RE: Surcharge Report for 02/2026  
Original Case No: 2022-00366  
Surcharge Reporting Case No: 2023-00351

Dear Ms. Bridwell,

Per the Public Service Commission's Order in Case No. 2022-00366 regarding the assessment of a surcharge of \$1.72 on each customer bill over forty-eight (48) months for the purpose of water loss reduction, the Commission required certain information from Mountain Water District to be submitted on a monthly basis in order for the Commission to ensure compliance by the District with the intent and purpose of the surcharge expenditures.

The District began billing the surcharge in mid-January, 2024. Please see the e-filed spreadsheet detailing this information for the month of February, 2026 uploaded to Case No. 2023-00351.

The District's Water Loss Report has been uploaded to the case as well. As mentioned in the previous report, the substantial increase in January was due, in part, to an underestimated purchased water billing in December, and that usage was added to the January billing when the meter was actually read on January 30th, which inflated the purchased numbers from the City of Williamson, WV. The February, 2026 report shows a significant reduction of almost 9% in one month.

The District intends to begin the replacement of the Burning Fork water line as listed in the QIIP this spring. We will be petitioning the Commission in the coming weeks for permission to proceed with that item that was approved by the Commission for year three (3) of the District's plan.

Please contact me with any questions or concerns you may have with regard to this filing for the surcharge requirements by phone at (606) 631-6165 or via email at [tolson@mtwater.org](mailto:tolson@mtwater.org).

Sincerely,

Tammy Olson  
General Manager  
Mountain Water District
