro-rata rights, benefits, interests and title in connection with any subcontracts Operator executed in its own name for the benefit of the Facility and the Owners.

8.5 Services Upon Termination.

8.5.1 Upon notice of termination of this Agreement by either Operator or the Non-Operator Owner~~, unless the Non-Operator Owner is then in default of its payment obligations under this Agreement~~, the Non-Operator Owner shall have the right to specify a period of transition of no longer than nine (9) months (the "Termination Transition Period") during which Operator shall: (i) continue to provide Services at the Facility in accordance with this Agreement; (ii) cooperate with the Non-Operator Owner in planning and implementing a transition to any replacement provider of Services; (iii) use its commercially reasonable efforts to minimize disruption of Facility operations in connection with such transition activities; (iv) make all requisite regulatory filings as promptly upon commencement of the Termination Transition Period, subject to cooperation of the Parties; (v) transfer all Permits, licenses, registrations, approvals and contracts to the Non-Operator Owner or such replacement operator, in each case, as requested by the Non-Operator Owner; and (vi) take all actions incidental thereto and as reasonably requested by the Non-Operator Owner. The provisions of Article VII shall continue to apply during the Termination Transition Period. To facilitate employee transfer, Operator shall permit the replacement service provider and the Non-Operator Owner to interview such Facility Personnel for potential positions with such replacement operator in a manner and at times that do not interfere with Operator's responsibility to perform the Services. If Operator or one of its Affiliates continues to own a portion of the Facility, Operator shall, or shall cause its Affiliates to, reasonably cooperate to allow a successor operator to operate the Facility after the termination of this Agreement, including by granting access rights and executing other instruments as may be reasonably requested by the Non-Operator Owner and any replacement operator.

8.5.2 Any modifications to the ownership and operation of the Facility, including any termination of this Agreement, shall be subject to any required regulatory or administrative filings and approvals.

8.6 Plant Manager Replacement. Upon (i) commencement of the Termination Transition Period or (ii) the occurrence of any of the conditions described in Section 8.2, the Non-Operator Owner may designate a qualified individual with significant experience as a project manager or similar senior operating role in respect of the management and operation of large coal-fired generation facilities with similar operating characteristics as the Facility to replace the existing Plant Manager and who shall upon such appointment be the Plant Manager.

ARTICLE IX - INSURANCE

9.1 Operator Insurance Requirements.

9.1.1 Commencing with the performance of the Services hereunder, and continuing until the termination of this Agreement, Operator (and any tier subcontractors) shall maintain or cause to be maintained occurrence form (if written on a claims -made policy form, be maintained with a retroactive date that is prior to this Agreement Effective Date for a period of at least three (3) Years following the last Year in which such policy provides coverage under the terms of this Agreement) insurance policies as follows: (i) Workers' Compensation in accordance with the statutory requirements of the state in which the Services are performed and

Employer's Liability Insurance of not less than one million Dollars ($1,000,000) each accident/employee/disease; (ii) Commercial General Liability Insurance having a limit of at least one million Dollars ($1,000,000) per occurrence/two million Dollars ($2,000,000) in the aggregate for contractual liability, personal injury, bodily injury to or death of Persons, and/or loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) Years after completion), premises and operations liability and explosion, collapse, and underground hazard coverage; (iii) Commercial/Business Automobile Liability Insurance (including owned (if any), non-owned or hired autos) having a limit of at least one million Dollars ($1,000,000) each accident for bodily injury, death, property damage and contractual liability and no fellow employee exclusion; (iv) Umbrella/Excess Liability insurance with limits of at least twenty-four million Dollars ($24,000,000) per occurrence and follow form of the underlying Employer's Liability, Commercial General Liability and Auto Liability insurance, and provide at least the same scope of coverages thereunder; (v) ~~if Operator will be handling environmentally regulated or Hazardous Materials,~~ coverage for sudden/accidental occurrences for bodily injury, property damage, environmental damage, cleanup costs and defense with a minimum of one million Dollars ($1,000,000) per occurrence; and (vi) "all-risk" or its equivalent property insurance providing coverage risks of physical damage to the Facility or Facility Equipment in an amount in accordance with Good Utility Practice.

9.1.2 Unless otherwise determined by the Operating Committee that the Operator should purchase capacity insurance on behalf of both Owners, Operator (including in its capacity as an Owner) and Non-Operator Owner may each procure individually, in ~~respect of its fifty percent (50%)~~proportion to their Ownership ~~Interest~~Interests, PJM Interconnection, L.L.C. capacity performance insurance on terms and conditions, and placed with insurance companies, reasonably acceptable to the Operator or such Owner, as applicable. Operator shall make such certifications relating to the operation, maintenance and condition of the Facility from time to time during the Term as may be reasonably necessary in connection with the procurement or maintenance of such insurance coverage by Operator and the Non-Operator Owner and any other insurance policies of either Owner that may relate to coverage pertaining to or affecting an Owner's Ownership Interest.

9.2 Form and Content. All insurance policies provided and maintained by Operator and each subcontractor shall: (i) be underwritten by insurers that are rated A.M. Best "A- VII" or higher; (ii) specifically include the Non-Operator Owner and its directors, officers, employees, affiliates, subcontractors, and joint owners of any facilities as additional insureds for their liability arising out of the acts or omissions of Operator, including for completed operations, with respect to Operator's acts, omissions, services, products or operations, whether in whole or in part, excluding, however, for Workers' Compensation/Employer's Liability insurance, ~~Pollution Legal Liability insurance,~~ and "all-risk" property insurance; (iii) be endorsed to provide, where permitted by law, waiver of any rights of subrogation against an Owner and its directors, officers, employees, affiliates and subcontractors, and joint owners of any facilities; (iv) provide that such policies and additional insured provisions are primary with respect to the acts, omissions, services, products or operations of Operator or its subcontractors, to the extent of Operator's negligence, (v) contain standard separation of insured and severability of interest provisions except with respect to the limits of the insurer's liability; and (vii) not have any cross-liability exclusion, or any similar exclusion that excludes coverage for Claims brought by

additional insureds under the policy against another insured under the policy; Any deductibles or retentions shall be the sole responsibility of Operator and its subcontractors. Evidence of such coverage shall be provided in the form of Operator's certificate of insurance furnished to the Non-Operator Owner prior to the Effective Date, upon any policy replacement or renewal and upon the Non-Operator Owner's request. Operator shall provide at least thirty (30) days' prior written notice to the Non-Operator Owner prior to cancellation of any policy (or ten (10) days' notice in the case of non-payment of premium).

ARTICLE X - INDEMNIFICATION

10.1 Operator Indemnification. Subject to the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner and its Affiliates, and their respective officers, directors, employees, managers, members, agents and representatives (collectively, the "Non-Operator Owner Indemnitees"), from and against, and no Non-Operator Owner Indemnitee shall be responsible for any and all Liabilities incurred, assessed, sustained or suffered by any Non-Operator Owner Indemnitee to the extent caused by Operator's gross negligence, willful misconduct, ~~actual~~ fraud, willful violation of any Applicable Law, or willful breach of this Agreement or the Ownership Agreement or any other willful misconduct or any claims against or obligations of Non-Operator Owner or any of its Affiliates under or relating to the Compliance Agreement, dated as of hereof, by and among WPCo, the Non-Operator Owner, [Buyer] and American Electric Power Company, Inc. (the "Compliance Agreement"), arising out of actions (or inactions) of Operator, except to the extent arising from the express instructions of the Non-Owner Operator (such claims or obligations, the "Compliance Agreement Claims"). Any Liabilities paid by Operator pursuant to its indemnity obligation under this Section 10.1 shall in no event be considered Operating Costs hereunder.

10.2 Owner Indemnification. Subject to the limitations of liability in Section 11.1, each Owner shall, severally with respect to its ~~fifty percent (50%)~~proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless Operator and its Affiliates, and their respective officers, directors, employees, agents and representatives (collectively, the "Operator Indemnitees"), from and against, and no Operator Indemnitee shall have responsibility for, any and all Liabilities to a third party incurred, assessed, sustained or suffered by or against any Operator Indemnitee arising from or relating to the ~~Facility or the ownership, operation or maintenance thereof or~~ Operator's performance of the Services under this Agreement, except to the extent caused by Operator's gross negligence, willful misconduct, ~~actual~~ fraud, willful violation of any Applicable Law, or willful breach of this Agreement or the Ownership Agreement or other willful misconduct or Compliance Agreement Claims. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its ~~fifty percent (50%)~~proportionate share of Liabilities under this Section 10.2 in respect of its Ownership Interest.

10.3 Environmental Indemnification.

10.3.1 Owner Indemnity for Environmental Liabilities. Subject to the limitations of liability in Section 11.1, and without in any way limiting the provisions of Section 10.3.2, each Owner shall, severally with respect to its ~~fifty percent (50%)~~proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless the Operator

Indemnitees, from and against, and no Operator Indemnitees shall have responsibility for, any and all Liabilities, including all civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Operator Indemnitees, as applicable, as a result of or in connection with any matters governed by Environmental Laws directly or indirectly related to or arising out of (i) the design, permitting or construction of the Facility or the condition of the Site, and any adjacent parcels; (ii) the operation, maintenance, ownership, control or use of the Facility or otherwise related to the Facility; and (iii) the offsite transportation, treatment or disposal of all wastes generated at the Facility and any properties included within or adjacent to the Site, whether occurring before or after the Effective Date (collectively, "Environmental Liabilities"), including any Environmental Liabilities arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials, but excluding Operator Environmental Liabilities; provided, however, that the Environmental Liabilities for which ~~WPCo~~any Owner is obligated to indemnify any Operator Indemnitees under this Section 10.3.1 shall not in any event include any Operator Environmental Liabilities for which Operator is liable under Section 10.3.2. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear ~~directly~~ its ~~fifty percent (50%)~~proportionate share of Environmental Liabilities under this Section 10.3.2 in respect of its Ownership Interest.

10.3.2 Operator Indemnity for Environmental Liabilities. Subject to the provisions of Section 10.1 and the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner Indemnitees from and against, and no Non-Operator Owner Indemnitee shall be responsible hereunder for any Liabilities, including any civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Person as a result of or in connection with any breach or violation of or any other matters governed by Environmental Laws to the extent caused by the gross negligence, willful misconduct, ~~actual~~ fraud, willful violation of any Applicable Law or willful breach of this Agreement by Operator or arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials brought on Site by Operator or its Affiliates or agents (the "Operator Environmental Liabilities"). Operator understands and agrees that any Operator Environmental Liabilities paid by Operator pursuant to this Section 10.3.2 shall not be Operating Costs hereunder.

10.3.3 Governmental Actions. During the Term, Operator shall use commercially reasonable efforts to cooperate with and assist the Owners with their acquisition of data and information, and preparation and filing with appropriate Governmental Authorities of any notices, plans, submissions, or other materials and information necessary for compliance by the Owners with applicable Environmental Laws and the requirements of any Permits related to the Facility. All such environmental reports shall be submitted by, and in the names of, both Owners. All reasonable and documented costs associated therewith, including the reasonable costs of any outside consultants, legal services, Governmental Authority charges, sampling and remedial work shall be paid by the Owners as an Operating Cost, and the Non-Operator Owner shall reimburse WPCo to the extent of the Non-Operator Owner's pro rata share, unless such costs are incurred arising out of or associated with Operator Environmental Liabilities that are subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof. Nothing contained herein shall be construed as requiring Operator to take any corrective action with respect to ~~the~~

~~operation, maintenance, use or condition of the Facility~~Environmental Liabilities unless (x) affirmatively and expressly directed in writing to so do by the Operating Committee and appropriate funding is made available, or (y) affirmatively and expressly directed to do so by a Governmental Authority, in order to comply with any Environmental Law, in which case the cost of any corrective actions so undertaken shall be deemed an Environmental Liability subject to Section 10.3.1 hereof (if not otherwise reimbursed as an Operating Cost hereunder), unless such Environmental Liability arises out of or is associated with Operator Environmental Liabilities subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof.

ARTICLE XI - LIABILITIES OF THE PARTIES

11.1 Limitations of Liability. Notwithstanding any provision in this Agreement that may be susceptible to contrary interpretation, neither the Parties nor any Non-Operator Owner Indemnitees or Operator Indemnitees shall be liable for consequential or indirect loss or damage, including loss of profit, cost of capital, loss of goodwill, increased Operating Costs, or any special or incidental damages; provided, however, that notwithstanding the foregoing, in no event will the foregoing limitations of liability be applied to limit the extent of the liability of either Party to the other for or with respect to any Claims of third parties or to the extent arising from gross negligence, fraud, willful violation of Applicable Law or willful breach of this Agreement or the Ownership Agreement or willful misconduct of a Party or Compliance Agreement Claims. The Parties further agree that the waivers and disclaimers of liability, indemnities, releases from liability and limitations of liability expressed in this Agreement shall survive termination or expiration of this Agreement, and shall apply in all circumstances, whether in contract, equity, tort or otherwise, regardless of the fault, negligence (in whole or in part), strict liability, breach of contract or breach of warranty of the Party indemnified, released or whose liabilities are limited, and shall extend to the Non-Operator Owner Indemnitees and Operator Indemnitees.

11.2 Operator's Total Aggregate Liability. Except ~~in~~ to the ~~case of actual fraud~~ extent that a Non-Operator Owner Indemnitee suffers Liabilities that are caused by, result from or arise out of Operator's or its Affiliates' breach of Article XIII or its gross negligence, fraud, willful violation of Applicable Law or willful breach of this Agreement or the Ownership Agreement, or willful misconduct in connection with any Services, transactions, actions or inactions, or Compliance Agreement Claims, the total liability of Operator to the Non-Operating Owner for all Liabilities arising out of, connected with or resulting from any events occurring or claims made in connection with this Agreement, whether based in contract, warranty, tort, strict liability or otherwise, shall not exceed, in the aggregate, the sum of (i) an amount equal to twenty-five percent (25%) of the Operating Costs, but excluding Operating Costs relating to any services, goods, inventory and equipment provided hereunder by third parties other than Operator's Affiliates, incurred pursuant to this Agreement in the prior twelve (12) month period, *plus* (ii) the Non-Operating Owner's ~~fifty percent (50%)~~proportionate share of any insurance proceeds actually received by the Operator or paid on the Operator's behalf with respect to the relevant loss or damages under the insurance policies procured by the Operator pursuant to Section 9.1.

11.3 No Warranties or Guarantees.

11.3.1 EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES OR GUARANTEES TO THE OTHER, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SUBJECT MATTER OF THIS AGREEMENT, AND BOTH PARTIES DISCLAIM AND WAIVE ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT.

~~11.3.2 OPERATOR IS ACTING AS AGENT OR OTHERWISE AS A RESELLER WITH RESPECT TO ALL SERVICES, GOODS, INVENTORY AND EQUIPMENT PROVIDED HEREUNDER BY THIRD PARTIES OTHER THAN OPERATOR'S AFFILIATES, AND, AS SUCH, DOES NOT PROVIDE ANY WARRANTY FOR SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT PROVIDED HEREUNDER. ALL SUCH THIRD PARTY SERVICES, GOODS, INVENTORY AND EQUIPMENT ARE PROVIDED AS IS, WHERE IS, WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT. THE SOLE REMEDY IN CONNECTION WITH ANY DEFECTS IN OR FAILURES OF SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT (WHETHER A CLAIM FOR SUCH DEFECT ARISES UNDER CONTRACT, TORT, STRICT LIABILITY, STATUTE, OR ANY OTHER LEGAL OR EQUITABLE THEORY OR PRINCIPLE INCLUDING NEGLIGENCE) SHALL BE TO SEEK RECOURSE EXCLUSIVELY FROM THE COUNTERPARTIES TO THE THIRD PARTY CONTRACTS, UNLESS THE DEFECT WAS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES.~~

ARTICLE XII - CONFIDENTIALITY

12.1 General. During the Term, and for the later of three (3) Years after the termination of this Agreement or five (5) Years after receipt of the applicable Confidential Information, each Party shall hold in confidence any Confidential Information supplied by or on behalf of the other Party. Each receiving Party further agrees to require its contractors, vendors, suppliers and employees, agents or prospective purchasers to preserve the confidentiality of Confidential Information. The receiving Party may make necessary disclosures to third parties directly engaged in the operation, ownership or financing of the Facility if such third parties are under an obligation to receive and hold such Confidential Information in confidence.

12.2 Exceptions. The provisions of this Article XII do not apply to information within one or more of the following categories:

12.2.1 Public Domain. Information that was in the public domain prior to the receiving Party's receipt or that subsequently becomes part of the public domain by publication or otherwise, except by the receiving Party's or its Affiliate's wrongful act.

12.2.2 Prior Receipt. Information that the receiving Party can demonstrate was in its possession prior to receipt thereof from the disclosing Party so long as such possession did not result from a violation of a confidentiality obligation.

12.2.3 Third Party Delivery. Information received from a third party having no obligation of secrecy with respect thereto.

12.2.4 Permitted Disclosures. Information disclosed by an Owner to Lenders or prospective Lenders, equity investors or prospective equity investors, prospective purchasers, consultants, attorneys, accountants and other designated agents in each case on a confidential, need-to-know-basis.

12.2.5 Regulatory Filings. Information required to be disclosed by an Owner in connection with any required regulatory or administrative filings.

12.3 Required Disclosure. Notwithstanding the forgoing, any receiving Party required by law, rule, regulation, subpoena or order, or in the course of regulatory, administrative or judicial proceedings, to disclose Confidential Information that is otherwise required to be maintained in confidence pursuant to this Article XII, may make disclosure notwithstanding the provisions of this Article XII. Prior to doing so, the receiving Party, promptly upon learning of the requirement, shall notify the disclosing Party of the requirement and cooperate to the maximum extent practicable to minimize the disclosure of Confidential Information. Any receiving Party disclosing Confidential Information pursuant to this Section 12.3 shall use reasonable efforts, at the disclosing Party's cost, to obtain proprietary or confidential treatment of Confidential Information by the third party to whom the information will be disclosed, and to the extent such remedies are available, shall use commercially reasonable efforts to seek protective orders limiting the dissemination and use of Confidential Information. Nothing in this Agreement is intended to prevent the disclosing Party from appearing in any proceedings and objecting to the disclosure.

ARTICLE XIII - TITLE, DOCUMENTS AND DATA

13.1 Materials and Equipment. Operator shall ~~use commercially reasonable efforts to~~ cause title to all materials, equipment, supplies, consumables, spare parts and other items purchased or obtained by Operator on an Operating Cost basis ("Facility Equipment") to pass directly from the vendor or supplier to, and vest in, each Owner to the extent of such Owner's Ownership Interest. Operator shall have no title or other claim to such items other than in its capacity as an Owner of the Facility.

13.2 Documents. All Manuals, operational data, Facility drawings, Operator reports and records and other materials and documents (both paper and electronic) created by Operator, its Affiliates or their respective employees, representatives or contractors in connection with performance of the Services are the property of each Owner to the extent of its ~~pro rata~~

ownership share of the Facility. All such materials and documents shall be available for review by the Non-Operator Owner at all reasonable times during development and promptly upon completion. All such materials and documents required to be submitted for the approval of the Operating Committee shall be prepared and processed in accordance with the requirements and specifications set forth herein. However, the Operating Committee's approval of materials and documents submitted by Operator shall not relieve Operator of its responsibility to perform it obligations under this Agreement.

13.3 Proprietary Information. Where materials or documents prepared or developed by Operator or its Affiliates, or their respective employees, representatives or contractors, contain proprietary or technical information, systems, techniques or know-how previously developed by them or acquired by them from third parties (the "Operator Proprietary Information"), the Non-Operator Owner shall have an irrevocable license to use such Operator Proprietary Information to the extent necessary for the operation or maintenance of the Facility at no additional cost to the Non-Operator Owner.

ARTICLE XIV - MISCELLANEOUS PROVISIONS

14.1 Assignment. This Agreement shall not be assignable~~, in whole or in part,~~ by a Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed, except that this Agreement may be (i) collaterally assigned by an Owner without such consent to a Lender in connection with such Lender's financing of such Owner's Ownership Interest and (ii) assigned by an Owner ~~(in whole but not in part)~~ without such consent ~~to~~in connection with the ~~transferee of its Ownership Interest~~sale or transfer of the Facility, whether by merger, division, sale of equity interest, or otherwise, in each case, solely to the extent that such transfer of ~~its Ownership Interest~~ownership in the Facility is in accordance with the Ownership Agreement. Any assignment pursuant to this Section 14.1 shall not relieve the assigning Party of any of its obligations under this Agreement that arose prior to the date of such assignment. This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties.

14.2 Effect of Bankruptcy. The Parties intend that, in the event of a Bankruptcy, payments required under this Agreement shall be deemed to be administrative expenses as defined in 11 U.S.C. §503.

14.3 Access. The Non-Operator Owner and Lenders and their agents and representatives shall have access to the Facility, all Facility operations and any documents, materials and records and accounts relating to the Facility operations for purposes of inspection and review. Upon the request of the Non-Operator Owner and its agents and representatives, Operator shall provide such Persons with access to all data and logs Operator maintains regarding the Facility. During any inspection or review of the Facility, the Non-Operator Owner and Lenders and their agents and representatives shall comply with all of Operator's safety and security procedures, and shall conduct inspections and reviews in such a manner as to cause minimum interference with Operator's activities. Operator also shall cooperate with the Non-Operator Owner in allowing its agents and representatives access to the Facility.

14.4 Subcontractors; Subagents.

14.4.1 Operator shall have the right to hire third-party subcontractors or to acquire rights from third parties to provide all or part of any Services hereunder without the prior consent of the Operating Committee. The cost of such third-party Services or acquisition of such rights shall be Operating Costs in accordance with Section 7.2.1. Operator, for the benefit of Owner, shall use reasonable efforts to obtain from all subcontractors and suppliers, including any subcontractors and suppliers who are Affiliates of Operator, customary guarantees and warranties to the extent available with respect to the equipment, goods, services or other work provided or performed by such subcontractor and supplier. Notwithstanding the foregoing or anything to the contrary, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld or delayed, procure or enter into any agreement with any third-party subcontractor with respect to the Services (i) with a cost included in the Operating Costs in excess of $[_____] or (ii) that may not be cancelled at any time without penalty. Each agreement with a third-party subcontractor shall reflect costs that are on an arms-length basis and no greater in any material respect than Operator could reasonably provide on Operator's own (or through its Affiliates) without material hardship.

14.4.2 Operator may delegate any obligations hereunder to one or more Affiliates, or designate one or more Affiliates as subagents for the performance of its obligations, and, to the extent such Affiliate performs or acts as subagent with respect to any obligation of Operator hereunder, such Affiliate shall enjoy the rights and benefits of Operator pursuant to this Agreement (including, for the avoidance of doubt, Article X and Article XI hereof). Notwithstanding the foregoing, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld or delayed, procure or enter into any agreement with any of its Affiliates (i) with a value in excess of $[_____] or (ii) that may not be cancelled at any time without penalty. Each agreement with an Affiliate of Operator shall reflect costs that are no greater in any material respect than Operator could obtain on an arms-length basis with a bona fide third party at such time.

14.4.3 If any such third-party subcontractor is hired to provide any such Services or one or more Affiliates perform Services as subagents, Service Provider shall remain liable for such subcontractor or Affiliates obligations hereunder and for any breach by such subcontractor or Affiliate of the terms of this Agreement (to the same extent as if such breach was committed by Service Provider).

14.5 Not for Benefit of Third Parties. Except where a contrary intention is expressly stated, this Agreement and each provision hereof are for the exclusive benefit of the Parties that executed this Agreement and not for the benefit of any third party.

14.6 Force Majeure.

14.6.1 Events Constituting Force Majeure. A "Force Majeure Event" is any event described below that (i) restricts or prevents performance under this Agreement, (ii) is not within the reasonable control of the Party affected or caused by the fault or negligence of the affected Party and (iii) cannot be overcome or avoided by the exercise of due care. Force Majeure Events ~~include~~comprise the following, so long as in each case the requirements of the

foregoing clauses (i), (ii) and (iii) are satisfied, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, tornado or other unusually severe storm or environmental conditions, epidemic, war (whether declared or undeclared), terrorism (whether domestic or foreign, state-sponsored or otherwise), revolution, insurrection, riot, civil disturbances, protests, sabotage (but not including any sabotage involving personnel of Operator), work stoppages (i.e., strikes) (but not including any work stoppages or strikes involving any personnel of Operator, whether on-site or off-site), accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Facility, other acts or omissions of any Governmental Authority, including any form of compulsory government acquisition or condemnation of all or part of the Facility (including a "taking"), restraint by court order, changes in Applicable Law that affect performance under this Agreement, other acts of Governmental Authorities including in response to any of the foregoing. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default in respect to any obligation if and to the extent that performance of such obligation is prevented by a Force Majeure Event. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations.

14.6.2 Notice. If a Party's ability to perform its obligations under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event, its cause, its anticipated duration and any action being taken to avoid or minimize its effect and confirm the same in writing within three (3) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) work diligently to remove the cause of the Force Majeure Event or to lessen its effect.

14.6.3 Scope. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than necessary. The excused Party shall use its reasonable best efforts to remedy its inability to perform.

14.7 Dispute Resolution. Any and all disputes shall be resolved pursuant to the dispute resolution procedures set forth in the Ownership Agreement.

14.8 Amendments. No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Parties.

14.9 Survival. Notwithstanding any provisions to the contrary, the obligations set forth in Article VII and Article VIII, Article X, Article XI and Article XII, Article XIV the limitations on liabilities set forth in Article XI will survive, in full force, the expiration or termination of this Agreement.

14.10 No Waiver. No delay, waiver or omission by the Non-Operator Owner or Operator to exercise any right or power arising from any breach or default by the Non-Operator Owner or Operator with respect to any of the terms, provisions or covenants of this Agreement shall be construed to be a waiver by the Non-Operator Owner or Operator of any subsequent

breach or default of the same or other terms, provisions or covenants on the part of the Non-Operator Owner or Operator.

14.11 Notices. Any written notice required or permitted under this Agreement shall be deemed to have been duly given on the date of receipt, and shall be either delivered personally to the Party to whom notice is given, or mailed to the Party to whom notice is to be given, by facsimile, courier service or first-class registered or certified mail, return receipt requested, postage prepaid, and addressed to the addressee at the address indicated below, or at the most recent address specified by written notice given in the manner provided in this Section 14.11:

If to Operator:

14.12 Representations and Warranties. Each Party represents and warrants to the other Party that, as of the date hereof:

14.12.1 Existence. It is duly organized and validly existing under the laws of the state of its organization and has all requisite power and authority to own its property and assets and conduct its business as presently conducted or proposed to be conducted under this Agreement.

14.12.2 Authority. It has the power and authority to execute and deliver this Agreement, to consummate the transactions contemplated hereby and to perform its obligations hereunder.

14.12.3 Validity. It has taken all necessary action to authorize its execution, delivery and performance of this Agreement, and this Agreement constitutes the valid, legal and binding obligation of such Party enforceable against it in accordance with its terms, except as such enforcement may be limited by Bankruptcy, insolvency, moratorium or similar laws affecting the rights of creditors or by general equitable principles (whether considered in a proceeding in equity or at law).

14.12.4 No Conflict. Neither the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, nor the fulfillment of the terms and conditions hereof, conflicts with or violates any provision of its constituting documents.

14.12.5 No Consent. No consent or approval (including any Permit that such warranting Party is required to obtain) is required from any third party (including any

Governmental Authority) for either the valid execution and delivery of this Agreement, or the performance by such Party of its obligations under this Agreement, except such as have been duly obtained or will be obtained in the ordinary course of business.

14.12.6 No Breach. None of the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, or the fulfillment of the terms and conditions hereof either conflicts with, violates or results in a breach in any material respect of, any Applicable Law currently in effect, or conflicts with, violates or results in a breach of, or constitutes a default under or results in the imposition or creation of, any lien or Encumbrance under any material agreement or instrument to which it is a party or by which it or any of its properties or assets are bound.

14.12.7 No Material Claims. It is not a party to any legal, administrative, arbitral or other proceeding, investigation or controversy pending or threatened that would adversely affect such Party's ability to perform its obligations under this Agreement.

14.13 Additional Representation and Warranty by Operator. Operator further represents and warrants to the Non-Operator Owner that it has, or has obtained through the retention of a qualified operations and maintenance service provider, substantial expertise and experience in the operation and maintenance of comparable power generation facilities and it, or its applicable subcontractor, is fully qualified to provide such services at the Facility in accordance with the terms of this Agreement.

14.14 Counterparts. The Parties may execute this Agreement in counterparts that, when signed by each of the Parties, constitute one and the same instrument. Thereafter, each counterpart shall be deemed an original instrument as against any Party who has signed it. Delivery of an executed counterpart of this Agreement by facsimile or electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

14.15 Governing Law; Venue; Waiver of Jury Trial. The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of ~~Ohio~~Delaware, exclusive of the conflicts-of-law provisions thereof that would require the application of the laws of a different jurisdiction. Each Party hereby submits to the ~~non-~~exclusive jurisdiction of the ~~courts of the State of Ohio~~Delaware Court of Chancery in and for New Castle County, or in the event (but only in the event) that such Delaware Court of Chancery does not have subject matter jurisdiction over such dispute, the United States District Court for the ~~Southern~~ District of ~~Ohio~~Delaware, or in the event (but only in the event) that such United States District Court also does not have jurisdiction over such dispute, any Delaware State court sitting in New Castle County, and the appellate courts having jurisdiction over any appeals from any such ~~courts~~applicable court in connection with any action arising out of or relating to this Agreement and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or such action was brought in an inconvenient court. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

14.16 Interpretation. Titles or captions contained in this Agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, describe or otherwise affect the scope or meaning of this Agreement or the intent of any provision hereof. All exhibits and appendices attached hereto are considered a part hereof as though fully set forth herein. This Agreement was jointly drafted and negotiated by the Parties. In the event of a dispute, this Agreement shall not be construed against either Party based upon its drafting.

14.17 Severability. If any provision of this Agreement, or the application of any such provision to any Person or circumstance, is held invalid by any court or other forum of competent jurisdiction, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those as to which it is held invalid, shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner materially adverse to a Party. Upon any such determination of invalidity, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that this Agreement is consummated as originally contemplated to the greatest extent possible.

14.18 Cooperation in Financing. Operator shall execute and deliver any customary and reasonable agreement and consent to assignment, together with an opinion of counsel at Non-Operator Owner's expense, as may be requested by Non-Operator Owner in connection with any financing of the Facility. Operator shall promptly respond to reasonable requests, including requests for management presentations, by Non-Operator Owner and any of its Lenders or their representatives for information regarding the Operator and its performance of its duties hereunder and the operation, maintenance and administration of the Facility. Operator agrees to cooperate with any of Non-Operator Owner's Lenders and their representatives and to provide such Lenders and representatives with reasonable access to and tours of the Facility (including review of documents, materials, records and accounts).

APPENDIX A – SCOPE OF SERVICES[8]

Routine Services	Provide operational services as reasonably necessary for electrical power generation.
Detailed Programs	Implement Operator human resources program. Implement Operator-drafted, Owner-approved programs in safety, administration, maintenance, and training. Implement Facility's existing programs in operating, maintenance, chemistry, NERC and environmental compliance (or, at the Operating Committee's request, develop or enhance such programs at actual cost and implement). Ensure compliance with NERC requirements, Environmental Law, Applicable Law, and all Permits.
Routine Maintenance	Perform routine and preventive maintenance actions on all Facility systems and equipment in accordance with vendor instructions and the maintenance plan for the Facility. This program includes: **Service Checks** – Conduct visual equipment inspections and log significant parameters such as pressures, temperatures, and flow rates. Trend and analyze this information as appropriate. **Routine and Fixed Interval Maintenance** –Identify preventive maintenance requirements. Schedule and assign routine maintenance during Facility operation, planned outages, and forced or unscheduled outages.
Predictive Maintenance Program	As appropriate, conduct/oversee predictive maintenance within the cost-effective capability of the Facility Personnel. For those maintenance requirements that are not cost-effective for the Facility Personnel, oversee predictive maintenance services provided by vendors.
Major Maintenance and Repairs	In coordination with and support of the Facility Agreements and generation plan, arrange for scheduled inspections and overhauls on major equipment. Retain vendors for the benefit of the Owners for unscheduled major repairs as required and manage and oversee repairs and modifications.
Capital Improvements	Conduct/oversee all capital improvements. As appropriate, retain vendors for the benefit of the Owners to design, construct and implement capital improvements.

[8] NTD: Services scope to be discussed/confirmed in the context of anticipated operational needs and current scope of services.

Facility Outages	Use commercially reasonable efforts to manage all Facility outages (planned, unscheduled, forced) to optimize outage duration and impact on production: **Task Assignment** – Identify and schedule all maintenance that requires a Facility outage or equipment to be taken out of service. **Work Schedule –** Develop and implement a schedule to track material outage preparations, work and testing, including corrective maintenance actions, contractor work and scheduled preventive maintenance. Conduct preparations to support this plan, including ordering and receiving required spare parts.
Assistance to the Non-Operator Owner and Operating Committee	Provide assistance to the Non-Operator Owner and the Operating Committee, as reasonably requested with the execution of the Non-Operator Owner's and the Operating committee's duties relative to operation of the Facility.
Facility Administration	Conduct administration to meet Operator requirements and Owners' goals, including: **Budgets** – Prepare annual Budgets and submit them for Operating Committee approval in accordance with the Ownership Agreement and this Agreement. Following approval, manage operations and expenditures to comply with each Budget. Generate budget variance reports, as required. **Procurement** – Establish and implement a purchasing system. Procure, for the benefit of the Owners, including negotiations and contracting, for all materials, equipment, chemicals, supplies, services, parts, and other miscellaneous items required for the provision of the Services. Pay all invoices in a timely manner. Provide credit support as required by third parties for the operation of the Facility, including contract counterparties and Governmental Authorities. Minimize Owner costs as much as feasible. **Inventory Control** – Implement a cost-effective inventory control system designed to ensure that spare parts, materials, and supplies are properly stored and accounted for and that adequate supplies are available at all times to support the provision of the Services. **Personnel Matters** – In compliance with Operator programs and policies, manage all payroll and employee relations, labor relations, and independent contractor issues, as required. These tasks include: employment; compensation and benefits; initial training; and employee and independent contractor relations. Provide reasonable support to recruit, hire, transfer, or otherwise acquire and retain qualified Facility Personnel to maintain the staffing levels and skill

	mix required for successful long-term provision of the Services. **Community Relations** – In coordination with and with the approval of the Operating Committee, conduct a community relations program to establish the Facility and its employees as "good citizens" in the local community. **Regulatory –** Perform all duties set forth in Section 7.8 of the Ownership Agreement with respect to Emission Allowances (as defined therein).
Work Assignment	Assign work to either Facility Personnel or vendors as cost-effective and appropriate based on overall guidance from the Operating Committee. Normally, Facility Personnel conduct preventive maintenance and actions requiring a high degree of Facility knowledge and vendors perform tasks needing equipment or expertise that are not cost-effective to maintain at the Facility. Vendors also perform tasks that make sense to minimize outage time and costs.
Buildings and Grounds	Arrange for janitorial, garbage pickup and landscape services and maintain all access roads, office buildings, and other structures in reasonable repair.
Reports	Prepare and submit operation and maintenance service reports as requested relative to performance, including environmental compliance records, maintenance and repair status, Facility operating data, and any other information reasonably requested by the Operating Committee or the Non-Operator Owner.
Security	Implement or arrange for implementation of security measures in accordance with the Operating Committee-approved Facility security plan.
Safety	Continue to implement Corporate and Plant Level Safety Programs including on-site visits and discussions at the facility.
PJM Capacity Analysis	Analysis and plant level information to PJM as part of PJM's FRR or RPM Capacity Market requirements
Information Systems	Manage the Facility's information technology infrastructure, including phone systems, internet connectivity, hardware and software. Implement or arrange for implementation of cybersecurity policies and procedures in compliance with NERC requirements and Applicable Law, in accordance with the Operating Committee-approved Facility cybersecurity plan.
Training Program	Implement a continuing program of training designed to orient new Facility Personnel, refresh/cross-train existing Facility Personnel,

	qualify/re-qualify Facility Personnel, and keep all Facility Personnel aware of Operating Committee -approved Facility safety requirements and emergency procedures. This program includes specialty skills training.
Drawing/Manual Maintenance	Maintain the Facility library and update the Manuals and vendor service manuals. Update (or arrange for updating) Facility drawings to reflect changes to the as-built configuration. In addition to document management, maintain physical Facility configuration control.
Fuel Purchasing and Handling	• Procure coal, reagents, fuel oil supply or transportation service agreements as needed to operate the Facility and establish and maintain reserves of coal in common stock piles of such quality and in such quantities as the Operating Committee shall determine • Contract administration for Fuel supply contracts along with legal review. • Third Party Settlements of fuel related supply and inventory tracking in ComTrac system • Joint Books Accounting to prepare information for billing among co-owners per agreement • Analysis of fuel related costs for data requests from regulatory bodies or joint owner • Provide fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by the Facility during each month. • Receive coal and provide fuel handling • Fuel coordinator functions to review fuel quality with third party suppliers at coal or limestone facilities. • Administer and reconcile volumes of all fuel with suppliers • Administer and comply with the requirements set forth in the Facility's fuel agreements, including quality testing and invoice review and approval • Administer and comply with the requirements set forth in the Facility's coal ash, gypsum and combustion byproduct disposal and sales agreements, including invoice review and approval

Day Ahead and Real Time Market Operations	• Unit Generation Dispatch – Monitor signals and take direction from PJM for generating units. Relay these directions, commitments and settings to the Unit Operators and Controls. Relay information on real time unit conditions to Transmission Owner (TO) and PJM. • GADS Reporting – Create GADS events as they are scheduled or occur. Submit monthly event reporting as required by NERC and PJM. • Outage Support and Communications to PJM – Relay outage/curtailment information from plant personnel to PJM. Schedule maintenance and planned outages/curtailments, and maintain updates as they arise. • Unit Characteristic Updates to PJM – Provide any relevant configuration updates related to generating units to PJM that may occur. • Telemetry – Maintain current real time telemetry to/from the plant, PJM and Market Operations control center.
Administration of Contracts	• Administer, perform and enforce all contractual obligations and arrangements, including all warranties applicable thereto, entered into by Operator for the benefit of the Owners with respect to the Facility • Act as agent on behalf of the Non-Operating Owner with respect to the administration, performance and enforcement of any contracts or purchase orders (including fuel supply or transportation contracts) with respect to the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date
Insurance	• Procure on behalf of each Owner such property and other insurance policies as required by the insurance program established by the Operating Committee in accordance with the Ownership Agreement.
Facility Retirement and Decommissioning	• Manage and contract with vendors and other parties to ~~perform Decommissioning Work~~implement a Facility and/or Site retirement and decommissioning plan. This includes the management of required regulatory filings, permitting, engineering assessments, and the contracting for demolition and or liability transfers. Upon mutual agreement between Operator and the Operating Committee, Operator may conduct all or a

	portion of the Facility and/or Site ~~Decommissioning~~retirement and decommissioning from its and its Affiliates resources.

MITCHELL PLANT OPERATIONS AND MAINTENANCE AGREEMENT

This OPERATIONS AND MAINTENANCE AGREEMENT (this "Agreement"), dated as of [_____] (the "Effective Date"), is entered by and between WHEELING POWER COMPANY, a West Virginia corporation (in its capacity as the operator of the Facility, "Operator" and in its capacity as an owner of the Facility, "WPCo") and KENTUCKY POWER COMPANY, a Kentucky corporation qualified as a foreign corporation in West Virginia (in its capacity as an owner of the Facility, the "Non-Operator Owner" and, together with WPCo, each an "Owner" and, together, the "Owners").

RECITALS

1. Owners each own an undivided Ownership Interest in the Facility (these and other capitalized terms are defined in Article II).

2. On the date hereof, WPCo and the Non-Operator Owner have entered into that certain Mitchell Plant Ownership Agreement, setting forth the respective rights, duties and obligations of the Owners with respect to each other and the Facility in their capacities as the Owners thereof (the "Ownership Agreement").

3. Pursuant to the Ownership Agreement, WPCo has agreed to manage the day-to-day operations and maintenance of the Facility as Operator pursuant to the terms of this Agreement.

4. Operator and the Non-Operator Owner desire to execute this Agreement to set forth the respective rights, duties and obligations of WPCo, in its capacity as Operator of the Facility, and the Non-Operator Owner, in its capacity as an Owner of an undivided interest as a co-tenant in the Facility.

NOW, THEREFORE, in consideration of the foregoing premises, and of the mutual covenants, undertakings and conditions set forth below, the Parties agree as follows:

ARTICLE I - AGREEMENT

1.1 Agreement. This Agreement consists of the recitals, and the terms and conditions set forth in this Agreement, as well as the appendices that are referenced in the table of contents and attached to this Agreement.

1.2 Relationship of the Parties. Operator shall perform the Services in its capacity as an independent contractor of the Owners and as principal on its own behalf as an Owner. Subject to any limitations set forth in this Agreement and the Ownership Agreement, the Owners delegate to Operator, and Operator accepts from the Owners, the responsibility of providing the Services at the Facility. The Owners and Operator agree that the scope of delegation is strictly limited to the matters set forth in this Agreement and the Ownership Agreement. Without limiting the generality of the foregoing, the Owners retain the ultimate authority and obligation to determine whether and to what extent the Facility operates, and Operator shall not cause the Facility to generate power except as expressly directed to do so by the Owners or any dispatching authority specified by the Owners in accordance with the Ownership Agreement. For the

avoidance of doubt, any provision of this Agreement requiring the delegation of authority, direction, consent or authorization with respect to the Owners shall mean the delegation, direction, consent or authorization of both Owners (or the Operating Committee) in accordance with the Ownership Agreement (except to the extent the Ownership Agreement gives exclusive authority to the Non-Operator Owner thereunder, in which case such delegation of authority, direction, consent or authorization with respect to the Owners shall mean exclusively the delegation, direction, consent or authorization of the Non-Operator Owner).

1.3 Entire Agreement. This Agreement, together with the Ownership Agreement, contains the entire agreement between the Parties with respect to Operator's provision of Services at the Facility and supersedes all prior negotiations, undertakings and agreements.

ARTICLE II - DEFINITIONS[1]

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears, capitalized terms have the meanings specified in this Article II. The singular includes the plural, as the context requires. The terms "includes" and "including" mean "including, but not limited to." The terms "ensure" and "reasonable efforts" will not be construed as a guarantee, but will imply only a duty to use reasonable efforts and care, consistent with Prudent Operation and Maintenance Practices, and will include reasonable expenditures of money and at least such efforts as Operator would undertake for its own assets, services or maintenance, or for services provided to an Affiliate. "Gross negligence" will not be construed as simple or ordinary negligence, it being the intent of the Parties to preserve a distinction between errors made inadvertently while attempting to perform with due care and actions taken with a knowing disregard for a foreseeable risk. "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day. "Month" (regardless of capitalization) shall mean a calendar month. References to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement, except where expressly stated otherwise.

"AEPSC" shall mean American Electric Power Service Corporation, a New York corporation and an Affiliate of WPCo.

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, controls, is controlled by, or is under common control with such Person. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise. The Non-Operator Owner shall not be deemed an Affiliate of the Operator.

"Agreement" has the meaning set forth in the preamble to this Agreement.

[1] NTD: Discuss extent to which terms should conform across O&M Agreement and Operating Agreement.

"Applicable Law" means all laws (including common law), statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, Governmental Approvals, Permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over an Owner, any other Person or entity (as to that Person or entity), this Agreement, any Facility asset or the Facility, as applicable.

"Bankruptcy" means a situation in which (i) a Person files a voluntary petition in bankruptcy or is adjudicated as bankrupt or insolvent, or files any petition or answer or consent seeking any reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable United States federal, state or other statute or law relative to bankruptcy, insolvency or other relief for debtors, or seeks or consents to or acquiesces in the appointment of any trustee, receiver, conservator or liquidator of such Person or of all or any substantial part of its properties (the term "acquiesce," as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within fifteen (15) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction enters an order, judgment or decree approving a petition filed against any Person seeking a reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States federal bankruptcy act, or any other present or future Applicable Law relating to bankruptcy, insolvency or other relief for debtors, and such Person acquiesces and such decree remains unvacated and unstayed for an aggregate of sixty (60) days (whether or not consecutive) from the date of entry thereof, or a trustee, receiver, conservator or liquidator of such Person is appointed with the consent or acquiescence of such Person and such appointment remains unvacated and unstayed for an aggregate of sixty (60) days, whether or not consecutive; (iii) a Person admits in writing its inability to pay its debts as they mature; (iv) a Person gives notice, to any Governmental Authority of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) a Person makes a general assignment for the benefit of creditors or takes any other similar action for the protection or benefit of creditors (other than in the ordinary course of such party's business).

"Budget" means an annual operating budget and annual capital budget adopted or amended pursuant to the Ownership Agreement.

"Business Day" means any day other than (i) a Saturday or Sunday or (ii) a day on which banks in West Virginia or Ohio are required or permitted to be closed.

"Claims" means any and all claims, assertions, demands, suits, investigations, inquiries, and proceedings.

"Confidential Information" means, with respect to each Party, all written or oral information of a proprietary, intellectual or similar nature, relating to the business, projects, operations, activities or affairs of a Party and its Affiliates, whether of a technical or financial nature or otherwise (including environmental assessment reports, financial information, business plans and proposals, ideas, concepts, trade secrets, know-how, processes, pricing of services or products, and other technical or business information, whether concerning this Agreement, each

Party's respective businesses or otherwise) that has not been publicly disclosed and that the receiving Party acquires directly or indirectly from the disclosing Party.

"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the generating units and other property, plant, and equipment comprising the Facility, including any common facilities associated with each generating unit that are to be permanently removed from service, the restoration of the Site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.

"Decommissioning Work" shall mean all work reasonably necessary or undertaken to Decommission the Facility, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Facility in accordance with Applicable Law.

"Dollars" means United States Dollars, the lawful currency of the United States of America.

"Due Date" means, with respect to any Operator invoice, the date that is thirty (30) days following the date on which Operator submits the invoice to the Non-Operator Owner in accordance with Article VII. If such date does not fall on a Business Day, then the Due Date shall be the first Business Day after such date.

"Effective Date" means the date set forth in the preamble to this Agreement.

"Emergency" has the meaning set forth in Section 3.8.

"Encumbrance" means (i) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (ii) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary Claim; and (iii) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Environmental Law" means any Applicable Law pertaining to (i) the regulation or protection of employee health or safety, public health or safety, or the indoor or outdoor environment; (ii) the conservation, management, development, control or use of land, natural resources, or wildlife; (iii) the protection or use of surface water or ground water; (iv) the management, manufacture, possession, presence, use, generation, treatment, storage, disposal, transportation, or handling of, or exposure to any Hazardous Material; or (v) pollution (including release of any hazardous substance to air, land, surface water and ground water), including the Comprehensive Environmental Response, Compensation, and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. §§ 9601 et seq.), the Hazardous Materials Transportation Act (49 U.S.C. §§ 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. §§ 6901 et seq.), the Toxic Substances Control Act (15 U.S.C. §§ 2601 et seq.), the Clean Water Act (33 U.S.C. §§ 7401 et seq.), the Clean Air Act,

as amended (42 U.S.C. §§ 7401 et seq.), the Safe Drinking Water Act (42 U.S.C. §§ 300f et seq.), the Uranium Mill Tailings Radiation Control Act (42 U.S.C. §§ 7901 et seq.), the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§ 136 et seq.), all as now or hereafter amended or supplemented, and any regulations promulgated thereunder, and any other similar federal, state, or local statutes, rules and regulations.

"Environmental Liability" has the meaning set forth in Section 10.3.1.

"Facility" means the Mitchell Power Generation Facility consisting of two (2) coal-fired generating units, each having a nominal nameplate capacity of 800MW, and associated plant, equipment and real estate, located in Moundsville, West Virginia, and includes all electrical or thermal devices, and related structures and connections that are located at the Site and used for the production of power and the transportation and handling of fuel for the benefit of the Owners, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam.

"Facility Agreements" means this Agreement, the Ownership Agreement, all applicable interconnection agreements, fuel supply agreements, coal ash, gypsum and other combustion byproduct disposal or sales agreements, all applicable equipment maintenance agreements in effect or entered into, and as amended, supplemented or modified, from time to time by the Operator or the Owners relating to the Facility, all equipment contracts with regard to warranties and equipment design and specifications, and any other agreement reasonably designated by the Owners as a "Facility Agreement."

"Facility Equipment" has the meaning set forth in Section 13.1.

"Facility Personnel" means those individuals who are employed by Operator or its Affiliates at the Site ~~exclusively for~~[2] to perform services in respect of the Facility ~~in the performance of its obligations~~ under this Agreement.

"Force Majeure Event" has the meaning set forth in Section 14.6.1.

"Governmental Approval" means any consent, license, approval, exemption, Permit, "no objection certificate" or other authorization of whatever nature that is required to be granted by any Governmental Authority or any third party with respect to the siting, construction, operation, service and maintenance of the Facility in accordance with this Agreement, or otherwise necessary to enable an Owner or Operator to exercise its rights, or observe or perform its obligations, under this Agreement.

"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision,

[2] Note to Purchaser: There are certain personnel employed by WPCo and AEPSC that perform services at the Site from time to time but are not dedicated exclusively to the Facility or the Site.

department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.

"Hazardous Materials" means (a) any petroleum or petroleum products, radioactive materials, asbestos in any form that is or could become friable, urea formaldehyde foam insulation, 1.4 Dioxane, per-and polyfluoroalkyl substances, and transformers or other equipment that contain dielectric fluid containing polychlorinated biphenyls; (b) any chemicals, materials or substances that are now or hereafter become defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollution," "pollutants," "regulated substances," or words of similar import under Applicable Law; or (c) any other chemical, material, substance or waste declared to be or regulated as hazardous, toxic or polluting material by any Governmental Authority, exposure to which is now or hereafter prohibited, limited or regulated by any Governmental Authority.

"Late Payment Rate" means a rate of interest per annum equal to the lesser of (i) the "prime" rate of interest per annum for corporate loans as published in The Wall Street Journal under "Money Rates" as such rate may be in effect from time to time during the period the delinquent amount remains outstanding plus four (4) percentage points (4%) per annum or (ii) the maximum rate of interest permitted by Applicable Law.[2]

"Lender" means any entity or entities providing financing or refinancing to an Owner under any financing agreements in connection with the construction or permanent financing for the Facility, and their permitted successors and assigns.

"Liabilities" means, collectively, any and all Claims, damages, judgments, losses, obligations, liabilities, actions and causes of action, fees (including reasonable attorneys' fees and disbursements), costs (including court costs), expenses, penalties, fines and sanctions.

"Manuals" means Facility Equipment manuals, system descriptions, system operating instructions, equipment maintenance instructions and pertinent design documentation created by the Persons that constructed the Facility or manufactured its equipment, and the operation and maintenance procedures and Facility systems descriptions, training, safety, chemistry and environmental manuals, together with the documents and schedules described in such manuals.

"NERC" means the North American Electric Reliability Corporation.

"Non-Operator Owner" has the meaning set forth in the preamble to this Agreement.

"Non-Operator Owner Indemnitees" has the meaning set forth in Section 10.1.

"Operating Committee" means the "Operating Committee" as composed from time to time pursuant to and defined in the Ownership Agreement.

[2] ~~NTD: To make consistent with the TSA.~~

"Operating Costs" has the meaning set forth in Section 7.2.1.

"Operator" has the meaning set forth in the preamble to this Agreement.

"Operator Indemnitees" has the meaning set forth in Section 10.2.

"Operator Proprietary Information" has the meaning set forth in Section 13.3.

"Owner" has the meaning set forth in the preamble to this Agreement.

"Ownership Agreement" has the meaning set forth in the recitals to this Agreement.

"Ownership Interest" has the meaning set forth in the Ownership Agreement.

"Party" means a party to this Agreement and "Parties" means, collectively, the parties to this Agreement, unless the context clearly requires a different construction.

"Permit" means any permit, license, consent, approval or certificate that is required or used for the operation or maintenance of the Facility or the performance of any Service and includes Permits required under Environmental Laws.

"Person" means any Party, individual, partnership, corporation, association, limited liability company, business trust, government or political subdivision thereof, governmental agency or other entity.

"Plan" means an annual operating plan adopted or amended pursuant to Section 5.3.

"Plant Manager" means the production/plant manager for the Facility selected in accordance with Section 3.6, Section 8.5 or Section 8.6.

"Project Manager" means the individual appointed in accordance with Section 5.1.

"Prudent Operation and Maintenance Practices" means those practices, methods and acts generally employed in the power generation industry with respect to facilities of similar type, fuel characteristics and geographical location as the Facility, that at the particular time in question, in the exercise of reasonable judgment in light of the facts known at the time the decision in question was being made, would have been expected to accomplish the desired result of such decision consistent with the goals established in a Budget and Plan, and the requirements of Applicable Law, System Operators, equipment manufacturer's recommendations, reliability, safety, environmental protection, economy and expedition. With respect to Operator, Prudent Operation and Maintenance Practices are not limited to the optimum practices, methods or acts to the exclusion of all others, but rather include a spectrum of possible practices, methods or acts commonly employed in the coal-fired power generation industry, including taking reasonable actions to provide a sufficient number of Persons who are available and adequately trained to provide Services at the Facility, and timely perform preventive, routine, and non-routine maintenance and repairs, as exemplified and generally described in Appendix A, subject, in all

cases, to the Operator's duties and the limitations on Operator's authority~~, and duties~~, as set forth in this Agreement and the Ownership Agreement.

"Services" has the meaning set forth in Section 3.1.

"Site" means the land on which the Facility is situated.

"Standards of Performance" means the standards for Operator's performance of the Services set forth in Section 3.3.

"System Operator" means any Person or regional transmission organization, such as PJM Interconnection, L.L.C., supervising the collective transmission or generation facilities of the power region in which the Facility is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

"Term" means the initial term together with any extensions.

"Termination Transition Period" has the meaning set forth in Section 8.5.1.

"WPCo" has the meaning set forth in the preamble to this Agreement.

"Year" means the calendar year. With respect to the Year in which the Effective Date occurs, a Year will be deemed to begin on the Effective Date and end on December 31st of such Year. If this Agreement terminates, the final Year will be deemed to end on the date that termination occurs.

ARTICLE III - RESPONSIBILITIES OF OPERATOR

3.1 Provision of Services. Operator shall operate and maintain the Facility and perform other duties as set forth in this Agreement and~~/or~~ as directed by the Owners pursuant to the Ownership Agreement, including performing and, as applicable, contracting for the benefit of the Owners with suppliers and service providers to perform, the services set forth on Appendix A (collectively, the "Services") and agrees to be responsible for the day-to-day operation and maintenance of the Facility.

3.2 Procurement.

3.2.1 Operator shall sign contracts and purchase orders for goods and services to be delivered to the Facility in the name of Operator as agent for the Owners, and shall not contract in the name of the Non-Operator Owner without the Non-Operator Owner's prior written consent. Operator acknowledges that such contracts and purchase orders are for the benefit of the Owners and the Facility. Operator shall endeavor to negotiate with vendors from standard terms and conditions, including reasonable warranties for the benefit of the Owners.

3.2.2 The Non-Operator Owner shall use commercially reasonable efforts to obtain, promptly following the Effective Date, any and all consents of third parties required to assign, transfer or convey to Operator any contracts or purchase orders for goods and services (including fuel supply and transportation) to be delivered to or used by the Facility that are in the

name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date, which are reasonably required to be transferred to Operator for the performance of the Services.[3] To the extent that, notwithstanding its commercially reasonable efforts, the Non-Operator Owner is unable to obtain any such required consent effective as of the Effective Date, and as a result thereof Operator shall be prevented by such third party from receiving the rights and benefits with respect to any such contract or purchase order intended to be transferred hereunder, or if any attempted assignment would adversely affect the rights of the Non-Operator Owner thereunder so that Operator would not in fact receive all such rights or the Non-Operator Owner would forfeit or otherwise lose the benefit of rights that the Non-Operator Owner is entitled to retain, the Non-Operator Owner and Operator shall cooperate to implement any lawful and commercially reasonable arrangement as the Non-Operator Owner and Operator shall agree, under which Operator would, to the extent practicable, obtain the claims, rights and benefits under such contract or purchase order and assume the burdens and obligations with respect thereto, including by the Non-Operator Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such contracts or purchase orders; provided, however, that the Non-Operator Owner and WPCo shall each bear its respective share of the costs and expenses under any such contract or purchase order in accordance with this Agreement and the Ownership Agreement. The Non-Operator Owner and Operator shall continue to cooperate to assign, transfer or convey to Operator any such contract or purchase order that remain held by the Non-Operator Owner and to otherwise arrange for Operator to directly contract with the applicable third party for any renewal contract or purchase upon the expiration or termination of any such contract or purchase order.

3.3 Standards for Performance of the Services. Operator shall perform the Services in accordance with (i) the Manuals, (ii) the applicable Budget and Plan, (iii) Applicable Laws, (iv) Prudent Operation and Maintenance Practices, (v) insurer requirements delivered to Operator by the Owners in writing, (vi) the requirements in the Facility Agreements (vii) this Agreement; and (viii) as directed by the Owners pursuant to the Ownership Agreement. Subject to the other provisions of this Agreement, Operator shall perform the Services and other obligations under this Agreement in a manner consistent with the Operating Committee's directions. The Parties acknowledge and agree that, subject to Operator's compliance with the Standards of Performance, Operator shall have no liability for acting or refraining to act in accordance with the directions of the Operating Committee, except to the extent caused by Operator's gross negligence, willful misconduct, fraud, willful violation of any Applicable Law, willful breach of this Agreement or the Ownership Agreement or other willful misconduct.

3.4 Dispatch. Operator shall use commercially reasonable efforts to comply with any applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the

[3] NTD: To confirm necessity/applicability and what is contemplated, given this is addressed in the PSA. Note to Purchaser: This Agreement is intended to stand alone from the Nickel transaction and will be filed in separate regulatory proceedings, so we thought those obligations would need to run directly between the Owners as well.

Ownership Agreement. Operator shall give the Operating Committee notice as soon as practicable of any inability of the Facility to make the requisite deliveries of energy, capacity or ancillary services and of Operator's plan to restore operation of the Facility. In the case of any interruption, curtailment or reduction in (i) supplies of fuel or (ii) acceptance of energy, capacity or ancillary services by the System Operator or in the case of any other dispatch constraint imposed on the Facility, Operator shall notify the Non-Operator Owner as soon as practicable. Upon removal of the constraint, Operator shall use its commercially reasonable efforts to restore the availability of the Facility for dispatch consistent with applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement.

3.5 Licenses and Permits.

3.5.1 General. Operator shall review all Applicable Laws containing or establishing compliance requirements in connection with the operation and maintenance and Decommissioning[4] of the Facility and shall use commercially reasonable efforts to obtain and maintain, for the benefit of both Owners, all Permits required by Applicable Law for the ownership, operation ~~and~~, maintenance and Decommissioning of the Facility and for Operator's performance of the Services, and shall (i) from time to time, notify the ~~Owners~~Operating Committee if Operator believes that a Permit is required by Applicable Law to be obtained by an Owner in its name in order to allow Operator to perform the Services and assist each Owner, at each Owner's written request and such Owner's sole cost and expense, in securing and complying with, as appropriate, all necessary Permits (and renewals of the same) which are required to be in an Owner's name, including those relating to air emissions, boiler operation, water usage, septic system operation, wastewater discharge, chemical and other waste (including Hazardous Materials) storage and disposal, emissions testing and safety, and (ii) initiate and maintain precautions and procedures reasonably necessary to comply with Applicable Laws. Any Permit held solely in the name of Operator shall, to the extent necessary for the other Owner's compliance with Applicable Law in its role as an Owner, be held by Operator for the benefit of both Owners. Any Permit held solely in the name of the Non-Operator Owner shall, to the extent necessary and consistent with Applicable Laws, be made available for the use of the Operator for the benefit of the Owners and, if reasonably necessary to facilitate Operator's operation and maintenance or Decommissioning of the Facility, the Non-Operator Owner shall cooperate with Operator to effect an assignment or other transfer of such Permit to Operator or otherwise submit such Permit modifications or updating information as necessary to reflect the role of Operator with respect to such Permit.

3.5.2 NERC Compliance. Operator (or an Affiliate thereof) shall register with NERC as the "Generator Owner" and "Generator Operator" for the Facility in accordance with 18 C.F.R. § 39.2(c) effective from and after [the Effective Date][5]. On and after [the Effective Date], Operator shall, or shall cause its applicable Affiliate to, (i) maintain compliance with all

[4] Note to Purchaser: References to Decommissioning added given that the Owners may opt to decommission/provide for early retirement of the plant.

[5] **Note**: Subject to modification if registration cannot be effective as of the Effective Date.

NERC reliability standards applicable to the Facility and all NERC rules applicable to Operator as Generator Owner and Generator Operator for the Facility in accordance with 18 C.F.R. § 39.2(b), including any actions related to mitigation and compliance enhancement required or implemented thereunder; (ii) provide notice to the Operating Committee promptly following the determination by Operator of any reportable physical or cyber security incident under the NERC reliability standards or other Applicable Law; (iii) maintain and provide documentation and maintenance records to the Operating Committee regarding any operation, testing, maintenance or faults of any generation protection relays, gen-tie relays or any other equipment necessary to fulfill Operator's or its applicable Affiliate's obligations as the Generator Owner or Generator Operator for the Facility; and (iv) provide to the Non-Operator Owner upon written request any other information, documentation and support reasonably necessary for Operator or its applicable Affiliate to demonstrate compliance with the NERC reliability standards. To the extent that any fine or sanction is imposed in respect of the performance of Operator's obligations under this Section 3.5.2 pursuant to Section 215(c) of the Federal Power Act, any cost related thereto shall be a included as an Operating Cost, to the extent permitted by Applicable Law.

3.6 Personnel Matters. Subject to Sections 8.5 and 8.6, and as otherwise set forth in this Section 3.6, Operator shall be responsible for determining the working hours, rates of compensation and all other matters relating to the employment of Operator's Facility Personnel, including the designation or appointment of the Plant Manager, in its reasonable judgment and in accordance with ~~its~~Non-Operator Owner's past practices in the ordinary course of its business during the time it served as operator of the Facility, and shall retain sole authority, control and responsibility with respect to its employment policies. Operator shall submit for the Operating Committee's approval the staffing requirements for the Facility on an annual basis. If Operator intends to select a new Plant Manager, or if the individual serving as Plant Manager ceases to be the Plant Manager, Operator shall provide prompt written notice to the Non-Operator Owner of the selection of a substitute Plant Manager. Facility Personnel shall be qualified and experienced in the duties to which they are assigned. ~~The Facility shall be operated by Operator's Facility Personnel, and Operator shall be fully responsible for all the acts and omissions of all of its Facility Personnel, agents and any subcontractors, and Owners will look solely to Operator for the performance or non-performance of the Services.~~[6] Operator shall, upon the reasonable written request of the Non-Operator Owner, for cause (as documented in reasonable detail in any such written request), use commercially reasonable efforts to, as promptly as practicable under the circumstances and subject to any applicable collective bargaining agreements, remove from the ~~site~~Site and the Facility workforce, the services of any employee or ~~subcontractor~~other individual, subject to Operator's confirmation that such cause exists.

3.7 No Liens or Encumbrances. Operator shall use commercially reasonable efforts to keep and maintain the Facility free and clear of all liens and Encumbrances resulting from the failure by Operator to perform the Services or the personal debts and obligations of Operator unrelated to its ownership interest in the Facility.

[6] Note to Purchaser: The scope of Operator's responsibility for personnel is set forth in detail in Articles X and XI.

3.8 Emergency Action. In the event of an emergency affecting the safety, health or protection of, or otherwise endangering, any Person, property or the environment located at or about the Facility (an "Emergency"), Operator shall take prompt ~~reasonable~~ action in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate any imminent damage, injury or loss threatened by such Emergency, and shall notify the Non-Operator Owner of such Emergency and Operator's response as soon as practical under the circumstances and in no event later than ~~twenty-four~~forty-eight (~~24~~48) business hours after ~~the occurrence~~Operator becomes aware of such event. To the extent Operator procures goods and services as necessary to respond to an Emergency, reasonable and documented out of pocket costs in respect thereof shall be treated as Operating Costs.

ARTICLE IV - OBLIGATIONS, RIGHTS AND REPRESENTATIVES OF EACH OWNER

4.1 General. Each Owner expressly reserves the exclusive authority to make, and shall make, such business and strategic decisions as it deems appropriate from time to time in reference to the operation and maintenance of the Facility in accordance with the Ownership Agreement. Upon request from Operator, the Non-Operator Owner shall promptly furnish or cause to be furnished to Operator, at the Non-Operator Owner's expense, the information, access, materials, instructions and other items described in this Article IV that are in the possession or control of the Non-Operator Owner and which are reasonably necessary for performance of the Services by Operator and not otherwise available to Operator. All such items will be made available at such times and in such manner as may be reasonably required for the expeditious and orderly performance of the Services by Operator.

4.2 Information. Subject to the Standards of Performance, Operator shall be entitled to rely upon any information provided by the Non-Operator Owner or any other party to the Facility Agreements in the performance of the Services.

4.3 Access to Facility. Each Owner shall provide Operator and Operator's contractors, vendors, suppliers, employees and agents and Facility Agreement counterparties, to the extent applicable, reasonable access to and use of the Facility and the Site and to such Owner's records and data at the Facility and, in the case of the Non-Operator Owner, reasonably available to the Non-Operator Owner or in the Non-Operator Owner's possession and reasonably necessary for the performance of Services by Operator under this Agreement.

4.4 Instructions, Approvals, etc. Each Owner shall provide or cause to be provided (including through action of the Operating Committee) to Operator all instructions Operator is required to obtain in accordance with this Agreement. Without limiting the provisions of Section 3.2.2, each Owner shall ~~reasonable~~reasonably cooperate to make available or cause to be available to Operator the benefits of all assets (including Permits and contracts relating to the Facility) held in the name of such Owner, as reasonably required for the operation of the Facility. Each Owner shall not ~~knowingly~~ direct Operator to take any action inconsistent with Applicable Law or otherwise adversely affecting the safety, health or protection of any person, or property or the environment located at or about the Facility.

ARTICLE V - REPRESENTATIVES, BUDGETS AND REPORTS

5.1 Representatives of Operator. On or as soon as practical after the Effective Date, Operator shall appoint a Project Manager who shall be authorized to represent Operator with each Owner and the Operating Committee concerning Operator's performance of the Services. The Project Manager may be the same individual as the Plant Manager. Operator shall be responsible for all communications, directions, requests and decisions made by its Project Manager at its direction. Operator shall notify the Non-Operator Owner in writing upon the appointment of its Project Manager, and of any successors. The Project Manager has no authority to modify, amend or terminate this Agreement or, absent written notice by Operator to the contrary, to enter into any other agreement on behalf of Operator other than as provided herein.

5.2 Representatives of Owner; Operating Committee. The Operating Representative of each Owner (pursuant to and as defined in the Ownership Agreement) shall be authorized and empowered to act for and on behalf of such Owner on all matters requiring the consent, approval or other action of an Owner pursuant to this Agreement. Each Owner shall notify Operator and the other Operating Representative in writing upon the appointment of its Operating Representative, and of any successors. Any provision of this Agreement requiring the consent, approval, or similar act of the Operating Committee shall mean the consent, approval, or similar act of the Operating Committee acting in accordance with the terms of the Ownership Agreement.

5.3 Plans and Budgets.

5.3.1 Adoption.

5.3.1.1. ~~5.3.1.1~~ Budgets. The initial Budget and Plan for the first Year following the Effective Date is attached as Appendix B hereto.[~~5~~7] No later than [ninety (90)][~~6~~8] days prior to each operating Year, Operator shall deliver to the Operating Committee for the Operating Committee's review, revision if applicable and approval (i) a proposed annual operating budget, (ii) ~~a~~any proposed amendments to the annual capital budget[9], (iii) an annual operating plan and (iv) a six (6) Year future forecast of operating and capital expenses. Each such proposed budget, plan and forecast shall contain such detail and supporting documentation as reasonably necessary or ~~reasonable~~reasonably requested for the Operating Committee's review, and Operator shall provide all such additional information and supporting documentation as may be reasonably requested by the Operating Committee and as required by the Ownership Agreement. The Operating Committee shall review and provide modifications to each such proposed budget, plan and forecast and Operator shall cooperate to revise each such proposed

[~~5~~7] **Note**: Initial budget and Plan to be attached on the Effective Date.

[~~6~~] ~~NTD: To be consistent with Ownership Agreement.~~[8] Note to Purchaser: Subject to further review by AEP. Timing for producing budgets would need to be generally consistent with AEP's overall budgeting processes for its utilities and generation resources.

[9] Note to Purchaser: The capital budget under the Ownership Agreement is a multi-year budget that persists over the term (as opposed annual operating budgets which are single-year budgets that need to be adopted annually).

budget and plan to receive the Operating Committee's approval of same by December 1 of each Year. Each Budget and Plan as approved by the Operating Committee or otherwise deemed implemented pursuant to the Ownership Agreement shall remain in effect ~~throughout the applicable Year, subject to revision, amendment and replacement~~ in accordance with the Ownership Agreement. Operator and the Non-Operator Owner by mutual ~~written~~ agreement[10] may modify the process and procedures set forth in this Section 5.3.1.

5.3.1.2. ~~5.3.1.2~~ Amendments. If either the Non-Operator Owner or Operator becomes aware of facts or circumstances that it believes necessitate a change to a Budget or Plan, that Party shall promptly notify the other Party in writing, specifying the impact upon the Budget and the reasons for the change. The Project Manager shall then discuss appropriate amendments to the Budget with the Operating Committee.

5.3.1.3. ~~5.3.1.3~~ Failure to Agree. Operator acknowledges that the Owners retain ultimate authority with respect to expenses incurred for the Facility. Accordingly, Operator shall accept each Budget as determined in accordance with the Ownership Agreement. To the extent that the Operating Committee limits funds for Operating Costs, Operator shall be relieved from performing only those specific Services that ~~were previously identified~~would result in ~~writing to~~ the ~~Operating Committee that would incur~~incurrence of such non-reimbursable Operating Costs.

5.3.2 Limitations on Variation from Budget. Except as otherwise permitted in response to an Emergency in accordance with Section 3.8, Operator shall obtain the Operating Committee's ~~prior~~ written approval (i) for any expenditures resulting in cumulative budget overruns exceeding ten percent (10%) in the aggregate in any Year with respect to either the operating Budget or capital expense Budget, or (ii) for any unbudgeted expenditure or capital project having a projected cost of more than $100,000.

5.4 Availability of Operating Data and Records. Operator shall deliver Facility data recorded, prepared or maintained by Operator to the Operating Committee: (i) as necessary or reasonably requested by an Owner to assist each Owner in complying with requirements of Governmental Authorities, Permits and Facility Agreements; or (ii) upon request by the Non-Operator Owner, in each case as soon as reasonably practicable but in any event within ten (10) Business Days following such request.

5.5 Litigation and Permit Lapses. Promptly upon obtaining actual knowledge thereof, either Party shall submit prompt written notice to the other Party of the following, to the extent relating to the Facility or the Services or agreements relating to either the Facility or the Services: (i) any litigation, Claims or actions filed, including by, against or with any Governmental Authority; (ii) any actual refusal to grant, renew or extend, or any action filed with respect to the granting, renewal or extension of, any Permit; (iii) all penalties or notices of violation issued or asserted by any Governmental Authority; (iv) any dispute with any Governmental Authority that may affect the Facility in any material respect; and (v) with respect

[10] Note to Purchaser: Written amendments may require WVPSC regulatory approval, which would be burdensome for this type of procedural change that can be mutually agreed between the Owners.

to the matters identified in items (i), (ii), (iii) or (iv), any material threats of such matters. Upon Non-Operator Owner's request, Operator shall provide any documentation related to any of the foregoing.

5.6 Other Information. Operator shall promptly submit to the Non-Operator Owner any material information concerning new or significant aspects of the Facility operations and, upon the Non-Operator Owner's request, shall promptly submit any other information concerning the Facility or the Services.

5.7 Records Maintenance and Retention. Operator shall maintain all records, reports, documents and data, including all data retrievable from an electronic data storage source, for the Facility in accordance with Applicable Law and shall retain and preserve all such records, reports, documents and data created in connection with the operation and maintenance of the Facility, in accordance with Applicable Law, provided that Operator shall notify the Non-Operator Owner in writing at least sixty (60) days prior to the destruction or other disposition of any record, report, document or data. If the Non-Operator Owner gives written notice to Operator prior to the expiration of the 60-day period, Operator shall maintain custody of such material until the earlier of (i) such time as the Non-Operator Owner notifies Operator to dispose of such material and (ii) seven (7) Years. If the Non-Operator Owner does not provide written notice to Operator prior to the expiration of the 60- day period, Operator may destroy or dispose of such material and shall provide the Non-Operator Owner with a certificate confirming such destruction or disposition.

ARTICLE VI - LIMITATIONS ON AUTHORITY

6.1 Limitations on Authority. Operator has no authority to make policies or decisions with respect to the overall operation or maintenance of the Facility as a commercial enterprise pursuant to the terms of this Agreement. The Owners, acting through the Operating Committee and pursuant to the terms of the Ownership Agreement, shall determine all such matters. Notwithstanding any provision in this Agreement to the contrary, unless previously approved in a Budget and Plan or otherwise approved in writing by the Operating Committee, in connection with Operator's provision of Services hereunder, Operator is prohibited from doing any of the following (and shall not permit any of its agents, ~~subcontractors~~Affiliates, or representatives to do any of the following):

6.1.1 Dispose of Assets. Selling, leasing, pledging, mortgaging, granting a security interest in, encumbering, conveying, or making any license, exchange or other transfer or disposition of all or any portion of the Facility, the Site or any other property or assets of the Owners, including any property or assets purchased by Operator, the cost of which is an Operating Cost;

6.1.2 Make Expenditures. Making any expenditure or acquiring, on an Operating Cost basis, any goods or services from third parties, except in conformity with a Budget or as otherwise permitted under Section 5.3.2 or as authorized by the Operating Committee; provided, however, that in the event of an Emergency, Operator, without approval from the Owners, is authorized to take all reasonable actions in accordance with Prudent

Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.3 Take Other Actions. Taking or agreeing to take any other action or actions the decision for which is reserved exclusively for the Operating Committee pursuant to the Ownership Agreement; provided, however, that in the event of an Emergency, Operator, without approval from the Operating Committee, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.4 Act Regarding Lawsuits and Settlements. Settling, compromising, assigning, pledging, transferring, releasing or consenting to the compromise, assignment, pledge, transfer or release of, any material Claim, suit, debt, demand or judgment against or due by any Owner or Operator, the cost of which~~, in the case of Operator,~~ would be an Operating Cost hereunder, or submitting any such Claim, dispute or controversy to arbitration or judicial process, or stipulating in respect thereof to a judgment, or consent to the same; provided, however, that such prohibition shall not apply to, nor shall it be construed as a release or waiver of, any of Operator's rights or obligations pursuant to this Agreement or any other agreement between the Parties; or

6.1.5 Pursue Transactions. Engaging in any other transaction on behalf of the any Owner that is not permitted under this Agreement.

ARTICLE VII - COMPENSATION AND PAYMENT

7.1 General. The Non-Operator Owner shall pay Operator, and WPCo shall bear directly in its capacity as an Owner, its ~~proportionate~~allocated share in ~~respect of its~~accordance with the Ownership ~~Interest~~Agreement of all Operating Costs, all as further described below.[11] All Operating Costs shall initially be paid for by Operator (except as otherwise provided in this Agreement) and subsequently invoiced monthly in arrears as more fully set forth in this Article VII.

7.2 Costs.

7.2.1 Operating Costs. Subject to the Ownership Agreement and the limitations on expenditures set forth elsewhere in this Agreement (including Section 5.3), the Non-Operator Owner shall reimburse Operator ~~[~~for its ~~proportionate~~allocated share in ~~respect of its~~accordance with the Ownership ~~Interest]~~Agreement of the ~~actual, documented, reasonable out of pocket~~fully loaded costs~~ directly attributable to and~~ incurred (whether paid or accrued) in the provision of Services, including for labor, goods, services, capital expenditures, overhead, cost of capital, Taxes (other than income or franchise taxes), Permits and bonds (the "Operating Costs"), in each case in a manner consistent with the example invoice worksheets attached hereto as Appendix C, which shall include such costs with respect to: (i) equipment, material, supplies and other consumables, spare parts, replacement components, tools, office equipment, computer

[11] Note to Purchaser: Ownership Agreement allocates certain costs (e.g. ELG Expenses) inconsistent with proportional share in accordance with Ownership Interest.

equipment, software, information technology and supplies acquired for use at the Facility; (ii) fuel supply and transportation; (iii) costs associated with special training of Facility Personnel and associated travel and living expenses; (iv) amounts paid under subcontracts, purchase orders and agreements; (v) fees for Permits required to be held by Operator; (vi) community relations and labor relations activities; and (vii) Operator's cost of Facility Personnel (and the allocable portion of other employees of Operator and its Affiliates ~~directly~~ attributable to performing the Services) wages, salaries, overtime, employee bonus, customary or required severance payments, unemployment insurance, long-term disability insurance, short term disability payments, sick leave, payroll taxes imposed on wages and benefits, worker's compensation costs and holidays, vacations, group medical, dental and life insurance, defined contribution retirement plans and other employee benefits; (viii) costs of third-party advisors, consultants, attorneys, accountants and contractors retained and managed by Operator in support of, and reasonably ~~and directly~~ allocable to, the Services; (ix) a reasonably allocable portion of the cost of the insurance maintained by Operator in accordance with Section 9.1 on account of its Operator role; (x) reasonable costs incurred in response to an Emergency; and (xi) any other activity that Operator is required or expressly requested in writing by the Owners to perform under this Agreement for the benefit of the Facility or that is approved in a Budget or by the Operating Committee pursuant to the terms of this Agreement~~; provided, that in no event shall Operating Costs include overhead, back-office or similar costs, expenses or expenditures, or any other costs, expenses and expenditures that are (or would be) incurred by Operator or any of its Affiliates independent of the Services, or any payments in respect of any of the foregoing~~. [~~7~~12]

7.2.2 Invoicing. On or before the twenty-fifth (25th) day of each calendar month during the Term, Operator shall submit invoices to the Non-Operator Owner in form and substance reasonably similar to that attached hereto as Appendix C for Operating Costs incurred during the preceding calendar month (as well as any such costs for any prior period that were not previously invoiced). If any contract or purchase order intended to be assigned, transferred or conveyed to Operator remains held by the Non-Operator Owner as described in Section 3.2.2 and the Non-Operator Owner directly pays costs thereunder for the benefit of the Owners, the invoice submitted by Operator shall net WPCo's ~~proportionate~~allocated share in ~~respect of WPCo's~~accordance with the Ownership ~~Interest~~Agreement of any such costs paid by the Non-Operator Owner for the benefit of the Owners. The Non-Operator Owner shall make payment to Operator of its ~~applicable~~allocated share in accordance with the Ownership Agreement of the invoiced amount ~~based on its proportionate share in respect of its Ownership Interest~~ no later than the Due Date~~, unless any invoiced amounts are disputed by the Non-Operator Owner in good faith (in which case the payment deadline with respect to the portion of such invoiced amounts that is disputed shall be tolled until such dispute is resolved in accordance with Section 14.7)~~. For the avoidance of doubt, WPCo, in its capacity as an Owner, shall bear directly its ~~proportionate~~allocated share in ~~respect of its~~accordance with the Ownership ~~Interest~~Agreement of such Operating Costs.

7.3 Cost Audit. The Non-Operator Owner shall be entitled to conduct an audit, or to delegate a representative to audit, at its sole cost and expense and review of Operator's books

[~~7~~12] NTD: To discuss scope of operating expenses, including allocation methodology for shared costs, as well as any costs that should be borne disproportionately (e.g., ELG Expenses).

and records with respect to all Operating Costs and performance of the Services together with any supporting documentation for a period of one (1) Year from and after the date of the audited payment. If, pursuant to such audit and review, it is agreed that any amount previously paid by Operator or by an Owner was not properly incurred as an Operating Cost or an adjustment of any such cost is required, Operator shall credit to the Non-Operator Owner or Operator, as applicable, its ~~proportionate~~allocated share in ~~respect of its~~accordance with the Ownership ~~Interest~~Agreement of such amount in the next succeeding invoice or promptly paid in cash if there shall not be further invoices issued.

7.4 Late Payment. To the extent an Owner or Operator fails to pay any amount required to be paid under this Agreement by the Due Date, the unpaid amount shall accrue interest each day at the Late Payment Rate from the Due Date until such amount (plus accrued interest) is paid by the applicable Party in full.

ARTICLE VIII - TERM

8.1 Term. The Term of this Agreement shall commence on the Effective Date and, subject to approval or acceptance of termination by FERC or other Governmental Authority to the extent required, shall end ~~of~~on the date of termination of the Ownership Agreement (the "Term"). Notwithstanding the foregoing, this Agreement and the Term is subject to earlier termination pursuant to Sections 8.2 and 8.3.

8.2 Termination by the Non-Operator Owner for Cause. The Non-Operator Owner shall be permitted to terminate this Agreement if any of the following events occur: (i) the Bankruptcy of Operator; (ii) a payment default by Operator (other than a disputed payment) that Operator fails to cure within ten (10) Business Days after Operator has received written notice of such default; ~~[~~(iii) Operator incurs liability to the Owners equal to the liability limit set forth in Section 11.2 for three (3) Years during ~~any year~~]the Term, or (iv) a material default by Operator in the performance of its obligations under this Agreement, including any default that has, or is reasonably expected to have, a material adverse effect on the operations, maintenance or performance of the Facility and Operator has failed to cure such default within sixty (60) days of written notice of such failure; provided, that if it is not possible to cure such breach within sixty (60) days of receipt of such notice of failure, Operator (A) fails to commence to cure the breach within such sixty (60) day period, (B) thereafter fails to continue diligent efforts to complete the cure as soon as reasonably possible, or (C) fails to complete the cure within ninety (90) days of receipt of such notice of failure. In addition, Non-Operator Owner shall have the option to terminate this Agreement for convenience upon ~~thirty~~ninety (~~30~~90) days written notice to ~~the~~ Operator from and after (or concurrent with) the occurrence of any transfer, assignment, sale or other disposition (including any transfers, assignments, sales or other dispositions in connection with a foreclosure or an exercise of remedies by the Financing Parties) by WPCo of its Ownership Interest in the Facility to any Person which is not an Affiliate of WPCo, except in the case of an assignment of this Agreement to a successor Operator in compliance with the terms of this Agreement and the Ownership Agreement.

8.3 Termination by Operator. Operator shall be permitted to terminate this Agreement if any of the following events occur: (i) a payment default by the Non-Operator Owner (other than a disputed payment) that is not cured within thirty (30) ~~Business Days~~days

after the Due Date for any invoice; (ii) the Bankruptcy of the Non-Operator Owner; or (ii) a default by the Non-Operator Owner of any other obligation under this Agreement that has a material adverse effect on Operator's ability to perform the Services and that the Non-Operator Owner has failed to cure or make substantial progress in the reasonable opinion of Operator toward curing within ninety (90) days of written notice by Operator to the Non-Operator Owner of such failure ~~by Operator~~. As soon as practicable after all cost information is gathered following termination, Operator shall invoice the Non-Operator Owner for its ~~proportionate~~allocated share in ~~respect of its~~accordance with the Ownership ~~Interest~~Agreement for Services rendered by Operator through the termination date, including all Operating Costs incurred through the date of termination but not paid.

8.4 Transfer of Facility Custody. Upon expiration or termination of this Agreement, Operator shall leave at the Facility all documents and records, tools, supplies, spare parts, safety equipment, Manuals, and any other items ~~[~~furnished on an Operating Cost basis~~]~~, all of which shall remain the property of the Owners without additional charge. Operator shall execute all documents and take all other reasonable steps as may be reasonably requested by the Non-Operator Owner to assign to and vest in a replacement provider of Services all of its pro-rata rights, benefits, interests and title in connection with any subcontracts Operator executed in its own name for the benefit of the Facility and the Owners.

8.5 Services Upon Termination.

8.5.1 Upon notice of termination of this Agreement by either Operator or the Non-Operator Owner, unless the Non-Operator Owner is then in payment default such that Operator would have the right to terminate this Agreement pursuant to Section 8.3(i), the Non-Operator Owner shall have the right to specify a period of transition of no longer than nine (9) months (the "Termination Transition Period") during which Operator shall: (i) continue to provide Services at the Facility in accordance with this Agreement; (ii) cooperate with the Non-Operator Owner in planning and implementing a transition to any replacement provider of Services; (iii) use its commercially reasonable efforts to minimize disruption of Facility operations in connection with such transition activities; (iv) make all requisite regulatory filings as promptly upon commencement of the Termination Transition Period, subject to cooperation of the Parties; (v) transfer all Permits, licenses, registrations, approvals and contracts to the Non-Operator Owner or such replacement operator, in each case, as requested by the Non-Operator Owner; and (vi) take all actions incidental thereto and as reasonably requested by the Non-Operator Owner. The provisions of Article VII shall continue to apply during the Termination Transition Period. To facilitate employee transfer, Operator shall permit the replacement service provider and the Non-Operator Owner to interview such Facility Personnel for potential positions with such replacement operator in a manner and at times that do not interfere with Operator's responsibility to perform the Services. If Operator or one of its Affiliates continues to own a portion of the Facility, Operator shall, or shall cause its Affiliates to, reasonably cooperate to allow a successor operator to operate the Facility after the termination of this Agreement, including by granting access rights and executing other instruments as may be reasonably requested by the Non-Operator Owner and any replacement operator.

8.5.2 Any modifications to the ownership and operation of the Facility, including any termination of this Agreement, shall be subject to any required regulatory or administrative filings and approvals.

8.6 Plant Manager Replacement. Upon (i) commencement of the Termination Transition Period or (ii) the occurrence of any of the conditions described in Section 8.2, the Non-Operator Owner may designate a qualified individual with significant experience as a project manager or similar senior operating role in respect of the management and operation of large coal-fired generation facilities with similar operating characteristics as the Facility to replace the existing Plant Manager and who shall upon such appointment be the Plant Manager.

ARTICLE IX - INSURANCE

9.1 Operator Insurance Requirements.

9.1.1 Commencing with the performance of the Services hereunder, and continuing until the termination of this Agreement, Operator (and any tier subcontractors) shall maintain or cause to be maintained occurrence form (if written on a claims -made policy form, be maintained with a retroactive date that is prior to this Agreement Effective Date for a period of at least three (3) Years following the last Year in which such policy provides coverage under the terms of this Agreement) insurance policies as follows: (i) Workers' Compensation in accordance with the statutory requirements of the state in which the Services are performed and Employer's Liability Insurance of not less than one million Dollars ($1,000,000) each accident/employee/disease; (ii) Commercial General Liability Insurance having a limit of at least one million Dollars ($1,000,000) per occurrence/two million Dollars ($2,000,000) in the aggregate for contractual liability, personal injury, bodily injury to or death of Persons, and/or loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) Years after completion), premises and operations liability and explosion, collapse, and underground hazard coverage; (iii) Commercial/Business Automobile Liability Insurance (including owned (if any), non-owned or hired autos) having a limit of at least one million Dollars ($1,000,000) each accident for bodily injury, death, property damage and contractual liability and no fellow employee exclusion; (iv) Umbrella/Excess Liability insurance with limits of at least twenty-four million Dollars ($24,000,000) per occurrence and follow form of the underlying Employer's Liability, Commercial General Liability and Auto Liability insurance, and provide at least the same scope of coverages thereunder; (v) coverage for sudden/accidental occurrences for bodily injury, property damage, environmental damage, cleanup costs and defense with a minimum of one million Dollars ($1,000,000) per occurrence; and (vi) "all-risk" or its equivalent property insurance providing coverage risks of physical damage to the Facility or Facility Equipment in an amount in accordance with Good Utility Practice.

9.1.2 Unless otherwise determined by the Operating Committee that the Operator should purchase capacity insurance on behalf of both Owners, Operator (including in its capacity as an Owner) and Non-Operator Owner may each procure individually, in proportion to their Ownership Interests, PJM Interconnection, L.L.C. capacity performance insurance on terms and conditions, and placed with insurance companies, reasonably acceptable to the Operator or such Owner, as applicable. Operator shall make such certifications relating to the

operation, maintenance and condition of the Facility from time to time during the Term as may be reasonably necessary in connection with the procurement or maintenance of such insurance coverage by Operator and the Non-Operator Owner and any other insurance policies of either Owner that may relate to coverage pertaining to or affecting an Owner's Ownership Interest.

9.2 Form and Content. All insurance policies provided and maintained by Operator and each subcontractor shall: (i) be underwritten by insurers that are rated A.M. Best "A- VII" or higher; (ii) specifically include the Non-Operator Owner and its directors, officers, employees, affiliates, subcontractors, and joint owners of any facilities as additional insureds for their liability arising out of the acts or omissions of Operator, including for completed operations, with respect to Operator's acts, omissions, services, products or operations, whether in whole or in part, excluding, however, for Workers' Compensation/Employer's Liability insurance, [Pollution Legal Liability insurance,][13] and "all-risk" property insurance; (iii) be endorsed to provide, where permitted by law, waiver of any rights of subrogation against an Owner and its directors, officers, employees, affiliates and subcontractors, and joint owners of any facilities; (iv) provide that such policies and additional insured provisions are primary with respect to the acts, omissions, services, products or operations of Operator or its subcontractors, to the extent of Operator's negligence, (v) contain standard separation of insured and severability of interest provisions except with respect to the limits of the insurer's liability; and (vii) not have any cross-liability exclusion, or any similar exclusion that excludes coverage for Claims brought by additional insureds under the policy against another insured under the policy; Any deductibles or retentions shall be the sole responsibility of Operator and its subcontractors. Evidence of such coverage shall be provided in the form of Operator's certificate of insurance furnished to the Non-Operator Owner prior to the Effective Date, upon any policy replacement or renewal and upon the Non-Operator Owner's request. Operator shall provide at least thirty (30) days' prior written notice to the Non-Operator Owner prior to cancellation of any policy (or ten (10) days' notice in the case of non-payment of premium).

ARTICLE X - INDEMNIFICATION

10.1 Operator Indemnification. Subject to the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner and its Affiliates, and their respective officers, directors, employees, managers, members, agents and representatives (collectively, the "Non-Operator Owner Indemnitees"), from and against, and no Non-Operator Owner Indemnitee shall be responsible for any and all Liabilities incurred, assessed, sustained or suffered by any Non-Operator Owner Indemnitee to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement ~~or the Ownership Agreement or any other willful misconduct or any claims against or obligations of Non-Operator Owner or any of its Affiliates under or relating to the Compliance Agreement, dated as of hereof, by and among WPCo, the Non-Operator Owner, [Buyer] and American Electric Power Company, Inc. (the "Compliance Agreement"), arising out of actions (or inactions) of Operator, except to the extent arising from the express instructions of~~

[13] NTD: Subject to further review by AEP.

~~the Non-Owner Operator (such claims or obligations, the "Compliance Agreement Claims").~~[14] Any Liabilities paid by Operator pursuant to its indemnity obligation under this Section 10.1 shall in no event be considered Operating Costs hereunder.

10.2 Owner Indemnification. Subject to the limitations of liability in Section 11.1, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless Operator and its Affiliates, and their respective officers, directors, employees, agents and representatives (collectively, the "Operator Indemnitees"), from and against, and no Operator Indemnitee shall have responsibility for, any and all Liabilities to a third party incurred, assessed, sustained or suffered by or against any Operator Indemnitee arising from or relating to ~~the~~ Operator's performance of the Services under this Agreement, except to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement ~~or the Ownership Agreement or other willful misconduct or Compliance Agreement Claims~~. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its proportionate share of Liabilities under this Section 10.2 in respect of its Ownership Interest.

10.3 Environmental Indemnification.

10.3.1 Owner Indemnity for Environmental Liabilities. Subject to the limitations of liability in Section 11.1, and without in any way limiting the provisions of Section 10.3.2, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless the Operator Indemnitees, from and against, and no Operator Indemnitees shall have responsibility for, any and all Liabilities, including all civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Operator Indemnitees, as applicable, as a result of or in connection with any matters governed by Environmental Laws directly or indirectly related to or arising out of (i) the design, permitting or construction of the Facility or the condition of the Site, and any adjacent parcels; (ii) the operation, maintenance, ownership, control or use of the Facility or otherwise related to the Facility; and (iii) the offsite transportation, treatment or disposal of all wastes generated at the Facility and any properties included within or adjacent to the Site, whether occurring before or after the Effective Date (collectively, "Environmental Liabilities"), including any Environmental Liabilities arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials, but excluding Operator Environmental Liabilities; provided, however, that the Environmental Liabilities for which any Owner is obligated to indemnify any Operator Indemnitees under this Section 10.3.1 shall not in any event include any Operator Environmental Liabilities for which Operator is liable under Section 10.3.2. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear its proportionate share of Environmental Liabilities under this Section 10.3.2 in respect of its Ownership Interest.

[14] Note to Purchaser: This agreement needs to stand alone apart from the Nickel transaction. Each of the other agreements should be governed by their own terms.

10.3.2 Operator Indemnity for Environmental Liabilities. Subject to the provisions of Section 10.1 and the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner Indemnitees from and against, and no Non-Operator Owner Indemnitee shall be responsible hereunder for any Liabilities, including any civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Person as a result of or in connection with any breach or violation of or any other matters governed by Environmental Laws to the extent caused by the gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law or willful breach of this Agreement by Operator or arising out of the actual ~~or alleged~~ existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials brought on Site by Operator or its Affiliates or agents on or after the Effective Date (the "Operator Environmental Liabilities"). Operator understands and agrees that any Operator Environmental Liabilities paid by Operator pursuant to this Section 10.3.2 shall not be Operating Costs hereunder.

10.3.3 Governmental Actions. During the Term, Operator shall use commercially reasonable efforts to cooperate with and assist the Owners with their acquisition of data and information, and preparation and filing with appropriate Governmental Authorities of any notices, plans, submissions, or other materials and information necessary for compliance by the Owners with applicable Environmental Laws and the requirements of any Permits related to the Facility. All such environmental reports shall be submitted by, and in the names of, both Owners. All reasonable and documented costs associated therewith, including the reasonable costs of any outside consultants, legal services, Governmental Authority charges, sampling and remedial work shall be paid by the Owners as an Operating Cost, and the Non-Operator Owner shall reimburse WPCo to the extent of the Non-Operator Owner's pro rata share, unless such costs are incurred arising out of or associated with Operator Environmental Liabilities that are subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof. Nothing contained herein shall be construed as requiring Operator to take any corrective action with respect to Environmental Liabilities unless (x) affirmatively and expressly directed in writing to so do by the Operating Committee and appropriate funding is made available, or (y) affirmatively and expressly directed to do so by a Governmental Authority, in order to comply with any Environmental Law, in which case the cost of any corrective actions so undertaken shall be deemed an Environmental Liability subject to Section 10.3.1 hereof (if not otherwise reimbursed as an Operating Cost hereunder), unless such Environmental Liability arises out of or is associated with Operator Environmental Liabilities subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof.

ARTICLE XI - LIABILITIES OF THE PARTIES

11.1 Limitations of Liability. Notwithstanding any provision in this Agreement that may be susceptible to contrary interpretation, neither the Parties nor any Non-Operator Owner Indemnitees or Operator Indemnitees shall be liable for consequential or indirect loss or damage, including loss of profit, cost of capital, loss of goodwill, increased Operating Costs, or any special or incidental damages; provided, however, that notwithstanding the foregoing, in no event will the foregoing limitations of liability be applied to limit the extent of the liability of either Party to the other for or with respect to any Claims of third parties or to the extent arising from gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this

Agreement~~ or the Ownership Agreement or willful misconduct of a Party or Compliance Agreement Claims~~. The Parties further agree that the waivers and disclaimers of liability, indemnities, releases from liability and limitations of liability expressed in this Agreement shall survive termination or expiration of this Agreement, and shall apply in all circumstances, whether in contract, equity, tort or otherwise, regardless of the fault, negligence (in whole or in part), strict liability, breach of contract or breach of warranty of the Party indemnified, released or whose liabilities are limited, and shall extend to the Non-Operator Owner Indemnitees and Operator Indemnitees.

11.2 Operator's Total Aggregate Liability. Except to the extent that a Non-Operator Owner Indemnitee suffers Liabilities that are caused by, result from or arise out of Operator's or its Affiliates' breach of Article XIII or its gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this~~ Agreement or the Ownership~~ Agreement, or willful misconduct in connection with any Services, ~~transactions, actions or inactions, or Compliance Agreement Claims,~~ the total liability of Operator to the Non-Operating Owner for all Liabilities arising out of, connected with or resulting from any events occurring or claims made in connection with this Agreement, whether based in contract, warranty, tort, strict liability or otherwise, shall not exceed, in the aggregate, the sum of (i) an amount equal to twenty-five percent (25%) of the Operating Costs, but excluding Operating Costs relating to any services, goods, inventory and equipment provided hereunder by third parties other than Operator's Affiliates, incurred pursuant to this Agreement in the prior twelve (12) month period, *plus* (ii) the Non-Operating Owner's ~~proportionate~~fifty percent (50%) share of any insurance proceeds actually received by the Operator or paid on the Operator's behalf with respect to the relevant loss or damages under the insurance policies procured by the Operator pursuant to Section 9.1.

11.3 No Warranties or Guarantees.

11.3.1 EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES OR GUARANTEES TO THE OTHER, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SUBJECT MATTER OF THIS AGREEMENT, AND BOTH PARTIES DISCLAIM AND WAIVE ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT.

11.3.2 OPERATOR IS ACTING AS AGENT OR OTHERWISE AS A RESELLER WITH RESPECT TO ALL SERVICES, GOODS, INVENTORY AND EQUIPMENT PROVIDED HEREUNDER BY THIRD PARTIES OTHER THAN OPERATOR'S AFFILIATES, AND, AS SUCH, DOES NOT PROVIDE ANY WARRANTY FOR SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT PROVIDED HEREUNDER. ALL SUCH THIRD PARTY SERVICES, GOODS, INVENTORY AND EQUIPMENT ARE PROVIDED AS IS, WHERE IS, WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT. THE SOLE REMEDY IN CONNECTION WITH ANY DEFECTS IN OR FAILURES OF SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT (WHETHER A CLAIM FOR SUCH

DEFECT ARISES UNDER CONTRACT, TORT, STRICT LIABILITY, STATUTE, OR ANY OTHER LEGAL OR EQUITABLE THEORY OR PRINCIPLE INCLUDING NEGLIGENCE) SHALL BE TO SEEK RECOURSE EXCLUSIVELY FROM THE COUNTERPARTIES TO THE THIRD PARTY CONTRACTS, UNLESS THE DEFECT WAS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES.

ARTICLE XII - CONFIDENTIALITY

12.1 General. During the Term, and for the later of three (3) Years after the termination of this Agreement or five (5) Years after receipt of the applicable Confidential Information, each Party shall hold in confidence any Confidential Information supplied by or on behalf of the other Party. Each receiving Party further agrees to require its contractors, vendors, suppliers and employees, agents or prospective purchasers to preserve the confidentiality of Confidential Information. The receiving Party may make necessary disclosures to third parties directly engaged in the operation, ownership or financing of the Facility if such third parties are under an obligation to receive and hold such Confidential Information in confidence.

12.2 Exceptions. The provisions of this Article XII do not apply to information within one or more of the following categories:

12.2.1 Public Domain. Information that was in the public domain prior to the receiving Party's receipt or that subsequently becomes part of the public domain by publication or otherwise, except by the receiving Party's or its Affiliate's wrongful act.

12.2.2 Prior Receipt. Information that the receiving Party can demonstrate was in its possession prior to receipt thereof from the disclosing Party so long as such possession did not result from a violation of a confidentiality obligation.

12.2.3 Third Party Delivery. Information received from a third party having no obligation of secrecy with respect thereto.

12.2.4 Permitted Disclosures. Information disclosed by an Owner to Lenders or prospective Lenders, equity investors or prospective equity investors, prospective purchasers, consultants, attorneys, accountants and other designated agents in each case on a confidential, need-to-know-basis.

12.2.5 Regulatory Filings. Information required to be disclosed by an Owner in connection with any required regulatory or administrative filings.

12.3 Required Disclosure. Notwithstanding the forgoing, any receiving Party required by law, rule, regulation, subpoena or order, or in the course of regulatory, administrative or judicial proceedings, to disclose Confidential Information that is otherwise required to be maintained in confidence pursuant to this Article XII, may make disclosure notwithstanding the provisions of this Article XII. Prior to doing so, the receiving Party, promptly upon learning of the requirement, shall notify the disclosing Party of the requirement and cooperate to the maximum extent practicable to minimize the disclosure of Confidential Information. Any

receiving Party disclosing Confidential Information pursuant to this Section 12.3 shall use reasonable efforts, at the disclosing Party's cost, to obtain proprietary or confidential treatment of Confidential Information by the third party to whom the information will be disclosed, and to the extent such remedies are available, shall use commercially reasonable efforts to seek protective orders limiting the dissemination and use of Confidential Information. Nothing in this Agreement is intended to prevent the disclosing Party from appearing in any proceedings and objecting to the disclosure.

ARTICLE XIII - TITLE, DOCUMENTS AND DATA

13.1 Materials and Equipment. Operator shall use commercially reasonable efforts to cause title to all materials, equipment, supplies, consumables, spare parts and other items purchased or obtained by Operator on an Operating Cost basis ("Facility Equipment") to pass directly from the vendor or supplier to, and vest in, each Owner to the extent of such Owner's Ownership Interest. Operator shall have no title or other claim to such items other than in its capacity as an Owner of the Facility.

