RE: Case No. 2022-00117
Bronston Water Association, Inc.
Additional Information Current and Proposed Billing Analysis 2021

Dear Ms. Bridwell:

Enclosed for filing in the referenced case is a second iteration of corrected information submitted on behalf of Bronston Water Association, Inc. in response to a recent request from Kentucky Public Service Commission staff:

- ✓ Current Billing Analysis 2021
- ✓ Proposed Billing Analysis 2021

The corrections on these documents are attributable to:

- ✓ The PDF report file provided by the utility used different rate blocks for consumption than the spreadsheet file provided by the utility, and
- ✓ There were instances where the rate code used on certain customer records did not match the meter size code on those customer records; in those instances, the consumption was related to the rate code rather than the meter size code recorded on the customer records.

Please accept my appreciation for the patience and professionalism of your staff.

Sincerely,

Robert K. Miller
