(kk) “Subsidiary” means any corporation, association or business trust, 50% or more of whose voting stock (not including shares having voting power only upon the happening of an event of default) is or was owned, directly or indirectly, by American Water Works Company, Inc., or by any corporation which was a constituent in a merger, consolidation, liquidation, transfer of substantially all of its assets in exchange for stock, or similar combination of corporations with or into the Company.

(ll) “12/31/2022 Spinoff Individual” means a Participant who, as of as of 11:59:58 p.m. Eastern Time on December 31, 2022, (i) commenced receiving a benefit pursuant to Article IV or VIII hereof prior to July 1, 2017, or (ii) terminated employment after satisfying the requirements of Article IV or VIII hereof and who was eligible to receive a deferred vested benefit, but in either case excluding a Participant whose pension benefits are or will be payable, in whole or in part, from one or more group annuity contracts. For purposes of clarification, the term “12/31/2022 Spinoff Individual” includes beneficiaries or alternate payees of a Participant who is a 12/31/2022 Spinoff Individual.

(mm) “Trust” means the legal entity created by the agreement (“Trust Agreement”) between the Company and the Trustee, fixing the rights and liabilities with respect to the control and management of those assets of the Fund held in the Trust.

(nn) “Trustee” means the trustee or trustees, and any successor or successors thereto, designated by the Board of Directors and named in the Trust Agreement or any amendment thereto.

(oo) “Year of Service” means:

(i) Service Prior to 1975 Anniversary. For periods prior to the first anniversary after July 1, 1975 of the date on which a Participant became an Employee, each year of Continuous Service included in a period of Continuous Service ending on that date.

(ii) Years of Service for Eligibility and Vesting. Except as otherwise provided under Section 2.1(oo)(iv) below, for purposes of eligibility to participate in the Plan, vesting and for meeting the eligibility requirements for survivor benefits or for a Normal, Late, Early or Disability Retirement Date, Years of Service shall be determined under this Section 2.1(oo)(ii). For periods beginning on or after the first anniversary after July 1, 1975 of the date on which a Participant became an Employee, or in the case of a Participant who first became an Employee on or after July 1, 1975, for periods beginning on or after the date the Participant became an Employee, each 12-month period commencing on their employment date or any anniversary thereof during which they complete at least 1,000 Hours of Service and which is not excluded by the provisions of Sections 9.1 and 9.2. For this purpose, an Employee for whom records of hours actually worked are not maintained, shall be credited with 8 Hours of Service for each day for which they are compensated for their services or for which they otherwise would have been compensated for their services during which they are absent due to (A) layoff not exceeding 12 months, (B) sickness or accident in accordance with the customary personnel practices of the respective Company or Designated Subsidiary, but not exceeding the first 24 months thereof, (C) Qualified Military Service, or (D) leave of absence, or other cause, approved by the Administration Committee pursuant to uniform and nondiscriminatory rules applicable to Employees similarly situated, provided that in each case the Employee returns to employment with the Company or a Designated Subsidiary or, if eligible to do so, retires, on or before the last day of the period for which service credit is granted under (A), (B), or (D), or, in the case of absence under (C), the last day on which the Employee's re-employment rights are protected by law.

Years of Service earned by Employees who are not included in an "Eligible Union Group," as described in Section 3.1(b), and have ceased for any reason to be eligible to accrue additional benefits under the Plan will be credited for purposes of vesting and for meeting the eligibility requirements for survivor benefits and Normal, Late, Early or Disability Retirement, but will not be credited for purposes of determining benefit accrual and computing a Participant's retirement income benefit under the Plan under Section 2.1(oo)(iii) below.

(iii) Years of Service for Benefit Accrual. Except as otherwise provided under Section 2.1(oo)(iv) below, for purposes of determining benefit accrual and computing a Participant's retirement income benefit under the Plan, a Year of Service shall be credited for each full 12-month period during which a Participant is credited with at least 1,000 Hours of Service. In addition, a Participant shall receive a partial Year of Service for a period of less than 12 months provided the Participant is credited with at least 1,000 Hours of Service during such period. Notwithstanding any other provision of this Plan, no period during which an individual was ineligible to be a Participant by reason of Section 3.1, 3.2 or 3.3 shall be a Year of Service for the purpose of computing the retirement income benefit, if any, to which such individual is entitled under this Plan.

A Participant shall receive credit for a partial Year of Service for an employment period of fewer than 12 months. That credit shall be determined as a fraction, the denominator of which shall be 365 and the numerator of which shall be the number of days

in the period beginning on the last anniversary date of their employment prior to the termination of their service or their Normal, Late, Early or Disability Retirement Date, and ending on the date of the termination of their service or their Normal, Late, Early or Disability Retirement Date, if their Hours of Service for such period equaled, or when annualized, would equal 1,000 or more.

(iv) Special Rules. For special service rules to be applied in computing Years of Service for purposes of benefit accrual, vesting and for meeting the eligibility requirements for survivor benefits or for a Normal, Late, Early or Disability Retirement Date, for Employees of certain acquired Subsidiaries which have become Designated Subsidiaries, see Appendices 3 and 4.

Union Participants described in Section 5.2(d) shall cease to be credited with Years of Service after December 31, 2005 for purposes of benefit accrual. Years of Service earned by union Participants described in Section 5.2(d) after December 31, 2005 will be credited for purposes of vesting and for meeting the eligibility requirements for survivor benefits and Normal, Late, Early or Disability Retirement.

To the extent applicable, any non-union Participant transferred from American Water Works Service Company, Inc. to American Water Enterprises, Inc. effective December 26, 2011 who is listed in Appendix 7, shall continue to be credited with Years of Service on and after December 26, 2011 for purposes of benefit accrual, as well as for vesting and for meeting the eligibility requirements for survivor benefits or for Normal, Late, Early or Disability Retirement Date, until such Participant subsequently terminates employment or is transferred from their December 26, 2011 classification to an ineligible employment classification.

To the extent applicable, any non-union Participant who, immediately prior to a transfer of employment to American Water Enterprises, Inc., is eligible to accrue additional benefits under the Plan under Section 3.2(b), shall continue to be credited with Years of Service on and after such transfer to American Water Enterprises, Inc. for purposes of benefit accrual, as well as for vesting and for meeting the eligibility requirements for survivor benefits or for Normal, Late, Early or Disability Retirement Date, until such Participant subsequently terminates employment or is transferred to an ineligible employment classification.

Section 2.2 Administration. The Plan shall be administered by the Administration Committee as more fully provided for in Article XI.

Section 2.3 Construction. The headings and subheadings in the Plan are inserted for convenience of reference only and are not to be considered in the construction of any provision of the Plan.

Section 2.4 Governing Law. Except to the extent such laws are superseded by ERISA or the Code, the laws of the State of New Jersey shall govern.

ARTICLE III.
PARTICIPATION

Section 3.1 New Participants.

(a) Except as specifically provided in Section 3.1(b) below, any Employee who was not a Participant in the Plan on January 1, 2006 shall forever remain ineligible for the Plan.

(b) Subject to the terms of the applicable collective bargaining agreement, a union Employee employed within an Eligible Union Group shall become a Participant on the first day of the calendar month next following their completion of one Year of Service. "Eligible Union Groups" include:

- (i) Union Employees hired prior to January 1, 2013 in the Company's call center at either the Alton, Illinois or Pensacola, Florida facility;
- (ii) Union Employees hired or rehired prior to February 1, 2009 at the Company's Sterling, Illinois facility;
- (iii) Union Employees employed on January 15, 2002 in the Company's water business acquired from Citizens Utility Company; or
- (iv) Local 423 union Employees hired before April 1, 2006 or Local 68 union Employees hired before May 1, 2006, who were participating in the Employees' Retirement Plan of Elizabethtown Water Company as of December 31, 2006.

An Employee who is hired or transferred into an Eligible Union Group shall become a Participant on or after January 1, 2006 only if the collective bargaining agreement applicable to that Eligible Union Group specifically provides for participation in the Plan by all members of that Eligible Union Group.

Section 3.2 Participants as of January 1, 2006.

(a) Except as provided in this Section 3.2, an Employee who was a Participant in this Plan as of January 1, 2006, shall remain eligible to participate in the Plan.

(b) Any Participant who, as of January 1, 2006, was not eligible to accrue benefits under the Plan shall forever remain ineligible to accrue benefits under the Plan without regard to a subsequent transfer to an eligible classification of employment, rehire, recall, or other resumption of employment unless that Participant is subsequently employed within one of the Eligible Union Groups and the collective bargaining agreement applicable to that Eligible Union Group specifically provides for participation in the Plan by all members of that Eligible Union Group.

(c) Any Participant who, on or after January 1, 2006, ceases for any reason to be eligible to accrue benefits under the Plan shall forever remain ineligible to accrue future benefits under the Plan without regard to a subsequent transfer to an eligible classification of employment, rehire, recall, or other resumption of employment unless that Participant is subsequently employed

within one of the Eligible Union Groups and the collective bargaining agreement applicable to that Eligible Union Group specifically provides for participation in the Plan by all members of that Eligible Union Group. Non-union Participants rehired on or after January 1, 2006, shall not be eligible to accrue additional benefits under the Plan.

(d) No union Participants hired or rehired on or after January 1, 2001 shall be eligible to accrue additional benefits under the Plan on or after January 1, 2006 unless employed within one of the Eligible Union Groups and the collective bargaining agreement applicable to that Eligible Union Group specifically provides for participation in the Plan by all members of that Eligible Union Group.

(e) Union Employees hired or rehired on or after January 1, 2001 who, on or after January 1, 2006, cease to be covered under a collective bargaining agreement between a union and the Company for any reason, including by transfer to non-union status (union Employees hired before January 1, 2001 and transferred to non-union status will, at the time of transfer, be treated as a non-union Employee hired before January 1, 2006) shall not be eligible to accrue additional benefits under the Plan on or after January 1, 2006; provided, however, union Employees hired before January 1, 2001 who are laid off and recalled to employment on or before December 31, 2005 shall be treated as having been hired before January 1, 2001 but subject on and after January 1, 2006 to the provisions in this Section 3.2.

(f) No Employee on whose behalf the Company or a Designated Subsidiary makes contributions to any employee pension benefit plan with respect to a period of current service shall be eligible to accrue benefits in this Plan for the same period of service.

(g) Any Participant who, immediately prior to a transfer of employment to American Water Enterprises, Inc., is eligible to accrue additional benefits under the Plan under Section 3.2(b) shall continue to accrue benefits under the Plan while employed by American Water Enterprises, Inc. until such Participant subsequently terminates employment or is transferred to an ineligible employment classification.

Section 3.3 Collective Bargaining.

(a) Any other provision of this Plan to the contrary notwithstanding, if any labor organization, which shall be recognized by the Company or a Designated Subsidiary as the representative for purposes of collective bargaining of any unit of Employees, does not enter into an agreement with the Company or a Designated Subsidiary providing for the participation of such Employees in this Plan, or having entered into such an agreement fails or refuses to continue the same in effect, the Employees so represented shall not, except to the extent of such Employees' vested interest under Section 8.1, be Participants in, or eligible to participate in, this Plan, its benefits, or in the funds held by the Insurance Company, the Trustee or any Investment Manager, provided that if the absence of an agreement occurs only during a period of negotiations which culminate in a new agreement providing for the participation of such Employees in this Plan, such Employees shall not lose any of the rights which they would otherwise have had hereunder.

(b) If any Employee becomes a Participant following a period during which they were ineligible to participate by reason of this Section 3.3, their Years of Service under this Plan shall not, for the purpose of computing the retirement income benefit, if any, to which they are entitled under this Plan, include any period during which they were so ineligible.

Section 3.4 Suspension of Benefits. A Participant who continues in employment beyond age 65 shall not be entitled to payment of benefits while so employed, provided that the Plan notifies the Participant by personal delivery or first-class mail during the first calendar month following the Participant's Normal Retirement Date that their benefits will not be payable until their actual termination of employment. Such notification shall state that benefit payments are not being paid, in accordance with this Section 3.4, because the Participant is remaining in active employment, and shall include a copy of this Section 3.4 and a statement to the effect that applicable Department of Labor regulations may be found at 29 CFR § 2530.203-3.

Section 3.5 Transferring NYAWC Participants. Notwithstanding any other provision to the contrary, with respect to Transferring NYAWC Participants (as defined in Appendix 8), eligibility to participate shall be determined with regard to the provisions under Appendix 8.

Section 3.6 12/31/2022 Spinoff Individual. Notwithstanding any other provision to the contrary, on and after the 12/31/2022 Spinoff Effective Date, in no event shall a 12/31/2022 Spinoff Individual become an Employee or Participant, and in no event shall a 12/31/2022 Spinoff Individual be entitled to a benefit under this Plan, except as a beneficiary or an alternate payee under this Plan.

ARTICLE IV. RETIREMENT

Section 4.1 Normal Retirement and Late Retirement.

(a) Upon retirement at their Normal Retirement Date, a Participant shall be entitled to receive a monthly retirement income commencing on their Normal Retirement Date, which in accordance with Treas. Reg. section 1.411(a)-7(c)(1) shall be equal to the greatest of: (i) the Participant's Accrued Benefit that they could have commenced on or after the date the Participant has attained age 55, provided the sum of their age and Years of Service equals or exceeds 70; (ii) in the case of a Participant who, as of January 1, 2019, is not a "named executive officer" (as defined in Item 402(a)(3) of Regulation S-K of the Securities Act of 1933, as amended), the Participant's Accrued Benefit that they could have commenced on or after attaining age 62; or (iii) the Participant's Accrued Benefit payable at Normal Retirement Date, or in the case of (i), (ii) or (iii), as applicable, the Actuarial Equivalent of such Accrued Benefit in an amount determined under Sections 5.2, 5.6, 5.7 and, if applicable, Section 6.1(a).

(b) A Participant who continues to be employed after their Normal Retirement Date shall be entitled to receive a monthly retirement income commencing on their Late Retirement Date in an amount determined under Sections 5.2, 5.6, 5.7 and, if applicable, Section 6.1(a). Notwithstanding the foregoing, an executive shall have a Late Retirement Date only if they continue in employment with the Employer after their Normal Retirement Date by consent of the Company.

- (c) For purposes of this Section 4.1, an “executive” means a Participant:
- (i) who is an executive as defined in 29 CFR.541.1 and EEOC Reg. section 1625.12;
 - (ii) who is (A) in charge of a significant and substantial local or regional operation of the Employer, (B) in charge of a department or division of the Employer, or (C) in a high policy making position with the Employer;
 - (iii) who has attained age 65;
 - (iv) who has been in a position described in Sections 4.1(a) and 4.1(b) for the two-year period immediately prior to their retirement; and
 - (v) who is entitled to an immediate nonforfeitable annual retirement income, payable in the form of a single life annuity commencing at age 65 (or retirement, if later), from all employee pension, profit sharing, savings and deferred compensation plans sponsored by the Employer, which equals, in the aggregate, at least \$44,000 (or such other amount as may be described pursuant to 29 C.F.R. 541.1). There shall be excluded from the calculation of the retirement income all of the Participant’s contributions to all plans, including amounts rolled over from the plans of previous employers.

Section 4.2 Early Retirement.

(a) A Participant may retire on the first day of any month occurring on or after both attaining their Early Retirement Date and making application in writing to their Employer at least two full calendar months in advance of their elected Annuity Starting Date. Notwithstanding the foregoing, in the event a Subsidiary is named as a Designated Subsidiary effective after December 31, 1971, a Participant who is an Employee of such Designated Subsidiary may not retire under this Section 4.2(a) before being credited with five Years of Service under this Plan.

(b) In the event of retirement under the provisions of Section 4.2(a), the date of a Participant’s actual retirement shall be their Early Retirement Date and upon retirement at their Early Retirement Date a Participant shall be entitled to receive a monthly retirement income commencing on their Early Retirement Date in an amount determined under Sections 5.4, 5.6, 5.7 and, if applicable, Section 6.1(a).

(c) In the event a Participant who has applied for Social Security disability benefits applies for an Early Retirement benefit under this Section 4.2, commences payment of their Early Retirement benefit as of their elected Annuity Starting Date, and such elected Annuity Starting Date occurs prior to the date that an award of total and permanent disability benefits is made by the United States Social Security Administration (the “Award”), such Participant shall not be

permitted to change their Early Retirement benefit to a Disability Retirement benefit payable under Section 4.3 following the date of the Award. The foregoing shall apply regardless of the date of disability that is referenced in the Award. For purposes of clarity, a Participant for whom payment of their Early Retirement benefit has not yet commenced as of their elected Annuity Starting Date due to administrative delay shall be treated as having commenced payment of their Early Retirement benefit as of their elected Annuity Starting Date.

Section 4.3 Disability Retirement.

(a) A Participant who has completed 10 or more Years of Service, and who qualifies for disability retirement under this Section 4.3(a) shall be retired as of the first day of the month following the first month in which the Administration Committee has received both (i) the Participant's written request for disability retirement, and (ii) evidence reasonably satisfactory to the Administration Committee that the Participant has been determined by the United States Social Security Administration to qualify for total and permanent disability benefits under the Social Security Act. A Participant shall be eligible for disability retirement benefits if, as a result of mental or physical illness or injury (other than self-inflicted) while actively employed, they qualify for disability benefits under the Social Security Act. Disability benefit payments shall commence in either the month in which the disabled Participant is retired, as described above, or in the next following month, as may be administratively practicable. Such payments under the Plan shall be made retroactively to the first day of the month following the date as of which the Participant is deemed to be disabled by the Social Security Administration, or, if later, to the last day of the Participant's eligibility for continuation of the Participant's salary or hourly wages as sick pay under an applicable Employer sick pay plan. The sum of any retroactive payments shall be paid in a lump sum, without interest, as part of the first monthly payment of disability benefits. A Participant shall provide such reasonable evidence of continued Social Security disability as the Administration Committee may require from time to time. Disability benefits shall be discontinued if the Participant ceases to qualify for disability benefits under the Social Security Act. A Participant who becomes disabled, while actively employed, on or after attaining age 65, shall be considered to have retired under Section 4.1 and will be entitled to a monthly retirement income, if any, in an amount determined under Sections 5.2, 5.6, 5.7 and, if applicable, Section 6.1(a).

(b) Notwithstanding the above, if a Participant's disability is determined by the Social Security Administration to qualify under the Social Security Act prior to July 1, 2001, and the Participant's benefit was in pay status, the benefit shall be determined under the provisions of the Plan in effect prior to July 1, 2001.

(c) In the event of retirement under the provisions of Section 4.3, the date specified in Section 4.3 shall be the Participant's Disability Retirement Date, and the Participant shall be entitled to receive for life, or as long as their disability continues to qualify under the Social Security Act, a monthly retirement income commencing on their Disability Retirement Date in an amount determined under Sections 5.5, 5.6, 5.7 and, if applicable, Section 6.1(a); provided that if at their Disability Retirement Date, a Participant would be eligible for Early Retirement but for the two months' notice requirement, they may elect to retire early under the provisions of Section 4.2(a).

- (d) A Participant shall not be eligible for a benefit payable under this Section 4.3 if the provisions of Section 4.2(c) apply.

ARTICLE V.
RETIREMENT INCOME LIFE BENEFITS

Section 5.1 For Participants Who Retired Prior to July 1, 2001. Except as otherwise specifically provided in Appendix 1, the monthly retirement income payable to a Participant whose retirement date occurred on or before July 1, 2001 shall be continued after June 30, 2001 in the same amount and subject to the same conditions as the monthly retirement income which such Participant was receiving under the Plan beginning on or before July 1, 2001.

Section 5.2 Normal or Late Retirement Income. A Participant's Normal or Late Retirement Income shall be determined as follows:

(a) For Active Non-Union Participants Retirement on or after July 1, 2001. An active non-union Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a), shall receive a monthly retirement income commencing on their Normal or Late Retirement Date in an amount equal to the following:

(i) For Years of Service prior to July 1, 2001, the sum of the following:

(A) 1.85% of their Final Average Earnings not in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(B) 2.1 % of their Final Average Earnings in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(C) 0.7% of their Final Average Earnings, multiplied by their Years of Service in excess of 25 years.

plus

(ii) For Years of Service on or after July 1, 2001, the sum of the following:

(A) 1.60% of their Final Average Earnings not in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(B) 2.1 % of their Final Average Earnings in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(C) 1.60% of their Final Average Earnings, multiplied by their Years of Service in excess of 25 years.

(iii) Years of Service credited before and after July 1, 2001 shall be aggregated in determining the 25-year maximum period.

(b) For Active Union Participants Retiring on or after July 1, 2001. An active union Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a), shall receive a monthly retirement income commencing on their Normal or Late Retirement Date in an amount equal to the following:

(i) For Years of Service prior to July 1, 2001, the sum of the following:

(A) 1.85% of their Final Average Earnings not in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(B) 2.1 % of their Final Average Earnings in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(C) 0.7% of their Final Average Earnings, multiplied by their Years of Service in excess of 25 years.

plus

(ii) 1.60% of their Final Average Earnings, multiplied by their Years of Service earned on or after July 1, 2001.

(c) For Participants Hired on or after July 1, 2001. Effective for Participants hired on or after July 1, 2001, except as modified by the provisions of Section 6.1(a), a Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to 1.60% of their Final Average Earnings multiplied by their Years of Service at Normal or Late Retirement Date.

(d) For Union Participants Hired On Or After January 1, 2001. Except as provided below in this Section 5.2(d), Section 3.1(b), or Section 3.2, the Accrued Benefit of a union Participant hired or rehired on or after January 1, 2001 shall be frozen as of December 31, 2005 and no further benefits shall accrue for such Participant under the Plan after December 31, 2005. Notwithstanding the foregoing, union Employees who:

(i) are employed at the Company's Sterling, Illinois facility and were hired or re-hired prior to February 1, 2009,

(ii) are employed in the Employer's call center at either the Alton, Illinois or Pensacola, Florida facility,

(iii) were union Employees on January 15, 2002 employed in the water business acquired from Citizens Utility Company, or

(iv) are Local 423 union Employees hired before April 1, 2006 or Local 68 union Employees hired before May 1, 2006, who were participating in the Employees' Retirement Plan of Elizabethtown Water Company as of December 31, 2006, may continue to accrue benefits under the Plan for Years of Service on and after December 31, 2005.

Section 5.3 1994 Fresh Start Provisions. If the Accrued Benefit, computed as of June 30, 1994, of a Participant who is actively employed on July 1, 1994 was based on Earnings in excess of \$150,000, such Accrued Benefit shall be frozen as of June 30, 1994. The Accrued Benefit payable to such a Participant who retires at their Normal Retirement Date shall be the greater of:

(a) the sum of their Accrued Benefit as of June 30, 1994, plus their Accrued Benefit for each Year of Service for benefit accrual after June 30, 1994 computed in accordance with Section 5.2(a) above but based only on Earnings allowable under section 401(a)(17) of the Code as in effect for Plan Years beginning after 1993; or

(b) the Participant's Accrued Benefit computed under Section 5.2(a) using all of the Participant's Years of Service for benefit accrual, but limiting Earnings to the level in effect under section 401(a)(17) of the Code as of the Participant's retirement or other termination of service, as applicable.

Section 5.4 Early Retirement Income. The monthly retirement income commencing on a Participant's Early Retirement Date shall be an amount equal to their normal retirement income under Section 5.2 based on their Years of Service to their Early Retirement Date, multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

Section 5.5 Disability Retirement Income. The monthly retirement income commencing on a Participant's Disability Retirement Date shall be an amount equal to the benefit which they would have received pursuant to Section 5.2(a) or (b) or (c) based on their Years of Service and Final Average Earnings as of their Disability Retirement Date, without reduction for early commencement.

Section 5.6 Other Plan Benefits. In the case of a Participant who becomes a Participant by reason of the naming after June 30, 1985 of a Subsidiary as a Designated Subsidiary, their normal, late, early, or disability retirement income shall be adjusted downward to reflect benefits to which they are entitled under any other retirement plan or plans established by such Designated Subsidiary and the Administration Committee, acting under uniform rules of nondiscriminatory application with respect to the Employees of any such Designated Subsidiary, shall have the exclusive and binding discretion to make such adjustment as it determines to be equitable under all of the circumstances to the end that there be no duplication of benefits under this Plan and any other plan or plans. Notwithstanding the preceding sentence, no such adjustment shall be made for such amounts as are attributable to the Participant's contributions to such other plan or plans.

Section 5.7 Benefits Attributable to Merged Plans. In addition to any retirement income benefit payable to a Participant under this Plan, any Participant who was a participant in the California-American Water Company Employee Retirement Plan, the Seymour Water Company Retirement Plan, the West Virginia Water Company Pension Plan, the Brownsville Water Company Non-Bargaining Employees' Retirement Plan, the Brownsville Water Company Bargaining Employees' Retirement Plan and the Retirement Plan for Employees of California Water Company, which were merged into this Plan, shall also receive the amount of any benefit the Participant would have received from that merged plan, but for the merger. The benefit payable to any Participant who was a participant in the Pekin Water Works Company Pension Trust and who is given credit under Appendix 3 of this Plan in computing their Accrued Benefit under this Plan shall receive no additional benefit credit on account of such participation.

Section 5.8 Normal Form of Retirement Income. The normal form of retirement income shall be as follows:

(a) Unmarried Participants. If a Participant is not married on their Annuity Starting Date, their retirement income will be paid to them monthly for life, beginning with the first payment following their retirement and ending with the last payment payable prior to their death.

(b) Married Participants. If a Participant is married on their Annuity Starting Date, their retirement income will be paid to them in the form of a Qualified Joint and Survivor Annuity as described in Section 6.1(a).

ARTICLE VI.
BENEFIT ELECTIONS, SURVIVOR BENEFITS
AND RELATED REDUCTIONS IN BENEFITS

Section 6.1 Automatic Surviving Spouse Benefit.

(a) Qualified Joint and Survivor Annuity. A Participant who is married on their Annuity Starting Date, shall be paid a benefit for their life equal to that percentage determined by their attained age and the attained age of their spouse, set forth in the Table of Contingent Annuitant Percentages attached to the Plan as Table 2, of their normal retirement income under Section 5.2, their early retirement income under Section 5.4 or their disability retirement income under Section 5.5; and their spouse, if such spouse survives them, shall be paid a benefit equal to 50% of their reduced benefit. For any Participant retiring on a Late Retirement Date, Table 2 shall be applied based on the Participant's attained age and the attained age of the Participant's spouse as of the Participant's Late Retirement Date.

If a Participant's spouse dies within two years of the date payments to the Participant begin under this Section 6.1(a), beginning with the first payment following the death of such spouse, monthly retirement income payments to the Participant will be adjusted to be equal to the monthly amount that would have been paid to the Participant if the Participant's benefit had been determined solely under Section 5.8(a).

(b) Qualified Preretirement Survivor Annuity.

(i) Death Prior to Early Retirement Eligibility and Prior to Completing Ten Years of Service. In the event of the death of an actively employed married Participant who had completed at least five Years of Service but before they had completed at least ten Years of Service, such Participant's spouse shall be entitled to a benefit, payable, if such spouse is then surviving, on the first day of the month coincident with, or next following the later of (A) the date of the Participant's death or (B) the date the Participant would have attained age 55 had they survived, elected the 50% contingent annuity form of benefit, as determined under Table 2 based on their and their spouse's then attained ages, and then died.

(ii) Death Prior to Early Retirement Eligibility but After Ten Years of Service. In the event of a married Participant's death while actively employed, after they have completed ten Years of Service but prior to becoming eligible for Early Retirement, such Participant's spouse shall be entitled to receive the same monthly benefit to which the Participant would have been entitled had the Participant retired on the day before their death and had elected to receive the 100% contingent annuity form of benefit. The amount of such benefit shall be determined under Table 4, based on their attained age and the attained age of their spouse, except that for purposes of applying Table 4, the Participant's attained age, if less than age 55, shall be considered to be age 55 and their spouse's age shall be adjusted so that it bears the same relationship to age 55 as their actual attained ages bear to each other.

(iii) Death After Becoming Eligible for Early Retirement. In the event of a married Participant's death, while actively employed, while they are eligible for Early Retirement but for the applicable notice requirement under Section 4.2(a), such Participant's spouse shall be entitled to receive the same monthly benefit to which the Participant would have been entitled had the Participant retired on the day before their death and had elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their spouse.

(iv) Death After Becoming Eligible for Normal Retirement. In the event of a married Participant's death while actively employed, after their Normal Retirement Date, such Participant's spouse shall be entitled to receive the same monthly benefit to which the Participant would have been entitled had the Participant retired on their Late Retirement Date and had elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their spouse.

(v) Death of Vested Terminated Participant. In the event of a married Participant's death after they have completed five Years of Service, but before they had become eligible for Early Retirement, and who was not actively employed at the time of their death, such Participant's spouse shall be entitled to a benefit, payable, if such spouse is then surviving, on the first day of the month coincident with, or next following the later of (A) the date of the Participant's death or (B) the date the Participant would have attained age 55 had they survived, elected the 50% contingent annuity form of benefit, as

determined under Table 2 based on their and their spouse's then attained ages, and then died. Notwithstanding the foregoing, in the event a married Participant who is no longer actively employed dies after they have become eligible to elect to receive retirement income benefits under Section 8.1 and before their Normal Retirement Date, such Participant shall be considered to be actively employed on the date of their death, and their spouse, if surviving, will receive a benefit in accordance with Section 6.1(b)(iii) above.

Any benefit payable under this Section 6.1 shall terminate on the surviving spouse's death.

Section 6.2 Notice and Election Procedures.

(a) Initial Notice and Election. Within 180 days (90 days for plan years beginning prior to January 1, 2007) before a Participant's Annuity Starting Date, the Administration Committee shall supply the Participant with a written explanation describing the terms and conditions of the normal form of benefit payable to them under Section 5.8, the financial effect of the other forms of benefit available to them under the Plan and the relative value of the other forms of benefit compared to the normal form of benefit. The explanation shall also describe the Participant's right to waive the normal form of benefit and the effect of such waiver, the rights of the Participant's spouse, the right to revoke a previous waiver of the normal form of benefit, the effect of such a revocation and, if the Participant has not reached their Normal Retirement Date, the consequences of failing to defer payment until a later payment date. Finally, the explanation shall advise the Participant that their benefit shall be paid in such normal form, unless within 180 days (90 days for plan years beginning prior to January 1, 2007) before their Annuity Starting Date, they notify the Administration Committee of an election to receive a different form of benefit, and, if they are married:

(i) their spouse consents to their election in writing,

(ii) such election designates a Contingent Annuitant(s) other than their spouse (or form of benefit) that may not be changed without spousal consent, or the spouse's consent acknowledges the spouse's right to limit consent to a specific Contingent Annuitant(s) (or form of benefit), and expressly and voluntarily permits designations by the Participant without any requirement of further consent by the spouse; and

(iii) the spouse's consent acknowledges the effect of such election and is witnessed by a notary public.

(iv) Spouse shall mean effective June 26, 2013, the individual to whom a Participant is married, including a marriage of same-sex spouses that was validly entered into in a domestic or foreign jurisdiction whose laws authorize the marriage of two individuals of the same sex even if the married couple resides in a domestic or foreign jurisdiction that does not recognize the validity of same-sex marriages. Marriage does not include registered domestic partnerships, civil unions, or other similar formal relationships recognized under state law that are not denominated as a marriage under that state's law, and the term "Spouse" does not include individuals who have entered into such a formal relationship. Spouse means the spouse of a Participant on the date

benefits under the Plan commence, however, if the Participant should die prior to the date benefits under the Plan would have commenced to them, then the spouse will be the spouse to whom the Participant was married on the date of death. To the extent provided, under a qualified domestic relations order, the "Spouse" means a former Spouse of the Participant.

(b) Election Period; Extension of Election Period. A Participant's election period under this Section 6.2 shall be the 180-day period (90-day period for plan years beginning prior to January 1, 2007) ending on their Annuity Starting Date. If, by not later than the day before their Annuity Starting Date, the Participant notifies the Administration Committee of an election not to receive the normal form of benefit payable to them under Section 5.8, and their spouse (if any) has consented to such election, their benefit shall be paid in the alternate form selected by the Participant.

However, if by not later than the day before their Annuity Starting Date, the Participant requests the Administration Committee to furnish them with additional information relating to the effect of the normal form of benefit payable to them under the Plan, the election period under this Section 6.2 shall be extended and their Annuity Starting Date shall be postponed to a date not later than 180 days (90 days for plan years beginning prior to January 1, 2007) following the date the Administration Committee furnishes them with the additional information.

(c) Change of Election - Optional Form of Benefit. Any Participant electing an optional form of benefit under Section 6.3 or Section 6.4 may revoke such election and file a new election with the Administration Committee at any time prior to the Participant's Annuity Starting Date. Upon the Participant's Annuity Starting Date, their election shall become irrevocable.

(d) Notice and Election Procedures for Qualified Preretirement Survivor Annuity. Within the one-year period beginning on the date an Employee becomes a Participant, the Administration Committee shall provide the Participant with a written explanation of the spouse's preretirement death benefit. The written explanation shall notify the Participant that if they are married and they die before their Annuity Starting Date, their spouse shall receive the spouse's preretirement death benefit determined under Section 6.1(b).

Section 6.3 Monthly Income for Life Election. A Participant who is married on their Annuity Starting Date may, with their spouse's written and notarized consent, elect to have their normal or late retirement income under Section 5.2, their early retirement income under Section 5.4, or their disability retirement income under Section 5.5, in each case as limited by Section 5.6 and 5.7, paid in the form described in Section 5.8(a).

Section 6.4 Survivor and Lump Sum Benefits Available by Election.

(a) Participants whose benefits are not subject to an automatic surviving spouse benefit under Section 6.1 or who, with their spouse's written and notarized consent as described in Section 6.2, elect not to accept an automatic surviving spouse benefit may elect to provide benefits for their Contingent Annuitants as described below, or effective January 1, 2019, elect payment of benefits in the form of a lump sum payment if they meet the conditions set forth in subsection (h) below.

(b) Upon written notice executed by a Participant and filed with their Employer at least 60 days prior to their actual retirement date, a Participant may, subject to the limitations of this Section 6.4, designate any individual as their Contingent Annuitant and at the same time elect:

(i) a reduced benefit for life with the continuation of (A) 50%, (B) 75% (effective for Annuity Starting Dates after June 30, 2008), (C) 66-2/3%, or (D) 100% of such reduced benefit to their surviving Contingent Annuitant for the life of such Contingent Annuitant; or

(ii) a reduced benefit for life with the continuation of 100% of such reduced benefit to their Contingent Annuitant only to the extent required for the total number of monthly payments to the Participant and their Contingent Annuitant to equal either (A) 60, (B) 120, or (C) 180.

(c) In the event of such a designation and election, the reduced retirement income payments will be paid to the Participant, commencing on their Normal, Late, Early or Disability Retirement Date. The first payment, if any, to the Contingent Annuitant shall be made on the first day of the calendar month coincident with or following the death of the Participant, or as soon as administratively possible following the death of the Participant, provided payment is made retroactively to the first day of the month following the Participant's death. Payments to the Participant shall terminate with the last payment payable preceding their death.

(d) Any such election shall become effective upon the Participant's retirement unless otherwise provided by the Participant. The amount of the Participant's reduced retirement benefit shall be determined by multiplying their normal, late, early or disability retirement income by a percentage set forth in Table 2, 3, 4, or 4(a), as appropriate, depending upon their age and the age of their Contingent Annuitant as of the Participant's actual retirement date.

(e) If a Contingent Annuitant dies within two years of the date payments to the Participant begin under this Section 6.4, other than payments in a form described in Section 6.4(b)(ii), monthly retirement income payments to the Participant will be adjusted beginning with the first payment following the death of such Contingent Annuitant, to be equal to the monthly amount that would have been paid to the Participant if the Participant's benefit had been determined solely under Section 5.8(a). No such adjustment will be made to the benefit of a Participant whose benefit is being paid in a form described in Section 6.4(b)(ii).

(f) If a Participant's Contingent Annuitant is anyone other than their spouse, the present value of the payments to be made to the Participant as of the date such payments are to commence, computed by using the same mortality and interest assumptions as are used for purposes of Tables 2, 3, 4, and 4(a) must be more than 50% of the present value, as of such date and similarly computed, of all payments to be made to the Participant and their Contingent Annuitant. Any election of a Contingent Annuitant made in violation of this provision shall be void.

(g) In the event of the death of the Participant's Contingent Annuitant prior to the Participant's actual retirement date, the election of a Contingent Annuitant under Section 6.4 shall be inoperative.

(h) Effective January 1, 2019, a Participant whose Annuity Starting Date occurs on or after January 1, 2019, and who retires from employment with the Employer on or after December 31, 2018, may elect to receive their vested Accrued Benefit in a single sum payment which shall be an amount equal to the Actuarial Equivalent present value of the Participant's vested Accrued Benefit which would otherwise be payable at the Participant's Normal Retirement Date, excluding the value of any early retirement subsidy.

Section 6.5 Death Benefits for Unmarried Participants. An unmarried Participant who is actively employed on or after January 1, 2006 and who has completed at least five Years of Service may designate a Contingent Annuitant. The benefit to be provided to that Contingent Annuitant shall be as specified in (a) through (c) below:

(a) For Active and Terminated Vested Participants: Death Prior to Early Retirement Eligibility and Prior to Completing Ten Years of Service. In the event of an unmarried Participant's death after they have completed five Years of Service, but before they have become eligible for Early Retirement, whether such Participant is then actively employed or not, such Participant's Contingent Annuitant shall be entitled to a benefit, payable, if such Contingent Annuitant is then surviving, on the first day of the month coincident with or next following the later of (i) the date of the Participant's death or (ii) the date the Participant would have attained age 55 had they survived. The amount of such benefit shall be the same amount that such surviving Contingent Annuitant would have received had such Participant terminated their service, survived to age 55, elected the 50% contingent annuity form of benefit, as determined under Table 2 based on their and their Contingent Annuitant's then attained ages, and then died.

(b) For Active Participants: Death Prior to Early Retirement Eligibility but After Ten Years of Service. In the event of an unmarried Participant's death while actively employed, after they have completed ten Years of Service but prior to becoming eligible for Early Retirement, such Participant's Contingent Annuitant shall be entitled to receive the same monthly benefit to which the Participant would have been entitled had the Participant retired on the day before their death and elected to receive the 100% contingent annuity form of benefit. The amount of such benefit shall be determined under Table 4, based on their attained age and the attained age of their Contingent Annuitant, except that for purposes of applying Table 4, the Participant's attained age, if less than age 55, shall be considered to be age 55 and their Contingent Annuitant's age shall be adjusted so that it bears the same relationship to age 55 as their actual attained ages bear to each other.

(c) Death After Becoming Eligible for Early Retirement.

(i) Actively Employed Participants. In the event of an unmarried Participant's death, while actively employed and after becoming eligible for Early Retirement including after the Participant's Normal Retirement Date, such Participant's Contingent Annuitant shall be entitled to receive the same monthly benefit to which the Participant

would have been entitled had the Participant retired on the day before death and elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their Contingent Annuitant.

(ii) **Terminated Participants.** In the event of an unmarried Participant's death after their employment with the Employer has terminated and after becoming eligible for Early Retirement including after the Participant's Normal Retirement Date, such Participant's Contingent Annuitant shall be entitled to receive the same monthly benefit to which the Participant would have been entitled had the Participant retired on the day before death and elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their Contingent Annuitant.

(d) Any benefit payable under this Section 6.5 shall terminate on the surviving Contingent Annuitant's death.

Section 6.6 Required Distributions - Code Section 401(a)(9). Distributions under this Section 6.6 shall be made in accordance with section 401(a)(9) of the Code and the regulations thereunder, as generally described in this Section 6.6. The provisions of this Section 6.6 shall supersede any distribution option otherwise provided in the Plan to the extent that it is inconsistent with section 401(a)(9) of the Code, but shall not create or increase any benefit. Notwithstanding anything in the Plan to the contrary, the form and the timing of all distributions under the Plan shall be in accordance with regulations issued by the Department of the Treasury under section 401(a)(9) of the Code, including the incidental death benefit requirements of section 401(a)(9)(G) of the Code. The Plan shall apply the minimum distribution requirements of section 401(a)(9) of the Code in accordance with the final regulations under section 401(a)(9) that were published on April 17, 2002 and June 15, 2004, as set forth in Treas. Reg. § 1.401(a)(9)-2 through 1.401(a)(9)-9. The provisions of this Section 6.6 shall override any provisions of the Plan to the contrary.

(a) **Time and Manner of Distribution.**

(i) **Required Beginning Date.** The Participant's entire interest shall be distributed, or begin to be distributed, to the Participant no later than the Participant's Required Beginning Date.

(ii) **Death of Participant Before Distributions Begin.** If the Participant dies before distributions begin and the Participant's beneficiary is entitled to receive a death benefit, the Participant's entire interest shall be distributed, or begin to be distributed, no later than as follows:

(A) If the Participant's surviving spouse is the Participant's sole Designated Beneficiary, then distributions to the surviving spouse shall begin by December 31 of the calendar year immediately following the calendar year in which the Participant died, or by December 31 of the calendar year in which the Participant would have reached age 70½, if later.

(B) If the Participant's surviving spouse is not the Participant's sole Designated Beneficiary, then distributions to the Designated Beneficiary shall begin by December 31 of the calendar year immediately following the calendar year in which the Participant died.

(C) If there is no Designated Beneficiary as of September 30 of the year following the year of the Participant's death and benefits are payable in the form of a life and certain annuity under Section 6.4(b), the Participant's entire interest shall be distributed to the Participant's estate by the December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(D) If the Participant's surviving spouse is the Participant's sole Designated Beneficiary and the surviving spouse dies after the Participant but before distributions to the surviving spouse begin, this Section 6.6(a)(ii), other than Section 6.6(a)(ii)(A), shall apply as if the surviving spouse were the Participant.

For purposes of this Section 6.6(a)(ii) and Section 6.6(d), distributions are considered to begin on the Participant's Required Beginning Date (or, if Section 6.6(a)(ii)(D) applies, the date distributions are required to begin to the surviving spouse under Section 6.6(a)(ii)(A)). If annuity payments irrevocably commence to the Participant before the Participant's Required Beginning Date (or to the Participant's surviving spouse before the date distributions are required to begin to the surviving spouse under Section 6.6(a)(ii)(B)), the date distributions are considered to begin is the date distributions actually commence.

(iii) Form of Distribution. Unless the Participant's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the Required Beginning Date, as of the first Distribution Calendar Year distributions shall be made in accordance with Section 6.6(b), (c) and (d). If the Participant's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder shall be made in accordance with the requirements of section 401(a)(9) of the Code and the regulations thereunder.

(b) Determination of Amount to be Distributed Each Year.

(i) General Annuity Requirements. If the Participant's interest is paid in the form of annuity distributions under the Plan, payments under the annuity shall satisfy the following requirements:

(A) the annuity distributions shall be paid in periodic payments made at intervals not longer than one year;

(B) the distribution period shall be over a life (or lives) or over a period certain not longer than the period described in Section 6.6(c) and (d);

(C) once payments have begun over a period certain, the period certain shall not be changed even if the period certain is shorter than the maximum permitted;

(D) payments shall either be non-increasing or increase only as follows:

(1) by an annual percentage increase that does not exceed the annual percentage increase in a cost-of-living index that is based on prices of all items and issued by the United States Bureau of Labor Statistics;

(2) to the extent of the reduction in the amount of the Participant's payments to provide for a survivor benefit upon death, but only if the beneficiary whose life was being used to determine the distribution period described in Section 6.6(c) dies or is no longer the Participant's beneficiary pursuant to a qualified domestic relations order within the meaning of section 414(p) of the Code;

(3) to provide cash refunds of employee contributions upon the Participant's death; or

(4) to pay increased benefits that result from a Plan amendment.

(ii) Amount Required to be Distributed by Required Beginning Date. The amount that must be distributed on or before the Participant's Required Beginning Date (or, if the Participant dies before distributions begin, the date distributions are required to begin under Section 6.6(b)(1)) is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, e.g., bi-monthly, monthly, semi-annually, or annually. All of the Participant's benefit accruals as of the last day of the first Distribution Calendar Year shall be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the Participant's Required Beginning Date.

(iii) Additional Accruals After First Distribution Calendar Year. Any additional benefits accruing to the Participant in a calendar year after the first Distribution Calendar Year shall be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such amount accrues.

(c) Requirements for Annuity Distributions that Commence During Participant's Lifetime.

(i) Joint Life Annuities Where the Beneficiary is Not the Participant's Spouse. If the Participant's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the Participant and a non-spouse beneficiary, annuity payments to be made on or after the Participant's Required Beginning Date to the Designated Beneficiary after the Participant's death must not at any time exceed the applicable percentage of the annuity payment for such period that would have been payable to the Participant using the table set forth in Q&A-2 of Treas. Reg. § 1.401(a)(9)-6. If the Annuity Starting Date precedes the year in which the Participant reaches age 70, the age difference to be used in determining the applicable percentage

referred to in the preceding sentence is reduced by the number of years that the Participant is younger than age 70 on their birthday in the calendar year that contains the Annuity Starting Date. If the form of distribution combines a joint and survivor annuity for the joint lives of the Participant and a non-spouse beneficiary and a period certain annuity, the requirement in the preceding two sentences shall apply to annuity payments to be made to the Designated Beneficiary after the expiration of the period certain.

(ii) Period Certain Annuities. Unless the Participant's spouse is the sole Designated Beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the Participant's lifetime may not exceed the applicable distribution period for the Participant under the Uniform Lifetime Table set forth in Treas. Reg. § 1.401(a)(9)-9 for the calendar year that contains the Annuity Starting Date. If the Annuity Starting Date precedes the year in which the Participant reaches age 70, the applicable distribution period for the Participant is the distribution period for age 70 under the Uniform Lifetime Table set forth in Treas. Reg. § 1.401(a)(9)-9 plus the excess of 70 over the age of the Participant as of the Participant's birthday in the year that contains the Annuity Starting Date. If the Participant's spouse is the Participant's sole Designated Beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the Participant's applicable distribution period, as determined under this Section 6.6(c)(ii), or the joint life and last survivor expectancy of the Participant and the Participant's spouse as determined under the Joint and Last Survivor Table set forth in Treas. Reg. § 1.401(a)(9)-9, using the Participant's and spouse's attained ages as of the Participant's and spouse's birthdays in the calendar year that contains the Annuity Starting Date.

(d) Requirements For Minimum Distributions Where Participant Dies Before Date Distributions Begin.

(i) Participant Survived by Designated Beneficiary. If the Participant dies before the date distribution of their interest begins and there is a Designated Beneficiary entitled to a death benefit under the Plan, the Participant's entire interest will be distributed, beginning no later than the time described in Section 6.6(a)(ii)(A) or (B) over the life of the Designated Beneficiary or over a period certain not exceeding:

(A) unless the Annuity Starting Date is before the first Distribution Calendar Year, the life expectancy of the Designated Beneficiary determined using the Designated Beneficiary's age as of the Designated Beneficiary's birthday in the calendar year immediately following the calendar year of the Participant's death; or

(B) if the Annuity Starting Date is before the first Distribution Calendar Year, the life expectancy of the Designated Beneficiary determined using the Designated Beneficiary's age as of the Designated Beneficiary's birthday in the calendar year that contains the Annuity Starting Date.

(ii) No Designated Beneficiary. If the Participant dies before the date the distribution of their interest begins, the Participant's surviving spouse is the Participant's sole Designated Beneficiary, and the surviving spouse dies before distributions to the surviving spouse begin, this Section 6.6(d) will apply as if the surviving spouse were the Participant, except that the time by which distributions must begin will be determined without regard to Section 6.6(a)(ii)(A).

(e) Definitions.

(i) Designated Beneficiary. The individual who is designated as the Contingent Annuitant under Section 2.1(i) of the Plan and is the designated beneficiary under section 401(a)(9) of the Code and section 1.401(a)(9)-1, Q&A-4 of the Treasury regulations.

(ii) Distribution Calendar Year. A calendar year for which a minimum distribution is required. The first Distribution Calendar Year is the calendar year immediately preceding the calendar year that contains the Participant's Required Beginning Date.

(iii) Life Expectancy. Life expectancy as computed by use of the Single Life Table in Treas. Reg. § 1.401(a)(9)-9.

(iv) Required Beginning Date. April 1 of the calendar year following the year in which a Participant reaches age 70½ (age 72 for distributions required to be made after December 31, 2019 with respect to a Participant who attains age 70½ after such date). The monthly pension of a Participant whose Required Beginning Date is April 1 of the calendar year in which they incur a separation from service shall include an Actuarial Equivalent adjustment to reflect the commencement of payments after April 1 following the calendar year in which they attained age 70½. The Actuarial Equivalent adjustment described in the preceding sentence for any year shall reduce (but not below zero) any increase in the Participant's Accrued Benefit for the year attributable to additional Years of Service for benefit accrual and Final Average Earnings.

Section 6.7 Distributions Pursuant to a Qualified Domestic Relations Order. Any benefit payable to an alternate payee pursuant to a qualified domestic relations order ("QDRO"), as those terms are defined in section 414(p) of the Code, shall be paid in accordance with the terms of the QDRO. If permitted under the terms of the QDRO, an alternate payee may elect payment of benefits pursuant to a QDRO in the form of an Actuarially Equivalent lump sum distribution; provided, however that the alternate payee must exercise this election within the 90-day period following the notice to the alternate payee that the domestic relations order issued is a QDRO. Notwithstanding the foregoing, an alternate payee may not elect a lump sum form of distribution if payment of the Participant's benefit has commenced prior to the alternate payee's benefit election.

Section 6.8 Limited Lump Sum Election.

(a) **Eligibility.** A Participant who has terminated employment with a vested Accrued Benefit, who is entitled to benefits as of June 30, 2014, may elect to receive their benefit in a single lump sum payment, if the Participant satisfies the following criteria:

(i) the Participant has neither been reemployed by the Employer nor commenced benefits under the Plan prior to the date of distribution is made under this Section;

(ii) the Participant's benefit is not subject to payment pursuant to Section 6.6 as a required minimum distribution or Section 6.7 according to a QDRO; and

(iii) the Participant effectively returns a properly completed application for distribution under this Section, in such form and manner as required by the Administration Committee, during the period that begins September 10, 2014 and ends October 24, 2014, or such other dates established by the Administration Committee to provide an election period of no fewer than 30 days and applied in a uniform and nondiscriminatory manner.

(b) **Distribution to Beneficiary.** If a Participant described in subsection (a) is deceased, and if such Participant's surviving spouse or Contingent Annuitant is entitled to a future benefit under the Plan that has not yet commenced under the Plan prior to the date of distribution under this Section, such surviving spouse or Contingent Annuitant may elect to receive a distribution in the form of a single lump sum payment, if the surviving spouse or Contingent Annuitant effectively returns a properly completed application for distribution under this Section no later than October 24, 2014, in such form and manner as required by the Administration Committee.

(c) **Amount.** The amount of the single lump sum payment under this Section shall be an amount equal to the Actuarial Equivalent present value of the Participant's vested Accrued Benefit which would otherwise be payable at the Participant's Normal Retirement Date, as of November 1, 2014, including the value of any early retirement subsidy if the Participant is eligible for an Early Retirement Date.

(d) **Early Commencement of Benefits and Additional Forms of Distribution for Certain Participants.**

(i) A Participant who satisfies the requirements of subsection (a) who is not yet eligible for a Normal Retirement Date or an Early Retirement Date shall be eligible for a single lump sum payment under this Section.

(ii) A Participant described in subsection (d)(i) shall also be eligible for the normal form of payment under Section 5.8, which for a married Participant shall be an annuity providing a reduced benefit for life with the continuation of either 50% or 75%, as elected, of such reduced benefit to their surviving spouse. The Actuarial Equivalent of such Accrued Benefit shall be reduced in accordance with the factors set forth in Section 5.4 assuming the Participant would have otherwise begun to receive their benefit upon attainment of age 55 or current age, if older, then further reduced using the "applicable mortality table" under section 417(e)(3) of the Code and the "applicable interest rate" under section 417(e)(3) of the Code for the third calendar month preceding the calendar year during which the Annuity Starting Date occurs to the extent their Annuity Starting Date precedes their Early Retirement Date.

(e) Spousal Consent. Notwithstanding anything in this Section to the contrary, any election under this Section by a married Participant of any form of distribution, other than the normal form of benefit payable to them under Section 5.8, shall be subject to the spousal consent and notification requirements described in Section 6.2.

(f) Time of Distribution. Any single lump sum distributions elected under this Section must commence on November 1, 2014 or as soon as administratively feasible thereafter to cause all single lump sum distributions under this Section to occur during 2014.

(g) Closure of Limited Election Period. Notwithstanding anything to the contrary, nothing under this Section shall provide any Participant, spouse, surviving spouse or Contingent Annuitant the right to distribution in the form of a single lump sum payment that does not, for any reason whatsoever, satisfy all of the terms and conditions set forth in this Section.

ARTICLE VII.
BENEFIT PAYMENTS

Section 7.1 Purchase of Annuities. All retirement income will be provided either through (i) the purchase of annuities from, or other contractual arrangements with, an Insurance Company; or (ii) by direct payment from the Trust, as determined from time to time by the Administration Committee.

(a) In the event that a Participant, their surviving spouse, or their Contingent Annuitant is entitled to a retirement income of less than \$10 monthly, that retirement income may be paid quarterly, semi-annually, or annually, in amounts equal to 3, 6 or 12 times the monthly payment otherwise payable, respectively.

(b) Notwithstanding anything herein to the contrary, if the Actuarial Equivalent lump sum present value of a Participant's vested retirement income is \$5,000 or less on the date their distribution commences, such amount shall be paid to the Participant in a single cash lump sum without the Participant's consent as soon as administratively feasible in accordance with the following:

(i) If the Actuarial Equivalent present value of a Participant's vested retirement income is \$1,000 or less and the Participant does not elect to have such distribution paid directly to an "eligible retirement plan" in accordance with Section 7.2 of the Plan, the Participant's retirement income shall be paid directly to the Participant in a cash lump sum.

(ii) If the Actuarial Equivalent present value of a Participant's vested retirement income is more than \$1,000 but does not exceed \$5,000 and the Participant does not affirmatively elect to have such distribution paid directly to them or to an "eligible retirement plan" in accordance with Section 7.2 of the Plan, the Participant's retirement income shall be paid directly to an individual retirement account or annuity (an "IRA") established for the Participant pursuant to a written agreement between the

Administration Committee and the provider of the IRA that meets the requirements of section 401(a)(31) of the Code and the regulations thereunder. The Administration Committee shall establish and maintain procedures to inform each Participant to whom this Section 7.1(b)(ii) applies of the nature and operation of the IRA and the Participant's investments therein, the fees and expenses associated with the operation of the IRA, and the terms of the written agreement establishing such IRA on behalf of the Participant.

Section 7.2 Direct Rollovers.

(a) Eligibility. If one or more distributions from the Plan constitutes an "eligible rollover distribution" within the meaning of sections 402(c)(2) and (4) of the Code, a distributee may elect to have all or a portion (but not less than \$500) of the distribution paid directly to an "eligible retirement plan." As used herein, "eligible retirement plan" means an individual retirement account described in section 408(a) of the Code, an individual retirement annuity described in section 408(b) of the Code, an annuity plan described in Section 403(a) of the Code, an annuity contract described in section 403(b) of the Code, or a qualified trust described in section 401(a) of the Code that accepts the distributee's eligible rollover distribution. An eligible retirement plan also includes an eligible plan under section 457(b) of the Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and that agrees to account separately for amounts transferred into such plan from this Plan. For any portion of an eligible rollover distribution consisting of after-tax contributions that are not includable in gross income, an eligible retirement plan must agree to separately account for such portion. With respect to a distributee who is a non-spouse beneficiary, "eligible retirement plan" means an individual retirement account or annuity described in section 408(a) or 408(b) of the Code that is established on behalf of the designated beneficiary and that will be treated as an inherited individual retirement annuity pursuant to the provisions of section 402(c)(11) of the Code. Effective for distributions made on or after January 1, 2008, a "qualified rollover contribution" as described in section 408A(e) of the Code may be made from the Plan to a Roth IRA in a direct rollover subject to the rules and provisions set forth in section 408A(e) of the Code and any regulations issued thereunder. The recipient may not elect to have portions of an eligible rollover distribution paid directly to more than one eligible retirement plan. In addition, the recipient will not be permitted to elect a direct rollover with respect to eligible rollover distributions that are reasonably expected to total less than \$200 during the year.

(b) Procedures. The Administration Committee shall make such payment upon receipt from the recipient of the name of the eligible retirement plan to which such payment is to be made, a representation that the receiving plan is an "eligible retirement plan" as defined above, and such other information and/or documentation as the Administration Committee may reasonably require to make such payment.

(c) Failure to Elect. Except as otherwise provided under Section 7.1(b)(ii), if the recipient fails to elect whether or not a distribution is to be paid in a direct rollover, the recipient will be deemed to have elected not to have any portion of the distribution paid in a direct rollover.

(d) Application. For purposes of this Section 7.2, “distributee” means a Participant or former Participant. In addition, the Participant’s or former Participant’s surviving spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in section 414(p) of the Code, are distributees with regard to the interest of the spouse or former spouse. For distributions after June 30, 2008, the term distributee also shall include a beneficiary who is not the spouse or former spouse of the Participant or former Participant.

ARTICLE VIII.
VESTED BENEFITS IN THE EVENT OF TERMINATION OF EMPLOYMENT

Section 8.1 Vesting. A Participant whose employment is terminated for any reason other than death or retirement, and who has completed five or more Years of Service at the date of their termination of employment shall be entitled to receive a monthly retirement income beginning on their Normal Retirement Date equal to their normal retirement income under the Plan as in effect as of the date of their termination of employment, based on their full and partial Years of Service at such date of termination of employment. However, if they make written application to their Employer at least two months in advance, such a Participant shall be entitled to receive their benefit, reduced as provided in Section 5.4, beginning with the first day of any calendar month following the month in which the sum of the years of their attained age and their completed Years of Service is at least 70, provided they have then attained at least age 55. Notwithstanding the foregoing, a Participant shall automatically become 100% vested on the date they reach age 65.

Section 8.2 Payment of Vested Termination Benefit.

(a) Forms of Payment. A Participant entitled to benefits under Section 8.1, shall, for purposes of Section 6.1(a) and Section 6.3, be treated as though the date on which their benefits under Section 8.1 are to begin were their actual retirement date. Such a Participant may elect any of the elective survivor benefits provided by Section 6.4.

(b) Termination Benefit For Certain Union Employees. A union Participant hired on or after January 1, 2001 but before January 1, 2006 who terminates employment with a vested Accrued Benefit on or after January 1, 2006, may elect to receive their benefit at any time in one of the following payment forms:

(i) a single lump sum payment in an amount equal to the Actuarial Equivalent present value of the Participant’s vested Accrued Benefit which would otherwise be payable at the Participant’s Normal Retirement Date, however, if the Participant is eligible for an Early Retirement Date at the time they terminate employment, the lump sum payment will reflect the value of the early retirement subsidy; or

(ii) a single life annuity which shall be the Actuarial Equivalent value of the single lump sum described in (i) above.

Notwithstanding the foregoing, if payment to the Participant occurred later than the close of the second Plan Year following the Plan Year in which such termination of employment occurred and such Participant is reemployed by the Employer, the Participant’s Accrued Benefit shall be

restored upon reemployment without the requirement that they make restoration contributions, provided, however their subsequent Accrued Benefit, if any, payable upon their subsequent termination of employment shall be offset by the Accrued Benefit attributable to the prior distribution.

Section 8.3 Failure to Vest. A Participant whose employment is terminated for any reason other than death or retirement and who has not completed at least five Years of Service at the time of their termination of employment for any reason other than death or retirement shall not be entitled to any benefits under the Plan. Amounts forfeited under this provision shall be applied to reduce the obligation of the Company and its Designated Subsidiaries to contribute under the Plan.

ARTICLE IX.
RE-EMPLOYMENT AND BREAKS-IN-SERVICE

Section 9.1 Re-employment before July 1, 1976. If a Participant who terminated employment with the Employer is re-employed before July 1, 1976, they shall be considered a new Employee for purposes of this Plan. In determining the amount of their retirement income as a new Employee, however, if the Participant has vested retirement income benefits under Section 8.1 due to prior service, their benefit shall be computed under Section 5.2 as if their service was continuous. The benefit payable to such Participant as a new Employee shall be the excess of the benefit so computed over the benefit payable on account of that prior service, without regard to any actuarial reductions to which that prior service benefit may have been subject.

Section 9.2 Re-employment after June 30, 1976 and before July 1, 1985. If a Participant terminates employment with the Employer and is re-employed after June 30, 1976 and before July 1, 1985, all of their Years of Service shall be recognized for all purposes of the Plan unless, at the time of their return to employment, the period of their absence was at least a one-year Break-in-Service, in which event:

(a) Years of Service occurring before the Break-in-Service shall not thereafter be recognized for any purpose of the Plan unless, immediately following the Break-in-Service, they completed one Year of Service; and,

(b) if, before the Break-in-Service, the Participant had no vested retirement income benefit under Section 8.1, Years of Service before the Break-in-Service shall not thereafter be recognized for any purpose of the Plan unless the number of Years of Service before the Break-in-Service exceeds the number of consecutive years of Break-in-Service.

Section 9.3 Re-employment after June 30, 1985. If a Participant terminates employment with the Employer and is re-employed after June 30, 1985, all of their Years of Service shall be recognized for all purposes of the Plan unless, at the time of their return to employment, the period of their absence was at least five consecutive Breaks-in-Service, in which event:

(a) Years of Service occurring before those Breaks-in-Service shall not thereafter be recognized for any purpose of the Plan unless, immediately following those Breaks-in-Service, they have completed one Year of Service; and,

(b) if, before those Breaks-in-Service, the Participant had no vested retirement income benefit under Section 8.1, Years of Service before those Breaks-in-Service shall not thereafter be recognized for any purpose of the Plan unless the number of Years of Service before those Breaks-in-Service exceeds the greater of five or the number of consecutive Breaks-in-Service.

Section 9.4 General. Anything herein to the contrary notwithstanding, a Break-in-Service shall not reduce any Participant's vested retirement income benefit, determined immediately before the Break-in-Service, nor shall Section 9.2 or Section 9.3 be interpreted to restore credit for Years of Service disregarded by reason of some earlier Break(s)-in-Service.

Section 9.5 Reinstatement of Years of Service for Benefit Accrual. A Participant's Years of Service for benefit accrual attributable to a prior cash-out or lump sum payment equal to the Actuarial Equivalent present value of a Participant's Accrued Benefit, shall be restored upon reemployment of the Participant if payment was made to the Participant later than the last day of the second Plan Year following the Participant's termination from employment with the Employer. Upon subsequent termination, the Accrued Benefit payable to the Participant shall be offset by the value of the previous lump sum distribution.

ARTICLE X. VETERANS' RE-EMPLOYMENT RIGHTS

Section 10.1 Qualified Military Service. Notwithstanding any provision of the Plan to the contrary, contributions, benefits and service credit with respect to Qualified Military Service will be provided in accordance with section 414(u) of the Code as summarized below:

(a) Crediting Service.

(i) An Employee re-employed by the Employer in accordance with Chapter 43 of Title 38 of the United States Code shall be treated as not having incurred a Break-in-Service with the Employer by reason of such Employee's period of Qualified Military Service.

(ii) Upon re-employment by the Employer in accordance with Chapter 43 of Title 38 of the United States Code, an Employee's period of Qualified Military Service shall be deemed service with the Employer for purposes of determining the vested percentage of the Employee's account.

(b) Earnings. An Employee who is in Qualified Military Service shall be treated as receiving Earnings from the Employer during such period of Qualified Military Service equal to:

(i) the Earnings the Employee would have received during such period if the Employee were not in Qualified Military Service, determined based on the rate of pay the Employee would have received from the Employer but for absence during the period of Qualified Military Service; or

(ii) if the Earnings the Employee would have received during such period was not reasonably certain, the Employee's average Earnings from the Employer during the 12-month period immediately preceding the Qualified Military Service (or, if shorter, the period of employment immediately preceding the Qualified Military Service).

Section 10.2 Death While In Qualified Military Service. Effective for deaths occurring on or after January 1, 2007, to the extent required by section 401(a)(37) of the Code and regulations or other guidance issued thereunder, the survivors of a Participant who dies while performing qualified military service (as defined in section 414(u) of the Code) shall be eligible for any additional benefits (other than benefit accruals relating to the period of qualified military service) that would have been provided under the Plan if the Participant had resumed employment and immediately thereafter terminated employment due to death.

ARTICLE XI PLAN ADMINISTRATION

Section 11.1 Administration Committee. The Plan shall be administered by the Administration Committee, which shall be a "named fiduciary" of the Plan and the Plan's "administrator," as those terms are defined by ERISA, and its agent designated to receive service of process. All matters relating to the administration of the Plan, including the duties imposed upon the Plan administrator by law, except those duties relating to the control or management of Plan assets, shall be the responsibility of the Administration Committee. No member of the Administration Committee shall act on any matter in which they alone are personally interested under the Plan. Except as may otherwise be provided by the Plan, the Administration Committee shall have all powers necessary or appropriate to administer and manage the Plan (except those authorities relating to the control or management of Plan assets) including, but not by way of limitation, the following:

(a) To interpret the provisions of the Plan and to decide any dispute that may arise regarding the rights of Participants thereunder. Any such determinations shall apply uniformly to all persons similarly situated and shall be binding and conclusive upon all interested persons.

(b) To determine all questions affecting the eligibility of any Employee to participate in the Plan, including, without limitation, to determine whether any individual performing services as an independent contractor is an Employee eligible to participate in the Plan and, if so, for what period.

(c) To compute the amount of benefits payable hereunder to any Participant.

(d) To authorize the application of funds to provide the retirement income benefits of Participants, surviving spouses and Contingent Annuityants.

(e) To appoint an actuary who shall make all actuarial computations required in the administration of the Plan, including those necessary to enable the Company and its Designated subsidiaries to comply with the provisions of Section 12.1.

(f) To employ such accountants, attorneys, consultants and other advisors as may be necessary or appropriate to the administration of the Plan and to delegate authority to such one or more members of the Administration Committee or such other Employee of an appropriate Employer as the Administration Committee shall determine.

(g) To prescribe from time to time, with the advice of an actuary, such actuarial assumptions as are necessary for the operation of the Plan. The factors and assumptions embodied in Tables 1 through 5 may be changed only by Plan amendment pursuant to Section 16.1(a).

(h) To authorize an amendment to the Plan extending the Plan to a group or groups of acquired employees in accordance with the terms and conditions set forth in any acquisition agreement previously approved by the Board of Directors, provided that no service shall be credited for benefit accrual purposes prior to the date on which the Plan is extended by the Company to the group or groups of acquired employees, except as specifically provided in the agreement approved by the Board of Directors.

Section 11.2 Investment Committee. All matters relating to the control and management of Plan assets shall, except to the extent delegated, be the responsibility of the Investment Committee. By way of example and not limitation, the Investment Committee shall perform the duties or assume the responsibilities listed below with respect to the Plan: (a) have the authority to select, appoint, retain or terminate service providers (e.g., trustees, custodians, investment managers and advisors, consultants); (b) enter into contracts or agreements with service providers; (c) establish formal criteria to select and monitor the performance of service providers; and (d) establish investment policies with respect to the funds supporting the Plan.

Section 11.3 Delegation and Allocation of Responsibility. Each of the Administration Committee and the Investment Committee may delegate their respective responsibilities to any individual and may allocate any of its responsibilities to one or more members of the Administration Committee or Investment Committee, as applicable. Persons to whom responsibilities have been delegated may not delegate to others any discretionary authority or discretionary control with respect to the management or administration of the Plan.

Section 11.4 Indemnification. The Company and Designated Subsidiaries shall, to the full extent permitted by law, indemnify and hold harmless each member of the Administration Committee and Investment Committee and each other director, officer or employee of the Company or of a Designated Subsidiary acting as a “fiduciary” of the Plan, as defined in section 3(21) of ERISA or any corresponding provisions of successor laws, against any liability or loss, including, without limitation, attorneys’ fees and other expenses, excise taxes, judgments, fines and amounts paid in settlement, reasonably incurred by such “fiduciary” in connection with any claim (or actions or proceedings in respect thereof) arising out of or based upon an alleged breach of fiduciary duty, provided that they acted in good faith and in a manner they reasonably believed to be in, or not opposed to, the best interests of the Plan and, with respect to any criminal proceeding, had no reasonable cause to believe their conduct was unlawful, and further

provided that the “fiduciary” shall have taken the steps required under any applicable insurance policy to preserve the coverage afforded by such insurance with respect to such liability or loss. If any action is brought against a “fiduciary” in respect of which indemnity may be sought against the Company or a Designated Subsidiary, they shall promptly notify the Company in writing of the institution of such action, and the Company shall assume the defense of such action, including the employment of counsel and payment of expenses, to the extent that the same is not assumed by the insurance company. The “fiduciary” shall bear the fees and expenses of any additional counsel retained by them.

Section 11.5 Claims Procedure. The Administration Committee shall administer a claims procedure as follows:

(a) Initial Claim. A Participant, surviving spouse or Contingent Annuitant (a “Claimant”), or the Claimant’s authorized representative, who believes themselves entitled to benefits under the Plan and who does not begin to receive those benefits within 120 days after the claimed benefit date may claim those benefits by submitting to their Employer within 90 days after the expiration of that 120-day period, a written notification of their claim of right to such benefits. A claim for benefits must be made in accordance with the procedures established by the Administration Committee. Except for benefits paid pursuant to the small benefit cash out provisions of Section 7.1, no benefit shall be paid under the Plan until a proper claim for benefits has been submitted to the Administration Committee. The Participant’s Employer shall forward that claim to the Administration Committee within five business days after it is filed.

(b) Procedure for Review. The Administration Committee shall establish administrative processes and safeguards designed to ensure and to verify that benefit claim determinations are made in accordance with the Plan document and that, where appropriate, the Plan provisions have been applied consistently with respect to similarly situated claimants.

(c) Claim Denial Procedure. In the event that the initial claim is wholly or partially denied, the Administration Committee shall, within 90 days (or in special cases, and upon prior written notice to the claimant, 180 days) of the receipt of the claim, provide written notice informing the Claimant of: (i) the reason or reasons for the denial, (ii) the specific reference to the Plan provisions on which the denial was based, (iii) any additional information which may be necessary to perfect the claim, with reasons therefor, and (iv) the procedure for reviewing the denial of the claim, including a description of the time limits applicable to the Plan’s review procedures and a statement of the Claimant’s right to bring a legal action following an adverse benefit determination on review.

(d) Appeal Procedure. In the case of an adverse benefit determination, the Claimant or their representative shall have the opportunity to appeal to the Administration Committee for review provided the Claimant submits a proper written application for appeal within 90 days of receipt of the notification of the adverse benefit determination. Failure to submit a proper application for appeal within such 90-day period will cause such

claim to be permanently denied. The Claimant shall have a right to: (i) review all pertinent documents and submit comments in writing, and (ii) receive, upon request and free of charge, reasonable access to, and copies of, all documents, records and other information relevant to the claim for benefits. The Administration Committee's review shall take into account all comments, documents, records and other information submitted by the Claimant relating to the claim, without regard to whether such information was submitted or considered in the initial benefit determination.

(e) Decision on Appeal. No later than 60 days after its receipt of the request for review, the Administration Committee shall render a decision in writing. If special circumstances require extension, and upon prior written notice to the claimant, the Administration Committee's decision may be given within 120 days after receipt of the request for review. In the case of an adverse benefit determination on appeal, the written notice shall include: (i) the specific reason or reasons for the adverse determination, (ii) the specific reference to the Plan provision(s) on which the denial is based, (iii) a statement that the Claimant is entitled to receive, upon request and free of charge, reasonable access to and copies of all documents, records and other information relevant to the claim, and (iv) a statement of the Claimant's right to bring a legal action.

(f) Litigation. In order to operate and administer the claims procedure in a timely and efficient manner, any Claimant whose appeal with respect to a claim for benefits has been denied, and who desires to commence a legal action with respect to such claim, must commence such action in a court of competent jurisdiction within 90 days of receipt of notification of such denial. Failure to file such action by the prescribed time will forever bar the commencement of such actions.

Section 11.6 Plan Expenses. All fees of actuaries, accountants, attorneys, consultants or other advisors, and other expenses of the Plan, shall, as determined by the Administration Committee, be paid from the Fund or allocated among the Company and its Designated Subsidiaries.

ARTICLE XII. CONTRIBUTIONS

Section 12.1 Contributions.

(a) Contributions to Meet Funding Standards. The Company and its Designated Subsidiaries, shall each contribute to the Plan, by deposit with the Insurance Company or with the Trustee or other fiduciary of any trust or other fund which may be established by the Company to hold, manage and invest amounts contributed under the Plan by the Company or its Designated Subsidiaries, an amount which shall not be less than the amount necessary to prevent an accumulated funding deficiency, as defined in section 412 of the Code, section 302 of ERISA, or corresponding provisions of successor laws, with respect to those of its Employees who are Participants in the Plan.

(b) Special Rule; Return of Contributions. It is intended that the Plan and the Fund shall continue to qualify under section 401(a) of the Code and that contributions are conditioned upon their deductibility under section 404 of the Code. Therefore, Section 12.1 shall be subject to the following provisions:

(i) The entire contribution attributable to any Plan Year as to which deductibility is disallowed shall be returned to the Employer, to the extent of the amount of the disallowance, within one year after the disallowance. Nondeductible contributions that are treated as *de minimis* pursuant to Revenue Procedure 90-49 shall be returned to the Employer within one year of the date of the Plan actuary's certification of such non-deductibility.

(ii) In the case of a contribution which is made in whole or in part by reason of a mistake of fact, so much of such contribution as is attributable to the mistake of fact shall be returnable to the Employer upon demand by the Administration Committee, upon presentation of evidence of the mistake of fact to the Insurance Company and of calculations as to the impact of such mistake. Demand and repayment must be effectuated within one year after the payment of the contribution to which the mistake applies.

Income and gains attributable to the excess contributions may not be recovered by the Employer. Losses attributable to such contributions shall reduce the amount the Employer may recover.

Section 12.2 Management of Funds. All funds to provide the benefits of the Plan shall be deposited with the Insurance Company or the Trustee to be held, managed and disposed of in accordance with the terms of the Insurance Contract, the Trust Agreement or any agreement with any Investment Manager. At no time and under no circumstances may the funds or any part thereof or income therefrom prior to the satisfaction of all liabilities for benefits under the Plan be used for or diverted to purposes other than the exclusive benefit of Participants, surviving spouses or Contingent Annuitants under the Plan. No one shall have any interest in or right to any part of the assets or the earnings of the funds, except as and to the extent expressly provided in the Plan.

ARTICLE XIII.
MISCELLANEOUS

Section 13.1 Liability of the Company. The Company and its Designated Subsidiaries shall have no liability for the payment of benefits under the Plan, except to make the contributions required under Section 12.1, nor shall the Company or any Designated Subsidiary have any liability for the administration of the funds or assets paid over to the Insurance Company, the Trustee or any Investment Manager, and each Participant, surviving spouse and Contingent Annuitant shall look solely to the Insurance Company, or Trustee for any payments or benefits under the Plan.

Section 13.2 Non-Alienation of Benefits. No benefits payable under the Plan shall be subject in any manner to anticipation, assignment or pledge and any attempt to anticipate, assign or pledge the same shall be void; and no such benefit shall be in any manner liable for or subject to the debts, contracts, liabilities, engagements or torts of any Participant, surviving spouse or Contingent Annuitant. This Section 13.2 shall not preclude the Insurance Company or the Trustee from complying with the terms of a qualified domestic relations order as defined in section 414(p) of the Code, or applicable provisions of successor laws.

Section 13.3 Facility of Payment. If any Participant, surviving spouse or Contingent Annuitant is, in the judgment of either the Insurance Company or the Trustee, legally, physically or mentally incapable of personally receiving or receipting for any benefit due hereunder, the Insurance Company or the Trustee may make payment thereof to such other person, persons or institutions who, in the opinion of the Insurance Company or Trustee, are then maintaining or have custody of such Participant, surviving spouse or Contingent Annuitant until claim is made by the duly appointed guardian or other legal representative of such Participant, surviving spouse or Contingent Annuitant. Such payment shall constitute a full discharge of the liability of the Insurance Company or Trustee, to the extent thereof. Upon notice to the Insurance Company or Trustee of the appointment of a guardian or other legal representative of such Participant, surviving spouse or Contingent Annuitant, the Insurance Company or Trustee shall thereafter pay only to said guardian or other legal representative.

Section 13.4 Limitation on Benefits. Notwithstanding any other provisions of this Plan, the annual benefit, derived from Company, Designated Subsidiary or former Designated Subsidiary contributions, payable to any Participant under this Plan and any other defined benefit pension plan maintained by the Company or any Designated Subsidiary may not exceed the lesser of the amount determined under the primary limit or, effective until January 1, 2000, the combined limit provisions of Article C of Appendix 2, provided that in applying the combined limit any necessary reduction shall first be made in computing the benefit to be provided under this Plan.

Section 13.5 Right to Terminate Employment. The establishment or continuance of the Plan and of any Insurance Contract, Trust, or any contract with any Investment Manager, shall not confer upon any Participant the right to be continued in the employ of the Company or of any Designated Subsidiary and this Plan shall in no way restrict the right of the Company or of a Designated Subsidiary to terminate the employment of any employee, whether or not a Participant.

ARTICLE XIV.
TERMINATION OF THE PLAN - DISTRIBUTION OF ASSETS

Section 14.1 Order of Priorities. The Plan as a whole may be terminated at any time by the Board of Directors. In the event of such complete termination, or if for any reason the Plan is partially terminated the Accrued Benefits of all Participants affected by such complete or partial termination shall, to the extent then funded, become 100% vested. In the event of a complete or partial termination of the Plan, or upon a complete discontinuance of contributions required by Section 12.1, funds then held under the Plan for the benefit of affected Participants, surviving spouse and Contingent Annuitants shall be allocated to or for the benefit of the affected Participants, surviving spouse and Contingent Annuitants in the order set forth below and in the manner and amount provided in Sections 14.2 through 14.3.

(a) There shall first be credited to each Participant the amount, if any, necessary to provide that portion of their benefit derived from their own contributions.

(b) There shall then be credited to each Participant, surviving spouse and Contingent Annuitant whose benefit has been in pay status for at least three years as of the Plan's termination date, or whose benefit would have been in pay status during such period if the Participant had retired, and their benefit had begun immediately prior thereto, the amount, if any, necessary to provide the lowest level of benefit to which they were, or would have been, entitled under the provisions of the Plan in effect during the five-year period ending on the Plan's termination date.

(c) There shall then be credited to each Participant, surviving spouse and Contingent Annuitant whose vested Accrued Benefit has not been fully provided under (a) or (b) above, the amount, if any, necessary to provide that portion of their vested Accrued Benefit, determined immediately prior to the Plan's termination, which does not exceed the lesser of:

(i) a monthly annuity equal to the Participant's average monthly gross income during the five consecutive calendar years during which their gross income received from the Company was highest; or

(ii) \$750 multiplied by a percentage computed by dividing the Social Security Act contribution and benefit base at the time the Plan terminates by that base as in effect during 1974.

The amount allocated under this Section 14.1(c) shall be determined without regard to whether the Participant would be considered a "substantial owner" within the meaning of section 4022(b)(6) of ERISA, or any corresponding provisions of successor laws.

(d) There shall then be credited to each Participant, surviving spouse and Contingent Annuitant whose benefit has not been provided under (a) or (b) above, the amount, if any, necessary to provide the portion of their vested Accrued Benefit, determined immediately prior to the Plan's termination, not provided under (c) above. If the Plan has been amended during that five-year period, the allocation of assets to benefits described in (d) which are attributable to such amendments shall be made on the basis of such amendments in the order in which they became effective.

(e) Finally, there shall be credited to each Participant, surviving spouse and Contingent Annuitant the amount, if any, necessary to provide any benefit to which they are entitled under the Plan to the extent such benefit has not been provided above.

(f) If the assets of the Plan are insufficient to provide in full the benefits described in (a), (b) or (c) above, the assets shall be allocated pro rata among all Participants, surviving spouses and Contingent Annuitants in the affected group on the basis of the present value, as of the Plan's termination date, of their respective benefits. If the assets of the Plan are insufficient to provide all benefits described in (d) (after all benefits described in (a) through (c) have been provided) those assets will first be allocated to any nonforfeitable benefits described in (d) under the Plan as in effect five years prior to the termination date, and thereafter to other benefits described in (d).

Section 14.2 Method of Allocation. The allocation of funds held under the Plan shall, with the advice of the actuary, be calculated by the Investment Committee on the foregoing basis as of the date on which the Plan is discontinued or contributions are completely discontinued. When the calculations have been completed, and the Company shall have obtained such governmental approvals of the allocation of Plan assets, including approval by the Pension Benefit Guaranty Corporation, as the Investment Committee may determine to be necessary, such funds shall be allocated to or for the benefit of the respective Participants, surviving spouses and Contingent Annuitants of each class in the order, and to the extent, stated in Section 14.1 above, except that (a) no Participant, surviving spouse or Contingent Annuitant shall be entitled to a share of any such funds greater than the actuarial value, at the date of such discontinuance of the Plan or contributions, of the total retirement income to which such Participant, surviving spouse or Contingent Annuitant would have been entitled under the Plan at the Participant's Normal Retirement Date pursuant to Sections 5.2, 5.6, and 5.7 had the Plan or contributions not been discontinued and had such Participant continued in employment until their Normal Retirement Date without change in Final Average Earnings, and (b) except to the extent required to comply with Title IV of ERISA, or any corresponding provisions of any successor laws, no assets previously allocated to the benefit of any Participant, surviving spouse or Contingent Annuitant shall be reallocated. The Investment Committee shall have the right to determine whether the distribution shall be applied to purchase retirement income under any Insurance Contract or paid in cash. Any assets remaining after the distributions described in this Section 14.2 have been completed shall be allocated among, and returned to, the Company and its Designated Subsidiaries on the basis determined by the Investment Committee, with the advice of the actuary.

Section 14.3 Restricted Benefits.

(a) In the event of termination of the Plan, the benefit due any Participant or former Participant who is one of the 25 highest paid Participants shall be restricted in the manner set forth in this Section 14.3(a).

(i) Benefit Restriction. The annual payments to a Participant described above in this Section 14.3(a) shall be restricted to an amount equal to the payments that would be made on behalf of such Participant under a single life annuity that is the Actuarial Equivalent of the sum of the Participant's Accrued Benefit and the Participant's other benefits, as described below.

(ii) Definition of "Benefits". For purposes of this Section 14.3(a), the term "benefits" shall include loans in excess of the amounts set forth in section 72(p)(2)(A) of the Code, any periodic income, any withdrawal values payable to a living Participant, and any death benefits not provided for by insurance on the Participant's life.

(iii) Restrictions Not Applicable. The restrictions described in this Section 14.3(a) shall not apply if:

(A) after payment to a Participant described in this Section 14.3(a) of all benefits described in Section 14.3(a)(ii), the value of the Plan assets equals or exceeds 110% of the value of the current liabilities as defined in section 412(1)(7) of the Code for Plan Years beginning prior to January 1, 2008, and for Plan Years beginning on or after January 1, 2008, the funding target (as defined under section 430 of the Code), or

(B) the value of the benefits described in Section 14.3(a)(ii) for a Participant described in this Section 14.3(a) is less than 1% of the value of current liabilities.

(b) Any excess reserves arising by application of the provisions of Section 14.3(a), shall be used for the benefit of the other Participants, surviving spouses and Contingent Annuitants in accordance with Section 14.1.

(c) The provisions of Section 14.3(a) shall not restrict the purchase in full of retirement income benefits, including vested deferred benefits, called for by the Plan for any retired Participant, surviving spouse or Contingent Annuitant while the Plan is in full effect and its full current costs have been met; nor shall it restrict the purchase of any retirement income benefits withheld for a prior year (under the foregoing provisions) after all deficits for all prior years and full current costs have been met.

Section 14.4 Severance of a Subsidiary. If at any time any Designated Subsidiary ceases to be a Subsidiary or a Designated Subsidiary prior to termination of the Plan, the Employees of that Subsidiary shall then cease to be Participants in the Plan, and shall accrue no further benefits hereunder.

ARTICLE XV.
GOVERNMENTAL APPROVAL

Anything in this Plan to the contrary notwithstanding, the adoption of the Plan and any amendment thereto shall be conditioned upon the receipt of (A) a determination from the Commissioner of Internal Revenue to the effect that the Plan qualifies under the applicable provisions of the Code and (B) any required approval or authorization under any other applicable statute or regulation. Effective February 1, 2017, the Internal Revenue Service has discontinued the determination letter application program such that (A) shall no longer apply.

ARTICLE XVI.
AMENDMENTS

Section 16.1 Amendment.

(a) The Company and its Designated Subsidiaries hope and expect to continue the Plan indefinitely, but reserve the right to suspend or discontinue the Plan, or to reduce or discontinue contributions hereunder. The Plan may be amended at any time and from time to time by the Board of Directors or its properly authorized delegate. In addition, the Administration Committee shall have the right to amend this Plan in whole or in part at any time and from time to time, provided that any such amendment is administrative in nature, required by law, or does not materially increase the cost of the Plan to the Company, as determined by the Company's Treasurer in consultation with the Company's Chief Financial Officer. No amendment shall divest any vested interest of any Participant or beneficiary, and no amendment shall be effective unless the Plan continues to be for the exclusive benefit of the Participants and

their beneficiaries. In addition, no amendment shall decrease a Participant's vested interest, eliminate or reduce any benefit subsidy or early retirement benefit, or eliminate any optional form of benefit except in accordance with sections 411(d)(6) and 412(d)(2) (section 412(c)(8) for Plan Years beginning before July 1, 2008) of the Code.

(b) Notwithstanding the foregoing Section 16.1(a), any modification or amendment of the Plan, the Insurance Contract, any trust or other fund established under the Plan, or any provision thereof, may be made, retroactively if necessary, which the Company by action of the Board of Directors or its designee shall deem necessary or appropriate in order to comply with any applicable statute or regulations, including but not limited to the Code and the regulations thereunder.

Section 16.2 Merger, Consolidation or Transfer of Assets or Liabilities. The Company and its Designated Subsidiaries also reserve the right to merge or consolidate this Plan with any other pension plan qualified under applicable provisions of the Code, or to transfer any or all Plan assets or liabilities to any other pension plan qualified under applicable provisions of the Code, provided that, notwithstanding this Section 16.2, no such merger, consolidation or transfer of Plan assets or liabilities shall occur unless the benefit to which each affected Participant, surviving spouse or Contingent Annuitant would be entitled in the event of a plan termination immediately after such merger, consolidation or transfer will be at least equal to the benefit to which such Participant, surviving spouse or Contingent Annuitant would be entitled under this Plan if it terminated immediately prior to such merger, consolidation or transfer.

ARTICLE XVII.

LIMITATIONS APPLICABLE IF THE PLAN'S ADJUSTED FUNDING TARGET ATTAINMENT PERCENTAGE IS LESS THAN 80% OR IF THE PLAN SPONSOR IS IN BANKRUPTCY

Section 17.1 Limitations Applicable If the Plan's Adjusted Funding Target Attainment Percentage Is Less Than 80%, But Not Less Than 60%. Notwithstanding any other provisions of the Plan, if the Plan's adjusted funding target attainment percentage for a Plan Year is less than 80% (or would be less than 80% to the extent described in Section 17.1(b) below) but is not less than 60%, then the limitations set forth in this Section 17.1 apply.

(a) 50% Limitation on Single Sum Payments, Other Accelerated Forms of Distribution, and Other Prohibited Payments. A Participant or beneficiary is not permitted to elect, and the Plan shall not pay, a single sum payment or other optional form of benefit that includes a prohibited payment with an annuity starting date on or after the applicable section 436 measurement date, and the Plan shall not make any payment for the purchase of an irrevocable commitment from an insurer to pay benefits or any other payment or transfer that is a prohibited payment, unless the present value of the portion of the benefit that is being paid in a prohibited payment does not exceed the lesser of:

(i) 50% of the present value of the benefit payable in the optional form of benefit that includes the prohibited payment; or

(ii) 100% of the PBGC maximum benefit guarantee amount (as defined in section 1.436-1(d)(3)(iii)(C) of the Treasury Regulations).

The limitation set forth in this Section 17.1(a) does not apply to any payment of a benefit which under section 411(a)(11) of the Code may be immediately distributed without the consent of the Participant. If an optional form of benefit that is otherwise available under the terms of the Plan is not available to a Participant or beneficiary as of the annuity starting date because of the application of the requirements of this Section 17.1(a), the Participant or beneficiary is permitted to elect to bifurcate the benefit into unrestricted and restricted portions (as described in section 1.436-1(d)(3)(iii)(D) of the Treasury Regulations). The Participant or beneficiary may also elect any other optional form of benefit otherwise available under the Plan at that annuity starting date that would satisfy the 50%/PBGC maximum benefit guarantee amount limitation described in this Section 17.1(a), or may elect to defer the benefit in accordance with any general right to defer commencement of benefits under the Plan.

During a period when Section 17.1(a) applies to the Plan, Participants and beneficiaries are permitted to elect payment in any optional form of benefit otherwise available under the Plan that provides for the current payment of the unrestricted portion of the benefit (as described in section 1.436-1(d)(3)(iii)(D) of the Treasury Regulations), with a delayed commencement for the restricted portion of the benefit (subject to other applicable qualification requirements, such as sections 411(a)(11) and 401(a)(9) of the Code).

(b) Plan Amendments Increasing Liability for Benefits. No amendment to the Plan that has the effect of increasing liabilities of the Plan by reason of increases in benefits, establishment of new benefits, changing the rate of benefit accrual, or changing the rate at which benefits become nonforfeitable shall take effect in a Plan Year if the adjusted funding target attainment percentage for the Plan Year is:

(i) Less than 80%; or

(ii) 80% or more, but would be less than 80% if the benefits attributable to the amendment were taken into account in determining the adjusted funding target attainment percentage.

The limitation set forth in this Section 17.1(b) does not apply to any amendment to the Plan that provides a benefit increase under a Plan formula that is not based on compensation, provided that the rate of such increase does not exceed the contemporaneous rate of increase in the average wages of Participants covered by the amendment.

Section 17.2 Limitations Applicable If the Plan's Adjusted Funding Target Attainment Percentage Is Less Than 60%. Notwithstanding any other provisions of the Plan, if the Plan's adjusted funding target attainment percentage for a Plan Year is less than 60% (or would be less than 60% to the extent described in Section 17.2(b) below), then the limitations in this Section 17.2 apply.

(a) Single Sums, Other Accelerated Forms of Distribution, and Other Prohibited Payments Not Permitted. A Participant or beneficiary is not permitted to elect, and the Plan shall not pay, a single sum payment or other optional form of benefit that includes a prohibited payment with an annuity starting date on or after the applicable section 436 measurement date, and the Plan shall not make any payment for the purchase of an irrevocable commitment from an insurer to pay benefits or any other payment or transfer that is a prohibited payment. The limitation set forth in this Section 17.2(a) does not apply to any payment of a benefit which under Section 411(a)(11) of the Code may be immediately distributed without the consent of the Participant.

(b) Shutdown Benefits and Other Unpredictable Contingent Event Benefits Not Permitted to Be Paid. An unpredictable contingent event benefit with respect to an unpredictable contingent event occurring during a Plan Year shall not be paid if the adjusted funding target attainment percentage for the Plan Year is:

(i) Less than 60%; or

(ii) 60% or more, but would be less than 60% if the adjusted funding target attainment percentage were redetermined applying an actuarial assumption that the likelihood of occurrence of the unpredictable contingent event during the Plan Year is 100%.

(c) Benefit Accruals Frozen. Benefit accruals under the Plan shall cease as of the applicable section 436 measurement date. In addition, if the Plan is required to cease benefit accruals under this Section 17.2(c), then the Plan is not permitted to be amended in a manner that would increase the liabilities of the Plan by reason of an increase in benefits or establishment of new benefits.

Section 17.3 Limitations Applicable If the Plan Sponsor Is In Bankruptcy. Notwithstanding any other provisions of the Plan, a Participant or beneficiary is not permitted to elect, and the Plan shall not pay, a single sum payment or other optional form of benefit that includes a prohibited payment with an annuity starting date that occurs during any period in which the Plan sponsor is a debtor in a case under title 11, United States Code, or similar Federal or State law, except for payments made within a Plan Year with an annuity starting date that occurs on or after the date on which the Plan's enrolled actuary certifies that the Plan's adjusted funding target attainment percentage for that Plan Year is not less than 100%. In addition, during such period in which the Plan sponsor is a debtor, the Plan shall not make any payment for the purchase of an irrevocable commitment from an insurer to pay benefits or any other payment or transfer that is a prohibited payment, except for payments that occur on a date within a Plan Year that is on or after the date on which the Plan's enrolled actuary certifies that the Plan's adjusted funding target attainment percentage for that Plan Year is not less than 100%. The limitation set forth in this Section 17.3 does not apply to any payment of a benefit which under section 411(a)(11) of the Code may be immediately distributed without the consent of the Participant.

Section 17.4 Provisions Applicable After Limitations Cease to Apply.

(a) Resumption of Prohibited Payments. If a limitation on prohibited payments under Section 17.1(a), Section 17.2(a), or Section 17.3 applied to the Plan as of a section 436 measurement date, but that limit no longer applies to the Plan as of a later section 436 measurement date, then that limitation does not apply to benefits with annuity starting dates that are on or after that later section 436 measurement date.

In addition, after the section 436 measurement date on which the limitation on prohibited payments under Section 17.1(a) or 17.2(a) ceases to apply to the Plan, any Participant or beneficiary who had an annuity starting date within the period during which that limitation applied to the Plan is permitted to make a new election (within 90 days after the section 436 measurement date on which the limit ceases to apply or, if later, 30 days after receiving notice of the right to make such election) under which the form of benefit previously elected is modified at a new annuity starting date to be changed to a single sum payment for the remaining value of the Participant or beneficiary's benefit under the Plan, subject to the other rules in this Article XVII and applicable requirements of section 401(a) the Code, including spousal consent.

(b) Resumption of Benefit Accruals. If a limitation on benefit accruals under Section 17.2(c) applied to the Plan as of a section 436 measurement date, but that limitation no longer applies to the Plan as of a later section 436 measurement date, then benefit accruals shall resume prospectively and that limitation does not apply to benefit accruals that are based on service on or after that later section 436 measurement date, except as otherwise provided under the Plan. The Plan shall comply with the rules relating to partial years of participation and the prohibition on double proration under Department of Labor regulation 29 CFR section 2530.204-2(c) and (d).

In addition, benefit accruals that were not permitted to accrue because of the application of Section 17.2(c) shall be restored when that limitation ceases to apply if the continuous period of the limitation was 12 months or less and the Plan's enrolled actuary certifies that the adjusted funding target attainment percentage for the Plan Year would not be less than 60% taking into account any restored benefit accruals for the prior Plan Year.

(c) Shutdown and Other Unpredictable Contingent Event Benefits. If an unpredictable contingent event benefit with respect to an unpredictable contingent event that occurs during the Plan Year is not permitted to be paid after the occurrence of the event because of the limitation of Section 17.2(b), but is permitted to be paid later in the same Plan Year (as a result of additional contributions or pursuant to the enrolled actuary's certification of the adjusted funding target attainment percentage for the Plan Year that meets the requirements of section 1.436-1(g)(5)(ii)(B) of the Treasury Regulations), then that unpredictable contingent event benefit shall be paid, retroactive to the period that benefit would have been payable under the terms of the Plan (determined without regard to Section 17.2(b)). If the unpredictable contingent event benefit does not become payable during the Plan Year in accordance with the preceding sentence, then the Plan is treated as if it does not provide for that benefit.

(d) Treatment of Plan Amendments That Do Not Take Effect. If a Plan amendment does not take effect as of the effective date of the amendment because of the limitation of Section

17.2(b) or Section 17.2(c), but is permitted to take effect later in the same Plan Year (as a result of additional contributions or pursuant to the enrolled actuary's certification of the adjusted funding target attainment percentage for the Plan Year that meets the requirements of section 1.436-1(g)(5)(ii)(C) of the Treasury Regulations), then the Plan amendment must automatically take effect as of the first day of the Plan Year (or, if later, the original effective date of the amendment). If the Plan amendment cannot take effect during the same Plan Year, then it shall be treated as if it were never adopted, unless the Plan amendment provides otherwise.

Section 17.5 Notice Requirement. See section 101(j) of ERISA for rules requiring the plan administrator of a single employer defined benefit pension plan to provide a written notice to participants and beneficiaries within 30 days after certain specified dates if the plan has become subject to a limitation described in Section 17.1(a), Section 17.2, or Section 17.3.

Section 17.6 Methods to Avoid or Terminate Benefit Limitations. See section 436(b)(2), (c)(2), (e)(2), and (f) of the Code and section 1.436-1(f) of the Treasury Regulations for rules relating to employer contributions and other methods to avoid or terminate the application of the limitations set forth in Sections 17.1 through 17.3 for a Plan Year. In general, the methods a plan sponsor may use to avoid or terminate one or more of the benefit limitations under Sections 17.1 through 17.3 for a Plan Year include employer contributions and elections to increase the amount of plan assets which are taken into account in determining the adjusted funding target attainment percentage, making an employer contribution that is specifically designated as a current year contribution that is made to avoid or terminate application of certain of the benefit limitations, or providing security to the plan.

Section 17.7 Special Rules.

(a) Rules of Operation for Periods Prior to and After Certification of Plan's Adjusted Funding Target Attainment Percentage.

(i) In General. Section 436(h) of the Code and section 1.436-1(h) of the Treasury Regulations set forth a series of presumptions that apply (1) before the Plan's enrolled actuary issues a certification of the Plan's adjusted funding target attainment percentage for the Plan Year and (2) if the Plan's enrolled actuary does not issue a certification of the Plan's adjusted funding target attainment percentage for the Plan Year before the first day of the tenth month of the Plan Year (or if the Plan's enrolled actuary issues a range certification for the Plan Year pursuant to section 1.436-1(h)(4)(ii) of the Treasury Regulations but does not issue a certification of the specific adjusted funding target attainment percentage for the Plan by the last day of the Plan Year). For any period during which a presumption under section 436(h) of the Code and section 1.436-1(h) of the Treasury Regulations applies to the Plan, the limitations under Sections 17.1 through 17.3 are applied to the Plan as if the adjusted funding target attainment percentage for the Plan Year were the presumed adjusted funding target attainment percentage determined under the rules of section 436(h) of the Code and section 1.436-1(h)(1), (2), or (3) of the Treasury Regulations. These presumptions are set forth in Section 17.7(a)(ii) through (iv).

(ii) Presumption of Continued Underfunding Beginning First Day of Plan Year. If a limitation under Section 17.1, 17.2, or 17.3 applied to the Plan on the last day of the preceding Plan Year, then, commencing on the first day of the current Plan Year and continuing until the Plan's enrolled actuary issues a certification of the adjusted funding target attainment percentage for the Plan for the current Plan Year, or, if earlier, the date Section 17.7(a)(iii) or Section 17.7(a)(iv) applies to the Plan:

(A) The adjusted funding target attainment percentage of the Plan for the current Plan Year is presumed to be the adjusted funding target attainment percentage in effect on the last day of the preceding Plan Year; and

(B) The first day of the current Plan Year is a section 436 measurement date.

(iii) Presumption of Underfunding Beginning First Day of Fourth Month. If the Plan's enrolled actuary has not issued a certification of the adjusted funding target attainment percentage for the Plan Year before the first day of the fourth month of the Plan Year and the Plan's adjusted funding target attainment percentage for the preceding Plan Year was either at least 60% but less than 70% or at least 80% but less than 90%, or is described in section 1.436-1(h)(2)(ii) of the Treasury Regulations, then, commencing on the first day of the fourth month of the current Plan Year and continuing until the Plan's enrolled actuary issues a certification of the adjusted funding target attainment percentage for the Plan for the current Plan Year, or, if earlier, the date Section 17.7(a)(iv) applies to the Plan:

(A) The adjusted funding target attainment percentage of the Plan for the current Plan Year is presumed to be the Plan's adjusted funding target attainment percentage for the preceding Plan Year reduced by 10 percentage points; and

(B) The first day of the fourth month of the current Plan Year is a section 436 measurement date.

(iv) Presumption of Underfunding On and After First Day of Tenth Month. If the Plan's enrolled actuary has not issued a certification of the adjusted funding target attainment percentage for the Plan Year before the first day of the tenth month of the Plan Year (or if the Plan's enrolled actuary has issued a range certification for the Plan Year pursuant to section 1.436-1(h)(4)(ii) of the Treasury Regulations but has not issued a certification of the specific adjusted funding target attainment percentage for the Plan by the last day of the Plan Year), then, commencing on the first day of the tenth month of the current Plan Year and continuing through the end of the Plan Year:

(A) The adjusted funding target attainment percentage of the Plan for the current Plan Year is presumed to be less than 60%; and

(B) The first day of the tenth month of the current Plan Year is a section 436 measurement date.

(b) New Plans, Plan Termination, Certain Frozen Plans, and Other Special Rules.

(i) First 5 Plan Years. The limitations in Section 17.1(b), Section 17.2(b), and Section 17.2(c) do not apply to a new plan for the first 5 plan years of the plan, determined under the rules of section 436(i) of the Code and section 1.436-1(a)(3)(i) of the Treasury Regulations.

(ii) Plan Termination. The limitations on prohibited payments in Section 17.1(a), Section 17.2(a), and Section 17.3 do not apply to prohibited payments that are made to carry out the termination of the Plan in accordance with applicable law. Any other limitations under this Section of the Plan do not cease to apply as a result of termination of the Plan.

(iii) Exception to Limitations on Prohibited Payments Under Certain Frozen Plans. The limitations on prohibited payments set forth in Sections 17.1(a), 17.2(a), and 17.3 do not apply for a Plan Year if the terms of the Plan, as in effect for the period beginning on September 1, 2005, and continuing through the end of the Plan Year, provide for no benefit accruals with respect to any Participants. This Section 17.7(b)(iii) shall cease to apply as of the date any benefits accrue under the Plan or the date on which a Plan amendment that increases benefits takes effect.

(iv) Special Rules Relating to Unpredictable Contingent Event Benefits and Plan Amendments Increasing Benefit Liability. During any period in which none of the presumptions under Section 17.7(a) apply to the Plan and the Plan's enrolled actuary has not yet issued a certification of the Plan's adjusted funding target attainment percentage for the Plan year, the limitations under Section 17.1(b) and Section 17.2(b) shall be based on the inclusive presumed adjusted funding target attainment percentage for the Plan, calculated in accordance with the rules of section 1.436-1(g)(2)(iii) of the Treasury Regulations.

(c) Special Rules Under PRA 2010.

(i) Payments Under Social Security Leveling Options. For purposes of determining whether the limitations under Section 17.1(a) or 17.2(a) apply to payments under a social security leveling option, within the meaning of section 436(j)(3)(C)(i) of the Code, the adjusted funding target attainment percentage for a Plan Year shall be determined in accordance with the "Special Rule for Certain Years" under section 436(j)(3) of the Code and any Treasury Regulations or other published guidance thereunder issued by the Internal Revenue Service.

(ii) Limitation on Benefit Accruals. For purposes of determining whether the accrual limitation under Section 17.2(c) applies to the Plan the adjusted funding target attainment percentage for a Plan Year shall be determined in accordance with the "Special Rule for Certain Years" under section 436(j)(3) of the Code (except as provided under section 203(b) of the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010, if applicable).

(d) Interpretation of Provisions. The limitations imposed by this Section of the Plan shall be interpreted and administered in accordance with section 436 of the Code and section 1.436-1 of the Treasury Regulations.

Section 17.8 Definitions. The definitions in the following Treasury Regulations apply for purposes of Sections 17.1 through 17.7: section 1.436-1(j)(1) defining adjusted funding target attainment percentage; section 1.436-1(j)(2) defining annuity starting date; section 1.436-1(j)(6) defining prohibited payment; section 1.436-1(j)(8) defining section 436 measurement date; and section 1.436-1(j)(9) defining an unpredictable contingent event and an unpredictable contingent event benefit.

Section 17.9 Effective Date. The rules in Sections 17.1 through 17.8 are effective for Plan Years beginning after December 31, 2007.

Ex. A

APPENDIX 1

INCREASE IN RETIREMENT INCOME FOR CERTAIN RETIRED PARTICIPANTS

Increase Effective October 1, 1980.

(1) Effective October 1, 1980, the monthly benefits of Participants who retired prior to January 1, 1978, and of surviving spouses and Contingent Annuitants of any such Participants who were receiving benefits under the Plan shall be increased in accordance with the provisions of Paragraph 2 of this Appendix 1.

(2) The amount of monthly benefit payable to a former or retired Participant or to their surviving spouse or Contingent Annuitant under the Plan shall be increased by 4% for each full calendar year, or fraction thereof, between the effective date of the Participant's commencement of monthly benefits and December 31, 1977, up to a maximum of 32% of such monthly benefit.

(3) Any potential benefit which may become payable to the surviving spouse or Contingent Annuitant of a Participant whose benefit is adjusted under Paragraph 2 of this Appendix 1 shall be adjusted by the same percentage as is applied in adjusting the Participant's benefit.

Increase Effective October 1, 1985.

(4) Effective October 1, 1985, the monthly benefits of Participants who retired prior to January 1, 1984 and of any surviving spouses and Contingent Annuitants who were receiving benefits under the Plan shall be increased in accordance with the provisions of Paragraph (5) of this Appendix 1. That increase shall be in addition to any increase provided under Paragraphs (1) through (3) above, but shall not apply to any benefit attributable to any plan merged into this Plan.

(5) The amount of monthly benefit payable to a former or retired Participant or to their surviving spouse or Contingent Annuitant under the Plan shall be increased by 3% for each full calendar year, or fraction thereof, between the effective date of the Participant's commencement of monthly benefits and December 31, 1983, up to a maximum of 18% of such monthly benefit.

(6) Any potential benefit which may become payable to the surviving spouse or Contingent Annuitant of a Participant whose benefit is adjusted under Paragraph (4) of this Appendix 1 shall be adjusted by the same percentage as is applied in adjusting the Participant's benefit.

APPENDIX 2

TOP-HEAVY PROVISIONS AND BENEFIT LIMITS

A. Top-Heavy Plan Definitions.

The following words and phrases as used herein have the following meanings unless a different meaning is plainly required by the context:

A.1 “Account Balance” means the sum of:

A.1.1 the present value, as of the Top-Heavy Valuation Date, of a Participant’s Accrued Benefit under the Plan, determined in the same manner as Actuarial Equivalent forms of benefit are determined under the Plan;

A.1.2 the balance, as of the Top-Heavy Valuation Date, standing to the credit of a Participant (including a surviving spouse or Contingent Annuitant of such Participant) in any Defined Contribution Plan maintained by the Employer, including contributions that would be allocated as of the Top-Heavy Valuation Date, even though these amounts are not yet required to be contributed, and any contribution attributable (A) to a plan-to-plan transfer or rollover contribution from another qualified employee pension benefit plan or a rollover individual retirement account, accepted before January 1, 1984, or (B) a related plan-to-plan transfer or rollover individual retirement account; and

A.1.3 the aggregate distributions made with respect to such Participant (including a surviving spouse or Contingent Annuitant of such Participant) under the Plan during the five-year period ending on the Determination Date. If a distribution is made in the form of an annuity contract, the amount of such distribution shall be equal to the actuarial value of the contract, determined on the date of the distribution. Benefits paid on account of death shall only be included to the extent of the present value of the decedent’s Accrued Benefit immediately prior to death.

The term “Account Balance” shall not include any amount held or distributed on behalf of any Participant who is a Former Key Employee, or who has performed no service for the Employer (other than benefits under qualified plans maintained by the Employer) at any time during the five-year period ending on the Determination Date or any amount attributable to qualified voluntary employee contributions (within the meaning of section 219(e)(2) of the Code).

A.2 “Aggregation Group” means:

A.2.1 a Required Aggregation Group, or

A.2.2 a Permissive Aggregation Group.

A.3 “Compensation” shall include all amounts that are treated as wages for Federal income tax withholding under section 3401(a) of the Code (determined without regard to any rules that limit the remuneration included in wages based on the nature or location of the employment or the services performed) and actually paid to the Participant during the Limitation Year. Notwithstanding the foregoing, for Limitation Years beginning on and after July 1, 2007, Compensation includes regular pay as described in Treas. Reg. § 1.415(c)-(2)(e)(3) if paid by the end of the Limitation Year that includes the Employee’s termination of employment, or if later, 2½ months after the Employee’s termination of employment. Any payments not described in the foregoing sentence shall not be considered Compensation if paid after separation from service,

even if they are paid by the later of 2½ months after the date of separation from service or the end of the Limitation Year that includes the date of severance from employment. Effective for distributions made on and after January 1, 2009, Compensation shall include the amount of any military differential wage payments made by the Employer to a Participant in accordance with section 3401(h) and section 414(u)(12) of the Code.

A.4 “Defined Benefit Plan” means any employee pension plan maintained by the Employer that is qualified under section 401(a) of the Code and is not a Defined Contribution Plan.

A.5 “Defined Contribution Plan” means an employee pension plan maintained by the Employer that is qualified under section 401(a) of the Code and provides for an individual account for each Participant and for benefits based solely on the amount contributed to the Participant’s account, and any income, expenses, gains and losses, and any forfeitures of accounts of other Participants that may be allocated to such Participant’s account.

A.6 “Determination Date” means:

A.6.1 if the Plan is not included in an Aggregation Group, the last day of the preceding Plan Year; or

A.6.2 if the Plan is included in an Aggregation Group, the Determination Date as determined under Section A.6.1 that falls within the same calendar year of each other plan included in such Aggregation Group.

A.7 “Employer” means the Employer as defined in Section 2.1(q) of the Plan.

A.8 “Former Key Employee” means an Employee or former Employee who is a Non-Key Employee with respect to the Plan for the Plan Year if such individual was a Key Employee with respect to the Plan for any prior Plan Year.

A.9 “Key Employee” means any Employee or former Employee (including any deceased Employee) who at any time during the Plan Year that includes the Determination Date was an officer of the Employer having annual Compensation greater than the dollar amount specified in section 416(i)(1) of the Code as in effect for the Plan Year (\$200,000 for 2023), adjusted for cost-of-living (and subject to proration in any short Plan Year), a five-percent owner of the Employer, or a one-percent owner of the Employer having annual Compensation of more than \$150,000 (subject to proration in any short Plan Year). For this purpose, annual Compensation means Compensation within the meaning of section 415(c)(3) of the Code. The determination of who is a Key Employee will be made in accordance with section 416(i)(1) of the Code and the applicable regulations and other guidance of general applicability issued thereunder.

A.10 “Non-Key Employee” means any Participant in the Plan (including a surviving spouse or Contingent Annuitant of such Participant) who is not a Key Employee with respect to the Plan for the Plan Year.

A.11 “Permissive Aggregation Group” means:

A.11.1 each plan of the Employer included in a Required Aggregation Group; and

A.11.2 each other plan of the Employer if the group of plans consisting of such plan or plans included in the Required Aggregation Group, when considered as a single plan, meets the requirements of section 401(a)(4) and section 410 of the Code.

A.12 “Required Aggregation Group” means:

A.12.1 each plan of the Employer in which a Key Employee participated (regardless of whether such plan has been terminated) during the Plan Year ending on the Determination Date; and

A.12.2 each other plan of the Employer which enables any plan described in Section A.12.1 to meet the requirements of section 401(a)(4) or section 410 of the Code, including any such plan terminated within the one-year period ending on the Determination Date.

A.13 “Top-Heavy Group” means an Aggregation Group in which, as of the Determination Date, the sum of:

A.13.1 the aggregate of the Account Balances of Key Employees under all Defined Contribution Plans included in such Aggregation Group, and

A.13.2 the aggregate of the present value of cumulative accrued benefits for Key Employees under all Defined Benefit Plans included in such Aggregation Group,

exceeds 60% of the sum of such aggregates determined for all Employees included in the Aggregation Group.

A.14 “Top-Heavy Plan” means the Plan, if as of the Determination Date:

A.14.1 the aggregate of the Account Balances of Key Employees exceeds 60% of the aggregate of the Account Balances of all Employees; or

A.14.2 the Plan is part of a Required Aggregation Group which is a Top-Heavy Group.

Notwithstanding Section A.14.1 and Section A.14.2, the Plan shall not be considered a Top-Heavy Plan for any Plan Year in which the Plan is a part of a Required Aggregation Group or a Permissive Aggregation Group which is not a Top-Heavy Group.

A.15 “Top-Heavy Valuation Date” means the Determination Date.

B. Top-Heavy Plan Provisions.

Notwithstanding anything in the Plan to the contrary, if the Plan is a Top-Heavy Plan within the meaning of Section A.14 and section 416(g) of the Code for any Plan Year beginning after December 31, 1983, then the Plan shall meet the requirements of Section B.1, Section B.2 and Section B.3 for each such Plan Year.

B.1 Minimum Vesting Requirement. The vested interest of a Participant who is credited with an Hour of Service after the Plan becomes a Top-Heavy Plan will be determined under a schedule which is not less favorable to the Participant than the following:

<u>Years of Service</u> <u>As Defined in</u> <u>Section 2.1(oo)(ii).</u>	<u>Vested Interest</u>
Less than one	0%
One but less than two	20%
Two but less than three	40%
Three but less than four	60%
Four but less than five	80%
Five or more	100%

B.2 Minimum Benefit or Contribution Requirement.

B.2.1. This Plan shall provide a minimum annual retirement benefit for each such Plan Year for each Participant who is a Non-Key Employee in an amount equal to 2% of such Participant's average Compensation for the period of consecutive years (not exceeding five) during which the Participant had the greatest aggregate Compensation from the Employer, multiplied by the Participant's Years of Service, not to exceed 10.

B.2.2 The minimum benefit or contribution shall be made for each Non-Key Employee who is employed at the end of the Plan Year in question, regardless of whether such Non-Key Employee has been credited with 1,000 Hours of Service in such Plan Year and regardless of such Non-Key Employee's level of Compensation.

B.3 Change in Top-Heavy Status. If the Plan becomes a Top-Heavy Plan and subsequently ceases to be a Top-Heavy Plan, the vesting schedule in Section B.1 shall continue to apply in determining the vested percentage of the Accrued Benefit of any Participant who had at least five Years of Service as of the last day of the last Plan Year in which the Plan was a Top-Heavy Plan. For all other Participants, the vesting schedule in Section B.1 shall apply only to their Accrued Benefit as of such last day.

B.4 Determination of Present Values and Amounts. Effective for Plan Years beginning after December 31, 2001, this Paragraph shall apply for purposes of determining the present values of Accrued Benefits and the amounts of Account Balances of Employees as of the Determination Date.

B.4.1 The present values of Accrued Benefits and the amounts of Account Balances of an Employee as of the Determination Date shall be increased by the distributions made with respect to the Employee under the Plan and any plan aggregated with the Plan under section 416(g)(2) of the Code during the one-year period ending on the Determination Date. The preceding sentence shall also apply to distributions under a terminated plan which, had it not been terminated, would have been aggregated with the Plan under section 416(g)(2)(A)(i) of the Code. In the case of a distribution made for a reason other than severance from employment, death, or disability, this provision shall be applied by substituting “five-year period” for “one-year period.”

B.4.2 The Accrued Benefits and Account Balances of any individual who has not performed services for the Employer during the one-year period ending on the Determination Date shall not be taken into account.

B.5 Minimum Benefits. Effective for Plan Years beginning after December 31, 2001, for purposes of satisfying the minimum benefit requirements of section 416(c)(1) of the Code and the Plan, in determining Years of Service with the Employer, any service with the Employer shall be disregarded to the extent that such service occurs during a Plan Year when the Plan benefits (within the meaning of section 410(b) of the Code) no Key Employee or former Key Employee.

C. Limitations on Benefits - Code Section 415 Limit.

C.1 Effective for Limitation Years ending after December 31, 2001, in no case shall the annual benefit with respect to any Participant payable under the Plan and all other Defined Benefit Plans, when expressed in the form of an annual single life annuity (with no ancillary benefits), exceed the “maximum permissible benefit” which shall be the lesser of the amount determined under Paragraph C.1.1 or C.1.2 (both adjusted where required, as provided in Paragraph C.1.3, and, if applicable, in Paragraph C.1.4 or Paragraph C.1.5):

C.1.1 the dollar limitation specified in section 415(b)(1)(A) of the Code, as in effect for the Limitation Year (\$215,000 for 2017), as adjusted, effective January 1 of each year under section 415(d) of the Code in such manner as the Secretary of the Treasury shall prescribe (the “Defined Benefit Dollar Limitation”); or

C.1.2 the greater of \$10,000 or 100% of the Participant’s average annual Compensation received during the three consecutive years of Continuous Service (years of participation in the Plan for Limitation Years beginning before January 1, 2006) with the Employer and all 50% related employers during which they receive the greatest aggregate annual Compensation. The \$10,000 restriction shall not apply if the Participant participates in any defined contribution plan maintained by the Employer, a 50% related employer or a predecessor employer. For purposes of determining the \$10,000 amount, the benefit payable to the Participant under the Plan for a Limitation Year reflects all amounts payable under the Plan for the Limitation Year (except as otherwise provided in Treas. Reg. § 1.415(d)-1) and are not adjusted for faun of benefit or commencement date.

C.1.3 If the Participant has fewer than 10 years of participation in the Plan, the Defined Benefit Dollar Limitation shall be multiplied by a fraction, (i) the numerator of which is the number of years (or part thereof) of participation in the Plan and (ii) the

denominator of which is 10. In the case of a Participant who has fewer than 10 Years of Service with the Employer, the Defined Benefit Dollar Limitation shall be multiplied by a fraction (i) the numerator of which is the number of years (or part thereof) of service with the Employer and (ii) the denominator of which is 10.

C.1.4 If the benefit of a Participant begins prior to age 62, the Defined Benefit Dollar Limitation applicable to the Participant at such earlier age is an annual benefit payable in the form of a straight life annuity beginning at the earlier age that is the Actuarial Equivalent of the Defined Benefit Dollar Limitation applicable to the Participant at age 62 (adjusted under Paragraph C.1.3 above, if required). The Defined Benefit Dollar Limitation applicable at an age prior to age 62 is determined as the lesser of (i) the Actuarial Equivalent (at such age) of the Defined Benefit Dollar Limitation computed using the interest rate provided under Section 2.1(b), or (ii) the Actuarial Equivalent (at such age) of the Defined Benefit Dollar Limitation computed using a 5 percent interest rate. Any decrease in the Defined Benefit Dollar Limitation determined in accordance with this Paragraph C.1.4 shall not reflect a mortality decrement if benefits are not forfeited upon the death of the Participant. If any benefits are forfeited upon death, the full mortality decrement is taken into account.

Effective for Limitation Years beginning on and after July 1, 2007, the defined benefit dollar limitation applicable at an age prior to age 62 is determined as the lesser of (1) the actuarial equivalent at such age of the defined benefit dollar limitation computed using a 5% interest rate and the applicable mortality table under section 417(e)(3) of the Code, or (2) the amount determined by multiplying the defined benefit dollar limitation by the ratio of the annual amount of the single life annuity beginning at such earlier age (computed using the interest rate and mortality table as applicable under Section 2.1(b)) to the annual amount of the single life annuity under the Plan commencing at age 62 (with both such amounts determined without application of the rules of section 415 of the Code).

C.1.5 If the benefit of a Participant begins after the Participant attains age 65, the Defined Benefit Dollar Limitation applicable to the Participant at the later age is the annual benefit payable in the form of a straight life annuity beginning at the later age that is Actuarially Equivalent to the Defined Benefit Dollar Limitation applicable to the Participant at age 65 (adjusted under Paragraph C.1.3 above, if required). The Actuarial Equivalent of the Defined Benefit Dollar Limitation applicable at an age after age 65 is determined as the lesser of (i) the Actuarial Equivalent (at such age) of the Defined Benefit Dollar Limitation computed using the interest rate provided under Section 2.1(b), or (ii) the Actuarial Equivalent (at such age) of the Defined Benefit Dollar Limitation computed using a 5 percent interest rate. For these purposes, mortality between age 65 and the age at which benefits commence shall be ignored.

Effective for Limitation Years beginning on and after July 1, 2007, for benefits commencing after age 65, the dollar limitation shall be determined as the lesser of (1) the actuarial equivalent at such age of the defined benefit dollar limitation computed using an interest rate of 5% and the applicable mortality table described under section 417(e)(3) of the Code, or (2) the amount determined by multiplying the defined benefit dollar limitation by the ratio of (A) the annual amount of the single life annuity beginning at such later age (computed using the interest rate and mortality assumptions for delayed retirement benefits under the Plan,

if applicable) to (B) the annual amount of the single life annuity under the Plan commencing at age 65 (computed without using the interest rate and mortality assumptions for delayed retirement benefits under the Plan, if applicable) (with both such amounts in (A) and (B) determined without application of the rules of section 415 of the Code). The amount of the annual benefit commencing at such later age is the annual amount of the benefit (determined without regard to section 415 of the Code) computed by disregarding the Participant's accruals after age 65, but including actuarial adjustments even if such adjustments are applied to offset benefit accrual.

C.1.6 Benefit increases resulting from the increase in the limitations of section 415(b) of the Code shall be provided to all Participants with benefits limited by section 415(b) of the Code who, (i) as of January 1, 2002 have commenced receipt of their benefit under the Plan; or (ii) are credited with at least one Hour of Service on or after January 1, 2002.

C.1.7 If a Participant's benefit is payable in any form other than a straight life annuity, the determination as to whether the limitation of this Paragraph C.1 has been satisfied shall be made by adjusting such benefit to the form of a straight life annuity using an interest rate equal to the greater of 5% or the interest rate provided under Section 2.1(b). However, for purposes of such adjustment, any ancillary benefit that is not directly related to retirement income benefits and that portion of any joint and survivor annuity that constitutes a Qualified Joint and Survivor Annuity shall not be taken into account. Notwithstanding the foregoing, for purposes of adjusting any form of benefit subject to the requirements of section 417(e)(3) of the Code, the interest rate used shall not be less than the greater of (i) the applicable interest rate under section 417(e)(3) of the Code for the October immediately preceding the calendar year during which the Annuity Starting Date occurs, provided that the lump sum present value for distributions made on or before October 1, 2007, shall not be less than the lump sum present value based on the applicable interest rate under section 417(e)(3) of the Code for the third calendar month preceding the calendar month in which the Annuity Starting Date occurs, or (ii) the interest rate specified in Section 2.1(b).

Notwithstanding anything herein to the contrary, for purposes of adjusting any form of benefit subject to section 417(e)(3) of the Code for Plan Years beginning in 2004 or 2005, the interest rate used shall not be less than the greater of (i) 5.5%, or (ii) the interest rate specified in Section 2.1(b).

Notwithstanding the foregoing, effective for Limitation Years beginning on and after July 1, 2007, for purposes of applying the limitations under this Article C, if a Participant's benefits are payable in a form of benefit other than a single life annuity or a qualified joint and survivor annuity, the benefit shall be limited as follows. The benefit shall be converted to a single life annuity using the interest rate and mortality assumptions specified in the Plan for the Actuarial Equivalent of the particular form of benefit payable. The single life annuity, which has been so determined, shall be compared to the single life annuity computed using a 5% interest rate assumption (or for any form of benefit subject to section 417(e)(3) of the Code, the applicable interest rate as defined in section 417(e)(3) of the Code) and the IRS mortality table prescribed in section 415(b)(2)(E)(v) of the Code). The greater of these two amounts shall be the applicable limit for the benefit payable in a form other than a single life annuity or a qualified joint and survivor annuity.

Effective as of January 1, 2006, if a Participant's benefit is payable in a form subject to section 417(e)(3) of the Code, such benefit shall be adjusted, for purposes of applying the limitations under this Article C, so that it is the greater of (1) a straight life annuity determined using the interest rate and mortality table as applicable under Section 2.1(b), (2) a straight life annuity determined using an interest rate of 5.5% and the applicable mortality table described under section 417(e)(3) of the Code, or (3) a straight life annuity determined using the interest rate that produces a benefit of not more than 105% of the benefit that would be produced using the applicable interest rate and applicable mortality table described under section 417(e)(3) of the Code.

C.2 Applicable Mortality Table for Distributions With Annuity Starting Dates on or after December 31, 2002. Notwithstanding any other Plan provisions to the contrary, the applicable mortality table used for purposes of adjusting any benefit or limitation under section 415(b)(2)(B), (C), or (D) of the Code as set forth in this Article C (unless another mortality table is either required under section 415(b) of the Code or otherwise referenced in this Article C) is the table prescribed in Rev. Rul. 2007-67 for Plan Years beginning after December 31, 2007 (Rev. Rul. 2001-62 for Plan Years beginning before January 1, 2008), or such other table as the Secretary of the Treasury may prescribe.

C.3 Definition of Compensation. For purposes of this Article C, Compensation shall include all amounts that are treated as wages for Federal income tax withholding under section 3401(a) of the Code (determined without regard to any rules that limit the remuneration included in wages based on the nature or location of the employment or the services performed) and actually paid to the Participant during the Limitation Year, plus amounts that would be paid to the Employee during the year but for the Employee's election under a cash or deferred arrangement described in section 401(k) of the Code, a cafeteria plan described in section 125 of the Code, a qualified transportation fringe benefit program described in section 132(f)(4) of the Code, a simplified employee pension described in section 402(h) of the Code or an annuity program described in section 403(b) of the Code.

Notwithstanding the foregoing, for Limitation Years beginning on and after July 1, 2007, Compensation includes regular pay as described in Treas. Reg. § 1.415(c)-(2)(e)(3) if paid by the end of the Limitation Year that includes the Employee's termination of employment, or if later, 2½ months after the Employee's termination of employment. Any payments not described in the foregoing sentence shall not be considered Compensation if paid after separation from service, even if they are paid by the later of 2½ months after the date of separation from service or the end of the Limitation Year that includes the date of severance from employment.

C.4 Application of the provisions of this Section C of this Appendix 2 in effect for Limitation Years beginning on and after July 1, 2007, shall not cause the maximum permissible benefit for any Participant to be less than the Participant's accrued benefit under all the defined benefit plans of the Employer or a predecessor employer as of the end of the last Limitation Year beginning before July 1, 2007 under provisions of the plans that were both adopted and in effect before April 5, 2007 determined in accordance with the requirements of section 415 of the Code in effect on that date.

C.5 Notwithstanding the foregoing, the Plan hereby incorporates by reference section 415 of the Code and the regulations promulgated thereunder.

APP-2-9

APPENDIX 3

SPECIAL SERVICE CREDITING RULES

A. General Rules.

A.1 Vesting and Benefit Accrual. The following special service crediting rules shall be applied in determining the earliest commencement date for service credit, for benefit accrual and vesting for employees of the following named subsidiaries which have, either by designation in accordance with Section 2.1(k) or by merger into a Designated Subsidiary become Designated Subsidiaries.

A.2 Eligibility for Early Retirement. For purposes of computing eligibility for Early Retirement in accordance with Section 4.2, Years of Service with a Subsidiary which has, after December 31, 1971, become a Designated Subsidiary, whether by designation in accordance with Section 2.1(k) or by merger into a Designated Subsidiary, shall be taken into account, but only after the Participant in question has completed 5 Years of Service after the first date upon which they were employed by a Designated Subsidiary.

A.3 Early Retirement Reduction Factors. Unless otherwise specified below, Years of Service for determining the applicable Early Retirement Reduction Factor under Table 1 shall be determined in the same manner as Years of Service for benefit accrual.

A.4 Break-in-Service Rules. These rules are subject to the Break-in-Service rules of Section 9.1 through 9.4 and are not to be construed to require the crediting of Years of Service for any purpose if those Years of Service are disregarded under the provisions of those Sections or under the applicable provisions in effect when the Participant in question sustained their first Break-in-Service.

B. Special Rules.

B.1 California-American Water Co. Service for all Employees who first became Employees by reason of the acquisition of California-American Water Co. shall begin no earlier than December 28, 1970 for purposes of vesting and benefit accrual. However, in determining eligibility for Early Retirement and in applying the Early Retirement Reduction Factors of Table 1, Years of Service with California-American Water Company before December 28, 1970 shall be taken into account. See Table 5 for Special Option Factors.

B.2 Hershey Water Company. Service for all purposes for [Employee Name Omitted] and [Employee Name Omitted], who are entitled to a nonforfeitable benefit under a pension plan maintained by HERCO, Inc. and its subsidiaries, shall begin April 19, 1977. For all other Employees who became Employees by reason of the acquisition of Hershey Water Company, service for all purposes shall begin on their date of hire by HERCO, Inc., nearest April 19, 1977, the date of acquisition of Hershey Water Company.

B.3 Norristown Water Company. Service for all purposes shall begin on such Employee's date of hire nearest January 11, 1962, the date Norristown Water Company was acquired.

B.4 Paradise Valley Water Co. Service for all purposes shall begin on such Employee's date of hire nearest December 3, 1969, the date Paradise Valley Water Co. was acquired.

B.5 Village Water Company. Service for all purposes for [Employee Name Omitted] shall begin on July 10, 1967. Service for all purposes for all others shall begin December 28, 1970.

B.6 West Virginia Water Company. Service for all Employees who first became Employees by reason of the acquisition of West Virginia Water Company shall begin, for purposes of vesting and benefit accrual, no earlier than December 1, 1970. However, in determining eligibility for Early Retirement, and in applying the Early Retirement reduction factors of Table 1, Years of Service with West Virginia Water Company shall be taken into account. See Table 5 for Special Option Factors.

B.7 Yardley Water Company. Service for all purposes for Employees who became Employees by reason of the acquisition of Yardley Water Company shall begin on December 1, 1970.

B.8 Pekin Water Works Company. Service for all purposes for [Employee Name Omitted], [Employee Name Omitted] and [Employee Name Omitted] shall begin on January 1, 1982. Service for all purposes for [Employee Name Omitted], [Employee Name Omitted] and [Employee Name Omitted] will begin on their date of hire by Pekin Water Works Company nearest the date Pekin Water Works Company was acquired. Their accrued benefits under the Pekin Water Works Company Pension Trust shall be frozen as of May 1, 1982, and the retirement income benefits earned by those Employees under this Plan reduced by the amount of that frozen benefit. Service for all purposes for Employees covered by a collective bargaining agreement entered into by Pekin Water Works Company and in effect on January 1, 1982 will commence on April 1, 1982.

B.9 Seymour Water Co. Service for benefit accrual for Employees who became Employees by reason of the acquisition of Seymour Water Co. will commence on March 16, 1982. For vesting purposes, such Employees will be given credit for service with Seymour Water Co. from their date of hire nearest March 16, 1982. See Table 5 for Special Option Factors.

B.10 New Mexico-American Water Company. Service for all Employees who first became Employees pursuant to the terms of the Asset Acquisition Agreement between Clovis Water Company and New Mexico-American Water Company shall include Years of Service with Southwestern Public Service Company for purposes of determining eligibility to participate, vesting, benefit accrual, eligibility for Early Retirement under Section 4.2, including, for purposes of satisfying the minimum service requirement thereof, eligibility for Disability Retirement under Section 4.3 and eligibility for surviving spouse benefits under Section 6.1(b), and in applying the Early Retirement Reduction Factors of Table 1.

B.11 Indiana-American Water Company, Inc. Service for benefit accrual for employees previously covered by the Indiana-American Water Company, Inc. - Plumbers and Steam-Fitters Local 157 Pension Plan (Terre Haute Bargaining Unit) (the "Terre Haute Pension Plan"), shall begin on May 11, 1987. For purposes of vesting under Section 8.1 and disability retirement under Section 4.3, service for all such employees shall include service taken into account under the Terre Haute Pension Plan. Service for all such employees for purposes of eligibility for early retirement shall include all service credited under the Terre Haute Pension Plan for purposes of determining whether any such employee's age and Years of Service total at least 70, provided that no such employee shall be entitled to early retirement under the Plan before May 11, 1992.

B.12 Brownsville Water Company. Service for all purposes under the Plan other than for benefit accrual shall begin on such Employee's date of hire by Brownsville Water Company nearest the date that that company was acquired, which was July 1, 1990. Service for benefit accrual under the Plan for such Employee shall begin July 1, 1990.

B.13 California Water Company. Service for all purposes under the Plan other than for benefit accrual shall begin on such Employee's date of hire by California Water Company nearest the date that that company was acquired, which was July 1, 1990. Service for benefit accrual under the Plan for such Employee shall begin July 1, 1990.

B.14 Certain Transferred Employees. For purposes of computing the monthly normal or late retirement income under Section 5.2 of any Employee of California-American Water Company, West Virginia Water Company, Yardley Water Company, New Mexico-American Water Company or any other Subsidiary, who had been employed by the Company or a Designated Subsidiary and who was transferred to a Subsidiary that, at the time of such transfer was not, but subsequently became, a Designated Subsidiary, that Employee's service with such Subsidiary during the period before it became a Designated Subsidiary shall be credited to the same extent as if it had been performed for the Company or a Designated Subsidiary. In addition, during that interval, such Employee shall be considered a Participant for purposes of eligibility for Early Retirement under Section 4.2 and 5.4, eligibility for Disability Retirement under Section 4.3 and 5.5, and eligibility for survivor benefits under Section 6.1 and 6.3.

B.15 Northern Michigan Water Company. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of Northern Michigan Water Company will commence on August 31, 1993, the Closing Date under the Stock Purchase Agreement dated as of January 30, 1993. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Northern Michigan Water Company shall be counted.

B.16 Ohio Suburban Water Company. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of Ohio Suburban Water Company will commence on August 31, 1993, the Closing Date under the Stock Purchase Agreement dated as of January 30, 1993. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Ohio Suburban Water Company shall be counted.

B.17 Missouri Cities Water Company. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of Missouri Cities Water Company will commence on August 31, 1993, the Closing Date under the Stock Purchase Agreement dated as of January 30, 1993. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Missouri Cities Water Company shall be counted.

B.18 Indiana Cities Water Corporation. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of Indiana Cities Water Corporation will commence on August 31, 1993, the Closing Date under the Stock Purchase Agreement dated as of January 30, 1993. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Indiana Cities Water Corporation shall be counted.

B.19 Country Place Water Co., Inc. and Country Place Water Treatment Co., Inc. (Monroe County), PA. Service for all purposes under the Plan for non-union Employees who first became Employees by reason of the acquisition of Country Place Water Co., Inc. or Country Place Water Treatment Co., Inc. will commence on June 30, 1995.

B.20 Pennsylvania Gas and Water Company. Service for all purposes under the Plan other than for benefit accrual shall begin on such Employee's date of hire by Pennsylvania Gas and Water Company nearest February 16, 1996, the closing date under the Asset Purchase Agreement by and among Pennsylvania Enterprises, Inc., Pennsylvania Gas and Water Company, American Water Works Company, Inc. and Pennsylvania-American Water Company. Service for benefit accrual under the Plan for such Employee shall begin February 16, 1996.

B.21 Hawaii American Water. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of Hawaii American Water will commence on July 1, 1998. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Hawaii American Water shall be counted.

B.22 United Water Resources, Inc.

(a) Service for benefit accrual for employees previously covered under the United Water Resources, Inc. Retirement Plan, shall begin on the following dates:

<u>Location</u>	<u>Date</u>
United Water of Indiana	February 1, 2000
United Water of West Lafayette	February 1, 2000
United Water of Virginia	February 29, 2000
United Water of Missouri	May 1, 2000
United Water of Illinois	May 31, 2000

For eligibility to participate and vesting under the Plan, service with United Water Resources, Inc. shall be counted.

(b) Service for all purposes for Employees previously covered under the United Waterworks Inc. Employees' Retirement Plan (the "United Waterworks Plan") whose terms and conditions of employment are covered by a union contract shall include all service taken into account under the United Waterworks Plan. Accrued Benefits under the Plan shall be determined on the basis of the United Waterworks Plan formula in effect on the date(s) specified in (a) above, as applicable.

B.23 City of Coatesville Authority. Service for benefit accrual purposes for Employees who first became Employees by reason of the Asset Purchase Agreement by and between the City of Coatesville Authority and American Water Works Company, Inc. will commence on March 23, 2001, the Closing Date under the Asset Purchase Agreement dated February 15, 2000 and amended on October 5, 2000. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with the City of Coatesville Authority shall be counted.

B.24 City of Florissant, MO. Service for benefit accrual for non-union Employees who first became Employees by reason of the acquisition of City of Florissant, MO will commence on November 1, 2001. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with City of Florissant, MO shall be counted.

B.25 Texas American Water Company. Service for all purposes under the Plan for Employees who first became Employees by reason of the acquisition of Texas American Water Company on November 1, 2001, will commence on July 1, 2002.

B.26 Citizens Utilities Companies. Service for benefit accrual purposes for Employees who first became Employees by reason of the Asset Purchase Agreement by and among Citizens Utilities Company and Certain of Its Affiliates and American Water Works Company, Inc. and Arizona-American Water Company will commence on January 15, 2002, the Closing Date under the Asset Purchase Agreement dated October 15, 1999. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Citizens Utilities Companies shall be counted.

B.27 City of Webster Groves, MO. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of City of Webster Groves, MO will commence on February 8, 2002. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with City of Webster Groves, MO shall be counted.

B.28 LP Water & Sewer Company (Monroe and Pike Counties), PA. Service for benefit accrual for non-union Employees who first became Employees by reason of the acquisition of LP Water & Sewer Company (Monroe and Pike Counties), PA will commence on April 3, 2002. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with LP Water & Sewer Company (Monroe and Pike Counties), PA shall be counted.

[Personal information intentionally omitted pursuant to Item 601(a)(6) of Regulation S-K]

APPENDIX 4

SPECIAL SERVICE CREDITING RULES AND BENEFIT PROVISIONS RELATING TO NEI ACQUISITION

NON-UNION EMPLOYEES.

Effective July 1, 2001, eligible non-union employees of Northwest Indiana Water Company, Northern Illinois Water Corporation, Long Island Water Corporation and St. Louis Water Company (collectively with their subsidiaries referred to as "NEI") began participation in the Plan. The following special rules apply only to the non-union employees of NEI who were hired prior to July 1, 2001.

I. NORTHWEST INDIANA WATER COMPANY

A. "Service Crediting" means all service including service with Northwest Indiana Water Company for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective June 30, 2001, non-union employees shall cease to be credited with Years of Service under the Employees' Pension Plan of Northwest Indiana Water Company ("Northwest Indiana Plan") and will commence benefit accrual service under the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries.

B. "Early Retirement Date" means the first of the month following a Participant's 55th birthday and completion of 5 or more Years of Service.

C. "Early Retirement Income" means the monthly retirement income commencing on a Participant's Early Retirement Date in an amount equal to the sum of:

(i) their normal retirement benefit as determined under Section D(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the fraction from the following schedule:

Lesser of: Years Until Age 65, or <u>Years of Vesting Service less than 30</u>	<u>Applicable Fraction</u>
10	15/30
9	16/30
8	17/30
7	18/30
6	19/30
5	20/30
4	22/30
3	24/30
2	26/30
1	28/30
0	30/30

plus

(ii) their normal retirement benefit as determined under Section D(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

D. “Normal Retirement Income”

Effective for any Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a) of the Plan, a Participant’s monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

(i) 1.667% of Final Average Earnings at retirement multiplied by Years of Service prior to July 1, 2001 as determined under the provisions of the Northwest Indiana Plan, up to a maximum of 30 years, plus

(ii) 1.60% of Final Average Earnings at retirement multiplied by Years of Service after July 1, 2001 to Normal or Late Retirement Date.

E. “Vested Benefits in the Event of Termination of Employment”

The benefit of any vested active Employee who terminates employment on or after July 1, 2001 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section 1.C above.

II. LONG ISLAND WATER CORPORATION

A. “Service Crediting” means all service including service with Long Island Water Corporation (which became part of New York American Water Company, Inc. on October 4, 2012) for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective June 30, 2001, non-union employees shall cease to be credited with Years of Service under the Long Island Water Corporation Employees Retirement Plan ("Long Island Plan") and will commence benefit accrual service under the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries.

B. "Early Retirement Income" means the monthly retirement income commencing on a Participant's Early Retirement Date in an amount equal to the sum of:

(i) their normal retirement benefit as determined under Section D(i) reduced 2% for each year (1/6% for each month) subsequent to age 62, and reduced 4% for each year (1/3% for each month) prior to age 62, by which the Participant's Early Retirement Date precedes their Normal Retirement Date, in accordance with the following table:

<u>Age at Early Retirement</u>	<u>Early Retirement Fraction</u>
65	1.00
64	.98
63	.96
62	.94
61	.90
60	.86
59	.82
58	.78
57	.74
56	.70
55	.66

plus

(ii) their normal retirement benefit as determined under Section D(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

C. "Supplemental Early Retirement Income"

In addition to the Early Retirement Income, a Supplemental Early Retirement Income, in the yearly amount of \$1,200 (\$100 per month) will be payable to the Participant, commencing on their Early Retirement Date and ceasing with the earlier of their death or their attainment of age 65, provided that:

(i) the Participant is an Employee on the date they elect an Early Retirement Date, and

(ii) the sum of the Participant's age and Years of Service equals 90 units.

The yearly amount of the Supplemental Early Retirement Income will be reduced by 5% for each unit by which the sum of the Participant's age and Years of Service is less than 90.

D. “Normal Retirement Income”

Effective for any Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a) of the Plan, a Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

- (i) 1.75% of Final Average Earnings at retirement multiplied by Years of Service prior to July 1, 2001, as determined under the Long Island Plan, plus
- (ii) 1.60% of Final Average Earnings at retirement multiplied by Years of Service after July 1, 2001 to Normal or Late Retirement Date.

In no event shall a Participant's Accrued Benefit be less than their Accrued Benefit earned under the terms of the Long Island Water Corporation Pension Plan as of June 30, 2001.

E. “Vested Benefits in the Event of Termination of Employment”

The benefit of any vested active Employee who terminates employment on or after July 1, 2001 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section II.B above.

III. ST. LOUIS COUNTY WATER COMPANY

A. “Service Crediting” means all service including service with St. Louis County Water Company for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective June 30, 2001, non-union employees shall cease to be credited with Years of Service under The St. Louis County Water Company Pension Plan and will commence benefit accrual service effective as of July 1, 2001 under the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries.

B. “Early Retirement Income” means the monthly retirement income commencing on a Participant's Early Retirement Date in an amount equal to the sum of:

- (i) their normal retirement benefit as determined under Section C(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the applicable factor from Table 4(b); plus
- (ii) their normal retirement benefit as determined under Section C(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

C. “Normal Retirement Income”

Effective for any Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a) of the Plan, a Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

(i) 1.50% of Final Average Earnings at retirement multiplied by Years of Service prior to July 1, 2001, as determined under the St. Louis Plan, plus

(ii) 1.60% of Final Average Earnings at retirement multiplied by Years of Service after July 1, 2001 to Normal or Late Retirement Date.

D. "Vested Benefits in the Event of Termination of Employment"

The benefit of any vested active Employee who terminates employment on or after July 1, 2001 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section III.B above.

IV. NORTHERN ILLINOIS WATER CORPORATION

A. "Service Crediting" means all service including service with Northern Illinois Water Corporation for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective June 30, 2001, non-union employees shall cease to be credited with Years of Service under the Northern Illinois Water Corporation Retirement Income Plan ("Northern Illinois Plan") and will commence benefit accrual service effective as of July 1, 2001 under the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries.

B. "Early Retirement Date" means the first of the month following a Participant's attainment of age 55.

C. "Early Retirement Income" means the monthly retirement income commencing on a Participant's Early Retirement Date in an amount equal to the sum of:

(i) their normal retirement benefit as determined under Section D(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following schedule:

<u>Number of Years Early Retirement Date Precedes Normal Retirement Date</u>	<u>Applicable Factor</u>
1	.97
2	.94
3	.91
4	.88
5	.85
6	.82
7	.79
8	.76
9	.73
10	.70

plus

(ii) their normal retirement benefit as determined under Section D(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

D. “Normal Retirement Income”

Effective for any Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a) of the Plan, a Participant’s monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

(i) 1.33% of Final Average Earnings at retirement multiplied by Years of Service prior to July 1, 2001, as determined under the Northern Illinois Plan, plus

(ii) 1.60% of Final Average Earnings at retirement multiplied by Years of Service after July 1, 2001 to Normal or Late Retirement Date.

E. “Vested Benefits in the Event of Termination of Employment”

The benefit of any vested active Employee who terminates employment on or after July 1, 2001 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section IV.C above.

UNION EMPLOYEES.

V. INDIANA-AMERICAN WATER COMPANY, INC. (formerly Northwest Indiana Water Corporation) - UNION EMPLOYEES AT THE NORTHWEST OPERATIONS FACILITY

Effective December 31, 2002, or as soon as administratively practicable thereafter, the Northwest Indiana Water Company Retirement Plan (the "Indiana Plan"), consisting of two different groups of union employees, was merged with and into the Plan. Effective January 1, 2003, all eligible union employees of Indiana-American Water Company, Inc. began participation in the Plan.

The following special rules apply only to each active Employee of Indiana-American Water Company, Inc. who, as of December 31, 2002, is both: (1) a member of the USWA, Local 13584 (including Local 13584-01) at the Company's northwest operations facility, and (2) a participant in the Indiana Plan (a "Local 13584 Participant"):

A. Service Crediting. All service with the Company, including service with Northwest Indiana Water Corporation and Indiana-American Water Company, Inc. shall be credited to a Local 13584 Participant for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective December 31, 2002, a Local 13584 Participant will cease to be credited with years of service under the Indiana Plan. Thereafter, a Local 13584 Participant's benefit accrual service shall consist of benefit accrual service credited under the terms of the Indiana Plan through December 31, 2002, plus, beginning January 1, 2003, any additional benefit service credited under the terms of the Plan.

B. Early Retirement Date. A Local 13584 Participant's Early Retirement Date shall be the first of any month following the date they attain at least age 55 (but before age 65) and is credited with 5 Years of Service for vesting purposes.

C. Early Retirement Income. The benefit payable to a Local 13584 Participant commencing on their Early Retirement Date shall be a monthly amount equal to the sum of:

(i) their normal retirement benefit as determined under Section D(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following table:

Lesser of:
Years Until Age 65, or
Years of Service for Vesting
Purposes Less than 30

Applicable Fraction

10	15/30
9	16/30
8	17/30
7	18/30
6	19/30
5	20/30
4	22/30
3	24/30
2	26/30
1	28/30
0	30/30

plus

(ii) their normal retirement benefit as determined under Section D(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

D. Normal Retirement Income. Effective for any Local 13584 Participant retiring on and after January 1, 2003, except as modified by the provisions of Section 6.1(a) of the Plan, the benefit payable to a Local 13584 Participant commencing on their Normal or Late Retirement Date shall be a monthly amount equal to the sum of:

(i) 1.667% of Final Average Earnings at retirement multiplied by Years of Service prior to January 1, 2003, as determined under the provisions of the Indiana Plan, up to a maximum of 30 years, plus;

(ii) 1.60% multiplied by Years of Service credited to the Local 13584 Participant under the terms of the Plan on and after January 1, 2003, multiplied by their Final Average Earnings as defined by the Plan.

In no event shall a Local 13584 Participant's Accrued Benefit be less than their Accrued Benefit earned under the terms of the Indiana Plan as of December 31, 2002.

E. Vested Benefits in the Event of Termination of Employment. The benefit of any vested active Local 13584 Participant who terminates employment on or after January 1, 2003, and who is not yet eligible for Early Retirement, shall be determined in accordance with Section C above.

VI. MISSOURI-AMERICAN WATER COMPANY (formerly St. Louis County Water Company) - UNION EMPLOYEES

Effective June 30, 2003, the St. Louis County Water Company Pension Plan (the "St. Louis Plan"), consisting entirely of union Employees, was merged with and into the Plan. These union Employees continued to participate under the terms of the St. Louis Plan until January 1, 2004, at which time all eligible union employees of Missouri-American Water Company began participation in the Plan.

The following special rules apply only to each active Employee of Missouri-American Water Company who, as of December 31, 2003, is both: (1) a member of the Utility Workers Union of America Affiliated with the AFL-CIO, Local 335, and (2) a participant in the St. Louis Plan (a "Local 335 Participant"):

A. Service Crediting. All service with the Company, including service with St. Louis Water Company and Missouri-American Water Company, shall be credited to a Local 335 Participant for purposes of vesting and determining eligibility for early retirement, preretirement death benefits and disability benefits.

For purposes of benefit accrual service, effective December 31, 2003, a Local 335 Participant will cease to be credited with years of service under the St. Louis Plan. Thereafter, a Local 335 Participant's benefit accrual service shall consist of benefit accrual service credited under the terms of the St. Louis Plan through December 31, 2003, plus, beginning January 1, 2004, any additional benefit service credited under the terms of the Plan.

B. Early Retirement Income. The benefit payable to a Local 335 Participant commencing on their Early Retirement Date shall be a monthly amount equal to the sum of:

(i) their normal retirement benefit as determined under Section C(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following table:

<u>Age</u>	<u>Applicable Factor</u>
64	.970
63	.941
62	.913
61	.885
60	.859
59	.833
58	.808
57	.784
56	.760
55	.737

plus

(ii) their normal retirement benefit as determined under Section C(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

C. Normal Retirement Income. Effective for any Local 335 Participant retiring on and after January 1, 2004, except as modified by the provisions of Section 6.1(a) of the Plan, the benefit payable to a Local 335 Participant payable on their Normal or Late Retirement Date shall be a monthly amount equal to the sum of:

(i) 1.50% multiplied by years of service credited to the Local 335 Participant under the terms of the St. Louis Plan through December 31, 2003, multiplied by their Final Average Earnings as defined by the Plan;

plus

(ii) 1.60% multiplied by Years of Service credited to the Local 335 Participant under the terms of the Plan on and after January 1, 2004, multiplied by their Final Average Earnings as defined by the Plan.

In no event shall a Local 335 Participant's Accrued Benefit be less than their Accrued Benefit earned under the terms of the St. Louis Plan as of December 31, 2003.

D. Vested Benefits in the Event of Termination of Employment. The benefit of any vested active Local 335 Participant who terminates employment on or after January 1, 2004, and who is not yet eligible for Early Retirement, shall be determined in accordance with Section B above.

VII. LONG ISLAND WATER CORPORATION - UNION EMPLOYEES

Effective June 30, 2004, the Long Island Water Corporation Employees Retirement Plan (the "Long Island Plan"), consisting entirely of union Employees, was merged with and into the Plan. Effective July 1, 2004, all eligible union Employees of Long Island Water Company began participation in the Plan. Effective October 4, 2012, Long Island Water Corporation merged with New York Water Services Corporation, Aqua New York, Inc. and Aqua New York of Sea Cliff, Inc. to form New York American Water Company, Inc.

A. Special Rules for Union Employees Hired Prior to July 1, 2004. The following special rules apply only to each active Employee of New York American Water Company, Inc. (formerly Long Island Water Corporation) who, as of June 30, 2004 was both: (1) a member of the Utility Workers Union of America Local 365 at the Company's Long Island, New York facility, and (2) participating in the Long Island Plan (a "Local 365 Participant"):

(i) Service Crediting. All service with the Company, including service with Long Island Water Corporation and New York American Water Company, Inc., shall be credited to a Local 365 Participant for purposes of vesting, determining eligibility for early retirement, preretirement death benefits and disability benefits.

For purposes of benefit accrual service, effective June 30, 2004, a Local 365 Participant will cease to be credited with years of service under the Long Island Plan.

Thereafter, a Local 365 Participant's benefit accrual service shall consist of benefit accrual service credited under the terms of the Long Island Plan through June 30, 2004, plus, beginning July 1, 2004, any additional benefit service credited under the terms of the Plan.

- (ii) Early Retirement Income. The benefit payable to a Local 365 Participant on their Early Retirement Date shall be their normal retirement benefit as determined under Section C multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.
- (iii) Normal Retirement Income. Effective for any Local 365 Participant retiring on or after July 1, 2004, except as modified by the provisions of Section 6.1(a) of the Plan, the benefit payable to a Local 365 Participant on their Normal or Late Retirement Date shall be a monthly amount equal to the sum of the following:
 - (a) 1.75% multiplied by years of service credited to the Local 365 Participant under the terms of the Long Island Plan through June 30, 2004, multiplied by their Final Average Earnings, as defined by the Plan, as of the earlier of July 31, 2010 or their actual termination of employment; plus
 - (b) 1.60% multiplied by Years of Service credited to the Local 365 Participant under the terms of the Plan on and after July 1, 2004 but before January 1, 2008, multiplied by their Final Average Earnings, as defined by the Plan, as of the earlier of July 31, 2010 or their actual termination of employment; plus
 - (c) the greater of:
 - (1) 1.60% multiplied by Years of Service credited to the Local 365 Participant under the terms of the Plan on and after August 1, 2010 through their date of retirement or other termination employment, multiplied by their Final Average Earnings, as defined by the Plan, as of their actual termination of employment; or
 - (2) 1.60% multiplied by Earnings, as defined by the Plan, for each Year of Service credited under the terms of the Plan on and after August 1, 2010 but before January 1, 2013.

In no event shall a Local 365 Participant's Accrued Benefit be less than their Accrued Benefit earned under the terms of the Long Island Plan as of June 30, 2004.

- (iv) Vested Benefits in the Event of Termination of Employment. The benefit of any vested active Local 365 Participant who terminates employment on or after July 1, 2004 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section B above.
- B. Normal Retirement Income - Special Rules for Union Employees Hired On and After July 1, 2004. The following special rules apply only to an Employee of New York American Water Company, Inc. (formerly Long Island Water Corporation) who was hired on or after July 1, 2004, and is a member of the Utility Workers Union of America Local 365 at the Company's Long Island, New York facility ("New Local 365 Participant"). A New Local 365 Participant shall, upon meeting the eligibility

requirements of Section 3.1 of the Plan, commence participation under the terms of the Plan except as otherwise provided in this Section B.

Effective for any New Local 365 Participant hired before January 1, 2006, except as modified by the provisions of Section 6.1(a) of the Plan, a New Local 365 Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

- (i) 1.60% multiplied by Years of Service credited to the New Local 365 Participant on and after July 1, 2004 but before January 1, 2006, multiplied by their Final Average Earnings as of the earlier of December 31, 2005 or their actual termination of employment; plus
- (ii) the greater of:
 - (a) 1.60% multiplied by Years of Service credited to the New Local 365 Participant under the terms of the Plan on and after January 1, 2006 through their date of retirement or other termination employment, multiplied by their Final Average Earnings, as defined by the Plan, as of their actual termination of employment; or
 - (b) 1.60% multiplied by Earnings for each Year of Service credited to the New Local 365 Participant on and after January 1, 2006 but before January 1, 2013.