13.2 Documents. All Manuals, operational data, Facility drawings, Operator reports and records and other materials and documents (both paper and electronic) created by Operator, its Affiliates or their respective employees, representatives or contractors in connection with performance of the Services are the property of each Owner to the extent of its ~~ownership share of~~Ownership Interest in the Facility. All such materials and documents shall be available for review by the Non-Operator Owner at all reasonable times during development and promptly upon completion. All such materials and documents required to be submitted for the approval of the Operating Committee shall be prepared and processed in accordance with the requirements and specifications set forth herein. However, the Operating Committee's approval of materials and documents submitted by Operator shall not relieve Operator of its responsibility to perform it obligations under this Agreement.

13.3 Proprietary Information. Where materials or documents prepared or developed by Operator or its Affiliates, or their respective employees, representatives or contractors, contain proprietary or technical information, systems, techniques or know-how previously developed by them or acquired by them from third parties (the "Operator Proprietary Information"), the Non-Operator Owner shall have an irrevocable license to use such Operator Proprietary Information to the extent necessary for the operation or maintenance of the Facility at no additional cost to the Non-Operator Owner.

ARTICLE XIV - MISCELLANEOUS PROVISIONS

14.1 Assignment. This Agreement shall not be assignable, in whole or in part, by a Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed, except that this Agreement may be (i) collaterally assigned by an Owner without such consent to a Lender in connection with such Lender's financing of such Owner's Ownership Interest and (ii) assigned by an Owner (in whole but not in part) without such consent ~~in connection with~~to the ~~sale or transfer of the Facility~~transferee of its Ownership Interest, whether by merger, division, sale of equity interest, or otherwise, in each case, solely to the extent that such transfer of ~~ownership in the Facility~~its Ownership Interest is in accordance

with the Ownership Agreement. Any assignment pursuant to this Section 14.1 shall not relieve the assigning Party of any of its obligations under this Agreement that arose prior to the date of such assignment. This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties.

14.2 Effect of Bankruptcy. The Parties intend that, in the event of a Bankruptcy, payments required under this Agreement shall be deemed to be administrative expenses as defined in 11 U.S.C. §503.

14.3 Access. The Non-Operator Owner and Lenders and their agents and representatives shall have access to the Facility, all Facility operations and any documents, materials and records and accounts relating to the Facility operations for purposes of inspection and review. Upon the request of the Non-Operator Owner and its agents and representatives, Operator shall provide such Persons with access to all data and logs Operator maintains regarding the Facility. During any inspection or review of the Facility, the Non-Operator Owner and Lenders and their agents and representatives shall comply with all of Operator's safety and security procedures, and shall conduct inspections and reviews in such a manner as to cause minimum interference with Operator's activities. Operator also shall cooperate with the Non-Operator Owner in allowing its agents and representatives access to the Facility.

14.4 Subcontractors; Subagents.

14.4.1 Operator shall have the right to hire third-party subcontractors or to acquire rights from third parties to provide all or part of any Services hereunder without the prior consent of the Operating Committee. The cost of such third-party Services or acquisition of such rights shall be Operating Costs in accordance with Section 7.2.1. Operator, for the benefit of ~~Owner~~the Owners, shall use reasonable efforts to obtain from all subcontractors and suppliers, including any subcontractors and suppliers who are Affiliates of Operator, customary guarantees and warranties to the extent available with respect to the equipment, goods, services or other work provided or performed by such subcontractor and supplier. Notwithstanding the foregoing or anything to the contrary, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned or delayed, procure or enter into any agreement with any third-party subcontractor with respect to the Services (i) with a cost included in the Operating Costs in excess of $~~[_____] or (ii) that may not be cancelled at~~500,000 in any ~~time without penalty~~Year. Each agreement with a third-party subcontractor shall reflect costs that are on an arm's-length basis and no greater in any material respect than Operator could reasonably provide on Operator's own (or through its Affiliates) without material hardship.

14.4.2 Operator may delegate any obligations hereunder to one or more Affiliates, or designate one or more Affiliates as subagents for the performance of its obligations, and, to the extent such Affiliate performs or acts as subagent with respect to any obligation of Operator hereunder, such Affiliate shall enjoy the rights and benefits of Operator pursuant to this Agreement (including, for the avoidance of doubt, Article X and Article XI hereof). Notwithstanding the foregoing, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned, or delayed, procure or enter into any agreement with any of its Affiliates (other than for Facility Personnel to

perform the Services) (i) with a committed value in excess of $[_____]500,000 or (ii) that may not be cancelled at any timeupon no more than ninety (90) days' notice without penalty. Each agreement with an Affiliate of Operator, other than for Facility Personnel to perform the Services, shall reflect costs that are no greater in any material respect than Operator could obtain on an arms-length basis with a bona fide third party at such time.

14.4.3 If any such third-party subcontractor is hired to provide any such Services or one or more Affiliates perform Services as subagents, Service Provider shall remain liable for such subcontractor or Affiliates obligations hereunder and for any breach by such subcontractor or Affiliate of the terms of this Agreement (to the same extent as if such breach was committed by Service Provider) Notwithstanding anything to the contrary in this Agreement, Operator shall be permitted to delegate any of its rights, duties and obligations under this Agreement and the Ownership Agreement to AEPSC without the consent of Non-Operator Owner, but without relieving Operator of any of its obligations hereunder.

14.5 Not for Benefit of Third Parties. Except where a contrary intention is expressly stated, this Agreement and each provision hereof are for the exclusive benefit of the Parties that executed this Agreement and not for the benefit of any third party.

14.6 Force Majeure.

14.6.1 Events Constituting Force Majeure. A "Force Majeure Event" is any event described below that (i) restricts or prevents performance under this Agreement, (ii) is not within the reasonable control of the Party affected or caused by the fault or negligence of the affected Party and (iii) cannot be overcome or avoided by the exercise of due care. Force Majeure Events comprise the followinginclude, so long as in each case the requirements of the foregoing clauses (i), (ii) and (iii) are satisfied, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, tornado or other unusually severe storm or environmental conditions, epidemic, war (whether declared or undeclared), terrorism (whether domestic or foreign, state-sponsored or otherwise), revolution, insurrection, riot, civil disturbances, protests, sabotage (but not including any sabotage involving personnel of Operator), work stoppages (i.e., strikes) (but not including any work stoppages or strikes involving any personnel of Operator, whether on-site or off-site), accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Facility, other acts or omissions of any Governmental Authority, including any form of compulsory government acquisition or condemnation of all or part of the Facility (including a "taking"), restraint by court order, changes in Applicable Law that affect performance under this Agreement, other acts of Governmental Authorities including in response to any of the foregoing. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default in respect to any obligation if and to the extent that performance of such obligation is prevented by a Force Majeure Event. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations.

14.6.2 Notice. If a Party's ability to perform its obligations under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event, its cause, its anticipated duration and any action being taken to avoid or minimize its effect and confirm the same in writing within three (3) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) work diligently to remove the cause of the Force Majeure Event or to lessen its effect.

14.6.3 Scope. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than necessary. The excused Party shall use its reasonable best efforts to remedy its inability to perform.

14.7 Dispute Resolution. Any and all disputes shall be resolved pursuant to the dispute resolution procedures set forth in the Ownership Agreement.

14.8 Amendments. No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Parties.

14.9 Survival. Notwithstanding any provisions to the contrary, the obligations set forth in Article VII and Article VIII, Article X, Article XI and Article XII, Article XIV the limitations on liabilities set forth in Article XI will survive, in full force, the expiration or termination of this Agreement.

14.10 No Waiver. No delay, waiver or omission by the Non-Operator Owner or Operator to exercise any right or power arising from any breach or default by the Non-Operator Owner or Operator with respect to any of the terms, provisions or covenants of this Agreement shall be construed to be a waiver by the Non-Operator Owner or Operator of any subsequent breach or default of the same or other terms, provisions or covenants on the part of the Non-Operator Owner or Operator.

14.11 Notices. Any written notice required or permitted under this Agreement shall be deemed to have been duly given on the date of receipt, and shall be either delivered personally to the Party to whom notice is given, or mailed to the Party to whom notice is to be given, by facsimile, courier service or first-class registered or certified mail, return receipt requested, postage prepaid, and addressed to the addressee at the address indicated below, or at the most recent address specified by written notice given in the manner provided in this Section 14.11:

If to Operator:

14.12 Representations and Warranties. Each Party represents and warrants to the other Party that, as of the date hereof:

14.12.1 Existence. It is duly organized and validly existing under the laws of the state of its organization and has all requisite power and authority to own its property and assets and conduct its business as presently conducted or proposed to be conducted under this Agreement.

14.12.2 Authority. It has the power and authority to execute and deliver this Agreement, to consummate the transactions contemplated hereby and to perform its obligations hereunder.

14.12.3 Validity. It has taken all necessary action to authorize its execution, delivery and performance of this Agreement, and this Agreement constitutes the valid, legal and binding obligation of such Party enforceable against it in accordance with its terms, except as such enforcement may be limited by Bankruptcy, insolvency, moratorium or similar laws affecting the rights of creditors or by general equitable principles (whether considered in a proceeding in equity or at law).

14.12.4 No Conflict. Neither the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, nor the fulfillment of the terms and conditions hereof, conflicts with or violates any provision of its constituting documents.

14.12.5 No Consent. No consent or approval (including any Permit that such warranting Party is required to obtain) is required from any third party (including any Governmental Authority) for either the valid execution and delivery of this Agreement, or the performance by such Party of its obligations under this Agreement, except such as have been duly obtained or will be obtained in the ordinary course of business.

14.12.6 No Breach. None of the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, or the fulfillment of the terms and conditions hereof either conflicts with, violates or results in a breach in any material respect of, any Applicable Law currently in effect, or conflicts with, violates or results in a breach of, or constitutes a default under or results in the imposition or creation of, any lien or Encumbrance under any material agreement or instrument to which it is a party or by which it or any of its properties or assets are bound.

14.12.7 No Material Claims. It is not a party to any legal, administrative, arbitral or other proceeding, investigation or controversy pending or threatened that would adversely affect such Party's ability to perform its obligations under this Agreement.

14.13 Additional Representation and Warranty by Operator. Operator further represents and warrants to the Non-Operator Owner that it has, or has obtained through the

retention of a qualified operations and maintenance service provider, substantial expertise and experience in the operation and maintenance of comparable power generation facilities and it, or its applicable subcontractor, is fully qualified to provide such services at the Facility in accordance with the terms of this Agreement.

14.14 Counterparts. The Parties may execute this Agreement in counterparts that, when signed by each of the Parties, constitute one and the same instrument. Thereafter, each counterpart shall be deemed an original instrument as against any Party who has signed it. Delivery of an executed counterpart of this Agreement by facsimile or electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

14.15 Governing Law; Venue; Waiver of Jury Trial. The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of ~~Delaware~~New York, exclusive of the conflicts~~-~~ of~~-~~ law provisions thereof that would require the application of the laws of a different jurisdiction. Each Party hereby ~~submits~~agrees that any Action arising out of or relating to this Agreement brought by a Party(or any of their respective successors or assigns) shall be brought and determined in any state or federal court sitting in the State of New York, within the Borough of Manhattan, City of New York, and the Parties hereby irrevocably submit to the exclusive jurisdiction of the ~~Delaware Court of Chancery in and for New Castle County, or in the event (but only in the event) that such Delaware Court of Chancery does not have subject matter jurisdiction over such dispute, the United States District Court for the District~~aforesaid courts for themselves and with respect to their property, generally and unconditionally, with regard to any such Action arising out of ~~Delaware,~~ or ~~in the event (but only in the event) that such United States District Court also does not have jurisdiction over such dispute, any Delaware State court sitting in New Castle County~~relating to this Agreement and the transactions contemplated hereby, and the appellate courts ~~having jurisdiction over any appeals~~ from any ~~such applicable court~~thereof in connection with any action arising out of or relating to this Agreement or any other agreement related to the Facility or any Facility asset and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or that such action was brought in an inconvenient court. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

14.16 Interpretation. Titles or captions contained in this Agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, describe or otherwise affect the scope or meaning of this Agreement or the intent of any provision hereof. All exhibits and appendices attached hereto are considered a part hereof as though fully set forth herein. This Agreement was jointly drafted and negotiated by the Parties. In the event of a dispute, this Agreement shall not be construed against either Party based upon its drafting.

14.17 Severability. If any provision of this Agreement, or the application of any such provision to any Person or circumstance, is held invalid by any court or other forum of competent jurisdiction, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those as to which it is held invalid, shall nevertheless remain

in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner materially adverse to a Party. Upon any such determination of invalidity, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that this Agreement is consummated as originally contemplated to the greatest extent possible.

14.18 Cooperation in Financing. Operator shall execute and deliver any customary and reasonable agreement and consent to assignment, together with an opinion of counsel at Non-Operator Owner's expense, as may be reasonably requested by Non-Operator Owner in connection with any financing of the Facility. Operator shall promptly respond to reasonable requests, including requests for management presentations, by Non-Operator Owner and any of its Lenders or their representatives, in each case at Non-Operator Owner's sole cost and expense, for information regarding the Operator and its performance of its duties hereunder and the operation, maintenance and administration of the Facility. Operator agrees to use commercially reasonable efforts to cooperate with any of Non-Operator Owner's Lenders and their representatives and to provide such Lenders and representatives with reasonable access to and tours of the Facility (including review of documents, materials, records and accounts), in each case at Non-Operator Owner's sole cost and expense.

APPENDIX A – SCOPE OF SERVICES[815]

Routine Services	Provide operational services as reasonably necessary for electrical power generation.
Detailed Programs	Implement Operator human resources program. Implement Operator-drafted, Owner-approved programs in safety, administration, maintenance, and training. Implement Facility's existing programs in operating, maintenance, chemistry, NERC and environmental compliance (or, at the Operating Committee's request, develop or enhance such programs at actual cost and implement). Ensure compliance with NERC requirements, Environmental Law, Applicable Law, and all Permits.
Routine Maintenance	Perform routine and preventive maintenance actions on all Facility systems and equipment in accordance with vendor instructions and the maintenance plan for the Facility. This program includes: **Service Checks** – Conduct visual equipment inspections and log significant parameters such as pressures, temperatures, and flow rates. Trend and analyze this information as appropriate. **Routine and Fixed Interval Maintenance** –Identify preventive maintenance requirements. Schedule and assign routine maintenance during Facility operation, planned outages, and forced or unscheduled outages.
Predictive Maintenance Program	As appropriate, conduct/oversee predictive maintenance within the cost-effective capability of the Facility Personnel. For those maintenance requirements that are not cost-effective for the Facility Personnel, oversee predictive maintenance services provided by vendors.
Major Maintenance and Repairs	In coordination with and support of the Facility Agreements and generation plan, arrange for scheduled inspections and overhauls on major equipment. Retain vendors for the benefit of the Owners for unscheduled major repairs as required and manage and oversee repairs and modifications.
Capital Improvements	Conduct/oversee all capital improvements. As appropriate, retain vendors for the benefit of the Owners to design, construct and implement capital improvements.
Facility Outages	Use commercially reasonable efforts to manage all Facility outages (planned, unscheduled, forced) to optimize outage duration and

[815] NTD: Services scope to be discussed/confirmed in the context of anticipated operational needs and current scope of services.

	impact on production: **Task Assignment** – Identify and schedule all maintenance that requires a Facility outage or equipment to be taken out of service. **Work Schedule –** Develop and implement a schedule to track material outage preparations, work and testing, including corrective maintenance actions, contractor work and scheduled preventive maintenance. Conduct preparations to support this plan, including ordering and receiving required spare parts.
Assistance to the Non-Operator Owner and Operating Committee	Provide assistance to the Non-Operator Owner and the Operating Committee, as reasonably requested with the execution of the Non-Operator Owner's and the Operating committee's duties relative to operation of the Facility.
Facility Administration	Conduct administration to meet Operator requirements and Owners' goals, including: **Budgets** – Prepare annual Budgets and submit them for Operating Committee approval in accordance with the Ownership Agreement and this Agreement. Following approval, manage operations and expenditures to comply with each Budget. Generate budget variance reports, as required. **Procurement** – Establish and implement a purchasing system. Procure, for the benefit of the Owners, including negotiations and contracting, for all materials, equipment, chemicals, supplies, services, parts, and other miscellaneous items required for the provision of the Services. Pay all invoices in a timely manner. Provide credit support as required by third parties for the operation of the Facility, including contract counterparties and Governmental Authorities. Minimize Owner costs as much as feasible. **Inventory Control** – Implement a cost-effective inventory control system designed to ensure that spare parts, materials, and supplies are properly stored and accounted for and that adequate supplies are available at all times to support the provision of the Services. **Personnel Matters** – In compliance with Operator programs and policies, manage all payroll and employee relations, labor relations, and independent contractor issues, as required. These tasks include: employment; compensation and benefits; initial training; and employee and independent contractor relations. Provide reasonable support to recruit, hire, transfer, or otherwise acquire and retain qualified Facility Personnel to maintain the staffing levels and skill mix required for successful long-term provision of the Services. **Community Relations** – In coordination with and with the approval

	of the Operating Committee, conduct a community relations program to establish the Facility and its employees as "good citizens" in the local community. **Regulatory** – Perform all duties set forth in Section 7.8 of the Ownership Agreement with respect to Emission Allowances (as defined therein).
Work Assignment	Assign work to either Facility Personnel or vendors as cost-effective and appropriate based on overall guidance from the Operating Committee. Normally, Facility Personnel conduct preventive maintenance and actions requiring a high degree of Facility knowledge and vendors perform tasks needing equipment or expertise that are not cost-effective to maintain at the Facility. Vendors also perform tasks that make sense to minimize outage time and costs.
Buildings and Grounds	Arrange for janitorial, garbage pickup and landscape services and maintain all access roads, office buildings, and other structures in reasonable repair.
Reports	Prepare and submit operation and maintenance service reports as requested relative to performance, including environmental compliance records, maintenance and repair status, Facility operating data, and any other information reasonably requested by the Operating Committee or the Non-Operator Owner.
Security	Implement or arrange for implementation of security measures in accordance with the Operating Committee-approved Facility security plan.
Safety	Continue to implement Corporate and Plant Level Safety Programs including on-site visits and discussions at the facility.
PJM Capacity Analysis	Analysis and plant level information to PJM as part of PJM's FRR or RPM Capacity Market requirements
Information Systems	Manage the Facility's information technology infrastructure, including phone systems, internet connectivity, hardware and software. Implement or arrange for implementation of cybersecurity policies and procedures in compliance with NERC requirements and Applicable Law, in accordance with the Operating Committee-approved Facility cybersecurity plan.
Training Program	Implement a continuing program of training designed to orient new Facility Personnel, refresh/cross-train existing Facility Personnel, qualify/re-qualify Facility Personnel, and keep all Facility Personnel aware of Operating Committee -approved Facility safety requirements and emergency procedures. This program includes specialty skills training.

Drawing/Manual Maintenance	Maintain the Facility library and update the Manuals and vendor service manuals. Update (or arrange for updating) Facility drawings to reflect changes to the as-built configuration. In addition to document management, maintain physical Facility configuration control.
Fuel Purchasing and Handling	• Procure coal, reagents, fuel oil supply or transportation service agreements as needed to operate the Facility and establish and maintain reserves of coal in common stock piles of such quality and in such quantities as the Operating Committee shall determine • Contract administration for Fuel supply contracts along with legal review. • Third Party Settlements of fuel related supply and inventory tracking in ComTrac system • Joint Books Accounting to prepare information for billing among co-owners per agreement • Analysis of fuel related costs for data requests from regulatory bodies or joint owner • Provide fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by the Facility during each month. • Receive coal and provide fuel handling • Fuel coordinator functions to review fuel quality with third party suppliers at coal or limestone facilities. • Administer and reconcile volumes of all fuel with suppliers • Administer and comply with the requirements set forth in the Facility's fuel agreements, including quality testing and invoice review and approval • Administer and comply with the requirements set forth in the Facility's coal ash, gypsum and combustion byproduct disposal and sales agreements, including invoice review and approval
Day Ahead and Real Time Market Operations	• Unit Generation Dispatch – Monitor signals and take direction from PJM for generating units. Relay these directions, commitments and settings to the Unit Operators and Controls.

	Relay information on real time unit conditions to Transmission Owner (TO) and PJM. • GADS Reporting – Create GADS events as they are scheduled or occur. Submit monthly event reporting as required by NERC and PJM. • Outage Support and Communications to PJM – Relay outage/curtailment information from plant personnel to PJM. Schedule maintenance and planned outages/curtailments, and maintain updates as they arise. • Unit Characteristic Updates to PJM – Provide any relevant configuration updates related to generating units to PJM that may occur. • Telemetry – Maintain current real time telemetry to/from the plant, PJM and Market Operations control center.
Administration of Contracts	• Administer, perform and enforce all contractual obligations and arrangements, including all warranties applicable thereto, entered into by Operator for the benefit of the Owners with respect to the Facility • Act as agent on behalf of the Non-Operating Owner with respect to the administration, performance and enforcement of any contracts or purchase orders (including fuel supply or transportation contracts) with respect to the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date
Insurance	• Procure on behalf of each Owner such property and other insurance policies as required by the insurance program established by the Operating Committee in accordance with the Ownership Agreement.
~~**Facility Retirement and**~~ **Decommissioning**	• Manage and contract with vendors and other parties to ~~implement a Facility and/or Site retirement and decommissioning plan~~perform Decommissioning Work. This includes the management of required regulatory filings, permitting, engineering assessments, and the contracting for demolition and or liability transfers. Upon mutual agreement between Operator and the Operating Committee, Operator may conduct all or a portion of the Facility and/or Site ~~retirement and decommissioning~~Decommissioning from its and its Affiliates resources.

MITCHELL PLANT OPERATIONS AND MAINTENANCE AGREEMENT

This OPERATIONS AND MAINTENANCE AGREEMENT (this "Agreement"), dated as of [_____] (the "Effective Date"), is entered by and between WHEELING POWER COMPANY, a West Virginia corporation (in its capacity as the operator of the Facility, "Operator" and in its capacity as an owner of the Facility, "WPCo") and KENTUCKY POWER COMPANY, a Kentucky corporation qualified as a foreign corporation in West Virginia (in its capacity as an owner of the Facility, the "Non-Operator Owner" and, together with WPCo, each an "Owner" and, together, the "Owners").

RECITALS

1. Owners each own an undivided Ownership Interest in the Facility (these and other capitalized terms are defined in Article II).

2. On the date hereof, WPCo and the Non-Operator Owner have entered into that certain Mitchell Plant Ownership Agreement, setting forth the respective rights, duties and obligations of the Owners with respect to each other and the Facility in their capacities as the Owners thereof (the "Ownership Agreement").

3. Pursuant to the Ownership Agreement, WPCo has agreed to manage the day-to-day operations and maintenance of the Facility as Operator pursuant to the terms of this Agreement.

4. Operator and the Non-Operator Owner desire to execute this Agreement to set forth the respective rights, duties and obligations of WPCo, in its capacity as Operator of the Facility, and the Non-Operator Owner, in its capacity as an Owner of an undivided interest as a co-tenant in the Facility.

NOW, THEREFORE, in consideration of the foregoing premises, and of the mutual covenants, undertakings and conditions set forth below, the Parties agree as follows:

ARTICLE I - AGREEMENT

1.1 Agreement. This Agreement consists of the recitals, and the terms and conditions set forth in this Agreement, as well as the appendices that are referenced in the table of contents and attached to this Agreement.

1.2 Relationship of the Parties. Operator shall perform the Services in its capacity as an independent contractor of the Owners and as principal on its own behalf as an Owner. Subject to any limitations set forth in this Agreement and the Ownership Agreement, the Owners delegate to Operator, and Operator accepts from the Owners, the responsibility of providing the Services at the Facility. The Owners and Operator agree that the scope of delegation is strictly limited to the matters set forth in this Agreement and the Ownership Agreement. Without limiting the generality of the foregoing, the Owners retain the ultimate authority and obligation to determine whether and to what extent the Facility operates, and Operator shall not cause the Facility to generate power except as expressly directed to do so by the Owners or any dispatching authority specified by the Owners in accordance with the Ownership Agreement. For the

avoidance of doubt, any provision of this Agreement requiring the delegation of authority, direction, consent or authorization with respect to the Owners shall mean the delegation, direction, consent or authorization of both Owners (or the Operating Committee) in accordance with the Ownership Agreement (except to the extent the Ownership Agreement gives exclusive authority to the Non-Operator Owner thereunder, in which case such delegation of authority, direction, consent or authorization with respect to the Owners shall mean exclusively the delegation, direction, consent or authorization of the Non-Operator Owner).

1.3 Entire Agreement. This Agreement, together with the Ownership Agreement, contains the entire agreement between the Parties with respect to Operator's provision of Services at the Facility and supersedes all prior negotiations, undertakings and agreements.

ARTICLE II - DEFINITIONS[1]

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears, capitalized terms have the meanings specified in this Article II. The singular includes the plural, as the context requires. The terms "includes" and "including" mean "including, but not limited to." The terms "ensure" and "reasonable efforts" will not be construed as a guarantee, but will imply only a duty to use reasonable efforts and care, consistent with Prudent Operation and Maintenance Practices, and will include reasonable expenditures of money and at least such efforts as Operator would undertake for its own assets, services or maintenance, or for services provided to an Affiliate. "Gross negligence" will not be construed as simple or ordinary negligence, it being the intent of the Parties to preserve a distinction between errors made inadvertently while attempting to perform with due care and actions taken with a knowing disregard for a foreseeable risk. "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day. "Month" (regardless of capitalization) shall mean a calendar month. References to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement, except where expressly stated otherwise.

"AEPSC" shall mean American Electric Power Service Corporation, a New York corporation and an Affiliate of WPCo.

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, controls, is controlled by, or is under common control with such Person. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise. The Non-Operator Owner shall not be deemed an Affiliate of the Operator.

"Agreement" has the meaning set forth in the preamble to this Agreement.

[1] NTD: Discuss extent to which terms should conform across O&M Agreement and Operating Agreement.

"Applicable Law" means all laws (including common law), statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, Governmental Approvals, Permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over an Owner, any other Person or entity (as to that Person or entity), this Agreement, any Facility asset or the Facility, as applicable.

"Bankruptcy" means a situation in which (i) a Person files a voluntary petition in bankruptcy or is adjudicated as bankrupt or insolvent, or files any petition or answer or consent seeking any reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable United States federal, state or other statute or law relative to bankruptcy, insolvency or other relief for debtors, or seeks or consents to or acquiesces in the appointment of any trustee, receiver, conservator or liquidator of such Person or of all or any substantial part of its properties (the term "acquiesce," as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within fifteen (15) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction enters an order, judgment or decree approving a petition filed against any Person seeking a reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States federal bankruptcy act, or any other present or future Applicable Law relating to bankruptcy, insolvency or other relief for debtors, and such Person acquiesces and such decree remains unvacated and unstayed for an aggregate of sixty (60) days (whether or not consecutive) from the date of entry thereof, or a trustee, receiver, conservator or liquidator of such Person is appointed with the consent or acquiescence of such Person and such appointment remains unvacated and unstayed for an aggregate of sixty (60) days, whether or not consecutive; (iii) a Person admits in writing its inability to pay its debts as they mature; (iv) a Person gives notice, to any Governmental Authority of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) a Person makes a general assignment for the benefit of creditors or takes any other similar action for the protection or benefit of creditors (other than in the ordinary course of such party's business).

"Budget" means an annual operating budget and annual capital budget adopted or amended pursuant to the Ownership Agreement.

"Business Day" means any day other than (i) a Saturday or Sunday or (ii) a day on which banks in West Virginia or Ohio are required or permitted to be closed.

"Claims" means any and all claims, assertions, demands, suits, investigations, inquiries, and proceedings.

"Confidential Information" means, with respect to each Party, all written or oral information of a proprietary, intellectual or similar nature, relating to the business, projects, operations, activities or affairs of a Party and its Affiliates, whether of a technical or financial nature or otherwise (including environmental assessment reports, financial information, business plans and proposals, ideas, concepts, trade secrets, know-how, processes, pricing of services or products, and other technical or business information, whether concerning this Agreement, each

Party's respective businesses or otherwise) that has not been publicly disclosed and that the receiving Party acquires directly or indirectly from the disclosing Party.

"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the generating units and other property, plant, and equipment comprising the Facility, including any common facilities associated with each generating unit that are to be permanently removed from service, the restoration of the Site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.

"Decommissioning Work" shall mean all work reasonably necessary or undertaken to Decommission the Facility, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Facility in accordance with Applicable Law.

"Dollars" means United States Dollars, the lawful currency of the United States of America.

"Due Date" means, with respect to any Operator invoice, the date that is thirty (30) days following the date on which Operator submits the invoice to the Non-Operator Owner in accordance with Article VII. If such date does not fall on a Business Day, then the Due Date shall be the first Business Day after such date.

"Effective Date" means the date set forth in the preamble to this Agreement.

"Emergency" has the meaning set forth in Section 3.8.

"Encumbrance" means (i) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (ii) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary Claim; and (iii) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Environmental Law" means any Applicable Law pertaining to (i) the regulation or protection of employee health or safety, public health or safety, or the indoor or outdoor environment; (ii) the conservation, management, development, control or use of land, natural resources, or wildlife; (iii) the protection or use of surface water or ground water; (iv) the management, manufacture, possession, presence, use, generation, treatment, storage, disposal, transportation, or handling of, or exposure to any Hazardous Material; or (v) pollution (including release of any hazardous substance to air, land, surface water and ground water), including the Comprehensive Environmental Response, Compensation, and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. §§ 9601 et seq.), the Hazardous Materials Transportation Act (49 U.S.C. §§ 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. §§ 6901 et seq.), the Toxic Substances Control Act (15 U.S.C. §§ 2601 et seq.), the Clean Water Act (33 U.S.C. §§ 7401 et seq.), the Clean Air Act,

as amended (42 U.S.C. §§ 7401 et seq.), the Safe Drinking Water Act (42 U.S.C. §§ 300f et seq.), the Uranium Mill Tailings Radiation Control Act (42 U.S.C. §§ 7901 et seq.), the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§ 136 et seq.), all as now or hereafter amended or supplemented, and any regulations promulgated thereunder, and any other similar federal, state, or local statutes, rules and regulations.

"Environmental Liability" has the meaning set forth in Section 10.3.1.

"Facility" means the Mitchell Power Generation Facility consisting of two (2) coal-fired generating units, each having a nominal nameplate capacity of 800MW, and associated plant, equipment and real estate, located in Moundsville, West Virginia, and includes all electrical or thermal devices, and related structures and connections that are located at the Site and used for the production of power and the transportation and handling of fuel for the benefit of the Owners, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam.

"Facility Agreements" means this Agreement, the Ownership Agreement, all applicable interconnection agreements, fuel supply agreements, coal ash, gypsum and other combustion byproduct disposal or sales agreements, all applicable equipment maintenance agreements in effect or entered into, and as amended, supplemented or modified, from time to time by the Operator or the Owners relating to the Facility, all equipment contracts with regard to warranties and equipment design and specifications, and any other agreement reasonably designated by the Owners as a "Facility Agreement."

"Facility Equipment" has the meaning set forth in Section 13.1.

"Facility Personnel" means those individuals who are employed by Operator or its Affiliates at the Site[2] to perform services in respect of the Facility under this Agreement.

"Force Majeure Event" has the meaning set forth in Section 14.6.1.

"Governmental Approval" means any consent, license, approval, exemption, Permit, "no objection certificate" or other authorization of whatever nature that is required to be granted by any Governmental Authority or any third party with respect to the siting, construction, operation, service and maintenance of the Facility in accordance with this Agreement, or otherwise necessary to enable an Owner or Operator to exercise its rights, or observe or perform its obligations, under this Agreement.

"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision,

[2] Note to Purchaser: There are certain personnel employed by WPCo and AEPSC that perform services at the Site from time to time but are not dedicated exclusively to the Facility or the Site. **Note to AEP**: Please confirm how costs for these employees will be allocated to the Facility.

department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.

"Hazardous Materials" means (a) any petroleum or petroleum products, radioactive materials, asbestos in any form that is or could become friable, urea formaldehyde foam insulation, 1.4 Dioxane, per-and polyfluoroalkyl substances, and transformers or other equipment that contain dielectric fluid containing polychlorinated biphenyls; (b) any chemicals, materials or substances that are now or hereafter become defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollution," "pollutants," "regulated substances," or words of similar import under Applicable Law; or (c) any other chemical, material, substance or waste declared to be or regulated as hazardous, toxic or polluting material by any Governmental Authority, exposure to which is now or hereafter prohibited, limited or regulated by any Governmental Authority.

"Late Payment Rate" means a rate of interest per annum equal to the lesser of (i) the "prime" rate of interest per annum for corporate loans as published in The Wall Street Journal under "Money Rates" as such rate may be in effect from time to time during the period the delinquent amount remains outstanding plus four (4) percentage points (4%) per annum or (ii) the maximum rate of interest permitted by Applicable Law.

"Lender" means any entity or entities providing financing or refinancing to an Owner under any financing agreements in connection with the construction or permanent financing for the Facility, and their permitted successors and assigns.

"Liabilities" means, collectively, any and all Claims, damages, judgments, losses, obligations, liabilities, actions and causes of action, fees (including reasonable attorneys' fees and disbursements), costs (including court costs), expenses, penalties, fines and sanctions.

"Manuals" means Facility Equipment manuals, system descriptions, system operating instructions, equipment maintenance instructions and pertinent design documentation created by the Persons that constructed the Facility or manufactured its equipment, and the operation and maintenance procedures and Facility systems descriptions, training, safety, chemistry and environmental manuals, together with the documents and schedules described in such manuals.

"NERC" means the North American Electric Reliability Corporation.

"Non-Operator Owner" has the meaning set forth in the preamble to this Agreement.

"Non-Operator Owner Indemnitees" has the meaning set forth in Section 10.1.

"Operating Committee" means the "Operating Committee" as composed from time to time pursuant to and defined in the Ownership Agreement.

"Operating Costs" has the meaning set forth in Section 7.2.1.

"Operator" has the meaning set forth in the preamble to this Agreement.

"Operator Indemnitees" has the meaning set forth in Section 10.2.

"Operator Proprietary Information" has the meaning set forth in Section 13.3.

"Owner" has the meaning set forth in the preamble to this Agreement.

"Ownership Agreement" has the meaning set forth in the recitals to this Agreement.

"Ownership Interest" has the meaning set forth in the Ownership Agreement.

"Party" means a party to this Agreement and "Parties" means, collectively, the parties to this Agreement, unless the context clearly requires a different construction.

"Permit" means any permit, license, consent, approval or certificate that is required or used for the operation or maintenance of the Facility or the performance of any Service and includes Permits required under Environmental Laws.

"Person" means any Party, individual, partnership, corporation, association, limited liability company, business trust, government or political subdivision thereof, governmental agency or other entity.

"Plan" means an annual operating plan adopted or amended pursuant to Section 5.3.

"Plant Manager" means the production/plant manager for the Facility selected in accordance with Section 3.6, Section 8.5 or Section 8.6.

"Project Manager" means the individual appointed in accordance with Section 5.1.

"Prudent Operation and Maintenance Practices" means those practices, methods and acts generally employed in the power generation industry with respect to facilities of similar type, fuel characteristics and geographical location as the Facility, that at the particular time in question, in the exercise of reasonable judgment in light of the facts known at the time the decision in question was being made, would have been expected to accomplish the desired result of such decision consistent with the goals established in a Budget and Plan, and the requirements of Applicable Law, System Operators, equipment manufacturer's recommendations, reliability, safety, environmental protection, economy and expedition. With respect to Operator, Prudent Operation and Maintenance Practices are not limited to the optimum practices, methods or acts to the exclusion of all others, but rather include a spectrum of possible practices, methods or acts commonly employed in the coal-fired power generation industry, including taking reasonable actions to provide a sufficient number of Persons who are available and adequately trained to provide Services at the Facility, and timely perform preventive, routine, and non-routine maintenance and repairs, as exemplified and generally described in Appendix A, subject, in all cases, to the Operator's duties and the limitations on Operator's authority, as set forth in this Agreement and the Ownership Agreement.

"Services" has the meaning set forth in Section 3.1.

"Site" means the land on which the Facility is situated.

"Standards of Performance" means the standards for Operator's performance of the Services set forth in Section 3.3.

"System Operator" means any Person or regional transmission organization, such as PJM Interconnection, L.L.C., supervising the collective transmission or generation facilities of the power region in which the Facility is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

"Term" means the initial term together with any extensions.

"Termination Transition Period" has the meaning set forth in Section 8.5.1.

"WPCo" has the meaning set forth in the preamble to this Agreement.

"Year" means the calendar year. With respect to the Year in which the Effective Date occurs, a Year will be deemed to begin on the Effective Date and end on December 31st of such Year. If this Agreement terminates, the final Year will be deemed to end on the date that termination occurs.

ARTICLE III - RESPONSIBILITIES OF OPERATOR

3.1 Provision of Services. Operator shall operate and maintain the Facility and perform other duties as set forth in this Agreement and as directed by the Owners pursuant to the Ownership Agreement, including performing and, as applicable, contracting for the benefit of the Owners with suppliers and service providers to perform, the services set forth on Appendix A (collectively, the "Services") and agrees to be responsible for the day-to-day operation and maintenance of the Facility.

3.2 Procurement.

3.2.1 Operator shall sign contracts and purchase orders for goods and services to be delivered to the Facility in the name of Operator as agent for the Owners, and shall not contract in the name of the Non-Operator Owner without the Non-Operator Owner's prior written consent. Operator acknowledges that such contracts and purchase orders are for the benefit of the Owners and the Facility. Operator shall endeavor to negotiate with vendors from standard terms and conditions, including reasonable warranties for the benefit of the Owners.

3.2.2 The Non-Operator Owner shall use commercially reasonable efforts to obtain, promptly following the Effective Date, any and all consents of third parties required to assign, transfer or convey to Operator any contracts or purchase orders for goods and services (including fuel supply and transportation) to be delivered to or used by the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date, which are reasonably required to be transferred to Operator for the performance of the Services.[3] To the extent that, notwithstanding its commercially

[3] NTD: To confirm necessity/applicability and what is contemplated, given this is addressed in the PSA. Note to Purchaser: This Agreement is intended to stand alone from the Nickel

reasonable efforts, the Non-Operator Owner is unable to obtain any such required consent effective as of the Effective Date, and as a result thereof Operator shall be prevented by such third party from receiving the rights and benefits with respect to any such contract or purchase order intended to be transferred hereunder, or if any attempted assignment would adversely affect the rights of the Non-Operator Owner thereunder so that Operator would not in fact receive all such rights or the Non-Operator Owner would forfeit or otherwise lose the benefit of rights that the Non-Operator Owner is entitled to retain, the Non-Operator Owner and Operator shall cooperate to implement any lawful and commercially reasonable arrangement as the Non-Operator Owner and Operator shall agree, under which Operator would, to the extent practicable, obtain the claims, rights and benefits under such contract or purchase order and assume the burdens and obligations with respect thereto, including by the Non-Operator Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such contracts or purchase orders; provided, however, that the Non-Operator Owner and WPCo shall each bear its respective share of the costs and expenses under any such contract or purchase order in accordance with this Agreement and the Ownership Agreement. The Non-Operator Owner and Operator shall continue to cooperate to assign, transfer or convey to Operator any such contract or purchase order that remain held by the Non-Operator Owner and to otherwise arrange for Operator to directly contract with the applicable third party for any renewal contract or purchase upon the expiration or termination of any such contract or purchase order.

3.3 Standards for Performance of the Services. Operator shall perform the Services in accordance with (i) the Manuals, (ii) the applicable Budget and Plan, (iii) Applicable Laws, (iv) Prudent Operation and Maintenance Practices, (v) insurer requirements delivered to Operator by the Owners in writing, (vi) the requirements in the Facility Agreements (vii) this Agreement; and (viii) as directed by the Owners pursuant to the Ownership Agreement. Subject to the other provisions of this Agreement, Operator shall perform the Services and other obligations under this Agreement in a manner consistent with the Operating Committee's directions. The Parties acknowledge and agree that, subject to Operator's compliance with the Standards of Performance, Operator shall have no liability for acting or refraining to act in accordance with the directions of the Operating Committee, except to the extent caused by Operator's gross negligence, willful misconduct, fraud, willful violation of any Applicable Law, willful breach of this Agreement or the Ownership Agreement or other willful misconduct.

3.4 Dispatch. Operator shall use commercially reasonable efforts to comply with any applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement. Operator shall give the Operating Committee notice as soon as practicable of any inability of the Facility to make the requisite deliveries of energy, capacity or

the PSA. Note to Purchaser: This Agreement is intended to stand alone from the Nickel transaction and will be filed in separate regulatory proceedings, so we thought those obligations would need to run directly between the Owners as well. **Note to AEP**: to discuss how consents/assignments will be addressed and we need to understand what the contracts and POs in question are.

ancillary services and of Operator's plan to restore operation of the Facility. In the case of any interruption, curtailment or reduction in (i) supplies of fuel or (ii) acceptance of energy, capacity or ancillary services by the System Operator or in the case of any other dispatch constraint imposed on the Facility, Operator shall notify the Non-Operator Owner as soon as practicable. Upon removal of the constraint, Operator shall use its commercially reasonable efforts to restore the availability of the Facility for dispatch consistent with applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement.

3.5 Licenses and Permits.

3.5.1 General. Operator shall review all Applicable Laws containing or establishing compliance requirements in connection with the operation and maintenance and Decommissioning[4] of the Facility and shall use commercially reasonable efforts to obtain and maintain, for the benefit of both Owners, all Permits required by Applicable Law for the ownership, operation, maintenance and Decommissioning of the Facility and for Operator's performance of the Services, and shall (i) from time to time, notify the Operating Committee if Operator believes that a Permit is required by Applicable Law to be obtained by an Owner in its name in order to allow Operator to perform the Services and assist each Owner, at each Owner's written request and such Owner's sole cost and expense, in securing and complying with, as appropriate, all necessary Permits (and renewals of the same) which are required to be in an Owner's name, including those relating to air emissions, boiler operation, water usage, septic system operation, wastewater discharge, chemical and other waste (including Hazardous Materials) storage and disposal, emissions testing and safety, and (ii) initiate and maintain precautions and procedures reasonably necessary to comply with Applicable Laws. Any Permit held solely in the name of Operator shall, to the extent necessary for the other Owner's compliance with Applicable Law in its role as an Owner, be held by Operator for the benefit of both Owners. Any Permit held solely in the name of the Non-Operator Owner shall, to the extent necessary and consistent with Applicable Laws, be made available for the use of the Operator for the benefit of the Owners and, if reasonably necessary to facilitate Operator's operation and maintenance or Decommissioning of the Facility, the Non-Operator Owner shall cooperate with Operator to effect an assignment or other transfer of such Permit to Operator or otherwise submit such Permit modifications or updating information as necessary to reflect the role of Operator with respect to such Permit.

3.5.2 NERC Compliance. Operator (or an Affiliate thereof) shall register with NERC as the "Generator Owner" and "Generator Operator" for the Facility in accordance with 18 C.F.R. § 39.2(c) effective from and after [the Effective Date][5]. On and after [the Effective Date], Operator shall, or shall cause its applicable Affiliate to, (i) maintain compliance with all NERC reliability standards applicable to the Facility and all NERC rules applicable to Operator as Generator Owner and Generator Operator for the Facility in accordance with 18 C.F.R. §

[4] Note to Purchaser: References to Decommissioning added given that the Owners may opt to decommission/provide for early retirement of the plant.

[5] **Note**: Subject to modification if registration cannot be effective as of the Effective Date.

39.2(b), including any actions related to mitigation and compliance enhancement required or implemented thereunder; (ii) provide notice to the Operating Committee promptly following the determination by Operator of any reportable physical or cyber security incident under the NERC reliability standards or other Applicable Law; (iii) maintain and provide documentation and maintenance records to the Operating Committee regarding any operation, testing, maintenance or faults of any generation protection relays, gen-tie relays or any other equipment necessary to fulfill Operator's or its applicable Affiliate's obligations as the Generator Owner or Generator Operator for the Facility; and (iv) provide to the Non-Operator Owner upon written request any other information, documentation and support reasonably necessary for Operator or its applicable Affiliate to demonstrate compliance with the NERC reliability standards. To the extent that any fine or sanction is imposed in respect of the performance of Operator's obligations under this Section 3.5.2 pursuant to Section 215(c) of the Federal Power Act, any cost related thereto shall be a included as an Operating Cost, to the extent permitted by Applicable Law.

3.6 Personnel Matters. Subject to Sections 8.5 and 8.6, and as otherwise set forth in this Section 3.6, Operator shall be responsible for determining the working hours, rates of compensation and all other matters relating to the employment of Operator's Facility Personnel, including the designation or appointment of the Plant Manager, in its reasonable judgment and in accordance with Non-Operator Owner's and its Affiliates' past practices in the ordinary course of its business during the time it served as operator of the Facility, and shall retain sole authority, control and responsibility with respect to its employment policies. Operator shall submit for the Operating Committee's approval the staffing requirements for the Facility on an annual basis. If Operator intends to select a new Plant Manager, or if the individual serving as Plant Manager ceases to be the Plant Manager, Operator shall provide prompt written notice to the Non-Operator Owner of the selection of a substitute Plant Manager. Facility Personnel shall be qualified and experienced in the duties to which they are assigned.[6] Operator shall, upon the reasonable written request of the Non-Operator Owner, for cause (as documented in reasonable detail in any such written request), use commercially reasonable efforts to, as promptly as practicable under the circumstances and subject to any applicable collective bargaining agreements, remove from the Site and the Facility workforce, the services of any employee or other individual, subject to Operator's confirmation that such cause exists.

3.7 No Liens or Encumbrances. Operator shall use commercially reasonable efforts to keep and maintain the Facility free and clear of all liens and Encumbrances resulting from the failure by Operator to perform the Services or the personal debts and obligations of Operator unrelated to its ownership interest in the Facility.

3.8 Emergency Action. In the event of an emergency affecting the safety, health or protection of, or otherwise endangering, any Person, property or the environment located at or about the Facility (an "Emergency"), Operator shall take prompt action in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate any imminent damage, injury or loss threatened by such Emergency, and shall notify the Non-Operator Owner of such Emergency and Operator's response as soon as practical under the circumstances and in no event

[6] Note to Purchaser: The scope of Operator's responsibility for personnel is set forth in detail in Articles X and XI.

later than forty-eight (48) business hours after Operator becomes aware of such event. To the extent Operator procures goods and services as necessary to respond to an Emergency, reasonable and documented out of pocket costs in respect thereof shall be treated as Operating Costs.

ARTICLE IV - OBLIGATIONS, RIGHTS AND REPRESENTATIVES OF EACH OWNER

4.1 General. Each Owner expressly reserves the exclusive authority to make, and shall make, such business and strategic decisions as it deems appropriate from time to time in reference to the operation and maintenance of the Facility in accordance with the Ownership Agreement. Upon request from Operator, the Non-Operator Owner shall promptly furnish or cause to be furnished to Operator, at the Non-Operator Owner's expense, the information, access, materials, instructions and other items described in this Article IV that are in the possession or control of the Non-Operator Owner and which are reasonably necessary for performance of the Services by Operator and not otherwise available to Operator. All such items will be made available at such times and in such manner as may be reasonably required for the expeditious and orderly performance of the Services by Operator.

4.2 Information. Subject to the Standards of Performance, Operator shall be entitled to rely upon any information provided by the Non-Operator Owner or any other party to the Facility Agreements in the performance of the Services.

4.3 Access to Facility. Each Owner shall provide Operator and Operator's contractors, vendors, suppliers, employees and agents and Facility Agreement counterparties, to the extent applicable, reasonable access to and use of the Facility and the Site and to such Owner's records and data at the Facility and, in the case of the Non-Operator Owner, reasonably available to the Non-Operator Owner or in the Non-Operator Owner's possession and reasonably necessary for the performance of Services by Operator under this Agreement.

4.4 Instructions, Approvals, etc. Each Owner shall provide or cause to be provided (including through action of the Operating Committee) to Operator all instructions Operator is required to obtain in accordance with this Agreement. Without limiting the provisions of Section 3.2.2, each Owner shall reasonably cooperate to make available or cause to be available to Operator the benefits of all assets (including Permits and contracts relating to the Facility) held in the name of such Owner, as reasonably required for the operation of the Facility. Each Owner shall not direct Operator to take any action inconsistent with Applicable Law or otherwise adversely affecting the safety, health or protection of any person, or property or the environment located at or about the Facility.

ARTICLE V - REPRESENTATIVES, BUDGETS AND REPORTS

5.1 Representatives of Operator. On or as soon as practical after the Effective Date, Operator shall appoint a Project Manager who shall be authorized to represent Operator with each Owner and the Operating Committee concerning Operator's performance of the Services. The Project Manager may be the same individual as the Plant Manager. Operator shall be responsible for all communications, directions, requests and decisions made by its Project

Manager at its direction. Operator shall notify the Non-Operator Owner in writing upon the appointment of its Project Manager, and of any successors. The Project Manager has no authority to modify, amend or terminate this Agreement or, absent written notice by Operator to the contrary, to enter into any other agreement on behalf of Operator other than as provided herein.

5.2 Representatives of Owner; Operating Committee. The Operating Representative of each Owner (pursuant to and as defined in the Ownership Agreement) shall be authorized and empowered to act for and on behalf of such Owner on all matters requiring the consent, approval or other action of an Owner pursuant to this Agreement. Each Owner shall notify Operator and the other Operating Representative in writing upon the appointment of its Operating Representative, and of any successors. Any provision of this Agreement requiring the consent, approval, or similar act of the Operating Committee shall mean the consent, approval, or similar act of the Operating Committee acting in accordance with the terms of the Ownership Agreement.

5.3 Plans and Budgets.

5.3.1 Adoption.

5.3.1.1. Budgets. The initial Budget and Plan for the first Year following the Effective Date is attached as Appendix B hereto.[7] No later than [ninety (90)][8] days prior to each operating Year, Operator shall deliver to the Operating Committee for the Operating Committee's review, revision if applicable and approval (i) a proposed annual operating budget, (ii) any proposed amendments to the annual capital budget[9], (iii) an annual operating plan and (iv) a six (6) Year future forecast of operating and capital expenses. Each such proposed budget, plan and forecast shall contain such detail and supporting documentation as reasonably necessary or reasonably requested for the Operating Committee's review, and Operator shall provide all such additional information and supporting documentation as may be reasonably requested by the Operating Committee and as required by the Ownership Agreement. The Operating Committee shall review and provide modifications to each such proposed budget, plan and forecast and Operator shall cooperate to revise each such proposed budget and plan to receive the Operating Committee's approval of same by December 1 of each Year. Each Budget and Plan as approved by the Operating Committee or otherwise deemed implemented pursuant to the Ownership Agreement shall remain in effect in accordance with the Ownership Agreement.

[7] **Note**: Initial budget and Plan to be attached on the Effective Date.

[8] Note to Purchaser: Subject to further review by AEP. Timing for producing budgets would need to be generally consistent with AEP's overall budgeting processes for its utilities and generation resources.

[9] Note to Purchaser: The capital budget under the Ownership Agreement is a multi-year budget that persists over the term (as opposed annual operating budgets which are single-year budgets that need to be adopted annually).

Operator and the Non-Operator Owner by mutual agreement[10] may modify the process and procedures set forth in this Section 5.3.1.

5.3.1.2. Amendments. If either the Non-Operator Owner or Operator becomes aware of facts or circumstances that it believes necessitate a change to a Budget or Plan, that Party shall promptly notify the other Party in writing, specifying the impact upon the Budget and the reasons for the change. The Project Manager shall then discuss appropriate amendments to the Budget with the Operating Committee.

5.3.1.3. Failure to Agree. Operator acknowledges that the Owners retain ultimate authority with respect to expenses incurred for the Facility. Accordingly, Operator shall accept each Budget as determined in accordance with the Ownership Agreement. To the extent that the Operating Committee limits funds for Operating Costs, Operator shall be relieved from performing only those specific Services that would result in the incurrence of such non-reimbursable Operating Costs.

5.3.2 Limitations on Variation from Budget. Except as otherwise permitted in response to an Emergency in accordance with Section 3.8, Operator shall obtain the Operating Committee's written approval (i) for any expenditures resulting in cumulative budget overruns exceeding ten percent (10%) in the aggregate in any Year with respect to either the operating Budget or capital expense Budget, or (ii) for any unbudgeted expenditure or capital project having a projected cost of more than $100,000.

5.4 Availability of Operating Data and Records. Operator shall deliver Facility data recorded, prepared or maintained by Operator to the Operating Committee: (i) as necessary or reasonably requested by an Owner to assist each Owner in complying with requirements of Governmental Authorities, Permits and Facility Agreements; or (ii) upon request by the Non-Operator Owner, in each case as soon as reasonably practicable but in any event within ten (10) Business Days following such request.

5.5 Litigation and Permit Lapses. Promptly upon obtaining actual knowledge thereof, either Party shall submit prompt written notice to the other Party of the following, to the extent relating to the Facility or the Services or agreements relating to either the Facility or the Services: (i) any litigation, Claims or actions filed, including by, against or with any Governmental Authority; (ii) any actual refusal to grant, renew or extend, or any action filed with respect to the granting, renewal or extension of, any Permit; (iii) all penalties or notices of violation issued or asserted by any Governmental Authority; (iv) any dispute with any Governmental Authority that may affect the Facility in any material respect; and (v) with respect to the matters identified in items (i), (ii), (iii) or (iv), any material threats of such matters. Upon Non-Operator Owner's request, Operator shall provide any documentation related to any of the foregoing.

[10] Note to Purchaser: Written amendments may require WVPSC regulatory approval, which would be burdensome for this type of procedural change that can be mutually agreed between the Owners.

5.6 Other Information. Operator shall promptly submit to the Non-Operator Owner any material information concerning new or significant aspects of the Facility operations and, upon the Non-Operator Owner's request, shall promptly submit any other information concerning the Facility or the Services.

5.7 Records Maintenance and Retention. Operator shall maintain all records, reports, documents and data, including all data retrievable from an electronic data storage source, for the Facility in accordance with Applicable Law and shall retain and preserve all such records, reports, documents and data created in connection with the operation and maintenance of the Facility, in accordance with Applicable Law, provided that Operator shall notify the Non-Operator Owner in writing at least sixty (60) days prior to the destruction or other disposition of any record, report, document or data. If the Non-Operator Owner gives written notice to Operator prior to the expiration of the 60-day period, Operator shall maintain custody of such material until the earlier of (i) such time as the Non-Operator Owner notifies Operator to dispose of such material and (ii) seven (7) Years. If the Non-Operator Owner does not provide written notice to Operator prior to the expiration of the 60- day period, Operator may destroy or dispose of such material and shall provide the Non-Operator Owner with a certificate confirming such destruction or disposition.

ARTICLE VI - LIMITATIONS ON AUTHORITY

6.1 Limitations on Authority. Operator has no authority to make policies or decisions with respect to the overall operation or maintenance of the Facility as a commercial enterprise pursuant to the terms of this Agreement. The Owners, acting through the Operating Committee and pursuant to the terms of the Ownership Agreement, shall determine all such matters. Notwithstanding any provision in this Agreement to the contrary, unless previously approved in a Budget and Plan or otherwise approved in writing by the Operating Committee, in connection with Operator's provision of Services hereunder, Operator is prohibited from doing any of the following (and shall not permit any of its agents, Affiliates, or representatives to do any of the following):

6.1.1 Dispose of Assets. Selling, leasing, pledging, mortgaging, granting a security interest in, encumbering, conveying, or making any license, exchange or other transfer or disposition of all or any portion of the Facility, the Site or any other property or assets of the Owners, including any property or assets purchased by Operator, the cost of which is an Operating Cost;

6.1.2 Make Expenditures. Making any expenditure or acquiring, on an Operating Cost basis, any goods or services from third parties, except in conformity with a Budget or as otherwise permitted under Section 5.3.2 or as authorized by the Operating Committee; provided, however, that in the event of an Emergency, Operator, without approval from the Owners, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.3 Take Other Actions. Taking or agreeing to take any other action or actions the decision for which is reserved exclusively for the Operating Committee pursuant to

the Ownership Agreement; provided, however, that in the event of an Emergency, Operator, without approval from the Operating Committee, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.4 Act Regarding Lawsuits and Settlements. Settling, compromising, assigning, pledging, transferring, releasing or consenting to the compromise, assignment, pledge, transfer or release of, any material Claim, suit, debt, demand or judgment against or due by any Owner or Operator, the cost of which would be an Operating Cost hereunder, or submitting any such Claim, dispute or controversy to arbitration or judicial process, or stipulating in respect thereof to a judgment, or consent to the same; provided, however, that such prohibition shall not apply to, nor shall it be construed as a release or waiver of, any of Operator's rights or obligations pursuant to this Agreement or any other agreement between the Parties; or

6.1.5 Pursue Transactions. Engaging in any other transaction on behalf of the any Owner that is not permitted under this Agreement.

ARTICLE VII - COMPENSATION AND PAYMENT

7.1 General. The Non-Operator Owner shall pay Operator, and WPCo shall bear directly in its capacity as an Owner, its allocated share in accordance with the Ownership Agreement of all Operating Costs, all as further described below.[11] All Operating Costs shall initially be paid for by Operator (except as otherwise provided in this Agreement) and subsequently invoiced monthly in arrears as more fully set forth in this Article VII.

7.2 Costs.

7.2.1 Operating Costs. Subject to the Ownership Agreement and the limitations on expenditures set forth elsewhere in this Agreement (including Section 5.3), the Non-Operator Owner shall reimburse Operator for its allocated share in accordance with the Ownership Agreement of the [fully loaded][12] costs to the extent incurred (whether paid or accrued) in the provision of Services, including for labor, goods, services, capital expenditures, overhead, cost of capital, Taxes (other than income or franchise taxes), Permits and bonds (the "Operating Costs"), in each case in a manner consistent with the example invoice worksheets attached hereto as Appendix C, which shall include such costs with respect to: (i) equipment, material, supplies and other consumables, spare parts, replacement components, tools, office equipment, computer equipment, software, information technology and supplies acquired for use at the Facility; (ii) fuel supply and transportation; (iii) costs associated with special training of Facility Personnel and associated travel and living expenses; (iv) amounts paid under subcontracts, purchase orders and agreements; (v) fees for Permits required to be held by Operator; (vi) community relations and labor relations activities; and (vii) Operator's cost of Facility Personnel (and the allocable portion of other employees of Operator and its Affiliates reasonably

[11] Note to Purchaser: Ownership Agreement allocates certain costs (e.g. ELG Expenses) inconsistent with proportional share in accordance with Ownership Interest.

[12] **Note to AEP**: Please provide a specific definition describing what is contemplated by "fully loaded."

attributable to performing the Services) wages, salaries, overtime, employee bonus, customary or required severance payments, unemployment insurance, long-term disability insurance, short term disability payments, sick leave, payroll taxes imposed on wages and benefits, worker's compensation costs and holidays, vacations, group medical, dental and life insurance, defined contribution retirement plans and other employee benefits; (viii) costs of third-party advisors, consultants, attorneys, accountants and contractors retained and managed by Operator in support of, and reasonably allocable to, the Services; (ix) a reasonably allocable portion of the cost of the insurance maintained by Operator in accordance with Section 9.1 on account of its Operator role; (x) reasonable costs incurred in response to an Emergency; and (xi) any other activity that Operator is required or expressly requested in writing by the Owners to perform under this Agreement for the benefit of the Facility or that is approved in a Budget or by the Operating Committee pursuant to the terms of this Agreement. [12]13

7.2.2 Invoicing. On or before the twenty-fifth (25th) day of each calendar month during the Term, Operator shall submit invoices to the Non-Operator Owner in form and substance reasonably similar to that attached hereto as Appendix C for Operating Costs incurred during the preceding calendar month (as well as any such costs for any prior period that were not previously invoiced). If any contract or purchase order intended to be assigned, transferred or conveyed to Operator remains held by the Non-Operator Owner as described in Section 3.2.2 and the Non-Operator Owner directly pays costs thereunder for the benefit of the Owners, the invoice submitted by Operator shall net WPCo's allocated share in accordance with the Ownership Agreement of any such costs paid by the Non-Operator Owner for the benefit of the Owners. The Non-Operator Owner shall make payment to Operator of its allocated share in accordance with the Ownership Agreement of the invoiced amount no later than the Due Date. In the event any invoiced amounts are disputed by the Non-Operator Owner in good faith and such dispute is resolved (including if applicable in accordance with the procedures set forth in Section 14.7) in the favor of the Non-Operator Owner, then the Operator shall repay to the Non-Operator Owner such invoiced amount plus interest thereon accrued each day at the Late Payment Rate from payment by the Non-Operator Owner until such amount (plus accrued interest) is repaid in full to the Non-Operator Owner by the Operator. For the avoidance of doubt, WPCo, in its capacity as an Owner, shall bear directly its allocated share in accordance with the Ownership Agreement of such Operating Costs.

7.3 Cost Audit. The Non-Operator Owner shall be entitled to conduct an audit, or to delegate a representative to audit, at its sole cost and expense and review of Operator's books and records with respect to all Operating Costs and performance of the Services together with any supporting documentation for a period of one (1) Year from and after the date of the audited payment. If, pursuant to such audit and review, it is agreed that any amount previously paid by Operator or by an Owner was not properly incurred as an Operating Cost or an adjustment of any such cost is required, Operator shall credit to the Non-Operator Owner or Operator, as

[12]13 NTD: To discuss scope of operating expenses, including allocation methodology for employees or shared costs, as well as any costs that should be borne disproportionately (e.g., ELG Expenses).

applicable, its allocated share in accordance with the Ownership Agreement of such amount in the next succeeding invoice or promptly paid in cash if there shall not be further invoices issued.

7.4 Late Payment. To the extent an Owner or Operator fails to pay any amount required to be paid under this Agreement by the Due Date, the unpaid amount shall accrue interest each day at the Late Payment Rate from the Due Date until such amount (plus accrued interest) is paid by the applicable Party in full.

ARTICLE VIII - TERM

8.1 Term. The Term of this Agreement shall commence on the Effective Date and, subject to approval or acceptance of termination by FERC or other Governmental Authority to the extent required, shall end on the date of termination of the Ownership Agreement (the "Term"). Notwithstanding the foregoing, this Agreement and the Term is subject to earlier termination pursuant to Sections 8.2 and 8.3.

8.2 Termination by the Non-Operator Owner for Cause. The Non-Operator Owner shall be permitted to terminate this Agreement if any of the following events occur: (i) the Bankruptcy of Operator; (ii) a payment default by Operator (other than a disputed payment) that Operator fails to cure within ten (10) Business Days after Operator has received written notice of such default; (iii) Operator incurs liability to the Owners equal to the liability limit set forth in Section 11.2 for ~~three (3) Years~~any Year during the Term, or (iv) a material default by Operator in the performance of its obligations under this Agreement, including any default that has, or is reasonably expected to have, a material adverse effect on the operations, maintenance or performance of the Facility and Operator has failed to cure such default within sixty (60) days of written notice of such failure; provided, that if it is not possible to cure such breach within sixty (60) days of receipt of such notice of failure, Operator (A) fails to commence to cure the breach within such sixty (60) day period, (B) thereafter fails to continue diligent efforts to complete the cure as soon as reasonably possible, or (C) fails to complete the cure within ninety (90) days of receipt of such notice of failure. In addition, Non-Operator Owner shall have the option to terminate this Agreement for convenience upon ninety (90) days written notice to Operator from and after (or concurrent with) the occurrence of any transfer, assignment, sale or other disposition (including any transfers, assignments, sales or other dispositions in connection with a foreclosure or an exercise of remedies by the Financing Parties) by WPCo of its Ownership Interest in the Facility to any Person which is not an Affiliate of WPCo, except in the case of an assignment of this Agreement to a successor Operator in compliance with the terms of this Agreement and the Ownership Agreement.

8.3 Termination by Operator. Operator shall be permitted to terminate this Agreement if any of the following events occur: (i) a payment default by the Non-Operator Owner (other than a disputed payment) that is not cured within thirty (30) days after the Due Date for any invoice; (ii) the Bankruptcy of the Non-Operator Owner; or (ii) a default by the Non-Operator Owner of any other obligation under this Agreement that has a material adverse effect on Operator's ability to perform the Services and that the Non-Operator Owner has failed to cure or make substantial progress in the reasonable opinion of Operator toward curing within ninety (90) days of written notice by Operator to the Non-Operator Owner of such failure. As soon as practicable after all cost information is gathered following termination, Operator shall

invoice the Non-Operator Owner for its allocated share in accordance with the Ownership Agreement for Services rendered by Operator through the termination date, including all Operating Costs incurred through the date of termination but not paid.

8.4 Transfer of Facility Custody. Upon expiration or termination of this Agreement, Operator shall leave at the Facility all documents and records, tools, supplies, spare parts, safety equipment, Manuals, and any other items furnished on an Operating Cost basis, all of which shall remain the property of the Owners without additional charge. Operator shall execute all documents and take all other reasonable steps as may be reasonably requested by the Non-Operator Owner to assign to and vest in a replacement provider of Services all of its pro-rata rights, benefits, interests and title in connection with any subcontracts Operator executed in its own name for the benefit of the Facility and the Owners.

8.5 Services Upon Termination.

8.5.1 Upon notice of termination of this Agreement by either Operator or the Non-Operator Owner, unless the Non-Operator Owner is then in payment default such that Operator would have the right to terminate this Agreement pursuant to Section 8.3(i), the Non-Operator Owner shall have the right to specify a period of transition of no longer than nine (9) months (the "Termination Transition Period") during which Operator shall: (i) continue to provide Services at the Facility in accordance with this Agreement; (ii) cooperate with the Non-Operator Owner in planning and implementing a transition to any replacement provider of Services; (iii) use its commercially reasonable efforts to minimize disruption of Facility operations in connection with such transition activities; (iv) make all requisite regulatory filings as promptly upon commencement of the Termination Transition Period, subject to cooperation of the Parties; (v) transfer all Permits, licenses, registrations, approvals and contracts to the Non-Operator Owner or such replacement operator, in each case, as requested by the Non-Operator Owner; and (vi) take all actions incidental thereto and as reasonably requested by the Non-Operator Owner. The provisions of Article VII shall continue to apply during the Termination Transition Period. To facilitate employee transfer, Operator shall permit the replacement service provider and the Non-Operator Owner to interview such Facility Personnel for potential positions with such replacement operator in a manner and at times that do not interfere with Operator's responsibility to perform the Services. If Operator or one of its Affiliates continues to own a portion of the Facility, Operator shall, or shall cause its Affiliates to, reasonably cooperate to allow a successor operator to operate the Facility after the termination of this Agreement, including by granting access rights and executing other instruments as may be reasonably requested by the Non-Operator Owner and any replacement operator.

8.5.2 Any modifications to the ownership and operation of the Facility, including any termination of this Agreement, shall be subject to any required regulatory or administrative filings and approvals.

8.6 Plant Manager Replacement. Upon (i) commencement of the Termination Transition Period or (ii) the occurrence of any of the conditions described in Section 8.2, the Non-Operator Owner may designate a qualified individual with significant experience as a project manager or similar senior operating role in respect of the management and operation of

large coal-fired generation facilities with similar operating characteristics as the Facility to replace the existing Plant Manager and who shall upon such appointment be the Plant Manager.

ARTICLE IX - INSURANCE

9.1 Operator Insurance Requirements.

9.1.1 Commencing with the performance of the Services hereunder, and continuing until the termination of this Agreement, Operator (and any tier subcontractors) shall maintain or cause to be maintained occurrence form (if written on a claims -made policy form, be maintained with a retroactive date that is prior to this Agreement Effective Date for a period of at least three (3) Years following the last Year in which such policy provides coverage under the terms of this Agreement) insurance policies as follows: (i) Workers' Compensation in accordance with the statutory requirements of the state in which the Services are performed and Employer's Liability Insurance of not less than one million Dollars ($1,000,000) each accident/employee/disease; (ii) Commercial General Liability Insurance having a limit of at least one million Dollars ($1,000,000) per occurrence/two million Dollars ($2,000,000) in the aggregate for contractual liability, personal injury, bodily injury to or death of Persons, and/or loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) Years after completion), premises and operations liability and explosion, collapse, and underground hazard coverage; (iii) Commercial/Business Automobile Liability Insurance (including owned (if any), non-owned or hired autos) having a limit of at least one million Dollars ($1,000,000) each accident for bodily injury, death, property damage and contractual liability and no fellow employee exclusion; (iv) Umbrella/Excess Liability insurance with limits of at least twenty-four million Dollars ($24,000,000) per occurrence and follow form of the underlying Employer's Liability, Commercial General Liability and Auto Liability insurance, and provide at least the same scope of coverages thereunder; (v) coverage for sudden/accidental occurrences for bodily injury, property damage, environmental damage, cleanup costs and defense with a minimum of one million Dollars ($1,000,000) per occurrence; and (vi) "all-risk" or its equivalent property insurance providing coverage risks of physical damage to the Facility or Facility Equipment in an amount in accordance with Good Utility Practice.

9.1.2 Unless otherwise determined by the Operating Committee that the Operator should purchase capacity insurance on behalf of both Owners, Operator (including in its capacity as an Owner) and Non-Operator Owner may each procure individually, in proportion to their Ownership Interests, PJM Interconnection, L.L.C. capacity performance insurance on terms and conditions, and placed with insurance companies, reasonably acceptable to the Operator or such Owner, as applicable. Operator shall make such certifications relating to the operation, maintenance and condition of the Facility from time to time during the Term as may be reasonably necessary in connection with the procurement or maintenance of such insurance coverage by Operator and the Non-Operator Owner and any other insurance policies of either Owner that may relate to coverage pertaining to or affecting an Owner's Ownership Interest.

9.2 Form and Content. All insurance policies provided and maintained by Operator and each subcontractor shall: (i) be underwritten by insurers that are rated A.M. Best "A- VII" or higher; (ii) specifically include the Non-Operator Owner and its directors, officers, employees,

affiliates, subcontractors, and joint owners of any facilities as additional insureds for their liability arising out of the acts or omissions of Operator, including for completed operations, with respect to Operator's acts, omissions, services, products or operations, whether in whole or in part, excluding, however, for Workers' Compensation/Employer's Liability insurance, [Pollution Legal Liability insurance,][13][14] and "all-risk" property insurance; (iii) be endorsed to provide, where permitted by law, waiver of any rights of subrogation against an Owner and its directors, officers, employees, affiliates and subcontractors, and joint owners of any facilities; (iv) provide that such policies and additional insured provisions are primary with respect to the acts, omissions, services, products or operations of Operator or its subcontractors, to the extent of Operator's negligence, (v) contain standard separation of insured and severability of interest provisions except with respect to the limits of the insurer's liability; and (vii) not have any cross-liability exclusion, or any similar exclusion that excludes coverage for Claims brought by additional insureds under the policy against another insured under the policy; Any deductibles or retentions shall be the sole responsibility of Operator and its subcontractors. Evidence of such coverage shall be provided in the form of Operator's certificate of insurance furnished to the Non-Operator Owner prior to the Effective Date, upon any policy replacement or renewal and upon the Non-Operator Owner's request. Operator shall provide at least thirty (30) days' prior written notice to the Non-Operator Owner prior to cancellation of any policy (or ten (10) days' notice in the case of non-payment of premium).

ARTICLE X - INDEMNIFICATION

10.1 Operator Indemnification. Subject to the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner and its Affiliates, and their respective officers, directors, employees, managers, members, agents and representatives (collectively, the "Non-Operator Owner Indemnitees"), from and against, and no Non-Operator Owner Indemnitee shall be responsible for any and all Liabilities incurred, assessed, sustained or suffered by any Non-Operator Owner Indemnitee to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement (provided that notwithstanding anything to the contrary, for all purposes of this Agreement, the failure to follow any express instructions of the Non-Operator Owner in connection with (i) the Ownership Agreement or (ii) the Compliance Agreement by and among American Electric Power Company, Inc., Kentucky Power Company, Wheeling Power Company and [BUYER] shall be deemed to be willful misconduct of the Operator under this Agreement).[14][15] Any Liabilities paid by Operator pursuant to its indemnity obligation under this Section 10.1 shall in no event be considered Operating Costs hereunder.

10.2 Owner Indemnification. Subject to the limitations of liability in Section 11.1, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless Operator and its Affiliates, and their respective officers, directors, employees, agents and representatives (collectively, the "Operator Indemnitees"), from and against, and no Operator Indemnitee shall have responsibility for, any

and all Liabilities to a third party incurred, assessed, sustained or suffered by or against any Operator Indemnitee arising from or relating to Operator's performance of the Services under this Agreement, except to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its proportionate share of Liabilities under this Section 10.2 in respect of its Ownership Interest.

10.3 Environmental Indemnification.

10.3.1 Owner Indemnity for Environmental Liabilities. Subject to the limitations of liability in Section 11.1, and without in any way limiting the provisions of Section 10.3.2, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless the Operator Indemnitees, from and against, and no Operator Indemnitees shall have responsibility for, any and all Liabilities, including all civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Operator Indemnitees, as applicable, as a result of or in connection with any matters governed by Environmental Laws directly or indirectly related to or arising out of (i) the design, permitting or construction of the Facility or the condition of the Site, and any adjacent parcels; (ii) the operation, maintenance, ownership, control or use of the Facility or otherwise related to the Facility; and (iii) the offsite transportation, treatment or disposal of all wastes generated at the Facility and any properties included within or adjacent to the Site, whether occurring before or after the Effective Date (collectively, "Environmental Liabilities"), including any Environmental Liabilities arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials, but excluding Operator Environmental Liabilities; provided, however, that the Environmental Liabilities for which any Owner is obligated to indemnify any Operator Indemnitees under this Section 10.3.1 shall not in any event include any Operator Environmental Liabilities for which Operator is liable under Section 10.3.2. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear its proportionate share of Environmental Liabilities under this Section 10.3.2 in respect of its Ownership Interest.

10.3.2 Operator Indemnity for Environmental Liabilities. Subject to the provisions of Section 10.1 and the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner Indemnitees from and against, and no Non-Operator Owner Indemnitee shall be responsible hereunder for any Liabilities, including any civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Person as a result of or in connection with any breach or violation of or any other matters governed by Environmental Laws to the extent caused by the gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law or willful breach of this Agreement by Operator or arising out of the ~~actual~~ existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials brought on Site by Operator or its Affiliates or agents on or after the Effective Date (the "Operator Environmental Liabilities"). Operator understands and agrees that any Operator Environmental Liabilities paid by Operator pursuant to this Section 10.3.2 shall not be Operating Costs hereunder.

10.3.3 Governmental Actions. During the Term, Operator shall use commercially reasonable efforts to cooperate with and assist the Owners with their acquisition of data and information, and preparation and filing with appropriate Governmental Authorities of any notices, plans, submissions, or other materials and information necessary for compliance by the Owners with applicable Environmental Laws and the requirements of any Permits related to the Facility. All such environmental reports shall be submitted by, and in the names of, both Owners. All reasonable and documented costs associated therewith, including the reasonable costs of any outside consultants, legal services, Governmental Authority charges, sampling and remedial work shall be paid by the Owners as an Operating Cost, and the Non-Operator Owner shall reimburse WPCo to the extent of the Non-Operator Owner's pro rata share, unless such costs are incurred arising out of or associated with Operator Environmental Liabilities that are subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof. Nothing contained herein shall be construed as requiring Operator to take any corrective action with respect to Environmental Liabilities unless (x) affirmatively and expressly directed in writing to so do by the Operating Committee and appropriate funding is made available, or (y) affirmatively and expressly directed to do so by a Governmental Authority, in order to comply with any Environmental Law, in which case the cost of any corrective actions so undertaken shall be deemed an Environmental Liability subject to Section 10.3.1 hereof (if not otherwise reimbursed as an Operating Cost hereunder), unless such Environmental Liability arises out of or is associated with Operator Environmental Liabilities subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof.

ARTICLE XI - LIABILITIES OF THE PARTIES

11.1 Limitations of Liability. Notwithstanding any provision in this Agreement that may be susceptible to contrary interpretation, neither the Parties nor any Non-Operator Owner Indemnitees or Operator Indemnitees shall be liable for consequential or indirect loss or damage, including loss of profit, cost of capital, loss of goodwill, increased Operating Costs, or any special or incidental damages; provided, however, that notwithstanding the foregoing, in no event will the foregoing limitations of liability be applied to limit the extent of the liability of either Party to the other for or with respect to any Claims of third parties or to the extent arising from gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement. The Parties further agree that the waivers and disclaimers of liability, indemnities, releases from liability and limitations of liability expressed in this Agreement shall survive termination or expiration of this Agreement, and shall apply in all circumstances, whether in contract, equity, tort or otherwise, regardless of the fault, negligence (in whole or in part), strict liability, breach of contract or breach of warranty of the Party indemnified, released or whose liabilities are limited, and shall extend to the Non-Operator Owner Indemnitees and Operator Indemnitees.

11.2 Operator's Total Aggregate Liability. Except to the extent that a Non-Operator Owner Indemnitee suffers Liabilities that are caused by, result from or arise out of Operator's or its Affiliates' breach of Article XIII or its gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement, or willful misconduct (including in connection with any Services), the total liability of Operator to the Non-Operating Owner for all Liabilities arising out of, connected with or resulting from any events occurring or claims made in connection with this Agreement, whether based in contract, warranty, tort, strict liability or

otherwise, shall not exceed, in the aggregate, the sum of (i) an amount equal to twenty-five percent (25%) of the Operating Costs, but excluding Operating Costs relating to any services, goods, inventory and equipment provided hereunder by third parties other than Operator's Affiliates, incurred pursuant to this Agreement in the prior twelve (12) month period, *plus* (ii) the Non-Operating Owner's fifty percent (50%) share of any insurance proceeds actually received by the Operator or paid on the Operator's behalf with respect to the relevant loss or damages under the insurance policies procured by the Operator pursuant to Section 9.1.

11.3 No Warranties or Guarantees.

11.3.1 EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES OR GUARANTEES TO THE OTHER, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SUBJECT MATTER OF THIS AGREEMENT, AND BOTH PARTIES DISCLAIM AND WAIVE ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT.

11.3.2 OPERATOR IS ACTING AS AGENT OR OTHERWISE AS A RESELLER WITH RESPECT TO ALL SERVICES, GOODS, INVENTORY AND EQUIPMENT PROVIDED HEREUNDER BY THIRD PARTIES OTHER THAN OPERATOR'S AFFILIATES, AND, AS SUCH, DOES NOT PROVIDE ANY WARRANTY FOR SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT PROVIDED HEREUNDER. ALL SUCH THIRD PARTY SERVICES, GOODS, INVENTORY AND EQUIPMENT ARE PROVIDED AS IS, WHERE IS, WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT UNLESS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES. THE SOLE REMEDY IN CONNECTION WITH ANY DEFECTS IN OR FAILURES OF SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT (WHETHER A CLAIM FOR SUCH DEFECT ARISES UNDER CONTRACT, TORT, STRICT LIABILITY, STATUTE, OR ANY OTHER LEGAL OR EQUITABLE THEORY OR PRINCIPLE INCLUDING NEGLIGENCE) SHALL BE TO SEEK RECOURSE EXCLUSIVELY FROM THE COUNTERPARTIES TO THE THIRD PARTY CONTRACTS, UNLESS THE DEFECT OR FAILURE WAS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES.

ARTICLE XII - CONFIDENTIALITY

12.1 General. During the Term, and for the later of three (3) Years after the termination of this Agreement or five (5) Years after receipt of the applicable Confidential Information, each Party shall hold in confidence any Confidential Information supplied by or on behalf of the other Party. Each receiving Party further agrees to require its contractors, vendors,

suppliers and employees, agents or prospective purchasers to preserve the confidentiality of Confidential Information. The receiving Party may make necessary disclosures to third parties directly engaged in the operation, ownership or financing of the Facility if such third parties are under an obligation to receive and hold such Confidential Information in confidence.

12.2 Exceptions. The provisions of this Article XII do not apply to information within one or more of the following categories:

12.2.1 Public Domain. Information that was in the public domain prior to the receiving Party's receipt or that subsequently becomes part of the public domain by publication or otherwise, except by the receiving Party's or its Affiliate's wrongful act.

12.2.2 Prior Receipt. Information that the receiving Party can demonstrate was in its possession prior to receipt thereof from the disclosing Party so long as such possession did not result from a violation of a confidentiality obligation.

12.2.3 Third Party Delivery. Information received from a third party having no obligation of secrecy with respect thereto.

12.2.4 Permitted Disclosures. Information disclosed by an Owner to Lenders or prospective Lenders, equity investors or prospective equity investors, prospective purchasers, consultants, attorneys, accountants and other designated agents in each case on a confidential, need-to-know-basis.

12.2.5 Regulatory Filings. Information required to be disclosed by an Owner in connection with any required regulatory or administrative filings.

12.3 Required Disclosure. Notwithstanding the forgoing, any receiving Party required by law, rule, regulation, subpoena or order, or in the course of regulatory, administrative or judicial proceedings, to disclose Confidential Information that is otherwise required to be maintained in confidence pursuant to this Article XII, may make disclosure notwithstanding the provisions of this Article XII. Prior to doing so, the receiving Party, promptly upon learning of the requirement, shall notify the disclosing Party of the requirement and cooperate to the maximum extent practicable to minimize the disclosure of Confidential Information. Any receiving Party disclosing Confidential Information pursuant to this Section 12.3 shall use commercially reasonable efforts, at the disclosing Party's cost, to obtain proprietary or confidential treatment of Confidential Information by the third party to whom the information will be disclosed, and to the extent such remedies are available, shall use commercially reasonable efforts to seek protective orders limiting the dissemination and use of Confidential Information. Nothing in this Agreement is intended to prevent the disclosing Party from appearing in any proceedings and objecting to the disclosure.

ARTICLE XIII - TITLE, DOCUMENTS AND DATA

13.1 Materials and Equipment. Operator shall use commercially reasonable efforts to cause title to all materials, equipment, supplies, consumables, spare parts and other items purchased or obtained by Operator on an Operating Cost basis ("Facility Equipment") to pass directly from the vendor or supplier to, and vest in, each Owner to the extent of such Owner's

Ownership Interest. Operator shall have no title or other claim to such items other than in its capacity as an Owner of the Facility.

13.2 Documents. All Manuals, operational data, Facility drawings, Operator reports and records and other materials and documents (both paper and electronic) created by Operator, its Affiliates or their respective employees, representatives or contractors in connection with performance of the Services are the property of each Owner to the extent of its Ownership Interest in the Facility. All such materials and documents shall be available for review by the Non-Operator Owner at all reasonable times during development and promptly upon completion. All such materials and documents required to be submitted for the approval of the Operating Committee shall be prepared and processed in accordance with the requirements and specifications set forth herein. However, the Operating Committee's approval of materials and documents submitted by Operator shall not relieve Operator of its responsibility to perform it obligations under this Agreement.

13.3 Proprietary Information. Where materials or documents prepared or developed by Operator or its Affiliates, or their respective employees, representatives or contractors, contain proprietary or technical information, systems, techniques or know-how previously developed by them or acquired by them from third parties (the "Operator Proprietary Information"), the Non-Operator Owner shall have an irrevocable license to use such Operator Proprietary Information to the extent necessary for the operation or maintenance of the Facility at no additional cost to the Non-Operator Owner.

ARTICLE XIV - MISCELLANEOUS PROVISIONS

14.1 Assignment. This Agreement shall not be assignable, in whole or in part, by a Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed, except that this Agreement may be (i) collaterally assigned by an Owner without such consent to a Lender in connection with such Lender's financing of such Owner's Ownership Interest and (ii) assigned by an Owner (in whole but not in part) without such consent to the transferee of its Ownership Interest, whether by merger, division, sale of equity interest, or otherwise, in each case, solely to the extent that such transfer of its Ownership Interest is in accordance with the Ownership Agreement. Any assignment pursuant to this Section 14.1 shall not relieve the assigning Party of any of its obligations under this Agreement that arose prior to the date of such assignment. This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties.

14.2 Effect of Bankruptcy. The Parties intend that, in the event of a Bankruptcy, payments required under this Agreement shall be deemed to be administrative expenses as defined in 11 U.S.C. §503.

14.3 Access. The Non-Operator Owner and Lenders and their agents and representatives shall have access to the Facility, all Facility operations and any documents, materials and records and accounts relating to the Facility operations for purposes of inspection and review. Upon the request of the Non-Operator Owner and its agents and representatives, Operator shall provide such Persons with access to all data and logs Operator maintains regarding the Facility. During any inspection or review of the Facility, the Non-Operator Owner

and Lenders and their agents and representatives shall comply with all of Operator's safety and security procedures, and shall conduct inspections and reviews in such a manner as to cause minimum interference with Operator's activities. Operator also shall cooperate with the Non-Operator Owner in allowing its agents and representatives access to the Facility.

14.4 Subcontractors; Subagents.

14.4.1 Operator shall have the right to hire third-party subcontractors or to acquire rights from third parties to provide all or part of any Services hereunder without the prior consent of the Operating Committee. The cost of such third-party Services or acquisition of such rights shall be Operating Costs in accordance with Section 7.2.1. Operator, for the benefit of the Owners, shall use commercially reasonable efforts to obtain from all subcontractors and suppliers, including any subcontractors and suppliers who are Affiliates of Operator, customary guarantees and warranties to the extent available with respect to the equipment, goods, services or other work provided or performed by such subcontractor and supplier. Notwithstanding the foregoing or anything to the contrary, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned or delayed, procure or enter into any agreement with any third-party subcontractor with respect to the Services ~~(i)~~ with a cost included in the Operating Costs in excess of $500,000 in any Year. Each agreement with a third-party subcontractor shall reflect costs that are on an arm's-length basis and no greater in any material respect than Operator could reasonably provide on Operator's own (or through its Affiliates) without material hardship.

14.4.2 Operator may delegate any obligations hereunder to one or more Affiliates, or designate one or more Affiliates as subagents for the performance of its obligations, and, to the extent such Affiliate performs or acts as subagent with respect to any obligation of Operator hereunder, such Affiliate shall enjoy the rights and benefits of Operator pursuant to this Agreement (including, for the avoidance of doubt, Article X and Article XI hereof). Notwithstanding the foregoing, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned, or delayed, procure or enter into any agreement with any of its Affiliates (other than for Facility Personnel to perform the Services) (i) with a committed value in excess of $500,000 or (ii) that may not be cancelled by Non-Operator Owner upon no more than ninety (90) days' notice without penalty. Each agreement with an Affiliate of Operator, other than for Facility Personnel to perform the Services, shall reflect costs that are no greater in any material respect than Operator could obtain on an arms-length basis with a bona fide third party at such time. Notwithstanding anything to the contrary in this Agreement, Operator shall be permitted to delegate any of its rights, duties and obligations under this Agreement and the Ownership Agreement to AEPSC without the consent of Non-Operator Owner, but without relieving Operator of any of its obligations hereunder.[16]

14.4.3 If one or more Affiliates perform Services as subagents or subcontractors hereunder, Service Provider shall remain liable for such Affiliate's obligations hereunder and for

[16] **Note to AEP**: To discuss rationale for this and whether any such delegation is contemplated.

any breach by such Affiliate of the terms of this Agreement (to the same extent as if such breach was committed by Service Provider).

14.5 Not for Benefit of Third Parties. Except where a contrary intention is expressly stated, this Agreement and each provision hereof are for the exclusive benefit of the Parties that executed this Agreement and not for the benefit of any third party.

14.6 Force Majeure.

14.6.1 Events Constituting Force Majeure. A "Force Majeure Event" is any event described below that (i) restricts or prevents performance under this Agreement, (ii) is not within the reasonable control of the Party affected or caused by the fault or negligence of the affected Party and (iii) cannot be overcome or avoided by the exercise of due care. Force Majeure Events ~~include~~comprise the following, so long as in each case the requirements of the foregoing clauses (i), (ii) and (iii) are satisfied, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, tornado or other unusually severe storm or environmental conditions, epidemic, war (whether declared or undeclared), terrorism (whether domestic or foreign, state-sponsored or otherwise), revolution, insurrection, riot, civil disturbances, protests, sabotage (but not including any sabotage involving personnel of Operator), work stoppages (i.e., strikes) (but not including any work stoppages or strikes involving any personnel of Operator, whether on-site or off-site), accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Facility, other acts or omissions of any Governmental Authority, including any form of compulsory government acquisition or condemnation of all or part of the Facility (including a "taking"), restraint by court order, changes in Applicable Law that affect performance under this Agreement, other acts of Governmental Authorities including in response to any of the foregoing. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default in respect to any obligation if and to the extent that performance of such obligation is prevented by a Force Majeure Event. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations.

14.6.2 Notice. If a Party's ability to perform its obligations under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event, its cause, its anticipated duration and any action being taken to avoid or minimize its effect and confirm the same in writing within three (3) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) work diligently to remove the cause of the Force Majeure Event or to lessen its effect.

14.6.3 Scope. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than necessary. The excused Party shall use its reasonable best efforts to remedy its inability to perform.

14.7 Dispute Resolution. Any and all disputes shall be resolved pursuant to the dispute resolution procedures set forth in the Ownership Agreement.

14.8 Amendments. No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Parties.

14.9 Survival. Notwithstanding any provisions to the contrary, the obligations set forth in Article VII and Article VIII, Article X, Article XI and Article XII, Article XIV the limitations on liabilities set forth in Article XI will survive, in full force, the expiration or termination of this Agreement.

14.10 No Waiver. No delay, waiver or omission by the Non-Operator Owner or Operator to exercise any right or power arising from any breach or default by the Non-Operator Owner or Operator with respect to any of the terms, provisions or covenants of this Agreement shall be construed to be a waiver by the Non-Operator Owner or Operator of any subsequent breach or default of the same or other terms, provisions or covenants on the part of the Non-Operator Owner or Operator.

14.11 Notices. Any written notice required or permitted under this Agreement shall be deemed to have been duly given on the date of receipt, and shall be either delivered personally to the Party to whom notice is given, or mailed to the Party to whom notice is to be given, by facsimile, courier service or first-class registered or certified mail, return receipt requested, postage prepaid, and addressed to the addressee at the address indicated below, or at the most recent address specified by written notice given in the manner provided in this Section 14.11:

If to Operator:

14.12 Representations and Warranties. Each Party represents and warrants to the other Party that, as of the date hereof:

14.12.1 Existence. It is duly organized and validly existing under the laws of the state of its organization and has all requisite power and authority to own its property and assets and conduct its business as presently conducted or proposed to be conducted under this Agreement.

14.12.2 Authority. It has the power and authority to execute and deliver this Agreement, to consummate the transactions contemplated hereby and to perform its obligations hereunder.

14.12.3 Validity. It has taken all necessary action to authorize its execution, delivery and performance of this Agreement, and this Agreement constitutes the valid, legal and binding obligation of such Party enforceable against it in accordance with its terms, except as such enforcement may be limited by Bankruptcy, insolvency, moratorium or similar laws affecting the rights of creditors or by general equitable principles (whether considered in a proceeding in equity or at law).

14.12.4 No Conflict. Neither the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, nor the fulfillment of the terms and conditions hereof, conflicts with or violates any provision of its constituting documents.

14.12.5 No Consent. No consent or approval (including any Permit that such warranting Party is required to obtain) is required from any third party (including any Governmental Authority) for either the valid execution and delivery of this Agreement, or the performance by such Party of its obligations under this Agreement, except such as have been duly obtained or will be obtained in the ordinary course of business.

14.12.6 No Breach. None of the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, or the fulfillment of the terms and conditions hereof either conflicts with, violates or results in a breach in any material respect of, any Applicable Law currently in effect, or conflicts with, violates or results in a breach of, or constitutes a default under or results in the imposition or creation of, any lien or Encumbrance under any material agreement or instrument to which it is a party or by which it or any of its properties or assets are bound.

14.12.7 No Material Claims. It is not a party to any legal, administrative, arbitral or other proceeding, investigation or controversy pending or threatened that would adversely affect such Party's ability to perform its obligations under this Agreement.

14.13 Additional Representation and Warranty by Operator. Operator further represents and warrants to the Non-Operator Owner that it has, or has obtained through the retention of a qualified operations and maintenance service provider, substantial expertise and experience in the operation and maintenance of comparable power generation facilities and it, or its applicable subcontractor, is fully qualified to provide such services at the Facility in accordance with the terms of this Agreement.

14.14 Counterparts. The Parties may execute this Agreement in counterparts that, when signed by each of the Parties, constitute one and the same instrument. Thereafter, each counterpart shall be deemed an original instrument as against any Party who has signed it. Delivery of an executed counterpart of this Agreement by facsimile or electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

14.15 Governing Law; Venue; Waiver of Jury Trial. The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of New York, exclusive of the conflicts of law provisions thereof that would require the application of the laws of a different jurisdiction. Each Party hereby agrees that any Action arising out of or relating to this Agreement brought by a Party(or any of their respective successors or assigns) shall be brought and determined in any state or federal court sitting in the State of New York, within the Borough of Manhattan, City of New York, and the Parties hereby irrevocably submit to the exclusive jurisdiction of the aforesaid courts for themselves and with respect to their property, generally and unconditionally, with regard to any such Action arising out of or relating to this Agreement and the transactions contemplated hereby, and the appellate courts from any thereof in connection with any action arising out of or relating to this Agreement or any other agreement related to the Facility or any Facility asset and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or that such action was brought in an inconvenient court. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

14.16 Interpretation. Titles or captions contained in this Agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, describe or otherwise affect the scope or meaning of this Agreement or the intent of any provision hereof. All exhibits and appendices attached hereto are considered a part hereof as though fully set forth herein. This Agreement was jointly drafted and negotiated by the Parties. In the event of a dispute, this Agreement shall not be construed against either Party based upon its drafting.

14.17 Severability. If any provision of this Agreement, or the application of any such provision to any Person or circumstance, is held invalid by any court or other forum of competent jurisdiction, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those as to which it is held invalid, shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner materially adverse to a Party. Upon any such determination of invalidity, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that this Agreement is consummated as originally contemplated to the greatest extent possible.

14.18 Cooperation in Financing. Operator shall execute and deliver any customary and reasonable agreement and consent to assignment, together with an opinion of counsel at Non-Operator Owner's expense, as may be reasonably requested by Non-Operator Owner in connection with any financing of the Facility. Operator shall promptly respond to reasonable requests, including requests for management presentations, by Non-Operator Owner and any of its Lenders or their representatives, in each case at Non-Operator Owner’s sole cost and expense, for information regarding the Operator and its performance of its duties hereunder and the operation, maintenance and administration of the Facility. Operator agrees to use commercially reasonable efforts to cooperate with any of Non-Operator Owner’s Lenders and their representatives and to provide such Lenders and representatives with reasonable access to and

tours of the Facility (including review of documents, materials, records and accounts), in each case at Non-Operator Owner's sole cost and expense.

APPENDIX A – SCOPE OF SERVICES[15][17]

Routine Services	Provide operational services as reasonably necessary for electrical power generation.
Detailed Programs	Implement Operator human resources program. Implement Operator-drafted, Owner-approved programs in safety, administration, maintenance, and training. Implement Facility's existing programs in operating, maintenance, chemistry, NERC and environmental compliance (or, at the Operating Committee's request, develop or enhance such programs at actual cost and implement). Ensure compliance with NERC requirements, Environmental Law, Applicable Law, and all Permits.
Routine Maintenance	Perform routine and preventive maintenance actions on all Facility systems and equipment in accordance with vendor instructions and the maintenance plan for the Facility. This program includes: **Service Checks** – Conduct visual equipment inspections and log significant parameters such as pressures, temperatures, and flow rates. Trend and analyze this information as appropriate. **Routine and Fixed Interval Maintenance** –Identify preventive maintenance requirements. Schedule and assign routine maintenance during Facility operation, planned outages, and forced or unscheduled outages.
Predictive Maintenance Program	As appropriate, conduct/oversee predictive maintenance within the cost-effective capability of the Facility Personnel. For those maintenance requirements that are not cost-effective for the Facility Personnel, oversee predictive maintenance services provided by vendors.
Major Maintenance and Repairs	In coordination with and support of the Facility Agreements and generation plan, arrange for scheduled inspections and overhauls on major equipment. Retain vendors for the benefit of the Owners for unscheduled major repairs as required and manage and oversee repairs and modifications.
Capital Improvements	Conduct/oversee all capital improvements. As appropriate, retain vendors for the benefit of the Owners to design, construct and implement capital improvements.
Facility Outages	Use commercially reasonable efforts to manage all Facility outages (planned, unscheduled, forced) to optimize outage duration and

[15][17] NTD: Services scope to be discussed/confirmed in the context of anticipated operational needs and current scope of services.

	impact on production: **Task Assignment** – Identify and schedule all maintenance that requires a Facility outage or equipment to be taken out of service. **Work Schedule –** Develop and implement a schedule to track material outage preparations, work and testing, including corrective maintenance actions, contractor work and scheduled preventive maintenance. Conduct preparations to support this plan, including ordering and receiving required spare parts.
Assistance to the Non-Operator Owner and Operating Committee	Provide assistance to the Non-Operator Owner and the Operating Committee, as reasonably requested with the execution of the Non-Operator Owner's and the Operating committee's duties relative to operation of the Facility.
Facility Administration	Conduct administration to meet Operator requirements and Owners' goals, including: **Budgets** – Prepare annual Budgets and submit them for Operating Committee approval in accordance with the Ownership Agreement and this Agreement. Following approval, manage operations and expenditures to comply with each Budget. Generate budget variance reports, as required. **Procurement** – Establish and implement a purchasing system. Procure, for the benefit of the Owners, including negotiations and contracting, for all materials, equipment, chemicals, supplies, services, parts, and other miscellaneous items required for the provision of the Services. Pay all invoices in a timely manner. Provide credit support as required by third parties for the operation of the Facility, including contract counterparties and Governmental Authorities. Minimize Owner costs as much as feasible. **Inventory Control** – Implement a cost-effective inventory control system designed to ensure that spare parts, materials, and supplies are properly stored and accounted for and that adequate supplies are available at all times to support the provision of the Services. **Personnel Matters** – In compliance with Operator programs and policies, manage all payroll and employee relations, labor relations, and independent contractor issues, as required. These tasks include: employment; compensation and benefits; initial training; and employee and independent contractor relations. Provide reasonable support to recruit, hire, transfer, or otherwise acquire and retain qualified Facility Personnel to maintain the staffing levels and skill mix required for successful long-term provision of the Services. **Community Relations** – In coordination with and with the approval

	of the Operating Committee, conduct a community relations program to establish the Facility and its employees as "good citizens" in the local community. **Regulatory –** Perform all duties set forth in Section 7.8 of the Ownership Agreement with respect to Emission Allowances (as defined therein).
Work Assignment	Assign work to either Facility Personnel or vendors as cost-effective and appropriate based on overall guidance from the Operating Committee. Normally, Facility Personnel conduct preventive maintenance and actions requiring a high degree of Facility knowledge and vendors perform tasks needing equipment or expertise that are not cost-effective to maintain at the Facility. Vendors also perform tasks that make sense to minimize outage time and costs.
Buildings and Grounds	Arrange for janitorial, garbage pickup and landscape services and maintain all access roads, office buildings, and other structures in reasonable repair.
Reports	Prepare and submit operation and maintenance service reports as requested relative to performance, including environmental compliance records, maintenance and repair status, Facility operating data, and any other information reasonably requested by the Operating Committee or the Non-Operator Owner.
Security	Implement or arrange for implementation of security measures in accordance with the Operating Committee-approved Facility security plan.
Safety	Continue to implement Corporate and Plant Level Safety Programs including on-site visits and discussions at the facility.
PJM Capacity Analysis	Analysis and plant level information to PJM as part of PJM's FRR or RPM Capacity Market requirements
Information Systems	Manage the Facility's information technology infrastructure, including phone systems, internet connectivity, hardware and software. Implement or arrange for implementation of cybersecurity policies and procedures in compliance with NERC requirements and Applicable Law, in accordance with the Operating Committee-approved Facility cybersecurity plan.
Training Program	Implement a continuing program of training designed to orient new Facility Personnel, refresh/cross-train existing Facility Personnel, qualify/re-qualify Facility Personnel, and keep all Facility Personnel aware of Operating Committee -approved Facility safety requirements and emergency procedures. This program includes specialty skills training.

Drawing/Manual Maintenance	Maintain the Facility library and update the Manuals and vendor service manuals. Update (or arrange for updating) Facility drawings to reflect changes to the as-built configuration. In addition to document management, maintain physical Facility configuration control.
Fuel Purchasing and Handling	• Procure coal, reagents, fuel oil supply or transportation service agreements as needed to operate the Facility and establish and maintain reserves of coal in common stock piles of such quality and in such quantities as the Operating Committee shall determine • Contract administration for Fuel supply contracts along with legal review. • Third Party Settlements of fuel related supply and inventory tracking in ComTrac system • Joint Books Accounting to prepare information for billing among co-owners per agreement • Analysis of fuel related costs for data requests from regulatory bodies or joint owner • Provide fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by the Facility during each month. • Receive coal and provide fuel handling • Fuel coordinator functions to review fuel quality with third party suppliers at coal or limestone facilities. • Administer and reconcile volumes of all fuel with suppliers • Administer and comply with the requirements set forth in the Facility's fuel agreements, including quality testing and invoice review and approval • Administer and comply with the requirements set forth in the Facility's coal ash, gypsum and combustion byproduct disposal and sales agreements, including invoice review and approval
Day Ahead and Real Time Market Operations	• Unit Generation Dispatch – Monitor signals and take direction from PJM for generating units. Relay these directions, commitments and settings to the Unit Operators and Controls.

