Hi Kerry,

Please let me know if you need additional information or have any additional questions.

CG Nom is Citygate nomination. This is volume is measured at the citygate meter – less the fuel it takes to move the gas to this point (Delivered gas is another term).

ML Nom is Mainline (Pipeline) nomination. This is volume measured at the pipeline meter (Receipt gas is another term).

Pipeline/Mainline > Citygate > Burnertip/Customer

Thank you

Suzanne Bass

To: igenergy@bbtel.com
Subject: RE: [EXTERNAL]Kerry - Valley Gas

Im not sure if it's a silly question or not but do you know what the "CG Nom" and "ML Nom" stands for?

Thank you,

Sarah Jankowski

Good morning Kerry

The storage reports are for each month behind TGT. Unfortunately, there is no accumulative. I've provided our month breakout below for Nov 2020 – May 2022 actual.

The Rate Sheet that I provide is for forward estimates and are based on an average usage, so they are not actual volumes.

Please let me know if you need additional information.

Thanks

Suzanne

ACTUAL

	Usage	Storage	CG Nom	ML Nom	Storage Ending Balance	Storage Transfers
					13112	carryover
Nov-20	3311	(916)	2,395	2,425	12,196	-

EXTERNAL MAIL. Do not click links or open attachments from unknown senders or unexpected Email.

Suzanne: Do you have different reports for our monthly inventory. The PSC is asking for maybe a 12 month report. I guess I am asking what other reports are possible. Also the rate-sheet that is provide from you, are those injection withdrawals listed the actual numbers for each month?
