| HARDIN COUNTY WATER |) | CASE NO. 2023-00247 |
| DISTRICT NO. 2 FOR A GENERAL |) | |
| ADJUSTMENT OF RATES |) | |

APPLICATION

Applicant, Hardin County Water District No. 2 ("Hardin District" or "the District"), pursuant to KRS 278.180 and 807 KAR 5:001, hereby applies to the Public Service Commission ("Commission") for authority to adjust its rates for water service.

In support of its Application, Hardin District states:

Background

- 1. Hardin District's full name and post office address are: Hardin County Water District No. 2, Post Office Box 970, Elizabethtown, Kentucky 42702. Its electronic mail address is: syouravich@hcwd2.org.
- 2. Copies of all orders, pleadings and other communications related to this proceeding should be directed to:

To facilitate the Commission's initial review of this Application, Hardin District has attached as **Exhibit 1** to this Application a document entitled "Filings Requirements List" that consists of four pages, lists each statutory and regulatory requirement for an application for general rate adjustment, identifies the exhibit or paragraph that satisfies the requirement, and contains a hyperlink to that exhibit or paragraph.

Shaun Youravich General Manager P.O. Box 970 Elizabethtown, Kentucky 42702 (270) 737-1056 Ext. 304 syouravich@hcwd2.org

- 3. Hardin District is not a corporation, limited liability company or limited partnership. It has no articles of incorporation or partnership agreements.
- 4. Hardin District is a water district created under the provisions of KRS Chapter 74.
- 5. As of the end of the proposed test period, December 31, 2022, Hardin District provided retail water service to approximately 29,932 retail customers in the following Kentucky counties: Hardin, Hart and Larue. Its retail

-2-

² On July 24, 2023, Hardin District filed with the Commission a request to create this docket and notice of its intent to use electronic filing procedures.

customers included 3,066 commercial customers, 40 industrial customers and 167 public authorities.³ It provides wholesale water service to Hardin County Water District No. 1.⁴ Hardin District also provides wastewater collection service to 39 customers in the Glendale Community of Hardin County, Kentucky.

6. A copy of the Resolution of Hardin District's Board of Commissioners authorizing the filing of this Application is attached as **Exhibit 2** to this Application.

Compliance with 807 KAR 5:001, Sections 16 and 17⁵

- 7. This Application requests a general adjustment of Hardin District's existing rates for water service and is supported by a twelve-month historical test period ending December 31, 2022. Hardin District has adjusted test period revenues and expenses to reflect known and measurable changes. **Section 16(1)(a)1**.
- 8. Hardin District submits this Application to ensure its rates for water service are sufficient to meet its current and anticipated operating expenses, service its outstanding debt instruments, and provide adequate working capital to

³ Annual Report of Hardin County Water District No. 2 to the Public Service Commission of the Commonwealth of Kentucky for the Calendar Year Ended December 31, 2022 ("2022 Annual Water Report") at Ref Page 27.

⁴ *Id.* at Ref Page 30.

⁵ The reference appearing at the end of each paragraph addressing Hardin District's compliance with these Sections refers to the appropriate section containing the filing requirement being addressed.

maintain its present high quality of service and to meet future demands for water service within its territory. **Section 16(1)(b)1**.

- 9. Hardin District does not conduct or transact business in the Commonwealth of Kentucky under an assumed name or any style other than its real name. Therefore, no certificate of assumed name is required for this Application. **Section 16(1)(b)2**.
- 10. Revised tariff sheets setting forth Hardin District's proposed rates and stating an effective date of November 1, 2023 are attached as **Exhibit 3** to this Application. **Section 16(1)(b)3**.
- 11. Hardin District's present and proposed revised tariff sheets in comparative form on the same sheet side-by-side are attached as **Exhibit 4** to this Application. **Section 16(1)(b)4**.
- 12. In accordance with 807 KAR 5:001, Section 17(2)(b), Hardin District will publish notice of its filing of this Application weekly for three (3) consecutive weeks in a prominent manner in a newspaper of general circulation in each county in which it provides retail water service. The first such notice was published in the September 27, 2023 editions of the *News-Enterprise* and *Larue County Herald-News* and the September 28, 2023 edition of the *Hart County News-Herald*, the newspapers of general circulation in Hardin District's territory. A copy of this notice is attached to this Application as **Exhibit 5**. As of the filing

of this Application, a copy of this notice was posted in Hardin District's office at 1951 W. Park Road, Elizabethtown, Kentucky and on its website and Facebook page. These notices will remain posted until the conclusion of this proceeding. Its wholesale customer was provided a separate notice of the rate adjustment that described the proposed adjustment. Hardin County Water District No. 1 received a notice in the same form as that attached to this Application as **Exhibit 6**. The Notice to Hardin County Water District No. 1 was electronically mailed on September 18, 2023 and was hand delivered on or before September 25, 2023. **Section 16(1)(b)5**; **Section 17(1) and (2)**.

- 13. Pursuant to 807 KAR 5:001, Section 16(2), Hardin District filed with the Commission on August 1, 2023 notice of its intent to file an application for general rate adjustment. A copy of this notice was served by electronic mail on the Office of Attorney General. This notice is attached as **Exhibit 7** to this Application. **Section 16(2)**.
- 14. A complete description and quantified explanation of all adjustments that Hardin District proposes to make to test period expenses is found in **Exhibit 8** to this Application and in the Excel Workbook named "001_Rate Study Adjustments.xlsx" that is embedded in this Application and also filed separately with this Application. **Section 16(4)(a)**.

- 15. Hardin District supports its application for rate adjustment with the verified testimony and exhibits of R. Vaughn Williams, a professional engineer; Michael Shaun Youravich, Hardin District's General Manager; and Timothy R. Davis, a member of Hardin District's Board of Commissioners. Their verified testimonies are attached as **Exhibit 9**. **Section 16(4)(b)**.
- 16. Based upon proforma test period sales, the proposed rates will produce total revenues of \$16,987,446 from sales of water, an increase of \$2,302,048 over the revenues produced from the current rates. The proposed rates will produce a 15.68 percent overall increase in revenue. The effect on utility revenue of each proposed rate is shown at **Exhibit 10** of this Application. **Section 16(4)(d)**.
- 17. The effect upon the average bill for each customer classification subject to Hardin District's proposed rates is shown at **Exhibit 11** of this Application. **Section 16(4)(e)**.
- 18. A detailed analysis of Hardin District's customer bills showing the revenues that are produced by Hardin District's present rates and those produced by the proposed rates is attached as **Exhibit 10** to this Application and is contained in the Excel Workbook named "002_BillingAnalysis.xlsx" that is embedded in this Application and also filed separately with this Application. **Section 16(4)(g)**.

- 19. A summary of Hardin District's revenue requirements using a threeyear average of its debt service requirements and a 20 percent debt service coverage requirement is shown at **Exhibit 12** of this Application. **Section 16(4)(e)**.
- 20. As neither Hardin District's rate base nor capital was used to determine Hardin District's revenue requirements, no reconciliation of rate base and capital exists and the requirement for such reconciliation is not applicable to this Application. Hardin District is a water district organized pursuant to KRS Chapter 74. Kentucky courts have found that neither rate base nor capital is employed to determine the reasonableness of a water district's proposed revenue requirement.⁶ The Commission has frequently acknowledged that the debt service coverage method is the methodology used to determine a water district's revenue requirement. **Section 16(4)(i)**.
- 21. Hardin District's chart of accounts is attached as **Exhibit 13** to this Application. **Section 16(4)(j)**.

⁶ See Public Service Commission v. Dewitt Water District, 720 S.W.2d 725, 731 (Ky. 1986) ("It is important to remember that this case involves water districts which are nonprofit utilities organized under Chapter 74 of the Kentucky Revised Statutes. The owners and consuming ratepayers are essentially the same individuals because the districts are political subdivisions of county government. They have no private capital and no corporate investors who must be satisfied as to traditional profits. Their rates do not generate a return on rate base. The water districts are permitted to earn net revenues based on a debt service formula or on an operating ratio computed in accordance with a percentage of operating expenses [emphasis added]."

- 22. A copy of the most recent independent auditor's report on Hardin District's financial statements, including written communication from the independent auditor regarding the existence of any material weaknesses, is attached as **Exhibit 14** to this Application. **Section 16(4)(k)**.
- 23. No depreciation study was prepared to support this application. "Traditional depreciation studies analyze a utility's historic plant addition and retirement information to determine anticipated service lives." Like most of the Commonwealth's water districts, Hardin District lacks sufficient plant addition and retirement information to perform a reliable analysis.8 Consistent with the Commission's current practice regarding the establishment of depreciation rates,9 Hardin District has instead relied upon the National Association of Regulatory Commissioners' *Depreciation Practices for Small Water Utilities* to determine the appropriate level of depreciation expense for ratemaking purposes. It

⁷ Application of Northern Kentucky Water District for Approval of Depreciation Study, Case No. 2006-00398 (Ky. PSC Nov. 21, 2007), Order at 1-2.

⁸ *Id.* at 3 ("Due to the detailed information and expense required to perform a traditional depreciation study using generally accepted practices, no water district operating under the Commission's jurisdiction has ever filed such a study for Commission review.")

⁹ See, e.g., Case No. 2020-00290, Electronic Application of Bluegrass Water Utility Operating Company, LLC for an Adjustment of Rates and Approval of Construction (Ky. PSC Aug. 2, 2021) Order at 32 ("To evaluate the reasonableness of the depreciation practices of small water and sewer utilities, the Commission has historically relied upon the report published in 1979 by the National Association of Regulatory Utility Commissioners (NARUC) titled Depreciation Practices for Small Water Utilities (NARUC Study) and the O&M Guide for the Support of Rural Water-Wastewater Systems (O&M Guide). When no evidence exists to support a specific life that is inside or outside of the NARUC and O&M Guide ranges, the Commission has historically used the mid-point of the depreciation ranges to depreciate utility plant.").

proposes to adjust its current depreciation rates to reflect the midpoint of the service life ranges set forth in that publication to establish its depreciation rates and depreciation expense levels. A table listing Hardin District's assets as of December 31, 2022 and those assets' in-service date, cost, estimated service life, accumulated depreciation and depreciation for the year ending December 31, 2022 is attached to this Application as **Exhibit 15**. Hardin District's proposed revisions to reflect the application of the depreciation rates set forth in *Depreciation Practices for Small Water Utilities* is shown in **Exhibit 16** to this Application. **Section 16(4)(n)**.

- 24. A list of all commercially available computer software used to develop the schedules and workpapers for this Application is set forth at **Exhibit 17** to this Application. **Section 16(4)(0)**.
- 25. Hardin District has not made any stock offerings. As it is a water district, it cannot issue stock. Its only bond issuances are to Rural Development and the private placement of its 2022A Series Bonds to The Cecilian Bank for which no prospectus was issued. Accordingly, no prospectuses are submitted with this Application. **Section 16(4)(p)**.
- 26. As Hardin District is a governmental agency and a political subdivision of the Commonwealth, it has no shareholders or members, and therefore has no annual reports to shareholders or members. **Section 16(4)(q)**.

- 27. Each managerial report provided to Hardin District's Board of Commissioners for each month of the test period is attached as **Exhibit 18** to this Application. **Section 16(4)(r)**.
- 28. Hardin District is not required to make and has not made any filings with the Securities and Exchange Commission. **Section 16(4)(s).**
 - 29. Hardin District does not operate any affiliates. Section 16(4)(t).
- 30. A cost-of-service study that is based upon information regarding Hardin District's test period operations and that uses a methodology the Commission has generally accepted is attached as **Exhibit 19** to this Application. **Section 16(4)(t)**.
- 31. A detailed income statement and balance sheet reflecting the effect of all proposed adjustments is attached as **Exhibit 20** to this Application. **Section 16(5)(a)**.
- 32. Hardin District is not proposing any pro forma adjustments for plant additions occurring after the end of the test period (December 31, 2022). Notwithstanding this lack of proposed pro forma adjustments for post-test period plant additions, its capital construction budget is provided as **Exhibit 21** to this Application. **Section 16(5)(b)**.
- 33. Hardin District is not proposing any pro forma adjustments to reflect plant additions occurring after the end of the test period (December 31, 2022).

Accordingly, no information regarding such proposed pro forma adjustments is required to be provide with this application. **Section 16(5)(c)**.

- 34. Hardin District's annual operating budget for the year ending December 31, 2022 the period encompassing the proposed proforma adjustments to test period operations, is attached to this Application as **Exhibit 22**, as are the monthly budgets for calendar year 2023. **Section 16(5)(d)**.
- 35. Hardin District does not propose any adjustments to test period revenues or expenses to reflect the post-test period number of customers. The number of customers added since the end of the test period and the related revenue requirement impact as a result of these customers is shown at **Exhibit 23** of this Application. **Section 16(5)(e)**.

Requested Relief

WHEREFORE, Hardin District respectfully requests the Commission to enter an order:

- 1. Approving the revised tariff sheets for water service attached as **Exhibit 3** to this Application;
- 2. Approving rates to reflect a revenue increase of \$2,302,048 for Hardin District's water operations; and
 - 3. Granting all other relief to which it may be entitled.

Dated: September 29, 2023

Respectfully submitted,

Damon R. Talley

RESOLUTION NO. 2023-07-01

RESOLUTION OF THE HARDIN COUNTY WATER DISTRICT NO. 2 AUTHORIZING DISTRICT CHAIRMAN TO FILE AN APPLICATION WITH THE KENTUCKY PUBLIC SERVICE COMMISSION FOR AUTHORITY TO ADJUST RETAIL AND WHOLESALE WATER RATES

WHEREAS, Hardin County Water District No. 2 ("Hardin District No. 2") is a water district organized under KRS Chapter 74;

WHEREAS, Hardin District No. 2 owns and operates both water treatment and water distribution facilities;

WHEREAS, prudent financial management dictates that Hardin District No.

2 periodically review whether its current rate structure is generating sufficient revenues to enable it to remain in a sound financial condition;

WHEREAS, the most recent review by Hardin District No. 2 revealed that it needs to substantially increase its revenues to keep pace with the escalating costs of chemicals, materials, labor, insurance, and other operating costs;

WHEREAS, Hardin District No. 2 engaged the services of Kenvirons, LLC ("Kenvirons") to perform a rate study, including a comprehensive Cost of Service Study (the "COSS") for both wholesale and retail rates;

WHEREAS, Kenvirons has completed its COSS, has recommended a revised retail rate schedule applicable to all retail customers, and has recommended a revised wholesale rate which will be applicable to all wholesale customers;

WHEREAS, Hardin District No. 2 has reviewed the COSS prepared by Kenvirons, has reviewed the recommendations made by Kenvirons, and now desires to implement the rates recommended by Kenvirons; and

WHEREAS, KRS 278.180 requires Hardin District No. 2 to submit a formal application for a rate adjustment to the PSC before it can implement a rate adjustment.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COMMISSIONERS OF THE HARDIN COUNTY WATER DISTRICT NO. 2 AS FOLLOWS:

Section 1. The facts, recitals, and statements contained in the foregoing preamble of this Resolution are true and correct and are hereby affirmed and incorporated as a part of this Resolution.

Section 2. The Chairman is hereby authorized and directed to execute and file an application with the PSC, pursuant to 807 KAR 5:001, for authority to adjust Hardin District No. 2's rates for retail and wholesale water service to those set forth in **Exhibit A** to this Resolution.

Section 3. The Chairman, General Manager, all appropriate staff, and Hardin District No. 2's attorney are hereby further authorized and directed to take any and all other actions and to execute and deliver any and all other documents as may be

reasonably necessary to obtain a general adjustment of its rates for retail and wholesale water service.

Section 4. This Resolution shall take effect upon its adoption.

Adopted by the Board of Commissioners of the Hardin County Water District No. 2 at a meeting held on July 18, 2023, signed by the Chairman, and attested by the Secretary.

HARDIN COUNTY WATER DISTRICT NO. 2

By:

Michael L. Bell, Chairman

ATTEST:

Cordell Tabb, Secretary

CERTIFICATION

The undersigned Secretary of Hardin County Water District No. 2 ("Hardin District No. 2") does hereby certify that the foregoing is a true copy of a Resolution duly adopted by the Hardin District No. 2's Board of Commissioners at a meeting properly held on July 18, 2023, signed by the Chairman of the Board of Commissioners, attested by the Secretary of the Board of Commissioners, and now in full force and effect.

WITNESS my hand this 18th day of July 2023.

Cordell Tabb, Secretary

The Kentucky Public Service Commission has established Case No. 2023-00247 to review the District's application. Any person may examine the application at the District's office, 1951 W. Park Road, Elizabethtown, Kentucky or at the Kentucky Public Service Commission's offices at 211 Sower Boulevard, Frankfort, Kentucky, Monday through Friday, 8:00 a.m. to 4:30 p.m., or through the Public Service Commission's Web site at https://psc.ky.gov/Case/ViewCaseFilings/2023-00247.

