

KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2021-00434
MARCH 28, 2022 UPDATED DATA RESPONSES TO PSC 1-22(e), AG 1-5(d), AG 1-8(c),
AND AG 2-4(c)

March 28, 2022 Updated Response:

In the original responses to these data requests, KAW indicated that the water provider to KAW's Ridgewood wastewater customers is the Peaks Mill Water District ("PMWD") and that KAW had plans to contact and meet with PMWD to discuss obtaining water usage data that would allow KAW to include Ridgewood customers in KAW's proposed unified rates for all other wastewater customers in this case instead of the proposed flat monthly rate currently proposed for Ridgewood customers. KAW attended a meeting with PMWD and was reminded that it has an agreement with PMWD that provides water usage data upon which to propose volumetric rates for Ridgewood customers rather than a flat rate. KAW has taken that data and used it to include Ridgewood customers in the proposed unified rate structure. Please see the attached Excel file (KAW_UR_Rate_Design_032822) for the rate design reflecting inclusion of all customers, including Ridgewood customers, in the proposal for unified rates.