	Relay information on real time unit conditions to Transmission Owner (TO) and PJM. • GADS Reporting – Create GADS events as they are scheduled or occur. Submit monthly event reporting as required by NERC and PJM. • Outage Support and Communications to PJM – Relay outage/curtailment information from plant personnel to PJM. Schedule maintenance and planned outages/curtailments, and maintain updates as they arise. • Unit Characteristic Updates to PJM – Provide any relevant configuration updates related to generating units to PJM that may occur. • Telemetry – Maintain current real time telemetry to/from the plant, PJM and Market Operations control center.
Administration of Contracts	• Administer, perform and enforce all contractual obligations and arrangements, including all warranties applicable thereto, entered into by Operator for the benefit of the Owners with respect to the Facility • Act as agent on behalf of the Non-Operating Owner with respect to the administration, performance and enforcement of any contracts or purchase orders (including fuel supply or transportation contracts) with respect to the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date
Insurance	• Procure on behalf of each Owner such property and other insurance policies as required by the insurance program established by the Operating Committee in accordance with the Ownership Agreement.
Decommissioning	• Manage and contract with vendors and other parties to perform Decommissioning Work. This includes the management of required regulatory filings, permitting, engineering assessments, and the contracting for demolition and or liability transfers. Upon mutual agreement between Operator and the Operating Committee, Operator may conduct all or a portion of the Facility and/or Site Decommissioning from its and its Affiliates resources.

MITCHELL PLANT OPERATIONS AND MAINTENANCE AGREEMENT

This OPERATIONS AND MAINTENANCE AGREEMENT (this "Agreement"), dated as of [_____] (the "Effective Date"), is entered by and between WHEELING POWER COMPANY, a West Virginia corporation (in its capacity as the operator of the Facility, "Operator" and in its capacity as an owner of the Facility, "WPCo") and KENTUCKY POWER COMPANY, a Kentucky corporation qualified as a foreign corporation in West Virginia (in its capacity as an owner of the Facility, the "Non-Operator Owner" and, together with WPCo, each an "Owner" and, together, the "Owners").

RECITALS

1. Owners each own an undivided Ownership Interest in the Facility (these and other capitalized terms are defined in Article II).

2. On the date hereof, WPCo and the Non-Operator Owner have entered into that certain Mitchell Plant Ownership Agreement, setting forth the respective rights, duties and obligations of the Owners with respect to each other and the Facility in their capacities as the Owners thereof (the "Ownership Agreement").

3. Pursuant to the Ownership Agreement, WPCo has agreed to manage the day-to-day operations and maintenance of the Facility as Operator pursuant to the terms of this Agreement.

4. Operator and the Non-Operator Owner desire to execute this Agreement to set forth the respective rights, duties and obligations of WPCo, in its capacity as Operator of the Facility, and the Non-Operator Owner, in its capacity as an Owner of an undivided interest as a co-tenant in the Facility.

NOW, THEREFORE, in consideration of the foregoing premises, and of the mutual covenants, undertakings and conditions set forth below, the Parties agree as follows:

ARTICLE I - AGREEMENT

1.1 Agreement. This Agreement consists of the recitals, and the terms and conditions set forth in this Agreement, as well as the appendices that are referenced in the table of contents and attached to this Agreement.

1.2 Relationship of the Parties. Operator shall perform the Services in its capacity as an independent contractor of the Owners and as principal on its own behalf as an Owner. Subject to any limitations set forth in this Agreement and the Ownership Agreement, the Owners delegate to Operator, and Operator accepts from the Owners, the responsibility of providing the Services at the Facility. The Owners and Operator agree that the scope of delegation is strictly limited to the matters set forth in this Agreement and the Ownership Agreement. Without limiting the generality of the foregoing, the Owners retain the ultimate authority and obligation to determine whether and to what extent the Facility operates, and Operator shall not cause the Facility to generate power except as expressly directed to do so by the Owners or any dispatching authority specified by the Owners in accordance with the Ownership Agreement. For the

avoidance of doubt, any provision of this Agreement requiring the delegation of authority, direction, consent or authorization with respect to the Owners shall mean the delegation, direction, consent or authorization of both Owners (or the Operating Committee) in accordance with the Ownership Agreement (except to the extent the Ownership Agreement gives exclusive authority to the Non-Operator Owner thereunder, in which case such delegation of authority, direction, consent or authorization with respect to the Owners shall mean exclusively the delegation, direction, consent or authorization of the Non-Operator Owner).

1.3 Entire Agreement. This Agreement, together with the Ownership Agreement, contains the entire agreement between the Parties with respect to Operator's provision of Services at the Facility and supersedes all prior negotiations, undertakings and agreements.

ARTICLE II - DEFINITIONS[1]

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears, capitalized terms have the meanings specified in this Article II. The singular includes the plural, as the context requires. The terms "includes" and "including" mean "including, but not limited to." The terms "ensure" and "reasonable efforts" will not be construed as a guarantee, but will imply only a duty to use reasonable efforts and care, consistent with Prudent Operation and Maintenance Practices, and will include reasonable expenditures of money and at least such efforts as Operator would undertake for its own assets, services or maintenance, or for services provided to an Affiliate. "Gross negligence" will not be construed as simple or ordinary negligence, it being the intent of the Parties to preserve a distinction between errors made inadvertently while attempting to perform with due care and actions taken with a knowing disregard for a foreseeable risk. "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day. "Month" (regardless of capitalization) shall mean a calendar month. References to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement, except where expressly stated otherwise.

"AEP" shall mean American Electric Power Company, Inc., a New York corporation and an Affiliate of WPCo.

"AEPSC" shall mean American Electric Power Service Corporation, a New York corporation and an Affiliate of WPCo.

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, controls, is controlled by, or is under common control with such Person. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise. The Non-Operator Owner shall not be deemed an Affiliate of the Operator.

~~[1] NTD: Discuss extent to which terms should conform across O&M Agreement and Operating Agreement.~~

"Agreement" has the meaning set forth in the preamble to this Agreement.

"Applicable Law" means all laws (including common law), statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, Governmental Approvals, Permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over an Owner, any other Person or entity (as to that Person or entity), this Agreement, any Facility asset or the Facility, as applicable.

"Bankruptcy" means a situation in which (i) a Person files a voluntary petition in bankruptcy or is adjudicated as bankrupt or insolvent, or files any petition or answer or consent seeking any reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable United States federal, state or other statute or law relative to bankruptcy, insolvency or other relief for debtors, or seeks or consents to or acquiesces in the appointment of any trustee, receiver, conservator or liquidator of such Person or of all or any substantial part of its properties (the term "acquiesce," as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within fifteen (15) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction enters an order, judgment or decree approving a petition filed against any Person seeking a reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States federal bankruptcy act, or any other present or future Applicable Law relating to bankruptcy, insolvency or other relief for debtors, and such Person acquiesces and such decree remains unvacated and unstayed for an aggregate of sixty (60) days (whether or not consecutive) from the date of entry thereof, or a trustee, receiver, conservator or liquidator of such Person is appointed with the consent or acquiescence of such Person and such appointment remains unvacated and unstayed for an aggregate of sixty (60) days, whether or not consecutive; (iii) a Person admits in writing its inability to pay its debts as they mature; (iv) a Person gives notice, to any Governmental Authority of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) a Person makes a general assignment for the benefit of creditors or takes any other similar action for the protection or benefit of creditors (other than in the ordinary course of such party's business).

"Budget" means an annual operating budget and annual capital budget adopted or amended pursuant to the Ownership Agreement.

"Business Day" means any day other than (i) a Saturday or Sunday or (ii) a day on which banks in West Virginia or Ohio are required or permitted to be closed.

"Claims" means any and all claims, assertions, demands, suits, investigations, inquiries, and proceedings.

"Confidential Information" means, with respect to each Party, all written or oral information of a proprietary, intellectual or similar nature, relating to the business, projects, operations, activities or affairs of a Party and its Affiliates, whether of a technical or financial nature or otherwise (including environmental assessment reports, financial information, business plans and proposals, ideas, concepts, trade secrets, know-how, processes, pricing of services or products, and other technical or business information, whether concerning this Agreement, each

Party's respective businesses or otherwise) that has not been publicly disclosed and that the receiving Party acquires directly or indirectly from the disclosing Party.

"Cost Allocation Manual" means the Cost Allocation Manual of Operator and its Affiliates, as may be amended from time to time, as filed with FERC and, to the extent required, the WVPSC.

"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the generating units and other property, plant, and equipment comprising the Facility, including any common facilities associated with each generating unit that are to be permanently removed from service, the restoration of the Site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.

"Decommissioning Work" shall mean all work reasonably necessary or undertaken to Decommission the Facility, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Facility in accordance with Applicable Law.

"Dollars" means United States Dollars, the lawful currency of the United States of America.

"Due Date" means, with respect to any Operator invoice, the date that is thirty (30) days following the date on which Operator submits the invoice to the Non-Operator Owner in accordance with Article VII. If such date does not fall on a Business Day, then the Due Date shall be the first Business Day after such date.

"Effective Date" means the date set forth in the preamble to this Agreement.

"Emergency" has the meaning set forth in Section 3.8.

"Encumbrance" means (i) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (ii) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary Claim; and (iii) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Environmental Law" means any Applicable Law pertaining to (i) the regulation or protection of employee health or safety, public health or safety, or the indoor or outdoor environment; (ii) the conservation, management, development, control or use of land, natural resources, or wildlife; (iii) the protection or use of surface water or ground water; (iv) the management, manufacture, possession, presence, use, generation, treatment, storage, disposal, transportation, or handling of, or exposure to any Hazardous Material; or (v) pollution (including release of any hazardous substance to air, land, surface water and ground water), including the Comprehensive Environmental Response, Compensation, and Liability Act, as amended by the

Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. §§ 9601 et seq.), the Hazardous Materials Transportation Act (49 U.S.C. §§ 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. §§ 6901 et seq.), the Toxic Substances Control Act (15 U.S.C. §§ 2601 et seq.), the Clean Water Act (33 U.S.C. §§ 7401 et seq.), the Clean Air Act, as amended (42 U.S.C. §§ 7401 et seq.), the Safe Drinking Water Act (42 U.S.C. §§ 300f et seq.), the Uranium Mill Tailings Radiation Control Act (42 U.S.C. §§ 7901 et seq.), the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§ 136 et seq.), all as now or hereafter amended or supplemented, and any regulations promulgated thereunder, and any other similar federal, state, or local statutes, rules and regulations.

"Environmental Liability" has the meaning set forth in Section 10.3.1.

"Facility" means the Mitchell Power Generation Facility consisting of two (2) coal-fired generating units, each having a nominal nameplate capacity of 800~~MW~~ megawatts, and associated plant, equipment and real estate, located in Moundsville, West Virginia, and includes all electrical or thermal devices, and related structures and connections that are located at the Site and used for the production of power and the transportation and handling of fuel for the benefit of the Owners, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam.

"Facility Agreements" means this Agreement, the Ownership Agreement, all applicable interconnection agreements, fuel supply agreements, coal ash, gypsum and other combustion byproduct disposal or sales agreements, all applicable equipment maintenance agreements in effect or entered into, and as amended, supplemented or modified, from time to time by the Operator or the Owners relating to the Facility, all equipment contracts with regard to warranties and equipment design and specifications, and any other agreement reasonably designated by the Owners as a "Facility Agreement."

"Facility Equipment" has the meaning set forth in Section 13.1.

"Facility Personnel" means those individuals who are employed by Operator or its Affiliates ~~at the Site~~[2] to perform services in respect of the Facility under this Agreement.

"Force Majeure Event" has the meaning set forth in Section 14.6.1.

"Governmental Approval" means any consent, license, approval, exemption, Permit, "no objection certificate" or other authorization of whatever nature that is required to be granted by any Governmental Authority or any third party with respect to the siting, construction, operation, service and maintenance of the Facility in accordance with this Agreement, or otherwise necessary to enable an Owner or Operator to exercise its rights, or observe or perform its obligations, under this Agreement.

~~[2] Note to Purchaser: There are certain personnel employed by WPCo and AEPSC that perform services at the Site from time to time but are not dedicated exclusively to the Facility or the Site. **Note to AEP**: Please confirm how costs for these employees will be allocated to the Facility.~~

"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision, department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.

"Hazardous Materials" means (a) any petroleum or petroleum products, radioactive materials, asbestos in any form that is or could become friable, urea formaldehyde foam insulation, 1.4 Dioxane, per-and polyfluoroalkyl substances, and transformers or other equipment that contain dielectric fluid containing polychlorinated biphenyls; (b) any chemicals, materials or substances that are now or hereafter become defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollution," "pollutants," "regulated substances," or words of similar import under Applicable Law; or (c) any other chemical, material, substance or waste declared to be or regulated as hazardous, toxic or polluting material by any Governmental Authority, exposure to which is now or hereafter prohibited, limited or regulated by any Governmental Authority.

"Late Payment Rate" means a rate of interest per annum equal to the lesser of (i) the "prime" rate of interest per annum for corporate loans as published in The Wall Street Journal under "Money Rates" as such rate may be in effect from time to time during the period the delinquent amount remains outstanding plus four (4) percentage points (4%) per annum or (ii) the maximum rate of interest permitted by Applicable Law.

"Lender" means any entity or entities providing financing or refinancing to an Owner under any financing agreements in connection with the construction or permanent financing for the Facility, and their permitted successors and assigns.

"Liabilities" means, collectively, any and all Claims, damages, judgments, losses, obligations, liabilities, actions and causes of action, fees (including reasonable attorneys' fees and disbursements), costs (including court costs), expenses, penalties, fines and sanctions.

"Manuals" means Facility Equipment manuals, system descriptions, system operating instructions, equipment maintenance instructions and pertinent design documentation created by the Persons that constructed the Facility or manufactured its equipment, and the operation and maintenance procedures and Facility systems descriptions, training, safety, chemistry and environmental manuals, together with the documents and schedules described in such manuals.

"NERC" means the North American Electric Reliability Corporation.

"Non-Operator Owner" has the meaning set forth in the preamble to this Agreement.

"Non-Operator Owner Indemnitees" has the meaning set forth in Section 10.1.

"Operating Committee" means the "Operating Committee" as composed from time to time pursuant to and defined in the Ownership Agreement.

"Operating Costs" has the meaning set forth in Section 7.2.1.

"Operator" has the meaning set forth in the preamble to this Agreement.

"Operator Indemnitees" has the meaning set forth in Section 10.2.

"Operator Proprietary Information" has the meaning set forth in Section 13.3.

"Owner" has the meaning set forth in the preamble to this Agreement.

"Ownership Agreement" has the meaning set forth in the recitals to this Agreement.

"Ownership Interest" has the meaning set forth in the Ownership Agreement.

"Party" means a party to this Agreement and "Parties" means, collectively, the parties to this Agreement, unless the context clearly requires a different construction.

"Permit" means any permit, license, consent, approval or certificate that is required or used for the operation or maintenance of the Facility or the performance of any Service and includes Permits required under Environmental Laws.

"Person" means any Party, individual, partnership, corporation, association, limited liability company, business trust, government or political subdivision thereof, governmental agency or other entity.

"Plan" means an annual operating plan adopted or amended pursuant to Section 5.3.

"Plant Manager" means the production/plant manager for the Facility selected in accordance with Section 3.6, Section 8.5 or Section 8.6.

"Project Manager" means the individual appointed in accordance with Section 5.1.

"Prudent Operation and Maintenance Practices" means those practices, methods and acts generally employed in the power generation industry with respect to facilities of similar type, fuel characteristics and geographical location as the Facility, that at the particular time in question, in the exercise of reasonable judgment in light of the facts known at the time the decision in question was being made, would have been expected to accomplish the desired result of such decision consistent with the goals established in a Budget and Plan, and the requirements of Applicable Law, System Operators, equipment manufacturer's recommendations, reliability, safety, environmental protection, economy and expedition. With respect to Operator, Prudent Operation and Maintenance Practices are not limited to the optimum practices, methods or acts to the exclusion of all others, but rather include a spectrum of possible practices, methods or acts commonly employed in the coal-fired power generation industry, including taking reasonable actions to provide a sufficient number of Persons who are available and adequately trained to provide Services at the Facility, and timely perform preventive, routine, and non-routine maintenance and repairs, as exemplified and generally described in Appendix A, subject, in all

cases, to the Operator's duties and the limitations on Operator's authority, as set forth in this Agreement and the Ownership Agreement.

["Qualified Replacement Operator" shall mean a Person that:

(i) has operated for a period of at least three (3) years, and continues to operate, coal and/or natural gas power generation facilities with an aggregate electricity output of at least one thousand (1,000) megawatts and at least one of those facilities is a coal power generation facility with an aggregate electricity output of at least three hundred (300) megawatts (or has engaged a third party to operate the Facility who satisfies such operation standards); and

(ii) either has (a) a credit rating of "BBB-" or higher by S&P Global Ratings and "Baa3" or higher by Moody's Investor Service or (b) a tangible net worth of at least $500,000,000 (or has a direct or indirect parent who satisfies such financial standards).][1]

"Services" has the meaning set forth in Section 3.1.

"Site" means the land on which the Facility is situated.

"Standards of Performance" means the standards for Operator's performance of the Services set forth in Section 3.3.

"System Operator" means any Person or regional transmission organization, such as PJM Interconnection, L.L.C., supervising the collective transmission or generation facilities of the power region in which the Facility is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

"Term" means the initial term together with any extensions.

"Termination Transition Period" has the meaning set forth in Section 8.5.1.

"WPCo" has the meaning set forth in the preamble to this Agreement.

"Year" means the calendar year. With respect to the Year in which the Effective Date occurs, a Year will be deemed to begin on the Effective Date and end on December 31st of such Year. If this Agreement terminates, the final Year will be deemed to end on the date that termination occurs.

ARTICLE III - RESPONSIBILITIES OF OPERATOR

3.1 Provision of Services. Operator shall operate and maintain the Facility and perform other duties as set forth in this Agreement and as directed by the Owners pursuant to the Ownership Agreement, including performing and, as applicable, contracting for the benefit of the Owners with suppliers and service providers to perform, the services set forth on Appendix A

[1] Note to Purchaser: Under review by AEP.

(collectively, the "Services") and agrees to be responsible for the day-to-day operation and maintenance of the Facility.

3.2 Procurement.

3.2.1 Operator shall sign contracts and purchase orders for goods and services to be delivered to the Facility in the name of Operator as agent for the Owners, and shall not contract in the name of the Non-Operator Owner without the Non-Operator Owner's prior written consent. Operator acknowledges that such contracts and purchase orders are for the benefit of the Owners and the Facility. Operator shall endeavor to negotiate with vendors from standard terms and conditions, including reasonable warranties for the benefit of the Owners.

3.2.2 The Non-Operator Owner shall use commercially reasonable efforts to obtain, promptly following the Effective Date, any and all consents of third parties required to assign, transfer or convey to Operator any contracts or purchase orders for goods and services (including fuel supply and transportation) to be delivered to or used by the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date, which are reasonably required to be transferred to Operator for the performance of the Services.[3] To the extent that, notwithstanding its commercially reasonable efforts, the Non-Operator Owner is unable to obtain any such required consent effective as of the Effective Date, and as a result thereof Operator shall be prevented by such third party from receiving the rights and benefits with respect to any such contract or purchase order intended to be transferred hereunder, or if any attempted assignment would adversely affect the rights of the Non-Operator Owner thereunder so that Operator would not in fact receive all such rights or the Non-Operator Owner would forfeit or otherwise lose the benefit of rights that the Non-Operator Owner is entitled to retain, the Non-Operator Owner and Operator shall cooperate to implement any lawful and commercially reasonable arrangement as the Non-Operator Owner and Operator shall agree, under which Operator would, to the extent practicable, obtain the claims, rights and benefits under such contract or purchase order and assume the burdens and obligations with respect thereto, including by the Non-Operator Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such contracts or purchase orders; provided, however, that the Non-Operator Owner and WPCo shall each bear its respective share of the costs and expenses under any such contract or purchase order in accordance with this Agreement and the Ownership Agreement. The Non-Operator Owner and Operator shall continue to cooperate to assign, transfer or convey to Operator any such contract or purchase order that remain held by the Non-Operator Owner and to otherwise arrange for Operator to

~~[3] NTD: To confirm necessity/applicability and what is contemplated, given this is addressed in the PSA. Note to Purchaser: This Agreement is intended to stand alone from the Nickel transaction and will be filed in separate regulatory proceedings, so we thought those obligations would need to run directly between the Owners as well. **Note to AEP**: to discuss how consents/assignments will be addressed and we need to understand what the contracts and POs in question are.~~

directly contract with the applicable third party for any renewal contract or purchase upon the expiration or termination of any such contract or purchase order.

3.3 Standards for Performance of the Services. Operator shall perform the Services in accordance with (i) the Manuals, (ii) the applicable Budget and Plan, (iii) Applicable Laws, (iv) Prudent Operation and Maintenance Practices, (v) insurer requirements delivered to Operator by the Owners in writing, (vi) the requirements in the Facility Agreements (vii) this Agreement; and (viii) as directed by the Owners pursuant to the Ownership Agreement. Subject to the other provisions of this Agreement, Operator shall perform the Services and other obligations under this Agreement in a manner consistent with the Operating Committee's directions. The Parties acknowledge and agree that, subject to Operator's compliance with the Standards of Performance, Operator shall have no liability for acting or refraining to act in accordance with the directions of the Operating Committee, except to the extent caused by Operator's gross negligence, willful misconduct, fraud, willful violation of any Applicable Law, willful breach of this Agreement or the Ownership Agreement or other willful misconduct.

3.4 Dispatch. Operator shall use commercially reasonable efforts to comply with any applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement. Operator shall give the Operating Committee notice as soon as practicable of any inability of the Facility to make the requisite deliveries of energy, capacity or ancillary services and of Operator's plan to restore operation of the Facility. In the case of any interruption, curtailment or reduction in (i) supplies of fuel or (ii) acceptance of energy, capacity or ancillary services by the System Operator or in the case of any other dispatch constraint imposed on the Facility, Operator shall notify the Non-Operator Owner as soon as practicable. Upon removal of the constraint, Operator shall use its commercially reasonable efforts to restore the availability of the Facility for dispatch consistent with applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement.

3.5 Licenses and Permits.

3.5.1 General. Operator shall review all Applicable Laws containing or establishing compliance requirements in connection with the operation and maintenance and Decommissioning[4] of the Facility and shall use commercially reasonable efforts to obtain and maintain, for the benefit of both Owners, all Permits required by Applicable Law for the ownership, operation, maintenance and Decommissioning of the Facility and for Operator's performance of the Services, and shall (i) from time to time, notify the Operating Committee if Operator believes that a Permit is required by Applicable Law to be obtained by an Owner in its name in order to allow Operator to perform the Services and assist each Owner, at each Owner's written request and such Owner's sole cost and expense, in securing and complying with, as

[4] ~~Note to Purchaser: References to Decommissioning added given that the Owners may opt to decommission/provide for early retirement of the plant.~~

appropriate, all necessary Permits (and renewals of the same) which are required to be in an Owner's name, including those relating to air emissions, boiler operation, water usage, septic system operation, wastewater discharge, chemical and other waste (including Hazardous Materials) storage and disposal, emissions testing and safety, and (ii) initiate and maintain precautions and procedures reasonably necessary to comply with Applicable Laws. Any Permit held solely in the name of Operator shall, to the extent necessary for the other Owner's compliance with Applicable Law in its role as an Owner, be held by Operator for the benefit of both Owners. Any Permit held solely in the name of the Non-Operator Owner shall, to the extent necessary and consistent with Applicable Laws, be made available for the use of the Operator for the benefit of the Owners and, if reasonably necessary to facilitate Operator's operation and maintenance or Decommissioning of the Facility, the Non-Operator Owner shall cooperate with Operator to effect an assignment or other transfer of such Permit to Operator or otherwise submit such Permit modifications or updating information as necessary to reflect the role of Operator with respect to such Permit.

3.5.2 NERC Compliance. Operator (or an Affiliate thereof) shall register with NERC as the "Generator Owner" and "Generator Operator" for the Facility in accordance with 18 C.F.R. § 39.2(c) effective from and after [the Effective Date][52]. On and after [the Effective Date], Operator shall, or shall cause its applicable Affiliate to, (i) maintain compliance with all NERC reliability standards applicable to the Facility and all NERC rules applicable to Operator as Generator Owner and Generator Operator for the Facility in accordance with 18 C.F.R. § 39.2(b), including any actions related to mitigation and compliance enhancement required or implemented thereunder; (ii) provide notice to the Operating Committee promptly following the determination by Operator of any reportable physical or cyber security incident under the NERC reliability standards or other Applicable Law; (iii) maintain and provide documentation and maintenance records to the Operating Committee regarding any operation, testing, maintenance or faults of any generation protection relays, gen-tie relays or any other equipment necessary to fulfill Operator's or its applicable Affiliate's obligations as the Generator Owner or Generator Operator for the Facility; and (iv) provide to the Non-Operator Owner upon written request any other information, documentation and support reasonably necessary for Operator or its applicable Affiliate to demonstrate compliance with the NERC reliability standards. To the extent that any fine or sanction is imposed in respect of the performance of Operator's obligations under this Section 3.5.2 pursuant to Section 215(c) of the Federal Power Act, any cost related thereto shall be a included as an Operating Cost, to the extent permitted by Applicable Law.

3.6 Personnel Matters. Subject to Sections 8.5 and 8.6, and as otherwise set forth in this Section 3.6, Operator shall be responsible for determining the working hours, rates of compensation and all other matters relating to the employment of Operator's Facility Personnel, including the designation or appointment of the Plant Manager, in its reasonable judgment and in accordance with Non-Operator Owner's and its Affiliates' past practices in the ordinary course of its business during the time it served as operator of the Facility, and shall retain sole authority, control and responsibility with respect to its employment policies. Operator shall submit for the Operating Committee's approval the staffing requirements for the Facility on an annual basis. If Operator intends to select a new Plant Manager, or if the individual serving as Plant Manager

[52] **Note**: Subject to modification if registration cannot be effective as of the Effective Date.

ceases to be the Plant Manager, Operator shall provide prompt written notice to the Non-Operator Owner of the selection of a substitute Plant Manager. Facility Personnel shall be qualified and experienced in the duties to which they are assigned.[6] Operator shall, upon the reasonable written request of the Non-Operator Owner, for cause (as documented in reasonable detail in any such written request), use commercially reasonable efforts to, as promptly as practicable under the circumstances and subject to any applicable collective bargaining agreements, remove from the Site and the Facility workforce, the services of any employee or other individual, subject to Operator's confirmation that such cause exists.

3.7 No Liens or Encumbrances. Operator shall use commercially reasonable efforts to keep and maintain the Facility free and clear of all liens and Encumbrances resulting from the failure by Operator to perform the Services or the personal debts and obligations of Operator unrelated to its ownership interest in the Facility.

3.8 Emergency Action. In the event of an emergency affecting the safety, health or protection of, or otherwise endangering, any Person, property or the environment located at or about the Facility (an "Emergency"), Operator shall take prompt action in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate any imminent damage, injury or loss threatened by such Emergency, and shall notify the Non-Operator Owner of such Emergency and Operator's response as soon as practical under the circumstances and in no event later than forty-eight (48) business hours after Operator becomes aware of such event. To the extent Operator procures goods and services as necessary to respond to an Emergency, reasonable and documented out of pocket costs in respect thereof shall be treated as Operating Costs.

ARTICLE IV - OBLIGATIONS, RIGHTS AND REPRESENTATIVES OF EACH OWNER

4.1 General. Each Owner expressly reserves the exclusive authority to make, and shall make, such business and strategic decisions as it deems appropriate from time to time in reference to the operation and maintenance of the Facility in accordance with the Ownership Agreement. Upon request from Operator, the Non-Operator Owner shall promptly furnish or cause to be furnished to Operator, at the Non-Operator Owner's expense, the information, access, materials, instructions and other items described in this Article IV that are in the possession or control of the Non-Operator Owner and which are reasonably necessary for performance of the Services by Operator and not otherwise available to Operator. All such items will be made available at such times and in such manner as may be reasonably required for the expeditious and orderly performance of the Services by Operator.

4.2 Information. Subject to the Standards of Performance, Operator shall be entitled to rely upon any information provided by the Non-Operator Owner or any other party to the Facility Agreements in the performance of the Services.

[6] ~~Note to Purchaser: The scope of Operator's responsibility for personnel is set forth in detail in Articles X and XI.~~

4.3 Access to Facility. Each Owner shall provide Operator and Operator's contractors, vendors, suppliers, employees and agents and Facility Agreement counterparties, to the extent applicable, reasonable access to and use of the Facility and the Site and to such Owner's records and data at the Facility and, in the case of the Non-Operator Owner, reasonably available to the Non-Operator Owner or in the Non-Operator Owner's possession and reasonably necessary for the performance of Services by Operator under this Agreement.

4.4 Instructions, Approvals, etc. Each Owner shall provide or cause to be provided (including through action of the Operating Committee) to Operator all instructions Operator is required to obtain in accordance with this Agreement. Without limiting the provisions of Section 3.2.2, each Owner shall reasonably cooperate to make available or cause to be available to Operator the benefits of all assets (including Permits and contracts relating to the Facility) held in the name of such Owner, as reasonably required for the operation of the Facility. Each Owner shall not direct Operator to take any action inconsistent with Applicable Law or otherwise adversely affecting the safety, health or protection of any person, or property or the environment located at or about the Facility.

ARTICLE V - REPRESENTATIVES, BUDGETS AND REPORTS

5.1 Representatives of Operator. On or as soon as practical after the Effective Date, Operator shall appoint a Project Manager who shall be authorized to represent Operator with each Owner and the Operating Committee concerning Operator's performance of the Services. The Project Manager may be the same individual as the Plant Manager. Operator shall be responsible for all communications, directions, requests and decisions made by its Project Manager at its direction. Operator shall notify the Non-Operator Owner in writing upon the appointment of its Project Manager, and of any successors. The Project Manager has no authority to modify, amend or terminate this Agreement or, absent written notice by Operator to the contrary, to enter into any other agreement on behalf of Operator other than as provided herein.

5.2 Representatives of Owner; Operating Committee. The Operating Representative of each Owner (pursuant to and as defined in the Ownership Agreement) shall be authorized and empowered to act for and on behalf of such Owner on all matters requiring the consent, approval or other action of an Owner pursuant to this Agreement. Each Owner shall notify Operator and the other Operating Representative in writing upon the appointment of its Operating Representative, and of any successors. Any provision of this Agreement requiring the consent, approval, or similar act of the Operating Committee shall mean the consent, approval, or similar act of the Operating Committee acting in accordance with the terms of the Ownership Agreement.

5.3 Plans and Budgets.

5.3.1 Adoption.

5.3.1.1. Budgets. The initial Budget and Plan for the first Year following the Effective Date is attached as Appendix B hereto.[7] No later than ~~[~~ninety (90)~~]~~[8] days

[7] ~~**Note**: Initial budget and Plan to be attached on the Effective Date.~~

prior to each operating Year, Operator shall deliver to the Operating Committee for the Operating Committee's review, revision if applicable and approval (i) a proposed annual operating budget, (ii) any proposed amendments to the annual capital budget[9], (iii) an annual operating plan and (iv) a six (6) Year future forecast of operating and capital expenses. Each such proposed budget, plan and forecast shall contain such detail and supporting documentation as reasonably necessary or reasonably requested for the Operating Committee's review, and Operator shall provide all such additional information and supporting documentation as may be reasonably requested by the Operating Committee and as required by the Ownership Agreement. The Operating Committee shall review and provide modifications to each such proposed budget, plan and forecast and Operator shall cooperate to revise each such proposed budget and plan to receive the Operating Committee's approval of same by December 1 of each Year. Each Budget and Plan as approved by the Operating Committee or otherwise deemed implemented pursuant to the Ownership Agreement shall remain in effect in accordance with the Ownership Agreement. Operator and the Non-Operator Owner by mutual agreement[10] may modify the process and procedures set forth in this Section 5.3.1.

5.3.1.2. Amendments. If either the Non-Operator Owner or Operator becomes aware of facts or circumstances that it believes necessitate a change to a Budget or Plan, that Party shall promptly notify the other Party in writing, specifying the impact upon the Budget and the reasons for the change. The Project Manager shall then discuss appropriate amendments to the Budget with the Operating Committee.

5.3.1.3. Failure to Agree. Operator acknowledges that the Owners retain ultimate authority with respect to expenses incurred for the Facility. Accordingly, Operator shall accept each Budget as determined in accordance with the Ownership Agreement. To the extent that the Operating Committee limits funds for Operating Costs, Operator shall be relieved from performing only those specific Services that would result in the incurrence of such non-reimbursable Operating Costs.

5.3.2 Limitations on Variation from Budget. Except as otherwise permitted in response to an Emergency in accordance with Section 3.8, Operator shall obtain the Operating Committee's written approval (i) for any expenditures resulting in cumulative budget overruns exceeding ten percent (10%) in the aggregate in any Year with respect to either the operating Budget or capital expense Budget, or (ii) for any unbudgeted expenditure or capital project having a projected cost of more than $100,000.

~~[8] Note to Purchaser: Subject to further review by AEP. Timing for producing budgets would need to be generally consistent with AEP's overall budgeting processes for its utilities and generation resources.~~

~~[9] Note to Purchaser: The capital budget under the Ownership Agreement is a multi-year budget that persists over the term (as opposed annual operating budgets which are single-year budgets that need to be adopted annually).~~

~~[10] Note to Purchaser: Written amendments may require WVPSC regulatory approval, which would be burdensome for this type of procedural change that can be mutually agreed between the Owners.~~

5.4 Availability of Operating Data and Records. Operator shall deliver Facility data recorded, prepared or maintained by Operator to the Operating Committee: (i) as necessary or reasonably requested by an Owner to assist each Owner in complying with requirements of Governmental Authorities, Permits and Facility Agreements; or (ii) upon request by the Non-Operator Owner, in each case as soon as reasonably practicable but in any event within ten (10) Business Days following such request.

5.5 Litigation and Permit Lapses. Promptly upon obtaining actual knowledge thereof, either Party shall submit prompt written notice to the other Party of the following, to the extent relating to the Facility or the Services or agreements relating to either the Facility or the Services: (i) any litigation, Claims or actions filed, including by, against or with any Governmental Authority; (ii) any actual refusal to grant, renew or extend, or any action filed with respect to the granting, renewal or extension of, any Permit; (iii) all penalties or notices of violation issued or asserted by any Governmental Authority; (iv) any dispute with any Governmental Authority that may affect the Facility in any material respect; and (v) with respect to the matters identified in items (i), (ii), (iii) or (iv), any material threats of such matters. Upon Non-Operator Owner's request, Operator shall provide any documentation related to any of the foregoing.

5.6 Other Information. Operator shall promptly submit to the Non-Operator Owner any material information concerning new or significant aspects of the Facility operations and, upon the Non-Operator Owner's request, shall promptly submit any other information concerning the Facility or the Services.

5.7 Records Maintenance and Retention. Operator shall maintain all records, reports, documents and data, including all data retrievable from an electronic data storage source, for the Facility in accordance with Applicable Law and shall retain and preserve all such records, reports, documents and data created in connection with the operation and maintenance of the Facility, in accordance with Applicable Law, provided that Operator shall notify the Non-Operator Owner in writing at least sixty (60) days prior to the destruction or other disposition of any record, report, document or data. If the Non-Operator Owner gives written notice to Operator prior to the expiration of the 60-day period, Operator shall maintain custody of such material until the earlier of (i) such time as the Non-Operator Owner notifies Operator to dispose of such material and (ii) seven (7) Years. If the Non-Operator Owner does not provide written notice to Operator prior to the expiration of the 60- day period, Operator may destroy or dispose of such material and shall provide the Non-Operator Owner with a certificate confirming such destruction or disposition.

ARTICLE VI - LIMITATIONS ON AUTHORITY

6.1 Limitations on Authority. Operator has no authority to make policies or decisions with respect to the overall operation or maintenance of the Facility as a commercial enterprise pursuant to the terms of this Agreement. The Owners, acting through the Operating Committee and pursuant to the terms of the Ownership Agreement, shall determine all such matters. Notwithstanding any provision in this Agreement to the contrary, unless previously approved in a Budget and Plan or otherwise approved in writing by the Operating Committee, in connection with Operator's provision of Services hereunder, Operator is prohibited from doing any of the

following (and shall not permit any of its agents, Affiliates, or representatives to do any of the following):

6.1.1 Dispose of Assets. Selling, leasing, pledging, mortgaging, granting a security interest in, encumbering, conveying, or making any license, exchange or other transfer or disposition of all or any portion of the Facility, the Site or any other property or assets of the Owners, including any property or assets purchased by Operator, the cost of which is an Operating Cost;

6.1.2 Make Expenditures. Making any expenditure or acquiring, on an Operating Cost basis, any goods or services from third parties, except in conformity with a Budget or as otherwise permitted under Section 5.3.2 or as authorized by the Operating Committee; provided, however, that in the event of an Emergency, Operator, without approval from the Owners, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.3 Take Other Actions. Taking or agreeing to take any other action or actions the decision for which is reserved exclusively for the Operating Committee pursuant to the Ownership Agreement; provided, however, that in the event of an Emergency, Operator, without approval from the Operating Committee, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.4 Act Regarding Lawsuits and Settlements. Settling, compromising, assigning, pledging, transferring, releasing or consenting to the compromise, assignment, pledge, transfer or release of, any material Claim, suit, debt, demand or judgment against or due by any Owner or Operator, the cost of which would be an Operating Cost hereunder, or submitting any such Claim, dispute or controversy to arbitration or judicial process, or stipulating in respect thereof to a judgment, or consent to the same; provided, however, that such prohibition shall not apply to, nor shall it be construed as a release or waiver of, any of Operator's rights or obligations pursuant to this Agreement or any other agreement between the Parties; or

6.1.5 Pursue Transactions. Engaging in any other transaction on behalf of the any Owner that is not permitted under this Agreement.

ARTICLE VII - COMPENSATION AND PAYMENT

7.1 General. The Non-Operator Owner shall pay Operator, and WPCo shall bear directly in its capacity as an Owner, its allocated share in accordance with the Ownership Agreement of all Operating Costs, all as further described below.[11] All Operating Costs shall initially be paid for by Operator (except as otherwise provided in this Agreement) and subsequently invoiced monthly in arrears as more fully set forth in this Article VII.

[11] ~~Note to Purchaser: Ownership Agreement allocates certain costs (e.g. ELG Expenses) inconsistent with proportional share in accordance with Ownership Interest.~~

7.2 Costs.

7.2.1 Operating Costs. Subject to the Ownership Agreement and the limitations on expenditures set forth elsewhere in this Agreement (including Section 5.3), the Non-Operator Owner shall reimburse Operator for its allocated share in accordance with the Ownership Agreement of the ~~[~~fully ~~loaded]~~[12]distributed costs ~~to the extent~~ incurred (whether paid or accrued) in the provision of Services (which shall be allocated consistent with Non-Operator Owner's and its Affiliates past practices in the ordinary course of business during the time it served as operator of the Facility and in any event in accordance with the Cost Allocation Manual with respect to costs incurred by Affiliates of Operator), including for labor, goods, services, capital expenditures, overhead, cost of capital, Taxes (other than income or franchise taxes), Permits and bonds (the "Operating Costs"), in each case invoiced in a manner consistent with the example invoice worksheets attached hereto as Appendix C, which shall include such costs with respect to: (i) equipment, material, supplies and other consumables, spare parts, replacement components, tools, office equipment, computer equipment, software, information technology and supplies acquired for use at the Facility; (ii) fuel supply and transportation; (iii) costs associated with special training of Facility Personnel and associated travel and living expenses; (iv) amounts paid under subcontracts, purchase orders and agreements; (v) fees for Permits required to be held by Operator; (vi) community relations and labor relations activities; and (vii) Operator's cost of Facility Personnel (and the allocable portion of other employees of Operator and its Affiliates ~~reasonably~~ attributable to performing the Services) wages, salaries, overtime, employee bonus, customary or required severance payments, unemployment insurance, long-term disability insurance, short term disability payments, sick leave, payroll taxes imposed on wages and benefits, worker's compensation costs and holidays, vacations, group medical, dental and life insurance, defined contribution retirement plans and other employee benefits; (viii) costs of third-party advisors, consultants, attorneys, accountants and contractors retained and managed by Operator in support of, and ~~reasonably~~ allocable to, the Services; (ix) a reasonably allocable portion of the cost of the insurance maintained by Operator in accordance with Section 9.1 on account of its Operator role; (x) reasonable costs incurred in response to an Emergency; and (xi) any other activity that Operator is required or expressly requested in writing by the Owners to perform under this Agreement for the benefit of the Facility or that is approved in a Budget or by the Operating Committee pursuant to the terms of this Agreement. ~~13~~

7.2.2 Invoicing. On or before the twenty-fifth (25th) day of each calendar month during the Term, Operator shall submit invoices to the Non-Operator Owner in form and substance reasonably similar to that attached hereto as Appendix C for Operating Costs incurred during the preceding calendar month (as well as any such costs for any prior period that were not previously invoiced). If any contract or purchase order intended to be assigned, transferred or conveyed to Operator remains held by the Non-Operator Owner as described in Section 3.2.2 and the Non-Operator Owner directly pays costs thereunder for the benefit of the Owners, the invoice

~~[12] **Note to AEP**: Please provide a specific definition describing what is contemplated by "fully loaded."~~

submitted by Operator shall net WPCo's allocated share in accordance with the Ownership Agreement of any such costs paid by the Non-Operator Owner for the benefit of the Owners. The Non-Operator Owner shall make payment to Operator of its allocated share in accordance with the Ownership Agreement of the invoiced amount no later than the Due Date. ~~In the event any invoiced amounts are disputed by the Non-Operator Owner in good faith and such dispute is resolved (including if applicable in accordance with the procedures set forth in Section 14.7) in the favor of the Non-Operator Owner, then the Operator shall repay to the Non-Operator Owner such invoiced amount plus interest thereon accrued each day at the Late Payment Rate from payment by the Non-Operator Owner until such amount (plus accrued interest) is repaid in full to the Non-Operator Owner by the Operator.~~ For the avoidance of doubt, WPCo, in its capacity as an Owner, shall bear directly its allocated share in accordance with the Ownership Agreement of such Operating Costs.

7.3 Cost Audit. The Non-Operator Owner shall be entitled to conduct an audit, or to delegate a representative to audit, at its sole cost and expense and review of Operator's books and records with respect to all Operating Costs and performance of the Services together with any supporting documentation for a period of one (1) Year from and after the date of the audited payment. If, pursuant to such audit and review, it is agreed that any amount previously paid by Operator or by an Owner was not properly incurred as an Operating Cost or an adjustment of any such cost is required, Operator shall credit to the Non-Operator Owner or Operator, as applicable, its allocated share in accordance with the Ownership Agreement of such amount in the next succeeding invoice or promptly paid in cash if there shall not be further invoices issued.

7.4 Late Payment Rate. To the extent ~~an Owner or Operator~~a Party fails to pay any amount required to be paid under this Agreement by the Due Date, the unpaid amount shall accrue interest each day at the Late Payment Rate from the Due Date until such amount (plus accrued interest) is paid by the applicable Party in full. In the event any paid amounts are disputed by a Party in good faith and such dispute is resolved (including if applicable in accordance with the procedures set forth in Section 14.7) in the favor of such Party, then the applicable other Party shall repay to such Party such overpaid amount plus interest thereon accrued each day at the Late Payment Rate from payment by such Party until such amount (plus accrued interest) is repaid in full to such Party by the applicable other Party.

ARTICLE VIII - TERM

8.1 Term. The Term of this Agreement shall commence on the Effective Date and, subject to approval or acceptance of termination by FERC or other Governmental Authority to the extent required, shall end on the date of termination of the Ownership Agreement (the "Term"). Notwithstanding the foregoing, this Agreement and the Term is subject to earlier termination pursuant to Sections 8.2 and 8.3.

8.2 Termination by the Non-Operator Owner for Cause. The Non-Operator Owner shall be permitted to terminate this Agreement upon written notice to Operator if any of the following events occur: (i) the Bankruptcy of Operator; (ii) a payment default by Operator (other than a disputed payment) that Operator fails to cure within ten (10) Business Days after Operator has received written notice of such default; (iii) Operator incurs liability to the Owners equal to the liability limit set forth in Section 11.2 for any ~~Year~~two Years during the Term (provided that

written notice of termination must be delivered to Operator no later than ninety (90) days after the end of the second of such two Years), or (iv) a material default by Operator in the performance of its obligations under this Agreement, including any default that has, or is reasonably expected to have, a material adverse effect on the operations, maintenance or performance of the Facility and Operator has failed to cure such default within sixty (60) days of written notice of such failure; provided, that if it is not possible to cure such breach within sixty (60) days of receipt of such notice of failure, Operator (A) fails to commence to cure the breach within such sixty (60) day period, (B) thereafter fails to continue diligent efforts to complete the cure as soon as reasonably possible, or (C) fails to complete the cure within ninety (90) days of receipt of such notice of failure. In addition, Non-Operator Owner shall have the option to terminate this Agreement for convenience upon ninety (90) days written notice to Operator ~~from and~~delivered no later than ninety (90) days after ~~(or concurrent with)~~ the occurrence of any transfer, assignment, sale or other disposition (including any transfers, assignments, sales or other dispositions in connection with a foreclosure or an exercise of remedies by the Financing Parties) ~~by~~that results in WPCo ~~of its~~'s Ownership Interest ~~in the Facility to any Person which is not~~no longer being owned directly or indirectly by AEP or an Affiliate ~~of WPCo~~thereof, except in the case of an transfer, assignment ~~of this Agreement~~, sale or other disposition to a successor Operator that is a Qualified Replacement Operator in compliance with the terms of this Agreement and the Ownership Agreement.

8.3 Termination by Operator. Operator shall be permitted to terminate this Agreement upon written notice to the Non-Operator Owner if any of the following events occur: (i) a payment default by the Non-Operator Owner (other than a disputed payment) that is not cured within thirty (30) days after the Due Date for any invoice; (ii) the Bankruptcy of the Non-Operator Owner; or (ii) a default by the Non-Operator Owner of any other obligation under this Agreement that has a material adverse effect on Operator's ability to perform the Services and that the Non-Operator Owner has failed to cure or make substantial progress in the reasonable opinion of Operator toward curing within ninety (90) days of written notice by Operator to the Non-Operator Owner of such failure. As soon as practicable after all cost information is gathered following termination, Operator shall invoice the Non-Operator Owner for its allocated share in accordance with the Ownership Agreement for Services rendered by Operator through the termination date, including all Operating Costs incurred through the date of termination but not paid.

8.4 Transfer of Facility Custody. Upon expiration or termination of this Agreement, Operator shall leave at the Facility all documents and records, tools, supplies, spare parts, safety equipment, Manuals, and any other items furnished on an Operating Cost basis, all of which shall remain the property of the Owners without additional charge. Operator shall execute all documents and take all other reasonable steps as may be reasonably requested by the Non-Operator Owner to assign to and vest in a replacement provider of Services all of its pro-rata rights, benefits, interests and title in connection with any subcontracts Operator executed in its own name for the benefit of the Facility and the Owners.

8.5 Services Upon Termination.

8.5.1 Upon notice of termination of this Agreement by either Operator or the Non-Operator Owner, unless the Non-Operator Owner is then in payment default such that

Operator would have the right to terminate this Agreement pursuant to Section 8.3(i), the Non-Operator Owner shall have the right to specify a period of transition of no longer than nine (9) months (the "Termination Transition Period") during which Operator shall: (i) continue to provide Services at the Facility in accordance with this Agreement; (ii) cooperate with the Non-Operator Owner in planning and implementing a transition to any replacement provider of Services; (iii) use its commercially reasonable efforts to minimize disruption of Facility operations in connection with such transition activities; (iv) make all requisite regulatory filings as promptly upon commencement of the Termination Transition Period, subject to cooperation of the Parties; (v) transfer all Permits, licenses, registrations, approvals and contracts to the Non-Operator Owner or such replacement operator, in each case, as requested by the Non-Operator Owner; and (vi) take all actions incidental thereto and as reasonably requested by the Non-Operator Owner. The provisions of Article VII shall continue to apply during the Termination Transition Period. To facilitate employee transfer, Operator shall permit the replacement service provider and the Non-Operator Owner to interview such Facility Personnel for potential positions with such replacement operator in a manner and at times that do not interfere with Operator's responsibility to perform the Services. If Operator or one of its Affiliates continues to own a portion of the Facility, Operator shall, or shall cause its Affiliates to, reasonably cooperate to allow a successor operator to operate the Facility after the termination of this Agreement, including by granting access rights and executing other instruments as may be reasonably requested by the Non-Operator Owner and any replacement operator.

8.5.2 Any modifications to the ownership and operation of the Facility, including any termination of this Agreement, shall be subject to any required regulatory or administrative filings and approvals.

8.6 Plant Manager Replacement. Upon (i) commencement of the Termination Transition Period or (ii) the occurrence of any of the conditions described in Section 8.2, the Non-Operator Owner may designate a qualified individual with significant experience as a project manager or similar senior operating role in respect of the management and operation of large coal-fired generation facilities with similar operating characteristics as the Facility to replace the existing Plant Manager and who shall upon such appointment be the Plant Manager.

ARTICLE IX - INSURANCE

9.1 Operator Insurance Requirements.

9.1.1 Commencing with the performance of the Services hereunder, and continuing until the termination of this Agreement, Operator (and any tier subcontractors) shall maintain or cause to be maintained occurrence form (if written on a claims -made policy form, be maintained with a retroactive date that is prior to this Agreement Effective Date for a period of at least three (3) Years following the last Year in which such policy provides coverage under the terms of this Agreement) insurance policies as follows: (i) Workers' Compensation in accordance with the statutory requirements of the state in which the Services are performed and Employer's Liability Insurance of not less than one million Dollars ($1,000,000) each accident/employee/disease; (ii) Commercial General Liability Insurance having a limit of at least one million Dollars ($1,000,000) per occurrence/two million Dollars ($2,000,000) in the aggregate for contractual liability, personal injury, bodily injury to or death of Persons, and/or

loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) Years after completion), premises and operations liability and explosion, collapse, and underground hazard coverage; (iii) Commercial/Business Automobile Liability Insurance (including owned (if any), non-owned or hired autos) having a limit of at least one million Dollars ($1,000,000) each accident for bodily injury, death, property damage and contractual liability and no fellow employee exclusion; (iv) Umbrella/Excess Liability insurance with limits of at least twenty-four million Dollars ($24,000,000) per occurrence and follow form of the underlying Employer's Liability, Commercial General Liability and Auto Liability insurance, and provide at least the same scope of coverages thereunder; (v) coverage for sudden/accidental occurrences for bodily injury, property damage, environmental damage, cleanup costs and defense with a minimum of one million Dollars ($1,000,000) per occurrence; and (vi) "all-risk" or its equivalent property insurance providing coverage risks of physical damage to the Facility or Facility Equipment in an amount in accordance with Good Utility Practice.

9.1.2 Unless otherwise determined by the Operating Committee that the Operator should purchase capacity insurance on behalf of both Owners, Operator (including in its capacity as an Owner) and Non-Operator Owner may each procure individually, in proportion to their Ownership Interests, PJM Interconnection, L.L.C. capacity performance insurance on terms and conditions, and placed with insurance companies, reasonably acceptable to the Operator or such Owner, as applicable. Operator shall make such certifications relating to the operation, maintenance and condition of the Facility from time to time during the Term as may be reasonably necessary in connection with the procurement or maintenance of such insurance coverage by Operator and the Non-Operator Owner and any other insurance policies of either Owner that may relate to coverage pertaining to or affecting an Owner's Ownership Interest.

9.2 Form and Content. All insurance policies provided and maintained by Operator and each subcontractor shall: (i) except with respect to insurance policies issued by any "captive" insurer of Operator or its Affiliates[3], be underwritten by insurers that are rated A.M. Best "A-VII" or higher; (ii) specifically include the Non-Operator Owner and its directors, officers, employees, affiliates, subcontractors, and joint owners of any facilities as additional insureds for their liability arising out of the acts or omissions of Operator, including for completed operations, with respect to Operator's acts, omissions, services, products or operations, whether in whole or in part, excluding, however, for Workers' Compensation/Employer's Liability insurance, ~~[~~Pollution Legal Liability insurance,~~]~~[14] and "all-risk" property insurance; (iii) be endorsed to provide, where permitted by law, waiver of any rights of subrogation against an Owner and its directors, officers, employees, affiliates and subcontractors, and joint owners of any facilities; (iv) provide that such policies and additional insured provisions are primary with respect to the acts, omissions, services, products or operations of Operator or its subcontractors, to the extent of Operator's negligence, (v) contain standard separation of insured and severability of interest provisions except with respect to the limits of the insurer's liability; and (vii) not have any cross-liability exclusion, or any similar exclusion that excludes coverage for Claims brought by additional insureds under the policy against another insured under the policy; Any deductibles

[3] Note to Purchaser: AEP's captive insurer is not rated.

or retentions shall be the sole responsibility of Operator and its subcontractors. Evidence of such coverage shall be provided in the form of Operator's certificate of insurance furnished to the Non-Operator Owner prior to the Effective Date, upon any policy replacement or renewal and upon the Non-Operator Owner's request. Operator shall provide at least thirty (30) days' prior written notice to the Non-Operator Owner prior to cancellation of any policy (or ten (10) days' notice in the case of non-payment of premium).

ARTICLE X - INDEMNIFICATION

10.1 Operator Indemnification. Subject to the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner and its Affiliates, and their respective officers, directors, employees, managers, members, agents and representatives (collectively, the "Non-Operator Owner Indemnitees"), from and against, and no Non-Operator Owner Indemnitee shall be responsible for any and all Liabilities incurred, assessed, sustained or suffered by any Non-Operator Owner Indemnitee to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement~~ (provided that notwithstanding anything to the contrary, for all purposes of this Agreement, the failure to follow any express instructions of the Non-Operator Owner in connection with (i) the Ownership Agreement or (ii) the Compliance Agreement by and among American Electric Power Company, Inc., Kentucky Power Company, Wheeling Power Company and [BUYER] shall be deemed to be willful misconduct of the Operator under this Agreement)~~.[15] Any Liabilities paid by Operator pursuant to its indemnity obligation under this Section 10.1 shall in no event be considered Operating Costs hereunder.

10.2 Owner Indemnification. Subject to the limitations of liability in Section 11.1, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless Operator and its Affiliates, and their respective officers, directors, employees, agents and representatives (collectively, the "Operator Indemnitees"), from and against, and no Operator Indemnitee shall have responsibility for, any and all Liabilities to a third party incurred, assessed, sustained or suffered by or against any Operator Indemnitee arising from or relating to Operator's performance of the Services under this Agreement, except to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement; provided, however, that the Liabilities for which Non-Operator Owner is obligated to indemnify any Operator Indemnitees under this Section 10.2 shall not in any event include any Liabilities for which WPCo is obligated to indemnify Non-Operator Owner (and/or its Affiliates) in any agreement among the Owners (and/or their Affiliates) and AEP (and/or its Affiliates) pertaining to the allocation of emission limitations associated with the Facility.[4] For the avoidance of

~~[15] Note to Purchaser: This agreement needs to stand alone apart from the Nickel transaction. Each of the other agreements should be governed by their own terms.~~

[4] Note to Purchaser: Section 2.1 of the Compliance Agreement contains an indemnity by WPCo for exceedances of Mitchell emissions limitations caused by WPCo. We thought it made more sense to reference that indemnity (the reference is made generically since this agreement may be executed prior to the Compliance Agreement) rather than include an additional duplicative indemnity.

doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its proportionate share of Liabilities under this Section 10.2 in respect of its Ownership Interest.

10.3 Environmental Indemnification.

10.3.1 Owner Indemnity for Environmental Liabilities. Subject to the limitations of liability in Section 11.1, and without in any way limiting the provisions of Section 10.3.2, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless the Operator Indemnitees, from and against, and no Operator Indemnitees shall have responsibility for, any and all Liabilities, including all civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Operator Indemnitees, as applicable, as a result of or in connection with any matters governed by Environmental Laws directly or indirectly related to or arising out of (i) the design, permitting or construction of the Facility or the condition of the Site, and any adjacent parcels; (ii) the operation, maintenance, ownership, control or use of the Facility or otherwise related to the Facility; and (iii) the offsite transportation, treatment or disposal of all wastes generated at the Facility and any properties included within or adjacent to the Site, whether occurring before or after the Effective Date (collectively, "Environmental Liabilities"), including any Environmental Liabilities arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials, but excluding Operator Environmental Liabilities; provided, however, that the Environmental Liabilities for which any Owner is obligated to indemnify any Operator Indemnitees under this Section 10.3.1 shall not in any event include any Operator Environmental Liabilities for which Operator is liable under Section 10.3.2. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear its proportionate share of Environmental Liabilities under this Section 10.3.2 in respect of its Ownership Interest.

10.3.2 Operator Indemnity for Environmental Liabilities. Subject to the provisions of Section 10.1 and the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner Indemnitees from and against, and no Non-Operator Owner Indemnitee shall be responsible hereunder for any Liabilities, including any civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Person as a result of or in connection with any breach or violation of or any other matters governed by Environmental Laws to the extent caused by the gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law or willful breach of this Agreement by Operator or arising out of the existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials brought on Site by Operator or its Affiliates or agents on or after the Effective Date (the "Operator Environmental Liabilities"). Operator understands and agrees that any Operator Environmental Liabilities paid by Operator pursuant to this Section 10.3.2 shall not be Operating Costs hereunder.

10.3.3 Governmental Actions. During the Term, Operator shall use commercially reasonable efforts to cooperate with and assist the Owners with their acquisition of data and information, and preparation and filing with appropriate Governmental Authorities of any notices, plans, submissions, or other materials and information necessary for compliance by

the Owners with applicable Environmental Laws and the requirements of any Permits related to the Facility. All such environmental reports shall be submitted by, and in the names of, both Owners. All reasonable and documented costs associated therewith, including the reasonable costs of any outside consultants, legal services, Governmental Authority charges, sampling and remedial work shall be paid by the Owners as an Operating Cost, and the Non-Operator Owner shall reimburse WPCo to the extent of the Non-Operator Owner's pro rata share, unless such costs are incurred arising out of or associated with Operator Environmental Liabilities that are subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof. Nothing contained herein shall be construed as requiring Operator to take any corrective action with respect to Environmental Liabilities unless (x) affirmatively and expressly directed in writing to so do by the Operating Committee and appropriate funding is made available, or (y) affirmatively and expressly directed to do so by a Governmental Authority, in order to comply with any Environmental Law, in which case the cost of any corrective actions so undertaken shall be deemed an Environmental Liability subject to Section 10.3.1 hereof (if not otherwise reimbursed as an Operating Cost hereunder), unless such Environmental Liability arises out of or is associated with Operator Environmental Liabilities subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof.

ARTICLE XI - LIABILITIES OF THE PARTIES

11.1 Limitations of Liability. Notwithstanding any provision in this Agreement that may be susceptible to contrary interpretation, neither the Parties nor any Non-Operator Owner Indemnitees or Operator Indemnitees shall be liable for consequential or indirect loss or damage, including loss of profit, cost of capital, loss of goodwill, increased Operating Costs, or any special or incidental damages; provided, however, that notwithstanding the foregoing, in no event will the foregoing limitations of liability be applied to limit the extent of the liability of either Party to the other for or with respect to any Claims of third parties or to the extent arising from gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement. The Parties further agree that the waivers and disclaimers of liability, indemnities, releases from liability and limitations of liability expressed in this Agreement shall survive termination or expiration of this Agreement, and shall apply in all circumstances, whether in contract, equity, tort or otherwise, regardless of the fault, negligence (in whole or in part), strict liability, breach of contract or breach of warranty of the Party indemnified, released or whose liabilities are limited, and shall extend to the Non-Operator Owner Indemnitees and Operator Indemnitees.

11.2 Operator's Total Aggregate Liability. Except to the extent that a Non-Operator Owner Indemnitee suffers Liabilities that are caused by, result from or arise out of Operator's or its Affiliates' breach of Article XIII or its gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement, or willful misconduct (including in connection with any Services), the total liability of Operator to the Non-Operating Owner for all Liabilities arising out of, connected with or resulting from any events occurring or claims made in connection with this Agreement, whether based in contract, warranty, tort, strict liability or otherwise, shall not exceed, in the aggregate, the sum of (i) an amount equal to twenty-five percent (25%) of the Operating Costs, but excluding Operating Costs relating to any services, goods, inventory and equipment provided hereunder by third parties other than Operator's Affiliates, incurred pursuant to this Agreement in the prior twelve (12) month period, *plus* (ii) the

Non-Operating Owner's fifty percent (50%) share of any insurance proceeds actually received by the Operator or paid on the Operator's behalf with respect to the relevant loss or damages under the insurance policies procured by the Operator pursuant to Section 9.1.

11.3 No Warranties or Guarantees.

11.3.1 EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES OR GUARANTEES TO THE OTHER, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SUBJECT MATTER OF THIS AGREEMENT, AND BOTH PARTIES DISCLAIM AND WAIVE ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT.

11.3.2 OPERATOR IS ACTING AS AGENT OR OTHERWISE AS A RESELLER WITH RESPECT TO ALL SERVICES, GOODS, INVENTORY AND EQUIPMENT PROVIDED HEREUNDER BY THIRD PARTIES OTHER THAN OPERATOR'S AFFILIATES, AND, AS SUCH, DOES NOT PROVIDE ANY WARRANTY FOR SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT PROVIDED HEREUNDER. ALL SUCH THIRD PARTY SERVICES, GOODS, INVENTORY AND EQUIPMENT ARE PROVIDED AS IS, WHERE IS, WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT UNLESS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES. THE SOLE REMEDY IN CONNECTION WITH ANY DEFECTS IN OR FAILURES OF SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT (WHETHER A CLAIM FOR SUCH DEFECT ARISES UNDER CONTRACT, TORT, STRICT LIABILITY, STATUTE, OR ANY OTHER LEGAL OR EQUITABLE THEORY OR PRINCIPLE INCLUDING NEGLIGENCE) SHALL BE TO SEEK RECOURSE EXCLUSIVELY FROM THE COUNTERPARTIES TO THE THIRD PARTY CONTRACTS, UNLESS THE DEFECT OR FAILURE WAS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES.

ARTICLE XII - CONFIDENTIALITY

12.1 General. During the Term, and for the later of three (3) Years after the termination of this Agreement or five (5) Years after receipt of the applicable Confidential Information, each Party shall hold in confidence any Confidential Information supplied by or on behalf of the other Party. Each receiving Party further agrees to require its contractors, vendors, suppliers and employees, agents or prospective purchasers to preserve the confidentiality of Confidential Information. The receiving Party may make necessary disclosures to third parties

directly engaged in the operation, ownership or financing of the Facility if such third parties are under an obligation to receive and hold such Confidential Information in confidence.

12.2 Exceptions. The provisions of this Article XII do not apply to information within one or more of the following categories:

12.2.1 Public Domain. Information that was in the public domain prior to the receiving Party's receipt or that subsequently becomes part of the public domain by publication or otherwise, except by the receiving Party's or its Affiliate's wrongful act.

12.2.2 Prior Receipt. Information that the receiving Party can demonstrate was in its possession prior to receipt thereof from the disclosing Party so long as such possession did not result from a violation of a confidentiality obligation.

12.2.3 Third Party Delivery. Information received from a third party having no obligation of secrecy with respect thereto.

12.2.4 Permitted Disclosures. Information disclosed by an Owner to Lenders or prospective Lenders, equity investors or prospective equity investors, prospective purchasers, consultants, attorneys, accountants and other designated agents in each case on a confidential, need-to-know-basis.

12.2.5 Regulatory Filings. Information required to be disclosed by an Owner in connection with any required regulatory or administrative filings.

12.3 Required Disclosure. Notwithstanding the forgoing, any receiving Party required by law, rule, regulation, subpoena or order, or in the course of regulatory, administrative or judicial proceedings, to disclose Confidential Information that is otherwise required to be maintained in confidence pursuant to this Article XII, may make disclosure notwithstanding the provisions of this Article XII. Prior to doing so, the receiving Party, promptly upon learning of the requirement, shall notify the disclosing Party of the requirement and cooperate to the maximum extent practicable to minimize the disclosure of Confidential Information. Any receiving Party disclosing Confidential Information pursuant to this Section 12.3 shall use commercially reasonable efforts, at the disclosing Party's cost, to obtain proprietary or confidential treatment of Confidential Information by the third party to whom the information will be disclosed, and to the extent such remedies are available, shall use commercially reasonable efforts to seek protective orders limiting the dissemination and use of Confidential Information. Nothing in this Agreement is intended to prevent the disclosing Party from appearing in any proceedings and objecting to the disclosure.

ARTICLE XIII - TITLE, DOCUMENTS AND DATA

13.1 Materials and Equipment. Operator shall use commercially reasonable efforts to cause title to all materials, equipment, supplies, consumables, spare parts and other items purchased or obtained by Operator on an Operating Cost basis ("Facility Equipment") to pass directly from the vendor or supplier to, and vest in, each Owner to the extent of such Owner's

Ownership Interest. Operator shall have no title or other claim to such items other than in its capacity as an Owner of the Facility.

13.2 Documents. All Manuals, operational data, Facility drawings, Operator reports and records and other materials and documents (both paper and electronic) created by Operator, its Affiliates or their respective employees, representatives or contractors in connection with performance of the Services are the property of each Owner to the extent of its Ownership Interest in the Facility. All such materials and documents shall be available for review by the Non-Operator Owner at all reasonable times during development and promptly upon completion. All such materials and documents required to be submitted for the approval of the Operating Committee shall be prepared and processed in accordance with the requirements and specifications set forth herein. However, the Operating Committee's approval of materials and documents submitted by Operator shall not relieve Operator of its responsibility to perform it obligations under this Agreement.

13.3 Proprietary Information. Where materials or documents prepared or developed by Operator or its Affiliates, or their respective employees, representatives or contractors, contain proprietary or technical information, systems, techniques or know-how previously developed by them or acquired by them from third parties (the "Operator Proprietary Information"), the Non-Operator Owner shall have an irrevocable license to use such Operator Proprietary Information to the extent necessary for the operation or maintenance of the Facility at no additional cost to the Non-Operator Owner.

ARTICLE XIV - MISCELLANEOUS PROVISIONS

14.1 Assignment. This Agreement shall not be assignable, in whole or in part, by a Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed, except that this Agreement may be (i) collaterally assigned by an Owner without such consent to a Lender in connection with such Lender's financing of such Owner's Ownership Interest and (ii) assigned by an Owner (in whole but not in part) without such consent to the transferee of its Ownership Interest, whether by merger, division, sale of equity interest, or otherwise, in each case, solely to the extent that such transfer of its Ownership Interest is in accordance with the Ownership Agreement. Any assignment pursuant to this Section 14.1 shall not relieve the assigning Party of any of its obligations under this Agreement that arose prior to the date of such assignment. This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties.

14.2 Effect of Bankruptcy. The Parties intend that, in the event of a Bankruptcy, payments required under this Agreement shall be deemed to be administrative expenses as defined in 11 U.S.C. §503.

14.3 Access. The Non-Operator Owner and Lenders and their agents and representatives shall have access to the Facility, all Facility operations and any documents, materials and records and accounts relating to the Facility operations for purposes of inspection and review. Upon the request of the Non-Operator Owner and its agents and representatives, Operator shall provide such Persons with access to all data and logs Operator maintains regarding the Facility. During any inspection or review of the Facility, the Non-Operator Owner

and Lenders and their agents and representatives shall comply with all of Operator's safety and security procedures, and shall conduct inspections and reviews in such a manner as to cause minimum interference with Operator's activities. Operator also shall cooperate with the Non-Operator Owner in allowing its agents and representatives access to the Facility.

14.4 Subcontractors; Subagents.

14.4.1 Operator shall have the right to hire third-party subcontractors or to acquire rights from third parties to provide all or part of any Services hereunder without the prior consent of the Operating Committee. The cost of such third-party Services or acquisition of such rights shall be Operating Costs in accordance with Section 7.2.1. Operator, for the benefit of the Owners, shall use commercially reasonable efforts to obtain from all subcontractors and suppliers, including any subcontractors and suppliers who are Affiliates of Operator, customary guarantees and warranties to the extent available with respect to the equipment, goods, services or other work provided or performed by such subcontractor and supplier. Notwithstanding the foregoing or anything to the contrary, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned or delayed, procure or enter into any agreement with any third-party subcontractor with respect to the Services with a cost included in the Operating Costs in excess of $500,000 in any Year. Each agreement with a third-party subcontractor shall reflect costs that are on an arm's-length basis and no greater in any material respect than Operator could reasonably provide on Operator's own (or through its Affiliates) without material hardship.

14.4.2 Operator may delegate any obligations hereunder to one or more Affiliates, or designate one or more Affiliates as subagents for the performance of its obligations, and, to the extent such Affiliate performs or acts as subagent with respect to any obligation of Operator hereunder, such Affiliate shall enjoy the rights and benefits of Operator pursuant to this Agreement (including, for the avoidance of doubt, Article X and Article XI hereof). Notwithstanding the foregoing, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned, or delayed, procure or enter into any agreement with any of its Affiliates (other than for Facility Personnel to perform the Services) (i) with a committed value in excess of $500,000 or (ii) that may not be cancelled by or at the request of Non-Operator Owner upon no more than ninety (90) days' notice without penalty. Each agreement with an Affiliate of Operator, other than for Facility Personnel to perform the Services, shall reflect costs that are no greater in any material respect than Operator could obtain on an arm's-length basis with a bona fide third party at such time. Notwithstanding anything to the contrary in this Agreement, Operator shall be permitted to delegate any of its rights, duties and obligations under this Agreement and the Ownership Agreement to AEPSC without the consent of Non-Operator Owner, ~~but without relieving Operator of any of its obligations hereunder~~subject to Section 14.4.3.[16]

14.4.3 If one or more Affiliates perform Services as subagents or subcontractors hereunder, Service Provider shall remain liable for such Affiliate's obligations hereunder and for

[16] ~~**Note to AEP**: To discuss rationale for this and whether any such delegation is contemplated.~~

any breach by such Affiliate of the terms of this Agreement (to the same extent as if such breach was committed by Service Provider).

14.5 Not for Benefit of Third Parties. Except where a contrary intention is expressly stated, this Agreement and each provision hereof are for the exclusive benefit of the Parties that executed this Agreement and not for the benefit of any third party.

14.6 Force Majeure.

14.6.1 Events Constituting Force Majeure. A "Force Majeure Event" is any event ~~described below~~ that (i) restricts or prevents performance under this Agreement, (ii) is not within the reasonable control of the Party affected or caused by the fault or negligence of the affected Party and (iii) cannot be overcome or avoided by the exercise of due care. Force Majeure Events ~~comprise~~include the following, so long as in each case the requirements of the foregoing clauses (i), (ii) and (iii) are satisfied, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, tornado or other unusually severe storm or environmental conditions, epidemic, war (whether declared or undeclared), terrorism (whether domestic or foreign, state-sponsored or otherwise), revolution, insurrection, riot, civil disturbances, protests, sabotage (but not including any sabotage involving personnel of Operator), work stoppages (i.e., strikes) (but not including any work stoppages or strikes involving any personnel of Operator, whether on-site or off-site), accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Facility, other acts or omissions of any Governmental Authority, including any form of compulsory government acquisition or condemnation of all or part of the Facility (including a "taking"), restraint by court order, changes in Applicable Law that affect performance under this Agreement, other acts of Governmental Authorities including in response to any of the foregoing. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default in respect to any obligation if and to the extent that performance of such obligation is prevented by a Force Majeure Event. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations.

14.6.2 Notice. If a Party's ability to perform its obligations under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event, its cause, its anticipated duration and any action being taken to avoid or minimize its effect and confirm the same in writing within three (3) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) work diligently to remove the cause of the Force Majeure Event or to lessen its effect.

14.6.3 Scope. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than necessary. The excused Party shall use its reasonable best efforts to remedy its inability to perform.

14.7 Dispute Resolution. Any and all disputes shall be resolved pursuant to the dispute resolution procedures set forth in the Ownership Agreement.

14.8 Amendments. No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Parties.

14.9 Survival. Notwithstanding any provisions to the contrary, the obligations set forth in Article VII and Article VIII, Article X, Article XI and Article XII, Article XIV the limitations on liabilities set forth in Article XI will survive, in full force, the expiration or termination of this Agreement.

14.10 No Waiver. No delay, waiver or omission by the Non-Operator Owner or Operator to exercise any right or power arising from any breach or default by the Non-Operator Owner or Operator with respect to any of the terms, provisions or covenants of this Agreement shall be construed to be a waiver by the Non-Operator Owner or Operator of any subsequent breach or default of the same or other terms, provisions or covenants on the part of the Non-Operator Owner or Operator.

14.11 Notices. Any written notice required or permitted under this Agreement shall be deemed to have been duly given on the date of receipt, and shall be either delivered personally to the Party to whom notice is given, or mailed to the Party to whom notice is to be given, by facsimile, courier service or first-class registered or certified mail, return receipt requested, postage prepaid, and addressed to the addressee at the address indicated below, or at the most recent address specified by written notice given in the manner provided in this Section 14.11:

If to Operator:

14.12 Representations and Warranties. Each Party represents and warrants to the other Party that, as of the date hereof:

14.12.1 Existence. It is duly organized and validly existing under the laws of the state of its organization and has all requisite power and authority to own its property and assets and conduct its business as presently conducted or proposed to be conducted under this Agreement.

14.12.2 Authority. It has the power and authority to execute and deliver this Agreement, to consummate the transactions contemplated hereby and to perform its obligations hereunder.

14.12.3 Validity. It has taken all necessary action to authorize its execution, delivery and performance of this Agreement, and this Agreement constitutes the valid, legal and binding obligation of such Party enforceable against it in accordance with its terms, except as such enforcement may be limited by Bankruptcy, insolvency, moratorium or similar laws affecting the rights of creditors or by general equitable principles (whether considered in a proceeding in equity or at law).

14.12.4 No Conflict. Neither the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, nor the fulfillment of the terms and conditions hereof, conflicts with or violates any provision of its constituting documents.

14.12.5 No Consent. No consent or approval (including any Permit that such warranting Party is required to obtain) is required from any third party (including any Governmental Authority) for either the valid execution and delivery of this Agreement, or the performance by such Party of its obligations under this Agreement, except such as have been duly obtained or will be obtained in the ordinary course of business.

14.12.6 No Breach. None of the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, or the fulfillment of the terms and conditions hereof either conflicts with, violates or results in a breach in any material respect of, any Applicable Law currently in effect, or conflicts with, violates or results in a breach of, or constitutes a default under or results in the imposition or creation of, any lien or Encumbrance under any material agreement or instrument to which it is a party or by which it or any of its properties or assets are bound.

14.12.7 No Material Claims. It is not a party to any legal, administrative, arbitral or other proceeding, investigation or controversy pending or threatened that would adversely affect such Party's ability to perform its obligations under this Agreement.

14.13 Additional Representation and Warranty by Operator. Operator further represents and warrants to the Non-Operator Owner that it has, or has obtained through the retention of a qualified operations and maintenance service provider, substantial expertise and experience in the operation and maintenance of comparable power generation facilities and it, or its applicable subcontractor, is fully qualified to provide such services at the Facility in accordance with the terms of this Agreement.

14.14 Counterparts. The Parties may execute this Agreement in counterparts that, when signed by each of the Parties, constitute one and the same instrument. Thereafter, each counterpart shall be deemed an original instrument as against any Party who has signed it. Delivery of an executed counterpart of this Agreement by facsimile or electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

14.15 Governing Law; Venue; Waiver of Jury Trial. The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of New York, exclusive of the conflicts of law provisions thereof that would require the application of the laws of a different jurisdiction. Each Party hereby agrees that any Action arising out of or relating to this Agreement brought by a Party(or any of their respective successors or assigns) shall be brought and determined in any state or federal court sitting in the State of New York, within the Borough of Manhattan, City of New York, and the Parties hereby irrevocably submit to the exclusive jurisdiction of the aforesaid courts for themselves and with respect to their property, generally and unconditionally, with regard to any such Action arising out of or relating to this Agreement and the transactions contemplated hereby, and the appellate courts from any thereof in connection with any action arising out of or relating to this Agreement or any other agreement related to the Facility or any Facility asset and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or that such action was brought in an inconvenient court. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

14.16 Interpretation. Titles or captions contained in this Agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, describe or otherwise affect the scope or meaning of this Agreement or the intent of any provision hereof. All exhibits and appendices attached hereto are considered a part hereof as though fully set forth herein. This Agreement was jointly drafted and negotiated by the Parties. In the event of a dispute, this Agreement shall not be construed against either Party based upon its drafting.

14.17 Severability. If any provision of this Agreement, or the application of any such provision to any Person or circumstance, is held invalid by any court or other forum of competent jurisdiction, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those as to which it is held invalid, shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner materially adverse to a Party. Upon any such determination of invalidity, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that this Agreement is consummated as originally contemplated to the greatest extent possible.

14.18 Cooperation in Financing. Operator shall execute and deliver any customary and reasonable agreement and consent to assignment, together with an opinion of counsel at Non-Operator Owner's expense, as may be reasonably requested by Non-Operator Owner in connection with any financing of the Facility. Operator shall promptly respond to reasonable requests, including requests for management presentations, by Non-Operator Owner and any of its Lenders or their representatives, in each case at Non-Operator Owner’s sole cost and expense, for information regarding the Operator and its performance of its duties hereunder and the operation, maintenance and administration of the Facility. Operator agrees to use commercially reasonable efforts to cooperate with any of Non-Operator Owner’s Lenders and their representatives and to provide such Lenders and representatives with reasonable access to and

tours of the Facility (including review of documents, materials, records and accounts), in each case at Non-Operator Owner's sole cost and expense.

[*Signature page follows.*]

IN WITNESS WHEREOF, the Parties have executed this Agreement through their duly authorized officers as of the date set forth in the preamble to this Agreement.

APPENDIX A – SCOPE OF SERVICES[17]

Routine Services	Provide operational services as reasonably necessary for electrical power generation.
Detailed Programs	Implement Operator human resources program. Implement Operator-drafted, Owner-approved programs in safety, administration, maintenance, and training. Implement Facility's existing programs in operating, maintenance, chemistry, NERC and environmental compliance (or, at the Operating Committee's request, develop or enhance such programs at actual cost and implement). Ensure compliance with NERC requirements, Environmental Law, Applicable Law, and all Permits.
Routine Maintenance	Perform routine and preventive maintenance actions on all Facility systems and equipment in accordance with vendor instructions and the maintenance plan for the Facility. This program includes: **Service Checks** – Conduct visual equipment inspections and log significant parameters such as pressures, temperatures, and flow rates. Trend and analyze this information as appropriate. **Routine and Fixed Interval Maintenance** –Identify preventive maintenance requirements. Schedule and assign routine maintenance during Facility operation, planned outages, and forced or unscheduled outages.
Predictive Maintenance Program	As appropriate, conduct/oversee predictive maintenance within the cost-effective capability of the Facility Personnel. For those maintenance requirements that are not cost-effective for the Facility Personnel, oversee predictive maintenance services provided by vendors.
Major Maintenance and Repairs	In coordination with and support of the Facility Agreements and generation plan, arrange for scheduled inspections and overhauls on major equipment. Retain vendors for the benefit of the Owners for unscheduled major repairs as required and manage and oversee repairs and modifications.
Capital Improvements	Conduct/oversee all capital improvements. As appropriate, retain vendors for the benefit of the Owners to design, construct and implement capital improvements.
Facility Outages	Use commercially reasonable efforts to manage all Facility outages (planned, unscheduled, forced) to optimize outage duration and

[17] ~~NTD: Services scope to be discussed/confirmed in the context of anticipated operational needs and current scope of services.~~

	impact on production: **Task Assignment** – Identify and schedule all maintenance that requires a Facility outage or equipment to be taken out of service. **Work Schedule –** Develop and implement a schedule to track material outage preparations, work and testing, including corrective maintenance actions, contractor work and scheduled preventive maintenance. Conduct preparations to support this plan, including ordering and receiving required spare parts.
Assistance to the Non-Operator Owner and Operating Committee	Provide assistance to the Non-Operator Owner and the Operating Committee, as reasonably requested with the execution of the Non-Operator Owner's and the Operating committee's duties relative to operation of the Facility.
Facility Administration	Conduct administration to meet Operator requirements and Owners' goals, including: **Budgets** – Prepare annual Budgets and submit them for Operating Committee approval in accordance with the Ownership Agreement and this Agreement. Following approval, manage operations and expenditures to comply with each Budget. Generate budget variance reports, as required. **Procurement** – Establish and implement a purchasing system. Procure, for the benefit of the Owners, including negotiations and contracting, for all materials, equipment, chemicals, supplies, services, parts, and other miscellaneous items required for the provision of the Services. Pay all invoices in a timely manner. Provide credit support as required by third parties for the operation of the Facility, including contract counterparties and Governmental Authorities. Minimize Owner costs as much as feasible. **Inventory Control** – Implement a cost-effective inventory control system designed to ensure that spare parts, materials, and supplies are properly stored and accounted for and that adequate supplies are available at all times to support the provision of the Services. **Personnel Matters** – In compliance with Operator programs and policies, manage all payroll and employee relations, labor relations, and independent contractor issues, as required. These tasks include: employment; compensation and benefits; initial training; and employee and independent contractor relations. Provide reasonable support to recruit, hire, transfer, or otherwise acquire and retain qualified Facility Personnel to maintain the staffing levels and skill mix required for successful long-term provision of the Services. **Community Relations** – In coordination with and with the approval

	of the Operating Committee, conduct a community relations program to establish the Facility and its employees as "good citizens" in the local community. **Regulatory** – Perform all duties set forth in Section 7.8 of the Ownership Agreement with respect to Emission Allowances (as defined therein).
Work Assignment	Assign work to either Facility Personnel or vendors as cost-effective and appropriate based on overall guidance from the Operating Committee. Normally, Facility Personnel conduct preventive maintenance and actions requiring a high degree of Facility knowledge and vendors perform tasks needing equipment or expertise that are not cost-effective to maintain at the Facility. Vendors also perform tasks that make sense to minimize outage time and costs.
Buildings and Grounds	Arrange for janitorial, garbage pickup and landscape services and maintain all access roads, office buildings, and other structures in reasonable repair.
Reports	Prepare and submit operation and maintenance service reports as requested relative to performance, including environmental compliance records, maintenance and repair status, Facility operating data, and any other information reasonably requested by the Operating Committee or the Non-Operator Owner.
Security	Implement or arrange for implementation of security measures in accordance with the Operating Committee-approved Facility security plan.
Safety	Continue to implement Corporate and Plant Level Safety Programs including on-site visits and discussions at the facility.
PJM Capacity Analysis	Analysis and plant level information to PJM as part of PJM's FRR or RPM Capacity Market requirements
Information Systems	Manage the Facility's information technology infrastructure, including phone systems, internet connectivity, hardware and software. Implement or arrange for implementation of cybersecurity policies and procedures in compliance with NERC requirements and Applicable Law, in accordance with the Operating Committee-approved Facility cybersecurity plan.
Training Program	Implement a continuing program of training designed to orient new Facility Personnel, refresh/cross-train existing Facility Personnel, qualify/re-qualify Facility Personnel, and keep all Facility Personnel aware of Operating Committee -approved Facility safety requirements and emergency procedures. This program includes specialty skills training.

Drawing/Manual Maintenance	Maintain the Facility library and update the Manuals and vendor service manuals. Update (or arrange for updating) Facility drawings to reflect changes to the as-built configuration. In addition to document management, maintain physical Facility configuration control.
Fuel Purchasing and Handling	• Procure coal, reagents, fuel oil supply or transportation service agreements as needed to operate the Facility and establish and maintain reserves of coal in common stock piles of such quality and in such quantities as the Operating Committee shall determine • Contract administration for Fuel supply contracts along with legal review. • Third Party Settlements of fuel related supply and inventory tracking in ComTrac system • Joint Books Accounting to prepare information for billing among co-owners per agreement • Analysis of fuel related costs for data requests from regulatory bodies or joint owner • Provide fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by the Facility during each month. • Receive coal and provide fuel handling • Fuel coordinator functions to review fuel quality with third party suppliers at coal or limestone facilities. • Administer and reconcile volumes of all fuel with suppliers • Administer and comply with the requirements set forth in the Facility's fuel agreements, including quality testing and invoice review and approval • Administer and comply with the requirements set forth in the Facility's coal ash, gypsum and combustion byproduct disposal and sales agreements, including invoice review and approval
Day Ahead and Real Time Market Operations	• Unit Generation Dispatch – Monitor signals and take direction from PJM for generating units. Relay these directions, commitments and settings to the Unit Operators and Controls.

	Relay information on real time unit conditions to Transmission Owner (TO) and PJM. • GADS Reporting – Create GADS events as they are scheduled or occur. Submit monthly event reporting as required by NERC and PJM. • Outage Support and Communications to PJM – Relay outage/curtailment information from plant personnel to PJM. Schedule maintenance and planned outages/curtailments, and maintain updates as they arise. • Unit Characteristic Updates to PJM – Provide any relevant configuration updates related to generating units to PJM that may occur. • Telemetry – Maintain current real time telemetry to/from the plant, PJM and Market Operations control center.
Administration of Contracts	• Administer, perform and enforce all contractual obligations and arrangements, including all warranties applicable thereto, entered into by Operator for the benefit of the Owners with respect to the Facility • Act as agent on behalf of the Non-Operating Owner with respect to the administration, performance and enforcement of any contracts or purchase orders (including fuel supply or transportation contracts) with respect to the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date
Insurance	• Procure on behalf of each Owner such property and other insurance policies as required by the insurance program established by the Operating Committee in accordance with the Ownership Agreement.
Decommissioning	• Manage and contract with vendors and other parties to perform Decommissioning Work. This includes the management of required regulatory filings, permitting, engineering assessments, and the contracting for demolition and or liability transfers. Upon mutual agreement between Operator and the Operating Committee, Operator may conduct all or a portion of the Facility and/or Site Decommissioning from its and its Affiliates resources.

MITCHELL PLANT OPERATIONS AND MAINTENANCE AGREEMENT

This OPERATIONS AND MAINTENANCE AGREEMENT (this "Agreement"), dated as of [_____] (the "Effective Date"), is entered by and between WHEELING POWER COMPANY, a West Virginia corporation (in its capacity as the operator of the Facility, "Operator" and in its capacity as an owner of the Facility, "WPCo") and KENTUCKY POWER COMPANY, a Kentucky corporation qualified as a foreign corporation in West Virginia (in its capacity as an owner of the Facility, the "Non-Operator Owner" and, together with WPCo, each an "Owner" and, together, the "Owners").

RECITALS

1. Owners each own an undivided Ownership Interest in the Facility (these and other capitalized terms are defined in Article II).

2. On the date hereof, WPCo and the Non-Operator Owner have entered into that certain Mitchell Plant Ownership Agreement, setting forth the respective rights, duties and obligations of the Owners with respect to each other and the Facility in their capacities as the Owners thereof (the "Ownership Agreement").

3. Pursuant to the Ownership Agreement, WPCo has agreed to manage the day-to-day operations and maintenance of the Facility as Operator pursuant to the terms of this Agreement.

4. Operator and the Non-Operator Owner desire to execute this Agreement to set forth the respective rights, duties and obligations of WPCo, in its capacity as Operator of the Facility, and the Non-Operator Owner, in its capacity as an Owner of an undivided interest as a co-tenant in the Facility.

NOW, THEREFORE, in consideration of the foregoing premises, and of the mutual covenants, undertakings and conditions set forth below, the Parties agree as follows:

ARTICLE I - AGREEMENT

1.1 Agreement. This Agreement consists of the recitals, and the terms and conditions set forth in this Agreement, as well as the appendices that are referenced in the table of contents and attached to this Agreement.

1.2 Relationship of the Parties. Operator shall perform the Services in its capacity as an independent contractor of the Owners and as principal on its own behalf as an Owner. Subject to any limitations set forth in this Agreement and the Ownership Agreement, the Owners delegate to Operator, and Operator accepts from the Owners, the responsibility of providing the Services at the Facility. The Owners and Operator agree that the scope of delegation is strictly limited to the matters set forth in this Agreement and the Ownership Agreement. Without limiting the generality of the foregoing, the Owners retain the ultimate authority and obligation to determine whether and to what extent the Facility operates, and Operator shall not cause the Facility to generate power except as expressly directed to do so by the Owners or any dispatching authority specified by the Owners in accordance with the Ownership Agreement. For the

avoidance of doubt, any provision of this Agreement requiring the delegation of authority, direction, consent or authorization with respect to the Owners shall mean the delegation, direction, consent or authorization of both Owners (or the Operating Committee) in accordance with the Ownership Agreement (except to the extent the Ownership Agreement gives exclusive authority to the Non-Operator Owner thereunder, in which case such delegation of authority, direction, consent or authorization with respect to the Owners shall mean exclusively the delegation, direction, consent or authorization of the Non-Operator Owner).

1.3 Entire Agreement. This Agreement, together with the Ownership Agreement, contains the entire agreement between the Parties with respect to Operator's provision of Services at the Facility and supersedes all prior negotiations, undertakings and agreements.

ARTICLE II - DEFINITIONS

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears, capitalized terms have the meanings specified in this Article II. The singular includes the plural, as the context requires. The terms "includes" and "including" mean "including, but not limited to." The terms "ensure" and "reasonable efforts" will not be construed as a guarantee, but will imply only a duty to use reasonable efforts and care, consistent with Prudent Operation and Maintenance Practices, and will include reasonable expenditures of money and at least such efforts as Operator would undertake for its own assets, services or maintenance, or for services provided to an Affiliate. "Gross negligence" will not be construed as simple or ordinary negligence, it being the intent of the Parties to preserve a distinction between errors made inadvertently while attempting to perform with due care and actions taken with a knowing disregard for a foreseeable risk. "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day. "Month" (regardless of capitalization) shall mean a calendar month. References to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement, except where expressly stated otherwise.

"AEP" shall mean American Electric Power Company, Inc., a New York corporation and an Affiliate of WPCo.

"AEPSC" shall mean American Electric Power Service Corporation, a New York corporation and an Affiliate of WPCo.

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, controls, is controlled by, or is under common control with such Person. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise. The Non-Operator Owner shall not be deemed an Affiliate of the Operator.

"Agreement" has the meaning set forth in the preamble to this Agreement.

"Applicable Law" means all laws (including common law), statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, Governmental

Approvals, Permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over an Owner, any other Person or entity (as to that Person or entity), this Agreement, any Facility asset or the Facility, as applicable.

"Bankruptcy" means a situation in which (i) a Person files a voluntary petition in bankruptcy or is adjudicated as bankrupt or insolvent, or files any petition or answer or consent seeking any reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable United States federal, state or other statute or law relative to bankruptcy, insolvency or other relief for debtors, or seeks or consents to or acquiesces in the appointment of any trustee, receiver, conservator or liquidator of such Person or of all or any substantial part of its properties (the term "acquiesce," as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within fifteen (15) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction enters an order, judgment or decree approving a petition filed against any Person seeking a reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States federal bankruptcy act, or any other present or future Applicable Law relating to bankruptcy, insolvency or other relief for debtors, and such Person acquiesces and such decree remains unvacated and unstayed for an aggregate of sixty (60) days (whether or not consecutive) from the date of entry thereof, or a trustee, receiver, conservator or liquidator of such Person is appointed with the consent or acquiescence of such Person and such appointment remains unvacated and unstayed for an aggregate of sixty (60) days, whether or not consecutive; (iii) a Person admits in writing its inability to pay its debts as they mature; (iv) a Person gives notice, to any Governmental Authority of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) a Person makes a general assignment for the benefit of creditors or takes any other similar action for the protection or benefit of creditors (other than in the ordinary course of such party's business).

"Budget" means an annual operating budget and annual capital budget adopted or amended pursuant to the Ownership Agreement.

"Business Day" means any day other than (i) a Saturday or Sunday or (ii) a day on which banks in West Virginia or Ohio are required or permitted to be closed.

"Claims" means any and all claims, assertions, demands, suits, investigations, inquiries, and proceedings.

"Confidential Information" means, with respect to each Party, all written or oral information of a proprietary, intellectual or similar nature, relating to the business, projects, operations, activities or affairs of a Party and its Affiliates, whether of a technical or financial nature or otherwise (including environmental assessment reports, financial information, business plans and proposals, ideas, concepts, trade secrets, know-how, processes, pricing of services or products, and other technical or business information, whether concerning this Agreement, each Party's respective businesses or otherwise) that has not been publicly disclosed and that the receiving Party acquires directly or indirectly from the disclosing Party.

"Cost Allocation Manual" means the Cost Allocation Manual of Operator and its Affiliates, as may be amended from time to time, as filed with FERC and, to the extent required, the WVPSC.

"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the generating units and other property, plant, and equipment comprising the Facility, including any common facilities associated with each generating unit that are to be permanently removed from service, the restoration of the Site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.

"Decommissioning Work" shall mean all work reasonably necessary or undertaken to Decommission the Facility, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Facility in accordance with Applicable Law.

"Dollars" means United States Dollars, the lawful currency of the United States of America.

"Due Date" means, with respect to any Operator invoice, the date that is thirty (30) days following the date on which Operator submits the invoice to the Non-Operator Owner in accordance with Article VII. If such date does not fall on a Business Day, then the Due Date shall be the first Business Day after such date.

"Effective Date" means the date set forth in the preamble to this Agreement.

"Emergency" has the meaning set forth in Section 3.8.

"Encumbrance" means (i) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (ii) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary Claim; and (iii) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Environmental Law" means any Applicable Law pertaining to (i) the regulation or protection of employee health or safety, public health or safety, or the indoor or outdoor environment; (ii) the conservation, management, development, control or use of land, natural resources, or wildlife; (iii) the protection or use of surface water or ground water; (iv) the management, manufacture, possession, presence, use, generation, treatment, storage, disposal, transportation, or handling of, or exposure to any Hazardous Material; or (v) pollution (including release of any hazardous substance to air, land, surface water and ground water), including the Comprehensive Environmental Response, Compensation, and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. §§ 9601 et seq.), the Hazardous Materials Transportation Act (49 U.S.C. §§ 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. §§ 6901 et seq.), the Toxic Substances Control Act

(15 U.S.C. §§ 2601 et seq.), the Clean Water Act (33 U.S.C. §§ 7401 et seq.), the Clean Air Act, as amended (42 U.S.C. §§ 7401 et seq.), the Safe Drinking Water Act (42 U.S.C. §§ 300f et seq.), the Uranium Mill Tailings Radiation Control Act (42 U.S.C. §§ 7901 et seq.), the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§ 136 et seq.), all as now or hereafter amended or supplemented, and any regulations promulgated thereunder, and any other similar federal, state, or local statutes, rules and regulations.

"Environmental Liability" has the meaning set forth in Section 10.3.1.

"Facility" means the Mitchell Power Generation Facility consisting of two (2) coal-fired generating units, each having a nominal nameplate capacity of 800 megawatts, and associated plant, equipment and real estate, located in Moundsville, West Virginia, and includes all electrical or thermal devices, and related structures and connections that are located at the Site and used for the production of power and the transportation and handling of fuel for the benefit of the Owners, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam.

"Facility Agreements" means this Agreement, the Ownership Agreement, all applicable interconnection agreements, fuel supply agreements, coal ash, gypsum and other combustion byproduct disposal or sales agreements, all applicable equipment maintenance agreements in effect or entered into, and as amended, supplemented or modified, from time to time by the Operator or the Owners relating to the Facility, all equipment contracts with regard to warranties and equipment design and specifications, and any other agreement reasonably designated by the Owners as a "Facility Agreement."

"Facility Equipment" has the meaning set forth in Section 13.1.

"Facility Personnel" means those individuals who are employed by Operator or its Affiliates to perform services in respect of the Facility under this Agreement.

"Force Majeure Event" has the meaning set forth in Section 14.6.1.

"Governmental Approval" means any consent, license, approval, exemption, Permit, "no objection certificate" or other authorization of whatever nature that is required to be granted by any Governmental Authority or any third party with respect to the siting, construction, operation, service and maintenance of the Facility in accordance with this Agreement, or otherwise necessary to enable an Owner or Operator to exercise its rights, or observe or perform its obligations, under this Agreement.

"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision, department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.

"Hazardous Materials" means (a) any petroleum or petroleum products, radioactive materials, asbestos in any form that is or could become friable, urea formaldehyde foam insulation, 1.4 Dioxane, per-and polyfluoroalkyl substances, and transformers or other equipment

that contain dielectric fluid containing polychlorinated biphenyls; (b) any chemicals, materials or substances that are now or hereafter become defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollution," "pollutants," "regulated substances," or words of similar import under Applicable Law; or (c) any other chemical, material, substance or waste declared to be or regulated as hazardous, toxic or polluting material by any Governmental Authority, exposure to which is now or hereafter prohibited, limited or regulated by any Governmental Authority.

"Late Payment Rate" means a rate of interest per annum equal to the lesser of (i) the "prime" rate of interest per annum for corporate loans as published in The Wall Street Journal under "Money Rates" as such rate may be in effect from time to time during the period the delinquent amount remains outstanding plus four (4) percentage points (4%) per annum or (ii) the maximum rate of interest permitted by Applicable Law.

"Lender" means any entity or entities providing financing or refinancing to an Owner under any financing agreements in connection with the construction or permanent financing for the Facility, and their permitted successors and assigns.

"Liabilities" means, collectively, any and all Claims, damages, judgments, losses, obligations, liabilities, actions and causes of action, fees (including reasonable attorneys' fees and disbursements), costs (including court costs), expenses, penalties, fines and sanctions.

"Manuals" means Facility Equipment manuals, system descriptions, system operating instructions, equipment maintenance instructions and pertinent design documentation created by the Persons that constructed the Facility or manufactured its equipment, and the operation and maintenance procedures and Facility systems descriptions, training, safety, chemistry and environmental manuals, together with the documents and schedules described in such manuals.

"NERC" means the North American Electric Reliability Corporation.

"Non-Operator Owner" has the meaning set forth in the preamble to this Agreement.

"Non-Operator Owner Indemnitees" has the meaning set forth in Section 10.1.

"Operating Committee" means the "Operating Committee" as composed from time to time pursuant to and defined in the Ownership Agreement.

"Operating Costs" has the meaning set forth in Section 7.2.1.

"Operator" has the meaning set forth in the preamble to this Agreement.

"Operator Indemnitees" has the meaning set forth in Section 10.2.

"Operator Proprietary Information" has the meaning set forth in Section 13.3.

"Owner" has the meaning set forth in the preamble to this Agreement.

"Ownership Agreement" has the meaning set forth in the recitals to this Agreement.

"Ownership Interest" has the meaning set forth in the Ownership Agreement.

"Party" means a party to this Agreement and "Parties" means, collectively, the parties to this Agreement, unless the context clearly requires a different construction.

"Permit" means any permit, license, consent, approval or certificate that is required or used for the operation or maintenance of the Facility or the performance of any Service and includes Permits required under Environmental Laws.

"Person" means any Party, individual, partnership, corporation, association, limited liability company, business trust, government or political subdivision thereof, governmental agency or other entity.

"Plan" means an annual operating plan adopted or amended pursuant to Section 5.3.

"Plant Manager" means the production/plant manager for the Facility selected in accordance with Section 3.6, Section 8.5 or Section 8.6.

"Project Manager" means the individual appointed in accordance with Section 5.1.

"Prudent Operation and Maintenance Practices" means those practices, methods and acts generally employed in the power generation industry with respect to facilities of similar type, fuel characteristics and geographical location as the Facility, that at the particular time in question, in the exercise of reasonable judgment in light of the facts known at the time the decision in question was being made, would have been expected to accomplish the desired result of such decision consistent with the goals established in a Budget and Plan, and the requirements of Applicable Law, System Operators, equipment manufacturer's recommendations, reliability, safety, environmental protection, economy and expedition. With respect to Operator, Prudent Operation and Maintenance Practices are not limited to the optimum practices, methods or acts to the exclusion of all others, but rather include a spectrum of possible practices, methods or acts commonly employed in the coal-fired power generation industry, including taking reasonable actions to provide a sufficient number of Persons who are available and adequately trained to provide Services at the Facility, and timely perform preventive, routine, and non-routine maintenance and repairs, as exemplified and generally described in Appendix A, subject, in all cases, to the Operator's duties and the limitations on Operator's authority, as set forth in this Agreement and the Ownership Agreement.

["Qualified Replacement Operator" shall mean a Person that:

(i) has operated for a period of at least three (3) years, and continues to operate, coal and/or natural gas power generation facilities with an aggregate electricity output of at least one thousand (1,000) megawatts and at least one of those facilities is a coal power generation facility with an aggregate electricity output of at least three hundred (300) megawatts (or has engaged a third party to operate the Facility who satisfies such operation standards); and

(ii) either has (a) a credit rating of "BBB-" or higher by S&P Global Ratings and "Baa3" or higher by Moody's Investor Service or (b) a tangible net worth of at least $500,000,000 (or has a direct or indirect parent who satisfies such financial standards).[1]

"Services" has the meaning set forth in Section 3.1.

"Site" means the land on which the Facility is situated.

"Standards of Performance" means the standards for Operator's performance of the Services set forth in Section 3.3.

"System Operator" means any Person or regional transmission organization, such as PJM Interconnection, L.L.C., supervising the collective transmission or generation facilities of the power region in which the Facility is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

"Term" means the initial term together with any extensions.

"Termination Transition Period" has the meaning set forth in Section 8.5.1.

"WPCo" has the meaning set forth in the preamble to this Agreement.

"Year" means the calendar year. With respect to the Year in which the Effective Date occurs, a Year will be deemed to begin on the Effective Date and end on December 31st of such Year. If this Agreement terminates, the final Year will be deemed to end on the date that termination occurs.

ARTICLE III - RESPONSIBILITIES OF OPERATOR

3.1 Provision of Services. Operator shall operate and maintain the Facility and perform other duties as set forth in this Agreement and as directed by the Owners pursuant to the Ownership Agreement, including performing and, as applicable, contracting for the benefit of the Owners with suppliers and service providers to perform, the services set forth on Appendix A (collectively, the "Services") and agrees to be responsible for the day-to-day operation and maintenance of the Facility.

3.2 Procurement.

3.2.1 Operator shall sign contracts and purchase orders for goods and services to be delivered to the Facility in the name of Operator as agent for the Owners, and shall not contract in the name of the Non-Operator Owner without the Non-Operator Owner's prior written consent. Operator acknowledges that such contracts and purchase orders are for the benefit of the Owners and the Facility. Operator shall endeavor to negotiate with vendors from standard terms and conditions, including reasonable warranties for the benefit of the Owners.

