Gerald E. Wuetcher

Jerry is Counsel to the Firm in SKO's Lexington office and is part of the Utility & Energy practice. He joined the firm in 2014, after working for more than 26 years at the Kentucky Public Service Commission (PSC) as a staff attorney, deputy general counsel and executive advisor.

Over the course of his career, Jerry has frequently appeared before the PSC in administrative proceedings involving electric, natural gas, water and sewer utility issues and has represented the PSC in state and federal courts. He also served as the PSC's representative in several interagency groups addressing water and wastewater issues. He drafted amendments to various provisions of Kentucky's public utility statutes and revisions to the PSC's administrative regulations.

From 2009-2013, Jerry was PSC's representative on the board of the Kentucky Infrastructure Authority. He developed and implemented the PSC's training program for water utility officials and was an instructor for that program.

Jerry is a frequent speaker on utility and local government issues before such organizations as the Kentucky Rural Water Association, Kentucky League of Cities, Kentucky Association of Counties and Utility Management Institute.

Along with his significant experience in the realm of civilian law, Jerry served for 27 years in the U.S. Army as a judge advocate before retiring at the rank of colonel in 2011. He occupied numerous roles on active duty and in a reserve status.

Utility & Energy: Jerry concentrates on public utility law in Kentucky, but also participates in general and commercial litigation, transactions, employment concerns, securities issues and mergers and acquisitions involving gas, electric and water companies. He handles all facets of regulatory matters, including the negotiation of complex agreements and representation before state agencies and courts.

Work Highlights

Attorney, Kentucky Public Service Commission (1987-2014). Served as a staff attorney, deputy general counsel and executive advisor. Frequently appeared before the Commission in administrative proceedings involving electric, natural gas, water and sewer utility issues and represented the Commission in state and federal courts. Responsible for drafting and revising the Commission's

regulations. Served as the Commission's representative in various interagency groups addressing water and wastewater issues. Served as the Commission's representative on the Kentucky Infrastructure Authority's Board of Directors (2009-2014). Developed the Public Service Commission's water training program for water utility officials.

Judge Advocate, U.S. Army (1984 – 2011). Served as a judge advocate in the U.S. Army on active and reserve status in numerous roles. Retired at the rank of Colonel.

Adjunct Professor of Law, University of Louisville (2011)

LOUISVILLE | LEXINGTON | INDIANAPOLIS | EVANSVILLE | FRANKFORT

Patrick Keal
State Government Affairs Director
Duke Energy Kentucky

Patrick Keal, State Government Affairs Director for Duke Energy Kentucky, is responsible for advancing policies in Kentucky that keep electric and gas utilities safe, reliable, and cost competitive. He is charged with educating stakeholders, primarily in the legislative and executive branches, about issues of importance to the electric and gas utility industries.

Prior to joining Duke Energy in 2016, Patrick spent five years directing government affairs for a Big Ass Fans, based in Lexington, Kentucky. While there, he worked with military installation on energy efficiency, lobbied for congressional appropriations, and worked on international, federal, state and local building codes. Prior to his time with BAF, he worked in the office of the Kentucky Secretary of State for three years.

Patrick has served on the U.S. Department of Energy's Appliance Standards and Rulemaking Federal Advisory Committee, several National Association of Manufacturer's committees, and the Northern Kentucky Chamber's Board of Advisors. He currently serves on the Northern Kentucky Chamber of Commerce's Business Advocacy Council, and multiple Kentucky Chamber of Commerce committees.

Patrick earned a bachelor's degree from University of Kentucky. He and his wife live in Lexington, Ky.

Biography
for
Mike Ricks

Biography

for

Joe Burns

Kentucky Rural Water Association

Joe Burns, Senior Program Coordinator, has been with Kentucky Rural Water Association since April 1994. His experiences at KRWA have included implementing the NRWA source water protection program and oversight of the NRWA wellhead program and the Division of Water wellhead protection assistance grant. Joe currently oversees the Utility Optimization Program and works with utilities in the program to provide technical, managerial, and financial support. Prior to joining the KRWA staff, Mr. Burns was a Senior Groundwater Hydrologist for the Kentucky Division of Water beginning in July, 1991, where he was responsible for formulating Kentucky's Wellhead Protection Strategy. He also has experience in drilling and environmental monitoring. Joe holds Bachelor of Science and Master of Science degrees in Geology from Eastern Kentucky University.

