RE: Comprehensive System Rehabilitation Project  
 South Woodford Water District  
 Woodford County, Kentucky

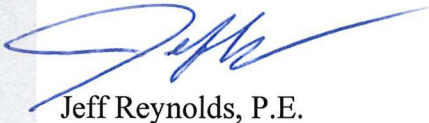

Dear Mr. Coyle:

Unfortunately, there is no way of knowing exactly how much the above referenced project will reduce water loss, but we anticipate replacing the existing water meters will reduce it by 5-10 percent. This project also includes Leak Detection Meters (Zone Meters and Bypass Meters) which will be used to identify areas with excessive water loss so the District will know where to concentrate its efforts in locating leaks.

If you have any questions or need additional information, please call.

Sincerely,

*HMB Professional Engineers, Inc.*
