A. Requests to Attach. Before Licensee shall have a right to place Attachments to any Poles of Licensor involving Complex Make-Ready, Licensee shall make application for and receive a revocable, nonexclusive License which shall be in the form of a Licensor countersigned Application for Pole License (Exhibit A). Licensee shall provide sufficient information on the Exhibit A Application to enable Licensor to locate the proposed Pole(s) impacted and to identify the physical characteristics of Licensee's facilities to be attached to Licensor's Pole(s). Each Exhibit A Application for Pole License shall contain no more than 300 Poles. Licensor will review pursuant to Kentucky rules. Licensor requires that all poles on any one Exhibit A Application be in the same city or zip code. Licensor will process Applications for Pole Licenses in the order in which they are received; provided, however, that when Licensee has multiple Applications for Pole Licenses on file with Licensor, Licensee may designate its desired priority of completion with respect to all such Application for Pole Licenses. Licensee shall not under any circumstances attach any equipment to any guy wires or anchors owned by Licensor.

B. Application For Pole License and Engineering Survey. Licensee shall submit an Application for Pole License in the form of Exhibit A and shall include a drawing of the proposed route, the pole detail and contact information (name, telephone and email information). Upon receipt of a complete Exhibit A Application, Licensor will conduct an engineering survey to determine whether and where Licensee's Attachment is feasible, and what Make-Ready Work is required by Licensor or other existing attachers to accommodate Licensee's Attachment. Licensor will invoice Licensee for all applicable application and estimated field survey fees within ten (10) days of acceptance of the Exhibit A application form. Licensee shall remit payment in full for applicable application and estimated field survey fees prior to Licensor conducting the field survey. Upon completion of the engineering survey, Licensor shall inform Licensee of its estimated make-ready charges for Licensor Make-Ready Work ("Make-Ready Estimate"). If during this process, Licensor determines the request is denied based on insufficient capacity or for reasons of safety, reliability and generally applicable engineering purpose, Licensor shall inform Licensee that the Application for Pole License is denied together with the reason. All expenses incurred by Licensor in reviewing Licensee's Application for Pole License shall be borne by Licensee even if such request is denied by Licensor.

S1.10.3 Cost of Expansion

Should Licensee request Licensor to expand capacity or purchase additional plant and should Licensor so agree, Licensee agrees to pay all cost and expenses thereby incurred by Licensor. If another party that has been granted a license joins in the request and will benefit from the expansion or purchase, Licensee agrees to pay a percentage of all costs proportionate to Licensee's share of the benefit received from the expansion or purchase, but Licensee shall be responsible for all costs and expenses not paid by the other party.

S.1.10.4 Effects of Modifications, Additions, Replacements or Rearrangements

- A. A. Post construction and/or periodic inspection of Licensee Attachments. Licensor shall have the right, but not the obligation, to make a post construction inspection and periodic inspections at any time of any part of Licensee's Attachments on Poles and any other associated facilities for the limited purpose of determining whether Licensee's Attachments are in compliance with the terms of this Tariff and any Licenses issued hereunder and in the case of Simple Make-Ready, whether Licensor's Attachments were moved in compliance with the Simple Make-Ready specifications attached to this Tariff as Exhibit B, incorporated herein, and in accordance with the same standards and practices followed by Licensor or Licensor's Contractors. C. No Duty to Licensee. Neither the act of inspection or survey by Licensor of Licensee's Attachments nor any failure to inspect such Attachments shall operate to impose on Licensor any liability of any kind whatsoever or to relieve Licensee of any responsibility, obligations or liability under this Tariff, any License issued hereunder, or applicable law, or to any third-party contractor, Licensee Contractor, or otherwise.

Prior to submitting the Exhibit B-1 Application, Licensee shall send notice (which may be via email or other electronic means) at least three (3) days in advance that Licensee will be surveying Licensor's Pole(s) with an Approved Contractor. Licensee is responsible for determining, in accordance with the requirements of the National Electric Safety Code, if the existing Licensor's and third parties' facilities will support the additional loading imposed by the Licensee's attachments. Upon receipt of an Exhibit B-1 Application, Licensor shall have ten (10) days to ensure whether it is complete. If the Exhibit B-1 Application is incomplete, Licensor will return the Exhibit B-1 Application to Licensee along with an explanation detailing how it is deficient. For Exhibit B-1 Applications that are complete, Licensor has thirty (30) days from receipt of the Exhibit B-1 Application to review and approve or reject the Exhibit B-1 Application.~~