VIII. ILLINOIS-AMERICAN WATER COMPANY (formerly Northern Illinois Water Corporation) - UNION EMPLOYEES AT CHAMPAIGN, ILLINOIS

Effective June 30, 2004, the Northern Illinois Water Corporation Retirement Income Plan (the "Northern Illinois Plan"), consisting of two different groups of union employees, was merged with and into the Plan. Effective July 1, 2004, all eligible union employees of Illinois-American Water Company began participation in the Plan.

Employees of Illinois-American Water Company who are members of the IBEW Local 51 at the Company's Sterling, Illinois facility continue to participate under the terms of the former Northern Illinois Plan, as described in Article IX of this Appendix 4.

The following special rules apply only to each active Employee of Illinois-American Water Company who, as of June 30, 2004, is both: (1) a member of the Utility Workers Union of America, Local 500 at the Company's Champaign, Illinois facility, and (2) a participant in the Northern Illinois Plan (a "Local 500 Participant"):

A. Service Crediting. All service with the Company, including service with Northern Illinois Water Corporation and Illinois-American Water Company, shall be credited to a Local 500 Participant for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective June 30, 2004, a Local 500 Participant will cease to be credited with years of service under the Northern Illinois Plan. Thereafter, a

Local 500 Participant's benefit accrual service shall consist of benefit accrual service credited under the terms of the Northern Illinois Plan through June 30, 2004, plus, beginning July 1, 2004, any additional benefit service credited under the terms of the Plan.

B. Early Retirement Date. A Local 500 Participant's Early Retirement Date shall be the first of any month following their attainment of age 55 but before age 65.

C. Early Retirement Income. The benefit payable to a Local 500 Participant commencing on their Early Retirement Date shall be a monthly amount equal to the sum of:

(i) their normal retirement benefit as determined under Section D(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following table:

<u>Number of Years Early Retirement Date Precedes Normal Retirement Date</u>	<u>Applicable Factor</u>
1	.97
2	.94
3	.91
4	.88
5	.85
6	.82
7	.79
8	.76
9	.73
10	.70

plus

(ii) their normal retirement benefit as determined under Section D(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

D. Normal Retirement Income. Effective for any Local 500 Participant retiring on and after July 1, 2004, except as modified by the provisions of Section 6.1(a) of the Plan, the benefit payable to a Local 500 Participant commencing on their Normal or Late Retirement Date shall be a monthly amount equal to the sum of:

(i) 1.33% multiplied by years of service credited to the Local 500 Participant under the terms of the Northern Illinois Plan through June 30, 2004, multiplied by their Final Average Earnings as defined by the Plan; plus

(ii) 1.60% multiplied by Years of Service credited to the Local 500 Participant under the terms of the Plan on and after July 1, 2004, multiplied by their Final Average Earnings as defined by the Plan.

In no event shall a Local 500 Participant's Accrued Benefit be less than their Accrued Benefit earned under the terms of the Northern Illinois Plan as of June 30, 2004.

E. Vested Benefits in the Event of Termination of Employment. The benefit of any vested active Local 500 Participant who terminates employment on or after July 1, 2004 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section C above.

IX. ILLINOIS-AMERICAN WATER COMPANY (formerly Northern Illinois Water Corporation) - UNION EMPLOYEES AT STERLING, ILLINOIS

Effective June 30, 2004, the Northern Illinois Water Corporation Retirement Income Plan (the "Northern Illinois Plan"), consisting of two different groups of union employees, was merged with and into the Plan. Employees of Illinois-American Water Company who were members of the IBEW Local 51 at the Company's Sterling, Illinois facility continued to participate under the terms of the former Northern Illinois Plan, as described in this Article IX prior to July 1, 2012. This Article IX is updated effective July 1, 2012, in accordance with the most recent collective bargaining agreement.

The following special rules apply only to each active Employee of Illinois-American Water Company who was: (1) as of June 30, 2004, both: (a) a member of the IBEW Local 51 at the Company's Sterling, Illinois facility, and (b) a participant in the Northern Illinois Plan; or (2) hired on or after July 1, 2004, but prior to February 1, 2009, as a member of the IBEW Local 51 at the Company's Sterling, Illinois facility (collectively "Local 51 Participants"). Except as otherwise provided under this Article IX, a Local 51 Participant shall participate in and be subject to all provisions of the Plan.

A. Definitions. All capitalized terms which are not defined below shall have the meaning given to them under Section 2.1 of the Plan.

(i) "Actuarial Equivalent" means, effective July 1, 2012, a benefit of equivalent value determine in accordance with Section 2.1(b) of the Plan; provided, however, notwithstanding any other Plan provision to the contrary, the value of an optional form of benefit (other than for benefit determinations subject to the requirements of section 417(e)(3) of the Code) elected by a Local 51 Participant with an Annuity Starting Date on or after July 1, 2012, will not be less than the value of that optional form of benefit based on their accrued benefit as of June 30, 2012, an interest rate of 7.5 percent and the mortality table as set forth in Revenue Ruling 95-6.

(ii) "Compensation" means, for purposes other than the limitations under Appendix 2, the total earnings paid or made available to an Employee by the Employer plus contributed by the Employer pursuant to a salary reduction agreement and which are not includible in the gross income of the employee under sections 125, 132(f)(4), 402(e), 402(h), or 403(b) of the Code. Compensation shall exclude overtime pay, shift or Sunday premiums and special compensation.

(iii) "Average Compensation" means, on any April 1, the average of a Local 51 Participant's monthly Compensation for those five consecutive 12-month periods (all 12-month periods if less than five) which give the highest average out of the final ten 12-month periods (all 12-month periods if less than ten) of employment with the Employer. Solely for purposes of this paragraph, a "12-month period" shall mean the 12-month period beginning on July 1 of a calendar year and ending in June 30 of the following calendar year.

(iv) "Early Retirement Age" means age 55.

(v) "Early Retirement Date" means the first day of any month on or after a Local 51 Participant reaches their Early Retirement Age but before their Normal Retirement Date, and on which they commence their benefit. A Local 51 Participant who has terminated employment with the Employer with a vested benefit before reaching their Early Retirement Age may elect an early retirement benefit upon reaching their Early Retirement Age.

(vi) "Qualified Joint and Survivor Annuity" means a joint and survivor annuity that is the Actuarial Equivalent of the normal form of benefit for an unmarried Local 51 Participant that provides a monthly annuity for the life of the Local 51 Participant's surviving spouse equal to 50% of the monthly annuity payable during the joint lives of the Local 51 Participant and their spouse.

(vii) "Required Beginning Date" means, solely for purposes of this Article IX, the April 1 of the calendar year following the calendar year in which the Local 51 Participant attains age 70-½.

(viii) "Required Contribution Account" means, on any date, the total of a Local 51 Participant's Required Contributions with interest. Contributions previously paid to the Local 51 Participant or applied for them, and any interest that would have been credited on those contributions, shall be excluded. On and after April 1, 1988, interest shall be credited in each Plan Year at the rate of 120% of the Federal mid-term rate (as in effect under section 1274 of the Code for the first month of the Plan Year) per annum compounded annually. Before April 1, 1988, interest was credited at the rate specified in the Plan as in effect on the day immediately before April 1, 1988. Interest shall be credited on each Required Contribution from the end of the Plan Year for which it was made until the month prior to the date of determination.

(ix) "Required Contributions" means nondeductible contributions required from a Local 51 Participant prior to January 1, 1967 (August 1, 1966 for any Employee of the Champion Division.)

(x) "Required Contribution. Accrued Benefit" means the amount of monthly retirement benefit payable in the form of a Single Life Annuity accrued by a Local 51 Participant which is derived from their Required Contributions.

(xi) "Single Life Annuity" means a monthly benefit payable for the life of the Local 51 Participant with a modified cash refund of their Required Contribution Account, if any.

B. Participation. An eligible Employee who is a member of the IBEW Local 51 at the Company's Sterling, Illinois facility (other than an Employee hired or rehired on or after February 1, 2009) shall commence participation under this Article IX on the first day of the month coincident with or next following the date on which they: (1) attain age 21; and (2) complete one Year of Service for eligibility purposes.

C. Early Retirement Income. The benefit payable to a Local 51 Participant commencing on their Early Retirement Date shall be determined as follows:

(i) Terminated or Retired Prior to July 1, 2012. If the Local 51 Participant terminates employment or retires prior to July 1, 2012, their benefit commencing on their Early Retirement Date shall be their normal retirement benefit as determined under Section D reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following table:

<u>Number of Years Early Retirement Date Precedes Normal Retirement Date</u>	<u>Applicable Factor</u>
1	.97
2	.94
3	.91
4	.88
5	.85
6	.82
7	.79
8	.76
9	.73
10	.70

(ii) Terminated or Retired on or after July 1, 2012. If the Local 51 Participant terminates employment or retires on or after July 1, 2012, their benefit commencing on their Early Retirement Date shall be the sum of

(a) their normal retirement benefit as determined under Sections D(ii)(a) and D(ii)(c) reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following table

<u>Number of Years Early Retirement Date Precedes Normal Retirement Date</u>	<u>Applicable Factor</u>
1	.97
2	.94
3	.91
4	.88
5	.85
6	.82
7	.79
8	.76
9	.73
10	.70

and

(b) their normal retirement benefit as determined under Section D(ii)(b) as of their Early Retirement Date multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to the Plan as Table 1.

D. Normal Retirement Income. Effective for any Local 51 Participant retiring on and after July 1, 2004, except as modified by the provisions of Section 6.1(a) of the Plan, the benefit payable to a Local 51 Participant commencing on their Normal Retirement Date shall be determined as follows:

(i) Terminated or Retired Prior to July 1, 2012. If the Local 51 Participant terminates employment or retires prior to July 1, 2012, their benefit shall be a monthly amount equal to the sum of:

- (a) 1.33% of their Average Compensation multiplied by their Years of Service; plus
- b) \$1 for each \$144 of their Required Contribution Account, if any.

(ii) Terminated or Retired on or after July 1, 2012. For any Local 51 Participant who continues to be actively employed on or after July 1, 2012, their benefit shall be a monthly amount equal to the sum of:

- (a) 1.33% times Years of Service prior to July 1, 2012 times Final Average Earnings; plus
- (b) 1.60% times Years of Service on or after July 1, 2012 times Final Average Earnings; plus
- (c) \$1 for each \$144 of their Required Contribution Account, if any.

(iii) A Local 51 Participant may commence receipt of their normal retirement benefit on their Normal Retirement Date regardless of whether they are still employed by the Employer on such date.

E. Late Retirement Income. The benefit payable to a Local 51 Participant commencing on their Late Retirement Date shall be the greatest of:

- (i) their normal retirement benefit as determined under Section D on their Late Retirement Date; or
- (ii) their normal retirement benefit determined as of June 30, 2012 under Section D multiplied by the factor shown below corresponding to the number of years their Late Retirement Date follows their Normal Retirement Date

<u>Number of Years Late Retirement Date Follows Normal Retirement Date</u>	<u>Applicable Factor</u>
1	1.0600
2	1.1200
3	1.1900
4	1.2600
5	1.3400
6	1.4200
7	1.5000
8	1.5900
9	1.6900
10	1.7900

The above factors shall be prorated for a partial year (counting a partial month as a complete month). Factors for numbers of years beyond 10 shall be determined using a consistently applied reasonable actuarially equivalent method; or

(iii) with respect to a Local 51 Participant whose Late Retirement Date occurs after their Required Beginning Date, their normal retirement benefit as determined under Section D (determined as of June 30, 2012) multiplied by the factor in Section E(ii) for 1 year past Normal Retirement Date, prorated for a partial year based on the number of months in the period (counting a partial month as a complete month).

The amount in this Section E(iii) shall be redetermined after each subsequent April 1 based on the retirement benefit that would have been paid on their Required Beginning Date (determined as if their Late Retirement Date had occurred on their Required Beginning Date) multiplied by the factor in Section E(ii) for 1 year past Normal Retirement Date, prorated for a partial year based on the number of months since such Yearly Date (counting a partial month as a complete month).

Such greatest amount so determined applies to an active Local 51 Participant, who (1) is not a five-percent owner, (2) has attained age 70 $\frac{1}{2}$, and (3) makes an election to defer commencement of their retirement benefit until the calendar year following the calendar year in which they retire.

F. Minimum Benefit. An active Local 51 Participant's benefit payable as a Single Life Annuity shall not be less than the greatest amount of benefit that would have been provided for them had they retired on any earlier retirement date. In any event, an active Local 51 Participant's retirement benefit payable as a Single Life Annuity on their retirement date will not be less than the greater of their Required Contribution Account Accrued Benefit on their retirement date, multiplied by the appropriate factor if their retirement date is an Early Retirement Date, or the monthly benefit payable as a Single Life Annuity which is the Actuarial Equivalent of their Required Contribution Account on such date.

G. Vesting. A Local 51 Participant shall have no vested interest in their Accrued Benefit until they have been credited with five Years of Service for vesting purposes, at which time they shall have a 100% vested interest in their Accrued Benefit determined under this Article IX. Notwithstanding the foregoing, a Local 51 Participant who is actively employed by the Employer shall have a 100% vested interest in their Accrued Benefit upon reaching their Early Retirement Age or Normal Retirement Age.

A Local 51 Participant's Required Contribution Account is fully 100% vested and nonforfeitable at all times.

H. Vested Benefits in the Event of Termination of Employment. The benefit of any vested active Local 51 Participant who terminates employment on or after July 1, 2004 shall be:

(i) in the case of a Local 51 Participant who elects to commence their deferred vested benefit on their Early Retirement Date, an amount determined in accordance with Section H(ii) below multiplied by the applicable early retirement factor in Section C above.

(ii) in the case of a Local 51 Participant who elects to commence their deferred vested benefit on their Normal Retirement Date, an amount equal to the sum of (a) and (b):

(a) the Local 51 Participant's Required Contribution Accrued Benefit as of the date of determination (or the date the Required Contribution Account is paid in a single sum, if earlier);

(b) the excess of the Local 51 Participant's Accrued Benefit on the day before they terminated employment over the amount determined under (a) above but not less than \$0.

(iii) in the case of a Local 51 Participant who elects to commence their deferred vested benefit on their Late Retirement Date, an amount equal to:

(a) if they terminated on or before their Normal Retirement Date, an amount equal to the amount under Section H(ii) above multiplied by the late retirement factor in Section E(ii) which corresponds to the number of years their Late Retirement Date follows their Normal Retirement Date; or

(b) if they terminated after their Normal Retirement Date, an amount equal to the greater of:

- (1) their Accrued Benefit on the day before they terminated employment with the Employer; or
- (2) their Accrued Benefit on their Normal Retirement Date multiplied by the late retirement factor in Section E(ii) which corresponds to the number of years their Late Retirement Date follows their Normal Retirement Date.

Provided, however, for a terminated Local 51 Participant whose Late Retirement Date occurs after their Required Beginning Date, their deferred monthly retirement benefit determined in Section H(iii)(a) or (b) of this Article IX, whichever applies, shall be adjusted as provided in Section E(iii) of this Article IX.

I. Forms of Distribution.

(i) Normal Form for Unmarried Local 51 Participants. The normal form of distribution for an unmarried Local 51 Participant shall be a Single Life Annuity as defined in Section A(xi) of this Article IX.

(ii) Normal Form for Married Participants. If a Participant is married on their Annuity Starting Date, their retirement income will be paid to them in the form of a Qualified Joint and Survivor Annuity.

(iii) Required Contribution Account. A Local 51 Participant may elect, subject to the notice and election procedures of Section 6.2 of the Plan, as applicable, to receive their Required Contribution Account in a single-sum payment at any time after they cease to be an Employee and before their retirement date, provided they are not reemployed by the Employer.

(iv) Survivor Benefits Available by Election. A Local 51 Participant who is actively employed on or after July 1, 2012 may elect, subject to the notice and election provisions of Section 6.2 of the Plan, as applicable, to provide benefits for their Contingent Annuitant as described in Section 6.4.

J. Preretirement Survivor Annuity.

(i) Eligibility for Preretirement Survivor Annuity. If a married Local 51 Participant or an unmarried Local 51 Participant who has designated a Contingent Annuitant dies on or after July 1, 2012 but before their Annuity Starting Date, their surviving spouse or Contingent Annuitant, as applicable, shall receive a Preretirement Survivor Annuity as provided in this Section J. If a Local 51 Participant dies prior to July 1, 2012, the benefit, if any, payable to their spouse or Contingent Annuitant shall be determined under the provisions of the Plan in effect prior to July 1, 2012.

(ii) Death Prior to Early Retirement Eligibility, After Completing Five, But Not Yet Ten Years of Service. In the event of the death of a married Local 51 Participant or an unmarried Local 51 Participant who has designated a Contingent Annuitant on or after the date they have completed at least five Years of Service but before they have completed at least ten Years of Service or become eligible for Early Retirement, whether such Local 51 Participant is then actively employed or not, such Local 51 Participant's

spouse or Contingent Annuitant, as applicable, shall be entitled to a benefit, payable, if such spouse or Contingent Annuitant is then surviving, on the first day of the month coincident with, or next following the later of (A) the date of the Local 51 Participant's death or (B) the date the Local 51 Participant would have attained age 55 had they survived. The amount of such benefit shall be the same amount that such surviving spouse or Contingent Annuitant would have received had such Local 51 Participant terminated their service, survived to age 55, elected the 50% contingent annuity form of benefit, as determined under Table 2 based on their and their spouse's or Contingent Annuitant's then attained ages, and then died.

(iii) Death Prior to Early Retirement Eligibility but After Completing Ten Years of Service. In the event of the death of a married Local 51 Participant or an unmarried Local 51 Participant who has designated a Contingent Annuitant on or after the date they have completed at least ten Years of Service but prior to becoming eligible for Early Retirement, whether such Local 51 Participant is then actively employed or not, such Local 51 Participant's spouse or Contingent Annuitant, as applicable, shall be entitled to a benefit, payable, if such spouse or Contingent Annuitant is then surviving, on the first day of the month coincident with, or next following the later of (A) the date of the Local 51 Participant's death or (B) the date the Local 51 Participant would have attained age 55 had they survived. The amount of such benefit shall be the same amount that such surviving spouse or Contingent Annuitant would have received had such Local 51 Participant retired on the day before their death, or at age 55 if the date of death is prior to the date the Local 51 Participant attains age 55, elected to receive the 100% contingent annuity form of benefit and then died. The amount of such benefit shall be determined under Table 4, based on their attained age and the attained age of their spouse or Contingent Annuitant, except that for purposes of applying Table 4, the Local 51 Participant's attained age, if less than age 55, shall be considered to be age 55 and their spouse's or Contingent Annuitant's age shall be adjusted so that it bears the same relationship to age 55 as their actual attained ages bear to each other.

(iv) Death After Becoming Eligible for Early Retirement. In the event of the death of a married Local 51 Participant or an unmarried Local 51 Participant who has designated a Contingent Annuitant while they are eligible for Early Retirement, whether such Local 51 Participant is then actively employed or not, such Local 51 Participant's spouse or Contingent Annuitant, as applicable, shall be entitled to a benefit, payable, if such spouse or Contingent Annuitant is then surviving, on the first day of the month coincident with, or next following the date of the Local 51 Participant's death. The amount of such benefit shall be the same amount that such surviving spouse or Contingent Annuitant would have received had such Local 51 Participant retired on the day before their death, elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their spouse or Contingent Annuitant, and then died.

(v) Death After Becoming Eligible for Normal Retirement. In the event of the death of a married Local 51 Participant or an unmarried Local 51 Participant who has designated a Contingent Annuitant while actively employed after their Normal Retirement Date, such Local 51 Participant's spouse or Contingent Annuitant, as applicable, shall be entitled to a benefit, payable, if such spouse or Contingent Annuitant

is then surviving, on the first day of the month coincident with, or next following the date of the Local 51 Participant's death. The amount of such benefit shall be the same amount that such surviving spouse or Contingent Annuitant would have received had such Local 51 Participant retired on their Late Retirement Date, elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their spouse or Contingent Annuitant, and then died.

(vi) Any benefit payable under this Section J shall terminate on the surviving spouse's or Contingent Annuitant's death.

(vii) Notwithstanding anything in this Section J to the contrary, if a single-sum death benefit would otherwise be payable under Section K below, the monthly benefit payable to the spouse or Contingent Annuitant, as applicable, under this Section J shall not be less than the monthly benefit which is the Actuarial Equivalent of the single-sum death benefit at the date benefits start.

K. Single-Sum Death Benefit. If the requirements of Section J above have not been met on the date a Local 51 Participant dies, a single-sum death benefit equal to their Required Contribution Account on the date they died, if any, shall be payable to the Local 51 Participant's spouse, if any, or to the Local 51 Participant's estate. If the requirements of Section J above have been met on the date such Local 51 Participant dies, but the Local 51 Participant's spouse or Contingent Annuitant dies before the preretirement survivor annuity starts, this single-sum death benefit, determined as of the date of the spouse's or Contingent Annuitant's death, shall be paid to the Local 51 Participant's estate.

L. Disability Retirement Income.

(i) A Local 51 Participant who has completed 10 or more Years of Service, and who qualifies for disability retirement under this Section L shall be retired as of the first day of the month following the first month in which the Administration Committee has received both (i) the Local 51 Participant's written request for disability retirement, and (ii) evidence reasonably satisfactory to the Administration Committee that the Local 51 Participant has been determined by the United States Social Security Administration to qualify for total and permanent disability benefits under the Social Security Act. A Local 51 Participant shall be eligible for disability retirement benefits if, as a result of mental or physical illness or injury (other than self-inflicted) while actively employed, they qualify for disability benefits under the Social Security Act. Disability benefit payments shall commence in either the month in which the disabled Local 51 Participant is retired, as described above, or in the next following month, as may be administratively practicable. Such payments under the Plan shall be made retroactively to the first day of the month following the date as of which the Local 51 Participant is deemed to be disabled by the Social Security Administration, or, if later, to the last day of the Local 51 Participant's eligibility for continuation of the Local 51 Participant's salary or hourly wages as sick pay under an applicable Employer sick pay plan. The sum of any retroactive payments shall be paid in a lump sum, without interest, as part of the first monthly payment of disability benefits. A Local 51 Participant shall provide such reasonable evidence of continued Social Security disability as the Administration Committee may require from time to time. Disability benefits shall be discontinued if the Local 51 Participant ceases to qualify for disability benefits under the Social Security Act.

(ii) "Disability Retirement Date" means the date a Participant retires before their Normal Retirement Date in accordance with the provisions of Section L(i).

(iii) A Local 51 Participant who retires under the provisions of Section L(i) before their Normal Retirement Date shall be entitled to receive for life, or as long as their disability continues to qualify under the Social Security Act, a monthly retirement income commencing on their Disability Retirement Date in an amount equal to the benefit which they would have received pursuant to Section D based on their Years of Service and Final Average Earnings as of their Disability Retirement Date, without reduction for early commencement. Notwithstanding the above, if a Local 51 Participant is not actively employed (meaning engaged in work duties for the Employer) on or after July 1, 2012, their benefit shall be determined under the provisions of the Plan in effect prior to July 1, 2012.

(iv) A Local 51 Participant who becomes disabled, while actively employed, on or after attaining age 65, shall be considered to have retired under Section D or Section E, as applicable, and will be entitled to a monthly retirement income, if any, in an amount determined under Section D or E and Section 6.1(a), as applicable.

APPENDIX 5

SPECIAL SERVICE CREDITING RULES AND BENEFIT PROVISIONS RELATING TO MERGER OF EMPLOYEES' RETIREMENT PLAN OF ELIZABETHTOWN WATER COMPANY

Effective January 1, 2006, the Employees' Retirement Plan of Elizabethtown Water Company (the "Elizabethtown Plan") was amended to provide that the benefit of all non-union participants would continue to be paid from the Elizabethtown Plan trust, however all benefits would become payable in accordance with the terms of the Pension Plan for Employees of American Water Works Company, Inc. And Its Designated Subsidiaries provided that certain protected benefits and features would continue to apply. The Elizabethtown Plan was also amended to provide that all Local 423 union employees hired or rehired on or after April 1, 2006 and all Local 68 union employees hired or rehired on or after May 1, 2006 were not eligible to commence or recommence participation in the Elizabethtown Plan.

Effective December 31, 2006, the Elizabethtown Plan was merged with and into the Plan, assets were transferred from the Elizabethtown Plan trust to the Trust for the Plan, and eligible employees of Elizabethtown Water Company began participation in the Plan. The following special rules apply only to the non-union and union employees who had accrued a benefit under the Elizabethtown Plan as of December 31, 2006.

NON-UNION EMPLOYEES.

The following special rules apply only to non-union employees who had accrued a benefit under the Elizabethtown Plan as of December 31, 2006 (the "Non-union Participants").

A. **Definitions.** All capitalized terms which are not defined below shall have the meaning given to them under Article 2 of the Plan.

(i) "**Compensation**" means regular earnings paid to an Employee, including contributions made by an Employee to a Code section 125 or 401(k) plan, but excluding bonuses, overtime pay, special pay and all other Employer contributions to benefit plans.

(ii) "**Early Retirement Date**" means the first of the month following a Non-union Participant's 55th birthday and completion of 10 or more Years of Service.

(iii) "**Final Average Earnings**" determined for periods beginning on and after January 1, 2006 and before January 1, 2011 shall be based on:

(a) the Non-union Participant's "Compensation" (as defined in Section A(i) above) for the portion of the applicable 60 consecutive months which occurred before January 1, 2006; and

(b) the Non-union Participant's "Earnings" (as defined in Section 2.1(n)) for the portion of the applicable 60 consecutive months which occurred on and after January 1, 2006.

(iv) “Service Crediting” or “Years of Service” means all service including service with Elizabethtown Water Company for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective January 1, 2006, Non-union Participants shall cease to be credited with Years of Service under the Elizabethtown Plan and will commence benefit accrual service under the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries.

B. Early Retirement Income means the monthly retirement income commencing on a Non-union Participant’s Early Retirement Date in an amount equal to the sum of:

(i) their normal retirement benefit as determined under Section C(i) reduced to reflect the early commencement of benefits by multiplying such benefit by $\frac{5}{12}$ of 1% for each month that the commencement of payments precedes their Normal Retirement Date (or, if the Non-union Participant has completed at least 25 Years of Service, the reduction shall apply for each month that the commencement of payments precedes their attainment of age 60); plus

(ii) their normal retirement benefit as determined under Section C(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

C. Normal Retirement Income.

Effective for any Non-union Participant retiring after January 1, 2006, except as modified by the provisions of Section 6.1(a) of the Plan, a Participant’s monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

(i) 1.60% of Final Average Earnings at retirement multiplied by Years of Service prior to January 1, 2006 as determined under the provisions of the Elizabethtown Plan, up to a maximum of 40 years, plus

(ii) 1.60% of Final Average Earnings at retirement multiplied by Years of Service after January 1, 2006 to Normal or Late Retirement Date.

D. Vested Benefits in the Event of Termination of Employment.

The benefit of any vested Non-union Participant who terminates employment on or after January 1, 2006 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section B above.

E. Lump Sum Option.

In addition to the optional forms of payment provided under Section 6.3 of the Plan, if the Actuarially Equivalent present value of a Non-union Participant's vested Accrued Benefit is less than \$15,000, they may elect to receive their benefit in the form of a single lump sum payment.

UNION EMPLOYEES.

The following special rules apply only to Local 423 union employees hired before April 1, 2006 and all Local 68 union employees hired before May 1, 2006 who had accrued a benefit under the Elizabethtown Plan as of December 31, 2006 (the "Union Participants").

A. Definitions. All capitalized terms which are not defined below shall have the meaning given to them under Section 2.1 of the Plan.

(i) "Actuarial Equivalent" means an amount of equal value when computed on the basis of the 1978 Group Annuity Mortality Table (1971 Group Annuity Mortality Table Projected to 1978 with scale E) and an interest rate of 5% per annum. An average of male and female rates shall be used. For purposes of determining lump sum present values for distributions with an Annuity Starting Date on and after December 31, 2006, the calculation shall be made using the applicable interest rate under section 417(e)(3) of the Code for the October immediately preceding the calendar year during which the Annuity Starting Date occurs, provided that the lump sum present value for distributions made on or before December 31, 2007, shall not be less than the lump sum present value based on the applicable interest rate under section 417(e)(3) of the Code for the December preceding the calendar year in which the Annuity Starting Date occurs.

(ii) "Average Monthly Compensation" means the average of the Union Participant's "Compensation" (as defined in Section A(iv) below) for any four consecutive calendar years during the period beginning with 1966 and ending on the date their employment terminates which produces the highest average.

(iii) "Beneficiary" means the person, persons or trust entitled to receive the payments, if any, made with respect to a Union Participant after such Participant's death.

(iv) "Compensation" means regular earnings paid to a Union Participant, including contributions made by a Union Participant to a Code section 125 or 401(k) plan, but excluding bonuses, overtime pay, special pay and all other Employer contributions to benefit plans. Compensation shall also include amounts paid to a Union Participant by Elizabethtown Water Company, or any of its participating affiliates, and credited as "Compensation" under the Elizabethtown Plan prior to the merger on December 31, 2006.

(v) "Early Retirement Date" means the first of the month following a Union Participant's 55th birthday and completion of 10 or more Years of Service.

(vi) “Elizabethtown Plan” means the Employees’ Retirement Plan of Elizabethtown Water Company, as in effect on December 31, 2006, the date it was merged with and into the Plan.

(vii) “Qualified Joint and Survivor Annuity” or “QJSA” means an annuity for the life of the Union Participant with a survivor annuity for the life of such Participant’s surviving Spouse which is equal to 50% of the amount which is payable during the joint lives of the Union Participant and their Spouse.

(viii) “Service Crediting” or “Years of Service”. A Union Participant shall be credited with a Year of Service for each Plan Year during which they complete at least 1,000 Hours of Service with the Designated Subsidiary; provided, however, that a Union Participant shall be credited with a Year of Service for the period beginning July 1, 2022 and ending on June 30, 2023 if they complete at least 1,000 Hours of Service during such period. Years of Service shall also include periods of service with Elizabethtown Water Company or its participating affiliates credited under the Elizabethtown Plan as “Credited Service” prior to the merger on December 31, 2006. Notwithstanding the foregoing, the maximum number of Years of Service credited under the Plan shall be 40.

(ix) “Spouse” means the husband or wife to whom the Union Participant had been married throughout the one-year period preceding the earlier of their Annuity Starting Date or date of their death.

B. Early Retirement Income. A Union Participant’s monthly retirement income commencing on a Union Participant’s Early Retirement Date shall be an amount equal to their normal retirement benefit as determined under Section C(i) reduced to reflect the early commencement of benefits by multiplying such benefit by 5/12 of 1% for each month that the commencement of payments precedes their Normal Retirement Date (or, if the Union Participant has completed at least 25 Years of Service, the reduction shall apply for each month that the commencement of payments precedes their attainment of age 60).

C. Normal or Late Retirement Income.

A Union Participant’s monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the greater of (i) or (ii) as follows:

(i) 1.60% of Average Monthly Compensation at retirement multiplied by Years of Service, up to a maximum of 40 years, or

(ii) their Accrued Benefit as of December 31, 1995, calculated under the terms of the prior Elizabethtown Plan as then effective.

D. Disability. A Union Participant shall not be eligible for any disability retirement benefit under the Plan unless such Union Participant (1) is a Local 423 union employee hired before April 1, 2006 who had a benefit under the Elizabethtown Plan as of December 31, 2006, and (2) becomes eligible for a disability retirement benefit under Section 4.3 of the Plan on or after February 1, 2009 while actively employed by New Jersey-American Water Company, Inc. (formerly known as the Elizabethtown Water Company). A Union Participant who is a Local 68 union employee shall not be eligible for any disability retirement benefit under the Plan.

E. Vested Benefits in the Event of Termination of Employment.

The benefit of any vested Union Participant who terminates employment on or after January 1, 2006 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section B above. Such Union Participant shall be entitled to receive their benefit beginning with the month following their Normal Retirement Date and shall not be eligible to receive their benefit upon termination as provided in Section 8.2(b).

F. Forms of Benefit Payment.

(i) Normal Forms of Payment.

(a) The normal form of retirement benefit for an unmarried Union Participant shall be a monthly annuity for the life of such Participant continuing until the last payment due before their death. An unmarried Union Participant may elect an optional form of payment in lieu of the normal form pursuant to the notice and election procedures under the Plan.

(b) The normal form of retirement benefit for a Union Participant who has been married throughout the one-year period preceding their Annuity Starting Date shall be a Qualified Joint and Survivor Annuity or QJSA. Such a Participant may elect the normal form of benefit for an unmarried Participant or an optional form of benefit under this Section F. The Union Participant's election of an optional form of benefit will be valid only if their Spouse consents to their election in writing, signed before a notary public, pursuant to the notice and election procedures set forth in the Plan.

(ii) Optional Forms of Payment. Subject to the spousal waiver provision described above (if applicable) and in lieu of the normal form of benefit payment, a Union Elizabethtown Participant may elect one of the optional forms of benefit payment:

(a) 100% Contingent Annuitant Option. The amount of retirement income to be paid to the Union Participant shall be reduced, but after their death 100% of such reduced retirement income shall be paid for life to their Spouse. The amount of reduced retirement income payable to the Participant shall be 80% of the amount otherwise payable. Such reduced retirement income shall be further reduced, or increased, by 1% for each year by which the Union Participant's Spouse is more than five years younger, or older, than the Participant. However, in no event shall the retirement income payable under this option be greater than that payable in the absence of an option.

(b) 50% Contingent Annuitant Option. The amount of retirement income to be paid to the Union Participant shall be reduced, but after their death 50% of such reduced retirement income shall be paid for life to their Spouse. The amount of reduced retirement income payable to the Participant shall be 90% of the amount otherwise payable. Such reduced retirement income shall be further reduced, or increased, by one-half percent ($\frac{1}{2}\%$) for each year by which the Union Participant's Spouse is more than five years younger, or older, than the Participant. However, in no event shall the retirement income payable under this option be greater than that payable in the absence of an option.

(c) Five-Year Certain Option. The amount of retirement income to be paid to the Union Participant shall be reduced, but in the event of their death prior to receiving 60 monthly payments, the same amount of retirement income shall be continued to their Beneficiary until a combined total of 60 monthly payments have been made. The amount of reduced retirement income payable to the Participant shall be 98% of the amount otherwise payable to them.

(d) Ten-Year Certain Option. The amount of retirement income to be paid to the Union Participant shall be reduced, but in the event of their death prior to receiving 120 monthly payments, the same amount of retirement income shall be continued to their Beneficiary until a combined total of 120 monthly payments have been made. The amount of reduced retirement income payable to the Participant shall be 94% of the amount otherwise payable to them.

(e) Fifteen-Year Certain Option. The amount of retirement income to be paid to the Union Participant shall be reduced, but in the event of their death prior to receiving 180 monthly payments, the same amount of retirement income shall be continued to their Beneficiary until a combined total of 180 monthly payments have been made. The amount of reduced retirement income payable to the Participant shall be 88% of the amount otherwise payable to them.

(f) Lump Sum Option. If the Actuarially Equivalent present value of a Union Participant's vested Accrued Benefit is less than \$15,000, they may elect to receive their benefit in the form of a single lump sum payment.

G. Death Benefits. The provisions of this Section shall apply to any vested Union Participant whether or not they have terminated employment with the Employer. Sections 6.3 and 6.4 shall not apply to any Union Participant. In addition, the Automatic Surviving Spouse Benefit under Section 6.1 of the Plan shall not apply to any Union Participant, however Section 6.2(d) (Notice and Election Procedures) for Qualified Joint and Survivor Annuity, shall apply to all Union Participants.

(i) Qualified Preretirement Survivor Annuity (QPSA).

(a) Death After Earliest Retirement Age. If a vested active or terminated vested Union Participant dies after the Earliest Retirement Age (as defined below), the Participant's Spouse or Beneficiary will receive the same benefit that would be payable if the Participant had retired with an immediate QJSA on the day before their date of death.

(b) Death Before Earliest Retirement Age. If a vested active or terminated vested Union Participant dies on or before the Earliest Retirement Age, the Participant's Spouse or Beneficiary will receive the same benefit that would be payable if the Participant had:

- (1) separated from service on the date of death,
- (2) survived to the Earliest Retirement Age,
- (3) elected to receive an immediate QJSA at the Earliest Retirement Age, and
- (4) died on the day after the Earliest Retirement Age.

Notwithstanding the provisions of this Section, if the value of the QPSA is less than \$5,000, the Administration Committee shall direct the immediate distribution of the Actuarial Equivalent thereof in a single lump sum in cash to the Union Participant's Spouse or Beneficiary.

(c) Reduction in Benefit. The benefit payable to the Spouse or Beneficiary will be reduced by 1/6 of one percent for each month that the date of birth of the Spouse or Beneficiary is more than five years after the date of birth of the deceased Union Participant.

(d) Death Benefit after Commencement of Benefits. The benefits, if any, payable as a result of death after the commencement of benefits shall be governed by the payment option in effect in accordance with Section F.

(e) Earliest Retirement Age, for the purpose of this Section, is the earliest date on which, under the Plan, the Union Participant could elect to receive retirement benefits.

(f) Qualified Joint and Survivor Annuity. For purposes of this Section, the definition of Qualified Joint and Survivor Annuity set forth in Section A is changed by substituting the term "Beneficiary" in place of the term "Spouse" wherever it is used therein.

(g) Benefits Payable to Beneficiaries. The death benefit payable pursuant to the provisions of this Section G(g) shall be payable to a Beneficiary only if the Union Participant has no Spouse, unless a valid spousal waiver has been obtained, in accordance with Section G(ii)(d).

(ii) Beneficiary Designation.

(a) Each Union Participant shall have the right to designate one or more Beneficiaries and contingent Beneficiaries to receive any benefit payable under Section G(i)(d) by filing a written designation with the Administration Committee on the form prescribed by the Administration Committee.

(b) If the Union Participant has elected an annuity with a contingent annuitant option, the election of the contingent annuitant shall be irrevocable as of the Annuity Starting Date.

(c) If the Union Participant has elected an annuity with a guaranteed number of monthly payments or commuted death benefit, such Union Participant may thereafter designate a different Beneficiary to receive the guaranteed monthly payments or commuted death benefit at any time by filing a new written designation with the Administration Committee.

(d) Notwithstanding the foregoing, if a married Union Participant designates a contingent annuitant or Beneficiary other than their Spouse and their Spouse does not consent to such designation in writing witnessed by a notary public or a representative of the Administration Committee in a manner prescribed by the Administration Committee, then the Union Participant's Spouse shall be the Participant's sole Beneficiary. A Spouse's consent to the Union Participant's Beneficiary designation given in accordance with the Administration Committee's rules shall be irrevocable by the Spouse with respect to the Beneficiary then designated by the Union Participant unless the Participant makes a new Beneficiary designation.

(e) Any written designation shall become effective only upon its receipt by the Administration Committee. If the Beneficiary designated pursuant to this Section should die on or before distribution of benefits and the Union Participant fails to make a new designation, then their Beneficiary shall be determined pursuant to Section G(iii). The Beneficiary of guaranteed monthly payments shall select the form of distribution in accordance with Section G(iv).

(iii) Beneficiary List. If (1) a Union Participant omits or fails to designate a Beneficiary, (2) no designated Beneficiary survives the Union Participant or (3) the Administration Committee determines that the Union Participant's Beneficiary designation is invalid for any reason, then any guaranteed monthly payments or commuted benefit payable after the death of the Union Participant shall be paid to their Spouse, or if the Union Participant is not survived by their Spouse, then to their estate. If the Union Participant's designated Beneficiary dies after the Union Participant, but before distribution of all guaranteed monthly payments, then the balance of the payments shall be paid to the Beneficiary's estate.

(iv) Manner and Form of Payment.

(a) Death benefits under Section G shall be distributed over a period not extending beyond five years of the Union Participant's date of death unless (1) payment of benefits commenced in the form of an annuity under Section E before the Union Participant's date of death, in which case benefits shall be distributed at least as rapidly as under the method of distribution in effect on the Union Participant's date of death, or (2) the benefit is payable to the Union Participant's designated Beneficiary and the projected distribution period does not exceed the life expectancy of such Beneficiary, provided distribution begins not later than one year after the date of the Participant's death or such later date as applicable regulations under the Code may permit.

(b) Notwithstanding the provisions of this Section, if the value of the death benefit is less than \$5,000, the Administration Committee shall direct the immediate

distribution of the Actuarial Equivalent thereof in a single lump sum in cash to the Union Participant's Spouse or Beneficiary.

(v) Distribution of Employee Contributions. If a Union Participant dies prior to retirement and their Spouse is not eligible for a death benefit under Section G, their Beneficiary shall be paid a lump sum amount equal to the contributions, if any, which they made to the Elizabethtown Plan, including interest. Interest will be compounded annually to the date of death based on the following rates:

(a) from the date of contribution to December 31, 1987 at the rate of 5%;

(b) from January 1, 1988 to the date of death at the rate of 120 percent of the Federal mid-term rate as in effect under section 1274 of the Code for the first month of the Plan Year

APPENDIX 6

ARIZONA-NEW MEXICO EMPLOYEES

Effective July 1, 2011, the following Participants shall not be eligible to receive any benefit or future benefit under the Plan –

APP-7-1

APPENDIX 8

TRANSFERRING NYAWC PARTICIPANTS

1.1 Application.

The provisions of this Appendix shall apply to Transferring NYAWC Participants. “Transferring NYAWC Participants” include all of following individuals:

- (a) all participants and former participants in the Plan who, as of December 31, 2021, (1) are actively employed by New York American Water Company, Inc., (2) have terminated employment with the Company and all members of its controlled group and, immediately before their terminations, were employed by New York American Water Company, Inc., or (3) are other former employees of New York American Water Company, Inc. designated by the Company and Liberty Utilities Co. to be subject to the pension transfer described in Section 1.3 of this Appendix 8; and
- (b) [Employee Name Omitted], but solely with respect to the portion of their benefit under the Plan that was covered under the John Hancock Group Annuity Contract No. 334.

For purposes of clarification, the term “Transferring NYAWC Participant” shall also include beneficiaries or alternate payees of the foregoing Participants and former Participants.

1.2 Transferring NYAWC Participant Benefit Freeze.

Effective as of December 31, 2021 at 11:59 pm, with respect to each Transferring NYAWC Participant, Accrued Benefit shall be frozen. For purposes of benefit accrual, Earnings and Continuous Service shall be determined without regard to any period on or after January 1, 2022.

1.3 Transferring NYAWC Participant Post-Freeze Transfer.

Effective as of January 1, 2022, all of the Plan assets and benefit liabilities with respect to Transferring NYAWC Participants shall be transferred to the defined benefit pension plan designated by Liberty Utilities and its related trust. Following the transfer of assets and liabilities taking effect, a Transferring NYAWC Participant shall not be eligible to accrue additional benefits and shall not remain a Participant under the Plan with respect to benefits accrued prior to January 1, 2022, and New York American Water Company, Inc. shall not be a Designated Subsidiary under the Plan.

[Personal information intentionally omitted pursuant to Item 601(a)(6) of Regulation S-K.]

LIST OF TABLES OMITTED FROM FILING

The following tables to the attached Pension Plan have been omitted from Exhibit 10.16 pursuant to Item 601(a)(5) of Regulation S-K. The Company will furnish the omitted tables to the U.S. Securities and Exchange Commission upon request.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

I, M. Susan Hardwick certify that:

1. I have reviewed this annual report on Form 10-K of American Water Works Company, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

FORWARD-LOOKING STATEMENTS

Statements included in Item 1—Business, Item 1A—Risk Factors, and Item 7—Management’s Discussion and Analysis of Financial Condition and Results of Operations, and in other sections of this Annual Report on Form 10-K, or incorporated by reference therein, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “likely,” “uncertain,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “should,” “will” and “could” or the negative of such terms or other variations or similar expressions. Forward-looking statements may relate to, among other things: the Company’s future financial performance, liquidity and cash flows; the timing and amount of rate and revenue adjustments, including through general rate case filings, filings for infrastructure surcharges and other governmental agency authorizations and proceedings, and filings to address regulatory lag; the Company’s growth and portfolio optimization strategies, including the timing and outcome of pending or future acquisition activity; the ability of the Company’s California subsidiary to obtain adequate alternative water supplies in lieu of diversions from the Carmel River; the amount and allocation of projected capital expenditures and related funding requirements; the Company’s ability to repay or refinance debt; the future impacts of increased or increasing financing costs, inflation and interest rates; the Company’s ability to execute its current and long-term business, operational and capital expenditures strategies; the Company’s ability to finance current operations, capital expenditures and growth initiatives by accessing the debt and equity capital markets; the outcome and impact on the Company of governmental and regulatory proceedings and related potential fines, penalties and other sanctions; the ability to meet or exceed the Company’s stated environmental and sustainability goals, including its greenhouse gas emission reduction, water delivery efficiency and water system resiliency goals; the ability to complete, and the timing and efficacy of, the design, development, implementation and improvement of technology and other strategic initiatives; the impacts to the Company of the ongoing COVID-19 pandemic; the ability to capitalize on existing or future utility privatization opportunities; trends in the water and wastewater industries in which the Company operates, including macro trends with respect to the Company’s efforts related to customer, technology and work execution; regulatory, legislative, tax policy or legal developments; and impacts that future significant tax legislation may have on the Company and on its business, results of operations, cash flows and liquidity.

Forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. These forward-looking statements are subject to a number of estimates, assumptions, known and unknown risks, uncertainties and other factors. The Company’s actual results may vary materially from those discussed in the forward-looking statements included herein as a result of the factors discussed under Item 1A—Risk Factors, and the following important factors:

- the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates and regulatory responses to the ongoing COVID-19 pandemic;
- the timeliness and outcome of regulatory commissions’ and other authorities’ actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions;
- changes in customer demand for, and patterns of use of, water, such as may result from conservation efforts, impacts of the COVID-19 pandemic, or otherwise;
- limitations on the availability of the Company’s water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors;
- a loss of one or more large industrial or commercial customers due to adverse economic conditions, the COVID-19 pandemic, or other factors;
- changes in laws, governmental regulations and policies, including with respect to environmental, health and safety, data and consumer privacy, security and protection, water quality and water quality accountability, contaminants of emerging concern, public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations;
- the Company’s ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulations and policies with respect to data and consumer privacy, security and protection;
- weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares;

- the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions;
- the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of or maintain and replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses;
- exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means;
- the Company's ability to obtain permits and other approvals for projects and construction of various water and wastewater facilities;
- changes in the Company's capital requirements;
- the Company's ability to control operating expenses and to achieve operating efficiencies;
- the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers;
- the Company's ability to obtain adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, electricity, fuel, water and other raw materials, and to address or mitigate supply chain constraints that may result in delays or shortages in, as well as increased costs of, supplies, products and materials that are critical to or used in the Company's business operations;
- the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to:
 - acquiring, closing and successfully integrating regulated operations and market-based businesses;
 - the Company's Military Services Group ("MSG") entering into new military installation contracts, price redeterminations, and other agreements and contracts, with the U.S. government; and
 - realizing anticipated benefits and synergies from new acquisitions;
- risks and uncertainties following the completion of the sale of the Company's Homeowner Services Group ("HOS") and its New York subsidiary, including:
 - the Company's ability to receive any contingent consideration provided for in the HOS sale, as well as amounts due, payable and owing to the Company from time to time under the seller note when due; and
 - the ability of the Company to redeploy successfully and timely the net proceeds of these transactions into the Company's Regulated Businesses;
- risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement and security regulations;
- cost overruns relating to improvements in or the expansion of the Company's operations;
- the Company's ability to successfully develop and implement new technologies and to protect related intellectual property;
- the Company's ability to maintain safe work sites;
- the Company's exposure to liabilities related to environmental laws and similar matters resulting from, among other things, water and wastewater service provided to customers;
- changes in general economic, political, business and financial market conditions, including without limitation conditions and collateral consequences associated with the COVID-19 pandemic;
- access to sufficient debt and/or equity capital on satisfactory terms and when and as needed to support operations and capital expenditures;
- fluctuations in inflation or interest rates;
- the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions;
- fluctuations in the value of benefit plan assets and liabilities that could increase the Company's cost and funding requirements;

- changes in federal or state general, income and other tax laws, including (i) future significant tax legislation, (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs, and (iii) the Company's ability to utilize its state income tax net operating loss ("NOL") carryforwards;
- migration of customers into or out of the Company's service territories;
- the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, or the assertion by private landowners of similar rights against such utility subsidiaries;
- any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained;
- the incurrence of impairment charges related to the Company's goodwill or other assets;
- labor actions, including work stoppages and strikes;
- the Company's ability to retain and attract qualified employees;
- civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and
- the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in Item 1A—Risk Factors and other statements contained in this Annual Report on Form 10-K, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements the Company makes shall speak only as of the date this Annual Report on Form 10-K was filed with the U.S. Securities and Exchange Commission ("SEC"). Except as required by the federal securities laws, the Company does not have any obligation, and it specifically disclaims any undertaking or intention, to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or otherwise. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

PART I**ITEM 1. BUSINESS****The Company**

With a history dating back to 1886, American Water is the largest and most geographically diverse, publicly-traded water and wastewater utility company in the United States, as measured by both operating revenues and population served. A holding company originally incorporated in Delaware in 1936, the Company employs approximately 6,400 professionals who provide drinking water, wastewater and other related services to over 14 million people in 24 states. The Company conducts the majority of its business through regulated utilities that provide water and wastewater services, collectively presented as the “Regulated Businesses.” The Company also operates market-based businesses that provide complementary services. Individually, these businesses do not meet the criteria of a reportable segment in accordance with generally accepted accounting principles in the United States (“GAAP”), and are collectively presented as the “Market-Based Businesses,” which is consistent with how management assesses the results of these businesses.

On December 9, 2021 (the “Closing Date”), the Company sold all of the equity interests of the HOS subsidiaries. See Item 1—Business—Market-Based Businesses—Sale of Homeowner Services Group below and Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

On January 1, 2022, the Company completed the sale of its New York subsidiary, see Item 1—Business—Regulated Businesses—Sale of New York American Water Company, Inc. below and Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information. The assets and related liabilities of the New York subsidiary were classified as held for sale on the Consolidated Balance Sheets as of December 31, 2021 and 2020.

Throughout this Annual Report on Form 10-K, unless the context otherwise requires, references to “we,” “us,” “our,” the “Company,” and “American Water” mean American Water Works Company, Inc. and its subsidiaries, taken together as a whole. References to “parent company” mean American Water Works Company, Inc., without its subsidiaries.

Regulated Businesses

The Company’s primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers. The Company’s utilities operate in approximately 1,700 communities in 14 states in the United States, with 3.4 million active customers in its water and wastewater networks. Services provided by the Company’s utilities are subject to regulation by multiple state utility commissions or other entities engaged in utility regulation, collectively referred to as public utility commissions (“PUCs”). Federal, state and local governments also regulate environmental, health and safety, and water quality and water accountability matters. The Company reports the results of the services provided by its utilities in the Regulated Businesses segment. Operating revenues for the Regulated Businesses were \$3,384 million for 2021, \$3,255 million for 2020 and \$3,094 million for 2019, accounting for 86%, 86% and 86%, respectively, of the Company’s total operating revenues for the same periods.

Presented in the table below is a geographic summary of the Regulated Businesses' operating revenues and the number of customers the Company serves, by type of service, for and as of the year ended December 31, 2021:

	Operating Revenues (in millions)				Number of Customers (in thousands)			
	Water (a)	Wastewater	Total	% of Total	Water	Wastewater	Total	% of Total
New Jersey	\$ 778	\$ 48	\$ 826	24.4 %	660	55	715	20.3 %
Pennsylvania	688	82	770	22.8 %	677	82	759	21.5 %
Missouri	337	12	349	10.3 %	474	17	491	13.9 %
Illinois	303	37	340	10.0 %	295	69	364	10.3 %
California	265	3	268	7.9 %	187	3	190	5.4 %
Total—Top Five States (b)	2,371	182	2,553	75.4 %	2,293	226	2,519	71.4 %
New York (c)	127	—	127	3.8 %	127	—	127	3.6 %
Other (d)	678	26	704	20.8 %	849	35	884	25.0 %
Total Regulated Businesses	\$ 3,176	\$ 208	\$ 3,384	100.0 %	3,269	261	3,530	100.0 %

(a) Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

(b) The Company's "Top Five States" are determined based upon operating revenues.

(c) The Company completed the sale of its New York subsidiary on January 1, 2022.

(d) Includes the Company's utility operations in the following states: Georgia, Hawaii, Indiana, Iowa, Kentucky, Maryland, Michigan, Tennessee, Virginia and West Virginia and other revenue attributable collectively to the Regulated Businesses. The Company completed the sale of its Michigan subsidiary on February 4, 2022.

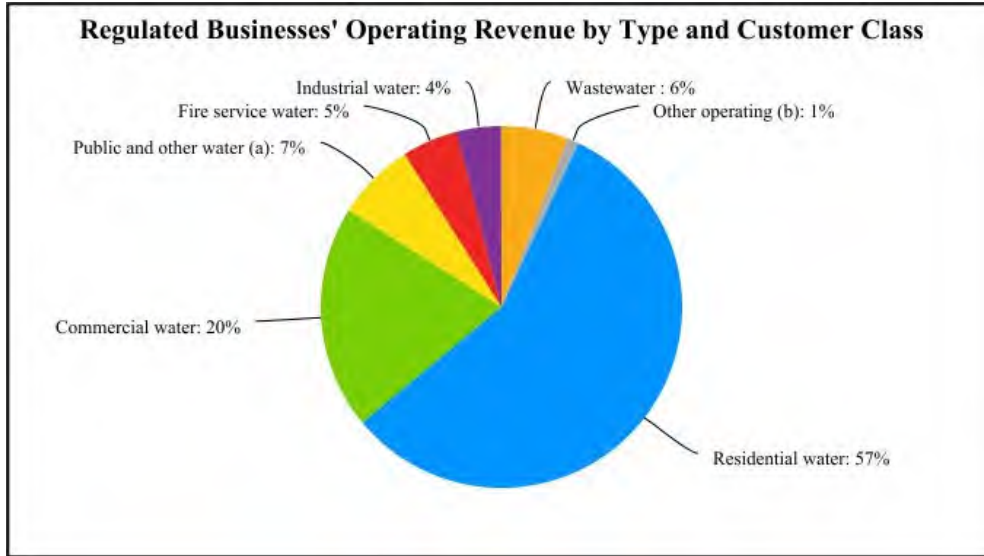

Customers

The Company's Regulated Businesses have a large and geographically diverse customer base. A customer is defined as a person, business, municipality or any other entity that purchases the Company's water or wastewater services as of the last business day of a reporting period. One single customer may purchase the Company's services for use by multiple individuals or businesses. Examples of these customers are homes, apartment complexes, businesses and governmental entities.

The vast majority of the Company's regulated water customers are metered, which allows the Company to measure and bill for its customers' water usage, typically on a monthly basis. The Company employs a variety of methods of customer meter reading to monitor consumption. These methods range from meters with mechanical registers where consumption is manually recorded by meter readers, to meters with electronic registers capable of transmitting consumption data to proximity devices or via radio frequency to mobile or fixed network data collectors. The Company's wastewater customers are billed either a flat rate or based upon their water consumption.

Residential customers make up a substantial portion of the Company's customer base in all of the states in which it operates. The Company also serves (i) commercial customers, such as food and beverage providers, commercial property developers and proprietors, and energy suppliers, (ii) fire service customers, where the Company supplies water through its distribution systems to public fire hydrants for firefighting purposes and to private fire customers for use in fire suppression systems in office buildings and other facilities, (iii) industrial customers, such as large-scale manufacturers, mining and production operations, (iv) public authorities, such as government buildings and other public sector facilities, including schools and universities, and (v) other utilities and community water and wastewater systems in the form of bulk contracts for the supply of water or the treatment of wastewater for their own customers.

The following chart depicts the allocation of the Company’s Regulated Businesses’ operating revenue of \$3,384 million by type, including a breakout of the total water services revenues by class of customer, for the year ended December 31, 2021:

- (a) Includes water revenues from public authorities and other utilities and community water systems under bulk contracts.
- (b) Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

Presented in the table below is the number of water and wastewater customers the Company served by class as of December 31, 2021, 2020 and 2019, which represents approximately 14 million people served as of December 31, 2021:

(In thousands)	2021		2020		2019	
	Water	Wastewater	Water	Wastewater	Water	Wastewater
Residential	2,972	245	2,948	236	2,914	215
Commercial	225	15	225	15	222	13
Fire service	52	—	50	—	49	—
Industrial	4	—	4	—	4	—
Public and other (a)	16	1	17	1	16	1
Total	3,269	261	3,244	252	3,205	229

- (a) Includes public authorities and other utilities and community water and wastewater systems under bulk contracts. Bulk contracts, which are accounted for as a single customer in the table above, generally result in service to multiple customers.

Customer growth in the Company’s Regulated Businesses is primarily from (i) adding new customers to its customer base through acquisitions of water and/or wastewater utility systems, (ii) population growth in its authorized service areas, and (iii) sale of water to other water utilities and community water systems.

Capital Investment

The Company plans to invest between \$28 billion and \$32 billion over the next 10 years for capital improvements, including acquisitions, to its Regulated Businesses’ water and wastewater infrastructure, largely for pipe replacement and upgrading aging water and wastewater treatment facilities. The Company has proactively improved its pipe renewal rate from a 250-year replacement cycle in 2009 to an expected 110-year replacement cycle by 2026, which it anticipates will enable the Company to replace nearly 2,200 miles of mains and collection pipes between 2022 and 2026. In addition, from 2022 to 2026, the Company’s capital investment in treatment plants, storage tanks and other key, above-ground facilities is expected to increase, further addressing infrastructure renewal, resiliency, water quality, operational efficiency, technology and innovation, and emerging regulatory compliance needs. Additionally, the Company continues to invest significantly in resiliency projects to address the impacts of climate and weather variability by hardening its assets. The benefit of investing in resiliency projects was seen firsthand in the aftermath of Tropical Depression Ida, when the Company’s New Jersey subsidiary reported that all its operating areas successfully withstood widespread flooding and drinking water quality was not impacted in any of its service areas. Specifically, the New Jersey subsidiary’s Raritan-Millstone Water Treatment Plant, which was fortified with a \$37 million flood protection project in 2018, withstood a record flood and continued to provide potable water supply for approximately 1 million people in parts of seven counties in central New Jersey.

Regulation and Rate Making

The operations of the Company’s Regulated Businesses are generally subject to regulation by PUCs in the states in which they operate, with the primary responsibility of the PUCs being the promotion of the overall public interest by balancing the interest of customers and utility investors. Specific authority might differ from state to state, but in most states, PUCs review and approve rates charged to customers, accounting treatments, long-term financing programs and cost of capital, operation and maintenance (“O&M”) expenses, capital expenditures, taxes, affiliated transactions and relationships, reorganizations, mergers and acquisitions, and dispositions, along with imposing certain penalties or granting certain incentives. Regulatory policies vary from state to state and can change over time. These policies will affect the timing, as well as the extent, of recovery of expenses and the realized return on invested capital.

Periodic changes in customer rates generally occur through the filing of a rate case by the utility with the PUC. The timing of rate case filings is typically determined by either periodic requirements in the regulatory jurisdiction or by the utility’s need to increase its revenue requirement to recover capital investment costs, changes in operating revenues, operating costs or other market conditions. The Company attempts to minimize “regulatory lag,” which is the time between the occurrence of an event that triggers a change in the utility’s revenue requirement and the recognition in rates of that change.

The Company’s Regulated Businesses support regulatory practices at the PUCs and state legislatures that mitigate the adverse impact of regulatory lag. Presented in the table below are examples of approved regulatory practices:

Regulatory Practices	Description	States Allowed
Infrastructure replacement surcharge mechanisms	Allows rates to change periodically, outside a general rate case proceeding, to reflect recovery of capital investments made to replace infrastructure necessary to sustain safe and reliable services for the Company’s customers. These mechanisms typically involve periodic filings and reviews to ensure transparency.	IA, IL, IN, KY, MO, NJ, PA, TN, VA, WV
Future test year	A “test year” is a period used for setting rates, and a future test year describes the first 12 months that new rates are proposed to be effective. The use of a future test year allows current or projected revenues, expenses and capital investments to be collected on a more timely basis.	CA, HI, IA, IL, IN, KY, PA, TN, VA
Hybrid test year	A historical test year sets rates using data from a 12-month period that ends prior to a general rate case filing. A hybrid test year allows an update to historical data for “known and measurable” changes that occur subsequent to the historical test year.	MD, MO, NJ, WV
Utility plant recovery mechanisms	Allows recovery of the full return on utility plant costs during the construction period, instead of capitalizing an allowance for funds used during construction (“AFUDC”). In addition, some states allow the utility to seek pre-approval of certain capital projects and associated costs. In this pre-approval process, the PUC may assess the prudence of such projects.	CA, IL, KY, PA, TN, VA
Expense mechanisms	Allows changes in certain operating expenses, which may fluctuate based on conditions beyond the utility’s control, to be recovered outside of a general rate case proceeding or deferred until the next general rate case proceeding.	CA, IL, MD, MO, NJ, PA, TN, VA
Revenue stability mechanisms	Adjusts rates periodically to ensure that a utility recovers the revenues authorized in its general rate case, regardless of sales volume, including recognition of declining sales resulting from reduced consumption, while providing an incentive for customers to use water more efficiently.	CA, IL
Consolidated tariffs	Use of a unified rate structure for water systems owned and operated by a single utility, which may or may not be physically interconnected. The consolidated tariff pricing structure may be used fully or partially in a state, and is generally used to moderate the price impact of periodic fluctuations in local costs, while lowering administrative costs for customers. Pennsylvania also permits a blending of water and wastewater revenue requirements.	CA, IA, IL, IN, KY, MD, MO, NJ, PA, VA, WV
Deferred accounting	A regulators’ willingness to defer recognition of financial impacts when setting rates for utilities.	All

The Company pursues enhancements to these regulatory practices to facilitate efficient recovery of its costs and capital investments and to continue to provide safe, clean, reliable and affordable services to its customers. The ability to seek regulatory treatment using the regulatory practices described above does not guarantee that the PUCs will accept the Company's proposal in the context of a particular rate case, and these regulatory practices may reduce, but not eliminate, regulatory lag associated with traditional rate making processes. It is also the Company's strategy to expand the use of these mechanisms in areas where they may not currently apply and enhance certain mechanisms where they already exist.

Acquisitions and Strategic Growth

The U.S. water and wastewater industries include investor-owned systems as well as municipal systems that are owned and operated by local governments or governmental subdivisions. According to the U.S. Environmental Protection Agency ("EPA"), as of 2017, approximately 84% of the water market is served by municipal systems and approximately 98% of the country's wastewater systems are government owned. The EPA also estimates, as of 2017, that there are approximately 50,000 community water systems and approximately 15,000 community wastewater systems in the United States, with approximately 80% of the community water systems serving a population of 3,000 or less.

A fundamental aspect of the Company's growth strategy is to pursue acquisitions of water and/or wastewater systems in geographic proximity to areas where the Company operates its Regulated Businesses, see Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations for additional information. The proximity of acquisition opportunities to the Company's regulated footprint allows it to integrate and manage the acquired systems and operations primarily using the Company's existing management (although the Company typically retains the majority, if not all, of the employees of the acquired systems) and to achieve operational efficiencies and prioritize capital investment needs. The Company's current customer mix of 93% water and 7% wastewater also presents strategic opportunities for wastewater growth and systems consolidation, allowing the Company to add wastewater customers where it already serves water customers. The Company intends to continue to expand its regulated footprint geographically by acquiring water and wastewater systems in its existing markets and, if appropriate, pursuing acquisition opportunities in certain domestic markets where the Company does not currently operate its Regulated Businesses. Before entering new regulated markets, the Company will evaluate the business and regulatory climates to ensure that it will have the opportunity to achieve an appropriate rate of return on its investment while maintaining its high standards for providing safe, reliable and affordable services to its customers, as well as a line of sight to grow the Company's base customers to attain efficiencies after entering the new domestic market.

Increasingly stringent environmental, health and safety, and water quality and water accountability regulations, the amount of infrastructure in need of significant capital investment, financial challenges and industry legislation are several elements, among others, that may drive more municipalities to consider selling their water and wastewater assets.

Sale of New York American Water Company, Inc.

On January 1, 2022, the Company completed the sale of its New York subsidiary to Liberty Utilities (Eastern Water Holdings) Corp. ("Liberty"), an indirect, wholly owned subsidiary of Algonquin Power & Utilities Corp. Under the terms of the Stock Purchase Agreement, dated November 20, 2019, as amended, by and among the Company, the Company's New York subsidiary and Liberty (the "Stock Purchase Agreement"), Liberty purchased from the Company all of the capital stock of the Company's New York subsidiary for a purchase price of \$608 million in cash. The sale was approved by the New York State Department of Public Service on December 16, 2021. The Company's regulated New York operations had approximately 127,000 customers in the State of New York. See Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

Industry Legislation

On November 15, 2021, the Infrastructure Investment and Jobs Act (the "IIJA") was signed into law and provides for up to \$55 billion to aid in improving the country's ailing water infrastructure, including \$23.4 billion for drinking water and wastewater, \$15 billion for lead service line replacement (through the drinking water state revolving fund), and \$10 billion for the treatment of per- and polyfluoroalkyl substances ("PFAS") and other contaminants of emerging concern. The bill also includes a low-income assistance program, which provides eligible low-income customers who receive their water from public and private entities to be eligible to participate in the program. The Company is awaiting further guidance on the distribution of these funds.

In December 2020, Congress passed, and the President signed into law, a \$900 billion COVID-19 relief and \$1.4 trillion U.S. government appropriations package for 2021, which included \$638 million for a low-income water assistance program and \$2.8 billion for capitalization grants under the Clean Water and Drinking Water State Revolving Funds.

In 2017, New Jersey enacted the Water Quality Accountability Act (the “WQAA”), which sets operational standards for all water utilities in New Jersey, including municipal and investor-owned utilities with more than 500 service connections. This law imposes requirements in areas such as asset management, water quality reporting, remediation of notices of violation, and hydrant and valve maintenance. The WQAA requires the most senior water manager, or either the executive director for municipal utility authorities or the mayor or chief executive officer for municipally owned public water systems, to certify that the system meets the requirements under the WQAA. Enhanced WQAA legislation includes additional enforcement requirements for disclosure of results, requires the sale of systems for prolonged violations and imposes new cyber security requirements and asset management plans. The new amendments, which provide for both civil and criminal penalties for falsification of documents, were signed by the Governor with an effective date of November 8, 2021.

In 2018, Indiana passed a law to set minimum operational expectations for all water and wastewater utilities in the state, including municipal and investor-owned utilities. The law requires water and wastewater utilities to conduct rate analyses, develop capital asset management plans and conduct cybersecurity and water loss audits. It also requires water and wastewater utilities to participate in regional discussions and planning to assess opportunities for the more efficient use of water and wastewater utility assets and infrastructure. Water and wastewater utilities that fail to comply with the requirements of the law may be ineligible for grants and loans from the State Revolving Fund. Under the law, all new municipal and investor-owned utilities are required to be regulated by the Indiana Utility Regulatory Commission for ten years from inception of operations.

In 2020, Missouri enacted the Water Safety and Security Act, which requires small and medium-sized water providers to create cybersecurity, valve inspection and hydrant inspection programs. Upon request by the Missouri Department of Natural Resources, the water providers must certify compliance with all regulations regarding water quality sampling, testing and reporting, hydrant and valve testing and reporting and cybersecurity plans and procedures.

The Company’s regulated subsidiaries in California, Illinois, Indiana, Iowa, Kentucky, Maryland, Missouri, New Jersey, Pennsylvania, Tennessee, Virginia and West Virginia have access to utility valuation legislation and regulation for private sector investment in public sector water and wastewater systems. The Company supports full optionality for municipalities, including state legislation that enables the consolidation of the largely fragmented water and wastewater industries through third-party fair market valuations of purchased property. Fair market value assessment of water and wastewater systems is an alternative to the traditional depreciated original cost method of valuation, which allows the Company to offer municipalities a purchase price for their system assets that is reflective of the assets’ fair market value, while providing the Company with increased opportunity to recover the purchase price over the life of the purchased system assets, subject to PUC approval. In 2021, the Tennessee Public Utilities Commission implemented acquisition valuation rules that create a mechanism to value water and wastewater assets based upon replacement cost new less depreciation.

Consolidated tariffs use a unified rate structure for systems owned and operated by a single utility, which may or may not be physically interconnected. Consolidated tariff pricing moderates the impact of periodic fluctuations in local costs and promotes a more universal water infrastructure investment in a state. As a result, consolidated tariffs can make it easier to incorporate new systems into an existing utility, support economies of scale for even the smallest of systems and prioritize capital needs across the state. Overall, the Company believes that consolidated tariffs bring cost-effective, high-quality services to a larger number of customers. Eleven of the Company’s regulated jurisdictions currently have some form of consolidated tariff pricing, including California, Illinois, Indiana, Iowa, Kentucky, Maryland, Missouri, New Jersey, Pennsylvania, Virginia and West Virginia.

Competition

The Company’s Regulated Businesses generally do not face direct competition in their existing markets because (i) the Company operates in those markets pursuant to franchises, charters, certificates of public convenience and necessity or similar authorizations (collectively, “CPCNs”) issued by state PUCs or other authorities, and (ii) the high cost of constructing a new water and wastewater system in an existing market creates a significant barrier to market entry. However, the Company’s Regulated Businesses do face competition from governmental agencies, other investor-owned utilities, large industrial customers with the ability to provide their own water supply/treatment process and strategic buyers that are entering new markets and/or making strategic acquisitions. When pursuing acquisitions, the Company’s largest investor-owned competitors, based on a comparison of operating revenues and population served, include Essential Utilities, Inc., Suez North America, American States Water Company and California Water Service Group. From time to time, the Company also faces competition from infrastructure funds, multi-utility companies and others, such as Algonquin Power and Utilities Corp., Eversource Energy and Corix.

Condemnation and Eminent Domain

All or portions of the Regulated Businesses' utility assets could be acquired by state, municipal or other government entities through one or more of the following methods: (i) eminent domain (also known as condemnation); (ii) the right of purchase given or reserved by a municipality or political subdivision when the original CPCN was granted; and (iii) the right of purchase given or reserved under the law of the state in which the utility subsidiary was incorporated or from which it received its CPCN. The acquisition consideration related to such a proceeding initiated by a local government may be determined consistent with applicable eminent domain law, or may be negotiated or fixed by appraisers as prescribed by the law of the state or in the particular CPCN.

As such, the Regulated Businesses are periodically subject to condemnation proceedings in the ordinary course of business. For example, a citizens group in Monterey, California successfully added "Measure J" to the November 2018 election ballot asking voters to decide whether the Monterey Peninsula Water Management District (the "MPWMD") should conduct a feasibility study concerning the potential purchase of the Monterey water service system assets (the "Monterey system assets") of the Company's California subsidiary, and, if feasible, to proceed with a purchase of those assets without an additional public vote. This service territory represents approximately 40,000 customers. In November 2018, Measure J was certified to have passed. In August 2019, the MPWMD's General Manager issued a report that recommends that the MPWMD board (1) develop criteria to determine which water systems should be considered for acquisition; (2) examine the feasibility of acquiring the Monterey system assets and consider public ownership of smaller systems only if the MPWMD becomes the owner of a larger system; (3) evaluate whether the acquisition of the Monterey system assets by the MPWMD is in the public interest and sufficiently satisfies the criterion of "feasible" as provided in Measure J; (4) ensure there is significant potential for cost savings before agreeing to commence an acquisition; and (5) develop more fully alternate operating plans before deciding whether to consider a Resolution of Necessity.

In November 2019, the MPWMD issued a preliminary valuation and cost of service analysis report, finding in part that (1) an estimate of the Monterey system assets' total value plus adjustments would be approximately \$513 million, (2) the cost of service modeling results indicate significant annual reductions in revenue requirements and projected monthly water bills, and (3) the acquisition of the Monterey system assets by the MPWMD would be economically feasible. On June 12, 2020, the MPWMD issued a draft environmental impact report for the potential acquisition of the Monterey system assets and a related district boundary adjustment that would be required if the MPWMD were to acquire and operate certain of the Monterey system assets located outside the MPWMD's boundaries. On September 15, 2020, the MPWMD gave notice of its intention to appraise the Monterey system assets and related property interests. On September 29, 2020, the Company's California subsidiary declined to make the Monterey system assets and related property interests available for inspection or to comply with any of the other requests contained in the MPWMD's notice. On October 7, 2020, the MPWMD issued a final environmental impact report ("FEIR"), and on November 4, 2020, the MPWMD certified the FEIR, which purports to analyze the environmental impacts of the MPWMD's project to (1) acquire the Monterey system assets through the power of eminent domain, if necessary, and (2) expand its geographic boundaries to include all parts of this system. On November 25, 2020, the Company's California subsidiary filed a petition challenging this certification in court. A hearing on the matter was held on August 30, 2021, and on November 19, 2021, the court denied the petition. See Item 3—Legal Proceedings—Challenge of Certification—Proposed Monterey System Final Environmental Impact Report.

On February 26, 2021, the MPWMD filed an application with the Local Agency Formation Commission of Monterey County ("LAFCO") seeking approval to become a retail water provider and annex approximately 58 parcels of land into the MPWMD's boundaries. On June 28, 2021, LAFCO's commissioners voted to require a third-party independent financial study as to the feasibility of an acquisition by the MPWMD of the Monterey system assets. On December 6, 2021, LAFCO's commissioners denied the MPWMD's application to become a retail water provider, determining that the MPWMD does not have the authority to proceed with a condemnation of the Monterey system assets. On January 5, 2022, LAFCO's commissioners confirmed the denial. On January 31, 2022, the MPWMD filed an application for reconsideration of LAFCO's confirmation of denial. A hearing on the application has been set for February 28, 2022.

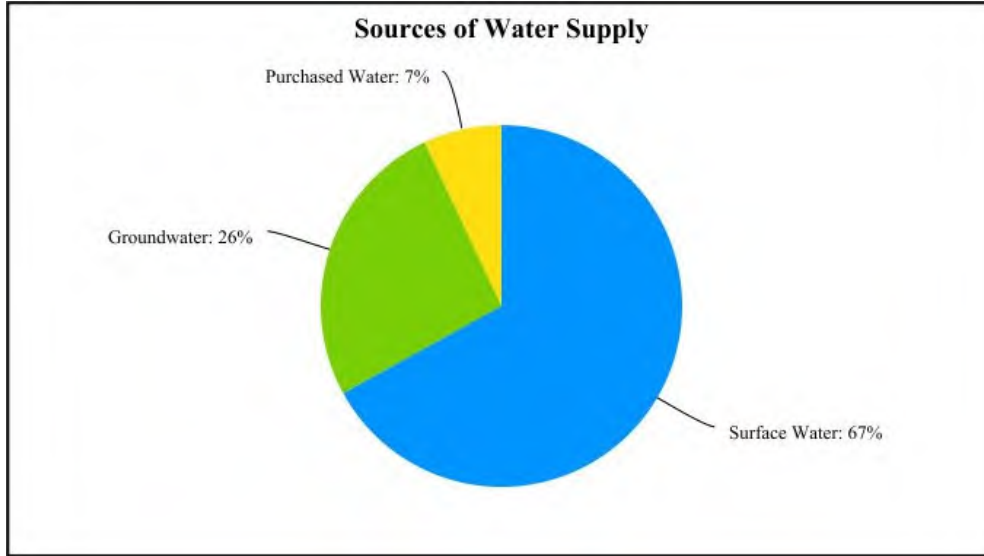

Also, five municipalities in the Chicago, Illinois area (approximately 30,300 customers in total) formed a water agency and filed an eminent domain lawsuit against the Company in January 2013, seeking to condemn the water pipeline that serves those five municipalities. Before filing its eminent domain lawsuit, the water agency made an offer of \$38 million for the pipeline. The parties have filed with the court updated valuation reports. A valuation trial was originally scheduled for October 2021 but has been continued to June 2022.

Furthermore, the law in certain jurisdictions in which the Regulated Businesses operate provides for eminent domain rights allowing private property owners to file a lawsuit to seek just compensation against a public utility, if a public utility’s infrastructure has been determined to be a substantial cause of damage to that property. In these actions, the plaintiff would not have to prove that the public utility acted negligently. In California, lawsuits have been filed in connection with large-scale natural events such as wildfires. Some of these lawsuits have included allegations that infrastructure of certain utilities triggered the natural event that resulted in damage to the property. In some cases, the PUC has allowed certain costs or losses incurred by the utility to be recovered from customers in rates, but in other cases such recovery in rates has been disallowed. Also, the utility may have obtained insurance that could respond to some or all of such losses, although the utility would be at risk for any losses not ultimately subject to rate or insurance recovery or losses that exceed the limits of such insurance.

Water Supply and Wastewater Services

The Company’s Regulated Businesses generally own the physical assets used to store, pump, treat and deliver water to its customers and collect, treat, transport and recycle wastewater. Typically, the Company does not own the water, which is held in public trust and is allocated to the Company through contracts, permits and allocation rights granted by federal and state or multi-state agencies or through the ownership of water rights pursuant to local law. The Company is dependent on defined sources of water supply and obtains its water supply from surface water sources such as reservoirs, lakes, rivers and streams; from groundwater sources, such as wells and aquifers; and water purchased from third-party water suppliers. The level of water treatment the Company applies varies significantly depending upon the quality of the water source and customer stipulations. Surface water sources typically generally require significant treatment, while groundwater sources often require chemical treatment only.

Presented in the chart below are the Company’s sources of water supply as of December 31, 2021:

Presented in the table below are the percentages of water supply by source type for the Company’s Top Five States for the year ended December 31, 2021:

	Surface Water	Ground Water	Purchased Water
New Jersey	74%	22%	4%
Pennsylvania	91%	7%	2%
Missouri	78%	21%	1%
Illinois	54%	35%	11%
California	—	65%	35%

The Company's ability to meet the existing and future water demands of its customers depends on an adequate water supply. Drought, governmental restrictions, overuse of sources of water, the protection of threatened species or habitats, contamination or other factors may limit the availability of ground and surface water. The Company employs a variety of measures in an effort to obtain adequate sources of water supply, both in the short-term and over the long-term. The geographic diversity of the Company's service areas may mitigate some of the economic effects on the water supply associated with weather extremes it might encounter in any particular service territory. For example, in any given summer, some areas may experience drier than average weather, which may reduce the amount of source water available, while other areas the Company serves may experience wetter than average weather.

The Company evaluates quality, quantity, growth needs and alternate sources of water supply as well as transmission and distribution capacity to provide water service to its customers. Water supply is seasonal in nature and weather conditions can have a pronounced effect on supply. In order to ensure that the Company has adequate water supply, it uses long-term planning processes and maintains contingency plans to minimize the potential impact on service caused by climate variability and a wide range of weather fluctuations. The Company reviews current climate science and global models related to temperature, precipitation and sea level rise on an ongoing basis. Where actionable forecasts are available, the Company will use this information in its comprehensive planning studies and asset management plans. These studies and plans, which are used by the Company to develop its asset management and system reliability strategies, assess the climate risk and resiliency of the Company's water and wastewater systems over short-, medium- and long-term time horizons, and include evaluations of the availability of water supplies and system capacity against a number of different factors, projections and estimates.

In connection with supply planning for most surface or groundwater sources, the Company employs models to determine safe yields under different rainfall and drought conditions. Surface and ground water levels are routinely monitored so that supply capacity deficits may, to the extent possible, be predicted and mitigated through demand management and additional supply development. In California, where the state has been experiencing a multi-year drought, the Company utilizes multiple water supply options including numerous ground water wells in multiple aquifers as well as various long-term purchase water agreements with regional water suppliers to optimize supplies while assuring resiliency during dry years. An example of the Company's use of long-term planning to ensure that it has adequate water supply is its involvement in the Monterey Peninsula Water Supply Project (the "Water Supply Project") in California. The Water Supply Project includes the construction of a desalination plant, to be owned by the Company's California subsidiary, and the construction of wells that would supply water to the desalination plant. In addition, the Water Supply Project also includes the California subsidiary's purchase of water from a groundwater replenishment project (the "GWR Project") between Monterey One Water (formerly known as the Monterey Regional Water Pollution Control Agency) and the MPWMD. The Water Supply Project is intended, among other things, to fulfill obligations of the California subsidiary to eliminate unauthorized diversions from the Carmel River as required under orders of the California State Water Resources Control Board (the "SWRCB"). For more information, see Item 3—Legal Proceedings—Alternative Water Supply in Lieu of Carmel River Diversions and Note 17—Commitments and Contingencies—Contingencies—Alternative Water Supply in Lieu of Carmel River Diversions, in the Notes to the Consolidated Financial Statements.

Wastewater services involve the collection of wastewater from customers' premises through sewer lines. The wastewater is then transported through a sewer network to a treatment facility, where it is treated to meet required regulatory standards for wastewater before being returned to the environment. The solid waste by-product of the treatment process is disposed of or recycled in accordance with applicable standards and regulations.

Seasonality

Customer demand for the Company's water service is affected by weather and tends to vary with temperature and amount and frequency of rainfall. Customer demand is generally greater during the warmer months, primarily due to increased water usage for irrigation systems and other outdoor water use. As such, the Company typically expects its operating revenues to be the highest in the third quarter of each year. Weather that is hotter and/or drier than average generally increases operating revenues, whereas, weather that is cooler and/or wetter than average generally serves to suppress customer water demand and can reduce water operating revenues. Two of the Company's jurisdictions, California and Illinois, have adopted revenue stability mechanisms which permit the Company to collect state PUC-authorized revenue for a given period which is not tied to the volume of water sold during that period, thereby lessening the impact of weather variability. See Regulated Businesses—Regulation and Rate Making for additional information regarding revenue stability mechanisms.

Market-Based Businesses

The Company's Market-Based Businesses provide water and wastewater services to the U.S. government on military installations, as well as municipalities, and utility customers, and previously provided home services primarily to residential and smaller commercial customers through its former HOS business, which was sold on December 9, 2021. These businesses are not subject to regulation by state PUCs and the services provided generally do not require significant capital investment. Operating revenues for the Company's Market-Based Businesses were \$563 million for 2021, \$540 million for 2020 and \$539 million for 2019, accounting for 14%, 14% and 15%, respectively, of the Company's total operating revenues for the same periods.

MSG enters into long-term contracts with the U.S. government to provide water and wastewater services on various military installations. MSG is the Company's remaining primary market-based business.

The Company also has five contracts with municipal customers to operate and manage water and wastewater facilities and provide other related services through its Contract Services Group ("CSG").

Military Services Group

MSG operates on 17 military installations under 50-year contracts with the U.S. government as part of its Utilities Privatization Program. The scope of these contracts generally includes the operation and maintenance of the installation's water and wastewater systems and a capital program focused on asset replacement and, in certain instances, systems expansion. The replacement of assets assumed when a contract is awarded to MSG is completed either through a discrete set of projects executed in the first five years of the contract or through the long term recapitalization program performed over the life of the contract. Traditionally, both of these programs are funded from the contract fee. At times, new assets are required to support the installation's mission, and the construction of these assets is funded by the U.S. government as separate modifications or amendments to the contract. The capital for these assets historically has not been funded through the Company's debt or equity issuances; rather, the Company has used limited working capital for short-term needs under these contracts. In April 2018, the U.S. Army instituted a requirement that a bidder must offer financing in its proposal for these new capital projects under existing contracts, but the U.S. Army's implementation of this requirement on existing contracts has limited the need for such financing. However, recent U.S. Army and Navy Utilities Privatization solicitations have included requirements for the successful bidder to finance discrete initial capital projects over either a five- or ten-year period after project completion. Three of MSG's current contracts require such capital project financing, which the Company is currently addressing through internal sources of liquidity.

The contract price for six of MSG's contracts with the U.S. government is subject to redetermination two years after commencement of operations, and every three years thereafter. Price redetermination is a contract mechanism to periodically adjust the service fee in the next period, to reflect changes in contract obligations and anticipated market conditions. The remaining 11 contracts with the U.S. government are subject to annual price adjustments under a mechanism called "Economic Price Adjustment." All 17 contracts could be terminated, in whole or in part, prior to the end of the 50-year term for convenience of the U.S. government, or as a result of default or non-performance by the MSG subsidiary performing the contract. In either event, pursuant to termination provisions applicable to all of these contracts, MSG would be entitled to recover allowable costs that it may have incurred under the contract, plus the contract profit margin on incurred costs. MSG's backlog of revenue associated with its contracts with the U.S. government is approximately \$6.2 billion, with an average remaining contract term of 41 years.

Sale of Homeowner Services Group

The Company has provided various warranty protection programs and other home services primarily to residential and smaller commercial customers through its HOS operations. On the Closing Date, the Company sold all of the equity interests in its HOS subsidiaries to an indirect, wholly owned subsidiary of funds advised by Apax Partners LLP, a global private equity advisory firm (the "Buyer"), for total consideration of approximately \$1.275 billion. See Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations and Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

Competition

MSG faces competition from a number of service providers, including American States Water Company, Suez North America, and Veolia Environnement S.A.

Environmental, Health and Safety, Water Quality and Other Regulation

The Company's water and wastewater operations, including the services provided by both its Regulated Businesses and Market-Based Businesses, are subject to extensive federal, state and local laws and regulations governing the protection of the environment, health and safety, the provision of water and wastewater services, particularly with respect to the quality of water the Company delivers to its customers, and the manner in which it collects, treats, discharges, recycles and disposes of wastewater. In the United States, these regulations are developed under federal legislation including the Safe Drinking Water Act, the Reduction of Lead in Drinking Water Act and the Clean Water Act, and under a variety of applicable state laws. Environmental, health and safety, and water quality regulations are complex and may vary from state to state in those instances where a state has adopted a standard that is more stringent than the federal standard. For example, while the EPA has issued a non-enforceable Health Advisory for the combined level of two perfluorinated compounds (perfluorooctanoic acid, or PFOA, and perfluorooctane sulfonic acid, or PFOS), the New Jersey Department of Environmental Protection was the first state agency to establish a standard for perfluorononanoic acid, or PFNA, in 2018 and has since established maximum containment levels for PFOA and PFOS, with implementation occurring in January 2021. The Company is also subject to various federal, state, and local laws and regulations governing the storage of hazardous materials, the management and disposal of hazardous and solid wastes, discharges to air and water, the cleanup of contaminated sites, dam safety and other matters relating to the protection of the environment and health and safety. PUCs also set conditions and standards for the water and wastewater services the Company delivers.

The Company maintains an environmental program that includes responsible business practices focused on compliance with environmental laws and regulations and the effective use of natural resources, recognizing that drinking water standards have generally, over time, increased in number and become increasingly more stringent. As newer or stricter standards are introduced, the Company's capital and operating costs needed to comply with them will likely increase. The Company incurs substantial costs associated with compliance with the environmental, health and safety, and water quality standards to which its operations are subject and the Company invests in technology solutions for enhanced detection and monitoring of water quality issues. The Company estimates that it will make capital expenditures of approximately \$850 million over the next five years, including \$180 million in 2022, for environmental control facilities, which the Company defines for this purpose as any project (or portion thereof) that involves the preservation of air, water or land. The Company believes that its operations are materially in compliance with, and in many cases surpass, minimum standards required by applicable environmental laws and regulations.

The Company's operations also involve the use, storage and disposal of hazardous substances and wastes. For example, the Company's water and wastewater treatment facilities store and use chlorine and other chemicals that generate wastes that require proper handling and disposal under applicable environmental requirements. The Company also could incur remedial costs in connection with any contamination relating to its operations or facilities or its off-site disposal of wastes. The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA"), authorizes the EPA, and comparable state laws authorize state environmental authorities, to issue orders and bring enforcement actions to compel responsible parties to investigate and take remedial actions at any site that is determined to present an actual or potential threat to human health or the environment because of an actual or threatened release of one or more hazardous substances. Parties that generated or transported hazardous substances to such sites, as well as current and former owners and operators of such sites, may be deemed liable, without regard to fault, under CERCLA or comparable state laws. Although the Company is not aware of any material cleanup or decontamination obligations, the discovery of contamination or the imposition of such obligations in the future could result in additional costs to the Company. The Company's facilities and operations are also subject to requirements under the U.S. Occupational Safety and Health Act and inspections thereunder.

Safe Drinking Water Act

The Safe Drinking Water Act and related regulations establish national quality standards for drinking water. The EPA has issued rules governing the levels of numerous, naturally occurring and manufactured chemical and microbial contaminants and radionuclides allowable in drinking water, and continues to propose new rules. These rules also prescribe testing requirements for detecting regulated contaminants, the treatment systems that may be used for removing those contaminants, and other requirements. To date, the EPA has set standards for over 90 contaminants and water quality indicators for drinking water, and there is a process in place to make a regulatory determination on at least five additional compounds every five years.

To help formulate the basis for future regulations, the EPA has the authority to require monitoring for additional, unregulated contaminants under the Unregulated Contaminant Monitoring Rule (the "Monitoring Rule"). The Company's facilities have participated in the data gathering effort for the Monitoring Rule in previous rounds, which occurs every five years, including the fourth round that concluded at the end of 2020. There are millions of other chemical compounds that are not regulated, many of which lack a testing methodology, occurrence data, health effects information and/or cost-effective treatment options. The process of developing new drinking water standards is long and complex, but the Company actively participates with the EPA and other water industry groups by sharing research and water quality operational knowledge. See Research and Development—Contaminants of Emerging Concern for additional information.

To effect the removal or inactivation of microbial contaminants, the EPA has established various rules to improve the disinfection and filtration of drinking water and to reduce consumers' exposure to disinfectants and/or the by-products of their use in the disinfection process. Examples of these rules are the Long-Term 2 Enhanced Surface Water Treatment Rule (the "Long-Term 2 Rule"), the Stage 2 Disinfectants and Disinfection Byproduct Rule, the Ground Water Rule, which is applicable to systems providing water from underground sources and the revised Total Coliform Rule, which implemented a "find and fix" process where exceeding bacterial trigger levels requires an assessment to correct any sanitary defects. The Company is within the EPA's time frame for compliance with all of these standards, which includes sample collection, data analysis, and, in some instances engineering planning and implementation of treatment enhancements. Recent monitoring as required by the Long-Term 2 Rule has indicated that up to 30 of the Company's surface water systems have recently completed or need to implement additional disinfection protection mechanisms against *Cryptosporidium*. In many cases, this will involve installing ultraviolet light disinfection systems, and although several plants have already completed assessments and upgrades, an estimated \$100 million to \$150 million of investment will still be required to upgrade the remaining facilities for *Cryptosporidium* disinfection. Further, the EPA is actively considering regulations for a number of contaminants, including strontium, hexavalent chromium, fluoride, nitrosamines, some pharmaceuticals and certain volatile organic compounds. The Company does not anticipate that any such regulations, if enacted, will require implementation in 2022.

The Company conducted over 10 million water quality and turbidity tests in 2021 at its laboratory facilities and plant operations, including continuous online instrumentations such as monitoring turbidity levels, disinfectant residuals and adjustments to chemical treatment based on changes in incoming water. The Company participates in the Partnership for Safe Water, the EPA's voluntary program to meet more stringent goals for reducing microbial contaminants. With 67 of the Company's surface water treatment plants receiving the EPA program's prestigious "Director" award, which recognizes utilities that (i) have completed a comprehensive self-assessment report, (ii) created an action plan for continuous improvement, and (iii) produced high-quality drinking water, the Company accounts for approximately one-third of the plants receiving such awards nationwide. In addition, 66 of the Company's surface water treatment plants have received the "Five-Year Phase III" award, 62 plants have received the "Ten-Year Phase III" award, 57 plants have received the "Fifteen-Year Phase III" award, and 39 plants have received the "Twenty-Year Phase III" award; these awards recognize plants that have met the Director award status for five, 10, 15 and 20 years, respectively. Further, nine of the Company's surface water plants have received the "Presidents" award, which recognizes treatment plants that achieve the Partnership's rigorous individual filter effluent turbidity standards and have maintained this status for at least five years.

Although it is difficult to project the ultimate costs of complying with the above or other pending or future requirements, the Company expects current cost requirements under the Safe Drinking Water Act and other similar laws to be recoverable through the regulatory process and therefore compliance costs are not expected to have a material impact on its operations or financial condition. In addition, capital expenditures and operating costs to comply with environmental mandates have been traditionally recognized by PUCs as appropriate for inclusion in establishing rates. As a result, the Company expects to recover the operating and capital costs resulting from these pending or future requirements.

Lead and Copper Rule and Reduction of Lead in Drinking Water Act

In 1991, the EPA published the Lead and Copper Rule ("LCR") to control lead and copper in drinking water and, since that time, has issued minor revisions in 2000, 2004 and 2007, enhancing monitoring, reporting and public education requirements. In 2011, Congress enacted the Reduction of Lead in Drinking Water Act regarding the use and introduction into commerce of lead pipes, plumbing fittings for fixtures, solder and flux. While these advances have made an impact in reducing lead exposure in drinking water, legacy lead plumbing materials, primarily in building plumbing, still remain in many communities. The failure of certain water systems in the United States to comply with the requirements of the LCR has received recent media attention and scrutiny, and in certain cases, has led to a number of investigations and the imposition of significant penalties and sanctions against the operators of those systems and others. As part of its ongoing water main replacement and service line renewal projects, the Company has started to replace lead service lines ("LSLs") in accordance with current scientific guidance. Also, the Company utilizes appropriate corrosion control techniques as necessary to comply with current water quality regulatory requirements. The EPA finalized revisions to the LCR (the "Revised LCR") on January 15, 2021 that are designed to provide more effective protection of public health by reducing exposure to lead and copper in drinking water. The Company is executing an implementation strategy to comply with the new requirements, which were originally mandated by January 2024 but have been delayed until at least late 2024 pending EPA additional review. Capital expenditures and operating costs associated with the Revised LCR will be determined once the EPA completes its additional review, but as previously noted, costs associated with compliance with federal water quality regulations have been traditionally recognized by PUCs as appropriate for inclusion in establishing rates.

The Company currently estimates that less than 5% of the service lines within its regulated service territories contain lead on either the Company or customer portion of the service line. The Company is replacing LSLs as part of its ongoing water main replacement and service line renewal projects. The Company's goal is to work with the communities it currently serves to replace a significant majority of presently known LSLs in most of its service areas by the end of 2030, at an estimated cost ranging from \$600 million to \$1.2 billion. The Company believes this will be attainable for most of its service areas where public policy is supportive of this goal. The IJIA was signed into law in November 2021 and provides for up to \$15 billion for lead service line replacement through drinking water state revolving funds. The Company is awaiting further guidance on eligibility, the application process and the distribution of these funds. With regard to future acquisitions, the Company will work with those communities as part of the acquisition process to set LSL removal goals appropriate for those systems. The prioritization of LSL removal is dependent on several factors, including the Company's planned water main and service line renewal projects, adjacent projects by municipalities or other utilities, LCR compliance monitoring results, and cooperation with its customers with respect to replacing the customer-owned portion of the LSL as necessary. In certain cases, these and other factors may result in a shorter or longer time frame for replacement. Because replacing the external LSL in its entirety is advised by several water industry organizations including the U.S. National Drinking Water Advisory Council, the Lead Service Line Replacement Collaborative, and the American Water Works Association, the Company's preferred approach is to replace the entire external LSL if lead is found on either the Company or customer portion of the service line; full LSL replacement is also consistent with the Revised LCR. The Lead Service Line Replacement Collaborative is a diverse group of public health, water utility, environmental, labor, consumer and housing organizations from across the country working together to encourage communities to accelerate the full replacement of LSLs through collaborative efforts at the local level.

Clean Water Act

The Clean Water Act regulates discharges from drinking water and wastewater treatment facilities into lakes, rivers, streams and groundwater. In addition to requirements applicable to the Company's wastewater collection systems, its operations require discharge permits under the National Pollutant Discharge Elimination System ("NPDES") permit program established under the Clean Water Act, which must be renewed every five years. Pursuant to the NPDES permit program, the EPA and implementing states set maximum discharge limits for wastewater effluents and overflows from wastewater collection systems. Discharges that exceed the limits specified under NPDES permits can lead to the imposition of fines and penalties, and persistent non-compliance could lead to significant fines and penalties and other compliance costs. In addition, the difficulty of obtaining and complying with NPDES permits, and renewing expiring permits, may impose time and cost burdens on the Company's operations. From time to time, discharge violations occur at the Company's facilities, some of which result in fines. The Company does not expect any such violations or fines to have a material impact on its results of operations or financial condition.

Research and Development

The Company's Research and Development Program

The Company maintains an industry-leading research and development ("R&D") program that is designed to enhance its services, support its compliance activities, improve service quality and operational effectiveness, and provide environmental leadership. For more than three decades from its inception, American Water's R&D program has evolved into an industry-leading effort and has achieved numerous advancements in the science of drinking water, wastewater, and desalination. Through laboratory and industry resources and the team's expertise, efforts are focused on contaminants of emerging concern, including but not limited to COVID-19, PFAS, Legionella, cyanotoxin-forming algal blooms, a variety of pathogens (for example, Cryptosporidium, Giardia, enteric viruses, and various bacteria), microbial indicators and disinfection byproducts. The Company's R&D personnel are located at the Company's corporate headquarters and at two laboratory testing facilities in New Jersey and Illinois, the latter housing its quality control and testing laboratory, which supports the Company's R&D activities through testing and analysis.

The Company continues to leverage its expertise and collaborates with the EPA and state agencies to help establish effective environmental, health and safety, and water quality standards and regulations. This relationship includes the sharing of the Company's research, such as its treatment and distribution system optimization research and its national water quality monitoring data. The Company's engagement with the EPA provides it with early insight into emerging regulatory issues and initiatives, thereby allowing the Company to anticipate and to accommodate its future compliance requirements. The Company also frequently engages with the Centers for Disease Control and Prevention, other state environmental agencies, and national and international water research foundations. The Company believes that continued R&D activities are critical for providing safe, reliable and affordable services, as well as maintaining its leadership position in the industry, which provides the Company with a competitive advantage as it seeks business and operational growth.

Contaminants of Emerging Concern

Contaminants of emerging concern include numerous chemicals such as PFAS, pharmaceuticals, personal care products, pesticides, herbicides, endocrine disrupting compounds and industrial chemicals, as well as certain naturally occurring microbes, such as bacteria, viruses and parasites, which have been detected in drinking water supplies, for which the risk to the public's health is not fully understood and/or has not been assessed. Technological advances have only recently made it possible to detect many of these contaminants at trace levels. The ability to detect contaminants, even at trace levels, has invited discussion about these contaminants among regulators and government agencies, which in turn shapes the public's perception of drinking water quality.

The Chemicals Abstract Service Registry contains over 192 million registered chemicals, with an estimated 1,400 species of disease-causing microbes that can affect humans. The Company is continually investigating new substances and contaminants, employing a team of scientists, engineers and public health professionals to identify threats to its water supply, to act on emerging regulations and new health advisories, and to evaluate the benefits of alternative or advanced treatment technologies. The Company utilizes water quality testing equipment and implements new and emerging technologies to help detect potential water supply contamination issues. Examples of the Company's efforts include:

- monitoring impacts of the COVID-19 pandemic on environmental virus loads and removal efforts through wastewater systems;
- characterizing factors that contribute to the formation of potentially carcinogenic disinfection by-products to define best practices for their mitigation;
- using its research findings to communicate information to its customers regarding potential actions to limit occurrences of Legionella in their buildings; in this regard, the Centers for Disease Control and Prevention statistics indicate that water-associated disease from Legionella is on the rise, with exposure typically associated with customer-owned plumbing systems in large buildings;
- defining a framework to support management or possible future regulation of opportunistic pathogens;
- developing expanded monitoring methods for PFAS compounds and piloting treatment techniques;
- leading a PFAS risk communication strategy for the water sector;
- using innovative technologies to detect and manage algal blooms to help prevent taste and odor events and cyanotoxins before they get to the water treatment plant;
- monitoring of taste and odor issues that impact customer satisfaction using expanded analytical methods to detect compounds, and evaluating and recommending treatment practices;
- implementing water source assessment tools, including sensors and data analytics, to evaluate and track chemical storage and aid in the identification of source water contamination events;
- developing methodology and advanced measurement techniques for contaminants of emerging concern to investigate transport, occurrence and treatment; and
- implementing activated carbon, biofiltration and ion exchange treatment to seek to control contaminants of emerging concern.

Service Company and Security

American Water Works Service Company, Inc. ("Service Company") is a wholly owned subsidiary of the Company that provides support and operational services to the Company and its affiliates. These services are predominantly provided to the Company's Regulated Businesses under contracts that have been approved by PUCs, where necessary, and are also provided to its Market-Based Businesses as requested or may otherwise be necessary. Services provided by Service Company may include accounting and finance, administration, business development, communications, compliance, education and training, engineering, health and safety, human resources, information systems, internal audit, investor relations, legal and governance, operations, procurement, R&D, rates and regulatory support, security, risk management and insurance, treasury, and water quality. Service Company also provides customer support to the Company's Regulated Businesses, which includes call handling, billing, a major accounts program and other related services. Services are provided by Service Company at cost, enabling the Company's operating subsidiaries to fulfill their responsibilities in a cost-effective manner, while providing them access to in-depth, functional expertise.

The Company's security team provides oversight and policy guidance on physical, cyber and information security, as well as business continuity, throughout its operations. It is responsible for designing, implementing, monitoring and supporting effective physical and technical security controls for the Company's physical assets, business systems and operational technologies. Risk assessments are conducted periodically to evaluate the effectiveness of existing security controls and serve as the basis for additional safeguards, security controls and measures. Operational and technical security controls are deployed and integrated as safeguards against unauthorized access to the Company's information systems. These controls are aimed at (i) assuring the continuity of business processes that are dependent upon automation, (ii) maintaining the integrity of the Company's data, (iii) supporting regulatory and legislative compliance requirements, and (iv) maintaining safe and reliable service to the Company's customers. The Company engages in partnerships with U.S. federal, state and local law enforcement agencies to coordinate and improve the security of its water delivery systems and to safeguard its water supply and operations.

Environmental, Social Responsibility and Governance

The Company considers environmental, social responsibility and governance ("ESG") principles fundamental to its corporate strategy and values. Integration of these principles into the Company's daily operations emphasizes its belief that "how" a company operates is just as important as "what" a company does. The Company's vision and values drive its strategies, which are centered on five central themes:

- **Safety**—The safety of the Company's employees and customers is the number one focus for American Water.
- **Customers**—The Company's customers are at the center of everything it does, helping the Company to shape its strategic priorities.
- **People**—Maintaining an environment that is open, transparent, diverse and inclusive, and where the Company's people feel valued, included and accountable, is critical to the Company's ability to serve its customers every day.
- **Operational Excellence**—The Company strives to find better and more efficient ways to do business, and to provide safe, clean and affordable water services for its customers.
- **Growth**—The Company believes that through growth, it can invest in creating more jobs, better training and benefits, and improved infrastructure in its communities. The Company's growth also creates greater efficiencies of scale and drives improved customer affordability, which benefits all of its stakeholders, including shareholders.

In 2021, the Company issued its sixth biennial Sustainability Report, covering its sustainability performance for calendar years 2020 and 2019. This report can be accessed on the Company's website. In addition, the Company issued its first annual Inclusion & Diversity Report, which shares the inclusion and diversity strategies, practices, policies, and programs from across the business. The Company's values and actions have achieved prestigious recognition by many leading firms devoted to recognizing companies that demonstrate ESG leadership. Most recently, the Company received the highest S&P Global Ratings ESG Evaluation score given to a U.S. company and the third highest globally, and was ranked 19th within Barron's list of the 100 Most Sustainable Companies. Additionally, the Company was included in the Bloomberg Gender Equality Index for the fourth consecutive year, and the Company recently achieved the ranking of sixth on the Corporate Knights' Global 100 Most Sustainable Corporations in the World index.

The following goals and actions highlight the Company's commitment to embedding ESG principles throughout its business:

Environmental and Sustainability

- Energy and Emissions for the Company's Regulated Businesses
 - The Company clarified its existing goal to reduce by more than 40% its greenhouse gas ("GHG") emissions by 2025, from a 2007 baseline, as an absolute measurement of its scope 1 (direct) emissions, and scope 2 (indirect, derived from the Company's purchases of energy) emissions.
 - The Company lowered its GHG emissions through December 31, 2020 by approximately 36% since its base year of 2007. GHG emissions data for the full calendar year 2021 is expected to be released in April 2022.
- Water Efficiency and Resiliency for the Company's Regulated Businesses
 - The Company established a water efficiency goal to meet customer needs while saving 15% in water volume delivered per customer by 2035, compared to a 2014 and 2015 averaged baseline. The Company has lowered its water delivery per customer over the last three years. The Company reduced its water volume delivered per customer compared to a 2015 baseline by 5.0%, 5.3% and 4.3% as of December 31, 2021, 2020, and 2019, respectively.

- The Company has further utilized a uniform water system resiliency metric, the Utility Resilience Index (“URI”), to track enhancements in the Company’s ability to prepare for, respond to, remediate and effectively manage incidents impacting its operations. The Company plans to increase its URI weighted average by 10% by 2030 from a 2020 baseline. The URI is a part of the American Water Works Association’s J-100 voluntary consensus risk and resilience standard and focuses on a utility’s ability to manage incidents affecting its customers, employees and assets, and return to normal operations as quickly as possible.
- Approximately 10-12% of the Company’s total projected capital investment over the next five years is dedicated to resiliency, accounting for approximately \$1.2 billion to \$1.4 billion allocated to renewing and improving assets of the Regulated Businesses.
- Policy Leadership
 - The Company employs a team of R&D scientists dedicated to partnering with water research organizations on water quality and technology-based source water monitoring.
 - The Company collaborates and partners with federal and state agencies to support effective environmental, health and safety and water quality standards and regulations.

Social Responsibility

- Customers
 - For 2021, the Company achieved an aggregate customer satisfaction rating in the top quartile among the Company’s industry peer group.
 - To better reflect the customers that the Company serves, the Company increased spend with diverse suppliers and small businesses in 2021 by more than 10% year over year.
- Employees
 - During 2021, over 109,000 hours of safety training were completed by the Company’s employees.
 - The Company has made significant progress toward its zero injuries goal, reducing workplace injuries by 66% since 2015. Through year end 2021, the Company has further reduced its OSHA recordable injury rate (“ORIR”) to 0.97, the lowest in the Company’s recorded history, which is approximately two times better than the water industry average.
 - During 2021, approximately 86% of the Company’s job requisitions had a diverse candidate pool, with approximately 58% of transfers or promotions filled by diverse individuals.
 - In 2021, the Company named Cheryl Norton as its first female Executive Vice President and Chief Operating Officer.
- Communities
 - In December 2021, the Company authorized the contribution of \$45 million to the American Water Charitable Foundation (“AWCF”), a 501(c)(3) private foundation established by American Water in 2010.
 - More than \$941 thousand was donated in 2021 by the Company’s employees and the AWCF through workplace giving campaigns including the United Way, Water For People and other volunteering giving campaigns that supported more than 1,500 public charities nationwide.

Governance

- Board and Committees
 - The Board of Directors and each of its standing committees are led by an independent, non-executive chairperson.
 - The Board of Directors met 14 times in 2021.
 - The Board of Directors reflects gender, racial and experiential diversity. As of December 31, 2021, 54.5% of the Company’s directors voluntarily self-identified as female or racially diverse.
 - The Company’s average director tenure was approximately 7.2 years as of December 31, 2021.

- Demonstrated and Representative Expertise
 - The members of the Company’s Board of Directors have demonstrated expertise, including, among others, experience in utility and finance operations, customer service, cybersecurity, the military, financial services and capital markets, service as a public company CEO, CFO and/or board member, and management of global operations.
- Transparency
 - The Company discloses on its website its Political Contributions Policy and, on an annual basis, information related to its political contributions and lobbying expenditures.
 - The Company makes available on its website its ESG goals and achievements.

Human Capital Resources

Overview

The Company’s people are a critical part of its business, and the Company’s investment in its people begins with recruitment of qualified and diverse talent. The Company believes that representing the communities in which it serves plays a key role in its ability to serve its customers and improves its talent. The Company promotes an inclusive culture where its employees are given the opportunity to develop to their fullest potential and understand that they directly contribute to the Company’s ability to operate, grow and serve its customers. The Company believes that investing in the safety, health and well-being of its employees is a key component of its people and culture goals, and that these investments in its people allow employees to generate great ideas, provide quality customer service and make a difference in the lives of the Company’s customers.

Employee Health and Safety

A longstanding value and strategy of the Company is safety. In this regard, the Company continues to focus on the safety of its employees and contractors so that they may return home from work in the same, or better, condition than when they arrived. The Company strives for all employees to feel emotionally safe, live a healthy lifestyle and be physically safe at work and at home. The Company assesses occupational health and safety to measure performance across the entire organization, with the ultimate goal of achieving zero incidents, injuries and fatalities for the Company’s employees and contractors.

To uphold the Company’s commitment to safety, the Company’s employees completed over 100,000 hours of employee safety training during 2021. Additionally, through frequent labor-management meetings, the Company encourages open exchanges to explore new ways to further enhance safety on the job. All employees are empowered to demonstrate safety leadership by taking the time they need to complete a task safely and to use “Stop Work Authority” — the power to stop working immediately whenever they believe a task is unsafe — to personally mitigate the hazard or issue or collaborate with management to create a safe situation. The Company believes that this Stop Work Authority is so important that it is stated on the back of every employee’s identification badge.

For 2021, the Company had its lowest ORIR injury rate in its recorded history, achieving a 2% reduction compared to 2020, even though labor hours increased by 5%. Also, the number of injuries for purposes of the Company’s Days Away Restricted or Transferred (“DART”) rate decreased by 14% compared to 2020. For 2021, the Company’s ORIR was 0.97 (64 injuries) and its DART rate was 0.54 (36 injuries), compared to an ORIR of 0.99 (63 injuries) and a DART rate of 0.63 in 2020.

In 2021, American Water teams led by promoting safety leading indicator activities, including pre-job safety briefings and near miss reporting, and by achieving internal Certified Safe Worker designations. Near miss reports, where employees report potential hazards or incidents in a safe and secure manner, increased by 27% in 2021 over 2020, and 99% of near miss incident corrective actions were completed within 30 days, meeting the Company’s 2021 goal. The Company utilizes near miss reporting and timely corrective actions as key measurements of employee engagement and safety performance.

Understanding that some employees may have delayed seeking preventative or other medical care due to the COVID-19 pandemic, a 2021 priority for the Company was to encourage employees to increase their utilization of preventative exams. Through the Company’s marketing efforts and targeted incentives in its myWellness program, the Company sought to encourage employees to take preventative health actions. The number of total preventative care exams completed by the Company’s employees increased by 15% during 2021 compared to 2020.

Supporting Employees During the COVID-19 Pandemic

American Water remains committed to the health, well-being and safety of its employees and families, as well as its customers and communities. The Company's Emergency Crisis Response Team ("ECRT") continued to deploy a COVID-19 contact tracing program to reduce the risk of COVID-19 transmission at work. The ECRT consistently monitors current events and the latest public health guidance and adjusts workplace safety measures and the Company's COVID-19 guidance accordingly. During the pandemic, American Water provided temporary medical and emotional health benefits, including paid time off and emergency leave. The Company also supported employees and their families during the uncertainty of the pandemic by providing additional resources, such as enhanced well-being support, workplace flexibility, back-up dependent care, caretaker database discounts and academic support. American Water did not lay off any employees due to the pandemic.

As an essential business that must continue to provide water and wastewater services during the COVID-19 pandemic, the Company continued to focus on the care and safety of its employees, contractors, vendors and others who work at or visit the Company's worksites. In 2021, as COVID-19 vaccines became more readily available, the Company began planning for the reintegration of those who had been working remotely back to its work facilities, and also began to implement safety protocols based on current COVID-19 health guidance for the return of employees to perform work in customers' homes. Furthermore, the Company has continued to support employee health and safety by providing safety training and resources, continuing to enforce safety protocols such as maintaining social distancing, requiring the use of face coverings at work, and encouraging good hygiene and frequent handwashing and cleaning of work areas. The Company continues to receive input from its employees via pulse surveys throughout the COVID-19 pandemic, which has also helped to shape the Company's pandemic-related responses and a flexible return to hybrid work where possible. Throughout the fall of 2021, managers and employees who had been working remotely during the pandemic began to return to the Company's offices and facilities with increasing frequency, in preparation for a three-day in-person, two-day remote work week, where feasible.

Inclusion, Diversity and Equity

In 2021, the Company continued to evolve its inclusion and diversity strategic framework to include equity. The Company defines equity as fair treatment, access, opportunity and advancement for all people, while also eliminating barriers that may prevent some groups from full participation. The Company promotes an environment where inclusion, diversity and equity are embedded in its culture. At all levels, the Company strives to understand, respect, value and provide equal opportunity to each employee. The Company seeks to foster an environment where employees' differences are embraced and celebrated. The Company holds as an essential concept the right of employees to proudly share their ideas and unique perspectives in an environment built on mutual respect, equity and inclusion. The Company is committed to diversity among its workforce, executive and senior management leadership teams, by reflecting the diversity of the communities in which the Company serves. The Company expects all of its leaders to lead with inclusion, diversity and equity.

During 2021, the Company published its first Inclusion & Diversity Report. The report shares the Company's diversity strategies, practices, policies and programs from across the business and includes more than 100 data points related to building a culture of inclusion. The following graphic highlights the Company's principal employee inclusion, diversity and equity metrics for 2021 based on its employee headcount as of January 1, 2022, and which are based on responses from employees who voluntarily self-reported this information to the Company.

During 2021, 85.6% of the Company’s hiring candidate pools were diverse. For this purpose, diversity refers to gender, race, ethnicity, disability and/or veteran/military status, based on voluntary, self-identified employee information.

The Company maintains active memberships with groups such as Hiring our Heroes, Military Spouse Employment Partnership, American Corporate Partners, CEO Action for Diversity and Inclusion, Disability:IN, Paradigm for Parity, and Out and Equal, to further enhance its ability to recruit and retain diverse employees. Among this year’s recognitions, the Company was designated as a 2021 Military Friendly® Top 10 Gold Employer and recognized by Military Times for its industry-leading efforts on hiring and supporting U.S. military veterans. The Company was also a top scorer in the 2021 Disability Equality Index for the third consecutive year and was recognized by U.S. Veterans Magazine as a veteran-friendly company and as an organization with a veteran-friendly supplier diversity program.

In keeping with the Company’s values, the Company does not tolerate discrimination, harassment or retaliation by or toward any employee, vendor, customer or other person in its workplace. All employees are required to complete anti-harassment, workplace respect and dignity, unconscious bias and inclusion and diversity training. In addition, annual Code of Ethics training is provided to all employees, which includes education on using the Company’s anonymous hotline for reporting potential Code of Ethics violations.

In 2021, the Company launched four employee business resource groups (“EBRGs”), which represent diverse employee demographics (Women, African American/Black, LGBTQ+ and Disabilities) throughout the Company. EBRGs offer opportunities for employees to share ideas and best practices, and to create measurable and long-lasting positive impacts on the Company’s culture. The Company’s Inclusion and Diversity Advisory Council oversees the formation, goals and actions of the EBRGs to support the Company’s inclusion diversity and equity priorities.

To further its commitment to inclusion, diversity and equity, and in response to feedback from employees about work-life balance, in 2021, the Company announced a new Inclusion Holiday Swap benefit, to allow the opportunity for all employees to swap a Company holiday with another day of their choosing that more closely reflects their personal values, beliefs or culture. In addition, the Company is evaluating the implementation of workforce diversity goals in certain of its compensation programs.

Total Rewards

Employees are considered the Company’s greatest assets and the Company views their overall well-being to be as important as their physical safety. American Water’s health and well-being programs aim for employees to go home in the same or better condition than when they came to work. Health and well-being programs are approached holistically by offering the following benefits, among others: medical, prescription, dental, vision, disability and life insurance coverage, as well as a health and wellness program and a menu of additional voluntary benefits. The Company’s Total Rewards programs are designed to reflect many aspects of employee health and well-being, cultivate an inclusive workforce and motivate, attract and retain talent to seek to achieve the Company’s strategic business priorities.

As part of Total Rewards, the Company provides a comprehensive compensation and benefit program designed to recognize the vital roles the Company’s employees play. Further, all of the Company’s employees, including those who are union-represented,

participate in the Company's Annual Performance Plan, to promote alignment in bonus compensation to the Company's short-term performance goals. Moreover, all employees who average 30 hours or more per week receive full-time benefits. Approximately 90% of all benefit eligible employees are enrolled in the Company's healthcare benefits. Full-time employees pay approximately 16% of the total cost of medical, dental and vision coverage. The Company offers its non-union employees who average 20 to 30 hours per week medical, dental and vision coverage at 50% of the total cost. Additional medical benefits include coverage for applied behavior analysis, autism treatment, transgender services and hearing aids, as well as a fertility assistance benefit to assist employees in building a family. The Company also offers additional employment benefits, including holiday, vacation and sick time, which are at levels generally greater than or equal to those offered by other companies in the utility industry. For example, the Company offers its employees up to two weeks of paid leave in connection with the birth, adoption or foster placement of a child, or to take care of a sick family member.

The Company believes that good emotional and mental health is fundamental, and offers a behavioral health benefit to assist employees and their families to maintain their well-being. Additionally, the Company offers an employee assistance program (EAP) that provides all employees and their eligible dependents with access to a variety of support resources free of charge. The EAP provides confidential support through its Work-Life Specialists to help individuals who are experiencing a variety of challenges, including financial, legal, family and emotional needs. The EAP provides guidance, resources and expert referrals based on an individual's needs. In addition, the Company provides all employees and their families with access to an interactive online wellness program that supports and encourages a healthy lifestyle both at work and at home. In 2021, the Company enhanced its internal myWellness website to include additional tools and activities for employees, including customized programs and action cards tailored to an individual's self-identified health needs.

Talent Development

The Company provides learning opportunities and work experiences to equip its employees with the tools, skills, and competencies they need to operate safely and effectively and to grow professionally. To this end, the Company has established an Employee Experience and Talent Development team to help develop and deploy programs that are designed to attract, motivate, develop and retain talented employees, and foster a learning culture. The Company requires every employee, including its union-represented employees, to complete a minimum of 25 hours of training each year (an increase in the 20-hour requirement for 2020). Approximately 98% of active full-time employees hired before October 1, 2021 met this requirement for 2021, with over 331,000 hours of total training completed during the year, including approximately 109,000 hours of safety training. In addition to required role-based training, managers assist employees to identify professional development opportunities to help them reach their full potential and grow their careers. Additionally, in 2021, approximately 58% of the Company's internal employee transfers and promotions were diverse (defined as female, minority, disability, military, military spouse, and LGBTQ+ status, based on voluntary employee self-identification), which reflects the Company's commitment to employee development and career growth as well as the Company's focus on diversity, inclusion and equity, and a desire for its employees to reflect the communities in which it operates.

Developing talent and ensuring a pipeline to executive leadership is a critical priority for the Company. During 2021, the Company engaged in succession planning activities for the Company's critical positions and executive leaders. These succession plans aid in providing continued leadership for the growth and future of the Company's business, while also seeking to promote diversity, retention and development. In addition to succession of executive leadership roles, in 2022, the Company plans to focus on talent reviews, which will include identification of critical skill and competency areas, a focus on diverse emerging talent, and a discussion of strengths, gaps, and development plans. Talent reviews will be conducted for a select group of employees, including employees who are being assessed for senior leadership or other critical roles.

Employee Experience

The Company's employee value proposition ("EVP") focuses on employee experience as an influencer of an employee's opinions and emotional response about the Company as an employer. The Company continually seeks to shape and refine its employee experience, and therefore its EVP, by offering an inclusive employee culture, employee development opportunities and competitive compensation and benefits. In developing its current EVP, the Company identified components that it believes are important to its employees and then solicited and received feedback from over 400 Company employees on those components to understand better the aspects that they value from their employer. From this employee outreach, and as a part of its EVP, the Company developed weCare, which is comprised of the following five components: deeper connections, personal growth, shared purpose, flexibility and well-being.

Workforce Data

As of January 1, 2022, the Company had approximately 6,400 employees. For 2021, the Company's employee turnover rate, which the Company defines as the ratio of the number of separated employees to the 12-month average headcount during 2021, was 13.1%, up from 7.4% in 2020. American Water seeks to reduce employee turnover by assessing its EVP and through its efforts to foster the Company's employee experience.

As of January 1, 2022, approximately 47% of the Company’s workforce was represented by unions, which include 73 collective bargaining agreements with 14 different unions. Additionally, in 2022, the Company has begun to negotiate two new collective bargaining agreements, which would cover approximately 180 employees. During 2022, 21 of the Company’s collective bargaining agreements are set to expire in accordance with their terms and the Company expects to be able to negotiate these agreements during the year. The Company collaborates with union leadership on topics such as safety, customer, technology and employee benefits in forums such as the Joint Healthcare Committee, National Labor Management Committee and the annual Labor Management Conference.

Board Oversight

The Executive Development and Compensation Committee (“ED&CC”) of the Board of Directors establishes and reviews the Company’s overall compensation philosophy and oversees the compensation and benefits plans and programs for its executive officers. The ED&CC oversees the process of planning for executive officer succession. It also provides oversight of the Company’s inclusion, diversity and equity programs and initiatives. Further, the ED&CC is responsible for reviewing and assessing, at least annually, the Company’s culture and related culture engagement, its organizational and leadership development plans and programs, and its programs designed to identify, attract and retain high-potential employees.

Information About Our Executive Officers

Presented in the table below are the name, age, offices held and business experience for each of the Company’s executive officers, as of February 16, 2022:

Name	Age	Office and Experience
M. Susan Hardwick	59	President, Chief Executive Officer and Chief Financial Officer. Ms. Hardwick joined the Company in June 2019 as its Executive Vice President—Finance and has served as its Executive Vice President and Chief Financial Officer since July 2019. From December 7, 2021 until January 31, 2022, Ms. Hardwick also served as Interim Chief Executive Officer, and, on February 2, 2022, was elected as President and Chief Executive Officer. Ms. Hardwick previously served as the Executive Vice President and Chief Financial Officer of Vectren Corporation, which was sold to CenterPoint Energy, Inc., an electric and natural gas utility, on February 1, 2019. Ms. Hardwick joined Vectren Corporation in January 2000 and served in a variety of positions, including: Vice President, Controller and Assistant Treasurer; Senior Vice President, Finance; Senior Vice President, Chief Financial Officer; and Executive Vice President and Chief Financial Officer. Prior to joining Vectren, Ms. Hardwick was Assistant Corporate Comptroller at Cinergy Corp. She began her career with Arthur Andersen & Co. Ms. Hardwick is a Certified Public Accountant. Since September 2020, Ms. Hardwick has served on the Board of Directors of New Jersey Resources Corporation, a diversified energy services company, where she is currently serving a three-year term expiring in 2024, and since January 1, 2021, she has served as a member of its Audit Committee.
Maureen Duffy	52	Senior Vice President, Communications and External Affairs. Ms. Duffy has served as Senior Vice President, Communications and External Affairs since January 2020 and has been an executive officer of the Company since June 2020. Prior to that, Ms. Duffy served as Vice President, Corporate Communications and Federal Affairs from May 2017 to December 2019 and Vice President, Corporate Communications and External Affairs from September 2011 to May 2017. From July 2006 to September 2011, Ms. Duffy held various positions of increasing responsibility in the Company’s internal and external corporate communications function. From November 1999 to July 2006, she held various positions with the Company’s New Jersey subsidiary, including Government Affairs/Media Specialist, Communications Manager and Director of Corporate Communications. Prior to joining American Water, Ms. Duffy reported and produced news for WJLN/WNET-TV.
Melanie M. Kennedy	48	Executive Vice President, Chief Human Resources Officer. Ms. Kennedy has served as the Company’s Executive Vice President, Chief Human Resources Officer since December 9, 2021, and as Senior Vice President, Chief Human Resources Officer from December 2020 to December 2021. Prior to that, she served as the Company’s Senior Vice President, Human Resources from March 2017 to December 2020. From August 2014 through February 2017, Ms. Kennedy served as the Company’s Vice President, Human Resources, and from August 2012 to August 2014, she served as Director, Human Resources in the Company’s Northeast Division. Ms. Kennedy initially joined the Company in 2007, and before that time, she practiced law for nine years.

Name	Age	Office and Experience
James S. Merante	47	Vice President and Treasurer. Mr. Merante has served as the Company's Vice President and Treasurer since February 2019. Prior to that, Mr. Merante was Vice President, Internal Audit from February 2018 to February 2019, and served as Divisional Chief Financial Officer for the Company's Mid-Atlantic Division from July 2014 until February 2018. Mr. Merante is a Certified Public Accountant.
Adam Noble	56	Chief Technology and Innovation Officer. Mr. Noble has over 30 years of collective experience in the information technology sector. Mr. Noble joined the Company in August 2020 as its Chief Technology and Innovation Officer. Prior to joining the Company, Mr. Noble served as Senior Vice President and Chief Information Officer of Veritiv Corporation, a North American business-to-business distributor of packaging and facility solutions, since June 2019. Previously, Mr. Noble served as Senior Vice President and Global Chief Information Officer at GAF Materials Corporation, a global manufacturing company, from May 2010 to March 2019, and as its Vice President and Chief Information Officer from May 2006 to April 2010.
Cheryl Norton	57	Executive Vice President and Chief Operating Officer. Ms. Norton has over 30 years of employment with the Company serving in various roles, including operational leadership, environmental stewardship, laboratory management and research. She has been serving as the Company's Executive Vice President and Chief Operating Officer since March 1, 2021 and served as its Senior Vice President, Chief Environmental Officer from March 2020 to March 2021. She was also the Company's Senior Vice President, Eastern Division and President of its New Jersey subsidiary from March 2019 to March 2021. Prior to that, Ms. Norton served as President of the Company's Missouri subsidiary from November 2015 to March 2019, and President of its Kentucky subsidiary from January 2011 until November 2015. In addition, Ms. Norton also serves as a member of the Board of Directors of the Water Research Foundation.
Melissa K. Wikle	56	Chief Accounting Officer. Ms. Wikle joined the Company in July 2016 as its Vice President and Controller and assumed the duties of the Company's principal accounting officer in August 2016. She has served as Chief Accounting Officer since December 9, 2021. Prior to joining the Company, Ms. Wikle served as Corporate Controller and Chief Accounting Officer of Columbus McKinnon Corporation, a publicly traded worldwide designer, manufacturer and marketer of material handling products, systems and services, since April 2011. Ms. Wikle is a Certified Public Accountant.

Each executive officer is elected annually by the Board of Directors and serves until his or her respective successor has been elected and qualified or his or her earlier death, resignation or removal.

Available Information

The Company is subject to the reporting requirements of the Exchange Act. The Company files or furnishes annual, quarterly and current reports, proxy statements and other information with the SEC. Readers may obtain a copy of the Company's annual reports on Form 10-K, its quarterly reports on Form 10-Q or its current reports on Form 8-K, or any amendments to them, that are filed with or furnished to the SEC, free of charge, from the Investor Relations section of the Company's website, <https://ir.amwater.com>, as soon as reasonably practicable after the Company files or furnishes the information to the SEC.

The Company maintains a website at <https://amwater.com>. Information contained on the Company's website, including its Sustainability Report, its Inclusion and Diversity Annual Report, and other reports or documents, shall not be deemed incorporated into, or to be a part of, this report, and any website references included herein are not intended to be made through active hyperlinks. The Company recognizes its website as a key channel of distribution to reach public investors and as a means of disclosing information to comply with SEC Regulation FD.

The American Water corporate governance guidelines and the charters for each of the standing committees of the Board of Directors, together with the American Water Code of Ethics and additional information regarding the Company's corporate governance, are available on its Investor Relations website, <https://ir.amwater.com>, and will be made available, without charge, in print to any shareholder who requests such documents from its Investor Relations Department, American Water Works Company, Inc., 1 Water Street, Camden, NJ, 08102.

ITEM 1A. RISK FACTORS

We operate in a market and regulatory environment that involves significant risks, many of which are beyond our control. In addition to the other information included or incorporated by reference in this Annual Report on Form 10-K, the following material factors should be considered in evaluating our business and future prospects. Any of the following risks, either alone or taken together, could materially and adversely affect our business, financial position, results of operations, cash flows and liquidity.

Risks Related to Our Industry and Business Operations

Our Regulated Businesses are subject to extensive regulation by state PUCs and other regulatory agencies, which significantly affects our business, financial condition, results of operations and cash flows. Our Regulated Businesses also may be subject to fines, penalties and other sanctions for an inability to meet these regulatory requirements.

Our Regulated Businesses provide water and wastewater services to our customers through subsidiaries that are subject to regulation by state PUCs. This regulation affects the rates we charge our customers and has a significant impact on our business and operations. Generally, the state PUCs authorize us to charge rates that they determine are sufficient to recover our prudently incurred operating expenses, including, but not limited to, operating and maintenance costs, depreciation, financing costs and taxes, and provide us with the opportunity to earn an appropriate rate of return on invested capital.

Our ability to successfully implement our business plan and strategy depends on the rates authorized by the various state PUCs. We periodically file rate increase applications with state PUCs. The ensuing administrative process may be lengthy and costly. Our rate increase requests may or may not be approved, or may be partially approved, and any approval may not occur in a timely manner. Moreover, a PUC may not approve a rate request to an extent that is sufficient to:

- cover our expenses, including purchased water and costs of chemicals, fuel and other commodities used in our operations;
- enable us to recover our investment; and
- provide us with an opportunity to earn an appropriate rate of return on our investment.

Approval by the PUCs is also required in connection with other aspects of our Regulated Businesses, which are required to have numerous permits, approvals and certificates from the PUCs that regulate their businesses and authorize acquisitions, dispositions, debt and/or equity financing, and, in certain cases, affiliated transactions. Some state PUCs are empowered to impose financial penalties, fines and other sanctions for non-compliance with applicable rules and regulations. Although we believe that each utility subsidiary has obtained or sought renewal of the material permits, approvals and certificates necessary for its existing operations, we are unable to predict the impact that future regulatory activities may have on our business.

PUCs and other governmental authorities have taken, and may continue to take, emergency or other actions in light of the on-going COVID-19 pandemic that may impact us, including prohibiting the termination of service for non-payment and extending or delaying procedural schedules in our regulatory proceedings. We are unable to predict the range of impacts that the ongoing COVID-19 pandemic and other related events may have on our ability to obtain these approvals as needed or requested by our Regulated Businesses in the ordinary course or at all, or the nature or impacts of any further emergency or other action that may be taken by the PUCs or other governmental authorities.

In any of these cases, our business, financial condition, results of operations, cash flows and liquidity may be adversely affected. Even if the rates approved are sufficient, we face the risk that we will not achieve the rates of return on our invested capital to the extent permitted by state PUCs. This could occur if certain conditions exist, including, but not limited to, water usage is less than the level anticipated in establishing rates, customers increase their conservation efforts, or we experience unanticipated impacts of the on-going COVID-19 pandemic, or if our investments or expenses prove to be higher than the levels estimated in establishing rates.

Our operations and the quality of water we supply are subject to extensive and increasingly stringent environmental, water quality and health and safety laws and regulations, including with respect to contaminants of emerging concern, compliance with which could impact both our operating costs and capital expenditures, and violations of which could subject us to substantial liabilities and costs, as well as damage to our reputation.

Our regulated water and wastewater operations and the operations of our Market-Based Businesses are subject to extensive federal, state and local laws and regulations. These requirements include, among others, CERCLA, the Clean Water Act, the Safe Drinking Water Act, the LCR, and other federal and state requirements. For example, state PUCs and environmental regulators set conditions and standards for the water and wastewater services we deliver. If we deliver water or wastewater services to our customers that do not comply with regulatory standards, or otherwise violate environmental laws, regulations or permits, or other health and safety and water quality regulations, we could incur substantial fines, penalties or other sanctions or costs, as well as damage to our reputation. In the most serious cases, regulators could reduce requested rate increases or force us to discontinue operations and sell our

operating assets to another utility or to a municipality. Given the nature of our business which, in part, involves providing water service for human consumption, any potential non-compliance with, or violation of, environmental, water quality and health and safety laws or regulations would likely pose a more significant risk to us than to a company not similarly involved in the water and wastewater industry.

In addition, CERCLA authorizes the EPA to issue orders and bring enforcement actions to compel responsible parties to investigate and take remedial actions with respect to actual or threatened releases of hazardous substances, and can impose joint and several liability, without regard to fault, on responsible parties for the costs thereof. We are also required to obtain various environmental permits from regulatory agencies for our operations.

We incur substantial operating and capital costs on an ongoing basis to comply with environmental, water quality and health and safety laws and regulations. These laws and regulations and their enforcement, have become more stringent over time, and new or stricter requirements could increase our costs. Although we may seek to recover ongoing compliance costs in our Regulated Businesses through customer rates, there can be no guarantee that the various state PUCs or similar regulatory bodies that govern our Regulated Businesses would approve rate increases that would enable us to recover such costs or that such costs will not materially and adversely affect our financial condition, results of operations, cash flows and liquidity.

We may also incur liabilities if, under environmental laws and regulations, we are required to investigate and clean up environmental contamination, including potential releases of hazardous chemicals, such as chlorine, which we use to treat water, or at off-site locations where we have disposed of residual waste or caused an adverse environmental impact. The discovery of previously unknown conditions, or the imposition of cleanup obligations in the future, could result in significant costs and could adversely affect our financial condition, results of operations, cash flows and liquidity. Such remediation costs may not be covered by insurance and may make it difficult for us to secure insurance at acceptable rates in the future.

Attention is being given to contaminants of emerging concern, including, without limitation, chemicals and other substances that currently do not have any regulatory standard in drinking water or have been recently created or discovered (including by means of scientific achievements in the analysis and detection of trace amounts of substances). Examples of sources of contaminants include, but are not limited to, newly created chemical compounds (including, for example, manufactured nanomaterials); human and veterinary products; perfluorinated and polyfluorinated compounds; bacteria, microbes, viruses (including the coronavirus), amoebae and other pathogens; and residual by-products of disinfection. We rely upon governmental agencies to set appropriate regulatory standards to protect the public from these and other contaminants, and our role is to provide service that meets these standards, if any. In some of our states, PUCs may disapprove of cost recovery, in whole or in part, for implementation of treatment infrastructure for a contaminant in the absence of a regulatory standard. Furthermore, given the rapid pace at which these contaminants are being created and/or discovered, we may not be able to detect and/or mitigate all such substances in our drinking water system or supplies, which could have a material adverse impact on our financial condition, results of operations and reputation. In addition, we believe these contaminants may form the basis for additional or increased federal or state regulatory initiatives and requirements in the future, which could significantly increase the cost of our operations.

Limitations on availability of water supplies or restrictions on our use of water supplies as a result of government regulation or action may adversely affect our access to sources of water, our ability to supply water to customers or the demand for our water services.

Our ability to meet the existing and future demand of our customers depends on the availability of an adequate supply of water. As a general rule, sources of public water supply, including rivers, lakes, streams, groundwater aquifers and recycled water sources, are held in the public trust and are not generally owned by private interests. As a result, we typically do not own the source water that we use in our operations, and the availability of our water supply is established through allocation rights (determined by legislation or court decisions) and passing-flow requirements set by governmental entities or by entering into water purchase agreements. These requirements, which can change from time to time, and vary by state or region, may adversely impact our water supply. Supply issues, such as drought, overuse of sources of water, the protection of threatened species or habitats, contamination or other factors may limit the availability of ground and surface water. If we are unable to secure available or alternative sources of water, our business, financial condition, results of operations and cash flows could be adversely affected.

For example, in our Monterey County, California operations, we are seeking to augment our sources of water supply, principally to comply with an October 2009 cease and desist order (the “2009 Order”), as amended by a July 2016 order (the “2016 Order”), of the SWRCB that requires our California subsidiary to significantly decrease its diversions from the Carmel River in accordance with a reduction schedule that terminated on December 31, 2021 (the “2021 Deadline”). See Item 3—Legal Proceedings—Alternative Water Supply in Lieu of Carmel River Diversions, which includes additional information regarding this matter. We are also required to augment our Monterey County sources of water supply to comply with the requirements of the Endangered Species Act. Beginning in January 2022, Cal Am currently expects that it will be able to comply with the diversion reduction requirement schedule contained in the 2016 Order, but continued compliance with the diversion reduction requirements for 2023 and future years

will depend on successful development of alternate water supply sources sufficient to meet customer demand. The 2009 Order and the 2016 Order remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the 2009 Order and the 2016 Order may result in material additional costs or obligations, including fines and penalties against our California subsidiary in the event of noncompliance with the 2009 Order and the 2016 Order, which could have a material adverse effect upon us and our business, results of operations and cash flows.

Service disruptions caused by severe weather conditions, climate variability patterns or natural or other disasters may disrupt our operations or reduce the demand for our water services, which could adversely affect our financial condition, results of operations, cash flows and liquidity.

Service interruptions due to severe weather, climate variability patterns and natural or other events are possible across all our businesses. These include, among other things, storms, freezing conditions, high wind conditions, hurricanes, tornadoes, earthquakes, landslides, drought, wildfires, coastal and intercoastal floods or high water conditions, including those in or near designated flood plains, pandemics (including the COVID-19 pandemic) and epidemics, severe electrical storms, sinkholes and solar flares. Weather and other natural events such as these may affect the condition or operability of our facilities, limiting or preventing us from delivering water or wastewater services to our customers, or requiring us to make substantial capital expenditures to repair any damage. Tariffs in place or cost recovery proceedings with respect to our Regulated Businesses may not provide reimbursement to us, in whole or in part, for any of these impacts.

Government restrictions on water use may also result in decreased use of water services, even if our water supplies are sufficient to serve our customers, which may adversely affect our financial condition, results of operations and cash flows. Seasonal drought conditions that may impact our water services are possible across all of our service areas. Governmental restrictions imposed in response to a drought may apply to all systems within a region independent of the supply adequacy of any individual system. Responses may range from voluntary to mandatory water use restrictions, rationing restrictions, water conservation regulations, and requirements to minimize water system leaks. While expenses incurred in implementing water conservation and rationing plans may generally be recoverable provided the relevant PUC determines they were reasonable and prudent, we cannot assure that any such expenses incurred will, in fact, be fully recovered. Moreover, reductions in water consumption, including those resulting from installation of equipment or changed consumer behavior, may persist even after drought restrictions are repealed and the drought has ended, which could adversely affect our business, financial condition, results of operations and cash flows.

Climate variability may cause increased volatility in weather and may impact water usage and related revenue or require additional expenditures, all of which may not be fully recoverable in rates or otherwise.

The issue of climate variability is receiving increasing attention nationally and worldwide. There is consensus among climate scientists that there will be worsening of weather volatility in the future associated with climate variability. Many climate variability predictions present several potential challenges to water and wastewater utilities, including us, such as:

- increased frequency and duration of droughts;
- increased precipitation and flooding;
- increased frequency and severity of storms and other weather events;
- challenges associated with changes in temperature or increases in ocean levels;
- potential degradation of water quality;
- decreases in available water supply and changes in water usage patterns;
- increases in disruptions in service;
- increased costs to repair damaged facilities; or
- increased costs to reduce risks associated with the increasing frequency and severity of natural events, including to improve the resiliency and reliability of our water and wastewater treatment and conveyance facilities and systems.

Because of the uncertainty of weather volatility related to climate variability, we cannot predict its potential impact on our business, financial condition, results of operations, cash flows and liquidity. Furthermore, laws and regulations have been enacted that seek to reduce or limit GHG emissions and require additional reporting and monitoring, and these regulations may become more pervasive or stringent in light of changing governmental agendas and priorities, although the exact nature and timing of these changes is uncertain. Although some or all potential expenditures and costs associated with the impact of climate variability and related laws and regulations on our Regulated Businesses could be recovered through rates, infrastructure replacement surcharges or other regulatory mechanisms, there can be no assurance that state PUCs would authorize rate increases to enable us to recover such

expenditures and costs, in whole or in part.

The current regulatory rate setting process may result in a significant delay, also known as “regulatory lag,” from the time that we invest in infrastructure improvements, incur increased operating expenses as a result of inflation or other factors, incur increased cost of capital, including as a result of increasing short- and long-term rates, or experience declining water usage, to the time at which we can seek to address these events in rate case applications; our inability to mitigate or minimize regulatory lag could adversely affect our business.

There is typically a delay, known as “regulatory lag,” between the time our Regulated Businesses make a capital investment or incur an operating expense increase and the time when those costs are reflected in rates. In addition, billings permitted by state PUCs typically are, to a considerable extent, based on the volume of water usage in addition to a minimum base rate. Thus, we may experience regulatory lag between the time our revenues are affected by declining usage and the time we are able to adjust the rate per gallon of usage to address declining usage. Our inability to mitigate or reduce regulatory lag could have an adverse effect on our financial condition, results of operations, cash flows and liquidity.

We endeavor to mitigate or reduce regulatory lag by pursuing constructive regulatory practices. For example, two of our states have approved revenue stability mechanisms that adjust rates periodically to ensure that a utility’s revenue will be sufficient to cover its costs regardless of sales volume, including recognition of declining sales resulting from reduced consumption, while providing an incentive for customers to use water more efficiently. In addition, 10 of our state PUCs permit rates to be adjusted outside of the general rate case application process through surcharges that address certain capital investments, such as replacement of aging infrastructure. These surcharges are adjusted periodically based on factors such as project completion or future budgeted expenditures, and specific surcharges are eliminated once the related capital investment is incorporated in new PUC approved rates. Furthermore, in setting rates, nine of our state PUCs allow us to use future test years, which extend beyond the date a rate request is filed to allow for current or projected revenues, expenses and investments to be reflected in rates on a more timely basis. Other examples of such regulatory practices include expense mechanisms that allow us to increase rates for certain cost increases that are beyond our control, such as purchased water costs, property or other taxes, or power, conservation, chemical or other expenditures. These mechanisms enable us to adjust rates in less time after costs have been incurred than would be the case under a general rate case application process without the mechanisms.

While these mechanisms have mitigated or reduced regulatory lag in several of our regulated states, we continue to seek approval of regulatory practices to mitigate or reduce regulatory lag in those jurisdictions that have not approved them. Furthermore, PUCs may fail to adopt new surcharges and existing mechanisms may not continue in their current form, or at all, or we may be unable or become ineligible to continue to utilize certain of these mechanisms in the future. Although we intend to continue our efforts to seek state PUC approval of constructive regulatory practices to mitigate or reduce regulatory lag, our efforts may not be successful, or even if partially successful, our business, financial condition, results of operations, cash flows and liquidity may be materially and adversely affected.

Changes in laws and regulations can significantly and materially affect our business, financial condition, results of operations, cash flows and liquidity.

The impact of any future revisions or changes in interpretations of existing regulations or the adoption of new laws and regulations applicable to our Regulated Businesses is uncertain. Changes in laws or regulations, the imposition of additional laws and regulations, changes in enforcement practices of regulators, government policies or court decisions can materially affect our operations, results of operations and cash flows. Certain of the individuals who serve as regulators are elected or political appointees. Therefore, elections which result in a change of political administration or new appointments may also result in changes of the individuals who serve as regulators and changes in the policies of the regulatory agencies that they serve. New laws or regulations, new interpretations of existing laws or regulations, changes in agency policy, including those made in response to shifts in public opinion, or conditions imposed during the regulatory hearing process could have the following consequences, among others:

- making it more difficult for us to increase our rates and, as a consequence, to recover our costs or earn our expected rates of return;
- changing the determination of the costs, or the amount of costs, that would be considered recoverable in rate cases and other regulatory proceedings;
- restricting our ability to terminate our services to customers who owe us money for services previously provided or limiting our bill collection efforts;
- requiring us to provide water or wastewater services at reduced rates to certain customers;
- limiting or restricting our ability to acquire water or wastewater systems, purchase or dispose of assets, or issue long-term debt or equity, or making it less cost-effective for us to do so;

- negatively impacting, among other things: (i) tax rates or positions or the deductibility of expenses under federal or state tax laws, (ii) the availability or amount of, or our ability to comply with the terms and conditions of, tax credits or tax abatement benefit, (iii) the amount of taxes owed, (iv) the timing of tax effects on rates or (v) the ability to utilize our net operating loss carryforwards;
- changing regulations that affect the benefits we expected to receive when we began offering services in a particular area;
- increasing the associated costs of, or difficulty complying with, environmental, health, safety, consumer privacy, water quality, and water quality accountability laws and regulations to which our operations are subject;
- changing or placing additional limitations on change in control requirements relating to any concentration of ownership of our common stock;
- making it easier for governmental entities to convert our assets to public ownership via condemnation, eminent domain or other similar process, or for governmental agencies or private plaintiffs to assess liability against us for damages under these or similar processes;
- placing limitations, prohibitions or other requirements with respect to the sharing of information and participation in transactions by or between a regulated subsidiary and us or our other affiliates, including Service Company and any of our other subsidiaries;
- restricting or prohibiting our extraction of water from rivers, streams, reservoirs or aquifers; and
- revoking or altering the terms of a CPCN issued to us by a state PUC or other governmental authority.

Regulatory and environmental risks associated with the collection, treatment and disposal of wastewater may impose significant costs and liabilities.

The wastewater collection, treatment and disposal operations of our subsidiaries are subject to substantial regulation and involve environmental risks. If collection, treatment or disposal systems fail, overflow, or do not operate properly, untreated or inadequately treated wastewater or other contaminants could spill onto nearby properties or into nearby streams and rivers, causing damage to persons or property, injury to aquatic life and economic damages. This risk is most acute during periods of substantial rainfall or flooding, which are the main causes of sewer overflow and system failure. Liabilities resulting from such damage could adversely and materially affect our business, financial condition, results of operations and cash flows. Certain of our wastewater systems have commercial and industrial customers that are subject to specific limitations on the type, character and strength of the wastewater they are permitted to discharge into our systems. The failure by these commercial and industrial customers to comply with their respective discharge requirements could, in turn, negatively impact our operations, damage our facilities or cause us to exceed applicable discharge limitations and requirements. Liabilities resulting from such exceedance events could adversely and materially affect our business, financial condition, results of operations and cash flows.

A loss of one or more large industrial or commercial customers could have a material adverse impact upon the results of operations of one or more of our Regulated Businesses.

Adverse economic conditions, including the COVID-19 pandemic or other factors, may cause our customers, particularly industrial and large commercial customers, to curtail operations. A curtailment of operations by such a customer typically results in reduced water usage by that customer. In more severe circumstances, the decline in usage could be permanent. Any decrease in demand resulting from difficult economic conditions affecting these customers could adversely affect our financial condition and results of operations. Tariffs in place with respect to our Regulated Businesses may not reimburse us, in whole or in part, for any of these impacts.

Our Regulated Businesses require significant capital expenditures and may suffer if we fail to secure appropriate funding to make investments, experience increases in short- and long-term interest rates or if we experience delays in completing major capital expenditure projects.

The water and wastewater utility business is capital intensive. We invest significant amounts of capital to add, replace and maintain property, plant and equipment, and to improve aging infrastructure. In 2021, we invested \$1.8 billion in net Company-funded capital improvements. The level of capital expenditures necessary to maintain the integrity of our systems will continue into the future and, we believe, will increase. We expect to fund capital improvement projects using cash generated from operations (including, among other things, a portion of the net proceeds from the sales of HOS and our New York subsidiary), borrowings under our revolving credit facility and commercial paper programs and issuances of long-term debt and equity. We may not be able to access our revolving credit facility or the commercial paper, long-term debt and equity capital markets, when necessary or desirable to fund capital improvements on favorable terms or at all. If we are not able to obtain sufficient financing, we may be unable to maintain our existing property, plant and equipment, fund our capital investment strategies, meet our growth targets and expand our rate base to enable us to earn satisfactory future returns on our investments. Even with adequate financial resources to make required capital expenditures, we face the additional risk that we will not complete our major capital projects on time, as a result of supply chain interruptions, construction delays, permitting delays, labor shortages or other disruptions, environmental restrictions, legal and

regulatory challenges, or other obstacles. Each of these outcomes could adversely affect our business, financial condition, results of operations and cash flows.

Aging infrastructure may lead to service disruptions, property damage and increased capital expenditures and O&M costs, all of which could negatively impact our financial results.

We have risks associated with aging infrastructure, including water and sewer mains, pumping stations and water and wastewater treatment facilities. Additionally, we may have limited information regarding buried and newly acquired assets, which could challenge our ability to conduct efficient asset management and maintenance practices. Assets that have aged beyond their expected useful lives may experience a higher rate of failure. Failure of aging infrastructure could result in increased capital expenditures and O&M costs, and negatively impact our future O&M efficiency ratio. In addition, failure of aging infrastructure may result in property damage, and in safety, environmental and public health impacts. To the extent that any increased costs or expenditures are not fully recovered in rates, our results of operations, liquidity and cash flows could be negatively impacted.

Seasonality could adversely affect the volume of water sold and our revenues.

The volume of water we sell during the warmer months, typically in the summer, is generally greater than during other months, due primarily to increased water usage for irrigation systems, swimming pools, cooling systems and other applications. Throughout the year, and particularly during typically warmer months, the volume of water sold tends to vary with temperature, rainfall levels and rainfall frequency. In the event that temperatures during the typically warmer months are cooler than normal, or if there is more rainfall than normal, the amount of water we sell may decrease and adversely affect our revenues.

Two of our jurisdictions, California and Illinois, have adopted revenue stability mechanisms that permit us to recover the revenues authorized in a general rate case, regardless of sales volume. Revenue stability mechanisms are designed to recognize declining sales resulting from reduced consumption, while providing an incentive for customers to use water more efficiently. In those jurisdictions that have not adopted a revenue stability mechanism, our operating results could continue to be affected by seasonality.

Contamination of water supplies or our water service provided to our customers could result in service limitations and interruptions and exposure to substances not typically found in potable water supplies, and could subject us and our subsidiaries to reductions in usage and other responsive obligations, government enforcement actions, damage to our reputation and private litigation.

The water supplies that flow into our treatment plants or are delivered through our distribution system, or the water service that is provided to our customers, may be subject to contamination, including, among other items, contamination from naturally-occurring compounds, chemicals in groundwater systems, pollution resulting from manufactured sources (such as perchlorate, perfluorinated and polyfluorinated compounds, methyl tertiary butyl ether, 1,4-dioxane, lead and other materials, or chemical spills or other incidents that result in contaminants entering the water source), and possible terrorist attacks or other similar incidents. In addition, new categories of contaminants continue to emerge in the water industry. If one of our water supplies or the water service provided to our customers is contaminated, depending on the nature of the contamination, we may have to take responsive actions that could include, among other things (1) limiting use of the water supply under a “Do Not Use” protective order that enables continuation of basic sanitation and essential fire protection, or (2) interrupting the use of that water supply, in whole or in part, potentially impacting basic sanitation and fire protection needs. If service is disrupted, our financial condition, results of operations, cash flows, liquidity and reputation may be adversely affected. In addition, we may incur significant costs in order to treat the contaminated source through the expansion of our current treatment facilities or the development of new sources of supply or new treatment methods. We may be unable to recover costs associated with treating or decontaminating water supplies through insurance, customer rates, tariffs or contract terms, and any recovery of these costs that we are able to obtain through regulatory proceedings or otherwise may not occur in a timely manner. Moreover, we could be subject to claims for damages arising from government enforcement actions or toxic tort or other lawsuits arising out of an interruption of service or human exposure to hazardous substances in our drinking water and water supplies. See Item 3—Legal Proceedings for information on certain pending lawsuits related to interruptions of water service.

Since we are engaged in the business of providing water service to our customers, contamination of the water supply, or the water service provided to our customers, could result in substantial injury or damage to our customers, employees or others and we could be exposed to substantial claims and litigation. Such claims could relate to, among other things, personal injury, loss of life, business interruption, property damage, pollution, and environmental damage and may be brought by our customers or third parties. Litigation and regulatory proceedings are subject to inherent uncertainties and unfavorable rulings can and do occur. We may not be protected from these claims or negative impacts of these claims in whole or in part by tariffs or other contract terms. Negative impacts to our reputation may occur even if we are not liable for any contamination or other environmental damage or the consequences arising out of human exposure to contamination or hazardous substances within the water supply or distributed finished drinking water. In addition, insurance coverage may not cover all or a portion of these losses, and are subject to deductibles and other limitations. Pending or future claims against us could have a material adverse impact on our business, financial condition, results of operations and cash flows.

We are subject to adverse publicity and reputational risks, which make us vulnerable to negative customer perception and could lead to increased regulatory oversight or sanctions.

Our business and operations have a large direct and indirect customer base and, as a result, we are exposed to public criticism regarding, among other things, the reliability of water service, wastewater and related or ancillary services, the quality of water provided, and the amount, timeliness, accuracy and format of bills that are provided for such services. Adverse publicity and negative consumer sentiment arising out of these and other incidents may render legislatures and other governing bodies, state PUCs and other regulatory authorities, and government officials less likely to view us in a favorable light, and may cause us to be susceptible to less favorable legislative, regulatory and economic outcomes, as well as increased regulatory or other oversight and more stringent regulatory or economic requirements. Unfavorable regulatory and economic outcomes may include the enactment of more stringent laws and regulations governing our operations and less favorable economic terms in our agreements related to our Military Services Group, as well as fines, penalties or other sanctions or requirements. The imposition of any of the foregoing could have a material negative impact on us and our financial condition, results of operations and cash flows.

The failure of, or the requirement to repair, upgrade or dismantle, any of our dams may adversely affect our financial condition, results of operations, cash flows and liquidity.

The properties of our Regulated Businesses segment include 76 dams, the majority of which are earthen dams. The failure of any of these dams could result in personal injury and property damage, including without limitation downstream property damage, for which we may be liable. The failure of a dam would also adversely affect our ability to supply water in sufficient quantities to our customers and could adversely affect our financial condition and results of operations. Any losses or liabilities incurred due to a failure of one of our dams might not be covered by insurance policies or be recoverable in rates, and such losses may make it difficult for us to secure insurance at acceptable rates in the future.

We also are required from time to time to decommission, repair or upgrade the dams that we own. The cost of such repairs or upgrades can be and has been material. The federal and state agencies that regulate our operations may adopt rules and regulations requiring us to dismantle our dams, which also could entail material costs. Although in most cases the PUC has permitted recovery of expenses and capital investment related to dam rehabilitation, we might not be able to recover costs of repairs, upgrades or dismantling through rates in the future. The inability to recover these costs or delayed recovery of the costs as a result of regulatory lag can affect our financial condition, results of operations, cash flows and liquidity.

Any failure of our network of water and wastewater pipes, water mains and water reservoirs could result in losses and damages that may affect our financial condition and reputation.

