January 11, 2023

To Whom This May Concern:

After discussion with Gayle Haney at Sharpsburg Water District, I am sending this letter to be record of the price Bath County Water District charges Sharpsburg Water District to test their meters. Our price to test meters is \$20.00 per meter. I do not have any records of invoices sent to their district since 2003, which were given to me from Gayle over the phone. Bath County Water District has not charged them for any meter testing since then as far as our records indicate. However, we have a record of nine meters that have been tested since 2019 by Bath County Water District for Sharpsburg Water District. An invoice for these meter tests has been created January 11, 2023 and is attached with the test results.

If you have any questions or concerns, please contact our office at 606-683-6363.

1/11/2623

Sincerely,

Ms. Sarah Price, Co-Manager Bath County Water District