[1] ~~Note to Purchaser: Under review by AEP.~~

3.2.2 The Non-Operator Owner shall use commercially reasonable efforts to obtain, promptly following the Effective Date, any and all consents of third parties required to assign, transfer or convey to Operator any contracts or purchase orders for goods and services (including fuel supply and transportation) to be delivered to or used by the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date, which are reasonably required to be transferred to Operator for the performance of the Services. To the extent that, notwithstanding its commercially reasonable efforts, the Non-Operator Owner is unable to obtain any such required consent effective as of the Effective Date, and as a result thereof Operator shall be prevented by such third party from receiving the rights and benefits with respect to any such contract or purchase order intended to be transferred hereunder, or if any attempted assignment would adversely affect the rights of the Non-Operator Owner thereunder so that Operator would not in fact receive all such rights or the Non-Operator Owner would forfeit or otherwise lose the benefit of rights that the Non-Operator Owner is entitled to retain, the Non-Operator Owner and Operator shall cooperate to implement any lawful and commercially reasonable arrangement as the Non-Operator Owner and Operator shall agree, under which Operator would, to the extent practicable, obtain the claims, rights and benefits under such contract or purchase order and assume the burdens and obligations with respect thereto, including by the Non-Operator Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such contracts or purchase orders; provided, however, that the Non-Operator Owner and WPCo shall each bear its respective share of the costs and expenses under any such contract or purchase order in accordance with this Agreement and the Ownership Agreement. The Non-Operator Owner and Operator shall continue to cooperate to assign, transfer or convey to Operator any such contract or purchase order that remain held by the Non-Operator Owner and to otherwise arrange for Operator to directly contract with the applicable third party for any renewal contract or purchase upon the expiration or termination of any such contract or purchase order.

3.3 Standards for Performance of the Services. Operator shall perform the Services in accordance with (i) the Manuals, (ii) the applicable Budget and Plan, (iii) Applicable Laws, (iv) Prudent Operation and Maintenance Practices, (v) insurer requirements delivered to Operator by the Owners in writing, (vi) the requirements in the Facility Agreements (vii) this Agreement; and (viii) as directed by the Owners pursuant to the Ownership Agreement. Subject to the other provisions of this Agreement, Operator shall perform the Services and other obligations under this Agreement in a manner consistent with the Operating Committee's directions. The Parties acknowledge and agree that, subject to Operator's compliance with the Standards of Performance, Operator shall have no liability for acting or refraining to act in accordance with the directions of the Operating Committee, except to the extent caused by Operator's gross negligence, willful misconduct, fraud, willful violation of any Applicable Law, willful breach of this Agreement or the Ownership Agreement or other willful misconduct.

3.4 Dispatch. Operator shall use commercially reasonable efforts to comply with any applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement. Operator shall give the Operating Committee notice as soon as practicable of any inability of the Facility to make the requisite deliveries of energy, capacity or

ancillary services and of Operator's plan to restore operation of the Facility. In the case of any interruption, curtailment or reduction in (i) supplies of fuel or (ii) acceptance of energy, capacity or ancillary services by the System Operator or in the case of any other dispatch constraint imposed on the Facility, Operator shall notify the Non-Operator Owner as soon as practicable. Upon removal of the constraint, Operator shall use its commercially reasonable efforts to restore the availability of the Facility for dispatch consistent with applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement.

3.5 Licenses and Permits.

3.5.1 General. Operator shall review all Applicable Laws containing or establishing compliance requirements in connection with the operation and maintenance and Decommissioning of the Facility and shall use commercially reasonable efforts to obtain and maintain, for the benefit of both Owners, all Permits required by Applicable Law for the ownership, operation, maintenance and Decommissioning of the Facility and for Operator's performance of the Services, and shall (i) from time to time, notify the Operating Committee if Operator believes that a Permit is required by Applicable Law to be obtained by an Owner in its name in order to allow Operator to perform the Services and assist each Owner, at each Owner's written request and such Owner's sole cost and expense, in securing and complying with, as appropriate, all necessary Permits (and renewals of the same) which are required to be in an Owner's name, including those relating to air emissions, boiler operation, water usage, septic system operation, wastewater discharge, chemical and other waste (including Hazardous Materials) storage and disposal, emissions testing and safety, and (ii) initiate and maintain precautions and procedures reasonably necessary to comply with Applicable Laws. Any Permit held solely in the name of Operator shall, to the extent necessary for the other Owner's compliance with Applicable Law in its role as an Owner, be held by Operator for the benefit of both Owners. Any Permit held solely in the name of the Non-Operator Owner shall, to the extent necessary and consistent with Applicable Laws, be made available for the use of the Operator for the benefit of the Owners and, if reasonably necessary to facilitate Operator's operation and maintenance or Decommissioning of the Facility, the Non-Operator Owner shall cooperate with Operator to effect an assignment or other transfer of such Permit to Operator or otherwise submit such Permit modifications or updating information as necessary to reflect the role of Operator with respect to such Permit.

3.5.2 NERC Compliance. Operator (or an Affiliate thereof) shall register with NERC as the "Generator Owner" and "Generator Operator" for the Facility in accordance with 18 C.F.R. § 39.2(c) effective from and after [the Effective Date][21]. On and after [the Effective Date], Operator shall, or shall cause its applicable Affiliate to, (i) maintain compliance with all NERC reliability standards applicable to the Facility and all NERC rules applicable to Operator as Generator Owner and Generator Operator for the Facility in accordance with 18 C.F.R. § 39.2(b), including any actions related to mitigation and compliance enhancement required or implemented thereunder; (ii) provide notice to the Operating Committee promptly following the

[21] **Note**: Subject to modification if registration cannot be effective as of the Effective Date.

determination by Operator of any reportable physical or cyber security incident under the NERC reliability standards or other Applicable Law; (iii) maintain and provide documentation and maintenance records to the Operating Committee regarding any operation, testing, maintenance or faults of any generation protection relays, gen-tie relays or any other equipment necessary to fulfill Operator's or its applicable Affiliate's obligations as the Generator Owner or Generator Operator for the Facility; and (iv) provide to the Non-Operator Owner upon written request any other information, documentation and support reasonably necessary for Operator or its applicable Affiliate to demonstrate compliance with the NERC reliability standards. To the extent that any fine or sanction is imposed in respect of the performance of Operator's obligations under this Section 3.5.2 pursuant to Section 215(c) of the Federal Power Act, any cost related thereto shall be a included as an Operating Cost, to the extent permitted by Applicable Law.

3.6 Personnel Matters. Subject to Sections 8.5 and 8.6, and as otherwise set forth in this Section 3.6, Operator shall be responsible for determining the working hours, rates of compensation and all other matters relating to the employment of Operator's Facility Personnel, including the designation or appointment of the Plant Manager, in its reasonable judgment and in accordance with Non-Operator Owner's and its Affiliates' past practices in the ordinary course of its business during the time it served as operator of the Facility, and shall retain sole authority, control and responsibility with respect to its employment policies. Operator shall submit for the Operating Committee's approval the staffing requirements for the Facility on an annual basis. If Operator intends to select a new Plant Manager, or if the individual serving as Plant Manager ceases to be the Plant Manager, Operator shall provide prompt written notice to the Non-Operator Owner of the selection of a substitute Plant Manager. Facility Personnel shall be qualified and experienced in the duties to which they are assigned. Operator shall, upon the reasonable written request of the Non-Operator Owner, for cause (as documented in reasonable detail in any such written request), use commercially reasonable efforts to, as promptly as practicable under the circumstances and subject to any applicable collective bargaining agreements, remove from the Site and the Facility workforce, the services of any employee or other individual, subject to Operator's confirmation that such cause exists.

3.7 No Liens or Encumbrances. Operator shall use commercially reasonable efforts to keep and maintain the Facility free and clear of all liens and Encumbrances resulting from the failure by Operator to perform the Services or the personal debts and obligations of Operator unrelated to its ownership interest in the Facility.

3.8 Emergency Action. In the event of an emergency affecting the safety, health or protection of, or otherwise endangering, any Person, property or the environment located at or about the Facility (an "Emergency"), Operator shall take prompt action in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate any imminent damage, injury or loss threatened by such Emergency, and shall notify the Non-Operator Owner of such Emergency and Operator's response as soon as practical under the circumstances and in no event later than forty-eight (48) business hours after Operator becomes aware of such event. To the extent Operator procures goods and services as necessary to respond to an Emergency, reasonable and documented out of pocket costs in respect thereof shall be treated as Operating Costs.

ARTICLE IV - OBLIGATIONS, RIGHTS AND REPRESENTATIVES OF EACH OWNER

4.1 General. Each Owner expressly reserves the exclusive authority to make, and shall make, such business and strategic decisions as it deems appropriate from time to time in reference to the operation and maintenance of the Facility in accordance with the Ownership Agreement. Upon request from Operator, the Non-Operator Owner shall promptly furnish or cause to be furnished to Operator, at the Non-Operator Owner's expense, the information, access, materials, instructions and other items described in this Article IV that are in the possession or control of the Non-Operator Owner and which are reasonably necessary for performance of the Services by Operator and not otherwise available to Operator. All such items will be made available at such times and in such manner as may be reasonably required for the expeditious and orderly performance of the Services by Operator.

4.2 Information. Subject to the Standards of Performance, Operator shall be entitled to rely upon any information provided by the Non-Operator Owner or any other party to the Facility Agreements in the performance of the Services.

4.3 Access to Facility. Each Owner shall provide Operator and Operator's contractors, vendors, suppliers, employees and agents and Facility Agreement counterparties, to the extent applicable, reasonable access to and use of the Facility and the Site and to such Owner's records and data at the Facility and, in the case of the Non-Operator Owner, reasonably available to the Non-Operator Owner or in the Non-Operator Owner's possession and reasonably necessary for the performance of Services by Operator under this Agreement.

4.4 Instructions, Approvals, etc. Each Owner shall provide or cause to be provided (including through action of the Operating Committee) to Operator all instructions Operator is required to obtain in accordance with this Agreement. Without limiting the provisions of Section 3.2.2, each Owner shall reasonably cooperate to make available or cause to be available to Operator the benefits of all assets (including Permits and contracts relating to the Facility) held in the name of such Owner, as reasonably required for the operation of the Facility. Each Owner shall not direct Operator to take any action inconsistent with Applicable Law or otherwise adversely affecting the safety, health or protection of any person, or property or the environment located at or about the Facility.

ARTICLE V - REPRESENTATIVES, BUDGETS AND REPORTS

5.1 Representatives of Operator. On or as soon as practical after the Effective Date, Operator shall appoint a Project Manager who shall be authorized to represent Operator with each Owner and the Operating Committee concerning Operator's performance of the Services. The Project Manager may be the same individual as the Plant Manager. Operator shall be responsible for all communications, directions, requests and decisions made by its Project Manager at its direction. Operator shall notify the Non-Operator Owner in writing upon the appointment of its Project Manager, and of any successors. The Project Manager has no authority to modify, amend or terminate this Agreement or, absent written notice by Operator to

the contrary, to enter into any other agreement on behalf of Operator other than as provided herein.

5.2 Representatives of Owner; Operating Committee. The Operating Representative of each Owner (pursuant to and as defined in the Ownership Agreement) shall be authorized and empowered to act for and on behalf of such Owner on all matters requiring the consent, approval or other action of an Owner pursuant to this Agreement. Each Owner shall notify Operator and the other Operating Representative in writing upon the appointment of its Operating Representative, and of any successors. Any provision of this Agreement requiring the consent, approval, or similar act of the Operating Committee shall mean the consent, approval, or similar act of the Operating Committee acting in accordance with the terms of the Ownership Agreement.

5.3 Plans and Budgets.

5.3.1 Adoption.

5.3.1.1. Budgets. The initial Budget and Plan for the first Year following the Effective Date is attached as Appendix B hereto. No later than ninety (90) days prior to each operating Year, Operator shall deliver to the Operating Committee for the Operating Committee's review, revision if applicable and approval (i) a proposed annual operating budget, (ii) any proposed amendments to the annual capital budget, (iii) an annual operating plan and (iv) a six (6) Year future forecast of operating and capital expenses. Each such proposed budget, plan and forecast shall contain such detail and supporting documentation as reasonably necessary or reasonably requested for the Operating Committee's review, and Operator shall provide all such additional information and supporting documentation as may be reasonably requested by the Operating Committee and as required by the Ownership Agreement. The Operating Committee shall review and provide modifications to each such proposed budget, plan and forecast and Operator shall cooperate to revise each such proposed budget and plan to receive the Operating Committee's approval of same by December 1 of each Year. Each Budget and Plan as approved by the Operating Committee or otherwise deemed implemented pursuant to the Ownership Agreement shall remain in effect in accordance with the Ownership Agreement. Operator and the Non-Operator Owner by mutual agreement may modify the process and procedures set forth in this Section 5.3.1.

5.3.1.2. Amendments. If either the Non-Operator Owner or Operator becomes aware of facts or circumstances that it believes necessitate a change to a Budget or Plan, that Party shall promptly notify the other Party in writing, specifying the impact upon the Budget and the reasons for the change. The Project Manager shall then discuss appropriate amendments to the Budget with the Operating Committee.

5.3.1.3. Failure to Agree. Operator acknowledges that the Owners retain ultimate authority with respect to expenses incurred for the Facility. Accordingly, Operator shall accept each Budget as determined in accordance with the Ownership Agreement. To the extent that the Operating Committee limits funds for Operating Costs, Operator shall be

relieved from performing only those specific Services that would result in the incurrence of such non-reimbursable Operating Costs.

5.3.2 Limitations on Variation from Budget. Except as otherwise permitted in response to an Emergency in accordance with Section 3.8, Operator shall obtain the Operating Committee's written approval (i) for any expenditures resulting in cumulative budget overruns exceeding ten percent (10%) in the aggregate in any Year with respect to either the operating Budget or capital expense Budget, or (ii) for any unbudgeted expenditure or capital project having a projected cost of more than $100,000.

5.4 Availability of Operating Data and Records. Operator shall deliver Facility data recorded, prepared or maintained by Operator to the Operating Committee: (i) as necessary or reasonably requested by an Owner to assist each Owner in complying with requirements of Governmental Authorities, Permits and Facility Agreements; or (ii) upon request by the Non-Operator Owner, in each case as soon as reasonably practicable but in any event within ten (10) Business Days following such request.

5.5 Litigation and Permit Lapses. Promptly upon obtaining actual knowledge thereof, either Party shall submit prompt written notice to the other Party of the following, to the extent relating to the Facility or the Services or agreements relating to either the Facility or the Services: (i) any litigation, Claims or actions filed, including by, against or with any Governmental Authority; (ii) any actual refusal to grant, renew or extend, or any action filed with respect to the granting, renewal or extension of, any Permit; (iii) all penalties or notices of violation issued or asserted by any Governmental Authority; (iv) any dispute with any Governmental Authority that may affect the Facility in any material respect; and (v) with respect to the matters identified in items (i), (ii), (iii) or (iv), any material threats of such matters. Upon Non-Operator Owner's request, Operator shall provide any documentation related to any of the foregoing.

5.6 Other Information. Operator shall promptly submit to the Non-Operator Owner any material information concerning new or significant aspects of the Facility operations and, upon the Non-Operator Owner's request, shall promptly submit any other information concerning the Facility or the Services.

5.7 Records Maintenance and Retention. Operator shall maintain all records, reports, documents and data, including all data retrievable from an electronic data storage source, for the Facility in accordance with Applicable Law and shall retain and preserve all such records, reports, documents and data created in connection with the operation and maintenance of the Facility, in accordance with Applicable Law, provided that Operator shall notify the Non-Operator Owner in writing at least sixty (60) days prior to the destruction or other disposition of any record, report, document or data. If the Non-Operator Owner gives written notice to Operator prior to the expiration of the 60-day period, Operator shall maintain custody of such material until the earlier of (i) such time as the Non-Operator Owner notifies Operator to dispose of such material and (ii) seven (7) Years. If the Non-Operator Owner does not provide written notice to Operator prior to the expiration of the 60- day period, Operator may destroy or

dispose of such material and shall provide the Non-Operator Owner with a certificate confirming such destruction or disposition.

ARTICLE VI - LIMITATIONS ON AUTHORITY

6.1 Limitations on Authority. Operator has no authority to make policies or decisions with respect to the overall operation or maintenance of the Facility as a commercial enterprise pursuant to the terms of this Agreement. The Owners, acting through the Operating Committee and pursuant to the terms of the Ownership Agreement, shall determine all such matters. Notwithstanding any provision in this Agreement to the contrary, unless previously approved in a Budget and Plan or otherwise approved in writing by the Operating Committee, in connection with Operator's provision of Services hereunder, Operator is prohibited from doing any of the following (and shall not permit any of its agents, Affiliates, or representatives to do any of the following):

6.1.1 Dispose of Assets. Selling, leasing, pledging, mortgaging, granting a security interest in, encumbering, conveying, or making any license, exchange or other transfer or disposition of all or any portion of the Facility, the Site or any other property or assets of the Owners, including any property or assets purchased by Operator, the cost of which is an Operating Cost;

6.1.2 Make Expenditures. Making any expenditure or acquiring, on an Operating Cost basis, any goods or services from third parties, except in conformity with a Budget or as otherwise permitted under Section 5.3.2 or as authorized by the Operating Committee; provided, however, that in the event of an Emergency, Operator, without approval from the Owners, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.3 Take Other Actions. Taking or agreeing to take any other action or actions the decision for which is reserved exclusively for the Operating Committee pursuant to the Ownership Agreement; provided, however, that in the event of an Emergency, Operator, without approval from the Operating Committee, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.4 Act Regarding Lawsuits and Settlements. Settling, compromising, assigning, pledging, transferring, releasing or consenting to the compromise, assignment, pledge, transfer or release of, any material Claim, suit, debt, demand or judgment against or due by any Owner or Operator, the cost of which would be an Operating Cost hereunder, or submitting any such Claim, dispute or controversy to arbitration or judicial process, or stipulating in respect thereof to a judgment, or consent to the same; provided, however, that such prohibition shall not apply to, nor shall it be construed as a release or waiver of, any of Operator's rights or obligations pursuant to this Agreement or any other agreement between the Parties; or

6.1.5 Pursue Transactions. Engaging in any other transaction on behalf of the any Owner that is not permitted under this Agreement.

ARTICLE VII - COMPENSATION AND PAYMENT

7.1 General. The Non-Operator Owner shall pay Operator, and WPCo shall bear directly in its capacity as an Owner, its allocated share in accordance with the Ownership Agreement of all Operating Costs, all as further described below. All Operating Costs shall initially be paid for by Operator (except as otherwise provided in this Agreement) and subsequently invoiced monthly in arrears as more fully set forth in this Article VII.

7.2 Costs.

7.2.1 Operating Costs. Subject to the Ownership Agreement and the limitations on expenditures set forth elsewhere in this Agreement (including Section 5.3), the Non-Operator Owner shall reimburse Operator for its allocated share in accordance with the Ownership Agreement of the fully distributed costs incurred (whether paid or accrued) in the provision of Services (which shall be allocated consistent with Non-Operator Owner's and its Affiliates past practices in the ordinary course of business during the time it served as operator of the Facility and in any event in accordance with the Cost Allocation Manual with respect to costs incurred by Affiliates of Operator), including for labor, goods, services, capital expenditures, overhead, cost of capital, Taxes (other than income or franchise taxes), Permits and bonds (the "Operating Costs"), in each case invoiced in a manner consistent with the example invoice worksheets attached hereto as Appendix C, which shall include such costs with respect to: (i) equipment, material, supplies and other consumables, spare parts, replacement components, tools, office equipment, computer equipment, software, information technology and supplies acquired for use at the Facility; (ii) fuel supply and transportation; (iii) costs associated with special training of Facility Personnel and associated travel and living expenses; (iv) amounts paid under subcontracts, purchase orders and agreements; (v) fees for Permits required to be held by Operator; (vi) community relations and labor relations activities; and (vii) Operator's cost of Facility Personnel (and the allocable portion of other employees of Operator and its Affiliates attributable to performing the Services) wages, salaries, overtime, employee bonus, customary or required severance payments, unemployment insurance, long-term disability insurance, short term disability payments, sick leave, payroll taxes imposed on wages and benefits, worker's compensation costs and holidays, vacations, group medical, dental and life insurance, defined contribution retirement plans and other employee benefits; (viii) costs of third-party advisors, consultants, attorneys, accountants and contractors retained and managed by Operator in support of, and allocable to, the Services; (ix) a reasonably allocable portion of the cost of the insurance maintained by Operator in accordance with Section 9.1 on account of its Operator role; (x) reasonable costs incurred in response to an Emergency; and (xi) any other activity that Operator is required or expressly requested in writing by the Owners to perform under this Agreement for the benefit of the Facility or that is approved in a Budget or by the Operating Committee pursuant to the terms of this Agreement.

7.2.2 Invoicing. On or before the twenty-fifth (25^{th}) day of each calendar month during the Term, Operator shall submit invoices to the Non-Operator Owner in form and substance reasonably similar to that attached hereto as Appendix C for Operating Costs incurred during the preceding calendar month (as well as any such costs for any prior period that were not previously invoiced). If any contract or purchase order intended to be assigned, transferred or conveyed to Operator remains held by the Non-Operator Owner as described in Section 3.2.2 and

the Non-Operator Owner directly pays costs thereunder for the benefit of the Owners, the invoice submitted by Operator shall net WPCo's allocated share in accordance with the Ownership Agreement of any such costs paid by the Non-Operator Owner for the benefit of the Owners. The Non-Operator Owner shall make payment to Operator of its allocated share in accordance with the Ownership Agreement of the invoiced amount no later than the Due Date. For the avoidance of doubt, WPCo, in its capacity as an Owner, shall bear directly its allocated share in accordance with the Ownership Agreement of such Operating Costs.

7.3 Cost Audit. The Non-Operator Owner shall be entitled to conduct an audit, or to delegate a representative to audit, at its sole cost and expense and review of Operator's books and records with respect to all Operating Costs and performance of the Services together with any supporting documentation for a period of one (1) Year from and after the date of the audited payment. If, pursuant to such audit and review, it is agreed that any amount previously paid by Operator or by an Owner was not properly incurred as an Operating Cost or an adjustment of any such cost is required, Operator shall credit to the Non-Operator Owner or Operator, as applicable, its allocated share in accordance with the Ownership Agreement of such amount in the next succeeding invoice or promptly paid in cash if there shall not be further invoices issued.

7.4 Late Payment Rate. To the extent a Party fails to pay any amount required to be paid under this Agreement by the Due Date, the unpaid amount shall accrue interest each day at the Late Payment Rate from the Due Date until such amount (plus accrued interest) is paid by the applicable Party in full. In the event any paid amounts are disputed by a Party in good faith and such dispute is resolved (including if applicable in accordance with the procedures set forth in Section 14.7) in the favor of such Party, then the applicable other Party shall repay to such Party such overpaid amount plus interest thereon accrued each day at the Late Payment Rate from payment by such Party until such amount (plus accrued interest) is repaid in full to such Party by the applicable other Party.

ARTICLE VIII - TERM

8.1 Term. The Term of this Agreement shall commence on the Effective Date and, subject to approval or acceptance of termination by FERC or other Governmental Authority to the extent required, shall end on the date of termination of the Ownership Agreement (the "Term"). Notwithstanding the foregoing, this Agreement and the Term is subject to earlier termination pursuant to Sections 8.2 and 8.3.

8.2 Termination by the Non-Operator Owner for Cause. The Non-Operator Owner shall be permitted to terminate this Agreement upon written notice to Operator if any of the following events occur: (i) the Bankruptcy of Operator; (ii) a payment default by Operator (other than a disputed payment) that Operator fails to cure within ten (10) Business Days after Operator has received written notice of such default; (iii) Operator incurs liability to the Owners equal to the liability limit set forth in Section 11.2 for any two Years during the Term (provided that written notice of termination must be delivered to Operator no later than ninety (90) days after the end of the second of such two Years), or (iv) a material default by Operator in the performance of its obligations under this Agreement, including any default that has, or is reasonably expected to have, a material adverse effect on the operations, maintenance or performance of the Facility and Operator has failed to cure such default within sixty (60) days of

written notice of such failure; provided, that if it is not possible to cure such breach within sixty (60) days of receipt of such notice of failure, Operator (A) fails to commence to cure the breach within such sixty (60) day period, (B) thereafter fails to continue diligent efforts to complete the cure as soon as reasonably possible, or (C) fails to complete the cure within ninety (90) days of receipt of such notice of failure. In addition, Non-Operator Owner shall have the option to terminate this Agreement for convenience upon ninety (90) days written notice to Operator delivered no later than ninety (90) days after the occurrence of any transfer, assignment, sale or other disposition (including any transfers, assignments, sales or other dispositions in connection with a foreclosure or an exercise of remedies by the Financing Parties) that results in WPCo's Ownership Interest no longer being owned directly or indirectly by AEP or an Affiliate thereof, except in the case of an transfer, assignment, sale or other disposition to a successor Operator that is a Qualified Replacement Operator in compliance with the terms of this Agreement and the Ownership Agreement.

8.3 Termination by Operator. Operator shall be permitted to terminate this Agreement upon written notice to the Non-Operator Owner if any of the following events occur: (i) a payment default by the Non-Operator Owner (other than a disputed payment) that is not cured within thirty (30) days after the Due Date for any invoice; (ii) the Bankruptcy of the Non-Operator Owner; or (ii) a default by the Non-Operator Owner of any other obligation under this Agreement that has a material adverse effect on Operator's ability to perform the Services and that the Non-Operator Owner has failed to cure or make substantial progress in the reasonable opinion of Operator toward curing within ninety (90) days of written notice by Operator to the Non-Operator Owner of such failure. As soon as practicable after all cost information is gathered following termination, Operator shall invoice the Non-Operator Owner for its allocated share in accordance with the Ownership Agreement for Services rendered by Operator through the termination date, including all Operating Costs incurred through the date of termination but not paid.

8.4 Transfer of Facility Custody. Upon expiration or termination of this Agreement, Operator shall leave at the Facility all documents and records, tools, supplies, spare parts, safety equipment, Manuals, and any other items furnished on an Operating Cost basis, all of which shall remain the property of the Owners without additional charge. Operator shall execute all documents and take all other reasonable steps as may be reasonably requested by the Non-Operator Owner to assign to and vest in a replacement provider of Services all of its pro-rata rights, benefits, interests and title in connection with any subcontracts Operator executed in its own name for the benefit of the Facility and the Owners.

8.5 Services Upon Termination.

8.5.1 Upon notice of termination of this Agreement by either Operator or the Non-Operator Owner, unless the Non-Operator Owner is then in payment default such that Operator would have the right to terminate this Agreement pursuant to Section 8.3(i), the Non-Operator Owner shall have the right to specify a period of transition of no longer than nine (9) months (the "Termination Transition Period") during which Operator shall: (i) continue to provide Services at the Facility in accordance with this Agreement; (ii) cooperate with the Non-Operator Owner in planning and implementing a transition to any replacement provider of Services; (iii) use its commercially reasonable efforts to minimize disruption of Facility

operations in connection with such transition activities; (iv) make all requisite regulatory filings as promptly upon commencement of the Termination Transition Period, subject to cooperation of the Parties; (v) transfer all Permits, licenses, registrations, approvals and contracts to the Non-Operator Owner or such replacement operator, in each case, as requested by the Non-Operator Owner; and (vi) take all actions incidental thereto and as reasonably requested by the Non-Operator Owner. The provisions of Article VII shall continue to apply during the Termination Transition Period. To facilitate employee transfer, Operator shall permit the replacement service provider and the Non-Operator Owner to interview such Facility Personnel for potential positions with such replacement operator in a manner and at times that do not interfere with Operator's responsibility to perform the Services. If Operator or one of its Affiliates continues to own a portion of the Facility, Operator shall, or shall cause its Affiliates to, reasonably cooperate to allow a successor operator to operate the Facility after the termination of this Agreement, including by granting access rights and executing other instruments as may be reasonably requested by the Non-Operator Owner and any replacement operator.

8.5.2 Any modifications to the ownership and operation of the Facility, including any termination of this Agreement, shall be subject to any required regulatory or administrative filings and approvals.

8.6 Plant Manager Replacement. Upon (i) commencement of the Termination Transition Period or (ii) the occurrence of any of the conditions described in Section 8.2, the Non-Operator Owner may designate a qualified individual with significant experience as a project manager or similar senior operating role in respect of the management and operation of large coal-fired generation facilities with similar operating characteristics as the Facility to replace the existing Plant Manager and who shall upon such appointment be the Plant Manager.

ARTICLE IX - INSURANCE

9.1 Operator Insurance Requirements.

9.1.1 Commencing with the performance of the Services hereunder, and continuing until the termination of this Agreement, Operator (and any tier subcontractors) shall maintain or cause to be maintained occurrence form (if written on a claims -made policy form, be maintained with a retroactive date that is prior to this Agreement Effective Date for a period of at least three (3) Years following the last Year in which such policy provides coverage under the terms of this Agreement) insurance policies as follows: (i) Workers' Compensation in accordance with the statutory requirements of the state in which the Services are performed and Employer's Liability Insurance of not less than one million Dollars ($1,000,000) each accident/employee/disease; (ii) Commercial General Liability Insurance having a limit of at least one million Dollars ($1,000,000) per occurrence/two million Dollars ($2,000,000) in the aggregate for contractual liability, personal injury, bodily injury to or death of Persons, and/or loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) Years after completion), premises and operations liability and explosion, collapse, and underground hazard coverage; (iii) Commercial/Business Automobile Liability Insurance (including owned (if any), non-owned or hired autos) having a limit of at least one million Dollars ($1,000,000) each accident for bodily injury, death, property damage and contractual liability and no fellow employee exclusion; (iv)

Umbrella/Excess Liability insurance with limits of at least twenty-four million Dollars ($24,000,000) per occurrence and follow form of the underlying Employer's Liability, Commercial General Liability and Auto Liability insurance, and provide at least the same scope of coverages thereunder; (v) coverage for sudden/accidental occurrences for bodily injury, property damage, environmental damage, cleanup costs and defense with a minimum of one million Dollars ($1,000,000) per occurrence; and (vi) "all-risk" or its equivalent property insurance providing coverage risks of physical damage to the Facility or Facility Equipment in an amount in accordance with Good Utility Practice.

9.1.2 Unless otherwise determined by the Operating Committee that the Operator should purchase capacity insurance on behalf of both Owners, Operator (including in its capacity as an Owner) and Non-Operator Owner may each procure individually, in proportion to their Ownership Interests, PJM Interconnection, L.L.C. capacity performance insurance on terms and conditions, and placed with insurance companies, reasonably acceptable to the Operator or such Owner, as applicable. Operator shall make such certifications relating to the operation, maintenance and condition of the Facility from time to time during the Term as may be reasonably necessary in connection with the procurement or maintenance of such insurance coverage by Operator and the Non-Operator Owner and any other insurance policies of either Owner that may relate to coverage pertaining to or affecting an Owner's Ownership Interest.

9.2 Form and Content. All insurance policies provided and maintained by Operator and each subcontractor shall: (i) except with respect to insurance policies issued by any "captive" insurer of Operator or its Affiliates[32], be underwritten by insurers that are rated A.M. Best "A-VII" or higher; (ii) specifically include the Non-Operator Owner and its directors, officers, employees, affiliates, subcontractors, and joint owners of any facilities as additional insureds for their liability arising out of the acts or omissions of Operator, including for completed operations, with respect to Operator's acts, omissions, services, products or operations, whether in whole or in part, excluding, however, for Workers' Compensation/Employer's Liability insurance, Pollution Legal Liability insurance, and "all-risk" property insurance; (iii) be endorsed to provide, where permitted by law, waiver of any rights of subrogation against an Owner and its directors, officers, employees, affiliates and subcontractors, and joint owners of any facilities; (iv) provide that such policies and additional insured provisions are primary with respect to the acts, omissions, services, products or operations of Operator or its subcontractors, to the extent of Operator's negligence, (v) contain standard separation of insured and severability of interest provisions except with respect to the limits of the insurer's liability; and (vii) not have any cross-liability exclusion, or any similar exclusion that excludes coverage for Claims brought by additional insureds under the policy against another insured under the policy; Any deductibles or retentions shall be the sole responsibility of Operator and its subcontractors. Evidence of such coverage shall be provided in the form of Operator's certificate of insurance furnished to the Non-Operator Owner prior to the Effective Date, upon any policy replacement or renewal and upon the Non-Operator Owner's request. Operator shall provide at least thirty (30) days' prior written notice to the Non-Operator Owner prior to cancellation of any policy (or ten (10) days' notice in the case of non-payment of premium).

[32] Note to Purchaser: AEP's captive insurer is not rated.

ARTICLE X - INDEMNIFICATION

10.1 Operator Indemnification. Subject to the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner and its Affiliates, and their respective officers, directors, employees, managers, members, agents and representatives (collectively, the "Non-Operator Owner Indemnitees"), from and against, and no Non-Operator Owner Indemnitee shall be responsible for any and all Liabilities incurred, assessed, sustained or suffered by any Non-Operator Owner Indemnitee to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement. Any Liabilities paid by Operator pursuant to its indemnity obligation under this Section 10.1 shall in no event be considered Operating Costs hereunder.

10.2 Owner Indemnification. Subject to the limitations of liability in Section 11.1, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless Operator and its Affiliates, and their respective officers, directors, employees, agents and representatives (collectively, the "Operator Indemnitees"), from and against, and no Operator Indemnitee shall have responsibility for, any and all Liabilities to a third party incurred, assessed, sustained or suffered by or against any Operator Indemnitee arising from or relating to Operator's performance of the Services under this Agreement, except to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement; provided, however, that the Liabilities for which Non-Operator Owner is obligated to indemnify any Operator Indemnitees under this Section 10.2 shall not in any event include any Liabilities for which WPCo is obligated to indemnify Non-Operator Owner (and/or its Affiliates) in any agreement among the Owners (and/or their Affiliates) and AEP (and/or its Affiliates), including pertaining to the allocation of emission limitations associated with the Facility.[4] For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its proportionate share of Liabilities under this Section 10.2 in respect of its Ownership Interest.

10.3 Environmental Indemnification.

10.3.1 Owner Indemnity for Environmental Liabilities. Subject to the limitations of liability in Section 11.1, and without in any way limiting the provisions of Section 10.3.2, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless the Operator Indemnitees, from and against, and no Operator Indemnitees shall have responsibility for, any and all Liabilities, including all civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Operator Indemnitees, as applicable, as a result of or in connection with any matters governed by Environmental Laws directly or indirectly related to or arising out of (i) the design, permitting or construction of the Facility or the

[4] ~~Note to Purchaser: Section 2.1 of the Compliance Agreement contains an indemnity by WPCo for exceedances of Mitchell emissions limitations caused by WPCo. We thought it made more sense to reference that indemnity (the reference is made generically since this agreement may be executed prior to the Compliance Agreement) rather than include an additional duplicative indemnity.~~

condition of the Site, and any adjacent parcels; (ii) the operation, maintenance, ownership, control or use of the Facility or otherwise related to the Facility; and (iii) the offsite transportation, treatment or disposal of all wastes generated at the Facility and any properties included within or adjacent to the Site, whether occurring before or after the Effective Date (collectively, "Environmental Liabilities"), including any Environmental Liabilities arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials, but excluding Operator Environmental Liabilities; provided, however, that the Environmental Liabilities for which any Owner is obligated to indemnify any Operator Indemnitees under this Section 10.3.1 shall not in any event include any Operator Environmental Liabilities for which Operator is liable under Section 10.3.2. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear its proportionate share of Environmental Liabilities under this Section 10.3.2 in respect of its Ownership Interest.

10.3.2 Operator Indemnity for Environmental Liabilities. Subject to the provisions of Section 10.1 and the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner Indemnitees from and against, and no Non-Operator Owner Indemnitee shall be responsible hereunder for any Liabilities, including any civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Person as a result of or in connection with any breach or violation of or any other matters governed by Environmental Laws to the extent caused by the gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law or willful breach of this Agreement by Operator or arising out of the existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials brought on Site by Operator or its Affiliates or agents on or after the Effective Date (the "Operator Environmental Liabilities"). Operator understands and agrees that any Operator Environmental Liabilities paid by Operator pursuant to this Section 10.3.2 shall not be Operating Costs hereunder.

10.3.3 Governmental Actions. During the Term, Operator shall use commercially reasonable efforts to cooperate with and assist the Owners with their acquisition of data and information, and preparation and filing with appropriate Governmental Authorities of any notices, plans, submissions, or other materials and information necessary for compliance by the Owners with applicable Environmental Laws and the requirements of any Permits related to the Facility. All such environmental reports shall be submitted by, and in the names of, both Owners. All reasonable and documented costs associated therewith, including the reasonable costs of any outside consultants, legal services, Governmental Authority charges, sampling and remedial work shall be paid by the Owners as an Operating Cost, and the Non-Operator Owner shall reimburse WPCo to the extent of the Non-Operator Owner's pro rata share, unless such costs are incurred arising out of or associated with Operator Environmental Liabilities that are subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof. Nothing contained herein shall be construed as requiring Operator to take any corrective action with respect to Environmental Liabilities unless (x) affirmatively and expressly directed in writing to so do by the Operating Committee and appropriate funding is made available, or (y) affirmatively and expressly directed to do so by a Governmental Authority, in order to comply with any Environmental Law, in which case the cost of any corrective actions so undertaken shall be deemed an Environmental Liability subject to Section 10.3.1 hereof (if not otherwise reimbursed

as an Operating Cost hereunder), unless such Environmental Liability arises out of or is associated with Operator Environmental Liabilities subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof.

ARTICLE XI - LIABILITIES OF THE PARTIES

11.1 Limitations of Liability. Notwithstanding any provision in this Agreement that may be susceptible to contrary interpretation, neither the Parties nor any Non-Operator Owner Indemnitees or Operator Indemnitees shall be liable for consequential or indirect loss or damage, including loss of profit, cost of capital, loss of goodwill, increased Operating Costs, or any special or incidental damages; provided, however, that notwithstanding the foregoing, in no event will the foregoing limitations of liability be applied to limit the extent of the liability of either Party to the other for or with respect to any Claims of third parties or to the extent arising from gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement. The Parties further agree that the waivers and disclaimers of liability, indemnities, releases from liability and limitations of liability expressed in this Agreement shall survive termination or expiration of this Agreement, and shall apply in all circumstances, whether in contract, equity, tort or otherwise, regardless of the fault, negligence (in whole or in part), strict liability, breach of contract or breach of warranty of the Party indemnified, released or whose liabilities are limited, and shall extend to the Non-Operator Owner Indemnitees and Operator Indemnitees.

11.2 Operator's Total Aggregate Liability. Except to the extent that a Non-Operator Owner Indemnitee suffers Liabilities that are caused by, result from or arise out of Operator's or its Affiliates' breach of Article XIII or its gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement, or willful misconduct (including in connection with any Services), the total liability of Operator to the Non-Operating Owner for all Liabilities arising out of, connected with or resulting from any events occurring or claims made in connection with this Agreement, whether based in contract, warranty, tort, strict liability or otherwise, shall not exceed, in the aggregate, the sum of (i) an amount equal to twenty-five percent (25%) of the Operating Costs, but excluding Operating Costs relating to any services, goods, inventory and equipment provided hereunder by third parties other than Operator's Affiliates, incurred pursuant to this Agreement in the prior twelve (12) month period, *plus* (ii) the Non-Operating Owner's fifty percent (50%) share of any insurance proceeds actually received by the Operator or paid on the Operator's behalf with respect to the relevant loss or damages under the insurance policies procured by the Operator pursuant to Section 9.1.

11.3 No Warranties or Guarantees.

11.3.1 EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES OR GUARANTEES TO THE OTHER, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SUBJECT MATTER OF THIS AGREEMENT, AND BOTH PARTIES DISCLAIM AND WAIVE ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT.

11.3.2 OPERATOR IS ACTING AS AGENT OR OTHERWISE AS A RESELLER WITH RESPECT TO ALL SERVICES, GOODS, INVENTORY AND EQUIPMENT PROVIDED HEREUNDER BY THIRD PARTIES OTHER THAN OPERATOR'S AFFILIATES, AND, AS SUCH, DOES NOT PROVIDE ANY WARRANTY FOR SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT PROVIDED HEREUNDER. ALL SUCH THIRD PARTY SERVICES, GOODS, INVENTORY AND EQUIPMENT ARE PROVIDED AS IS, WHERE IS, WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT UNLESS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES. THE SOLE REMEDY IN CONNECTION WITH ANY DEFECTS IN OR FAILURES OF SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT (WHETHER A CLAIM FOR SUCH DEFECT ARISES UNDER CONTRACT, TORT, STRICT LIABILITY, STATUTE, OR ANY OTHER LEGAL OR EQUITABLE THEORY OR PRINCIPLE INCLUDING NEGLIGENCE) SHALL BE TO SEEK RECOURSE EXCLUSIVELY FROM THE COUNTERPARTIES TO THE THIRD PARTY CONTRACTS, UNLESS THE DEFECT OR FAILURE WAS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES.

ARTICLE XII - CONFIDENTIALITY

12.1 General. During the Term, and for the later of three (3) Years after the termination of this Agreement or five (5) Years after receipt of the applicable Confidential Information, each Party shall hold in confidence any Confidential Information supplied by or on behalf of the other Party. Each receiving Party further agrees to require its contractors, vendors, suppliers and employees, agents or prospective purchasers to preserve the confidentiality of Confidential Information. The receiving Party may make necessary disclosures to third parties directly engaged in the operation, ownership or financing of the Facility if such third parties are under an obligation to receive and hold such Confidential Information in confidence.

12.2 Exceptions. The provisions of this Article XII do not apply to information within one or more of the following categories:

12.2.1 Public Domain. Information that was in the public domain prior to the receiving Party's receipt or that subsequently becomes part of the public domain by publication or otherwise, except by the receiving Party's or its Affiliate's wrongful act.

12.2.2 Prior Receipt. Information that the receiving Party can demonstrate was in its possession prior to receipt thereof from the disclosing Party so long as such possession did not result from a violation of a confidentiality obligation.

12.2.3 Third Party Delivery. Information received from a third party having no obligation of secrecy with respect thereto.

12.2.4 Permitted Disclosures. Information disclosed by an Owner to Lenders or prospective Lenders, equity investors or prospective equity investors, prospective purchasers, consultants, attorneys, accountants and other designated agents in each case on a confidential, need-to-know-basis.

12.2.5 Regulatory Filings. Information required to be disclosed by an Owner in connection with any required regulatory or administrative filings.

12.3 Required Disclosure. Notwithstanding the forgoing, any receiving Party required by law, rule, regulation, subpoena or order, or in the course of regulatory, administrative or judicial proceedings, to disclose Confidential Information that is otherwise required to be maintained in confidence pursuant to this Article XII, may make disclosure notwithstanding the provisions of this Article XII. Prior to doing so, the receiving Party, promptly upon learning of the requirement, shall notify the disclosing Party of the requirement and cooperate to the maximum extent practicable to minimize the disclosure of Confidential Information. Any receiving Party disclosing Confidential Information pursuant to this Section 12.3 shall use commercially reasonable efforts, at the disclosing Party's cost, to obtain proprietary or confidential treatment of Confidential Information by the third party to whom the information will be disclosed, and to the extent such remedies are available, shall use commercially reasonable efforts to seek protective orders limiting the dissemination and use of Confidential Information. Nothing in this Agreement is intended to prevent the disclosing Party from appearing in any proceedings and objecting to the disclosure.

ARTICLE XIII - TITLE, DOCUMENTS AND DATA

13.1 Materials and Equipment. Operator shall use commercially reasonable efforts to cause title to all materials, equipment, supplies, consumables, spare parts and other items purchased or obtained by Operator on an Operating Cost basis ("Facility Equipment") to pass directly from the vendor or supplier to, and vest in, each Owner to the extent of such Owner's Ownership Interest. Operator shall have no title or other claim to such items other than in its capacity as an Owner of the Facility.

13.2 Documents. All Manuals, operational data, Facility drawings, Operator reports and records and other materials and documents (both paper and electronic) created by Operator, its Affiliates or their respective employees, representatives or contractors in connection with performance of the Services are the property of each Owner to the extent of its Ownership Interest in the Facility. All such materials and documents shall be available for review by the Non-Operator Owner at all reasonable times during development and promptly upon completion. All such materials and documents required to be submitted for the approval of the Operating Committee shall be prepared and processed in accordance with the requirements and specifications set forth herein. However, the Operating Committee's approval of materials and documents submitted by Operator shall not relieve Operator of its responsibility to perform it obligations under this Agreement.

13.3 Proprietary Information. Where materials or documents prepared or developed by Operator or its Affiliates, or their respective employees, representatives or contractors, contain proprietary or technical information, systems, techniques or know-how previously developed by them or acquired by them from third parties (the "Operator Proprietary Information"), the Non-Operator Owner shall have an irrevocable license to use such Operator Proprietary Information to the extent necessary for the operation or maintenance of the Facility at no additional cost to the Non-Operator Owner.

ARTICLE XIV - MISCELLANEOUS PROVISIONS

14.1 Assignment. This Agreement shall not be assignable, in whole or in part, by a Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed, except that this Agreement may be (i) collaterally assigned by an Owner without such consent to a Lender in connection with such Lender's financing of such Owner's Ownership Interest and (ii) assigned by an Owner (in whole but not in part) without such consent to the transferee of its Ownership Interest, whether by merger, division, sale of equity interest, or otherwise, in each case, solely to the extent that such transfer of its Ownership Interest is in accordance with the Ownership Agreement. Any assignment pursuant to this Section 14.1 shall not relieve the assigning Party of any of its obligations under this Agreement that arose prior to the date of such assignment. This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties.

14.2 Effect of Bankruptcy. The Parties intend that, in the event of a Bankruptcy, payments required under this Agreement shall be deemed to be administrative expenses as defined in 11 U.S.C. §503.

14.3 Access. The Non-Operator Owner and Lenders and their agents and representatives shall have access to the Facility, all Facility operations and any documents, materials and records and accounts relating to the Facility operations for purposes of inspection and review. Upon the request of the Non-Operator Owner and its agents and representatives, Operator shall provide such Persons with access to all data and logs Operator maintains regarding the Facility. During any inspection or review of the Facility, the Non-Operator Owner and Lenders and their agents and representatives shall comply with all of Operator's safety and security procedures, and shall conduct inspections and reviews in such a manner as to cause minimum interference with Operator's activities. Operator also shall cooperate with the Non-Operator Owner in allowing its agents and representatives access to the Facility.

14.4 Subcontractors; Subagents.

14.4.1 Operator shall have the right to hire third-party subcontractors or to acquire rights from third parties to provide all or part of any Services hereunder without the prior consent of the Operating Committee. The cost of such third-party Services or acquisition of such rights shall be Operating Costs in accordance with Section 7.2.1. Operator, for the benefit of the Owners, shall use commercially reasonable efforts to obtain from all subcontractors and suppliers, including any subcontractors and suppliers who are Affiliates of Operator, customary guarantees and warranties to the extent available with respect to the equipment, goods, services or other work provided or performed by such subcontractor and supplier. Notwithstanding the

foregoing or anything to the contrary, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned or delayed, procure or enter into any agreement with any third-party subcontractor with respect to the Services with a cost included in the Operating Costs in excess of $500,000 in any Year. Each agreement with a third-party subcontractor shall reflect costs that are on an arm's-length basis and no greater in any material respect than Operator could reasonably provide on Operator's own (or through its Affiliates) without material hardship.

14.4.2 Operator may delegate any obligations hereunder to one or more Affiliates, or designate one or more Affiliates as subagents for the performance of its obligations, and, to the extent such Affiliate performs or acts as subagent with respect to any obligation of Operator hereunder, such Affiliate shall enjoy the rights and benefits of Operator pursuant to this Agreement (including, for the avoidance of doubt, Article X and Article XI hereof). Notwithstanding the foregoing, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned, or delayed, procure or enter into any agreement with any of its Affiliates (other than for Facility Personnel to perform the Services) (i) with a committed value in excess of $500,000 or (ii) that may not be cancelled by or at the request of Non-Operator Owner upon no more than ninety (90) days' notice without penalty. Each agreement with an Affiliate of Operator, other than for Facility Personnel to perform the Services, shall reflect costs that are no greater in any material respect than Operator could obtain on an arm's-length basis with a bona fide third party at such time. Notwithstanding anything to the contrary in this Agreement, Operator shall be permitted to delegate any of its rights, duties and obligations under this Agreement and the Ownership Agreement to AEPSC without the consent of Non-Operator Owner, subject to Section 14.4.3.

14.4.3 If one or more Affiliates perform Services as subagents or subcontractors hereunder, Service Provider shall remain liable for such Affiliate's obligations hereunder and for any breach by such Affiliate of the terms of this Agreement (to the same extent as if such breach was committed by Service Provider).

14.5 Not for Benefit of Third Parties. Except where a contrary intention is expressly stated, this Agreement and each provision hereof are for the exclusive benefit of the Parties that executed this Agreement and not for the benefit of any third party.

14.6 Force Majeure.

14.6.1 Events Constituting Force Majeure. A "Force Majeure Event" is any event that (i) restricts or prevents performance under this Agreement, (ii) is not within the reasonable control of the Party affected or caused by the fault or negligence of the affected Party and (iii) cannot be overcome or avoided by the exercise of due care. Force Majeure Events include the following, so long as in each case the requirements of the foregoing clauses (i), (ii) and (iii) are satisfied, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, tornado or other unusually severe storm or environmental conditions, epidemic, war (whether declared or undeclared), terrorism (whether domestic or foreign, state-sponsored or otherwise), revolution, insurrection, riot, civil disturbances, protests, sabotage (but not including any sabotage involving personnel of Operator), work stoppages (i.e., strikes) (but not including any work stoppages or strikes involving any personnel of Operator, whether on-site or off-site),

accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Facility, other acts or omissions of any Governmental Authority, including any form of compulsory government acquisition or condemnation of all or part of the Facility (including a "taking"), restraint by court order, changes in Applicable Law that affect performance under this Agreement, other acts of Governmental Authorities including in response to any of the foregoing. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default in respect to any obligation if and to the extent that performance of such obligation is prevented by a Force Majeure Event. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations.

14.6.2 Notice. If a Party's ability to perform its obligations under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event, its cause, its anticipated duration and any action being taken to avoid or minimize its effect and confirm the same in writing within three (3) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) work diligently to remove the cause of the Force Majeure Event or to lessen its effect.

14.6.3 Scope. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than necessary. The excused Party shall use its reasonable best efforts to remedy its inability to perform.

14.7 Dispute Resolution. Any and all disputes shall be resolved pursuant to the dispute resolution procedures set forth in the Ownership Agreement.

14.8 Amendments. No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Parties.

14.9 Survival. Notwithstanding any provisions to the contrary, the obligations set forth in Article VII and Article VIII, Article X, Article XI and Article XII, Article XIV the limitations on liabilities set forth in Article XI will survive, in full force, the expiration or termination of this Agreement.

14.10 No Waiver. No delay, waiver or omission by the Non-Operator Owner or Operator to exercise any right or power arising from any breach or default by the Non-Operator Owner or Operator with respect to any of the terms, provisions or covenants of this Agreement shall be construed to be a waiver by the Non-Operator Owner or Operator of any subsequent breach or default of the same or other terms, provisions or covenants on the part of the Non-Operator Owner or Operator.

14.11 Notices. Any written notice required or permitted under this Agreement shall be deemed to have been duly given on the date of receipt, and shall be either delivered personally to the Party to whom notice is given, or mailed to the Party to whom notice is to be given, by facsimile, courier service or first-class registered or certified mail, return receipt requested,

postage prepaid, and addressed to the addressee at the address indicated below, or at the most recent address specified by written notice given in the manner provided in this Section 14.11:

If to Operator:

14.12 Representations and Warranties. Each Party represents and warrants to the other Party that, as of the date hereof:

14.12.1 Existence. It is duly organized and validly existing under the laws of the state of its organization and has all requisite power and authority to own its property and assets and conduct its business as presently conducted or proposed to be conducted under this Agreement.

14.12.2 Authority. It has the power and authority to execute and deliver this Agreement, to consummate the transactions contemplated hereby and to perform its obligations hereunder.

14.12.3 Validity. It has taken all necessary action to authorize its execution, delivery and performance of this Agreement, and this Agreement constitutes the valid, legal and binding obligation of such Party enforceable against it in accordance with its terms, except as such enforcement may be limited by Bankruptcy, insolvency, moratorium or similar laws affecting the rights of creditors or by general equitable principles (whether considered in a proceeding in equity or at law).

14.12.4 No Conflict. Neither the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, nor the fulfillment of the terms and conditions hereof, conflicts with or violates any provision of its constituting documents.

14.12.5 No Consent. No consent or approval (including any Permit that such warranting Party is required to obtain) is required from any third party (including any Governmental Authority) for either the valid execution and delivery of this Agreement, or the performance by such Party of its obligations under this Agreement, except such as have been duly obtained or will be obtained in the ordinary course of business.

14.12.6 No Breach. None of the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, or the fulfillment of the terms and conditions hereof either conflicts with,

violates or results in a breach in any material respect of, any Applicable Law currently in effect, or conflicts with, violates or results in a breach of, or constitutes a default under or results in the imposition or creation of, any lien or Encumbrance under any material agreement or instrument to which it is a party or by which it or any of its properties or assets are bound.

14.12.7 No Material Claims. It is not a party to any legal, administrative, arbitral or other proceeding, investigation or controversy pending or threatened that would adversely affect such Party's ability to perform its obligations under this Agreement.

14.13 Additional Representation and Warranty by Operator. Operator further represents and warrants to the Non-Operator Owner that it has, or has obtained through the retention of a qualified operations and maintenance service provider, substantial expertise and experience in the operation and maintenance of comparable power generation facilities and it, or its applicable subcontractor, is fully qualified to provide such services at the Facility in accordance with the terms of this Agreement.

14.14 Counterparts. The Parties may execute this Agreement in counterparts that, when signed by each of the Parties, constitute one and the same instrument. Thereafter, each counterpart shall be deemed an original instrument as against any Party who has signed it. Delivery of an executed counterpart of this Agreement by facsimile or electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

14.15 Governing Law; Venue; Waiver of Jury Trial. The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of New York, exclusive of the conflicts of law provisions thereof that would require the application of the laws of a different jurisdiction. Each Party hereby agrees that any Action arising out of or relating to this Agreement brought by a Party(or any of their respective successors or assigns) shall be brought and determined in any state or federal court sitting in the State of New York, within the Borough of Manhattan, City of New York, and the Parties hereby irrevocably submit to the exclusive jurisdiction of the aforesaid courts for themselves and with respect to their property, generally and unconditionally, with regard to any such Action arising out of or relating to this Agreement and the transactions contemplated hereby, and the appellate courts from any thereof in connection with any action arising out of or relating to this Agreement or any other agreement related to the Facility or any Facility asset and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or that such action was brought in an inconvenient court. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

14.16 Interpretation. Titles or captions contained in this Agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, describe or otherwise affect the scope or meaning of this Agreement or the intent of any provision hereof. All exhibits and appendices attached hereto are considered a part hereof as though fully set forth

herein. This Agreement was jointly drafted and negotiated by the Parties. In the event of a dispute, this Agreement shall not be construed against either Party based upon its drafting.

14.17 Severability. If any provision of this Agreement, or the application of any such provision to any Person or circumstance, is held invalid by any court or other forum of competent jurisdiction, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those as to which it is held invalid, shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner materially adverse to a Party. Upon any such determination of invalidity, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that this Agreement is consummated as originally contemplated to the greatest extent possible.

14.18 Cooperation in Financing. Operator shall execute and deliver any customary and reasonable agreement and consent to assignment, together with an opinion of counsel at Non-Operator Owner's expense, as may be reasonably requested by Non-Operator Owner in connection with any financing of the Facility. Operator shall promptly respond to reasonable requests, including requests for management presentations, by Non-Operator Owner and any of its Lenders or their representatives, in each case at Non-Operator Owner’s sole cost and expense, for information regarding the Operator and its performance of its duties hereunder and the operation, maintenance and administration of the Facility. Operator agrees to use commercially reasonable efforts to cooperate with any of Non-Operator Owner’s Lenders and their representatives and to provide such Lenders and representatives with reasonable access to and tours of the Facility (including review of documents, materials, records and accounts), in each case at Non-Operator Owner’s sole cost and expense.

[*Signature page follows.*]

IN WITNESS WHEREOF, the Parties have executed this Agreement through their duly authorized officers as of the date set forth in the preamble to this Agreement.

APPENDIX A – SCOPE OF SERVICES

Routine Services	Provide operational services as reasonably necessary for electrical power generation.
Detailed Programs	Implement Operator human resources program. Implement Operator-drafted, Owner-approved programs in safety, administration, maintenance, and training. Implement Facility's existing programs in operating, maintenance, chemistry, NERC and environmental compliance (or, at the Operating Committee's request, develop or enhance such programs at actual cost and implement). Ensure compliance with NERC requirements, Environmental Law, Applicable Law, and all Permits.
Routine Maintenance	Perform routine and preventive maintenance actions on all Facility systems and equipment in accordance with vendor instructions and the maintenance plan for the Facility. This program includes: **Service Checks** – Conduct visual equipment inspections and log significant parameters such as pressures, temperatures, and flow rates. Trend and analyze this information as appropriate. **Routine and Fixed Interval Maintenance** –Identify preventive maintenance requirements. Schedule and assign routine maintenance during Facility operation, planned outages, and forced or unscheduled outages.
Predictive Maintenance Program	As appropriate, conduct/oversee predictive maintenance within the cost-effective capability of the Facility Personnel. For those maintenance requirements that are not cost-effective for the Facility Personnel, oversee predictive maintenance services provided by vendors.
Major Maintenance and Repairs	In coordination with and support of the Facility Agreements and generation plan, arrange for scheduled inspections and overhauls on major equipment. Retain vendors for the benefit of the Owners for unscheduled major repairs as required and manage and oversee repairs and modifications.
Capital Improvements	Conduct/oversee all capital improvements. As appropriate, retain vendors for the benefit of the Owners to design, construct and implement capital improvements.
Facility Outages	Use commercially reasonable efforts to manage all Facility outages (planned, unscheduled, forced) to optimize outage duration and impact on production: **Task Assignment** – Identify and schedule all maintenance that requires a Facility outage or equipment to be taken out of service.

	Work Schedule – Develop and implement a schedule to track material outage preparations, work and testing, including corrective maintenance actions, contractor work and scheduled preventive maintenance. Conduct preparations to support this plan, including ordering and receiving required spare parts.
Assistance to the Non-Operator Owner and Operating Committee	Provide assistance to the Non-Operator Owner and the Operating Committee, as reasonably requested with the execution of the Non-Operator Owner's and the Operating committee's duties relative to operation of the Facility.
Facility Administration	Conduct administration to meet Operator requirements and Owners' goals, including: **Budgets** – Prepare annual Budgets and submit them for Operating Committee approval in accordance with the Ownership Agreement and this Agreement. Following approval, manage operations and expenditures to comply with each Budget. Generate budget variance reports, as required. **Procurement** – Establish and implement a purchasing system. Procure, for the benefit of the Owners, including negotiations and contracting, for all materials, equipment, chemicals, supplies, services, parts, and other miscellaneous items required for the provision of the Services. Pay all invoices in a timely manner. Provide credit support as required by third parties for the operation of the Facility, including contract counterparties and Governmental Authorities. Minimize Owner costs as much as feasible. **Inventory Control** – Implement a cost-effective inventory control system designed to ensure that spare parts, materials, and supplies are properly stored and accounted for and that adequate supplies are available at all times to support the provision of the Services. **Personnel Matters** – In compliance with Operator programs and policies, manage all payroll and employee relations, labor relations, and independent contractor issues, as required. These tasks include: employment; compensation and benefits; initial training; and employee and independent contractor relations. Provide reasonable support to recruit, hire, transfer, or otherwise acquire and retain qualified Facility Personnel to maintain the staffing levels and skill mix required for successful long-term provision of the Services. **Community Relations** – In coordination with and with the approval of the Operating Committee, conduct a community relations program to establish the Facility and its employees as "good citizens" in the local community.

	Regulatory – Perform all duties set forth in Section 7.8 of the Ownership Agreement with respect to Emission Allowances (as defined therein).
Work Assignment	Assign work to either Facility Personnel or vendors as cost-effective and appropriate based on overall guidance from the Operating Committee. Normally, Facility Personnel conduct preventive maintenance and actions requiring a high degree of Facility knowledge and vendors perform tasks needing equipment or expertise that are not cost-effective to maintain at the Facility. Vendors also perform tasks that make sense to minimize outage time and costs.
Buildings and Grounds	Arrange for janitorial, garbage pickup and landscape services and maintain all access roads, office buildings, and other structures in reasonable repair.
Reports	Prepare and submit operation and maintenance service reports as requested relative to performance, including environmental compliance records, maintenance and repair status, Facility operating data, and any other information reasonably requested by the Operating Committee or the Non-Operator Owner.
Security	Implement or arrange for implementation of security measures in accordance with the Operating Committee-approved Facility security plan.
Safety	Continue to implement Corporate and Plant Level Safety Programs including on-site visits and discussions at the facility.
PJM Capacity Analysis	Analysis and plant level information to PJM as part of PJM's FRR or RPM Capacity Market requirements
Information Systems	Manage the Facility's information technology infrastructure, including phone systems, internet connectivity, hardware and software. Implement or arrange for implementation of cybersecurity policies and procedures in compliance with NERC requirements and Applicable Law, in accordance with the Operating Committee-approved Facility cybersecurity plan.
Training Program	Implement a continuing program of training designed to orient new Facility Personnel, refresh/cross-train existing Facility Personnel, qualify/re-qualify Facility Personnel, and keep all Facility Personnel aware of Operating Committee -approved Facility safety requirements and emergency procedures. This program includes specialty skills training.
Drawing/Manual Maintenance	Maintain the Facility library and update the Manuals and vendor service manuals. Update (or arrange for updating) Facility drawings to reflect changes to the as-built configuration. In addition to

	document management, maintain physical Facility configuration control.
Fuel Purchasing and Handling	• Procure coal, reagents, fuel oil supply or transportation service agreements as needed to operate the Facility and establish and maintain reserves of coal in common stock piles of such quality and in such quantities as the Operating Committee shall determine • Contract administration for Fuel supply contracts along with legal review. • Third Party Settlements of fuel related supply and inventory tracking in ComTrac system • Joint Books Accounting to prepare information for billing among co-owners per agreement • Analysis of fuel related costs for data requests from regulatory bodies or joint owner • Provide fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by the Facility during each month. • Receive coal and provide fuel handling • Fuel coordinator functions to review fuel quality with third party suppliers at coal or limestone facilities. • Administer and reconcile volumes of all fuel with suppliers • Administer and comply with the requirements set forth in the Facility's fuel agreements, including quality testing and invoice review and approval • Administer and comply with the requirements set forth in the Facility's coal ash, gypsum and combustion byproduct disposal and sales agreements, including invoice review and approval
Day Ahead and Real Time Market Operations	• Unit Generation Dispatch – Monitor signals and take direction from PJM for generating units. Relay these directions, commitments and settings to the Unit Operators and Controls. Relay information on real time unit conditions to Transmission Owner (TO) and PJM. • GADS Reporting – Create GADS events as they are scheduled

	or occur. Submit monthly event reporting as required by NERC and PJM. • Outage Support and Communications to PJM – Relay outage/curtailment information from plant personnel to PJM. Schedule maintenance and planned outages/curtailments, and maintain updates as they arise. • Unit Characteristic Updates to PJM – Provide any relevant configuration updates related to generating units to PJM that may occur. • Telemetry – Maintain current real time telemetry to/from the plant, PJM and Market Operations control center.
Administration of Contracts	• Administer, perform and enforce all contractual obligations and arrangements, including all warranties applicable thereto, entered into by Operator for the benefit of the Owners with respect to the Facility • Act as agent on behalf of the Non-Operating Owner with respect to the administration, performance and enforcement of any contracts or purchase orders (including fuel supply or transportation contracts) with respect to the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date
Insurance	• Procure on behalf of each Owner such property and other insurance policies as required by the insurance program established by the Operating Committee in accordance with the Ownership Agreement.
Decommissioning	• Manage and contract with vendors and other parties to perform Decommissioning Work. This includes the management of required regulatory filings, permitting, engineering assessments, and the contracting for demolition and or liability transfers. Upon mutual agreement between Operator and the Operating Committee, Operator may conduct all or a portion of the Facility and/or Site Decommissioning from its and its Affiliates resources.

MITCHELL PLANT OPERATIONS AND MAINTENANCE AGREEMENT

This OPERATIONS AND MAINTENANCE AGREEMENT (this "Agreement"), dated as of [_____] (the "Effective Date"), is entered by and between WHEELING POWER COMPANY, a West Virginia corporation (in its capacity as the operator of the Facility, "Operator" and in its capacity as an owner of the Facility, "WPCo") and KENTUCKY POWER COMPANY, a Kentucky corporation qualified as a foreign corporation in West Virginia (in its capacity as an owner of the Facility, the "Non-Operator Owner" and, together with WPCo, each an "Owner" and, together, the "Owners").

RECITALS

1. Owners each own an undivided Ownership Interest in the Facility (these and other capitalized terms are defined in Article II).

2. On the date hereof, WPCo and the Non-Operator Owner have entered into that certain Mitchell Plant Ownership Agreement, setting forth the respective rights, duties and obligations of the Owners with respect to each other and the Facility in their capacities as the Owners thereof (the "Ownership Agreement").

3. Pursuant to the Ownership Agreement, WPCo has agreed to manage the day-to-day operations and maintenance of the Facility as Operator pursuant to the terms of this Agreement.

4. Operator and the Non-Operator Owner desire to execute this Agreement to set forth the respective rights, duties and obligations of WPCo, in its capacity as Operator of the Facility, and the Non-Operator Owner, in its capacity as an Owner of an undivided interest as a co-tenant in the Facility.

NOW, THEREFORE, in consideration of the foregoing premises, and of the mutual covenants, undertakings and conditions set forth below, the Parties agree as follows:

ARTICLE I - AGREEMENT

1.1 Agreement. This Agreement consists of the recitals, and the terms and conditions set forth in this Agreement, as well as the appendices that are referenced in the table of contents and attached to this Agreement.

1.2 Relationship of the Parties. Operator shall perform the Services in its capacity as an independent contractor of the Owners and as principal on its own behalf as an Owner. Subject to any limitations set forth in this Agreement and the Ownership Agreement, the Owners delegate to Operator, and Operator accepts from the Owners, the responsibility of providing the Services at the Facility. The Owners and Operator agree that the scope of delegation is strictly limited to the matters set forth in this Agreement and the Ownership Agreement. Without limiting the generality of the foregoing, the Owners retain the ultimate authority and obligation to determine whether and to what extent the Facility operates, and Operator shall not cause the Facility to generate power except as expressly directed to do so by the Owners or any dispatching authority specified by the Owners in accordance with the Ownership Agreement. For the

avoidance of doubt, any provision of this Agreement requiring the delegation of authority, direction, consent or authorization with respect to the Owners shall mean the delegation, direction, consent or authorization of both Owners (or the Operating Committee) in accordance with the Ownership Agreement (except to the extent the Ownership Agreement gives exclusive authority to the Non-Operator Owner thereunder, in which case such delegation of authority, direction, consent or authorization with respect to the Owners shall mean exclusively the delegation, direction, consent or authorization of the Non-Operator Owner).

1.3 Entire Agreement. This Agreement, together with the Ownership Agreement, contains the entire agreement between the Parties with respect to Operator's provision of Services at the Facility and supersedes all prior negotiations, undertakings and agreements.

ARTICLE II - DEFINITIONS

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears, capitalized terms have the meanings specified in this Article II. The singular includes the plural, as the context requires. The terms "includes" and "including" mean "including, but not limited to." The terms "ensure" and "reasonable efforts" will not be construed as a guarantee, but will imply only a duty to use reasonable efforts and care, consistent with Prudent Operation and Maintenance Practices, and will include reasonable expenditures of money and at least such efforts as Operator would undertake for its own assets, services or maintenance, or for services provided to an Affiliate. "Gross negligence" will not be construed as simple or ordinary negligence, it being the intent of the Parties to preserve a distinction between errors made inadvertently while attempting to perform with due care and actions taken with a knowing disregard for a foreseeable risk. "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day. "Month" (regardless of capitalization) shall mean a calendar month. References to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement, except where expressly stated otherwise.

"AEP" shall mean American Electric Power Company, Inc., a New York corporation and an Affiliate of WPCo.

"AEPSC" shall mean American Electric Power Service Corporation, a New York corporation and an Affiliate of WPCo.

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, controls, is controlled by, or is under common control with such Person. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise. The Non-Operator Owner shall not be deemed an Affiliate of the Operator.

"Agreement" has the meaning set forth in the preamble to this Agreement.

"Applicable Law" means all laws (including common law), statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, Governmental

Approvals, Permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over an Owner, any other Person or entity (as to that Person or entity), this Agreement, any Facility asset or the Facility, as applicable.

"Bankruptcy" means a situation in which (i) a Person files a voluntary petition in bankruptcy or is adjudicated as bankrupt or insolvent, or files any petition or answer or consent seeking any reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable United States federal, state or other statute or law relative to bankruptcy, insolvency or other relief for debtors, or seeks or consents to or acquiesces in the appointment of any trustee, receiver, conservator or liquidator of such Person or of all or any substantial part of its properties (the term "acquiesce," as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within fifteen (15) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction enters an order, judgment or decree approving a petition filed against any Person seeking a reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States federal bankruptcy act, or any other present or future Applicable Law relating to bankruptcy, insolvency or other relief for debtors, and such Person acquiesces and such decree remains unvacated and unstayed for an aggregate of sixty (60) days (whether or not consecutive) from the date of entry thereof, or a trustee, receiver, conservator or liquidator of such Person is appointed with the consent or acquiescence of such Person and such appointment remains unvacated and unstayed for an aggregate of sixty (60) days, whether or not consecutive; (iii) a Person admits in writing its inability to pay its debts as they mature; (iv) a Person gives notice, to any Governmental Authority of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) a Person makes a general assignment for the benefit of creditors or takes any other similar action for the protection or benefit of creditors (other than in the ordinary course of such party's business).

"Budget" means an annual operating budget and annual capital budget adopted or amended pursuant to the Ownership Agreement.

"Business Day" means any day other than (i) a Saturday or Sunday or (ii) a day on which banks in West Virginia or Ohio are required or permitted to be closed.

"Claims" means any and all claims, assertions, demands, suits, investigations, inquiries, and proceedings.

"Confidential Information" means, with respect to each Party, all written or oral information of a proprietary, intellectual or similar nature, relating to the business, projects, operations, activities or affairs of a Party and its Affiliates, whether of a technical or financial nature or otherwise (including environmental assessment reports, financial information, business plans and proposals, ideas, concepts, trade secrets, know-how, processes, pricing of services or products, and other technical or business information, whether concerning this Agreement, each Party's respective businesses or otherwise) that has not been publicly disclosed and that the receiving Party acquires directly or indirectly from the disclosing Party.

"Cost Allocation Manual" means the Cost Allocation Manual of Operator and its Affiliates, as may be amended from time to time, as filed with FERC and, to the extent required, the WVPSC.

"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the generating units and other property, plant, and equipment comprising the Facility, including any common facilities associated with each generating unit that are to be permanently removed from service, the restoration of the Site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.

"Decommissioning Work" shall mean all work reasonably necessary or undertaken to Decommission the Facility, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Facility in accordance with Applicable Law.

"Dollars" means United States Dollars, the lawful currency of the United States of America.

"Due Date" means, with respect to any Operator invoice, the date that is thirty (30) days following the date on which Operator submits the invoice to the Non-Operator Owner in accordance with Article VII. If such date does not fall on a Business Day, then the Due Date shall be the first Business Day after such date.

"Effective Date" means the date set forth in the preamble to this Agreement.

"Emergency" has the meaning set forth in Section 3.8.

"Encumbrance" means (i) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (ii) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary Claim; and (iii) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Environmental Law" means any Applicable Law pertaining to (i) the regulation or protection of employee health or safety, public health or safety, or the indoor or outdoor environment; (ii) the conservation, management, development, control or use of land, natural resources, or wildlife; (iii) the protection or use of surface water or ground water; (iv) the management, manufacture, possession, presence, use, generation, treatment, storage, disposal, transportation, or handling of, or exposure to any Hazardous Material; or (v) pollution (including release of any hazardous substance to air, land, surface water and ground water), including the Comprehensive Environmental Response, Compensation, and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. §§ 9601 et seq.), the Hazardous Materials Transportation Act (49 U.S.C. §§ 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. §§ 6901 et seq.), the Toxic Substances Control Act

(15 U.S.C. §§ 2601 et seq.), the Clean Water Act (33 U.S.C. §§ 7401 et seq.), the Clean Air Act, as amended (42 U.S.C. §§ 7401 et seq.), the Safe Drinking Water Act (42 U.S.C. §§ 300f et seq.), the Uranium Mill Tailings Radiation Control Act (42 U.S.C. §§ 7901 et seq.), the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§ 136 et seq.), all as now or hereafter amended or supplemented, and any regulations promulgated thereunder, and any other similar federal, state, or local statutes, rules and regulations.

"Environmental Liability" has the meaning set forth in Section 10.3.1.

"Facility" means the Mitchell Power Generation Facility consisting of two (2) coal-fired generating units, each having a nominal nameplate capacity of 800 megawatts, and associated plant, equipment and real estate, located in Moundsville, West Virginia, and includes all electrical or thermal devices, and related structures and connections that are located at the Site and used for the production of power and the transportation and handling of fuel for the benefit of the Owners, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam.

"Facility Agreements" means this Agreement, the Ownership Agreement, all applicable interconnection agreements, fuel supply agreements, coal ash, gypsum and other combustion byproduct disposal or sales agreements, all applicable equipment maintenance agreements in effect or entered into, and as amended, supplemented or modified, from time to time by the Operator or the Owners relating to the Facility, all equipment contracts with regard to warranties and equipment design and specifications, and any other agreement reasonably designated by the Owners as a "Facility Agreement."

"Facility Equipment" has the meaning set forth in Section 13.1.

"Facility Personnel" means those individuals who are employed by Operator or its Affiliates to perform services in respect of the Facility under this Agreement.

"Force Majeure Event" has the meaning set forth in Section 14.6.1.

"Governmental Approval" means any consent, license, approval, exemption, Permit, "no objection certificate" or other authorization of whatever nature that is required to be granted by any Governmental Authority or any third party with respect to the siting, construction, operation, service and maintenance of the Facility in accordance with this Agreement, or otherwise necessary to enable an Owner or Operator to exercise its rights, or observe or perform its obligations, under this Agreement.

"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision, department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.

"Hazardous Materials" means (a) any petroleum or petroleum products, radioactive materials, asbestos in any form that is or could become friable, urea formaldehyde foam insulation, 1.4 Dioxane, per-and polyfluoroalkyl substances, and transformers or other equipment

that contain dielectric fluid containing polychlorinated biphenyls; (b) any chemicals, materials or substances that are now or hereafter become defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollution," "pollutants," "regulated substances," or words of similar import under Applicable Law; or (c) any other chemical, material, substance or waste declared to be or regulated as hazardous, toxic or polluting material by any Governmental Authority, exposure to which is now or hereafter prohibited, limited or regulated by any Governmental Authority.

"Late Payment Rate" means a rate of interest per annum equal to the lesser of (i) the "prime" rate of interest per annum for corporate loans as published in The Wall Street Journal under "Money Rates" as such rate may be in effect from time to time during the period the delinquent amount remains outstanding plus four (4) percentage points (4%) per annum or (ii) the maximum rate of interest permitted by Applicable Law.

"Lender" means any entity or entities providing financing or refinancing to an Owner under any financing agreements in connection with the construction or permanent financing for the Facility, and their permitted successors and assigns.

"Liabilities" means, collectively, any and all Claims, damages, judgments, losses, obligations, liabilities, actions and causes of action, fees (including reasonable attorneys' fees and disbursements), costs (including court costs), expenses, penalties, fines and sanctions.

"Manuals" means Facility Equipment manuals, system descriptions, system operating instructions, equipment maintenance instructions and pertinent design documentation created by the Persons that constructed the Facility or manufactured its equipment, and the operation and maintenance procedures and Facility systems descriptions, training, safety, chemistry and environmental manuals, together with the documents and schedules described in such manuals.

"NERC" means the North American Electric Reliability Corporation.

"Non-Operator Owner" has the meaning set forth in the preamble to this Agreement.

"Non-Operator Owner Indemnitees" has the meaning set forth in Section 10.1.

"Operating Committee" means the "Operating Committee" as composed from time to time pursuant to and defined in the Ownership Agreement.

"Operating Costs" has the meaning set forth in Section 7.2.1.

"Operator" has the meaning set forth in the preamble to this Agreement.

"Operator Indemnitees" has the meaning set forth in Section 10.2.

"Operator Proprietary Information" has the meaning set forth in Section 13.3.

"Owner" has the meaning set forth in the preamble to this Agreement.

"Ownership Agreement" has the meaning set forth in the recitals to this Agreement.

"Ownership Interest" has the meaning set forth in the Ownership Agreement.

"Party" means a party to this Agreement and "Parties" means, collectively, the parties to this Agreement, unless the context clearly requires a different construction.

"Permit" means any permit, license, consent, approval or certificate that is required or used for the operation or maintenance of the Facility or the performance of any Service and includes Permits required under Environmental Laws.

"Person" means any Party, individual, partnership, corporation, association, limited liability company, business trust, government or political subdivision thereof, governmental agency or other entity.

"Plan" means an annual operating plan adopted or amended pursuant to Section 5.3.

"Plant Manager" means the production/plant manager for the Facility selected in accordance with Section 3.6, Section 8.5 or Section 8.6.

"Project Manager" means the individual appointed in accordance with Section 5.1.

"Prudent Operation and Maintenance Practices" means those practices, methods and acts generally employed in the power generation industry with respect to facilities of similar type, fuel characteristics and geographical location as the Facility, that at the particular time in question, in the exercise of reasonable judgment in light of the facts known at the time the decision in question was being made, would have been expected to accomplish the desired result of such decision consistent with the goals established in a Budget and Plan, and the requirements of Applicable Law, System Operators, equipment manufacturer's recommendations, reliability, safety, environmental protection, economy and expedition. With respect to Operator, Prudent Operation and Maintenance Practices are not limited to the optimum practices, methods or acts to the exclusion of all others, but rather include a spectrum of possible practices, methods or acts commonly employed in the coal-fired power generation industry, including taking reasonable actions to provide a sufficient number of Persons who are available and adequately trained to provide Services at the Facility, and timely perform preventive, routine, and non-routine maintenance and repairs, as exemplified and generally described in Appendix A, subject, in all cases, to the Operator's duties and the limitations on Operator's authority, as set forth in this Agreement and the Ownership Agreement.

"Qualified Replacement Operator" shall mean a Person that:

(i) has operated for a period of at least three (3) years, and continues to operate, coal and/or natural gas power generation facilities with an aggregate electricity output of at least one thousand (1,000) megawatts and at least one of those facilities is a coal power generation facility with an aggregate electricity output of at least three hundred (300) megawatts (or has engaged a third party to operate the Facility who satisfies such operation standards); and

(ii) either has (a) a credit rating of "BBB-" or higher by S&P Global Ratings and "Baa3" or higher by Moody's Investor Service or (b) a tangible net worth of at least $500,000,000 (or has a direct or indirect parent who satisfies such financial standards).

"Services" has the meaning set forth in Section 3.1.

"Site" means the land on which the Facility is situated.

"Standards of Performance" means the standards for Operator's performance of the Services set forth in Section 3.3.

"System Operator" means any Person or regional transmission organization, such as PJM Interconnection, L.L.C., supervising the collective transmission or generation facilities of the power region in which the Facility is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

"Term" means the initial term together with any extensions.

"Termination Transition Period" has the meaning set forth in Section 8.5.1.

"WPCo" has the meaning set forth in the preamble to this Agreement.

"Year" means the calendar year. With respect to the Year in which the Effective Date occurs, a Year will be deemed to begin on the Effective Date and end on December 31st of such Year. If this Agreement terminates, the final Year will be deemed to end on the date that termination occurs.

ARTICLE III - RESPONSIBILITIES OF OPERATOR

3.1 Provision of Services. Operator shall operate and maintain the Facility and perform other duties as set forth in this Agreement and as directed by the Owners pursuant to the Ownership Agreement, including performing and, as applicable, contracting for the benefit of the Owners with suppliers and service providers to perform, the services set forth on Appendix A (collectively, the "Services") and agrees to be responsible for the day-to-day operation and maintenance of the Facility.

3.2 Procurement.

3.2.1 Operator shall sign contracts and purchase orders for goods and services to be delivered to the Facility in the name of Operator as agent for the Owners, and shall not contract in the name of the Non-Operator Owner without the Non-Operator Owner's prior written consent. Operator acknowledges that such contracts and purchase orders are for the benefit of the Owners and the Facility. Operator shall endeavor to negotiate with vendors from standard terms and conditions, including reasonable warranties for the benefit of the Owners.

3.2.2 The Non-Operator Owner shall use commercially reasonable efforts to obtain, promptly following the Effective Date, any and all consents of third parties required to assign, transfer or convey to Operator any contracts or purchase orders for goods and services

(including fuel supply and transportation) to be delivered to or used by the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date, which are reasonably required to be transferred to Operator for the performance of the Services. To the extent that, notwithstanding its commercially reasonable efforts, the Non-Operator Owner is unable to obtain any such required consent effective as of the Effective Date, and as a result thereof Operator shall be prevented by such third party from receiving the rights and benefits with respect to any such contract or purchase order intended to be transferred hereunder, or if any attempted assignment would adversely affect the rights of the Non-Operator Owner thereunder so that Operator would not in fact receive all such rights or the Non-Operator Owner would forfeit or otherwise lose the benefit of rights that the Non-Operator Owner is entitled to retain, the Non-Operator Owner and Operator shall cooperate to implement any lawful and commercially reasonable arrangement as the Non-Operator Owner and Operator shall agree, under which Operator would, to the extent practicable, obtain the claims, rights and benefits under such contract or purchase order and assume the burdens and obligations with respect thereto, including by the Non-Operator Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such contracts or purchase orders; provided, however, that the Non-Operator Owner and WPCo shall each bear its respective share of the costs and expenses under any such contract or purchase order in accordance with this Agreement and the Ownership Agreement. The Non-Operator Owner and Operator shall continue to cooperate to assign, transfer or convey to Operator any such contract or purchase order that remain held by the Non-Operator Owner and to otherwise arrange for Operator to directly contract with the applicable third party for any renewal contract or purchase upon the expiration or termination of any such contract or purchase order.

3.3 Standards for Performance of the Services. Operator shall perform the Services in accordance with (i) the Manuals, (ii) the applicable Budget and Plan, (iii) Applicable Laws, (iv) Prudent Operation and Maintenance Practices, (v) insurer requirements delivered to Operator by the Owners in writing, (vi) the requirements in the Facility Agreements (vii) this Agreement; and (viii) as directed by the Owners pursuant to the Ownership Agreement. Subject to the other provisions of this Agreement, Operator shall perform the Services and other obligations under this Agreement in a manner consistent with the Operating Committee's directions. The Parties acknowledge and agree that, subject to Operator's compliance with the Standards of Performance, Operator shall have no liability for acting or refraining to act in accordance with the directions of the Operating Committee, except to the extent caused by Operator's gross negligence, willful misconduct, fraud, willful violation of any Applicable Law, willful breach of this Agreement or the Ownership Agreement or other willful misconduct.

3.4 Dispatch. Operator shall use commercially reasonable efforts to comply with any applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement. Operator shall give the Operating Committee notice as soon as practicable of any inability of the Facility to make the requisite deliveries of energy, capacity or ancillary services and of Operator's plan to restore operation of the Facility. In the case of any interruption, curtailment or reduction in (i) supplies of fuel or (ii) acceptance of energy, capacity or ancillary services by the System Operator or in the case of any other dispatch constraint

imposed on the Facility, Operator shall notify the Non-Operator Owner as soon as practicable. Upon removal of the constraint, Operator shall use its commercially reasonable efforts to restore the availability of the Facility for dispatch consistent with applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement.

3.5 Licenses and Permits.

3.5.1 General. Operator shall review all Applicable Laws containing or establishing compliance requirements in connection with the operation and maintenance and Decommissioning of the Facility and shall use commercially reasonable efforts to obtain and maintain, for the benefit of both Owners, all Permits required by Applicable Law for the ownership, operation, maintenance and Decommissioning of the Facility and for Operator's performance of the Services, and shall (i) from time to time, notify the Operating Committee if Operator believes that a Permit is required by Applicable Law to be obtained by an Owner in its name in order to allow Operator to perform the Services and assist each Owner, at each Owner's written request and such Owner's sole cost and expense, in securing and complying with, as appropriate, all necessary Permits (and renewals of the same) which are required to be in an Owner's name, including those relating to air emissions, boiler operation, water usage, septic system operation, wastewater discharge, chemical and other waste (including Hazardous Materials) storage and disposal, emissions testing and safety, and (ii) initiate and maintain precautions and procedures reasonably necessary to comply with Applicable Laws. Any Permit held solely in the name of Operator shall, to the extent necessary for the other Owner's compliance with Applicable Law in its role as an Owner, be held by Operator for the benefit of both Owners. Any Permit held solely in the name of the Non-Operator Owner shall, to the extent necessary and consistent with Applicable Laws, be made available for the use of the Operator for the benefit of the Owners and, if reasonably necessary to facilitate Operator's operation and maintenance or Decommissioning of the Facility, the Non-Operator Owner shall cooperate with Operator to effect an assignment or other transfer of such Permit to Operator or otherwise submit such Permit modifications or updating information as necessary to reflect the role of Operator with respect to such Permit.

3.5.2 NERC Compliance. Operator (or an Affiliate thereof) shall register with NERC as the "Generator Owner" and "Generator Operator" for the Facility in accordance with 18 C.F.R. § 39.2(c) effective from and after [the Effective Date][1]. On and after [the Effective Date], Operator shall, or shall cause its applicable Affiliate to, (i) maintain compliance with all NERC reliability standards applicable to the Facility and all NERC rules applicable to Operator as Generator Owner and Generator Operator for the Facility in accordance with 18 C.F.R. § 39.2(b), including any actions related to mitigation and compliance enhancement required or implemented thereunder; (ii) provide notice to the Operating Committee promptly following the determination by Operator of any reportable physical or cyber security incident under the NERC reliability standards or other Applicable Law; (iii) maintain and provide documentation and maintenance records to the Operating Committee regarding any operation, testing, maintenance

[1] **Note**: Subject to modification if registration cannot be effective as of the Effective Date.

or faults of any generation protection relays, gen-tie relays or any other equipment necessary to fulfill Operator's or its applicable Affiliate's obligations as the Generator Owner or Generator Operator for the Facility; and (iv) provide to the Non-Operator Owner upon written request any other information, documentation and support reasonably necessary for Operator or its applicable Affiliate to demonstrate compliance with the NERC reliability standards. To the extent that any fine or sanction is imposed in respect of the performance of Operator's obligations under this Section 3.5.2 pursuant to Section 215(c) of the Federal Power Act, any cost related thereto shall be a included as an Operating Cost, to the extent permitted by Applicable Law.

3.6 Personnel Matters. Subject to Sections 8.5 and 8.6, and as otherwise set forth in this Section 3.6, Operator shall be responsible for determining the working hours, rates of compensation and all other matters relating to the employment of Operator's Facility Personnel, including the designation or appointment of the Plant Manager, in its reasonable judgment and in accordance with Non-Operator Owner's and its Affiliates' past practices in the ordinary course of its business during the time it served as operator of the Facility, and shall retain sole authority, control and responsibility with respect to its employment policies. Operator shall submit for the Operating Committee's approval the staffing requirements for the Facility on an annual basis. If Operator intends to select a new Plant Manager, or if the individual serving as Plant Manager ceases to be the Plant Manager, Operator shall provide prompt written notice to the Non-Operator Owner of the selection of a substitute Plant Manager. Facility Personnel shall be qualified and experienced in the duties to which they are assigned. Operator shall, upon the reasonable written request of the Non-Operator Owner, for cause (as documented in reasonable detail in any such written request), use commercially reasonable efforts to, as promptly as practicable under the circumstances and subject to any applicable collective bargaining agreements, remove from the Site and the Facility workforce, the services of any employee or other individual, subject to Operator's confirmation that such cause exists.

3.7 No Liens or Encumbrances. Operator shall use commercially reasonable efforts to keep and maintain the Facility free and clear of all liens and Encumbrances resulting from the failure by Operator to perform the Services or the personal debts and obligations of Operator unrelated to its ownership interest in the Facility.

3.8 Emergency Action. In the event of an emergency affecting the safety, health or protection of, or otherwise endangering, any Person, property or the environment located at or about the Facility (an "Emergency"), Operator shall take prompt action in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate any imminent damage, injury or loss threatened by such Emergency, and shall notify the Non-Operator Owner of such Emergency and Operator's response as soon as practical under the circumstances and in no event later than forty-eight (48) business hours after Operator becomes aware of such event. To the extent Operator procures goods and services as necessary to respond to an Emergency, reasonable and documented out of pocket costs in respect thereof shall be treated as Operating Costs.

ARTICLE IV - OBLIGATIONS, RIGHTS AND REPRESENTATIVES OF EACH OWNER

4.1 General. Each Owner expressly reserves the exclusive authority to make, and shall make, such business and strategic decisions as it deems appropriate from time to time in reference to the operation and maintenance of the Facility in accordance with the Ownership Agreement. Upon request from Operator, the Non-Operator Owner shall promptly furnish or cause to be furnished to Operator, at the Non-Operator Owner's expense, the information, access, materials, instructions and other items described in this Article IV that are in the possession or control of the Non-Operator Owner and which are reasonably necessary for performance of the Services by Operator and not otherwise available to Operator. All such items will be made available at such times and in such manner as may be reasonably required for the expeditious and orderly performance of the Services by Operator.

4.2 Information. Subject to the Standards of Performance, Operator shall be entitled to rely upon any information provided by the Non-Operator Owner or any other party to the Facility Agreements in the performance of the Services.

4.3 Access to Facility. Each Owner shall provide Operator and Operator's contractors, vendors, suppliers, employees and agents and Facility Agreement counterparties, to the extent applicable, reasonable access to and use of the Facility and the Site and to such Owner's records and data at the Facility and, in the case of the Non-Operator Owner, reasonably available to the Non-Operator Owner or in the Non-Operator Owner's possession and reasonably necessary for the performance of Services by Operator under this Agreement.

4.4 Instructions, Approvals, etc. Each Owner shall provide or cause to be provided (including through action of the Operating Committee) to Operator all instructions Operator is required to obtain in accordance with this Agreement. Without limiting the provisions of Section 3.2.2, each Owner shall reasonably cooperate to make available or cause to be available to Operator the benefits of all assets (including Permits and contracts relating to the Facility) held in the name of such Owner, as reasonably required for the operation of the Facility. Each Owner shall not direct Operator to take any action inconsistent with Applicable Law or otherwise adversely affecting the safety, health or protection of any person, or property or the environment located at or about the Facility.

ARTICLE V - REPRESENTATIVES, BUDGETS AND REPORTS

5.1 Representatives of Operator. On or as soon as practical after the Effective Date, Operator shall appoint a Project Manager who shall be authorized to represent Operator with each Owner and the Operating Committee concerning Operator's performance of the Services. The Project Manager may be the same individual as the Plant Manager. Operator shall be responsible for all communications, directions, requests and decisions made by its Project Manager at its direction. Operator shall notify the Non-Operator Owner in writing upon the appointment of its Project Manager, and of any successors. The Project Manager has no authority to modify, amend or terminate this Agreement or, absent written notice by Operator to

the contrary, to enter into any other agreement on behalf of Operator other than as provided herein.

5.2 Representatives of Owner; Operating Committee. The Operating Representative of each Owner (pursuant to and as defined in the Ownership Agreement) shall be authorized and empowered to act for and on behalf of such Owner on all matters requiring the consent, approval or other action of an Owner pursuant to this Agreement. Each Owner shall notify Operator and the other Operating Representative in writing upon the appointment of its Operating Representative, and of any successors. Any provision of this Agreement requiring the consent, approval, or similar act of the Operating Committee shall mean the consent, approval, or similar act of the Operating Committee acting in accordance with the terms of the Ownership Agreement.

5.3 Plans and Budgets.

5.3.1 Adoption.

5.3.1.1. Budgets. The initial Budget and Plan for the first Year following the Effective Date is attached as Appendix B hereto. No later than ninety (90) days prior to each operating Year, Operator shall deliver to the Operating Committee for the Operating Committee's review, revision if applicable and approval (i) a proposed annual operating budget, (ii) any proposed amendments to the annual capital budget, (iii) an annual operating plan and (iv) a six (6) Year future forecast of operating and capital expenses. Each such proposed budget, plan and forecast shall contain such detail and supporting documentation as reasonably necessary or reasonably requested for the Operating Committee's review, and Operator shall provide all such additional information and supporting documentation as may be reasonably requested by the Operating Committee and as required by the Ownership Agreement. The Operating Committee shall review and provide modifications to each such proposed budget, plan and forecast and Operator shall cooperate to revise each such proposed budget and plan to receive the Operating Committee's approval of same by December 1 of each Year. Each Budget and Plan as approved by the Operating Committee or otherwise deemed implemented pursuant to the Ownership Agreement shall remain in effect in accordance with the Ownership Agreement. Operator and the Non-Operator Owner by mutual agreement may modify the process and procedures set forth in this Section 5.3.1.

5.3.1.2. Amendments. If either the Non-Operator Owner or Operator becomes aware of facts or circumstances that it believes necessitate a change to a Budget or Plan, that Party shall promptly notify the other Party in writing, specifying the impact upon the Budget and the reasons for the change. The Project Manager shall then discuss appropriate amendments to the Budget with the Operating Committee.

5.3.1.3. Failure to Agree. Operator acknowledges that the Owners retain ultimate authority with respect to expenses incurred for the Facility. Accordingly, Operator shall accept each Budget as determined in accordance with the Ownership Agreement. To the extent that the Operating Committee limits funds for Operating Costs, Operator shall be

relieved from performing only those specific Services that would result in the incurrence of such non-reimbursable Operating Costs.

5.3.2 Limitations on Variation from Budget. Except as otherwise permitted in response to an Emergency in accordance with Section 3.8, Operator shall obtain the Operating Committee's written approval (i) for any expenditures resulting in cumulative budget overruns exceeding ten percent (10%) in the aggregate in any Year with respect to either the operating Budget or capital expense Budget, or (ii) for any unbudgeted expenditure or capital project having a projected cost of more than $100,000.

5.4 Availability of Operating Data and Records. Operator shall deliver Facility data recorded, prepared or maintained by Operator to the Operating Committee: (i) as necessary or reasonably requested by an Owner to assist each Owner in complying with requirements of Governmental Authorities, Permits and Facility Agreements; or (ii) upon request by the Non-Operator Owner, in each case as soon as reasonably practicable but in any event within ten (10) Business Days following such request.

5.5 Litigation and Permit Lapses. Promptly upon obtaining actual knowledge thereof, either Party shall submit prompt written notice to the other Party of the following, to the extent relating to the Facility or the Services or agreements relating to either the Facility or the Services: (i) any litigation, Claims or actions filed, including by, against or with any Governmental Authority; (ii) any actual refusal to grant, renew or extend, or any action filed with respect to the granting, renewal or extension of, any Permit; (iii) all penalties or notices of violation issued or asserted by any Governmental Authority; (iv) any dispute with any Governmental Authority that may affect the Facility in any material respect; and (v) with respect to the matters identified in items (i), (ii), (iii) or (iv), any material threats of such matters. Upon Non-Operator Owner's request, Operator shall provide any documentation related to any of the foregoing.

5.6 Other Information. Operator shall promptly submit to the Non-Operator Owner any material information concerning new or significant aspects of the Facility operations and, upon the Non-Operator Owner's request, shall promptly submit any other information concerning the Facility or the Services.

5.7 Records Maintenance and Retention. Operator shall maintain all records, reports, documents and data, including all data retrievable from an electronic data storage source, for the Facility in accordance with Applicable Law and shall retain and preserve all such records, reports, documents and data created in connection with the operation and maintenance of the Facility, in accordance with Applicable Law, provided that Operator shall notify the Non-Operator Owner in writing at least sixty (60) days prior to the destruction or other disposition of any record, report, document or data. If the Non-Operator Owner gives written notice to Operator prior to the expiration of the 60-day period, Operator shall maintain custody of such material until the earlier of (i) such time as the Non-Operator Owner notifies Operator to dispose of such material and (ii) seven (7) Years. If the Non-Operator Owner does not provide written notice to Operator prior to the expiration of the 60- day period, Operator may destroy or

dispose of such material and shall provide the Non-Operator Owner with a certificate confirming such destruction or disposition.

ARTICLE VI - LIMITATIONS ON AUTHORITY

6.1 Limitations on Authority. Operator has no authority to make policies or decisions with respect to the overall operation or maintenance of the Facility as a commercial enterprise pursuant to the terms of this Agreement. The Owners, acting through the Operating Committee and pursuant to the terms of the Ownership Agreement, shall determine all such matters. Notwithstanding any provision in this Agreement to the contrary, unless previously approved in a Budget and Plan or otherwise approved in writing by the Operating Committee, in connection with Operator's provision of Services hereunder, Operator is prohibited from doing any of the following (and shall not permit any of its agents, Affiliates, or representatives to do any of the following):

6.1.1 Dispose of Assets. Selling, leasing, pledging, mortgaging, granting a security interest in, encumbering, conveying, or making any license, exchange or other transfer or disposition of all or any portion of the Facility, the Site or any other property or assets of the Owners, including any property or assets purchased by Operator, the cost of which is an Operating Cost;

6.1.2 Make Expenditures. Making any expenditure or acquiring, on an Operating Cost basis, any goods or services from third parties, except in conformity with a Budget or as otherwise permitted under Section 5.3.2 or as authorized by the Operating Committee; provided, however, that in the event of an Emergency, Operator, without approval from the Owners, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.3 Take Other Actions. Taking or agreeing to take any other action or actions the decision for which is reserved exclusively for the Operating Committee pursuant to the Ownership Agreement; provided, however, that in the event of an Emergency, Operator, without approval from the Operating Committee, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.4 Act Regarding Lawsuits and Settlements. Settling, compromising, assigning, pledging, transferring, releasing or consenting to the compromise, assignment, pledge, transfer or release of, any material Claim, suit, debt, demand or judgment against or due by any Owner or Operator, the cost of which would be an Operating Cost hereunder, or submitting any such Claim, dispute or controversy to arbitration or judicial process, or stipulating in respect thereof to a judgment, or consent to the same; provided, however, that such prohibition shall not apply to, nor shall it be construed as a release or waiver of, any of Operator's rights or obligations pursuant to this Agreement or any other agreement between the Parties; or

6.1.5 Pursue Transactions. Engaging in any other transaction on behalf of the any Owner that is not permitted under this Agreement.

ARTICLE VII - COMPENSATION AND PAYMENT

7.1 General. The Non-Operator Owner shall pay Operator, and WPCo shall bear directly in its capacity as an Owner, its allocated share in accordance with the Ownership Agreement of all Operating Costs, all as further described below. All Operating Costs shall initially be paid for by Operator (except as otherwise provided in this Agreement) and subsequently invoiced monthly in arrears as more fully set forth in this Article VII.

7.2 Costs.

7.2.1 Operating Costs. Subject to the Ownership Agreement and the limitations on expenditures set forth elsewhere in this Agreement (including Section 5.3), the Non-Operator Owner shall reimburse Operator for its allocated share in accordance with the Ownership Agreement of the fully distributed costs incurred (whether paid or accrued) in the provision of Services (which shall be allocated consistent with Non-Operator Owner's and its Affiliates past practices in the ordinary course of business during the time it served as operator of the Facility and in any event in accordance with the Cost Allocation Manual with respect to costs incurred by Affiliates of Operator), including for labor, goods, services, capital expenditures, overhead, cost of capital, Taxes (other than income or franchise taxes), Permits and bonds (the "Operating Costs"), in each case invoiced in a manner consistent with the example invoice worksheets attached hereto as Appendix C, which shall include such costs with respect to: (i) equipment, material, supplies and other consumables, spare parts, replacement components, tools, office equipment, computer equipment, software, information technology and supplies acquired for use at the Facility; (ii) fuel supply and transportation; (iii) costs associated with special training of Facility Personnel and associated travel and living expenses; (iv) amounts paid under subcontracts, purchase orders and agreements; (v) fees for Permits required to be held by Operator; (vi) community relations and labor relations activities; and (vii) Operator's cost of Facility Personnel (and the allocable portion of other employees of Operator and its Affiliates attributable to performing the Services) wages, salaries, overtime, employee bonus, customary or required severance payments, unemployment insurance, long-term disability insurance, short term disability payments, sick leave, payroll taxes imposed on wages and benefits, worker's compensation costs and holidays, vacations, group medical, dental and life insurance, defined contribution retirement plans and other employee benefits; (viii) costs of third-party advisors, consultants, attorneys, accountants and contractors retained and managed by Operator in support of, and allocable to, the Services; (ix) a reasonably allocable portion of the cost of the insurance maintained by Operator in accordance with Section 9.1 on account of its Operator role; (x) reasonable costs incurred in response to an Emergency; and (xi) any other activity that Operator is required or expressly requested in writing by the Owners to perform under this Agreement for the benefit of the Facility or that is approved in a Budget or by the Operating Committee pursuant to the terms of this Agreement.

