**RURAL LOCAL EXCHANGE CARRIERS' RESPONSES TO THE KBCA'S**  
**INITIAL REQUESTS FOR INFORMATION**

Ballard Rural Telephone Cooperative Corporation (“Ballard” or the “Company”) by counsel, files its responses to the KBCA’s Initial Requests for Information, issued in the above-captioned case on April 21, 2022.

RURAL LOCAL EXCHANGE CARRIERS  
CASE NO. 2022-00107

RURAL LOCAL EXCHANGES CARRIERS' RESPONSES TO THE KBCA'S  
INITIAL REQUESTS FOR INFORMATION

**REQUEST NO. 1-1:** Identify the number or percentage of Your poles that are currently red-tagged.

**RESPONSE:** Objection. Ballard objects to Request No. 1-1 because Ballard does not have any "Poles" as defined in KBCA's initial Requests for Information. Subject to and without waiver of the foregoing objection, Ballard states that it has no poles that are red-tagged. The overwhelming majority of Ballard's utility poles have been removed and those that remain were primarily placed to serve single customers. Ballard will continue removing these remaining poles as time and resources allow. It does not intend to replace poles going forward.

RURAL LOCAL EXCHANGES CARRIERS' RESPONSES TO THE KBCA'S  
INITIAL REQUESTS FOR INFORMATION

**REQUEST NO. 1-3:** Explain how You will determine if a pole is red-tagged.

- a. Explain what You will do when You are notified of a red-tagged pole.
- b. Explain how an attacher can determine and assess whether or not a pole is or will be red-tagged.

**RESPONSE:** Please see Ballard's Response to KBCA's Request No. 1-1.

CASE NO. 2022-00107

RURAL LOCAL EXCHANGES CARRIERS' RESPONSES TO THE KBCA'S  
INITIAL REQUESTS FOR INFORMATION

**REQUEST NO. 1-4:** Explain the basis for Your proposed requirement that an attacher pay the entire cost of replacing a pole that is not red-tagged, including all economic basis for this requirement.

- a. Explain your accounting treatment of a non-red-tagged pole that is replaced with a new pole paid for by an attacher.
- b. Explain whether or not You receive any financial or other benefit as a result of an attacher paying to replace an existing pole with a new pole so that it may attach.

**RESPONSE: Objection. Ballard objects to Request No. 1-4 because it has no "Poles" as defined in KBCA's initial Requests for Information. Subject to and without waiver of the foregoing objection, the requirement that an attacher bear the cost of replacing a pole that only needs replacement to accommodate the attacher's request for attachment is based upon a reasonable, common sense approach that an attacher should not be allowed to force another party to incur additional costs on its behalf. Historically, this has for over 40 years been the standard of a fair, just, and reasonable practice. Indeed, the Commission itself explained this when implementing 807 KAR 5:015:**

**The amendment proposed by KBCA could result in electric rates that are not fair, just and reasonable. When reviewing utility rates and charges to determine if they are fair, just and reasonable and otherwise comply with statutory requirements imposed by KRS Chapter 278, the Commission generally attempts to ensure that costs are assigned to the party responsible for causing the utility to incur the cost. If a utility must replace a pole that does not need to be replaced with a larger pole or a pole of a different type to accommodate a new attachment, then the cost to replace that pole is caused by the new attacher.<sup>1</sup>**

CASE NO. 2022-00107

RURAL LOCAL EXCHANGES CARRIERS' RESPONSES TO THE KBCA'S  
INITIAL REQUESTS FOR INFORMATION

Moreover, the Commission has already rejected KBCA's claim that this approach is "unfair," explaining:

**Other utility customers may eventually benefit from the installation of the new pole installed to accommodate a new attacher as alleged by KBCA, but only to the extent the new pole adds useful life. For instance, if a new pole has a 50-year life and the pole that was replaced had a 30 year remaining useful life, then other customers may get the benefit of 20 additional years of life that were paid for by the new attacher. However, in 30 years, the relevant pole may not be necessary such that other customers would not receive any benefit from the new pole installed to accommodate the new attacher's equipment. Further, depending on the age of the pole being replaced and the types of poles involved, it is possible that a new pole of a different type necessary to accommodate a new attacher may not actually have a longer life than the existing pole.<sup>2</sup>**

Simply put, Ballard's customers should not have to provide a subsidy to an attacher by being forced to incur costs over which neither Ballard nor its customers have any discretion. *See* 807 KAR 5:015 § 2(1) ("[A] utility shall provide . . . access to any pole . . ."). This is especially true in light of the substantial pole replacement and other subsidies the KBCA's members will now be able to obtain through the Commonwealth's newly-formed Kentucky Rural Infrastructure Improvement Fund and other elements of the Commonwealth's broadband infrastructure investments through HB315 (in addition to available federal or local subsidies), which was passed during the most recent legislative term.