**~~11. CONSTRUCTION AND MAINTENANCE (Cont'd.)~~**

~~b. — Licensee shall, at its own expense, make and maintain its Attachments and use Licensor Poles in a safe condition and in thorough repair, and in a manner acceptable to Licensor, and so as not to conflict with the use of said Poles by Licensor or by other authorized users of said Poles, or interfere with other facilities thereon or which may from time to time be placed thereon. Licensee shall, at its sole expense, upon written notice from Licensor, relocate or replace its Attachments placed on said Poles or transfer them to substituted Poles that may be authorized by Licensor, or perform any other work in connection with said Attachments that may be required. Licensor shall give such written notice as is reasonable in the circumstances, provided, however, that in cases of emergency, as determined by Licensor in its sole discretion, Licensor may arrange to relocate, remove or replace Licensee Attachments placed on said Poles, transfer such Attachments to substituted Poles or perform any other work in connection with said Attachments that may be required in the maintenance, replacement, removal or relocation of said Poles or Licensor or existing attach facilities thereon or which may be placed thereon, or for the service needs of Licensor, and Licensee shall reimburse Licensor for the expense thereby incurred. ~~11. — CONSTRUCTION AND MAINTENANCE (Cont'd.)~~

~~d. — Licensee shall not authorize any person or entity acting on Licensee's behalf ("Licensee Contractor") to perform any work on, within or in Licensor's Poles without first verifying, to the extent practicable, on each date when such work is to be performed and, that the condition of the Poles is suitable for the work to be performed. If Licensee or Licensee Contractor determines that the condition of the Poles is not suitable for the work to be performed, Licensee shall notify Licensor of the condition of the Poles in question and shall not proceed with construction activities until Licensee is satisfied that the work can be safely performed.~~

~~e. — Licensee shall be solely responsible for paying all persons and entities that provide materials, labor, access to real or personal property, or other goods or services in connection with the construction and placement of Licensee's Attachments and for directing the activities of all Licensee Contractors while they are physically present on, within or in the vicinity of Licensor's Poles. Licensee shall not permit any mechanic's lien, material man's lien, or any other lien, claim or security interest to attach to or encumber any of Licensor's real or personal property at any time.~~

~~f. — Licensee's main line Attachments shall be tagged at maximum intervals of 300 feet so as to identify Licensee as the owner of the Attachment. Licensee shall place fiber wrap/ID at the specific Licensor Poles attaching point and at any aerial span splice location and/or slack loop. The tags shall be of sufficient size and lettering so as to be easily read from ground level.~~

~~12. — OVERLASHING~~

~~a. — Licensee may, upon notice to Licensor, overlash its own existing authorized Attachment and this does not constitute a separate Attachment, as it relates to the billing of Pole Attachment Fees, unless multiple/separate Attachment points are physically made at the Poles itself outside of the scope of a single Attachment. Such notice shall be in the form of an Exhibit B Application for Pole License, and any additional Attachments being installed on Poles, regardless of it being an overlash of existing Attachment or as a new Attachment, will require an engineering analysis to determine if the additional loading negatively impacts the Poles capacity. Any additional load which causes the Pole to exceed its rated capacity or no longer provides for ample ground clearance of the Attachments or other facilities will necessitate the need for the Licensee to pay any and all Make Ready Work necessary. Each overlashed strand shall not exceed a 2" maximum diameter.~~

~~b. — In no event shall Licensee allow a third party to overlash to Licensee's Attachments without prior notice to and consent from Licensor. Any third party must execute a License Agreement with Licensor and obtain a license thereunder.~~

~~a. Licensee shall not modify, overlap, add to, or replace Attachments on any Poles without first notifying Licensor in writing of the intended modification, addition or replacement at least thirty (30) days prior to the date the activity is scheduled to begin. The required notification shall include:~~

- ~~1. the date the activity is scheduled to begin including the Pole location and Pole number;~~
- ~~2. a description of the planned modification, addition, or replacement;~~
- ~~3. a representation that the modification, addition, or replacement will not require any space other than the space previously designated for Licensee's Attachments; and~~
- ~~4. a representation that the modification, addition, or replacement will not impair the structural integrity of the Poles involved.~~

~~b. Upon Licensor's receipt of a complete Exhibit B Application for Pole License, Licensor will perform, at Licensee's sole expense, a field check and if Licensor determine that the modification, addition, or replacement specified by Licensee in its notice will require more space than that allocated to Licensee or will require the rearrangements of, reinforcement of, replacement of, or an addition of support equipment to the Poles involved in order to accommodate Licensee's modification, addition, or replacement, Licensor will so notify Licensee and the parties will follow the Make Ready Work process as set forth in Section 8 of this Agreement in order to obtain authorization for the modification, addition, or replacement of its Attachments.~~

