Duke Energy does not maintain customers' natural gas piping after or downstream of the meter. You should maintain such piping by periodically inspecting for leaks. If the piping is metal, you should also check for signs of corrosion. You should repair such piping if leaks or corrosion are discovered. For assistance locating, inspecting or repairing buried piping, please contact a licensed heating/plumbing contractor. You should always call 811 prior to digging. Once your lines are marked, always dig by hand if digging near natural gas piping.

Extended payment arrangements are available for those experiencing financial hardship during COVID-19 at duke-energy.com/extension. Stay up to date on other actions we're taking to help at dukeenergyupdates.com.

Total amount due Sep 21	\$72.42

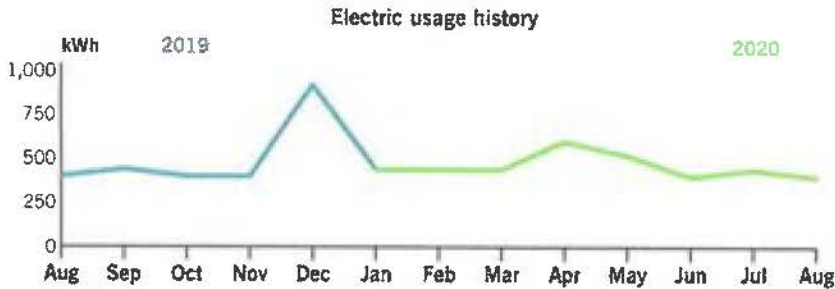

Thank you for your payment.

Duke Energy does not maintain customers' natural gas piping after or downstream of the meter. You should maintain such piping by periodically inspecting for leaks. If the piping is metal, you should also check for signs of corrosion. You should repair such piping if leaks or corrosion are discovered. For assistance locating, inspecting or repairing buried piping, please contact a licensed heating/plumbing contractor. You should always call 811 prior to digging. Once your lines are marked, always dig by hand if digging near natural gas piping.

Extended payment arrangements are available for those experiencing financial hardship during COVID-19 at duke-energy.com/extension. Stay up to date on other actions we're taking to help at dukeenergyupdates.com.

Current electric usage for meter number 320437246			
Actual reading on Aug 27			329
Previous reading on Jul 29			- 319
			10
		Multiplier	x 40
		Energy used	400 kWh
kWh Usage	400	Demand Read	0.23
Actual kW	9.2		

A kilowatt-hour (kWh) is a measure of the energy used by a 1,000-watt appliance in one hour. A 10-watt LED lightbulb would take 100 hours to use 1 kWh.

A multiplier is the factor that the meter reading is multiplied by to determine the correct energy usage.

Thank you for your payment.

Duke Energy does not maintain customers' natural gas piping after or downstream of the meter. You should maintain such piping by periodically inspecting for leaks. If the piping is metal, you should also check for signs of corrosion. You should repair such piping if leaks or corrosion are discovered. For assistance locating, inspecting or repairing buried piping, please contact a licensed heating/plumbing contractor. You should always call 811 prior to digging. Once your lines are marked, always dig by hand if digging near natural gas piping.

Extended payment arrangements are available for those experiencing financial hardship during COVID-19 at duke-energy.com/extension. Stay up to date on other actions we're taking to help at dukeenergyupdates.com.

			5
		Multiplier	x 20
		Energy used	100 kWh
kWh Usage	100	Demand Read	0.2
Actual kW	4	Billed kW	5

A kilowatt-hour (kWh) is a measure of the energy used by a 1,000-watt appliance in one hour. A 10-watt LED lightbulb would take 100 hours to use 1 kWh.

The minimum demand was substituted for one or more of your meters.

The minimum demand for a three phase meter is 5 kW.

A multiplier is the factor that the meter reading is multiplied by to determine the correct energy usage.
