FACILITY AND NONREGULATED)	
TRANSMISSION LINE IN HARDIN COUNTY,)	
KENTUCKY PURSUANT TO KRS 278.700)	
ET SEQ. AND 807 KAR 5:110.)	

NOTICE OF STATUS UPDATE

Stonefield Solar, LLC (“Stonefield”), by and through counsel, hereby provides notice of its updated status prior to submitting a response to the Third Notice of Deficiency (NOD) issued by the Kentucky State Board on Electric Generation and Transmission Siting (“Siting Board” or “Board”) on October 10, 2022.

As indicated in its order dated December 20, 2022, the Siting Board found Stonefield’s application deficient because the project could not be in compliance with Hardin County’s local zoning ordinance, as required by KRS 278.706(2)(d). Stonefield has since obtained a zoning map amendment for the project’s underlying property parcels and is in the process of finalizing its development plan with the Hardin County Planning and Development Commission. Once finalized, Stonefield intends to formally respond to the Board’s NOD and proceed with the processing of its construction certificate application. Stonefield anticipates filing a detailed response to the NOD in 2024, but wanted to provide this status update in the interim.

Dated this 6th day of February 2024.

Respectfully submitted,

Gregory T. Dutton
