Counsel for East Kentucky Midstream, LLC

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

Electronic INVESTIGATION OF)
JURISDICTIONAL STATUS OF EAST)
KENTUCKY MIDSTREAM, LLC, AND OF)
ITS COMPLAANCE WITH KRS CHAPTER)
278, 807 KAR CHAPTER 005, AND 49 CFR)
PARTS 191 AND 192)

Case No.
2022-00238

Certification

This is to certify that I have supervised the preparation of the Response to the Commission Staff's Second Request for Information to East Kentucky Midstream on behalf of the corporate respondent and that the responses from myself and the other witness(es) are true and accurate to the best of my knowledge, information and belief after reasonable inquiry.

DATE: 10-19-22

Jack Justice, Member

Request

1. Refer to East Kentucky Midstream's response to Commission Staff's First Request for Information (Staff's First Request), Item 1. Provide an additional diagram of the entire natural gas system under East Kentucky Midstream's control, that includes and identifies:
 - a. Any and all suppliers;
 - b. Any and all sales of purchase points;
 - c. Any and all customers, residential or commercial, whether free, farm tap, or other.
-

Response

- a. See Response to 1 PSC 04 (a)
- b. See Response to 1 PSC 04 (b) and maps identified as 01-0011 – 01-0016 attached to response to 1 PSC 01.
- c. See Response to 1 PSC 04 (c) and additional attachment 02-0001 to 02-0012 listing the line name for each customer. EKM does not have a map showing customer locations.

Report Criteria

Sorted by Route (From: 01, To: 18),

All Balances selected, All Customer Types - NOT SHC=DI selected

Multi-Meter Report - Utility Type: All

Request

2. Refer to East Kentucky Midstream's response to Staff's First Request, Item 5, Commission Staff considers this as unresponsive. Provide a list of any and all gas lines that had gas flowing at the time of acquisition of Jefferson Gas² by East Kentucky Midstream, but now do not, and include a detailed reason for the stop of flow. This includes, but is not limited to, lines that have been terminated, abandoned, and disconnected. This shall be an ongoing request.
-

Response

East Kentucky Midstream purchased the following pipelines from Jefferson Gas: .

- Frozen Field (Breathitt County)
- Lines A-1, A-2, A-3, A-4, A-5
- KZ East & West
- C Line
- J line

All of pipelines listed above were flowing at the time of acquisition of Jefferson Gas and are presently flowing. EKM has not terminated, abandoned or disconnected any pipelines that had gas flowing at the time of acquisition of Jefferson Gas. EKM does not know the scope of customers disconnecting their service lines. EKM does not monitor the customer's service line.

Request

3. Refer to East Kentucky Midstream's response to Staff's First Request, Item 1. Provide a diagram and identify all lines currently owned or operated by East Kentucky Midstream that were acquired from Jefferson Gas.
-

Response

See Response to 1 PSC 01 (a); Diagrams labeled 01-0001 to 01-0010. To the best of EKM's knowledge, this shows the pipelines acquired by March 2021. EKM does not know the scope of customers disconnecting their service lines. EKM does not monitor the customer's service line.

Request

4. Identify any alteration to the operation of the lines acquired from Jefferson Gas since acquisition including, but not limited to:
 - a. Replacement of any section of line;
 - b. Additional customers added;
 - c. Customers that were receiving gas no longer receiving gas;
 - d. Additional purchase point;
 - e. Removed purchase point;
 - f. Additional connection;
 - g. Extension of any line;
 - h. Removal of any line;
 - i. Installation, movement, replacement or removal of a valve;
 - j. Different provider of gas through any line.
-

Response

- a. 3.5 miles of 8-inch pipe on Line A-2
- b. 2 Farm Tap customers (one in Magoffin County & one in Menifee County)
- c. 5 to 10 Farm Tap customers have moved from their dwelling, service was terminated
- d. None
- e. None
- f. East Kentucky Midstream considers “Additional Connection” to be the same as “Additional Purchase Point” listed in Item (d), above
- g. None
- h. None
- i. EKM installed the following valves:
 - a. 4-inch valve on C Line due to Mountain Parkway Expansion
 - b. 6-inch valve on Line A-2 due to Route 30 crossing
- j. None

Request

5. Refer to East Kentucky Midstream's response to Staff's First Request, Item 1. For all lines other than identified in Item 3 listed above, identify how East Kentucky Midstream acquired the lines. Indicate if they were installed by East Kentucky Midstream (or a contractor employed by East Kentucky Midstream) or another party, and if by another party, identify that party.
-

Response

Except for the pipe replacement of 3.5 miles of 8-inch pipe on Line A-2 identified in Item 4 (a), above, East Kentucky Midstream purchased all existing pipelines from Jefferson Gas "AS IS/WHERE IS". No additional pipelines were installed by East Kentucky Midstream or a contractor employed by East Kentucky Midstream. EKM does not know the scope of customers disconnecting their service lines. EKM does not monitor the customers service line.

Request

6. Refer to East Kentucky Midstream's response to Staff's First Request, Item 6. Identify and explain the basis for the idling of the 15-mile section of Line A-5.
-

Response

As stated before in Response to 1 PSC 06, East Kentucky Midstream believes this would be in reference to a 15-mile section of Line A-5, but the idling occurred prior to the acquisition by EKM in January 2021. Since the date of acquisition, the 15-mile section of Line A-5 remained idled because there no farm taps on this section needing service.

