Did you know why drinking water is chlorinated?

...

#WaterEducation

**CSWR**  
Central States Water Resources

### Why Do We Chlorinate Your Drinking Water?

Chlorination is a common treatment method that is used to disinfect water so that it's safe and clean. Microorganisms and pathogens can be found in water bodies, which can pass through water distribution systems. Each day it's important that we work together to take care of our water resources.

- Kills harmful waterborne pathogens, bacteria and viruses.
- Removes unpleasant tastes and odors.
- Disinfects water system pipes.
- Helps prevent biological growth and algae.

Ready for Rethinking Water's webinar series? Tune in today from 12 p.m. - 1 p.m. EST, to see industry professionals address the importance of water infrastructure.

Register now: [bit.ly/32IGCoy](https://bit.ly/32IGCoy)

#MakingSenseOfWater #RethinkingWater

**sciensWATER**  
Making sense of water  
Columbia Water Center  
LEADERS INSTITUTE | COLUMBIA UNIVERSITY

**RETHINKING WATER**  
A WEBINAR SERIES

**Topic:**  
How digital innovation can contribute to solving US water infrastructure issues.  
Date: Thursday, April 29<sup>th</sup>, 2021  
12-1pm EST

**About the topic**  
There is significant under-investment in U.S. water infrastructure. It is estimated that as much as \$1 trillion will be needed to meet the needs of a growing society and repair our rapidly crumbling system. A major part of the solution is leveraging digital technologies throughout the municipal water & wastewater cycle to manage utility systems more efficiently and creatively. However, the rapid advancement of technology also presents challenges to utilities with limited budgets and capabilities. In this webinar, we will discuss factors driving utilities adoption, as well as recent market trends in U.S. water & wastewater utilities.

Rethinking Water Webinar Series aims to bring together investment professionals, industry executives, academics, industry and public policy experts, and government agencies to address some of the biggest water problems facing our nation.

**Sponsors**  
MAZARINE  
RAYMOND JAMES  
Merton Capital Partners

**Speakers:**

**Patrick Decker** is CEO of Xylem (NYSE: XYL), a leading global water technology provider serving customers in more than 150 countries. Xylem innovations address customers' most complex water and resource management challenges, while helping communities around the world become water-secure.

**Meena Sankaran** is CEO & Founder of KETOS, a water intelligence startup that transforms how businesses operate with actionable real-time water quality insights. She has been highlighted by Forbes, Nautilus, Goldman Sachs and has represented KETOS at the United Nations. Her leadership spans over 16 years in the industry prior to founding KETOS in 2015.

**Kenneth C. Bockhorst** is Chairman, President & CEO of Badger Meter (NYSE: BMS), a leading marketer and innovative manufacturer of products using flow measurement and control technologies that serve diverse customers worldwide. Kenneth has more than 20 years of experience in global operations management.

**Josiah Cox** is President & Founder of Central States Water Resources (CSWR), which is an industry leader in providing effective water and wastewater solutions to communities across the nation. Josiah is experienced and passionate industry executive committed to transforming how water utilities use technology.

**FOR IMMEDIATE RELEASE**

**Nov. 20, 2019**

## **Central States Water Resources Acquires Several Kentucky Wastewater Systems**

**Louisville** — Bluegrass Water Utility Operating Company, a division of [Central States Water Resources \(CSWR\)](#), has acquired the operating assets of several wastewater systems across Kentucky after the Kentucky Public Service Commission approved and finalized the sale of the wastewater systems.

“We are thrilled to have the opportunity to bring access to clean and safe drinking water and reliable wastewater systems to Kentuckians across the state,” said Josiah Cox, President of Bluegrass Water and CSWR. “We believe our innovative approach will transform these Kentucky communities in need of reliable water resources.”

Under the agreement, Bluegrass Water will continue to charge the same rates to customers as previous system owners.

The sewer companies acquired by Bluegrass Water are: Airview Utilities, Brocklyn Utilities, Fox Run Utilities, Kingswood Development Inc., Lake Columbia Utilities, LH Treatment Company, Marshall County Environmental Services, and Persimmon Ridge.

Bluegrass Water has more than 1,300 customers in Bullitt, Franklin, Hardin, Madison, Marshall, McCracken, Scott, and Shelby counties.

### **ABOUT CENTRAL STATES WATER RESOURCES**

Central States Water Resources is transforming how water utilities work by using technology and innovation to bring safe, reliable and environmentally responsible water resources to every community in the U.S. Learn more about us at [www.centralstateswaterresources.com](http://www.centralstateswaterresources.com) and [www.bluegrasswateruoc.com](http://www.bluegrasswateruoc.com).

## Central States Water Resources Releases Inaugural ESG Report

Saint Louis, MO (November 16, 2022) – [Central States Water Resources](#) (CSWR), one of the 12 largest investor-owned water and wastewater utilities in the United States, today announced the release of its inaugural Environmental, Social, and Governance (ESG) Report covering the company’s performance, leadership, and industry best practices during the 2021 calendar year.

“The investments we are making allow us to transform small communities across the country. We pride ourselves in being able to bring Wall Street money to Main Street – filling funding gaps for small systems with poor access to capital,” said Josiah Cox, President and CEO of CSWR. “These investments have allowed us to restore services to abandoned systems destroyed by category 5 hurricanes, revive wastewater plants discharging untreated sewage into public streams in state parks, and fix wastewater systems that were discharging untreated waste into rivers and serve drinking water to hundreds of thousands of people living downstream.”