Our operating subsidiaries distribute water and collect wastewater through an extensive network of pipes, water mains and storage systems located across the United States. A failure of major pipes, mains or reservoirs could result in injuries, property and other damage for which we may be liable. The failure of major pipes, mains and reservoirs may also result in the need to shut down some facilities or parts of our network in order to conduct repairs. Such failures and shutdowns may limit our ability to supply water in sufficient quantities to our customers and to meet the water and wastewater delivery requirements prescribed by government regulators, including state PUCs with jurisdiction over our operations, and adversely affect our financial condition, results of operations, cash flows, liquidity and reputation. Any business interruption or other losses might not be covered by insurance policies or be recoverable in rates, and such losses may make it difficult for us to secure insurance at acceptable rates in the future. Moreover, to the extent such business interruptions or other losses are not covered by insurance, they may not be recovered through rate adjustments.

An important part of our growth strategy is the acquisition of water and wastewater systems, which involves risks, including competition for acquisition opportunities from other regulated utilities, governmental entities and other buyers, which may hinder or limit our ability to grow our business.

An important element of our growth strategy is the acquisition and optimization of water and wastewater systems in order to broaden our current, and move into new, service areas. We may not be able to acquire other systems or businesses if we cannot identify suitable acquisition opportunities or reach mutually agreeable terms with acquisition candidates. Further, competition for acquisition opportunities from other regulated utilities, governmental entities and other buyers may hinder our ability to expand our business.

The negotiation and execution of potential acquisitions as well as the integration of acquired systems or businesses with our existing operations could require us to incur significant costs and cause diversion of our management's time and resources. Future acquisitions by us could result in, among other things:

- incurrence or assumption of debt, contingent liabilities and environmental liabilities and obligations, including liabilities that were unknown or undisclosed at the time of acquisition;
- failure to recover acquisition premiums;

- unanticipated capital expenditures;
- failure to maintain effective internal control over financial reporting;
- the need to successfully integrate the acquired systems' operations and water quality, cybersecurity and infrastructure protection measures;
- recording goodwill and other intangible assets at values that ultimately may be subject to impairment charges;
- fluctuations in quarterly results;
- unanticipated acquisition-related expenses;
- failure to realize anticipated benefits and synergies, such as cost savings and revenue enhancements; and
- difficulties in integrating or assimilating personnel, benefits, services and systems.

Some or all of these items could have a material adverse effect on our business. The systems and businesses we acquire in the future may not achieve anticipated revenue, return on equity or profitability, or other perceived synergies, and any difficulties we encounter in the integration process could interfere with our operations, reduce our net income and profitability or adversely affect our internal control over financial reporting.

We compete with governmental entities, other regulated utilities, and strategic and financial buyers for acquisition opportunities. As consolidation activity increases in the water and wastewater industries and competition for acquisitions continues to increase, the prices for suitable acquisition candidates may increase and limit our ability to expand through acquisitions.

Our Regulated Businesses are subject to condemnation and other proceedings through eminent domain or other similar authorized process, which could materially and adversely affect their results of operations and financial condition.

Municipalities and other government subdivisions have historically been involved in the provision of water and wastewater services in the United States, and organized efforts may arise from time to time in one or more of the service areas in which our Regulated Businesses operate to convert our assets to public ownership and operation through exercise of the governmental power of eminent domain, or another similar authorized process. A municipality, other government subdivision or a citizen group may seek to acquire our assets through eminent domain or such other process, either directly or indirectly as a result of a citizen petition.

For example, in November 2018, Monterey, California ballot Measure J, which was added by a citizens group, was certified as having been approved by a public vote, requiring the MPWMD to conduct a study and submit a written plan concerning the feasibility of a potential purchase of the Monterey system assets without an additional public vote. The public vote led to the issuance by the MPWMD in November 2019 of a preliminary report finding, among other things, that the acquisition of the Monterey system assets by the MPWMD would be economically feasible. Also, five municipalities in the Chicago, Illinois area formed a water agency that filed an eminent domain lawsuit against our Illinois subsidiary in January 2013, seeking to condemn a water pipeline that serves those five municipalities. This lawsuit remains pending, and a valuation trial is scheduled for the second quarter of 2022. See Item 1—Business—Regulated Businesses—Condemnation and Eminent Domain, which includes additional information regarding these matters.

Furthermore, the law in certain jurisdictions in which our Regulated Businesses operate provides for eminent domain rights allowing private property owners to file a lawsuit to seek just compensation against a public utility, if the public utility's infrastructure has been determined to be a substantial cause of damage to that property. In these actions, the plaintiff would not have to prove that the public utility acted negligently. In California, lawsuits have been filed in connection with large-scale natural events such as wildfires. Some of these lawsuits have included allegations that infrastructure of certain utilities triggered the natural event that resulted in damage to the property. In some cases, the PUC has disallowed recovery in rates of losses incurred by these utilities as a result of such lawsuits.

Contesting an exercise of condemnation, eminent domain or other similar process, or responding to a citizen petition, may result in costly legal proceedings and may divert the attention of management. Moreover, our efforts to resist the condemnation, eminent domain or other process may not be successful, which may require us to sell the operations at issue in a condemnation proceeding or to pay a private property owner compensation for the property damage suffered. If a municipality or other government subdivision succeeds in acquiring the assets of one or more of our Regulated Businesses through eminent domain or other process, there is a risk that we will not receive adequate compensation for the business, that we will not be able to keep the compensation, or that we will not be able to divest the business without incurring significant charges. Any of these outcomes may have a material adverse effect on our business, results of operations, financial condition, cash flows and liquidity.

We may be subject to physical and cyber attacks.

As operators of critical infrastructure, we may face a heightened risk of physical and cyber attacks from internal or external sources. Our water and wastewater systems may be vulnerable to disability or failures as a result of physical or cyber attacks, acts of war or terrorism, vandalism or other causes. Our operational and technology systems throughout our businesses may be vulnerable to unauthorized external or internal access, due to hacking, viruses, acts of war or terrorism, and other causes. Unauthorized access to confidential information located or stored on these systems could negatively and materially impact our customers, employees, suppliers and other third parties. Further, third parties, including vendors, suppliers and contractors, who perform certain services for us or administer and maintain our sensitive information, could also be targets of cyber attacks and unauthorized access. While we have instituted safeguards to protect our operational and technology systems, those safeguards may not always be effective due to the evolving nature of cyber attacks and cyber vulnerabilities. We cannot guarantee that such protections will be completely successful in the event of a cyber attack.

If, despite our security measures, a significant physical attack or cyber breach occurred, our operations could be disrupted, property damaged, and customer and other confidential information lost or stolen; we could experience substantial loss of revenues, response costs and other financial loss; we could suffer a loss of management time, attention and resources from our regular business operations; and we may be subject to increased regulation, litigation and damage to our reputation, any of which could have a negative impact on our business, results of operations and cash flows. Experiencing a cyber security incident could also cause us to be non-compliant with applicable laws and regulations or contracts that require us to securely maintain confidential data, causing us to incur costs related to legal claims or proceedings and regulatory fines or penalties. These types of events, either impacting our facilities or the industry in general, could also cause us to incur additional security and insurance related costs.

In addition, in the ordinary course of business, we collect and retain sensitive information, including personally identifiable information, about our customers and employees. In many cases, we outsource administration of certain functions to vendors that could be targets of cyber attacks. Any theft, loss or fraudulent use of customer, employee or proprietary data as a result of a cyber attack could subject us to significant litigation, liability and costs, as well as adversely impact our reputation with customers and regulators, among others.

We have obtained cyber insurance to provide coverage for a portion of the losses and damages that may result from a security breach, but such insurance is subject to a number of exclusions and may not cover the total loss or damage caused by a breach. The market for cybersecurity insurance is relatively new and coverage available for cybersecurity events may evolve as the industry matures. In the future, adequate insurance may not be available at rates that we believe are reasonable, and the costs of responding to and recovering from a cyber incident may not be covered by insurance or recoverable in rates.

Our business is subject to complex and evolving federal, state and local laws and regulations regarding consumer privacy and the protection or transfer of data relating to individuals, which could result in, among other things, private or governmental claims or litigation against us, changes to our business practices, monetary penalties, reputational harm and increased cost of operations.

Laws and regulations are changing and increasing rapidly with respect to data and consumer privacy, security and protection. We are becoming subject to an increasing number of complex and continually evolving data and consumer privacy, security and protection laws and regulations administered by various federal, state and local governments, including, for example, the California Consumer Privacy Act of 2018. Federal and state governments have also adopted or are proposing other limitations on, or requirements regarding, the collection, distribution, use, security and storage of personally identifiable information. In addition, the Federal Trade Commission and state attorneys general are applying federal and state consumer protection laws to impose standards on the collection, use and dissemination of data. Moreover, we expect that current laws, regulations and industry standards concerning privacy, data protection and information security in the United States will continue to evolve and increase, and we cannot determine the impact that compliance with such future laws, regulations or standards will have on us or on our business. Any failure or perceived failure by us to comply with current or future federal, state, or local data or consumer privacy or security laws, regulations, policies, guidance, industry standards, or legal obligations, or any incident resulting in unauthorized access to, or acquisition, release, or transfer of personally identifiable information or other data relating to our customers, employees and others, may result in private or governmental enforcement actions, litigation or other claims against us, fines and penalties, or adverse perception or publicity about us and our businesses, which could have a material adverse effect on our reputation and business and could result in us incurring substantial costs. These events could also require us to change our business practices, and the events or such changes may result in significant diversions of resources, distract management and divert the focus and attention of our security and technical personnel from other critical activities. Any of the foregoing consequences could have a material adverse effect on our business, financial condition, results of operations, cash flows and liquidity.

We may sustain losses that exceed or are excluded from our insurance coverage or for which we are self-insured.

We maintain insurance coverage as part of our overall legal and risk management strategy to minimize potential liabilities arising from our Regulated Businesses, as well as the operations of our Market-Based Businesses. Our insurance programs have

varying coverage limits, exclusions and maximums, and insurance companies may seek to deny claims we might make. Generally, our insurance policies cover property damage, worker's compensation, employer's liability, general liability, cybersecurity, terrorism risks and automobile liability. Each policy includes deductibles or self-insured retentions and policy limits for covered claims. As a result, we may sustain losses that exceed or that are excluded from our insurance coverage or for which we are self-insured.

Although in the past we have been generally able to obtain insurance coverage related to our business, there can be no assurance that we can secure all necessary or appropriate insurance in the future, or that such insurance can be economically secured. For example, catastrophic events can result in decreased coverage limits, more limited coverage, increased premium costs or deductibles.

We rely on technology to facilitate the management of our business as well as our customer and supplier relationships, and a failure or disruption of implemented technology could materially and adversely affect our business.

Technology is an integral part of our business and operations, and any failure or disruption of the technology or related systems we implement could significantly limit our ability to manage and operate our business effectively and efficiently, which, in turn, could cause our business and competitive position to suffer and adversely affect our results of operations. We use technology systems to, among other things, bill customers, process orders, provide customer service, manage certain plant operations and construction projects, manage our financial records, track assets, remotely monitor our plants and facilities, and manage human resources, supply chain, inventory, and accounts receivable collections. As a specific example, we depend on water meters to record and communicate the amount of water our customers use, and in recent years, we have experienced greater than expected performance failures with certain water meters used in the Regulated Businesses. When these occur, we work with meter manufacturers to determine and address the cause of such failures. While these and other failures that we have experienced have not to date had a material adverse effect on our operations, there can be no assurance that efforts to address performance failures or other issues we may experience with water meters will be successful and that these or future failures of water meters or other issues will not have a material adverse effect on us.

Although we do not believe that the technology we have implemented or may in the future implement is at a materially greater risk of failure than that used by other similar organizations, our technology and operations that use or rely on technology remain vulnerable to damage or interruption from, among other things: failure or interruption of the technology or its related systems; loss or failure of power, internet, telecommunications or data network systems; and operator error or improper operation by, the negligent or improper supervision of, or the intentional acts of, employees, contractors and other third parties. Any or all of these events could have a material adverse impact on our business, results of operations, financial condition and cash flows.

An inability to successfully develop and implement new technologies poses substantial risks to our business and operational excellence strategies, which could have a material adverse effect on our business and financial results.

A significant part of our long-term strategic focus on safety, operational excellence, O&M expense efficiency, water quality, asset and capital management and the customer experience includes implementing new technologies for, among other things: customer service and support; environmental compliance; water metering; water quality and source monitoring; cybersecurity; business development and growth; data analysis; employee development and training; and other initiatives. For example, we have made and plan to continue to make significant investments in developing, deploying and maintaining customer-facing technologies, applications to support field service and customer service operations, water source sensor and evaluation technologies, data analytics and hyperautomation technologies and artificial intelligence technologies. Where appropriate, we also seek to align these new technologies with existing technology infrastructure and systems. There can be no assurance that we will be successful in designing, developing, deploying, integrating or maintaining these new technologies. Because these efforts can be long-term in nature, these new technologies may be more costly or time-consuming than expected to design, develop, integrate and complete and may not ultimately deliver the expected or desired benefits upon completion. While we have and will continue to seek to recover costs and earn a return on capital expenditures with respect to the costs and expenses of development and deployment of these new technologies in our Regulated Businesses, there can be no assurance that we will be able to do so in every instance or at all, and our inability to do so may adversely affect our ability to achieve intended O&M expense efficiencies or other key performance results and, ultimately, could materially and adversely impact our business, financial condition, results of operations and cash flows.

Our inability to efficiently upgrade and improve our operational and technology systems, or implement new systems, could result in higher than expected costs or otherwise adversely impact our internal controls environment, operations and profitability.

Upgrades and improvements to computer systems and networks, or the implementation of new systems, may require substantial amounts of management's time and financial resources to complete, and may also result in system or network defects or operational errors due to multiple factors, including employees' ability to effectively use the new or upgraded system. We continue to implement technology to improve our business processes and customer interactions, and have installed new, and upgraded existing, technology systems. Any technical or other difficulties in upgrading and improving existing or implementing new technology systems may increase costs beyond those anticipated and have an adverse or disruptive effect on our operations and reporting processes, including our internal control over financial reporting. We may also experience difficulties integrating current systems with new or upgraded systems, which may impact our ability to serve our customers effectively or efficiently. Although we make efforts to minimize any

adverse impact on our controls, business and operations, we cannot assure that all such impacts have been or will be mitigated, and any such impacts could harm our business (individually or collectively) and have a material adverse effect on our results of operations, financial condition and cash flows.

Disruptions in our supply chain related to goods, such as pipe, chemicals, fuel, electricity, equipment, water and other raw materials, and services, could adversely impact our operations and our ability to serve our customers, as well as our financial results.

Our ability to serve our customers and operate our business in compliance with regulatory requirements is dependent upon purchasing or securing necessary goods and services from our suppliers and vendors. These items include but are not limited to contracted services, chemicals, pipe, valves, hydrants, fittings, fuel, equipment (including personal protective equipment), water and electricity. Examples of supply chain disruptions include reduced quantities of goods available in the marketplace, delays in manufacturing or shipping goods, labor shortages at our suppliers or vendors, natural disasters and operational impacts to some of our suppliers or vendors. Disruptions in our supply chain related to goods and services have occurred and we anticipate will continue to occur into the foreseeable future. Supply chain disruptions may cause us to be unable to purchase or otherwise obtain needed goods or services at a reasonable price or at all, and may significantly increase the price of goods and services we may obtain from suppliers and vendors. This, in turn, may adversely impact our operations and our ability to serve our customers in compliance with regulatory requirements, as well as our associated results of operations, cash flows and financial condition. While we attempt to plan for and have contingencies in place to address supply chain disruptions, our mitigation efforts may not be successful or may have further negative impacts on us.

Our business has inherently dangerous work sites. If we fail to maintain safe work sites, we may experience workforce or customer injuries or loss of life, and be exposed to financial losses, including penalties and other liabilities.

Safety is a core value and a strategy at American Water. Our safety performance and progress to our ultimate desired goal of zero injuries are critical to our ability to carry out our operations effectively and to serve our customers, and thereby, to support our reputation. We maintain health and safety practices to protect our employees, customers, contractors, vendors and the public. Eliminating all hazards all of the time is extremely challenging, but through strict adherence to our health and safety practices, and empowering employees to be safety leaders who are expected to stop work if deemed "unsafe," we believe we can achieve an injury-free workplace.

At our business sites, including construction and maintenance sites, our employees, contractors and others are often in close proximity to large mechanical operating equipment, moving vehicles, pressurized water, electric and gas utility lines, below grade trenches and vaults, electrical and pneumatic hazards, fall from height hazards, suspended loads, hazardous chemicals and other regulated materials. On many sites, we are responsible for safety and, accordingly, must implement important safety procedures and practices above governmental regulatory requirements. As an essential business that must continue to provide water and wastewater services during the COVID-19 pandemic, we are focused on the health and safety of our employees, contractors, vendors, customers and others who work at or visit our worksites. If the procedures we implement are ineffective or are not followed by our employees or others, or we fail to implement procedures, our employees, contractors and others may experience illness, or minor, serious or fatal injuries. Unsafe work sites have the potential to increase employee turnover, expose us to litigation and raise our operating costs. Any of the foregoing could result in financial losses, which could have a material adverse impact on our business, financial condition, results of operations and cash flows.

In addition, our operations can involve the delivery, handling, storage, use and disposal of hazardous chemicals, which, if improperly delivered, handled, stored, used or disposed of, could result in serious injury, death, environmental damage or property damage, and could subject us to penalties or other liabilities. We are also subject to various environmental, transportation and occupational health and safety regulations. Although we maintain functional employee groups whose primary purpose is to implement effective environmental health and safety work procedures and practices throughout our organization, including construction sites and operating facilities, the failure to comply with these regulations or procedures could subject us to liability.

Work stoppages and other labor relations matters could adversely affect our results of operations and the ability to serve our customers.

As of December 31, 2021, approximately 47% of our workforce was represented by unions, and we had 73 collective bargaining agreements in place with 14 different unions representing our unionized employees. These collective bargaining agreements, 21 of which will expire during 2022, are subject to periodic renewal and renegotiation. We may not be able to successfully renew or renegotiate these labor contracts, or enter into new agreements, on terms that are acceptable to us. Any negotiations or dispute resolution processes undertaken in connection with our labor contracts could be delayed or affected by labor actions or work stoppages. Labor actions, work stoppages or the threat of work stoppages, and our failure to obtain favorable labor contract terms during renegotiations, may disrupt our operations, negatively impact the ability to serve our customers, and result in higher labor costs, which could adversely affect our reputation, financial condition, results of operations, cash flows and liquidity.

While we have developed contingency plans to be implemented as necessary if a work stoppage or strike does occur, a strike or work stoppage may have a material adverse impact on our financial position, results of operations and cash flows.

Financial, Economic and Market-Related Risks

Our indebtedness could adversely affect our business and limit our ability to plan for or respond to changes in our business, and we may be unable to generate sufficient cash flows to satisfy our liquidity needs.

As of December 31, 2021, our aggregate long-term and short-term debt balance (including preferred stock with mandatory redemption requirements) was \$11.0 billion, and our working capital (defined as current assets less current liabilities) was in a deficit position. Our indebtedness could have important consequences, including:

- limiting our ability to obtain additional financing to fund future working capital requirements or capital expenditures;
- exposing us to interest rate risk with respect to the portion of our indebtedness that bears interest at variable rates;
- limiting our ability to pay dividends on our common stock or make payments in connection with our other obligations;
- impairing our access to the capital markets for debt and equity;
- requiring that an increasing portion of our cash flows from operations be dedicated to the payment of the principal and interest on our debt, thereby reducing funds available for future operations, dividends on our common stock or capital expenditures;
- limiting our ability to take advantage of significant business opportunities, such as acquisition opportunities, and to react to changes in market or industry conditions; and
- placing us at a competitive disadvantage compared to those of our competitors that have less debt.

In order to meet our capital expenditure needs, we may be required to borrow additional funds under the revolving credit facility or issue a combination of new short-term and long-term debt securities and/or equity. We continue to assess our short- and long-term liquidity needs in light of the impact of the COVID-19 pandemic on the financial and capital markets, especially with respect to the market for corporate commercial paper, which experienced volatility and shortages of liquidity in March 2020. In response to these events, in March 2020, we entered into a \$750 million 364-day term loan facility and immediately executed a \$500 million draw thereunder to support our short-term liquidity by retaining that amount in cash. We repaid this term loan facility in full in March 2021. During 2021, we utilized other existing sources of liquidity, such as our current cash balances, cash flows from operations and borrowings under the revolving credit facility as necessary or desirable to meet our short-term liquidity requirements. We believe that existing sources of liquidity will be sufficient to meet our cash requirements for the foreseeable future. However, as the impacts of the COVID-19 pandemic on the economy, the financial and capital markets and our operations continue to evolve, we will continue to assess our liquidity needs. In the event of a sustained market deterioration, we may need to obtain additional sources of liquidity, which would require us to evaluate available alternatives and take appropriate actions.

Moreover, additional borrowings may be required to repay or refinance outstanding indebtedness. Other than debt with respect to the term loan facility, debt maturities and sinking fund payments in 2022, 2023 and 2024 will be \$57 million, \$280 million and \$474 million, respectively. We can provide no assurance that we will be able to access the debt or equity capital markets on favorable terms, if at all, to repay or refinance this debt. Moreover, as new debt is added to our current debt levels, the related risks we now face could intensify, limiting our ability to repay or refinance existing debt on favorable terms.

We have in the past entered into, and in the future may enter into, financial derivative instruments, including without limitation, interest rate swaps, forward starting swaps and U.S. Treasury lock agreements. See Item 7A—Quantitative and Qualitative Disclosures About Market Risk. However, these efforts may not be effective to fully mitigate interest rate risk, and may expose us to other risks and uncertainties, including quarterly “mark to market” valuation risk associated with these instruments, that could negatively and materially affect our financial condition, results of operations and cash flows.

Our ability to pay our expenses and satisfy our debt service obligations depends in significant part on our future performance, which will be affected by the financial, business, economic, competitive, legislative (including tax initiatives and reforms, and other similar legislation or regulation), regulatory and other risk factors described in this section, many of which are beyond our control. If we do not have sufficient cash flows to pay the principal and interest on our outstanding debt, we may be required to refinance all or part of our existing debt, reduce capital investments, sell assets, borrow additional funds or sell additional equity. In addition, if our business does not generate sufficient cash flows from operations, or if we are unable to incur indebtedness sufficient to enable us to fund our liquidity needs, we may be unable to plan for or respond to changes in our business, which could cause our financial condition, operating results and prospects to be affected materially and adversely.

Our inability to access the debt or equity capital or financial markets or other events could affect our ability to meet our liquidity needs at reasonable cost and our ability to meet long-term commitments, which could adversely affect our financial condition and results of operations.

In addition to cash from operations, during 2021, we generally relied primarily on a \$2.25 billion revolving credit facility, a \$2.10 billion commercial paper program, our \$750 million 364-day term loan facility (which expired and was repaid in full in March 2021) and the capital markets, to satisfy our liquidity needs. The revolving credit facility currently expires in accordance with its terms in March 2025. Historically, we have regularly used our commercial paper program rather than the revolving credit facility as a principal source of short-term borrowing due to the generally more attractive rates we generally could obtain in the commercial paper market. As of December 31, 2021, there were no outstanding borrowings under the revolving credit facility, \$584 million of commercial paper outstanding and \$76 million in outstanding letters of credit. There can be no assurance that we will be able to continue to access this commercial paper program or revolving credit facility, when, as and if desired, or that the amount of capital available thereunder will be sufficient to meet all of our liquidity needs at a reasonable, or any, cost.

Under the terms of the revolving credit facility, our consolidated debt cannot exceed 70% of our consolidated capitalization, as determined under the terms of the facility. If our equity were to decline or debt were to increase to a level that causes us to exceed this limit, lenders under the facility would be entitled to refuse any further extension of credit and to declare all of the outstanding debt thereunder immediately due and payable. To avoid such a default, a waiver or renegotiation of this covenant would be required, which would likely increase funding costs and could result in additional covenants that would restrict our operational and financing flexibility. Our ability to comply with this and other covenants contained in the revolving credit facility and our other consolidated indebtedness is subject to various risks and uncertainties, including events beyond our control. For example, events that could cause a reduction in equity include, without limitation, a significant write-down of our goodwill. Even if we are able to comply with this or other covenants, the limitations on our operational and financial flexibility could harm our business by, among other things, limiting our ability to incur indebtedness or reduce equity in connection with financings or other corporate opportunities that we may believe would be in our best interests or the interests of our shareholders to complete.

Disruptions in the capital markets or changes in our credit ratings could also limit our ability to access capital on terms favorable to us or at all. While the lending banks that participate in the revolving credit facility have to date honored their commitments under those facilities, disruptions in the credit markets, changes in our credit ratings, or deterioration of the banking industry's financial condition could discourage or prevent lenders from meeting their existing lending commitments, extending the terms of such commitments, or agreeing to new commitments. In such a case, we may not be able to access the commercial paper or debt or capital markets, or other sources of potential liquidity, in the future on terms acceptable to us or at all. Furthermore, our inability to maintain, renew or replace commitments under our revolving credit facility could materially increase our cost of capital and adversely affect our financial condition, results of operations and liquidity. Short- or long-term disruptions in the capital and credit markets as a result of economic, legislative, political or other uncertainty, including as a result of the COVID-19 pandemic, changes in U.S. tax and other laws, reduced financing alternatives, or failures of significant financial institutions could adversely affect our access to the liquidity needed for our business. Any significant disruption in the capital, debt or credit markets, or financial institution failures could require us to take measures to conserve cash until the market stabilizes or until alternative financing can be arranged. Such measures could include delaying or deferring capital expenditures, reducing or suspending dividend payments, and reducing other discretionary expenditures. Finally, there is no assurance that we will be able to access the equity markets to obtain capital or financing when necessary or desirable and on terms that are reasonable or acceptable to us.

Any of the foregoing events that impede our access to the debt or equity capital markets, or the failure of any of our lenders to meet their commitments that result from financial market disruptions, could expose us to increased interest expense, require us to institute cash conservation measures or otherwise adversely and materially affect our business, financial condition, results of operations, cash flows and liquidity.

Parent company may be unable to meet its ongoing and future financial obligations and to pay dividends on its common stock if its subsidiaries are unable to pay upstream dividends or repay funds.

Parent company is a holding company and, as such, it has no substantive operations of its own. Substantially all of our consolidated assets are held by subsidiaries. Parent company's ability to meet its financial obligations and to pay dividends on its common stock is primarily dependent on the net income and cash flows of its subsidiaries and their ability to pay upstream dividends or repay indebtedness to parent company. Prior to paying dividends to parent company, our regulated subsidiaries must comply with applicable regulatory restrictions and financial obligations, including, for example, debt service and preferred and preference stock dividends, as well as applicable corporate, tax and other laws and regulations and agreements, and our covenants and other agreements. Our subsidiaries are separate legal entities and have no obligation to pay or upstream dividends to parent company. A failure or inability of any of these subsidiaries to pay such dividends or repay intercompany obligations could have a material adverse impact on our liquidity and parent company's ability to pay dividends on its common stock and meet its other obligations.

We may not be able to fully utilize our state net operating loss carryforwards.

As of December 31, 2021, we had state NOL carryforwards of approximately \$123 million, and management believes it is more likely than not that these NOL carryforwards will be recovered in the future. Our state NOL carryforwards began to expire in 2021 and will continue to expire through 2041. We have, in the past, been unable to utilize certain of our state NOL carryforwards, and the establishment or increase of a valuation allowance in the future would reduce our deferred income tax assets and our net income. Our actual results may differ from those estimated by management in making its assessment as to our ability to use the state NOL carryforwards. If we are unable to fully utilize our state NOL carryforwards to offset taxable income generated in the future, our financial position, results of operations and cash flows could be materially adversely affected.

We have recorded a significant amount of goodwill, and we may never realize the full value of our intangible assets, causing us to record impairments that may negatively affect our results of operations.

Our total assets include \$1.1 billion of goodwill at December 31, 2021. The goodwill is primarily associated with the acquisition of American Water by an affiliate of our previous owner in 2003. Goodwill represents the excess of the purchase price the purchaser paid over the fair value of the net tangible and other intangible assets acquired. Goodwill is recorded at fair value on the date of an acquisition and is reviewed annually or more frequently if changes in circumstances indicate the carrying value may not be recoverable. As required by the applicable accounting rules, we have taken significant non-cash charges to operating results for goodwill impairments in the past. We may be required to recognize an impairment of goodwill in the future due to market conditions or other factors related to our performance or the performance of an acquired business. These market conditions could include a decline over a period of time of our stock price, a decline over a period of time in valuation multiples of comparable water utilities, market price performance of our common stock that compares unfavorably to our peer companies, decreases in control premiums, or other circumstances. A decline in the results forecasted in our business plan due to events such as changes in rate case results, capital investment budgets or interest rates, could also result in an impairment charge. Recognition of impairments of goodwill would result in a charge to income in the period in which the impairment occurred, which may negatively affect our financial condition, results of operations and total capitalization. The effects of any such impairment could be material and could make it more difficult to maintain our credit ratings, secure financing on attractive terms, maintain compliance with debt covenants and meet the expectations of our regulators.

Market volatility and other conditions may impact the value of benefit plan assets and liabilities, as well as assumptions related to the benefit plans, which may require us to provide significant additional funding.

The performance of the capital markets affects the values of the assets that are held in trust to satisfy significant future obligations under our pension and postretirement benefit plans. The value of these assets is subject to market fluctuations and volatility, which may cause investment returns to fall below our projected return rates. We are currently unable to predict the effect, if any, of the COVID-19 pandemic or other events on the valuation of our pension assets and liabilities. A decline in the market value of our pension and postretirement benefit plan assets as of the measurement date can increase the funding requirements under our pension and postretirement benefit plans. Additionally, our pension and postretirement benefit plan liabilities are sensitive to changes in interest rates. Interest rates have experienced volatility and are subject to potential further adjustments based on the actions of the U.S. Federal Reserve, and others. If interest rates are lower at the measurement date, our liabilities would increase, potentially increasing benefit expense and funding requirements. Further, changes in assumptions, such as increases in life expectancy assumptions and increasing trends in health care costs may also increase our funding requirements. Future increases in pension and other postretirement costs as a result of reduced plan assets may not be fully recoverable in rates, in which case our results of operations and financial position could be negatively affected. In addition, market factors can affect assumptions we use in determining funding requirements with respect to our pension and postretirement plans. For example, a relatively modest change in our assumptions regarding discount rates can materially affect our calculation of funding requirements. To the extent that the discount rate used in our assumptions is reduced, our benefit obligations could be materially increased, which could adversely affect our financial position, results of operations and cash flows.

Additional Risks Related to Market-Based Businesses***Parent company provides performance guarantees with respect to certain of the obligations of our Market-Based Businesses, including financial guarantees or deposits, which may adversely affect parent company if the guarantees are successfully enforced.***

Under the terms of certain agreements under which our Market-Based Businesses, primarily MSG, provide water and wastewater services to municipalities and federal governmental entities, parent company provides guarantees of specified performance obligations, including financial guarantees or deposits. In the event these obligations are not performed, the entity holding the guarantees may seek to enforce the performance commitments against parent company or proceed against the deposit. In that event, our financial condition, results of operations, cash flows and liquidity could be adversely affected. At December 31, 2021, we had remaining performance commitments as measured by remaining contract revenue totaling approximately \$6.2 billion related to MSG's contracts, and this amount is likely to increase if the number of military bases served by MSG increases. The presence of these commitments may adversely affect our financial condition and make it more difficult for us to secure financing on attractive terms.

MSG's operations are subject to various risks associated with doing business with the U.S. government.

MSG enters into contracts with the U.S. government for the operation and maintenance of water and wastewater systems, which contracts may be terminated, in whole or in part, prior to the end of the 50-year term for convenience of the U.S. government or as a result of default or non-performance by the subsidiary performing the contract. In addition, the contract price for each of these military contracts is typically subject to either an annual economic price adjustment, or a redetermination two years after commencement of operations and every three years thereafter. Annual economic price adjustment is an inflation index-based contract price increase mechanism. Price redetermination is a contract mechanism to periodically adjust the service fee in the next period to reflect changes in contract obligations and anticipated market conditions. Any early contract termination or unfavorable annual economic price adjustment or price redetermination could adversely affect our financial condition, results of operations and cash flows.

Moreover, entering into contracts with the U.S. government subjects us to a number of operational and compliance risks, including dependence on the level of government spending and compliance with and changes in governmental procurement and security regulations. We are subject to potential government investigations of our business practices and compliance with government procurement and security regulations, which are complex, and compliance with these regulations can be expensive and burdensome. If we were charged with wrongdoing as a result of an investigation, we could be suspended or debarred from bidding on or receiving awards of new contracts with the U.S. government or our existing contracts could be terminated, which could have a material adverse effect on our results of operations and cash flows.

General Risk Factors***New accounting standards or changes to existing accounting standards could materially impact how we report our results of operations, cash flow and financial condition.***

Our Consolidated Financial Statements are prepared in accordance with GAAP. The SEC, the Financial Accounting Standards Board or other authoritative bodies or governmental entities may issue new pronouncements or new interpretations of existing accounting standards that may require us to change our accounting policies or critical accounting estimates. These changes are beyond our control, can be difficult to predict and could materially impact how we report our results of operations, cash flow and financial condition. We could be required to apply a new or revised standard retroactively, which could also adversely affect our previously reported results of operations, cash flow and financial condition.

Undetected errors in internal controls and information reporting could result in the disallowance of cost recovery and noncompliant disclosure.

Our internal controls, accounting policies and practices and internal information systems are designed to enable us to capture and process transactions and information in a timely and accurate manner in compliance with GAAP, taxation requirements, federal securities laws and regulations and other laws and regulations applicable to us. We have also implemented corporate governance, internal control and accounting policies and procedures in connection with the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act") and relevant SEC rules, as well as other applicable regulations. Such internal controls and policies have been and continue to be closely monitored by our management and Board of Directors to ensure continued compliance with these laws, rules and regulations. Management is also responsible for establishing and maintaining internal control over financial reporting and is required to assess annually the effectiveness of these controls. While we believe these controls, policies, practices and systems are adequate to verify data integrity, unanticipated or unauthorized actions of employees or temporary lapses in internal controls due to shortfalls in oversight or resource constraints could lead to undetected errors that could result in the disallowance of cost recovery and non-compliant disclosure and reporting. The consequences of these events could have a negative impact on our results of operations, cash flows and financial condition. The inability of management to certify as to the effectiveness of these controls due to the identification of one or more material weaknesses in these controls could also harm our reputation, increase financing costs or adversely affect our ability to access the capital markets.

Our continued success is dependent upon our ability to hire, retain and utilize qualified personnel.

The success of our business is dependent upon our ability to hire, retain and utilize qualified personnel, including engineers, licensed operators, water quality and other operating and craft personnel, and management professionals who have the required experience and expertise. From time to time, it may be difficult to attract and retain qualified individuals with the expertise and in the timeframe demanded for our business needs. In certain geographic areas, for example, we may not be able to satisfy the demand for our services because of our inability to successfully hire and retain qualified personnel.

In addition, as key personnel approach retirement age, we need to have appropriate succession plans in place and to successfully implement such plans. If we cannot attract and retain qualified personnel or effectively implement appropriate succession plans, our business, financial condition, results of operations and cash flows may be materially and adversely impacted.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

The Company's properties consist primarily of (i) water and wastewater treatment plants, (ii) mains and pipes used for transmission, distribution and collection of water and wastewater, (iii) wells and other sources of water supply, such as reservoirs, (iv) water and wastewater pumping stations, (v) meters and fire hydrants, (vi) general structures, including buildings, dams and treated water storage facilities, (vii) land and easements, (viii) vehicles, (ix) software rights, and (x) other equipment and facilities, the majority of which are used directly in the operation of its systems. Substantially all of the Company's properties are owned by its subsidiaries, with a large percentage subject to liens of its mortgage bonds. A wholly owned subsidiary of parent company owns the Company's corporate headquarters, located in Camden, New Jersey, and the Company and its operating subsidiaries lease office space, equipment and furniture from certain of the Company's wholly owned subsidiaries. These properties are utilized by the Company's directors, officers and staff in the conduct of the business.

The properties of the Company's Regulated Businesses consist mainly of approximately:

- 80 surface water treatment plants;
- 480 groundwater treatment plants;
- 160 wastewater treatment plants;
- 52,500 miles of transmission, distribution and collection mains and pipes;
- 1,100 groundwater wells;
- 1,700 water and wastewater pumping stations;
- 1,300 treated water storage facilities; and
- 76 dams.

The Company has ongoing infrastructure renewal programs in all states in which its Regulated Businesses operate. These programs consist of both the rehabilitation of existing mains and equipment, and the replacement of mains and equipment that have been damaged or have reached, or are near, the end of their useful service lives. The properties of its Market-Based Businesses consist mainly of office furniture and IT equipment. Approximately 51% of all properties that the Company owns are located in New Jersey and Pennsylvania.

The Company maintains property insurance against loss or damage to its properties by fire or other perils, subject to certain exceptions. For insured losses, the Company is self-insured to the extent that any losses are within the policy deductible or exceed the amount of insurance maintained.

The Company believes that its properties are generally maintained in good operating condition and in accordance with current standards of good water and wastewater industry practice.

ITEM 3. LEGAL PROCEEDINGS

Set forth below is information related to the Company's material pending legal proceedings as of February 16, 2022, other than ordinary routine litigation incidental to the business, required to be disclosed in this Annual Report on Form 10-K. The information below should be read together with Note 17—Commitments and Contingencies in the Notes to the Consolidated Financial Statements. In accordance with the SEC's disclosure rules, the Company has elected to disclose environmental proceedings involving the Company and a governmental authority if the amount of potential monetary sanctions, exclusive of interest and costs, that the Company reasonably believes will result from such proceeding is \$1 million or more.

Alternative Water Supply in Lieu of Carmel River Diversions***Compliance with SWRCB Orders to Reduce Carmel River Diversions***

Under the 2009 Order, California-American Water Company, the Company's California subsidiary ("Cal Am") is required, among other things, to decrease significantly its yearly diversions of water from the Carmel River according to a set reduction schedule. See Item 1—Business—Regulated Businesses—Water Supply and Wastewater Services and Item 1A—Risk Factors. The 2009 Order responded to claims that Cal Am had not sufficiently implemented actions to terminate its unpermitted diversions of water from the Carmel River as required by a 1995 order of the SWRCB. In July 2016, at the request of Cal Am and several Monterey County government agencies, the SWRCB issued the 2016 Order approving the 2021 Deadline.

The 2009 Order includes a condition prohibiting Cal Am from diverting water from the Carmel River for new service connections or for any increased use of water at existing service addresses resulting from a change in zoning or use. In 2011, the California Public Utilities Commission (the "CPUC") issued a decision directing modifications in Cal Am's tariffs to recognize the moratorium mandated by the 2009 Order, and directing Cal Am to seek written guidance from the SWRCB with respect to any unresolved issues of interpretation or implementation of this condition. In 2012, the Deputy Director of the SWRCB sent a letter to Cal Am providing an interpretation as to the calculation of a baseline to determine increases in use of water at existing service addresses. In March 2018, the MPWMD adopted a resolution directing Cal Am to interpret the baseline in a manner that conflicts with the SWRCB's written interpretation. In May 2018, Cal Am notified the MPWMD and the SWRCB that it intends to seek declaratory relief concerning the conflicting regulatory interpretations under the 2009 Order. In an attempt to resolve these conflicting interpretations prior to seeking judicial intervention, Cal Am has met with the MPWMD and the SWRCB several times. The SWRCB agreed to circulate revisions to its 2012 interpretive letter, which would be subject to a public comment period. Any failure to follow the MPWMD's resolution or the SWRCB's written interpretation, despite these conflicting interpretations, could potentially result in fines, penalties and other actions against Cal Am.

Cal Am continues to work constructively with all appropriate agencies to provide necessary information in connection with obtaining required approvals for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. Beginning in January 2022, Cal Am expects to be able to comply with the diversion reduction requirements contained in the 2016 Order, but continued compliance with the diversion reduction requirements for 2023 and future years will depend on successful development of alternate water supply sources sufficient to meet customer demand. The 2009 Order and the 2016 Order remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the 2009 Order and the 2016 Order in the future may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the 2009 Order and the 2016 Order.

Monterey Peninsula Water Supply Project

CPUC Final Approval of Water Supply Project

Cal Am's ability to move forward on the Water Supply Project is and has been subject to extensive administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In September 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to the incurred \$50 million in associated costs plus AFUDC, subject to meeting certain criteria.

In July 2019, Cal Am notified the MPWMD and Monterey One Water (collectively, the "Agencies") that an event of default occurred under the water purchase agreement for the GWR Project because the Agencies failed to deliver to Cal Am by July 1, 2019 advanced treated recycled water produced by the GWR Project. In its notification to the Agencies, Cal Am expressly reserved its right to terminate the water purchase agreement until the Performance Start Date, which was September 1, 2020. As of June 30, 2021, Cal Am determined that the Agencies met their performance obligations under the water purchase agreement with respect to the first fiscal year of the contract.

In September 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC's requirements for a CPCN and an additional procedural phase was not necessary to consider alternative projects. The CPUC's 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am's cost estimates for the Water Supply Project, which amounted to an aggregate of \$279 million plus AFUDC at a rate representative of Cal Am's actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am's prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, O&M costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed in the first general rate case filed by Cal Am after it becomes operational. Cal Am is also required to implement mitigation measures to avoid, minimize or offset significant environmental impacts from the construction and operation of the Water Supply Project and comply with a mitigation monitoring and reporting program, a reimbursement agreement for CPUC costs associated with that program, and reporting requirements on plant operations following placement of the Water Supply Project in service. Cal Am has incurred \$186 million in aggregate costs as of December 31, 2021 related to the Water Supply Project, which includes \$47 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am's purchase of additional water from the expansion to the GWR Project, which is not expected to produce additional water until 2024 at the earliest. The amended and restated water purchase agreement for the GWR Project is subject to review and approval of the CPUC, and on November 29, 2021, Cal Am filed an application with the CPUC seeking review and approval of the amended and restated water purchase agreement. Cal Am is also requesting rate base treatment of the additional capital investment for certain Cal Am facilities required to maximize the water supply from the expansion to the GWR Project and a related Aquifer Storage and Recovery Project, totaling approximately \$81 million. This amount is in addition to, and consistent in regulatory treatment with, the prior \$50 million of recovery for facilities associated with the original water purchase agreement, which was approved by the CPUC in its 2016 final decision.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the 2009 Order and the 2016 Order, as well as the CPUC's 2016 and 2018 final decisions, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in excess of the \$50 million in construction costs previously approved by the CPUC in its 2016 final decision. See Note 17—Commitments and Contingencies in the Notes to the Consolidated Financial Statements for further discussion.

Coastal Development Permit Application

In June 2018, Cal Am submitted a coastal development permit application to the City of Marina (the "City") for those project components of the Water Supply Project located within the City's coastal zone. Members of the City's Planning Commission, as well as City councilpersons, have publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of Cal Am's coastal development permit application. Thereafter, Cal Am appealed this decision to the Coastal Commission, as permitted under the City's code and the California Coastal Act. At the same time, Cal Am submitted an application to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission's original jurisdiction. In October 2019, staff of the Coastal Commission issued a report recommending a denial of Cal Am's application for a coastal development permit with respect to the Water Supply Project, largely based on a memorandum prepared by the general manager of the MPWMD that contradicted findings made by the CPUC in its final decision approving the Water Supply Project. In November 2019, discussions between staffs of the Coastal Commission and the CPUC took place regarding the Coastal Commission staff recommendation, at which time the CPUC raised questions about the Coastal Commission staff's findings on water supply and demand, groundwater impacts and the viability of a project that the Coastal Commission staff believes may be a possible alternative to the Water Supply Project.

In August 2020, the staff of the Coastal Commission released a report again recommending denial of Cal Am's application for a coastal development permit. Although the report concluded that the Water Supply Project would have a negligible impact on groundwater resources, the report also concluded it would impact other coastal resources, such as environmentally sensitive habitat areas and wetlands, and that the Coastal Commission staff believes that a feasible alternative project exists that would avoid those impacts. The staff's report also noted disproportionate impacts to communities of concern. In September 2020, Cal Am withdrew its original jurisdiction application to allow additional time to address the Coastal Commission staff's environmental justice concerns. The withdrawal of the original jurisdiction application did not impact Cal Am's appeal of the City's denial, which remains pending before the Coastal Commission. Cal Am refiled the original jurisdiction application in November 2020. In December 2020, the Coastal Commission sent to Cal Am a notice of incomplete application, identifying certain additional information needed to consider the application complete.

In March 2021, Cal Am provided responses to the Coastal Commission's notice of incomplete application. On June 18, 2021, the Coastal Commission responded, acknowledging the responses and requesting certain additional information before the application could be considered complete. Cal Am responded with the requested additional information on January 11, 2022, and on February 8, 2022, the Coastal Commission requested additional information. The original jurisdiction application remains pending.

Desalination Plant Development Permit

The proposed desalination plant for the Water Supply Project is to be located in an unincorporated portion of Monterey County, California on a site owned by CEMEX, Inc. (“CEMEX”), and requires a combined development permit from the County of Monterey prior to commencement of construction. On April 24, 2019, the County’s Planning Commission voted to approve the permit. In July 2019, the Board of Supervisors heard appeals filed by MCWD and a public advocacy group, at which time it denied the appeals and approved the permit. In August 2019, MCWD filed a petition in Monterey County Superior Court challenging Monterey County’s approval of Cal Am’s combined development permit application and seeking injunctive relief to enjoin Monterey County and Cal Am from commencing construction of the desalination plant. In October 2019, after a hearing, the court denied, without prejudice, MCWD’s motion for a preliminary injunction, but issued a stay of the County’s approval of the combined development permit, precluding commencement of physical construction of the desalination plant, but allowing Cal Am to continue to obtain permits needed for the desalination plant’s construction. On January 21, 2021, the court issued its decision granting in part and denying in part MCWD’s petition. The court found that the County of Monterey did not completely comply with all of the requirements necessary to approve the combined development permit and set aside its approval so that the County could come into compliance. The court denied all of MCWD’s other claims. The court also lifted its stay on physical construction at the plant site.

On May 25, 2021, Cal Am filed a notice of appeal as to the Monterey County Superior Court’s January 21, 2021 decision, seeking to challenge the court’s decision on Monterey County’s statement of overriding considerations. Monterey County filed a notice of appeal as to the same issue on May 26, 2021. On June 22, 2021, MCWD filed cross-appeals on its claims that had been denied by the court.

Proposed Zoning Changes at CEMEX Site for Slant Wells

In August 2018, the City circulated a public review draft of proposed amendments to its local coastal program and zoning ordinance, and placed the matter for consideration on the Planning Commission’s agenda for its September 2018 meeting. The proposed amendments would change zoning at the CEMEX site to open space and restrict future uses, including with respect to Cal Am’s planned use of the site for the slant wells for the Water Supply Project. Any change to the City’s local coastal program must ultimately be approved by the Coastal Commission. Cal Am, CEMEX and the Coastal Commission each submitted letters opposing the proposed amendments. At its November 2018 meeting, the Planning Commission adopted a resolution recommending that the Marina City Council consider approving the amendments.

In December 2018, the Marina City Council considered the proposed amendments. Cal Am, CEMEX and the Coastal Commission again submitted letters opposing the proposed changes, but the City Council unanimously adopted a resolution amending its local coastal plan and a draft amendment to its zoning ordinance. Changes to the ordinance require a second reading before becoming final, which occurred at the City’s December 2018 meeting. The changes to the local coastal plan must be submitted to the Coastal Commission for approval and are not effective until such approval is obtained.

Test Slant Well Permitting

A preliminary step to building the Water Supply Project desalination plant is the construction and operation of a test slant well to confirm the suitability of the property on which intake wells will be located to draw water from under Monterey Bay. In November 2014, the Coastal Commission approved coastal development permits for the test slant well, enabling Cal Am to construct and operate the test slant well. Because Cal Am may use the test slant well as one of the slant wells for the Water Supply Project, Cal Am sought and obtained from the Coastal Commission permit amendments to allow the test slant well to remain in place and be maintained until February 23, 2023. A required lease obtained from the California State Lands Commission, as amended, will expire on December 16, 2022. Effective February 28, 2018, test slant well pumping ceased, except for minimal maintenance pumping activities, in accordance with Cal Am’s coastal development permits.

Water Supply Project Land Acquisition and Slant Well Site Use

In July 2017, the Coastal Commission adopted a consent agreement and cease and desist order requiring sand mining operations on the property owned by CEMEX on which intake wells for the Water Supply Project will be located, to cease by the end of 2020 and the property to be sold to either a non-profit or governmental entity. The consent agreement strictly limits future use of the property but preserves Cal Am's existing property rights and allows uses consistent with existing easements and other rights of record. A permanent easement granted by CEMEX to Cal Am was recorded in June 2018 to allow Cal Am access to the property and to construct, operate and maintain the Water Supply Project intake wells. On November 26, 2019, the City notified CEMEX that, based on this permanent easement and Cal Am's proposed use of the site for the intake wells, CEMEX has breached or will soon breach a prior 1996 annexation agreement (to which Cal Am was not a party). The City states that it intends to seek declaratory relief from CEMEX and Cal Am ordering that Cal Am's extraction is limited to 500 acre-feet per year of groundwater, that Cal Am cannot export extracted water out of the basin, and that the permanent easement granted by CEMEX to Cal Am is void. CEMEX has denied the City's claims and requested indemnification from Cal Am under the terms of the permanent easement. Cal Am and CEMEX believe that there is no valid limitation under the annexation agreement on Cal Am's right to pump brackish groundwater and seawater at the site for desalination and use by Cal Am's customers.

In May 2020, the City filed a lawsuit in Monterey County Superior Court, naming Cal Am and CEMEX as defendants, and MCWRA and MCWD as real parties in interest. The lawsuit, as amended, alleges a claim for breach of contract against CEMEX and seeks declaratory relief to void the permanent easement and prohibiting extraction of water by Cal Am's slant wells at the CEMEX site in excess of 500 acre-feet per year and the export of such water outside the groundwater basin. In November 2020, Cal Am, CEMEX and MCWRA filed demurrers, which were overruled by the court at a hearing held on February 9, 2021.

In August 2020, MCWD filed a cross-complaint in the May 8, 2020 lawsuit against Cal Am, CEMEX and MCWRA, alleging claims for specific performance of certain provisions of the 1996 annexation agreement related to the property owned by CEMEX on which intake wells for the Water Supply Project will be located, as well as claims of water rights, nuisance and unreasonable water use, and seeking additional declaratory relief. Following various rulings on demurrers filed by Cal Am, CEMEX and MCWRA, on February 23, 2021, the court sustained, without leave to amend, the demurrer to MCWD's nuisance claim and overruled the remainder of the demurrers. On October 7, 2021, the court granted a motion filed by Cal Am related to MCWD's cross-complaint, which motion requested a referral of certain issues related to MCWD's water rights and unreasonable use claims to the SWRCB for its expert advisory opinion.

Challenges Related to Compliance with California's Sustainable Groundwater Management Act

Under California's Sustainable Groundwater Management Act ("SGMA") enacted in 2015, groundwater basins designated by the state as critically overdrafted must be managed by a groundwater sustainability agency ("GSA") by 2020 in accordance with an approved groundwater sustainability plan ("GSP") designed to achieve sustainability by 2040. Under the SGMA, GSAs have broad powers to achieve sustainability including, but not limited to, regulating groundwater extraction by imposing fees on groundwater extractions and controlling groundwater extractions by regulating, limiting or suspending extractions from wells. The 400-acre CEMEX site overlies a small portion of the 180/400 Subbasin of the Salinas Valley Groundwater Basin; the 84,000-acre 180/400 Subbasin has been designated by the state as critically overdrafted, mainly due to seawater intrusion into the subbasin.

In late 2016, the Salinas Valley Basin Groundwater Sustainability Agency (the "SVBGSA") was formed as a joint powers authority to become the GSA for the Salinas Valley Groundwater Basin and prepare a GSP. In April 2018, the City filed a notice to become the GSA for the CEMEX site, creating an overlap with the SVBGSA's filing for the 180/400 Subbasin. In 2016, the SVBGSA commenced preparation of a GSP covering the entire 180/400 subbasin, including the CEMEX site, but in August 2019 the City filed a notice that it intends to prepare its own GSP for the CEMEX site with the intent to severely limit or prohibit groundwater pumping at that site. The State Department of Water Resources ("SDWR") has taken the position that until the overlap is resolved, it will not accept the GSP from either agency, placing the subbasin at risk of being placed in a probationary status and subject to state management. In December 2019, the County of Monterey filed its own notice to become the exclusive GSA at the CEMEX site in order to resolve the overlap, which is permitted under SGMA. SDWR accepted Monterey County's filing on December 18, 2019, and now lists Monterey County as the exclusive GSA for the site.

On December 30, 2019, the City filed a lawsuit in Monterey County Superior Court challenging Monterey County's filing, and SDWR's acceptance of the filing, as the exclusive GSA for the CEMEX site. The City has named Monterey County and its Board of Supervisors, its GSA, and SDWR and its director as defendants, and the SVBGSA and its Board of Directors as real parties. The City seeks to invalidate Monterey County's filing, as well as injunctive relief to preserve the City's status as a GSA for the site. To protect its interest in the matter, Cal Am filed an application to intervene in this lawsuit, which was granted. Monterey County filed cross-claims against the City and SDWR. After a hearing, on August 24, 2021, the court denied the claims brought by the City and granted Monterey County's cross-claims, finding that the City's GSA notice was untimely, the Monterey County GSA was the exclusive GSA for the CEMEX site, and the SVBGSA's GSP was properly adopted for the entire 180/400 subbasin, including the CEMEX site. On November 15, 2021, the City appealed this decision, and on December 13, 2021, Monterey County appealed the court's decision as to the finding that the City's action creating a GSA was not void.

On September 14, 2020, Cal Am filed a separate but related complaint in Monterey County Superior Court challenging the validity of actions taken by the City and its GSA in adopting a groundwater sustainability plan for the CEMEX site, and the validity of the provisions of such plan. Due to the overlap of issues in the City's lawsuit with those in the validation action, the parties stipulated to a stay of the validation action pending determination of the claims in the City's action, which was approved by the court in December 2020.

On February 16, 2021, the City filed a separate but related *in rem* reverse validation complaint challenging the adoption by Monterey County of a GSP for the CEMEX site. This complaint remains pending. Currently, both validation actions remain stayed during the pendency of the City's appeals.

Challenge of Certification — Proposed Monterey System Acquisition Final Environmental Impact Report

In November 2018, voters in Monterey, California passed "Measure J," which decided that the MPWMD should conduct a feasibility study concerning the potential purchase of Cal Am's Monterey system assets, and, if feasible, to proceed with a purchase of those assets without an additional public vote. This service territory represents approximately 40,000 customers. See Item 1—Business—Regulated Businesses—Condemnation and Eminent Domain for more information on this matter. In August 2019, the MPWMD's General Manager issued a report that recommends that the MPWMD board, among other things, (1) evaluate whether the acquisition of the Monterey system assets by the MPWMD is in the public interest and sufficiently satisfies the criterion of "feasible" as provided in Measure J, (2) ensure there is significant potential for cost savings before agreeing to commence an acquisition, and (3) develop more fully alternate operating plans before deciding whether to consider a Resolution of Necessity.

On October 7, 2020, the MPWMD issued a FEIR for the potential acquisition of the Monterey system assets, and on November 4, 2020, the MPWMD certified the FEIR, which purports to analyze the environmental impacts of the MPWMD's project to (1) acquire the Monterey system assets through the power of eminent domain, if necessary, and (2) expand its geographic boundaries to include all parts of this system. On November 25, 2020, Cal Am filed a petition for writ of mandate in Monterey County Superior Court challenging certification of the FEIR, alleging that the MPWMD's analysis of environmental impacts was inadequate and that certification was improper. A hearing on the matter was held on August 30, 2021, and on November 19, 2021, the court denied Cal Am's petition.

West Virginia Elk River Freedom Industries Chemical Spill

See Note 17—Commitments and Contingencies—Contingencies—West Virginia Elk River Freedom Industries Chemical Spill in the Notes to Consolidated Financial Statements for information regarding the final court approval of the global settlement with respect to the January 2014 Freedom Industries, Inc. chemical spill.

Dunbar, West Virginia Water Main Break Class Action Litigation

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by West Virginia-American Water Company, the Company's West Virginia subsidiary ("WVAWC"). The failure of the main caused water outages and low pressure for up to approximately 25,000 WVAWC customers. In the early morning hours of June 25, 2015, crews completed a repair, but that same day, the repair developed a leak. On June 26, 2015, a second repair was completed and service was restored that day to approximately 80% of the impacted customers, and to the remaining approximately 20% by the next morning. The second repair showed signs of leaking but the water main was usable until June 29, 2015 to allow tanks to refill. The system was reconfigured to maintain service to all but approximately 3,000 customers while a final repair was being completed safely on June 30, 2015. Water service was fully restored on July 1, 2015 to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleges breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. The *Jeffries* plaintiffs seek unspecified alleged damages on behalf of the class for lost profits, annoyance and inconvenience, and loss of use, as well as punitive damages for willful, reckless and wanton behavior in not addressing the risk of pipe failure and a large outage.

In February 2020, the *Jeffries* plaintiffs filed a motion seeking class certification on the issues of breach of contract and negligence, and to determine the applicability of punitive damages and a multiplier for those damages if imposed. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier. In August 2020, WVAWC filed a Petition for Writ of Prohibition in the Supreme Court of Appeals of West Virginia seeking to vacate or remand the Circuit Court's order certifying the issues class. On January 28, 2021, the Supreme Court of Appeals remanded the case back to the Circuit Court for further consideration in light of a decision issued in another case relating to the class certification issues raised on appeal. On July 16, 2021, oral argument was heard by the Circuit Court on the issue of addressing the Supreme Court of Appeals' remand. This matter remains pending.

The Company and WVAWC believe that WVAWC has meritorious defenses to the claims raised in this class action complaint and WVAWC will continue to vigorously defend itself against these allegations.

Chattanooga, Tennessee Class Action Litigation

On September 12, 2019, Tennessee-American Water Company, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and Service Company (collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest. In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC, which remain pending. In October 2020, TAWC answered the complaint, and the parties have been engaging in discovery. The court has entered an agreed scheduling order, which sets a hearing in October 2022 to address the question of class certification.

TAWC and the Company believe that TAWC has meritorious defenses to the claims raised in this class action complaint, and TAWC is vigorously defending itself against these allegations.

Other Matters

On April 2, 2021, American Water Resources, LLC ("AWR"), which, prior to the Closing Date was one of the indirect, wholly owned subsidiaries comprising the Company's former HOS operations, received a grand jury subpoena in connection with an investigation by the U.S. Attorney's Office for the Eastern District of New York (the "EDNY"). The subpoena seeks documents regarding AWR's operations and its contractor network in the New York City metropolitan area.

In connection with the sale of the HOS operations to the Buyer (including all of the Company's equity interests in AWR), the Company, AWR and the Buyer entered into a Common Interest and Cooperation Agreement (the "Cooperation Agreement"), dated as of the Closing Date, which facilitates a common defense for, and the sharing of information concerning, the EDNY investigation and any legal or regulatory inquiries or proceedings related to or resulting from it or the subject matter in the subpoena (collectively, the "Covered Matters"). The Company, on behalf of AWR, is required to defend any Covered Matter, using commercially reasonable efforts to resolve it on a reasonably expedient basis. Further, the Company is required to consult with the Buyer in specified circumstances and obtain its prior written consent (which consent may not be unreasonably withheld, conditioned or delayed) before entering into any resolution of any Covered Matter that imposes non-monetary provisions or undertakings or any other terms for which there will be no indemnification under the Cooperation Agreement. In addition, for the period from the Closing Date to March 9, 2025, the Company is required to indemnify the Buyer for any monetary losses or out-of-pocket damages (as described in the Cooperation Agreement) incurred by the Buyer or certain of the HOS subsidiaries to the extent directly arising in connection with, or directly resulting from, any Covered Matter.

Based on the subpoena and discussions with the EDNY, the investigation does not appear to be focused on the Company, and the Company is cooperating fully with the investigation. While it is not possible at this time to predict the outcome of the investigation or determine the amount, if any, of fines, penalties or other liabilities that may be incurred in connection with it, the Company does not currently believe that the investigation will have a material adverse effect on the Company's results of operations, financial condition or liquidity.

General

Periodically, the Company is involved in other proceedings or litigation arising in the ordinary course of business. Other than those proceedings described in this Item 3—Legal Proceedings, the Company does not believe that the ultimate resolution of these matters will materially affect its financial position or results of operations. However, litigation and other proceedings are subject to many uncertainties, and the outcome of individual matters is not predictable with assurance. It is possible that some litigation and other proceedings could be decided unfavorably to the Company, and that any such unfavorable decisions could have a material adverse effect on its business, financial condition, results of operations and cash flows.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

Since April 23, 2008, the Company's common stock has traded on the New York Stock Exchange ("NYSE") under the symbol "AWK." As of February 10, 2022, there were 181,724,991 shares of common stock outstanding held by approximately 2,333 record holders. Holders of the Company's common stock are entitled to receive dividends when they are declared by its Board of Directors. See Note 10—Shareholders' Equity in the Notes to Consolidated Financial Statements for additional information regarding the Company's dividends.

In February 2015, the Board of Directors authorized an anti-dilutive stock repurchase program to mitigate the dilutive effect of shares issued through the Company's dividend reinvestment, employee stock purchase and executive compensation activities. The program allows the Company to purchase up to 10 million shares of its outstanding common stock over an unrestricted period of time in the open market or through privately negotiated transactions. The program is conducted in accordance with Rule 10b-18 of the Exchange Act, and, to facilitate these repurchases, the Company enters into Rule 10b5-1 stock repurchase plans with a third-party broker, which allow the Company to repurchase shares of its common stock at times when it otherwise might be prevented from doing so under insider trading laws or because of self-imposed trading blackout periods. Subject to applicable regulations, the Company may elect to amend or cancel the program or the stock repurchase parameters at its discretion to manage dilution.

From April 1, 2015, the date repurchases under the anti-dilutive stock repurchase program commenced, through December 31, 2021, the Company repurchased an aggregate of 4,860,000 shares of its common stock under the program, leaving an aggregate of 5,140,000 shares available for repurchase under this program. There were no repurchases of common stock in 2021.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read together with the Consolidated Financial Statements and the Notes thereto included elsewhere in this Annual Report on Form 10-K. This discussion contains forward-looking statements that are based on management’s current expectations, estimates and projections about the Company’s business, operations and financial performance. The cautionary statements made in this Form 10-K should be read as applying to all related forward-looking statements whenever they appear in this Form 10-K. The Company’s actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors, including those that are discussed under “Forward-Looking Statements,” Item 1A—Risk Factors and elsewhere in this Form 10-K. The Company has a disclosure committee consisting of members of senior management and other key employees involved in the preparation of the Company’s SEC reports. The disclosure committee is actively involved in the review and discussion of the Company’s SEC filings. For a discussion and analysis of the Company’s financial statements for fiscal 2020 compared to fiscal 2019, please refer to Item 7—Management’s Discussion and Analysis of Financial Condition and Results of Operations in the Company’s Annual Report on Form 10-K for the year ended December 31, 2020, filed with the SEC on February 24, 2021.

Overview

American Water is the largest and most geographically diverse, publicly-traded water and wastewater utility company in the United States, as measured by both operating revenues and population served. The Company employs approximately 6,400 professionals who provide drinking water, wastewater and other related services to over 14 million people in 24 states. The Company’s primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the “Regulated Businesses.” The Company’s utilities operate in approximately 1,700 communities in 14 states in the United States, with 3.4 million active customers with services provided by its water and wastewater networks. Services provided by the Company’s utilities are subject to regulation by PUCs. The Company also operates other market-based businesses that provide water, wastewater and other services to residential and smaller commercial customers, the U.S. government on military installations, as well as municipalities and utility customers, collectively presented as the “Market-Based Businesses.” These Market-Based Businesses are not subject to economic regulation by state PUCs. See Item 1—Business for additional information.

COVID-19 Pandemic Update

American Water continues to monitor the COVID-19 pandemic and has taken steps since the beginning of the pandemic to mitigate adverse impacts to the Company. The Company has three main areas of focus as part of its response to COVID-19: the care and safety of its employees; the safety of its customers and the communities it serves; and the execution of its business continuity plan. American Water continues to work with its vendors to prevent disruptions in its supply chain, and, at this time, has not experienced, and does not anticipate, any material disruptions. The Company also continues to monitor the impacts of the COVID-19 pandemic on the capital markets, including impacts that could increase its cost of capital.

The Company has experienced financial impacts since the beginning of the pandemic resulting from lower revenues from the suspension of late fees and foregone reconnect fees in certain states, certain incremental O&M expenses, an increase in uncollectible accounts expense and additional debt costs. These impacts are collectively referred to as “financial impacts.” See Note 3—Impact of the COVID-19 Pandemic in the Notes to Consolidated Financial Statements for additional information. The extent to which the COVID-19 pandemic may further impact American Water, including without limitation, its liquidity, financial condition, and results of operations, will depend on future developments, which presently cannot be predicted.

As of February 16, 2022, American Water has commission orders authorizing deferred accounting or cost recovery for COVID-19 financial impacts in 11 of 13 jurisdictions. Other regulatory actions to date are presented in the table below:

Commission Actions	Description	States
Orders issued with deferred accounting	Allows the Company to establish regulatory assets to record certain financial impacts related to the COVID-19 pandemic.	HI, IN, MD, NJ, PA, VA, WV
Orders issued with cost recovery	California’s Catastrophic Event Memorandum Account allows the Company’s California subsidiary to track certain financial impacts related to the COVID-19 pandemic for future recovery requests. Iowa issued a base rate case order on June 28, 2021, authorizing recovery in rates of the COVID-19 financial impacts deferred within its annual non-recurring expense rider. Illinois has authorized cost recovery of the COVID-19 financial impacts through a special purpose rider over a 24-month period, which was implemented effective October 1, 2020. Additionally, Illinois approved a bad debt rider tariff on December 16, 2020, allowing collection of actual bad debt expense over last authorized beginning April 2021 through February 2023. Illinois approved a stipulation in March 2021 to allow the rider to be extended through the end of 2023. Missouri issued a base rate case order on April 7, 2021, authorizing recovery in rates of the COVID-19 financial impacts deferred through March 31, 2021 over a three-year period.	CA, IA, IL, MO

The Company’s Pennsylvania subsidiary filed for a request with the Pennsylvania Public Utility Commission (the “PaPUC”) to defer as a regulatory asset all identified COVID-19 financial impacts. On September 15, 2021, the PaPUC issued an order approving the Company’s request to defer, with carrying costs, incremental uncollectible expense and other incremental costs net of savings attributed to the COVID-19 pandemic. The PaPUC order denied the request to include lost revenues attributed to the waiver of late fees and reconnect fees and expenses associated with additional interest costs. Additionally, the PaPUC order approved the request to allow for the continuation of the deferral of financial impacts, rejecting proposals from the intervening parties to define an end date to the deferral in 2021. As a result of the order discussed above, the Company recorded a net \$7 million reduction to its regulatory assets and corresponding impacts to revenue, interest expense and uncollectible expense during the third quarter of 2021. The Company continues to evaluate options within its next base rate case to address these denied items and the resulting financial impact.

On July 28, 2021, the Company’s Tennessee subsidiary filed a stipulation and settlement agreement with the Consumer Advocate Unit in the Financial Division of the Office of the Tennessee Attorney General, which reflected agreement on the deferral of COVID-19-related financial impacts through April 30, 2021. On August 9, 2021, the Tennessee Public Utility Commission denied the stipulation and settlement agreement and moved to address the Company’s Tennessee subsidiary’s petition to defer the COVID-19 financial impacts in a future hearing. On August 26, 2021, the Company’s Tennessee subsidiary filed a motion to withdraw its pending petition, preserving its right to seek recovery of the COVID-19 financial impacts in a future proceeding.

In December 2020, the Kentucky Public Service Commission issued an order denying a request to defer to a regulatory asset the financial impacts related to the COVID-19 pandemic.

Consistent with these regulatory orders, the Company has recorded \$36 million in regulatory assets and \$6 million of regulatory liabilities for the financial impacts related to the COVID-19 pandemic on the Consolidated Balance Sheets as of December 31, 2021.

As of February 16, 2022, one state, New Jersey, continues moratoria until March 15, 2022, on the suspension of service disconnections due to non-payment. The moratoria on disconnects have expired in 12 states. The Company continues to monitor the COVID-19 pandemic and will continue to comply with the current ordered moratoria and any future moratoria implemented.

In 2019, the Company completed and submitted its project completion certification to the New Jersey Economic Development Authority (“NJEDA”) in connection with its capital investment in its corporate headquarters in Camden, New Jersey. The NJEDA determined that the Company is qualified to receive \$164 million in tax credits over a ten-year period. The Company is required to meet various annual requirements in order to monetize one-tenth of the tax credits annually and is subject to a claw-back period if the Company does not meet certain NJEDA requirements of the tax credit program in years 11 through 15. The Company has made the necessary annual filings for the years ended December 31, 2019 and 2020 and expects to make the 2021 filing by April 30, 2022. As a result, the Company had receivables of \$49 million and \$115 million in other current assets and other long-term assets, respectively, on the Consolidated Balance Sheets as of December 31, 2021. The submitted filings are under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the credits in the first half of 2022.

In March 2020, in connection with the COVID-19 pandemic, the NJEDA, pursuant to Executive Order 103 - State of Emergency and a Public Health Emergency, temporarily waived the requirement that a full-time employee must spend at least 80% of his or her time at the qualified business facility ("QBF") to meet the definition of eligible position or full-time job. The waiver will continue for as long as New Jersey's Executive Order 281 is valid. On July 2, 2021, New Jersey's Governor approved a bill that revised provisions of the Economic Recovery Act of 2020 and other economic development programs, including amending the definition of an eligible position and full-time job in the Grow New Jersey Program and replacing the 80% requirement of time spent at the QBF. The bill states that an eligible position is one that is filled by a full-time employee who has their primary office at the QBF and spends at least 60% of their time at the QBF. The bill specifically states that it supersedes the existing regulations and existing incentive agreements that require an eligible employee spend at least 80% of their time at the QBF.

Sale of Homeowner Services Group

On the Closing Date, the Company sold all of the equity interests in subsidiaries that comprised HOS to the Buyer for total consideration of approximately \$1.275 billion, resulting in a pre-tax gain on sale of \$748 million. The consideration is comprised of \$480 million in cash, a seller promissory note issued by the Buyer in the principal amount of \$720 million, and a contingent cash payment of \$75 million payable upon satisfaction of certain conditions on or before December 31, 2023. The structure of the transaction enables the initial cash proceeds to be redeployed into the Regulated Businesses to fund near-term incremental capital investments, while interest on the seller note provides a stream of earnings during its term. Upon maturity, the proceeds from the repayment of the seller note are expected to be used to fund capital investment in the Regulated Businesses. This sale narrowed the focus of the Company's Market-Based Businesses primarily to MSG.

The seller note has a five-year term, is payable in cash, and bears interest at a rate of 7.00% per year during the term. The repayment obligations of the Buyer under the seller note have been secured by a first priority security interest in certain property of the Buyer and the former HOS subsidiaries, including their cash and securities accounts, as well as a pledge of the equity interests in each of those subsidiaries, subject to certain limitations and exceptions. The seller note requires compliance with affirmative and negative covenants (subject to certain conditions, limitations and exceptions), including a covenant limiting the incurrence by the Buyer and certain affiliates of additional indebtedness in excess of certain thresholds, but does not include any financial maintenance covenants.

Beginning December 9, 2024, the Company has a put right pursuant to which it may require the seller note to be repaid in full at par, plus accrued and unpaid interest, except that upon the occurrence of a disruption event in the broadly syndicated term loan "B" debt financing market, repayment by the Buyer pursuant to the Company's exercise of the put right will be delayed until the market disruption event ends.

The seller note may not be prepaid at the Buyer's election except in certain limited circumstances before the fourth anniversary of the Closing Date. If the Buyer seeks to repay the seller note in breach of this non-call provision, an event of default will occur under the seller note and the Company may, among other actions, demand repayment in full together with a premium ranging from 105.5% to 107.5% of the outstanding principal amount of the loan and a customary "make-whole" payment.

The Company and the Buyer also entered into a revenue share agreement, pursuant to which the Company is to receive 10% of the revenue generated from customers who are billed for home warranty services through an applicable Company subsidiary (an "on-bill" arrangement), and 15% of the revenue generated from any future on-bill arrangements entered into after the closing. Unless earlier terminated, this agreement has a term of up to 15 years, which may be renewed for up to two five-year periods.

Financing Activities

On May 10, 2021, American Water Capital Corp. ("AWCC") completed a \$1.1 billion debt offering, which included the sale of \$550 million aggregate principal amount of its 2.30% senior notes due 2031 and \$550 million aggregate principal amount of its 3.25% senior notes due 2051. Net proceeds of this offering were used to lend funds to parent company and its regulated subsidiaries, to prepay \$327 million in aggregate principal amount of AWCC's outstanding senior notes, to repay AWCC's commercial paper obligations and for general corporate purposes. See Note 12—Long-Term Debt in the Notes to Consolidated Financial Statements for additional information.

As a result of AWCC's prepayment of the various senior notes, a make-whole premium of \$15 million was paid to the holders thereof on June 14, 2021. Substantially all of the early debt extinguishment costs were allocable to the Company's utility subsidiaries and recorded as regulatory assets, as the Company believes they are probable of recovery in future rates.

Selected Financial Data

This selected financial data below should be read in conjunction with the Company's Consolidated Financial Statements and related Notes in this Annual Report on Form 10-K as well as the remainder of this Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations.

(In millions, except per share data)	For the Years Ended December 31,				
	2021	2020	2019	2018	2017
Statement of Operations data:					
Operating revenues	\$ 3,930	\$ 3,777	\$ 3,610	\$ 3,440	\$ 3,357
Net income attributable to common shareholders	1,263	709	621	567	426
Net income attributable to common shareholders per basic common share	\$ 6.96	\$ 3.91	\$ 3.44	\$ 3.16	\$ 2.39
Net income attributable to common shareholders per diluted common share	6.95	3.91	3.43	3.15	2.38
Balance Sheet data:					
Total assets	\$ 26,075	\$ 24,766	\$ 22,682	\$ 21,223	\$ 19,482
Long-term debt and redeemable preferred stock at redemption value	10,344	9,333	8,644	7,576	6,498

Cash dividends declared per common share	\$ 2.41	\$ 2.20	\$ 2.00	\$ 1.82	\$ 1.66
Net cash provided by operating activities	1,441	1,426	1,383	1,386	1,449
Net cash used in investing activities	(1,536)	(2,061)	(1,945)	(2,036)	(1,672)
Net cash (used in) provided by financing activities	(345)	1,120	494	726	207
Capital expenditures included in net cash used in investing activities	(1,764)	(1,822)	(1,654)	(1,586)	(1,434)

Financial Results

For the years ended December 31, 2021, 2020 and 2019, diluted earnings per share (GAAP) were \$6.95, \$3.91 and \$3.43, respectively. In 2021, as compared to 2020, diluted earnings per share increased \$3.04. This increase was primarily driven by a pre-tax gain on sale of \$748 million relating to the sale of HOS and continued growth in the Regulated Businesses from infrastructure investment, acquisitions and organic growth. These increases were offset by the \$45 million pre-tax contribution to the AWCf authorized by the Company in 2021, and the impacts from weather in both 2021 and 2020, which had an estimated net decrease of \$13 million in revenues in 2021, or \$0.05 per share. The consolidated net income impact of the gain on sale of HOS and the AWCf contribution is \$491 million, or \$2.70 per share, inclusive of a \$13 million net income benefit included in the Other segment, from the revaluation of state net operating losses that can now be utilized as a result of the sale.

Growth Through Capital Investment in Infrastructure and Regulated Acquisitions

The Company expects to continue to grow its businesses, with the majority of its growth to be achieved in the Regulated Businesses through (i) continued capital investment in the Company's infrastructure to provide safe, clean, reliable and affordable water and wastewater services to its customers, and (ii) regulated acquisitions to expand the Company's services to new customers. In 2021, the Company invested \$1.9 billion, primarily in the Regulated Businesses, as discussed below:

Regulated Businesses Growth and Optimization

- \$1.8 billion capital investment in the Regulated Businesses, the majority for infrastructure improvements and replacements; and
- \$135 million to fund acquisitions, including deposits discussed below, in the Regulated Businesses, which added approximately 20,000 water and wastewater customers during 2021, in addition to approximately 17,500 customers added through organic growth during 2021.

On April 6, 2021, the Company's Pennsylvania subsidiary entered into an agreement to acquire the wastewater assets of the York City Sewer Authority for \$235 million, plus an amount of average daily revenue calculated for the period between the final meter reading and the date of closing. This system, directly and indirectly through bulk contracts, serves more than 45,000 customers. In connection with the execution of the acquisition agreement, the Company's Pennsylvania subsidiary paid a \$20 million deposit to the seller on April 30, 2021, which is refundable in the event the agreement is terminated prior to closing of the acquisition. The Company expects to close this acquisition in the first half of 2022, pending regulatory approval.

On March 29, 2021, the Company's New Jersey subsidiary entered into an agreement to acquire the water and wastewater assets of Egg Harbor City for \$22 million. The water and wastewater systems currently serve approximately 1,500 customers each, or 3,000 combined, and are being sold through the New Jersey Water Infrastructure Protection Act process. The Company expects to close this acquisition in the second half of 2022, pending regulatory approval.

During 2022, the Company closed on the acquisition of two regulated water and wastewater systems adding approximately 700 customers, for a total aggregate purchase price of \$2 million. As of February 16, 2022, the Company has entered into agreements for pending acquisitions in the Regulated Businesses, including the York City Sewer Authority and Egg Harbor City agreements discussed above, to add approximately 77,000 additional customers.

Sale of New York American Water Company, Inc.

On January 1, 2022, the Company completed the previously disclosed sale of its regulated utility operations in New York to Liberty, an indirect, wholly owned subsidiary of Algonquin Power & Utilities Corp. Liberty purchased from the Company all of the capital stock of the Company's New York subsidiary for a purchase price of \$608 million in cash. The sale was approved by the New York State Department of Public Service on December 16, 2021. The Company's regulated New York operations represented approximately 127,000 customers in the State of New York. The assets and related liabilities of the New York subsidiary were classified as held for sale on the Consolidated Balance Sheets as of December 31, 2021. See Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

Sale of Michigan American Water Company

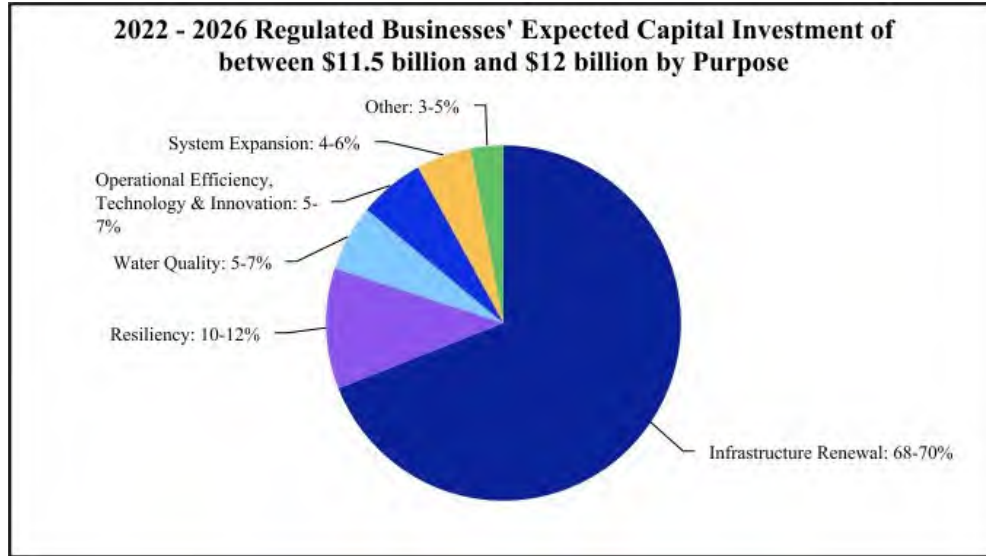

On February 4, 2022, the Company completed the sale of its operations in Michigan for approximately \$6 million.

Future Growth

The Company expects to invest between \$13 billion to \$14 billion over the next five years, and between \$28 billion to \$32 billion over the next 10 years, including \$2.5 billion in 2022. The Company's expected future investments include:

- capital investment for infrastructure improvements in the Regulated Businesses between \$11.5 billion to \$12 billion over the next five years, and between \$25 billion to \$28 billion over the next 10 years, including \$2 billion expected in 2022; and
- growth from acquisitions in the Regulated Businesses to expand the Company's water and wastewater customer base of between \$1.5 billion to \$2 billion over the next five years, and between \$3 billion to \$4 billion over the next 10 years, including \$500 million expected in 2022.

Presented in the following chart is the estimated allocation of the Company’s expected capital investment for infrastructure improvements in its Regulated Businesses over the next five years, by purpose:

Operational Excellence

The Company’s adjusted regulated O&M efficiency ratio, which is used as a measure of the operating performance of the Regulated Businesses, was 34.1% for the year ended December 31, 2021, compared to 34.3% for the year ended December 31, 2020. The improvement in this ratio reflects the continued focus on operating costs, as well as an increase in operating revenues for the Regulated Businesses after considering the adjustment for the amortization of the excess accumulated deferred income taxes (“EADIT”) shown in the table below.

The Company’s adjusted regulated O&M efficiency ratio is a non-GAAP measure and is defined by the Company as its operation and maintenance expenses from the Regulated Businesses, divided by the operating revenues from the Regulated Businesses, where both operation and maintenance expenses and operating revenues were adjusted to eliminate purchased water expense. Operating revenues were further adjusted to exclude reductions for the amortization of the EADIT. Also excluded from operation and maintenance expenses is the allocable portion of non-O&M support services costs, mainly depreciation and general taxes, which is reflected in the Regulated Businesses segment as operation and maintenance expenses, but for consolidated financial reporting purposes, is categorized within other line items in the accompanying Consolidated Statements of Operations. Additionally, the Company excluded the impact of certain Freedom Industries chemical spill settlement activities recognized in 2019 from operation and maintenance expenses. The items discussed above were excluded from the O&M efficiency ratio calculation as they are not reflective of management’s ability to increase the efficiency of the Regulated Businesses.

The Company evaluates its operating performance using this ratio, and believes it is useful to investors because it directly measures improvement in the operating performance and efficiency of the Regulated Businesses. This information is derived from the Company’s consolidated financial information but is not presented in its financial statements prepared in accordance with GAAP. This information supplements and should be read in conjunction with the Company’s GAAP disclosures, and should be considered as an addition to, and not a substitute for, any GAAP measure. The Company’s adjusted regulated O&M efficiency ratio (i) is not an accounting measure that is based on GAAP; (ii) is not based on a standard, objective industry definition or method of calculation; (iii) may not be comparable to other companies’ operating measures; and (iv) should not be used in place of the GAAP information provided elsewhere in this Annual Report on Form 10-K.

Presented in the table below is the calculation of the Company's adjusted regulated O&M efficiency ratio and a reconciliation that compares operation and maintenance expenses and operating revenues, each as determined in accordance with GAAP, to those amounts utilized in the calculation of its adjusted O&M efficiency ratio:

(Dollars in millions)	For the Years Ended December 31,		
	2021	2020	2019
Total operation and maintenance expenses	\$ 1,777	\$ 1,622	\$ 1,544
Less:			
Operation and maintenance expenses—Market-Based Businesses	482	389	393
Operation and maintenance expenses—Other	(30)	(25)	(31)
Total operation and maintenance expenses—Regulated Businesses	1,325	1,258	1,182
Less:			
Regulated purchased water expenses	153	149	135
Allocation of non-operation and maintenance expenses	34	41	31
Impact of Freedom Industries settlement activities (a)	—	—	(4)
Adjusted operation and maintenance expenses—Regulated Businesses (i)	\$ 1,138	\$ 1,068	\$ 1,020
Total operating revenues	\$ 3,930	\$ 3,777	\$ 3,610
Less:			
Operating revenues—Market-Based Businesses	563	540	539
Operating revenues—Other	(17)	(18)	(23)
Total operating revenues—Regulated Businesses	3,384	3,255	3,094
Less:			
Regulated purchased water revenues (b)	153	149	135
Revenue reductions from the amortization of EADIT	(104)	(7)	—
Adjusted operating revenues—Regulated Businesses (ii)	\$ 3,335	\$ 3,113	\$ 2,959
Adjusted O&M efficiency ratio—Regulated Businesses (i) / (ii)	34.1 %	34.3 %	34.5 %

(a) Includes the impact of a reduction of a liability in the first quarter of 2019 related to the Freedom Industries chemical spill.

(b) The calculation assumes regulated purchased water revenues approximate regulated purchased water expenses.

Regulatory Matters**General Rate Cases**

Presented in the table below are annualized incremental revenues, excluding reductions for the amortization of EADIT that are generally offset in income tax expense, assuming a constant water sales volume, resulting from general rate cases authorizations that became effective during 2019 through 2021:

(In millions)	2021	2020	2019
General rate cases by state (a):			
Iowa (effective October 11, 2021)	\$ 1	\$ —	\$ —
Missouri (effective May 28, 2021)	22	—	—
Pennsylvania (effective January 28, 2021)	70	—	—
California (effective January 1, 2021, January 1, 2020 and May 11, 2019)	22	5	4
New Jersey (effective November 1, 2020)	—	54	—
Indiana (effective May 1, 2020 and July 1, 2019)	—	13	4
Kentucky (effective June 28, 2019)	—	—	13
West Virginia (effective February 25, 2019)	—	—	19
Maryland (effective February 5, 2019)	—	—	1
Total general rate case authorizations	<u>\$ 115</u>	<u>\$ 72</u>	<u>\$ 41</u>

(a) Excludes authorized increases of \$7 million and \$4 million in 2021 and 2019, respectively, for the Company's New York subsidiary, which was sold on January 1, 2022. See Note 6—Acquisitions and Divestitures in the Notes to the Consolidated Financial Statements for additional information.

On November 18, 2021, the CPUC unanimously approved a final decision in the test year 2021 general rate case filed by the Company's California subsidiary, which is retroactive to January 1, 2021. The Company's California subsidiary received authorization for additional annualized water and wastewater revenues of \$22 million, excluding agreed to reductions for EADIT as a result of the Tax Cuts and Jobs Act of 2017 (the "TCJA"). The EADIT reduction in revenues is \$4 million and is offset by a like reduction in income tax expense. On January 18, 2022, the Company's California subsidiary filed for approval of \$13 million in 2022 escalation increases, excluding \$4 million of reductions related to the TCJA. This filing, which is retroactive to January 1, 2022, is subject to CPUC approval with a 45-day review period.

On June 28, 2021, an order was issued authorizing an increase of \$1 million in the general rate case filed by the Company's Iowa subsidiary in 2020. The Company's Iowa subsidiary filed tariffs consistent with the order on September 23, 2021. Effective October 11, 2021, the Iowa Utilities Board approved the tariffs and implemented the new rates.

On April 7, 2021, the Company's Missouri subsidiary was authorized additional annualized revenues of \$22 million, effective May 28, 2021, excluding agreed to reductions for EADIT as a result of the TCJA. The EADIT reduction in revenues is \$25 million and is offset by a like reduction in income tax expense. The protected EADIT balance of \$72 million is being returned to customers using the average rate assumption method ("ARAM"), and the unprotected EADIT balance of \$74 million is being returned to customers over 10 years. The \$25 million EADIT reduction includes both the protected and unprotected catch-up period EADIT of \$13 million. The catch-up period of January 1, 2018 through May 31, 2021 covers the period from when the lower federal corporate income tax rate went into effect until new base rates went into effect and will be amortized over 2.5 years.

On March 2, 2021, an administrative law judge ("ALJ") in the Office of Administrative Law of New Jersey filed an initial decision with the New Jersey Board of Public Utilities (the "NJBPU") that recommended denial of a petition filed by the Company's New Jersey subsidiary, which sought approval of acquisition adjustments in rate base of \$29 million associated with the acquisitions of Shorelands Water Company, Inc. in 2017 and the Borough of Haddonfield's water and wastewater systems in 2015. On July 29, 2021, the NJBPU issued an order adopting the ALJ's initial decision without modification. The Company's New Jersey subsidiary filed a Notice of Appeal with the New Jersey Appellate Division on September 10, 2021. A scheduling order was issued on October 18, 2021 establishing a briefing schedule through March 2022. There is no financial impact to the Company as a result of the NJBPU's order, since the acquisition adjustments are currently recorded as goodwill on the Consolidated Balance Sheets.

On February 25, 2021, the Company's Pennsylvania subsidiary was authorized additional annualized revenues of \$90 million, effective January 28, 2021, excluding agreed to reductions for EADIT as a result of the TCJA, over two steps. The EADIT reduction in revenues is \$19 million. The overall increase, net of TCJA reductions, is \$71 million in revenues combined over two steps. The first step was effective January 28, 2021 in the amount of \$70 million (\$51 million including TCJA reductions) and the second step will be effective January 1, 2022 in the amount of \$20 million. The protected EADIT balance of \$200 million is being returned to customers using the ARAM, and the unprotected EADIT balance of \$116 million is being returned to customers over 20 years. The \$19 million annually includes both the protected and unprotected EADIT amortizations and a portion of catch-up period EADIT. A bill credit of \$11 million annually for two years returns to customers the remainder of the EADIT catch-up period amortization. The catch-up period of January 1, 2018 through December 31, 2020 covers the period from when the lower federal corporate income tax rate went into effect until new base rates went into effect and will be amortized over two years.

Pending General Rate Case Filings

On February 10, 2022, the Company's Illinois subsidiary filed a general rate case requesting \$71 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges.

On January 14, 2022, the Company's New Jersey subsidiary filed a general rate case requesting \$110 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges.

On December 1, 2021, the Company's Kentucky subsidiary filed a wastewater rate case requesting additional revenues of \$1 million, excluding proposed reductions for EADIT as a result of TCJA. The Company requested a four-step rate increase for their wastewater operations with effective dates of June 1, 2022, June 1, 2023, June 1, 2024 and June 1, 2025 for annual amounts of less than \$1 million each year. The Company filed their wastewater case under the alternative rate filing process for smaller utilities which calculates an operating ratio of 88% rather than a return on equity.

On November 15, 2021, the Company's Virginia subsidiary filed a general rate case requesting \$15 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA.

On August 18, 2021, the Company's Hawaii subsidiary filed a general rate case requesting \$2 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA.

On April 30, 2021, the Company's West Virginia subsidiary filed a general rate case requesting \$32 million in annualized incremental revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges. The proposed EADIT reduction in revenues is \$1 million and the exclusion for infrastructure surcharges is \$10 million. Intervenor testimony was received on September 20, 2021. The Company's rebuttal testimony was filed on October 5, 2021. Hearings were conducted on November 3 and 4, 2021. A final order is expected no later than February 24, 2022.

The Company's California subsidiary submitted its application on May 3, 2021 to set its cost of capital for 2022 through 2024. According to the CPUC's process, a decision is expected to be issued, setting the authorized cost of capital in the third quarter of 2022.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant water sales volume, resulting from infrastructure surcharge authorizations that became effective during 2019 through 2021:

(In millions)	2021	2020	2019
Infrastructure surcharges by state (a):			
New Jersey (b)	\$ 26	\$ 20	\$ 15
Missouri (c)	7	12	14
Kentucky (effective July 1, 2021 and July 1, 2020)	1	1	—
Indiana (effective March 17, 2021)	8	—	—
Pennsylvania (d)	8	27	11
Illinois (effective January 1, 2021, January 1, 2020 and January 1, 2019)	7	7	8
West Virginia (effective January 1, 2021, January 1, 2020 and January 1, 2019)	5	3	2
Tennessee (effective January 1, 2021, January 1, 2020 and September 1, 2019)	3	2	1
Total infrastructure surcharge authorizations	\$ 65	\$ 72	\$ 51

- (a) Excludes authorized increases of \$2 million in 2019 for the Company's New York subsidiary, which was sold on January 1, 2022. See Note 6—Acquisitions and Divestitures in the Notes to the Consolidated Financial Statements for additional information.
- (b) In 2021, \$12 million was effective on December 30 and \$14 million was effective June 28. In 2020, \$10 million was effective June 29 and \$10 million was effective January 1. In 2019, the effective date was July 1.
- (c) In 2021, the effective date was October 7. In 2020, \$2 million was effective December 14 and \$10 million was effective June 27. In 2019, \$5 million was effective December 21 and \$9 million was effective June 24.
- (d) In 2021, the effective date was January 1. In 2020, \$8 million was effective October 1, \$4 million was effective July 1, \$5 million was effective April 1 and \$10 million was effective January 1. In 2019, \$6 million was effective October 1, \$3 million was effective July 1 and \$2 million was effective April 1.

Presented in the table below are annualized incremental revenues, assuming a constant water sales volume, resulting from infrastructure surcharge authorizations that became effective after January 1, 2022:

(In millions)	Amount
Infrastructure surcharge filings by state:	
Illinois (effective January 1, 2022)	\$ 6
Missouri (effective February 1, 2022)	12
Total infrastructure surcharge filings	\$ 18

Pending Infrastructure Surcharge Filings

On January 19, 2022, the Company's Indiana subsidiary filed for infrastructure surcharges requesting \$8 million in additional annualized revenues.

On June 30, 2021, the Company's West Virginia subsidiary filed for an infrastructure surcharge requesting \$3 million in additional annualized revenues.

Tax Matters**Federal Tax Legislation**

On November 15, 2021, the IIJA was signed into law and was designed to provide significant investment in the nation's infrastructure. The Company has analyzed the bill to assess legislative tax impacts, and determined that the most significant aspect impacting the Company is the provision for special rules for regulated water and wastewater utilities as it relates to the tax treatment of contributions in aid of construction ("CIAC"). The bill reinstates the pre-TCJA tax treatment of CIAC, which allows regulated water and wastewater utilities to generally exclude the receipt of CIAC from taxable income. This provision is effective for contributions made after December 31, 2020. For the year ended December 31, 2021, the Company has reflected the exemption retroactively to January 1, 2021.

On December 22, 2017, the TCJA was signed into law, which, among other things, enacted significant and complex changes to the Internal Revenue Code of 1986, as amended (the “Code”), including a reduction in the federal corporate income tax rate from 35% to 21% as of January 1, 2018. The enactment of the TCJA required a re-measurement of the Company’s deferred income taxes. The portion of this re-measurement related to the Regulated Businesses was substantially offset by a regulatory liability as EADIT will be used to benefit the Company’s regulated customers in future rates. Twelve of the Company’s regulated subsidiaries are amortizing EADIT and crediting customers. The Company expects the timing of the amortization of EADIT credits for the one remaining regulated subsidiary to be addressed in a pending rate case or other proceedings. When crediting EADIT to the customer, the Company records both a reduction to revenue and a reduction to income tax expense, having no material impact on net income.

Federal Net Operating Loss

The Company had no federal NOL carryover balance remaining as of December 31, 2021 due to the HOS sale, after which time the Company became a cash taxpayer for federal income tax purposes.

Legislative Updates

During 2021, the Company’s regulatory jurisdictions enacted the following legislation that has been approved and is effective as of February 16, 2022:

- California passed electronic payment legislation, Assembly Bill 1058, which permanently changes state law to allow investor-owned water and wastewater utilities to accept electronic payments, including credit and debit cards, without charging processing fees to customers.
- California passed CPUC consolidation timeline legislation, Assembly Bill 1250, which requires the CPUC to make timely decisions on applications to acquire systems. Consolidations of \$5 million or less are to be processed within 180 days and those more than \$5 million are required to be processed within 12 months.
- The Kentucky General Assembly adopted House Bill 465 relating to the acquisition of water and wastewater utilities. The legislation affirms a method in valuing water and wastewater systems above net book value and establishes a timeline of 60 days for Public Service Commission approval of an acquisition.
- Indiana House Enrolled Act 1287 creates a mechanism that reduces the required upfront cost to new customers for a water or wastewater utility to extend service to underserved areas.
- Indiana House Enrolled Act 349 establishes a tax rider for water and wastewater utilities based upon a change in state or federal income tax law. The legislation also requires the Indiana Finance Authority to prioritize loans that secure long-term benefits over shorter term projects.
- New Jersey passed Lead Service Line Replacement Bill, Senate Bill 3398/Assembly Bill 5343, which provides for the replacement of lead service lines within 10 years of the effective date of the bill and authorizes cost recovery of customer-owned lead service lines as an O&M expense plus interest through a semi-annual surcharge.
- Missouri passed the Water and Sewer Infrastructure Act, Senate Bill 44/House Bill 397, to establish a new statewide surcharge mechanism program which covers replacement of aging water distribution and sewer collection infrastructure. This legislation broadens the eligible projects covered by the current Infrastructure System Replacement Surcharge mechanism and expands its applicability to projects across the state.
- New Jersey passed Senate Bill 647/House Bill 4825 which strengthens the WQAA by requiring the Department of Environmental Protection to adopt regulations to implement the WQAA, enhancing asset management plans and reporting, upgrading cyber security standards and adding criminal penalties for falsifying reports.
- Illinois passed House Bill 414, Low Income Water & Sewer Financial Assistance Program, which authorizes the state’s Department of Commerce and Economic Opportunity to institute a water and sewer assistance program for customers of privately and publicly owned systems. The program is modeled off the existing energy supplemental state Low Income Home Energy Assistance Program.

In September 2020, the CPUC released a decision under its Low-Income Rate Payer Assistance program rulemaking that will require the Company’s California subsidiary to file a proposal to alter its water revenue adjustment mechanism in its next general rate case filing in 2022, which would become effective in January 2024. On October 5, 2020, the Company’s California subsidiary filed an application for rehearing of the decision and following the CPUC’s denial of its rehearing application in September 2021, the Company’s California subsidiary filed a petition for writ of review with the California Supreme Court on October 27, 2021.

Consolidated Results of Operations

Presented in the table below are the Company's consolidated results of operations:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Operating revenues	\$ 3,930	\$ 3,777	\$ 3,610
Operating expenses:			
Operation and maintenance	1,777	1,622	1,544
Depreciation and amortization	636	604	582
General taxes	321	303	280
Other	—	—	(10)
Total operating expenses, net	2,734	2,529	2,396
Operating income	1,196	1,248	1,214
Other income (expense):			
Interest expense	(403)	(397)	(386)
Interest income	4	2	4
Non-operating benefit costs, net	78	49	16
Gain or (loss) on sale of businesses	747	—	(44)
Other, net	18	22	29
Total other income (expense)	444	(324)	(381)
Income before income taxes	1,640	924	833
Provision for income taxes	377	215	212
Net income attributable to common shareholders	\$ 1,263	\$ 709	\$ 621

Segment Results of Operations

The Company's operating segments are comprised of the revenue-generating components of its business for which separate financial information is internally produced and regularly used by management to make operating decisions, assess performance and allocate resources. The Company operates its business primarily through one reportable segment, the Regulated Businesses segment. The Company also operates other businesses that, individually, do not meet the criteria of a reportable segment in accordance with GAAP, and are collectively presented as the Market-Based Businesses, which is consistent with how management assesses the results of these businesses. For a discussion and analysis of the Company's financial statements for fiscal 2020 compared to fiscal 2019, please refer to Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2020, filed with the SEC on February 24, 2021.

Regulated Businesses Segment

Presented in the table below is financial information for the Regulated Businesses:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Operating revenues	\$ 3,384	\$ 3,255	\$ 3,094
Operation and maintenance	1,325	1,258	1,182
Depreciation and amortization	601	562	529
General taxes	301	285	262
Other operating expenses	1	(3)	(10)
Other income (expenses)	(195)	(221)	(262)
Income before income taxes	962	932	869
Provision for income taxes	172	217	215
Net income attributable to common shareholders	789	715	654

Operating Revenues

Presented in the tables below is information regarding the main components of the Regulated Businesses' operating revenues:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Water services:			
Residential	\$ 1,935	\$ 1,895	\$ 1,735
Commercial	676	627	639
Fire service	151	147	142
Industrial	141	133	138
Public and other	239	226	230
Total water services	3,142	3,028	2,884
Wastewater services:			
Residential	151	134	119
Commercial	37	34	31
Industrial	4	3	3
Public and other	16	14	14
Total wastewater services	208	185	167
Other (a)	34	42	43
Total operating revenues	\$ 3,384	\$ 3,255	\$ 3,094

(a) Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

	For the Years Ended December 31,		
	2021	2020	2019
(Gallons in millions)			
Billed water services volumes:			
Residential	173,644	178,753	167,470
Commercial	77,476	75,875	81,268
Industrial	35,738	34,875	37,242
Fire service, public and other	51,957	49,031	50,501
Total billed water services volumes	338,815	338,534	336,481

In 2021, as compared to 2020, operating revenues increased \$129 million primarily due to \$208 million increase from authorized rate increases, including infrastructure surcharges, principally to fund infrastructure investment in various states, and a \$26 million increase from water and wastewater acquisitions, as well as organic growth in existing systems. These increases were offset by an estimated net decrease of \$13 million from weather in both 2021 and 2020, a \$5 million decrease from lower water services demand and ongoing customer usage reductions from conservation, and a \$79 million decrease in revenues due to the amortization of EADIT, which is generally offset with a reduction in income tax expense. Additionally, there was an \$8 million decrease in revenue due to the denial of authorization to defer certain COVID-19 financial impacts based on the PaPUC order received by the Company's Pennsylvania subsidiary. See Note 3—Impact of the COVID-19 Pandemic in the Notes to Consolidated Financial Statements for additional information.

Operation and Maintenance

Presented in the table below is information regarding the main components of the Regulated Businesses' operating and maintenance expense:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Employee-related costs	\$ 522	\$ 495	\$ 462
Production costs	353	335	317
Operating supplies and services	245	242	237
Maintenance materials and supplies	93	84	74
Customer billing and accounting	66	58	55
Other	46	44	37
Total	\$ 1,325	\$ 1,258	\$ 1,182

Employee-Related Costs

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Salaries and wages	\$ 402	\$ 382	\$ 363
Group insurance	66	65	60
Pensions	25	20	12
Other benefits	29	28	27
Total	\$ 522	\$ 495	\$ 462

In 2021, as compared to 2020, employee-related costs increased \$27 million primarily due to a \$20 million increase in salaries and wages from higher headcount and related compensation expense supporting growth in the businesses and a \$5 million increase in pension service costs.

Production Costs

(In millions)	For the Years Ended December 31,		
	2021	2020	2019
Purchased water	\$ 153	\$ 149	\$ 135
Fuel and power	97	88	90
Chemicals	59	57	54
Waste disposal	44	41	38
Total	\$ 353	\$ 335	\$ 317

In 2021, as compared to 2020, production costs increased \$18 million primarily due to a \$9 million increase in fuel and power due to higher rates and system delivery across several subsidiaries and a \$4 million increase in purchased water primarily due to usage in the Company's California subsidiary.

Maintenance Materials and Supplies

In 2021, as compared to 2020, maintenance materials and supplies increased \$9 million primarily due to timing of maintenance and tank painting projects in the Company's New Jersey subsidiary and increased paving costs from a higher volume of main breaks.

Customer Billing and Accounting

In 2021, as compared to 2020, customer billing and accounting increased \$8 million primarily due to higher call volumes experienced at our customer service centers, higher collections costs and higher uncollectible costs.

Depreciation and Amortization

In 2021, as compared to 2020, depreciation and amortization increased \$39 million primarily due to additional utility plant placed in service from capital infrastructure investments and acquisitions.

General Taxes

In 2021, as compared to 2020, general taxes increased \$16 million, primarily due to increased capital investments, including acquisitions, increased tax rates across several subsidiaries and an increase in the New Jersey Gross Receipts Tax.

Other Income (Expenses)

In 2021, as compared to 2020, other income (expenses) increased \$26 million primarily due to the reduction in the non-service cost components of pension and other postretirement benefits expense resulting from higher asset returns.

Provision for Income Taxes

In 2021, as compared to 2020, the Regulated Businesses' provision for income taxes decreased \$45 million. The Regulated Businesses' effective income tax rate was 17.9% and 23.3% for the years ended December 31, 2021 and 2020, respectively. The decrease was primarily due to an increase in the amortization of EADIT resulting from the TCJA, pursuant to regulatory orders. The amortization of EADIT is generally offset with reductions in revenue.

Market-Based Businesses

Presented in the table below is information for the Market-Based Businesses:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Operating revenues	\$ 563	\$ 540	\$ 539
Operation and maintenance	482	389	393
Depreciation and amortization	22	26	37
Gain or (loss) on sale of businesses	748	(1)	(44)
Income before income taxes	798	120	66
Provision for income taxes	248	29	20
Net income attributable to common shareholders	550	91	46

Operating Revenues

In 2021, as compared to 2020, operating revenues increased \$23 million primarily due to a \$32 million increase in capital and O&M projects in the MSG, across several of the Company's military bases, primarily at the United States Military Academy at West Point, New York, Fort Belvoir and Joint Base Lewis-McChord and a \$7 million increase in the CSG related to the contract with the City of Camden, New Jersey. These increases were partially offset by a \$17 million year over year decrease at HOS due to the sale of the business in the fourth quarter of 2021.

Operation and Maintenance

Presented in the table below is information regarding the main components of the Market-Based Businesses' operating and maintenance expense:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Operating supplies and services	\$ 221	\$ 148	\$ 128
Maintenance materials and supplies	123	114	109
Employee-related costs	96	90	109
Production costs	22	21	29
Other	20	16	18
Total	\$ 482	\$ 389	\$ 393

Operating Supplies and Services

In 2021, as compared to 2020, operating supplies and services increased \$73 million primarily due to the \$45 million pre-tax contribution to the AWCF authorized by the Company in 2021, costs associated with MSG from increased capital and O&M projects as discussed above and an increase in additional O&M costs related to CSG.

Maintenance Materials and Supplies

In 2021, as compared to 2020, maintenance materials and supplies increased \$9 million primarily due to an increase in CSG related to the contract with the City of Camden, New Jersey and an increase in HOS due to contract growth and an increase in claims. These increases were partially offset by a decrease in HOS due to the sale of its business in the fourth quarter of 2021.

Employee-Related Costs

In 2021, as compared to 2020, employee-related costs increased \$6 million primarily due to an increase in salaries and wages in MSG from the addition of new bases in the second half of 2020 and HOS for additional customer service costs to support the business.

Depreciation and Amortization

In 2021, as compared to 2020, depreciation and amortization decreased \$4 million primarily due to lower intangible asset amortization expenses in HOS.

Gain or (Loss) on Sale of Businesses

During the fourth quarter of 2021, the Company recognized a pre-tax gain on sale of \$748 million relating to the sale of HOS. See Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

Provision for Income Taxes

In 2021, as compared to 2020, provision for income taxes increased \$219 million primarily due to the sale of HOS. See Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

Liquidity and Capital Resources

The Company uses its capital resources, including cash, primarily to (i) fund operating and capital requirements, (ii) pay interest and meet debt maturities, (iii) pay dividends, (iv) fund acquisitions, (v) fund pension and postretirement benefit obligations, and (vi) to pay federal income taxes, which the Company began to pay as a result of fully utilizing its NOL carryforward in 2021. The Company invests a significant amount of cash on regulated capital projects where it expects to earn a long-term return on investment. Additionally, the Company operates in rate regulated environments in which the amount of new investment recovery may be limited, and where such recovery generally takes place over an extended period of time, and certain capital recovery is also subject to regulatory lag. See Item 1—Business—Regulated Businesses—*Regulation and Rate Making* for additional information. The Company expects to fund future maturities of long-term debt through a combination of external debt and, to the extent available, cash flows from operations. Since the Company expects its capital investments over the next few years to be greater than its cash flows from operating activities, the Company currently plans to fund the excess of its capital investments over its cash flows from operating activities for the next five years through a combination of long-term debt and equity in addition to the proceeds from the sales of HOS and the Company's New York subsidiary. If necessary, the Company may delay certain capital investments or other funding requirements, or pursue financing from other sources to preserve liquidity. In this event, the Company believes it can rely upon cash flows from operations to meet its obligations and fund its minimum required capital investments for an extended period of time.

The Company regularly evaluates and monitors its cash requirements for capital investments, acquisitions, operations, commitments, debt maturities, interest and dividends. The Company's business is capital intensive, with a majority of this capital funded by cash flows from operations. When necessary, the Company also obtains funds from external sources, primarily in the debt markets and through short-term commercial paper borrowings. In order to meet short-term liquidity needs, AWCC issues commercial paper that is supported by its revolving credit facility. The Company may also access the equity capital markets to support its capital funding requirements, as needed. The Company's access to external financing on reasonable terms depends on its credit ratings and current business conditions, including that of the utility and water utility industry in general, as well as conditions in the debt or equity capital markets, and the national and international economic and geopolitical arenas. Disruptions in the credit markets may discourage lenders from extending the terms of such commitments or agreeing to new commitments. Market disruptions may also limit the Company's ability to issue debt and equity securities in the capital markets.

If these unfavorable business, market, financial and other conditions deteriorate to the extent that the Company is no longer able to access the commercial paper and/or capital markets on reasonable terms, AWCC has access to an unsecured revolving credit facility that expires in March 2025 with aggregate bank commitments of \$2.25 billion. The facility is used principally to fulfill the Company's short-term liquidity needs by supporting AWCC's \$2.10 billion commercial paper program and to provide a sublimit of up to \$150 million for letters of credit. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment under the facility by up to \$500 million. As of December 31, 2021, AWCC had no outstanding borrowings and \$76 million of outstanding letters of credit under its revolving credit facility, with \$1.59 billion available to fulfill its short-term liquidity needs and to issue letters of credit.

To ensure adequate liquidity given the impacts of the COVID-19 pandemic on debt and capital markets, on March 20, 2020, AWCC entered into a Term Loan Credit Agreement, by and among parent company, AWCC and the lenders party thereto (the "Term Loan Facility"). The net proceeds were used for general corporate purposes of AWCC and American Water and to provide additional liquidity. The Term Loan Facility commitments terminated at maturity on March 19, 2021, and the Term Loan Facility was repaid in full.

The Company believes that its ability to access the debt and equity capital markets, the revolving credit facility and cash flows from operations will generate sufficient cash to fund the Company's short-term requirements. The Company believes it has sufficient liquidity and the ability to manage its expenditures, should there be a disruption of the capital and credit markets. However, there can be no assurance that the lenders will be able to meet existing commitments to AWCC under the revolving credit facility, or that AWCC will be able to access the commercial paper or loan markets in the future on acceptable terms or at all. See Credit Facilities and Short-Term Debt below for additional information.

Cash Flows from Operating Activities

Cash flows from operating activities primarily result from the sale of water and wastewater services and, due to the seasonality of demand, are generally greater during the warmer months. The Company's future cash flows from operating activities will be affected by, among other things: customers' ability to pay for service in a timely manner, economic utility regulation, inflation, compliance with environmental, health and safety standards, production costs, maintenance costs, customer growth, declining customer usage of water, employee-related costs, including pension funding, weather and seasonality, taxes, and overall economic conditions.

Operating cash flows can be negatively affected by changes in the Company's rate regulated environments, changes in the Market-Based Businesses, changes in the economy, interest rates, the timing of tax payments, and the Company's customers' ability to pay for service in a timely manner, among other items. The Company can provide no assurance that its customers' historical payment pattern will continue in the future. The Company's current liabilities may exceed current assets mainly from debt maturities due within one year and the use of short-term debt as a funding source, primarily to meet scheduled maturities of long-term debt, fund acquisitions and construction projects, as well as cash needs, which can fluctuate significantly due to the seasonality of the business and other factors. The Company addresses cash timing differences primarily through its short-term liquidity funding mechanisms.

Presented in the table below is a summary of the major items affecting the Company's cash flows from operating activities:

(In millions)	For the Years Ended December 31,		
	2021	2020	2019
Net income	\$ 1,263	\$ 709	\$ 621
Add (less):			
Depreciation and amortization	636	604	582
Deferred income taxes and amortization of investment tax credits	230	207	208
Other non-cash activities (a)	(27)	—	4
Changes in working capital (b)	126	(49)	(5)
Settlement of cash flow hedges	—	(6)	(30)
Pension and non-pension postretirement benefit contributions	(40)	(39)	(31)
(Gain) or loss on sale of businesses	(747)	—	34
Net cash provided by operating activities	\$ 1,441	\$ 1,426	\$ 1,383

(a) Includes provision for losses on accounts receivable, pension and non-pension postretirement benefits and other non-cash, net. Details of each component can be found on the Consolidated Statements of Cash Flows.

(b) Changes in working capital include changes to receivables and unbilled revenues, accounts payable and accrued liabilities, and other current assets and liabilities, net, less the settlement of cash flow hedges.

In 2021, cash flows provided by operating activities increased \$15 million, primarily due to an increase in net income, changes in working capital, primarily from an increase in accrued taxes, and an increase in depreciation and amortization due to additional utility plant placed in service from capital infrastructure investments. Partially offsetting these increases was the gain on sale of businesses, due to the gain on the sale of HOS.

The Company expects to make pension contributions to the plan trusts of \$37 million in 2022. In addition, the Company estimates that contributions will amount to \$35 million, \$33 million, \$30 million and \$27 million in 2023, 2024, 2025 and 2026, respectively. Actual amounts contributed could change materially from these estimates as a result of changes in assumptions and actual investment returns, among other factors.

Cash Flows from Investing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from investing activities:

(In millions)	For the Years Ended December 31,		
	2021	2020	2019
Capital expenditures	\$ (1,764)	\$ (1,822)	\$ (1,654)
Acquisitions, net of cash acquired	(135)	(135)	(235)
Proceeds from sale of assets, net of cash on hand	472	2	48
Removal costs from property, plant and equipment retirements, net	(109)	(106)	(104)
Net cash used in investing activities	\$ (1,536)	\$ (2,061)	\$ (1,945)

In 2021, cash flows used in investing activities decreased \$525 million primarily due to proceeds received from the sale of HOS and timing of payments for capital expenditures. The Company continues to invest across all infrastructure categories, mainly replacement and renewal of transmission and distribution and services, meter and fire hydrants infrastructure in the Company's Regulated Businesses, as discussed below.

The Company's infrastructure investment plan consists of both infrastructure renewal programs, where the Company replaces infrastructure, as needed, and major capital investment projects, where the Company constructs new water and wastewater treatment and delivery facilities to meet new customer growth and water quality regulations. The Company's projected capital expenditures and other investments are subject to periodic review and revision to reflect changes in economic conditions and other factors.

Presented in the table below is a summary of the Company's capital expenditures by category:

(In millions)	For the Years Ended December 31,		
	2021	2020	2019
Transmission and distribution	\$ 749	\$ 704	\$ 661
Treatment and pumping	197	306	190
Services, meter and fire hydrants	366	333	346
General structure and equipment	251	299	234
Sources of supply	64	54	83
Wastewater	137	126	140
Total capital expenditures	\$ 1,764	\$ 1,822	\$ 1,654

In 2021, the Company's capital expenditures decreased \$58 million primarily due to a decrease in treatment and pumping and general structure and equipment infrastructure investment partially offset by increases in transmission and distribution and services, meter and fire hydrants infrastructure investment.

The Company also grows its business primarily through acquisitions of water and wastewater systems. These acquisitions are generally located in geographic proximity to the Company's existing Regulated Businesses and support continued geographical diversification and growth of its operations. Generally, acquisitions are funded initially with short-term debt, and later refinanced with long-term financing. During 2021, the Company paid \$112 million for the acquisition of 23 water and wastewater systems, representing in the aggregate approximately 20,000 customers and paid \$23 million in deposits for future acquisitions.

As previously noted, over the next five years the Company expects to invest between \$13 billion to \$14 billion, with \$11.5 billion to \$12 billion for infrastructure improvements in the Regulated Businesses, and the Company expects to invest between \$28 billion to \$32 billion over the next 10 years. In 2022, the Company expects to invest \$2.5 billion, consisting of \$2 billion for infrastructure improvements and \$500 million for acquisitions in the Regulated Businesses.

Cash Flows from Financing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from financing activities:

(In millions)	For the Years Ended December 31,		
	2021	2020	2019
Proceeds from long-term debt	\$ 1,118	\$ 1,334	\$ 1,530
Repayments of long-term debt	(372)	(342)	(495)
(Repayments of) proceeds from term loan	(500)	500	—
Net short-term borrowings with maturities less than three months	(198)	(5)	(178)
Dividends paid	(428)	(389)	(353)
Anti-dilutive share repurchases	—	—	(36)
Other financing activities, net (a)	35	22	26
Net cash (used in) provided by financing activities	\$ (345)	\$ 1,120	\$ 494

(a) Includes proceeds from issuances of common stock under various employee stock plans and the Company's dividend reinvestment plan, net of taxes paid, advances and contributions in aid of construction, net of refunds, and debt issuance costs and make-whole premiums on early debt redemption.

In 2021, cash flows provided by financing activities decreased \$1,465 million, primarily due to the repayment in full at maturity of the \$500 million Term Loan Facility during the first quarter of 2021, an increase in net repayments of commercial paper borrowings, higher dividends paid in 2021 and an increase in repayments of long-term debt due to the prepayment of \$327 million in aggregate principal amount of AWCC's outstanding senior notes during the second quarter of 2021.

The Company's financing activities are primarily focused on funding regulated infrastructure expenditures, regulated acquisitions and payment of dividends. These activities included the issuance of long-term and short-term debt, primarily through AWCC. Based on the needs of the Regulated Businesses and the Company, AWCC may borrow funds or issue its debt in the capital markets and then, through intercompany loans, provide those borrowings to the Regulated Businesses and parent company. The Regulated Businesses and parent company are obligated to pay their portion of the respective principal and interest to AWCC, in the amount necessary to enable AWCC to meet its debt service obligations. Parent company's borrowings are not a source of capital for the Regulated Businesses, therefore, parent company is not able to recover the interest charges on its debt through regulated water and wastewater rates. As of December 31, 2021, AWCC has made long-term fixed rate loans and commercial paper loans to the Regulated Businesses amounting to \$6.7 billion. Additionally, as of December 31, 2021, AWCC has made long-term fixed rate loans and commercial paper loans to parent company amounting to \$3.1 billion.

On May 10, 2021, AWCC completed a \$1.1 billion debt offering, which included the sale of \$550 million aggregate principal amount of its 2.30% Senior Notes due 2031 and \$550 million aggregate principal amount of its 3.25% Senior Notes due 2051. At the closing of the offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of \$1,086 million. AWCC used the net proceeds of this offering: (i) to lend funds to parent company and its regulated subsidiaries; (ii) to prepay \$251 million aggregate principal amount of AWCC's outstanding 5.77% Series D Senior Notes due December 21, 2021 (the "Series D Notes") and \$76 million aggregate principal amount of AWCC's outstanding 6.55% Series H Senior Notes due May 15, 2023 (the "Series H Notes," and together with the Series D Notes, the "Series Notes"); (iii) to repay AWCC's commercial paper obligations; and (iv) for general corporate purposes. After the prepayments described above, none of the Series D Notes, and approximately \$14 million aggregate principal amount of the Series H Notes, remain outstanding. As a result of AWCC's prepayment of the Series Notes, a make-whole premium of \$15 million was paid to the holders thereof on June 14, 2021. Substantially all of the early debt extinguishment costs were allocable to the Company's utility subsidiaries and recorded as regulatory assets, as the Company believes they are probable of recovery in future rates.

One of the principal market risks to which the Company is exposed is changes in interest rates. In order to manage the exposure, the Company follows risk management policies and procedures, including the use of derivative contracts such as swaps. The Company also reduces exposure to interest rates by managing commercial paper and debt maturities. The Company does not enter into derivative contracts (through AWCC) for speculative purposes and does not use leveraged instruments. The derivative contracts entered into are for periods consistent with the related underlying exposures. The Company is exposed to the risk that counterparties to derivative contracts will fail to meet their contractual obligations. The Company minimizes the counterparty credit risk on these transactions by dealing only with leading, creditworthy financial institutions, having long-term credit ratings of "A" or better.

On May 10, 2021, the Company terminated two treasury lock agreements with an aggregate notional amount of \$275 million, realizing a net gain of less than \$1 million, to be amortized through interest, net over a ten-year period, in accordance with the terms of the new debt issued on May 10, 2021. No ineffectiveness was recognized on hedging instruments for the years ended December 31, 2021 and 2020.

In February 2021, parent company and AWCC filed with the SEC a universal shelf registration statement that enables the Company to meet its capital needs through the offer and sale to the public from time to time of an unlimited amount of various types of securities, including American Water common stock, preferred stock, and other equity and hybrid securities, and AWCC debt securities, all subject to market conditions and demand, general economic conditions, and as applicable, rating status. The shelf registration statement will expire in February 2024. During 2021, 2020 and 2019, \$1.10 billion, \$1.00 billion, and \$1.10 billion, respectively, of debt securities were issued under this and predecessor registration statements.

Presented in the table below are the issuances of long-term debt in 2021:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount (in millions)
AWCC (a)	Senior notes—fixed rate	2.30%-3.25%	2.78%	2031-2051	\$ 1,100
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.00%	0.04%	2022-2047	18
Total issuances					\$ 1,118

(a) This indebtedness is considered “debt” for purposes of a support agreement between parent company and AWCC, which serves as a functional equivalent of a full and unconditional guarantee by parent company of AWCC’s payment obligations under such indebtedness. See “—Issuer and Guarantor of Senior Notes” below.

Presented in the table below are the retirements and redemptions of long-term debt in 2021 through sinking fund provisions, optional redemption or payment at maturity:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount (in millions)
AWCC	Private activity bonds and government funded debt—fixed rate	1.79%-6.55%	5.94%	2021-2031	\$ 327
Other American Water subsidiaries	Private activity mortgage bonds	9.13%-9.69%	9.52%	2021	31
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.50%	1.38%	2021-2048	13
Other American Water subsidiaries	Mandatory redeemable preferred stock	8.49%-8.49%	8.49%	2022-2022	1
Total retirements and redemptions					\$ 372

From time to time and as market conditions warrant, the Company may engage in long-term debt retirements through make-whole redemptions, tender offers, open market repurchases or other viable alternatives.

Issuer and Guarantor of Senior Notes

The outstanding senior notes issued by AWCC, the wholly owned finance subsidiary of parent company, have been issued under two indentures, each by and between AWCC and Wells Fargo Bank, National Association, as trustee, providing for the rights and obligations of the parties thereto and the holders of the notes issued thereunder. The senior notes also have been issued with the benefit of a support agreement, as amended, between parent company and AWCC, which serves as the functional equivalent of a full and unconditional guarantee by parent company of AWCC’s payment obligations under the senior notes. No other subsidiary of parent company provides guarantees for any of the outstanding senior notes. If AWCC is unable to make timely payment of any interest, principal or premium, if any, on such senior notes, parent company will provide to AWCC, at its request or the request of any holder of such senior notes, funds to make such payment in full. If AWCC fails or refuses to take timely action to enforce certain rights under the support agreement or if AWCC defaults in the timely payment of any amounts owed to any holder of such senior notes, when due, the support agreement provides that the holder may proceed directly against parent company to enforce such rights or to obtain payment of the defaulted amounts owed to that holder.

As a wholly owned finance subsidiary of parent company, AWCC has no significant assets other than obligations of parent company and certain of its subsidiaries in its Regulated Businesses segment to repay certain intercompany loans made to them by AWCC. AWCC's ability to make payments of amounts owed to holders of the senior notes will be dependent upon AWCC's receipt of sufficient payments of amounts owed pursuant to the terms of such intercompany loans and from its ability to issue indebtedness or otherwise obtain loans in the future, the proceeds of which would be used to fund the repayment of the senior notes.

Because parent company is a holding company and substantially all of its operations are conducted through its subsidiaries other than AWCC, parent company's ability to fulfill its obligations under the support agreement will be dependent upon its receipt of sufficient cash dividends or distributions from its operating subsidiaries. See Note 10—Shareholders' Equity—Dividends and Distributions, in the Notes to the Consolidated Financial Statements for a summary of the limitations on parent company and its subsidiaries to pay dividends or make distributions. Furthermore, parent company's operating subsidiaries are separate and distinct legal entities and, other than AWCC, have no obligation to make any payments on the senior notes or to make available or provide any funds for such payment, other than through their repayment obligations under intercompany loans, if any, with AWCC. Based on the foregoing, parent company's obligations under the support agreement will be effectively subordinated to all indebtedness and other liabilities, including trade payables, lease commitments and moneys borrowed or other indebtedness incurred or issued by parent company's subsidiaries other than AWCC.

Credit Facilities and Short-Term Debt

Interest rates on advances under the Company's revolving credit facility are based on a credit spread to the LIBOR rate (or applicable market replacement rate) or base rate in accordance with Moody Investors Service's and Standard & Poor's Financial Services' then applicable credit rating on AWCC's senior unsecured, non-credit enhanced debt. The facility is used principally to support AWCC's commercial paper program and to provide up to \$150 million in letters of credit. Indebtedness under the facility and AWCC's commercial paper are considered "debt" for purposes of a support agreement between parent company and AWCC, which serves as a functional equivalent of a full and unconditional guarantee by parent company of AWCC's payment obligations thereunder.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each, as of December 31:

	2021		
	Commercial Paper Limit	Letters of Credit	Total (a)
(In millions)			
Total availability	\$ 2,100	\$ 150	\$ 2,250
Outstanding debt	(584)	(76)	(660)
Remaining availability as of December 31, 2021	\$ 1,516	\$ 74	\$ 1,590

(a) Total remaining availability of \$1.59 billion as of December 31, 2021 may be accessed through revolver draws.

	2020		
	Commercial Paper Limit	Letters of Credit	Total (a)
(In millions)			
Total availability	\$ 2,100	\$ 150	\$ 2,250
Outstanding debt	(786)	(76)	(862)
Remaining availability as of December 31, 2020	\$ 1,314	\$ 74	\$ 1,388

(a) Total remaining availability may be accessed through revolver draws.

Presented in the table below is the Company's total available liquidity as of December 31, 2021 and 2020:

(In millions)	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of December 31, 2021	\$ 116	\$ 1,590	\$ 1,706
Available liquidity as of December 31, 2020	547	1,388	1,935

The weighted average interest rate on AWCC short-term borrowings, including as of December 31, 2020, \$500 million of outstanding principal on the Term Loan Facility, was approximately 0.25% and 1.16%, for the years ended December 31, 2021 and 2020, respectively.

Capital Structure

Presented in the table below is the percentage of the Company's capitalization represented by the components of its capital structure as of December 31:

	2021	2020	2019
Total common shareholders' equity	39.9 %	37.1 %	39.2 %
Long-term debt and redeemable preferred stock at redemption value	56.6 %	53.6 %	55.6 %
Short-term debt and current portion of long-term debt	3.5 %	9.3 %	5.2 %
Total	100 %	100 %	100 %

The changes in the capital structure mix between periods were mainly attributable to the impacts of the HOS sale, repayment of the Term Loan Facility at maturity on March 19, 2021, and the Company's long-term debt offering that was completed on May 10, 2021.

Debt Covenants

The Company's debt agreements contain financial and non-financial covenants. To the extent that the Company is not in compliance with these covenants, an event of default may occur under one or more debt agreements and the Company, or its subsidiaries, may be restricted in its ability to pay dividends, issue new debt or access the revolving credit facility. The long-term debt indentures contain a number of covenants that, among other things, prohibit or restrict the Company from issuing debt secured by the Company's assets, subject to certain exceptions. Failure to comply with any of these covenants could accelerate repayment obligations.

Covenants in certain long-term notes and the revolving credit facility require the Company to maintain a ratio of consolidated debt to consolidated capitalization (as defined in the relevant documents) of not more than 0.70 to 1.00. On December 31, 2021, the Company's ratio was 0.60 to 1.00 and therefore the Company was in compliance with the covenants.

Security Ratings

Presented in the table below are long-term and short-term credit ratings and rating outlooks as of February 16, 2022 as issued by the following rating agencies:

Securities	Moody's Investors Service	Standard & Poor's Ratings Service
Rating outlook	Stable	Stable
Senior unsecured debt	Baa1	A
Commercial paper	P-2	A-1

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency, and each rating should be evaluated independently of any other rating. Security ratings are highly dependent upon the ability to generate cash flows in an amount sufficient to service debt and meet investment plans. The Company can provide no assurances that its ability to generate cash flows is sufficient to maintain its existing ratings. None of the Company's borrowings are subject to default or prepayment as a result of the downgrading of these security ratings, although such a downgrading could increase fees and interest charges under its credit facility.

As part of its normal course of business, the Company routinely enters into contracts for the purchase and sale of water, energy, chemicals and other services. These contracts either contain express provisions or otherwise permit the Company and its counterparties to demand adequate assurance of future performance when there are reasonable grounds for doing so. In accordance with the contracts and applicable contract law, if the Company is downgraded by a credit rating agency, especially if such downgrade is to a level below investment grade, it is possible that a counterparty would attempt to rely on such a downgrade as a basis for making a demand for adequate assurance of future performance, which could include a demand that the Company must provide collateral to secure its obligations. The Company does not expect to post any collateral which will have a material adverse impact on the Company's results of operations, financial position or cash flows.

Access to the capital markets, including the commercial paper market, and respective financing costs in those markets, may be directly affected by the Company's securities ratings. The Company primarily accesses the debt capital markets, including the commercial paper market, through AWCC. However, the Company has also issued debt through its regulated subsidiaries, primarily in the form of mortgage bonds and tax exempt securities or borrowings under state revolving funds, to lower the overall cost of debt.

Dividends and Regulatory Restrictions

For discussion of the Company's dividends, dividend restrictions and dividend policy, see Note 10—Shareholders' Equity in the Notes to Consolidated Financial Statements for additional information.

Insurance Coverage

The Company carries various property, casualty, cyber and financial insurance policies with limits, deductibles and exclusions that it believes are consistent with industry standards. However, insurance coverage may not be adequate or available to cover unanticipated losses or claims. Additionally, annual policy renewals can be impacted by claims experience which in turn can impact coverage terms and conditions on a going-forward basis. The Company is self-insured to the extent that losses are within the policy deductible or exceed the amount of insurance maintained. Such losses could have a material adverse effect on the Company's short-term and long-term financial condition and its results of operations and cash flows.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires that management apply accounting policies and make estimates, assumptions and judgments that could affect the Company's financial condition, results of operations and cash flows. Actual results could differ from these estimates, assumptions and judgments. Management believes that the areas described below require significant judgment in the application of accounting policy or in making estimates and assumptions in matters that are inherently uncertain and that may change in subsequent periods. Accordingly, changes in the estimates, assumptions and judgments applied to these accounting policies could have a significant impact on the Company's financial condition, results of operations and cash flows, as reflected in the Company's Consolidated Financial Statements. Management has reviewed the critical accounting policies described below with the Company's Audit, Finance and Risk Committee, including the estimates, assumptions and judgments used in their application. Additional discussion regarding these critical accounting policies and their application can be found in Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements.

Regulation and Regulatory Accounting

The Company's regulated utilities are subject to regulation by PUCs and, as such, the Company follows the authoritative accounting principles required for rate regulated utilities, which requires the Company to reflect the effects of rate regulation in its Consolidated Financial Statements. Use of this authoritative guidance is applicable to utility operations that meet the following criteria: (i) third-party regulation of rates; (ii) cost-based rates; and (iii) a reasonable assumption that rates will be set to recover the estimated costs of providing service, plus a return on net investment, or rate base. As of December 31, 2021, the Company concluded that the operations of its utilities met the criteria.

Application of this authoritative guidance has a further effect on the Company's financial statements as it pertains to allowable costs used in the ratemaking process. The Company makes significant assumptions and estimates to quantify amounts recorded as regulatory assets and liabilities. Such judgments include, but are not limited to, assets and liabilities related to regulated acquisitions, pension and postretirement benefits, depreciation rates and taxes. Due to timing and other differences in the collection of revenues, these authoritative accounting principles allow a cost that would otherwise be charged as an expense by a non-regulated entity, to be deferred as a regulatory asset if it is probable that such cost is recoverable through future rates. Conversely, the principles require the creation of a regulatory liability for amounts collected in rates to recover costs expected to be incurred in the future, or amounts collected in excess of costs incurred and are refundable to customers.

For each regulatory jurisdiction where the Company conducts business, the Company assesses, at the end of each reporting period, whether the regulatory assets continue to meet the criteria for probable future recovery and regulatory liabilities continue to meet the criteria for probable future settlement. This assessment includes consideration of factors such as changes in regulatory environments, recent rate orders (including recent rate orders on recovery of a specific or similar incurred cost to other regulated entities in the same jurisdiction) and the status of any pending or potential legislation. If subsequent events indicate that the regulatory assets or liabilities no longer meet the criteria for probable future recovery or probable future settlement, the Company's Consolidated Statements of Operations and financial position could be materially affected. In addition, if the Company concludes in a future period that a separable portion of the business no longer meets the criteria, the Company is required to eliminate the financial statement effects of regulation for that part of the business, which would include the elimination of any or all regulatory assets and liabilities that had been recorded in the Consolidated Financial Statements. Failure to meet the criteria of this authoritative guidance could materially impact the Company's Consolidated Financial Statements.

As of December 31, 2021 and 2020, the Company's regulatory asset balance was \$1.1 billion and its regulatory liability balance was \$1.6 billion and \$1.8 billion, respectively. See Note 4—Regulatory Matters in the Notes to Consolidated Financial Statements for further information regarding the Company's significant regulatory assets and liabilities.

Accounting for Income Taxes

Significant management judgment is required in determining the provision for income taxes, primarily due to the uncertainty related to tax positions taken, as well as deferred tax assets and liabilities, valuation allowances and the utilization of NOL carryforwards.

In accordance with applicable authoritative guidance, the Company accounts for uncertain income tax positions using a benefit recognition model with a two-step approach, including a more-likely-than-not recognition threshold and a measurement approach based on the largest amount of tax benefit that is greater than 50% likely of being realized upon ultimate settlement. If it is not more-likely-than-not that the benefit of the tax position will be sustained on its technical merits, no benefit is recorded. Uncertain tax positions that relate only to timing of when an item is included on a tax return are considered to have met the recognition threshold. Management evaluates each position based solely on the technical merits and facts and circumstances of the position, assuming the position will be examined by a taxing authority having full knowledge of all relevant information. Significant judgment is required to determine whether the recognition threshold has been met and, if so, the appropriate amount of unrecognized tax benefit to be recorded in the Consolidated Financial Statements.

The Company evaluates the probability of realizing deferred tax assets quarterly by reviewing a forecast of future taxable income and its intent and ability to implement tax planning strategies, if necessary, to realize deferred tax assets. The Company also assesses its ability to utilize tax attributes, including those in the form of carryforwards, for which the benefits have already been reflected in the financial statements. The Company records valuation allowances for deferred tax assets when it concludes that it is more-likely-than-not such benefit will not be realized in future periods.

Under GAAP, specifically Accounting Standards Codification Topic 740, *Income Taxes* ("ASC 740"), the tax effects of changes in tax laws must be recognized in the period in which the law is enacted. ASC 740 also requires deferred tax assets and liabilities to be measured at the enacted tax rate expected to apply when temporary differences are to be realized or settled. Thus, at the date of enactment of the TCJA, the Company's deferred taxes were re-measured based upon the new tax rate. For the Company's regulated entities, the change in deferred taxes are recorded as either an offset to a regulatory asset or a regulatory liability and may be subject to refund to customers. For the Company's unregulated operations, the change in deferred taxes are recorded as a non-cash re-measurement adjustment to earnings.

Actual income taxes could vary from estimated amounts due to the future impacts of various items, including changes in income tax laws, the Company's forecasted financial condition and results of operations, failure to successfully implement tax planning strategies and recovery of taxes through the regulatory process for the Regulated Businesses, as well as results of audits and examinations of filed tax returns by taxing authorities. The resulting tax balances as of December 31, 2021 and 2020 are appropriately accounted for in accordance with the applicable authoritative guidance; however, the ultimate outcome of tax matters could result in favorable or unfavorable adjustments to the Consolidated Financial Statements and such adjustments could be material. See Note 15—Income Taxes in the Notes to Consolidated Financial Statements for additional information regarding income taxes.

Accounting for Pension and Postretirement Benefits

The Company maintains noncontributory defined benefit pension plans covering eligible employees of its regulated utility and shared service operations. See Note 16—Employee Benefits in the Notes to Consolidated Financial Statements for additional information regarding the description of and accounting for the defined benefit pension plans and postretirement benefit plans.

The Company's pension and postretirement benefit costs are developed from actuarial valuations. Inherent in these valuations are key assumptions provided by the Company to its actuaries, including the discount rate and expected long-term rate of return on plan assets. Material changes in the Company's pension and postretirement benefit costs may occur in the future due to changes in these assumptions as well as fluctuations in plan assets. The assumptions are selected to represent the average expected experience over time and may differ in any one year from actual experience due to changes in capital markets and the overall economy. These differences will impact the amount of pension and other postretirement benefit expense that the Company recognizes. The primary assumptions are:

- **Discount Rate**—The discount rate is used in calculating the present value of benefits, which are based on projections of benefit payments to be made in the future. The objective in selecting the discount rate is to measure the single amount that, if invested at the measurement date in a portfolio of high-quality debt instruments, would provide the necessary future cash flows to pay the accumulated benefits when due.
- **Expected Return on Plan Assets ("EROA")**—Management projects the future return on plan assets considering prior performance, but primarily based upon the plans' mix of assets and expectations for the long-term returns on those asset classes. These projected returns reduce the net benefit costs the Company records currently.
- **Rate of Compensation Increase**—Management projects employees' pay increases, which are used to project employees' pension benefits at retirement.
- **Health Care Cost Trend Rate**—Management projects the expected increases in the cost of health care.
- **Mortality**—Management adopted the Society of Actuaries Pri-2012 mortality base table, the most recent table developed from private pension plan experience, which provides rates of mortality in 2012 and adopted the new MP-2021 mortality improvement scale to gradually adjust future mortality rates downward due to increased longevity in each year after 2012.

The discount rate assumption, which is determined for the pension and postretirement benefit plans independently, is subject to change each year, consistent with changes in applicable high-quality, long-term corporate bond indices. The Company uses an approach that approximates the process of settlement of obligations tailored to the plans' expected cash flows by matching the plans' cash flows to the coupons and expected maturity values of individually selected bonds. For each plan, the discount rate was developed as the level equivalent rate that would yield the same present value as using spot rates aligned with the projected benefit payments. The discount rate for determining pension benefit obligations was 2.94%, 2.74% and 3.44% at December 31, 2021, 2020 and 2019, respectively. The discount rate for determining other postretirement benefit obligations was 2.90%, 2.56% and 3.36% at December 31, 2021, 2020 and 2019, respectively.

In selecting an EROA, the Company considered tax implications, past performance and economic forecasts for the types of investments held by the plans. The long-term EROA assumption used in calculating pension cost was 6.50% for 2021, 6.50% for 2020, and 6.20% for 2019. The weighted average EROA assumption used in calculating other postretirement benefit costs was 3.67% for 2021, 3.68% for 2020 and 3.56% for 2019.

Presented in the table below are the allocations of the pension plan assets by asset category:

Asset Category	2022 Target Allocation	Percentage of Plan Assets as of December 31,	
		2021	2020
Equity securities	43 %	46 %	49 %
Fixed income	50 %	47 %	45 %
Real Estate	5 %	7 %	6 %
Real estate investment trusts ("REITs")	2 %	— %	— %
Total	100 %	100 %	100 %

Postretirement Medical Bargaining Plan Changes

On August 31, 2018, the Postretirement Medical Benefit Plan was remeasured as a result of an announced plan amendment which changed benefits for certain union and non-union plan participants. The plan change resulted in a \$175 million reduction in future benefits payable to plan participants, and, in combination with other experience reflected as of the remeasurement date, resulted in a \$227 million reduction to the net accumulated postretirement benefit obligation. As of December 31, 2021, the remaining amortization period of the impact of the plan amendment is 6.9 years. As a result of the remeasurement and change in funded status, the Company decreased the investment risk in the plan and reduced its exposure to changes in interest rates by matching the assets of the plan to the projected cash flows for future benefit payments of the liability. Plan assets in excess of those securities designed to match the long-term liabilities are invested in shorter duration fixed income securities and equities.

Presented in the table below are the allocations of the other postretirement benefit plan assets by asset category:

Asset Category	2022 Target Allocation (a)	Percentage of Plan Assets as of December 31,	
		2021	2020
Equity securities	18 %	22 %	18 %
Fixed income	82 %	78 %	82 %
Total	100 %	100 %	100 %

(a) Includes the American Water Postretirement Medical Benefits Bargaining Plan, the American Water Postretirement Medical Benefits Non-Bargaining Plan, and the American Water Life Insurance Trust.

The investments of the pension and postretirement welfare plan trusts include debt and equity securities held either directly or through mutual funds, commingled funds and limited partnerships. The trustee for the Company's defined benefit pension and postretirement welfare plans uses an independent valuation firm to calculate the fair value of plan assets.

In selecting a rate of compensation increase, the Company considers past experience in light of movements in inflation rates. The Company's rate of compensation increase was 3.51% for 2021, 3.51% for 2020 and 2.97% for 2019.

In selecting health care cost trend rates, the Company considers past performance and forecasts of increases in health care costs. As of January 1, 2021, the Company's health care cost trend rate assumption used to calculate the periodic cost was 6.25% in 2021 gradually declining to 5.00% in 2026 and thereafter. As of December 31, 2021, the Company projects that medical inflation will be 6.00% in 2022 gradually declining to 5.00% in 2026 and thereafter.

The Company will use a discount rate and EROA of 2.94% and 6.50%, respectively, for estimating its 2022 pension costs. Additionally, the Company will use a discount rate and expected blended return based on weighted assets of 2.90% and 3.60%, respectively, for estimating its 2022 other postretirement benefit costs. A decrease in the discount rate or the EROA would increase the Company's pension expense. The Company's 2021 pension and postretirement benefit credit was \$41 million and the 2020 pension and postretirement benefit credit was \$14 million. The Company expects to make pension contributions to the plan trusts of \$37 million in 2022, and \$35 million, \$33 million, \$30 million and \$27 million in 2023, 2024, 2025 and 2026, respectively. Actual amounts contributed could change significantly from these estimates. The assumptions are reviewed annually and at any interim re-measurement of the plan obligations. The impact of assumption changes is reflected in the recorded pension and postretirement benefit amounts as they occur, or over a period of time if allowed under applicable accounting standards.

Revenue Recognition

Revenue from the Company's Regulated Businesses is generated primarily from water and wastewater services delivered to customers. These contracts contain a single performance obligation, the delivery of water or wastewater services, as the promise to transfer the individual good or service is not separately identifiable from other promises within the contracts and, therefore, is not distinct. Revenues are recognized over time, as services are provided. There are generally no significant financing components or variable consideration. Revenues include amounts billed to customers on a cycle basis, and unbilled amounts calculated based on estimated usage from the date of the meter reading associated with the latest customer bill, to the end of the accounting period. The amounts that the Company has a right to invoice are determined by each customer's actual usage, an indicator that the invoice amount corresponds directly to the value transferred to the customer.

Increases or decreases in the volumes delivered to customers and rate mix due to changes in usage patterns in customer classes in the period could be significant to the calculation of unbilled revenue. In addition, changes in the timing of meter reading schedules and the number and type of customers scheduled for each meter reading date would also have an effect on the unbilled revenue calculation. Unbilled revenue for the Company's regulated utilities as of December 31, 2021 and 2020 was \$162 million and \$150 million, respectively.

The Company also recognizes revenue when it is probable that future recovery of previously incurred costs or future refunds that are to be credited to customers will occur through the ratemaking process.

Revenue from the Company's former HOS business was generated through various protection programs in which the Company provided fixed fee services to domestic homeowners and smaller commercial customers for interior and exterior water and sewer lines, interior electric and gas lines, heating and cooling systems, water heaters, power surge protection and other related services. Most of the contracts had a one-year term and each service was a separate performance obligation, satisfied over time, as the customers simultaneously received and consumed the benefits provided from the service. Customers were obligated to pay for the protection programs ratably over 12 months or via a one-time, annual fee, with revenues recognized ratably over time for those services. Advances from customers were deferred until the performance obligation was satisfied.

The Company also has long-term, fixed fee contracts to operate and maintain water and wastewater systems for the U.S. government on various military installations and facilities owned by municipal customers. Billing and revenue recognition for the fixed fee revenues occurs ratably over the term of the contract, as customers simultaneously receive and consume the benefits provided by the Company. Additionally, these contracts allow the Company to make capital improvements to underlying infrastructure, which are initiated through separate modifications or amendments to the original contract, whereby stand-alone, fixed pricing is separately stated for each improvement. The Company has determined that these capital improvements are separate performance obligations, with revenue recognized over time based on performance completed at the end of each reporting period. Losses on contracts are recognized during the period in which the losses first become probable and estimable. Revenues recognized during the period in excess of billings on construction contracts are recorded as unbilled revenues, with billings in excess of revenues recorded as other current liabilities until the recognition criteria are met. Changes in contract performance and related estimated contract profitability may result in revisions to costs and revenues and are recognized in the period in which revisions are determined. Unbilled revenue for the Market-Based Businesses as of December 31, 2021 and 2020 was \$86 million and \$56 million, respectively.

Accounting for Contingencies

The Company records loss contingencies when management determines that the outcome of future events is probable of occurring and when the amount of the loss or a range of losses can be reasonably estimated. The determination of a loss contingency is based on management's judgment and estimates about the likely outcome of the matter, which may include an analysis of different scenarios. Liabilities are recorded or adjusted when events or circumstances cause these judgments or estimates to change. In assessing whether a loss is reasonably possible, management considers many factors, which include, but are not limited to: the nature of the litigation, claim or assessment, review of applicable law, opinions or views of legal counsel and other advisors, and the experience gained from similar cases or situations. The Company provides disclosures for material contingencies when management deems there is a reasonable possibility that a loss or an additional loss may be incurred. The Company provides estimates of reasonably possible losses when such estimates may be reasonably determined, either as a single amount or within a reasonable range.

Actual amounts realized upon settlement or other resolution of loss contingencies may be different than amounts recorded and disclosed and could have a significant impact on the liabilities, revenue and expenses recorded on the Consolidated Financial Statements. See Note 17—Commitments and Contingencies in the Notes to Consolidated Financial Statements for additional information regarding contingencies.

Recent Accounting Standards

See Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for a description of recent accounting standards.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk associated with changes in commodity prices, equity prices and interest rates. The Company is exposed to risks from changes in interest rates as a result of its issuance of variable and fixed rate debt and commercial paper. The Company manages its interest rate exposure by limiting its variable rate exposure and by monitoring the effects of market changes in interest rates. The Company also has the ability to enter into financial derivative instruments, which could include instruments such as, but not limited to, interest rate swaps, forward starting swaps and U.S. Treasury lock agreements to manage and mitigate interest rate risk exposure. As of December 31, 2021, a hypothetical increase of interest rates by 1% associated with the Company's short-term borrowings would result in a \$8 million increase in short-term interest expense.

The Company's risks associated with price increases for chemicals, electricity and other commodities are reduced through contractual arrangements and the expected ability to recover price increases through rates, in the next general rate case proceeding or other regulatory mechanism, as authorized by each regulatory jurisdiction. Non-performance by these commodity suppliers could have a material adverse impact on the Company's results of operations, financial position and cash flows.

The market price of the Company's common stock may experience fluctuations, which may be unrelated to its operating performance. In particular, the Company's stock price may be affected by general market movements as well as developments specifically related to the water and wastewater industry. These could include, among other things, interest rate movements, quarterly variations or changes in financial estimates by securities analysts and governmental or regulatory actions. This volatility may make it difficult for the Company to access the capital markets in the future through additional offerings of its common stock or other equity securities, regardless of its financial performance, and such difficulty may preclude the Company from being able to take advantage of certain business opportunities or meet business obligations.

The Company is exposed to credit risk through its water, wastewater and other water-related services provided by the Regulated Businesses and Market-Based Businesses. The Company's Regulated Businesses serve residential, commercial, industrial and other customers, while the Market-Based Businesses engage in business activities with developers, government entities and other customers. The Company's primary credit risk is exposure to customer default on contractual obligations and the associated loss that may be incurred due to the non-payment of customer accounts receivable balances. The Company's credit risk is managed through established credit and collection policies which are in compliance with applicable regulatory requirements and involve monitoring of customer exposure and the use of credit risk mitigation measures such as letters of credit or prepayment arrangements. The Company's credit portfolio is diversified with no significant customer or industry concentrations. In addition, the Regulated Businesses are generally able to recover all prudently incurred costs including uncollectible customer accounts receivable expenses and collection costs through rates.

The Company's retirement trust assets are exposed to the market prices of debt and equity securities. Changes to the retirement trust asset values can impact the Company's pension and other benefits expense, funded status and future minimum funding requirements. Changes in interest rates can impact retirement liabilities. The Company aims to reduce risk through asset diversification and by investing in long duration fixed-income securities that have a duration similar to that of its pension liabilities, seeking to hedge some of the interest rate sensitivity of its liabilities. That way, if interest rates fall and liabilities increase, the Company expects that the fixed-income assets in its retirement trust will also increase in value. The Company also expects its risk to be reduced through its ability to recover pension and other benefit costs through rates.

The Company is also exposed to a potential national economic recession or deterioration in local economic conditions in the markets in which it operates. The credit quality of the Company's customer accounts receivable is dependent on the economy and the ability of its customers to manage through unfavorable economic cycles and other market changes. In addition, there can be no assurances that regulators will grant sufficient rate authorizations. Therefore, the Company's ability to fully recover operating expense, recover its investment and provide an appropriate return on invested capital made in the Regulated Businesses may be adversely impacted.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of
American Water Works Company, Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of American Water Works Company, Inc. and its subsidiaries (the "Company") as of December 31, 2021 and 2020, and the related consolidated statements of operations, comprehensive income, changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2021, including the related notes (collectively referred to as the "consolidated financial statements"). We also have audited the Company's internal control over financial reporting as of December 31, 2021, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2021 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Accounting for the Effects of Rate Regulation

As described in Notes 2 and 4 to the consolidated financial statements, the Company's consolidated regulatory assets and liabilities balances were \$1,067 million and \$1,608 million, respectively, as of December 31, 2021. The Company's regulated utilities are subject to regulation by multiple state utility commissions and the Company follows authoritative accounting principles required for rate regulated utilities, which requires the effects of rate regulation to be reflected in the Company's consolidated financial statements. As disclosed by management, for each regulatory jurisdiction where the Company conducts business, the Company assesses, at the end of each reporting period, whether the regulatory assets continue to meet the criteria for probable future recovery and regulatory liabilities continue to meet the criteria for probable future settlement. This assessment includes consideration of factors such as changes in regulatory environments, recent rate orders (including recent rate orders on recovery of a specific or similar incurred cost to other regulated entities in the same jurisdiction) and the status of any pending or potential legislation.

The principal considerations for our determination that performing procedures relating to accounting for the effects of rate regulation is a critical audit matter are the significant judgment by management in accounting for regulatory assets and liabilities relative to whether regulatory assets continue to meet the criteria for probable future recovery and regulatory liabilities continue to meet the criteria for probable future settlement as a result of changes in regulatory environments, recent rate orders, and the status of any pending or potential legislation. This in turn led to a high degree of auditor judgment, subjectivity, and effort in performing audit procedures and evaluating audit evidence obtained relating to management's judgments.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the Company's regulatory accounting process, including controls over management's assessment and consideration of factors related to the probability of future recovery or settlement. These procedures also included, among others, evaluating the reasonableness of management's judgments regarding the probability of recovery and settlement based on the Company's correspondence with regulators, status of regulatory proceedings, past practices, and other relevant information; evaluating the related accounting and disclosure implications; and evaluating regulatory assets and liabilities balances based on provisions and formulas outlined in rate orders and other correspondence with the Company's regulators.

American Water Works Company, Inc. and Subsidiary Companies
Notes to Consolidated Financial Statements

(Unless otherwise noted, in millions, except per share data)

Note 1: Organization and Operation

American Water Works Company, Inc. (the “Company” or “American Water”) is a holding company for regulated and market-based subsidiaries that provide water and wastewater services throughout the United States. References to “parent company” mean American Water Works Company, Inc., without its subsidiaries. The Company’s primary business involves the ownership of regulated utilities that provide water and wastewater services in 14 states in the United States, collectively referred to as the “Regulated Businesses.” The Company also operates other businesses that provide water and wastewater services within non-reportable operating segments, collectively referred to as the “Market-Based Businesses.” The Company’s primary Market-Based Businesses include the Military Services Group (“MSG”), which enters into long-term contracts with the U.S. government to provide water and wastewater services on various military installations; and the former Homeowner Services Group (“HOS”), which provided various warranty protection programs and other home services to residential customers.

Note 2: Significant Accounting Policies**Regulation**

The Company’s regulated utilities are subject to regulation by multiple state utility commissions or other entities engaged in utility regulation, collectively referred to as Public Utility Commissions (“PUCs”). As such, the Company follows authoritative accounting principles required for rate regulated utilities, which requires the effects of rate regulation to be reflected in the Company’s Consolidated Financial Statements. PUCs generally authorize revenue at levels intended to recover the estimated costs of providing service, plus a return on net investments, or rate base. Regulators may also approve accounting treatments, long-term financing programs and cost of capital, operation and maintenance (“O&M”) expenses, capital expenditures, taxes, affiliated transactions and relationships, reorganizations, mergers, acquisitions and dispositions, along with imposing certain penalties or granting certain incentives. Due to timing and other differences in the collection of a regulated utility’s revenues, these authoritative accounting principles allow a cost that would otherwise be charged as an expense by a non-regulated entity, to be deferred as a regulatory asset if it is probable that such cost is recoverable through future rates. Conversely, these principles also require the creation of a regulatory liability for amounts collected in rates to recover costs expected to be incurred in the future, or amounts collected in excess of costs incurred and are refundable to customers. See Note 4—Regulatory Matters for additional information.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (“GAAP”) requires that management make estimates, assumptions and judgments that could affect the Company’s financial condition, results of operations and cash flows. Actual results could differ from these estimates, assumptions and judgments. The Company considers its critical accounting estimates to include (i) the application of regulatory accounting principles and the related determination and estimation of regulatory assets and liabilities, (ii) revenue recognition and the estimates used in the calculation of unbilled revenue, (iii) accounting for income taxes, (iv) benefit plan assumptions and (v) the estimates and judgments used in determining loss contingencies. The Company’s critical accounting estimates that are particularly sensitive to change in the near term are amounts reported for regulatory assets and liabilities, income taxes, benefit plan assumptions and contingency-related obligations.

Principles of Consolidation

The accompanying Consolidated Financial Statements include the accounts of American Water and all of its subsidiaries in which a controlling interest is maintained after the elimination of intercompany balances and transactions.

Property, Plant and Equipment

Property, plant and equipment consists primarily of utility plant utilized by the Company’s regulated utilities. Additions to utility plant and replacement of retirement units of utility plant are capitalized and include costs such as materials, direct labor, payroll taxes and benefits, indirect items such as engineering and supervision, transportation and an allowance for funds used during construction (“AFUDC”). Costs for repair, maintenance and minor replacements are charged to O&M expense as incurred.

