Corinth Water District files this response to Kentucky Public Service Commission Case Number 2022-0063, with the following:

- A. Since January 1, 2022, CWD has received 13 locate requests. In which all were requested by Calls.
- B. No Second request were required.
- C. All locates were responded to within the 48-hour window, emergency the same day.
- D. No agreements were needed.
- E. All locates were performed by Corinth Water District personnel.
- F. Corinth Water District did not keep individual records on accurate locates. If we found any locates in question, we always had a person on site and observed the digging.
- G. Corinth Water District relies on our paper as-built maps, if map is not accurate our personnel will spot dig with an excavator present.
- H. Our distribution system has recently been mapped by GIS/ARC. We will use this system along with our paper as- built maps.