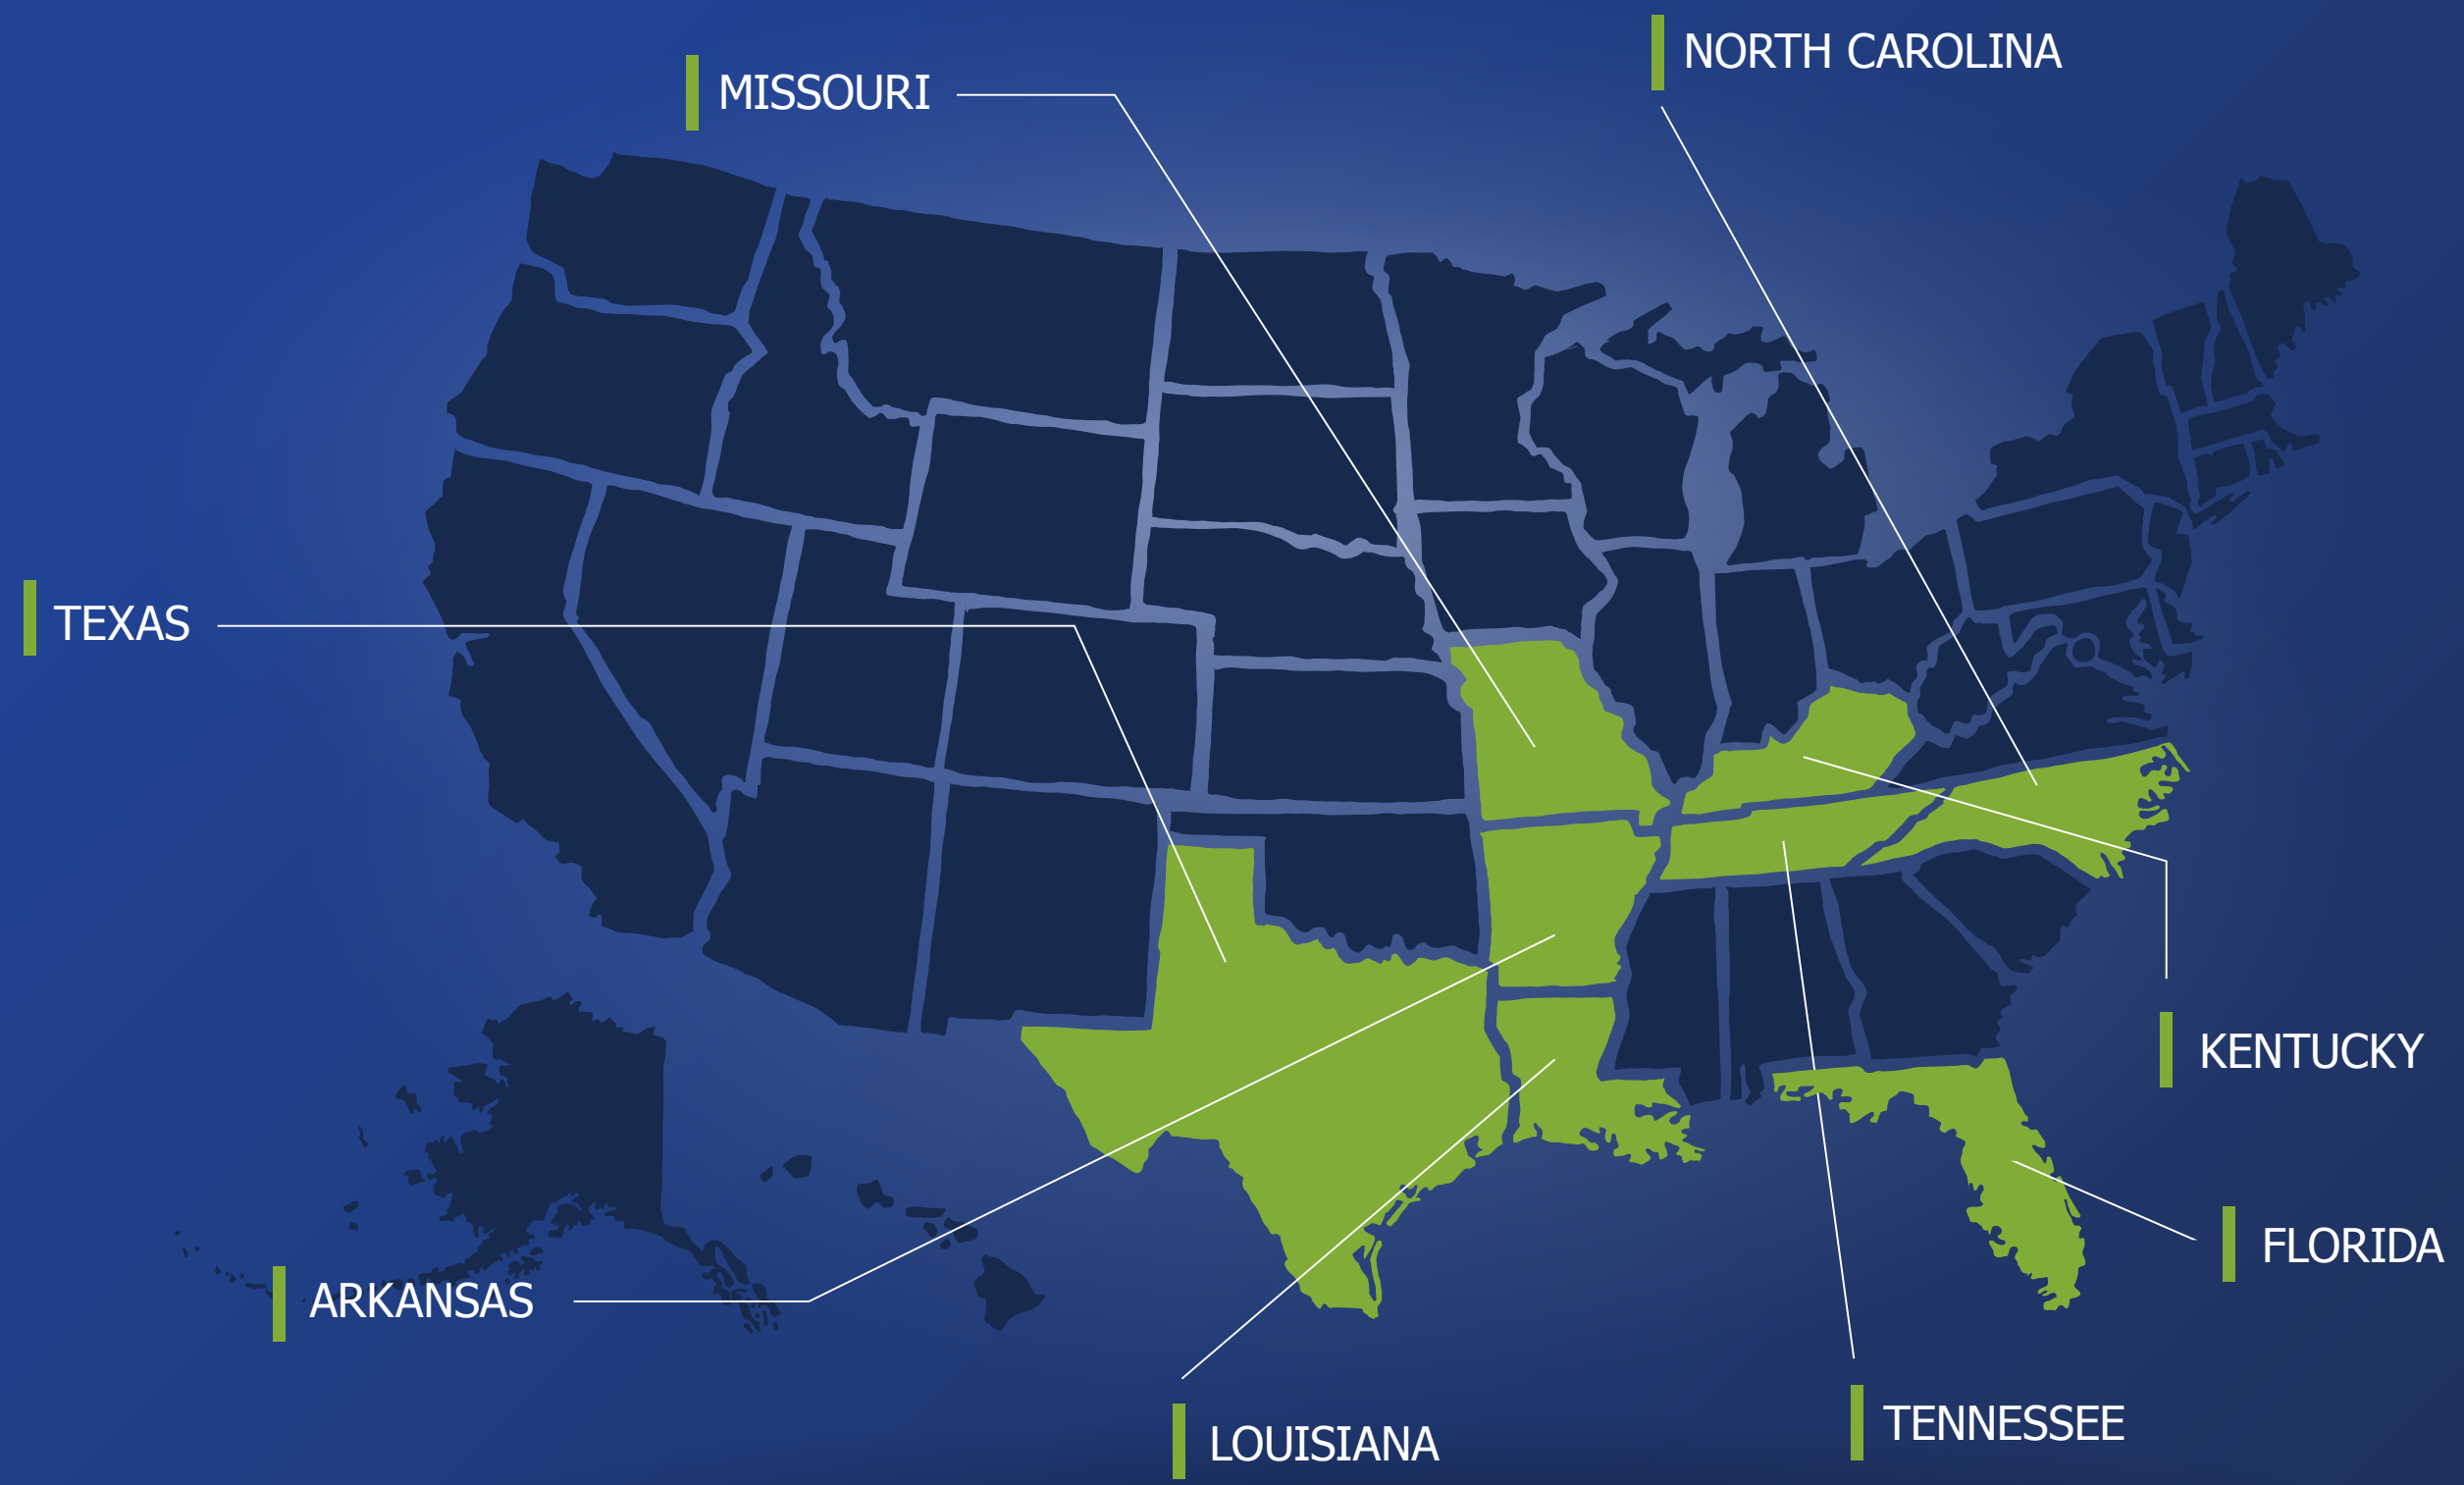

The ESG report includes key data in accordance with the Sustainability Accounting Standards Board (SASB). “We are eager to share our vision of transforming how water utilities work and we believe our report helps to further communicate our ongoing commitment to the environment, to our customers, and to our employees as we carry out our mission of providing safe, reliable, and environmentally responsible water resources to every community in the United States,” noted Cox.

The report is available [here](#).

###

### ABOUT CENTRAL STATES WATER RESOURCES

Founded in 2014, Central States Water Resources (CSWR) is one of the twelve largest investor-owned utilities in the United States. CSWR has invested more than \$250 million to acquire and transform critical water infrastructure, using technology and innovation to bring safe, reliable, and environmentally responsible water resources to over 200,000 customers across Arizona, Arkansas, Florida, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Tennessee, and Texas. Learn more about CSWR at [centralstateswaterresources.com](http://centralstateswaterresources.com).

## AT A GLANCE

Headquartered in St. Louis with operations or pending acquisitions in Missouri, Arkansas, Louisiana, Kentucky, Tennessee, Texas and North Carolina, CSWR uses private investment to acquire and revitalize water systems that are often woefully outdated and dangerous, typically unbeknownst to end users. This enhances the value of individual properties and communities — all through the transformation of essential water resources, many of which have been in operation for more than a half-century.

## INFORMATION ABOUT YOUR WATER AND WASTEWATER SERVICE

# Exhibit A

February 27, 2023

Dear Customer:

We're writing to update you on the wastewater services that serve your community.

Since purchasing the sewer system that serves you, Bluegrass Water Utility Operating Company, LLC (Bluegrass Water) has invested nearly \$16 million in Kentucky communities to ensure that you, your families and your neighbors have access to clean, safe and reliable wastewater resources. The infrastructure upgrades to the sewer system serving you may include installation of remote monitoring equipment to assure facilities are closely tracked and work properly at all times; sewer plant improvements to ensure proper treatment including flow equalization, replacement of blowers, pipes, and diffusers in aeration tankage, and many more necessary repairs. As a result of these efforts and additional improvements planned, Bluegrass Water expects to submit a request on February 27, 2023 to the Kentucky Public Service Commission (PSC) for a general adjustment of rates charged for service in order to increase annual sewer operating revenues by \$1,291,491.