7.2.2 Invoicing. On or before the twenty-fifth (25th) day of each calendar month during the Term, Operator shall submit invoices to the Non-Operator Owner in form and substance reasonably similar to that attached hereto as Appendix C for Operating Costs incurred during the preceding calendar month (as well as any such costs for any prior period that were not previously invoiced). If any contract or purchase order intended to be assigned, transferred or conveyed to Operator remains held by the Non-Operator Owner as described in Section 3.2.2 and

the Non-Operator Owner directly pays costs thereunder for the benefit of the Owners, the invoice submitted by Operator shall net WPCo's allocated share in accordance with the Ownership Agreement of any such costs paid by the Non-Operator Owner for the benefit of the Owners. The Non-Operator Owner shall make payment to Operator of its allocated share in accordance with the Ownership Agreement of the invoiced amount no later than the Due Date. For the avoidance of doubt, WPCo, in its capacity as an Owner, shall bear directly its allocated share in accordance with the Ownership Agreement of such Operating Costs.

7.3 Cost Audit. The Non-Operator Owner shall be entitled to conduct an audit, or to delegate a representative to audit, at its sole cost and expense and review of Operator's books and records with respect to all Operating Costs and performance of the Services together with any supporting documentation for a period of one (1) Year from and after the date of the audited payment. If, pursuant to such audit and review, it is agreed that any amount previously paid by Operator or by an Owner was not properly incurred as an Operating Cost or an adjustment of any such cost is required, Operator shall credit to the Non-Operator Owner or Operator, as applicable, its allocated share in accordance with the Ownership Agreement of such amount in the next succeeding invoice or promptly paid in cash if there shall not be further invoices issued.

7.4 Late Payment Rate. To the extent a Party fails to pay any amount required to be paid under this Agreement by the Due Date, the unpaid amount shall accrue interest each day at the Late Payment Rate from the Due Date until such amount (plus accrued interest) is paid by the applicable Party in full. In the event any paid amounts are disputed by a Party in good faith and such dispute is resolved (including if applicable in accordance with the procedures set forth in Section 14.7) in the favor of such Party, then the applicable other Party shall repay to such Party such overpaid amount plus interest thereon accrued each day at the Late Payment Rate from payment by such Party until such amount (plus accrued interest) is repaid in full to such Party by the applicable other Party.

ARTICLE VIII - TERM

8.1 Term. The Term of this Agreement shall commence on the Effective Date and, subject to approval or acceptance of termination by FERC or other Governmental Authority to the extent required, shall end on the date of termination of the Ownership Agreement (the "Term"). Notwithstanding the foregoing, this Agreement and the Term is subject to earlier termination pursuant to Sections 8.2 and 8.3.

8.2 Termination by the Non-Operator Owner for Cause. The Non-Operator Owner shall be permitted to terminate this Agreement upon written notice to Operator if any of the following events occur: (i) the Bankruptcy of Operator; (ii) a payment default by Operator (other than a disputed payment) that Operator fails to cure within ten (10) Business Days after Operator has received written notice of such default; (iii) Operator incurs liability to the Owners equal to the liability limit set forth in Section 11.2 for any two Years during the Term (provided that written notice of termination must be delivered to Operator no later than ninety (90) days after the end of the second of such two Years), or (iv) a material default by Operator in the performance of its obligations under this Agreement, including any default that has, or is reasonably expected to have, a material adverse effect on the operations, maintenance or performance of the Facility and Operator has failed to cure such default within sixty (60) days of

written notice of such failure; provided, that if it is not possible to cure such breach within sixty (60) days of receipt of such notice of failure, Operator (A) fails to commence to cure the breach within such sixty (60) day period, (B) thereafter fails to continue diligent efforts to complete the cure as soon as reasonably possible, or (C) fails to complete the cure within ninety (90) days of receipt of such notice of failure. In addition, Non-Operator Owner shall have the option to terminate this Agreement for convenience upon ninety (90) days written notice to Operator delivered no later than ninety (90) days after the occurrence of any transfer, assignment, sale or other disposition (including any transfers, assignments, sales or other dispositions in connection with a foreclosure or an exercise of remedies by the Financing Parties) that results in WPCo's Ownership Interest no longer being owned directly or indirectly by AEP or an Affiliate thereof, except in the case of an transfer, assignment, sale or other disposition to a successor Operator that is a Qualified Replacement Operator in compliance with the terms of this Agreement and the Ownership Agreement.

8.3 Termination by Operator. Operator shall be permitted to terminate this Agreement upon written notice to the Non-Operator Owner if any of the following events occur: (i) a payment default by the Non-Operator Owner (other than a disputed payment) that is not cured within thirty (30) days after the Due Date for any invoice; (ii) the Bankruptcy of the Non-Operator Owner; or (ii) a default by the Non-Operator Owner of any other obligation under this Agreement that has a material adverse effect on Operator's ability to perform the Services and that the Non-Operator Owner has failed to cure or make substantial progress in the reasonable opinion of Operator toward curing within ninety (90) days of written notice by Operator to the Non-Operator Owner of such failure. As soon as practicable after all cost information is gathered following termination, Operator shall invoice the Non-Operator Owner for its allocated share in accordance with the Ownership Agreement for Services rendered by Operator through the termination date, including all Operating Costs incurred through the date of termination but not paid.

8.4 Transfer of Facility Custody. Upon expiration or termination of this Agreement, Operator shall leave at the Facility all documents and records, tools, supplies, spare parts, safety equipment, Manuals, and any other items furnished on an Operating Cost basis, all of which shall remain the property of the Owners without additional charge. Operator shall execute all documents and take all other reasonable steps as may be reasonably requested by the Non-Operator Owner to assign to and vest in a replacement provider of Services all of its pro-rata rights, benefits, interests and title in connection with any subcontracts Operator executed in its own name for the benefit of the Facility and the Owners.

8.5 Services Upon Termination.

8.5.1 Upon notice of termination of this Agreement by either Operator or the Non-Operator Owner, unless the Non-Operator Owner is then in payment default such that Operator would have the right to terminate this Agreement pursuant to Section 8.3(i), the Non-Operator Owner shall have the right to specify a period of transition of no longer than nine (9) months (the "Termination Transition Period") during which Operator shall: (i) continue to provide Services at the Facility in accordance with this Agreement; (ii) cooperate with the Non-Operator Owner in planning and implementing a transition to any replacement provider of Services; (iii) use its commercially reasonable efforts to minimize disruption of Facility

operations in connection with such transition activities; (iv) make all requisite regulatory filings as promptly upon commencement of the Termination Transition Period, subject to cooperation of the Parties; (v) transfer all Permits, licenses, registrations, approvals and contracts to the Non-Operator Owner or such replacement operator, in each case, as requested by the Non-Operator Owner; and (vi) take all actions incidental thereto and as reasonably requested by the Non-Operator Owner. The provisions of Article VII shall continue to apply during the Termination Transition Period. To facilitate employee transfer, Operator shall permit the replacement service provider and the Non-Operator Owner to interview such Facility Personnel for potential positions with such replacement operator in a manner and at times that do not interfere with Operator's responsibility to perform the Services. If Operator or one of its Affiliates continues to own a portion of the Facility, Operator shall, or shall cause its Affiliates to, reasonably cooperate to allow a successor operator to operate the Facility after the termination of this Agreement, including by granting access rights and executing other instruments as may be reasonably requested by the Non-Operator Owner and any replacement operator.

8.5.2 Any modifications to the ownership and operation of the Facility, including any termination of this Agreement, shall be subject to any required regulatory or administrative filings and approvals.

8.6 Plant Manager Replacement. Upon (i) commencement of the Termination Transition Period or (ii) the occurrence of any of the conditions described in Section 8.2, the Non-Operator Owner may designate a qualified individual with significant experience as a project manager or similar senior operating role in respect of the management and operation of large coal-fired generation facilities with similar operating characteristics as the Facility to replace the existing Plant Manager and who shall upon such appointment be the Plant Manager.

ARTICLE IX - INSURANCE

9.1 Operator Insurance Requirements.

9.1.1 Commencing with the performance of the Services hereunder, and continuing until the termination of this Agreement, Operator (and any tier subcontractors) shall maintain or cause to be maintained occurrence form (if written on a claims -made policy form, be maintained with a retroactive date that is prior to this Agreement Effective Date for a period of at least three (3) Years following the last Year in which such policy provides coverage under the terms of this Agreement) insurance policies as follows: (i) Workers' Compensation in accordance with the statutory requirements of the state in which the Services are performed and Employer's Liability Insurance of not less than one million Dollars ($1,000,000) each accident/employee/disease; (ii) Commercial General Liability Insurance having a limit of at least one million Dollars ($1,000,000) per occurrence/two million Dollars ($2,000,000) in the aggregate for contractual liability, personal injury, bodily injury to or death of Persons, and/or loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) Years after completion), premises and operations liability and explosion, collapse, and underground hazard coverage; (iii) Commercial/Business Automobile Liability Insurance (including owned (if any), non-owned or hired autos) having a limit of at least one million Dollars ($1,000,000) each accident for bodily injury, death, property damage and contractual liability and no fellow employee exclusion; (iv)

Umbrella/Excess Liability insurance with limits of at least twenty-four million Dollars ($24,000,000) per occurrence and follow form of the underlying Employer's Liability, Commercial General Liability and Auto Liability insurance, and provide at least the same scope of coverages thereunder; (v) coverage for sudden/accidental occurrences for bodily injury, property damage, environmental damage, cleanup costs and defense with a minimum of one million Dollars ($1,000,000) per occurrence; and (vi) "all-risk" or its equivalent property insurance providing coverage risks of physical damage to the Facility or Facility Equipment in an amount in accordance with Good Utility Practice.

9.1.2 Unless otherwise determined by the Operating Committee that the Operator should purchase capacity insurance on behalf of both Owners, Operator (including in its capacity as an Owner) and Non-Operator Owner may each procure individually, in proportion to their Ownership Interests, PJM Interconnection, L.L.C. capacity performance insurance on terms and conditions, and placed with insurance companies, reasonably acceptable to the Operator or such Owner, as applicable. Operator shall make such certifications relating to the operation, maintenance and condition of the Facility from time to time during the Term as may be reasonably necessary in connection with the procurement or maintenance of such insurance coverage by Operator and the Non-Operator Owner and any other insurance policies of either Owner that may relate to coverage pertaining to or affecting an Owner's Ownership Interest.

9.2 Form and Content. All insurance policies provided and maintained by Operator and each subcontractor shall: (i) except with respect to insurance policies issued by any "captive" insurer of Operator or its Affiliates[2], be underwritten by insurers that are rated A.M. Best "A-VII" or higher; (ii) specifically include the Non-Operator Owner and its directors, officers, employees, affiliates, subcontractors, and joint owners of any facilities as additional insureds for their liability arising out of the acts or omissions of Operator, including for completed operations, with respect to Operator's acts, omissions, services, products or operations, whether in whole or in part, excluding, however, for Workers' Compensation/Employer's Liability insurance, Pollution Legal Liability insurance, and "all-risk" property insurance; (iii) be endorsed to provide, where permitted by law, waiver of any rights of subrogation against an Owner and its directors, officers, employees, affiliates and subcontractors, and joint owners of any facilities; (iv) provide that such policies and additional insured provisions are primary with respect to the acts, omissions, services, products or operations of Operator or its subcontractors, to the extent of Operator's negligence, (v) contain standard separation of insured and severability of interest provisions except with respect to the limits of the insurer's liability; and (vii) not have any cross-liability exclusion, or any similar exclusion that excludes coverage for Claims brought by additional insureds under the policy against another insured under the policy; Any deductibles or retentions shall be the sole responsibility of Operator and its subcontractors. Evidence of such coverage shall be provided in the form of Operator's certificate of insurance furnished to the Non-Operator Owner prior to the Effective Date, upon any policy replacement or renewal and upon the Non-Operator Owner's request. Operator shall provide at least thirty (30) days' prior written notice to the Non-Operator Owner prior to cancellation of any policy (or ten (10) days' notice in the case of non-payment of premium).

[2] ~~Note to Purchaser: AEP's captive insurer is not rated.~~

ARTICLE X - INDEMNIFICATION

10.1 Operator Indemnification. Subject to the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner and its Affiliates, and their respective officers, directors, employees, managers, members, agents and representatives (collectively, the "Non-Operator Owner Indemnitees"), from and against, and no Non-Operator Owner Indemnitee shall be responsible for any and all Liabilities incurred, assessed, sustained or suffered by any Non-Operator Owner Indemnitee to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement. Any Liabilities paid by Operator pursuant to its indemnity obligation under this Section 10.1 shall in no event be considered Operating Costs hereunder.

10.2 Owner Indemnification. Subject to the limitations of liability in Section 11.1, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless Operator and its Affiliates, and their respective officers, directors, employees, agents and representatives (collectively, the "Operator Indemnitees"), from and against, and no Operator Indemnitee shall have responsibility for, any and all Liabilities to a third party incurred, assessed, sustained or suffered by or against any Operator Indemnitee arising from or relating to Operator's performance of the Services under this Agreement, except to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement; provided, however, that the Liabilities for which Non-Operator Owner is obligated to indemnify any Operator Indemnitees under this Section 10.2 shall not in any event include any Liabilities for which WPCo is obligated to indemnify Non-Operator Owner (and/or its Affiliates) in any agreement among the Owners (and/or their Affiliates) and AEP (and/or its Affiliates), including pertaining to the allocation of emission limitations associated with the Facility. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its proportionate share of Liabilities under this Section 10.2 in respect of its Ownership Interest.

10.3 Environmental Indemnification.

10.3.1 Owner Indemnity for Environmental Liabilities. Subject to the limitations of liability in Section 11.1, and without in any way limiting the provisions of Section 10.3.2, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless the Operator Indemnitees, from and against, and no Operator Indemnitees shall have responsibility for, any and all Liabilities, including all civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Operator Indemnitees, as applicable, as a result of or in connection with any matters governed by Environmental Laws directly or indirectly related to or arising out of (i) the design, permitting or construction of the Facility or the condition of the Site, and any adjacent parcels; (ii) the operation, maintenance, ownership, control or use of the Facility or otherwise related to the Facility; and (iii) the offsite transportation, treatment or disposal of all wastes generated at the Facility and any properties included within or adjacent to the Site, whether occurring before or after the Effective Date (collectively, "Environmental Liabilities"), including any Environmental Liabilities arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous

Materials, but excluding Operator Environmental Liabilities; provided, however, that the Environmental Liabilities for which any Owner is obligated to indemnify any Operator Indemnitees under this Section 10.3.1 shall not in any event include any Operator Environmental Liabilities for which Operator is liable under Section 10.3.2. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear its proportionate share of Environmental Liabilities under this Section 10.3.2 in respect of its Ownership Interest.

10.3.2 Operator Indemnity for Environmental Liabilities. Subject to the provisions of Section 10.1 and the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner Indemnitees from and against, and no Non-Operator Owner Indemnitee shall be responsible hereunder for any Liabilities, including any civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Person as a result of or in connection with any breach or violation of or any other matters governed by Environmental Laws to the extent caused by the gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law or willful breach of this Agreement by Operator or arising out of the existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials brought on Site by Operator or its Affiliates or agents on or after the Effective Date (the "Operator Environmental Liabilities"). Operator understands and agrees that any Operator Environmental Liabilities paid by Operator pursuant to this Section 10.3.2 shall not be Operating Costs hereunder.

10.3.3 Governmental Actions. During the Term, Operator shall use commercially reasonable efforts to cooperate with and assist the Owners with their acquisition of data and information, and preparation and filing with appropriate Governmental Authorities of any notices, plans, submissions, or other materials and information necessary for compliance by the Owners with applicable Environmental Laws and the requirements of any Permits related to the Facility. All such environmental reports shall be submitted by, and in the names of, both Owners. All reasonable and documented costs associated therewith, including the reasonable costs of any outside consultants, legal services, Governmental Authority charges, sampling and remedial work shall be paid by the Owners as an Operating Cost, and the Non-Operator Owner shall reimburse WPCo to the extent of the Non-Operator Owner's pro rata share, unless such costs are incurred arising out of or associated with Operator Environmental Liabilities that are subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof. Nothing contained herein shall be construed as requiring Operator to take any corrective action with respect to Environmental Liabilities unless (x) affirmatively and expressly directed in writing to so do by the Operating Committee and appropriate funding is made available, or (y) affirmatively and expressly directed to do so by a Governmental Authority, in order to comply with any Environmental Law, in which case the cost of any corrective actions so undertaken shall be deemed an Environmental Liability subject to Section 10.3.1 hereof (if not otherwise reimbursed as an Operating Cost hereunder), unless such Environmental Liability arises out of or is associated with Operator Environmental Liabilities subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof.

ARTICLE XI - LIABILITIES OF THE PARTIES

11.1 Limitations of Liability. Notwithstanding any provision in this Agreement that may be susceptible to contrary interpretation, neither the Parties nor any Non-Operator Owner Indemnitees or Operator Indemnitees shall be liable for consequential or indirect loss or damage, including loss of profit, cost of capital, loss of goodwill, increased Operating Costs, or any special or incidental damages; provided, however, that notwithstanding the foregoing, in no event will the foregoing limitations of liability be applied to limit the extent of the liability of either Party to the other for or with respect to any Claims of third parties or to the extent arising from gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement. The Parties further agree that the waivers and disclaimers of liability, indemnities, releases from liability and limitations of liability expressed in this Agreement shall survive termination or expiration of this Agreement, and shall apply in all circumstances, whether in contract, equity, tort or otherwise, regardless of the fault, negligence (in whole or in part), strict liability, breach of contract or breach of warranty of the Party indemnified, released or whose liabilities are limited, and shall extend to the Non-Operator Owner Indemnitees and Operator Indemnitees.

11.2 Operator's Total Aggregate Liability. Except to the extent that a Non-Operator Owner Indemnitee suffers Liabilities that are caused by, result from or arise out of Operator's or its Affiliates' breach of Article XIII or its gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement, or willful misconduct (including in connection with any Services), the total liability of Operator to the Non-Operating Owner for all Liabilities arising out of, connected with or resulting from any events occurring or claims made in connection with this Agreement, whether based in contract, warranty, tort, strict liability or otherwise, shall not exceed, in the aggregate, the sum of (i) an amount equal to twenty-five percent (25%) of the Operating Costs, but excluding Operating Costs relating to any services, goods, inventory and equipment provided hereunder by third parties other than Operator's Affiliates, incurred pursuant to this Agreement in the prior twelve (12) month period, *plus* (ii) the Non-Operating Owner's fifty percent (50%) share of any insurance proceeds actually received by the Operator or paid on the Operator's behalf with respect to the relevant loss or damages under the insurance policies procured by the Operator pursuant to Section 9.1.

11.3 No Warranties or Guarantees.

11.3.1 EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES OR GUARANTEES TO THE OTHER, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SUBJECT MATTER OF THIS AGREEMENT, AND BOTH PARTIES DISCLAIM AND WAIVE ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT.

11.3.2 OPERATOR IS ACTING AS AGENT OR OTHERWISE AS A RESELLER WITH RESPECT TO ALL SERVICES, GOODS, INVENTORY AND EQUIPMENT PROVIDED HEREUNDER BY THIRD PARTIES OTHER THAN OPERATOR'S AFFILIATES, AND, AS SUCH, DOES NOT PROVIDE ANY WARRANTY

FOR SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT PROVIDED HEREUNDER. ALL SUCH THIRD PARTY SERVICES, GOODS, INVENTORY AND EQUIPMENT ARE PROVIDED AS IS, WHERE IS, WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT UNLESS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES. THE SOLE REMEDY IN CONNECTION WITH ANY DEFECTS IN OR FAILURES OF SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT (WHETHER A CLAIM FOR SUCH DEFECT ARISES UNDER CONTRACT, TORT, STRICT LIABILITY, STATUTE, OR ANY OTHER LEGAL OR EQUITABLE THEORY OR PRINCIPLE INCLUDING NEGLIGENCE) SHALL BE TO SEEK RECOURSE EXCLUSIVELY FROM THE COUNTERPARTIES TO THE THIRD PARTY CONTRACTS, UNLESS THE DEFECT OR FAILURE WAS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES.

ARTICLE XII - CONFIDENTIALITY

12.1 General. During the Term, and for the later of three (3) Years after the termination of this Agreement or five (5) Years after receipt of the applicable Confidential Information, each Party shall hold in confidence any Confidential Information supplied by or on behalf of the other Party. Each receiving Party further agrees to require its contractors, vendors, suppliers and employees, agents or prospective purchasers to preserve the confidentiality of Confidential Information. The receiving Party may make necessary disclosures to third parties directly engaged in the operation, ownership or financing of the Facility if such third parties are under an obligation to receive and hold such Confidential Information in confidence.

12.2 Exceptions. The provisions of this Article XII do not apply to information within one or more of the following categories:

12.2.1 Public Domain. Information that was in the public domain prior to the receiving Party's receipt or that subsequently becomes part of the public domain by publication or otherwise, except by the receiving Party's or its Affiliate's wrongful act.

12.2.2 Prior Receipt. Information that the receiving Party can demonstrate was in its possession prior to receipt thereof from the disclosing Party so long as such possession did not result from a violation of a confidentiality obligation.

12.2.3 Third Party Delivery. Information received from a third party having no obligation of secrecy with respect thereto.

12.2.4 Permitted Disclosures. Information disclosed by an Owner to Lenders or prospective Lenders, equity investors or prospective equity investors, prospective purchasers,

consultants, attorneys, accountants and other designated agents in each case on a confidential, need-to-know-basis.

12.2.5 Regulatory Filings. Information required to be disclosed by an Owner in connection with any required regulatory or administrative filings.

12.3 Required Disclosure. Notwithstanding the forgoing, any receiving Party required by law, rule, regulation, subpoena or order, or in the course of regulatory, administrative or judicial proceedings, to disclose Confidential Information that is otherwise required to be maintained in confidence pursuant to this Article XII, may make disclosure notwithstanding the provisions of this Article XII. Prior to doing so, the receiving Party, promptly upon learning of the requirement, shall notify the disclosing Party of the requirement and cooperate to the maximum extent practicable to minimize the disclosure of Confidential Information. Any receiving Party disclosing Confidential Information pursuant to this Section 12.3 shall use commercially reasonable efforts, at the disclosing Party's cost, to obtain proprietary or confidential treatment of Confidential Information by the third party to whom the information will be disclosed, and to the extent such remedies are available, shall use commercially reasonable efforts to seek protective orders limiting the dissemination and use of Confidential Information. Nothing in this Agreement is intended to prevent the disclosing Party from appearing in any proceedings and objecting to the disclosure.

ARTICLE XIII - TITLE, DOCUMENTS AND DATA

13.1 Materials and Equipment. Operator shall use commercially reasonable efforts to cause title to all materials, equipment, supplies, consumables, spare parts and other items purchased or obtained by Operator on an Operating Cost basis ("Facility Equipment") to pass directly from the vendor or supplier to, and vest in, each Owner to the extent of such Owner's Ownership Interest. Operator shall have no title or other claim to such items other than in its capacity as an Owner of the Facility.

13.2 Documents. All Manuals, operational data, Facility drawings, Operator reports and records and other materials and documents (both paper and electronic) created by Operator, its Affiliates or their respective employees, representatives or contractors in connection with performance of the Services are the property of each Owner to the extent of its Ownership Interest in the Facility. All such materials and documents shall be available for review by the Non-Operator Owner at all reasonable times during development and promptly upon completion. All such materials and documents required to be submitted for the approval of the Operating Committee shall be prepared and processed in accordance with the requirements and specifications set forth herein. However, the Operating Committee's approval of materials and documents submitted by Operator shall not relieve Operator of its responsibility to perform it obligations under this Agreement.

13.3 Proprietary Information. Where materials or documents prepared or developed by Operator or its Affiliates, or their respective employees, representatives or contractors, contain proprietary or technical information, systems, techniques or know-how previously developed by them or acquired by them from third parties (the "Operator Proprietary Information"), the Non-Operator Owner shall have an irrevocable license to use such Operator

Proprietary Information to the extent necessary for the operation or maintenance of the Facility at no additional cost to the Non-Operator Owner.

ARTICLE XIV - MISCELLANEOUS PROVISIONS

14.1 Assignment. This Agreement shall not be assignable, in whole or in part, by a Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed, except that this Agreement may be (i) collaterally assigned by an Owner without such consent to a Lender in connection with such Lender's financing of such Owner's Ownership Interest and (ii) assigned by an Owner (in whole but not in part) without such consent to the transferee of its Ownership Interest, whether by merger, division, sale of equity interest, or otherwise, in each case, solely to the extent that such transfer of its Ownership Interest is in accordance with the Ownership Agreement. Any assignment pursuant to this Section 14.1 shall not relieve the assigning Party of any of its obligations under this Agreement that arose prior to the date of such assignment. This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties.

14.2 Effect of Bankruptcy. The Parties intend that, in the event of a Bankruptcy, payments required under this Agreement shall be deemed to be administrative expenses as defined in 11 U.S.C. §503.

14.3 Access. The Non-Operator Owner and Lenders and their agents and representatives shall have access to the Facility, all Facility operations and any documents, materials and records and accounts relating to the Facility operations for purposes of inspection and review. Upon the request of the Non-Operator Owner and its agents and representatives, Operator shall provide such Persons with access to all data and logs Operator maintains regarding the Facility. During any inspection or review of the Facility, the Non-Operator Owner and Lenders and their agents and representatives shall comply with all of Operator's safety and security procedures, and shall conduct inspections and reviews in such a manner as to cause minimum interference with Operator's activities. Operator also shall cooperate with the Non-Operator Owner in allowing its agents and representatives access to the Facility.

14.4 Subcontractors; Subagents.

14.4.1 Operator shall have the right to hire third-party subcontractors or to acquire rights from third parties to provide all or part of any Services hereunder without the prior consent of the Operating Committee. The cost of such third-party Services or acquisition of such rights shall be Operating Costs in accordance with Section 7.2.1. Operator, for the benefit of the Owners, shall use commercially reasonable efforts to obtain from all subcontractors and suppliers, including any subcontractors and suppliers who are Affiliates of Operator, customary guarantees and warranties to the extent available with respect to the equipment, goods, services or other work provided or performed by such subcontractor and supplier. Notwithstanding the foregoing or anything to the contrary, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned or delayed, procure or enter into any agreement with any third-party subcontractor with respect to the Services with a cost included in the Operating Costs in excess of $500,000 in any Year. Each agreement with a third-party subcontractor shall reflect costs that are on an arm's-length basis

and no greater in any material respect than Operator could reasonably provide on Operator's own (or through its Affiliates) without material hardship.

14.4.2 Operator may delegate any obligations hereunder to one or more Affiliates, or designate one or more Affiliates as subagents for the performance of its obligations, and, to the extent such Affiliate performs or acts as subagent with respect to any obligation of Operator hereunder, such Affiliate shall enjoy the rights and benefits of Operator pursuant to this Agreement (including, for the avoidance of doubt, Article X and Article XI hereof). Notwithstanding the foregoing, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned, or delayed, procure or enter into any agreement with any of its Affiliates (other than for Facility Personnel to perform the Services) (i) with a committed value in excess of $500,000 or (ii) that may not be cancelled by or at the request of Non-Operator Owner upon no more than ninety (90) days' notice without penalty. Each agreement with an Affiliate of Operator, other than for Facility Personnel to perform the Services, shall reflect costs that are no greater in any material respect than Operator could obtain on an arm's-length basis with a bona fide third party at such time. Notwithstanding anything to the contrary in this Agreement, Operator shall be permitted to delegate any of its rights, duties and obligations under this Agreement and the Ownership Agreement to AEPSC without the consent of Non-Operator Owner, subject to Section 14.4.3.

14.4.3 If one or more Affiliates perform Services as subagents or subcontractors hereunder, Service Provider shall remain liable for such Affiliate's obligations hereunder and for any breach by such Affiliate of the terms of this Agreement (to the same extent as if such breach was committed by Service Provider).

14.5 Not for Benefit of Third Parties. Except where a contrary intention is expressly stated, this Agreement and each provision hereof are for the exclusive benefit of the Parties that executed this Agreement and not for the benefit of any third party.

14.6 Force Majeure.

14.6.1 Events Constituting Force Majeure. A "Force Majeure Event" is any event that (i) restricts or prevents performance under this Agreement, (ii) is not within the reasonable control of the Party affected or caused by the fault or negligence of the affected Party and (iii) cannot be overcome or avoided by the exercise of due care. Force Majeure Events include the following, so long as in each case the requirements of the foregoing clauses (i), (ii) and (iii) are satisfied, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, tornado or other unusually severe storm or environmental conditions, epidemic, war (whether declared or undeclared), terrorism (whether domestic or foreign, state-sponsored or otherwise), revolution, insurrection, riot, civil disturbances, protests, sabotage (but not including any sabotage involving personnel of Operator), work stoppages (i.e., strikes) (but not including any work stoppages or strikes involving any personnel of Operator, whether on-site or off-site), accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Facility, other acts or omissions of any Governmental Authority, including any form of compulsory government acquisition or condemnation of all or part of the Facility (including a "taking"), restraint by court order, changes in Applicable Law that affect

performance under this Agreement, other acts of Governmental Authorities including in response to any of the foregoing. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default in respect to any obligation if and to the extent that performance of such obligation is prevented by a Force Majeure Event. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations.

14.6.2 Notice. If a Party's ability to perform its obligations under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event, its cause, its anticipated duration and any action being taken to avoid or minimize its effect and confirm the same in writing within three (3) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) work diligently to remove the cause of the Force Majeure Event or to lessen its effect.

14.6.3 Scope. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than necessary. The excused Party shall use its reasonable best efforts to remedy its inability to perform.

14.7 Dispute Resolution. Any and all disputes shall be resolved pursuant to the dispute resolution procedures set forth in the Ownership Agreement.

14.8 Amendments. No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Parties.

14.9 Survival. Notwithstanding any provisions to the contrary, the obligations set forth in Article VII and Article VIII, Article X, Article XI and Article XII, Article XIV the limitations on liabilities set forth in Article XI will survive, in full force, the expiration or termination of this Agreement.

14.10 No Waiver. No delay, waiver or omission by the Non-Operator Owner or Operator to exercise any right or power arising from any breach or default by the Non-Operator Owner or Operator with respect to any of the terms, provisions or covenants of this Agreement shall be construed to be a waiver by the Non-Operator Owner or Operator of any subsequent breach or default of the same or other terms, provisions or covenants on the part of the Non-Operator Owner or Operator.

14.11 Notices. Any written notice required or permitted under this Agreement shall be deemed to have been duly given on the date of receipt, and shall be either delivered personally to the Party to whom notice is given, or mailed to the Party to whom notice is to be given, by facsimile, courier service or first-class registered or certified mail, return receipt requested, postage prepaid, and addressed to the addressee at the address indicated below, or at the most recent address specified by written notice given in the manner provided in this Section 14.11:

If to Operator:

[_____]
[_____]
[_____]

If to the Non-Operator Owner:

14.12 Representations and Warranties. Each Party represents and warrants to the other Party that, as of the date hereof:

14.12.1 Existence. It is duly organized and validly existing under the laws of the state of its organization and has all requisite power and authority to own its property and assets and conduct its business as presently conducted or proposed to be conducted under this Agreement.

14.12.2 Authority. It has the power and authority to execute and deliver this Agreement, to consummate the transactions contemplated hereby and to perform its obligations hereunder.

14.12.3 Validity. It has taken all necessary action to authorize its execution, delivery and performance of this Agreement, and this Agreement constitutes the valid, legal and binding obligation of such Party enforceable against it in accordance with its terms, except as such enforcement may be limited by Bankruptcy, insolvency, moratorium or similar laws affecting the rights of creditors or by general equitable principles (whether considered in a proceeding in equity or at law).

14.12.4 No Conflict. Neither the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, nor the fulfillment of the terms and conditions hereof, conflicts with or violates any provision of its constituting documents.

14.12.5 No Consent. No consent or approval (including any Permit that such warranting Party is required to obtain) is required from any third party (including any Governmental Authority) for either the valid execution and delivery of this Agreement, or the performance by such Party of its obligations under this Agreement, except such as have been duly obtained or will be obtained in the ordinary course of business.

14.12.6 No Breach. None of the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, or the fulfillment of the terms and conditions hereof either conflicts with, violates or results in a breach in any material respect of, any Applicable Law currently in effect, or conflicts with, violates or results in a breach of, or constitutes a default under or results in the imposition or creation of, any lien or Encumbrance under any material agreement or instrument to which it is a party or by which it or any of its properties or assets are bound.

14.12.7 No Material Claims. It is not a party to any legal, administrative, arbitral or other proceeding, investigation or controversy pending or threatened that would adversely affect such Party's ability to perform its obligations under this Agreement.

14.13 Additional Representation and Warranty by Operator. Operator further represents and warrants to the Non-Operator Owner that it has, or has obtained through the retention of a qualified operations and maintenance service provider, substantial expertise and experience in the operation and maintenance of comparable power generation facilities and it, or its applicable subcontractor, is fully qualified to provide such services at the Facility in accordance with the terms of this Agreement.

14.14 Counterparts. The Parties may execute this Agreement in counterparts that, when signed by each of the Parties, constitute one and the same instrument. Thereafter, each counterpart shall be deemed an original instrument as against any Party who has signed it. Delivery of an executed counterpart of this Agreement by facsimile or electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

14.15 Governing Law; Venue; Waiver of Jury Trial. The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of New York, exclusive of the conflicts of law provisions thereof that would require the application of the laws of a different jurisdiction. Each Party hereby agrees that any Action arising out of or relating to this Agreement brought by a Party(or any of their respective successors or assigns) shall be brought and determined in any state or federal court sitting in the State of New York, within the Borough of Manhattan, City of New York, and the Parties hereby irrevocably submit to the exclusive jurisdiction of the aforesaid courts for themselves and with respect to their property, generally and unconditionally, with regard to any such Action arising out of or relating to this Agreement and the transactions contemplated hereby, and the appellate courts from any thereof in connection with any action arising out of or relating to this Agreement or any other agreement related to the Facility or any Facility asset and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or that such action was brought in an inconvenient court. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

14.16 Interpretation. Titles or captions contained in this Agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, describe or otherwise affect the scope or meaning of this Agreement or the intent of any provision hereof. All exhibits and appendices attached hereto are considered a part hereof as though fully set forth herein. This Agreement was jointly drafted and negotiated by the Parties. In the event of a dispute, this Agreement shall not be construed against either Party based upon its drafting.

14.17 Severability. If any provision of this Agreement, or the application of any such provision to any Person or circumstance, is held invalid by any court or other forum of competent jurisdiction, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those as to which it is held invalid, shall nevertheless remain

in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner materially adverse to a Party. Upon any such determination of invalidity, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that this Agreement is consummated as originally contemplated to the greatest extent possible.

14.18 Cooperation in Financing. Operator shall execute and deliver any customary and reasonable agreement and consent to assignment, together with an opinion of counsel at Non-Operator Owner's expense, as may be reasonably requested by Non-Operator Owner in connection with any financing of the Facility. Operator shall promptly respond to reasonable requests, including requests for management presentations, by Non-Operator Owner and any of its Lenders or their representatives, in each case at Non-Operator Owner's sole cost and expense, for information regarding the Operator and its performance of its duties hereunder and the operation, maintenance and administration of the Facility. Operator agrees to use commercially reasonable efforts to cooperate with any of Non-Operator Owner's Lenders and their representatives and to provide such Lenders and representatives with reasonable access to and tours of the Facility (including review of documents, materials, records and accounts), in each case at Non-Operator Owner's sole cost and expense.

APPENDIX A – SCOPE OF SERVICES

Routine Services	Provide operational services as reasonably necessary for electrical power generation.
Detailed Programs	Implement Operator human resources program. Implement Operator-drafted, Owner-approved programs in safety, administration, maintenance, and training. Implement Facility's existing programs in operating, maintenance, chemistry, NERC and environmental compliance (or, at the Operating Committee's request, develop or enhance such programs at actual cost and implement). Ensure compliance with NERC requirements, Environmental Law, Applicable Law, and all Permits.
Routine Maintenance	Perform routine and preventive maintenance actions on all Facility systems and equipment in accordance with vendor instructions and the maintenance plan for the Facility. This program includes: **Service Checks** – Conduct visual equipment inspections and log significant parameters such as pressures, temperatures, and flow rates. Trend and analyze this information as appropriate. **Routine and Fixed Interval Maintenance** –Identify preventive maintenance requirements. Schedule and assign routine maintenance during Facility operation, planned outages, and forced or unscheduled outages.
Predictive Maintenance Program	As appropriate, conduct/oversee predictive maintenance within the cost-effective capability of the Facility Personnel. For those maintenance requirements that are not cost-effective for the Facility Personnel, oversee predictive maintenance services provided by vendors.
Major Maintenance and Repairs	In coordination with and support of the Facility Agreements and generation plan, arrange for scheduled inspections and overhauls on major equipment. Retain vendors for the benefit of the Owners for unscheduled major repairs as required and manage and oversee repairs and modifications.
Capital Improvements	Conduct/oversee all capital improvements. As appropriate, retain vendors for the benefit of the Owners to design, construct and implement capital improvements.
Facility Outages	Use commercially reasonable efforts to manage all Facility outages (planned, unscheduled, forced) to optimize outage duration and impact on production: **Task Assignment** – Identify and schedule all maintenance that requires a Facility outage or equipment to be taken out of service.

	Work Schedule – Develop and implement a schedule to track material outage preparations, work and testing, including corrective maintenance actions, contractor work and scheduled preventive maintenance. Conduct preparations to support this plan, including ordering and receiving required spare parts.
Assistance to the Non-Operator Owner and Operating Committee	Provide assistance to the Non-Operator Owner and the Operating Committee, as reasonably requested with the execution of the Non-Operator Owner's and the Operating committee's duties relative to operation of the Facility.
Facility Administration	Conduct administration to meet Operator requirements and Owners' goals, including: **Budgets** – Prepare annual Budgets and submit them for Operating Committee approval in accordance with the Ownership Agreement and this Agreement. Following approval, manage operations and expenditures to comply with each Budget. Generate budget variance reports, as required. **Procurement** – Establish and implement a purchasing system. Procure, for the benefit of the Owners, including negotiations and contracting, for all materials, equipment, chemicals, supplies, services, parts, and other miscellaneous items required for the provision of the Services. Pay all invoices in a timely manner. Provide credit support as required by third parties for the operation of the Facility, including contract counterparties and Governmental Authorities. Minimize Owner costs as much as feasible. **Inventory Control** – Implement a cost-effective inventory control system designed to ensure that spare parts, materials, and supplies are properly stored and accounted for and that adequate supplies are available at all times to support the provision of the Services. **Personnel Matters** – In compliance with Operator programs and policies, manage all payroll and employee relations, labor relations, and independent contractor issues, as required. These tasks include: employment; compensation and benefits; initial training; and employee and independent contractor relations. Provide reasonable support to recruit, hire, transfer, or otherwise acquire and retain qualified Facility Personnel to maintain the staffing levels and skill mix required for successful long-term provision of the Services. **Community Relations** – In coordination with and with the approval of the Operating Committee, conduct a community relations program to establish the Facility and its employees as "good citizens" in the local community.

	Regulatory – Perform all duties set forth in Section 7.8 of the Ownership Agreement with respect to Emission Allowances (as defined therein).
Work Assignment	Assign work to either Facility Personnel or vendors as cost-effective and appropriate based on overall guidance from the Operating Committee. Normally, Facility Personnel conduct preventive maintenance and actions requiring a high degree of Facility knowledge and vendors perform tasks needing equipment or expertise that are not cost-effective to maintain at the Facility. Vendors also perform tasks that make sense to minimize outage time and costs.
Buildings and Grounds	Arrange for janitorial, garbage pickup and landscape services and maintain all access roads, office buildings, and other structures in reasonable repair.
Reports	Prepare and submit operation and maintenance service reports as requested relative to performance, including environmental compliance records, maintenance and repair status, Facility operating data, and any other information reasonably requested by the Operating Committee or the Non-Operator Owner.
Security	Implement or arrange for implementation of security measures in accordance with the Operating Committee-approved Facility security plan.
Safety	Continue to implement Corporate and Plant Level Safety Programs including on-site visits and discussions at the facility.
PJM Capacity Analysis	Analysis and plant level information to PJM as part of PJM's FRR or RPM Capacity Market requirements
Information Systems	Manage the Facility's information technology infrastructure, including phone systems, internet connectivity, hardware and software. Implement or arrange for implementation of cybersecurity policies and procedures in compliance with NERC requirements and Applicable Law, in accordance with the Operating Committee-approved Facility cybersecurity plan.
Training Program	Implement a continuing program of training designed to orient new Facility Personnel, refresh/cross-train existing Facility Personnel, qualify/re-qualify Facility Personnel, and keep all Facility Personnel aware of Operating Committee -approved Facility safety requirements and emergency procedures. This program includes specialty skills training.
Drawing/Manual Maintenance	Maintain the Facility library and update the Manuals and vendor service manuals. Update (or arrange for updating) Facility drawings to reflect changes to the as-built configuration. In addition to

	document management, maintain physical Facility configuration control.
Fuel Purchasing and Handling	• Procure coal, reagents, fuel oil supply or transportation service agreements as needed to operate the Facility and establish and maintain reserves of coal in common stock piles of such quality and in such quantities as the Operating Committee shall determine • Contract administration for Fuel supply contracts along with legal review. • Third Party Settlements of fuel related supply and inventory tracking in ComTrac system • Joint Books Accounting to prepare information for billing among co-owners per agreement • Analysis of fuel related costs for data requests from regulatory bodies or joint owner • Provide fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by the Facility during each month. • Receive coal and provide fuel handling • Fuel coordinator functions to review fuel quality with third party suppliers at coal or limestone facilities. • Administer and reconcile volumes of all fuel with suppliers • Administer and comply with the requirements set forth in the Facility's fuel agreements, including quality testing and invoice review and approval • Administer and comply with the requirements set forth in the Facility's coal ash, gypsum and combustion byproduct disposal and sales agreements, including invoice review and approval
Day Ahead and Real Time Market Operations	• Unit Generation Dispatch – Monitor signals and take direction from PJM for generating units. Relay these directions, commitments and settings to the Unit Operators and Controls. Relay information on real time unit conditions to Transmission Owner (TO) and PJM. • GADS Reporting – Create GADS events as they are scheduled

	or occur. Submit monthly event reporting as required by NERC and PJM. • Outage Support and Communications to PJM – Relay outage/curtailment information from plant personnel to PJM. Schedule maintenance and planned outages/curtailments, and maintain updates as they arise. • Unit Characteristic Updates to PJM – Provide any relevant configuration updates related to generating units to PJM that may occur. • Telemetry – Maintain current real time telemetry to/from the plant, PJM and Market Operations control center.
Administration of Contracts	• Administer, perform and enforce all contractual obligations and arrangements, including all warranties applicable thereto, entered into by Operator for the benefit of the Owners with respect to the Facility • Act as agent on behalf of the Non-Operating Owner with respect to the administration, performance and enforcement of any contracts or purchase orders (including fuel supply or transportation contracts) with respect to the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date
Insurance	• Procure on behalf of each Owner such property and other insurance policies as required by the insurance program established by the Operating Committee in accordance with the Ownership Agreement.
Decommissioning	• Manage and contract with vendors and other parties to perform Decommissioning Work. This includes the management of required regulatory filings, permitting, engineering assessments, and the contracting for demolition and or liability transfers. Upon mutual agreement between Operator and the Operating Committee, Operator may conduct all or a portion of the Facility and/or Site Decommissioning from its and its Affiliates resources.

APPENDIX C – OPERATING COSTS WORKSHEET/SAMPLE INVOICE

MITCHELL PLANT OPERATIONS AND MAINTENANCE AGREEMENT

This OPERATIONS AND MAINTENANCE AGREEMENT (this "Agreement"), dated as of [_____] (the "Effective Date"), is entered by and between WHEELING POWER COMPANY, a West Virginia corporation (in its capacity as the operator of the Facility, "Operator" and in its capacity as an owner of the Facility, "WPCo") and KENTUCKY POWER COMPANY, a Kentucky corporation qualified as a foreign corporation in West Virginia (in its capacity as an owner of the Facility, the "Non-Operator Owner" and, together with WPCo, each an "Owner" and, together, the "Owners").

RECITALS

1. Owners each own an undivided Ownership Interest in the Facility (these and other capitalized terms are defined in Article II).

2. On the date hereof, WPCo and the Non-Operator Owner have entered into that certain Mitchell Plant Ownership Agreement, setting forth the respective rights, duties and obligations of the Owners with respect to each other and the Facility in their capacities as the Owners thereof (the "Ownership Agreement").

3. Pursuant to the Ownership Agreement, WPCo has agreed to manage the day-to-day operations and maintenance of the Facility as Operator pursuant to the terms of this Agreement.

4. Operator and the Non-Operator Owner desire to execute this Agreement to set forth the respective rights, duties and obligations of WPCo, in its capacity as Operator of the Facility, and the Non-Operator Owner, in its capacity as an Owner of an undivided interest as a co-tenant in the Facility.

NOW, THEREFORE, in consideration of the foregoing premises, and of the mutual covenants, undertakings and conditions set forth below, the Parties agree as follows:

ARTICLE I - AGREEMENT

1.1 Agreement. This Agreement consists of the recitals, and the terms and conditions set forth in this Agreement, as well as the appendices that are referenced in the table of contents and attached to this Agreement.

1.2 Relationship of the Parties. Operator shall perform the Services in its capacity as an independent contractor of the Owners and as principal on its own behalf as an Owner. Subject to any limitations set forth in this Agreement and the Ownership Agreement, the Owners delegate to Operator, and Operator accepts from the Owners, the responsibility of providing the Services at the Facility. The Owners and Operator agree that the scope of delegation is strictly limited to the matters set forth in this Agreement and the Ownership Agreement. Without limiting the generality of the foregoing, the Owners retain the ultimate authority and obligation to determine whether and to what extent the Facility operates, and Operator shall not cause the Facility to generate power except as expressly directed to do so by the Owners or any dispatching authority specified by the Owners in accordance with the Ownership Agreement. For the

avoidance of doubt, any provision of this Agreement requiring the delegation of authority, direction, consent or authorization with respect to the Owners shall mean the delegation, direction, consent or authorization of both Owners (or the Operating Committee) in accordance with the Ownership Agreement (except to the extent the Ownership Agreement gives exclusive authority to the Non-Operator Owner thereunder, in which case such delegation of authority, direction, consent or authorization with respect to the Owners shall mean exclusively the delegation, direction, consent or authorization of the Non-Operator Owner).

1.3 Entire Agreement. This Agreement, together with the Ownership Agreement, contains the entire agreement between the Parties with respect to Operator's provision of Services at the Facility and supersedes all prior negotiations, undertakings and agreements.

ARTICLE II - DEFINITIONS

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears, capitalized terms have the meanings specified in this Article II. The singular includes the plural, as the context requires. The terms "includes" and "including" mean "including, but not limited to." The terms "ensure" and "reasonable efforts" will not be construed as a guarantee, but will imply only a duty to use reasonable efforts and care, consistent with Prudent Operation and Maintenance Practices, and will include reasonable expenditures of money and at least such efforts as Operator would undertake for its own assets, services or maintenance, or for services provided to an Affiliate. "Gross negligence" will not be construed as simple or ordinary negligence, it being the intent of the Parties to preserve a distinction between errors made inadvertently while attempting to perform with due care and actions taken with a knowing disregard for a foreseeable risk. "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day. "Month" (regardless of capitalization) shall mean a calendar month. References to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement, except where expressly stated otherwise.

"AEP" shall mean American Electric Power Company, Inc., a New York corporation and an Affiliate of WPCo.

"AEPSC" shall mean American Electric Power Service Corporation, a New York corporation and an Affiliate of WPCo.

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, controls, is controlled by, or is under common control with such Person. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise. The Non-Operator Owner shall not be deemed an Affiliate of the Operator.

"Agreement" has the meaning set forth in the preamble to this Agreement.

"Applicable Law" means all laws (including common law), statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, Governmental

Approvals, Permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over an Owner, any other Person or entity (as to that Person or entity), this Agreement, any Facility asset or the Facility, as applicable.

"Bankruptcy" means a situation in which (i) a Person files a voluntary petition in bankruptcy or is adjudicated as bankrupt or insolvent, or files any petition or answer or consent seeking any reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable United States federal, state or other statute or law relative to bankruptcy, insolvency or other relief for debtors, or seeks or consents to or acquiesces in the appointment of any trustee, receiver, conservator or liquidator of such Person or of all or any substantial part of its properties (the term "acquiesce," as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within fifteen (15) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction enters an order, judgment or decree approving a petition filed against any Person seeking a reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States federal bankruptcy act, or any other present or future Applicable Law relating to bankruptcy, insolvency or other relief for debtors, and such Person acquiesces and such decree remains unvacated and unstayed for an aggregate of sixty (60) days (whether or not consecutive) from the date of entry thereof, or a trustee, receiver, conservator or liquidator of such Person is appointed with the consent or acquiescence of such Person and such appointment remains unvacated and unstayed for an aggregate of sixty (60) days, whether or not consecutive; (iii) a Person admits in writing its inability to pay its debts as they mature; (iv) a Person gives notice, to any Governmental Authority of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) a Person makes a general assignment for the benefit of creditors or takes any other similar action for the protection or benefit of creditors (other than in the ordinary course of such party's business).

"Budget" means an annual operating budget and annual capital budget adopted or amended pursuant to the Ownership Agreement.

"Business Day" means any day other than (i) a Saturday or Sunday or (ii) a day on which banks in West Virginia or Ohio are required or permitted to be closed.

"Claims" means any and all claims, assertions, demands, suits, investigations, inquiries, and proceedings.

"Confidential Information" means, with respect to each Party, all written or oral information of a proprietary, intellectual or similar nature, relating to the business, projects, operations, activities or affairs of a Party and its Affiliates, whether of a technical or financial nature or otherwise (including environmental assessment reports, financial information, business plans and proposals, ideas, concepts, trade secrets, know-how, processes, pricing of services or products, and other technical or business information, whether concerning this Agreement, each Party's respective businesses or otherwise) that has not been publicly disclosed and that the receiving Party acquires directly or indirectly from the disclosing Party.

"Cost Allocation Manual" means the Cost Allocation Manual of Operator and its Affiliates, as may be amended from time to time, as filed with FERC and, to the extent required, the WVPSC.

"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the generating units and other property, plant, and equipment comprising the Facility, including any common facilities associated with each generating unit that are to be permanently removed from service, the restoration of the Site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.

"Decommissioning Work" shall mean all work reasonably necessary or undertaken to Decommission the Facility, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Facility in accordance with Applicable Law.

"Dollars" means United States Dollars, the lawful currency of the United States of America.

"Due Date" means, with respect to any Operator invoice, the date that is thirty (30) days following the date on which Operator submits the invoice to the Non-Operator Owner in accordance with Article VII. If such date does not fall on a Business Day, then the Due Date shall be the first Business Day after such date.

"Effective Date" means the date set forth in the preamble to this Agreement.

"Emergency" has the meaning set forth in Section 3.8.

"Encumbrance" means (i) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (ii) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary Claim; and (iii) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Environmental Law" means any Applicable Law pertaining to (i) the regulation or protection of employee health or safety, public health or safety, or the indoor or outdoor environment; (ii) the conservation, management, development, control or use of land, natural resources, or wildlife; (iii) the protection or use of surface water or ground water; (iv) the management, manufacture, possession, presence, use, generation, treatment, storage, disposal, transportation, or handling of, or exposure to any Hazardous Material; or (v) pollution (including release of any hazardous substance to air, land, surface water and ground water), including the Comprehensive Environmental Response, Compensation, and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. §§ 9601 et seq.), the Hazardous Materials Transportation Act (49 U.S.C. §§ 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. §§ 6901 et seq.), the Toxic Substances Control Act

(15 U.S.C. §§ 2601 et seq.), the Clean Water Act (33 U.S.C. §§ 7401 et seq.), the Clean Air Act, as amended (42 U.S.C. §§ 7401 et seq.), the Safe Drinking Water Act (42 U.S.C. §§ 300f et seq.), the Uranium Mill Tailings Radiation Control Act (42 U.S.C. §§ 7901 et seq.), the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§ 136 et seq.), all as now or hereafter amended or supplemented, and any regulations promulgated thereunder, and any other similar federal, state, or local statutes, rules and regulations.

"Environmental Liability" has the meaning set forth in Section 10.3.1.

"Facility" means the Mitchell Power Generation Facility consisting of two (2) coal-fired generating units, each having a nominal nameplate capacity of 800 megawatts, and associated plant, equipment and real estate, located in Moundsville, West Virginia, and includes all electrical or thermal devices, and related structures and connections that are located at the Site and used for the production of power and the transportation and handling of fuel for the benefit of the Owners, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam.

"Facility Agreements" means this Agreement, the Ownership Agreement, all applicable interconnection agreements, fuel supply agreements, coal ash, gypsum and other combustion byproduct disposal or sales agreements, all applicable equipment maintenance agreements in effect or entered into, and as amended, supplemented or modified, from time to time by the Operator or the Owners relating to the Facility, all equipment contracts with regard to warranties and equipment design and specifications, and any other agreement reasonably designated by the Owners as a "Facility Agreement."

"Facility Equipment" has the meaning set forth in Section 13.1.

"Facility Personnel" means those individuals who are employed by Operator or its Affiliates to perform services in respect of the Facility under this Agreement.

"Force Majeure Event" has the meaning set forth in Section 14.6.1.

"Governmental Approval" means any consent, license, approval, exemption, Permit, "no objection certificate" or other authorization of whatever nature that is required to be granted by any Governmental Authority or any third party with respect to the siting, construction, operation, service and maintenance of the Facility in accordance with this Agreement, or otherwise necessary to enable an Owner or Operator to exercise its rights, or observe or perform its obligations, under this Agreement.

"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision, department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.

"Hazardous Materials" means (a) any petroleum or petroleum products, radioactive materials, asbestos in any form that is or could become friable, urea formaldehyde foam insulation, 1.4 Dioxane, per-and polyfluoroalkyl substances, and transformers or other equipment

that contain dielectric fluid containing polychlorinated biphenyls; (b) any chemicals, materials or substances that are now or hereafter become defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollution," "pollutants," "regulated substances," or words of similar import under Applicable Law; or (c) any other chemical, material, substance or waste declared to be or regulated as hazardous, toxic or polluting material by any Governmental Authority, exposure to which is now or hereafter prohibited, limited or regulated by any Governmental Authority.

"Late Payment Rate" means a rate of interest per annum equal to the lesser of (i) the "prime" rate of interest per annum for corporate loans as published in The Wall Street Journal under "Money Rates" as such rate may be in effect from time to time during the period the delinquent amount remains outstanding plus four (4) percentage points (4%) per annum or (ii) the maximum rate of interest permitted by Applicable Law.

"Lender" means any entity or entities providing financing or refinancing to an Owner under any financing agreements in connection with the construction or permanent financing for the Facility, and their permitted successors and assigns.

"Liabilities" means, collectively, any and all Claims, damages, judgments, losses, obligations, liabilities, actions and causes of action, fees (including reasonable attorneys' fees and disbursements), costs (including court costs), expenses, penalties, fines and sanctions.

"Manuals" means Facility Equipment manuals, system descriptions, system operating instructions, equipment maintenance instructions and pertinent design documentation created by the Persons that constructed the Facility or manufactured its equipment, and the operation and maintenance procedures and Facility systems descriptions, training, safety, chemistry and environmental manuals, together with the documents and schedules described in such manuals.

"NERC" means the North American Electric Reliability Corporation.

"Non-Operator Owner" has the meaning set forth in the preamble to this Agreement.

"Non-Operator Owner Indemnitees" has the meaning set forth in Section 10.1.

"Operating Committee" means the "Operating Committee" as composed from time to time pursuant to and defined in the Ownership Agreement.

"Operating Costs" has the meaning set forth in Section 7.2.1.

"Operator" has the meaning set forth in the preamble to this Agreement.

"Operator Indemnitees" has the meaning set forth in Section 10.2.

"Operator Proprietary Information" has the meaning set forth in Section 13.3.

"Owner" has the meaning set forth in the preamble to this Agreement.

"Ownership Agreement" has the meaning set forth in the recitals to this Agreement.

"Ownership Interest" has the meaning set forth in the Ownership Agreement.

"Party" means a party to this Agreement and "Parties" means, collectively, the parties to this Agreement, unless the context clearly requires a different construction.

"Permit" means any permit, license, consent, approval or certificate that is required or used for the operation or maintenance of the Facility or the performance of any Service and includes Permits required under Environmental Laws.

"Person" means any Party, individual, partnership, corporation, association, limited liability company, business trust, government or political subdivision thereof, governmental agency or other entity.

"Plan" means an annual operating plan adopted or amended pursuant to Section 5.3.

"Plant Manager" means the production/plant manager for the Facility selected in accordance with Section 3.6, Section 8.5 or Section 8.6.

"Project Manager" means the individual appointed in accordance with Section 5.1.

"Prudent Operation and Maintenance Practices" means those practices, methods and acts generally employed in the power generation industry with respect to facilities of similar type, fuel characteristics and geographical location as the Facility, that at the particular time in question, in the exercise of reasonable judgment in light of the facts known at the time the decision in question was being made, would have been expected to accomplish the desired result of such decision consistent with the goals established in a Budget and Plan, and the requirements of Applicable Law, System Operators, equipment manufacturer's recommendations, reliability, safety, environmental protection, economy and expedition. With respect to Operator, Prudent Operation and Maintenance Practices are not limited to the optimum practices, methods or acts to the exclusion of all others, but rather include a spectrum of possible practices, methods or acts commonly employed in the coal-fired power generation industry, including taking reasonable actions to provide a sufficient number of Persons who are available and adequately trained to provide Services at the Facility, and timely perform preventive, routine, and non-routine maintenance and repairs, as exemplified and generally described in Appendix A, subject, in all cases, to the Operator's duties and the limitations on Operator's authority, as set forth in this Agreement and the Ownership Agreement.

"Qualified Replacement Operator" shall mean a Person that:

(i) has operated for a period of at least three (3) years, and continues to operate, coal and/or natural gas power generation facilities with an aggregate electricity output of at least one thousand (1,000) megawatts and at least one of those facilities is a coal power generation facility with an aggregate electricity output of at least three hundred (300) megawatts (or has engaged a third party to operate the Facility who satisfies such operation standards); and

(ii) either has (a) a credit rating of "BBB-" or higher by S&P Global Ratings and "Baa3" or higher by Moody's Investor Service or (b) a tangible net worth of at least $500,000,000 (or has a direct or indirect parent who satisfies such financial standards).

"Services" has the meaning set forth in Section 3.1.

"Site" means the land on which the Facility is situated.

"Standards of Performance" means the standards for Operator's performance of the Services set forth in Section 3.3.

"System Operator" means any Person or regional transmission organization, such as PJM Interconnection, L.L.C., supervising the collective transmission or generation facilities of the power region in which the Facility is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

"Term" means the initial term together with any extensions.

"Termination Transition Period" has the meaning set forth in Section 8.5.1.

"WPCo" has the meaning set forth in the preamble to this Agreement.

"Year" means the calendar year. With respect to the Year in which the Effective Date occurs, a Year will be deemed to begin on the Effective Date and end on December 31st of such Year. If this Agreement terminates, the final Year will be deemed to end on the date that termination occurs.

ARTICLE III - RESPONSIBILITIES OF OPERATOR

3.1 Provision of Services. Operator shall operate and maintain the Facility and perform other duties as set forth in this Agreement and as directed by the Owners pursuant to the Ownership Agreement, including performing and, as applicable, contracting for the benefit of the Owners with suppliers and service providers to perform, the services set forth on Appendix A (collectively, the "Services") and agrees to be responsible for the day-to-day operation and maintenance of the Facility.

3.2 Procurement.

3.2.1 Operator shall sign contracts and purchase orders for goods and services to be delivered to the Facility in the name of Operator as agent for the Owners, and shall not contract in the name of the Non-Operator Owner without the Non-Operator Owner's prior written consent. Operator acknowledges that such contracts and purchase orders are for the benefit of the Owners and the Facility. Operator shall endeavor to negotiate with vendors from standard terms and conditions, including reasonable warranties for the benefit of the Owners.

3.2.2 The Non-Operator Owner shall use commercially reasonable efforts to obtain, promptly following the Effective Date, any and all consents of third parties required to assign, transfer or convey to Operator any contracts or purchase orders for goods and services

(including fuel supply and transportation) to be delivered to or used by the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date, which are reasonably required to be transferred to Operator for the performance of the Services. To the extent that, notwithstanding its commercially reasonable efforts, the Non-Operator Owner is unable to obtain any such required consent effective as of the Effective Date, and as a result thereof Operator shall be prevented by such third party from receiving the rights and benefits with respect to any such contract or purchase order intended to be transferred hereunder, or if any attempted assignment would adversely affect the rights of the Non-Operator Owner thereunder so that Operator would not in fact receive all such rights or the Non-Operator Owner would forfeit or otherwise lose the benefit of rights that the Non-Operator Owner is entitled to retain, the Non-Operator Owner and Operator shall cooperate to implement any lawful and commercially reasonable arrangement as the Non-Operator Owner and Operator shall agree, under which Operator would, to the extent practicable, obtain the claims, rights and benefits under such contract or purchase order and assume the burdens and obligations with respect thereto, including by the Non-Operator Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such contracts or purchase orders; provided, however, that the Non-Operator Owner and WPCo shall each bear its respective share of the costs and expenses under any such contract or purchase order in accordance with this Agreement and the Ownership Agreement. The Non-Operator Owner and Operator shall continue to cooperate to assign, transfer or convey to Operator any such contract or purchase order that remain held by the Non-Operator Owner and to otherwise arrange for Operator to directly contract with the applicable third party for any renewal contract or purchase upon the expiration or termination of any such contract or purchase order.

3.3 Standards for Performance of the Services. Operator shall perform the Services in accordance with (i) the Manuals, (ii) the applicable Budget and Plan, (iii) Applicable Laws, (iv) Prudent Operation and Maintenance Practices, (v) insurer requirements delivered to Operator by the Owners in writing, (vi) the requirements in the Facility Agreements (vii) this Agreement; and (viii) as directed by the Owners pursuant to the Ownership Agreement. Subject to the other provisions of this Agreement, Operator shall perform the Services and other obligations under this Agreement in a manner consistent with the Operating Committee's directions. The Parties acknowledge and agree that, subject to Operator's compliance with the Standards of Performance, Operator shall have no liability for acting or refraining to act in accordance with the directions of the Operating Committee, except to the extent caused by Operator's gross negligence, willful misconduct, fraud, willful violation of any Applicable Law, willful breach of this Agreement or the Ownership Agreement or other willful misconduct.

3.4 Dispatch. Operator shall use commercially reasonable efforts to comply with any applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement. Operator shall give the Operating Committee notice as soon as practicable of any inability of the Facility to make the requisite deliveries of energy, capacity or ancillary services and of Operator's plan to restore operation of the Facility. In the case of any interruption, curtailment or reduction in (i) supplies of fuel or (ii) acceptance of energy, capacity or ancillary services by the System Operator or in the case of any other dispatch constraint

imposed on the Facility, Operator shall notify the Non-Operator Owner as soon as practicable. Upon removal of the constraint, Operator shall use its commercially reasonable efforts to restore the availability of the Facility for dispatch consistent with applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement.

3.5 Licenses and Permits.

3.5.1 General. Operator shall review all Applicable Laws containing or establishing compliance requirements in connection with the operation and maintenance and Decommissioning of the Facility and shall use commercially reasonable efforts to obtain and maintain, for the benefit of both Owners, all Permits required by Applicable Law for the ownership, operation, maintenance and Decommissioning of the Facility and for Operator's performance of the Services, and shall (i) from time to time, notify the Operating Committee if Operator believes that a Permit is required by Applicable Law to be obtained by an Owner in its name in order to allow Operator to perform the Services and assist each Owner, at each Owner's written request and such Owner's sole cost and expense, in securing and complying with, as appropriate, all necessary Permits (and renewals of the same) which are required to be in an Owner's name, including those relating to air emissions, boiler operation, water usage, septic system operation, wastewater discharge, chemical and other waste (including Hazardous Materials) storage and disposal, emissions testing and safety, and (ii) initiate and maintain precautions and procedures reasonably necessary to comply with Applicable Laws. Any Permit held solely in the name of Operator shall, to the extent necessary for the other Owner's compliance with Applicable Law in its role as an Owner, be held by Operator for the benefit of both Owners. Any Permit held solely in the name of the Non-Operator Owner shall, to the extent necessary and consistent with Applicable Laws, be made available for the use of the Operator for the benefit of the Owners and, if reasonably necessary to facilitate Operator's operation and maintenance or Decommissioning of the Facility, the Non-Operator Owner shall cooperate with Operator to effect an assignment or other transfer of such Permit to Operator or otherwise submit such Permit modifications or updating information as necessary to reflect the role of Operator with respect to such Permit.

3.5.2 NERC Compliance. Operator (or an Affiliate thereof) shall register with NERC as the "Generator Owner" and "Generator Operator" for the Facility in accordance with 18 C.F.R. § 39.2(c) effective from and after [the Effective Date][1]. On and after [the Effective Date], Operator shall, or shall cause its applicable Affiliate to, (i) maintain compliance with all NERC reliability standards applicable to the Facility and all NERC rules applicable to Operator as Generator Owner and Generator Operator for the Facility in accordance with 18 C.F.R. § 39.2(b), including any actions related to mitigation and compliance enhancement required or implemented thereunder; (ii) provide notice to the Operating Committee promptly following the determination by Operator of any reportable physical or cyber security incident under the NERC reliability standards or other Applicable Law; (iii) maintain and provide documentation and maintenance records to the Operating Committee regarding any operation, testing, maintenance

[1] **Note**: Subject to modification if registration cannot be effective as of the Effective Date.

or faults of any generation protection relays, gen-tie relays or any other equipment necessary to fulfill Operator's or its applicable Affiliate's obligations as the Generator Owner or Generator Operator for the Facility; and (iv) provide to the Non-Operator Owner upon written request any other information, documentation and support reasonably necessary for Operator or its applicable Affiliate to demonstrate compliance with the NERC reliability standards. To the extent that any fine or sanction is imposed in respect of the performance of Operator's obligations under this Section 3.5.2 pursuant to Section 215(c) of the Federal Power Act, any cost related thereto shall be a included as an Operating Cost, to the extent permitted by Applicable Law.

3.6 Personnel Matters. Subject to Sections 8.5 and 8.6, and as otherwise set forth in this Section 3.6, Operator shall be responsible for determining the working hours, rates of compensation and all other matters relating to the employment of Operator's Facility Personnel, including the designation or appointment of the Plant Manager, in its reasonable judgment and in accordance with Non-Operator Owner's and its Affiliates' past practices in the ordinary course of its business during the time it served as operator of the Facility, and shall retain sole authority, control and responsibility with respect to its employment policies. Operator shall submit for the Operating Committee's approval the staffing requirements for the Facility on an annual basis. If Operator intends to select a new Plant Manager, or if the individual serving as Plant Manager ceases to be the Plant Manager, Operator shall provide prompt written notice to the Non-Operator Owner of the selection of a substitute Plant Manager. Facility Personnel shall be qualified and experienced in the duties to which they are assigned. Operator shall, upon the reasonable written request of the Non-Operator Owner, for cause (as documented in reasonable detail in any such written request), use commercially reasonable efforts to, as promptly as practicable under the circumstances and subject to any applicable collective bargaining agreements, remove from the Site and the Facility workforce, the services of any employee or other individual, subject to Operator's confirmation that such cause exists.

3.7 No Liens or Encumbrances. Operator shall use commercially reasonable efforts to keep and maintain the Facility free and clear of all liens and Encumbrances resulting from the failure by Operator to perform the Services or the personal debts and obligations of Operator unrelated to its ownership interest in the Facility.

3.8 Emergency Action. In the event of an emergency affecting the safety, health or protection of, or otherwise endangering, any Person, property or the environment located at or about the Facility (an "Emergency"), Operator shall take prompt action in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate any imminent damage, injury or loss threatened by such Emergency, and shall notify the Non-Operator Owner of such Emergency and Operator's response as soon as practical under the circumstances and in no event later than forty-eight (48) business hours after Operator becomes aware of such event. To the extent Operator procures goods and services as necessary to respond to an Emergency, reasonable and documented out of pocket costs in respect thereof shall be treated as Operating Costs.

ARTICLE IV - OBLIGATIONS, RIGHTS AND REPRESENTATIVES OF EACH OWNER

4.1 General. Each Owner expressly reserves the exclusive authority to make, and shall make, such business and strategic decisions as it deems appropriate from time to time in reference to the operation and maintenance of the Facility in accordance with the Ownership Agreement. Upon request from Operator, the Non-Operator Owner shall promptly furnish or cause to be furnished to Operator, at the Non-Operator Owner's expense, the information, access, materials, instructions and other items described in this Article IV that are in the possession or control of the Non-Operator Owner and which are reasonably necessary for performance of the Services by Operator and not otherwise available to Operator. All such items will be made available at such times and in such manner as may be reasonably required for the expeditious and orderly performance of the Services by Operator.

4.2 Information. Subject to the Standards of Performance, Operator shall be entitled to rely upon any information provided by the Non-Operator Owner or any other party to the Facility Agreements in the performance of the Services.

4.3 Access to Facility. Each Owner shall provide Operator and Operator's contractors, vendors, suppliers, employees and agents and Facility Agreement counterparties, to the extent applicable, reasonable access to and use of the Facility and the Site and to such Owner's records and data at the Facility and, in the case of the Non-Operator Owner, reasonably available to the Non-Operator Owner or in the Non-Operator Owner's possession and reasonably necessary for the performance of Services by Operator under this Agreement.

4.4 Instructions, Approvals, etc. Each Owner shall provide or cause to be provided (including through action of the Operating Committee) to Operator all instructions Operator is required to obtain in accordance with this Agreement. Without limiting the provisions of Section 3.2.2, each Owner shall reasonably cooperate to make available or cause to be available to Operator the benefits of all assets (including Permits and contracts relating to the Facility) held in the name of such Owner, as reasonably required for the operation of the Facility. Each Owner shall not direct Operator to take any action inconsistent with Applicable Law or otherwise adversely affecting the safety, health or protection of any person, or property or the environment located at or about the Facility.

ARTICLE V - REPRESENTATIVES, BUDGETS AND REPORTS

5.1 Representatives of Operator. On or as soon as practical after the Effective Date, Operator shall appoint a Project Manager who shall be authorized to represent Operator with each Owner and the Operating Committee concerning Operator's performance of the Services. The Project Manager may be the same individual as the Plant Manager. Operator shall be responsible for all communications, directions, requests and decisions made by its Project Manager at its direction. Operator shall notify the Non-Operator Owner in writing upon the appointment of its Project Manager, and of any successors. The Project Manager has no authority to modify, amend or terminate this Agreement or, absent written notice by Operator to

the contrary, to enter into any other agreement on behalf of Operator other than as provided herein.

5.2 Representatives of Owner; Operating Committee. The Operating Representative of each Owner (pursuant to and as defined in the Ownership Agreement) shall be authorized and empowered to act for and on behalf of such Owner on all matters requiring the consent, approval or other action of an Owner pursuant to this Agreement. Each Owner shall notify Operator and the other Operating Representative in writing upon the appointment of its Operating Representative, and of any successors. Any provision of this Agreement requiring the consent, approval, or similar act of the Operating Committee shall mean the consent, approval, or similar act of the Operating Committee acting in accordance with the terms of the Ownership Agreement.

5.3 Plans and Budgets.

5.3.1 Adoption.

5.3.1.1. Budgets. The initial Budget and Plan for the first Year following the Effective Date is attached as Appendix B hereto. No later than ninety (90) days prior to each operating Year, Operator shall deliver to the Operating Committee for the Operating Committee's review, revision if applicable and approval (i) a proposed annual operating budget, (ii) any proposed amendments to the annual capital budget, (iii) an annual operating plan and (iv) a six (6) Year future forecast of operating and capital expenses. Each such proposed budget, plan and forecast shall contain such detail and supporting documentation as reasonably necessary or reasonably requested for the Operating Committee's review, and Operator shall provide all such additional information and supporting documentation as may be reasonably requested by the Operating Committee and as required by the Ownership Agreement. The Operating Committee shall review and provide modifications to each such proposed budget, plan and forecast and Operator shall cooperate to revise each such proposed budget and plan to receive the Operating Committee's approval of same by December 1 of each Year. Each Budget and Plan as approved by the Operating Committee or otherwise deemed implemented pursuant to the Ownership Agreement shall remain in effect in accordance with the Ownership Agreement. Operator and the Non-Operator Owner by mutual agreement may modify the process and procedures set forth in this Section 5.3.1.

5.3.1.2. Amendments. If either the Non-Operator Owner or Operator becomes aware of facts or circumstances that it believes necessitate a change to a Budget or Plan, that Party shall promptly notify the other Party in writing, specifying the impact upon the Budget and the reasons for the change. The Project Manager shall then discuss appropriate amendments to the Budget with the Operating Committee.

5.3.1.3. Failure to Agree. Operator acknowledges that the Owners retain ultimate authority with respect to expenses incurred for the Facility. Accordingly, Operator shall accept each Budget as determined in accordance with the Ownership Agreement. To the extent that the Operating Committee limits funds for Operating Costs, Operator shall be

relieved from performing only those specific Services that would result in the incurrence of such non-reimbursable Operating Costs.

5.3.2 Limitations on Variation from Budget. Except as otherwise permitted in response to an Emergency in accordance with Section 3.8, Operator shall obtain the Operating Committee's written approval (i) for any expenditures resulting in cumulative budget overruns exceeding ten percent (10%) in the aggregate in any Year with respect to either the operating Budget or capital expense Budget, or (ii) for any unbudgeted expenditure or capital project having a projected cost of more than $100,000.

5.4 Availability of Operating Data and Records. Operator shall deliver Facility data recorded, prepared or maintained by Operator to the Operating Committee: (i) as necessary or reasonably requested by an Owner to assist each Owner in complying with requirements of Governmental Authorities, Permits and Facility Agreements; or (ii) upon request by the Non-Operator Owner, in each case as soon as reasonably practicable but in any event within ten (10) Business Days following such request.

5.5 Litigation and Permit Lapses. Promptly upon obtaining actual knowledge thereof, either Party shall submit prompt written notice to the other Party of the following, to the extent relating to the Facility or the Services or agreements relating to either the Facility or the Services: (i) any litigation, Claims or actions filed, including by, against or with any Governmental Authority; (ii) any actual refusal to grant, renew or extend, or any action filed with respect to the granting, renewal or extension of, any Permit; (iii) all penalties or notices of violation issued or asserted by any Governmental Authority; (iv) any dispute with any Governmental Authority that may affect the Facility in any material respect; and (v) with respect to the matters identified in items (i), (ii), (iii) or (iv), any material threats of such matters. Upon Non-Operator Owner's request, Operator shall provide any documentation related to any of the foregoing.

5.6 Other Information. Operator shall promptly submit to the Non-Operator Owner any material information concerning new or significant aspects of the Facility operations and, upon the Non-Operator Owner's request, shall promptly submit any other information concerning the Facility or the Services.

5.7 Records Maintenance and Retention. Operator shall maintain all records, reports, documents and data, including all data retrievable from an electronic data storage source, for the Facility in accordance with Applicable Law and shall retain and preserve all such records, reports, documents and data created in connection with the operation and maintenance of the Facility, in accordance with Applicable Law, provided that Operator shall notify the Non-Operator Owner in writing at least sixty (60) days prior to the destruction or other disposition of any record, report, document or data. If the Non-Operator Owner gives written notice to Operator prior to the expiration of the 60-day period, Operator shall maintain custody of such material until the earlier of (i) such time as the Non-Operator Owner notifies Operator to dispose of such material and (ii) seven (7) Years. If the Non-Operator Owner does not provide written notice to Operator prior to the expiration of the 60- day period, Operator may destroy or

dispose of such material and shall provide the Non-Operator Owner with a certificate confirming such destruction or disposition.

ARTICLE VI - LIMITATIONS ON AUTHORITY

6.1 Limitations on Authority. Operator has no authority to make policies or decisions with respect to the overall operation or maintenance of the Facility as a commercial enterprise pursuant to the terms of this Agreement. The Owners, acting through the Operating Committee and pursuant to the terms of the Ownership Agreement, shall determine all such matters. Notwithstanding any provision in this Agreement to the contrary, unless previously approved in a Budget and Plan or otherwise approved in writing by the Operating Committee, in connection with Operator's provision of Services hereunder, Operator is prohibited from doing any of the following (and shall not permit any of its agents, Affiliates, or representatives to do any of the following):

6.1.1 Dispose of Assets. Selling, leasing, pledging, mortgaging, granting a security interest in, encumbering, conveying, or making any license, exchange or other transfer or disposition of all or any portion of the Facility, the Site or any other property or assets of the Owners, including any property or assets purchased by Operator, the cost of which is an Operating Cost;

6.1.2 Make Expenditures. Making any expenditure or acquiring, on an Operating Cost basis, any goods or services from third parties, except in conformity with a Budget or as otherwise permitted under Section 5.3.2 or as authorized by the Operating Committee; provided, however, that in the event of an Emergency, Operator, without approval from the Owners, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.3 Take Other Actions. Taking or agreeing to take any other action or actions the decision for which is reserved exclusively for the Operating Committee pursuant to the Ownership Agreement; provided, however, that in the event of an Emergency, Operator, without approval from the Operating Committee, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.4 Act Regarding Lawsuits and Settlements. Settling, compromising, assigning, pledging, transferring, releasing or consenting to the compromise, assignment, pledge, transfer or release of, any material Claim, suit, debt, demand or judgment against or due by any Owner or Operator, the cost of which would be an Operating Cost hereunder, or submitting any such Claim, dispute or controversy to arbitration or judicial process, or stipulating in respect thereof to a judgment, or consent to the same; provided, however, that such prohibition shall not apply to, nor shall it be construed as a release or waiver of, any of Operator's rights or obligations pursuant to this Agreement or any other agreement between the Parties; or

6.1.5 Pursue Transactions. Engaging in any other transaction on behalf of the any Owner that is not permitted under this Agreement.

ARTICLE VII - COMPENSATION AND PAYMENT

7.1 General. The Non-Operator Owner shall pay Operator, and WPCo shall bear directly in its capacity as an Owner, its allocated share in accordance with the Ownership Agreement of all Operating Costs, all as further described below. All Operating Costs shall initially be paid for by Operator (except as otherwise provided in this Agreement) and subsequently invoiced monthly in arrears as more fully set forth in this Article VII.

7.2 Costs.

7.2.1 Operating Costs. Subject to the Ownership Agreement and the limitations on expenditures set forth elsewhere in this Agreement (including Section 5.3), the Non-Operator Owner shall reimburse Operator for its allocated share in accordance with the Ownership Agreement of the fully distributed costs incurred (whether paid or accrued) in the provision of Services (which shall be allocated consistent with Non-Operator Owner's and its Affiliates past practices in the ordinary course of business during the time it served as operator of the Facility and in any event in accordance with the Cost Allocation Manual with respect to costs incurred by Affiliates of Operator), including for labor, goods, services, capital expenditures, overhead, cost of capital, Taxes (other than income or franchise taxes), Permits and bonds (the "Operating Costs"), in each case invoiced in a manner consistent with the example invoice worksheets attached hereto as Appendix C, which shall include such costs with respect to: (i) equipment, material, supplies and other consumables, spare parts, replacement components, tools, office equipment, computer equipment, software, information technology and supplies acquired for use at the Facility; (ii) fuel supply and transportation; (iii) costs associated with special training of Facility Personnel and associated travel and living expenses; (iv) amounts paid under subcontracts, purchase orders and agreements; (v) fees for Permits required to be held by Operator; (vi) community relations and labor relations activities; and (vii) Operator's cost of Facility Personnel (and the allocable portion of other employees of Operator and its Affiliates attributable to performing the Services) wages, salaries, overtime, employee bonus, customary or required severance payments, unemployment insurance, long-term disability insurance, short term disability payments, sick leave, payroll taxes imposed on wages and benefits, worker's compensation costs and holidays, vacations, group medical, dental and life insurance, defined contribution retirement plans and other employee benefits; (viii) costs of third-party advisors, consultants, attorneys, accountants and contractors retained and managed by Operator in support of, and allocable to, the Services; (ix) a reasonably allocable portion of the cost of the insurance maintained by Operator in accordance with Section 9.1 on account of its Operator role; (x) reasonable costs incurred in response to an Emergency; and (xi) any other activity that Operator is required or expressly requested in writing by the Owners to perform under this Agreement for the benefit of the Facility or that is approved in a Budget or by the Operating Committee pursuant to the terms of this Agreement.

7.2.2 Invoicing. On or before the twenty-fifth (25^{th}) day of each calendar month during the Term, Operator shall submit invoices to the Non-Operator Owner in form and substance reasonably similar to that attached hereto as Appendix C for Operating Costs incurred during the preceding calendar month (as well as any such costs for any prior period that were not previously invoiced). If any contract or purchase order intended to be assigned, transferred or conveyed to Operator remains held by the Non-Operator Owner as described in Section 3.2.2 and

the Non-Operator Owner directly pays costs thereunder for the benefit of the Owners, the invoice submitted by Operator shall net WPCo's allocated share in accordance with the Ownership Agreement of any such costs paid by the Non-Operator Owner for the benefit of the Owners. The Non-Operator Owner shall make payment to Operator of its allocated share in accordance with the Ownership Agreement of the invoiced amount no later than the Due Date. For the avoidance of doubt, WPCo, in its capacity as an Owner, shall bear directly its allocated share in accordance with the Ownership Agreement of such Operating Costs.

7.3 Cost Audit. The Non-Operator Owner shall be entitled to conduct an audit, or to delegate a representative to audit, at its sole cost and expense and review of Operator's books and records with respect to all Operating Costs and performance of the Services together with any supporting documentation for a period of one (1) Year from and after the date of the audited payment. If, pursuant to such audit and review, it is agreed that any amount previously paid by Operator or by an Owner was not properly incurred as an Operating Cost or an adjustment of any such cost is required, Operator shall credit to the Non-Operator Owner or Operator, as applicable, its allocated share in accordance with the Ownership Agreement of such amount in the next succeeding invoice or promptly paid in cash if there shall not be further invoices issued.

7.4 Late Payment Rate. To the extent a Party fails to pay any amount required to be paid under this Agreement by the Due Date, the unpaid amount shall accrue interest each day at the Late Payment Rate from the Due Date until such amount (plus accrued interest) is paid by the applicable Party in full. In the event any paid amounts are disputed by a Party in good faith and such dispute is resolved (including if applicable in accordance with the procedures set forth in Section 14.7) in the favor of such Party, then the applicable other Party shall repay to such Party such overpaid amount plus interest thereon accrued each day at the Late Payment Rate from payment by such Party until such amount (plus accrued interest) is repaid in full to such Party by the applicable other Party.

ARTICLE VIII - TERM

8.1 Term. The Term of this Agreement shall commence on the Effective Date and, subject to approval or acceptance of termination by FERC or other Governmental Authority to the extent required, shall end on the date of termination of the Ownership Agreement (the "Term"). Notwithstanding the foregoing, this Agreement and the Term is subject to earlier termination pursuant to Sections 8.2 and 8.3.

8.2 Termination by the Non-Operator Owner for Cause. The Non-Operator Owner shall be permitted to terminate this Agreement upon written notice to Operator if any of the following events occur: (i) the Bankruptcy of Operator; (ii) a payment default by Operator (other than a disputed payment) that Operator fails to cure within ten (10) Business Days after Operator has received written notice of such default; (iii) Operator incurs liability to the Owners equal to the liability limit set forth in Section 11.2 for any two Years during the Term (provided that written notice of termination must be delivered to Operator no later than ninety (90) days after the end of the second of such two Years), or (iv) a material default by Operator in the performance of its obligations under this Agreement, including any default that has, or is reasonably expected to have, a material adverse effect on the operations, maintenance or performance of the Facility and Operator has failed to cure such default within sixty (60) days of

written notice of such failure; provided, that if it is not possible to cure such breach within sixty (60) days of receipt of such notice of failure, Operator (A) fails to commence to cure the breach within such sixty (60) day period, (B) thereafter fails to continue diligent efforts to complete the cure as soon as reasonably possible, or (C) fails to complete the cure within ninety (90) days of receipt of such notice of failure. In addition, Non-Operator Owner shall have the option to terminate this Agreement for convenience upon ninety (90) days written notice to Operator delivered no later than ninety (90) days after the occurrence of any transfer, assignment, sale or other disposition (including any transfers, assignments, sales or other dispositions in connection with a foreclosure or an exercise of remedies by the Financing Parties) that results in WPCo's Ownership Interest no longer being owned directly or indirectly by AEP or an Affiliate thereof, except in the case of an transfer, assignment, sale or other disposition to a successor Operator that is a Qualified Replacement Operator in compliance with the terms of this Agreement and the Ownership Agreement.

8.3 Termination by Operator. Operator shall be permitted to terminate this Agreement upon written notice to the Non-Operator Owner if any of the following events occur: (i) a payment default by the Non-Operator Owner (other than a disputed payment) that is not cured within thirty (30) days after the Due Date for any invoice; (ii) the Bankruptcy of the Non-Operator Owner; or (ii) a default by the Non-Operator Owner of any other obligation under this Agreement that has a material adverse effect on Operator's ability to perform the Services and that the Non-Operator Owner has failed to cure or make substantial progress in the reasonable opinion of Operator toward curing within ninety (90) days of written notice by Operator to the Non-Operator Owner of such failure. As soon as practicable after all cost information is gathered following termination, Operator shall invoice the Non-Operator Owner for its allocated share in accordance with the Ownership Agreement for Services rendered by Operator through the termination date, including all Operating Costs incurred through the date of termination but not paid.

8.4 Transfer of Facility Custody. Upon expiration or termination of this Agreement, Operator shall leave at the Facility all documents and records, tools, supplies, spare parts, safety equipment, Manuals, and any other items furnished on an Operating Cost basis, all of which shall remain the property of the Owners without additional charge. Operator shall execute all documents and take all other reasonable steps as may be reasonably requested by the Non-Operator Owner to assign to and vest in a replacement provider of Services all of its pro-rata rights, benefits, interests and title in connection with any subcontracts Operator executed in its own name for the benefit of the Facility and the Owners.

8.5 Services Upon Termination.

8.5.1 Upon notice of termination of this Agreement by either Operator or the Non-Operator Owner, unless the Non-Operator Owner is then in payment default such that Operator would have the right to terminate this Agreement pursuant to Section 8.3(i), the Non-Operator Owner shall have the right to specify a period of transition of no longer than nine (9) months (the "Termination Transition Period") during which Operator shall: (i) continue to provide Services at the Facility in accordance with this Agreement; (ii) cooperate with the Non-Operator Owner in planning and implementing a transition to any replacement provider of Services; (iii) use its commercially reasonable efforts to minimize disruption of Facility

operations in connection with such transition activities; (iv) make all requisite regulatory filings as promptly upon commencement of the Termination Transition Period, subject to cooperation of the Parties; (v) transfer all Permits, licenses, registrations, approvals and contracts to the Non-Operator Owner or such replacement operator, in each case, as requested by the Non-Operator Owner; and (vi) take all actions incidental thereto and as reasonably requested by the Non-Operator Owner. The provisions of Article VII shall continue to apply during the Termination Transition Period. To facilitate employee transfer, Operator shall permit the replacement service provider and the Non-Operator Owner to interview such Facility Personnel for potential positions with such replacement operator in a manner and at times that do not interfere with Operator's responsibility to perform the Services. If Operator or one of its Affiliates continues to own a portion of the Facility, Operator shall, or shall cause its Affiliates to, reasonably cooperate to allow a successor operator to operate the Facility after the termination of this Agreement, including by granting access rights and executing other instruments as may be reasonably requested by the Non-Operator Owner and any replacement operator.

8.5.2 Any modifications to the ownership and operation of the Facility, including any termination of this Agreement, shall be subject to any required regulatory or administrative filings and approvals.

8.6 Plant Manager Replacement. Upon (i) commencement of the Termination Transition Period or (ii) the occurrence of any of the conditions described in Section 8.2, the Non-Operator Owner may designate a qualified individual with significant experience as a project manager or similar senior operating role in respect of the management and operation of large coal-fired generation facilities with similar operating characteristics as the Facility to replace the existing Plant Manager and who shall upon such appointment be the Plant Manager.

ARTICLE IX - INSURANCE

9.1 Operator Insurance Requirements.

9.1.1 Commencing with the performance of the Services hereunder, and continuing until the termination of this Agreement, Operator (and any tier subcontractors) shall maintain or cause to be maintained occurrence form (if written on a claims -made policy form, be maintained with a retroactive date that is prior to this Agreement Effective Date for a period of at least three (3) Years following the last Year in which such policy provides coverage under the terms of this Agreement) insurance policies as follows: (i) Workers' Compensation in accordance with the statutory requirements of the state in which the Services are performed and Employer's Liability Insurance of not less than one million Dollars ($1,000,000) each accident/employee/disease; (ii) Commercial General Liability Insurance having a limit of at least one million Dollars ($1,000,000) per occurrence/two million Dollars ($2,000,000) in the aggregate for contractual liability, personal injury, bodily injury to or death of Persons, and/or loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) Years after completion), premises and operations liability and explosion, collapse, and underground hazard coverage; (iii) Commercial/Business Automobile Liability Insurance (including owned (if any), non-owned or hired autos) having a limit of at least one million Dollars ($1,000,000) each accident for bodily injury, death, property damage and contractual liability and no fellow employee exclusion; (iv)

Umbrella/Excess Liability insurance with limits of at least twenty-four million Dollars ($24,000,000) per occurrence and follow form of the underlying Employer's Liability, Commercial General Liability and Auto Liability insurance, and provide at least the same scope of coverages thereunder; (v) coverage for sudden/accidental occurrences for bodily injury, property damage, environmental damage, cleanup costs and defense with a minimum of one million Dollars ($1,000,000) per occurrence; and (vi) "all-risk" or its equivalent property insurance providing coverage risks of physical damage to the Facility or Facility Equipment in an amount in accordance with Good Utility Practice.

9.1.2 Unless otherwise determined by the Operating Committee that the Operator should purchase capacity insurance on behalf of both Owners, Operator (including in its capacity as an Owner) and Non-Operator Owner may each procure individually, in proportion to their Ownership Interests, PJM Interconnection, L.L.C. capacity performance insurance on terms and conditions, and placed with insurance companies, reasonably acceptable to the Operator or such Owner, as applicable. Operator shall make such certifications relating to the operation, maintenance and condition of the Facility from time to time during the Term as may be reasonably necessary in connection with the procurement or maintenance of such insurance coverage by Operator and the Non-Operator Owner and any other insurance policies of either Owner that may relate to coverage pertaining to or affecting an Owner's Ownership Interest.

9.2 Form and Content. All insurance policies provided and maintained by Operator and each subcontractor shall: (i) except with respect to insurance policies issued by any "captive" insurer of Operator or its Affiliates, be underwritten by insurers that are rated A.M. Best "A-VII" or higher; (ii) specifically include the Non-Operator Owner and its directors, officers, employees, affiliates, subcontractors, and joint owners of any facilities as additional insureds for their liability arising out of the acts or omissions of Operator, including for completed operations, with respect to Operator's acts, omissions, services, products or operations, whether in whole or in part, excluding, however, for Workers' Compensation/Employer's Liability insurance, Pollution Legal Liability insurance, and "all-risk" property insurance; (iii) be endorsed to provide, where permitted by law, waiver of any rights of subrogation against an Owner and its directors, officers, employees, affiliates and subcontractors, and joint owners of any facilities; (iv) provide that such policies and additional insured provisions are primary with respect to the acts, omissions, services, products or operations of Operator or its subcontractors, to the extent of Operator's negligence, (v) contain standard separation of insured and severability of interest provisions except with respect to the limits of the insurer's liability; and (vii) not have any cross-liability exclusion, or any similar exclusion that excludes coverage for Claims brought by additional insureds under the policy against another insured under the policy; Any deductibles or retentions shall be the sole responsibility of Operator and its subcontractors. Evidence of such coverage shall be provided in the form of Operator's certificate of insurance furnished to the Non-Operator Owner prior to the Effective Date, upon any policy replacement or renewal and upon the Non-Operator Owner's request. Operator shall provide at least thirty (30) days' prior written notice to the Non-Operator Owner prior to cancellation of any policy (or ten (10) days' notice in the case of non-payment of premium).

ARTICLE X - INDEMNIFICATION

10.1 Operator Indemnification. Subject to the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner and its Affiliates, and their respective officers, directors, employees, managers, members, agents and representatives (collectively, the "Non-Operator Owner Indemnitees"), from and against, and no Non-Operator Owner Indemnitee shall be responsible for any and all Liabilities incurred, assessed, sustained or suffered by any Non-Operator Owner Indemnitee to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement. Any Liabilities paid by Operator pursuant to its indemnity obligation under this Section 10.1 shall in no event be considered Operating Costs hereunder.

10.2 Owner Indemnification. Subject to the limitations of liability in Section 11.1, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless Operator and its Affiliates, and their respective officers, directors, employees, agents and representatives (collectively, the "Operator Indemnitees"), from and against, and no Operator Indemnitee shall have responsibility for, any and all Liabilities to a third party incurred, assessed, sustained or suffered by or against any Operator Indemnitee arising from or relating to Operator's performance of the Services under this Agreement, except to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement; provided, however, that the Liabilities for which Non-Operator Owner is obligated to indemnify any Operator Indemnitees under this Section 10.2 shall not in any event include any Liabilities for which WPCo is obligated to indemnify Non-Operator Owner (and/or its Affiliates) in any agreement among the Owners (and/or their Affiliates) and AEP (and/or its Affiliates), including pertaining to the allocation of emission limitations associated with the Facility. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its proportionate share of Liabilities under this Section 10.2 in respect of its Ownership Interest.

10.3 Environmental Indemnification.

10.3.1 Owner Indemnity for Environmental Liabilities. Subject to the limitations of liability in Section 11.1, and without in any way limiting the provisions of Section 10.3.2, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless the Operator Indemnitees, from and against, and no Operator Indemnitees shall have responsibility for, any and all Liabilities, including all civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Operator Indemnitees, as applicable, as a result of or in connection with any matters governed by Environmental Laws directly or indirectly related to or arising out of (i) the design, permitting or construction of the Facility or the condition of the Site, and any adjacent parcels; (ii) the operation, maintenance, ownership, control or use of the Facility or otherwise related to the Facility; and (iii) the offsite transportation, treatment or disposal of all wastes generated at the Facility and any properties included within or adjacent to the Site, whether occurring before or after the Effective Date (collectively, "Environmental Liabilities"), including any Environmental Liabilities arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous

Materials, but excluding Operator Environmental Liabilities; provided, however, that the Environmental Liabilities for which any Owner is obligated to indemnify any Operator Indemnitees under this Section 10.3.1 shall not in any event include any Operator Environmental Liabilities for which Operator is liable under Section 10.3.2. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear its proportionate share of Environmental Liabilities under this Section 10.3.2 in respect of its Ownership Interest.

10.3.2 Operator Indemnity for Environmental Liabilities. Subject to the provisions of Section 10.1 and the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner Indemnitees from and against, and no Non-Operator Owner Indemnitee shall be responsible hereunder for any Liabilities, including any civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Person as a result of or in connection with any breach or violation of or any other matters governed by Environmental Laws to the extent caused by the gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law or willful breach of this Agreement by Operator or arising out of the existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials brought on Site by Operator or its Affiliates or agents on or after the Effective Date (the "Operator Environmental Liabilities"). Operator understands and agrees that any Operator Environmental Liabilities paid by Operator pursuant to this Section 10.3.2 shall not be Operating Costs hereunder.

10.3.3 Governmental Actions. During the Term, Operator shall use commercially reasonable efforts to cooperate with and assist the Owners with their acquisition of data and information, and preparation and filing with appropriate Governmental Authorities of any notices, plans, submissions, or other materials and information necessary for compliance by the Owners with applicable Environmental Laws and the requirements of any Permits related to the Facility. All such environmental reports shall be submitted by, and in the names of, both Owners. All reasonable and documented costs associated therewith, including the reasonable costs of any outside consultants, legal services, Governmental Authority charges, sampling and remedial work shall be paid by the Owners as an Operating Cost, and the Non-Operator Owner shall reimburse WPCo to the extent of the Non-Operator Owner's pro rata share, unless such costs are incurred arising out of or associated with Operator Environmental Liabilities that are subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof. Nothing contained herein shall be construed as requiring Operator to take any corrective action with respect to Environmental Liabilities unless (x) affirmatively and expressly directed in writing to so do by the Operating Committee and appropriate funding is made available, or (y) affirmatively and expressly directed to do so by a Governmental Authority, in order to comply with any Environmental Law, in which case the cost of any corrective actions so undertaken shall be deemed an Environmental Liability subject to Section 10.3.1 hereof (if not otherwise reimbursed as an Operating Cost hereunder), unless such Environmental Liability arises out of or is associated with Operator Environmental Liabilities subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof.

ARTICLE XI - LIABILITIES OF THE PARTIES

11.1 Limitations of Liability. Notwithstanding any provision in this Agreement that may be susceptible to contrary interpretation, neither the Parties nor any Non-Operator Owner Indemnitees or Operator Indemnitees shall be liable for consequential or indirect loss or damage, including loss of profit, cost of capital, loss of goodwill, increased Operating Costs, or any special or incidental damages; provided, however, that notwithstanding the foregoing, in no event will the foregoing limitations of liability be applied to limit the extent of the liability of either Party to the other for or with respect to any Claims of third parties or to the extent arising from gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement. The Parties further agree that the waivers and disclaimers of liability, indemnities, releases from liability and limitations of liability expressed in this Agreement shall survive termination or expiration of this Agreement, and shall apply in all circumstances, whether in contract, equity, tort or otherwise, regardless of the fault, negligence (in whole or in part), strict liability, breach of contract or breach of warranty of the Party indemnified, released or whose liabilities are limited, and shall extend to the Non-Operator Owner Indemnitees and Operator Indemnitees.

11.2 Operator's Total Aggregate Liability. Except to the extent that a Non-Operator Owner Indemnitee suffers Liabilities that are caused by, result from or arise out of Operator's or its Affiliates' breach of Article XIII or its gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement, or willful misconduct (including in connection with any Services), the total liability of Operator to the Non-Operating Owner for all Liabilities arising out of, connected with or resulting from any events occurring or claims made in connection with this Agreement, whether based in contract, warranty, tort, strict liability or otherwise, shall not exceed, in the aggregate, the sum of (i) an amount equal to twenty-five percent (25%) of the Operating Costs, but excluding Operating Costs relating to any services, goods, inventory and equipment provided hereunder by third parties other than Operator's Affiliates, incurred pursuant to this Agreement in the prior twelve (12) month period, *plus* (ii) the Non-Operating Owner's fifty percent (50%) share of any insurance proceeds actually received by the Operator or paid on the Operator's behalf with respect to the relevant loss or damages under the insurance policies procured by the Operator pursuant to Section 9.1.

11.3 No Warranties or Guarantees.

11.3.1 EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES OR GUARANTEES TO THE OTHER, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SUBJECT MATTER OF THIS AGREEMENT, AND BOTH PARTIES DISCLAIM AND WAIVE ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT.

11.3.2 OPERATOR IS ACTING AS AGENT OR OTHERWISE AS A RESELLER WITH RESPECT TO ALL SERVICES, GOODS, INVENTORY AND EQUIPMENT PROVIDED HEREUNDER BY THIRD PARTIES OTHER THAN OPERATOR'S AFFILIATES, AND, AS SUCH, DOES NOT PROVIDE ANY WARRANTY

FOR SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT PROVIDED HEREUNDER. ALL SUCH THIRD PARTY SERVICES, GOODS, INVENTORY AND EQUIPMENT ARE PROVIDED AS IS, WHERE IS, WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT UNLESS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES. THE SOLE REMEDY IN CONNECTION WITH ANY DEFECTS IN OR FAILURES OF SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT (WHETHER A CLAIM FOR SUCH DEFECT ARISES UNDER CONTRACT, TORT, STRICT LIABILITY, STATUTE, OR ANY OTHER LEGAL OR EQUITABLE THEORY OR PRINCIPLE INCLUDING NEGLIGENCE) SHALL BE TO SEEK RECOURSE EXCLUSIVELY FROM THE COUNTERPARTIES TO THE THIRD PARTY CONTRACTS, UNLESS THE DEFECT OR FAILURE WAS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES.

ARTICLE XII - CONFIDENTIALITY

12.1 General. During the Term, and for the later of three (3) Years after the termination of this Agreement or five (5) Years after receipt of the applicable Confidential Information, each Party shall hold in confidence any Confidential Information supplied by or on behalf of the other Party. Each receiving Party further agrees to require its contractors, vendors, suppliers and employees, agents or prospective purchasers to preserve the confidentiality of Confidential Information. The receiving Party may make necessary disclosures to third parties directly engaged in the operation, ownership or financing of the Facility if such third parties are under an obligation to receive and hold such Confidential Information in confidence.

12.2 Exceptions. The provisions of this Article XII do not apply to information within one or more of the following categories:

12.2.1 Public Domain. Information that was in the public domain prior to the receiving Party's receipt or that subsequently becomes part of the public domain by publication or otherwise, except by the receiving Party's or its Affiliate's wrongful act.

12.2.2 Prior Receipt. Information that the receiving Party can demonstrate was in its possession prior to receipt thereof from the disclosing Party so long as such possession did not result from a violation of a confidentiality obligation.

12.2.3 Third Party Delivery. Information received from a third party having no obligation of secrecy with respect thereto.

12.2.4 Permitted Disclosures. Information disclosed by an Owner to Lenders or prospective Lenders, equity investors or prospective equity investors, prospective purchasers,

consultants, attorneys, accountants and other designated agents in each case on a confidential, need-to-know-basis.

12.2.5 Regulatory Filings. Information required to be disclosed by an Owner in connection with any required regulatory or administrative filings.

