RE: Formal Application to Increase Rates Pursuant to
Purchased Water Adjustment Regulation 807 KAR 5:068

Dear Ms. Bridwell:

The Hardin County Water District (the "District") respectfully requests that the Commission allow for an adjustment to our rates in accordance with 807 KAR 5:068 on Purchased Water Adjustments.

The District was notified by its supplier, Louisville Water Company, that it will increase its wholesale rate by \$0.08 per 1000 gallons. This increase was effective on July 1, 2023. The District intends to pass this increase through to our customers by including an additional \$0.04 per 1000 gallons from the additional water cost of \$46,379 in accordance with 807 KAR 5:068. This rate adjustment will be in effect for all water used on or after October 1, 2023.

Pursuant to the Commission's previous investigation, findings, and order in Commission Cases 2012-00151 and 2011-00461, the District has included its increased electric costs, per 1000 gallons purchased, from the required cost to pump the purchased water from Louisville Water Company into the District's system.

The following documentation is enclosed in support of this application:

- Purchased Water Adjustment Form
- Exhibit A - Letter of Notice of Wholesale Water Rate Increase dated March 14, 2023
- Exhibit B - Purchased Water Adjustment Worksheet
- Exhibit C - Notice to Customers - Schedule of Current and Proposed Rates
- Exhibit D - Affidavit of Notice to Customers
- Exhibit E - HCWD1 Board Resolution Authorizing Proposed Rates

Please contact me if you need additional information.

Sincerely,

Stephen M. Hogan
General Manager