**Please take notice of the following information about the proposed rate adjustment that is presented below:**

The rates contained in this notice are the rates proposed by Bluegrass Water, but the PSC, the state agency that regulates all utility services in Kentucky, may order rates to be charged that differ from the proposed rates found in this notice. The Company has proposed raising your rate from the present rate of \$85.97 to the proposed rate of \$99.37 which represents an increase of \$13.40 or 15.6%. The date the proposed rates are expected to be filed with the PSC is February 27, 2023; the proposed effective date of the rates is for service rendered on and after March 31, 2023. As there are only flat rates included in the existing tariff or which affect existing customers, the average customer usage is unknown and the effect the proposed rate will have on the average bill for each customer is an increase of \$13.40 or 15.6%.

You may examine Bluegrass Water's application at the offices of Dinsmore & Shohl LLP, 101 South Fifth St., Suite 2500, Louisville, KY 40202. If you would like to make prior arrangements to view the application at Dinsmore & Shohl LLP, please contact Brooks Herrick at 502-540-2376 or [brooks.herrick@dinsmore.com](mailto:brooks.herrick@dinsmore.com). Bluegrass Water's application may also be examined at the PSC's offices located at 211 Sower Boulevard, Frankfort Kentucky, Monday through Friday, 8:00 a.m. to 4:30 p.m., or through the commission's Web site at <http://psc.ky.gov>. Comments regarding the application may be submitted to the PSC through its Web site or by mail to:

Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602.

You may submit a timely written request for intervention to the PSC, establishing the grounds for the request including your status and interest in the proceeding, by mail to:

Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602.

If the PSC does not receive a written request for intervention within thirty (30) days of the mailing of this notice, the PSC may take final action on the application.

We're writing to update you on the wastewater services that serve your community.

Since purchasing the sewer system that serves your home, Bluegrass Water Utility Operating Company, LLC (Bluegrass Water) has invested nearly \$16 million in Kentucky communities to ensure that you, your families and your neighbors have access to clean, safe and reliable wastewater resources. The infrastructure upgrades to the sewer system serving your home may include installation of remote monitoring equipment to assure facilities are closely tracked and work properly at all times; sewer plant improvements to ensure proper treatment including flow equalization, replacement of blowers, pipes, and diffusers in aeration tankage, and many more necessary repairs. As a result of these efforts and additional improvements planned, Bluegrass Water expects to submit a request on February 27, 2023 to the Kentucky Public Service Commission (PSC) for a general adjustment of rates charged for service in order to increase annual sewer operating revenues by \$1,291,491.

**Please take notice of the following information about the proposed rate adjustment that is presented below:**

The rates contained in this notice are the rates proposed by Bluegrass Water, but the PSC, the state agency that regulates all utility services in Kentucky, may order rates to be charged that differ from the proposed rates found in this notice. The Company has proposed raising your rate from the present rate of \$19.47 to the proposed rate of \$99.37 which represents an increase of \$79.90 or 410.4%. The date the proposed rates are expected to be filed with the PSC is February 27, 2023; the proposed effective date of the rates is for service rendered on and after March 31, 2023. As there are only flat rates included in the existing tariff or which affect existing customers, the average customer usage is unknown and the effect the proposed rate will have on the average bill for each customer is an increase of \$79.90 or 410.4%.

You may examine Bluegrass Water's application at the offices of Dinsmore & Shohl LLP, 101 South Fifth St., Suite 2500, Louisville, KY 40202. If you would like to make prior arrangements to view the application at Dinsmore & Shohl LLP, please contact Brooks Herrick at 502-540-2376 or [brooks.herrick@dinsmore.com](mailto:brooks.herrick@dinsmore.com). Bluegrass Water's application may also be examined at the PSC's offices located at 211 Sower Boulevard, Frankfort Kentucky, Monday through Friday, 8:00 a.m. to 4:30 p.m., or through the commission's Web site at <http://psc.ky.gov>. Comments regarding the application may be submitted to the PSC through its Web site or by mail to:

Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602.

You may submit a timely written request for intervention to the PSC, establishing the grounds for the request including your status and interest in the proceeding, by mail to:

Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602.

If the PSC does not receive a written request for intervention within thirty (30) days of the mailing of this notice, the PSC may take final action on the application.

Josiah Cox

President

Bluegrass Water Utility Operating Company, LLC

November 19, 2020

Dear Potential Bluegrass Customer:

We're writing to you about the wastewater services in your community.

Bluegrass Water Utility Operating Company, LLC (Bluegrass Water) has asked the Kentucky Public Service Commission (Commission) to acquire the system that serves your community. The Commission case number for that application is 2020-00297.

On September 30, 2020, Bluegrass Water submitted to the Commission a request for a general adjustment of rates charged for service. The request seeks to increase annual sewer operating revenues by \$2,177,052 (Case # 2020-00290). Since last year, Bluegrass Water has invested nearly \$2.5 million in urgently needed improvements in the Kentucky communities it serves to ensure access to clean, safe and reliable drinking water and wastewater systems. Over the next 18 months, Bluegrass Water intends to invest approximately \$5 million more in its Kentucky systems to ensure they are able to provide safe and reliable service. Increased costs attributable to these and other improvements make it necessary to seek a rate increase at this time.

Because the Commission has not yet ruled on either the acquisition or rate increase requests, there will be NO CHANGE in your billing at this time and you should continue to pay your current service provider for the service you receive. Any future change in the rates you are charged must first be approved by the Commission.

**Please take notice of the following information about the proposed rate adjustment that is described below and presented *on the enclosed table*:**

The table compares current rates for communities served by Bluegrass Water to the increased rates the company is requesting and shows the proposed increases as both a percentage and a dollar amount. The Commission, the state agency that regulates all utility services in Kentucky, will rule on this request and may order rates to be charged that differ from the proposed rates found in this notice. The average customer usage is unknown and the average bill in each service area relates directly to the current rates per month shown in the enclosed sheet. The date the proposed rates were filed with the Commission was September 30, 2020, with a proposed effective date of October 30, 2020. On October 30, 2020, the Commission suspended the proposed rates for six months while it reviews the application. As a result, the proposed rates will not go into effect before May 1, 2021.

*By prior arrangement*, you may examine Bluegrass Water's application at the offices of McBrayer PLLC, 201 East Main Street, Suite 900, Lexington, Kentucky. Please contact Bluegrass Water at 1-866-752-8982 to arrange to examine the application. Bluegrass Water's application also may be examined at the Commission's offices located at 211 Sower Boulevard, Frankfort, Kentucky, Monday through Friday, 8:00 a.m. to 4:30 p.m., or through the Commission's website at <http://psc.ky.gov>. Comments regarding the rate application (case # 2020-00290) or timely requests for intervention (that establish the grounds for the request, including the status and interest of the requester) may be submitted to the Commission through its website or by mail to:

Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602

If the Commission does not receive a written request for intervention establishing the grounds for the request (including the status and interest of the party) within thirty (30) days of the initial mailing of this notice, it may take final action on the application.

