Re: Case No. 2022-00120

Dear Ms. Bridwell:

On June 2, 2022, at approximately 5:47 pm several attachments were filed in response to Staff's First Request for Information in the referenced case. It has recently been noted that 12 of those files included confidential information. Those files were named "WL1 9.d-xxx 2020 billingregister", where xxx is an abbreviation for the month (jan through dec). The files with the confidential information have now been removed from the PSC website.

Included with this filing are 12 revised billing register files to replace the ones originally submitted. The confidential information contained in the original files (customer names and account numbers) has been deleted.

If we can assist with anything else regarding this issue, please let me know.

Sincerely,

Alan Vilines  
Kentucky Rural Water Association