Comments regarding the application may be submitted to the Kentucky Public Service Commission through the Commission's Web Site at: https://psc.ky.gov/Case/PublicComments/2023-00247 or by e-mail to psced@ky.gov or by mail to the Public Service Commission, P.O. Box 615, Frankfort, Kentucky 40602.

The rates contained in this notice are the District's proposed rates. However, the Kentucky Public Service Commission may order rates to be charged that differ from the proposed rates. Such action may result in rates for consumers other than the rates in this notice.

A person may submit a timely written request for intervention to the Kentucky Public Service Commission, P.O. Box 615, Frankfort, Kentucky 40602, or by email to psced@ky.gov establishing the grounds for the request including the person's status and interest. If the Kentucky Public Service Commission does not receive a written request for intervention within thirty (30) days of the initial publication of notice, it may take final action on the proposed rates.

Mr. Stephen Hogan, General Manager Hardin County Water District No. 1 1400 Rogersville Road Radcliff, Kentucky 40160

Re: PSC Case No. 2023-00247

Dear Stephen,

As you know, Hardin County Water District No. 2 ("District No. 2") will be filing an Application for a rate increase on or about September 29, 2023 with the Kentucky Public Service Commission ("PSC"). The Application will be seeking a rate adjustment for both retail and wholesale customers.

District No. 2 is seeking to increase its wholesale rate from \$2.20 to \$2.89 per 1,000 gallons. This is an increase of **\$0.69 per 1,000 gallons or 31.36%**. The proposed rate is based upon a comprehensive Cost of Service Study performed by Kenvirons.

Enclosed is the Wholesale Customer Notice. This notice contains important information about how you can obtain a copy of the Application, your right to intervene in the PSC rate case proceeding, and other information required by the PSC.

If you have any questions, please let me know.

Sincerely,

Shaun Youravich, General Manager

Enclosure

WHOLESALE CUSTOMER NOTICE

On or about September 29, 2023, Hardin County Water District No. 2 ("the District") will file an application with the Kentucky Public Service Commission for the purpose of adjusting its monthly rates for water service. The District proposes to place the proposed rates into effect on November 1, 2023.

The current rate and the proposed rate for the District's wholesale customers are set forth as follows:

| | Current Rate | Proposed Rate | Change (\$) | Change (%) |
|-------------------------------------|-----------------|------------------|-------------|------------|
| Volumetric Rate (per 1,000 gallons) | \$2.20 | \$2.89 | \$0.69 | 31.36 |

If the Kentucky Public Service Commission approves the proposed wholesale rate, then the average monthly bill for a wholesale customer will increase from \$2,200 to \$2,890 for each 1,000,000 gallons purchased. This is an increase of \$690.00 for each million gallons or 31.36%.

The Kentucky Public Service Commission has established Case No. 2023-00247 to review the District's application. Any person may examine these applications at the District's office, 1951 W. Park Road, Elizabethtown, Kentucky or at the Kentucky Public Service Commission's offices at 211 Sower Boulevard, Frankfort, Kentucky, Monday through Friday, 8:00 a.m. to 4:30 p.m., or through the Public Service Commission's Web site at https://psc.ky.gov/Case/ViewCaseFilings/2023-00247.

Comments regarding the application may be submitted to the Kentucky Public Service Commission through the Commission's Web Site at https://psc.ky.gov/Case/PublicComments/2023-00247 or by e-mail to psced@ky.gov or by mail to the Public Service Commission, P.O. Box 615, Frankfort, Kentucky 40602.

The wholesale rate contained in this notice is the District's proposed wholesale rate. However, the Kentucky Public Service Commission may order a rate to be charged that differs from the proposed wholesale rate. Such action may result in a rate for a wholesale consumer other than the rate in this notice.

A wholesale customer or any person may submit a timely written request for intervention to the Kentucky Public Service Commission, P.O. Box 615, Frankfort, Kentucky 40602, or by email to psced@ky.gov establishing the grounds for the request including the person's status and interest. If the Kentucky Public Service Commission does not receive a written request for intervention within thirty (30) days of the initial publication of notice, it may take final action on the proposed rates.

|--|---|---------------------|
| ELECTRONIC APPLICATION OF HARDIN COUNTY WATER DISTRICT NO. 2 FOR ADJUSTMENT OF RATES |) | CASE NO. 2023-00247 |

WRITTEN TESTIMONY OF R. VAUGHN WILLIAMS, P.E. ON BEHALF OF HARDIN COUNTY WATER DISTRICT NO. 2

Filed: September 29, 2023

- 1 Q. Please state your name, position, and business address.
- 2 A. My name is R. Vaughn Williams. I am a licensed professional engineer.
- 3 My business address is 770 Wilkinson Boulevard, Frankfort, Kentucky
- 4 40601.
- 5 Q. By whom are you employed and in what capacity?
- 6 A. I am President of Kenvirons, LLC, a civil and environmental engineering
- 7 firm headquartered in Frankfort, Kentucky.
- 8 Q. Please describe your educational and professional background.
- 9 A. My Curriculum Vitae is found at Appendix A to my testimony and lists
- my education background and professional experience.
- 11 Q. Have you previously testified before the Public Service Commission?
- 12 A. No. However, I have prepared and filed various reports in support of water
- infrastructure projects with the Public Service Commission
- 14 ("Commission").
- 15 Q. By whom have you been engaged in this proceeding?
- 16 A. Hardin County Water District No. 2 ("HCWD2" or "the District") engaged
- 17 Kenvirons to prepare a rate study for its water operations and to assist in
- the preparation of an application to the Commission for an adjustment of
- 19 HCWD2's water service rates. Kenvirons has provided engineering
- services to HCWD2 since 1986. As an employee and member of

- 1 Kenvirons, I have worked with HCWD2 since 1990. Carlos Miller was the
 2 Principal-in-Charge for the HCWD2 projects. I primarily served as the
 3 design or project engineer. Since Mr. Miller's retirement, I have served as
 4 the Principal-in-Charge.
- Q. What is your experience regarding the preparation of rate studies forwater utilities?
- A. I have prepared a minimum of twelve user rate studies for water utilities. I
 worked with Mr. Miller to prepare user rate studies for HCWD2 as part of
 its 1994 Water Treatment Plant Expansion and 2012 Louisville Water
 Company Interconnect projects.
- 11 Q. What is the purpose of your testimony in this proceeding?
- 12 A. The purpose of my testimony is to discuss the findings of my rate study,
 13 which is entitled "Water Rate Analysis" ("the Rate Study"). A copy of the
 14 Rate Study is attached to my testimony as Appendix B.
- 15 Q. When did Kenvirons prepare the Rate Study?
- A. Kenvirons began working on the Rate Study in March 2023. A draft of the Rate Study was presented to HCWD2's Board of Commissioners at its June 2023 Meeting. The final version of the Rate Study was completed on July 17, 2023, and submitted to HCWD2's Board of Commissioners on July 18, 2023.

Q. Briefly summarize your testimony.

A.

Based upon adjusted test period operation, HCWD2 has a total annual revenue requirement of \$18,274,867. It requires annual revenues from water sales of \$16,987,446. During the test period, its present rates for water service generated revenues of \$14,685,398. To produce revenues sufficient to meet its reasonable operating expenses, its obligations under its long-term debt instruments, and provide for adequate working capital, HCWD2's rates should be adjusted to produce additional revenues of \$2,302,048, an increase of 15.68 percent over the revenues produced by current rates.

To produce these additional revenues, HCWD2's retail rates should be increased to produce additional revenues of \$2,826,840, an increase of 20.577 percent over test period revenues from present retail rates. HCWD2's wholesale rate of \$2.20 per 1,000 gallons should be increased approximately 31.36 percent to \$2.89 per 1,000 gallons to generate total annual revenues of \$422,624. While the wholesale rate will increase, posttest period reductions in the purchases of HCWD2's only wholesale customer - Hardin County Water District No. 1 ("Hardin District No. 1") - will result in a reduction of \$524,790 in annual revenues from sales for resale.

- 1 Q. Describe how the proposed rates were developed.
- 2 A. First, the level of revenue required from water sales was determined based
- 3 upon HCWD2's operating expenses, long-term debt obligations and the
- debt coverage requirements in its long-term debt. Then this amount was
- 5 allocated among HCWD2's customers based upon the cost to serve each
- 6 customer classification.
- 7 Q. What test period was used to perform the rate study?
- 8 A. Calendar year 2022.
- 9 **O.** Why was this period used?
- 10 A. This period represents the period covered by HCWD2's most recent
- financial and statistical report on file with the Commission and would be
- the most representative of HCWD2's current operations.
- 13 Q. Describe "the Schedule of Adjusted Operations" that appears on the
- 14 Rate Study's first page.
- 15 A. The Schedule of Adjusted Operations lists the revenues and expenses of
- 16 HCWD2's water operations for the test period and the adjustments made
- 17 to specific items to determine the Pro-Forma Expense/Revenue. The
- Revenue Requirement computations appear at the bottom of this schedule.

Q. Why are adjustments made to test period expenses?

A.

A. Adjustments recognize any known and measurable changes in operations occurring during or after the test period. They are necessary to ensure that the proposed rates accurately reflect current operating conditions. If an adjustment is shown in the Rate Study, there is a reference that explains the adjustment.

7 Q. What adjustments were made to test period revenues?

As reflected in the Schedule of Adjusted Operations, no adjustments were made to test period revenues. Following the close of test period, HCWD1 advised HCWD2 that it would be reducing its purchases of water for resale. During the test period, Hardin District No. 1 purchased approximately 430,643,000 gallons of water from HCWD2 (or approximately 1,179,844 gallons per day) while its water treatment facilities were undergoing repairs and improvements. It has since reduced its purchases to approximately 400,000 gallons per day (or approximately 146,000,000 annually) and has advised HCWD2 that it will continue to purchase at that level for the foreseeable future. Mr. Youravich addresses this development in greater detail in his written testimony.

No adjustments were made in the Schedule of Adjusted Operations to reflect this decrease in purchases for resale. However, adjustments were

- made in the sections of the Report Study addressing the allocation of HCWD2's revenue requirements to wholesale rate and retail rates (Table G.2).
- 4 Q. Does the Rate Study contain a billing analysis?
- Yes. As part of the Report Study, I performed a billing analysis. A copy of this billing analysis of the current and proposed rates is found at pages 21 through 28 of the Report Study. A copy of the billing analysis has been attached as Exhibit 10 to HCWD2's Application .
- Q. What adjustments were made to Salary and Wages Employees
 expense?
- 11 A. Test period expense was increased \$958,935 to reflect changes in 12 personnel during and after the test period, as well as changes in employee 13 compensation. The adjustment includes wage and salary increases that 14 HCWD2's Board of Commissioners approved at its December 2022 Board 15 Meeting to take effect on January 1, 2023. A detailed calculation of this 16 adjustment is contained in the spreadsheet named "Salary Adjust" in the Excel Workbook named "001_Rate Study Adjustments.xlsx" that is 17 18 embedded in HCWD2's Application and also filed separately with the 19 Application.

1 Q. What adjustments were made to Employee Pensions and Benefits?

- The test period expense was increased by \$237,462. This adjustment 2 A. reflects changes in the costs in health, dental, vision and life insurance, 3 pension expense, and State Unemployment Insurance taxes resulting from 4 5 wage and salary increases granted during 2022 and those that took effect 6 on January 1, 2023 and changes in the number of employees on HCWD2's payroll. It also represents changes in the required employer contribution 7 8 rate to the County Employee Retirement System. A detailed calculation of 9 this adjustment is contained in the spreadsheets named "Benefit Adjust 1" 10 and "Benefit Adjust 2" in Excel Workbook "001_Rate Study 11 Adjustments.xlsx".
- Q. An adjustment of \$30,087 was made to purchased water expense. Why was this adjustment made?
- A. On July 1, 2023, the Louisville Water Company increased its wholesale rate from \$2.55 per 1,000 gallons to \$2.63 per 1,000 gallons, or approximately 3.042 percent. Applying this percentage to HCWD2's purchases during the test period results in an increase in purchased water expense of \$30,087. A detailed calculation of this adjustment is contained in the spreadsheet named "Water Purchase Adjust" in Excel Workbook "001_Rate Study Adjustments.xlsx".

Q. An adjustment was made to test period chemical expense. What was this adjustment?

A.

A. Test period chemical expense was increased by \$177,092. Chemical expense represents 5.9 percent of test period operating expenses. In recent years, the District has experienced significant increases in chemical expense due to supply chain disruptions caused first by the pandemic and then the Russian-Ukrainian War. For example, test period chemical expense increased approximately 72.9 percent over the prior year's chemical expense. These disruptions are not expected to be resolved in the near future and price instability is likely to continue.

To ensure that the proposed rates are representative of current operating conditions, an adjustment to chemical expense is proposed. Near the end of each calendar year, HCWD2 issues a request for bids for its chemical requirements for its water treatment plant for the forthcoming year. Using the accepted bids for calendar year 2023, it was determined that HCWD2 will experience an increase of 26.11 percent in its chemical costs in 2023. HCWD2 proposes to adjust test period chemical expense to reflect 2023 chemical prices. This adjustment translates into a pro forma chemical expense of \$855,333. A detailed calculation of this adjustment is

| 1 | contained | in | the | spreadsheet | named | "Chemical | Adjust" | in | Excel |
|---|---|----|-----|-------------|-------|-----------|---------|----|-------|
| 2 | Workbook "001 Rate Study Adjustments.xlsx". | | | | | | | | |

Q. Did you make any other adjustments to test period operation and maintenance expenses?

Yes. Contract services – Other was increased by \$37,500 to reflect the cost
 of the Report Study. The District expects to prepare another study in 2025
 and proposes to amortize this cost over a two-year period.

Please note that the Report Study made no adjustments to reflect the expenses related to preparing HCWD2's application or incurred in any Commission proceeding reviewing the proposed rates. In its final decision on HCWD2's application, the Commission should take into consideration those expenses and should permit their recovery in the new rates established for the District.

14 Q. Describe the adjustment to test period depreciation expense.

15 A. The District proposes to decrease Depreciation expense by \$286,381. This
16 adjustment reflects proposed revisions in the service life of several asset
17 classes.

The District has not performed a depreciation study to determine the service lives of its plant assets. It lacks sufficient plant addition and retirement information to perform such a study. The Commission has held

that, in the absence of a depreciation study to support the service life assigned to a water utility's plant assets, the mid-point of the service life range set forth in the National Association of Regulatory Commissioners' ("NARUC") *Depreciation Practices for Small Water Utilities* for that asset group should be used to establish a water utility's depreciation rates. The District's existing depreciation rates are reflected in the depreciation schedule attached to the District's Application as Exhibit 15. To comply with the Commission's practice, all the District's existing depreciation rates were revised to reflect the mid-point of the service life ranges set forth in that publication to establish its depreciation rates and depreciation expense levels. The effect of these revisions is shown in Table A of the Rate Study.

Q. Upon making these adjustments, what was proforma Total Operating

14 Expenses?

15 A. \$16,159,118

16 Q. How was the District's Total Revenue Requirement determined?

17 A. The debt service coverage methodology was used to determine the
18 District's total revenue requirement. This method, as historically applied
19 by the Commission, includes an allowance for additional working capital
20 that is equal to the minimum net revenues required by a water district's

long-term debt holders that are above its average annual debt payments. In the District's case, the amount is equal to 20 percent of its average annual debt payments. The District's average annual principal and interest payment and a working capital component were added to total operating expense to obtain the total revenue requirement. The calculations used to determine District's average annual principal and interest payment are shown at Table B of the Report Study. The calculation of total revenue requirements is shown at the bottom of Schedule of Adjusted Operations.

9 Q. What is the District's total revenue requirement?

10 A. \$18,274,867.

1

2

3

4

5

6

7

8

11 Q. How was revenue required from water sales determined?

- 12 A. Revenue required from water sales was determined by subtracting from
- District's total revenue requirement other sources of available revenue,
- which included forfeited discounts, miscellaneous service revenues, and
- interest income. These other sources of revenue total \$1,287,421.
- Accordingly, the District requires \$16,987,446 from water sales.

17 Q. How were rates developed to produce this amount?

- 18 A. Tables C through K of the Report Study show the process used to develop
- the proposed rates.

Table C shows the allocation of depreciation expense based upon the following functions: supply and water treatment, transmission and distribution, storage tanks, administrative and general, and customer. Table D shows a similar allocation of plant value. Plant value percentages are used to allocate debt service (including additional working capital allowance) among these functions.

Table E sets out the amount of water that is produced, sold, used for water operations, fire protection, and is unaccounted-for. It also provides a breakdown of the District's water mains by size and length and amount of main that is jointly used to provide wholesale and retail service. In the District's system, there are approximately 1,013.96 miles of main, and 7,146.0 inch-miles of main. Wholesale and retail customers jointly use 48.78 miles of main and 678.4 inch-miles of main. This indicates that wholesale customers are using 9.49 percent of the total inch-miles of water main.

