RE: Notice of Proposed Construction of Electric Transmission Line

Dear [Property Owner]:

In February 2022, you received a notice regarding upcoming work by Kentucky Utilities Company (“KU”) to construct new utility transmission lines. This letter serves as your official notice that KU plans to construct a 345 kV electric transmission line on your property, parcel ID [Parcel ID #]. The route of the planned line is shown on the map enclosed with this letter.

KU plans to file an application with the Kentucky Public Service Commission (“Commission”) on or after March 31, 2022, seeking a certificate of public convenience and necessity authorizing construction of the proposed transmission line. Under Kentucky law, after KU has filed its application with the Commission, a property owner has the right to request that the Commission hold a local public hearing regarding the planned line. A property owner also has the right to request intervention in the case. To seek intervention in the Commission’s proceeding on KU’s application for a certificate of public convenience and necessity for the proposed transmission line, or to request local public hearing in that case, contact the Executive Director, Public Service Commission, 211 Sower Boulevard, P.O. Box 615, Frankfort, Kentucky 40602, telephone number (502) 564-3940. The docket number under which this application will be processed is Case No. 2022-00066.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Michael E. Hornung', written over a light blue grid background.

Michael E. Hornung

NOTICE OF PROPOSED ELECTRIC TRANSMISSION LINE CONSTRUCTION PROJECT

Kentucky Utilities Company (“KU”) proposes to construct approximately eight (8) miles of 345 kV electric transmission lines, and construct approximately six (6) miles of 138 kV electric transmission lines in Hardin County. The construction of the lines would help meet the growth in the area, including Ford Motor Company’s two proposed battery manufacturing plants, and the expected additional associated industries. A map showing the route of the proposed lines is shown below.

KU plans to file an application with the Kentucky Public Service Commission (“Commission”) on or after March 31, 2022, seeking a certificate of public convenience and necessity authorizing construction of the proposed transmission lines. The purpose of the Commission’s review of KU’s application is to determine whether the proposed transmission lines are required by the public convenience and necessity. Any interested person, including a person whose property will be crossed by the proposed transmission line, may request intervention in this proceeding, and may request that the Commission conduct a public hearing in Hardin County.

A person may examine the application through the Commission’s web site at <http://psc.ky.gov>. The docket number under which this application will be processed is Case No. 2022-00066.

Comments regarding the application may be submitted to the Commission, by mail to Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602, or by sending an email to the Commission’s Public Information Officer at psc.info@ky.gov. All comments should reference Case No. 2022-00066.

To seek intervention in the Commission’s proceeding on KU’s application for a certificate of public convenience and necessity for the proposed transmission lines, or to request a local public hearing in that case, submit a timely written request for intervention to the Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602. Please include the establishment of grounds for the request including the status and interest of the party. If the Commission does not receive a written request for intervention within thirty (30) days of initial publication or mailing of the notice, the Commission may take final action on the application.