12.3 Required Disclosure. Notwithstanding the forgoing, any receiving Party required by law, rule, regulation, subpoena or order, or in the course of regulatory, administrative or judicial proceedings, to disclose Confidential Information that is otherwise required to be maintained in confidence pursuant to this Article XII, may make disclosure notwithstanding the provisions of this Article XII. Prior to doing so, the receiving Party, promptly upon learning of the requirement, shall notify the disclosing Party of the requirement and cooperate to the maximum extent practicable to minimize the disclosure of Confidential Information. Any receiving Party disclosing Confidential Information pursuant to this Section 12.3 shall use commercially reasonable efforts, at the disclosing Party's cost, to obtain proprietary or confidential treatment of Confidential Information by the third party to whom the information will be disclosed, and to the extent such remedies are available, shall use commercially reasonable efforts to seek protective orders limiting the dissemination and use of Confidential Information. Nothing in this Agreement is intended to prevent the disclosing Party from appearing in any proceedings and objecting to the disclosure.

ARTICLE XIII - TITLE, DOCUMENTS AND DATA

13.1 Materials and Equipment. Operator shall use commercially reasonable efforts to cause title to all materials, equipment, supplies, consumables, spare parts and other items purchased or obtained by Operator on an Operating Cost basis ("Facility Equipment") to pass directly from the vendor or supplier to, and vest in, each Owner to the extent of such Owner's Ownership Interest. Operator shall have no title or other claim to such items other than in its capacity as an Owner of the Facility.

13.2 Documents. All Manuals, operational data, Facility drawings, Operator reports and records and other materials and documents (both paper and electronic) created by Operator, its Affiliates or their respective employees, representatives or contractors in connection with performance of the Services are the property of each Owner to the extent of its Ownership Interest in the Facility. All such materials and documents shall be available for review by the Non-Operator Owner at all reasonable times during development and promptly upon completion. All such materials and documents required to be submitted for the approval of the Operating Committee shall be prepared and processed in accordance with the requirements and specifications set forth herein. However, the Operating Committee's approval of materials and documents submitted by Operator shall not relieve Operator of its responsibility to perform it obligations under this Agreement.

13.3 Proprietary Information. Where materials or documents prepared or developed by Operator or its Affiliates, or their respective employees, representatives or contractors, contain proprietary or technical information, systems, techniques or know-how previously developed by them or acquired by them from third parties (the "Operator Proprietary Information"), the Non-Operator Owner shall have an irrevocable license to use such Operator

Proprietary Information to the extent necessary for the operation or maintenance of the Facility at no additional cost to the Non-Operator Owner.

ARTICLE XIV - MISCELLANEOUS PROVISIONS

14.1 Assignment. This Agreement shall not be assignable, in whole or in part, by a Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed, except that this Agreement may be (i) collaterally assigned by an Owner without such consent to a Lender in connection with such Lender's financing of such Owner's Ownership Interest and (ii) assigned by an Owner (in whole but not in part) without such consent to the transferee of its Ownership Interest, whether by merger, division, sale of equity interest, or otherwise, in each case, solely to the extent that such transfer of its Ownership Interest is in accordance with the Ownership Agreement. Any assignment pursuant to this Section 14.1 shall not relieve the assigning Party of any of its obligations under this Agreement that arose prior to the date of such assignment. This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties.

14.2 Effect of Bankruptcy. The Parties intend that, in the event of a Bankruptcy, payments required under this Agreement shall be deemed to be administrative expenses as defined in 11 U.S.C. §503.

14.3 Access. The Non-Operator Owner and Lenders and their agents and representatives shall have access to the Facility, all Facility operations and any documents, materials and records and accounts relating to the Facility operations for purposes of inspection and review. Upon the request of the Non-Operator Owner and its agents and representatives, Operator shall provide such Persons with access to all data and logs Operator maintains regarding the Facility. During any inspection or review of the Facility, the Non-Operator Owner and Lenders and their agents and representatives shall comply with all of Operator's safety and security procedures, and shall conduct inspections and reviews in such a manner as to cause minimum interference with Operator's activities. Operator also shall cooperate with the Non-Operator Owner in allowing its agents and representatives access to the Facility.

14.4 Subcontractors; Subagents.

14.4.1 Operator shall have the right to hire third-party subcontractors or to acquire rights from third parties to provide all or part of any Services hereunder without the prior consent of the Operating Committee. The cost of such third-party Services or acquisition of such rights shall be Operating Costs in accordance with Section 7.2.1. Operator, for the benefit of the Owners, shall use commercially reasonable efforts to obtain from all subcontractors and suppliers, including any subcontractors and suppliers who are Affiliates of Operator, customary guarantees and warranties to the extent available with respect to the equipment, goods, services or other work provided or performed by such subcontractor and supplier. Notwithstanding the foregoing or anything to the contrary, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned or delayed, procure or enter into any agreement with any third-party subcontractor with respect to the Services with a cost included in the Operating Costs in excess of $500,000 in any Year. Each agreement with a third-party subcontractor shall reflect costs that are on an arm's-length basis

and no greater in any material respect than Operator could reasonably provide on Operator's own (or through its Affiliates) without material hardship.

14.4.2 Operator may delegate any obligations hereunder to one or more Affiliates, or designate one or more Affiliates as subagents for the performance of its obligations, and, to the extent such Affiliate performs or acts as subagent with respect to any obligation of Operator hereunder, such Affiliate shall enjoy the rights and benefits of Operator pursuant to this Agreement (including, for the avoidance of doubt, Article X and Article XI hereof). Notwithstanding the foregoing, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned, or delayed, procure or enter into any agreement with any of its Affiliates (other than for Facility Personnel to perform the Services) (i) with a committed value in excess of $500,000 or (ii) that may not be cancelled by or at the request of Non-Operator Owner upon no more than ninety (90) days' notice without penalty. Each agreement with an Affiliate of Operator, other than for Facility Personnel to perform the Services, shall reflect costs that are no greater in any material respect than Operator could obtain on an arm's-length basis with a bona fide third party at such time. Notwithstanding anything to the contrary in this Agreement, Operator shall be permitted to delegate any of its rights, duties and obligations under this Agreement and the Ownership Agreement to AEPSC without the consent of Non-Operator Owner, subject to Section 14.4.3.

14.4.3 If one or more Affiliates perform Services as subagents or subcontractors hereunder, Service Provider shall remain liable for such Affiliate's obligations hereunder and for any breach by such Affiliate of the terms of this Agreement (to the same extent as if such breach was committed by Service Provider).

14.5 Not for Benefit of Third Parties. Except where a contrary intention is expressly stated, this Agreement and each provision hereof are for the exclusive benefit of the Parties that executed this Agreement and not for the benefit of any third party.

14.6 Force Majeure.

14.6.1 Events Constituting Force Majeure. A "Force Majeure Event" is any event that (i) restricts or prevents performance under this Agreement, (ii) is not within the reasonable control of the Party affected or caused by the fault or negligence of the affected Party and (iii) cannot be overcome or avoided by the exercise of due care. Force Majeure Events include the following, so long as in each case the requirements of the foregoing clauses (i), (ii) and (iii) are satisfied, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, tornado or other unusually severe storm or environmental conditions, epidemic, war (whether declared or undeclared), terrorism (whether domestic or foreign, state-sponsored or otherwise), revolution, insurrection, riot, civil disturbances, protests, sabotage (but not including any sabotage involving personnel of Operator), work stoppages (i.e., strikes) (but not including any work stoppages or strikes involving any personnel of Operator, whether on-site or off-site), accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Facility, other acts or omissions of any Governmental Authority, including any form of compulsory government acquisition or condemnation of all or part of the Facility (including a "taking"), restraint by court order, changes in Applicable Law that affect

performance under this Agreement, other acts of Governmental Authorities including in response to any of the foregoing. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default in respect to any obligation if and to the extent that performance of such obligation is prevented by a Force Majeure Event. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations.

14.6.2 Notice. If a Party's ability to perform its obligations under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event, its cause, its anticipated duration and any action being taken to avoid or minimize its effect and confirm the same in writing within three (3) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) work diligently to remove the cause of the Force Majeure Event or to lessen its effect.

14.6.3 Scope. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than necessary. The excused Party shall use its reasonable best efforts to remedy its inability to perform.

14.7 Dispute Resolution. Any and all disputes shall be resolved pursuant to the dispute resolution procedures set forth in the Ownership Agreement.

14.8 Amendments. No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Parties.

14.9 Survival. Notwithstanding any provisions to the contrary, the obligations set forth in Article VII and Article VIII, Article X, Article XI and Article XII, Article XIV the limitations on liabilities set forth in Article XI will survive, in full force, the expiration or termination of this Agreement.

14.10 No Waiver. No delay, waiver or omission by the Non-Operator Owner or Operator to exercise any right or power arising from any breach or default by the Non-Operator Owner or Operator with respect to any of the terms, provisions or covenants of this Agreement shall be construed to be a waiver by the Non-Operator Owner or Operator of any subsequent breach or default of the same or other terms, provisions or covenants on the part of the Non-Operator Owner or Operator.

14.11 Notices. Any written notice required or permitted under this Agreement shall be deemed to have been duly given on the date of receipt, and shall be either delivered personally to the Party to whom notice is given, or mailed to the Party to whom notice is to be given, by facsimile, courier service or first-class registered or certified mail, return receipt requested, postage prepaid, and addressed to the addressee at the address indicated below, or at the most recent address specified by written notice given in the manner provided in this Section 14.11:

If to Operator:

14.12 Representations and Warranties. Each Party represents and warrants to the other Party that, as of the date hereof:

14.12.1 Existence. It is duly organized and validly existing under the laws of the state of its organization and has all requisite power and authority to own its property and assets and conduct its business as presently conducted or proposed to be conducted under this Agreement.

14.12.2 Authority. It has the power and authority to execute and deliver this Agreement, to consummate the transactions contemplated hereby and to perform its obligations hereunder.

14.12.3 Validity. It has taken all necessary action to authorize its execution, delivery and performance of this Agreement, and this Agreement constitutes the valid, legal and binding obligation of such Party enforceable against it in accordance with its terms, except as such enforcement may be limited by Bankruptcy, insolvency, moratorium or similar laws affecting the rights of creditors or by general equitable principles (whether considered in a proceeding in equity or at law).

14.12.4 No Conflict. Neither the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, nor the fulfillment of the terms and conditions hereof, conflicts with or violates any provision of its constituting documents.

14.12.5 No Consent. No consent or approval (including any Permit that such warranting Party is required to obtain) is required from any third party (including any Governmental Authority) for either the valid execution and delivery of this Agreement, or the performance by such Party of its obligations under this Agreement, except such as have been duly obtained or will be obtained in the ordinary course of business.

14.12.6 No Breach. None of the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, or the fulfillment of the terms and conditions hereof either conflicts with, violates or results in a breach in any material respect of, any Applicable Law currently in effect, or conflicts with, violates or results in a breach of, or constitutes a default under or results in the imposition or creation of, any lien or Encumbrance under any material agreement or instrument to which it is a party or by which it or any of its properties or assets are bound.

14.12.7 No Material Claims. It is not a party to any legal, administrative, arbitral or other proceeding, investigation or controversy pending or threatened that would adversely affect such Party's ability to perform its obligations under this Agreement.

14.13 Additional Representation and Warranty by Operator. Operator further represents and warrants to the Non-Operator Owner that it has, or has obtained through the retention of a qualified operations and maintenance service provider, substantial expertise and experience in the operation and maintenance of comparable power generation facilities and it, or its applicable subcontractor, is fully qualified to provide such services at the Facility in accordance with the terms of this Agreement.

14.14 Counterparts. The Parties may execute this Agreement in counterparts that, when signed by each of the Parties, constitute one and the same instrument. Thereafter, each counterpart shall be deemed an original instrument as against any Party who has signed it. Delivery of an executed counterpart of this Agreement by facsimile or electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

14.15 Governing Law; Venue; Waiver of Jury Trial. The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of New York, exclusive of the conflicts of law provisions thereof that would require the application of the laws of a different jurisdiction. Each Party hereby agrees that any Action arising out of or relating to this Agreement brought by a Party(or any of their respective successors or assigns) shall be brought and determined in any state or federal court sitting in the State of New York, within the Borough of Manhattan, City of New York, and the Parties hereby irrevocably submit to the exclusive jurisdiction of the aforesaid courts for themselves and with respect to their property, generally and unconditionally, with regard to any such Action arising out of or relating to this Agreement and the transactions contemplated hereby, and the appellate courts from any thereof in connection with any action arising out of or relating to this Agreement or any other agreement related to the Facility or any Facility asset and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or that such action was brought in an inconvenient court. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

14.16 Interpretation. Titles or captions contained in this Agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, describe or otherwise affect the scope or meaning of this Agreement or the intent of any provision hereof. All exhibits and appendices attached hereto are considered a part hereof as though fully set forth herein. This Agreement was jointly drafted and negotiated by the Parties. In the event of a dispute, this Agreement shall not be construed against either Party based upon its drafting.

14.17 Severability. If any provision of this Agreement, or the application of any such provision to any Person or circumstance, is held invalid by any court or other forum of competent jurisdiction, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those as to which it is held invalid, shall nevertheless remain

in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner materially adverse to a Party. Upon any such determination of invalidity, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that this Agreement is consummated as originally contemplated to the greatest extent possible.

14.18 Cooperation in Financing. Operator shall execute and deliver any customary and reasonable agreement and consent to assignment, together with an opinion of counsel at Non-Operator Owner's expense, as may be reasonably requested by Non-Operator Owner in connection with any financing of the Facility. Operator shall promptly respond to reasonable requests, including requests for management presentations, by Non-Operator Owner and any of its Lenders or their representatives, in each case at Non-Operator Owner's sole cost and expense, for information regarding the Operator and its performance of its duties hereunder and the operation, maintenance and administration of the Facility. Operator agrees to use commercially reasonable efforts to cooperate with any of Non-Operator Owner's Lenders and their representatives and to provide such Lenders and representatives with reasonable access to and tours of the Facility (including review of documents, materials, records and accounts), in each case at Non-Operator Owner's sole cost and expense.

APPENDIX A – SCOPE OF SERVICES

Routine Services	Provide operational services as reasonably necessary for electrical power generation.
Detailed Programs	Implement Operator human resources program. Implement Operator-drafted, Owner-approved programs in safety, administration, maintenance, and training. Implement Facility's existing programs in operating, maintenance, chemistry, NERC and environmental compliance (or, at the Operating Committee's request, develop or enhance such programs at actual cost and implement). Ensure compliance with NERC requirements, Environmental Law, Applicable Law, and all Permits.
Routine Maintenance	Perform routine and preventive maintenance actions on all Facility systems and equipment in accordance with vendor instructions and the maintenance plan for the Facility. This program includes: **Service Checks** – Conduct visual equipment inspections and log significant parameters such as pressures, temperatures, and flow rates. Trend and analyze this information as appropriate. **Routine and Fixed Interval Maintenance** –Identify preventive maintenance requirements. Schedule and assign routine maintenance during Facility operation, planned outages, and forced or unscheduled outages.
Predictive Maintenance Program	As appropriate, conduct/oversee predictive maintenance within the cost-effective capability of the Facility Personnel. For those maintenance requirements that are not cost-effective for the Facility Personnel, oversee predictive maintenance services provided by vendors.
Major Maintenance and Repairs	In coordination with and support of the Facility Agreements and generation plan, arrange for scheduled inspections and overhauls on major equipment. Retain vendors for the benefit of the Owners for unscheduled major repairs as required and manage and oversee repairs and modifications.
Capital Improvements	Conduct/oversee all capital improvements. As appropriate, retain vendors for the benefit of the Owners to design, construct and implement capital improvements.
Facility Outages	Use commercially reasonable efforts to manage all Facility outages (planned, unscheduled, forced) to optimize outage duration and impact on production: **Task Assignment** – Identify and schedule all maintenance that requires a Facility outage or equipment to be taken out of service.

	Work Schedule – Develop and implement a schedule to track material outage preparations, work and testing, including corrective maintenance actions, contractor work and scheduled preventive maintenance. Conduct preparations to support this plan, including ordering and receiving required spare parts.
Assistance to the Non-Operator Owner and Operating Committee	Provide assistance to the Non-Operator Owner and the Operating Committee, as reasonably requested with the execution of the Non-Operator Owner's and the Operating committee's duties relative to operation of the Facility.
Facility Administration	Conduct administration to meet Operator requirements and Owners' goals, including: **Budgets** – Prepare annual Budgets and submit them for Operating Committee approval in accordance with the Ownership Agreement and this Agreement. Following approval, manage operations and expenditures to comply with each Budget. Generate budget variance reports, as required. **Procurement** – Establish and implement a purchasing system. Procure, for the benefit of the Owners, including negotiations and contracting, for all materials, equipment, chemicals, supplies, services, parts, and other miscellaneous items required for the provision of the Services. Pay all invoices in a timely manner. Provide credit support as required by third parties for the operation of the Facility, including contract counterparties and Governmental Authorities. Minimize Owner costs as much as feasible. **Inventory Control** – Implement a cost-effective inventory control system designed to ensure that spare parts, materials, and supplies are properly stored and accounted for and that adequate supplies are available at all times to support the provision of the Services. **Personnel Matters** – In compliance with Operator programs and policies, manage all payroll and employee relations, labor relations, and independent contractor issues, as required. These tasks include: employment; compensation and benefits; initial training; and employee and independent contractor relations. Provide reasonable support to recruit, hire, transfer, or otherwise acquire and retain qualified Facility Personnel to maintain the staffing levels and skill mix required for successful long-term provision of the Services. **Community Relations** – In coordination with and with the approval of the Operating Committee, conduct a community relations program to establish the Facility and its employees as "good citizens" in the local community.

	Regulatory – Perform all duties set forth in Section 7.8 of the Ownership Agreement with respect to Emission Allowances (as defined therein).
Work Assignment	Assign work to either Facility Personnel or vendors as cost-effective and appropriate based on overall guidance from the Operating Committee. Normally, Facility Personnel conduct preventive maintenance and actions requiring a high degree of Facility knowledge and vendors perform tasks needing equipment or expertise that are not cost-effective to maintain at the Facility. Vendors also perform tasks that make sense to minimize outage time and costs.
Buildings and Grounds	Arrange for janitorial, garbage pickup and landscape services and maintain all access roads, office buildings, and other structures in reasonable repair.
Reports	Prepare and submit operation and maintenance service reports as requested relative to performance, including environmental compliance records, maintenance and repair status, Facility operating data, and any other information reasonably requested by the Operating Committee or the Non-Operator Owner.
Security	Implement or arrange for implementation of security measures in accordance with the Operating Committee-approved Facility security plan.
Safety	Continue to implement Corporate and Plant Level Safety Programs including on-site visits and discussions at the facility.
PJM Capacity Analysis	Analysis and plant level information to PJM as part of PJM's FRR or RPM Capacity Market requirements
Information Systems	Manage the Facility's information technology infrastructure, including phone systems, internet connectivity, hardware and software. Implement or arrange for implementation of cybersecurity policies and procedures in compliance with NERC requirements and Applicable Law, in accordance with the Operating Committee-approved Facility cybersecurity plan.
Training Program	Implement a continuing program of training designed to orient new Facility Personnel, refresh/cross-train existing Facility Personnel, qualify/re-qualify Facility Personnel, and keep all Facility Personnel aware of Operating Committee -approved Facility safety requirements and emergency procedures. This program includes specialty skills training.
Drawing/Manual Maintenance	Maintain the Facility library and update the Manuals and vendor service manuals. Update (or arrange for updating) Facility drawings to reflect changes to the as-built configuration. In addition to

	document management, maintain physical Facility configuration control.
Fuel Purchasing and Handling	• Procure coal, reagents, fuel oil supply or transportation service agreements as needed to operate the Facility and establish and maintain reserves of coal in common stock piles of such quality and in such quantities as the Operating Committee shall determine • Contract administration for Fuel supply contracts along with legal review. • Third Party Settlements of fuel related supply and inventory tracking in ComTrac system • Joint Books Accounting to prepare information for billing among co-owners per agreement • Analysis of fuel related costs for data requests from regulatory bodies or joint owner • Provide fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by the Facility during each month. • Receive coal and provide fuel handling • Fuel coordinator functions to review fuel quality with third party suppliers at coal or limestone facilities. • Administer and reconcile volumes of all fuel with suppliers • Administer and comply with the requirements set forth in the Facility's fuel agreements, including quality testing and invoice review and approval • Administer and comply with the requirements set forth in the Facility's coal ash, gypsum and combustion byproduct disposal and sales agreements, including invoice review and approval
Day Ahead and Real Time Market Operations	• Unit Generation Dispatch – Monitor signals and take direction from PJM for generating units. Relay these directions, commitments and settings to the Unit Operators and Controls. Relay information on real time unit conditions to Transmission Owner (TO) and PJM. • GADS Reporting – Create GADS events as they are scheduled

	or occur. Submit monthly event reporting as required by NERC and PJM. • Outage Support and Communications to PJM – Relay outage/curtailment information from plant personnel to PJM. Schedule maintenance and planned outages/curtailments, and maintain updates as they arise. • Unit Characteristic Updates to PJM – Provide any relevant configuration updates related to generating units to PJM that may occur. • Telemetry – Maintain current real time telemetry to/from the plant, PJM and Market Operations control center.
Administration of Contracts	• Administer, perform and enforce all contractual obligations and arrangements, including all warranties applicable thereto, entered into by Operator for the benefit of the Owners with respect to the Facility • Act as agent on behalf of the Non-Operating Owner with respect to the administration, performance and enforcement of any contracts or purchase orders (including fuel supply or transportation contracts) with respect to the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date
Insurance	• Procure on behalf of each Owner such property and other insurance policies as required by the insurance program established by the Operating Committee in accordance with the Ownership Agreement.
Decommissioning	• Manage and contract with vendors and other parties to perform Decommissioning Work. This includes the management of required regulatory filings, permitting, engineering assessments, and the contracting for demolition and or liability transfers. Upon mutual agreement between Operator and the Operating Committee, Operator may conduct all or a portion of the Facility and/or Site Decommissioning from its and its Affiliates resources.

MITCHELL PLANT OPERATIONS AND MAINTENANCE AGREEMENT

This OPERATIONS AND MAINTENANCE AGREEMENT (this "Agreement"), dated as of [_____] (the "Effective Date"), is entered by and between WHEELING POWER COMPANY, a West Virginia corporation (in its capacity as the operator of the Facility, "Operator" and in its capacity as an owner of the Facility, "WPCo") and KENTUCKY POWER COMPANY, a Kentucky corporation qualified as a foreign corporation in West Virginia (in its capacity as an owner of the Facility, the "Non-Operator Owner" and, together with WPCo, each an "Owner" and, together, the "Owners").

RECITALS

1. Owners each own an undivided Ownership Interest in the Facility (these and other capitalized terms are defined in Article II).

2. On the date hereof, WPCo and the Non-Operator Owner have entered into that certain Mitchell Plant Ownership Agreement, setting forth the respective rights, duties and obligations of the Owners with respect to each other and the Facility in their capacities as the Owners thereof (the "Ownership Agreement").

3. Pursuant to the Ownership Agreement, WPCo has agreed to manage the day-to-day operations and maintenance of the Facility as Operator pursuant to the terms of this Agreement.

4. Operator and the Non-Operator Owner desire to execute this Agreement to set forth the respective rights, duties and obligations of WPCo, in its capacity as Operator of the Facility, and the Non-Operator Owner, in its capacity as an Owner of an undivided interest as a co-tenant in the Facility.

NOW, THEREFORE, in consideration of the foregoing premises, and of the mutual covenants, undertakings and conditions set forth below, the Parties agree as follows:

ARTICLE I - AGREEMENT

1.1 Agreement. This Agreement consists of the recitals, and the terms and conditions set forth in this Agreement, as well as the appendices that are referenced in the table of contents and attached to this Agreement.

1.2 Relationship of the Parties. Operator shall perform the Services in its capacity as an independent contractor of the Owners and as principal on its own behalf as an Owner. Subject to any limitations set forth in this Agreement and the Ownership Agreement, the Owners delegate to Operator, and Operator accepts from the Owners, the responsibility of providing the Services at the Facility. The Owners and Operator agree that the scope of delegation is strictly limited to the matters set forth in this Agreement and the Ownership Agreement. Without limiting the generality of the foregoing, the Owners retain the ultimate authority and obligation to determine whether and to what extent the Facility operates, and Operator shall not cause the Facility to generate power except as expressly directed to do so by the Owners or any dispatching authority specified by the Owners in accordance with the Ownership Agreement. For the

avoidance of doubt, any provision of this Agreement requiring the delegation of authority, direction, consent or authorization with respect to the Owners shall mean the delegation, direction, consent or authorization of both Owners (or the Operating Committee) in accordance with the Ownership Agreement (except to the extent the Ownership Agreement gives exclusive authority to the Non-Operator Owner thereunder, in which case such delegation of authority, direction, consent or authorization with respect to the Owners shall mean exclusively the delegation, direction, consent or authorization of the Non-Operator Owner).

1.3 Entire Agreement. This Agreement, together with the Ownership Agreement, contains the entire agreement between the Parties with respect to Operator's provision of Services at the Facility and supersedes all prior negotiations, undertakings and agreements.

ARTICLE II - DEFINITIONS

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears, capitalized terms have the meanings specified in this Article II. The singular includes the plural, as the context requires. The terms "includes" and "including" mean "including, but not limited to." The terms "ensure" and "reasonable efforts" will not be construed as a guarantee, but will imply only a duty to use reasonable efforts and care, consistent with Prudent Operation and Maintenance Practices, and will include reasonable expenditures of money and at least such efforts as Operator would undertake for its own assets, services or maintenance, or for services provided to an Affiliate. "Gross negligence" will not be construed as simple or ordinary negligence, it being the intent of the Parties to preserve a distinction between errors made inadvertently while attempting to perform with due care and actions taken with a knowing disregard for a foreseeable risk. "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day. "Month" (regardless of capitalization) shall mean a calendar month. References to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement, except where expressly stated otherwise.

"AEP" shall mean American Electric Power Company, Inc., a New York corporation and an Affiliate of WPCo.

"AEPSC" shall mean American Electric Power Service Corporation, a New York corporation and an Affiliate of WPCo.

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, controls, is controlled by, or is under common control with such Person. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise. The Non-Operator Owner shall not be deemed an Affiliate of the Operator.

"Agreement" has the meaning set forth in the preamble to this Agreement.

"Applicable Law" means all laws (including common law), statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, Governmental

Approvals, Permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over an Owner, any other Person or entity (as to that Person or entity), this Agreement, any Facility asset or the Facility, as applicable.

"Bankruptcy" means a situation in which (i) a Person files a voluntary petition in bankruptcy or is adjudicated as bankrupt or insolvent, or files any petition or answer or consent seeking any reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable United States federal, state or other statute or law relative to bankruptcy, insolvency or other relief for debtors, or seeks or consents to or acquiesces in the appointment of any trustee, receiver, conservator or liquidator of such Person or of all or any substantial part of its properties (the term "acquiesce," as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within fifteen (15) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction enters an order, judgment or decree approving a petition filed against any Person seeking a reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States federal bankruptcy act, or any other present or future Applicable Law relating to bankruptcy, insolvency or other relief for debtors, and such Person acquiesces and such decree remains unvacated and unstayed for an aggregate of sixty (60) days (whether or not consecutive) from the date of entry thereof, or a trustee, receiver, conservator or liquidator of such Person is appointed with the consent or acquiescence of such Person and such appointment remains unvacated and unstayed for an aggregate of sixty (60) days, whether or not consecutive; (iii) a Person admits in writing its inability to pay its debts as they mature; (iv) a Person gives notice, to any Governmental Authority of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) a Person makes a general assignment for the benefit of creditors or takes any other similar action for the protection or benefit of creditors (other than in the ordinary course of such party's business).

"Budget" means an annual operating budget and annual capital budget adopted or amended pursuant to the Ownership Agreement.

"Business Day" means any day other than (i) a Saturday or Sunday or (ii) a day on which banks in West Virginia or Ohio are required or permitted to be closed.

"Claims" means any and all claims, assertions, demands, suits, investigations, inquiries, and proceedings.

"Confidential Information" means, with respect to each Party, all written or oral information of a proprietary, intellectual or similar nature, relating to the business, projects, operations, activities or affairs of a Party and its Affiliates, whether of a technical or financial nature or otherwise (including environmental assessment reports, financial information, business plans and proposals, ideas, concepts, trade secrets, know-how, processes, pricing of services or products, and other technical or business information, whether concerning this Agreement, each Party's respective businesses or otherwise) that has not been publicly disclosed and that the receiving Party acquires directly or indirectly from the disclosing Party.

"Cost Allocation Manual" means the Cost Allocation Manual of Operator and its Affiliates, as may be amended from time to time, as filed with FERC and, to the extent required, the WVPSC.

"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the generating units and other property, plant, and equipment comprising the Facility, including any common facilities associated with each generating unit that are to be permanently removed from service, the restoration of the Site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.

"Decommissioning Work" shall mean all work reasonably necessary or undertaken to Decommission the Facility, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Facility in accordance with Applicable Law.

"Dollars" means United States Dollars, the lawful currency of the United States of America.

"Due Date" means, with respect to any Operator invoice, the date that is thirty (30) days following the date on which Operator submits the invoice to the Non-Operator Owner in accordance with Article VII. If such date does not fall on a Business Day, then the Due Date shall be the first Business Day after such date.

"Effective Date" means the date set forth in the preamble to this Agreement.

"Emergency" has the meaning set forth in Section 3.8.

"Encumbrance" means (i) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (ii) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary Claim; and (iii) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Environmental Law" means any Applicable Law pertaining to (i) the regulation or protection of employee health or safety, public health or safety, or the indoor or outdoor environment; (ii) the conservation, management, development, control or use of land, natural resources, or wildlife; (iii) the protection or use of surface water or ground water; (iv) the management, manufacture, possession, presence, use, generation, treatment, storage, disposal, transportation, or handling of, or exposure to any Hazardous Material; or (v) pollution (including release of any hazardous substance to air, land, surface water and ground water), including the Comprehensive Environmental Response, Compensation, and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. §§ 9601 et seq.), the Hazardous Materials Transportation Act (49 U.S.C. §§ 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. §§ 6901 et seq.), the Toxic Substances Control Act

(15 U.S.C. §§ 2601 et seq.), the Clean Water Act (33 U.S.C. §§ 7401 et seq.), the Clean Air Act, as amended (42 U.S.C. §§ 7401 et seq.), the Safe Drinking Water Act (42 U.S.C. §§ 300f et seq.), the Uranium Mill Tailings Radiation Control Act (42 U.S.C. §§ 7901 et seq.), the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§ 136 et seq.), all as now or hereafter amended or supplemented, and any regulations promulgated thereunder, and any other similar federal, state, or local statutes, rules and regulations.

"Environmental Liability" has the meaning set forth in Section 10.3.1.

"Facility" means the Mitchell Power Generation Facility consisting of two (2) coal-fired generating units, each having a nominal nameplate capacity of 800 megawatts, and associated plant, equipment and real estate, located in Moundsville, West Virginia, and includes all electrical or thermal devices, and related structures and connections that are located at the Site and used for the production of power and the transportation and handling of fuel for the benefit of the Owners, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam.

"Facility Agreements" means this Agreement, the Ownership Agreement, all applicable interconnection agreements, fuel supply agreements, coal ash, gypsum and other combustion byproduct disposal or sales agreements, all applicable equipment maintenance agreements in effect or entered into, and as amended, supplemented or modified, from time to time by the Operator or the Owners relating to the Facility, all equipment contracts with regard to warranties and equipment design and specifications, and any other agreement reasonably designated by the Owners as a "Facility Agreement."

"Facility Equipment" has the meaning set forth in Section 13.1.

"Facility Personnel" means those individuals who are employed by Operator or its Affiliates to perform services in respect of the Facility under this Agreement.

"Force Majeure Event" has the meaning set forth in Section 14.6.1.

"Governmental Approval" means any consent, license, approval, exemption, Permit, "no objection certificate" or other authorization of whatever nature that is required to be granted by any Governmental Authority or any third party with respect to the siting, construction, operation, service and maintenance of the Facility in accordance with this Agreement, or otherwise necessary to enable an Owner or Operator to exercise its rights, or observe or perform its obligations, under this Agreement.

"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision, department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.

"Hazardous Materials" means (a) any petroleum or petroleum products, radioactive materials, asbestos in any form that is or could become friable, urea formaldehyde foam insulation, 1.4 Dioxane, per-and polyfluoroalkyl substances, and transformers or other equipment

that contain dielectric fluid containing polychlorinated biphenyls; (b) any chemicals, materials or substances that are now or hereafter become defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollution," "pollutants," "regulated substances," or words of similar import under Applicable Law; or (c) any other chemical, material, substance or waste declared to be or regulated as hazardous, toxic or polluting material by any Governmental Authority, exposure to which is now or hereafter prohibited, limited or regulated by any Governmental Authority.

"Late Payment Rate" means a rate of interest per annum equal to the lesser of (i) the "prime" rate of interest per annum for corporate loans as published in The Wall Street Journal under "Money Rates" as such rate may be in effect from time to time during the period the delinquent amount remains outstanding plus four (4) percentage points (4%) per annum or (ii) the maximum rate of interest permitted by Applicable Law.

"Lender" means any entity or entities providing financing or refinancing to an Owner under any financing agreements in connection with the construction or permanent financing for the Facility, and their permitted successors and assigns.

"Liabilities" means, collectively, any and all Claims, damages, judgments, losses, obligations, liabilities, actions and causes of action, fees (including reasonable attorneys' fees and disbursements), costs (including court costs), expenses, penalties, fines and sanctions.

"Manuals" means Facility Equipment manuals, system descriptions, system operating instructions, equipment maintenance instructions and pertinent design documentation created by the Persons that constructed the Facility or manufactured its equipment, and the operation and maintenance procedures and Facility systems descriptions, training, safety, chemistry and environmental manuals, together with the documents and schedules described in such manuals.

"NERC" means the North American Electric Reliability Corporation.

"Non-Operator Owner" has the meaning set forth in the preamble to this Agreement.

"Non-Operator Owner Indemnitees" has the meaning set forth in Section 10.1.

"Operating Committee" means the "Operating Committee" as composed from time to time pursuant to and defined in the Ownership Agreement.

"Operating Costs" has the meaning set forth in Section 7.2.1.

"Operator" has the meaning set forth in the preamble to this Agreement.

"Operator Indemnitees" has the meaning set forth in Section 10.2.

"Operator Proprietary Information" has the meaning set forth in Section 13.3.

"Owner" has the meaning set forth in the preamble to this Agreement.

"Ownership Agreement" has the meaning set forth in the recitals to this Agreement.

"Ownership Interest" has the meaning set forth in the Ownership Agreement.

"Party" means a party to this Agreement and "Parties" means, collectively, the parties to this Agreement, unless the context clearly requires a different construction.

"Permit" means any permit, license, consent, approval or certificate that is required or used for the operation or maintenance of the Facility or the performance of any Service and includes Permits required under Environmental Laws.

"Person" means any Party, individual, partnership, corporation, association, limited liability company, business trust, government or political subdivision thereof, governmental agency or other entity.

"Plan" means an annual operating plan adopted or amended pursuant to Section 5.3.

"Plant Manager" means the production/plant manager for the Facility selected in accordance with Section 3.6, Section 8.5 or Section 8.6.

"Project Manager" means the individual appointed in accordance with Section 5.1.

"Prudent Operation and Maintenance Practices" means those practices, methods and acts generally employed in the power generation industry with respect to facilities of similar type, fuel characteristics and geographical location as the Facility, that at the particular time in question, in the exercise of reasonable judgment in light of the facts known at the time the decision in question was being made, would have been expected to accomplish the desired result of such decision consistent with the goals established in a Budget and Plan, and the requirements of Applicable Law, System Operators, equipment manufacturer's recommendations, reliability, safety, environmental protection, economy and expedition. With respect to Operator, Prudent Operation and Maintenance Practices are not limited to the optimum practices, methods or acts to the exclusion of all others, but rather include a spectrum of possible practices, methods or acts commonly employed in the coal-fired power generation industry, including taking reasonable actions to provide a sufficient number of Persons who are available and adequately trained to provide Services at the Facility, and timely perform preventive, routine, and non-routine maintenance and repairs, as exemplified and generally described in Appendix A, subject, in all cases, to the Operator's duties and the limitations on Operator's authority, as set forth in this Agreement and the Ownership Agreement.

"Qualified Replacement Operator" shall mean a Person that:

(i) has operated for a period of at least three (3) years, and continues to operate, coal and/or natural gas power generation facilities with an aggregate electricity output of at least one thousand (1,000) megawatts and at least one of those facilities is a coal power generation facility with an aggregate electricity output of at least three hundred (300) megawatts (or has engaged a third party to operate the Facility who satisfies such operation standards); and

(ii) either has (a) a credit rating of "BBB-" or higher by S&P Global Ratings and "Baa3" or higher by Moody's Investor Service or (b) a tangible net worth of at least $500,000,000 (or has a direct or indirect parent who satisfies such financial standards).

"Services" has the meaning set forth in Section 3.1.

"Site" means the land on which the Facility is situated.

"Standards of Performance" means the standards for Operator's performance of the Services set forth in Section 3.3.

"System Operator" means any Person or regional transmission organization, such as PJM Interconnection, L.L.C., supervising the collective transmission or generation facilities of the power region in which the Facility is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

"Term" means the initial term together with any extensions.

"Termination Transition Period" has the meaning set forth in Section 8.5.1.

"WPCo" has the meaning set forth in the preamble to this Agreement.

"Year" means the calendar year. With respect to the Year in which the Effective Date occurs, a Year will be deemed to begin on the Effective Date and end on December 31st of such Year. If this Agreement terminates, the final Year will be deemed to end on the date that termination occurs.

ARTICLE III - RESPONSIBILITIES OF OPERATOR

3.1 Provision of Services. Operator shall operate and maintain the Facility and perform other duties as set forth in this Agreement and as directed by the Owners pursuant to the Ownership Agreement, including performing and, as applicable, contracting for the benefit of the Owners with suppliers and service providers to perform, the services set forth on Appendix A (collectively, the "Services") and agrees to be responsible for the day-to-day operation and maintenance of the Facility.

3.2 Procurement.

3.2.1 Operator shall sign contracts and purchase orders for goods and services to be delivered to the Facility in the name of Operator as agent for the Owners, and shall not contract in the name of the Non-Operator Owner without the Non-Operator Owner's prior written consent. Operator acknowledges that such contracts and purchase orders are for the benefit of the Owners and the Facility. Operator shall endeavor to negotiate with vendors from standard terms and conditions, including reasonable warranties for the benefit of the Owners.

3.2.2 The Non-Operator Owner shall use commercially reasonable efforts to obtain, promptly following the Effective Date, any and all consents of third parties required to assign, transfer or convey to Operator any contracts or purchase orders for goods and services

(including fuel supply and transportation) to be delivered to or used by the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date, which are reasonably required to be transferred to Operator for the performance of the Services. To the extent that, notwithstanding its commercially reasonable efforts, the Non-Operator Owner is unable to obtain any such required consent effective as of the Effective Date, and as a result thereof Operator shall be prevented by such third party from receiving the rights and benefits with respect to any such contract or purchase order intended to be transferred hereunder, or if any attempted assignment would adversely affect the rights of the Non-Operator Owner thereunder so that Operator would not in fact receive all such rights or the Non-Operator Owner would forfeit or otherwise lose the benefit of rights that the Non-Operator Owner is entitled to retain, the Non-Operator Owner and Operator shall cooperate to implement any lawful and commercially reasonable arrangement as the Non-Operator Owner and Operator shall agree, under which Operator would, to the extent practicable, obtain the claims, rights and benefits under such contract or purchase order and assume the burdens and obligations with respect thereto, including by the Non-Operator Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such contracts or purchase orders; provided, however, that the Non-Operator Owner and WPCo shall each bear its respective share of the costs and expenses under any such contract or purchase order in accordance with this Agreement and the Ownership Agreement. The Non-Operator Owner and Operator shall continue to cooperate to assign, transfer or convey to Operator any such contract or purchase order that remain held by the Non-Operator Owner and to otherwise arrange for Operator to directly contract with the applicable third party for any renewal contract or purchase upon the expiration or termination of any such contract or purchase order.

3.3 Standards for Performance of the Services. Operator shall perform the Services in accordance with (i) the Manuals, (ii) the applicable Budget and Plan, (iii) Applicable Laws, (iv) Prudent Operation and Maintenance Practices, (v) insurer requirements delivered to Operator by the Owners in writing, (vi) the requirements in the Facility Agreements (vii) this Agreement; and (viii) as directed by the Owners pursuant to the Ownership Agreement. Subject to the other provisions of this Agreement, Operator shall perform the Services and other obligations under this Agreement in a manner consistent with the Operating Committee's directions. The Parties acknowledge and agree that, subject to Operator's compliance with the Standards of Performance, Operator shall have no liability for acting or refraining to act in accordance with the directions of the Operating Committee, except to the extent caused by Operator's gross negligence, willful misconduct, fraud, willful violation of any Applicable Law, willful breach of this Agreement or the Ownership Agreement or other willful misconduct.

3.4 Dispatch. Operator shall use commercially reasonable efforts to comply with any applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement. Operator shall give the Operating Committee notice as soon as practicable of any inability of the Facility to make the requisite deliveries of energy, capacity or ancillary services and of Operator's plan to restore operation of the Facility. In the case of any interruption, curtailment or reduction in (i) supplies of fuel or (ii) acceptance of energy, capacity or ancillary services by the System Operator or in the case of any other dispatch constraint

imposed on the Facility, Operator shall notify the Non-Operator Owner as soon as practicable. Upon removal of the constraint, Operator shall use its commercially reasonable efforts to restore the availability of the Facility for dispatch consistent with applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement.

3.5 Licenses and Permits.

3.5.1 General. Operator shall review all Applicable Laws containing or establishing compliance requirements in connection with the operation and maintenance and Decommissioning of the Facility and shall use commercially reasonable efforts to obtain and maintain, for the benefit of both Owners, all Permits required by Applicable Law for the ownership, operation, maintenance and Decommissioning of the Facility and for Operator's performance of the Services, and shall (i) from time to time, notify the Operating Committee if Operator believes that a Permit is required by Applicable Law to be obtained by an Owner in its name in order to allow Operator to perform the Services and assist each Owner, at each Owner's written request and such Owner's sole cost and expense, in securing and complying with, as appropriate, all necessary Permits (and renewals of the same) which are required to be in an Owner's name, including those relating to air emissions, boiler operation, water usage, septic system operation, wastewater discharge, chemical and other waste (including Hazardous Materials) storage and disposal, emissions testing and safety, and (ii) initiate and maintain precautions and procedures reasonably necessary to comply with Applicable Laws. Any Permit held solely in the name of Operator shall, to the extent necessary for the other Owner's compliance with Applicable Law in its role as an Owner, be held by Operator for the benefit of both Owners. Any Permit held solely in the name of the Non-Operator Owner shall, to the extent necessary and consistent with Applicable Laws, be made available for the use of the Operator for the benefit of the Owners and, if reasonably necessary to facilitate Operator's operation and maintenance or Decommissioning of the Facility, the Non-Operator Owner shall cooperate with Operator to effect an assignment or other transfer of such Permit to Operator or otherwise submit such Permit modifications or updating information as necessary to reflect the role of Operator with respect to such Permit.

3.5.2 NERC Compliance. Operator (or an Affiliate thereof) shall register with NERC as the "Generator Owner" and "Generator Operator" for the Facility in accordance with 18 C.F.R. § 39.2(c) effective from and after [the Effective Date][1]. On and after [the Effective Date], Operator shall, or shall cause its applicable Affiliate to, (i) maintain compliance with all NERC reliability standards applicable to the Facility and all NERC rules applicable to Operator as Generator Owner and Generator Operator for the Facility in accordance with 18 C.F.R. § 39.2(b), including any actions related to mitigation and compliance enhancement required or implemented thereunder; (ii) provide notice to the Operating Committee promptly following the determination by Operator of any reportable physical or cyber security incident under the NERC reliability standards or other Applicable Law; (iii) maintain and provide documentation and maintenance records to the Operating Committee regarding any operation, testing, maintenance

[1] **Note**: Subject to modification if registration cannot be effective as of the Effective Date.

or faults of any generation protection relays, gen-tie relays or any other equipment necessary to fulfill Operator's or its applicable Affiliate's obligations as the Generator Owner or Generator Operator for the Facility; and (iv) provide to the Non-Operator Owner upon written request any other information, documentation and support reasonably necessary for Operator or its applicable Affiliate to demonstrate compliance with the NERC reliability standards. To the extent that any fine or sanction is imposed in respect of the performance of Operator's obligations under this Section 3.5.2 pursuant to Section 215(c) of the Federal Power Act, any cost related thereto shall be a included as an Operating Cost, to the extent permitted by Applicable Law.

3.6 Personnel Matters. Subject to Sections 8.5 and 8.6, and as otherwise set forth in this Section 3.6, Operator shall be responsible for determining the working hours, rates of compensation and all other matters relating to the employment of Operator's Facility Personnel, including the designation or appointment of the Plant Manager, in its reasonable judgment and in accordance with Non-Operator Owner's and its Affiliates' past practices in the ordinary course of its business during the time it served as operator of the Facility, and shall retain sole authority, control and responsibility with respect to its employment policies. Operator shall submit for the Operating Committee's approval the staffing requirements for the Facility on an annual basis. If Operator intends to select a new Plant Manager, or if the individual serving as Plant Manager ceases to be the Plant Manager, Operator shall provide prompt written notice to the Non-Operator Owner of the selection of a substitute Plant Manager. Facility Personnel shall be qualified and experienced in the duties to which they are assigned. Operator shall, upon the reasonable written request of the Non-Operator Owner, for cause (as documented in reasonable detail in any such written request), use commercially reasonable efforts to, as promptly as practicable under the circumstances and subject to any applicable collective bargaining agreements, remove from the Site and the Facility workforce, the services of any employee or other individual, subject to Operator's confirmation that such cause exists.

3.7 No Liens or Encumbrances. Operator shall use commercially reasonable efforts to keep and maintain the Facility free and clear of all liens and Encumbrances resulting from the failure by Operator to perform the Services or the personal debts and obligations of Operator unrelated to its ownership interest in the Facility.

3.8 Emergency Action. In the event of an emergency affecting the safety, health or protection of, or otherwise endangering, any Person, property or the environment located at or about the Facility (an "Emergency"), Operator shall take prompt action in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate any imminent damage, injury or loss threatened by such Emergency, and shall notify the Non-Operator Owner of such Emergency and Operator's response as soon as practical under the circumstances and in no event later than forty-eight (48) business hours after Operator becomes aware of such event. To the extent Operator procures goods and services as necessary to respond to an Emergency, reasonable and documented out of pocket costs in respect thereof shall be treated as Operating Costs.

ARTICLE IV - OBLIGATIONS, RIGHTS AND REPRESENTATIVES OF EACH OWNER

4.1 General. Each Owner expressly reserves the exclusive authority to make, and shall make, such business and strategic decisions as it deems appropriate from time to time in reference to the operation and maintenance of the Facility in accordance with the Ownership Agreement. Upon request from Operator, the Non-Operator Owner shall promptly furnish or cause to be furnished to Operator, at the Non-Operator Owner's expense, the information, access, materials, instructions and other items described in this Article IV that are in the possession or control of the Non-Operator Owner and which are reasonably necessary for performance of the Services by Operator and not otherwise available to Operator. All such items will be made available at such times and in such manner as may be reasonably required for the expeditious and orderly performance of the Services by Operator.

4.2 Information. Subject to the Standards of Performance, Operator shall be entitled to rely upon any information provided by the Non-Operator Owner or any other party to the Facility Agreements in the performance of the Services.

4.3 Access to Facility. Each Owner shall provide Operator and Operator's contractors, vendors, suppliers, employees and agents and Facility Agreement counterparties, to the extent applicable, reasonable access to and use of the Facility and the Site and to such Owner's records and data at the Facility and, in the case of the Non-Operator Owner, reasonably available to the Non-Operator Owner or in the Non-Operator Owner's possession and reasonably necessary for the performance of Services by Operator under this Agreement.

4.4 Instructions, Approvals, etc. Each Owner shall provide or cause to be provided (including through action of the Operating Committee) to Operator all instructions Operator is required to obtain in accordance with this Agreement. Without limiting the provisions of Section 3.2.2, each Owner shall reasonably cooperate to make available or cause to be available to Operator the benefits of all assets (including Permits and contracts relating to the Facility) held in the name of such Owner, as reasonably required for the operation of the Facility. Each Owner shall not direct Operator to take any action inconsistent with Applicable Law or otherwise adversely affecting the safety, health or protection of any person, or property or the environment located at or about the Facility.

ARTICLE V - REPRESENTATIVES, BUDGETS AND REPORTS

5.1 Representatives of Operator. On or as soon as practical after the Effective Date, Operator shall appoint a Project Manager who shall be authorized to represent Operator with each Owner and the Operating Committee concerning Operator's performance of the Services. The Project Manager may be the same individual as the Plant Manager. Operator shall be responsible for all communications, directions, requests and decisions made by its Project Manager at its direction. Operator shall notify the Non-Operator Owner in writing upon the appointment of its Project Manager, and of any successors. The Project Manager has no authority to modify, amend or terminate this Agreement or, absent written notice by Operator to

the contrary, to enter into any other agreement on behalf of Operator other than as provided herein.

5.2 Representatives of Owner; Operating Committee. The Operating Representative of each Owner (pursuant to and as defined in the Ownership Agreement) shall be authorized and empowered to act for and on behalf of such Owner on all matters requiring the consent, approval or other action of an Owner pursuant to this Agreement. Each Owner shall notify Operator and the other Operating Representative in writing upon the appointment of its Operating Representative, and of any successors. Any provision of this Agreement requiring the consent, approval, or similar act of the Operating Committee shall mean the consent, approval, or similar act of the Operating Committee acting in accordance with the terms of the Ownership Agreement.

5.3 Plans and Budgets.

5.3.1 Adoption.

5.3.1.1. Budgets. The initial Budget and Plan for the first Year following the Effective Date is attached as Appendix B hereto. No later than ninety (90) days prior to each operating Year, Operator shall deliver to the Operating Committee for the Operating Committee's review, revision if applicable and approval (i) a proposed annual operating budget, (ii) any proposed amendments to the annual capital budget, (iii) an annual operating plan and (iv) a six (6) Year future forecast of operating and capital expenses. Each such proposed budget, plan and forecast shall contain such detail and supporting documentation as reasonably necessary or reasonably requested for the Operating Committee's review, and Operator shall provide all such additional information and supporting documentation as may be reasonably requested by the Operating Committee and as required by the Ownership Agreement. The Operating Committee shall review and provide modifications to each such proposed budget, plan and forecast and Operator shall cooperate to revise each such proposed budget and plan to receive the Operating Committee's approval of same by December 1 of each Year. Each Budget and Plan as approved by the Operating Committee or otherwise deemed implemented pursuant to the Ownership Agreement shall remain in effect in accordance with the Ownership Agreement. Operator and the Non-Operator Owner by mutual agreement may modify the process and procedures set forth in this Section 5.3.1.

5.3.1.2. Amendments. If either the Non-Operator Owner or Operator becomes aware of facts or circumstances that it believes necessitate a change to a Budget or Plan, that Party shall promptly notify the other Party in writing, specifying the impact upon the Budget and the reasons for the change. The Project Manager shall then discuss appropriate amendments to the Budget with the Operating Committee.

5.3.1.3. Failure to Agree. Operator acknowledges that the Owners retain ultimate authority with respect to expenses incurred for the Facility. Accordingly, Operator shall accept each Budget as determined in accordance with the Ownership Agreement. To the extent that the Operating Committee limits funds for Operating Costs, Operator shall be

relieved from performing only those specific Services that would result in the incurrence of such non-reimbursable Operating Costs.

5.3.2 Limitations on Variation from Budget. Except as otherwise permitted in response to an Emergency in accordance with Section 3.8, Operator shall obtain the Operating Committee's written approval (i) for any expenditures resulting in cumulative budget overruns exceeding ten percent (10%) in the aggregate in any Year with respect to either the operating Budget or capital expense Budget, or (ii) for any unbudgeted expenditure or capital project having a projected cost of more than $100,000.

5.4 Availability of Operating Data and Records. Operator shall deliver Facility data recorded, prepared or maintained by Operator to the Operating Committee: (i) as necessary or reasonably requested by an Owner to assist each Owner in complying with requirements of Governmental Authorities, Permits and Facility Agreements; or (ii) upon request by the Non-Operator Owner, in each case as soon as reasonably practicable but in any event within ten (10) Business Days following such request.

5.5 Litigation and Permit Lapses. Promptly upon obtaining actual knowledge thereof, either Party shall submit prompt written notice to the other Party of the following, to the extent relating to the Facility or the Services or agreements relating to either the Facility or the Services: (i) any litigation, Claims or actions filed, including by, against or with any Governmental Authority; (ii) any actual refusal to grant, renew or extend, or any action filed with respect to the granting, renewal or extension of, any Permit; (iii) all penalties or notices of violation issued or asserted by any Governmental Authority; (iv) any dispute with any Governmental Authority that may affect the Facility in any material respect; and (v) with respect to the matters identified in items (i), (ii), (iii) or (iv), any material threats of such matters. Upon Non-Operator Owner's request, Operator shall provide any documentation related to any of the foregoing.

5.6 Other Information. Operator shall promptly submit to the Non-Operator Owner any material information concerning new or significant aspects of the Facility operations and, upon the Non-Operator Owner's request, shall promptly submit any other information concerning the Facility or the Services.

5.7 Records Maintenance and Retention. Operator shall maintain all records, reports, documents and data, including all data retrievable from an electronic data storage source, for the Facility in accordance with Applicable Law and shall retain and preserve all such records, reports, documents and data created in connection with the operation and maintenance of the Facility, in accordance with Applicable Law, provided that Operator shall notify the Non-Operator Owner in writing at least sixty (60) days prior to the destruction or other disposition of any record, report, document or data. If the Non-Operator Owner gives written notice to Operator prior to the expiration of the 60-day period, Operator shall maintain custody of such material until the earlier of (i) such time as the Non-Operator Owner notifies Operator to dispose of such material and (ii) seven (7) Years. If the Non-Operator Owner does not provide written notice to Operator prior to the expiration of the 60- day period, Operator may destroy or

dispose of such material and shall provide the Non-Operator Owner with a certificate confirming such destruction or disposition.

ARTICLE VI - LIMITATIONS ON AUTHORITY

6.1 Limitations on Authority. Operator has no authority to make policies or decisions with respect to the overall operation or maintenance of the Facility as a commercial enterprise pursuant to the terms of this Agreement. The Owners, acting through the Operating Committee and pursuant to the terms of the Ownership Agreement, shall determine all such matters. Notwithstanding any provision in this Agreement to the contrary, unless previously approved in a Budget and Plan or otherwise approved in writing by the Operating Committee, in connection with Operator's provision of Services hereunder, Operator is prohibited from doing any of the following (and shall not permit any of its agents, Affiliates, or representatives to do any of the following):

6.1.1 Dispose of Assets. Selling, leasing, pledging, mortgaging, granting a security interest in, encumbering, conveying, or making any license, exchange or other transfer or disposition of all or any portion of the Facility, the Site or any other property or assets of the Owners, including any property or assets purchased by Operator, the cost of which is an Operating Cost;

6.1.2 Make Expenditures. Making any expenditure or acquiring, on an Operating Cost basis, any goods or services from third parties, except in conformity with a Budget or as otherwise permitted under Section 5.3.2 or as authorized by the Operating Committee; provided, however, that in the event of an Emergency, Operator, without approval from the Owners, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.3 Take Other Actions. Taking or agreeing to take any other action or actions the decision for which is reserved exclusively for the Operating Committee pursuant to the Ownership Agreement; provided, however, that in the event of an Emergency, Operator, without approval from the Operating Committee, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.4 Act Regarding Lawsuits and Settlements. Settling, compromising, assigning, pledging, transferring, releasing or consenting to the compromise, assignment, pledge, transfer or release of, any material Claim, suit, debt, demand or judgment against or due by any Owner or Operator, the cost of which would be an Operating Cost hereunder, or submitting any such Claim, dispute or controversy to arbitration or judicial process, or stipulating in respect thereof to a judgment, or consent to the same; provided, however, that such prohibition shall not apply to, nor shall it be construed as a release or waiver of, any of Operator's rights or obligations pursuant to this Agreement or any other agreement between the Parties; or

6.1.5 Pursue Transactions. Engaging in any other transaction on behalf of the any Owner that is not permitted under this Agreement.

ARTICLE VII - COMPENSATION AND PAYMENT

7.1 General. The Non-Operator Owner shall pay Operator, and WPCo shall bear directly in its capacity as an Owner, its allocated share in accordance with the Ownership Agreement of all Operating Costs, all as further described below. All Operating Costs shall initially be paid for by Operator (except as otherwise provided in this Agreement) and subsequently invoiced monthly in arrears as more fully set forth in this Article VII.

7.2 Costs.

7.2.1 Operating Costs. Subject to the Ownership Agreement and the limitations on expenditures set forth elsewhere in this Agreement (including Section 5.3), the Non-Operator Owner shall reimburse Operator for its allocated share in accordance with the Ownership Agreement of the fully distributed costs incurred (whether paid or accrued) in the provision of Services (which shall be allocated consistent with Non-Operator Owner's and its Affiliates past practices in the ordinary course of business during the time it served as operator of the Facility and in any event in accordance with the Cost Allocation Manual with respect to costs incurred by Affiliates of Operator), including for labor, goods, services, capital expenditures, overhead, cost of capital, Taxes (other than income or franchise taxes), Permits and bonds (the "Operating Costs"), in each case invoiced in a manner consistent with the example invoice worksheets attached hereto as Appendix C, which shall include such costs with respect to: (i) equipment, material, supplies and other consumables, spare parts, replacement components, tools, office equipment, computer equipment, software, information technology and supplies acquired for use at the Facility; (ii) fuel supply and transportation; (iii) costs associated with special training of Facility Personnel and associated travel and living expenses; (iv) amounts paid under subcontracts, purchase orders and agreements; (v) fees for Permits required to be held by Operator; (vi) community relations and labor relations activities; and (vii) Operator's cost of Facility Personnel (and the allocable portion of other employees of Operator and its Affiliates attributable to performing the Services) wages, salaries, overtime, employee bonus, customary or required severance payments, unemployment insurance, long-term disability insurance, short term disability payments, sick leave, payroll taxes imposed on wages and benefits, worker's compensation costs and holidays, vacations, group medical, dental and life insurance, defined contribution retirement plans and other employee benefits; (viii) costs of third-party advisors, consultants, attorneys, accountants and contractors retained and managed by Operator in support of, and allocable to, the Services; (ix) a reasonably allocable portion of the cost of the insurance maintained by Operator in accordance with Section 9.1 on account of its Operator role; (x) reasonable costs incurred in response to an Emergency; and (xi) any other activity that Operator is required or expressly requested in writing by the Owners to perform under this Agreement for the benefit of the Facility or that is approved in a Budget or by the Operating Committee pursuant to the terms of this Agreement.

7.2.2 Invoicing. On or before the twenty-fifth (25^{th}) day of each calendar month during the Term, Operator shall submit invoices to the Non-Operator Owner in form and substance reasonably similar to that attached hereto as Appendix C for Operating Costs incurred during the preceding calendar month (as well as any such costs for any prior period that were not previously invoiced). If any contract or purchase order intended to be assigned, transferred or conveyed to Operator remains held by the Non-Operator Owner as described in Section 3.2.2 and

the Non-Operator Owner directly pays costs thereunder for the benefit of the Owners, the invoice submitted by Operator shall net WPCo's allocated share in accordance with the Ownership Agreement of any such costs paid by the Non-Operator Owner for the benefit of the Owners. The Non-Operator Owner shall make payment to Operator of its allocated share in accordance with the Ownership Agreement of the invoiced amount no later than the Due Date. For the avoidance of doubt, WPCo, in its capacity as an Owner, shall bear directly its allocated share in accordance with the Ownership Agreement of such Operating Costs.

7.3 Cost Audit. The Non-Operator Owner shall be entitled to conduct an audit, or to delegate a representative to audit, at its sole cost and expense and review of Operator's books and records with respect to all Operating Costs and performance of the Services together with any supporting documentation for a period of one (1) Year from and after the date of the audited payment. If, pursuant to such audit and review, it is agreed that any amount previously paid by Operator or by an Owner was not properly incurred as an Operating Cost or an adjustment of any such cost is required, Operator shall credit to the Non-Operator Owner or Operator, as applicable, its allocated share in accordance with the Ownership Agreement of such amount in the next succeeding invoice or promptly paid in cash if there shall not be further invoices issued.

7.4 Late Payment Rate. To the extent a Party fails to pay any amount required to be paid under this Agreement by the Due Date, the unpaid amount shall accrue interest each day at the Late Payment Rate from the Due Date until such amount (plus accrued interest) is paid by the applicable Party in full. In the event any paid amounts are disputed by a Party in good faith and such dispute is resolved (including if applicable in accordance with the procedures set forth in Section 14.7) in the favor of such Party, then the applicable other Party shall repay to such Party such overpaid amount plus interest thereon accrued each day at the Late Payment Rate from payment by such Party until such amount (plus accrued interest) is repaid in full to such Party by the applicable other Party.

ARTICLE VIII - TERM

8.1 Term. The Term of this Agreement shall commence on the Effective Date and, subject to approval or acceptance of termination by FERC or other Governmental Authority to the extent required, shall end on the date of termination of the Ownership Agreement (the "Term"). Notwithstanding the foregoing, this Agreement and the Term is subject to earlier termination pursuant to Sections 8.2 and 8.3.

8.2 Termination by the Non-Operator Owner for Cause. The Non-Operator Owner shall be permitted to terminate this Agreement upon written notice to Operator if any of the following events occur: (i) the Bankruptcy of Operator; (ii) a payment default by Operator (other than a disputed payment) that Operator fails to cure within ten (10) Business Days after Operator has received written notice of such default; (iii) Operator incurs liability to the Owners equal to the liability limit set forth in Section 11.2 for any two Years during the Term (provided that written notice of termination must be delivered to Operator no later than ninety (90) days after the end of the second of such two Years), or (iv) a material default by Operator in the performance of its obligations under this Agreement, including any default that has, or is reasonably expected to have, a material adverse effect on the operations, maintenance or performance of the Facility and Operator has failed to cure such default within sixty (60) days of

written notice of such failure; provided, that if it is not possible to cure such breach within sixty (60) days of receipt of such notice of failure, Operator (A) fails to commence to cure the breach within such sixty (60) day period, (B) thereafter fails to continue diligent efforts to complete the cure as soon as reasonably possible, or (C) fails to complete the cure within ninety (90) days of receipt of such notice of failure. In addition, Non-Operator Owner shall have the option to terminate this Agreement for convenience upon ninety (90) days written notice to Operator delivered no later than ninety (90) days after the occurrence of any transfer, assignment, sale or other disposition (including any transfers, assignments, sales or other dispositions in connection with a foreclosure or an exercise of remedies by the Financing Parties) that results in WPCo's Ownership Interest no longer being owned directly or indirectly by AEP or an Affiliate thereof, except in the case of an transfer, assignment, sale or other disposition to a successor Operator that is a Qualified Replacement Operator in compliance with the terms of this Agreement and the Ownership Agreement.

8.3 Termination by Operator. Operator shall be permitted to terminate this Agreement upon written notice to the Non-Operator Owner if any of the following events occur: (i) a payment default by the Non-Operator Owner (other than a disputed payment) that is not cured within thirty (30) days after the Due Date for any invoice; (ii) the Bankruptcy of the Non-Operator Owner; or (ii) a default by the Non-Operator Owner of any other obligation under this Agreement that has a material adverse effect on Operator's ability to perform the Services and that the Non-Operator Owner has failed to cure or make substantial progress in the reasonable opinion of Operator toward curing within ninety (90) days of written notice by Operator to the Non-Operator Owner of such failure. As soon as practicable after all cost information is gathered following termination, Operator shall invoice the Non-Operator Owner for its allocated share in accordance with the Ownership Agreement for Services rendered by Operator through the termination date, including all Operating Costs incurred through the date of termination but not paid.

8.4 Transfer of Facility Custody. Upon expiration or termination of this Agreement, Operator shall leave at the Facility all documents and records, tools, supplies, spare parts, safety equipment, Manuals, and any other items furnished on an Operating Cost basis, all of which shall remain the property of the Owners without additional charge. Operator shall execute all documents and take all other reasonable steps as may be reasonably requested by the Non-Operator Owner to assign to and vest in a replacement provider of Services all of its pro-rata rights, benefits, interests and title in connection with any subcontracts Operator executed in its own name for the benefit of the Facility and the Owners.

8.5 Services Upon Termination.

8.5.1 Upon notice of termination of this Agreement by either Operator or the Non-Operator Owner, unless the Non-Operator Owner is then in payment default such that Operator would have the right to terminate this Agreement pursuant to Section 8.3(i), the Non-Operator Owner shall have the right to specify a period of transition of no longer than nine (9) months (the "Termination Transition Period") during which Operator shall: (i) continue to provide Services at the Facility in accordance with this Agreement; (ii) cooperate with the Non-Operator Owner in planning and implementing a transition to any replacement provider of Services; (iii) use its commercially reasonable efforts to minimize disruption of Facility

operations in connection with such transition activities; (iv) make all requisite regulatory filings as promptly upon commencement of the Termination Transition Period, subject to cooperation of the Parties; (v) transfer all Permits, licenses, registrations, approvals and contracts to the Non-Operator Owner or such replacement operator, in each case, as requested by the Non-Operator Owner; and (vi) take all actions incidental thereto and as reasonably requested by the Non-Operator Owner. The provisions of Article VII shall continue to apply during the Termination Transition Period. To facilitate employee transfer, Operator shall permit the replacement service provider and the Non-Operator Owner to interview such Facility Personnel for potential positions with such replacement operator in a manner and at times that do not interfere with Operator's responsibility to perform the Services. If Operator or one of its Affiliates continues to own a portion of the Facility, Operator shall, or shall cause its Affiliates to, reasonably cooperate to allow a successor operator to operate the Facility after the termination of this Agreement, including by granting access rights and executing other instruments as may be reasonably requested by the Non-Operator Owner and any replacement operator.

8.5.2 Any modifications to the ownership and operation of the Facility, including any termination of this Agreement, shall be subject to any required regulatory or administrative filings and approvals.

8.6 Plant Manager Replacement. Upon (i) commencement of the Termination Transition Period or (ii) the occurrence of any of the conditions described in Section 8.2, the Non-Operator Owner may designate a qualified individual with significant experience as a project manager or similar senior operating role in respect of the management and operation of large coal-fired generation facilities with similar operating characteristics as the Facility to replace the existing Plant Manager and who shall upon such appointment be the Plant Manager.

ARTICLE IX - INSURANCE

9.1 Operator Insurance Requirements.

9.1.1 Commencing with the performance of the Services hereunder, and continuing until the termination of this Agreement, Operator (and any tier subcontractors) shall maintain or cause to be maintained occurrence form (if written on a claims -made policy form, be maintained with a retroactive date that is prior to this Agreement Effective Date for a period of at least three (3) Years following the last Year in which such policy provides coverage under the terms of this Agreement) insurance policies as follows: (i) Workers' Compensation in accordance with the statutory requirements of the state in which the Services are performed and Employer's Liability Insurance of not less than one million Dollars ($1,000,000) each accident/employee/disease; (ii) Commercial General Liability Insurance having a limit of at least one million Dollars ($1,000,000) per occurrence/two million Dollars ($2,000,000) in the aggregate for contractual liability, personal injury, bodily injury to or death of Persons, and/or loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) Years after completion), premises and operations liability and explosion, collapse, and underground hazard coverage; (iii) Commercial/Business Automobile Liability Insurance (including owned (if any), non-owned or hired autos) having a limit of at least one million Dollars ($1,000,000) each accident for bodily injury, death, property damage and contractual liability and no fellow employee exclusion; (iv)

Umbrella/Excess Liability insurance with limits of at least twenty-four million Dollars ($24,000,000) per occurrence and follow form of the underlying Employer's Liability, Commercial General Liability and Auto Liability insurance, and provide at least the same scope of coverages thereunder; (v) coverage for sudden/accidental occurrences for bodily injury, property damage, environmental damage, cleanup costs and defense with a minimum of one million Dollars ($1,000,000) per occurrence; and (vi) "all-risk" or its equivalent property insurance providing coverage risks of physical damage to the Facility or Facility Equipment in an amount in accordance with Good Utility Practice.

9.1.2 Unless otherwise determined by the Operating Committee that the Operator should purchase capacity insurance on behalf of both Owners, Operator (including in its capacity as an Owner) and Non-Operator Owner may each procure individually, in proportion to their Ownership Interests, PJM Interconnection, L.L.C. capacity performance insurance on terms and conditions, and placed with insurance companies, reasonably acceptable to the Operator or such Owner, as applicable. Operator shall make such certifications relating to the operation, maintenance and condition of the Facility from time to time during the Term as may be reasonably necessary in connection with the procurement or maintenance of such insurance coverage by Operator and the Non-Operator Owner and any other insurance policies of either Owner that may relate to coverage pertaining to or affecting an Owner's Ownership Interest.

9.2 Form and Content. All insurance policies provided and maintained by Operator and each subcontractor shall: (i) except with respect to insurance policies issued by any "captive" insurer of Operator or its Affiliates, be underwritten by insurers that are rated A.M. Best "A-VII" or higher; (ii) specifically include the Non-Operator Owner and its directors, officers, employees, affiliates, subcontractors, and joint owners of any facilities as additional insureds for their liability arising out of the acts or omissions of Operator, including for completed operations, with respect to Operator's acts, omissions, services, products or operations, whether in whole or in part, excluding, however, for Workers' Compensation/Employer's Liability insurance, Pollution Legal Liability insurance, and "all-risk" property insurance; (iii) be endorsed to provide, where permitted by law, waiver of any rights of subrogation against an Owner and its directors, officers, employees, affiliates and subcontractors, and joint owners of any facilities; (iv) provide that such policies and additional insured provisions are primary with respect to the acts, omissions, services, products or operations of Operator or its subcontractors, to the extent of Operator's negligence, (v) contain standard separation of insured and severability of interest provisions except with respect to the limits of the insurer's liability; and (vii) not have any cross-liability exclusion, or any similar exclusion that excludes coverage for Claims brought by additional insureds under the policy against another insured under the policy; Any deductibles or retentions shall be the sole responsibility of Operator and its subcontractors. Evidence of such coverage shall be provided in the form of Operator's certificate of insurance furnished to the Non-Operator Owner prior to the Effective Date, upon any policy replacement or renewal and upon the Non-Operator Owner's request. Operator shall provide at least thirty (30) days' prior written notice to the Non-Operator Owner prior to cancellation of any policy (or ten (10) days' notice in the case of non-payment of premium).

ARTICLE X - INDEMNIFICATION

10.1 Operator Indemnification. Subject to the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner and its Affiliates, and their respective officers, directors, employees, managers, members, agents and representatives (collectively, the "Non-Operator Owner Indemnitees"), from and against, and no Non-Operator Owner Indemnitee shall be responsible for any and all Liabilities incurred, assessed, sustained or suffered by any Non-Operator Owner Indemnitee to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement. Any Liabilities paid by Operator pursuant to its indemnity obligation under this Section 10.1 shall in no event be considered Operating Costs hereunder.

10.2 Owner Indemnification. Subject to the limitations of liability in Section 11.1, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless Operator and its Affiliates, and their respective officers, directors, employees, agents and representatives (collectively, the "Operator Indemnitees"), from and against, and no Operator Indemnitee shall have responsibility for, any and all Liabilities to a third party incurred, assessed, sustained or suffered by or against any Operator Indemnitee arising from or relating to Operator's performance of the Services under this Agreement, except to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement; provided, however, that the Liabilities for which Non-Operator Owner is obligated to indemnify any Operator Indemnitees under this Section 10.2 shall not in any event include any Liabilities for which WPCo is obligated to indemnify Non-Operator Owner (and/or its Affiliates) in any agreement among the Owners (and/or their Affiliates) and AEP (and/or its Affiliates), including pertaining to the allocation of emission limitations associated with the Facility. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its proportionate share of Liabilities under this Section 10.2 in respect of its Ownership Interest.

10.3 Environmental Indemnification.

10.3.1 Owner Indemnity for Environmental Liabilities. Subject to the limitations of liability in Section 11.1, and without in any way limiting the provisions of Section 10.3.2, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless the Operator Indemnitees, from and against, and no Operator Indemnitees shall have responsibility for, any and all Liabilities, including all civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Operator Indemnitees, as applicable, as a result of or in connection with any matters governed by Environmental Laws directly or indirectly related to or arising out of (i) the design, permitting or construction of the Facility or the condition of the Site, and any adjacent parcels; (ii) the operation, maintenance, ownership, control or use of the Facility or otherwise related to the Facility; and (iii) the offsite transportation, treatment or disposal of all wastes generated at the Facility and any properties included within or adjacent to the Site, whether occurring before or after the Effective Date (collectively, "Environmental Liabilities"), including any Environmental Liabilities arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous

Materials, but excluding Operator Environmental Liabilities; provided, however, that the Environmental Liabilities for which any Owner is obligated to indemnify any Operator Indemnitees under this Section 10.3.1 shall not in any event include any Operator Environmental Liabilities for which Operator is liable under Section 10.3.2. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear its proportionate share of Environmental Liabilities under this Section 10.3.2 in respect of its Ownership Interest.

10.3.2 Operator Indemnity for Environmental Liabilities. Subject to the provisions of Section 10.1 and the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner Indemnitees from and against, and no Non-Operator Owner Indemnitee shall be responsible hereunder for any Liabilities, including any civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Person as a result of or in connection with any breach or violation of or any other matters governed by Environmental Laws to the extent caused by the gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law or willful breach of this Agreement by Operator or arising out of the existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials brought on Site by Operator or its Affiliates or agents on or after the Effective Date (the "Operator Environmental Liabilities"). Operator understands and agrees that any Operator Environmental Liabilities paid by Operator pursuant to this Section 10.3.2 shall not be Operating Costs hereunder.

10.3.3 Governmental Actions. During the Term, Operator shall use commercially reasonable efforts to cooperate with and assist the Owners with their acquisition of data and information, and preparation and filing with appropriate Governmental Authorities of any notices, plans, submissions, or other materials and information necessary for compliance by the Owners with applicable Environmental Laws and the requirements of any Permits related to the Facility. All such environmental reports shall be submitted by, and in the names of, both Owners. All reasonable and documented costs associated therewith, including the reasonable costs of any outside consultants, legal services, Governmental Authority charges, sampling and remedial work shall be paid by the Owners as an Operating Cost, and the Non-Operator Owner shall reimburse WPCo to the extent of the Non-Operator Owner's pro rata share, unless such costs are incurred arising out of or associated with Operator Environmental Liabilities that are subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof. Nothing contained herein shall be construed as requiring Operator to take any corrective action with respect to Environmental Liabilities unless (x) affirmatively and expressly directed in writing to so do by the Operating Committee and appropriate funding is made available, or (y) affirmatively and expressly directed to do so by a Governmental Authority, in order to comply with any Environmental Law, in which case the cost of any corrective actions so undertaken shall be deemed an Environmental Liability subject to Section 10.3.1 hereof (if not otherwise reimbursed as an Operating Cost hereunder), unless such Environmental Liability arises out of or is associated with Operator Environmental Liabilities subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof.

ARTICLE XI - LIABILITIES OF THE PARTIES

11.1 Limitations of Liability. Notwithstanding any provision in this Agreement that may be susceptible to contrary interpretation, neither the Parties nor any Non-Operator Owner Indemnitees or Operator Indemnitees shall be liable for consequential or indirect loss or damage, including loss of profit, cost of capital, loss of goodwill, increased Operating Costs, or any special or incidental damages; provided, however, that notwithstanding the foregoing, in no event will the foregoing limitations of liability be applied to limit the extent of the liability of either Party to the other for or with respect to any Claims of third parties or to the extent arising from gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement. The Parties further agree that the waivers and disclaimers of liability, indemnities, releases from liability and limitations of liability expressed in this Agreement shall survive termination or expiration of this Agreement, and shall apply in all circumstances, whether in contract, equity, tort or otherwise, regardless of the fault, negligence (in whole or in part), strict liability, breach of contract or breach of warranty of the Party indemnified, released or whose liabilities are limited, and shall extend to the Non-Operator Owner Indemnitees and Operator Indemnitees.

11.2 Operator's Total Aggregate Liability. Except to the extent that a Non-Operator Owner Indemnitee suffers Liabilities that are caused by, result from or arise out of Operator's or its Affiliates' breach of Article XIII or its gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement, or willful misconduct (including in connection with any Services), the total liability of Operator to the Non-Operating Owner for all Liabilities arising out of, connected with or resulting from any events occurring or claims made in connection with this Agreement, whether based in contract, warranty, tort, strict liability or otherwise, shall not exceed, in the aggregate, the sum of (i) an amount equal to twenty-five percent (25%) of the Operating Costs, but excluding Operating Costs relating to any services, goods, inventory and equipment provided hereunder by third parties other than Operator's Affiliates, incurred pursuant to this Agreement in the prior twelve (12) month period, *plus* (ii) the Non-Operating Owner's fifty percent (50%) share of any insurance proceeds actually received by the Operator or paid on the Operator's behalf with respect to the relevant loss or damages under the insurance policies procured by the Operator pursuant to Section 9.1.

11.3 No Warranties or Guarantees.

11.3.1 EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES OR GUARANTEES TO THE OTHER, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SUBJECT MATTER OF THIS AGREEMENT, AND BOTH PARTIES DISCLAIM AND WAIVE ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT.

11.3.2 OPERATOR IS ACTING AS AGENT OR OTHERWISE AS A RESELLER WITH RESPECT TO ALL SERVICES, GOODS, INVENTORY AND EQUIPMENT PROVIDED HEREUNDER BY THIRD PARTIES OTHER THAN OPERATOR'S AFFILIATES, AND, AS SUCH, DOES NOT PROVIDE ANY WARRANTY

FOR SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT PROVIDED HEREUNDER. ALL SUCH THIRD PARTY SERVICES, GOODS, INVENTORY AND EQUIPMENT ARE PROVIDED AS IS, WHERE IS, WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT UNLESS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES. THE SOLE REMEDY IN CONNECTION WITH ANY DEFECTS IN OR FAILURES OF SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT (WHETHER A CLAIM FOR SUCH DEFECT ARISES UNDER CONTRACT, TORT, STRICT LIABILITY, STATUTE, OR ANY OTHER LEGAL OR EQUITABLE THEORY OR PRINCIPLE INCLUDING NEGLIGENCE) SHALL BE TO SEEK RECOURSE EXCLUSIVELY FROM THE COUNTERPARTIES TO THE THIRD PARTY CONTRACTS, UNLESS THE DEFECT OR FAILURE WAS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES.

ARTICLE XII - CONFIDENTIALITY

12.1 General. During the Term, and for the later of three (3) Years after the termination of this Agreement or five (5) Years after receipt of the applicable Confidential Information, each Party shall hold in confidence any Confidential Information supplied by or on behalf of the other Party. Each receiving Party further agrees to require its contractors, vendors, suppliers and employees, agents or prospective purchasers to preserve the confidentiality of Confidential Information. The receiving Party may make necessary disclosures to third parties directly engaged in the operation, ownership or financing of the Facility if such third parties are under an obligation to receive and hold such Confidential Information in confidence.

12.2 Exceptions. The provisions of this Article XII do not apply to information within one or more of the following categories:

12.2.1 Public Domain. Information that was in the public domain prior to the receiving Party's receipt or that subsequently becomes part of the public domain by publication or otherwise, except by the receiving Party's or its Affiliate's wrongful act.

12.2.2 Prior Receipt. Information that the receiving Party can demonstrate was in its possession prior to receipt thereof from the disclosing Party so long as such possession did not result from a violation of a confidentiality obligation.

12.2.3 Third Party Delivery. Information received from a third party having no obligation of secrecy with respect thereto.

12.2.4 Permitted Disclosures. Information disclosed by an Owner to Lenders or prospective Lenders, equity investors or prospective equity investors, prospective purchasers,

consultants, attorneys, accountants and other designated agents in each case on a confidential, need-to-know-basis.

12.2.5 Regulatory Filings. Information required to be disclosed by an Owner in connection with any required regulatory or administrative filings.

12.3 Required Disclosure. Notwithstanding the forgoing, any receiving Party required by law, rule, regulation, subpoena or order, or in the course of regulatory, administrative or judicial proceedings, to disclose Confidential Information that is otherwise required to be maintained in confidence pursuant to this Article XII, may make disclosure notwithstanding the provisions of this Article XII. Prior to doing so, the receiving Party, promptly upon learning of the requirement, shall notify the disclosing Party of the requirement and cooperate to the maximum extent practicable to minimize the disclosure of Confidential Information. Any receiving Party disclosing Confidential Information pursuant to this Section 12.3 shall use commercially reasonable efforts, at the disclosing Party's cost, to obtain proprietary or confidential treatment of Confidential Information by the third party to whom the information will be disclosed, and to the extent such remedies are available, shall use commercially reasonable efforts to seek protective orders limiting the dissemination and use of Confidential Information. Nothing in this Agreement is intended to prevent the disclosing Party from appearing in any proceedings and objecting to the disclosure.

ARTICLE XIII - TITLE, DOCUMENTS AND DATA

13.1 Materials and Equipment. Operator shall use commercially reasonable efforts to cause title to all materials, equipment, supplies, consumables, spare parts and other items purchased or obtained by Operator on an Operating Cost basis ("Facility Equipment") to pass directly from the vendor or supplier to, and vest in, each Owner to the extent of such Owner's Ownership Interest. Operator shall have no title or other claim to such items other than in its capacity as an Owner of the Facility.

13.2 Documents. All Manuals, operational data, Facility drawings, Operator reports and records and other materials and documents (both paper and electronic) created by Operator, its Affiliates or their respective employees, representatives or contractors in connection with performance of the Services are the property of each Owner to the extent of its Ownership Interest in the Facility. All such materials and documents shall be available for review by the Non-Operator Owner at all reasonable times during development and promptly upon completion. All such materials and documents required to be submitted for the approval of the Operating Committee shall be prepared and processed in accordance with the requirements and specifications set forth herein. However, the Operating Committee's approval of materials and documents submitted by Operator shall not relieve Operator of its responsibility to perform it obligations under this Agreement.

13.3 Proprietary Information. Where materials or documents prepared or developed by Operator or its Affiliates, or their respective employees, representatives or contractors, contain proprietary or technical information, systems, techniques or know-how previously developed by them or acquired by them from third parties (the "Operator Proprietary Information"), the Non-Operator Owner shall have an irrevocable license to use such Operator

Proprietary Information to the extent necessary for the operation or maintenance of the Facility at no additional cost to the Non-Operator Owner.

ARTICLE XIV - MISCELLANEOUS PROVISIONS

14.1 Assignment. This Agreement shall not be assignable, in whole or in part, by a Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed, except that this Agreement may be (i) collaterally assigned by an Owner without such consent to a Lender in connection with such Lender's financing of such Owner's Ownership Interest and (ii) assigned by an Owner (in whole but not in part) without such consent to the transferee of its Ownership Interest, whether by merger, division, sale of equity interest, or otherwise, in each case, solely to the extent that such transfer of its Ownership Interest is in accordance with the Ownership Agreement. Any assignment pursuant to this Section 14.1 shall not relieve the assigning Party of any of its obligations under this Agreement that arose prior to the date of such assignment. This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties.

14.2 Effect of Bankruptcy. The Parties intend that, in the event of a Bankruptcy, payments required under this Agreement shall be deemed to be administrative expenses as defined in 11 U.S.C. §503.

14.3 Access. The Non-Operator Owner and Lenders and their agents and representatives shall have access to the Facility, all Facility operations and any documents, materials and records and accounts relating to the Facility operations for purposes of inspection and review. Upon the request of the Non-Operator Owner and its agents and representatives, Operator shall provide such Persons with access to all data and logs Operator maintains regarding the Facility. During any inspection or review of the Facility, the Non-Operator Owner and Lenders and their agents and representatives shall comply with all of Operator's safety and security procedures, and shall conduct inspections and reviews in such a manner as to cause minimum interference with Operator's activities. Operator also shall cooperate with the Non-Operator Owner in allowing its agents and representatives access to the Facility.

14.4 Subcontractors; Subagents.

14.4.1 Operator shall have the right to hire third-party subcontractors or to acquire rights from third parties to provide all or part of any Services hereunder without the prior consent of the Operating Committee. The cost of such third-party Services or acquisition of such rights shall be Operating Costs in accordance with Section 7.2.1. Operator, for the benefit of the Owners, shall use commercially reasonable efforts to obtain from all subcontractors and suppliers, including any subcontractors and suppliers who are Affiliates of Operator, customary guarantees and warranties to the extent available with respect to the equipment, goods, services or other work provided or performed by such subcontractor and supplier. Notwithstanding the foregoing or anything to the contrary, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned or delayed, procure or enter into any agreement with any third-party subcontractor with respect to the Services with a cost included in the Operating Costs in excess of $500,000 in any Year. Each agreement with a third-party subcontractor shall reflect costs that are on an arm's-length basis

and no greater in any material respect than Operator could reasonably provide on Operator's own (or through its Affiliates) without material hardship.

14.4.2 Operator may delegate any obligations hereunder to one or more Affiliates, or designate one or more Affiliates as subagents for the performance of its obligations, and, to the extent such Affiliate performs or acts as subagent with respect to any obligation of Operator hereunder, such Affiliate shall enjoy the rights and benefits of Operator pursuant to this Agreement (including, for the avoidance of doubt, Article X and Article XI hereof). Notwithstanding the foregoing, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned, or delayed, procure or enter into any agreement with any of its Affiliates (other than for Facility Personnel to perform the Services) (i) with a committed value in excess of $500,000 or (ii) that may not be cancelled by or at the request of Non-Operator Owner upon no more than ninety (90) days' notice without penalty. Each agreement with an Affiliate of Operator, other than for Facility Personnel to perform the Services, shall reflect costs that are no greater in any material respect than Operator could obtain on an arm's-length basis with a bona fide third party at such time. Notwithstanding anything to the contrary in this Agreement, Operator shall be permitted to delegate any of its rights, duties and obligations under this Agreement and the Ownership Agreement to AEPSC without the consent of Non-Operator Owner, subject to Section 14.4.3.

14.4.3 If one or more Affiliates perform Services as subagents or subcontractors hereunder, Service Provider shall remain liable for such Affiliate's obligations hereunder and for any breach by such Affiliate of the terms of this Agreement (to the same extent as if such breach was committed by Service Provider).

14.5 Not for Benefit of Third Parties. Except where a contrary intention is expressly stated, this Agreement and each provision hereof are for the exclusive benefit of the Parties that executed this Agreement and not for the benefit of any third party.

14.6 Force Majeure.

14.6.1 Events Constituting Force Majeure. A "Force Majeure Event" is any event that (i) restricts or prevents performance under this Agreement, (ii) is not within the reasonable control of the Party affected or caused by the fault or negligence of the affected Party and (iii) cannot be overcome or avoided by the exercise of due care. Force Majeure Events include the following, so long as in each case the requirements of the foregoing clauses (i), (ii) and (iii) are satisfied, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, tornado or other unusually severe storm or environmental conditions, epidemic, war (whether declared or undeclared), terrorism (whether domestic or foreign, state-sponsored or otherwise), revolution, insurrection, riot, civil disturbances, protests, sabotage (but not including any sabotage involving personnel of Operator), work stoppages (i.e., strikes) (but not including any work stoppages or strikes involving any personnel of Operator, whether on-site or off-site), accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Facility, other acts or omissions of any Governmental Authority, including any form of compulsory government acquisition or condemnation of all or part of the Facility (including a "taking"), restraint by court order, changes in Applicable Law that affect

performance under this Agreement, other acts of Governmental Authorities including in response to any of the foregoing. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default in respect to any obligation if and to the extent that performance of such obligation is prevented by a Force Majeure Event. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations.

14.6.2 Notice. If a Party's ability to perform its obligations under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event, its cause, its anticipated duration and any action being taken to avoid or minimize its effect and confirm the same in writing within three (3) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) work diligently to remove the cause of the Force Majeure Event or to lessen its effect.

14.6.3 Scope. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than necessary. The excused Party shall use its reasonable best efforts to remedy its inability to perform.

14.7 Dispute Resolution. Any and all disputes shall be resolved pursuant to the dispute resolution procedures set forth in the Ownership Agreement.

14.8 Amendments. No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Parties.

14.9 Survival. Notwithstanding any provisions to the contrary, the obligations set forth in Article VII and Article VIII, Article X, Article XI and Article XII, Article XIV the limitations on liabilities set forth in Article XI will survive, in full force, the expiration or termination of this Agreement.

14.10 No Waiver. No delay, waiver or omission by the Non-Operator Owner or Operator to exercise any right or power arising from any breach or default by the Non-Operator Owner or Operator with respect to any of the terms, provisions or covenants of this Agreement shall be construed to be a waiver by the Non-Operator Owner or Operator of any subsequent breach or default of the same or other terms, provisions or covenants on the part of the Non-Operator Owner or Operator.

14.11 Notices. Any written notice required or permitted under this Agreement shall be deemed to have been duly given on the date of receipt, and shall be either delivered personally to the Party to whom notice is given, or mailed to the Party to whom notice is to be given, by facsimile, courier service or first-class registered or certified mail, return receipt requested, postage prepaid, and addressed to the addressee at the address indicated below, or at the most recent address specified by written notice given in the manner provided in this Section 14.11:

If to Operator:

14.12 Representations and Warranties. Each Party represents and warrants to the other Party that, as of the date hereof:

14.12.1 Existence. It is duly organized and validly existing under the laws of the state of its organization and has all requisite power and authority to own its property and assets and conduct its business as presently conducted or proposed to be conducted under this Agreement.

14.12.2 Authority. It has the power and authority to execute and deliver this Agreement, to consummate the transactions contemplated hereby and to perform its obligations hereunder.

14.12.3 Validity. It has taken all necessary action to authorize its execution, delivery and performance of this Agreement, and this Agreement constitutes the valid, legal and binding obligation of such Party enforceable against it in accordance with its terms, except as such enforcement may be limited by Bankruptcy, insolvency, moratorium or similar laws affecting the rights of creditors or by general equitable principles (whether considered in a proceeding in equity or at law).

14.12.4 No Conflict. Neither the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, nor the fulfillment of the terms and conditions hereof, conflicts with or violates any provision of its constituting documents.

14.12.5 No Consent. No consent or approval (including any Permit that such warranting Party is required to obtain) is required from any third party (including any Governmental Authority) for either the valid execution and delivery of this Agreement, or the performance by such Party of its obligations under this Agreement, except such as have been duly obtained or will be obtained in the ordinary course of business.

14.12.6 No Breach. None of the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, or the fulfillment of the terms and conditions hereof either conflicts with, violates or results in a breach in any material respect of, any Applicable Law currently in effect, or conflicts with, violates or results in a breach of, or constitutes a default under or results in the imposition or creation of, any lien or Encumbrance under any material agreement or instrument to which it is a party or by which it or any of its properties or assets are bound.

14.12.7 No Material Claims. It is not a party to any legal, administrative, arbitral or other proceeding, investigation or controversy pending or threatened that would adversely affect such Party's ability to perform its obligations under this Agreement.

14.13 Additional Representation and Warranty by Operator. Operator further represents and warrants to the Non-Operator Owner that it has, or has obtained through the retention of a qualified operations and maintenance service provider, substantial expertise and experience in the operation and maintenance of comparable power generation facilities and it, or its applicable subcontractor, is fully qualified to provide such services at the Facility in accordance with the terms of this Agreement.

14.14 Counterparts. The Parties may execute this Agreement in counterparts that, when signed by each of the Parties, constitute one and the same instrument. Thereafter, each counterpart shall be deemed an original instrument as against any Party who has signed it. Delivery of an executed counterpart of this Agreement by facsimile or electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

14.15 Governing Law; Venue; Waiver of Jury Trial. The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of New York, exclusive of the conflicts of law provisions thereof that would require the application of the laws of a different jurisdiction. Each Party hereby agrees that any Action arising out of or relating to this Agreement brought by a Party(or any of their respective successors or assigns) shall be brought and determined in any state or federal court sitting in the State of New York, within the Borough of Manhattan, City of New York, and the Parties hereby irrevocably submit to the exclusive jurisdiction of the aforesaid courts for themselves and with respect to their property, generally and unconditionally, with regard to any such Action arising out of or relating to this Agreement and the transactions contemplated hereby, and the appellate courts from any thereof in connection with any action arising out of or relating to this Agreement or any other agreement related to the Facility or any Facility asset and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or that such action was brought in an inconvenient court. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

14.16 Interpretation. Titles or captions contained in this Agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, describe or otherwise affect the scope or meaning of this Agreement or the intent of any provision hereof. All exhibits and appendices attached hereto are considered a part hereof as though fully set forth herein. This Agreement was jointly drafted and negotiated by the Parties. In the event of a dispute, this Agreement shall not be construed against either Party based upon its drafting.

14.17 Severability. If any provision of this Agreement, or the application of any such provision to any Person or circumstance, is held invalid by any court or other forum of competent jurisdiction, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those as to which it is held invalid, shall nevertheless remain

in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner materially adverse to a Party. Upon any such determination of invalidity, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that this Agreement is consummated as originally contemplated to the greatest extent possible.

14.18 Cooperation in Financing. Operator shall execute and deliver any customary and reasonable agreement and consent to assignment, together with an opinion of counsel at Non-Operator Owner's expense, as may be reasonably requested by Non-Operator Owner in connection with any financing of the Facility. Operator shall promptly respond to reasonable requests, including requests for management presentations, by Non-Operator Owner and any of its Lenders or their representatives, in each case at Non-Operator Owner's sole cost and expense, for information regarding the Operator and its performance of its duties hereunder and the operation, maintenance and administration of the Facility. Operator agrees to use commercially reasonable efforts to cooperate with any of Non-Operator Owner's Lenders and their representatives and to provide such Lenders and representatives with reasonable access to and tours of the Facility (including review of documents, materials, records and accounts), in each case at Non-Operator Owner's sole cost and expense.

APPENDIX A – SCOPE OF SERVICES

Routine Services	Provide operational services as reasonably necessary for electrical power generation.
Detailed Programs	Implement Operator human resources program. Implement Operator-drafted, Owner-approved programs in safety, administration, maintenance, and training. Implement Facility's existing programs in operating, maintenance, chemistry, NERC and environmental compliance (or, at the Operating Committee's request, develop or enhance such programs at actual cost and implement). Ensure compliance with NERC requirements, Environmental Law, Applicable Law, and all Permits.
Routine Maintenance	Perform routine and preventive maintenance actions on all Facility systems and equipment in accordance with vendor instructions and the maintenance plan for the Facility. This program includes: **Service Checks** – Conduct visual equipment inspections and log significant parameters such as pressures, temperatures, and flow rates. Trend and analyze this information as appropriate. **Routine and Fixed Interval Maintenance** –Identify preventive maintenance requirements. Schedule and assign routine maintenance during Facility operation, planned outages, and forced or unscheduled outages.
Predictive Maintenance Program	As appropriate, conduct/oversee predictive maintenance within the cost-effective capability of the Facility Personnel. For those maintenance requirements that are not cost-effective for the Facility Personnel, oversee predictive maintenance services provided by vendors.
Major Maintenance and Repairs	In coordination with and support of the Facility Agreements and generation plan, arrange for scheduled inspections and overhauls on major equipment. Retain vendors for the benefit of the Owners for unscheduled major repairs as required and manage and oversee repairs and modifications.
Capital Improvements	Conduct/oversee all capital improvements. As appropriate, retain vendors for the benefit of the Owners to design, construct and implement capital improvements.
Facility Outages	Use commercially reasonable efforts to manage all Facility outages (planned, unscheduled, forced) to optimize outage duration and impact on production: **Task Assignment** – Identify and schedule all maintenance that requires a Facility outage or equipment to be taken out of service.

	Work Schedule – Develop and implement a schedule to track material outage preparations, work and testing, including corrective maintenance actions, contractor work and scheduled preventive maintenance. Conduct preparations to support this plan, including ordering and receiving required spare parts.
Assistance to the Non-Operator Owner and Operating Committee	Provide assistance to the Non-Operator Owner and the Operating Committee, as reasonably requested with the execution of the Non-Operator Owner's and the Operating committee's duties relative to operation of the Facility.
Facility Administration	Conduct administration to meet Operator requirements and Owners' goals, including: **Budgets** – Prepare annual Budgets and submit them for Operating Committee approval in accordance with the Ownership Agreement and this Agreement. Following approval, manage operations and expenditures to comply with each Budget. Generate budget variance reports, as required. **Procurement** – Establish and implement a purchasing system. Procure, for the benefit of the Owners, including negotiations and contracting, for all materials, equipment, chemicals, supplies, services, parts, and other miscellaneous items required for the provision of the Services. Pay all invoices in a timely manner. Provide credit support as required by third parties for the operation of the Facility, including contract counterparties and Governmental Authorities. Minimize Owner costs as much as feasible. **Inventory Control** – Implement a cost-effective inventory control system designed to ensure that spare parts, materials, and supplies are properly stored and accounted for and that adequate supplies are available at all times to support the provision of the Services. **Personnel Matters** – In compliance with Operator programs and policies, manage all payroll and employee relations, labor relations, and independent contractor issues, as required. These tasks include: employment; compensation and benefits; initial training; and employee and independent contractor relations. Provide reasonable support to recruit, hire, transfer, or otherwise acquire and retain qualified Facility Personnel to maintain the staffing levels and skill mix required for successful long-term provision of the Services. **Community Relations** – In coordination with and with the approval of the Operating Committee, conduct a community relations program to establish the Facility and its employees as "good citizens" in the local community.

	Regulatory – Perform all duties set forth in Section 7.8 of the Ownership Agreement with respect to Emission Allowances (as defined therein).
Work Assignment	Assign work to either Facility Personnel or vendors as cost-effective and appropriate based on overall guidance from the Operating Committee. Normally, Facility Personnel conduct preventive maintenance and actions requiring a high degree of Facility knowledge and vendors perform tasks needing equipment or expertise that are not cost-effective to maintain at the Facility. Vendors also perform tasks that make sense to minimize outage time and costs.
Buildings and Grounds	Arrange for janitorial, garbage pickup and landscape services and maintain all access roads, office buildings, and other structures in reasonable repair.
Reports	Prepare and submit operation and maintenance service reports as requested relative to performance, including environmental compliance records, maintenance and repair status, Facility operating data, and any other information reasonably requested by the Operating Committee or the Non-Operator Owner.
Security	Implement or arrange for implementation of security measures in accordance with the Operating Committee-approved Facility security plan.
Safety	Continue to implement Corporate and Plant Level Safety Programs including on-site visits and discussions at the facility.
PJM Capacity Analysis	Analysis and plant level information to PJM as part of PJM's FRR or RPM Capacity Market requirements
Information Systems	Manage the Facility's information technology infrastructure, including phone systems, internet connectivity, hardware and software. Implement or arrange for implementation of cybersecurity policies and procedures in compliance with NERC requirements and Applicable Law, in accordance with the Operating Committee-approved Facility cybersecurity plan.
Training Program	Implement a continuing program of training designed to orient new Facility Personnel, refresh/cross-train existing Facility Personnel, qualify/re-qualify Facility Personnel, and keep all Facility Personnel aware of Operating Committee -approved Facility safety requirements and emergency procedures. This program includes specialty skills training.
Drawing/Manual Maintenance	Maintain the Facility library and update the Manuals and vendor service manuals. Update (or arrange for updating) Facility drawings to reflect changes to the as-built configuration. In addition to

	document management, maintain physical Facility configuration control.
Fuel Purchasing and Handling	• Procure coal, reagents, fuel oil supply or transportation service agreements as needed to operate the Facility and establish and maintain reserves of coal in common stock piles of such quality and in such quantities as the Operating Committee shall determine • Contract administration for Fuel supply contracts along with legal review. • Third Party Settlements of fuel related supply and inventory tracking in ComTrac system • Joint Books Accounting to prepare information for billing among co-owners per agreement • Analysis of fuel related costs for data requests from regulatory bodies or joint owner • Provide fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by the Facility during each month. • Receive coal and provide fuel handling • Fuel coordinator functions to review fuel quality with third party suppliers at coal or limestone facilities. • Administer and reconcile volumes of all fuel with suppliers • Administer and comply with the requirements set forth in the Facility's fuel agreements, including quality testing and invoice review and approval • Administer and comply with the requirements set forth in the Facility's coal ash, gypsum and combustion byproduct disposal and sales agreements, including invoice review and approval
Day Ahead and Real Time Market Operations	• Unit Generation Dispatch – Monitor signals and take direction from PJM for generating units. Relay these directions, commitments and settings to the Unit Operators and Controls. Relay information on real time unit conditions to Transmission Owner (TO) and PJM. • GADS Reporting – Create GADS events as they are scheduled

	or occur. Submit monthly event reporting as required by NERC and PJM. • Outage Support and Communications to PJM – Relay outage/curtailment information from plant personnel to PJM. Schedule maintenance and planned outages/curtailments, and maintain updates as they arise. • Unit Characteristic Updates to PJM – Provide any relevant configuration updates related to generating units to PJM that may occur. • Telemetry – Maintain current real time telemetry to/from the plant, PJM and Market Operations control center.
Administration of Contracts	• Administer, perform and enforce all contractual obligations and arrangements, including all warranties applicable thereto, entered into by Operator for the benefit of the Owners with respect to the Facility • Act as agent on behalf of the Non-Operating Owner with respect to the administration, performance and enforcement of any contracts or purchase orders (including fuel supply or transportation contracts) with respect to the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date
Insurance	• Procure on behalf of each Owner such property and other insurance policies as required by the insurance program established by the Operating Committee in accordance with the Ownership Agreement.
Decommissioning	• Manage and contract with vendors and other parties to perform Decommissioning Work. This includes the management of required regulatory filings, permitting, engineering assessments, and the contracting for demolition and or liability transfers. Upon mutual agreement between Operator and the Operating Committee, Operator may conduct all or a portion of the Facility and/or Site Decommissioning from its and its Affiliates resources.