Using the information in Table E, a set of allocation factors to allocate costs to the District's wholesale customers were computed. These allocation factors are shown in Table F and are based upon the size and length of the District's water mains and the volume of water produced, sold and lost during the test period.

The water production multipliers show that HCWD2 must produce 1.2681 gallons of water to sell one gallon to all its customers, and that it must produce 1.0923 gallons of water to sell a wholesale customer one gallon. The Production Allocation Factor represents the ratio of water produced for wholesale customers to total water produced.

The Pipeline Transmission Factor allocates distribution costs in proportion to the size and length of the system used by the wholesale customer. The factor was determined by the ratio of the inch-miles of jointly used lines to the total inch-miles of lines in the system times the ratio of water purchased by the wholesale customers to the total water sales.

Certain costs, such as tank maintenance & construction and general & administrative expenses do not vary with the amount of the transmission system jointly used. The Use Factor was determined by the ratio of sales to the wholesale customers to the total water sales.

Table G.1 shows the computation of wholesale rate based upon the application of the allocation factors to operating expense, depreciation expense and debt service and coverage. This computation shows that, based upon test period water sales, approximately \$1,246,575 of the total required revenue is related to the provision of wholesale service. This

allocated amount is then divided by wholesale gallons sold in the test period to produce a rate for wholesale service of \$2.89 per 1,000 gallons.

7

8

9

10

11

12

13

14

15

16

17

As previously noted, Hardin District No. 1 has significantly reduced its purchases from HCWD2 since the end of the test period. As shown in Table G.2, Hardin District No. 1's current daily purchases are approximately 33.90 percent of its test period daily purchases. To reflect this lower level of purchases and thus lower level of expense, the assigned wholesale expense for each water utility expense account shown in Table G.1 was reduced to 33.9 percent of the originally assigned amount. These reductions are shown in Table G.2. After these adjustments are made, approximately \$422,624 of the total revenue requirement is allocated to wholesale expense. This allocated amount is then divided by the number of gallons that Hardin District No. 1 is currently purchasing and expects to purchase for the foreseeable future to produce the wholesale rate of \$2.89 per 1,000 gallons.¹ As a result of the adjustment in assigned wholesale expense, approximately \$17,852,244 of the total required revenue is assigned to retail customers.

 $^{422,624 \}div (400,000 \text{ gal/day x 365 days/year}) = $2.89 \text{ per } 1,000 \text{ gallons}.$

Table H shows retail operation and maintenance expenses allocated among the following functions: commodity, demand, customer, and administrative and general.

Table I summarizes the allocation of retail costs to the commodity, demand and customer functions and the revenue required from retail rates for each function after other sources of utility revenue are considered.

Table J provides a breakdown of minimum bill water usage and water usage by block. Water usage (or sales) by block is adjusted to reflect the consumption of all gallons available in a minimum bill.

Table K shows the final calculation of the cost of retail service. Commodity and demand costs are allocated between three usage blocks: first 2,000 gallons; next 498,000 gallons; and usage over 500,000 gallons. The total commodity and demand costs for each block were added together, then divided by the adjusted sales within each block to produce calculated usage rates per 1,000 gallons. When applied to the Proposed Billing Analysis, the calculated usage rates failed to produce the exact required revenue. Therefore, usage rates were adjusted to more closely match the required level of revenue.

To determine the appropriate customer charge to include in minimum bills, total allocated customer costs were divided by the number

- of bills issued during the test period. The minimum bill for a meter size is

 determined by adding the usage charges for the allowable gallons for that

 meter size and the customer charge.
- The rates resulting from these calculations are shown at Table L of the Study.

6 Q. What revisions, if any, were made to the District's present rate design?

7 A. No revisions were made to the District's present rate design.

8 Q. What is the effect of the proposed rates on the average retail 9 customer's bill?

10 A. The table below shows the effect of the proposed rates on the monthly bill11 of the average customer for each meter size.

| Customer | Average Usage (gals) | Monthly Bill at Proposed Rate | Monthly Bill Increase (\$) | Monthly Bill Increase (%) |
|----------------------|-------------------------|-------------------------------------|-------------------------------|---------------------------|
| 5/8 X 3/4-Inch Meter | 3,600 | \$ 31.87 | \$ 5.05 | 18.85 |

12 Q. What are your recommendations to the Commission?

13 A. I recommend that the Commission approve the proposed rates.

- 1 Q. Does this conclude your testimony?
- 2 A. Yes, it does.

[Nothing follows.]

VERIFICATION

| COMMONWEALTH OF KENTUCKY |) | |
|--------------------------|---|-----|
| |) | SS: |
| COUNTY OF FRANKLIN |) | |

The undersigned, **R. Vaughn Williams**, being duly sworn, deposes and says he has personal knowledge of the matters set forth in the foregoing testimony, and the answers contained therein are true and correct to the best of his information, knowledge, and belief.

R. VAUGHN WILLIAMS, P.E.

Subscribed and sworn to before me, a Notary Public in and before said County and State, this <u>29</u> day of September 2023.

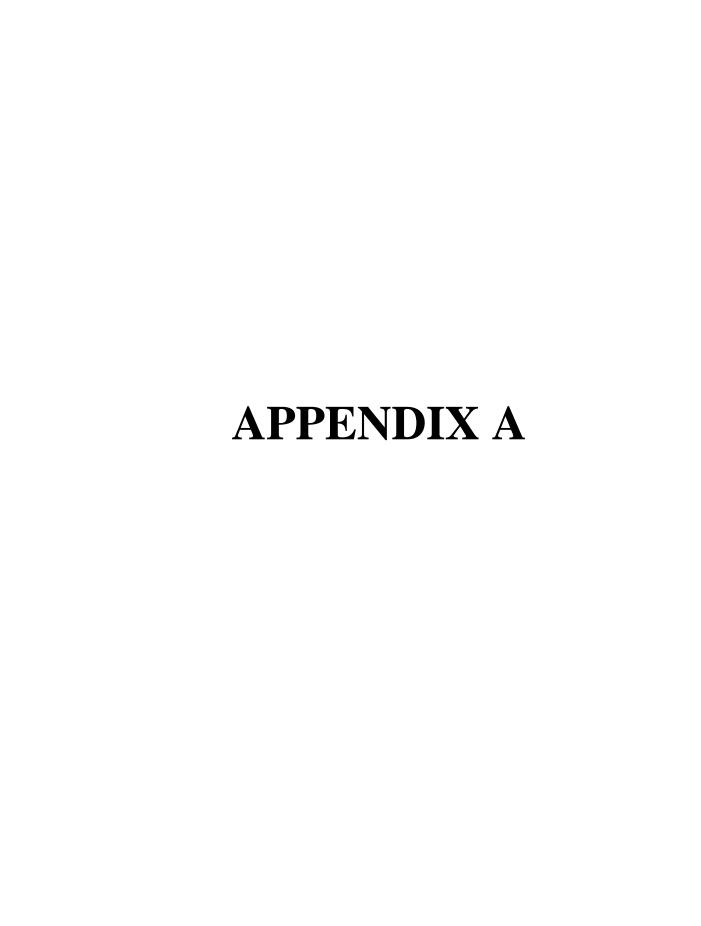

(SEAL)

Notary Public

Notary Commission Number: KYNP1502

My Commission Expires:

10-17-2024

R. VAUGHN WILLIAMS, P.E.

President

EXPERIENCE

Principal of the firm responsible for the planning, design and construction administration for environmental and water resources related projects. Experience includes potable water treatment facilities, municipal and industrial wastewater treatment facilities, water distribution systems, sewage collection systems, water intake structures, water and sewer pump stations, residential and commercial development plans, storm water and sediment control structures, water supply studies, user rate studies, and construction oversight.

AWARDS

2007 American Consulting Engineers Council, Engineering Excellence Awards, Grand Award for the Jackson County Water Treatment Plant

2009 American Consulting Engineers Council, Engineering Excellence Awards, Grand Award for the Wood Creek Water District Regional Water Treatment Plant

2010 American Consulting Engineers Council, Engineering Excellence Awards, Grand Award for the Jamestown Water Treatment Plant

YEARS AT KENVIRONS

33 years (May 1990)

EDUCATION

B.S., Civil Engineering, University of Kentucky, 1990

PROFESSIONAL REGISTRATION

Professional Engineer:

- Kentucky
- Indiana
- West Virginia

PROFESSIONAL AFFILIATIONS

- Kentucky Society of Professional Engineers
- American Society of Civil Engineers
- American Water Works Association
- Water Environment Federation
- Past Chair KY-TN AWWA Section Water for People

RELEVANT PROJECTS

Hardin County Water District No. 2 – White Mills WTP and City Springs WTP, Ammonia Feed Systems, Hardin County, KY. Principal-In-Charge for the planning, design, and construction of the ammonia feed systems installed at the water treatment plants. The facilities will convert HCWD2's residual disinfectant to chloramine and allow intermingling with water purchased from Louisville Water Company.

Hardin County Water District No. 2 – Colesburg Pumps Station, Hardin County, KY. Project Manager for the 2.0 mgd pump station developed to pump water purchased from LWC into HCWD2's distribution system. The pump station includes variable frequency drives for the 200 Hp pumps, chloramine monitoring, and chloramine booster feed. The pump station can be expanded to 10.0 mgd with the addition of future pumps. The project included a user rate impact analysis and rate study.

Stanford Water Works, Water Supply Study, Lincoln County, KY. Study evaluated alternative to increase the water supply capacity for the City of Stanford. As recommended, the City is currently investigating potential withdrawals from an existing reservoir owned and operated by the KY Department of Fish & Wildlife Resources.

Louisville Water Company, 20" Transmission Main. Principal-In-Charge for the design and layout of a transmission main through Lebanon Junction and crossing the Rolling Fork River to supply potable for Hardin County Water District No. 2.

Jackson County Water Association, Supplemental Raw Water Supply. Project was the culmination of a fifteen year effort to increase the water supply capacity for Jackson County. The project consisted of a river intake, two booster pump stations and a 74,000 LF 16" transmission main. Raw water is pumped from the South Fork Rockcastle River to recharge the Association's water supply reservoir. The project included a user rate impact analysis and rate study.

City of Bardstown, Water Supply Study, Nelson County, KY. Performed detailed study concerning the long term water supply needs of the community and development of alternative capable of meeting the projected water need. Alternatives included existing reservoirs, developing new reservoirs, stream withdrawals combined with pump-store operations, and wholesale purchases from other utilities.

Jamestown Water Treatment Plant Expansion, Russell County, KY. Principal-In-Charge for the planning, design, and construction administration of an 8.0 million gallon per day (mgd) membrane filtration plant. Project utilized existing basins for pre-treatment, flocculation, and reject recovery. Future addition of membranes cassettes can increase capacity to 10.0 mgd. The project included a user rate impact analysis and rate study.

Beattyville Water Treatment Facility, Lee County, KY. Responsible for the design of the 2.0 mgd conventional water treatment plant, river intake structure, and residuals handling facilities. Plant layout developed for future expansion to 4.0 mgd. Project included all environmental studies and permitting required for a new raw water intake located on the Kentucky River. The project included a user rate impact analysis and rate study.

Wood Creek Water Treatment Plant Expansion, Laurel County, KY. Principal-In-Charge for the planning, design, and construction administration of an 11.0 mgd Super-Pulsator plant. New facilities include raw water pumps, pre- treatment basins, clarifiers, Greenleaf filters, new chemical feed, UV disinfection, clearwell, and high service pumps. The project included a user rate impact analysis and rate study.

Prestonsburg Raw Water Intake, Floyd County, KY. Project Engineer responsible for the design of a 5.0 mgd river intake structure. Coordinated computational fluid dynamics

(CFD) model of the structure to assess vortex formations and silt deposition. Structure designed in accordance with the Hydraulic Institute's Pump Intake Design Standard 9.8.

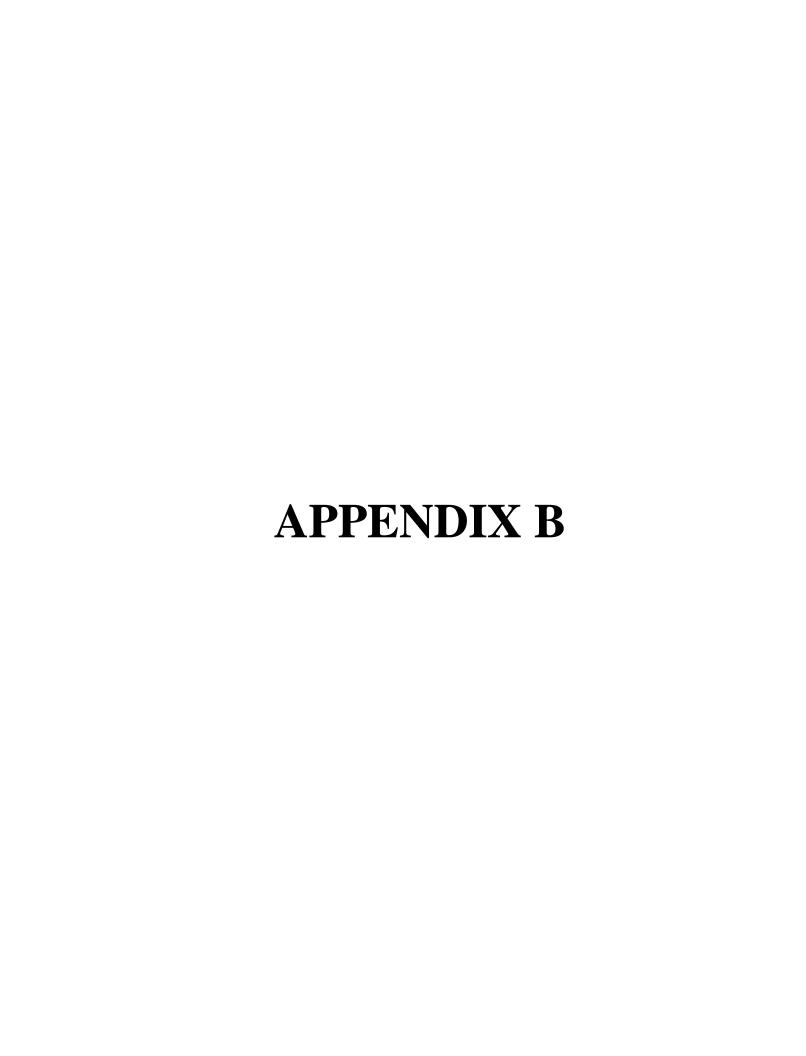

Jackson County Water Treatment Plant, Jackson County, KY. Project Manager responsible for the planning, design, and construction administration of a 2.5 mgd Dissolved Air Flotation (DAF) plant. First DAF plant constructed in Kentucky. The project included a user rate impact analysis and rate study.

Hardin County Water District No. 2, Water Plant Expansion, Hardin County, KY. Project Manager responsible for the design and construction administration of an 8.1 mgd Clari-Cone WTP. Project added two new process trains with Clari-Cones, decelerating filters, 1.0 MG concrete clearwell, and solids handling facilities. The project included a user rate impact analysis and rate study.

Campbellsville Water Treatment Plant Expansion, Taylor County, KY. Project Manager responsible for the planning, design, and construction administration of a 9.0 mgd conventional treatment plant. The project included a user rate impact analysis and rate study.

Wood Creek Raw Water Intake, Clearwell, and High Service Pump Station, Laurel County, KY. Project Manager responsible for the planning, design, and construction administration of a unique intake structure, 1.0 MG clearwell, and 8.0 mgd high service pump station. Project included a study to project the long term drinking water needs of Laurel County and supply capacity of Wood Creek Lake. The project included a user rate impact analysis and rate study.

Liberty Water Treatment Plant Expansion, Casey County, KY. Project Manager responsible for the planning, design, and construction administration of a 1.2 mgd conventional treatment plant. Evaluated the long term water demand for the City of Liberty and Casey County and adequacy of the existing the existing supply reservoirs to meet the community's needs. The project included a user rate impact analysis and rate study.

REFERENCES FOR SCHEDULE OF ADJUSTED VALUES

- A) Salaries & Wages were adjusted to reflect the raises realized during 2022 and 2023 as well as changes to the employee roster. See file "Rate Study Adjustment.xlsx" for additional details.
- B) The Employee Pensions & Benefits were adjusted to account for changes associated with 2023 Salaries, Medical Insurance, Life Insurance, and Unemployment Tax. See file "Rate Study Adjustment.xlsx" for
- C) Effective July 1, 2023, Louisville Water Company increased their wholesale rate from \$2.55 to \$2.63 per 1,000 gallons, or 3.042%. The water purchase adjustment reflects the percent increase (\$989,113 x 3.042%). See file "Rate Study Adjustment.xlsx" for additional details.
- D) The Water District solicited new pricing for the chemicals and an adjustment was made based upon the chemicals used during the test year and the new pricing. See file "Rate Study Adjustment.xlsx" for additional
- E) The current rate study will cost over \$75,000 and the Water District plans to conduct another study during 2025. Therefore, the cost of the study was amortized over two years, or \$37,500 per year.
- F) The depreciation expense was adjusted to reflect an asset service life equal to the midpoint of the ranges recommended in the National Association of Regulatory Utility Commissioners (NARUC) publication "<u>Depreciation Practices for Small Water Utilities</u>" dated August 15, 1979.
- G) The annual debt service payments are shown in Table B. An adjustment was made to reflect the average of the payments for years 2023, 2024, and 2025.
- H) The amount shown in Table B for coverage on the long-term debts is included in the revenue requirement as Additional Working Capital.
- I) The 2022 Annual Report to the PSC reported an "Interest and Dividend Income" loss of \$2,327,904 when the Water District cashed out the investment accounts. The interest and dividend income realized on the accounts that were kept was \$292,443.