**Biography
for
Jeff Harlan
United Systems & Software**

Jeff Harlan is the Business Development Manager for United Systems & Software. Jeff has over 25 years in the IT and software industry with certifications from Microsoft, Cisco, Citrix and others. Jeff has been responsible for well over 500 network installations including datacenter designs, which include dozens of servers and thousands of workstations. Jeff was the managing partner at WWL Network Solutions which was purchased in 2006 by WinScribe, a global company in the speech dictation space. He was subsequently added to WinScribe's board of directors and named CEO for U.S. operations. His technical and business management experience are an added benefit to the organization's customers and partners when seeking best in class solutions for the problem resolutions they are working to solve.

Robert Mohon
Principal, The Neil Group LLC

Robert Mohon's responsibilities at The Neil Group include sales and marketing. In 1995, Robert began his career in the credit card processing industry and set up one of the very first websites to accept online credit card payments. With a degree in Marketing from Auburn University, Robert has helped grow the client base of the company through sales process development, CRM, and client support improvements. As an Eagle Scout, Robert supports various community and civic groups and is an Ambassador of the Brentwood Chamber of Commerce, a Board Member of the Nashville Investors Group, and past member of the Minds in Motion Advisory Board and Nashville Business Breakfast Club. His expertise includes advising clients on security (customer, employee, office), technology, internal controls, interpersonal skills, leadership, and social media/public relations.

The Neil Group LLC is a nationwide point-of-sale equipment and financial service company, with years of experience specializing in payment transaction solutions for small-to-medium-sized businesses. They offer the equipment, software and supplies to accept Visa, MasterCard, American Express, Discover, Diners Club, electronic checks, and check/debit cards. With a team of experienced professionals in several sites across the United States, they are available to serve as your business partner for payment processing.

The Neil Group is a proud member of several community organizations, including the Brentwood Chamber of Commerce, the Tennessee Association of Utility Districts and Kentucky Rural Water Association.

Biography
for
Heather Stevenson
Kentucky Rural Water Association

Heather Stevenson took on the role of Workforce Development Coordinator for Kentucky Rural Water Association (KRWA) in November, 2019.

Heather has been involved in regional workforce development programs since 2010. She got her start working for a program funded by the American Recovery and Reinvestment Act. The bulk of her experience, though, was with the out-of-school youth programs funded through the Workforce Investment Act (WIA), now called Workforce Innovation and Opportunities Act (WIOA). Heather worked for Education & Training Resources, a company based in Bowling Green, KY, that subcontracted the youth program from Lake Cumberland Area Development District.

Prior to joining KRWA, Heather began her tenure at Lake Cumberland Area Development District in 2013, when the local workforce development board decided to bring the youth workforce program “in-house.” Heather continued to work with the at-risk youth population as a career manager in the Workforce Development department. She transitioned into the role of Water and Wastewater Coordinator in March, 2017. After that, Heather functioned as a planner and GIS specialist for 21 water systems and 16 sewer systems in the LCADD region. She coordinated planning and data collection efforts, and oversaw the LCADD Water Management Planning Council’s activities, which included local and regional project prioritization and approval of new and amended project profiles. During her time at Lake Cumberland ADD, Heather worked closely with Kentucky Infrastructure Authority, local elected officials, engineers, and various other state and federal agencies.

Heather earned a B.A. in Corporate and Organizational Communication from Western Kentucky University and received her Utility Management Professional designation from Kentucky Rural Water Association’s Utility Management Institute in September, 2021.

Heather is a native of Pulaski County, KY. She resides in Nancy with her husband (Sidney), two children (Silas and Charlotte), four dogs (Lucky, Josie, Rusty, and Prancer), and three cats (Boo Boo, Wilma, and Dooley)!

Biography for **Dustin Horn** Kentucky Rural Water Association

Dustin Horn joined the Kentucky Rural Water Association in July 2020 as the GIS Manager. He provides assistance to water and wastewater utilities by helping them implement GIS into their daily routines and workflows. Having a simple, but robust GIS can provide huge benefits in system planning, maintenance, and asset management.

