RE: Case No. 2022-00099
Southern Water & Sewer District

Dear Ms. Bridwell:

Enclosed for filing in the referenced case is Southern Water & Sewer District's application. This application is submitted in accordance with the Public Service Commission's Order dated November 7, 2019, in Case No. 2019-00131, which was later amended by an Order dated October 1, 2021, in Case No. 2020-00121. A change in rates is not proposed.

This ARF Application is being filed pursuant to 807 KAR 5:076 and uses calendar year 2021 as the test year with appropriate adjustments to normalize revenues and expenses. Although the included Schedule of Adjusted Operations indicates a revenue increase is justified, the District does not consider it appropriate to change rates now. Many improvements have been made over the past few years and several more are planned for the near future. The District respectfully requests that the PSC allow a reasonable period of time for the cost savings from all improvements to be fully realized. Details of this request and the referenced improvements are included in the attachment to the application titled "Reason for Application".

The Attorney General's Office of Rate Intervention has been provided a copy of this application by electronic mail.

Sincerely,

A handwritten signature in blue ink that reads "Jeff Prater".

Jeff Prater