Note:

¹⁾ During 2014, the KY PSC approved an asset purchase agreement between the Water District and the City of Elizabethtown, Kentucky for the District's purchase of certain water system assets of the City. The agreement requires the District to pay a note to the City for \$8,000,000 based on twenty annual installments of \$400,000 beginning in 2015.

| ADJUSTM | ENT OF RAT | TES) | |

WRITTEN TESTIMONY OF

MICHAEL SHAUN YOURAVICH

GENERAL MANAGER

HARDIN COUNTY WATER DISTRICT NO. 2

Filed: September 29, 2023

- 1 Q. Please state your name, position, and business address.
- 2 A. My full name is Michael Shaun Youravich, but everyone calls me Shaun
- instead of Michael. I am the General Manager of Hardin County Water
- District No. 2 (the "District"). My business address is the District's
- address: P.O. Box 970, 1951 W. Park Road, Elizabethtown, Kentucky
- 6 42702.
- 7 Q. How long have you been the General Manager of the District?
- 8 A. Since 2020, but I have worked continuously for the District since January
- 9 1992.
- 10 Q. What are some of the positions which you have held during your
- tenure at the District?
- 12 A. I served as Water Treatment Operator, Water Treatment Plant Manager,
- and Operations Manager before I became the General Manager.
- 14 Q. Please describe your educational and professional background.
- 15 A. I earned a bachelor's degree from Western Kentucky University. I have
- been very active with the Kentucky Water Operators Association and have
- served as President of the Association. I have also been active with the
- 18 KY/TN Section of the American Water Works Association (the
- "AWWA"). Since November 2022, I have served on the Board of the
- 20 Kentucky Infrastructure Authority as a representative of the KY/TN

- Section of AWWA. I have prepared a statement of my professional history and education, which is attached as **Appendix A** to this testimony.
- 3 Q. What are your primary duties as General Manager of the District?
- 4 A. I serve as the chief executive officer of the District. I report directly to the
- 5 District's Board of Commissioners. My primary role is to execute the
- 6 policies adopted by the Board and to direct the operations of the
- 7 District. Fortunately, I have an excellent management team in place to
- 8 assist me, and the District has excellent employees.
- 9 Q. Does the District have a Job Description for the General Manager's position?
- 11 A. Yes. It is attached as **Appendix B** to this testimony.
- 12 Q. Approximately how many employees does the District have?
- 13 A. The District has eighty-six (86) employees, which includes the five (5)
- 14 Commissioners.
- 15 Q. Who has the responsibility for hiring and firing the District's
- employees?
- 17 A. As prescribed by KRS 74.040, the Board hires the General Manager, and
- the General Manager is responsible for hiring and firing all other
- employees. Thus, the "buck stops with me" with respect to hiring and
- 20 firing.

Purpose of Testimony

2 Q. What is the purpose of your Written Testimony?

1

12

The primary purposes of my Written Testimony are: (1) to support the 3 A. District's application for a general rate adjustment; (2) to explain the 4 District's staff's role in assisting Vaughn Williams, President of 5 6 Kenvirons, in performing his rate study and preparing the Water Rate Analysis, which Vaughn Williams presented to the Board; (3) to explain 7 the method used by the District to separate the expenses it incurs in 8 operating its Sewer Division from its Water Division; and (4) to explain to 9 the Public Service Commission (the "PSC") the difficulty that the District 10 has in recruiting and retaining its employees. 11

Assistance with Rate Study

13 Q. Did you calculate the rates that the District is proposing to the PSC?

14 A. No. The proposed rates were determined and calculated by Vaughn
15 Williams, who is the President of Kenvirons.

16 Q. What information did you provide or make available to Mr. Williams?

A. Mandy Isham, the District's Financial Manager, and I worked closely with

Mr. Williams and provided him with all the financial, billing, and other

information requested by him. We also provided the District's detailed

- Depreciation Schedule to Mr. Williams and answered numerous questions about different assets and the District's finances.
- Q. Did you provide any information to Mr. Williams concerning the past and future purchases by the District's wholesale customer?
- Yes. The District sells water on a wholesale basis to Hardin County Water 5 A. District No. 1 ("District No. 1"). Over the past few years, District No. 1 6 7 has purchased water from the District on a daily basis while rehabilitating two (2) of its water treatment plants. In calendar year 2021, it purchased 8 209,496,000 gallons. Then in 2022, it purchased over twice that much – 9 430,643,000 gallons. A few months ago, after both of District No. 1's 10 water treatment plants were operating once again, Stephen Hogan, who is 11 District No. 1's General Manager, informed me that District No. 1 would 12 not be purchasing nearly as much water as it did in 2022. For planning 13 purposes, I requested that Mr. Hogan determine the approximate number 14 of gallons that he planned to purchase each day, barring some 15 emergency. He agreed to give this some thought. Ultimately, he decided 16 that his "sweet spot" was to purchase 400,000 gallons per day, on average, 17 from the District on an ongoing basis. 18

1 Q. Has District No. 1 been purchasing this amount?

- 2 A. No. Over the past four (4) months, District No. 1 has purchased on average
- 3 476,000 gallons per day. Purchases by District No. 1 will include seasonal
- 4 changes over the course of a year with an expected annual purchase that
- 5 will average 400,000 gallons per day.
- 6 Q. Did you think it was important to provide this information to Mr.
- 7 Williams?
- 8 A. Absolutely. Since District No. 1 was going to be purchasing considerably
- less water from the District than it did in both 2021 and 2022, I wanted to
- provide this information to Mr. Williams. Once he obtained this
- information, Mr. Williams demonstrated to me the importance of this
- information in calculating the proposed retail and wholesale rates for the
- District. Then, Mr. Williams suggested that I get a letter from District No.
- 14 1 to document the amount of water it intends to purchase from the District
- going forward.
- 16 Q. Did you request this letter from District No. 1?
- 17 A. Yes. Mr. Hogan understood why the District would need this letter, and
- 18 he provided it to me. The letter from District No. 1 is attached as
- 19 **Appendix C** to this testimony.

- Q. According to this letter, how many gallons of water per day did
 District No. 1 estimate that it would purchase from the District?
- 3 A. 400,000 gallons per day, on average.
- Q. Does the District have a written agreement with District No. 1 concerning the amount of water that District No. 1 is obligated to
- 6 **purchase from the District?**
- 7 A. No. A few years ago, when District No. 1 initially approached the District about purchasing water, we discussed negotiating a contract. However, 8 District No. 1 did not wish to obligate itself to purchase a minimum volume 9 of water per day or per month from us. Since the District had considerable 10 reserve capacity at our water treatment plants to supply District No. 1's 11 anticipated needs, we did not pursue this issue. Hence, no written 12 agreement was prepared, and there is no minimum amount of water that 13 14 District No. 1 is obligated to purchase from the District.
- Q. Did Mr. Williams base his Water Rate Analysis (the "Rate Study") on the assumption that District No. 1 will be purchasing 400,000 gallons per day going forward?
- 18 A. Yes, if you look at the last page of the Rate Study, it assumes that District
 19 No. 1 will purchase 146,000,000 gallons of water per year. This

- calculation is based upon District No. 1 purchasing 400,000 gallons per day, multiplied by 365 days, which equals 146,000,000 gallons per year.

 4 Q. Have you reviewed the Rate Study prepared by Mr. Williams?
- 4 A. Yes. I believe the Rate Study is an Exhibit that will be filed with the District's PSC Application.
- Q. Have you reviewed the Cost of Service Study prepared by Mr.Williams?
- 8 A. Yes. The Cost of Service Study is contained within the Rate Study.
- Q. Do you concur with the recommendations contained in the Rate
 Study?
- 11 A. Yes. I believe the Rate Study is thorough, detailed, and accurate. I also
 12 believe that Mr. Williams did an outstanding job in preparing the Rate
 13 Study.
- 14 Board Action
- 15 Q. Has the Board taken any action with respect to the proposed rates?
- 16 A. Yes. At the District's regular monthly Board meeting held on July 18,
 17 2023, it unanimously adopted Resolution No. 2023-07-01. This
 18 Resolution approves the rates proposed by Mr. Williams in the Rate Study
 19 and authorizes the Chairman to file an Application with the PSC for

- authority to adjust the District's rates according to the rate schedule shown
- 2 in **Table L** of the Rate Study.
- 3 Q. Will the District be filing this Resolution with its rate Application to
- 4 the PSC?
- 5 A. Yes. The Resolution is an Exhibit to the PSC Application.

6 **Customer Notifications**

- 7 Q. Have you published a notice of the proposed rates in the appropriate
- 8 **newspapers?**
- 9 A. Yes. On Wednesday, September 27, 2023, the Customer Notice was
- published in Elizabethtown's *The News–Enterprise*, which is the main
- newspaper in Hardin County and in the District's service area. Instructions
- were given to the newspaper representative to publish the Customer Notice
- again on Wednesday, October 4, 2023, and again on Wednesday, October
- 14 11, 2023. A copy of the Customer Notice is being filed as an Exhibit to
- the District's PSC Application.
- 16 Q. Did you publish the Customer Notice in any other newspapers?
- 17 A. Yes. Since the District serves some customers in LaRue County and Hart
- 18 County, we published the same Customer Notice in the newspapers in each
- of those counties.

1 Q. What are the names of those newspapers?

- 2 A. The LaRue County Herald-News and the Hart County News-Herald. The
- 3 Customer Notice was published in the LaRue County Herald-News on
- Wednesday, September 27, 2023. Instructions were given to publish the
- 5 Customer Notice again on Wednesday, October 4, 2023, and Wednesday,
- October 11, 2023. The Customer Notice was published in the *Hart County*
- 7 News-Herald on Thursday, September 28, 2023. Instructions were given
- 8 to publish the Customer Notice again on Thursday, October 5, 2023, and
- on Thursday, October 12, 2023.
- 10 Q. Has the District posted the Customer Notice in its office and on social
- media as required by PSC regulations?
- 12 A. Yes. Pursuant to instructions from our attorney, the Customer Notice was
- posted on the drive-up window, on the front door, and in the lobby of the
- District's office building. In addition, it is posted on the District's website
- and Facebook page.
- 16 Q. How many wholesale customers does the District serve?
- 17 A. One (1). The District provides wholesale water service on a daily basis to
- Hardin County Water District No. 1.

1 Q. Has this wholesale customer been notified of the proposed increase in

2 the District's wholesale rate?

10

11

A. Yes. The District's attorney prepared a special notice for our wholesale customer. It is called the "Wholesale Customer Notice." Pursuant to our attorney's instructions, a copy of the Wholesale Customer Notice was sent via email on Monday, September 18, 2023, and also hand-delivered to the General Manager of Hardin County Water District No. 1. A copy of the Wholesale Customer Notice is being filed as an Exhibit to the District's PSC Application.

Allocation of Sewer Expenses

Q. Does the District have any sewer customers?

12 A. Yes. On January 1, 2020, the District started providing wastewater
13 collection service for the community of Glendale in southern Hardin
14 County. Wastewater is collected from the customers in the Glendale
15 community and pumped via a force main line to the City of
16 Elizabethtown's wastewater treatment plant located just a few miles north
17 of Glendale. Elizabethtown treats the District's wastewater pursuant to a
18 contract with the District.

1 Q. How many sewer customers does the District serve?

- 2 A. As of December 31, 2022, which is the end of the Test Year, the District
- served thirty-nine (39) sewer customers and 29,932 water customers. The
- 4 sewer customers comprise approximately one-tenth of one percent of the
- 5 District's total customers.

6 Q. Does the District have a Water Division and a Sewer Division?

- 7 A. Yes. From a financial standpoint, all water income and expenses are
- 8 accounted for separately from the sewer income and expenses. The Water
- 9 Division files a separate PSC Annual Report. Likewise, the Sewer
- Division files a separate PSC Annual Report?

11 Q. Does the Sewer Division have any employees or own any vehicles?

- 12 A. No. Since there are so few sewer customers, it is not economically feasible
- for the Sewer Division to have any employees or own any vehicles.

14 Q. Who operates the sewer system?

- 15 A. The District's Water Division employees operate the Sewer Division. All
- of the sewer customers are also water customers.

17 Q. Does the Sewer Division reimburse the Water Division for the services

provided by the water employees?

- 19 A. Yes. Before the District started providing wastewater collection service,
- we calculated the approximate amount of time that the water employees

would spend operating the sewer system and the estimated vehicle expense. We arrived at the sum of \$24,000 per year or \$2,000 per month. The Water Division and the Sewer Division entered into an Operating and Maintenance Agreement whereby the Water Division would provide certain services for the Sewer Division. Since January 2020, the Sewer Division has been paying the Water Division \$2,000 per month for these services.

8 Q. Are there any expenses which are paid directly by the Sewer Division?

A. Yes. Any expenses incurred by the Sewer Division—such as the treatment cost charged by the City of Elizabethtown and the costs of electricity, chemicals, materials, repairs, etc.—are billed by the providers to the Sewer Division and paid by the Sewer Division. A separate monthly financial report is prepared for the Sewer Division and reviewed by the Board.

Importance of Providing Health Insurance

to Recruit and Retain Employees

- Q. Why does the District provide health insurance for its employees and their families at a very low cost to the employees?
- 18 A. There are several reasons, but the primary ones are: (1) to enhance the well-19 being of our employees and their families; (2) to reduce absenteeism; (3)

- to make sure that the employees and their families are covered by health insurance; and (4) to attract and retain high-quality workers.
- Q. Let's start with the last reason that you mentioned. How does providing full family health insurance coverage help the District attract or recruit new employees and retain its current employees?
- In a highly competitive job market like we have in Elizabethtown and 6 A. Hardin County, it is obvious. Most of the mid-size and larger employers 7 in our area offer health insurance for their employees and their 8 families. Many job-seekers will not even submit an application unless they 9 know that we will provide full family health insurance because they can 10 work elsewhere and obtain this important benefit. Also, some of our 11 valuable, long-time employees have remarked that if the District stopped 12 providing full family coverage, they would be forced to leave and seek 13 14 employment elsewhere.
- 15 Q. Is the District a participant in the State Retirement System through 16 the County Employees Retirement System (the "CERS")?
- 17 A. Yes.

