

COLUMBIA GAS OF KENTUCKY, INC.

GREEN PATH RIDER

APPLICABILITY

Applicable to all electing residential sales service customers and commercial sales service customers throughout the entire service territory of Columbia Gas of Kentucky. See Sheet No. 8 for a list of communities.

PURPOSE

The Green Path Rider is a voluntary, volumetric rider available to residential and commercial sales service customers who are focused on their carbon footprint and would like the option to decarbonize some of, or all of, their emissions related to their natural gas consumption. Collections from the Green Path Rider will be used to purchase the environmental attributes of renewable natural gas (“RNG”) and carbon offsets to provide customers a two-tiered option to reduce their emissions by 50% or to 100% (“Net Zero”). The Green Path Rider charge will be updated annually to align with the variable costs associated with the RNG and Carbon Offsets procured as well as the costs associated with implementing the rider.

AVAILABILITY

Available to any customer which receives service under the GS Rate Schedule and meets the following requirements:

- (1) Customer agrees to enroll in the program with the Company for a minimum term of one month.
- (2) Customer is current on their natural gas bill and does not have an outstanding balance,
- (3) Customer selects either the Net Zero Option or the 50% Option by contacting Columbia’s call center

GREEN GAS PROGRAM RATES

Company shall file an annual report with the Commission which shall contain an updated Green Path Rider rate and shall be filed at least ninety (90) days prior to the beginning of each annual period. The Green Path Rider will follow the rider surcharge schedule as set forth below:

Green Path Rider 50% Option	1.7883 per Mcf
Green Path Rider Net Zero Option	3.5766 per Mcf
