U.S. Army NETCOM
2133 Cushing St
Fort Huachuca, AZ 85613

TNAC:

Please accept this Letter of Intent requesting additional numbering resources to support B-VOIP requirement. Army NETCOM requests 100,000 (one hundred thousand) consecutive numbers in the Rose Terrace, KY rate center. The location where the number will be activated is **75 SIXTH AVE, BLDG 1227, Fort Knox, KY, 40121**.

Army NETCOM provides voice internet services for CONUS Northern Command and Southern Command localities to include IP Flex over AVPN service to Department of Defense mission partners. They currently have a presence in all 50 states and US territories.

Army NETCOM is building out an enterprise voice capability throughout the continental United States in 4 (four) regions, with 100,000 numbers per region for a total of 400,000 numbers. This request will require 100,000 telephone lines to support the phone system requirement. There are no specific requirements for the block requests; just that they be consecutive numbers in each block.

Army NETCOM is hoping to activate these numbers on or before 21 July 2023, based on the contractually required customer requested due date. This is a NEW request; therefore, the customer will not be returning any numbers to AT&T.

Pending AT&T's successful completion of testing, Army NETCOM understands these numbers will need to be activated within 180 days of the effective date.
