

Kentucky Power Company
KPSC Case No. 2023-00008
Commission Staff's Third Set of Data Requests
Dated November 17, 2023

DATA REQUEST

KPSC 3_1 Explain in detail the circumstances that would result in Kentucky Power reporting a negative dollar value for Coal burned, Oil burned, or Gas burned under Company Generation in its FAC Form A rate sheet filing.

RESPONSE

The Company is aware of such an instance occurring only once since the beginning of the review period in this case, which instance fell outside the review period. In February 2023, the Company performed a routine review and discovered a classification error in the November 2022 and January 2023 expense months, which resulted in certain non-generation fuel oil expenses being mistakenly classified as generation fuel oil expense. The Company corrected this error by crediting the amount in the April 2023 FAC rate, which resulted in a negative value of fuel oil expense that month.

Kentucky Power Company
KPSC Case No. 2023-00008
Commission Staff's Third Set of Data Requests
Dated November 17, 2023

DATA REQUEST

KPSC 3_2 During the period under review, for each instance in which Kentucky Power reported a negative dollar value for Coal burned, Oil burned, or Gas burned in its FAC Form A rate sheet filing, explain why the value was reported as such for that respective expense month.

RESPONSE

There were no such instances during the period under review. Please also see the Company's response to KPSC 3_1.
