5. Description of Changes in Service Territory:

As explained in this application and in the attached exhibits, KU and Owen Electric have individually agreed to the requested territorial change for the parcel of land described below. KU agrees to cease its exclusive right to serve and to allow Owen Electric to extend its electric service

territory within an existing parcel to satisfy a customer request for new service in what is currently KU's adjacent territory. The proposed territorial boundary change serves the purpose of KRS 278.016. The change avoids the wasteful duplication of facilities, the unnecessary encumbrance of the landscape, and minimizes disputes between retail electric providers. No existing customer will change electric provider.

Both KU and Owen Electric agree that due to the close proximity of the existing Owen Electric distribution line, which currently provides electric service to 1525 McClelland Circle, it is prudent for Owen Electric to extend its facilities to serve a proposed non-residential service to be located within the same parcel, even though the location of the new non-residential service is currently in KU's territory. Owen Electric's distribution line is located 2,810 feet away and will cost approximately \$26,000 to extend its service. KU's closest distribution line is located almost twice the distance at over one mile away.

The territorial maps and other attachments provided constitute the entire agreement between KU and Owen Electric.

6. Agreement and Maps:

Application Exhibit 1 of this filing includes the summary list identifying KU and Owen Electric personnel familiar with the specifics of the facilities available, the reason for the change (purposes served under KRS 278.016) and agreement signed by both parties for the properties involved. Application Exhibit 2 includes the signed territorial (quadrant) map. Application Exhibit 3 includes the signed detailed site map and includes the locations of KU and Owen Electric distribution facilities.

WHEREFORE, KU hereby requests, pursuant to KRS 278.018, that the Commission enter an order approving the updates to the Quadrant Map to reflect the current requested service

territory changes and the agreement between KU and Owen Electric.

Dated: September 23, 2022