- Q. When you inform an applicant that the District participates in the State Retirement System, doesn't this interest them?
- A. You must be kidding! It did ten (10) to fifteen (15) years ago, but it no 3 longer has any attraction whatsoever. Young persons could care less about 4 whether the District offers a retirement program. Older workers, who are 5 6 seeking employment and who ask about the District's retirement plan, would prefer to work for a private company which does not participate in 7 the State Retirement System. Because of the changes that have been made 8 to CERS in the past ten (10) years or so, the District's participation in it is 9 probably a negative factor instead of a positive one. 10
- 11 Q. Has the District considered increasing the wages of its employees, as
 12 one of the former PSC Commissioners suggested that utilities do, to
 13 enable the employees to pay considerably more towards the cost of
 14 their health insurance?
- No. I have attended several Water Management Training Seminars where 15 A. this has been discussed. If the District were to increase employee wages, 16 however, it would cost the District considerably more money and these 17 would ultimately be borne by additional costs the District's 18 customers. Because the District is a participant in CERS, it would cost the 19 District \$233.40 for every \$1,000 wage increase of an employee because 20

- the employer's contribution rate for 2023-2024 is 23.34% (\$1,000 x .2334)

 = \$233.40). In addition, an employee with a wage increase of \$1,000

 would be required to contribute an additional \$60 to CERS because the employee's contribution rate is 6%.
- Q. Are there taxes and other costs that the District and its employees would be required to pay if the District increased wages, but shifted more of the health insurance cost to its employees?
- A. Yes. Both the employee and the District would be required to contribute
 7.65% of the higher wage amount for Social Security and Medicare. The
 employee would also have to pay federal and state income taxes on the
 higher wage amount.
- Q. Do the employee and the District have to pay these taxes and other 12 costs on the value of the health insurance which the District pays now? 13 No. This is the beauty of an employer paying a lower wage, but paying 14 A. nearly 100% of the cost of the health insurance for its employees. From 15 an employee's viewpoint, the value of the health insurance premiums paid 16 by the employer are excluded from the employee's taxable income and 17 from Social Security and Medicare taxes. Likewise, the employee does 18 not have to pay the CERS contribution rate on the value of the health 19 insurance premiums paid by the employer. From an employer's 20

- viewpoint, the District does not have to pay the 23.34% CERS contribution rate nor the 7.65% Social Security and Medicare tax rate on the value of the health insurance benefits paid by the employer.
- 4 Q. Have you prepared a spreadsheet or table to demonstrate the amount
 5 an employee's wages would need to increase to enable an employee to
 6 pay 22% of the cost of the health insurance premium for single
 7 coverage or 33% of the cost for a family plan, but still receive the same
 8 "take-home" pay as the employee would if the District continued to
 9 contribute the same percentage as it does now?
- Yes. I used the same Bureau of Labor Statistics (the "BLS") percentages 10 A. 11 that the PSC has repeatedly used over the past few years in rate cases. The PSC assumes that the employee should pay 22% and the employer 78% of 12 the cost of health insurance premiums for a single plan for rate-making 13 purposes. The PSC also assumes that an employee who is provided a 14 family health insurance plan by its employer should pay 33% of the cost 15 of the health insurance premium and the employer should pay 67% for 16 rate-making purposes. 17

- Q. What other information or assumptions did you use to prepare your comparative analysis?
- 3 A. Attached as **Appendix D** is the comparative analysis which I prepared with the assistance of the District's Finance Manager, Mandy Isham. We 4 analyzed four scenarios in total: Scenarios One and Two in Appendix D 5 6 assume that Employee A makes \$22.00 per hour and works 2,080 hours 7 per year. Scenarios Three and Four in **Appendix D** assume that Employee A earns \$30.00 per hour and works 2,080 hours per year. The information 8 on page 1 and page 4 of **Appendix D** provides an overview of the assumed 9 monthly costs associated with the benefits offered to the District's 10 employees, and the pages are identical except for the different wage rates. 11
- 12 Q. Please describe Scenario One for the worker who earns \$22.00 per 13 hour and has a single health insurance plan.
- A. Scenario One—on page 2 of **Appendix D**—calculates the total amount paid by the District for two employees: Employee A and Employee B. Each of them is provided a single health insurance plan by the District. On the left side of page 2, it shows Employee A's net pay under the District's current plan where the District pays 98.4% of the cost of the single health insurance plan and other benefits such as dental and vision insurance. The net pay is \$31,023.85 per year. It also shows the amount

- that Employee A pays and the amount that the District pays for each fringe benefit and payroll taxes. It shows the total amount paid by the District for wages and fringe benefits.
- 4 Q. What does the right-hand side of Scenario One on page 2 show?
- It calculates the amount that Employee B's wages would need to increase if the District were to reduce its contribution from 98.4% to 78% of the single plan health insurance and reduce its contribution for vision and dental insurance to the amount used by the PSC for rate-making purposes. It also shows the District's total cost (wages plus payroll taxes, CERS contributions, and other fringe benefits).
- 11 Q. How much will Employee B's wages need to be increased in order for
 12 Employee B to "take home" the same amount of money as Employee
 13 A under Scenario One?
- 14 A. The hourly rate must be increased by \$1.16 per hour or \$2,412.80 per year.
- 15 Q. Does the total amount paid annually by the District for Employee B

 16 increase or decrease under Scenario One?
- 17 A. It increases from \$68,628.66 to \$69,746.01, which is an annual increase of \$1,117.34 despite the fact that the District is paying considerably less for health, dental, and vision insurance for Employee B compared to Employee A.

Q. Why is this?

1

- 2 A. The answer is simple. The District is paying 23.34% to CERS and 7.65%
- 3 to Social Security and Medicare for the higher wages being paid to
- 4 Employee B under Scenario One, which offsets Employee B's additional
- 5 contributions toward fringe benefits.
- 6 Q. Please summarize the difference in Scenario Two presented on page 3
- 7 **of Appendix D.**
- 8 A. Scenario Two takes the same Employee A as the first scenario and
- 9 Employee C, except now both Employee A and Employee C are each
- provided a family health insurance plan instead of a single plan. In this
- scenario, Employee C must be paid \$2.74 more per hour than Employee A
- in order for Employee C to "take home" the same net pay as Employee A.
- 13 Q. How much more does the District have to pay for Employee C than it
- does for Employee A under Scenario Two?
- 15 A. The amount increases from \$76,620.66 to \$79,268.96, which is an increase
- of \$2,648.30 each year, despite the fact that the District is paying
- 17 considerably less for health, dental, and vision insurance for Employee C
- than for Employee A under Scenario Two.

- 1 Q. What is different about Scenarios Three and Four presented on pages
- 2 4 through 6 of Appendix D?
- 3 A. Employee A's wage rate has increased from \$22.00 to \$30.00 per hour.
- 4 Q. Are the results similar?
- 5 A. Yes.
- 6 Q. Were you surprised by the outcome of this study?
- 7 A. No. The calculations confirmed what common sense was telling me. It is
 8 more economical for a utility to pay 100% (or slightly less than 100% as
- 9 the District does) of the health insurance premiums for its employees and
- a lower wage rate than it is to decrease the employer's contribution for
- health insurance to the BLS percentage (78% and 67%) and increase the
- employee's wage rate to offset the increased contributions required by the
- employee.
- 14 Q. Based upon your study and your experience as General Manager of
- the District, which approach to paying health insurance premiums
- and other fringe benefits best serves the District's needs in being able
- to recruit and retain its employees?
- 18 A. In my opinion, it is best for the District, its employees, and the District's
- customers to permit the District to continue to pay most of the health
- insurance premiums for all health insurance plans: employee,

employee/children, employee/spouse, and family. This is more beneficial and economical than the proposal by a former PSC Commissioner to increase an employee's wages in an amount sufficient to enable the employee to contribute 22% of the cost of a single health insurance plan and 33% of the cost of a family health insurance plan. The District should be able to fully recover the cost of providing health insurance benefits to its employees through its rates. Providing all or almost all of the cost of health insurance premiums for its employees is a necessity to recruit and retain employees in today's highly competitive job market.

10 Conclusion

- 11 Q. Does this conclude your testimony?
- 12 A. Yes, it does.

 - Served as Water Representative of Central Chapter on State Board
- Kentucky Infrastructure Authority
 - O Appointed Board Member November 2022 to Present

Appendix B

| Job Title: General Manager | Date: January 2019 |
|---|--------------------|
| Immediate Supervisor: Chairman of the Board | |
| Department: Administration | |

This is an executive position that reports directly to the Board of Commissioners (Board) and is responsible for recommending and carrying out Board policies, directing District operations, controlling District expenditures and overseeing all programs and activities of the District in compliance with the Board and all governmental agencies' rules and regulations. Provides direct supervision to Operations, Business and Engineering functions of the District and ensures implementation of both short and long term organizational plans.

ESSENTIAL FUNCTIONS

Manages and oversees supervision of staff to include; prioritizing and assigning work; developing and conducting performance evaluations; motivating employees conflict resolution; ensuring staff are trained; ensuring that employees follow established policies and procedures; maintaining a healthy and safe working environment; recruiting for vacant positions; developing position descriptions; implementing hiring, and disciplinary actions when necessary.

Develops, plans and recommends to the Board goals, objectives, strategies, policies, procedures, and staffing needs for the District and, upon Board approval, implements same.

Analyzes District programs and assesses needs and opportunities for Board recommendations. Analyzes, reviews, and develops administrative systems and procedures to ensure effectiveness of programs and compliance with internal and external requirements.

Represents the Board and the Hardin County Water District No. 2 regarding contracts with various governmental agencies, community groups and businesses, professional and other organizations.

Responsible for compliance with U.S. and Kentucky Environmental Protection Agencies rules and regulations as well as compliance with other State, Federal and Local laws and regulations.

Attends all regular and special called meetings of the Board and oversees and assists

information documentation and preparations of agendas for same. Presents Departmental and Managers reports to be reviewed by the Board at all Board meetings.

Directs preparation of annual budgets and forecasts to assure the District maintains a financial ability to meet annual operating and maintenance expenses, and comply with all long-term revenue and bond covenants.

Arranges and prepares necessary documentation to obtain grants and short and long-term financing, as needed.

Is responsible for assisting Hardin County Water District No. 2 accounting firm for the preparation of annual audits of the District's financial statements.

General Manager along with Board and legal counsel shall work together for the procurement of special financing to provide long term financing of special projects.

Implements and maintains an effective acquisition/purchasing program for the District that includes: competitive procurement bid preparation; bid evaluation; inventory management; leasing; and contract management.

Develops and implements customer and develops rules and regulations for consistent and non-discriminatory application as well as effective customer service procedures to address water user complaints, questions and comments consistent with Board policies.

Develops and recommends employee policies and maintains effective relations with the District's employees.

Must perform and carry out related duties as required by the Board.

REQUIREMENTS

General Manager must possess knowledge, skills and abilities to carry out the essential functions of the position, to include the following:

- Business management principles and techniques;
- Human Resource management principles and practices;
- Performance management principles;
- Public relations principles;
- Effective customer service principles and practices;
- Budget administration principles;
- Contract administration principles;
- Accounting principles;
- Purchasing/acquisition principles;
- Conducting research and needs assessments;
- Applicable Federal, State, and local laws, rules, ordinances, statutes and regulations as they relate to operation of a water utility;

- Analytical methods and techniques;
- Strategic planning principles;
- General Manager must be proficient in communication, both verbal and written, sufficient to exchange or convey information and to resolve conflict.

TRAINING AND EXPERIENCE

Bachelor's Degree in management, finance, business administration or related field and at least five years of progressively responsible experience in public administration including supervisory experience; or an equivalent combination of education and experience sufficient to successfully perform the essential functions of the position listed above. Engineering Degree and water utility management experience and experience working with regulatory agencies preferred.

LICENSING REQUIREMENTS

Maintain valid Driver's License with driving record acceptable to Board.

Any revision to this Job Description requires Board approval.

ATTN: Shaun Youravich, General Manager

RE: Average Day Demand from Wholesale Connection Hardin County Water District No. 1 (HCWD1)

Dear Shaun,

This letter is to confirm our conversation yesterday. Based on our estimates, HCWD1 will likely utilize approximately 400,000 total gallons per day, on average, from the District No. 2 wholesale water interconnects. This may be from the Longview interconnection or the Patriot Parkway interconnection or both for a total of 400,000 gallons per day, average.

HCWD1 appreciates the partnership we have with District No. 2!

Let me know if you need further information.

Sincerely,

HARDIN COUNTY WATER DISTRICT NO.1

Stephen M. Hogan, PE

COMMONWEALTH OF KENTUCKY BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ELECTRONIC APPLICATION OF)
HARDIN COUNTY WATER) CASE NO. 2023-00247
DISTRICT NO. 2 FOR A GENERAL)
ADJUSTMENT OF RATES)

WRITTEN TESTIMONY OF

TIMOTHY R. DAVIS

MEMBER OF THE BOARD OF COMMISSIONERS

HARDIN COUNTY WATER DISTRICT NO. 2

FILED: September 29, 2023

- 1 Q. Please state your name, position, and business address.
- 2 A. My name is Timothy R. Davis. I am one of the commissioners of Hardin
- 3 County Water District No. 2 (the "District"). For purposes of this rate
- case, my business address is the District's address: P.O. Box 970, 1951 W.
- 5 Park Road, Elizabethtown, Kentucky 42702.
- 6 Q. How long have you served as a commissioner of the District?
- 7 A. Approximately fourteen (14) years. I have served continuously since I was
- 8 first appointed in June of 2009.
- 9 Q. Are you one of the officers of the District?
- 10 A. No, I am just one of the commissioners.
- 11 Q. What is your business background?
- 12 A. I worked and am currently licensed in the Health and Casualty insurance
- field. I have been a licensed Third-Party Administrator for approximately
- thirty-eight (38) years before retiring in 2016. I still maintain my licenses.
- 15 My companies, Employee Benefits Administrators, Inc. and Tim Davis &
- Associates, Inc., were licensed as Third-Party Administrators or TPAs. I
- am also a licensed TPA. The Partners Workplace Solutions Group was an
- insurance agency.
- 19 Q. Where were your companies' offices located?
- 20 A. In Elizabethtown.

1 Q. In general terms, what does a Third-Party Administrator or TPA do? 2 A. My primary business was assisting small, medium, and large size employers in becoming partially self-insured to reduce their risk. This, in 3 turn, reduced medical expenses for the employers and employees. Our 4 goal was to save plan money and "flatten the medical trend" of increasing 5 6 medical expenses. Part of our duties as a Third-Party Administrator was to adjudicate medical claims. We also worked with actuaries to secure and 7 reduce an employer's specific stop-loss and their aggregate stop-loss 8 9 reinsurance premium.

Purpose of Testimony

10

11

12

- Q. What is the purpose of your submitting Written Testimony in this rate case?
- I want to explain the steps that the District has taken to curtail the increasing 13 A. cost of providing health insurance for its employees. These steps include 14 moving from a fully insured health insurance plan—with a traditional 15 group health insurance policy provided by Anthem, United, or similar 16 company—to a partially self-funded plan. In addition, the District has 17 implemented a Wellness Plan. My testimony will explain these steps and 18 19 will also provide more details about the partially self-insured plan and the Wellness Plan. 20

- Q. Were you able to utilize your highly specialized business background and experience to assist the District once you became a member of the Board of Commissioners?
- A. Yes. The District has always been fortunate to have commissioners with varied backgrounds, including real estate, finance, varied business experiences, and, in my case, insurance. Each of us would contribute, when asked, in our specific fields. Of course, none of us could, nor did we, charge the District anything for utilizing our skills and experience to help the District.

10 Q. What, in particular, did you do to assist the District?

11 A. At the request of the District's Board of Commissioners, I served as the Chairman of the insurance committee, reviewed the District's insurance 12 quotes, and helped the District to obtain the best quote possible for health, 13 liability, property and casualty, workers' compensation, and umbrella 14 insurance. At that time, the District was not partially self-insured with 15 respect to health insurance for its employees. Once I retired, I started 16 investigating the feasibility of the District moving from fully insuring its 17 employees. 18

Details of the District's Partially Self-Insured Plan

2 Q. What is a partially self-insured plan?

incur extremely high medical bills.

1

7

- A. It means the District is partially self-insured, or pays all the medical bills incurred by its employees up to a specific reinsurance amount. In addition, the District has an "Aggregate Stop-Loss reinsurance" to prevent the District from incurring a catastrophic loss if several employees were to
- Q. Why did you want the District to consider moving from a fully insured
 medical insurance plan to a partially self-insured plan?
- Cost savings and to implement a real wellness program for the 10 A. employees. As an employer, the objectives in a health insurance program 11 are to lower costs and "flatten the medical trend." Between the years 2016 12 and 2020, medical costs and health insurance costs were trending upward 13 between 7% to 13% each year. If the District had continued with its fully 14 insured health insurance program for its employees, the costs would have 15 dramatically increased. It was at the point where the District was 16 questioning whether it could continue to afford to provide health insurance 17 for its employees and their families. 18

19 Q. Did the District switch to a partially self-insured program?

20 A. Yes, in 2017.

1 Q. Were there any cost savings?

2 A. In the first year, the District saved approximately \$200,000.

3 Q. Have the cost savings continued?

A. Yes, without a doubt. It is substantially less expensive for the District to be partially self-insured than for it to go back to having a fully insured plan with a traditional health insurance company.

7 Q. How does the partially self-insured plan work?

The District utilizes a Third-Party Administrator to adjudicate the medical 8 A. 9 bills incurred by the District's employees. The District is responsible for paying the first \$35,000 per year in medical bills incurred by an employee. 10 Anything beyond this amount is paid by the District's reinsurance 11 In addition, the District purchased aggregate insurance to 12 protect the entire plan from an unusually high year claims event, which 13 actuarially is a lesser amount than the fully insured plan, therefore saving 14 the employer plan money. 15

16 Q. Are there any exceptions?

17 A. Yes, it is possible the District could have employees who have serious
18 medical conditions which require expensive medicine or hospital care.
19 The reinsurance company could place a "laser" or larger specific amount
20 on these individuals.

Wellness Plan

Q. You mentioned that the District also implemented a Wellness
 Plan. Please provide an overview of the District's Wellness Plan.

1

- This is an integral part of the District's Healthcare Plan. The Board of A. 4 Commissioners wants the District to have healthy employees. 5 The 6 Wellness Plan helps facilitate this goal. In addition, the Board incentivizes 7 the District's employees to participate in the Wellness Plan. The District requires each employee to contribute varying amounts toward the cost of 8 the District's Healthcare Plan, based on the employee's family 9 composition. 10
- 11 Q. How does requiring the employees to contribute to their Healthcare
 12 Plan encourage participation in the Wellness Plan?
- The Wellness Plan is entirely voluntary. To encourage participation, the 13 A. District gives each employee a credit for participating in the Wellness 14 For example, just for participating in the Wellness Plan, an 15 Plan. employee receives a credit to their premium. To further incentivize 16 employees to improve their health and to reward "healthy" employees, 17 there are additional credits for an employee. There are five (5) different 18 categories for which additional credits are awarded. These are: blood 19 20 pressure under a certain level; body mass index under a certain level;

glucose under a certain level; LDL cholesterol under a certain level; and if the employee is a non-smoker and a non-nicotine user. An employee can earn credits in any one or all of these categories. Being partially selffunded provides the District an opportunity to lower healthcare expenses and to incentivize its employees to improve their family's health.