CASE NO. 2022-00107

RURAL LOCAL EXCHANGES CARRIERS' RESPONSES TO THE KBCA'S  
INITIAL REQUESTS FOR INFORMATION

**REQUEST NO. 1-5:** Explain and provide data concerning why You should not be responsible for Your own negligence, including the basis for Your requirement that “Attacher shall indemnify, protect, and hold harmless the Company and other joint-users of said poles from and against any and all loss, costs, claims . . . arising out of . . . the joint negligence of the Attacher and the Company and/or any joint users.”

- a. Explain why the same standard of liability does not apply to You and the third party attachers.
- b. Explain why third party attachers should be liable for Your negligence

**RESPONSE:** This provision of the Duo County tariff, adopted by Ballard, is identical to the CATV pole attachment tariffs previously approved by the Commission and to which KBCA has never objected. The tariff is written broadly to protect Ballard from incurring defense costs and potential liability as a result of being required by law to allow a third-party to occupy its property. If a third-party incurs damage involving a utility pole owned by Ballard, the owner of the pole will undoubtedly be included in any lawsuit or claim for damages. Without protection to a pole owner, an attacher would be incentivized to shift blame to a pole owner to attempt to minimize the extent of its own losses caused by the attacher's negligence. Further, a pole attachment tariff must have mechanisms to incentivize an attacher to ensure that all attachments are made safely and without damage to a pole, which could lead to injuries to a third-party.

CASE NO. 2022-00107

RURAL LOCAL EXCHANGES CARRIERS' RESPONSES TO THE KBCA'S  
INITIAL REQUESTS FOR INFORMATION

**REQUEST NO. 1-6:** Explain the basis for and provide data concerning Your requirement that You may terminate KBCA's rights under the tariff and remove its attachments for failure to comply with the tariff, including failure to pay amounts You are claim are due, after a 30 day cure period.

a. Explain the basis for terminating KBCA's rights under the tariff and removing its attachments if You and KBCA are engaged in a dispute regarding the terms, conditions, or rates set forth in Your tariff.

b. Explain the basis for denying access to a pole for payment disputes.

c. Explain why the Commission's complaint process and the financial penalties already included in the tariff are not an adequate "remedy for an Attacher's failure to comply with the terms of the Tariff."

**RESPONSE:** (a) **The terms, conditions, or rates set forth in the tariff are subject to approval by the Commission. Like all other users of tariffed services, KBCA and its members will be required to comply with the terms of the tariff. If KBCA and its members do not comply with the tariff, including payment of amounts due at the rates approved by the Commission, then Ballard is provided a remedy (just like when any other user of tariffed services fails to comply with a tariff). Removing "teeth" from the tariff dis-incentivizes compliance and is unreasonable from financial, technical, and operational perspectives.**

(b) **Ballard does not propose denying access to a pole based on a "payment dispute." Use of utility poles by an attacher will be subject to the rates and terms set by the Commission in an approved tariff. Following the Commission's approval of the tariff,**

RURAL LOCAL EXCHANGE CARRIERS  
CASE NO. 2022-00107

RURAL LOCAL EXCHANGES CARRIERS' RESPONSES TO THE KBCA'S  
INITIAL REQUESTS FOR INFORMATION

**KBCA's members will be required to pay the tariffed rates approved by the Commission. If KBCA's members fail to pay those amounts, there is no "dispute," but a failure to comply with the tariff, for which a utility customarily has remedies (including the rights of "disconnection" and refusing additional service).**

(c) **The Commission does not have the jurisdictional authority to award monetary damages, such as the failure to pay past due amounts. Moreover, the pole-owner should not be burdened with having to institute a complaint because an attacher is violating terms of the tariff; that burden (like the burden of proof) falls to the person complaining that the tariff terms are not fair, just, and reasonable.**