Josiah Cox

President

Bluegrass Water Utility Operating Company, LLC.

**Rate Comparison Table**

SEWER SERVICE in entire service area

CLASSIFICATION OF SERVICE – Residential (RS) (N)

Applicable to all customers for residential use throughout the service area (see Tariff Sheet No. 1.2), except in Equestrian Woods, Herrington Haven and Woodland Estates, and Woodland Acres Subdivisions and in the area at the interchange of I-75 and Delaplain Road in Scott County, Kentucky. Service is provided at a flat monthly rate per dwelling unit, whether to a stand-alone residence, duplex unit, or any other multi-unit building, and regardless of whether water utility service is provided to the unit through an individual water meter. (N)

Single Residential service is available to any dwelling/residence with an independent water service line and independent sewer lateral line (including Y-shaped sewer lateral line connections). (N)

Multi Residential service is available to any dwelling/residence with a shared water service line or shared sewer lateral line excluding Y-shaped lateral line connections. (N)

Single Residential Rate (per dwelling unit): \$85.97 per month (I)

Multi Residential Rate (per dwelling unit): \$64.48 per month (I)

CLASSIFICATION OF SERVICE – Commercial, flat-rate (CF) (N)

Applicable throughout the service area (see Tariff Sheet No. 1.2) except the Equestrian Woods, Herrington Haven and Woodland Estates, and Woodland Acres Subdivisions and the area at the interchange of I-75 and Delaplain Road in Scott County, Kentucky. Service is available for non-residential use, and is provided to a non-residential customer with an independent water service line or an independent sewer lateral line. Service is provided at a flat monthly rate per connection, regardless of whether water utility service is provided to the unit through an individual water meter. (N)

Commercial Flat Rate (per connection): \$214.93 per month (I)

SEWER SERVICE in entire service area

CANCELLING PSC KY NO. 1

3rd Revised SHEET NO. 11

**RULES AND REGULATIONS**

This schedule of Rules and Regulations governs the furnishing of sewage service by the Bluegrass Water Utility Operating Company, LLC (hereinafter referred to as Bluegrass Water UOC) and applies to all service received from Bluegrass Water UOC. All Rules and Regulations are to be in effect so long as they are not in conflict with the rules and regulations of the Public Service Commission. Bluegrass Water UOC is further subject to all Rules and Regulations of the Public Service Commission.

The Rules and Regulations contained in this tariff apply in the service territory of Bluegrass Water UOC (see Tariff Sheet No. 1.2).

The Residential Rules and Regulations (Tariff Sheets 11-26) apply to the furnishing of sewage service by Bluegrass Water UOC (a) for residential users throughout the service territory and (b) for all other users in the service territory other than in the Delaplain service area. They also apply to the furnishing of non-residential service in the Delaplain service area to the extent not inconsistent with, or governed by, a more specific provision in the Industrial/Commercial Rules and Regulations (Tariff Sheets 27-59). (T)

**Residential Rules and Regulations**

**DEFINITIONS**

“Customer” shall mean any person, firm, corporation, or municipality that discharges to the Bluegrass Water UOC sewer system pursuant to these Rules and Regulations.

“Company” shall mean Bluegrass Water UOC acting through its officers, managers, or other duly authorized employees or agents.

“Customer’s service line” is the service lateral from the main collection line to the premises served.

“Commission” shall mean the Kentucky Public Service Commission.

“Domestic Waste” means the waste from residential users and from the sanitary conveniences of dwellings, commercial buildings, industrial facilities, and institutions.

Original SHEET NO. 12

**Bluegrass Water Utility Operating Company, LLC**

SEWER SERVICE in entire service area

“Pretreatment” means the reduction of the amounts of pollutants, the elimination of pollutants, or the alteration of the nature of pollutant properties in wastewater to a less harmful state by application of physical, chemical or biological processes or process changes prior to or in lieu of discharging or otherwise introducing such pollutants into a public sewer.

“Sanitary Sewer” means a sewer which is intended to convey only domestic waste and commercial and industrial wastes not specifically prohibited or restricted by these Regulations.

“Sewer” means a pipe or conduit for conveying wastewater.

“Shall” – is mandatory; “may” is permissive. (T)

“Storm Sewer” means a sewer which is intended to convey only storm waters, surface runoff, street wash waters and drainage, and which is not a part of the wastewater sewer system.

“Treatment Works” means any devices and systems owned by Bluegrass Water UOC in the conveyance, storage, treatment, recycling and reclamation of sewage or liquid industrial wastes including interceptor sewers, outfall sewers, sewage collection systems, pumping, power, and other equipment and appurtenances; extensions, improvements, remodeling, additions and alterations thereof; and any works, including the land that will be an integral part of the treatment process or is used for preventing, abating, reducing, storing, treating, separating or disposing of waste, or industrial waste. (T)

**SUBSTANCES NOT TO BE DISCHARGED INTO SEWERS**

No substances shall be placed into the sanitary sewer system which will create a combustible, gaseous, explosive or inflammable condition nor shall any substances or objects be placed or discharged into the system which will not dissolve and which will thus cause an obstruction and clogging within the system. No petroleum products shall be placed or discharged into the system. No substance which might be harmful to the sewage treatment process or receiving stream shall be discharged in the system.

No person shall discharge or cause to be discharged any storm water, surface water, and groundwater or roof runoff to any sewer. (T)

The discharge of any wastewater into the sewer system by any person is unlawful except in compliance with the provisions set forth in this tariff, and any more stringent State or Federal Standards.

Original SHEET NO. 13

**Bluegrass Water Utility Operating Company, LLC**

SEWER SERVICE in entire service area

**GREASE OIL AND SAND TRAPS**

Bluegrass Water UOC may require pretreatment for certain types of discharge that could be harmful to the collection and/or treatment system. All restaurants, food service establishments and other commercial oil and grease generators shall provide grease and/or oil interceptor (or trap) for the proper handling of liquid wastes containing floatable grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients. In the maintaining of these interceptors the owner shall be responsible for the proper removal and disposal by appropriate means of the captured material and shall maintain records with the dates and means of disposal. Interceptors or traps will not be required for private living quarters of dwelling units.

All interceptors or traps shall be of a type and capacity approved by the Kentucky Department for Natural Resources and Environmental Protection and Kentucky Department of Housing, Buildings and Construction, and shall be located so as to be readily and easily accessible for cleaning and inspection. They shall be constructed of impervious materials capable of withstanding abrupt and extreme changes in temperatures and shall be of substantial construction, gastight, watertight, and equipped with easily removable covers.