MITCHELL PLANT OPERATIONS AND MAINTENANCE AGREEMENT

This OPERATIONS AND MAINTENANCE AGREEMENT (this "Agreement"), dated as of [_____] (the "Effective Date"), is entered by and between WHEELING POWER COMPANY, a West Virginia corporation (in its capacity as the operator of the Facility, "Operator" and in its capacity as an owner of the Facility, "WPCo") and KENTUCKY POWER COMPANY, a Kentucky corporation qualified as a foreign corporation in West Virginia (in its capacity as an owner of the Facility, the "Non-Operator Owner" and, together with WPCo, each an "Owner" and, together, the "Owners").

RECITALS

1. Owners each own an undivided Ownership Interest in the Facility (these and other capitalized terms are defined in Article II).

2. On the date hereof, WPCo and the Non-Operator Owner have entered into that certain Mitchell Plant Ownership Agreement, setting forth the respective rights, duties and obligations of the Owners with respect to each other and the Facility in their capacities as the Owners thereof (the "Ownership Agreement").

3. Pursuant to the Ownership Agreement, WPCo has agreed to manage the day-to-day operations and maintenance of the Facility as Operator pursuant to the terms of this Agreement.

4. Operator and the Non-Operator Owner desire to execute this Agreement to set forth the respective rights, duties and obligations of WPCo, in its capacity as Operator of the Facility, and the Non-Operator Owner, in its capacity as an Owner of an undivided interest as a co-tenant in the Facility.

NOW, THEREFORE, in consideration of the foregoing premises, and of the mutual covenants, undertakings and conditions set forth below, the Parties agree as follows:

ARTICLE I - AGREEMENT

1.1 Agreement. This Agreement consists of the recitals, and the terms and conditions set forth in this Agreement, as well as the appendices that are referenced in the table of contents and attached to this Agreement.

1.2 Relationship of the Parties. Operator shall perform the Services in its capacity as an independent contractor of the Owners and as principal on its own behalf as an Owner. Subject to any limitations set forth in this Agreement and the Ownership Agreement, the Owners delegate to Operator, and Operator accepts from the Owners, the responsibility of providing the Services at the Facility. The Owners and Operator agree that the scope of delegation is strictly limited to the matters set forth in this Agreement and the Ownership Agreement. Without limiting the generality of the foregoing, the Owners retain the ultimate authority and obligation to determine whether and to what extent the Facility operates, and Operator shall not cause the Facility to generate power except as expressly directed to do so by the Owners or any dispatching authority specified by the Owners in accordance with the Ownership Agreement. For the

avoidance of doubt, any provision of this Agreement requiring the delegation of authority, direction, consent or authorization with respect to the Owners shall mean the delegation, direction, consent or authorization of both Owners (or the Operating Committee) in accordance with the Ownership Agreement (except to the extent the Ownership Agreement gives exclusive authority to the Non-Operator Owner thereunder, in which case such delegation of authority, direction, consent or authorization with respect to the Owners shall mean exclusively the delegation, direction, consent or authorization of the Non-Operator Owner).

1.3 Entire Agreement. This Agreement, together with the Ownership Agreement, contains the entire agreement between the Parties with respect to Operator's provision of Services at the Facility and supersedes all prior negotiations, undertakings and agreements.

ARTICLE II - DEFINITIONS

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears, capitalized terms have the meanings specified in this Article II. The singular includes the plural, as the context requires. The terms "includes" and "including" mean "including, but not limited to." The terms "ensure" and "reasonable efforts" will not be construed as a guarantee, but will imply only a duty to use reasonable efforts and care, consistent with Prudent Operation and Maintenance Practices, and will include reasonable expenditures of money and at least such efforts as Operator would undertake for its own assets, services or maintenance, or for services provided to an Affiliate. "Gross negligence" will not be construed as simple or ordinary negligence, it being the intent of the Parties to preserve a distinction between errors made inadvertently while attempting to perform with due care and actions taken with a knowing disregard for a foreseeable risk. "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day. "Month" (regardless of capitalization) shall mean a calendar month. References to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement, except where expressly stated otherwise.

"AEP" shall mean American Electric Power Company, Inc., a New York corporation and an Affiliate of WPCo.

"AEPSC" shall mean American Electric Power Service Corporation, a New York corporation and an Affiliate of WPCo.

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, controls, is controlled by, or is under common control with such Person. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise. The Non-Operator Owner shall not be deemed an Affiliate of the Operator.

"Agreement" has the meaning set forth in the preamble to this Agreement.

"Applicable Law" means all laws (including common law), statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, Governmental

Approvals, Permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over an Owner, any other Person or entity (as to that Person or entity), this Agreement, any Facility asset or the Facility, as applicable.

"Bankruptcy" means a situation in which (i) a Person files a voluntary petition in bankruptcy or is adjudicated as bankrupt or insolvent, or files any petition or answer or consent seeking any reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable United States federal, state or other statute or law relative to bankruptcy, insolvency or other relief for debtors, or seeks or consents to or acquiesces in the appointment of any trustee, receiver, conservator or liquidator of such Person or of all or any substantial part of its properties (the term "acquiesce," as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within fifteen (15) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction enters an order, judgment or decree approving a petition filed against any Person seeking a reorganization, arrangement, moratorium, composition, readjustment, liquidation, dissolution or similar relief under the present or any future United States federal bankruptcy act, or any other present or future Applicable Law relating to bankruptcy, insolvency or other relief for debtors, and such Person acquiesces and such decree remains unvacated and unstayed for an aggregate of sixty (60) days (whether or not consecutive) from the date of entry thereof, or a trustee, receiver, conservator or liquidator of such Person is appointed with the consent or acquiescence of such Person and such appointment remains unvacated and unstayed for an aggregate of sixty (60) days, whether or not consecutive; (iii) a Person admits in writing its inability to pay its debts as they mature; (iv) a Person gives notice, to any Governmental Authority of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) a Person makes a general assignment for the benefit of creditors or takes any other similar action for the protection or benefit of creditors (other than in the ordinary course of such party's business).

"Budget" means an annual operating budget and annual capital budget adopted or amended pursuant to the Ownership Agreement.

"Business Day" means any day other than (i) a Saturday or Sunday or (ii) a day on which banks in West Virginia or Ohio are required or permitted to be closed.

"Claims" means any and all claims, assertions, demands, suits, investigations, inquiries, and proceedings.

"Confidential Information" means, with respect to each Party, all written or oral information of a proprietary, intellectual or similar nature, relating to the business, projects, operations, activities or affairs of a Party and its Affiliates, whether of a technical or financial nature or otherwise (including environmental assessment reports, financial information, business plans and proposals, ideas, concepts, trade secrets, know-how, processes, pricing of services or products, and other technical or business information, whether concerning this Agreement, each Party's respective businesses or otherwise) that has not been publicly disclosed and that the receiving Party acquires directly or indirectly from the disclosing Party.

"Cost Allocation Manual" means the Cost Allocation Manual of Operator and its Affiliates, as may be amended from time to time, as filed with FERC and, to the extent required, the WVPSC.

"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the generating units and other property, plant, and equipment comprising the Facility, including any common facilities associated with each generating unit that are to be permanently removed from service, the restoration of the Site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.

"Decommissioning Work" shall mean all work reasonably necessary or undertaken to Decommission the Facility, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Facility in accordance with Applicable Law.

"Dollars" means United States Dollars, the lawful currency of the United States of America.

"Due Date" means, with respect to any Operator invoice, the date that is thirty (30) days following the date on which Operator submits the invoice to the Non-Operator Owner in accordance with Article VII. If such date does not fall on a Business Day, then the Due Date shall be the first Business Day after such date.

"Effective Date" means the date set forth in the preamble to this Agreement.

"Emergency" has the meaning set forth in Section 3.8.

"Encumbrance" means (i) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (ii) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary Claim; and (iii) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Environmental Law" means any Applicable Law pertaining to (i) the regulation or protection of employee health or safety, public health or safety, or the indoor or outdoor environment; (ii) the conservation, management, development, control or use of land, natural resources, or wildlife; (iii) the protection or use of surface water or ground water; (iv) the management, manufacture, possession, presence, use, generation, treatment, storage, disposal, transportation, or handling of, or exposure to any Hazardous Material; or (v) pollution (including release of any hazardous substance to air, land, surface water and ground water), including the Comprehensive Environmental Response, Compensation, and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. §§ 9601 et seq.), the Hazardous Materials Transportation Act (49 U.S.C. §§ 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. §§ 6901 et seq.), the Toxic Substances Control Act

(15 U.S.C. §§ 2601 et seq.), the Clean Water Act (33 U.S.C. §§ 7401 et seq.), the Clean Air Act, as amended (42 U.S.C. §§ 7401 et seq.), the Safe Drinking Water Act (42 U.S.C. §§ 300f et seq.), the Uranium Mill Tailings Radiation Control Act (42 U.S.C. §§ 7901 et seq.), the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §§ 136 et seq.), all as now or hereafter amended or supplemented, and any regulations promulgated thereunder, and any other similar federal, state, or local statutes, rules and regulations.

"Environmental Liability" has the meaning set forth in Section 10.3.1.

"Facility" means the Mitchell Power Generation Facility consisting of two (2) coal-fired generating units, each having a nominal nameplate capacity of 800 megawatts, and associated plant, equipment and real estate, located in Moundsville, West Virginia, and includes all electrical or thermal devices, and related structures and connections that are located at the Site and used for the production of power and the transportation and handling of fuel for the benefit of the Owners, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam.

"Facility Agreements" means this Agreement, the Ownership Agreement, all applicable interconnection agreements, fuel supply agreements, coal ash, gypsum and other combustion byproduct disposal or sales agreements, all applicable equipment maintenance agreements in effect or entered into, and as amended, supplemented or modified, from time to time by the Operator or the Owners relating to the Facility, all equipment contracts with regard to warranties and equipment design and specifications, and any other agreement reasonably designated by the Owners as a "Facility Agreement."

"Facility Equipment" has the meaning set forth in Section 13.1.

"Facility Personnel" means those individuals who are employed by Operator or its Affiliates to perform services in respect of the Facility under this Agreement.

"Force Majeure Event" has the meaning set forth in Section 14.6.1.

"Governmental Approval" means any consent, license, approval, exemption, Permit, "no objection certificate" or other authorization of whatever nature that is required to be granted by any Governmental Authority or any third party with respect to the siting, construction, operation, service and maintenance of the Facility in accordance with this Agreement, or otherwise necessary to enable an Owner or Operator to exercise its rights, or observe or perform its obligations, under this Agreement.

"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision, department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.

"Hazardous Materials" means (a) any petroleum or petroleum products, radioactive materials, asbestos in any form that is or could become friable, urea formaldehyde foam insulation, 1.4 Dioxane, per-and polyfluoroalkyl substances, and transformers or other equipment

that contain dielectric fluid containing polychlorinated biphenyls; (b) any chemicals, materials or substances that are now or hereafter become defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollution," "pollutants," "regulated substances," or words of similar import under Applicable Law; or (c) any other chemical, material, substance or waste declared to be or regulated as hazardous, toxic or polluting material by any Governmental Authority, exposure to which is now or hereafter prohibited, limited or regulated by any Governmental Authority.

"Late Payment Rate" means a rate of interest per annum equal to the lesser of (i) the "prime" rate of interest per annum for corporate loans as published in The Wall Street Journal under "Money Rates" as such rate may be in effect from time to time during the period the delinquent amount remains outstanding plus four (4) percentage points (4%) per annum or (ii) the maximum rate of interest permitted by Applicable Law.

"Lender" means any entity or entities providing financing or refinancing to an Owner under any financing agreements in connection with the construction or permanent financing for the Facility, and their permitted successors and assigns.

"Liabilities" means, collectively, any and all Claims, damages, judgments, losses, obligations, liabilities, actions and causes of action, fees (including reasonable attorneys' fees and disbursements), costs (including court costs), expenses, penalties, fines and sanctions.

"Manuals" means Facility Equipment manuals, system descriptions, system operating instructions, equipment maintenance instructions and pertinent design documentation created by the Persons that constructed the Facility or manufactured its equipment, and the operation and maintenance procedures and Facility systems descriptions, training, safety, chemistry and environmental manuals, together with the documents and schedules described in such manuals.

"NERC" means the North American Electric Reliability Corporation.

"Non-Operator Owner" has the meaning set forth in the preamble to this Agreement.

"Non-Operator Owner Indemnitees" has the meaning set forth in Section 10.1.

"Operating Committee" means the "Operating Committee" as composed from time to time pursuant to and defined in the Ownership Agreement.

"Operating Costs" has the meaning set forth in Section 7.2.1.

"Operator" has the meaning set forth in the preamble to this Agreement.

"Operator Indemnitees" has the meaning set forth in Section 10.2.

"Operator Proprietary Information" has the meaning set forth in Section 13.3.

"Owner" has the meaning set forth in the preamble to this Agreement.

"Ownership Agreement" has the meaning set forth in the recitals to this Agreement.

"Ownership Interest" has the meaning set forth in the Ownership Agreement.

"Party" means a party to this Agreement and "Parties" means, collectively, the parties to this Agreement, unless the context clearly requires a different construction.

"Permit" means any permit, license, consent, approval or certificate that is required or used for the operation or maintenance of the Facility or the performance of any Service and includes Permits required under Environmental Laws.

"Person" means any Party, individual, partnership, corporation, association, limited liability company, business trust, government or political subdivision thereof, governmental agency or other entity.

"Plan" means an annual operating plan adopted or amended pursuant to Section 5.3.

"Plant Manager" means the production/plant manager for the Facility selected in accordance with Section 3.6, Section 8.5 or Section 8.6.

"Project Manager" means the individual appointed in accordance with Section 5.1.

"Prudent Operation and Maintenance Practices" means those practices, methods and acts generally employed in the power generation industry with respect to facilities of similar type, fuel characteristics and geographical location as the Facility, that at the particular time in question, in the exercise of reasonable judgment in light of the facts known at the time the decision in question was being made, would have been expected to accomplish the desired result of such decision consistent with the goals established in a Budget and Plan, and the requirements of Applicable Law, System Operators, equipment manufacturer's recommendations, reliability, safety, environmental protection, economy and expedition. With respect to Operator, Prudent Operation and Maintenance Practices are not limited to the optimum practices, methods or acts to the exclusion of all others, but rather include a spectrum of possible practices, methods or acts commonly employed in the coal-fired power generation industry, including taking reasonable actions to provide a sufficient number of Persons who are available and adequately trained to provide Services at the Facility, and timely perform preventive, routine, and non-routine maintenance and repairs, as exemplified and generally described in Appendix A, subject, in all cases, to the Operator's duties and the limitations on Operator's authority, as set forth in this Agreement and the Ownership Agreement.

"Qualified Replacement Operator" shall mean a Person that:

(i) has operated for a period of at least three (3) years, and continues to operate, coal and/or natural gas power generation facilities with an aggregate electricity output of at least one thousand (1,000) megawatts and at least one of those facilities is a coal power generation facility with an aggregate electricity output of at least three hundred (300) megawatts (or has engaged a third party to operate the Facility who satisfies such operation standards); and

(ii) either has (a) a credit rating of "BBB-" or higher by S&P Global Ratings and "Baa3" or higher by Moody's Investor Service or (b) a tangible net worth of at least $500,000,000 (or has a direct or indirect parent who satisfies such financial standards).

"Services" has the meaning set forth in Section 3.1.

"Site" means the land on which the Facility is situated.

"Standards of Performance" means the standards for Operator's performance of the Services set forth in Section 3.3.

"System Operator" means any Person or regional transmission organization, such as PJM Interconnection, L.L.C., supervising the collective transmission or generation facilities of the power region in which the Facility is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

"Term" means the initial term together with any extensions.

"Termination Transition Period" has the meaning set forth in Section 8.5.1.

"WPCo" has the meaning set forth in the preamble to this Agreement.

"Year" means the calendar year. With respect to the Year in which the Effective Date occurs, a Year will be deemed to begin on the Effective Date and end on December 31st of such Year. If this Agreement terminates, the final Year will be deemed to end on the date that termination occurs.

ARTICLE III - RESPONSIBILITIES OF OPERATOR

3.1 Provision of Services. Operator shall operate and maintain the Facility and perform other duties as set forth in this Agreement and as directed by the Owners pursuant to the Ownership Agreement, including performing and, as applicable, contracting for the benefit of the Owners with suppliers and service providers to perform, the services set forth on Appendix A (collectively, the "Services") and agrees to be responsible for the day-to-day operation and maintenance of the Facility.

3.2 Procurement.

3.2.1 Operator shall sign contracts and purchase orders for goods and services to be delivered to the Facility in the name of Operator as agent for the Owners, and shall not contract in the name of the Non-Operator Owner without the Non-Operator Owner's prior written consent. Operator acknowledges that such contracts and purchase orders are for the benefit of the Owners and the Facility. Operator shall endeavor to negotiate with vendors from standard terms and conditions, including reasonable warranties for the benefit of the Owners.

3.2.2 The Non-Operator Owner shall use commercially reasonable efforts to obtain, promptly following the Effective Date, any and all consents of third parties required to assign, transfer or convey to Operator any contracts or purchase orders for goods and services

(including fuel supply and transportation) to be delivered to or used by the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date, which are reasonably required to be transferred to Operator for the performance of the Services. To the extent that, notwithstanding its commercially reasonable efforts, the Non-Operator Owner is unable to obtain any such required consent effective as of the Effective Date, and as a result thereof Operator shall be prevented by such third party from receiving the rights and benefits with respect to any such contract or purchase order intended to be transferred hereunder, or if any attempted assignment would adversely affect the rights of the Non-Operator Owner thereunder so that Operator would not in fact receive all such rights or the Non-Operator Owner would forfeit or otherwise lose the benefit of rights that the Non-Operator Owner is entitled to retain, the Non-Operator Owner and Operator shall cooperate to implement any lawful and commercially reasonable arrangement as the Non-Operator Owner and Operator shall agree, under which Operator would, to the extent practicable, obtain the claims, rights and benefits under such contract or purchase order and assume the burdens and obligations with respect thereto, including by the Non-Operator Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such contracts or purchase orders; provided, however, that the Non-Operator Owner and WPCo shall each bear its respective share of the costs and expenses under any such contract or purchase order in accordance with this Agreement and the Ownership Agreement. The Non-Operator Owner and Operator shall continue to cooperate to assign, transfer or convey to Operator any such contract or purchase order that remain held by the Non-Operator Owner and to otherwise arrange for Operator to directly contract with the applicable third party for any renewal contract or purchase upon the expiration or termination of any such contract or purchase order.

3.3 Standards for Performance of the Services. Operator shall perform the Services in accordance with (i) the Manuals, (ii) the applicable Budget and Plan, (iii) Applicable Laws, (iv) Prudent Operation and Maintenance Practices, (v) insurer requirements delivered to Operator by the Owners in writing, (vi) the requirements in the Facility Agreements (vii) this Agreement; and (viii) as directed by the Owners pursuant to the Ownership Agreement. Subject to the other provisions of this Agreement, Operator shall perform the Services and other obligations under this Agreement in a manner consistent with the Operating Committee's directions. The Parties acknowledge and agree that, subject to Operator's compliance with the Standards of Performance, Operator shall have no liability for acting or refraining to act in accordance with the directions of the Operating Committee, except to the extent caused by Operator's gross negligence, willful misconduct, fraud, willful violation of any Applicable Law, willful breach of this Agreement or the Ownership Agreement or other willful misconduct.

3.4 Dispatch. Operator shall use commercially reasonable efforts to comply with any applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement. Operator shall give the Operating Committee notice as soon as practicable of any inability of the Facility to make the requisite deliveries of energy, capacity or ancillary services and of Operator's plan to restore operation of the Facility. In the case of any interruption, curtailment or reduction in (i) supplies of fuel or (ii) acceptance of energy, capacity or ancillary services by the System Operator or in the case of any other dispatch constraint

imposed on the Facility, Operator shall notify the Non-Operator Owner as soon as practicable. Upon removal of the constraint, Operator shall use its commercially reasonable efforts to restore the availability of the Facility for dispatch consistent with applicable dispatch instructions of the System Operator and, to the extent applicable, the directions of the Operating Committee or other Person identified by an Owner in writing to Operator as being authorized to provide dispatch instructions made in accordance with the Ownership Agreement.

3.5 Licenses and Permits.

3.5.1 General. Operator shall review all Applicable Laws containing or establishing compliance requirements in connection with the operation and maintenance and Decommissioning of the Facility and shall use commercially reasonable efforts to obtain and maintain, for the benefit of both Owners, all Permits required by Applicable Law for the ownership, operation, maintenance and Decommissioning of the Facility and for Operator's performance of the Services, and shall (i) from time to time, notify the Operating Committee if Operator believes that a Permit is required by Applicable Law to be obtained by an Owner in its name in order to allow Operator to perform the Services and assist each Owner, at each Owner's written request and such Owner's sole cost and expense, in securing and complying with, as appropriate, all necessary Permits (and renewals of the same) which are required to be in an Owner's name, including those relating to air emissions, boiler operation, water usage, septic system operation, wastewater discharge, chemical and other waste (including Hazardous Materials) storage and disposal, emissions testing and safety, and (ii) initiate and maintain precautions and procedures reasonably necessary to comply with Applicable Laws. Any Permit held solely in the name of Operator shall, to the extent necessary for the other Owner's compliance with Applicable Law in its role as an Owner, be held by Operator for the benefit of both Owners. Any Permit held solely in the name of the Non-Operator Owner shall, to the extent necessary and consistent with Applicable Laws, be made available for the use of the Operator for the benefit of the Owners and, if reasonably necessary to facilitate Operator's operation and maintenance or Decommissioning of the Facility, the Non-Operator Owner shall cooperate with Operator to effect an assignment or other transfer of such Permit to Operator or otherwise submit such Permit modifications or updating information as necessary to reflect the role of Operator with respect to such Permit.

3.5.2 NERC Compliance. Operator (or an Affiliate thereof) shall register with NERC as the "Generator Owner" and "Generator Operator" for the Facility in accordance with 18 C.F.R. § 39.2(c) effective from and after [the Effective Date][1]. On and after [the Effective Date], Operator shall, or shall cause its applicable Affiliate to, (i) maintain compliance with all NERC reliability standards applicable to the Facility and all NERC rules applicable to Operator as Generator Owner and Generator Operator for the Facility in accordance with 18 C.F.R. § 39.2(b), including any actions related to mitigation and compliance enhancement required or implemented thereunder; (ii) provide notice to the Operating Committee promptly following the determination by Operator of any reportable physical or cyber security incident under the NERC reliability standards or other Applicable Law; (iii) maintain and provide documentation and maintenance records to the Operating Committee regarding any operation, testing, maintenance

[1] **Note**: Subject to modification if registration cannot be effective as of the Effective Date.

or faults of any generation protection relays, gen-tie relays or any other equipment necessary to fulfill Operator's or its applicable Affiliate's obligations as the Generator Owner or Generator Operator for the Facility; and (iv) provide to the Non-Operator Owner upon written request any other information, documentation and support reasonably necessary for Operator or its applicable Affiliate to demonstrate compliance with the NERC reliability standards. To the extent that any fine or sanction is imposed in respect of the performance of Operator's obligations under this Section 3.5.2 pursuant to Section 215(c) of the Federal Power Act, any cost related thereto shall be a included as an Operating Cost, to the extent permitted by Applicable Law.

3.6 Personnel Matters. Subject to Sections 8.5 and 8.6, and as otherwise set forth in this Section 3.6, Operator shall be responsible for determining the working hours, rates of compensation and all other matters relating to the employment of Operator's Facility Personnel, including the designation or appointment of the Plant Manager, in its reasonable judgment and in accordance with Non-Operator Owner's and its Affiliates' past practices in the ordinary course of its business during the time it served as operator of the Facility, and shall retain sole authority, control and responsibility with respect to its employment policies. Operator shall submit for the Operating Committee's approval the staffing requirements for the Facility on an annual basis. If Operator intends to select a new Plant Manager, or if the individual serving as Plant Manager ceases to be the Plant Manager, Operator shall provide prompt written notice to the Non-Operator Owner of the selection of a substitute Plant Manager. Facility Personnel shall be qualified and experienced in the duties to which they are assigned. Operator shall, upon the reasonable written request of the Non-Operator Owner, for cause (as documented in reasonable detail in any such written request), use commercially reasonable efforts to, as promptly as practicable under the circumstances and subject to any applicable collective bargaining agreements, remove from the Site and the Facility workforce, the services of any employee or other individual, subject to Operator's confirmation that such cause exists.

3.7 No Liens or Encumbrances. Operator shall use commercially reasonable efforts to keep and maintain the Facility free and clear of all liens and Encumbrances resulting from the failure by Operator to perform the Services or the personal debts and obligations of Operator unrelated to its ownership interest in the Facility.

3.8 Emergency Action. In the event of an emergency affecting the safety, health or protection of, or otherwise endangering, any Person, property or the environment located at or about the Facility (an "Emergency"), Operator shall take prompt action in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate any imminent damage, injury or loss threatened by such Emergency, and shall notify the Non-Operator Owner of such Emergency and Operator's response as soon as practical under the circumstances and in no event later than forty-eight (48) business hours after Operator becomes aware of such event. To the extent Operator procures goods and services as necessary to respond to an Emergency, reasonable and documented out of pocket costs in respect thereof shall be treated as Operating Costs.

ARTICLE IV - OBLIGATIONS, RIGHTS AND REPRESENTATIVES OF EACH OWNER

4.1 General. Each Owner expressly reserves the exclusive authority to make, and shall make, such business and strategic decisions as it deems appropriate from time to time in reference to the operation and maintenance of the Facility in accordance with the Ownership Agreement. Upon request from Operator, the Non-Operator Owner shall promptly furnish or cause to be furnished to Operator, at the Non-Operator Owner's expense, the information, access, materials, instructions and other items described in this Article IV that are in the possession or control of the Non-Operator Owner and which are reasonably necessary for performance of the Services by Operator and not otherwise available to Operator. All such items will be made available at such times and in such manner as may be reasonably required for the expeditious and orderly performance of the Services by Operator.

4.2 Information. Subject to the Standards of Performance, Operator shall be entitled to rely upon any information provided by the Non-Operator Owner or any other party to the Facility Agreements in the performance of the Services.

4.3 Access to Facility. Each Owner shall provide Operator and Operator's contractors, vendors, suppliers, employees and agents and Facility Agreement counterparties, to the extent applicable, reasonable access to and use of the Facility and the Site and to such Owner's records and data at the Facility and, in the case of the Non-Operator Owner, reasonably available to the Non-Operator Owner or in the Non-Operator Owner's possession and reasonably necessary for the performance of Services by Operator under this Agreement.

4.4 Instructions, Approvals, etc. Each Owner shall provide or cause to be provided (including through action of the Operating Committee) to Operator all instructions Operator is required to obtain in accordance with this Agreement. Without limiting the provisions of Section 3.2.2, each Owner shall reasonably cooperate to make available or cause to be available to Operator the benefits of all assets (including Permits and contracts relating to the Facility) held in the name of such Owner, as reasonably required for the operation of the Facility. Each Owner shall not direct Operator to take any action inconsistent with Applicable Law or otherwise adversely affecting the safety, health or protection of any person, or property or the environment located at or about the Facility.

ARTICLE V - REPRESENTATIVES, BUDGETS AND REPORTS

5.1 Representatives of Operator. On or as soon as practical after the Effective Date, Operator shall appoint a Project Manager who shall be authorized to represent Operator with each Owner and the Operating Committee concerning Operator's performance of the Services. The Project Manager may be the same individual as the Plant Manager. Operator shall be responsible for all communications, directions, requests and decisions made by its Project Manager at its direction. Operator shall notify the Non-Operator Owner in writing upon the appointment of its Project Manager, and of any successors. The Project Manager has no authority to modify, amend or terminate this Agreement or, absent written notice by Operator to

the contrary, to enter into any other agreement on behalf of Operator other than as provided herein.

5.2 Representatives of Owner; Operating Committee. The Operating Representative of each Owner (pursuant to and as defined in the Ownership Agreement) shall be authorized and empowered to act for and on behalf of such Owner on all matters requiring the consent, approval or other action of an Owner pursuant to this Agreement. Each Owner shall notify Operator and the other Operating Representative in writing upon the appointment of its Operating Representative, and of any successors. Any provision of this Agreement requiring the consent, approval, or similar act of the Operating Committee shall mean the consent, approval, or similar act of the Operating Committee acting in accordance with the terms of the Ownership Agreement.

5.3 Plans and Budgets.

5.3.1 Adoption.

5.3.1.1. Budgets. The initial Budget and Plan for the first Year following the Effective Date is attached as Appendix B hereto. No later than ninety (90) days prior to each operating Year, Operator shall deliver to the Operating Committee for the Operating Committee's review, revision if applicable and approval (i) a proposed annual operating budget, (ii) any proposed amendments to the annual capital budget, (iii) an annual operating plan and (iv) a six (6) Year future forecast of operating and capital expenses. Each such proposed budget, plan and forecast shall contain such detail and supporting documentation as reasonably necessary or reasonably requested for the Operating Committee's review, and Operator shall provide all such additional information and supporting documentation as may be reasonably requested by the Operating Committee and as required by the Ownership Agreement. The Operating Committee shall review and provide modifications to each such proposed budget, plan and forecast and Operator shall cooperate to revise each such proposed budget and plan to receive the Operating Committee's approval of same by December 1 of each Year. Each Budget and Plan as approved by the Operating Committee or otherwise deemed implemented pursuant to the Ownership Agreement shall remain in effect in accordance with the Ownership Agreement. Operator and the Non-Operator Owner by mutual agreement may modify the process and procedures set forth in this Section 5.3.1.

5.3.1.2. Amendments. If either the Non-Operator Owner or Operator becomes aware of facts or circumstances that it believes necessitate a change to a Budget or Plan, that Party shall promptly notify the other Party in writing, specifying the impact upon the Budget and the reasons for the change. The Project Manager shall then discuss appropriate amendments to the Budget with the Operating Committee.

5.3.1.3. Failure to Agree. Operator acknowledges that the Owners retain ultimate authority with respect to expenses incurred for the Facility. Accordingly, Operator shall accept each Budget as determined in accordance with the Ownership Agreement. To the extent that the Operating Committee limits funds for Operating Costs, Operator shall be

relieved from performing only those specific Services that would result in the incurrence of such non-reimbursable Operating Costs.

5.3.2 Limitations on Variation from Budget. Except as otherwise permitted in response to an Emergency in accordance with Section 3.8, Operator shall obtain the Operating Committee's written approval (i) for any expenditures resulting in cumulative budget overruns exceeding ten percent (10%) in the aggregate in any Year with respect to either the operating Budget or capital expense Budget, or (ii) for any unbudgeted expenditure or capital project having a projected cost of more than $100,000.

5.4 Availability of Operating Data and Records. Operator shall deliver Facility data recorded, prepared or maintained by Operator to the Operating Committee: (i) as necessary or reasonably requested by an Owner to assist each Owner in complying with requirements of Governmental Authorities, Permits and Facility Agreements; or (ii) upon request by the Non-Operator Owner, in each case as soon as reasonably practicable but in any event within ten (10) Business Days following such request.

5.5 Litigation and Permit Lapses. Promptly upon obtaining actual knowledge thereof, either Party shall submit prompt written notice to the other Party of the following, to the extent relating to the Facility or the Services or agreements relating to either the Facility or the Services: (i) any litigation, Claims or actions filed, including by, against or with any Governmental Authority; (ii) any actual refusal to grant, renew or extend, or any action filed with respect to the granting, renewal or extension of, any Permit; (iii) all penalties or notices of violation issued or asserted by any Governmental Authority; (iv) any dispute with any Governmental Authority that may affect the Facility in any material respect; and (v) with respect to the matters identified in items (i), (ii), (iii) or (iv), any material threats of such matters. Upon Non-Operator Owner's request, Operator shall provide any documentation related to any of the foregoing.

5.6 Other Information. Operator shall promptly submit to the Non-Operator Owner any material information concerning new or significant aspects of the Facility operations and, upon the Non-Operator Owner's request, shall promptly submit any other information concerning the Facility or the Services.

5.7 Records Maintenance and Retention. Operator shall maintain all records, reports, documents and data, including all data retrievable from an electronic data storage source, for the Facility in accordance with Applicable Law and shall retain and preserve all such records, reports, documents and data created in connection with the operation and maintenance of the Facility, in accordance with Applicable Law, provided that Operator shall notify the Non-Operator Owner in writing at least sixty (60) days prior to the destruction or other disposition of any record, report, document or data. If the Non-Operator Owner gives written notice to Operator prior to the expiration of the 60-day period, Operator shall maintain custody of such material until the earlier of (i) such time as the Non-Operator Owner notifies Operator to dispose of such material and (ii) seven (7) Years. If the Non-Operator Owner does not provide written notice to Operator prior to the expiration of the 60- day period, Operator may destroy or

dispose of such material and shall provide the Non-Operator Owner with a certificate confirming such destruction or disposition.

ARTICLE VI - LIMITATIONS ON AUTHORITY

6.1 Limitations on Authority. Operator has no authority to make policies or decisions with respect to the overall operation or maintenance of the Facility as a commercial enterprise pursuant to the terms of this Agreement. The Owners, acting through the Operating Committee and pursuant to the terms of the Ownership Agreement, shall determine all such matters. Notwithstanding any provision in this Agreement to the contrary, unless previously approved in a Budget and Plan or otherwise approved in writing by the Operating Committee, in connection with Operator's provision of Services hereunder, Operator is prohibited from doing any of the following (and shall not permit any of its agents, Affiliates, or representatives to do any of the following):

6.1.1 Dispose of Assets. Selling, leasing, pledging, mortgaging, granting a security interest in, encumbering, conveying, or making any license, exchange or other transfer or disposition of all or any portion of the Facility, the Site or any other property or assets of the Owners, including any property or assets purchased by Operator, the cost of which is an Operating Cost;

6.1.2 Make Expenditures. Making any expenditure or acquiring, on an Operating Cost basis, any goods or services from third parties, except in conformity with a Budget or as otherwise permitted under Section 5.3.2 or as authorized by the Operating Committee; provided, however, that in the event of an Emergency, Operator, without approval from the Owners, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.3 Take Other Actions. Taking or agreeing to take any other action or actions the decision for which is reserved exclusively for the Operating Committee pursuant to the Ownership Agreement; provided, however, that in the event of an Emergency, Operator, without approval from the Operating Committee, is authorized to take all reasonable actions in accordance with Prudent Operation and Maintenance Practices to prevent or mitigate such threatened damage, injury or loss in accordance with Section 3.8;

6.1.4 Act Regarding Lawsuits and Settlements. Settling, compromising, assigning, pledging, transferring, releasing or consenting to the compromise, assignment, pledge, transfer or release of, any material Claim, suit, debt, demand or judgment against or due by any Owner or Operator, the cost of which would be an Operating Cost hereunder, or submitting any such Claim, dispute or controversy to arbitration or judicial process, or stipulating in respect thereof to a judgment, or consent to the same; provided, however, that such prohibition shall not apply to, nor shall it be construed as a release or waiver of, any of Operator's rights or obligations pursuant to this Agreement or any other agreement between the Parties; or

6.1.5 Pursue Transactions. Engaging in any other transaction on behalf of the any Owner that is not permitted under this Agreement.

ARTICLE VII - COMPENSATION AND PAYMENT

7.1 General. The Non-Operator Owner shall pay Operator, and WPCo shall bear directly in its capacity as an Owner, its allocated share in accordance with the Ownership Agreement of all Operating Costs, all as further described below. All Operating Costs shall initially be paid for by Operator (except as otherwise provided in this Agreement) and subsequently invoiced monthly in arrears as more fully set forth in this Article VII.

7.2 Costs.

7.2.1 Operating Costs. Subject to the Ownership Agreement and the limitations on expenditures set forth elsewhere in this Agreement (including Section 5.3), the Non-Operator Owner shall reimburse Operator for its allocated share in accordance with the Ownership Agreement of the fully distributed costs incurred (whether paid or accrued) in the provision of Services (which shall be allocated consistent with Non-Operator Owner's and its Affiliates past practices in the ordinary course of business during the time it served as operator of the Facility and in any event in accordance with the Cost Allocation Manual with respect to costs incurred by Affiliates of Operator), including for labor, goods, services, capital expenditures, overhead, cost of capital, Taxes (other than income or franchise taxes), Permits and bonds (the "Operating Costs"), in each case invoiced in a manner consistent with the example invoice worksheets attached hereto as Appendix C, which shall include such costs with respect to: (i) equipment, material, supplies and other consumables, spare parts, replacement components, tools, office equipment, computer equipment, software, information technology and supplies acquired for use at the Facility; (ii) fuel supply and transportation; (iii) costs associated with special training of Facility Personnel and associated travel and living expenses; (iv) amounts paid under subcontracts, purchase orders and agreements; (v) fees for Permits required to be held by Operator; (vi) community relations and labor relations activities; and (vii) Operator's cost of Facility Personnel (and the allocable portion of other employees of Operator and its Affiliates attributable to performing the Services) wages, salaries, overtime, employee bonus, customary or required severance payments, unemployment insurance, long-term disability insurance, short term disability payments, sick leave, payroll taxes imposed on wages and benefits, worker's compensation costs and holidays, vacations, group medical, dental and life insurance, defined contribution retirement plans and other employee benefits; (viii) costs of third-party advisors, consultants, attorneys, accountants and contractors retained and managed by Operator in support of, and allocable to, the Services; (ix) a reasonably allocable portion of the cost of the insurance maintained by Operator in accordance with Section 9.1 on account of its Operator role; (x) reasonable costs incurred in response to an Emergency; and (xi) any other activity that Operator is required or expressly requested in writing by the Owners to perform under this Agreement for the benefit of the Facility or that is approved in a Budget or by the Operating Committee pursuant to the terms of this Agreement.

7.2.2 Invoicing. On or before the twenty-fifth (25^{th}) day of each calendar month during the Term, Operator shall submit invoices to the Non-Operator Owner in form and substance reasonably similar to that attached hereto as Appendix C for Operating Costs incurred during the preceding calendar month (as well as any such costs for any prior period that were not previously invoiced). If any contract or purchase order intended to be assigned, transferred or conveyed to Operator remains held by the Non-Operator Owner as described in Section 3.2.2 and

the Non-Operator Owner directly pays costs thereunder for the benefit of the Owners, the invoice submitted by Operator shall net WPCo's allocated share in accordance with the Ownership Agreement of any such costs paid by the Non-Operator Owner for the benefit of the Owners. The Non-Operator Owner shall make payment to Operator of its allocated share in accordance with the Ownership Agreement of the invoiced amount no later than the Due Date. For the avoidance of doubt, WPCo, in its capacity as an Owner, shall bear directly its allocated share in accordance with the Ownership Agreement of such Operating Costs.

7.3 Cost Audit. The Non-Operator Owner shall be entitled to conduct an audit, or to delegate a representative to audit, at its sole cost and expense and review of Operator's books and records with respect to all Operating Costs and performance of the Services together with any supporting documentation for a period of one (1) Year from and after the date of the audited payment. If, pursuant to such audit and review, it is agreed that any amount previously paid by Operator or by an Owner was not properly incurred as an Operating Cost or an adjustment of any such cost is required, Operator shall credit to the Non-Operator Owner or Operator, as applicable, its allocated share in accordance with the Ownership Agreement of such amount in the next succeeding invoice or promptly paid in cash if there shall not be further invoices issued.

7.4 Late Payment Rate. To the extent a Party fails to pay any amount required to be paid under this Agreement by the Due Date, the unpaid amount shall accrue interest each day at the Late Payment Rate from the Due Date until such amount (plus accrued interest) is paid by the applicable Party in full. In the event any paid amounts are disputed by a Party in good faith and such dispute is resolved (including if applicable in accordance with the procedures set forth in Section 14.7) in the favor of such Party, then the applicable other Party shall repay to such Party such overpaid amount plus interest thereon accrued each day at the Late Payment Rate from payment by such Party until such amount (plus accrued interest) is repaid in full to such Party by the applicable other Party.

ARTICLE VIII - TERM

8.1 Term. The Term of this Agreement shall commence on the Effective Date and, subject to approval or acceptance of termination by FERC or other Governmental Authority to the extent required, shall end on the date of termination of the Ownership Agreement (the "Term"). Notwithstanding the foregoing, this Agreement and the Term is subject to earlier termination pursuant to Sections 8.2 and 8.3.

8.2 Termination by the Non-Operator Owner for Cause. The Non-Operator Owner shall be permitted to terminate this Agreement upon written notice to Operator if any of the following events occur: (i) the Bankruptcy of Operator; (ii) a payment default by Operator (other than a disputed payment) that Operator fails to cure within ten (10) Business Days after Operator has received written notice of such default; (iii) Operator incurs liability to the Owners equal to the liability limit set forth in Section 11.2 for any two Years during the Term (provided that written notice of termination must be delivered to Operator no later than ninety (90) days after the end of the second of such two Years), or (iv) a material default by Operator in the performance of its obligations under this Agreement, including any default that has, or is reasonably expected to have, a material adverse effect on the operations, maintenance or performance of the Facility and Operator has failed to cure such default within sixty (60) days of

written notice of such failure; provided, that if it is not possible to cure such breach within sixty (60) days of receipt of such notice of failure, Operator (A) fails to commence to cure the breach within such sixty (60) day period, (B) thereafter fails to continue diligent efforts to complete the cure as soon as reasonably possible, or (C) fails to complete the cure within ninety (90) days of receipt of such notice of failure. In addition, Non-Operator Owner shall have the option to terminate this Agreement for convenience upon ninety (90) days written notice to Operator delivered no later than ninety (90) days after the occurrence of any transfer, assignment, sale or other disposition (including any transfers, assignments, sales or other dispositions in connection with a foreclosure or an exercise of remedies by the Financing Parties) that results in WPCo's Ownership Interest no longer being owned directly or indirectly by AEP or an Affiliate thereof, except in the case of an transfer, assignment, sale or other disposition to a successor Operator that is a Qualified Replacement Operator in compliance with the terms of this Agreement and the Ownership Agreement.

8.3 Termination by Operator. Operator shall be permitted to terminate this Agreement upon written notice to the Non-Operator Owner if any of the following events occur: (i) a payment default by the Non-Operator Owner (other than a disputed payment) that is not cured within thirty (30) days after the Due Date for any invoice; (ii) the Bankruptcy of the Non-Operator Owner; or (ii) a default by the Non-Operator Owner of any other obligation under this Agreement that has a material adverse effect on Operator's ability to perform the Services and that the Non-Operator Owner has failed to cure or make substantial progress in the reasonable opinion of Operator toward curing within ninety (90) days of written notice by Operator to the Non-Operator Owner of such failure. As soon as practicable after all cost information is gathered following termination, Operator shall invoice the Non-Operator Owner for its allocated share in accordance with the Ownership Agreement for Services rendered by Operator through the termination date, including all Operating Costs incurred through the date of termination but not paid.

8.4 Transfer of Facility Custody. Upon expiration or termination of this Agreement, Operator shall leave at the Facility all documents and records, tools, supplies, spare parts, safety equipment, Manuals, and any other items furnished on an Operating Cost basis, all of which shall remain the property of the Owners without additional charge. Operator shall execute all documents and take all other reasonable steps as may be reasonably requested by the Non-Operator Owner to assign to and vest in a replacement provider of Services all of its pro-rata rights, benefits, interests and title in connection with any subcontracts Operator executed in its own name for the benefit of the Facility and the Owners.

8.5 Services Upon Termination.

8.5.1 Upon notice of termination of this Agreement by either Operator or the Non-Operator Owner, unless the Non-Operator Owner is then in payment default such that Operator would have the right to terminate this Agreement pursuant to Section 8.3(i), the Non-Operator Owner shall have the right to specify a period of transition of no longer than nine (9) months (the "Termination Transition Period") during which Operator shall: (i) continue to provide Services at the Facility in accordance with this Agreement; (ii) cooperate with the Non-Operator Owner in planning and implementing a transition to any replacement provider of Services; (iii) use its commercially reasonable efforts to minimize disruption of Facility

operations in connection with such transition activities; (iv) make all requisite regulatory filings as promptly upon commencement of the Termination Transition Period, subject to cooperation of the Parties; (v) transfer all Permits, licenses, registrations, approvals and contracts to the Non-Operator Owner or such replacement operator, in each case, as requested by the Non-Operator Owner; and (vi) take all actions incidental thereto and as reasonably requested by the Non-Operator Owner. The provisions of Article VII shall continue to apply during the Termination Transition Period. To facilitate employee transfer, Operator shall permit the replacement service provider and the Non-Operator Owner to interview such Facility Personnel for potential positions with such replacement operator in a manner and at times that do not interfere with Operator's responsibility to perform the Services. If Operator or one of its Affiliates continues to own a portion of the Facility, Operator shall, or shall cause its Affiliates to, reasonably cooperate to allow a successor operator to operate the Facility after the termination of this Agreement, including by granting access rights and executing other instruments as may be reasonably requested by the Non-Operator Owner and any replacement operator.

8.5.2 Any modifications to the ownership and operation of the Facility, including any termination of this Agreement, shall be subject to any required regulatory or administrative filings and approvals.

8.6 Plant Manager Replacement. Upon (i) commencement of the Termination Transition Period or (ii) the occurrence of any of the conditions described in Section 8.2, the Non-Operator Owner may designate a qualified individual with significant experience as a project manager or similar senior operating role in respect of the management and operation of large coal-fired generation facilities with similar operating characteristics as the Facility to replace the existing Plant Manager and who shall upon such appointment be the Plant Manager.

ARTICLE IX - INSURANCE

9.1 Operator Insurance Requirements.

9.1.1 Commencing with the performance of the Services hereunder, and continuing until the termination of this Agreement, Operator (and any tier subcontractors) shall maintain or cause to be maintained occurrence form (if written on a claims -made policy form, be maintained with a retroactive date that is prior to this Agreement Effective Date for a period of at least three (3) Years following the last Year in which such policy provides coverage under the terms of this Agreement) insurance policies as follows: (i) Workers' Compensation in accordance with the statutory requirements of the state in which the Services are performed and Employer's Liability Insurance of not less than one million Dollars ($1,000,000) each accident/employee/disease; (ii) Commercial General Liability Insurance having a limit of at least one million Dollars ($1,000,000) per occurrence/two million Dollars ($2,000,000) in the aggregate for contractual liability, personal injury, bodily injury to or death of Persons, and/or loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) Years after completion), premises and operations liability and explosion, collapse, and underground hazard coverage; (iii) Commercial/Business Automobile Liability Insurance (including owned (if any), non-owned or hired autos) having a limit of at least one million Dollars ($1,000,000) each accident for bodily injury, death, property damage and contractual liability and no fellow employee exclusion; (iv)

Umbrella/Excess Liability insurance with limits of at least twenty-four million Dollars ($24,000,000) per occurrence and follow form of the underlying Employer's Liability, Commercial General Liability and Auto Liability insurance, and provide at least the same scope of coverages thereunder; (v) coverage for sudden/accidental occurrences for bodily injury, property damage, environmental damage, cleanup costs and defense with a minimum of one million Dollars ($1,000,000) per occurrence; and (vi) "all-risk" or its equivalent property insurance providing coverage risks of physical damage to the Facility or Facility Equipment in an amount in accordance with Good Utility Practice.

9.1.2 Unless otherwise determined by the Operating Committee that the Operator should purchase capacity insurance on behalf of both Owners, Operator (including in its capacity as an Owner) and Non-Operator Owner may each procure individually, in proportion to their Ownership Interests, PJM Interconnection, L.L.C. capacity performance insurance on terms and conditions, and placed with insurance companies, reasonably acceptable to the Operator or such Owner, as applicable. Operator shall make such certifications relating to the operation, maintenance and condition of the Facility from time to time during the Term as may be reasonably necessary in connection with the procurement or maintenance of such insurance coverage by Operator and the Non-Operator Owner and any other insurance policies of either Owner that may relate to coverage pertaining to or affecting an Owner's Ownership Interest.

9.2 Form and Content. All insurance policies provided and maintained by Operator and each subcontractor shall: (i) except with respect to insurance policies issued by any "captive" insurer of Operator or its Affiliates, be underwritten by insurers that are rated A.M. Best "A-VII" or higher; (ii) specifically include the Non-Operator Owner and its directors, officers, employees, affiliates, subcontractors, and joint owners of any facilities as additional insureds for their liability arising out of the acts or omissions of Operator, including for completed operations, with respect to Operator's acts, omissions, services, products or operations, whether in whole or in part, excluding, however, for Workers' Compensation/Employer's Liability insurance, Pollution Legal Liability insurance, and "all-risk" property insurance; (iii) be endorsed to provide, where permitted by law, waiver of any rights of subrogation against an Owner and its directors, officers, employees, affiliates and subcontractors, and joint owners of any facilities; (iv) provide that such policies and additional insured provisions are primary with respect to the acts, omissions, services, products or operations of Operator or its subcontractors, to the extent of Operator's negligence, (v) contain standard separation of insured and severability of interest provisions except with respect to the limits of the insurer's liability; and (vii) not have any cross-liability exclusion, or any similar exclusion that excludes coverage for Claims brought by additional insureds under the policy against another insured under the policy; Any deductibles or retentions shall be the sole responsibility of Operator and its subcontractors. Evidence of such coverage shall be provided in the form of Operator's certificate of insurance furnished to the Non-Operator Owner prior to the Effective Date, upon any policy replacement or renewal and upon the Non-Operator Owner's request. Operator shall provide at least thirty (30) days' prior written notice to the Non-Operator Owner prior to cancellation of any policy (or ten (10) days' notice in the case of non-payment of premium).

ARTICLE X - INDEMNIFICATION

10.1 Operator Indemnification. Subject to the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner and its Affiliates, and their respective officers, directors, employees, managers, members, agents and representatives (collectively, the "Non-Operator Owner Indemnitees"), from and against, and no Non-Operator Owner Indemnitee shall be responsible for any and all Liabilities incurred, assessed, sustained or suffered by any Non-Operator Owner Indemnitee to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement. Any Liabilities paid by Operator pursuant to its indemnity obligation under this Section 10.1 shall in no event be considered Operating Costs hereunder.

10.2 Owner Indemnification. Subject to the limitations of liability in Section 11.1, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless Operator and its Affiliates, and their respective officers, directors, employees, agents and representatives (collectively, the "Operator Indemnitees"), from and against, and no Operator Indemnitee shall have responsibility for, any and all Liabilities to a third party incurred, assessed, sustained or suffered by or against any Operator Indemnitee arising from or relating to Operator's performance of the Services under this Agreement, except to the extent caused by Operator's gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law, or willful breach of this Agreement; provided, however, that the Liabilities for which Non-Operator Owner is obligated to indemnify any Operator Indemnitees under this Section 10.2 shall not in any event include any Liabilities for which WPCo is obligated to indemnify Non-Operator Owner (and/or its Affiliates) in any agreement among the Owners (and/or their Affiliates) and AEP (and/or its Affiliates), including pertaining to the allocation of emission limitations associated with the Facility. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear directly its proportionate share of Liabilities under this Section 10.2 in respect of its Ownership Interest.

10.3 Environmental Indemnification.

10.3.1 Owner Indemnity for Environmental Liabilities. Subject to the limitations of liability in Section 11.1, and without in any way limiting the provisions of Section 10.3.2, each Owner shall, severally with respect to its proportionate share in respect of its Ownership Interest and not jointly, indemnify and hold harmless the Operator Indemnitees, from and against, and no Operator Indemnitees shall have responsibility for, any and all Liabilities, including all civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Operator Indemnitees, as applicable, as a result of or in connection with any matters governed by Environmental Laws directly or indirectly related to or arising out of (i) the design, permitting or construction of the Facility or the condition of the Site, and any adjacent parcels; (ii) the operation, maintenance, ownership, control or use of the Facility or otherwise related to the Facility; and (iii) the offsite transportation, treatment or disposal of all wastes generated at the Facility and any properties included within or adjacent to the Site, whether occurring before or after the Effective Date (collectively, "Environmental Liabilities"), including any Environmental Liabilities arising out of the actual or alleged existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous

Materials, but excluding Operator Environmental Liabilities; provided, however, that the Environmental Liabilities for which any Owner is obligated to indemnify any Operator Indemnitees under this Section 10.3.1 shall not in any event include any Operator Environmental Liabilities for which Operator is liable under Section 10.3.2. For the avoidance of doubt, WPCo, in its capacity as an Owner of the Facility, shall bear its proportionate share of Environmental Liabilities under this Section 10.3.2 in respect of its Ownership Interest.

10.3.2 Operator Indemnity for Environmental Liabilities. Subject to the provisions of Section 10.1 and the limitations of liability in Section 11.1, Operator shall indemnify and hold harmless the Non-Operator Owner Indemnitees from and against, and no Non-Operator Owner Indemnitee shall be responsible hereunder for any Liabilities, including any civil and criminal fines or penalties and other costs and expenses incurred, assessed, sustained or suffered by or against any Person as a result of or in connection with any breach or violation of or any other matters governed by Environmental Laws to the extent caused by the gross negligence, willful misconduct, actual fraud, willful violation of any Applicable Law or willful breach of this Agreement by Operator or arising out of the existence, generation, use, emission, collection, treatment, storage, transportation, disposal, recovery, removal, release, discharge or dispersal of Hazardous Materials brought on Site by Operator or its Affiliates or agents on or after the Effective Date (the "Operator Environmental Liabilities"). Operator understands and agrees that any Operator Environmental Liabilities paid by Operator pursuant to this Section 10.3.2 shall not be Operating Costs hereunder.

10.3.3 Governmental Actions. During the Term, Operator shall use commercially reasonable efforts to cooperate with and assist the Owners with their acquisition of data and information, and preparation and filing with appropriate Governmental Authorities of any notices, plans, submissions, or other materials and information necessary for compliance by the Owners with applicable Environmental Laws and the requirements of any Permits related to the Facility. All such environmental reports shall be submitted by, and in the names of, both Owners. All reasonable and documented costs associated therewith, including the reasonable costs of any outside consultants, legal services, Governmental Authority charges, sampling and remedial work shall be paid by the Owners as an Operating Cost, and the Non-Operator Owner shall reimburse WPCo to the extent of the Non-Operator Owner's pro rata share, unless such costs are incurred arising out of or associated with Operator Environmental Liabilities that are subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof. Nothing contained herein shall be construed as requiring Operator to take any corrective action with respect to Environmental Liabilities unless (x) affirmatively and expressly directed in writing to so do by the Operating Committee and appropriate funding is made available, or (y) affirmatively and expressly directed to do so by a Governmental Authority, in order to comply with any Environmental Law, in which case the cost of any corrective actions so undertaken shall be deemed an Environmental Liability subject to Section 10.3.1 hereof (if not otherwise reimbursed as an Operating Cost hereunder), unless such Environmental Liability arises out of or is associated with Operator Environmental Liabilities subject to Operator's indemnity obligation pursuant to Section 10.3.2 hereof.

ARTICLE XI - LIABILITIES OF THE PARTIES

11.1 Limitations of Liability. Notwithstanding any provision in this Agreement that may be susceptible to contrary interpretation, neither the Parties nor any Non-Operator Owner Indemnitees or Operator Indemnitees shall be liable for consequential or indirect loss or damage, including loss of profit, cost of capital, loss of goodwill, increased Operating Costs, or any special or incidental damages; provided, however, that notwithstanding the foregoing, in no event will the foregoing limitations of liability be applied to limit the extent of the liability of either Party to the other for or with respect to any Claims of third parties or to the extent arising from gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement. The Parties further agree that the waivers and disclaimers of liability, indemnities, releases from liability and limitations of liability expressed in this Agreement shall survive termination or expiration of this Agreement, and shall apply in all circumstances, whether in contract, equity, tort or otherwise, regardless of the fault, negligence (in whole or in part), strict liability, breach of contract or breach of warranty of the Party indemnified, released or whose liabilities are limited, and shall extend to the Non-Operator Owner Indemnitees and Operator Indemnitees.

11.2 Operator's Total Aggregate Liability. Except to the extent that a Non-Operator Owner Indemnitee suffers Liabilities that are caused by, result from or arise out of Operator's or its Affiliates' breach of Article XIII or its gross negligence, actual fraud, willful violation of Applicable Law or willful breach of this Agreement, or willful misconduct (including in connection with any Services), the total liability of Operator to the Non-Operating Owner for all Liabilities arising out of, connected with or resulting from any events occurring or claims made in connection with this Agreement, whether based in contract, warranty, tort, strict liability or otherwise, shall not exceed, in the aggregate, the sum of (i) an amount equal to twenty-five percent (25%) of the Operating Costs, but excluding Operating Costs relating to any services, goods, inventory and equipment provided hereunder by third parties other than Operator's Affiliates, incurred pursuant to this Agreement in the prior twelve (12) month period, *plus* (ii) the Non-Operating Owner's fifty percent (50%) share of any insurance proceeds actually received by the Operator or paid on the Operator's behalf with respect to the relevant loss or damages under the insurance policies procured by the Operator pursuant to Section 9.1.

11.3 No Warranties or Guarantees.

11.3.1 EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES OR GUARANTEES TO THE OTHER, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE SUBJECT MATTER OF THIS AGREEMENT, AND BOTH PARTIES DISCLAIM AND WAIVE ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT.

11.3.2 OPERATOR IS ACTING AS AGENT OR OTHERWISE AS A RESELLER WITH RESPECT TO ALL SERVICES, GOODS, INVENTORY AND EQUIPMENT PROVIDED HEREUNDER BY THIRD PARTIES OTHER THAN OPERATOR'S AFFILIATES, AND, AS SUCH, DOES NOT PROVIDE ANY WARRANTY

FOR SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT PROVIDED HEREUNDER. ALL SUCH THIRD PARTY SERVICES, GOODS, INVENTORY AND EQUIPMENT ARE PROVIDED AS IS, WHERE IS, WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OF NON-INFRINGEMENT UNLESS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES. THE SOLE REMEDY IN CONNECTION WITH ANY DEFECTS IN OR FAILURES OF SUCH THIRD PARTY SERVICES, GOODS, INVENTORY OR EQUIPMENT (WHETHER A CLAIM FOR SUCH DEFECT ARISES UNDER CONTRACT, TORT, STRICT LIABILITY, STATUTE, OR ANY OTHER LEGAL OR EQUITABLE THEORY OR PRINCIPLE INCLUDING NEGLIGENCE) SHALL BE TO SEEK RECOURSE EXCLUSIVELY FROM THE COUNTERPARTIES TO THE THIRD PARTY CONTRACTS, UNLESS THE DEFECT OR FAILURE WAS CAUSED BY THE GROSS NEGLIGENCE, WILLFUL MISCONDUCT, ACTUAL FRAUD, WILLFUL VIOLATION OF ANY APPLICABLE LAW OR WILLFUL BREACH OF THIS AGREEMENT BY OPERATOR OR ITS AFFILIATES.

ARTICLE XII - CONFIDENTIALITY

12.1 General. During the Term, and for the later of three (3) Years after the termination of this Agreement or five (5) Years after receipt of the applicable Confidential Information, each Party shall hold in confidence any Confidential Information supplied by or on behalf of the other Party. Each receiving Party further agrees to require its contractors, vendors, suppliers and employees, agents or prospective purchasers to preserve the confidentiality of Confidential Information. The receiving Party may make necessary disclosures to third parties directly engaged in the operation, ownership or financing of the Facility if such third parties are under an obligation to receive and hold such Confidential Information in confidence.

12.2 Exceptions. The provisions of this Article XII do not apply to information within one or more of the following categories:

12.2.1 Public Domain. Information that was in the public domain prior to the receiving Party's receipt or that subsequently becomes part of the public domain by publication or otherwise, except by the receiving Party's or its Affiliate's wrongful act.

12.2.2 Prior Receipt. Information that the receiving Party can demonstrate was in its possession prior to receipt thereof from the disclosing Party so long as such possession did not result from a violation of a confidentiality obligation.

12.2.3 Third Party Delivery. Information received from a third party having no obligation of secrecy with respect thereto.

12.2.4 Permitted Disclosures. Information disclosed by an Owner to Lenders or prospective Lenders, equity investors or prospective equity investors, prospective purchasers,

consultants, attorneys, accountants and other designated agents in each case on a confidential, need-to-know-basis.

12.2.5 Regulatory Filings. Information required to be disclosed by an Owner in connection with any required regulatory or administrative filings.

12.3 Required Disclosure. Notwithstanding the forgoing, any receiving Party required by law, rule, regulation, subpoena or order, or in the course of regulatory, administrative or judicial proceedings, to disclose Confidential Information that is otherwise required to be maintained in confidence pursuant to this Article XII, may make disclosure notwithstanding the provisions of this Article XII. Prior to doing so, the receiving Party, promptly upon learning of the requirement, shall notify the disclosing Party of the requirement and cooperate to the maximum extent practicable to minimize the disclosure of Confidential Information. Any receiving Party disclosing Confidential Information pursuant to this Section 12.3 shall use commercially reasonable efforts, at the disclosing Party's cost, to obtain proprietary or confidential treatment of Confidential Information by the third party to whom the information will be disclosed, and to the extent such remedies are available, shall use commercially reasonable efforts to seek protective orders limiting the dissemination and use of Confidential Information. Nothing in this Agreement is intended to prevent the disclosing Party from appearing in any proceedings and objecting to the disclosure.

ARTICLE XIII - TITLE, DOCUMENTS AND DATA

13.1 Materials and Equipment. Operator shall use commercially reasonable efforts to cause title to all materials, equipment, supplies, consumables, spare parts and other items purchased or obtained by Operator on an Operating Cost basis ("Facility Equipment") to pass directly from the vendor or supplier to, and vest in, each Owner to the extent of such Owner's Ownership Interest. Operator shall have no title or other claim to such items other than in its capacity as an Owner of the Facility.

13.2 Documents. All Manuals, operational data, Facility drawings, Operator reports and records and other materials and documents (both paper and electronic) created by Operator, its Affiliates or their respective employees, representatives or contractors in connection with performance of the Services are the property of each Owner to the extent of its Ownership Interest in the Facility. All such materials and documents shall be available for review by the Non-Operator Owner at all reasonable times during development and promptly upon completion. All such materials and documents required to be submitted for the approval of the Operating Committee shall be prepared and processed in accordance with the requirements and specifications set forth herein. However, the Operating Committee's approval of materials and documents submitted by Operator shall not relieve Operator of its responsibility to perform it obligations under this Agreement.

13.3 Proprietary Information. Where materials or documents prepared or developed by Operator or its Affiliates, or their respective employees, representatives or contractors, contain proprietary or technical information, systems, techniques or know-how previously developed by them or acquired by them from third parties (the "Operator Proprietary Information"), the Non-Operator Owner shall have an irrevocable license to use such Operator

Proprietary Information to the extent necessary for the operation or maintenance of the Facility at no additional cost to the Non-Operator Owner.

ARTICLE XIV - MISCELLANEOUS PROVISIONS

14.1 Assignment. This Agreement shall not be assignable, in whole or in part, by a Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld or delayed, except that this Agreement may be (i) collaterally assigned by an Owner without such consent to a Lender in connection with such Lender's financing of such Owner's Ownership Interest and (ii) assigned by an Owner (in whole but not in part) without such consent to the transferee of its Ownership Interest, whether by merger, division, sale of equity interest, or otherwise, in each case, solely to the extent that such transfer of its Ownership Interest is in accordance with the Ownership Agreement. Any assignment pursuant to this Section 14.1 shall not relieve the assigning Party of any of its obligations under this Agreement that arose prior to the date of such assignment. This Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties.

14.2 Effect of Bankruptcy. The Parties intend that, in the event of a Bankruptcy, payments required under this Agreement shall be deemed to be administrative expenses as defined in 11 U.S.C. §503.

14.3 Access. The Non-Operator Owner and Lenders and their agents and representatives shall have access to the Facility, all Facility operations and any documents, materials and records and accounts relating to the Facility operations for purposes of inspection and review. Upon the request of the Non-Operator Owner and its agents and representatives, Operator shall provide such Persons with access to all data and logs Operator maintains regarding the Facility. During any inspection or review of the Facility, the Non-Operator Owner and Lenders and their agents and representatives shall comply with all of Operator's safety and security procedures, and shall conduct inspections and reviews in such a manner as to cause minimum interference with Operator's activities. Operator also shall cooperate with the Non-Operator Owner in allowing its agents and representatives access to the Facility.

14.4 Subcontractors; Subagents.

14.4.1 Operator shall have the right to hire third-party subcontractors or to acquire rights from third parties to provide all or part of any Services hereunder without the prior consent of the Operating Committee. The cost of such third-party Services or acquisition of such rights shall be Operating Costs in accordance with Section 7.2.1. Operator, for the benefit of the Owners, shall use commercially reasonable efforts to obtain from all subcontractors and suppliers, including any subcontractors and suppliers who are Affiliates of Operator, customary guarantees and warranties to the extent available with respect to the equipment, goods, services or other work provided or performed by such subcontractor and supplier. Notwithstanding the foregoing or anything to the contrary, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned or delayed, procure or enter into any agreement with any third-party subcontractor with respect to the Services with a cost included in the Operating Costs in excess of $500,000 in any Year. Each agreement with a third-party subcontractor shall reflect costs that are on an arm's-length basis

and no greater in any material respect than Operator could reasonably provide on Operator's own (or through its Affiliates) without material hardship.

14.4.2 Operator may delegate any obligations hereunder to one or more Affiliates, or designate one or more Affiliates as subagents for the performance of its obligations, and, to the extent such Affiliate performs or acts as subagent with respect to any obligation of Operator hereunder, such Affiliate shall enjoy the rights and benefits of Operator pursuant to this Agreement (including, for the avoidance of doubt, Article X and Article XI hereof). Notwithstanding the foregoing, Operator shall not, without the prior written approval of Non-Operator Owner, such approval not to be unreasonably withheld, conditioned, or delayed, procure or enter into any agreement with any of its Affiliates (other than for Facility Personnel to perform the Services) (i) with a committed value in excess of $500,000 or (ii) that may not be cancelled by or at the request of Non-Operator Owner upon no more than ninety (90) days' notice without penalty. Each agreement with an Affiliate of Operator, other than for Facility Personnel to perform the Services, shall reflect costs that are no greater in any material respect than Operator could obtain on an arm's-length basis with a bona fide third party at such time. Notwithstanding anything to the contrary in this Agreement, Operator shall be permitted to delegate any of its rights, duties and obligations under this Agreement and the Ownership Agreement to AEPSC without the consent of Non-Operator Owner, subject to Section 14.4.3.

14.4.3 If one or more Affiliates perform Services as subagents or subcontractors hereunder, Service Provider shall remain liable for such Affiliate's obligations hereunder and for any breach by such Affiliate of the terms of this Agreement (to the same extent as if such breach was committed by Service Provider).

14.5 Not for Benefit of Third Parties. Except where a contrary intention is expressly stated, this Agreement and each provision hereof are for the exclusive benefit of the Parties that executed this Agreement and not for the benefit of any third party.

14.6 Force Majeure.

14.6.1 Events Constituting Force Majeure. A "Force Majeure Event" is any event that (i) restricts or prevents performance under this Agreement, (ii) is not within the reasonable control of the Party affected or caused by the fault or negligence of the affected Party and (iii) cannot be overcome or avoided by the exercise of due care. Force Majeure Events include the following, so long as in each case the requirements of the foregoing clauses (i), (ii) and (iii) are satisfied, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, tornado or other unusually severe storm or environmental conditions, epidemic, war (whether declared or undeclared), terrorism (whether domestic or foreign, state-sponsored or otherwise), revolution, insurrection, riot, civil disturbances, protests, sabotage (but not including any sabotage involving personnel of Operator), work stoppages (i.e., strikes) (but not including any work stoppages or strikes involving any personnel of Operator, whether on-site or off-site), accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Facility, other acts or omissions of any Governmental Authority, including any form of compulsory government acquisition or condemnation of all or part of the Facility (including a "taking"), restraint by court order, changes in Applicable Law that affect

performance under this Agreement, other acts of Governmental Authorities including in response to any of the foregoing. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default in respect to any obligation if and to the extent that performance of such obligation is prevented by a Force Majeure Event. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations.

14.6.2 Notice. If a Party's ability to perform its obligations under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event, its cause, its anticipated duration and any action being taken to avoid or minimize its effect and confirm the same in writing within three (3) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) work diligently to remove the cause of the Force Majeure Event or to lessen its effect.

14.6.3 Scope. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than necessary. The excused Party shall use its reasonable best efforts to remedy its inability to perform.

14.7 Dispute Resolution. Any and all disputes shall be resolved pursuant to the dispute resolution procedures set forth in the Ownership Agreement.

14.8 Amendments. No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Parties.

14.9 Survival. Notwithstanding any provisions to the contrary, the obligations set forth in Article VII and Article VIII, Article X, Article XI and Article XII, Article XIV the limitations on liabilities set forth in Article XI will survive, in full force, the expiration or termination of this Agreement.

14.10 No Waiver. No delay, waiver or omission by the Non-Operator Owner or Operator to exercise any right or power arising from any breach or default by the Non-Operator Owner or Operator with respect to any of the terms, provisions or covenants of this Agreement shall be construed to be a waiver by the Non-Operator Owner or Operator of any subsequent breach or default of the same or other terms, provisions or covenants on the part of the Non-Operator Owner or Operator.

14.11 Notices. Any written notice required or permitted under this Agreement shall be deemed to have been duly given on the date of receipt, and shall be either delivered personally to the Party to whom notice is given, or mailed to the Party to whom notice is to be given, by facsimile, courier service or first-class registered or certified mail, return receipt requested, postage prepaid, and addressed to the addressee at the address indicated below, or at the most recent address specified by written notice given in the manner provided in this Section 14.11:

If to Operator:

14.12 Representations and Warranties. Each Party represents and warrants to the other Party that, as of the date hereof:

14.12.1 Existence. It is duly organized and validly existing under the laws of the state of its organization and has all requisite power and authority to own its property and assets and conduct its business as presently conducted or proposed to be conducted under this Agreement.

14.12.2 Authority. It has the power and authority to execute and deliver this Agreement, to consummate the transactions contemplated hereby and to perform its obligations hereunder.

14.12.3 Validity. It has taken all necessary action to authorize its execution, delivery and performance of this Agreement, and this Agreement constitutes the valid, legal and binding obligation of such Party enforceable against it in accordance with its terms, except as such enforcement may be limited by Bankruptcy, insolvency, moratorium or similar laws affecting the rights of creditors or by general equitable principles (whether considered in a proceeding in equity or at law).

14.12.4 No Conflict. Neither the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, nor the fulfillment of the terms and conditions hereof, conflicts with or violates any provision of its constituting documents.

14.12.5 No Consent. No consent or approval (including any Permit that such warranting Party is required to obtain) is required from any third party (including any Governmental Authority) for either the valid execution and delivery of this Agreement, or the performance by such Party of its obligations under this Agreement, except such as have been duly obtained or will be obtained in the ordinary course of business.

14.12.6 No Breach. None of the execution or delivery of this Agreement, the performance by such Party of its obligations in connection with the transactions contemplated hereby, or the fulfillment of the terms and conditions hereof either conflicts with, violates or results in a breach in any material respect of, any Applicable Law currently in effect, or conflicts with, violates or results in a breach of, or constitutes a default under or results in the imposition or creation of, any lien or Encumbrance under any material agreement or instrument to which it is a party or by which it or any of its properties or assets are bound.

14.12.7 No Material Claims. It is not a party to any legal, administrative, arbitral or other proceeding, investigation or controversy pending or threatened that would adversely affect such Party's ability to perform its obligations under this Agreement.

14.13 Additional Representation and Warranty by Operator. Operator further represents and warrants to the Non-Operator Owner that it has, or has obtained through the retention of a qualified operations and maintenance service provider, substantial expertise and experience in the operation and maintenance of comparable power generation facilities and it, or its applicable subcontractor, is fully qualified to provide such services at the Facility in accordance with the terms of this Agreement.

14.14 Counterparts. The Parties may execute this Agreement in counterparts that, when signed by each of the Parties, constitute one and the same instrument. Thereafter, each counterpart shall be deemed an original instrument as against any Party who has signed it. Delivery of an executed counterpart of this Agreement by facsimile or electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

14.15 Governing Law; Venue; Waiver of Jury Trial. The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of New York, exclusive of the conflicts of law provisions thereof that would require the application of the laws of a different jurisdiction. Each Party hereby agrees that any Action arising out of or relating to this Agreement brought by a Party(or any of their respective successors or assigns) shall be brought and determined in any state or federal court sitting in the State of New York, within the Borough of Manhattan, City of New York, and the Parties hereby irrevocably submit to the exclusive jurisdiction of the aforesaid courts for themselves and with respect to their property, generally and unconditionally, with regard to any such Action arising out of or relating to this Agreement and the transactions contemplated hereby, and the appellate courts from any thereof in connection with any action arising out of or relating to this Agreement or any other agreement related to the Facility or any Facility asset and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or that such action was brought in an inconvenient court. EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

14.16 Interpretation. Titles or captions contained in this Agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, describe or otherwise affect the scope or meaning of this Agreement or the intent of any provision hereof. All exhibits and appendices attached hereto are considered a part hereof as though fully set forth herein. This Agreement was jointly drafted and negotiated by the Parties. In the event of a dispute, this Agreement shall not be construed against either Party based upon its drafting.

14.17 Severability. If any provision of this Agreement, or the application of any such provision to any Person or circumstance, is held invalid by any court or other forum of competent jurisdiction, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those as to which it is held invalid, shall nevertheless remain

in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner materially adverse to a Party. Upon any such determination of invalidity, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that this Agreement is consummated as originally contemplated to the greatest extent possible.

14.18 Cooperation in Financing. Operator shall execute and deliver any customary and reasonable agreement and consent to assignment, together with an opinion of counsel at Non-Operator Owner's expense, as may be reasonably requested by Non-Operator Owner in connection with any financing of the Facility. Operator shall promptly respond to reasonable requests, including requests for management presentations, by Non-Operator Owner and any of its Lenders or their representatives, in each case at Non-Operator Owner's sole cost and expense, for information regarding the Operator and its performance of its duties hereunder and the operation, maintenance and administration of the Facility. Operator agrees to use commercially reasonable efforts to cooperate with any of Non-Operator Owner's Lenders and their representatives and to provide such Lenders and representatives with reasonable access to and tours of the Facility (including review of documents, materials, records and accounts), in each case at Non-Operator Owner's sole cost and expense.

APPENDIX A – SCOPE OF SERVICES

Routine Services	Provide operational services as reasonably necessary for electrical power generation.
Detailed Programs	Implement Operator human resources program. Implement Operator-drafted, Owner-approved programs in safety, administration, maintenance, and training. Implement Facility's existing programs in operating, maintenance, chemistry, NERC and environmental compliance (or, at the Operating Committee's request, develop or enhance such programs at actual cost and implement). Ensure compliance with NERC requirements, Environmental Law, Applicable Law, and all Permits.
Routine Maintenance	Perform routine and preventive maintenance actions on all Facility systems and equipment in accordance with vendor instructions and the maintenance plan for the Facility. This program includes: **Service Checks** – Conduct visual equipment inspections and log significant parameters such as pressures, temperatures, and flow rates. Trend and analyze this information as appropriate. **Routine and Fixed Interval Maintenance** –Identify preventive maintenance requirements. Schedule and assign routine maintenance during Facility operation, planned outages, and forced or unscheduled outages.
Predictive Maintenance Program	As appropriate, conduct/oversee predictive maintenance within the cost-effective capability of the Facility Personnel. For those maintenance requirements that are not cost-effective for the Facility Personnel, oversee predictive maintenance services provided by vendors.
Major Maintenance and Repairs	In coordination with and support of the Facility Agreements and generation plan, arrange for scheduled inspections and overhauls on major equipment. Retain vendors for the benefit of the Owners for unscheduled major repairs as required and manage and oversee repairs and modifications.
Capital Improvements	Conduct/oversee all capital improvements. As appropriate, retain vendors for the benefit of the Owners to design, construct and implement capital improvements.
Facility Outages	Use commercially reasonable efforts to manage all Facility outages (planned, unscheduled, forced) to optimize outage duration and impact on production: **Task Assignment** – Identify and schedule all maintenance that requires a Facility outage or equipment to be taken out of service.

	Work Schedule – Develop and implement a schedule to track material outage preparations, work and testing, including corrective maintenance actions, contractor work and scheduled preventive maintenance. Conduct preparations to support this plan, including ordering and receiving required spare parts.
Assistance to the Non-Operator Owner and Operating Committee	Provide assistance to the Non-Operator Owner and the Operating Committee, as reasonably requested with the execution of the Non-Operator Owner's and the Operating committee's duties relative to operation of the Facility.
Facility Administration	Conduct administration to meet Operator requirements and Owners' goals, including: **Budgets** – Prepare annual Budgets and submit them for Operating Committee approval in accordance with the Ownership Agreement and this Agreement. Following approval, manage operations and expenditures to comply with each Budget. Generate budget variance reports, as required. **Procurement** – Establish and implement a purchasing system. Procure, for the benefit of the Owners, including negotiations and contracting, for all materials, equipment, chemicals, supplies, services, parts, and other miscellaneous items required for the provision of the Services. Pay all invoices in a timely manner. Provide credit support as required by third parties for the operation of the Facility, including contract counterparties and Governmental Authorities. Minimize Owner costs as much as feasible. **Inventory Control** – Implement a cost-effective inventory control system designed to ensure that spare parts, materials, and supplies are properly stored and accounted for and that adequate supplies are available at all times to support the provision of the Services. **Personnel Matters** – In compliance with Operator programs and policies, manage all payroll and employee relations, labor relations, and independent contractor issues, as required. These tasks include: employment; compensation and benefits; initial training; and employee and independent contractor relations. Provide reasonable support to recruit, hire, transfer, or otherwise acquire and retain qualified Facility Personnel to maintain the staffing levels and skill mix required for successful long-term provision of the Services. **Community Relations** – In coordination with and with the approval of the Operating Committee, conduct a community relations program to establish the Facility and its employees as "good citizens" in the local community.

	Regulatory – Perform all duties set forth in Section 7.8 of the Ownership Agreement with respect to Emission Allowances (as defined therein).
Work Assignment	Assign work to either Facility Personnel or vendors as cost-effective and appropriate based on overall guidance from the Operating Committee. Normally, Facility Personnel conduct preventive maintenance and actions requiring a high degree of Facility knowledge and vendors perform tasks needing equipment or expertise that are not cost-effective to maintain at the Facility. Vendors also perform tasks that make sense to minimize outage time and costs.
Buildings and Grounds	Arrange for janitorial, garbage pickup and landscape services and maintain all access roads, office buildings, and other structures in reasonable repair.
Reports	Prepare and submit operation and maintenance service reports as requested relative to performance, including environmental compliance records, maintenance and repair status, Facility operating data, and any other information reasonably requested by the Operating Committee or the Non-Operator Owner.
Security	Implement or arrange for implementation of security measures in accordance with the Operating Committee-approved Facility security plan.
Safety	Continue to implement Corporate and Plant Level Safety Programs including on-site visits and discussions at the facility.
PJM Capacity Analysis	Analysis and plant level information to PJM as part of PJM's FRR or RPM Capacity Market requirements
Information Systems	Manage the Facility's information technology infrastructure, including phone systems, internet connectivity, hardware and software. Implement or arrange for implementation of cybersecurity policies and procedures in compliance with NERC requirements and Applicable Law, in accordance with the Operating Committee-approved Facility cybersecurity plan.
Training Program	Implement a continuing program of training designed to orient new Facility Personnel, refresh/cross-train existing Facility Personnel, qualify/re-qualify Facility Personnel, and keep all Facility Personnel aware of Operating Committee -approved Facility safety requirements and emergency procedures. This program includes specialty skills training.
Drawing/Manual Maintenance	Maintain the Facility library and update the Manuals and vendor service manuals. Update (or arrange for updating) Facility drawings to reflect changes to the as-built configuration. In addition to

	document management, maintain physical Facility configuration control.
Fuel Purchasing and Handling	• Procure coal, reagents, fuel oil supply or transportation service agreements as needed to operate the Facility and establish and maintain reserves of coal in common stock piles of such quality and in such quantities as the Operating Committee shall determine • Contract administration for Fuel supply contracts along with legal review. • Third Party Settlements of fuel related supply and inventory tracking in ComTrac system • Joint Books Accounting to prepare information for billing among co-owners per agreement • Analysis of fuel related costs for data requests from regulatory bodies or joint owner • Provide fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by the Facility during each month. • Receive coal and provide fuel handling • Fuel coordinator functions to review fuel quality with third party suppliers at coal or limestone facilities. • Administer and reconcile volumes of all fuel with suppliers • Administer and comply with the requirements set forth in the Facility's fuel agreements, including quality testing and invoice review and approval • Administer and comply with the requirements set forth in the Facility's coal ash, gypsum and combustion byproduct disposal and sales agreements, including invoice review and approval
Day Ahead and Real Time Market Operations	• Unit Generation Dispatch – Monitor signals and take direction from PJM for generating units. Relay these directions, commitments and settings to the Unit Operators and Controls. Relay information on real time unit conditions to Transmission Owner (TO) and PJM. • GADS Reporting – Create GADS events as they are scheduled

	or occur. Submit monthly event reporting as required by NERC and PJM. • Outage Support and Communications to PJM – Relay outage/curtailment information from plant personnel to PJM. Schedule maintenance and planned outages/curtailments, and maintain updates as they arise. • Unit Characteristic Updates to PJM – Provide any relevant configuration updates related to generating units to PJM that may occur. • Telemetry – Maintain current real time telemetry to/from the plant, PJM and Market Operations control center.
Administration of Contracts	• Administer, perform and enforce all contractual obligations and arrangements, including all warranties applicable thereto, entered into by Operator for the benefit of the Owners with respect to the Facility • Act as agent on behalf of the Non-Operating Owner with respect to the administration, performance and enforcement of any contracts or purchase orders (including fuel supply or transportation contracts) with respect to the Facility that are in the name of the Non-Operator Owner as a result of the Non-Operator Owner having served as the Operator prior to the Effective Date
Insurance	• Procure on behalf of each Owner such property and other insurance policies as required by the insurance program established by the Operating Committee in accordance with the Ownership Agreement.
Decommissioning	• Manage and contract with vendors and other parties to perform Decommissioning Work. This includes the management of required regulatory filings, permitting, engineering assessments, and the contracting for demolition and or liability transfers. Upon mutual agreement between Operator and the Operating Committee, Operator may conduct all or a portion of the Facility and/or Site Decommissioning from its and its Affiliates resources.

MITCHELL PLANT OWNERSHIP AGREEMENT

KENTUCKY POWER COMPANY

and

WHEELING POWER COMPANY

TABLE OF CONTENTS

Page

THIS MITCHELL PLANT OWNERSHIP AGREEMENT (this "Agreement"), with an effective date of [_____] (the "Effective Date"), is by and among Kentucky Power Company, a Kentucky corporation qualified as a foreign corporation in West Virginia ("KPCo"); Wheeling Power Company, a West Virginia corporation ("WPCo") (such parties hereinafter sometimes referred to as an "Owner" and together the "Owners"); and, solely with respect to Section 13.4, American Electric Power Service Corporation, a New York corporation ("AEPSC").

WITNESSETH:

WHEREAS, KPCo and WPCo, as of the date hereof, each own a fifty percent (50%) undivided ownership interest in the Mitchell Power Generation Facility (each such percentage interest, an Owner's "Ownership Interest"), which consists of two coal-fired generating units (each, a "Unit") ~~and associated plant, equipment, real estate and other related facilities~~, with each Unit having a nominal nameplate capacity of 800 MW, located in Moundsville, West Virginia (as further defined herein, the "Mitchell Plant");

WHEREAS, KPCo, WPCo and AEPSC are parties to that certain Mitchell Plant Operating Agreement, dated as of December 31, 2014 (the "Original Operating Agreement");

WHEREAS, the Original Operating Agreement sets forth certain rights and obligations of the Owners and AEPSC with respect to the Mitchell Plant and the Owners' ownership thereof;

WHEREAS, pursuant to the Original Operating Agreement, KPCo is responsible for the day-to-day operations and maintenance of the Mitchell Plant;

WHEREAS, the Owners and AEPSC desire to replace the Original Operating Agreement to set forth the rights and obligations of the Owners with respect to the Mitchell Plant and their ownership thereof and to remove AEPSC as a party thereto;

WHEREAS, in connection with the execution of this Agreement, the Owners desire to execute a separate operations and management agreement to provide for the day-to-day operation and maintenance responsibilities in respect of the Mitchell Plant (as may be amended from time to time the "O&M Agreement"); ~~and~~

WHEREAS, the Owners have agreed that, subject to the terms and conditions of the O&M Agreement, on and after the Effective Date WPCo shall replace KPCo as the operator of the Mitchell Plant (the "Operator"); and

WHEREAS, the Owners have committed to undertake a Buyout Transaction (as hereinafter defined), pursuant to which WPCo shall purchase KPCo's Ownership Interest on or prior to December 31, 2028, unless an Early Retirement Event (as hereinafter defined) occurs.

NOW THEREFORE, in consideration of the premises and for the purposes hereinabove recited, and in consideration of the mutual covenants hereinafter contained, the signatories hereto agree as follows:

ARTICLE ONE
OWNERSHIP AND OPERATIONS

1.1 To the greatest extent permitted by Applicable Law ~~(as defined below)~~, the Mitchell Plant and all assets (tangible and intangible) and property (real and personal) owned, leased, held, developed, constructed or acquired solely for or in connection with the Mitchell Plant or the operation, maintenance~~, decommissioning~~ or ~~retirement~~Decommissioning of the Mitchell Plant by or on behalf of an Owner or the Owners (together, the "Project Assets") shall be owned and held and deemed to be owned and held by the Owners as tenants in common in proportion to their respective Ownership Interests (except for any capital items owned in a different proportion in accordance with Section 1.8) or, in the event any Project Asset cannot be held directly by both of the Owners due to, inter alia, any pre-existing legal or contractual restrictions that cannot be altered or satisfied or where effectuating such ownership structure would result in unreasonable additional expense to the Owners, by the Operator as trustee for the Owners as tenants in common in proportion to their respective Ownership Interest. If the ownership of any Project Asset is registered or recorded in the name of one of the Owners, and notwithstanding the Owners' efforts such Project Asset cannot be held directly by both Owners as contemplated above, then such Owner in whose name ownership is registered or recorded shall hold such Project Asset in trust for itself and the other Owner in proportion to their respective Ownership Interests and, to the extent necessary or requested by the Operator, make such Project Assets (or the benefits thereof) available for the use of the Operator for the benefit of the Owners, including by such Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such Project Assets.

~~"Applicable Law" means all laws, statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, governmental approvals, permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over an Owner, any other person or entity (as to that person or entity), this Agreement, any Project Asset or the Mitchell Plant, as applicable.~~

~~"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision, department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.~~

1.2 At the request of either Owner, and in accordance with Section 1.1, each Owner and the Operator shall execute all documents and do all things necessary or appropriate to register or record the Project Assets in the names of the Owners in proportion to their respective Ownership Interests (or such different proportion as any capital item may be owned in accordance with Section 1.8).

1.3 All assets (tangible and intangible) and property (real and personal) held, developed, constructed or acquired by or on behalf of the Operator for or on behalf of the Owners jointly, or any of them, shall constitute "Project Assets" subject to the ownership of both Owners as set forth ~~above~~in Sections 1.1 and 1.2. Except as otherwise agreed by the Owners, the

Operator shall not have any right, title or interest in or to any such assets, or in or to any money paid to, collected or received by the Operator for or on behalf of either Owner, except as the agent or representative of, or for the use and benefit of, such Owners as set forth in this Agreement and in proportion to each Owner's respective Ownership Interest.

1.4 Each Owner hereby waives any rights it may have at law or equity to bring an action for partition or division of the Mitchell Plant or any Project Asset or any contracts related thereto, and agrees that it shall not (a) seek partition or division of the Mitchell Plant or any Project Asset or any contracts related thereto, or (b) take any action, whether by way of any court order or otherwise, for physical partition or judicial sale in lieu of partition of the Mitchell Plant or any Project Asset or any contracts related thereto. Nothing in this Section 1.4 shall affect the right of either Owner to dispatch its respective share of the Total Net Capability under Article Two or to Dispose of its Ownership Interest in accordance with Article Nine.

1.5 On and after the Effective Date, WPCo shall be the Operator responsible for the day-to-day operations and maintenance of the Mitchell Plant and shall operate, maintain~~, decommission~~ and ~~retire~~Decommission the Mitchell Plant in accordance with the terms and conditions of this Agreement and the O&M Agreement. KPCo agrees to take all actions reasonably necessary to facilitate WPCo's operation, maintenance~~, decommissioning~~ and ~~retirement~~Decommissioning of the Mitchell Plant, including providing or permitting access to the Mitchell Plant to third party contractors and other contract counterparties of each Owner or the Operator with respect to the administration, implementation and satisfaction of such contracts or agreements executed or assumed by the Operator on behalf of either Owner relating to the Mitchell Plant, including all Facility Agreements (as defined in the O&M Agreement).

1.6 The Owners shall establish and maintain such bank accounts as may from time to time be required or appropriate for paying the costs and expenses, including capital expenditures, in respect of the ownership, operation, maintenance~~, decommissioning~~ and ~~retirement~~Decommissioning of the Mitchell Plant.

1.7 The initial capital budget for the period from the Effective Date through December 31, 2028 (including agreed allocations of costs for capital projects between the Owners) (the "Capital Budget"), the initial annual operating budget and the initial forecast of operating and capital costs to be incurred for the period from the Effective Date through December 31, 2028 are attached hereto as Exhibit A.

1.8 Notwithstanding the provisions of this Article One, to the extent that WPCo funds or bears an amount greater than 50% of any capital expenditures or ELG Expenses as contemplated in the Capital Budget or this Agreement, the resulting property, plant and equipment, or improvements thereto, shall be owned by the Owners in proportion to their respective amounts funded and shall be included only in such proportion in each Owner's ownership accounts for regulatory, accounting, tax and other purposes.

ARTICLE TWO
APPORTIONMENT OF CAPACITY AND ENERGY

2.1 The total net capability of the Mitchell Plant at low-voltage busses of the Units, after taking into account auxiliary load demand, is 1,560,000 kilowatts (the "Total Net Capability") as of the Effective Date. The Owners may from time to time modify the Total Net Capability of the Mitchell Plant as they may mutually agree.

2.2 The total net generation of the Mitchell Plant during a given period, as determined by the requirements of each Owner, shall mean the electrical output of the Mitchell Plant generators during such period, measured in kilowatt hours by suitable instruments, reduced by the energy used by auxiliaries for each Unit during such period (the "Total Net Generation").

2.3 Each Owner shall be entitled to receive~~, in proportion to its respective Ownership Interest,~~ 50% of the Total Net Capability and the Total Net Generation (with respect to each Owner, such Owner's "Assigned Capacity"), and all associated energy, capacity, ancillary services and other energy products, in accordance with this Agreement.

2.4 Except as set forth in Section 7.6 (including the applicable subsections in Section 7.6), in any hour, ~~the Owners~~each Owner shall share 50% of the minimum load responsibility of each Unit~~ in respective amounts proportionate to their respective Ownership Interests~~.

2.5 In any hour during which any Unit is out of service, the Owners shall bear equally the cost of energy used by the out-of-service Unit's auxiliaries during such hour, which may be provided by the applicable local utility ~~affiliate~~Affiliate of an Owner. Alternatively, the Owners may mutually agree in writing to each provide 50% of such energy~~ in an amount proportionate to their respective Ownership Interests at such time~~.

ARTICLE THREE
REPLACEMENTS, ADDITIONS, AND RETIREMENTS

3.1 The Owners shall cause the Operator, pursuant to the O&M Agreement, from time to time to make or cause to be made any additions to, replacements of, and retirements of, capitalizable facilities associated with the Mitchell Plant in accordance with the ~~approved annual budget~~Capital Budget and the O&M Agreement.

3.2 ~~The dollar amounts associated with any additions to, replacements of, or retirements of, capitalizable facilities associated with the Mitchell Plant shall be allocated to each Owner in an amount proportionate to its respective Ownership Interest at the time such additions, replacements, or retirements are made~~In the event that, prior to execution and delivery of the Mitchell Interest Purchase Agreement, an Early Retirement Event occurs, each Owner shall (a) cause each Unit to permanently cease operations on December 31, 2028, or such other date permitted by Applicable Law as the Operating Committee may determine, (b) be responsible for, and shall timely pay, 50% of all Decommissioning Costs, (c) cooperate in good faith and take all actions reasonably necessary to facilitate the Decommissioning Work, including negotiating in good faith any contracts or agreements (including liability transfer arrangements) on behalf of either Owner or Operator, including transfers, conveyances or assignments of Facility Equipment (as defined in the O&M Agreement), as reasonably requested by either Owner or Operator to facilitate Decommissioning and (d) take, and/or cause the Operator pursuant to the O&M Agreement to take, such actions to continue operating and

maintaining the barge loading facilities and gypsum conveyor system at the Mitchell Plant and providing use of such facilities and system to the applicable contract counterparty and its representatives in accordance with, and until the expiration or earlier termination of, the CertainTeed Contract.

ARTICLE FOUR
WORKING CAPITAL REQUIREMENTS

4.1 The Owners shall periodically mutually determine the amount and timing of funds required for use as working capital, for operating, capital and other expenses incurred in the operation, maintenance~~, decommissioning~~ and ~~retirement~~Decommissioning (including the Decommissioning Costs) of the Mitchell Plant, and in buying equipment, materials, parts, fuel and other supplies and services necessary to operate, maintain~~, decommission~~ and ~~retire~~Decommission the Mitchell Plant and to make the timely payments of any expenses required under the O&M Agreement.

4.2 Each Owner shall, in accordance with the timing set forth in a determination made pursuant to Section 4.1, promptly provide ~~its share~~50% of any such amount required by the Owners pursuant to Section 4.1 ~~in an amount proportionate to its respective Ownership Interest at such time~~, except as otherwise provided for in Section 6.7.

4.3 Each Owner agrees that if such Owner fails at any time during the ~~term of this Agreement~~Term to satisfy the Ratings Requirement, it will, within thirty (30) days of such failure, provide in favor of the other Owner and maintain credit support in the form of (a) a cash deposit, (b) a guaranty issued by an Affiliate of such Owner that ~~satisfied~~satisfies the Ratings Requirement in form and substance reasonably acceptable to the other Owner or (c) a letter of credit in form and substance reasonably acceptable to other Owner, issued by a commercial bank or other financial institution with a Credit Rating of at least "A-" by S&P Global Ratings, or any successor thereto ("S&P") or at least "A3" by Moody's Investors Service, Inc., or any successor thereto ("Moody's"), and in an amount equal to (i) one-half (~~1/2~~1/2) of the then-applicable annual operating ~~budget and annual capital~~ budget for the Mitchell Plant established pursuant to Section 7.2 from time to time, plus (ii) the sum of such Owner's allocated amount of capital expenditures for such year contained in the then-applicable Capital Budget, plus (iii) an amount equal to the latest estimate of Decommissioning Costs prepared by the Operator, determined on a net present value basis using a discount rate equal to the WACC as of the date of determination. Such credit support posted in favor of an Owner ~~may be replaced by such~~ shall be promptly returned within thirty (30) days of the other Owner furnishing written evidence demonstrating that it satisfies the Ratings Requirement.

~~"Credit Rating" means with respect to any entity, the rating then assigned to such entity's unsecured, senior long-term debt or deposit obligations (not supported by third party credit enhancements) by S&P or Moody's. If no rating is assigned to such entity's unsecured, senior long-term debt or deposit obligations by S&P or Moody's, then "Credit Rating" means the general corporate credit rating or long-term issuer rating assigned to such entity by S&P or Moody's. If an entity is rated by both S&P and Moody's and the ratings are at different levels, then "Credit Rating" means the lowest such rating.~~

~~"Ratings Requirement" shall mean a Credit Rating for such Owner (or if such Owner has provided a guaranty issued by an Affiliate to satisfy its obligations under this Section 4.3, such Owner's Affiliate guarantor) of at least "BBB-" by S&P or at least Baa3 by Moody's, and if such Credit Rating is "BBB-" by S&P or "Baa3" by Moody's then such Credit Rating must not be on negative credit watch by S&P or Moody's.~~

4.4 The Operator shall provide such credit support, including guarantees, cash deposits, letters of credit or other forms of credit support, to third parties (including contractual counterparties and Governmental Authorities) as required for the Owners' ownership, operation, maintenance~~, decommissioning~~ and ~~retirement~~Decommissioning of the Mitchell Plant. To the extent that the Operator is required to provide such credit support to a third party in connection with any activity performed in respect of the Mitchell Plant under this Agreement (including the procurement of fuel as described in Section 5.1), the Owners shall share the cost of the third-party credit support incurred by the Operator (including credit support furnished by an ~~affiliate~~Affiliate of the Operator) in accordance with their respective Ownership Interests.

ARTICLE FIVE
INVESTMENT IN FUEL

5.1 The Operator shall procure, establish and maintain reserves of coal in common stock piles for the Mitchell Plant of such quality and in such quantities as the Operating Committee shall determine to be required to provide adequate fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by each Unit during each month. For purposes of this Agreement, "consumables" shall be as defined in account 502 of the Uniform System of Accounts administered by the Federal Energy Regulatory Commission ("FERC").

5.2 The quality of any coal or consumable product provided by the Operator must be reasonably acceptable to both Owners. Any coal being utilized shall be deemed to be acceptable to the Owners if it meets the following requirements: (a) coal previously utilized at the Mitchell Plant with satisfactory operating performance shall be considered acceptable for use in the Mitchell Plant, unless deemed unacceptable due to a required change of the engineering specifications making the coal no longer viable; (b) coal from any new seam or source shall be acceptable if such supply is shown to perform satisfactorily in the Mitchell Plant and is mutually acceptable to each Owner; or (c) as otherwise mutually agreed to by each Owner. Consumables from any new seam or source shall be acceptable if such supply is shown to perform satisfactorily in the Mitchell Plant and conform to the then current engineering specifications for the Mitchell Plant or as otherwise mutually agreed to by each Owner.

5.3 ~~At any time, each~~Each Owner~~'s respective shares~~ shall be responsible for, and own, 50% of the investment in the common coal stock piles~~ shall be proportionate to its respective Ownership Interest~~.

5.4 Fuel oil and consumables charged to operation for the Mitchell Plant shall be owned and accounted for between the Owners in the same manner as coal.

ARTICLE SIX
APPORTIONMENT OF STATION COSTS

6.1 The allocation to the Owners of fuel expense associated with each Unit shall be determined by the Operator as follows:

(a) In any calendar month, the average unit cost of coal available for consumption from the Mitchell Plant common coal stock piles shall be determined based on the prior month's ending inventory dollar and ton balances plus current month receipts delivered to the Mitchell Plant common coal stock piles. Each Owner's average unit-cost will be the same, and receipts and inventory available for consumption amounts will be allocated to each Owner based on monthly usage.

(b) The number of tons of coal consumed by the Mitchell Plant in each calendar month from the Mitchell Plant common coal stock piles shall be determined and shall be converted into a dollar amount equal to the product of (i) the average cost per ton of coal associated with the Mitchell Plant in the Mitchell Plant common coal stock pile at the close of such month, and (ii) the number of tons of coal consumed by the Mitchell Plant from the Mitchell Plant common coal stock piles during such month. Such dollar amount shall be credited to the Mitchell Plant fuel in the stock pile and charged to the Mitchell Plant fuel consumed.

(c) In each calendar month, each Owner's respective shares of the Mitchell Plant fuel consumed expense as determined by the provisions of Section 6.1(b) shall be proportionate to each Owner's dispatch of the Mitchell Plant in such month.

(d) Fuel oil reserves will be owned and accounted for in the same manner as coal stock piles, and fuel oil consumed will be allocated to the Owners in the same manner as coal consumed.

6.2 For each calendar month, the Operator will, to the extent practicable and in accordance with the O&M Agreement, determine all of the Mitchell Plant's operations expenses and associated overheads, as accounted for under the FERC Uniform System of Accounts.

6.3 For each calendar month, the Operator will, to the extent practicable and in accordance with the O&M Agreement, determine all the Mitchell Plant's maintenance expenses and associated overheads, as accounted for under the FERC Uniform System of Accounts.

6.4 In each calendar month, each Owner's respective shares of operations~~,~~ and maintenance~~, decommissioning and retirement~~ expenses associated with the Mitchell Plant, as determined in accordance with ~~Sections 6.2 and 6.3~~this Article Six, shall be allocated as follows:

(a) Each Owner's respective share of the Mitchell Plant steam expenses as recorded in FERC Account 502, and emission tons, with allowance expenses as recorded in FERC Account 509, shall be proportionate to each Owner's dispatch of the Mitchell Plant in such month.

(b) In each calendar month, the maintenance of boiler plant expenses as recorded in FERC Account 512, and maintenance of electric plant expenses as recorded in FERC Account 513, shall be directly assigned to each Unit or designated as a common expense attributable to both Units. In each calendar month, each Owner's respective share of these expenses shall be proportionate to each Owner's dispatch of the applicable Unit, or both Units in the case of common expenses, over the previous sixty (60) calendar months.

(c) In each calendar month, each Owner~~'s respective shares~~ shall be responsible for 50% of all other Steam Power Generation Expenses (FERC Accounts 500 - 515) not addressed in Section 6.4(a) and Section 6.4(b)~~ shall be proportionate to its respective Ownership Interest~~. Administrative and General Expenses (FERC Accounts 920 – 935) shall be assigned to the Mitchell Plant through an annual wages and salaries allocator applied to monthly Administrative & General Expenses. ~~This~~Each Owner shall be responsible for 50% of this monthly amount~~ shall be proportionate to the Owners' respective Ownership Interests~~; provided, however, that, for the avoidance of doubt, each Owner shall be individually responsible for any fees, costs or other charges, including but not limited to those imposed by PJM Interconnection, L.L.C. ("PJM") or any regional transmission operator or any other Governmental Authority in respect of, or which are attributable to, the sale or transmission of the capacity or energy associated with its Ownership Interest, as the case may be.

