Re: Case No. 2022-00366
Mountain Water District

Dear Ms. Bridwell:

Enclosed for filing in the above-referenced matter is Mountain Water District's Application for An Adjustment of Water Service Rates. In addition to the Application in Portable Document Format (PDF), three other files are being uploaded. These files are:

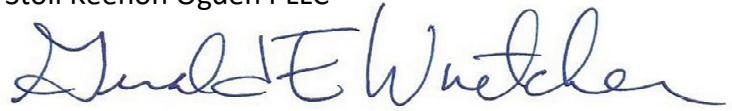

- Application_Exhibit13_DepreciationSchedule.xlsx – an Excel Spreadsheet containing a depreciation schedule for Mountain Water District's current plant and facilities. This schedule is presented in lieu of a PDF version. The Application lists the depreciation schedule as Exhibit 13.
- Exhibit17_Cost-of-ServiceStudyFiles.zip – a compressed file containing several Excel files, including an Excel version of the cost-of-service study attached to the Application as Exhibit 17. The Excel files in the compressed file are linked. When extracted, they should be maintained in the same file folder to ensure their functionality. Please note that these files contain various notes and calculations, as well as supporting documents for the calculation of the proposed revenue requirement. These files should provide additional insight into the study. Instructions for using these files are found in the PDF file labeled "Read Me First" which is one of the compressed files.
- Exhibit_RBS-3_MountainWaterDistrictCapitalImprovementPlan.pdf is an exhibit to Mr. Sawyer's Written Testimony. Because of its size, it is being filed separately.

Should the Commission Staff have any questions or problems using these files, please contact me.

Linda C. Bridwell, P.E.