All grease, oil and sand interceptors or traps shall be maintained by the user at his expense, in continuously efficient operation at all times. Bluegrass Water UOC may require an establishment to have interceptors or traps cleaned on a regular basis. Bluegrass Water UOC may reject potentially harmful wastes or may require control over the quantities and rates of discharge.

Approval of proposed facilities or equipment by the Kentucky Department of Natural Resources and Environmental Protection and Kentucky Department of Housing, Buildings and Construction, does not in any way guarantee that these facilities or equipment will function in the manner described by their constructor (T) or manufacturer, nor shall it relieve a person, firm or corporation of the responsibility of enlarging or otherwise modifying such facilities to accomplish the intended purpose.

**SERVICE PIPE CONNECTIONS**

Bluegrass Water UOC shall install and maintain that portion of the service pipe from the main to the boundary line of the easement, public road, or street, under which such main may be located. Bluegrass Water UOC is not responsible for extending a service main to serve additional properties.

No unauthorized person shall uncover, make any connections with, use, alter, or disturb any public sewer. Illegal or unauthorized connections shall be terminated immediately.

A separate and independent building sewer shall be provided for every structure.

SEWER SERVICE in entire service area

All plumbing work done in connection with Customer service line fixtures connected with Bluegrass Water UOC mains shall be submitted for the inspection by Bluegrass Water UOC before such underground work is covered up. Whenever the Bluegrass Water UOC determines that a job of plumbing is obviously defective, although not in direct violation of these Rules and Regulations, Bluegrass may insist upon its being corrected before the sewer service is accepted.

(D)

The customer shall install and maintain that portion of the service pipe from the end of the Company's portion into the premises served. That portion of the service pipe installed and maintained by the customer shall conform to all reasonable rules of Bluegrass Water UOC. It shall be constructed of materials approved by the sewage utility and installed under the inspection of Bluegrass Water UOC, including but not limited to a sewer line clean out. Prior to tapping on to the sewer system, Bluegrass Water UOC shall be notified, and the appropriate tap-on fee paid.

(T)

|

(T)

(T)

A sewer service pipe shall not be laid in the same trench with a water pipe.

If a governmental agency requires an inspection of the customer's plumbing, Bluegrass Water UOC shall not connect the customer's service pipe until it has received notice from the inspection agency certifying that the customer's plumbing is satisfactory.

If excavation of sewer lines owned by Bluegrass Water UOC becomes necessary, Bluegrass Water UOC will restore the effected property when soil conditions and weather are appropriate. Bluegrass Water UOC shall not be held liable for repairs or restoration associated with repairs for lateral connections on private property. This includes lateral connections under driveways and roads that require service.

**PROTECTION BY CONSUMERS**

The Consumer shall protect the equipment of Bluegrass Water UOC on his premises and shall not interfere with Bluegrass Water UOC's property or permit interference except by duly authorized representatives of Bluegrass Water UOC.

**NOTICE OF TROUBLE**

The Consumer shall give immediate notice to Bluegrass Water UOC of any irregularities, any known defects, or unsatisfactory service.

**MAINTENANCE**

Bluegrass Water UOC may at any time deemed necessary suspend sewer service to any consumer or consumers for the purpose of making repairs, changes, or improvements upon any part of its systems. Bluegrass Water UOC shall give reasonable notice of such suspension of service to the customer(s).

**CONNECTIONS**

Bluegrass Water UOC will consider a request to connect to an existing serviceable main as a normal connection. The charge, if any, for a connection qualifying under this description shall be as set forth in the NON-RECURRING CHARGES section for that part of the service area. (T)  
(T)

Reconnection: A Customer disconnected due to non-payment of tariff charges or non-compliance with tariff rules or Commission regulations, will be required to pay a reconnection fee, if any, set forth as a NON-RECURRING CHARGE in the applicable tariff sheet for the classification of service, in addition to any unpaid past-due balance before service is restored. (T)  
(T)

Field Collection Fee: This fee is assessed when Bluegrass Water UOC's representative makes a trip to the premises of a customer for the purpose of terminating service. The fee will be assessed in the amount or at the rate set forth in the applicable NON-RECURRING CHARGES tariff sheet for the classification of service, if: (a) Bluegrass Water UOC's representative actually terminates service, (b) in the course of the trip, the customer pays the delinquent bill to avoid termination; or (c) Bluegrass Water UOC's representative agrees to delay termination based on the customer's agreement to pay the delinquent bill on a specific date. This fee is assessed no more than once during a billing cycle. (N)

Other Connections: A developer of an undeveloped area within Bluegrass Water UOC's service area shall be charged the full cost of installation. (N)

**LINE RELOCATION**

When necessary to move or relocate facilities, the cost will be paid by the party or parties requesting such relocation.

**EASEMENTS**

The customer shall not place structures of any kind or personal property on recorded easements. Any structure or property violating this provision shall be removed at the owner's expense

**DISCONTINUANCE OF SERVICE**

(T)

Bluegrass Water UOC may refuse or terminate service for noncompliance with its tariff rules or commission regulations after having made a reasonable effort to obtain customer compliance. Said customer will be given at least ten (10) days written notice prior to termination. Bluegrass Water UOC will notify the customer in writing of the reasons for termination or refusal. The notice will be recorded along with the corrective action to be taken by the customer or Bluegrass Water UOC before service is restored or provided.

If a dangerous condition is found to exist service may be terminated without notice.

In the event that an illegal or improper connection is discovered, Bluegrass Water UOC shall take immediate steps to sever the connection in question. This includes those connections discovered during smoke testing and camera inspection of lines that are deemed illegal or improper and allow Inflow/Infiltration of water to the sewer system. A photograph of the connection and an explanation of the condition will be given by Bluegrass Water UOC either by mail or directly. Bluegrass Water UOC may terminate service for nonpayment of tariff charges after a five (5) day written notice of intent to terminate. Service will not be terminated before twenty (20) days after the mailing date of the original bill. If a medical certificate is presented service will not be terminated for thirty (30) days beyond the termination date.

When payments are delinquent Bluegrass Water UOC may file a complaint in court. Bluegrass Water UOC may request that all court costs be included in any judgment amount awarded to Bluegrass Water UOC. Bluegrass Water UOC may refer any delinquent accounts to a collection agency.

**BILLING, COLLECTION AND PENALTIES**

Billing for sewage service furnished by the sewer system shall be made by Bluegrass Water UOC on a monthly basis, bills are mailed the first week of each month and become due the last business day of each month. A late payment penalty will be assessed after the due date in the amount or at the rate set forth in the applicable NON-RECURRING CHARGES tariff sheet for the classification of service.