The cost of utility plant is depreciated using the straight-line average remaining life, group method. The Company’s regulated utilities record depreciation in conformity with amounts approved by PUCs, after regulatory review of the information the Company submits to support its estimates of the assets’ remaining useful lives.

Nonutility property consists primarily of buildings and equipment utilized by the Company's Market-Based Businesses and for internal operations. This property is stated at cost, net of accumulated depreciation, which is calculated using the straight-line method over the useful lives of the assets.

When units of property, plant and equipment are replaced, retired or abandoned, the carrying value is credited against the asset and charged to accumulated depreciation. To the extent the Company recovers cost of removal or other retirement costs through rates after the retirement costs are incurred, a regulatory asset is recorded. In some cases, the Company recovers retirement costs through rates during the life of the associated asset and before the costs are incurred. These amounts result in a regulatory liability being reported based on the amounts previously recovered through customer rates, until the costs to retire those assets are incurred.

The costs incurred to acquire and internally develop computer software for internal use are capitalized as a unit of property. The carrying value of these costs amounted to \$374 million and \$360 million as of December 31, 2021 and 2020, respectively.

Cash and Cash Equivalents, and Restricted Funds

Substantially all cash is invested in interest-bearing accounts. All highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents.

Restricted funds consist primarily of proceeds from financings for the construction and capital improvement of facilities, and deposits for future services under O&M projects. Proceeds are held in escrow or interest-bearing accounts until the designated expenditures are incurred. Restricted funds are classified on the Consolidated Balance Sheets as either current or long-term based upon the intended use of the funds.

Accounts Receivable and Unbilled Revenues

Accounts receivable include regulated utility customer accounts receivable, which represent amounts billed to water and wastewater customers generally on a monthly basis. Credit is extended based on the guidelines of the applicable PUCs and collateral is generally not required. Also included are market-based trade accounts receivable and nonutility customer receivables of the regulated subsidiaries. Unbilled revenues are accrued when service has been provided but has not been billed to customers and when costs exceed billings on market-based construction contracts.

Allowance for Uncollectible Accounts

Allowances for uncollectible accounts are maintained for estimated probable losses resulting from the Company's inability to collect receivables from customers. Accounts that are outstanding longer than the payment terms are considered past due. A number of factors are considered in determining the allowance for uncollectible accounts, including the length of time receivables are past due, previous loss history, current economic and societal conditions and reasonable and supportable forecasts that affect the collectability of receivables from customers. The Company generally writes off accounts when they become uncollectible or are over a certain number of days outstanding. An increase in the allowance for uncollectible accounts for the periods ending December 31, 2021 and 2020 reflects the impacts from the COVID-19 pandemic, including an increase in uncollectible accounts expense and a reduction in amounts written off due to shutoff moratoria in place across the Company's subsidiaries. See Note 8—Allowance for Uncollectible Accounts for additional information.

Materials and Supplies

Materials and supplies are stated at the lower of cost or net realizable value. Cost is determined using the average cost method.

Seller Promissory Note

The Company's seller promissory note is accounted for under ASC 310, Receivables, and is classified as held for investment and accounted for at amortized cost at the present value of consideration received for the sale of its HOS business. Interest income from the seller promissory note is accrued based on the principal amount outstanding and earned over the contractual life of the loan.

Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. The Company determines if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use ("ROU") assets, accrued liabilities and operating lease liabilities on the Consolidated Balance Sheets. Finance leases are included in property, plant and equipment, accrued liabilities and other long-term liabilities on the Consolidated Balance Sheets. The Company has made an accounting policy election not to include operating leases with a lease term of twelve months or less.

ROU assets represent the right to use an underlying asset for the lease term and the lease liabilities represent the obligation to make lease payments arising from the lease. ROU assets and lease liabilities are generally recognized at the commencement date based on the present value of discounted lease payments over the lease term. As most of the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at the commencement date in determining the present value of discounted lease payments. The implicit rate is used when readily determinable. ROU assets also include any upfront lease payments and excludes lease incentives. The Company's lease terms may include options to extend or terminate the lease when it is reasonably certain that the option will be exercised. Lease expense is recognized on a straight-line basis over the lease term.

The Company has lease agreements with lease components (e.g., fixed payments including rent, real estate taxes and insurance costs) and non-lease components (e.g., common-area maintenance costs), which are generally accounted for separately; however, the Company accounts for the lease and non-lease components as a single lease component for certain leases. Certain lease agreements include variable rental payments adjusted periodically for inflation. Additionally, the Company applies a portfolio approach to effectively account for the ROU assets and lease liabilities. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Goodwill

Goodwill represents the excess of the purchase price paid over the estimated fair value of the assets acquired and liabilities assumed in the acquisition of a business. Goodwill is not amortized and must be allocated at the reporting unit level, which is defined as an operating segment or one level below, and tested for impairment at least annually, or more frequently if an event occurs or circumstances change that would more likely than not, reduce the fair value of a reporting unit below its carrying value.

The Company's goodwill is primarily associated with the acquisition of American Water by an affiliate of the Company's previous owner in 2003 and has been allocated to reporting units based on the fair values at the date of the acquisitions. For purposes of testing goodwill for impairment, the reporting units in the Regulated Businesses segment are aggregated into a single reporting unit. The goodwill of the Market-Based Businesses is comprised of the MSG reporting unit.

The Company's annual impairment testing is performed as of November 30 of each year, in conjunction with the completion of the Company's annual business plan. The Company assesses qualitative factors to determine whether quantitative testing is necessary. If it is determined, based upon qualitative factors, that the estimated fair value of a reporting unit is more likely than not, greater than its carrying value, no further testing is required. If the Company bypasses the qualitative assessment or performs the qualitative assessment and determines that the estimated fair value of a reporting unit is more likely than not, less than its carrying value, a quantitative, fair value-based assessment is performed. This quantitative testing compares the estimated fair value of the reporting unit to its respective net carrying value, including goodwill, on the measurement date. An impairment loss will be recognized in the amount equal to the excess of the reporting unit's carrying value compared to its estimated fair value, limited to the total amount of goodwill allocated to that reporting unit.

Application of goodwill impairment testing requires management judgment, including the identification of reporting units and determining the fair value of reporting units. Management estimates fair value using a discounted cash flow analysis. Significant assumptions used in these fair value estimations include, but are not limited to, forecasts of future operating results, discount and growth rates.

The Company believes the assumptions and other considerations used to value goodwill to be appropriate, however, if actual experience differs from the assumptions and considerations used in its analysis, the resulting change could have a material adverse impact on the Consolidated Financial Statements. See Note 9—Goodwill and Other Intangible Assets for additional information.

Intangible Assets

Intangible assets consisted primarily of finite-lived customer relationships associated with the acquisition of Pivotal Home Solutions in June 2018. Finite-lived intangible assets were initially measured at their estimated fair values and were amortized over their estimated useful lives based on the pattern in which the economic benefits of the intangible assets were consumed or otherwise used. See Note 9—Goodwill and Other Intangible Assets for additional information. All of the Company's finite-lived intangible assets were sold as part of the HOS sale transaction.

Impairment of Long-Lived Assets

Long-lived assets include property, plant and equipment, goodwill, intangible assets and long-term investments. The Company evaluates long-lived assets for impairment when circumstances indicate the carrying value of those assets may not be recoverable. When such indicators arise, the Company estimates the fair value of the long-lived asset from future cash flows expected to result from its use and, if applicable, the eventual disposition of the asset, comparing the estimated fair value to the carrying value of the asset. An impairment loss will be recognized in the amount equal to the excess of the long-lived asset's carrying value compared to its estimated fair value.

The long-lived assets of the Company's regulated utilities are grouped on a separate entity basis for impairment testing, as they are integrated state-wide operations that do not have the option to curtail service and generally have uniform tariffs. A regulatory asset is charged to earnings if and when future recovery in rates of that asset is no longer probable.

The Company believes the assumptions and other considerations used to value long-lived assets to be appropriate, however, if actual experience differs from the assumptions and considerations used in its estimates, the resulting change could have a material adverse impact on the Consolidated Financial Statements.

Advances for Construction and Contributions in Aid of Construction

Regulated utility subsidiaries may receive advances for construction and contributions in aid of construction from customers, home builders and real estate developers to fund construction necessary to extend service to new areas.

Advances are refundable for limited periods of time as new customers begin to receive service or other contractual obligations are fulfilled. Included in other current liabilities as of December 31, 2021 and 2020 on the Consolidated Balance Sheets are estimated refunds of \$23 million and \$23 million, respectively. Those amounts represent expected refunds during the next 12-month period.

Advances that are no longer refundable are reclassified to contributions. Contributions are permanent collections of plant assets or cash for a particular construction project. For ratemaking purposes, the amount of such contributions generally serves as a rate base reduction since the contributions represent non-investor supplied funds.

Generally, the Company depreciates utility plant funded by contributions and amortizes its contributions balance as a reduction to depreciation expense, producing a result which is functionally equivalent to reducing the original cost of the utility plant for the contributions. In accordance with applicable regulatory guidelines, some of the Company's utility subsidiaries do not amortize contributions, and any contribution received remains on the balance sheet indefinitely. Amortization of contributions in aid of construction was \$36 million, \$32 million and \$29 million for the years ended December 31, 2021, 2020 and 2019, respectively.

Revenue Recognition

Under Accounting Standards Codification Topic 606, *Revenue From Contracts With Customers*, and all related amendments (collectively, "ASC 606"), a performance obligation is a promise within a contract to transfer a distinct good or service, or a series of distinct goods and services, to a customer. Revenue is recognized when performance obligations are satisfied and the customer obtains control of promised goods or services. The amount of revenue recognized reflects the consideration to which the Company expects to be entitled to receive in exchange for goods or services. Under ASC 606, a contract's transaction price is allocated to each distinct performance obligation. To determine revenue recognition for arrangements that the Company determines are within the scope of ASC 606, the Company performs the following five steps: (i) identifies the contracts with a customer; (ii) identifies the performance obligations within the contract, including whether any performance obligations are distinct and capable of being distinct in the context of the contract; (iii) determines the transaction price; (iv) allocates the transaction price to the performance obligations in the contract; and (v) recognizes revenue when, or as, the Company satisfies each performance obligation.

The Company's revenues from contracts with customers are discussed below. Customer payments for contracts are generally due within 30 days of billing and none of the contracts with customers have payment terms that exceed one year; therefore, the Company elected to apply the significant financing component practical expedient and no amount of consideration has been allocated as a financing component.

Regulated Businesses Revenue

Revenue from the Company's Regulated Businesses is generated primarily from water and wastewater services delivered to customers. These contracts contain a single performance obligation, the delivery of water and/or wastewater services, as the promise to transfer the individual good or service is not separately identifiable from other promises within the contracts and, therefore, is not distinct. Revenues are recognized over time, as services are provided. There are generally no significant financing components or variable consideration. Revenues include amounts billed to customers on a cycle basis and unbilled amounts calculated based on estimated usage from the date of the meter reading associated with the latest customer bill, to the end of the accounting period. The amounts that the Company has a right to invoice are determined by each customer's actual usage, an indicator that the invoice amount corresponds directly to the value transferred to the customer. The Company also recognizes revenue when it is probable that future recovery of previously incurred costs or future refunds that are to be credited to customers will occur through the ratemaking process.

Market-Based Businesses Revenue

The Company has long-term, fixed fee contracts to operate and maintain water and wastewater systems for the U.S. government on various military installations and facilities owned by municipal customers. Billing and revenue recognition for the fixed fee revenues occurs ratably over the term of the contract, as customers simultaneously receive and consume the benefits provided by the Company. Additionally, these contracts allow the Company to make capital improvements to underlying infrastructure, which are initiated through separate modifications or amendments to the original contract, whereby stand-alone, fixed pricing is separately stated for each improvement. The Company has determined that these capital improvements are separate performance obligations, with revenue recognized over time based on performance completed at the end of each reporting period. Losses on contracts are recognized during the period in which the losses first become probable and estimable. Revenues recognized during the period in excess of billings on construction contracts are recorded as unbilled revenues, with billings in excess of revenues recorded as other current liabilities until the recognition criteria are met. Changes in contract performance and related estimated contract profitability may result in revisions to costs and revenues and are recognized in the period in which revisions are determined. See Note 5—Revenue Recognition for additional information.

Through various warranty protection programs and other home services, the Company previously provided fixed fee services to residential customers for interior and exterior water and sewer lines, interior electric and gas lines, heating and cooling systems, water heaters and other home appliances, as well as power surge protection and other related services through its former HOS business. Most of the contracts had a one-year term and each service was a separate performance obligation, satisfied over time, as the customers simultaneously received and consumed the benefits provided from the service. Customers were obligated to pay for the protection programs ratably over 12 months or via a one-time, annual fee, with revenues recognized ratably over time for those services. Advances from customers were deferred until the performance obligation was satisfied.

Income Taxes

The Company and its subsidiaries participate in a consolidated federal income tax return for U.S. tax purposes. Members of the consolidated group are charged with the amount of federal income tax expense determined as if they filed separate returns.

Certain income and expense items are accounted for in different time periods for financial reporting than for income tax reporting purposes. The Company provides deferred income taxes on the difference between the tax basis of assets and liabilities and the amounts at which they are carried in the financial statements. These deferred income taxes are based on the enacted tax rates expected to be in effect when these temporary differences are projected to reverse. In addition, the regulated utility subsidiaries recognize regulatory assets and liabilities for the effect on revenues expected to be realized as the tax effects of temporary differences, previously flowed through to customers, reverse.

Investment tax credits have been deferred by the regulated utility subsidiaries and are being amortized to income over the average estimated service lives of the related assets.

The Company recognizes accrued interest and penalties related to tax positions as a component of income tax expense and accounts for sales tax collected from customers and remitted to taxing authorities on a net basis. See Note 15—Income Taxes for additional information.

Allowance for Funds Used During Construction

AFUDC is a non-cash credit to income with a corresponding charge to utility plant that represents the cost of borrowed funds or a return on equity funds devoted to plant under construction. The regulated utility subsidiaries record AFUDC to the extent permitted by the PUCs. The portion of AFUDC attributable to borrowed funds is shown as a reduction of interest, net on the Consolidated Statements of Operations. Any portion of AFUDC attributable to equity funds would be included in other, net on the Consolidated Statements of Operations. Presented in the table below is AFUDC for the years ended December 31:

	2021	2020	2019
Allowance for other funds used during construction	\$ 27	\$ 30	\$ 28
Allowance for borrowed funds used during construction	10	13	13

Environmental Costs

The Company's water and wastewater operations and the operations of its Market-Based Businesses are subject to U.S. federal, state, local and foreign requirements relating to environmental protection, and as such, the Company periodically becomes subject to environmental claims in the normal course of business. Environmental expenditures that relate to current operations or provide a future benefit are expensed or capitalized as appropriate. Remediation costs that relate to an existing condition caused by past operations are accrued, on an undiscounted basis, when it is probable that these costs will be incurred and can be reasonably estimated. A conservation agreement entered into by a subsidiary of the Company with the National Oceanic and Atmospheric Administration in 2010 and amended in 2017 required the subsidiary to, among other provisions, implement certain measures to protect the steelhead trout and its habitat in the Carmel River watershed in the State of California. The subsidiary agreed to pay \$1 million annually commencing in 2010 with the final payment made in 2021. No remediation costs were accrued as of December 31, 2021 and \$1 million was accrued as of December 31, 2020.

Derivative Financial Instruments

The Company uses derivative financial instruments primarily for purposes of hedging exposures to fluctuations in interest rates. These derivative contracts are entered into for periods consistent with the related underlying exposures and do not constitute positions independent of those exposures. The Company does not enter into derivative contracts for speculative purposes and does not use leveraged instruments.

All derivatives are recognized on the balance sheet at fair value. On the date the derivative contract is entered into, the Company may designate the derivative as a hedge of the fair value of a recognized asset or liability (fair-value hedge) or a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability (cash-flow hedge).

Changes in the fair value of a fair-value hedge, along with the gain or loss on the underlying hedged item, are recorded in current-period earnings. The gains and losses on the effective portion of cash-flow hedges are recorded in other comprehensive income, until earnings are affected by the variability of cash flows. Any ineffective portion of designated cash-flow hedges is recognized in current-period earnings.

Cash flows from derivative contracts are included in net cash provided by operating activities on the Consolidated Statements of Cash Flows. See Note 12—Long-Term Debt for additional information.

New Accounting Standards

Presented in the table below are new accounting standards that were adopted by the Company in 2021:

Standard	Description	Date of Adoption	Application	Effect on the Consolidated Financial Statements
Facilitation of the Effects of Reference Rate Reform on Financial Reporting	Provided optional guidance for a limited time to ease the potential accounting burden associated with the transition from London Interbank Offered Rate ("LIBOR"). The guidance contains optional expedients and exceptions for contract modifications, hedging relationships, and other transactions that reference LIBOR or other reference rates expected to be discontinued. The expedients elected must be applied for all eligible contracts or transactions, with the exception of hedging relationships, which can be applied on an individual basis.	March 12, 2020 through December 31, 2022	Prospective for contract modifications and hedging relationships; applied as of January 1, 2020.	The standard did not have a material impact on the Consolidated Financial Statements.
Simplifying the Accounting for Income Taxes	The guidance removes exceptions related to the incremental approach for intraperiod tax allocation, the requirement to recognize a deferred tax liability for changes in ownership of a foreign subsidiary or equity method investment, and the general methodology for calculating income taxes in an interim period when the year-to-date loss exceeds the anticipated loss. The guidance adds requirements to reflect changes to tax laws or rates in the annual effective tax rate computation in the interim period in which the changes were enacted, to recognize franchise or other similar taxes that are partially based on income as an income-based tax and any incremental amounts as non-income-based tax, and to evaluate when a step up in the tax basis of goodwill should be considered part of the business combination in which the book goodwill was originally recognized and when it should be considered a separate transaction.	January 1, 2021	Modified retrospective for amendments related to changes in ownership of a foreign subsidiary or equity method investment; Modified retrospective or retrospective for amendments related to taxes partially based on income; Prospective for all other amendments.	The standard did not have a material impact on the Consolidated Financial Statements.

Presented in the table below are recently issued accounting standards that have not yet been adopted by the Company as of December 31, 2021:

Standard	Description	Date of Adoption	Application	Estimated Effect on the Consolidated Financial Statements
Accounting for Convertible Instruments and Contracts in an Entity's Own Equity	Simplification of financial reporting associated with accounting for convertible instruments and contracts in an entity's own equity. The standard reduced the number of accounting models for convertible debt instruments and convertible preferred stock. This will result in fewer embedded conversion features being separately recognized from the host contract. Earnings per share ("EPS") calculations have been simplified for certain instruments.	January 1, 2022	Either modified retrospective or fully retrospective	The Company anticipates the adoption of the standard will not have a material impact on its Consolidated Financial Statements.
Disclosures by Business Entities about Government Assistance	The amendments in this update requires additional disclosures regarding government grants and contributions. These disclosures require information on the following three items about these government transactions to be provided: information on the nature of transactions and related accounting policy used to account for transactions, the line items on the balance sheet and income statement affected by these transactions including amounts applicable to each line, and significant terms and conditions of the transactions, including commitments and contingencies	January 1, 2022	Either prospective or retrospective	The Company is evaluating any impact on its Consolidated Financial Statements.
Accounting for Contract Asset and Contract Liabilities from Contracts with Customers	The guidance requires an acquirer in a business combination to recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with ASC 606 as if it had originated the contracts.	January 1, 2023; early adoption permitted	Prospective	The Company is evaluating any impact on its Consolidated Financial Statements, as well as the timing of adoption.

Reclassifications

Certain reclassifications have been made to prior periods in the Consolidated Financial Statements and Notes to conform to the current presentation. The Company reclassified \$44 million relating to loss on the sale of Keystone Clearwater Solutions, LLC in 2019 from operating expenses to other income (expenses) included in Gain or (loss) on sale of businesses on the Consolidated Statements of Operations.

Note 3: Impact of the COVID-19 Pandemic

American Water continues to monitor the COVID-19 pandemic and has experienced financial impacts since the start of the pandemic resulting from lower revenues from the suspension of late fees and foregone reconnect fees in certain states, certain incremental O&M expenses, an increase in uncollectible accounts expense and additional debt costs. These impacts are collectively referred to as “financial impacts.”

As of February 16, 2022, American Water has commission orders authorizing deferred accounting or cost recovery for COVID-19 financial impacts in 11 of 13 jurisdictions. Other regulatory actions to date are presented in the table below:

Commission Actions	Description	States
Orders issued with deferred accounting	Allows the Company to establish regulatory assets to record certain financial impacts related to the COVID-19 pandemic.	HI, IN, MD, NJ, PA, VA, WV
Orders issued with cost recovery	California’s Catastrophic Event Memorandum Account allows the Company’s California subsidiary to track certain financial impacts related to the COVID-19 pandemic for future recovery requests. Iowa issued a base rate case order on June 28, 2021, authorizing recovery in rates of the COVID-19 financial impacts deferred within its annual non-recurring expense rider. Illinois has authorized cost recovery of the COVID-19 financial impacts through a special purpose rider over a 24-month period, which was implemented effective October 1, 2020. Additionally, Illinois approved a bad debt rider tariff on December 16, 2020, allowing collection of actual bad debt expense over last authorized beginning April 2021 through February 2023. Illinois approved a stipulation in March 2021 to allow the rider to be extended through the end of 2023. Missouri issued a base rate case order on April 7, 2021, authorizing recovery in rates of the COVID-19 financial impacts deferred through March 31, 2021 over a three-year period.	CA, IA, IL, MO

The Company’s Pennsylvania subsidiary filed for a request with the Pennsylvania Public Utility Commission (the “PaPUC”) to defer as a regulatory asset all identified COVID-19 financial impacts. On September 15, 2021, the PaPUC issued an order approving the Company’s request to defer, with carrying costs, incremental uncollectible expense and other incremental costs net of savings attributed to the COVID-19 pandemic. The PaPUC order denied the request to include lost revenues attributed to the waiver of late fees and reconnect fees and expenses associated with additional interest costs. Additionally, the PaPUC order approved the request to allow for the continuation of the deferral of financial impacts, rejecting proposals from the intervening parties to define an end date to the deferral in 2021. As a result of the order discussed above, the Company recorded a net \$7 million reduction to its regulatory assets and corresponding impacts to revenue, interest expense and uncollectible expense during the third quarter of 2021. The Company continues to evaluate options within its next base rate case to address these denied items and the resulting financial impact.

On July 28, 2021, the Company’s Tennessee subsidiary filed a stipulation and settlement agreement with the Consumer Advocate Unit in the Financial Division of the Office of the Tennessee Attorney General, which reflected agreement on the deferral of COVID-19-related financial impacts through April 30, 2021. On August 9, 2021, the Tennessee Public Utility Commission denied the stipulation and settlement agreement and moved to address the Company’s Tennessee subsidiary’s petition to defer the COVID-19 financial impacts in a future hearing. On August 26, 2021, the Company’s Tennessee subsidiary filed a motion to withdraw its pending petition, preserving its right to seek recovery of the COVID-19 financial impacts in a future proceeding.

In December 2020, the Kentucky Public Service Commission issued an order denying a request to defer to a regulatory asset the financial impacts related to the COVID-19 pandemic.

Consistent with these regulatory orders, the Company has recorded \$36 million in regulatory assets and \$6 million of regulatory liabilities for the financial impacts related to the COVID-19 pandemic on the Consolidated Balance Sheets as of December 31, 2021.

As of February 16, 2022, one state, New Jersey, continues moratoria until March 15, 2022, on the suspension of service disconnections due to non-payment. The moratoria on disconnects have expired in 12 states.

Note 4: Regulatory Matters**General Rate Cases**

Presented in the table below are annualized incremental revenues, excluding reductions for the amortization of the excess accumulated deferred income taxes (“EADIT”) that are generally offset in income tax expense, assuming a constant water sales volume, resulting from general rate cases authorizations that became effective during 2019 through 2021:

(In millions)	2021	2020	2019
General rate cases by state (a):			
Iowa (effective October 11, 2021)	\$ 1	\$ —	\$ —
Missouri (effective May 28, 2021)	22	—	—
Pennsylvania (effective January 28, 2021)	70	—	—
California (effective January 1, 2021, January 1, 2020 and May 11, 2019)	22	5	4
New Jersey (effective November 1, 2020)	—	54	—
Indiana (effective May 1, 2020 and July 1, 2019)	—	13	4
Kentucky (effective June 28, 2019)	—	—	13
West Virginia (effective February 25, 2019)	—	—	19
Maryland (effective February 5, 2019)	—	—	1
Total general rate case authorizations	\$ 115	\$ 72	\$ 41

(a) Excludes authorized increases of \$7 million and \$4 million in 2021 and 2019, respectively, for the Company’s New York subsidiary, which was sold on January 1, 2022. See Note 6—Acquisitions and Divestitures for additional information.

On November 18, 2021, the California Public Utilities Commission (the “CPUC”) unanimously approved a final decision in the test year 2021 general rate case filed by the Company’s California subsidiary, which is retroactive to January 1, 2021. The Company’s California subsidiary received authorization for additional annualized water and wastewater revenues of \$22 million, excluding agreed to reductions for EADIT as a result of the Tax Cuts and Jobs Act of 2017 (the “TCJA”). The EADIT reduction in revenues is \$4 million and is offset by a like reduction in income tax expense. On January 18, 2022, the Company’s California subsidiary filed for approval of \$13 million in 2022 escalation increases, excluding \$4 million of reductions related to the TCJA. This filing, which is retroactive to January 1, 2022, is subject to CPUC approval with a 45-day review period.

On June 28, 2021, an order was issued authorizing an increase of \$1 million in the general rate case filed by the Company’s Iowa subsidiary in 2020. The Company’s Iowa subsidiary filed tariffs consistent with the order on September 23, 2021. Effective October 11, 2021, the Iowa Utilities Board approved the tariffs and implemented the new rates.

On April 7, 2021, the Company’s Missouri subsidiary was authorized additional annualized revenues of \$22 million, effective May 28, 2021, excluding agreed to reductions for EADIT as a result of the TCJA. The EADIT reduction in revenues is \$25 million and is offset by a like reduction in income tax expense. The protected EADIT balance of \$72 million is being returned to customers using the average rate assumption method (“ARAM”), and the unprotected EADIT balance of \$74 million is being returned to customers over 10 years. The \$25 million EADIT reduction includes both the protected and unprotected catch-up period EADIT of \$13 million. The catch-up period of January 1, 2018 through May 31, 2021 covers the period from when the lower federal corporate income tax rate went into effect until new base rates went into effect and will be amortized over 2.5 years.

On March 2, 2021, an administrative law judge (“ALJ”) in the Office of Administrative Law of New Jersey filed an initial decision with the New Jersey Board of Public Utilities (the “NJBPU”) that recommended denial of a petition filed by the Company’s New Jersey subsidiary, which sought approval of acquisition adjustments in rate base of \$29 million associated with the acquisitions of Shorelands Water Company, Inc. in 2017 and the Borough of Haddonfield’s water and wastewater systems in 2015. On July 29, 2021, the NJBPU issued an order adopting the ALJ’s initial decision without modification. The Company’s New Jersey subsidiary filed a Notice of Appeal with the New Jersey Appellate Division on September 10, 2021. A scheduling order was issued on October 18, 2021 establishing a briefing schedule through March 2022. There is no financial impact to the Company as a result of the NJBPU’s order, since the acquisition adjustments are currently recorded as goodwill on the Consolidated Balance Sheets.

On February 25, 2021, the Company's Pennsylvania subsidiary was authorized additional annualized revenues of \$90 million, effective January 28, 2021, excluding agreed to reductions for EADIT as a result of the TCJA, over two steps. The EADIT reduction in revenues is \$19 million. The overall increase, net of TCJA reductions, is \$71 million in revenues combined over two steps. The first step was effective January 28, 2021 in the amount of \$70 million (\$51 million including TCJA reductions) and the second step will be effective January 1, 2022 in the amount of \$20 million. The protected EADIT balance of \$200 million is being returned to customers using the ARAM, and the unprotected EADIT balance of \$116 million is being returned to customers over 20 years. The \$19 million annually includes both the protected and unprotected EADIT amortizations and a portion of catch-up period EADIT. A bill credit of \$11 million annually for two years returns to customers the remainder of the EADIT catch-up period amortization. The catch-up period of January 1, 2018 through December 31, 2020 covers the period from when the lower federal corporate income tax rate went into effect until new base rates went into effect and will be amortized over two years.

Pending General Rate Case Filings

On February 10, 2022, the Company's Illinois subsidiary filed a general rate case requesting \$71 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges.

On January 14, 2022, the Company's New Jersey subsidiary filed a general rate case requesting \$110 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges.

On December 1, 2021, the Company's Kentucky subsidiary filed a wastewater rate case requesting additional revenues of \$1 million, excluding proposed reductions for EADIT as a result of TCJA. The Company requested a four-step rate increase for their wastewater operations with effective dates of June 1, 2022, June 1, 2023, June 1, 2024 and June 1, 2025 for annual amounts of less than \$1 million each year. The Company filed their wastewater case under the alternative rate filing process for smaller utilities which calculates an operating ratio of 88% rather than a return on equity.

On November 15, 2021, the Company's Virginia subsidiary filed a general rate case requesting \$15 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA.

On August 18, 2021, the Company's Hawaii subsidiary filed a general rate case requesting \$2 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA.

On April 30, 2021, the Company's West Virginia subsidiary filed a general rate case requesting \$32 million in annualized incremental revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges. The proposed EADIT reduction in revenues is \$1 million and the exclusion for infrastructure surcharges is \$10 million. Intervenor testimony was received on September 20, 2021. The Company's rebuttal testimony was filed on October 5, 2021. Hearings were conducted on November 3 and 4, 2021. A final order is expected no later than February 24, 2022.

The Company's California subsidiary submitted its application on May 3, 2021 to set its cost of capital for 2022 through 2024. According to the CPUC's process, a decision is expected to be issued, setting the authorized cost of capital in the third quarter of 2022.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant water sales volume, resulting from infrastructure surcharge authorizations that became effective during 2019 through 2021:

(In millions)	2021	2020	2019
Infrastructure surcharges by state (a):			
New Jersey (b)	\$ 26	\$ 20	\$ 15
Missouri (c)	7	12	14
Kentucky (effective July 1, 2021 and July 1, 2020)	1	1	—
Indiana (effective March 17, 2021)	8	—	—
Pennsylvania (d)	8	27	11
Illinois (effective January 1, 2021, January 1, 2020 and January 1, 2019)	7	7	8
West Virginia (effective January 1, 2021, January 1, 2020 and January 1, 2019)	5	3	2
Tennessee (effective January 1, 2021, January 1, 2020 and September 1, 2019)	3	2	1
Total infrastructure surcharge authorizations	\$ 65	\$ 72	\$ 51

- (a) Excludes authorized increases of \$2 million in 2019 for the Company's New York subsidiary, which was sold on January 1, 2022. See Note 6—Acquisitions and Divestitures for additional information.
- (b) In 2021, \$12 million was effective on December 30 and \$14 million was effective June 28. In 2020, \$10 million was effective June 29 and \$10 million was effective January 1. In 2019, the effective date was July 1.
- (c) In 2021, the effective date was October 7. In 2020, \$2 million was effective December 14 and \$10 million was effective June 27. In 2019, \$5 million was effective December 21 and \$9 million was effective June 24.
- (d) In 2021, the effective date was January 1. In 2020, \$8 million was effective October 1, \$4 million was effective July 1, \$5 million was effective April 1 and \$10 million was effective January 1. In 2019, \$6 million was effective October 1, \$3 million was effective July 1 and \$2 million was effective April 1.

Presented in the table below are annualized incremental revenues, assuming a constant water sales volume, resulting from infrastructure surcharge authorizations that became effective after January 1, 2022:

(In millions)	Amount
Infrastructure surcharge filings by state:	
Illinois (effective January 1, 2022)	\$ 6
Missouri (effective February 1, 2022)	12
Total infrastructure surcharge filings	\$ 18

Pending Infrastructure Surcharge Filings

On January 19, 2022, the Company's Indiana subsidiary filed for infrastructure surcharges requesting \$8 million in additional annualized revenues.

On June 30, 2021, the Company's West Virginia subsidiary filed for an infrastructure surcharge requesting \$3 million in additional annualized revenues.

Regulatory Assets

Regulatory assets represent costs that are probable of recovery from customers in future rates. Approximately 50% of the Company’s total regulatory asset balance at December 31, 2021 earns a return. Presented in the table below is the composition of regulatory assets as of December 31:

	2021	2020
Deferred pension expense	\$ 323	\$ 374
Removal costs recoverable through rates	313	314
Regulatory balancing accounts	52	57
Other	439	446
Less: Regulatory assets included in assets held for sale (a)	(76)	(64)
Total regulatory assets	<u>\$ 1,051</u>	<u>\$ 1,127</u>

(a) These regulatory assets are related to the sale of the Company’s New York subsidiary, which was completed on January 1, 2022, and are included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

The Company’s deferred pension expense includes a portion of the underfunded status that is probable of recovery through rates in future periods of \$317 million and \$366 million as of December 31, 2021 and 2020, respectively. The remaining portion is the pension expense in excess of the amount contributed to the pension plans which is deferred by certain subsidiaries and will be recovered in future service rates as contributions are made to the pension plan.

Removal costs recoverable through rates represent costs incurred for removal of property, plant and equipment or other retirement costs.

Regulatory balancing accounts accumulate differences between revenues recognized and authorized revenue requirements until they are collected from customers or are refunded. Regulatory balancing accounts include low income programs and purchased power and water accounts.

Other regulatory assets include the financial impacts relating to the COVID-19 pandemic, purchase premium recoverable through rates, tank painting costs, certain construction costs for treatment facilities, property tax stabilization, employee-related costs, business services project expenses, coastal water project costs, rate case expenditures and environmental remediation costs among others. These costs are deferred because the amounts are being recovered in rates or are probable of recovery through rates in future periods.

The Company has current regulatory assets of \$16 million and \$13 million included in other current assets on the Consolidated Balance Sheet as of December 31, 2021 and 2020, respectively, which is primarily made up of deferred vacation pay.

Regulatory Liabilities

Regulatory liabilities generally represent amounts that are probable of being credited or refunded to customers through the rate making process. Also, if costs expected to be incurred in the future are currently being recovered through rates, the Company records those expected future costs as regulatory liabilities. Presented in the table below is the composition of regulatory liabilities as of December 31:

	2021	2020
Income taxes recovered through rates	\$ 1,093	\$ 1,230
Removal costs recovered through rates	291	301
Postretirement benefit liability	153	170
Other	110	111
Less: Regulatory liabilities included in liabilities related to assets held for sale (a)	(47)	(42)
Total regulatory liabilities	<u>\$ 1,600</u>	<u>\$ 1,770</u>

(a) These regulatory liabilities are related to the sale of the Company’s New York subsidiary, which was completed on January 1, 2022, and are included in liabilities related to assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

Income taxes recovered through rates relate to deferred taxes that will likely be refunded to the Company's customers. On December 22, 2017, the TCJA was signed into law, which, among other things, enacted significant and complex changes to the Internal Revenue Code of 1986, as amended (the "Code"), including a reduction in the federal corporate income tax rate from 35% to 21% as of January 1, 2018. The enactment of the TCJA required a re-measurement of the Company's deferred income taxes. The portion of this re-measurement related to the Regulated Businesses was substantially offset by a regulatory liability as EADIT will be used to benefit its regulated customers in future rates. Twelve of the Company's regulated subsidiaries are amortizing EADIT and crediting customers. The Company expects the timing of the amortization of EADIT credits for the one remaining regulated subsidiary to be addressed in a pending or future rate case or other proceedings.

Removal costs recovered through rates are estimated costs to retire assets at the end of their expected useful lives that are recovered through customer rates over the lives of the associated assets.

On August 31, 2018, the Postretirement Medical Benefit Plan was remeasured to reflect an announced plan amendment which changed benefits for certain union and non-union plan participants. As a result of the remeasurement, the Company recorded a \$227 million reduction to the net accumulated postretirement benefit obligation, with a corresponding regulatory liability.

Other regulatory liabilities include the financial impacts relating to the COVID-19 pandemic, TCJA reserve on revenue, pension and other postretirement benefit balancing accounts, legal settlement proceeds, deferred gains and various regulatory balancing accounts.

The Company has current regulatory liabilities of \$8 million and \$6 million included in other current liabilities on the Consolidated Balance Sheets as of December 31, 2021 and 2020, respectively, which primarily is made up of TCJA reserve on revenue.

Note 5: Revenue Recognition

Disaggregated Revenues

Presented in the table below are operating revenues disaggregated for the year ended December 31, 2021:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	\$ 1,935	\$ —	\$ 1,935
Commercial	676	—	676
Fire service	151	—	151
Industrial	141	—	141
Public and other	230	—	230
Total water services	3,133	—	3,133
Wastewater services:

Total operating revenues	\$ 3,587	\$ 23	\$ 3,610

(a) Includes revenues associated with provisional rates, alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Contract Balances

Contract assets and contract liabilities are the result of timing differences between revenue recognition, billings and cash collections. In the Company's Market-Based Businesses, certain contracts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. Contract assets are recorded when billing occurs subsequent to revenue recognition and are reclassified to accounts receivable when billed and the right to consideration becomes unconditional. Contract liabilities are recorded when the Company receives advances from customers prior to satisfying contractual performance obligations, particularly for construction contracts, and are recognized as revenue when the associated performance obligations are satisfied.

Contract assets of \$71 million, \$39 million and \$13 million are included in unbilled revenues on the Consolidated Balance Sheets as of December 31, 2021, 2020 and 2019, respectively. There were \$71 million of contract assets added during 2021, and \$39 million of contract assets were transferred to accounts receivable during 2021. There were \$60 million of contract assets added during 2020, and \$34 million of contract assets were transferred to accounts receivable during 2020.

Contract liabilities of \$19 million, \$35 million and \$27 million are included in other current liabilities on the Consolidated Balance Sheets as of December 31, 2021, 2020 and 2019, respectively. There were \$152 million of contract liabilities added during 2021, and \$168 million of contract liabilities were recognized as revenue during 2021. There were \$120 million of contract liabilities added during 2020, and \$112 million of contract liabilities were recognized as revenue during 2020.

Remaining Performance Obligations

Remaining performance obligations (“RPOs”) represent revenues the Company expects to recognize in the future from contracts that are in progress. The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. As of December 31, 2021, the Company’s O&M and capital improvement contracts in the Market-Based Businesses have RPOs. Contracts with the U.S. government for work on various military installations expire between 2051 and 2071 and have RPOs of \$6.2 billion as of December 31, 2021, as measured by estimated remaining contract revenue. Such contracts are subject to customary termination provisions held by the U.S. government, prior to the agreed-upon contract expiration. Contracts with municipalities and commercial customers expire between 2022 and 2038 and have RPOs of \$584 million as of December 31, 2021, as measured by estimated remaining contract revenue. Some of the Company’s long-term contracts to operate and maintain the federal government’s, a municipality’s or other party’s water or wastewater treatment and delivery facilities include responsibility for certain maintenance for some of those facilities, in exchange for an annual fee. Unless specifically required to perform certain maintenance activities, the maintenance costs are recognized when the maintenance is performed.

Note 6: Acquisitions and Divestitures**Regulated Businesses***Acquisitions*

During 2021, the Company closed on 23 acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of \$112 million, which added approximately 20,000 water and wastewater customers, including the acquisitions of the East Pasadena Water Company in California on September 23, 2021 for \$34 million, the water and wastewater system assets of Valley Township in Pennsylvania on November 19, 2021 for \$21 million and the Lowell water system in Indiana on December 28, 2021 for \$25 million. Assets acquired from these acquisitions, principally utility plant, totaled \$114 million and liabilities assumed totaled \$2 million. Several of these acquisitions were accounted for as business combinations. The preliminary purchase price allocations related to acquisitions accounted for as business combinations will be finalized once the valuation of assets acquired has been completed, no later than one year after their acquisition date.

On April 6, 2021, the Company’s Pennsylvania subsidiary entered into an agreement to acquire the wastewater assets of the York City Sewer Authority for \$235 million, plus an amount of average daily revenue calculated for the period between the final meter reading and the date of closing. This system, directly and indirectly through bulk contracts, serves more than 45,000 customers. In connection with the execution of the acquisition agreement, the Company’s Pennsylvania subsidiary paid a \$20 million deposit to the seller on April 30, 2021, which is refundable in the event the agreement is terminated prior to closing of the acquisition. The Company expects to close this acquisition in the first half of 2022, pending regulatory approval.

On March 29, 2021, the Company’s New Jersey subsidiary entered into an agreement to acquire the water and wastewater assets of Egg Harbor City for \$22 million. The water and wastewater systems currently serve approximately 1,500 customers each, or 3,000 combined, and are being sold through the New Jersey Water Infrastructure Protection Act process. The Company expects to close this acquisition in the second half of 2022, pending regulatory approval.

During 2020, the Company closed on 23 acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of \$135 million. Assets acquired from these acquisitions, principally utility plant, totaled \$159 million and liabilities assumed totaled \$29 million, including \$21 million of contributions in aid of construction and assumed debt of \$7 million. The Company recorded additional goodwill of \$5 million associated with two of its acquisitions, which is reported in its Regulated Businesses segment.

During 2019, the Company closed on 21 acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of \$235 million. Assets acquired from these acquisitions, principally utility plant, totaled \$237 million and liabilities assumed, primarily contributions in aid of construction, totaled \$5 million. The Company recorded additional goodwill of \$3 million associated with three of its acquisitions, which is reported in its Regulated Businesses segment.

Assets Held for Sale

On January 1, 2022, the Company completed the previously disclosed sale of its regulated utility operations in New York to Liberty Utilities (Eastern Water Holdings) Corp. (“Liberty”), an indirect, wholly owned subsidiary of Algonquin Power & Utilities Corp. Liberty purchased from the Company all of the capital stock of the Company’s New York subsidiary for a purchase price of \$608 million in cash. The sale was approved by the New York State Department of Public Service on December 16, 2021. The Company’s regulated New York operations represented approximately 127,000 customers in the State of New York. The assets and related liabilities of the New York subsidiary were classified as held for sale on the Consolidated Balance Sheets as of December 31, 2021 and 2020.

Presented in the table below are the components of assets held for sale and liabilities related to assets held for sale of the New York subsidiary as of December 31, 2021:

	December 31, 2021	
Property, plant and equipment	\$	556
Current assets		18
Regulatory assets		76
Goodwill		27
Other assets		6
Assets held for sale	\$	683
Current liabilities		13
Regulatory liabilities		47
Other liabilities		23
Liabilities related to assets held for sale	\$	83

Sale of Michigan American Water Company

On February 4, 2022, the Company completed the sale of its operations in Michigan for approximately \$6 million.

Sale of Homeowner Services Group

On December 9, 2021 (the "Closing Date"), the Company sold all of the equity interests in subsidiaries that comprised HOS to a wholly owned subsidiary of funds advised by Apax Partners LLP, a global private equity advisory firm (the "Buyer"), for total consideration of approximately \$1.275 billion, resulting in pre-tax gain on sale of \$748 million. The consideration is comprised of \$480 million in cash, a seller promissory note issued by the Buyer in the principal amount of \$720 million, and a contingent cash payment of \$75 million payable upon satisfaction of certain conditions on or before December 31, 2023. See Note 19—Fair Value of Financial Information for additional information relating to the seller promissory note and contingent cash payment.

The seller note has a five-year term, is payable in cash, and bears interest at a rate of 7.00% per year during the term. The repayment obligations of the Buyer under the seller note have been secured by a first priority security interest in certain property of the Buyer and the former HOS subsidiaries, including their cash and securities accounts, as well as a pledge of the equity interests in each of those subsidiaries, subject to certain limitations and exceptions. The seller note requires compliance with affirmative and negative covenants (subject to certain conditions, limitations and exceptions), including a covenant limiting the incurrence by the Buyer and certain affiliates of additional indebtedness in excess of certain thresholds, but does not include any financial maintenance covenants.

Beginning December 9, 2024, the Company has a put right pursuant to which it may require the seller note to be repaid in full at par, plus accrued and unpaid interest, except that upon the occurrence of a disruption event in the broadly syndicated term loan "B" debt financing market, repayment by the Buyer pursuant to the Company's exercise of the put right will be delayed until the market disruption event ends.

The seller note may not be prepaid at the Buyer's election except in certain limited circumstances before the fourth anniversary of the Closing Date. If the Buyer seeks to repay the seller note in breach of this non-call provision, an event of default will occur under the seller note and the Company may, among other actions, demand repayment in full together with a premium ranging from 105.5% to 107.5% of the outstanding principal amount of the loan and a customary "make-whole" payment.

The Company and the Buyer also entered into a revenue share agreement, pursuant to which the Company is to receive 10% of the revenue generated from customers who are billed for home warranty services through an applicable Company subsidiary (an "on-bill" arrangement), and 15% of the revenue generated from any future on-bill arrangements entered into after the closing. Unless earlier terminated, this agreement has a term of up to 15 years, which may be renewed for up to two five-year periods.

The pro forma impact of the Company's divestitures was not material to the Consolidated Statements of Operations for the years ended December 31, 2021, 2020 and 2019.

Note 7: Property, Plant and Equipment

Presented in the table below are the major classes of property, plant and equipment by category as of December 31:

	2021	2020	Range of Remaining Useful Lives	Weighted Average Useful Life
Utility plant:				
Land and other non-depreciable assets	\$ 210	\$ 174		
Sources of supply	938	897	2 to 127 years	46 years
Treatment and pumping facilities	4,198	3,984	3 to 111 years	39 years
Transmission and distribution facilities	12,308	11,457	9 to 130 years	69 years
Services, meters and fire hydrants	4,888	4,555	5 to 90 years	31 years
General structures and equipment	2,200	2,003	1 to 109 years	15 years
Waste collection	1,363	1,288	5 to 113 years	58 years
Waste treatment, pumping and disposal	912	859	2 to 139 years	38 years
Construction work in progress	934	837		
Less: Utility plant included in assets held for sale (a)	(664)	(646)		
Total utility plant	27,287	25,408		
Nonutility property	126	211	3 to 50 years	6 years
Less: Nonutility plant included in assets held for sale (a)	—	(5)		
Total property, plant and equipment	\$ 27,413	\$ 25,614		

(a) This property, plant and equipment is related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and is included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

Property, plant and equipment depreciation expense amounted to \$550 million, \$520 million and \$508 million for the years ended December 31, 2021, 2020 and 2019, respectively and was included in depreciation and amortization expense on the Consolidated Statements of Operations. The provision for depreciation expressed as a percentage of the aggregate average depreciable asset balances was 2.77%, 2.82% and 2.96% for years December 31, 2021, 2020 and 2019, respectively. Additionally, the Company had capital expenditures acquired on account but unpaid of \$292 million and \$221 million included in accrued liabilities on the Consolidated Balance Sheets as of December 31, 2021 and 2020, respectively.

In 2019, the Company completed and submitted its project completion certification to the New Jersey Economic Development Authority ("NJEDA") in connection with its capital investment in its corporate headquarters in Camden, New Jersey. The NJEDA determined that the Company is qualified to receive \$164 million in tax credits over a ten-year period. The Company is required to meet various annual requirements in order to monetize one-tenth of the tax credits annually and is subject to a claw-back period if the Company does not meet certain NJEDA requirements of the tax credit program in years 11 through 15. The Company has made the necessary annual filings for the years ended December 31, 2019 and 2020 and expects to file the 2021 filing by April 30, 2022. As a result, the Company had receivables of \$49 million and \$115 million in other current assets and other long-term assets, respectively, on the Consolidated Balance Sheets as of December 31, 2021. The submitted filings are under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the credits in the first half of 2022.

In March 2020, in connection with the COVID-19 pandemic, the NJEDA, pursuant to Executive Order 103 - State of Emergency and a Public Health Emergency, temporarily waived the requirement that a full-time employee must spend at least 80% of his or her time at the qualified business facility ("QBF") to meet the definition of eligible position or full-time job. The waiver will continue for as long as New Jersey's Executive Order 281 is valid. On July 2, 2021, New Jersey's Governor approved a bill that revised provisions of the Economic Recovery Act of 2020 and other economic development programs, including amending the definition of an eligible position and full-time job in the Grow New Jersey Program and replacing the 80% requirement of time spent at the QBF. The bill states that an eligible position is one that is filled by a full-time employee who has their primary office at the QBF and spends at least 60% of their time at the QBF. The bill specifically states that it supersedes the existing regulations and existing incentive agreements that require an eligible employee spend at least 80% of their time at the QBF.

Note 8: Allowance for Uncollectible Accounts

Presented in the table below are the changes in the allowances for uncollectible accounts for the years ended December 31:

	2021	2020	2019
Balance as of January 1	\$ (60)	\$ (41)	\$ (45)
Amounts charged to expense	(37)	(34)	(28)
Amounts written off	17	12	32
Less: Allowance for uncollectible accounts included in assets held for sale (a)	5	3	—
Balance as of December 31	<u>\$ (75)</u>	<u>\$ (60)</u>	<u>\$ (41)</u>

- (a) This portion of the allowance for uncollectible accounts is related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and is included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

Note 9: Goodwill and Other Intangible Assets**Goodwill**

Presented in the table below are the changes in the carrying value of goodwill for the years ended December 31, 2021 and 2020:

	Regulated Businesses		Market-Based Businesses		Consolidated		
	Cost	Accumulated Impairment	Cost	Accumulated Impairment	Cost	Accumulated Impairment	Total Net
Balance as of January 1, 2020	\$ 3,497	\$ (2,332)	\$ 483	\$ (108)	\$ 3,980	\$ (2,440)	\$ 1,540
Goodwill from acquisitions	5	—	—	—	5	—	5
Measurement period adjustments	(2)	—	—	—	(2)	—	(2)
Less: Goodwill included in assets held for sale (a)	(39)	—	—	—	(39)	—	(39)
Balance as of December 31, 2020	<u>\$ 3,461</u>	<u>\$ (2,332)</u>	<u>\$ 483</u>	<u>\$ (108)</u>	<u>\$ 3,944</u>	<u>\$ (2,440)</u>	<u>\$ 1,504</u>
Measurement period adjustments	(7)	—	—	—	(7)	—	(7)
Goodwill included in assets held for sale (a)	12	—	—	—	12	—	12
Goodwill reduced through sale of HOS	—	—	(370)	—	(370)	—	(370)
Balance as of December 31, 2021	<u>\$ 3,466</u>	<u>\$ (2,332)</u>	<u>\$ 113</u>	<u>\$ (108)</u>	<u>\$ 3,579</u>	<u>\$ (2,440)</u>	<u>\$ 1,139</u>

- (a) This goodwill is related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and is included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

In 2021, the Company reduced goodwill by \$370 million included in Market-Based Businesses through the sale of HOS. See Note 6—Acquisitions and Divestitures for additional information relating to the sale of HOS.

The Company completed its annual impairment testing of goodwill as of November 30, 2021, which included qualitative assessments of its Regulated Businesses and MSG reporting units. Based on these assessments, the Company determined that there were no factors present that would indicate that the fair value of these reporting units was less than their respective carrying values as of November 30, 2021.

In 2020, the Company acquired goodwill of \$5 million associated with two of its acquisitions in the Regulated Businesses segment.

Intangible Assets

The Company held finite-lived intangible assets, including customer relationships and other intangible assets prior to the sale of HOS during the fourth quarter of 2021. All of the Company's finite-lived intangible assets were sold as part of the HOS sale transaction. As a result, there was no gross carrying value or net book value of customer relationships and other intangible assets remaining as of December 31, 2021. The gross carrying value of customer relationships and other intangible assets as of December 31, 2020 was \$78 million and \$13 million, respectively. Accumulated amortization of customer relationships and other intangible assets was \$29 million and \$7 million, respectively, as of December 31, 2020. Intangible asset amortization expense amounted to \$9 million, \$12 million and \$14 million for the years ended December 31, 2021, 2020 and 2019, respectively. Amortization expense related to customer relationships and other intangible assets was \$7 million and \$2 million, respectively, for the year ended December 31, 2021.

Note 10: Shareholders' Equity**Common Stock**

Under the Company's dividend reinvestment and direct stock purchase plan (the "DRIP"), shareholders may reinvest cash common stock dividends and purchase additional shares of Company common stock, up to certain limits, through the plan administrator without paying brokerage commissions. Shares purchased by participants through the DRIP may be newly issued shares, treasury shares, or at the Company's election, shares purchased by the plan administrator in the open market or in privately negotiated transactions. Purchases generally will be made and credited to DRIP accounts once each week. As of December 31, 2021, there were approximately 5.1 million shares available for future issuance under the DRIP.

Anti-dilutive Stock Repurchase Program

In February 2015, the Company's Board of Directors authorized an anti-dilutive stock repurchase program, which allows the Company to purchase up to 10 million shares of its outstanding common stock from time to time over an unrestricted period of time. The Company did not repurchase shares of common stock during the years ended December 31, 2021 and 2020. As of December 31, 2021, there were 5.1 million shares of common stock available for purchase under the program.

Accumulated Other Comprehensive Loss

Presented in the table below are the changes in accumulated other comprehensive loss by component, net of tax, for the years ended December 31, 2021 and 2020:

	Defined Benefit Plans				
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedge	Accumulated Other Comprehensive Loss
Beginning balance as of January 1, 2020	\$ (94)	\$ 1	\$ 60	\$ (3)	\$ (36)
Other comprehensive income (loss) before reclassification	(12)	—	—	(4)	(16)
Amounts reclassified from accumulated other comprehensive loss	—	—	3	—	3
Net other comprehensive income (loss)	(12)	—	3	(4)	(13)
Ending balance as of December 31, 2020	\$ (106)	\$ 1	\$ 63	\$ (7)	\$ (49)
Other comprehensive income (loss) before reclassification	(1)	—	—	1	—
Amounts reclassified from accumulated other comprehensive loss	—	—	4	—	4
Net other comprehensive income (loss)	(1)	—	4	1	4
Ending balance as of December 31, 2021	\$ (107)	\$ 1	\$ 67	\$ (6)	\$ (45)

The Company does not reclassify the amortization of defined benefit pension cost components from accumulated other comprehensive loss directly to net income in its entirety, as a portion of these costs have been deferred as a regulatory asset. These accumulated other comprehensive loss components are included in the computation of net periodic pension cost. See Note 16—Employee Benefits for additional information.

The amortization of the gain (loss) on cash flow hedges is reclassified to net income during the period incurred and is included in interest, net in the accompanying Consolidated Statements of Operations.

Dividends and Distributions

The Company's Board of Directors authorizes the payment of dividends. The Company's ability to pay dividends on its common stock is subject to having access to sufficient sources of liquidity, net income and cash flows of the Company's subsidiaries, the receipt of dividends and direct and indirect distributions from, and repayments of indebtedness of, the Company's subsidiaries, compliance with Delaware corporate and other laws, compliance with the contractual provisions of debt and other agreements and other factors.

The Company's dividend rate on its common stock is determined by the Board of Directors on a quarterly basis and takes into consideration, among other factors, current and possible future developments that may affect the Company's income and cash flows. When dividends on common stock are declared, they are typically paid in March, June, September and December. Historically, dividends have been paid quarterly to holders of record less than 30 days prior to the distribution date. Since the dividends on the Company's common stock are not cumulative, only declared dividends are paid.

During 2021, 2020 and 2019, the Company paid \$428 million, \$389 million and \$353 million in cash dividends, respectively. Presented in the table below is the per share cash dividends paid for the years ended December 31:

	2021		2020		2019	
December	\$	0.6025	\$	0.55	\$	0.50
September	\$	0.6025	\$	0.55	\$	0.50
June	\$	0.6025	\$	0.55	\$	0.50
March	\$	0.55	\$	0.50	\$	0.455

On December 9, 2021, the Company's Board of Directors declared a quarterly cash dividend payment of \$0.6025 per share payable on March 1, 2022, to shareholders of record as of February 8, 2022.

Under applicable law, the Company's subsidiaries may pay dividends on their capital stock or other equity only from retained, undistributed or current earnings. A significant loss recorded at a subsidiary may limit the amount of the dividend that the subsidiary can pay. The ability of the Company's subsidiaries to pay upstream dividends, make other upstream distributions or repay indebtedness to parent company or American Water Capital Corp. ("AWCC"), the Company's wholly owned financing subsidiary, as applicable, is subject to compliance with applicable corporate, tax and other laws, regulatory restrictions and financial and other contractual obligations, including, for example, (i) regulatory capital, surplus or net worth requirements, (ii) outstanding debt service obligations, (iii) requirements to make preferred and preference stock dividend payments, and (iv) other contractual agreements, covenants or obligations made or entered into by the Company and its subsidiaries.

Regulatory Restrictions on Indebtedness

The issuance of long-term debt or equity securities by the Company or long-term debt by AWCC does not require authorization of any state PUC if no guarantee or pledge of the regulated subsidiaries is utilized. Based on the needs of the Regulated Businesses and parent company, AWCC may borrow funds or issue its debt in the capital markets and then, through intercompany loans, provide these borrowings to the Regulated Businesses or parent company. PUC authorization is generally required for the regulated subsidiaries to incur long-term debt. The Company's regulated subsidiaries normally obtain these required PUC authorizations on a periodic basis to cover their anticipated financing needs for a period of time, or, as necessary, in connection with a specific financing or refinancing of debt.

Note 11: Stock Based Compensation

The Company has granted stock options, stock units and dividend equivalents to non-employee directors, officers and other key employees of the Company pursuant to the terms of its 2007 Omnibus Equity Compensation Plan (the "2007 Plan"). Stock units under the 2007 Plan generally vest based on (i) continued employment with the Company ("RSUs"), or (ii) continued employment with the Company where distribution of the shares is subject to the satisfaction in whole or in part of stated performance-based goals ("PSUs"). The 2007 Plan has been replaced by the 2017 Omnibus Plan, as defined below, and no additional awards may be granted under the 2007 Plan. However, shares may still be issued under the 2007 Plan pursuant to the terms of awards previously issued under that plan prior to May 12, 2017.

In May 2017, the Company's shareholders approved the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "2017 Omnibus Plan"). The Company has granted stock units, including RSUs and PSUs, stock awards and dividend equivalents to non-employee directors, officers and employees under the 2017 Omnibus Plan. A total of 7.2 million shares of common stock may be issued under the 2017 Omnibus Plan. As of December 31, 2021, 6.5 million shares were available for grant under the 2017 Omnibus Plan. The 2017 Omnibus Plan provides that grants of awards may be in any of the following forms: incentive stock options, nonqualified stock options, stock appreciation rights, stock units, stock awards, other stock-based awards and dividend equivalents. Dividend equivalents may be granted only on stock units or other stock-based awards. The 2017 Omnibus Plan expires in 2027.

The cost of services received from employees in exchange for the issuance of stock options and restricted stock awards is measured based on the grant date fair value of the awards issued. The value of stock options and stock unit awards at the date of the grant is amortized through expense over the requisite service period. All awards granted in 2021, 2020 and 2019 are classified as equity. The Company recognizes compensation expense for stock awards over the vesting period of the award. The Company stratified its grant populations and used historic employee turnover rates to estimate employee forfeitures. The estimated rate is compared to the actual forfeitures at the end of the reporting period and adjusted as necessary. There have been no significant adjustments to the forfeiture rates during 2021, 2020 and 2019. There were no grants of stock options to employees after 2016, and the remaining stock options outstanding as of December 31, 2021 were not material. Presented in the table below is the stock-based compensation expense recorded in O&M expense in the accompanying Consolidated Statements of Operations for the years ended December 31:

	2021	2020	2019
RSUs and PSUs	\$ 15	\$ 19	\$ 15
Nonqualified employee stock purchase plan	2	2	2
Stock-based compensation	17	21	17
Income tax benefit	(4)	(5)	(4)
Stock-based compensation expense, net of tax	<u>\$ 13</u>	<u>\$ 16</u>	<u>\$ 13</u>

There were no significant stock-based compensation costs capitalized during the years ended December 31, 2021, 2020 and 2019.

Subject to limitations on deductibility imposed by the Federal income tax code, the Company receives a tax deduction based on the intrinsic value of the award at the exercise date for stock options and the distribution date for stock units. For each award, throughout the requisite service period, the Company records the tax impacts related to compensation costs as deferred income tax assets. The tax deductions in excess of the deferred benefits recorded throughout the requisite service period are recorded to the Consolidated Statements of Operations and are presented in the financing section of the Consolidated Statements of Cash Flows.

Stock Units

During 2021, 2020 and 2019, the Company granted RSUs to certain employees under the 2017 Omnibus Plan. RSUs generally vest based on continued employment with the Company over periods ranging from one to three years.

During 2021, 2020 and 2019, the Company granted stock units to non-employee directors under the 2017 Omnibus Plan. The stock units were vested in full on the date of grant; however, distribution of the shares will be made within 30 days of the earlier of (i) 15 months after the date of the last annual meeting of shareholders, subject to any deferral election by the director, or (ii) the participant's separation from service. Because these stock units vested on the grant date, the total grant date fair value was recorded in operation and maintenance expense on the grant date.

The RSUs are valued at the closing price of the Company's common stock on the date of the grant and the majority vest ratably over a three-year service period. These RSUs are amortized through expense over the requisite service period using the straight-line method.

Presented in the table below is RSU activity for the year ended December 31, 2021:

	Shares (in thousands)	Weighted Average Grant Date Fair Value (per share)
Non-vested total as of December 31, 2020	92	\$ 100.39
Granted	45	158.54
Vested	(76)	122.26
Forfeited	(13)	128.93
Non-vested total as of December 31, 2021	<u>48</u>	<u>\$ 112.22</u>

As of December 31, 2021, \$3 million of total unrecognized compensation cost related to the nonvested RSUs is expected to be recognized over the weighted average remaining life of 1.33 years. The total fair value of stock units and RSUs vested was \$9 million, \$5 million and \$4 million for the years ended December 31, 2021, 2020 and 2019, respectively.

During 2021, 2020 and 2019, the Company granted PSUs to certain employees under the 2017 Omnibus Plan. The majority of PSUs vest ratably based on continued employment with the Company over the three-year performance period (the "Performance Period"). Distribution of the performance shares is contingent upon the achievement of one or more internal performance measures and, separately, a relative total shareholder return performance measure, over the Performance Period.

Presented in the table below is PSU activity for the year ended December 31, 2021:

	Shares (in thousands)	Weighted Average Grant Date Fair Value (per share)
Non-vested total as of December 31, 2020	293	\$ 105.70
Granted	145	128.30
Vested	(186)	75.47
Forfeited	(20)	159.99
Non-vested total as of December 31, 2021	<u>232</u>	<u>\$ 139.40</u>

As of December 31, 2021, \$3 million of total unrecognized compensation cost related to the nonvested PSUs is expected to be recognized over the weighted average remaining life of 0.71 years. The total fair value of PSUs vested was \$22 million, \$18 million and \$14 million for the years ended December 31, 2021, 2020 and 2019, respectively.

PSUs granted with one or more internal performance measures are valued at the market value of the closing price of the Company's common stock on the date of grant. PSUs granted with a relative total shareholder return condition are valued using a Monte Carlo simulation model. Expected volatility is based on historical volatilities of traded common stock of the Company and comparative companies using daily stock prices over the past three years. The expected term is three years and the risk-free interest rate is based on the three-year U.S. Treasury rate in effect as of the measurement date. Presented in the table below are the weighted average assumptions used in the Monte Carlo simulation and the weighted average grant date fair values of PSUs granted for the years ended December 31:

	2021	2020	2019
Expected volatility	28.59%	16.65%	16.80%
Risk-free interest rate	0.22%	1.28%	2.47%
Expected life (years)	3.0	3.0	3.0
Grant date fair value per share	\$229.22	\$159.64	\$110.37

The grant date fair value of PSUs that vest ratably and have market and/or performance conditions are amortized through expense over the requisite service period using the graded-vesting method.

Employee Stock Purchase Plan

The Company maintains a nonqualified employee stock purchase plan (the “ESPP”) that expires in 2027 through which employee participants (other than the Company’s executive officers) may use payroll deductions to acquire Company common stock at a purchase price of 85% of the fair market value of the common stock at the end of a three-month purchase period. A total of 2.0 million shares may be issued under the ESPP, and as of December 31, 2021, there were 1.6 million shares of common stock reserved for issuance under the ESPP. The ESPP is considered compensatory. During the years ended December 31, 2021, 2020 and 2019, the Company issued 80 thousand, 86 thousand and 88 thousand shares, respectively, under the ESPP.

Note 12: Long-Term Debt

The Company obtains long-term debt through AWCC primarily to fund capital expenditures of the Regulated Businesses and to lend funds to parent company to refinance debt and for other purposes. Presented in the table below are the components of long-term debt as of December 31:

	Rate	Weighted Average Rate	Maturity	2021	2020
Long-term debt of AWCC: (a)					
Senior notes—fixed rate	2.30%-8.27%	3.83%	2023-2051	\$ 8,965	\$ 8,191
Private activity bonds and government funded debt—fixed rate	0.60%-2.45%	1.63%	2023-2031	190	191
Long-term debt of other American Water subsidiaries:					
Private activity bonds and government funded debt—fixed rate	0.00%-5.50%	1.70%	2022-2048	739	735
Mortgage bonds—fixed rate	6.35%-9.19%	7.36%	2023-2039	534	565
Mandatorily redeemable preferred stock	8.47%-9.75%	8.60%	2024-2036	4	5
Finance lease obligations	12.25%	12.25%	2026	1	1
Long-term debt				10,433	9,688
Unamortized debt (discount) premium, net (b)				(9)	(4)
Unamortized debt issuance costs				(23)	(22)
Less current portion of long-term debt				(57)	(329)
Total long-term debt				\$ 10,344	\$ 9,333

(a) This indebtedness is considered “debt” for purposes of a support agreement between parent company and AWCC, which serves as a functional equivalent of a full and unconditional guarantee by parent company of AWCC’s payment obligations under such indebtedness.

(b) Includes debt discount, net of fair value adjustments previously recognized in acquisition purchase accounting.

All mortgage bonds and \$738 million of the private activity bonds and government funded debt held by the Company’s subsidiaries were collateralized as of December 31, 2021.

Long-term debt indentures contain a number of covenants that, among other things, limit, subject to certain exceptions, AWCC from issuing debt secured by the Company’s consolidated assets. Certain long-term notes require the Company to maintain a ratio of consolidated total indebtedness to consolidated total capitalization of not more than 0.70 to 1.00. The ratio as of December 31, 2021 was 0.60 to 1.00. In addition, the Company has \$859 million of notes which include the right to redeem the notes at par value, in whole or in part, from time to time, subject to certain restrictions, with a weighted average interest rate of 1.84%.

Presented in the table below are future sinking fund payments and debt maturities:

	Amount
2022	\$ 57
2023	280
2024	474
2025	597
2026	441
Thereafter	8,584

Presented in the table below are the issuances of long-term debt in 2021:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount
AWCC	Senior notes—fixed rate	2.30%-3.25%	2.78%	2031-2051	\$ 1,100
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.00%	0.04%	2022-2047	18
Total issuances					\$ 1,118

The Company incurred debt issuance costs of \$11 million related to the above issuances.

Presented in the table below are the retirements and redemptions of long-term debt in 2021 through sinking fund provisions, optional redemption or payment at maturity:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount
AWCC	Private activity bonds and government funded debt—fixed rate	1.79%-6.55%	5.94%	2021-2031	\$ 327
Other American Water subsidiaries	Private activity mortgage bonds	9.13%-9.69%	9.52%	2021	31
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.50%	1.38%	2021-2048	13
Other American Water subsidiaries	Mandatory redeemable preferred stock	8.49%-8.49%	8.49%	2022-2022	1
Total retirements and redemptions					\$ 372

On May 10, 2021, AWCC completed a \$1.1 billion debt offering which included the sale of \$550 million aggregate principal amount of its 2.30% senior notes due 2031 and \$550 million aggregate principal amount of its 3.25% senior notes due 2051. At the closing of the offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of \$1,086 million. AWCC used the net proceeds of this offering: (i) to lend funds to parent company and its regulated subsidiaries; (ii) to prepay \$251 million aggregate principal amount of AWCC's outstanding 5.77% Series D Senior Notes due December 21, 2021 (the "Series D Notes") and \$76 million aggregate principal amount of AWCC's outstanding 6.55% Series H Senior Notes due May 15, 2023 (the "Series H Notes," and together with the Series D Notes, the "Series Notes"); (iii) to repay AWCC's commercial paper obligations; and (iv) for general corporate purposes. After the prepayments described above, none of the Series D Notes, and approximately \$14 million aggregate principal amount of the Series H Notes, remain outstanding. As a result of AWCC's prepayment of the Series Notes, a make-whole premium of \$15 million was paid to the holders thereof on June 14, 2021. Substantially all of the early debt extinguishment costs were allocable to the Company's utility subsidiaries and recorded as regulatory assets, as the Company believes they are probable of recovery in future rates.

One of the principal market risks to which the Company is exposed is changes in interest rates. In order to manage the exposure, the Company follows risk management policies and procedures, including the use of derivative contracts such as swaps. The Company also reduces exposure to interest rates by managing commercial paper and debt maturities. The Company does not enter into derivative contracts for speculative purposes and does not use leveraged instruments. The derivative contracts entered into are for periods consistent with the related underlying exposures. The Company is exposed to the risk that counterparties to derivative contracts will fail to meet their contractual obligations and minimizes this risk by dealing only with leading, creditworthy financial institutions having long-term credit ratings of "A" or better.

On May 6, 2021, the Company entered into two 10-year treasury lock agreements, with notional amounts of \$125 million and \$150 million, to reduce interest rate exposure on debt, which was subsequently issued on May 10, 2021. These treasury lock agreements had an average fixed rate of 1.58%. The Company designated these treasury lock agreements as cash flow hedges, with their fair value recorded in accumulated other comprehensive gain or loss. On May 10, 2021, the Company terminated these two treasury lock agreements with an aggregate notional amount of \$275 million, realizing a net gain of less than \$1 million, to be amortized through interest, net over a 10-year period, in accordance with the terms of the \$1.1 billion new debt issued on May 10, 2021. No ineffectiveness was recognized on hedging instruments for the years ended December 31, 2021 and 2020.

Note 13: Short-Term Debt

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, commercial paper markets and, if and to the extent necessary, borrowings under the AWCC revolving credit facility. Additionally, proceeds from the aforementioned sales of HOS and the Company's New York subsidiary will be used primarily for capital investment in the Regulated Businesses. The revolving credit facility provides \$2.25 billion in aggregate total commitments from a diversified group of financial institutions. The termination date of the credit agreement with respect to AWCC's revolving credit facility is March 21, 2025. The facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support and to provide a sub-limit of up to \$150 million for letters of credit. Letters of credit are non-debt instruments maintained to provide credit support for certain transactions as requested by third parties. Subject to satisfying certain conditions, the credit agreement also permits AWCC to increase the maximum commitment under the facility by up to an aggregate of \$500 million. As of December 31, 2021, AWCC had no outstanding borrowings and \$76 million of outstanding letters of credit under the revolving credit facility, with \$1.59 billion available to fulfill the Company's short-term liquidity needs and to issue letters of credit. The Company regularly evaluates the capital markets and closely monitors the financial condition of the financial institutions with contractual commitments in its revolving credit facility. Interest rates on advances under the facility are based on a credit spread to the LIBOR rate (or applicable market replacement rate) or base rate in accordance with Moody Investors Service's and Standard & Poor's Financial Services' then applicable credit rating on AWCC's senior unsecured, non-credit enhanced debt.

On March 20, 2020, AWCC entered into a Term Loan Credit Agreement, by and among parent company, AWCC and the lenders party thereto (the "Term Loan Facility"). As of December 31, 2020, \$500 million of principal was outstanding under the Term Loan Facility. The Term Loan Facility commitments terminated at maturity on March 19, 2021, and the Term Loan Facility was repaid in full. Borrowings under the Term Loan Facility bore interest at a variable annual rate based on LIBOR, plus a margin of 0.80%.

Short-term debt consists of commercial paper and credit facility borrowings totaling \$584 million and \$786 million as of December 31, 2021 and 2020, respectively. The weighted average interest rate on AWCC's outstanding short-term borrowings was approximately 0.25%, for the year ended December 31, 2021. The weighted average interest rate on AWCC's outstanding short-term borrowings was 1.16%, for the year ended December 31, 2020, including \$500 million of outstanding principal on the Term Loan Facility as of December 31, 2020. As of December 31, 2021 there were no commercial paper or credit facility borrowings outstanding with maturities greater than three months.

Presented in the tables below is the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each, as of December 31:

	2021		
	Commercial Paper Limit	Letters of Credit	Total (a)
(In millions)			
Total availability	\$ 2,100	\$ 150	\$ 2,250
Outstanding debt	(584)	(76)	(660)
Remaining availability as of December 31, 2021	\$ 1,516	\$ 74	\$ 1,590

(a) Total remaining availability of \$1.59 billion as of December 31, 2021 may be accessed through revolver draws.

	2020		
	Commercial Paper Limit	Letters of Credit	Total (a)
(In millions)			
Total availability	\$ 2,100	\$ 150	\$ 2,250
Outstanding debt	(786)	(76)	(862)
Remaining availability as of December 31, 2020	\$ 1,314	\$ 74	\$ 1,388

(a) Total remaining availability may be accessed through revolver draws.

Presented in the table below is the Company's total available liquidity as of December 31, 2021 and 2020, respectively:

	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
(In millions)			
Available liquidity as of December 31, 2021	\$ 116	\$ 1,590	\$ 1,706
Available liquidity as of December 31, 2020	\$ 547	\$ 1,388	\$ 1,935

Presented in the table below is the short-term borrowing activity for AWCC for the years ended December 31:

	2021	2020
Average borrowings	\$ 910	\$ 1,047
Maximum borrowings outstanding	1,647	2,172
Weighted average interest rates, computed on daily basis	0.25 %	1.16 %
Weighted average interest rates, as of December 31	0.20 %	0.53 %

The changes in average borrowings between periods were mainly attributable to the \$500 million borrowed under the Term Loan Facility during 2020, which terminated and was repaid in full at maturity on March 19, 2021.

The credit facility requires the Company to maintain a ratio of consolidated debt to consolidated capitalization of not more than 0.70 to 1.00. The ratio as of December 31, 2021 was 0.60 to 1.00.

None of the Company's borrowings are subject to default or prepayment as a result of a downgrading of securities, although such a downgrading could increase fees and interest charges under AWCC's revolving credit facility.

Note 14: General Taxes

Presented in the table below is the components of general tax expense for the years ended December 31:

	2021	2020	2019
Property and capital stock	\$ 149	\$ 140	\$ 124
Gross receipts and franchise	121	116	110
Payroll	39	36	35
Other general	12	11	11
Total general taxes	\$ 321	\$ 303	\$ 280

Note 15: Income Taxes

Presented in the table below is the components of income tax expense for the years ended December 31:

	2021	2020	2019
Current income taxes:			
State	\$ 72	\$ 8	\$ 4
Federal	75	—	—
Total current income taxes	\$ 147	\$ 8	\$ 4
Deferred income taxes:			
State	\$ 10	\$ 49	\$ 54
Federal	221	159	155
Amortization of deferred investment tax credits	(1)	(1)	(1)
Total deferred income taxes	230	207	208
Provision for income taxes	\$ 377	\$ 215	\$ 212

Presented in the table below is a reconciliation between the statutory federal income tax rate and the Company's effective tax rate for the years ended December 31:

	2021	2020	2019
Income tax at statutory rate	21.0 %	21.0 %	21.0 %
Increases (decreases) resulting from:			
State taxes, net of federal taxes	3.9 %	4.8 %	5.4 %
EADIT	(3.6)%	(2.1)%	(0.9)%
Tax impact due to the sale of HOS	1.6 %	— %	— %
Other, net	0.1 %	(0.4)%	(0.1)%
Effective tax rate	23.0 %	23.3 %	25.4 %

Presented in the table below are the components of the net deferred tax liability as of December 31:

	2021	2020
Deferred tax assets:		
Advances and contributions	\$ 439	\$ 424
Tax losses and credits	10	65
Regulatory income tax assets	301	329
Pension and other postretirement benefits	50	100
Other	144	165
Total deferred tax assets	<u>944</u>	<u>1,083</u>
Valuation allowance	(10)	(19)
Total deferred tax assets, net of allowance	<u>\$ 934</u>	<u>\$ 1,064</u>
Deferred tax liabilities:		
Property, plant and equipment	\$ 3,087	\$ 2,913
Deferred pension and other postretirement benefits	69	97
Other	180	216
Total deferred tax liabilities	<u>3,336</u>	<u>3,226</u>
Less: Deferred tax liabilities included in liabilities related to assets held for sale (a)	—	69
Total deferred tax liabilities, net of deferred tax assets	<u>\$ (2,402)</u>	<u>\$ (2,093)</u>

(a) These deferred tax liabilities are related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and are included in liabilities related to assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

The Company recognized no federal net operating loss ("NOL") carryforwards as of December 31, 2021 and \$366 million as of December 31, 2020. The Company fully utilized its federal NOL carryforwards in 2021 due to the sale of HOS, and therefore, no valuation allowance is required.

As of December 31, 2021 and 2020, the Company had state NOLs of \$123 million and \$357 million, respectively, a portion of which are offset by a valuation allowance as the Company does not believe these NOLs are more likely than not to be realized. The state NOL carryforwards expire in 2021 through 2041.

The Company files income tax returns in the United States federal jurisdiction and various state and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state or local or non-U.S. income tax examinations by tax authorities for years on or before 2012. The Company has state income tax examinations in progress and does not expect material adjustments to result.

Presented in the table below are the changes in gross liability, excluding interest and penalties, for unrecognized tax benefits:

	Amount
Balance as of January 1, 2020	\$ 110
Increases in current period tax positions	18
Decreases in prior period measurement of tax positions	(6)
Balance as of December 31, 2020	<u>\$ 122</u>
Increases in current period tax positions	23
Decreases in prior period measurement of tax positions	(5)
Balance as of December 31, 2021	<u>\$ 140</u>

The Company's tax positions relate primarily to the deductions claimed for repair and maintenance costs on its utility plant. The Company does not anticipate material changes to its unrecognized tax benefits within the next year. As discussed above, the Company utilized its remaining federal NOLs in 2021, and therefore this federal tax attribute will not be available to reduce the federal liabilities for uncertain tax positions or interest accrued as presented on the Company's Consolidated Financial Statements.

If the Company sustains all of its positions as of December 31, 2021, an unrecognized tax benefit of \$10 million, excluding interest and penalties, would impact the Company’s effective tax rate. The Company had an insignificant amount of interest and penalties related to its tax positions as of December 31, 2021 and 2020.

Presented in the table below are the changes in the valuation allowance:

	Amount
Balance as of January 1, 2019	\$ 14
Increases in current period tax positions	7
Balance as of December 31, 2019	\$ 21
Decreases in current period tax positions	(2)
Balance as of December 31, 2020	\$ 19
Decreases in current period tax positions	(9)
Balance as of December 31, 2021	\$ 10

Note 16: Employee Benefits

Pension and Other Postretirement Benefits

The Company maintains noncontributory defined benefit pension plans covering eligible employees of its regulated utility and shared services operations. Benefits under the plans are based on the employee’s years of service and compensation. The pension plans have been closed for all new employees. The pension plans were closed for most employees hired on or after January 1, 2006. Union employees hired on or after January 1, 2001, except for specific eligible groups specified in the plan, had their accrued benefit frozen and will be able to receive this benefit as a lump sum upon termination or retirement. Union employees hired on or after January 1, 2001 and non-union employees hired on or after January 1, 2006 are provided with a 5.25% of base pay defined contribution plan. The Company does not participate in a multi-employer plan. The Company also has unfunded noncontributory supplemental nonqualified pension plans that provide additional retirement benefits to certain employees.

The Company’s pension funding practice is to contribute at least the greater of the minimum amount required by the Employee Retirement Income Security Act of 1974 or the normal cost. Further, the Company will consider additional cash contributions and/or available prefunding balances if needed to avoid “at risk” status and benefit restrictions under the Pension Protection Act of 2006 (“PPA”). The Company may also consider increased contributions, based on other financial requirements and the plans’ funded position. Pension expense in excess of the amount contributed to the pension plans is deferred by certain regulated subsidiaries pending future recovery in rates charged for utility services as contributions are made to the plans. See Note 4—Regulatory Matters for additional information. Pension plan assets are invested in a number of actively managed, commingled funds, and limited partnerships including equities, fixed income securities, guaranteed annuity contracts with insurance companies, real estate funds and real estate investment trusts (“REITs”).

The Company maintains other postretirement benefit plans providing varying levels of medical and life insurance to eligible retirees. The retiree welfare plans are closed for union employees hired on or after January 1, 2006. The plans had previously closed for non-union employees hired on or after January 1, 2002. The Company’s policy is to fund other postretirement benefit costs up to the amount recoverable through rates. Assets of the plans are invested in a number of actively managed funds in the form of separate accounts, commingled funds and limited partnerships, including equities and fixed income securities.

The investment policy guideline of the pension plan is focused on diversification, improving returns and reducing the volatility of the funded status over a long-term horizon. The investment policy guidelines of the postretirement plans focus on the appropriate strategy given the funded status of the plans. None of the Company’s securities are included in pension or other postretirement benefit plan assets.

The Company uses fair value for all classes of assets in the calculation of market-related value of plan assets. As of 2018, the fair values and asset allocations of the pension plan assets include the American Water Pension Plan, the New York Water Service Corporation Pension Plan, and the Shorelands Water Company, Inc. Pension Plan.

As a result of the sale of the Company’s New York subsidiary, there will be a transfer of assets from two pension plans and two other postretirement benefit plans from the Company to Liberty. The Company does not expect the assets to be transferred to be a significant percentage of the Company’s overall pension and other postretirement benefit plans.

Presented in the tables below are the fair values and asset allocations of the pension plan assets as of December 31, 2021 and 2020, respectively, by asset category:

Asset Category	2022 Target Allocation	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Percentage of Plan Assets as of December 31, 2021

Presented in the tables below are a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3) for 2021 and 2020, respectively:

	Level 3
Balance as of January 1, 2021	\$ 356
Actual return on assets	41
Purchases, issuances and settlements, net	(61)
Balance as of December 31, 2021	<u>\$ 336</u>
	Level 3
Balance as of January 1, 2020	\$ 349
Actual return on assets	3
Purchases, issuances and settlements, net	4
Balance as of December 31, 2020	<u>\$ 356</u>

The Company’s postretirement benefit plans have different levels of funded status and the assets are held under various trusts. The investments and risk mitigation strategies for the plans are tailored specifically for each trust. In setting new strategic asset mixes, consideration is given to the likelihood that the selected asset allocation will effectively fund the projected plan liabilities and meet the risk tolerance criteria of the Company. The Company periodically updates the long-term, strategic asset allocations for these plans through asset liability studies and uses various analytics to determine the optimal asset allocation. Considerations include plan liability characteristics, liquidity needs, funding requirements, expected rates of return and the distribution of returns.

In 2018, the Company announced plan design changes to the medical bargaining benefit plan, which resulted in a cap on future benefits and an over funded postretirement medical benefits bargaining plan. As a result of the change in funded status, the Company decreased the investment risk in the plan and reduced its exposure to changes in interest rates by matching the assets of the plan to the projected cash flows for future benefit payments of the liability.

The Company engages third-party investment managers for all invested assets. Managers are not permitted to invest outside of the asset class (e.g. fixed income, equity, alternatives) or strategy for which they have been appointed. Investment management agreements and recurring performance and attribution analysis are used as tools to ensure investment managers invest solely within the investment strategy they have been provided. Futures and options may be used to adjust portfolio duration to align with a plan’s targeted investment policy.

In order to minimize asset volatility relative to the liabilities, a portion of plan assets is allocated to long duration fixed income investments that are exposed to interest rate risk. Increases in interest rates generally will result in a decline in the value of fixed income assets while reducing the present value of the liabilities. Conversely, rate decreases will increase fixed income assets, partially offsetting the related increase in the liabilities. Within equities, risk is mitigated by constructing a portfolio that is broadly diversified by geography, market capitalization, manager mandate size, investment style and process. For the postretirement medical bargaining plan, its asset structure is designed to meet the cash flows of the liabilities. This design reduces the plan’s exposure to changes in interest rates.

Actual allocations to each asset class vary from target allocations due to periodic investment strategy updates, market value fluctuations, the length of time it takes to fully implement investment allocations, and the timing of benefit payments and contributions. The asset allocation is rebalanced on a quarterly basis, if necessary. Voluntary Employees’ Beneficiary Association (“VEBA”) Trust assets include the American Water Postretirement Medical Benefits Bargaining Plan, the New York Water Service Corporation Postretirement Medical Benefits Bargaining Plan, the American Water Postretirement Medical Benefits Non-Bargaining Plan, and the American Water Life Insurance Trust.

Presented in the tables below are the fair values and asset allocations of the postretirement benefit plan assets as of December 31, 2021 and 2020, respectively, by asset category:

Asset Category	2022 Target Allocation	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Percentage of Plan Assets as of December 31, 2021

Valuation Techniques Used to Determine Fair Value

Cash—Cash and investments with maturities of three months or less when purchased, including certain short-term fixed-income securities, are considered cash and are included in the recurring fair value measurements hierarchy as Level 1.

Equity securities—For equity securities, the trustees obtain prices from pricing services, whose prices are obtained from direct feeds from market exchanges, that the Company is able to independently corroborate. Certain equity securities are valued based on quoted prices in active markets and categorized as Level 1. Other equities, such as international securities held in the pension plan, are invested in commingled funds and/or limited partnerships. These funds are valued to reflect the plan fund's interest in the fund based on the reported year-end net asset value. Since net asset value is not directly observable or not available on a nationally recognized securities exchange for the commingled funds, they are categorized as Level 2. For limited partnerships, the assets as a whole are categorized as Level 3 due to the fact that the partnership provides the pricing and the pricing inputs are less readily observable. In addition, the limited partnership vehicle cannot be readily traded.

Fixed-income securities—The majority of U.S. Treasury securities and government bonds have been categorized as Level 1 because they trade in highly-liquid and transparent markets and their prices can be corroborated. The fair values of corporate bonds, mortgage backed securities, and certain government bonds are based on prices that reflect observable market information, such as actual trade information of similar securities. They are categorized as Level 2 because the valuations are calculated using models which utilize actively traded market data that the Company can corroborate. Exchange-traded options and futures, for which market quotations are readily available, are valued at the last reported sale price or official closing price on the primary market or exchange on which they are traded and are classified as Level 1.

Real estate fund—Real estate fund is categorized as Level 3 as the fund uses significant unobservable inputs for fair value measurement and the vehicle is in the form of a limited partnership.

REITs—REITs are invested in commingled funds. Commingled funds are valued to reflect the plan fund's interest in the fund based on the reported year-end net asset value. Since the net asset value is not directly observable for the commingled funds, they are categorized as Level 2.

Guaranteed annuity contracts—Guaranteed annuity contracts are categorized as Level 3 because the investments are not publicly quoted. Since these market values are determined by the provider, they are not highly observable and have been categorized as Level 3. Exchange-traded future and option positions are reported in accordance with changes in variation margins that are settled daily.

Presented in the table below is a rollforward of the changes in the benefit obligation and plan assets for the two most recent years, for all plans combined:

	Pension Benefits		Other Benefits	
	2021	2020	2021	2020
Change in benefit obligation:				
Benefit obligation as of January 1,	\$ 2,386	\$ 2,161	\$ 382	\$ 374
Service cost	36	31	4	4
Interest cost	64	73	10	12
Plan participants' contributions	—	—	2	2
Plan amendments	—	—	—	5
Actuarial loss (gain)	(46)	233	(26)	13
Settlements (a)	(6)	(3)	—	—
Gross benefits paid	(140)	(109)	(31)	(29)
Federal subsidy	—	—	1	1
Benefit obligation as of December 31,	\$ 2,294	\$ 2,386	\$ 342	\$ 382
Change in plan assets:				
Fair value of plan assets as of January 1,	\$ 1,990	\$ 1,747	\$ 556	\$ 532
Actual return on plan assets	108	314	9	53
Employer contributions	39	41	1	(2)
Plan participants' contributions	—	—	2	2
Settlements (a)	(6)	(3)	—	—
Benefits paid	(140)	(109)	(30)	(29)
Fair value of plan assets as of December 31,	\$ 1,991	\$ 1,990	\$ 538	\$ 556
Funded value as of December 31,	\$ (303)	\$ (396)	\$ 196	\$ 174
Amounts recognized on the balance sheet:				
Noncurrent asset	\$ —	\$ —	\$ 193	\$ 173
Current liability	(2)	(2)	—	—
Noncurrent liability	(285)	(388)	(1)	(1)
(Liabilities) assets related to assets held for sale (b)	(16)	(6)	4	2
Net amount recognized	\$ (303)	\$ (396)	\$ 196	\$ 174

(a) The Company paid \$6 million and \$3 million of lump sum payment distributions from the Company's New York Water Service Corporation Pension Plan for the years ended December 31, 2021 and 2020, respectively.

(b) These balances are related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and are included in assets held for sale and liabilities related to assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

Presented in the table below are the components of accumulated other comprehensive income and regulatory assets that have not been recognized as components of periodic benefit costs as of December 31:

	Pension Benefits		Other Benefits	
	2021	2020	2021	2020
Net actuarial loss	\$ 381	\$ 436	\$ 35	\$ 49
Prior service credit	(14)	(16)	(186)	(217)
Net amount recognized	\$ 367	\$ 420	\$ (151)	\$ (168)
Regulatory assets (liabilities)	\$ 317	\$ 366	\$ (151)	\$ (168)
Accumulated other comprehensive income	50	54	—	—
Total	\$ 367	\$ 420	\$ (151)	\$ (168)

Presented in the tables below are the projected benefit obligation, accumulated benefit obligation and fair value of plan assets for pension plans with a projected obligation in excess of plan assets as of December 31, 2021 and 2020:

	Projected Benefit Obligation Exceeds the Fair Value of Plans' Assets	
	2021	2020
Projected benefit obligation	\$ 2,294	\$ 2,386
Fair value of plan assets	1,991	1,990
Accumulated benefit obligation	\$ 2,138	\$ 2,188
Fair value of plan assets	1,991	1,990

The accumulated postretirement plan assets exceed benefit obligations for all of the Company's other postretirement benefit plans, except for the Northern Illinois Retiree Welfare Plan.

In 2006, the PPA replaced the funding requirements for defined benefit pension plans by requiring that defined benefit plans contribute to 100% of the current liability funding target over seven years. Defined benefit plans with a funding status of less than 80% of the current liability are defined as being "at risk" and additional funding requirements and benefit restrictions may apply. The PPA was effective for the 2008 plan year with short-term phase-in provisions for both the funding target and at-risk determination. The Company's qualified defined benefit plan is currently funded above the at-risk threshold, and therefore the Company expects that the plans will not be subject to the "at risk" funding requirements of the PPA. The Company is proactively monitoring the plan's funded status and projected contributions under the law to appropriately manage the potential impact on cash requirements.

Minimum funding requirements for the qualified defined benefit pension plan are determined by government regulations and not by accounting pronouncements. The Company plans to contribute amounts at least equal to or greater than the minimum required contributions or the normal cost in 2022 to the qualified pension plans. Contributions may be in the form of cash contributions as well as available prefunding balances.

Presented in the table below is information about the expected cash flows for the pension and postretirement benefit plans:

	Pension Benefits	Other Benefits
2022 expected employer contributions:		
To plan trusts	\$ 38	\$ —
To plan participants	2	—

Presented in the table below are the net benefits expected to be paid from the plan assets or the Company's assets:

	Pension Benefits		Other Benefits	
	Expected Benefit Payments	Expected Benefit Payments	Expected Benefit Payments	Expected Federal Subsidy Payments
2022	\$ 130	\$ 26	\$	1
2023	133	25		1
2024	134	25		1
2025	137	25		1
2026	138	25		1
2027-2031	688	113		3

Because the above amounts are net benefits, plan participants' contributions have been excluded from the expected benefits.

Accounting for pensions and other postretirement benefits requires an extensive use of assumptions about the discount rate, expected return on plan assets, the rate of future compensation increases received by the Company's employees, mortality, turnover and medical costs. Each assumption is reviewed annually. The assumptions are selected to represent the average expected experience over time and may differ in any one year from actual experience due to changes in capital markets and the overall economy. These differences will impact the amount of pension and other postretirement benefit expense that the Company recognizes.

Presented in the table below are the significant assumptions related to the pension and other postretirement benefit plans:

	Pension Benefits			Other Benefits		
	2021	2020	2019	2021	2020	2019
Weighted average assumptions used to determine December 31 benefit obligations:						
Discount rate	2.94%	2.74%	3.44%	2.90%	2.56%	3.36%
Rate of compensation increase	3.51%	3.51%	2.97%	N/A	N/A	N/A
Medical trend	N/A	N/A	N/A	graded from 6.00% in 2022 to 5.00% in 2026+	graded from 6.25% in 2021 to 5.00% in 2026+	graded from 6.50% in 2020 to 5.00% in 2026+
Weighted average assumptions used to determine net periodic cost:						
Discount rate	2.74%	3.44%	4.38%	2.56%	3.36%	4.32%
Expected return on plan assets	6.50%	6.50%	6.20%	3.67%	3.68%	3.56%
Rate of compensation increase	3.51%	2.97%	3.00%	N/A	N/A	N/A
Medical trend	N/A	N/A	N/A	graded from 6.25% in 2021 to 5.00% in 2026+	graded from 6.50% in 2020 to 5.00% in 2026+	graded from 6.75% in 2019 to 5.00% in 2026+

NOTE "N/A" in the table above means assumption is not applicable.

The discount rate assumption was determined for the pension and postretirement benefit plans independently. The Company uses an approach that approximates the process of settlement of obligations tailored to the plans' expected cash flows by matching the plans' cash flows to the coupons and expected maturity values of individually selected bonds. Historically, for each plan, the discount rate was developed at the level equivalent rate that would produce the same present value as that using spot rates aligned with the projected benefit payments.

The expected long-term rate of return on plan assets is based on historical and projected rates of return, prior to administrative and investment management fees, for current and planned asset classes in the plans' investment portfolios. Assumed projected rates of return for each of the plans' projected asset classes were selected after analyzing historical experience and future expectations of the returns and volatility of the various asset classes. Based on the target asset allocation for each asset class, the overall expected rate of return for the portfolio was developed, adjusted for historical and expected experience of active portfolio management results compared to the benchmark returns. The Company's pension expense increases as the expected return on assets decreases. The Company used an expected return on plan assets of 6.50% to estimate its 2021 pension benefit costs, and an expected blended return based on weighted assets of 3.67% to estimate its 2021 other postretirement benefit costs.

The Company had previously adopted a mortality table based on the Society of Actuaries RP 2014 mortality table including a generational MP-2018 projection scale. In 2020, the Company adopted the Pri-2012 base mortality table and the new MP-2020 mortality improvement scale to replace the previous assumption. In 2021, the Company utilized the Pri-2012 base mortality table and the new MP-2021 mortality improvement scale to replace the previous assumption.

Presented in the table below are the components of net periodic benefit costs for the years ended December 31:

	2021	2020	2019
Components of net periodic pension benefit cost:			
Service cost	\$ 36	\$ 31	\$ 28
Interest cost	64	73	82
Expected return on plan assets	(126)	(111)	(91)
Amortization of prior service (credit) cost	(3)	(3)	(3)
Amortization of actuarial loss	27	30	32
Settlements (a)	—	1	—
Net periodic pension benefit cost	\$ (2)	\$ 21	\$ 48
Other changes in plan assets and benefit obligations recognized in other comprehensive income:			
Current year actuarial loss (gain)	\$ 1	\$ 12	\$ (8)
Amortization of actuarial loss	(4)	(3)	(4)
Total recognized in other comprehensive income	(3)	9	(12)
Total recognized in net periodic benefit cost and other comprehensive income	<u>\$ (5)</u>	<u>\$ 30</u>	<u>\$ 36</u>
Components of net periodic other postretirement benefit (credit) cost:			
Service cost	\$ 4	\$ 4	\$ 4
Interest cost	10	12	15
Expected return on plan assets	(21)	(19)	(18)
Amortization of prior service credit	(32)	(34)	(35)
Amortization of actuarial loss	—	2	3
Net periodic other postretirement benefit (credit) cost	<u>\$ (39)</u>	<u>\$ (35)</u>	<u>\$ (31)</u>

(a) Due to the amount of lump sum payment distributions from the Company's New York Water Service Corporation Pension Plan, settlement charges of less than \$1 million were recorded for both years ended December 31, 2021 and 2020. In accordance with existing regulatory accounting treatment, the Company has maintained the settlement charges in regulatory assets on the Consolidated Balance Sheets. The amount is being amortized in accordance with existing regulatory practice.

The Company's policy is to recognize curtailments when the total expected future service of plan participants is reduced by greater than 10% due to an event that results in terminations and/or retirements.

Cumulative gains and losses that are in excess of 10% of the greater of either the projected benefit obligation or the fair value of plan assets are amortized over the expected average remaining future service of the current active membership for the plans.

Savings Plans for Employees

The Company maintains 401(k) savings plans that allow employees to save for retirement on a tax-deferred basis. Employees can make contributions that are invested at their direction in one or more funds. The Company makes matching contributions based on a percentage of an employee’s contribution, subject to certain limitations. Due to the Company’s discontinuing new entrants into the defined benefit pension plan, on January 1, 2006, the Company began providing an additional 5.25% of base pay defined contribution benefit for union employees hired on or after January 1, 2001 and non-union employees hired on or after January 1, 2006. The Company’s 401(k) savings plan expenses totaled \$14 million, \$12 million and \$12 million for 2021, 2020 and 2019, respectively. Additionally, the Company’s 5.25% of base pay defined contribution benefit expenses totaled \$16 million, \$15 million and \$13 million for 2021, 2020 and 2019, respectively. All of the Company’s contributions are invested in one or more funds at the direction of the employees.

Note 17: Commitments and Contingencies

Commitments have been made in connection with certain construction programs. The estimated capital expenditures required under legal and binding contractual obligations amounted to \$626 million as of December 31, 2021.

In December 2021, the Company authorized the contribution of \$45 million to the American Water Charitable Foundation, which was subsequently paid in January 2022.

The Company’s regulated subsidiaries maintain agreements with other water purveyors for the purchase of water to supplement their water supply. Presented in the table below are the future annual commitments related to minimum quantities of purchased water having non-cancelable contracts:

	Amount
2022	\$ 71
2023	65
2024	51
2025	49
2026	49
Thereafter	507

The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. See Note 5—Revenue Recognition for additional information regarding the Company’s performance obligations.

Contingencies

The Company is routinely involved in legal actions incident to the normal conduct of its business. As of December 31, 2021, the Company has accrued approximately \$7 million of probable loss contingencies and has estimated that the maximum amount of losses associated with reasonably possible loss contingencies that can be reasonably estimated is \$2 million. For certain matters, claims and actions, the Company is unable to estimate possible losses. The Company believes that damages or settlements, if any, recovered by plaintiffs in such matters, claims or actions, other than as described in this Note 17—Commitments and Contingencies, will not have a material adverse effect on the Company.

West Virginia Elk River Freedom Industries Chemical Spill

On June 8, 2018, the U.S. District Court for the Southern District of West Virginia granted final approval of a settlement class and global class action settlement (the “Settlement”) for all claims and potential claims by all class members (collectively, the “West Virginia Plaintiffs”) arising out of the January 2014 Freedom Industries, Inc. chemical spill in West Virginia. The effective date of the Settlement was July 16, 2018. Under the terms and conditions of the Settlement, the Company’s West Virginia subsidiary (“WVAWC”) and certain other Company affiliated entities did not admit, and will not admit, any fault or liability for any of the allegations made by the West Virginia Plaintiffs in any of the actions that were resolved.

The aggregate pre-tax amount contributed by WVAWC of the \$126 million portion of the Settlement with respect to the Company, net of insurance recoveries, is \$19 million. As of December 31, 2021, \$0.5 million of the aggregate Settlement amount of \$126 million has been reflected in accrued liabilities, and \$0.5 million in offsetting insurance receivables have been reflected in other current assets on the Consolidated Balance Sheets. The amount reflected in accrued liabilities as of December 31, 2021 reflects reductions in the liability and appropriate reductions to the offsetting insurance receivable reflected in other current assets, associated with payments made to the Settlement fund, the receipt of a determination by the Settlement fund's appeal adjudicator on all remaining medical claims and the calculation of remaining attorneys' fees and claims administration costs. The Company funded WVAWC's contributions to the Settlement through existing sources of liquidity.

Dunbar, West Virginia Water Main Break Class Action Litigation

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by WVAWC. The failure of the main caused water outages and low pressure for up to approximately 25,000 WVAWC customers. In the early morning hours of June 25, 2015, crews completed a repair, but that same day, the repair developed a leak. On June 26, 2015, a second repair was completed and service was restored that day to approximately 80% of the impacted customers, and to the remaining approximately 20% by the next morning. The second repair showed signs of leaking, but the water main was usable until June 29, 2015 to allow tanks to refill. The system was reconfigured to maintain service to all but approximately 3,000 customers while a final repair was being completed safely on June 30, 2015. Water service was fully restored by July 1, 2015 to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleges breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. The *Jeffries* plaintiffs seek unspecified alleged damages on behalf of the class for lost profits, annoyance and inconvenience, and loss of use, as well as punitive damages for willful, reckless and wanton behavior in not addressing the risk of pipe failure and a large outage.

In February 2020, the *Jeffries* plaintiffs filed a motion seeking class certification on the issues of breach of contract and negligence, and to determine the applicability of punitive damages and a multiplier for those damages if imposed. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier. In August 2020, WVAWC filed a Petition for Writ of Prohibition in the Supreme Court of Appeals of West Virginia seeking to vacate or remand the Circuit Court's order certifying the issues class. On January 28, 2021, the Supreme Court of Appeals remanded the case back to the Circuit Court for further consideration in light of a decision issued in another case relating to the class certification issues raised on appeal. On July 16, 2021, oral argument was heard by the Circuit Court on the issue of addressing the Supreme Court of Appeals' remand. This matter remains pending.

The Company and WVAWC believe that WVAWC has valid, meritorious defenses to the claims raised in this class action complaint. WVAWC is vigorously defending itself against these allegations. The Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of such losses related to this proceeding.

Chattanooga, Tennessee Water Main Break Class Action Litigation

On September 12, 2019, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and American Water Works Service Company, Inc. ("Service Company" and, together with TAWC and the Company, collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest. In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC, which remain pending. In October 2020, TAWC answered the complaint, and the parties have been engaging in discovery. The court has entered an agreed scheduling order, which sets a hearing in October 2022 to address the question of class certification.

TAWC and the Company believe that TAWC has meritorious defenses to the claims raised in this class action complaint, and TAWC is vigorously defending itself against these allegations. The Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of such losses related to this proceeding.

Alternative Water Supply in Lieu of Carmel River Diversions

Compliance with Orders to Reduce Carmel River Diversions—Monterey Peninsula Water Supply Project

Under a 2009 order (the “2009 Order”) of the State Water Resources Control Board (the “SWRCB”), the Company’s California subsidiary (“Cal Am”) is required to decrease significantly its yearly diversions of water from the Carmel River according to a set reduction schedule. In 2016, the SWRCB issued an order (the 2016 Order”) approving a deadline of December 31, 2021 for Cal Am’s compliance with these prior orders.

Cal Am is currently involved in developing the Monterey Peninsula Water Supply Project (the “Water Supply Project”), which includes the construction of a desalination plant, to be owned by Cal Am, and the construction of wells that would supply water to the desalination plant. In addition, the Water Supply Project also includes Cal Am’s purchase of water from a groundwater replenishment project (the “GWR Project”) between Monterey One Water and the Monterey Peninsula Water Management District (the “MPWMD”). The Water Supply Project is intended, among other things, to fulfill Cal Am’s obligations under the 2009 Order and the 2016 Order.

Cal Am’s ability to move forward on the Water Supply Project is subject to administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In September 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to \$50 million in associated incurred costs plus AFUDC, subject to meeting certain criteria.

In September 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC’s requirements for a certificate of public convenience and necessity and an additional procedural phase was not necessary to consider alternative projects. The CPUC’s 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am’s cost estimates for the Water Supply Project, which amounted to an aggregate of \$279 million plus AFUDC at a rate representative of Cal Am’s actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am’s prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, operation and maintenance costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed by the CPUC when Cal Am seeks cost recovery for the Water Supply Project. Cal Am has incurred \$186 million in aggregate costs as of December 31, 2021 related to the Water Supply Project, which includes \$47 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am’s purchase of additional water from an expansion to the GWR Project, which is not expected to produce additional water until 2024 at the earliest. The amended and restated water purchase agreement for the GWR Project expansion is subject to review and approval of the CPUC, and on November 29, 2021, Cal Am filed an application with the CPUC seeking review and approval of the amended and restated water purchase agreement. Cal Am is also requesting rate base treatment of the additional capital investment for certain Cal Am facilities required to maximize the water supply from the expansion to the GWR Project and a related Aquifer Storage and Recovery Project, totaling approximately \$81 million. This amount is in addition to, and consistent in regulatory treatment with, the prior \$50 million of cost recovery for facilities associated with the original water purchase agreement, which was approved by the CPUC in its 2016 final decision.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the 2009 Order and the 2016 Order, as well as the CPUC’s 2016 and 2018 final decisions, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in excess of the \$50 million in construction costs previously approved by the CPUC in its 2016 final decision.

Coastal Development Permit Application

In June 2018, Cal Am submitted a coastal development permit application to the City of Marina (the “City”) for those project components of the Water Supply Project located within the City’s coastal zone. Members of the City’s Planning Commission, as well as City councilpersons, have publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of Cal Am’s coastal development permit application. Thereafter, Cal Am appealed this decision to the California Coastal Commission (the “Coastal Commission”), as permitted under the City’s code and the California Coastal Act. At the same time, Cal Am submitted an application to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission’s original jurisdiction. In October 2019, staff of the Coastal Commission issued a report recommending a denial of Cal Am’s application for a coastal development permit with respect to the Water Supply Project, largely based on a memorandum prepared by the general manager of the MPWMD that contradicted findings made by the CPUC in its final decision approving the Water Supply Project. In November 2019, discussions between staffs of the Coastal Commission and the CPUC took place regarding the Coastal Commission staff recommendation, at which time the CPUC raised questions about the Coastal Commission staff’s findings on water supply and demand, groundwater impacts and the viability of a project that the Coastal Commission staff believes may be a possible alternative to the Water Supply Project.

In August 2020, the staff of the Coastal Commission released a report again recommending denial of Cal Am’s application for a coastal development permit. Although the report concluded that the Water Supply Project would have a negligible impact on groundwater resources, the report also concluded it would impact other coastal resources, such as environmentally sensitive habitat areas and wetlands, and that the Coastal Commission staff believes that a feasible alternative project exists that would avoid those impacts. The staff’s report also noted disproportionate impacts to communities of concern. In September 2020, Cal Am withdrew its original jurisdiction application to allow additional time to address the Coastal Commission staff’s environmental justice concerns. The withdrawal of the original jurisdiction application did not impact Cal Am’s appeal of the City’s denial, which remains pending before the Coastal Commission. Cal Am refiled the original jurisdiction application in November 2020. In December 2020, the Coastal Commission sent to Cal Am a notice of incomplete application, identifying certain additional information needed to consider the application complete. In March 2021, Cal Am provided responses to the Coastal Commission’s notice of incomplete application. On June 18, 2021, the Coastal Commission responded, acknowledging the responses and requesting certain additional information before the application could be considered complete. Cal Am responded with the requested additional information on January 11, 2022, and on February 8, 2022, the Coastal Commission requested additional information. The original jurisdiction application remains pending.

Cal Am continues to work constructively with all appropriate agencies to provide necessary information in connection with obtaining required approvals for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. Beginning in January 2022, Cal Am expects to be able to comply with the diversion reduction requirements contained in the 2016 Order, but continued compliance with the diversion reduction requirements for 2023 and future years will depend on successful development of alternate water supply sources sufficient to meet customer demand. The 2009 Order and the 2016 Order remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the 2009 Order and the 2016 Order may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the 2009 Order and the 2016 Order.

Note 18: Earnings per Common Share

Presented in the table below is a reconciliation of the numerator and denominator for the basic and diluted earnings per share (“EPS”) calculations for the years ended December 31:

	2021	2020	2019
Numerator:			
Net income attributable to common shareholders	\$ 1,263	\$ 709	\$ 621
Denominator:			
Weighted average common shares outstanding—Basic	182	181	181
Effect of dilutive common stock equivalents	—	1	—
Weighted average common shares outstanding—Diluted	182	182	181

The effect of dilutive common stock equivalents is related to outstanding stock options, RSUs and PSUs granted under the Company's 2007 Plan and outstanding RSUs and PSUs granted under the Company's 2017 Omnibus Plan, as well as estimated shares to be purchased under the ESPP. Less than one million share-based awards were excluded from the computation of diluted EPS for the years ended December 31, 2021, 2020 and 2019, because their effect would have been anti-dilutive under the treasury stock method.

Note 19: Fair Value of Financial Information

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Current assets and current liabilities—The carrying amounts reported on the Consolidated Balance Sheets for current assets and current liabilities, including revolving credit debt, due to the short-term maturities and variable interest rates, approximate their fair values.

Seller promissory note from the sale of HOS — The carrying amount reported on the Consolidated Balance Sheets for the seller promissory note from the sale of HOS approximates fair value.

Preferred stock with mandatory redemption requirements and long-term debt—The fair values of preferred stock with mandatory redemption requirements and long-term debt are categorized within the fair value hierarchy based on the inputs that are used to value each instrument. The fair value of long-term debt classified as Level 1 is calculated using quoted prices in active markets. Level 2 instruments are valued using observable inputs and Level 3 instruments are valued using observable and unobservable inputs.

Presented in the tables below are the carrying amounts, including fair value adjustments previously recognized in acquisition purchase accounting, and the fair values of the Company's financial instruments:

	As of December 31, 2021				
	Carrying Amount	At Fair Value			Total
		Level 1	Level 2	Level 3	
Preferred stock with mandatory redemption requirements	\$ 4	\$ —	\$ —	\$ 6	\$ 6
Long-term debt (excluding finance lease obligations)	10,396	10,121	60	1,637	11,818

	As of December 31, 2020				
	Carrying Amount	At Fair Value			Total
		Level 1	Level 2	Level 3	
Preferred stock with mandatory redemption requirements	\$ 5	\$ —	\$ —	\$ 7	\$ 7
Long-term debt (excluding finance lease obligations)	9,656	9,639	415	1,753	11,807

Fair Value Measurements

To increase consistency and comparability in fair value measurements, GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels as follows:

Level 1—Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the reporting date. Financial assets and liabilities utilizing Level 1 inputs include active exchange-traded equity securities, exchange-based derivatives, mutual funds and money market funds.

Level 2—Inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data. Financial assets and liabilities utilizing Level 2 inputs include fixed income securities, non-exchange-based derivatives, commingled investment funds not subject to purchase and sale restrictions and fair-value hedges.

Level 3—Unobservable inputs, such as internally-developed pricing models for the asset or liability due to little or no market activity for the asset or liability. Financial assets and liabilities utilizing Level 3 inputs include infrequently-traded non-exchange-based derivatives and commingled investment funds subject to purchase and sale restrictions.

Recurring Fair Value Measurements

Presented in the tables below are assets and liabilities measured and recorded at fair value on a recurring basis and their level within the fair value hierarchy:

	As of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	\$ 21	\$ —	\$ —	\$ 21
Rabbi trust investments	23	—	—	23
Deposits	27	—	—	27
Other investments	17	—	—	17
Contingent cash payment from the sale of HOS	—	—	72	72
Total assets	88	—	72	160
Liabilities:				
Deferred compensation obligations	27	—	—	27
Total liabilities	27	—	—	27
Total assets	\$ 61	\$ —	\$ 72	\$ 133

	As of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	\$ 29	\$ —	\$ —	\$ 29
Rabbi trust investments	19	—	—	19
Deposits	4	—	—	4
Other investments	11	—	—	11
Total assets	63	—	—	63
Liabilities:				
Deferred compensation obligations	24	—	—	24
Total liabilities	24	—	—	24
Total assets	\$ 39	\$ —	\$ —	\$ 39

Restricted funds—The Company's restricted funds primarily represent proceeds received from financings for the construction and capital improvement of facilities and from customers for future services under operation, maintenance and repair projects.

Rabbi trust investments—The Company's rabbi trust investments consist of equity and index funds from which supplemental executive retirement plan benefits and deferred compensation obligations can be paid. The Company includes these assets in other long-term assets on the Consolidated Balance Sheets.

Deposits—Deposits include escrow funds and certain other deposits held in trust. The Company includes cash deposits in other current assets on the Consolidated Balance Sheets.

Deferred compensation obligations—The Company’s deferred compensation plans allow participants to defer certain cash compensation into notional investment accounts. The Company includes such plans in other long-term liabilities on the Consolidated Balance Sheets. The value of the Company’s deferred compensation obligations is based on the market value of the participants’ notional investment accounts. The notional investments are comprised primarily of mutual funds, which are based on observable market prices.

Mark-to-market derivative assets and liabilities — The Company employs derivative financial instruments in the form of variable-to-fixed interest rate swaps and treasury lock agreements, classified as economic hedges and cash flow hedges, respectively, in order to fix the interest cost on existing or forecasted debt. The Company may use fixed-to-floating interest rate swaps, typically designated as fair-value hedges, to achieve a targeted level of variable-rate debt as a percentage of total debt. The Company uses a calculation of future cash inflows and estimated future outflows, which are discounted, to determine the current fair value. Additional inputs to the present value calculation include the contract terms, counterparty credit risk, interest rates and market volatility. The Company had no significant mark-to-market derivatives outstanding as of December 31, 2021.

Other investments—Other investments primarily represent money market funds used for active employee benefits. The Company includes other investments in other current assets on the Consolidated Balance Sheets.

Contingent cash payment from the sale of HOS — The Company’s contingent cash payment derivative included as part of the consideration from the sale of HOS is included in other long-term assets on the Consolidated Balance Sheets. The fair value of the contingent cash payment is estimated using the probability of the outcome of receipt of the \$75 million, a Level 3 input.

Note 20: Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. Certain operating leases have renewal options ranging from one to 60 years. The exercise of lease renewal options is at the Company’s sole discretion. Renewal options that the Company was reasonably certain to exercise are included in the Company’s ROU assets. Certain operating leases contain the option to purchase the leased property. The operating leases for real property, vehicles and equipment will expire over the next 38 years, five years, and five years, respectively.

The Company participates in a number of arrangements with various public entities (“Partners”) in West Virginia. Under these arrangements, the Company transferred a portion of its utility plant to the Partners in exchange for an equal principal amount of Industrial Development Bonds (“IDBs”) issued by the Partners under the Industrial Development and Commercial Development Bond Act. The Company leased back the utility plant under agreements for a period of 30 to 40 years. The Company has recorded these agreements as finance leases in property, plant and equipment, as ownership of the assets will revert back to the Company at the end of the lease term. The carrying value of the finance lease assets was \$146 million and \$147 million as of December 31, 2021 and 2020, respectively. The Company determined that the finance lease obligations and the investments in IDBs meet the conditions for offsetting, and as such, are reported net on the Consolidated Balance Sheets and excluded from the finance lease disclosure presented below.

The Company also enters into O&M agreements with the Partners. The Company pays an annual fee for use of the Partners’ assets in performing under the O&M agreements. The O&M agreements are recorded as operating leases, and future annual use fees of \$4 million in 2022 through 2026, and \$48 million thereafter, are included in operating lease ROU assets and operating lease liabilities on the Consolidated Balance Sheets.

Rental expenses under operating and finance leases were \$13 million, \$14 million and \$16 million for the years ended December 31, 2021, 2020 and 2019, respectively.

For the year ended December 31, 2021, cash paid for amounts in lease liabilities, which includes operating and financing cash flows from operating and finance leases, was \$13 million. For the year ended December 31, 2021, ROU assets obtained in exchange for new operating lease liabilities was \$11 million.

As of December 31, 2021, the weighted-average remaining lease term of the finance lease and operating leases were four years and 18 years, respectively, and the weighted-average discount rate of the finance lease and operating leases were 12% and 4%, respectively.

The future maturities of lease liabilities at December 31, 2021 are \$12 million in 2022, \$9 million in 2023, \$9 million in 2024, \$8 million in 2025, \$7 million in 2026 and \$89 million thereafter. At December 31, 2021 imputed interest was \$45 million.

Note 21: Segment Information

The Company’s operating segments are comprised of the revenue-generating components of its businesses for which separate financial information is internally produced and regularly used by management to make operating decisions, assess performance and allocate resources. The Company operates its businesses primarily through one reportable segment, the Regulated Businesses segment. The Company also operates market-based businesses that, individually, do not meet the criteria of a reportable segment in accordance with GAAP, and are collectively presented as the Market-Based Businesses.

The Regulated Businesses segment is the largest component of the Company’s business and includes subsidiaries that provide water and wastewater services to customers in 14 states.

The Company’s primary Market-Based Businesses include MSG, which enters into long-term contracts with the U.S. government to provide water and wastewater services on various military installations, and the Company’s former HOS business, which was sold in the fourth quarter of 2021, and previously provided various warranty protection programs and other home services to residential customers.

The accounting policies of the segments are the same as those described in Note 2—Significant Accounting Policies. The Regulated Businesses segment and Market-Based Businesses include intercompany costs that are allocated by Service Company and intercompany interest that is charged by AWCC, both of which are eliminated to reconcile to the Consolidated Statements of Operations. Inter-segment revenues include the sale of water from a regulated subsidiary to market-based subsidiaries, leased office space, and furniture and equipment provided by the market-based subsidiaries to regulated subsidiaries. “Other” includes corporate costs that are not allocated to the Company’s operating segments, eliminations of inter-segment transactions, fair value adjustments, and associated income and deductions related to the acquisitions that have not been allocated to the operating segments for evaluation of performance and allocation of resource purposes. The adjustments related to the acquisitions are reported in Other as they are excluded from segment performance measures evaluated by management.

Presented in the tables below is summarized segment information as of and for the years ended December 31:

	2021			
	Regulated Businesses	Market-Based Businesses	Other	Consolidated
Operating revenues	\$ 3,384	\$ 563	\$ (17)	\$ 3,930

Diluted earnings per share:								
Net income attributable to common shareholders		0.68		0.97		1.46		0.80

(a) Amounts may not sum due to rounding.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES**Disclosure Controls and Procedures**

The Company, under the supervision and with the participation of its management, including the Company's President, Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act as of the end of the period covered by this report.

Based on that evaluation, the Company's President, Chief Executive Officer and Chief Financial Officer has concluded that, as of December 31, 2021, the Company's disclosure controls and procedures were effective at a reasonable level of assurance. The Company's disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Company's President, Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act. The Company's internal control over financial reporting is a process designed by or under the supervision of the Company's President, Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect its transactions and dispositions of its assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with GAAP, and that the Company's receipts and expenditures are being made only in accordance with authorizations of its management and its directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of its assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management, including the Company's President, Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of its internal control over financial reporting, as of December 31, 2021, using the criteria described in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Based on the Company's evaluation under the framework in *Internal Control—Integrated Framework (2013)*, its management concluded that its internal control over financial reporting was effective as of December 31, 2021.

The effectiveness of the Company's internal control over financial reporting as of December 31, 2021 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report appearing in Item 8—Financial Statements and Supplementary Data of this Annual Report on Form 10-K.

Changes in Internal Control over Financial Reporting

The Company concluded that there have been no changes in internal control over financial reporting that occurred during its last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III**ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE**

The information required by this item and not set forth below or in Item 1—Business—Executive Officers of this Annual Report on Form 10-K, is incorporated by reference from the Company’s Proxy Statement for the 2022 Annual Meeting of Shareholders, to be filed with the SEC within 120 days following the end of the fiscal year covered by this report, under the captions entitled “Board of Directors and Corporate Governance,” “Proposal 1—Election of Directors” and “Certain Beneficial Ownership Matters—Delinquent Section 16(a) Reports.”

The Company has adopted a Code of Ethics, which applies to directors, officers and employees. The full text of the Code of Ethics is publicly available on the Company’s website at <https://amwater.com>. The Company intends to post on its website any amendments to the Code of Ethics and any waivers of such provisions granted to certain principal officers.

ITEM 11. EXECUTIVE COMPENSATION

Information required by this item is incorporated by reference in the Company’s Proxy Statement for the 2022 Annual Meeting of Shareholders, under the captions entitled “Proposal 1—Election of Directors—Director Compensation Table,” “Compensation Discussion and Analysis,” “Executive Compensation,” “Compensation Committee Interlocks and Insider Participation” and “Compensation Committee Report.”

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information required by this item setting forth the security ownership of certain beneficial owners and management is incorporated by reference in the Company’s Proxy Statement for the 2022 Annual Meeting of Shareholders, under the captions entitled “Certain Beneficial Ownership Matters—Security Ownership of Management,” “Certain Beneficial Ownership Matters—Security Ownership of Certain Beneficial Owners” and “Equity Compensation Plan Information.”

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information required by this item is incorporated by reference in the Company’s Proxy Statement for the 2022 Annual Meeting of Shareholders, under the caption entitled “Board of Directors and Corporate Governance—Board Review of Related Person Transactions” and “Proposal 1—Election of Directors—Director Independence.”

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information required by this item is incorporated by reference in the Company’s Proxy Statement for the 2022 Annual Meeting of Shareholders, under the caption entitled “Proposal 3—Ratification of Appointment of Independent Registered Public Accounting Firm—Fees Paid to Independent Registered Public Accounting Firm” and “Proposal 3—Ratification of Appointment of Independent Registered Public Accounting Firm—Pre-Approval of Services Provided by Independent Registered Public Accounting Firm.”

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

- (a) The following documents have been filed as a part of this Annual Report on Form 10-K:
1. The financial statements listed in the “Index to Consolidated Financial Statements” contained in Item 8—Financial Statements and Supplementary Data of this Form 10-K are hereby incorporated by reference in response to this Item 15(a).
 2. Financial statement schedules have been omitted since they are either not required or are not applicable as the information is otherwise included in the financial statements or notes thereto.
 3. Exhibits. The list of documents contained in “Exhibit Index” below is provided in response to this Item 15(a). The warranties, representations and covenants contained in any of the agreements included or incorporated by reference herein or which appear as exhibits hereto should not be relied upon by buyers, sellers or holders of the Company’s or its subsidiaries’ securities and are not intended as warranties, representations or covenants to any individual or entity except as specifically set forth in such agreement.

The responses to Items 15(b) and (c) of Form 10-K are included above in response to Item 15(a).

ITEM 16. FORM 10-K SUMMARY

None.

EXHIBIT INDEX

Exhibit Number	Exhibit Description
2.1.1#	Stock Purchase Agreement, dated November 20, 2019, by and among American Water Works Company, Inc., New York American Water Company, Inc. and Liberty Utilities Co. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed November 20, 2019).
2.1.2	Letter Agreement, dated June 29, 2021, by and among American Water Works Company, Inc., Liberty Utilities (Eastern Water Holdings) Corp. and New York American Water Company, Inc., with respect to the Stock Purchase Agreement, dated November 20, 2019, by and among American Water Works Company, Inc., New York American Water Company, Inc. and Liberty Utilities Co. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed June 29, 2021).
2.2#	Membership Interest Purchase Agreement, dated as of October 28, 2021, by and among American Water Enterprises, LLC, American (USA), LLC, American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Works Company, Inc. and Lakehouse Buyer Inc. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed October 29, 2021).
3.1	Restated Certificate of Incorporation of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to American Water Works Company, Inc.’s Quarterly Report on Form 10-Q, File No. 001-34028, filed November 6, 2008).
3.2	Amended and Restated Bylaws of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed December 10, 2020).
4.1	Indenture, dated as of October 22, 2007, between American Water Capital Corp. and Wells Fargo Bank, National Association (incorporated by reference to Exhibit 4.4 to American Water Capital Corp.’s Registration Statement on Form S-4, File No. 333-148284, and American Water Works Company, Inc.’s Registration Statement on Form S-4, File No. 333-148284-01, filed December 21, 2007).
4.2	Indenture, dated as of December 4, 2009, between American Water Capital Corp. and Wells Fargo Bank, National Association (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed December 3, 2010).
4.3	Officers’ Certificate, dated December 17, 2012, establishing the 4.300% Senior Notes due 2042 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed December 17, 2012).
4.4	Officers’ Certificate, dated November 20, 2013, establishing the 3.850% Senior Notes due 2024 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed November 20, 2013).
4.5	Officers’ Certificate, dated August 14, 2014, establishing the 3.400% Senior Notes due 2025 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed August 14, 2014).
4.6	Officers’ Certificate, dated August 14, 2014, providing for a further issuance of the 4.300% Senior Notes due 2042 (incorporated by reference to Exhibit 4.3 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed August 14, 2014).
4.7	Officers’ Certificate, dated August 13, 2015, establishing the 4.300% Senior Notes due 2045 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed August 13, 2015).
4.8	Officers’ Certificate, dated August 13, 2015, providing for a further issuance of the 3.400% Senior Notes due 2025 (incorporated by reference to Exhibit 4.3 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed August 13, 2015).
4.9	Officers’ Certificate, dated November 17, 2016, establishing the 3.000% Senior Notes due 2026 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed November 17, 2016).
4.10	Officers’ Certificate, dated November 17, 2016, establishing the 4.000% Senior Notes due 2046 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed November 17, 2016).
4.11	Officers’ Certificate, dated August 10, 2017, establishing the 2.950% Senior Notes due 2027 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed August 10, 2017).
4.12	Officers’ Certificate, dated August 10, 2017, establishing the 3.750% Senior Notes due 2047 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.’s Current Report on Form 8-K, File No. 001-34028, filed August 10, 2017).

Exhibit Number	Exhibit Description
4.13	Officers' Certificate, dated August 9, 2018, establishing the 3.750% Senior Notes due 2028 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 9, 2018).

Certain schedules and exhibits to this agreement have been omitted pursuant to Item 601(a)(5) of Regulation S-K. The Company will furnish the omitted schedules and exhibits to the SEC upon request.

* Denotes a management contract or compensatory plan or arrangement.

Instruments defining the rights of holders of certain issues of long-term debt of the Company and certain of its consolidated subsidiaries have not been filed as exhibits to this report because the authorized principal amount of any one of such issues does not exceed 10% of the Company's consolidated total assets. The Company agrees to furnish a copy of each such instrument to the SEC upon request.

The Stock Purchase Agreement filed as [Exhibit 2.1.1](#), the Membership Interest Purchase Agreement filed as [Exhibit 2.2](#), and the Secured Seller Note Agreement filed as [Exhibit 10.18](#) to this Annual Report on Form 10-K have been included to provide investors and security holders with information regarding the terms of the respective agreements. The filing of these agreements is not intended to provide any other factual information about the parties thereto, or any of their respective subsidiaries or affiliates. The representations, warranties and covenants contained in the respective agreements (i) were made by the parties thereto only for purposes of that respective agreement and as of specific dates; (ii) were made solely for the benefit of the parties to the respective agreement; (iii) may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the respective agreement (such disclosures include information that has been included in public disclosures, as well as additional non-public information); (iv) may have been made for the purposes of allocating contractual risk between the parties to the respective agreements instead of establishing these matters as facts; and (v) may be subject to standards of materiality applicable to the contracting parties to the respective agreements that differ from those applicable to investors.

Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of the parties to the respective agreements thereto, or any of their respective subsidiaries or affiliates. Additionally, the representations, warranties, covenants, conditions and other terms of the respective agreements may be subject to subsequent waiver or modification. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the respective agreement, which subsequent information may or may not be fully reflected in the Company's public disclosures. The respective agreements should not be read alone, but should instead be read in conjunction with the other information regarding the Company that is or will be contained in, or incorporated by reference into, the reports and other documents that are filed by the Company with the SEC.

DESCRIPTION OF AMERICAN WATER WORKS COMPANY, INC.'S EQUITY SECURITIES

The following description of the common stock, par value \$0.01 per share (the "Common Stock"), of American Water Works Company, Inc., a Delaware corporation (the "Company"), is not intended to be complete. For more information regarding the Common Stock, please refer to the Company's Restated Certificate of Incorporation (the "Certificate of Incorporation"), and the Company's Amended and Restated Bylaws (the "Bylaws"), which have been filed as Exhibits 3.1 and 3.2, respectively, to the Company's Annual Report on Form 10-K for the year ended December 31, 2021. The following descriptions are based on the Certificate of Incorporation and Bylaws in effect as of February 16, 2022. The terms and provisions of the Certificate of Incorporation and Bylaws are hereby incorporated by reference herein. The terms of these securities also may be affected by the General Corporation Law of the State of Delaware (the "DGCL").

General

The Company's authorized capital stock consists of 500,000,000 shares of Common Stock and 50,000,000 shares of preferred stock. As of February 10, 2022, there were 181,724,991 shares of Common Stock outstanding and no shares of preferred stock outstanding.

Common Stock

Voting Rights

Other than with respect to director elections, except as otherwise required by law, all matters to be voted on by the Company's shareholders must be approved by a majority of the shares present in person or proxy at such meeting and entitled to vote on the subject matter. With respect to uncontested director elections, the Bylaws require that in order to be elected, a director nominee must receive a majority of the votes cast (for this purpose, a majority of the votes cast means that the number of shares voted "for" a director nominee must exceed the number of votes cast "against" that nominee). For contested director elections where the number of nominees exceeds the number of directors to be elected, the Bylaws require that the directors shall be elected by the vote of a plurality of the shares represented in person or by proxy at any such meeting and entitled to vote on the election of directors.

Dividends

Holders of Common Stock will share equally in any dividend declared by the Company's board of directors (the "Board"), subject to the rights of the holders of any outstanding preferred stock.

Liquidation Rights

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company's affairs, holders of Common Stock would be entitled, after payment of the liquidation preference to all holders of any outstanding preferred stock, to share ratably in the Company's assets that are legally available for distribution to shareholders after payment of liabilities. The Company must pay the applicable distribution to any holders of its preferred stock before it may pay distributions to the holders of Common Stock.

Other Rights

The Company's shareholders have no preemptive or other rights to subscribe for additional shares.

Preferred Stock

The Board may authorize the issuance of preferred stock from time to time in one or more series, without shareholder approval. Subject to the limits imposed by the DGCL, the Board is authorized to fix for any series of preferred stock the number of shares of such series and the voting powers (if any), designation, preferences and relative, participating, optional or other special rights, and qualifications, limitations or restrictions of such series. The Board is also authorized to increase or decrease the number of shares of any series, but not below the number of shares of that series then outstanding, without any further vote or action by the Company's shareholders.

The Board may authorize the issuance of preferred stock with voting or conversion rights that affect adversely the voting power or other rights of holders of Common Stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of delaying, deferring or preventing a change in control, causing the market price of a share of Common Stock to decline, or impairing the voting and other rights of the holders of Common Stock.

Certain Anti-Takeover Provisions of the Certificate of Incorporation and Bylaws, and the DGCL

The following provisions of the Certificate of Incorporation and Bylaws could deter, delay or prevent a third party from acquiring the Company, even if doing so would benefit the Company's shareholders.

Undesignated Preferred Stock

The ability to authorize undesignated preferred stock makes it possible for the Board to authorize the issuance of preferred stock with super voting, special approval, dividend or other rights or preferences on a discriminatory basis that could impede the success of any attempt to acquire the Company. These and other provisions may have the effect of deferring, delaying or discouraging hostile takeovers, or changes in control or management of the Company.

Requirements for Advance Notification of Shareholder Meetings, Nominations and Proposals

The Bylaws provide that special meetings of shareholders may be called only upon the request of the majority of the members of the Board, upon request of the Chairman of the Board, or by the Secretary of the Company upon request of shareholders holding at least 15% of the outstanding Common Stock. The Bylaws prohibit the conduct of any business at a special meeting other than as specified in the notice for such meeting.

The Bylaws establish advance notice procedures with respect to shareholder proposals for annual meetings and the nomination of candidates for election as directors, other than nominations made by or at the direction of the Board or a committee thereof. A shareholder who wishes to bring a matter before a meeting must comply with the Company's advance notice requirements and provide the Company with certain information. Additionally, vacancies and newly created directorships may be filled only by a vote of a majority of the members of the Board then in office, even though less than a quorum, or by shareholders. These provisions may defer, delay or discourage a potential acquiror from conducting a solicitation of proxies to elect the acquiror's own slate of directors or otherwise attempting to obtain control of the Company.

Shareholder Action by Written Consent

As permitted by Section 228 of the DGCL, the Certificate of Incorporation states that any action required or permitted to be taken by the Company's shareholders must be effected at a duly called annual or special meeting and may not be effected by consent in writing by such shareholders.

Certain Anti-Takeover Matters

A significant number of the Company's regulated subsidiaries are subject to economic regulation by state public utility commissions. Some of these states have enacted laws that require regulatory approval for the acquisition of "control" of any regulated utility. In those states, obtaining "control" of the parent or any other company that controls a regulated utility also requires prior regulatory approval. The threshold for a change in control is a fact-specific inquiry that varies by state. For example, in some states, a presumption of control will arise when an acquiring party acquires more than 9.9% of the voting securities of the regulated utility or the controlling entity. In addition to ownership, other states may analyze the degree of influence or control an acquiror may exert over the company. Any person acquiring Common Stock in an offering or in any other purchase of Common Stock in an amount sufficient to trigger a change in control under state law would need the prior approval of the applicable state public utility commission.

Certain Other Provisions of the Certificate of Incorporation and Bylaws and the DGCL

Board of Directors

The Certificate of Incorporation provides that the number of directors is fixed in the manner provided in the Bylaws. The Bylaws provide that the number of directors will be fixed from time to time by the Board.

Business Combinations under Delaware Law

The Company is subject to Section 203 of the DGCL, which prohibits a publicly held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years after the time the shareholder became an "interested stockholder," subject to certain exceptions, including if, prior to such time, the board of directors approved the business combination or the transaction which resulted in the shareholder becoming an "interested stockholder." "Business combinations" include mergers, asset sales and other transactions resulting in a financial benefit to the "interested stockholder." Subject to various exceptions, an "interested stockholder" is a person who, together with his or her affiliates and associates, owns, or within the prior three years did own, 15% or more of the corporation's outstanding voting stock. These restrictions generally prohibit or delay the accomplishment of mergers or other takeover or change-in-control attempts that are not approved by a company's board of directors.

Limitations of Liability and Indemnification of Directors and Officers

The DGCL authorizes corporations to limit or eliminate the personal liability of directors to corporations and their shareholders for monetary damages for breaches of directors' fiduciary duties. The Certificate of Incorporation includes a provision that eliminates the personal liability of directors for monetary damages for actions taken as a director to the fullest extent authorized by the DGCL. The DGCL does not permit exculpation for liability:

- for breach of the duty of loyalty;

- for acts or omissions not in good faith or involving intentional misconduct or knowing violation of law;
- under Section 174 of the DGCL (relating to unlawful dividends or stock repurchases); or
- for transactions from which the director derived an improper personal benefit.

The Certificate of Incorporation and Bylaws provide that the Company will indemnify its directors and officers to the fullest extent permitted by law. The Bylaws also expressly authorize the Company to carry directors' and officers' insurance providing indemnification for its directors, officers and certain employees and agents for certain liabilities.

The limitation of liability and indemnification provisions in the Certificate of Incorporation and Bylaws may discourage shareholders from bringing a lawsuit against the Company's directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against the Company's directors and officers, even though such an action, if successful, might otherwise benefit the Company and its shareholders. In addition, an investment in the Common Stock may be adversely affected to the extent the Company pays the costs of settlement and damage awards against directors and officers in accordance with these indemnification provisions.

Proxy Access

The Bylaws permit an eligible shareholder or group of shareholders to include up to a specified number of director nominees in the Company's proxy materials for an annual meeting of shareholders. To qualify, the shareholders (or group of up to 20 shareholders) must have continuously owned for at least three years 3% or more of the Company's outstanding common stock. The maximum number of shareholder nominees permitted under this proxy access provision is the greater of (i) two or (ii) 20% of the total number of directors on the Company's board of directors as of the last day on which a proxy access notice may be submitted, rounded down to the nearest whole number.

Transfer Agent and Registrar

American Stock Transfer & Trust Company, LLC serves as the registrar and transfer agent for the Common Stock.

New York Stock Exchange Listing

The Common Stock is listed on the New York Stock Exchange under the trading symbol "AWK."

February 2, 2022

Ms. M. Susan Hardwick
14141 S. Penn Square Unit 37D
Philadelphia, PA 19102

Dear Susan:

On behalf of American Water Works Company, Inc. (the "Company") and its Board of Directors, we are pleased to offer you the position of Chief Executive Officer and President, effective February 2, 2022. As Chief Executive Officer and President of the Company, you shall have the authority to control the day-to-day operations of the Company and its corporate strategy subject to the Company's Bylaws and Delegation of Authority and to the directors and decisions of the Company's Board of Directors. You will also be elected to serve as a member of the Board of Directors, without additional compensation for such service. The following are the terms and conditions of your employment as the Company's Chief Executive Officer and President.

Base Salary: You will receive a bi-weekly salary of \$38,461.54, which when annualized, would be approximately \$1,000,000, subject to applicable withholdings. The salary grade for your position will be 100. Your compensation will be reviewed annually based on your performance as assessed by the independent members of the Board of Directors.

APP: You will continue to participate in the Company's Annual Performance Plan (APP). Your target award under the APP is 110% of your annual base salary, and for 2022 will not be prorated and will be based on your new salary and target levels. Under the terms of the APP, your actual award payout may be up to 200% of your target award and will be dependent on both (i) your individual performance which may result in an individual performance factor range of 0 to 200% of your target award and (ii) the application of the Company's Corporate Multiplier (which may range from 0 to 150%) to your individual award. The independent members of the Board of Directors will establish each performance year a set of mutually agreed upon APP goals and objectives for you as CEO and President. Your APP award for 2022 will be based on the level of progress towards achieving the goals and objectives that were agreed upon and approved by the independent members of the Board of Directors, as reflected in the minutes of the meeting of the Board of Directors at which they were approved. Your APP award target must be approved by the Executive Development and Compensation Committee, as well as the independent members of the Board.

LTPP: You will continue to participate in American Water's Long Term Performance Plan (LTPP). Your target payout under the LTPP is 400% of your annual base salary. Your grant for 2022 will be based on your new target. For reference purposes, awards are currently granted in the following forms of equity in the Company: 30% in restricted stock units, 35% in performance stock units based on relative total shareholder return (TSR) ranking and 35% percent in performance stock units based on compounded adjusted EPS growth. LTPP awards are granted under the terms and conditions of the Company's 2017 Omnibus Equity Compensation Plan, as it may be amended from time to time (the Plan), the LTPP program then in effect, and a grant document. Your LTPP awards must be approved by the Executive Development and Compensation Committee of the Board, as well as the independent members of the Board. In the event of any conflict between the terms of your offer letter and the terms of the Plan, the LTPP program then in effect and the grant document, the terms of those other documents will govern.

Ms. Hardwick
February 2, 2022
Page 2

In addition, as CEO and President, your equity awards will include specific post-retirement continued vesting provisions applicable to that position. Under these provisions, equity awards granted to you in this role will continue to vest over the normal vesting schedule of the award following your separation of service based upon either normal retirement, as follows:

- in the event of a normal retirement, defined as having attained age 60 and five years of service, an award will continue to vest in full; and
- in the event of an early retirement, defined as having attained age 55 and five years of service, 75 percent of each award will continue to vest.

Interim CEO compensation: In recognition and appreciation of your role as interim CEO from December 3, 2021 to January 31, 2022, you will receive a one time lump sum cash payment of \$100,000, subject to applicable withholdings, which will be paid to you in the next pay period.

Executive Severance Policy and Change of Control Severance Policy: You will be entitled to the benefits and subject to the terms of the Company's executive severance policy and Change of Control Severance Policy, which provide severance benefits to executives whose employment is terminated under specified circumstances by American Water for reasons other than cause.

Benefits: You will continue to be eligible to participate in American Water's comprehensive benefits program for you and your eligible dependents.

401(k) Savings Plan: You will continue to be eligible to participate in the 401(k) Savings Plan.

Non-Qualified Deferred Compensation: You will continue to be eligible to participate in our Non-Qualified Deferred Compensation Plan. The Company may make Employer Matching and Defined Contribution Account contributions as soon as administratively practicable after the end of the applicable plan year.

Vacation/Holidays: You are entitled to five (5) weeks of vacation, six (6) floating holidays and eight (8) fixed holidays per calendar year which must be used in accordance with the Company's vacation policy.

Ms. Hardwick
February 2, 2022

Susan, we look forward to working with you as CEO and President as you continue to execute on our strategy and grow the Company.

Please signify your agreement with the foregoing terms of your continued employment by returning to my attention the original of this Agreement.

Sincerely,
/s/ KARL F. KURZ
Chairman of the Board
cc: Melanie Kennedy, EVP and Chief Human Resources Officer

I, Susan Hardwick, understand that my employment with American Water is "at will," which means that I am not guaranteed employment or any particular job for any specified period of time. The Company or I may terminate my employment at any time, for any or no reason, with or without cause.

/s/ M. SUSAN HARDWICK

Date

SEPARATION AGREEMENT AND GENERAL RELEASE

This Separation Agreement and General Release (“Agreement”) is between American Water Works Service Company, Inc. (“American Water” or the “Company”) and Walter Lynch (“Executive”).

WHEREAS, Executive is a full-time executive employee of American Water;

WHEREAS, Executive is voluntarily retiring from his employment with American Water, which will end on February 2, 2022 (the “Separation Date”);

WHEREAS, Executive and American Water have agreed to resolve all claims and potential claims which have been, or could have been, brought by Executive against American Water arising out of Executive’s employment with American Water to date;

WHEREAS, Executive and American Water desire to enter into this Agreement to document the terms of the separation of Executive’s employment with American Water, with the parties agreeing that neither party admits wrongdoing, fault, or liability whatsoever, and that nothing herein shall be construed or interpreted as an admission of any wrongdoing, fault or liability of either party; and

NOW THEREFORE, in consideration of the mutual promises and releases contained herein and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the parties agree as follows:

1. **Consideration.**

- a. **Severance.** American Water shall pay Executive’s current base salary from February 2022 through January 2023 (the “Severance Period”), which will be paid on American Water’s regular pay schedule beginning the first regular pay day in February 2022 (the “Severance Payment”), provided that Executive (i) is not in breach of his obligations under Section 4 of this Agreement and (ii) has not otherwise revoked his waiver of any potential claims under the Age Discrimination in Employment Act of 1967 (“ADEA”) or the Older Workers Benefit Protection Act (“OWBPA”) in accordance with Section 9 of this Agreement. This amount will be subject to regular lawful withholdings and deductions.
 - b. **Group Health Insurance.** Executive, at his option, may continue to participate in American Water’s group health insurance plan pursuant to the federal Consolidated Omnibus Budget Reconciliation Act, as amended (“COBRA”). American Water will reimburse all COBRA premiums and related costs for Executive during the Severance Period. Thereafter, Executive and any eligible dependents will be entitled to continue health care coverage at Executive’s sole expense for the remaining balance of the coverage period pursuant to COBRA. Executive’s right to COBRA health care continuation will be set forth in a
-

separate letter. If Executive elects not to participate in the Company's group health insurance plan or if Executive fails to make timely monthly contributions (as this term is defined in the COBRA documentation that shall be provided Executive), Executive shall lose all eligibility for continued participation in the Company's group health insurance plan.

2. **Valid Consideration.** Executive acknowledges and agrees that the consideration set forth in Section 1, in addition to any other salary, benefits, and terms and conditions of employment that he is receiving by way of this Agreement to which he is not otherwise entitled: (i) is not required by the Company's policies or procedures or by any pre-existing contractual obligation of American Water, (ii) constitutes valid consideration for the Executive's promises and obligations under this Agreement, and (iii) is in complete satisfaction of any and all compensation and benefits due to Executive from the Company (other than any of Executive's accrued benefits that vested prior to the Separation Date or as otherwise provided in Section 8).
3. **Confidentiality; Non-Disclosure; Return of Property, Disparaging Statements, References.**
 - a. **Confidentiality.** Executive understands and agrees that the terms and contents of this Agreement shall remain confidential and shall not be disclosed by Executive or Executive's agents and representatives, with the exception of: (1) disclosure to members of Executive's immediate family, Executive's attorneys, accountants, tax or financial advisors, each of who shall be informed of this confidentiality obligation and shall agree to be bound by its terms; (2) disclosure to the Internal Revenue Service or state or local taxing authority; (3) disclosure as is expressly required or protected by law; (4) disclosure by American Water or its parent company, American Water Works Company, Inc., through a press release or in a filing with the Securities and Exchange Commission, or to a national stock exchange; (5) any disclosures made by the Executive to pursuant to the whistleblower provisions in the Exchange Act (15 U.S.C. § 78u-6) and the Sarbanes Oxley Act of 2002 (18 U.S.C. § 1514A); or (6) in any action to challenge or enforce the terms of this Agreement provided that such disclosure is covered by an appropriate confidentiality order to the maximum extent permitted by the applicable authority. Nothing contained in this Agreement shall preclude Executive from initiating and/or cooperating fully with any governmental investigation.
 - b. **Non-Disclosure of Confidential Information and Trade Secrets.** Executive acknowledges that as an employee of American Water, Executive had access to and was entrusted with the Company's confidential and proprietary business information and trade secrets defined in this Section 3(b)(i). At all times prior to, during, and following Executive's separation from employment with American Water, Executive represents that he has maintained and agrees that Executive will continue to maintain such information in strict confidence and has not disclosed, used, transferred or sold and will not disclose, use, transfer or sell (directly or

indirectly) such information to any third party (except as may be required by law or legal process) so long as such information or proprietary data remains confidential and has not been properly and lawfully disclosed or is not otherwise in the public domain. Executive further agrees that, at the Company's request, Executive will deliver and/or provide access to any personal computing device, telephone, hard disk, backup tapes, cloud systems, disks or thumb or flash drives for the Company's review and permit the Company to delete all confidential and proprietary business information and trade secrets contained on such devices.

- i. Definition of "Confidential and Proprietary Business Information and Trade Secrets. For purposes of this Agreement, "confidential and proprietary business information and trade secrets" includes, but is not limited to, all information about markets, key personnel, operational methods, proprietary intellectual property, real property, plans for future developments, projects in the pipeline, bid information, manuals, books, training materials, forms and procedures, policies, customer or prospective customer lists, customer related data, marketing plans and strategies, financial information, documents relating to any of the foregoing, and other written and oral materials (whether computerized or on hard copy) which are related to the business of the Company and the confidentiality of which the Company attempts to maintain with reasonable efforts and which the Company has not released to the general public.
- c. Notice of Immunity for Confidential Disclosure of a Trade Secret to an Attorney, the Government or in a Court Filing. Federal law provides certain protections to individuals who disclose a trade secret to their attorney, a court, or a government official in certain, confidential circumstances. Specifically, federal law provides that an individual shall not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret under either of the following conditions:
 - Where the disclosure is made (i) in confidence to a Federal, State, or local government official, either directly or indirectly, or to an attorney; and (ii) solely for the purpose of reporting or investigating a suspected violation of law; or
 - Where the disclosure is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. 18 U.S.C. § 1833(b)(1).

Federal law also provides that an individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding, if the individual (A) files any document containing the trade secret under seal; and (B) does not disclose the trade secret, except pursuant to court order. 18 U.S.C. § 1833(b)(2).

- d. **Return of Property.** Executive shall, on or prior to the Separation Date, return to American Water (and shall not retain any copies of) any and all property of the Company in Executive's possession, including (without limitation) all papers, documents, business plans, project or pipeline information, correspondence, office access badge, Company-issued cell phone, garage ID hang-tag, keys, credit cards, electronic or digitally stored information, and computer equipment.
- e. **Disparaging Statements.** Executive agrees not to make written (to include online or other written statements) or oral statements about American Water, its affiliates, or any of the other Releasees (as defined in Section 5(a) below) that are negative or disparaging. Nothing in this Agreement shall preclude Executive from communicating or testifying truthfully (i) to the extent required or protected by law, (ii) to any federal, state, or local governmental agency, (iii) in response to a subpoena to testify issued by a court of competent jurisdiction, or (iv) in any action to challenge or enforce the terms of this Agreement. Executive understands that this is a material provision of this Agreement.
- f. **References.** Executive agrees that all requests for references will be directed solely to the attention of Melanie Kennedy, Executive Vice President, Chief Human Resources Officer, American Water Works Service Company, Inc., 1 Water Street, Camden, NJ 08102, Melanie.Kennedy@amwater.com.

Upon any request for a reference, Ms. Kennedy will solely confirm Executive's dates of employment with American Water, positions Executive held with American Water, and Executive's last salary earned with American Water.

- g. **Taxes.** As required by law, the Company will issue the appropriate IRS Form(s) at the appropriate time. Any payments provided for herein shall be reduced by any amounts required to be withheld by the Company from time to time under applicable federal, state or local income or employment tax laws or similar statutes or other provisions of law then in effect. Executive agrees that (i) Executive shall be solely responsible for all taxes, including, but not limited to, income and excise taxes, imposed on Executive in respect of amounts paid to Executive by the Company under this Agreement; (ii) Executive shall not seek reimbursement from the Company for such taxes; and (iii) Executive agrees to and does hereby indemnify and hold the Company harmless against any and all tax liability, interest, and/or penalties.

4. **Non-Competition and Non-Solicitation.**

a. **Non-Competition.**

- i. Executive agrees that, during the Severance Period, Executive will not either alone or in association with others engage in any duties for a Competitive Business (as defined below) with respect to any business development opportunity, in either the Company's regulated or market-

based business anywhere in the United States, that is in the Company's pipeline, as of the date Executive executes the Agreement, of which Executive is aware or has been made aware through information received in any business planning session, business performance reviews, growth calls, commercial development committees, or any other manner. Executive agrees that he will not perform such duties either for Executive or any other person or any other business entity or organization that is engaged in any business or enterprise that is competitive with the Company's business ("Competitive Businesses"). The Company has identified the following companies as Competitive Businesses: Algonquin/Liberty, Essential Utilities, NextEra, and Corix.

"Engaging in" on Executive's part shall include the following activities: engaging in, working with, having an interest or concern in, advising, or permitting one's name to be used in connection with, an enterprise or endeavor, either individually, in partnership or in conjunction with any person or persons, firms, associations, companies or corporations, whether as a principal, agent, shareholder, employee, officer, director, partner, consultant or in any manner whatsoever (it is being understood that Executive will retain the right to invest in or have an interest in entities traded on any public market or offered by any national brokerage house, provided that such interest does not exceed 1% of the voting control of that entity).

b. Non-Solicitation.

- i. Executive agrees that, during the Severance Period, Executive will not either alone or in association with others call on, solicit, or permit any organization directly or indirectly controlled by Executive or which may employ Executive to call on or solicit, in any manner, any Client of the Company.

"Client" shall mean any corporation, partnership, association, United States military base, or United States (to include federal, state, county or local government) or foreign governmental entity that has or had an account or contract with the Company or any of its subsidiaries or parent during Executive's employment or on the Separation Date regardless of whether Executive has directly worked with such client.

- ii. Executive further agrees that, during the Severance Period, Executive will not directly or indirectly, either alone or in association with others solicit, or permit any organization directly or indirectly controlled by Executive or which may employ Executive to solicit, any employee or executive of the Company to leave the employ of the Company, or solicit for employment, hire or engage as an independent contractor, or permit any organization directly or indirectly controlled by Executive or which may employ

Executive to solicit for employment, hire or engage as an independent contractor, any person who was employed by the Company at the time of the termination or cessation of Executive's employment with the Company; provided that this clause shall not apply to the solicitation, hiring or engagement of any individual whose employment with the Company has been terminated for a period of six (6) months or longer at the time of such solicitation, hiring or employment.

- c. Extension of Restrictions. If Executive violates any of the provisions of this Section 4, the duration of the provisions shall automatically be extended, and Executive shall continue to be bound by the restrictions set forth in Section 4 until a period of twelve (12) months has expired without any violation of such provisions.
- d. Interpretation. If any restriction set forth in Section 4 is found by any court of competent jurisdiction to be overbroad, such restriction shall be enforceable to the maximum extent permissible by law.
- e. Equitable Remedies. The restrictions contained in this Section 4 are necessary for the protection of the business and good will of the Company and are considered by Executive to be reasonable for such purpose. Executive agrees that any breach of this Section 4 is likely to cause the Company substantial and irrevocable damage which is difficult to measure. Therefore, in the event of any such breach or threatened breach, Executive agrees that the Company shall be entitled to preliminary and permanent injunctive relief, without the necessity of a bond or other security and without proving actual damages, as well as to an equitable accounting of all earnings, profits and other benefits arising from any violations of this Agreement, which rights shall be cumulative and in addition to any other rights or remedies to which the Company may be entitled, including but not limited to liquidated and punitive damages. Executive further agrees that the Company shall be entitled to its reasonable fees and costs if a court of competent jurisdiction issues a preliminary or permanent injunction against the Executive or a court of competent jurisdiction finds that Executive breached the terms of the Agreement.

5. **General Release of Legal Claims**

- a. Executive, on behalf of Executive, and his heirs, executors, administrators, and/or assigns, does hereby releases and forever discharges American Water, together with its parents, subsidiaries, affiliates, predecessors, and successor corporations and business entities, past, present and future, and its and their agents, directors, officers, partners, employees, shareholders, insurers and reinsurers, and employee benefit plans (and the trustees, administrators, fiduciaries, insurers, and reinsurers of such plans) past, present and future, and their heirs, executors, administrators, predecessors, successors, and assigns (collectively, "Releasees"), of and from any and all legally waivable claims, causes of actions, suits, lawsuits, debts, and

demands whatsoever in law or in equity, known or unknown, suspected or unsuspected, which Executive ever had, now has or which Executive's executors administrators, or assigns hereafter may have from the beginning of time to the date Executive executes this Agreement, and including, without limitation, any claims arising from or relating to Executive's employment relationship with American Water, and the termination of such relationship, including, without limitation, any claims arising under Title VII of the Civil Rights Act of 1964 ("Title VII"), the Americans with Disabilities Act ("ADA"), the Employee Retirement Income Security Act ("ERISA"), the Family and Medical Leave Act ("FMLA"), the ADEA, the OWBPA, the New Jersey Law Against Discrimination ("NJLAD"), the Conscientious Employee Protection Act ("CEPA"), the New Jersey Family Leave Act, the New Jersey Millville Dallas Airmotive Plant Job Loss Notification Act, the New Jersey Equal Pay Act, the New Jersey Wage and Hour Law, the New Jersey Wage Payment Act, the New Jersey Constitution, the common law of the State of New Jersey, the Pennsylvania Human Relations Act, the Pennsylvania Equal Pay Law, the Pennsylvania Whistleblower Law, the Pennsylvania Public Employee Relations Act (if applicable), the Pennsylvania Pregnancy Guidelines of the Human Relations Commission, the common law of the State of Pennsylvania, and any and all other federal, state, or local constitutional, statutory, regulatory, or common law causes of action now or hereafter recognized, and any claims for attorneys' fees and costs. Nothing in this Agreement shall waive rights or claims that arise after the date that Executive executes this Agreement.

