RE: Electronic Joint Application of Kentucky Utilities Company and Louisville Gas and Electric Company for Certificates of Public Convenience and Necessity and Site Compatibility Certificates and Approval of a Demand Side Management Plan
Case No. 2022-00402

Dear Ms. Bridwell:

In response to the Commission's Order issued this morning in the above-captioned proceeding, the Companies contacted Commission Filings Branch Staff to discuss how to file the public versions of workpapers cited in the Order. The Companies are now filing all electronic workpapers to the Commission's website in a disaggregated fashion so they can be filed there consistent with the 50 MB per file size limitation. Please accept those files for filing in this proceeding.

Each of the remaining workpaper files exceeds the 50 MB per file limit of the Commission's website and cannot be subdivided without rendering the files largely useless. The Companies will file those remaining workpaper files on a USB drive to be delivered to the Commission when it reopens on Tuesday, December 27, subject to a Motion to Deviate the Companies will file at that time.

The Companies would note that the workpapers addressed in the December 22, 2022 Order are not minimum filing requirements for any portion of the Companies' Joint Application. The Companies would further note that all the workpapers remain available for public download at <https://highq.in/mkqfky818n>, where they have been available since December 15. Therefore, on behalf of the Companies, I respectfully ask that the Commission find that the deficiency cited in the December 22, 2022 Order be deemed cured and accept the Joint Application for filing effective with the filing of these files and the USB drive no later than Tuesday, December 27.

Yours very truly,