(T)  
|  
(T)

Failure to receive bill does not excuse payment.

**DEPOSITS**

At this time, Bluegrass Water UOC does not require a deposit for new sewer customers

### LIABILITY OF THE COMPANY

Bluegrass Water UOC shall not in any way or under any circumstances be held liable or responsible to any person or persons for any loss or damage resulting from the sewer service, due to any cause whatsoever. Bluegrass water UOC will undertake to use reasonable care and diligence in order to prevent and avoid interruptions and fluctuations in the service, but it cannot and does not guarantee that such will not occur.

Bluegrass Water UOC shall not be responsible for accidents or damages resulting from the discontinuance of service, nor by reason of the breaking of any main, sewer pipe, fixture or appliance whether owned by the Company or Customer, and no person shall be entitled to damages nor have any portion of a payment refunded for any interruption of service.

Bluegrass Water UOC shall not be considered in any manner an insurer of property or persons and it shall be free and exempt from any and all claims for damages on account of any injury to property or persons for any cause whatsoever.

### APPROVAL OF RULES AND REGULATIONS

All Rules and Regulations of Bluegrass Water UOC are subject to the approval of the Public Service Commission of the State of Kentucky.

**Industrial/Commercial Rules and Regulations**

**1.0 PURPOSE**

This Policy sets forth uniform requirements for existing and future industrial/commercial Users who discharge directly or indirectly into the wastewater collection and treatment system ("System") of Bluegrass Water UOC ("Utility"), formerly that of Delaplain Disposal Company. This Policy is designed to ensure that Users take no action which would prevent the Utility from complying with the requirements of the Commonwealth of Kentucky's Division of Water of the Natural Resources and Environmental Protection Cabinet ("DOW").

**2.0 OBJECTIVES**

The objectives of this Policy are to: (1) prevent the introduction of pollutants or materials into the wastewater system that interfere with the System's operation, contaminate the resulting sludge, pass through the System into the receiving waters or the atmosphere, or otherwise are incompatible with the System ; (2) improve the opportunity to recycle and reclaim wastewater and sludge; and (3) ensure equitable distribution of the cost of the treatment and collection system.

**3.0 POLICY**

All Users are subject to this Policy and shall comply with its terms and those of approved Operating Agreements ("Operating Agreements") between Users and the Utility. Where a conflict between the terms of this Policy and an Operating Agreement occurs, the terms of this Policy shall control.

Users shall arrange and shall cause to be performed any required analyses. A laboratory approved by the Utility shall perform all analyses. Users shall bear all costs associated with these analyses. The Utility may conduct sampling and analysis of a User's effluent discharges at its discretion. This Policy shall be administered and enforced for the Utility by a registered professional engineer or appropriately certified wastewater treatment plant operator experienced in wastewater and sewer regulation and management.

SEWER SERVICE in entire service area

**4.0 SEWER USE**

Within 30 days from the effective date of this Policy, each existing User shall submit to the Utility a completed User Information Form. Within 30 days of the Utility's receipt of the User Information Form, the Utility and the User shall enter an Operating Agreement incorporating the requirements of this Policy. Users failing to enter such an Operating Agreement within 60 days of the Policy ' s effective date are subject to termination of service and disconnection from the System.

No prospective User shall connect to or use any existing connection of the system before submitting a completed User Information Form to the Utility and entering an Operating Agreement with the Utility.

The Utility may assess to any User who violates any provision of this Policy or its Agreement a charge equal to the amount of damage to the System or costs incurred by the Utility that result from the violation. Such costs may include, but are not limited to, civil or criminal penalties assessed to the Utility as a result of the User's violation and attorney's fees and other costs incurred in civil and criminal proceedings resulting from the User's violation. The Utility may, at its discretion, also terminate a User's service for violations of this Policy.

Users who discharge only domestic or "restroom waste" into the System shall complete the applicable portions of the User Information Form set forth at section 9.1 and execute the Operating Agreement set forth at Section 10.1 of this policy.

All other Users shall complete and submit the User Information Form set forth at Section 9.1 in its entirety and shall execute the Operating Agreement set forth at Section 10.2. This Operating Agreement shall be tailored to the User's discharge activity and shall enable the Utility to comply with its Kentucky Pollutant Discharge Elimination System Permit ("KPDES Permit").

No User shall place, deposit, or permit to be deposited into the System any wastewater containing or having:

- any storm water, ground water, roof run-off, subsurface drainage, or cooling water.
- a temperature higher than 104 degrees F.
- any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquids, solids, or gases; and in no case any pollutant with a closed cup flashpoint of **Kentucky 40**

degrees F., or which causes the System to exceed 10 percent of the lower explosive limit at any point.

- any garbage that has not been ground by suitable garbage grinders.
- any ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastic, wood, manure, or any other solids or viscous substances capable of causing obstructions or other interferences with proper operation of the System.
- toxic or poisonous substances in sufficient quantity to injure or interfere with any wastewater treatment process, to constitute hazards to humans or animals, or to create any hazard in waters which receive treated effluent from the System.
- noxious or malodorous gases or substances capable of creating a public nuisance including pollutants which result in the presence of toxic gases, vapors, or fumes.
- solids of a character or quantity that require special and unusual attention for their handling.
- any substance which may affect System effluent and cause the Utility to violate the requirements of its Permit.
- any substance which would cause the System to fail to comply with sludge use, recycling, or disposal guidelines or regulations issued pursuant to the federal laws governing air or water quality, the Toxic Substances Act, or any applicable enactment of the Commonwealth of Kentucky.
- color which is not removed in the treatment process.
- medical or infectious wastes, radioactive waste or isotopes, or any pollutant, including BOD pollutants, released at a flow rate or concentration which would interfere with operation of the System.

The Utility may, at reasonable times, inspect the interior or exterior of any building connected or to be connected to the System, inspect and copy appropriate records, and inspect and test sampling equipment. The Utility may, at any reasonable time, perform smoke test on or test the discharges of any facility connecting a building to the System.

**5.0 USER MANAGEMENT REQUIREMENTS**

**5.1 Change in Discharge**

Users shall at all times comply with Operating Agreements. No facility expansion, production increase, or process modification that will cause a new, different, or increased discharge into the System may be implemented without the Utility's prior approval and until the execution of a

written amendment to the User's existing Operating Agreement. Requests for modification of an Operating Agreement must be submitted in writing to the Utility not less than 90 days prior to the User's proposed implementation date. No facility expansion, production increase, or process modification shall be approved that causes a discharge that would cause the Utility to violate its KPDES Permit.