- b. Notwithstanding the broad scope of Section 5(a), this Agreement is not intended to bar any claims that, as a matter of applicable law, whether by statute or otherwise, cannot be waived, such as claims for workers' compensation benefits, unemployment insurance benefits, and any claims that arise after the date that the Executive executes this Agreement. Nothing in this Agreement is intended to interfere with, prevent or prohibit Executive from filing a claim with a federal, state or local government agency that is responsible for enforcing a law on behalf of the government, such as the Equal Employment Opportunity Commission ("EEOC") (including a challenge to the validity of this Agreement), Department of Labor ("DOL"), Securities and Exchange Commission ("SEC") or National Labor Relations Board ("NLRB"). Nor should anything in this Agreement be read to deter or prevent Executive from cooperating with or providing information to such a governmental agency during the course of its investigation or during litigation. However, Executive understands and agrees that, that except for claims brought pursuant to the SEC's Whistleblower Program (15 U.S.C. § 78u-6 and 18 U.S.C. § 1514A), Executive may not recover any monetary benefit or individualized relief as a result of any such claim brought on Executive's behalf.

6. **Cooperation.** Executive agrees that Executive shall cooperate with the Company in the prosecution or defense of any claim currently pending or hereinafter pursued by or against the Company without the payment of any additional compensation other than as set forth in this Agreement. Upon receipt of appropriate supporting documentation,

American Water shall reimburse Executive for all of Executive's approved and reasonable costs and expenses incurred in connection with such cooperation. In the case of legal proceedings involving American Water, to the extent permissible by law, Executive will notify, in writing, the individual then holding the office of General Counsel, American Water Works Service Company, Inc., 1 Water Street, Camden, NJ 08102-1658, of any subpoena or other similar notice to give testimony or provide documentation within two (2) business days of receipt of the same and prior to providing any response thereto. Nothing in this Agreement shall preclude Executive from participating in and fully cooperating with any governmental investigation.

7. **Business Expenses and Compensation.** Executive acknowledges and agrees that (i) should Executive execute this Agreement, the consideration set forth in this Agreement is in complete satisfaction of any and all compensation and benefits due to Executive from the Company, and that no further payments, compensation, benefits or other amounts are owed or will be paid to Executive by the Company, unless specifically described in this Agreement; (ii) Executive has been reimbursed by American Water for all business expenses incurred in conjunction with the performance of Executive's employment and that no other reimbursements are owed to Executive; and (iii) Executive has not suffered any on-the-job injury for which Executive has not already filed a claim.
8. **Accrued Benefits.** In addition to the consideration provided under this Agreement, following the Separation Date, Executive will be entitled to receive (i) any accrued, but unused, vacation as of the Separation Date, which will be paid to Executive on the first Company payroll date that follows the Separation Date and (ii) any accrued or owing, but not yet paid, vested benefits under the Company's 401(k) plan, pension plan, nonqualified deferred compensation plan, and post-employment retirement plan and any other plan in which Executive may have participated, will be paid to Executive at the times provided under such plans. Any restricted stock units and performance stock unit grants that were granted to Executive under the Company's Long Term Performance Plan ("LTTP") that are outstanding as of the Separation Date will be subject to the terms and conditions of the respective grant agreements covering such grants to include the letter agreement between Executive and the Company dated February 12, 2020 (the "Offer Letter").
9. **Acknowledgements.** Executive hereby certifies and acknowledges that:
 - a. Executive has read the terms of this Agreement and that Executive understands its terms and effects, including the fact that Executive has agreed to **REMISE, RELEASE, AND FOREVER DISCHARGE** Releasees from all claims set forth in Section 5(a);
 - b. Executive is receiving consideration which is in addition to anything of value to which Executive otherwise would have been entitled had Executive not executed this Agreement;

- c. Executive enters into this Agreement knowingly and voluntarily without any coercion on the part of any person or entity;
- d. Executive was given adequate time to consider all implications and to freely and fully consult with and seek the advice of whomever Executive deemed appropriate;
- e. Executive was advised in writing, by way of this Agreement, to consult an attorney before signing this Agreement, and has in fact consulted with attorney Michael O'Connor, Esq.;
- f. Executive has been given twenty-one (21) calendar days within which to consider his choice to waive any potential ADEA or OWBPA claims as set forth in Section 5(a) (the "Consideration Period") and, in the event that Executive signs this Agreement and returns it back to the Company in accordance with the Notice provision below during this Consideration Period, said signing constitutes a knowing and voluntary waiver of this Consideration Period. Executive further understands that any non-material changes to this Agreement do not restart the Consideration Period;
- g. Executive shall have the right to revoke his waiver of any potential ADEA or OWBPA claims as set forth in Section 5(a) within seven (7) calendar days after signing the Agreement (the "Revocation Period"). If the seventh day is a weekend or national holiday, Executive has until the next business day to revoke. If Executive elects to revoke, Executive shall notify Melanie Kennedy, Executive Vice President, Chief Human Resources Officer, American Water Works Service Company, Inc., 1 Water Street, Camden, NJ 08102, Melanie.Kennedy@amwater.com in writing of Executive's revocation. Unless revoked within this period, Executive's waiver of potential ADEA or OWBPA claims will become irrevocable on the eighth (8th) day after the Agreement is signed;
- h. Executive understands that the Consideration Period and Revocation Period set forth in Sections 9(f) and 9(g) above pertain only to Section 5(a)'s waiver of potential ADEA or OWBPA claims, and if he revokes his waiver of any potential ADEA or OWBPA claims, the remaining Sections of this Agreement shall remain fully valid and enforceable to the maximum extent consistent with applicable law, except that the Company will be under no obligation to provide the Severance Payment provided in Section 1;
- i. Executive understands that he will not be entitled to receive the Severance Payment provided in Section 1 unless and until (i) Executive executes this Agreement within the Consideration Period, but no earlier than the Separation Date; (ii) the seven (7) day Revocation Period expires without Executive having exercised Executive's right of revocation; and (iii) Executive returns all Company property in accordance with Section 3(d); and

- j. Executive does not waive rights or claims that may arise after the date this Agreement is executed.
10. **Indemnification and Similar Rights.** Nothing contained in this Agreement shall be construed to alter, limit, or release any right to indemnification, advanced payment of expenses, or similar rights that the Executive may have pursuant to the Company's bylaws, other governance instruments, insurance coverage, or applicable law relating to actions by the Executive on behalf of the Company within the scope of and during the course of his employment with the Company.
11. **Section 409A.** To the extent applicable, this Agreement is intended to comply with the applicable provisions of section 409(A) of the Internal Revenue Code. Accordingly, all provisions herein are intended to be construed and interpreted to comply with section 409A of the Code or an exemption therefrom. Further, for purposes of section 409A of the Code, it is intended that each payment provided for hereunder, including each payment under a right to receive installment payments, be treated as a separate payment. Executive agrees and understands that neither the Company nor any of the other Releasees (i) have any obligation to indemnify or otherwise protect Executive from the obligation to pay any taxes pursuant to section 409A of the Code and (ii) makes or has made any representation, warranty or guarantee to Executive of compliance under section 409A of the Code.
12. **General Terms.**
- a. **Notices.** All notices, demands or other communications to be given or delivered under or by reason of the provisions of this Agreement shall be in writing and shall be deemed to have been given when delivered personally to the recipient, two (2) business days after the date when sent to the recipient by reputable express courier service (charges prepaid) or four (4) business days after the date when mailed to the recipient by certified or registered mail, return receipt requested and postage prepaid. Such notices, demands and other communications shall be sent to Executive and to the Company at the addresses set forth below:
- If to Executive:
Walter Lynch
11 John James Audubon Way
Marlton, NJ 08053
- If to Company:
Melanie Kennedy
Executive Vice President, Chief Human Resources Officer
American Water Works Service Company, Inc.
1 Water Street
Camden, NJ 08102

or to such other address or to the attention of such other person as the recipient party has specified by prior written notice to the sending party.

- b. Entire Agreement. This Agreement constitutes and contains the entire agreement and understanding concerning Executive's employment and termination thereof, and the other subject matters addressed herein between the parties, and supersedes and replaces all prior negotiations and all prior agreements proposed or otherwise, whether written or oral, concerning the subject matter hereof. Notwithstanding the foregoing, given Executive's expressed intent to retire, the terms of this Agreement supplement and do not replace any restrictive covenants (including but not limited to non-competition, non-solicitation, and non-disclosure obligations) contained in any other agreements to which Executive is a party, as well as any retirement or benefit plans in which Executive is or becomes a participant, that place greater restrictions on Executive.
- c. Modification. This Agreement can be modified only by a writing signed by both Executive and a duly authorized agent of the Company.
- d. Assignment. All of the terms and provisions of this Agreement shall be binding upon and inure to the benefit of and be enforceable by the respective heirs, executors, administrators, legal representatives, successors and assigns of the Company and Executive.
- e. Interpretation of Agreement. If any provision of this Agreement or application thereof to anyone under any circumstances is adjudicated to be invalid or unenforceable in any jurisdiction, such invalidity or unenforceability shall not affect any other provision or application of this Agreement which can be given effect without the invalid or unenforceable provision or application and shall not invalidate or render unenforceable such provision or application in any other jurisdiction.
- f. Choice of Law and Forum. This Agreement shall be governed by the substantive law of the state of New Jersey without regard to its conflict of law rules.
- g. Arbitration. Any controversy, dispute, or claim arising out of or relating to this Agreement or an alleged breach thereof, as well as Executive's employment or the termination thereof, shall be settled by confidential and binding arbitration before JAMS. If such controversy, dispute or claim between the parties cannot first be resolved by informal meetings and discussions, the dispute shall be settled by the Employment Arbitration Rules and Procedures of JAMS then in effect, and a corresponding award and judgment may be entered in a court of competent jurisdiction. The arbitration may be initiated by one party by sending a demand for arbitration to the other party, which demand will preclude any party hereto from initiating an action in any court, except as otherwise provided by law. Executive and the Company will equally share the JAMS administrative fees and the arbitrator's fees and expenses, and Executive and the Company will pay their

own attorneys' fees, except as otherwise provided by law. Any such arbitration proceedings shall be confidential and closed to the public. Neither party shall disclose the existence, content, testimony, evidence, or results of the arbitration (the "Confidential Arbitration Information"), except as necessary to comply with legal, statutory, or regulatory requirements. Executive and the Company likewise agree to take all steps necessary to protect the confidentiality of the arbitration proceeding in connection with any related court proceeding, including taking all necessary steps to facilitate the entry of an appropriate protective order that requires all Confidential Arbitration Information to be filed under seal in any such proceeding, to the extent permissible by law.

The Company and Executive have carefully read and understand all of the provisions of this Agreement. They enter into this Agreement freely, knowingly, and voluntarily. In entering into this Agreement, neither the Company nor Executive is relying upon any representations or promises not expressly set forth in this Agreement. Intending to be legally bound to this Agreement, the Company's representative and Executive sign their names below.

Executive is not permitted to sign this Agreement until February 2, 2022. If Executive signs this Agreement on or before February 2, 2022, it will be disregarded and will need to be re-signed. None of the consideration described in this Agreement will be provided to the Executive unless the Agreement is properly executed.

**AMENDMENT THREE
TO THE
PENSION PLAN FOR EMPLOYEES OF
AMERICAN WATER WORKS COMPANY, INC.
AND ITS DESIGNATED SUBSIDIARIES
(As Amended and Restated Effective January 1, 2016)**

WHEREAS, American Water Works Company, Inc. (the "Company") sponsors the Pension Plan For Employees of American Water Works Company, Inc. And Its Designated Subsidiaries (the "Plan") and its corresponding trust for the benefit of its eligible employees; and

WHEREAS, Section 16.1 of the Plan authorizes the Benefits Administration Committee of American Water Works Company, Inc. and Its Designated Beneficiaries (the "Committee") to amend the Plan for amendments that do not have a material cost; and

WHEREAS, the Committee desires to amend the Plan, to change the age for the required beginning date from age 70-1/2 to age 72, effective as of January 1, 2020.

WHEREAS, this "Amendment" shall supersede the provisions of the Plan to the extent those provisions are inconsistent with the provisions of this Amendment.

NOW THEREFORE, BE IT RESOLVED, that by virtue of the authority reserved to the Committee under Section 16.1 of the Plan, the Plan is hereby amended as follows:

1. Section 6.6(e)(iv) of the Plan is amended to read as follows:

"(iv) Required Beginning Date. April 1 of the calendar year following the year in which a Participant reaches age 70½ (age 72 for distributions required to be made after December 31, 2019 with respect to a Participant who attains age 70-1/2 after such date). The monthly pension of a Participant whose Required Beginning Date is April 1 of the calendar year in which he or she incurs a separation from service shall include an Actuarial Equivalent adjustment to reflect the commencement of payments after April 1 following the calendar year in which he or she attained age 70-1/2. The Actuarial Equivalent adjustment described in the preceding sentence for any year shall reduce (but not below zero) any increase in the Participant's Accrued Benefit for the year attributable to additional Years of Service for benefit accrual and Final Average Earnings."

IN WITNESS WHEREOF, this Amendment has been executed this 2nd day of August, 2021.

BENEFITS ADMINISTRATION COMMITTEE OF
AMERICAN WATER WORKS COMPANY,
INC. AND ITS DESIGNATED
SUBSIDIARIES

By: /s/ NICHOLL SALAMONE
Nicholl Salamone

Title: VP, Compensation & Benefits

**AMENDMENT 2021-1
TO THE
PENSION PLAN FOR EMPLOYEES OF
AMERICAN WATER WORKS COMPANY, INC.
AND ITS DESIGNATED SUBSIDIARIES**

WHEREAS, American Water Works Company, Inc. (the "Company") sponsors the Pension Plan For Employees of American Water Works Company, Inc. and its Designated Subsidiaries (the "Plan") and its corresponding trust for the benefit of eligible employees;

WHEREAS, Section 16.1 of the Plan authorizes the Benefits Administration Committee of American Water Works Company, Inc. and Its Designated Beneficiaries (the "Committee") to amend the Plan for amendments that do not have a material cost;

WHEREAS, pursuant to the Stock Purchase Agreement by and among the Company, New York American Water Company, Inc., and Liberty Utilities Co. (the "Purchaser") dated as of November 20, 2019 (the "Agreement"), the Company agreed to sell New York American Water Company, Inc. and its sole subsidiary, Mt. Ebo Sewage Works, Inc. to Purchaser (the "Transaction");

WHEREAS, the Transaction closed on January 1, 2022 (the "Closing Date");

WHEREAS, the Company desires to (a) freeze benefit accrual effective as of 11:59 pm of the date immediately prior to the Closing Date with respect to Transferring NYAWC Participants (as defined below); (b) transfer the assets and liabilities for the portion of the Plan attributable to these Transferring NYAWC Participants into the defined benefit plan designated by Purchaser as of the Closing Date (the "Pension Transfer"); and (c) remove New York American Water Company, Inc. and its sole subsidiary, Mt. Ebo Sewage Works, Inc. from eligibility to participate under the Plan effective as of the Closing Date; and

WHEREAS, "Transferring NYAWC Participants" shall consist of:

- (a) all participants and former participants in the Plan who, as of the date immediately prior to the Closing Date (1) are actively employed by New York American Water Company, Inc., (2) have terminated employment with, the Company and all members of its controlled group and, immediately before their terminations, were employed by New York American Water Company, Inc., or (3) are other former employees of New York American Water Company, Inc. designated by the Company and the Purchaser to be subject to the Pension Transfer,
- (b) Frank Curtis, but solely with respect to the portion of his benefit under the Plan covered under the John Hancock Group Annuity Contract No. 334, and
- (c) beneficiaries or alternate payees of the foregoing participants and former participants.

NOW THEREFORE, BE IT RESOLVED, the Plan is hereby amended as follows as of 11:59 pm of the date immediately prior to the Closing Date:

1. Article I of the Plan is amended by adding after the third paragraph therein the following new paragraph:

In connection with that certain Stock Purchase Agreement by and among the Company, New York American Water Company, Inc., and Liberty Utilities Co., dated as of November 20, 2019, pursuant to which the Company agreed to sell all of the issued and outstanding stock of New York American Water Company, Inc. to Liberty Utilities Co., the Company transferred all Plan assets and liabilities attributable to the Transferring NYAWC Participants (as defined in Appendix 8) to the defined benefit plan designated by Liberty Utilities Co. and the related trust. This transfer is effective as of January 1, 2022. Special provisions governing Transferring NYAWC Participants are set forth in Appendix 8.

2. The definition of "Accrued Benefit" under Section 2.1(a) of the Plan is amended by adding at the end thereof the following new sentence:

With respect to Transferring NYAWC Participants (as defined in Appendix 8), Accrued Benefits shall be determined with regard to the provisions under Appendix 8.

3. A new Section 3.5 is added to the Plan to read as follows:

Notwithstanding any other provision to the contrary, with respect to Transferring NYAWC Participants (as defined in Appendix 8), eligibility to participate shall be determined with regard to the provisions under Appendix 8.

4. The bullet point in Exhibit A (List of Designated Subsidiaries) that states "New York American Water Company, Inc. (participating only with respect to the component of the company formerly known as Long Island Water Corporation)" shall be deleted.

5. The Plan is amended by adding a new Appendix 8 to read as follows:

**APPENDIX 8
TRANSFERRING NYAWC PARTICIPANTS**

1.1 Application.

The provisions of this Appendix shall apply to Transferring NYAWC Participants. "Transferring NYAWC Participants" include all of following individuals:

- (a) all participants and former participants in the Plan who, as of December 31, 2021, (1) are actively employed by New York American Water Company, Inc., (2) have terminated employment with the Company and all members of its controlled group and, immediately before their terminations, were employed by New York American Water Company, Inc., or (3) are other former employees of New York American Water Company, Inc. designated by the Company and Liberty Utilities Co. to be

subject to the pension transfer described in Section 1.3 of this Appendix 8; and

- (b) Frank Curtis, but solely with respect to the portion of his benefit under the Plan that was covered under the John Hancock Group Annuity Contract No. 334.

For purposes of clarification, the term “Transferring NYAWC Participant” shall also include beneficiaries or alternate payees of the foregoing Participants and former Participants.

1.2 Transferring NYAWC Participant Benefit Freeze.

Effective as of December 31, 2021 at 11:59 pm, with respect to each Transferring NYAWC Participant, Accrued Benefit shall be frozen. For purposes of benefit accrual, Earnings and Continuous Service shall be determined without regard to any period on or after January 1, 2022.

1.3 Transferring NYAWC Participant Post-Freeze Transfer.

Effective as of January 1, 2022, all of the Plan assets and benefit liabilities with respect to Transferring NYAWC Participants shall be transferred to the defined benefit pension plan designated by Liberty Utilities and its related trust. Following the transfer of assets and liabilities taking effect, a Transferring NYAWC Participant shall not be eligible to accrue additional benefits and shall not remain a Participant under the Plan with respect to benefits accrued prior to January 1, 2022, and New York American Water Company, Inc. shall not be a Designated Subsidiary under the Plan.

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, this Amendment has been executed the date set forth below.

CERTIFICATION OF PRINCIPAL EXECUTIVE AND PRINCIPAL FINANCIAL OFFICER

I, M. Susan Hardwick certify that:

1. I have reviewed this annual report on Form 10-K of American Water Works Company, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. I am the registrant's sole certifying officer, and I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. As the registrant's sole certifying officer, I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 5.07. Submission of Matters to a Vote of Security Holders.

The 2023 Annual Meeting of Shareholders (the “2023 Annual Meeting”) of American Water Works Company, Inc., a Delaware corporation (the “Company”), was held on May 10, 2023. An aggregate of 170,112,461 shares, or 87.4% of the Company’s issued and outstanding common stock as of March 17, 2023, the record date for the 2023 Annual Meeting, was represented in person or by proxy at the 2023 Annual Meeting, constituting a quorum. The results of voting at the 2023 Annual Meeting on each of the matters submitted to a vote of the Company’s shareholders thereat is as set forth below.

1. The following ten nominees were elected as directors of the Company for a term expiring at the 2024 Annual Meeting of Shareholders, and until their successors are duly elected and qualified, and received the votes set forth adjacent to their names below:

<u>Director Nominee</u>	<u>For</u>	<u>Against</u>	<u>Abstain</u>	<u>Broker Non-Votes</u>
Jeffrey N. Edwards	148,700,633	5,916,921	117,888	15,377,019
Martha Clark Goss	146,785,266	7,834,084	116,092	15,377,019
M. Susan Hardwick	153,559,117	918,131	258,194	15,377,019
Kimberly J. Harris	148,560,052	6,070,618	104,772	15,377,019
Laurie P. Havanec	153,845,505	635,411	254,526	15,377,019
Julia L. Johnson	147,292,073	7,316,314	127,055	15,377,019
Patricia L. Kampling	149,455,024	5,176,774	103,644	15,377,019
Karl F. Kurz	151,269,097	3,346,778	119,567	15,377,019
Michael L. Marberry	153,415,544	1,056,242	263,656	15,377,019
Admiral James G. Stavridis	143,177,261	11,436,720	121,461	15,377,019

2. The shareholders approved, on an advisory basis, the compensation of the Company’s named executive officers by the following vote:

<u>For</u>	<u>Against</u>	<u>Abstain</u>	<u>Broker Non-Votes</u>
144,753,012	9,575,720	406,710	15,377,019

3. The shareholders approved, on an advisory basis, the frequency of the approval, on an advisory basis, of the compensation of the Company’s named executive officers, by the following vote:

<u>Every Year</u>	<u>Every Two Years</u>	<u>Every Three Years</u>	<u>Abstain</u>	<u>Broker Non-Votes</u>
152,220,671	209,153	2,111,290	194,328	15,377,019

Consistent with the results of this vote, the Company will continue to implement an annual vote, on an advisory basis, of the compensation of the Company’s named executive officers, until the next required vote, on an advisory basis, on the frequency of such votes, which, pursuant to Section 14A(a)(2) of the Securities Exchange Act of 1934, as amended, will occur no later than the Company’s 2029 Annual Meeting of Shareholders.

4. The ratification of the appointment, by the Audit, Finance and Risk Committee of the Board of Directors (the “Board”), of PricewaterhouseCoopers LLP as the Company’s independent registered public accounting firm for 2023, was approved by the following vote:

<u>For</u>	<u>Against</u>	<u>Abstain</u>
155,886,910	14,064,872	160,679

5. The following non-binding shareholder proposal was not approved by the following vote:

<u>Shareholder Proposal</u>	<u>For</u>	<u>Against</u>	<u>Abstain</u>	<u>Broker Non-Votes</u>
Racial Equity Audit	60,550,365	90,744,739	3,440,338	15,377,019

AMERICAN WATER WORKS COMPANY, INC.

Dated: May 8, 2023

By: /s/ JOHN C. GRIFFITH

John C. Griffith

Executive Vice President and Chief Financial Officer

Prepared Remarks to EPA on Proposed PFAS National Primary Drinking Water Regulation Rulemaking, by Lynda B. DiMenna, Chief Environmental and Safety Officer, American Water Works Company, Inc.

My name is Lynda DiMenna, and I am the Chief Environmental and Safety Officer for American Water, the largest publicly traded drinking water and wastewater provider in the U.S.

American Water supports the United States Environmental Protection Agency's (U.S. EPA) efforts to protect public health by proposing national drinking water standards for PFAS. These contaminants are among the multiple challenges the water industry faces regarding water quality, quantity, and reliability. That is why American Water remains committed to being a leader in the U.S. water and wastewater industry and a provider of solutions to these challenges.

While American Water has been anticipating and preparing for the rulemaking, our initial analyses were based on a federal PFAS standard more in line with the limits set by several states. We are now carefully reviewing the U.S. EPA's proposed drinking water regulation to assess the four (4) parts per trillion (ppt) requirements for PFOA and PFOS and the application of the Hazard Index approach for PFNA, PFBS, PFHxS, and GenX chemicals. Our review will inform the written comments that we will submit to the U.S. EPA by May 30.

This review includes the projected costs associated with PFAS treatment at the proposed limits and the impact it could have on customers' bills. Using the data and approach as presented in a recent study conducted by Black & Veatch on behalf of American Water Works Associations, the estimated national cost to install treatment facilities and processes to remove PFOA and PFOS to levels required by EPA's proposal exceeds \$47 billion, which is approximately \$35 billion above what would be required to meet current state established PFAS limits. Further, it will require, on a national basis, more than \$700 million annually for operations and maintenance costs to test and monitor for compliance, which is approximately \$500 million more than what would be required to meet current state-established PFAS limits. These dollar values are significantly higher than EPA's cost estimates.

Based on initial estimates, American Water will likely have more than 100 of our existing drinking water treatment facilities that will need to be upgraded to provide PFAS removal capability, a 3 to 4-fold increase in the number of treatment plants had the most stringent previously established state standards been adopted nationwide. Currently, we estimate an investment in excess of \$1 billion of capital to install additional treatment facilities over a 3 to 5-year period. Additionally, we estimate annual operating expenses related to testing and treatment could be nearly \$50 million in today's dollars. Again, these are preliminary estimates dependent upon multiple factors including the final rule and effective date, as well as our system-by-system engineering analyses.

The implementation timing should also consider the available capacity of engineers, contractors, and suppliers to build the required treatment and the available capacity of vendors to supply ion exchange resin, granular activated carbon, and media reactivation/waste disposal services on an ongoing basis.

American Water calls for sound policies that will ensure compliance by all water utilities – whether privately or municipally owned - while protecting customers and communities from the high cost of monitoring and mitigating PFAS. This includes advocating for policies that hold polluters accountable. American Water's operating utilities in most of our states are currently plaintiffs in the Multi-District Litigation against multiple PFAS manufacturers because we firmly believe that the ultimate responsibility for the cleanup of these contaminants should fall to those who created the problem.

American Water joins other water organizations urging the U.S. EPA, Congress, and other decision-makers to implement policies that will:

- keep harmful PFAS out of our drinking water supplies and our communities;
 - exempt all water and wastewater systems from financial liability for PFAS under CERCLA;
 - ensure all water and wastewater utility providers, regardless of ownership, have equal access to any and all Federal and/or state funding related to treating PFAS; and
 - establish a permanent federally funded water and wastewater low-income customer assistance program.
-

Treating or removing contaminants in the water comes at a cost. To realize the health benefits of such, water utilities must have the financial resources to assure they can sustain the ongoing costs that will arise from constructing, operating, maintaining, and monitoring PFAS treatment systems for the safety and benefit of customers. States should treat these expenditures for regulated utilities as federally mandated requirements that are recoverable in customer rates through expedited means.

In conclusion, providing safe, reliable, and affordable water is American Water's business, and we look forward to working cooperatively and collaboratively with the U.S. EPA, Congress, regulators, and policymakers so that the implementation of these proposed water standards protects customers, communities, and the general public.

Item 8.01. Other Events.

Missouri Public Service Commission (the “MoPSC”) Approval of “Black Box” Settlement in Missouri-American Water Company, Inc. (“Missouri American Water”) General Rate Case

On May 3, 2023, the MoPSC issued an order (the “Order”) approving the March 3, 2023 joint “black box” settlement of the general rate case filed by Missouri American Water, a wholly owned subsidiary of American Water Works Company, Inc. (the “Company”). The Order approves a \$44.3 million annualized increase in water and wastewater revenues, excluding \$50.7 million in previously approved infrastructure surcharges. The new water and wastewater rates are expected to be effective by May 31, 2023. The original filing, made on July 1, 2022, requested a \$105.1 million increase in annualized water and wastewater revenues, excluding \$40.2 million in previously approved infrastructure surcharges. Subsequent to the original filing, Missouri American Water filed an additional request for recovery of defined infrastructure investments, which adjusted the infrastructure surcharges to \$50.7 million, and, in turn, the amount of the incremental annualized revenue in the general rate case decreased to \$94.6 million.

The requested annualized revenue increase was driven primarily by \$770 million of incremental capital investments since the 2021 general rate case. For purposes of the general rate case, Missouri American Water’s view of its rate base is \$2.3 billion, and its view as to its return on equity (“ROE”) and long-term debt ratio (each of which is based on the Order but was not disclosed therein) is 9.75% and 50.0%, respectively, compared to an ROE of 9.55% and long-term debt ratio of 50.0%, each of which was based on Missouri American Water’s view of its 2021 general rate case.

A copy of the press release issued by Missouri American Water on May 3, 2023 to announce the issuance of the MoPSC’s order has been filed as [Exhibit 99.1](#) hereto and is incorporated herein by reference. References and links to websites and other information contained in this press release are not provided as active hyperlinks, and the information contained in or accessed through these hyperlinks shall not be incorporated into, or form a part of, this Current Report on Form 8-K.

Press Release

Missouri Public Service Commission Issues Rate Order Approving Settlement

Rate Review driven by \$770 million in system improvements; settlement includes funding for customer assistance programs

ST. LOUIS, Mo. (May 3, 2023) – On May 3, 2023, the Missouri Public Service Commission (MoPSC) issued an order approving the rate settlement reached by parties in Missouri American Water’s rate review for its water and wastewater operations. The company, the MoPSC Staff, the Office of the Public Counsel, the Midwest Energy Consumers Group, the City of St. Joseph, and Consumer’s Council of Missouri signed on to the settlement. No parties involved in the rate review objected to the settlement.

“We are pleased the Missouri Public Service Commission approved the settlement, which was reached after working diligently with the parties to balance affordability with system investments,” said Rich Svindland, president of Missouri American Water. “The settlement allows us to recover prudent investments in our treatment plants and pipelines that benefit customers by enhancing service, reliability, resiliency and water quality.”

The rate review, which was filed in July 2022, included a request for recovery of nearly \$770 million in water and wastewater system improvements from January 2021 to May 2023.

New rates are expected to take effect by the end of May 2023. Most residential water customers will see an increase of about \$5 to \$7 in their total monthly bill, while most wastewater customers will see an increase ranging from less than \$1 to about \$7 on their monthly bill, depending on the customer’s service area.

The MoPSC also approved customer assistance funding.

“While a water bill is typically one of the lowest utility bills, we understand it’s not the only bill that customers pay,” said Svindland. “We are proud to continue our support for our H2O Help to Others customer assistance program and offer flexible options like installment plans and budget billing, and to help customers facing especially difficult circumstances like rehousing or a critical event.”

Information on customer assistance programs can be found at missouriamwater.com > Customer Service and Billing > Payment Assistance Options. Customers in need are also encouraged to apply for the Low-Income Household Water Assistance Program, which is a temporary federal program that offers grants up to \$750 to help with water and/or wastewater bills.

For more details on the company’s rate review, visit missouriamwater.com > Customer Service and Billing > Water and Wastewater Rates.

Filing of Rate Adjustment Request by West Virginia-American Water Company

On May 1, 2023, West Virginia-American Water Company (“West Virginia American Water”), a subsidiary of American Water Works Company, Inc. (the “Company”), announced that on May 1, 2023, it filed a request with the Public Service Commission of West Virginia (the “WVPSC”) to adjust water and wastewater rates. The request seeks aggregate annualized incremental revenue of \$44.9 million, excluding infrastructure surcharges of \$6.9 million. The request is based on a proposed return on equity of 10.5% and a capital structure with an equity component of 52.8%. If approved by the WVPSC, the new rates would be expected to take effect on February 25, 2024, unless otherwise provided by the WVPSC.

A copy of the press release issued by West Virginia American Water on May 1, 2023, has been filed as [Exhibit 99.1](#) hereto and is incorporated herein by reference. Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K (or the exhibits thereto) are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could,” or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on Form 8-K as a result of the factors discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2022, as filed with the Securities and Exchange Commission (the “SEC”) on February 15, 2023, and other filings with the SEC, and additional risks and uncertainties, including with respect to (1) the terms of any settlement agreement or stipulation, and/or final order of the WVPSC with respect to the above-referenced request; (2) the timing of the implementation of new rates thereunder; (3) regulatory, legislative, local or municipal actions affecting the water and wastewater industries, which could adversely affect the Company or West Virginia American Water; and (4) other economic, financial, political, business and other factors that may impact or affect the water and wastewater industries generally or the Company or West Virginia American Water specifically.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in the Company’s annual and quarterly reports as filed with the SEC, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date of this Current Report on Form 8-K. The Company does not have any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for us to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company’s or West Virginia American Water’s business, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement.

Press Release

West Virginia American Water Submits Rate Request Driven by \$340 Million in Investment; Proposes New Low-Income Tariff for Customers in Need

Charleston, W.Va. (May 1, 2023) – West Virginia American Water filed a rate adjustment request today with the Public Service Commission of West Virginia (PSC) reflecting approximately \$340 million in water and wastewater system investments made from 2020 through February 2025 to continue providing safe and reliable service. The company continues to make needed investments to replace aging infrastructure, comply with water quality and environmental regulations and meet customers' water and wastewater service needs. If approved, new rates reflecting these investments would not go into effect until February 2024.

"This rate request provides for recovery of our investment from 2020 to present and seeks to facilitate future system investments into 2025," said Robert Burton, president of West Virginia American Water. "The rates established in our last request did not recognize more than \$48 million in system investments we had made by the time those rates took effect. Today's filing seeks to remedy this investment recovery delay and to create long-term rate stability for our customers by accounting for the investment occurring throughout our water and wastewater systems."

Recognizing the needs of our most vulnerable customers, the company is proposing a new Low-Income Tariff as part of this filing. This expanded, four-tiered proposal will better tailor rates to different levels of household income. Under this expanded tariff, eligible households would receive monthly bill discounts of between 15 and 65 percent for water and wastewater service. In addition to the proposed tariff, the current Department of Health and Human Resources 20 percent discount program and other customer assistance programs would continue.

"As a company, we believe that the service we provide must be safe, complying with all Environmental Protection Agency regulations and Safe Drinking Water Act standards; reliable, demonstrating resiliency in the face of adverse conditions; and affordable," continued Burton. "With this in mind, we are pleased to expand our low-income options with our proposed tariff that will reduce rates for qualifying customers."

If West Virginia American Water's proposed rates are approved as requested in today's filing, the monthly water bill for the average residential customer using 3,000 gallons per month would increase approximately \$15 per month after factoring in the current Distribution System Improvement Charge (DSIC) currently appearing on customer bills. The average residential wastewater bill of 3,000 gallons would increase approximately \$19 per month. New rates will not take effect until February 2024, following a 300-day statutory review by the PSC.

Press Release

The PSC's rate review process offers multiple opportunities for customer involvement. Customers can participate through written comments, attendance at public hearings, and consumer advocacy organizations that participate in the proceedings. For more information on the company's rate proposal and to find out what actions customers may take, visit westvirginiaamwater.com and select "Your Water and Wastewater Rates" under the Customer Service menu.

About West Virginia American Water:

West Virginia American Water, a subsidiary of American Water (NYSE: AWK), is the largest investor-owned water utility in the state, providing high-quality and reliable water services to approximately 587,000 people.

About American Water:

With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs more than 6,500 dedicated professionals who provide regulated and regulated-like drinking water and wastewater services to more than 14 million people in 24 states. American Water provides safe, clean, affordable and reliable water services to our customers to help keep their lives flowing.

AMERICAN WATER REPORTS STRONG FIRST QUARTER 2023 RESULTS AFFIRMS 2023 GUIDANCE AND LONG-TERM TARGETS

- First quarter 2023 earnings of \$0.91 per share, compared to \$0.87 per share in 2022
- 2023 earnings per share guidance range of \$4.72 to \$4.82 affirmed, long-term targets also affirmed
- Invested \$538 million in the first three months of the year; total capital plan on track to invest approximately \$2.9 billion in 2023
- Sold 12,650,000 shares of common stock on March 3, 2023, for net proceeds of approximately \$1.7 billion
- Announced agreements to purchase the assets related to the wastewater system of Towamencin Municipal Authority in Pennsylvania for a purchase price of \$104 million and the wastewater treatment plant from Granite City in Illinois for a purchase price of \$83 million
- Published the 2022 Environmental, Social and Governance Data Summary and the Inclusion, Diversity & Equity Summary, part of the Company's commitment to data transparency and sharing timely information on key ESG and diversity metrics

CAMDEN, N.J., April 26, 2023 - American Water Works Company, Inc. (NYSE: AWK) today reported results for the quarter ended March 31, 2023, of \$0.91 per share, compared to \$0.87 per share in 2022.

"We're off to a great start to the year," said M. Susan Hardwick, president and CEO of American Water. "Our investments in infrastructure and our success signing new purchase agreements for regulated acquisitions has set the stage well for achieving our expected growth in 2023 and beyond."

"We also successfully executed the 2023 planned equity issuance in March. In total \$1.7 billion was issued, reflecting an upsized offering made possible by very strong demand for our securities. We are very pleased with the interest by investors in the company, both existing and new shareholders. Having the issue completed allows us to be very focused on executing on our plan. With this action and solid first quarter results, we are on track to meet our 2023 objectives," said Hardwick.

2023 EPS Guidance and Long-Term Financial Targets Affirmed

The Company affirms its 2023 earnings per share guidance range of \$4.72 to \$4.82. The Company also affirms its long-term financial targets for the 2023-2027 period announced in Nov. 2022, including its long-term EPS and dividend growth rate targets of 7-9%. The Company's earnings forecasts are subject to numerous risks and uncertainties, including, without limitation, those described under "Cautionary Statement Concerning Forward-Looking Statements" below and under "Risk Factors" in its annual, quarterly, and current reports filed with the Securities and Exchange Commission ("SEC"). All statements related to earnings and earnings per share refer to diluted earnings and earnings per share.

Consolidated Results

For the three months ended March 31, 2023, earnings per share were \$0.91, compared to \$0.87 per share in the same period in 2022. These increases were primarily driven by the implementation of new rates in the Regulated Businesses for the recovery of capital and acquisition investments, offset somewhat by impacts from inflationary pressures on production costs and higher interest costs since mid-2022. Approximately 75% of the estimated impact of inflation on chemicals, power and other fuel, and from higher pension costs and interest rates, are reflected in higher revenues in 2023 from rate cases recently completed.

The Company is on track to meet its capital investment plan for the year with investments of \$538 million in the first three months of 2023, including \$532 million for infrastructure improvements and replacements in the Regulated Businesses. The Company plans to invest a total of approximately \$2.9 billion across its footprint in 2023, including approximately \$0.4 billion for acquisitions. As of March 31, 2023, the Company had \$481 million of acquisitions under agreement, including Pennsylvania American Water's agreement announced in March 2023 to purchase the wastewater system assets of Towamencin Township for \$104 million. In addition, in April 2023, Illinois American Water announced an agreement to purchase the assets of the wastewater treatment plant from Granite City for \$83 million, adding further to the Company's acquisitions under agreement.

Regulated Businesses

In the first quarter of 2023, Regulated Businesses' net income was \$174 million, compared to \$160 million for the same period in 2022.

Operating revenues increased \$82 million for the three months ended March 31, 2023, as compared to 2022. The increase in operating revenues was primarily a result of authorized revenue increases from completed general rate cases and infrastructure proceedings for the recovery of incremental capital and acquisition investments.

To date, the Company has been authorized additional annualized revenues of approximately \$229 million from general rate cases in 2023. Further, approximately \$50 million of additional annualized revenues from infrastructure surcharges have been authorized and are effective in 2023. The Company has general rate cases in progress in three jurisdictions, and has filed for infrastructure surcharges in two jurisdictions, reflecting a total annualized revenue request of approximately \$144 million.

Operation and maintenance ("O&M") expenses were higher by \$15 million for the three months ended March 31, 2023, as compared to 2022, primarily due to increases in production costs from inflationary pressures that began to accelerate in mid-2022. Depreciation expense was higher by \$14 million in the same period due to the growing capital investment. Also, interest expense was higher by \$17 million due to additional long-term debt and higher rates on short-term debt.

For the 12-month period ended March 31, 2023, the Company's adjusted regulated O&M efficiency ratio (a non-GAAP financial measure) was 33.6%, compared to 33.9% for the 12-month period ended March 31, 2022. The ratio reflects an increase in operating revenues for the Regulated Businesses, after considering the adjustment for the amortization of the excess accumulated deferred income taxes ("EADIT") shown in the table below, as well as the continued focus on operating costs.

Dividends

On March 1, 2023, the Company paid a quarterly cash dividend of \$0.6550 per share to shareholders of record as of February 7, 2023.

On April 26, 2023, the Company's Board of Directors declared a quarterly cash dividend payment of \$0.7075 per share of common stock, an 8.0% increase over the prior quarterly dividend, payable on June 1, 2023, to shareholders of record as of May 9, 2023.

2023 First Quarter Earnings Conference Call

The conference call to discuss first quarter 2023 earnings will take place on Thursday, April 27, 2023, at 9 a.m. Eastern Daylight Time. Interested parties may listen to an audio webcast through a link on the Company's Investor Relations website at ir.amwater.com. Presentation slides that will be used in conjunction with the earnings conference call will also be made available online in advance at ir.amwater.com. The Company recognizes its website as a key channel of distribution to reach public investors and as a means of disclosing material non-public information to comply with its obligations under SEC Regulation FD.

Following the earnings conference call, a replay of the audio webcast will be available for one year on American Water's investor relations website at ir.amwater.com/events.

Non-GAAP Financial Measures

This press release includes a presentation of adjusted regulated O&M efficiency ratio, a “non-GAAP financial measure” under SEC rules, which excludes from its calculation estimated purchased water revenues and purchased water expenses, reductions for the amortization of EADIT, and the allocable portion of non-O&M support services costs, mainly depreciation and general taxes. These items were excluded from the O&M efficiency ratio calculation as they do not reflect management’s ability to increase the efficiency of the Regulated Businesses. This item is derived from American Water’s consolidated financial information but is not presented in its financial statements prepared in accordance with GAAP. This non-GAAP financial measure supplements and should be read in conjunction with the Company’s GAAP disclosures and should be considered as an addition to, and not a substitute for, any GAAP measure.

Management evaluates its operating performance using this ratio and believes that this non-GAAP financial measure is useful to the Company’s investors because it directly measures improvement in the operating performance and efficiency of the Company’s Regulated Businesses. The Company’s adjusted regulated O&M efficiency ratio (i) is not an accounting measure that is based on GAAP; (ii) is not based on a standard, objective industry definition or method of calculation; (iii) may not be comparable to other companies’ operating measures; and (iv) should not be used in place of the GAAP information provided elsewhere in this press release.

Set forth in this release is a table that calculates the Company’s adjusted regulated O&M efficiency ratio and reconciles each of the components used to calculate this ratio to the most directly comparable GAAP financial measure.

About American Water

With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly-traded water and wastewater utility company. The Company employs approximately 6,500 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to over 14 million people in 24 states. More information can be found by visiting amwater.com and follow American Water on Twitter, Facebook and LinkedIn.

Throughout this press release, unless the context otherwise requires, references to the “Company” and “American Water” mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements in this press release including, without limitation, 2023 earnings guidance, the Company’s long-term financial, growth and dividend targets, future capital needs, the ability to achieve the Company’s strategies and goals, including with respect to its ESG focus, the outcome of the Company’s pending acquisition activity, the amount and allocation of projected capital expenditures, and estimated revenues from rate cases and other government agency authorizations, are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “likely,” “uncertain,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could” and or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on American Water’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this press release as a result of the factors discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2022, and subsequent filings with the SEC, and because of factors such as: the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates; the timeliness and outcome of regulatory commissions’ and other authorities’ actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions; changes in customer demand for, and patterns of use of, water and energy, such as may result from conservation efforts, or otherwise; a loss of one or more large industrial or commercial customers due to adverse economic conditions, or other factors; limitations on the availability of the Company’s water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors; changes in laws, governmental regulations and policies, including with respect to the environment, health and safety, data and consumer privacy, security and protection, water quality and water quality accountability, contaminants of emerging concern, public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations; the Company’s ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulation and policies with respect to data and consumer privacy, security and protection; weather conditions and events, climate variability patterns,

and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares; the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions; the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of, or maintain and replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses; exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means; the Company's ability to obtain permits and other approvals for projects and construction of various water and wastewater facilities; changes in the Company's capital requirements; the Company's ability to control operating expenses and to achieve operating efficiencies; the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers; the Company's ability to obtain and have delivered adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, power and other fuel, water and other raw materials and to address or mitigate supply chain constraints that may result in delays or shortages in, as well as increased costs of, supplies, products and materials that are critical to or used in the Company's business operations; the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to acquiring, closing and successfully integrating regulated operations, the Company's Military Services Group entering into new military installation contracts, price redeterminations and other agreements and contracts with the U.S. government, and realizing anticipated benefits and synergies from new acquisitions; risks and uncertainties following the completion of the sale of the Company's former Homeowner Services Group ("HOS"), including the Company's ability to receive contingent consideration provided for in the HOS sale as well as amounts due, payable and owing to the Company under the seller note when due, and the ability of the Company to redeploy successfully and timely the net proceeds of this transaction into the Company's Regulated Businesses; risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement and security regulations; cost overruns relating to improvements in or the expansion of the Company's operations; the Company's ability to successfully develop and implement new technologies and to protect related intellectual property; the Company's ability to maintain safe work sites; the Company's exposure to liabilities related to environmental laws and similar matters resulting from, among other things, water and wastewater service provided to customers; the ability of energy providers, state governments and other third parties to achieve or fulfill their greenhouse gas emission reduction goals, including without limitation through state renewable portfolio standards and carbon transition plans; changes in general economic, political, business and financial market conditions; access to sufficient debt and/or equity capital on satisfactory terms and as needed to support operations and capital expenditures; fluctuations in inflation or interest rates and the Company's ability to address or mitigate the impacts thereof; the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks or other communications by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions; fluctuations in the value of, or assumptions and estimates related to, its benefit plan assets and liabilities, including with respect to its pension and other post-retirement benefit plans, that could increase expenses and plan funding requirements; changes in federal or state general, income and other tax laws, including (i) future significant tax legislation or regulations; and (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs; migration of customers into or out of the Company's service territories and changes in water and energy consumption resulting therefrom; the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, or the assertion by private landowners of similar rights against such utility subsidiaries; any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained; the incurrence of impairment charges, changes in fair value and other adjustments related to the Company's goodwill or the value of its other assets; labor actions, including work stoppages and strikes; the Company's ability to retain and attract highly qualified and skilled employees and/or diverse talent; civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in American Water's annual, quarterly and other SEC filings, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements American Water makes speak only as of the date of this press release. American Water does not have or undertake any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or

combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Item 8.01. Other Events.

Filing of General Rate Case by Indiana-American Water Company

On March 31, 2023, Indiana-American Water Company (“Indiana American Water”), a wholly owned subsidiary of American Water Works Company, Inc. (the “Company”), announced that on March 31, 2023, it filed a petition with the Indiana Utility Regulatory Commission (the “IURC”) requesting an adjustment to its water and wastewater rates. The petition seeks aggregate annualized incremental revenue of \$86.7 million, which would include three step increases, with \$43.2 million of the increase to be included in rates in January 2024, \$18.1 million in May 2024, and \$25.4 million in May 2025. The requested adjustment is based on a proposed return on equity of 10.6% and a capital structure with an equity component of 56.2%. For purposes of determining proposed rates, the requested adjustment is based on an equity component of 48.2% due to the regulatory practice in Indiana of including certain zero cost items or tax credit balances in the capital structure calculation. The petition is subject to approval by the IURC, and the general rate case is expected to be completed by the end of January 2024.

A copy of the press release issued by Indiana American Water on March 31, 2023, has been filed as [Exhibit 99.1](#) hereto and is incorporated herein by reference. References and links to websites and other information contained in this press release are not provided as active hyperlinks, and the information contained in or accessed through these hyperlinks shall not be incorporated into, or form a part of, this Current Report on Form 8-K.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K (or the exhibits thereto) are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could,” or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on Form 8-K as a result of the factors discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2022, as filed with the Securities and Exchange Commission (the “SEC”) on February 15, 2023, and other filings with the SEC, and additional risks and uncertainties, including with respect to (1) the terms of any settlement agreement or stipulation, and/or final order of the IURC, with respect to the above-referenced general rate case; (2) the timing of the implementation of new rates under the general rate case; (3) regulatory, legislative, local or municipal actions affecting the water and wastewater industries, which could adversely affect the Company and/or Indiana American Water; and (4) other economic, financial, political, business and other factors that may impact or affect the water and wastewater industries generally, or the Company or Indiana American Water specifically.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in the Company’s annual and quarterly reports as filed with the SEC, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date of this Current Report on Form 8-K. The Company does not have any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for us to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company’s or Indiana American Water’s business, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement.

News Release

For Immediate Release

Indiana American Water Files Rate Request Driven by \$875 Million in Investment

Request reinforces company's commitment to providing safe,
reliable and affordable water and wastewater service

GREENWOOD, Ind. (March 31, 2023) – Indiana American Water filed a rate adjustment request today with the Indiana Utility Regulatory Commission (IURC) reflecting \$875 million in water and wastewater system investments to be made through 2025 to continue providing safe and reliable service as well as a significant increase in the cost of procuring chemicals, goods and services.

“Indiana American Water has made significant investments in aging infrastructure and its treatment and distribution facilities to ensure service reliability, water quality, and fire protection capabilities that help protect customers and the communities we serve,” said Indiana American Water President Matt Prine. “We also remain steadfastly committed to addressing the needs of our most vulnerable customers and have included components in our request to keep their rates affordable.”

In today's filing, Indiana American Water is seeking to increase revenues over a phased, three step process through May 2025 that would result in \$86.7 million of additional annual revenue when fully implemented. If the company's proposed rates are approved as requested, the bill for a typical residential customer using 4,000 gallons per month would increase approximately \$14 per month when rates are fully implemented in 2025. The company last filed for new rates through a general rate filing in September 2018 and last implemented new rates in 2019.

The increases for residential wastewater customers will vary depending on the community served. Additional information on current rates is available on the company's website at <https://www.amwater.com/inaw/customer-service-billing/your-water-rates>.

News Release

The logo for Indiana American Water features a blue star above the text "INDIANA AMERICAN WATER" in a serif font. The word "INDIANA" is in blue, and "AMERICAN WATER" is in red.

Results of a customer affordability study conducted as part of the filing demonstrate that the affordability of the company's water and wastewater services as a comparison of monthly bills to monthly household income has steadily improved over the past decade and will remain affordable under the company's proposed rates.

Recognizing that affordability may still be an issue for some customers, the company is proposing a new rate design that provides 1,500 gallons of water usage at no additional cost above the fixed monthly customer charge for all water customers. The proposed change would provide relatively low-cost basic water service for customers on fixed incomes that use a lower volume of water than the typical residential customer.

The filing also includes a proposed Universal Affordability Tariff to provide multiple tiers of discounts to address the affordability needs of different levels of household income. Under the new rate structure, eligible households would receive monthly bill discounts of between 30 and 80 percent for water service.

The IURC's rate review process offers multiple opportunities for customer involvement. Customers can participate through written comments, attendance at public input hearings, and consumer advocacy organizations that participate in the proceedings. For more information on the company's rate proposal and to find out what actions customers may take, visit us online at <https://www.amwater.com/inaw/customer-service-billing/your-water-rates>.

For customers facing a financial hardship, Indiana American Water offers payment plans and budget billing. Indiana American Water also provides information to customers about the Low-Income Household Water Assistance Plan (LIHWAP). More information can be found by clicking on the Low Income Program link under the Customer Service & Billing heading on the company's website or by clicking [here](#). For tips on how to reduce your water bill by conserving water, visit our [Wise Water Use](#) page at <https://www.amwater.com/inaw/Water-Wastewater-Information/wise-water-use>.

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 7.01. Regulation FD Disclosure.

On March 24, 2023, Pennsylvania-American Water Company (“Pennsylvania American Water”), a subsidiary of American Water Works Company, Inc. (the “Company”), issued a press release announcing that Pennsylvania American Water has agreed to assume all of the obligations of NextEra Water Pennsylvania, LLC (“NEWPA”), an indirect, wholly owned subsidiary of NextEra Energy, Inc., under that certain Asset Purchase Agreement, dated June 14, 2022, as amended on March 23, 2023 (the “Asset Purchase Agreement”), by and among NEWPA, the Towamencin Municipal Authority (the “Authority”) and the Township of Towamencin (the “Township”), to acquire all of the assets related to the Township’s wastewater system (the “System”).

A copy of the press release has been included as [Exhibit 99.1](#) to this Current Report on Form 8-K and is incorporated by reference in response to this Item 7.01. The information furnished in response to this Item 7.01, including [Exhibit 99.1](#), shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), nor shall such information be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended (the “Securities Act”), or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Item 8.01. Other Events.

On March 23, 2023, NEWPA has agreed to irrevocably sell and assign to Pennsylvania American Water, and Pennsylvania American Water has agreed to assume from NEWPA, all of NEWPA’s right, title and interest in and to the Asset Purchase Agreement. The sale, assignment and assumption will take effect upon the return to NEWPA of its \$10 million escrowed cash deposit, which return is expected to be completed on March 24, 2023. Once the sale, assignment and assumption are effective, and pursuant to the terms of the Asset Purchase Agreement, Pennsylvania American Water will be required to purchase substantially all of the System’s wastewater assets owned by the Authority for an aggregate purchase price of \$104 million, subject to adjustment as provided in the Asset Purchase Agreement. The Authority currently provides wastewater services to approximately 6,300 customer connections in seven townships, including the Township, located in Montgomery County, Pennsylvania.

Pennsylvania American Water is seeking to close its purchase of the System by mid-year 2024, subject to obtaining the required prior approval of the Pennsylvania Public Utility Commission (the “PaPUC”). The Asset Purchase Agreement provides for customary representations, warranties, covenants and conditions. Either the seller or Pennsylvania American Water may terminate the Asset Purchase Agreement if the closing of the System purchase does not occur by the “outside date” of 365 days after the later of (i) the date that an application with the PaPUC to approve the System purchase is filed and accepted as complete by the PaPUC and (ii) the date that the statutory six-month period for PaPUC final action has been initiated. The outside date may be extended (i) by Pennsylvania American Water in its sole discretion once by up to 90 days to obtain a required governmental approval, or (ii) to a date that is 60 days following the non-appealable resolution of any pending or threatened litigation (including without limitation proceedings before the PaPUC) seeking to (a) prevent the consummation of the System purchase or (b) frustrate a material term in the Asset Purchase Agreement. In addition, either the seller or Pennsylvania American Water may terminate the Asset Purchase Agreement without penalty to either party if a governmental authority with jurisdiction and authority over the System purchase has issued an order or decree or taken any other action, which order, decree or other action has become final and non-appealable, permanently enjoining, restraining or otherwise prohibiting the purchase of the System by Pennsylvania American Water.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K are forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “likely,” “uncertain,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “should,” “will” and “could,” or the negative of such terms or other variations or similar expressions. Forward-looking statements relate to, among other things, the ability to complete the closing of the System purchase and the anticipated closing date; the ability of the parties to satisfy closing and other conditions related to the System purchase; the filing, existence or result of any litigation or other legal challenges or actions that may seek to delay, prevent or prohibit the consummation of the transactions contemplated by the Asset Purchase Agreement or to frustrate a material term therein; and the ability of the parties to obtain required regulatory and other approvals and consents. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on

Form 8-K as a result of the factors discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, as filed with the Securities and Exchange Commission (the "SEC") on February 15, 2023, and other filings with the SEC, and additional risks and uncertainties, including with respect to (1) obtaining the regulatory and other approvals and consents required to complete the System purchase by Pennsylvania American Water, including without limitation the prior approval of the PaPUC; (2) satisfying other conditions to the closing of the System purchase by Pennsylvania American Water; (3) the outcome of any litigation or other challenges or actions that may be filed, threatened, asserted or taken seeking to delay, prevent or prohibit the closing of the transactions contemplated by the Asset Purchase Agreement or to frustrate a material term therein; (4) the occurrence of benefits and synergies expected or predicted to occur as a result of the completion of the System purchase by Pennsylvania American Water; (5) unexpected costs, liabilities or delays associated with the System purchase or the integration of the System within Pennsylvania American Water's operations; (6) regulatory, legislative, local or municipal actions affecting the water and wastewater industries, which could adversely affect the Company and Pennsylvania American Water; and (7) other economic, business and other factors.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in the Company's annual and quarterly reports as filed with the SEC, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date of this Current Report on Form 8-K. The Company does not have any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for us to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's or Pennsylvania American Water's business, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Press Release

Pennsylvania American Water Announces Agreement to Assume Towamencin Acquisition Agreement

Mechanicsburg, Pa., (March 24, 2023) – Pennsylvania American Water announced today its agreement to assume the obligations with respect to an agreement to purchase all the assets related to the wastewater system of the Towamencin Municipal Authority.

Pennsylvania American Water already provides reliable water and wastewater services to approximately 2.4 million people in the Commonwealth.

“As the Commonwealth’s largest water and wastewater provider, we have a proven history of working collaboratively with local partners to deliver the best long-term solution for their water and wastewater utility services,” said Pennsylvania American Water President Justin Ladner. “We are well positioned to leverage our resources and expertise to address the needs of this community and look forward to welcoming new customers into a region we have long served.”

The Towamencin Municipal Authority serves more than 6,300 wastewater customers.

Chuck Wilson, chairman of the Towamencin Township board of supervisors, voiced support for the agreement: “We are very pleased that Pennsylvania American Water will be our new wastewater partner. They are widely regarded for their operation of wastewater systems, customer service, and environmental stewardship.”

Pennsylvania American Water will seek all necessary approvals from its regulators and expects to close the transaction by mid-year 2024. The company’s rates are set by the Pennsylvania Public Utility Commission (PUC), and any future rate changes would have to be reviewed and approved by the PUC.

About Pennsylvania American Water

2. The Company represents and warrants to, and agrees with, each of the Underwriters that:

(a) An “automatic shelf registration statement” as defined under Rule 405 under the Securities Act of 1933, as amended (the “**Act**”), on Form S-3 (File No. 333-253484) in respect of the Shares has been filed with the Securities and Exchange Commission (the “**Commission**”) not earlier than three years prior to the date hereof; such registration statement, and any post-effective amendment thereto, each in a form heretofore delivered to the Representatives, became effective on filing; and no stop

order suspending the effectiveness of such registration statement or any part thereof has been issued and, to the Commission, no proceeding for that purpose has been initiated or threatened by the Commission, and no notice of objection of the Commission to the use of such registration statement or any post-effective amendment thereto pursuant to Rule 401(g)(2) under the Act has been received by the Company (the base prospectus filed as part of such registration statement, in the form in which it has most recently been filed with the Commission on or prior to the date of this Agreement, is hereinafter called the “**Basic Prospectus**”; any preliminary prospectus (including any preliminary prospectus supplement) relating to the Shares filed with the Commission pursuant to Rule 424(b) under the Act is hereinafter called a “**Preliminary Prospectus**”; the various parts of such registration statement, including all exhibits thereto but excluding the Form T-1 and including any prospectus supplement relating to the Shares that is filed with the Commission and deemed by virtue of Rule 430B to be part of such registration statement, each as amended at the time such part of the registration statement became effective, are hereinafter collectively called the “**Registration Statement**”; the Basic Prospectus, as amended and supplemented immediately prior to the Applicable Time (as defined in Section 2(c) hereof), is hereinafter called the “**Pricing Prospectus**”; the final prospectus relating to the Shares filed with the Commission pursuant to Rule 424(b) under the Act in accordance with Section 6(a) hereof is hereinafter called the “**Prospectus**”; any reference herein to the Basic Prospectus, the Pricing Prospectus, any Preliminary Prospectus or the Prospectus shall be deemed to refer to and include the documents incorporated by reference therein pursuant to Item 12 of Form S-3 under the Act as of the date of such prospectus; any reference to any amendment or supplement to the Basic Prospectus, any Preliminary Prospectus or the Prospectus shall be deemed to refer to and include any post-effective amendment to the Registration Statement, any prospectus supplement relating to the Shares filed with the Commission pursuant to Rule 424(b) under the Act and any documents filed under the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”), and incorporated therein, in each case after the date of the Basic Prospectus, such Preliminary Prospectus, or the Prospectus, as the case may be; any reference to any amendment to the Registration Statement shall be deemed to refer to and include any annual report of the Company filed pursuant to Section 13(a) or 15(d) of the Exchange Act after the effective date of the Registration Statement that is incorporated by reference in the Registration Statement; and any “issuer free writing prospectus” as defined in Rule 433 under the Act relating to the Shares is hereinafter called an “**Issuer Free Writing Prospectus**”;

(b) No order preventing or suspending the use of any Preliminary Prospectus or any Issuer Free Writing Prospectus has been issued by the Commission. Each Preliminary Prospectus, at the time of filing thereof, conformed in all material respects to the requirements of the Act, and the rules and regulations of the Commission thereunder, and did not contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; *provided, however*, that this representation and warranty shall not apply to any statements or omissions made in reliance upon and in conformity with information furnished in writing to the Company by the Representatives expressly for use therein (the “**Underwriter Information**”);

(c) For the purposes of this Agreement, the “**Applicable Time**” is 7:45 p.m., New York City time, on the date of the Agreement. The Pricing Prospectus, when considered together with the information on Schedule IV hereto (collectively, the “**Pricing Disclosure Package**”), as of the Applicable Time, did not include any untrue statement of a material fact or omit to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading; and each Issuer Free Writing Prospectus listed on Schedule II hereto does not conflict with the information contained in the Registration Statement, the Pricing Prospectus or the Prospectus and each such Issuer Free Writing Prospectus, taken together with the Pricing Disclosure Package as of the Applicable Time, did not include any untrue statement of a material fact or omit to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading; *provided, however*, that the representations and warranties in this clause (c) shall not apply to statements or omissions made in an Issuer Free Writing Prospectus in reliance upon and in conformity with the Underwriter Information;

(d) The documents incorporated by reference in the Pricing Prospectus and the Prospectus, when they became effective or were filed with the Commission, as the case may be, conformed in all material respects to the requirements of the Act or the Exchange Act, as applicable, and the rules and regulations of the Commission thereunder, and none of such documents contained an untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary to make the statements therein not misleading; any further documents so filed and incorporated by reference in the Prospectus or any further amendment or supplement thereto, when such documents become effective or are filed with the Commission, as the case may be, will conform in all material respects to the requirements of the Act or the Exchange Act, as applicable, and the rules and regulations of the Commission thereunder and will not contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading; *provided, however*, that this representation and warranty shall not apply to any statements or omissions made in reliance upon and in conformity with the Underwriter Information;

(e) The interactive data in eXtensible Business Reporting Language filed as exhibits to the reports included or incorporated by reference in the Registration Statement, the Pricing Disclosure Package and the Prospectus fairly presents the information called for in all material respects and has been prepared in accordance with the Commission’s rules and guidelines applicable thereto;

(f) (i) The Registration Statement conforms, and the Prospectus and any further amendments or supplements to the Registration Statement and the Prospectus will conform, in all material respects to the requirements of the Act and the rules and regulations of the Commission thereunder and (ii) the Registration Statement and the Prospectus and any further amendments or supplements to the Registration Statement and the Prospectus do not and will not, as of the applicable effective date as to each part of the Registration Statement and as of the applicable filing date as to the Prospectus and any amendment or supplement thereto, contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading; *provided, however*, that this representation and warranty shall not apply to any statements or omissions made in reliance upon and in conformity with the Underwriter Information;

(g) The financial statements (including the related notes thereto) of the Company and its consolidated subsidiaries included or incorporated by reference in the Registration Statement, the Pricing Disclosure Package and the Prospectus comply in all material respects with the applicable requirements of the Act and the Exchange Act, as applicable, and present fairly the financial condition of the Company and its consolidated subsidiaries as of the dates indicated and the results of their operations and the changes in their cash flows for the periods specified; such financial statements have been prepared in conformity with generally accepted accounting principles (“GAAP”) in the United States applied on a consistent basis throughout the periods covered thereby, and any supporting schedules included or incorporated by reference in the Registration Statement present fairly the information required to be stated therein; the other financial information included or incorporated by reference in the Registration Statement, the Pricing Disclosure Package and the Prospectus has been derived from the accounting records of the Company and its consolidated subsidiaries and presents fairly the information shown thereby; and all disclosures included or incorporated by reference in the Registration Statement, the Pricing Disclosure Package and the Prospectus regarding “non-GAAP financial measures” (as such term is defined by the rules and regulations of Commission) comply in all material respects with Item 10(e) of Regulation S-K under the Act and the Exchange Act, to the extent applicable;

(h) (i) Since the date of the latest audited financial statements included or incorporated by reference in the Pricing Prospectus, (A) none of the Company or any of its subsidiaries has sustained any loss or interference with its business from fire, explosion, flood or other calamity, whether or not covered by insurance, or from any court or governmental action, order or decree, otherwise than as set forth or contemplated in the Pricing Prospectus, and which could reasonably be expected to, in each case, individually or in the aggregate, have a material adverse effect on the financial condition, stockholders’ equity, properties or results of operations of the Company and its subsidiaries, taken as a whole (a “**Material Adverse Effect**”); and (B) no labor dispute with the employees of the Company or any its subsidiaries exists or, to the knowledge of the Company, is imminent, which could reasonably be expected to result in a Material Adverse Effect; and (ii) since the respective dates as of which information is given in the Registration Statement and the Pricing Prospectus, otherwise than as set forth or contemplated in the Pricing Prospectus, there has not been (A) any material decrease in the number of shares of outstanding capital stock of the Company or increase in consolidated long-term debt of the Company and its consolidated subsidiaries, or (B) any change, or any development involving a prospective change, in or affecting the general affairs, management, financial condition, stockholders’ equity or results of operations of the Company and its subsidiaries, otherwise than as set forth or contemplated in the Pricing Prospectus, that could reasonably be expected to have a Material Adverse Effect;

(i) The Company and each of its subsidiaries has good and sufficient title to all real property and personal property owned by them sufficient for the conduct of their respective businesses, in each case free and clear of all liens, encumbrances and defects except such as are described in the Pricing Prospectus or such as do not affect the value of such property and do not interfere with the use made and proposed to be made of such property by the Company and each of its subsidiaries except, in each case, as would not, individually or in the aggregate, have a Material Adverse Effect; and any real property and buildings held under lease by the Company and each of its subsidiaries are held by them under valid, subsisting and enforceable leases with such exceptions as are not material and do not interfere with the use made and proposed to be made of such property and buildings by the Company and each of its subsidiaries, otherwise than as set forth or contemplated in the Pricing Prospectus or as would not, individually or in the aggregate, have a Material Adverse Effect;

(j) The Company has been duly incorporated and is validly existing as a corporation in good standing under the laws of Delaware, with power and authority (corporate and other) to own its properties and conduct its business as described in the Pricing Prospectus, and has been duly qualified as a foreign corporation for the transaction of business and is in good standing under the laws of each other jurisdiction in which it owns or leases properties or conducts any business so as to require such qualification, except where the failure to be so qualified or in good standing would not, individually or in the aggregate, have a Material Adverse Effect; and each subsidiary of the Company listed on Schedule III hereto (each a “**Significant Subsidiary**”) has been duly incorporated and is validly existing as an entity in good standing under the laws of its jurisdiction of incorporation, except where the failure to be in good standing would not, individually or in the aggregate, have a Material Adverse Effect;

(k) All of the issued shares of capital stock of the Company have been duly and validly authorized and issued and are fully paid and non-assessable; and all of the issued shares of capital stock of each Significant Subsidiary have been duly and validly authorized and issued, are fully paid and non-assessable and (except (i) for directors’ qualifying shares, (ii) for 4,515 shares of redeemable preferred stock of Pennsylvania-American Water Company, and (iii) as otherwise set forth in the Pricing Prospectus) are owned directly or indirectly by the Company, free and clear of all liens, encumbrances, equities or claims, except for liens, encumbrances, equities or claims that would not, individually or in the aggregate, have a Material Adverse Effect;

(l) The Company has the corporate power and authority to execute and deliver this Agreement and to perform its obligations hereunder; and all action required to be taken for the due and proper authorization, execution and delivery by it of this Agreement and the consummation by it of the transactions contemplated thereby has been duly and validly taken;

(m) This Agreement has been duly authorized, executed and delivered by the Company; the Shares to be issued and sold by the Company hereunder have been duly authorized and, when issued and delivered and paid for as provided herein, will be duly and validly issued, will be fully paid and nonassessable and will conform to the descriptions thereof in the Registration Statement, the Pricing Disclosure Package and the Prospectus; and the issuance of the Shares is not subject to any preemptive or similar rights;

(n) None of the transactions contemplated by this Agreement (including, without limitation, the use of the proceeds from the sale of the Shares) will violate or result in a violation of Section 7 of the Exchange Act, or any regulation promulgated thereunder, including, without limitation, Regulations T, U, and X of the Board of Governors of the Federal Reserve System;

(o) The issuance, sale and delivery of the Shares and the compliance by the Company with the provisions of this Agreement and the consummation of the transactions herein contemplated (i) will not conflict with or result in a breach or violation of any of the terms or provisions of, or constitute a default under, any indenture, mortgage, deed of trust, loan agreement or other agreement or instrument to which the Company or any of its subsidiaries is a party or by which the Company or any of its subsidiaries is bound or to which any of the property or assets of the Company or any of its subsidiaries is subject, and (ii) will not result in any violation of (A) the provisions of the Restated Certificate of Incorporation or the Amended and Restated Bylaws of the Company or (B) any statute or any order, rule or regulation of any court or governmental agency or body having jurisdiction over the Company or any of its subsidiaries or any of their properties, except in the case of clauses (i) and (ii)(B) for any conflict, breach, violation or default that would not, individually or in the aggregate, have a Material Adverse Effect or impair the ability of the Company to consummate the transactions contemplated by this Agreement; and no consent, approval, authorization, order, registration or qualification of or with any such court or governmental agency or body is required for the issue and sale of the Shares or the consummation by the Company of the transactions contemplated by this Agreement, except (i) the registration under the Act of the Shares, (ii) such consents, approvals, authorizations, orders, registrations or qualifications as may be required under state securities or Blue Sky laws in connection with the purchase and distribution of the Shares by the Underwriters and (iii) such consents, approvals, authorizations, orders, registrations or qualifications that have already been obtained or the failure of which to obtain would not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect or impair the ability of the Company to consummate the transactions contemplated by this Agreement;

(p) None of the Company or any of its subsidiaries is (A) in violation of the Restated Certificate of Incorporation of the Company and Restated Bylaws, in the case of the Company, or similar organizational documents, in the case of the Company's subsidiaries, or (B) in default in the performance or observance of any material obligation, agreement, covenant or condition contained in any indenture, mortgage, deed of trust, loan agreement, lease or other agreement or instrument to which it is a party or to which it or any of its properties is subject, except, in the case of clause (A) (with respect to subsidiaries of the Company other than the Significant Subsidiaries) and clause (B), for violations or defaults that would not, individually or in the aggregate, have a Material Adverse Effect;

(q) The statements set forth in the Pricing Prospectus and Prospectus under the caption "Description of American Water's Capital Stock", insofar as they purport to constitute a summary of the terms of the Shares, under the caption "Underwriting", insofar as they purport to describe the provisions of the documents described therein, and under the caption "Certain United States Federal Income Tax Considerations for Non-U.S. Holders", insofar as they purport to describe the provisions of the laws and documents referred to therein, are accurate, complete and fair in all material respects;

(r) Other than as set forth in the Pricing Prospectus, there are no legal or governmental proceedings pending to which the Company or any of its subsidiaries is a party or of which any property of the Company or any of its subsidiaries is the subject which would reasonably be expected to, individually or in the aggregate, have a Material Adverse Effect; and, to the best of the Company's knowledge, no such proceedings are threatened or contemplated by governmental authorities or threatened by others;

(s) The Company is not and, as a result of and after giving effect to the offering and sale of the Shares and the application of the proceeds thereof, will not be, required to register as an "investment company", as such term is defined in the Investment Company Act of 1940, as amended (the "**Investment Company Act**");

(t) (A) (i) At the time of filing the Registration Statement, (ii) at the time of the most recent amendment thereto for the purposes of complying with Section 10(a)(3) of the Act (whether such amendment was by post-effective amendment, incorporated report filed pursuant to Section 13 or 15(d) of the Exchange Act or form of prospectus), and (iii) at the time the Company or any person acting on the Company's behalf (within the meaning, for this clause only, of Rule 163(c) under the Act) made any offer relating to the Shares in reliance on the exemption of Rule 163 under the Act, the Company was a "well-known seasoned issuer" as defined in Rule 405 under the Act; and (B) at the earliest time after the filing of the Registration Statement that the Company or another offering participant made a bona fide offer (within the meaning of Rule 164(h)(2) under the Act) of the Shares, the Company was not an "ineligible issuer" as defined in Rule 405 under the Act;

(u) PricewaterhouseCoopers LLP, which has certified certain financial statements of the Company and its subsidiaries, is an independent registered public accounting firm with respect to the Company and its subsidiaries as required by the Act and the rules and regulations of the Commission thereunder;

(v) Except as disclosed in the Pricing Prospectus, the Company maintains a system of internal control over financial reporting (such term is defined in Rule 13a-15(f) under the Exchange Act) that complies in all material respects with the requirements of the Exchange Act and has been designed by the Company's principal executive officer and principal financial officer, or under their supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Except as disclosed in the Pricing Prospectus, the Company's internal control over financial reporting is effective and the Company is not aware of any material weaknesses in its internal control over financial reporting;

(w) Except as disclosed in the Pricing Prospectus, since the date of the latest audited financial statements included or incorporated by reference in the Pricing Prospectus, there has been no change in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting;

(x) The Company maintains disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Exchange Act) that comply in all material respects with the requirements of the Exchange Act; such disclosure controls and procedures have been designed to ensure that material information relating to the Company and each of its subsidiaries is made known to the Company's principal executive officer and principal financial officer by others within those entities; and, except as disclosed in the Pricing Prospectus, such disclosure controls and procedures are effective;

(y) The Company and each of its subsidiaries possess all permits, licenses, franchises, authorizations, registrations, qualifications and approvals of governmental or regulatory authorities as required of them to own their properties and conduct their businesses in the manner described in the Pricing Prospectus (collectively, "**Permits**"), except where the failure to possess such Permits would not, individually or in the aggregate, have a Material Adverse Effect; and the Company and each of its subsidiaries have fulfilled and performed all of their obligations with respect to such Permits required to have been performed, and no event has occurred which allows or, after notice or lapse of time or both, would allow revocation or termination thereof or result in any other material impairment of the rights of the holder of any such Permit, except, in each case, as disclosed in the Pricing Prospectus or would not, individually or in the aggregate, have a Material Adverse Effect;

(z) To the Company's knowledge, the Company and each of its subsidiaries own, possess or have the right to employ sufficient patents, patent rights, licenses, inventions, copyrights, know how (including trade secrets and other unpatented and/or unpatentable proprietary or confidential information, software, systems or procedures), trademarks, service marks and trade names, inventions, computer programs, technical data and information (collectively, the "**Intellectual Property Rights**") reasonably necessary to conduct their businesses as now conducted, except where the failure to own, possess or have the right would not, individually or in the

aggregate, have a Material Adverse Effect. None of the Company or any of its subsidiaries has received any notice of infringement or conflict with asserted rights of others with respect to any of the Intellectual Property Rights, whether or not arising from transactions in the ordinary course of business, except for such infringements or conflicts that would not, individually or in the aggregate, have a Material Adverse Effect. To the Company's knowledge, the use of the Intellectual Property Rights in connection with the business and operations of the Company and each of its subsidiaries does not infringe on the rights of any person;

(aa) Except as disclosed in the Pricing Prospectus, or as would not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect, (i)(A) there has been no security breach or other compromise of or relating to any of the Company's or its subsidiaries' information technology and computer systems, networks, hardware, software, data (including the data of their respective customers, employees, suppliers, vendors and any third party data maintained by or on behalf of them), equipment or technology (collectively, the "**IT Systems and Data**") and (B) the Company has not been notified of, and has no knowledge of any event, circumstance or condition that would reasonably be expected to result in, any security breach or other compromise to the IT Systems and Data and (ii) the Company and its subsidiaries are presently in compliance in all material respects with all applicable laws or statutes and all judgments, orders, rules and regulations of any court or arbitrator or governmental or regulatory authority, internal policies and contractual obligations relating to the privacy and security of the IT Systems and Data and to the protection of such IT Systems and Data from unauthorized use, access, breach, misappropriation or modification. The Company has implemented and maintains security controls, employee education and training programs, network security monitoring, and breach response, mitigation and recovery programs for the IT Systems and Data consistent with industry standards and practices. The Company has implemented backup and disaster recovery technology consistent with industry standards and practices;

(bb) Except as disclosed in the Pricing Prospectus, or as would not, individually or in the aggregate, have a Material Adverse Effect, none of the Company or any of its subsidiaries (i) is in violation of any law, statute, or any rule, regulation, decision or order of any governmental agency or body or any court relating to the use, disposal or release of hazardous or toxic substances or relating to the protection or restoration of the environment or human exposure to hazardous or toxic substances (collectively, "**Environmental Laws**"), (ii) owns or operates any real property which, to the Company's knowledge, is contaminated with any substance that is regulated under any Environmental Laws, (iii) is, to the Company's knowledge, liable for any off-site disposal or contamination pursuant to any Environmental Laws, or (iv) has received any written notice of any claim under any Environmental Laws, and the Company is not aware of any pending investigation which could reasonably be expected to lead to such a claim;

(cc) The Company and each of its subsidiaries are insured by insurers of recognized financial responsibility against such risks and in such amounts as are, in management's judgment, prudent and customary in the businesses in which they are engaged; within the past five years, none of the Company or any such subsidiary has been refused any insurance coverage sought or applied for; and none of the Company or any such subsidiary has any reason to believe that it will not be able to renew its existing insurance coverage as and when such coverage expires or to obtain similar coverage from similar insurers as may be necessary to continue its business at a cost that would not, individually or in the aggregate, have a Material Adverse Effect, except, in each case, as set forth in or contemplated in the Pricing Prospectus;

(dd) The Company has not taken or will not take, directly or indirectly, any action which is designed to or which has constituted or which might reasonably be expected to cause or result in stabilization or manipulation of the price of any security of the Company to facilitate the sale or resale of the Shares;

(ee) The Company is in compliance in all material respects with all provisions of the Sarbanes-Oxley Act of 2002 that are effective and applicable to the Company as of the date hereof;

(ff) The Company and each of its subsidiaries have filed all federal, state and foreign tax returns, or have filed for extensions of the due dates of such returns, required to be filed and have paid all taxes shown as due thereon except where the failure to so file such returns would not, individually or in the aggregate, have a Material Adverse Effect; and other than tax deficiencies which the Company or any of its subsidiaries is contesting in good faith and for which the Company or any of its subsidiaries has provided adequate reserves, there is no tax deficiency that has been asserted in writing against the Company or any of its subsidiaries that would, individually or in the aggregate, have a Material Adverse Effect; and the United States federal income tax returns of the Company and each of its subsidiaries through the fiscal year ended December 31, 2018 have been closed by statute and no assessment in connection therewith has been made against the Company or any of its subsidiaries that would, individually or in the aggregate, have a Material Adverse Effect;

(gg) None of the Company or any of its subsidiaries or, to the Company's knowledge, any director, officer, agent, employee or affiliate of the Company or any of its subsidiaries is aware of or has (i) used any corporate funds for any unlawful contribution, gift, entertainment or other unlawful expense relating to political activity; (ii) made any direct or indirect unlawful payment to any foreign or domestic government official or employee from corporate funds; (iii) violated or is in violation of any provision of the U.S. Foreign Corrupt Practices Act of 1977, as amended; or (iv) made any bribe, unlawful rebate, payoff, influence payment, kickback or other unlawful payment;

(hh) The operations of the Company and each of its subsidiaries are and have been conducted at all times in compliance with all material respects with applicable financial recordkeeping and reporting requirements of the Currency and Foreign Transactions Reporting Act of 1970, as amended, the money laundering statutes of all applicable jurisdictions, the rules and regulations thereunder and any related or similar rules, regulations or guidelines issued, administered or enforced by any governmental agency (collectively, the “**Money Laundering Laws**”) and no action, suit or proceeding by or before any court or governmental agency, authority or body or any arbitrator involving the Company or any of its subsidiaries with respect to the Money Laundering Laws is pending or, to the Company’s knowledge, threatened; and

(ii) None of the Company, any of its subsidiaries or, to the Company’s knowledge, any director, officer, agent, employee or affiliate of the Company or any of its subsidiaries is: (i) currently subject to any U.S. sanctions administered by the Office of Foreign Assets Control of the U.S. Treasury Department (“**OFAC**”); the United Nations Security Council (“**UNSC**”), the European Union (“**EU**”), or His Majesty’s Treasury (“**HMT**”), or other relevant sanctions authority (collectively, “**Sanctions**”), nor (ii) located, organized or resident in a country or territory that is, or whose government is, the subject of Sanctions (including, without limitation, Cuba, the so-called Donetsk People’s Republic, the so-called Luhansk People’s Republic, the Crimea region of Ukraine, Iran, North Korea and Syria), and the Company will not directly or indirectly use the proceeds of the offering, or lend, contribute or otherwise make available such proceeds, to any subsidiary, joint venture partner or other person or entity: (A) to fund or facilitate any activities or business of or with any person or in any country or territory that, at the time of such funding or facilitation, is, or whose government is, the subject of Sanctions; or (B) in any other manner that will result in a violation of Sanctions.

Any certificate signed by any authorized officer of the Company and delivered to the Representatives or counsel for the Underwriters in connection with the offering of the Shares shall be deemed a representation and warranty by the Company, as to matters covered thereby, to each Underwriter.

3. (a) Subject to the terms and conditions herein set forth, (i) the Company agrees to issue and sell to each of the Underwriters, and each of the Underwriters agrees, severally and not jointly, to purchase from the Company, at a purchase price per share of \$133.4675, the number of Firm Shares set forth opposite the name of such Underwriter in Schedule I hereto and (ii) in the event and to the extent that the Underwriters shall exercise the election to purchase Optional Shares as provided below, the Company agrees to issue and sell to each of the Underwriters, and each of the Underwriters agrees, severally and not jointly, to purchase from the Company, at the purchase price per share set forth in clause (i) of this Section 3(a), that portion of the number of Optional Shares as to which such election shall have been exercised (to be adjusted by you so as to eliminate fractional shares) determined by multiplying such number of Optional Shares by a fraction, the numerator of which is the maximum number of Optional Shares which such Underwriter is entitled to purchase as set forth opposite the name of such Underwriter in Schedule I hereto and the denominator of which is the maximum number of Optional Shares that all of the Underwriters are entitled to purchase hereunder.

(b) The Company hereby grants to the Underwriters the right to purchase at their election up to 1,650,000 Optional Shares at the purchase price per share set forth in the paragraph above, *provided* that the purchase price per Optional Share shall be reduced by an amount per share equal to any dividends or distributions declared by the Company and payable on the Firm Shares but not payable on the Optional Shares. Any such election to purchase Optional Shares may be exercised only by written notice from you to the Company, given within a period of 30 calendar days after the date of this Agreement, setting forth the aggregate number of Optional Shares to be purchased and the date on which such Optional Shares are to be delivered, as determined by you but in no event earlier than the First Time of Delivery (as defined in Section 5(a) hereof) or, unless you and the Company otherwise agree in writing, earlier than two or later than ten business days after the date of such notice; *provided*, that if such notice is provided prior to the First Time of Delivery, such Optional Shares shall be delivered at the First Time of Delivery.

4. The Company understands that the Underwriters intend to make a public offering of the Shares, and to offer the Shares as described in the Prospectus.

5. (a) The Shares to be purchased by each Underwriter hereunder will be deposited by or on behalf of the Underwriters with The Depository Trust Company (“DTC”) or its designated custodian. The Company will deliver the Shares to the Representatives, for the account of the Underwriters, against payment by or on behalf of the Underwriters of the purchase price therefor by wire transfer of Federal (same day) funds, by causing DTC to credit the Shares to the account of the Underwriters at DTC. The time and date of such delivery and payment shall be, with respect to the Firm Shares, 9:30 a.m., New York City time, on March 3, 2023 or such other time and date as the Underwriters and the Company may agree upon in writing, and, with respect to the Optional Shares, 9:30 a.m., New York City time, on the date specified by the Underwriters in each written notice given by the Representatives of the Underwriters’ election to purchase such Optional Shares, or such other time and date as the Representatives and the Company may agree upon in writing. Such time and date for delivery of the Firm Shares is herein called the “**First Time of Delivery**”, each such time and date for delivery of the Optional Shares, if not the First Time of Delivery, is herein called the “**Second Time of Delivery**”, and each such time and date for delivery is herein called a “**Time of Delivery**”.

(b) The documents to be delivered at each Time of Delivery by or on behalf of the parties hereto pursuant to Section 9 hereof, including the cross receipt for the Shares and any additional documents requested by the Underwriters pursuant to Section 9(k) hereof, will be delivered at the office of Sullivan & Cromwell LLP, 125 Broad Street, New York, New York 10004 (the “**Closing Location**”), and the Shares will be delivered through the facilities of DTC, all at such Time of Delivery. A meeting will be held at the Closing Location at 2:00 p.m., New York City time, on the New York Business Day next preceding such Time of Delivery, at which meeting the final drafts of the documents to be delivered pursuant to the preceding sentence will be available for review by the parties hereto. For the purposes of this Agreement, “**New York Business Day**” shall mean each Monday, Tuesday, Wednesday, Thursday and Friday which is not a day on which banking institutions in New York City are generally authorized or obligated by law or executive order to close.

6. The Company agrees with each of the Underwriters:

(a) To prepare the Prospectus in a form approved by the Representatives and to file such Prospectus pursuant to Rule 424(b) under the Act not later than the Commission's close of business on the second business day following the execution and delivery of this Agreement and to make no further amendment or any supplement to the Registration Statement, the Basic Prospectus or the Prospectus prior to the Time of Delivery without the consent of the Representatives promptly after reasonable notice thereof (which consent shall not be unreasonably withheld or delayed); to advise the Representatives, promptly after it receives notice thereof, of the time when any amendment to the Registration Statement has been filed or becomes effective or any amendment or supplement to the Prospectus has been filed and to furnish the Representatives with copies thereof; to file promptly all other material required to be filed by the Company with the Commission pursuant to Rule 433(d) under the Act; to file promptly all reports and any definitive proxy or information statements required to be filed by the Company with the Commission pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act subsequent to the date of the Prospectus and for so long as the delivery of a prospectus (or in lieu thereof, the notice referred to in Rule 173(a) under the Act) is required in connection with the offering or sale of the Shares; to advise the Representatives, promptly after it receives notice thereof, of the issuance by the Commission of any stop order or of any order preventing or suspending the use of any Preliminary Prospectus or other prospectus in respect of the Shares, of any notice of objection of the Commission to the use of the Registration Statement or any post-effective amendment thereto pursuant to Rule 401(g)(2) under the Act, of the suspension of the qualification of the Shares for offering or sale in any jurisdiction, of the initiation or threatening of any proceeding for any such purpose, or of any request by the Commission for the amending or supplementing of the Registration Statement or the Prospectus or for additional information; and, in the event of the issuance of any stop order or of any order preventing or suspending the use of any Preliminary Prospectus or other prospectus or suspending any such qualification, to promptly use its best efforts to obtain the withdrawal of such order; and in the event of any such issuance of a notice of objection, promptly to take such steps including, without limitation, amending the Registration Statement or filing a new registration statement, at its own expense, as may be necessary to permit offers and sales of the Shares by the Underwriters (references herein to the Registration Statement shall include any such amendment or new registration statement);

(b) If by the third anniversary (the "**Renewal Deadline**") of the initial effective date of the Registration Statement, any of the Shares remain unsold by the Underwriters, the Company will file, if it has not already done so and is eligible to do so, a new automatic shelf registration statement relating to the Shares, in a form satisfactory to the Representatives. If at the Renewal Deadline the Company is no longer eligible to file an automatic shelf registration statement, the Company will, if it has not already done so, file a new shelf registration statement relating to the Shares,

in a form satisfactory to the Representatives and will use its best efforts to cause such registration statement to be declared effective within 180 days after the Renewal Deadline. The Company will take all other action necessary or appropriate to permit the public offering and sale of the Shares to continue as contemplated in the expired registration statement relating to the Shares. References herein to the Registration Statement shall include such new automatic shelf registration statement or such new shelf registration statement, as the case may be;

(c) Promptly from time to time to take such action as the Representatives may reasonably request to qualify the Shares for offering and sale under the securities laws of such U.S. jurisdictions as the Representatives may request and to comply with such laws so as to permit the continuance of sales and dealings therein in such jurisdictions for as long as may be necessary to complete the distribution of the Shares; *provided* that in connection therewith the Company shall not be required to qualify as a foreign corporation or as a dealer in securities or to file a general consent to service of process or subject itself to taxation for doing business in any jurisdiction;

(d) To use reasonable efforts to furnish to the Underwriters as soon as practicable after the date of this Agreement but no later than 5:30 p.m., New York City time, on the second New York Business Day immediately succeeding the date of this Agreement and from time to time, with printed and electronic copies of the Prospectus in such quantities as the Underwriters may reasonably request, and, if the delivery of a prospectus (or in lieu thereof, the notice referred to in Rule 173(a) under the Act) is, based on advice of counsel, required at any time during the period from the time of issue of the Prospectus until the expiration of nine months after the time of issue of the Prospectus in connection with the offering or sale of the Shares and if at such time any event shall have occurred as a result of which the Prospectus as then amended or supplemented would include an untrue statement of a material fact or omit to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made when such Prospectus (or in lieu thereof, the notice referred to in Rule 173(a) under the Act) is delivered, not misleading, or, if for any other reason it shall be necessary during such same period to amend or supplement the Prospectus or to file under the Exchange Act any document incorporated by reference in the Prospectus in order to comply with the Act or the Exchange Act, to notify the Representatives and upon the request of the Representatives to file such document and to prepare and furnish without charge to each Underwriter and to any dealer in securities as many printed and electronic copies as the Underwriters may from time to time reasonably request of an amended Prospectus or a supplement to the Prospectus which will correct such statement or omission or effect such compliance; and in case any Underwriter is required to deliver a prospectus (or in lieu thereof, the notice referred to in Rule 173(a) under the Act) in connection with sales of any of the Shares at any time nine months or more after the time of issue of the Prospectus, at the expense of such Underwriter, to prepare and deliver to such Underwriter as many printed and electronic copies as such Underwriter may request of an amended or supplemented Prospectus complying with Section 10(a)(3) of the Act;

(e) To make generally available to its securityholders as soon as practicable, but in any event not later than sixteen months after the effective date of the Registration Statement (as defined in Rule 158(c) under the Act), an earnings statement of the Company and its subsidiaries (which need not be audited) complying with Section 11(a) of the Act and the rules and regulations of the Commission thereunder (including, at the option of the Company, Rule 158);

(f) During the period beginning from the date hereof and continuing to and including the date 90 days after the date of the Prospectus, not to (i) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, or file with, or submit to, the Commission a registration statement under the Act relating to any shares of Common Stock or any securities convertible into or exercisable or exchangeable for Common Stock, or publicly disclose the intention to make any offer, sale, pledge, disposition, submission or filing or (ii) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the Common Stock or any such other securities, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of Common Stock or such other securities, in cash or otherwise, without the prior written consent of the Representatives, other than (1) the Shares to be sold hereunder, (2) in connection with any employee or director benefit or compensation, dividend reinvestment and direct stock purchase plan or similar agreement, stock option or other incentive or stock purchase plan of the Company and its subsidiaries and (3) any shares of Common Stock issued upon the exercise of options granted under the stock-based compensation plans of the Company and its subsidiaries;

(g) To use the net proceeds received by it from the sale of the Shares pursuant to this Agreement in the manner specified in the Pricing Prospectus under the caption "Use of Proceeds";(h) To pay the required Commission filing fees relating to the Shares within the time required by Rule 456(b)(1) under the Act without regard to the proviso therein and otherwise in accordance with Rules 456(b) and 457(r) under the Act; and

(i) Upon request of any Underwriter, to furnish, or cause to be furnished, to such Underwriter an electronic version of the Company's trademarks, servicemarks and corporate logo for use on the website, if any, operated by such Underwriter for the purpose of facilitating the on-line offering of the Shares (the "License"); *provided, however*, that the License shall be used solely for the purpose described above, is granted without any fee and may not be assigned or transferred.

7. (a) (i) The Company represents and agrees that, without the prior written consent of the Representatives, it has not made and will not make any offer relating to the Shares that would constitute a "free writing prospectus" as defined in Rule 405 under the Act; (ii) each Underwriter represents and agrees that, without the prior written consent of the Company, it has not made and will not make any offer relating to the Shares that would constitute a free writing prospectus; and (iii) any such free writing prospectus the use of which has been consented to by the Company and the Representatives is listed on Schedule II hereto;

(b) The Company has complied and will comply with the requirements of Rule 433 under the Act applicable to any Issuer Free Writing Prospectus, including timely filing with the Commission or retention where required and legending; and the Company represents that it has satisfied and agrees that it will satisfy the conditions under Rule 433 under the Act to avoid a requirement to file with the Commission any electronic road show; and

(c) The Company agrees that if at any time following issuance of an Issuer Free Writing Prospectus any event occurred or occurs as a result of which such Issuer Free Writing Prospectus would conflict with the information in the Registration Statement, the Pricing Prospectus or the Prospectus or, when taken together with the Pricing Prospectus, would include an untrue statement of a material fact or omit to state any material fact necessary in order to make the statements therein, in the light of the circumstances then prevailing, not misleading, the Company will give prompt notice thereof to the Representatives and, if requested by the Representatives, will prepare and furnish without charge to each Underwriter an Issuer Free Writing Prospectus or other document which will correct such conflict, statement or omission; *provided, however*, that this representation and warranty shall not apply to any statements or omissions in an Issuer Free Writing Prospectus made in reliance upon and in conformity with the Underwriter Information.

8. The Company covenants and agrees with the several Underwriters that the Company will pay or cause to be paid the following: (i) the fees, disbursements and expenses of the Company's counsel and accountants in connection with the registration of the Shares under the Act and all other expenses in connection with the preparation, printing, reproduction and filing of the Registration Statement, the Basic Prospectus, any Preliminary Prospectus, any Issuer Free Writing Prospectus and the Prospectus and amendments and supplements thereto and the mailing and delivering of copies thereof to the Underwriters and dealers; (ii) the cost of printing or producing any agreement among Underwriters, this Agreement, any Blue Sky survey, closing documents (including any compilations thereof) and any other documents in connection with the offering, purchase, sale and delivery of the Shares; (iii) all expenses in connection with the qualification of the Shares for offering and sale under state securities laws as provided in Section 6(c) hereof, including the fees and disbursements of counsel for the Underwriters in connection with such qualification and in connection with any Blue Sky survey; (iv) all fees and expenses in connection with any listing of Shares on the New York Stock Exchange; (v) the cost of preparing any stock certificates; (vi) the costs and charges of any transfer agent or registrar; and (vii) all other costs and expenses incident to the performance of its obligations hereunder which are not otherwise specifically provided for in this Section; *provided, however*, that reimbursements to the Underwriters, if any, shall be limited to expenses actually incurred; and *provided further* that in the case of clause (iii), the Company shall not be requested to cover expenses of counsel for the Underwriters in excess of \$5,000 in the aggregate.

9. The obligations of the Underwriters to purchase the Shares at the Time of Delivery shall be subject, in their discretion, to the condition that all representations and warranties and other statements of the Company herein are, at and as of the Time of Delivery, true and correct, the condition that the Company shall have performed all of its obligations hereunder theretofore to be performed, and the following additional conditions:

(a) The Prospectus shall have been filed with the Commission pursuant to Rule 424(b) under the Act within the applicable time period prescribed for such filing by the rules and regulations under the Act and in accordance with Section 6(a) hereof; any other material required to be filed by the Company pursuant to Rule 433(d) under the Act shall have been filed with the Commission within the applicable time period prescribed for such filings by Rule 433; no stop order suspending the effectiveness of the Registration Statement or any part thereof shall have been issued and no proceeding for that purpose shall have been initiated or threatened by the Commission and no notice of objection of the Commission to the use of the Registration Statement or any post-effective amendment thereto pursuant to Rule 401(g)(2) under the Act shall have been received; no stop order suspending or preventing the use of the Prospectus or any Issuer Free Writing Prospectus shall have been initiated or threatened by the Commission; and all requests for additional information on the part of the Commission shall have been complied with to the reasonable satisfaction of the Representatives;

(b) Sullivan & Cromwell LLP, counsel for the Underwriters, shall have furnished to the Underwriters such written opinions, dated the Time of Delivery, in form and substance satisfactory to the Representatives, and such counsel shall have received such papers and information as they may reasonably request to enable them to pass upon such matters;

(c) Morgan, Lewis & Bockius LLP, counsel for the Company, shall have furnished to the Underwriters their written opinion and 10b-5 statement, each dated the Time of Delivery, in the form attached as Annexes IIA and IIB hereto;

(d) Jeffrey M. Taylor, Vice President, Chief SEC Counsel and Secretary of the Company, shall have furnished to the Underwriters his written opinion, dated the Time of Delivery, in the form attached as Annex III hereto;

(e) (i) On the date of this Agreement, (ii) on the effective date of any post-effective amendment to the Registration Statement filed subsequent to the date of this Agreement and (iii) at the Time of Delivery, PricewaterhouseCoopers LLP shall have furnished to the Underwriters a letter or letters, dated the respective dates of delivery thereof, in form and substance satisfactory to the Representatives, to the effect set forth in Annex I hereto;

(f) (i) Since the date of the latest audited financial statements included or incorporated by reference in the Pricing Prospectus, or since the date of the latest audited financial statements of the Company or any of its subsidiaries has sustained any loss or interference with its business from fire, explosion, flood or other calamity, whether or not covered by insurance, or from any labor dispute or court or governmental action, order or decree and (ii) since the date as of which information is given in the Pricing Prospectus there has not been (A) any material decrease in the number of shares of outstanding capital stock of the Company or increase in consolidated long-term debt of the Company and its consolidated subsidiaries, or (B) any change, or any development involving a prospective change, in or affecting the general affairs, management, financial condition, stockholders' equity or results of operations of the Company and its subsidiaries, otherwise, in any such case described in clause (i) or (ii), than as set forth or contemplated in the Pricing Prospectus, the effect of which, in any such case described in clause (i) or (ii), is in the judgment of the Representatives so material and adverse as to make it impracticable or inadvisable to proceed with the public offering or the delivery of the Shares on the terms and in the manner contemplated in the Prospectus;

(g) On or after the Applicable Time, (i) no downgrading shall have occurred in the rating accorded American Water Capital Corp.'s ("AWCC's") debt securities by S&P Global Ratings, a division of S&P Global Ratings, or Moody's Investors Service, Inc., each a "nationally recognized statistical rating organization", as that term is defined by Section 3(a)(62) of the Exchange Act, and (ii) neither such organization shall have publicly announced (other than any announcement made prior to the Applicable Time) that it has under surveillance or review, with possible negative implications, its rating of any of AWCC's debt securities;

(h) On or after the Applicable Time there shall not have occurred any of the following: (i) a suspension or material limitation in trading in securities generally on the New York Stock Exchange; (ii) a suspension or material limitation in trading in the Company's securities on the New York Stock Exchange; (iii) a general moratorium on commercial banking activities declared by Federal or New York State authorities or a material disruption in commercial banking or securities settlement or clearance services in the United States; (iv) the outbreak or escalation of hostilities involving the United States or the declaration by the United States of a national emergency or war; or (v) the occurrence of any other calamity or crisis or any change in financial, political or economic conditions in the United States or elsewhere, if the effect of any such event specified in clause (iv) or (v) in the judgment of the Representatives makes it impracticable or inadvisable to proceed with the public offering or the delivery of the Shares on the terms and in the manner contemplated in the Prospectus;

(i) The Shares to be issued and sold by the Company hereunder at the Time of Delivery shall have been approved for listing on the New York Stock Exchange, subject to official notice of issuance;

(j) The “lock-up” agreements, each substantially in the form of Annex IV hereto, between the Representatives and each of the executive officers and directors of the Company specified on Schedule I to Annex IV relating to sales and certain other dispositions of shares of Common Stock or certain other securities, delivered to the Representatives on or before the date hereof, shall be in full force and effect at the Time of Delivery; and

(k) The Company shall have furnished or caused to be furnished to the Underwriters at the Time of Delivery certificates of officers of the Company reasonably satisfactory to the Representatives as to the accuracy of the representations and warranties of the Company herein at and as of the Time of Delivery, as to the performance by the Company of all of its obligations hereunder to be performed at or prior to the Time of Delivery, as to the matters set forth in subsections (a), (f) and (g) of this Section and as to such other matters as the Representatives may reasonably request.

10. (a) The Company will indemnify and hold harmless each Underwriter against any losses, claims, damages or liabilities, joint or several, to which such Underwriter may become subject, under the Act or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon an untrue statement or alleged untrue statement of a material fact contained in the Registration Statement, the Basic Prospectus, any Preliminary Prospectus, the Pricing Prospectus, the Pricing Disclosure Package or the Prospectus, or any amendment or supplement thereto, any Issuer Free Writing Prospectus or any “issuer information” filed or required to be filed pursuant to Rule 433(d) under the Act, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, and will reimburse each Underwriter for any legal or other expenses reasonably incurred by such Underwriter in connection with investigating or defending any such action or claim as such expenses are incurred; *provided, however,* that the Company shall not be liable in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement or omission or alleged omission made in the Registration Statement, the Basic Prospectus, any Preliminary Prospectus, the Pricing Prospectus, the Pricing Disclosure Package or the Prospectus, or any amendment or supplement thereto, or any Issuer Free Writing Prospectus, in reliance upon and in conformity with the Underwriter Information.

(b) Each Underwriter will, severally and not jointly, indemnify and hold harmless the Company against any losses, claims, damages or liabilities, joint or several, to which the Company may become subject, under the Act or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon an untrue statement or alleged untrue statement of a material fact contained in the Registration Statement, the Basic Prospectus, any Preliminary Prospectus, the Pricing Prospectus, the Pricing Disclosure Package or the Prospectus, or any amendment or supplement thereto, or any Issuer Free Writing Prospectus, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, in each case to the extent, but only to the extent,

that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement or alleged omission made in the Registration Statement, the Basic Prospectus, any Preliminary Prospectus, the Pricing Prospectus, the Pricing Disclosure Package or the Prospectus, or any amendment or supplement thereto, or any Issuer Free Writing Prospectus, in reliance upon and in conformity with the Underwriter Information; and will reimburse the Company for any legal or other expenses reasonably incurred by the Company in connection with investigating or defending any such action or claim as such expenses are incurred.

(c) Promptly after receipt by an indemnified party under subsection (a) or (b) above of notice of the commencement of any action, such indemnified party shall, if a claim in respect thereof is to be made against the indemnifying party under such subsection, notify the indemnifying party in writing of the commencement thereof; but the omission so to notify the indemnifying party shall not relieve it from any liability which it may have to any indemnified party otherwise than under such subsection. In case any such action shall be brought against any indemnified party and it shall notify the indemnifying party of the commencement thereof, the indemnifying party shall be entitled to participate therein and, to the extent that it shall wish, jointly with any other indemnifying party similarly notified, to assume the defense thereof, with counsel reasonably satisfactory to such indemnified party (who shall not, except with the consent of the indemnified party, be counsel to the indemnifying party), and, after notice from the indemnifying party to such indemnified party of its election so to assume the defense thereof, the indemnifying party shall not be liable to such indemnified party under such subsection for any legal expenses of other counsel or any other expenses, in each case subsequently incurred by such indemnified party, in connection with the defense thereof other than reasonable costs of investigation. Notwithstanding the indemnifying party's election to appoint counsel to represent the indemnified party in an action, the indemnified party shall have the right to employ one separate counsel, and the indemnifying party shall bear the reasonable fees, costs and expenses of such separate firm (in addition to one local counsel in each jurisdiction) if (i) the use of counsel chosen by the indemnifying party to represent the indemnified party would present such counsel with a conflict of interest, (ii) in an action where both the indemnifying and the indemnified party are actual or potential defendants, the indemnified party shall have reasonably concluded that there are actual or potential conflicting interests between the indemnifying party and the indemnified party, including situations in which there may be one or more legal defenses available to it and/or other indemnified parties which are different from or additional to those available to the indemnifying party, (iii) the indemnifying party shall not have employed counsel reasonably satisfactory to the indemnified party to represent the indemnified party within a reasonable time after notice of the institution of such action or (iv) the indemnifying party shall authorize the indemnified party to employ separate counsel at the expense of the indemnifying party. No indemnifying party shall, without the written consent of the indemnified party, effect the settlement or compromise of, or consent to the entry of any judgment with respect to, any pending or threatened action or claim in respect of which indemnification or contribution may be sought hereunder (whether or not the indemnified party is an actual or potential party to such action or claim) unless such settlement, compromise

or judgment (i) includes an unconditional release of the indemnified party from all liability arising out of such action or claim and (ii) does not include a statement as to or an admission of fault, culpability or a failure to act, by or on behalf of any indemnified party. No indemnified party shall, without the written consent of the indemnifying party (such consent not to be unreasonably withheld), effect the settlement or compromise of, or consent to the entry of any judgment with respect to, any pending or threatened action or claim in respect of which indemnification or contribution may be sought hereunder.

(d) If the indemnification provided for in this Section 10 is unavailable to or insufficient to hold harmless an indemnified party under subsection (a) or (b) above in respect of any losses, claims, damages or liabilities (or actions in respect thereof) referred to therein, then each indemnifying party shall contribute to the amount paid or payable by such indemnified party as a result of such losses, claims, damages or liabilities (or actions in respect thereof) in such proportion as is appropriate to reflect the relative benefits received by the Company on the one hand and the Underwriters on the other from the offering of the Shares. If, however, the allocation provided by the immediately preceding sentence is not permitted by applicable law or if the indemnified party failed to give the notice required under subsection (c) above, then each indemnifying party shall contribute to such amount paid or payable by such indemnified party in such proportion as is appropriate to reflect not only such relative benefits but also the relative fault of the Company on the one hand and the Underwriters on the other in connection with the statements or omissions which resulted in such losses, claims, damages or liabilities (or actions in respect thereof), as well as any other relevant equitable considerations. The relative benefits received by the Company on the one hand and the Underwriters on the other shall be deemed to be in the same proportion as the total net proceeds from the offering (before deducting expenses) received by the Company bear to the total underwriting discounts and commissions received by the Underwriters, in each case as set forth on the cover page of the Prospectus. The relative fault shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission or alleged omission to state a material fact relates to information supplied by the Company on the one hand or the Underwriter Information on the other and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission. The Company and the Underwriters agree that it would not be just and equitable if contributions pursuant to this subsection (d) were determined by pro rata allocation or by any other method of allocation which does not take account of the equitable considerations referred to above in this subsection (d). The amount paid or payable by an indemnified party as a result of the losses, claims, damages or liabilities (or actions in respect thereof) referred to above in this subsection (d) shall be deemed to include any legal or other expenses reasonably incurred by such indemnified party in connection with investigating or defending any such action or claim. Notwithstanding the provisions of this subsection (d), no Underwriter shall be required to contribute any amount in excess of the amount by which the total price at which the Shares underwritten by it and distributed to the public were offered to the public exceeds the amount of any damages which such Underwriter has otherwise been required to pay by reason of such untrue or alleged

untrue statement or omission or alleged omission. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(b) of the Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation. The Underwriters' obligations in this subsection (d) to contribute are several in proportion to their respective underwriting obligations and not joint.

(e) The obligations of the Company under this Section 10 shall be in addition to any liability which the Company may otherwise have and shall extend, upon the same terms and conditions, to the directors, officers, employees and agents of each Underwriter and to each person, if any, who controls any Underwriter within the meaning of the Act and each broker-dealer affiliate of any Underwriter; and the obligations of the Underwriters under this Section 10 shall be in addition to any liability which the respective Underwriters may otherwise have and shall extend, upon the same terms and conditions, to each officer, director and employee of the Company and to each person, if any, who controls the Company within the meaning of the Act.

11. (a) If any Underwriter shall default in its obligation to purchase the Shares which it has agreed to purchase hereunder, the Representatives may in their discretion arrange for any of the Representatives or another party or other parties to purchase such Shares on the terms contained herein. If within thirty-six hours after such default by any Underwriter, the Representatives do not arrange for the purchase of such Shares, then the Company shall be entitled to a further period of thirty-six hours within which to procure another party or other parties satisfactory to the Representatives to purchase such Shares on such terms. In the event that, within the respective prescribed periods, the Representatives notify the Company that they have so arranged for the purchase of such Shares, or the Company notifies the Representatives that it has so arranged for the purchase of such Shares, the Representatives or the Company shall have the right to postpone the Time of Delivery for a period of not more than seven days, in order to effect whatever changes may thereby be made necessary in the Registration Statement or the Prospectus, or in any other documents or arrangements, and the Company agrees to prepare promptly any amendments to the Registration Statement or the Prospectus which in the opinion of the Representatives may thereby be made necessary. The term "Underwriter" as used in this Agreement shall include any person substituted under this Section with like effect as if such person had originally been a party to this Agreement with respect to such Shares.

(b) If, after giving effect to any arrangements for the purchase of the Shares of a defaulting Underwriter or Underwriters by the Representatives and the Company as provided in subsection (a) above, the aggregate number of such Shares which remains unpurchased does not exceed one-eleventh of the aggregate number of all the Shares, then the Company shall have the right to require each non-defaulting Underwriter to purchase the number of Shares which such Underwriter agreed to purchase hereunder at such Time of Delivery and, in addition, to require each non-defaulting Underwriter to purchase its pro rata share (based on the number of Shares which such Underwriter agreed to purchase hereunder) of the Shares of such defaulting Underwriter or Underwriters for which such arrangements have not been made; but nothing herein shall relieve a defaulting Underwriter from liability for its default.

(c) If, after giving effect to any arrangements for the purchase of the Shares of a defaulting Underwriter or Underwriters by the Representatives and the Company as provided in subsection (a) above, the aggregate number of Shares which remains unpurchased exceeds one-eleventh of the aggregate number of all the Shares, or if the Company shall not exercise the right described in subsection (b) above to require non-defaulting Underwriters to purchase Shares of a defaulting Underwriter or Underwriters, then this Agreement shall thereupon terminate without liability on the part of any non-defaulting Underwriter or the Company, except for the expenses to be borne by the Company and the Underwriters as provided in Section 8 hereof and the indemnity and contribution agreements in Section 10 hereof; but nothing herein shall relieve a defaulting Underwriter from liability for its default.

12. The respective indemnities, agreements, representations, warranties and other statements of the Company and the several Underwriters, as set forth in this Agreement or made by or on behalf of them, respectively, pursuant to this Agreement, shall remain in full force and effect, regardless of any investigation (or any statement as to the results thereof) made by or on behalf of any Underwriter or any controlling person of any Underwriter, or the Company, or any officer or director or controlling person of the Company, and shall survive delivery of and payment for the Shares.

13. If for any reason, other than a default by the Underwriters in their obligation to purchase the Shares, any Shares are not delivered as provided herein, the Company will reimburse the Underwriters through the Representatives for all reasonable expenses approved in writing by the Representatives, including reasonable fees and disbursements of counsel, incurred by the Underwriters in making preparations for the purchase, sale and delivery of the Shares not so delivered, but the Company shall then be under no further liability to the Underwriters except as provided in Sections 8 and 10 hereof.

14. In all dealings hereunder, the Representatives shall act on behalf of each of the Underwriters, and the parties hereto shall be entitled to act and rely upon any statement, request, notice or agreement on behalf of any Underwriter made or given by the Representatives jointly.

15. All statements, requests, notices and agreements hereunder shall be in writing, and if to the Underwriters shall be delivered or sent by mail or facsimile transmission to the Representatives in care of: BofA Securities, Inc., One Bryant Park, New York, New York 10036, Attention: Syndicate Department, Email: dg.ecm_execution_services@bofa.com, with a copy to Email: dg.ecm_legal@bofa.com, Attention: ECM Legal; Wells Fargo Securities, LLC, 500 West 33rd Street, New York, New York 10001, Attention: Equity Syndicate, Fax: (212) 214-5918 (with such fax or other electronic communication to be confirmed by telephone to (212) 214-6144); or RBC Capital Markets, LLC, Brookfield Place, 200 Vesey Street 8th Floor, New York, New York 10281, Attention: Equity Capital Markets,

Phone: (877) 822-4089, Facsimile: (212) 428-6260, Email: equityprospectus@rbccm.com; and if to the Company shall be delivered or sent by mail to the address set forth in the Registration Statement or facsimile transmission to (856) 519-9730, Attention: James. H. Gallegos, Executive Vice President and General Counsel. Any such statements, requests, notices or agreements shall take effect upon receipt thereof.

16. In accordance with the requirements of the USA Patriot Act (Title III of Pub. L. 107-56 (signed into law October 26, 2001)), the Underwriters are required to obtain, verify and record information that identifies their respective clients, including the Company, which information may include the name and address of their respective clients, as well as other information that will allow the Underwriters to properly identify their respective clients.

17. This Agreement shall be binding upon, and inure solely to the benefit of, the Underwriters and the Company and, to the extent provided in Sections 10 and 12 hereof, the officers and directors of the Company and each person who controls the Company or any Underwriter, and their respective heirs, executors, administrators, successors and assigns, and no other person shall acquire or have any right under or by virtue of this Agreement. No purchaser of any of the Shares from any Underwriter shall be deemed a successor or assign by reason merely of such purchase.

18. Time shall be of the essence of this Agreement. As used herein, the term “**business day**” shall mean any day when the Commission’s office in Washington, D.C. is open for business.

19. The Company acknowledges and agrees that (i) the purchase and sale of the Shares pursuant to this Agreement is an arm’s-length commercial transaction between the Company, on the one hand, and the several Underwriters on the other, (ii) in connection therewith and with the process leading to such transaction each Underwriter is acting solely as a principal and not as an agent or fiduciary of the Company, (iii) none of the Underwriters has assumed an advisory or fiduciary responsibility in favor of the Company with respect to the offering contemplated hereby or the process leading thereto (irrespective of whether such Underwriter has advised or is currently advising the Company) or any other obligation to the Company except the obligations expressly set forth in this Agreement and (iv) the Company has consulted its own legal and financial advisors to the extent they deemed appropriate. The Company agrees that it will not claim that the Underwriters, or any of them, has rendered advisory services of any nature or respect, or owes a fiduciary or similar duty to the Company, in connection with such transaction or the process leading thereto.

20. This Agreement supersedes all prior agreements and understandings (whether written or oral) between the Company and the Underwriters, or any of them, with respect to the subject matter hereof.

21. This Agreement shall be governed by and construed in accordance with the laws of the State of New York.

22. The Company and each of the Underwriters hereby irrevocably waive, to the fullest extent permitted by applicable law, and all right to trial by jury in any legal proceeding arising out of or relating to this Agreement or the transactions contemplated hereby.

23. This Agreement may be executed by any one or more of the parties hereto in any number of counterparts, each of which shall be deemed to be an original, but all such counterparts shall together constitute one and the same instrument. Counterparts may be delivered via facsimile, electronic mail (including any electronic signature covered by the U.S. federal ESIGN Act of 2000, Uniform Electronic Transactions Act, the Electronic Signatures and Records Act or other applicable law, or other transmission method), and any counterpart so delivered shall be deemed to have been duly and validly delivered and be valid and effective for all purposes.

24. Notwithstanding anything herein to the contrary, the Company is authorized to disclose to any persons the tax treatment and tax structure of the potential transaction and all materials of any kind (including tax opinions and other tax analyses) provided to the Company relating to that treatment and structure, without the Underwriters imposing any limitation of any kind. However, any information relating to the tax treatment and tax structure shall remain confidential (and the foregoing sentence shall not apply) to the extent necessary to enable any person to comply with securities laws. For this purpose, “**tax treatment**” means U.S. Federal and State income tax treatment, and “**tax structure**” is limited to any facts that may be relevant to that treatment.

25. (a) In the event that any Underwriter that is a Covered Entity becomes subject to a proceeding under a U.S. Special Resolution Regime, the transfer from such Underwriter of this Agreement, and any interest and obligation in or under this Agreement, will be effective to the same extent as the transfer would be effective under the U.S. Special Resolution Regime if this Agreement, and any such interest and obligation, were governed by the laws of the United States or a state of the United States.

(b) In the event that any Underwriter that is a Covered Entity or a BHC Act Affiliate of such Underwriter becomes subject to a proceeding under a U.S. Special Resolution Regime, Default Rights under this Agreement that may be exercised against such Underwriter are permitted to be exercised to no greater extent than such Default Rights could be exercised under the U.S. Special Resolution Regime if this Agreement were governed by the laws of the United States or a State of the United States.

(c) For purposes of this Section 25, the following terms shall have the meanings indicated:

(i) “**BHC Act Affiliate**” has the meaning assigned to the term “affiliate” in, and shall be interpreted in accordance with, 12 U.S.C. § 1841(k).

(ii) “**Covered Entity**” means any of the following: (A) a “covered entity” as that term is defined in, and interpreted in accordance with, 12 C.F.R. § 252.82(b); (B) a “covered bank” as that term is defined in, and interpreted in accordance with, 12 C.F.R. § 47.3(b); or (C) a “covered FSI” as that term is defined in, and interpreted in accordance with, 12 C.F.R. § 382.2(b).

(iii) “**Default Right**” has the meaning assigned to that term in, and shall be interpreted in accordance with, 12 C.F.R. §§ 252.81, 47.2 or 382.1, as applicable.

(iv) “**U.S. Special Resolution Regime**” means each of (A) the Federal Deposit Insurance Act and the regulations promulgated thereunder and (B) Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act and the regulations promulgated thereunder.

[Signature Page Follows]

If the foregoing is in accordance with your understanding, please sign and return to the Company a counterpart hereof, and upon the acceptance hereof by you, on behalf of each of the Underwriters, this letter and such acceptance hereof shall constitute a binding agreement between each of the Underwriters and the Company.

Very truly yours,

Re: American Water Works Company, Inc. — Public Offering

Ladies and Gentlemen:

The undersigned understands that BofA Securities, Inc., RBC Capital Markets, LLC and Wells Fargo Securities, LLC, as representatives of the Underwriters (together, the “**Underwriters**”), propose to enter into an underwriting agreement (the “**Underwriting Agreement**”) with American Water Works Company, Inc., a Delaware corporation (the “**Company**”), providing for the public offering (the “**Public Offering**”) by the Underwriters, of shares of common stock, par value \$0.01 per share, of the Company (the “**Common Stock**”). Capitalized terms used herein and not otherwise defined shall have the meanings set forth in the Underwriting Agreement.

In consideration of the Underwriters’ agreement to make the Public Offering, and for other good and valuable consideration receipt of which is hereby acknowledged, the undersigned hereby agrees that, without the prior written consent of the Underwriters, the undersigned will not, during the period beginning on the date of this letter agreement (this “**Letter Agreement**”) and ending 60 days after the date of the prospectus relating to the Public Offering (the “**Prospectus**”) (such period, the “**Restricted Period**”), (1) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable for Common Stock (including without limitation, Common Stock or such other securities which may be deemed to be beneficially owned by the undersigned in accordance

with the rules and regulations of the Securities and Exchange Commission and securities which may be issued upon exercise of a stock option or warrant), or publicly disclose the intention to make any offer, sale, pledge or disposition, (2) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the Common Stock or such other securities, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of Common Stock or such other securities, in cash or otherwise, or (3) make any demand for or exercise any right with respect to the registration of any shares of Common Stock or any security convertible into or exercisable or exchangeable for Common Stock, in each case other than transfers of shares of Common Stock as a bona fide gift or gifts; *provided* that in the case of any such transfer, each donee or distributee shall execute and deliver to the Underwriters a lock-up letter in the form of this paragraph; and *provided, further*, that in each such case, no filing by any party (donor, donee, transferor or transferee) under the Securities Exchange Act of 1934, as amended, or other public announcement shall be required or shall be made voluntarily in connection with such transfer or distribution (other than a filing on a Form 5 made after the expiration of the Restricted Period referred to above).

In furtherance of the foregoing, the Company, and any duly appointed transfer agent for the registration or transfer of the securities described herein, are hereby authorized to decline to make any transfer of securities if such transfer would constitute a violation or breach of this Letter Agreement.

All authority herein conferred or agreed to be conferred and any obligations of the undersigned shall be binding upon the successors, assigns, heirs or personal representatives of the undersigned.

The undersigned understands that, if the Underwriting Agreement does not become effective by March 31, 2023, or if the Underwriting Agreement (other than the provisions thereof which survive termination) shall terminate or be terminated prior to payment for and delivery of the Common Stock to be sold thereunder, the undersigned shall be released from all obligations under this Letter Agreement. The undersigned understands that the Underwriters are entering into the Underwriting Agreement and proceeding with the Public Offering in reliance upon this Letter Agreement.

This Letter Agreement and any claim, controversy or dispute arising under or related to this Letter Agreement shall be governed by and construed in accordance with the laws of the State of New York.

Very truly yours,

March 3, 2023

American Water Works Company, Inc.
1 Water Street
Camden, New Jersey 08102

Ladies and Gentlemen:

We have acted as counsel to American Water Works Company, Inc., a Delaware corporation (the “Company”), in connection with the offering of 12,650,000 shares (the “Shares”) of common stock, \$0.01 par value, of the Company (“Common Stock”).

We have participated in the preparation of or reviewed (1) the Registration Statement on Form S-3 (Registration No. 333-253484) (the “Registration Statement”), which Registration Statement was filed by the Company with the Securities and Exchange Commission (the “Commission”) under the Securities Act of 1933, as amended (the “Securities Act”); (2) the prospectus dated February 25, 2021 (the “Base Prospectus”), forming a part of the Registration Statement, as supplemented by a prospectus supplement dated February 28, 2023 (the “Prospectus Supplement”), both such prospectus and prospectus supplement filed with the Commission pursuant to Rule 424(b) under the Securities Act; (3) the Underwriting Agreement, dated February 28, 2023 (the “Underwriting Agreement”), by and among the Company, BofA Securities, Inc., Wells Fargo Securities, LLC and RBC Capital Markets, LLC, as representatives of the several underwriters named therein; (4) the restated certificate of incorporation of the Company; (5) the amended and restated bylaws of the Company; and (6) such other corporate records, certificates and other documents (including a receipt executed on behalf of the Company acknowledging receipt of the purchase price for the Shares) and such questions of law as we have considered necessary or appropriate for the purposes of this opinion.

Based on the foregoing, we are of the opinion that the Shares have been validly issued, fully paid and non-assessable.

In rendering the foregoing opinion, we have assumed the genuineness of all signatures, the legal capacity of all natural persons, the authenticity of the documents submitted to us as originals, the conformity with the originals of all documents submitted to us as certified, facsimile or photostatic copies and the authenticity of the originals of all documents submitted to us as copies.

 +1.212.309.6001

We hereby consent to the reference to us under the heading “Legal Matters” in the Prospectus Supplement, to the references to us in the Registration Statement, including under the heading “Legal Matters” in the Base Prospectus, and to the filing of this opinion as an exhibit to the Company’s Current Report on Form 8-K to be filed on or about the date hereof, which will be incorporated by reference in the Registration Statement. In giving the foregoing consents, we do not thereby admit that we come within the category of persons whose consent is required under Section 7 of the Securities Act or the rules and regulations of the Commission thereunder.

This opinion is limited to the laws of the General Corporation Law of the State of Delaware and the federal laws of the United States insofar as they bear on matters covered hereby.

Very truly yours,

/s/ Morgan, Lewis & Bockius LLP

AMERICAN WATER'S 2022 STRONG RESULTS MEET EXPECTATIONS AFFIRMS 2023 GUIDANCE AND LONG-TERM TARGETS

- **2022 full-year earnings of \$4.51 per share, compared to 2021 earnings of \$6.95 per share, which reflected a gain of \$2.70 per share on sale of Homeowner Services Group (HOS) in Dec. 2021**
 - **2022 weather-normalized earnings of \$4.45 per share**
 - **Invested a record \$2.6 billion in capital and added 70,000 customer connections through closed acquisitions in 2022**
- **2023 earnings per share guidance range of \$4.72 to \$4.82 affirmed**
- **Long-term EPS and dividend growth targets of 7-9% announced in Nov. 2022 affirmed**

CAMDEN, N.J., February 15, 2023 - American Water Works Company, Inc. (NYSE: AWK) today reported earnings of \$0.81 per share for the fourth quarter 2022 compared to \$3.55 per share in 2021, and full year earnings in 2022 of \$4.51 per share compared to \$6.95 per share in 2021. Fourth quarter and full year 2021 results included a gain of \$2.70 per share, which reflected the completion of the sale of HOS in December of 2021. Fourth quarter and full year 2021 results were \$0.85 per share and \$4.25 per share, respectively, before the gain on the sale of HOS.

“American Water successfully executed on our strategies in 2022, achieved on-plan earnings growth, and again delivered strong dividend growth to investors. Importantly, we achieved constructive outcomes in general rate cases in three of our largest jurisdictions - New Jersey, Pennsylvania, and Illinois,” said Susan Hardwick, president and CEO of American Water.

“We invested a record \$2.6 billion across our business, led by infrastructure renewal, and completed 26 regulated acquisitions during the year. We are also proud that 2022 marked our best year of safety performance on record, and that we established additional GHG emissions reduction goals, including a net zero target by 2050,” added Hardwick. “We are excited about this positive momentum as we begin 2023.”

2023 EPS Guidance and Long-Term Financial Targets Affirmed

The Company affirms its 2023 earnings per share guidance range of \$4.72 to \$4.82. The Company also affirms its long-term financial targets for the 2023-2027 period announced in Nov. 2022, including its long-term EPS and dividend growth rate targets of 7-9%. The Company's earnings forecasts are subject to numerous risks and uncertainties, including, without limitation, those described under “Cautionary Statement Concerning Forward-Looking Statements” below and under “Risk Factors” in its annual, quarterly, and current reports filed with the Securities and Exchange Commission (“SEC”). All statements related to earnings and earnings per share refer to diluted earnings and earnings per share.

Highlights

- Delivered EPS results of \$4.51 slightly ahead of expectations, led by strong growth in the Regulated Businesses
- Successfully completed general rate cases in New Jersey, Pennsylvania, Illinois, West Virginia, and Hawaii

- Incorporated updated production costs in New Jersey and received authorization of a pension and OPEB deferral effective January 1, 2023
- Incorporated updated production costs and pension and OPEB costs in Pennsylvania and Illinois
- Invested a record \$2.3 billion for infrastructure improvements and replacements in 2022
- Closed on 26 acquisitions of various regulated water and wastewater systems in 2022, adding a record 70,000 customer connections, totaling \$0.3 billion of investment
- Announced new medium-term and long-term GHG emissions reduction targets aligning with the Paris Agreement
- Published inclusion, diversity & equity (ID&E) metrics report with consolidated EEO-1 data and launched diversityataw.com

Consolidated Results

For the three and twelve months ended December 31, 2022, earnings per share were \$0.81 and \$4.51, respectively, compared to \$3.55 and \$6.95 per share in the same periods in 2021. The 2021 results included a net gain of \$2.70 per share relating to the sale of HOS. Before the gain related to the sale of HOS in 2021, earnings per share increased \$0.26 in 2022 as compared to 2021. This increase was primarily driven by continued growth in the Regulated Businesses from the return on infrastructure investments, acquisitions, and organic customer growth, offset somewhat by impacts from inflationary pressures on production costs and higher interest costs along with higher depreciation expenses from the growth of the business. Results for 2022 also reflect the favorable impact of weather, estimated at \$0.06 per share, primarily due to hot and dry weather in the third quarter of 2022, as compared to a modest favorable impact from weather in 2021. Also, included in the results for 2022 are \$0.24 per share from interest income earned on the seller note and income earned on revenue share agreements, which compares to HOS operating results for 2021 of \$0.31 per share. Lastly, operating results for the Company's New York subsidiary, which was sold on January 1, 2022, were \$0.12 per share in 2021.

In 2022, the Company made capital investments of \$2.6 billion, including \$2.3 billion for infrastructure improvements and other capital investments in the Regulated Businesses and \$0.3 billion for regulated acquisitions.

Regulated Businesses

In the fourth quarter of 2022, the Regulated Businesses' net income was \$173 million, compared to \$166 million for the same period in 2021. For the full year 2022, the Regulated Businesses' net income was \$854 million, compared to \$789 million in 2021. Net income attributable to the Company's New York subsidiary was \$4 million and \$21 million for the three and twelve months ended December 31, 2021, respectively.

Operating revenues increased \$61 million and \$248 million for the three and twelve months ended December 31, 2022, respectively, as compared to 2021, when excluding revenues contributed by the Company's New York subsidiary in 2021. The increases in operating revenues were primarily a result of authorized revenue increases resulting from completed general rate cases and infrastructure proceedings to recover incremental capital and acquisition investments.

Since January 1, 2022, the Company has been authorized additional annualized revenues of approximately \$308 million from general rate cases, with \$90 million effective in 2022 and \$218 million effective in 2023. Further, approximately \$108 million of additional annualized revenues from infrastructure surcharges have been authorized, with \$83 million effective in 2022 and \$25 million effective in 2023. The Company has general rate cases in progress in three jurisdictions and filed for two infrastructure surcharges, reflecting a total annualized revenue request of approximately \$181 million.

Excluding impacts of the Company's New York subsidiary in 2021, operation and maintenance ("O&M") expenses were higher by \$24 million and \$68 million for the three and twelve months ended December 31, 2022, respectively, as compared to 2021, primarily due to increases in production costs from inflationary pressures. Also, depreciation expense was higher by \$8 million and \$32 million in these same periods due to the growing capital investment in infrastructure and acquisitions.

For the three and twelve months ended December 31, 2021, results included revenues of \$30 million and \$127 million, respectively, and operating expenses of \$23 million and \$94 million, respectively, for the Company's New York subsidiary that was sold on January 1, 2022.

For the full year 2022, the Company's adjusted regulated O&M efficiency ratio (a non-GAAP financial measure) was 33.7%, compared to 34.1% for 2021. The ratio reflects an increase in operating revenues for the Regulated Businesses, after considering the adjustment for the amortization of the excess accumulated deferred income taxes ("EADIT") shown in the table below, as well as the continued focus on operating costs.

Other

In the fourth quarter of 2022, the net loss in Other was \$26 million, compared to net income of \$479 million for the same period in 2021. For the year ended 2022, the net loss in Other was \$34 million, compared to net income of \$474 million for the same period in 2021. The primary driver for the change in both periods is the gain on the sale of HOS of \$478 million in 2021, the loss of earnings from HOS operations as a result of the sale of the business in 2021, and incremental interest expense on long-term debt in 2022. The loss of HOS operating results has been partially offset in both periods of 2022 with interest income earned on the seller note from the sale and continuing income earned on revenue share agreements. As previously disclosed, results in 2022 also reflect \$0.06 per share of favorable impact from post-close adjustments related to the sale of HOS and the Company's New York subsidiary.

Dividends

On December 7, 2022, the Company's Board of Directors declared a quarterly cash dividend payment of \$0.6550 per share of common stock payable on March 1, 2023, to shareholders of record as of February 7, 2023.

2022 Fourth Quarter and Year-End Earnings Conference Call

The conference call to discuss fourth quarter and year-end 2022 earnings, and affirmation of 2023 earnings guidance, and long-term targets will take place on Thursday, February 16, 2023, at 9 a.m. Eastern Standard Time. Interested parties may listen to an audio webcast through a link on the Company's Investor Relations website at ir.amwater.com. Presentation slides that will be used in conjunction with the earnings conference call will also be made available online in advance at ir.amwater.com. The Company recognizes its website as a key channel of distribution to reach public investors and as a means of disclosing material non-public information to comply with its obligations under SEC Regulation FD.

Following the earnings conference call, a replay of the audio webcast will be available for one year on American Water's investor relations website at ir.amwater.com/events.

Non-GAAP Financial Measures

This press release includes a presentation of adjusted regulated O&M efficiency ratio, a "non-GAAP financial measure" under SEC rules, which excludes from its calculation estimated purchased water revenues and purchased water expenses, reductions for the amortization of EADIT, and the allocable portion of non-O&M support services costs, mainly depreciation and general taxes. These items were excluded from the O&M efficiency ratio calculation as they do not reflect management's ability to increase the efficiency of the Regulated Businesses. This item is derived from American Water's consolidated financial information but is not presented in its financial statements prepared in accordance with GAAP. This non-GAAP financial measure supplements and should be read in conjunction with the Company's GAAP disclosures and should be considered as an addition to, and not a substitute for, any GAAP measure.

Management evaluates its operating performance using this ratio and believes that this non-GAAP financial measure is useful to the Company's investors because it directly measures improvement in the operating performance and efficiency of the Company's Regulated Businesses. The Company's adjusted regulated O&M efficiency ratio (i) is not an accounting measure that is based on GAAP; (ii) is not based on a standard, objective industry definition or method of calculation; (iii) may not be comparable to other companies' operating measures; and (iv) should not be used in place of the GAAP information provided elsewhere in this press release.

Set forth in this release is a table that calculates the Company's adjusted regulated O&M efficiency ratio and reconciles each of the components used to calculate this ratio to the most directly comparable GAAP financial measure.

About American Water

With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly-traded water and wastewater utility company. The Company employs approximately 6,500 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to over 14 million people in 24 states. More information can be found by visiting amwater.com and follow American Water on Twitter, Facebook and LinkedIn.

Throughout this press release, unless the context otherwise requires, references to the "Company" and "American Water" mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements in this press release including, without limitation, 2023 earnings guidance, the Company's long-term financial, growth and dividend targets, future capital needs, the ability to achieve the Company's strategies and goals, including

with respect to its ESG focus, its greenhouse gas emissions reduction goals, and related to the Company's receipt of contingent consideration from the sale of HOS, the repayment of the seller note and the redeployment of the net proceeds from the sale of HOS, the outcome of the Company's pending acquisition activity, the amount and allocation of projected capital expenditures, and estimated revenues from rate cases and other government agency authorizations, are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "outlook," "likely," "uncertain," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "will," "should" and "could" and or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on American Water's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this press release as a result of the factors discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2022, and subsequent filings with the SEC, and because of factors such as: the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates; the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions; changes in customer demand for, and patterns of use of, water and energy, such as may result from conservation efforts, or otherwise; a loss of one or more large industrial or commercial customers due to adverse economic conditions, or other factors; limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors; changes in laws, governmental regulations and policies, including with respect to the environment, health and safety, water quality and water quality accountability, contaminants of emerging concern, public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations; the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulation and policies with respect to data and consumer privacy, security and protection; weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares; the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions; the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of, or maintain and replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses; exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means; the Company's ability to obtain permits and other approvals for projects and construction of various water and wastewater facilities; changes in the Company's capital requirements; the Company's ability to control operating expenses and to achieve operating efficiencies; the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers; the Company's ability to obtain and have delivered adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, power and other fuel, water and other raw materials and to address or mitigate supply chain constraints impacting the Company's business operations; the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to acquiring, closing and successfully integrating regulated operations, the Company's Military Services Group entering into new contracts, price redeterminations and other agreements and contracts, and realizing anticipated benefits and synergies from new acquisitions; risks and uncertainties following the completion of the sale of HOS, including the Company's ability to receive contingent consideration provided for in the HOS sale as well as amounts due, payable and owing to the Company under the seller note when due; risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement and security regulations; cost overruns relating to improvements in or the expansion of the Company's operations; the Company's ability to successfully develop and implement new technologies and to protect related intellectual property; the Company's ability to maintain safe work sites; the Company's exposure to liabilities related to environmental laws and similar matters resulting from, among other things, water and wastewater service provided to customers; the ability of energy providers, state governments and other third parties to achieve or fulfill their greenhouse gas emission reduction goals, including without limitation through stated renewable portfolio standards and carbon transition plans; changes in general economic, political, business and financial market conditions; access to sufficient debt and/or equity capital on satisfactory terms and as needed to support operations and capital expenditures; fluctuations in inflation or interest rates and the Company's ability to address or mitigate the impacts thereof; the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks or other communications by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions; fluctuations in the value of, or assumptions and estimates related to, its benefit plan assets and liabilities, including with respect to its pension and other post-retirement benefit plans, that could increase expenses and plan funding requirements; changes in federal or state general,

income and other tax laws, including (i) future significant tax legislation; and (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs; migration of customers into or out of the Company's service territories and changes in water and energy consumption resulting therefrom; the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, or the assertion by private landowners of similar rights against such utility subsidiaries; any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained; the incurrence of impairment charges, changes in fair value and other adjustments related to the Company's goodwill or the value of its other assets; labor actions, including work stoppages and strikes; the Company's ability to retain and attract highly qualified and skilled employees and/or diverse talent; civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in American Water's annual, quarterly and other SEC filings, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements American Water makes speak only as of the date of this press release. American Water does not have or undertake any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Item 8.01. Other Events.

Illinois Commerce Commission (“ICC”) Approval of Order in Illinois-American Water Company (“Illinois American Water”) General Rate Case

On December 15, 2022, the ICC issued an order (the “Order”) approving the adjustment of base rates requested in a rate case filed on February 10, 2022 by Illinois American Water, a wholly owned subsidiary of American Water Works Company, Inc. (the “Company”). As updated in Illinois American Water’s June 29, 2022 rebuttal filing, the request sought \$83 million in additional annualized revenues excluding previously recovered infrastructure surcharges. The additional revenue requested had been increased in the rebuttal filing to capture higher production costs and expected higher pension and other post-retirement benefit (“OPEB”) costs.

The Order approved a \$67 million annualized increase in water and wastewater system revenues excluding previously recovered infrastructure surcharges, effective January 1, 2023, based on an authorized return on equity (“ROE”) of 9.78%, authorized rate base of \$1,642 million, a common equity ratio of 49.00% and a debt ratio of 51.00%, compared to an authorized ROE of 9.79%, authorized rate base of \$883.4 million, a common equity ratio of 49.80% and a debt ratio of 50.20%, as approved in Illinois American Water’s last rate case effective January 1, 2017. The annualized revenue increase is being driven primarily by (i) over \$1.1 billion of water and wastewater system capital investments since Illinois American Water’s 2017 rate case order that have been completed or are planned through December 31, 2023, (ii) expected higher pension and other OPEB costs, and (iii) increases in production costs, including chemicals, fuel and power costs.

A copy of the press release issued by Illinois American Water on December 19, 2022 to announce the issuance of the ICC’s order has been filed as [Exhibit 99.1](#) hereto and is incorporated herein by reference. References and links to websites and other information contained in the press release are not provided as active hyperlinks, and the information contained in or accessed through these hyperlinks shall not be incorporated into, or form a part of, this Current Report on Form 8-K.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K (or the exhibits thereto) are forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could,” or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on Form 8-K as a result of the factors discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2021, as filed with the Securities and Exchange Commission (the “SEC”) on February 16, 2022, and other filings with the SEC, and additional risks and uncertainties, including with respect to (1) the amount and timing of incremental future capital expenditures and investments to be made by Illinois American Water; (2) regulatory, legislative, local or municipal actions affecting the water and wastewater industries, which could adversely affect the Company or Illinois American Water; and (3) other economic, financial, political, business and other factors that may impact or affect the water and wastewater industries generally, the Company or Illinois American Water specifically.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in the Company’s annual and quarterly reports as filed with the SEC, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date of this Current Report on Form 8-K. The Company does not have any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for us to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company’s or Illinois American Water’s business, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Press Release

Illinois American Water Granted New Rates by Illinois Commerce Commission

*Rate Adjustment Driven by Over \$1.1 Billion of System Upgrades;
New Low-Income Discount Tariff Approved*

Belleville, Ill. (Dec. 19, 2022) — On Dec. 15, 2022, the Illinois Commerce Commission (ICC) issued an order adjusting base rates for Illinois American Water, effective Jan. 1, 2023. The rate change request, which was filed in Feb. 2022, was driven primarily by over \$1.1 billion in completed or planned investment, reflecting approximately \$948 million in water system improvements and \$204 million in wastewater system improvements in Illinois from 2018 through 2023.

The rate order will result in a total annualized revenue increase of approximately \$67 million. The additional revenues will support continued investment in critical water and wastewater infrastructure throughout the state, including the replacement, lining and installation of approximately 141 miles of aging water and wastewater pipelines. Investments would also include, among others, upgrading water and wastewater treatment plants, storage tanks, wells, pumping stations, fire hydrants, meters and manholes across the state.

“By making prudent, ongoing investments to maintain and upgrade our water and wastewater systems, Illinois American Water is committed to the safety and reliability of our systems in the communities we serve,” said Rebecca Losli, Illinois American Water president.

The last change in Illinois American Water base rates for water and wastewater service occurred in 2017. The amount of the rate change customers will experience will vary among the company’s operating districts. The monthly water service bill for the typical residential customer using 3,500 gallons per month with a 5/8-inch meter will increase between \$3 and \$16 per month, depending on the service area. The typical residential wastewater bill will increase between \$25 and \$36 per month, depending on the service area. Customers will receive communication in their Illinois American Water bill further explaining the rate change.

In addition to the rate adjustment, the ICC approved Illinois American Water’s request for a low-income discount tariff. A combined wastewater collection and treatment bill for the typical qualifying residential customer could decrease by about \$13 to \$26 a month, depending on the service area. A typical qualifying residential water service bill could decrease by about \$12 to \$24 a month, depending on the service area.

“The low-income discount tariff reflects our commitment to affordability for our customers, in addition to the critical investments in our systems to maintain public health,” said Losli. “We remain steadfastly committed to addressing the needs of our most vulnerable customers and supporting affordability.”

Item 8.01. Other Events.

Pennsylvania Public Utility Commission (“PaPUC”) Approval of Settlement in Pennsylvania-American Water Company (“Pennsylvania American Water”) General Rate Case

On December 8, 2022, the PaPUC issued an order (the “Order”) approving the joint settlement of the rate case filed on April 29, 2022 by Pennsylvania American Water, a subsidiary of American Water Works Company, Inc. (the “Company”). The original filing requested a \$173 million increase in annualized water and wastewater revenues. The “black box” settlement was entered into on October 11, 2022 among Pennsylvania American Water, the PaPUC’s Bureau of Investigation and Enforcement, the Pennsylvania Office of Consumer Advocate, the Pennsylvania Small Business Advocate and the other parties to the general rate case. The Order approves a \$138 million annualized increase in water and wastewater revenues and authorizes implementation of the new water and wastewater rates effective January 28, 2023. The annualized revenue increase is driven primarily by (i) over \$1 billion of incremental capital investments since Pennsylvania American Water’s 2021 rate case order that will be completed through December 31, 2023, (ii) increases in pension and other post-employment benefits (“OPEB”) expense, and (iii) increases in production costs, including chemicals, fuel and power costs. The Order also includes recovery of Pennsylvania American Water’s COVID-19 deferral balance.

Pennsylvania American Water’s current rate base of \$5.1 billion reflects inclusion of the public water and wastewater collection and treatment system assets acquired by Pennsylvania American Water since the 2021 rate case order. Pennsylvania American Water’s view of its return on equity (“ROE”), common equity ratio and long-term debt ratio is 10.0%, 55.20% and 44.80%, respectively, each of which is based on the Order but was not disclosed therein, compared to an ROE of 9.9%, common equity ratio of 55.24% and long-term debt ratio of 44.76%, which were Pennsylvania American Water’s views based on its 2021 rate case order.

A copy of the press release issued by Pennsylvania American Water on December 8, 2022 to announce the issuance of the PaPUC’s order has been filed as [Exhibit 99.1](#) hereto and is incorporated herein by reference. References and links to websites and other information contained in the press release are not provided as active hyperlinks, and the information contained in or accessed through these hyperlinks shall not be incorporated into, or form a part of, this Current Report on Form 8-K.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K (or the exhibits thereto) are forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could,” or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on Form 8-K as a result of the factors discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2021, as filed with the Securities and Exchange Commission (the “SEC”) on February 16, 2022, and other filings with the SEC, and additional risks and uncertainties, including with respect to (1) the amount and timing of incremental future capital expenditures and investments to be made by Pennsylvania American Water; (2) regulatory, legislative, local or municipal actions affecting the water and wastewater industries, which could adversely affect the Company or Pennsylvania American Water; and (3) other economic, financial, political, business and other factors that may impact or affect the water and wastewater industries generally, the Company or Pennsylvania American Water specifically.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in the Company’s annual and quarterly reports as filed with the SEC, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date of this Current Report on Form 8-K. The Company does not have any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for us to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company’s or Pennsylvania American Water’s business, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Press Release

Settlement Approved in Pennsylvania American Water Rate Request

April 2022 rate request driven by more than \$1 billion in system investments to address aging water and wastewater infrastructure; includes enhanced customer assistance programs

MECHANICSBURG, Pa. (Dec. 8, 2022) – The Pennsylvania Public Utility Commission (PUC) today approved the joint settlement agreement that was filed in Oct. 2022 by all active parties in the case, including the company, PUC Bureau of Investigation and Enforcement, Office of Consumer Advocate, Office of Small Business Advocate, large industrial customers and low-income customer advocates. In the filing, each of the involved parties indicated that the settlement and associated rates were fair, just, reasonable and in the public interest.

The terms of the approved settlement agreement include a total annualized revenue increase of \$138 million and expanded customer assistance funding. The agreement also includes certain water main extension projects, an accelerated lead service line replacement program to more than double the annual replacement rate and delayed effective dates for acquired systems with rate freezes in place.

When new rates take effect on Jan. 28, 2023, the monthly water bill for the average residential customer will increase by about \$9, and the average monthly residential wastewater bill will increase by about \$30. Rates for the recently acquired systems of Royersford Borough, Valley Township, Foster Township and City of York are proposed to take effect at later dates in accordance with their respective acquisition agreements.

“We are pleased the PUC has approved this settlement, which reflects carefully negotiated terms that balance the customer’s interest with the much-needed ongoing investments made by the company,” said Pennsylvania American Water President Justin Ladner. “We also appreciate the diligence of all parties in the case that supported our company’s robust commitments to additional customer assistance funding and more targeted bill discounts to address affordability as it relates to household income.”

Through its H2O Help to Others Program™, the company provides financial assistance to low-income customers who qualify, including emergency grants, bill discounts and water-saving devices and education. To continue addressing affordability, the agreement approved today includes an expanded, three-tiered approach to the company’s current low-income discount program. Under this expanded program, eligible households will receive monthly bill discounts of between 30 and 80 percent for water and wastewater service. Last year, customers received approximately \$4.5 million in bill discounts under this program. As part of the agreement, the company will also increase its annual contribution to the H2O Help to Others grant program from \$600,000 to \$750,000.

Press Release

“As a company, we believe that the service we provide must be safe, reliable for fire protection, and resilient in the face of floods, droughts, and other weather-related risks,” continued Ladner. “At the same time, it also must be affordable, which is why we are an industry leader in customer assistance programs. We also cannot underestimate the importance of the environmental improvements achieved through our significant wastewater system investments, which improve the quality of our rivers and streams. We continue seeking ways to accomplish all of these simultaneously, and we believe that the agreement approved today does just that.”

Pennsylvania American Water filed its rate request with the PUC on Apr. 29, 2022, seeking to adjust its rates by approximately \$173 million for the over \$1 billion in water and wastewater system investments the company will make through 2023 to continue providing safe and reliable service.

About Pennsylvania American Water

Pennsylvania American Water, a subsidiary of American Water (NYSE: AWK), is the largest investor-owned water utility in the state, providing high-quality and reliable water and wastewater services to approximately 2.4 million people.

About American Water

With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs approximately 6,400 dedicated professionals who provide regulated and regulated-like drinking water and wastewater services to an estimated 14 million people in 24 states. American Water provides safe, clean, affordable and reliable water services to our customers to help keep their lives flowing. For more information, visit amwater.com and follow American Water on Twitter, Facebook and LinkedIn.

Common stock, par value \$0.01 per share	AWK	New York Stock Exchange

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (17 CFR 230.405) or Rule 12b-2 of the Securities Exchange Act of 1934 (17 CFR 240.12b-2).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(d) At a special meeting held on December 7, 2022 (the “Special Meeting”), the Board of Directors (the “Board”) of American Water Works Company, Inc. (the “Company”) increased the size of the Board from nine to 11 members. To fill these vacancies, upon the recommendation of the Nominating/Corporate Governance Committee (the “Nominating Committee”) of the Board, the Board appointed Laurie P. Havanec and Michael L. Marberry as independent directors, with a term beginning immediately after the Special Meeting and ending on the date of the Company’s 2023 Annual Meeting of Shareholders (the “Annual Shareholder Meeting”), or until such director’s earlier death, resignation or removal. The Board also appointed Ms. Havanec to the Executive Development and Compensation Committee and the Safety, Environmental, Technology and Operations (“SETO”) Committee, and Mr. Marberry to the Audit, Finance and Risk Committee and the SETO Committee, which appointments took effect immediately after the Special Meeting.

In accordance with the Board’s compensation arrangements currently in effect, Ms. Havanec and Mr. Marberry will each receive an annual base cash retainer of \$115,000, payable quarterly and prorated for the director’s period of service in 2022, as well as reimbursement for expenses incurred in attending Board and committee meetings and reimbursement for attending one continuing director education program per year. Each director will also be paid, for service from December 7, 2022 until the Annual Shareholder Meeting, in stock units to be granted under the Company’s 2017 Omnibus Equity Compensation Plan, each of which represents a vested contractual right to receive one share of the Company’s common stock within 30 days following the date specified in the stock unit grant document. The stock units represent the prorated portion of \$150,000 in annual equity compensation for the director’s period of service through the date of the Annual Shareholder Meeting.

Neither Ms. Havanec nor Mr. Marberry has any direct or indirect material interest in any transaction in which the Company is or is to be a participant and which would require reporting under Item 404(a) of Regulation S-K. Other than as described above, there are no arrangements or understandings between either Ms. Havanec or Mr. Marberry and any other person, pursuant to which the directors were selected as such.

Item 5.03. Amendments to Articles of Incorporation or Bylaws; Change in Fiscal Year.

(a) On December 7, 2022, in connection with the periodic review of the Company’s bylaws and the effectiveness of new Securities and Exchange Commission rules regarding universal proxy cards (the “Universal Proxy Rules”), and upon the recommendation of the Nominating Committee, the Board approved the amendment and restatement of the Company’s Amended and Restated Bylaws (as so amended and restated, the “Bylaws”), effective immediately. These amendments serve to (i) align the advance notice provisions contained in the Bylaws related to the nomination of director candidates by shareholders with the substantive requirements of the Universal Proxy Rules, and (ii) require that candidates for nomination and nominating persons (as defined in the Bylaws) provide to the Company certain agreements and undertakings. As a condition to the use of the Universal Proxy Rules, a nominating person and each candidate for nomination must satisfy all of the applicable requirements in the Bylaws with respect to such director nomination. In addition, the Bylaws incorporate changes in furtherance of gender neutrality, and include certain conforming changes and other technical, non-substantive or clarifying amendments.

The foregoing description of the Bylaws does not purport to be complete and is qualified in its entirety by reference to the full text thereof, which has been filed as [Exhibit 3.1](#) to this Current Report on Form 8-K and is incorporated herein by reference.

Item 7.01. Regulation FD Disclosure.

On December 8, 2022, the Company issued a press release announcing the election of Ms. Havanec and Mr. Marberry as new independent members of the Board. A copy of the press release has been included as [Exhibit 99.1](#) and is incorporated by reference herein.

The information furnished in response to this Item 7.01, including [Exhibit 99.1](#), shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), nor shall such information be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended (the “Securities Act”), or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

**AMENDED AND RESTATED
BYLAWS OF**

AMERICAN WATER WORKS COMPANY, INC.
a Delaware corporation

As adopted on and with effect from December 7, 2022

ARTICLE I

Offices

SECTION 1. Registered Office. The registered office of American Water Works Company, Inc. (the "Corporation") in the State of Delaware shall be located in the City of Wilmington.

SECTION 2. Principal Office. The principal office for the transaction of the business of the Corporation shall be at such place as the Board of Directors of the Corporation (the "Board of Directors" or the "Board") may determine. The Board is hereby granted full power and authority to change said principal office from one location to another.

SECTION 3. Other Offices. The Corporation may also have and maintain offices in such other places, within or without the State of Delaware, as the Board may, from time to time, determine or as the business of the Corporation may require.

ARTICLE II

Meetings of Stockholders

SECTION 1. Annual Meetings. The annual meeting of the stockholders for the election of directors and for such other business as may properly come before the meeting in accordance with all applicable requirements of these Bylaws and the General Corporation Law of the State of Delaware, as amended from time to time ("DGCL"), shall be held at such place (within or without the State of Delaware), date (which date shall not be a legal holiday in the place where the meeting is to be held) and hour as shall be designated by resolution of the Board adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time such resolution is presented to the Board for adoption). The Board may, in its sole discretion, determine that the meeting shall not be held at any place, but may instead be held solely by means of remote communication as provided under the DGCL.

SECTION 2. Notice of Meetings. Each stockholder of record of each class of stock of the Corporation then outstanding and entitled to vote at any meeting of stockholders shall be given written notice of such meeting, which notice shall state the place, date and hour of the meeting, and, in the case of a special meeting, the purpose or purposes for which the meeting is called. Except as otherwise expressly required by law, notice of each meeting of stockholders shall be given not less than ten (10) nor more than sixty (60) days before the date of such meeting to each stockholder entitled to vote at such meeting. An affidavit of the Secretary or an

Assistant Secretary of the Corporation or of the transfer agent or other agent of the Corporation that the notice has been given shall, in the absence of fraud, be prima facie evidence of the facts stated therein. Notice given by electronic transmission shall only be valid if it complies with Section 232 of the DGCL.

SECTION 3. Notice of Business to be Brought Before a Meeting.

