Re: Request to use Water loss Surcharge Funds

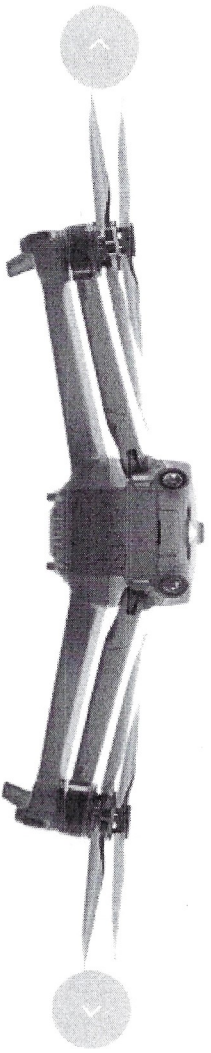

Dear Ms. Bridwell:

South Hopkins Water District would like to request to use the Water Loss Surcharge Fund money to purchase a DJI Mavic 3T Enterprise drone. This drone offers thermal imaging along with a regular camera that has been used by other districts to find water leaks in very rural and hard to reach areas. The thermal imaging can show temperature variations, showing water flow. It also has the capability to capture photos that could show leaks. The price of the drone is around \$7,226.00. I have attached a screen shot of the product and the price for review. SHWD truly believes this could help tremendously in finding and preventing water loss. Thank you for your time.

Sincerely,

Kayla Goodaker
Office Manager
South Hopkins Water District
