

TREATED SEWAGE ADJUSTMENT FOR SEWER UTILITIES (807 KAR 5:075)			
Name of Utility	Warren County Water District		
Date	August 5, 2022		
Address	P.O. Box 10180		
City, State, Zip	Bowling Green, KY 42102		
Telephone Number	270-842-0052		
Email address	jacobc@warrenwater.com		
1.a. Name of all providers and the base (current) rate and changed rate of each. In the event the utility is billed by the provider on a rate that is not a flat rate schedule, the entire rate schedule must be shown. Attach additional sheets if necessary.			
Provider(s)	Base Rate	Changed Rate	
Bowling Green Municipal Utilities	\$3.0148	\$3.1285	
1.b. A copy of the provider's notice of the changed rate showing the effective date of the increase is attached as Exhibit A			
2. Twelve-month period upon which the treated sewage adjustment is based. (This twelve-month period must end within 90 days of this filing).			
From	6/2021	through	5/2022
	(month and year)		(month and year)

3. Statement of sewage treated. Where sewage treatment is from more than one provider, sewage treatment from each provider must be shown separately. When water purchases are the basis for sewage treatment charges and the water is purchased through a declining block rate schedule, purchases for each month must be shown. Attach additional sheets if necessary.

Provider(s)	Gallons of Sewage Treated during 12 month period
Bowling Green Municipal Utilities	993,847,000
TOTAL	993,847,000

4. Total gallons of water sold for the 12 month period	1,288,364,093
--	---------------

5. Increased cost	\$113,000.40
-------------------	--------------

The increased cost is the difference between the gallons of treated sewage at the base (current rate) and at the new rate. The calculation and all supporting documents used to determine the change in treated sewage costs sufficient to determine the accuracy of the calculation is attached as Exhibit B

When water usage is the basis for the utility's sewage treatment charge, the treated sewage adjustment shall be calculated as a per 1,000 gallon factor.

6. Treated sewage adjustment factor per 1,000 gallons*	\$0.09
--	--------

*The treated sewage adjustment factor is obtained by dividing the increased cost of the sewage treatment by the total gallons of water sold. (Number 5 ÷ (Number 4 ÷ 1,000))

<p>Note: The treated sewage adjustment factor is added to each thousand gallons sold. If the minimum usage is 2,000 gallons then the treated sewage adjustment factor would be added to the minimum bill twice.</p>	
<p>When the utility has a flat monthly rate the treated sewage adjustment factor shall be calculated as a flat monthly amount to be added to the current rate.</p>	
7. Number of customers or Residential Equivalents	N/A
<p>8. Treated sewage adjustment (amount to be added to current monthly bill)**</p>	
<p>N/A</p>	
<p>**The treated sewage adjustment factor is obtained by dividing the increased cost by the number of customers or residential equivalents and then by 12 months. (Number 5 ÷ (Number 7 ÷ 12).</p>	
<p>9. A schedule listing the current and proposed rates is attached as Exhibit C</p>	
<p>10. A copy of the resolution or other document of the utility's governing body authorizing the proposed rates is attached as Exhibit D</p>	
11. Proposed effective date	September 1, 2022
<p>Signature of Utility Officer</p>  <p>General Manager</p>	
<p>Title</p>