(a) At an annual meeting of the stockholders, only such business shall be conducted as shall have been properly brought before the meeting. To be properly brought before an annual meeting, such business must be (i) specified in a notice of meeting given by or at the direction of the Board of Directors, (ii) if not specified in a notice of meeting (or any supplement thereto), otherwise brought before the meeting by the Board of Directors or the Board Chair, or (iii) otherwise properly brought before the meeting by a stockholder present in person who (A) was a beneficial owner of shares of the Corporation both at the time of giving the notice provided for in this Section 3 and at the time of the meeting, (B) is entitled to vote at the meeting, and (C) has complied with this Section 3 in all applicable respects. For the avoidance of doubt, subject to Article II, Section 6, except for proposals properly made in accordance with Rule 14a-8 (and interpretations thereunder) promulgated under the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder (the "Exchange Act"), and included in the notice of meeting given by or at the direction of the Board of Directors, clause (iii) above shall be the exclusive means for a stockholder to bring business before an annual meeting of stockholders. For purposes of this Section 3, "present in person" shall mean that the stockholder proposing that the business be brought before the annual meeting of the Corporation, or, if the proposing stockholder is not an individual, a qualified representative of such proposing stockholder, appear at such annual meeting. For purposes of these Bylaws, a "qualified representative" of a stockholder shall be (i) if such stockholder is a general or limited partnership, any general partner or person who functions as a general partner of the general or limited partnership or who controls the general or limited partnership, (ii) if such stockholder is a corporation or a limited liability company, any officer or person who functions as an officer of the corporation or limited liability company or any officer, director, general partner or person who functions as an officer, director or general partner of any entity ultimately in control of the corporation or limited liability company or (iii) if such stockholder is a trust, any trustee of such trust. Stockholders seeking to nominate persons for election to the Board of Directors must comply with Section 4 and Section 5, and this Section 3 shall not be applicable to such nominations except as expressly provided in Section 4 and Section 5.

(b) Without qualification, for business to be properly brought before an annual meeting by a stockholder, the stockholder must (i) provide a Timely Notice (as defined below) thereof in writing and in proper form to the Secretary of the Corporation, and (ii) provide any updates or supplements to such notice at the times and in the forms required by this Section 3. To be timely, a stockholder's notice must be delivered to, or mailed to and received at, the principal executive offices of the Corporation not less than ninety (90) days nor more than one hundred twenty (120) days prior to the one-year anniversary of the preceding year's annual meeting; *provided, however*, that if the date of the annual meeting is more than thirty (30) days before or more than sixty (60) days after such anniversary date, notice by the stockholder to be timely must be so delivered, or mailed and received, not later than the ninetieth (90th) day prior to such annual meeting or, if later, the tenth (10th) day following the day on which public disclosure (as defined in Section 3(h) below) of the date of such annual meeting was first made

(a notice satisfying the time period requirements of this Section 3(b) is referred to as a “Timely Notice”). In no event shall any adjournment or postponement of an annual meeting or the announcement thereof commence a new time period for the giving of Timely Notice as described above.

(c) To be in proper form for purposes of this Section 3, a stockholder’s notice to the Secretary shall set forth:

(i) As to each Proposing Person (as defined below), (A) the name and address of such Proposing Person (including, if applicable, the name and address that appear on the Corporation’s books and records); (B) the class or series and number of shares of the Corporation that are, directly or indirectly, owned of record or beneficially owned (within the meaning of Rule 13d-3 under the Exchange Act) by such Proposing Person, except that such Proposing Person shall in all events be deemed to beneficially own any shares of any class or series of the Corporation as to which such Proposing Person has a right to acquire beneficial ownership at any time in the future; (C) a representation that the stockholder intends to appear in person or by qualified representative at the meeting to propose the business described in the Timely Notice; and (D) a representation as to whether the stockholder intends or is part of a group which intends (x) to deliver a proxy statement and/or form of proxy to holders of at least the percentage of the Corporation’s outstanding capital stock required to approve the proposed business described in the Timely Notice and/or (y) otherwise to solicit proxies from stockholders in support of such proposed business (the disclosures to be made pursuant to the foregoing clauses (A), (B), (C) and (D) are referred to as “Stockholder Information”);

(ii) As to each Proposing Person, (A) the full notional amount of any securities that, directly or indirectly, underlie any “derivative security” (as such term is defined in Rule 16a-1(c) under the Exchange Act) that constitutes a “call equivalent position” (as such term is defined in Rule 16a-1(b) under the Exchange Act) (a “Synthetic Equity Position”) and that is, directly or indirectly, held or maintained by such Proposing Person with respect to any shares of any class or series of shares of the Corporation; *provided that*, for the purposes of the definition of “Synthetic Equity Position,” the term “derivative security” shall also include any security or instrument that would not otherwise constitute a “derivative security” (as such term is defined in Rule 16a-1(c) under the Exchange Act) as a result of any feature that would make any conversion, exercise or similar right or privilege of such security or instrument becoming determinable only at some future date or upon the happening of a future occurrence, in which case the determination of the amount of securities into which such security or instrument would be convertible or exercisable shall be made assuming that such security or instrument is immediately convertible or exercisable at the time of such determination; and, *provided, further*, that any Proposing Person satisfying the requirements of Rule 13d-1(b) (1) under the Exchange Act (other than a Proposing Person that so satisfies Rule 13d-1(b)(1) under the Exchange Act solely by reason of Rule 13d-1(b)(1)(ii)(E)) shall not be deemed to hold or maintain the notional amount of any securities that underlie a Synthetic Equity Position held by such Proposing Person as a hedge with respect to a *bona fide* derivatives trade or position of such Proposing Person arising in the ordinary course of such Proposing Person’s business as a derivatives dealer, (B) any rights to dividends on the shares of any class or series of shares of the Corporation owned

beneficially by such Proposing Person that are separated or separable from the underlying shares of the Corporation, (C) any material pending or threatened legal proceeding in which such Proposing Person is a party or material participant involving the Corporation or any of its officers or directors, or any affiliate of the Corporation, (D) any other material relationship between such Proposing Person, on the one hand, and the Corporation, any affiliate of the Corporation or any significant competitor of the Corporation, on the other hand, (E) any direct or indirect material interest in any material contract or agreement of such Proposing Person with the Corporation, any affiliate of the Corporation or any significant competitor of the Corporation (including, in any such case, any employment agreement, collective bargaining agreement or consulting agreement) and (F) any other information relating to such Proposing Person that would be required to be disclosed in a proxy statement or other filing required to be made in connection with solicitations of proxies or consents by such Proposing Person in support of the business proposed to be brought before the meeting pursuant to Section 14(a) of the Exchange Act (the disclosures to be made pursuant to the foregoing clauses (A) through (F) are referred to as “Disclosable Interests”); *provided, however*, that Disclosable Interests shall not include any such disclosures with respect to the ordinary course business activities of any broker, dealer, commercial bank, trust company or other nominee who is a Proposing Person solely as a result of being the stockholder directed to prepare and submit the notice required by these Bylaws on behalf of a beneficial owner; and

(iii) As to each item of business that the stockholder proposes to bring before the annual meeting, (A) a brief description of the business desired to be brought before the annual meeting, the reasons for conducting such business at the annual meeting and any material interest in such business of each Proposing Person, (B) the text of the proposed business (including the text of any resolutions proposed for consideration), and (C) a reasonably detailed description of all agreements, arrangements and understandings (x) between or among any of the Proposing Persons or (y) between or among any Proposing Person and any other person or entity (including their names) in connection with the proposal of such business by such stockholder, including without limitation any agreements that would be required to be disclosed pursuant to Item 5 or Item 6 of a Schedule 13D that would be filed pursuant to the Exchange Act (regardless of whether the requirement to file a Schedule 13D is applicable to the Proposing Person or other person or entity); and (D) any other information relating to such item of business that would be required to be disclosed in a proxy statement or other filing required to be made in connection with solicitations of proxies in support of the business proposed to be brought before the meeting pursuant to Section 14(a) of the Exchange Act; *provided, however*, that the disclosures required by this paragraph (iii) shall not include any disclosures with respect to any broker, dealer, commercial bank, trust company or other nominee who is a Proposing Person solely as a result of being the stockholder directed to prepare and submit the notice required by these Bylaws on behalf of a beneficial owner.

For purposes of this Section 3, the term “Proposing Person” shall mean (i) the stockholder providing the notice of business proposed to be brought before an annual meeting, (ii) the beneficial owner or beneficial owners, if any, on whose behalf the notice of the business proposed to be brought before the annual meeting is made, (iii) any participant (as defined in paragraphs (a)(ii)-(vi) of Instruction 3 to Item 4 of Schedule 14A, or any successor instructions) with such stockholder or beneficial owner in such solicitation of proxies in respect of any such

proposed business, (iv) any “affiliate” of such stockholder (for purposes of these Bylaws, such term shall have the definition provided for in Rule 12b-2 under the Exchange Act) or beneficial owner; and (v) any person controlling, controlled by or under common control with any person referred to in clauses (i) and (ii) above.

(d) A Proposing Person shall update and supplement its notice to the Corporation of its intent to propose business at an annual meeting, if necessary, so that the information provided or required to be provided in such notice pursuant to this Section 3 shall be true and correct (i) as of the record date for the determination of persons entitled to receive notice of the meeting and (ii) the date that is five (5) business days prior to the meeting and, in the event of any adjournment or postponement thereof, five (5) business days prior to such adjourned or postponed meeting. In the case of an update and supplement pursuant to clause (i) of this Section, such update and supplement shall be received by the Secretary at the principal executive offices of the Corporation not later than eight (8) business days after the record date for the determination of persons entitled to receive notice of the meeting. In the case of an update and supplement pursuant to clause (ii) above, such update and supplement shall be delivered to, or mailed and received by, the Secretary at the principal executive offices of the Corporation not later than two (2) business days prior to the date for the meeting, and, in the event of any adjournment or postponement thereof, two (2) business days prior to such adjourned or postponed meeting. For purposes of these Bylaws, the term “business day” shall mean any day that is not a Saturday or Sunday, a Federal or state legal holiday in the state of the Corporation’s principal place of business, or a day on which banks in the city of the Corporation’s principal place of business are required or permitted to close.

(e) Notwithstanding anything in these Bylaws to the contrary (other than the provisions of Section 3(g) hereof relating to any proposal made in accordance with Rule 14a-8 under the Exchange Act and included in the proxy statement), no business shall be conducted at an annual meeting that is not properly brought before the meeting in accordance with this Section 3. The presiding officer of the meeting shall, if the facts warrant, determine that the business was not properly brought before the meeting in accordance with this Section 3, and if such presiding officer should so determine, such presiding officer shall so declare to the meeting and any such business not properly brought before the meeting shall not be transacted. In addition, business proposed to be brought by a stockholder may not be brought before the annual meeting if such stockholder takes action contrary to the representations made in the stockholder notice applicable to such business or if the stockholder notice applicable to such business contains an untrue statement of a material fact or omits to state a material fact necessary to make the statements therein not misleading.

(f) Notwithstanding any notice of the annual meeting sent to stockholders on behalf of the Corporation, a stockholder must comply with this Section 3 to conduct business at any annual meeting. If the stockholder’s proposed business is the same or relates to business brought by the Corporation and included in its annual meeting notice, the stockholder is nevertheless required to comply and give its own separate and timely written notice to the Secretary pursuant to this Section 3.

(g) This Section 3 is expressly intended to apply to any business proposed to be brought before an annual meeting of stockholders other than any proposal made in accordance with Rule 14a-8 under the Exchange Act and included in the Corporation’s proxy statement. In

addition to the requirements of this Section 3 with respect to any business proposed to be brought before an annual meeting, each Proposing Person shall comply with all applicable requirements of the Exchange Act with respect to any such business. Nothing in this Section 3 shall be deemed to affect any rights of (1) a stockholder to request inclusion of proposals in the Corporation's proxy statement pursuant to Rule 14a-8 (or any successor provision) under the Exchange Act or (2) the Corporation to omit a proposal from the Corporation's proxy statement pursuant to Rule 14a-8 (or any successor provision) under the Exchange Act.

(h) For purposes of these Bylaws, "public disclosure" shall mean disclosure (i) in a press release issued through a national news or wire service, (ii) in a document publicly filed by the Corporation with the Securities and Exchange Commission (the "SEC") pursuant to Sections 13, 14 or 15(d) of the Exchange Act, or (iii) another method reasonably intended by the Corporation to achieve broad-based dissemination of the information contained therein.

SECTION 4. Notice of Nominations for Election to the Board of Directors.

(a) Nominations of any person for election to the Board of Directors at an annual meeting or at a special meeting (but only if the election of directors is a matter specified in the notice of meeting given by or at the direction of the person calling such special meeting) may be made at such meeting only (i) by or at the direction of the Board of Directors, including by any committee or persons authorized to do so by the Board of Directors or these Bylaws, or (ii) by a stockholder present in person (A) who was a beneficial owner of shares of the Corporation both at the time of giving the notice provided for in this Section 4 and at the time of the meeting, (B) is entitled to vote at the meeting, and (C) has complied with this Section 4 and Section 5 as to such notice and nomination. For purposes of this Section 4, "present in person" shall mean that the stockholder proposing that the business be brought before the meeting of the Corporation, or, if the proposing stockholder is not an individual, a qualified representative (as defined in Section 3(a) hereof) of such stockholder, appear at such meeting. Other than as provided in Section 6 below, the foregoing clause (ii) shall be the exclusive means for a stockholder to make any nomination of a person or persons for election to the Board of Directors at an annual meeting or special meeting.

(b) Without qualification, for a stockholder to make any nomination of a person or persons for election to the Board of Directors at an annual meeting, the stockholder must (A) provide Timely Notice (as defined in Section 3) thereof in writing and in proper form to the Secretary of the Corporation, (B) provide the information, agreements and questionnaires with respect to such stockholder and its candidate for nomination as required to be set forth by this Section 4 and Section 5 and (C) provide any updates or supplements to such notice at the times and in the forms required by this Section 4 and Section 5.

(c) Without qualification, if the election of directors is a matter specified in the notice of meeting given by or at the direction of the person calling a special meeting, then for a stockholder to make any nomination of a person or persons for election to the Board of Directors at a special meeting, the stockholder must (i) provide timely notice thereof in writing and in proper form to the Secretary of the Corporation at the principal executive offices of the Corporation, (ii) provide the information with respect to such stockholder and its candidate for nomination as required by this Section 4 and Section 5 and (iii) provide any updates or supplements to such notice at the times and in the forms required by this Section 4. To be timely,

a stockholder's notice for nominations to be made at a special meeting must be delivered to, or mailed and received at, the principal executive offices of the Corporation not earlier than the one hundred twentieth (120th) day prior to such special meeting and not later than the ninetieth (90th) day prior to such special meeting or, if later, the tenth (10th) day following the day on which public disclosure (as defined in Section 3(h)) of the date of such special meeting was first made.

(d) In no event shall any adjournment or postponement of an annual meeting or special meeting or the announcement thereof commence a new time period for the giving of a stockholder's notice as described above.

(e) Notwithstanding any provision of this Section 4 to the contrary, in the event that the number of directors to be elected to the Board of Directors at the next annual meeting of stockholders is increased by virtue of an increase in the size of the Board of Directors and either all of the nominees for director at the next annual meeting of stockholders or the size of the increased Board of Directors is not publicly announced or disclosed by the Corporation at least one hundred (100) days prior to the first anniversary of the preceding year's annual meeting, a stockholder notice shall also be considered timely hereunder, but only with respect to nominees to stand for election at the next annual meeting as the result of any new positions created by such increase, if it is delivered to the Secretary at the principal place of business of the Corporation not later than the close of business on the tenth (10th) day following the first day on which all such nominees or the size of the increased Board shall have been publicly announced or disclosed by the Corporation.

(f) To be in proper form for purposes of this Section 4, a stockholder's notice to the Secretary shall set forth:

(i) As to each Nominating Person (as defined below), the Stockholder Information (as defined in Section 3(c)(i)), except that for purposes of this Section 4 the term "Nominating Person" shall be substituted for the term "Proposing Person" in all places it appears in Section 3(c)(i);

(ii) As to each Nominating Person, any Disclosable Interests (as defined in Section 3(c)(ii)), except that for purposes of this Section 4 the term "Nominating Person" shall be substituted for the term "Proposing Person" in all places it appears in Section 3(c)(ii) and the disclosure with respect to the business to be brought before the meeting in Section 3(c)(ii) shall be made with respect to the election of directors at the meeting);

(iii) Where the Nominating Person intends to solicit proxies in support of a candidate whom a Nominating Person proposes to nominate for election as a director, the requirements for notice set forth in Rule 14a-19 (and interpretations thereunder) under the Exchange Act, and the rules and regulations thereunder;

(iv) As to each candidate whom a Nominating Person proposes to nominate for election as a director, (A) all information with respect to such candidate for nomination that would be required to be set forth in a stockholder's notice pursuant to this Section 4 and Section 5 if such candidate for nomination were a Nominating Person, (B) all information relating to such candidate for nomination that is required to be disclosed in a

proxy statement, associated proxy card or other filings required to be made in connection with solicitations of proxies for election of directors in a contested election pursuant to Section 14(a) under the Exchange Act (including such candidate's written consent to being named in the proxy statement and any associated proxy card as a nominee and to serving as a director if elected), (C) a description of any direct or indirect material interest in any material contract or agreement between or among any Nominating Person, on the one hand, and each candidate for nomination or such candidate's respective affiliates or associates or any other participants in such solicitation, on the other hand, including, without limitation, all information that would be required to be disclosed pursuant to Item 404 under Regulation S-K if such Nominating Person were the "registrant" for purposes of such rule and the candidate for nomination were a director or executive officer of such registrant (the disclosures to be made pursuant to the foregoing clauses (A) through (C) are referred to as "Nominee Information"), and (D) a completed and signed questionnaire, representation and agreement as provided in Section 5(a).

For purposes of this Section 4, the term "Nominating Person" shall mean: (i) the stockholder providing the notice of the nomination proposed to be made at the meeting, (ii) the beneficial owner or beneficial owners, if different, on whose behalf the notice of the nomination proposed to be made at the meeting is made, (iii) any participant (as defined in paragraphs (a)(ii)-(vi) of Instruction 3 to Item 4 of Schedule 14A, or any successor instruction) with such stockholder or beneficial owner in any solicitation of proxies in respect of any such proposed nomination, (iv) any affiliate of such stockholder, and (v) any person controlling, controlled by or under common control with any person referred to in the preceding clauses (i) and (ii).

(g) A stockholder providing notice of any nomination proposed to be made at a meeting shall further update and supplement such notice, if necessary, so that the information provided or required to be provided in such notice pursuant to this Section 4 and Section 5 shall be true and correct (i) as of the record date for the determination of persons entitled to receive notice of the meeting and (ii) the date that is five (5) business days prior to the meeting and, in the event of any adjournment or postponement thereof, five (5) business days prior to such adjourned or postponed meeting. In the case of an update and supplement pursuant to clause (i) of this Section, such update and supplement shall be received by the Secretary at the principal executive offices of the Corporation not later than eight (8) business days after the record date for the determination of persons entitled to receive notice of the meeting. In the case of an update and supplement pursuant to clause (ii) above, such update and supplement shall be delivered to, or mailed and received by, the Secretary at the principal executive offices of the Corporation not later than two (2) business days prior to the date for the meeting, and, in the event of any adjournment or postponement thereof, two (2) business days prior to such adjourned or postponed meeting.

(h) In addition to the requirements of this Section 4 and Section 5 with respect to any nomination proposed to be made at a meeting, each Nominating Person shall comply with all applicable requirements of the Exchange Act and the DGCL with respect to any such nominations.

(i) Notwithstanding any notice of the annual meeting sent to stockholders on behalf of the Corporation, a stockholder must comply with this Section 4 and Section 5 to propose director nominations at any annual meeting.

SECTION 5. Additional Requirements for Valid Nomination of Candidates to Serve as Director and, if Elected, to be Seated as Directors.

(a) To be eligible to be a candidate for election as a director of the Corporation at an annual or special meeting, a candidate must be nominated in the manner prescribed in Section 4 and, in addition to any other requirements of these Bylaws:

(i) the candidate for nomination, whether nominated by the Board of Directors or by a stockholder, must have previously delivered (in accordance with the time period prescribed for delivery in a notice to such candidate given by or on behalf of the Board of Directors) to the Secretary at the principal executive offices of the Corporation: (A) a completed written questionnaire (in a form provided by the Corporation upon written request) with respect to the background, qualifications, stock ownership and independence of such proposed nominee, and (B) a written representation and agreement (in form provided by the Corporation upon written request) that such candidate for nomination (1) is not and, if elected as a director during such candidate's term of office, will not become a party to (x) any agreement, arrangement or understanding with, and has not given and will not give any commitment or assurance to, any person or entity as to how such proposed nominee, if elected as a director of the Corporation, will act or vote on any issue or question (a "Voting Commitment") that has not been disclosed therein to the Corporation, or (y) any Voting Commitment that could limit or interfere with such proposed nominee's ability to comply, if elected as a director of the Corporation, with such proposed nominee's fiduciary duties under applicable law, (2) is not and will not become a party to any agreement, arrangement or understanding with any person or entity other than the Corporation with respect to any direct or indirect compensation, reimbursement or indemnification in connection with service or action as a director that has not been disclosed therein; and (3) would be in compliance, if elected as a director of the Corporation, and will comply with all applicable corporate governance, code of conduct, conflict of interest, confidentiality, stock ownership and trading and other policies and guidelines of the Corporation applicable to directors and in effect during such person's term in office as a director (and, if requested in writing by any candidate for nomination, the Secretary of the Corporation shall provide to such candidate for nomination all such policies and guidelines then in effect);

(ii) the candidate for nomination, whether nominated by the Board of Directors or by a stockholder: (A) shall not be a member of the board of directors of more than two (2) other public companies, and (B) shall not have been (1) convicted in a criminal proceeding, or the named subject in a criminal proceeding that is presently pending (other than traffic violations and other minor offenses), (2) the subject of any order, judgment or decree, not subsequently reversed, suspended or vacated, of any federal or state court or other authority, or any professional disciplinary body, which enjoined or otherwise limited such candidate from engaging in any activity in connection with the purchase or sale of any security or commodity, or the right to be associated with persons engaged in any such activities, or finding that such candidate has violated any

federal or state securities laws or federal commodities laws, (3) the subject of any sanction or order, not subsequently reversed, suspended or vacated, of any self-regulatory organization, any registered entity, or any equivalent exchange, association, entity or organization that has disciplinary authority over its members or persons associated with a member, (4) suspended or barred from (x) being associated as an officer or director of, or a person serving in a similar capacity with, an issuer, (y) being associated with a public accounting firm, or (z) appearing or practicing as an attorney before the SEC or any similar non-U.S. authority; or (5) engaged, and is not currently engaged, in any conduct for which disclosure thereof by the Corporation would be required pursuant to Regulation S-K assuming the candidate had already been elected as a member of the Board; and

(iii) at the request of the Board of Directors, such other information as may reasonably be required by the Corporation to determine the eligibility of such proposed candidate for nomination to serve as an independent director or audit committee financial expert of the Corporation under applicable law, securities exchange rule or regulation, or any publicly-disclosed corporate governance guideline or committee charter of the Corporation.

(b) No candidate shall be eligible for inclusion on any proxy card unless the Nominating Person seeking to place such candidate's name on the proxy card provides an executed agreement as provided in Section 6(d)(iii) (except that for purposes hereof, the term "Nominating Person" shall be substituted for the term "Nominating Stockholder" in all places it appears in Section 6(d)(iii)), and such candidate provides the agreement set forth in Section 6(d)(iv) (except that for purposes hereof, the term "candidate" shall be substituted for the term "Nominee" in all places it appears in Section 6(d)(iv)).

(c) No candidate shall be eligible for nomination as a director of the Corporation unless such candidate for nomination and the Nominating Person seeking to place such candidate's name in nomination has complied with Section 4 and this Section 5, as applicable. The presiding officer at the meeting shall, if the facts warrant, determine that a nomination was not properly made in accordance with Section 4 and this Section 5, and if the presiding officer should so determine, the presiding officer shall so declare such determination to the meeting, the defective nomination shall be disregarded and any ballots cast for the candidate in question (but in the case of any form of ballot listing other qualified nominees, only the ballots cast for the nominee in question) shall be void and of no force or effect.

(d) Notwithstanding anything in these Bylaws to the contrary, no candidate for nomination shall be eligible to be seated as a director of the Corporation unless the candidate is qualified, nominated and elected in accordance with Article II, Section 4, this Section 5 and Article III, Section 4.

SECTION 6. Proxy Access.

(a) Notwithstanding the provisions of Sections 4 and 5, but subject to the provisions of this Section 6, if any Eligible Stockholder (as defined below) or group of up to twenty (20) Eligible Stockholders submits to the Corporation a Proxy Access Notice (as defined below) that complies with this Section 6 and such Eligible Stockholder or group of Eligible Stockholders otherwise satisfies all the terms and conditions of this Section 6 (such Eligible

Stockholder or group of Eligible Stockholders, a “Nominating Stockholder”), the Corporation shall include in its proxy statement or on its form of proxy and ballot, as applicable (collectively, “proxy materials”), for any annual meeting of stockholders, in addition to any persons nominated for election by the Board of Directors or any committee thereof:

(i) the name of any person or persons nominated by such Nominating Stockholder for election to the Board of Directors at such annual meeting of stockholders who meets the requirements of this Section 6 (a “Nominee”);

(ii) disclosure about the Nominee and the Nominating Stockholder required under the rules of the SEC or other applicable law to be included in the proxy materials;

(iii) subject to the other applicable provisions of this Section 6, a written statement, not to exceed 500 words, that is not contrary to any of the SEC’s proxy rules, including Rule 14a-9 under the Exchange Act (a “Supporting Statement”), included by the Nominating Stockholder in the Proxy Access Notice in support of the Nominee’s election to the Board of Directors; and

(iv) any other information that the Corporation or the Board of Directors determines, in its discretion, to include in the proxy materials relating to the nomination of the Nominee, including, without limitation, any statement in opposition to such nomination and any of the information provided pursuant to this Section 6.

(b)

(i) The Corporation shall not be required to include in the proxy materials for an annual meeting of stockholders more Nominees than that number of directors constituting 20% of the total number of directors of the Corporation on the last day on which a Proxy Access Notice may be submitted pursuant to this Section 6 (rounded down to the nearest whole number, but not less than two (2)) (the “Maximum Number”). The Maximum Number for a particular annual meeting shall be reduced by: (A) the number of Nominees who are subsequently withdrawn or that the Board of Directors itself decides to nominate for election at such annual meeting of stockholders (including, without limitation, any person who is or will be nominated by the Board pursuant to any agreement or understanding with one or more stockholders to avoid such person being formally proposed as a Nominee), and (B) the number of incumbent directors who had been Nominees with respect to any of the preceding two (2) annual meetings of stockholders and whose reelection at the upcoming annual meeting of stockholders is being recommended by the Board (including, without limitation, any person who was nominated by the Board pursuant to any agreement or understanding with one or more stockholders to avoid such person being formally proposed as a Nominee). In the event that one or more vacancies for any reason occurs on the Board of Directors after the deadline set forth in Section 6(d) but before the date of the annual meeting of stockholders, and the Board of Directors resolves to reduce the size of the board of directors in connection therewith, the Maximum Number shall be calculated based on the number of directors as so reduced.

(ii) Any Nominating Stockholder submitting more than one Nominee for inclusion in the Corporation's proxy materials shall rank such Nominees based on the order that the Nominating Stockholder desires such Nominees to be selected for inclusion in the Corporation's proxy materials in the event that the total number of Nominees submitted by Nominating Stockholders exceeds the Maximum Number. In the event that the number of Nominees submitted by Nominating Stockholders exceeds the Maximum Number, the highest ranking Nominee from each Nominating Stockholder will be included in the Corporation's proxy materials until the Maximum Number is reached, going in order from largest to smallest of the number of shares of common stock of the Corporation owned by each Nominating Stockholder as disclosed in each Nominating Stockholder's Proxy Access Notice. If the Maximum Number is not reached after the highest ranking Nominee of each Nominating Stockholder has been selected, this process will be repeated as many times as necessary until the Maximum Number is reached. If, after the deadline for submitting a Proxy Access Notice as set forth in Section 6(d), a Nominating Stockholder ceases to satisfy the requirements of this Section 6 or withdraws its nomination or a Nominee ceases to satisfy the requirements of this Section 6 or becomes unwilling or unable to serve on the Board of Directors, whether before or after the mailing of definitive proxy materials, then the nomination shall be disregarded, and the Corporation: (A) shall not be required to include in its proxy materials the disregarded Nominee and (B) may otherwise communicate to its stockholders, including, without limitation, by amending or supplementing its proxy materials, that the Nominee will not be included as a Nominee in the proxy materials and the election of such Nominee will not be voted on at the annual meeting of stockholders.

(c)

(i) An "Eligible Stockholder" is a person who has either (A) been a record holder of the shares of common stock used to satisfy the eligibility requirements in this Section 6(c) continuously for the three-year period specified in subsection (ii) below or (B) provides to the Secretary, within the time period referred to in Section 6(d), evidence of continuous ownership of such shares for such three-year period from one or more securities intermediaries in a form that satisfies the requirements as established by the SEC for a stockholder proposal under Rule 14a-8 under the Exchange Act.

(ii) An Eligible Stockholder or group of up to twenty (20) Eligible Stockholders may submit a nomination in accordance with this Section 6 only if the person or each member of such group, as applicable, has continuously owned at least the Minimum Number (as defined below) of shares of the Corporation's outstanding common stock throughout the three-year period preceding and including the date of submission of the Proxy Access Notice, and continues to own at least the Minimum Number through the date of the annual meeting of stockholders. Two (2) or more funds that are (A) under common management and investment control, (B) under common management and funded primarily by a single employer or (C) a "group of investment companies," as such term is defined in Section 12(d)(1)(G)(ii) of the Investment Company Act of 1940, as amended (two (2) or more funds referred to under any of clause (A), (B) or (C), collectively, a "Qualifying Fund") shall be treated as one Eligible Stockholder. For the avoidance of doubt, in the event of a nomination by a group of Eligible Stockholders, any and all requirements and obligations for an individual Eligible

Stockholder that are set forth in this Section 6, including the minimum holding period, shall apply to each member of such group; provided, however, that the Minimum Number shall apply to the ownership of the group in the aggregate. Should any stockholder withdraw from a group of Eligible Stockholders at any time prior to the annual meeting of stockholders, the group of Eligible Stockholders shall only be deemed to own the shares held by the remaining members of the group.

(iii) The “Minimum Number” of shares of the Corporation’s common stock means three percent (3%) of the number of outstanding shares of common stock as of the most recent date for which such amount is given in any filing by the Corporation with the SEC prior to the submission of the Proxy Access Notice.

(iv) For purposes of this Section 6, an Eligible Stockholder “owns” only those outstanding shares of the common stock of the Corporation as to which the Eligible Stockholder possesses both:

- (A) the full voting and investment rights pertaining to the shares; and
- (B) the full economic interest in (including the opportunity for profit and risk of loss on) such shares;

provided, that the number of shares calculated in accordance with clauses (A) and (B) shall not include any shares: (1) sold by such Eligible Stockholder or any of its affiliates in any transaction that has not been settled or closed, (2) borrowed by such Eligible Stockholder or any of its affiliates for any purpose or purchased by such Eligible Stockholder or any of its affiliates pursuant to an agreement to resell, or (3) subject to any option, warrant, forward contract, swap, contract of sale, other derivative or similar agreement entered into by such Eligible Stockholder or any of its affiliates, whether any such instrument or agreement is to be settled with shares, cash or other property based on the notional amount or value of outstanding shares of the Corporation, in any such case which instrument or agreement has, or is intended to have, the purpose or effect of: (w) reducing in any manner, to any extent or at any time in the future, such Eligible Stockholder’s or any of its affiliates’ full right to vote or direct the voting of any such shares, and/or (x) hedging, offsetting, or altering to any degree, gain or loss arising from the full economic ownership of such shares by such Eligible Stockholder or any of its affiliates. An Eligible Stockholder “owns” shares held in the name of a nominee or other intermediary so long as the Eligible Stockholder retains the right to instruct how the shares are voted with respect to the election of directors and possesses the full economic interest in the shares. An Eligible Stockholder’s ownership of shares shall be deemed to continue during any period in which the Eligible Stockholder has delegated any voting power by means of a proxy, power of attorney, or other similar instrument or arrangement that is revocable at any time by the Eligible Stockholder. An Eligible Stockholder’s ownership of shares shall be deemed to continue during any period in which the Eligible Stockholder has loaned such shares, provided that the Eligible Stockholder has the power to recall such loaned shares on no more than five (5) business days’ notice. The terms “owned,” “owning” and other variations of the word “own” shall have correlative meanings. Each Nominating Stockholder shall furnish any other information that may reasonably be required by the Board of Directors to verify such stockholder’s continuous ownership of at least the Minimum Number during the three-year period referred to above.

(d) To nominate a Nominee, the Nominating Stockholder must, no earlier than one hundred fifty (150) days and no later than one hundred twenty (120) days before the date of the Corporation's proxy materials released to stockholders in connection with the previous year's annual meeting of stockholders, submit to the Secretary at the principal executive offices of the Corporation all of the following information and documents (collectively, the "Proxy Access Notice"):

(i) A Schedule 14N (or any successor form) relating to the Nominee, completed and filed with the SEC by the Nominating Stockholder as applicable, in accordance with the SEC's rules;

(ii) A written notice of the nomination of such Nominee that includes the following additional information, agreements, representations and warranties by the Nominating Stockholder (including, if the Nominating Stockholder is a group, each Eligible Stockholder comprising such group):

(A) the information, representations and agreements required with respect to the nomination of directors pursuant to Sections 4 and 5

(B) the details of any relationship that existed within the past three (3) years and that would have been described pursuant to Item 6(e) of Schedule 14N (or any successor item) if it existed on the date of submission of the Schedule 14N;

(C) a representation and warranty that the Nominating Stockholder did not acquire, and is not holding, securities of the Corporation for the purpose or with the effect of influencing or changing control of the Corporation;

(D) a representation and warranty that the Nominee's candidacy or, if elected, Board of Directors membership, would not violate the Corporation's Restated Certificate of Incorporation, these Bylaws, any provision in the Corporation's Corporate Governance Guidelines (as may be in effect from time to time) (the "Corporate Governance Guidelines") or any applicable state or federal law or the rules of any stock exchange on which the Corporation's common stock is traded;

(E) a representation and warranty that the Nominee:

(1) does not have any direct or indirect material relationship with the Corporation and otherwise would qualify as an "independent director" under the rules of the primary stock exchange on which the Corporation's common stock is traded and any applicable rules of the SEC;

(2) is not and has not been, within the past three (3) years, an officer, director, affiliate or representative of a competitor, as defined under Section 8 of the Clayton Antitrust Act of 1914, as amended, of the Corporation or any subsidiary or affiliate thereof; and

(3) is not and has not been subject to any event specified in Rule 506(d)(1) of Regulation D (or any successor rule) under the Securities Act of 1933, as amended, or Item 401(f) of Regulation S-K (or any successor rule) under the Exchange Act, without reference to any time limitations stated therein or whether the event is material to an evaluation of the ability or integrity of the Nominee;

(F) a representation and warranty that the Nominating Stockholder satisfies the eligibility requirements set forth in Section 6(c), has provided evidence of ownership to the extent required by Section 6(c)(i), and such evidence of ownership is true, complete and correct in all material respects;

(G) a representation and warranty that the Nominating Stockholder intends to continue to satisfy the eligibility requirements described in Section 6(c) through the date of the annual meeting of stockholders;

(H) a representation and warranty that the Nominating Stockholder will not engage in or support, directly or indirectly, a “solicitation” within the meaning of Rule 14a-1(l) (without reference to the exception in Rule 14a-1(l)(2)(iv)), or any successor rule, with respect to the annual meeting of stockholders, other than a solicitation in support of the Nominee or any nominee of the Board of Directors;

(I) a representation and warranty that the Nominating Stockholder will not use any proxy card other than the Corporation’s proxy card in soliciting stockholders in connection with the election of a Nominee at the annual meeting of stockholders;

(J) if desired by the Nominating Stockholder, a Supporting Statement;

(K) in the case of a nomination by a group of Eligible Stockholders, the irrevocable designation by all group members of one group member that is authorized to act on behalf of all group members with respect to matters relating to the nomination, including withdrawal of the nomination;

(L) in the case of any Eligible Stockholder that is a Qualifying Fund consisting of two (2) or more funds, documentation in form and substance reasonably sufficient to the Corporation demonstrating that the funds are eligible to be treated as a Qualifying Fund and that each such fund comprising the Qualifying Fund otherwise meets the requirements set forth in this Section 6; and

(M) a representation and warranty that the Nominating Stockholder has not nominated and will not nominate for election any individual as director at the annual meeting of stockholders other than its Nominee(s).

(iii) An executed agreement pursuant to which the Nominating Stockholder (including each group member) agrees:

(A) to comply with all applicable laws, rules and regulations in connection with the nomination, solicitation and election;

(B) to file with the SEC any solicitation or other communication with the Corporation's stockholders (on the date such solicitation or communication is first sent or given) relating to any Nominee or one or more of the Corporation's directors or director nominees, regardless of whether any such filing is required under any law, rule or regulation or whether any exemption from filing is available for such materials under any law, rule or regulation;

(C) to assume all liability stemming from an action, suit or proceeding concerning any actual or alleged legal or regulatory violation arising out of any communication by the Nominating Stockholder with the Corporation, its stockholders or any other person in connection with the nomination or election of directors, including, without limitation, the Proxy Access Notice;

(D) to indemnify and hold harmless (jointly and severally with all other group members, in the case of a group member) the Corporation and each of its directors, officers and employees individually against any liability, loss, damages, expenses, demands, claims or other costs (including reasonable attorneys' fees and disbursements of counsel) incurred in connection with any threatened or pending action, suit or proceeding, whether legal, administrative or investigative, against the Corporation or any of its or its affiliates' directors, officers or employees arising out of any nomination submitted by the Nominating Stockholder (including, without limitation, relating to any breach or alleged breach of its obligations, agreements, representations or warranties) pursuant to this Section 6;

(E) in the event that (i) any information included in the Proxy Access Notice, or any other communication by the Nominating Stockholder (including with respect to any group member) with the Corporation, its stockholders or any other person in connection with the nomination or election of directors ceases to be true and accurate in all material respects (or omits a material fact necessary to make the statements made not misleading), or (ii) the Nominating Stockholder (including any group member) fails to continue to satisfy the eligibility requirements described in Section 6(c), the Nominating Stockholder shall promptly (and in any event within forty-eight (48) hours of discovering such misstatement, omission or failure) (x) in the case of clause (i) above, notify the Corporation and any other recipient of such communication of the misstatement or omission in such previously provided information and of the information that is required to correct the misstatement or omission, and (y) in the case of clause (ii) above, notify the Corporation why, and in what regard, the Nominating Stockholder fails to comply with the eligibility requirements described in Section 6(c) (it being understood that providing any such notification referenced in clauses (x) and (y) above shall not be deemed to cure any defect or limit the Corporation's rights to omit a Nominee from its proxy materials as provided in this Section 6); and

(iv) An executed agreement by the Nominee:

(A) to provide to the Corporation a completed copy of the Corporation's director questionnaire and such other information as the Corporation may reasonably request;

(B) that the Nominee (i) consents to be named in the proxy materials as a nominee and, if elected, to serve on the Board of Directors and (ii) has read and agrees to adhere to the Corporate Governance Guidelines and any other policies, practices and guidelines of the Corporation applicable to its directors generally; and

(C) that the Nominee is not and will not become a party to (1) any agreement, arrangement or understanding with any person or entity other than the Corporation with respect to direct or indirect compensation, reimbursement or indemnification in connection with service or action as a director of the Corporation that has not been disclosed to the Corporation in writing, (2) any Voting Commitment that has not been previously disclosed to the Corporation in writing, or (3) any Voting Commitment that could limit or interfere with the Nominee's ability to comply, if elected as a director of the Corporation, with its fiduciary duties under applicable law or with the Corporate Governance Guidelines and any other policies, practices and guidelines of the Corporation applicable to its directors generally.

The information and documents required by this Section 6(d) shall be: (x) provided with respect to and executed by each group member, in the case of information applicable to group members; and (y) provided with respect to the persons specified in Instruction 1 to Items 6(c) and (d) of Schedule 14N (or any successor item) if and to the extent applicable to a Nominating Stockholder or group member. The Proxy Access Notice shall be deemed submitted on the date on which all the information and documents referred to in this Section 6(d) (other than such information and documents contemplated to be provided after the date the Proxy Access Notice is provided) have been delivered to or, if sent by mail, received by the Secretary of the Corporation. For the avoidance of doubt, in no event shall any adjournment or postponement of an annual meeting of stockholders or the public announcement thereof commence a new time period for the giving of a Proxy Access Notice pursuant to this Section 6.

(e)

(i) Notwithstanding anything to the contrary contained in this Section 6, (x) the Corporation may omit from its proxy materials any Nominee and any information concerning such Nominee (including a Nominating Stockholder's Supporting Statement), (y) any nomination shall be disregarded, and (z) no vote on such Nominee will occur (notwithstanding that proxies in respect of such vote may have been received by the Corporation), and the Nominating Stockholder may not, after the last day on which a Proxy Access Notice would be timely, cure in any way any defect preventing the nomination of the Nominee, if:

(A) the Corporation receives a notice pursuant to Section 4 that a stockholder intends to nominate a candidate for director at the annual meeting of stockholders;

(B) the Nominating Stockholder or the designated lead group member, as applicable, or any qualified representative thereof, does not appear at the annual meeting of stockholders to present the nomination submitted pursuant to this Section 6 or the Nominating Stockholder withdraws its nomination prior to the annual meeting of stockholders;

(C) the Board of Directors determines that such Nominee's nomination or election to the Board of Directors would result in the Corporation violating or failing to be in compliance with the Corporation's Restated Certificate of Incorporation, these Bylaws, any provision of the Corporate Governance Guidelines, or any applicable law, rule or regulation to which the Corporation is subject, including any rules or regulations of any stock exchange on which the Corporation's common stock is traded; or

(D) (i) the Nominating Stockholder fails to continue to satisfy the eligibility requirements described in Section 6(c), (ii) any of the representations and warranties made in the Proxy Access Notice ceases to be true, complete and correct in all material respects (or omits to state a material fact necessary to make the statements made therein not misleading), (iii) the Nominee becomes unwilling or unable to serve on the Board of Directors or (iv) the Nominating Stockholder or the Nominee materially violates or breaches any of its agreements, representations or warranties in this Section 6.

(ii) Any Nominee who is included in the Corporation's proxy materials for a particular annual meeting of stockholders but (X) withdraws from or becomes ineligible or unavailable for election at that annual meeting (other than by reason of such Nominee's disability or other significant health reason) or (Y) does not receive at least 25% of the votes cast in favor of such Nominee's election shall be ineligible to be a Nominee pursuant to this Section 6 for the next two annual meetings.

(iii) Notwithstanding anything to the contrary contained in this Section 6, the Corporation may omit from its proxy materials, or may supplement or correct, any information, including all or any portion of the Supporting Statement included in the Proxy Access Notice, if: (A) such information is not true and correct in all material respects or omits a material statement necessary to make the statements therein not misleading; (B) such information directly or indirectly impugns the character, integrity or personal reputation of, or, without factual foundation, directly or indirectly makes charges concerning improper, illegal or immoral conduct or associations with respect to, any person; or (C) the inclusion of such information in the proxy materials would otherwise violate the SEC's proxy rules or any other applicable law, rule or regulation. Once submitted with a Proxy Access Notice, a Supporting Statement may not be amended, supplemented or modified by the Nominee or Nominating Stockholder.

(iv) For the avoidance of doubt, the Corporation may solicit against, and include in the proxy materials its own statement relating to, any Nominee.

(v) This Section 6 provides the exclusive method for a stockholder to include nominees for election to the Board of Directors in the Corporation's proxy materials (including, without limitation, any proxy card or written ballot).

(vi) The interpretation of, and compliance with, any provision of this Section 6, including the representations, warranties and covenants contained herein, shall be determined by the Board of Directors or, in the discretion of the Board, one or more of its designees, in each case acting in good faith.

SECTION 7. Special Meetings.

(a) Special meetings of the stockholders of the Corporation may only be called (i) at any time and for any purpose or purposes, by the Board pursuant to a resolution adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time any such resolution is presented to the Board for adoption), or by the Board Chair, or (ii) by the Secretary of the Corporation, upon the written request of the holders of record as of the record date fixed in accordance with Section 7(d) who hold, in the aggregate, at least fifteen percent (15%) of the voting power of the outstanding shares of the Corporation (the “Requisite Percentage”) at the time such request is submitted by the holders of such Requisite Percentage, subject to and in accordance with this Section 7. The notice of a special meeting shall state the purpose or purposes of the special meeting, and the business to be conducted at the special meeting shall be limited to the purpose or purposes stated in the notice. Except in accordance with this Section 7, stockholders shall not be permitted to propose business to be brought before a special meeting of the stockholders. Subject to the provisions of Section 6, stockholders who nominate persons for election to the Board of Directors at a special meeting must also comply with the requirements set forth in Section 4 and Section 5.

(b) No stockholder may request that the Secretary of the Corporation call a special meeting of the stockholders pursuant to Section 7(a) (a “Stockholder Requested Special Meeting”) unless a stockholder of record has first submitted a request in writing that the Board of Directors fix a record date (a “Request Record Date”) for the purpose of determining the stockholders entitled to request that the Secretary of the Corporation call a Stockholder Requested Special Meeting, which request shall be in proper form and delivered to, or mailed and received by, the Secretary of the Corporation at the principal executive offices of the Corporation.

(c) To be in proper form for purposes of this Section 7, a request by a stockholder for the Board of Directors to fix a Request Record Date shall set forth:

(i) As to each Requesting Person (as defined below), (A) the Stockholder Information (as defined in Section 3(c)(i), except that for purposes of this Section 7 the term “Requesting Person” shall be substituted for the term “Proposing Person” in all places it appears in Section 3(c)(i)); and (B) a representation that such Requesting Person intends to hold the shares of the Corporation described in the Stockholder Information through the date of the Stockholder Requested Special Meeting;

(ii) As to each Requesting Person, any Disclosable Interests (as defined in Section 3(c)(ii), except that for purposes of this Section 7 the term “Requesting Person” shall be substituted for the term “Proposing Person” in all places it appears in Section 3(c)(ii) and the disclosure in clause (F) of Section 3(c)(ii) shall be made with respect to

the business proposed to be conducted at the special meeting or the proposed election of directors at the special meeting, as the case may be);

(iii) As to the purpose or purposes of the Stockholder Requested Special Meeting, (A) a reasonably brief description of (1) the specific purpose or purposes of the Stockholder Requested Special Meeting, (2) the matter(s) proposed to be acted on at the Stockholder Requested Special Meeting, and (3) the reasons for conducting such business at the Stockholder Requested Special Meeting, (B) a reasonably detailed description of any material interest in such matter of each Requesting Person, and (C) a reasonably detailed description of all agreements, arrangements and understandings (x) between or among any of the Requesting Persons or (y) between or among any Requesting Person and any other person or entity (including their names) in connection with the request for the Stockholder Requested Special Meeting or the business proposed to be acted on at the Stockholder Requested Special Meeting; and

(iv) If directors are proposed to be elected at the Stockholder Requested Special Meeting, the Nominee Information for each person whom a Requesting Person expects to nominate for election as a director at the special meeting.

For purposes of this Section 7(c), the term “Requesting Person” shall mean (i) the stockholder making the request to fix a Request Record Date for the purpose of determining the stockholders entitled to request that the Secretary call a Stockholder Requested Special Meeting, and (ii) the beneficial owner or beneficial owners, if different, on whose behalf such request is made.

(d) Within ten (10) days after receipt of a request to fix a Request Record Date in proper form and otherwise in compliance with this Section 7 from any stockholder of record, the Board of Directors may adopt a resolution fixing a Request Record Date for the purpose of determining the stockholders entitled to request that the Secretary of the Corporation call a Stockholder Requested Special Meeting, which date shall not precede the date upon which the resolution fixing the Request Record Date is adopted by the Board of Directors. If no resolution fixing a Request Record Date has been adopted by the Board of Directors within the ten (10) day period after the date on which such a request to fix a Request Record Date was received, the Request Record Date in respect thereof shall be deemed to be the twentieth (20th) day after the date on which such a request is received. Notwithstanding anything in this Section 7 to the contrary, no Request Record Date shall be fixed if the Board of Directors determines that the written request or requests to call a Stockholder Requested Special Meeting (each, a “Special Meeting Request” and collectively, the “Special Meeting Requests”), that would otherwise be submitted following such Request Record Date could not comply with the requirements set forth in Section 7(g).

(e) In order for a Stockholder Requested Special Meeting to be called, one or more Special Meeting Requests, in the form required by this Section 7, must be signed by stockholders as who, as of the Request Record Date, hold of record or beneficially, in the aggregate, more than the Requisite Percentage and must be timely delivered to the Secretary of the Corporation at the principal executive offices of the Corporation. To be timely, a Special Meeting Request must be delivered to the principal executive offices of the Corporation not later than the sixtieth (60th) day following the Request Record Date. In determining whether a Stockholder Requested Special Meeting has been properly requested, multiple Special Meeting

Requests delivered to the Secretary will be considered together only if (i) each Special Meeting Request identifies the same purpose or purposes of the Stockholder Requested Special Meeting and the same matters proposed to be acted on at such meeting (in each case as determined in good faith by the Board), and (ii) such Special Meeting Requests have been dated and delivered to the Secretary within sixty (60) days of the earliest dated Special Meeting Request.

(f) To be in proper form for purposes of this Section 7, a Special Meeting Request must include and set forth (a) a reasonably brief statement of (i) the specific purpose or purposes of the stockholder requested special meeting, (ii) the matter(s) proposed to be acted on at the Stockholder Requested Special Meeting, and (iii) the reasons for conducting such business at the Stockholder Requested Special Meeting, and (b) the text of the proposed business (including the text of any resolutions proposed for consideration), if applicable, and (c) with respect to any stockholder or stockholders submitting a Special Meeting Request (except for any stockholder that has provided such request in response to a solicitation made pursuant to, and in accordance with, Section 14(a) of the Exchange Act by way of a solicitation statement filed on Schedule 14A) (a “Solicited Stockholder”) the information required to be provided pursuant to this Section 7 of a Requesting Person. A stockholder may revoke a Special Meeting Request by written revocation delivered to the Secretary at any time prior to the Stockholder Requested Special Meeting. If any such revocation(s) are received by the Secretary after the Secretary’s receipt of Special Meeting Requests from the Requisite Percentage of stockholders, and as a result of such revocation(s) there no longer are unrevoked demands from the Requisite Percentage of stockholders to call a Stockholder Requested Special Meeting, the Board of Directors shall have the discretion to determine whether or not to proceed with the Stockholder Requested Special Meeting.

(g) The Secretary shall not accept, and shall consider ineffective, a Special Meeting Request if (i) such Special Meeting Request does not comply with this Section 7 or relates to an item of business to be transacted at the Stockholder Requested Special Meeting that is not a proper subject for stockholder action under applicable law; (ii) the Special Meeting Request is received by the Corporation during the period commencing ninety (90) days prior to the first anniversary of the date of the immediately preceding annual meeting of stockholders and ending on the date of the final adjournment of the next annual meeting of stockholders; (iii) an identical or substantially similar item (a “Similar Item”) to that included in the Special Meeting Request was presented at any meeting of stockholders held within one year prior to receipt by the Corporation of such Special Meeting Request (it being understood that the election of directors at the preceding annual meeting of stockholders shall be deemed not to constitute a Similar Item in respect of a proposal to remove one or more directors or the entire Board at a Stockholder Requested Special Meeting); (iv) the Board calls an annual or special meeting of stockholders (in lieu of calling the Stockholder Requested Special Meeting) in accordance with Section 7(i); (v) a Similar Item is already included in the Corporation’s notice as an item of business to be brought before a meeting of stockholders that has been called but not yet held; or (vi) such Special Meeting Request was made in a manner that involved a violation of Regulation 14A under the Exchange Act or other applicable law.

(h) Business transacted at any Stockholder Requested Special Meeting shall be limited to the purpose stated in the valid Special Meeting Request; provided, however, that nothing herein shall prohibit the Board from submitting matters to the stockholders at any Stockholder Requested Special Meeting. If none of the stockholders who submitted and signed

the Special Meeting Request (but excluding any Solicited Stockholder) appears at or sends a qualified representative to the Stockholder Requested Special Meeting to present the matters to be presented for consideration that were specified in the Stockholder Meeting Request, the Corporation need not present such matters for a vote at such meeting.

(i) Any special meeting of stockholders, including any Stockholder Requested Special Meeting, shall be held at such date and time as may be fixed by the Board in accordance with these Bylaws and in compliance with applicable law; provided that a Stockholder Requested Special Meeting shall be held within ninety (90) days after the Corporation receives one or more valid Special Meeting Requests in compliance with this Section 7 from stockholders having beneficial ownership of at least the Requisite Percentage; provided, further, that the Board shall have the discretion to call an annual or special meeting of stockholders (in lieu of calling the Stockholder Requested Special Meeting) in accordance with Section 7(j) or cancel any Stockholder Requested Special Meeting that has been called but not yet held for any of the reasons set forth in the foregoing provisions of this Section 7.

(j) If a Special Meeting Request is made that complies with this Section 7, the Board may (in lieu of calling the Stockholder Requested Special Meeting) present a Similar Item for stockholder approval at any other meeting of stockholders that is held within ninety (90) days after the Corporation receives such Special Meeting Request.

(k) In connection with a Stockholder Requested Special Meeting called in accordance with this Section 7, the stockholder or stockholders (except for any Solicited Stockholder) who requested that the Board of Directors fix a record date for notice and voting for the special meeting in accordance with this Section 7 or who signed and delivered a Special Meeting Request to the Secretary shall further update and supplement the information previously provided to the Corporation in connection with such requests, if necessary, so that the information provided or required to be provided in such requests pursuant to this Section 7 shall be true and correct (i) as of the record date for the determination of persons entitled to receive notice of the special meeting and (ii) the date that is five (5) business days prior to the special meeting and, in the event of any adjournment or postponement thereof, five (5) business days prior to such adjourned or postponed special meeting. In the case of an update and supplement pursuant to clause (i) above, such update and supplement shall be received by the Secretary at the principal executive offices of the Corporation not later than eight (8) business days after the record date for the determination of persons entitled to receive notice of the special meeting. In the case of an update and supplement pursuant to clause (ii) above, such update and supplement shall be delivered to, or mailed and received by, the Secretary at the principal executive offices of the Corporation not later than two (2) business days prior to the date for the special meeting, and, in the event of any adjournment or postponement thereof, two (2) business days prior to such adjourned or postponed special meeting.

(l) Notwithstanding anything in these Bylaws to the contrary, the Secretary shall not be required to call a Stockholder Requested Special Meeting pursuant to this Section 7 except in accordance with this Section 7. If the Board of Directors shall determine that any request to fix a record date for notice and voting for the special meeting or Special Meeting Request was not properly made in accordance with this Section 7, or shall determine that the stockholder or stockholders requesting that the Board of Directors fix such record date or submitting a Special Meeting Request have not otherwise complied with this Section 7, then the

Board of Directors shall not be required to fix such record date or to call and hold the Stockholder Requested Special Meeting. In addition to the requirements of this Section 7, each Requesting Person shall comply with all requirements of applicable law, including all requirements of the Exchange Act, with respect to (i) any request to fix a record date for notice and voting for the Stockholder Requested Special Meeting, (ii) any Special Meeting Request or (iii) a Stockholder Requested Special Meeting.

(m) After receipt of Special Meeting Requests in proper form and in accordance with this Section 7 from a stockholder or stockholders holding the Requisite Percentage, the Board of Directors shall duly call, and determine the place, date and time of, a Stockholder Requested Special Meeting for the purpose or purposes and to conduct the business specified in the Special Meeting Requests received by the Corporation; provided that the Stockholder Requested Special Meeting shall be held within ninety (90) days after the Corporation receives one or more valid Special Meeting Requests in compliance with this Section 7 from stockholders holding at least the Requisite Percentage; provided, further, that the Board shall have the discretion to call an annual or special meeting of stockholders (in lieu of calling the Stockholder Requested Special Meeting) in accordance with Section 7(g) or cancel any Stockholder Requested Special Meeting that has been called but not yet held for any of the reasons set forth in the foregoing provisions of this Section 7. The record date for notice and voting for such a Stockholder Requested Special Meeting shall be fixed in accordance with Article XI, Section 6 of these Bylaws. The Board of Directors shall provide written notice of such Stockholder Requested Special Meeting in accordance with Article II, Section 2 of these Bylaws.

SECTION 8. Quorum. Except as otherwise expressly required by law, by the Corporation's Restated Certificate of Incorporation or these Bylaws, the presence, in person, by remote communication, if applicable, or by proxy duly authorized, of the holders of a majority of the outstanding shares of stock entitled to vote shall constitute a quorum for the transaction of business at any meeting of the stockholders of the Corporation or any adjournment thereof. The stockholders present at a duly called or convened meeting at which a quorum is present, may continue to transact business until adjournment, notwithstanding the withdrawal of enough stockholders to leave less than a quorum. In the absence of a quorum at any such meeting or any adjournment or adjournments thereof, a majority in voting interest of those present in person or by proxy and entitled to vote thereat, or any officer entitled to preside at, or to act as secretary of, such meeting may adjourn such meeting until stockholders holding the amount of stock requisite for a quorum are present in person or by proxy.

SECTION 9. Adjourned Meeting; Notice. After the meeting has been duly called to order, the presiding officer of the meeting may adjourn any meeting of stockholders, annual or special, from time to time, to reconvene at the same or some other place, and notice need not be given of any such adjourned meeting if the time and place thereof are announced at the meeting at which the adjournment is taken. When a meeting is adjourned to another time or place, unless these Bylaws otherwise require, notice need not be given of the adjourned meeting if the time, place, if any, thereof, and the means of remote communications, if any, by which stockholders and proxy holders may be deemed to be present in person and vote at such adjourned meeting are announced at the meeting at which the adjournment is taken. At the adjourned meeting, the Corporation may transact any business which might have been transacted at the original meeting. If the adjournment is for more than thirty (30) days, a notice of the adjourned meeting shall be

given to each stockholder of record entitled to vote at the meeting. If after the adjournment a new record date for stockholders entitled to vote is fixed for the adjourned meeting, the Board of Directors shall fix a new record date for notice of such adjourned meeting in accordance with Section 213(a) of the DGCL and Article XI, Section 6 of these Bylaws, and shall give notice of the adjourned meeting to each stockholder of record entitled to vote at such adjourned meeting as of the record date fixed for notice of such adjourned meeting.

SECTION 10. Conduct of Meetings.

(a) Officers of the Meeting. The Board Chair, or in the absence of the Board Chair, the President, or in their absence, the Vice Board Chair, or if no such officer is present, a director designated by the Board, shall call meetings of the stockholders to order and shall act as chair of the meeting. The Secretary, or in the absence of the Secretary, an Assistant Secretary or such other person as the chair of the meeting may appoint, shall act as secretary of the meeting of the stockholders.

(b) Order of Business. The chair of the meeting shall have the right to determine the order of business at the meeting.

(c) Meeting Protocol. To the maximum extent permitted by applicable law, the Board shall be entitled to adopt, or in absence of the Board doing so, the chair of the meeting shall be entitled to prescribe, such rules or regulations for the conduct of meetings of stockholders as the Board or the chair of the meeting, as applicable, shall deem necessary, appropriate or convenient. Such rules, regulations and procedures, whether adopted by the Board or prescribed by the chair of the meeting, may include, without limitation, the following: (i) establishing an agenda for the meeting and the order for the consideration of the items of business on such agenda; (ii) restricting admission to the time set for the commencement of the meeting; (iii) limiting attendance at the meeting to stockholders of record of the Corporation entitled to vote at the meeting, their duly authorized proxies or other such persons as the chair of the meeting may determine; (iv) limiting participation at the meeting on any matter to stockholders of record of the Corporation entitled to vote on such matter, their duly authorized proxies or other such persons as the chair of the meeting may determine to recognize and, as a condition to recognizing any such participant, requiring such participant to provide the chair of the meeting with evidence of the participant's name and affiliation, whether the participant is a stockholder or a proxy for a stockholder, and the class and series and number of shares of each class and series of capital stock of the Corporation which are owned beneficially and/or of record by such stockholder; (v) limiting the time allotted to questions or comments by participants; (vi) taking such actions as are necessary or appropriate to maintain order, decorum, safety and security at the meeting; (vii) removing any stockholder who refuses to comply with meeting procedures, rules or guidelines as established by the chair of the meeting; (viii) complying with any state and local laws and regulations concerning safety and security; and (ix) taking such other action deemed necessary, appropriate or convenient, in the sole discretion of the chair of the meeting, for the proper conduct of the meeting. Unless otherwise determined by the chair of the meeting, meetings of stockholders shall not be required to be held in accordance with the rules of parliamentary procedure.

SECTION 11. Inspectors. The Board may, in advance of any meeting of stockholders, appoint one or more inspectors to act at such meeting or any adjournment thereof. If any of the

inspectors so appointed shall fail to appear or act, the chair of the meeting may, or if inspectors shall not have been appointed, the chair of the meeting shall, appoint one or more inspectors. Each inspector, before entering upon the discharge of the inspector's duties, shall take and sign an oath faithfully to execute the duties of inspector at such meeting with strict impartiality and according to the best of the inspector's ability. The inspectors shall (i) ascertain the number of shares of capital stock of the Corporation outstanding and the voting power of each, (ii) ascertain the number of shares represented at the meeting, (iii) ascertain the existence of a quorum, (iv) ascertain the validity and effect of proxies, (v) count and tabulate all votes, ballots or consents, (vi) determine and retain for a reasonable period a record of the disposition of all challenges made to any determination made by the inspectors, (vii) certify the determination of the number of shares represented at the meeting and their count of all votes and ballots, and (viii) do such acts as are proper to conduct the election or vote with fairness to all stockholders. On request of the chair of the meeting, the inspectors shall make a report in writing of any challenge, request or matter determined by them and shall execute a certificate of any fact found by them. No director or candidate for the office of director shall act as an inspector of an election of directors. The inspectors may appoint or retain other persons or entities to assist the inspectors in the performance of the duties of the inspectors. In determining the validity and counting of all proxies and ballots, the inspectors shall act in accordance with applicable law.

SECTION 12. Voting. Unless otherwise provided in the Restated Certificate of Incorporation, each stockholder shall be entitled to one vote for each share of capital stock held by such stockholder. All voting, including on the election of directors but excepting where otherwise required by applicable law or the Restated Certificate of Incorporation, may take place via a voice vote. The Board of Directors, in its discretion, or the officer of the Corporation presiding at a meeting of stockholders, in such officer's discretion, may require that any votes cast at a meeting of stockholders shall be cast by written ballot. When a quorum is present, except as otherwise provided by statute, by applicable stock exchange rules, by the Restated Certificate of Incorporation or these Bylaws, in all matters other than the election of directors, the affirmative vote of the majority of shares present in person, by remote communication, if applicable, or represented by proxy at the meeting and entitled to vote generally on the subject matter shall be the act of the stockholders. For the purposes of this Section 12, Broker Non-Votes represented at the meeting but not permitted to vote on a particular matter shall not be counted, with respect to the vote on such matter, in the number of (a) votes cast, (b) votes cast affirmatively, or (c) votes cast negatively.

SECTION 13. Proxies. Each stockholder entitled to vote at a meeting of stockholders may authorize another person or persons to act for such stockholder by proxy authorized by an instrument in writing or by a transmission permitted by law filed in accordance with the procedure established for the meeting, but no such proxy shall be voted or acted upon after three (3) years from its date, unless the proxy provides for a longer period. The revocability of a proxy that states on its face that it is irrevocable shall be governed by the provisions of Section 212 of the DGCL. A written proxy may be in the form of a telegram, cablegram, or other means of electronic transmission which sets forth or is submitted with information from which it can be determined that the telegram, cablegram, or other means of electronic transmission was authorized by the person.

SECTION 14. Lists of Stockholders. The Secretary shall prepare and make, at least ten (10) days before every meeting of stockholders, a complete list of the stockholders entitled to

vote at the meeting, provided, however, if the record date for determining the stockholders entitled to vote is less than ten (10) days before the meeting date, the list shall reflect the stockholders entitled to vote as of the tenth (10th) day before the meeting date. The stockholder list shall be arranged in alphabetical order and show the address of each stockholder and the number of shares registered in the name of each stockholder. The Corporation shall not be required to include electronic mail addresses or other electronic contact information on such list. Such list shall be open to the examination of any stockholder, for any purpose germane to the meeting for a period of at least ten (10) days prior to the meeting: (i) on a reasonably accessible electronic network, provided that the information required to gain access to such list is provided with the notice of the meeting, or (ii) during ordinary business hours, at the principal place of business of the Corporation. In the event that the Corporation determines to make the list available on an electronic network, the Corporation may take reasonable steps to ensure that such information is available only to stockholders of the Corporation. If the meeting is to be held at a physical location, then the list shall be produced and kept at the time and place of the meeting during the whole time thereof, and may be inspected by any stockholder who is present. If the meeting is to be held solely by means of remote communications, then the list shall be open to the examination of any stockholder during the whole time of the meeting on a reasonably accessible electronic network, and the information required to access such list shall be provided with the notice of the meeting. The stock ledger shall be the only evidence as to who are the stockholders entitled to examine the stock ledger, the list required by this Section 14 or the books of the Corporation, or to vote in person or by proxy at any meeting of stockholders.

SECTION 15. Postponement and Cancellation of Meetings. Any previously scheduled annual or special meeting of the stockholders may be postponed, and any previously scheduled annual or special meeting of the stockholders called by the Board may be canceled, by resolution of the Board upon public notice given prior to the time previously scheduled for such meeting of stockholders.

ARTICLE III

Board of Directors

SECTION 1. General Powers. The property, business and affairs of the Corporation shall be managed by or under the direction of the Board, which may exercise all such powers of the Corporation and do all such lawful acts and things as are not by law or by the Restated Certificate of Incorporation directed or required to be exercised or done by the stockholders.

SECTION 2. Number of Directors. The number of directors which shall constitute the whole Board shall be fixed from time to time by resolution of the Board adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time such resolution is presented to the Board for adoption). The number of directors may be decreased at any time and from time to time by a majority of the directors then in office, but only to eliminate vacancies existing by reason of the death, resignation, removal or expiration of the term of one or more directors. No decrease in the number of directors constituting the Board shall shorten the term of any incumbent director.

SECTION 3. Term. The entire Board shall stand for election or re-election by the stockholders at each annual meeting, and each director shall be elected to serve until such

director's successor shall be elected and duly qualified or until such director's earlier death, resignation or removal in the manner as herein provided.

SECTION 4. Qualifications. In addition to the applicable requirements set forth in Article II regarding the eligibility of candidates for election as a director of the Corporation, each director shall be at least 21 years of age. Directors need not be stockholders (subject to compliance with the Corporate Governance Guidelines) or citizens or residents of the United States of America.

SECTION 5. Majority Voting in the Election of Directors.

(a) Except as provided in Section 8 of this Article III, each director shall be elected by the vote of the majority of the votes cast with respect to the director at any meeting for the election of directors at which a quorum is present (an "Election Meeting"), provided that if as of a date that is fourteen (14) days in advance of the date the Corporation files its definitive proxy statement (regardless of whether or not thereafter revised or supplemented) with the Securities and Exchange Commission the number of nominees exceeds the number of directors to be elected at such meeting (a "Contested Election"), each of the directors to be elected at the Election Meeting shall be elected by the affirmative vote of a plurality of the votes cast by the shares represented in person or by proxy at any such meeting and entitled to vote at such meeting with respect to the election of directors. For purposes of this Section 5, a "majority of the votes cast" means that the number of votes cast "for" a candidate for director must exceed the number of votes cast "against" that candidate for director (with "abstentions" and "broker non-votes" not counted as votes cast as either "for" or "against" such director's election). In the event an Election Meeting involves the election of directors by separate votes by class or classes or series, the determination as to whether an election constitutes a Contested Election shall be made on a class by class or series by series basis, as applicable.

(b) The Nominating/Corporate Governance Committee has established procedures under which, in an uncontested election of directors, if any incumbent director nominated for re-election does not receive the vote of at least the majority of the votes cast at any meeting for the election of directors at which a quorum is present, such director will promptly tender their resignation to the Board. The Nominating/Corporate Governance Committee will make a recommendation to the Board on whether to accept or reject such tendered resignation, or whether other action should be taken. The Board will act on the tendered resignation, taking into account the Nominating/Corporate Governance Committee's recommendation, and publicly disclose (by a press release, a filing with the SEC or other broadly disseminated means of communication) its decision regarding the tendered resignation and the rationale behind the decision within ninety (90) days from the date of the certification of the election results. The Nominating/Corporate Governance Committee in making its recommendation, and the Board in making its decision, may each consider any factors or other information that it considers appropriate and relevant. The director who tenders their resignation will not participate in the recommendation of the Nominating/Corporate Governance Committee or the decision of the Board with respect to their resignation. If a director's resignation is not accepted by the Board, such director will continue to serve until the next annual meeting and until such director's successor is duly elected, or their earlier resignation or removal. If a director's resignation is accepted by the Board, then the Board, in its sole discretion, may fill any resulting vacancy

pursuant to the provisions of Section 8 below or may decrease the size of the Board of Directors pursuant to the provisions of Section 2 above.

SECTION 6. Resignations. Any director may resign at any time upon notice given in writing or by electronic transmission to the Board Chair, the President or the Secretary; *provided, however*, that if such notice is given by electronic transmission, such electronic transmission must either set forth or be submitted with information from which it can be determined that the electronic transmission was authorized by the director. A resignation is effective when the resignation is delivered unless the resignation specifies a later effective date or an effective date determined upon the happening of an event or events. Acceptance of such resignation shall not be necessary to make it effective. A resignation which is conditioned upon the director failing to receive a specified vote for reelection as a director may provide that it is irrevocable. Unless otherwise provided in the Restated Certificate of Incorporation or these Bylaws, when one or more directors resign from the Board, effective at a future date, a majority of the directors then in office, including those who have so resigned, shall have power to fill such vacancy or vacancies, the vote thereon to take effect when such resignation or resignations shall become effective.

SECTION 7. Removal of Directors. Any director or the entire Board may be removed, with or without cause, at any time upon the affirmative vote of holders of a majority of the shares then entitled to vote at an election of directors.

SECTION 8. Vacancies. Vacancies in the Board and newly created directorships resulting from any increase in the authorized number of directors may be filled by a majority of the directors then in office, although less than a quorum, or by a sole remaining director or by the stockholders of the Corporation at the next annual meeting or any special meeting called for such purpose. Each director so chosen shall hold office until such director's successor shall be elected and shall qualify or until such director's earlier death, resignation or removal in the manner as herein provided.

SECTION 9. Place of Meetings. The Board may hold its meetings at such place or places within or without the State of Delaware as the Board may from time to time determine or as shall be designated in the respective notices or waivers of notice thereof.

SECTION 10. Annual and Regular Meetings. The annual meeting of the Board for the purpose of electing officers and for the transaction of such other business as may come before the meeting shall be held as soon as possible following adjournment of the annual meeting of the stockholders at the place of such annual meeting of the stockholders. Notice of such annual meeting of the Board need not be given. The Board from time to time may by resolution provide for the holding of regular meetings and fix the place (which may be within or without the State of Delaware), date and time of such meetings. Notice of regular meetings need not be given; provided, however, that if the Board shall fix or change the time or place of any regular meeting, notice of such action shall be mailed promptly, or given by telephone (including by a voice or text messaging system), facsimile or electronic mail to each director who shall not have been present at the meeting at which such action was taken, directed to each director at that director's address, telephone number, facsimile number or electronic mail address, as the case may be, as shown on the Corporation's records, or shall be delivered to them personally.

SECTION 11. Special Meetings. Special meetings of the Board shall be held whenever called by the Board Chair, the President or at least two of the directors, at such place, date and time as may be specified in the respective notices or waivers of notice of such meetings. Special meetings of the Board may be called on at least twenty-four (24) hours' notice to each director if notice is given to each director personally or by telephone (including by a voice or text messaging system), facsimile or electronic mail, or on three (3) days' notice from the official date of deposit if notice is sent by internationally recognized courier to each director, directed to each director at that director's address, telephone number, facsimile number or electronic mail address, as the case may be, as shown on the Corporation's records. Such notice need not state the purpose of, nor the business to be transacted at, that meeting, except as may otherwise be required by these Bylaws or applicable law. Notice need not be given to a director present at a meeting. A meeting may be held at any time without notice if all the directors are present or if those not present waive notice of the meeting in writing either before or after that meeting.

SECTION 12. Quorum and Manner of Acting. Except as provided by law, the Restated Certificate of Incorporation or these Bylaws, a majority of the total number of directors then in office shall be present in person at any meeting of the Board in order to constitute a quorum for the transaction of business at such meeting. The affirmative vote of a majority of those directors present at any such meeting at which a quorum is present shall be necessary for the passage of any resolution or act of the Board, unless a different vote is required by applicable law, the Restated Certificate of Incorporation or these Bylaws. In the absence of a quorum for any such meeting, a majority of the directors present thereat may adjourn such meeting from time to time until a quorum shall be present thereat. Notice of any adjourned meeting need not be given.

SECTION 13. Organization. The Board shall from time to time, but in no event less frequently than annually, elect the Board Chair from among the directors. The Board Chair may be, but is not required to be, an officer or employee of the Corporation. Meetings of the Board shall be presided over by the Board Chair, or such other person as the Board may determine. The Secretary shall act as secretary of the meeting, and in the Secretary's absence such other person as the person presiding over the meeting may appoint.

SECTION 14. Action Without a Meeting. Unless otherwise restricted by the Restated Certificate of Incorporation or these Bylaws, any action required or permitted to be taken at any meeting of the Board or of any committee thereof may be taken without a meeting if all members of the Board or any committee thereof, as the case may be, consent thereto in writing, or by electronic transmission, and the writing or writings or electronic transmissions are filed with the minutes of proceedings of the Board of Directors or committee thereof, as the case may be.

SECTION 15. Meetings by Electronic Communications Equipment. Any one or more members of the Board, or any committee designated by the Board, may participate in a meeting of the Board, or such committee, by means of conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other, and participation in a meeting by such means shall constitute presence in person at such meeting.

SECTION 16. Compensation. Each director, in consideration of their serving as such, shall be entitled to receive from the Corporation such amount per annum or such fees for attendance at meetings of the Board or of any committee, or both, as the Board shall from time to time determine. The Board may likewise provide that the Corporation shall reimburse each

director or member of a committee for any expenses incurred by such director on account of such director's attendance at any such meeting. Unless otherwise determined by the Board of Directors, a director who is an employee of the Corporation shall not receive any compensation for service on the Board of Directors, but shall be reimbursed for expenses of attendance at meetings in accordance with the Corporation's applicable policies and procedures for such reimbursement. Nothing contained in this Section shall be construed to preclude any director from serving the Corporation in any other capacity and receiving compensation therefor.

ARTICLE IV

Committees

SECTION 1. Committees. The Board shall, by resolution adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time such resolution is presented to the Board for adoption), designate a compensation committee, a nominating/corporate governance committee, an audit committee, and, if so desired from time to time, other committees to serve at the pleasure of the Board. Each committee shall consist of two or more of the directors of the Corporation. Any such committee, to the extent provided in the resolution of the Board, shall have and may exercise all the powers and authority of the Board in the management of the business and affairs of the Corporation and may authorize the seal of the Corporation to be affixed to all papers which may require it; but no such committee shall have the power or authority to amend the Restated Certificate of Incorporation (except as may be authorized in accordance with the provisions of Section 141(c)(1) of the DGCL), adopt an agreement of merger or consolidation, recommend to the stockholders the sale, lease, or exchange of all or substantially all of the Corporation's properties and assets, recommend to the stockholders a dissolution of the Corporation or a revocation of a dissolution or to amend these Bylaws. Unless a resolution of the Board adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time such resolution is presented to the Board for adoption) expressly provides, no such committee shall have the power or authority to declare a dividend. Such committee(s) shall have such name(s) as may be determined from time to time by resolution adopted by the Board. Each committee shall keep regular minutes of its meetings and report the same to the Board when required. The Board may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee. In the absence or disqualification of a member of the committee, the member or members thereof present at any meeting and not disqualified from voting, whether or not they constitute a quorum, may unanimously appoint another member of the Board to act at the meeting in place of any such absent or disqualified member.

SECTION 2. Committee Rules. Each committee of the Board may fix its own rules of procedure and shall hold its meetings as provided by such rules, except as may otherwise be provided by the resolution of the Board designating such committee or the charter adopted by the Board for such committee. In the absence of such rules, each committee shall conduct its business in as nearly as may be in the same manner as the Board conducts its business pursuant to Article III of these Bylaws.

SECTION 3. Termination of Committee Membership. In the event any person shall cease to be a director of the Corporation, such person shall simultaneously therewith cease to be a member of any committee appointed by the Board of Directors.

ARTICLE V

Officers

SECTION 1. Number. The principal officers of the Corporation shall be designated by the Board and shall consist of a President, such number of Vice Presidents as the Board may determine from time to time, a Treasurer, a Secretary and such number of Assistant Treasurers and Assistant Secretaries as the Board may determine from time to time. The Board may, in its discretion, create such offices and confer such titles as Chief Executive Officer, Chief Financial Officer, Chief Operating Officer or Chief Legal Officer and designate any Vice President by a number or numbers or a word or words (including, without limitation, the words “Executive” and “Senior”) added before or after such title. The Board may appoint, and authorize the appointment of, such other officers of the Corporation as the Board deems necessary, and such officers shall have such authority and shall perform such duties as these Bylaws or as the Board may prescribe. Any number of offices may be held by the same person, except that no person may simultaneously hold the offices of President and Secretary.

SECTION 2. Term of Office. Each officer shall hold office until such officer’s successor is duly elected and qualified or until such officer’s earlier death or resignation or removal in the manner hereinafter provided.

SECTION 3. Removal and Resignation. Any officer, agent or employee of the Corporation may be removed, either with or without cause, by an affirmative vote of the majority of the Board of Directors at any regular or special meeting of the Board of Directors, or, except in the case of any officer elected by the Board, by any committee or superior officer upon whom such power may be conferred by the Board. Designation of an officer shall not itself create contract rights. Any officer may resign at any time by giving written or electronic notice to the Corporation. Any resignation shall take effect at the date of the receipt of that notice or at any later time specified in that notice. Unless otherwise specified in the notice of resignation, the acceptance of the resignation shall not be necessary to make it effective. Any resignation is without prejudice to the rights, if any, of the Corporation under any contract to which the officer is a party.

SECTION 4 President. The President, subject to the direction of the Board, shall have such powers and perform such duties as pertain to the office of President and as the Board may from time to time prescribe, shall have the direction of all subordinate officers, agents and employees and may assign such duties to such other officers as the President deems appropriate, and shall perform such other duties and exercise such other powers as may from time to time be prescribed by these Bylaws or the Board.

SECTION 5. Vice Presidents. Each Vice President shall have such powers and perform such duties as the Board or the President may from time to time prescribe and shall perform such other duties as may be prescribed by these Bylaws. At the request of the President, or in case of their absence or inability to act, any of the Vice Presidents shall perform the duties of the President and, when so acting, shall have all the powers of, and be subject to all the restrictions upon, the President.

SECTION 6. Treasurer. The Treasurer shall have charge and custody of, and be responsible for, all funds and securities of the Corporation, and shall deposit all such funds in the name of the Corporation in such banks, trust companies or other depositories as shall be selected in accordance with the provisions of these Bylaws. The Treasurer shall disburse the funds of the Corporation as may be ordered by the Board, making proper vouchers for such disbursements, and shall render to the Board whenever required to do so, and shall present at the annual meeting of the stockholders, if called upon to do so, a statement of all the Treasurer's transactions as such. The Treasurer shall have such powers and perform such duties as pertain to the office of Treasurer and shall perform such other duties as may from time to time be assigned to the Treasurer by the Board.

SECTION 7. Secretary. The Secretary shall keep the records of the proceedings of all meetings of the stockholders and the Board or any committees thereof. The Secretary shall affix the seal of the Corporation to all deeds, contracts, bonds or other instruments requiring the corporate seal when the same shall have been signed on behalf of the Corporation by a duly authorized officer and shall be the custodian of all contracts, deeds, documents and all other indicia of title to properties owned by the Corporation and of its other corporate records (except accounting records). The Secretary shall have such powers and perform such duties as pertain to the office of Secretary and shall perform such other duties as may from time to time be assigned to the Secretary by the Board.

SECTION 8. Other Officers, Assistant Officers and Agents. Officers, assistant officers and agents, if any, other than those whose duties are provided for in these Bylaws, shall have such authority and perform such duties as may from time to time be prescribed by resolution of the Board or by the person responsible for appointing such officers, assistant officers and agents, as the case may be.

SECTION 9. Execution of Contracts and Instruments. Notwithstanding the foregoing description of the duties and powers of corporate officers, the Board may from time to time limit or qualify such duties and powers by an instrument designated by the Board or pursuant to the Board's delegated authority as a corporate delegation of authority, and the duties and powers of the Corporation's officers shall be so limited. The Board may also from time to time specifically authorize one or more officers or agents of the Corporation to enter into such contracts, execute such instruments and take such other actions in the name of and on behalf of the Corporation for such specific purposes and in connection with such specific matters and transactions as the Board in its discretion may determine. Any instrument may be executed on behalf of and in the name of the Corporation: (a) by the Board Chair, the President, the Chief Executive Officer (if any), the Chief Financial Officer (if any), the Chief Operating Officer (if any) or any Vice President, together with the Secretary, the Treasurer or any Assistant Secretary, or any Assistant Treasurer, in each case, subject to any instrument that the Board or those authorized by it may designate as a "corporate delegation of authority," (b) by such officers specifically authorized to act by Board

resolution for a specific purpose or (c) by any other person authorized to do so by, and subject to the limits stated in, the instrument that the Board or those authorized by it may designate as a “corporate delegation of authority”, and such persons shall be deemed agents of the Corporation for such purposes. Except as otherwise designated or expressly authorized by these Bylaws, or an instrument properly designated as a “corporate delegation of authority” no officer, employee or agent of the Corporation shall have any power or authority to bind the Corporation by contract or otherwise or to pledge its credit or to render it liable pecuniarily for any purpose or to any amount.

SECTION 10. Security. The Board may require any officer, agent or employee of the Corporation to provide security for the faithful performance of their duties, in such amount and of such character as may be determined from time to time by the Board.

ARTICLE VI

Proxies, Checks, Drafts, Bank Accounts, Etc.

The President, or any other officer designated by the Board as having such authority, shall have authority from time to time to exercise in the name and on behalf of the Corporation the powers and rights which the Corporation may have as the holder of stock or other securities or interests in any other corporation or business entity and to vote or consent in respect of such stock, securities or interest; the President or such designated officers may designate an agent or agents to perform such function and may instruct the person or persons so appointed as to the manner of exercising such powers and rights; and the President or such designated officers may execute or cause to be executed in the name and on behalf of the Corporation and under its corporate seal, or otherwise, such written proxies, powers of attorney or other instruments as they may deem necessary or proper in order that the Corporation may exercise its said powers and rights. All checks and drafts on the Corporation bank accounts and all bills of exchange and promissory notes, and all acceptances, obligations and other instruments for the payment of money, shall be signed by such officer or officers or agent or agents or other employee or employees as shall be thereunto authorized from time to time by the Board. Third parties shall be entitled to rely on the authority delegated by the Board or pursuant to its delegated authority in an instrument designated as a “corporate delegation of authority” as to all matters governed by this Article VI.

ARTICLE VII

Books and Records

The books and records of the Corporation may be kept at such places within or without the State of Delaware as the Board may from time to time determine.

ARTICLE VIII

Seal

The corporate seal shall have inscribed thereon the name of the Corporation and may be used by causing it or a facsimile thereof to be impressed or affixed or reproduced or otherwise.

The seal may be affixed by any officer of the Corporation to any instrument executed by authority of the Corporation, and the seal when so affixed may be attested by the signature of any officer of the Corporation.

ARTICLE IX

Fiscal Year

The fiscal year of the Corporation shall end on the 31st day of December in each year, unless changed by resolution of the Board.

ARTICLE X

Indemnification

SECTION 1. Indemnification of Directors and Officers in Third Party Proceedings. Subject to the other provisions of this Article X, the Corporation shall indemnify and hold harmless, to the fullest extent permitted by the DGCL (as the same exists now or as it may be hereinafter amended, but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights than said law permitted the Corporation to provide prior to such amendment), any person (and the heirs, executors, administrators or estate of such person) who was or is a party or is threatened to be made a party to, or otherwise becomes involved in, any threatened, pending or completed action, suit, investigation, inquiry, hearing, mediation, arbitration, other alternative dispute mechanism or any other proceeding, whether civil, criminal, administrative, regulatory, investigative, legislative or otherwise and whether formal or informal (as further defined in Section 19 of this Article X, a "Proceeding") (other than an action by or in the right of the Corporation) by reason of the fact that such person is or was serving, or had agreed to serve, in an Official Capacity (as defined in Section 19 of this Article X) for the Corporation, or while serving in an Official Capacity for the Corporation is or was serving at the request of the Corporation in an Official Capacity for another corporation, partnership, limited liability company, joint venture, trust or other enterprise (an "Other Enterprise"), including service with respect to employee benefit plans maintained or sponsored by the Corporation, or is an employee of the Corporation specifically designated by the Board as an indemnified employee (hereinafter, each of the foregoing persons, a "Covered Person"), against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such Proceeding if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal Proceeding, had no reasonable cause to believe such person's conduct was unlawful.

SECTION 2. Indemnification of Directors and Officers in Actions by or in the Right of the Corporation. Subject to the other provisions of this Article X, the Corporation shall indemnify and hold harmless, to the fullest extent permitted by the DGCL, any Covered Person who was or is a party or is threatened to be made a party to, or otherwise becomes involved in, a Proceeding by or in the right of the Corporation against Expenses (including attorneys' fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action or suit if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation; provided that no

indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Corporation unless and only to the extent that Delaware Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Delaware Court of Chancery or such other court shall deem proper.

SECTION 3. Successful Defense. To the extent that a Covered Person has been successful on the merits or otherwise in defense of any Proceeding described in Sections 1 or 2 of this Article X, or in defense of any claim, issue or matter therein, such person shall be indemnified against Expenses (as defined in Section 19 of this Article X) (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

SECTION 4. Indemnification of Others. Subject to the other provisions of this Article X, the Corporation shall have power to indemnify its employees and its agents to the extent not prohibited by the DGCL or other applicable law. Subject to applicable law, the Board shall have the power to delegate the determination of whether employees or agents shall be indemnified to such person or persons as the Board determines.

SECTION 5. Advance Payment of Expenses.

(a) Expenses (including attorneys' fees) incurred by any Covered Person in defending any Proceeding shall be paid by the Corporation in advance of the final disposition of such Proceeding. Such advances shall be paid by the Corporation within ten (10) calendar days after the receipt by the Corporation of a statement or statements from the claimant requesting such advance or advances from time to time; *provided*, that the payment of such expenses incurred by a Covered Person in the Covered Person's capacity as a director or officer shall be made only upon delivery to the Corporation of an undertaking in writing by or on behalf of such Covered Person to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right of appeal (a "final disposition") that such Covered Person is not entitled to be indemnified for such expenses under this bylaw or otherwise. The Covered Person's undertaking to repay the Corporation any amounts advanced for Expenses shall not be required to be secured and shall not bear interest.

(b) Except as otherwise provided in the DGCL or this Section 5, the Corporation shall not impose on the Covered Person additional conditions to the advancement of Expenses or require from the Covered Person additional undertakings regarding repayment. Advancements of Expenses shall be made without regard to the Covered Person's ability to repay the Expenses.

(c) Advancements of Expenses pursuant to this subsection shall not require approval of the Board or the stockholders of the Corporation, or of any other person or body. The Secretary shall promptly advise the Board in writing of the request for advancement of Expenses, of the amount and other details of the request and of the undertaking to make repayment provided pursuant to this Section 5.

(d) Advancements of Expenses to a Covered Person shall include any and all reasonable Expenses incurred pursuing an action to enforce this right of advancement, including Expenses incurred preparing and forwarding statements to the Corporation to support the advancements claimed.

(e) The right to advancement of Expenses shall not apply to (i) any action, suit or proceeding against a Covered Person brought by the Corporation and approved by a majority of the authorized members of the Board which alleges willful misappropriation of corporate assets by such agent, wrongful disclosure of confidential information, or any other willful and deliberate breach in bad faith of such agent's duty to the Corporation or its stockholders, or (ii) any claim for which indemnification is excluded pursuant to these Bylaws, but shall apply to any Proceeding referenced in Section 6(c) prior to a determination that the person is not entitled to be indemnified by the Corporation.

SECTION 6. Limitations on Indemnification. Except as otherwise required by the DGCL or the Corporation's Restated Certificate of Incorporation, the Corporation shall not be obligated to indemnify any person pursuant to this Article X in connection with any Proceeding (or any part of any Proceeding):

(a) for which payment has actually been made to or on behalf of such person under any statute, insurance policy, indemnity provision, vote or otherwise, except with respect to any excess beyond the amount paid;

(b) for an accounting or disgorgement of profits pursuant to Section 16(b) of the Exchange Act, or similar provisions of federal, state or local statutory law or common law, if such person is held liable therefor (including pursuant to any settlement arrangements);

(c) for any reimbursement of the Corporation by such person of any bonus or other incentive-based or equity-based compensation or of any profits realized by such person from the sale of securities of the Corporation, as required in each case under the Exchange Act, including any such reimbursements that arise from an accounting restatement of the Corporation pursuant to Section 304 of the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act") or the rules of any national securities exchange upon which the Corporation's securities are listed, if such person is held liable therefor (including pursuant to any settlement arrangements);

(d) for any reimbursement of the Corporation by such person of profits arising from the purchase and sale by such person of securities in violation of Section 306 of the Sarbanes-Oxley Act, if such person is held liable therefor (including pursuant to any settlement arrangements);

(e) initiated by such person against the Corporation or its directors, officers, employees, agents or other indemnitees, unless (a) the Board authorized the Proceeding (or the relevant part of the Proceeding) prior to its initiation, (b) the Corporation provides the indemnification, in its sole discretion, pursuant to the powers vested in the Corporation under applicable law, (c) otherwise made under Section 5 of this Article X or (d) otherwise required by applicable law; or

(f) if prohibited by applicable law.

SECTION 7. Indemnification Claims; Determination.

(a) To obtain indemnification under this Article X, a Covered Person shall submit to the Corporation a written request, including therein or therewith such documentation and information as is reasonably available to the Covered Person and is reasonably necessary to determine whether and to what extent the Covered Person is entitled to indemnification. Upon written request by a Covered Person for indemnification, a determination (the “Determination”), if required by applicable law, with respect to the Covered Person’s entitlement thereto shall be made as follows: (i) by the Board by majority vote of a quorum consisting of Disinterested Directors (as defined in Section 19 of this Article X); (ii) if such a quorum of Disinterested Directors cannot be obtained, by majority vote of a committee duly designated by the Board (all directors, whether or not Disinterested Directors, may participate in such designation) consisting solely of two or more Disinterested Directors; (iii) if such a committee cannot be designated, by any Independent Counsel (as defined in Section 19 of this Article X) selected by the Board, as prescribed in (i) above or by the committee of the Board prescribed in (ii) above, in a written opinion to the Board, a copy of which shall be delivered to the claimant; or if a quorum of the Board cannot be obtained for (a) above and the committee cannot be designated under (b) above, selected by majority vote of the full Board (in which directors who are parties may participate); or (iv) if such Independent Legal Counsel determination cannot be obtained, by majority vote of a quorum of stockholders consisting of stockholders who are not parties to such Proceeding, or if no such quorum is obtainable, by a majority vote of stockholders who are not parties to the Proceeding. If it is so determined that the claimant is entitled to indemnification, payment to the claimant shall be made within thirty (30) calendar days after such determination.

(b) If a claim for indemnification under this Article X is not paid in full by the Corporation within thirty (30) calendar days after a determination is made pursuant to Section 7(a) that the claimant is entitled to be indemnified, or (ii) if a request for advancement of Expenses under this Article X is not paid in full by the Corporation within ten (10) calendar days after a statement pursuant to Section 5 above and the required Undertaking, if any, have been received by the Corporation, the claimant may at any time thereafter bring suit against the Corporation in a court of competent jurisdiction to recover the unpaid amount of the claim for indemnification or request for advancement of Expenses and, if successful in whole or in part, the claimant shall be entitled to be paid also any and all Expenses incurred in connection with prosecuting such claim. In any such suit, the Corporation shall, to the fullest extent not prohibited by law, have the burden of proving that the claimant is not entitled to the requested indemnification or advancement of Expenses. It shall be a defense to any such action that, under the DGCL or other applicable law, the claimant has not met the standard of conduct which makes it permissible for the Corporation to indemnify the claimant for the amount claimed or that the claimant is not entitled to the requested advancement of Expenses, but (except where the required Undertaking, if any, has not been tendered to the Corporation) the burden of proving such defense shall be on the Corporation. Neither the failure of the Corporation (including its Disinterested Directors, Independent Counsel or stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because the claimant met the applicable standard of conduct set forth under the DGCL or other applicable law, nor an actual determination by the Corporation (including its Disinterested Directors, Independent Counsel or stockholders) that the claimant has not met such

applicable standard of conduct, shall be a defense to the action or create a presumption that the claimant has not met the applicable standard of conduct.

(c) The termination of any Proceeding by judgment, order, settlement, conviction, or upon a plea of *nolo contendere* or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that the person's conduct was unlawful.

(d) If a Determination shall have been made pursuant to Section 7(a) above that the claimant is entitled to indemnification, the Corporation shall be bound by such determination in any judicial proceeding commenced pursuant to Section 7(b) above.

(e) The Corporation shall be precluded from asserting in any judicial proceeding commenced pursuant to Section 7(b) above that the procedures and presumptions of this Bylaw are not valid, binding and enforceable and shall stipulate in such proceeding that the Corporation is bound by all the provisions of this Bylaw.

SECTION 8. Procedures for the Determination of Whether Standards Have Been Satisfied.

(a) Costs. All costs incurred by the Corporation in making the Determination shall be borne solely by the Corporation, including, but not limited to, the costs of legal counsel, proxy solicitations and judicial determinations. The Corporation shall also be solely responsible for paying all costs incurred by it in defending any suits or Proceedings challenging payments by the Corporation to a Covered Person under these Bylaws.

(b) Timing of the Determination. The Corporation shall use its best efforts to make the Determination contemplated by Section 7 hereof as promptly as is reasonably practicable under the circumstances.

SECTION 9. Non-exclusivity of Rights. The rights of indemnification and advancement of Expenses provided in this Article X shall not be deemed exclusive of any other rights to which a person seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, insurance policy, vote of stockholders or disinterested directors or otherwise, both as to action in the person's official capacity and as to action in another capacity while holding such office. The Corporation is specifically authorized to enter into an agreement with any of its directors, officers, employees or agents providing for indemnification and advancement of expenses, including attorneys' fees, that may change, enhance, qualify or limit any right to indemnification or advancement of expenses created by this Article X, to the fullest extent not prohibited by the DGCL or other applicable law.

SECTION 10. Continuation of Rights. The rights of indemnification and advancement of expenses provided in this Article X shall continue as to any person who has ceased to be a director, officer, partner, member, trustee, agent or employee and shall inure to the benefit of their heirs, executors, administrators and estates.

SECTION 11. Contract Rights. Without the necessity of entering into an express contract, the obligations of the Corporation to indemnify a director, officer, partner, member, trustee, agent or employee under this Article X, including the duty to advance expenses, shall be considered a contract right between the Corporation and such individual and shall be effective to the same extent and as if provided for in a contract between the Corporation and the director or executive officer. Such contract right shall be deemed to vest at the commencement of such individual's service to or at the request of the Corporation, and no amendment, modification or repeal of this Article X shall affect, to the detriment of the indemnified person and such indemnified person's heirs, executors, administrators and estate, such obligations of the Corporation in connection with a claim based on any act or failure to act occurring before such modification or repeal.

SECTION 12. Subrogation. In the event of payment of indemnification to a person described in Sections 1 or 2 of this Article X, the Corporation shall be subrogated to the extent of such payment to any right of recovery such person may have and such person, as a condition of receiving indemnification from the Corporation, shall execute all documents and do all things that the Corporation may deem necessary or desirable to perfect such right of recovery, including the execution of such documents necessary to enable the Corporation effectively to enforce any such recovery.

SECTION 13. No Duplication of Payments. The Corporation shall not be liable under this Article X to make any payment in connection with any claim made against a person described in Sections 1 or 2 of this Article X to the extent such person has otherwise received payment (under any insurance policy, bylaw, agreement or otherwise) of the amounts otherwise payable as indemnity hereunder.

SECTION 14. Insurance and Funding.

(a) The Board of Directors may authorize that the Corporation purchase and maintain, at the Corporation's expense, insurance to protect the Corporation and any person against any liability or expense asserted against or incurred by such person in connection with any Proceeding, whether or not the Corporation would have the power to indemnify such person against such liability or expense by law or under this Article X or otherwise. The Corporation may create a trust fund, grant a security interest or use other means (including, without limitation, a letter of credit) to insure the payment of such sums as may become necessary to effect the indemnification provided herein.

(b) Any full or partial payment by an insurance company under any insurance policy covering any director, officer, employee, agent or other person indemnified above made to or on behalf of a person entitled to indemnification under this Article X shall relieve the Corporation of its liability for indemnification provided for under this Article X or otherwise to the extent of such payment.

(c) Any insurance or other financial arrangement made on behalf of a person pursuant to this Section 14 may be provided by the Corporation or any other person approved by the Board of Directors, even if all or part of the other person's stock or other securities is owned by the Corporation. In the absence of fraud, (i) the decision of the Board of Directors as to the propriety of the terms and conditions of any insurance or other financial arrangement made

pursuant to this Section 14 and the choice of the person to provide the insurance or other financial arrangement is conclusive; and (ii) the insurance or other financial arrangement does not subject any director approving it to personal liability for such director's action in approving the insurance or other financial arrangement; even if a director approving the insurance or other financial arrangement is a beneficiary of the insurance or other financial arrangement.

SECTION 15. No Imputation. The knowledge and/or actions, or failure to act, of any other officer, director, employee or agent of the Corporation or an Other Enterprise shall not be imputed to an indemnified person for purposes of determining the right to indemnification under this Article X.

SECTION 16. Reliance. Persons who after the date of the adoption of Article X or any amendment thereto serve or continue to serve the Corporation in an Official Capacity or who, while serving in an Official Capacity, serve or continue to serve in an Official Capacity for an Other Enterprise, shall be conclusively presumed to have relied on the rights to indemnification and advancement of Expenses contained in this Article X.

SECTION 17. Severability. If this Article X or any portion hereof shall be invalidated on any ground by any court of competent jurisdiction, then the Corporation shall nevertheless indemnify and hold harmless each director and officer and any other person indemnified pursuant to this Article X as to all Expenses with respect to any Proceeding to the full extent permitted by any applicable portion of this Article X that shall not have been invalidated and to the fullest extent permitted by applicable law.

SECTION 18. Notices. Any notice, request or other communication required or permitted to be given to the Corporation under this Article X shall be in writing and either delivered in person or sent by U.S. mail, overnight courier or by e-mail or other electronic transmission, to the Secretary of the Corporation and shall be effective only upon receipt by the Secretary.

SECTION 19. Certain Definitions.

(a) The term "Corporation" shall include, in addition to American Water Works Company, Inc. and, in the event of a consolidation or merger involving the Corporation, in addition to the resulting corporation, any constituent corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers, employees or agents, so that any person who is or was a director, officer, employee or agent of such constituent corporation, or is or was serving at the request of such constituent corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under the provisions of this Article X with respect to the resulting or surviving corporation as such person would have with respect to such constituent corporation if its separate existence had continued.

(b) The term "Disinterested Director" means a director of the Corporation who is not and was not a party to the matter in respect of which indemnification is sought by the claimant.

(c) The term “Expenses” shall be broadly construed and shall include, without limitation, all direct and indirect losses, liabilities, expenses, including fees and expenses of attorneys, fees and expenses of accountants, court costs, transcript costs, fees and expenses of experts, witness fees and expenses, travel expenses, printing and binding costs, telephone charges, delivery service fees, the premium, security for, and other costs relating to any bond (including cost bonds, appraisal bonds, or their equivalents), judgments, fines (including excise taxes assessed on a person with respect to an employee benefit plan) and amounts paid in settlement and all other disbursements or expenses of the types customarily incurred in connection with (i) the investigation, prosecution, defense, appeal or settlement of a Proceeding, (ii) serving as an actual or prospective witness, or preparing to be a witness in a Proceeding, or other participation in, or other preparation for, any Proceeding, (iii) any compulsory interviews or depositions related to a Proceeding, (iv) any non-compulsory interviews or depositions related to a Proceeding, subject to the person receiving advance written approval by the Corporation to participate in such interviews or depositions, and (v) responding to, or objecting to, a request to provide discovery in any Proceeding. Expenses shall also include any federal, state, local and foreign taxes imposed on such person as a result of the actual or deemed receipt of any payments under this Article X.

(d) The term “Independent Counsel” means a law firm, a member of a law firm, or an independent practitioner, that is experienced in matters of corporation law and shall include any person who, under the applicable standards of professional conduct then prevailing, would not have a conflict of interest in representing either the corporation or the claimant in an action to determine the claimant’s rights under this Article X.

(e) The term “Official Capacity” shall mean service as a director or officer of the Corporation or service, at the request of the Corporation while serving in an Official Capacity for the Corporation, as a director, officer, partner, member, manager, trustee, employee, agent or other representative of an Other Enterprise.

(f) The term “Proceeding” shall be broadly construed and shall include, without limitation, the investigation, preparation, prosecution, defense, settlement, mediation, arbitration and appeal of, and the giving of testimony in, any Proceeding.

(g) The term “servicing at the request of the Corporation” includes any service as a director, officer, employee, or agent of the Corporation that imposes duties on such persons, including duties relating to an employee benefit plan and its participants or beneficiaries.

(h) The term “not opposed to the best interest of the Corporation,” when used in the context of a Covered Person’s service with respect to employee benefit plans maintained or sponsored by the Corporation, describes the actions of a person who acts in good faith and in a manner he reasonably believes to be in the best interests of the participants and beneficiaries of an employee benefit plan.

ARTICLE XI

Shares and Their Transfer

SECTION 1. Certificated and Uncertificated Shares. The shares of the Corporation shall be represented by certificates, or shall be uncertificated shares evidenced by a book-entry system, or a combination of both. Certificates shall be signed by, or in the name of the Corporation by, (i) the President or a Vice President and (ii) the Secretary or an Assistant Secretary, certifying the number and class of shares of the Corporation owned by the holder of such certificate. If such a certificate is countersigned (a) by a transfer agent or an assistant transfer agent other than the Corporation or its employee or (b) by a registrar other than the Corporation or its employee, the signature of any such President, Vice President, Secretary or Assistant Secretary may be a facsimile. In case any officer(s) who have signed, or whose facsimile signature(s) have been used on, any such certificate(s) shall cease to be such officer(s) of the Corporation, whether because of death, resignation or otherwise, before such certificate(s) have been delivered by the Corporation, such certificate(s) may nevertheless be issued and delivered as though the person or persons who signed such certificate(s) or whose facsimile signature(s) have been used thereon had not ceased to be such officer(s) of the Corporation.

SECTION 2. Registered Stockholders. A record shall be kept of the name of the person, firm or corporation owning each share of stock of the Corporation, including, in the case of stock represented by each certificate for stock of the Corporation issued, the number of shares represented by each such certificate, and the date thereof, and, in the case of cancellation, the date of cancellation. Except as otherwise expressly required by law, the person in whose name shares of stock stand on the books of the Corporation shall be deemed the owner thereof for all purposes as regards the Corporation. Without limiting the generality of the foregoing, the Corporation (a) shall be entitled to recognize the exclusive right of a person registered on its books as the owner of shares to receive dividends and to vote as such owner; and (b) shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of another person, whether or not it shall have express or other notice thereof, except as otherwise provided by the laws of Delaware.

SECTION 3. Transfers of Stock. Transfers of stock shall be made only upon the transfer books of the Corporation kept at an office of the Corporation or by transfer agents designated to transfer shares of the stock of the Corporation. Except when a certificate is issued in accordance with Section 4 of this Article XI, in the case of stock represented by a certificate, an outstanding certificate for the number of shares involved shall be surrendered for cancellation before a new certificate is issued therefor.

SECTION 4. Lost, Destroyed or Mutilated Certificates. In the case of an alleged loss or destruction or the mutilation of a certificate representing stock of the Corporation, a new certificate may be issued in place thereof, in the manner and upon such terms as the Board may prescribe. Without limiting the generality of the foregoing, the Corporation may issue a new certificate of stock or uncertificated shares in the place of any certificate theretofore issued by it, alleged to have been lost, stolen or destroyed, and the Corporation may require the owner of the lost, stolen or destroyed certificate, or such owner's legal representative, to give the Corporation a bond sufficient to indemnify it against any claim that may be made against it on account of the

alleged loss, theft or destruction of any such certificate or the issuance of such new certificate or uncertificated shares.

SECTION 5. Fractional Shares. The Corporation shall have the complete discretion to issue fractional shares.

SECTION 6. Record Date. The Board of Directors may by resolution of the Board adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time such resolution is presented to the Board for adoption) fix in advance a date as a record date for the determination of the stockholders entitled to notice of and to vote at any meeting of stockholders, or entitled to receive payment of any dividends or other distribution, or to exercise the rights in respect to any change, conversion, or exchange of capital stock, and in such case only stockholders of record on the date so fixed shall be entitled to such notice of, and to vote at, such meeting, or to receive payment of such dividend or other distribution, or allotment of rights, or exercise such rights, as the case may be, and notwithstanding any transfer of any stock on the books of the Corporation after any such record date fixed as herein provided. In no event may any such record date: (i) be more than sixty (60) days preceding the date of any meeting of stockholders, or the date for the payment of any dividend, or the date when any change or conversion or exchange of capital stock shall go into effect, or (ii) precede the date upon which the resolution fixing the record date is adopted by the Board of Directors. A determination of stockholders of record entitled to notice of or to vote at any meeting of stockholders shall apply to any adjournment of the meeting; *provided, however*, that the Board may fix a new record date for the adjourned meeting.

ARTICLE XII

General Provisions

SECTION 1. Section Headings. Section headings in these Bylaws are for convenience of reference only and shall not be given any substantive effect in limiting or otherwise construing any provision herein.

SECTION 2. Gender. All words used in these Bylaws in the masculine gender shall extend to and shall include the feminine and neuter genders.

SECTION 3. Time Periods. In applying any provision of these Bylaws that requires that an act be done or not be done a specified number of days prior to an event or that an act be done during a period of a specified number of days prior to an event, unless the use of business days are specified, calendar days shall be used, the day of the doing of the act shall be included, and the day of the event shall be excluded.

SECTION 4. Evidence of Authority. A certificate by the Secretary, or an Assistant Secretary, or a temporary Secretary, as to any action taken by the stockholders, directors, a committee or any officer or representative of the Corporation shall, as to all persons who rely on the certificate in good faith, be conclusive evidence of such action.

SECTION 5. Restated Certificate of Incorporation. All references in these Bylaws to the Restated Certificate of Incorporation shall be deemed to refer to the Restated Certificate of

Incorporation of the Corporation, as amended and in effect from time to time, including the terms of any certificate of designations of any series of Preferred Stock.

SECTION 6. Bylaw Provisions Additional and Supplemental to Provisions of Law. All restrictions, limitations, requirements and other provisions of these Bylaws shall be construed, insofar as possible, as supplemental and additional to all provisions of law applicable to the subject matter thereof and shall be fully complied with in addition to the said provisions of law unless such compliance shall be illegal.

SECTION 7. Interpretation. Unless the context requires otherwise, the general provisions, rules of construction and definitions in the DGCL shall govern the construction of these Bylaws. Reference in these Bylaws to any provision of the DGCL shall be deemed to include all amendments thereof. The term “person” includes both a corporation and a natural person. The term “Chief Executive Officer” shall be equivalent to the term “President” under the DGCL.

SECTION 8. Inconsistent Provisions. In the event that any provision of these Bylaws is or becomes inconsistent with any provision of the Corporation’s Restated Certificate of Incorporation, the DGCL or any other applicable law, such provision of these Bylaws shall not be given any effect to the extent of such inconsistency but shall otherwise be given full force and effect.

SECTION 9. Notices. Except as otherwise specifically provided herein or required by the DGCL or other applicable law or the Restated Certificate of Incorporation, all notices required to be given to any person pursuant to these Bylaws shall be in writing and may in every instance be effectively given by hand delivery to the recipient thereof, by depositing such notice in the mails, postage paid, addressed to such person at their last known address as the same appears on the books of the Corporation. Notices may also be sent by facsimile or other electronic transmission.

SECTION 10. Notice to Stockholders by Electronic Transmission.

(a) Without limiting the manner by which notice otherwise may be given effectively to stockholders pursuant to the DGCL, the Restated Certificate of Incorporation or these Bylaws, any notice to stockholders given by the Corporation under any provision of the DGCL, the Restated Certificate of Incorporation or these Bylaws shall be effective if given by a form of electronic transmission consented to by the stockholder to whom the notice is given. Any such consent shall be revocable by the stockholder by written notice to the Corporation. Any such consent shall be deemed revoked if (a) the Corporation is unable to deliver by electronic transmission two consecutive notices given by the Corporation in accordance with such consent; and (b) such inability becomes known to the Secretary or an Assistant Secretary of the Corporation or to the transfer agent, or other person responsible for the giving of notice. However, the inadvertent failure to treat such inability as a revocation shall not invalidate any meeting or other action.

(b) Any notice given pursuant to the preceding paragraph shall be deemed given: (i) if by facsimile telecommunication, when directed to a number at which the stockholder has consented to receive notice; (ii) if by electronic mail, when directed to an electronic mail

address at which the stockholder has consented to receive notice; (iii) if by a posting on an electronic network together with separate notice to the stockholder of such specific posting, upon the later of (A) such posting and (B) the giving of such separate notice; and (iv) if by any other form of electronic transmission, when directed to the stockholder. An affidavit of the Secretary or an Assistant Secretary or of the transfer agent or other agent of the Corporation that the notice has been given by a form of electronic transmission shall, in the absence of fraud, be prima facie evidence of the facts stated therein.

(c) For purposes of these Bylaws, an “electronic transmission” means any form of communication, not directly involving the physical transmission of paper, that creates a record that may be retained, retrieved, and reviewed by a recipient thereof, and that may be directly reproduced in paper form by such a recipient through an automated process.

SECTION 11. Notice to Stockholders Sharing an Address. Except as otherwise prohibited under the DGCL, without limiting the manner by which notice otherwise may be given effectively to stockholders, any notice to stockholders given by the Corporation under the provisions of the DGCL, the Restated Certificate of Incorporation or these Bylaws shall be effective if given by a single written notice to stockholders who share an address if (a) consented to by the stockholders at that address to whom such notice is given, or (b) the Corporation complies with the provisions of Rule 14a-3(e) of the Exchange Act. The stockholder consent referenced in the immediately preceding sentence shall be revocable by the stockholder by written notice to the Corporation. Any stockholder who fails to object in writing to the Corporation, within sixty (60) days of having been given written notice by the Corporation of its intention to send the single notice, shall be deemed to have consented to receiving such single written notice.

SECTION 12. Waiver of Notice. Whenever notice is required to be given to stockholders, directors or other persons under any provision of the DGCL, the Restated Certificate of Incorporation or these Bylaws, a written waiver, signed by the person entitled to notice, or a waiver by electronic transmission by the person entitled to notice, whether before or after the time of the event for which notice is to be given, shall be deemed equivalent to notice. Attendance of a person at a meeting, whether in person, by remote communication, if applicable, or by proxy, shall constitute a waiver of notice of such meeting, except when the person attends a meeting for the express purpose of objecting at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened. Neither the business to be transacted at, nor the purpose of, any regular or special meeting of the stockholders or the board of directors, as the case may be, need be specified in any written waiver of notice or any waiver by electronic transmission unless so required by the Restated Certificate of Incorporation or these Bylaws. Any person so waiving notice of such a meeting shall be bound by the proceedings of any such meeting in all respects as if due notice thereof had been given.

ARTICLE XIII

Exclusive Forum

Unless the Corporation consents in writing to the selection of an alternative forum, the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of the Corporation, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director or officer or other employee of the Corporation to the Corporation or the Corporation's stockholders, (iii) any action asserting a claim against the Corporation or any director or officer or other employee of the Corporation arising pursuant to any provision of the DGCL or the Corporation's Restated Certificate of Incorporation or Bylaws (in each case, as they may be amended from time to time), or (iv) any action asserting a claim against the Corporation or any director or officer or other employee of the Corporation governed by the internal affairs doctrine, shall be a state court located within the State of Delaware (or, if no state court located within the State of Delaware has jurisdiction, the federal district court for the District of Delaware), in all cases to the fullest extent permitted by law and subject to said court having personal jurisdiction over the indispensable parties named as defendants therein.

ARTICLE XIV

Amendments

These Bylaws and any amendment thereof may be altered, amended or repealed, or new bylaws may be adopted by (i) the Board by resolution adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time such resolution is presented to the Board for adoption) acting at any special or regular meeting of the Board if, in addition to any other notice required by these Bylaws and other applicable requirements contained herein, notice of such amendment, alteration or repeal is contained in the notice or waiver of notice of such meeting, which notice shall also include, without limitation, the text of any such proposed amendment and/or any resolution calling for any such amendment, alteration or repeal, or (ii) the stockholders, provided that, in addition to any other notice required by these Bylaws and other applicable requirements contained herein, notice of such amendment, alteration or repeal is contained in the notice or waiver of notice of such meeting, which notice (or proxy statement accompanying such notice or accessible through a website URL provided in such notice or in a document accompanying such notice) shall also include, without limitation, the text of any such proposed amendment and/or any resolution calling for any such amendment, alteration or repeal.

AMERICAN WATER WORKS COMPANY, INC.

CERTIFICATE OF AMENDMENT AND RESTATEMENT OF BYLAWS

The undersigned hereby certifies that the undersigned is the duly elected, qualified and acting Secretary of AMERICAN WATER WORKS COMPANY, INC., a Delaware corporation (the "Corporation"), and that the foregoing Amended and Restated Bylaws were amended and restated on December 7, 2022 by the Corporation's Board of Directors.

IN WITNESS WHEREOF, the undersigned has hereunto signed this certificate on this 7th day of December, 2022.

Press Release

American Water Appoints Two New Independent Members to the Board of Directors

CAMDEN, N.J., DECEMBER 8, 2022 – American Water Works Company, Inc. (NYSE: AWK) announced today that Laurie P. Havanec and Michael L. Marberry have been appointed independent members of the company's board of directors, effective Dec. 7, 2022.

"American Water is pleased to have Laurie and Michael join our board of directors," said Karl Kurz, Board Chair of American Water. "Laurie's extensive experience with human resources and environmental, social, and governance (ESG) activities, coupled with Michael's executive leadership and corporate strategy and business development background, will further strengthen our board. We look forward to working with both of them."

"We are honored to have these talented and successful individuals become part of American Water's board," said Susan Hardwick, President and CEO of American Water. "Laurie will provide our board with expertise across all human resources functions, including talent development, diversity, equity, and inclusion. Michael has deep experience in leading and growing a successful S&P 500 company. Both will add significant value to our company."

Havanec has served as Executive Vice President and Chief People Officer of CVS Health Corporation since February 2021. Under her leadership, she developed the vision and strategy for a human resources function serving over 300,000 employees. Havanec also refreshed the company's ESG strategy with a refined focus on sustainability and equity.

Prior to her current role, Havanec led human resources for Otis Worldwide Corporation and held leadership positions in human resources for United Technologies Corporation and Aetna. She earned a bachelor's degree in business and marketing from the University of Connecticut and a Juris Doctor with honors from the University of Connecticut School of Law.

Marberry served as President and CEO and as a member of the board of directors of J.M. Huber Corporation from 2009 to 2022. Under Marberry's leadership, Huber has been recognized as one of the most sustainable family enterprises in the world, having received the IMD-Pictet Sustainability in Family Business Award.

A Huber leader since 1997, Marberry first joined that company as its Vice President of Corporate Strategy and New Business Development. He also served as Huber's Chief Financial Officer and President of its global Engineered Materials business.

Press Release

Marberry earned a bachelor's and a master's degree in chemical engineering from the University of Kentucky and an MBA from the Tuck School of Business at Dartmouth College. He is also a National Association of Corporate Directors (NACD) Board Governance Fellow.

American Water's board of directors now consists of 11 members.

About American Water

Item 8.01. Other Events.

California Coastal Commission Approval of Coastal Development Permit Application

On November 18, 2022, California-American Water Company (“Cal Am”), a wholly owned subsidiary of American Water Works Company, Inc. (the “Company”), announced that on November 17, 2022, the California Coastal Commission approved Cal Am’s original jurisdiction coastal development permit application for intake slant wells to supply water to a desalination plant that Cal Am intends to construct as a component of the Monterey Peninsula Water Supply Project (the “Water Supply Project”). The Water Supply Project is intended, among other things, to fulfill obligations of Cal Am to eliminate unauthorized diversions from the Carmel River as required under orders of the California State Water Resources Control Board. Cal Am will continue to seek the remaining permits necessary to construct the Water Supply Project. Construction of the desalination plant is expected to begin in 2024 and the desalination plant is estimated to be in-service by the end of 2027.

A copy of the press release issued by Cal Am on November 18, 2022 has been filed as [Exhibit 99.1](#) hereto and is incorporated herein by reference. References and links to websites and other information contained in the press release are not provided as active hyperlinks, and the information contained in or accessed through these hyperlinks shall not be incorporated into, or form a part of, this Current Report on Form 8-K.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K (or the exhibits thereto) are forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could,” or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on Form 8-K as a result of the factors discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2021, as filed with the Securities and Exchange Commission (the “SEC”) on February 16, 2022, and other filings with the SEC, and additional risks and uncertainties, including with respect to: (1) obtaining the remaining regulatory and other approvals and consents required to construct the desalination plant and to complete the other components of the Water Supply Project; (2) the timing of the in-service date for the desalination plant; (3) unexpected costs, liabilities or delays associated with the Water Supply Project and the construction of the desalination plant; (4) regulatory, legislative, local, municipal or private actions or challenges to the Water Supply Project or the construction of the desalination plant; and (5) other economic, business and other factors.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in the Company’s annual and quarterly reports as filed with the SEC, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date of this Current Report on Form 8-K. The Company does not have any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for us to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company’s or Cal Am’s business, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Press Release

California Coastal Commission Approves Desalination Slant Well Permit *Decision a Victory for Monterey Peninsula Residents and Businesses*

MONTEREY, Calif. (November 18, 2022) – On November 17, 2022, the California Coastal Commission (Commission) supported its staff recommendation and approved a development permit for intake slant wells needed to provide ocean water and brackish groundwater to California American Water’s proposed desalination plant. With this approval, the Monterey Peninsula is a critical step closer to finally solving the region’s decades-long water supply crisis.

“With the Commission’s vote and approval, we have received the major regulatory milestone needed to finally solve the long-standing water supply needs of the Monterey Peninsula,” said Kevin Tilden, president of California American Water. “This is a significant victory for the Carmel River, and will support desperately needed new housing, economic development and vitality, as well as help ensure water security for those who live and work on the Monterey Peninsula.”

The desalination plant is one of three major components that California American Water – the Peninsula’s water provider – has supported to diversify the area’s water supply and relieve the over-drafted Carmel River Aquifer. The other two components of the Monterey Peninsula Water Supply Project are aquifer storage and recovery and a groundwater replenishment and recycled water project that together with other smaller projects will bring drought-proof and environmentally sustainable water supplies to the Monterey Peninsula.

California American Water held more than 24 community workshops and meetings around Monterey County in the last three months to answer questions and receive feedback from community members. Over 100 supporters sent letters and spoke at the Coastal Commission hearing to advocate for the need to develop new water supplies for new housing, jobs, and environmental protection. The company had offered solutions to many of the major concerns that were raised in these meetings, including future system demands, public access to coastal resources and habitat protection.

Additional conditions required by the Commission include California American Water agreeing to expand and improve affordability programs for customers and ongoing outreach and reporting to the City of Marina. A \$3 million community benefit for Marina residents to address concerns about the location of the intake wells in the city was also included as a condition.

With the Commission’s approval, California American Water expects to receive the remaining customary permits. Construction is expected to begin in 2024 and be in service by the end of 2027. California American Water expects to maximize State Revolving Fund financing and other available grants to help reduce the cost impact to customers.

“This project was conceived a decade ago and has been through extensive review and comment by key stakeholders,” Tilden said. “This was a truly collaborative process that incorporated perspectives and interested parties on the Peninsula whether they be our government partners, community organizations, or individual citizens. We listened and, to the extent reasonably possible, addressed their concerns. Subjects of discussion included water supply needs, affordability, public access, community benefits, saltwater intrusion, equity, and a myriad of other important topics.”

The plant has an initial 4.8 million-gallons-per-day capacity and will rely on greenhouse gas-free renewable energy sources. It is designed, however, to accommodate a phased increase in capacity to provide for future needs for the Peninsula and region, and possible direct public participation in the project. This added flexibility in design was in response to concern regarding future supply needs.

About California American Water: California American Water, a subsidiary of American Water (NYSE: AWK), provides high-quality and reliable water and wastewater services to more than 725,000 people. Information regarding California American Water's service areas can be found on the company's website www.californiaamwater.com.

About American Water: With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs more than 6,400 dedicated professionals who provide regulated and regulated-like drinking water and wastewater services to more than 14 million people in 24 states. **AMERICAN WATER REPORTS THIRD QUARTER 2022 RESULTS
AFFIRMS 2022 GUIDANCE
ANNOUNCES 2023 EPS GUIDANCE, LONG-TERM TARGETS, AND CAPITAL INVESTMENT PLANS**

- **Third quarter 2022 earnings of \$1.63 per share, compared to \$1.53 per share in 2021; Year-to-date 2022 earnings of \$3.70 per share, compared to \$3.40 per share in 2021**
 - **Quarter and year-to-date results as compared to the prior year reflect an estimated favorable impact due to weather of \$0.07 per share and \$0.04 per share, respectively**
 - **Invested \$1.9 billion year-to-date and added 79,300 customer connections year-to-date through closed acquisitions and organic growth; total capital plan on track to invest approximately \$2.5 billion in 2022**
 - **The Company's Pennsylvania subsidiary entered into an agreement to acquire the wastewater system of the Butler Area Sewer Authority, for \$231.5 million, which will add approximately 14,700 equivalent customer connections**
- **2022 earnings guidance range of \$4.39 to \$4.49 per share affirmed, on a weather normalized basis; Year-to-date results include an estimated \$0.06 of favorable weather, as compared to normal**
- **Initiating 2023 earnings guidance range of \$4.72 to \$4.82 per share and affirming long-term EPS growth of 7-9%**

CAMDEN, N.J., October 31, 2022 - American Water Works Company, Inc. (NYSE: AWK) today reported results for the quarter ended September 30, 2022, of \$1.63 per share, compared to \$1.53 per share in 2021. The Company today also announced 2023 earnings per share guidance and long-term targets.

“We made great progress in executing our regulatory and acquisition strategies these last few months,” said Susan Hardwick, president and CEO of American Water. “Achieving settlements in the rate cases in our two largest jurisdictions, New Jersey and Pennsylvania, is a constructive step forward for our customers and our operations in each state.”

“We also announced a few weeks ago an agreement to acquire assets serving another nearly 15,000 wastewater customers in western Pennsylvania. We look forward to completing that transaction in 2023. We remain firmly on track for a strong finish to 2022 and look forward to continuing to deliver on our strategies in 2023,” said Hardwick.

2022 Earnings Guidance Affirmed

The Company affirms its 2022 earnings per share guidance range of \$4.39 to \$4.49 on a weather normalized basis. The Company's earnings forecasts and targets are subject to numerous risks and uncertainties, including, without limitation, those described under "Cautionary Statement Concerning Forward-Looking Statements" below and under "Risk Factors" in its annual, quarterly, and current reports filed with the Securities and Exchange Commission ("SEC"). All statements related to earnings and earnings per share refer to diluted earnings and earnings per share.

Targets Established

Financial

- **2023 earnings** guidance range of **\$4.72 to \$4.82** per share
- Long-term **EPS compound annual growth rate** ("CAGR") of 7-9% unchanged
- Long-term **dividend growth** expectation of 7-9%, narrowed to align with long-term EPS CAGR
- **2023-2027 capital investment** plan increased to **\$14-\$15 billion** and **\$30-\$34 billion** for the 10-year period of 2023-2032

Environmental

- By 2035, reduce absolute **scope 1** and **scope 2** emissions by 50% (2020 baseline)
- Achieve **net zero** scope 1 and scope 2 emissions by 2050
- First time disclosure of **scope 3** emissions estimated at 506,000 metric tons in 2021

Consolidated Results

For the three and nine months ended September 30, 2022, earnings per share were \$1.63 and \$3.70, respectively, compared to \$1.53 and \$3.40 per share in the same periods in 2021. These increases were primarily driven by the implementation of new rates in the Regulated Businesses for the recovery of capital and acquisition investments, offset somewhat by impacts from inflationary pressures on production costs and higher interest costs. Results for the three and nine months ended September 30, 2022, also reflect the favorable impact of weather, estimated at \$0.06 per share, primarily due to hot and dry weather in the third quarter of 2022 as compared to a \$0.01 per share unfavorable impact and \$0.02 per share favorable impact for the three and nine months ended September 30, 2021, respectively. Also, included in the results for the three and nine months ended September 30, 2022, are \$0.06 and \$0.18 per share, respectively, from interest income earned on the seller note and income earned on revenue share agreements, which compares to Homeowner Services Group ("HOS") operating results for the three and nine months ended September 30, 2021, of \$0.09 and \$0.25 per share, respectively. Results for 2021 included \$0.09 and \$0.10 per share for the three and nine months ended September 30, 2021, respectively, related to the operating results of the New York subsidiary (which was sold in January 2022).

The Company is on track to meet its capital investment plan for the year with investments of \$1.9 billion in the first nine months of 2022, including \$1.6 billion for infrastructure improvements and replacements in the Regulated Businesses. The Company plans to invest a total of approximately \$2.5 billion across its footprint in 2022.

Regulated Businesses

In the third quarter of 2022, Regulated Businesses' net income was \$302 million, compared to \$273 million for the same period in 2021. For the first nine months of 2022, Regulated Businesses' net income was \$681 million, compared to \$623 million for the same period in 2021. Net income attributable to the Company's New York subsidiary was \$16 million and \$17 million for the three and nine months ended September 30, 2021, respectively.

Operating revenues increased \$104 million and \$187 million for the three and nine months ended September 30, 2022, respectively, as compared to 2021, when excluding revenues contributed by the Company's New York subsidiary in 2021. The increases in operating revenues were primarily a result of authorized revenue increases resulting from completed general rate cases and infrastructure proceedings to recover incremental capital and acquisition investments.

To date, the Company has been authorized additional annualized revenues of approximately \$111 million from general rate cases in 2022. Further, approximately \$82 million of additional annualized revenues from infrastructure surcharges have been authorized and are effective in 2022. The Company has general rate cases in progress in five jurisdictions, two of which have settlements filed and are awaiting final approval, and has filed for infrastructure surcharges in two jurisdictions, reflecting a total annualized revenue request of approximately \$479 million.

Excluding impacts of the Company's New York subsidiary in 2021, operation and maintenance ("O&M") expenses were higher by \$28 million and \$44 million for the three and nine months ended September 30, 2022, respectively, as compared to 2021, primarily due to increases in production costs from inflationary pressures. Also, depreciation expense was higher by \$10 million and \$24 million in these same periods due to the growing capital investment.

For the three and nine months ended September 30, 2021, results included revenues of \$45 million and \$97 million, respectively, and operating expenses of \$22 million and \$71 million, respectively, for the Company's New York subsidiary that was sold on January 1, 2022.

Market-Based Businesses and Other

In the third quarter of 2022, the net loss in Market-Based Businesses and Other was \$5 million, compared to net income of \$5 million for the same period in 2021. For the first nine months of 2022, the net loss in Market-Based Businesses and Other was \$8 million, compared to net loss of \$5 million for the same period in 2021. The primary driver for the change in both periods is the loss of earnings from HOS operations as a result of the sale of the business in 2021 and incremental interest expense on long-term debt in 2022. The loss of HOS operating results has been partially offset in both periods of 2022 with interest income earned on the seller note from the sale and continuing income earned on revenue share agreements. Year-to-date results in 2022 also reflect a net benefit of \$0.06 per share from post-close adjustments from the sale of HOS and the Company's New York subsidiary.

Dividends

On October 27, 2022, the Company's Board of Directors declared a quarterly cash dividend payment of \$0.6550 per share of common stock, payable on December 1, 2022, to shareholders of record as of November 8, 2022.

2022 Third Quarter Earnings & 2023 Earnings and Long-Term Guidance Conference Call

The conference call to discuss third quarter 2022 earnings, 2023 earnings guidance, and long-term targets will take place on Tuesday, November 1, 2022, at 9 a.m. Eastern Daylight Time. Interested parties may listen to an audio webcast through a link on the Company's Investor Relations website at ir.amwater.com. Presentation slides that will be used in conjunction with the earnings conference call will also be made available online in advance at ir.amwater.com. The Company recognizes its website as a key channel of distribution to reach public investors and as a means of disclosing material non-public information to comply with its obligations under SEC Regulation FD.

Following the earnings conference call, a replay of the audio webcast will be available for one year on American Water's investor relations website at ir.amwater.com/events.

About American Water

With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The Company employs approximately 6,400 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to over 14 million people in 24 states. More information can be found by visiting amwater.com and follow American Water on Twitter, Facebook and LinkedIn.

Throughout this press release, unless the context otherwise requires, references to the "Company" and "American Water" mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements in this press release including, without limitation, 2022 and 2023 earnings guidance, the Company's long-term financial, growth and dividend targets, future capital needs, the ability to achieve the Company's strategies and goals, including with respect to its ESG focus and related to the Company's receipt of contingent consideration from the sale of HOS, the repayment of the seller note and the redeployment of the net proceeds from its divestitures, the outcome of the Company's pending acquisition activity, the amount and allocation of projected capital expenditures, and estimated revenues from rate cases and other government agency authorizations, are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "outlook," "likely," "uncertain," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "will," "should" and "could" and or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on American Water's current expectations and assumptions regarding future events. They are not guarantees or assurances of any

outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance on them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this press release as a result of the factors discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, and subsequent filings with the SEC, and because of factors such as: the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates and regulatory responses to the COVID-19 pandemic; the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions; changes in customer demand for, and patterns of use of, water, such as may result from conservation efforts, impacts of the COVID-19 pandemic, or otherwise; a loss of one or more large industrial or commercial customers due to adverse economic conditions, the COVID-19 pandemic, or other factors; limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors; changes in laws, governmental regulations and policies, including with respect to the environment, health and safety, water quality and water quality accountability, contaminants of emerging concern, public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations; the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulation and policies with respect to data and consumer privacy, security and protection; weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares; the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions; the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of, or maintain and replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses; exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means; the Company's ability to obtain permits and other approvals for projects and construction of various water and wastewater facilities; changes in the Company's capital requirements; the Company's ability to control operating expenses and to achieve operating efficiencies; the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers; the Company's ability to obtain adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, electricity, fuel, water and other raw materials and to address or mitigate supply chain constraints impacting the Company's business operations; the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to acquiring, closing and successfully integrating regulated operations and market-based businesses, the Company's Military Services Group entering into new contracts, price redeterminations and other agreements and contracts, and realizing anticipated benefits and synergies from new acquisitions; risks and uncertainties following the completion of the sale of HOS and the Company's New York subsidiary; risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement and security regulations; cost overruns relating to improvements in or the expansion of the Company's operations; the Company's ability to successfully develop and implement new technologies and to protect related intellectual property; the Company's ability to maintain safe work sites; the Company's exposure to liabilities related to environmental laws and similar matters resulting from, among other things, water and wastewater service provided to customers; changes in general economic, political, business and financial market conditions, including without limitation conditions and collateral consequences associated with COVID-19; access to sufficient debt and/or equity capital on satisfactory terms and when and as needed to support operations and capital expenditures; fluctuations in inflation or interest rates and the Company's ability to address or mitigate the impacts thereof; the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks or other communications by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions; fluctuations in the value of benefit plan assets and liabilities that could increase the Company's cost and funding requirements; changes in federal or state general, income and other tax laws, including (i) future significant tax legislation; (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs; and (iii) the Company's ability to utilize its state income tax net operating loss carryforwards; migration of customers into or out of the Company's service territories; the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, or the assertion by private landowners of similar rights against such utility subsidiaries; any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained; the incurrence of impairment charges related to the Company's goodwill or other assets; labor actions, including work stoppages and strikes; the Company's ability to retain and attract qualified employees; civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth in the risk factors included in American Water's annual, quarterly and other SEC filings, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements American Water makes speak only as of the date of this press release. American Water does not have or undertake any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

2022 Third Quarter Earnings & 2023 Outlook Conference Call

November 1, 2022

Aaron Musgrave

Vice President, Investor Relations

Forward-Looking Statements

Safe Harbor

This presentation includes forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this presentation. The factors that could cause actual results to differ are discussed in the Appendix to this presentation, and in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2022, as filed with the SEC on October 31, 2022.

Non-GAAP Financial Information

This presentation includes non-GAAP financial measures. Further information regarding these non-GAAP financial measures, including a reconciliation of each of these measures to the most directly comparable GAAP measure, is included in the Appendix to this presentation.

Susan Hardwick

President and Chief Executive Officer

2022: Successfully Executing the Plan

☑ Q3/YTD Highlights

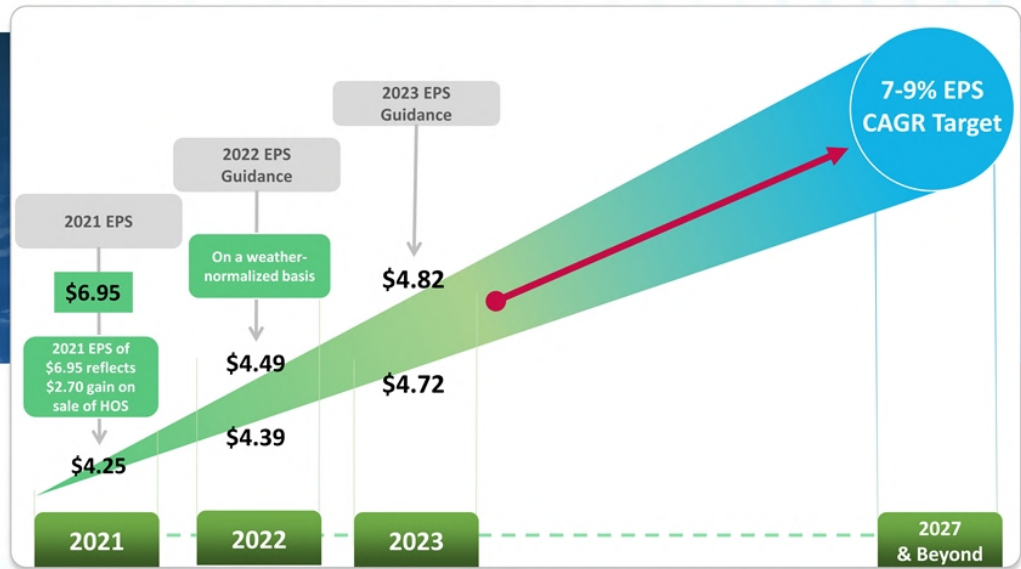

- Achieved solid EPS growth vs. 2021 driven by higher revenue from new rates, mechanisms, and acquisitions
- Invested \$1.9 billion of capital in regulated infrastructure improvements and acquisitions
- New rates effective in NJ; settlements awaiting Commission approval in PA and VA; Proposed Order received in IL; MO and CA cases progressing as expected
- Signed agreement to acquire Butler Area Sewer Authority, PA wastewater system for \$232 million
- Continuing to manage inflationary pressures

EPS Guidance: Affirming 2022, Initiating 2023

7-9% EPS
CAGR Target

2023 EPS Guidance
\$4.72 - \$4.82

High Quality, Top Tier Earnings Growth Outlook Coupled with Strong Long-Term Financial Targets

7-9% EPS Growth Outlook

2023–2027 Plan and Beyond

Business Mix

100%
Regulated and
Regulated-Like Earnings

Long-Term Financial Targets

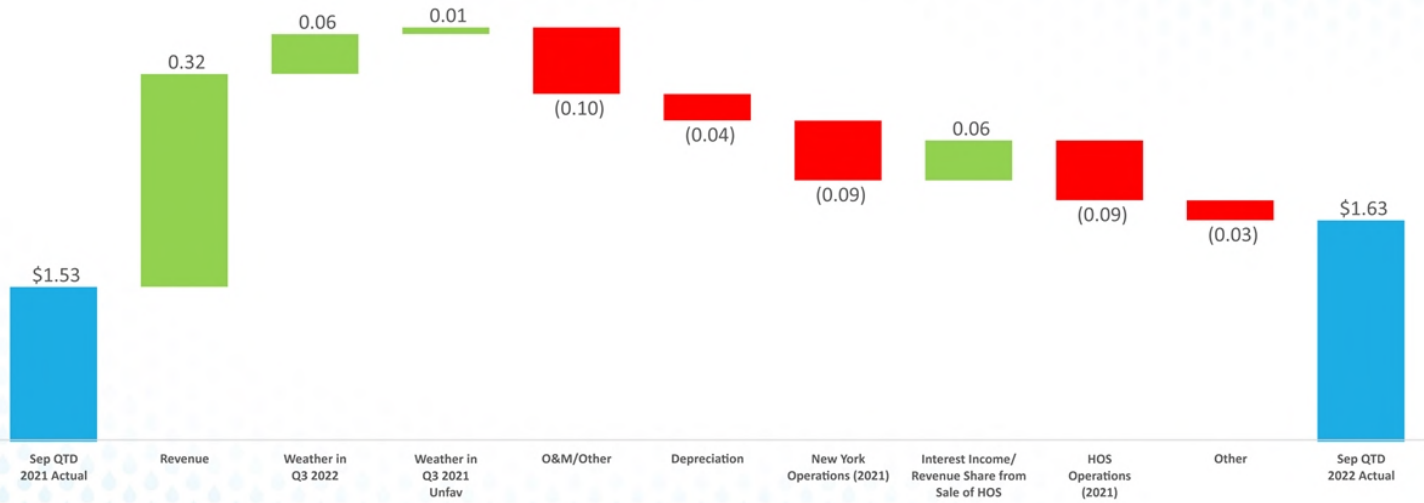

- Attractive, Long-Term Sustainable Shareholder Returns
 - EPS Growth 7-9%
 - Dividend Growth 7-9%
 - ESG Leadership Premium +
 - Customer Affordability +
- Rate Base Growth 8-9%
- Dividend Payout Ratio 55-60%
- Debt to Capital <60%

John Griffith

Executive VP & Chief Financial Officer

2022 Third Quarter EPS Detail

2022 Year-To-Date EPS Detail

* Includes \$0.08 EPS of post-close adjustments from the sale of Homeowner Services Group and \$(0.02) EPS loss on sale of the Company's New York subsidiary.

Rate Case and Legislative Updates

Open Rate Cases

- Rate case filed 11/15/21, Settlement filed 9/26/22
- Settlement: additional authorized revenues of \$12M vs. \$15M requested
- Final Order expected Q1 2023 (interim rates began 5/1/22)

- Rate case filed February 10, 2022; updated June 29, 2022
- Proposed Order from ALJs received on 10/28/22; additional revenues of \$69M vs. \$85M requested; ROE of 9.78%; June update included expected higher production/pension costs
- January 2023– Statutory Order date

- Rate case filed 4/29/22, Settlement filed 10/11/22
- Settlement: additional authorized revenues of \$150M vs. \$185M requested; incorporated our request of increased production costs, updated pension cost estimate
- Final Order expected by January 2023
- Rates to become effective January 28, 2023

- Rate case filed July 1, 2022
- Capital Investment of ≈\$462 million (2023-2025)
- Avg. water customer bill increase of \$2-8/mo. (at full ask)
- Rates expected to go into effect January 1, 2024

- Rate case filed July 1, 2022
- Capital Investment of ≈\$700 million
- Avg. water customer bill increase of \$12-13/mo. (at full ask)
- The MoPSC's review is expected to take 11 months

Completed Rate Cases in 2022

- General Rate Case
- Additional authorized revenues of \$15 million
- Effective 2/25/2022

- General Rate Case
- Additional authorized revenues of \$2 million
- Effective 7/1/2022

- General Rate Case
- New rates effective 9/1/2022
- Additional authorized revenues of \$61 million; Our request incorporated updated production cost estimates
- Pension/OPEB deferral authorization

Legislation

California Senate Bill 1469

Signed 9/30/2022

- Allows water companies to apply for water revenue adjustment mechanisms (WRAM) in General Rate Cases, as was previously allowed
- California American Water is grandfathered into the previous WRAM through the end of 2023; in the 2024-26 General Rate Case filed on July 1, 2022, we have asked for the opportunity make a WRAM proposal

Strong Growth through Acquisitions

Butler Area Sewer Authority, PA
Wastewater

- Continues our Wastewater execution in Pennsylvania
- Executed under Act 12 of 2016 fair market value legislation
- \$232 million purchase price
- ≈14,700 equivalent customer connections

Signed October 11, 2022

≈1.3 million Customer Connections in Pipeline

≈\$350M Under Agreement Currently

Regulated Acquisitions: Typical FMV Process

Considerations for 2023 Outlook

Initiating 2023 EPS Guidance of \$4.72 to \$4.82

Growth Drivers

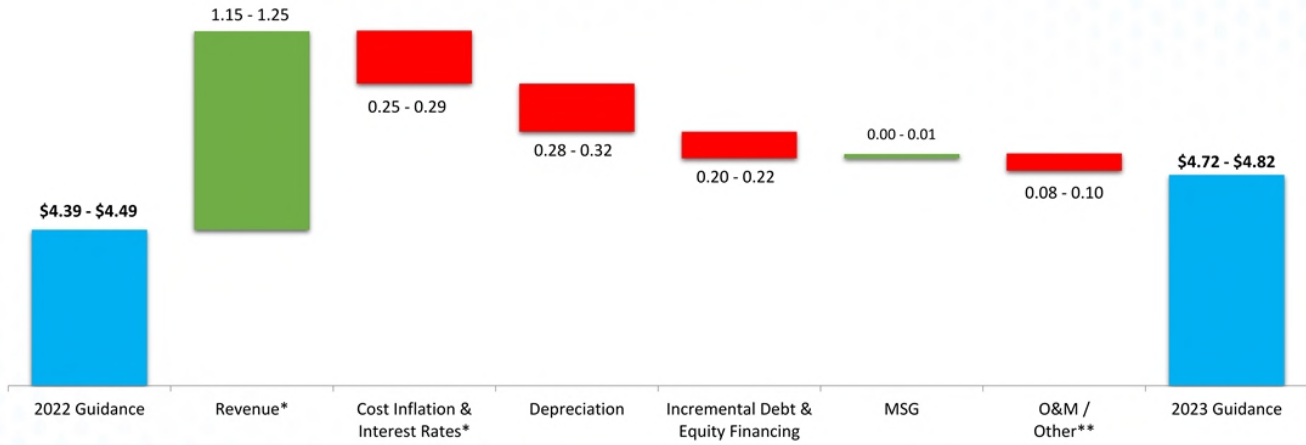

- Revenue growth from infrastructure investments
- Constructive general rate case outcomes expected to mitigate majority of inflationary cost increases and expected higher pension costs
- Regulated acquisitions also driving revenue growth

Headwinds

- Elevated chemical costs likely to persist
- Higher interest rate environment
- Modest unrecovered expected higher pension cost

2023 EPS Detail

* Over 75% of estimated impact of cost inflation and higher interest rates is included in expected higher revenues in 2023. Cost inflation primarily includes expected higher costs in 2023 related to chemicals, fuel, power, and pension/OPEB.
 ** Primarily HOS/NY post-close adjustments in 2022

Strong Balance Sheet and Credit Ratings; Limited Refinancing Needs Next Few Years

Regulated Investments to Support System Needs

Investments Drive Continued Rate Base Growth – Foundational to Overall Growth

(\$ in billions)

Estimated Rate Base*

	As of 9/30/2022
Net Utility Plant	\$22.6
<i>Less</i>	
Advances for Construction	\$0.3
CIAC – Contributions in Aid of Construction	\$1.5
Net Deferred Income Taxes	\$3.5
	\$5.3
Total Estimated Rate Base	\$17.3

Note: annual rate base totals include New York American Water through 2021. New York's 2021 rate base was \$0.5 billion.
* An approximation of rate base, which includes Net Utility Plant not yet included in rate base, pending rate case filings/outcomes.

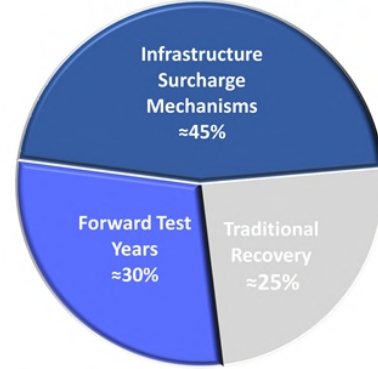

Timely Recovery of Capital and Operating Costs

American Water's Jurisdictions

Capital Recovery (2023-2027 Plan)

Revenue Growth and Customer Growth Help Drive Operating Cost Efficiency

Efficiency Drivers: Growing Revenues & Controlling Costs

- In early years (thru 2016), efficiency gains were steeper as culture of cost management formed
- Recently, more incremental efficiency gains driven by revenue growth, cost management and technology

* Non-GAAP Measure – O&M Efficiency Ratio = Adjusted Regulated O&M Expenses (O&M Expenses is most comparable GAAP measure) / Adjusted Regulated Operating Revenues (Operating Revenues is most comparable GAAP measure). This calculation assumes purchased water revenues approximate purchased water expenses.
** A reconciliation to a most comparable forward-looking GAAP measure is not available without unreasonable effort

Laser Focus on Customer Affordability

- ### Values around Affordability
- Focused on keeping customer bills affordable compared to income (wallet share)
 - Culture of continuous improvement, diligent cost management, and technology enhancements helps drive affordability
 - Supportive of state legislation on consolidated tariffs that allows customers to benefit from efficiencies of scale
 - Continue to promote low-income assistance programs and tariffs

* Figure is estimated based on data from the US Census Bureau American Community Survey based on zip codes served by American Water. American Water does not collect household income data from its customers.

American Water's GHG Emissions Profile

Providing Services to 14M People with a Light GHG Footprint

American Water		
Scope 1: <i>Direct Emissions</i>	<ul style="list-style-type: none"> Stationary Fleet Vehicles Refrigerants 	76,000 MT
Scope 2: <i>Indirect Emissions</i>	<ul style="list-style-type: none"> Purchased Power from Electric Providers 	459,000 MT

2021 Scope 1 and 2 Subtotal 535,000 MT

First Time Disclosure		
Scope 3 (2021): <i>Up and Down Value Chain</i>	<ul style="list-style-type: none"> Purchased Goods and Services Capital Goods Fuel & Energy-Related Activities Business Travel 	506,000 MT ¹

¹ Represents initial estimate based upon work with third party consultant, including identification of significant scope 3 categories

AWK emissions are only 0.1% of the total emissions generated by the top 20 utilities*

■ 2021 Scope 1 and Scope 2 MT CO2e (Rounded)
* Chart represents emissions for the top 20 U.S. utilities by market cap, sorted by emissions

New, Science-Based Goals for Scope 1 and 2 GHG Emissions Reductions - Aligned with Paris Agreement

Medium-term: By 2035, reduce absolute Scope 1 and 2 emissions by 50% (2020 baseline¹)
Long-term: Achieve Net Zero Scope 1 and 2 emissions by 2050

- Medium- and long-term goals are science-based and aligned with the Paris Agreement
- Complements existing short-term target of reducing absolute Scope 1 and 2 emissions by 40% by 2025 (2007 baseline)
- **Our focus: invest to improve sustainability while prioritizing customer affordability, resiliency & environmental justice**

American Water's Path to GHG Emissions Reduction in 2035

~\$150M-\$300M Total Capital Investment

+ 6% Customer Growth ¹ & Increased Energy Use	(40 - 45%) Greening of Electric Grid ²	(5 - 7%) Renewable Energy	(5 - 7%) Water Use & Efficiency	(3 - 5%) Pumping & Operational Efficiency	(1 - 3%) Fleet & Building Efficiency

¹ Includes organic growth; annual adjustments to baseline will occur to incorporate growth through acquisitions
² Assumes States' renewable portfolio standards will be achieved and power providers will fulfill stated carbon transition plans

ESG at AWK: Expanded Disclosures

New ID&E Voluntary Disclosures to be added at DiversityatAW.com

- Summary results to be released soon for:
 - Pay Equity Study
 - Internal Labor Market Analysis
- Also to be released soon is 2021 EEO-1 data*, our second annual disclosure of this info
- Complements extensive new diversity-related disclosures for Board and employees earlier this year

Further Aligning Compensation with Sustainability Goals

- Established two new people-related goals in 2022 Annual Performance Plan (APP) meant to:
 - Increase representation of women at American Water
 - Increase ethnic and racial diversity at American Water
- Adds to existing APP sustainability goals for safety and environmental

* The EEO-1 Component 1 report is an annual data collection process that discloses demographic workforce data, including data by race/ethnicity, sex and job categories.

Forward-Looking Statements

Certain statements made, referred to or relied upon in this presentation including, without limitation, with respect to 2022 and 2023 earnings guidance, the Company's long-term financial, growth and dividend targets, future capital needs and the timing and amount of the Company's future public equity issuances, the ability to achieve the Company's strategies and goals, including with respect to its ESG focus and related to the Company's receipt of contingent consideration from the sale of HOS, the repayment of the seller note and the redeployment of the net proceeds from its divestitures, the outcome of the Company's pending acquisition activity, the amount and allocation of projected capital expenditures; and estimated revenues from rate cases and other government agency authorizations, are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "outlook," "likely," "uncertain," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "will," "should" and "could" and or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on American Water's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this presentation as a result of the factors discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, and subsequent filings with the SEC, and because of factors such as: the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates and regulatory responses to the COVID-19 pandemic; the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions; changes in customer demand for, and patterns of use of, water, such as may result from conservation efforts, impacts of the COVID-19 pandemic, or otherwise; a loss of one or more large industrial or commercial customers due to adverse economic conditions, the COVID-19 pandemic, or other factors; limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors; changes in laws, governmental regulations and policies, including with respect to the environment, health and safety, water quality and water quality accountability, contaminants of emerging concern, public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations; the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulation and policies with respect to data and consumer privacy, security and protection; weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares; the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions; the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of, or maintain and replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses; exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means; the Company's ability to obtain permits and other approvals for projects and construction of various water and wastewater facilities; changes in the Company's capital requirements; the Company's ability to control operating expenses and to achieve operating efficiencies; the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers; the Company's ability to obtain adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, electricity, fuel, water and other raw materials and to address or mitigate supply chain constraints impacting the Company's business operations; the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to acquiring, closing and successfully integrating regulated operations and market-based businesses, the Company's Military Services Group entering into new contracts, price redeterminations and other agreements and contracts, and realizing anticipated benefits and synergies from new acquisitions; risks and uncertainties following the completion of the sale of HOS and the Company's New York subsidiary; risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement and security regulations; cost overruns relating to improvements in or the expansion of the Company's operations; the Company's ability to successfully develop and implement new technologies and to protect related intellectual property; the Company's ability to maintain safe work sites; the Company's exposure to liabilities related to environmental laws and similar matters resulting from, among other things, water and wastewater service provided to customers; changes in general economic, political, business and financial market conditions, including without limitation conditions and collateral consequences associated with COVID-19; access to sufficient debt and/or equity capital on satisfactory terms and when and as needed to support operations and capital expenditures; fluctuations in inflation or interest rates and the Company's ability to address or mitigate the impacts thereof; the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks or other communications by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions; fluctuations in the value of benefit plan assets and liabilities that could increase the Company's cost and funding requirements; changes in federal or state general, income and other tax laws, including (i) future significant tax legislation; (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs; and (iii) the Company's ability to utilize its state income tax net operating loss carryforwards; migration of customers into or out of the Company's service territories; the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, or the assertion by private landowners of similar rights against such utility subsidiaries; any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained; the incurrence of impairment charges related to the Company's goodwill or other assets; labor actions, including work stoppages and strikes; the Company's ability to retain and attract qualified employees; civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in American Water's annual, quarterly and other SEC filings, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements American Water makes speak only as of the date of this presentation. American Water does not have or undertake any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Non-GAAP Financial Information

This presentation includes adjusted regulated O&M efficiency ratios, both historical and forward-looking, which exclude from their calculation (i) estimated purchased water and other revenues and purchased water expenses, (ii) the impact of the Freedom Industries chemical spill in 2014 and certain related settlement activities recognized in 2016 and 2018, (iii) the estimated impact in 2012 and 2014 of weather, (iv) as to operating revenues, the amortization of excess accumulated deferred income taxes, and (v) the allocable portion of non-O&M support services costs, mainly depreciation and general taxes. Also, an alternative presentation of these ratios has been provided for each of 2010, 2012, 2014 and 2016, which includes a pro forma adjustment for the impact of the Tax Cuts and Jobs Act of 2017, and includes for 2012, 2014 and 2016 the impact of our implementation of Accounting Standards Update 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Post-retirement Benefit, on January 1, 2018. These items were excluded from the O&M efficiency ratio calculation as they are not reflective of management's ability to increase the efficiency of our regulated businesses. For that reason, these adjusted regulated O&M efficiency ratios constitute "non-GAAP financial measures" under SEC rules. We evaluate our operating performance using these ratios and believe that the presentation of them is useful to investors because the ratios directly measure improvement in the operating performance and efficiency of our regulated businesses. These ratios are derived from our consolidated financial information but are not presented in our consolidated financial statements prepared in accordance with GAAP. These non-GAAP financial measures supplement and should be read in conjunction with our GAAP disclosures and should be considered as an addition to, and not a substitute for, any GAAP measure. These ratios (i) are not accounting measures based on GAAP; (ii) are not based on a standard, objective industry definition or method of calculation; (iii) may not be comparable to other companies' operating measures; and (iv) should not be used in place of the GAAP information provided elsewhere in this presentation. Management is unable to present a reconciliation of adjustments to the components of the forward-looking adjusted regulated O&M efficiency ratio without unreasonable effort because management cannot reliably predict the nature, amount or probable significance of all the adjustments for future periods; however, these adjustments may, individually or in the aggregate, cause each of the non-GAAP financial measure components of the forward-looking ratios to differ significantly from the most directly comparable GAAP financial measure.

Set forth in this appendix are tables that reconcile each of the components of our historical adjusted regulated O&M efficiency ratios to its most directly comparable GAAP financial measure.

All references throughout this presentation to EPS or earnings per share refer to diluted EPS attributable to common shareholders.

