RE: Case No. 2023-00248
Montgomery County Water District No. 1
Response to Ordering Paragraph No. 6
of the Commission's May 17, 2024 Order

Dear Ms. Bridwell:

In its May 17, 2024 *nunc pro tunc* Order, the Commission noted and corrected two rate errors in its March 4, 2024 Order. The Commission Ordered Montgomery Water District No. 1 (Montgomery District No. 1) to file within 20 days revised tariff sheets containing the approved corrected rates. The Commission directed Montgomery District No. 1 to collect any under collection or issue any refund, over a period of four months, for any difference between the retail water rates placed into effect following the March 4, 2024 Order, and the corrected rates in the May 17, 2024 Order. Montgomery District No. 1 was also directed to submit within 20 days a statement detailing the amounts billed to its retail customers in excess of the rates authorized in the May 17, 2024 Order with totals for each type of charge separately stated.

In response to Ordering Paragraph No. 6 of the May 17, 2024 Order, Montgomery District No. 1 states that it implemented the correct water rates that were contained in Appendix A of the January 16, 2024 Commission Staff Report. Montgomery District No. 1 has only one wholesale water customer that did not purchase water during the test-year and has not purchased water after the new rates were implemented. To show that the correct rate was billed for the over 10,000-gallon water sales, Montgomery District is attaching copy of its customer billing register. For these reasons, there is no over-collections that Montgomery District No. 1 would be required to return to its customers.

Sincerely,

Sandra Morton
Office Manager