6 Conclusion

- 7 Q. Does this conclude your testimony?
- 8 A. Yes, it does.

REFERENCES FOR SCHEDULE OF ADJUSTED VALUES

- A) Salaries & Wages were adjusted to reflect the raises realized during 2022 and 2023 as well as changes to the employee roster. See file "Rate Study Adjustment.xlsx" for additional details.
- B) The Employee Pensions & Benefits were adjusted to account for changes associated with 2023 Salaries, Medical Insurance, Life Insurance, and Unemployment Tax. See file "Rate Study Adjustment.xlsx" for
- C) Effective July 1, 2023, Louisville Water Company increased their wholesale rate from \$2.55 to \$2.63 per 1,000 gallons, or 3.042%. The water purchase adjustment reflects the percent increase (\$989,113 x 3.042%). See file "Rate Study Adjustment.xlsx" for additional details.
- D) The Water District solicited new pricing for the chemicals and an adjustment was made based upon the chemicals used during the test year and the new pricing. See file "Rate Study Adjustment.xlsx" for additional
- E) The current rate study will cost over \$75,000 and the Water District plans to conduct another study during 2025. Therefore, the cost of the study was amortized over two years, or \$37,500 per year.
- F) The depreciation expense was adjusted to reflect an asset service life equal to the midpoint of the ranges recommended in the National Association of Regulatory Utility Commissioners (NARUC) publication "<u>Depreciation Practices for Small Water Utilities</u>" dated August 15, 1979.
- G) The annual debt service payments are shown in Table B. An adjustment was made to reflect the average of the payments for years 2023, 2024, and 2025.
- H) The amount shown in Table B for coverage on the long-term debts is included in the revenue requirement as Additional Working Capital.
- I) The 2022 Annual Report to the PSC reported an "Interest and Dividend Income" loss of \$2,327,904 when the Water District cashed out the investment accounts. The interest and dividend income realized on the accounts that were kept was \$292,443.

Note:

1) During 2014, the KY PSC approved an asset purchase agreement between the Water District and the City of Elizabethtown, Kentucky for the District's purchase of certain water system assets of the City. The agreement requires the District to pay a note to the City for \$8,000,000 based on twenty annual installments of \$400,000 beginning in 2015.

INDEPENDENT AUDITOR'S REPORT

Board of Commissioners Hardin County Water District No. 2 Elizabethtown, Kentucky

Opinion

We have audited the accompanying financial statements of Hardin County Water District No. 2 as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Hardin County Water District No. 2, as of December 31, 2022 and 2021, and the respective changes in financial position and cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (Government Auditing Standards), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hardin County Water District No. 2, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hardin County Water District No. 2's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of Hardin County Water District No. 2's internal control.
 Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hardin County Water District No. 2's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter

As discussed in Note 1 to the financial statements, during the year ended December 31, 2022, the District adopted Governmental Accounting Standards Board Statement 87, Leases, Statement 91, Conduit Debt Obligations, Statement 92, Omnibus 2020, Statement 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32, Statement 98, The Annual Comprehensive Financial Report and Statement 99, Omnibus 2022. Our opinion is not modified with respect to this matter.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Hardin County Water District No. 2's basic financial statements. Schedules I, II, IV, V, VI, VII, VIII and IX are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures,

including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Schedules I, II, IV, V, VI, VII, VIII and IX are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises Schedule III but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 to 8, schedule of proportionate share of the net pension and OPEB liabilities on pages 36 and 37 and schedule of contributions on pages 38 and 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 29, 2023, on our consideration of Hardin County Water District No. 2's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hardin County Water District No. 2's internal control over financial reporting and compliance.

Heartland CPAs and Advisors, PLLC

Elizabethtown, Kentucky

March 29, 2023

HARDIN COUNTY WATER DISTRICT NO. 2 MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) YEAR ENDED DECEMBER 31, 2022

The discussion and analysis of Hardin County Water District No. 2's financial performance provides an overall review of the District's financial activities for the year ended December 31, 2022. The intent of this discussion and analysis is to review the District's financial performance as a whole. Readers should also review the basic financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

- The ending cash and investment balance for the District was \$26.1 million. The balance at December 31, 2021, was \$36.3 million. This reflects a decrease in cash and investments during the year of \$10.2 million.
- The District continued capital construction projects to improve the water system, ensure the future water supply and relocate to a new facility.
- The District invested approximately \$3.6 million in capital assets during the year.

USING THIS ANNUAL REPORT

The basic financial statements report information about the District using full accrual accounting methods as utilized by similar business activities in the private sector. The basic financial statements include a statement of net position; a statement of revenues, expenses, and changes in fund net position; a statement of cash flows; and notes to the basic financial statements.

The **statements of net position** present the financial position of the District on a full accrual historical cost basis. The statement presents information on all of the District's assets, deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases and decreases in net position are one indicator of whether the financial position of the District is improving or deteriorating.

While the statement of net position provides information about the nature and amount of resources and obligations at year end, the *statements of revenues, expenses, and changes in fund net position* present the results of the District's activities over the course of the fiscal year and information as to how the net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. This statement also provides certain information about the District's recovery of its costs. Rate setting policies use different methods of cost recovery not fully provided for by generally accepted accounting principles. The primary objectives of the rate model are to improve equity among customer classes and to ensure that capital costs are allocated on the basis of long-term capacity needs, ensuring that growth pays for growth.

The **statements of cash flows** present changes in cash and cash equivalents, resulting from operational, financing, and investing activities. This statement presents cash receipts and cash disbursement information, without consideration of the earnings event, when an obligation arises, or depreciation of capital assets.

The **notes to the basic financial statements** provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes present information about the District's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies and subsequent events, if any.

ENTITY-WIDE FINANCIAL ANAYLSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$101.2 million and \$102.9 million as of December 31, 2022 and 2021.

The largest portion of the District's net position reflects its investment in infrastructure and capital assets (e.g., land, buildings, vehicles, equipment, transmission and distribution systems and construction in progress), less any related debt used to acquire those assets that is outstanding. The District uses these capital assets to provide services to its customers; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

(Table 1)

| Net position, ending \$ 101,253,424 \$ 102,946,534 |

Operating revenue increased 4.6% as compared to the prior year. Total operating expenses increased 8.3%, which was due to increased labor and benefit costs and more depreciation. The District continues to receive capital contributions through the State of Kentucky, the Federal government, other governments and individual developers.

Capital Assets and Debt Administration

Capital Assets

At December 31, 2022 and 2021, the District had \$88.8 million and \$88.8 million invested in a variety of capital assets, as reflected in the following table:

(Table 3)
Capital Assets (Net of Depreciation)
as of December 31, 2022 and 2021

| | 2022 | 2021 |

District Challenges for the Future

The District continues to be financially sound. However, the current state and national financial climate requires the District to remain prudent.

The District will continue to use careful planning and monitoring of finances to provide quality services to its customers.

Contacting the District's Financial Management

This financial report is designed to provide our customers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives and spends. If you have questions about this report or need additional financial information, contact Shaun Youravich, General Manager, 1951 West Park Road, Elizabethtown, Kentucky 42701, (270) 737-1056.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Brief history - The Hardin County Water District No. 2 was organized pursuant to the provisions of Kentucky Revised Statutes KRS 74.010 and KRS 44.020 in order to provide a water supply for the residents of Hardin County, Kentucky. During the year ended December 31, 2017, the District established a sewer division. The District began supplying sewer service in 2020.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The District follows the accounting policies and procedures set forth by the National Association of Regulatory Utility Commissioners and the guidance provided by the American Water Works Association in *Water Utility Accounting* and is regulated by the Kentucky Public Service Commission. The more significant accounting policies established in GAAP and used by the District are discussed below.

A. REPORTING ENTITY

These financial statements present the District's financial activities. As defined by GASB No. 14, *The Financial Reporting Entity,* as amended by GASB No. 39, *Determining Whether Certain Organizations Are Component Units* the criteria for inclusion in the reporting entity involve those cases where the District or its officials appoint a voting majority of an organization's governing body, and is either able to impose its will on the organization or there is a potential for the organization to provide specific financial benefits to or to impose specific financial burdens on the District or the nature and significance of the relationship between the District and the organization is such that exclusion would cause the District's financial statements to be incomplete. Applying this definition, the District does not include any component units in its reporting entity.

B. BASIC FINANCIAL STATEMENTS

All activities of the District are accounted for within a single proprietary (enterprise) fund. The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The GAAP applicable are those similar to businesses in the private sector. Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity is financed with debt that is solely secured by a pledge of the net revenues.

C. BASIS OF ACCOUNTING

Basis of accounting refers to the point at which revenues or expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied. The proprietary fund financial statements are presented on the accrual basis of accounting. Nonexchange revenues, including intergovernmental revenues and grants, are reported when all eligibility requirements have been met. Fees and charges and other exchange revenues are recognized when earned and expenses are recognized when incurred. Because the District's rates are regulated by the Kentucky Public Service Commission the District accounts for the financial effects of regulation in accordance with

(Continued next page)

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

Governmental Accounting Standards Board (GASB) Statement No. 62, Paragraphs 476-500, Regulated Operations. Accordingly, certain costs and income may be capitalized as a regulatory asset or liability that would otherwise be charged to expense or revenues. Regulatory assets and liabilities are recorded when it is probable that future rates will permit recovery.

D. FINANCIAL STATEMENT AMOUNTS

- 1. Cash and investments The District's cash balances are held at multiple financial institutions. Investments are stated at fair value based on quoted market prices.
- Cash and cash equivalents The District has defined cash and cash equivalents to include cash on hand and demand deposits. The District considers all highly liquid debt instruments (including restricted assets) purchased with a maturity of three months or less to be cash equivalents.
- 3. Restricted Assets Restricted assets consist of demand deposit savings accounts and certificates of deposit. The cost basis approximates market value.
- 4. Materials and supplies Materials and supplies is composed of items used in the capital construction process.
- 5. Accounts Receivable The allowance method is used to record uncollectible accounts. At December 31, 2022 and 2021, accounts receivable was stated net of an allowance for uncollectible accounts of \$85,000 and \$100,000. Bad debt expense for 2022 was \$74,475 and 2021 was \$57,321. The District does not believe there is any credit risk associated with these receivables due to the large customer base and small individual account balances.
- 6. Capital Assets Capital assets in service and construction in progress with an original cost of \$5,000 or more are recorded at historical cost, if purchased or constructed. Assets acquired through contributions from developers or other customers are capitalized at their estimated fair market value, if available, or at engineers' estimated fair market value or cost to construct at the date of the contribution. Maintenance and repairs, which do not significantly extend the value or life of property, plant and equipment, are expensed as incurred. Assets are depreciated on the straight-line method. Depreciation is calculated using the following estimated useful lives:

| | <u>Years</u> |
|--|--------------|
| Source of supply equipment | 15-50 |
| Water treatment plant | 10-40 |
| Transmission and distribution systems | 10-50 |
| Equipment | 3-20 |
| Structures and improvements, including buildings | 10-50 |
| Office furniture, equipment and vehicles | 3-20 |
| Meters | 10-20 |

7. Compensated absences – The District accrues unpaid vacation when earned by the employee.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

- 8. Defining Operating Revenues and Expenses The District distinguishes between operating and non-operating revenue and expenses. Operating revenues and expenses consist of charges for services and the costs of providing those services, including depreciation and excluding interest cost. All other revenues and expenses are reported as non-operating.
- 9. Net Position Net position is divided into three components:
 - a. Net investment in capital assets consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.
 - b. Restricted net position consist of net position that is restricted by the District's creditors (for example, through debt covenants), by grantors (federal, state and local) and by other contributors.
 - c. Unrestricted all other net position is reported in this category.
- 10. Use of Restricted Resources When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the District's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.
- 11. Amortization Bond discounts/premiums and deferred amounts on refundings are being amortized using the interest method over the life of each respective bond issue.
- 12. Capital Contributions Contributions are recognized in the Statement of Revenues, Expenses and Changes in Fund Net Position when earned. Contributions include capacity fees, capital grants, and other supplemental support by other utilities and industrial customers and federal, state and local grants in support of system improvements.
- 13. Long-term Obligations Long-term obligations are reported at face value, net of applicable premiums and discounts.
- 14. Use of Estimates Preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- 15. Pensions and OPEB For purposes of measuring the net pension liability, net OPEB liability, deferred outflows/inflows of resources, and pension and OPEB expense, information about the fiduciary net position of the County Employees Retirement System (CERS) and additions to/deductions from CERS's fiduciary net position have been determined on the same basis as they are reported by CERS except that CERS's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

The District's rates are regulated by the Kentucky Public Service Commission. In accordance with GASB Statement No. 62, Paragraphs 476-500, Regulated Operations, which requires that the effects of the rate-making process be recorded in the financial statements, the District has elected to record a regulatory asset for the net pension liability, net OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB. Accordingly, the District recognizes the actuarially determined contribution as the current year pension and OPEB expense.

16. Impact Of Recently Issued Accounting Principles

Recently Issued And Adopted Accounting Principles

In June 2017, the GASB issued Statement 87, *Leases*. This adoption did not have an effect on the financial statements.

In May 2019, the GASB issued Statement 91, *Conduit Debt Obligations*. This adoption did not have an effect on the financial statements.

In January 2020, the GASB Issued Statement 92, *Omnibus 2020*. This adoption did not have an effect on the financial statements.

In June 2020, the GASB issued Statement 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. This adoption did not have an effect on the financial statements.

In October 2021, the GASB issued Statement 98, *The Annual Comprehensive Financial Report.* This adoption did not have an effect on the financial statements.

In October 2021, the GASB issued Statement 99, *Omnibus 2022*. This statement is effective for periods beginning after December 15, 2021. This adoption did not have an effect on the financial statements.

Recently Issued Accounting Pronouncements

In March 2020, the GASB issued Statement 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. This statement is effective for periods beginning after June 15, 2022. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

In May 2020, the GASB issued Statement 96, *Subscription-Based Information Technology Arrangements*. This statement is effective for periods beginning after June 15, 2022. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

In June 2022, the GASB issued Statement 100, Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62. This statement is effective for periods beginning after June 15, 2023. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

In June 2022, the GASB issued Statement 101, *Compensated Absences*. This statement is effective for periods beginning after December 15, 2023. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

NOTE 2 – ELIZABETHTOWN WATER SYSTEM ACQUISITION

On October 23, 2014, the Kentucky Public Service Commission approved an asset purchase agreement between the District and the City of Elizabethtown, Kentucky, for the District's purchase of certain water system assets of the City. The transaction closed on October 31, 2014. The agreement requires the District to pay a note to the City of \$8,000,000 in twenty annual installments of \$400,000 beginning in 2015. The note carries no specified interest rate, but interest was imputed at a rate of 2.745 percent resulting in a net principal amount of \$6,093,748 and a resulting interest amount of \$1,906,252 over the life of the note (See note 5). The assets acquired were recorded at cost as well as the corresponding accumulated depreciation (See note 4). The transaction resulted in a \$1,000,000 capital contribution from the City and a utility acquisition adjustment of \$194,608 which is presented as a deferred outflow of resources in the Statement of Net Position. This amount is being amortized over 20 years at \$9,730 per year. The unamortized amount at December 31, 2022 and 2021 was \$116,765 and \$126,495.

NOTE 3 – DEPOSITS AND INVESTMENTS

DEPOSITS – Custodial Credit Risk—Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned or that the District will not be able to recover collateral securities in the possession of an outside party. As of December 31, 2022 and 2021, \$18,624,291 and \$14,456,756 of the District's bank balance of \$20,374,291 and \$14,953,756 was exposed to custodial credit risk. For 2022, of the amount exposed to custodial credit risk, \$14,662,941 was collateralized by securities held by the pledging financial institution and \$3,961,350 was uncollateralized. For 2021, of the amount exposed to custodial credit risk, the entire amount was collateralized by securities held by the pledging financial institution.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

INVESTMENTS

At December 31, 2022 and 2021, the District had the following investments and maturities:

| | 12/31/2022 Fair Value | Average Credit Quality/Ratings | Maturities |
|---|---|-----------------------------------|---|
| U.S. Treasury Notes | \$ 5,810,273 | AAA | <1 Year |
| Total Investments | \$ 5,810,273 | | |
| | 12/31/2021 Fair Value | Average Credit Quality/Ratings | Maturities |
| Bond Mutual Funds Bond Mutual Funds Bond Mutual Funds | \$ 3,751,534 12,522,185 5,220,649 | Unrated Unrated Unrated | 4.0 years average5.2 years average6.1 years average |
| Total Investments | \$ 21,494,368 | | |

The funds listed above are not rated. The individual investments within the funds are rated no lower than BBB.