Request

7. Refer to East Kentucky Midstream's response to Staff's First Request, Item 7, Commission Staff considers this as unresponsive. Provide information regarding the limited jurisdiction certificate issued by Federal Energy Regulatory Commission (FERC) to Jefferson Gas in 2009, and whether the certificate has been transferred to East Kentucky Midstream since acquisition, or if the line has been abandoned.
-

Response

East Kentucky Midstream reasserts the response to 1 PSC 07 in full and adds to this response as follows. This certificate has not been transferred to East Kentucky Midstream since acquisition, and the line has not been abandoned.

Request

8. Refer to East Kentucky Midstream's response to Staff's First Request, Item 7. If the certificate has not been transferred since the acquisition of Jefferson Gas, provide a detailed explanation as to why this has not occurred.
-

Response

Since Columbia was regulated prior to the abandonment, the FERC limited jurisdiction certificate issued to Jefferson was only necessary in order to fulfill Columbia's contractual obligations to two customers: Delta and Elam (now West Liberty). The contractual charges at that time were accepted by FERC as a sufficient substitute for a FERC-approved tariff. Columbia's contract with Elam was subsequently terminated due to non-payment, and the contractual rates for Delta subsequently expired and are not the subject of any dispute. FERC concluded Jefferson was a gathering system and that the facilities once abandoned would be considered gathering. Thus, no transfer of the certificate is necessary as a result of EKM acquisition of Jefferson, since FERC found both Jefferson and the facilities abandoned to be "gathering" exempt from FERC jurisdiction under Section 1(b) of the Natural Gas Act.

Request

9. Explain whether East Kentucky Midstream is still providing transportation on behalf of Columbia Gas Transmission (TCO) to Delta and West Liberty through the KZW line.
-

Response

Delta Natural Gas

As a part of the abandonment proceeding at the FERC, in Docket No. CP09-65-000, Jefferson Gas agreed with Columbia Gas Transmission (TCO) and the FERC to transport Delta's natural gas, at no cost, from TCO's Means Station to Delta's city gate at Frenchburg, KY. In addition, East Kentucky Midstream is not compensated by TCO or Delta for "Lost And Unaccounted For Gas".

West Liberty

Also, as a part of this FERC abandonment proceeding, Jefferson Gas agreed to transport Elam Utility Company's natural gas, at no cost, from TCO's Means Station to Elam's city gate at West Liberty. Subsequently, Elam declared bankruptcy and TCO cancelled its FTS contract with Elam. Hence, Jefferson's free transportation requirement terminated. Elam was purchased by the City of West Liberty. Currently, East Kentucky Midstream sells natural gas to West Liberty Municipality & Prison pursuant to the terms listed in Response to 1 PSC and its supplement.

Request

10. Refer to East Kentucky Midstream's response to Staff's First Request, Item 8, Commission Staff considers this as unresponsive. Provide information regarding the adoption of Jefferson Gas's tariff since acquisition. State whether East Kentucky Midstream has adopted Jefferson Gas's tariff. If so, state whether East Kentucky Midstream completed all legal requirements in order to adopt the tariff.
-

Response

EKM has not yet adopted the official Jefferson Gas tariff on file with the Commission for the following reasons. Because of the events that took place prior to acquisition by EKM when Jefferson Gas apparently increased its contract prices, those Jefferson Gas farm tap rates charged were not reflected by any tariff on file with the Commission as Jefferson had not updated its tariff since nearly a decade prior. Only after acquisition, while assessing the system and its emergent needs, did this issue eventually become apparent. EKM was assessing how to address the farm tap tariff issue at the time of the filing of this matter. EKM does not dispute that a farm tap tariff needs to be on file for its farm tap customers, but due to the unique circumstances surrounding the acquisition, EKM believes Commission assistance will be required to establish a new appropriate tariff. EKM is prepared to request an exception pursuant to 807 KAR 5:0026 Section 10 to this effect.

Request

11. Refer to East Kentucky Midstream's response to Attorney General's First Request for Information (Attorney General's First Request), Item 7, Commission Staff considers this unresponsive. If other pipelines are available to serve the former customers of Public Gas who are now served by Kentucky Frontier, identify those pipelines and the ownership of those pipelines.
-

Response

Pipelines near EKM gathering lines:

The 3 pipelines below could provide "city gate service" to Jackson, KY (sufficient number of customers within this city gate). However, the smaller city gates such as Campton, Hazel Green, etc. and all KFG Farm Taps would require service from EKM's pipelines because these customers are spread out along EKM's pipelines.

1. TCO has a pipeline that serves Beattyville, KY, Line KA-1000
2. Delta Natural Gas has a pipeline in Lee County
3. Columbia Gulf has a pipeline in Menifee County

Request

12. Refer to East Kentucky Midstream's response to Attorney General's First Request, Item 12. Identify any and all pipelines classified as non-jurisdictional or unregulated gathering in the East Kentucky Midstream system. Identify the state or federal regulatory body that exercises oversight for safety of the non-jurisdictional or unregulated gathering line.
-

Response

The pipelines comprising the EKM system have never been classified as anything other than gathering by the Kentucky PSC or FERC. Under PHMSA regulations, the Kentucky PSC has oversight for safety for all EKM pipelines (1 PSC 01 Diagrams 01-0001 to 01-0010) for reporting (incidents and annual).