Prior to working at the Kentucky Rural Water Association, Dustin received his Bachelor's Degree in Geographic Information Science from Western Kentucky University. Upon graduation, he was chosen as one of fifty nationwide to participate in a student assistantship program for the 2012 ESRI User Conference.

He began his professional career at the Green River Area Development District (GRADD), where he acted as the GIS analyst for various projects which included focusing much of his time on the Water Resource Information System (WRIS). During his time at GRADD, Dustin GPS collected valve, meter, hydrant, and manhole locations for most of the water and wastewater systems in the region. He also worked diligently to build a well-maintained and topologically sound GIS for the region.

After working at GRADD for 5.5 years, Dustin took a job with the Kentucky Infrastructure Authority where he continued working with and managing the WRIS. While there, one of his primary functions was the ongoing coordination of 15 Area Development Districts (ADDs) to provide the best data possible to support the WRIS. He developed a public facing dashboard that showcases the funding needs in Kentucky using data aggregated from the WRIS. This project won a Special Achievement in GIS award from ESRI at the 2019 User Conference. While at KIA, he also helped re-conceptualize the way GIS data would be provided, reviewed, and updated by the ADDs.

Dustin resides with his family in Georgetown, KY.

Rusty Anderson

Rusty Anderson, owner of TerraGraphics, has over 25 years of experience in GPS/GIS working at the state, regional, and city/county levels of government.

Rusty spent 12 years at Kentucky Infrastructure Authority (KIA) managing the Water Resource Information System (WRIS). In this role he worked closely with the Kentucky Area Development Districts to support their efforts in updating and maintaining the WRIS. He was integral in providing GPS services to a large number of water and wastewater utilities throughout Kentucky as KIA expanded their GIS data with GPS Data Collection.

Rusty holds a BA in Geography from the University of Kentucky and has completed numerous levels of training for a wide variety of ESRI GIS and Trimble GPS products.

Currently, Rusty consults on GPS/GIS projects with Kentucky Rural Water Association.

Paul Jackson

Program Manager, Specialty Analytical Services,

[Pace Analytical](#)

paul.jackson@pacelabs.com

(813) 731-1595

Mr. Jackson is a Program Manager on Pace Analytical's Specialty Analytical Services team. In this role he provides technical support, contract development and program management for water and wastewater utilities, solid waste facilities, and stormwater monitoring programs. Paul manages Pace's Emerging Contaminants program that includes PFAS, the SDWA Unregulated Contaminant Monitoring Rule, 1,4-Dioxane, and Harmful Algal Blooms. Paul provides these services across all of Pace Analytical's 40-plus laboratories throughout the country. Paul is a U.S Army veteran where he got his start in laboratory testing, and has over forty years of experience in the environmental testing industry as a laboratory analyst, laboratory department manager, client services manager, business development manager, and Specialty Analytical Services program manager. Paul attended Towson University and University of Maryland for Business and Chemistry.

Mr. Jackson frequently presents at various state-level water utility and environmental conferences on the subjects of PFAS and Emerging Contaminants, and the US EPA's Unregulated Contaminant Monitoring Program.

Biography
for
Arianna Lagemen
Kentucky Rural Water Association

Arianna Lageman joined the Kentucky Rural Water Association (KRWA) staff as a Compliance Specialist in July, 2016. Prior to working for KRWA, Arianna worked most recently as the Lexington Laboratory Manager for McCoy & McCoy Laboratories, Inc. She has also worked for the Kentucky Division of Water as an auditor in the Laboratory Certification program and as a Compliance Manager for the Drinking Water Compliance and Technical Assistance Branch.

Arianna earned a Bachelor of Arts in Spanish Language and Literature from Hanover College as well as a Bachelor of Science in Geology from Northern Kentucky University. She concentrated on hydrogeology and coastal processes while working on a Master of Science in Geology at East Carolina University.

As a Compliance Specialist, Arianna focuses on providing assistance to KRWA members through the Compliance Check Program and through various training opportunities.

Arianna originally hails from Burlington, Kentucky and, after a brief stint in the Carolinas, happily returned home in 2010. She is currently living in Union with her husband, Matthew, and their three children.
