Dear Commission

Case # 2023-00090

Item #28

The District reviewed numerous amounts of rate methods in support of the rate increase application. After reviewing our past rate increase applications, which supported this method in previous attempts, and the comparative rates seen in other tariffs on file with the Commission, we believe that this across-the board percentage method is the absolute best choice. Our Wholesale buyers have been notified including the City of Eminence and New Castle. Both Utility managers agreed that a rate increase was both fair and evident and have made necessary adjustments anticipating an increase.

Keith Morris

Henry County Water District #2