Investment Policies

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Generally, the District's investing activities are under the custody of the District Commissioners. Investing policies comply with the State Statutes. Kentucky Revised Statute 66.480 defines the following items as permissible investments:

- Obligations of the United States and of its agencies and instrumentalities;
- Obligations of any corporation of the United States Government:
- Obligations and contracts for future delivery or purchase of obligations backed by the full faith and credit of the United States or a United States government agency;
- Uncollateralized certificates of deposit issued by any bank or savings and loan institution rated in one (1) of the three (3) highest categories by a nationally recognized rating agency;
- Bankers' acceptances for banks rated in one (1) of the three (3) highest categories by a nationally recognized rating agency;
- Certificates of deposit issued by or other interest-bearing accounts of any bank or savings and loan institution which are insured by the Federal Deposit Insurance Corporation or similar entity or which are collateralized, to the extent uninsured, by any obligations, including surety bonds, permitted by KRS 41.240(4):
- Commercial paper rated in the highest category by a nationally recognized rating agency;

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

- Bonds or certificates of indebtedness of this state and of its agencies and instrumentalities;
- Securities issued by a state or local government, or any instrumentality of agency thereof, in the United States, and rated in one (1) of the three (3) highest categories by a nationally recognized rating agency; and
- Shares of mutual funds, each of which shall have the following characteristics:
 - 1. The mutual fund shall be an open-end diversified investment company registered under the Federal Investment Company Act of 1940, as amended;
 - 2. The management company of the investment company shall have been in operation for at least five (5) years; and
 - 3. All of the securities in the mutual fund shall be eligible investments pursuant to this section.

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The District policy provides that, to the extent practicable, investments are matched with anticipated cash flows. Investments are diversified to minimize the risk of loss resulting from overconcentration of assets in a specific maturity period, a single issuer, or an individual class of securities. Concentration of Credit Risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. U.S. Government securities and investments in mutual funds are excluded from this risk. The District does not have more than 5% or more of investments subject to the concentration of credit risk disclosure in any one issuer. Custodial Credit Risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. No investments are reported at amortized cost. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's investments are level 1 inputs.

NOTE 4 - RESTRICTED CASH

The District has restricted cash for various purposes at December 31, 2022 and 2021 as follows:

| Restricted For | December 31, 2022 | | December 31, 2021 | |
|-------------------|-------------------|------------|-------------------|-----------|
| Debt service | \$ | 2,498,170 | \$ | 2,463,650 |
| Depreciation fund | | 931,064 | | 1,036,697 |
| Escrow | | 75,741 | | 65,433 |
| Construction | | 6,240,093 | | 5,230,614 |
| Customer deposits | | 389,212 | | 436,545 |
| | \$ | 10,134,280 | \$ | 9,232,939 |
| | | | | |

For the years ended December 31, 2022 and 2021, the restricted cash includes \$1,207,394 and \$1,207,394 which represents a debt certificate of deposit which is reported in the Statements of Net Position as a restricted investment due to presentation differences between GASBS 3 and 9.

NOTES TO FINANCIAL STATEMENTS

During the years ended December 31, 2022 and 2021, the District capitalized no interest in either year and expensed \$573,162 and \$609,902 of interest costs.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

NOTE 6 – LONG-TERM OBLIGATIONS

The construction costs of the District's water facilities have been financed by issuance of revenue bonds authorized under Kentucky Revised. All assets of the District are pledged as collateral for these bonds. Information relating to the outstanding bond issues is summarized below:

| lssue | Interest Rate | Face Amount | Bonds Due 12/31/2022 | Bonds Due 12/31/2021 |
|---------------|------------------|----------------|-------------------------|-------------------------|
| 2010 Series A | 2.0% - 4.125% | \$ 5,625,000 | \$ - | \$ 3,190,000 |
| 2012 Series | 1.0% - 3.75% | 6,070,000 | 4,080,000 | 4,295,000 |
| 2016 Series A | 3.875% | 3,400,000 | 3,286,000 | 3,325,500 |
| 2016 Series B | 2.0% - 3.0% | 2,180,000 | 945,000 | 1,165,000 |
| 2016 Series C | 2.0% - 3.0% | 2,430,000 | 925,000 | 1,205,000 |
| 2022 Series A | 1.450% | 2,310,400 | 2,310,400 | |
| | | | \$ 11,546,400 | \$ 13,180,500 |

On January 15, 2021, the District issued into a revenue bond anticipation note to borrow up to \$8 million to be used for capital improvements. The note carries an interest rate of .575 percent. Draws on the loan during 2022 were \$1,708,214 and 2021 were \$5,263,738 for a total of \$6,971,952. Interest on the loan for 2022 was \$40,527 and for 2021 was \$14,182. The loan was paid off in December 2022.

On January 28, 2022, the District issued \$2,310,400 in Refunding Revenue Bonds with an interest rate of 1.45 percent to currently refund \$2,925,000 of outstanding 2010 Revenue Bonds. The net proceeds of \$2,244,950 (after \$65,450 in cost of issuance) and \$699,972 from the District were used to redeem the 2010 bonds in March 2022. The District completed the refunding to reduce its total debt service payments over the next 9 years by \$1,056,359 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$985,892.

Long-term liability activity for the year ended December 31, 2022, was as follows:

| | Balance at ember 31, 2021 | Additions | Reductions | Balance at ember 31, 2022 | Amount Due Within One Year |
|--|---|------------------------------|---|---|----------------------------------|

Under covenants of the bond ordinances, certain funds have been established. These funds and their current financial requirements are presented as follows:

Revenue Fund

All receipts for services are deposited into this fund and, subsequently, disbursed into the following required funds:

Bond and Interest Redemption Funds

There is to be a monthly deposit of an amount equal to 1/12 of the next ensuing principal payment due and 1/6 of the next ensuing interest payment due for the 2012 Series, 2016 Series A, 2016 Series B, 2016 Series C and 2022 Series A and 1/12 of the next ensuing principal and interest payment on the note payable.

Depreciation Fund

The District is required to transfer \$20,295 per month until the fund balance reaches \$272,400 (was fully funded at December 31, 2022 and 2021). Also, \$4,000 per month is deposited for replacement or purchase of short-term assets. This fund also receives the proceeds from the sale of any property or equipment. This fund may be used to purchase new or replacement property and equipment.

Operation and Maintenance Fund

This fund receives, on a monthly basis, sufficient amounts to pay current expenses from the Revenue Fund after the above transfers have been made. This fund is used to pay operating expenditures. This account is funded until it reaches two months of forecasted operating expenses. Any surplus left may be added to the Bond and Interest Redemption Fund.

The District requires new customers to provide a \$60 deposit for initial water service. Current customers in good standing who add additional service locations are not required to pay an additional deposit.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

Bond and note maturities and Sinking Fund requirements in each of the next five years and in five year increments thereafter are as follows at December 31, 2022:

| | | Revenue Bonds | | | Notes | |

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

NOTE 7 - RETIREMENT PLAN

Plan Description

The District participates in the County Employees' Retirement System (CERS), a component unit of the Commonwealth of Kentucky which is a cost-sharing multiple-employer defined benefit plan. CERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Under the provisions of KRS Section 61.645, the Board of Trustees of Kentucky Retirement Systems (KRS) administers the CERS. The CERS issues a publicly available financial report that includes financial statements, required supplementary information and detailed information about CERS' fiduciary net position. CERS' report may be obtained at www.kyret.ky.gov.

Benefits Provided

The system provides for retirement, disability, and death benefits to system members. Retirement benefits may be extended to beneficiaries of members under certain circumstances. Prior to July 1, 2009, cost-of-living adjustments (COLA) were provided annually equal to the percentage increase in the annual average of the consumer price index for all urban consumers for the most recent calendar year, not to exceed 5% in any plan year. Effective July 1, 2009, and on July 1 of each year thereafter, the COLA is limited to 1.5% provided the recipient has been receiving a benefit for at least 12 months prior to the effective date of the COLA. If the recipient has been receiving a benefit for less than 12 months prior to the effective date of the COLA, the increase shall be reduced on a pro-rata basis for each month the recipient has not been receiving benefits in the 12 months preceding the effective date of the COLA. The Kentucky General Assembly has the authority to increase, suspend or reduce COLAs. Senate Bill 2 of 2013 eliminated all future COLAs unless the State Legislature so authorizes on a biennial basis and either (1) the system is over 100% funded or (2) the Legislature appropriates sufficient funds to pay the increased liability for the COLA. No COLA has been granted since July 1, 2011.

Contributions

For the calendar year ended December 31, 2022, plan members were required to contribute 5% of their annual creditable compensation. Participating employers were required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last preceding July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the Board.

The District's contractually required contribution rate for the calendar year ended December 31, 2022, was 21.17 percent for the period January 1 to June 30 and 23.40 percent for the period July 1 through December 31. The District's contractually required contribution rate for the calendar year ended December 31, 2021, was 19.30 percent for the period January 1 to June 30 and 21.17 percent for the period July 1 through December 31. Contributions to the pension plan for the years ended December 31, 2022 and 2021 from the District were \$983,871 and \$837,969. At December 31, 2022 and 2021, the District owed \$132,668 and \$110,638 to the plan for employer and member contributions for December.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At December 31, 2022, the District reported a liability of \$10,645,518 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021 using standard roll-forward techniques. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all, actuarially determined. At June 30, 2022, the District's proportion was 0.147261 percent, which was a decrease of .008123 percent from its proportion measured as of June 30, 2021.

For the years ended December 31, 2022 and 2021, the District recognized pension expense of \$983,871 and \$837,969. At December 31, 2022 and 2021, the District reported its proportionate share of the CERS deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | 2022 | | |
|---|----------------------------------|-----------------------------|--|
| | Deferred | Deferred | |
| | Outflows | Inflows | |
| | of Resources | of Resources | |
| Differences between expected and actual economic experience Difference between projected and actual investment earnings | \$ 11,381 1,448,536 | \$ 94,803 1,175,624 | |
| Changes in proportion and proportionate share of contributions | 140,264 | 357,087 | |
| | \$ 1,600,181 | \$ 1,627,514 | |
| | 20 | | |
| | Deferred | Deferred | |
| | Outflows | Inflows | |
| | of Resources | of Resources | |
| Differences between expected and actual economic experience Changes in actuarial assumptions Difference between projected and actual investment earnings Changes in proportion and proportionate share of contributions | \$ 113,762 132,963 384,324 | \$ 96,154 - 1,704,754 | |
| 3 1 1 | 455,646 | | |

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

The total pension liability in the June 30, 2022 actuarial valuation using standard roll-forward techniques was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation Date June 30, 2022 Actuarial Cost Method Entry Age Normal

Actuarial Assumptions:

Discount Rate 6.25 percent Inflation 2.30 percent

Salary increases 3.30 percent to 10.30 percent, including inflation 6.25 percent, net of pension plan investment expense,

including inflation

The mortality table used for active members was a Pub-2010 General Mortality table, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010. The mortality table used for healthy retired members was a system-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2019. The mortality table used for the disabled members was Pub-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2013 – June 30, 2018.

The long-term expected rate of return was determined by using a building-block method in which best-estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the table below.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

| | | Long-term |
|-------------------|-------------------|----------------------|
| Asset | Target | Expected Real |
| Class | <u>Allocation</u> | Rate of Return |
| Public Equity | 50.00% | 4.45% |
| Private Equity | 10.00% | 10.15% |
| Core Fixed Income | 10.00% | 28.00% |
| Specialty Credit | 10.00% | 2.28% |
| Cash | 0.00% | -0.91% |
| Real Estate | 7.00% | 3.67% |
| Real Return | 13.00% | 4.07% |
| Total | 100.00% | |

Discount Rate

The discount rate used to measure the total pension liability as of the Measurement Date was 6.25%. The projection of cash flows used to determine the discount rate of 6.25% for CERS Nonhazardous and CERS Hazardous assumes that the funds receive the required employer contributions each future year, as determined by the current funding policy established in Statute as amended by House Bill 362 (passed in 2018) over the remaining 29 years (closed) amortization period of the unfunded actuarial accrued liability. The projection of cash flows used to determine the discount rate The discount rate determination does not use a municipal bond rate. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the Annual Comprehensive Financial Report (ACFR).

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

<u>Sensitivity Of The District's Proportionate Share Of The Net Pension Liability To Changes In</u> The Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.25 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25 percent) or 1-percentage-point higher (7.25 percent) than the current rate:

| | 1% | Current | 1% |
|---|---------------|---------------|-------------|
| | Decrease | Discount Rate | Increase |
| | (5.25%) | (6.25%) | (7.25%) |
| | | | |
| District's proportionate share of the net pension liability | \$ 13,305,576 | \$ 10,645,518 | \$8,445,428 |

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position, which has been determined on the same basis as that used by the plan, is available in the separately issued CERS financial report. The financial statements are prepared on the accrual basis of accounting. Member contributions and employer matching contributions are recognized in the fiscal year due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. CERS' report may be obtained at www.kyret.ky.gov.

NOTE 8 – OTHER POST EMPLOYMENT BENEFITS PLAN

Plan Description

The District participates in the County Employees' Retirement System (CERS), a component unit of the Commonwealth of Kentucky and is a cost-sharing multiple-employer defined benefit plan. CERS provides other post-employment benefits to plan members and beneficiaries. The Board of Trustees of Kentucky Retirement Systems (KERS) administers CERS. CERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained at www.kyret.ky.gov.The Kentucky Retirement Systems' Insurance Fund (Insurance Fund) was established to provide hospital and medical insurance for eligible members receiving benefits from CERS. The eligible non-Medicare retirees are covered by the Department of Employee Insurance (DEI) plans. KRS submits the premium payments to DEI. The Board contracts with Humana to provide health care benefits to the eligible Medicare retirees through a Medicare Advantage Plan. The Insurance Fund pays a prescribed contribution for whole or partial payment of required premiums to purchase hospital and medical insurance.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

Benefits provided

For members participating prior to July 1, 2003, KRS pays a percentage of the monthly premium for single coverage based upon the service credit accrued at retirement. Members participating on or after July 1, 2003, and before September 1, 2008, are required to earn at least 10 years of service credit in order to be eligible for insurance benefits at retirement. Members participating on or after September 1, 2008 are required to earn at least 15 years of service credit in order to be eligible for insurance benefits at retirement. The monthly health insurance contribution will be \$10 per month for each year of earned service increased by the CPI prior to July 1, 2009, and by 1.5% annually from July 1, 2009.

Contributions

For the calendar year ended December 31, 2021, plan members who began participating prior to September 1, 2008, were required to contribute 0% of their annual creditable compensation. Those members who began participating on, or after, September 1, 2008 and before January 1, 2014 were required to contribute 1% of their annual creditable compensation. Those members who began participating on, or after, January 1, 2014 were required to contribute 1% of their annual creditable compensation but their contribution is not credited to their account and is not refundable. Participating employers were required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last preceding July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the Board.

The District's contractually required contribution rate for the calendar year ended December 31, 2022, was 5.78 percent of creditable compensation from January 1 to June 30 and 3.39 percent of creditable compensation from July 1 through December 31. The District's contractually required contribution rate for the calendar year ended December 31, 2021, was 4.76 percent of creditable compensation from January 1 to June 30 and 5.78 percent of creditable compensation from July 1 through December 31. Contributions to the OPEB plan from the District were \$197,427 for the year ended December 31, 2022 and \$218,861 for the year ended for the year ended December 31, 2022 and 2021, the District owed \$19,220 and \$30,207 to the plan for contributions for December.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At December 31, 2022, the District reported a liability of \$2,905,703 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2021 using standard roll-forward techniques. The District's proportion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participants, actuarially determined. At June 30, 2022, the District's proportion was 0.147235 percent, which was a decrease of .008113 percent from its proportion measured as of June 30, 2021.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

For the years ended December 31, 2022 and 2021, the District recognized OPEB expense of \$197,427 and \$218,861. At December 31, 2022 and 2021, the District reported its proportionate share of the CERS deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

| | 2022 | | | |
|--|--------------|--------------|--|--|
| | Deferred | Deferred | | |
| | Outflows | Inflows | | |
| | of Resources | of Resources | | |
| Differences between expected and actual economic experience | \$ 292,483 | \$ 666,345 | | |
| Changes in actuarial assumptions | 459,557 | 378,672 | | |
| Difference between projected and actual investment earnings | 541,072 | 423,137 | | |
| Changes in proportion and proportionate share of contributions | 161,743 | 136,924 | | |
| | \$ 1,454,855 | \$ 1,605,078 | | |
| | 20 |)21 | | |
| | Deferred | Deferred | | |
| | Outflows | Inflows | | |
| | of Resources | of Resources | | |
| Differences between expected and actual economic experience | \$ 467,672 | \$ 887,955 | | |
| Changes in actuarial assumptions | 788,480 | 2,765 | | |
| Difference between projected and actual investment earnings | 149,842 | 615,092 | | |
| Changes in proportion and proportionate share of contributions | 235,845 | 1,460 | | |
| | \$ 1,641,839 | \$ 1,507,272 | | |

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return 6.25%, net of OPEB plan investment expense,

including inflation.

