

Request for disbursement of Water Loss Surcharge funds

Garrison-Quincy-KY-O-Heights (Garrison Water) would like to request the use of Water Loss Surcharge funds in the amount of \$32,070.80 for the purchase and installation of a 6 inch By Pass/Master Meter Set. This is one of the major items that was mentioned in our Infrastructure Improvement Plan.

The quotes for the installation and meter will be included. These prices are current and accurate. Currently, Garrison Quincy KY O Heights Water District has \$42,779.55 in the water loss surcharge account.

This meter would be installed at our tank site and will record a constant flow of 240 of our customers. It also includes our only wholesale and industrial customers. This meter will allow the ability to monitor trends of flow on this large section of line on a daily basis. This is the largest part of our system that is not broken down into smaller sections. It will help determine high usage in a minimal amount of time.
