General Manager:	Andrew Tucker	
Office Manager:	Mary Ann Larimore	
Recording Secretary:	Connie Jo Glasscoe	
Employees:	Jan Pierce	
Visitors	John Frank	Lee Mudd

Terry Mardis presided over the meeting and Connie Jo Glasscoe recorded the minutes of the meeting. Terry called the meeting to order and welcomed all visitors. There was a moment of silence.

Minutes of Previous Meetings: Jeff made a motion, seconded by Jerry, to approve the minutes of the previous meeting. All in favor.

Old Business:

Budget: Our income for February was \$255,562.15 and expenses \$233,961.49. The profit for the month was \$21,600.66.

Water Quality: Our water quality has improved and water loss for February was 12.5%.

KIA: The construction crew has taken the chlorine room out and blocked it up at Donansburg and Exie. They have taken out the motor and pump and put in the VFD at Mac Pittman. It will still be 3 or 4 weeks until we get our materials. We need to get Exie and Donansburg up and going before then.

Rate Study: We did get the ARC grant to do a rate study and it will not cost us anything. We will need to respond to this by August.

Bluegrass Cell Contract: Verizon did the core samples and found traces of lead but nothing to report. They are wanting to add more antennae to our tank which will make more weight on it. Andrew is going to send the contract to John Henderson. John will look over it and then communicate with Mo Hensley from Metcalfe Co. to see how much they are getting from Verizon for their tank rental.

Campbellsville and Edmonton have lead in their lines so we will have to notify all the customers down from these lines. This is mainly for houses from 1988 and older.

Security Cameras: Andrew has a quote for 4 cameras from SCRTC. The cost of the installation fee and to put in the computer will be \$2024.00. Andrew will shop around and get more quotes.

Uniforms: It cost over \$8000.00 a year for the guys uniforms. Andrew can get 5 shirts and 5 pair of pants for each of the guys at Rural King for around \$1400.00. We will talk about this again when our contract is closer to being up.

Taylor/Metcalfe Money: We will be getting \$142,196.00 from Taylor Co. to go towards Sandy Y tank. Metcalfe is giving us \$123,290 to go towards Rockland Mills Road. Terry called the meeting to order and welcomed all visitors. There was a moment of silence.

Minutes of Previous Meetings: Jerry made a motion, seconded by Larry to approve the minutes of the previous meeting. All in favor.

Old Business:

Monthly Budget: Our income for the month was \$346,309.49 and expenses \$252,246.42. Our profit for the month was \$94,063.07.

Water Quality: We are pulling more from Greensburg now and our samples are good.

KIA: We have gotten some of the materials in and will start on Exie the first of September when Jeff gets back. We are going to wait until later in the year to start on Donansburg. We will have to shut it down for about three weeks so maybe there will be less water usage. The paperwork for Sandy Y has been submitted to DOW and we may work on this in the fall. It has been fully funded with \$142,196 coming from cleaner water money and \$130,000 coming from ARPA money.

The cleaner water would fully fund the project at S-ville. We would like to do this as a change order so we will have to rebid it. Rockland Mills will cost \$207,500. We received \$123,000 from ARPA money and Lee thinks the governor will fund the remaining \$84,000.

We received a \$1.7 million grant for scattered water lines to get water to people that don't have it now.

Covid Pay: Larry made a motion, seconded by Jerry to do what we've always done since the pandemic started. Jeff voted no. We will talk about this again at the September meeting.

Cameron Lasley-Telecast Communications: Cameron is asking for access to a couple of our towers in order to get internet to some of our rural customers. Larry suggested waiting until Jeff gets back so they can go look at the sites.

New Business:

Parrott Cemetery Road: It would take approximately \$30,000 dollars to extend this line $\frac{3}{4}$ of a mile. We will talk about this again when Jeff gets back.

PFAS: This is like a class action law suit and John doesn't think it will cost us anything. Jerry made a motion for John to look into this, seconded by Jeff. All in favor.

Rate Analysis Resolution: According to Allan Vilaines with KRW if we do get a rate increase it won't be over 6%. Larry made a motion, seconded by Jerry, for Terry to sign the resolution. All in favor.

Pay Bills: Jerry made a motion, seconded by Larry to pay bills. All in favor.

Adjourn: Larry made a motion, seconded by Jerry to adjourn. All in favor.
