

American Electric Power Company, Inc.
Kentucky Power Company
Liberty Utilities Co.
KPSC Case No. 2021-00481
Commission Staff's Second Set of Data Requests
Dated January 13, 2022

DATA REQUEST

KPSC 2_2

Refer to Liberty's response to Staff's First Request, Item 51. Also refer to the Transition Service Agreement, which is Exhibit A to the Stock Purchase Agreement, filed as Exhibit 5 to the application. Provide American Electric Power Service Corp.'s (AEPSC) costs allocated to Kentucky Power for each of the services listed in the Transition Service Agreement to be provided at cost by AEP, with a breakout for each discrete service.

RESPONSE

AEP and Liberty are continuing to define the scope and details of each discrete service to be addressed in the Transition Service Agreement. The costs charged for such services will be based on the reimbursable costs for the direct service as defined in the SPA. Therefore, the costs of the service cannot be estimated. Joint Applicant's response to AG 1-129¹ provides the historical direct costs paid by Kentucky Power to AEPSC for the past three years, which were:

2019 - \$71,191,271
2020 - \$70,441,890
2021 - \$75,198,283

Witness: Stephan T. Haynes

MARCH 17, 2022 SUPPLEMENTAL RESPONSE:

AEP and Liberty are continuing to define the scope and details of each discrete service to be addressed in the Transition Service Agreement. The costs charged for such services will be based on the reimbursable costs for the direct service as defined in the SPA. Therefore, the costs of the service cannot be estimated. Joint Applicant's response to AG 1-129 provides the historical direct costs paid by Kentucky Power to AEPSC for the past three years, which were:

2019 - \$75,955,630

¹ Filed herein on January 24, 2022 (02_Joint_Applicants_Response_to_AGs_First_DR_Vol_2_pf_2_(Q71-Q134), at page 468 of 475).

2020 - \$70,441,890

2021 - \$75,198,283