Projected salary increases 3.30% to 10.30%, including inflation

Inflation rate 2.30% Real Wage Growth 2.00%

Healthcare Trend Rate:

Pre-65 Initial trend starting at 6.20% at January 1, 2024,

and gradually decreasing to an ultimate trend rate

of 4.05% over a period of 13 years.

Post-65 Initial trend starting at 9.00% at January 1, 2024,

and gradually decreasing to an ultimate trend rate

of 4.05% over a period of 13 years.

Municipal Bond Index Rate 3.69% Discount Rate 5.70%

The mortality table used for active members is Pub-2010 General Mortality Table projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2010. For disabled members, the Pub-2010 Disabled Mortality Table projected with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2013 – June 30, 2018.

The long-term expected rate of return was determined by using a building-block method in which best-estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the table below.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

| | | Long-term |
|-------------------|------------|----------------------|
| Asset | Target | Expected Real |
| Class | Allocation | Rate of Return |
| Public Equity | 50.00% | 4.45% |
| Private Equity | 10.00% | 10.15% |
| Core Fixed Income | 10.00% | 28.00% |
| Specialty Credit | 10.00% | 2.28% |
| Cash | 0.00% | -0.91% |
| Real Estate | 7.00% | 3.67% |
| Real Return | 13.00% | 4.07% |
| Total | 100.00% | |

The projection of cash flows used to determine the discount rate of 5.70% assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 30 years (closed) amortization period of the unfunded actuarial accrued liability. The discount rate determination used an expected rate of return of 6.25%, and a municipal bond rate of 3.69%, as reported in Fidelity Index's "20 –Year Municipal GO AA Index" as of June 30, 2022. Based on the stated assumptions and the projection of cash flows as of each fiscal year ending, each plan's fiduciary net position and future contributions were projected to be sufficient to finance the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on insurance plan investments was applied to all periods of the projected benefit payments paid from the plan. However, the cost associated with the implicit However, the cost associated with the implicit employer subsidy was not included in the calculation of the System's actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the System's trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy. The target asset allocation and best estimates of arithmetic nominal rates of return for each major asset class are summarized in the ACFR.

The projection of cash flows used to determine the single discount rate must include an assumption regarding future employer contributions made each year. Future contributions are projected assuming that each participating employer in each insurance plan contributes the actuarially determined employer contribution each future year calculated in accordance with the current funding policy, as most recently revised by House Bill 8, passed during the 2021 legislative session. The assumed future employer contributions reflect the provisions of House Bill 362 (passed during the 2018 legislative session) which limit the increases to the employer contribution rates to 12% over the prior fiscal year through June 30 2028, for the CERS plans.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

<u>Sensitivity Of The District's Proportionate Share Of The Net OPEB Liability To Changes In The Discount Rate</u>

The following table presents the District's proportionate share of the collective net OPEB liability of the System, calculated using the discount rate of 5.70%, as well as what the District's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.70%) or 1-percentage-point higher (6.70%) than the current rate:

| | 1% | Current | 1% |
|--|--------------|---------------|-------------|
| | Decrease | Discount Rate | Increase |
| | (4.70%) | (5.70%) | (6.70%) |
| District's proportionate share of the net OPEB liability | \$ 3,884,461 | \$ 2,905,703 | \$2,096,596 |

Sensitivity Of The District's Proportionate Share Of The Collective Net OPEB Liability To Changes In The Healthcare Cost Trend Rates

The following presents the District's proportionate share of the collective net OPEB liability, as well as what the District's proportionate share of the collective net OPEB liability would be if it were calculated using healthcare cost trend rates that were 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates.

| | 1% | Current | 1% |
|--|--------------|---------------|-------------|
| | Decrease | Discount Rate | Increase |
| District's proportionate share of the net OPEB liability | \$ 2,160,325 | \$ 2,905,703 | \$3,800,760 |

<u>OPEB plan fiduciary net position</u> – Detailed information about the OPEB plan's fiduciary net position, which has been determined on the same basis as that used by the plan, is available in the separately issued CERS financial report. The financial statements are prepared on the accrual basis of accounting. Member contributions and employer matching contributions are recognized in the fiscal year due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. CERS' report may be obtained at www.kyret.ky.gov.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

NOTE 9 - <u>SELF-INSURANCE</u>

In January 2017, the District implemented a self-insured health insurance plan. Revenues are recognized from payroll deductions for employee dependent coverage and from contributions for employee coverage. Liabilities for unpaid claims are estimated based on a review of claims incurred during the fiscal year but not paid until the following fiscal year. Changes in claims liability during the years ended December 31, 2022 and 2021, were as follows:

| Year Ended | alance at ginning of | Current-yea claims and changes ir | l | Claim payments | E | Balance at end |
|---------------|-------------------------|---|-----|-------------------|----|-------------------|
| December 31, | year | estimates | a | and transfers | | year |
| | | | | | | |
| 2022 | \$ 21,299 | \$1,119,627 | 7 (| \$ 1,050,228 | \$ | 90,698 |
| 2021 | \$ 24,412 | \$1,203,858 | 3 5 | \$ 1,206,971 | \$ | 21,299 |

Claims due within one year at December 31, 2022 and 2021 were \$90,698 and \$21,299. The health care coverage program maintains a policy with a commercial insurance company that covers any claims greater than \$35,000 per year per employee and also covers any aggregate claims greater than \$946,819 per year. For the years ended December 31, 2022, 2021 and 2020, no settlements exceeded insurance coverage.

NOTE 10 - CAPITAL CONTRIBUTIONS

The following schedule details the sources of capital contributions for the years ended December 31, 2022 and 2021:

| Source | 2022 | | 2021 |
|-------------------|------|---------|---------------|
| State of Kentucky | \$ | 29,090 | \$ 132,204 |
| Relocation | | 27,049 | 207,399 |
| Tap Fees | | 595,658 | 419,811 |
| Developers | | 3,308 | 3,126 |
| | \$ | 655,105 | \$ 762,540 |

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND 2020

NOTE 11 - RENTAL AGREEMENTS

The District has entered into agreements to lease space on its water towers to various customers. Rental income during the years ended December 31, 2022 and 2021 was \$95,658 and \$94,135. The following schedule represents future payments to be received. Each agreement provides for optional renewals. The schedule below reflects payments to be received under current agreements and does not include renewals after the current term.

| 2023 | \$ 79,192 |
|-------|---------------|
| 2024 | 46,341 |
| 2025 | 46,341 |
| 2026 | 46,341 |
| 2027 | 46,341 |
| Total | \$ 264,556 |

NOTE 12 - COMMITMENTS AND CONTINGENCIES

The District is subject to various legal actions in various stages of litigation, the outcome of which is not determinable at this time. Management of the District and its legal counsel do not anticipate that there will be any material effect on the basic financial statements as a result of the cases presently in progress.

The District has construction commitments for ongoing projects.

Under COBRA, employers are mandated to notify terminated employees of available continuing insurance coverage. Failure to comply with this requirement may put the District at risk for a substantial loss.

NOTE 13 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The District was insured for workers' compensation, general liability and automobile liability coverage under a retrospectively rated commercial policy.

NOTE 14 - SPECIAL ITEM

During 2021, the District sold its primary office location and moved into a new location.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

FOR THE YEAR ENDED DECEMBER 31, 2022

CERS PENSION

Changes of benefit terms. There were no changes in benefit terms from 2015 through 2022.

Changes of assumptions (as of June 30 of the year measurement date):

2015 – The assumed investment rate of return was decreased from 7.75% to 7.50%. The assumed rate of inflation was reduced from 3.50% to 3.25%. The assumed rate of wage inflation was reduced from 1.00% to 0.75%. Payroll growth assumption was reduced from 4.50% to 4.00%. The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted. The assumed rates of retirement, withdrawal and disability were updated to more accurately reflect experience.

2016 and 2017 – No changes.

2018 – The assumed investment return was changed from 7.50% to 6.25%. The price inflation assumption was changed from 3.25% to 2.30%, which also resulted in a 0.95% decrease in the salary increase assumption at all years of service. The payroll growth assumption (applicable for the amortization unfunded actuarial accrued liabilities) was changed from 4.00% to 2.00%.

2019 – Annual salary increases and annual rates of retirement, disability, withdrawal and mortality were updated based on the 2018 experience study and the percent of disabilities assumed to occur in the line of duty was updated from 0% to 2% for non-hazardous members.

2020, 2021 and 2022 – No changes.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

FOR THE YEAR ENDED DECEMBER 31, 2022

CERS OPEB

Changes of benefit terms. There were no changes in benefit terms for 2018 through 2022

Changes of assumptions (as of June 30 of the year measurement date):

- **2018** The assumed investment return was changed from 7.50% to 6.25%. The price inflation assumption was changed from 3.25% to 2.30%, which also resulted in a 0.95% decrease in the salary increase assumption at all years of service. The payroll growth assumption (applicable for the amortization of unfunded actuarial accrued liabilities) was changed from 4.00% to 2.00%. The municipal bond rate increased from 3.56% to 3.62%.
- **2019** The discount rate was changed from 5.85% to 5.68%. Annual salary increases and annual rates of retirement, disability, withdrawal and mortality were updated based on the 2018 experience study and the percent of disabilities assumed to occur in the line of duty was updated from 0% to 2% for non-hazardous members. The municipal bond rate decreased from 3.62% to 3.13%.
- **2020** The discount rate used to calculate the total OPEB liability decreased from 5.68% to 5.34%. The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2019 valuation process and was updated to better reflect more current expectations relating to anticipated future increases in the medical costs. Also, the June 30, 2020 actuarial information reflects the anticipated savings from the repeal of the "Cadillac Tax" and "Health Insurer Fee", which occurred in December of 2019. The assumed load on pre-Medicare premiums to reflect the cost of the Cadillac Tax was removed and the Medicare premiums were reduced by 11% to reflect the repeal of the Health Insurer Fee. The municipal bond rate decreased from 3.13% to 2.45%.
- **2021** The discount rate used to calculate the total OPEB liability decreased from 5.34% to 5.20%. The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2020 valuation process and was updated to better reflect more current expectations relating to anticipated future increases in the medical costs. The municipal bond rate decreased from 2.45% to 1.92%
- **2022** The discount rate used to calculate the total OPEB liability increased from 5.20% to 5.70%. The municipal bond rate increased from 1.92% to 3.69%.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners Hardin County Water District No. 2 Elizabethtown, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Hardin County Water District No. 2, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise Hardin County Water District No. 2's basic financial statements and have issued our report thereon dated March 29, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Hardin County Water District No. 2's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hardin County Water District No. 2's internal control. Accordingly, we do not express an opinion on the effectiveness of Hardin County Water District No. 2's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hardin County Water District No. 2's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

February 15, 2022

Board of Commissioners

Hardin County Water District No. 2 adopted an Identity Theft Prevention Program in October 2008. The District continually monitors accounts and information in compliance with this policy. For the calendar year of 2021, the staff encountered no known identity theft incidents.

Using the program's guidelines, we have had cases that have raised red flags. These instances have required potential or existing customers to submit additional information, such as a lease or other documentation in order to establish or restore water service at addresses that retain a balance. These cases did not pose an identity theft risk, however the program was key in minimizing potential loss of revenue.

The Department also learned new ways to detect fraudulent activities and counterfeit bills through training conducted by the Elizabethtown Police Department's Detective representative which resulted in upgraded counterfeit detection lights that are located at each station. Additionally, it has become standard practice to verify customers' identities because the prevalence continues to grow. The District has reviewed this policy continually to determine our responding duties to protect our customers.

The staff and management will continue to monitor our program and bring any necessary changes to the Board for their approval.

Respectfully, Amber Pike

Your Water Professionals

NOTICE OF SPECIAL MEETING OF HARDIN COUNTY WATER DISTRICT NO. 2 BOARD OF COMMISSIONERS

DATE: Tuesday, July 26, 2022

TIME: 4:00 p.m. EDT

PLACE: Customer Service & Operations Facility Center

Hardin County Water District No. 2

1951 W Park Rd

Elizabethtown, Kentucky

AGENDA:

- I. Call To Order
- **II.** Recognize Visitors
- III. Read and Approve Minutes
- IV. Financial Reports
- V. Engineering Reports
- VI. Departmental Reports
 - A. Monthly Statistics
 - **B.** Customer Service Department Report
 - C. Public Outreach
 - D. In-House Projects
- VII. Old Business
 - A. Downtown Transmission Main Material Bid Tab
- VIII. New Business
 - A. 2021 Audit
 - B. Tap Fee Proposal
 - C. Payment Processing Services
- IX. Executive Session
- X. Adjourn

/s/ Michael L. Bell Chairman

Hardin County Water District No. 2

1951 W Park Road • P.O. Box 970 • Elizabethtown, KY 42702 Telephone (270) 737~1056 • Fax (270) 737~2301 •

Board of Commissioners: Mike Bell, Cordell Tabb, John Effinger, Morris Miller, Tim Davis

August 2022

REFERENCES FOR SCHEDULE OF ADJUSTED VALUES

- A) Salaries & Wages were adjusted to reflect the raises realized during 2022 and 2023 as well as changes to the employee roster. See file "Rate Study Adjustment.xlsx" for additional details.
- B) The Employee Pensions & Benefits were adjusted to account for changes associated with 2023 Salaries, Medical Insurance, Life Insurance, and Unemployment Tax. See file "Rate Study Adjustment.xlsx" for
- C) Effective July 1, 2023, Louisville Water Company increased their wholesale rate from \$2.55 to \$2.63 per 1,000 gallons, or 3.042%. The water purchase adjustment reflects the percent increase (\$989,113 x 3.042%). See file "Rate Study Adjustment.xlsx" for additional details.
- D) The Water District solicited new pricing for the chemicals and an adjustment was made based upon the chemicals used during the test year and the new pricing. See file "Rate Study Adjustment.xlsx" for additional
- E) The current rate study will cost over \$75,000 and the Water District plans to conduct another study during 2025. Therefore, the cost of the study was amortized over two years, or \$37,500 per year.
- F) The depreciation expense was adjusted to reflect an asset service life equal to the midpoint of the ranges recommended in the National Association of Regulatory Utility Commissioners (NARUC) publication "<u>Depreciation Practices for Small Water Utilities</u>" dated August 15, 1979.
- G) The annual debt service payments are shown in Table B. An adjustment was made to reflect the average of the payments for years 2023, 2024, and 2025.
- H) The amount shown in Table B for coverage on the long-term debts is included in the revenue requirement as Additional Working Capital.
- The 2022 Annual Report to the PSC reported an "Interest and Dividend Income" loss of \$2,327,904 when the Water District cashed out the investment accounts. The interest and dividend income realized on the accounts that were kept was \$292,443.

Note:

¹⁾ During 2014, the KY PSC approved an asset purchase agreement between the Water District and the City of Elizabethtown, Kentucky for the District's purchase of certain water system assets of the City. The agreement requires the District to pay a note to the City for \$8,000,000 based on twenty annual installments of \$400,000 beginning in 2015.

POST-TEST PERIOD CUSTOMERS AND THEIR EFFECT ON REVENUE

Customers at end of Test Period (12/31/2022): 29,932

Customer count as of 09/15/2023: 30,475

Additional Customers: 543 Customers

All additional customers served through 5/8-inch x 3/4-inch meter

Additional Annual Revenue from Additional Customers:

Average monthly usage for 5/8-inch x 3/4-inch meter: 3,600 gallons

Bill for average monthly usage: \$26.81

Revenue = 543 customers x 12 monthly bills x \$26.81 = \$174,693.96

TOTAL ADDITIONAL REVENUE: \$174,693.96

Additional Expenses:

Number of additional gallons produced to serve additional customers = 3,600 gallons x 543 customers x 12 months x 1.1403 (water loss factor) = 26,748,701 gallons

Chemical Cost:

Test Period Chemical Cost \div Gallons of Water Produced = Cost per gallon $$678,241 \div 3,028,159,000 \text{ gallons} = $0.0002240 \text{ per gallon}$ $$0.0002240 \times 26,748,701 = $5,991.71$

Electric Power (Pumping Expense):

Test Period Purchased Power Cost ÷ Gallons of Water Produced = Cost per gallon

 $$981,788 \div 3,028,159,000 \text{ gallons} = $0.0003242 \text{ per gallon}$ $$0.0003242 \times 26,748,701 = $8,671.93$

TOTAL ADDITIONAL EXPENSES: \$14,663.64

TOTAL NET REVENUE FROM ADDITIONAL CUSTOMERS: \$160,030.32
