---

**PETITION FOR CONFIDENTIAL TREATMENT OF DUKE ENERGY KENTUCKY, INC. FOR CERTAIN RESPONSES TO THE STAFF OF THE PUBLIC SERVICE COMMISSION’S OCTOBER 5, 2023 SECOND REQUEST FOR INFORMATION**

---

Duke Energy Kentucky, Inc. (Duke Energy Kentucky or Company), by counsel, pursuant to 807 KAR 5:001, Section 13(2), KRS 61.878(1)(c), and other applicable law, moves the Public Service Commission of Kentucky (Commission) for an Order granting confidential treatment to the identified portions of the following attachments filed in its responses to Commission Staff’s (Staff) Second Request for Information issued on October 5, 2023:

- (1) STAFF-DR-02-021 Confidential Attachments.

Specifically, Duke Energy Kentucky seeks confidential treatment of information referred to herein as the “Confidential Information,” which, broadly speaking, includes: the Company’s bidding strategy and generating unit performance and economics in the wholesale energy markets as well as, pricing data in MWH. The Confidential Information is not known outside of Duke Energy Corporation and was developed internally by Duke Energy Corporation and Duke Energy Kentucky personnel that is not on file with any public agency and is not available from any commercial or other source outside of the

Company. All Confidential Information is only distributed within Duke Energy Kentucky to those who must have access for business reasons and is generally recognized as confidential and proprietary in the energy industry.

## **I. MOTION FOR CONFIDENTIAL TREATMENT**

### **a. Statutory Standard**

Administrative Regulation 807 KAR 5:110, Section 5 sets forth the procedure by which certain information filed with the Commission shall be treated as confidential. Specifically, the party seeking confidential treatment must establish “each basis upon which the petitioner believes the material should be classified as confidential” in accordance with the Kentucky Open Records Act, KRS 61.878. *See* 807 KAR 5:110 Section 5(2)(a)(1).

The Kentucky Open Records Act exempts certain records from the requirement of public inspection. *See* KRS 61.878. In particular, KRS 61.878(1)©(1) excludes from the Open Records Act:

Records confidentially disclosed to an agency or required by an agency to be disclosed to it, generally recognized as confidential or proprietary, which if openly disclosed would permit an unfair commercial advantage to competitors of the entity that disclosed the records[.]

This exception “is aimed at protecting records of private entities which, by virtue of involvement in public affairs, must disclose confidential or proprietary records to a public agency, if disclosure of those records would place the private entities at a competitive disadvantage.” Ky. OAG 97-ORD-66 at 10 (Apr. 17, 1997).

KRS 61.878(1)(c)(1) requires the Commission to consider three criteria in determining confidentiality: (1) whether the record is confidentially disclosed to an agency or required by an agency to be disclosed to it; (2) whether the record is generally recognized

as confidential or proprietary; and (3) whether the record, if openly disclosed, would present an unfair commercial advantage to competitors of the entity that disclosed the records. The documents for which Duke Energy Kentucky is seeking confidential treatment, each of which is described in further detail below, satisfies each of these three statutory criteria.

**b. Attachments for Which Confidential Treatment is Sought**

**i. STAFF-DR-02-021 Confidential Attachments**

Staff Request No. 02-021 states, in part, as follows:

In an Excel spreadsheet format with all formulas, columns, and rows unprotected and fully accessible, for the period under review and when the units are available to run,

- a. Provide the bid status (i.e. economic dispatch, must-run, etc.), by day, of Duke Kentucky's generating units into PJM's day ahead market. Explain the reason for each bid status.
- b. Provide the price per MWH, by day, of Duke Kentucky's generating units bid into PJM's day ahead market and the corresponding LMP indicating whether or not the unit cleared the market.
- c. In a separate spreadsheet Tab, provide a graphical representation of the information in part b. above.

In response to Staff Request No. 02-021, Duke Energy Kentucky is providing STAFF-DR-02-021 Confidential Attachments (a), (b), and (c), which would make public the bid strategy and status of the Company's generating units of every hour, of every day during the review period, including the start-up and operational costs of each unit as well as the price per MWH of those generating units and whether they cleared the market. Releasing this information would disclose confidential operating characteristics of the Company's generating fleet in the wholesale power markets and place the Company at a commercial disadvantage in those competitive energy markets. It is not publicly available,

thus satisfying the first element of the statutory standard for confidentiality of a proprietary record.

In *Hoy v. Kentucky Indus. Revitalization Auth.*, 907 S.W.2d 766, 768 (Ky. 1995), the Kentucky Supreme Court held that documents detailing the “inner workings of a corporation (are) ‘generally recognized as confidential or proprietary.’” STAFF-DR-02-021 Confidential Attachments satisfy this standard. Duke Energy Corporation’s Regulated Fuels Group is responsible for the procurement of fuel and obtaining competitive pricing and the Trading and Dispatch Group is responsible for managing the Company’s generation units in competitive markets. Releasing this information would give potential competitors and fuel vendors for Duke Energy Kentucky in the energy markets inside information about Duke Energy Kentucky’s fleet economics, operating parameters, and fuel procurement strategy, and tolerances. Therefore, this information meets the second element of the statutory standard. It also satisfies the third element, as releasing this information would harm the Company and its customers in the future as competitors and counterparties would know how Duke Energy Kentucky evaluates its fuel supply and manages the economics of its generating units as it attempts to maximize value of these assets in the wholesale energy markets for customers. If publicly available, competitors could use this information to manipulate the market and financially harm Duke Energy Kentucky’s customers by adjusting their bidding strategies and potentially manipulating the price the Company pays for coal.

**c. Request for Confidential Treatment**

Duke Energy Kentucky respectfully requests that the Confidential Information be withheld from public disclosure for a period of ten years. This will assure that the

Confidential Information—if disclosed after that time—will no longer be commercially sensitive so as to likely impair the interests of the Company if publicly disclosed.

The Company does not object to limited disclosure of the confidential information described herein, pursuant to an acceptable protective agreement, with the Attorney General or other intervenors with a legitimate interest in reviewing the same for the purpose of participating in this case.

To the extent the Confidential Information becomes generally available to the public, whether through filings required by other agencies or otherwise, Duke Energy Kentucky will notify the Commission and have its confidential status removed, pursuant to 807 KAR 5:001 Section 13(10)(a).

WHEREFORE, Duke Energy Kentucky, Inc., respectfully requests that the Commission classify and protect as confidential the specific information described herein.

Respectfully submitted,

/s/ Rocco D'Ascenzo