Regulated Capital Expenditures by Purpose

Rate Filings Summary

(\$ in millions)

* Annualized revenue increase for rates effective since January 1, 2022; excludes agreed to revenue reductions for excess accumulated deferred income taxes.

- The Company's Pennsylvania subsidiary was authorized additional annualized revenues of \$90 million, excluding a reduction in revenues for tax savings passed back to customers as a result of the TCJA, over two steps. The EADIT reduction in revenues is \$19.5 million. The overall increase (net of EADIT reductions in revenues) is \$70.5 million in revenues combined over two steps. The first step was effective 1/28/2021 in the amount of \$70 million (\$50.5 million net of EADIT reduction in revenues) and the second step was effective 1/1/2022 in the amount of \$20.0 million.
- On November 18, 2021, the California Public Utilities Commission (the "CPUC") unanimously approved a final decision in the test year 2021 general rate case filed by the Company's California subsidiary. The final decision adopts the comprehensive settlement reached with certain parties to the proceeding. Under the CPUC's final decision, the Company's California subsidiary will be authorized additional annualized water and wastewater revenues of \$21.6 million, excluding a reduction in revenues for tax savings passed back to customers as a result of the TCJA. The decision is retroactive to January 1, 2021. The reduction in revenues for TCJA is \$3.7 million. On February 16, 2022 the Company's California subsidiary received approval to increase rates by \$12.5 million in 2022 escalation increases excluding \$3.7 million in reductions related to TCJA which was retroactive to January 1, 2022.
- The Company's West Virginia subsidiary was authorized additional annualized revenues of \$14.8 million, excluding a reduction in revenues for tax savings passed back to customers as a result of the TCJA and infrastructure surcharges. The excess EADIT reduction in revenues is \$1.6 million and the exclusion for infrastructure surcharges is \$10.2 million.
- The Company's Hawaii subsidiary was authorized additional annualized revenues of \$1.9 million, excluding a reduction in revenues for tax savings passed back to customers as a result of the TCJA. The excess EADIT reduction in revenues is \$1.155 million.
- The Company's New Jersey subsidiary was authorized additional annualized revenues of \$61.2 million, excluding reductions in revenues for tax savings passed back to customers as a result of TCJA and infrastructure surcharges. The reduction in revenues for TCJA is \$15.7 million and the exclusion for infrastructure surcharges is \$35.5 million.

Sub-Total		\$21	\$154
Total		\$479	\$10,537

- a) Requested additional annualized revenues of \$15 million, excluding reductions in revenues for tax savings passed back to customers as a result of the TCJA. The EADIT reduction in revenues is \$0.7 million. Interim rates were effective on May 1, 2022, and the difference between interim and final Commission approved rates are subject to refund. On September 26, 2022, a settlement agreement, supported by all parties except one, was filed with the Virginia State Corporation Commission for a \$12 million annual revenue increase excluding agreed to reductions for EADIT as a result of TCJA (\$11 million including EADIT reductions).
- b) In the rebuttal filing on 6/29/22, the Company updated its filed position, with a request for additional annualized revenues of \$84.6 million, excluding reductions in revenues for tax savings passed back to customers as a result of the TCJA and infrastructure surcharges. The reduction in revenues for TCJA is \$1.7 million and the exclusion for infrastructure surcharges is \$18.3 million. The Company's original filed position was a request for additional annualized revenues of \$70.8 million, excluding the TCJA and infrastructure surcharges. On October 28, 2022, the Administrative Law Judges issued a proposed order recommending \$69 million in additional annualized revenues, excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges (\$67 million including reductions for EADIT), on a proposed ROE of 9.78%. The final order is expected in late 2022 or early January 2023, with rates effective in January 2023.
- c) Requested additional annualized revenues of \$185.2 million, excluding reductions in revenues for tax savings passed back to customers as a result of TCJA and infrastructure surcharges. The reduction in revenues for TCJA is \$12.0 million and the exclusion for infrastructure surcharges is \$24.3 million. On October 11, 2022, the Company's Pennsylvania subsidiary, the Pennsylvania Public Utility Commission's (the "PaPUC") Bureau of Investigation and Enforcement, the Pennsylvania Office of Consumer Advocate, and certain other parties to the general rate case, jointly filed a petition for settlement with the PaPUC providing for a total annualized revenue increase of \$150 million excluding agreed to reductions for EADIT as a result of the TCJA (\$138 million including EADIT reductions).
- d) Requested additional annualized revenues of \$57.1 million for test year 2024, excluding reductions in revenue for tax savings passed back to customers as a result of TCJA. The reduction in revenues for TCJA is \$1.3 million. This excludes the proposed step rate and attrition rate increase for 2025 and 2026 of \$19.6 million and \$19.9 million, respectively, with reductions of TCJA included. The total revenue requirement request for the three-year rate case cycle is \$95.3 million with reductions of TCJA included or \$99.0 million excluding TCJA.
- e) Requested additional annualized revenues of \$116.2 million, excluding reductions in revenues for tax savings passed back to customers as a result of TCJA and infrastructure surcharges. The reduction in revenues for TCJA is \$11.1 million and the exclusion for infrastructure surcharges is \$40.2 million.

Item 7.01. Regulation FD Disclosure.

On October 11, 2022, Pennsylvania-American Water Company (“Pennsylvania-American Water”), a subsidiary of American Water Works Company, Inc. (the “Company”), issued a press release announcing that it has entered into an Asset Purchase Agreement, dated as of October 11, 2022 (the “Asset Purchase Agreement”), with the Butler Area Sewer Authority (the “Seller”), with respect to the purchase of the Seller’s public wastewater collection and treatment system assets (the “System Assets”). Additional information regarding the Asset Purchase Agreement and the transactions contemplated thereby is included in response to Item 8.01 to this Current Report on Form 8-K. A copy of the press release has been included as [Exhibit 99.1](#) to this Current Report on Form 8-K and is incorporated by reference in response to this Item 7.01.

The information furnished in response to this Item 7.01, including [Exhibit 99.1](#), shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), nor shall such information be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended (the “Securities Act”), or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Item 8.01. Other Events.

Agreement to Acquire Wastewater System Assets of the Butler Area Sewer Authority

Effective October 11, 2022, Pennsylvania-American Water entered into the Asset Purchase Agreement with the Seller, whereby Pennsylvania-American Water is to acquire substantially all of the System Assets (the “System Purchase”) for a total purchase price of \$231.5 million in cash, subject to adjustment as provided for in the Asset Purchase Agreement (the “Purchase Price”). The System Assets provide wastewater service for approximately 14,700 customer connections in the City of Butler, the Borough of East Butler, Butler and Center Townships, and portions of Connoquenessing Borough and Oakland, Penn and Summit Townships. The Asset Purchase Agreement was executed under Pennsylvania’s Act 12 of 2016, which permits a municipality to voluntarily sell the assets of its water or wastewater system for the assets’ fair market value, as determined in accordance therewith.

Pennsylvania-American Water is seeking to close the System Purchase by the end of 2023, subject to obtaining the required prior approval of the Pennsylvania Public Utility Commission (the “PaPUC”). If the closing of the System Purchase does not occur one year after the date that an application with the PaPUC to approve the System Purchase is filed and accepted as complete by the PaPUC, and the statutory six-month period for PaPUC final action has been initiated, either the Seller or Pennsylvania-American Water may terminate the Asset Purchase Agreement so long as the terminating party is not in breach of its obligations thereunder. In addition, Pennsylvania-American Water has a right to extend the termination date once by up to 90 days to obtain a governmental approval required by the Asset Purchase Agreement.

Petition for Settlement in Pennsylvania-American Water Company General Rate Case

As previously disclosed, on April 29, 2022, Pennsylvania-American Water filed a general rate case with the PaPUC requesting \$173 million in additional annualized water and wastewater revenues. On October 11, 2022, Pennsylvania-American Water, the PaPUC’s Bureau of Investigation and Enforcement, the Pennsylvania Office of Consumer Advocate, and certain other parties to the general rate case, jointly filed a petition for settlement with the PaPUC providing for a total annualized revenue increase of \$138 million. The annualized revenue increase is driven primarily by the \$1.1 billion of incremental capital investments that will be completed through December 31, 2023 since the last general rate case. In addition, the petition for settlement incorporates updated estimates of pension and other post-employment benefits (“OPEB”) expense, as well as increases in production costs, including chemicals, fuel and power costs. Furthermore, the petition for settlement includes recovery of the COVID-19 deferral balance. An Administrative Law Judge will review the petition for settlement and render a recommended decision to the PaPUC on whether it should approve the settlement. After its review of the matter, the PaPUC will issue a final order, which Pennsylvania-American Water currently expects to occur by January 2023, with new rates to be effective as of January 28, 2023.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K (or the exhibits thereto) are forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could,” or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or

assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on Form 8-K as a result of the factors discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, as filed with the Securities and Exchange Commission (the "SEC") on February 16, 2022, and other filings with the SEC, and additional risks and uncertainties, including with respect to (1) obtaining the regulatory and other approvals and consents required to complete the System Purchase, including without limitation the prior approval of the PaPUC; (2) the result of the fair market value appraisal of the System Assets required by Act 12; (3) satisfying other conditions to the closing of the System Purchase; (4) the timing of, and the terms and conditions that may be included in, the Administrative Law Judge's recommended decision, which may differ from the terms set forth in the petition for settlement (including, without limitation, as to the amount of any recommended total annualized revenue increase); (5) the terms of the general rate case as reflected in the PaPUC's final order (including, without limitation, with respect to any total annualized revenue increase approved by the PaPUC), and the timing of such ruling; (6) the amount and timing of incremental future capital expenditures and investments to be made by Pennsylvania-American Water; (7) the occurrence of benefits to Pennsylvania-American Water and synergies expected or predicted to occur as a result of the completion of the System Purchase, and the occurrence of benefits to Pennsylvania-American Water arising from the PaPUC's final rate case order; (8) unexpected costs, liabilities or delays associated with the System Purchase, the integration of the System Assets or the resolution of Pennsylvania-American Water's general rate case; (9) regulatory, legislative, local or municipal actions affecting the water and wastewater industries, which could adversely affect Pennsylvania-American Water; and (10) other economic, business and other factors.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in the Company's annual and quarterly reports as filed with the SEC, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date of this Current Report on Form 8-K. The Company does not have any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for us to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's or Pennsylvania-American Water's business, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Press Release

Pennsylvania American Water Signs Agreement to Purchase Butler Area Sewer Authority Wastewater System

BUTLER, Pa. (Oct. 11, 2022) – Pennsylvania American Water, a subsidiary of American Water (NYSE: AWK), announced today that it has signed an agreement with the Butler Area Sewer Authority (BASA) to purchase its wastewater system for \$231.5 million. The system serves nearly 15,000 customers over 32.5 square miles, including the City of Butler; Butler and Center townships; East Butler Borough; and parts of Connoquenessing Borough, Summit and Oakland townships, and a small portion of Penn Township. Pennsylvania American Water is already the drinking water service provider to approximately 19,500 customers in the region, and its predecessor companies have served the Butler area since the late 1800s.

“We are pleased that BASA and other community leaders recognized the value we provide to our water customers and are entrusting us with the future ownership of their wastewater system,” said Pennsylvania American Water President Mike Doran. “This agreement was achieved through a collaborative process between all parties and tailored to meet the specific needs of residents, BASA employees, and infrastructure of the wastewater system. Pennsylvania American Water is well positioned to step in and assume responsibility for the community’s wastewater needs by using the existing expertise of current employees, leveraged by the resources we can provide as the Commonwealth’s largest water and wastewater utility. We are confident that this proposal offers the best long-term solution for BASA, its customers, the City of Butler and Butler Township.”

As part of the agreement, Pennsylvania American Water will offer employment to all of BASA’s employees, maintain the existing BASA operations center for a minimum of 10 years, assume BASA’s planned capital improvement projects utilizing qualified Butler area contractors, and adopt BASA’s rates at closing with a minimum 1-year rate freeze. The company will also petition the Pennsylvania Public Utility Commission (PUC) for approval to initiate a pilot program allowing the company to replace broken customer sewer laterals.

“Since the beginning of this process, our board prioritized the needs of our employees and customers,” said Paul Sybert, Chairman of BASA’s Board of Directors. “Without BASA’s dedicated and hardworking employees, this facility would not run. They, and our customers, always remained at the forefront of our minds. This acquisition is the right decision, and we are confident that the upcoming months will bring forward a seamless transition as we continue to work with Pennsylvania American Water.”

Upon taking ownership, Pennsylvania American Water will make necessary treatment and collection system upgrades to improve the wastewater system, which are expected to total more than \$75 million. Specifically, the company plans to make significant investments in improving and replacing pump stations, making electrical, safety and treatment improvements at the treatment plant, conducting a systemwide infiltration & inflow assessment, conducting a systemwide inspection and cleaning of sewer collection mains and manholes, and replacing certain sewer mains, among other projects.

Press Release

“We spent a lot of time analyzing how this acquisition would impact our community,” said Butler Township Commissioner President Dave Zarnick. “As infrastructure ages, it becomes more costly to maintain and repair. Pennsylvania American Water has vast resources and is equipped to make the \$75 million in improvements that the BASA’s facility requires. We hosted several open houses that enabled us to solicit feedback from residents, and while some had questions, many I talked to were in support of this sale. Our residents should remain confident and know that they will receive the highest quality wastewater services from Pennsylvania American Water.”

The City of Butler and Butler Township, as the sole owners of BASA, will receive the proceeds from this proposed sale. Both municipalities are proposing to use the proceeds of the sale to support essential services for residents, meet future financial obligations, and make various other community improvements.

“We have done our due diligence and we are firmly united,” said City of Butler Mayor Bob Dandoy. “For nearly an entire year, we looked at every aspect of what this sale would mean to those in BASA’s service territory. From Pennsylvania American Water’s commitment to petition the PUC for approval on a lateral pilot program to a one-year rate freeze to low-income customers having the ability to access the company’s grant programs—our residents are the ones who will reap the extensive benefits that this acquisition provides.”

Pennsylvania American Water will seek all necessary approvals from its regulators and expects to close the transaction by the end of 2023. The company’s rates are set by the PUC, and any future rate changes would have to be reviewed and approved by the PUC.

New Jersey Board of Public Utilities (the “NJBPU”) Order Approving Stipulation and Settlement of New Jersey-American Water Company, Inc. (“NJAWC”) General Rate Case

On August 17, 2022, the NJBPU issued an order approving a stipulation and settlement (the “Settlement”) of a general rate case filed on January 14, 2022 by NJAWC, a wholly owned subsidiary of American Water Works Company, Inc., seeking \$94.7 million of increased annualized revenues. The Settlement was entered into among NJAWC, the staff of the NJBPU, the New Jersey Division of Rate Counsel, and several intervenors in the general rate case. The order approves a \$45.5 million annualized increase in water and wastewater revenues, effective as of September 1, 2022, based on an authorized return on equity (“ROE”) of 9.6%, authorized rate base of \$4.15 billion, a common equity ratio of 54.6% and a long-term debt ratio of 45.4%, compared to an authorized ROE of 9.6%, authorized rate base of \$3.57 billion, a common equity ratio of 54.6% and a long-term debt ratio of 45.4%, as approved in NJAWC’s last general rate case in 2020. NJAWC’s request incorporated updated estimates of production costs, including chemicals, fuel and power costs. Beginning January 1, 2023, NJAWC will defer as a regulatory asset or liability, as appropriate, the difference between its pension expense and other post-employment benefits (OPEB) expense included in base rates. The deferral period for this regulatory asset or liability will be two years or, if earlier, will end at the conclusion of NJAWC’s next general rate case. NJAWC also withdrew its request, without prejudice, to recover its existing authorized COVID-19-related regulatory asset in the general rate case and will seek recovery in a separate proceeding within the process established in the NJBPU’s generic COVID-19 proceeding.

A copy of the press release issued by NJAWC on August 17, 2022 to announce the issuance of the NJBPU’s order has been filed as [Exhibit 99.1](#) hereto and is incorporated herein by reference. References and links to websites and other information contained in the press release are not provided as active hyperlinks, and the information contained in or accessed through these hyperlinks shall not be incorporated into, or form a part of, this Current Report on Form 8-K.

Press Release

New Jersey American Water Granted New Rates by New Jersey Board of Public Utilities

Increase Driven by Over \$985 Million in System Investments; Water Service Remains About One Penny Per Gallon

CAMDEN, N.J. (August 17, 2022) – The New Jersey Board of Public Utilities (BPU) today approved a settlement between New Jersey American Water and the N.J. Division of Rate Counsel, BPU Staff, and several intervenors for new water and wastewater rates for New Jersey American Water. The approved rates represent a total annualized revenue increase of approximately \$45.5 million.

The company's rate request was filed on January 14, 2022, and was primarily driven by more than \$985 million in infrastructure investment in treatment system and distribution upgrades since its last rate filing.

The new rates will become effective September 1, 2022. With the approved rate increase, the monthly bill for an average water customer using 5,520 gallons will increase approximately \$2.93, and the monthly bill for an average wastewater customer will increase approximately \$3.74. Even with the new rates, the cost of high-quality, reliable, water and wastewater service continues to be about one penny per gallon and remains among the lowest household utility bills.

"We are proud of the level of investment we are able to make into our systems to continue to provide high-quality, reliable service, even through extreme weather and other challenges including the pandemic, while maximizing efficiencies to balance the impact to customers," said Mark McDonough, President, New Jersey American Water. "The combination of effective capital planning and sound business management helps keep water and wastewater service both reliable and affordable for the 2.8 million people we proudly serve."

Press Release

Customers will receive information about the new rates in their next New Jersey American Water bill. This information will also be available on the company's website at www.newjerseyamwater.com under Customer Service & Billing, Your Water and Wastewater Rates, or by calling 800-272-1325, Monday through Friday, 7 a.m. to 7 p.m.

New Jersey American Water also wants to remind its customers about the variety of bill paying assistance programs that are available. Customers who are having difficulty paying their water and/or wastewater bills are encouraged to arrange for payment arrangements or budget billing directly through the MyWater customer portal or by calling the company's Customer Service Center at 800-272-1325. Customers who meet low-income requirements may also apply for assistance through the company's H2O Help to Others program, which provides water and wastewater service charge discounts of up to 100 percent. Additionally, customers who are behind on their bills may also qualify for the new LIHWAP program, administered by the N.J. Department of Community Affairs. More information about all of these programs can be found at www.newjerseyamwater.com under Customer Service & Billing, Bill Paying Assistance.

About New Jersey American Water New Jersey American Water, a subsidiary of American Water (NYSE: AWK), is the largest investor-owned water utility in the state, providing high-quality and reliable water and/or wastewater services to approximately 2.8 million people. AMERICAN WATER REPORTS SECOND QUARTER 2022 RESULTS AFFIRMS 2022 EARNINGS GUIDANCE AND LONG-TERM TARGETS

- Second quarter 2022 diluted earnings of \$1.20 per share, compared to \$1.14 per share in 2021; Year-to-date 2022 diluted earnings of \$2.07 per share, compared to \$1.87 per share in 2021
- 2022 earnings guidance range of \$4.39 to \$4.49 per share affirmed; long-term targets also affirmed
- Invested \$1.25 billion in the first half of the year; capital plan on track to invest approximately \$2.5 billion in 2022
- Added 59,200 customer connections year-to-date through closed acquisitions and organic growth; completion of the acquisition of the wastewater system of the City of York, Pa., which added more than 45,000 equivalent customer connections

CAMDEN, N.J., July 27, 2022 - American Water Works Company, Inc. (NYSE: AWK) today reported results for the quarter ended June 30, 2022 of \$1.20 per share, compared to \$1.14 per share in 2021.

“The company delivered solid results in the first half of the year, keeping us on track to achieve our 2022 earnings expectations,” said Susan Hardwick, president and CEO of American Water.

“In the first six months of 2022, we invested \$1.25 billion with the majority dedicated to needed infrastructure improvements to better serve our customers,” said Hardwick. “We are also proud that our Military Services Group was awarded our first U.S. Navy contract at Naval Station Mayport in Jacksonville, Florida, where we’ll provide wastewater services for the service members, their families and civilians at that installation.”

2022 Earnings Guidance and Long-Term Financial Targets Affirmed

The Company affirms its 2022 earnings per share guidance range of \$4.39 to \$4.49. The Company also affirms its long-term financial targets, including its EPS compound annual growth rate target range of 7-9%. The Company’s earnings forecasts are subject to numerous risks and uncertainties, including, without limitation, those described under “Forward-Looking Statements” below and under “Risk Factors” in its annual, quarterly, and current reports filed with the Securities and Exchange Commission (“SEC”).

Consolidated Results

For the three and six months ended June 30, 2022, earnings per share were \$1.20 and \$2.07, respectively, compared to \$1.14 and \$1.87 per share in the same periods in 2021. These increases were primarily driven by the implementation of new rates in the Regulated Businesses from infrastructure investments, offset somewhat by impacts from inflationary pressures estimated at \$0.06 to \$0.08 per share for the year-to-date period. Also, included in the results for the three and six months ended June 30, 2022, are \$0.06 and \$0.12 per share, respectively, from interest income earned on the seller note and income earned on revenue share agreements, which compares to Homeowner Services Group (“HOS”) operating results for the three and six months ended June 30, 2021, of \$0.08 and \$0.16 per share, respectively. 2022 results also include \$0.04 and \$0.08 per share for the three and six months, respectively, from the final post-close adjustments from the sale of HOS in 2021.

The Company is on track with its capital investment plan for the first six months of 2022 with investments of \$1.25 billion, including \$1.0 billion for infrastructure improvements in the Regulated Businesses. The Company plans to invest a total of approximately \$2.5 billion across its footprint in 2022.

Regulated Businesses

In the second quarter of 2022, Regulated Businesses’ net income was \$219 million, compared to \$215 million for the same period in 2021. For the first six months of 2022, the Regulated Businesses’ net income was \$379 million, compared to \$350 million for the same period in 2021. Net income attributable to the Company’s New York subsidiary was \$3 million and \$1 million for the three and six months ended June 30, 2021, respectively.

Operating revenues increased \$37 million and \$83 million in the three and six months ended June 2022, respectively, as compared to 2021, when excluding revenues contributed by the Company’s New York subsidiary in 2021. The increases in operating revenues were primarily a result of authorized revenue increases resulting from completed general rate cases and infrastructure proceedings to recover incremental capital and acquisition investments.

To date, the Company has been authorized additional annualized revenues, excluding agreed to reductions for excess accumulated deferred income taxes (“EADIT”), of approximately \$50 million from general rate cases in 2022. In addition, approximately \$53 million of additional annualized revenues from infrastructure surcharges have been authorized and are effective in 2022. The Company has general rate cases in progress in six jurisdictions and has filed for infrastructure surcharges in three jurisdictions, reflecting a total annualized revenue request of approximately \$598 million.

Excluding impacts of the Company’s New York subsidiary in 2021, operation and maintenance (“O&M”) expenses were higher by \$8 million and \$15 million in the three and six months ended June 2022, respectively, as compared to 2021, primarily due to increases in production costs from inflationary pressure. Also, depreciation expense was higher by \$6 million and \$14 million in these same periods due to the growing capital investment.

For the three and six months ended June 30, 2022, results included revenues of \$29 million and \$52 million, respectively, and operating expenses of \$24 million and \$49 million, respectively, for the Company’s New York subsidiary that was sold on January 1, 2022.

For the 12-month period ended June 30, 2022, the Company’s adjusted regulated O&M efficiency ratio (a non-GAAP financial measure) was 33.7%, a decrease from 33.9% for the 12-month period ended June 30, 2021. The ratio reflects an increase in operating revenues for the Regulated Businesses, after considering the adjustment for the amortization of the EADIT shown below, as well as the continued focus on operating costs.

Market-Based Businesses and Other

In the second quarter of 2022, the net loss in Market-Based Businesses and Other was \$1 million, compared to \$8 million for the same period in 2021. For the first six months of 2022, the net loss in Market-Based Businesses and Other was \$3 million, compared to \$10 million for the same period in 2021. The primary driver for the net loss in all periods is interest expense on long-term debt financing. Results in 2022 for both periods include interest income earned on the seller note, income earned on revenue share agreements and post-close adjustments from the sale of HOS in 2021. Results in 2021 for both periods include earnings from HOS.

Dividends

On July 27, 2022, the Company’s Board of Directors declared a quarterly cash dividend payment of \$0.6550 per share of common stock, payable on September 1, 2022 to shareholders of record as of August 9, 2022.

Non-GAAP Financial Measures

This press release includes a presentation of adjusted regulated O&M efficiency ratio, a “non-GAAP financial measure” under SEC rules, which excludes from its calculation estimated purchased water revenues and purchased water expenses, reductions for the amortization of EADIT, and the allocable portion of non-O&M support services costs, mainly depreciation and general taxes. These items were excluded from the O&M efficiency ratio calculation as they do not reflect management’s ability to increase the efficiency of the Regulated Businesses. This item is derived from American Water’s consolidated financial information but is not presented in its financial statements prepared in accordance with GAAP. This non-GAAP financial measure supplements and should be read in conjunction with the Company’s GAAP disclosures and should be considered as an addition to, and not a substitute for, any GAAP measure.

Management evaluates its operating performance using this ratio and believes that this non-GAAP financial measure is useful to the Company’s investors because it directly measures improvement in the operating performance and efficiency of the Company’s Regulated Businesses. The Company’s adjusted regulated O&M efficiency ratio (i) is not an accounting measure that is based on GAAP; (ii) is not based on a standard, objective industry definition or method of calculation; (iii) may not be comparable to other companies’ operating measures; and (iv) should not be used in place of the GAAP information provided elsewhere in this press release.

Set forth in this release is a table that calculates the Company’s adjusted regulated O&M efficiency ratio and reconciles each of the components used to calculate this ratio to the most directly comparable GAAP financial measure.

Second Quarter 2022 Earnings Conference Call

The second quarter 2022 earnings conference call will take place on Thursday, July 28, 2022, at 9 a.m. Eastern Daylight Time. Interested parties may listen to an audio webcast through a link on the Company’s Investor Relations website at ir.amwater.com. Presentation slides that will be used in conjunction with the earnings conference call will also be made available online in advance at ir.amwater.com. The Company recognizes its website as a key channel of distribution to reach public investors and as a means of disclosing material non-public information to comply with its obligations under SEC Regulation FD.

Following the earnings conference call, a replay of the audio webcast will be available for one year on American Water’s investor relations website at ir.amwater.com/events.

About American Water

With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The Company employs approximately 6,400 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to over 14 million people in 24 states. More information can be found by visiting amwater.com and follow American Water on Twitter, Facebook and LinkedIn.

Throughout this press release, unless the context otherwise requires, references to the “Company” and “American Water” mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements in this press release including, without limitation, 2022 earnings guidance, the Company’s long-term financial, growth and dividend targets, future capital needs, the ability to achieve the Company’s strategies and goals, including with respect to its ESG focus and related to the Company’s receipt of contingent consideration from the sale of HOS, the repayment of the seller note and the redeployment of the net proceeds from its divestitures, the outcome of the Company’s pending acquisition activity, the amount and allocation of projected capital expenditures, and estimated revenues from rate cases and other government agency authorizations, are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “likely,” “uncertain,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could” and or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on American Water’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results of levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this press release as a result of the factors discussed in the Company’s Annual Report on Form 10-K for

the year ended December 31, 2021, and subsequent filings with the SEC, and because of factors such as: the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates and regulatory responses to the COVID-19 pandemic; the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions; changes in customer demand for, and patterns of use of, water, such as may result from conservation efforts, impacts of the COVID-19 pandemic, or otherwise; a loss of one or more large industrial or commercial customers due to adverse economic conditions, the COVID-19 pandemic, or other factors; limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors; changes in laws, governmental regulations and policies, including with respect to the environment, health and safety, water quality and water quality accountability, contaminants of emerging concern, public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations; the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulation and policies with respect to data and consumer privacy, security and protection; weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares; the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions; the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of, or maintain and replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses; exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means; the Company's ability to obtain permits and other approvals for projects and construction of various water and wastewater facilities; changes in the Company's capital requirements; the Company's ability to control operating expenses and to achieve operating efficiencies; the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers; the Company's ability to obtain adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, electricity, fuel, water and other raw materials and to address or mitigate supply chain constraints impacting the Company's business operations; the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to acquiring, closing and successfully integrating regulated operations and market-based businesses, the Company's Military Services Group entering into new contracts, price redeterminations and other agreements and contracts, and realizing anticipated benefits and synergies from new acquisitions; risks and uncertainties following the completion of the sale of HOS and the Company's New York subsidiary; risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement and security regulations; cost overruns relating to improvements in or the expansion of the Company's operations; the Company's ability to successfully develop and implement new technologies and to protect related intellectual property; the Company's ability to maintain safe work sites; the Company's exposure to liabilities related to environmental laws and similar matters resulting from, among other things, water and wastewater service provided to customers; changes in general economic, political, business and financial market conditions, including without limitation conditions and collateral consequences associated with COVID-19; access to sufficient debt and/or equity capital on satisfactory terms and when and as needed to support operations and capital expenditures; fluctuations in inflation or interest rates; the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks or other communications by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions; fluctuations in the value of benefit plan assets and liabilities that could increase the Company's cost and funding requirements; changes in federal or state general, income and other tax laws, including (i) future significant tax legislation; (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs; and (iii) the Company's ability to utilize its state income tax net operating loss carryforwards; migration of customers into or out of the Company's service territories; the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, or the assertion by private landowners of similar rights against such utility subsidiaries; any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained; the incurrence of impairment charges related to the Company's goodwill or other assets; labor actions, including work stoppages and strikes; the Company's ability to retain and attract qualified employees; civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in American Water's annual, quarterly and other SEC filings, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements American Water makes speak only as of the date of this press release. American Water does not have or undertake any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Filing of General Rate Cases by California-American Water Company and Missouri-American Water Company

On July 5, 2022, California-American Water Company (“California-American Water”), a wholly owned subsidiary of American Water Works Company, Inc. (the “Company”), announced that on July 1, 2022 it filed an application with the California Public Utilities Commission (“CPUC”) to set new rates in each of its service areas for 2024 through 2026. The application is seeking an increase in 2024 revenue of \$57.1 million and a total increase in revenue over the 2024 to 2026 period of \$99.0 million. The requested increase excludes proposed reductions of \$1.3 million in 2024 and \$3.7 million over the 2024 to 2026 period for excess accumulated deferred income taxes (“EADIT”) as a result of the Tax Cuts and Jobs Act of 2017 (the “TCJA”). If approved by the CPUC, the new rates would take effect on January 1, 2024.

On July 5, 2022, Missouri-American Water Company (“Missouri-American Water”), a wholly owned subsidiary of the Company, announced that on July 1, 2022 it filed a request with the Missouri Public Service Commission (“MoPSC”) to review its water and wastewater rates. The request seeks annualized incremental revenue of \$116.2 million based on a requested return on equity of 10.5% and a capital structure with an equity component of 50.4%. The requested increase excludes a proposed reduction of \$11.1 million for EADIT as a result of the TCJA. If approved by the MoPSC, the new rates would be expected to take effect in mid-2023.

A copy of the press release issued by each of California-American Water and Missouri-American Water on July 5, 2022 has been filed as [Exhibit 99.1](#) and [Exhibit 99.2](#) hereto, respectively, and is incorporated herein by reference. References and links to websites and other information contained in these press releases are not provided as active hyperlinks, and the information contained in or accessed through these hyperlinks shall not be incorporated into, or form a part of, this Current Report on Form 8-K.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K (or the exhibits thereto) are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could,” or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on Form 8-K as a result of the factors discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2021, as filed with the Securities and Exchange Commission (the “SEC”) on February 16, 2022, and other filings with the SEC, and additional risks and uncertainties, including with respect to (1) the terms of any settlement agreement or stipulation, and/or final order of the CPUC and/or the MoPSC, with respect to the above-referenced general rate cases; (2) the timing of the implementation of new rates under each such general rate case; (3) regulatory, legislative, local or municipal actions affecting the water and wastewater industries, which could adversely affect the Company, California-American Water and/or Missouri American Water; and (4) other economic, financial, political, business and other factors that may impact or affect the water and wastewater industries generally or the Company, California-American Water or Missouri-American Water specifically.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in the Company’s annual and quarterly reports as filed with the SEC, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date of this Current Report on Form 8-K. The Company does not have any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for us to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company’s, California-American Water’s or Missouri-American Water’s business, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement.

Press Release

CALIFORNIA AMERICAN WATER APPLIES FOR NEW REVENUE TO FUND INFRASTRUCTURE AND SERVICE IMPROVEMENTS

SAN DIEGO (July 5, 2022) – California American Water has filed an application to set new rates in each of its service areas for 2024 through 2026. The new rates would take effect January 1, 2024, pending approval by the California Public Utilities Commission. The application includes infrastructure renewals, wildfire mitigation, climate resiliency efforts and strengthening affordability programs.

The application seeks a request from California American Water for \$462 million for infrastructure improvements and investment between 2023-25. The request provides funding to renew and replace water treatment facilities, pumps, and pipelines in our systems around the state. This application is seeking to raise revenue by approximately \$95 million over three years, beginning with a \$56 million increase proposed for January 1, 2024. This increase is based on 2024 authorized revenues calculated at current rates. The average impact to customer bills on January 1, 2024 will be between approximately \$2.45 and \$7.87 per month, depending on region. Specific increases for each service area vary and are detailed in the filing.

“This filing marks the beginning of an 18-month regulatory approval process during which our customers will be notified and have the opportunity for input several times before a decision is made” said California American Water President Kevin Tilden. “Our application balances the infrastructure investment and operations needed to support sustainable water and wastewater systems while addressing affordability and climate resiliency. This proposal seeks to continue to provide customers with excellent value for their service and maintain our systems to supply high-quality water and wastewater service.”

One particular focus of the request is to improve the climate change resiliency of our systems. These measures include fire assessment analysis at company facilities around the state as well as active mitigation measures undertaken in some high-risk zones. The activities also include the bolstering of back-up generator power for use during emergencies like wildfires or Public Safety Power Shutoffs.

Press Release

California American Water also continues its commitment to affordability with proposals for rate consolidation, increased funding for customer assistance programs and additional hardship funds.

The increased rates proposed in the rate petition are a request only. The CPUC will make the final decision regarding the actual increase. The CPUC will hold Public Participation Hearings on this request to get input from customers and the public. California American Water will notify customers of the time, date and location once the hearings are set. Rates will not be adjusted until this request undergoes extensive public scrutiny by the CPUC. This process will include extensive independent review and public evidentiary hearings. The process is expected to conclude in late 2023, with new rates taking effect by January 1, 2024.

About California American Water: California American Water, a subsidiary of American Water (NYSE: AWK), provides high-quality and reliable water and wastewater services to more than 725,000 people. Press Release

Missouri American Water Submits Rate Review Request to Missouri Public Service Commission

Request driven by nearly \$770 million investment in water and wastewater systems from 2021 through mid-2023

ST. LOUIS, Mo. (July 5, 2022) – On Friday, July 1, 2022, Missouri American Water filed a request with the Missouri Public Service Commission (MoPSC) to review its water and wastewater rates. The request is driven by nearly \$770 million in completed or planned investments from January 2021 to May 2023.

The MoPSC's review of the company's request is expected to take 11 months. Any new rates approved by the MoPSC are not expected to become effective until mid-2023.

"Our proactive investments are a critical component to providing safe, clean and reliable service to families and businesses across the state," said Rich Svindland, president of Missouri American Water. "Many of our pipes and treatment plants were built 50-100 years ago, and our continued investments are key to protecting customers, the communities we serve and the environment."

Investments in the rate review include the replacement or installation of 280 miles of aging water and wastewater pipelines – about the distance from St. Louis to Joplin – to help reduce main breaks and sewer overflows. Improvement projects also include the upgrading of treatment plants, storage tanks, wells, pumping and lift stations, fire hydrants, meters and more.

Key water projects include:

- **St. Louis County** – Replacement of the 1970s electrical switchgear at the Central Treatment Plant to prevent electrical failure to the pumping station and replacement of the electrical, mechanical and controls equipment at the North Treatment Plant primary flocculation basin that was installed in 1964
- **St. Charles County** – Construction of a new two-million-gallon elevated storage tank to stabilize water pressure and enhance fire protection
- **Joplin** – Replacement of the pre-1900 high service pump station building and its pumps
- **St. Joseph** – Replacement of key components of the water softening basin at the treatment plant
- **Jefferson City** – Replacement of 6,500 feet of cast-iron pipe, installed in 1954, with PVC along Industrial Drive
- **Mexico and Warrensburg** – Replacement of the chlorine gas systems with sodium hypochlorite systems

Key wastewater projects include:

- **Incline Village** – Replacement and expansion of the wastewater treatment plant
-

Press Release

- **Arnold** – Replacement of more than 4,300 feet of wastewater pipe to reduce inflow and infiltration
- **Rogue Creek and Maplewood** – Replacement of aging lift stations
- **El Chaparral** – Connection to the Cedar Hill lagoon system to maintain regulatory compliance

Missouri American Water is also targeting the replacement of lead service lines.

“We are meeting and surpassing new federal regulations to remove all lead service lines by 2030 in communities we serve, including the customer-owned portion of the service line,” said Rebecca Losli, Vice President of Engineering and Business Development. “Many lead service lines are located in older, underserved areas of our community, and we are replacing the entire lead service line at no direct cost to our customers.”

If the request is approved by regulators as proposed, the bill for a typical volumetric water customer using an average of 4,200 gallons monthly would increase about \$12 or \$13 per month. The bill for a typical volumetric wastewater customer would stay about the same, and the bill for flat rate wastewater customers would increase by \$3 to \$10 per month, depending on the service area. Current bills include an adjustment for the Water and Sewer Infrastructure Act to help pay for certain completed improvement projects. Under the rate review process, these projects are reviewed and may be included in any new rates set by the MoPSC.

For more information on the company’s rate review, visit www.missouriamwater.com and select “Your Water and Wastewater Rates” under the Customer Service menu.

Missouri American Water

Missouri American Water, a subsidiary of American Water (NYSE: AWK), is the largest investor-owned water utility in the state, providing high-quality and reliable water and wastewater services to approximately 1.5 million people. American Water Selected for Naval Station Mayport Wastewater Contract

Military Services Group expands footprint to 18 installations

CAMDEN, N.J. – JULY 1, 2022 – American Water (NYSE: AWK), the largest publicly traded U.S. water and wastewater utility company, announced today its Military Services Group has been awarded a contract for ownership, operation, maintenance and replacement of the wastewater utility system assets at Naval Station Mayport (“NS Mayport”) in Jacksonville, Fla.

American Water’s Military Services Group provides water and wastewater services to military installations across the country as part of the federal government’s Utilities Privatization (“UP”) Program. American Water was selected for the NS Mayport wastewater UP contract by the Defense Logistics Agency (“DLA”), which operates as the primary UP contracting agency for the Department of Defense.

“American Water is honored to be awarded our first Navy contract,” said Susan Hardwick, American Water President and CEO. “With the addition of Naval Station Mayport, this expands our water and wastewater footprint across all military branches and continues to demonstrate our leading position as a trusted partner for the Department of Defense. We are proud to provide safe, clean and reliable water and wastewater treatment services for service members, families and civilians at 18 installations.”

NS Mayport is one of three major Navy installations in the Jacksonville area and has grown to become the third-largest fleet concentration area in the U.S. It is home to a daily population of over 32,000 sailors, families, and civilians, and the Navy’s 4th Fleet. The mission of NS Mayport is to sustain and enhance warfighter readiness.

The total contract value awarded is approximately \$341 million over a 50-year period and will be subject to an annual economic price adjustment.

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 8.01. Other Events.

Approval of Hawaii-American Water Company General Rate Case

On June 16, 2022, the Public Utilities Commission of the State of Hawaii (the “HPUC”) issued an order approving a stipulation of settlement with respect to a general rate case filed on August 18, 2021 by Hawaii-American Water Company (“Hawaii-American Water”), a wholly owned subsidiary of American Water Works Company, Inc. Under the HPUC’s order, Hawaii-American Water’s Hawaii Kai District has been authorized additional annualized wastewater revenues of \$1.7 million, based on an authorized return on equity (“ROE”) of 9.92%, an aggregate authorized rate base of \$38.4 million, and authorized capital structure with an equity component of 50.0%. New rates will be effective upon subsequent approval by the HPUC of final tariffs.

A copy of the press release issued by Hawaii-American Water on June 21, 2022 has been filed as [Exhibit 99.1](#) hereto and is incorporated herein by reference.

Press Release

HAWAII PUBLIC UTILITIES COMMISSION ISSUES RATE ORDER TO REFLECT INFRASTRUCTURE AND SERVICE IMPROVEMENTS

Decision supports reliable wastewater service

Honolulu, HI (June 21, 2022) - The Hawaii Public Utilities Commission (HPUC) has issued its order for Hawaii American Water to implement new rates for its Hawaii Kai customers. This is the first time Hawaii American Water has adjusted rates since 2011 and the updated rates are effective upon subsequent approval of final tariffs.

The new rates will provide approximately \$1.7 million in additional annualized revenue and reflect the more than \$32 million in investments to improve wastewater treatment and services that Hawaii American Water has made since 2011. Major projects have included the installation of ultraviolet disinfection treatment, a sludge de-watering facility, solar energy upgrades, upgrading pumps at its lift stations and treatment plant and other process improvements.

The typical increase for customers in single family homes will be \$11.52. For the average single family customer monthly rates would increase from \$67.08 to \$78.60, for multi-family customers the cost for monthly service would increase from \$57.08 to \$66.88.

“This decision completes a vital process to sustain high-quality wastewater infrastructure and service,” said Lee Mansfield, Manager of Hawaii American Water. “We look forward to continuing to improve wastewater services for our Hawaii Kai customers.”

About Hawaii American Water: Hawaii American Water, a subsidiary of American Water, provides quality wastewater services to approximately 25,000 people.

About American Water: With a history dating back to 1886, American Water (NYSE: AWK) is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs more than 6,400 dedicated professionals who provide regulated and regulated-like drinking water and wastewater services to more than 14 million people in 24 states. American Water provides safe, clean, affordable and reliable water services to our customers to help keep their lives flowing. For more information, visit amwater.com and diversityataw.com. Item 7.01. Regulation FD Disclosure.

On May 27, 2022, Pennsylvania-American Water Company (“Pennsylvania-American Water”), a subsidiary of American Water Works Company, Inc. (the “Company”), issued a press release announcing that Pennsylvania-American Water has completed the acquisition (the “System Purchase”) of the public wastewater collection and treatment system assets (the “System Assets”) of the York City Sewer Authority (the “Seller”) from the Seller and the City of York (the “City”).

A copy of the press release has been included as [Exhibit 99.1](#) to this Current Report on Form 8-K and is incorporated by reference in response to this Item 7.01.

The information furnished in response to this Item 7.01, including [Exhibit 99.1](#), shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), nor shall it be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended (the “Securities Act”), or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Item 8.01. Other Events.

Completion of Acquisition of York City Sewer Authority Wastewater Assets

On May 27, 2022 (the “Closing Date”), Pennsylvania-American Water completed the System Purchase pursuant to the terms and conditions of that certain Asset Purchase Agreement, dated April 6, 2021, by and among Pennsylvania-American Water, the Seller and the City. Pennsylvania-American Water acquired the System Assets for an aggregate purchase price of \$235.3 million, which equals the stated purchase price of \$235 million plus an amount of average daily revenue calculated for the period between the final meter reading and the Closing Date. The System Assets serve, directly and indirectly through bulk contracts, more than 45,000 customers. The sale was approved by the Pennsylvania Public Utility Commission on April 14, 2022.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K (or the exhibits thereto) are forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could,” or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on Form 8-K as a result of the factors discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2021, as filed with the Securities and Exchange Commission (the “SEC”) on February 16, 2022, and other filings with the SEC, and additional risks and uncertainties, including with respect to (1) the occurrence of the benefits and synergies expected or predicted to occur as a result of the completion of the acquisition of the System Assets; (2) unexpected costs, liabilities or delays associated with the integration of the System Assets; (3) regulatory, legislative, local or municipal actions affecting the water and wastewater industries, which could adversely affect Pennsylvania-American Water; and (4) other economic, political, business and other factors.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in the Company’s annual and quarterly reports as filed with the SEC, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date of this Current Report on Form 8-K. The Company does not have any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for us to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company’s or Pennsylvania-American Water’s business, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Item 9.01. Financial Statements and Exhibits.

Press Release

Pennsylvania American Water, City of York Complete Historic Wastewater System Deal

Represents Pennsylvania American Water's largest wastewater system acquisition to date; welcomes 23 employees and plans to invest \$17.5 million to improve reliability, safety and environmental compliance

MECHANICSBURG, Pa. (May 27, 2022) – Pennsylvania American Water, a subsidiary of American Water, announced today that it has completed a deal with the City of York to acquire the City's wastewater system assets, making it Pennsylvania American Water's largest wastewater system acquisition to date. The newly acquired wastewater system in York County serves more than 45,000 customer connections, including approximately 14,000 direct customers in the city and bulk service to indirect customers in the neighboring Townships of Spring Garden, Manchester, West Manchester, York and Springettsbury and the Boroughs of North York and West York.

"Pennsylvania American Water is proud to become the wastewater service provider for the City of York and surrounding communities, and to deliver safe, reliable service that protects public health and the environment," said Pennsylvania American Water President Mike Doran. "We remain committed to being an excellent community partner and delivering on our infrastructure investment, technical expertise and decades of wastewater experience."

Over the next five years, Pennsylvania American Water plans to invest approximately \$17.5 million in wastewater system improvements in the York area. These include wastewater treatment process improvements, technology and control system upgrades and wastewater main rehabilitation projects. The company has a long and successful track record of improving water and wastewater systems facing significant capital investment needs and making the necessary investments to meet current and future environmental regulations. Following today's acquisition, Pennsylvania American Water will be the wastewater service provider for more than 220,000 customers across the Commonwealth.

The city agreed to sell its wastewater system to Pennsylvania American Water in April 2021, citing that the proposed sale was important to improve the city's infrastructure, provide for resilient and responsive municipal services, and support the city's future. With the acquisition, Pennsylvania American Water also welcomed 23 of the system's employees to its local team.

"This is a transformative moment for the City of York," said York Mayor Michael Helfrich. "Today is the start of a new day for our city. With this sale now complete, we can clear all of York's long-standing debts and build a nest egg for the city's long-term fiscal health. For our residents and businesses who are proud to call York home, this sale brings stability and hope for our future."

The \$235.3 million purchase was approved on April 14, 2022 by the Pennsylvania Public Utility Commission (PUC). As part of the PUC's approval, Pennsylvania American Water will adopt the existing City of York wastewater rates for three years and will continue billing customers on a monthly basis. The PUC regulates the company's rates, rules and regulations of service;

Press Release

therefore, any future rate changes will require review and approval by the PUC. The rates for bulk agreements with neighboring municipalities will also remain in place for three years.

Pennsylvania American Water offers multiple customer programs including assistance through the company's longstanding H2O Help to Others program. For qualifying wastewater customers, the company offers grants of up to \$500 per year and a 30 percent discount on the total wastewater charges. The Pennsylvania Department of Human Services' Low Income Household Water Assistance Program (LIHWAP) is an additional resource that can help customers.

About Pennsylvania American Water

Pennsylvania American Water, a subsidiary of American Water (NYSE: AWK), is the largest investor-owned water utility in the state, providing high-quality and reliable water and wastewater services to approximately 2.4 million people.

About American Water

With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs more than 6,400 dedicated professionals who provide regulated and regulated-like drinking water and wastewater services to more than 14 million people in 24 states. American Water provides safe, clean, affordable and reliable water services to our customers to help keep their lives flowing. For more information, visit amwater.com and follow American Water on Twitter, Facebook and LinkedIn.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements in this press release are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements relate to, among other things, planned capital investments and system improvements and the ability to achieve certain benefits, synergies and goals relating to the transaction and the acquired operations. These statements are based on the current expectations of management of Pennsylvania American Water. There are a number of risks and uncertainties that could cause actual results to differ materially from these forward-looking statements, including with respect to (1) the occurrence of the benefits and synergies expected or predicted to occur as a result of the acquisition of the system assets; (2) unexpected costs, liabilities or delays associated with the integration of the acquired system assets; (3) regulatory, legislative, local or municipal actions affecting the water and wastewater industries, which could adversely affect Pennsylvania American Water; and (4) other economic, political, business and other factors. Forward-looking statements are not guarantees or assurances of future performance or results, and Pennsylvania American Water and its affiliates do not undertake any duty to update any forward-looking statement.

First Quarter 2022 Results

Executing the Plan

☑ Q1/YTD Highlights

- Achieved 19% EPS growth vs. Q1 2021 driven by higher revenue on increased infrastructure investment
- Invested \$437 million of capital in regulated infrastructure improvements and acquisitions
- Executed on our regulatory, rate case, and growth strategies, including cases filed in NJ, IL, and PA
- ESG leadership and transparency continues - 2nd annual ID&E report and ESG Data Summary published in May
- Raised dividend for 14th consecutive year in April; up nearly 9%
- Managed inflationary pressures well across the business as focus on affordability continues

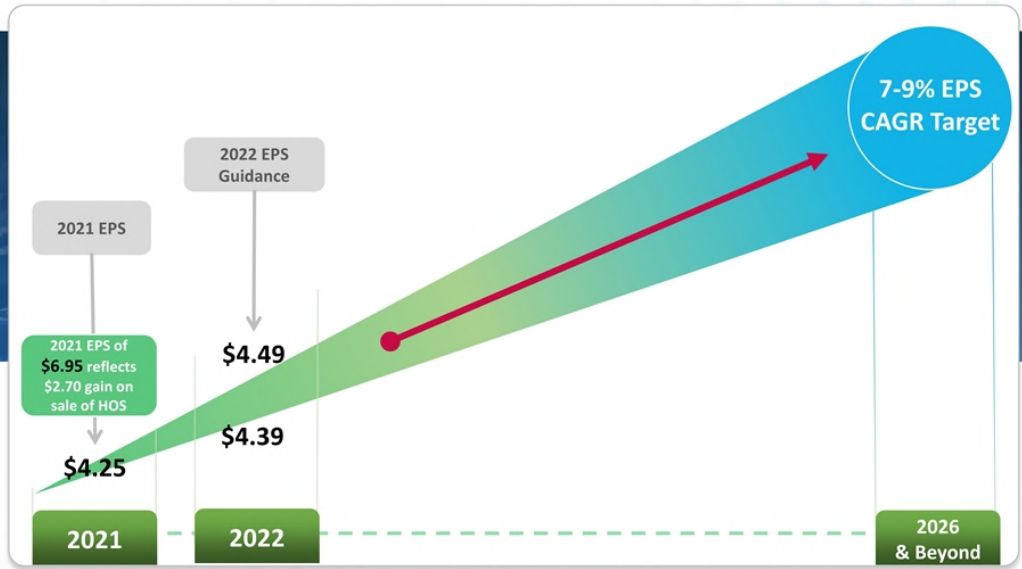

First Quarter 2022 EPS Detail By Business

2022 Earnings Guidance and Long-Term Targets Affirmed

2022 EPS Guidance
\$4.39 - \$4.49

Excellent Dividend Growth

* Future dividends are subject to approval of the American Water Board of Directors

ESG at AWK: Continued Focus on Transparency and Stakeholder Engagement

Publications in May 2022; Review of GHG Target Underway

ESG Data Summary

- Published 2nd annual ESG Data Disclosure with 2021 actuals
- ~70 environmental, social, and governance material topics
- Demonstrates continued progress to achieving current GHG reduction target

Inclusion, Diversity & Equity Metrics Report

- Published 2nd annual Inclusion, Diversity & Equity Report; also launched ID&E website
- Features 200+ data points related to our culture of inclusion
- Includes EEO-1 data*

GHG Emissions Target

- Updating Scope 1 and 2 GHG emissions target
- Evaluating Scope 3 GHG emissions and possible target
- Studying Science Based Target initiative and Paris Agreement alignment

* The EEO-1 Component 1 report is an annual data collection process that discloses demographic workforce data, including data by race/ethnicity, sex and job categories.

7-9% EPS CAGR Target (2022-2026 Plan)

Legislative and Rate Case Updates

Legislative

Indiana

Senate Enrolled Act 272

Effective 7/1/2022

- Requires public reporting of a non-jurisdictional utility's asset management program
- Establishes oversight for non-jurisdictional utilities with violations that create environmental or human health and safety issues

Senate Enrolled Act 273

Effective 7/1/2022

- Authorizes the recovery of property tax in DSIC filings
- Allows recovery for changes in property tax and for costs attributable to referenda or action by elected or appointed individuals

Virginia

House Bill 182 / Senate Bill 500

Effective 7/1/2022

- Requires ratemaking proceeding to evaluate investor-owned water/wastewater utilities on a stand-alone basis and utilize the utility's actual end-of-test period capital structure and cost of capital without regard to affiliated entities

Completed Rate Cases in 2022

- Step Increase
- Additional authorized revenues of \$20 million
- Effective 1/1/2022

- Step Increase
- Additional authorized revenues of \$13 million
- Effective 1/1/2022

- General Rate Case
- Additional authorized revenues of \$15 million
- Effective 2/25/2022

Rate Cases filed in 2022

- Rate case filed January 14, 2022
- Capital Investment of ≈\$985 million

- Rate case filed February 10, 2022
- Capital Investment of ≈\$1.1 billion

- Rate case filed April 29, 2022
- Capital Investment of ≈\$1.1 billion

Rate Filings Summary

(\$ in millions)

* Annualized revenue increase for rates effective since January 1, 2022; excludes agreed to revenue reductions for excess accumulated deferred income taxes.

Experienced and Skilled Executive Management Team Additions

John Griffith
Executive Vice President
and Chief Financial Officer

- Joined American Water on May 16, 2022.
- Most recently served as a Managing Director in Bank of America Securities' Mergers & Acquisitions group, leading the firm's practice for regulated utilities and renewables. In the role, John served as the lead investment banker on major U.S. and international utility transactions. He also advised on a large number of public and private renewables transactions globally.
- Prior to joining Bank of America in 2014, Griffith served as CEO of HighWave Energy, a start-up renewable fuels company.
- John also held multiple positions during a fourteen-year career with Merrill Lynch & Co., culminating as Managing Director.
- Received a Bachelor's degree in Economics from Davidson College and an MBA in Finance from Columbia University, where he graduated with honors.

James Gallegos
Executive Vice President
and General Counsel

- Joined American Water on April 1, 2022.
- Most recently served as Executive Vice President, General Counsel and Corporate Secretary at Alliant Energy Corporation.
- Prior to joining Alliant Energy in 2010, served as the Vice President and Corporate General Counsel for Burlington Northern and Santa Fe Corporation, one of North America's leading freight transportation companies.
- Began his legal career as a trial attorney with the U.S. Department of Justice and law clerk for a Federal District Court Judge.
- Received a Bachelor of Science degree in Business from the University of Colorado and a law degree from the University of Minnesota Law Center, where he graduated Cum Laude.

Forward-Looking Statements

Certain statements made, referred to or relied upon in this presentation including, without limitation, with respect to 2022 earnings guidance, the Company's long-term financial, growth and dividend targets, future capital needs, the ability to achieve the Company's strategies and goals, including with respect to its ESG focus and related to the sale of HOS, the Company's receipt of contingent consideration, the repayment of the seller note, and the redeployment of the net proceeds from its divestitures, the outcome of the Company's pending acquisition activity, including the proposed acquisition of the York, Pennsylvania wastewater system assets, the amount and allocation of projected capital expenditures; and estimated revenues from rate cases and other government agency authorizations, are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "likely," "uncertain," "outlook," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "will," "should" and "could" and/or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on American Water's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results of levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this presentation as a result of the factors discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, and subsequent filings with the SEC, and because of factors such as: the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates and regulatory responses to the COVID-19 pandemic; the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions; changes in customer demand for, and patterns of use of, water, such as may result from conservation efforts, impacts of the COVID-19 pandemic, or otherwise; a loss of one or more large industrial or commercial customers due to adverse economic conditions, the COVID-19 pandemic, or other factors; limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors; changes in laws, governmental regulations and policies, including with respect to the environment, health and safety, water quality and water quality accountability, contaminants of emerging concern, public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations; the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulation and policies with respect to data and consumer privacy, security and protection; weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares; the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions; the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of, or maintain and replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses; exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means; the Company's ability to obtain permits and other approvals for projects and construction of various water and wastewater facilities; changes in the Company's capital requirements; the Company's ability to control operating expenses and to achieve operating efficiencies; the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers; the Company's ability to obtain adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, electricity, fuel, water and other raw materials and to address or mitigate supply chain constraints impacting the Company's business operations; the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to acquiring, closing and successfully integrating regulated operations and market-based businesses, the Company's Military Services Group entering into new contracts, price redeterminations and other agreements and contracts, and realizing anticipated benefits and synergies from new acquisitions; risks and uncertainties following the completion of the sale of HOS and the Company's New York subsidiary; risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement and security regulations; cost overruns relating to improvements in or the expansion of the Company's operations; the Company's ability to successfully develop and implement new technologies and to protect related intellectual property; the Company's ability to maintain safe work sites; the Company's exposure to liabilities related to environmental laws and similar matters resulting from, among other things, water and wastewater service provided to customers; changes in general economic, political, business and financial market conditions, including without limitation conditions and collateral consequences associated with COVID-19; access to sufficient debt and/or equity capital on satisfactory terms and when and as needed to support operations and capital expenditures; fluctuations in inflation or interest rates; the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks or other communications by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions; fluctuations in the value of benefit plan assets and liabilities that could increase the Company's cost and funding requirements; changes in federal or state general, income and other tax laws, including (i) future significant tax legislation; (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs; and (iii) the Company's ability to utilize its state income tax net operating loss carryforwards; migration of customers into or out of the Company's service territories; the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, or the assertion by private landowners of similar rights against such utility subsidiaries; any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained; the incurrence of impairment charges related to the Company's goodwill or other assets; labor actions, including work stoppages and strikes; the Company's ability to retain and attract qualified employees; civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in American Water's annual, quarterly and other SEC filings, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements American Water makes speak only as of the date of this presentation. American Water does not have or undertake any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Non-GAAP Financial Information

This presentation includes adjusted regulated O&M efficiency ratios, both historical and forward-looking, which exclude from their calculation (i) estimated purchased water and other revenues and purchased water expenses, (ii) the impact of the Freedom Industries chemical spill in 2014 and certain related settlement activities recognized in 2016 and 2018, (iii) the estimated impact in 2012 and 2014 of weather, (iv) as to operating revenues, the amortization of excess accumulated deferred income taxes, and (v) the allocable portion of non-O&M support services costs, mainly depreciation and general taxes. Also, an alternative presentation of these ratios has been provided for each of 2010, 2012, 2014 and 2016, which includes a pro forma adjustment for the impact of the Tax Cuts and Jobs Act of 2017, and includes for 2012, 2014 and 2016 the impact of our implementation of Accounting Standards Update 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Post-retirement Benefit, on January 1, 2018. These items were excluded from the O&M efficiency ratio calculation as they are not reflective of management's ability to increase the efficiency of our regulated businesses. For that reason, these adjusted regulated O&M efficiency ratios constitute "non-GAAP financial measures" under SEC rules. We evaluate our operating performance using these ratios and believe that the presentation of them is useful to investors because the ratios directly measure improvement in the operating performance and efficiency of our regulated businesses. These ratios are derived from our consolidated financial information but are not presented in our consolidated financial statements prepared in accordance with GAAP. These non-GAAP financial measures supplement and should be read in conjunction with our GAAP disclosures and should be considered as an addition to, and not a substitute for, any GAAP measure. These ratios (i) are not accounting measures based on GAAP; (ii) are not based on a standard, objective industry definition or method of calculation; (iii) may not be comparable to other companies' operating measures; and (iv) should not be used in place of the GAAP information provided elsewhere in this presentation. Management is unable to present a reconciliation of adjustments to the components of the forward-looking adjusted regulated O&M efficiency ratio without unreasonable effort because management cannot reliably predict the nature, amount or probable significance of all the adjustments for future periods; however, these adjustments may, individually or in the aggregate, cause each of the non-GAAP financial measure components of the forward-looking ratios to differ significantly from the most directly comparable GAAP financial measure.

Set forth in this appendix are tables that reconcile each of the components of our historical adjusted regulated O&M efficiency ratios to its most directly comparable GAAP financial measure.

All references throughout this presentation to EPS or earnings per share refer to diluted EPS attributable to common shareholders.

			Pennsylvania (DSIC)	4/1/2022	2
			Sub-Total		\$31
			2022 Total		\$79

- (a) The Company's Pennsylvania subsidiary was authorized additional annualized revenues of \$90 million, excluding agreed-to revenue excess accumulated taxes, over two steps. The EADIT reduction in revenues is \$19.5 million. The overall increase (net of EADIT reductions in revenues) is \$70.5 million in revenues combined over two steps. The first step was effective 1/28/2021 in the amount of \$70 million (\$50.5 million net of EADIT reduction in revenues) and the second step was effective 1/1/2022 in the amount of \$20.0 million.
- (b) On November 18, 2021, the California Public Utilities Commission (the "CPUC") unanimously approved a final decision in the test year 2021 general rate case filed by the Company's California subsidiary. The final decision adopts the comprehensive settlement reached with certain parties to the proceeding. Under the CPUC's final decision, the Company's California subsidiary will be authorized additional annualized water and wastewater revenues of \$21.6 million, excluding a reduction in revenues for tax savings passed back to customers as a result of the TCJA. The decision is retroactive to January 1, 2021. The reduction in revenues for the TCJA is \$3.7 million. On January 18, 2022, the Company's California subsidiary filed for approval of \$12.5 million in 2022 escalation increases excluding \$3.7 million in reductions related to the TCJA. This filing, which is retroactive to January 1, 2022, is subject to CPUC approval with a 45-day review period.
- (c) The Company's West Virginia subsidiary was authorized additional annualized revenues of \$14.8 million, excluding a reduction in revenues for tax savings passed back to customers as a result of the TCJA and infrastructure surcharges. The excess EADIT reduction in revenues is \$1.6 million and the exclusion for infrastructure surcharges is \$10.2 million.

Pending Rate Case Filings

(\$ in millions)

Infrastructure Charges Filed

Kentucky (QIP)	3/1/2022	\$3	\$8
Missouri (WSIRA)	3/4/2022	19	108
Sub-Total		\$22	\$116
Total		\$406	\$7,307

- (a) Requested additional annualized revenues of \$2.3 million, excluding reductions in revenues for tax savings passed back to customers as a result of the TCJA. The EADIT reduction in revenues is \$0.16 million.
- (b) Requested additional annualized revenues of \$15 million, excluding reductions in revenues for tax savings passed back to customers as a result of the TCJA. The EADIT reduction in revenues is \$0.7 million.
- (c) Requested additional revenues of \$0.968 million, excluding reductions in revenues for tax savings passed back to customers as a result of the TCJA. The Company filed their wastewater case under the Alternative Rate Filing process for smaller utilities which calculates an Operating Ratio of 88% rather than a ROE.
- (d) Requested additional annualized revenues of \$110.3 million, excluding reductions in revenues for tax savings passed back to customers as a result of the TCJA and infrastructure surcharges. The reduction in revenues for TCJA is \$15.6 million and the exclusion for infrastructure surcharges is \$38.2 million.
- (e) Requested additional annualized revenues of \$70.8 million, excluding reductions in revenues for tax savings passed back to customers as a result of the TCJA and infrastructure surcharges. The reduction in revenues for TCJA is \$1.7 million and the exclusion for infrastructure surcharges is \$18.3 million.
- (f) Requested additional annualized revenues of \$185.2 million, excluding reductions in revenues for tax savings passed back to customers as a result of TCJA and infrastructure surcharges. The reduction in revenues for TCJA is \$12.0 million and the exclusion for infrastructure surcharges is \$24.3 million.

*Rate Base stated in \$000s

- (a) On March 22, 2018, Decision 18-03-035 set the authorized cost of capital for 2018 through 2020. A separate Cost of Capital case sets the rate of return outside of a general rate proceeding.
- (b) The Authorized Equity excludes cost-free items or tax credit balances at the overall rate of return which lowers the equity percentage as an alternative to the common practice of deducting such items from rate base.
- (c) The Authorized Rate Base listed is the Company's view of the Rate Base allowed in the case; the Rate Base was not disclosed in the Order or the applicable settlement agreement.
- (d) The ROE is the Company's view of the ROE allowed in the case; however, the ROE was not disclosed in the Order or the applicable settlement agreement.
- (e) The equity ratio listed is the Company's view of the equity ratio allowed in the case; the actual equity ratio was not disclosed in the Order or the applicable settlement agreement.
- (f) The equity ratio and ROE are the Company's view of each as allowed in the case. The ROE was not disclosed in the Order or the applicable settlement agreement; 9.6% is adopted for future earnings test and WWISC filings per the Order.
- (g) Interim rates were effective May 1, 2019 and a final Order was received November 6, 2020.

Recent Stories of ESG at AWK

MSG Constructs Net Zero Operations Center

AWK Impact

Our Military Services Group constructed a net zero operations center at Hill Air Force Base to enhance energy efficiency and reduce emissions that contribute to climate variability.

- Reduced energy usage through decentralized heating and cooling
- Offset energy usage with solar panels
- Met all power supply needs during first three years of operation
- Provided 585 kilowatt-hours of clean energy back to the grid
- 15–20 year anticipated payback

American Water solar installation at Hill Air Force Base in Ogden, Utah

Our Acquisition Pipeline: Continued Growth and Community Impact for Decades to Come

≈1,300,000 Customer Connections in Pipeline

Ribbon cutting ceremony in Sheridan, IN after \$9M capital investment

Sheridan, IN

Prior to Acquisition

- Environmental compliance challenges with the U.S. EPA
- Consistent sewer overflow events during wet weather
- Community growth restrictions stemming from non-compliance

Post Acquisition Accomplishments

- Partnered with state environmental agency to develop compliance plan
- Invested \$9M in capital improvements
- Zero compliance violations since capital improvements
- Significant community growth following plant improvements
- New revenue stream for city from property taxes
- Long-term rate stability for customers

Value of American Water's Resiliency Investments Demonstrated During Hurricane Ida

- The river outside our Raritan-Millstone Plant in New Jersey crested at record height of 44.87', three feet below the top of the recently heightened flood wall
- Flood doors at our Norristown Water Treatment Plant in Pennsylvania withstood 5' of floodwater
- Recently reinforced Scranton, PA dam withstood heavy rains
- Maryland received 8" of rain, raising the turbidity of the typical water supply; our operations switched to alternate water source
- In New York, emergency sump pumps & post-Hurricane Sandy upgrades handled floodwaters

(Address of principal executive offices, including zip code)
(856) 955-4001
(Registrant's telephone number, including area code)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Trading Symbol</u>	<u>Name of Each Exchange on Which Registered</u>
Common stock, par value \$0.01 per share	AWK	New York Stock Exchange

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (17 CFR 230.405) or Rule 12b-2 of the Securities Exchange Act of 1934 (17 CFR 240.12b-2).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 5.07. Submission of Matters to a Vote of Security Holders.

The 2022 Annual Meeting of Shareholders (the “2022 Annual Meeting”) of American Water Works Company, Inc., a Delaware corporation (the “Company”), was held on May 11, 2022. An aggregate of 157,091,225 shares, or 86.4% of the Company’s issued and outstanding common stock as of March 17, 2022, the record date for the 2022 Annual Meeting, was represented in person or by proxy at the 2022 Annual Meeting, constituting a quorum. The results of voting at the 2022 Annual Meeting on each of the matters submitted to a vote of the Company’s shareholders thereat is as set forth below.

1. The following nine nominees were elected as directors of the Company for a term expiring at the 2023 Annual Meeting of Shareholders, and until their successors are duly elected and qualified, and received the votes set forth adjacent to their names below:

<u>Director Nominee</u>	<u>For</u>	<u>Against</u>	<u>Abstain</u>	<u>Broker Non-Votes</u>
Jeffrey N. Edwards	136,075,322	5,694,999	133,833	15,187,071
Martha Clark Goss	130,105,011	11,672,795	126,348	15,187,071
M. Susan Hardwick	140,407,901	1,369,282	126,971	15,187,071
Kimberly J. Harris	137,449,950	4,324,912	129,292	15,187,071
Julia L. Johnson	133,091,848	8,685,112	127,194	15,187,071
Patricia L. Kampling	139,188,280	2,588,239	127,635	15,187,071
Karl F. Kurz	139,464,793	2,306,247	133,114	15,187,071
George MacKenzie	127,605,631	14,156,364	142,159	15,187,071
James G. Stavridis	130,081,428	11,686,153	136,573	15,187,071

2. The shareholders approved, on an advisory basis, the compensation of the Company’s named executive officers by the following vote:

<u>For</u>	<u>Against</u>	<u>Abstain</u>	<u>Broker Non-Votes</u>
128,305,010	13,213,868	385,276	15,187,071

3. The ratification of the appointment, by the Audit, Finance and Risk Committee of the Board of Directors (the “Board”), of PricewaterhouseCoopers LLP as the Company’s independent registered public accounting firm for 2022, was approved by the following vote:

<u>For</u>	<u>Against</u>	<u>Abstain</u>
141,788,377	15,087,924	214,924

4. The following non-binding shareholder proposal was not approved by the following vote:

<u>Shareholder Proposal</u>	<u>For</u>	<u>Against</u>	<u>Abstain</u>	<u>Broker Non-Votes</u>
Racial Justice Audit	66,804,395	71,592,017	3,507,742	15,187,071

As previously disclosed, on April 27, 2022, the non-binding shareholder proposal on climate transition plan reporting was withdrawn by its proponent, and, as a result, the proposal was not presented for consideration at the 2022 Annual Meeting and all votes cast on that proposal were disregarded for voting purposes.

Item 8.01. Other Events.

Appointment of Chairman and Board Committee Members

Following the 2022 Annual Meeting, at the Board’s annual meeting, the Board appointed director Karl F. Kurz to continue to serve as Chairman of the Board and the following directors to serve as members of the Board’s four standing committees, each effective as of May 11, 2022 and until the 2023 Annual Meeting of Shareholders, or until his or her earlier death, resignation or removal:

Item 8.01. Other Events.

On May 2, 2022, American Water Capital Corp. (“AWCC”), a wholly owned finance subsidiary of American Water Works Company, Inc. (“American Water”), agreed to sell \$800.0 million aggregate principal amount of its 4.450% Senior Notes due 2032 (the “Notes”) pursuant to an Underwriting Agreement, dated May 2, 2022, among AWCC, American Water, and BofA Securities, Inc., Mizuho Securities USA LLC, MUFG Securities Americas Inc. and RBC Capital Markets, LLC, as representatives of the several underwriters named therein. The Notes have the benefit of a support agreement, dated June 22, 2000 and amended as of July 26, 2000, from American Water (the “Support Agreement”).

The Notes and the obligations of American Water represented by the Support Agreement were registered under the Securities Act of 1933, as amended, pursuant to a Registration Statement on Form S-3 (File Nos. 333-253484-01 and 333-253484). At the closing of this offering on May 5, 2022, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately \$792.3 million. AWCC intends to use the net proceeds of the offering (1) to lend funds to American Water and its subsidiaries in its Regulated Businesses segment (which is comprised of utilities that provide water and wastewater services and are generally subject to regulation by state utility commissions or other entities engaged in utility regulation); (2) to repay AWCC’s commercial paper obligations; and (3) for general corporate purposes.

The Notes were issued pursuant to the Indenture, dated as of December 4, 2009, by and between AWCC and Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association, as trustee, as supplemented by an officers’ certificate establishing the terms of the Notes.

This Current Report on Form 8-K is being filed to report the closing of the offering summarized herein and to include, as exhibits, certain documents executed in connection with the sale of the Notes.

Item 9.01. Financial Statements and Exhibits

(d) Exhibits

The following exhibits to this Current Report have been provided herewith as noted below:

American Water Capital Corp.
1 Water Street
Camden, New Jersey 08102

\$800,000,000 4.450% Senior Notes due 2032

Support Agreement from American Water Works Company, Inc.

Underwriting Agreement

May 2, 2022

BofA Securities, Inc.
Mizuho Securities USA LLC
MUFG Securities Americas Inc.
RBC Capital Markets, LLC,

As representatives of the several Underwriters

named in Schedule I hereto

c/o BofA Securities, Inc.

1540 Broadway

NY8-540-26-02,

New York, NY 10036

Ladies and Gentlemen:

1. American Water Capital Corp., a Delaware corporation (the “**Company**”), proposes, subject to the terms and conditions stated herein, to issue and sell to the underwriters named in Schedule I hereto (the “**Underwriters**”), for whom you (the “**Representatives**”) are acting as representatives, an aggregate of \$800,000,000 principal amount of the Company’s 4.450% Senior Notes due 2032 (the “**Securities**”).

2. The Company previously entered into a support agreement with American Water Works Company, Inc., a Delaware corporation (the “**Parent**”), dated June 22, 2000 and amended as of July 26, 2000 (as such agreement may be hereinafter amended, modified or supplemented from time to time in accordance with the terms and provisions thereof, the “**Support Agreement**”). Pursuant to the Support Agreement, the Parent has agreed, among other things, to provide funds to the Company if it is unable to make timely payment of principal of and premium, if any, and interest on Debt (as defined in the Support Agreement) issued by the Company.

3. The Company and the Parent, jointly and severally, represent and warrant to, and agree with, each of the Underwriters that:

(a) An “automatic shelf registration statement” as defined under Rule 405 under the Securities Act of 1933, as amended (the “Act”), Form S-3 (File Nos. 333-253484 and 333-253484-01) in respect of the Securities has been filed with the Securities and Exchange Commission (the “**Commission**”) not earlier than three years prior to the date hereof; such registration statement, and any post-effective amendment thereto, each in a form heretofore delivered to the Representatives, became effective on filing; and no stop order suspending the effectiveness of such registration statement or any part thereof has been issued and, to the Parent’s or the Company’s knowledge, no proceeding for that purpose has been initiated or threatened by the Commission, and no notice of objection of the Commission to the use of such registration statement or any post-effective amendment thereto pursuant to Rule 401(g)(2) under the Act has been received by the Parent or the Company (the base prospectus filed as part of such registration statement, in the form in which it has most recently been filed with the Commission on or prior to the date of this Agreement, is hereinafter called the “**Basic Prospectus**”; any preliminary prospectus (including any preliminary prospectus supplement) relating to the Securities filed with the Commission pursuant to Rule 424(b) under the Act is hereinafter called a “**Preliminary Prospectus**”; the various parts of such registration statement, including all exhibits thereto but excluding the Form T-1 and including any prospectus supplement relating to the Securities that is filed with the Commission and deemed by virtue of Rule 430B to be part of such registration statement, each as amended at the time such part of the registration statement became effective, are hereinafter collectively called the “**Registration Statement**”; the Basic Prospectus, as amended and supplemented immediately prior to the Applicable Time (as defined in Section 3(c) hereof), is hereinafter called the “**Pricing Prospectus**”; the final prospectus relating to the Securities filed with the Commission pursuant to Rule 424(b) under the Act in accordance with Section 7(a) hereof is hereinafter called the “**Prospectus**”; any reference herein to the Basic Prospectus, the Pricing Prospectus, any Preliminary Prospectus or the Prospectus shall be deemed to refer to and include the documents incorporated by reference therein pursuant to Item 12 of Form S-3 under the Act as of the date of such prospectus; any reference to any amendment or supplement to the Basic Prospectus, any Preliminary Prospectus or the Prospectus shall be deemed to refer to and include any post-effective amendment to the Registration Statement, any prospectus supplement relating to the Securities filed with the Commission pursuant to Rule 424(b) under the Act and any documents filed under the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”), and incorporated therein, in each case after the date of the Basic Prospectus, such Preliminary Prospectus, or the Prospectus, as the case may be; any reference to any amendment to the Registration Statement shall be deemed to refer to and include any annual report of the Company filed pursuant to Section 13(a) or 15(d) of the Exchange Act after the effective date of the Registration Statement that is incorporated by reference in the Registration Statement; and any “issuer free writing prospectus” as defined in Rule 433 under the Act relating to the Securities is hereinafter called an “**Issuer Free Writing Prospectus**”;

(b) No order preventing or suspending the use of any Preliminary Prospectus or any Issuer Free Writing Prospectus has been issued by the Commission. Each Preliminary Prospectus, at the time of filing thereof, conformed in all material respects to the requirements of the Act and the Trust Indenture Act of 1939, as amended (the “**Trust Indenture Act**”), and the rules and regulations of the Commission thereunder, and did not contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; *provided, however*, that this representation and warranty shall not apply to any statements or omissions made in reliance upon and in conformity with information furnished in writing to the Company by the Representatives expressly for use therein (the “**Underwriter Information**”);

(c) For the purposes of this Agreement, the “**Applicable Time**” is 3:25 p.m. (Eastern time) on the date of this Agreement. The Pricing Prospectus, as supplemented by the final term sheet prepared and filed pursuant to Section 7(a) hereof, taken together (collectively, the “**Pricing Disclosure Package**”), as of the Applicable Time, did not include any untrue statement of a material fact or omit to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading; and each Issuer Free Writing Prospectus listed on Schedule II hereto does not conflict with the information contained in the Registration Statement, the Pricing Prospectus or the Prospectus and each such Issuer Free Writing Prospectus, taken together with the Pricing Disclosure Package as of the Applicable Time, did not include any untrue statement of a material fact or omit to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading; *provided, however*, that the representations and warranties in this clause (c) shall not apply to statements or omissions made in an Issuer Free Writing Prospectus in reliance upon and in conformity with the Underwriter Information;

(d) The documents incorporated by reference in the Pricing Prospectus and the Prospectus, when they became effective or were filed with the Commission, as the case may be, conformed in all material respects to the requirements of the Act or the Exchange Act, as applicable, and the rules and regulations of the Commission thereunder, and none of such documents contained an untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary to make the statements therein not misleading; any further documents so filed and incorporated by reference in the Prospectus or any further amendment or supplement thereto, when such documents become effective or are filed with the Commission, as the case may be, will conform in all material respects to the requirements of the Act or the

Exchange Act, as applicable, and the rules and regulations of the Commission thereunder and will not contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading; *provided, however*, that this representation and warranty shall not apply to any statements or omissions made in reliance upon and in conformity with the Underwriter Information;

(e) The interactive data in eXtensible Business Reporting Language filed as exhibits to the reports included or incorporated by reference in the Registration Statement, the Pricing Disclosure Package and the Prospectus fairly presents the information called for in all material respects and has been prepared in accordance with the Commission's rules and guidelines applicable thereto;

(f) (i) The Registration Statement conforms, and the Prospectus and any further amendments or supplements to the Registration Statement and the Prospectus will conform, in all material respects to the requirements of the Act and the Trust Indenture Act and the rules and regulations of the Commission thereunder and (ii) the Registration Statement and the Prospectus and any further amendments or supplements to the Registration Statement and the Prospectus do not and will not, as of the applicable effective date as to each part of the Registration Statement and as of the applicable filing date as to the Prospectus and any amendment or supplement thereto, contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading; *provided, however*, that this representation and warranty shall not apply to any statements or omissions made in reliance upon and in conformity with the Underwriter Information;

(g) (i) Since the date of the latest audited financial statements included or incorporated by reference in the Pricing Prospectus, (A) none of the Parent, the Company or any of the Parent's other subsidiaries has sustained any loss or interference with its business from fire, explosion, flood or other calamity, whether or not covered by insurance, or from any court or governmental action, order or decree, otherwise than as set forth or contemplated in the Pricing Prospectus, and which could reasonably be expected to, in each case, individually or in the aggregate, have a material adverse effect on the financial condition, stockholders' equity, properties or results of operations of the Parent, the Company and the Parent's other subsidiaries, taken as a whole (a "**Material Adverse Effect**"); and (B) no labor dispute with the employees of the Parent, the Company or any of the Parent's other subsidiaries exists or, to the knowledge of the Company or the Parent, is imminent, which could reasonably be expected to result in a Material Adverse Effect; and (ii) since the respective dates as of which information is given in the Registration Statement and the Pricing Prospectus, otherwise than as set forth or contemplated in the Pricing Prospectus, there has not been (A) any material decrease in the number of shares of outstanding capital stock of the Parent or increase in consolidated

long-term debt of the Parent and its consolidated subsidiaries, or (B) any change, or any development involving a prospectus change or other change affecting the general affairs or management, otherwise than as set forth or contemplated in the Pricing Prospectus, that could reasonably be expected to have a Material Adverse Effect;

(h) The Parent, the Company and each of the Parent's other subsidiaries has good and sufficient title to all real property and personal property owned by them sufficient for the conduct of their respective businesses, in each case free and clear of all liens, encumbrances and defects except such as are described in the Pricing Prospectus or such as do not affect the value of such property and do not interfere with the use made and proposed to be made of such property by the Parent, the Company and each of the Parent's other subsidiaries except, in each case, as would not, individually or in the aggregate, have a Material Adverse Effect; and any real property and buildings held under lease by the Parent, the Company and each of the Parent's other subsidiaries are held by them under valid, subsisting and enforceable leases with such exceptions as are not material and do not interfere with the use made and proposed to be made of such property and buildings by the Parent, the Company and each of the Parent's other subsidiaries, otherwise than as set forth or contemplated in the Pricing Prospectus or as would not, individually or in the aggregate, have a Material Adverse Effect;

(i) Each of the Parent and the Company has been duly incorporated and is validly existing as a corporation in good standing under the laws of Delaware, with power and authority (corporate and other) to own its properties and conduct its business as described in the Pricing Prospectus, and has been duly qualified as a foreign corporation for the transaction of business and is in good standing under the laws of each other jurisdiction in which it owns or leases properties or conducts any business so as to require such qualification, except where the failure to be so qualified or in good standing would not, individually or in the aggregate, have a Material Adverse Effect; and each subsidiary of the Parent listed on Schedule IV hereto (each a "**Significant Subsidiary**") has been duly incorporated or organized and is validly existing as an entity in good standing under the laws of its jurisdiction of incorporation or organization, except where the failure to be in good standing would not, individually or in the aggregate, have a Material Adverse Effect;

(j) All of the issued shares of capital stock of the Parent and the Company have been duly and validly authorized and issued and are fully paid and non-assessable; and all of the issued shares of capital stock or other ownership interests of each Significant Subsidiary have been duly and validly authorized and issued, are fully paid and non-assessable and (except (i) for directors' qualifying shares, (ii) for 4,515 shares of redeemable preferred stock of Pennsylvania-American Water Company and (iii) as otherwise set forth in the Pricing Prospectus) are owned directly or indirectly by the Parent, free and clear of all liens, encumbrances, equities or claims, except for liens, encumbrances, equities or claims that would not, individually or in the aggregate, have a Material Adverse Effect;

(k) This Agreement has been duly authorized, executed and delivered by each of the Company and the Parent; the Securities have been duly authorized and, when issued and delivered pursuant to this Agreement, will have been duly executed, authenticated, issued and delivered and will constitute valid and legally binding obligations of the Company entitled to the benefits provided by the indenture, dated as of December 4, 2009 (the “**Indenture**”), between the Company and Computershare Trust Company, N.A. (as successor to Wells Fargo Bank, National Association), as trustee (the “**Trustee**”), under which they are to be issued; the Indenture has been duly authorized, executed and delivered by the Company and duly qualified under the Trust Indenture Act and constitutes a valid and legally binding instrument, enforceable in accordance with its terms, subject, as to enforcement, to bankruptcy, insolvency, reorganization and other laws of general applicability relating to or affecting creditors’ rights and to general equity principles; the Support Agreement has been duly authorized, executed and delivered by the Parent and the Company and constitutes a valid and legally binding instrument, enforceable in accordance with its terms, subject, as to enforcement, to bankruptcy, insolvency, reorganization and other laws of general applicability relating to or affecting creditors’ rights and to general equity principles; and the Securities, the Indenture and the Support Agreement will conform to the descriptions thereof in the Pricing Prospectus and the Prospectus and will be in substantially the form previously delivered to you;

(l) None of the transactions contemplated by this Agreement (including, without limitation, the use of the proceeds from the sale of the Securities) will violate or result in a violation of Section 7 of the Exchange Act, or any regulation promulgated thereunder, including, without limitation, Regulations T, U, and X of the Board of Governors of the Federal Reserve System;

(m) The issue and sale of the Securities and the compliance by the Parent and the Company with all of the provisions of the Securities, the Indenture, the Support Agreement and this Agreement and the consummation of the transactions herein and therein contemplated (i) will not conflict with or result in a breach or violation of any of the terms or provisions of, or constitute a default under, any indenture, mortgage, deed of trust, loan agreement or other agreement or instrument to which the Parent, the Company or any of the Parent’s other subsidiaries is a party or by which the Parent, the Company or any of the Parent’s other subsidiaries is bound or to which any of the property or assets of the Parent, the Company or any of the Parent’s other subsidiaries is subject, and (ii) will not result in any violation of (A) the provisions of the Certificate of Incorporation or the By-laws, as amended, of the Company or the Restated Certificate of Incorporation or the Amended and Restated Bylaws of

the Parent or (B) any statute or any order, rule or regulation of any court or governmental agency or body having jurisdiction over the Parent or the Company or any of the Parent's other subsidiaries or any of their properties, except in the case of clauses (i) and (ii)(B) for any conflict, breach, violation or default that would not, individually or in the aggregate, have a Material Adverse Effect or impair the ability of the Parent or the Company to consummate the transactions contemplated by this Agreement; and no consent, approval, authorization, order, registration or qualification of or with any such court or governmental agency or body is required for the issue and sale of the Securities or the consummation by the Parent or the Company of the transactions contemplated by this Agreement, the Indenture, or the Support Agreement, except (i) the registration under the Act of the Securities, (ii) such consents, approvals, authorizations, orders, registrations or qualifications as may be required under state securities or Blue Sky laws in connection with the purchase and distribution of the Securities by the Underwriters and (iii) such consents, approvals, authorizations, orders, registrations or qualifications that have already been obtained or the failure of which to obtain would not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect or impair the ability of the Parent or the Company to consummate the transactions contemplated by this Agreement;

(n) None of the Parent, the Company or any of the Parent's other subsidiaries is (A) in violation of the Certificate of Incorporation or the By-laws, as amended, in the case of the Company, or the Restated Certificate of Incorporation or the Amended and Restated Bylaws, in the case of the Parent, or similar organizational documents, in the case of the Parent's other subsidiaries, or (B) in default in the performance or observance of any material obligation, agreement, covenant or condition contained in any indenture, mortgage, deed of trust, loan agreement, lease or other agreement or instrument to which it is a party or to which it or any of its properties is subject, except, in the case of clause (A) (with respect to subsidiaries of the Parent other than the Company and the Significant Subsidiaries) and clause (B), for violations or defaults that would not, individually or in the aggregate, have a Material Adverse Effect;

(o) The statements set forth in the Pricing Prospectus and Prospectus under the captions "Description of the Notes" and "Description of AWCC Debt Securities and American Water Support Agreement", insofar as they purport to constitute a summary of the terms of the Securities, under the caption "Underwriting", insofar as they purport to describe the provisions of the documents described therein, and under the caption "Certain United States Federal Income Tax Considerations", insofar as they purport to describe the provisions of the laws and documents referred to therein, are accurate, complete and fair in all material respects;

(p) Other than as set forth in the Pricing Prospectus, there are no legal or governmental proceedings pending to which the Parent, the Company or any of the Parent's other subsidiaries is a party or of which any property of the Parent, the Company or any of the Parent's other subsidiaries is the subject which would reasonably be expected to, individually or in the aggregate, have a Material Adverse Effect; and, to the best of the Company's and the Parent's knowledge, no such proceedings are threatened or contemplated by governmental authorities or threatened by others;

(q) Neither the Parent nor the Company is, and after giving effect to the offering and sale of the Securities and the application of the proceeds thereof will be, required to register as an "investment company", as such term is defined in the Investment Company Act of 1940, as amended;

(r) (A) (i) At the time of filing the Registration Statement, (ii) at the time of the most recent amendment thereto for the purposes of complying with Section 10(a)(3) of the Act (whether such amendment was by post-effective amendment, incorporated report filed pursuant to Section 13 or 15(d) of the Exchange Act or form of prospectus), and (iii) at the time the Parent or the Company or any person acting on the Parent's or the Company's behalf (within the meaning, for this clause only, of Rule 163(c) under the Act) made any offer relating to the Securities in reliance on the exemption of Rule 163 under the Act, the Parent and the Company were each a "well-known seasoned issuer" as defined in Rule 405 under the Act; and (B) at the earliest time after the filing of the Registration Statement that the Parent or the Company or another offering participant made a bona fide offer (within the meaning of Rule 164(h)(2) under the Act) of the Securities, neither the Parent nor the Company was an "ineligible issuer" as defined in Rule 405 under the Act;

(s) PricewaterhouseCoopers LLP, which has certified certain financial statements of the Parent and its subsidiaries, is an independent registered public accounting firm with respect to the Parent and its subsidiaries as required by the Act and the rules and regulations of the Commission thereunder;

(t) Except as disclosed in the Pricing Prospectus, the Parent maintains a system of internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) that complies in all material respects with the requirements of the Exchange Act and has been designed by the Parent's principal executive officer and principal financial officer, or under their supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Except as disclosed in the Pricing Prospectus, the Parent's internal control over financial reporting is effective and the Parent is not aware of any material weaknesses in its internal control over financial reporting;

(u) Except as disclosed in the Pricing Prospectus, since the date of the latest audited financial statements included or referred to in the Pricing Prospectus, there has been no change in the Parent's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Parent's internal control over financial reporting;

(v) The Parent maintains disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Exchange Act) that comply in all material respects with the requirements of the Exchange Act; such disclosure controls and procedures have been designed to ensure that material information relating to the Parent, the Company and each of the Parent's other subsidiaries is made known to the Parent's principal executive officer and principal financial officer by others within those entities; and, except as disclosed in the Pricing Prospectus, such disclosure controls and procedures are effective;

(w) The Parent, the Company and each of the Parent's other subsidiaries possess all permits, licenses, franchises, authorizations, registrations, qualifications and approvals of governmental or regulatory authorities as required of them to own their properties and conduct their businesses in the manner described in the Pricing Prospectus (collectively, "**Permits**"), except where the failure to possess such Permits would not, individually or in the aggregate, have a Material Adverse Effect; and the Parent, the Company and each of the Parent's other subsidiaries have fulfilled and performed all of their obligations with respect to such Permits required to have been performed, and no event has occurred which allows or, after notice or lapse of time or both, would allow revocation or termination thereof or result in any other material impairment of the rights of the holder of any such Permit, except, in each case, as disclosed in the Pricing Prospectus or would not, individually or in the aggregate, have a Material Adverse Effect;

(x) To the Parent's and the Company's knowledge, the Parent, the Company and each of the Parent's other subsidiaries own, possess or have the right to employ sufficient patents, patent rights, licenses, inventions, copyrights, know how (including trade secrets and other unpatented and/or unpatentable proprietary or confidential information, software, systems or procedures), trademarks, service marks and trade names, inventions, computer programs, technical data and information (collectively, the "**Intellectual Property Rights**") reasonably necessary to conduct their businesses as now conducted, except where the failure to own, possess or have the right would not, individually or in the aggregate, have a Material Adverse Effect. None of the Parent, the Company or any of the Parent's other subsidiaries has received any notice of infringement or conflict with asserted rights of others with respect to any of the Intellectual Property Rights, whether or not arising from transactions in the ordinary course of business, except for such infringements or conflicts that would not, individually or in the aggregate, have a Material Adverse Effect. To the Parent's and the Company's knowledge, the use of the Intellectual Property Rights in connection with the business and operations of the Parent, the Company and each of the Parent's other subsidiaries does not infringe on the rights of any person;

(y) Except as disclosed in the Pricing Prospectus, or as would not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect, (i)(A) there has been no security breach or other compromise of or relating to any of the Parent's, the Company's or the Parent's other subsidiaries' information technology and computer systems, networks, hardware, software, data (including the data of their respective customers, employees, suppliers, vendors and any third party data maintained by or on behalf of them), equipment or technology (collectively, the "**IT Systems and Data**") and (B) the Parent and the Company have not been notified of, and have no knowledge of any event, circumstance or condition that would reasonably be expected to result in, any security breach or other compromise to the IT Systems and Data and (ii) the Parent, the Company and the Parent's other subsidiaries are presently in compliance in all material respects with all applicable laws or statutes and all judgments, orders, rules and regulations of any court or arbitrator or governmental or regulatory authority, internal policies and contractual obligations relating to the privacy and security of the IT Systems and Data and to the protection of such IT Systems and Data from unauthorized use, access, breach, misappropriation or modification. The Parent and the Company have implemented and maintain security controls, employee education and training programs, network security monitoring, and breach response, mitigation and recovery programs for the IT Systems and Data consistent with industry standards and practices. The Parent and the Company have implemented backup and disaster recovery technology consistent with industry standards and practices;

(z) Except as disclosed in the Pricing Prospectus, or as would not, individually or in the aggregate, have a Material Adverse Effect, none of the Parent, the Company or any of the Parent's other subsidiaries (i) is in violation of any law, statute, or any rule, regulation, decision or order of any governmental agency or body or any court relating to the use, disposal or release of hazardous or toxic substances or relating to the protection or restoration of the environment or human exposure to hazardous or toxic substances (collectively, "**Environmental Laws**"), (ii) owns or operates any real property which, to the Parent's or the Company's knowledge, is contaminated with any substance that is regulated under any Environmental Laws, (iii) is, to the Parent's or the Company's knowledge, liable for any off-site disposal or contamination pursuant to any Environmental Laws, or (iv) has received any written notice of any claim under any Environmental Laws, and the Parent and the Company are not aware of any pending investigation which could reasonably be expected to lead to such a claim;

(aa) The Parent, the Company and each of the Parent's other subsidiaries are insured by insurers of recognized financial responsibility against such losses and risks and in such amounts as are, in management's judgment, prudent and customary in the businesses in which they are engaged; within the past five years, none of the Parent, the Company or any such subsidiary has been refused any insurance coverage sought or applied for; and none of the Parent, the Company or any such subsidiary has any reason to believe that it will not be able to renew its existing insurance coverage as and when such coverage expires or to obtain similar coverage from similar insurers as may be necessary to continue its business at a cost that would not, individually or in the aggregate, have a Material Adverse Effect, except, in each case, as set forth in or contemplated in the Pricing Prospectus;

(bb) Neither the Parent nor the Company has taken or will take, directly or indirectly, any action which is designed to or which has constituted or which might reasonably be expected to cause or result in stabilization or manipulation of the price of any security of the Company to facilitate the sale or resale of the Securities;

(cc) The Parent is in compliance in all material respects with all provisions of the Sarbanes-Oxley Act of 2002 that are effective and applicable to the Parent as of the date hereof;

(dd) The Parent, the Company and each of the Parent's other subsidiaries have filed all federal, state and foreign tax returns, or have filed for extensions of the due dates of such returns, required to be filed and have paid all taxes shown as due thereon except where the failure to so file such returns would not, individually or in the aggregate, have a Material Adverse Effect; and other than tax deficiencies which the Parent, the Company or any of the Parent's other subsidiaries is contesting in good faith and for which the Parent, the Company or any of the Parent's other subsidiaries has provided adequate reserves, there is no tax deficiency that has been asserted in writing against the Parent, the Company or any of the Parent's other subsidiaries that would, individually or in the aggregate, have a Material Adverse Effect; and the United States federal income tax returns of the Parent, the Company and each of the Parent's other subsidiaries through the fiscal year ended December 31, 2017 have been closed by statute and no assessment in connection therewith has been made against the Parent, the Company or any of the Parent's other subsidiaries that would, individually or in the aggregate, have a Material Adverse Effect;

(ee) None of the Company, the Parent, any of the Parent's other subsidiaries or, to the Company's knowledge, any director, officer, agent, employee or affiliate of the Company, the Parent, or any of the Parent's other subsidiaries is aware of or has (i) used any corporate funds for any unlawful contribution, gift, entertainment or other unlawful expense relating to political activity; (ii) made any direct or indirect unlawful payment to any foreign or domestic government official or employee from corporate funds; (iii) violated or is in violation of any provision of the U.S. Foreign Corrupt Practices Act of 1977, as amended; or (iv) made any bribe, unlawful rebate, payoff, influence payment, kickback or other unlawful payment;

(ff) The operations of the Company, the Parent and each of the Parent's other subsidiaries are and have been conducted in full compliance in all material respects with applicable financial recordkeeping and reporting requirements of the Currency and Foreign Transactions Reporting Act of 1970, as amended, the money laundering statutes of all applicable jurisdictions, the rules and regulations thereunder and any related or similar rules, regulations or guidelines issued, administered or enforced by any governmental agency (collectively, the "**Money Laundering Laws**") and no action, suit or proceeding by or before any court or governmental agency, authority or body or any arbitrator involving the Company, the Parent, or any of the Parent's other subsidiaries with respect to the Money Laundering Laws is pending or, to the Company's knowledge, threatened; and

(gg) None of the Company, the Parent, any of the Parent's other subsidiaries or, to the Company's knowledge, any director, officer, agent, employee or affiliate of the Company, the Parent, or any of the Parent's other subsidiaries is: (A) currently subject to any U.S. sanctions administered by the Office of Foreign Assets Control of the U.S. Treasury Department ("**OFAC**"); the United Nations Security Council ("**UNSC**"), the European Union ("**EU**"), or Her Majesty's Treasury ("**HMT**"), or other relevant sanctions authority (collectively, "**Sanctions**"), nor (B) located, organized or resident in a country or territory that is, or whose government is, the subject of Sanctions (including, without limitation, Cuba, the so-called Donetsk People's Republic, the so-called Luhansk People's Republic, the Crimea region of Ukraine, Iran, North Korea and Syria), and the Company will not directly or indirectly use the proceeds of the offering, or lend, contribute or otherwise make available such proceeds, to any subsidiary, joint venture partner or other person or entity: (A) to fund or facilitate any activities or business of or with any person or in any country or territory that, at the time of such funding or facilitation, is, or whose government is, the subject of Sanctions; or (B) in any other manner that will result in a violation of Sanctions.

Any certificate signed by any authorized officer of the Parent or the Company and delivered to the Representatives or counsel for the Underwriters in connection with the offering of the Securities shall be deemed a representation and warranty by the Parent or the Company, as the case may be, as to matters covered thereby, to each Underwriter.

4. Subject to the terms and conditions herein set forth, the Company agrees to issue and sell to each of the Underwriters, and each of the Underwriters agrees, severally and not jointly, to purchase from the Company, at a purchase price of 99.033% of the principal amount thereof, including accrued interest, if any, from May 5, 2022 to the Time of Delivery (as defined in Section 6(a)), the principal amount of the Securities set forth opposite the name of such Underwriter in Schedule I hereto.

5. Upon the authorization by the Company of the release of the Securities, the several Underwriters propose to offer the Securities for sale upon the terms and conditions set forth in the Prospectus.

6. (a) The series of Securities to be purchased by each Underwriter hereunder will be represented by one or more definitive global securities in book-entry form which will be deposited by or on behalf of the Company with The Depository Trust Company (“**DTC**”) or its designated custodian. The Company will deliver the Securities to the Representatives, for the account of the Underwriters, against payment by or on behalf of the Underwriters of the purchase price therefor by wire transfer of Federal (same day) funds, by causing DTC to credit the Securities to the account of the Representatives at DTC. The Company will cause the form of the certificates representing the Securities to be made available to the Representatives for checking at least twenty-four hours prior to the Time of Delivery hereunder at the office of Sullivan & Cromwell LLP, 125 Broad Street, New York, New York 10004 (the “**Closing Location**”). The time and date of such delivery and payment shall be 9:30 a.m., Eastern time, on May 5, 2022 or such other time and date as the Representatives and the Company may agree upon in writing. Such time and date is herein called the “**Time of Delivery**”.

(b) The documents to be delivered at the Time of Delivery by or on behalf of the parties hereto pursuant to Section 10 hereof, including the cross receipt for the Securities and any additional documents requested by the Underwriters pursuant to Section 10 hereof, will be delivered at the Closing Location, and the Securities will be delivered through the facilities of DTC, all at the Time of Delivery. A meeting will be held at the Closing Location at 2:00 p.m., Eastern time, on the New York Business Day next preceding the Time of Delivery, at which meeting the final drafts of the documents to be delivered pursuant to the preceding sentence will be available for review by the parties hereto. For the purposes of this Agreement, “**New York Business Day**” shall mean each Monday, Tuesday, Wednesday, Thursday and Friday which is not a day on which banking institutions in New York City are generally authorized or obligated by law or executive order to close.

7. Each of the Parent and the Company, jointly and severally, agrees with each of the Underwriters:

(a) To prepare the Prospectus in a form approved by the Representatives and to file such Prospectus pursuant to Rule 424(b) under the Act not later than the Commission’s close of business on the second business day following the execution and delivery of this Agreement and to make no further amendment or any supplement to the Registration Statement, the Basic Prospectus or the Prospectus prior to the Time of Delivery without the consent

of the Representatives promptly after reasonable notice thereof (which consent shall not be unreasonably withheld); to advise the Representatives, promptly after it receives notice thereof, of the time when any amendment to the Registration Statement has been filed or becomes effective or any amendment or supplement to the Prospectus has been filed and to furnish the Representatives with copies thereof; to prepare a final term sheet, containing solely a description of the Securities, in a form substantially consistent with Schedule III hereto and to file such term sheet pursuant to Rule 433(d) under the Act within the time required by such Rule; to file promptly all other material required to be filed by the Company with the Commission pursuant to Rule 433(d) under the Act; to file promptly all reports and any definitive proxy or information statements required to be filed by the Parent or the Company with the Commission pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act subsequent to the date of the Prospectus and for so long as the delivery of a prospectus (or in lieu thereof, the notice referred to in Rule 173(a) under the Act) is required in connection with the offering or sale of the Securities; to advise the Representatives, promptly after it receives notice thereof, of the issuance by the Commission of any stop order or of any order preventing or suspending the use of any Preliminary Prospectus or other prospectus in respect of the Securities, of any notice of objection of the Commission to the use of the Registration Statement or any post-effective amendment thereto pursuant to Rule 401(g)(2) under the Act, of the suspension of the qualification of the Securities for offering or sale in any jurisdiction, of the initiation or threatening of any proceeding for any such purpose, or of any request by the Commission for the amending or supplementing of the Registration Statement or the Prospectus or for additional information; and, in the event of the issuance of any stop order or of any order preventing or suspending the use of any Preliminary Prospectus or other prospectus or suspending any such qualification, to promptly use its best efforts to obtain the withdrawal of such order; and in the event of any such issuance of a notice of objection, promptly to take such steps including, without limitation, amending the Registration Statement or filing a new registration statement, at its own expense, as may be necessary to permit offers and sales of the Securities by the Underwriters (references herein to the Registration Statement shall include any such amendment or new registration statement);

(b) If by the third anniversary (the “**Renewal Deadline**”) of the initial effective date of the Registration Statement, any of the Securities remain unsold by the Underwriters, the Parent will file, if it has not already done so and is eligible to do so, a new automatic shelf registration statement relating to the Securities, in a form satisfactory to the Representatives. If at the Renewal Deadline the Parent is no longer eligible to file an automatic shelf registration statement, the Parent will, if it has not already done so, file a new shelf registration statement relating to the Securities, in a form satisfactory to the Representatives and will use its best efforts to cause such registration statement to be declared effective within 180 days after the Renewal Deadline. The Parent will take all other action necessary or appropriate to permit the public offering and sale of the Securities to continue as contemplated in the expired registration statement relating to the Securities. References herein to the Registration Statement shall include such new automatic shelf registration statement or such new shelf registration statement, as the case may be;

(c) Promptly from time to time to take such action as the Representatives may reasonably request to qualify the Securities for offering and sale under the securities laws of such U.S. jurisdictions as the Representatives may request and to comply with such laws so as to permit the continuance of sales and dealings therein in such jurisdictions for as long as may be necessary to complete the distribution of the Securities; *provided* that in connection therewith neither the Parent nor the Company shall be required to qualify as a foreign corporation or as a dealer in securities or to file a general consent to service of process or subject itself to taxation for doing business in any jurisdiction;

(d) To use reasonable efforts to furnish to the Underwriters as soon as practicable after the date of this Agreement but no later than 5:30 p.m., Eastern time, on the second New York Business Day immediately succeeding the date of this Agreement and from time to time, with printed and electronic copies of the Prospectus in such quantities as the Representatives may reasonably request, and, if the delivery of a prospectus (or in lieu thereof, the notice referred to in Rule 173(a) under the Act) is, based on advice of counsel, required at any time during the period from the time of issue of the Prospectus until the expiration of nine months after the time of issue of the Prospectus in connection with the offering or sale of the Securities and if at such time any event shall have occurred as a result of which the Prospectus as then amended or supplemented would include an untrue statement of a material fact or omit to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made when such Prospectus (or in lieu thereof, the notice referred to in Rule 173(a) under the Act) is delivered, not misleading, or, if for any other reason it shall be necessary during such same period to amend or supplement the Prospectus or to file under the Exchange Act any document incorporated by reference in the Prospectus in order to comply with the Act or the Exchange Act, to notify the Representatives and upon the request of the Representatives to file such document and to prepare and furnish without charge to each Underwriter and to any dealer in securities as many printed and electronic copies as the Representatives may from time to time reasonably request of an amended Prospectus or a supplement to the Prospectus which will correct such statement or omission or effect such compliance; and in case any Underwriter is required to deliver a prospectus (or in lieu thereof, the notice referred to in Rule 173(a) under the Act) in connection with sales of any of the Securities at any time nine months or more after the time of issue of the Prospectus, upon the request of the Representatives but at the expense of such Underwriter, to prepare and deliver to such Underwriter as many printed and electronic copies as the Representatives may request of an amended or supplemented Prospectus complying with Section 10(a)(3) of the Act;

(e) To make generally available to its securityholders as soon as practicable, but in any event not later than sixteen months after the effective date of the Registration Statement (as defined in Rule 158(c) under the Act), an earnings statement of the Parent and its subsidiaries (which need not be audited) complying with Section 11(a) of the Act and the rules and regulations of the Commission thereunder (including, at the option of the Parent, Rule 158);

(f) During the period beginning from the date hereof and continuing until the Time of Delivery, not to offer, sell, contract to sell, or otherwise dispose of, except as provided hereunder, any securities of the Parent or the Company that are substantially similar to the Securities without the Representatives' prior written consent;

(g) To take all reasonable action necessary to enable S&P Global Ratings, a division of S&P Global Inc., and Moody's Investors Service, Inc. to provide their respective credit ratings of the Securities;

(h) During a period of three years from the effective date of the Registration Statement, to furnish to the holders of the Securities as soon as practicable after the end of each fiscal year an annual report (including a balance sheet and statements of income, stockholders' equity and cash flows of the Parent and its consolidated subsidiaries certified by independent public accountants) and, as soon as practicable after the end of each of the first three quarters of each fiscal year (beginning with the fiscal quarter ending after the effective date of the Registration Statement), to make available to the holders of the Securities consolidated summary financial information of the Parent and its subsidiaries for such quarter in reasonable detail; *provided, however*, that the Parent and the Company may satisfy the requirements of this subsection by making any such reports, communications or information available on its website or by filing such information with the Commission via EDGAR or any successor filing system thereto;

(i) To use the net proceeds received by the Company from the sale of the Securities pursuant to this Agreement in the manner specified in the Pricing Prospectus under the caption "Use of Proceeds";

(j) To pay the required Commission filing fees relating to the Securities within the time required by Rule 456(b)(1) under the Act without regard to the proviso therein and otherwise in accordance with Rules 456(b) and 457(r) under the Act; and

(k) Upon request of any Underwriter, to furnish, or cause to be furnished, to such Underwriter an electronic version of the Parent's trademarks, servicemarks and corporate logo for use on the website, if any, operated by such Underwriter for the purpose of facilitating the on-line offering of the Securities (the "License"); *provided, however*, that the License shall be used solely for the purpose described above, is granted without any fee and may not be assigned or transferred.

8. (a) (i) Each of the Parent and the Company represents and agrees that, other than the final term sheet in a form substantially consistent with Schedule III hereto and filed pursuant to Section 7(a) hereof, without the prior written consent of the Representatives, it has not made and will not make any offer relating to the Securities that would constitute a "free writing prospectus" as defined in Rule 405 under the Act; (ii) each Underwriter represents and agrees that, without the prior written consent of the Company, other than one or more term sheets relating to the Securities substantially consistent with Schedule III hereto, containing no "issuer information" (as defined in Rule 433(h)(2) under the Act) that was not included in the Preliminary Prospectus or Pricing Prospectus, it has not made and will not make any offer relating to the Securities that would constitute a free writing prospectus; and (iii) any such free writing prospectus the use of which has been consented to by the Company and the Representatives is listed on Schedule II hereto;

(b) The Company has complied and will comply with the requirements of Rule 433 under the Act applicable to any Issuer Free Writing Prospectus, including timely filing with the Commission or retention where required and legending; and the Company represents that it has satisfied and agrees that it will satisfy the conditions under Rule 433 under the Act to avoid a requirement to file with the Commission any electronic road show; and

(c) The Company agrees that if at any time following issuance of an Issuer Free Writing Prospectus any event occurred or occurs as a result of which such Issuer Free Writing Prospectus would conflict with the information in the Registration Statement, the Pricing Prospectus or the Prospectus or, when taken together with the Pricing Prospectus, would include an untrue statement of a material fact or omit to state any material fact necessary in order to make the statements therein, in the light of the circumstances then prevailing, not misleading, the Company will give prompt notice thereof to the Representatives and, if requested by the Representatives, will prepare and furnish without charge to each Underwriter an Issuer Free Writing Prospectus or other document which will correct such conflict, statement or omission; *provided, however*, that this representation and warranty shall not apply to any statements or omissions in an Issuer Free Writing Prospectus made in reliance upon and in conformity with the Underwriter Information.

9. Each of the Parent and the Company covenants and agrees with the several Underwriters that the Parent and the Company will pay or cause to be paid the following: (i) the fees, disbursements and expenses of the Parent's and the Company's counsel and accountants in connection with the registration of the Securities under the Act and all other expenses in connection with the

preparation, printing, reproduction and filing of the Registration Statement, the Basic Prospectus, any Preliminary Prospectus, any Issuer Free Writing Prospectus and the Prospectus and amendments and supplements thereto and the mailing and delivering of copies thereof to the Underwriters and dealers; (ii) the cost of printing or producing any agreement among Underwriters, this Agreement, the Indenture, the Support Agreement, any Blue Sky survey, closing documents (including any compilations thereof) and any other documents in connection with the offering, purchase, sale and delivery of the Securities; (iii) all expenses in connection with the qualification of the Securities for offering and sale under state securities laws as provided in Section 7(c) hereof, including the fees and disbursements of counsel for the Underwriters in connection with such qualification and in connection with any Blue Sky survey; (iv) any fees charged by securities rating services for rating the Securities; (v) the cost of preparing the Securities; (vi) the fees and expenses of the Trustee and any agent of the Trustee and the fees and disbursements of counsel for the Trustee in connection with the Indenture, the Securities and the Support Agreement; and (vii) all other costs and expenses incident to the performance of its obligations hereunder which are not otherwise specifically provided for in this Section; *provided, however*, that reimbursements to the Underwriters, if any, shall be limited to expenses actually incurred; and *provided further* that in the case of clause (iii), the Parent and the Company shall not be requested to cover expenses of counsel for the Underwriters in excess of \$5,000 in the aggregate.

10. The obligations of the Underwriters hereunder shall be subject, in their discretion, to the condition that all representations and warranties and other statements of the Parent and the Company herein are, at and as of the Time of Delivery, true and correct, the condition that the Parent and the Company shall have performed all of their obligations hereunder theretofore to be performed, and the following additional conditions:

(a) The Prospectus shall have been filed with the Commission pursuant to Rule 424(b) under the Act within the applicable time period prescribed for such filing by the rules and regulations under the Act and in accordance with Section 7(a) hereof; the final term sheet contemplated by Section 7(a) hereof, and any other material required to be filed by the Company pursuant to Rule 433(d) under the Act, shall have been filed with the Commission within the applicable time period prescribed for such filings by Rule 433; no stop order suspending the effectiveness of the Registration Statement or any part thereof shall have been issued and no proceeding for that purpose shall have been initiated or threatened by the Commission and no notice of objection of the Commission to the use of the Registration Statement or any post-effective amendment thereto pursuant to Rule 401(g)(2) under the Act shall have been received; no stop order suspending or preventing the use of the Prospectus or any Issuer Free Writing Prospectus shall have been initiated or threatened by the Commission; and all requests for additional information on the part of the Commission shall have been complied with to the reasonable satisfaction of the Representatives;

(b) Sullivan & Cromwell LLP, counsel for the Underwriters, shall have furnished to the Representatives such written opinions, dated the Time of Delivery, in form and substance satisfactory to the Representatives, and such counsel shall have received such papers and information as they may reasonably request to enable them to pass upon such matters;

(c) Morgan, Lewis & Bockius LLP, counsel for the Company, shall have furnished to the Representatives their written opinion and 10b-5 statement, each dated the Time of Delivery, in the form attached as Annexes IIA and IIB hereto;

(d) Jeffrey M. Taylor, Secretary of the Company and Vice President, Chief SEC Counsel and Secretary of the Parent, shall have furnished to the Representatives his written opinion, dated the Time of Delivery, in the form attached as Annex III hereto;

(e) (i) On the date of this Agreement, (ii) on the effective date of any post-effective amendment to the Registration Statement filed subsequent to the date of this Agreement and (iii) at the Time of Delivery, PricewaterhouseCoopers LLP shall have furnished to the Representatives a letter or letters, dated the respective dates of delivery thereof, in form and substance satisfactory to the Representatives, to the effect set forth in Annex I hereto;

(f) (i) Since the date of the latest audited financial statements included or incorporated by reference in the Pricing Prospectus, none of the Parent, the Company or any of the Parent's other subsidiaries has sustained any loss or interference with its business from fire, explosion, flood or other calamity, whether or not covered by insurance, or from any labor dispute or court or governmental action, order or decree and (ii) since the date as of which information is given in the Pricing Prospectus there has not been (A) any material decrease in the number of shares of outstanding capital stock of the Parent or increase in consolidated long-term debt of the Parent and its consolidated subsidiaries, or (B) any change, or any development involving a prospective change, in or affecting the general affairs, management, financial position, stockholders' equity or results of operations of the Parent, the Company and the Parent's other subsidiaries, otherwise, in any such case described in clause (i) or (ii), than as set forth or contemplated in the Pricing Prospectus, the effect of which, in any such case described in clause (i) or (ii), is in the judgment of the Representatives so material and adverse as to make it impracticable or inadvisable to proceed with the public offering or the delivery of the Securities on the terms and in the manner contemplated in the Prospectus;

(g) On or after the Applicable Time, (i) no downgrading shall have occurred in the rating accorded the Parent's or the Company's debt securities by S&P Global Ratings, a division of S&P Global Inc., or Moody's Investors Service, Inc., each a "nationally recognized statistical rating organization", as that term is defined by Section 3(a)(62) of the Exchange Act, and (ii) neither such organization shall have publicly announced (other than any announcement made prior to the Applicable Time) that it has under surveillance or review, with possible negative implications, its rating of any of the Parent's or the Company's debt securities;

(h) On or after the Applicable Time, there shall not have occurred any of the following: (i) a suspension or material limitation in trading in securities generally on the New York Stock Exchange; (ii) a suspension or material limitation in trading in the Parent's or the Company's securities on the New York Stock Exchange; (iii) a general moratorium on commercial banking activities declared by Federal or New York State authorities or a material disruption in commercial banking or securities settlement or clearance services in the United States; (iv) the outbreak or escalation of hostilities involving the United States or the declaration by the United States of a national emergency or war; or (v) the occurrence of any other calamity or crisis or any change in financial, political or economic conditions in the United States or elsewhere, if the effect of any such event specified in clause (iv) or (v) in the judgment of the Representatives makes it impracticable or inadvisable to proceed with the public offering or the delivery of the Securities on the terms and in the manner contemplated in the Prospectus; and

(i) Each of the Parent and the Company shall have furnished or caused to be furnished to the Representatives at the Time of Delivery certificates of officers of the Parent and the Company reasonably satisfactory to the Representatives as to the accuracy of the representations and warranties of the Parent and the Company, respectively, herein at and as of the Time of Delivery, as to the performance by the Parent and the Company of all their respective obligations hereunder to be performed at or prior to the Time of Delivery, as to the matters set forth in subsections (a), (f) and (g) of this Section 10 and as to such other matters as the Representatives may reasonably request.

11. (a) The Parent and the Company will, jointly and severally, indemnify and hold harmless each Underwriter against any losses, claims, damages or liabilities, joint or several, to which such Underwriter may become subject, under the Act or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon an untrue statement or alleged untrue statement of a material fact contained in the Registration Statement, the Basic Prospectus, any Preliminary Prospectus, the Pricing Prospectus, the Pricing Disclosure Package or the Prospectus, or any amendment or supplement thereto, any Issuer Free Writing Prospectus or any "issuer information" filed or required to be filed pursuant to Rule 433(d) under the Act, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, and will reimburse each Underwriter for any legal or other expenses reasonably incurred by such Underwriter in connection

with investigating or defending any such action or claim as such expenses are incurred; *provided, however*, that the Parent and the Company shall not be liable in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement or omission or alleged omission made in the Registration Statement, the Basic Prospectus, any Preliminary Prospectus, the Pricing Prospectus, the Pricing Disclosure Package or the Prospectus, or any amendment or supplement thereto, or any Issuer Free Writing Prospectus, in reliance upon and in conformity with the Underwriter Information.

(b) Each Underwriter will, severally and not jointly, indemnify and hold harmless the Parent and the Company against any losses, claims, damages or liabilities, joint or several, to which the Parent or the Company may become subject, under the Act or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon an untrue statement or alleged untrue statement of a material fact contained in the Registration Statement, the Basic Prospectus, any Preliminary Prospectus, the Pricing Prospectus, the Pricing Disclosure Package or the Prospectus, or any amendment or supplement thereto, or any Issuer Free Writing Prospectus, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, in each case to the extent, but only to the extent, that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement or omission or alleged omission made in the Registration Statement, the Basic Prospectus, any Preliminary Prospectus, the Pricing Prospectus, the Pricing Disclosure Package or the Prospectus, or any amendment or supplement thereto, or any Issuer Free Writing Prospectus, in reliance upon and in conformity with the Underwriter Information; and will reimburse the Parent and the Company for any legal or other expenses reasonably incurred by the Parent or the Company in connection with investigating or defending any such action or claim as such expenses are incurred.

(c) Promptly after receipt by an indemnified party under subsection (a) or (b) above of notice of the commencement of any action, such indemnified party shall, if a claim in respect thereof is to be made against the indemnifying party under such subsection, notify the indemnifying party in writing of the commencement thereof; but the omission so to notify the indemnifying party shall not relieve it from any liability which it may have to any indemnified party otherwise than under such subsection. In case any such action shall be brought against any indemnified party and it shall notify the indemnifying party of the commencement thereof, the indemnifying party shall be entitled to participate therein and, to the extent that it shall wish, jointly with any other indemnifying party similarly notified, to assume the defense thereof, with counsel reasonably satisfactory to such indemnified party (who shall not, except with the consent of the indemnified party, be counsel to the indemnifying party), and, after notice from the indemnifying party to such indemnified party of

its election so to assume the defense thereof, the indemnifying party shall not be liable to such indemnified party under such subsection for any legal expenses of other counsel or any other expenses, in each case subsequently incurred by such indemnified party, in connection with the defense thereof other than reasonable costs of investigation. Notwithstanding the indemnifying party's election to appoint counsel to represent the indemnified party in an action, the indemnified party shall have the right to employ one separate counsel, and the indemnifying party shall bear the reasonable fees, costs and expenses of such separate firm (in addition to one local counsel in each jurisdiction) if (i) the use of counsel chosen by the indemnifying party to represent the indemnified party would present such counsel with a conflict of interest, (ii) in an action where both the indemnifying and the indemnified party are actual or potential defendants, the indemnified party shall have reasonably concluded that there are actual or potential conflicting interests between the indemnifying party and the indemnified party, including situations in which there may be one or more legal defenses available to it and/or other indemnified parties which are different from or additional to those available to the indemnifying party, (iii) the indemnifying party shall not have employed counsel reasonably satisfactory to the indemnified party to represent the indemnified party within a reasonable time after notice of the institution of such action or (iv) the indemnifying party shall authorize the indemnified party to employ separate counsel at the expense of the indemnifying party. No indemnifying party shall, without the written consent of the indemnified party, effect the settlement or compromise of, or consent to the entry of any judgment with respect to, any pending or threatened action or claim in respect of which indemnification or contribution may be sought hereunder (whether or not the indemnified party is an actual or potential party to such action or claim) unless such settlement, compromise or judgment (i) includes an unconditional release of the indemnified party from all liability arising out of such action or claim and (ii) does not include a statement as to or an admission of fault, culpability or a failure to act, by or on behalf of any indemnified party. No indemnified party shall, without the written consent of the indemnifying party (such consent not to be unreasonably withheld), effect the settlement or compromise of, or consent to the entry of any judgment with respect to, any pending or threatened action or claim in respect of which indemnification or contribution may be sought hereunder.

(d) If the indemnification provided for in this Section 11 is unavailable to or insufficient to hold harmless an indemnified party under subsection (a) or (b) above in respect of any losses, claims, damages or liabilities (or actions in respect thereof) referred to therein, then each indemnifying party shall contribute to the amount paid or payable by such indemnified party as a result of such losses, claims, damages or liabilities (or actions in respect thereof) in such proportion as is appropriate to reflect the relative benefits received by the Parent and the Company, on the one hand, and the Underwriters, on the other, from the offering of the Securities. If, however, the allocation provided by the immediately preceding sentence is not permitted by applicable law or if the

indemnified party failed to give the notice required under subsection (c) above, then each indemnifying party shall contribute to such amount paid or payable by such indemnified party in such proportion as is appropriate to reflect not only such relative benefits but also the relative fault of the Parent and the Company, on the one hand, and the Underwriters, on the other, in connection with the statements or omissions which resulted in such losses, claims, damages or liabilities (or actions in respect thereof), as well as any other relevant equitable considerations. The relative benefits received by the Parent and the Company, on the one hand, and the Underwriters, on the other, shall be deemed to be in the same proportion as the total net proceeds from the offering (before deducting expenses) received by the Parent and the Company bear to the total underwriting discounts and commissions received by the Underwriters, in each case as set forth on the cover page of the Prospectus. The relative fault shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission or alleged omission to state a material fact relates to information supplied by the Parent or the Company on the one hand or the Underwriter Information on the other and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission. The Parent, the Company, and the Underwriters agree that it would not be just and equitable if contributions pursuant to this subsection (d) were determined by pro rata allocation (even if the Underwriters were treated as one entity for such purpose) or by any other method of allocation which does not take account of the equitable considerations referred to above in this subsection (d). The amount paid or payable by an indemnified party as a result of the losses, claims, damages or liabilities (or actions in respect thereof) referred to above in this subsection (d) shall be deemed to include any legal or other expenses reasonably incurred by such indemnified party in connection with investigating or defending any such action or claim. Notwithstanding the provisions of this subsection (d), no Underwriter shall be required to contribute any amount in excess of the amount by which the total price at which the Securities underwritten by it and distributed to the public were offered to the public exceeds the amount of any damages which such Underwriter has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation. The Underwriters' obligations in this subsection (d) to contribute are several in proportion to their respective underwriting obligations and not joint.

(e) The obligations of the Parent and the Company under this Section 11 shall be in addition to any liability which the Parent and the Company may otherwise have and shall extend, upon the same terms and conditions, to the directors, officers, employees and agents of each Underwriter and to each person, if any, who controls any Underwriter within the meaning of the Act and each broker-dealer affiliate of any Underwriter; and the obligations of the Underwriters under this Section 11 shall be in addition to any liability which the respective Underwriters may otherwise have and shall extend, upon the same terms and conditions, to each officer, director and employee of the Parent or the Company and to each person, if any, who controls the Parent or the Company within the meaning of the Act.

12. (a) If any Underwriter shall default in its obligation to purchase the Securities which it has agreed to purchase hereunder, the Representatives may in their discretion arrange for any of the Representatives or another party or other parties to purchase such Securities on the terms contained herein. If within thirty-six hours after such default by any Underwriter the Representatives do not arrange for the purchase of such Securities, then the Company shall be entitled to a further period of thirty-six hours within which to procure another party or other parties satisfactory to the Representatives to purchase such Securities on such terms. In the event that, within the respective prescribed periods, the Representatives notify the Company that they have so arranged for the purchase of such Securities, or the Company notifies the Representatives that it has so arranged for the purchase of such Securities, the Representatives or the Company shall have the right to postpone the Time of Delivery for a period of not more than seven days, in order to effect whatever changes may thereby be made necessary in the Registration Statement or the Prospectus, or in any other documents or arrangements, and the Company agrees to prepare promptly any amendments to the Registration Statement or the Prospectus which in the opinion of the Representatives may thereby be made necessary. The term "Underwriter" as used in this Agreement shall include any person substituted under this Section 12 with like effect as if such person had originally been a party to this Agreement with respect to such Securities.

(b) If, after giving effect to any arrangements for the purchase of the Securities of a defaulting Underwriter or Underwriters by the Representatives and the Company as provided in subsection (a) above, the aggregate principal amount of such Securities which remains unpurchased does not exceed one-eleventh of the aggregate principal amount of all the Securities, then the Company shall have the right to require each non-defaulting Underwriter to purchase the principal amount of Securities which such Underwriter agreed to purchase hereunder at such Time of Delivery and, in addition, to require each non-defaulting Underwriter to purchase its pro rata share (based on the principal amount of Securities which such Underwriter agreed to purchase hereunder) of the Securities of such defaulting Underwriter or Underwriters for which such arrangements have not been made; but nothing herein shall relieve a defaulting Underwriter from liability for its default.

(c) If, after giving effect to any arrangements for the purchase of the Securities of a defaulting Underwriter or Underwriters by the Representatives and the Company as provided in subsection (a) above, the aggregate principal amount of Securities which remains unpurchased exceeds one-eleventh of the aggregate principal amount of all the Securities, or if the Company shall not exercise the right described in subsection (b) above to require non-defaulting

Underwriters to purchase Securities of a defaulting Underwriter or Underwriters, then this Agreement shall thereupon terminate without liability on the part of any non-defaulting Underwriter or the Company, except for the expenses to be borne by the Company and the Underwriters as provided in Section 9 hereof and the indemnity and contribution agreements in Section 11 hereof; but nothing herein shall relieve a defaulting Underwriter from liability for its default.

13. The respective indemnities, agreements, representations, warranties and other statements of the Parent, the Company and the several Underwriters, as set forth in this Agreement or made by or on behalf of them, respectively, pursuant to this Agreement, shall remain in full force and effect, regardless of any investigation (or any statement as to the results thereof) made by or on behalf of any Underwriter or any controlling person of any Underwriter, the Parent or the Company, or any officer or director or controlling person of the Parent or the Company, and shall survive delivery of and payment for the Securities.

14. If for any reason, other than a default by the Underwriters in their obligation to purchase the Securities, any Securities are not delivered by or on behalf of the Company as provided herein, the Company will reimburse the Underwriters through the Representatives for all reasonable expenses approved in writing by the Representatives, including reasonable fees and disbursements of counsel, incurred by the Underwriters in making preparations for the purchase, sale and delivery of the Securities not so delivered, but the Parent and the Company shall then be under no further liability to the Underwriters except as provided in Sections 9 and 11 hereof.

15. In all dealings hereunder, the Representatives shall act on behalf of each of the Underwriters, and the parties hereto shall be entitled to act and rely upon any statement, request, notice or agreement on behalf of any Underwriter made or given by the Representatives jointly.

16. All statements, requests, notices and agreements hereunder shall be in writing, and if to the Underwriters shall be delivered or sent by mail or facsimile transmission to the Representatives in care of: BofA Securities, Inc., 1540 Broadway NY8-540-26-02, New York, NY 10036, Attention: High Grade Transaction Management/Legal, Facsimile: (212) 901-7881, Email: dg.hg_ua_notices@bofa.com; Mizuho Securities USA LLC, 1271 Avenue of the Americas, New York, NY 10020, Attention: Debt Capital Markets Desk; MUFG Securities Americas Inc., 1221 Avenue of the Americas, 6th Floor, New York, NY 10020, Attention: Capital Markets Group, Facsimile: (646) 434-3455; or RBC Capital Markets, LLC, Brookfield Place, 200 Vesey Street 8th Floor, New York, NY 10281, Attention: DCM Transaction Management, Facsimile: (212) 428-6308; and if to the Parent or the Company shall be delivered or sent by mail to the address of the Parent set forth in the Registration Statement or facsimile transmission to (856) 519-9730, Attention: James. H. Gallegos, Executive Vice President and General Counsel. Any such statements, requests, notices or agreements shall take effect upon receipt thereof.

17. In accordance with the requirements of the USA Patriot Act (Title III of Pub. L. 107-56 (signed into law October 26, 2001)), the Underwriters are required to obtain, verify and record information that identifies their respective clients, including the Parent and the Company, which information may include the name and address of their respective clients, as well as other information that will allow the Underwriters to properly identify their respective clients.

18. This Agreement shall be binding upon, and inure solely to the benefit of, the Underwriters, the Parent and the Company and, to the extent provided in Sections 11 and 13 hereof, the officers and directors of the Parent and the Company and each person who controls the Parent and the Company or any Underwriter, and their respective heirs, executors, administrators, successors and assigns, and no other person shall acquire or have any right under or by virtue of this Agreement. No purchaser of any of the Securities from any Underwriter shall be deemed a successor or assign by reason merely of such purchase.

19. Time shall be of the essence of this Agreement. As used herein, the term “**business day**” shall mean any day when the Commission’s office in Washington, D.C. is open for business.

20. The Parent and the Company acknowledge and agree that (i) the purchase and sale of the Securities pursuant to this Agreement is an arm’s-length commercial transaction between the Parent and the Company, on the one hand, and the several Underwriters, on the other, (ii) in connection therewith and with the process leading to such transaction each Underwriter is acting solely as a principal and not as an agent or fiduciary of the Parent or the Company, (iii) no Underwriter has assumed an advisory or fiduciary responsibility in favor of the Parent or the Company with respect to the offering contemplated hereby or the process leading thereto (irrespective of whether such Underwriter has advised or is currently advising the Parent or the Company) or any other obligation to the Parent or the Company except the obligations expressly set forth in this Agreement and (iv) the Parent and the Company have consulted their own legal and financial advisors to the extent they deemed appropriate. The Parent and the Company agree that they will not claim that the Underwriters, or any of them, has rendered advisory services of any nature or respect, or owes a fiduciary or similar duty to the Parent or the Company, in connection with such transaction or the process leading thereto.

21. This Agreement supersedes all prior agreements and understandings (whether written or oral) between the Parent, the Company and the Underwriters, or any of them, with respect to the subject matter hereof.

22. This Agreement shall be governed by and construed in accordance with the laws of the State of New York.

23. The Parent, the Company and each of the Underwriters hereby irrevocably waive, to the fullest extent permitted by applicable law, any and all right to trial by jury in any legal proceeding arising out of or relating to this Agreement or the transactions contemplated hereby.

24. This Agreement may be executed by any one or more of the parties hereto in any number of counterparts, each of which shall be deemed to be an original, but all such counterparts shall together constitute one and the same instrument. Counterparts may be delivered via facsimile, electronic mail (including any electronic signature covered by the U.S. federal ESIGN Act of 2000, Uniform Electronic Transactions Act, the Electronic Signatures and Records Act or other applicable law, or other transmission method), and any counterpart so delivered shall be deemed to have been duly and validly delivered and be valid and effective for all purposes.

25. Notwithstanding anything herein to the contrary, each of the Parent and the Company are authorized to disclose to any persons the tax treatment and tax structure of the potential transaction and all materials of any kind (including tax opinions and other tax analyses) provided to the Parent and the Company relating to that treatment and structure, without the Underwriters imposing any limitation of any kind. However, any information relating to the tax treatment and tax structure shall remain confidential (and the foregoing sentence shall not apply) to the extent necessary to enable any person to comply with securities laws. For this purpose, “tax treatment” means U.S. Federal and State income tax treatment, and “tax structure” is limited to any facts that may be relevant to that treatment.

26. (a) In the event that any Underwriter that is a Covered Entity becomes subject to a proceeding under a U.S. Special Resolution Regime, the transfer from such Underwriter of this Agreement, and any interest and obligation in or under this Agreement, will be effective to the same extent as the transfer would be effective under the U.S. Special Resolution Regime if this Agreement, and any such interest and obligation, were governed by the laws of the United States or a state of the United States.

(b) In the event that any Underwriter that is a Covered Entity or a BHC Act Affiliate of such Underwriter becomes subject to a proceeding under a U.S. Special Resolution Regime, Default Rights under this Agreement that may be exercised against such Underwriter are permitted to be exercised to no greater extent than such Default Rights could be exercised under the U.S. Special Resolution Regime if this Agreement were governed by the laws of the United States or a State of the United States.

(c) For purposes of this Section 26, the following terms shall have the meanings indicated:

(i) “**BHC Act Affiliate**” has the meaning assigned to the term “affiliate” in, and shall be interpreted in accordance with, 12 U.S.C. § 1841(k).

(ii) “**Covered Entity**” means any of the following: (A) a “covered entity” as that term is defined in, and interpreted in accordance with, 12 C.F.R. § 252.82(b); (B) a “covered bank” as that term is defined in, and interpreted in accordance with, 12 C.F.R. § 47.3(b); or (C) a “covered FSI” as that term is defined in, and interpreted in accordance with, 12 C.F.R. § 382.2(b).

(iii) “**Default Right**” has the meaning assigned to that term in, and shall be interpreted in accordance with, 12 C.F.R. §§ 252.81, 47.2 or 382.1, as applicable.

(iv) “**U.S. Special Resolution Regime**” means each of (A) the Federal Deposit Insurance Act and the regulations promulgated thereunder and (B) Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act and the regulations promulgated thereunder.

If the foregoing is in accordance with your understanding, please sign and return to us a counterpart hereof, and upon the acceptance hereof by you, on behalf of each of the Underwriters, this letter and such acceptance hereof shall constitute a binding agreement between each of the Underwriters, the Parent and the Company.

Very truly yours,

(1) Neither of these ratings is a recommendation to buy, sell or hold these securities. Each rating may be subject to revision or withdrawal at any time, and should be evaluated independently of any other rating.

- * The underwriters expect to deliver the notes in book-entry form only through the facilities of The Depository Trust Company against payment in New York, New York on or about the third business day following the date of the prospectus supplement, or "T+3". Trades of securities in the secondary market generally are required to settle in two business days, referred to as T+2, unless the parties to a trade agree otherwise. Accordingly, by virtue of the fact that the initial delivery of the notes will not be made on a T+2 basis, investors who wish to trade the notes prior to the second business day before delivery of the notes will be required to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement. Investors of the notes who wish to trade the notes on any date prior to the second business day before delivery should consult their own advisors.

AMERICAN WATER CAPITAL CORP.

OFFICERS' CERTIFICATE

MAY 5, 2022

4.450% SENIOR NOTES DUE 2032

PURSUANT TO SECTIONS 102 AND 301 OF THE INDENTURE IDENTIFIED BELOW

The undersigned officers of American Water Capital Corp., a Delaware corporation (the "Company"), acting pursuant to an authorization contained in the unanimous written consent, dated April 29, 2022, of the Board of Directors of the Company (the "Board Resolutions"), and Sections 102 and 301 of the Indenture, dated as of December 4, 2009 (the "Indenture", and unless otherwise defined herein, capitalized terms shall have the meanings ascribed to them therein), between the Company and Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association, as trustee (the "Trustee"), do hereby certify as follows:

- 1) There is hereby established under the Indenture the following series of debt securities of the Company, and the terms of such series (the "Series") are as follows:
 - a) The Series shall be known and designated as the "4.450% Senior Notes due 2032" of the Company (the "Securities");
 - b) The terms of the Securities are as set forth in Annex A hereto;
 - c) The Securities shall be redeemable at the option of the Company as specified and subject to the limitations set forth in Annex A hereto;
 - d) The Securities shall not be entitled to the benefits of any sinking fund or analogous provisions;
 - e) The covenants and definitions set forth in Article 8 and Article 10 of the Indenture apply to the Securities;
 - f) The Securities shall be subject to defeasance as specified and subject to the limitations set forth in Annex A hereto;
 - g) The Securities will be issued in the form of one or more fully registered Global Securities which are exchangeable from time to time for fully registered certificated securities in accordance with the terms of the Indenture; and
 - h) The Company will not pay additional amounts on the Securities held by a non-U.S. person in respect of taxes or similar charges withheld or deducted;

- 2) The undersigned have read the provisions of the Indenture relating to the authentication and delivery of securities thereunder, including Sections 201, 301 and 303 thereof and the definitions relating thereto;
- 3) The undersigned have read the Board Resolutions authorizing the issuance of the Securities and the taking of any action by such officers of the Company in connection therewith, and have made such investigation or examination as is necessary, in the opinion of the undersigned, to enable the undersigned to express an informed opinion as to whether the covenants and conditions precedent to the action to be taken by the Trustee in authenticating and delivering Securities under the Indenture have been complied with;
- 4) In the opinion of the undersigned, such covenants and conditions precedent have been complied with; and
- 5) The Securities are "Debt" under the Support Agreement, dated June 22, 2000 and amended as of July 26, 2000, between American Water Works Company, Inc. and the Company.

IN WITNESS WHEREOF, we have hereunto signed our names as of the date first written above.

§

No R.

American Water Capital Corp., a corporation duly organized and existing under the laws of Delaware (herein called the “Company”, which term includes any successor Person under the Indenture hereinafter referred to), for value received, hereby promises to pay to Cede & Co., or registered assigns, the principal sum of Dollars on June 1, 2032, and to pay interest thereon from May 5, 2022 or from the most recent Interest Payment Date to which interest has been paid or as duly provided for semi-annually on June 1 and December 1, in arrears, commencing December 1, 2022, and on any earlier Redemption Date (as defined herein), at the rate of 4.450% per annum, until the principal hereof is paid or made available for payment. Interest on this Security shall be computed assuming a 360-day year consisting of twelve 30-day months.

The interest so payable, and punctually paid or duly provided for, on any Interest Payment Date shall, as provided in the Indenture, be paid to the Person in whose name this Security (or one or more Predecessor Securities) is registered at the close of business on the Regular Record Date for such interest, which shall be the close of business on the fifteenth day (whether or not a Business Day) next preceding such Interest Payment Date. Any such interest not so punctually paid or duly provided for will forthwith cease to be payable to the Holder on such Regular Record Date and may either be paid to the Person in whose name this Security (or one or more Predecessor Securities) is registered at the close of business on a Special Record Date for the payment of such Defaulted Interest to be fixed by the Trustee, notice whereof shall be given to Holders of Securities of this series not less than 10 days prior to such Special Record Date, or be paid at any time in any other lawful manner not inconsistent with the requirements of any securities exchange on which the Securities of this series may be listed, and upon such notice as may be required by such exchange, all as more fully provided in said Indenture.

Payment of the principal of (and premium, if any) and any such interest on this Security will be made in such coin or paper currency of the United States of America as at the time of payment is legal tender for payment of public and private debts (i) with respect to any Global Security, by wire transfer of immediately available funds to the accounts specified by the Holder of such Global Security or (ii) with respect to any certificated Security, by wire transfer of immediately available funds to the respective accounts specified by the Holders of such certificated Security or, if no such account is specified, by check mailed to the address of the Person entitled thereto as such address shall appear in the Security Register.

Reference is hereby made to the further provisions of this Security set forth on the reverse hereof, which further provisions shall for all purposes have the same effect as if set forth at this place.

Unless the certificate of authentication hereon has been executed by the Trustee referred to on the reverse hereof by manual signature, this Security shall not be entitled to any benefit under the Indenture or be valid or obligatory for any purpose.

IN WITNESS WHEREOF, the Company has caused this instrument to be duly executed.

AMERICAN WATER CAPITAL CORP.

By _____

TRUSTEE'S CERTIFICATION OF AUTHENTICATION

This is one of the Securities of the series designated herein and referred to in the within-mentioned Indenture.

COMPUTERSHARE TRUST COMPANY, N.A.,

As Trustee

By _____

Authorized Signatory

Dated:

This Security is one of a duly authorized issue of securities of the Company (herein called the "Securities"), issued under one or more series under an Indenture, dated as of December 4, 2009 (herein called the "Indenture", which term shall have the meaning assigned to it in such instrument), between the Company and Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association, as Trustee (herein called the "Trustee", which term includes any successor trustee under the Indenture), and reference is hereby made to the Indenture for a statement of the respective rights, limitations of rights, duties and immunities thereunder of the Company, the Trustee and the Holders of the Securities and of the terms upon which the Securities are, and are to be, authenticated and delivered. This Security is one of the series designated on the face hereof.

The Company may from time to time, without the consent of the Holders, create and issue Additional Securities, so that each such further issue shall be consolidated and form a single series with the Outstanding Securities of this series.

All or a portion of the Securities of this series may be redeemed at the option of the Company at any time or from time to time (each, a "Redemption Date"). Prior to March 1, 2032 (the "Par Call Date"), the Company may redeem the Securities of this series at its option, in whole or in part, at any time and from time to time, at a redemption price (expressed as a percentage of principal amount and rounded to three decimal places) equal to the greater of:

- (a) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the Redemption Date (assuming the Securities of this series matured on the Par Call Date) on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus 25 basis points less (b) interest accrued to the Redemption Date; and
- 100% of the principal amount of the Securities of this series to be redeemed;

plus, in each case, accrued and unpaid interest thereon to that Redemption Date.

On or after the Par Call Date, the Company may redeem the Securities of this series at its option, in whole or in part, at any time and from time to time, at a redemption price equal to 100% of the principal amount of the Securities of this series being redeemed plus accrued and unpaid interest thereon to the Redemption Date.

"Treasury Rate" means, with respect to any Redemption Date for the Securities of this series, the yield determined by the Company in accordance with the following two paragraphs.

The Treasury Rate shall be determined by the Company after 4:15 p.m., New York City time (or after such time as yields on U.S. government securities are posted daily by the Board of Governors of the Federal Reserve System), on the third business day preceding the Redemption Date based upon the yield or yields for the most recent day that appear after such time on such day in the most recent statistical release published by the Board of Governors of the Federal Reserve System designated as "Selected Interest Rates (Daily)—H.15" (or any successor designation or publication) ("H.15") under the caption "U.S. government securities—Treasury constant maturities—Nominal" (or any successor caption or heading) ("H.15 TCM"). In determining the Treasury Rate, the Company shall select, as applicable:

- (1) the yield for the Treasury constant maturity on H.15 exactly equal to the period from the Redemption Date to the Par Call Date (the "Remaining Life"); or

- (2) if there is no such Treasury constant maturity on H.15 exactly equal to the Remaining Life, the two yields—on a yield corresponding to the Treasury constant maturity on H.15 immediately shorter than and one yield corresponding to the Treasury constant maturity on H.15 immediately longer than the Remaining Life—and shall interpolate to the Par Call Date on a straight-line basis (using the actual number of days) using such yields and rounding the result to three decimal places; or
- (3) if there is no such Treasury constant maturity on H.15 shorter than or longer than the Remaining Life, the yield for the single Treasury constant maturity on H.15 closest to the Remaining Life.

For purposes of this paragraph, the applicable Treasury constant maturity or maturities on H.15 shall be deemed to have a maturity date equal to the relevant number of months or years, as applicable, of such Treasury constant maturity from the Redemption Date.

If on the third business day preceding the Redemption Date H.15 TCM is no longer published, the Company shall calculate the Treasury Rate based on the rate per annum equal to the semi-annual equivalent yield to maturity at 11:00 a.m., New York City time, on the second business day preceding such Redemption Date of the United States Treasury security maturing on, or with a maturity that is closest to, the Par Call Date, as applicable. If there is no United States Treasury security maturing on the Par Call Date but there are two or more United States Treasury securities with a maturity date equally distant from the Par Call Date, one with a maturity date preceding the Par Call Date and one with a maturity date following the Par Call Date, the Company shall select the United States Treasury security with a maturity date preceding the Par Call Date. If there are two or more United States Treasury securities maturing on the Par Call Date, or two or more United States Treasury securities meeting the criteria of the preceding sentence, the Company shall select from among these two or more United States Treasury securities the United States Treasury security that is trading closest to par based upon the average of the bid and asked prices for such United States Treasury securities at 11:00 a.m., New York City time. In determining the Treasury Rate in accordance with the terms of this paragraph, the semi-annual yield to maturity of the applicable United States Treasury security shall be based upon the average of the bid and asked prices (expressed as a percentage of principal amount) at 11:00 a.m., New York City time, of such United States Treasury security, and rounded to three decimal places.

The Company's actions and determinations in determining the redemption price shall be conclusive and binding for all purposes, absent manifest error.

Notices of redemption will be given in accordance with the Indenture at least 30 but not more than 60 days before a Redemption Date, except that redemption notices may be sent more than 60 days prior to a Redemption Date if the notice is issued in connection with a satisfaction and discharge of the Indenture.

In the event of redemption of this Security in part only, a new Security or Securities of this series and of like tenor for the unredeemed portion hereof will be issued in the name of the Holder hereof upon the cancellation hereof.

The Indenture contains provisions for defeasance at any time of the entire indebtedness of this Security or certain restrictive covenants and Events of Default with respect to this Security, in each case upon compliance with certain conditions set forth in the Indenture.

If an Event of Default with respect to Securities of this series shall occur and be continuing, the principal of the Securities of this series may be declared due and payable in the manner and with the effect provided in the Indenture.

The Indenture permits, with certain exceptions as therein provided, the amendment thereof and the modification of the rights and obligations of the Company and the rights of the Holders of the Securities of each series to be affected under the Indenture at any time by the Company and the Trustee with the consent of the Holders of a majority in principal amount of the Securities at the time Outstanding of each series to be affected. The Indenture also contains provisions permitting the Holders of specified percentages in principal amount of the Securities of each series at the time Outstanding, on behalf of the Holders of all Securities of such series, to waive compliance by the Company with certain provisions of the Indenture and certain past defaults under the Indenture and their consequences. Any such consent or waiver by the Holder of this Security shall be conclusive and binding upon such Holder and upon all future Holders of this Security and of any Security issued upon the registration of transfer hereof or in exchange herefor or in lieu hereof, whether or not notation of such consent or waiver is made upon this Security.

As provided in and subject to the provisions of the Indenture, the Holder of this Security shall not have the right to institute any proceeding with respect to the Indenture or for the appointment of a receiver or trustee or for any other remedy thereunder, unless such Holder shall have previously given the Trustee written notice of a continuing Event of Default with respect to the Securities of this series, the Holders of not less than 25% in principal amount of the Securities of this series at the time Outstanding shall have made written request to the Trustee to institute proceedings in respect of such Event of Default as Trustee and offered the Trustee reasonable indemnity, and the Trustee shall not have received from the Holders of a majority in principal amount of Securities of this series at the time Outstanding a direction inconsistent with such request, and shall have failed to institute any such proceeding, for 60 days after receipt of such notice, request and offer of indemnity. The foregoing shall not apply to any suit instituted by the Holder of this Security for the enforcement of any payment of principal hereof or any premium or interest hereon on or after the respective due dates expressed herein.

No reference herein to the Indenture and no provision of this Security or of the Indenture shall alter or impair the obligation of the Company, which is absolute and unconditional, to pay the principal of and any premium and interest on this Security at the times, place and rate, and in the coin or currency, herein prescribed.

As provided in the Indenture and subject to certain limitations therein set forth, the transfer of this Security is registrable in the Security Register, upon surrender of this Security for registration of transfer at the office or agency of the Company in any place where the principal of and any premium and interest on this Security are payable, duly endorsed by, or accompanied by a written instrument of transfer in form satisfactory to the Company and the Security Registrar duly executed by, the Holder hereof or his attorney duly authorized in writing, and thereupon one or more new Securities of this series and of like tenor, of authorized denominations and for the same aggregate principal amount, will be issued to the designated transferee or transferees.

In connection with any proposed transfer of this Security if this Security ceases to be a Global Security, the Company or DTC shall be required to provide or cause to be provided to the Trustee all information that is (i) available to the Company or the DTC, as applicable, (ii) necessary to allow the Trustee to comply with any applicable tax reporting obligations, including without limitation any cost basis reporting obligations under Section 6045 of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), and (iii) specifically and timely requested in writing by the Trustee. Any transferor shall also provide or cause to be provided to the Trustee all information that is (i) available to such transferor, (ii) necessary to allow the Trustee to comply with any applicable tax reporting obligations, including without limitation any cost basis reporting obligations under Code Section 6045, and (iii) specifically and timely requested by the Trustee. The Trustee may rely on information provided to it and shall have no responsibility to verify or ensure the accuracy of such information.

The Securities of this series are issuable only in registered form without coupons in denominations of \$1,000 and integral multiples of \$1,000. As provided in the Indenture and subject to certain limitations therein set forth, Securities of this series are exchangeable for a like aggregate principal amount of Securities of this series and of like tenor of a different authorized denomination, as requested by the Holder surrendering the same.

No service charge shall be made for any such registration of transfer or exchange, but the Company may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

Prior to due presentment of this Security for registration of transfer, the Company, the Trustee and any agent of the Company or the Trustee may treat the Person in whose name this Security is registered as the owner hereof for all purposes, whether or not this Security be overdue, and neither the Company, the Trustee nor any such agent shall be affected by notice to the contrary.

All terms used in this Security which are defined in the Indenture shall have the meanings assigned to them in the Indenture.

THIS SECURITY SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAW OF THE STATE OF NEW YORK, WITHOUT REGARD TO CONFLICTS OF LAWS PRINCIPLES THEREOF.

Morgan Lewis

May 5, 2022

American Water Works Company, Inc.
American Water Capital Corp.
1 Water Street
Camden, New Jersey 08102

Ladies and Gentlemen:

We have acted as counsel to American Water Works Company, Inc., a Delaware corporation ("AWW"), and American Water Capital Corp., a Delaware corporation (the "Company"), in connection with the issuance by the Company of \$800,000,000 aggregate principal amount of its 4.450% Senior Notes due 2032 (the "Notes"), issued under the Indenture, dated as of December 4, 2009 (the "Indenture"), between the Company and Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association, as trustee (the "Trustee"), which Notes have the benefit of the Support Agreement, dated June 22, 2000, as amended as of July 26, 2000, between the Company and AWW (the "Support Agreement").

We have participated in the preparation of or reviewed (1) the Registration Statement on Form S-3 (Registration Nos. 333-253484 and 333-253484-01) (the "Registration Statement"), which Registration Statement was filed jointly by the Company and AWW with the Securities and Exchange Commission (the "Commission") under the Securities Act of 1933, as amended (the "Securities Act"); (2) the prospectus dated February 25, 2021 (the "Base Prospectus"), forming a part of the Registration Statement, as supplemented by a prospectus supplement dated May 2, 2022 (the "Prospectus Supplement") relating to the Notes, both such prospectus and prospectus supplement filed pursuant to Rule 424(b) under the Securities Act; (3) the Indenture; (4) the Support Agreement; (5) the certificate of incorporation of the Company; (6) the by-laws, as amended, of the Company; (7) the restated certificate of incorporation of AWW; (8) the amended and restated bylaws of AWW; and (9) such other corporate records, certificates and other documents (including a receipt executed on behalf of the Company acknowledging receipt of the purchase price for the Notes) and such questions of law as we have considered necessary or appropriate for the purposes of this opinion.

Morgan, Lewis & Bockius LLP

101 Park Avenue
New York, NY 10178-0060
United States

 +1.215.309.6000
 +1.215.309.6001

Based on the foregoing, we are of the opinion that the Notes and the Support Agreement, as it relates to the Notes, are valid and binding obligations of the Company and AWW, respectively, except as may be limited or affected by bankruptcy, insolvency, reorganization, moratorium, fraudulent conveyance and other similar laws affecting creditors' rights and remedies generally and general principles of equity.

In rendering the foregoing opinion, we have assumed that the certificates representing the Notes conform to specimens examined by us and that the Notes have been duly authenticated, in accordance with the Indenture, by the Trustee under the Indenture and that the signatures on all documents examined by us are genuine, assumptions which we have not independently verified.

We hereby consent to the reference to us under the heading "Legal Matters" in the Prospectus Supplement, to the references to us in the Registration Statement, including under the heading "Legal Matters" in the Base Prospectus, and to the filing of this opinion as an exhibit to AWW's Current Report on Form 8-K to be filed on or about the date hereof, which will be incorporated by reference in the Registration Statement. In giving the foregoing consents, we do not thereby admit that we come within the category of persons whose consent is required under Section 7 of the Securities Act or the rules and regulations of the Commission thereunder.

This opinion is limited to the laws of the State of New York, the General Corporation Law of the State of Delaware and the federal laws of the United States insofar as they bear on matters covered hereby.

Very truly yours,

/s/ Morgan, Lewis & Bockius LLP

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

Appointment of Executive Vice President and Chief Financial Officer

(b) & (c) On April 27, 2022, the Company issued a press release announcing that on May 16, 2022, John C. Griffith, 55, will join the Company as its Executive Vice President and Chief Financial Officer, and its principal financial officer. As of May 16, 2022, M. Susan Hardwick's officer title will change from President, Chief Executive Officer and Chief Financial Officer, to President and Chief Executive Officer, and she will remain the Company's principal executive officer.

Since 2014, Mr. Griffith has served as the Managing Director, Mergers and Acquisitions for Bank of America Securities' Global Regulated Utilities and Renewable Energy Practice. There, Mr. Griffith has served as lead investment banker on numerous major U.S. and international utility transactions. Prior to joining Bank of America Securities, from 2008 to 2014, Mr. Griffith served as the Chief Executive Officer of HighWave Energy, a renewable fuels start-up company, and from 1995 to 2008, he served in various capacities of increasing responsibility with Merrill Lynch & Co. Mr. Griffith received a Bachelor of Arts degree in Economics from Davidson College and a Master's in Business Administration, with honors, from the Columbia University Graduate School of Business.

Upon joining the Company, Mr. Griffith will be entitled to an annual base salary of \$725,000 and will receive a prorated Annual Performance Plan award opportunity for 2022 equal to 100% of his annual base salary (at target). He will also receive 2022 Long-Term Performance Plan awards (which will not be prorated) based on an aggregate target award opportunity of 250% of his annual base salary, and which will include the Company's standard post-retirement vesting provision applicable to the position of the chief executive officer, chief financial officer and chief operating officer. Mr. Griffith will be eligible to participate in the Company's Executive Severance Policy, its Change of Control Severance Policy, and its employee nonqualified deferred compensation plan, as well as other benefit plans and arrangements generally available to other executives of the Company. In addition, Mr. Griffith will receive a lump-sum cash payment of \$120,000 in lieu of specific benefits under the Company's relocation policy, and a cash sign-on bonus of \$950,000, in each case less applicable withholdings.