(d) Notwithstanding the foregoing clauses (a) through (c), in each calendar month, any operations and maintenance expenses directly attributable to any ELG Upgrade (regardless of the FERC Account to which it is charged) shall be allocated exclusively to WPCo.

(e) ~~(d)~~ In each calendar month, each Owner's respective share of Construction Work In Progress charged to FERC Account 107 shall be ~~proportionate to their respective Ownership Interest~~allocated on the same basis as capital expenditures, as set forth in Section 6.7.

(f) ~~(e)~~ In each calendar month, the net change in Mitchell Plant storeroom inventory (inventory purchases less issuances of inventory) charged to FERC Account 154 shall be ~~shared based on~~allocated 50% to each Owner~~'s respective Ownership Interest~~.

(g) ~~(f)~~ Each Owner shall be charged ~~their respective Ownership Interest~~50% of Operating Costs, as defined in and in accordance with Section 7.2 of the O&M Agreement, except to the extent ~~incurred by the Operator in~~ a different allocation for specific FERC ~~account not~~Accounts or otherwise ~~specifically referenced~~is specified in this Article ~~VI~~Six.

6.5 All taxes, duties or assessments levied against or with respect to each Owner's Ownership Interest, or an Owner's purchase, use, ownership or beneficial interest in, or income from, the Mitchell Plant shall be the sole responsibility of, and shall be paid by, the Owner upon whose purchase, use, ownership interest or beneficial interest or income said taxes or assessments are levied. Without limiting the foregoing, in each calendar month, each Owner's respective share of Employee Payroll Taxes charged to FERC Account 408 shall be ~~proportionate to their respective Ownership Interest~~50%.

6.6 Notwithstanding any other provision of this Agreement or any other agreement to the contrary, each Owner hereby acknowledges and agrees that (a) each Owner prior to the Effective Date has treated, and subsequent to such date shall continue to treat, the co-ownership and operation of the Mitchell Plant as excluded from Subchapter K of the Internal Revenue Code of 1986, as amended (the "Tax Code"), pursuant to Section 761(a) thereof, for all federal, state and local income tax purposes, (b) each Owner prior to the Effective Date affirmatively elected not to apply any of the provisions of Subchapter K of the Tax Code to such Owner's interest in the Mitchell Plant, with such election having been formally filed in connection with the Owners' applicable income tax returns for the taxable year ending on December 31, 2020 and each Owner has taken all actions necessary to implement such election and (c) each Owner prior to the Effective Date has reported, and subsequent to such date shall report, its share of all income, gains, deductions, losses, credits, etc. from its Ownership Interest on its tax returns consistent with such exclusion from the provisions of Subchapter K of the Tax Code.

6.7 The cost of any ~~retirement, decommissioning,~~ replacement ~~or~~, addition, improvement or upgrade of each Unit or any portion of the Mitchell Plant~~, and any restoration or remediation required in connection therewith,~~ shall be ~~shared by~~allocated between the Owners in ~~proportion to their Ownership Interests~~accordance with the allocations for such capital items contained in the Capital Budget. With respect to any such capital item not contained in the Capital Budget, the costs of such capital item shall be allocated as follows, unless the Operating Committee agrees upon a different allocation:

(a) Capital expenditures (other than ELG Expenses) that the Operating Committee determines have been or will be incurred exclusively for one Owner shall be allocated exclusively to, and paid for by, that Owner.

(b) ELG Expenses shall be allocated exclusively to, and paid for by, WPCo (subject to adjustment of the Buyout Price in accordance with Section 9.6).

(c) If the in-service date of a capital item is anticipated by the Operating Committee to be after December 31, 2028, then the capital expenditures for such capital item shall be allocated exclusively to, and paid for by, WPCo.

(d) If the Operating Committee determines that a capital item (other than an ELG Upgrade) has a Useful Life that extends beyond December 31, 2028, then (i) KPCo shall be responsible for and shall pay 50% of the expenditures for such capital item, multiplied by (A) the number of months (not to exceed the Useful Life of such capital item) between the anticipated in-service date of such capital item and December 31, 2028, divided by (B) the Useful Life of such capital item and (ii) WPCo shall be responsible for the remaining amount of such capital expenditure not allocated to KPCo pursuant to the foregoing clause (i).

(e) Any other capital expenditures shall be allocated 50% to each Owner.

6.8 Each Owner shall be responsible for 50% of all Decommissioning Costs, unless a different allocation is specified for such item in the Capital Budget or the Owners mutually agree to allocate such costs in another manner.

6.9 ~~6.8~~ Notwithstanding anything contained in this Agreement, an Owner's obligation to pay its ~~proportionate share of the amounts described in in~~obligations under this Agreement shall not in any way be conditioned upon or affected by any regulatory order or other determination, including but not limited to, any order disallowing, limiting or deferring rate recovery of the costs and expenses paid or payable by an Owner in respect of its Ownership Interest.

ARTICLE SEVEN
OPERATING COMMITTEE AND OPERATIONS

7.1 By written notice to each other, each Owner shall name one representative (the "Operating Representative") and one alternate to act for it in matters pertaining to operating arrangements under this Agreement and the O&M Agreement. An Owner may change its Operating Representative or alternate at any time by written notice to the other Owner. The Operating Representatives for the respective Owners, or their alternates, shall comprise the "Operating Committee". All decisions, directives, or other actions by the Operating Committee must be by unanimous agreement of the Operating Representatives of the Owners.

7.2 The Operating Committee shall have the following responsibilities, which decisions are reserved exclusively for the Operating Committee and may not be made individually by the Operator or any Owner:

(a) Review and approval of any amendments to the Capital Budget, and adoption of an annual operating budget, ~~annual capital budget,~~ annual operating plan and a six-year forecast of operating and capital expenses, each as delivered to the Operating Committee by the Operator pursuant to Section ~~7.10~~7.8, including determination of the emission allowances required to be acquired by each Owner with respect to their Ownership Interests~~.~~; provided, that an Owner's Operating Representative shall have the right to amend the Capital Budget solely to include any capital expenditures for which such Owner shall be allocated greater than 75%[1] of the costs pursuant to Section 6.7. Allocations of new capital expenditures added to the Capital Budget shall be consistent with Section 6.7; provided, that if the Operating Committee cannot agree upon the Useful Life of a capital item or the allocation of a capital expenditure between the Owners, the matter shall be resolved in accordance with the Technical Dispute resolution procedures set forth in Section 12.1 and Section 12.3 and the Owners shall implement any resolution of the Technical Dispute through adjustments or true-up payments, as appropriate. If the Operating Committee fails to ~~approve~~adopt an annual operating budget, the approved annual operating budget from the previous year shall apply until such time as the new annual operating budget is approved. ~~If the Operating Committee fails to approve an annual capital budget, then only capital expenditures previously approved by the Operating Committee, or approved by the Operating Committee on an ad hoc basis, shall be permitted until such time as the new annual capital budget is approved.~~

(b) Establishment, modification and review of procedures and systems for dispatch, notification of dispatch, and Unit commitment under this Agreement, including any

[1] NTD: 75% is the threshold when the majority of the Useful Life of a capital item would occur after 2028.

Unit-commitment pursuant to Section 7.5 or commitment of its Called Capacity pursuant to Section 7.6(b).

(c) Establishment and monitoring of procedures for communication and coordination with respect to the Mitchell Plant capacity availability, fuel-firing options, and scheduling of outages for maintenance, repairs, equipment replacements, scheduled inspections, and other foreseeable cause of outages, as well as the return to availability following an unplanned outage.

(d) ~~Decisions~~To the extent not included in the Capital Budget, decisions on capital projects, including Unit upgrades and re-powering, except that an Owner's Operating Representative shall have the right to approve any such capital projects for which such Owner shall be allocated greater than 75% of the costs pursuant to Section 6.7.

(e) Determinations as to changes in the Unit capability.

(f) Establishment and modification of billing procedures under this Agreement or under the O&M Agreement.

(g) Approval of material contracts for fuel supply or transportation.

(h) Establishment and modification of specifications of fuels; oversight of fuel procurement, inspection and certification arrangements, policies and procedures; and management of fuel inventories.

(i) Establishment of, termination of, and approval of any change or amendment to the operating arrangements (including the O&M Agreement) between the Owners and the Operator (or any successor Operator or replacement third-party Operator) and selection of any replacement Operator, except as otherwise permitted by Section 7.10.

(j) Review and approval of plans and procedures designed to ensure compliance with all Applicable Law, including procedures for allocating and using emission allowances or for any programs that permit averaging at more than one Unit for compliance.

(k) Supervision of the performance of, and provide direction as needed to, the Operator under the O&M Agreement.

(l) Decisions regarding the retirement, permanent removal from service or ~~decommissioning~~Decommissioning of a Unit or any material portion of the Mitchell Plant and any restoration or remediation required in connection therewith.

(m) Establishment of an insurance program to provide property and general liability insurance on behalf of each Owner, to be procured by the Operator pursuant to the O&M Agreement.

(n) Other duties as assigned by agreement of the Owners.

7.3 The Operating Committee shall meet at least yearly, and at such other times as an Owner may reasonably request.

7.4 The Owners and the Operator shall cooperate in providing to the Operating Committee the information it reasonably needs to carry out its duties, and to supplement or correct such information on a timely basis.

7.5 The Owners shall each make an initial Unit-commitment one business day ahead of real-time dispatch, or on such other timetable as the Operating Committee may determine.

7.6 Application of this Section 7.6 (including subsections) is subject to (x) the receipt of any necessary regulatory approvals or waivers expressly granted for this Section 7.6; and (y) the Operating Committee establishing and approving procedures and systems for dispatch, including bidding the Mitchell Plant or any Unit as a single bid, consistent with all of the requirements of any Person or regional transmission organization, such as PJM, supervising the collective transmission or generation facilities of the power region in which the Mitchell Plant is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

(a) If a Unit is designated to be committed by both Owners, such Unit will be brought online or kept online. If neither Owner designates a Unit to be committed, such Unit will remain offline or be taken offline.

(b) When a Unit is designated to be committed by one Owner, but designated not to be committed by the other Owner, the Unit will be brought on line or kept on line if the Owner designating the Unit for commitment undertakes to pay any applicable start-up costs for the Unit, as well as any applicable minimum running costs for the Unit thereafter, in which event such Unit shall be brought on line or kept on line, as the case may be. The Owner so designating such Unit to be committed shall have the right to schedule and dispatch up to all of the Available Capacity of the Unit. "Available Capacity" means that portion of the Owners' aggregate Assigned Capacity that is currently capable of being dispatched. The Owner exercising this right shall be referred to as the "Calling Party," and the capacity called by that Owner in excess of its Assigned Capacity Percentage of the Available Capacity of that Unit shall be referred to as its "Called Capacity." The other Owner shall be referred to as the "Non-Calling Party". The Calling Party shall provide reasonable notice to the Non-Calling Party of its call, including any start-up or shut-down time for such Unit. For purposes of this Agreement, KPCo's "Assigned Capacity Percentage" shall be 50%, and WPCo's "Assigned Capacity Percentage shall be 50%.

(c) The Non-Calling Party can reclaim any Called Capacity attributable to its Assigned Capacity share at the beginning of the next PJM operating day; provided that written notice is provided in advance of the day-ahead hourly forward market bid deadline in which PJM market participants may submit offers to sell and bids to buy energy for such PJM operating day (which, as of the date of this Agreement, is 11:00 am Eastern Prevailing Time, as established in PJM Manual 11). Upon delivery of such written notice, the Non-Calling Party shall resume its responsibility for its share of any applicable start-up costs for the Unit and prospectively shall bear its responsibility for the costs associated with its Assigned Capacity from the Unit. In each calendar month, each Owner's respective shares of the Mitchell Plant Emissions Allowance

consumed as determined in accordance with the provisions of Section 7.7 shall be proportionate to each Owner's dispatch of the Mitchell Plant in such month.

7.7 Emission Allowances. To the extent that emission allowances issued by the U.S. Environmental Protection Agency ("USEPA") pursuant to Title IV of the Clean Air Act Amendments of 1990 and any regulations thereunder, and any other emission allowance trading program created under the Clean Air Act and administered by USEPA or the State of West Virginia, including but not limited to the Cross-State Air Pollution Rule 40 C.F.R. Part 97, and any amendments thereto (the "Emission Allowances"), are required for operation of the Mitchell Plant, each Owner will be entitled to receive for its own benefit 50% of any Emissions Allowances allocated to the Mitchell Plant ~~in an amount proportionate to its respective Ownership Interest at such time~~. Each Owner will be responsible for acquiring any additional Emission Allowances needed to satisfy the Emission Allowances required because of such Owner's dispatch of energy from the Mitchell Plant. Additionally, each Owner will be responsible for acquiring the Emission Allowances required to satisfy~~, in an amount proportionate to its respective Ownership Interests at such time,~~ 50% of the Emission Allowance surrender obligations attributable to the Mitchell Plant imposed under the Consent Decree entered in *United States, et al. v. American Electric Power Service Corp., et al*., Civil Action Nos. C2-99-1182 and C2-99-1250 and *United States, et al. v. American Electric Power Service Corp., et al., Civil Action No. C2-05-360 and Ohio Citizen Action, et al. v. American Electric Power Service Corp.*, Civil Action No. C2-04-1098 dated December 10, 2007 as subsequently modified or amended. As early as possible, but no later than three business days after the deadline for submitting final electronic data to the EPA for compliance purposes, the Operator shall notify each Owner of the number of annual or seasonal Emission Allowances that are needed to offset each Owner's share of emissions for the previous year or season. Each Owner shall supply its respective share of allowances, with a reasonable compliance margin as determined by the Operating Committee, by transferring the applicable allowances to the Mitchell Plant's Allowance Facility Account on or before 15 days prior to the remittance date. In the event that an Owner fails to surrender the required number of Emission Allowances in accordance with the prior paragraph, the other Owner shall have the option to purchase the required number of Emission Allowances, and the Owner that failed to surrender the required number of Emission Allowances shall reimburse the other Owner for any amounts it shall have incurred to make such purchases, with interest at the "Federal Funds Rate" (as published by the Board of Governors of the Federal Reserve System as from time to time in effect) running from the date of such purchases to the date of payment. The Operating Committee will develop procedures to be implemented after the end of each calendar year to account for each Owner's share of the Emission Allowances required by the use of the Mitchell Plant and to correct any imbalance between the Emission Allowances supplied and the Emission Allowances used through the end of the preceding year by settlement or payment.

~~7.8 Capital repairs and improvements to the Mitchell Plant will be determined by the Operating Committee pursuant to the annual budgeting process set forth in Section 7.9. Expenditures that the Operating Committee determines have been or will be incurred exclusively for one Owner shall be assigned exclusively to, and paid for by, that Owner.~~

7.8 ~~7.9~~ At least 90 days before the start of each operating year, the Operator shall submit to the Operating Committee ~~a~~any proposed amendments to the Capital Budget and an

annual operating budget ~~and an annual capital budget~~for such operating year with respect to the Mitchell Plant, a proposed annual operating plan for such operating year, and a forecast of operating and capital costs to be incurred during the next six-year period. The annual operating budget and ~~annual capital budget~~amendments to the Capital Budget shall be presented on a month-by-month basis~~ for each month during the next operating year~~, and shall include an estimate of the cost of any major repairs or improvements that are anticipated will occur during ~~such operating year~~the relevant period with respect to the Mitchell Plant, and an itemized estimate of all projected fixed and variable operating expenses relating to the operation of the Mitchell Plant during that operating year. The members of the Operating Committee will meet and work in good faith to agree upon the final annual ~~budgets and~~operating budget, final annual operating plan and any amendments to the Capital Budget. Once approved, the annual ~~budgets~~operating budget and annual operating plan shall remain in effect throughout the applicable operating year, subject to such changes, revisions, amendments, and updating as the Operating Committee may determine. If an Early Retirement Event occurs, the members of the Operating Committee will meet and work in good faith to amend the Capital Budget to remove any future ELG Expenses and any other future capital expenditures no longer required, to the extent practicable and consistent with Applicable Law. The Capital Budget shall remain in effect throughout the Term, subject to such amendments as the Operating Committee may determine.

7.9 ~~7.10~~ Notwithstanding anything in this Agreement to the contrary, in the case of the O&M Agreement or any other agreement relating to the Mitchell Plant that is entered into jointly by or on behalf of the Owners, on one hand, with an Affiliate of an Owner (or with an Owner itself, as in the case of the O&M Agreement) on the other hand, the non-Affiliate Owner shall have the exclusive right to exercise remedies (including delivering notices of and pursuing or settling disputes or delivering notices of default or making and pursuing claims for indemnification) and any termination rights (including rights of termination for convenience, if any) thereunder, without first obtaining the consent of the other Owner or the Operating Committee; provided, however, that notice of any such action described in this Section ~~7.10~~7.9 shall be sent to the other Owner at the time such action is taken. For purposes of this Agreement, "Affiliate" shall mean, with respect to any person or entity, any other person or entity that directly or indirectly, controls, is controlled by, or is under common control with such person or entity. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a person or entity, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise.

ARTICLE EIGHT
EFFECTIVE DATE AND TERM

8.1 This Agreement shall be effective as of the Effective Date.

8.2 Subject to FERC approval or acceptance of any termination, if necessary, this Agreement shall remain in force until the earlier of (a) the date on which this Agreement is terminated by mutual agreement of the Owners or (b) the consummation of the Buyout

Transaction contemplated by Section 9.6 (the period from the Effective Date through such date, the "Term").

ARTICLE NINE
TRANSFERS

9.1 Neither Owner may assign, transfer or otherwise dispose of its Ownership Interest, either in whole or part, whether by sale, lease, division, declaration or creation of a trust, by operation of law or otherwise ("Dispose" or a "Disposition") to any person or entity (the "Proposed Purchaser") ~~(a)~~ without the prior written consent of the other Owner (the "Non-Offering Owner" and the Owner proposing the Disposition, the "Offering Owner"), which ~~shall not be unreasonably withheld, conditioned or delayed~~consent may be granted or withheld in the Non-Offering Owner's sole discretion;[2] provided, that, the foregoing shall not restrict the Owners from pursuing or consummating the Buyout Transaction. Notwithstanding the foregoing, either Owner may Dispose of all (but not less than all) of its Ownership Interest to a state regulated utility Affiliate, provided that (a) the Disposition shall not relieve the Offering Owner of its obligations under this Agreement, (b) ~~unless~~ the Disposition ~~is~~shall be made in compliance with the Consent Decree entered in *United States, et al. v. American Electric Power Service Corp., et al.*, Civil Action Nos. C2-99-1182 and C2-99-1250 and *United States, et al. v. American Electric Power Service Corp., et al.*, Civil Action Nos. C2-04-1098 and C2-05-360, and all amendments or modifications thereto, as in effect as of the date of the Disposition, (c) ~~unless~~ the Proposed Purchaser ~~agrees~~shall agree to and ~~assumes~~assume, in respect of the Ownership Interest subject to the Disposition, the rights and obligations of the Offering Owner and its Affiliates under ~~the Compliance Agreement by and among~~any applicable agreement with American Electric Power Company, Inc.~~, WPCo, KPCo and [ ]~~[1] ~~dated as of the Effective Date~~ (and/or its Affiliates) pertaining to the allocation of emission limitations associated with the Mitchell Plant,[3] and (d) in the event the Offering Owner (or any Affiliate thereof) shall be the Operator, the Proposed Purchaser shall also have been assigned, and agreed to have assumed, the rights and obligations of the Operator under this Agreement and the O&M Agreement as of the effective date of such Disposition.

9.2 No Disposition shall be made unless all requisite regulatory and other approvals, consents and authorizations from all Governmental Authorities that are required to be obtained in connection with such Disposition have been obtained and as to which all conditions to the consummation of Disposition thereunder have been satisfied.

9.3 ~~All~~Subject to Section 9.6, all costs associated with any Disposition of an Ownership Interest by an Owner shall be borne solely by the Offering Owner, provided that the foregoing shall not limit the Offering Owner's right to seek reimbursement of any costs from the Proposed Purchaser in connection with any such Disposition.

[2] NTD: Proposed transfer restrictions subject to further review by AEP accounting.
[1] ~~NTD: Buyer to be inserted.~~
[3] NTD: Changes required so that Ownership Agreement stands on its own separate and apart from Nickel Process and could become effective prior to the Nickel closing.

9.4 Each Owner shall have the right to seek financing for all or a portion of such Owner's Ownership Interest and to provide general security for such financing of its Ownership Interest, including through the creation of any Encumbrance ~~(as defined below)~~ thereon, without the prior consent of the other Owner; provided that neither Owner may enter into any financing agreement or create any Encumbrance that would be reasonably likely to prohibit or otherwise restrict or condition the Buyout Transaction contemplated by Section 9.6. Each Owner further agrees to cooperate reasonably and in good faith, and to cause its Affiliates to so cooperate, with an Owner seeking financing in connection with such modifications and other rights and consents customary in transactions of such type, and not unreasonably to withhold its consent to such modifications as may be reasonably necessary or appropriate to allow such Owner to obtain such financing upon reasonably competitive terms, including obtaining consents to the assignment of such Owner's Ownership Interest in any of the Project Assets reasonably requested by such Owner's lender; provided that none of such proposed modifications shall (a) relieve the financing Owner of any of its obligations under this Agreement, the O&M Agreement or any other agreement related to the Mitchell Plant or any Project Asset, (b) decrease the economic benefits, or increase the costs, of the ownership and operation of the Mitchell Plant to the other Owner, (c) create any increased economic or legal risk to the other Owner in connection with the ownership and operation of the Mitchell Plant, (d) permit or allow any Encumbrances relating to any such financing to be placed upon any portion of or interest in the Project Assets other than the financing Owner's Ownership Interest ~~or~~, (e) permit partition of the Project Assets or any of them, including any partition upon a default by the financing Owner under any of the relevant financing documents or (f) prohibit or otherwise restrict or condition the Buyout Transaction as contemplated by Section 9.6.

~~For purposes of this Section 9.4, "Encumbrance" shall mean (a) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary obligation or the observance of any other obligation; (b) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary claim; and (c) any agreement to create any of the foregoing or allow any of the foregoing to exist.~~

9.5 Notwithstanding anything else herein to the contrary, no Disposition shall constitute a release of the Offering Owner from any liabilities to the Non-Offering Owner or the Operator arising from events occurring prior to or in connection with the Disposition, except as may be set forth expressly in the Mitchell Interest Purchase Agreement.

9.6 Buyout Transaction. Unless an Early Retirement Event occurs, the Owners shall enter into the Mitchell Interest Purchase Agreement pursuant to which KPCo shall sell, transfer and assign to WPCo, and WPCo shall purchase and assume from KPCo, all of KPCo's Ownership Interest (the "KPCo Interest") (including its interest in the underlying land, common facilities, barge unloading and gypsum conveyor facilities, and inventory and spare parts with respect to the Mitchell Plant), with the closing of such transaction to occur on December 31, 2028 (or such earlier date as may be mutually agreed by the Owners), subject to and in accordance with the provisions of this Section 9.6. The transactions contemplated by this Section 9.6 shall be referred to herein collectively as the "Buyout Transaction."

(a) Buyout Price. The purchase price for the KPCo Interest shall be (i) an amount mutually agreed by the Owners and approved by each of the WVPSC and the KPSC or, (ii) if no such amount is agreed by the Owners prior to June 30, 2027, an amount equal to (A) the Fair Market Value of the KPCo Interest as of the closing date of the consummation of the Buyout Transaction, minus (B) the Decommissioning Costs Amount, plus (C) the Coal Inventory Adjustment, minus (D) the CapEx Adjustment (such aggregate amount, the "Buyout Price"). The Coal Inventory Adjustment and the CapEx Adjustment shall be subject to a customary closing estimation and post-closing true-up mechanism to be set forth in the Mitchell Interest Purchase Agreement.

(b) Determination of Fair Market Value. Not later than June 30, 2026, the Owners shall commence discussions to determine mutually agreed amounts for the Fair Market Value for the KPCo Interest and the Decommissioning Costs Amount. Unless prior to June 30, 2027, (i) the Fair Market Value for the KPCo Interest (or other alternative Buyout Price) has been mutually agreed by the Owners pursuant to this Section 9.6 or (ii) an Early Retirement Event has occurred, then not later than July 31, 2027, each Owner shall deliver a written notice to the other Owner appointing a nationally or regionally recognized appraisal firm, which is not an Affiliate of either Owner, with experience valuing coal-fired electric generating facilities that are comparable in size and scope to the Mitchell Plant ("Appraiser"), the costs and expenses of which shall be borne by the Owner appointing such Appraiser. Each of the Appraisers selected by WPCo and KPCo, respectively, shall work together to select a third Appraiser within fifteen (15) days of selection of the first two Appraisers or, if such first two Appraisers fail to agree upon the appointment of a third Appraiser, such appointment shall be made by the American Arbitration Association, or any successor organization thereto. The costs and expenses of the third Appraiser shall be borne equally by the Owners. Each Owner shall cooperate with each Appraiser and timely provide information and access to the Mitchell Plant facilities (including, subject to any confidentiality restrictions, contracts and financial information) and personnel as may be reasonably needed to complete its appraisal. The Fair Market Value of the KPCo Interest shall be calculated by the Appraisers as of December 31, 2028 (or such earlier date of the anticipated closing of the Buyout Transaction), assuming that the Units would permanently cease operations as of December 31, 2040 (or such earlier anticipated date as may have been filed by WPCo with the WVPSC) but without taking into account any Decommissioning Costs or the value of the common coal pile. Each Appraiser shall prepare a detailed written appraisal of the Fair Market Value of the KPCo Interest within sixty (60) days after the selection of such third Appraiser and provide its valuation reports to each of the Owners. If the Fair Market Value determined by one of the three Appraisers deviates from the Fair Market Value determination of the middle Appraiser by more than twice the amount by which the Fair Market Value determination of the other Appraiser deviates from the Fair Market Value determination of the middle Appraiser, then the Fair Market Value determination of such Appraiser shall be excluded, the remaining two Fair Market Value determinations shall be averaged, and such average shall be the Fair Market Value, which shall be binding and conclusive on the Owners; otherwise the average of all three Fair Market Value determinations shall be the Fair Market Value, which shall be binding and conclusive on the Owners.

(c) Determination of Decommissioning Costs Amount. Unless prior to June 30, 2027, (i) the Decommissioning Costs Amount (or other alternative Buyout Price) has been mutually agreed by the Owners pursuant to this Section 9.6 or (ii) an Early Retirement Event has

occurred, then not later than July 15, 2027, each Owner shall deliver a written notice to the other Owner appointing a nationally or regionally recognized engineering or consulting firm, which is not an Affiliate of either Owner, with experience decommissioning (or arranging decommissioning liability transfer arrangements for) coal-fired electric generating facilities that are comparable in size and scope to the Mitchell Plant ("Qualified Firm"), the costs and expenses of which shall be borne by the Owner appointing such Qualified Firm. Each of the Qualified Firms selected by WPCo and KPCo, respectively, shall work together to select a third Qualified Firm within fifteen (15) days of selection of the first two Qualified Firms or, if such first two Qualified Firms fail to agree upon the appointment of a third Qualified Firm, such appointment shall be made by the American Arbitration Association, or any successor organization thereto. The costs and expenses of the third Qualified Firm shall be borne equally by the Owners. Each Owner shall cooperate with each Qualified Firm and timely provide information and access to the Mitchell Plant facilities (including, subject to any confidentiality restrictions, contracts and financial information) and personnel as may be reasonably needed to complete its determination. The Decommissioning Costs Amount shall be calculated by the Qualified Firms as of December 31, 2028 (or such earlier date of the anticipated closing of the Buyout Transaction), assuming for purposes of such determination (A) the Units would permanently cease operations, and Decommissioning of the Mitchell Plant would commence, as of such date, (B) the Mitchell Plant facilities would be dismantled and removed from the Mitchell Plant site, (C) the Mitchell Plant site would be remediated to a legally permissible industrial use standard, (D) all legal obligations and commitments to Governmental Authorities in connection with the Decommissioning of the Mitchell Plant would be appropriately addressed and satisfied, and (E) such additional or alternative assumptions as the Operating Committee may determine. Each Qualified Firm shall prepare a detailed written determination of the Decommissioning Costs Amount within ninety (90) days after the selection of such third Qualified Firm and provide its determination reports to each of the Owners. If the Decommissioning Costs Amount determined by one of the three Qualified Firms deviates from the Decommissioning Costs Amount determination of the middle Qualified Firm by more than twice the amount by which the Decommissioning Costs Amount determination of the other Qualified Firm deviates from the Decommissioning Costs Amount determination of the middle Qualified Firm, then the determination of such Qualified Firm shall be excluded, the remaining two Decommissioning Costs Amount determinations shall be averaged, and such average shall be the Decommissioning Costs Amount, which shall be binding and conclusive on the Owners; otherwise the average of all three Decommissioning Costs Amount determinations shall be the Decommissioning Costs Amount, which shall be binding and conclusive on the Owners.

(d) Buyout Procedures. Unless an Early Retirement Event has occurred, the Owners shall cooperate in good faith to negotiate and execute the Mitchell Interest Purchase Agreement not later than December 31, 2027, including completing any applicable disclosure schedules and exhibits, consistent with the terms and conditions described in this Section 9.6, so that any applicable regulatory or other approvals shall be timely obtained so as to allow the Buyout Transaction to be consummated on or prior to December 31, 2028.

ARTICLE TEN
DEFAULTS AND REMEDIES

10.1 An Owner shall be deemed to be in default hereunder upon the occurrence of any of the following events with respect to such Owner (each of the following events to be referred to as an "Event of Default," the Owner in default to be referred to as the "Defaulting Owner" and the Owner not in default to be referred to as the "Non-Defaulting Owner"):

(a) an Owner fails to make any payment required by it as and when due and payable in accordance with the terms of this Agreement, the O&M Agreement or any other agreement related to the Mitchell Plant or any Project Asset and such failure is not remedied within ten (10) days after receipt of written notice thereof by such Owner from the other Owner (a "Payment Default"); or

(b) an Owner fails to perform any material obligation (other than as described in Section 10.1(a)) imposed upon such Owner under this Agreement and such failure is not remedied within thirty (30) days after such Owner receives written notice thereof from the other; provided that, if such thirty (30) day period is not sufficient to enable the remedy or cure of such failure in performance, and such Owner shall have upon receipt of the initial notice promptly commenced and diligently continues thereafter to remedy such failure, then such Owner shall have a reasonable additional period of time (but in no event longer than an additional ninety (90) days from the end of the initial thirty (30) day cure period) to remedy or cure such failure; provided, however, that an Owner shall not be in default of its obligations hereunder to the extent such failure is caused by or is otherwise attributable to a breach by the other Owner of its obligations under this Agreement.

10.2 Without limiting the rights and remedies available to the Non-Defaulting Owner under Applicable Law, in the case of an Event of Default, the Non-Defaulting Owner shall have the right (but not the obligation) to (x) pay all or a portion of the amounts that were the subject of the Payment Default on behalf of the Defaulting Owner and (y) perform the obligation(s) which the Defaulting Owner has failed to perform on behalf of and at the expense of the Defaulting Owner (in any such case subject to all limits on liability benefiting the Defaulting Owner as set forth in this Agreement); and, if such payment is made (the portion as so paid or expended in connection with such performance, the "Paid Amount"), to:

(a) charge the Defaulting Owner interest with respect to the Paid Amount, from the day the payment was made by the Non-Defaulting Owner until it is paid in full by the Defaulting Owner to the Non-Defaulting Owner, at the rate equal to the prime rate as published from time to time in *The Wall Street Journal* (or any successor publication) plus five (5) percentage points per annum, calculated daily, regardless of whether the Non-Defaulting Owner has notified the Defaulting Owner in advance of its intention to charge interest with respect to such Paid Amount;

(b) set off against the Paid Amount any sums due or accruing to the Defaulting Owner by the Non-Defaulting Owner in accordance with this Agreement;

(c) maintain an action or actions for the Paid Amount and interest thereon on a continuing basis as the Paid Amount becomes payable but is not paid by the Defaulting Owner, as if the obligation to pay those amounts and the interest thereon was a liquidated demand due and payable on the date the amounts were due to be paid, without any right or resort of the Defaulting Owner to set-off or counter-claim against the Non-Defaulting Owner; and any obligation to pay interest under this Section 10.2 shall apply until the Payment Default is rectified or remedied; and

(d) at the Non-Defaulting Owner's option, (i) draw on any letter of credit posted by the Defaulting Owner pursuant to Section 4.3 in an amount equal to the Paid Amount, including all interest accrued thereon or (ii) receive one hundred percent (100%) of any revenues arising from or attributable to the sale of capacity, energy, ancillary services or other energy products from the Mitchell Plant that the Defaulting Owner would otherwise be entitled to receive in respect of its Assigned Capacity until the Non-Defaulting Owner receives an amount equal to the Paid Amount, including all interest accrued thereon, *plus* all costs of collection incurred in connection therewith, and the Owners shall cooperate with each other, the Operator, applicable Governmental Authorities (including in respect of securing any regulatory approvals) or other third parties (including lenders) as may be reasonably necessary to facilitate the Non-Defaulting Owner's right to be paid and receive the revenues attributable to the Defaulting Owner's Assigned Capacity until the applicable Paid Amount, including all interest accrued thereon and all costs of collection incurred in connection therewith has been paid to the Non-Defaulting Owner in full, including facilitating any appropriate changes in the applicable settlement accounts with respect to which market revenues are credited or paid by PJM or other applicable regional transmission organizations and executing any documents required to assign over such market revenues to the Non-Defaulting Owner.

ARTICLE ELEVEN
LIMITATION OF LIABILITY

11.1 Without limiting any other provision of this Agreement, each Owner's liability under this Agreement shall be limited to direct actual damages only. Such direct actual damages shall be the sole and exclusive remedy with respect to all claims arising under this Agreement and all other remedies or damages at law or in equity with respect to claims arising under this Agreement are waived and no Owner shall be liable for consequential, incidental, exemplary or indirect damages, lost profits or other business interruption damages, by statute, in tort or in contract, under any indemnity provision or otherwise, with respect to claims arising under this Agreement. It is the intent of the Owners that the limitations herein imposed on remedies and the measure of damages be without regard to the cause or causes related thereto, including the negligence of any Owner, whether such negligence be sole, joint or concurrent, or active or passive. Notwithstanding anything herein to the contrary, the limitations set forth in this Section 11.1 shall not limit or preclude any indemnification obligations of an Owner pursuant to Article Ten of the O&M Agreement, including with respect to indemnification for third-party claims.

ARTICLE TWELVE
DISPUTE RESOLUTION

12.1 If either Owner believes that a dispute (including a Technical Dispute) has arisen as to the meaning or application of this Agreement, it shall submit a written description of the disputed matter to the Operating Committee, and shall provide a copy of that submission to the other Owner.

12.2 If the Operating Committee is unable to reach agreement on the resolution of a dispute not constituting a Technical Dispute submitted to the Operating Committee pursuant to Section 12.1 within thirty (30) days after the dispute is presented to it, the matter shall be referred to senior executive officers with the authority to resolve such dispute of each of the Owners for resolution in the manner that such individuals shall agree is appropriate; provided, however, that either Owner ~~involved in the dispute~~ may exercise any and all rights at law or equity at any time after the end of the thirty (30) day period provided for the Operating Committee to reach agreement if the Operating Committee has not reached agreement.

12.3 If the Operating Committee is unable to reach agreement ~~if~~on the resolution of a Technical Dispute submitted to the Operating Committee ~~has not~~within ten (10) business days after such Technical Dispute is presented to it, then either Owner may refer such Technical Dispute to a Technical Expert. Within ten (10) business days following receipt of an Owner's notice referring a Technical Dispute to a Technical Expert, the Operating Representatives shall confer to agree upon a Technical Expert to hear the Technical Dispute. If the Owners are unable to agree upon the appointment of a Technical Expert, then at the end of such ten (10) business day period each Owner shall, within five (5) business days, notify the other Owner in writing of its designation of a proposed Technical Expert. The two proposed Technical Experts shall, within five (5) business days, select a Technical Expert (who may be one of the two Technical Experts designated by the Owners or another Technical Expert) and such Technical Expert shall hear the Technical Dispute. Each Owner shall be required to put forth and endorse one proposal, budget or solution, as the case may be, as its proposed resolution to the Technical Dispute, based on an agreed statement of the nature of the Technical Dispute and agreed facts surrounding such Technical Dispute. Each Owner's proposal, budget or solution shall be delivered to the Technical Expert and the other Owner no later than twenty (20) business days after the date of the notice of the Owner submitting the Technical Dispute to the Technical Expert. The Technical Expert shall be guided by consideration of (a) this Agreement, (b) all other agreements between the Owners relating to the Mitchell Plant, including the O&M Agreement and (c) Prudent Operation and Maintenance Practices (as defined in the O&M Agreement), and be required to select one of the proposals, budgets or solutions, as the case may be, and shall not be able to select any other proposal, budget or solution, except to the extent mutually agreed by the Owners. The Technical Expert shall render a decision resolving the matter within forty-five (45) days of the date of the notice of the Owner submitting such matter. The Technical Expert shall not award to either Owner any relief greater than that initially sought by such Owner. The decision of the Technical Expert shall be final and binding upon the Owners and not subject to appeal or review. The Owners shall bear equally all costs and expenses of the Technical Expert procedure and the Technical Expert shall not have the authority to award costs or attorneys' fees to either Owner. The Technical Expert shall act as an expert and not as an arbitrator and the provisions of the Federal Arbitration Act and the laws relating to arbitration shall not apply to the Technical

Expert or the Technical Expert's determination or the procedure by which a determination is reached ~~agreement.~~.

12.4 ~~12.3~~ Except as provided in this Article Twelve, the existence, contents, or results of any settlement negotiations or the results thereof under this Article Twelve may not be disclosed without the prior written consent of the Owners, provided, however, that either Owner may make disclosures as may be required to fulfill regulatory obligations to any Governmental Authority having jurisdiction, and may inform its lenders, affiliates, auditors, and insurers, as necessary, under pledge of confidentiality, and may consult with expert consultants as required in connection with any proceeding under pledge of confidentiality.

12.5 ~~12.4~~ Nothing in this Agreement shall be construed to preclude either Owner from filing a petition or complaint with FERC with respect to any claim over which FERC has jurisdiction. In such case, the other Owner may request that FERC reject the petition or complaint or otherwise decline to exercise its jurisdiction. If FERC declines to act with respect to all or part of a claim, the portion of the claim not so accepted by FERC may be resolved through an action at law or equity. To the extent that FERC asserts or accepts jurisdiction over all or part of a claim, the decisions, findings of fact, or orders of FERC shall be final and binding, subject to judicial review under the Federal Power Act, 16 U.S.C. §§ 791a et seq., as amended from time to time, and any proceedings that may have commenced prior to the assertion or acceptance of jurisdiction by FERC shall be stayed, pending the outcome of FERC proceedings. To the extent that any decisions, findings of fact, or orders of FERC do not provide a final or complete remedy to an Owner seeking relief, such Owner may proceed at law or equity to secure such a remedy, subject to any FERC decisions, findings, or orders.

~~12.5 Each Owner hereby submits to the non-exclusive jurisdiction of the courts of the State of Ohio, the United States District Court for the Southern District of Ohio and the appellate courts from any thereof in connection with any action arising out of or relating to this Agreement, the O&M Agreement or any other agreement related to the Mitchell Plant or any Project Asset, and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or such action was brought in an inconvenient court.~~

~~12.6 EACH OWNER HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT, THE O&M AGREEMENT, OR ANY OTHER AGREEMENT RELATED TO THE MITCHELL PLANT OR ANY PROJECT ASSET.~~

ARTICLE THIRTEEN
GENERAL

13.1 This Agreement shall inure to the benefit of and be binding upon the signatories hereto and their respective successors and permitted assigns, but this Agreement may not be assigned by any signatory without the written consent of the other parties hereto or as permitted by Article Nine hereof.

13.2 This Agreement is subject to the regulatory authority of any State or Federal agency having jurisdiction.

13.3 The interpretation and performance of this Agreement is governed by and shall be construed in accordance with the laws of the State of Ohio, exclusive of the conflicts of law provisions thereof that would require the application of the laws of a different jurisdiction. Each Owner hereby submits to the non-exclusive jurisdiction of the courts of the State of Ohio, the United States District Court for the Southern District of Ohio and the appellate courts from any thereof in connection with any action arising out of or relating to this Agreement or any other agreement related to the Mitchell Plant or any Project Asset and the transactions contemplated hereby, and consents that any such action may be brought in such courts and waives any objection it may now or hereafter have to the venue of any such action in any such court or that such action was brought in an inconvenient court. EACH OWNER HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT, THE O&M AGREEMENT, OR ANY OTHER AGREEMENT RELATED TO THE MITCHELL PLANT OR ANY PROJECT ASSET.

13.4 This Agreement supersedes all previous representations, understandings, negotiations, and agreements, either written or oral between the signatories hereto or their representatives with respect to operation of the Mitchell Plant, including ~~but not limited to~~ the Original Operating Agreement. Notwithstanding the foregoing, the amendment and restatement of the Original Operating Agreement effected hereby shall not relieve any party thereto of any undischarged obligation or liability of such party in respect of the period prior to the Effective Date under the Original Operating Agreement. This Agreement, together with the O&M Agreement (and any replacements thereof), constitutes the entire agreement of the signatories hereto with respect to the operation of the Mitchell Plant and the ownership thereof. The signatories hereto hereby agree that this Agreement shall amend the Original Operating Agreement to irrevocably remove AEPSC as a party thereto and, on and after the Effective Date, AEPSC shall no longer be a party thereto or hereto or entitled to rights, or subject to obligations, as a party to this Agreement (provided, however, that Operator shall be permitted to delegate any of its rights, duties and obligations under this Agreement and the O&M Agreement to AEPSC without the consent of KPCo).

13.5 No amendments or modifications of this Agreement are valid unless in writing and signed by duly authorized representatives of the Owners.

13.6 Each Owner shall designate in writing a representative to receive any and all notices required under this Agreement. Notices shall be in writing and shall be given to the representative designated to receive them, either by personal delivery, certified mail, facsimile, e-mail or any similar means, properly addressed to such representative at the address specified below:

ARTICLE FOURTEEN
DEFINITIONS

For all purposes of this Agreement (including the preceding sections and recitals), unless otherwise required by the context in which any defined term appears or otherwise defined in the body of this Agreement, capitalized terms have the meanings specified in this Article Fourteen. In this Agreement, unless expressly stated otherwise: (a) reference to any agreement (including this Agreement), document or instrument means such agreement, document or instrument as has been, or may be, amended, supplemented or otherwise modified and in effect from time to time in accordance with the terms thereof and, if applicable, the terms hereof; (b) reference to any Applicable Law means such Applicable Law as has been, or may be, amended, modified, codified or reenacted, in whole or in part, and in effect from time to time, including rules and regulations, promulgated thereunder; (c) the singular includes the plural, as the context requires; (d) the terms "includes" and "including" mean "including, but not limited to"; (e) "Day" (regardless of capitalization) shall mean a calendar day, unless specifically designated as a Business Day or business day; (f) "Month" (regardless of capitalization) shall mean a calendar month; (vii) references to articles, sections and appendices mean the articles and sections of, and appendices to, this Agreement.

"AEPSC" shall have the meaning given to such term in the Preamble.

"Agreement" shall have the meaning given to such term in the Preamble.

"Applicable Law" shall mean all laws, statutes, codes, acts, treaties, ordinances, orders, judgments, writs, decrees, injunctions, rules, regulations, governmental approvals, permits, directives, and requirements of all Governmental Authorities (including with respect to the environment) having jurisdiction over an Owner, any other person or entity (as to that person or entity), this Agreement, any Project Asset or the Mitchell Plant, as applicable.

"Appraiser" shall have the meaning given to such term in Section 9.6(b).

"Assigned Capacity" shall have the meaning given to such term in Section 2.3.

"Available Capacity" shall have the meaning given to such term in Section 7.6(b).

"Buyout Price" shall have the meaning given to such term in Section 9.6(a).

"Buyout Transaction" shall have the meaning given to such term in Section 9.6.

"Called Capacity" shall have the meaning given to such term in Section 7.6(b).

"Calling Party" shall have the meaning given to such term in Section 7.6(b).

"CapEx Adjustment" shall mean (a) 50% of (i) the total amount of ELG Expenses funded by WPCo on or prior to December 31, 2028, plus (ii) any capital expenditures (or portion thereof), other than ELG Expenses, to the extent funded by WPCo in an amount in excess of 50% of the total amount thereof on or prior to December 31, 2028, plus (b) an amount equal to the WACC for the amounts included in clause (a), applied to all of such amounts using the then-applicable WACC from the dates of funding through the closing date of the consummation of the Buyout Transaction; provided, that, in no event shall the CapEx Adjustment exceed the Fair Market Value of the KPCo Interest, as determined by and adjusted in accordance with the procedures and valuation criteria and factors set forth in Section 9.6(b).

"Capital Budget" shall have the meaning given to such term in Section 1.7.

"CertainTeed Contract" shall mean that certain Supply Agreement dated March 11, 2005, by and between CertainTeed Gypsum West Virginia, Inc. (formerly BPB West Virginia Inc.) and KPCo (as assignee of Ohio Power Company), as amended by Amendment No. 2010-1 dated August 2, 2010, as further amended by Amendment No. 2012-1 dated February 20, 2012 and as further amended by Amendment No. 2013-1 dated June 5, 2013, as may be amended, amended and restated, supplemented or modified from time to time, and as may be assigned to Operator or an Affiliate of Operator.

"Coal Inventory Adjustment" shall mean the weighted-average cost of KPCo's investment in the common coal pile for the Mitchell Plant.

"Control" shall have the meaning given to such term in Section 7.10.

"Credit Rating" means with respect to any entity, the rating then assigned to such entity's unsecured, senior long-term debt or deposit obligations (not supported by third party credit enhancements) by S&P or Moody's. If no rating is assigned to such entity's unsecured, senior long-term debt or deposit obligations by S&P or Moody's, then "Credit Rating" means the general corporate credit rating or long-term issuer rating assigned to such entity by S&P or Moody's. If an entity is rated by both S&P and Moody's and the ratings are at different levels, then "Credit Rating" means the lowest such rating.

"Decommission" or "Decommissioning" shall mean the retirement, dismantlement and permanent removal of the Units and other property, plant, and equipment comprising the Mitchell Plant, including any common facilities associated with each Unit that are to be permanently removed from service, the restoration of the Mitchell Plant site and the removal or remediation of any hazardous materials or other contaminated equipment, materials, coal ash or wastes associated therewith, in a manner that meets the requirements of Applicable Law.

"Decommissioning Costs" shall mean all costs and obligations expended or incurred in the performance of all work reasonably necessary or undertaken to Decommission the Mitchell Plant, including work associated with the preparation and implementation of Decommissioning plans and the preparation, submittal and prosecution of all necessary applications with Governmental Authorities as required to Decommission the Mitchell Plant in accordance with Applicable Law.

"Decommissioning Costs Amount" shall mean an amount equal to 50% of all Decommissioning Costs, as determined by and adjusted in accordance with the procedures and calculation criteria and factors set forth in the Section 9.6(c).

"Defaulting Owner" shall have the meaning given to such term in Section 10.1.

"Dispose" or "Disposition" shall have the meaning given to such term in Section 9.1.

"Early Retirement Event" shall mean the delivery of a written notice by WPCo to KPCo irrevocably committing to permanently cease operations of the Mitchell Plant effective on or prior to December 31, 2028, which notice shall be consistent with WPCo's current filings at such time with the WVPSC in respect of the Mitchell Plant.

"Effective Date" shall have the meaning given to such term in the Preamble.

"ELG Expenses" shall mean all capital expenditures associated with implementation of the ELG Upgrades.

"ELG Upgrades" shall mean any improvements or upgrades to the Mitchell Plant designed to comply with the Steam Electric Reconsideration Rule, 85 Fed. Reg. 64,650 (Oct. 13, 2020), and any regulations thereunder promulgated by the USEPA or the State of West Virginia.

"Emission Allowances" shall have the meaning given to such term in Section 7.7.

"Encumbrance" shall mean (a) any mortgage, charge, lien, pledge, hypothecation, title retention arrangement or other security interest, as or in effect as security for the payment of a monetary

obligation or the observance of any other obligation; (b) any easement, servitude, restrictive covenant, equity or interest in the nature of an encumbrance, garnishee order, writ of execution, right of set-off, lease, license to use or occupy, assignment of income or monetary claim; and (c) any agreement to create any of the foregoing or allow any of the foregoing to exist.

"Event of Default" shall have the meaning given to such term in Section 10.1.

"Fair Market Value" shall mean, with respect to the KPCo Interest as of any date, an amount (which may be a positive or a negative number) equal to 50% of the cash price obtainable in an arm's-length sale of the entirety of the Mitchell Plant between an informed and willing buyer and seller, in each case under no compulsion to buy or sell, as the case may be, as determined by and adjusted in accordance with the procedures and valuation criteria and factors set forth in Section 9.6(b).

"FERC" shall have the meaning given to such term in Section 5.1.

"FERC Accounting Requirements" means the accounting requirements of FERC, including with respect to the Uniform System of Accounts, established by FERC under the FPA.

"FPA" means the Federal Power Act.

"Governmental Authority" means any federal, national, regional, state, municipal or local government authority, tribunal, court, agency, body, board or instrumentality, or any regulatory, administrative or other department, bureau or agency, or any political or other subdivision, department or branch of the foregoing, including any independent system operator, regional transmission organization or electric reliability organization.

"HSR Act" shall mean the Hart-Scott-Rodino Antitrust Improvements Act of 1976.

"KPCo" shall have the meaning given to such term in the Preamble.

"KPCo Interest" shall have the meaning given to such term in Section 9.6.

"KPSC" shall mean the Kentucky Public Service Commission.

"Mitchell Interest Purchase Agreement" shall mean an asset purchase agreement between KPCo and WPCo to implement the Buyout Transaction at the Buyout Price, consistent with Section 9.6. The transferred assets and assumed liabilities transferred under the Mitchell Interest Purchase Agreement shall be consistent with the scope of those items set forth in the Asset Contribution Agreement (and related ancillary documents) between AEP Generation Resources Inc. and WPCo (as successor by merger to Newco Wheeling Inc.), dated January 31, 2015, the form of which was approved by the WVPSC in WVPSC Case No. 14-0546-E-PC.[4]

[4] NTD: The Asset Contribution Agreement is the transaction document by which WPCO's 50% Ownership Interest was transferred to WPCo. A 50% interest in the Mitchell Plant was contributed to Newco Wheeling Inc., which was merged into WPCo.

"Mitchell Plant" shall mean the Mitchell Power Generation Facility, which consists of the Units and associated plant, equipment, real estate and other related facilities, located in Moundsville, West Virginia, but excluding the real property and operation known as the Conner Run Fly Ash Impoundment and Dam.

"Moody's" shall have the meaning given to such term in Section 4.3.

"Non-Calling Party" shall have the meaning given to such term in Section 7.6(b).

"Non-Defaulting Owner" shall have the meaning given to such term in Section 10.1.

"Non-Offering Owner" shall have the meaning given to such term in Section 9.1.

"O&M Agreement" shall have the meaning given to such term in the Recitals.

"Offering Owner" shall have the meaning given to such term in Section 9.1.

"Operating Committee" shall have the meaning given to such term in Section 7.1.

"Operating Representative" shall have the meaning given to such term in Section 7.1.

"Operator" shall have the meaning given to such term in the Recitals.

"Original Operating Agreement" shall have the meaning given to such term in the Recitals.

"Owner" or "Owners" shall have the meaning given to such term in the Preamble.

"Ownership Interest" shall have the meaning given to such term in the Recitals.

"Paid Amount" shall have the meaning given to such term in Section 10.2.

"Payment Default" shall have the meaning given to such term in Section 10.1(a).

"Project Assets" shall have the meaning given to such term in Section 1.1.

"Proposed Purchaser" shall have the meaning given to such term in Section 9.1.

"Qualified Firm" shall have the meaning given to such term in Section 9.6(c).

"Ratings Requirement" shall mean a Credit Rating for such Owner (or if such Owner has provided a guaranty issued by an Affiliate to satisfy its obligations under this Section 4.3, such Owner's Affiliate guarantor) of at least "BBB-" by S&P or at least Baa3 by Moody's, and if such Credit Rating is "BBB-" by S&P or "Baa3" by Moody's then such Credit Rating must not be on negative credit watch by S&P or Moody's.

"S&P" shall have the meaning given to such term in Section 4.3.

"Tax Code" shall have the meaning given to such term in Section 6.6.

"Technical Dispute" shall mean any dispute which this Agreement expressly provides shall be a Technical Dispute.

"Technical Expert" shall mean any individual selected in accordance with the procedure specified in Section 12.3 and who (a) has significant professional qualifications and practical experience in the subject matter of the Technical Dispute, (b) has no interest, financial or otherwise, or duty which conflicts or may conflict with such individual's functions as a Technical Expert (such individual being required to fully disclose any such interest or duty prior to any appointment) and (c) is not currently and has not been (i) during the five (5) years prior to the date of appointment, an employee of any of the Owners or any of their Affiliates and (ii) during the three (3) years prior to the date of appointment, a contractor or consultant of either of the Owners or any of their Affiliates, unless otherwise mutually agreed by the Owners.

"Term" shall have the meaning given to such term in Section 8.2.

"Total Net Capability" shall have the meaning given to such term in Section 2.1.

"Total Net Generation" shall have the meaning given to such term in Section 2.2.

"Unit" shall have the meaning given to such term in the Recitals.

"USEPA" shall have the meaning given to such term in Section 7.7.

"Useful Life" means, with respect to a capital item, the shorter of (a) the reasonably expected useful life (in months) of such capital item and (b) the number of months between the anticipated in-service date of such capital item and December 31, 2040 (or such earlier anticipated date of the permanent cessation of operations of the Units filed with the WVPSC).

"WACC" shall mean, as of any date, WPCo's then-applicable WVPSC-authorized weighted average cost of capital.

"WPCo" shall have the meaning given to such term in the Preamble.

"WVPSC" shall mean the West Virginia Public Service Commission.

[RATE SCHEDULE NO. 303]

MITCHELL PLANT OWNERSHIP AGREEMENT

KENTUCKY POWER COMPANY

and

WHEELING POWER COMPANY

TABLE OF CONTENTS

Page

THIS MITCHELL PLANT OWNERSHIP AGREEMENT (this "Agreement"), with an effective date of [_____] (the "Effective Date"), is by and among Kentucky Power Company, a Kentucky corporation qualified as a foreign corporation in West Virginia ("KPCo"); Wheeling Power Company, a West Virginia corporation ("WPCo") (such parties hereinafter sometimes referred to as an "Owner" and together the "Owners"); and, solely with respect to Section 13.4, American Electric Power Service Corporation, a New York corporation ("AEPSC").

WITNESSETH:

WHEREAS, KPCo and WPCo, as of the date hereof, each own a fifty percent (50%) undivided ownership interest in the Mitchell Power Generation Facility (each such percentage interest, an Owner's "Ownership Interest"), which consists of two coal-fired generating units (each, a "Unit"), with each Unit having a nominal nameplate capacity of 800 MW, located in Moundsville, West Virginia (as further defined herein, the "Mitchell Plant");

WHEREAS, KPCo, WPCo and AEPSC are parties to that certain Mitchell Plant Operating Agreement, dated as of December 31, 2014 (the "Original Operating Agreement");

WHEREAS, the Original Operating Agreement sets forth certain rights and obligations of the Owners and AEPSC with respect to the Mitchell Plant and the Owners' ownership thereof;

WHEREAS, pursuant to the Original Operating Agreement, KPCo is responsible for the day-to-day operations and maintenance of the Mitchell Plant;

WHEREAS, the Owners and AEPSC desire to replace the Original Operating Agreement to set forth the rights and obligations of the Owners with respect to the Mitchell Plant and their ownership thereof and to remove AEPSC as a party thereto;

WHEREAS, in connection with the execution of this Agreement, the Owners desire to execute a separate operations and management agreement to provide for the day-to-day operation and maintenance responsibilities in respect of the Mitchell Plant (as may be amended from time to time the "O&M Agreement");

WHEREAS, the Owners have agreed that, subject to the terms and conditions of the O&M Agreement, on and after the Effective Date WPCo shall replace KPCo as the operator of the Mitchell Plant (the "Operator"); and

WHEREAS, on and subject to the terms and conditions of this Agreement, the Owners have committed to undertake a Buyout Transaction (as hereinafter defined), pursuant to which WPCo shall purchase KPCo's Ownership Interest on or prior to December 31, 2028, unless an Early Retirement Event (as hereinafter defined) occurs.

NOW THEREFORE, in consideration of the premises and for the purposes hereinabove recited, and in consideration of the mutual covenants hereinafter contained, the signatories hereto agree as follows:

ARTICLE ONE
OWNERSHIP AND OPERATIONS

1.1 To the greatest extent permitted by Applicable Law, the Mitchell Plant and all assets (tangible and intangible) and property (real and personal) owned, leased, held, developed, constructed or acquired solely for or in connection with the Mitchell Plant or the operation, maintenance or Decommissioning of the Mitchell Plant by or on behalf of an Owner or the Owners (together, the "Project Assets") shall be owned and held and deemed to be owned and held by the Owners as tenants in common in proportion to their respective Ownership Interests (except for any capital items owned in a different proportion in accordance with Section 1.8) or, in the event any Project Asset cannot be held directly by both of the Owners due to, inter alia, any pre-existing legal or contractual restrictions that cannot be altered or satisfied or where effectuating such ownership structure would result in unreasonable additional expense to the Owners, by the Operator as trustee for the Owners as tenants in common in proportion to their respective Ownership Interest. If the ownership of any Project Asset is registered or recorded in the name of one of the Owners, and notwithstanding the Owners' efforts such Project Asset cannot be held directly by both Owners as contemplated above, then such Owner in whose name ownership is registered or recorded shall hold such Project Asset in trust for itself and the other Owner in proportion to their respective Ownership Interests and, to the extent necessary or requested by the Operator or other Owner, make such Project Assets (or the benefits thereof) available for the use ~~of the Operator for the~~and benefit of the Owners (in proportion with their respective Ownership Interests), including, to the extent consistent with the foregoing, by such Owner subcontracting, sublicensing, subleasing, delegating or granting a limited power of attorney or similar appointment as agent to Operator to administer such Project Assets.

1.2 At the request of either Owner, and in accordance with Section 1.1, each Owner and the Operator shall execute all documents and do all things necessary or appropriate to register or record the Project Assets in the names of the Owners in proportion to their respective Ownership Interests (or such different proportion as any capital item may be owned in accordance with Section 1.8).

1.3 All assets (tangible and intangible) and property (real and personal) held, developed, constructed or acquired by or on behalf of the Operator for or on behalf of the Owners jointly, or any of them, shall constitute "Project Assets" subject to the ownership of both Owners as set forth in Sections 1.1 and 1.2. Except as otherwise agreed by the Owners, the Operator shall not have any right, title or interest in or to any such assets, or in or to any money paid to, collected or received by the Operator for or on behalf of either Owner, except as the agent or representative of, or for the use and benefit of, such Owners as set forth in this Agreement and in proportion to each Owner's respective Ownership ~~Interest~~Interests.

1.4 Each Owner hereby waives any rights it may have at law or equity to bring an action for partition or division of the Mitchell Plant or any Project Asset or any contracts related thereto, and agrees that it shall not (a) seek partition or division of the Mitchell Plant or any Project Asset or any contracts related thereto, or (b) take any action, whether by way of any court order or otherwise, for physical partition or judicial sale in lieu of partition of the Mitchell Plant or any Project Asset or any contracts related thereto. Nothing in this Section 1.4 shall affect the

right of either Owner to dispatch its respective share of the Total Net Capability under Article Two or to Dispose of its Ownership Interest in accordance with Article Nine.

1.5 On and after the Effective Date, WPCo shall be the Operator responsible for the day-to-day operations and maintenance of the Mitchell Plant and shall operate, maintain and Decommission the Mitchell Plant for the sole benefit (and on behalf) of the Owners and in accordance with the terms and conditions of this Agreement and the O&M Agreement. KPCo agrees to ~~take all actions~~ reasonably ~~necessary~~cooperate to facilitate WPCo's operation, maintenance and Decommissioning of the Mitchell Plant, including providing or permitting reasonable access to the Mitchell Plant to third party contractors and other contract counterparties of each Owner or the Operator with respect to the administration, implementation and satisfaction of such contracts or agreements executed or assumed by the Operator on behalf of either Owner relating to the Mitchell Plant, including all Facility Agreements (as defined in the O&M Agreement).

1.6 The Owners shall establish, jointly in the Owners' name and under the Owners' control, and maintain such bank accounts (the "Operating Account") as may from time to time be required or appropriate for paying the costs and expenses, including capital expenditures, in respect of the ownership, operation, maintenance and Decommissioning of the Mitchell Plant. The Owners shall designate only the Operator, and such persons as reasonably requested by the Operator, as authorized signatories to the Operating Account, and all withdrawals by the Operator from the Operating Account shall be made only by the Operator or such designated persons in order for the Operator to comply with its obligations set forth in this Agreement and the O&M Agreement.

1.7 The initial capital budget for the period from the Effective Date through December 31, 2028 (including agreed allocations of costs for capital projects between the Owners) (the "Capital Budget"), the initial annual operating budget and the initial forecast of operating and capital costs to be incurred for the period from the Effective Date through December 31, 2028 are attached hereto as Exhibit A[1].

1.8 [Notwithstanding the provisions of this Article One, to the extent that ~~WPCo~~either Owner funds or bears an amount greater than 50% of any capital expenditures or ELG Expenses as contemplated in the Capital Budget or this Agreement, the directly resulting portion of property, plant and equipment, ~~or improvements thereto~~therefrom, shall be owned by the Owners in proportion to their respective amounts funded and shall be included only in such proportion in each Owner's ownership accounts for regulatory, accounting, tax and other purposes.][2]

ARTICLE TWO
APPORTIONMENT OF CAPACITY AND ENERGY[3]

[1] Note to AEP: Please provide Exhibit A.
[2] Note to AEP: To discuss how this is envisioned to work with respect to enhancements, add-ons or improvements to pre-existing PP&E.
[3] Note to AEP: Discuss whether any ELG work could adversely affect capacity, generation or costs.

2.1 The total net capability of the Mitchell Plant at low-voltage busses of the Units, after taking into account auxiliary load demand, is 1,560,000 kilowatts (the "Total Net Capability") as of the Effective Date. The Owners may from time to time modify the Total Net Capability of the Mitchell Plant as they may mutually agree.

2.2 The total net generation of the Mitchell Plant during a given period, as determined by the requirements of each Owner, shall mean the electrical output of the Mitchell Plant generators during such period, measured in kilowatt hours by suitable instruments, reduced by the energy used by auxiliaries for each Unit during such period (the "Total Net Generation").

2.3 Each Owner shall be entitled to receive 50% of the Total Net Capability and the Total Net Generation (with respect to each Owner, such Owner's "Assigned Capacity"), and all associated energy, capacity, ancillary services and other energy products, in accordance with this Agreement.

2.4 Except as set forth in Section 7.6 (including the applicable subsections in Section 7.6), in any hour, each Owner shall share 50% of the minimum load responsibility of each Unit.

2.5 In any hour during which any Unit is out of service, the Owners shall bear equally the cost of energy used by the out-of-service Unit's auxiliaries during such hour, which may be provided by the applicable local utility Affiliate of an Owner. Alternatively, the Owners may mutually agree in writing to each provide 50% of such energy.

ARTICLE THREE
REPLACEMENTS, ADDITIONS, AND RETIREMENTS

3.1 The ~~Owners shall cause the~~ Operator, pursuant to the O&M Agreement, from time to time ~~to~~shall make or cause to be made any necessary additions to, replacements of, and retirements of, capitalizable facilities associated with the Mitchell Plant in accordance with the Capital Budget and the O&M Agreement or as may otherwise be mutually agreed upon by the Owners.

3.2 In the event that, prior to execution and delivery of the Mitchell Interest Purchase Agreement, an Early Retirement Event occurs, each Owner shall (a) cause each Unit to permanently cease operations on December 31, 2028, or such other date permitted by Applicable Law as the Operating Committee may determine, (b) be responsible for, and shall timely pay, 50% of all Decommissioning Costs, (c) cooperate in good faith and take all actions reasonably necessary to facilitate the Decommissioning Work, including negotiating in good faith any contracts or agreements (including liability transfer arrangements) on behalf of either Owner or Operator, including transfers, conveyances or assignments of Facility Equipment (as defined in the O&M Agreement), as reasonably requested by either Owner or Operator to facilitate Decommissioning and (d) take, and/or ~~cause~~ instruct the Operator pursuant to the O&M Agreement to take, such actions to continue operating and maintaining the barge loading facilities and gypsum conveyor system at the Mitchell Plant and providing use of such facilities

and system to the applicable contract counterparty and its representatives in accordance with, and until the expiration or earlier termination of, the CertainTeed Contract.[4]

ARTICLE FOUR
WORKING CAPITAL REQUIREMENTS

4.1 The Owners shall periodically mutually determine the amount and timing of funds required for use as working capital, for operating, capital and other expenses incurred in the operation, maintenance and Decommissioning (including the Decommissioning Costs) of the Mitchell Plant, and in buying equipment, materials, parts, fuel and other supplies and services necessary to operate, maintain and Decommission the Mitchell Plant and to make the timely payments of any expenses required under the O&M Agreement.

4.2 Each Owner shall, in accordance with the timing set forth in a determination made pursuant to Section 4.1, promptly provide 50% of any such amount required by the Owners pursuant to Section 4.1, except as otherwise provided for in Section 6.7.

4.3 Each Owner agrees that if such Owner fails at any time during the Term to satisfy the Ratings Requirement, it will, within thirty (30) days of such failure, provide in favor of the other Owner and maintain credit support in the form of (a) a cash deposit, (b) a guaranty issued by an Affiliate of such Owner that satisfies the Ratings Requirement in form and substance reasonably acceptable to the other Owner or (c) a letter of credit in form and substance reasonably acceptable to other Owner, issued by a commercial bank or other financial institution with a Credit Rating of at least "A-" by S&P Global Ratings, or any successor thereto ("S&P") or at least "A3" by Moody's Investors Service, Inc., or any successor thereto ("Moody's"), and in an amount equal to (i) one-half ($^1/_2$) of the then-applicable annual operating budget for the Mitchell Plant established pursuant to Section 7.2 from time to time, plus (ii) the sum of such Owner's allocated amount of capital expenditures for such year contained in the then-applicable Capital Budget, plus (iii) an amount equal to the latest estimate of Decommissioning Costs prepared by the Operator, determined on a net present value basis using a discount rate equal to the WACC as of the date of determination. Such credit support posted in favor of an Owner shall be promptly returned within thirty (30) days of the other Owner furnishing written evidence demonstrating that it satisfies the Ratings Requirement.

4.4 The Operator shall provide such credit support, including guarantees, cash deposits, letters of credit or other forms of credit support, to third parties (including contractual counterparties and Governmental Authorities) as required for the Owners' ownership, operation, maintenance and Decommissioning of the Mitchell Plant. To the extent that the Operator is required to provide such credit support to a third party in connection with any activity performed in respect of the Mitchell Plant under this Agreement (including the procurement of fuel as described in Section 5.1), the Owners shall share the reasonable and documented out-of-pocket cost of the third-party credit support incurred by the Operator (including of any credit support furnished by an Affiliate of the Operator) in accordance with their respective Ownership Interests.

[redacted]

ARTICLE FIVE
INVESTMENT IN FUEL

5.1 The Operator shall procure, establish and maintain reserves of coal in common stock piles for the Mitchell Plant of such quality and in such quantities as the Operating Committee shall determine to be required to provide adequate fuel reserves against interruptions of normal fuel supply and as is necessary to maintain the number of tons in such coal stock piles, after taking into account the coal consumption from such coal stock piles by each Unit during each month. For purposes of this Agreement, "consumables" shall be as defined in account 502 of the Uniform System of Accounts administered by the Federal Energy Regulatory Commission ("FERC").

5.2 The quality of any coal or consumable product provided by the Operator must be reasonably acceptable to both Owners. Any coal being utilized shall be deemed to be acceptable to the Owners if it meets the following requirements: (a) coal previously utilized at the Mitchell Plant with satisfactory operating performance shall be considered acceptable for use in the Mitchell Plant, unless deemed unacceptable due to a required change of the engineering specifications making the coal no longer viable; (b) coal from any new seam or source shall be acceptable if such supply is shown to perform satisfactorily in the Mitchell Plant and is mutually acceptable to each Owner; or (c) as otherwise mutually agreed to by each Owner. Consumables from any new seam or source shall be acceptable if such supply is shown to perform satisfactorily to both Owners in the Mitchell Plant and conform to the then current engineering specifications for the Mitchell Plant or as otherwise mutually agreed ~~to~~ by each Owner.

5.3 Each Owner shall be responsible for, and own, 50% of the investment in the common coal stock piles.

5.4 Fuel oil and consumables charged to operation for the Mitchell Plant shall be owned and accounted for between the Owners in the same manner as coal.

ARTICLE SIX
APPORTIONMENT OF STATION COSTS[5]

6.1 The allocation to the Owners of fuel expense associated with each Unit shall be mutually determined by the ~~Operator~~Owners as follows:[6]

(a) [In any calendar month, the average unit cost of coal available for consumption from the Mitchell Plant common coal stock piles shall be determined based on the prior month's ending inventory dollar and ton balances plus current month receipts delivered to the Mitchell Plant common coal stock piles. Each Owner's average unit-cost will be the same, and receipts and inventory available for consumption amounts will be allocated to each Owner based on monthly usage.

[5] Note to AEP: Discuss envisioned interplay with Article 2.
[6] Note to AEP: To discuss how this is intended to work. Consider including a sample calculation.

(b) The number of tons of coal consumed by the Mitchell Plant in each calendar month from the Mitchell Plant common coal stock piles shall be determined and shall be converted into a dollar amount equal to the product of (i) the average cost per ton of coal associated with the Mitchell Plant in the Mitchell Plant common coal stock pile [at the close] of such month, and (ii) the number of tons of coal consumed by the Mitchell Plant from the Mitchell Plant common coal stock piles [during such month]. [Such dollar amount shall be credited to the Mitchell Plant fuel in the stock pile and charged to the Mitchell Plant fuel consumed.][7]

(c) In each calendar month, each Owner's respective shares of the Mitchell Plant fuel consumed expense as determined by the provisions of Section 6.1(b) shall be proportionate to each Owner's dispatch of the Mitchell Plant in such month.

(d) Fuel oil reserves will be owned and accounted for in the same manner as coal stock piles, and fuel oil consumed will be allocated to the Owners in the same manner as coal consumed.]

6.2 For each calendar month, the Operator will, to the extent practicable and in accordance with the O&M Agreement, determine all of the Mitchell Plant's operations expenses and associated overheads, as accounted for under the FERC Uniform System of Accounts.

6.3 For each calendar month, the Operator will, to the extent practicable and in accordance with the O&M Agreement, determine all the Mitchell Plant's maintenance expenses and associated overheads, as accounted for under the FERC Uniform System of Accounts.

6.4 In each calendar month, each Owner's respective shares of operations and maintenance expenses associated with the Mitchell Plant, as determined in accordance with this Article Six, shall be allocated as follows:

(a) Each Owner's respective share of the Mitchell Plant steam expenses as recorded in FERC Account 502, and emission tons, with allowance expenses as recorded in FERC Account 509, shall be proportionate to each Owner's dispatch of the Mitchell Plant in such month.

(b) In each calendar month, the maintenance of boiler plant expenses as recorded in FERC Account 512, and maintenance of electric plant expenses as recorded in FERC Account 513, shall be directly assigned to each Unit or designated as a common expense attributable to both Units. In each calendar month, each Owner's respective share of these expenses shall be proportionate to each Owner's dispatch of the applicable Unit, or both Units in the case of common expenses, over the previous sixty (60) calendar months.

(c) In each calendar month, each Owner shall be responsible for 50% of all other Steam Power Generation Expenses (FERC Accounts 500 - 515) not addressed in Section 6.4(a) and Section 6.4(b). [Administrative and General Expenses (FERC Accounts 920 – 935)

[7] Note to AEP: To discuss method of allocating the consumption that considers a party's loading having an adverse impact on heat rate and allocates cost based upon the heat rate curve of the unit and a party's load.

shall be assigned to the Mitchell Plant through an annual wages and salaries allocator applied to monthly Administrative & General Expenses.][8] Each Owner shall be responsible for 50% of this monthly amount; provided, however, that, for the avoidance of doubt, each Owner shall be individually responsible for any fees, costs or other charges, including but not limited to those imposed by PJM Interconnection, L.L.C. ("PJM") or any regional transmission operator or any other Governmental Authority in respect of, or which are attributable to, the sale or transmission of the capacity or energy associated with its Ownership Interest, as the case may be.

(d) Notwithstanding the foregoing clauses (a) through (c) or anything else in this Agreement or the O&M Agreement to the contrary, in each calendar month, any operations and maintenance or other expenses ~~directly~~to the extent attributable to any ELG Upgrade (regardless of the FERC Account to which it is charged) shall be allocated exclusively to and paid by WPCo.

(e) In each calendar month, each Owner's respective share of Construction Work In Progress charged to FERC Account 107 shall be allocated on the same basis as capital expenditures, as set forth in Section 6.7.

(f) In each calendar month, the net change in Mitchell Plant storeroom inventory (inventory purchases less issuances of inventory) charged to FERC Account 154 shall be allocated 50% to each Owner.

(g) Each Owner shall be charged 50% of Operating Costs, as defined in and in accordance with Section 7.2 of the O&M Agreement, except to the extent a different allocation for specific FERC Accounts or otherwise is specified in this Article Six.

6.5 All taxes, duties or assessments levied against or with respect to each Owner's Ownership Interest, or an Owner's purchase, use, ownership or beneficial interest in, or income from, the Mitchell Plant shall be the sole responsibility of, and shall be paid by, the Owner upon whose purchase, use, ownership interest or beneficial interest or income said taxes or assessments are levied. Without limiting the foregoing, in each calendar month, each Owner's respective share of Employee Payroll Taxes charged to FERC Account 408 shall be 50%.

6.6 Notwithstanding any other provision of this Agreement or any other agreement to the contrary, each Owner hereby acknowledges and agrees that (a) each Owner prior to the Effective Date has treated, and subsequent to such date shall continue to treat, the co-ownership and operation of the Mitchell Plant as excluded from Subchapter K of the Internal Revenue Code of 1986, as amended (the "Tax Code"), pursuant to Section 761(a) thereof, for all federal, state and local income tax purposes, (b) each Owner prior to the Effective Date affirmatively elected not to apply any of the provisions of Subchapter K of the Tax Code to such Owner's interest in the Mitchell Plant, with such election having been formally filed in connection with the Owners' applicable income tax returns for the taxable year ending on December 31, 2020 and each Owner has taken all actions necessary to implement such election and (c) each Owner prior to the Effective Date has reported, and subsequent to such date shall report, its share of all income,

[8] Note to AEP: To discuss / confirm allocator.

gains, deductions, losses, credits, etc. from its Ownership Interest on its tax returns consistent with such exclusion from the provisions of Subchapter K of the Tax Code.

6.7 ~~The~~Subject to clauses (b) and (c) below the cost of any replacement, addition, improvement or upgrade of each Unit or any portion of the Mitchell Plant, and any restoration or remediation required in connection therewith, shall be allocated between the Owners in accordance with the allocations for such capital items contained in the Capital Budget. With respect to any such capital item not contained in the Capital Budget, the costs of such capital item shall be allocated as follows, unless the Operating Committee agrees upon a different allocation:

(a) Capital expenditures (other than ELG Expenses) that the Operating Committee determines have been or will be incurred exclusively for one Owner shall be allocated exclusively to, and paid for by, that Owner.

(b) Notwithstanding anything to the contrary, ELG Expenses shall be allocated exclusively to, and paid for exclusively by, WPCo (subject to adjustment of the Buyout Price in accordance with Section 9.6).

(c) ~~If~~Notwithstanding anything to the contrary, if the in-service date of a capital item is reasonably anticipated by the Operating Committee to be after December 31, 2028, then the capital expenditures for such capital item shall be allocated exclusively to, and paid for by, WPCo.

(d) If the Operating Committee determines, including based on useful lives of similar assets previously approved by applicable Governmental Authorities, that a capital item (other than an ELG Upgrade) has a Useful Life that extends beyond December 31, 2028, then (i) KPCo shall be responsible for and shall pay 50% of the expenditures for such capital item, multiplied by (A) the number of months (not to exceed the Useful Life of such capital item) between the reasonably anticipated in-service date of such capital item and December 31, 2028, divided by (B) the Useful Life of such capital item and (ii) WPCo shall be responsible for the remaining amount of such capital expenditure not allocated to KPCo pursuant to the foregoing clause (i).

(e) Any other capital expenditures shall be allocated 50% to each Owner; provided, however, such other capital expenditures resulting in aggregate expenditures in excess of [110%] of any line item therefor reflected in, or otherwise in the aggregate of, the Capital Budget shall require the prior written approval of the Owners.

6.8 ~~Each~~In the event of an Early Retirement Event, each Owner shall be responsible for 50% of all Decommissioning Costs, unless a different allocation is expressly specified for such item in the Capital Budget (as agreed by the Owners) or the Owners mutually agree to allocate such costs in another manner.

6.9 Notwithstanding anything contained in this Agreement, an Owner's obligation to pay its obligations under this Agreement shall not in any way be conditioned upon or affected solely by reason of any regulatory order or other determination~~, including but not limited to, any~~

~~order~~ to the extent disallowing, limiting or deferring rate recovery of the costs and expenses paid or payable by an Owner in respect of its Ownership Interest.

ARTICLE SEVEN
OPERATING COMMITTEE AND OPERATIONS

7.1 By written notice to each other, each Owner shall name one representative (the "Operating Representative") and one alternate to act for it in matters pertaining to operating arrangements under this Agreement and the O&M Agreement. An Owner may change its Operating Representative or alternate at any time by written notice to the other Owner. The Operating Representatives for the respective Owners, or their alternates, shall comprise the "Operating Committee". All decisions, directives, or other actions by the Operating Committee must be by unanimous agreement of the Operating Representatives of the Owners. If the Operating Representatives are unable to agree on any matter, such matter will be resolved through the dispute resolution procedures set forth in Article Ten.

7.2 The Operating Committee shall have the following responsibilities, which decisions are reserved exclusively for the Operating Committee and may not be made individually by the Operator or any Owner:

(a) Review and approval of any amendments to the Capital Budget, and adoption of an annual operating budget, annual operating plan and a six-year forecast of operating and capital expenses, each as delivered to the Operating Committee by the Operator pursuant to Section 7.8, including determination of the emission allowances required to be acquired by each Owner with respect to their Ownership Interests; provided, that an Owner's Operating Representative shall have the right to amend the Capital Budget solely to include any capital expenditures for which such Owner shall be allocated greater than 75%~~[1]~~[9] of the costs pursuant to Section 6.7, up to an aggregate amount of such capital expenditures that does not exceed $4,000,000. Allocations of new capital expenditures added to the Capital Budget shall be consistent with Section 6.7; provided, that if the Operating Committee cannot agree upon the Useful Life of a capital item or the allocation of a capital expenditure between the Owners, the matter shall be resolved in accordance with the Technical Dispute resolution procedures set forth in Section 12.1 and Section 12.3 and the Owners shall implement any resolution of the Technical Dispute through adjustments or true-up payments, as appropriate. If the Operating Committee fails to adopt an annual operating budget, the approved annual operating budget from the previous year (other than one-time or other non-recurring or inapplicable items) shall apply until such time as the new annual operating budget is approved.

(b) Establishment, modification and review of procedures and systems for dispatch, notification of dispatch, and Unit commitment under this Agreement, including any Unit-commitment pursuant to Section 7.5 or commitment of its Called Capacity pursuant to Section 7.6(b).

(c) Establishment and monitoring of procedures for communication and coordination with respect to the Mitchell Plant capacity availability, fuel-firing options, and

~~[1]~~[9] NTD: 75% is the threshold when the majority of the Useful Life of a capital item would occur after 2028.

scheduling of outages for maintenance, repairs, equipment replacements, scheduled inspections, and other foreseeable cause of outages at the Mitchell Plant, as well as the return the Mitchell Plant to availability following an unplanned outage.

(d) To the extent not included in the Capital Budget, decisions on capital projects, including Unit upgrades and re-powering, except that an Owner's Operating Representative shall have the right to approve any such capital projects for which such Owner shall be allocated greater than 75% of the costs pursuant to Section 6.7 and Section 7.2(a).

(e) Determinations as to changes in the Unit capability.

(f) Establishment and modification of billing procedures under this Agreement or under the O&M Agreement.

(g) Approval of material contracts for fuel supply or transportation.

(h) Establishment and modification of specifications of fuels; oversight of fuel procurement, inspection and certification arrangements, policies and procedures; and management of fuel inventories for the Mitchell Plant.

(i) Establishment of, termination of, and approval of any change or amendment to the operating arrangements (including the O&M Agreement) between the Owners and the Operator (or any successor Operator or replacement third-party Operator) and selection of any replacement Operator, except as otherwise permitted by Section 7.10.

(j) Review and approval of plans and procedures designed to ensure compliance at the Mitchell Plant with all Applicable Law, including procedures for allocating and using emission allowances or for any programs that permit averaging at more than one Unit for compliance.

(k) ~~Supervision~~Amendment, termination, extension or modification of, or supervision of the performance of, and provide direction as needed to, the Operator under, the O&M Agreement.

(l) Decisions regarding the retirement, permanent removal from service or Decommissioning of a Unit or any material portion of the Mitchell Plant and any restoration or remediation required in connection therewith.

(m) Establishment of an insurance program to provide property and general liability insurance on behalf of each Owner, to be procured by the Operator pursuant to the O&M Agreement.

(n) Other duties as assigned by agreement of the Owners.

7.3 The Operating Committee shall meet at least ~~yearly~~quarterly, and at such other times as an Owner may reasonably request. The Operator shall provide operations reports to the

Operating Committee each month substantially in the form of Exhibit B hereto and such reports shall be presented on a quarterly basis with respect to the relevant quarter for any meeting.

7.4 The Owners and the Operator shall cooperate in providing to the Operating Committee the information it reasonably needs to carry out its duties, and to supplement or correct such information on a timely basis.

7.5 The Owners shall each make an initial Unit-commitment one business day ahead of real-time dispatch, or on such other timetable as the Operating Committee may determine.

7.6 Application of this Section 7.6 (including subsections) is subject to (x) the receipt of any necessary regulatory approvals or waivers expressly granted for this Section 7.6; and (y) the Operating Committee establishing and approving procedures and systems for dispatch, including bidding the Mitchell Plant or any Unit as a single bid, consistent with all of the requirements of any Person or regional transmission organization, such as PJM, supervising the collective transmission or generation facilities of the power region in which the Mitchell Plant is located that is charged with coordination of market transactions, system-wide transmission planning and network reliability.

(a) If a Unit is designated to be committed by both Owners, such Unit will be brought online or kept online. If neither Owner designates a Unit to be committed, such Unit will remain offline or be taken offline.

(b) When a Unit is designated to be committed by one Owner, but designated not to be committed by the other Owner, the Unit will be brought on line or kept on line if the Owner designating the Unit for commitment undertakes to pay any applicable start-up costs for the Unit, as well as any applicable minimum running costs for the Unit thereafter, in which event such Unit shall be brought on line or kept on line, as the case may be. The Owner so designating such Unit to be committed shall have the right to schedule and dispatch up to all of the Available Capacity of the Unit. "Available Capacity" means that portion of the Owners' aggregate Assigned Capacity that is currently capable of being dispatched. The Owner exercising this right shall be referred to as the "Calling Party," and the capacity called by that Owner in excess of its Assigned Capacity Percentage of the Available Capacity of that Unit shall be referred to as its "Called Capacity." The other Owner shall be referred to as the "Non-Calling Party". The Calling Party shall provide reasonable notice to the Non-Calling Party of its call, including any start-up or shut-down time for such Unit. For purposes of this Agreement, KPCo's "Assigned Capacity Percentage" shall be 50%, and WPCo's "Assigned Capacity Percentage shall be 50%.

(c) The Non-Calling Party can reclaim any Called Capacity attributable to its Assigned Capacity share at the beginning of the next PJM operating day; provided, that written notice is provided in advance of the day-ahead hourly forward market bid deadline in which PJM market participants may submit offers to sell and bids to buy energy for such PJM operating day (which, as of the date of this Agreement, is 11:00 am Eastern Prevailing Time, as established in PJM Manual 11). Upon delivery of such written notice, the Non-Calling Party shall have the right to schedule and dispatch the recalled capacity. At that point, the Non-Calling Party shall resume its responsibility for its share of any applicable start-up costs for the Unit and prospectively shall bear its responsibility for the costs associated with its Assigned Capacity

from the Unit. In each calendar month, each Owner's respective shares of the Mitchell Plant Emissions Allowance consumed as determined in accordance with the provisions of Section 7.7 shall be proportionate to each Owner's dispatch of the Mitchell Plant in such month.

7.7 Emission Allowances.[10] To the extent that emission allowances issued by the U.S. Environmental Protection Agency ("USEPA") pursuant to Title IV of the Clean Air Act Amendments of 1990 and any regulations thereunder, and any other emission allowance trading program created under the Clean Air Act and administered by USEPA or the State of West Virginia, including but not limited to the Cross-State Air Pollution Rule 40 C.F.R. Part 97, and any amendments thereto (the "Emission Allowances"), are required for operation of the Mitchell Plant, each Owner will be entitled to receive for its own benefit 50% of any Emissions Allowances allocated to the Mitchell Plant. Each Owner will be responsible for acquiring any additional Emission Allowances needed to satisfy the Emission Allowances required because of such Owner's dispatch of energy from the Mitchell Plant. Additionally, each Owner will be responsible for acquiring the Emission Allowances required, to the extent necessary in addition to its share of the Emissions Allowances allocated to the Mitchell Plant, to satisfy 50% of the Emission Allowance surrender obligations attributable to the Mitchell Plant imposed under the Consent Decree entered in *United States, et al. v. American Electric Power Service Corp., et al*., Civil Action Nos. C2-99-1182 and C2-99-1250 and *United States, et al. v. American Electric Power Service Corp., et al., Civil Action No. C2-05-360 and Ohio Citizen Action, et al. v. American Electric Power Service Corp.*, Civil Action No. C2-04-1098 dated December 10, 2007 as subsequently modified or amended, it being understood that the Mitchell Plant is subject to the Mitchell Emissions Limitations under the Compliance Agreement, dated as of hereof (the "Compliance Agreement"), by and among [Buyer], the Owners and American Electric Power Company, Inc. As early as possible, but no later than three business days after the deadline for submitting final electronic data to the EPA for compliance purposes, the Operator shall notify each Owner of the number of annual or seasonal Emission Allowances that are needed to offset each Owner's share of emissions for the previous year or season. Each Owner shall supply its respective share of allowances, with a reasonable compliance margin as determined by the Operating Committee, by transferring the applicable allowances to the Mitchell Plant's Allowance Facility Account on or before 15 days prior to the remittance date. In the event that an Owner fails to surrender the required number of Emission Allowances in accordance with the prior paragraph, the other Owner shall have the option to purchase the required number of Emission Allowances, and the Owner that failed to surrender the required number of Emission Allowances shall reimburse the other Owner for any amounts it shall have incurred to make such purchases, with interest at the "Federal Funds Rate" (as published by the Board of Governors of the Federal Reserve System as from time to time in effect) running from the date of such purchases to the date of payment. The Operating Committee will develop procedures to be implemented after the end of each calendar year to account for each Owner's share of the Emission Allowances required by the use of the Mitchell Plant and to correct any imbalance between the Emission Allowances supplied and the Emission Allowances used through the end of the preceding year by settlement or payment.

[10] Note to AEP: Draft to be conformed, as applicable, to the Compliance Agreement.

7.8 At least ~~90~~120 days before the start of each operating year, the Operator shall submit to the Operating Committee any proposed amendments to the Capital Budget and an annual operating budget for such operating year with respect to the Mitchell Plant, a proposed annual operating plan with respect to the Mitchell Plant for such operating year, and a forecast of operating and capital costs to be incurred during the next six-year period. The annual operating budget and amendments to the Capital Budget shall be presented on a month-by-month basis, and shall include an operating budget, a capital budget an estimate of the cost of any major repairs or improvements that are anticipated ~~will~~to occur during the relevant period with respect to the Mitchell Plant, and an itemized estimate of all projected fixed and variable operating expenses relating to the operation of the Mitchell Plant during that operating year. The members of the Operating Committee will meet and work in good faith to agree upon the final annual operating budget, final annual operating plan and any amendments to the Capital Budget. Once approved, the annual operating budget and annual operating plan shall remain in effect throughout the applicable operating year, subject to such changes, revisions, amendments, and updating as the Operating Committee may determine. If an Early Retirement Event occurs, the members of the Operating Committee will meet and work in good faith to amend the Capital Budget to remove any future ELG Expenses and any other future capital expenditures no longer required, to the extent practicable and consistent with Applicable Law. The Capital Budget shall remain in effect throughout the Term, subject to such amendments as the Operating Committee may determine.[11]

7.9 Notwithstanding anything in this Agreement to the contrary, in the case of the O&M Agreement or any other agreement relating to the Mitchell Plant that is entered into jointly by or on behalf of the Owners, on one hand, with an Affiliate of an Owner (or with an Owner itself, as in the case of the O&M Agreement) on the other hand, the non-Affiliate Owner shall have the sole and exclusive right to exercise any and all affirmative or elective rights of any Owner, including remedies (including delivering notices of and pursuing or settling disputes or delivering notices of default or making and pursuing claims for indemnification) and any termination rights (including rights of termination for convenience, if any) thereunder (for the avoidance of doubt, without first obtaining the consent of the other Owner or the Operating Committee); provided, however, that notice of any such action described in this Section 7.9 shall be sent to the other Owner at the time such action is taken if such other Owner is not the Operator. For purposes of this Agreement, "Affiliate" shall mean, with respect to any person or entity, any other person or entity that directly or indirectly, controls, is controlled by, or is under common control with such person or entity. As used in this definition, "control" (including, with its correlative meanings, "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a person or entity, whether through the ownership of securities or partnership or other ownership interests, by contract or otherwise.

ARTICLE EIGHT
EFFECTIVE DATE AND TERM

8.1 This Agreement shall be effective as of the Effective Date.

[11] Note to AEP: Subject to review of capital budget, discuss term.

8.2 Subject to FERC approval or acceptance of any termination, if necessary, this Agreement shall remain in force until the earlier of (a) the date on which this Agreement is terminated by mutual agreement of the Owners or (b) the consummation of the Buyout Transaction contemplated by Section 9.6 (the period from the Effective Date through such date, the "Term").

ARTICLE NINE
TRANSFERS

9.1 Neither Owner may directly or indirectly (except pursuant to a change in ownership of its ultimate parent entity or pursuant to Section 9.4) assign, transfer or otherwise dispose of its Ownership Interest, either in whole or part, whether by sale, lease, division, declaration or creation of a trust, by operation of law or otherwise ("Dispose" or a "Disposition") to any person or entity (the "Proposed Purchaser") without the prior written consent of the other Owner (the "Non-Offering Owner" and the Owner proposing the Disposition, the "Offering Owner"), which consent may be granted or withheld in the Non-Offering Owner's sole discretion;[~~2~~12] provided, that, the foregoing shall not restrict the Owners from pursuing or consummating the Buyout Transaction. Notwithstanding the foregoing, either Owner may Dispose of all (but not less than all) of its Ownership Interest to a state regulated utility Affiliate, provided that (a) the Disposition shall not relieve the Offering Owner of its obligations under this Agreement, (b) the Disposition shall be made in compliance with the Consent Decree entered in *United States, et al. v. American Electric Power Service Corp., et al.*, Civil Action Nos. C2-99-1182 and C2-99-1250 and *United States, et al. v. American Electric Power Service Corp., et al.*, Civil Action Nos. C2-04-1098 and C2-05-360, and all amendments or modifications thereto, as in effect as of the date of the Disposition, (c) the Proposed Purchaser shall agree to and assume, in respect of the Ownership Interest subject to the Disposition, the rights and obligations of the Offering Owner and its Affiliates under any applicable agreement with American Electric Power Company, Inc. (and/or its Affiliates) pertaining to the allocation of emission limitations associated with the Mitchell Plant,[~~3~~13] and (d) in the event the Offering Owner (or any Affiliate thereof) shall be the Operator, the Proposed Purchaser shall also have been assigned, and agreed to have assumed, the rights and obligations of the Operator under this Agreement and the O&M Agreement as of the effective date of such Disposition; provided, that in the case of this clause (d), a written consent from the Non-Offering Owner (which consent shall not be unreasonably withheld, conditioned or delayed) shall be obtained prior to such Disposition to the extent such Disposition results in the change of the Operator.

9.2 No Disposition shall be made unless all requisite regulatory and other approvals, consents and authorizations from all Governmental Authorities that are required to be obtained in connection with such Disposition have been obtained and as to which all conditions to the consummation of Disposition thereunder have been satisfied.

9.3 Subject to Section 9.6, all costs associated with any Disposition of an Ownership Interest by an Owner shall be borne solely by the Offering Owner, provided that the foregoing

[~~2~~12] NTD: Proposed transfer restrictions subject to further review by AEP accounting.
[~~3~~13] NTD: Changes required so that Ownership Agreement stands on its own separate and apart from Nickel Process and could become effective prior to the Nickel closing.

shall not limit the Offering Owner's right to seek reimbursement of any costs from the Proposed Purchaser in connection with any such Disposition.

9.4 Each Owner shall have the right to seek financing for all or a portion of such Owner's Ownership Interest and to provide general security for such financing of its Ownership Interest, including through the creation of any Encumbrance thereon (and the right of the beneficiary thereof to enforce and foreclose thereon), without the prior consent of the other Owner; provided that neither Owner may enter into any financing agreement or create any Encumbrance that would be reasonably likely to prohibit or otherwise restrict or condition the Buyout Transaction contemplated by Section 9.6. Each Owner further agrees to cooperate reasonably and in good faith, and to cause its Affiliates to so cooperate, with an Owner seeking financing in connection with such modifications and other rights and consents customary in transactions of such type, and not unreasonably to withhold its consent to such modifications as may be reasonably necessary or appropriate to allow such Owner to obtain such financing upon reasonably competitive terms, including obtaining consents to the assignment of such Owner's Ownership Interest in any of the Project Assets reasonably requested by such Owner's lender; provided that none of such proposed modifications shall (a) relieve the financing Owner of any of its obligations under this Agreement, the O&M Agreement or any other agreement related to the Mitchell Plant or any Project Asset, (b) decrease the economic benefits, or increase the costs, of the ownership and operation of the Mitchell Plant to the other Owner, (c) create any increased economic or legal risk to the other Owner in connection with the ownership and operation of the Mitchell Plant, (d) permit or allow any Encumbrances relating to any such financing to be placed upon any portion of or interest in the Project Assets other than the financing Owner's Ownership Interest, (e) permit partition of the Project Assets or any of them, including any partition upon a default by the financing Owner under any of the relevant financing documents or (f) prohibit or otherwise restrict or condition the Buyout Transaction as contemplated by Section 9.6.

9.5 Notwithstanding anything else herein to the contrary, no Disposition shall constitute a release of the Offering Owner from any liabilities to the Non-Offering Owner or the Operator arising from events occurring prior to or in connection with the Disposition, except as may be set forth expressly in the Mitchell Interest Purchase Agreement.

9.6 Buyout Transaction. Unless an Early Retirement Event occurs, the Owners shall enter into the Mitchell Interest Purchase Agreement pursuant to which KPCo shall sell, transfer and assign to WPCo, and WPCo shall purchase and assume from KPCo, all of KPCo's Ownership Interest (the "KPCo Interest") (including its interest in the underlying land, common facilities, barge unloading and gypsum conveyor facilities, and inventory and spare parts with respect to the Mitchell Plant), with the closing of such transaction to occur on December 31, 2028 (or such earlier date as may be mutually agreed by the Owners), subject to and in accordance with the provisions of this Section 9.6. The transactions contemplated by this Section 9.6 shall be referred to herein collectively as the "Buyout Transaction."

(a) Buyout Price. The purchase price for the KPCo Interest shall be (i) an amount mutually agreed by the Owners and approved by each of the WVPSC and the KPSC or, (ii) if no such amount is agreed by the Owners prior to June 30, 2027, an amount equal to (A) the Fair Market Value of the KPCo Interest as of the closing date of the consummation of the Buyout Transaction, minus (B) the Decommissioning Costs Amount, plus (C) the Coal Inventory

Adjustment, minus (D) the CapEx Adjustment (such aggregate amount, the "Buyout Price"), provided, that notwithstanding anything to the contrary, the Buyout Price shall in no event be less than KPCo's portion of the Decommissioning Costs. The Coal Inventory Adjustment and the CapEx Adjustment shall be subject to a customary closing estimation and post-closing true-up mechanism to be set forth in the Mitchell Interest Purchase Agreement.

(b) Determination of Fair Market Value. Not later than June 30, 2026, the Owners shall commence discussions to determine mutually agreed amounts for the Fair Market Value for the KPCo Interest and the Decommissioning Costs Amount. Unless prior to June 30, 2027, (i) the Fair Market Value for the KPCo Interest (or other alternative Buyout Price) has been mutually agreed by the Owners pursuant to this Section 9.6 or (ii) an Early Retirement Event has occurred, then not later than July 31, 2027, each Owner shall deliver a written notice to the other Owner appointing a nationally or regionally recognized appraisal firm, which is not an Affiliate of either Owner, with experience valuing coal-fired electric generating facilities that are comparable in size and scope to the Mitchell Plant ("Appraiser"), the costs and expenses of which shall be borne by the Owner appointing such Appraiser. Each of the Appraisers selected by WPCo and KPCo, respectively, shall work together to select a third Appraiser within fifteen (15) days of selection of the first two Appraisers or, if such first two Appraisers fail to agree upon the appointment of a third Appraiser, such appointment shall be made by the American Arbitration Association, or any successor organization thereto. The costs and expenses of the third Appraiser shall be borne equally by the Owners. Each Owner shall cooperate with each Appraiser and timely provide information and access to the Mitchell Plant facilities (including, subject to any confidentiality restrictions, contracts and financial information) and personnel as may be reasonably needed to complete its appraisal. The Fair Market Value of the KPCo Interest shall be calculated by the Appraisers as of December 31, 2028 (or such earlier date of the anticipated closing of the Buyout Transaction), assuming that the Units would permanently cease operations as of December 31, 2040 (or such earlier anticipated date as may have been filed by WPCo with the WVPSC) but without taking into account any Decommissioning Costs or the value of the common coal pile. Each Appraiser shall prepare a detailed written appraisal of the Fair Market Value of the KPCo Interest within sixty (60) days after the selection of such third Appraiser and provide its valuation reports to each of the Owners. If the Fair Market Value determined by one of the three Appraisers deviates from the Fair Market Value determination of the middle Appraiser by more than twice the amount by which the Fair Market Value determination of the other Appraiser deviates from the Fair Market Value determination of the middle Appraiser, then the Fair Market Value determination of such Appraiser shall be excluded, the remaining two Fair Market Value determinations shall be averaged, and such average shall be the Fair Market Value, which shall be binding and conclusive on the Owners; otherwise the average of all three Fair Market Value determinations shall be the Fair Market Value, which shall be binding and conclusive on the Owners.

(c) Determination of Decommissioning Costs Amount. Unless prior to June 30, 2027, (i) the Decommissioning Costs Amount (or other alternative Buyout Price) has been mutually agreed by the Owners pursuant to this Section 9.6 or (ii) an Early Retirement Event has occurred, then not later than July 15, 2027, each Owner shall deliver a written notice to the other Owner appointing a nationally or regionally recognized engineering or consulting firm, which is not an Affiliate of either Owner, with experience decommissioning (or arranging decommissioning liability transfer arrangements for) coal-fired electric generating facilities that

are comparable in size and scope to the Mitchell Plant ("Qualified Firm"), the costs and expenses of which shall be borne by the Owner appointing such Qualified Firm. Each of the Qualified Firms selected by WPCo and KPCo, respectively, shall work together to select a third Qualified Firm within fifteen (15) days of selection of the first two Qualified Firms or, if such first two Qualified Firms fail to agree upon the appointment of a third Qualified Firm, such appointment shall be made by the American Arbitration Association, or any successor organization thereto. The costs and expenses of the third Qualified Firm shall be borne equally by the Owners. Each Owner shall cooperate with each Qualified Firm and timely provide information and access to the Mitchell Plant facilities (including, subject to any confidentiality restrictions, contracts and financial information) and personnel as may be reasonably needed to complete its determination. The Decommissioning Costs Amount shall be calculated by the Qualified Firms as of December 31, 2028 (or such earlier date of the anticipated closing of the Buyout Transaction), assuming for purposes of such determination (A) the Units would permanently cease operations, and Decommissioning of the Mitchell Plant would commence, as of such date, (B) the Mitchell Plant facilities would be dismantled and removed from the Mitchell Plant site, (C) the Mitchell Plant site would be remediated to a legally permissible industrial use standard, (D) all legal obligations and commitments to Governmental Authorities in connection with the Decommissioning of the Mitchell Plant would be appropriately addressed and satisfied, and (E) such additional or alternative assumptions as the Operating Committee may determine. Each Qualified Firm shall prepare a detailed written determination of the Decommissioning Costs Amount within ninety (90) days after the selection of such third Qualified Firm and provide its determination reports to each of the Owners. If the Decommissioning Costs Amount determined by one of the three Qualified Firms deviates from the Decommissioning Costs Amount determination of the middle Qualified Firm by more than twice the amount by which the Decommissioning Costs Amount determination of the other Qualified Firm deviates from the Decommissioning Costs Amount determination of the middle Qualified Firm, then the determination of such Qualified Firm shall be excluded, the remaining two Decommissioning Costs Amount determinations shall be averaged, and such average shall be the Decommissioning Costs Amount, which shall be binding and conclusive on the Owners; otherwise the average of all three Decommissioning Costs Amount determinations shall be the Decommissioning Costs Amount, which shall be binding and conclusive on the Owners.