**5.2 Non-Compliance Notification**

Upon learning that it is not complying with its Operating Agreement or that an unavoidable event will prevent its compliance with its Operating Agreement, the User shall immediately notify the Utility of:

- the nature and cause of the non-complying discharge;
- the time when the non-complying discharge began or is expected to begin and its duration; and
- the steps taken by the User to achieve compliance and prevent a recurrence of the non-complying discharge.

If the User learns of its failure to comply as a result of sampling and analysis, it shall repeat the sampling and analysis within 24 hours of learning of its failure to comply and immediately provide to the utility the results of the second sampling and analysis.

**5.3 Termination of Service**

After a reasonable attempt to obtain compliance, the Utility may terminate service for:

- Discharges not permitted by the User's Agreement or in excess of those permitted, upon ten days written termination notice;
- Falsification of reports, upon ten days written termination notice;
- Unapproved modification of sampling equipment or methods, upon ten days written termination notice;
- (For customers discharging only domestic or "restroom waste") Refusal to allow the Utility timely access to the User's premises, upon ten days written termination notice;
- (For customers discharging wastes other than domestic or "restroom waste") Refusal to allow the Utility timely access to the User's premises, upon two days written termination notice;

laboratory according to methods contained in Title 40, Code of Federal Regulations, Part 136, or otherwise approved by the EPA ("EPA approved procedures").

7.4 Chain of Custody

Sample containers shall be labeled at the time of collection and the following information shall be affixed to the label with waterproof ink: sample number, name of collector, and the date, time, and place of collection. The User shall maintain a field log with all information required for the label and the name of the user, location of sampling point, and type of sample. A Chain-of-Custody form containing all information recorded in the field log plus the signature of all persons who have had custody of the sample and the dates of possession shall accompany each sample that is provided to the laboratory. The format of the Chain-of-Custody form is set forth at Section 11.2 of this Policy.

7.5 Record Retention

Users shall maintain records of all monitoring information, including all calibration and maintenance records and all original chart recordings for continuous monitoring instruments, and copies of all reports required by this policy, for at least three years from creation of the record.

7.6 Definitions

- Composite Sample when performed automatically by mechanical instrument shall mean a sample that is collected over time, formed either by continuous sampling or by mixing discrete samples. The sample may be either a time composite sample ( composed of discrete sample aliquots collected in one container at constant time intervals providing representative samples irrespective of stream flow) of a flow proportional sample (collected either as a constant sample volume at time intervals proportional to stream flow, or collected by increasing the volume of each aliquot as the flow increases while maintaining a constant time interval between aliquots). Composite samples taken manually shall be comprised of no fewer than four samples of equal volume collected over an eight hour period at intervals proportionate to discharge flow, or a sample portion collected continuously over a 24 hour period at a rate proportional to the discharge flow. Methods for composite sampling must be approved in advance by the Utility.
- Biochemical Oxygen Demand (BOD or BOD-5) shall mean the measure of decomposable organic matter in wastewater as represented by the oxygen used in a period of five days at 20 degrees C, as determined by EPA approved procedures.

**Bluegrass Water Utility Operating Company, LLC**

SEWER SERVICE in entire service area

- Total Suspended Solids (TSS) shall mean the insoluble solid matter suspended in wastewater that is separable by laboratory filtration according to EPA approved procedures.
- Oil and Grease (Total) shall mean all vegetable and animal matter, hydrocarbons, waxes, oils, gasoline, heavy fuel, or lubricating oils as determined according to EPA approved procedures.
- Daily Maximum shall mean the maximum allowable discharge of a pollutant during a calendar day. Where daily maximum limitations are expressed in units of mass, the daily discharge is the total mass discharged over the course of the day. Where daily maximum limitations are expressed in terms of concentration, the daily discharge is the arithmetic average measurement of the pollutant concentration derived from all measurements taken that day.
- Grab Sample shall mean an individual sample collected in less than 15 minutes, without regard for flow or time.
- Instantaneous Maximum Concentration shall mean the maximum concentration allowed in any single grab sample.
- Cooling Water, Uncontaminated, shall mean water used for cooling purposes only which has no direct contact with any raw material, intermediate, or final product and which does not contain a level of contaminants detectably higher than that of the intake water.
- Cooling Water, Contaminated, shall mean water used for cooling purposes only which may become contaminated either through the use of water treatment chemicals used as corrosion inhibitors or biocides, or by direct contact with process materials or wastewater.
- Monthly Average shall mean the arithmetic mean of the values for effluent samples collected during a calendar month or specified 30 day period.
- Weekly Average shall mean the arithmetic mean of the values for effluent samples collected over a period of seven consecutive days.
- Bi-Weekly shall mean once every other week.
- Bi-Monthly shall mean once every other month.
- Quarterly shall mean once every three months.
- By-Pass shall mean the intentional diversion of wastes from any portion of the treatment facility.

**8.0 DISCHARGE LIMITS**

No discharge into the Utility's system may exceed the following limits:

**DISCHARGE LIMITATIONS**

PARAMETER	UNIT	24 HOUR MAXIMUM CONCENTRATION (mg/L) Report
Flow	GPD	
Arsenic, total	mg/L	0.10
Cadmium, total	mg/L	0.05
Chromium, total	mg/L	1.71
Chromium, hexavalent	mg/L	0.10
Copper, total	mg/L	0.60
Cyanide, total	mg/L	0.50
Iron, total	mg/L	15.0
Lead, total	mg/L	0.20
Mercury, total	mg/L	0.0005
Nickel, total	mg/L	1.0
Silver, total	mg/L	0.10
Zinc, total	mg/L	2.0
Ammonia nitrogen	mg/L	30
Oil/Grease, total	mg/L	100
PH, S.U.	mg/L	6-10
TSS	mg/L	300
BOD-5	mg/L	300

**9.0 USER INFORMATION FORM**

As set forth in section 3.0 of the Industrial/Commercial User Policy, the following form must be completed and submitted to the Utility by all current users within 30 days of Commission approval of this and prior to connection to the system by prospective Users.

*USER INFORMATION FORM*

*NOTE: Please read all attached instructions prior to completing this application.*

1.1 Facility Name: \_\_\_\_\_

Operator Name: \_\_\_\_\_

*Is the operator identified the owner of the facility?*

*Yes ( ) No ( ) If no, provide the name and address of the operator and submit a copy of the contract or other documents indicating the operator's scope of responsibility for the facility.*

1.2 Facility Address:

Street: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

1.3 Business Mailing Address:

Street: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

1.4 Designated Signatory Authority of the Facility:

*(Attach similar information for each authorized representative)*

Name: \_\_\_\_\_

Title: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Phone Number: \_\_\_\_\_
