RE: Case No 2022-00363
Electronic investigation into compliance with excavator locate requests

PSC Staff,

Please see the information below as related to the official order from Case no. 2022-00363 that we received via the US Postal Service on or around November 16th, 2022.

Order number 2, subsection:

- a. 9 requests, all normal requests as per KRS 367.4909(5)
- b. 0
- c. All request responses were within 48 hours
- d. 0
- e. All locates are performed by our contract operator, Gatewood Water Service
- f. We do not keep statistics related to accurate versus inaccurate locate results
- g. Our locates are verified with utility exposures when needed.
- h. When we are unable to accurately locate an underground line using surface geophysical techniques, we use excavation equipment to expose the line. This is used anytime we do not a relative degree of certainty of the line location.

Please advise if further information is required.

Respectfully,

Elkhorn Water District

Brad Gregory, Chair