Other than as described above, there are no arrangements or understandings between Mr. Griffith and any other person pursuant to which he was selected as an executive officer of the Company. Mr. Griffith does not have any family relationship with any director or other executive officer of the Company or any person nominated or chosen by the Company to become a director or executive officer, and does not have any direct or indirect material interest in any transaction in which the Company is or is to be a participant and which would require reporting under Item 404(a) of Regulation S-K.

A copy of the press release issued by the Company on April 27, 2022 related to the foregoing has been included as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

(d) Exhibits.

AMERICAN WATER WORKS COMPANY, INC.

Dated: April 27, 2022

By: /s/ M. SUSAN HARDWICK

M. Susan Hardwick

President, Chief Executive Officer and Chief Financial Officer

Press Release

American Water Names John C. Griffith Executive Vice President and Chief Financial Officer

CAMDEN, N.J., April 27, 2022 – American Water Works Company, Inc. (NYSE: AWK), the largest publicly traded U.S. water and wastewater utility company, today announced that John C. Griffith has been named Executive Vice President and Chief Financial Officer effective May 16, 2022. Griffith will assume the CFO duties from Susan Hardwick, who has served as the company’s CFO since 2019. Hardwick was named American Water’s President and Chief Executive Officer in February of this year.

“We are thrilled to have John join American Water and our leadership team,” said Susan Hardwick, president and CEO of American Water. “He brings more than 25 years of industry knowledge and expertise and has significant experience in strategy development, financial planning and analysis, capital markets, M&A and people leadership. John also knows our business and people very well, most recently serving as our advisor for the \$1.3 billion sale of Homeowner Services. Working with our experienced finance and business development teams, John is the right leader to help deliver our financial plan and growth strategy, including increased acquisition activity and our accelerated capital plan.”

Griffith most recently served as a Managing Director in Bank of America Securities’ Mergers & Acquisitions group, leading the firm’s practice for regulated utilities and renewables. In the role, Griffith served as the lead investment banker on major U.S. and international utility transactions, including transaction origination, structure development, financing solutions, analysis and modeling, as well as team development. He also advised on a large number of public and private renewables transactions globally over the last five years.

Prior to joining Bank of America in 2014, Griffith served as CEO of HighWave Energy, a start-up renewable fuels company. As CEO, Griffith built the senior executive team and led the capital development and deployment strategy, as well as the financial planning structure and process. Griffith also held multiple positions during a fourteen-year career with Merrill Lynch & Co., culminating as Managing Director.

Passionate about mentoring and coaching, Griffith is a Partner with Student Partner Alliance, a non-profit organization focused on mentoring high school students.

Griffith earned a bachelor’s degree in Economics from Davidson College and an MBA in Finance from the Columbia University Graduate School of Business, where he graduated with honors.

Press Release

About American Water

With a history dating back to 1886, American Water (NYSE:AWK) is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs approximately 6,400 dedicated professionals who provide regulated and regulated-like drinking water and wastewater services to an estimated 14 million people in 24 states. American Water provides safe, clean, affordable and reliable water services to our customers to help keep their lives flowing. AMERICAN WATER REPORTS STRONG FIRST QUARTER 2022 RESULTS AFFIRMS 2022 EARNINGS GUIDANCE AND LONG-TERM TARGETS

- **First quarter 2022 diluted earnings of \$0.87 per share, compared to \$0.73 per share in 2021, a 19% increase**
- **2022 earnings guidance range of \$4.39 to \$4.49 per share affirmed; long-term targets also affirmed**
- **Invested \$437 million in the first three months of the year and added approximately 5,500 customer connections year-to-date through closed acquisitions and organic growth; capital plan on track to invest approximately \$2.5 billion in 2022**

CAMDEN, N.J., April 27, 2022 - American Water Works Company, Inc. (NYSE: AWK) today reported results for the quarter ended March 31, 2022, of \$0.87 per share, compared to \$0.73 per share in 2021.

“The company delivered a strong first quarter, continuing the Company’s solid performance and consistent execution of our strategies,” said Susan Hardwick, president, CEO, and CFO of American Water.

“In the first three months of 2022, we invested \$437 million in the regulated business with the majority dedicated to needed infrastructure improvements to better serve our customers as we begin to accelerate our investment spending made possible by the sale of Homeowner Services in late 2021,” said Hardwick. “We also look forward to welcoming additional customers through pending acquisitions in 2022, including the wastewater system in York, in the second quarter, as that acquisition was recently approved by the Pennsylvania Public Utility Commission.”

2022 Earnings Guidance and Long-Term Financial Targets Affirmed

The Company affirms its 2022 earnings per share guidance range of \$4.39 to \$4.49. The Company also affirms its long-term financial targets for the 2022-2026 period announced in Nov. 2021, including its long-term EPS compound annual growth rate target range of 7-9% and its long-term dividend growth expectation at the high end of a 7-10% range. The Company’s earnings forecasts are subject to numerous risks and uncertainties, including, without limitation, those described under “Forward-Looking Statements” below and under “Risk Factors” in its annual, quarterly, and current reports filed with the Securities and Exchange Commission (“SEC”).

Consolidated Results

For the three months ended March 31, 2022, earnings were \$0.87 per share, compared to \$0.73 per share in the same period in 2021. This increase was primarily driven by increased revenues from the continued growth in infrastructure investment in the Regulated Businesses. Also, included in 2022 results is \$0.06 per share from interest income earned on the seller note and income earned on revenue share agreements from the sale of Homeowner Services in 2021.

The Company is on track with its capital investment plan for the first three months of 2022 with investments of \$437 million, including \$430 million for infrastructure improvements in the Regulated Businesses. The Company plans to invest a total of approximately \$2.5 billion across its footprint in 2022.

Regulated Businesses

For the first three months of 2022, Regulated Businesses' net income was \$160 million, compared to \$135 million for the same period in 2021.

Operating revenues increased \$46 million in the first quarter of 2022 as compared to 2021 when excluding revenues contributed by the Company's New York subsidiary in 2021. The increase in operating revenues was primarily a result of authorized revenue increases resulting from completed general rate cases and infrastructure proceedings to recover incremental capital and acquisition investments.

To date, the Company has been authorized additional annualized revenues, excluding agreed to reductions for EADIT, of approximately \$48 million from general rate cases in 2022. In addition, approximately \$31 million of additional annualized revenues from infrastructure surcharges have been authorized and are effective in 2022. The Company has general rate cases in progress in five jurisdictions and has filed for infrastructure surcharges in two jurisdictions, reflecting a total annualized revenue request of approximately \$220 million.

Operations and maintenance expense was higher by \$8 million in the first quarter of 2022 as compared to 2021, when excluding impacts of the New York subsidiary in 2021, primarily due to increases in production costs from some inflationary pressure on chemicals and energy prices, while depreciation was higher by \$8 million due to the growing capital investment.

First quarter 2021 results included revenues of \$23 million and operating expenses of \$25 million for the Company's New York subsidiary that was sold on January 1, 2022.

For the 12-month period ended March 31, 2022, the Company's adjusted regulated O&M efficiency ratio (a non-GAAP financial measure) was 33.9%, a decrease from 34.1% for the 12-month period ended March 31, 2021. The ratio reflects the continued focus on operating costs, as well as an increase in operating revenues for the Regulated Businesses after considering the adjustment for the amortization of the EADIT shown below.

Market-Based Businesses and Other

For the first three months of 2022 and 2021, the net loss in Market-Based Businesses and Other was \$2 million.

Dividends

On March 1, 2022, the Company paid a quarterly cash dividend of \$0.6025 per share to shareholders of record as of February 8, 2022.

On April 27, 2022, the Company's Board of Directors declared a quarterly cash dividend payment of \$0.6550 per share, an 8.7% increase over the prior quarterly dividend, payable on June 1, 2022 to shareholders of record as of May 10, 2022.

Non-GAAP Financial Measures

This press release includes a presentation of adjusted regulated O&M efficiency ratio, a "non-GAAP financial measure" under SEC rules, which excludes from its calculation estimated purchased water revenues and purchased water expenses, reductions for the amortization of EADIT, and the allocable portion of non-O&M support services costs, mainly depreciation and general taxes. These items were excluded from the O&M efficiency ratio calculation as they do not reflect management's ability to increase the efficiency of the Regulated Businesses. This item is derived from American Water's consolidated financial information but is not presented in its financial statements prepared in accordance with GAAP. This non-GAAP financial measure supplements and should be read in conjunction with the Company's GAAP disclosures and should be considered as an addition to, and not a substitute for, any GAAP measure.

Management evaluates its operating performance using this ratio and believes that this non-GAAP financial measure is useful to the Company's investors because it directly measures improvement in the operating performance and efficiency of the Company's Regulated Businesses. The Company's adjusted regulated O&M efficiency ratio (i) is not an accounting measure that is based on GAAP; (ii) is not based on a standard, objective industry definition or method of calculation; (iii) may not be comparable to other companies' operating measures; and (iv) should not be used in place of the GAAP information provided elsewhere in this press release.

Set forth in this release is a table that calculates the Company's adjusted regulated O&M efficiency ratio and reconciles each of the components used to calculate this ratio to the most directly comparable GAAP financial measure.

First Quarter 2022 Earnings Conference Call

The first quarter 2022 earnings conference call will take place on Thursday, April 28, 2022, at 9 a.m. Eastern Daylight Time. Interested parties may listen to an audio webcast through a link on the Company's Investor Relations website at ir.amwater.com. Presentation slides that will be used in conjunction with the earnings conference call will also be made available online in advance at ir.amwater.com. The Company recognizes its website as a key channel of distribution to reach public investors and as a means of disclosing material non-public information to comply with its obligations under SEC Regulation FD.

Following the earnings conference call, a replay of the audio webcast will be available for one year on American Water's investor relations website at ir.amwater.com/events.

About American Water

With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The Company employs approximately 6,400 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to over 14 million people in 24 states. More information can be found by visiting amwater.com and follow American Water on Twitter, Facebook and LinkedIn.

Throughout this press release, unless the context otherwise requires, references to the "Company" and "American Water" mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements in this press release including, without limitation, 2022 earnings guidance, the Company's long-term financial, growth and dividend targets, future capital needs, the ability to achieve the Company's strategies and goals, including with respect to its ESG focus and related to the sale of HOS, the Company's receipt of contingent consideration, the repayment of the seller note and the redeployment of the net proceeds from its divestitures, the outcome of the Company's pending acquisition activity, the amount and allocation of projected capital expenditures, the closing of the acquisition of the York, Pennsylvania wastewater system, and estimated revenues from rate cases and other government agency authorizations, are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "outlook," "likely," "uncertain," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "will," "should" and "could" and or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on American Water's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results of levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this press release as a result of the factors discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, and subsequent filings with the SEC, and because of factors such as: the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates and regulatory responses to the COVID-19 pandemic; the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions; changes in customer demand for, and patterns of use of, water, such as may result from conservation efforts, impacts of the COVID-19 pandemic, or otherwise; a loss of one or more large industrial or commercial customers due to adverse economic conditions, the COVID-19 pandemic, or other factors; limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors; changes in laws, governmental regulations and policies, including with respect to the environment, health and safety, water quality and water quality accountability, contaminants of emerging concern, public utility

and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations; the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulation and policies with respect to data and consumer privacy, security and protection; weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares; the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions; the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of, or maintain and replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses; exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means; the Company's ability to obtain permits and other approvals for projects and construction of various water and wastewater facilities; changes in the Company's capital requirements; the Company's ability to control operating expenses and to achieve operating efficiencies; the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers; the Company's ability to obtain adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, electricity, fuel, water and other raw materials and to address or mitigate supply chain constraints impacting the Company's business operations; the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to acquiring, closing and successfully integrating regulated operations and market-based businesses, the Company's Military Services Group entering into new contracts, price redeterminations and other agreements and contracts, and realizing anticipated benefits and synergies from new acquisitions; risks and uncertainties following the completion of the sale of HOS and the Company's New York subsidiary; risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement and security regulations; cost overruns relating to improvements in or the expansion of the Company's operations; the Company's ability to successfully develop and implement new technologies and to protect related intellectual property; the Company's ability to maintain safe work sites; the Company's exposure to liabilities related to environmental laws and similar matters resulting from, among other things, water and wastewater service provided to customers; changes in general economic, political, business and financial market conditions, including without limitation conditions and collateral consequences associated with COVID-19; access to sufficient debt and/or equity capital on satisfactory terms and when and as needed to support operations and capital expenditures; fluctuations in inflation or interest rates; the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks or other communications by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions; fluctuations in the value of benefit plan assets and liabilities that could increase the Company's cost and funding requirements; changes in federal or state general, income and other tax laws, including (i) future significant tax legislation; (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs; and (iii) the Company's ability to utilize its state income tax net operating loss carryforwards; migration of customers into or out of the Company's service territories; the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, or the assertion by private landowners of similar rights against such utility subsidiaries; any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained; the incurrence of impairment charges related to the Company's goodwill or other assets; labor actions, including work stoppages and strikes; the Company's ability to retain and attract qualified employees; civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in American Water's annual, quarterly and other SEC filings, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements American Water makes speak only as of the date of this press release. American Water does not have or undertake any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 8.01. Other Events.

As previously disclosed, on April 6, 2021, Pennsylvania-American Water Company (“Pennsylvania-American Water”), a subsidiary of American Water Works Company, Inc. (the “Company”) entered into an Asset Purchase Agreement with the York City Sewer Authority (the “Seller”) and the City of York, with respect to the purchase of the Seller’s public wastewater collection and treatment system assets (the “System Assets”). On April 14, 2022, the Pennsylvania Public Utility Commission (“PaPUC”) approved Pennsylvania-American Water’s application to acquire the System Assets from the Seller for a purchase price of \$235 million, plus an amount of average daily revenue calculated for the period between the final meter reading and the date of closing. The System Assets serve, directly and indirectly through bulk contracts, more than 45,000 customers. Assuming no successful contest of the PaPUC’s approval occurs within the next 30 days, this approval would satisfy a significant remaining condition to the closing of the transaction, which is expected to occur by or before mid-June 2022.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K are forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “likely,” “uncertain,” “outlook,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “should,” “will” and “could,” or the negative of such terms or other variations or similar expressions. Forward-looking statements relate to, among other things, the ability to satisfy closing and other conditions related to the transaction and to complete the closing of the transaction, and the anticipated closing date. These forward-looking statements are predictions based on the Company’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on Form 8-K as a result of the factors discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2021, as filed with the Securities and Exchange Commission (the “SEC”) on February 16, 2022, and other filings with the SEC, and additional risks and uncertainties, including with respect to (1) satisfying remaining applicable conditions to the closing of the transaction; (2) the occurrence of benefits and synergies expected or predicted to occur as a result of the completion of the transaction; (3) unexpected costs, liabilities or delays associated with the transaction or the integration of the System Assets; (4) regulatory, legislative, local or municipal actions affecting the water and wastewater industries, which could adversely affect Pennsylvania-American Water; and (5) other economic, business and other factors.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in the Company’s annual and quarterly reports as filed with the SEC, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements speak only as of the date of this Current Report on Form 8-K. The Company does not have any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for us to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company’s or Pennsylvania-American Water’s business, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Item 8.01. Other Events.

West Virginia Public Service Commission Issues Order in General Rate Case

On February 24, 2022, the Public Service Commission of West Virginia (the “PSC”) issued an order approving a request to establish new water and wastewater rates pursuant to a general rate case filed on April 30, 2021 by the West Virginia subsidiary of American Water Works Company, Inc. (the “Company”). Under the PSC’s order, the Company’s West Virginia subsidiary has been authorized annualized incremental revenues of \$14.8 million, excluding (i) reductions of \$1.6 million for excess accumulated deferred income taxes as a result of the Tax Cuts and Jobs Act and (ii) \$10.2 million for infrastructure surcharges. The new rates are effective as of February 25, 2022, and were based on an authorized return on equity (“ROE”) of 9.80%, compared to an authorized ROE of 9.75% as approved in the subsidiary’s last general rate case effective February 2019. The PSC order also provides for an aggregate authorized rate base of \$734.0 million, as well as an authorized capital structure with an equity component of 47.97%.

A copy of the press release issued by the Company’s West Virginia subsidiary on February 25, 2022 has been filed as [Exhibit 99.1](#) hereto and is incorporated herein by reference.

AMERICAN WATER WORKS COMPANY, INC.

Dated: February 25, 2022

By: /s/ M. SUSAN HARDWICK
M. Susan Hardwick
President, Chief Executive Officer and Chief Financial Officer

West Virginia American Water Receives Rate Order from Public Service Commission

CHARLESTON, W.Va. (Feb. 25, 2022) – In an order entered on February 24, 2022, the Public Service Commission of West Virginia (PSC) approved a request to establish new water and wastewater rates for West Virginia American Water customers. The \$23.5 million order recognizes the company’s response to the COVID-19 pandemic, troubled system acquisition investment and Distribution System Improvement Charge (DSIC) investment. The order includes a \$1.6 million reduction for excess accumulated deferred income taxes (EADIT) which is an offset included in the approved base rates. Factoring in the company’s current DSIC surcharge on customer bills, the actual increase water customers would experience totals \$13.0 million in annual revenue or approximately 8.33 percent over current rates.

The company’s rate request, filed on April 30, 2021, was driven by \$258 million in infrastructure investments since its last rate case in 2018, including upgrades to water mains, treatment plants, tanks, valves, booster stations and other infrastructure necessary to maintain and improve water quality, service reliability and fire protection. Unfortunately, much of that investment was not recognized in the PSC’s order.

“We appreciate the careful consideration and review from the Public Service Commission in our request to establish new customer rates following significant infrastructure investment by our company over the last three years,” said Robert Burton, president of West Virginia American Water. “While the results of the order may impact our infrastructure replacement rate moving forward, we are still reviewing the intricacies of the order and how it will impact the company and our customers.”

The new rates, effective today, follow a 300-day statutory review of the company’s rate request. The PSC has ordered a novel rate structure that attempts to provide additional benefit to low-income customers. As ordered, this new rate structure limits the company’s ability to fully identify rate impacts at this time for specific customer classes. The average residential water customer can expect to see an estimated 8.33 percent base rate increase above what they are currently paying, while the company’s wastewater customers in Fayette County can expect to see an estimated 14.87 percent rate increase per month. The aforementioned novel rate structure, which freezes rate impacts for low-income customers, will likely cause these average percent increases to rise in the final rate calculation.

For those families who face economic challenges, West Virginia American Water offers several targeted customer assistance programs. Residential customers have the option of paying bills under a budget billing plan to have predictable monthly payments and avoid seasonal spikes, and customers with past-due bills are offered flexible payment arrangements through installment agreements.

Press Release

The company also offers a reduced rate program that provides a year-round 20 percent discount on residential water and wastewater rates for low-income customers determined eligible by the West Virginia Department of Health and Human Resources. Additionally, the company helps fund the West Virginia Utility Assistance Program Dollar Energy Fund, through which eligible customers can receive one-time emergency grants applied directly to their water bills. Customers can learn more about assistance options by calling 1-800-685-8660 or visiting the Customer Assistance Programs page on the company website.

West Virginia American Water, a subsidiary of American Water (NYSE: AWK), is the largest investor-owned water utility in the state, providing high-quality and reliable water services to approximately 560,000 people. With a history dating back to 1886, American Water (NYSE:AWK) is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs more than 6,400 dedicated professionals who provide regulated and regulated-like drinking water and wastewater services to an estimated 14 million people in 24 states. American Water provides safe, clean, affordable and reliable water services to our customers to help keep their lives flowing. For more information, visit amwater.com and follow American Water on Twitter, Facebook and LinkedIn.

**AMERICAN WATER 2021 RESULTS IN LINE WITH EXPECTATIONS
RESULTS INCLUDE GAIN ON SALE OF HOMEOWNER SERVICES
AFFIRMS 2022 GUIDANCE AND LONG-TERM TARGETS**

- **2021 full-year results of \$6.95 per share compared to 2020 results of \$3.91 per share**
 - 2021 results reflect earnings of \$4.25 per share, up 8.7% compared to earnings of \$3.91 per share in 2020, before the gain on the sale of Homeowner Services Group (HOS) in Dec. 2021
 - 2021 results reflect gain of \$2.70 per share on sale of HOS, after reflecting \$0.19 per share contribution to the American Water Charitable Foundation out of proceeds
- **Completed the sale of our regulated subsidiaries in New York and Michigan in early Jan. 2022 and early Feb 2022, respectively**
- **2022 diluted earnings per share guidance range of \$4.39 to \$4.49 affirmed**
- **Long-term financial targets announced in Nov. 2021 affirmed, including long-term EPS growth target of 7-9%**
- **Continued ESG leadership as evidenced by recent exceptional ranking from Corporate Knights**

CAMDEN, N.J., February 16, 2022 - American Water Works Company, Inc. (NYSE: AWK) today reported results for the fourth quarter 2021, of \$3.55 per share, compared to \$0.80 per share in 2020, and full year results of \$6.95 per share compared to \$3.91 per share in 2020. Full year and fourth quarter 2021 results include a gain of \$2.70 per share, which reflects the completion of the sale of HOS in December, reduced by the \$0.19 per share contribution to the American Water Charitable Foundation from the proceeds on the sale. Full year and fourth quarter 2021 results were \$4.25 per share and \$0.85 per share, respectively, before the gain on the sale of HOS.

"American Water fully executed on the strategy in 2021, continuing our record of significant earnings growth and delivering on our plan, including the completion of the sale of HOS in 2021 and the sales of our regulated subsidiaries in New York and Michigan in early 2022," said Susan Hardwick, president and CEO of American Water.

"We invested \$1.9 billion in our regulated business, delivered greater efficiencies in our operations and successfully completed 23 regulated acquisitions during the year. We are also proud that 2021 marked one of our best years of safety performance and a continued recognition of our work to integrate our core values of diversity, inclusion, equity and environmental leadership into everything we do at American Water," added Hardwick. "We are excited about this positive momentum as we continue to execute on the long-term strategies and targets that we shared late last year."

2022 Earnings Guidance and Long-Term Financial Targets Affirmed

The Company affirms its 2022 earnings guidance range of \$4.39 to \$4.49 per share. The Company also affirms its long-term financial targets for the 2022-2026 period announced in Nov. 2021, including its long-term EPS compound annual growth rate target range of 7-9% and its long-term dividend growth expectation at the high end of a 7-10% range. The Company's earnings forecasts are subject to numerous risks and uncertainties, including, without limitation, those described under "Forward-Looking Statements" below and under "Risk Factors" in its annual, quarterly and current reports filed with the Securities and Exchange Commission ("SEC").

Closing of HOS, New York, and Michigan Transactions

On December 9, 2021 the Company announced the close of the sale of its Homeowner Services Group to a wholly owned subsidiary of funds advised by Apax Partners LLP. The sale agreement was announced on October 29, 2021, with a transaction value of approximately \$1.275 billion, plus an applicable working capital adjustment.

Under the agreement, American Water received at closing, as part of the purchase price, \$480 million in cash plus working capital adjustments, and a \$720 million secured Seller Note bearing a 7.00% annual interest rate with a five-year term. In addition, the transaction includes a delayed payment to American Water of \$75 million if certain milestones are met by December 31, 2023. The structure of the transaction enables initial cash proceeds to be redeployed into the regulated water and wastewater business to fund near-term incremental capital investments, while interest on the Seller Note will provide a stream of earnings over the term of the note. Upon maturity, the proceeds from the repayment of the Seller Note are expected to be used to fund a continually growing capital investment in the regulated business.

On January 3, 2022 the Company announced the close of the sale of its regulated operations in New York to a subsidiary of Liberty Utilities Co., the regulated utility operating subsidiary of parent company Algonquin Power & Utilities Corp., for a purchase price of \$608 million in cash.

On February 4, 2022, the Company announced the close of the sale of its operations in Michigan to Ullico, Inc.'s infrastructure business, through its portfolio company, Triton Utilities, Inc., for a purchase price of \$6 million in cash.

These transactions are part of American Water's strategy to continue to operate in states where it can best serve customers and drive efficiencies, thereby creating value for its customers, employees, and shareholders.

Consolidated Results

For the three months ended December 31, 2021, earnings per share were \$3.55, an increase of \$2.75 compared to the same period in 2020. This increase reflects the gain on the sale of HOS and continued growth in the Regulated Businesses from infrastructure investment and acquisitions, partially offset by higher operating costs and lower HOS results year over year as a result of the sale.

For the twelve months ended December 31, 2021, earnings per share were \$6.95, an increase of \$3.04 compared to the same period in 2020. This increase reflects the gain on the sale of HOS and a \$0.40 increase in the Regulated Businesses as earnings grew from infrastructure investment, acquisitions and organic growth. The increase was partially offset by an estimated \$0.05 per share impact from cooler and wetter weather in 2021 compared to 2020. Before the gain on the HOS sale, on a weather normalized basis, diluted earnings for 2021 and 2020 were \$4.23 and \$3.84 per share, respectively, an increase of 10.2%.

In 2021, the Company made capital investments of \$1.9 billion, including \$1.8 billion primarily for infrastructure improvements in the Regulated Businesses and \$135 million for regulated acquisitions.

Regulated Businesses

In the fourth quarter of 2021, the Regulated Businesses' net income was \$166 million, compared to \$154 million for the same period in 2020. Regulated revenue increased approximately \$41 million due to increases from additional authorized revenues from infrastructure investments and acquisitions. Excluding revenue reductions for the amortization of excess accumulated deferred income tax ("EADIT") of \$11 million, which is offset with a like amount as lower tax expense, revenue increased \$52 million. Results also reflect higher O&M expenses of \$16 million to support growth in the Regulated Businesses and increased depreciation of \$7 million, mainly related to infrastructure investment growth.

For the full year 2021, the Regulated Businesses' net income was \$789 million, compared to \$715 million in 2020. Regulated revenue increased approximately \$129 million from additional authorized revenues from infrastructure investments, acquisitions and organic growth, partially offset by lower demand due to weather. Excluding agreed-to revenue reductions for the amortization of EADIT of \$79 million, which is offset with a like amount as lower tax expense, revenue increased \$208 million. Results also reflect higher O&M expenses of \$67 million to support growth in the Regulated Businesses and increased depreciation of \$39 million, mainly related to infrastructure investment growth.

To date, the Company has been authorized additional annualized revenues, excluding agreed-to reductions for EADIT, of approximately \$135 million from general rate cases, with \$115 million effective in 2021 and \$20 million effective in 2022. In addition, approximately \$83 million of additional annualized revenues from infrastructure surcharges have been authorized. The Company has general rate cases in progress in six jurisdictions and filed for infrastructure surcharges in two jurisdictions, reflecting a total annualized revenue request of approximately \$242 million.

For the full year 2021, the Company's adjusted regulated O&M efficiency ratio (a non-GAAP financial measure) was 34.1%, compared to 34.3% for 2020. The improvement in this ratio reflects the continued focus on operating costs, as well as an increase in operating revenues for the Regulated Businesses after considering the adjustment for the amortization of the EADIT shown below.

Market-Based Businesses

In the fourth quarter of 2021, net income for the Market-Based Businesses was \$491 million, compared to a net income of \$23 million for the same period in 2020.

Net income in the Market-Based Businesses in 2021 was \$550 million, compared to a net income of \$91 million for the same period in 2020. The increase resulted from the gain on the sale of HOS of \$478 million, partially offset by lower operating results for HOS primarily as a result of the timing of the sale.

In addition to the gain on the sale of HOS within the Market-Based Businesses, Parent and Other results reflect a \$13 million net income benefit from the revaluation of state net operating losses that can now be utilized as a result of the sale.

Dividends

On December 9, 2021, the Company's board of directors declared a quarterly cash dividend payment of \$0.6025 per share of common stock payable on March 1, 2022, to all shareholders of record as of February 8, 2022.

Non-GAAP Financial Measures

This press release includes a presentation of adjusted regulated O&M efficiency ratio, a “non-GAAP financial measure” under SEC rules, which excludes from its calculation estimated purchased water revenues and purchased water expenses, reductions for the amortization of EADIT, and the allocable portion of non-O&M support services costs, mainly depreciation and general taxes. These items were excluded from the O&M efficiency ratio calculation as they do not reflect management’s ability to increase the efficiency of the Regulated Businesses. This item is derived from American Water’s consolidated financial information but is not presented in its financial statements prepared in accordance with GAAP. This non-GAAP financial measure supplements and should be read in conjunction with the Company’s GAAP disclosures and should be considered as an addition to, and not a substitute for, any GAAP measure.

Management evaluates its operating performance using this ratio and believes that this non-GAAP financial measure is useful to the Company’s investors because it directly measures improvement in the operating performance and efficiency of the Company’s Regulated Businesses. The Company’s adjusted regulated O&M efficiency ratio (i) is not an accounting measure that is based on GAAP; (ii) is not based on a standard, objective industry definition or method of calculation; (iii) may not be comparable to other companies’ operating measures; and (iv) should not be used in place of the GAAP information provided elsewhere in this press release.

Set forth in this release is a table that calculates the Company’s adjusted regulated O&M efficiency ratio and reconciles each of the components used to calculate this ratio to the most directly comparable GAAP financial measure. Management is unable to present a reconciliation of adjustments to the components of the forward-looking regulated O&M efficiency ratio without unreasonable effort because management cannot reliably predict the nature, amount or probable significance of all of the adjustments for future periods; however, these adjustments may, individually or in the aggregate, cause the non-GAAP financial measure component of the forward-looking ratio to differ significantly from the most directly comparable GAAP financial measure.

About American Water

With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly-traded water and wastewater utility company. The Company employs approximately 6,400 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to over 14 million people in 24 states. More information can be found by visiting amwater.com and follow American Water on Twitter, Facebook and LinkedIn.

Throughout this press release, unless the context otherwise requires, references to the “Company” and “American Water” mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements in this press release including, without limitation, 2022 earnings guidance, the Company’s long-term financial, growth and dividend targets, future capital needs, the ability to achieve the Company’s strategies and goals, including with respect to its ESG focus and related to the sale of HOS, the Company’s receipt of contingent consideration, the repayment of the seller note and the redeployment of the net proceeds from its divestitures, the outcome of the Company’s pending acquisition activity, the amount and allocation of projected capital expenditures; and estimated revenues from rate cases and other government agency authorizations, are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. In some cases, these forward-looking statements can be identified by words with prospective meanings such as “intend,” “plan,” “estimate,” “believe,” “anticipate,” “expect,” “predict,” “project,” “propose,” “assume,” “forecast,” “outlook,” “likely,” “uncertain,” “future,” “pending,” “goal,” “objective,” “potential,” “continue,” “seek to,” “may,” “can,” “will,” “should” and “could” and or the negative of such terms or other variations or similar expressions. These forward-looking statements are predictions based on American Water’s current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results of levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. The

forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this press release as a result of the factors discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, and subsequent filings with the SEC, and because of factors such as: the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates and regulatory responses to the COVID-19 pandemic; the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions; changes in customer demand for, and patterns of use of, water, such as may result from conservation efforts, impacts of the COVID-19 pandemic, or otherwise; a loss of one or more large industrial or commercial customers due to adverse economic conditions, the COVID-19 pandemic, or other factors; limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors; changes in laws, governmental regulations and policies, including with respect to the environment, health and safety, water quality and water quality accountability, contaminants of emerging concern, public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations; the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulation and policies with respect to data and consumer privacy, security and protection; weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares; the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions; the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of, or maintain and replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses; exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means; the Company's ability to obtain permits and other approvals for projects and construction of various water and wastewater facilities; changes in the Company's capital requirements; the Company's ability to control operating expenses and to achieve operating efficiencies; the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers; the Company's ability to obtain adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, electricity, fuel, water and other raw materials and to address or mitigate supply chain constraints impacting the Company's business operations; the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to acquiring, closing and successfully integrating regulated operations and market-based businesses, the Company's Military Services Group entering into new contracts, price redeterminations and other agreements and contracts, and realizing anticipated benefits and synergies from new acquisitions; risks and uncertainties following the completion of the sale of HOS and the Company's New York subsidiary; risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement and security regulations; cost overruns relating to improvements in or the expansion of the Company's operations; the Company's ability to successfully develop and implement new technologies and to protect related intellectual property; the Company's ability to maintain safe work sites; the Company's exposure to liabilities related to environmental laws and similar matters resulting from, among other things, water and wastewater service provided to customers; changes in general economic, political, business and financial market conditions, including without limitation conditions and collateral consequences associated with COVID-19; access to sufficient debt and/or equity capital on satisfactory terms and when and as needed to support operations and capital expenditures; fluctuations in inflation or interest rates; the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks or other communications by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions; fluctuations in the value of benefit plan assets and liabilities that could increase the Company's cost and funding requirements; changes in federal or state general, income and other tax laws, including (i) future significant tax legislation; (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs; and (iii) the Company's ability to utilize its state income tax net operating loss carryforwards; migration of customers into or out of the Company's service territories; the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, or the assertion by private landowners of similar rights against such utility subsidiaries; any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained; the incurrence of impairment charges related to the Company's goodwill or other assets; labor actions, including work stoppages and strikes; the Company's ability to retain and attract qualified employees; civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in American Water's annual, quarterly and other SEC filings, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements American Water makes speak only as of the date of this press release. American Water does not have or undertake any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as otherwise required by the federal securities laws. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

President, Chief Executive Officer and Chief Financial Officer

Press Release

American Water Names James H. Gallegos Executive Vice President and General Counsel

CAMDEN, N.J., February 15, 2022 – American Water Works Company, Inc. (NYSE: AWK), the largest publicly traded U.S. water and wastewater utility company, today announced that James H. Gallegos has been named the Executive Vice President and General Counsel effective April 1, 2022. Gallegos replaces Mike Sgro, who retired earlier in the month.

“Jim is an outstanding addition to our executive team,” said Susan Hardwick, president and CEO of American Water. “He brings nearly 20 years of General Counsel experience and has a unique combination of knowledge and skills that include strategic regulatory experience, strong corporate governance, extensive litigation, business planning, strategy development and leading multi-state regulatory and legal teams. Jim is also passionate on inclusion, equity and diversity matters, which fully aligns with American Water’s values.”

Gallegos most recently served as Executive Vice President, General Counsel and Corporate Secretary at Alliant Energy Corporation, which provides regulated electric and natural gas service to approximately 975,000 electric and approximately 420,000 natural gas customers in the Midwest.

Prior to joining Alliant Energy in 2010, Gallegos served as the Vice President and Corporate General Counsel for Burlington Northern and Santa Fe Corporation, one of North America’s leading freight transportation companies. Prior to that role, Gallegos served as Vice President Legal Affairs for Qwest Communications International, Inc. He also held multiple other roles at Qwest prior to his vice president role.

Gallegos started his legal career as a trial attorney with the U.S. Department of Justice and law clerk for a Federal District Court Judge. He currently serves as Chair on the Clean Lakes

Press Release

Alliance Board of Directors. He has also served on the Board of Urban League and on the Board of Edgewood College.

Gallegos received a Bachelor of Science degree in Business from the University of Colorado and a law degree from the University of Minnesota Law Center, where he graduated Cum Laude.

About American Water

With a history dating back to 1886, American Water (NYSE:AWK) is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs approximately 6,400 dedicated professionals who provide regulated and regulated-like drinking water and wastewater services to an estimated 14 million people in 24 states. American Water provides safe, clean, affordable and reliable water services to our customers to help keep their lives flowing. Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(b) & (e) On February 2, 2022, Walter J. Lynch, 59, President and Chief Executive Officer of American Water Works Company, Inc. (the “Company”), provided the Board of Directors (the “Board”) of the Company notice of his decision to retire as the Company’s President and Chief Executive Officer and its principal executive officer, as well as a member of the Board, which retirement was accepted by the Board on February 2, 2022. Effective February 2, 2022, based on the unanimous recommendation of the Executive Development and Compensation Committee and the unanimous approval of the independent members of the Board, the Company and Mr. Lynch executed a Separation Agreement and General Release, providing for, among other things, payment to Mr. Lynch for 12 months of his current annual base salary of \$1,000,000, minus applicable deductions and withholdings, in accordance with the Company’s regular pay schedule in consideration for a 12-month concurrent non-compete and non-solicitation period, a general release of claims, and other restrictive covenants. Mr. Lynch’s retirement from the Board was not as a result of any disagreement with the Company on any matter relating to the Company’s operations, policies or practices.

On February 1, 2022, the Chairman of the Board and the Company received notice from Lloyd M. Yates, a member of the Board, stating that he will retire from the Board effective as of February 14, 2022. Mr. Yates has been appointed as the President and Chief Executive Officer of NiSource Inc. effective February 14, 2022. Mr. Yates’ retirement from the Board was not as a result of any disagreement with the Company on any matter relating to the Company’s operations, policies or practices.

(c) On February 2, 2022, upon the recommendation of the Nominating/Corporate Governance Committee of the Board, the Board elected M. Susan Hardwick, 59, to serve as the Company’s President and Chief Executive Officer and as principal executive officer. Ms. Hardwick will continue in her role as Chief Financial Officer and principal financial officer until her replacement is named.

(d) Based on the recommendation of the Nominating/Corporate Governance Committee of the Board, on February 2, 2022, Ms. Hardwick was elected as a member of the Board to fill the vacancy created by the retirement of Mr. Lynch. Ms. Hardwick was elected to serve a term commencing on February 2, 2022 and ending on the date of the Company’s 2022 Annual Meeting of Shareholders, and until her successor has been elected and qualified, or until her earlier death, resignation or removal. Ms. Hardwick will not serve on any committees of the Board. Other than as part of or in connection with the compensatory and other arrangements with Ms. Hardwick described in this Item 5.02, in connection with her election to the Board, (i) there are no other arrangements or understandings between Ms. Hardwick and any other person, pursuant to which Ms. Hardwick was selected as a director, (ii) no material plan, contract or arrangement has been entered into with Ms. Hardwick, and no such plan, contract or arrangement with Ms. Hardwick has been materially amended, and (iii) no grant of any award to Ms. Hardwick or modification of an existing award has been made. Also, Ms. Hardwick does not have any direct or indirect material interest in any transaction that would require reporting under Item 404(a) of Regulation S-K.

(e) To provide for Ms. Hardwick’s compensation in her new role, the Company and Ms. Hardwick have executed an employment offer letter, dated February 2, 2022, which was unanimously approved by the independent members of the Board upon the unanimous recommendation of the Executive Development and Compensation Committee, having reviewed data and analyses by its independent compensation consultant. The employment offer letter provides for the following terms as to her compensation: (i) annual base salary of \$1,000,000; (ii) a 2022 target award under the Annual Performance Plan (the “APP”) of 110% of her annual base salary as of February 2, 2022; (iii) eligibility to receive awards under the Company’s 2017 Omnibus Equity Compensation Plan pursuant to the terms of the Company’s 2022 Long-Term Performance Plan (“LTTP”), based on a target award percentage of 400% of her annual base salary as of February 2, 2022, which will have standard terms and vesting conditions for the CEO role; (iv) continued participation in the Company’s Executive Severance Policy and Change of Control Severance Policy; (v) continued eligibility to participate in the Company’s employee nonqualified deferred compensation plan and its 401(k) savings plan; and (vi) a \$100,000 cash stipend, less applicable withholdings, for her service as Interim CEO from December 7, 2021 to January 31, 2022. Ms. Hardwick will continue to be subject to the Company’s executive stock ownership guidelines and stock retention requirements, and is now required to own by February 2, 2027 Company common stock with a value of at least six times her annual base salary. The foregoing will be received by Ms. Hardwick in lieu of her previously approved compensation as Executive Vice President and Chief Financial Officer.

A copy of the press release issued by the Company on February 2, 2022 related to the foregoing has been included as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

Press Release

American Water’s Walter Lynch Announces Retirement Susan Hardwick Named President and CEO

CAMDEN, N.J. – February 2, 2022 – American Water (NYSE: AWK) announced today that its president and CEO Walter Lynch retired from the company, effective February 2, 2022. Susan Hardwick, who recently served as Interim CEO, was appointed by the Board of Directors as president and CEO to replace Lynch.

“I have decided to retire from American Water. This is the best decision for my family and me,” said former president and CEO Walter Lynch. “I am fortunate to have my health and such a wonderful family with whom I look forward to spending more time. As I move on, I will be wishing the company every success in the years ahead.”

“On behalf of the Board of Directors, we want to thank Walter for his service to American Water over his long-tenure with the company,” said Karl Kurz, chairman of American Water’s Board of Directors.

“The Board and I are also pleased to name Susan Hardwick as American Water’s president and CEO and we have full confidence that she will continue our record of strong industry leadership and financial performance,” added Kurz. “She is a proven leader with extensive utility experience and is deeply committed to customers, employee development and building better communities.”

Hardwick is currently serving as American Water’s chief financial officer and will continue to serve in that role until her replacement is named. A national search to fill the CFO role is underway. The Board of Directors also elected Hardwick to serve on the Board of Directors at American Water.

“I want to say a special thanks to Walter for his time at American Water and wish him all the best,” stated Hardwick. “I also look forward to continuing to lead the incredible employees of American Water. We’re a top leader in the utility sector and we will continue to deliver exceptional value to all of our stakeholders.”

Press Release

Hardwick joined American Water in June 2019 and became CFO on July 1, 2019. In this role, she was responsible for all aspects of financial management and strategy, including directing finance strategy, investor relations, treasury, financial planning, accounting, internal audit, risk management, supply chain, regulatory services, and control functions.

Prior to joining American Water, Hardwick served as executive vice president and CFO of Vectren Corporation.

Press Release

American Water Board of Directors Reinstates Walter Lynch as CEO effective Jan. 31, 2022

CAMDEN, N.J., Jan. 27, 2022 – American Water (NYSE: AWK), the largest publicly-traded U.S. water and wastewater utility company, announced today its Board of Directors is reinstating Walter Lynch as CEO of American Water, effective Jan. 31, 2022, after his recovery from a recent injury and hospitalization.

“We are so pleased that Walter has recovered and is ready to return to his full duties as CEO of American Water,” said Karl Kurz, chairman of American Water’s Board of Directors. “I know Walter is excited to return next week and join American Water’s management team and all the employees of American Water as they continue to provide essential water and wastewater services across the U.S.”

“I, along with the Board, also thank Susan Hardwick and the rest of the American Water management team for successfully leading American Water during this time, consistent with the company’s business continuity plan. Their leadership allowed Walter to focus on his recovery while the business operated without interruption,” added Kurz.

The Board’s action reinstates Lynch to fully assume all of his authority, duties and responsibilities as the Company’s President and Chief Executive Officer and its principal executive officer. Susan Hardwick, who was serving as Interim CEO, continues to serve as the Company’s Executive Vice President and Chief Financial Officer and its principal financial officer.

About American Water

With a history dating back to 1886, American Water (NYSE: AWK) is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs approximately 6,400 dedicated professionals who provide regulated and regulated-like drinking water and wastewater services to an estimated 14 million people in 25 states. American Water provides safe, clean, affordable, and reliable water services to our customers to help keep their lives flowing. Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(e) On January 20, 2022, the Executive Development and Compensation Committee (the “Committee”) of the Board of Directors of American Water Works Company, Inc. (the “Company”), based on data and analyses provided by the Committee’s independent compensation consultant, approved an amendment of, and an adjustment to, the Company’s existing internally measured long-term performance plan (“LTTP”) performance share unit awards granted in February 2020 and 2021 (collectively, the “PSU-IMs”) under the Company’s 2017 Omnibus Equity Compensation Plan. The PSU-IM’s performance is to be measured based on the rate of the Company’s earnings per share (“EPS”) growth, compounded annually over a three-year period, and anchored off the Company’s 2019 adjusted EPS for the fiscal year ended December 31, 2019 (with respect to the 2020 PSU-IMs) and EPS for the fiscal year ended December 31, 2020 (with respect to the 2021 PSU-IMs). To reflect the sale of the Company’s Homeowner Services Group (“HOS”) (which was completed on December 9, 2021) in the three-year EPS growth calculations for these LTTP awards, the starting EPS for the PSU-IMs granted in February 2020 and 2021 has been decreased by \$0.38 and \$0.40, respectively. The amount of the adjustment to the starting EPS is equivalent to the contribution of HOS to the Company’s EPS for the 2019 and 2020 fiscal years. Furthermore, the ending EPS will be adjusted to exclude the impact of interest earned under that certain Secured Seller Note Agreement, dated December 9, 2021, and revenue or other income recorded by the Company under that certain Revenue Share Agreement, dated December 9, 2021, each as entered into in connection with the Company’s sale of HOS.

Item 8.01. Other Events.

Completion of Sale of Company's New York Subsidiary

On January 1, 2022 (the "Closing Date"), American Water Works Company, Inc. (the "Company") completed the previously disclosed sale of its regulated utility operations in New York to Liberty Utilities (Eastern Water Holdings) Corp. ("Liberty"), an indirect, wholly owned subsidiary of Algonquin Power & Utilities Corp. Under the terms of the Stock Purchase Agreement, dated November 20, 2019, as amended, by and among the Company, the Company's New York subsidiary and Liberty (the "Stock Purchase Agreement"), on the Closing Date, Liberty purchased from the Company all of the capital stock of the Company's New York subsidiary, and the Company received from Liberty the purchase price of \$608 million in cash. The sale was approved by the New York State Department of Public Service on December 16, 2021.

The foregoing description of the Stock Purchase Agreement is qualified in its entirety by reference to the full text thereof, filed as Exhibits 2.1.1 and 2.1.2 to this Current Report on Form 8-K.

On January 3, 2022, the Company issued a press release announcing the transactions described in this Item 8.01. A copy of the press release issued by the Company is attached hereto as Exhibit 99.1 and is incorporated by reference herein.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

The following exhibits to this Current Report have been provided herewith as noted below:

Exhibit No.	Description
2.1.1#	<u>Stock Purchase Agreement, dated as of November 20, 2019, by and among the Company, the Company's New York subsidiary and Liberty (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed November 20, 2019).</u>
2.1.2	<u>Letter Agreement, dated June 29, 2021, by and among the Company, the Company's New York subsidiary and Liberty, with respect to the Stock Purchase Agreement (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed June 29, 2021).</u>
99.1*	<u>Press Release, dated January 3, 2022, issued by the Company.</u>
104	Cover Page Interactive Data File (the cover page XBRL tags are included and formatted as Inline XBRL).

Certain schedules and exhibits to this agreement have been omitted pursuant to Item 601(a)(5) of Regulation S-K. The Company will furnish the omitted schedules and exhibits to the U.S. Securities and Exchange Commission (the "SEC") upon request.

* Filed herewith.

The Stock Purchase Agreement filed as Exhibits 2.1.1 and 2.1.2 hereto has been included to provide investors and security holders with information regarding its terms. It is not intended to provide any other factual information about the Company, the Company's New York subsidiary or Liberty, or any of their respective subsidiaries or affiliates. The representations, warranties and covenants contained in the Stock Purchase Agreement (i) were made by the parties thereto only for purposes of that agreement and as of specific dates; (ii) were made solely for the benefit of the parties to the Stock Purchase Agreement; (iii) may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the Stock Purchase Agreement (such disclosures include information that has been included in public disclosures, as well as additional non-public information); (iv) may have been made for the purposes of allocating contractual risk between the parties to the Stock Purchase Agreement instead of establishing these matters as facts; and (v) may be subject to standards of materiality applicable to the contracting parties that differ from those applicable to investors.

Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of the Company, the Company's New York subsidiary or Liberty, or any of their respective subsidiaries or affiliates. Additionally, the representations, warranties, covenants, conditions and other terms of the Stock Purchase Agreement may be subject to subsequent waiver or modification. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the Closing Date, which subsequent information may or may not be fully reflected in the Company's public disclosures. The Stock Purchase Agreement should not be read alone, but should instead be read in conjunction with the other information regarding the Company and the Company's New York subsidiary that is or will be contained in, or incorporated by reference into, the reports and other documents that are filed by the Company with the SEC.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Press Release

American Water Announces Completion of Sale of its Regulated Operations in New York to Liberty

CAMDEN, N.J., January 3, 2022 – American Water Works Company, Inc. (NYSE: AWK), the largest publicly traded U.S. water and wastewater utility company, today announced the close of the sale of its regulated operations in New York to a subsidiary of Liberty Utilities Co. (“Liberty”), the regulated utility operating subsidiary of parent company Algonquin Power & Utilities Corp., for a purchase price of \$608 million in cash.

American Water announced the agreement to sell its regulated operations in New York to Liberty on November 20, 2019, citing the best interest of customers in New York to sell to Liberty, which has other utility operations in New York. The sale is a part of American Water’s strategy to continue to create value for customers, employees, and shareholders. On December 16, 2021, the New York State Department of Public Service approved the sale, adopting the Joint Proposal filed on November 3, 2021 by both companies. American Water completed the sale to Liberty on January 1, 2022.

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 8.01. Other Events.

On December 16, 2021, the New York State Department of Public Service (“NYSDPS”) issued an order adopting, in all material respects, the terms of the Joint Proposal filed on November 3, 2021 in the NYSDPS acquisition proceeding with respect to the previously disclosed Stock Purchase Agreement, dated November 20, 2019, by and among American Water Works Company, Inc. (the “Company”), the Company’s New York subsidiary, and Liberty Utilities (Eastern Water Holdings) Corp. (“Liberty”), an indirect, wholly owned subsidiary of Algonquin Power & Utilities Corp. (the “Stock Purchase Agreement”), pursuant to which Liberty has agreed to purchase all of the capital stock of the Company’s New York subsidiary (the “Stock Purchase”). The NYSDPS also authorized the Stock Purchase and the transfer of all of the outstanding capital stock of the Company’s New York subsidiary to Liberty. The NYSDPS approval of the Joint Proposal and the authorization of the Stock Purchase and transfer satisfies the final significant remaining condition to the completion of the Stock Purchase. Consequently, the Company intends to complete the transaction on or about January 1, 2022.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Item 1.01. Entry into a Material Definitive Agreement.

As previously reported, on October 28, 2021, American Water Enterprises, LLC (“AWE”) and American Water (USA), LLC, direct and indirect wholly owned subsidiaries of American Water Works Company, Inc. (the “Company”), as sellers (collectively, the “Sellers”), American Water Resources, LLC (“AWR”), Pivotal Home Solutions, LLC (“Pivotal”), and American Water Resources Holdings, LLC (“AWRH”), indirect wholly owned subsidiaries of the Company that, collectively and through wholly owned subsidiaries, own and operate the Company’s Homeowner Services Group (each, an “HOS Company” and, collectively, the “HOS Companies”), and, for specified limited purposes, the Company, entered into a Membership Interest Purchase Agreement (the “Purchase Agreement”) with Lakehouse Buyer Inc., an indirect, wholly owned subsidiary of funds advised by Apax Partners LLP (the “Buyer”), for the sale of the HOS Companies by Seller to Buyer for aggregate estimated consideration of approximately \$1.275 billion, plus the applicable working capital adjustment, as described below, or an estimated \$1.0 billion net of tax (the “Transaction”). As described in greater detail under “Completion of Sale of Homeowner Services Group” in Item 8.01 below, the Transaction closed on December 9, 2021 (the “Closing Date”). Certain relationships between the Company or its affiliates, on the one hand, and one or more of the other parties to the Purchase Agreement, on the other hand, that were entered into at or in connection with the closing of the Transaction are referenced in the Purchase Agreement attached hereto as Exhibit 2.1 and are incorporated by reference herein.

Secured Seller Note Agreement

On the Closing Date, AWE, as the lender (the “Lender”), Lakehouse BidCo Inc., an affiliate of the Buyer (“Holdings”), the Buyer, as the borrower (the “Borrower”), and AWR, Pivotal, AWRH and American Water Resources of Texas, LLC (each a “Subsidiary Guarantor” and, collectively, the “Subsidiary Guarantors”), entered into a Secured Seller Note Agreement (the “Seller Note”) in the original principal amount of \$720 million (the “Loan”). The Seller Note is a component of the aggregate consideration paid by the Buyer in the Transaction. Pursuant to the Seller Note, on the Closing Date, the Borrower issued a secured promissory note to repay or prepay to the Lender in cash all obligations under the Loan, including, without limitation, the outstanding aggregate principal and all accrued and unpaid interest thereon (including any applicable premium, interest, fees and other obligations). The Seller Note bears interest at a rate of 7.00% per year until maturity, payable in cash semi-annually in arrears or upon the occurrence of any repayment or prepayment of the Loan. The Seller Note will mature on December 9, 2026, and all amounts and obligations due, payable and owing under the Seller Note are to be repaid in cash.

Beginning on December 9, 2024, the Lender may require the Borrower to repay 100% of the outstanding principal amount of the Loan in full in cash, together with all accrued and unpaid interest and other obligations under the Seller Note (the “Lender Put Right”), without any premium or penalty (“at par”), except that, in the event of a disruption event in the broadly syndicated term loan “B” debt financing market, the Borrower will not be required to make any repayment pursuant to the Lender Put Right until the termination of such market disruption event. The Borrower is not permitted to prepay the Loan prior to the earlier of (i) the date the Lender elects to exercise the Lender Put Right or (ii) December 9, 2025 (the “Non-Call Provision”). If the Borrower breaches the Non-Call Provision, an event of default will occur under the Seller Note and the Company may, among other remedies, demand repayment from Borrower of the Loan in full together with an applicable premium ranging from 105.5% to 107.5% of the aggregate outstanding principal amount of the Loan, together with a customary “make-whole” amount and accrued and unpaid interest and any other obligations owed. An optional prepayment of the Loan by the Borrower that complies with the Non-Call Provision may be made at par. The Lender also may, in its sole discretion from time to time, require the Borrower to prepay the Loan at par in the event of certain circumstances, including permitted sales of the Borrower’s assets, the receipt of insurance proceeds due to a loss casualty or condemnation event incurred by the Borrower or the receipt of proceeds from an unpermitted incurrence of indebtedness by the Borrower.

The payment obligations of the Borrower under the Seller Note are secured by a first priority security interest in certain assets of the Borrower and the HOS Companies, including their cash and securities accounts, as well as a pledge of the equity interests in each of the HOS Companies, subject to certain exceptions, including for permitted liens and permitted future indebtedness of the Borrower that may be secured by such assets on a senior basis (as to repayment) or on a *pari passu* basis (as to lien priority) with the security interests provided for under the Seller Note.

The Borrower is required under the Seller Note to comply with certain affirmative and negative covenants until all principal of and interest on the Loan and all other obligations under the Seller Note have been paid in full in cash. These covenants include, among others: (i) periodic financial, budgeting and compliance reporting of the Borrower; notices of default and litigation; and requirements as to the operation of the HOS Companies’ business; and (ii) negative covenants related to (subject, in each case, to various conditions, limitations and exceptions): the incurrence of additional indebtedness by the Borrower that exceeds certain pro forma leverage ratios set forth in the Seller Note; the creation or existence of liens on the Borrower’s properties or assets; restrictive agreements prohibiting the Lender’s liens under the Seller Note and the making of dividends or distributions with respect to the Borrower’s capital stock; the making of restricted payments; the making of certain investments; fundamental changes in and dispositions of the Borrower’s assets; sale and leaseback transactions; transactions with the Borrower’s affiliates; changes in organizational documents; and amendments of junior indebtedness.

The Seller Note provides that an event of default under the Seller Note will occur upon, among other things: a breach by the Borrower of its obligations under the Seller Note, including a breach of the Non-Call Provision or a failure to make any payments when due; a default on the Borrower's other indebtedness exceeding a specified threshold; a breach of certain of the Borrower's covenants, and its representations and warranties in any material respect, under the Seller Note; certain bankruptcy or similar events with respect to the Borrower; the filing of final money judgments in excess of a threshold amount that remain unpaid for 60 days or more; certain material employee benefit plan events; a change of control involving the Borrower; and a repudiation by the Borrower of any loan document, security agreement or guarantee related to the Seller Note.

The foregoing summary of the terms and conditions of the Seller Note is qualified in its entirety by reference to the full text thereof, a copy of which is attached as Exhibit 10.1 to this Current Report on Form 8-K and is hereby incorporated by reference in response to this Item 1.01.

Revenue Share Agreement

On the Closing Date, the Company, AWR, Pivotal and AWRH entered into a Revenue Share Agreement (the "Revenue Share Agreement"), pursuant to which the Company will receive 10% of the revenue generated by the business of the applicable HOS Company after the Closing Date from current home warranty services on-bill arrangements, and 15% of the revenue generated from any future on-bill arrangements entered into after the Closing Date. Unless earlier terminated, the Revenue Share Agreement has a term of up to 15 years, which may be renewed for up to two five-year periods.

The foregoing summary of the terms and conditions of the Revenue Share Agreement is qualified in its entirety by reference to the full text thereof, a copy of which is attached as Exhibit 10.2 to this Current Report on Form 8-K and is hereby incorporated by reference in response to this Item 1.01.

Item 7.01. Regulation FD Disclosure

On December 9, 2021, the Company issued a press release announcing the closing of the transactions described in Items 1.01 and 8.01 herein. A copy of the press release has been included as Exhibit 99.1 and is incorporated by reference herein.

The information furnished in Item 7.01 of this Current Report, including Exhibit 99.1, shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), nor shall it be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Item 8.01. Other Events.

Completion of Sale of Homeowner Services Group

On December 9, 2021, the Sellers, the Company, the HOS Companies and Buyer completed the previously announced sale of the HOS Companies, comprising 100% of the equity interests in the HOS Companies, pursuant to the Purchase Agreement. On the Closing Date, the Buyer paid the Sellers, as part of the purchase price, \$485 million in cash, inclusive of

\$5 million for the working capital adjustment. In addition, AWE, Holdings, the Buyer and the Subsidiary Guarantors entered into the Seller Note discussed in response to Item 1.01 above. Upon maturity, proceeds from the repayment of the Seller Note are expected to be used to fund capital investments in the Company's regulated businesses. Under the terms of the Purchase Agreement, the Buyer is also required to make an additional cash payment of \$75 million to the Sellers due and payable within 45 days after the satisfaction of certain conditions (as set forth in the Purchase Agreement) by December 31, 2023.

The foregoing description of terms and conditions of the Purchase Agreement is qualified in its entirety by reference to the full text thereof, filed as Exhibit 2.1 to this Current Report on Form 8-K.

Common Interest and Cooperation Agreement

On the Closing Date, the Company, AWR and the Buyer entered into a Common Interest and Cooperation Agreement (the "Cooperation Agreement"), in order to facilitate a common defense for, and to share information concerning, the previously reported federal grand jury investigation being conducted by the U.S. Attorney's Office for the Eastern District of New York involving AWR's operations and its contractor network in the New York City metropolitan area, and any legal or regulatory inquiries or proceedings related to or resulting from such investigation or the subject matter in the grand jury subpoena issued to AWR on April 2, 2021 in connection with such investigation relating to AWR's business and operations in the State of New York (collectively, the "Covered Matters"). Under the terms of the Cooperation Agreement, the Company will, on behalf of AWR, defend any Covered Matter, using commercially reasonable efforts to resolve it on a reasonably expedient basis, and consult with the Buyer on such Covered Matter. Further, the Company is required to obtain the prior written consent of the Buyer (which consent may not be unreasonably withheld, conditioned or delayed) before entering into any resolution of any Covered Matter that imposes non-monetary provisions or undertakings or any other terms for which there will be no indemnification under the Cooperation Agreement. In addition, for the period from the Closing Date to March 9, 2025, the Company is required to indemnify the Buyer for any monetary losses or out-of-pocket damages (as described in the Cooperation Agreement) incurred by the Buyer or certain of the HOS Companies to the extent directly arising in connection with, or directly resulting from, any Covered Matter.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

The following exhibits to this Current Report have been filed herewith (except as noted below):

Exhibit No.	Description
2.1†	Membership Interest Purchase Agreement, dated as of October 28, 2021, by and among the Buyer, each of the Sellers, each of the HOS Companies, and for limited purposes set forth therein, the Company (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed October 29, 2021).
10.1*†	Secured Seller Note Agreement, dated as of December 9, 2021, by and among the Lender, Holdings, the Borrower and the Subsidiary Guarantors.
10.2*	Revenue Share Agreement, dated as of December 9, 2021, by and among the Company, AWR, Pivotal and AWRH.
99.1**	Press Release, dated December 9, 2021, issued by the Company.
104	Cover Page Interactive Data File (the cover page XBRL tags are included and formatted as Inline XBRL).

* Filed herewith.

** Furnished herewith.

† Certain schedules and exhibits to this agreement have been omitted pursuant to Item 601(a)(5) of Regulation S-K. The Company will furnish the omitted schedules and exhibits to the U.S. Securities and Exchange Commission (the "SEC") upon request.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this Current Report on Form 8-K are forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act, and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "outlook," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "will," "should" and "could," or the negative

of such terms or other variations or similar expressions. Forward-looking statements relate to, among other things (i) the accounting and other impacts of the Transaction, including impacts on the Company's current and short- and long-term expectations, guidance and plans with respect to its current and future debt and equity capital needs, capital expenditures, dividends, earnings (including earnings per share), growth, future regulatory outcomes, rate base growth, and other financial and operational plans; (ii) the ability to achieve the Company's regulatory and other strategies, benefits, plans and goals related to the Transaction, including with respect to the redeployment of the net proceeds of the Transaction into the Company's regulated water and wastewater businesses; (iii) the Company's ability to receive any contingent consideration provided for in the Purchase Agreement; (iv) the ability to receive amounts due, payable and owing from time to time under the Seller Note, including without limitation the Loan and all accrued and unpaid interest and other amounts thereunder, and the Revenue Share Agreement; and (v) various other risks and uncertainties.

These forward-looking statements are predictions based on the Company's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, performance or achievements, and readers are cautioned not to place undue reliance upon them. The forward-looking statements are subject to a number of estimates and assumptions, and known and unknown risks, uncertainties and other factors, including post-closing adjustments to the purchase price as provided in the Purchase Agreement; regulatory, legislative, local or municipal actions affecting the home warranty services and the water and wastewater industries; and other economic, business and other factors. Actual results may differ materially from those discussed in the forward-looking statements included in this Current Report on Form 8-K as a result of the factors discussed in the Company's Form 10-K for the year ended December 31, 2020, and in other filings with the SEC, and the additional risks, uncertainties, assumptions and limitations described herein. The foregoing factors should not be construed as exhaustive.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

SECURED SELLER NOTE AGREEMENT, dated as of December 9, 2021 (this “**Agreement**”), by and among Lakehouse BidCo, Inc., a corporation organized under the laws of the State of Delaware (“**Holdings**”), Lakehouse Buyer Inc., a corporation organized under the laws of the State of Delaware (the “**Borrower**”), the SUBSIDIARIES of Holdings from time to time party hereto as guarantors, and American Water Enterprises, LLC, a limited liability company organized under the laws of Delaware (the “**Lender**”), as the lender.

RECITALS

Pursuant to the Purchase Agreement and subject to the terms and conditions thereof, the Lender (in its capacity as a Seller under the Purchase Agreement) and the other Sellers have agreed to sell the Units (as defined in the Purchase Agreement) to the Borrower (acting in its capacity as the Purchaser under the Purchase Agreement);

Pursuant to the Purchase Agreement and subject to the terms and conditions thereof, (i) the Purchase Price (as defined in the Purchase Agreement) to be paid by the Purchaser to the Sellers for the Units is to be comprised of the Cash Purchase Price (as defined in the Purchase Agreement) and the Seller Note Amount, (ii) that portion of the Purchase Price constituting the Cash Purchase Price is to be paid in cash by the Purchaser to the Sellers substantially contemporaneously with Closing (as defined in the Purchase Agreement) and (iii) that portion of the Purchase Price constituting the Seller Note Amount is to be paid by the Purchaser to the Sellers in accordance with the terms of the Seller Note (as defined in the Purchase Agreement); and

This Agreement constitutes the Seller Note under and as defined in the Purchase Agreement and, *inter alia*, sets forth the terms and conditions under which the Purchaser (in its capacity as the Borrower hereunder) is to pay the Seller Note Amount (in the form of the “Loan” under this Agreement) to the Lender (in its capacity as a Seller under the Purchase Agreement and acting hereunder on its own behalf in such capacity and on behalf of the other Sellers under the Purchase Agreement).

Accordingly, the parties hereto agree as follows:

ARTICLE 1 DEFINITIONS

SECTION 1.01. Defined Terms. As used in this Agreement, the following terms have the meanings specified below:

“**Acceptable Intercreditor Agreement**” means (a) to the extent executed in connection with the incurrence of secured Indebtedness incurred by a Loan Party, the Liens on the Collateral securing which are intended to rank equal in priority to the Liens on the Collateral securing the Obligations, the Closing Date Intercreditor Agreement and (b) to the extent executed in connection with the incurrence of secured Indebtedness incurred by a Loan Party, the Liens on the Collateral securing which are intended to rank junior in priority to the Liens on the Collateral securing the Obligations, at the option of the Borrower and the Lender acting together in good faith, a customary intercreditor agreement in form and substance reasonably acceptable to the Lender and the Borrower, which agreement shall provide that the Liens on the Collateral securing such Indebtedness shall rank junior in priority to the Liens on the Collateral securing the Obligations.

“**Acquired EBITDA**” means, with respect to any Acquired Entity or Business for any period, the amount for such period of Consolidated Adjusted EBITDA of such Acquired Entity or Business (determined as if references to Holdings and its Subsidiaries in the definition of the term “Consolidated Adjusted EBITDA” were references to such Acquired Entity or Business), as determined on a consolidated basis for such Acquired Entity or Business in accordance with GAAP.

“**Acquired Entity or Business**” has the meaning assigned to such term in the definition of “Consolidated Adjusted EBITDA.”

“**Adverse Proceeding**” means any action, suit, proceeding (whether administrative, judicial or otherwise), governmental investigation or arbitration (whether or not purportedly on behalf of Holdings or any of its Subsidiaries) at law or in equity, or before or by any Governmental Authority, domestic or foreign (including any Environmental Claims), whether pending or, to the knowledge of Holdings, threatened in writing against or affecting Holdings or any of its Subsidiaries or any property of Holdings or any of its Subsidiaries.

“**Affiliate**” means, as applied to any Person, any other Person directly or indirectly Controlling, Controlled by, or under common Control with, that Person and shall include any Person that directly or indirectly owns 10% or more of any class of Capital Stock of the Person specified. None of the Lender or any of its Affiliates shall be considered an Affiliate of Holdings or any subsidiary thereof.

“**Agreement**” has the meaning assigned to such term in the preamble to this Agreement.

“**Anti-Corruption Laws**” means Requirements of Law relating to antibribery or anti-corruption (governmental or commercial), including, without limitation, laws that prohibit the corrupt payment, offer, promise, or authorization of the payment or transfer of anything of value (including gifts or entertainment), directly or indirectly, to any foreign government official, foreign government employee, person or commercial entity to obtain a business advantage, or the offer, promise, or gift of, or the request for, agreement to receive or receipt of a financial or other advantage to induce or reward the improper proper performance of a relevant function or activity; such as, without limitation, the U.S. Foreign Corrupt Practices Act of 1977, as amended from time to time, and all laws enacted to implement the Organisation for Economic Co-operation and Development Convention on Combating Bribery of Foreign Public Officials in International Business Transactions applicable in the United States.

“**Anti-Terrorism Laws**” means Requirements of Law relating to terrorism or money laundering in the United States, including the Executive Order, the USA PATRIOT Act, together with all rules, regulations and interpretations thereunder or related thereto.

“**Applicable Premium**” means, with respect to the principal amount of the Loan being prepaid or repaid, as the case may be, on any applicable payment date, the excess, if any, of (i) the sum of (A) (x) for any applicable payment date during the period from the Closing Date until (and including) the first anniversary thereof, 107.5% of the principal amount of the Loan being prepaid or repaid, (y) for any applicable payment date during the period from (but not including) the first anniversary of the Closing Date until (and including) the second anniversary of the Closing Date, 106.5% of the principal amount of the Loan being prepaid or repaid, and (z) for any applicable payment date during the period after the second anniversary of the Closing Date, 105.5% of the principal amount of the Loan being prepaid or repaid, plus (B) the present value at such payment date of the sum of all required remaining scheduled interest payments due (including, if applicable, any default interest that may be applicable at the time of repayment or

prepayment) on the principal amount of the Loan being repaid or prepaid through the Maturity Date (excluding accrued but unpaid interest to such payment date), with such present value computed using a discount rate equal to the then-current U.S. Treasury Note yield corresponding closest to the remaining weighted average life on such repaid or prepaid amount calculated at the time of the prepayment plus 0.50% per annum over (ii) the then outstanding principal amount of the Loan being repaid or prepaid (for the avoidance of any doubt, in the event the Applicable Premium is payable pursuant to Article 7, for purpose of calculating the Applicable Premium, the Maturity Date used for any such calculation shall be as such term is defined in this Article 1). The Applicable Premium shall be calculated by the Lender or on behalf of the Lender by such Person as the Lender shall designate in its reasonable discretion and such calculation shall be deemed conclusive for all purposes hereunder absent manifest error.

“**Available Equity Amount**” means, at any applicable time (the “**Available Equity Amount Reference Time**”), an amount (which shall not be less than zero) equal at such time to (a) the aggregate amount of cash contributed to the capital of Holdings or the cash proceeds received by Holdings from the issuance of any Qualified Capital Stock (or incurrence of Indebtedness that has been converted into or exchanged for Qualified Capital Stock of Holdings), in each case during the period from and including the Business Day immediately following the Closing Date through and including the Available Equity Amount Reference Time, but excluding all proceeds from the issuance of Disqualified Capital Stock minus (b) the sum, without duplication, and, without taking into account the proposed portion of the Available Equity Amount calculated above to be used at the applicable Available Equity Amount Reference Time, of (i) the aggregate amount of any Investments made by Holdings or any Subsidiary using the Available Equity Amount pursuant to Section 6.05(t) after the Closing Date and prior to the Available Equity Amount Reference Time, (ii) the aggregate amount of any Restricted Payments made by Holdings or any Subsidiary using the Available Equity Amount pursuant to Section 6.04(a)(vii) after the Closing Date and prior to the Available Equity Amount Reference Time and (iii) the aggregate amount of Restricted Debt Payments made by Holdings or any Subsidiary using the Available Equity Amount pursuant to Section 6.04(c)(iv)(C) after the Closing Date and prior to the Available Equity Amount Reference Time. For the avoidance of any doubt, no cash contributed to the capital of Holdings (whether as a result of the issuance of Capital Stock or otherwise) in connection with the Transactions shall constitute any portion of the Available Equity Amount.

“**Available Equity Amount Reference Time**” shall have the meaning given to such term in the definition of the term “Available Equity Amount.”

“**Bankruptcy Code**” means Title 11 of the U.S. Code (11 U.S.C. § 101 et seq.).

“**Board**” means the Board of Governors of the Federal Reserve System of the U.S.

“**Board of Directors**” means, with respect to any Person, (a) in the case of any corporation, the board of directors of such Person or any committee thereof duly authorized to act on behalf of such board, (b) in the case of any limited liability company, the board of managers, board of directors, manager or managing member of such Person or the functional equivalent of the foregoing, (c) in the case of any partnership, the board of directors, board of managers, manager or managing member of a general partner of such Person or the functional equivalent of the foregoing and (d) in any other case, the functional equivalent of the foregoing.

“**Borrower**” shall have the meaning given to such term in the preamble hereto.

“**Business Day**” means any day that is not a Saturday, Sunday or other day on which commercial banks in New York City are authorized or required by law to remain closed.

“**Business Optimization Initiative**” has the meaning assigned to such term in the definition of Consolidated Adjusted EBITDA.

“**Call Protection Termination Date**” has the meaning assigned to such term in [Section 2.03\(a\)](#).

“**Capital Stock**” means any and all shares, interests, participations or other equivalents (however designated) of capital stock of a corporation, any and all equivalent ownership interests in a Person (other than a corporation), including partnership interests and membership interests, and any and all warrants, rights or options to purchase or other arrangements or rights to acquire any of the foregoing, but excluding for the avoidance of doubt any Indebtedness convertible into or exchangeable for any of the foregoing.

“**Cash**” means money, currency or a credit balance in any demand account or deposit account. For the avoidance of doubt, and in respect of any financial covenant or ratio, the amount of Cash at any time shall be determined in accordance with GAAP.

“**Cash Equivalents**” means, as at any date of determination,

(a) readily marketable securities (i) issued or directly and unconditionally guaranteed or insured as to interest and principal by the government of the U.S., Canada, the United Kingdom or any member nation of the European Union rated at least A-2 from S&P or at least P-2 from Moody’s (or, if at any time either S&P or Moody’s is not rating such obligations, an equivalent rating from another nationally recognized statistical rating agency) or (ii) issued by any agency or instrumentality of any of the foregoing, the obligations of which are backed by the full faith and credit of the U.S., Canada, the United Kingdom or any such member nation of the European Union, as applicable, in each case having average maturities of not more than 24 months from the date of acquisition thereof and, in each case, repurchase agreements and reverse repurchase agreements relating thereto;

(b) readily marketable direct obligations issued by any state, commonwealth or territory of the U.S. or any political subdivision, taxing authority or any public instrumentality thereof or by any foreign government, in each case having average maturities of not more than 24 months from the acquisition thereof and having, at the time of the acquisition thereof, a rating of at least A-2 from S&P or at least P-2 from Moody’s (or, if at any time either S&P or Moody’s is not rating such obligations, an equivalent rating from another nationally recognized statistical rating agency) or otherwise having an investment grade rating from S&P or Moody’s and, in each case, repurchase agreements and reverse repurchase agreements relating thereto;

(c) commercial paper and variable fixed rate notes having average maturities of not more than 24 months from the date of creation thereof and having, at the time of the acquisition thereof, a rating of at least A-2 from S&P or at least P-2 from Moody’s (or, if at any time either S&P or Moody’s is not rating such obligations, an equivalent rating from another nationally recognized statistical rating agency);

(d) deposits, money market deposits, time deposit accounts, certificates of deposit or bankers’ acceptances (or similar instruments) maturing within one year after such date and issued or accepted by the Lender or by any bank organized under, or authorized to operate as a bank under, the laws of the U.S., any state thereof or the District of Columbia or any political subdivision thereof and that has capital and surplus of not less than \$100,000,000 and, in each case, repurchase agreements and reverse repurchase agreements relating thereto;

(e) securities with maturities of six months or less from the date of acquisition backed by standby letters of credit issued by any commercial bank having capital and surplus of not less than \$500,000,000; and

(f) marketable short-term money market and similar highly liquid funds (i) having a rating of at least P-2 or A-2 from either Moody's or S&P, respectively (or, if at any time either S&P or Moody's is not rating such obligations, an equivalent rating from another nationally recognized statistical rating agency) or (ii) having assets in excess of (x) \$500,000,000 in the case of U.S. banks or other U.S. financial institutions and (y) \$250,000,000 (or the dollar equivalent as of the date of determination) in the case of non-U.S. banks or other non-U.S. financial institutions.

"Casualty/Condemnation Event" means any event that gives rise to the receipt by Holdings or any Subsidiary of any Cash payments or proceeds (i) under any casualty insurance policy in respect of a covered loss thereunder of any assets of Holdings or any of its Subsidiaries or (ii) as a result of the taking of any assets of Holdings or any of its Subsidiaries by any Person pursuant to the power of eminent domain, expropriation, condemnation or otherwise, or pursuant to a sale of any such assets to a purchaser with such power under threat of such a taking.

"CFC" means a "controlled foreign corporation" within the meaning of Section 957 of the Code.

"Change of Control" means the earliest to occur of:

(a) at any time prior to a Qualifying IPO, the Permitted Holders ceasing to beneficially own, either directly or indirectly, Capital Stock representing more than 50.0% of the total voting power of all of the outstanding Voting Stock of Holdings unless the Permitted Holders otherwise have the right (pursuant to contract, proxy or otherwise), directly or indirectly, to designate, nominate or appoint (and do so designate, nominate or appoint) directors of Holdings having a majority of the aggregate votes on the Board of Directors (or functional equivalent thereof) of Holdings, so long as for purposes of this clause (a), the Sponsor shall either directly or indirectly control at least 30% of the outstanding voting equity interests of Holdings;

(b) at any time on or after a Qualifying IPO, the acquisition by any Person or group, including any group acting for the purpose of acquiring, holding or disposing of Securities, other than one or more Permitted Holders, of Capital Stock representing more than the greater of (i) 35.0% of the total voting power of all of the outstanding Voting Stock of Holdings and (ii) the percentage of the total voting power of all of the outstanding Voting Stock of Holdings owned, directly or indirectly, beneficially by the Permitted Holders unless the Permitted Holders otherwise have the right (pursuant to contract, proxy or otherwise), directly or indirectly, to designate, nominate or appoint (and do so designate, nominate or appoint) directors of Holdings having a majority of the aggregate votes on the Board of Directors (or functional equivalent thereof) of Holdings; or

(c) the Borrower ceases to be a direct Wholly-Owned Subsidiary of Holdings.

For purposes of this definition including other defined terms used herein in connection with this definition and notwithstanding anything to the contrary in this definition or any provision of Section 13(d)-3 or 13(d)-5 of the Exchange Act, (i) "beneficial ownership" shall be as defined in Rules 13(d)-3 and 13(d)-5 under the Exchange Act as in effect on the date hereof and (ii) the words "Person" and "group" shall be within the meaning of Section 13(d) or 14(d) of the Exchange Act.

For purposes of this definition and any related definition to the extent used for purposes of this definition, at any time when 50% or more of the total voting power of the Voting Stock is directly or indirectly owned by parent holding companies, all references to Holdings shall be deemed to refer to its ultimate parent holding company (but excluding any Permitted Holder) that directly or indirectly owns such Voting Stock.

“**Closing Date**” means December 9, 2021.

“**Closing Date Intercreditor Agreement**” means that certain First Lien Intercreditor Agreement, dated as of the Closing Date, by and among Holdings, the Borrower, the Lender, as First Lien Agreement Lender (as defined therein), Bank of America, N.A., as PR Authorized Representative and Initial Additional Authorized Representative (each as defined therein), and each additional authorized representative and collateral agent from time to time party thereto (as may be amended, restated, supplemented or otherwise modified from time to time in accordance with its terms).

“**Code**” means the Internal Revenue Code of 1986, as amended.

“**Collateral**” means any and all property of a Loan Party subject to a Lien under the Collateral Documents and any and all other property of any Loan Party, now existing or hereafter acquired, that is or becomes subject to a Lien pursuant to the Collateral Documents to secure the Obligations.

“**Collateral Documents**” means, collectively, the Pledge and Security Agreement, the Mortgages (if any) and each other Collateral Document described on Schedule 5.14 and any other documents granting a Lien upon the Collateral as security for payment of the Obligations pursuant to the terms hereof or any other Loan Document.

“**Compliance Certificate**” means a Compliance Certificate substantially in the form of Exhibit A.

“**Confidential Information**” has the meaning assigned to such term in Section 8.13(a).

“**Consolidated Adjusted EBITDA**” means, for any period, an amount determined for Holdings and its Subsidiaries on a consolidated basis equal to the total of (a) Consolidated Net Income for such period *plus* (b) the sum, without duplication, of (to the extent deducted in calculating Consolidated Net Income, other than in respect of clauses (v), (viii) and (ix) below) the amounts of:

- (i) total interest expense (including non-cash interest expense) and, to the extent not reflected in such total interest expense, any losses on obligations under hedging and similar agreements or other derivative instruments entered into for the purpose of hedging interest rate risk, net of interest income and gains on such hedging and similar agreements or such derivative instruments, bank and letter of credit fees, amortization of deferred financing fees or costs and costs of surety bonds in connection with financing activities;
- (ii) (A) Taxes paid (including pursuant to any Tax sharing arrangements) and provisions for Taxes (including changes in valuation allowances for deferred tax assets) of Holdings and its Subsidiaries, including, in each case federal, state, provincial, territorial, local, foreign, unitary, income, capital, franchise, excise, property, value added, withholding and similar Taxes (including in respect of repatriated funds) and (B) any penalties and interest related to such Taxes or arising from any tax examinations paid or accrued during such period;
- (iii) total depreciation and amortization expense;
- (iv) other non-Cash charges, losses or expenses (including, if applicable, any excess of rent expense over actual cash rent paid due to the use of straight line rent for GAAP purposes); provided that if any such non-Cash charge, loss or expense represents an accrual or reserve for potential Cash items in any future period, (A) Holdings may determine not to add back such non-Cash charge, loss or expense in the current period and (B) to the extent Holdings does decide to add back such non-Cash charge, loss or expense, the Cash payment in respect thereof in such future period shall be subtracted from Consolidated Adjusted EBITDA in the period in which such payment is made;

(v) the amount of any expense or deduction associated with any Subsidiary of Holdings attributable to non-controlling interests or minority or other interests of third parties;

(vi) (A) the amount of any portion of management, monitoring, consulting, transaction and advisory fees (including any subsequent transaction, exit or termination fee), (B) the amount of indemnities and related expenses actually paid by or on behalf of, or accrued by, Holdings or any of its Subsidiaries to the Investors (or their Affiliates or management companies) to the extent permitted under this Agreement and (C) the amount of fees, expenses and indemnities paid to directors, including of Holdings or any direct or indirect parent thereof; provided, that the aggregate amount of any adjustments made pursuant to clause (A) of this clause (vi) shall not exceed in the aggregate 2.0% of Consolidated Adjusted EBITDA for such period (calculated prior to giving effect to any such adjustments);

(vii) the amount of any costs, charges, accruals, reserves or expenses in connection with a single or one-time event, including in connection with the Transactions, any acquisition or any other Investment, in each case, permitted hereunder and consummated or un consummated after the Closing Date (including, without limitation, legal, accounting and other professional fees and expenses incurred in connection with any acquisition or other Investments);

(viii) the pro forma “run rate” expected cost savings, operating improvements and expense reductions and other synergies (net of the amount of actual amounts realized and, solely in the case of the Transactions, with such other synergies to be limited to cost synergies) (collectively, “**Expected Run Rate Benefit**”) reasonably identifiable and factually supportable (in the good faith determination of a Financial Officer of the Borrower) related to the Transactions or any asset sales, mergers or other business combinations, acquisitions, Investments, Dispositions or divestitures, operating improvements, expense reductions, restructurings, cost savings initiatives and other initiatives and specified transactions, in each case, not prohibited by this Agreement and whether consummated or adopted, as applicable, on or after the Closing Date (any such operating improvement, expense reduction, restructuring, cost savings initiative and/or other initiative, a “**Business Optimization Initiative**”), which Expected Run Rate Benefit shall be added to Consolidated Adjusted EBITDA until fully realized and calculated on a Pro Forma Basis as though such Expected Run Rate Benefit had been realized on the first day of the relevant period (it being understood and agreed that “run rate” shall mean the full recurring benefit that is associated with any action taken); provided that (A) such Expected Run Rate Benefit is projected by a Financial Officer of the Borrower in good faith to be realized as a result of actions that have been taken or initiated or are expected to be taken within 18 months of the event giving rise thereto or the consummation of such transaction or initiative and (B) the share of any such Expected Run Rate Benefit with respect to a joint venture that are to be allocated to Holdings or any of the Subsidiaries shall not exceed the total amount thereof for any such joint venture multiplied by the percentage of income of such venture expected to be included in Consolidated Adjusted EBITDA for the relevant Test Period; provided, further, that the aggregate amount of any adjustments made pursuant to (1) this clause (b)(viii) for any transactions or Business Optimization Initiatives, (2) clause (b)(xiii) of this definition, (3) clause (c) of the definition of “Consolidated Net Income” and (4) clause (i) of the definition of “Consolidated Net Income” shall not exceed in the aggregate 25% of Consolidated Adjusted EBITDA for such period (calculated prior to giving effect to any such adjustments under such clauses);

(ix) to the extent not otherwise included in Consolidated Net Income, proceeds of business interruption insurance in an amount representing the earnings for the applicable period that such proceeds are intended to replace (whether or not received so long as the Borrower in good faith expects to receive the same within the next four Fiscal Quarters (it being understood that to the extent not actually received within such Fiscal Quarters, such proceeds shall be deducted in calculating Consolidated Adjusted EBITDA for such Fiscal Quarters));

(x) any expenses and charges that are reimbursed by indemnification or other reimbursement provisions in connection with any investment or any sale, conveyance, transfer or other Disposition of assets permitted hereunder;

(xi) Cash actually received (or any netting arrangements resulting in reduced Cash expenditures) during such period, and not included in Consolidated Net Income for such period, to the extent that the non-Cash gain relating to such Cash receipt or netting arrangement was deducted in the calculation of Consolidated Adjusted EBITDA pursuant to clause (c)(i) below for any previous period and not added back or was realized in a period prior to the Closing Date;

(xii) any costs or expense incurred pursuant to any management equity plan, profits interest plan or stock option plan or any other management or employee benefit plan or agreement or any subscription or shareholder agreement, solely to the extent that such cost or expenses are funded solely with cash proceeds contributed to the capital of Holdings or Net Proceeds of an issuance of Capital Stock of Holdings during such applicable measurement period (or any Parent Company) (other than Disqualified Capital Stock);

(xiii) costs, expenses, charges, accruals, reserves (including restructuring costs related to acquisitions prior to, on or after the Closing Date) or expenses attributable to the undertaking and/or the implementation of cost savings initiatives, operating expense reductions, operating improvements and other restructuring and integration and transition costs, costs associated with inventory category and distribution optimization programs, pre-opening, opening and other business optimization expenses (including software development costs), future lease commitments, consolidation, discontinuance and closing and consolidation costs and expenses for locations and/or facilities, contract termination payments, signing, retention and completion bonuses, abandoned acquisition costs, costs related to entry and expansion into new markets (including consulting fees) or the exit from existing markets (including with respect to the termination of customer, vendor, supplier, lease or other contracts) and to modifications to pension and post-retirement employee benefit plans, system design, establishment and implementation costs and project start-up costs; provided, that the aggregate amount of any adjustments made pursuant to (1) this clause (b) (xiii), (2) clause (b)(viii) of this definition, (3) clause (c) of the definition of "Consolidated Net Income" and (4) clause (i) of the definition of "Consolidated Net Income" shall not exceed in the aggregate 25% of Consolidated Adjusted EBITDA for such period (calculated prior to giving effect to any such adjustments under such clauses);

(xiv) adjustments and add backs expressly reflected and for the time periods specified in (a) the model provided by the Lender to the Sponsor, dated as of September 10, 2021 and (b) the Quality of Earnings Analysis provided by the Lender, dated as of September 10, 2021;

(xv) [reserved]; and

(xvi) costs and expenses related to the entry into new contracts during such period, including the start-up and ramp-up costs associated therewith;

minus (c) without duplication and to the extent such amounts increase Consolidated Net Income:

(i) other non-Cash gains, including deductions for the excess of actual Cash rent paid over GAAP rent expense during such period due to the use of a straight line rent for GAAP purposes but excluding any non-cash gains that represent the reversal of any accrual of, or cash reserve for, anticipated cash items that reduced Consolidated EBITDA in any prior period; provided that if any non-Cash gain or income relates to potential Cash items in any future periods, the Borrower may determine not to deduct such non-Cash gain or income in the current period;

(ii) any realized or unrealized net gains in respect of any obligation under hedging and similar agreements;

(iii) the amount of any income associated with any Subsidiary of Holdings attributable to non-controlling interests or minority interests of third parties;

(iv) the amount added back to Consolidated Adjusted EBITDA pursuant to clause (b)(ix) above to the extent such business interruption proceeds were not received within the time period required by such clause; and

(v) to the extent that the amount of any non-Cash charge is added back to Consolidated Adjusted EBITDA pursuant to clause (b)(iv) above, the Cash payment in respect thereof in such future period.

There shall be included in determining Consolidated Adjusted EBITDA for any period, without duplication, the Acquired EBITDA of any Person, property, business or asset acquired by Holdings or any Subsidiary during such period (but not the Acquired EBITDA of any related Person, property, business or assets to the extent not so acquired), to the extent not subsequently sold, transferred or otherwise Disposed of by Holdings or such Subsidiary during such period (each such Person, property, business or asset acquired (including pursuant to a Permitted Acquisition (or similar Investment)) and not subsequently so Disposed of, an “**Acquired Entity or Business**”), based on the actual Acquired EBITDA of such Acquired Entity or Business for such period (including the portion thereof occurring prior to such acquisition) determined on a historical pro forma basis. There shall be excluded in determining Consolidated Adjusted EBITDA for any period the Disposed EBITDA of any Person, property, business or asset sold, transferred or otherwise Disposed of, closed or classified as discontinued operations by Holdings or any Subsidiary during such period (each such Person, property, business or asset so sold or Disposed of, a “**Sold Entity or Business**”), based on the actual Disposed EBITDA of such Sold Entity or Business for such period (including the portion thereof occurring prior to such sale, transfer or Disposition) determined on a historical pro forma basis; provided that for the avoidance of doubt, notwithstanding any classification under GAAP of any Person or business in respect of which a definitive agreement for the Disposition thereof has been entered into as discontinued operations, the Disposed EBITDA of such Person or business shall not be excluded pursuant to this paragraph until such Disposition shall have been consummated.

Notwithstanding anything to the contrary herein, and subject to, without any duplication of any adjustments already included in the amounts below, other adjustments contemplated by clauses (b)(viii) and (b)(xiii) above, it is agreed that for any period that includes the Fiscal Quarters ended December 31, 2020, March 31, 2021, June 30, 2021 or September 30, 2021, Consolidated Adjusted EBITDA for each such applicable Fiscal Quarter shall be as specified on Schedule 1.01(a).

“**Consolidated Net Income**” means, for any period, the net income (or loss) of Holdings and its Subsidiaries on a consolidated basis for such period taken as a single accounting period determined in conformity with GAAP (and, without duplication, taking into account any cash expenses in respect of Financing Lease Obligations and operating leases); provided that there shall be excluded, without duplication,

(a) the income (or loss) of any Person (other than Holdings or a Subsidiary of Holdings) in which any other Person (other than Holdings or any of its Subsidiaries) has a joint interest, except, with respect to any income, to the extent of the amount of dividends or distributions or other payments (including any ordinary course dividend, distribution or other payment) paid in Cash (or to the extent converted into Cash) or Cash Equivalents to Holdings or any of its Subsidiaries by such Person during such period,

(b) gains, income, losses, expenses or charges (less all fees and expenses chargeable thereto) attributable to (i) asset Dispositions or (ii) returned surplus assets of any Pension Plan, in each case outside of the ordinary course of business,

(c) gains, income, expenses, charges or losses arising in connection with exceptional, extraordinary, unusual, non-recurring and/or one-time events (in each case as determined in good faith by the Borrower), and, in each case, any accruals or reserves in respect thereof and, excluding for the avoidance of doubt, any gain resulting from payments received by Holdings or any Subsidiary in respect of the early termination of a customer contract, in each case as set forth in reasonable detail in the Compliance Certificate for the applicable Test Period; provided, that the aggregate amount of any adjustments made pursuant to (1) this clause (c), (2) clause (b)(viii) of the definition of “Consolidated Adjusted EBITDA”, (3) clause (b)(xiii) of the definition of “Consolidated Adjusted EBITDA” and (4) clause (i) of the definition of “Consolidated Net Income”, shall not exceed in the aggregate 25% of Consolidated Adjusted EBITDA for such period (calculated prior to giving effect to any such adjustments under such clauses),

(d) any unrealized or realized net foreign currency translation or transaction gains or losses impacting net income (including currency re-measurements of Indebtedness and any net gains or losses resulting from hedge agreements for currency exchange risk associated with the above or any other currency related risk and those resulting from intercompany Indebtedness and revaluations of intercompany balances or other balance sheet items),

(e) any net gains, income, losses, expenses or charges with respect to (i) disposed, abandoned, divested and discontinued operations and any accretion or accrual of discounted liabilities on the disposal of such disposed, divested, abandoned and discontinued operations (other than, at the option of the Borrower, any asset, property or operation pending the disposal, abandonment, divestiture or termination thereof) and (ii) locations, facilities, stores or distribution centers that have been closed during such period,

(f) any net income or loss (less all fees and expenses or charges related thereto) attributable to the early extinguishment of Indebtedness (and termination of any associated hedge agreements),

(g) (i) effects of adjustments (including the effects of such adjustments pushed down to Holdings and its Subsidiaries) in Holdings' consolidated financial statements pursuant to GAAP (including in the inventory, property and equipment, rights, fee arrangements, software, goodwill, intangible assets, in-process research and development, deferred revenue, advanced billings, leases and debt line items thereof) resulting from the application of recapitalization accounting or acquisition or purchase accounting, as the case may be, in relation to the Transactions or any consummated acquisition or the amortization or write-off of any amounts thereof and (ii) the cumulative effect of changes in accounting principles or policies and changes as a result of the adoption or modification of accounting policies,

(h) (A) Transaction Costs, (B) transaction fees, costs and expenses (including any transaction or retention bonus or similar payment and any non-recurring merger and amalgamation costs) incurred in connection with the consummation of any transaction (or any transaction proposed and not consummated), that is expressly permitted under this Agreement, including the issuance or offering of Capital Stock, Investments, acquisitions, Dispositions, recapitalizations, mergers, consolidations or amalgamations, option buyouts or the incurrence, repayment, refinancing, amendment or modification of Indebtedness (including any amortization or write-off of debt issuance or deferred financing costs, premiums and prepayment penalties and any such fees, costs or expenses related to this Agreement) or similar transactions and (C) the amount of any fee, cost, charge, expense or reserve to the extent actually reimbursed or reimbursable by third parties pursuant to indemnification or reimbursement provisions or similar agreements or insurance, and

(i) charges, expenses, costs, accruals, reserves (including any accruals or reserves in respect of any extraordinary, non-recurring or unusual items) or losses of any kind, attributable to the undertaking of new initiatives, business optimization activities, cost savings initiatives, cost rationalization programs, operating expense reductions, other operating improvements and/or synergies and/or similar initiatives and/or programs, integration, transition, reconstruction, decommissioning, recommissioning or reconfiguration of fixed assets for alternative uses, facility or office opening and pre-opening costs (including unused warehouse, facilities or office space costs and any related employee hiring or retention costs, start-up costs, initial testing and registration costs in new markets, the cost of feasibility studies, travel costs for employees engaged in activities relating to any or all of the foregoing and the allocation of general and administrative support in connection with any or all of the foregoing), any business optimization charge, any charge relating to the destruction of equipment, any restructuring charge (including any charge relating to any tax restructuring), any charge relating to the closure or consolidation of any facility (including but not limited to rent termination costs, reconfiguration costs and moving costs and legal costs), any systems implementation charge, any severance charge, any charge relating to entry into a new market, any charge relating to any strategic initiative, any signing charge, any retention or completion bonus, any expansion and/or relocation charge, any charge associated with any modification to any pension and post-retirement employee benefit plan, any software or intellectual property development charge, any charge associated with new systems design or product development, new systems design costs, any implementation or upgrade charge or expense, any startup charge, any charge in connection with new operations, any charge relating to a new contract, any consulting charge and/or any corporate development charge, consulting and other professional fees and costs, executive recruiting costs, relocation expenses and severance payments, costs related to the closure, consolidation or transfer of production lines between facilities and curtailments; costs related to the consolidation, closing or reconfiguration of facilities, branches or distribution centers; costs related to the exiting of lines of business or products; and contract termination costs, in each case as set forth in reasonable detail in the Compliance Certificate for the applicable Test Period; provided, that the aggregate amount of any adjustments made pursuant to (1) this clause (i), (2) clause (b)(viii) of the definition of "Consolidated Adjusted EBITDA", (3) clause (b)(xiii) of the definition of "Consolidated Adjusted EBITDA" and (4) clause (c) of the definition of "Consolidated Net Income", shall not exceed in the aggregate 25% of Consolidated Adjusted EBITDA for such period (calculated prior to giving effect to any such adjustments under such clauses).

“**Consolidated Total Debt**” means (a) the aggregate principal amount of Indebtedness of Holdings and its Subsidiaries outstanding on such date, determined on a consolidated basis in accordance with GAAP, consisting of Indebtedness for borrowed money, Disqualified Capital Stock, Financing Lease Obligations and debt obligations evidenced by promissory notes, bonds, indentures, credit agreements or similar instruments minus (b) the Unrestricted Cash Amount as of such date in an amount not to exceed \$100,000,000.

“**Consolidated Total Leverage Ratio**” means the ratio, as of any date of determination, of (a) Consolidated Total Debt as of the last day of the Test Period most recently ended on or prior to the date of determination to (b) Consolidated Adjusted EBITDA for the most recently ended Test Period.

“**Contractual Obligation**” means, as applied to any Person, any provision of any Security issued by that Person or of any material indenture, mortgage, deed of trust, contract, undertaking, agreement or other instrument to which that Person is a party or by which it or any of its properties is bound or to which it or any of its properties is subject.

“**Control**” means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ability to exercise voting power, by contract or otherwise. “**Controlling**” and “**Controlled**” have meanings correlative thereto.

“**Debtor Relief Laws**” means the Bankruptcy Code of the U.S., and all other liquidation, conservatorship, bankruptcy, general assignment for the benefit of creditors, moratorium, arrangement, rearrangement, receivership, insolvency, reorganization or similar debtor relief laws of the U.S. or other applicable jurisdictions from time to time in effect and affecting the rights of creditors generally.

“**Declined Proceeds**” has the meaning assigned to such term in Section 2.03(b)(iii).

“**Default**” means any event or condition which upon notice, lapse of time or both would (unless cured or waived) become an Event of Default.

“**Derivative Transaction**” means (a) any interest-rate transaction, including any interest-rate swap, basis swap, forward rate agreement, interest rate option (including a cap, collar or floor), and any other instrument linked to interest rates that gives rise to similar credit risks (including when-issued securities and forward deposits accepted), (b) any exchange-rate transaction, including any cross-currency interest-rate swap, any forward foreign-exchange contract, any currency option, and any other instrument linked to exchange rates that gives rise to similar credit risks, (c) any equity derivative transaction, including any equity-linked swap, any equity-linked option, any forward equity-linked contract, and any other instrument linked to equities that gives rise to similar credit risk and (d) any commodity (including precious metal) derivative transaction, including any commodity-linked swap, any commodity-linked option, any forward commodity-linked contract, and any other instrument linked to commodities that gives rise to similar credit risks.

“**Designated Non-Cash Consideration**” means the Fair Market Value of non-Cash consideration received by Holdings or its Restricted Subsidiaries in connection with a Disposition pursuant to Section 6.06(g) that is designated as “Designated Non-Cash Consideration” pursuant to a certificate of a Responsible Officer of Holdings delivered to the Lender, setting forth the basis of such valuation.

“**Disposed EBITDA**” means, with respect to any Sold Entity or Business for any period, the amount for such period of Consolidated Adjusted EBITDA of such Sold Entity or Business (determined as if references to Holdings and its Subsidiaries in the definition of the term “Consolidated Adjusted EBITDA” (and in the component financial definitions used therein) were references to such Sold Entity or Business and its Subsidiaries), all as determined on a consolidated basis for such Sold Entity or Business.

“**Disposition**” or “**Dispose**” means the sale, lease, sublease, or other disposition of any property of any Person.

“**Disqualified Capital Stock**” means any Capital Stock which, by its terms (or by the terms of any Security into which it is convertible or for which it is exchangeable), or upon the happening of any event, (a) matures (excluding any maturity as the result of an optional redemption by the issuer thereof) or is mandatorily redeemable (other than for Qualified Capital Stock and Cash in lieu of fractional shares), pursuant to a sinking fund obligation or otherwise, or is redeemable at the option of the holder thereof (other than for Qualified Capital Stock and Cash in lieu of fractional shares), in whole or in part, on or prior to 91 days following the Maturity Date at the time such Capital Stock is issued, (b) is or becomes convertible into or exchangeable (unless at the sole option of the issuer thereof) for (i) debt securities or loans or (ii) any Capital Stock that would constitute Disqualified Capital Stock, in each case at any time on or prior to 91 days following the Maturity Date at the time such Capital Stock is issued, (c) contains any mandatory repurchase obligation which may come into effect prior to the Termination Date (or the date that is 91 days following the Maturity Date at the time such Capital Stock is issued) or (d) provides for the scheduled payments of dividends in Cash on or prior to 91 days following the Maturity Date at the time such Capital Stock is issued; provided, however, that only the portion of Capital Stock that so matures or is mandatorily redeemable, is so convertible or exchangeable or is so redeemable at the option of the holder thereof prior to such date shall be deemed to be Disqualified Capital Stock; provided that, if such Capital Stock is issued pursuant to any plan for the benefit of officers, directors, employees or consultants of Holdings (or any Parent Company), the Borrower or any of its Subsidiaries or by any such plan to such officers, directors, employees or consultants, such Capital Stock shall not constitute Disqualified Capital Stock solely because it may be required to be repurchased by Holdings (or any Parent Company), the Borrower or any of its Subsidiaries in order to satisfy applicable statutory or regulatory obligations or as a result of such officer’s, director’s, employee’s or consultant’s termination, death or disability; provided, further, however, that any Capital Stock held by any future, current or former employee, officer, manager, consultant, director, employee or independent contractor of Holdings, the Borrower, any of its Subsidiaries or any Parent Company, in each case pursuant to any equity option or equity appreciation rights plan, any management, director and/or employee equity ownership or incentive plan, equity subscription plan or subscription agreement, employment termination agreement or any other employment agreement or equity holders’ agreement shall not constitute Disqualified Capital Stock solely because it may be required to be repurchased by Holdings, the Borrower or its Subsidiaries; and provided, further, however, that any class of Capital Stock of such Person that by its terms requires such Person to satisfy its obligations thereunder by delivery of Capital Stock that is not Disqualified Capital Stock shall not be deemed to be Disqualified Capital Stock.

“**Disqualified Lender**” means those Persons identified on Schedule 1.01(b).

“**Dollars**” or “**\$**” refers to lawful money of the United States.

“**Domestic Subsidiary**” means any Subsidiary incorporated or organized under the laws of United States or any state thereof.

“Effective Yield” shall mean, as to any Indebtedness on any date of determination, the effective yield paid by the Borrower on such Indebtedness as determined by the Borrower and the Lender in a manner consistent with generally accepted financial practices, taking into account (a) the applicable interest rate margins, (b) any interest rate “floors” (the effect of which floors shall be determined in a manner set forth in the proviso below and assuming that, if interest on such Indebtedness is calculated on the basis of a floating rate, that LIBOR or similar component of such formula is included in the calculation of Effective Yield) or similar devices, (c) any amendment to the relevant interest rate margins and interest rate floors prior to the applicable date of determination and (d) all fees, including upfront or similar fees or original issue discount (amortized over the shorter of (x) the remaining weighted average life to maturity of such Indebtedness and (y) the four years following the date of incurrence thereof) payable generally by or on behalf of the Borrower to the lenders or other institutions providing such Indebtedness, but excluding arrangement fees, structuring fees, commitment fees, underwriting fees, closing payments or other similar fees, in each case payable to any lead arranger, bookrunner, manager, agent or Person in a similar capacity (or their affiliates) in connection with the commitment, syndication, marketing or offering of such Indebtedness and not payable to all lenders, and customary consent or amendment fees paid generally to consenting lenders (and regardless of whether any such fees are paid to, or shared in whole or in part with, any lender), ticking fees accruing prior to the funding of any such Indebtedness and any other fees of the type not paid or payable generally by or on behalf of the Borrower to lenders or other institutions in connection with the commitment, marketing or offering of such Indebtedness; provided that, with respect to any Indebtedness that includes a “floor”, (A) to the extent that the relevant benchmark on the date that the Effective Yield is being calculated is less than such floor, the amount of such difference shall be deemed added to the interest rate margin for such Indebtedness for the purpose of calculating the Effective Yield and (B) to the extent that the relevant benchmark on the date that the Effective Yield is being calculated is greater than such floor, then the floor shall be disregarded in calculating the Effective Yield.

“Environment” shall mean ambient air, indoor air, surface water, groundwater, drinking water, land surface, sediments, and subsurface strata & natural resources such as wetlands, flora and fauna.

“Environmental Claim” means any notice, notice of violation, claim, action, suit, proceeding, demand, abatement order or other order or directive (conditional or otherwise), by any Governmental Authority or any other Person, arising out of any Environmental Law, including (a) pursuant to or in connection with any actual or alleged violation of any Environmental Law; (b) in connection with any Release or threatened Release of Hazardous Material or any actual or alleged Hazardous Materials Activity; or (c) in connection with any actual or alleged damage, injury, threat or harm to natural resources or the environment.

“Environmental Laws” means any and all applicable foreign or domestic, federal, provincial, territorial or state (or any subdivision of either of them), statutes, ordinances, orders, rules, regulations, judgments, Governmental Authorizations, or any other applicable requirements of Governmental Authorities and the common law relating to the protection of the environment, including those relating to any Hazardous Materials Activity, or the generation, use, storage, transportation or disposal of or exposure to Hazardous Materials, in any manner applicable to Holdings or any of its Subsidiaries or any Facility.

“Environmental Liability” means any liability, contingent or otherwise (including any liability for damages, costs of environmental remediation, fines, penalties or indemnities), of Holdings or any Subsidiary directly or indirectly resulting from or based upon (a) violation of any Environmental Law, (b) the generation, use, handling, transportation, storage or treatment of any Hazardous Materials, (c) exposure to any Hazardous Materials, (d) the Release or threatened Release of any Hazardous Materials into the environment or (e) any contract, agreement or other consensual arrangement pursuant to which liability is assumed or imposed with respect to any of the foregoing.

“ERISA” means the Employee Retirement Income Security Act of 1974.

“**ERISA Affiliate**” means, as applied to any Person, (a) any corporation which is a member of a controlled group of corporations within the meaning of Section 414(b) of the Code of which that Person is a member, (b) any trade or business (whether or not incorporated) which is a member of a group of trades or businesses under common control within the meaning of Section 414(c) of the Code of which that Person is a member and (c) for purposes of Section 302 of ERISA and Section 412 of the Code, any organization which is a member of an affiliated service group within the meaning of Section 414(m) of the Code of which that Person is a member or any other Person which is treated as a single employer with such Person under Section 414(o) of the Code.

“**ERISA Event**” means (a) a “reportable event” within the meaning of Section 4043 of ERISA and the regulations issued thereunder with respect to any Pension Plan (excluding those for which the 30-day notice period has been waived); (b) the failure to meet the minimum funding standard of Section 412 of the Code or Section 302 of ERISA with respect to any Pension Plan; (c) the provision by the administrator of any Pension Plan pursuant to Section 4041(a)(2) of ERISA of a notice of intent to terminate such plan in a distress termination described in Section 4041(c) of ERISA; (d) the withdrawal by Holdings, any of its Subsidiaries or any of their respective ERISA Affiliates from any Pension Plan with two or more contributing sponsors or the termination of any such Pension Plan resulting in liability to Holdings, any of its Subsidiaries or any of their respective ERISA Affiliates pursuant to Section 4063 or 4064 of ERISA; (e) the institution by the PBGC of proceedings to terminate any Pension Plan, or the appointment of a trustee to administer any Pension Plan; (f) the imposition of liability on Holdings, any of its Subsidiaries or any of their respective ERISA Affiliates pursuant to Section 4062(e) or 4069 of ERISA or by reason of the application of Section 4212(c) of ERISA; (g) a complete or partial withdrawal (within the meaning of Sections 4203 and 4205 of ERISA) of Holdings, any of its Subsidiaries or any of their respective ERISA Affiliates from any Multiemployer Plan if there is any liability therefor under Title IV of ERISA, or the receipt by Holdings, any of its Subsidiaries or any of their respective ERISA Affiliates of notice from any Multiemployer Plan that it is in insolvency pursuant to Section 4245 of ERISA, or that it intends to terminate or has terminated under Section 4041A or 4042 of ERISA; (h) the occurrence of an act or omission which could reasonably be expected to give rise to the imposition on Holdings, any of its Subsidiaries or any of their respective ERISA Affiliates of fines, penalties, excise taxes or related charges under Chapter 43 of the Code or under Section 409, Section 502(c), (i) or (l), or Section 4071 of ERISA in respect of any Pension Plan; or (i) the incurrence of liability or the imposition of a Lien pursuant to Section 436 or 430(k) of the Code or pursuant to ERISA with respect to any Pension Plan, other than for PBGC premiums due but not delinquent.

“**Event of Default**” has the meaning assigned to such term in Article 7.

“**Exchange Act**” means the Securities Exchange Act of 1934 and the rules and regulations of the SEC promulgated thereunder.

“**Excluded Accounts**” means (a) payroll and other employee wage and benefit accounts, (b) tax accounts, including, without limitation, sales tax accounts, (c) escrow accounts, (d) fiduciary or trust accounts, (e) accounts containing solely cash reserves maintained by Regulated Entities for the purpose of meeting required reserve requirements, as required by applicable laws or regulations, and, in the case of clauses (a) through (e), the funds or other property held in or maintained in any such account (as long as the accounts described in clauses (a) through (e) are used solely for such purposes), (f) that certain deposit account with account number ending x7928 maintained in the name of Pivotal Home Solutions, LLC with PNC Bank, National Association, so long as the aggregate amount of funds on deposit therein is not in excess of \$1,250,000 (plus any interest declared and paid thereon) at any time and (g) any account with funds on deposit averaging less than \$2,500,000 (and in the aggregate of less than \$5,000,000 at all times for all such accounts).

“Excluded Assets” means (i) any fee-owned real property that is not a Material Real Estate Assets and any leasehold interests in Real Estate Assets, (ii) any governmental licenses or state or local franchises, charters or authorizations, to the extent a security interest in any such licenses, franchise, charter or authorization would be prohibited or restricted thereby (including any legally effective prohibition or restriction) after giving effect to the applicable anti-assignment clauses of the Uniform Commercial Code and other applicable laws, other than the proceeds and receivables thereof the assignment of which is expressly deemed effective under the Uniform Commercial Code and other applicable laws notwithstanding such prohibition, (iii) motor vehicles and other assets and personal property subject to certificates of title to the extent a Lien thereon cannot be perfected by the filing of a UCC financing statement or equivalent under applicable law, (iv) assets and personal property for which a pledge thereof or a security interest therein is prohibited by applicable laws (including any legally effective requirement to obtain the consent of any Governmental Authority) after giving effect to the applicable anti-assignment clauses of the Uniform Commercial Code and other applicable laws, other than the proceeds and receivables thereof the assignment of which is expressly deemed effective under the Uniform Commercial Code and other applicable laws notwithstanding such prohibition, (v) Excluded Capital Stock, (vi) assets and personal property to the extent a security interest in such assets would result in material adverse tax consequences as reasonably determined by the Borrower in good faith and consented to by the Lender, (vii) any intent-to-use trademark application prior to the filing of a “Statement of Use” or “Amendment to Allege Use” with respect thereto, (viii) any assets held directly or indirectly by any CFC or FSHCO, (ix) Excluded Accounts, (x) cash reserves maintained by Regulated Entities for the purpose of meeting required reserve requirements, as required by applicable laws or regulations (for avoidance of doubt, any cash amounts in excess of such requirements shall not constitute Excluded Assets by virtue of this clause (x)) and (xi) any lease, license, contract, instrument or other agreements or any property (including personal property) subject to a purchase money security interest, Financing Lease Obligation or similar arrangements, in each case to the extent permitted under the Loan Documents, to the extent that a pledge thereof or a security interest therein would violate or invalidate such lease, license, contract, instrument or agreement, purchase money, Financing Lease Obligation or similar arrangement, or create a right of termination in favor of any other party thereto (other than the Borrower or a Guarantor) after giving effect to the applicable anti-assignment clauses of the Uniform Commercial Code and other applicable laws, other than the proceeds and receivables thereof the assignment of which is expressly deemed effective under the Uniform Commercial Code and other applicable laws notwithstanding such prohibition.

“Excluded Capital Stock” means (i) any Capital Stock with respect to which, in the reasonable judgment of the Lender and the Borrower, the cost of pledging such Capital Stock shall be excessive in view of the benefits to be obtained by the Lender therefrom, (ii) solely in the case of any pledge of Capital Stock of any Subsidiary that is a CFC or FSHCO to secure the Obligations, any Capital Stock that are Voting Stock of such Subsidiary that is a CFC or FSHCO in excess of 65% of the outstanding Capital Stock that are Voting Stock of such Subsidiary that is a CFC or FSHCO, (iii) any Capital Stock to the extent, and for so long as, the pledge thereof would be prohibited by any applicable law (including any legally effective requirement to obtain the consent of any Governmental Authority unless such consent has been obtained), (iv) Capital Stock of any Person (other than any Wholly-Owned Subsidiary) acquired after the Closing Date to the extent, and for so long as, the pledge of such Capital Stock would be prohibited by, or would create an enforceable right of termination in favor of any other party thereto (other than Holdings, the Borrower or any Wholly-Owned Subsidiary) under, the terms of any Contractual Obligation, Organizational Document, joint venture agreement or shareholders’ agreement applicable to such Person (but only to the extent any of the foregoing is not rendered ineffective by, or is otherwise unenforceable under, the UCC or any other applicable Law) (and so long as such Contractual Obligation or other relevant restriction was not incurred in contemplation of such acquisition), (v) the Capital Stock of any Subsidiary of a CFC or FSHCO and (vi) any Capital Stock of any Subsidiary to the extent that the pledge of such Capital Stock would result in material adverse tax consequences to Holdings, the Borrower or any Subsidiary or Parent Company of the Borrower as reasonably determined by the Borrower in good faith and as consented to by the Lender.

“**Excluded Subsidiary**” means:

(a) any Subsidiary acquired after the Closing Date that is not a Wholly-Owned Subsidiary or is a joint venture on any date such Subsidiary would otherwise be required to become a Guarantor pursuant to the requirements of Section 5.10 (for so long as such Subsidiary remains a non-Wholly-Owned Subsidiary and only so long as there is a bona fide business purpose for the transactions resulting in such Subsidiary being non-Wholly Owned); provided that the aggregate Fair Market Value at the time of the applicable Disposition, of all such Subsidiaries which were Loan Parties, which as a result of a Disposition, become “Excluded Subsidiaries” after the Closing Date by virtue of this clause (a) shall not exceed an amount equal to the greater of (a) \$25,000,000 and (b) 25% of Consolidated Adjusted EBITDA for the most recently ended Test Period,

(b) any Subsidiary that is prohibited by (x) applicable law or (y) Contractual Obligation from guaranteeing the Obligations (and for so long as such restriction is in effect); provided that in the case of clause (y), such Contractual Obligation existed on the Closing Date or, with respect to any Subsidiary acquired by Holdings or a Subsidiary after the Closing Date (and so long as such Contractual Obligation was not incurred in contemplation of such acquisition), on the date such Subsidiary is so acquired,

(c) (i) any direct or indirect Foreign Subsidiary, (ii) any Subsidiary that is a FSHCO, (iii) any direct or indirect Subsidiary of a CFC or FSHCO, or (iv) any other Subsidiary for which the provision of a Guarantee would result in a material adverse tax consequence to Holdings, the Borrower or any Subsidiary or Parent Company (as reasonably determined by the Borrower in good faith and as agreed to by the Lender),

(d) any Immaterial Subsidiary,

(e) any other Subsidiary with respect to which, in the reasonable judgment of the Lender in consultation with the Borrower (confirmed in writing by notice to the Borrower), the cost of providing a Guarantee shall be excessive in view of the benefits to be obtained by the Lender therefrom,

(f) each other Domestic Subsidiary acquired pursuant to a Permitted Acquisition (or similar Investment) and each Subsidiary acquired in such Permitted Acquisition (or similar Investment) that guarantees such Indebtedness, in each case to the extent that, and for so long as, the documentation relating to such Indebtedness to which such Domestic Subsidiary or Subsidiary, as applicable, is a party prohibits such Subsidiary from guaranteeing the Obligations (in each case, so long as such Indebtedness was not incurred in contemplation of such Permitted Acquisition (or similar investment)), and

(g) any Subsidiary that would require any consent, approval, license or authorization from any Governmental Authority to provide a Guarantee unless such consent, approval, license or authorization has been received, or is received after commercially reasonable efforts (including if requested by the Lender to do so) by the Borrower and/or such Subsidiary to obtain the same.

Notwithstanding anything to the contrary in the foregoing, (x) no Subsidiary organized under the laws of the United States shall be considered an Excluded Subsidiary on the basis that the provision of a Loan Guaranty by such Subsidiary would result in material adverse tax consequences as a result of the operation of Section 956 of the Code or otherwise (other than to the extent such Subsidiary would otherwise be an Excluded Subsidiary pursuant to clause (c) of this definition), (y) the Borrower shall not be an Excluded Subsidiary and (z) no Subsidiary that owns Capital Stock of the Borrower shall be an Excluded Subsidiary.

“**Excluded Taxes**” means (a) Taxes imposed on (or measured by) its income (however denominated), franchise Taxes, and Franchise Profits Taxes, in each case, (i) as a result of any recipient of any payment to be made by or on account of any obligation of the Borrower or any other Loan Party hereunder being organized under the laws of, or having its principal office or its applicable lending office located in, the jurisdiction imposing such Tax (or any political subdivision thereof) or (ii) that are Other Connection Taxes, (b) U.S. federal withholding Taxes imposed on amounts payable to or for the account of any recipient with respect to an applicable interest in the Loan pursuant to a law in effect on the date on which (i) such recipient acquires such interest in the Loan or (ii) such recipient changes its lending office, except in each case to the extent that, pursuant to Section 2.06, amounts with respect to such Taxes were payable either to such recipient’s assignor immediately before such recipient became a party hereto or to such recipient immediately before it changed its lending office, (c) any Tax under FATCA and (d) U.S. federal backup withholding Taxes pursuant to Section 3406 of the Code.

“**Expected Run Rate Benefit**” has the meaning assigned to such term in the definition of Consolidated Adjusted EBITDA.

“**Facility**” means any real property (including all buildings, fixtures or other improvements located thereon) now, hereafter or, except with respect to Articles 5 and 6, heretofore owned, leased, operated or used by Holdings or any of its Subsidiaries.

“**Fair Market Value**” means with respect to any asset or group of assets on any date of determination, the value of the consideration obtainable in a sale of such asset at such date of determination assuming a sale by a willing seller to a willing purchaser dealing at arm’s length and arranged in an orderly manner over a reasonable period of time having regard to the nature and characteristics of such asset. Except as otherwise expressly set forth herein, such value shall be determined in good faith by the Borrower.

“**FATCA**” means Sections 1471 through 1474 of the Code, as of the Closing Date (or any amended or successor version that is substantively comparable and not materially more onerous to comply with) and any current or future regulations promulgated thereunder or official interpretations thereof and any agreements entered into pursuant to Section 1471(b)(1) of the Code, and any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement, treaty or convention entered into in connection with the implementation of such Sections of the Code.

“**Financial Officer**” of any Person means (i) the chief financial officer, the treasurer, any assistant treasurer, any vice president of finance or the controller of such Person or any officer with substantially equivalent responsibilities of any of the foregoing or (ii) the chief executive officer or president of such Person.

“**Financial Officer Certification**” means, with respect to the financial statements for which such certification is required, the certification of a Financial Officer of Holdings or the Borrower that such financial statements fairly present, in all material respects, in accordance with GAAP, the consolidated financial condition of Holdings as at the dates indicated and the results of its consolidated operations and cash flows for the periods indicated, subject to, in the case of quarterly financial statements, the absence of footnotes and changes resulting from audit and normal year-end audit adjustments.

“**Financing Lease Obligation**” means, as applied to any Person, an obligation that is required to be accounted for as a financing or capital lease (and, for the avoidance of doubt, not as an operating lease) for financial reporting purposes in accordance with GAAP. At the time any determination thereof is to be made, the amount of the liability in respect of a financing or capital lease would be the amount required to be reflected on the applicable financial statements of such Person as a liability in accordance with GAAP.

“**First Priority**” means, with respect to any Lien purported to be created in any Collateral pursuant to any Collateral Document that, subject to any Acceptable Intercreditor Agreement then in effect, such Lien is senior in priority to any other Lien to which such Collateral is subject, other than any Permitted Lien.

“**Fiscal Quarter**” means a fiscal quarter of any Fiscal Year.

“**Fiscal Year**” means the fiscal year of Holdings, ending on December 31 of each year.

“**Flood Hazard Property**” means any Real Estate Asset subject to a Mortgage and located in an area designated by the Federal Emergency Management Agency as having special flood or mud slide hazards.

“**Flood Insurance Laws**” means, any insurance laws in effect in the jurisdiction where a Facility is located which address flood or mud slide hazards and are comparable to the following U.S. legislation: (a) the National Flood Insurance Reform Act of 1994 (which comprehensively revised the National Flood Insurance Act of 1968 and the Flood Disaster Protection Act of 1973) as now or hereafter in effect or any successor statute thereto, (b) the Flood Insurance Reform Act of 2004 as now or hereafter in effect or any successor statute thereto and (c) the Biggert-Waters Flood Insurance Reform Act of 2012 as now or hereafter in effect or any successor statute thereto.

“**Foreign Subsidiary**” means any Subsidiary that is not a Domestic Subsidiary.

“**FSHCO**” means any direct or indirect Subsidiary of the Borrower that has no material assets other than equity and/or indebtedness of one or more Foreign Subsidiaries of the Borrower that are CFCs.

“**GAAP**” means generally accepted accounting principles in the U.S. in effect and applicable to the accounting period in respect of which reference to GAAP is being made, subject to the provisions of Section 1.03.

“**Global Intercompany Note**” means an intercompany promissory note substantially in the form of Exhibit G attached hereto or otherwise reasonably acceptable to the Lender and the Borrower.

“**Governmental Authority**” means any federal, state, provincial, territorial, municipal, national or other government, governmental department, commission, board, bureau, court, agency or instrumentality or political subdivision thereof or any entity or officer exercising executive, legislative, judicial, regulatory or administrative functions of or pertaining to any government or any court (including any supra-national body exercising such powers or functions, such as the European Union or the European Central Bank), in each case, whether associated with a state or locality of the U.S., the U.S., or a foreign government.

“**Governmental Authorization**” means any permit, license, authorization, plan, directive, consent order or consent decree of or from any Governmental Authority.

“**Guarantee**” of or by any Person (the “**guarantor**”) means any obligation, contingent or otherwise, of the guarantor guaranteeing or having the economic effect of guaranteeing any Indebtedness of any other Person (the “**Primary Obligor**”) in any manner and including any obligation of the guarantor, (a) to purchase or pay (or advance or supply funds for the purchase or payment of) such Indebtedness or to purchase (or to advance or supply funds for the purchase of) any security for the payment thereof, (b) to purchase or lease property, securities or services for the purpose of assuring the owner of such Indebtedness of the payment thereof, (c) to maintain working capital, equity capital or any other financial statement condition or liquidity of the Primary Obligor so as to enable the Primary Obligor to pay such Indebtedness,

(d) as an account party in respect of any letter of credit or letter of guaranty issued to support such Indebtedness or monetary obligation, (e) entered into for the purpose of assuring in any other manner the obligee in respect of such Indebtedness of the payment or performance thereof or to protect such obligee against loss in respect thereof (in whole or in part) or (f) secured by any Lien on any assets of such guarantor securing any Indebtedness of any other Person, whether or not such Indebtedness is assumed by such guarantor (or any right, contingent or otherwise, of any holder of such Indebtedness to obtain any such Lien); provided that the term "Guarantee" shall not include endorsements for collection or deposit in the ordinary course of business, or customary and reasonable indemnity obligations in effect on the Closing Date or entered into in connection with any acquisition, Disposition or other transaction permitted under this Agreement (other than such obligations with respect to Indebtedness). The amount of any Guarantee shall be deemed to be an amount equal to the stated or determinable amount of the related primary obligation, or portion thereof, in respect of which such Guarantee is made or, if not stated or determinable, the maximum reasonably anticipated liability in respect thereof as determined by the guaranteeing Person in good faith.

"**Guaranteed Obligations**" has the meaning assigned to such term in Section 9.01.

"**guarantor**" has the meaning assigned to such term in the definition of "Guarantee".

"**Guarantor Percentage**" has the meaning assigned to such term in Section 9.10.

"**Hazardous Materials**" means petroleum products and other hydrocarbons, solvents, polychlorinated bi-phenyls, asbestos and asbestos-containing materials and any other chemical, material, substance or waste, or any constituent thereof, that is prohibited, limited or regulated by any Environmental Law.

"**Hazardous Materials Activity**" means any past, current, proposed or threatened activity, event or occurrence involving any Hazardous Material, including the use, manufacture, possession, storage, holding, presence, existence, location, Release, threatened Release, discharge, placement, generation, transportation, processing, construction, treatment, abatement, removal, remediation, disposal, disposition or handling of any Hazardous Material, and any corrective action or response action with respect to any of the foregoing.

"**Holdings**" has the meaning assigned to such term in the preamble to this Agreement.

"**Immaterial Subsidiary**" means, as of any date, any Subsidiary of Holdings (other than the Borrower) for which (a) the consolidated total assets (determined in accordance with GAAP) of such Subsidiary and its Subsidiaries constitute less than 2.5% of consolidated total assets and (b) the consolidated revenues (determined in accordance with GAAP) of such Subsidiary and its Subsidiaries constitute less than 2.5% of the consolidated revenues (determined in accordance with GAAP) of Holdings and its Subsidiaries, in each case, as of the last day of and for the most recently ended Test Period; provided that the consolidated total assets (as so determined) and revenues (as so determined) of all Immaterial Subsidiaries shall not exceed 5% of consolidated total assets or 5% of the consolidated revenues of Holdings and its Subsidiaries that are not otherwise Excluded Subsidiaries by virtue of any of clauses (a) through (c) or (e) through (g) of the definition of "Excluded Subsidiary" as of the last day of and for the relevant Test Period, as the case may be. Notwithstanding the foregoing, for purposes of Article 7 of this Agreement, the term "Immaterial Subsidiary" shall not include any "significant subsidiaries" (as defined in Article 1 of Regulation S-X) or group of subsidiaries that would together constitute a "significant subsidiary" (as so defined).

“Indebtedness”, as applied to any Person, means, without duplication, (a) all indebtedness for borrowed money (including, for the avoidance of doubt, the Loan); (b) Financing Lease Obligations; (c) all obligations of such Person evidenced by bonds, debentures, notes, loan agreements or similar instruments; (d) any obligation owed for all or any part of the deferred purchase price of property or services (other than (i) trade accounts payable or accrued expenses in the ordinary course of business and not overdue by more than 60 days past the due date thereof and (ii) any earnout obligation until such obligation becomes a liability on the balance sheet of such Person in accordance with GAAP and if not paid after becoming due and payable); (e) all Indebtedness of others secured by any Lien on any property or asset owned or held by such Person regardless of whether the Indebtedness secured thereby shall have been assumed by such Person or is non-recourse to the credit of such Person; (f) the amount of any letter of credit issued for the account of such Person or as to which such Person is otherwise liable for reimbursement of drawings; (g) the Guarantee by such Person of the Indebtedness of another; (h) all obligations of such Person in respect of any Disqualified Capital Stock and (i) all net obligations of such Person in respect of any Derivative Transaction, including any hedge agreement, whether or not entered into for hedging or speculative purposes. For all purposes hereof, the Indebtedness of any Person shall include the Indebtedness of any partnership or joint venture in which such Person is a general partner or a joint venturer, except to the extent such Person’s liability for such Indebtedness is otherwise limited.

Indebtedness shall not include (i) prepaid or deferred revenue arising in the ordinary course of business, (ii) purchase price holdbacks arising in the ordinary course of business in respect of a portion of the purchase price of an asset to satisfy warrants or other unperformed obligations of the seller of such asset and (iii) Non-Financing Lease Obligations or other obligations under or in respect of operating leases.

“Indemnified Taxes” means (a) Taxes imposed on or with respect to any payment made by or on account of any obligation of any Loan Party under any Loan Document other than Excluded Taxes and (b) to the extent not otherwise described in clause (a), Other Taxes.

“Indemnitee” has the meaning set forth in Section 8.03(b).

“Intercreditor Agreement” means any Acceptable Intercreditor Agreement.

“Interest Payment Date” means the last Business Day of each March and September.

“Investment” means (a) any purchase or other acquisition, or ownership, by Holdings or any of its Subsidiaries of any of the Securities of any other Person (other than Holdings or any other Loan Party), (b) the acquisition by purchase or otherwise (other than purchases or other acquisitions of inventory, materials, supplies and/or equipment in the ordinary course of business) of all or substantially all of the business, property or fixed assets of any Person or any division or line of business or other business unit of any Person, (c) any Guarantee by Holdings or any of its Subsidiaries of Indebtedness of any other Person (other than Holdings or any other Loan Party) and (d) any loan, advance (other than advances made on an intercompany basis between or among Holdings and the other Loan Parties in the ordinary course of business for the purchase of inventory, materials, supplies and/or equipment or in respect of allocation of corporate overhead expenses) or capital contribution by Holdings or any of its Subsidiaries to any other Person (other than Holdings or any Subsidiary Guarantor). The amount, as of any date of determination, of any Investment in the form of a Guarantee shall be equal to the stated or determinable amount of the related primary obligation, or portion thereof, in respect of which such Guarantee is made or, if not stated or determinable, the maximum reasonably anticipated liability in respect thereof, as determined in good faith by Holdings in accordance with GAAP.

“**Investors**” means (a) the Sponsor and (b) certain other investors that, directly or indirectly, beneficially own Capital Stock in Holdings on the Closing Date (which Persons have been identified in writing to the Lender prior to Closing Date).

“**IP Rights**” has the meaning assigned to such term in Section 3.05(c).

“**IRS**” means the U.S. Internal Revenue Service.

“**Joinder Agreement**” has the meaning assigned to such term in Section 5.10(a).

“**Junior Debt**” means any Indebtedness of Holdings and its Subsidiaries that is (i) expressly subordinated in right of payment to the Obligations (other than Indebtedness among Holdings and its Subsidiaries) or (ii) secured by a Lien on the Collateral that ranks junior in right of security to the Liens on the Collateral securing the Obligations.

“**LCT Election**” has the meaning assigned to such term in Section 1.06.

“**LCT Test Date**” has the meaning assigned to such term in Section 1.06.

“**Lender**” means American Water Enterprises, LLC, a Delaware limited liability company, together with its permitted successors and assigns, acting in such capacity under this Agreement on its own behalf as a Seller and on behalf of the other Sellers under the Purchase Agreement.

“**Lien**” means any mortgage, pledge, hypothecation, assignment, deposit arrangement, encumbrance, lien (statutory or other), charge, or preference, priority or other security interest or preferential arrangement of any kind or nature whatsoever (including any conditional sale or other title retention agreement, any easement, right of way or other encumbrance on title to real property, and any Financing Lease Obligation having substantially the same economic effect as any of the foregoing), in each case, in the nature of security; provided that in no event shall a Non-Financing Lease Obligation be deemed to be a Lien.

“**Limited Condition Transaction**” means any acquisition or Investment by one or more of Holdings and its Subsidiaries of any assets, business or Person permitted to be acquired by this Agreement, in each case whose consummation is not conditioned on the availability of, or on obtaining, third party financing.

“**Loan Documents**” means this Agreement, any Promissory Note, the Collateral Documents and each Acceptable Intercreditor Agreement then in effect and any other document or instrument designated by the Borrower and the Lender as a “Loan Document” entered into in accordance with Section 8.02. Any reference in this Agreement or any other Loan Document to a Loan Document shall include all appendices, exhibits or schedules thereto, and all amendments, restatements, amendments and restatements, supplements or other modifications thereto.

“**Loan Guarantor**” means each Loan Party (except, solely with respect to obligations of the Borrower, the Borrower).

“**Loan Guaranty**” means the guaranty set forth in Article 9 of this Agreement.

“**Loan Parties**” means Holdings, the Borrower and each Subsidiary Guarantor.

“**Loan**” has the meaning assigned to such term in Section 2.01.

“**Margin Stock**” has the meaning assigned to such term in Regulation U.

“**Market Disruption Event**” means the occurrence of an event or a set of circumstances that, in either case, has eliminated the ability of market participants in general to borrow, refinance or to otherwise arrange debt financing in the broadly syndicated term loan “B” market in the ordinary course.

“**Material Adverse Effect**” means a material adverse effect on (i) the business, financial condition or results of operations, in each case, of Holdings and its Subsidiaries, taken as a whole, (ii) the rights and remedies of the Lender under the applicable Loan Documents or (iii) the ability of the Borrower and the Loan Guarantors to perform their payment obligations under the Loan Documents.

“**Material Real Estate Asset**” means (a) any fee-owned Real Estate Asset owned by any Loan Party as of the Closing Date having a Fair Market Value in excess of \$5,000,000 as of such date and (b) any fee-owned Real Estate Asset acquired by any Loan Party after the Closing Date having a Fair Market Value in excess of \$5,000,000 as of the date of acquisition thereof.

“**Maturity Date**” means the date that is five years after the Closing Date, *provided* that if such date is not a Business Day, the “Maturity Date” will be the next succeeding Business Day.

“**Maximum Liability**” has the meaning assigned to such term in Section 9.09.

“**Moody’s**” means Moody’s Investors Service, Inc. and any successor to its rating agency business.

“**Mortgaged Properties**” means, initially, the owned real properties of the Loan Parties specified on Schedule 1.01(c) (if any), and shall include each other Material Real Estate Asset and improvements thereto with respect to which a Mortgage is required to be granted pursuant to Section 5.10.

“**Mortgages**” means any mortgage, deed of trust or other agreement which conveys or evidences a Lien in favor of the Lender, for the benefit of the Lender, on any Material Real Estate Assets (it being understood and agreed that any requirement for Mortgages shall be subject to the provisions of Section 5.10).

“**Multemployer Plan**” means any employee benefit plan which is a “multiemployer plan” as defined in Section 3(37) of ERISA, to which Holdings or any of its Subsidiaries, or any of their respective ERISA Affiliates, makes or is obligated to make contributions and with respect to which any of them has an ongoing obligation.

“**Net Proceeds**” means:

(a) with respect to the Disposition of any asset by Holdings or any Subsidiary or any Casualty/Condemnation Event, the excess, if any, of (i) the sum of cash and Cash Equivalents received by or on behalf of Holdings and its Subsidiaries in connection with such Disposition or Casualty/Condemnation Event (including any cash or Cash Equivalents received by way of deferred payment (but excluding any interest payments) pursuant to, or by monetization of, a note receivable or otherwise, but only as and when so received and, with respect to any Casualty/Condemnation Event, any insurance proceeds or condemnation awards in respect of such Casualty/Condemnation Event actually received by or paid to or for the account of Holdings, the Borrower or any Subsidiary) over (ii) the sum of (A) the principal amount, premium or penalty, if any, interest and other amounts on any Indebtedness that is secured by the asset subject to such Disposition or Casualty/Condemnation Event and that is required to be repaid (and is actually repaid) in connection with such Disposition or Casualty/Condemnation Event under the existing

terms of the documentation thereof (other than Indebtedness under the Loan Documents and Indebtedness secured by Liens that are subject to an Acceptable Intercreditor Agreement), (B) the out-of-pocket fees and expenses (including attorneys' fees, investment banking fees, survey costs, title insurance premiums, and related search and recording charges, transfer taxes, deed or mortgage recording taxes, other customary expenses and brokerage, consultant and other customary fees) actually incurred by Holdings, the Borrower or such Subsidiary in connection with such Disposition or Casualty/Condemnation Event, (C) taxes paid or reasonably estimated to be actually payable in connection therewith (including withholding taxes imposed on the repatriation of any such Net Proceeds) and the amount of any reserves established by Holdings, the Borrower and the Subsidiaries to fund contingent liabilities reasonably estimated to be payable, that are directly attributable to such event, (D) in the case of any Disposition by a non-Wholly-Owned Subsidiary or Casualty/Condemnation Event with respect to assets of a non-Wholly-Owned Subsidiary, the pro rata portion of the net cash proceeds thereof (calculated without regard to this clause (D)) attributable to minority interests and not available for distribution to or for the account of Holdings the Borrower or a Wholly-Owned Subsidiary as a result thereof, and (E) any reserve for adjustment in respect of (x) the sale price of such asset or assets established in accordance with GAAP and (y) any liabilities associated with such asset or assets and retained by Holdings, the Borrower or any Restricted Subsidiary after such sale or other Disposition thereof, including pension and other post-employment benefit liabilities and liabilities related to environmental matters or with respect to any indemnification obligations associated with such transaction; it being understood that "Net Proceeds" shall include (i) any cash or Cash Equivalents received upon the Disposition of any non-cash consideration by Holdings, the Borrower or any Subsidiary in any such Disposition and (ii) upon the reversal (without the satisfaction of any applicable liabilities in cash in a corresponding amount) of any reserve described in clause (E) above or if such liabilities have not been satisfied in cash and such reserve is not reversed within 180 days after such Disposition or Casualty/Condemnation Event, the amount of such reserve; and

(b) with respect to the incurrence of any Indebtedness by Holdings, the Borrower or any Subsidiary or any sale or issuance of Capital Stock by any Borrower, the excess, if any, of (A) the sum of the cash and Cash Equivalents received by or on behalf of Holdings, the Borrower and its Subsidiaries in connection with such incurrence, issuance or sale over (B) the reasonable and customary investment banking fees, discounts, issuance costs, commissions, costs and other out-of-pocket expenses and other customary expenses (and, in the case of the incurrence of any Indebtedness the proceeds of which are required to be used to prepay the Loan hereunder, accrued interest and premium, if any, on the Loan and any other amounts (other than principal) required to be paid in respect of the Loan in connection with any such prepayment and/or reduction), incurred by Holdings, the Borrower or such Subsidiary in connection with such incurrence, issuance or sale.

"**Non-Compliant Subsidiary or Asset**" means (i) any Subsidiary acquired pursuant to a Permitted Acquisition that will not become a Loan Party or (ii) any assets acquired pursuant to a Permitted Acquisition that will not be owned by a Loan Party after giving effect to such Permitted Acquisition.

"**Non-Financing Lease Obligations**" means a lease obligation that is not required to be accounted for as a financing or capital lease on both the balance sheet and the income statement for financial reporting purposes in accordance with GAAP. For avoidance of doubt, a straight-line or operating lease shall be considered a Non-Financing Lease Obligation.

"**Non-Paying Guarantor**" has the meaning assigned to such term in Section 9.10.

"**Obligated Party**" has the meaning assigned to such term in Section 9.02.

“**Obligations**” means all unpaid principal of and accrued and unpaid interest (including any Applicable Premium, interest, fees and other amounts accruing during the pendency of any bankruptcy, insolvency, receivership or other similar proceeding, regardless of whether allowed or allowable in such proceeding) on the Loan, all accrued and unpaid fees and all expenses, reimbursements, indemnities, any Applicable Premium and all other advances to, debts, liabilities, obligations, covenants and duties of any Loan Party to the Lender or any indemnified party arising under the Loan Documents, whether direct or indirect (including those acquired by assumption), absolute, contingent, due or to become due, now existing or hereafter arising.

“**OFAC**” means the U.S. Department of the Treasury’s Office of Foreign Assets Control.

“**Organizational Documents**” means (a) with respect to any corporation, its certificate or articles of incorporation, formation or organization and its by-laws, (b) with respect to any limited partnership, its certificate of limited partnership, and its partnership agreement, (c) with respect to any general partnership, its partnership agreement, (d) with respect to any limited liability company, its articles of organization or certificate of formation, and its operating agreement and (e) with respect to any other form of entity, such other organizational documents required by local Requirements of Law or customary under such jurisdiction to document the formation and governance principles of such type of entity. In the event any term or condition of this Agreement or any other Loan Document requires any Organizational Document to be certified by a secretary of state or similar governmental official, the reference to any such “Organizational Document” shall only be to a document of a type customarily certified by such governmental official.

“**Other Connection Taxes**” means Taxes imposed on any recipient of any payment to be made by or on account of any obligation of the Borrower or any other Loan Party hereunder as a result of a present or former connection between such recipient and the jurisdiction imposing such Tax (other than connections arising solely from such recipient having executed, delivered, become a party to, performed its obligations under, received payments under, received or perfected a security interest under, or engaged in any other transaction pursuant to or enforced any Loan Document, or sold or assigned an interest in the Loan or any Loan Document).

“**Other Taxes**” means any and all present or future stamp, court or documentary, recording or filing Taxes or any other similar Taxes arising from any payment made hereunder or from the execution, delivery or enforcement of, or otherwise with respect to, this Agreement or the other Loan Documents, except any such Taxes that are Other Connection Taxes imposed with respect to an assignment.

“**Parent Company**” means (a) any Person of which Holdings is or becomes a subsidiary on or after the Closing Date, (b) any holding company established by any Permitted Holder for purposes of holding its investment in Holdings or any other Parent Company and (c) any other Person of which Holdings is a direct or indirect Subsidiary.

“**Paying Guarantor**” has the meaning assigned to such term in [Section 9.10](#).

“**PBGC**” means the Pension Benefit Guaranty Corporation or any successor thereto.

“**Pension Plan**” means any employee pension benefit plan, as defined in Section 3(2) of ERISA (other than a Multiemployer Plan), subject to the provisions of Title IV of ERISA or Section 412 of the Code or Section 302 of ERISA, and in respect of which Holdings or any of its Subsidiaries, or any of their respective ERISA Affiliates, is (or, if such plan were terminated, would under Section 4069 of ERISA be deemed to be) an “employer” as defined in Section 3(5) of ERISA.

“Permitted Acquisition” means any purchase or acquisition by Holdings or any of its Subsidiaries, whether by purchase, merger, amalgamation or otherwise, of all or substantially all of the assets of, or of any business or product line, unit or division of, any Person or a majority of the outstanding Capital Stock of any Person (but in any event including (a) any Investment in a Subsidiary which serves to increase Holdings’ or any Subsidiary’s respective equity ownership in such Subsidiary and (b) any acquisition of or Investment in any joint venture); provided, in each case, (i) (A) such Person becomes a Subsidiary or (B) such Person, in one transaction or a series of related transaction, is amalgamated, merged or consolidated with or into, or transfers or conveys all or substantially all of its assets (or of such business or product line, unit or division) to, or is liquidated into, Holdings or any Subsidiary as a result of such Investments, (ii) such Person (or such business or product line, unit or division) is engaged in a Similar Business, or property and assets or businesses of any Person or of assets constituting a business unit, a line of business or division of such Person, or Capital Stock in a Person that, upon the consummation thereof, will be a Subsidiary of Holdings, provided, in each case, (x) no Event of Default (or in the case of a Limited Condition Transaction, no Specified Event of Default) shall have occurred and be continuing at the time of the consummation of such acquisition and (y) the Consolidated Total Leverage Ratio after giving pro forma effect to the making of such acquisition is not greater than either (1) 7.50:1.00 as of the last day of the Test Period most recently ended on or prior to the making of such acquisition or (2) the Consolidated Total Leverage Ratio immediately prior to the making of such acquisition.

“Permitted Additional Debt” means (i) secured or unsecured bonds, notes or debentures (which bonds, notes or debentures, if secured, may be secured either by Liens on the Collateral that rank equal in priority with the Liens on the Collateral securing the Obligations or by Liens on the Collateral that rank junior in priority relative to the Liens on the Collateral securing the Obligations) or (ii) secured or unsecured loans or commitments to provide secured or unsecured loans (which loans or commitments, if secured, may be secured by Liens on the Collateral that rank junior in priority relative to the Liens on the Collateral securing the Obligations or by Liens on the Collateral that rank equal in priority with the Liens on the Collateral securing the Obligations), in each case incurred by the Borrower or a Guarantor; provided that (a) such Indebtedness has a final maturity date that is not later than 91 days following the Maturity Date, (b) the covenants, events of default, Subsidiary guarantees and other terms for such Indebtedness or commitments (excluding interest rates (including through fixed interest rates), interest rate margins, rate floors, fees, funding discounts, original issue discounts and redemption or prepayment terms and premiums determined by the Borrower to be market rates, margins, rate floors, fees, discounts, terms and premiums at the time of incurrence of such Indebtedness) not materially more restrictive on Holdings and its Subsidiaries, when taken as a whole, than the terms of this Agreement, when taken as a whole; provided that such terms shall not be deemed to be more restrictive solely as a result of (i) the inclusion in the documentation governing such Indebtedness or commitment of any financial maintenance covenant so long as an equivalent financial maintenance covenant is added to this Agreement for the benefit of the Lender or (ii) covenants or other provisions applicable only to periods after the Maturity Date at such time; provided that, in the event that the Effective Yield for any Permitted Additional Debt that is secured by Liens on all or any part of the Collateral that rank equal in priority with the Liens on the Collateral securing the Obligations is greater than the Effective Yield for the Loan by more than 0.50% per annum, then the interest rate for the Loan shall be increased to the extent necessary so that the Effective Yield for the Loan is equal to the Effective Yield for such Permitted Additional Debt minus 0.50% per annum, (c) if such Indebtedness is secured, such Indebtedness shall not be secured by any property or assets other than the Collateral and shall be subject to an applicable Acceptable Intercreditor Agreement, and (d) no Subsidiary of Holdings (other than a Guarantor) shall be an obligor under such Indebtedness.

“Permitted Additional Debt Documents” means any document or instrument (including any guarantee, security agreement or mortgage and which may include any or all of the Loan Documents) issued or executed and delivered with respect to any Permitted Additional Debt by any Loan Party.

“Permitted Additional Debt Obligations” means, if any secured Permitted Additional Debt has been incurred and is outstanding, the collective reference to (a) the due and punctual payment of (i) the principal of and premium, if any, and interest at the applicable rate provided in the applicable Permitted Additional Debt Documents (including interest accruing during the pendency of any proceeding under any Debtor Relief Law, regardless of whether allowed or allowable in such proceeding) on any such Permitted Additional Debt, when and as due, whether at maturity, by acceleration, upon one or more dates set for prepayment, redemption or otherwise and (ii) all other monetary obligations, including fees, costs, expenses and indemnities, whether primary, secondary, direct, contingent, fixed or otherwise (including monetary obligations incurred during the pendency of any proceeding under any Debtor Relief Law, regardless of whether allowed or allowable in such proceeding), of the Borrower or any other Loan Party to any of the Permitted Additional Debt Secured Parties under the applicable Permitted Additional Debt Documents and (b) the due and punctual performance of all covenants, agreements, obligations and liabilities of the Borrower or any Loan Party under or pursuant to applicable Permitted Additional Debt Documents.

“Permitted Additional Debt Secured Parties” means the holders from time to time of the secured Permitted Additional Debt Obligations (and any representative on their behalf).

“Permitted Holders” means (a) the Investors and (b) any group (within the meaning of Rules 13d-3 and 13d-5 under the Exchange Act (or any successor provision)) of which the Investors are members and any other member of such group; provided, that in the case of such group and without giving effect to the existence of such group or any other group, Persons referred to in clauses (a) and (b), collectively, have beneficial ownership of more than 50% of the total voting power of the issued and outstanding Voting Stock of Holdings or any of its direct or indirect parent companies held by such group.

“Permitted Liens” means Liens permitted pursuant to Section 6.02.

“Permitted Refinancing Indebtedness” means, with respect to any Indebtedness (the **“Refinanced Indebtedness”**), any Indebtedness incurred in exchange for or as a replacement of (including by entering into alternative financing arrangements in respect of such exchange or replacement (in whole or in part), either by adding or replacing lenders, creditors, agents, borrowers and/or guarantors, or after the original instrument giving rise to such Indebtedness has been terminated and including, by entering into any new credit agreement, loan agreement, note purchase agreement, indenture or other agreement), or the net proceeds of which are incurred for the purpose of modifying, extending, refinancing, renewing, replacing, redeeming, repurchasing, defeasing, amending, supplementing, restructuring, repaying or refunding (collectively to **“Refinance”** or a **“Refinancing”** or **“Refinanced”**), such Refinanced Indebtedness (or previous refinancing thereof constituting Permitted Refinancing Indebtedness); provided that (a) after giving effect to such Refinancing, the principal amount (or accreted value, if applicable) thereof will not exceed the principal amount (or accreted value, if applicable) of the Refinanced Indebtedness except by an amount equal to unpaid accrued interest and premium thereon plus other customary and reasonable amounts paid, and fees and expenses incurred, in connection with such Refinancing plus an amount equal to any existing commitments unutilized thereunder, (b) other than with respect to a Refinancing of Indebtedness permitted pursuant to Section 6.01(j), such Permitted Refinancing Indebtedness has a maturity date that is equal to or greater than the maturity date of the Refinanced Indebtedness, (c) (i) if such Refinanced Indebtedness is unsecured, such Permitted Refinancing Indebtedness shall be unsecured and (ii) if such Refinanced Indebtedness is secured, such Permitted Refinancing Indebtedness shall either be unsecured or secured by the same collateral, and with the same (or junior) lien priority, as exists with respect to the Refinanced Indebtedness, (d) each of the obligors with respect to such Permitted Refinancing Indebtedness are Guarantors, (e) other than with respect to revolving Indebtedness, such Refinancing Indebtedness has (1) a Weighted Average Life to Maturity equal to or greater than the Weighted Average Life to Maturity of the Indebtedness being refinanced, refunded or replaced (without giving effect to any prepayments thereof) or (2) a Weighted Average Life to Maturity

equal to or greater than the Weighted Average Life to Maturity of the outstanding Loan at such time, and (f) (i) to the extent such Refinanced Indebtedness is subordinated in right of payment to the Obligations, such Permitted Refinancing Indebtedness is subordinated in right of payment to the Obligations on terms at least as favorable to the Lender, when taken as a whole, as those contained in the documentation governing the Indebtedness being so Refinanced and (ii) the terms and conditions (including, if applicable, as to collateral but excluding as to subordination, interest rates (including through fixed interest rates), interest rate margins, rate floors, fees, funding discounts, original issue discounts and redemption or prepayment terms and premiums) of any such Permitted Refinancing Indebtedness, taken as a whole, are not materially more restrictive on Holdings and its Subsidiaries, when taken as a whole, than the terms and conditions of the Refinanced Indebtedness; provided that such terms and conditions shall not be deemed to be more restrictive solely as a result of (x) the inclusion in the documentation governing such Indebtedness or commitment of any financial maintenance covenant or (y) covenants or other provisions applicable only to periods after the Maturity Date at the time of such Refinancing.

“**Person**” means any natural person, corporation, unlimited liability company, limited liability company, trust, joint venture, association, company, partnership, Governmental Authority or any other entity.

“**Pledge and Security Agreement**” means that certain Pledge and Security Agreement, dated as of the date hereof, among the Borrower, the other Loan Parties and the Lender in the form attached hereto as Exhibit H.

“**Prepayment Asset Sale**” means any Disposition by Holdings or its Subsidiaries made pursuant to Section 6.06(g), (m) or (q).

“**Primary Obligor**” has the meaning assigned to such term in the definition of “Guarantee”.

“**Pro Forma Basis**” or “**pro forma effect**” means with respect to any determination of the Consolidated Total Leverage Ratio, or Consolidated Adjusted EBITDA (including, in each case, component definitions thereof) that:

(a) (i) in the case of any Disposition of all or substantially all of the Capital Stock of any Subsidiary or any business or product line, unit or division of Holdings and/or any Subsidiary, income statement items attributable to the property or Person subject to such Subject Transaction shall be excluded as of the first day of the applicable Test Period with respect to any test or covenant for which the relevant determination is being made and (ii) in the case of any Permitted Acquisition and/or Investment, income statement items (whether positive or negative and including any Expected Run Rate Benefit) attributable to the property or Person subject to such Subject Transaction shall be included as of the first day of the applicable Test Period with respect to any test or covenant for which the relevant determination is being made; provided that the pro forma adjustments described in this clause (a) may be applied to any such test or covenant solely to the extent that such adjustments are consistent with the definition of “Consolidated Adjusted EBITDA”,

(b) any Business Optimization Initiative (and any Expected Run Rate Benefit attributable thereto) shall be deemed to have occurred as of the first day of the applicable Test Period with respect to any test or covenant for which the relevant determination is being made,

(c) any retirement or repayment of Indebtedness (other than Indebtedness retired or repaid under any revolving credit facility or line of credit unless such Indebtedness has been permanently repaid and not replaced) by Holdings, any of its Subsidiaries shall be deemed to have occurred as of the first day of the applicable Test Period with respect to any test or covenant for which the relevant determination is being made,

(d) any Indebtedness incurred or assumed by Holdings or any of its Subsidiaries shall be deemed to have occurred as of the first day of the applicable Test Period with respect to any test or covenant for which the relevant determination is being made; provided that, (i) if such Indebtedness has a floating or formula rate, such Indebtedness shall have an implied rate of interest for the applicable Test Period for purposes of this definition determined by utilizing the rate that is or would be in effect with respect to such Indebtedness at the relevant date of determination (taking into account any interest hedging arrangements applicable to such Indebtedness), (ii) interest on any obligation with respect to any Financing Lease Obligation shall be deemed to accrue at an interest rate reasonably determined by a Responsible Officer of the Borrower to be the rate of interest implicit in such obligation in accordance with GAAP and (iii) interest on any Indebtedness that may optionally be determined at an interest rate based upon a factor of a prime or similar rate, a eurocurrency interbank offered rate or other rate shall be determined to have been based upon the rate actually chosen, or if none, then based upon such optional rate chosen by the Borrower,

(e) each other Subject Transaction shall be deemed to have occurred as of the first day of the applicable Test Period (or, in the case of consolidated total assets, as of the last day of such Test Period) with respect to any test or covenant for which such calculation is being made,

(f) the Unrestricted Cash Amount shall be calculated as of the date of the consummation of such Subject Transaction after giving pro forma effect thereto (other than, for the avoidance of doubt, the cash proceeds of any Indebtedness that is the Subject Transaction for which such a calculation in being made or is incurred to finance such Subject Transaction); and

(g) solely with respect to applicable calculations or determinations to be made in connection with a Permitted Acquisition or similar Investment, any Revolving Facility Indebtedness outstanding or incurred (including by assumption or guarantee) prior to, or simultaneously with, the event for which the Pro Forma Basis or pro forma effect determination of such ratio or other test is being made that is used to finance working capital needs of the Holdings and its Subsidiaries (as reasonably determined by the Borrower) shall, in each case, be disregarded.

Whenever a financial ratio or test or covenant is to be calculated on a Pro Forma Basis, the reference to the "Test Period" for purposes of calculating such financial ratio or test shall be deemed to be a reference to, and shall be based on, the most recently ended Test Period.

"Promissory Note" means a promissory note of the Borrower payable to the Lender or its registered assigns, in substantially the form of Exhibit C hereto, evidencing the aggregate outstanding principal amount of Loan of the Borrower to such Lender resulting from the Loan made by such Lender.

"Public Company" shall mean any Person with a class or series of Capital Stock that is traded on the New York Stock Exchange, the NASDAQ, the Luxembourg Stock Exchange, the London Stock Exchange, the Hong Kong Stock Exchange, The International Stock Exchange or any comparable stock exchange or similar market.

"Purchase" means the purchase of the Units (as defined in the Purchase Agreement) by the Purchaser pursuant to the Purchase Agreement.