~~e. Should Licensee request Licensor to expand capacity or purchase additional plant and should Licensor so agree, Licensee agrees to pay all cost and expenses thereby incurred by Licensor. If another party that has been granted a license joins in the request and will benefit from the expansion or purchase, Licensee agrees to pay a percentage of all costs proportionate to Licensee's share of the benefit received from the expansion or purchase, but Licensee shall be responsible for all costs and expenses not paid by the other party.~~

~~13. MODIFICATIONS, ADDITIONS, REPLACEMENTS OR REARRANGEMENTS (Cont'd.)~~

~~d.A. When multiple applications, including those of Licensee, are received by Licensor with respect to any Poles which must be replaced or rearranged to provide additional space prior to commencement of the work on such Poles, Licensor's facilities may need to be transferred in which case Licensee shall pay for all costs for such transfers.~~

~~e. In the event Licensor plans to modify or alter any Poles upon which Licensee has placed Attachments, Licensor, except in emergency situations, shall provide Licensee written notice of the proposed modification or alteration at least sixty (60) days prior to the time the proposed modification or alteration is scheduled to take place. Should Licensee decide to modify or alter Licensee's Attachments on Poles, Licensee shall so notify Licensor in writing at least thirty (30) days prior to the day the work is to begin. In such event, Licensee shall bear a proportionate share of the total costs incurred by Licensor to make Licensor Poles accessible.~~

~~f. In the event it becomes necessary for Licensor, Licensor's subsidiary or affiliate or any other entity in which Licensor hold an interest, or another utility with whom Licensor has a prior agreement for pole attachments, to use the space on a Pole occupied or to be occupied by Licensee's Attachments, Licensee shall, upon receipt of sixty (60) days notice, either vacate the space by removing its Attachments at its own expense or if Licensor decides to replace the Pole with a larger pole that can accommodate Licensee's Attachments, bear the expense of such replacement and transfer its Attachments to the new pole.~~

~~g. In the event Licensor is required to move the location of, or replace, any Licensor Poles for reasons beyond its control, Licensee concurrently shall relocate Licensee's Attachments. Licensee shall be solely responsible for the costs of the relocation of Licensee's Attachments. When it is mutually agreed that it is in the best interest of Licensor and Licensee, Licensor may, after proper notification has been provided, transfer Licensee's Attachments at the same time that Licensor transfers its facilities and shall invoice Licensee for the actual costs incurred in performing the transfer of Licensee's Attachments.~~

~~14. EMERGENCY RESTORATION~~

~~a. In the event of an emergency, restoration procedures may be affected by the presence of Licensee's Attachments. While Licensor shall not be responsible for the repair of damaged Attachments, Licensor shall nonetheless control access to its Poles if the restoration is to be achieved in an orderly fashion.~~

~~b. Where Licensor and Licensee are involved in emergency restorations, access to Licensor's Poles will be controlled by Licensor according to the following guidelines:~~

~~1. Service Disruptions/Outages~~

~~a) While exercising its right to first access, Licensor shall make all reasonable efforts to grant access to as many other entities with attachments as is reasonably safe.~~

~~b) Where simultaneous access is not possible, Licensor will grant access on first come, first served basis.~~

~~2.1. Service Affecting Emergencies~~

~~a) While exercising its right to first access, Licensor shall make all reasonable efforts to grant access to as many other entities with attachments as is reasonably safe.~~

~~b) Where Licensor is unable to grant simultaneous access to all other entities with attachments, access will be granted according to the level of damage to the attachments of each entity and the likelihood that a given level of damage will result in service disruption. Where the likelihood that a service disruption will result is not clearly discernible, access will be on a first come, first served basis.~~

~~e. Without limiting any other indemnification or hold harmless provisions of this Agreement, Licensee agrees that any decision by Licensor regarding access to its Attachments, or any action or failure to act by Licensor, under this section shall not be the basis for any claim by Licensee against Licensor for any damage to Licensee's Attachments or disruption of Licensee's Services, or any other direct or indirect damages of any kind whatsoever incurred by Licensee.~~

~~B.~~ Licensee represents and warrants that any of its employees or Licensee Contractors shall not climb or work on any of Licensor's Poles, or work within Licensor's Right-Of-Way unless such person has the training, skill, and experience required to recognize potentially dangerous conditions relating to Poles and to perform the work safely.
